毫无疑问，这部作品集中了作者非常大的心力与经历，其笔端之细腻，刻画之精准，无不让人惊叹。如果我们再来回顾一下作者的生平，不难发现，这部作品几乎是作者本人对生平的一次另类回想。这一点上，还真跟《红楼》颇有些神似。“红学”家们通常喜欢琢磨曹雪芹的生平，现在我们的不妨看看福克纳老人家的经历。

二、喧哗与骚动

1897年，福克纳出生在美国南方一个破落地主家庭，正如本书中的班吉、加迪、昆汀等人一样。他的家族在他的曾祖父手上达到顶峰，他曾祖父不仅是南北战争时期的战斗英雄，官至上校，还经营铁路、农场甚至从政。当时福克纳家族可谓良田千顷，黑奴成群。本书中康普生家族的祖上所谓的州长、将军，曾经拥有的众多的田地和黑奴，简直就是福克纳家族光辉历史的放大版。

到了福克纳父亲那一辈，家族已经没落。他的父亲甚至难以找到一份稳定的工作。相反，福克纳的母亲却是一个非常要强的人。在福克纳

的童年，母亲对他的教育非常严格，经常让他在“软弱”和“坚强”中做出选择。这种分裂的痛苦，似乎在这本书中也有体现——当昆汀面对妹妹加迪有辱门风的事实，那种本性的软弱、家族责任感带来的勇气之间的激烈斗争，与当时福克纳的心境必然是有某种联系的。

在福克纳五岁那年，祖父不得不变卖家产，以支持福克纳的父亲莫里去牛津发展。就这样，他们一家来到了牛津，忠心耿耿的黑人女仆（有点像书中的黛西）和祖父、父亲一起支撑着这个摇摇欲坠的破落家庭。

在牛津的生活平淡无奇，家庭、邻居、学校，充斥着他貌似幸福的生活。在祖父的福荫下，小福克纳不仅有白富美邻家小妹，还有一个属于他们家的剧院，可以免费观看各类戏剧。由于天资聪慧，学校的老师也对他青睐有加。

可惜自古以来，文士们似乎都走不出一个“文能穷人”的怪圈，往往被逼上绝路，愤而从事创作。随着年龄的增长，对文学日益感兴趣的福克纳将大量的时间花在了他钟爱的写作和邻家小妹身上。学习成绩下降，当然不可避免。

进入青年时代，福克纳开始接触一些文艺圈的人，甚至包括他后来的经纪人，都是在这个时期结识的。此时他依然不改纨绔的习气，经常穿着豪华的服饰冒充土豪，混迹于密西西比大学的各类活动。但是，就在这时，当初的白富美邻家小妹却嫁给了别人——一个成功人士，当时已经成为上校军官的密西西比大学学长。

这个打击搁一般人身上我想都是不同凡响的，何况是一个破落户公子哥。福克纳进入了迷茫期，先是沉浸在诗与画的意境中，后来又壮志

雄心起，想去参加一战成为英雄。凭借高超的编故事技能和广阔的人脉，他成功突破了身高与年龄的限制，成为了光荣的英国皇家空军的飞行员——但是还没等他学会开飞机，一战就结束了。

文能穷人，没法子，老天就是要把你逼上绝路。

回乡但没衣锦的福克纳只得再次凭借编故事的技能来博得别人的刮目相看，他甚至故意走路一瘸一拐，谎称自己在一战的空战中受伤落下了残疾。最后不论是在学校还是在职场，福克纳都因为桀骜不驯的个性和对诗歌文章的狂热痴迷而遭遇挫折。

但是正是这样反复的不如意和编故事，让福克纳最终走上了创作的道路。1925年，他的第一部长篇小说《士兵的报酬》出版，随后一发不可收，可谓著作等身，生活也顺风顺水。1928年，这本《喧哗与骚动》的初稿问世。

这本书的书名还是个典故——莎士比亚名作《麦克白》中麦克白的台词：“人生犹如痴人说梦，充满了喧哗与骚动，却没有任何意义。”这个富有深意的书名，是不是也是创作此书时的福克纳对自己过往人生的一种自嘲呢？他从出生到走上文学道路，不正是充满着喧哗与骚动吗？

本节最后插一句嘴，后来当初的邻家小妹跟高富帅离婚了，被福克纳成功逆袭。1949年，福克纳还获得了一个文学大奖，就是2012年莫言得的那个奖——诺贝尔文学奖。福克纳也因此拥有了美国乃至世界意识流文学一代宗师的不朽称号。

三、《喧哗与骚动》

让我们回到这部作品。

这本书中，福克纳再一次把地点定位在密西西比州北部的虚拟小镇约克纳帕塔法镇，通过康普生家族的三个儿子和一个女黑奴的内心独白，展现了康普生家族几代的兴衰历程。

首先出场的“我”是班吉，康普生家的小儿子，甚至可以说是书中唯一一个自始至终真性情的形象。为什么会这样呢？因为这个人物有着近乎诡异的特殊性。在旁人看来，他33岁的时候依然只有3岁的智商，甚至于没有语言能力，只能用哭来表达自己的情绪。

在福克纳作品中，利用傻子独白展现故事内容并不少见。在《我弥留之际》中，那个瓦达曼就是个傻子。但是，作者在写瓦达曼的独白时，也是站在一个傻子的角度去描写，出现了诸如“我妈是一条鱼”之类的让人啼笑皆非的话语。但是班吉则不是，虽然时空观念错乱，思维也非常之跳跃，但是他对身边事物有着如常人一样甚至超乎常人的感知能力，只是不知道合理地表达自己的思想。说得潮一点，与其说班吉是一个傻子的形象，倒不如说是人类文学史上塑造的第一个成功的严重孤独症患者形象。

正如很多评论家所说的，班吉的哭给全书一种颓废败落的气氛。同时，没有语言能力的他也让所有人对他没有戒备，在他面前都能展示真实的自己。而他的傻，我倒更愿意用“痴”来形容——都云班吉痴，谁解其中味。

但是就是这样的一个痴人，作者却利用他的视角，将角色一一展开。比如说，中心人物加迪和班吉的母亲卡罗琳。

在班吉面前，加迪的天真善良与母亲的冷血高傲形成鲜明的对比。作为班吉的亲生母亲，卡罗琳太太并没有给人丝毫母爱温存的感觉。她

念念不忘自己“高贵”的身份（其实也是个破落户小姐），对班吉的嫌弃近乎癫狂。不仅自己对班吉漠不关心，唯恐避之不及，甚至看到自己的女儿加迪对班吉亲近都会觉得不妥。甚至班吉的生日那天，班吉因为伸手去摸燃烧的柴火被烫伤而哭泣，她除了感慨自己不得安生日子和咒骂之外，什么都没表示。

相反，作为姐姐的加迪却像母亲一样照顾着班吉。如果说去掉女仆黛尔西这个外人，加迪可以说是家中唯一有女性风采的人物（至于卡罗琳太太，只能用蛇蝎妇人来形容）。这点通过班吉对加迪的依恋就可以知晓。班吉的独白中不止一次地提到加迪身上的香气，让班吉难以忘怀的大树般的香气。一旦加迪说离开，或者表达出离开的意思，都会让班吉痛不欲生。当加迪不在的时候（联系后文，应该是出嫁了），他站在大门口，看着背着书包的女学生。似乎是想起了姐姐加迪，他第一次尝试着喊住她们，试着说话。可是，先天的缺陷却让他只能对着女孩的背影再一次地哭泣。读到这里，想必每个人都会为之动容。

但是在下一个出场的“我”——昆汀的眼中，中心人物加迪却成为了一个巨大的包袱。因为身为“南方贵族”的“大家闺秀”，加迪竟然失去了贞操，怀了两个月的身孕。作为家族的继承人，昆汀难以接受这个现实，加上颓废的父亲带给他的悲观情绪，让他陷入了极度的抑郁。

在人前，他是哈佛学生，家族继承人；在人后，他一方面对接手父亲的烂摊子（实际上几乎就没有摊子）而担忧，一方面为加迪丢尽了家族的脸面而焦虑。在人前，他很勇敢，甚至敢于去和妹妹加迪的情人决斗以捍卫家族尊严；在人后，他不知所措，竟然荒唐到跟父亲谎称自己和加迪乱伦（姜是老的辣，父亲康普生一眼就看穿了谎言），决斗的时候甚至还非常羞耻地失利……

这里，加迪有点像过头的杜丽娘，为了爱情抛开世俗但是过了头。原本班吉眼中那个温存可爱的加迪，渐行渐远。抑或加迪依旧是当初的加迪，这一切又正是我们身为男性与昆汀一样的傲慢偏见所带来的主观色彩呢？

但是我更愿意同昆汀一样相信，是这个畸形的家庭导致了这一切。父亲的颓废，母亲的孤傲，整个家庭没有一点温存，除了善良的加迪。这样，兄弟们对于加迪的依赖可想而知。而昆汀手忙脚乱的乱伦谎言，是不是一种另类的俄狄浦斯情结在作怪呢？

换个角度说，父母的消极情绪，让原本就内心软弱的继承人昆汀没有执掌家族的信心和勇气；而父母的冷漠，让青春靓丽的加迪在爱情中迷失了方向和价值观。当这两者结合到一起，昆汀对家族事业绝望，加迪则对这个行尸走肉的哥哥感到失望。最终，昆汀只能用结束自己的生命来求得内心的安宁，以躲避充满喧哗与骚动的人生。

然而这一切，又都和接下来的“我”——杰生似乎关系不大。杰生出场后一句话就显示了他的秉性——“当过婊子，就一直是婊子”。

杰生是家中次子，用咱中国人的俗话说，就是最不讨人喜欢的小二子。有人说，杰生是家中唯一健全的男性，却不去拯救自己的家族，不去拯救自己的哥哥和妹妹。确实，昆汀有抑郁症，班吉有孤独症，相比而言，也就杰生是个心智健全之人。福克纳为自己塑造了这么个人物而感到非常自豪，正如他所说：杰生是一个最最邪恶的形象。有评论家更是有鼻子有眼地指出了杰生的六宗罪：自私、刻薄、贪婪、欺诈、仇恨心理和冷酷无情。其实早在班吉独白的时候，就已经可以看出杰生的冷漠与自私。

这段独白里头自然也少不了加迪的戏份。加迪生了个私生女，取名叫昆汀（多么大的讽刺啊），寄养在杰生家中。但是这个奇葩竟然借着加迪对女儿的思念敲诈勒索，一百块只让加迪见女儿一分钟。最气人的是，还仅仅是女儿在车上，让她透过车窗这么一瞥。也就是说，这个人身上体现的不仅仅是一种对金钱的强烈欲望和迷恋，更有一种想要利用别人的索求来折磨人的变态思想。这样的例子，在书中比比皆是。而我想说的是，这个可恨之人身上，也有太多的可怜之处。

前面我说过，杰生相比而言是家中心智最健全的儿子。但是，也只是相比而言。首先，他身为次子，上有家族继承人昆汀，下有有辱门风的妹妹和痴弟弟班吉，加上父母本身的冷漠态度，家中对他关怀之少可想而知。当家人把钱拿去给哥哥上学，忙着拿钱让加迪赶紧嫁人的时候，也确实让他感受到了前所未有的冷漠。而对家中最最温存的加迪而言，哥哥昆汀是长子，弟弟班吉又那么脆弱，在感情的给予上，无论怎么说杰生都是欠缺的。

在前面的独白中我们就能知道，自幼年起，杰生就是个另类。父母时不时地争吵，这时候母亲总是以杰生为骄傲。相反，父亲则总是将错误归咎于杰生。这样，母亲的孤傲自然而然地灌输给了杰生，抑或杰生生来就遗传了母亲的性格。母亲这种口头上的、碰撞中无奈的赞许，竟然成为了杰生童年的美好记忆。这样，儿时杰生几乎成了母亲的监视者，让兄弟姐妹们都几乎活在随时被杰生告发的担心之下。这样的成长环境，长大了不变态才叫奇怪。

但是，这样的变态心理真的是杰生最真实的内心吗？福克纳作为一代文豪，如果仅仅是创作出一个十恶不赦的恶人，那么绝对有失他文豪的身份。在父亲康普生逝世后，家里的担子落在了杰生身上。这时候，家里已经一贫如洗，哥哥去哈佛，妹妹嫁人，都花去了不少的费用，而

他则一个子儿都没见到。虽然充满了牢骚，但是他依然守护着这个家。虽然带着不情愿，但他还是抚养了小昆汀和班吉，尽管他嫌弃妹妹的沉沦，尽管他嫌弃班吉是个傻子（母亲卡罗琳也不愿意完全放弃这个孩子，直到她去世，杰生才将班吉送到精神病院）。

或许他真的像有些评论家说的那样，自私、刻薄、贪婪、欺诈、仇恨心理和冷酷无情。但是，这些也都是在成长和压力中被逼出来的，或者说没有这些，他们一家真的就得流落街头了。但是，杰生依旧没能挽回这个家族，可能也是他有意而为之。杰生没有后代，他和昆汀共同成为了家族荣光下的最后一代——小昆汀成年后，也远走高飞了。

至于黑奴黛西，我倒更想把她当作福克纳的一次致敬，向千千万万淳朴的劳动人民致敬。回想福克纳的生平，当他家迁居牛津之时，也有一个忠心耿耿的女黑奴与他的父亲、祖父一起撑起整个家。

可能会有人觉得我这样说有点“土”。但是不得不说，黛西是整部书中，最能给人宁静安详之感的形象。黛西为康普生家族服务数十年，看惯了风生水起，看淡了人生离合。她虔诚地信仰基督教，充满爱心和同情。同时她也是整个故事中除了加迪之外对班吉最好的，在有些方面甚至有过之而无不及。

如果只有冷酷的杰生而没有热心的黛西，康普生家族或许连这最后一代都撑不下去。关于黛西更多关键点，我更希望把她留到下一节去说。

故事还有个附录，是时隔十六年之后福克纳添加的。这里头，福克纳通过单独阐述加迪的沦落，渲染了整个故事的主旨。

既然都说到这了，那么这个故事，究竟要告诉我们什么呢？

四、喧哗与骚动！

“人生犹如痴人说梦，充满了喧哗与骚动，却没有任何意义。”

按照福克纳本人的说法，《喧哗与骚动》是一个关于“失落的天真”的故事。但是很多人却说仅仅一个“失落的天真”并不能概括这本书的主题。

对这些人，我只想说，拜托，福克纳才是原作者可好？

何谓“失落的天真”？我对基督教不了解，但是透过书中的细节，隐约可以感到这句话富含了一些基督教思想。但是，如果我们跳出基督教文化这个窠臼，去思考麦克白的那句台词和这句“失落的天真”，难道就不会领悟到一丝禅机吗？

佛教说，人生八苦：生、老、病、死、爱别离、求不得、怨长久、放不下。如此一看，充满着“喧哗与骚动”的康普生一家把人生八苦占齐了。而他们家族的破落，更是一个偶然的必然。说偶然，是因为畸形破落家庭教育出了性格扭曲的子女；说必然，是因为大势所趋，这样的庄园主家庭是必然湮没于历史潮流中的，出现康普生夫妇这样的畸形夫妻也存在着必然。

因因果果，果果因因。

既然话都说到这份儿上了，我们不妨更深入地以中国文化的角度去思考这本书。如果说，人本性是善良的，这个善良的本性，或许就是所谓的天真。在这样的一个潮流下，无数的因，造就了天真失落的果。

这又正如儒家亚圣孟子的“性善论”，我们每个人都可以成为尧舜一样的圣贤，因为我们每个人都有善良的天性。人皆有恻隐之心，人皆

有羞恶之心，人皆有恭敬之心，人皆有是非之心。恻隐之心是仁的端倪，羞恶之心是义的端倪，恭敬之心是礼的端倪，是非之心是智的端倪。

正如刻薄的杰生也抚养了小昆汀（恻隐），沉沦的加迪也用取名的方式纪念了保守的昆汀（羞恶），软弱的昆汀也对家族的荣光念念不忘（恭敬），孤傲的母亲也不愿意让班吉离开家去精神病院（是非）。

或许这样类比有些牵强，但是，孟子还有一句对“性善论”的补充，则能与福克纳的“失落的天真”相对应。孟子说：“学问之道无他，求其放心而已矣。”意思就是说，儒家的学问没什么其他的，就是找到“放心”罢了。何谓“放心”？“放心”，就是指“迷失的善心”。迷失的善心，失落的天真，要我说，就是一个意思。

既然我们每个人生来就是善良（天真）的，那为什么会有迷失的善心，失落的天真？就像书中的人物一样，杰生刻薄寡恩，加迪甘心沦落，昆汀软弱怯懦？

东方的孔子告诉我们，“性相近也，习相远也。”（人的天性是相近的，但是后天的影响导致了人们的善恶差异。）而福克纳，则用这个故事告诉我们，正是后天的人生充满了喧哗与骚动，让我们失落了原本的天真。唯独心智三岁的班吉，恰恰因为封闭保留了几乎最原始的天真，并且成为了一面“道德的镜子”，让故事中的每个人都能展现最接近真实的自己。正所谓一都云班吉痴，谁解其中味！

让我们再回过头来，为什么书中的黛西依旧善良和蔼？为什么似乎只有她这个普普通通的黑奴才能远离人生的喧哗与骚动？她并没有班吉的自我封闭，也经历了康普生家族的风风雨雨。我认为，这其中的原因

就在于一信仰。

书中不止一次地提到了黛西对于基督教的信仰，也不止一次地暗示了康普生家族成员对信仰的迷失。这方面的细节，就留给读者们自己去慢慢挖掘和思索吧。

或许，福克纳并不是一个虔诚的基督徒，这本书也当然不是宣扬基督教，而是告诉我们，拥有一个良好的信仰，才能摆脱人生的喧哗与骚动，不让自己的天真失落善心迷失。正如《心经》上所说的：“依般若波罗蜜多故，心无挂碍，无挂碍故，无有恐怖，远离颠倒梦想，究竟涅槃。”

五、喧哗与骚动？

回到我们今天的现实，信仰迷失也正是转型中的中国面临的问题之一。读者们，你们的生活，是否充满了喧哗与骚动呢？

何志浩

2013年9月书于安徽

1928年4月7日

穿过栅栏，透过盘绕的花枝，我看见他们正在打球。他们朝插着旗子的方向走来，我沿着栅栏往前走。卢斯特在开着花的树下的草地找着什么东西。这时，他们把旗子拔出来，开始打球了。然后，他们又把旗子插回去，走到高地上，这个打一下，那个打一下。然后他们继续往前走，而我也沿着栅栏走，他们停下，我也停下，我透过栅栏往外看，卢斯特则在草丛里寻找着什么东西。

“看这边，加迪1。”他打了一下。然后他们穿过草地。而我，就那样贴在栅栏上，看着他们走远。

“你听听，你听听，”卢斯特说，“你真能耐啊，都三十岁了，还那副模样，害得我大老远跑去城里给你买蛋糕。闭嘴，别哼唧了。你还不快来帮我找钱，我今晚可是要用它去看表演的。”

他们穿过草地时，还会偶尔打两下。我沿着栅栏往回走，走到插旗子的地方。那旗子在明亮的草地和树木之上迎风招展。

“来，”卢斯特说，“这儿已经找过了。他们暂时也不会回来。走，我们下河去，赶在那帮黑鬼之前找到它。”

那红红的旗子在草地上方飘荡。然后，一只鸟儿从斜方向飞过来停在上面，这时，卢斯特扔了块东西过去。旗子在明亮的草地与树丛之上迎风招展。而我紧紧贴着栅栏。

“别吵了，”卢斯特说，“他们不到这边来，我也没办法呀。你要不闭嘴，妈就不给你过生日了。你要是不闭嘴，知道我会怎么样吧。我要把蛋糕全部吃光，连蜡烛也一起吃了。走，我们去河边，我要去找我的钱。说不定我们还能在那儿捡到球呢。这儿，他们在这儿呢。在那边，你看。”他走到栅栏边上，伸手指着，“看见他们了吧。他们不会回这儿来了。走吧。”

于是我们沿着栅栏走，走到花园的栅栏边，我们的影子映在栅栏上，在那上面，我的影子要比卢斯特的高。我们走到口子上，然后穿了过去。

“等一下，”卢斯特说，“你又挂到钉子了。你哪一次从这儿钻过不

挂在钉子上啊。”

加迪把我的衣服解了下来，然后我们就钻过去了。“莫里舅舅交代过，不能让别人看见我们，所以我们最好弯着腰走。”加迪说，“弯下去啊，班吉。像这样，看。”然后，我们弯下身，穿过了花园，花儿从我们身上刮过，沙沙作响，土地硬邦邦的。我们从栅栏上翻过去，几只猪在那里胡乱嗅着，发出哼哼的声音。“我想它们是因为其中的一个伙伴被宰了，在那儿伤心呢。”加迪说，“土地硬邦邦的，是被翻过的，还看得到土块呢。”

“把手放进包里，不要拿出来。”加迪说，“不然它们就会被冻僵。你也不想它们在圣诞节冻僵吧。”

“外面太冷了，”弗什说，“你不要出去了。”

“什么事？”妈妈说。

“他想出去。”弗什说。

“那就让他去吧。”莫里舅舅说。

“太冷了，”妈妈说，“他最好待在屋里。本杰明，别帮他说话了。”

“他冻不坏的。”莫里舅舅说。

“你，本杰明，”妈妈说，“如果你再这样，就到厨房去。”

“妈妈说今天不让他进厨房，”弗什说，“她还说要把所有过节用的东西都做出来。”

“让他去吧，卡罗琳，”莫里舅舅说，“我看，你都快为他操心出病

来了。”

“我知道，”妈妈说，“有时候我也在想，他就是老天派来惩罚我的。”

“好了，好了，”莫里舅舅说，“你要打起精神来。我去给你做点儿棕榈酒。”

“这有多烦人，”妈妈说，“你难道还不知道吗？”

“就会好的。”莫里舅舅说，“把他裹严实些，再带他出去待上一时半会儿吧。”

于是，莫里舅舅走了，弗什也走了。

“求你别吵了，”妈妈说，“我们已经准备尽快带你出去了。我可不想你生病。”

弗什穿上我的套鞋和外衣，又拿起我的帽子，和我们一道出去了。这时，莫里舅舅正在将瓶子放进餐厅的餐柜里。

“就让他在外面待上半小时吧，小子，”莫里舅舅说，“看住他，别让他跑出院子。”

“好的，先生。”弗什说，“我们绝不会让他跑出去的。”

说着我们出了门。屋外的阳光有些冰冷，却也明亮。

“你要去哪儿呢？”弗什说，“不会想要去镇上吧。”

我们一路穿过沙沙作响的树叶，走到冰冷的大门口。

“你最好把手放进兜里。”弗什说，“放在门上会冻坏的，到时候看你怎么办。不过，你为什么乖乖在屋里等他们呢？”他说着把我的手放进兜里。我能听到他踩过落叶时发出的窸窣声，还可以闻到那沁凉的寒气，连门也是冰冷冰冷的。

“这里有山核桃。哇哦，什么东西蹿到树上去了？快看，是一只松鼠，班吉。”

我已经不觉得大门有多冷，却依然能闻到明晃晃的冷气。

“你最好把手放进兜里。”

我听到加迪的脚步声。接着，她跑了起来，任凭书包在背后晃动。

“你好啊，班吉。”加迪招呼道。然后，她推开大门走进来，弯下身子。加迪身上有一种叶子般的味道。“你是来接我的吗？”她说，“你是来接加迪的吗？你怎么能让他把手冻得这么冷呢，弗什？”

“我让他把手放进兜里，可他就是不听，”弗什说，“偏偏要扒在门上。”

“你是来接加迪的吗？”她搓着我的手说，“你要对加迪说些什么呢？”加迪的身上有树木的味道，她告诉他们我们已经睡了的时候，我也会闻到这种味道。

“你在发什么牢骚呢？”卢斯特说，“我们走到分岔口就又能看到他们了。来，给你一枝曼陀罗。”说着，他递给我一枝花。接着，我们径直穿过栅栏，朝空地走去。

“什么？”加迪说，“你要跟加迪说些什么？他们知道他出来了吗，

弗什？”

“他们拿他没办法，”弗什说，“他不停地折腾，他们只好让他出来，然后他就直接来这儿，往门外边望。”

“想对我说什么呢，”加迪说，“你是不是以为我放学回家那天就是圣诞节？是这样想的吧。后天才是圣诞节。圣诞老人，班吉。圣诞老人。来，我们一起跑回家，暖暖身。”她说着拉起我的手，我们一路踩过那些明亮的树叶，发出窸窣声。我们跑上台阶，从明亮的冷气，跑进阴暗的冷气里。这时，莫里舅舅还在往餐柜里放瓶子。他招呼过加迪。

加迪说：“带他去烤烤火，弗什。班吉，跟弗什一起去。”她说，“我马上就来。”

于是，我们来到火炉旁。

妈妈说：“他冷吗，弗什？”

“不。”弗什说。

“把他的外衣和套鞋都脱了，”妈妈说，“我给你说过多少次，不要让他穿着套鞋进屋。”

“知道了。”弗什说，“好，站好了。”于是他脱下我的套鞋，然后帮我解开外衣。

这时，加迪又说：“等一下，弗什。妈妈，让他再出去一下吧。我想带他出去。”

“最好还是留他在这儿。”莫里舅舅说，“他今天已经在外面待了很

久。”

“依我看，你们最好都留在家里，”妈妈说，“黛西说，天气越来越冷了。”

“哦不，妈妈。”加迪说。

“不要紧，”莫里舅舅说，“她整天待在学校，也需要点儿新鲜空气。去吧加达斯²。”

“就让他去嘛，妈妈，”加迪说，“求你了，你也知道，不然他会哭的。”

“你也知道他会哭，为什么还要在他面前提起呢。”妈妈说，“你进来干什么，就是为了让他在再有理由让我操心吗？你也在外面待得差不多了。我看你还是坐在这儿陪他玩吧。”

“就让他去吧，卡罗琳，”莫里舅舅说，“一点小小的寒冷伤不到他的。记住，你可别把自己累坏了。”

“我知道，”妈妈说，“可是，没有人知道我多么害怕圣诞节。谁也不知道。我可不是天生就能吃苦耐劳的人。为了杰生和孩子们，我也希望自己能更加坚强。”

“你一定要彻底放宽心，别让他烦扰你，”莫里舅舅说，“去吧，你们两个。可这一次不要待得太久。不然，你们的妈妈会担心。”

“知道了，叔叔。”加迪说，“走吧，班吉，我们又要出去咯。”她说着帮我扣好扣子，然后我们一起朝门外走去。

“套鞋都没穿，你就要把小家伙带出去吗？”妈妈说，“你是要把他弄生病，让全家人不得安宁吗？”

“我忘了，”加迪说，“我以为他穿着鞋呢。”

于是我们又走回去。

“你想想，”妈妈说，“有一天我不在了，你就要为他操心了。”她边说边给我穿好了鞋。而在妈妈给我穿鞋的同时，弗什站在旁边也跟着说：“好，站好了……抬脚……”

“过来亲亲妈妈，本杰明。”妈妈唤我。

加迪把我带到妈妈的椅子前，妈妈捧起我的脸，然后将我的脸贴在她身上。

“我可怜的孩子，”她说着放开我，“你和弗什要照顾好他，亲爱的。”

“知道了。”加迪说。

然后我们就又出去了。

加迪冲弗什说：

“你就不用去了，弗什，我会看着他。”

“那好吧，”弗什说，“外面太冷了，出去也没意思。”于是他走开了。

我们则在大厅里停下来。加迪跪下身，双手环住我，将她冰冷而明

亮的脸贴在我的脸上。她闻起来，有股树叶的味道。

“你才不是可怜的孩子呢，对吧。你还有你的加迪呢，是吧。”

“别在那儿喋喋不休了，”卢斯特说，“吵吵闹闹的，都不觉得害臊。”这时，我们已经走到马车房，马车就停在里面，它还换上了一个新轮子。

“快，上车，上去坐着别动，等你妈妈来，”黛西说着将我推进马车里。T.P.则拉着缰绳。“我简直不明白，为什么杰生不买一辆新马车，”黛西说，“总有一天，要是你们都坐上去，这东西没准儿就会散架。看看那些破轮子。”

这时，妈妈出来了，她将面纱放下来，遮住脸，还戴了几朵花。

“罗斯库司去哪儿了？”她说。

“他的手臂今天动弹不得，”黛西说，“T.P.也驾得不错。”

“这可说不准，”妈妈说，“你们每个星期给我换车夫都做得出来。天知道，我可是没怎么过问。”

“卡罗琳太太，您也知道，罗斯库司的风湿病很严重，干不了什么活。”黛西说，“您先上车来吧。T.P.驾车也不比罗斯库司差。”

“我可不放心，”妈妈说，“还带着孩子呢。”

黛西走上台阶去：“您说他还是孩子，”她说拉着妈妈的手，“他都有T.P.那么大了。您要走，就快点上来。”

“我还是不放心。”妈妈一边说着，一边被黛西扶着上了马车，“不

过，话说回来，或许出个什么事对我们大家都好。”妈妈说。

“您怎么能这么说呢，快别瞎说了，”黛西说，“你知道一个十八岁的黑人要驱动这‘小马后’有多不容易吗？他和班吉加起来都没有‘她’那么大。可别让‘小马后’给挣脱了，听见了吗，T.P.？要是你驾车不能让卡罗琳太太满意，我就要让罗斯库司来教训你了。他可是还动弹得了的。”

“知道了。”T.P.说。

“我就知道要出点什么事。”妈妈说，“本杰明，别闹。”

“给她一枝花，让她拿着，”黛西说，“她就想要那个。”于是她把手伸了过去。

“不，不，”妈妈说，“你会把它们糟蹋了的。”

“您拿好了，”黛西说，“我抽出一枝给他。”她给了我一枝花，然后把手缩回去。

“走吧，不然昆汀看了也会跟着去的。”黛西说。

“他在哪儿？”妈妈说。

“他在家陪卢斯特玩，”黛西说，“出发吧，T.P.，按照罗斯库司嘱咐你的那样来驾车。”

“好的，”T.P.说，“驾，‘小马后’。”

妈妈说：“不让昆汀去？”

“当然。”黛西说。

马车一路颠簸而行。“我不放心把昆汀留下，”妈妈说，“我看我最好还是不要去了，T.P。”我们穿过大门，马车也不再颠簸。T.P.用鞭子敲着“小马后”。

“在跟你说话呢，T.P。”妈妈说。

“要让她跑起来，”T.P.说，“别等到我们还没有返回车棚，她就睡着了。”

“掉头，”妈妈说，“我不放心把昆汀留下。”

“这里不能掉头。”T.P.说。过会儿，马车就开上了宽敞的路面。

“这里总可以掉头了吧，”妈妈说。

“那好吧。”T.P.说。于是我们开始掉头。

“T.P.，你小心！”妈妈抓着我的手说。

“不管怎么说，我还是掉转头了。”T.P.一声“吁，小马后”，我们就停了下来。

“我看你是要把我们掀翻。”妈妈说。

“接下来，您想怎么样呢。”T.P.说。

“你那样掉头，我很害怕。”妈妈说。

“起来，小马后。”T.P.说。于是我们又继续前行了。

“我就知道，我走以后，黛西不会照看好昆汀，”妈妈说，“我们必须快点回去。”

“快，驾。”T.P.说着用鞭子打着“小马后”。

“T.P.，你……”妈妈抓着我。我听见“小马后”蹄踏的声音，那明晃晃的身形从我们身边稳稳地滑过，它们的影子也在“小马后”的背上扫过。它们像车轴那明亮的顶部一样，向后移动。接着，一边的景色不动了，那里是一个竖着大兵像的岗亭，而另外一边景色还在平稳滑过，只是速度慢了下来。

“你们要去干什么？”杰生问。他双手插在兜里，耳朵上还夹着一支铅笔。

“到公墓去。”妈妈说。

“好吧，”杰生说，“我又没有不让你们去，对不对？你就是为这来找我，没别的事了啊？”

“我知道你不想去，”妈妈说，“可要是你也一起去的话，我就放心多了。”

“你有什么不放心的呀，”杰生说，“爸爸和昆汀都不能伤害你了。”

只见妈妈把手帕伸到面纱之下。“别这样了，妈妈。”杰生说，“难道你想让这个大傻瓜当众大吼大闹吗？赶车吧，T.P。”

“走咯，‘小马后’。”T.P.说。

“我这是造了什么孽啊。”妈妈说，“反正，过不了多久，我也随你

爸爸去了。”

“好了。”杰生说。

“吁——”T.P.说。

杰生又说：“莫里舅舅用你的名义开了五十块的支票，你要怎么办？”

“别问我，”妈妈说，“我还能说什么呢。我只是不想给你和黛西添麻烦。很快我就不在了，就该轮到你了。”

“快走吧，T.P。”杰生说。

“走咯，‘小马后’。”T.P.说。

车两边的形体又再往后滑动，明晃晃的，动作快而平稳，就像加迪说“我们就要睡着了”时的场景一样。

“你个臭小子，成天只知道哭。羞不羞啊。我们穿过牲口棚，畜栏的门都是敞开的。这会儿，你可不能骑小花马咯，”卢斯特说，“这泥土地还算干燥，上面还有许多尘土。屋顶也垮了下来。倾斜的窗户上满是蛛网丝。你干吗要从这边走呀，是想让球飞过来砸你的脑袋吗？”

“把你的手放在衣兜里。”加迪说，“不然它们会被冻僵的，你可不想你的手在圣诞节被冻僵，对吧。”

我们绕过牲口棚走。那头大奶牛和牛犊都站在门口，我们可以听见“小王子”“小马后”和“阿梦”在牲口棚里踏步。“如果不是这么冷，我们会骑‘阿梦’。”加迪说，“但今天太冷了，在马上也抓不稳。”

这时，我们可以看见小河沟，在冒着烟的那里。“那是他们杀猪的地方。”加迪说，“我们回去时可以走那边。”我们说着走下山坡。

“你想带上那封信。”加迪说，“你可以带上它。”她把信从她的衣兜里拿出来，并放进我的衣兜。“这是圣诞节礼物。”加迪说，“莫里舅舅想用它给帕特森夫人一个惊喜。我们必须把信带给她，不让其他人知道。现在把手乖乖放进衣兜里。”我们来到了小河边。

“真冷啊。”加迪说，“看。”她打碎水面的冰，捡起一块贴在我的脸上。“是冰。足以说明天气有多冷。”她带着我穿过去，我们爬上了山坡。“连爸爸妈妈也不能让他们知道，你知道我是怎么想的对吧。我想这对爸爸妈妈和帕特森先生来说都是惊喜，帕特森先生还给过你糖果呢。你还记得帕特森先生去年夏天给你糖果吃吗？”

一道篱笆出现在我们面前。上面的藤蔓都干枯了，被风吹得嘎吱作响。

“只是，我不明白莫里舅舅为什么不派弗什来送信。”加迪说，“弗什也不会说的。”帕特森夫人正在窗口向外看着。“你在这里等着。”加迪说，“现在就在这里等着。我几分钟后就回来。把信给我吧。”她从我的衣兜里拿出信。“把你的手放在衣兜里。”她手中拿着信翻过篱笆，走过嘎吱作响的棕黄色花丛。帕特森夫人走到门口，打开门站在那儿。

帕特森先生正在绿色的花丛中劈柴，他停下来看着我。帕特森夫人
跑着穿过花园。我一看到她的眼睛，就哭了起来。“你这个傻瓜，”帕特
森夫人说，“我告诉过他别再让你一个人过来。快把它给我吧。”帕特森
先生拿着锄头快步过来。帕特森夫人弯身搭在篱笆上，把手伸向她，她
试着翻过篱笆。“把它给我，”她说，“把它给我。”这时，帕特森先生

爬过篱笆，拿到了信。帕特森夫人的裙子被篱笆挂住了。我又一次看到了她的眼睛，然后我跑下了山坡。

“那边除了房子什么也没有。”卢斯特说，“我们下到小河里。”

他们在小河里洗衣服。其中一个人在唱歌。我能闻到拍打衣服和炊烟飘过小河的味道。

“他想要干什么。”

“他不知道他想要干什么。”卢斯特说，“他以为自己想去他们打球的地方。你在这里坐好，玩你的曼陀铃。看他们在小河里玩，如果你可以看到的话。你怎么就不能和其他人一样呢。”我在河岸边坐下，他们在这里洗衣服，河边飘起了蓝色的烟雾。

“你在下面看到25分硬币之类的东西吗？”卢斯特说。

“什么25分？”

“早上我在这儿的时候还有呢。”卢斯特说，“也不知在哪儿弄丢了。从我衣兜里的洞掉出去了。要是找不到，今晚就没法看演出了。”

“你在哪里拿到25分的，小子？趁白人不注意的时候去他们的衣兜里掏来的吧。”

“是从该得的地方得来的。”卢斯特说，“那里还有好多呢。不过，我要去找那25分。你们看到过吗？”

“我对那25分没兴趣。我还有我自己的事要做。”

“过来。”卢斯特说，“帮我找找看。”

“就算他能看到，也认不出来那是25分吧。”

“他也只能帮着到处找找。”卢斯特说，“你们晚上都会去看演出吧。”

“别跟我提演出的事。洗完这些衣服，手都抬不起来了。”

“我打赌你会去的。”卢斯特说，“我打赌昨晚你也在那儿。我打赌帐篷打开的时候你们都在那儿。”

“除了我还有很多黑鬼，就是昨晚。”

“依我看，黑鬼的钱和白人的钱一样值钱。”

“白人给黑鬼钱，是因为他们早就知道，白人乐队一来就能把钱全都捞回去，这样一来，黑鬼们为了多赚一点，就会去干活了。”

“又没人叫你看。”

“是没有，不过，我估计是他们还没想起来吧。”

“你为什么要和白人过不去呢？”

“没有和他们过不去。我走我的路，他们走他们的。我对那演出没兴趣。”

“乐队里有人能用锯子演奏，就跟拉班卓琴一样。”

“你昨晚去过。”卢斯特说，“如果我能找到弄丢的25美分我今晚就去。”

“你该带上他一起去，我认为。”

“我？”卢斯特说，“你认为我还会在什么地方都跟他一起吗，只要他吼一声？”

“他开始吼的时候你怎么办？”

“我会抽他。”卢斯特说，他坐下来卷起工作服。他们在小河里玩。

“你们找到什么东西了吗？”卢斯特说。

“你说话怎么那么傲慢。你最好别让你奶奶听到你那样说话。”

卢斯特走进小河，他们在里面玩。他沿着河岸在水里寻找。

“早上我们在这儿的时候钱还在。”卢斯特说。

“你在哪里弄丢的？”

“就从我衣兜里的洞掉的。”卢斯特说。他们在小河里寻找。然后他们都快速站起来并停下了，接着水花四溅，他们打了起来。卢斯特拿到了钱，他们蹲坐在水里，目光穿过灌木丛，往山坡上望过去。

“他们在哪儿？”卢斯特说。

“还看不到。”

卢斯特把钱放进衣兜。他们从山坡上走下来。

“看到一个球飞过来了吗？”

“应该是掉到水里了，你们谁看到或者听到了吗？”

“没有听到什么掉水里啊。”卢斯特说，“倒是听见有东西撞到了那边的树。不知道往哪边去了。”

他们往小河里看去。

“噫。沿着河找。它下来这里了，我看到的。”

他们沿着小河寻找，然后回到山坡上。

“你们有没有捡到那个球？”一个男孩说。

“我要那个干什么。”卢斯特说，“我没见过球。”

那个男孩走进水里，继续寻找。他转过身来，再一次看着卢斯特，又往下继续寻找。

一个人在山坡上叫“加蒂”，那个男孩便从水里出来向山坡上走去。

“你看你又开始闹了，”卢斯特说，“别闹了。”

“他现在在喊什么。”

“天知道啊。”卢斯特说，“他一开始就那样，他整个早上都如此。我想是因为今天是他生日的缘故吧。”

“他多大？”

“三十三。”卢斯特说，“今天早上刚满三十三。”

“你是说，有三十岁吗？他的样子看起来倒像是三岁。”

“我听姥姥说的。”卢斯特说，“我不知道。不论怎样，会有三十三

根蜡烛插在蛋糕上。蛋糕很小，差点就插不下那些蜡烛。别张扬。到这里来。”他走过来抓住我的手臂，“你这个老疯子。”他说，“你想让我抽你是吗？”

“我打赌你不敢。”

“又不是没抽过。安静，马上。”卢斯特说，“难道我没有告诉过你不能去那里？他们会用球打你的脑袋。到这里来。”他在背后推了推我，“坐下。”我坐下来，脱掉鞋并卷起裤子。“现在，到水里去玩，看看你还吵不吵闹不闹。”

我安静下来，然后下到了水里。

罗斯库司来了，说该去吃晚饭了，可是，加迪说，还没到晚饭时间，我不去。

她浑身湿漉漉的。我们之前在小河里玩，加迪蹲下来弄湿了裙子，弗什说：“你把裙子弄湿了，你妈会打你的。”

“她才不会呢。”加迪说。

“你怎么知道的。”昆汀说。

“据我所知是这样。”加迪说，“你又怎么知道会呢。”

“她说过她会。”昆汀说，“再说，我年纪比你大。”

“我七岁了。”加迪说，“也该知道了。”

“我比你大。”昆汀说，“我都上学了，对吧，弗什。”

“我明年也要上学了，”加迪说，“到那个时候我也就上学了，对吧，弗什？”

“你知道，如果你弄湿了裙子她就会打你的。”弗什说。

“裙子没湿。”加迪说，她从水里站起来，看着她的裙子，“我把它脱下来，过一会儿就干了。”

“我打赌你不会的。”昆汀说。

“我一定会。”加迪说。

“我想你最好不要。”昆汀说。

加迪向我和弗什走过来，然后转过身去。

“帮我把扣子解开，弗什。”她说。

“你真要这么做吗，弗什？”昆汀说。

“这又不是我的衣服。”弗什说。

“你快解开扣子，弗什，”加迪说，“否则我就告诉黛西你昨天做的事。”弗什便解开了扣子。

“你脱掉裙子。”昆汀说。于是加迪脱掉了裙子，扔到岸上。现在她的身上除了内衣和内裤，什么也没有了。昆汀去拍她，她便滑倒跌进水里了。当她站起来后，就开始把水往昆汀身上泼，昆汀也往加迪身上泼。有些水溅到弗什和我的身上，弗什扶起我并把我弄到岸上。他说要去告加迪和昆汀的状，于是昆汀和加迪开始朝弗什泼水。他只好躲在灌木丛后面。

“我要去向妈妈告你们两个的状。”弗什说。

昆汀爬上河岸想要抓住弗什，但没有抓住，因为弗什跑开了。昆汀回到河里之后，弗什停下来又叫喊着要去告状。加迪告诉他，如果他不告状，她们就让他回来。于是弗什说他不告了，她们也就让他回来了。

“你现在满意了吧。”昆汀说，“我们两个都会挨打了。”

“我不在乎。”加迪说，“我会跑掉的。”

“你会逃走。”昆汀说。

“我会跑掉，不再回来。”加迪说。

我开始哭起来。加迪转过身来说“安静”，于是，我安静下来。接着他们在河里玩。杰生也一起玩。他一个人在下游更远的地方。弗什从灌木丛里过来，又把我带到河里。加迪身上全湿了，满是泥。

我哭起来，她走过来，蹲在水里。“别哭了。”她说，“我不会跑掉的。”于是我安静下来。加迪闻起来有股雨中树木的味道。

“你怎么了？”卢斯特说，“你就不能像其他人那样，好好在水里玩吗？”

“为什么你不让他待在家呢，难道他们没有告诉你别把他带出那个地方吗？”

“他还以为这草地也是他们家呢，”卢斯特说，“从房子那边也看不见这里。”

可我们看到了。谁愿意看见傻子呀。看见了都得倒霉。

罗斯库司来了，说该去吃晚饭了，但加迪说现在还没有到晚饭时间。

“现在就是了。”罗斯库司说，“黛西说你们都回去。带上他们，弗什。”奶牛在山坡上叫，他走了上去。

“也许我们回去的时候身上就干了。”昆汀说。

“全是你的错。”加迪说，“我看我们要挨打了。”她穿上了裙子，弗什帮忙扣上扣子。

“他们不会知道你弄湿了，”弗什说，“除非我或者杰生告状，不然是不看出来的。”

“你会告状吗，杰生？”加迪说。

“告谁？”杰生说。

“他不会告状的，”昆汀说，“对吧，杰生。”

“我打赌他会告状的，”加迪说，“他会告诉达姆迪3。”

“他不能告诉她，”昆汀说，“她病了。如果我们走慢点，他们就不会看见，因为天已经黑了。”

“我不在乎他们会不会看见，”加迪说，“我会自己告诉他们的。你把他带到山坡上吧，弗什。”

“杰生不会告状的，”昆汀说，“记得我给你做的弓和箭吗，杰生？”

“都坏了。”杰生说。

“让他去告状吧，”加迪说，“我一点儿也不在乎，把莫里背上山坡，弗什。”于是，弗什蹲下身来，我爬上了他的背。

“我们晚上看演出时见，”卢斯特说，“来吧，过来。我们要找到那25美分。”

“要是我们慢慢走，到家的时候天就已经黑了。”昆汀说。

“我不会慢慢走。”加迪说。我们走上了山坡，但昆汀还没来。他还在下面我们之前玩的小河里，我们已经走到可以闻到猪味道的地方。猪在角落里打呼噜，抽鼻子。杰生跟在我们后面来了，他把手放在衣兜里。罗斯库司在牲口棚门口给奶牛挤奶。

奶牛从牲口棚里跳出来了。

“又在叫了，”T.P.说，“再叫几声。我自己都想叫了。哎哟——”昆汀又踢了T.P.一脚。他把T.P.踢进猪吃食的水槽，T.P.躺在那儿。“好家伙。”T.P.说，“他就是这样欺负我的。你们看到那个白人踢我了吗？哎哟——”

我没有哭，只是脚步停不下来。我没有哭，只是地面不平坦了，然后我就哭出来了。地面一直往上倾斜，奶牛都向山坡上跑。T.P.想要站起来，但他又一次摔倒了。奶牛又向山坡下跑。昆汀牵着我的手，我们向牲口棚跑去。但它并不在那儿，我们不得不等它回来。我没有看见它回来。它跟在我们后面，昆汀把我放进牛吃食的水槽里。我抓着它。它还在走，我抓住它。奶牛又穿门而出往山下跑去。我的脚步停不下来。昆汀和T.P.来到山坡上，他们打起来了。T.P.掉下山去，昆汀把他拉上

来。昆汀打了T.P.。我的脚步停不下来。

“站起来。”昆汀说，“你待在这里，我回来之前别走开。”

“我和班吉要回去参加婚礼。”T.P.说，“哎哟！”

昆汀又打了T.P.。接着他开始把T.P.按在墙上，并对着他猛打，T.P.却在笑。

每次昆汀按着他猛打的时候，他都想叫“哎哟”，但却笑得说不出来。我不想哭了，只是停不下来。T.P.倒在我身上，牲口棚的门都掉下来了。门掉下山坡，T.P.被自己打到又倒下来。他仍然在笑，我也停不下来，我想要站起来，但还是倒下了，而我停不下来。弗什说：“你们别叫了。闭嘴，别叫了。”

T.P.还在笑。他摔在门上，笑起来。“哎哟，”他说，“我和班吉要回去参加婚礼。沙普拉4。”T.P.说。

“安静，”弗什说，“你在哪里得到它的？”

“地窖里拿的。”T.P.说，“哎哟。”

“安静下来，”弗什说，“地窖哪里？”

“某个地方，”T.P.说，他笑得更厉害了，“有一百多瓶呢，有一百万多瓶。小心啦，黑鬼，我要叫了。”

昆汀说：“把他扶起来。”

于是弗什把我扶了起来。

“喝掉这个，班吉。”昆汀说。杯子很烫。“立马安静下来，”昆汀说，“喝掉它。”

“沙普拉，”T.P.说，“让我来喝吧，昆汀先生。”

“你给我闭嘴。”弗什说，“昆汀先生要抽你了。”

“抓住他，弗什。”昆汀说。

他们抓住我。我的下巴和衣服都很烫。“喝！”昆汀说。他们抓住我的头。我的身体里很烫，我又开始叫了。我哭了起来，我感觉身体里有些不对劲，于是哭得更厉害了，他们按着我，直到肚子不对劲的感觉停了下来，然后我就安静了。那感觉仍没有消散，紧接着出现了些人影。弗什打开门。他们走得很慢，还在地板上把空的袋子铺开。他们加快了速度，差不多够快了。快，跟上他。他们继续走，走得不快不慢。我听到T.P.在笑。我和他们一起走，爬上明亮的山坡。

走到山顶上，弗什把我放下来。“到这儿来，昆汀。”他往回向山下叫道。昆汀还站在小河边。他在往覆盖着阴影的小河沟扔石子。

“让这个倔小子待在这儿。”加迪说。她牵起我的手，我们继续穿过牲口棚和门。一只青蛙蹲在砖石铺成的人行道中间。加迪跨过它并用力拉了拉我。

“过来，莫里。”她说。青蛙会一直蹲在那儿，直到杰生用脚趾头踢到它。

“他会在你身上弄一个疣。”弗什说。青蛙跳走了。

“快过来，莫里。”加迪说。

“今晚他们有客人了。”弗什说。

“你怎么知道。”加迪说。

“因为灯都亮了，”弗什说，“每一扇窗子里都有灯光。”

“我认为没有客人我们也可以把所有灯都打开，如果我们想这么做的话。”加迪说。

“我打赌是客人，”弗什说，“你们最好都从后门进，悄悄溜上楼。”

“我才不在乎呢，”加迪说，“我会从他们所在的客厅正中走进去。”

“我打赌如果你这么做，你爸爸会打你的。”弗什说。

“我不在乎，”加迪说，“我会从客厅正中走。我会直接走进餐厅去吃晚餐。”

“你坐哪里？”弗什说。

“我会坐在达姆迪的椅子上，”加迪说，“她在床上吃饭。”

“我饿了。”杰生说。他超过我们，跑上了人行道。他把手放在衣兜里，然后摔倒了。弗什走过去，把他扶起来。

“你把手从衣兜里拿出来，就可以站稳了，”弗什说，“你这么胖，永远不能及时把手拿出来扶住你自己。”

爸爸在厨房的台阶上站着。

“昆汀在哪里？”他说。

“他正在回来的路上。”弗什说。昆汀走得很慢。他的T恤看上去白蒙蒙的一片。

“噢。”爸爸说。光从阶梯上照下来，落在他身上。

“加迪和昆汀相互泼水。”杰生说。

我们等待着。

“是吗？”爸爸说。昆汀来了，爸爸接着说：“你们今晚在厨房里吃晚饭。”他停下来带上我，光线也照在了我身上，而我可以看见加迪、杰生、昆汀和弗什在下面。爸爸转向台阶：“不过你们必须保持安静。”他说。

“为什么我们要安静，爸爸？”加迪说，“我们有客人吗？”

“是的。”爸爸说。

“我就跟你说家里有客人吧。”弗什说。

“你没有，”加迪说，“是我说的有客人，是我说的。”

“别出声！”爸爸说。他们安静下来，爸爸打开门，我们穿过后门廊进到厨房。黛西也在那儿，爸爸把我放在椅子上，弄好围裙并拉到放晚餐的桌子上。饭菜还冒着热气。“黛西，你现在看好他们。”爸爸说，“别让他们再乱发出声音了，黛西。”

“好的，先生。”黛西说。爸爸走开了。

“记住了，现在要听黛西的话。”他在我们身后说。我把头靠在晚餐旁边，热气往我的脸上冒。

“让他们今晚听我的吧，爸爸。”加迪说。

“我不要，”杰生说，“我要听黛西的。”

“不要也得要，如果爸爸同意了，”加迪说，“让他们听我的吧，爸爸。”

“我才不，”杰生说，“我不会听你的。”

“安静，”爸爸说，“你们都要听加迪的。等他们吃完，就把他们从后面带上楼，黛西。”

“好的，先生。”黛西说。

“看吧，”加迪说，“我想你们都要听我的了。”

“你们现在都别闹，”黛西说，“你们今晚必须安静。”

“为什么我们今晚必须安静？”加迪喃喃自语。

“不关你的事。”黛西说，“到时候会让你们知道的。”她拿起我的碗。热气冒起来，弄得我的脸很痒。

“过来，弗什。”黛西说。

“什么时候，黛西？”加迪说。

“就是星期天，”昆汀说，“这你都不懂。”

“安静点，”黛西说，“没听到先生说你们要安静吗？好了，快吃饭。来，弗什，把他的勺子拿过来。”

弗什拿过来勺子，把勺子伸进碗里。勺子放到我的嘴边。热气痒痒地进入我的嘴里，这时候大家都停了下来，安静地面面相觑，之后我们又听到了声音，我哭了起来。

“那是什么？”加迪说。她把手放到我的手上。

“是妈妈。”昆汀说。勺子来了，我吃起来，然后又哭起来。

“安静。”加迪说。但我并没有安静下来，她走过来用手抱住我。黛西走过去关上了门，我们就听不见了。

“我叫你安静！”加迪说。于是我安静下来吃饭。昆汀没有吃，但杰生在吃。

“那就是妈妈。”昆汀说着，站了起来。

“你给我坐下，”黛西说，“他们有客人在那儿。你们的衣服上全是泥，不能去，加迪，你也快吃饭。”

“她在哭。”昆汀说。

“是有人在唱歌，”加迪说，“对吧，黛西？”

“你们都快吃你们的饭，听杰生先生的话。”黛西说，“上帝会让你们知道的。”

加迪说着走向她的椅子那里。“我说过了，那是聚会。”她说。

弗什说：“他已经吃完了。”

“把他的碗拿过来。”黛西说。碗已经不见了。

“黛西，”加迪说，“昆汀不吃他的晚餐了。他不是要听我的吗？”

“吃你的饭，昆汀，”黛西说，“你们都快吃完，然后离开我的厨房。”

“我不想吃了。”昆汀说。

“我叫你吃你就得吃，”加迪说，“对吧，黛西。”碗里的热气往我的脸上冒，弗什的手拿着勺子放进去，热气冒进我的嘴里，弄得我很痒。

“我一点儿也不想吃了，”昆汀说，“达姆迪生病的时候他们怎么能聚会呢？”

“他们会在楼下聚会，”加迪说，“她可以到楼梯上偷看。我穿上睡衣后也要这么做。”

“妈妈在哭，”昆汀说，“难道不是吗，黛西？”

“别来烦我了，小子。”黛西说，“你们吃完晚餐后我还要给其他人做。”

过了一会儿，连杰生也吃完了，他哭起来。

“你们几个轮着哭是吧。”黛西说。

“自从达姆迪生病而他不能和她一起睡之后，他每天晚上都这样。”加迪说。

“真是爱哭的孩子。”

“我要告你们的状。”杰生说，他哭了。

“你已经告过了，”加迪说，“现在你没有什么能告状的了。”

“你们都要准备上床睡觉了。”黛西说，她走过来，把我放下来，用热毛巾擦了擦我的脸和手，“弗什，你能把他们安静地带上楼梯吗？杰生，你快闭嘴别哭了。”

“现在上床睡觉还太早了，”加迪说，“我们从没有这么早上床睡觉过。”

“今晚就会了，”黛西说，“你们的爸爸告诉你们吃完饭就到楼上去，你们可是听到了的。”

“他说要听我的。”加迪说。

“我不会听你的。”杰生说。

“你必须听，”加迪说，“快，就是现在，你们必须照我说的做。”

“让他们安静，弗什，”黛西说，“你们都必须给我安静。”

“为什么要我们今晚这么安静？”加迪说。

“你们的妈妈不舒服，”黛西说，“你们都跟弗什上楼去，现在就去。”

“我说过妈妈在哭。”昆汀说。弗什带上我，打开通往后门廊的门。我们走出去之后弗什把门关上。我能闻到弗什的味道并感受到他。我们现在都很安静。我们不会上楼去。杰生先生要你们上楼去。他说你们都要听我的。我并不要让你们听我的。但他说你们都要。不是吗，昆汀。我可以感觉到弗什的头。我可以听见大家的出气声。不是吗，弗什。没

错，正是如此。之后我让大家到门外去一会儿。弗什打开门，我们走了出来。

我们走下台阶。

“我想我们最好到弗什家去，那样他们就听不到我们的声音了。”加迪说。弗什把我放下来，加迪牵起我的手，我们沿着砖石人行道向下走去。

“快过来，”加迪说，“青蛙不见了。到现在它已经跳进花园里了。也许我们会发现另外一只。”这时，罗斯库司提着牛奶桶走过来。他往前走去了。昆汀没有和我们一起来。他坐在厨房外的台阶上。我们往弗什家的房子走去。我喜欢弗什家房子的味道。

屋子里面生着火，T.P.裹着他的衬衫蹲在火前，他加着柴，烈火熊熊燃烧。

之后我起来了，T.P.给我穿上衣服，我们到厨房里吃饭。黛西在唱歌，我哭起来，于是她停下来。

“别让他进这屋子，现在就带走他。”黛西说。

“我们不能去那边。”T.P.说。

我们一起在小河里玩。

“我们不能在那里到处走，”T.P.说，“难道你不知道妈妈说我们不能去吗？”

黛西在厨房里唱歌，我开始哭起来。

“安静。”T.P.说，“好吧，我们去牲口棚。”罗斯库司在牲口棚挤奶。

他一边用一只手挤奶，一边抱怨。几只停在牲口棚门上的鸟看着他。一只鸟飞下来，和奶牛一起吃起来。T.P.在给“小马后”和“王子”喂食，同时，我看着罗斯库司挤奶。小牛在猪圈里。它紧紧靠着金属围栏，用鼻子擦着铁丝网，发出响声。

“T.P。”罗斯库司说。T.P.在牲口棚里回答：“什么事，爸爸。”

“阿梦”把它的头都伸到门外去了，因为T.P.还没有来喂它。“快来，”罗斯库司说，“你来挤奶，我的右手不听使唤了。”

T.P.过来开始挤奶。

“你为什么不去看医生？”T.P.说。

“医生也没办法，”罗斯库司说，“在这里不行。”

“这里怎么不行？”T.P.说。

“这里交不到好运，”罗斯库司说，“如果你喂完了，就去喂那头小牛。”

这里交不到好运，罗斯库司说。火焰在他和弗什身后忽起忽落，滑过他和弗什的脸。黛西已经把我放到床上。床的味道闻起来就像T.P.，我喜欢这个味道。

“你知道些什么，”黛西说，“你犯傻了。”

“这关犯傻什么事，”罗斯库司说，“难道这不是躺在那张床上的征

兆吗？难道这不是十五年来人们在这里所见的征兆吗？”

“就当它是吧，”黛西说，“这对你和你的东西没有任何伤害，不是吗？弗什干活，弗洛尼出嫁，T.P.也足够大了，如果你让风湿给弄垮，他就可以代替你的位置。”

“现在已经两个人了，”罗斯库司说，“多了一个人。我看到征兆了，你也是。”

“那晚我听到一只蜷缩的猫头鹰在叫，”T.P.说，“丹也不敢去吃他的晚餐。不敢从牲口棚那儿过。天黑后就开始叫。弗什听见了的。”

“多了一个人，”黛西说，“告诉我那个人怎样才不会死去，上帝保佑。”

“死亡还算是好的了。”罗斯库司说。

“我知道你在想什么，”黛西说，“念那个名字也不能给他们带来好运，除非你在他哭泣的时候让他坐起来。”

“在这个地方他们不会有好运的，”罗斯库司说，“我从一开始就看出来了，他们给他换名字的时候我已经知道了。”

“闭上你的嘴，”黛西说。她把床罩拉起来。床罩闻起来就像T.P.的味道。“你们现在都闭嘴，让他睡觉。”

“我看见征兆了。”罗斯库司说。

“征兆，T.P.会为你们干完所有的活。”黛西说，“T.P.带上他和昆汀去下面的房子，让他们和卢斯特一起玩，弗洛尼也能在那儿看着他们，

T.P.去帮帮你的爸爸。”

我们吃完了。T.P.带上昆汀，我们往T.P.的房子走去。卢斯特在玩泥巴。T.P.把昆汀放下，她也玩泥巴。卢斯特有一些线轴，他和昆汀打起来，昆汀抢到了线轴。卢斯特哭起来，弗洛尼走过来，给了卢斯特一个可以玩的罐头，于是我把线轴拿了过来，昆汀打了我，我哭了。“安静，”弗洛尼说，“你不害臊吗？抢一个小孩的玩具。”他把线轴从我手上拿走，还给了昆汀。

“好了，别闹了，”弗洛尼说，“别闹，我来告诉你。”

“快安静，”弗洛尼说，“你真该挨打了，你就欠打。”她带上卢斯特和昆汀，“到这儿来。”她说。我们去牲口棚。T.P.在挤奶。罗斯库司坐在一个箱子上。

“他现在怎么了？”罗斯库司说。

“你现在必须让他待在这儿，”弗洛尼说，“他又打了这些小孩。让他们玩东西。现在和T.P.一起留在这儿，看看你能不能安静一会儿。”

“现在把奶头洗干净，”罗斯库司说，“去年冬天你把那头年轻奶牛的奶都挤干了。如果再把这头挤干，它们不会再有奶了。”

黛西在唱歌。

“别去那里，”T.P.说，“难道你不知道妈妈说你不能在这儿到处走吗？”

他们在唱歌。

“过来，”T.P.说，“让我们去找昆汀和卢斯特玩，来吧。”

昆汀和卢斯特在T.P.的房子前玩泥巴。房子里有一堆火，忽起忽落。罗斯库司坐在火堆对面。

“那是三个人，感谢上帝，”罗斯库司说，“两年前我就告诉过你。在这个地方他们不会有好运的。”

“那你怎么不出去，”黛西说，她正在给我脱衣服，“你的晦气话都让弗什有去孟菲斯的想法了。这样你该满意了。”

“如果那是弗什全部的噩运。”罗斯库司说。

这时，弗洛尼进来了。

“你们的事都干完了吗？”黛西说。

“T.P.结束了，”弗洛尼说，“卡布林小姐让你们把昆汀弄上床。”

“我正尽快过来，”黛西说，“她这个时候应该知道我没有翅膀。”

“这正是我要说的，”罗斯库司说，“他们连一个小孩的名字都不能说，在这个地方他们不会有好运气。”

“好了，”黛西说，“你想把他吵醒，让他又开始哭吗？”

“养大一个小孩而他却不知道自己的名字。”罗斯库司说。

“你不要想她的事，”黛西说，“我把他们都养大，我认为我还能多养一个。安静了。如果他睡得着就让他睡。”

“你们就直接说好了，”弗洛尼说，“他不知道任何人的名字。”

“你倒是说说看，看他懂不懂，”黛西说，“他睡觉的时候，你对他说了，他一定听见了。”

“他知道的比人们能想象的多得多，”罗斯库司说，“他知道大家的时辰什么时候到，像猎狗追踪猎物一样走完。他可以告诉你们他的时辰什么时候到，如果他能说话，还能说出你的或者我的时辰。”

“你把卢斯特弄下床，妈妈，”弗洛尼说，“那孩子会让他中邪的。”

“闭上你的嘴，”黛西说，“你难道不能说点好听的吗？你听罗斯库司说，他会告诉你这是为什么，不管怎样，先进来再说吧，班吉。”

黛西推了推我，我上到床上，卢斯特已经躺在上面了。他睡着了。黛西拿了一根长条木头，放在我和卢斯特之间：“现在你们一人待一边。”

黛西说：“卢斯特那么小，你不要压着他。”

“你还不能去，”T.P.说，“再等等。”

我们环视房子的角落，看着马车离开。

“好了，”T.P.说。他带上昆汀，我们跑去篱笆的角落，看着他们经过。“他们走了，”T.P.说，“看见里面那辆有玻璃窗的了吗？看他。他就躺在那里。看他。”

“来吧，”卢斯特说，“我要把这个球带回家，它在家，就不会掉。现在，先生，它是我的了。如果他们看到你带着它，会说是你偷来的。”

安静了。不给就是不给。你拿着又没用。你又不会玩球。”

弗洛尼和T.P.在门旁边的泥巴里玩。T.P.有一个装着萤火虫的瓶子。

“你们怎么又都回来了？”弗洛尼说。

“我们家有客人，”加迪说，“爸爸告诉我们今晚要听我的。我想你和T.P.同样也得听我的。”

“我不会听你的，”杰生说，“弗洛尼和T.P.也不会。”

“我说了，他们会听，”加迪说，“但也许我不打算让他们听呢。”

“T.P.是不会听任何人的，”弗洛尼说，“他们开始葬礼了吗？”

“什么是葬礼？”杰生说。

“妈妈没说让你别告诉他们吗？”弗什说。

“葬礼就是大家一起哭，”弗洛尼说，“贝拉·克莱大姐死的时候，他们足足哭了两天呢。”

他们在黛西的房子里哭。黛西也在哭。黛西哭的时候，卢斯特说，安静，我们安静下来。然后我又哭起来，蓝在厨房阶梯下大声长嚎起来。黛西停止了哭声，我们也停了下来。

“噢，”加迪说，“那是黑鬼。白人不会有葬礼。”

“妈妈让我们不要告诉他们，弗洛尼。”弗什说。

“告诉他们什么？”加迪说。

黛西哭了，我听到后，也开始哭，蓝也在台阶下号叫。弗洛尼在窗边说，卢斯特，带他们下到牲口棚去，他们这样我没法做饭，把那只猎犬也带上，把他们都带出去。

卢斯特说，我才不下去，我可能会在下面碰到外公，我昨晚见到他了，他在牲口棚里向我挥手。

“我想知道你为什么不下去，”弗洛尼说，“白人也会死。我猜，你奶奶死的时候也像其他的黑人那样。”

“狗都死了，”加迪说，“南希掉到沟里的时候罗斯库司打了它一枪，他的秃鹰们过来把它撕得稀烂。”

尸骨就躺在沟里，黑色的藤蔓长满了那条黑色的沟，月光照在上面，一些人影停了下来。不一会儿，所有人都停住了，天色暗了下来，当我重新睁开眼睛的时候，我听到了妈妈的声音，还听到很多飞快的脚步声，我还能够闻到那种味道。接着，我看到了房间，我闭上眼睛，却没有一点睡意。我能够闻到那种味道。T.P.解开了我被子上的别针。

“嘘，”他说，“嘘……”

但我还能闻到味道。T.P.把我拉了起来，飞快地帮我穿上了衣服。

“快点，班吉。”他说，“我们现在就下去，到我们的房子里去。你要下到我们的房子里去，弗洛尼也在那里。小声点，嘘……”

他帮我系好鞋带，给我戴上帽子，然后我们一起出了门。我们走过大厅时，里面闪烁着灯光。

我们穿过大厅的时候，我听到了妈妈的声音。

“嘘……班吉，”他说，“我们马上就要出去了。”一扇门被打开了，那种味道从未如此浓烈过，一个人探出头来。他不是爸爸。爸爸生病了。

“你能把他带到房子外面去吗？”

“我们就是要出去。”T.P.说。黛西走上了楼梯。

“嘘，”她说，“小声点。把他带下去，回家去，T.P.。弗洛尼给他准备好了床铺。你们要把他照顾好。小声点，班吉，跟着T.P.去吧。”

她进入了传来妈妈声音的地方。

“最好把他关在那里。”那不是爸爸的声音。他关上了房门，但是我还能闻到味道。

我们下了楼，走进外面的黑暗之中。丹坐在后院里号哭着。

“它也闻到了，”T.P.说，“你就是用这种方法找到它的吗？”

我们沿着楼梯向下走，影子紧紧地跟在身后。

“我忘了拿你的外套了，”T.P.说，“你本来应该穿在身上的，但是我回不去了。”

丹哭了。

“小声点。”T.P.说。我们的影子动了起来，但是丹的影子并没有动，而是跟着他一起号哭。

“我不会把你带回家的，你再这样叫的话，”T.P.说，“你已经够让人讨厌了，还发出这种牛蛙般的声音，走吧。”

我们沿着砖墙前行，跟我们的影子一起。猪圈的味道就像猪身上的味道一样。奶牛站在牛圈里，一边吃东西一边看着我们。这时，丹又开始叫了。

“你这样会把所有人都吵醒的，”T.P.说，“你就不能忍一忍吗？”我们见到了正在树旁吃饭的阿梦。我们到达水边的时候，月光刚好照在水面上。

“不，先生，”T.P.说，“马上就要到了，我们不能在这里停。走吧，看看你自己，腿都浸到水里去了。走吧，从这里走。”丹还是在哭。

黑色的沟在嗡嗡作响的草堆里凸显了出来。尸骨散落在黑色的藤蔓中。“现在，”T.P.说道，“你想叫就叫吧，我们要在这20英亩牧场中度过整晚的时间，你叫得再大声也没关系。”

T.P.在沟里躺了下来，我也坐了下来，看着秃鹰们把南希吃掉的地方，它们吃完之后便拍打着翅膀慢悠悠地走出了那条沟。

我们在下面的时候，它还在我身上呢，卢斯特说。我给你看过了的，对吧。我就在这里把它掏出来给你看的。

“你觉得秃鹰会把达姆迪吃掉，”加迪问，“你疯了吧。”

“你真是个大坏蛋。”杰生说完就开始大哭。

“你才是一个大坏蛋，”加迪说道。杰生还在哭。他的手还放在衣兜里。

“杰生会成为有钱人，”弗什说，“他一直都把自己的钱看得很紧。”

杰生还在哭。

“看，你又把他弄哭了，”加迪说，“不要哭了，杰生。秃鹰怎么可能找到达姆迪。爸爸不会让它们得逞的。秃鹰也不会把你撕烂。现在快动身吧。”

杰生站了起来：“弗洛尼说那是一场葬礼。”他说。

“不是。”加迪说道，“那是一次聚会。弗洛尼对此毫不知情。他想要的是你那些闪光的虫子，T.P.，给他拿一下。”

T.P.把那个装着萤火虫的瓶子给了我。

“我敢打赌，如果我们到客厅窗户那边去，肯定能看到些什么，”加迪说，“这样你们就会相信我的话了。”

“我早就知道了，”弗洛尼说，“我不用看。”

“你最好闭嘴，弗洛尼，”弗什说，“妈妈会用鞭子抽你的。”

“能看到什么？”加迪问。

“我就知道，我就知道。”弗洛尼说。

“算了吧，”加迪说，“我们绕到前面去。”

我们起身行动。

“T.P.想要他的萤火虫。”弗洛尼说。

“让他再拿一下，T.P.，”加迪说，“我们会把瓶子给你的。”

“谁叫你们不去抓的。”弗洛尼说。

“我说了你和T.P.也要一起去，你就让他拿着瓶子嘛。”加迪说。

“谁说我和T.P.必须听你的啦。”弗洛尼说。

“不听我的话，也得让他拿一下。”加迪说。

“好吧。”弗洛尼说。

“让他拿着瓶子，T.P.。我们去看他们在哭什么。”

“他们没有哭，”加迪说，“我跟你说过了，他们在聚会。他们没有哭吧，弗什？”

“我们站在那里怎么知道他们在干什么呢？”弗什说。

“好吧，”加迪说，“弗洛尼和T.P.不用听我的安排。但是剩下的人就得听我的。你最好带上他，弗什。天就要黑了。”

于是弗什把我背起来，我们从厨房出发。

当我们从转角往外望的时候，可以看到光线从那边照过来。T.P.回到地下室，打开了门。

你知道下面有什么吗？T.P.说，苏打水。我看到过杰生先生从下面上来的时候两只手都提着苏打水。你在这里等一下。

T.P.走过去朝厨房门里张望。黛西说，你在这里找什么，班吉在哪

儿。

他在外面，T.P.说。

去看着他，黛西说。把他带到房子外面去。

好，T.P.说，他们开始了吗？

你把那孩子看好，别让我看到他，黛西说。我还有自己的事情要做。

蛇从房子下面爬了出来。杰生说他不怕蛇，加迪说他怕蛇，但她自己不怕，弗什说他们两个都怕蛇，加迪说给我安静，爸爸就是这样的口气。

“你现在可不能哭，”T.P.说，“要喝点这个吗？”

这东西让我的鼻子和眼睛都发痒。

“你不喝我喝，”T.P.说，“啊，找到了。趁现在没人，我们最好再来一瓶。你给我好好待着。”

我们在窗户旁的大树那里停下了。弗什坐在潮湿的草地上。冷死我了。每一扇窗户里都透着光。

“达姆迪就在那一间屋里，”加迪说，“她现在生病了。等她好起来我们就出去野餐。”

“我知道，我知道是怎么回事。”弗洛尼说。

树木在沙沙作响，草丛也是。

“旁边那间就是我们得麻疹的时候睡的地方，”加迪说，“你和T.P.是在哪里得的麻疹，弗洛尼？”

“我觉得就在我们住的地方。”弗洛尼说。

“他们还没有开始。”加迪说。

“他们准备开始了，”T.P.说，“你现在就站在这里，而我要去拿那个箱子，这样我们就可以透过窗户看里面了。我们先把这些东西都喝完。”我的肚子已经咕咕直叫了。

我们喝掉了饮料，T.P.把瓶子都扔到栅栏那边的房子下面，然后跑开了。我听到从窗户那边传来的人声，我紧紧地抓着墙壁。T.P.把箱子拉了过来。不小心绊了一跤，他又开始笑了。他躺在那里，就在草地里笑着。他站起来，把箱子拉到窗户下面，试着忍住不笑。“我怕自己会大叫起来，”T.P.说，“你站到箱子上看他们开始没有。”

“他们还没有开始，乐队都还没来呢。”加迪说。

“他们没有请乐队。”弗洛尼说。

“你怎么知道。”加迪说。

“我就是知道。”弗洛尼说。

“你什么都不知道，”加迪说，她走到树那边，“推我一把，弗什。”

“你爸爸不要你爬那棵树。”弗什说。

“那是很久之前的事情了，”加迪说，“我想他肯定都忘了。而且他还说过今晚得听我的。他不是说过听我安排吗？”

“我不会听你的，”杰生说，“弗洛尼和T.P.也不听。”

“推我一把，弗什。”加迪说。

“好吧，”弗什说，“要挨鞭子的话，你自己挨吧，我才不管呢。”他过去将加迪推到了树上的第一根枝丫上。我们看到了她屁股上的泥污。

然后她就从我们视野中消失了，只听到树木的声音。

“杰生先生说如果你把那棵树压断了他就要用鞭子抽你。”弗什说。

“我也要去告发她。”杰生说。

树不动了。我们抬头看着一动不动的树枝。

“你看到了什么。”弗洛尼小声问道。

我看到了他们。然后我看到了加迪，她的头上别着花，戴着一张发光的长面纱。

加迪。加迪。

“小声点，”T.P.说道，“他们会听到的。快下来。”他过来拉我。“加迪。”我双手抓着墙，加迪和T.P.拉着我。“小声点，”他说，“别说话，快过来。”他一直拉着我。加迪说：“安静，班吉。你想让他们听到吗？快过来，我们喝点饮料，等你安静下来，我们就可以回去了。我们最好都再喝一瓶，要不然我们会大叫出来的。我们可以说这些是丹喝的。昆汀先生总是说它很聪明，我们也可以说它是条偷喝东西的狗。”

月光照到地下室的楼梯上。我们又喝了一些。

“你知道我在想什么吗？”T.P.说，“我想有一只熊走进那扇地下室的门。你知道我要做什么吗？我直接走到它面前，往它的眼睛上啐一口唾液。在我叫出来之前把那瓶子递过来，让我堵住我的嘴。”

T.P.坐了下来，开始大笑。地下室的门和月光跳到了一边，有什么东西打了我一下。

“轻点，”T.P.说，他试着让自己不再发笑，“罗素他们会听到我们说话的。起来，”T.P.对我说，“起来，班吉，快点。”他一直在催我，一直在笑，而我则试着站起来。月光中，地下室的楼梯延伸到小山上。T.P.跑到了山上，跑进了月光里，我撞到了栅栏上，T.P.在我后面一直不停地“小声点，小声点”，然后他滚到了花丛中，笑着。我撞到了那个箱子。但当我试着爬到箱子上面的时候，箱子却跳开了，打中了我的后脑勺，我发出了一声喊叫，然后我哭了起来。T.P.一直在拉我，我的喉咙也一直在发出声音。它一直在发声，我都不知道自己是不是真的在哭。T.P.绊倒在我身上，又笑了。我的喉咙一直没停止过发出声音。昆汀踢了踢T.P.，加迪则用她的双臂和闪亮的面纱环绕住我，我没法闻到树木的味道了，我又开始哭了。

班吉，加迪说，班吉。她又用她的双臂环住我，但是我却跑开了。

“怎么了，班吉？”她问，“是我帽子的关系吗？”她把自己的帽子摘下，又到我这里来，我又跑开了。“班吉，”她说，“怎么回事，班吉？加迪做了什么？”

“她不喜欢那套神经兮兮的打扮。”杰生说，“你以为自己长成大人了，是吗？你觉得你比其他人都要好，是吗？神经病。”

“你给我闭嘴，”加迪说。“你这个肮脏的小东西，班吉。”

“你以为你十四岁了就是一个大人了吗？”杰生说，“你觉得自己了不起了，是吗？”

“闭嘴，班吉。”加迪说，“你会把妈妈吵醒的。安静点。”

但是我并没有闭嘴，她离开的时候我也跟了过去，她在梯子那里停下，我也跟着停下。

“怎么回事，班吉？”加迪问，“告诉加迪。她无所不能。不妨试一试。”

“加达斯。”妈妈说。

“妈妈。”加迪叫道。

“你逗他干什么，”妈妈说，“把他带过来。”

我们去了妈妈的房间，她生病了，躺在那里，头上围着一块布。

“到底是怎么回事，”妈妈说，“本杰明？”

“班吉。”加迪说。她又走了过来，但是我逃开了。

“你肯定是对他干了什么，”妈妈说，“你就不能让他自己待一会儿，这样我就能安静一会儿了。把箱子给他，然后你就走开，让他一个人玩会儿。”

加迪拿了箱子，把它放到地上，并且打开。里面装满了星星。我不动的时候，它们就不动。我一动，它们就开始闪烁起来。我闭上了嘴。

然后我听到加迪走路的声音，又开始了。

“本杰明，”妈妈说，“过来这里。”我走到门那里。“你，本杰明。”妈妈说。

“怎么了？”爸爸说，“你要去哪？”

“把他带到楼下去让别人看着他，杰生，”妈妈说，“你知道我病了，不是吗？”

爸爸在我们身后关上了门。

“T.P。”他说。

“先生。”T.P.在楼下说。

“班吉要下来了，”爸爸说，“和他一起去。”

我走到浴室门边，听到了水声。

“班吉。”T.P.在楼下说。

我听到了水声，一直听着。

“班吉。”T.P.在楼下叫着。我一直听着水声。

我听到了水声，我很认真地听着。

“干吗，班吉？”她问。她看着我，我出去的时候，她用双臂抱着我。

“你又找到加迪了，”她说，“你觉得加迪刚才是跑了吗？”加迪像树一样笑了。

我们去到加迪的房间。她在镜子前坐了下来，她放下了双手，看着我。

“怎么了，班吉，怎么回事？”她问，“你不能再哭了。加迪不会走的。看这里。”她说说着拿起瓶子，拔掉塞子，凑到我鼻子下面，“好甜。好香。好好闻啊。”

我转过了头，哭了，她拿着那瓶子看着我。

“啊，”她说，她放下瓶子走过来抱着我，“就这样吧。你想跟加迪说，但是你又不说。你想说但是又不能，对吧。加迪当然不会走。加迪不会走。等我换衣服。”

加迪穿上衣服又拿起了瓶子，我们一起下楼去了厨房。

“黛西，”加迪说，“班吉给你带了个礼物。”她弯下腰把瓶子放到我手里，“把瓶子给黛西，快。”加迪把我的手拉着伸出去，黛西拿走了瓶子。

“哦，真了不起，”黛西说，“我的孩子居然送给黛西一瓶香水。你快看啊，罗斯库司。”

加迪闻起来有一股树的味道的。“我们不喜欢用香水。”加迪说。

她闻起来就像一股树的味道的。

“过来吧，”黛西说，“你已经长大了，不能和其他人一起睡了。你现在是个大孩子了。十三岁。已经足够去莫里舅舅的房间里自己睡了。”黛西说。

莫里舅舅生病了。他的眼睛得了病，还有他的嘴巴。弗什端着盘子去给他送午饭。

“莫里说他要用枪射死那个流氓，”爸爸说，“我告诉他最好不要蛮干，最好先给帕特森说这件事。”他说完喝了一口酒。

“杰生。”妈妈说。

“射谁，爸爸？”昆汀问，“莫里舅舅为什么要射他？”

“因为他开不起一丁点儿玩笑。”爸爸说。

“杰生，”妈妈说，“你怎么能这样说。你坐在那里看着莫里中了埋伏被射伤，还要冷笑吗？”

“莫里最好不要中埋伏就是了啊。”爸爸说。

“射谁，爸爸？”昆汀问，“莫里舅舅要射谁？”

“没有谁，”爸爸说，“我又没有枪。”

妈妈开始哭了：“如果你羡慕莫里的午饭，怎么不当面跟他说。何必背着他，在孩子面前贬低他。”

“我根本就不嫌弃他，”爸爸说，“我崇拜莫里。他对于我自己的种族优越感来说是无价之宝。就算有人拿一对好马跟我换莫里我都不会换的。你知道为什么吗，昆汀？”

“不知道，爸爸。”昆汀说。

“我忘了怎么用拉丁语说‘我在阿卡迪亚了’，”爸爸说，“哈哈

哈……”他说，“我开个玩笑。”他喝干了酒，把杯子倒着放下，将手搭在妈妈的肩膀上。

“不要开玩笑。”妈妈说，“我的家人和你出身一样。莫里只是不太健康而已。”

“当然，”爸爸说，“身体不健康是所有人的大问题。在疾病中诞生、长大，在腐朽中死去。弗什。”

“先生。”弗什在我椅子后面说。

“去，拿着这细颈瓶，去打满酒。”

“再让黛西过来把本杰明带到楼上睡觉。”妈妈说。

“你是个大孩子了，”黛西说，“加迪已经不想和你一起睡了。快点吧，你该睡觉了。”看不到房间了，但我并没有停止哭泣，房间又出现了，黛西进来坐在床边看着我。

“你就不能做个好孩子不哭吗？”黛西说，“你不会哭了，对吧。那你能稍微等一下吗？”她走了出去。房门那里什么都没有。过了一会儿，加迪就出现在了那里。

“别出声，”加迪说，“我来了。”

我闭上了嘴，黛西把床单翻了过来，加迪钻进被子里。她并没有脱掉自己的浴衣。

“我这不是来了吗？”她说。黛西抱了一床床单来给她盖上，在她周围塞严实了。

“他马上就要睡着了，”黛西说，“我给你房间留盏灯。”

“好的。”加迪说着，把头放到枕头上，和我的靠在一起，“晚安，黛西。”

“晚安，亲爱的。”黛西说。房间变黑了。加迪闻起来就有股树木的味道。

我们抬头朝树里看去，她就坐在那里。

“她在看什么，弗什？”弗洛尼小声问。

“嘘。”加迪在树上说。

黛西说：“原来你们在这儿，”她从房子的转角处过来，“你干吗不听爸爸的话，上楼睡觉去，不要背着我偷偷跑出来。加迪和昆汀在哪儿？”

“我告诉过她不要爬到树上去，”杰生说，“我要去告发她。”

“谁在树上？”黛西说，她走过来朝树上看去，“加迪！”黛西说。树枝又开始摇动了。

“你个恶魔，”黛西说，“从那里下来。”

“小声点，”加迪说，“你不记得爸爸说过要我们安静吗？”她的双腿出现在视野中，黛西伸出手，把她弄了下来。

“把他们都弄过来干什么，你是不是没脑子？”黛西说。

“我可管不了她。”弗什说。

“你在那里做什么，”黛西说，“谁让你爬到房顶上的。”

“是她，”弗洛尼说，“她让我们来的。”

“谁让你听她的话的，”黛西说，“回家去，马上。”弗洛尼和T.P.走开了。他们刚离开我们就看不到他们了。

“半夜了还跑出来，”黛西说着，把我弄起来，把我们带到了厨房，背着我偷偷溜到外面去，“你知道吗，你们错过了睡觉的时间。”

“嘘……黛西，”加迪说，“不要那么大声说话。我们安静点。”

“那你就给我闭嘴，”黛西说，“昆汀在哪儿？”

“昆汀已经气疯了，因为他今晚必须听我的，”加迪说，“他还拿着T.P.的萤火虫瓶子呢。”

“我猜T.P.没有这瓶子也没关系了，”黛西说，“你去把昆汀找来，弗什。罗斯库司说看到他朝牲口棚那边跑过去了。”弗什跑了出去，消失在我们眼前。

“他们在那里什么都没干，”加迪说，“只是坐在椅子上到处张望。”

“他们自己就能做到，不需要你的帮助。”黛西说。我们穿过了厨房。

你现在想去哪里，卢斯特说。你要回去看他们打球吗？我们在那边找过了。对了，等下。你就在这里等着，我回去拿那个球。我想到了一个主意。

厨房很黑。树木在天空中看起来也很黑。丹从地下室里沿着楼梯晃

晃悠悠地走了上来，咬到了我的脚踝。我在厨房到处走，月光照亮了厨房。丹也跟着我追，追到了月光里。“班吉。”T.P.在屋子里喊道。

窗子旁边的那棵树并不黑，但是后面厚厚的灌木就很黑了。月光下，有虫子在草丛里鸣叫，发出窸窣的声音，我的影子在草丛上滑过。

“你，班吉，”T.P.在房子里说，“你躲到哪里去了？我就知道，你又跑了吧。”

卢斯特回来了。“等一下，”他说，“听着。不要到那边去。昆汀小姐和她的男朋友在秋千架旁边。你到这边来。回来这里。班吉。”

树下好黑。丹没有过来。他一直站在月光里。我看到了秋千，又开始哭了起来。

不要待在那里，班吉，卢斯特说，你知道昆汀小姐会生气的。

这时，秋千架上有两个人，过了一会儿只剩一个了。加迪很快走了过来，在黑暗中白蒙蒙的一片。

“班吉，”她说，“你是怎么溜出来的？弗什在哪儿？”

她用手抱住我，我闭上嘴，抓住她的裙子试图拉开。

“干吗，班吉？”她说，“怎么回事，T.P.？”她喊道。秋千里坐着的那人站了起来，朝我们走过来。我又哭了，拉着加迪的裙子。

“班吉，”加迪说，“是查理。你不认识查理吗？”

“他的黑奴在哪儿，”查理问，“他们怎么又让他到处乱跑了。”

“小声点，班吉，”加迪说，“走开，查理。他不喜欢你。”查理就走开了，我停止了哭泣，手还拉着加迪的裙子。

“干吗，班吉，”加迪说，“你能让我在这里待一下跟查理说说话吗？”

“叫他的黑奴过来，”查理说。他又回来了。我更大声地哭了，还用手抓着加迪的裙子。

“走开，查理。”加迪说。查理走了过来，把手放到加迪身上。我哭得更厉害，更大声了。

“不，不，”加迪说，“别，别。”

“他不会说话，”查理说，“加迪。”

“你疯了吗？”加迪说。她的呼吸开始加快。“他能看见。不要这样。”加迪反抗着。他们的呼吸都很快。“求你了，求你了。”加迪小声说。

“把他送走。”查理说。

“我会的，”加迪说，“放开我。”

“你要把他送走吗？”查理说。

“要，”加迪说，“放开我。”然后查理走开了。

“不要哭，”加迪说，“他走了。”于是我停下了。我能感觉到她胸部的起伏。

“我必须把他带回家，”她说说着抓起我的手。“我马上就来。”她小声说。

“等一下，”查理说，“让黑奴带他回去。”

“不，”加迪说，“我会回来的。走吧，班吉。”

“加迪。”查理小声地说，语气很强硬。我们继续往前走。“你最好回来。你会回来吗？”加迪和我开始奔跑。“加迪，”查理叫道。我们跑了出去，跑到了月光里，一直朝着厨房奔跑。

“加迪——”查理喊。

加迪和我一直在跑。我们跑上了厨房的楼梯，跑上了门廊，加迪在黑暗中跪下来抱着我。我听到了她的呼吸声，感到了她胸部的起伏。“我不会了，”她说，“我绝对不会再那样了。班吉。班吉。”然后她就哭了，我也哭了，我们拥抱着彼此。“不哭了，”她说，“不要哭了。我不会再那样了。”于是我闭上了嘴，加迪站起来，我们走进厨房，打开了灯，加迪开始在水池那边漱口，她漱得很用力。加迪闻起来有股树木的味道。

我一直都叫你不要到那里去，卢斯特说。他们很快就坐上了秋千。昆汀的手放在她头发上。他戴了一只红领结。

你这个老疯子。昆汀说。我要去跟黛西说你让他跟着我到处走。我要让她狠狠地抽你。

“我管不住他，”卢斯特说，“过来，班吉。”

“你管得住，”昆汀说，“你只是不管而已。你也一样跟在我屁股后

面。是奶奶让你一直监视我的吗？”他从秋千里跳出来，“如果你现在不马上把他带走，让他去别处，我就要让杰生抽你。”

“我可管不着他，”卢斯特说，“如果你觉得自己做得到的话你可以试试。”

“你给我闭嘴，”昆汀说，“你要把他带走不？”

“不，让他留在这里，”他说。他戴了一个红领结。阳光照在上面反射出红色的光芒。“看这里，杰生，”他点燃一根火柴，把它放到了自己的嘴里，然后他把那根火柴从嘴里拿出来。火焰还在燃烧，“想试试吗？”他说。我走了过去。“张开嘴。”他说。于是，我张开了嘴。接着，昆汀打掉了他手里的火柴。

“去你的。”昆汀说，“你想让他哭吗？你不知道他一哭就是一整天吗？”昆汀转头对卢斯特说，“我要去黛西那里告你不看好班吉。”于是她跑开了。

“过来，小妞，”他说，“嘿，回来。我不会开他玩笑了。”

昆汀跑到了房子里，她在厨房里转悠。

“你也不是好人，”他说，“不是吗？”

“他不知道你在说什么，”卢斯特说，“他又聋又傻。”

“是吗？”他说，“他这样多久了？”

“到今天已经三十三年了，”卢斯特说，“他一出生就这样。你是来演出的吗？”

“为什么这么说？”他说。

“我以前没见过你来这里。”卢斯特说。

“好吧，那又怎样？”他说。

“不怎么样，”卢斯特说，“我今晚要去看演出。”

他看着我。

“你是那个今晚用锯子演奏乐曲的人，对吧？”卢斯特说。

“你得花钱才能知道答案，”他说，他看着我，“他们干吗不把他关起来。”他说，“你把他带出来干什么？”

“你不要这样跟我说话。”卢斯特说，“我是真的管不住他。我到这里来只是为了找丢掉的钱，找到了我就可以去看演出了。现在看起来我是没机会了。”卢斯特看着地上，“你没多的钱了，对吧。”卢斯特说。

“没有。”他说，“我没有。”

“这样的话，我猜我最好再到其他地方找找。”卢斯特说，他把手放到衣兜里，“你也不想买个高尔夫球什么的，对吧。”卢斯特说。

“什么球？”他问。

“高尔夫球。”卢斯特说，“不要多的，我只要能买票的钱就够了。”

“干什么，”他问，“我能拿它来干什么。”

“我也觉得你拿它没什么用处。”卢斯特说，“到这边来，犟驴。”他

说，“过来看他们打球。拿去。你可以把它和曼陀罗花一起玩。”卢斯特捡起来递给我。它的颜色很鲜艳。

“你是从哪里搞到的？”他说。他的领结在眼光下泛着红光，我们开始往前走。

“在这堆草丛里找到的，”卢斯特说，“我还以为它就是我丢掉的钱呢。”他走过来拿走了它。

“轻点，”卢斯特说，“他看完了就会把它放回去了。”

“安尼斯·马贝尔·贝琦。”他说。他直直地看着房子。

“别出声，”卢斯特说，“他肯定会把它还回来的。”

他把它给了我，我开始哭。

“昨晚来找她的是谁？”他问。

“我不知道，”卢斯特说，“每晚都有人来，她可以从树上爬下来。我可不爱打听这些秘密。”

“他们当中有人泄露了自己的秘密。”他说。他看着房子。他走了过去在秋千下躺下。

“走开，”他说，“不要打扰我。”

“快走吧，”卢斯特说，“你现在不要给我胡闹了。昆汀小姐肯定在黛西面前告你了。”

我们走到栅栏边，透过盘绕的花草朝里看。卢斯特在草丛里找东

西。

“我在这里的时候，钱还在身上呢。”他说。我看到旗子迎风飞扬，阳光斜斜地照在一大片草地上。

“他们很快就会来的，”卢斯特说，“有一些已经到了，但他们又离开了。来吧，帮我找找吧。”

我们沿着栅栏走着。

“嘘，”卢斯特说，“他们不来，我又有什么办法。等一下。他们马上就要来了。看那边。在这里，他们来了。”

我沿着栅栏走着，女孩们把自己的书包从那里递来递去的。

“你，班吉，”卢斯特说，“回这里来。”

“你朝门外看有什么用，”T.P.说，“加迪小姐很久以前就离开了。她结了婚，离开你。你这样做没什么用的，抓着门，哭。她听不到你的声音。”

“他想要什么，T.P.？”妈妈说，“你不能跟他玩，让他安静一会儿。”

“他想去那边看看门里是什么。”T.P.说。

“呃，那不行，”妈妈说，“外面正在下雨。你就得和他一起玩，让他安静。本杰明。”

“没有什么可以让他安静下来，”T.P.说，“他觉得，只要他走到门边，加迪小姐就会回来。”

“胡说。”妈妈说。

我能听到他们说话。我出了门，就听不到他们的声音了，我下楼走到门口，女孩们背着书包从大门口走过去。她们看着我，很快地走开了，她们的头转向一边。我试图喊住她们，但她们头也不回地走了，而且速度还很快。然后，她们开始奔跑，我来到围栏的转角处，我不能再往前走了，我扶着围栏，看着她们的背影，试着说话。

“你，班吉，”T.P.说，“你在做什么，又溜出来了。你不知道黛西会用鞭子抽你吗？”

“你这样做有什么用，别在围栏这边对着她们哭，”T.P.说，“你把那些孩子都吓到了。看看她们，她们都到街的另一边去了。”

他是怎么出去的，爸爸说。你来的时候没关门吗，杰生。

当然不是，杰生说。难道你不知道我一向都记得关门的吗。你以为我想这样的事情发生吗。这个家真是够糟的，老天啊。我可一直都在跟你讲。我觉得你现在会把他送到杰克逊那里去，不然伯吉斯真的要开枪打死他的。

别说了，爸爸说。

我可一直都在跟你讲，杰生说。

我摸到它的时候，它是开着的，我在黄昏举着它。我没有哭，我试着停了下来，看着女孩们在暮色中穿行。我没有哭。

“他在那里呢。”

她们停了下来。

“他出不来。不管怎样，反正他不会伤害任何人。来吧。”

“我好害怕，我想走马路对面。”

“他出不来的。”

我没有哭。

“不要做胆小的猫咪。来吧。”

她们走在暮色中。我没哭，我抓着栅栏。

她们慢慢地来了。

“我害怕。”

“他不会伤害你的。我每天路过这里，他只是沿着栅栏在那儿走动。”

她们过来了。我打开门，她们停了下来，转身。我试着说话，我抓住了她，试着说些什么，她尖叫着，我试着说话，什么东西在发着亮光，我看不太清，我试图摆脱它们。把它们从我面前拂走，但是又看不清楚。她们要上山去，到那个它又会跌落的地方去了。我试着哭。但是我吸气进去，却呼不出来，没法哭了，我试图不从山上掉下去，但是我却摔下了山，落到了一个明亮的、旋转着的地方。

在这里，疯子，卢斯特说。他们来了一些人。现在，不要再哭了，也不要再呻吟了。

他们走到旗帜下面。他把旗子拔了出来，他们打着球，然后他把旗帜又放了回去。

“先生。”卢斯特说。

他看了看四周。“什么？”他说。

“要买高尔夫球吗？”卢斯特说。

“让我们看看吧。”他说。他来到篱笆处，卢斯特把球递了过去。

“你从哪儿弄来的？”他说。

“我捡到的。”卢斯特说。

“我知道，”他说，“在别人的高尔夫球袋里吗？”

“我在这个院子里捡到的，”卢斯特说，“我只要25美分。”

“你凭什么认为它就是你的。”他说。

“它是我捡的。”卢斯特说。

“那你再去捡一个啊。”他说。他把它放在他的衣兜里，就走了。

“我今晚要去看演出。”卢斯特说。

“是那样吗？”他说。他走到高地那边，“让开，‘加蒂’。”他说。然后，他打了一杆。

“你真是的，”卢斯特说，“你总是吵吵闹闹的。你怎么就不能安静点呢。难道你不知道大家都对你的话感到厌倦了吗？给。把你的曼陀罗

花扔掉。”他把它捡了起来，还给了我。“你需要一个新的。这个都已经坏了。”我们站在栅栏那里，看着他们。“那个白人很难相处，”卢斯特说，“你看他把我的球拿走了。”他们继续着。我们也继续沿着栅栏走。我们来到花园，不能再往前走了。我抓着围栏，透过花丛往外看。他们走了。

“现在你没什么好吵闹的了吧，”卢斯特说，“嘘，吵闹的人是我，不是你。过来。你干吗不抓着它呢。等下你就会后悔了。”他把花给了我，说，“你现在要去哪里？”我们的影子踩在草地上。他们在我们之前到达了树林。我的影子是第一个到达那里的。

然后我们到了那里，所有的影子都不见了。那里有一个装着花的瓶子。于是我把剩下的花塞了进去。

“你到底是不是大人，”卢斯特说，“还用瓶子来装杂草。你知道他们在小姐死后会怎么对你吗？他们会送你去杰克逊，那才是属于你的地方。杰生先生这样说的。你在那里可以整天跟那些疯子待在一起，整天抓着栅栏，想怎么叫就怎么叫。你觉得那样的日子怎么样？”

卢斯特打飞那些花：“你要是在杰克逊捣乱，他们就会这样对你。”

我试图拿起鲜花。可是，卢斯特站了起来，然后离开了。然后我就哭了起来。

“哭啊，”卢斯特说，“你哭得有个原因呀。好吧，那么给你一个原因。加迪。”他低声说，“加迪。你哭吧。加迪。”

“卢斯特。”黛西从厨房里喊道。

那些花又回来了。

“不哭了，”卢斯特说，“在这里，它们回来了，就像最开始的那样。好了，现在别出声。”

“你，卢斯特。”黛西说。

“是的，夫人，”卢斯特说，“我们来了。你不要捣乱了。”他猛击我的胳膊，我站起身来。我们走出树林。我们的影子都不见了。

“别哭了，”卢斯特说，“你看大家都看着你呢。不要哭了。”

“你把他放在这里。”黛西说。她走下了楼梯。

“你对他做了什么？”她说。

“没什么，”卢斯特说，“他只是又开始哭了。”

“是的，你说得对。”黛西说，“你肯定对他干了些坏事。你刚才去哪儿了？”

“在那边的香柏树下。”卢斯特说。

“你们让昆汀都愤怒了。”黛西说，“你为什么不能让他离她而去。你不知道她不喜欢他出现在视野中吗？”

“我们得到了尽可能多的时间。”卢斯特说，“他又不是我的叔叔。”

“不要顶嘴，黑鬼男孩。”黛西说。

“我没对他怎样，”卢斯特说，“他在那里玩，他突然开始又喊又哭的。”

“是你碰他的墓地了吗？”黛西说。

“我没有碰过他的墓地。”卢斯特说。

“不要骗我，孩子。”黛西说。我们走上台阶走进厨房。黛西打开火门，提了一把椅子放在前面，我坐了下来。我停住了哭泣。

你为什么要惹她生气呢，黛西说。你为什么不让他离开那里。

加迪说，他只是望着炉火。妈妈告诉他，他有了新名字。我根本就没有惹她生气。

我知道你不想，黛西说。他在房子的一边，而她则在另一边。你不要动我的东西。我不在的时候你不要碰任何东西。

“你都不害臊啊，”黛西说，“逗他玩。”她把蛋糕放在桌子上。

“我没有一直逗他，”卢斯特说，“他当时正在玩一个装满了臭甘菊的瓶子，突然就开始闹起来了。你也听到了的。”

“你没对他的花做什么手脚吗？”黛西说。

“我没有碰过他的墓地，”卢斯特说。“我要他的干什么。我只是在找我的钱而已。”

“你把它弄丢了，对吧。”黛西说。她点燃了蛋糕上的蜡烛。有些蛋糕很小块。有些是从大的上面切下来的小片。“我告诉过你要把它放好。事到如今，我猜，你是要我从弗洛尼那里再给你弄一个来吧。”

“我必须去看演出，带不带班吉都一定要去，”卢斯特说，“我才不会不分白天和黑夜地围着他转。”

“你必须做他打算要你做的事情，黑鬼男孩，”黛西说，“你听我的。”

“难道我不是一直都这样做的吗？”卢斯特说，“难道我不是一直都做他想要我做的事情吗？不是吗，班吉？”

“那你就继续这样做，”黛西说，“把他带到这里来，大吵大闹的。还惹得昆汀也生气了，现在你们都过来吃蛋糕，杰生来之前，我不希望他因为我自己花钱买的蛋糕对我指手画脚。我正在烤蛋糕，他用眼睛数着厨房里的每一个鸡蛋。接下来，你可要注意点，不要去惹他了，不然你今晚就不要去看演出了。”

黛西走了。

“你吹不灭蜡烛吗，”卢斯特说，“看我来吹。”他俯下身，鼓起了自己的脸。蜡烛灭了。我哭了起来。“嘘，”卢斯特说，“过来。在我切蛋糕的时候帮我看着火。”

我能听到时钟的声音，我能听到加迪站在我的身后，我能听到屋顶上还在下雨，加迪说。我讨厌下雨。我讨厌一切。随后，她把头放到我的腿上，她哭了，抱着我，我也哭了起来。然后，我又看着炉火，明亮、光滑的东西又出现了。我可以听到时钟和屋顶还有加迪的声音。

我吃了些蛋糕。卢斯特的手伸了过来，又拿了一块蛋糕。我能听到他吃蛋糕的声音。我看着炉火。

一根长长的线碰到我的肩膀。它一直延伸到门口，然后炉火就灭了。我哭了起来。

“你又在哭什么，”卢斯特说，“你看那里。”炉火没有灭。我停住

了。

“你不能像姥姥说的那样停下来，老老实实在地坐着看着火，安静一点，”卢斯特说，“你应该为自己感到羞耻。来。这里还有些蛋糕。”

“你这是在对他做什么，”黛西说，“你永远不会让他独自一人待着吗？”

“我只是试图让他闭嘴，免得打扰了卡林小姐。”卢斯特说。

“不知道什么东西又把他惹哭了。”

“我知道是什么东西让他哭了，”黛西说，“我让弗什回家的时候给你带根棍子。你试试就知道了。你已经一整天都不老实了。你是不是带他去河边了？”

“没有，”卢斯特说，“我们一直在这里，整天都在这个院子里，就像你说的。”

他的手又伸到了另一块蛋糕那里。黛西打了他的手：“你再试试，你敢试我就敢用这把菜刀把你的手砍了，”黛西说，“我敢打赌，他肯定一块都没吃到。”

“他吃了，”卢斯特说，“他跟我一样都吃了两块。你可以问他。”

“你再试试。”黛西说，“再试试。”

“这就对了。”黛西说。我觉得我又到了该哭的时候了。我也想象了莫里让我在他身上哭的场景。

加迪说：“他现在的名字叫班吉。”

“怎么会这样，”黛西说，“他出生时候用的名字还可以用，不是吗。”

“本杰明源自《圣经》，”加迪说，“这个名字比莫里更适合他。”

“怎么会是这样。”黛西说。

“妈妈说的。”加迪说。

“呵呵，”黛西说，“名称是不会帮助他的，也不会伤害他。改名字不会给人带来多好的运气。从我能记得我的名字的时候开始，我就叫黛西，而他们早就把我给忘了。”

“当它早就被人们忘了的时候，他们将如何知道你叫黛西的，黛西。”加迪说。

“就是这本书，亲爱的。”黛西说。她把它翻了出来。

“你会读吗？”加迪说。

“不会。”黛西说，“他们会为我念的。我要做的就是说一句我在哪儿就可以了。”

那根铁丝碰到我的肩膀，火就灭了。我哭了起来。

黛西和卢斯特开始打架。

“我看到你了，”黛西说，“哈，我看到了。”她把卢斯特拖到了角落处，摇晃他，“没有干什么事惹他，是不是呀？你就等着吧，等你爸爸回家。我希望自己跟以前一样年轻，要早几年，看不把你治得服服帖帖。我一定把你关在那个地窖里不让你去看今晚的表演，一定。”

“噢，姥姥，”卢斯特说，“噢，姥姥。”

我把我的手伸出去一直到以前飘着火苗的地方。

“抓住他，”黛西说，“抓他回来。”

我的手猛地缩了回来，我把它放在我的嘴里。黛西抓住我。我仍然可以听到我声音中间的钟声。黛西打中了卢斯特的头。我的声音变得更大了。

“去拿苏打水，”黛西说。她把我的手从我的嘴里拉了出来。我的声音变得更大了。然后我试图把手送到我的嘴里，但黛西一直抓着它。我的声音变得很大。

她在我的手上洒上苏打水。

“到储藏室里去找一下，顺便撕一块挂在钉子上的破布，”她说，“安静了。你不想再让你妈妈生病，对吧。在这里，看着火。好在黛西及时让你的手没被烧伤。看着火。”她打开火门。我看着炉火，但我的手没停，我也并没有停下。我的手试图进到我的嘴里，但是被黛西抓住了。她用布把我的手包裹起来。

妈妈说：“现在是什么情况，我生病的时候都得不到安宁吗？硬要我下床去跟两个成年黑人一起照顾他吗？”

“他现在没事了，”黛西说，“他马上就会安静了。他只是烧到了一点点自己的手。”

“家里有两个这么大的黑人，却把他带回屋子，让他在那里号啕大哭，”妈妈说。

“你们肯定是故意的，明明知道我生病了。”她走了过来站在我旁边。

“嘘，”她说，“对了，你给他吃蛋糕了吗？”

“蛋糕是我买的，”黛西说，“它从来没有进过杰生的厨房。我只是给他生日做了些补偿。”

“你想用廉价商店的蛋糕毒死他吗？”妈妈说，“你正干着好事儿呢。我就永远不能有一分钟的平静吗？”

“你去楼上睡一下吧，”黛西说，“这样他马上就会安静下来了。去吧，马上。”

“要是我把他留在这里，你们就好折磨他，”妈妈说，“我怎么能在那里睡着，他还在一边号啕大哭。本杰明。安静一分钟。”

“他没有地方去了。”黛西说，“我们没有得到以前属于我们的房间。他不能留在院子里，一哭起来所有的邻居就会看到他的。”

“我知道，我知道。”妈妈说，“这都是我的错，我很快就会消失，你和杰生两个相处得更好一些。”她哭了起来。

“嘘，你可别哭，”黛西说，“不然你又该生病了。你快点回楼上。卢斯特要带他到书房和他一起玩，直到我把他的晚饭做好。”

黛西和妈妈走了出去。

“嘘，”卢斯特说，“你别吵了。你要我再把你的另一只手给烧了吗？你又没有受伤。嘘。”

“好了，”黛西说，“别哭了。”她给了我拖鞋，我停住了。“带他去书房。”她说，“如果我再听到他哭，我就要抽你。”

我们去了书房。卢斯特打开灯。窗户变黑了，在墙上高大黑暗的东西又来了，我走过去摸了摸它。它就像一扇门，唯一的缺陷就是它并不是一扇真的门。

火在我身后燃了起来，我朝火走去，坐在地板上，拿着拖鞋。

火向上跳。它落在了妈妈椅子的坐垫上。

“嘘——”卢斯特说，“你能不能安静一回，我正在这里给你生火，你却看都不看它一眼。”

加迪说：“你的名字班吉。你听到了吗？班吉。班吉。”

“不要这样叫他，”妈妈说，“把他带到这里来。”

加迪抓着我的腋下把我抱了起来。

“起床，毛——我的意思是，班吉。”她说。

“不要抱他，”妈妈说，“你能不能把他领过来。这么简单的事情你都想不明白吗？”

“我可以抱着他。”……加迪说：“让我抱着他，黛西。”

“你走吧，自己都是小不点，”黛西说，“你连一只跳蚤都提不起，你走吧，但是要保持安静，像杰生先生说的那样。”

在楼梯的顶部有一盏灯。爸爸正在那里，穿着他的衬衫袖子。他看

着我们的方式就像在要我们小声点。加迪低声说：“妈妈生病了吗？”

弗什放我下来，我们走进了妈妈的房间。房间里生起了一堆火。它在墙上上升和下降。在镜中反射出了一堆炉火，我能闻到疾病的味道。它坐在妈妈头上的折叠布上。她的头发散在枕头上。火苗没有烧到它，但却照在她的手上，她的戒指在跳跃。

“来吧，给妈妈道晚安。”加迪说。我们走到床前。火从镜子里跳了出来。爸爸从床上爬起来，把我举起来，妈妈把她的手放在我的头上。

“现在是什么时间？”妈妈说。她的双眼紧闭。

“还有十分钟到七点。”爸爸说。

“现在让他上床睡觉太早了。”妈妈说。

“天不亮时他会醒来的，我根本无法再承受像今天这样的折腾了。”

“是的，是的。”爸爸说，他摸着妈妈的脸。

“我知道，我什么都不会，只会给你增加负担，”妈妈说，“但我很快就会消失。然后你就可以摆脱我了。”

“嘘，”爸爸说，“我带他去楼下一会儿。”他带着我走了，“来吧，孩子。我们下楼去一会儿。我们必须保持安静，昆汀正在学习，走吧。”

加迪走了过去，俯身把她的脸贴在床上，妈妈的手伸进了火光中。

她的戒指跳到了加迪的背上。

妈妈生病了，爸爸说。黛西会带你到床上去。昆汀在哪里。

弗什过来带他，黛西说。

爸爸站在那里，看着我们走过去。我们听到妈妈在她的房间里发出的声音。加迪说“嘘”。杰生一直在楼上。他把他的双手插在衣兜里。

“你今晚一定要乖乖的，”爸爸说，“保持安静，这样你才不会打扰到妈妈。”

“我们会安静的，”加迪说，“你一定要安静，杰生。”她说。我们蹑手蹑脚地走了。

我们听到了屋顶的声音。我看到镜子里的火。加迪再次举起了我。

“来吧，过来，”她说，“你可以回到炉火边去了。嘘，安静。”

“加达斯。”妈妈说。

“别哭了，班吉，”加迪说，“妈妈让你过去一会儿，你要做个好孩子，一会儿就回来了。班吉。”

加迪把我放了下来，我停住了哭泣。

“让他留在这儿，妈妈。他看完了火苗你就可以跟他说事了。”

“加达斯。”妈妈说。加迪弯下腰，把我提了起来。我们走开了。“加达斯。”妈妈说。

“嘘，”加迪说，“你现在还是能看到它。嘘。”

“把他带过来，”妈妈说，“他是太大了，你带着不方便。你必须停下来。你会把自己弄伤的。我们这种女人会因为体态笔直而感到骄傲。你想让自己看起来像一个洗衣妇吗？”

“他还不是太重啊，”加迪说，“我可以背着他。”

“好吧，我不希望他被人背着，而且，”妈妈说，“一个五岁的孩子，绝对不能，坐我的腿上。让他站起来。”

“如果你抱着他，他就会停下来不哭，”加迪说，“嘘。”她说，“你现在可以回去了。给你。这是你的坐垫。再见。”

“不，加达斯。”妈妈说。

“让他看，他会很安静的。”加迪说，“你起着点身子，我把垫子取出来。看那里，班吉。快看。”

我看着眼前的事物，没有哭。

“你迁就他太多了，”妈妈说，“你和你的爸爸，你们都不知道我要为此付出代价的人。达姆迪就是这样把杰生宠坏了，他花了两年时间才长大，而我身体还不够强壮，没办法对本杰明做同样的事情。”

“您不需要为他操心，”加迪说，“我喜欢照顾他。对吧，班吉。”

“加达斯，”妈妈说，“我告诉你，不要那样叫他。你的爸爸坚持要把那个傻傻的绰号给你冠在头上就已经够糟了。昵称是庸俗的。只有普通人才使用。本杰明。”她说，“看着我。”

“本杰明。”她说。她用手拉着我的脸，把我的脸转过来对着她的

脸。

“本杰明。”她说，“把坐垫拿开，加达斯。”

“他会哭的。”加迪说。

“把坐垫拿开，照我告诉你的做，”妈妈说，“他必须学会听大人的话。”

坐垫被拿走了。

“嘘，班吉。”加迪说。

“你去那边坐下，”妈妈说，“本杰明。”她捧着我的脸。

“住手，”她说，“别闹了。”

但我并没有停下来，妈妈抓住了我按在她的怀里，哭了起来，我也哭了。然后加迪拿回了垫子，把它放在妈妈的头部上方。她扶妈妈回躺到椅子上，妈妈压着红黄相间的坐垫哭了起来。

“嘘，妈妈，”加迪说，“你上楼去躺下，你生病了。我去找黛西。”她把我领到火那里，我看着明亮、光滑的东西。我能听到火和屋顶的声音。

爸爸把我背起来。他有股雨的味道。

“嗯，班吉，”他说，“你是一个好孩子。”

加迪和杰生在镜子里打斗。

“你，加迪。”爸爸说。

他们一直在打斗。杰生哭了起来。

“加迪！”爸爸说。杰生哭了。他不打了，但我们可以看见加迪在镜子里打斗，爸爸把我放了下来，开始打人了。他举起加迪。她反抗。杰生躺在地板上，哭了。他手里拿着剪刀。爸爸举着加迪。

“他把班吉所有的娃娃都弄坏了，”加迪说，“我要割断他的喉咙。”

“加达斯。”爸爸说。

“我会的，”加迪说，“我会的。”她反抗着。爸爸拉着她。她踢杰生。他滚到了角落那里，滚出了镜子前。爸爸把加迪带到了炉火旁边。他们都走出了镜子。只有火还在镜子里。就像在一扇门里燃烧着那样。

“住手，”爸爸说，“你想让正躺在她的房间里的妈妈难受吗？”

加迪停了下来：“他把我跟班吉做的所有的娃娃都弄坏了，”加迪说，“他之所以这样做完全是因为嫉妒。”

“我没有。”杰生说，他坐起来，哭了，“我不知道那些都是他的，我以为它们只不过是一堆旧报纸。”

“你怎么不知道，”加迪说，“你这样做只是……”

“闭嘴，”爸爸说，“杰生，”他说，“我明天会给你做一些的。”

加迪说：“我们做很多给你，你看这个坐垫。”

这时杰生走了进来。

班吉的二哥杰生下班后回到家，走进了书房。

“我不是一直都在告诉你，要小声点吗？”卢斯特说。

“现在又有什么事了？”杰生说。

“他这是故意捣乱，”卢斯特说，“他已经持续了一整天了。”

“那你不要去惹他就行了。”杰生说，“要是你不能让他安静下来，就带他出去，到厨房去。我们其余的人不能像妈妈那样把自己封闭在一个房间里。”

“姥姥说不能让他进厨房，要等到她吃了晚饭才行。”卢斯特说。

“然后和他一起玩，让他安静下来，”杰生说，“我工作了一整天，然后回到一个住满疯子的房子里。”他打开了那张报纸开始看上面写的东西。

你可以看看炉火，看看镜子，看看坐垫，加迪说。你不用等到吃晚饭的时候，现在就可以看着坐垫。我们听到了屋顶上的声音。我们听到了杰生在墙的另一边大声地哭泣。

黛西说：“你来了，杰生，你有没有惹他，惹了吧？”

“没有，夫人。”卢斯特说。

“昆汀在哪儿？”黛西说，“晚饭就要准备就绪了。”

“我不知道，”卢斯特说，“我没有见过她。”

黛西走了。“昆汀，”她说，在大厅里喊道，“昆汀。晚饭准备好

了。”

我们能听到屋顶的声音。昆汀有股雨的味道。

杰生做了什么，他说。

他砍坏了班吉所有的娃娃，加迪说。

妈妈说，不要叫他班吉。昆汀说。他坐在地毯上靠着我们。我希望天不会下雨，他说。要不你什么都干不了。

你一直在打架，加迪说。不是吗。

没有打得太厉害，昆汀说。

加迪说，你可以这样说。爸爸看到了的。

我才不关心，昆汀说。我希望不会下雨。

昆汀说：“黛西没说夜宵准备好了吗？”

“是的。”卢斯特说。杰生看着昆汀。然后，他又开始读报纸。

昆汀走了进来。“就快准备好了。”卢斯特说。昆汀跳了下来，坐在妈妈椅子上。

卢斯特说：“杰生先生。”

“什么事？”杰生说。

“给我25分钱吧。”卢斯特说。

“干什么？”杰生说。

“我要去看今晚的演出。”卢斯特说。

“我还以为，黛西要去弗洛尼那里给你要钱呢。”杰生说。

“她去要了的，”卢斯特说，“但是我把钱弄丢了，我和班吉找了一整天。你可以去问他。”

“那你可以从他那里再借点，”杰生说，“我赚的钱都是自己工作挣来的。”他开始读报纸。

昆汀看着炉火。火在她的眼睛里也在她的嘴上。她的嘴唇红红的。

“我试着让他远离那里。”卢斯特说。

“闭上你的嘴。”昆汀说。杰生看着她。

“我告诉过你，如果我看见你再和那个要上台表演的男孩在一起，我会怎么做吗？”他说。

昆汀看着炉火。

“你有没有听到我的话。”杰生说。

“我听到了的，”昆汀说，“那么你为什么不这样做呢？”

“不用你操心。”杰生说。

“我没有操心。”昆汀说。

杰生又开始看报纸了。

我能听到屋顶的声音，爸爸向前弯着身子，他看着昆汀。

喂，他说。谁赢了。

“没有人，”昆汀说，“他们把我们拉开了。老师们。”

“对手是谁，”爸爸说，“你会告诉我吗？”

“没什么好说的，”昆汀说，“他跟我一样大。”

“那就好，”爸爸说，“你能告诉是为什么吗？”

“不为什么，”昆汀说，“他说，就算他在我的桌子上放一只青蛙，我也不敢打他。”

“哦，”爸爸说，“他接着做了什么？”

“是的，先生，”昆汀说，“然后我就打了他。”

我们听到了屋顶和火的声音，还有东西在门外抽抽噎噎的声音。

“现在十一月的天气，他到哪里去弄青蛙啊。”爸爸说。

“我不知道，先生。”昆汀说。

我们听到了他们的说话。

“杰生。”爸爸说。我们听到了杰生的声音。

“杰生，”爸爸说，“过来，别弄了。”

我们听到了屋顶、火还有杰生的声音。

“现在就给我住手，”爸爸说，“你要我抽你吗？”爸爸抬起杰生坐在他的椅子上。杰生吸溜着鼻涕。我们听到火和屋顶的声音。杰生吸溜鼻涕的声音大了一些。

“我再说一次。”爸爸说。我们听到火和屋顶的声音。

黛西说，好吧。你们所有人都可以过来吃晚饭了。

弗什有股雨的味道。他闻起来也像一只狗。我们听到火和屋顶的声音。

我们听到加迪飞快地在走路的声音。爸爸和妈妈在门口张望。加迪穿过了门，走得很快。她没有看过来。她飞快地走着。

“加达斯。”妈妈说。

加迪停下了脚步。“是的，妈妈。”她说。

“嘘，卡罗琳。”爸爸说。

“过来。”妈妈说。

“嘘，卡罗琳，”爸爸说，“让她一个人待着。”

加迪来到门口，站在那里，看着爸爸和妈妈。她的眼睛扑到我身上又转移而去。我哭了起来，很大声。我站起身来。加迪走了进来，站在那里。

她背靠墙壁，看着我。我走向她，哭了，她缩在墙上，我看见她的眼睛，我哭得更响亮了，我拉她的衣服。她把她的手拿了开去，但我拉着她的衣服。她的眼睛就开始流眼泪了。

弗什说，现在你的名字叫本杰明。你知道你的名字是怎么来的吗。

你知道他们为什么要给你改名叫本杰明吗。他们是让你变成一个有蓝色牙龈的黑鬼，妈咪说，在旧时代的你爷爷老是给黑鬼改名字，然后做了神父，当他们看着他时候，他的牙龈也变成蓝色的了。他的牙龈以前可不是蓝色的。当怀孕的妇女在满月的时候看到了他，她们生的孩子也会是蓝色的牙龈。一天晚上，当十几个蓝色牙龈的孩子在那里跑来跑去的时候，他就再也没有回过家。负鼠猎人发现他在树林里。你知道谁吃掉了他吗。就是那些蓝色牙龈的孩子。

我们在大厅里。加迪仍然在看着我。她的手放在她的嘴上，我看着她的眼睛，哭了。我们拾级而上。她又停了下来，靠在墙上，看着我，我又哭，她继续走，我哭着跟着，她缩着靠在墙上，看着我。她打开了她的房间门，但我拉着她的衣服，我们去了卫生间，她靠在门上，看着我。然后，她把她的手臂围在她的脸上。我推她，哭了。

你对他做了什么，杰生说。为什么你不能让他独自一人待着。

我没有碰他，卢斯特说。他整天一直这样。他需要被鞭子打了。

他需要被送到杰克逊去，昆汀说。怎会有人住在这样的房子里。

如果你不喜欢他，年轻的女士，你最好就给我出去，杰生说。

昆汀说，我要去。你不要担心。

弗什说：“你过去一点，这样我就可以把我的腿烘干了。”他把我推回了一点。

“你现在不是又抱怨了吗？现在你仍然看得到嘛，你不是想看火

吗？你不必像我一样出去淋雨了。你出生得幸运，你知道吗？”他在火堆前躺下。

“你知道你的名字本杰明是怎么来的吗，”弗什说，“你妈妈太为你感到骄傲了。妈咪说你给他丢脸了。”

“你就待在那里，让我烘干我的腿，”弗什说，“你知道我会做什么，我会把你的屁股的皮都剥了。”

我们听到火、屋顶和弗什的声音。

弗什快速起身，猛地抽回双腿。爸爸说：“好吧，弗什。”

“今晚我会喂他吃东西，”加迪说，“有时候弗什喂他他会哭。”

“拿这个盘子去，”黛西说，“赶紧回去喂班吉。”

“你想不想让加迪喂你吃饭？”加迪说。

昆汀说，他一定要把那只又旧又臭的拖鞋放到桌子上吗。你为什么不在厨房喂他吃东西。这就像一头猪吃过的一样。

如果你不喜欢我们的饮食方式，你最好不来的好，杰生说。

蒸汽从罗斯库司那里冒了出来。他坐在炉前。烤箱的门开着，罗斯库司把他的脚放在里面。用蒸汽洗碗。加迪轻轻把勺子放到我的嘴里。在碗的内部有一个黑点。

好了，行了，黛西说。他不会再来打扰你了。

碗里的东西下降到黑斑下面。然后碗空了。有人把它拿走了。“他

今天晚上是饿了。”加迪说。碗回来了，我看不见碗底的黑点。然后，我又看到了。“他今天晚上快要饿死了。”加迪说，“你看他吃了多少。”

是的，他会，昆汀说。你送他来监视我。我恨这个家。我要逃出去。

罗斯库司说：“这雨要下一整夜。”

您已经在外面很长一段时间，还差三顿饭没在外面吃，杰生说。你看我跑不跑，昆汀说。

“那么我就不知道我要做的事情是什么了，”黛西说，“我的腿关节疼得很厉害，现在我几乎都不能移动了。整个晚上都在爬楼梯。”

“哦，我也不会感到惊讶，”杰生说，“不管你做了什么我也不会感到惊讶。”

昆汀把她的餐巾纸扔在桌子上。

“闭上你的嘴，杰生。”黛西说，她走了过去，用她的手臂围着昆汀，“坐下来，亲爱的，”黛西说，“他应该感到羞耻，他总是把自己的错误扔在你头上。”

“她又开始生气了，对吧。”罗斯库司说。

“闭上你的嘴。”黛西说。

昆汀推开了黛西。她看着杰生。她的嘴唇红红的。她拿起一杯水，摇摆着她的手臂，看着杰生。黛西抓住了她的胳膊。他们打了起来。玻璃摔到了桌子上，水洒到了上面。昆汀跑走了。

“妈妈生病了。”加迪说。

“是啊，”黛西说，“这样的天气可以让任何人都生病，你什么时候才吃完，孩子？”

“你这天杀的，”昆汀说，“该死的你。”我们可以听到她跑上楼梯的声音。我们都到书房去。

加迪给我坐垫，这样我可以看看坐垫和镜子还有炉火。

“昆汀学习的时候，我们必须保持安静，”爸爸说，“你这是干什么，杰生？”

“没什么。”杰生说。

“那你还是过来玩吧。”爸爸说。

杰生从角落出来。

“你在嚼什么东西？”爸爸说。

“没嚼什么。”杰生说。

“他又在嚼。”加迪说。

“到这里来，杰生。”爸爸说。

杰生把那东西扔进火里。它被烧出滋滋声，变得松散，变成了黑色。然后又变成灰色。最后消失不见了。加迪和爸爸还有杰生都坐在妈妈的椅子上。杰生突然闭上了眼睛。

他的嘴动了动，像是在品尝着什么东西一样。加迪的头靠在爸爸的肩膀上。她的头发像火一样，眼里闪烁着一点点炉火的光芒。我走过去，爸爸把我举起放到椅子上，加迪抱住了我。她闻起来像树木一样。

她闻起来像树木一样。角落里一片漆黑，但我还是能够看见窗口。我蹲在那里，手里拿着拖鞋。我看不到它，但我的手能看到，我能听到黑夜一点一点降临的声音，我的手摸着那只拖鞋，但是我却没法看到自己，可我的手就可以看到它，我坐在那里，听着天色变黑。

“原来你在这里啊，”卢斯特说，“你看我得到了什么。”他给我看，“你知道我在哪里得到了它的。昆汀小姐给我的。我还知道不会看不成戏的，你在这里做什么？”

“我想你是要准备溜到外面去。难道今天你还没有哭够闹够，难道还要躲在这样的空房间里闹？过来睡觉吧，我们还可以在开始之前赶到。我不能整晚都陪你，等那大喇叭一吹响，我就得走了。”

我们没有回我们的房间。

“我们就是在这里得的麻疹，”加迪说，“今晚我们为什么要睡在这里？”

“你会在意自己睡在哪儿？”黛西说。她关上了门，坐了下来，开始脱我的衣服。杰生哭了起来。“嘘，别哭。”黛西说。

“我要和达姆迪睡。”杰生说。

“她生病了，”加迪说，“等她病好点了就可以和她一起睡了。黛西。”

“嘘——”黛西说。杰生安静了下来。

“我们的睡衣还有其他东西都在，”加迪说，“真像是搬了家一样。”

“你最好穿上睡衣，”黛西说，“你把杰生的衣服解开。”

加迪解开了杰生的衣服，杰生快要哭了。

“你想被鞭子抽吗？”黛西说。杰生停止了哭泣。

“昆汀。”妈妈在大厅里说。

“什么事？”昆汀隔着墙壁回答道。我们听到妈妈锁门。她从门外看着我们然后走了进来，走到床边，弯下腰亲吻了我的额头。

“等你让他睡下，去问问黛西反不反对我用热水袋。”妈妈说，“告诉她，如果她反对的话，我就不用了，去跟她说下我也只是想问问她的意思。”

“好的夫人，”卢斯特说，“过来。把裤子脱了。”

昆汀和弗什进来。昆汀把脸转开了。“你哭什么？”加迪说。

“嘘，”黛西说，“你脱光衣服，现在在家里，你可以回去了，弗什。”

我脱光衣服，看着自己，哭了起来。“嘘，”卢斯特说，“找他们是不会有什么好的。他们走了。你继续这样，我们是不会再给你过什么生日的。”他帮我穿上了睡袍。我停住了，然后卢斯特停了下来，他的头朝着窗户。然后，他走到窗前，朝外面看去。他回来了，挽着我的手臂。“过来，她来了，”他说，“安静点，就现在。”我们走到窗前，看着

她了。它从昆汀的窗口爬出去，爬上了对面的树。我们看着树摇晃。摇晃的地方一点点往下掉，接着，那黑影离开了树，我们看着它穿过草地，然后进入我们无法看到它的地方。“来吧，”卢斯特说，“现在，你听它们的号角声。你快跟着我一起到那张床上去。”

里面摆着两张床。昆汀睡到了一张床上。他把他的脸转向墙壁。黛西让杰生和他一起住。加迪脱掉了她的衣服。

“看看你的内裤，”黛西说，“你妈没看到你，你就该感到高兴了。”

“我已经告诉她了。”杰生说。

“我想你也会的。”黛西说。

“我能从中得到什么，”加迪说，“搬弄是非的人。”

“我得到了什么。”杰生说。

“你为什么不穿上你的睡衣呢？”黛西说。她去帮助加迪脱下她紧身胸衣和内裤。“看看你啊。”黛西说，他们在后面用加迪棉质的内裤给他擦屁股，“全都打湿了。”她说。

“但是你今晚不能洗澡了。这些给你穿上。”她给加迪穿上睡衣。加迪则爬上了床，黛西走到门口，站在那里，她手里提着灯。

“你们现在都给我安静下来，你们听见了没有？”她说。

“好吧。”加迪说，“妈妈今晚不会来，”她说，“所以，你们还是听我的。”

“是的，”黛西说，“去睡觉吧。”

“妈妈生病了，”加迪说，“她和姥娘都生病了。”

“嘘，”黛西说，“你快睡觉吧。”

房间变黑了，除了门那里。然后门也变黑了。加迪说：“嘘，莫里。”她把她的手放在我身上，这样我就变得安静了，我们听到了我们自己的声音，我们听到了黑暗的声音。

它走了，爸爸看着我们。他看着昆汀和杰生，然后他走了进来，亲吻加迪，并把他的手放在我的头上。

“妈妈病得很重吗？”加迪说。

“没有，”爸爸说，“你是不是要把莫里照顾得好好的呢？”

“是的。”加迪说。

爸爸走到门口，再次看看我们。然后房间又变黑了，他站在黑色的门那里，然后门也变黑了。加迪抱着我，我能听到我们周围的一切以及黑暗的声音，我还能闻到其他的一些东西。然后我看清楚了窗户，那里的树木发出沙沙声。然后黑暗开始慢慢扩散，一如既往以光滑而明亮的姿态，直到加迪也这样说的时候，我已经睡着了。

[1](#)原文为 caddie，本意为“球童”，但文中与“加迪”同音。班吉每听到有人叫球童，就会想起姐姐加迪。——译者注

[2](#)“加迪”是对“加达斯”的昵称。——译者注

[3](#)这是孩子们对奶奶的昵称。——译者注

[4](#)酒名。——译者注

1910年6月2日

当窗框的影子出现在窗帘上的时候差不多到了七八点钟，那个时候我一直听着手表的声音。这是祖父的，当爸爸把它给我的时候，他告诉我说：我给你的是一切希望和愿望的陵墓；你要用它来证明所有人类经验都是错误的 reducto absurdum ¹，人类所有的经验对你的祖父或者曾祖父来说不见得是有用的，对于你来说也未必是有用的。我把它送给你不是说让你记得时间，而是要你有时候忘记时间，不要想着用太多力气去征服时间。因为从来没有人能战胜时间，他说。甚至没有人和时间较量过。战场表现的只是人类自己的愚蠢和绝望，胜利是哲学家和傻子的错觉。

手表放在领盒旁边，我躺着，听着它的声音。听着它的声音，是的。我不觉得有人会刻意听手表或时钟的声音。你不必这样做。你可以忘却这种声音很长一段时间，然后在第二次嘀嗒的时候，它可以使你感到，虽然才听见声音，时间却在绵远悠长地流逝着。就像爸爸说的，在这条漫长而孤独的光射线上你可能会看到耶稣在散步，或者之类的东西。还有圣徒弗朗西斯说过死亡是他的“小妹妹”，但他却从未有过妹妹。

透过墙，我听到施里弗床里弹簧的声音，然后是他的拖鞋在地板上摩擦的声音。我起身走到梳妆台用我的手沿着它滑动，碰到了那块手表，并把它面朝下放着又回到了床上。但窗扇上的阴影仍然存在，我差不多能根据影子移动的情况，说出现在的时间是多少，所以我不得不把我的背朝向它，感觉自己像过去眼睛长后脑上的动物似的，我总是有这样的感觉。以后你会对养成这样一些懒惰的习惯而后悔的。爸爸说。基督没有被钉十字架：他是被一分钟转动一下的小轮子磨死的。他没有妹

妹。

所以只要我知道我无法看到它，我就会开始想到底是什么时候了。爸爸说，对机械的位置进行不断地推测，这是一种心智有问题的症状。爸爸说排泄物就像出汗。我说好吧。猜测着。我继续着，也在猜测。

如果阴天一直持续，我就看着窗子，想着他对闲时习惯所说的话。如果天气持续这样的话，思考这些东西对身在新伦敦的他们来说是很不错的。为什么会变天呢？这是一个做新娘的月份，那个声音说着，她从镜子里跑了出来，从堆积的气味中跑了出来。玫瑰。玫瑰。杰生·康普生夫妇为女儿举行婚礼。玫瑰。不像茱萸、马利筋那种贞洁的花草。我说自己就已经犯了乱伦之罪，爸爸。玫瑰。狡猾又安详。如果你进入哈佛一年，但却没有看到赛船比赛，那你就应该找人给你退款。把它给杰生。让杰生在哈佛待上一年。

施里弗站在门口，把他的衣领翻了起来，他的眼镜上有玫瑰色的光泽，好像是洗脸时候红色的脸染上去的。“你今早打算旷课吗？”

“有那么晚了吗？”

他看了看手表。“贝尔在两分钟后就会到，我不知道已经那么晚了。”他还在看着手表，嘴里念着。“我必须快点，我不能再来一次了。上周院长就警告过我了。”他把手表放回衣兜里，然后我就没说话了。

他说：“你最好穿好你的裤子，跑着去。”他走了出去。

我站起来，到处走着，透过墙壁听到他的声音。他进入了起居室，走向门口。

“你准备好了没有？”

“还没有。你走吧，我会赶上的。”

他走了出去。大门关上了。他的脚步声沿着走廊前进着。然后，我再次听到了手表的声音。我不再四处乱逛，走到窗前，并把窗帘提到一边，看着他们朝教堂跑去，同样的人同样挣扎着，努力地把手揣进松垮的大衣袖子里，同样的书和翻飞的衣领就像斯波特和洪水中的瓦砾一样。施里弗是我的丈夫。啊，让他独自一人待着，施里弗说，他去追那些女人，跟我们有什么关系呢。在南方，人们以自己是处男为耻。男孩。男性。他们对此谎话连篇。因为它对妇女的意义并不那么大，爸爸说的。他说，发明贞操的是男人而不是女人。爸爸说，这就像死亡：在这种状态下只有其他人是被排除在外的，但是要相信这并不重要，他说，这就是为什么所有的一切都那么令人感到悲伤的原因：不仅仅是童贞的问题，我说，为什么不是处子的不能是我而是她呢。他说，这也是所有这一切都那么令人悲伤的原因之一；没有什么东西值得改变，施里弗说，他不就是去追那些女人吗？我说你有没有姐妹呢？你有没有？你有没有？

斯波特在他们中间就像身在充满枯叶的街道上的鳖一样，他的衣领立到了耳朵那里，迈着他习惯性松散的步伐走来走去。他是从南卡罗来纳州来的。他喜欢在酒吧里夸耀说，他从来没有跑着进过教堂，也从来没有准时到过那里，并在四年内从未缺席过，要么是礼拜，要么是上的第一堂课上他都不穿衬衫而且脚上不穿袜子。大约十点钟的样子，他就会出现在汤普森的酒吧里，点两杯咖啡，坐下来。他从口袋里拿出袜子，他脱掉了自己的鞋子，一边把袜子穿上，一边等着咖啡冷却下来。大约中午时分，你会看到他穿着衬衫立着衣领，跟其他人一样。别人跑步超过了他，但他从来没有加快自己走路的速度。过了一会儿四周就都空了。

一只麻雀在阳光里飞行，落到窗台上，并竖起它的头看着我。它的眼睛圆而明亮。起初，它用一只眼睛看着我，然后用另外一只眼睛来看，它的喉咙抽动的速度比任何脉冲都快。时钟开始报时了。那只麻雀不再转动眼睛，用同一只眼睛直直地看着我直到时钟不再响，就好像它也在听钟声一样。然后它拍着翅膀跳下去，飞走了。

过了一会儿，那最后的声音才停息了下来。周围保持着宁静，很长一段时间里，感觉多过了听觉。就像那些一直在响着的时钟一样，在漫长的日子里，耶稣和圣弗朗西斯谈论着他的姐妹。因为如果只是下地狱，如果所有的一切都是这样的话。如果所有的东西都会自己结束。除了她和我之外没有任何其他人。如果我们能够完成某种可怕的事情他们就会逃到地狱去躲避我们。我犯下了乱伦，我说，爸爸，就是我，不是达尔顿·阿莫斯。在他说达尔顿·阿莫斯的时候。达尔顿·阿莫斯。达尔顿·阿莫斯。在他把手枪放到我手里的时候我没有提到他。我不提他的原因是因为他会下地狱，我也会。达尔顿·阿莫斯。达尔顿·阿莫斯。达尔顿·阿莫斯。如果我们能做些和这个一样恐怖的事情，爸爸会说太糟了，人不能做这么可怕的事情，他们根本不能做可怕的事情，他们第二天甚至记不得今天所经历的恐怖，我说，你可以逃避掉所有的一切，而他说，啊，你可以吗。我向下看，看到我喃喃细语的骨头，还有像风一样的深深的水流，就像屋顶的风一样，很长一段时间过后，他们无法在荒凉的沙地上把骨头分辨出来。直到那天他说起来吧。只有烙铁才会浮上来。这并非是在你意识到没什么东西能够帮助你——宗教、骄傲，任何东西——而是在你意识到自己不需要任何帮助的时候。达尔顿·阿莫斯。达尔顿·阿莫斯。达尔顿·阿莫斯。如果我能够成为他心宽体胖的母亲，我会坐起来大笑，用我的手抓住他的爸爸，在他活着之前看着他死去。她突然出现在门边。

我去梳妆台上拿起手表，脸色仍然不好。我拍了拍水晶梳妆台的角落，我的手抓住了玻璃碎片，把它们放进烟灰缸，把手表扭了下来，把它们放在烟灰缸里。手表嘀嗒地走。我把正面翻过来，小轮子滚过来滚过去，我不知道有什么比这更好的了。耶稣走在加利利上，而华盛顿不讲假话。爸爸给杰生从圣路易斯博览会买回来一条漂亮的手表挂链：一块微小的漂亮的玻璃，你把眼睛眯成一条缝，就能看到摩天大楼、像蛛丝的摩天轮，还有针尖大的尼亚加拉大瀑布。表盘上有一个红色的涂片。当我看到它的时候，我的拇指开始疼痛起来。我把手表放下，走到施里弗的房间里，拿到了碘，涂在了伤口上。我用毛巾清理掉了其余部分附着在圈子上的玻璃。

我准备了两套内衣、袜子、衬衫、衣领和领带，把一切都打包好。把一切都放了进去，除了我的新衣服、一件旧衣服、两双鞋和两顶帽子还有我的书。我背着书并把它们堆到客厅的桌子上，那些是我从家里带来的，爸爸说以前人们靠藏书来判断一个人的地位，如今却是根据他借去不还的是什么书来判断。我听着他的声音，直到钟声停止。

我洗了澡，剃了胡子。水让我的手指又有一点点痛，所以我又用碘酒在上面涂了一遍。我把我的新衣服，把我的手表、其他衣服和配件以及我的剃须刀和刷子都放到了我的手包里，把钥匙用一张纸包着，放在一个信封里，写上爸爸的地址，并写下了两张字条，然后分别密封进信封。

影子还没有完全消失。我站在门里，看着影子在动。它以不易觉察的速度移动，匍匐到门口，将影子赶回到门里。当我听到的时候只有她已经开始移动了。在镜子里，她一下跑了过去，我感到莫名其妙。她跑得飞快，她跑出镜子的时候像云一样，她的面纱和她的高跟鞋很长，就像皑皑白雪纷飞一样，一只手紧紧地攥着新娘的礼服，还带着玫瑰的味

道，声音在伊甸园上空响彻着。然后，她穿过了门廊，我听不到她的高跟鞋的声音，然后在月光下像云一样，浮影的面纱跑过草地，然后一直往吼叫的地方跑去。她的衣服拖在后面，她紧紧地抓着她的婚纱，一直往吼叫的地方跑去。T.P.说真的好喝，班吉却在木箱下大声吼叫。爸爸起伏的胸口上穿着一件V形的胸衣。

施里弗说：“怎么，你没有.....你这是去婚礼还是去守灵？”

我说：“我刚才起不来。”

“你穿得这么整齐当然来不及了。什么事？你觉得今天是星期天吗？”

我说：“我想警方不会抓我吧，因为我穿的是新衣服。”

“你在想什么，我说的是老是在学校散步的那些学生。你是不是觉得自己太棒了而不想去学校？”

“我打算先吃饭。”在那里的影子也不见了。我踏进阳光里，再次找到自己的影子。我在影子之前先走下台阶。半小时过去了。然后，钟声停止了。迪肯也并不在邮局。我把两封信都贴上了邮票，把其中一个邮寄到了爸爸那里，把给施里弗的那个放在我里面的衣兜里。然后我记得我最后一次见到迪肯，那是在阵亡将士的纪念日，他穿着G.A.R.的制服，走在游行队伍的中间。如果你在我待的那个角落里等待足够长的时间你就会看到他跟着游行队伍走过来。再前一次是哥伦布还是加里波第或者是某人的生日的时候。他走在街道清扫者中间，戴着一顶帽子，背着一个两英寸的意大利国旗，抽着雪茄，走在扫帚和簸箕中。但是，最后一次是G.A.R.的时候，因为施里弗说：

“现在，看看你爷爷对那个可怜的老黑鬼所做的一切吧。”

“是的，”我说，“现在他可以一天又一天地跟在游行队伍后面，如果没有我的祖父，他还得像白人那样工作。”

我没有在其他地方看到过他了。但我从来不认识在你想找他们的时候就能找到的拥有工作的黑鬼，更不要说一个靠国家吃闲饭的黑人了。

一辆车开了过来。我坐上去了城里，去了帕克的店，吃了一顿不错的早餐。在我吃饭的时候，我听到了时钟报时的声音。但后来我想我至少需要一个小时，抓紧时间，没有什么能够比进入到机械流程的历史更为悠久的了。

当我吃完早饭，我买了一支雪茄。女孩说，那种五十分钱的是最好的，所以我买了一支点燃了它，出门走到街上。我站在那里，抽了几口，然后我把它拿在我手中，并继续向拐角走去。我路过珠宝商的窗口，我把脸转了开去。在拐角处，有两个擦皮鞋的纠缠我，一边一个，他们的声音沙哑刺耳，像乌鸦一样。我把雪茄给了其中一个人，给了另外一个人一块硬币。然后，他们就放了我。拿了雪茄的那人试图把雪茄卖给拿了钱的那个人。

天上的太阳就是一只时钟，我想当你不想做事的时候，你的身体是怎样通过某种诱骗的方式让你去做的。我能感觉到我的脖子后面的肌肉，我也能听到我的手表在我的衣兜里嘀嗒地走动，过了一段时间我把所有其他的声音都排开了，在我的衣兜里只剩下手表。我转身回到了街上，回到了那个窗口前。他在窗子后面的桌子上修表。他的头发开始慢慢不见了。在他的眼睛上戴着一片放大镜——他的脸上有一根金属管子嵌在眼眶里。我走了进去。那个地方充满了嘀嗒声，像九月草丛中的蟋

蟀，我能听到一只大钟的声音，就在他的头部上方的墙壁上。他抬起头来，他的眼睛又大又模糊，透过眼镜看着我。我把我的表拿了出来，并把它交给了他。

“我打破了我的手表。”

他在他的手里把表翻转了过来：“我就说，你肯定是踩到它了。”

“是的，先生，我把它从衣柜中取出的时候掉到了地上，还在黑暗中踩到了它，但它仍然可以走。”

他把它敲开，眼睛眯成一条缝：“似乎没什么问题，但是我分辨不出来，除非让我做个完整的检查。我今天下午给你弄。”

“我过会儿再把它带来，”我说，“你能不能告诉我，橱窗中的那些手表有没有好的？”

他把我的手表握在他的手掌，抬头看着我，他模糊的眼神透过镜片看着我。

“我与一个老乡打了一个赌，”我说，“我今天早上忘了我的眼镜。”

“为什么？好吧，”他说。他放下了手表，从他的凳子上坐起来看着屏障，然后，他抬头看了看墙上的钟：“现在已经二十……”

“先不要说，”我说，“先生，请告诉我，它们中有没有好的。”

他又看着我。他坐回了凳子上，把眼镜推到了额头上。眼镜在他的眼眶上留下了一圈红色的痕迹，等痕迹消失之后，他的整张脸看起来就干净多了。“你今天是要庆祝什么吗？”他说，“船赛下周才开始，对

吧？”

“不，先生。今天只是一个私人的庆祝。生日。那些表有没有好的？”

“没有。但是它们都还没有经过调试，也没有定好时间。如果你想要买一个的话……”

“不，先生。我不想买表。我们在家里已经有了一面钟了。我就想把手里的这块表修好。”我伸出了我的手。

“你最好现在就把它留在这里。”

“我稍等一会儿就会把它带回来。”他把表给了我。我把它放进了自己的衣兜里。我现在听不到它走动的声音了，其他的声音盖住了它。“我很抱歉，希望没有耽误你太多的时间。”

“没关系的。等你准备好了就把它带过来吧。你最好把今天的庆祝推迟到我们取得赛船胜利之后去。”

“好的先生，我会的。”

我走了出去，关上了门，发出叮当声。我往回看了看窗子里面。他正在透过栅栏看着我。在橱窗里放着十多只手表，它们的时间都不相同，这让我对自己这块表的时间也觉得不确定了。它们的时间都彼此不同。我听到了自己手表的声音，在我的衣兜里嘀嗒嘀嗒地走着，虽然没有人能够看到它，虽然它已经不能说明时间了，不过谁又能说明时间呢？

于是我告诉他就按照那只表吧。因为爸爸说钟表会杀死时间。他说

过时间如果不存在于小小的齿轮上那么它就是死的。两只指针水平地张开，形成一定角度，就像在风中倾斜的海鸟。我肚子里都是几年来的苦水，就像黑鬼说的新月牙儿里装满水一样。钟表商人又在干活了，他把他的板凳又放下，金属管子又回到了他脸上。他的头发从中间分开。一直延伸到秃顶的部分，就像十二月被抽干了水的沼泽地。

我看到了街对面有一家五金店。我以前还不知道买熨斗是论磅买的。

“这些熨斗是十磅的。”营业员说。“十磅一只”，它们比我想象得都要大。所以我买了两只六磅重的小熨斗，因为它们绑起来的时候看起来就像一双鞋子一样。两只在一起也很重，但是我又想爸爸过去是怎么说人类经验的*reducto absurdum*的，想到我所拥有的唯一一个进入哈佛的机会。也许到了明年，我就会想也许要两年时间我才能学会学校里的东西。

但是两个熨斗确实有些重了。一辆车开了过来。我上了车。我没看到前面的标志牌。这辆车已经满员了，里面坐的都是一些读书看报的有钱人。只有一个靠着黑鬼的座位是空着的。他穿着一双干净闪亮的鞋子，手里拿着一支灭掉的雪茄烟头。我过去常想，一个南方人一定要随时对黑人保持警惕。我觉得北方人都这样认为。当我第一次来东部的时候我就一直在想你必须记住要把它们当作有色人种而不是黑人来看待，如果我没有碰到那么多的黑人孩子，和他们打交道，我要花更多的时间与精力去体会到，所有的人不管是黑人还是白人，应该按他们对自己的看法来看待他们，让他们自顾自地快活的办法。那个时候就是我意识到黑人与其说是人不如说是一种行为方式，是一种他们所处的环境中周围白人的反应。但是我最初认为自己身边没有这么多黑人我会感到失望，因为我认为北方人认为我是这样的，但是直到那天在弗吉尼亚的早上，

我才知道我真正怀念的是罗斯库司，还有黛西以及其他的人。我醒来的时候火车刚好停下，我起身往外看去。车子挡在了一个十字路口中间，两条从山上蔓延下来的栅栏在那里交会之后又分叉，就像一支长角上的纹理的一部分一样，在这硬硬的车辙印中，有个黑人骑着骡子，等着火车开走。他在那里待了多久我不清楚，但是他就是那样安静地坐在那里。他的头上包着一张布，就好像他和他的骡子跟栅栏和道路一样，是生在那儿的，也和小山一样，就像一个被放在那里的标志，上面写着你已经到家了。他没有用马鞍，他的双腿几乎都垂到了地面上。那头驴子看起来像一只兔子一样。我拉起了窗户。

“嘿，大叔，”我说，“是这条路吗？”

“啊？”他看着我，然后松了松那块布，把它从自己的耳朵上捞了起来。

“圣诞礼物！”我说。

“哦，真的啊，老爷。你总算是抢在我的前头了吗？”

“这次我放过你。”我从我的裤子里掏出一些钱，“但是下次要小心点。两天后过了新年我还会回来经过这条路的，到时候看着点路啊。”我把钱从窗户扔了出去，“给你自己买点东西。”

“好吧，呃……”他说。他从骡子上下来捡起硬币，在裤子上蹭了蹭。“谢谢你，我的大少爷，谢谢。”火车开动了，我把身子探出车窗，伸到寒冷的空气中。扭头往回看，看到他站在瘦得像兔子一样的骡子旁边，人和畜生都在那一动不动，看起来那么荒凉、平和。火车转过一道弯，引擎发出一阵短促的、重重的轰鸣声，他们缓缓地在我的视线中消失，还是看起来那样可怜巴巴，那样有耐心，那样无尽地宁静平和：在

他们身上我看到像孩子般的笨拙和与之相矛盾的、值得信赖的、可靠的混合体，这种混合体保护着他们不可理喻地爱着他们，却又不断地掠夺他们并规避了责任与义务。然而他们用的手法太露骨简直不能称之为遁词。他们被掠夺被欺骗，却对胜利者怀着坦率而自发的钦佩，犹如一个绅士对任何一个在一场公正的比赛中打败他的人都会怀有的那种感觉。此外他们对白人的种种怪癖行为的容忍，正如祖父对调皮得完全无法预料的孙儿那样溺爱到极点，而这种感情是我早已经忘记了的。整整一天，火车穿过弯弯曲曲的山口，沿着山崖行驶，这时的旅行对我来说只有排气管和车轮的吃力的呻吟声，眼前无穷无尽的山峦逐渐与远处的天空融为一体，这时候我想起家乡，想起那个荒凉的小车站，那里泥泞的小路，黑人和乡下人不紧不慢地来来往往穿行在那个小平地上，他们背着一袋袋的玩具猴子、玩具车和糖果，一支支烟火筒从口袋里露出来，这时我的内心就像在学校听到下课铃声一样迫不及待。

我要等钟声敲响三下之后开始数数，数到60我会弯下一根手指，然后想着还有14根手指要弯，13、12、8、7.....直到我突然意识到周围的一片寂静，所有人都不敢走神，我问：“老师，您说什么？”“你叫昆汀，对吧？”洛拉问我。接下来是更加可怕的寂静，所有人都绷紧神经，我吓得手都快抽筋了。“亨利，你告诉昆汀，是谁发现的密西西比河。”“德索托。”亨利回答。这下大家的精神都放松了下来，过了一会儿我担心我刚才数得可能有些慢，便加快速度，又弯下一根手指，我又担心数得太快，便又放慢了速度，然而我又担心自己数得太慢，便再一次加快速度。就这样，我总没办法刚好在铃声打响的时候数完，双脚迫不及待在破损的地板上蹭来蹭去。那天像一块窗玻璃受到了轻轻一击，发出清脆的响声，我内心里迫不及待，却又不得不老老实实坐在那里。她站在门口，班吉。大声吼叫着。本杰明，我晚年所生的小儿子在吼叫。加迪！加迪！

我要逃离这里，他开始吼道。于是她碰了碰他，说，别出声。我不走。别出声。然后他就真的闭上嘴。黛西。

只要他想，就能知道你想要对他说的话。所以，你不必听也不必说什么。

他知道别人给他取了新名字么？他知道自己会遭遇什么霉运么？

他又何必担心他的运气呢？霉运又不会给他带来什么伤害。

要是改名换姓还是没办法改变运气怎么办？

车走走停停。我盯着窗外往来人群的头顶，他们戴着崭新的草帽，帽子上的颜色还未全然褪去。车中也有了几名主妇，她们拎着菜篮子，身着工作服的男人也开始多过那些皮鞋油光锃亮、衣领光鲜的人。

一个黑人碰到了我的膝盖。“抱歉！”他说。我挪了挪腿，让他过去。车沿着一堵墙走过，于是嘈杂喧闹的声音从墙那边反射回来，反射到把菜篮子搁在腿上的妇女那里，反射到帽子上满是脏污，拿带子系着烟斗的男人那里。我嗅到一股水腥味，于是循着墙缝，我看见了一大片水，还有两根桅杆，海鸥在半空中一动不动，好似两根桅杆中间有一根看不见的细线一般。我伸手摸了摸我的外衣，里面是一封我的亲笔信。车一停下，我便走了下去。

桥面已经升起来了，好让帆船通过。拖船紧挨着那条帆船的舷侧，冒着黑烟，牵引着它。不过，看起来那艘自己也能行驶，不过看不出是什么动力的。一名光着膀子的壮汉在前甲板上把缆绳系紧。他的身体给晒成了深棕色，如雪茄叶一般。另一名壮汉戴着没有帽顶的草帽，掌着舵。船从桥下穿行而过，没有张帆，好似白日幽灵一般。三只海鸥在船

尾半空歇着，好似一根无形的线上系着的三个玩具。

桥面一合拢，我便穿行而过，走向另一边，倚靠在船库上方的栏杆上。趸船上空无一人，门也紧闭不开。过去傍晚时分运动员在这里休息，这时候他们在划船。桥的影子，栏杆的影子，还有我的影子，都平躺在河面上。我轻而易举地就欺骗了它，让它和我形影不离。这影子有五十英尺长，我只希望能够将它按在水中，淹死它，这影子就像包裹起来的鞋子，漂浮于水面之上。黑人说，溺水人的影子就在水中盯着自己。影子闪烁浮沉，如同呼吸一般，漂浮的趸船亦是如此。碎片载浮载沉，随水流相汇，冲向大海，冲进海上的洞窟中去。水流确有几许。两只六磅重的熨斗比裁缝的长柄熨斗还要沉，人类一切经验的 *Reductoabsurdum* 嘛。黛西肯定要说浪费可耻。班吉知道达姆迪的死讯后哭得很伤心，他嗅到了这种味道，他感觉得出来。

拖船顺流而下，水面因拖船而分割出两道长长的波纹，波纹经过，摇晃着趸船，趸船随波摇晃，发出噗噗的声响。一阵长长的嘎吱声，门朝后打开来，两个人将赛艇拖出来，将赛艇放在水面上。好一会儿，布兰德出来了，手里拿着尾桨。他穿着法兰绒质的灰色夹克，戴着一顶呆板的草帽。不知他和他的妈妈曾经在哪儿知道了牛津的学生都穿着法兰绒戴着呆板的草帽，所以早前三个月他们给杰拉德买了一条双桨赛艇，让他穿着法兰绒，戴着呆板的草帽去划船。船库里的伙计们威胁说要去报警，可是他对此却无所谓。他妈妈开着一辆租来的车，身上穿戴的皮草活像一名北极探险家。她在时速二十五英里的风中同他告别，平稳不动的浮冰就像脏兮兮的绵羊。从那时起我就相信，上帝不仅是个上等人，是个运动员；而且他也是肯塔基人。待他划走船后，她绕道回来，来到河边与他并驾齐驱，汽车挂着低挡位缓慢行驶。人们说，你简直不敢说这两人相熟，那两人就像国王与王后，彼此都不看对方，只顾

沿着平行的轨道在马萨诸塞州行进，宛若有着各自轨道的行星。

他上了船，开始划桨。他如今成绩不错，这是应该的。有人说他母亲想让他放弃划船，去干班上别的同学不愿或不能干的事，可是这一次他表现很是固执。如果你可以把这叫作固执的话。他坐在那儿，一脸皇家贵胄般无聊的神情，金黄色的头发卷曲着，有着一双紫色的眼睛，长长的眼睫毛还有那身在纽约定做的衣服，而他妈妈则在一旁向我们炫耀杰拉德的那些马和他的黑用人，还有他的情妇们。肯塔基州的父亲以及丈夫们有福了，因为她把杰拉德带到坎布里奇来了。在城里她有一套公寓房间，杰拉德自己也有一套，另外他在大学宿舍里又有一套房间。她倒允许杰拉德和我来往，因为我总算是天生高贵，投胎时投在梅逊迪克逊线以南。另外还有少数几个人配做杰拉德的朋友，也是因为地儿不错（最低限度的要求）。至少是原谅了他们，或者不再计较了。可是自从她半夜一点钟在小教堂门口见到斯波特出来，他说她不可能是个有身份的太太，因为有身份的太太是不会在晚上这个点出来的，未来她是不会原谅斯波特的，因为他的名字很长，有五个单词，其中还有一个英国公爵的名字。我敢肯定她准是用这个想法来安慰自己的：有某个曼戈特或摩蒂默家的浪荡公子跟某个看门人的女儿有了一腿，这倒是很有可能的，先不说这是她幻想出来的还是别的情况。斯波特的确爱到处乱串；他毫无顾忌，什么也拦不住他。

小艇只剩一个黑点般大小，两只桨在阳光下变成两个闪光点，小船似乎一直在眨眼。你有妹妹吗？没，要是有的话肯定都是贱人。你有姐姐吗？她们曾经是贱人。她来到门口的那会儿还不是达尔顿·艾米斯，达尔顿牌衬衫。我过去一直以为它们是卡其的，军用卡其；到后来亲眼看到了才知道它们是来自中国的重磅丝绸，或者是最细腻的绒布，因为衬衫把他的脸衬得那么黑，把他的眼睛衬得那么蓝。达尔顿·艾米斯，

漂亮还算是漂亮，只是略粗俗；倒像是演戏用的道具。还是纸糊的，不信你摸一摸。哦，石棉的，不是真青铜。只是不愿在家里与他见面。

“记住了，加迪是个女人，她的所作所为一定有身为女人的动机。”

“你干吗不把他带到家里来呢，加迪？你干吗非得像个黑女人那样在草地里，在土沟里，在丛林里，躲在黑黝黝的树丛里犯贱呢。”

半晌，我听见手表走了有一会儿了。我把身体倚在栏杆上，感觉到那两封信在我的衣服里沙沙作响。我靠在栏杆上，瞧着我的影子；我真是把我的影子骗过了。我沿着栏杆移动，可是我那身衣服也是深色的，我可以擦擦手，瞧着自己的影子，我是真的骗了它。我带着它走进码头的阴影。然后我往东边走去。

哈佛，我在哈佛的孩子哈佛。哈佛，她在运动会上遇到一个小男孩，脸上长满青春痘，他参加田径比赛得了奖。他偷偷地沿着栅栏走了过去，吹着口哨想把她当作小狗一样哄出去。家里人怎么哄也没法让他走进餐厅，于是她妈妈以为他会魔法——只要和加迪独处，他就能把她迷得神魂颠倒。且不谈那些耍流氓的行为。他躺在窗沿下的木箱子旁号叫着，要是能开一辆豪华轿车，胸前纽扣眼里插着朵花那该多好。哈佛。昆汀，这位是赫伯特。这是我在哈佛的孩子。赫伯特会当你们的大哥哥，他已经答应杰生了。

满脸堆笑，虚情假意得就像个推销的。一张嘴满口大白牙，却似笑非笑。我在那儿就听说过你了。一张嘴满是虚情假意。你想开车吗？

进去吧，昆汀。

你来开车。

这是她的车，你妹妹拥有全镇第一辆汽车你就不自豪？这可是赫伯特送的礼。路易每天早上都给她上驾驶课，难道你就没读过我的信？兹定于一九一零年在密西西比杰斐逊镇为小女加达斯与悉德尼·赫伯特·海德先生举行婚礼，恭请光临。杰生·李奇蒙·康普生先生暨夫人敬启。

附：八月一日之后在寒舍会客，地址为印第安纳州南湾市××街××号。

施里弗说你连拆都没拆？三天，三次。杰生·李奇蒙·康普生先生暨夫人。年轻的洛钦伐尔 骑马出走，未免操之过急，是吧？

我打南边来，你可真够搞笑的。

是啊，是在乡下的某个角落。

你很开心是吧？你就是块去马戏团的料。

我确实去了马戏团，就因为拿水冲大象身上的虱子弄瞎了眼睛。这些乡下姑娘。你永远不会告诉她们吧，是不？好吧，至少拜伦还从未美梦成真过，谢天谢地。别打眼镜。你都不拆开吗？那封信躺在桌子上，每只角上都点着一支蜡烛，两朵假花捆在一个粉红色吊袜带上。别往人家的眼镜上打呀。

乡下人真是可怜，他们绝大部分从未见过汽车按喇叭。所以加达斯她都不愿把眼睛转过来看我，他们会离开的，他们连正眼都不瞧我。要是你伤了其中的哪一个，你们的父亲是会不高兴的。赫伯特，我会同你父亲说去买一辆汽车，你把汽车开来我真有点为难，当然我坐着兜风挺痛快的，咱家倒是有一辆马车，可是每逢我要坐着出去，康普生先生总是让黑人们干这干那，我要是说两句话啊，那可就翻了天了。他坚持要让罗斯库司专门伺候我，随叫随到，不过我也明白，这会是什么意思，我知道人们做出许诺仅仅是为了抚慰自己的良心，你是不是也会这样对

待我的宝贝小女儿呀，赫伯特？不过我知道你是不会的。赫伯特简直把我们全都惯坏了。昆汀，我给你的信中不是说了吗？他打算让杰生把高中念完，然后才会进他的银行。杰生一定会成为一个了不起的银行家。在我这些孩子中，只有他有头脑，这一点还多亏我，因为他继承了我娘家人的特点，其他几个可全都是十足的康普生家的脾气。杰生拿出面粉来。他们在后廊上做的风筝每只卖五分，他一个，还有帕特森家的男孩。杰生管账。

这辆车上倒没有黑人，一顶顶尚未掉色的草帽在车窗外匆匆流逝。是去哈佛的。我们卖掉了班吉的东西，他躺在窗子下面的地上，大声吼叫。我们卖掉了班吉的牧场，好让昆汀去上哈佛，他是你的好弟弟。你们的小弟弟。

你们应该有一辆汽车，它会给你们带来无穷无尽的好处，昆汀，你说是不是呀？你瞧我马上就叫他昆汀，我曾经叫他昆汀。你知道，加达斯基对我说了很多他的事情。

你为什么不这么看？我要我的孩子不只是和彼此做朋友，对，我要加达斯基和昆汀不只是做朋友。爸爸，我下了决心。要是你没有兄弟姐妹，多可怜啊。没有姐妹，没有姐妹，没有姐妹。别去问昆汀，他和康普生先生都感到受了些侮辱，我竟然如此强势，敢坐下来谈。现在我是有点发火了。等这件事全部过去之后，我会付出代价的。你已经把我的小女儿带走了。我本就没有妹妹。如果可以，妈妈，妈妈。

除非我按照本意，把你带走，我想康普生先生追不上来。

啊，赫伯特·加达斯基，你听到了吗？她根本不看我，没有那种温柔的眼光，撇过脸去不肯回头。你也不必嫉妒，只不过是老女人，他在

对一个成年已婚女人献殷勤。不敢相信。

真是荒谬。你真的看起来就像老了好多岁。加达斯，你脸颊红润得就如同少女一样。一脸责备，泪水肆流。空气中弥漫着樟脑和泪水的味道。昏暗的门后总有轻声哭泣的声音。周围是傍晚的金银花香。把空箱子从阁楼上搬下来，就像在搬棺材一样。弗兰奇·里克。盐渍土里看不到死亡。

我不戴没漂白的帽子，也从不戴帽子。我可以三年不戴帽子。但在以前却不能，我总戴帽子。如果没有了我，也没有哈佛，还会有帽子吗？父亲曾说，在那里，思想的最高境界就如枯萎的草藤紧抓着旧墙砖。那时没有哈佛。至少在我看来没有。又一次，比以前更悲哀。又一次，最悲哀。又一次.....

斯波特穿了件衬衫，肯定是。我又能看到自己的影子，可能是不小心，那时踩到了水坑。我应该再踩一下我那无动于衷的身影。但没有姐妹。我不会这样。我不会让我的女儿受人监视。不会。

我怎样才能让他们听我的话，你一直在教他们不要尊敬我，不要理睬我的期望。我知道你看不起他们。但是，有没有什么理由能教我的孩子——我自己的孩子，我为之受尽磨难——不要尊敬我。用高跟鞋将我影子的骨头踩进混凝土里，我听着手表，隔着外衣触摸着那几封信。

不管她做了什么，不管你怎么想，我都不会让你、昆汀或是任何人监视我的女儿。

起码你要承认，监视她是另有原因。

我不会，我不会。我知道你不会。我不想把话说得这么尖刻，但

是，女人本就不尊重彼此，也不尊重自己。

但她为什么要这样？我踩上自己的影子，钟响了，这才一刻钟。到处都找不到执事。想着我会，我可以。

那不是她的本意，这就是女人的行事方式，只是因为她爱加迪。

路灯下了山坡，然后又返回小镇。我踏上影子的小腹部分。可以伸手穿过去。感觉父亲就在我身后，就在夏季焦躁的黑暗里，八月这些街灯啊。父亲和我一同保护女人不受彼此伤害，也不受自己伤害，是我们的女人。女人对人不了解，这一点我们一致同意。她们只是天性多疑，频繁梳洗，也总没错。喜欢邪念，对它百依百顺，亲密无比，就像睡觉时拉被子一般，不停想着，直到它达到目的。不管它是否存在。他和两名新手一起，还没从阅兵式中回过神来，给我敬了个礼，颇有向上级军官行礼的样式。

“我想和你聊一聊。”我说着停下了脚步。

“和我？好啊。再见，伙计，”他也停下答道，又转过来，“和你说话很愉快。”那就是执事，浑身都透着那股气势。说一下你那些天生的心理学吧。他们说他从每学期初，四十年里从来没有误过一次火车；而且一眼就能看出谁是南方人，从来没有说错过；只要你说话，他就能说出你来自哪个州。他接车有一套常用制服，那是《汤姆叔叔的小屋》里的衣服，补丁什么的都有。

“对，没错。请走这边，少爷，我们到了，拿上您的包。”“就是这里，孩子，过来，拿着这些包。”于是，一座移动的行李山慢慢靠过来，露出一个约十五岁的白人男孩。值日生不知为何，再挂了一个包在他身上，然后把他带出去。“现在，注意些，别把它弄掉了。是的，少

爷，只要把你的房间号给这个老黑鬼就行了，你到了之后它就会好一点了。”

从那以后，他会时常进出你的房间，无所不在，喋喋不休，直到你完全服从，尽管随着他的服饰档次越来越高，他的行为举止也日趋北方化。直到最终他让你流血，直到你更明白当他叫昆汀或其他的名字时，是在叫你。你下次再见到他时，他会穿着被人丢弃的布鲁克斯品牌的套装，戴着一顶参加普林斯顿俱乐部用的帽子。至于帽圈，我忘了，只知道是别人给他的，说是亚伯罕·林肯军用饰带的一部分，他很高兴，深信不疑。几年前，那时他第一次离开家来到大学，有人散播消息，说他是从神学院毕业的。他后来细想这背后意味，竟看得很开，亲自转播。他最后肯定也信以为真了。总之，就未毕业时的生活，他说了一大篇无关紧要的逸事。熟悉地说着已故教授的姓名，却常常叫错。但对无数天真孤寂的新生而言，他俨然是他们的良师益友。我想，凭着那一通巧妙的诡辩和伪善，他简直恶臭无比，直冲鼻腔。

“有三四天没见你了，”他说，依旧用那军人眼光看着我，“你病了？”

“不，我很好。只是在忙。但我见过你。”

“你见过我？”

“在第二天的阅兵式。”

“哦，阅兵式。是，我在。你知道，我根本不关心那档子事，但男孩子们喜欢我陪他们一起，那些老兵也是。你知道的，女士们希望所有老兵都出场。所以我只能答应他们。”

“那次过节也见过，”我说，“我想，你当时在给基督教妇女禁酒会帮忙。”

“那次？我当时是为了我的女婿。他打算在市区部队里谋份差事。去扫大街。我跟他说，他只要拿着扫帚睡大觉就行了。你看到我了，对吧？”

“对。两次都看见了。”

“我是想说，你看到我穿军服了。我穿起来怎么样？”

“看起来不错。比其他人好看。他们应该让你当上将，执事。”

他轻微地碰了下我的手臂，他的手是那种又老又轻的黑人的手。“听着，这不能对外面的人说，我不介意告诉你是因为，不管怎么说，你我都是自己人。”他向我靠近了一些，快速地说，眼睛却没有看着我，“现在我是要放长线钓大鱼。等到明年，咱走着瞧。你就会看到我在哪里游行，我不必告诉你我会怎么做；我只会说，等着看吧，我的孩子。”这时，他的眼睛才开始盯着我，轻轻地拍了拍我的肩膀，身体利用脚后跟转了回去，还在不停地向我点头。“是的，先生。三年前我改为民主党是有目的的。我的女婿在这里为政府工作；我呢——是啊，先生。如果改为民主党的话就能够让那个狗崽子去工作……至于我呢，从两天前开始算起，一年之后您就站在那边的那个角落等着瞧吧。”

“但愿如此。这是你应得的，执事。对了，我想起一件事来——”我从口袋里掏出一封信，“明天把这封信拿到我的宿舍，交给施里弗。他会给你一些东西，不过一定要等到明天，记住了啊。”

他接过信，仔细观察了一番：“这是封好的。”

“是的，信在里面，不到明天可别拆啊。”

“嗯，”他说，他盯着信封，撅起嘴巴，“您是说会有东西给我？”

“是的，我为你准备的一份礼物。”

这时，他开始盯着我，阳光下，白色的信封在他那双黑手中被衬得尤其白。他的眼神很温柔很纯真，瞳孔是棕色的。突然我发现罗斯库司正看着我，那个躲在白人哗众取宠的制服里，以及白人的政治和哈佛派后面的，羞怯、神秘、口齿不清而又悲哀的罗斯库司。“您不是在跟这个黑鬼开玩笑吧？”

“你知道我不会的。难道你曾经被哪个南方人戏弄过吗？”

“您是对的，南方人都是社会名流。可是没法跟他们一起生活。”

“你试过吗？”我说。但是罗斯库司已经走了。再一次，执事又恢复成他长期教唆自己在世人面前所表现的那副模样，自大、虚伪，却不算太粗鲁。

“我会满足你的要求的，我的孩子。”

“一定要等到明天，记住了。”

“当然，”他说，“知道了，我的孩子。嗯——”

“我希望——”我说。他低头看着我，既和蔼又深沉。突然，我伸出手去，和他握了握手，从他那对市政和军队充满幻想的高度来看，他显得很庄重。“你是个好人，执事，我想.....你在各个地方帮助过许多年轻人。”

“我对所有人都还挺不错，”他说，“我不会把人们划分为三六九等，对于我而言，不管我在哪里遇到他，人就是人。”

“我希望你的人缘能够一直都这么好。”

“我和那些年轻人相处得挺好。他们也不会忘记我。”他一边晃着信封，一边说道。他把信放在口袋里，然后扣紧他的外套。“是的，先生，”他说，“我一直都有很多朋友。”

钟声再次响起，半个小时过去了。我站在影子的肚子那里，听着钟声，顺着阳光，在稀疏而又安静的叶子中回荡。钟声不停地回荡，宁静而又安详。即使是在这个随处都能见到新娘的好月份里，钟声也总是充满了秋天的味道。躺在窗户下面的地上咆哮，他看了她一眼就明白了。从婴儿们的口中，街灯和钟声都静止了。我回到邮局，将我的影子印在人行道上。走下山后，又走在通往城镇的坡上，就像是挂在墙上，一盏比一盏高的灯笼。父亲说，因为她爱加迪，她是通过爱人们的缺点这种方式去爱人的。莫里舅舅叉开双腿站在壁炉前，他不得不将一只手从火前移开一段时间，好举杯庆祝圣诞节。杰生跑了一会儿就摔倒在地上，他的手插在口袋里，看上去就像是一只被绑住翅膀的鸟，直到后来，弗什才将他抱了起来。你为什么不把手从口袋里伸出来，这样你跑的时候就容易摔跤了。躺在摇篮里，不停地晃着脑袋，后脑勺都给磨平了。加迪告诉杰生和弗什说，莫里舅舅之所以不工作是因为他小时候总是躺在摇篮里滚着脑袋，后脑勺给滚平了。

施里弗蹒跚地走了过来，胖乎乎的，一副认真的表情。他的眼镜在不断飘落的叶子下闪着光，如同水池一般。

“我给了执事一个字条，让他取些东西。今天下午我可能不在，所

以这些东西你一定要等到明天再给他，可以吗？”

“好啊。”他盯着我说，“说吧，你今天到底在干什么？穿得整整齐齐地晃来晃去，像是寡妇在殉夫似的。早上你去上心理学课了吗？”

“我什么都没做。记得明天再给他。”

“你手里拿的是什么？”

“没什么，一双我拿去打了鞋掌的鞋子。一定要明天再给他，你听到了吗？”

“好了，知道了。哦，对了，桌子上有一封信，早上你拿了吗？”

“没有。”

“在桌子上。是塞米拉米司寄来的。十点以前车夫送过来的。”

“知道了。我一会儿去拿。不知道她这次又要搞什么鬼。”

“我猜是又要组织一次演奏会吧。得啦达达吉拉德布拉。‘鼓再敲响一些，昆汀’。上帝啊，我真高兴我不是个绅士。”他继续往前走，手里紧紧抱着一本书，身体已经有些臃肿了，胖嘟嘟的，仍是一副一本正经的模样。那些街灯你们认为呢？就因为我们的一个祖先曾经当过州长，还有三个是将军，而母亲家里却不是这样。

任何一个活着的人都比一个死了的人强，然而在母亲心里却有这样一个根深蒂固的想法，即一个活着或者死去的人并不会比另一个活着或死去的人强多少。完了，完了。我们都中毒了，你把罪恶和道德混淆了，妇女们并不像母亲那样考虑道德问题，至于这件事是否是罪恶的，

她根本没有想过。

杰生我必须走了，其他的孩子你先照顾着。我带着杰生，到一个没有人认识我们的地方去，这样他就能顺利地成长，忘掉这一切。别的孩子都不喜欢我，他们压根就对其他任何事都不屑一顾，身上有着康普生家庭的那种自私自利和妄自尊大。杰生是唯一一个我能够掏心窝而不害怕的孩子。

废话，杰生自然是挺好的。我在想要不要等你身体好些了就带着加迪去佛兰西·利克。把杰生留下来，家里就只剩你和那些黑人陪着他。她会忘记他的，之后这些流言蜚语都会消散，盐渍地里也不会发现死人。说不定我可以给她找个丈夫。

电车驶来并停了下来。空中还回荡着半小时报时的钟声。我上车后，车又再次开动了，车声盖过了半小时报时的钟声。不，是三刻钟的报时。那么离十二点大概只有十分钟了。要离开哈佛了，让你进入哈佛是你母亲的梦想，她甚至为此卖掉了班吉的牧场。

我到底是做错了什么，上帝居然让我生下这样的孩子，一个本杰明已经足够惩罚我了，现在又出了她的事，对于她的亲生母亲，她却没有一点感情。我为了她受了多少罪，处处为她操心，为她打算，为她牺牲，可说是已经跌到了深渊的最底层，可是她从睁眼来到这世界上开始，就从来没有不怀私心地为我着想过。有时候我看着她就怀疑她是不是我亲生的，而杰生，从我第一次把他抱在怀里，他就没有一次曾让我伤心过。当时我就知道他是我的快乐，是我的救赎。我认为本杰明对我所犯下的罪恶已经是很大的惩罚了。他来讨债是因为我放下尊严嫁给了一个自以为高我一等的男人。我并不怪谁，我爱本杰明超过其他的孩子，这就是原因。因为这是我的责任，虽然我一直心系杰生，可是我知

道我还没有受到足够的责罚。我知道我现在不仅要为自己赎罪，还要为你所犯下的罪过赎罪，为了你们这些高高在上有权有势的人给我留下的罪孽赎罪，可是，你总要担起这些责任的，你总是会为你的亲生骨肉所犯下的过错找借口，错的总是杰生。因为比起康普生家的人，他更像是巴斯康家的孩子，而你自己的女儿，我的小女儿，我的小宝贝，她并没有好到哪里去。当我还是个女孩的时候，我并不走运，我只是个巴斯康家的人，我所受到的教育就是女人没有中间的路可选，要么就是嫁作人妇，要么就形单影只。可是当加迪出生，我把她抱在怀里的时候，我从来没有想过她会让自己贱到如此地步。你不知道我只要看着她的眼睛，就能够知道真相吗？你可能觉得她会告诉你，可是她不会的，她神秘得很，你们根本不了解她。我知道她做了什么，这件事与其告诉你们还不如让我死了算了，这就是全部的事实。你继续指责杰生，怪我把他派去监视她吧。如果这样做是在犯罪，而你却放任你自己的女儿。我知道你不爱杰生，你总是愿意去相信别人对他的批评，你从来没有像以前嘲笑莫里那样嘲笑他，你再也不能伤害我了，你的孩子们已经对我伤害得够深了，反正我也快离开人世了，只留下杰生，没人爱他、保护他，我每天这样看着他，就怕他身上康普生家族的特征最终会暴露出来。其间，他的姐姐偷溜出去，跑去会那个你们叫他什么来着，你见过那人没有，你甚至不让我去查出他是谁，这并不是为了我自己，我都不愿意看他一眼，这是为了保护你。可是你都不给我尝试的机会，那谁来抵抗那些不纯正的血统呢。我们倒是可以袖手旁观，可是她呢？她不仅败坏了你的名声，而且还污染了你的孩子们周围的空气。你必须让我走，我已经受不了了，让我带杰生走，把其他的孩子留在你身边。他们不是我的亲生骨肉，可杰生是，他们和陌生人一样，跟我毫无关系。我真的很怕他们，我可以带着杰生到没人认识我们的地方去，我要跪着祈祷，向上帝祈求宽恕我的罪恶，好让杰生逃过这个诅咒，并忘记这是其他的孩子曾经犯过的过错。

如果刚才的钟声是三刻的报时，那么现在离十二点已经不到十分钟了。一辆车刚开过去，人们已经在等下一辆了。我问一个路人，他也不知道正午以前是否还会开出一辆车。因为那是城镇间的区间车。所以现在离站的又是一辆架线式电车。我上了车，能够感受到正午即将来临。我不知道在地底下工作的矿工们是否也能感受得到。这正是要拉汽笛的原因；因为人们正在辛苦地工作流汗，要是离工作出汗的地方非常远，你就不会听到汽笛声，而在八分钟之内，你就能到达不用辛苦工作到流汗的波士顿。父亲说，人的一生不过就是不幸的总和罢了。总有一天，你会对不幸感到厌倦，而之后，时间就会成为你的不幸，父亲也曾这样说过。是一只系在无形的线上的海鸥从空中拖了过去，而你，则是带着失败的象征进入到永恒。接着，羽翼会逐渐变得丰满，父亲说，只有这样的人才能弹奏竖琴。

汽车每停一次，我就能听见我的表叫声，只是停下来的次数并不频繁，那些能够弹奏竖琴的人也已经开始吃饭了。吃饭的时候，吃东西会在你的身体里扰乱时间和空间。胃说到中午了，而大脑说是时候吃饭了。好吧，我也不知道现在是什么时间了，不过那又有什么关系呢。人们逐渐离去。无轨电车不再频繁停留，大家都下车吃饭去了，车厢里空空荡荡的。

时间就这样过去。我下了车，独自一人站在那里，与影为伴，不一会儿，下一班车就到了，我坐上它回到了上一个市际车站。到站时恰逢一辆车要开走，我找了一个靠窗的位置坐下后车子便启动了。我看着车子疲惫地缓慢驶过一片片退潮后的沙洲，驶进树林。那条河流在窗外时隐时现，我想象着，如果天气晴好，那些住在新伦敦下游的人看见吉拉尔德的游艇在午前闪耀的阳光中庄严前行该是怎样的享受。那个老太太在今早十点前给我送了一张便笺，我挺好奇她究竟想干什么。吉拉尔德

又怎么样，我竟成了他达尔顿·埃姆斯哦石棉昆汀开了一枪这就是背景。这事和女孩子们有些关系。女人们的声音总能压过那些喋喋不休和罪恶结下不解之缘，她们认为女人固然不可信，但有些男人又天真到难以自保。平凡的女孩子们。都是些远亲或世交，不过是有所来往就仿佛是要那些身份高点的人负起血缘责任似的。而那位太太就当着她们的面告诉我们，吉拉尔德的脸上拥有他们家族的全部优点。而这实在太可惜了，因为那么漂亮的一张脸蛋居然安在了男人身上，而男人是不需要漂亮的，不漂亮反而更好。但女孩子要是不漂亮，那可就全完了。她自鸣得意地向我们介绍起杰拉尔德的妻子昆汀朝赫伯特开枪，他的声音穿透了加迪的地板。“我在他十七岁时曾告诉他‘你的嘴真该长在姑娘脸上’，你能想象在朦胧的晨光中，轻拂的窗帘带来了苹果花的香气。她的头枕在只穿着晨衣的双臂上，晨光洒在她身上。那声音在伊甸上空回响，床上放着衣服，从她鼻子旁能看到苹果树顶。他说了什么？注意，他才十七岁！‘妈妈，’他说，‘事情总是如此’。”当时吉拉德就那么居高临下地坐着，从睫毛底下瞥着那两三个女孩，而女孩们的秋波也像燕子一般追逐着他的睫毛。施里弗说他一直想知道，你会照顾班吉和父亲吗？

越少提班吉和父亲越好，加迪，你什么时候照顾过他们了？

答应我！

无须为他们担忧，你这次干得真是好极了！

答应我，我生着病呢，你一定要答应我，是谁发明了这个笑话，不过他一直认为布兰德太太保养极好，他说她正在培养吉拉德，好让他将来勾引到女公爵。她称施里弗为“加拿大小胖子”，还有两次没打招呼就给我安排新室友，一次要我搬出去，一次是他在晨光中打开门，当时他的脸看起来像个南瓜饼。

“好吧，我们不得不惜别了。残酷的命运使我们分离，但我再也不会爱上别人了，永不。”

“你在说些什么？”

“我说的是残酷的命运之神，那位神祇穿着八码的杏色丝绸，戴的一磅磅首饰比划桨奴隶的枷锁还重，她还是同盟后期那位漫游者约翰的唯一拥有者和产业主。”然后他告诉我她如何跑到舍监那去，要舍监把他赶出房间，而舍监又是如何以下层人的牛脾气坚持先征求施里弗的意见。然后那女人又叫他立刻派人通知施里弗，而舍监不愿意，这导致她后来对施里弗很不客气。“我尽量不说女人坏话。”施里弗说，“但这位太太绝对是贵国各州县中的母狗之最。”现在那散发着兰花香的兰花色亲笔信就放在桌上。如果她知道我几乎每天从窗下经过，还明明知道信就在桌子上，却没有进去。夫人敬启，由于晚辈一直无缘与夫人相谈，故恳请能在今日，昨日，明日或任何日登门拜访。下一件我能记得的事就是吉拉尔德是如何把他的黑人仆役扔下楼梯，而那个黑人又是如何哀求着在神学院注一个册，好待在他的吉拉尔德主人身边，然后他又如何热泪盈眶地追着他的吉拉尔德主人的马车一路跑到火车站。我一直等着听那个锯木厂丈夫的故事，后来知道他有天带着猎枪跑到厨房门口，刚好撞见吉拉尔德从楼上下来。吉拉尔德一把夺过枪折成两半，然后把枪还给了被戴绿帽子的丈夫。他掏出丝绸手帕擦擦手，然后把手帕扔进了炉灶。这个故事我只听过两遍。

射穿他的我刚才见你来这儿了，所以来看看有没有机会认识你。来支雪茄怎样？

多谢，但我不抽烟。

看来我离开哈佛后情况变化挺大，介意我点火吗？

别客气。

谢谢，我听说了很多关于你的事。估计你母亲不会介意我把火柴扔在屏风后面，对吧？加达斯在利克斯时整天谈的都是你，我都吃醋了。我对自己说一定要见见这个昆汀，要知道这畜生长什么样，他居然把我心爱的女孩迷住了。告诉你也没关系，我从没想到她谈个不停的居然是她的哥哥。就算是世界上只有你这么一个人，她也不会谈得更多了，丈夫就更不用说了。你真的不来一支吗？

我是不会抽的。

既然如此我就不勉强了。不过这种雪茄真的挺不错，我托哈瓦那的熟人批发也花了二十五美元才买到一百支。我猜哈佛有了不少变化，我一直想去看看，但一直抽不出时间。我为了今天拼死拼活奋斗了十年，我的事业离不开银行。在哈佛时有人旧习难改，难免做了些不太好的事，而那些大学生认为这非常糟糕，我想你知道我的意思。给我说说哈佛发生的事吧。

如果你指的是这点，我不会告诉爸爸和妈妈的。

别说，千万别说，哦，这，这可是你说的，其实你知道的，我才不介意你说不说出去，我并没犯罪，只是运气不好。我并不是第一个做过那些事的，也绝不是最后一个。或许你也就是比我走运点儿。

胡说八道！

别那么生气，我又没让你说你不想说的，也不是成心冒犯你。当然像你这样的年轻人对这种事总是看得很重，不过五年后就不一定了。

我对欺诈就这么一种看法，不过我在哈佛也学不到其他看法。

我们的对话比唱戏还精彩，你是参加过戏剧社吧？你说得对，那些事没必要告诉二老，过去的就让它过去吧。我们没必要为一件小事闹翻。我挺喜欢你的，昆汀，你看上去就和那些乡巴佬不一样，我们一定会合得来。我向你母亲保证过要照顾詹森，但我也挺乐意帮帮你。这地方足够詹森发展了，但对你这样的优秀年轻人而言这舞台太小，你的抱负在这里难以施展。

多谢，但你还是把力气放到詹森身上吧，他比我更对你的胃口。

我对那件事也挺后悔的，但那时我也就是个孩子，还是个无母的孤儿。我没有一位像你妈妈那样的母亲能提点我，告诉我那些行为是好是歹。不过现在已经没必要告诉她这些事，这徒然让她伤心罢了。当然也不要告诉加达斯。

我说了，我是不会告诉妈妈和爸爸的。

你给我瞧瞧，要是我们打起来你能撑多久？

我用不着“撑多久”，如果你在学校真学过什么叫打架的话，你就有幸见识下我能扁你多久了。

小兔崽子，你知道自己在干什么吗？

走着瞧。

天哪烟要是你妈妈发现壁炉上有个孔她该怎么说我们啊看这儿昆汀我想我们要做点我们彼此都会后悔的事我爱你从第一次看见你我就爱上

了你我说你一定会是个乖小伙儿不然加达斯也不会如此期待你的到来听着我抽身于世已有十年以后你就会发现这世上任何事其实都不算什么现在我们一起处理这事儿好了你是哈佛旧人的孩子我想我压根儿就不知道现在对年轻人来说最美妙的地方现在我要把我的儿子送到这里让他拥有我曾经等待过却不曾得到的机会暂时先别走我们好好聊聊年轻人有自己的思想当他在学校的经历为他塑造一个完美人格时我会全力支持他帮助他在学校踏踏实实的挺好但是走出校门走进社会就需要找到最适合自己的方式因为到时候你就会发现其他人都在

因为他会发现 该死的 所有人都在做同样的事 来 我们握个手 让往事随风去吧 为了你妈妈 祝她身体健康 快点 把你的手给我 来看看 它简直就是纤纤玉指啊 看 洁净无瑕 一点褶皱也无 看啊

和你的钱一起见鬼去吧

不 不 别这样 我可是出身富裕之家 我深知年轻人所面临的境况 有许多烦心事要处理 想要长辈为你买单可不容易啊 因为我知道 如果没有这样的出身 一切就会完全不同 不久前我还不明白这一点 但现在我正要结婚 要面对所有的事情 得了吧 别做蠢事 听着 如果我们有机会好好地来一次谈话 我就想告诉你镇上的一个小寡妇的事

那件事情我也听说过了 你还是守着你那些该死的钱吧

那就算是我借你的吧 你只需眼睛一闭 不到一分钟 就可以变成五十岁的老头

把你的手从我身上拿开 另外 你最好把雪茄也从壁炉架上移开

你琢磨琢磨 就会惊觉它能给你带来的好处 除非你傻到透顶 你应该

见识到了 我将它们紧紧攥在手里 以防有人不怀好意 你妈妈跟我谈到过你 她说你头脑发热 做事糊涂 来 过来 亲爱的昆汀 我们才相熟 在谈论哈佛大学 你需要我么 可不能故意避开老人家啊 是吧

你先出去一会儿 赫伯特 我要和昆汀谈谈

来 进来 我们都来做一次长谈 亲近亲近 我刚刚和昆汀说过的 拜托赫伯特 先出去一下 哦 好吧 我想你和小兄弟的确想再私下聊聊

你还是把雪茄从壁炉台上移开吧

好吧 我的孩子 一切照常 过会儿 我会离开 让他们在还能使唤你的时候 使唤使唤吧 昆汀 以后老人家就会非常高兴的 是吧 来 亲爱的 给我们一个亲吻

哦 停 别那样 以后再说吧

那么 我要贷款的利息 不要让昆汀做事 他做不了 随便提一句 我把那个人的鹦鹉的事和它的遭遇告诉昆汀了么 那个悲伤的故事时刻提醒着我 你自己想想吧 回见 回见 回头见

哎呀

啊

你现在在忙什么

没什么

你又在干涉我的事情 去年夏天 难道还没玩够么

加迪你发高烧了 你病了 是怎么病的呢

我就是病了 我怎么知道是怎么回事呢

他的声音横穿过

别嫁给这个浑蛋 加迪

午后，河流缓缓流淌，不时泛起粼粼波光。此后一切都好。我们从源头处出发。在上帝和众神面前，源头活水奔流涉远。众神。更妙。如果上帝置身马萨诸塞州波士顿，也会变成暴民。或许都娶不到妻子。双桨划开水波，小船穿梭于波光上和雌棕榈树间。谄媚。谄媚，如果他不是位丈夫，他就不会在乎神的存在。这个浑蛋，加迪。河流在一个拐角处急转直下。

我病了 你一定要答应我

病了 怎么病的

我就是病了这又不不求谁但是你一定要答应我

如果他们需要照顾那就是你的原因你怎么病的此时在窗下，我们可以听到有火车正驶出车站，那是八点十分的火车。要把表兄弟们带回来。人头攒动。一个个都把头抬起来，但不是理发师。是修指甲的女孩。我们曾经有匹纯种马。没错，是在马房里，但是皮革的伪装之下却是一匹杂种马。昆汀让自己的声音压过别的声音，直穿透加迪房间的地板

车停了。我从车上下来，走到影子中间。有一条路横跨在铁轨上。木制的华盖旁一个老人从纸袋中拿出东西来吃，过了一会儿，火车已渐

行渐远，直到呼啸声也听不到了。这条路延伸到树林，那里枝繁叶茂，绿树成荫，但是新英格兰六月的叶片并不比家乡那儿四月的叶片肥厚。从此，我可以看到一个烟囱。我转过身来，踩着脚下的影子，陷入泥土。在我的身体里有一些可怕的东西。有时在晚上，我能看到它对着我咧嘴笑。我能看到它，穿过它们，透过它们的脸对着我咧嘴笑它现在不见了我也生病了

加迪

别碰我你只要向我保证就行了

如果你病了你就不能这样做

不我能从那之后一切都会好的它不会有什么大不了向我保证不要让他们把他送到杰克逊去

我保证加迪加迪

别碰我别碰我

它长什么样加迪

什么

那个透过它们向你咧嘴笑的东西

此刻，我仍然看得见那个烟囱。在那里，水流注入大海，填满洞穴。水流平缓地翻滚，只有在曙光初现之时，上帝才会说涨潮。我和弗什打猎一整天的时候，是不吃午饭的，十二点的时候我会感觉到饿，一直持续到一点，然后我就会突然忘记曾经饿过。路灯的灯光从山上照射

下来，然后就听到火车从山上呼啸而下。我前额枕着椅臂，感觉光滑平整，又有些凉爽，苹果树伸展到我的头发上，在伊甸园的上空衣服在鼻子旁边看见你发烧了。我昨天发现了，你的头就像在火炉边上烤一样。

别碰我。

加迪，你病了，不能这样。该死的。

我一定要嫁人。然后他们告诉我，我又会受伤。

最后，我已看不到那个烟囱。路延伸到了一堵墙的旁边。墙边树木繁茂，向外伸展。阳光照得树叶闪闪发亮。石头冰凉凉的，走近就会感觉到丝丝凉爽。只是，我们的国家和这个国家不同。这儿正风行着某种潮流。一种平静却猛烈的多产性甚至让忍饥挨饿的人们也感到满足。它在你周围大行其道，杜绝催生以及助长任何吝啬之风。似此也只是权宜之计，为的是让绿色遍布，枝叶繁茂，甚至远处天边也是一片碧蓝，而非杂糅之作。在我被告知会继续重蹈覆辙时 它就在我身体里哈哈大笑我也开始流汗 我在乎什么 我深知伤害对我意味着什么 它算不得什么 我只是要到房里多待会儿 那就行了 我的咀嚼肌变得麻木了 我的口中说着等等 等等 流汗后刚过一分钟 我的牙齿后面就传出了哈哈的笑声 还有爸爸 该死的马 该死的马 等等 那是我的错 每天早上他都提着篮子沿着栅栏向厨房方向去 同时拖拽着一根棍子 每天早上我都强迫自己注意窗外伺机向他扔煤块 黛西说你快要把自己毁掉了，你是不是跌断腿后没几天就觉得没意思了 等等 只要一分钟我就能习惯了 就等一分钟 我就.....

在这样的空气中，甚至声音都似乎提不起精神，就像空气已疲惫不堪，不足以将声音传播太长时间。不管怎么样，犬吠声比火车呼啸声传得更远。空气中还有某个人的声音。黑鬼们。路易·哈彻甚至从不凭借

喇叭传声，他提着那个旧提灯。我说：“路易，你上次清洁提灯还是什么时候啊？”

“我不久前才做了清洗。你还记得洪水来时，把乡亲们冲到那边去了么？就是那天，我做的清洁。那天晚上，老女人和我生火，她说‘路易，如果洪水冲到这里，你会怎么办’，我说‘这是事实。我认为我还是清洁一下我的提灯吧’。所以那天晚上，我做了清洁。”

“在宾州洪水到处肆虐，”我说，“到这里还不能完全消退。”

“那是你的说法，”路易说，“我认为，杰克逊市的洪水和宾州的一样猛烈。乡亲们也说洪水上涌漫上横梁，也不能冲到这里来。”

“你和玛莎那天晚上逃出来了么？”

“我们前脚刚出门洪水就涌进屋子里了，我反正灯也擦好了，然后我和她在墓地后面的小山顶上慢慢挨过长夜。如果我们发现任何更高处，我们就会向那儿走去。”

“此后，你就不曾再对这个提灯做过清洁了吧。”

“既然没需要，我又为什么要再清洁它呢？”

“你是说，要等到下次洪水再来么？”

“就是它帮我们躲过这次洪水的。”

“哦，拜托，路易大叔。”我说。

“嗯，没错。你我各行其道。如果只需要清洁这个提灯来防备洪水，我就不愿和人斗嘴。”

“路易大叔是不肯点灯抓猎物。”弗什说道。

“我当初在这里抓负鼠时，人家还在用煤油洗你爸爸头上的虱子，帮他掐虱子呢。”

“不错。”

“嗯，没错。”路易说，“我们用灯照负鼠的时候可不少，这没错。他们也没谁埋怨光线太暗。嘘，别出声。它就在那儿。呜——怎么不叫了，这臭东西。”我们坐在干树叶上。在我们等待之时，可以听见干树叶窸窣窸窣的私语，自己平缓的呼吸，还有泥土和这无风的十月的悠长气息，提灯发出的刺鼻气味污染了脆弱的空气，还可听到犬吠嘈杂伴着路易说话的回声渐远渐无。他从不高声大叫，但是在一个寂静的夜晚，我们听到他的声音从前门廊传来。当他把狗唤进去，他的声音听起来就像悬挂在肩上却从未用过的喇叭吹出来的一样，不过，更为清晰、柔和，好似它本身就是黑暗和寂静的一部分，在空气中穿进又穿出，缭绕不断。呜呜嗷。呜呜嗷。呜呜呜呜嗷。我一定要嫁人

有许多人想要和你结婚吗加迪

我不知道有太多你能照顾班吉和爸爸吗

你不知道你要嫁给谁那么他知道么

别碰我你能照顾班吉和爸爸吗

在我走到桥边时，我开始感受到有水。石桥呈灰色，表面长满了苔藓，还有雨水侵蚀形成的斑纹，斑纹上爬满真菌。桥下阴暗处水流清澈平缓，发出咯咯轻笑，似在私语水中倒影旋转的天空漾起的漩涡撞在石头上逐渐消逝了。

加迪

我要嫁人弗什跟我讲起了一个自暴自弃的男人。他走进树林，准备用一把剃刀自残。破剃刀一挥，只见一团东西往肩膀后飞去，同一个动作使血管搅在一起，血流如注向后飞溅，却不重叠。但还不只这样，割去了还不解决问题。还得一开始就没有它们。然后我可以说，哦，那，那是中国人的方式，可我并不认识中国人。爸爸说那是因为你是处女：你不明白吗？女人永远都不再纯真了。纯洁是一种负面状态，因此与本性相悖。本性是在狩猎你，而非加迪。我说那只是言语而已，他说童贞也不外如是，然后我说你不懂。你不可能知道，他说是的。马上，我们意识到这个悲剧并非亲身体验所得。

在石桥的投影之处，我的视线可以向下延伸很远，但不能见底。如果你把一片叶子泡在水中很长时间，它的表皮组织就会脱离，精致的叶脉纤维则随着水波轻缓摇动，好似做着睡眠运动。叶片其他组织和叶脉纤维彼此分离，不再相连，无论它们曾经如何是否一脉相承，无论它们曾经是否骨肉相连。也许在上帝说上升的时候，目光也会随之起浮，延展到深层的平静与静息之外，一睹荣光如斯。不一会儿，晨曦在天边浮现。我把它藏在桥的一头，向回走，倚靠在桥栏上。

虽不能直探水底，但目光所及穿透水流，可视也颇深，然后我看到水中一个悬挂着的倒影犹如一个箭头逆向插入水流中。蜉蝣们贴着水面，在桥的投影中飞进穿出，来往不断。如果真有地狱就好了：圣洁的火焰就会让我们二人超越生死。到时你只有我一个人只有我一个人我们两人置身圣洁的火焰之外的慑人的恐怖中那个箭头随着水流的运动上浮，接着一个漩涡疾驰而过之间，有只鳟鱼突然从水面下衔住一只蜉蝣，壮观场面直如大象叼起花生般诡异。漩涡向下游漂去，然后我又看

到了那个箭头，它探入水流中，以优美的姿态随着水波摆动，其上众多蜉蝣斜掠疾行。那时只有你我至于圣洁的火焰之上，周围摄人心魄的恐怖

鳟鱼姿态优雅，一动不动，好似悬挂在波动的阴影中。三个男孩拿着渔竿走上桥来，我们一起靠着桥栏，俯身向下看鳟鱼。他们熟悉鱼。他就像是一个邻家小伙。

“二十五年来，他们一直都想抓到那条鳟鱼。波士顿有家商店愿意用价值二十五美元的渔竿和捕获者交换这条鱼。”

“那么，你们为什么不合力而为呢？你们难道不想要一根价值二十五美元的渔竿吗？”

“不，我们会抓到它的。”他们说。他们靠在桥栏上，向下俯视那条鳟鱼。“我一定会。”有一个说。

“我不会要那根渔竿，”第二个说，“而是拿钱。”

“也许他们不会给你钱，”第一个说，“我敢说他会让你要那根渔竿。”

“那我就卖了它。”

“你卖不到二十五美元。”

“那么，能得多少是多少。我用这根渔竿就能捕到和二十五美元那根一样多的鱼。”接着他们谈论了他们会怎么用那二十五美元。他们都急着说各自的盘算，他们的声音显得心情格外迫切，异于寻常，直有些迫不及待了。他们将虚幻的愿望化为一线希望，直到可能，最后变成无

可争议的事实，人们滔滔不绝谈论自己愿望之时便是这番景象。

“我会买一匹马和一辆马车。”第二个说。

“嗯，你会的。”另外两个答道。

“我会的。我知道用二十五美元可以在哪里买到。我认识那个人。”

“是谁？”

“是谁不要紧，关键是我能用二十五美元买到。”

“呀，”另外两人嘲弄道，“他根本就不知道，只是说说而已。”

“你们真这样想？”男孩说。他们继续嘲讽他，但他不再回应。他靠着桥栏，向下俯视那条鳟鱼，一如之前。突然，他们话语中的尖刻、冲突之意就此消失了，好像对他们而言他已经抓到那条鱼，买到了马和马车。他们二人都体会到了一个成人的特征：对于梦想而言，保持沉默更能让人信服。我想，那些用过多语言粉饰自己、互相吹捧的人至少都应该发掘沉默的智慧。过了一会儿，我能感觉到，另外两人正在想方设法对付他，试图夺走他那个马和马车的想法。

“你用那根渔竿换不到二十五美元，”第一个说，“我敢说你怎么也得不到。”

“他还没捕到那条鳟鱼呢。”第三个突然说道。

接着他们同声喊着：“呀，我和你是怎么说的？那个人叫什么名字？我谅你也不敢说。根本就没这个人。”

“呀，闭嘴，”第二个说，“看，它又出现了。”他们靠着桥栏，不约

而同地一动不动。他们的渔竿在阳光照射下，显得又细又长，也一例斜放着。鳟鱼不慌不忙，只见它的身影微微摇摆向水面上浮；随之小漩涡再次缓慢向下游逝去。

“快！”第一个低声说。

“我抓不到它了，”他说，“我们看看波士顿人的手段吧。”

“这个池塘里就这一条鱼吗？”

“是的。它把其他所有的都赶走了。附近最好捕鱼的地方是在下面的艾迪。”

“不，那不是，”第二个说，“毕格罗磨坊那儿要好上一倍。”接着，他们就此争论了一番，然后突然又停下来，又去注视鳟鱼在水中浮现。此时天空的一部分倒影被卷进了破碎的漩涡。我问他们最近的镇子离这儿有多远，他们告诉了我。

“但是最近的车路是那条，”第二个一边说，一边向后指着下面的那条路，“你是要去哪儿？”

“不去哪儿。就只走走。”

“你从大学里来？”

“是的。镇上有工厂吗？”

“工厂？”他们看着我。

“没有，”第二个说，“这儿没有。”他们盯着我的着装看，“你要找工作？”

“毕格罗磨坊呢？”第三个说，“那是一家工厂。”

“在我的眼里，是一家工厂。他指的是一家真正的工厂。”

“有鸣笛的工厂，”我说，“我都没听到整点鸣笛。”

“哦，”第二个说，“在神教派教堂的尖顶上有一个时钟。你可以从那里看时间。那个表带上没表吗？”

“今天早上，我把它弄坏了。”我把表给他们看了。他们仔细查看了一番。

“它还在转，”第二个说，“这样一个表值多少钱？”

“它是一个礼物，”我说，“是我高中毕业时父亲给我的。”

“你是加拿大人？”第三个说。他的头发是红色的。

“加拿大人？”

“他和他们的腔调不一样，”第二个说，“我听过他们说话。他的腔调像黑人说唱。”

“说，”第三个说，“难道你不怕他揍你？”

“揍我？”

“你说他的腔调像有色人种的。”

“呀，住口，”第二个说，“当你翻过那座山，就能看到那个尖顶了。”

我向他们道谢。“祝你们好运。只不过不要捕到下面那条老鳟鱼。它应该自由自在地活着。”

“没有人能捕捉到。”第一个说。他们又倚靠着桥栏，向下俯视水中。在阳光下，三根渔竿就像三条斜放的线，带着黄色的火焰。我再次踩着我的影子，踏着它走到斑驳的树影下。

这条路蜿蜒曲折，渐渐远离了河流。它跨越过小山，接着又蜿蜒向下，将人的目光和念头都带到一个宁静的绿色隧道中，树木那端矗立着一个四角台塔，但距离时钟的原型表盘还远。我在路边坐下来。草很深，长到脚踝处了，而且漫山遍野。路上的影子一动不动，就像是用模板印画下来的，而阳光就是斜握的笔。但那只是一列火车，不一会儿，就在树林那边消失了，带着长长的呼啸，然后我就听到我手表和火车的声音也慢慢减弱至无，好像它正在某处走过另一月或另一夏日，快如惊鸿一瞥，一切匆匆而逝。除了杰拉尔德。

加迪，该死的，该死，加迪。

他们的声音越过山冈，三根细长的渔竿好似几条燃烧着烈焰的丝线。他们边走边看着我，但没有停留。

“哦，”我说，“我没看到它。”

“我们不想再尝试了，”第一个说，“那条鱼是捉不到的。”

“时钟在那，”第二个边说边用手指着，“再走近一点，你就能看到时间了。”

“是的，”我说，“好吧。”我站起来，“你们都要去镇上？”

“我们要去大漩涡钓鲢鱼。”

“如果我们哪儿也不去，就什么也捕不到。”第三个说。

“我不明白为什么你一直都在讲大漩涡，”第二个说，“去那儿你什么也钓不到。”

“你可以不去，”第一个说，“你不一定要跟着我。”

“我们去纺织厂那儿，游泳吧。”第三个说。

“我要去大漩涡钓鱼。”第一个说，“你们爱怎么样就怎么样吧。”

“你说，什么时候听说有人在大漩涡钓到鱼了？”第二个对第三个说。

“我们去纱厂游泳吧。”第三个说。四角台塔在树林那一端渐渐隐没，时钟的表盘还是离得很远。我们走在斑驳的树影上。随后，又走到了一个果园，只见那里粉白相间。到处都是蜜蜂，我们早就可以听到它们的声音了。

“我们去纱厂那儿游泳吧。”第三个说。在果园旁有条小路出现转弯。第三个男孩放慢了脚步，停在那儿。第一个男孩继续往前走，点点阳光沿着渔竿跃动，从他肩膀一直到衬衫的后边。“走啊。”第三个说。第二个男孩也停下来了。你为何一定要嫁人，加迪？

你是不是想要我说出来？你是不是认为我说出来，事情就不会这样了。

“我去纱厂。”他说，“走吧。”

第一个男孩继续往前走。他光着脚，踩在地上听不到声音，比叶落微尘更为纤柔。果园中成群的蜜蜂嗡嗡叫着，犹如风潮乍起越来越强。小路沿着围墙延伸，随之呈外拱形，路边野花如繁星碎落。其尽头处顺势隐入林间。阳光斜照其上，只见稀稀疏疏直如星点，又如流萤，摇扇欲扑。黄色的蝴蝶在树荫间轻摇曼舞，看似阳光点点。

“你想去大漩涡干什么？”第二个男孩说，“如果你要钓鱼，你可以在磨坊那儿钓。”

“啊，让他走。”第三个说。他们目送第一个男孩离开。阳光从他的肩上滑落，又散落在渔竿上，如金黄色的蚂蚁闪烁。

“肯尼。”第二个说。你去对父亲说清楚好吗我会说我是父亲的生殖之神我发明了他创造了他去跟他说这样不行他会说我不是然后你和我因为爱儿女“啊，走吧。”第三个说。“人家早就在那儿了。”他们还在看着第一个男孩。“呀，”他们突然说，“继续走吧，乖孩子。如果他去游泳，就会把头弄湿，回去就得挨揍。”他们踏上那条小路，顺着往前走。树荫下，黄色的蝴蝶跟随着，在他们周围上下舞动。

因为没什么别的。我以为有什么别的，但可能没有然后你会发现不公也不值得你相信。他没注意我。他头戴破帽，脸转向一边，下巴描摹出脸的轮廓。

“你为什么不和他们去游泳？”我说。那是个臭流氓加迪

你是要挑衅他，是吗？

你是骗子，是坏蛋加迪他打牌出千被俱乐部开除了大家都不和他来往他期中考试作弊被开除了学籍

“你为什么不和他们去游泳？”我说。那是个臭流氓 加迪

你是要挑衅他，是吗？

你是骗子，是坏蛋 加迪 他打牌出千 被俱乐部开除了 大家都不和他来往 他期中考试作弊 被开除了学籍

哦 怎么了 我又不和他打牌

“比起游泳来，你更喜欢钓鱼吗？”我说。蜜蜂的嗡嗡声渐渐减弱，但仍然存在，好像没有沉入寂静，更显沉默的只是我们两人，此时水位也上涨了。前面的路又变得曲折起来，渐渐地眼前的路成了街道，两边平添了几幢白色的房子和背阴的草坪。 加迪 该死的 就算不为我，你能
为班吉和父亲想想吗

我还可以考虑点什么 我还考虑过什么呢？ 那个男孩离开街道，转到一边，头也不回，翻过一个栅栏，越过草坪，来到一棵树下。先把渔竿放下，再爬上树杈，坐在那儿，背对着街道，最后稀疏的阳光透过树叶照在他的白衬衫上，一动不动。我还想了什么？我甚至不能哭。去年的时候，我就死了。我告诉过你，我已经死了。但我不知道那是什么意思，我不知道自己在说什么。在家里，八月下旬的一些日子也是这样。就像这样，空气稀薄而热切，有些悲伤，眷恋和熟悉的东西在里边。人是气候经验的总和，这是爸爸说的。人是自己所有的一切的总和。不义之财总要将人沉闷地引向人财两空的境地：一边欲火焚身，一边心如死灰，真是冰火两重天。但现在我知道我已经死了，我告诉你

为什么你必须听 我们可以离开 你和班吉，还有我去没人认识我们的地方 一辆小马车由一匹白马拉着，马蹄嵌入浅土中；形似蛛网的轮子微弱地震颤着，发出的轧轧之声显得枯燥无味。层层绿叶犹如披肩，

泛起阵阵涟漪，其下马车向着山上去了。榆树。不：榆树街。榆树街。

关于什么 关于你的学费 他们把牧场卖了换钱，你就可以去上哈佛了 你难道不明白你必须现在去完成学业吗 否则，他就什么都没了

卖牧场 白衬衫在树杈上，在摇曳的树影里一动不动。车轮形同蛛网。马车下到凹陷处，马蹄踩踏快如妇人刺绣，干净利索。随后速度慢慢减弱，似乎一直停滞不前，就像从跑步机上迅速滑落。往前走，街道再次转弯。我现在可以看到白色的圆顶塔，还有呆笨、武断的圆形钟表显示着时间。 卖牧场

他们说如果爸爸不停止戒酒 他一年内就会死 他不会戒的 他不会的 因为我 因为上一个夏天 然后 他们就会把班吉送到杰克逊去 我哭不出来 我甚至哭一分钟都哭不出来 她正站在门边 下一分钟 他咆哮着、拉扯着她的裙子 他的声音在墙壁间如波浪般来回撞击着 她背靠着墙缩着 越来越小 越来越小 她的脸色苍白，眼睛就像手指那样凹陷进去 直到他把她推出房间 他的声音来回激荡直是势不可挡 仿佛静默之中无处容身 咆哮着

当你打开门，门铃会响，但只会响一次。门上就会发出高亢、清晰却微弱的铃声，传递到整洁、安静的空间中，好像铃声经过了调节设定，既不致损坏门铃，也不需要消耗过多的安静平复，当门打开时，不久前焙烤的暖气就会扑面而来；一个脏兮兮的小孩，两只眼睛像玩具熊，扎着两条漆皮色辫子。

“你好，小妹妹。”在温暖的空间中，她的脸就像是一杯牛奶掺入咖啡，“有人吗？”

但她只是看着我，直到一扇门打开，一位女士进来。在柜台上排放

着的玻璃杯后边，露出她的脸，灰色、光滑，头发稀疏却拉紧，脑壳灰白光滑，眼镜也是整洁的灰框就像电线上的什么东西，商店的现金箱。她看上去像位图书管理员。存放在布满灰尘的货架上的某种脱离现实的东西确乎存在，它有条不紊，且平静地变干，好像一缕见证了往日的不平的怨气。

“拿两个这个，夫人。”

从柜台下面，她取出报纸切成两半，然后把它放到柜台上，把两个面包拿出来。小女孩用双眼紧紧地盯着，一动不动，就像两颗黑加仑静止浮在一杯淡咖啡上。犹太人的国土，意大利人的家乡。看着面包，两只整洁的灰手，左手食指上的宽黄金带饰，用蓝色指关节敲打着吧台。

“你是自己焙烤面包吗，夫人？”

“先生？”她说，“像那样。先生？就像在台上。先生？五美分。还要什么吗？”

“不要了，夫人。我不需要。这位女士需要。”她不够高，不能越过柜台看，于是她走到柜台的末端，看着小女孩。

“你把她带进来的？”

“不是，夫人。我来的时候，她就在这儿了。”

“你这小坏蛋。”她说，她绕过柜台走出来，但她并没有碰那个小女孩，“你衣兜里有钱吗？”

“她没衣兜，”我说，“她什么都没干。她只是站在那儿，等着你来。”

“那么，门铃为什么没响呢？”她盯着我。她只需要一堆开关，在她2×2=5的头脑后面应该挂一块黑板。“她会把东西藏在裙子下面，然后就没人能发现。你，孩子。你怎么进来的？”

小女孩什么也不说。她看着那个女人，然后飞快地向我瞪了一眼，又再看着那个女人。“他们外国人，”她说，“怎么没听到铃响呢？”

“我打开门的时候，她进来的，”我说，“我们俩进来它只响了一次。不管怎样，她在这儿拿不到任何东西。而且，我认为她不会。你会吗，小妹妹？”小女孩偷偷地看着我，若有所思。“你想要什么？面包吗？”

她把手掌伸开，露出一枚五分镍币，币面潮湿肮脏，硬币攥得很紧快要陷进肉里了。银币虽然潮湿，但却温暖。我可以嗅到淡淡的金属味道。

“你这儿有五分的面包吗，夫人？”

从柜台下面，她取出报纸，再从报纸上裁下一张放在柜台上，把面包裹进去。我把硬币和另一个放到柜台上。“请再来一块面包，夫人。”

她从箱子里拿出另一块面包。“给我那包。”她说。我给她，她解开包裹，把第三块面包放进去，拿了硬币，在围裙里找到两个铜币，就找给了我。我把它给了那个女孩。她用手指攥住，又湿又暖，就像一条蠕虫。

“你要把面包给她？”那个女人说。

“没错，”我说，“我希望你的手艺同样能让她产生我感觉到美妙感受。”

我拿起两个纸包，把面包给小女孩，那个女人在柜台后面一身铁青，冷眼看着我们。“你等一下。”她说。她往后面走去。接着门被打开，又关上。小女孩看着我，手里抱着面包靠着脏裙子。

“你叫什么名字？”我说。她不再盯着我，但她仍然一动不动，好像连呼吸都停止了。那个女人又回来了。手里拿着一个有趣的东西，就像拿着一只死了的宠物鼠一样。

“喂。”她说，小孩转过头去看着她。“拿着，”那个女人边说边拿着它戳向那个小女孩，“它只是看起来特别。我想你吃的时候，是不知道有什么区别的。给。我可不能整天这样站着。”小孩拿过来，但仍然看着她。那个女人把手放在围裙上擦了擦。“我得去修理一下门铃。”她说。她走到门边，然后猛地将门拉开。小门铃立即叮当作响，声音微弱却清晰。我们朝门口走过去，那个女人回过头来看着。

“谢谢你的蛋糕。”我说。

“他们是外国人。”她边说边盯着门铃作响的阴暗处，“年轻人，听我的劝，尽量避开他们。”

“好的。”我说，“走吧，小妹妹。”我们走出去，“夫人，谢谢。”

她把门甩上，然后猛地拉开，使门铃发出单一、微小的响声。“外国人。”她说，眼睛盯着门铃。

我们继续走。“好了，”我说，“来点冰淇淋怎么样？”她正在吃品质粗糙的蛋糕。“你想吃冰淇淋吗？”她狠狠地向我瞪了一眼，嘴里还在咀嚼。“走吧。”

我们走到杂货店，买了些冰淇淋。她却不愿意把面包放下。“你为什么不把面包放下，方便吃东西呢？”我说着，示意要帮她拿。但她攥着它，不肯放开，嚼着冰淇淋，就像太妃糖。吃过的蛋糕放在桌上。她一直吃个不停，先把冰淇淋吃了，然后又去吃蛋糕，还不断扫视着陈列柜。我把我的吃完，我们就走出来了。

“你家是往哪条路走？”我说。

此时出现了一辆马车，就是那辆白色马车拉着的。只有皮尔迪医生最胖，重三百磅。你拉着他爬坡，坚持住。孩子们。吊在车上爬坡比自己走上去还累。你看过医生了吗 去看过过了吗 加迪

我不需要 我现在不能问 以后一切都会好的 不要紧的

爸爸说，因为女人太过柔弱，太过神秘。两次月圆之间恰巧有一次周期性的排污，保持着微妙的平衡。他说月亮圆圆满满，黄黄的，她的大腿臀部就像丰收时节的月亮。淌出来淌出来老是这样，黄黄的，像走路时的光脚掌。接着就知道有个男人把这些神秘和傲慢的东西都隐藏起来。所有藏在里面的他们向外探出柔和的身影，等着人们来抚摸。腐败的液体就像浸泡的东西一样漂起来，又像发白的橡皮没有充满气体将忍冬花香和所有的气味混杂起来。

“你最好把面包带回去，好吗？”

她看着我，静静地、不停地咀嚼着；吞咽食物时，喉咙总是流畅而有规律地胀大。我打开纸包，从中拿出一块面包给她。“拜拜。”我说。

我往前走，然后回头一看。她跟在我后面。“你家是往这条路走吗？”她默然以对。走到我边上，差不多在我手肘下方停下，嘴里吃着

东西。我们继续走。周围很安静，少有人路过 让忍冬的香味和其他东西都混合起来 她会告诉我，让我别坐在台阶上 听她的门在黄昏中砰然关上 听班吉还在哭泣 晚餐的时候 她就得下来 然后让忍冬的香味都混杂在里面 我们走到了拐角处。

“好了，我得沿着这条路走下去。”我说，“再见。”她也停了下来。她咽下最后一口蛋糕，然后开始吃面包，还一边看着我转过拐角。“再见。”我说。我转入街道，继续往前走，但走到下一个拐角处时我停下来了。

“你家往哪儿走？”我说，“这条路吗？”我顺着街道直指。她只是看着我。“你家顺着那条路走吗？我肯定你家住在火车站附近，是吗？”她仍然看着我，一脸平静，似乎藏着秘密，嘴里还在吃东西。街道两边都空无一人，树木间草坪宁静，房屋整齐，但街上冷落无人，不像来时路上。我们调转方向，往后走。有两个男人坐在商店门前的椅子上。

“你们认识这个小女孩吗？她一直跟着我，我找不到她家在哪儿。”

他们停下来，看着我，然后又看着她。

“一定是新来的意大利家庭的孩子。”一个说。他身穿一件褪色的礼服大衣。“我以前见过她。你叫什么名字，小女孩？”她向他们怒目而视，下巴仍在不停地嚼动。她吞咽的时候，嘴巴还不忘咀嚼。

“也许她不会说英语。”另一个说。

“他们吃完面包后，把她留在那儿。”我说，“她一定能说话。”

“你爸爸叫什么？”第一个说，“皮特？乔？叫约翰吗？”她又咬了一口面包。

“我该怎么办？”我说，“她就是一直跟着我。我得回波士顿了。”

“你从大学里来？”

“是的，先生。我现在得回去了。”

“你也许可以沿街上去，把她交给安斯。他会在马车行。他是警察局长。”

“我想就这么办吧。”我说，“我得跟她办点事，非常感谢。走吧，小妹妹。”

我们沿街阴凉一侧往上走，断墙的影子缓缓移到街对面。最后，我们走到了马车行。典礼官不在。有一个人坐在椅子上斜靠着那扇又宽又矮的门，门后成排的畜栏里吹来凉风，风中夹杂着臊气。那个人眼睛盯着邮局，对我说他也不认识这个女孩。

“他们是外国人。我看得出来。你可以带她穿过轨道，他们就住在那儿，也许有人会认领。”

我们往邮局走去。它在街道下面。那个穿礼服大衣的人正翻阅报纸。

“安斯刚刚驾车出城了。”他说，“我以为，你最好还是往下走，穿过车站，走到他们河边的房子那儿去。那里有人会认识她的。”

“我想我只能这样了。”我说，“走吧，小妹妹。”她把最后一片面包塞进嘴里，吞下去。“还要吗？”我说。她看着我，嘴里还在嚼动，她的眼睛乌黑，一眨不眨，眼神友善。我拿出另外两块面包，给她一块，自

已在另一块上咬一口。我问了一个人车站的位置，他指给我。“走吧，小妹妹。”

我们到达车站，穿过轨道，轨道边就有河。有一座桥横跨其上，河边有一条街道，街道上房屋布局杂乱随意，街道背靠着桥。街道肮脏不堪，气味也混杂刺鼻。可见一块未经修饰的土地四周围着残垣断壁，中间矗立着一幢风化破旧的房子，边上停放着一辆古朴的马车与此格格不入，房子的上层窗户挂着一件鲜艳的粉色外衣。

“那幢房子像你的家吗？”我说。她眼睛从面包上移开，看着我。“这幢？”我边说，边用手指着。她只是嘴里咀嚼着，但这似乎让我感觉到积极的意味，像是默认，尽管她的情绪并不热切。“这栋？”我说，“那走吧。”我走进破烂的大门，回头看她。“这里吗？”我说，“这像你家吗？”

她迅疾点头，又看着我，啃了啃那潮湿的半月形面包。我们往前走。撕碎的旗子散落一地，草长得很粗，叶片直直地戳着碎旗，眼前的路向着一个破败的小门廊延伸。房子并无任何有人的迹象，没有风，上层窗户挂着的那件粉色的衣服也不动。有个门铃吊着一个瓷钮，连接的线大概六英尺长。我先拉瓷钮，见没有反应，就停下来接着敲门。小女孩正在嚼外层的面包皮。

一个女人把门打开。她看着我，然后用意大利语和小女孩很快说了些什么，先是一个渐升的变调，而后停顿了一下，质问。她又对她说了什么，小女孩只是在面包皮的一端看着她，用脏手把面包推进嘴里。

“她说她住在这儿。”我说，“我在镇子那边碰到她。这是你的面包吗？”

“闭嘴。”她说。她又对着小女孩说了一通。小女孩只是看着她。

“不住这里吗？”我说。我指着小女孩，然后她，然后门。那个女人摇头。她说得很快。她走到门廊边上，顺着街道向下指，还一边说着什么。

我也猛烈点头。“你来指给我看？”我说。我抓住她的手，一边朝着路那边挥舞我的手。她说得很快，同时用手指着。“你来指给我看。”我说着，想让她走下台阶来。

“Si, si。”她说，仍然止步不前，给我指着方位。我再次点头。

“谢谢。谢谢。谢谢。”我走下台阶，走向大门，虽不是跑，但速度也相当快。我到达大门处时停下来，回头看了她一会儿。面包皮现在已经被吃完了，她用她乌黑、友善的眼睛看着我。那个女人站在台阶上，看着我们。

“来啊。”我说，“我们迟早要找到正确的地址。”

她走过来，正好停在我的手肘下方。我们继续往前走。这些房子似乎都空空如也。看不到一个人。这些空房子让人觉得喘不过气来。但他们不可能都是空的。如果你突然把所有的墙撕开来，就会发现每个房间都不同。太太，如果你愿意，来认领你的女儿吧。不。太太看在上帝的分上，来认领女儿吧。她贴着我的手肘行走，辫子紧紧捆住，闪闪发亮，接着最当头的房子已在脑后，前面的路顺着河水拐向一边，没入墙后看不见了。那个女人从破烂的大门走了出来，头上包着块头巾，两个角系在脖子下面。路继续弯弯曲曲向前延伸，周围荒无人烟。我找到一个硬币，把它给了小女孩。走到一个拐角处时，“再见了，小妹妹。”我说。然后我就跑了。

我跑得飞快，头也不回。在路转角前，我向后望了一眼。她站在路上，小小的身影，仍然把面包攥在脏兮兮的裙子前，她的眼珠黑亮，直直地瞪着，眨也不眨。我继续往前跑。

有条小巷从大路上岔开。我转入小巷，再过一会儿，脚步慢了下来，转而快步前行。小巷夹在建筑背面之间——未经粉饰的墙面，晾衣绳上鲜艳的衣服比比皆是，一座牲口棚后墙断裂，在茂盛的果树间默默腐朽，果树久未修剪，野草滋蔓，其间开着粉色、白色的花，阳光炽热，蜜蜂嗡嗡，颇有些热闹。我回头一看，小巷的入口处空荡荡的。我更放缓脚步，影子踩在身上，影子的头在遮掩住栅栏的野草间缓缓移动。

小巷向后转到一扇门上了的门前，就此没入草丛中，只能隐约看到草间的一条小径。我翻过栅门，进到一个树木丰茂的院落，走过院落来到另一堵墙前面，顺着墙走。我的影子现在落在了背后。这儿有蔓藤和爬山虎之类的植物，如果在家乡，就是忍冬了。尤其是黄昏下雨之时，会有一阵阵香气袭来，忍冬花香都混杂在里面，好像不如此就不够味，不够难受。 你为何让他吻你 吻你

我没让他吻我 我只是让他看着我 这就够他疯疯癫癫的了 你以为呢？ 一个巴掌 她的脸上就印上了我鲜红的手印 就像手底下点亮一盏灯 照着她的双眼闪烁

不是因为接吻 我才打你。十五岁的女孩子吃饭还用手肘撑着 父亲说你吞咽的时候 真是如鲠在喉 你和加迪到底是怎么回事 坐在桌子对面却不用眼看我。 因为你让一个不可一世的、城里来的臭小子亲你 我才打你的 你该说了吧 你说不说 这下你该说牛绳²了。 我鲜红的手掌从她脸上抬起来。你觉得把她的头摁进草丛里如何。 草秆会歪歪斜斜地戳进她的肉里。 说牛绳 快说

无论如何 我都不会亲吻娜塔莉那样肮脏的女孩 眼前的墙隐入阴影中，然后我的影子也融入其中，我又一次戏弄了它。我忘记了河流是沿着街道蜿蜒而行的。我爬上墙。接着她看着我跳下来，她还是攥着面包放在胸前。

我站在草丛中，我们相视了一会儿。

“你为什么不告诉我你就住在这边，小妹妹？”面包正慢慢穿透纸，早就需要一张新的了。“好吧，我们走，把你的家指给我。”不吻娜塔莉那样肮脏的女孩。下雨了，我们在屋顶上可以听到，就像叹息穿过牲口棚高耸、芳香的空间。

这儿？摸到她了

不是这儿

这儿？ 雨并不大，但我们什么都听不见，只能听到敲打屋顶的声音，就像是你我的血液脉动

她把我推下梯子 就跑开了 把我留在那里 加迪跑开了

是这儿疼吗 加迪跑开时 是这儿碰疼了吗

哦 她贴着我的手肘往前走，手肘都要碰到漆皮似的头顶了。面包从报纸的破洞中钻了出来。

“如果你不快点回家，面包就要从报纸里掉出来了。你妈妈会怎么责怪你？”我敢打赌我能举起你

你不行 我太重了

加迪走了吗 她往家里去了吗 你从我们家那儿不能看到牲口棚 你这样尝试过吗

那是她的错 她推开我 然后跑了

我能把你举起来 看 我能

哦 她的血还是我的血 哦 我们继续踩着浅土往前走，双脚踏地寂静无声，就像踩在橡皮上一般，太阳从树林中斜射下来，好似轻描淡写。我又能感觉到在树荫隐秘处水流迅疾而平缓地流淌。

“你家离这儿很远，是吗？你真是聪明，自己一个人走这么长的路到镇上。”这就像坐着跳舞 你坐着跳过舞吗？我们可以听到雨声，食槽里有只老鼠，畜栏空荡荡的，没有马。你怎么搂着跳舞 像这样吗

哦

我曾经这样搂着 你以为我不够强壮 是吗

哦 哦 哦 哦

我是这么搂着的 我是说 你听到我刚才说什么了吗 我说

哦 哦 哦 哦

这条路继续向前延伸，路上寂静无人，阳光越来越倾斜。她那两条笔直的小辫子辫梢处用红布条扎好。她走路时，包面包用的报纸有一角在不断拍打着，面包尖露了出来。我停下来。

“看这儿。你真的住在这条路上吗？走了差不多有一英里了，都没见过一幢房子。”

她看着我，眼珠乌黑，眼神神秘又友善。

“你住哪儿，小妹妹？你难道不是住在这个镇上吗？”

在树林里某处有只鸟，在隐约断续斜射进来的阳光之外。

“你爸爸要担心你了。你难道不知道，你不直接拿着面包回家是要挨揍的吗？”

那只鸟啼声又起，只是看不见它，啼声深沉却毫无意义，没有高低变化，忽戛然而止，就像被刀切断，再起，连同流水在隐秘处迅疾平缓流淌的感觉也来了，但视觉和听觉都不能发现其所在。

“哦，该死，小妹妹。”半张面包纸软软地垂下来，“这张纸现在没用了。”我把它撕下来，丢在路边，“走吧。我们得返回镇上去。我们要沿着河走回去。”

我们从正路走出来。泥沼中有苍白的小花盛放，暗流涌动无声无息。我这样搂着你 我是说我一直是怎么搂的 她站在门口 两手叉腰看着我们

是你推的我 是你的错 你也弄疼我了

我们正坐着跳舞 我敢说加迪不会坐着跳舞

停 快停下来

我只是把你裙子后背上的脏东西掸去

你把你的脏手拿开 是你的错 你推倒的我 我很生气

我不在乎 她看着我们面红耳赤的样子 她就走开了 我们开始听到长啸声，流水飞溅声；接着，我立即看到一个褐色的身影掠过。

我仍是怒气不止。我的衬衫打湿了，头发也一样。雨点透过屋顶，可以听到雨点敲打宏大的屋顶之声，现在我能看到娜塔莉在雨中穿过花园的身影了。让雨把你打湿 我盼你染上肺炎 回家吧 你这母牛。我竭尽全力跳进猪浴池中 黄泥水直没到腰间 臭烘烘的 我不断往下陷 直到我跌倒 在里面打起了滚 “听到他们在游泳了吗，小妹妹？我也想自己去玩玩。”只要我有时间。到我有时间的时候。我能看到我的表在转动。泥土比雨要暖和，但它气味难闻。她转过身去 我就绕到她身前。 你知道我在做什么吗？她转过身去 我绕到她身前 雨钻进泥土里 穿透她的裙子 打湿的背心紧紧粘在身上 散发出的气味臭不可闻。我抱了她 我刚才就干了个。她转过身去 我绕到她身前。 我就抱了她 我告诉你。

我才不在乎你做了什么呢

你不在乎 你不在乎 我会让你在乎 我会让你在乎的。 她把我的手掀开 我用另一只手把泥巴抹在她身上 她湿润的巴掌打在我脸上 我都没有感觉 我从腿上扒下稀泥 抹在她湿透、僵直、正调转过去的身体上 听到她的手指戳进我的脸 但我没有丝毫感觉 尽管此时滴到我嘴唇上的雨感觉有点甜味

他们在水中先看到了我们，只见一个个头和肩膀露出来。他们叫喊着，有一个蹲着的站起来，又跳到他们中间去了。他们看上去像海狸，河水拍打着下巴，他们叫喊着。

“把那个女孩带走。你把一个女孩带到这儿是要干什么呢？快走开。”

“她不会伤害你们的。我们只是想看看你们一会儿。”

他们蹲在水里。他们的头攒成一团，注视着我们，然后他们分散开来，往我们这边冲过来了，还一边用手捧水朝我们泼。我们赶快躲开。

“小心，男孩们，她不会伤害你们的。”

“走开，哈佛学生！”是第二个男孩，那个刚才在桥上幻想着马和马车的男孩，“用水泼他们，伙伴们！”

“我们上岸去，把他们扔到水里面来。”另一个说，“我不怕任何女孩子。”

“用水泼他们！泼他们！”他们向我们冲过来，还一边泼水。我们向后退。“走开！”他们叫喊着，“走开。”

我们走开了。他们在河岸下面缩成一团，一个个光溜溜的头在河水上排成一排。我继续往前走。“那儿不是我们该去的地方，是吧。”阳光斜射进泥沼中，高处都是，角度更为倾斜了。“可怜的孩子，你只不过是一个女孩。”泥沼之中小花零星点缀，我从未见过如此小的。“你只不过是个女孩。可怜的孩子。”在河流边上有一条路蜿蜒而行。河水到此又回复平静，水流泛黑，平静而迅疾。“你不过是个女孩。可怜的小妹妹。”

我们躺在打湿的草上气喘吁吁 雨点像子弹一般打在我后背上，冰凉冰凉。你现在在乎了吧 在不在乎 在不在乎

我的天啊 我们真要成泥人了 快起来。雨点打在我额头上，那一块就变得火辣辣的 我手上流出殷红的血 被雨水一洗刷就淡化为粉红色冲走了。伤口痛吗

当然痛 你以为呢

我真想把你两只眼睛抠出来 我的天啊 我真是臭不可闻啊 我们最好还是到小溪里去洗洗吧

“又到镇上了，小妹妹。现在你得回家了。我也要回学校了。看啊，现在已经很晚了。你现在要回家了，是吗？”但她只是用她那乌黑、诡异、友善的眼光看着我，半露的面包被紧抱在胸前。“它被打湿了。我还以为我们及时跳开了呢。”我把手帕拿出来，想要把面包擦干，但面包皮开始脱落，于是我就停下了。“我们让它自己风干吧。这样拿着。”她就照我说的那样拿着。面包现在看上去是被老鼠啃过一样。

水位沿着蹲下的背慢慢上升 身上的泥巴像蜕皮一样脱落，发出恶臭 雨点敲打在皮肤上，形成坑坑洼洼的麻子就像发烫的油锅上沸腾的油脂。

我跟你说过，我会让你在乎

我压根就不在乎你在干什么

接着我们听到有人飞奔而来，我们停下来，向后回望，看见一个人转入小路朝我们跑过来，平行的树影在他大腿上迅疾划过。

“他有急事。我们最好——”接着我看到还有另外一个人，一个年纪稍老的跑得很吃力，手里握着一根棍子，一个男孩腰以上都赤身，跑的时候还提着他的裤子。

“那是朱里奥。”小女孩开口说话了，接着他突然向我袭来，我就看

到了那个男孩颇具意大利人特征的脸和眼睛。我们一起摔倒在地。他的双手猛打我的脸，嘴里说着什么，我以为他还想要咬我，接着，他们把他拉开，他的胸口一起一伏，奋力挣扎，嘴里还大叫着。虽然被他们缚住了双手，他却还想踢我，直到他们把他往后拉走。小女孩在那儿号啕大哭，双手抱住面包。上身半裸的男孩向我猛冲，上蹿下跳的，还提起了自己的裤子。这时，有人及时拉我起来，我看到另一个赤身裸露的身影绕过小路寂静的拐弯处朝这边跑来，跑到一半又调转方向，跳进了树丛里，衣服就像木板一样甩在后面。朱里奥仍在奋力挣脱。把我拉起来的人说：“咳，现在终于抓到你了。”他穿着一件汗衫，没穿外衣。汗衫上面别着一个金属徽章，在他另一只手里握着一根多节、圆滑的棍子。

“你是安斯，是吗？”我说，“我在找你呢。出了什么事？”

“我警告你，你所说的一切都将用作呈堂证供对你进行指控。”他说，“你已经被捕了。”

“我要杀了他。”朱里奥说。他仍然挣扎着。有两个人控制着他。小女孩哭个不停，手里拿着面包。“你拐走我的妹妹。”朱里奥说，“我们走吧，先生们。”

“拐走他妹妹？”我说，“为什么，我一直都——”

“闭嘴。”安斯说，“你跟法官说去吧。”

“拐走他妹妹？”我说。朱里奥从那人手中挣脱开来，又向我疾驰而来。但警长中途拦住了他，他们两个扭抱在一起，直到另外两人过来再次缚住他双手。安斯松开了他，在那儿气喘吁吁。

“你这外国混账。”他说，“就为你这种人身侵犯，我真想把你也抓

起来。”他再次转过身来对着我，“你愿意老老实实在地跟我走，还是要我把你铐起来？”

“我会老老实实的。”我说，“怎么都好，只要我能找到一个人——弄清楚——拐走他妹妹。”我说，“拐走他——”

“我警告过你。”安斯说，“他想要告你蓄意强奸幼女。喂，你，让那个女孩消停一下。”

“哦。”我说。接着我就开始大笑。又有两个男孩从灌木丛中走出来，他们打湿的头发像石膏那样粘着，眼睛显得圆圆的，他们忙着扣上衬衣的扣子。衬衣早就打湿了，粘在了肩膀和手臂上。我试图止住大笑，但是我控制不住。

“看他，安斯，我想他疯了。”

“我得止住笑。”我说，“一分钟之内就停下来。有一次情况就是这样，当时也是停不下来，哈——哈——哈！”我说，还在大笑。“让我坐一会儿。”我坐下来，他们在一边看着我，还有那个满脸泪痕、抱着像是咬过的面包的小孩，河水在小路下面迅疾又平静地流淌。过了一会儿，笑意终于发泄完了。但我的喉咙不受控制，就像胃吐空了还在干呕。

“噢，好了。”安斯说，“忍着点吧。”

“好的。”我说，缩紧我的喉咙。此时出现了另外一只蝴蝶，就像一线阳光逃了出来。不一会儿，我不必把喉咙缩得很紧了，我就站起来。“我好了，往哪走？”

我们沿着小路一直走，另外两人盯着朱里奥和小女孩，那两个男孩跟在我们后面某处。这条小路沿着河流伸展到桥那儿。我们跨过桥，车

轨，就有人走到门口来围观，越来越多的男孩不知从哪儿钻了出来，直到我们转入主街道，就形成好大的队伍了。杂货店门前停着一辆汽车，一辆很大的汽车，我一开始没认出来，直到布兰特太太说：“怎么了，昆汀！康普生•昆汀！”然后我看到杰拉德，还有坐在后座的斯波特，他背靠在座椅靠背上。还有施里弗。我不认识那两个女孩。

“康普生•昆汀！”布兰特太太喊道。

“下午好。”我说，把帽子举了举，“我被捕了。我很遗憾，未能看到你的纸条。施里弗跟你说了吗？”

“被捕？”施里弗说，“抱歉。”他说。他撑起身来，跨过那些人的脚，走了出来。他穿着我的一条法兰绒的裤子，就像戴着手套一样。我不记得有这么一条裤子了，我也记不起布兰特太太有几个下巴。最漂亮的女孩也和杰拉德一样坐在前面。她们透过面纱看着我，脸上带着一种娇柔惊恐的神情。“谁被捕了？”施里弗说，“怎么回事，先生？”

“杰拉德。”布兰特太太喊道，“把这些打发走。你坐这个车，昆汀。”

杰拉德走出来。斯波特却动也不动。

“他怎么回事，长官？”他说，“是抢了鸡笼吗？”

“我警告你。”安斯说，“你认识犯人吗？”

“认识。”施里弗说，“听我说——”

“那你可以和我们一道去见法官。你正在妨碍司法公正。走吧。”他摇了摇我的手。

“哦，再见。”我说，“能见到你们所有人我非常高兴。不好意思，我不能和你们一起。”

“你想办法啊，杰拉德。”布兰特太太说。

“听我说，警官。”杰拉德说。

“我警告你，你是在妨碍一个警官执法。”安斯说，“你有什么话，可以去向法官说，可以说明你认识犯人。”我们继续往前走。现在队伍已经成规模了，我和安斯走在前面领头。我能听到他们在谈论这件事的经过，斯波特在询问，接着朱里奥用意大利语说了一大通，我回头看，见小女孩站在路边，用她那友善又神秘莫测的目光看着我。

“快回去。”朱里奥冲她喊道，“我要把你揍扁了。”

我们顺着街道走，转入一片草坪，在离街较远处坐落着一栋镶白边的平顶砖房。我们经过石子路走到门口，安斯把我们之外的所有人拦在外面。我们走进房子里，里面一间光秃秃的房间里透着一股隔夜的烟味。只见一个木框中铺着沙子，中间放着一只铁皮火炉。墙上挂着一幅褪色的地图，肮脏不堪，画着这个小镇的平面图。在一张满是疤痕、堆满物品的桌子后面，坐着一个头发蓬松、呈铁灰色的人，他正透过钢边眼镜审视着我们。

“抓到他了，是吗，安斯？”他说。

“抓到他了，法官。”

他打开一个满是灰尘的大本子，拉到自己面前，把一支肮脏的钢笔蘸到一个装着类似煤渣的墨水瓶里。

“等等，先生。”施里弗说。

“犯人姓名。”法官说。我跟他说了。他慢条斯理地写在本子上，那支钢笔故意刮出声音，很是折磨人。

“听我说，先生。”施里弗说，“我认识这个人。我们——”

“遵守法庭秩序。”安斯说。

“别说了，老弟。”斯波特劝道，“让他按他的规矩办吧。反正他是要这么办的。”

“年龄。”法官问。我回答了。他边写，嘴里一边嘟噜。“职业。”我告诉他。“哈佛学生，呃？”他说。他抬眼看我，脖子微弯，目光越过眼镜上边。他的双眼清晰，目光冷漠，像山羊。“你是来这儿干什么，拐骗儿童？”

“他们都疯了，法官。”施里弗说，“那些说这个男孩拐骗的人都——”

朱里奥举止激动。“疯了？”他说，“我难道没抓住他，呃？我难道不是亲眼看见的——”

“你是骗子。”施里弗说，“你根本没有——”

“秩序，秩序。”安斯说着，提高了他的声音。

“你们都闭嘴。”法官说，“如果他们不保持安静，就把他们赶出去，安斯。”他们都不说话了。法官看着施里弗，然后又看着斯波特，然后是杰拉德。“你认识这个年轻人？”他对斯伯特说。

“是的，法官先生。”斯波特说，“他不过是乡下来的小伙子在这里

上学。他老实本分。我想警官是弄错了。他的父亲是公理会的一个牧师。”

“嗯。”法官说，“你刚才到底在干什么？”我跟他说了，他则用冷酷苍白的眼神看着我。“怎么样，安斯？”

“也许是这样。”安斯说，“这些混账外国人。”

“那个女孩在哪儿？”

“他叫她回家去了。”安斯说。

“她当时有没有被吓着什么的？”

“朱里奥跳到犯人身上，她才惊到了。他们只是沿着河边的小路往镇上走。几个游泳的男孩告诉我们他们走的那条路。”

“是误会，法官。”斯波特说，“孩子们和狗都这样，喜欢和他黏在一起。他也没办法。”

“嗯。”法官说。他向窗外看了一会儿。我们则看着他。我可以听到朱里奥挠痒的声音。法官把目光收回来。

“小女孩没受到伤害，你还满意吧。喂，你？”

“没损伤。”朱里奥闷闷不乐地答道。

“你是不是放下工作，去找她？”

“是的。我丢下活儿。我跑着找。我拼命地跑。这儿找，那儿找，接着有人告诉我，看到他给她吃的。她就和他走了。”

“嗯。”法官说，“好吧，小伙子。我看你得赔偿朱里奥，你耽误了他的工作。”

“好的，先生。”我说，“多少钱？”

“我看，一美元。”

“好了。”斯波特说，“如果这样就完了——我想可以放了他了是吗，法官先生？”

法官没抬眼看他：“你跑了多远才追上他的？”

“至少两英里。找了两个小时，才抓到他的。”

“嗯。”法官说。他沉思了一会儿。其间我们看着他，他头发笔直树立，眼镜架在鼻梁的低处。窗户黄色的投影渐渐在地板上划过，移到了墙根，接着往上爬。微尘在倾斜的光柱中打转。“六美元。”

“六美元？”施里弗问，“用来做什么？”

“六美元。”法官说。他看了施里弗一会儿，然后又看着我。

“等等。”施里弗说。

“别啰唆了。”斯波特说，“给他，老弟。给完就可以走了。女士们正等着我们呢。你有六美元吗？”

“有。”我说。我给他六美元。

“案件审结。”他说。

“要一张收据。”施里弗说，“你交了钱，就可以问他要一张签收单据。”

法官不动声色地看着施里弗。“案件审结。”他说的时候没有提高声音。

“该死的——”施里弗说。

“走吧。”斯波特说，还一边拉着他的手臂。“再见，法官。多谢了。”当我们朝门走出去，马里奥再次叫嚷起来，凶巴巴的，然后消停了。斯波特正看着我，他那双棕色的眼睛带着嘲弄，有些冷酷。“好了，老弟。我想此后你得去波士顿追姑娘了。”

“你这个笨蛋。”施里弗说，“你这是干什么，在这儿兜圈子，和这些该死的意大利人厮混？”

“走吧。”斯波特说，“他们肯定等得不耐烦了。”

布兰特太太正和他们说话。她们分别是霍尔姆斯小姐和丹吉菲尔小姐。见我过去，就都不再听她说话，又用那种娇弱、好奇又惊恐的眼神看着我。她们的面纱翻起来悬在雪白、小巧的鼻子上方，面纱之下她们的目光闪烁，泛着神秘。

“康普生·昆汀。”布兰特太太说，“你妈妈该说什么了。年轻人遇到棘手的事，没什么大不了的。但是出去走走就叫一个乡村警察抓起来了，这就不简单了。他们以为他做了什么坏事，杰拉德？”

“没什么。”杰拉德说。

“胡说。你说，斯波特。是什么？”

“他想拐骗一个脏兮兮的小女孩，但恰巧被他们抓到了。”斯波特说。

“胡说。”布兰特太太说，但她的声音渐渐变弱，她对我审视了一番，两位女孩都不约而同地轻声吸了口气。“真不像话。”布兰特太太尖刻地说，“这不就是这些无知下等的北方佬的所为吗？上车吧，昆汀。”

施里弗和我坐在两个可折叠的小座位上。杰拉德发动了车，然后上来，我们便开车走了。

“现在，昆汀，你告诉我这件蠢事到底是怎么回事。”布兰特太太说。我原原本本告诉他们，施里弗缩着，在他的小座位上生气，斯波特又往后背靠着，他旁边坐着丹吉菲尔小姐。

“可笑的是，长期以来昆汀一直都把我们骗了。”斯波特说，“我们一直认为他是模范青年，大家都可以许以妻女，直到他的不法勾当被警察拆穿公布，我们才看清事实。”

“住嘴，斯波特。”布兰特太太说。我们沿着街道，一直越过桥，穿过窗上挂着粉色大衣的房子。“你就是你不读我的纸条的后果。你为什么不来拿呢？麦肯齐先生说他告诉了你纸条的所在。”

“是的，夫人。我一直打算去取，但我还没回过房间。”

“要不是麦肯齐先生，我还不知道你要让我们坐在这儿等多久呢。当他说你不曾回去时，这就空出来一个位置，所以我们就叫他来。不过我们还是非常高兴你能来，麦肯齐先生。”施里弗一言不发。他交叉双臂抱住，眼睛越过杰拉德的鸭舌帽笔直注视前方。据布兰特太太说，这种帽子在英国是骑摩托车时戴的。我们经过那幢房子，还有三幢别的房

子，接着是一个院子，那个小女孩就站在院门口。她现在已没了面包，她脸上留下一道道煤渣样的线条。我向她挥手，但她没有回应，只是车经过时她的头缓缓转动，眼睛一眨也不眨地跟随着汽车前行的轨迹。接着我们行驶在围墙边上，我们的影子沿着墙体飞奔，过了一会儿，我们经过了躺在路边的一张破报纸，我就又开始大笑起来。我感觉到它在我的喉咙里，我往树林里看去，只见下午的阳光倾斜照射，想起下午的时候，想起那只鸟，想起游泳的男孩们。但我仍不能止住笑，接着我知道如果用劲过猛，我就会哭出来。我想起自己以前想过的不再能保住童男之身的事了，当时众多女孩在阴凉处走动，她们轻柔的声音在那儿萦绕低回，秀口一吐，字字飘香，分明感觉目光灼灼，却不露痕迹，但如果当真如此简单，也就算不得一回事了，如果算不得一回事，那我又算什么呢。接着布兰特太太说道：“昆汀？他病了吗，麦肯齐先生？”然后施里弗肥胖的手摸了摸我的膝盖，斯波特跟着开腔了，我也不再竭力去控制了。

“如果那个篮子妨碍到了他，麦肯齐先生，你就把它往你那边移一下。我之所以带上一篮子葡萄酒，就是想年轻绅士应该喝点，尽管我父亲，杰拉德的外祖父.....”

干过这样的事吗 你干过这样的事吗 在灰白的黑暗中 有一点微光 她双手扣住

“.....有酒的时候，他们就喝。”斯波特说，“是吧，施里弗？”

她的膝盖 她的脸看着天空 忍冬花香在她脸上、喉间弥漫

“也喝啤酒。”施里弗说。他的手又摸了摸我的膝盖。我就又挪动了膝盖。

像抹上一层淡薄的紫丁香 说起他时就会浮现

“你不是绅士。”斯波特说。

他横在我们之间直到她的身影在黑暗中逐渐清晰

“不是，我是加拿大人。”施里弗说。

说起了他 言辞闪烁 和船桨片在水里跳跃一般 也如在英国骑摩托时戴的帽子一样晃动 船一直在飞速前进 接着他们两人永远重叠在一起 他当过兵 杀过人

“我喜欢加拿大。”丹吉菲尔小姐说，“我觉得那里美得让人惊艳。”

“你是喝过香水吗？”斯波特说。

用一只手他就能把她举到肩膀上 接着和她一起飞奔 飞奔

“没有。”施里弗说。

那畜生飞奔着，两个背影交叠在一起 她的身影在水光闪烁的桨影中渐渐模糊了 飞奔的是那只优波流斯的猪 一边跑一边交媾 有多少次呢 加迪

“我也没有。”斯波特说。

我也不知道，反正很多 我心里有罪难言 心里有罪难言 父亲 我犯错了 你做过吗 我们没有 我们没有做过 我们真做过吗

“杰拉德的外祖父老是在早饭前去采薄荷，那时还有露水留在枝叶上。他甚至都不让老威尔基去碰，你还记得吗，杰拉德？他总是自己动

手去采了来，配制他的薄荷威士忌。他对待他的薄荷威士忌十分挑剔，就像一个老嫗一样，按照脑子里的配方对一切严格把关。他只把那配方给过一个人，那是.....”

我们做了 你怎么能不知道呢 如果你有耐心听 我就原原本本说给你听 那是一桩罪行 我们犯下了可怕的罪行 那是掩盖不了的 你以为可以掩盖住 但听着 可怜的昆汀 你根本没做过 是吗 我会告诉你是怎么回事 我会告诉爸爸 然后 该怎么办就怎么办 因为你爱爸爸 然后我们就得在指责和惊恐中离开 圣洁的火焰啊 我会让你承认我们做过的 我比你强壮 我会让你明白我们确实做过 你以为那是他们 但那是我 听着 我一直都在骗你 那是我 你以为我在弥漫着该死的忍冬花香的房里 尽量不去想那秋千 雪杉 神秘的冲击 搅在一起的呼吸 吮吸着狂野的呼吸 还有一声声 好的 好的 好的 好的 好的

“他从没喝过葡萄酒，但他总是说一篮子葡萄酒。你上次读的是什么书 杰拉德划船服里的那本关于葡萄酒的是每个绅士外出野餐的必备。”

你爱他们吗 加迪 你爱他们吗 他们碰你的时候 我就死了

一分钟前她还站在这儿 一分钟后他就在叫喊了 还一边拉着她的裙子 他们大喊大叫地走进走廊 上了楼梯 把她推上楼梯 到了浴室门口停了下来 她背靠着门 一只手挡着脸 大叫 竭力想要把她推进浴室 当她走进去吃晚饭时 T.P.正在喂他饭 他就又开始动作了 一开始只是啜泣 直到她碰到他 接着他大叫起来 她站在那里，眼睛就像角落里的老鼠 然后我往灰白的黑暗中跑去 闻起来有雨的味道 所有的花都带着潮湿的味道 暖空气释放出来 蟋蟀们在草丛里高低鸣噪 我踱着步子，周身笼罩着一片寂静的孤岛随我往前移动 阿芳看着我通过栅栏 它形如一个黑点，就像一

条线上晾的被子 我想到那该死的黑鬼竟忘了喂她 我又往山下跑去 在蟋蟀鸣叫声烘托出的真空中奔行，就像一口气穿过镜子一般 她躺在水里 头枕在沙上 水漫至她的臀部处，拍打着 水中还有一丝微光 她的裙子一半已经湿透了 两侧随着水流的起伏上下沉重摆动 水流并不流向何处 只是随着自己的动作不断起伏 我站在岸上 在避水的土堆上可以闻到忍冬花香 空气中的毛毛雨里似乎都混杂着忍冬花香 再加上蟋蟀的鸣噪 你的皮肉都可以感觉到一种实在的物质了

班吉还在哭吗

我不知道 嗯 我不知道

可怜的班吉

我在岸上坐下来 草有点湿 接着我发现我的鞋湿了

别泡在水里 你疯了吗

但她没有动 她的脸雪白有些迷蒙 借助头发才能和朦胧的沙子区别开来

现在就出来

她坐起来接着又撑起来 裙子沉重地垂下来 她爬上岸来 衣服重重地拖着 坐下

你怎么不拧干一点 你想感冒吗

是的

水流的一部分浸透到沙里 其余的流过去了 流到柳树中的黑暗处去

了 流过浅滩时

水波就像一片薄纱一样伸展开来 此时水里仍然有微光

他走过了所有的大洋 走遍了全世界

接着他说起了他 两只湿漉漉的膝盖扣在一起 在灰白的微光中脸向后仰 又是忍冬花香

母亲的房里亮着灯 班吉的房里也是 T.P.正把他放到床上去

你爱他吗

她的手伸出来 我没动它 它在我的手臂上摸索着 她把我的手平放在她的胸口上 她的

心怦怦直跳

不 不

是他逼你的吗 那就是他逼你的 让你就范 他比你强壮 他 明天我就要杀了他 我发誓

我会 爸爸就不需要知道了 以后再说 就只有你我 知道 别人没必要知道 我们可以拿着

我的学费 我们可以放弃我的入学注册 加迪 你恨他 是吗 是吗

她把我的手按在胸口 她的心怦怦跳着 我转过身来抓住她的手

加迪 你恨他 是吗

她把我的手往上移 碰到她的喉咙 在那儿可以感觉到，她的心一下一下 猛烈撞击

可怜的昆汀

她的脸朝天看 天穹低垂 低到夜空的所有气味、声音似乎都拥挤在一块，犹如置于一顶

低垂的帐篷之下 忍冬花香尤其浓烈 它混进了我的呼吸 落在她的脸上、喉咙里 就像

涂料 她的血脉在我手上突突搏动 我用另一只手斜撑着 那只手开始痉挛 抽动 我竭力

呼吸 在浓烈的忍冬花香中吸进空气

是的 我恨他 我愿为他死 我早就为他死过了 每次发生这种事 我都为他死了一次又一

次

当我把手抬起来 我仍然感觉到树枝和草印在掌中横七竖八的压痕 热辣辣的

可怜的昆汀

她向后靠去 用两个手臂支撑着 两只手还抱着膝盖

你根本就没做过 是吗

什么做过什么

我做过的 我做过的事

是的 是的 许多次和许多女孩一起

接着我哭了 她又用手来抚摸我 我贴着她宽松的上衣哭起来 然后她
向后躺下 穿过我

的头望向天空 在她的虹膜下 我看到一圈白边 我打开小刀 你还记得
那天吗

达姆迪死的那天 你坐在水里，浸湿了衬裤

记得

我把刀尖抵到她喉咙上

这不需要多久 只一秒就好了 然后就轮到我自己 我自己来 然后

好啊 你自裁好吗

好的 刀片够长 班吉现在已经睡觉了

是的

这不用一秒钟 我尽量不会弄疼你的

好啊

你可以闭上眼吗

不 就这样 你得使劲往里捅

用手摸摸看

但她没动 眼睛张得很开 越过我的头看着天空

加迪 你还记得因为你的衬裤沾上泥水，黛西怎么对你大吼大叫的
吗

别哭

我没哭 加迪

你要把刀戳进去了吗

你要我戳进去吗

嗯 戳

用你的手来摸摸

别哭 可怜的昆汀

但我止不住 她把我的头抱住 靠在她潮湿却坚实的胸前 我可以听到
她的心跳强劲而平

缓 不再怦然撞击了 水流在柳丛的暗处汨汨流动 忍冬花香像波浪一
般在空气中阵阵袭

来 我的手臂和肩膀都扭曲地压在身下

那是什么 你在干什么

她的肌肉鼓起 我坐起来

我的小刀 掉到地上了

她坐起来

什么时候了

不知道

她站起身来 我还在地上摸着

我要走了 随它去吧

往家里走

我可以感觉到她站在那儿 我可以闻到她湿衣服的味道 感觉到她在那儿

它就在这儿某个地方

就这样吧明天你找得到的走吧

等一下我一定能找到它

你害怕了吗

就在这里原来它一直都在这里

是吗那走吧

我站起来跟上我们走上山冈在我们到之前蚰蚰就默声了

很奇怪你怎么能丢掉什么东西又四处去找

灰色一片有露珠的灰色斜上灰色的天空

然后是上边的树

该死的忍冬我真希望它能不散发味道

你以前喜欢这味道的啊

我们穿过山顶走向树林她撞到了我 她让了一点走到了山沟是灰色
草地上的一道黑色伤痕

她又撞到了我

她看着我让了一下我们一起走向山沟

就这样吧

为什么

看看你是否还能看到南茜的骨灰我很久都没和你一起来看过了

现在上面长满了藤蔓和黑荆棘

他们就在这里你说你能不能看到呢 能吗

昆汀停下

来吧

山沟越来越窄最后没有了她转向树林

昆汀停下

加迪

我又超过了她

加迪

停下

我抓住她

我比你强壮

她站住不动了 虽然极度不服但是不动了

我不想打到停下你最好停下

加迪别加迪

没什么用的你难道不知道吗这不会让我去忍冬群毛毛细雨里我可以听到蛐蛐在转圈圈看着我们她退后绕过我走向树林

你一直走回屋里好了

该死的忍冬

我们来到栅栏她钻了过去我也有样学样在我把弯腰直起的时候他从树林里走向这片灰色直挺地一动不动地朝着我们走过来虽然在移动但是还是就像没动一样她走向他

这是昆汀我淋湿了我全身都淋湿了如果你不想来可以不来

他们的身影重叠了她的头在天空的映衬下显得比他高他们的头你不

想来可以不来那就不会有两个头了黑暗中有雨有潮湿的草有树叶的味道
灰色的灯就像毛毛细雨忍冬的味道伴着潮湿波浪而来我只能模模糊糊看
到她的脸靠在他的肩上他一手抱着她就像抱着一个孩子一样他伸出他的
手

很高兴见到你

我们站在这里握手而她的影子拉得很长

两个影子印成一个

昆汀你要干什么

走一会儿我想我要穿过树林回到马路上穿过镇上回家

我转身走了

晚安

昆汀

我停下

你想干什么

树林里树蛙闻到了空气中的雨味他们听起来就像难以拧动的玩具音
乐盒发出的声音忍冬的气味

过来

你想干什么

昆汀过来

我走回去她摸摸我的肩膀靠下来她的模糊的脸从他的高影上靠下来
我后退

小心点

你回家吧

我有点想睡觉了我要散散步

在分岔路口等我

我去散个步

我会马上回来的等我你等我

不我要经过树林

我没回头看树蛙它们也没注意我灰色的光线像苔藓一样撒在树上但是还是不会下雨过了一会儿我回到了树林的边上我一到这里我就又闻到了忍冬的气味我可以看见法院大楼上的灯光还有镇上的星光天幕下的广场路旁的黝黑的杨柳母亲房里的灯光依然亮着班吉房里也一样我弯腰经过栅栏穿过草地我在灰色的草地上在蚰蚰中间奔跑忍冬味和雨水的味道越来越浓烈然后我就看到了水看到了灰色的忍冬我躺在河岸上脸贴近地面为的就是不闻到忍冬的气味现在我闻不到了于是我躺在这里感觉到泥土穿过我的衣物我听着雨过了一会儿我的呼吸没那么费尽了我躺在这里想如果我就这样躺着脸贴地面我就不用深呼吸就可以闻到泥土的气息然后我的脑海中一片空白她从河岸上走过来停下我没动

时间不早了你回家吧

什么

你回家吧时间不早了

好吧

她的衣服窸窣作响我没动它们就没响了

你会像我和你说的一样做吗

我什么都没听见

加迪

嗯如果你希望的话我会照做

我坐起来她坐在地上双手握着膝盖

就像我和你说的一样回房里去

好的你想要我做任何事我都会照做

她甚至没看我我抓住她的肩膀用力地摇晃她

你闭嘴

我摇晃她

你闭嘴你闭嘴

好的

她抬起头我看到她根本就没看我我看得到的眼白

起来

我拉起她她很柔弱我把她拉着站了起来

现在走吧

你走的时候班吉还在哭吗

走吧

我们穿过分岔路看到了屋顶然后看到了楼上的窗户

他已经睡了

我必须停下来问上门她在灰色的光线下继续赶路空气中有雨的气息
但是雨一直不下忍冬的气味开始穿过花园的栅栏飘过来她走到了阴影里
我能听见她的脚步声这时候

加迪

我听到她的脚步声然后我的手就摸到了她的不冷不热的衣服

还有点儿湿气

你现在还爱他吗

她屏住了呼吸除了慢慢地吸气呼气好像发生在遥远的地方

加迪你还爱他吗

我不知道

在灰色的灯光之外事物的阴影好像泡在一潭死水里一样死物一样

我真希望你已经死了

你也是吗你现在进来

你现在在想他吗

我不知道

告诉我你在想什么

停下停下昆汀

你闭嘴你闭嘴你听到我说的话了吗你闭嘴你会闭嘴吗

好吧我会闭嘴我们制造了太多噪音

我会杀了你你听到没

我们到秋千那里去吧在这里他们会听到的

我没在哭你是说我在哭吗

没有现在别说话你会吵醒班吉的

你回屋里去现在回去

我没哭我就是个坏姑娘你没办法改变了

我们都被诅咒了这不是我们的错这不是我们的错

别说了过来现在回屋睡觉吧

你说服不了我的我们都被诅咒了

我终于看到了他他正要去理发店他在到处望我走过去

等了一会儿

我找了你好三天了

你早就想和我谈谈

我现在要和你谈谈

他飞速地拨弄了两三下就卷好了一支烟他用手擦燃了火柴

这里不适合谈话我们是不是约别处

我到你的房间来你是住在宾馆吗

不这个主意不怎么样你知道小溪后面的那座桥吗就在那个什么的后
边

嗯我知道

一点怎么样

好的

我转身

打搅你了

等会

我停下转身

她没事吧

他就像是青铜打造的他的卡其衬衫一样

她有什么需要我帮忙的吗

我会准时赴约

她听到我要T.P.一点钟的时候安好“王子”的马鞍她一直盯着我看连饭也没怎么吃她也来了

你要去干什么

难道我想去散步都不行吗

你肯定有什么事情要去办去办什么事

没你什么事你个婊子你个婊子

T.P.已经牵着“王子”在偏门等了

我不想驾马车我要散步

我走下车道出了大门我转向小道然后我跑了过去我还没到桥边就看到他靠在桥栏上马拴在树林里他转过身看了看然后又转回去了他没再抬头直到我走到桥边停下来他手上抓着一块树皮他把树皮一点点掰下来经过桥栏上面扔到水里

我来告诉你离开这个镇子

他故意撕下一块树皮慢慢地扔到水里看着它

它漂走了

我说你必须离开镇上

他看着我

是她要你告诉我的吗

我说你必须离开这里不是我父亲也不是任何人和你说的是我说的

听着先不提这个我想知道她没事吧有人找她的麻烦吗

那不是你需要关心的事情

然后我听到自己说我要你在太阳下山之前离开这里

他剥下一块树皮扔进水里然后把树皮放在桥栏上又飞快地两下就卷好一支烟把火柴转出了桥栏

如果我不走呢你想怎么样

我会杀了你别以为我瘦小就觉得我是个孩子

他从鼻孔里吐出两道烟雾在他的脸上

你多大了

我开始颤抖了我的手在桥栏上我想如果我不藏起来的话他会看得到

为什么

我要你今晚上之前走

听着小子你叫什么班吉是天生的是不是他

昆汀

我根本没想说我的嘴巴自然就说出来了

昆汀

他慢条斯理地在桥栏上弹了弹烟灰好像在削铅笔一样我的手不再发抖了

听着没必要这么较劲这不是你的错不是我也有别人

你有妹妹吗你有吗

没有但是女人都是婊子

我给了他一拳我的张开的手在抑制打他脸的冲动他的手动得和我的手一样快烟从桥栏被丢下我另一只手扬过去他又抓住了我的手在烟掉入水中之前他一只手抓住了我的两个手腕他的另一只手飞快地伸向了衣服下的胳肢窝在他身后太阳开始西下一只小鸟在阳光没照到的那个地方欢歌鸟在欢唱的时候我们看着彼此他松开了我的手

看这里

他把树皮从桥栏上拿了下来丢进了水里树皮漂了起来水流把它带走了他的手放在桥栏上漫不经心地拿着拿着手枪我们等待着

你现在打不到了

不

它漂在水面上树林里太安静了我又听见了鸟叫声接着是水流声过了一会儿枪声他根本没有瞄准树皮消失了然后一片一片的树皮浮在水面上他又打了其中两片不比银圆大的树皮

我看这就够了

他把旋转弹膛飞了出去然后朝枪筒里吹了口气一缕青烟消散在空中他给三个空弹膛上了子弹关上旋转弹膛把枪口对着自己递给了我

干什么我又不想打上一枪

从你说的话来看我知道你会需要的我把它给你你刚才也看到了它的威力

和你的枪一起滚吧

我打了他在他抓住我的手腕之后很长一段时间我还想打他我还是试了试这就好像我是透过一片五彩玻璃看他一样我可以感受到我的血脉在沸腾然后我又见到了天空和天空下的树枝以及从树枝中间斜照下来的阳光而他正抓着想让我站起来

你打了我吗

我听不到

什么

是的你感觉怎么样

没事放开我

他放了我我靠在桥栏上

你感觉没事吗

让我安静一会儿我没事

你能自己回家吗没事吗

滚让我自己待着

你最好不要走路了坐我的马车吧

不你走吧

你可以把缰绳放在鞍头上放开它它自己会回马厩的

别管我你走吧让我自己待着

我靠在桥栏上望着流水我听到他驾着马车离开的声音过了一会儿周边安静下来了我只能听到水声鸟鸣声我从桥边走了靠着树坐了下来头靠在树上闭上眼一大片阳光洒下来拂照在我的眼帘我挪动了一下身子我又听到了鸟鸣声水声然后一切都感觉退去了似的我完全听不到任何声响了在经受这么多个日日夜夜因为忍冬欲睡不得安眠的折磨之后我就终于感觉快没事了就算过了一会我就知道他没打我他为了昆汀骗了我而我就像一个女孩子一样昏睡了过去但是那都不重要了
我靠坐在这里阳光斑斑点点地拂过我的脸就像树枝上星星落落的黄色树叶听着潺潺流水声什么都不想就算我听到了迅速前来的马蹄声我坐在这里闭上眼睛听到串串马

蹄声在沙地上疾走发出的摩擦声奔跑的声音和她在我身上急急探寻的双手

笨蛋笨蛋你受伤了吗

我睁开眼睛她的手擦过我的脸

我不知道方向直到我听到了枪声我不知道我没想到他会和你偷跑出去我没想到他竟然会

她用双手托起我的脸把我的头朝树上撞

停停下

我抓住她的手腕

停下别撞了

我知道他不会的我知道他不会

她又想把我的头往树上撞

我告诉了他不要再和我说话我告诉他了

她想要我松开她的手腕

放开我

停下我比你强壮停下

放开我我得追上他问他放开我昆汀求你放开我放开我

突然她就不挣扎了她松了手

是的我可以告诉他我可以让他相信任何事我可以

加迪

她没有拴住“王子”它随时能往家里跑只要它有这个想法

任何时候他都相信我

你爱他吗加迪

我什么

她看着我然后眼里什么光芒都散去了她的双眼变得犹如石像的眼睛

空洞无神没有任何生气

把你的手放在我的咽喉上

她拿起我的手平放在她的咽喉上

现在说他的名字

道尔顿·艾姆斯

我感觉到有一股热血在她的喉头涌动强而有力地搏动着

再说一遍

她的脸转向树林阳光斜照在树林里鸟儿在这里高歌

再说一遍

道尔顿·艾姆斯

她的热血持续沸腾着在我的手心里搏动搏动

她的热血持续沸腾了一段时间，但是我的脸感觉冰冷，就像死去一般，而我的眼、我手上的伤口又感到阵阵刺痛。我能听到施里弗在使用打气筒的声音，然后他端着脸盆回来了，脸盆中间荡漾着一团暮光，暮光边缘晕染着一层黄色的光圈——就像褪色的气球一样，然后可以看到我的倒影。我试图看清水中的我的脸。

“停了吧？”施里弗说，“把那块布给我。”他试图从我的手中拿过那块布。

“小心，”我说，“我自己可以。是的，差不多停了。”我又浸了一下手中的布，这回黄色的光圈被打散了。布浸湿了。“我真希望能有块干净的布。”

“你得用块牛排敷敷眼睛，”施里弗说，“你明天要是没个熊猫眼，才怪呢。那个浑蛋。”他说。

“我伤着他没？”我把手帕拧干，想擦擦背心上的血迹。

“擦不掉的，”施里弗说，“你得送到洗衣房去才行。好了，把手帕敷在眼睛上吧。为什么不呢？”

“我总能擦掉一点的，”我说，但是确实没擦掉多少，“我的衣领怎么样了？”

“我不知道，”施里弗说，“按在眼睛上吧。按住这里。”

“小心，”我说，“我自己可以。我伤着他没？”

“也许你打到他了。我可能正好转身了，或者眨眼了什么的，所以没看到。他可把你打得半死。你全身都惨遭毒手了。你和他挥拳头打架，到底是怎么想的啊？你个蠢货！现在感觉怎么样？”

“很好啊，”我说，“我现在在想我能用什么把背心洗干净不？”

“好了，别提你那该死的衣服了。你眼睛受伤没？”

“没事啊，”我说。周遭一切似乎都变成了一动不动的紫罗兰，屋顶上的被绿色渲染的天空染上了金色的光辉，烟囱里冒出缕缕炊烟，在无风状态下直直地升上了天际。我又听到了水泵的声音，一个男人在打水，一手在压水泵，一边侧过头来看我们。一个女人出门来，但是没往外看。我能听见别处的牛叫声。

“好了，”施里弗说，“别管你的衣服了，把那块布压到眼睛上。明早上我一起来就拿你的衣服出去洗。”

“好的。我感到遗憾起码该留点血迹在他身上的。”

“那个浑蛋。”施里弗说。斯波特走了出来，我估计是和那个女人在说话，接着他穿过了院子。他用他那冰冷深邃的目光盯着我。

“嗨，小子，”他看着我说，“你为了寻乐子，倒是惹了不少麻烦啊！拐骗还带打架。你假期在干什么呢？放火？”

“我没事，”我说，“布兰德夫人说什么？”

“因为你被打出血了，她正在狠狠骂杰拉德呢。她下次看见你也会

狠狠骂你的，居然让他把你揍成这个样子。她倒是不反对打架，但是不能打出血来。我想就是因为你都流血了，她对你有点不齿。你感觉还好吧？”

“当然，”施里弗说，“如果你不能成为布兰德家的一员，那退而求其次的做法，就是看情况和他们家某人通奸，或者喝醉后找他们家哪个人打一架。”

“说得对极了，”斯波特说，“但是我没觉得昆汀醉了啊。”

“他没醉，”施里弗说，“你要喝醉了，才敢和那个浑蛋动手吗？”

“好吧，我觉得我只有烂醉如泥了才会试着动手，看看昆汀现在的样子。吉拉德那浑蛋在哪里学的拳击啊？”

“他每天赶到镇上的麦克那里学。”我说。

“是吗？”斯波特说，“你和他动手的时候，你知道他学拳击的事吗？”

“我不知道啊，”我说，“不过我猜到他练过，是练过。”

“再把布沾湿沾湿，”施里弗说，“要换盆水吗？”

“没事，”我说。我又把布沾了点水，举到我的眼睛上。“真希望能弄点什么好好洗洗我的背心。”斯波特还在盯着我。

“说说看，”他说，“你为什么和他打架啊？他说了什么惹到你了？”

“我不知道。我不知道我怎么就和他打起来了。”

“我就知道你突地跳了起来，说：‘你有妹妹吗？有吗？’当他说没有的时候，你动了手。我注意到你一直看着他，但是你看上去又好像对任何人说的话都漠不关心，直到你跳起来问他有没有妹妹。”

“啊，他又在吹嘘呗，”施里弗说，“又在吹嘘他的女人。你知道的：就像他平时在女孩子面前胡乱吹嘘时一样——含沙射影、胡编乱造、天花乱坠，根本没啥实际意义，所以女孩子也搞不清他具体在说什么。他和我们说的他于大西洋城约一个少妇到舞厅相见，却放了她的鸽子，他回了宾馆睡大觉，以及他躺在床上时如何为了她的空等伤心遗憾，因为他没有赴约并满足她的需求。还大谈女人身段的优美，以及由此而生的遗憾的结局，而女人对此不屈不挠，除了仰躺在床上就无事可做了。勒达潜伏在灌木丛中，呻吟和呜咽地等待着那只天鹅，明白吗？浑蛋，我都想自己动手了结他。不过，如果是我的话，我会抡起他那该死的酒篮子打他。”

“哦，”斯波特说，“救美英雄！小子，你不只让人崇拜，还让人敬畏。”他看着我，略带冷漠揶揄，“我的老天爷啊。”他说。

“我打了他，很抱歉，”我说，“我这副样子回去道歉和好，会不会看上去太糟了点儿？”

“道歉，见鬼的道歉，”施里弗说，“让他们都去死吧。我们要去镇上了。”

“他应该回去道歉的，那他们都会看到他是一个绅士般地在打架，”斯波特说，“我的意思就是挨打挨得很有绅士风度。”

“就这鬼样子？”施里弗说，“全身沾满血？”

“那好吧，”斯波特说，“你们知道怎么做就好了。”

“他总不能穿着汗衫到处跑吧，”施里弗说，“他还不是高年级生呢。来吧，我们回镇上吧。”

“你没必要和我一块，”我说，“你继续去露营好了。”

“让他们见鬼去吧，”施里弗说，“到这边来。”

“我该怎么和他们说？”斯波特说，“说你和昆汀也打了一架？”

“什么都不要说，”施里弗说，“和她说她的选择只到太阳下山之前有效。昆汀，过来。我要问问那个女人最近的市间铁路在哪里……”

“不用，”我说，“我不回镇上。”

施里弗停下来，看着我。他转过身来，他的眼镜就像两片小黄月亮似的。

“那你要去干什么？”

“我还不打算回镇上。你继续回去露营。和他们说我衣服脏了，就不过来了。”

“看着我，”他说，“你要去干什么？”

“没什么，我没事。你和斯波特回去露营吧。我们明天见。”我穿过院子，走向马路。

“你知道车站在哪里吗？”施里弗说。

“我会找到的。我们明天见。告诉布兰德夫人，我很抱歉，砸了她的派对。”他们站在那里看着我。我围着屋子绕了一圈，然后沿着一条石子路走到大路上。石子路两旁都长着玫瑰。我穿过大门，走到了路上。大路是下斜的，通向树林里，我认得出停在路边的那辆车。我上了山，上山途中，我发现光线越来越强，而我还没到山顶，就听到了车子的声音——似乎是很遥远的从暮光中传过来的声音，于是我驻足听了一会儿。我已经看不到那辆车了，但是我发现施里弗站在房子前面往山上望，而他身后泛黄的暮光如泼般洒在屋顶上。我抬手示意了一下，就继续穿山而行了，一面还注意着汽车的声响。然后，房子也看不见了，我停在一片黄绿色的光影里，听到汽车的声音越来越大，直到快听不见时，它又忽然没了声响。我一直等到声音再响起，然后才继续赶路。

我下山时，天色渐渐暗下来了，但是又感觉光度是没变的，好像在变的、在减弱的是我自己，虽然在大路没入树林的时候，光线还是够看看报纸的程度。很快我就来到了一条小道，我转向小道上。小道比大路窄一些，光线也暗一些，但是当看到一块木质招牌表示它通向的是无轨电车站的时候，光线又没变了。从小道出来之后，光线好像变亮了，就像我穿过了黑夜的小道走到了白昼一样。很快我就看到了车子。我坐上去，人们都扭头看我的眼睛，我找了个靠左边的位置坐下。

车上开灯了，所以当我们穿过树林的时候，我除了自己的脸和坐在对面过道里的女人之外——她头上端端正正地戴着一顶插了一根断羽毛的帽子，什么都看不见。但是我们穿过树丛之后，我又看见了暮光，同样的暮光——让我感觉时间真的停住了，而太阳也一直悬在地平线之下似的。之后我们又来到了那个亭子——有一个老人在这里吃过衣兜里的东西的亭子，而大路在暮光下延伸至暮色深处，而我似乎能感受到河流在远处平缓、迅疾地流动。车子又开动了，从敞开的门里透进来的风越来越

大，直到它让整个车厢里都充盈着夏天和黑夜的气息，不过没有忍冬的味道。我想忍冬的味道是一种极悲切的味道。我记忆中有许多花草的味道——紫藤就是其中之一。碰到下雨天，要是母亲感觉身体还好，可以在外面透透风的话，我们就会在紫藤下玩耍。而母亲卧床的时候，黛西就会让我们穿上旧衣服到雨天里玩耍，因为她觉得雨水对年轻人是没什么害处的。不过，要是母亲在的话，我们一般是先到门廊上玩，等到母亲嫌弃我们过于吵闹的时候，我们才会出去到紫藤架下玩。

这里就是我早上最后见到大河的地方，大概就在这一块。我能感觉到暮光之外的水流——自有一股水的清香。春天花开的时候下雨的话，到处都是这股清香，平时就会注意不到。但是下雨的时候，这股清香会在暮光中钻进屋子里，要么就是因为有暮光的时候雨下得更浓，要么就是暮光中本身有什么香味，反正这股清香就是暮光时最浓。然后我就会躺在床上想什么时候会消散呢？什么时候呢？车门口透进来的风夹杂着水的气息，一股潮湿平稳的气息。有时只要我一遍一遍地念叨那句话就能安然入睡但是后来忍冬的香味混进了其中于是在这整个就成为了黑夜和不安的象征我就像在半睡半醒间俯瞰着一条半明半暗的走廊而走廊上所有的静物都有模糊难辨的阴影我做的一切也都变成了阴影我所感知和忍受的一切都变得滑稽可笑了并且带着嘲弄而且没有任何内在联系地否定其本该具有的重要性我在想我是我不是谁不是谁。

在薄暮之外，我能嗅到河湾的味道，我看到最后的一丝光亮宁静地洒在沙洲之上，就像打碎的明镜一般，而再向远处，光线开始铺洒在洁净的空气之中，就像远处有些蝴蝶在盘旋一般微微颤动。班吉明这孩子，怎么老是爱坐在镜子前面呢。在他身上，经久不衰的避难者的冲突淡去、缄默并调和了。我晚来得子的班吉明被作为人质带到了埃及。啊！班吉明！黛西是因为母亲太以他为荣。他们像突然涌现的一股黑人

潮流那样侵入白人的生活，瞬间就像透过显微镜一样，将白人的真实情况孤立成为无可争辩的现实情况；而剩下的时间只有笑声，在你没觉得有什么可笑的情况下发出的笑声，以及毫无理由的哭泣。他们打一些奇怪的赌，甚至是吊唁的人数这样的事，会打个赌。孟菲斯的一家妓院里都是这种人，有一回他们好像被附体了一样，都裸奔到了街上——而三个警察才制得住他们中一个。是啊耶稣哦好人耶稣哦多好的人。

车停下了，我下了车，他们又看着我的眼睛。来了一辆无轨电车，挤满了人——我只好站在后平台上。

“前面有位置。”乘务员说。我看了看车厢里，左边是没有位置的。

“我就要下车的，”我说，“我就站这里吧。”

我们过了河。那桥拱度比较小，但是桥身很高，矗立在寂静与虚无之间，而这里有黄、红、绿相间的光亮……在澄净的天空中一遍又一遍地闪烁。

“你还是往前走，找个位置坐下吧。”乘务员说。

“我马上就下了，”我说，“就两站了。”

我在车到邮局之前就下了。我想到露营的人现在准是围坐在哪里，然后就听到了我的表声，于是我开始仔细听打钟的声音，我透过衣服摸了摸给施里弗的信，而榆树残缺的阴影就落在我的手上。就在我拐进四方院子的时候，钟声响了，我就接着赶路了，而钟声就像池塘里风起的涟漪一样传到我耳里又继续传开，这报的是几时差一刻？好吧，几点差一刻。

我们房里的窗户黑压压的，入口处空无一人。我进门的时候挨着左

墙走的，但是没人：只有阴影里弯弯曲曲的楼梯上回荡的一代代悲切的人们的脚步声的回声，就像光影洒在阴影上一般，我的脚步像飞扬的灰尘一样吵醒了阴影，接着它们又安静地沉淀了下来。

开灯之前，我就看到了那封信——为了让我一眼就望见，信是用一本书支在桌子上的。在信里，他们把他当作了我的丈夫。然后斯波特说他们要到哪里去，要很晚才回来，而布兰德夫人则还需要一个骑士。这样一来，我又会见到他了，因为现在已经过了六点了，他一小时之内是没车回来的。我拿出表，听它送走时间的嘀嗒声，我都不知道它甚至不会撒谎。然后我把它朝上放在桌子上，拿出布兰德夫人的信，撕成碎片放进了废纸篓里，又脱下了我的衣服、背心、衣领、领带和衬衫。领带也沾了血，不过反正等会就会给黑鬼的。也许上面的血迹他能看作是耶稣戴过的。我在施里弗的房间里发现了汽油，我把背心平摊在桌面上，只有在这上边才能摊平，然后打开了汽油瓶。

镇上的第一辆车一个姑娘姑娘汽油味就是杰生受不了的味道这味道让他恶心脾气暴躁因为一个姑娘姑娘没有妹妹只有班吉明我的可怜的班吉明如果我有母亲的话我就能说母亲母亲因为用了很多的汽油，我都分辨不出是污渍还是只是汽油印子了。这刺激得我的伤口又痛了起来，所以我去洗漱的时候，就把背心搭在了椅子上，为了能快一点儿弄干污渍，又把电灯拉下来了一点儿。我洗了洗手和脸，但是我还是能在肥皂泡里闻到那股子刺激鼻子收缩的味道。然后我打开包，拿出了衬衫、衣领和领带，把带血的又塞了回去，关上包穿好了衣服。在我梳头发的时候，钟响了，半点了。不过，反正还可以等到报三刻，除非假设 在飞驰而过的黑暗里只有他自己的脸没有那根折断了的羽毛除非是他们中的两个人而不是像这样的两个人同一天晚上去波士顿然后我的脸他的脸猛地一瞬间擦过黑暗中两个灯火通明的窗子猛地擦过我的脸和他的脸猛地

擦过之后就消逝了刚看见便已成为过去刚刚真的照面了吗没有道别那候车亭里空荡荡的再无一人在此吃东西马路在黑暗和寂静中也是空无一人那座桥弯成弓形，伸向寂静的黑夜中水流沉睡了安详而又迅速流走没有道别

我关了灯，回到了我的卧室，离开了那堆汽油但是我还能闻到汽油的味道。我站在窗口，窗帘在黑暗里慢慢地吹拂到我的脸上，就像有人在沉睡中深呼了一口气，又幽幽地吐出一口气，然后就不再轻抚我了。

在她们上楼之后，母亲躺在椅子上，把散发着樟脑味的手绢放在嘴巴上。父亲没动还是坐在她旁边抓着她的手叫喊声一声接过一声就像寂静里无它的容身之处似的 我小的时候，我们的书本里有一张这样的图片——一片黑暗中只有一道微弱的斜光照在从黑暗中抬起头来的两张脸上。你知道如果我是国王我会做什么吗？她从不是女王或者仙女之类的她总是当国王当巨头当将军 我会冲破那个地方把他们拖出来痛快地抽他们一顿 那张图片撕下来扯碎了。我是高兴的。我必须回过头来看才知道地牢就是母亲自己她和父亲牵着手向上走进微弱的光里而我们迷失在下面的哪个地方即使他们也没有一丝光亮。然后忍冬的气味飘了进来。就在我关上灯打算睡觉的时候忍冬的气味就一阵阵地飘了过来而且越来越浓郁直到我喘不过气来必须起床像我小时候一样在黑夜中摸索着走到别处 手看得见在头脑里触摸形成看不见的门门现在手看不见什么了 我能闻到汽油、桌上的背心和门的味道。走廊还是没有人烟，世代代悲切地寻找水。然而看不见的眼睛像咬紧牙关没有不相信怀疑甚至没有苦痛胫骨脚踝膝盖顺着一道看不见的楼梯长栏杆行走在母亲父亲加迪杰生莫里都睡着的情况下失足我不害怕只要母亲父亲加迪杰生莫里都沉沉睡去我也能好好睡一觉当我的门门门 这里也是空荡荡的，水管、

白瓷脸盆、有污痕的静止的四壁、沉思的宝座。我忘了玻璃杯，但是我
能 手能感觉发凉的手指那无形的天鹅喉咙比摩西的权杖还要脆弱玻璃
杯叩击着不是叩击在细弱的喉咙上而是叩击在发凉的金属上玻璃杯满了
溢出了水让玻璃杯发凉手指冲洗睡觉留下潮湿感觉的睡眠在喉咙的长长
沉默中 我又回到了走廊里，吵醒了大批静默中窃窃私语的失落人，闻
到汽油的味道，那只表还躺在黑暗的桌子上撒着弥天大谎。接着窗帘又
在黑暗中呼出一口气，轻抚过我的脸。还有一刻钟，我就不在了。最宽

吗我想为了母亲和杰生你最好是离开

是母亲让杰生监视你的吗 我就不会干这种事

女人仅仅就是利用别人的荣誉准则这是因为她爱加迪 即便人不舒服她也待在楼下以防父亲在杰生面前嘲笑莫里舅舅父亲说他是个很差劲的古典学者才会冒险选择不懂事的瞎眼小子他应该选杰生的因为杰生最多会犯莫里舅舅犯的大错而不会让他变成黑眼帕特森家的男孩子们比杰生小一些他们卖五分钱一个的风筝直到出现了经济纠纷杰生就找了一个更小的新搭档怎么看都够小了因为T.P.说杰生仍管账但是父亲说为什么莫里舅舅还要做事如果他的父亲养得起五六个无所事事只要坐在火炉边的黑奴那他现在肯定也供得起莫里舅舅的吃住还可以借点钱给他这样也可以维持他父亲的信条那就是说在这个热度适宜的地方他的种族是天生高贵的然后母亲就会开始哭哭啼啼说父亲居然认为他的同胞比她高贵还有就是说他在嘲笑莫里舅舅是在叫我们一样的事情她不知道父亲是教会了我们的人都不过是一只只从堆废玩偶的垃圾堆里扫出来的肚子里塞满锯木屑的玩偶锯木屑从哪边的伤口里流出来的反正不是让我致命的那个。以前我总以为死亡就是类似像祖父那样的他的一个朋友一个很好的私交一个特别的朋友就像我们过去认为祖父的桌子连摸摸都不可以甚至在房子里都不敢大声说话我总认为他们就是一体的它一直在等着萨托里斯上校来一起坐坐他们在杉树后面的一个高地上萨托里斯上校站在一个更高的位置望什么然后走下来祖父穿上了制服我们能透过杉树听到他们低声的交谈他们一直在说话祖父总是说得对

报三刻的钟声响了。第一声精准无痕，庄严利落，驱散了不紧不慢的寂静感迎接下一声就是这样如果人们也能永远这样相互交错就好了一如一个火焰扭转着燃烧了一瞬间然后在冰冷的永恒黑暗中彻底熄灭而不是躺在这里尽力不去想那流逝的时间直到所有的杉树都染上了浓郁的死亡气息班吉如此讨厌这个。只要想到那树丛就像我能听见密语涌来闻到赤裸的身体内热血跳动的味道透过红红的眼帘看到被解绑了的成对的种猪一边交配一边冲进大海里他说我们必须保持清醒地观看短时间内的邪

恶但是它维持不了多久我觉得它没必要维持多久对一个有勇气的人来说而他说你认为那是勇气吗我说是的父亲大人你不这样认为吗每个人都是自己道德品质的独裁者你认不认为那是勇气比行为本身更重要比任何行为更重要因为不然你不会是真心的而我说你不相信我是认真的于是他说我认为你是过于认真了要警示我否则不会有动力告诉我你犯了乱伦罪我说我没说谎我不说谎他说你想把一个天性使然所犯的过错升华为一件耸人听闻的事情然后用真相来根除它我说这是我了将她从喧哗的世俗中分离出来如此我们就能不受限制和不受使唤就像从未有过一样他说是你试图让她这么做的吗我说我害怕我害怕她可能会然后又带不来什么好处但是如果我能告诉你我们干了那件事情那件事情就会是这样了而别人就不会这样了然后世界就会叫嚣着退出我们他说嗯关于那另外的一件事情你现在倒是也没有说谎话但是你对你内心这个部分仍然是无知的就是关于自然事件的普遍真理和原因这烦恼着每个人就算是班吉你也没在想人的有限性你在思考的是一种神化的境地其中是会达到头脑中的一种暂时的对称超越肉体而且它不单意识到自身和肉体它也不会抛弃你甚至不会死亡我说暂时的他说你现在甚至都不能想象有一天它不再这么伤害你了你似乎只是把它当成一种体验让你一夜白头这么说吧根本不改变你的容颜在这种情况下不会改变的这会是一场赌局怪事就是这些机缘巧合之下孕育出的人的每一次呼吸都是新鲜的他所投掷的骰子已经是针对他动过手脚的人不能面对最后的结局其实他早已知晓他迟早必须面对因而不须使用各种权宜之计比如暴力还有连小孩子都骗不过的小骗局直到有天在极端厌恶中他孤注一掷翻开一张牌没有人会在第一波绝望的盛怒悔恨和痛失所爱袭来时这么做只有在他意识到盛怒悔恨和痛失所爱相对黑暗的赌徒来说都不是那么重要而我说暂时的他说很难相信爱或者殇会是一种没有预先计划便买了下来的债券它的成长是不管你想不想都会成长成熟起来而且没有预兆地就被回忆起了也被当时正当值的任意管事的神替代直到你相信她也许甚至不值得为之沮丧我说我永远不会那么做没人知

道我知道什么而他说我认为你最好立马回到坎布里奇去你也许能去缅因州一个月只要你精打细算一点儿你是有这个支付能力的也许看着钱治愈的问题之多超过耶稣是一件好事而我想我知道了你相信的是什么我下个星期或者下个月是会在哪里理解的而他说那么你就会要记住让你去哈佛是你母亲毕生之梦想自你出生她就怀揣这个梦想而康普生家族没有一个人会让以为女士失望而我说暂时这对我是有好处的对大家都好而他说每个人都是自己道德品质的独裁者但是不要让人预先设定另一个人的幸福而我说暂时的他说那是最让人伤心的一个词世界上其他的什么都没有这不是绝望直到世界甚至不是世界直到这时最后一声钟声响起。

不久它终于停止了震动，黑暗中又恢复了平静。我走进起居室，把灯打开。穿上背心。汽油味道现在变淡了，甚至察觉不到了。从镜子里也看不见血迹了。至少不像我的眼睛这般明显了。我又把外衣穿上。施里弗的信在衣服里摩擦得哧哧直响。我把它拿出来，察看了一下地址，然后放进一侧的衣兜。接着我把手表拿进施里弗的房间，放进他的抽屉，就到自己的房里去了。我拿上一块新手帕，走到门口，手停在了电灯开关上。然后我记起还没刷牙，于是就又得打开包来。我找出牙刷，挤了点施里弗的牙膏，就走出去刷牙了。其后，我把牙刷挤得尽量干些，才又放回包里。把包拉上，就又走到门口去。砰地一下关灯之前，我先环顾了一圈，看看还有什么遗漏，结果发现忘了拿帽子。我得经过邮局，途中就一定会碰上他们中的某一人，接着他们会以为我不过是一个住在哈佛广场上的一年级生，却要装得像高年级学生一样。我也忘了刷它，不过施里弗有个刷子，所以我不需要再把包打开了。

2在美国南方，男孩欺负女孩时，喜欢抓住女孩的头发，让她们承认那是“牛绳”。——译者注

1928年4月6日

我说，当过婊子，就一直是婊子。我说你应该感到幸运，如果她只是逃逃课，让你担心的话。我说她现在应该立马到厨房来，而不是待在她的卧室里在脸上涂涂画画，还等着六个黑鬼伺候她吃早餐——而这些黑鬼只有吃了一整盘面包和肉才能站得稳。

母亲就说：“但是要让学校领导知道我约束不了她，我不能够……”

“好吧，”我说，“你不行，是吧？对她，你就没想过什么办法。”我接着说，“你觉得晚点，也就是等到她十七岁的时候，再这样做怎么样？”

她想了想我的建议。

“但是要让他们以为……我甚至不知道她有成绩单。她上个学期告诉我，今年学校已经不用成绩单了。而现在，琼金教授打电话和我说，她要是再缺席一次，就得休学了。她怎么会这么做？她去哪里了？你成天都在镇上；你应该去看看她是不是在学校。”

“好的，”我说，“如果她逃课到街上来，我想她是要做不能在大庭广众之下做的事情。”

“你这是什么意思？我没想到你会这么说，”她说，“你是他们中间唯一一个不怪罪我的人。”

“当然，”我说，“我没那个美国时间来怪罪您。我没时间去哈佛，或者把我自己喝得烂醉如泥。我必须工作。不过，当然如果您想让我跟着她，看她都在干些什么，我可以从商店辞职，然后找一个夜间的工

作。这样，我就能成天看着她，然后晚上您就让班来换班，看着她。”

“我知道我只会给你带来麻烦，是你的包袱。”她边说，边趴在枕头上哭起来。

“我知道了，”我说，“您在我耳边这么说了三十年了。现在，连班吉都该是知道了。你想让我就这个和她说说吗？”

“你觉得这会有什么用吗？”她说。

“如果你在我准备实施计划的时候，又来搞破坏的话，肯定没用，”我说，“如果你想让我管教她，你就直说，然后你就不要插手了。每次我试图做点什么的时候，你就来插手，然后让我们都被她笑话。”

“记住她也是你自己的血脉亲人。”她说。

“当然，”我说，“那正是我在想的事情——骨肉。如果按我说的话，也有点儿血缘。当人们表现得像黑鬼一样，唯一能做的事情就是把他们当黑鬼。”

“我怕你对她发火。”她说。

“好啦，”我说，“你的那套是行不通的。你想让我做点什么，还是不做？指条明路，到底怎么样，我还要工作呢。”

“我知道你应该让你的生活远离我们，”她说，“你知道，如果当初我实现了我的想法的话，你就会有自己的事务所，日子也该过得和巴斯康一样。因为不管你姓甚名啥，你骨子里就是巴斯康家的人。我知道，如果你父亲当时要是有远见……”

“好了，”我说，“我想他像每个人一样，有偶尔猜错的时候，就算是史密斯或者琼斯也一样，会犯错。”

她又开始呜咽了。“你怎么能这么说你的亡父呢！”她说。

“没事，”我说，“没事。你想怎么样就怎么样吧。但是因为我没有自己的事务所，我必须做我该做的事情。你想让我和她谈吗？”

“我怕你对她发火。”她说。

“好吧，”我说，“那我什么都不会说。”

“但是必须采取点什么措施，”她说，“怎么能让人们以为是我允许她逃课，到街上乱跑的，或者以为我没那个能力管住她……杰生，杰生啊！你怎么能这样！怎么能留给我这么多的包袱。”她说。

“现在这样，”我说，“您会弄得你自己又不舒服的。您为什么不直接把她整天锁在房间里，或者把她交给我，就别再为她的事情操心了，您看怎么样？”

“我的亲骨肉。”她哭着说。

所以我说：“没关系，我会好好照顾她的。别哭了。”

“不要对她发火，”她说，“记住她还只是个孩子。”

“我不会的，”我说，“我不会冲她发火的。”我带上门，走了出去。

“杰生，”她喊。我没答话。我走到了大厅里。“杰生。”她在门后喊。我继续往楼下走。餐厅里没人，然后我听到她在厨房的响声。她在试图说服黛西，再给她一杯咖啡。我走了进去。

“我想你穿的是校服，对吧？”我说，“还是你们今天是放假？”

“黛西，求你了，半杯就好。”她说。

“不行，小姐，”黛西说，“我不能给你喝了。一个十七岁的姑娘，不应该喝超过一杯的，更何况卡罗琳小姐交代过的。你去穿校服吧，这样你就能和杰生一起去镇上了。你又要迟到了。”

“不，她不会的，”我说，“我们马上就来解决这个问题。”她一手端着杯子，看着我。她把脸上的头发扫到后面，晨衣则往下滑。我说：“你放下那个杯子，马上到我这里来。”

“为什么？”她说。

“过来，”我说，“把杯子放到洗碗池里，过来这边。”

“杰生，你现在要干什么？”黛西说。

“你可能以为你能像对付你外婆他们一样，对我应付了事，那就错了。我给你十秒钟，照我说的做：把杯子放下，过来！”我说。

她不看我了，看向黛西。“黛西，几点了？”她说，“到十秒的时候，你吹个口哨。拜托，黛西，就半杯。”

我抓住她的手臂。她打掉了杯子。杯子掉在地上，她往后猛地一跳，盯着我，但是我仍然抓着她的手臂。

黛西从椅子上站了起来。说：“杰生，你。”

“你松开我，”她说，“不然，我要抽你了。”

“你想打我，真的？”我说，“你会，是吗？”她真的打了我。我抓住那只手，就像抓住一只野猫一样。“你来真的？”我说，“你以为你能打我？”

“杰生，好了！”黛西喊。我把她拖进了餐厅。她的睡衣松开了，松松垮垮地挂在身上，基本上是裸着的。黛西蹒跚地走了过来。我转身，把门踢上了。

“你别过来。”我说。

昆汀靠在桌边，扣衣服。我看着她。

“现在，”我说，“我想知道你是什么意思，逃课、对你外婆说谎、在成绩单上伪造她的签名，还有让她忧患成疾。你这样做，到底是想干什么？”

她什么也没说。她把晨衣一直扣到了脖子下面的扣子，紧紧地把她的身体包了起来，然后看着我。她还没来得及化妆，现在她的脸光滑发亮得就像用擦枪布擦过一样。我走过去，抓住她的手腕。“你到底想干什么？”我说。

“关你屁事！”她说，“你放开我。”

黛西进来了。“杰生，你！”她说。

“听我的，出去。”我看都没看她一眼，说，“我想知道你逃课的时候，去了哪里，”我说，“你没到街上来，不然我会看见你的。你和谁在一起？你是和哪个该死的油头小子在树林里鬼混吗？你是去了树林吗？”

“你！你个该死的！”她说。

“你可能这样吓唬一个老女人，但是我要让你瞧瞧，现在抓住你的是谁才行。”我用一只手抓住她，然后她不动弹了，盯着我，她的眼睛开始睁大，变得深邃起来。

“你想做什么？”她说。

“你等我先解下这根皮带，你就知道了。”我说，然后解下了我的皮带。此时，黛西抓住了我的手臂。

“杰生，”她说，“杰生，你！你难道不为你的行为感到难为情吗？”

“黛西，”昆汀说，“黛西。”

“我不会让他那么做的，”黛西说，“别担心，宝贝。”她挂在了我的手臂上。这时，皮带解出来了，我猛地扯开了黛西，将她推了出去。她跌到了桌子上。她太老了，除了艰难移动以外，做不了什么了。但是那没什么关系：我们厨房里需要一个人，吃年轻人吃不完的东西。她又跌跌撞撞地走过来，挡在了我们中间，她又想抓住我。“打我吧，先生，”她说，“如果你一定要打人，才能出气的话，那就打我吧。”她说。

“你以为我不敢？”我说。

“我知道你什么都做得出来。”她说。然后，我听到母亲在楼梯那儿的动静。我应该知道她不会袖手旁观的。我放了昆汀。她跌跌撞撞地倒在了墙上，紧紧地抓着她的衣服。

“没事，”我说，“我们暂时不算这笔账。但是你以为你能在我这里

蒙混过关吗？我不是什么老妇人，也不是一个半死不活的老黑鬼，你个小骚货。”我说。

“黛西，”她说，“黛西，我想要我妈妈。”

黛西走向她，说：“没事啦，没事啦。只要我在这里，他就再也不能碰你。”母亲下来了。

“杰生，”她喊，“黛西。”

“好了，没事了，”黛西说，“我不会让他碰你的。”她把手放在昆汀身上。昆汀推开了她的手。

“你个该死的黑老妇。”她说。她跑向门边。

“黛西，”母亲在楼梯上喊。昆汀经过她，跑上了楼梯。“昆汀，”母亲喊她，“昆汀，你怎么了？”昆汀没理她。我能听到她跑到楼梯顶，然后进了大厅的声音，之后，就是门被甩上的声音。

母亲停下来了。然后，她走了过来，说：“黛西。”

“没事，”黛西说，“我来了。你去把车开出来，等着，然后送她去学校吧。”

“别担心，”我说，“我会送她去学校的，我还要确保她待在学校。我开始做这个事情了，就会善始善终。”

“杰生。”母亲在楼梯上喊我。

“现在，去吧，”黛西边走向门边，边说，“你想再让你母亲犯病吗？我来了，卡罗琳小姐。”

我走了出去。我能听到她们在楼梯上的声音。“你现在回床上睡觉，”黛西说，“你难道不知道你还不能起床吗？现在，回去躺着。我会负责监督她及时去学校的。”

我出了后门，去把车开出来，我要整个绕一圈才能到前面找到他们。

“我记得我说了要你们把备用胎装在车后边的。”我说。

“我没时间，”卢斯特说，“班随时需要有人看着，直到姥姥忙完了厨房里的事情。”

“好吧，”我说，“我养了一厨房只会跟着班屁股跑的黑鬼，而我想换个车胎的时候，还得自己动手。”

“我找不到人照顾他。”他说。然后班开始呻吟着，淌着口水。

“把他带到后面去，”我说，“见鬼了，你怎么总是把他带在别人看得见的地方。”在他开始大喊大叫之前，我就把他们赶走了。星期天够糟的了，一草坪的人把一个超大号的球踢得四处飞，这些人都不需要养六个愚蠢的黑鬼。班吉每次一看见这群人来了，就会开始围着栅栏大叫着跑上跑下，我知道这会弄到他们开始要我支付观球费为止的，然后母亲和黛西会拿出几个瓷门球和一根拐杖，假装在打球，要么就是我晚上用灯笼。也许，他们会把我们都送到杰克逊的疯人院里去。天知道呢，如果真的被送过去了，他们可能还会举行“老家周”表示庆祝呢。

我走到后面的车库里。墙上靠着一个车胎，但是如果要我自己动手装上去的话，真是该死。

我退出来，打了个转。她就站在我的车子旁边，我说：“我知道你

没带书，如果不是和我毫无关系的话，我就想知道那些书都被你怎么样了。当然，我没有权利问你。”我说，“我只是刚好是那个去年九月花了十一块六毛五买它们的人。”

“我的书是母亲买的，”她说，“我压根没花过你的钱。要花你的钱，我宁愿饿死。”

“真的？”我说，“你这么和你外婆说说看，看她会说什么。你看起来不是没穿衣服啊，”我说，“就算你抹在脸上的那些粉什么的，比你穿的所有衣服遮住的还多一些。”

“难道你认为，这是你或者你妈的钱买的？”她说。

“问问你外婆，”我说，“问问她那些支票怎么样了。说起来，我记得，你倒是也看见她烧过的啊。”她甚至没有听我说，她把脸涂得乱七八糟，而她的眼神像杂狗的一样坚硬。

“你知不知道我会做什么？如果我发现这些东西压根没花你的或是外婆的钱的话。”她边用手压着裙子，边说。

“你会做什么？”我说，“钻进桶子里？”

“我会立马撕了它们，然后扔到大街上，”她说，“你以为我不会这么做吗？”

“当然，你肯定敢这么做，”我说，“你总是说到做到。”

“以为我不会呢。”她说。她两手抓住裙子领子处，好像要撕开裙子一样。

“你要是敢撕那条裙子，”我说，“我今天就在这里打到你终生记住这一次为止。”

“你以为我不敢呢。”她说。这时，我意识到她是真的打算撕裙子，直接就这么撕开。等我停下车，抓住她的手，已经有很多人在围着看了。一瞬间，这让我非常生气，都气糊涂了。

“你要是敢再这么做，我会让你后悔来到这个世界上。”我说。

“我已经后悔了。”她说。她不动了，然后她的眼神变得有点奇怪，我当时想她要是在大街上，在我的车里哭的话，我会抽她，抽到她生不如死。幸运的是，她没哭。因而，我松了她的手，继续赶路。还好，我们就在一条巷子边上，我可以在这里转到后街上，不用待在广场上。已经有人在彼尔德家的草地上支起了帐篷。艾尔给了我们两张入场券。她把脸转开，咬着嘴唇，坐在那里。“我已经后悔了，”她说，“我不知道我为什么要生在这个世界上。”

“我知道，肯定还有人也不明白。”我说。我在学校前面停了下来。铃声已经响了，最后一个学生正在进门。“无论如何，你也按时到过一次，”我说，“是你自己进去，然后一直待在这里呢，还是我和你一起进去，要你待在这里？”她下了车，“砰”地把门关上了。“记住我说的话！”我说，“我是认真的，让我再听到一次你在后巷里和那些死小子到处晃荡的话，你就试试看！”

她回头看了一眼，说：“我没有晃荡，我想每个人都知道我在做什么。”

“他们是都知道，”我说，“这镇上的每个人都知道你是什么样子的。但是不要让我再听到，听到没？我本是并不在乎你做什么，但是我

在这镇上是有地位的，所以我不能允许我有家庭成员，有像一个黑鬼骚货一样的所作所为。明白了没？”

“我不在乎，”她说，“我很差劲，我会下地狱，但是我不在乎。我宁愿下地狱，也不想待在有你的地方。”

“如果再让我听到一次，说你没去学校的话，你会希望你本是在地狱的。”我说。她没回头。

我到邮局，拿了信，继续开车到了商店里，然后停了车。我走进来的时候，艾尔在看着我。我想给他一个责怪我迟到的机会，但是他只是说：“那些中耕机来了，你最好是能帮助乔布大叔装好它们。”

我走到后院，老乔布正在拆板条箱，照他的速度，大概一个小时能取出三个螺丝。

“你真应该为我工作，”我说，“镇上所有不中用的黑鬼都在我家吃白饭呢。”

“我就是给周六给我发钱的人干活，”他说，“我干了活，就没时间讨好别人了。”他拧开了一个螺帽，“在我们国家，除了新工人，大家干活都不太上劲。”他说。

“你该庆幸你不是一个要等到这些中耕机出来，才有活干的新工人，”我说，“在他们打算阻止你之前，你会把自己做死的。”

“这倒是真的，”他说，“新工人真是艰难啊。不管风吹日晒，整个星期下来，每天都得早出晚归。星期六对他们来说，根本没什么意义。他们也不能坐在前廊上看西瓜长得怎么样了。”

“星期六对你来说，也会没什么意义，”我说，“如果是要我付你工资的话。现在把这些东西从板条箱里拿出来，然后拖进去。”

我首先打开了她的信，然后取出了支票。女人就是女人，又晚了六天。然而，她们还总是试图让男人相信，她们做得了买卖。你想一个做买卖的人，要是把一个月的第一天从第六天开始算，他的买卖能支撑多久。同样地，当他们寄出我的银行账单的时候，她总是好奇为什么我都要到六号才会把工资存进去。女人总是明白不了那种事情。

“就我写的关于昆汀的复活节裙子的事情，我没收到回信。信顺利到了吗？我写给她的前两封信，都没有回音，不过，第二封信里的支票和其他一张支票一起兑现了。她生病了吗？请立刻给我回信，否则我会亲自来看她。你承诺过，你会在她需要什么的时候，及时通知我。你偷拆了我写给她的信，我都知道，就像我在亲眼看着你一样。你最好尽快给我打电报到这个地址，告诉我她的情况。”

这时，艾尔开始朝乔布大喊大叫，所以我把信收起来，然后走了过去，想给他一点儿生气。这个国家需要白人劳动力。就让希望懒惰的黑鬼饿上个几年，然后他们就会意识到他们是多么愚笨。

快到十点的时候，我来到了前厅。前厅里有个旅行推销员。再过两分钟就十点了，所以我邀请他到街上喝一杯。我们要聊聊收成。

“没啥好的，”我说，“棉花都被投机倒把分子掌握了。他们给农民灌迷魂汤，让农民大种棉花，然后就此在市场上打压对手。难道你以为农民除了脖子晒红、背部变驼，真的能得到什么好处吗？难道你以为那个大汗淋漓地把棉花种到地里的人，除了解决温饱，能得到一丁点儿的其他好处，”我说，“如果种多了，就卖不出价钱，也就连摘都没必要

了；如果种少了，就连放轧棉机里都少了。那这又是为什么呢？为了一群浑蛋东部犹太人，我这里说的可不是信犹太教的人，”我说，“我也认识一些很好的犹太人。你可能就是其中之一吧。”我说。

“不，”他说，“我是美国人。”

“请勿见怪，”我说，“我不会因为一个人的宗教信仰，对他有偏见的。我对犹太人本身，并没有什么意见，”我说，“这只是种族不同。你必须承认他们并不生产什么，他们只是跟随拓荒者来到了这个新的国度，然后卖衣服给当地人而已。”

“你说的是亚美尼亚人吧，”他说，“对吧？拓荒者可没必要穿新衣服。”

“请勿见怪，”我说，“我不会因为一个人的宗教信仰，对他有偏见的。”

“当然，”他说，“我是美国人。我之所以鼻子长成这样，只是因为我的家族有一点儿法国血统。我是地道的美国人。”

“我也是，”我说，“我们这样的人剩下的可不多了。我说的是那些坐在纽约的办公室里，剥削涉世不深的赌徒的人。”

“是的，”他说，“穷人赌博，可是一丁点儿用处都没有。国家应该设立法律，禁止赌博。”

“你觉得我说得不对吗？”我说。

“是对的，”他说，“我想你是对的。农民来来去去都是倒霉的那个。”

“我知道我是对的，”我说，“这是一个容易被骗的游戏，除非你有熟人，能得到可靠的内部消息。我正好认识一些这样的人。他们有一家纽约最大的操纵公司之一给他们消息。我的做法一般是，”我说，“我从来不会一次承担太大的风险。他们就是为那种自认知道了所有的信息，并且试图用三块钱就打捞一笔的人设置的陷阱。这种人就是别人干这行的目标。”

这时，十点的钟声响了。我走到电报局。就像人们常说的一样，电报局只开了一点点门。我走到角落，再一次拿出电报，想确定一下。就在我确定的时候，一个报告来了——涨了两个点。我从他们所说的话里能判断出来大家都在买进。大家都在挤上船，就像完全没想到船会沉一样。弄得就像是有法律明文规定除了买进，不能进行任何操作了一样。好吧，我估摸着那群东部犹太人也得过日子。但是，如果任何一个在其国内混不下去了的外国佬，都能到美国来赚美国人的钱，那真是想我死。又涨了两个点，现在总共四个点了。见鬼，他们这回是真对了，看来他们的确有内部消息。那么我要是不听劝告，那我每月给他们的十块钱不是白给了。我走出去，然后想起来还没打电报，又走回来，打了电报。“一切安好。今天写Q。”

“Q？”报务员问道。

“是的，”我说，“Q，你不会写吗？”

“我只是确定一下。”他说。

“你照我写的发过去，我保你没错，”我说，“电报费收件方支付。”

“你要打什么电报，杰生，”怀特医生边说，边越过我的肩膀看起来，“是要买进的密码电报吗？”

“完全正确，”我说，“你自己判断形势吧，你可比那些纽约人懂得多。”

“嗯，是的，”医生说，“要是一磅涨两分，我今年就可以攒大笔的钱了。”

有一个报告来了——跌了一个点。

“杰生是在抛售，”霍金说，“看他的表情就知道。”

“我做什么，没关系，”我说，“你们自己按自己的判断做事。这些个富得流油的纽约犹太人也要和大家一样生存。”我说。

我回到了商店。艾尔在前厅忙活，我走到桌子后边看罗恩的信。“亲爱的爸爸，真希望你在这里。自从爸爸出镇之后，就没有好派对了。我想念你，我亲爱的爸爸。”我估摸着她确实是想我了。上回我可是给了她四十块呢。我从不承诺女人什么，也不会告诉她我会给她什么。那是对付女人的唯一方法——也就是让她们捉摸不透。如果你能想出任何一个其他让她们吃惊的方法，就给她们的下巴一拳好了。

我把信撕碎，在痰盂里烧了它。我的原则是，绝不保留女人留给我的只言片语，我也从不给她们写信。罗恩总是追着要我给她写信，但是我说我忘记告诉她的任何事情，都要等到我再到孟菲斯的时候，再告诉她。不过，我说我不介意她偶尔给我用普通信封寄封信，但是她要是想给我打电话的话，孟菲斯也就容不下她了。我说，当我在那里的时候，我是一个男孩，但是我不会让任何女人给我打电话。这里我说到我给了她四十块钱。如果你喝醉了，突发奇想想给我打个电话的话，记住这一点，并且在你打电话之前数十下。

“什么时候？”她说。

“什么？”我说。

“你什么时候回来？”她说。

“我会告诉你的。”我说。然后她想买瓶啤酒，但是我不会同意。“把钱存起来，”我说，“给你自己买条裙子吧。”我也给了女仆五块钱。毕竟，就像我说的，钱没什么价值，只是看你怎么花它。钱也不属于任何人，那为什么要想办法储存它呢。它只属于能得到又能守住它的人。在杰弗逊，还真就有这么一个人，靠卖腐烂了的食物给黑鬼，赚了大笔的钱，却住在商店上面一个猪舍大小的地方，还自己煮饭菜吃。四五年之前，他生病了。他被吓得要死，所以等他好了，他参加了教会，并且花五千块钱一年资助了一个中国传教士。我总在想，等他死的时候，发现根本就没有天堂的话，会气成什么样。就像我说的，他还不如继续生病，就此死了，把钱省下来呢。

信烧完的时候，我正打算把其他的信乱塞到衣服兜里的时候，突然有一种预感，应该在回家之前拆开昆汀的信看看，但是就在这时，艾尔开始在前厅叫我了，所以我把信收好，走过去，一直在等那个红脖子做决定——到底是花两毛钱还是三毛五分钱买一根缰绳，等了十五分钟。

“你最好是买那根好点的，”我说，“你要是买便宜的东西，也就不能指望走在别人前头。”

“如果这个没什么好的，”他说，“那你们为什么还卖呢？”

“我没说这一无是处，”我说，“我只是说没那个好。”

“你怎么知道没有那么好，”他说，“你用过吗？”

“因为它不要三毛五，”我说，“这就是我为什么知道它不好的原因。”

他把那根两毛钱的抓在手里，从指间拉过去。“我觉得我还是买这种吧。”他说。我想拿过来，包装好，但是他却把绳子捆好，塞到工装裤衣兜里了。然后他拿出了一个烟袋，好不容易打开它，倒了些硬币出来。他递给我两毛钱，说：“我可以用一毛五买晚餐时的甜点。”

“好吧，”我说，“你是医生。但是明年当你要买新装备的时候，不要找我抱怨就行。”

“我还没种明年的庄稼呢。”他说。我终于摆脱他了，但是每次我把那封信拿出来，就有事情了。他们都在镇上看演出，成群结队地进来买一些对镇上没什么好处的东西，除了让市长办公室的那帮贪污腐败分子又能分得一笔之外，也不能留下什么。而艾尔就像一只笼子里的母鸡一样，前前后后说：“您好，女士，康普生先生会接待您的。杰生，给这位太太拿个搅拌器，还拿一个五分钱的屏风钩子。”

是呀，杰生喜欢做事。我说不，我读了大学从来没什么优势，因为在哈佛它只教会你怎么晚上游泳，却没教你怎么游泳，而在希瓦尼，他们压根没教你水是什么。我说你可能该送我去州立大学；也许我会学会用鼻头喷雾弄停我的钟，然后你们就能把班送去当海军，我说或者是骑兵什么的，骑兵营里可是用阉马的。那么，当她把昆汀送回来要我养的时候，我说我猜那也是对的，他们把工作送到了我面前，而不是要我远上北部找工作，然后我母亲就会开始哭，我说不是我不想在这里工作；如果你认为这能让你满意的话，我会辞职，自己来照顾，让你和黛西赚钱养家，或者要班赚吧。把他租给一个杂耍团；总会有那么些人，愿意

花上一毛钱来看他，然后她就会哭得更伤心，一直说我那可怜的受折磨的孩子啊，而我说是的，等他长大了，而不是像现在只有我半个人高的时候，就能帮您大忙了，而她说她马上就会死了，她死了我们就都好了，我说好吧，好吧，您想怎么办就这么办吧。那是您的外孙女，她肯定比其他所有外孙女得到的都要多。只是我说，这只是时间问题。如果您相信她会照她说的做，不来看的话，您就是在自欺欺人，因为第一次是那个母亲一直在说，谢天谢地，你除了不叫康普生之外，你就是康普生家族的人，因为现在你是我的全部——你和莫里，我说我自身本来能不把莫里舅舅卷进来，这时，他们来了，说他们准备好了。这时母亲也停止了哭泣。她揭开了黑纱，我们一起下了楼。莫里舅舅正从餐厅出来，还在用纸巾擦嘴巴。大致就是留出了一条小巷子一样的路，我们走到门口的时候，正好看到黛西在角落里赶班和T.P.到后面去。我们走下台阶，上了车。莫里舅舅一直在说可怜的小姐姐，可怜的小姐姐，念叨个不停，一边还轻拍母亲的手。他一直在念叨些什么。

“你带衣带了吗？”她说，“他们为什么还不走呢，等班吉明出来，又好看了。可怜的小孩。他还不知道。他甚至没意识到。”

“好了，好了，”莫里舅舅说，轻拍她的手，嘴里念念有词，“这样更好。就让他不知这丧父之痛吧，等到不得不说的時候再说。”

“其他的女人在这个时候，应该有孩子在身边支撑她们吧。”母亲说。

“你有我和杰生。”他说。

“这对我伤害太大了，”她说，“他们两个在两年之内就变成了这样。”

“好了，好了。”他说。过了一会儿，他似乎是把手偷偷伸到了嘴巴边，把嘴里的东西丢出窗外了。然后，我就知道我闻到的是什——丁香茎的味道。我估摸着，他认为这是他在父亲的葬礼上，起码要做的吧，或者也许侧柜以为仍是父亲呢，所以在他路过的时候，绊了他一下。就像我说的，如果他一定要变卖什么，送昆汀去哈佛的话，如果当初他是把侧柜卖了，还从中拿出一点儿替自己买一件独袖紧身衣的话，我们的日子真是会好过得多。我琢磨着康普生家族在交到我手上之前就败光了的原因，就像我母亲说的，是被父亲喝掉了。至少，我从来没听他说要变卖什么东西，送我去上哈佛。

所以，他一直在拍母亲的手，一边说“可怜的小姐姐”，一边用戴着黑手套的手拍母亲的手，而四天后我们收到了那只黑手套的账单，因为那天是二十六日，因为就是一个月前的同一天，父亲上这儿，把它买回了家，而他只字不提她在哪儿之类的，母亲一直哭着说：“那你甚至没见到他？你没想办法让他出点赡养费吗？”然后父亲说：“没有，他的钱，她一个子儿都不会碰的。”母亲又说：“可以用法律手段逼迫他。他没法证明，除非……康普生·杰生，你不会傻到告诉……”

“别说了，卡罗琳。”父亲说，然后他要我去帮黛西从阁楼里把旧摇篮拿出来，我说：“好呀，他们今儿个晚上倒是真给我把工作安排到家里了。”因为我们一直都在希望他们能把事情处理好，也以为他会抚养加迪的，因为母亲一直说加迪对家庭还是有足够的感情不会危及到我，一旦她和昆汀有了自己的去处。

“她还能放在哪里呢？”黛西问，“除了我，谁会抚养她啊？你们不都是我养大的嘛。”

“你养得真是太好了，”我说，“无论如何，这又给了她操心事

了。”所以我们把摇篮搬了下去，之后黛西就开始在她自己的房间里装好它。这时，母亲果然又开始了。

“别说了，卡罗琳小姐，”黛西说，“你要把她吵醒了。”

“放这里？”母亲说，“被这种空气毒害？她现在已经够糟的了。”

“别说了，”父亲说，“别犯傻了。”

“为什么不能在这里睡？”黛西说，“她妈妈还不能单独睡的时候，都是在这个房间，每天晚上由我哄她入睡的。”

“你不知道，”母亲说，“是我自己的女儿被她丈夫抛弃了，可怜的无辜的孩子，”她说，看着小昆汀，“你永远不会知道你造成的苦痛。”

“闭嘴，卡罗琳。”父亲说。

“你为什么总是这么向着杰生？”黛西说。

“我一直想保护他，”母亲说，“我一直在保护他不受其扰。至少我要尽全力保护这个小孩子。”

“我想知道，为什么说她睡在这个房间不好？”黛西说。

“我没办法，”母亲说，“我知道我只是一个麻烦的老女人。但是我知道没有人能违背上帝的意志，又不受惩罚的。”

“胡说八道，”父亲说，“黛西，那就把摇篮装在卡罗琳小姐的房间吧。”

“你可以说我是说胡话，”母亲说，“但是永远不能让她知道。而且

永远不要让她知道那个名字。黛西，我不准你在她面前说起那个名字。如果她能在不知道自己一个母亲的情况下长大，我会感谢上帝的。”

“别犯傻了。”父亲说。

“我可是从来没有干涉过，你怎么抚养他们长大成人的，”母亲说，“但是现在我受不了了。我们必须立马做个决定，今晚就要决定。要么永远不要在她面前提起那个名字，要么就送她走，或者我走。你做个决定吧！”

“别说了，”父亲说，“你只是伤心了。黛西，摇篮就装在这里吧。”

“你肯定也快生病了，”黛西说，“你看上去像鬼一样。你快上床躺着，我给你端杯朗姆酒来，然后你好好睡一觉吧。我敢打赌你出去后，肯定没好好睡过一觉。”

“不行，”母亲说，“难道你不知道医生说了什么吗？你为什么一定要让他喝酒？他现在最大的问题就是酒喝多了。看看我，我也难受，但是我还不至于懦弱到要用威士忌来麻痹自己，那等于是自杀。”

“胡说，”父亲说，“医生知道什么呢？这只是他们谋生的手段而已：建议人们做一些当下没在做的事情，这谁不会呀——连退化的猿猴都会。接着，你该喊个牧师来，牵我的手了。”然后母亲就哭了，父亲则出去了。他下楼了，然后我听到了父亲开侧柜的声音。晚上，我醒来的时候，又听到了父亲下楼的声音。母亲可能是睡了，因为家里总算安静下来了。父亲估计也很小声，因为我没听见声响，只是在侧柜前面看到了他的睡衣下摆和光腿。

黛西装好了摇篮，替小昆汀脱了衣服，把她放了进去。从父亲把她

带回来，她就没哭过。

“马上这个摇篮就小了，”黛西说，“我想到了，我在大厅里铺个简易床睡，这样你就不用晚上起床了。”

“我不想睡，”母亲说，“你回去睡吧，我没关系的。我很乐意把我的下半生用在带她身上，只要我能阻止……”

“别说了，”黛西说，“我们一起好好照顾她。但是你也要去床上睡觉，”她对我说：“你明天要去学校。”

所以我出来了，而母亲又把我叫了回去，在我肩上哭了一会儿。

“你是我唯一的希望，”她说，“每天晚上我都感谢上帝把你赐给我。”当我们在哪儿，等大家开动的时候，她说：“谢天谢地！如果他也走了，我就只剩下你了，而不是昆汀。谢天谢地，你不是康普生家族的人，因为我现在仅剩的就是你和莫里了。”我说，好吧，我可以不让莫里舅舅卷进来的。他一直用戴着黑手套的手在轻拍母亲的手，说着走开了。轮到他铲土的时候，他脱下了手套。他走到第一批人旁边，他们在帮后来的人打伞，他们时不时地跺跺脚，想把脚上的泥土弄掉，因为铲子上也沾满了泥土，所以他们必须敲掉它，而在掉下来的时候泥土发出一种空洞的声音，而当我退到马车旁边的时候，我在一个墓碑后面看到他——又在喝酒。我以为他会永远喝下去，因为我也穿了新衣服，不过还好车轮上还没沾上很多泥土，所以只有母亲看到了，说我不知道你什么时候才会有另一件新衣服，而莫里舅舅说：“马上，马上就会有。完全不用担心。你一直都有我呢！”

我们的确有他，一直都有他。第四封信来自他。但是没有打开的必要。这种信，我自己就可以写，或者凭记忆背给她听，为了保险起见就

加上十块钱好了。但是对于另一封信，我倒是有种直觉——就是感觉她又在耍什么花招了。自从第一次之后，她就变聪明了。她很快就发现，我和父亲可不一样。当他们快要填到顶了的时候，母亲又开始号啕大哭，所以莫里舅舅和母亲上车先走了。他说，你可以和别人一起回来；他们会很乐意让你搭个顺风车的。我必须把你母亲送回去，我本来想说：“是的，你本来应该带两瓶酒，一瓶是不够的。”但是我想了想场合，就没说什么，让他们走了。他们也不怎么关心我全身有多湿，因为这样母亲又很长一段时间要担心我得肺炎了。

我一边这么在想着，一边看着他们把泥土铲进去，然后拍紧，就像在和泥浆、做木栅栏什么的，我开始觉得有点小意思，所以我决定在附近走走。我想到我要是往镇上走，就会被他们追上，然后会喊我和他们中谁一起走，所以我往回走，去了后面的黑人墓园。我站在雪松下，这里没怎么下雨，只是偶尔滴几滴，而且站在这里，我可以看到他们什么时候完工离开。过了一会儿，他们都走了，我等了一分钟，才走出来。

我必须顺着他们走的路走，这样就不会沾到湿淋淋的草，所以我没有看见她，直到我走得很近，才看到她戴着黑斗篷，站在那里看花。我立马就认出了她，甚至没等到她转身看我，掀起面纱。

“你好，杰生。”她边说，边伸出手。我们握了握手。

“你在这里干什么？”我说，“我想你答应过母亲，不会再回这里的。我以为你应该更理智才对。”

“嗯？”她说。她又去瞧那些个花了，这花怕是花五十块钱也买不来的吧。有人放了一束在昆汀的坟墓上。“你这么想？”她说。

“不过，我也不奇怪，”我说，“我一直都知道，你不把别人放在心

上。你才不在乎别人呢。”

“这样啊，”她看着坟墓，说，“杰生，那个工作的事，我很抱歉。”

“你会抱歉？”我说，“你现在可是说话温顺得多了。但是你没必要回来的，并没有留下什么东西。如果你不信我，就去问问莫里舅舅。”

“我什么都不想要。”她说。她看着坟墓，说：“为什么他们都不告诉我？”她说，“凑巧我在报纸的最后边看到了，只是凑巧。”

我什么都没说。我们站在那里，看着坟墓，然后想到了我们小时候，一件一件事情出现在我的脑海里。我又觉得有点怪怪的，有点疯掉了的感觉，我想到现在在家里又要一直看到莫里舅舅管事了，就像他现在把我丢在雨里让我自己回家一样。我说：“你真是会挑时间，他一死，就偷偷回来了。但是这对你没什么好处的。难道你以为你能以此为契机，偷偷潜回来？如果你驾驭不了自己的马，你就只能放弃，”我说，“我们甚至连你在那里叫什么名字都不知道。你知道吗？我们甚至不知道你叫什么。如果你和他还有昆汀一起待在下面，倒是对你有好处。”我说，“你知道吗？”

“我知道，”她说，“杰生，”她盯着坟墓，说，“如果你能安排我见她一分钟，我给你五十块。”

“你不会有五十块，”我说。

“你不信？”她说，眼睛并没看我。

“让我看看，”我说，“我不相信你有五十块钱。”

我可以看见她的手在斗篷下移动的方位，接着她伸出了手。倒是真

有钱，我可以看到两三张黄色的钱。

“他还给你钱？”我说，“他寄了多少给你？”

“我给你一百块，”她说，“好吗？”

“只看一分钟，”我说，“而且只能按我说的做。就算给我一千块钱，我也不能让她知道。”

“好的，”她说，“就按你说的做。我也不会花一千块钱让她知道。”

“给我钱。”我说。

“完事后给你钱。”她说。

“你不相信我？”我说。

“我不信，”她说，“我了解你。我们是一起长大的。”

“你还真有脸和别人说信任这个问题，”我说，“好吧。我不能再在这里白白淋雨了。再见。”我作势要走。

“杰生。”她叫我。

我停了下来。“怎么样？”我说，“快点决定，我都淋湿了。”

“好吧，”她说，“给你！”我看到处没人，就走回去，拿了钱。她还抓着不放。“你会做的吧？”她透过面纱看着我说，“你发誓？”

“好了，”我说，“你想等到别人看见我们在一起吗？”

她让我走了。我把钱放进了衣兜里。“杰生，你会做的吧？”她

说，“如果有其他办法，我不会求你的。”

“你对极了，你也没有其他办法可想，”我说，“我当然会做。我说了我会做的，难道不是吗？好了，只是你要按我说的做。”

“好的，”她说，“我会的。”于是我告诉了她到哪里之后，就朝租来的马车走去。我走得很快，我到的时候，他们正好在解开马车。我问看车钱数了没有，他说没有，我就说康普生太太忘了些事，还要用车，所以他们就让我上车了。是敏克在赶车。我买了支雪茄给他，所以我们在后街逛了一会儿，直到天快黑了——他们是看不到这里的，也就看不到他。然后敏克说他把马队赶回去了，我就说我给你再买支雪茄，于是，我们一起驾车进了巷子，我就穿过庭院回到了家里。我在大厅里停了一会儿，直到听到母亲和莫里舅舅的声音在楼上响起，才走到后面的厨房去。昆汀和班与黛西在一块儿。我说母亲喊她，于是，我把她带到了房里。我找到了莫里舅舅的雨衣，披在她身上，抱起她回到了小巷子里，坐上了马车。我告诉敏克去仓库。他不敢经过马厩，所以我们只能原路返回，然后我看到她站在角落的灯光下，我和敏克说靠近人行道走，要是听到我说“快”，就给马队抽上一鞭子。然后，我掀开了她的雨衣，把她举到窗户边，加迪一看到她，就好像要扑过来的样子。

“快，敏克！”我说，于是敏克抽了一鞭子，然后我们就像消防车一样，在她面前呼啸而过。“现在你该履行承诺，坐火车离开了。”我说。我从后窗看到她在跟着我们的马车跑。“再抽一鞭子，”我说，“我们回家吧。”我们转弯的时候，我还看到她在跟着跑。

当天晚上，我又数了下钱，然后收好了，这种感觉不坏。我说我琢磨着这回你知道我的厉害了吧。我琢磨着现在你知道你不能害我丢了工作，就不管了吧。我从没想过，她会失信于我——没坐那辆火车离开。那

是我当时还不了解女人的原因；我除了相信她们，没想过多的，可是第二天早上，见鬼，她居然直接走进了我的店里，还好她有点理智，戴了面纱，也没有和别人搭话。这是周六早上，因为我在店里，她直接就飞快地走到了我的办公桌后边。

“你个骗子，”她说，“你个骗子。”

“你疯了吗？”我说，“你什么意思？就这样到这里来闹事？”她正打算说话，我堵住了她的嘴。我说：“你已经害我丢了一份工作；你想害我也丢了这份吗？如果你有什么事要和我说，天黑之后我和你在哪里见一面就好。你有什么好和我说的呢？我不是把我答应的事都做完了吗？我说了让你见她一分钟，难道没有？这么说吧，难道你没见到她？”她只是站在那里，盯着我，像发疟疾似的颤抖起来，双手抓得很紧，就像痉挛了一样。“我做了我答应要做的东西，”我说，“你才是骗子。你答应要坐那趟车离开的，难道不是吗？难道你没答应？如果你以为能把钱收回去，那就试试，”我说，“就算你给我一千块钱，我冒了这么大的险，你还是欠我的。要是十七次车发车之后，我发现或者听说你还在镇上的话，我就告诉母亲和莫里舅舅。那你就好好活着，直到你再见到她为止吧。”她只是站在那里，看着我，双手紧紧地握着。

“该死的你，”她说，“该死的你。”

“没事，”我说，“那也没关系。不过记住我说的话。十七次车之后！后果我也告诉你了。”

她走后，我感觉好多了。我说我估摸着她以后总得在害我丢掉到手的饭碗之前，好好三思了。那时候，我还只是个孩子——别人说什么都相信。自那以后，我可学到了。而且，就像我说的，我大概也不需要别人

的什么帮助，我就能和一直以来一样，靠自己就能挺过来。不过突然，我就想到了黛西和莫里舅舅。我想到她会怎么接近黛西，而莫里舅舅是个给点钱就什么都做得出来的人。而我坐在这里，都没办法离开商店，去保护我自己的母亲。就像母亲说的，如果老天一定要带走你们中的一个，谢天谢地留下的是你，我还可以依靠你。我说是的，我觉得我最多就到商店，不会离开你太远的。我琢磨着总得有人守着我们家这剩下的一点东西。

所以，我一到家，就盯着黛西。我告诉黛西她得了大麻风，然后拿出《圣经》给她读了一段关于人的肉腐烂脱落的内容，我告诉她，她要是看加迪、班或者昆汀的话，他们也会染上这个病。所以我以为我把一切都安排妥当了，直到有一天我回家的时候发现班在大叫。他鬼哭狼嚎的，没人能制止他。母亲说：“把拖鞋给他吧。”黛西走出去了，没听到。母亲又说了一遍，我说我去拿——因为我实在受不了这么大的噪声。就像我说的，我可以忍受很多事情，我不怎么指望他们，但是如果我白天要在那个该死的商店里忙一整天，晚上却不能平和安静地吃顿晚餐的话，我就受不了。所以我说我去拿，这时黛西急忙忙地喊了句：“杰生！”

突然，我心里就像明镜一样知道发生了什么，不过为了确定一下，我还是去拿了拖鞋过来，果不其然，当班看到拖鞋的时候，发出了好像被宰一样的号啕声。于是我逼问了黛西，把结果告诉了母亲。我们又得把她送到床上去了。当事情告了一个段落之后，我就给黛西来了个下马威——就是你能对黑鬼做到的最大的限度。黑人仆役的最大麻烦就是，你用他们时间长了，他们就开始自恃过高——以为自己才是家里当家做主的了。

“我想知道，为什么不能让可怜的小姐看看她自己的孩子，”黛西

说，“如果康普生先生在的话，就会可以的。”

“但是父亲已经不在了，”我说，“我知道你也没把我看在眼里，但是我想你总要听母亲的话。你要是一直这样折磨她，你也会把她送进坟墓的，到时候你就往这房子里塞满奴婢贱人好了。但是你要她见班，倒是想干什么啊？”

“杰生，如果你称得上是人的话，你也是个冷酷自私的人，”她说，“我感谢主，虽然赐予我的是一颗黑色的心，但是我起码是有良心的。”

“至少我是个男人，在养着这一大家子，”我说，“如果你再这么做的话，你就别想再待在这个房子里。”

于是，我再见到她的时候，我就和她说了，如果她再从黛西那里入手的话，母亲就会解雇黛西，然后把班送到杰克逊去，带着昆汀搬走。她盯着我看了一会儿。附近没什么路灯，我看不太清楚她的脸。但是我感觉得到她在看我。在我们还小的时候，每当她要开始抓狂的时候，她的上嘴唇就会开始不自禁地跳动。它每次跳动都会让她的牙齿露出来一点点，而她就站得像个电线杆一样，一动不动，只有她的上嘴唇越翘越高，牙齿越露越多。但是她什么也没说。她只是说：“好吧。多少钱？”

“嗯，透过马车车窗看一次一百块。”我说。因此，自那之后，她都表现得很好，只有一次，她要求看下银行账户清单。

“我知道每张支票背后都有母亲的签名，”她说，“但是我想看看清单。我想自己弄清楚这些支票都到哪里去了。”

“母亲用来做私人投资了，”我说，“如果你认为你有权插手她的私

事，我会告诉母亲说你认为这些支票被误用了，因为你不相信她，你要查账。”

她没多说什么，也没动。我可以听见她在细声说：“该死的你！该死的你！该死的你！”

“大声说出来啊，”我说，“我觉得我们对彼此的看法，不是什么秘密了。也许你想拿回那些钱。”我说。

“听着，杰生，”她说，“关于她的事，不要对我说谎。我不会要求看任何东西。如果那还不够的话，我每个月可以多打点钱。只要你承诺她会.....她.....你可以做到的。为她做到你可以做到的。对她好点。我什么都做不了，他们不.....但是你不能。你全身上下到处都是冷血的。听着，”她说，“如果你说服母亲让我带回她，我会给你一千块。”

“你拿来一千块钱，”我说，“我知道你现在只是在说谎。”

“我有。我会有的。我能拿到一千块。”

“我知道你会怎么拿到一千块，”我说，“还不是你怀上她的同样的方式。而等她长大.....”然后，我感觉她真的要打我了，随之我又不知道她会干什么。有一下子，我感觉她就像一个过于紧绷随时都要爆发的玩具一样。

“真是，我是疯了，”她说，抓着我的手，她的手就像发烧了一样热，“你要承诺你会好好照顾她，去.....她是你的亲人，是你的血亲。答应我，杰生。你和父亲的名字一样：但是你以为我要是求父亲，需要说两遍吗？甚至一遍都用不上吧？”

“那确实，”我说，“他是留了点东西给我。你想要我做什么，”我

说，“给她买一条围裙和一个婴儿学步车？你现在这个样子和我一点关系都没有，我比你冒的风险还要大，你反正已经没什么可失去的了。所以如果你想.....”

“不，”她说，然后她开始大笑，同时又想控制住不笑，“是，我没什么可失去的了，”她说，发出很大的声音，然后她把手放在嘴巴上，说，“什么都没有了。”

“好了，”我说，“不要再疯疯癫癫的了！”

“我也想啊，”她边说，边用手捂住嘴巴，“老天啊，老天。”

“我要离开了，”我说，“我不能被别人看见我出现在这里。你要出镇，听到了没？”

“等等，”她边说，边抓住我的手臂，“我已经停下了。我不会再那样做了。你答应了，杰生？”她说，我感觉她的眼睛都盯到我的脸上了。“你做不到？母亲那边，任何时候她需要用钱的话，如果我把给她的支票寄给你了，或者其他什么东西，你要帮我给她？而且你不会说出去？你要负责让她有其他女孩子都有的东西，你都答应了？”

“当然，”我说，“只要你遵守约定，按我说的做。”

所以当艾尔戴着帽子走上来的时候，他说：“我要去罗格那里吃点点心了。我估摸着我们没时间回家吃晚饭了。”

“怎么了？为什么我们会没时间？”我说。

“因为戏班子在镇上的演出，”他说，“他们下午也要演一出，大伙都想快点把买卖做完，能赶上看的时间。所以我们最好是在罗格那里

吃点算了。”

“好吧，”我说，“反正是你自己的事。如果愿意为自己的生意吃点苦的话，我无所谓。”

“我估摸着你不会为任何事让自己吃苦的。”他说。

“除非是康普生·杰生的事。”我说。

当我回家，打开信封，唯一让我感到吃惊的是她寄给我的居然不是支票，而是一张汇单。是的，先生们，女人没有一个可信的。在我为她冒了这么多的险之后——比方说害怕母亲发现她有时一年回来个一两次还有我必须和母亲说谎，她居然这样回报我。我觉得她可能通知了邮局，除了昆汀，谁也不能提这笔钱。她居然给这么小一个孩子五十块钱。我在二十一岁之前，还没见过五十块的呢，当所有的男孩子下午和周六全天都在外面玩的时候，我就在一家商店里干活。就像我说的，她背着我们给昆汀这么多钱，怎么指望有人能管住她啊！我说她住在你住过的地方，和你受着同样的教育。我想母亲比你更清楚她需要什么，你甚至都没个家。“如果你想给她钱，”我说，“你可以寄给母亲，不要直接给她。如果要我每隔几个月就冒这个险的话，你就必须照我说的做，或者这交易就算了。”

就在我打算开始做那件事的时候，因为如果艾尔认为我是个会听他的话，冲到街上，狼吞虎咽一顿两毛五的倒胃口的饭菜的人，那就大错特错了。我虽然不是一个脚跷在红木桌上的大人物，但是我在这里是按劳所得，如果我出了这栋楼，还不能过点文明点的的生活的话，那我就只能另谋可以让我这么做的地方了。我可以靠自己，我不需要依靠别人的什么红木桌。就在我要开始做的时候，我又得放下手里的事情，跑去给

红脖子拿一毛钱什么的，这时候，艾尔十之八九是在狼吞虎咽一个三明治，并且在回来的路上了，就在这时候我发现所有的空白支票都没有了。我记得我本来想去多拿点的，但是现在已经晚了，因为我抬头发现她过来了。我听见她在后门那里问乔布我在不在，我正好来得及把它们塞进抽屉并关上抽屉。

她走到办公桌旁边，我就看着我的表。

“你吃过饭了吗？”我说，“还只有十二点，我刚听到打钟了，你肯定是飞奔回家又回来了吧。”

“我没回家吃饭，”她说，“今天有我的信吗？”

“你是在等信，对吧？”我说，“你居然找了个识字的男朋友？”

“我母亲的信，”她说，“有没有我母亲寄给我的信？”她边说，边看着我。

“我母亲收到了一封，”我说，“但是我没拆。你要等等，等她拆开。我想她会给你看的。”

“求你，杰生，”她说，完全没注意我说的话，“有我的信吗？”

“怎么了？”我说，“我从没见你为谁的事这么着急过。你肯定是在等你妈寄钱给你吧。”

“她说她……”她说，“求你，杰生，”她说，“有我的吗？”

“不过说起来，你今天肯定去学校了吧，”我说，“或者是在哪里学会说‘请求’了。等等，先让我招待那个客人。”

我走上去，招待他。当我转回来的时候，她已经在桌子后边看不到了。我跑过去，围着桌子跑了一圈，发现她正在从抽屉里抽出她的手。我从她手里把信夺了过来，把她的指关节在桌上猛敲，直到她放手。

“你真要这样，是吗？”我说。

“把它给我，”她说，“你已经拆开了。给我！求你了，杰生。那是我的信，我看到署名了。”

“我会拿一根缰绳给你，”我说，“那是我想伺候你的，居然敢偷看我的信。”

“这里面有钱吗？”她边说，边想伸手拿信，“她说她会给我寄点钱的，她答应了的，她会寄钱。给我。”

“你要拿钱干什么？”我说。

“她说她会寄钱的，”她说，“给我！求你了，杰生。只要这次你把信给我的话，我不会再问你任何事情。”

“只要你稍微等一下，我是要给你。”我说。我把信和汇单拿了出来，把信给了她。她想拿汇单，并没怎么看信。我说：“你必须先签字。”

“有多少？”她说。

“你看信，”我说，“我估计信上有。”

她迅速过了一下信，大概看了两眼吧。

“信上没说，”她抬起头来，说，然后她把信扔在地上，问我，“多

少钱？”

“十块钱。”我说。

“十块？”她睁大眼睛看着我，说。

“一个像你这么大的屁小孩，拿到十块钱，真该高兴死了，”我说，“不过，为什么你突然这么急着要钱？”

“只有十块钱？”她说，就像在梦游一样，“只有十块钱吗？”她突然就抓向汇单，“你在撒谎，”她说，“你个小偷！小偷！”

“你说真的，是吗？”我说，推开她。

“把钱给我！”她说，“这是我的钱！这是我妈寄给我的钱！我会好好花的，我会的。”

“你会？”我抓着她说，“你要拿来干什么？”

“就让我看一下，杰生，”她说，“求你了。我不会再求你任何事情了。”

“你觉得我在撒谎，是吗？”我说，“就你这么说，我就不会给你看。”

“但是只有十块钱，”她说，“她告诉我她会……她告诉我……杰生，求你了，求你了！我一定要用钱，我有用。杰生，把钱给我。你把钱给我，我会为你做任何事情。”

“告诉我，你要拿钱干什么。”我说。

“我必须要有钱。”她看着我，说。不过，突然一下她就转了视线，然后眼睛一动不动的。我知道她要开始说谎了。“我欠别人一些钱，”她说，“我必须还钱，我今天必须还钱。”

“还给谁？”我说。她的手握得很紧。我可以看出她在构想一个谎言。“你又在商店赊了东西？”我说，“你不要不好意思告诉我。如果在我和全镇的人都打了招呼之后，你要是还能在商店赊到东西，我就不信了。”

“是一个女孩，”她说，“是一个女孩。我从一个女孩子那里借了一些钱，我必须还给她。杰生，把钱给我吧，求你了，我愿意做任何事情。我必须拿这个钱还钱。母亲会支付你钱的。我会给她写信，要她给你钱，而且我不会再问她要任何东西。你以后可以看我的信。杰生，求你了。我必须拿到这笔钱。”

“告诉我你要拿这笔钱干什么，我再看看要不要给你，”我说，“告诉我。”她只是站在那里，手紧紧地抓着裙子。“好吧，”我说，“如果十块钱太少了，我会把这个带回家给你外婆，你知道会发生什么的。当然，如果你很有钱，不需要这十块钱，那就.....”

她站在那里，看着门，好像在自言自语。“她说过会给我一些钱的。她说她把钱寄到了这里，而你说她没寄。她说她往这里寄了很多的钱。她说那都是给我的。有一些是给我的。而你说我们没有收到一分钱。”

“你和我都清楚这个情况，”我说，“你也看到那些支票是怎么回事。”

“是的，”她看着门说，“十块钱，”她说，“十块钱。”

“你应该谢天谢地，有十块钱，”我说。“给你，”我说。我把汇单正面朝下放在桌子上，手按在上面，说：“签名！”

“能给我看看吗？”她说，“我只是想看一眼。不管这上面说什么，我只要十块钱，其余的都给你。我只是想看看。”

“在你表现得这么糟糕之后，我不会给你看了，”我说，“你必须明白一件事，那就是当我要你做一件事情的时候，你必须照我说的做。你把名字签在这条线上。”

她拿起笔，但是她没签名，只是垂着头站在那里，笔则在手里摇晃——这像她的母亲。“天哪！”她说，“老天啊！”

“是的，”我说，“你要是其他的什么都没学会，那你起码得学会一件事。现在赶快签了名，走吧。”

她签了名，问：“钱呢？”我拿起汇单，弄干墨水，然后给了她十块钱。

“今天下午，你还要回学校，听到没？”我说。她没回答我。她把钱抓得就像块抹布什么的一样，然后和艾尔进来的时候一样从前门走出去了。一个顾客和艾尔一起进来了，他们在前面停了下来。我收拾好东西，戴上帽子，走了上去。

“很忙？”艾尔说。

“还好。”我说。他看着门外。

“那是你的车？”他说，“你最好不要回家吃饭吧。在演出开始之前，估计我们又会要忙一阵。你就到罗格吃个中饭算了，回头把发票放

抽屉里就是。”

“非常感谢，”我说，“不过，我估摸着，我还能养活我自己。”

他就站在那里，像猎鹰一样盯着门口，直到我回来。好吧，他可得等上一会儿；我已经尽量想表现得好了。在我说这是最后一次之前；我得记住要立刻多弄点空白支票。但是在这一片混乱中，谁又能记住什么呢。加上今天又有这个该死的演出，我不仅要养活一大家子人，还得在整个镇上找一张空白支票，又有艾尔像老鹰一样盯着门。

我来到印务店，告诉他我想和一个朋友开个玩笑，但是他那儿什么都没有。不过，他告诉我到旧歌剧院去看看，在商农银行倒闭的时候，有人把一大堆废纸和垃圾都堆在那里。于是，我为了不让艾尔看到我，又躲过了几条小巷子，终于找到了西蒙老人，从他那里拿了钥匙，来到旧歌剧院，到处找空白支票。最终，我找到了一本圣路易斯银行的。不过，这回她肯定是会仔仔细细看清楚了的，好吧，肯定会的，我不能再浪费时间了。

我回到了商店。“忘记了点发票，我母亲喊我去银行办下。”我说。我回到座位上，写了支票。我和自己说，还好她的眼睛不太好使了。家里住着这样一个小骚货，像母亲这样虔诚的基督教徒，肯定受不了。我说你我都清楚，她长大会变成什么样子，但是如果你为了父亲的缘故，一定要把她放在自己家里抚养成人，那也是你的事。她又会开始哭哭啼啼的，说：“怎么说，那都是自己的亲骨肉。”于是，我会说没事，您爱怎么着怎么着。只要你觉得没事，我更不会有事。

我把信又塞了进去，贴好信封，走了出去。

“尽量早点回来。”艾尔说。

“好的。”我说。我走到电报局，那伙机灵孩子都在呢。

“你们谁赚了一百万没有啊？”我说。

“市场行情这么差，谁能有什么大作为啊？”医生说。

“现在怎么样？”我说。我走进去，看了看。比开票低了三个点。“你们不至于被棉花行情这点小事打击到，对吧？”我说，“我觉得你们都够机灵的，应该不会这样吧。”

“见鬼的机灵，”医生说，“十二点钟的时候可是跌了十二个点。我是输得连开裆裤都没剩下。”

“十二个点？”我说，“天杀的，怎么也没人通知我啊！你怎么不告诉我？”我生气地问报务员。

“我是收到什么信息就公布的，”他说，“我又不是开投机商号。”

“你很机灵，对吧？”我说，“在我看来，我交给你的钱，总让你有时间给我打个电话吧。还是说你们这该死的电报公司和东部的‘鲨鱼’们是一丘之貉？”

他假装很忙的样子，没说什么。

“你的裤子怕是装不下你了，”我说，“你首先要知道你是在谋生。”

“你怎么了？”医生说，“你还赚了三个点呢。”

“是的呢，”我说，“如果我早上正好抛了的话。我想我还没提到呢。你们都赔光了？”

“我被套牢两次了，”医生说，“还好，我转变得及时。”

“嗯，”艾·欧·司诺普说，“我今天走了回运。我想为了公平起见，好运偶尔也是会降临到我身上的。”

我离开了电报局，随便他们在那里一毛钱一个点地买进卖出。我找到一个黑鬼，要他去帮我把车取过来，我就站在街角等着。我没法看到艾尔一只眼睛盯着时间，一只眼睛到处扫视街上的样子，因为我站的地方看不到商店的门。等那个黑鬼回来，就像过了一个星期那么久。

“你到底死哪里去了？”我说，“是不是到处找妓女去了？”

“我已经是最快速度直接过来的了，”他说，“因为停满了马车，我必须绕着广场开过来。”

黑鬼做事情，永远都能为自己找到一个滴水不漏的借口。我上了车，绕着广场开着。我瞥到了艾尔，他在广场另一头的商店内。

我直接到厨房，告诉黛西快点开餐。

“昆汀还没有回来呢。”黛西说。

“那又怎么样？”我说，“下次你是要告诉我卢斯特还没准备好吃饭吗？昆汀知道这个家开饭的时间，却不回来。所以，现在赶快开饭。”

母亲在她自己的房子里，我把信给了她。她打开信，拿出支票，拿着支票坐在那里没动。我出去从角落里拿来了一把铲子，递给她一根火柴，说：“好啦，烧了吧。不然，你等会儿又要哭了。”

她接过火柴，但是没点燃，坐在那里，看着支票。就像我说的一

样。

“我不想这么做，”她说，“把昆汀留在这个家里，增加你的负担.....”

“我想我们过得下去的，”我说，“好了，烧了吧。”

但她只是拿着支票，坐在那里。

“这张支票不是用一个银行，”她说，“过去的都是印第安纳波利斯银行的。”

“是的，”我说，“女人总是善变的。”

“变什么？”她说。

“把钱存在两个不同的银行，”我说。

“哦。”她说。她看了一会儿支票，说：“我很高兴她那么的.....这
么的富有.....上天作证我做对了。”

“好了，”我说，“就这样吧。把它烧了开心一下。”

“开心？”她说，“当我在想.....”

“我以为你每个月把这两百块钱烧了是为了开心呢，”我说，“好了，现在就烧了吧。要我点火吗？”

“我可以接受这些支票，”她说，“为了我的孩子。我不好面子。”

“你永远都不会满足的，”我说，“你知道你不会的。你已经解决过

一次了，就一直保持这样吧。我们过得下去的。”

“我把一切都留给你了，”她说，“但是有时我很害怕，我这样做，剥夺了你本应该享受到的东西。如果你想让我接受这些支票，我就能放下我的面子接受它们。”

“既然十五年来你都是烧掉它们的，那现在开始接受的意义又在哪里呢？”我说，“如果你一直接受这些支票，你什么都没失去，但是你要是现在开始接受，你就是浪费了五万块钱。到目前为止我们都过得不错，对吧？”我说，“起码目前你还没被送到贫民窟去吧。”

“是的，”她说，“咱们巴斯康家的人不需要别人的施舍。更何况是一个堕落的女人的施舍呢。”

她划燃了火柴，点燃支票，将它放在铲子里，随之将信封也丢了进去，我们看着它们被烧掉。

“你不知道那是什么，”她说，“谢天谢地，你永远不会知道一个母亲的感受。”

“这个世界上和她差不多的女人多的是呢。”我说。

“但是她们都不是我的女儿，”她说，“不是我自己的，”她说，“我很高兴把她带回来了，不管是罪孽还是怎么的，她都是我自己的亲骨肉。这是为了昆汀。”

我说过没什么人能深深地伤害昆汀，但是就像我说的，我也不指望什么，但是我不能容忍一群女人在我想好好吃饭睡觉的时候，在房子里哭哭闹闹的。

“也是你的血脉亲人，”她说，“我知道你对她的态度。”

“让她回来吧，”我说，“就我看来的话。”

“不，”她说，“我那是为了纪念你的亡父。”

“还记得赫伯特把她赶出去后，他每次都想说服你让她回来吗？”我说。

“你不明白，”她说，“我知道你不会让我更难过。但是是我在为我的孩子受罪，”她说，“我受得了。”

“在我看来，你是把自己卷进了很多没必要的麻烦中，”我说。支票烧光了。我把它弄到了壁炉里。“在我看来，把好好的钱烧了是让人羞愧的。”我说。

“永远不要让我看到那么一天——也就是说我的小孩要接受这罪恶的工钱，”她说，“我宁愿你死，也不希望你接受。”

“你爱怎么着怎么着吧，”我说，“你想马上吃晚饭吗？”我接着说，“因为如果我们不马上吃的话，我得回去工作了。我们现在非常忙。”她站起来，说：“我和她说过了。我现在喊下她。你等一下。”于是，她走到楼梯顶，喊，“昆汀！”

“昆汀还没有回来。”黛西说。

“好吧，我得回去上班了，”我说，“我就在镇中心买个三明治吧。我不想打乱黛西的安排。”我说。于是，她又开始了，黛西则前前后后地蹒跚走动，嘀咕着：“好吧！好吧！我会尽快开饭。”

“我想尽量让你们都高兴，”母亲说，“我尽力让你容易做。”

“我没抱怨啊，是吧？”我说，“我除了说我必须回去上班之外，还说了什么吗？”

“我知道，”她说，“我知道你没有得到别人那么好的机会，所以你能只能在这个乡村小店里耗掉一生。但是我一直是想让你出人头地的。我知道你父亲肯定从来没意识到过，你才是最有商业头脑的那个。所有的事情都一败涂地的时候，她结婚的时候还有赫伯特……我都深信这一点……在他承诺过后……”

“好了，他可能也只是在撒谎，”我说，“他也许根本就没有一家什么银行。如果他真的有的话，我估摸着，他也没必要大老远地跑到密西西比河来找个员工。”

我们吃了一会儿。我能听见班在厨房的声音，卢斯特正在喂他。就像我说的，如果我们要养活另外一个人，而母亲又不愿意拿那些钱，不如直接把他送到杰克逊去好了。在那里，和差不多的人在一起，班也会高兴点。我说老天爷知道，在这个家里，没必要再在乎什么面子问题了，但是不想看到一个三十多岁的成年人和一个黑小子在院子里玩，而且只要有人打高尔夫，就围着栅栏上上下下地跑动，还不停地像牛一样嚎叫是不需要什么面子的。我说要是刚开始他们就把他送到杰克逊，那我们现在的生活会好得多。我说，对他，您已经尽到责任了；别人能指望你做的，你都做了，而且还比一般人都做得多，因此为什么不送他到杰克逊去，就当是享受点我们纳的那么多税收的福利呗。然后，她就说了：“我马上就会死了。我知道我只是你的累赘而已。”我说：“你一直这么说，我都有点相信你了。”只是我说你最好是确定一下，还有不要让我知道你离开了，因为我肯定会当晚就把他送上十七次车，而我也说

过，我知道一个能容下她的地方——这个地方既不是牛奶街也不是蜂蜜大道。然后，她开始哭了，我说没关系，没关系，我和所有人一样为我的亲人感到骄傲，即便我总是搞不清楚他们的来路。

我们吃了一会儿后，母亲又叫黛西到门口去看昆汀回来了没。

“我一直和你说，她不会回来吃晚饭。”我说。

“她再清楚不过了，”母亲说，“她知道，我不允许她在街上乱跑，还有不回来吃饭。你好好看了没，黛西？”

“那就别让她这样。”我说。

“我能做什么，”她说，“你们都不把我放在眼里。”

“只要你不插手，我会打定她的主意，”我说，“要是我，不出一天，就能把她修正了。”

“你会对她太残暴，”她说，“你的脾气和你莫里舅舅一样。”

这让我想起了那封信。我拿了出来，交给了她。“你没必要拆开，”我说，“这回银行会告诉你有多少钱。”

“这是写给你的。”她说。

“你拆开看下，”我说，她打开读了一下，交还给了我。

信上是这么写的：

我亲爱的小外甥：

你肯定很高兴，我最近得了一个机会，找到了一个工作，至于得到的原因，要等到我有机会用一种更确切的方式详细告诉你。我的商业经历让我对于用比述说更确切的方式讲述的机密事情，比较谨慎，而我这次这么谨慎则应该能让你感受到一点它的重要性。毋庸多言，我刚刚完成对这项工作各个方面的全面彻底的调查，我敢打保票，这是一个一生只有一次的宝贵机遇，我现在明确见到自己长久以来不屈不挠地追求的目标就在眼前：也就是说，我的情况会得到极度改善，而我也许能借此恢复家族的声望——只留下了我一个男嗣的巴斯康家族，当然，我是把你的作风淑女的母亲还有她的孩子们当成这个家族的一分子的。

事情是这样的，我自己没有这个能力最大限度地利用好这次机遇，所以只能依靠家庭的力量，今天我从你母亲的银行账户里取出了一小笔钱，作为我的初次投入，随信附上的是我亲笔书写的息钱八厘的借据。无须多说，这是一种形式，在这个人性不定的环境下，确保你母亲的权益。不过，我自是会把这笔钱当作是我自己的，这样你母亲就能在这个我彻查过的最好的项目中分得一杯羹——请原谅我的粗俗用语。

你会明白，这是一个商人对另一个商人的坦诚；我们一起收获我们自己的庄园，怎么样？因为知道你母亲身体不佳，还有她作为南方淑女培养起来的天然的胆怯感——对经商事宜，还有她们易于在言谈中泄露机密的特点，我建议你暂且不要向你母亲提及此事。再一想，我建议你就不要告诉她了。最好是在将来某一天，我将之与其他小额借款一起存入银行，而不告知她。保护她不受俗气的物质世界影响，是我们的职责。

你亲爱的舅舅

巴斯康·莫里

“您想怎么做？”我说，将信飞过了桌子。

“我知道你不乐意我把钱给他。”她说。

“那是您的钱，”我说，“就算您想用来喂鸟，那也是您的事。”

“他是我的亲兄弟，”母亲说，“他是巴斯康家族最后一个男丁了。我们死后，巴斯康家族就断后了。”

“我想那对有些人来说是很残忍的，”我说，“好了，好了，”我说，“那是您的钱。您想怎么花就怎么花。您想让我告诉银行，支付款项吗？”

“我知道你对他有怨言，”她说，“我知道你肩上的担子很重，等我死后，就会好很多了。”

“我现在就能让自己轻松点，”我说，“好了，好了，我不会再提了。只要你愿意，你可以把所有的神经病都招进来。”

“他可是你的亲兄弟，”她说，“就算他患病了。”

“我要带上你的存折，”我说，“我今天要兑换支票。”

“他让你等了六天，”她说，“你确定这事靠得住不？我觉得很奇怪，一个有支付能力的企业会没法及时给它的员工发工资。”

“他没问题，”我说，“就和银行一样可靠。我告诉他直到我们结清每个月的账务，才给我找事做。这就是为什么有时会晚一点。”

“我只是不忍心看你损失我为你投资的这一小笔钱，”她说，“我总是觉得艾尔不是一个什么好商人。我知道虽然你在里边投了钱，但是他

不够信任你。我要和他谈谈。”

“不，别管他，”我说，“那是他的店。”

“你在里边有一千块钱。”

“你别管他，”我说，“我在盯着呢。我有你的委托代理权，没事的。”

“你都不知道你给了我多大的安慰，”她说，“你一直是我的骄傲和快乐，当你自愿把你每月的工资存入我的银行账户的时候，我有多么感谢上帝，如果他们都被带走了，还好留下的那个是你。”

“他们都没错，”我说，“我想他们都尽力了。”

“我知道你这么说，就是对你父亲还是有怨言的，”她说，“不过，我知道你有权怨恨。但是听你这么说，我的心都碎了。”

我站起来。“如果你要哭的话，”我说，“你就自己一个人哭吧，因为我要回去上班了。我去拿走存折。”

“我去拿吧。”她说。

“你不要动，”我说，“我去拿。”我走上去，从她的抽屉里拿出存折，回到了镇上。我到银行，把支票、汇单还有那十块钱一并存了进去，就停在了电报局。现在比开盘时高了一个点。我已经损失了十三个点了，都是因为该死的她居然十二点钟的时候跑过来，拿那封信的事让我分心担忧。

“那个报告是什么时候到的？”我说。

“大概一个小时之前。”他说。

“一个小时之前？”我说，“我们付钱给你干什么的？”我说，“周报？你怎么能指望一个人有所作为呢？就是整个屋顶都被掀掉了，我们也还蒙在鼓里。”

“我没指望你有什么作为，”他说，“他们修改了法律，人们不能在棉花市场有所作为了。”

“真的？”我说，“我没听说啊。这消息准是通过西部联合公司公布的吧。”

我回到商店。十三点。鬼才信有人知道这里边的门道呢，除了那些坐在纽约办公室里的人，坐在办公室里等着乡巴佬儿们恳求他们收下其手里的钱。好吧，刚打电话的那个人明显对自己没信心了，就像我说的，如果你不听信建议的话，付钱给他们就没有意义了。而且，这些人都是真正的内行人；他们知道正在发生的所有事。我能感觉到衣兜里的电报。我只是需要证明他们在用电报局欺诈。那就可以证明这是一个投机公司了。我从来也不会犹豫这么久。只是见鬼，也只有像西联一样实力雄厚的大公司才能及时发布公告。他们会用一半快的速度给你发一封电报说：“您的账户已抛售。”但是他妈的，他们才不管谁的死活呢！他们和那帮纽约人是一伙的——这瞎子都看得出来。

我进来的时候，艾尔看了下表。但是他没说什么，直到顾客离开，他才说：“你回家吃晚饭了？”

“我得去看牙医。”我说。因为虽然我在哪里吃饭和他没什么关系，但是我还要和他在店里待上整整一个下午。在我遭的这些罪之后，还得受他的罪。就像我说的，你把微不足道的乡村店长的话也听进去的话，

那只有五百块钱的人也能做出五万块钱的样子了。

“你应该告诉我的，”他说，“我以为你立马就会回来。”

“我随时愿意倒贴十块，把这颗蛀牙卖给你，”我说，“我们约定的是一个小时的晚餐时间，”我说，“如果你对我的做法不满意的话，你知道你能怎么做的。”

“我早就知道了，”他说，“如果不是看在你母亲的面子上，我早就开除你了。她是一个淑女，我很同情她，杰生。非常糟糕的是，我不能和其他认识的人说这么多。”

“那你就保持吧，”我说，“当我们需要同情的时候，我会早早地告诉你。”

“就你做的那个事，我已经替你藏了很久了，杰生。”他说。

“什么？”我说，放开他。在我让他闭嘴之前，我想听听他要说什么。

“我相信我比她清楚，那辆车是怎么来的。”

“你是这么以为的，是吗？”我说，“那你打算什么时候传播开来，说我的车是从我妈那里偷来的？”

“我什么也没说，”他说，“我知道你有她的委托代理权。她也还以为那一千块钱还投在这个店里吧。”

“好吧，”我说，“既然你已经知道那么多了，我就再告诉你多一点：你到银行去问问，我十二年来每个月月初都是存了一百六十块钱到

谁的账户里。”

“我没说什么，”他说，“我只是告诉你，经过了这件事之后小心点。”

我不会再说什么，说了没用的。我发现，碰到一个固执己见的人，最好是让他自生自灭。然而，当你碰到一个自认为是为了你好，就要对你进几句忠言的人时，最好的办法是直接和他说再见——晚安。我很庆幸，我的良心不像一只脆弱的小宠物狗——需要时时呵护安慰。如果我和他一样，要费尽心思让他的小生意风生水起，又不能盈利超过百分之八的话，那也没什么活头了。我估摸着他是以为一旦他的盈利超过百分之八的话，政府就会用重利法对付他。一个困在这样的乡镇、这样的小本生意上的男人，能得到什么鬼机会呢？为什么我能做到——接管他的生意一年就能让他下半生无忧，只是他会全部捐给教会吧。我最讨厌的莫过于伪善者了。一个认为什么事情只要存在他不懂的地方，就需要改变的人，还有只要 he 知道了，就算不关他什么事，也认为道义上 he 必须告诉其他人的人。如果我也是一个认为只要一个人做了什么我不懂的事情，就存在猫腻的人的话，我估计我肯定能在后台的账本上找出一些什么，不过，你也会看到这没什么必要让我跑去告诉那些我认为不知道这些猫腻的人，因为人家很可能知道的比我还多，就算他们真的不知道，也不关我什么事。他说：“任何人都可以看我的账本。任何人提出要求，或者在我这里享有任何权益的女士，都可以看，我也很欢迎。”

“你当然不会说，”我说，“这样做，你说服不了自己的良心。你只会把她带到后面，让她自己找。你自己肯定不会说出来。”

“我无意插手你的事情，”他说，“我知道你和昆汀一样，错过了一些事情。但是，你的母亲也生活得很不幸，如果她到我这里来问你为什

么辞职不干的话，我必须告诉她。你知道的，这不是因为那一千美元的事。而是因为一个人如果台面和事实不符的话，是走不远的。因而，我不会对任何人说谎，不管为了我自己还是别人。”

“那好吧，”我说，“我估摸着你的良心比我的更值钱；中午别回来吃中饭了，别让这件事影响我的食欲。”我是这样说的，因为在这样一个鬼家庭里，还有这样一个妈，我能做什么正确的事。我妈根本不做任何事情约束加迪，或者约束任何人，比方说，有一次，她正好撞见一个小伙子在亲吻加迪，第二天，她就开始穿着黑衣黑纱在房子里荡来荡去，甚至我父亲都没法让她开口，就是一直哭，然后说她的小女儿已经死了。可是，那时候，加迪还只有15岁，照这样下去，不出三年，我妈就得穿粗毛布衬衣，甚至还是砂纸糊的。我说，你认为我能忍受看着她和每个到镇上的推销员一起在街上晃荡吗？而他们会告诉路上碰到的推销员，在杰克逊，上哪儿找热辣妹。我并不是死要面子的人，我不能够放弃一个州立神经病医院的优秀新生，却养着一群黑鬼。我说，血、统治者和将军。如果我们从来就没有国王、总统什么的，该有多美好啊，这样，我们每个人都能去杰克逊捕蝴蝶了。我说，如果是我的话，会有点糟糕；不过，至少我会一开始就确定这是个杂种，如今，就算是上帝也说不清道不明了。

不久，我听到乐队开始演奏了，然后，人都开始走光了——大家都去听表演去了。他们在买两毛钱的缰绳上讨价还价，就是为了省出一毛五分钱去听演奏——送钱给那帮北方佬儿。我出门，走到了后院。

“好吧，”我说，“如果你不小心的话，那颗螺钉会长到你的手心里。然后，我只好拿一把斧子，砍掉它。如果你不把这些中耕机弄好，然后种上庄稼的话，你认为那些新工人靠什么吃饭啊？”我说，“难不成让他们吃鼠尾草？”

“他们的号角吹得真不错呢，”他说，“有人和我说这次有个人能表演用手锯弹曲子呢，就像弹班卓琴一样。”

“听着，”我说，“你可知道他们要在我们镇上演出，得付多少钱吗？差不多十美元呢，现在这钱正收在巴克·特尔宾的衣兜里。”

他说：“他们为什么要给巴克·特尔宾先生钱？”

“为了能在这里演出呗，”我说，“这样，你能算出他们为了给你们演出，所要付出的代价了吧。”

“你说他们为了在这里演出给我们看，还要支付十块钱？”他说。

“没错，”我说，“不然，你以为是多少……”

“天哪，”他说，“你的意思是，为了演出给我们看，他们居然被要求交钱了？照我说，就算要我出十块钱，看那个人表演拉手锯，那我也是愿意的啊。照这么算，到明天早上，我们就欠他们九毛六分钱了。”

然后，北方佬就会说服你让黑人前进了。我总说，让黑人前进，就前进吧！走得远远的，最好是整个路易斯维尔南部牵着警犬也再找不着一个黑鬼。因为当我告诉他星期六晚上他们会怎么收拾行囊，然后带着至少千元离开村里的时候，他说：“我不会吝惜的，我付得起我的两毛五分钱。”

“见鬼的两毛五，”我说，“两毛五都不够零头的。你用来买糖什么的那一毛钱硬币或者一毛五分钱不是钱啊，而且你买到的还是一盒只值两分钱的糖。还有，你用来看表演所浪费的时间呢？”

“的确是，”他说，“而且，如果我今天晚上活得好的话，那我

要捐出两毛五，他们又要多带走两毛五。”

“那你就是个彻头彻尾的蠢货！”我说。

“好吧，”他说，“我也不和你争论这个。如果蠢也有错的话，那么苦工队的人就不会都是黑人了。”

当时，我正好抬头看巷子里，就看到了她。当我退一步看表的时候，也没注意到他是谁，因为我正在看表。还只有两点半，除了我之外，大家都以为她要四十五分钟之后才会出去。所以，当我在门口望的时候，我第一个注意到的就是他的红色领带，当时我想到到底是什么人才会戴红色的领带啊！但是她边注视着门边，边在沿着巷子溜走，所以，直到他们走出了我的视野，我才开始琢磨他的事。我很好奇，她是不是如此不尊敬我，不把我看在眼里，导致她不但在我严令禁止的情况下逃学，而且生怕我看不见似的，要从我的店铺前面经过。只是她看不清店里的情况，因为太阳直射进来，要看清楚里面，就像要透过汽车探照灯看进来一样，所以我站在原地看着她经过。她的脸上画得乱七八糟的，就像个小丑一样，头发卷起来了，上面全是发胶，都粘住了一样，穿的裙子短到只能遮住大腿和屁股——在我那个年代，就算是在各约苏或者比尔街上，要是有人穿这样出来，是会被送进监狱的。我打赌，女人们这么穿的目的，就是想让街上每个经过的男人都禁不住要伸出手在她身上摸一把。当我在想那个戴红领带的究竟是一个什么样的男人的时候，我突然意识到他是戏团的人，我就像是听她亲口说了一样确定他的身份。好吧，我是一个能忍辱负重的人，如果不是这样的话，只怕我如今境况会非常糟糕，所以当他们拐角之后，我跳起来，跟出去了。大下午的，我连帽子都没有戴，为了我妈妈的好名声，必须在巷子里跟着上下走动。就像我说的，如果是与生俱来的，你可以和这样的女人做任何事情。如果是她骨子里就下贱，你倒是可以和她做任何事。你唯一能做的

就是不和她扯上关系，让她和下贱的人为伴，去自生自灭吧。

我走到了街上，但是跟丢了他们。现在，我没戴帽子站在这里，我感觉我自己也疯了似的。就像人们自然会这么想：一个疯了，另一个溺水而亡了，还有一个被她丈夫扫地出门了，有什么理由能说剩下的其他人不是也疯了呢。我随时都有被秃鹰盯上的感觉，他们在等待一个告诉我的时机——是的，我不奇怪，我一直知道你们全家人都疯了。卖地供他上哈佛以及长期纳税资助一个州立大学，而这个州立大学除了棒球联赛的时候，我进去看过两次之外，我从来没进去过，她也不准女儿的名字在这里提起，直到不久之后，父亲不再来镇上，而只是整天整天地抱着酒壶坐在那里，我能够看到他的睡衣的里面以及他的光腿，也能听到酒壶空了的声音，直到最后T.P.为他再灌入酒，而他还说你不尊重你的亡父，我说哪有，我对他的记忆一直好好地扎根在我的脑海里，除非我也疯了，而上帝知道我会做什么。我只要看到水就感到恶心，我会风一样快地迅速咽下汽油和一杯威士忌。罗恩告诉他们他不会喝酒，但是如果你们不相信他是个男人，我可以告诉你们怎么找出来。她说如果让我抓到你和哪个娼妇鬼混的话，我会给你点颜色瞧瞧。她说我会抽她，只要让我找到她，抓住她，我会尽可能地抽她。她说。我也说如果我不喝酒那是我的事情，但是你要是看到我没酒，我说我会买很多的啤酒，多到能让你在里面洗澡，因为我很尊敬一个实心眼的娼妇。为了我母亲的身体和我的职位，我试图扶持她，但是这女人一点儿都不感激我为她所做的一切，而是存心坏了自己的、我的还有我母亲的名声，让我们都成为了镇上的笑柄。

不知道她溜到哪里去了，估计是看到我来了，就闪进了另一条巷子——和一个戴着红色领带的戏子在小巷子里上蹿下跳，每个经过的人都会看到他们，然后心里嘀咕着：“什么样的男人会戴红色的领带？”好吧，

小伙子一直在我耳边说，所以我在不知情的情况下收下了一封电报。直到我签字的时候，我才意识到这是电报，我撕开它，都没怎么注意是什么东西。我约莫我一直是有料到会是什么的。反正，这是唯一可能发生的事情，尤其是一直拖着，直等到我把支票存到存折上才发生。

我看，也只有纽约那样的大城市能存在那么多敲乡下人竹杠的人了。每天累得一头牛似的，然后把你的钱送给人家，得到一张小纸条，说您的账户收盘价为20.62元。一路哄骗你，让你只在纸上得到一点甜头，然后平庸地在20.62收盘。如果那还不够的话，就可以花十块钱一个月让一个人告诉你怎样更快地流失钱，这个人要么就是完全不懂，要么就是和电报公司是一丘之貉。好了，我受够了他们。这是他们最后一次从我身上“吸血”。只有连犹太人说的鬼话都分辨不出的人，能说行情会一直看涨，在这样一个年头——和去年一样，大坝可能会又一次被冲毁，所有棉花都会拔地而起。年复一年，人们的庄稼都被冲走了，可是华盛顿的官员们只顾每天花费五万军费干涉尼加拉瓜等地方。很明显，今年又要涨洪水了，然后棉花会稀缺到卖三毛钱一磅。唉，我真想给他们一次打击，然后我也能赢回我的钱。我不是想大捞一笔，只有小镇上的赌徒才会这么干，我只想拿回自己的钱——被犹太人所谓的可靠内部消息骗走的钱。然后，我就金盆洗手不干了；他们再想在我这里骗走一分钱，是绝对不可能了的。

我回到商店里的时候，差不多都三点半了。这个时候了，基本上做不了任何事情了，不过我也习惯了。这个我从来就是知道的。乐队已经停止演奏了。观众都进场了，乐手们没必要再费尽力气了。

艾尔说：“那个小伙子找到你了吧？不久之前，他到这里来找了你。我还以为你在后院里呢。”

“找到了，”我说，“我拿到东西了。他们不至于一整个下午都找不到我，咱们镇子太小了。我得回家一会儿。”我说，“你要是觉得扣我钱会让你好受一点，那就扣吧。”

“没事，你回去吧，”他说，“现在我应付得过来。不过，我希望不是什么坏消息。”

“你必须到电报局去打听打听，”我说，“他们会有时间告诉你的。不过，不好意思，我没这个时间。”

“我只是随便问问，”他说，“你母亲知道我是她可以依赖的。”

“她会感激的，”我说，“我会尽快回来的。”

“没关系，不用急，”他说，“这个时候，我应付得过来。你回去吧。”

我取了车，回家了。今早上一次，中午两次，现在再一次，都是为了她，在全镇范围内追着她跑，还必须请求他们给我吃点我自己买的东西。有时候，我不禁要问有什么意义呢。有我自己已经设定的先例，再这样下去，我必定要疯掉。现在，我估摸着我能及时赶到家，然后开一段路去拿一篮西红柿什么的，然后，带着一身的樟脑味回到镇上，只有这样，我的头才不会炸掉。我总是告诉她，阿司匹林什么用都没有，就是面粉和水做的，只对那些想象自己有病的人有用。我说你都不知道什么是头痛。我说如果我能完全依我自己的话，我根本不愿意摆弄那辆破车。我说没车，我照样能活得好好的，我早学会了在缺失很多东西的情况下好好活着，但是如果你愿意冒险，和一个毛还没长全的黑小子一起坐那辆破烂不堪的马车，也没关系，因为我说老天会惠顾班这一类人的，上帝知道他应该为班做点什么，但是如果你认为我会放心把一个价

值千元的娇贵的机器放到一个毛没长全或者长全了的黑小子手上，你最好自己给他买一辆，因为我说你喜欢开车，而你也不知道你的确喜欢开车。

黛西说她在屋里。我走到大厅，听了一会儿，但是什么都没听到。我上了楼，但是就在我要过她的房门的时候，她叫住了我。

“我正想知道那是谁，”她说，“我太常一个人待在这里了，所以任何声响都逃不过我的耳朵。”

“您没必要待在这里，”我说，“如果您愿意，您可以像所有女人一样，成天在外面串门。”她走到门口。

“我想您可能生病了，”他说，“吃饭总是打战似的。”

“希望下次幸运点，”我说，“您想要什么？”

“出什么事了吗？”她说。

“哪能啊？”我说，“我下午的时候，中途回来一趟，有必要这么大反应吗？”

“你看到昆汀了吗？”她说。

“她在学校。”我回答道。

“现在过了三点了，”她说，“我听到敲钟，起码是半个小时之前的事了。她现在也该回来了。”

“是吗？”我说，“您什么时候在天黑之前见过她吗？”

“她该回来了，”她说，“我是个姑娘家的时候……”

“您有人管，”我说，“但是，她没有。”

“我真的拿她没辙了，”她说，“我左也试了，右也试了。”

“那您还不愿意让我试试，”我说，“所以您就知足吧。”我继续向自己的房间走去。我很轻松地开了门，站在那里，直到有人转动门把。然后听到她说：“杰生。”

“怎么？”我答道。

“我只是想到有点不对劲。”

“不是这里，”我说，“你走错地方了。”

“我不是想打搅你。”她说。

“那就好，”我说，“我方才不是很确定。我还以为我听错了呢，您需要什么？”

过了一会儿，她说：“不，没什么。”然后，就走开了。我拿下盒子，数了数钱，然后把盒子重新藏好后，开了门出去了。我在想樟脑，但是无论如何，现在可能太晚了。我可能只需要再来回跑一趟。她在门口等我。

我问她：“您想让我在镇上帮您捎点什么吗？”

“不是，”她说，“我没想掺和你的事情。杰生，但是我不知道如果你发生什么事情，我会怎么办。”

“我没事，”我说，“只是有点头痛。”

“我希望你能吃点阿司匹林，”她说，“我知道你还是会开车。”

“和车子有什么关系？”我说，“车子怎么能让人头痛。”

“你知道，汽油总是让你恶心，”她说，“从你还是个孩子的时候就这样了。我希望你能吃点阿司匹林。”

“您就这么希望着吧，”我说，“反正对您没害处。”

我上了车，准备回城。我刚转到路上，就看到一辆福特朝我笔直开过来。还好，它又突然停下了。我都能听到轮胎打滑的声音，接着车子打转、掉头，飞快地开走了，就在我在想到底是怎么回事的时候，我看到了那条红领带。我看到它又打了一个转，而就在我开到后街的时候，它就不见了，开得快得要飞。

我都气炸了。在我告诉了她一切之后，当我认出那条红领带的时候，我就什么都不记得了。甚至直到第一个岔路口，我必须停下的时候，我才开始想到我的头痛。我们一次次地花钱修路，为什么见鬼地，这条路就像开过一片瓦楞铁皮屋面一样。我很想知道，在这样的路上，一个人怎么追得上甚至是一辆手推车。我还是太爱惜我的车子了；我没法像他开那辆破福特一样，让它颠成碎片都没关系。有可能那辆车是他们偷的，所以没什么需要在乎的。就像我经常说的，血缘起决定作用。如果你身上也是流着那样的血，你也什么事都做得出来。我说你若认为自己对她有什么义务的话，现在也没有了；我说从现在起，你只能怪自己，因为你明明知道一个头脑清醒的人该做什么。我说如果我有一半的时间要做一个该死的侦探的话，起码我要去会付我钱的地方做。

所以，我必须在这个岔路口停下。然后，我记起来了我的头痛，就像有人用锤子在里面敲打它一样。我说我已经尽力让你不被她所扰；我说就我而言，她既然愿意的话，就让她下地狱吧，越快越好。我说你还在指望什么呢，现在只有那些来镇上的推销员和下贱戏子和她相好了，因为现在镇上的懦夫们都不搭理她了。你不知道发生了什么，我说你没有听到我听到的那些闲言碎语，所以你可以以为我堵住了他们所有人的嘴。在你全家就守着这个村里的小铺面，和种一点黑鬼都嫌少的地时，我家里可是有大把的黑奴。

如果他们真的种过地也好。上帝厚待了这块土地，这本是件好事，但是住在这里的人们就没干过什么好事了。现在是星期五下午，从我所在的位置，我能看到三里内的土地就没有犁过，而村里的所有劳动力都去看那场表演去了。我要是一个饿得要死的陌路人，甚至也在这里找不到一个人问路——怎么进镇？而她一直在试图要我吃阿司匹林。我说我要是吃面包就会在餐桌边吃。我说你总在抱怨你为我们放弃了多少多少——而你每年用来买那些贵得死的专利药的钱，都够你买上十来条新裙子了。我不是要找灵丹妙药，我需要的仅仅是喘息一下——不要再让我吃阿司匹林了。但是只要我必须每天工作十个小时来养一厨房的黑鬼——一大帮子被惯坏了的黑鬼，还要送他们去看什么鬼表演，不过，镇上的所有黑鬼都在这里，但是不管怎样，只要是这样，我就好不了。只是我碰到的这个黑鬼现在已经迟到了，等他赶到，戏该早演完了。

过了一会儿，他上了我的车，当我终于和他说明白，我是想问是不是看到有两个人开一辆福特车经过的时候，他回答了“是的”。于是，我继续追上去，当我来到车路拐弯的地方，我看到了轮胎印。阿贝·罗素就在地里，但是我不想打扰他，而就在我还能看到他的牲口棚的时候，我见到了那辆福特。他们试图将它藏起来，但是就和她做其他所

有事情一样，干得不怎么样。并不是说我有多看不惯她；也许她也沒辦法，但是因为她甚至不为自己的家庭考虑，不慎重起见，所以是她确实做得不应该。我一直很担心，会在路中间或者广场下的车上碰到一对发情狗一样的他们。

我停了车，走出来。现在，我需要到处瞧瞧，还要穿过一片犁过的田地——这是我出镇后第一次见到的犁过的土地，我走的每一步都像有个人跟着我在走，并且在用棍棒不断地打我的头。我总想一旦我穿过了这片田地，至少会有点平路可以走吧，这样就不至于每一步都这么颠簸了，但是当我来到树林的时候，我发现这里满是矮木丛，而我需要七拐八拐地绕过它们前行，然后我就看到了一个满是荆棘的壕沟。我围着它走了一段时间，但是我发现荆棘越来越密，而且艾尔有可能一直在打电话到我家，问我去哪里了，而这会让我母亲更加着急。

当我终于走出来的时候，因为我已经左绕右绕了那么多次，我只能停下来，仔细辨认汽车停的方位。我知道他们不会离停车的地方有多远，应该就在最近的灌木丛下边，所以我掉头，转回到了马路上。因为当下我不能确定我走了多远，所以我必须停下来，打探打探情况。而此时随着我腿部所需血液变少，它们全部聚集到了我的脑子上，弄得我的头随时要爆炸似的。而此时太阳开始下山了，正好直射在我所处的位置，而我的耳朵耳鸣了，所以我也听不出个所以然。我试图安静地往前走，然后我听到了狗吠之类的，我知道只要让它闻到我的气味，它就会开始狂吠，那一切都会失控了。

我身上沾满了各种毛毛草草、小树枝什么的，衣服里和鞋子里到处都是。然后，我不经意间到处望了一下，正好发现我的手在一丛毒葛上。我唯一理解不了的就是为什么只是毒葛，而不是一条毒蛇或者其他什么致命的东西。所以，我没怎么在意，也没动，只是站在原地等那只

狗离开。然后，我就继续向前走了。

这会儿，我压根儿就不晓得车子在哪个方位了。除了我的头，我根本没法顾及其他事情。我一直站在一个地方，甚至开始怀疑我是否真的看到了那辆福特车，不过，我都不是真的在乎我是否看到了。就像我说的，我不在乎，让她自生自灭去吧——随便她整天整夜地在外面和镇上哪个男人勾搭都没关系。完全不在乎我的人，我对她也就没什么责任可言，再说，这太过分了——把福特停在这里，让我花了一整个下午找人，然后还让艾尔带她到后面看账本，只是因为他实在太善良了。我说你在天堂也会不好过的，因为没法卷进任何人的事情里。你最好别让我抓住你，我睁一只眼闭一只眼全是为了你外婆，只要让我抓到在我母亲家干一次这种事情，你就完蛋了。这些油头小子，自以为有多大能耐，我倒是要让他们看看，你也给我等着——我会让他知道想带着我外甥女在树林里乱来，那红领带就是下地狱的催命锁。

随着阳光整个照进我的眼睛里，我的血液沸腾了，所以我不断地觉得我的脑袋要炸了，然后又克服这种情绪。随着有荆棘什么的挂在我的衣物上，我来到了它们所在的沙坑，我认出了停车的地方的那棵树，但是，就在我走出沟坑的时候，我听到了车子发动的声音。他把车子开得轰鸣作响，而且速度极快地开走了。他们长按喇叭，就像在说“呀！呀！来追呀”，然后，就消失在了视野里。我走到路上的时候，正好看得到它开远。

我走到我车子旁边的时候，他们已经完全不见了，不过还能听见不断作响的喇叭声。好吧，除了我在想“赶快”之外，我压根没想什么。赶快回镇上。赶快回家，让我母亲确信我没在那辆车上见过你。尽量让她相信，我真的不知道那个男的是谁。尽量让她相信，这不是真的：我只有十步之差导致没有在那个沟坑里逮到你。也尽量让她相信你一直是向

上的。

车子一直发出“呀！呀”的声音，只是声音越来越弱。然后就听不见了，我听见一头奶牛在罗素的牲口棚里低声叫着。不过，这仍然没进到我的脑子里。我只是走到门边，打开门，抬脚。当时，我觉得车子有点斜，比路面的斜度还要斜一点，但是我也没找出什么问题，直到我坐上去，发动车子的时候我才发现问题所在。

哎，我只好就坐在那里。太阳要下山了，而这离镇上还有五英里远。他们甚至没胆子把轮胎刺穿，打个洞什么的，只是把气给放了。我只是站了一会儿，想到那一厨房的黑鬼，我养着他们，他们却没有一个人有时间帮我在架子上装上一个备用胎和拧几个螺丝。这有点可笑，因为她不会这么有远见，故意把打气筒拿了出来，除非可能是她在看他放气的时候想到的。但是有可能是，有人把它拿了出来，给了班当水枪玩，因为只要是班想要的，这群人就算把汽车拆成碎片也不会在意，不过，黛西说：“没有人会碰你的车的。我们玩你的车干吗？”我说，你是一个幸运的黑鬼，知道吗？我说，我随时想和你交换，因为现在白人除了每天担心一个小荡妇的行踪之外，没有什么可干的了。

我朝着罗素家的农场走去，他有打气筒的。我估摸着他们没想到这一点。只是我仍然不敢相信，她有这个胆量。我总是在想这个事情。我不知道为什么我似乎不能接受现实——就是一个荡妇会做任何事情。我一直在想，让我消停一会儿吧，让我暂且忘记对你的憎恶，以及你对我的漠不关心：我反正是没法这样对你的。不管你做了什么，我都不可能这么对你。就像我说的，血缘就是血缘，你躲不过的。这不是开一个八岁小孩的玩笑，而是你让你的亲舅舅被嘲笑，还是被一个戴着红领带的男人。他们到我们镇上，嘲笑我们是一群乡巴佬，还认为我们这个小镇装不下他们。好吧，他不知道他说得对极了。昆汀也是。如果那就是她所

想的，那她最好滚开——这他妈的真是一种解脱啊！

我停下来，还了罗素的打气筒之后，开始返回镇上。我到药店，打了一针之后去了电报局。收盘价是20.21元，跌了40个点。那可是四十个五块钱啊！如果可以的话，你就拿这些钱去买点东西吧，然后她就会说：“我必须拿到它，我非要不可。”我就会说：“那太不好意思了，如果这样，你只能去找别人了。我没钱，我没那个时间去赚钱。”

我只是看着他。

“我要告诉你一些消息，”我说，“你会很惊奇的，那就是我对棉花市场感兴趣。”我接着说，“你从来没想到，对吧？”

他说：“我已经尽力想把这个交给你了。”这时，他边在抽屉里找东西，边说，“我去商店找了你好两次，也打电话到你家了，但是他们都不知道你在哪里。”

“你想给我什么？”我回答道。他递给我一份电报。我问：“这是什么时候到的？”

他回答说：“大概三点半。”

“但是现在已经五点十分了。”我说。

“我想给你的，”他说，“但是我找不到你。”

“那不是我的错吧。”我说。我打开电报，只是想看看这次他们会用什么谎话来骗我。他们的状况肯定很糟糕，都需要不远千里到密西西比河来骗我的十块钱一个月。电报上说：“廉价出清。”市场会出现波动，但是整体行情是看跌的。按照官方的说法，就是无须惊慌。

“打这样一份电报要多少钱？”我问。他告诉了我。

“他们已经付过钱了。”他说。

“那么，我只欠他们这么多，”我说，“我已经知道行情了。帮我发这个。”我边说，边抽出一张单子。买进，市场行情即将上扬，会大涨，我写道。这是为了引一些还没到电报局了解情况的乡巴佬上钩，才偶尔放出来制造恐慌的。别被吓着了。“帮我发了。”我说。

他看了看内容，然后看了看表说：“一个小时之前就已经收盘了。”

“好吧，”我说，“这也不是我的错。这又不是我发明的。我只是买进了一点，总是以为电报公司会通知我行情的涨落的。”

“我们只要收到报告，马上就粘贴出来了的。”他说。

“没错，”我说，“但是，在孟菲斯，人家每十秒钟就在黑板上公布一次。今天下午，我到过离这里不到六七十米的地方。”

他看了看电报，问：“你想寄这个？”

“我没改变主意，”我说。我写好了另一封电报，还数了数电报费。“如果你确定你会写‘买进’，那还有这个，帮我也寄了。”

我回到了商店里。我能听到乐队在街上演奏的声音。“禁酒”真是个好事儿。过去，他们总是在周六穿着家里唯一的一双鞋进城来，然后到快递公司取包裹；现在，他们都光脚去看演出，而站在门口的商人看着他们经过，就像一队笼子里放出来的老虎之类的。

艾尔说：“我希望不是什么严重的事情。”

“什么？”我说。他看着他的表。然后，他走到门边，看了看法院大楼的钟。“你应该买个美元对表，”我说，“这不会让你花那么多钱来次次怀疑自己的表不对。”

“什么？”他问。

“没什么，”我说，“希望没给你带来什么不便。”

“我们不怎么忙，”他说，“他们都去看演出了，没事。”

“如果有关系的话，”我说，“你知道你能怎么办。”

“我都说了没关系了。”他说。

“我听到了，”我说，“但是，你知道如果有关系的话，你能怎么做。”

“你想辞职吗？”他说。

“没我什么事，”我说，“我的意愿不重要。但是，不要有这样的想法，也就是不要觉得你把我留在这里，是在保护我。”

“杰生，如果好好干的话，你会是一个很好的商人。”他说。

“至少我能只顾好自己的事，而不去管别人的闲事。”我说。

“我不知道为什么你想逼我解雇你，”他说，“你知道任何时候，你想不干了，都可以辞职的，而这也不会影响我们两个人的关系。”

“也许那就是我不愿意辞职的原因，”我说，“只要我还在做这个工作，你就在为此付我薪水。”我走到后边喝了杯水，然后从后门出去

了。乔布（Job）总算装好了所有的中耕机。现在这里很安静，很快，我的头就舒服点了。现在，我可以听到他们的歌声和乐队的奏乐声。好吧，让他们赚走这个村上的所有钱吧，反正也不是在剥我的皮。我能做的都做了；长到我这么大，都不知道适可而止那就是个白痴了。尤其是，这本来就不关我的事。如果现在跑出去的是我的亲女儿又不一样，因为她不会有这个时间的；她必须做点事情，去养活那几个病号、傻子和黑鬼。不过，我怎么会有女儿，因为我怎么能有脸带任何人回家，我对每个人的尊重，是不会允许我这么做的。我是一个男子汉，我受得了，那是我的血脉亲人，我倒是想看看那个对我熟识的女子说不敬之词的男人的眼睛是什么颜色的。做这种事的都是那些个好女人，我倒是想看看那些正经的、经常去教堂做礼拜的女人是什么货色，有没有罗恩一半正经，是不是婊子。就像我说的，如果我想结婚，你知道，你会像气球一样，瞬间膨胀，而她会问，我希望你开心——有一个自己的家庭，而不是为了我们禁锢你的人生。但是，我已经不久于世了，然后你需要找一个老婆，但是你会发现没有人配得上你，而我说，不，我能找到的。你知道你会直接从你的坟墓里跳出来。我说，不用了，现在我有够多的女人要照顾了，如果我结婚，没准会发现娶的是个毒鬼呢。我说，我们家现在只缺这号人物了。

太阳已经西沉到卫理公会教堂之后了，鸽子们在绕着尖塔前后飞，当乐队歇息的时候，我能听到它们的咕咕叫。圣诞节过去还不到四个月，可是鸽子们又和以前一样多了。我估摸着现在沃尔索尔

（Waltham）牧师肚里都是鸽子肉。他可能以为我们是在朝人开枪，他发表很多演说，甚至有人持枪过来的时候，会抓住他们的枪杆。他谈论什么和平降临大地啊，善待一切生灵啊，还有连麻雀都不能打。但是，他也不管鸽子变得多么的多，他无事可做：他在乎什么呢，也不用在乎时间。他又不纳税，也不用每年看着自己的钱被用来清洗法院大楼的

钟，为了让它走得精准些——这可得花四十五块钱请人做呢。我数了数，地上有超过一百只半孵化的鸽子。他以为，它们会晓得离开这个镇子。我只能说，还好，我的亲戚没有鸽子多。

乐队又开始奏乐了，一首快节奏的歌，很大的声音，就像他们要崩溃了似的。我估摸着现在他们该感到满足了。也许他们在驱车回家的路上，那十四五英里的路途中都有歌声萦绕于耳了，还有晚上喂牲口、挤牛奶的时候，也一样。他们能做的就是吹吹调子，和牲口棚里的牲畜说说笑话，然后再算算，因为没把这些牲畜也带去看戏，省下了多少银子。他们也可以这么算，如果一个人有五个小孩、七头骡子，他花两毛五就能让全家都看到演出，诸如此类的。艾尔带着两个包裹回来了。

“又有一些货要发出去，”他说，“乔布大叔在哪里？”

“我猜是去看戏了吧，”我说，“除非你看到他了。”

“他不会悄悄溜走的，”他说，“这个我是可以相信他的。”

“那意思就是我会喽。”我说。

他走到门边，边向外张望边在听。

“乐队真不赖！”他说，“我说，差不多是散场的时候了。”

“除非他们打算在那里过夜。”我说。燕子开始纷飞了，我也可以听到麻雀在法院大院的树中穿插的声音。每过一会儿，就能看到屋顶上又飞来一群，在打转，然后又飞走。就我看来，它们和鸽子一样讨人厌。因为它们，你压根没法在法院院子里久待。你知道，第一个就是，砰的一声，一坨屎就正好落在你的帽子上。但是，因为打一次麻雀要五分钱，只有百万富翁才支付得起这费用。其实只要在场地上撒点毒药，不

出一天，就能把它们都清理掉。因为如果哪个商人要是管不住自己的禽鸟，让它们在广场上乱跑的话，他最好是贩点其他的东西，比方说像犁头、洋葱一样不会去觅食的东西。而如果有人管不住自己的狗的话，他要么就是不想要这狗了，要么就是没养过狗。就像我说的，镇上的买卖和农村的是相似的，因而我们就变成了一个村镇了。

“他们散场了，对你没什么好处，”我说，“他们还得套车，然后把车赶出来，就这样，得折腾到半夜才能到家。”

“好吧，”他说，“他们很享受。让他们偶尔花点钱看出表演，也不错。山里的农民活干得很累，但是回报很少。”

“又不是法律规定他们到山里务农的，”我说，“他们可以去任何地方。”

“如果没有农民，我和你指不定会怎么样呢。”他说。

“那我现在会在家里躺着敷冰块。”我说。

“你头痛得太频繁了，你怎么不去好好检查下你的牙齿呢？今天早上，他给你全看到了吗？”

“谁？”我说。

“你早上说去看牙医了啊。”

“你是不爽我在上班时头痛是不？”我说，“是不是？”

他们看戏回来了，正在穿过小巷子。

“他们回来了，”他说，“我想我最好是到前厅去。”他去了。这是一

件神奇的事情，就是为什么不管你是怎么了，男人都会告诉你去看牙齿，而女人就会告诉你要结婚。而且，总是那种在任何事情上都没赚到什么钱的人，在告诉你怎么做生意。就像那些穷得连双像样的袜子都没有的大学教授，总在教你怎么在十年之内成为百万富翁，而自己都没嫁人的女人在教你怎么经营一个家庭。

老乔布赶着大马车来了。过了一会儿，他把缰绳裹在了鞭子插座上。

“嗨，”我说，“表演好看吧？”

“我没去看，”他说，“不过，我今天晚上会在帐篷里，那里可以找到我。”

“鬼才信你没去呢，”我说，“你三点就离开这里了。艾尔先生正好回来找你。”

“我办自己的事去了，”他说，“艾尔先生知道我去了哪里。”

“你可以瞒过他，”我说，“我不会告发你的。”

“那他就是镇上我唯一试图欺瞒的一个人了，”他说，“不过，我为什么要浪费时间欺瞒一个人，一个我压根不在乎能不能在周六晚上见到的人？我也不会试图欺瞒你。”他边说“是的，先生，对我来说，你太精明了”，边忙得不可开交——把五六袋小行李放到大马车上。“对我来说，你太精明了。整个镇上都没有人比你更精明了。你能欺骗一个人到他完全搞不清楚情况的程度。”他边说，边爬上马车，解开了缰绳。

“你说的是谁？”我说。

“那就是杰生·康普生先生，”他说，“走起来，丹！”

有一个车轮眼看就要掉下来了，我倒是想看看他能不能在它掉之前，走出这条巷子。只要把任何车子交给黑鬼管，都会这样。我说我们家那辆老爷车真是惨不忍睹，但是你还是得让他在车房里待上一百年，就为了那小子能每周赶着它到墓地上去。我说他不是第一个被迫做自己不想做的事情的人。我要让他像个文明人一样开车，不然就待在家里。他哪知道去的是哪里，上的是什么车，可是我们为了能让他周日下午出去散散心，还得准备一辆马车和一匹马。

乔布很关心轮子会不会掉下来，只要走回来不会太远就行。就像我说的，只有田地是适合黑鬼的，在那里，他们得从日出干到日落。他们是享受不了富裕的生活和轻松的工作的。让一个黑鬼在一个白人身边待上一阵，就没什么可取之处了。他们会变成这个样子：能在你的眼皮底下，猜透你的心思，就像罗斯克斯（Roskus）一样。他犯过的唯一错误就是有一天一不小心让自己死了。偷懒、偷窃，越来越碎碎念，直到有一天你烦得只能用板子什么的把他打趴下。好吧，那是艾尔的事。但是，我很讨厌我的事情被一个老态龙钟的黑鬼和一辆拐弯时随时都担心会四分五裂的破马车在镇上宣传开来。

现在，外面的太阳还高挂着，但是房里已经开始暗下来了。我来到前厅，看到广场上都没人了。艾尔在锁保险箱，然后我就听到了钟响的声音。

“你关下后门？”他说。我回到后面，关了门，又走向前面。“我想你今晚上要去看戏吧，”他说，“我昨天给了你入场券，对吧？”

“是的，”我说，“你想要回来？”

“不，不是的，”他说，“我只是不记得我是不是给你了。没必要浪费嘛。”

他关上门，说了“晚安”后，离开了。麻雀还在树间快活，但是广场上除了几辆车已经没人了。药店前面停着一辆福特，但是我甚至连看都懒得看一眼。我知道我的底线在哪里。我不在乎给她帮助，但是我知道度。我想我可以教会卢斯特开车，然后只要他们愿意，就能整天跟着她了，而我就能待在家里和班玩了。

我走进去，拿了两根烟。然后，我就想再看看头痛时的运气，于是我站在那里，和他们聊了一会儿天。

“嗨，”麦克说，“我估摸着今年把钱压在洋基队的身上了吧。”

“为什么？”我说。

“冠军啊，”他说，“联赛里没有哪个队敌得过洋基队的。”

“确实是没有，”我说，“他们都注定要败，”我说，“你认为一支队会永远这么幸运吗？”

“我不认为是幸运。”麦克说。

“反正鲁斯在哪个队，我就不押那个队，就算我知道它要赢，我照样不会押。”我说。

“认真的？”麦克问我。

“我能从任意一个联赛里数出二十个比他有价值的球员。”我说。

“你不喜欢鲁斯什么？”麦克说。

“没什么，”我说，“我没什么不喜欢他的。我甚至都不愿意见到他。”我走了出去。路灯亮了，人们都开始赶回家了。有时候，只有天完全黑下来，麻雀才会消停。那个法院大楼旁边亮起新灯的晚上，麻雀整夜都是醒着的，一直在周围飞腾，或者跌跌撞撞地往有灯的地方飞。麻雀这样坚持了两三晚，然后一天早上就全部飞走了。然后，又过了两个月的样子，它们又全部飞回来了。

我开车回到了家。屋子里还没亮灯，但是他们应该都在看窗外，等我回来。黛西在厨房里唠唠叨叨，好像她要热着等我回来吃的食物都是用她的钱买的一样。听她唠叨的话，你会觉得世界上只有一顿晚餐，就是这顿因为我的原因她必须晚吃几分钟的晚餐。好啦，至少今天回来的时候，没有发现班和那个黑鬼挂在门上，就像同一个笼子里出来的熊和猴子似的。只要太阳落山了，他就会来到门边，就像牛回牛栏一样，然后挂在上边，摇头晃脑的，还自言自语。这种猪一样的人，真应该像猪一样被阉割掉。他为了从开着的大门那儿冲出去而被阉割，我要是跟他做一样的蠢事，那么你把一个女学生放到我面前，我都不会看的。我总是好奇，他在下面的门边，看女学生从学校回家，然后试图得到他甚至不能记起他已经不需要，也没有能力要了的东西，他是在想什么。还有，当他们脱了他的衣服，而他恰好看了一眼自己，又开始和他平常一样哼哼唧唧的时候，他会做何感想。但是，就像我说的，他们做得总是不够。我说我知道你需要什么，你需要的是他们对班所做的事情，然后，你就会听话了。如果你不知道我说的是什么，就去问黛西。

母亲的房间里亮着灯。我停好车，然后进了厨房。卢斯特和班已经在这里了。

“黛西呢？”我说，“在开饭？”

“她和卡罗琳小姐上楼了，”卢斯特说，“自从昆汀小姐回来之后，她们差点打起来了。姥姥在上边劝架。杰生先生，演出的人来了吗？”

“来了。”我说。

“我好像听到乐队奏乐了，”他说，“我真希望我能去，”他说，“要是我有两毛五的话，我就能去了。”

黛西进来了。“你回来了？”她说，“你今晚上干什么去了？你知道我要做多少事情吗？你为什么不及时赶回来？”

“也许我去看演出了呢，”我说，“晚饭好了吗？”

“我要是能去就好了！”卢斯特说，“我要是有两毛五分钱的话，我也能去看。”

“看戏和你没什么关系，”黛西说，“你进屋去，坐下。”她又说，“你现在不要上楼，等会儿她们又吵起来了。”

我问：“发生什么事了？”

“昆汀才回来就说你整个下午都在跟踪她，卡罗琳小姐就责备了她。你就不能不管她的事啊？你就不能和你的亲外甥女在一个屋檐下，和和气气地过日子吗？”

“我不可能和她吵架啊，”我说，“因为我早上之后就没见过她了。她觉得我做的是什​​么？押她回学校？太糟糕了。”我说。

“好了，你管好你的事，别理她。”黛西说，“只要你和卡罗琳小姐愿意的话，我会好好照顾昆汀的。好啦，你现在回房吧，老实点，我来

开饭。”

“如果我有两毛五的话，”卢斯特说，“我就能看演出了。”

“如果你有翅膀，你能飞到天堂，”黛西说，“我再也不想听到和表演有关的字。”

“这倒是提醒了我，”我说，“我这里有两张他们给我的票。”我从衣兜里掏了出来。

“你自己要用吗？”卢斯特问。

“我不用，”我说，“给我十块钱，我也不会去。”

“杰生先生，给我一张吧。”他说。

“我卖给你一张，”我说，“怎么样？”

“我没钱。”他说。

“那太不幸了。”我说。我假装要走出去。

“杰生先生，给我一张吧，”他说，“你也用不了两张啊。”

“别说了，”黛西说，“你不知道他不会白给任何东西吗？”

“多少钱一张？”他说。

“五分。”我说。

“我没那么多。”他说。

“你有多少？”我问。

“我一分钱都没有。”他说。

“那好的。”我说。我说完就走了。

“杰生先生。”他说。

“你还不算了？”黛西说，“他在逗你呢。他自己要用那些票。走吧，杰生，让他一个人待着。”

“我不要用。”我说。我又回到炉子边。“我来把它烧了。不过，你想不想五分钱买一张？”我边说，边看他的反应，一手则打开了炉盖。

“我没那么多钱。”他说。

“好吧。”我说。我丢了一张到炉子里。

“欸，杰生，”黛西说，“你也不羞愧？”

“杰生先生，”他说，“求你了，先生。我可以给你安一个月的轮胎，每天都安。”

“我需要现金，”我说，“只要五分钱，就是你的了哦。”

“卢斯特，别说了，”黛西说，她猛地拉了他回去，说，“继续啊！丢进去！继续啊！都丢进去好了！”

“只要五分钱，你就能拥有它了哦。”我说。

“继续丢进去，”黛西说，“他不会有五分钱。丢啊！丢进去！”

“好吧。”我说，我丢了进去，然后黛西关了炉子。

“你这么大个人了还干这种事，”她说，“快从我的厨房出去，不要再说了，”她又对卢斯特说，“不要让班吉又发作了。我会叫弗朗宁给你两毛五，这样你明天晚上就能去看演出了，现在，不要再说什么了。”

我回到了卧室里。我不能听到楼上的任何声音。我打开报纸，不久，班和卢斯特就进来了。班走到原来镜子在的地方，也就是墙面暗的地方，一边淌口水、哼哼唧唧的，一边把手放在墙面上擦。卢斯特则开始戳火。

“你在干什么？”我说，“我们今晚上不需要任何火了。”

“我在试图让他安静，复活节总是很冷。”他说。

“只是现在不是复活节，”我说，“就这样吧。”

他把拨火棍放好，把母亲凳子上的毯子拿给了班，然后专心蹲在火前面，不说话了。

我在看报纸。黛西进来喊班和卢斯特去厨房，说饭菜准备好了的时候，楼上没有任何动静。

“好，没事。”我说。她走了出去。我坐在那里看报纸。过了一会儿，我听出黛西在往门里望。

“你怎么还不来吃饭？”她问。

“我在等你开饭。”我回答说。

“已经上桌了，”她说，“我告诉过你了啊！”

“是吗？”我说，“不好意思，我没听到任何人下来的声音。”

“她们不吃，”她说，“你来吃吧，然后我就能给她们端点上去了。”

“她们不舒服吗？”我说，“医生说了什么？我希望不是出天花。”

“来吃吧，杰生，”她说，“然后我就能把事情做完了。”

“好的，”我边说，边又拿起了报纸，“我现在在等你开饭。”

我能感觉到，她在门口看着我。我继续看报纸。

“你怎么了，要这样？”她说，“你何时才会知道，这样让我多困扰？”

“如果母亲比她下来吃晚饭的时候，更不舒服，那没事，但是只要我是花钱养着比我小的人，她们就得下来吃饭。什么时候开饭，告诉我一声。”我说完，继续看报纸了。我听到她爬楼的声音，一步一步拖着走，而且边走边嘟囔、喘气，仿佛这楼梯是直的，每两步之间隔了三英尺一样。我听到她停在了母亲的门前，然后我听到她喊昆汀，貌似昆汀的门是锁着的，然后她又回到了母亲的房里，之后，我听到母亲去喊昆汀。最后，她们一起下来了。我继续看报纸。

黛西又来到了我的门边。“可以了，来吧！”她说，“不然，你又要想出什么鬼玩意来。今晚上，你就是在折磨你自己。”

我进了餐厅。昆汀低头坐着。她又化妆了。她的鼻子就像一个绝缘瓷体。

“我很高兴，您舒服些了，能下来吃饭了。”我对母亲说。

“除了来到餐桌边，我能为你做的很少，”她说，“不管我身体怎么样，我意识到，当一个男人白天在外面干了一整天活之后，吃晚饭的时候，就希望全家人陪他一起。我想让你高兴点儿。我只希望你和昆汀能够关系融洽一点儿。这会让我好受些。”

“我们相处得不错啊，”我说，“只要她愿意，我也不在乎她整天把自己锁在房子里。但是，我不喜欢吃饭的时候，大吵大闹或者生闷气。我知道那对她来说，是过分的要求，但是这是我家里的规矩。哦，我的意思是，在您的房子里。”

“这是你的，”母亲说，“现在，你是它的主人。”

昆汀就没有抬过眼。我摆好了盘子，然后她开始吃饭了。

“你吃到一块好肉了吗？”我说，“如果没有的话，我帮你找一块更好的。”

她什么也没说。

“我说，你吃到一块好肉了吗？”我说。

“什么？”她问，“嗯，这很好。”

“你还要米饭吗？”我说。

“不需要了。”她说。

“最好是让我再给你盛一点吧。”我说。

“我不用了。”她说。

“没事，”我说，“不用谢。”

“你不头痛了吧？”母亲说。

“头痛？”我说。

“我怕你有头痛，”她说，“你今天下午什么时候回来的？”

“哦，”我说，“没有，没头痛。今天下午我们太忙了，我都没记起头痛这回事。”

“这就是你回来晚了的原因吗？”母亲说。我可以看出昆汀在听着。我看着她。她依然在动刀叉，但是我捕捉到她看向我的视线，然后又看回了她的盘子里。

我说：“不是。是因为，我三点钟的时候，把车子借给了别人，所以我必须等他回来，才会晚回的。”我吃了一会儿。

“你把车子借给谁了？”母亲说。

“就是一个来演出的人，”我说，“好像他姐姐的丈夫和镇上的哪个女人开车出去了，他在追他们。”

昆汀完全不受影响地坐在那里，吃她的东西。

“你不应该把车借给那样的人，”母亲说，“你太大方了。所以不到万不得已，我是不会问你借车用的。”

“我自己也开始这么觉得了，”我说，“但是他回来了，没事。他说他发现了他在找的人。”

“那个女人是谁？”母亲问。

“我等会儿告诉你，”我说，“我不想在昆汀面前谈论这种事情。”昆汀停下来不吃了。每过一会儿，她都会喝一口水，然后坐在那里掰碎一块曲奇饼干，她一直低着头，脸对着盘子。

“好的，”母亲说，“我想像我一样完全封闭了的女人，完全不知道镇上发生了什么。”

“是的，”我说，“确实不知道。”

“我们那个时代和现在不一样，”母亲说，“谢天谢地，我不知道那些邪恶的事情。我甚至不想知道。我和大部分的人都不一样。”

我没再说什么。昆汀坐在那里，掰饼干，直到我吃完了。然后，她说：“我可以走了吗？”她说的时候没有看任何人。

“什么？”我说，“当然，你可以走了。你在等我们吗？”

她看着我。她掰碎了所有的饼干，但是她的手依然摆着一个在掰饼干的姿势，她的眼神很像一头困兽之类的，她一直在咬嘴唇，好像那些红丹是能毒死她的毒药。

“外婆，”她说，“外婆……”

“你还想吃什么吗？”我说。

“外婆，为什么他要这样对我？”她说，“我从来没有伤害过他。”

“我要你们都和平相处，”母亲说，“你们现在都是被留下的人了，所以我真的希望你们能更好地相处。”

“是他的错，”她说，“他不放过我，而我必须接受。如果他不想要我在这里，为什么不让我回……”

“够了，”我说，“一个字都不要说了。”

“为什么他不放过我？”她说，“他……他就是……”

“他几乎充当了你父亲的角色，”母亲说，“是他养活了我和你。他希望你能听他的话，这没什么不对的。”

“是他的错，”她说，她跳了起来，“他让我做的。如果他……”她看着我们，困兽般的眼神，两个胳膊好像在抽搐似的。

“如果我怎么样？”我说。

“不管我做什么，都是你的错，”她说，“如果我变坏，那是因为我必须这样。你让我变成这样的。我死了倒好。要是我们都死了就好了。”然后，她就跑了。我们听到她跑上了楼，然后，猛甩上了门。

“这是她第一次说了句像样的话。”我说。

“她今天没去学校。”母亲说。

“你怎么知道的？”我说，“你到镇上去了？”

“我就是知道，”她说，“我希望你能对她好点儿。”

“我对她好点，她就得让我一天多见上她几次，”我说，“你得要她每餐都到餐桌边来吃饭。这样，我每次都能给她多添碗饭。”

“还有些小事，你也可以做的。”她说。

“比方说，不顾你要我监督她去上学的事情？”我说。

“她今天没去学校，”她说，“我知道她没去。她说她今天下午和一个男孩子出去兜风了，而你一直跟踪了她一下午。”

“我怎么可能，”我说，“我的车今下午借给别人了。她有没有去学校已经不重要了。”我说，“如果你非担心不可，那就担心下周一吧。”

“我想让你们好好相处，”她说，“但是她遗传了她妈，固执得很。还有昆汀的。我当时就是想她可能继承了这些性格特点，才给她起名昆汀的。有时，我认为她是他们两兄妹对我的惩罚。”“我的老天爷啊，”我说，“您真是会想呢！难怪你一直身体不好。”

“什么？”她说，“我不明白。”

“我希望你不明白，”我说，“一个好女人要是知道得太多了，就会错失很多东西。”

“他们都是这样的，”她说，“他们都会在我试图纠正他们的时候，和你父亲一起对抗我。他总说，没必要那么管着他们，他们已经有了好的观念——纯洁和诚信，只要教会了这些，其余也就无所谓了。现在，我希望他知足了。”

“你还有班，”我说，“高兴点。”

“他们有意将我从他们生命里剔除开了，”她说，“她和昆汀总是在一起，他们总是在谋划联合对抗我，也对抗你，虽然当时你还太小，不能理解。他们总是把你我当成外人，对你莫里舅舅也一样。我总是和你父亲说，太放任他们了，他们在一起的时间太多了。昆汀一开始上学，我们就只好让加迪也去了，好陪他。她不能忍受你们任何人做任何她做

不了的事情。她很虚荣，虚荣和莫名其妙的骄傲。然后，她的麻烦来了，我知道，昆汀肯定会认为他也应该做同样糟糕的事情。但是我不敢相信，他们居然这么自私，会……我没想到他会……”

“也许他知道会是个女孩，”我说，“而再多一个人，都是他不能忍受的。”

“他可以控制她的，”她说，“她只会为他考虑。但是，我想那也是惩罚的一部分。”

“是的，”我说，“死的是他不是我，如果死的那个是我的话，你会好过得多。”

“你居然说这样的话来伤害我，”她说，“虽然这是我的报应。当他们开始卖地送昆汀去哈佛读书的时候，我就和你父亲说了，我们也应该为你做这样的准备。后来，赫伯特说要让你进银行的时候，我就说杰生现在也需要资助了。而当所有的开销都堆起来了，我被迫卖家具和剩下的部分草坪的时候，我给她写过一封信，因为我说她应该意识到她和昆汀在哈佛的开销里有一部分本来是应该给你用的，所以现在是她补偿你的时候了。我说她要是尊敬她的父亲的话，就应该这么做。那时候，我以为她会。但是，我只是一个穷老妇；我受的教育告诉我，人是不会不帮助自己的血脉亲人的——这是我的错，你有权利责怪我。”

“难道你以为我做我自己，是需要别人的帮助吗？”我说，“不要把那个连自己孩子的父亲是谁都搞不清的女人和我扯上关系。”

“杰生。”她说。

“好了，”我说，“我不是那个意思，当然不是。”

“在我经历了这么多之后，我不信还能有什么让我难受。”

“当然不会，”我说，“我不是那个意思。”

“我希望你至少能饶了我。”她说。

“当然，”我说，“这没什么好怀疑的，她太像他们了。”

“我受不了。”她说。

“那就别想这件事了，”我说，“她还是晚上出去，让你担心吗？”

“没有了。我告诉了她这是为她自己好，终有一天她会感谢我的。我关门之后，她拿了书在看书。有些晚上，我看她开着灯，看书到十一点。”

“你怎么知道她是在读书？”我说。

“我不知道她一个人会做什么其他的，”她说，“她从来不看其他的。”

“不是的，”我说，“你不会知道的。也庆幸你不知道。”我说。只是这个说出来也没什么用，只会让她又趴在我身上哭。

随之，我听到母亲上楼的声音。然后，她喊了昆汀，昆汀在房里问她“怎么了”，母亲说“晚安”，然后，我听到了开门的声音，母亲回房了。

等我抽完烟，上去的时候，昆汀房里的灯依然是亮着的。我可以看到没插钥匙的锁孔，但是我听不到任何声音。她在安静地学习。也许这是她在温习时学到的。我和母亲说了晚安之后，回到房间，拿出了钱

盒，又数了一遍里面的钱。我可以听到“伟大的美国太监”的如雷般的鼾声，就像一架滑翔机在起飞一样。我在哪里读到过，说为了有女人那样的声音，有的男人会做手术。但是可能他不知道医生对他做了什么。我估摸着他也不知道自己是想做什么，或者为什么博格斯先生要用栅栏尖桩将他打晕。如果他们在他还麻醉昏迷的状态下，就把他送到杰克逊去，他也绝对不会有所察觉。但是那对康普生家族的人来说，这个方法过于简单了，康普生家族想的办法该比这个复杂两倍都不止。要等到他冲出去，在街上和一个小女孩晃荡，还被他父亲看着的时候，他们才会想办法。好吧，就像我说的，他们从来不会及时一刀两断，而且结束得太快。我至少知道有两个需要动这样的手术的人，有一个住得很近，都不足一里远。但是，我觉得就算那么做了，也没什么好处。就像我说的，是个婊子，就是个婊子。就给我二十四个小时，不要让那些该死的美国犹太佬来对我指手画脚，要我做这做那。我也没想大赚一笔；这个就留给鬼灵的赌徒们去做吧。我只是想有个机会，让我把我的钱拿回来。我一旦拿回了我的钱，他们就能把整条比尔街，还有整个疯人院，都弄到我家来，让其中两个就睡我床上，另外一个吃饭的时候，坐我的位置上胡吃海喝。

1928年4月8日

破晓时分，空气中伴随着阵阵萧瑟与寒意，一束灰色的光线从东北方向移来，这束光线并没有溶解为潮气，却似乎分解成了细小的颗粒，如灰尘一样，当黛西打开小茅屋的门走出来时，这些颗粒像针似的横穿过她的肌肤，沉淀为一种稀薄的物质，不像是潮气，也不像是凝结的油脂。黛西头上缠着头巾，戴着一顶硬质黑草帽，身穿一条紫色丝绸长裙，披着一个栗色天鹅绒披肩。她在门口站了一会儿，仰着那张布满皱纹的脸看着天空，她伸出一只枯槁的手，掌心如同鱼肚般柔软，然后

她将披肩放在一边，仔细审视着她那长裙的前襟。

那条长裙从她的双肩垂下，穿过她那低垂的乳房，在她的腹部收紧，然后又垂下来，后来又微微隆起，因为她穿了好几条内裤，等春天过去，天气变暖，到处呈现出一派五光十色的颜色时，她会将内裤一层层地脱掉。她曾经是一个肥胖的女人，但现在骨架都凸显出来了，松弛的皮肤覆在上边，胀鼓鼓的腹部又开始绷紧，肌肉和组织仿若有勇敢和毅力一样，随着岁月的流逝，这些勇气和毅力都消磨殆尽了，只剩下不屈不挠的骨架，像一片废墟或一个里程碑一样，竖立在昏昏欲睡、无动于衷的内脏之上。这副骨架上方是一张面目狰狞的脸，让人感觉骨头都露在皮肉之外了。现在，那张脸对着风和日丽的天空，脸上有种听天由命的表情，又有种小孩子失望时惊愕不已的表情。最终，她转身再次回到屋内，关上了门。

小茅屋门口附近的土地光秃秃的，泛着铜绿色的光泽，好像经过几代人的光脚板磨蹭过一般。那色泽就像是古老的银器或墨西哥人的房屋上用手抹上的灰泥一样。小茅屋旁边是三棵桑树，夏天时可以在下边避暑。那毛茸茸的桑叶日后会长得如手掌般宽大、舒展，随风在空中起伏伏。这时，不知从哪儿飞来一对松鸦，在狂风中盘旋，就像是鲜艳的布片或纸片一样飞舞着，最后落在桑树上，它们来回翘动着尾巴，对着空中尖声叫嚣着，像卷走纸片或布片一样，狂风卷走了它们的叫声。后来，又有三只鸟也加入了它们的行列，它们落在摇摇晃晃的树枝上，同时翘起尾巴尖叫着。小茅屋的门打开了，黛西再次走了出来，这一次，她戴着一顶男士平底呢帽，穿着一件军大衣，磨损的裙摆下边是一件蓝格子的布裙，不规则的下摆蓬松垂下来，当她穿过院子，走上厨房门口的台阶时，裙摆也随风摆动着。

过了一会儿，她又出来了，这一次，她手中撑着一把伞，她拿伞抵

着风，穿过院子走到柴堆前，她没有合上伞，直接把它放在地上了。突然，她意识到了，立马抓住伞，在手中握了一会儿，朝四周望了一下。然后，她合上伞，放在地上，将柴火堆放在她胸前那弯曲的臂弯里，最后，她拿起伞，撑在头顶，又向台阶走去。当她将伞合上的同时，她小心翼翼地使柴火维持平衡，不让它们掉下，她把伞放在门后的角落里，又将柴火扔进炉箱里。随后，她脱掉了大衣，取下帽子，又从墙上取下那条脏兮兮的围裙穿在身上，把炉子里的火烧旺。同时，她把炉条捅得铿锵作响，炉盖也噼里啪啦直响，康普生太太站在楼梯口就开始喊她。

康普生太太穿着一件黑色缎面睡袍，一只手在下巴处紧紧拉着睡袍，另一只手拿着一个红色的胶质热水袋，站在楼梯口，呼唤着“黛西”。隔一段时间她就会呼唤一声，她的声音穿过那寂静的楼道，消失在一片漆黑中。一束灰色的光线射进来。“黛西。”她呼喊，她的声音没有任何起伏，不紧不慢的，好像她根本不期待黛西会回应她似的。

黛西回应了一声，停了下来，不再拨弄火炉，但是还没等她穿过厨房，康普生夫人又喊了一声，她还没穿过餐厅，走到窗口那束灰色的光线中，那声音又再次响起来了。

“好了，”黛西说，“好了，我在这儿呢。热水烧好了我马上给您灌上。”她提起裙摆，登上楼梯，她的身躯完全挡住了那束灰色的光线，“把热水袋给我，您回去睡觉吧。”

“我真不明白你刚才在干什么，”康普生太太说，“我早就醒了，躺在床上都一个多小时了，厨房里一丁点儿声音都没有。”

“您把热水袋放下回去睡觉吧。”黛西说。她费劲地爬上楼梯，她那身躯一点线条都没有，还不住地喘着粗气。“我会在一分钟内把火生

好，两分钟水就能烧开了。”

“我在床上躺了有一个多小时了，”康普生太太说，“还以为你在等我下楼生火呢。”

黛西走到楼梯口，接过热水袋。“我一分钟内给您灌好热水，”她说，“卢斯特今儿早睡过头了，天还没亮，他半夜就起来了。我只好自己生火。您赶紧回去吧，要不等我准备好，其他人都要被您吵醒了。”

“既然你让卢斯特停下工作出去玩儿，你就只好多做点儿事了，”康普生太太说，“杰生要是听说了会不高兴的。你很清楚这一点。”

“他又没花杰生的钱，”黛西说，“一点儿也不假。”她走下楼去。康普生太太回到她的房间。当她再次钻进被窝时，她听到黛西还在下楼梯，要不是食品储藏室那扇门拍打的声音盖过了她的脚步声，那缓慢的动作真会让人发狂。

她走进厨房，生好火，开始准备做早餐。其间，她停下手来，走到窗前，朝她的小茅屋看去，然后走到门口，打开门，对着狂风呼喊起来。

“卢斯特！”她喊道，为了避开狂风，她侧着脸站在门口听着，“听见没，卢斯特！”她又听了一会儿，当她准备再喊时，卢斯特从厨房的角落里走出来了。

“妈妈？”他说，一脸无辜的样子，黛西低头看着他那无辜的表情，站在那儿一动不动，她的表情已不是惊讶所能形容的。

“你去哪儿了？”她问道。

“没去哪儿呀，”他说，“我就在地窖里呀。”

“你去地窖干什么？”她说，“别站在雨中了，傻瓜。”她说。

“我什么也没干。”他一边说一边走上台阶。

“一点儿柴火都没捡，你竟然敢进门，”她说，“我之前已经帮你捡了柴火，也生好火了。昨天不是都跟你说过，把火炉里塞满柴火才能出去吗？”

“我是按照你说的做了呀，”卢斯特说，“我真的塞满了。”

“那柴火都去哪儿了？”

“我不知道！我可没碰。”

“哼，你现在去把炉箱装满，”她说，“装满后上楼去看看班吉。”

她关上门。卢斯特向柴堆走去。那五只松鸦在屋子上方盘旋着、尖叫着，就又落桑树上了。他看着这些鸟儿，拿起一块石头，朝它们扔去。“喔，”他说，“哪儿来滚哪儿去吧，还没到星期一呢。”

他抱着小山似的一摞柴火。看不见前面的路，跌跌撞撞地走到台阶前，走上台阶，摇摇晃晃地撞在了门上，柴火掉了一地。黛西走过来，给他打开门，他跌跌撞撞地穿过厨房。“你啊，卢斯特！”她朝他大喊，但他已经将柴火都扔进了炉箱内，发出了一阵震耳欲聋的轰隆声。“哎！”他说。

“你是想把整个房子里的人都吵醒吗？”黛西说，她用手掌拍了一下他的后脑勺，“上楼去吧，赶紧给班吉穿好衣服。”

“遵命。”他说。他朝门口走去。

“你准备上哪儿去呢？”黛西说。

“我想我最好还是走正门进去，免得吵醒卡罗琳小姐她们。”

“你按我说的走后面的楼梯上去，给班吉穿好衣服，”黛西说，“现在就去吧。”

“遵命，”卢斯特说。他走回来，从餐厅门口出去。过了一阵儿，门也不再扇动了。黛西准备开始做饼干。她一边在案板上抖动着筛子，一边唱着歌，起初只是小声地哼着，没有什么曲调，也没有歌词，只是一种重复、悲哀、幽怨而又朴实的调子，细细的面粉像雪花一样纷纷扬扬地落在案板上。房间里已经有些暖意了，火炉里的柴火噼里啪啦地响着。这时，她哼得更大声了，仿佛她的声音也随着温度的上升而解冻了，然后，康普生太太在屋子里又开始呼唤她了。黛西抬起头，仿佛她那双眼能穿透墙壁和天花板，看到那个老女人穿着睡袍站在楼梯口，机械地声声呼唤着她的名字。

“哦，天哪，”黛西说。她放下筛子，撩起围裙擦了擦手，从椅子上拿起刚放在上边的热水袋，水壶现在已经开始冒出热气了，她将围裙覆在壶把周围。“等会儿，”她喊道，“水刚开始烧热。”

不过，康普生太太这次不是要热水袋，黛西像抓着一只死鸡脖子一样，拎着热水袋走到楼梯口，向上看着。

“卢斯特是不是在楼上的房间里呢？”她说。

“卢斯特一直没进来过，我一直躺在这里听他的声音，我知道他晚点才会到，但我希望他能及时过来，免得班吉明吵醒杰生，杰生一周也

就只有这一天能睡个好觉。”

“您一大早就站在楼梯口喊叫，还指望谁能睡好觉吗？”黛西说，她费劲地爬上楼梯，“半个小时前我就让他上楼去了。”

康普生太太看着她，一手紧紧拽着下巴下面的睡袍。“你准备干什么去呢？”她问。

“给班吉穿好衣服，带他到厨房来，他就不会吵醒杰生和昆汀了。”黛西说。

“你还没开始做早餐吗？”

“我一会儿就做，”黛西说，“您还是回床上躺着吧，卢斯特一会儿就会去给您生火。今儿早上太冷了。”

“我知道，”康普生太太说，“我的脚冻得跟冰块一样凉。脚太凉了，都把我冻醒了。”她看着黛西走上楼梯，这又花了她不少时间，“你知道要是早餐时间推迟的话，杰生会发火的。”康普生太太说。

“我一次只能做一件事情，”黛西说，“您还是回床上躺着吧，要不今天早上我就有得麻烦了。”

“如果你为了给班吉明穿衣服而撂下所有其他事情，我还是自己下来做早餐吧。你又不是不知道早餐晚点杰生会有多么生气。”

“谁会吃您做的早餐呢？”黛西说，“您倒说说看。还是赶紧回去吧。”她边说边费劲地往上爬。康普生太太站在旁边看着她，她一手扶着墙，一手提着裙摆。

“你打算就为穿个衣服而把他叫醒吗？”她说。

黛西停下来。一只脚踩着上一个台阶，站在那儿，手扶着墙，身后一束灰色的光线从窗口射进来，她一动不动地站在那儿。

“他还没睡醒吗？”她说。

“我去看时，他还没醒，”康普生太太说，“往常七点半之前他就醒了，你知道他从来不睡懒觉的。”

黛西没说什么。她不再往上走了，尽管除了一团扁圆的形体，康普生太太看不到她的正面，她还是感觉出来黛西稍稍垂下了头，就像雨中的水牛一样站着，手中提着那个空空的热水袋。

“本不该跟你说这些的，”康普生太太说，“这不是你的责任，你无须天天背负着这么多的负担。你不欠他们什么，也不欠康普生先生什么。我知道你一直都不喜欢杰生。你从来就不会掩盖自己的感情。”

黛西什么也没说。她慢慢转过身走下楼梯，她一步一步地挪动着，就像小孩一样，她的手扶着墙。“您继续回去睡吧，不用去管他，”她说，“不要再找他了。我一找到卢斯特就会让他上楼去。现在别去管他。”

她回到厨房，看着炉子，接着将围裙从头上脱下来，穿上大衣，打开门，上上下下地打量着院子。狂风肆虐，无情地吹打着她的肌肤，院子里空荡荡的，没有什么会动的生物。她小心翼翼地走下台阶，像是为了避免发生什么响声一样，绕过厨房的角落。这时，卢斯特出现在地窖门口，脸上带着一副无辜的表情。

黛西停了下来。“你干什么去了？”她问。

“没干什么呀，”卢斯特说，“杰生先生让我检查一下地窖里哪儿漏水。”

“他什么时候说过让你做的呀？”黛西说，“去年元旦，不是吗？”

“我想着趁他们睡觉的时候去检查一下。”卢斯特说。黛西走到地窖门口。他站在一旁，她探着头向下看去，只能闻到一股潮湿的泥土、霉菌和橡胶的气味。

“噢——”黛西说。她再次打量着卢斯特。他迎上她那凝视的目光，无辜而又坦白。“我不知道你又在搞什么，但这里不需要你。今天早上，你是不是跟其他人联合起来试探我？你赶紧上楼去看看班吉，听到了吗？”

“遵命。”卢斯特说。他快步朝厨房的台阶走去。

“回来。”黛西说，“趁你还没走，再给我抱一摞柴火进去吧。”

“遵命。”他说。他从她身边的台阶上走过，朝柴堆走去。过了一会儿，他再次跌跌撞撞地走到门口，金字塔似的柴火挡住了他的视线。黛西打开门，用手拽着他，指引着他穿过厨房。

“你胆敢再扔进炉箱，发出那么大的响声，”她说，“你再试试看！”

“我只能这么做，”卢斯特气喘吁吁地说，“我别无选择。”

“那你就在这儿多站会儿，”黛西说，她每次从他怀中拿下一根柴火，“你今天早上是怎么了？我让你去捡柴火，你每次抱回来的都不超过六根，你倒是省力气了。你现在又想让我做什么呢？那个戏团不是已

经走了吗？”

“是的。早就走了。”

她把最后一根柴火放在炉箱中。“现在照我之前跟你说的，上楼看看班吉去。”“在我摇吃饭铃之前，我不希望任何人站在楼梯口喊我了。你听见了吧。”

“听见了。”卢斯特说。他从摇晃着的门口出去了。黛西往火炉里又添了一些柴火，走到案板那儿，又开始唱起歌来。

房间里逐渐变得暖和起来。不久，黛西的皮肤就开始呈现出光泽了，比起柴火和卢斯特皮肤上的灰尘要好看多了。黛西在房间里来来回回地走着，收集着原材料来搭配早餐。橱柜上方的墙壁上挂着一只钟，这只钟只有一根针，一直在嘀嗒嘀嗒地响着，只有在晚上借着灯光才能看到它。不一会儿，这只钟敲了五下，就像是刚刚清过喉咙似的。

“八点了。”黛西说。她停下手里的活儿，仰起头倾听着。但除了时钟和炉火声外，什么声音也没有。她打开烤箱，看着锅里的面包，然后弯下腰来，听到有人下楼了，她停了一下。她听到脚步声穿过餐厅，然后弹簧门打开了，卢斯特走了进来，后边跟着一个体形庞大的男人，这个人身上的分子好像不愿也不会凝聚在一起，也不愿与他的骨架融合在一起。他的皮肤是死灰色的，浑身光溜溜的，身体还有点儿浮肿，那步履蹒跚的走路姿势就像是一个训练有素的熊一样。他头发花白，发丝很细。齐整整地梳向前额，就像小孩梳的童花头一样。他的眼睛清澈，有着一一种矢车菊似的淡蓝色，他那厚厚的嘴唇半张着，嘴角稍微有点儿口水。

“他冷吗？”黛西说。她在围裙上擦了擦手，伸出手去摸他的手。

“他不冷，我倒觉得有点儿冷了。”卢斯特说，“每逢复活节，天就会变冷。卡罗琳小姐说，如果你没时间给她灌热水袋，也没关系。”

“哦，天哪。”黛西说，她拉过一把椅子，放在柴火箱和炉灶之间。那个男子顺从地走过去，在椅子上坐了下来。“去餐厅看看我把热水袋放哪儿了。”黛西说。卢斯特从餐厅取来热水袋，黛西把它灌满，递给了他。“赶快送过去，”她说，“看到杰生睡醒了的话，告诉他早餐已经准备好了。”

卢斯特出去了。班坐在火炉旁。他松松垮垮地坐在那儿，除了头部，完全一动不动的，当黛西来回走动时，他用那甜美而又蒙眬的眼神看着黛西，脑袋时不时地摆动着。卢斯特回来了。

“他起来了。”他说，“卡罗琳小姐让我把热水袋放在桌子上。”他走到火炉跟前，伸开双手，掌心对着炉箱。“他也起来了，”他说，“他今儿早肯定是两只脚一块儿下地的。”

“又怎么了？”黛西说，“从这儿走开。你站在火炉前让我怎么干活儿。”

“我冷呀。”卢斯特说。

“你刚才在地窖里就应该想到会冷的，”黛西说，“杰生怎么了？”

“他说我打碎了班吉房间里的玻璃。”

“那玻璃碎了吗？”黛西说。

“他是那么说的，”卢斯特说，“他说是我打碎的。”

“他一天到晚都紧闭房门，怎么可能是你打碎的呢？”

“他说我扔石子击中了那块玻璃。”卢斯特说。

“是你做的吗？”

“不是。”卢斯特说。

“不要骗我，小子。”黛西说。

“我从来没有扔过什么石子，”卢斯特说，“你可以去问班吉。我都没看过那扇窗户。”

“那又会是谁呢？”黛西说，“他这么做还把昆汀吵醒了。”她一边说，一边从烤炉中取出一盒饼干。

“就是说嘛，”卢斯特说，“这些人真有意思。真庆幸我跟他们不一样。”

“跟谁不一样？”黛西说，“让我告诉你一些事情，小黑，你身上也有着康普生家族那种疯狂的行为。你到底有没有打碎那扇玻璃窗？”

“我没事儿打碎它干什么？”

“你做这种事情还需要什么理由吗？”黛西说，“现在看好他，免得在我摆餐桌时烫着他的手。”

她去进餐厅，他们能听到她在里边来回走动的声音，之后，她就回来了，在厨房桌子上放了一个盘子，里边放着一些吃的。班看着她，一边淌口水，一边发出一阵低微的渴望的声音。

“好了，亲爱的，”她说，“这是你的早餐。把他的椅子拿过来，卢斯特。”卢斯特把椅子搬过来，班坐了下来，一边哼叫一边流口水。黛西在他脖子周围系了一块布，用这块布的一角擦了擦他的嘴。“看看你这次能不能不弄脏他的衣服。”她说，递给卢斯特一把勺子。班不再发出哼哼声。他看着勺子一点点伸进他的嘴里。仿佛这种渴望也是受肌肉控制的，饥饿本身就是一种难以言喻的感觉，它也不知道什么是饥饿。卢斯特娴熟地喂着他，有点儿心不在焉。时不时地，他会将注意力转移过来，给班喂上一勺吃的，但是很明显能看出卢斯特的心不在焉。他的另一只手放在椅背上，在那毫无反应的椅背上试探性地轻轻移动着，像是在死寂中寻找一种无声的音符。有一次他的手指在那裂开的缝隙中拨弄出了一种无声的复杂的声音，他竟忘了给班喂食，直到班再次哼叫起来，他才意识到。

黛西在餐厅来回走动。过了不久，她就摇响了那阵清脆的铃声，后来，卢斯特在厨房中听到康普生太太和杰生下楼的声音，还听到了杰生的说话声，他翻动着白眼倾听着。

“当然，玻璃不是他人打碎的，”杰生说，“当然，我也知道可能是天气的变化把玻璃给打碎了。”

康普生太太说：“我真不明白好好的玻璃怎么会碎呢，你的房间整天都是锁着门，和你离开时一模一样，除星期天外，我们没人去过那里。我不希望你认为我会去那种我不受欢迎的地方，或者，我会允许任何其他人去。”

“我才不想去你的房间，”康普生太太说，“我尊重任何人的隐私，即使我有钥匙，我也不会踏进你的房门。”

“是的，”杰生说，“我知道你的钥匙不合适。这就是为什么我要换锁。我想知道的是，那扇窗户是怎样打破的。”

“卢斯特说不是他打破的。”黛西说。

“即使不问他，我也知道了，”杰生说，“昆汀在哪里？”

“她通常周日早上会在哪儿，”黛西说，“这几天你究竟发生了什么事？”

“是这样的，我们要改变所有这一切，”杰生说，“上楼去通知她早餐准备好了。”

“你不要去管她了，杰生，”黛西说，“她每天早上都会起来吃早餐的，卡罗琳小姐答应让她每个周日睡懒觉，你是知道的。”

“即使我愿意，我也养不起一屋子的黑人，专门供她随意支配，”杰生说，“去告诉她下来吃早餐。”

“不是没有人伺候她，”黛西说，“我把她的早餐放在保温炉里了，等她——”

“你听到我说什么了没？”杰生说。

“我听见了，”黛西说，“只要你在家，我就一直在听你唠叨。不是对昆汀就是对你妈妈，不是对卢斯特就是对班吉。你怎么能任由他这么做呢，卡罗琳小姐？”

“你最好按他的指示去办，”康普生太太说，“他现在是一家之主，他有权利要求我们尊重他的意愿。我在尝试着这样做，如果我能做到，

那么你也能做到。”

“他脾气那么坏，硬要按照自己的想法把昆汀叫起来，这也讲不通，”黛西说，“也许你还会认为是她打破了那扇窗户呢。”

“只要她想，她绝对会做得出来，”杰生说，“你去，就照我说的去做。”

“即使是她做的，我也绝对不会怪她，”黛西一面说着，一面朝楼梯走去，“你一回到家，就对她唠叨个没完。”

“少说点儿吧，黛西，”康普生太太说，“不应该由我或你去告诉杰生该怎么做。有时候，我觉得他的做法不对，但是为了顾全大局，我会尝试着去服从他的愿望。如果我身体健康，能够下楼来吃饭，昆汀应该也可以。”

黛西出去了。他们听到她爬楼梯的声音。她爬了很长一段时间。

“你真应该给你的用人颁发个特别奖，”杰生说，他给他的母亲和自己盛了点食物，“你有没有做过一些值得做的事情？在我懂事前，你一定有过一些经历吧。”

“我不得不迁就他们，”康普生太太说，“我完全依赖于他们，要是我身体能健康点儿，就不是这种情况了，我真希望自己能够变得强大一点儿。我就能一个人做完所有的家务。至少可以给你减轻一些负担。”

“要是那样的话，我们家就要变成一个猪圈了，”杰生说，“快点，黛西。”他喊道。

“我就知道你会责怪我的，”康普生太太说，“因为今天我让他们去

教堂了。”

“去哪里了？”杰生说，“难道那场该死的表演还没结束吗？”

“是去教堂了，”康普生太太说，“黑人今天要举办一场特殊的复活节仪式。我两周前就答应黛西让他们去了。”

“这是不是意味着我们今天要吃冷饭冷菜了，”杰生说，“或者什么都吃不上了？”

“我知道这是我的错，”康普生太太说，“我就知道你会责怪我的。”

“为什么会怪您呢？”杰生说，“又不是您让耶稣复活的，不是吗？”

他们听到黛西登上最后一级台阶，然后听到她缓慢地挪动脚步的声音。

“昆汀。”她说。当她叫第一声时，杰生放下了手中的刀叉，他恰巧坐在他母亲对面，两个人姿势一模一样：一个人冷酷精明，前额处有两个卷曲着的棕色发卷，就像是漫画中的调酒师，淡褐色的眼睛周围有一圈黑色环状虹膜，活像两颗弹珠一样；另一个人冷酷而又牢骚满腹，头发花白，眼袋松弛，眼神迷惑，眼珠漆黑，仿佛全是瞳孔。

“昆汀，”黛西说，“起床吧，亲爱的。他们都在等你开饭呢。”

“我真不明白那个窗户怎么会打破了呢，”康普生太太说，“你确定是昨天被打破的吗？也许一直都是那样，只是天气暖和了，上边的窗框被树荫遮住了，以前没发觉而已。”

“我已经跟您说过多少遍了，就是昨天发生的，”杰生说，“难道我

还不了解我住的房间吗？您认为我可以在里边睡了一个星期，窗口上有一个手都能伸进去的洞……”他的声音停住，并逐渐消失了，他盯着他的母亲，有一瞬间，那双眼睛里空无一物。好像他的眼睛也会屏气凝神一样。他的母亲也看着他，她面部肌肉松弛，爱发牢骚，狡黠而又愚钝。他们就这样坐着，又听见黛西说：“昆汀，别跟我玩儿了，亲爱的，快去吃早餐吧，大家都在等着你呢。”

“我真是搞不懂，”康普生太太说，“好像有人要试图闯入房子里一样——”杰生跳了起来。他的椅子应声倒地。“什么——”康普生太太说，她双眼盯着他，只见他从她身边跑了过去，跳上楼梯，在那儿碰到了黛西，他的脸被黛西遮住了。黛西说：“她正不高兴呢，你妈妈还没打开房门上的锁——”杰生走过她身边，沿着走廊，走到门口。他没敲门。他抓住门上的旋钮，试了一下，然后他站在那里，手里握着旋钮，头微微前倾着，仿佛在听里边有什么声音似的，他真的听到了什么。他那一副装模作样的表情，就像是在欺骗自己，使自己相信他所听到的事情一样。

康普生太太登上楼梯，一边向他走去，一边呼唤着他的名字。这时，她看见了黛西，她就不再喊了，开始叫着黛西。

“我跟你说了，她还没打开房门的锁呢。”黛西说。

当她说话时，杰生转过身，朝她跑来，不过，他的声音却很平静，不带任何感情。“她拿着钥匙吗？”他说，“她这会儿身上有钥匙吗？我是说，她会不会……”

“黛西。”康普生太太站在楼梯上喊道。

“是哪个？”黛西说，“你怎么不让……”

“钥匙，”杰生说，“那个房间的钥匙。她不是一直都随身携带着吗？”这时，他看见了康普生太太，他走下楼，见到她。“把钥匙给我。”他说。他伸手向她那锈黑色睡衣的衣兜里摸索着。她抗拒着来回扭动着。

“杰生，”她说，“杰生！你和黛西是想把我再次送上病榻吗？”她边说边试图去挡开他的手，“你就不能让我安安静静地过个周日吗？”

“给我钥匙，”杰生边说边在她身上摸索着，“马上给我。”他回头看了一眼那扇门，仿佛希望那扇门能在他拿到钥匙之前砰的一声打开似的。

“你快来呀，黛西！”康普生太太一边说，一边紧紧地抱着胸前的睡衣。

“把钥匙给我，你这个疯婆子！”杰生突然大声叫喊起来。他从她的衣兜里掏出一大串生锈的钥匙，这些钥匙是用一个铁环串起来的，就像是中世纪狱卒拿的钥匙一样。他跑回走廊中，留下那两个女人跟在他后边。

“你，杰生！”康普生太太说。“他永远也找不到适合的钥匙。”她说，“你知道，我从来不会让任何人拿走我的钥匙，黛西。”她边说边开始号啕大哭。

“别哭了，”黛西说，“他不会把她怎么样的。我不会让他那么做的。”

“但是，这是周日的早晨，又是在我自己家里，”康普生太太说，“我含辛茹苦地按照基督教的信条将他们养大。让我给你找出是哪

把钥匙吧，杰生。”她说。她把手搭在他的胳膊上，然后开始和他争夺起来，但他胳膊一甩，就把她甩到了一边，他还转过头来看了她一眼，眼神冷冰冰的，充满怒火，然后，他拿着那串沉重的钥匙再次走到了门口。

“别争了，”黛西说，“你怎么能这样，杰生！”

“大事不好了，”康普生太太说着，又号啕大哭起来，“我就知道会是这样，你呀，杰生，”她说，再次去抓着杰生，“他甚至不让我找到自己房间的钥匙！”

“就这样吧，就这样吧，”黛西说，“会出什么事儿呢？我就在这儿呢。我不会让他伤害她的。昆汀，”她提高了嗓音说道，“你不要害怕，亲爱的，我就在这儿呢。”

门打开了，他推开门，在那儿站了一会儿，挡住了门口，然后就走进去了。“进去吧。”他操着厚重的嗓音轻轻地说。他们走了进去，这不像是一个姑娘家的房间。也不会是其他人的房间，房间里有股淡淡的廉价化妆品的清香，还有几件女士用品，那些想使这个房间显得女性化的证物很拙劣，徒增了一些不明因素，有种幽会时的房间那种了无生趣、古板老套的气氛。床铺得很平整。地板上扔着一件穿过的内衣，是一件廉价的丝绸质的浅粉色内衣，半开的抽屉中垂着一条丝袜。窗户敞开着。外边是一棵梨树，紧靠着这间房子。梨花盛开着，树枝擦过房屋，发出沙沙的响声，在窗外涌进一股股空气，带着凄凉的花香。

“现在看到了吧，”黛西说，“我不是告诉过你她没事儿吗？”

“没事吧？”康普生太太说。黛西跟着她进了房间，拉了一下她。

“您赶紧回去躺着，”她说，“我十分钟之内把她找回来。”

康普生太太甩开她的手：“找找有没有纸条，”她说，“昆汀那次就是留了一张纸条。”

“好的，”黛西说，“我会去找的，您赶紧回自己房里去吧。”

“就在他们给她取名为昆汀时，我就知道会发生这种事的。”康普生太太说。她走到写字台前，开始翻那七零八散的东西——香水瓶、一盒粉饼、一支削过的铅笔、一把断了刃的剪刀，剪刀放在一条补过的头巾上，上边撒落着香粉，还有口红印。“找找纸条。”她说。

“我正在找呢，”黛西说，“您快走吧，我和杰生会找到纸条的。赶紧回您屋里去吧。”

“杰生，”康普生太太说，“杰生在哪儿呢？”她走到门口。黛西跟着她穿过大厅，走到另一扇门跟前。这扇门关着。“杰生，”她在门外喊着。没有人回答。她转了转旋钮，又开始喊起来。但是仍然没人回应，因为他正在衣柜里往外拖东西呢，衣服，鞋子，还有一个手提箱。然后他拉着一个截过的舌槽铺板出来了，他把它放在地上，再次钻进了衣柜，这次他拿了一个小铁箱出来了。他把箱子放在床上，站在那儿看着那被撬过的锁眼，从衣兜里掏出那串钥匙，从里面挑出了一把。他手里拿着那把钥匙，站了好长一会儿，一直看着那破损的锁眼。然后他把钥匙放回衣兜里，小心翼翼地将箱子里的东西倒在床上。他仔细整理着那些纸条，每次只拿起一张，在面前晃晃。然后，他把箱子竖起来，也晃了几下，然后慢条斯理地将那些纸条放回去，又站在那儿，双手托着箱子，头低垂着，看着那个锁眼。窗外，他听到一些松鸦掠过窗子飞走了，它们的叫声在被风吹散，他还听到汽车驶过的声音也逐渐远去了。

他的母亲隔着门又开始叫他的名字了，可他还是一动不动。他听到黛西领着她走向大厅，然后门关上了。他把箱子重新放回衣橱里，又把衣服都扔了进去，下楼去打电话。他把听筒搁在耳边等待着，黛西下楼了。她朝他看了一下，没有停下脚步，继续往前走了。

电话接通了。“我是杰生·康普生，”他说，他的声音沙哑厚重，他只得又重复了一下自己的名字，“杰生·康普生，”他控制着自己的嗓音说着，“准备好一辆车，带上一位副手，如果十分钟内到不了，我会去的——什么？抢劫。我们家，我知道是谁抢劫，准备好车吧——什么？你难道不是拿政府薪水的执法者——好吧，我五分钟内就到。准备好车，我们随时准备出发。如果你临阵脱逃了，我向乡州长告发你。”

他放下听筒，穿过餐厅，餐厅桌子上那些剩饭已经放凉了，他走进厨房。黛西正在灌热水袋。班静静地、淡然地坐在她旁边。班旁边坐着卢斯特，他看上就像是一只机警聪明的小狗，正在吃着什么东西。杰生穿过厨房继续往前走。

“你早饭什么都不吃吗？”黛西说。他没有理会她。“去吃点儿早餐吧，杰生。”他继续往前走，通往院子的那扇门在他身后重重地关上了。卢斯特起身走到窗前，向外望去。

“哦，”他说，“发生了什么事？是他打了昆汀小姐吗？”

“闭上你的嘴巴，”黛西说，“你要是现在和班吉打起来，我会揍扁你的脑袋。你在这儿好好看着他，我一会儿就回来。”她拧上热水袋的塞子，走了出去。他们听到她走上楼梯，接着就听到杰生开着车走了。除了水壶的咝咝声和钟表的嘀嗒声，厨房里再也没有别的声响了。

“你知道我是怎么想的吗？”卢斯特说，“我敢打赌他准是打了她，

我猜她头部受伤了，他现在是在去医院了。我就是这么想的。”时钟嘀嘀嗒嗒地响着，显得庄重而又深沉。可能这座衰败的老房子本身就已经气血不足了，就一会儿的时间，它就嘎吱作响了六次，仿佛是在清它的嗓子。班抬头看了一眼，然后看了看窗前卢斯特那颗子弹般的头，他又开始摇头晃脑起来，嘴角淌着口水。他开始呻吟。

“闭嘴，你这个疯子，”卢斯特头也不回地说了一声，“看样子我们今天去不成教堂了。”但是，班还是坐在椅子上，他那双又大又软的手耷拉在两膝之间，发出低低的呻吟声。突然间他就哭了，那是一种毫无意义、持续不断的吼叫声。“闭上你的嘴巴，”卢斯特说，他转过身来挥了挥他的拳头，“你是想让我揍你吗？”但是，班看着他，每吸一口气就会哼一声。卢斯特走过来晃着他。“你立马给我闭嘴！”他喊道，“过来。”他将班从椅子上拽起来，将椅子拖到炉火跟前，打开炉门，把班往椅子上一推。他们就像是在用一只小船将一艘笨重邮轮拖进狭窄的码头。班坐下来，面对着火红的炉膛。接着他们听见钟声又响起来了，黛西慢吞吞地走下楼梯。当她进来时，班又开始呜咽起来。然后，又提高了嗓门。

“你怎么他了？”黛西说，“什么时候不可以，你为什么就偏偏要让他今天早上不得安生呢？”

“我什么也没做呀，”卢斯特说，“杰生先生吓到他了，就是那么回事。他没有杀死昆汀小姐，对吗？”

“别哭了，班吉。”黛西说。他安静下来。她走到窗前向外望去。“不下雨了吗？”她说。

“是的，”卢斯特说，“早就不下了。”

“那你们出去玩儿会儿吧。”她说，“我刚让卡罗琳小姐安静下来。”

“我们还去教堂吗？”卢斯特说。

“到时候我就会告诉你们的。我不叫你，你也别带他进来。”

“我们能去牧场吗？”卢斯特说。

“好吧，只要你不让他靠近这个房子。我算是受够了。”

“好的，”卢斯特说，“杰生先生去哪儿了，妈咪？”

“又不关你的事，是不是？”黛西说，她开始收拾桌子，“小点声，班吉。卢斯特马上会带你出去玩的。”

“他把昆汀小姐怎么样了，妈咪？”卢斯特说。

“没有怎么样。你们都赶紧出去。”

“我敢打赌，她不在家里。”卢斯特说。

黛西看着他：“你怎么知道她不在家里？”

“昨天晚上，我和班吉看见她从窗口爬出去了。是不是呀，班吉？”

“你真的看见了吗？”黛西盯着他说。

“我们每天晚上都能看见她从窗口爬出去，”卢斯特说，“就落在那棵梨树下边。”

“你可不要骗我，小黑。”黛西说。

“我没有说谎，你可以问问班吉我说的是不是真的。”

“你以前为什么就没说过呢？”

“这又不关我的事，”卢斯特说，“我可不愿搅和进白人的是非中。咱们走吧，班吉，咱们到外边玩儿去。”

他们出去了。黛西在餐桌旁站了一会儿，然后她就去餐厅清理那些吃剩的早餐，她自己也吃了点儿东西，又收拾了一下厨房。然后，她脱掉围裙，把它挂起来，走到楼梯口，侧着耳朵听了一会儿。楼上一点儿声音也没有。她就穿上大衣，戴上帽子，穿过院子回到她的小茅屋中去了。

雨已经停了。从东北方向刮来一阵清新的风。头顶上方出现了片片蓝天。阳光透过小镇的树木和屋顶，照在山尖上，就像是一块白布，逐渐褪去了颜色。这时，空中传来一阵钟声，仿佛一个信号般，其他钟声也纷纷紧随而至。

小茅屋的门打开了，黛西走了出来，她还是穿着那件紫色的长裙，披着栗色的披肩，戴着一双脏兮兮的及肘长的白手套，这回她没有戴头巾。她来到院子里，呼喊着重卢斯特。她等了一会儿，然后向大宅子走去，绕过宅子走到了地窖门口，她紧贴着墙壁，朝门里望去。班坐在台阶上。卢斯特蹲在他前面那潮湿的地板上。他左手拿着一把锯，受到手的压力，锯齿有点弯，他正在用一把旧木槌敲打着锯齿。这个木槌是黛西用来做饼干的，她已经用了三十多年了。每敲打一下，锯尺就会发出一种有气无力的声音，随即就一片死寂。只见锯齿在卢斯特的手掌和地面划出一道弯曲的弧线。真是不可思议。

“那个人也是这么敲击的，”卢斯特说，“我只是没有找到适合的敲

击工具。”

“这就是你干的好事儿吗，是不是？”黛西说，“把我的木槌还给我。”

“我又没有弄坏你的小木槌。”卢斯特说。

“把它拿过来，”黛西说，“锯子是从哪儿拿的还放回哪里去。”

他把锯子放在一边，把木槌递给她。班又开始大哭大闹起来，绝望地哀号着，那声音拖得很长。这并不算是是什么。只是一种声音而已。这种声音可能自古以来就存在，在行星汇合的那一瞬间不公正和悲伤也就成为了一种声音。

“你听他，”卢斯特说，“从你把我们赶出房子以来，他就一直这样。我真不明白他今天早上是怎么回事。”

“把他叫过来吧。”黛西说。

“过来，班吉。”卢斯特说。他走下台阶，拉住班的手臂。班吉乖乖地跟过来了，还在哀号着，就像是船舶发出的那种低沉沙哑的声音一样，似乎在这种声音发出以前就已经存在了，还没等这种声音结束就已消失了。

“你回去把他的帽子拿过来吧，”黛西说，“别发出声音来，吵到卡罗琳小姐。快点儿，现在就去吧，咱们已经晚了。”

“如果你不想办法让他停下来，她不管怎样还是会听到的。”卢斯特说。

“只要一走出这个地方，他就会停下来的，”黛西说，“他闻到了。就是这么回事。”

“闻到什么了，妈咪？”卢斯特说。

“你快去把他的帽子拿来。”黛西说。卢斯特就走了。他们站在地窖门口，班站在下面的一级台阶上。天空中飘浮着朵朵云彩，它们的阴影轻快地移动着，移出了这个破败的花园，穿过破篱笆和院子。黛西抚摸着班的头，动作缓慢而平稳，她抚平他前额的头发。他的哀号声平静下来，也不那么仓促了。“不哭了，”黛西说，“不哭咯，咱们马上就走了，不哭咯。”他安静、平稳地低声哼着。

卢斯特回来了，戴着一顶周围有一圈花饰的挺括的新草帽，手里还拿着一顶布帽。那顶帽子似乎太大了，卢斯特的头骨都没有贴着帽子，就像聚光灯一样打在他的头上。乍看之下，真的很独特，就像这顶帽子是戴在紧贴着卢斯特身后的另一个人的头上一样。黛西打量着那顶帽子。

“你怎么不戴你那顶旧帽子呢？”她说。

“我找不到了。”卢斯特说。

“当然找不到了。我敢肯定你昨晚一定是把它藏起来了，你就是想要毁掉这顶新帽子。”

“噢，妈咪，”卢斯特说，“天又不会下雨。”

“你怎么知道呢？你去戴上那顶旧帽子，把这个新帽子放回去。”

“噢，妈咪。”

“那你去拿把伞过来。”

“噢，妈咪。”

“你随便，”黛西说，“要不回去戴上旧帽子，要不就拿把雨伞代替旧帽子。我才不管你呢。”

卢斯特朝小茅屋走去。班轻轻地哼着。

“咱们走吧，”黛西说，“他们会赶上我们的。咱们先去听他们唱诗。”他们绕过房子，朝门口走去。当他们走上车道，黛西不时就会说一声“别哭了”。他们走到大门口。黛西打开门。卢斯特拿着伞沿着车道赶上来了。有一个女人跟他一块儿来了。“他们来了，”黛西说。他们走出大门。“好了，不哭了。”她说。班停止了哭泣。卢斯特和他的母亲赶上来了。弗洛尼穿着一件天蓝色的丝绸衣服，帽子上插着花。她瘦瘦小小的，长着一张扁平的脸，那张脸看上去很和善。

“你身上穿的衣服可是六个星期的工作换来的，”黛西说，“要是下雨了，你该怎么办呢？”

“淋湿就淋湿了呗，”弗洛尼说，“老天爷要下雨，我哪能挡得住。”

“妈妈总是说会下雨。”卢斯特说。

“要是我不为你们操心，谁还会为你们操心，”黛西说，“赶紧走吧，咱们都已经晚了。”

“今天是希古克牧师给我们布道。”弗洛尼说。

“是吗？”黛西说，“他是谁？”

“他是从圣路易来的，”弗洛尼说，“是一个大牧师。”

“噢，”黛西说，“他们就需要这样一个人，能让这些黑人小子对上帝产生敬畏心理。”

“希古克牧师就能做到这一点，”弗洛尼说，“大家都是这么说的。”

他们继续沿着街道往前走。沿着这条寂静的街道，一群衣着鲜明的白人伴随着钟声朝着教堂方向走去，时不时地会脱离队伍，试探着走在阳光下面。狂风从东南方向吹来，刚经历过暖和的天气，这股风让人觉得又冷又寒。

“我真希望你不要老带着他去教堂，妈咪。”弗洛尼说，“人们都在议论纷纷呢。”

“谁议论了？”黛西说。

“我听到他们议论了。”弗洛尼说。

“我很清楚那都是些什么人，”黛西说，“垃圾的白种人。就是这种人。他们认为他不配进入白人教堂，他们也不配进入黑人教堂。”

“他们差不多就是这么议论的。”弗洛尼说。

“让他们到我跟前来说，”黛西说，“我会告诉他们仁慈的上帝才不会管你聪明还是愚钝呢。除了垃圾的白种人，没有人会在意的。”

有条道路在前边直角处拐弯了，顺着这条路往下走，你会看到一条土路。路两边的坡度越来越陡；道路尽头，出现了一片开阔的平地，上面零星点缀着几个小木屋，那些饱经风霜的屋顶和路面一般高。小木屋

坐落在寸草不生的土地上，地上随便堆放着一些破破烂烂的东西，砖头、木板、瓦罐等一些曾经很有价值的东西。只有一些杂草在那片土地上，还有一些桑树、刺槐和梧桐树——这些树木为房子周围散发出的恶臭味也做出了一定的贡献；这些树发芽的时期也是在凄凉萧索的九月份，春天从它们身边一掠而过，就把它们交给黑人贫民区了，好让它们从这种丰富和独特的气味中吸收营养。

当他们经过他们门前时，那些黑人和他们打了声招呼，通常是跟黛西寒暄两句：

“吉卜生大姐，您今天早上过得可好？”

“我挺好的，谢谢你。”

黑人从小木屋里走出来，费劲地爬上他们共有的路堤上——男人穿着古板的褐色或黑色的衣服，戴着金表链，不时还会有人拿着手杖走过来；年轻男子则穿着廉价的，有点夸张的蓝色或条纹状的衣服，戴着时髦的帽子；妇女穿着硬邦邦的衣服，走起路来沙沙作响；孩子们则穿着从白人那里买来的二手衣服，他们用那种夜行动物般偷偷摸摸的眼神看着班：

“我敢打赌你不敢走上去碰他。”

“你怎么知道我不敢？”

“我敢打赌，你不敢，你害怕他。”

“他不会伤人，他只是一个傻子。”

“傻子就不会伤人了吗？”

“他不会的，我以前碰过他。”

“我敢打赌，你现在不敢碰他。”

“因为黛西小姐在看着呢。”

“你绝对不敢去碰他。”

“他不会伤人，他不过是一个傻子。”

不时有一些上了年纪的人来跟黛西说几句话，不过，除非是年纪很大的人，黛西才允许弗洛尼跟他们说上几句话。

“妈咪今天早上身体不太舒服。”

“那太糟糕了。不过希古克牧师会给她治好的。他会安慰他，帮她解除负担。”

道路的坡度越来越陡，就像是背景图中描绘出来的景象一样。在那片种满橡树的红土地上，道路像是从中间被截断了，就像是一条剪断的丝带一样。路旁是一座饱经风霜的教堂，那古怪的尖顶俨然是画作中描绘的教堂，整个景象就是将一张画板放置在一片平坦的空地边缘，上面都是一些平面的景观，没有任何棱角可言，背景是四月的晴空，是一个多风的天气，还不到晌午时分，空中伴随着阵阵钟声。人们迈着缓慢、庄重的步伐涌向教堂，妇女和孩子们径直走了进去，男人们则停在门口，围成一圈轻声交谈着，直到钟声停了下来，他们才往教堂中走去。

教堂内部已然经过装饰，稀稀落落地摆放着从厨房后的菜园和灌木丛中采摘的鲜花，还悬挂着绉纸彩带。讲坛上方吊着一个纸糊的圣诞铃，像手风琴一样可折叠起来。讲坛上空无一人，合唱团已经到位，虽

然天气不热，他们还是在扇着风。

大多数妇女聚集在教堂一侧。她们叽叽喳喳地交谈着。这时，钟敲响了一下，她们散开回到自己的座位上。会众们坐了一会儿，怀着期待的心情等待着。钟再次敲响了一下。唱诗班站了起来，会众同时把头转过去，只见六个小孩走了出来——其中有四个小女孩，马尾辫上都系着蝴蝶结，还有两个留着短发的小男孩，他们走上讲坛，白色的绸带和鲜花把他们结合成一体，身后跟着两个拿着文件夹的男人。第二个人身躯魁梧，浅咖啡色皮肤，穿着礼服，系着白色领带，庄重而威严。光看他的头就感觉很大众化可他仍然很威严，很有思想，衣领之上露出他的脖子，脖子上的肉层层堆叠着。会众们都认识他，当他走过去时，大家的脖子仍然来回扭动着，直到唱诗班停止歌唱，他们才意识到，来访牧师已经到来，当他们看到走在牧师前面的那名男子时，他现在仍然站在他的前面，会众席爆发出了的一种难以形容的声音，有叹息，有惊讶，还有一些失望。

来访牧师身材矮小，穿着一个破旧的羊驼呢大衣。那张干瘪黝黑的脸犹如瘦小的老猴子的脸一样。唱诗班再次开始了合唱，而六个孩子也站了起来，发出各种尖锐、胆怯、不和谐的音调，他们看着这个不起眼的男子坐在魁梧伟岸的牧师旁边，相比之下，他显得矮小而又土气。当牧师站起来用一种深沉、起伏的语调介绍这个人时，会众还是有点惊愕地打量着他，眼睛里露出不信任的光芒。牧师热情的语调更显得旁边的这个人微不足道了。

“他们还是从圣路易请来的呢。”弗洛尼低声说。

“我还知道比这更古怪的。”黛西说，“别吵了，”她对班说，“他们马上又要开始唱歌了。”

当来访者起身发言时，他的口音听起来像是个白人，平淡而又冷漠。听起来不像是从他嘴里说出来的话。起初，大家抱着好奇的心态听着，就像是在听猴子说话一样。后来开始以一种看人走钢丝的眼光瞧着他。看着他以一种冷漠、毫无变化的音调在钢丝上来回跑动，摆出各种姿势，俯身跳下钢丝，他们甚至忘了他微不足道的外表。最后，当他俯冲下来，将一只胳膊放在胸前的讲桌上时，他那猴子似的身躯就像木乃伊或是一只空船一样一动不动时，会众这才松了一口气，在座位上挪动了一下身躯，好像是刚刚集体做了一场梦一样。讲坛后边，合唱团不紧不慢地扇着扇子。黛西低声说：“别吵了，他们马上又要唱歌了。”

这时，一个声音响起了：“弟兄们。”

牧师一动不动。他的手臂横放在桌子上，当这个铿锵有力的声音透过墙壁产生的回声逐渐消失时，他还是保持着那个姿势。这声音与他之前的声音相比，简直是天壤之别，像是一只中音喇叭，有种悲伤、忧郁的感觉，深深地嵌入他们的内心深处，当回声逐渐消散时，那种感觉还在他们心中回荡着。

“弟兄们，姐妹们。”那声音又响起了。牧师移开了他的手臂，开始在讲桌前来回走动，他将双手背在身后，瘦小的身躯微驼着，就像是长期在无情的土地上苦苦挣扎的人一样。“我将永远铭记羔羊的鲜血！”他在彩纸和圣诞钟下迈着稳重的步伐踱来踱去，身躯微驼，双手紧握在身后。他就像一块被一波波的声浪磨平了棱角的小石头。很像是在用他的躯体来维系着他的声音，他的声音像女妖一样咬啮着他的内心。会众仿佛亲眼看见那声音逐渐将他吞噬，直到他消失不见了，他们也消失了，甚至连那声音也消失了，只剩下他们的心灵用着吟唱的节奏互相交谈着，无须任何言语，所以，当他又靠在讲桌前时，他那张猴子似的脸抬起来了，他的整个身躯就像是一个安详、受难的形象，人们再也想不起

那种有失体面、无足轻重的感觉了，会众们长长地出了一口气，一个妇女用尖锐的声音喊道：“是的，耶稣！”

随着头顶的乌云飘过，昏暗的窗户明亮了一阵后，就又陷入阴森森的昏暗中了。一辆汽车驶过，在沙地中费力地前行着，声音逐渐消失殆尽。黛西笔直地坐着，她的手放在班的膝盖上。眼泪顺着脸颊不停地流淌，在牺牲、放弃和时光折射出的无数的幻影中进进出出。

“弟兄们。”牧师用沙哑的声音低声说着，身体一动不动。

“是的，耶稣！”那个女声再次喊道，这次声音放低了许多。

“弟兄们，姐妹们！”牧师的声音再次响起，这回是中音喇叭的声音，他把手臂从讲台上移开，笔直地站着，举起双手，“我将永远铭记羔羊的鲜血！”会众没有意识到他的声音和语调不知道在什么时候变成了黑人特有的音调，他们只是坐在座位上轻轻地晃动着身躯，因为他的声音摇晃起来，他的声音感染了他们。

“在漫长、寒冷的岁月里——哦，我告诉你们，弟兄们，在漫长、寒冷的岁月里——我见到了光明，我见到了神谕，可怜的罪人啊！他们死在了埃及，那一辆辆摇摇晃晃的马车；那些逝去的一代又一代的人。富人而今安在，哦，弟兄们啊？穷人而今又安在，哦，姐妹们啊？哦，我告诉你们，在漫长、寒冷的岁月中，如果没有救命的牛乳和甘露，你们该怎么办呢！”

“是的，耶稣！”

“我告诉你们，弟兄们，我也告诉你们，姐妹们，这一天终究会到来的。可怜的罪人说：让我躺在主的身边吧，放下一切罪恶。耶稣会

说：哦，兄弟们啊？哦，姐妹们啊？你们是否记得羔羊的鲜血？因为我不想让天堂承受太多的罪恶！”

他外套里摸索着，拿出一个手帕，擦了擦脸。会众们异口同声地说：“阿门。”那个女声又再次响起：“是的，耶稣，耶稣！”

“弟兄们！看看坐在那里的孩子们。耶稣曾经也像他们一样。他的母亲承受了荣耀与痛苦。那一天，夜幕降临，她把耶稣放在夜空下，天使们唱着歌给他催眠；她向外看去，看到了罗马警察从旁边经过。”他边来回踱步，边擦着脸，“听我说，兄弟们！我见证了那一天的到来。玛利亚将耶稣放在膝上，那是小时候的耶稣，就跟这里的孩子们一样。我听见天使们在歌唱和平与荣耀；我看到了那双紧闭的眼睛；看到玛利亚跳起身来，看到士兵们的脸：我们要杀人！我们要杀人！我们要杀小耶稣！我听到了那可怜母亲的哭诉，因为她得不到主的拯救。”

“阿门！耶稣啊！小耶稣啊！”这时，一个声音响起：“我看到了，哦，耶稣！哦，我看到了！”还有另一个声音，没有任何言语，就像水中升起的气泡。

“我看到了，兄弟们！我看到耶稣了！看到那闪闪发光、让人震惊的景象了！我看到髑髅地，那里有圣树，看到了小偷、凶手和最卑鄙的人；我听见了那些狂言狂语：如果你是耶稣，为什么不把你的十字架扛起来背着走呀！我听见妇人在夜间哭泣和哀号；我听见了啜泣声和哭泣声，听见上帝别过脸说：你们杀死了耶稣；你们真的杀死了我的儿子！”

“阿门！耶稣！我看见了，耶稣啊！”

“盲目的罪人啊！兄弟们，我告诉你们；姐妹们，我跟你们说，当

上帝转过他那张无所不能的脸时，他说：我不想让天堂承受过重的负担！我看见上帝关上了他的那扇门；我看见洪水泛滥其中；我看见了代代传承的黑暗与死亡。接下来呢，瞧！兄弟们！是的，兄弟们！我看到了什么？我看到了什么，哦，那是罪人？我看见了复活与光明；看见温顺的耶稣说：他们杀死了我，你们才能复活；我死去，是为了看见那些永远不会死去的人。弟兄们啊，哦，弟兄们！我见到了末日的霹雳，也听见了金色的号角，吹响了天国的福音，那些铭记羔羊鲜血的死者将会复活。”

会众纷纷议论起来，班坐在那儿，眨着他那双温柔的蓝眼睛。黛西笔直地坐着，低声抽泣着，她还在为那些受难的人难过，以及那些铭记羔羊鲜血的人。

当他们走在正午明亮的阳光下，走上那条沙砾土地上时，散会的会众们又围成一个个圈子开始轻松地讨论着，黛西还在哭泣，无心跟他们谈话。

“他真是一个伟大的布道者，天啊！刚开始怎么也不像，但是后来真让人惊讶！”

“他看见了权力和荣耀。”

“是的，真了不起。他看见了。他亲眼见证了。”黛西没有出声，泪水顺着脸庞淌下来，而脸上的肌肉却没有颤抖。

她昂起头走着，甚至不去擦干泪水。

“您这是干什么，妈咪？”弗洛尼说，“所有人都会看着我们。我们很快就回到白人居住区了。”

“我看见了初，也看见了终，”黛西说，“你别管我。”

“什么初什么终的？”弗洛尼说。

“你别管，”黛西说，“我最先看到了初，现在我看到了终。”

在他们走上街道之前。她还是停下了脚步，撩起裙摆，用最里面的裙裾擦了擦她的双眼。然后，他们就继续往前走了。班摇摇晃晃地走在黛西旁边，看着走在前边不时伴着鬼脸的卢斯特，他手里拿着雨伞，那顶新草帽斜戴在头上，在阳光的照射下，活像一只傻乎乎的大狗在看一只机灵的小狗。他们走到家门口，进去了。班马上又开始呜咽起来，他们所有人都朝着车道尽头那栋大宅望去，那栋房子方方正正的，油漆已经脱落了，门柱也摇摇欲坠。

“今天有没有发生什么事呢？”弗洛尼说，“肯定发生过什么。”

“没发生什么，”黛西说，“你管好自己的事就行了，白人的事就让他们自己操心去吧。”

“一定出过什么事，”弗洛尼说，“我一大早就听见他在哼哼。虽然，这跟我没什么干系。”

“嗯，我也知道是什么事儿。”卢斯特说。

“你知道的事情太多了，”黛西说，“你没听弗洛尼刚才说过这不关她什么事吗？你把班吉带到后院去，让他保持安静，我去准备午饭。”

“我知道昆汀小姐在哪儿。”卢斯特说。

“那就给我闭上你的嘴巴，”黛西说，“当昆汀需要你的意见时，我

会让你知道的。你们现在赶紧都到后院玩儿去吧。”

“你难道不知道他们在牧场上打球会出现什么情形吗？”卢斯特说。

“他们暂时还不会开始。到那时，T.P.会过来带他去坐车的。来，把你那顶新帽子给我。”

卢斯特将帽子递给她后，就和班去后院玩儿了。班还在不停地呜咽，但是声音没那么大了。黛西和弗洛尼走进小木屋。过了一会儿，黛西就出来了，又穿上那条褪色的布裙子，到厨房去了。炉火已经熄灭了。房间里一点儿声响都没有。她系上围裙，走上楼梯。什么声音也没有，昆汀的房间还和他们离开时一样。她走进房间，捡起内衣，将丝袜放回抽屉里，合上抽屉。康普生太太的房门紧闭着。黛西在门口站了一会儿，听了听没有声音，就打开门进去了，一股浓烈的樟脑球味扑面而来。百叶窗关着，房间里半明半暗，那张床也处于黑暗之中，所以起初她还以为康普生太太睡着了，正要关上门，床上的人说话了。

“谁呀？”她说，“是谁在那儿？”

“是我，”黛西说，“您需要什么吗？”

康普生太太没有回答。过了一段时间，她问：“杰生在哪里？”头连动都没动。

“他还没回来呢，”黛西说，“你需要什么吗？”

康普生太太一句话也没说。像大多数冷漠、虚弱的人一样，当最终要面对一场不可逆转的灾难时，她总是能从某处获得一种刚毅的精神，或是某种力量。在现在的情况下，那是对尚未查明真相的事情保有的一种不可动摇的信念。“哎，”她说，“你找到了吗？”

“找到什么？您说的是什么呢？”

“字条。至少她应该会想到要留下一张字条。就连昆汀都会这么做的。”

“您在说什么呢？”黛西说，“你难道不知道她什么事都没有吗？我敢打赌，天黑之前，她一定会从这个门口走进来的。”

“你胡诌的吧，”康普生太太说，“这是遗传的。有什么样的舅舅，就会有什么样的外甥女。或者有其母必有其女。我不知道哪种情况更糟糕。我并不在乎。”

“您一直这么说究竟有什么意思呢？”黛西说，“她又何必去选择那样一条路呢？”

“我也不知道。昆汀那样做是因为什么呢？她究竟为什么那么做呢？不可能仅仅是为了讥讽我或伤我的心。不管上帝是谁，他肯定不会容许这样的事情发生的。我是一个淑女。你可能看着我的子孙，想象不到我会是这样的一种人，但我确实如此。”

“您就等着瞧吧，”黛西说，“天黑前她肯定会回来的，她会乖乖地躺在她的床上。”康普生太太什么也没说。樟脑浸泡过的布放在她的额头上。那件黑色的睡袍横躺在床脚。黛西将手放在门把上。

“嗯，”康普生太太说，“你还有什么事？你还要给杰生和本杰明准备点儿晚餐，是吗？”

“杰生还没回来，”黛西说，“我要下去做午饭了。您真的什么也不需要吗？您的热水袋还热吗？”

“你还是把我的《圣经》拿给我吧。”

“我今天早上出去时就拿给您了。”

“您把它放在床沿上了。您还指望它能不掉下去吗？”

黛西来到床边，在床边摸索着找到了那本封面朝下的《圣经》。她抚平了页面，又把书放回到床上。康普生太太眼都没睁。她的头发和枕头是同样的颜色，她的头上敷着一块被药水浸过的布，让她看起来像是一个在祈祷的老尼姑一样。“不要把它放在那儿了，”她说，她还是没有睁开眼睛，“你之前就把它放那儿了。你是想让我下床把它捡起来吗？”

黛西伸手拿过那本书，把它往里边放了放：“您又看不清，怎么读呢，要不要我把百叶窗拉开一点儿呢？”

“不要，不要去管它了，你赶紧去给杰生做点儿吃的吧。”

黛西出去了。她关上了门，回到厨房。炉子几乎都冷却了。当她站在那儿时，橱柜上方挂着的时钟敲响了十下。“十点了，”她大声说，“杰生还没回来。”她说，“我看见了初，也看见了终。”她看着冷灶说。

她拿出一些生冷的食物放在桌子上。来回走动的同时还唱着一首赞美诗。她一遍遍地唱着头两句歌词。摆放好食物后，她就走到门口去叫卢斯特，不一会儿，卢斯特和班就进来了。班还在轻轻地哼着，仿佛是自己听的。

“他一直不停地哼。”卢斯特说。

“你们都过来吃饭吧，”黛西说，“杰生不回来吃饭了。”他们在餐桌

旁坐了下来。班完全可以应付得来固体食物，虽然现在他面前都是生冷的食物。黛西在他的下巴底下系了一块布。他和卢斯特开始吃起来。黛西在厨房里来回走动，哼着她记得的那两句赞美诗。“你们都赶紧吃吧，”她说，“杰生不回来吃饭了。”

杰生这时远在二十英里开外。离开家之后，他就飞速地向小镇驶去，途中看到了去教堂做礼拜的人群，他们缓慢地行进着，还听到了空中弥漫的专横的钟声。他穿过空旷的广场，拐进一条狭窄的街道，周围变得更加沉寂了。他在一栋木房前停了下来，沿着种满鲜花的走道向门廊走去。

他听到有人在里边讲话。正准备抬起手敲门时，他听到了脚步声，于是他把手缩回去了。这时，只见一个身穿黑色绒面长裤和无领白衬衫的大个子把门打开了。他的铁灰色的头发凌乱不堪，一双灰色的眼睛又圆又亮，像小男孩的眼睛一样闪烁着。他握着杰生的手，将他拉进屋子，还不停地跟他握手。

“快请进，”他说，“快请进。”

“你准备好了吗？”杰生说。

“赶紧先进来，”大个子说，一边还推着他的胳膊肘让他往里走，房间里坐着一男一女，“你认识默特尔的丈夫吧，是不是？这位是杰生·康普生，这位是弗农。”

“我认识。”杰生说。他甚至连看都没看那名男子。

当警长拉来一把椅子时，那名男子说：“我们先出去走走，你们在这儿聊吧。走吧，默特尔。”

“没事，没事，”警长说，“你们就坐着吧。我们也没什么要紧的事儿吧，杰生？你坐呀。”

“我们边走边说吧，”杰生说，“拿上你的帽子和外套。”

“还是我们出去吧。”那名男子边说边站起身来。

“你们在这儿坐着吧，”警长说，“我和杰生到门廊那边聊会儿。”

“你赶紧拿上你的帽子和外套，”杰生说，“他们十二个小时前就已经出发了。”警长带着他向门廊走去。途中一男一女正好经过，和警长说了几句话。警长热情地跟他们对话，动作极其夸张。钟声还在回响，是从那个所谓的“黑人谷”传来的。

警长拖过来两把椅子：“坐吧，告诉我到底出了什么事。”

“我在电话里就跟你讲了，”杰生站着说，“我那样做是为了节省时间。是不是还要我通过法庭强迫你去履行你宣誓过的义务呢？”

“你坐下，跟我说明情况，”警长说，“我会关照你们的。”

“关照，天哪！”杰生说，“这就是你说的对我的关照吗？”

“是你把我们所有人卷进来的，”警长说，“你坐下，跟我说说具体情况。”

杰生有种受伤的感觉，他感到自己能力不足，过了一会儿，他就急躁地开始为自己辩护，火气越来越大。警长用他那双冷静闪烁的眼睛看着他。

“不过你不知道是他们做的，”他说，“只是你自认为的。”

“不知道？”杰生说，“我花了整整两天时间尾随她穿过大街小巷，就是想让她远离他，我告诉她要是让我再撞到他们俩在一起时，我会怎么做，你却说我不知道是那个婊——”

“好了，”警长说，“我明白了，这些就足够了。”他看着街对面，双手插在衣兜里。

“当我来找你这个官方正式委任的执法人时……”杰生说。

“这周是在莫特生演出。”警长说。

“是的，”杰生说，“如果我能找到一个多少对那些选他上台的人民能提供一些保障的执法人，那这会儿也会在那里了。”他又将情况粗略地描述了一遍，仿佛他能从他的愤怒和无可奈何中找到一种真正的乐趣。警长完全不理睬他在说什么。

“杰生，”他说，“你把三千块钱藏在家里干什么？”

“什么？”杰生说，“我藏不藏钱是我的事。你的职责是帮我把钱找回来。”

“你母亲知道你把那么多钱藏在家里吗？”

“我是说，”杰生说，“我家被抢劫了。我知道是谁做的，而且我知道他们在哪里。所以我来找你这位执法人，我再问你一次，你打不打算帮我把钱找回来，是或不是？”

“要是你找到了他们，你会怎么对待那个姑娘？”

“我不会做什么的，”杰生说，“我不会对她怎样，我碰都不会碰

她。那个婊子让我失去了工作，葬送了我的大好前程，害死了我的父亲，让我母亲缠绵病榻，还让我受到全镇人的耻笑。我不会把她怎么样的，”他说，“我不会碰她。”

“是你逼走她的，杰生。”警长说。

“我怎么做不关你的事，”杰生说，“你到底帮不帮我？”

“你把她逼得离家出走了，”警长说，“而且我还怀疑这些钱到底属于谁，我现在还不确定。”

杰生站在那儿，手慢慢地拨弄着帽檐，他平静地说：“你不打算追捕他们了吗？”

“这事与我没有任何关系，杰生。如果你有确凿的证据，我当然会采取行动。但是要是没有证据，我认为那就与我没有什么关系了。”

“这就是你的回答，是不？”杰生说，“你再好好想想吧！”

“就这样吧，杰生。”

“好吧，”杰生说，他戴上帽子，“你会后悔的。这儿又不是俄国，不是谁戴着一个金属徽章，就可以免受法律制裁的。”他走下台阶，上了汽车，发动引擎。警长看着他启动车子，转了一个弯，飞快地远离朝镇上驶去。

钟声再次响起，被风撕得支离破碎，弥漫在阳光普照的天际。他在一个加油站停了下来，让人给他检查了一下轮胎，又把油箱加满。

“要去旅游，是吗？”黑人问他。他没有回答。“看样子天是要转晴

了。”黑人说。

“转晴，见鬼去吧，”杰生说，“到十二点准会下起倾盆大雨的。”他望着天空，想着雨，想着泥泞的路面，他自己停滞在距离镇子几英里的地方。他有种幸灾乐祸的感觉，想到他要错过晚餐了，要是从现在开始，他遏制住自己匆忙赶路的心理，中午时分，他肯定会在两个镇子之间的某个地方。他倒觉得这是一个很好的休息机会，因此，他对黑人说：“你到底是怎么回事？是不是有人给你钱了，他让你阻止这辆车继续前进。”

“轮胎里一点儿气都没有了。”黑人说。

“那你给我滚一边去，把气管给我。”杰生说。

“现在鼓起来了，”黑人说，“你可以走了。”

杰生上了车，发动引擎，把车开走了。他推到第二挡，发动机发出一阵阵噼里啪啦的响声。他狠狠踩了一下油门，粗暴地把气门推进又拉出。“快要下雨了。”他说，“等我走到半路，肯定会下起瓢泼大雨。”他驱车离开小镇，钟声越来越远。他脑海里一直在想着自己在泥泞中跋涉的场景，他想找一群人给他推车。“人都去教堂了。”他想象着自己最终终于找到了一个教堂，教堂里的人们和主人走出来冲他喊着，他又想着自己如何把那个主人痛扁一番。“我叫杰生·康普生。让你们看看你们能不能阻止我，你们推选的员工能不能阻止我。”他说。他还想象着自己带着一队士兵走进法院，将那个警长拖出来了。“他还想着自己能双手交叉地坐着，看着我丢掉我的工作。我会让他看看我的工作。”他完全没有想到他的外甥女，也没有想到自己对那笔钱的武断评价。十年来，他从未考虑过这两者；它们仅仅象征着他那在得到之前即已失去的那份

银行里的工作。

天气变得晴朗起来，天空中飞掠的云层现在向相反的方向移动。在他看来，天气转晴实际上是敌人对他的又一次狡猾的进攻，他要背负着累累伤痕去应付这全新的挑战。他不时会路过一个教堂，都是些未上漆的木质建筑物，周围停着几辆破旧的机车，在他看来，每个教堂都像是一个岗亭，后卫兵会扭过头来瞟他一眼。“你们同样该死，”他说，“看看你们能不能阻止我。”他想到自己带着一队士兵，后边跟着一个戴着手铐的警长，如果需要，他还能把万能的上帝拖下宝座；他还想到他还冲破天堂中的天兵天将和地狱中牛鬼蛇神的阻挡，抓住了那逃窜在外的外甥女。

东北风一直吹，打在他的脸上。他似乎能感觉到那种持续刮的风在渗入他的骨髓，突然，一种不好的预感抓住了他，他猛踩下刹车，停了车，静坐在那儿。他摸了摸脖子，坐在那儿，开始低声咒骂起来。当他必须开车的时候，他会用浸在樟脑中的手帕来让自己清醒——那是他在打扫乡镇的时候用来挂在脖子上呼吸香气的。所以，他下车，翻开椅子上的坐垫，想看能不能找到一块。他两个位置下都翻遍了，然后又站着低咒了一阵——看到自己被自己打败而嘲笑。他可以返回拿樟脑，或者继续前行。不管怎样，他都很头痛，不过周日他很确定能在家里找到樟脑，但是前行的话就不一定了。不过，他要是回头的话，他到达Mottson的时间就会晚一个半小时了。他自言自语道：“也许我能开慢一点，边想其他事情，边开慢一点。”

他上车发动了。他说“我会想想其他事情”，所以他开始想洛林。他想象自己正和她睡在一张床上，躺在他身边，求她帮他；然后他又想到了钱，想到他被一个女人、一个少女所欺骗。如果他能相信是一个男人抢劫了他该多好啊——但是他没法做到，这本来可以补偿他失去的工作——

这份他经过了众多努力和冒险才得到的工作，但是，这象征着失去工作本身，甚至更糟糕的是，是由一个婊子所为。他用领口为脸挡着风，并继续往前开。

他看到了他命运的反作用力，如今他会迅速将其融合走向不可逃避的关口。他变得狡猾了。他告诉自己不可以犯错。有且只有一个正确的选择，他必须去做。他相信他们两个都能看到他就认出他，但是他必须先看到那个女孩，除非那个男人还戴红领带。而事实上，他需要依赖于那个红领带，似乎是即将到来的全部灾难的总和，他已经能从他脑袋的抽痛，感受到了。

他登上了最后一座山。山谷和屋顶上烟雾寥寥，一两个尖塔高耸在树木之上。他开下山，进了城，放慢了车速，并且再一次提醒自己要小心，首先找到帐篷的位置。现在，他看不太清楚，但是他知道是灾难在驱使他直行并且让他头疼。在一个加油站，大家告诉他，帐篷还没搭好，但是展车已经停在了加油站一边。因此，他开了过去。

两辆俗艳的普尔曼式客车停在小道上。他下车之前，先对它们进行了侦查。他试图放松呼吸，这样心跳就不会这么快了。他下了车，沿着加油站的围墙观察车子。车窗外挂着一些皱皱巴巴的衣物——就像刚刚洗过似的。在楼梯旁边的地上有两个帆布椅子，但是他没看到生命的痕迹，直到一个穿着脏围裙的男人走到门口，大力地泼出了手上平底锅里的洗碗水。此时，阳光照在平底锅上，反射回了车内。

他想，我应该在这个男人能警告他们之前，给他一个惊喜。他从没想过，他们可能压根不在车内。他从没想过，他们不在这儿，而问题的关键根本不是他先看到他们，还是他们先看到他，以及一切都会与预想的相反，与整个事情的整体发展相反。甚至，他还想，他必须先看到他

们，把钱要回来，然后忽略他们所做的一切，因为不然的话，大家都会知道他——杰生·康普生，被他那个婊子外甥女昆汀打劫了。

他再侦查了一次，然后上楼梯，安静飞快地向那个车子走去，停在了门边。走廊是黑的，充斥着食物腐烂的味道。那个男人是一片模糊的白色，正在用他沙哑不稳的声音唱歌。他想：“这是一个没有我高大的老男人。”在那个男人抬头看他的时候，他走进了车里。

那个男人停下了歌唱，说：“你好！请问？”

“他们在哪里？”杰生说，“马上告诉我，他们现在在哪里？在熄火的车里吗？”

男人回答道：“什么他们在哪里？”

杰生说：“别骗我了！”他在一片黑暗中踉踉跄跄地走着。

“什么意思？”那个男人问道，“你说谁是骗子？”而当杰生抓住他的肩膀的时候，他大吼道：“伙计，看清楚了！你说谁是骗子呢！”

“别撒谎！”杰生说，“他们在哪里？”

那个男人叫道：“你个浑蛋，干什么？”他的肩膀被杰生的手一抓，显得单薄脆弱。他试图扭开他的肩膀，然后转过身去，开始在他身后堆满垃圾的桌子上找东西。

杰生说：“别忙，他们在哪里？”

那个男人冷笑道：“我会告诉你他们在哪里的，等我找到我的屠刀再说！”

杰生试图抓住他的另一只手，说：“我只是在问你一个问题而已！”

那个男人边在桌子上寻找，边讥笑道：“你个浑蛋！”杰生试图抓住他的两只手，禁锢他的微怒。这个男人的身子感觉这么脆弱衰老，使得目的如此单一的杰生，第一次清楚明确地意识到了他所制造的灾难。

“好，停下来！我会出去，给我点时间，我自己出去！”杰生说。

那个男人哀哭道：“居然说我是个骗子，让我离开，仅仅一分钟，我会告诉你我不是个骗子。”

杰生抓住他，并且到处看了看。外面现在空空如也并且艳阳高照，他想人们很快就会开始回家吃周日丰盛的晚餐了，但是他自己却在试图抓住一个孱弱、气愤的弱小老人，而他不敢放开他的时间都足够他转身跑掉了。

杰生说：“你会出去多久？久到能够让我离开这里吗？你会吗？”但是那个男人还在试图挣扎，于是，杰生放开了他的一只手，打在那个男人的头上。杰生是突然出拳的，虽然打得不重，但是那个男人还是立马打翻了一众平底锅和篮子，倒在了地上。杰生站在他的上方，轻轻敲打他看有没有声息，然后迅速转身，跑了。到门口的时候，他控制了一下速度，更慢地从楼梯走下去，然后又在这里站了一会儿。现在，他的呼吸非常急促，他想站在这儿平复一下，所以他左看看右看看。突然，背后传来一阵乱七八糟的声音，他及时地转身发现那个瘦小的男人正高举着一把生锈了的斧子，从门廊处气愤地砍向他。

他抓住了斧子，并没有感觉受到了击打，但是他知道他要倒了，他想这也许就是结局，他相信他会死在这儿，但是当有东西撞击他的后脑的时候，他想：“他怎么会打我这里呢？”他想：“只有可能他在很久之

前就打过我，只是我现在才感受到。快一点、快一点，让这一切结束。”然而，之后一种求生的念头抓住了他，他不想死了，所以他开始挣扎，此时他听到那个男人在哀号并且用他的粗嗓子咒骂他。

当他们把他拖倒在地的时候，他依然在挣扎，但是他们制住了他，他不再挣扎了。

他问：“我出了很多血吗？”“我的后脑勺在出血吗？”当他感觉到被强行迅速地撤离的时候，他依然在问这个问题，他听到那个老男人气愤的声音在他身后慢慢远去。他还在说：“看看我的头！等等，我……”

那个抓住他的男人骂道：“等一下？天杀的！那个小男人会杀了你！一直走，你没受伤。”

杰生接着说：“他打了我，我在流血吗？”

另一个人说：“一直走。”他带着杰生到了车站的拐角附近，登上了一个无人的站台。

——那儿停着一辆平板车，月台边上的一块空地呆板地长满了青草，青草的四周又呆板地围着一圈花，中间是一块安着电灯的广告牌。上面写道：“用你的眼睛[1](#)好好看看莫特生。”在本该画眼珠子的地方安了一只电灯泡。那个人松开了他。

他说：“现在，你离开这里，离开。不然，你想干什么？自杀吗？”

杰生回答说：“我在找两个人，我只是问问他们在哪里。”

“你找谁？”

杰生说：“一对男女。男的昨天在杰弗逊，戴一个红领带。他们用一个表演，抢劫了我。”

那个男人说：“天哪！你就是那个人，对吗？稍等，他们不在这儿。”

杰生说：“我估计是这样。”他靠着墙，把手伸向他的后脑勺，然后看了看他的手掌看有没有血迹。他说：“我想我在流血，我估计他用那把斧子打了我。”

男人回答道：“是你自己在铁轨上撞你的头，你最好快走。你找的人不在这里。”

“是的，那个老男人说他们不在这里，但是我以为他在撒谎。”

男人回答道：“那你认为我在撒谎吗？”

杰生说：“不，不会。我知道他们不在这里了。”

男人说：“我让他们两个该死的一起滚出这里了。我不会让我的表演里出现那种东西。我经营的是由高贵的戏班子提供的受人尊敬的表演。”

杰生说：“是的！没错！那你不知道他们去哪里了吗？”

“我不知道，也不想知道。我的表演者不能耍那样的花招。你是？她的哥哥？”

杰生说：“不，不是的！这不重要。我只是想见到他们。还有，你确定那个老男人没有打我？我的意思是，我真的没流血吧？”

“如果不是我及时赶到的话，你会在流血！现在，你离我远点。那个老浑蛋会杀了你。你的车是在那边吗？”

“是的！”

“好的，现在你上车，离开这里回杰斐逊去。如果你找到了他们，他们不会再出现在我的表演中了。我经营的是一个受人尊敬的表演。不过，你说他们抢劫了你？”

杰生说：“不是的！这没什么重要的！”他走向车子，上了车。他想：“我现在必须做什么呢？”然后，他想起来了。他启动车子，慢慢地沿着马路开着，直到他找到了一家药店。不过，这个药店门是关着的。他把手放在肿块上，弯了一点脖子，站了一会儿，然后，转身离开。过了一会儿，他看到一个男人走过来，他就问他最近开门的药房在哪里，不过，事实是这里没有开门的药房。然后，他又问往北方走的火车是什么时候的，那个男人告诉他是两点半。他穿过人行道，再一次上车坐在那儿。之后不久，他看到两个黑人青年经过，他喊住了他们。

问：“你们有人会开车吗？”

“会的，先生。”

“现在立刻送我去杰斐逊多少钱？”

他们看向彼此，悄声细语地商量着。

杰生说：“我付一块钱。”

他们又开始低声交谈，其中一个说：“不能去，你想去干什么？”

他又问另外一个说：“你能去吗？”

另外一个回答说：“我不能，你为什么 not 送他去？你又没有什么事情需要做。”

“我就是有事情。”

“你要做什么？”

他们笑着继续絮叨。

杰生说：“随便你们谁去，我出两块钱。”第一个说话的年轻人回答说：“我也去不了。”

杰生说：“好吧，那你们走吧。”

他又坐了一会儿。他听到钟敲了，半小时了，然后，开始有行人穿着周日休闲和复活节的衣服经过。他们经过他的时候，有的会看他——这个安静地坐在小汽车上的男人，他的无形的生活就像旧袜子松了线一样在他的周边展开，并继续。过了不久，一个穿工装裤的黑人走了过来。

他问：“是你要去杰斐逊吗？”

杰生说：“是的！你要收多少钱？”

“四块钱。”

“只给两块钱。”

黑人说：“四块钱，不能少了。”杰生坐在车里，看都没看他。他说：“你要我开还是不要？”

杰生说：“好吧，上车吧。”

他移开让黑人坐在驾驶位上。杰生闭上眼睛，为了减轻自己的颠簸之感，喃喃自语地说：“我在杰斐逊能得到我想要的，我一定能在哪里得到些东西。”他们沿着街道开始前行，而他想到路人们都在平静地赶回家里吃周日的晚餐。继续前进，他们出了村镇了。他没有想过家里，现在班和卢斯特应该在餐桌边吃着冰冷的晚餐。在这种持续的恶劣情况下，没有出现灾难和威胁的杰斐逊，得以让他忘记，一如他见过的其他地方一样，在这里他的生命必须重新启程。

在班和卢斯特吃完饭之后，黛西会将他们支出去。“你尽量让他在外面安静地待到四点钟吧，到那时候T.P.也就回来了。”

卢斯特回答说：“好的。”然后，他们就出去了。黛西吃完饭，就收拾完厨房，然后走到楼梯口听了一会儿，发现没有什么声音。她就转回来，经过厨房，通过院门，站在台阶上，都没发现班和卢斯特。但是，她站在这里的时候，听到从地窖那里传来一阵“当”声，于是，她走到门口，向下看，又看到了早上的那一幕。

“他就是那么敲的。”卢斯特说。他沮丧，但还是怀着希望地看着那个一动不动的锯子。他说：“我没有找到敲打它的正确的工具。”

“你在这地窖里也是怎么都找不到的，”黛西说，“你把他带到太阳底下来，在那么潮湿的地窖里，你们会得肺炎的啦！”

她站在那儿，看着他们穿过庭院，走向栅栏边的一丛雪松处。然后，她往自己的小木屋走了。

“行了，现在就别多说了，”卢斯特说，“今天，你已经给我添了够

多的麻烦了。”这里有一张吊床，是把一块块木桶板插到交叉的绳网里做成的。卢斯特躺在吊床上，但是班还在漫无目的地向前呆走。他又开始哼哼唧唧了。“现在，立刻安静下来，”卢斯特说，“否则我真的要抽你了。”他躺回了吊床上。班不动了，但是卢斯特还是能听到他在哼哼唧唧。“你到底闭不闭嘴？”卢斯特说。他爬下吊床，循声赶过去，发现班蹲在一个小土墩面前。土墩两边各埋了一个装毒药的蓝色空瓶子。有一个瓶子里插着一根枯萎了的曼陀罗。班蹲在它的前面用一种不连贯的缓慢语调呜咽着，而且边呜咽边四处张望。他找了一根小树枝，插到了另外一个瓶子里。“你为什么就不得安静？”卢斯特说，“你想让我动真格儿，让你不哭不行，是吧？那我就如你所愿！”他跪蹲下来，迅速捡起瓶子，藏在了后边。班不呜咽了。他蹲着，看了看刚才瓶子所在的小坑，然后，正准备大哭的时候，卢斯特又把瓶子拿出来了。他低声呵斥道：“好了，安静点。”“你敢叫一声试试！你敢！在这里，看见没？在这里的话，你又得开始哭了。走吧，我们去看看他们开始踢球了没有。”他抓住班的肩膀，把他拽了起来，然后，他们来到栅栏边，并排站在这里，透过一簇簇还未开花的忍冬，盯着前面看。

“看，”卢斯特说，“有人过来了，看见没？”

他们看着那四个打球的人跑到草地上又出去，然后准备发球，传球。班边看，边絮絮叨叨的。他也跟着跑动的四人在栅栏处迅速地移动和絮叨。

一个人说：“这里，加迪。拿袋子来。”

“班吉，安静。”卢斯特说，但是班没有停下来，还是抓着栅栏在跌跌撞撞地跑，用他的无望的公鸭嗓尖叫着。玩球的人在继续，班一直和他保持步调跑着，直到栅栏拐了个直角，他就没办法了，只好抓着栅

栏，看着他们跑开。

“现在能安静下来了吗？”卢斯特说，“现在能安静了吗？”他摇着班的肩膀说道。班抓住栅栏，持续沙哑地尖叫着。“你能不能停下来？”卢斯特说，“能闭嘴了吗？”班凝视着栅栏外。“好吧，班，”卢斯特说，“我让你叫，我给你叫的理由？”他向后看去，走向房子里。接着，他轻声说：“加迪，你现在叫吧！加迪！加迪！加迪！”

过了一会儿，在班的声音之间，卢斯特听到了黛西在喊叫。他拽着班的肩膀，穿过庭院，走过去。

卢斯特说：“我和您说过了，他不会保持安静的！”

“你个浑蛋！”黛西说，“你对他做了什么？”

“我没做什么啊。我告诉过您只要那些人开始玩球，他就停不下来了。”

“你们过来我这边，”黛西说，“嘘，班吉，不哭了！”但是他没停。然后，他们迅速穿过庭院，走进了小木屋。“现在快去把那双鞋子拿过来，”黛西说，“但是别吵醒卡罗琳小姐。如果她说什么，就说我在看着他呢。现在，快去！我想你不至于这个都办不好吧。”卢斯特去了。黛西将班带到床上，让他躺在她的旁边，抱着他，前前后后地摇着他，并且用她裙子的褶边为他擦干了流出来的口水。她边抚摸他的头边说：“别哭了，别哭了，现在是黛西在抱着你。”可是他依然在可怜巴巴地细细呜咽着；用的几乎是世界上最无望的声音。卢斯特回来了，拿来了一双白色的缎子做的拖鞋，不过现在已经开始泛黄了，并且又破又脏。当卢斯特把拖鞋递给班的时候，班安静了一会儿。但是他依然在呜咽，并且很快，又开始大声哭了。

黛西说：“你估摸着你能找到T.P.吗？”

“他昨天说今天要去圣约翰教堂，要四点才回来。”

黛西继续摇着班，并且抚摸着他的头。

“天哪！要这么久，”她说，“这么久。”

“姥姥，我会赶那辆马车。”卢斯特说。

“你会害死你们两个，”黛西说，“你是调皮才想赶车。我知道，你很聪慧。但是我不能相信你。嘘……不哭了，不哭了，不哭了。”

“不，我不会的，”卢斯特说，“我和T.P.一起赶过车的。”黛西还抱着班在前后摇晃。“卡罗琳小姐说你要是不能让他不哭了的话，她就要自己下来，亲力亲为了。”

“不哭了，宝贝，”黛西边摸他的头边说道，“乖孩子，”她说，“你能不能想到姥姥我，然后慢点赶马车？”

卢斯特回答道：“好的。我会和T.P.一样认真赶车。”

黛西摸了摸班的头，晃着他，说：“我尽力了，真的。”接着，她又提高声音说，“那你就去吧。”卢斯特小跑了出去，班则抓着拖鞋在哭。“乖，快别哭了。卢斯特去赶马车来带你去墓地了。我们也没必要去取你的衣帽了。”她说。她走到墙角处用印花窗帘隔开的一个小柜子前面，拿出了她戴的毡帽。“我们有过更糟糕的时候呢，也不用担心别人知道了，”她说道，“你怎么说也是主的孩子。不久之后，我也将成为主的孩子，感谢耶稣。”她把帽子戴在他的头上，扣好了他的衣扣。班一直在哭，于是她拿走了他手上的拖鞋，放下之后，就带他离开了。卢

斯特过来了，牵着一匹老白马所驾的破烂不堪的马车过来了。

“卢斯特，你会小心的吧？”她说。

“会的。”卢斯特回答道。她把不再哭了的班扶上了后座，不过，他这会儿又开始絮絮叨叨了。

“他在说他的花呢，”卢斯特说，“等等，我去给他摘一枝。”

“你先别动，”黛西说，她走过去牵住了勒马索，“好了，现在赶快去帮他摘一枝吧。”卢斯特绕着房子跑向了花园。他只带回了一株水仙花。

“这是破败的，”黛西说，“怎么不帮他摘枝好点儿的？”

“这是我能找到的最好的了，”卢斯特说，“全部被你们周五的时候带去装扮教堂了啊！等等，我会修好它的。”于是，在黛西拉住勒马索的时候，卢斯特用一根树枝和两端绳子夹住了花茎，然后把花给了班。之后，卢斯特爬上马车，勒住了缰绳。黛西仍然在牵着缰绳没放开。

她问卢斯特：“你已经知道路了吧？”她说，“沿着街向上走，在广场那里拐弯，就到了墓地，然后直接回来。”

“知道了，”卢斯特回答说，“出发吧，‘小马后’。”

“你一定会小心的吧？”

“是的，一定会的。”至此，黛西才松了缰绳。

卢斯特说：“我们出发吧，‘小马后’。”

“这样，”黛西说，“你把鞭子给我吧。”

“哦，姥姥，”卢斯特说。

“给我！”黛西边走向轮子边说。卢斯特不甘不愿地把鞭子给了她。

“我现在没法让‘小马后’挪腿了。”

“这个不用你担心，”黛西说，“‘小马后’比你清楚该怎么走。你要做的就是抓住缰绳。你知道路吧？”

“我知道。就是T.P.每个星期天都会走的路嘛！”

“那今天你就照走吧。”

“当然，我都帮T.P.赶过不下一百次车了。”

“那就再赶一次，”黛西说，“现在出发吧。黑小子，如果你让班吉受伤的话，我可不知道我会干什么来对付你。虽然，你进苦工队是不可避免的，不过，如果出什么问题的话，我会提前把你送进去的。”

“好的，”卢斯特说，“‘小马后’，走吧。”

他将缰绳在“小马后”的阔背上甩了甩，马车突然就起动了。

“卢斯特，小心啊！”黛西说道。

“老马，走起来！”卢斯特说。他又甩了甩缰绳。随着地下一阵轰隆声，“小马后”慢慢地走下车道，转入了街上，此时，卢斯特驱策它用一种慢慢向前摔倒似的步态前进。

班不闹了。他坐在椅子中间，手上抓着那枝修好的水仙，眼神宁静安详，难以形容。卢斯特滚圆的脑袋就在他的正前方，卢斯特一直僵硬地回头望，直到马车出了黛西的视野。此时，卢斯特停在了路边，班望着他从车上下来，然后从篱笆上折下了一根枝条。“小马后”低下了头在啃食地上的青草，直到卢斯特坐上马车，把它拉了起来，并催促它继续前行。这时，卢斯特高举抓着枝条和缰绳的双手，摆出一副臭屁的姿态，和静静的马蹄声还有马儿发出的低沉的风琴似的伴奏声完全不搭调。汽车、行人，还有一群半棕色的黑人从他们身边经过。

“卢斯特，你去哪儿呀？是去墓地吗？”

“嗯，”卢斯特说，“他们也是去墓地吧，走起来。”

他们到达了广场，这儿有一尊石像，一个联邦士兵在这里用空洞的双眼凝望着，而他的大理石打造的双手则在风雨中飘摇。卢斯特更加来劲了，他边瞟了一眼整个广场，边给了无动于衷的“小马后”重重一鞭。“杰生先生的车，”他说，然后他又看到了一群黑人，“班吉，我们让他们看看什么是威风吧。”他说。

“你说什么？”卢斯特转过头。班手拿水仙，坐在位置上，眼神空洞无助。卢斯特再给了“小马后”一鞭，把马儿拉向了石像的左边。

一瞬间，班完全被抛起，离开了位置。然后，他大叫了一声，并且持续不断地大叫着，声音也越来越大，偶尔重重地喘两口气。不只是惊吓到，简直是被吓坏了，眼神痛苦盲目，已经无法言语；发出了如此大的声音，卢斯特眼神也空洞了一下。“上帝啊，”他说，“别叫！别叫！我的上帝！”他又试着给了“小马后”一鞭。随之，卢斯特把抽坏了的鞭子扔了。当班的声音达到无法想象的强度的时候，卢斯特抓紧了缰绳向

前倾，而此时杰生从广场另一端飞奔了过来，已经上了台阶。

随着反手一拳，卢斯特被推开了，杰生抓起缰绳，带着“小马后”往复移动。杰生把缰绳拉回了两倍，不断地抽打在马屁股上，“小马后”开始了小跑，此时班的痛苦的尖叫一直萦绕在周围。杰生把“小马后”向石像右边一拉，然后给了卢斯特的脑袋一拳。

“你怎么能拉向左边？”杰生说。他伸向后座，打了一下班，把花茎又弄断了。“闭嘴！”他说，“闭嘴！”他猛地把“小马后”拉了回来，然后跳下马车，“带着他滚回去。如果你和他再经过这个门，我会杀了你！”

“是，先生！”卢斯特回答道。他抓住缰绳，一边用末端抽打“小马后”，一边对班吉说：“够了！够了！班吉，看在上帝的分儿上，够了！”

班吉的声音越来越大。“小马后”上路了，又开始有节奏地发出蹄声，班吉也一度安静了下来。卢斯特迅速回瞟了一眼，然后接着赶路。折断的水仙低垂在班的拳头上，房屋的飞檐和门框又一次从左到右平稳地消失在身后，此时，班吉又一次有了茫然、安宁的眼神；电线杆、树木、门窗和招牌又都在它该在的地方了。

纽约，N. Y.

¹这里的眼睛在原文中是画的一只眼睛。——译者注

附录

康普生家族1699-1945

伊凯摩塔勃 一个遭废黜的美国国王，被义兄称为“l’Homme”（有时叫“del’homme”）。他的这位义兄是法国契卡索族人，如果早几年出生，说不定就是拿破仑手下的大将，那帮将星闪耀、功名显赫的大坏蛋之一，为此他把契卡索族的头衔简单地译为“人”。而伊凯摩塔勃本身是一个聪明人，富于想象，还善于辨别人（包括他自己）的个性，就又进一步，把这头衔英语化为“Doom”。他从自己丧失的广袤疆土中划出一块位于密西西比州北部的、足足有一平方英里的处子地来，赐给一个苏格兰流亡者的孙子，那块地四四方方，四个角就像牌桌那样整齐（那块地当时还覆盖着森林，因为那还是在1833年前，命运之星陨落，那时的密西西比州杰弗生镇还是一排乱糟糟、用泥巴糊墙的圆木平房，既用作契卡索人的管理处，也是贸易邮寄的商店）。那个苏格兰流亡者因为把赌注押在这位被废黜的国王身上，连自己生存的权利也输掉了。虽然这场赌博不算公平，但也换来了向西部蛮荒之地和平开拓的权利，无论通过何种手段，走路抑或是骑马，但必须是契卡索人自己的马，只要他和他的子民觉得合适就行。他们所到之处不久就被称为俄克拉荷马州：当时他们并不知道那里有石油。

杰克逊 一位持有利剑的伟大白人父亲。（一位久经战阵的老战士，一只爱叫嚷，瘦削，暴躁，污秽，结实且坚韧的老狮子，他把国家的繁荣富强置于白宫和他的新政党的处境之上，他看得最要紧的不是妻子的名誉而是“荣誉必须加以维护”的原则，至于它本身究竟是怎么回事

并不重要，关键是要加以维护。）他在华西镇金色帐中亲自授权，盖印并副署了一份认定书，但当时他并不知道划拨出去的土地下面有石油，以至于日后有一天，他那些无家可归、失去土地的后裔醉得昏昏沉沉不省人事时，坐着特制的深红漆棺材车和救火车风尘仆仆地经过为他们指定的埋骨之地。

以下是康普生家的人：

昆汀·麦克拉昌 格拉斯哥一个印刷工的儿子，从小孤苦，由佩斯高地母亲家里人抚养长大。他从柯罗顿荒原逃到卡罗莱纳，身上只带着一把苏格兰宽刀和一条格子呢裙，白天穿着，晚上垫着睡觉，还有一点其他的東西。到八十岁的时候，因为先前曾在一位英国国王手里吃过一次败仗，为了不至于重蹈覆辙，于是在1779年的一天夜里他又带着尚在襁褓中的孙子和那条格子呢裙（那把宽刀连同他的儿子，也就是他孙子的爸爸在大约一年前佐治亚一片战场上和塔尔顿手下的一个团一并消失了）跑到了肯塔基，一个叫伯恩或布恩的邻居早已在此建立起了殖民地。

查尔斯·斯图尔特 曾服役于英国军队下辖的一个团，后被除名，并取消军阶。被所属的那支后撤队伍和美国先遣队误以为已死，留在了一片佐治亚的沼泽地里，结果他们都错了。即便是拖着自制的假腿，他也没有丢掉那把宽刀。四年之后，他终于在肯塔基州哈洛兹堡撵上了他的父亲和儿子，当时正好赶上父亲的葬礼，随后很长一段时间他陷入了双重人格之间的挣扎。一方面他仍然想进学校当一名老师，他认为这是自己的愿望，直到最终他放弃了这个念头，回归其本性成了一个赌徒。对此康普生家族似乎没有意识到，他们都是天生的赌徒，尤其是在紧要关头，机会微乎其微的时候。他最后孤注一掷，将性命和家庭的安定，还有身后名节都投进去了。他加入了一个妄图从美国手里分裂整个密西

西比峡谷归入西班牙的阴谋组织，由一个叫威尔金森的熟人领导（他颇有才能，影响力，也有头脑和能力）。等到幻想破灭之时，就轮到 he 逃跑了（除了这位康普生老师，谁都清楚这一结果）。他很独特，是唯一一个逃亡出国的阴谋者：危险并非源于他曾阴谋要分裂的政府的报复和惩罚，而是以前的同伴出于自身安全考虑，和他反目成仇。他并没被驱逐出美国，他常说自己无国籍，他之所以被驱逐，不是因为叛国，而是行事过于张扬、招摇，往往是前路未辟，招摇过市，以致后路先断。因此，策划将 he 从肯塔基、美国驱逐出去，并且如果抓到了，可能还要让他从地球消失的并不是宪兵司令，也不是民政机构，而是他们组织的同伙。他夜里出逃，遵循了家族传统，把儿子和那把旧宽刀和那件格子呢裙带上了。

杰生·利库格斯 也许是受到父亲所起洋气名字的驱使，在1811年的一天，他带着一对精致的手枪和一只干瘪的马褡裢，跨上一匹腰细腿粗的小母马骑上了纳奇斯古道。他父亲就是那个满腹牢骚、出言刻薄、不屈不挠的木腿人，他现在还满心以为自己该当一个古典语文教师吧。利库格斯胯下的马跑头两弗隆¹路绝不要半分钟，再跑两弗隆就够呛了。虽然就这两下子，但已经足够了：他骑到奥卡托拔（那时还叫老杰弗生镇）的契卡索人管理处就不再往前走了。不到六个月，他就成了管理处的助理，不到一年，又成了合伙人。尽管名义上还是助理，但实际上已经是它的半个主人了。如今它也发展成为一家不错的店铺，里面堆放着他用那匹母马和伊凯摩塔勃的年轻人赌马时赢得的奖品。在赌马时，他总是很小心地控制着赛程，一般是四分之一英里，至多三弗隆。第二年，小母马归了伊凯摩塔勃，康普生却拥有了那块整整一平方英里的土地。将来，它将几乎占据整个杰弗生镇的中心。那时这里仍然有树木覆盖，二十年后也还有，只是到时却是公园，而非森林了。这里有奴隶住的小屋，马厩，菜园子，还有规整的草坪，林荫道，凉亭，一应设

备同样都是由建造圆柱门廊的大宅的建筑师设计，房屋用料都用蒸汽船从法国和新奥尔良运来。到1840年，那块土地仍然保持着完整（此时不仅那个叫杰弗生的白人小村庄开始对它进行包围，而且也即将被周围的白人县份吞噬了。因为几年内，伊凯摩塔勃的后裔和子民都会离开，这些留下来的居民不再去当战士或猎人，而是学做白人，学做偷懒的农民或者到处都是的庄园主——他们也这么叫——和奴隶主，只是比白人脏一点，懒一点，凶残一点——直到最后连野性自身也被驯化了，只是偶尔从坐在棉车上的黑奴鼻形上可以看出来，或者从锯木厂的某个白种工人或者某个设陷阱的猎人或者某个机车伙夫的鼻端可以看出）。当时，这里是大家熟知的康普生领地。此后，它摇身一变，成了诞生王孙贵胄、政客将军和主教的福地，一改先辈在柯罗顿、卡罗莱纳和肯塔基落魄的面貌，这个地方日后被称为州长之家。因为的确在此孕育了，或者至少可以说产生了一位州长——也叫昆汀·麦克拉昌，是为了纪念那位出身柯罗顿的祖父——尽管后来（1861年）又产生了一位将军，但人们仍叫它老州长之家（之所以这么叫是全镇全县事先一致商定好的，好像大家提前知道老州长是最后一位做任何事都不会失败的康普生，保持长寿和自杀除外）。陆军准将杰生·利库格斯二世1862年在希洛打了败仗，1864年又在雷萨加小输了一仗。之后到1866年，他第一次从仍然完整无缺的那块地上划下一块抵押给了一个从新英格兰来的暴发户。等到老镇被北军的斯密斯将军一把火烧了之后，居住在新生的小镇上的大部分居民就不再是康普生的后代，而是姓斯诺普斯了。此时已经开始受到侵犯了，接着就是被一点点蚕食。那位败阵的将军接下来四十年的时间就花在了零零碎碎出卖土地上，以免抵押出去的土地被人籍没。直到1900年的一天，他在塔拉哈契河床的渔猎野营地的一张行军床上安然死去。他晚年的大多时光就是在这儿度过的。

尽管老州长现在已经被人们遗忘；那一平方英里剩下的土地也只是被

人们叫作康普生家——当年的草坪和林荫道早已破败不堪，长满了野草，宅子已久未刷漆。廊柱也一块块剥落下来，杰生三世经常整天坐在那里，拿着一壶威士忌，还有几本乱丢的、边角卷皱的贺拉斯、李维和卡图卢斯的集子。他一面喝酒，据说一面为死去的和仍健在的镇民写些尖酸刻薄的颂诗（杰生以律师为业，他也确实在广场边的楼上开设了一间办公室。在他那布满灰尘的档案柜里封存着本县最古老的氏族——赫尔斯顿、塞德潘、格莱尼尔、布钱普以及柯菲尔德这几家的史料，这些史料在无尽的档案迷宫里放了一年又一年，已经慢慢褪色了：谁知道在他那颗父亲的心中是怎么梦想的呢，现在他已实现了三个梦想中的第三个梦——第一个是做一个精明强悍的政治家的儿子；第二个是带领英勇善战的士兵冲锋；第三个是充分利用自身优势，扮演假丹尼尔·布恩加鲁滨孙·克鲁索的角色。他当时并非返老还童，因为他一直都童心未泯——他幻想着律师办公室会再度充当直通州长官邸的过道，让他可以恢复旧日的荣光）。除了从他手里卖出去的最后那块土地，还剩下房子、菜园、坍塌的马厩，和一个用人住的小屋。黛西一家住在里面。那块土地卖给了一个高尔夫俱乐部，所得的钱用作为他女儿加迪4月举行的体面婚礼和儿子昆汀读完哈佛一年的学费，儿子在随后的1910年的6月自杀了。到1928年，尽管康普生一家仍然住在里面，人们却已经称之为老康普生家了。这年春天的一个黄昏，老州长那注定厄运、没父姓的十七岁玄外孙女偷走了他唯一神志清楚的男性亲戚（她舅舅杰生四世）秘密收藏的一笔钱，顺着排水管爬下去，和流动街头杂耍团随行的一个摊贩私奔了。在康普生一家都搬走之后的很长一段时间内，人们仍然称之为老康普生家。守寡的老母亲死后，杰生四世就不必再怕黛西了。他把房子卖给一个乡下人做陪审员、牲口贩子的食宿接待所，甚至在接待所垮了之后（现在也成了高尔夫球场），人们依然叫它老康普生家。尽管那块土地上很快就密密麻麻盖满了一排排私人的半城市平房，但它依然完整。

还有这些人：

昆汀三世 他爱的不是妹妹本人，而是康普生家的荣誉观念。康普生家的这种荣誉只是由他妹妹那吹弹即破、难以长久的贞操苦撑着（这一点他非常清楚），它悬于一线，就像要在一直受过训练的海豹鼻尖放一个地球仪。他不喜欢乱伦，也根本不会犯下这种罪行，但长老会那套天谴的说教深得其心：他，而非上帝，可以借此将自己和妹妹一起扔进地狱，这样他就可以永远守护着她，在不熄的地火中永远保住她的贞洁。不过，他最爱的是死亡，他只爱死亡，他一面爱着，又从容地活着，还近乎疯狂地期待着死亡，就像期待一位爱人的到来。他故意抑制着，不去接触那等待已久的，满心情愿的，友好的，温柔的，不可思议的爱人的肉体，直到他再也不能忍受，并非那种抑制，而是思想的束缚，于是纵身一跃，抛开一切，向水底沉去。1910年6月，他在马萨诸塞州的坎布里奇自尽，那是他妹妹举行婚礼的两个月之后，为的是等到完成第一个学年，这样就不至于浪费预交的学费了。这倒不是因为他身体里流着老柯罗顿、卡罗莱纳、肯塔基的血，而是为筹集他妹妹婚礼的钱和自己哈佛的学费，家里卖掉了老康普生家最后一块地，这片地这片牧场是他最小的、生来就是白痴的弟弟最喜欢的，除了土地，他只喜欢他的妹妹和燃烧的火光。

加达斯（加迪） 她注定沉沦，自己也清楚这一点。对此，她既不迎奉，也不逃避。她爱她的哥哥，尽管他是那样一个人，她不仅爱他，还爱他对待家庭荣誉和其凄凉下场所展现的痛苦的先知以及铁面无私的法官的一面。他以为他爱她，其实那是恨，他把她视为注定颠覆的家庭自尊的负载之舟、承载家庭荣辱的容器。不仅于此，她爱他也是因为他不能爱。她接受事实：他最珍视的不是她，而是她的贞洁，而作为贞操的监护者，她根本就不在乎：那层吹弹可破的薄膜比手上的倒刺还不

如。她知道哥哥最爱的是死亡，但她并不妒忌，愿意将毒草递给他作为成全（也许只是瞎想，但她那次精心安排的婚礼却起到了效用）。她怀上了另一个男人的孩子，已有两个月的身孕了。不管孩子是男是女，她早就为其起名昆汀了，为了纪念她哥哥，他们（她和她哥哥）都知道他早就形同死尸了。1910年，她嫁给了一个条件优越的印第安纳州的青年，是前一年夏天和母亲去弗兰区·里克度假时认识的。1911年，他们离婚了。1920年，嫁给加利福尼亚州好莱坞的一个电影小巨头。1925年，双方在墨西哥协议离婚。1940年，随着德军攻占巴黎，她就此失去音信。当时她风韵犹存，也许还经济宽裕，看上去比实际的四十八岁至少年轻十五岁。从此就再也没有人知道她的消息了，除了杰弗生镇的一个女人，她是县城的图书管理员，一位老处女，个子和肤色都像老鼠，和康普生·加达斯中学在同一个班。她余下的岁月就花在了这些事上：给《琥珀》上个正经的书壳，把《玉尔根》和《汤姆·琼斯》尽量放到初、高中生都拿不到的书架背面，尽管他们不踮脚就能拿到，而她自己却要站到一个盒子上才能把它们藏好。1943年的一天，就在前一个星期里她心烦意乱，精神几近崩溃，其间进入图书馆的人们可以发现她总是急急忙忙关上抽屉，转动钥匙锁上（那些妇女，银行家、医生、律师太太，有些也是那个班的同学，她们一般下午来，用孟菲斯和杰克逊出的报纸小心翼翼地裹住《琥珀》和桑恩·史密斯的作品，以防别人看到。见到她的情形，她们以为她马上就要病倒了，甚至会神智失常），那天下午三点的时候，她把图书馆门关上锁好。腋下紧紧夹着手提包，平素雪白的脸颊上浮现出两摊潮红，显得心事重重。她走进那家农用供应店，杰生四世起初在这儿当伙计，现在在此经营起了棉花的买卖。她大步穿过那个黑乎乎、只有男人才会进去的洞穴——洞穴里地上堆着，墙上挂着，天花板上悬着犁、耙片、绳索、挽链、车杠和颈轭，还有腌肉、廉价鞋、马用麻布、面粉、糖浆等，都是黑乎乎的。因为店里的货物只能算贮藏而非展示，那些向密西西比农民或者至少是密西西比的黑人农

民供应农业用品，想要从收获中分得一杯羹的人是不愿意提醒农民有什么需要的，而只是为他们提供一些必不可少的物资，除非已是丰收在望，产量待估。她继续往里走，一直到里面杰生的特殊领地：一个栅栏围起来的地方，凌乱地摆放着货架和由众多小格组成的柜子，其上的铁签插着轧花机收据，还摆放着账簿和棉花样品，物体表面都蒙上了灰尘和绒毛。里面还弥漫着一股混杂的臭味，其中有奶酪、煤油、马具润滑油以及大铁炉各种各样的气味，铁炉上粘着嚼过、吐出来的烟渣，怕是有百年的历史了吧。她走上前去，来到那个又长又高有些倾斜的柜台前，其后坐着杰生。她不再看那些穿工装裤的男人。他们自她进来就悄悄闭上了嘴，甚至嘴里也不再嚼动了。她带着一种近乎让她晕厥的决绝，打开手提包，从里面摸索着拿出一件东西，接着放在柜台上摊开。杰生低头看时，她站在那儿身子发抖，呼吸急促——那是一张布满阳光，颇显贵气的图片——以戛纳比尔风景为背景，群山、棕榈树、柏树还有大海、一辆大马力的昂贵的镀铬敞篷车。照片中的女人没戴帽子，头上围一条价值不菲的头巾，身上罩着一件海豹皮大衣，看不出年龄，容貌娇艳，神态镇定，表情冷漠，一副事事漠不关心的姿态；身边站着一个英俊瘦削的中年男人，穿着的军服上佩戴着德国参谋部将军的勋表和领章。——这个老鼠身形、老鼠肤色的老姑娘正在为自己的鲁莽发抖，把自己惊得一愣一愣的。她的眼睛越过图片注视着那个没有子嗣的老单身汉，在他身上一代代男人延续下来的希望即将逝去，他们都注重体面，性格骄傲，即使人格已不能保持完整，骄傲的性格也会最大限度地化为虚荣心和自我怜悯：自那个逃离故土的流亡者始，他除了性命别无所求，但他仍然拒绝承认失败，那个两次用自己的性命和好名声做赌注、两次都输的人也不接受这些，还有那个只用一匹跑四分之一英里的敏捷的小马就赢得一片封邑的人，他为祖父和父亲一雪前耻，还有精明强悍的州长，那位将军虽然在领导英勇善战的士兵打仗时失败了，但至少用自己的生命在沙场上拼死一搏，往后就是那位有文化的酒徒了，他把最

后一块土地卖掉，不是为了买醉，而是给予后代一个他心目中的最好的人生机会。

“是加迪！”图书管理员低声念叨，“我们一定要救救她。”

“是加迪，没错。”杰生说着，接着他大笑起来。他站在那里，对着照片大笑，对着那张冷艳的脸大笑。由于一个星期来从抽屉和手提包中取出放进，那张脸都变皱卷曲了。图书管理员知道他为什么大笑，至今三十二年来她一直都叫他康普生先生。自从1911年加达斯被丈夫抛弃，之后就把年幼的女儿带回家，接着又抛下孩子，坐上下一班火车离开，从此不再回来。不单是黑人厨娘黛西，图书管理员也单纯通过直觉就察觉到，杰生反正是在利用孩子的存在和私生子的身份勒索她母亲，不仅让她一辈子远离杰弗生镇，而且让自己成了孩子赡养费唯一且永久的托管人。从1928年那天小昆汀从排水管爬下来和商贩私奔之后，她就没再和他说过话。

“杰生！”她喊道，“我们一定要救救她呀！杰生！杰生！”——即便当他用大拇指和食指把照片拈起来，扔过柜台朝她飞来时，她仍然在喊着。

“那是加达斯？”他说，“别逗我了。这个婊子还不到三十岁。她现在有五十了吧。”

第二天，图书馆还是关门一整天。下午三点钟，老姑娘尽管腿脚酸痛、筋疲力尽，但仍然精神亢奋，依旧紧紧夹着那个手提包。这次，她转进了孟菲斯黑人区一个整洁的小院子，爬上整洁小屋前的台阶，按下门铃。接着门开了，一个和她年纪相仿的黑人女人平静地看着她。“你是弗洛尼，是吗？”图书管理员说，“你不记得我了——梅丽莎·米克，从

杰弗生来——”

“记得。”那个黑人女人说，“进来吧。你要见我妈妈吧。”她走进房里，是一间老黑人住的房间，里面整洁却堆满了东西，弥漫着老年人、老太太、老黑人的味道，那个老太太自己坐在壁炉旁的一把摇椅里。在这里尽管是六月天，却仍然闷烧着一堆火。这个曾经身材高大的女人穿着干净而有些褪色的印花衣服，头上围着一尘不染的头巾，一双眼睛模模糊糊，现在基本上看不见了一图书管理员把那张卷起角的剪报放在那双黑色的手中，那双手仍然很轻柔、灵巧，就像三十岁、二十岁，甚至是十七岁时的一样。

“是加迪！”图书管理员说，“是她！黛西！黛西！”

“他说了什么？”黑人老太太说。图书管理员知道她指的“他”是谁，她也不为此感到惊讶。黑人老太太不仅料到她（图书管理员）明白自己所指，也立即猜到她早已将图片拿给杰生看过。

“你难道猜不出他会说什么？”她叫嚷道，“当他意识到她处于危险之中时，他就说那是她，即使我没有图片向他证明。但只要他知道哪天，哪个人，即便就我一人，想要救她时，他就改口说不是了。但那就是！看看吧！”

“看我的眼睛。”黑人老太太说，“我怎么能看清这张图片呢？”

“叫弗洛尼来！”图书管理员嚷道，“她会认出她来的！”但黑人老太太早就在小心地照原来的折痕折好它，并且递回图书管理员手里了。

“我的眼睛再也不会好了。”她说，“我看不见了。”

事情就是这样。六点的时候，她在拥挤的长途汽车终点站艰难穿

行，包夹在一侧腋下，另一只手里拿着半张返程的票。她被每天下班的人潮挤上了人声嘈杂的站台，人潮中有几个中年平民，主要是士兵和水手，要么就是离开，要么就是去送死或者找无家可归的年轻女人，那是他们的同伴。这些女人两年里如果运气好，就日复一日在旅馆、卧车里睡，运气不好的时候，就只能在坐铺、长途汽车、车站、旅馆门厅或者公共休息室凑合了。她们偶尔也在慈善机构的病房里待上几天，产下幼儿或者在警察局里坐几天牢，然后就上路了。她总算挤上了长途汽车，她个子比谁都小，因而只能偶尔碰到地面，直到一个身影（一个穿卡其军服的男人；她根本就看不到他，因为她早已泪湿眼眶了）站起来，将她抱起，放在一个靠窗的座位上。坐在那儿，她仍在静静地哭泣，她现在可以看到外面的城市建筑在飞速后退，接着就被甩在后头了。不久她又可以回到家中，在杰弗生安生度日。尽管在那儿生活也会有种种不可理喻的激情、骚动、悲伤、愤怒和绝望，但到六点钟，你就可以把它盖住。即便是一个小孩也能用他无力的手把它放回那只平静、永恒的箱子里，让它和毫无特色可言的同类待到一块去，然后用钥匙把它锁上，就可以度过一个安然无梦的夜晚了。是的她一边想着，一边静静地哭 就是这样她不想见到照片她知道那是不是加迪都不重要因为她明白加迪不需要别人拯救她已没什么值得拯救的了因为她现在失去的都没什么价值了

杰生四世 从柯洛顿之前的祖辈算起，他是第一个心智健全的人，他是一个没有后裔的单身汉，因而也是最后一个。他思维富有逻辑，又讲理性，还善于自制，甚至可以说得上是一个遵循古老斯多噶派传统的哲学家：他全然不把这样或那样的上帝论调放在心上，只简单考虑警察的存在，唯一敬畏的就是那个为他做饭的黑人妇女，从一出生就是他的天敌，自1911年那天起就成了死敌。那天，她单凭敏锐的洞察力就猜到杰生在利用他年幼的外甥女私生女的身份勒索她的母亲。杰生不仅和康

普生家划清界限，而且独力和斯诺普斯家斗法。斯诺普斯家接管这个小镇之时适逢世纪之交，当时康普生和沙多里斯家族正日渐衰微。（并非斯诺普斯作祟，而是杰生自己的所为，当时他母亲刚死——外甥女早就从排水管爬下来，逃跑了，于是黛西也失去了这两根控制住他的大棒——他马上把白痴弟弟甩给州政府，腾空老宅，先是把一度富丽堂皇的房子隔成他所谓的公寓，然后把整栋出售给一个乡下人作接待所。）不过，这并不艰难，因为对他而言，除了自己镇上其他人、世界上其他人、其他人类都是康普生，尽管不可理喻，但无论如何他们都是不可信的。家里那块牧场卖的钱都花在了姐姐的婚礼和哥哥哈佛的学费上，而他却要从店员的微薄收入中苦心积攒下钱来，送自己去读孟菲斯的学校，在那儿学习鉴别棉花等级，这样才建立起自己的事业。而随着酒鬼父亲的死去，他就承担起了住在腐朽宅子里的腐朽家庭的全部负担。因为他母亲，他要抚养白痴弟弟。他牺牲了作为自己权利的快乐，有的就只是责任，甚至连一个三十岁的单身汉必需的生理需求都满足不了。这样，他母亲的生活就能尽可能像从前一样继续下去，这不是因为他爱她，而只是（一个健全男人始终）因为他畏惧那个黑人厨娘。他甚至都不能将她赶走，即便他尝试过停发她的周薪。尽管如此，他还是成功攒下了差不多3000美元（2840.5美元），这是他上报的外甥女偷盗的数目，那是他一点一滴、一角半块那样辛辛苦苦攒下来的。他之所以不存进银行，是因为在他眼里银行家不过又是一个康普生。他把钱藏在一个上锁的橱柜的抽屉里，他自己整理床铺，自己换床单、被褥，自从藏了钱以来，他的卧室门就一直锁着，除非自己进出。有一次，他那白痴弟弟想拦截一个路过的小女孩，他趁机在不让母亲知晓的情况下就当了他弟弟的监护人。带他弟弟去做去势手术的那次也一样，他母亲当时还不知道之前他弟弟出去过呢。这样，在1933年母亲死后，他就可以永远从中解脱出来，不仅可以摆脱白痴弟弟，也可以把那个黑人厨娘赶走，自己搬到农具供应店楼上的几间办公室。店里放着棉花样本和账簿。他把那里改成

了带浴室和厨房的卧室。每到周末，就可以看到有个女人在这儿进出，她身材高大，相貌平平，待人友善，总是面带笑容；头发黄褐色，年纪也不小了，戴着一顶花哨的圆帽，天冷时就穿着一件仿皮大衣。他们二人，一个中年棉花贩子，至于女的，镇上的人简单地叫作杰生的孟菲斯朋友，星期六晚上常常双双对对出没于当地的电影院；星期天早上就可以看到两人一起提着几个纸袋往公寓楼上走，纸袋里装着从杂货店买来的面包、鸡蛋、橘子、罐头汤，此时倒真有点家庭美满、夫妻和睦、其乐融融的样子。到了下午，她就会坐上长途汽车回孟菲斯。他现在总算解放了。他自由了。“1865年。”他经常会说，“那是亚伯·林肯从康普生手中解放了黑人。1933年，康普生·杰生从康普生家和黑人手中解放出来了。”

班吉明 出生时叫莫里，跟着他母亲唯一的一个弟弟的名字叫的。他这个舅舅长相英俊，不过见识浅薄，爱吹牛，是个无业的单身汉。他几乎向所有人借钱，甚至是黛西这个黑人妇女他也舍得开口。他一边将手从自己的皮夹里撤出来，一边向她解释：在他眼里，她不仅是姐姐家的一员，而且在世界上所有人的眼中，她都有着一副天生的贵妇相。最后，连他母亲也意识到班吉明不太正常了，她哭着坚持一定要给他换名字，由他的哥哥昆汀给他改名为班吉明（班吉明，我们最小的那个孩子，被卖到印度去了）。他爱着三件东西：为筹备加迪婚礼和昆汀学费卖出去的那块牧场，他姐姐加迪，还有火光。这三样东西他什么也没失去，因为他记不起姐姐了，只是感觉若有所失；睡觉时火光仍旧一样地明亮；那片牧场甚至比卖出去之前更好了，因为如今他不仅可以和T.P.一起无休无止地沿着栅栏追逐人们的活动，而且对他来说，人们挥舞着高尔夫球杆根本无关紧要。T.P.会带领他们钻到草丛中去，在那儿也许会有小白球突然落到他手里。只是他所不知的是，小球从人们手中释放出来，向着木板或熏制房墙壁或混凝土人行道飞去时，会抗衡甚至克服

重力以及万有引力定律。1913年，做了去势手术。1933年，被送进杰克逊的州立收容所。直到那时，他也无所失，因为就像姐姐一样，他记不起那片牧场了，只是感觉似乎少了什么，还有火光仍旧像入睡时一样明亮。

昆汀 最后一员。加达斯的女儿。出生前九个月就没了父亲，出生时没有父姓。从卵子分裂决定了性别时起，就注定了日后没有合法丈夫的命运。在她十七岁时，耶稣复生的第1895周年纪念日的前一天，从她舅舅中午把她锁住的房间窗户爬出来，借助排水管，摇摇晃晃地爬到了她舅舅门窗上锁的那间卧室外，里面当时空无一人，她砸烂一块窗格玻璃，由此爬进去，再用舅舅的火钳撬开锁住的橱柜抽屉，取走了钱。

（它并非2840.5美元，而是差不多7000美元。这让杰生大动肝火、怒不可遏。那天晚上至今的五年来，他会时不时回想起这件事，但他的愤怒并未随之有半分的减少，他也相信自己说不定会因此毫无征兆地死去，就像挨枪子儿或遭受雷击一般突然殒命。原因在于，尽管自己被偷走的不止小小的3000美元，而是差不多7000美元，但他却不能对任何人说。他不仅不能因此而得到公道——他不需要别人的同情——特别是从那些倒霉透顶的人那里，他妹妹不守妇道，外甥女也这样，他都不能去报警；另外，他丢失的4000美元本不属于他，这样他连自己的3000美元也拿不回来了。因为那4000美元是他外甥女的合法财产，是她母亲过去16年来寄过来的赡养费的一部分，根本就已不存在了。这已在他递交给地区法院的年度报告中正式记录为花销过的开支。年度报告是他作为监护人和委托管理人按照保证人的要求做的。因此，他被偷的不仅是自己节衣缩食省下的钱，还有用卑劣手段吞掉的钱，而且小偷本身竟是受害者；他被偷的4000美元是冒着坐牢的风险得到的，3000美元则是讨价还价，一点一点抠出来的，每次五分一角，差不多花了20年才攒起来：这不仅因为是他的受害者所为，而且她乳臭未干，不过一个黄毛丫头，不费吹灰的

工夫就办到了，既非预谋也无计划，甚至不知道、也不在乎打开抽屉时能找到多少；而自己现在都不能去找警察求助。他本满心以为警察始终是能帮得上忙的，以前也从未给他们添过麻烦，自己纳税这么多年，让他们过着寄生虫般的闲散生活，他们还残暴成性；不仅如此，他也不敢自己去追捕那个女孩，因为如果他追上了，她就会把秘密说出来。因而唯一的出路就是做个虚幻的梦，在以后两年、三年甚至四年的时间里这一直搅扰着他，常常是在夜里辗转反侧，失眠盗汗，其实他早就该将之遗忘脑后了。在梦里，他猛地把她抓住了，他从黑暗中跳出来扑到她身上。这时她还没把所有钱都花光，他就在她张口要喊之前把她杀了。）接着，她又在昏暗中顺着排水管爬下来，和推销员跑了。那个推销员早就犯过重婚罪了。她由此销声匿迹；可是不管她干什么活计，总归是不会坐着镀铬的奔驰车回来的；也不管拍什么照片，总归是不会有参谋部的将军在里面的。

这就是康普生一家了。

这些人中还有一些不是康普生家的人。他们是黑人：

T.P. 他穿着芝加哥和纽约血汗工厂主为他们这种人特制的廉价、光鲜、气势咄咄逼人的衣服，在孟菲斯城比尔街上游荡。

弗洛尼 她嫁给了一个在火车卧铺车间工作的服务生，就搬到圣路易斯去了，后来搬回孟菲斯城为母亲安了家，因为黛西不愿去更远的地方。

卢斯特 一个十四岁的小伙子。他不仅能完全照顾和看护好一个年纪大他一倍、个子是他三倍的白痴，而且还能逗他玩。

黛西

他们在煎熬。

少年与海

第一章 Chapter One

大客轮在起伏的波涛里穿梭，一路鸣笛向周围的捕鱼船队发出警告，以免发生碰撞。船上的防风门敞开着，迎接来自北大西洋的雾气。

“切尼那小子是船上最大的麻烦，”一个身穿粗呢外套的男人“砰”的一声关上门，说道，“不能让他留在这儿。太不知天高地厚了。”

一个满头白发的德国人伸手取了一块三明治，一边咀嚼，一边嘟哝：“我知道这类人。美国佬全是这德行。我告诉你，你应该带一些鞭子，放你船上。”

“哼！那小子也没啥大坏处，他只是个可怜的家伙。”从纽约来的男人慢吞吞地回答。他全身舒展躺在垫子上，面前是湿漉漉的天窗。“打他小时候起，他家人就拉着他在各家旅馆跑来跑去。今儿早上，我跟他妈聊了会儿。那太太挺漂亮，但她凡事都由着儿子。那小子要去欧洲上学。”

“还没开始上学呢，”蜷缩在角落里的费城男人说，“那小子每月的零花钱就有200美元，他跟我说的。他还不到16岁。”

“铁路。是他爸的，对吗？”德国人问。

“没错。铁路、矿山、木材，还有船运。老头在圣迭戈有自己的摊子。在洛杉矶也有。他有6条铁路，太平洋沿岸一半的木材都是他的，他老婆只管花钱就行。”费城人懒洋洋地继续说。“她说西部不适合她，她只是跟着儿子神经兮兮地到处跑。我估计她是想搞清楚什么能让她儿

子感兴趣。佛罗里达、阿迪朗达克、莱克伍德、蒙大拿、纽约，来来回回转个不停。他现在可不是听别人差遣的小跟班。等到从欧洲念书回来，他会变成一个让人恐惧的家伙。”

“他家老头怎么不专门照管他？”穿着粗布尼外套的人问道。

“老头正在忙生意。我估计他听不进去别人的话。过几年，他会发现自己犯下的错误。好可惜。因为要是能好好管教一下，那孩子还是有很多优点的。”

“好好管管，好好管管！”德国人咆哮着说。

“砰”的一声，门又开了。一个身材瘦小的男孩，大约15岁光景，嘴角叼着抽了半截的香烟，斜倚在门口。那张蜡黄的小脸使他显得并不像这个年龄的孩子。从他的表情里透露出来的是犹疑不决、虚张声势和非常低级的小聪明。男孩穿着鲜红色的上衣，灯笼裤，红袜子，脚上穿一双骑行鞋¹，后脑勺上扣着一顶红色的法兰绒帽子。他吹了一声口哨，扫了同伴一眼，然后高声叫喊道：“喂，外面的雾很大。你们听，那些渔船在我们周围吱哇乱叫。要我说，如果我们能撞翻一艘的话，是不是很好玩？”

“哈维，关门，”纽约人说，“带上门，出去。这儿不欢迎你。”

“谁能拦住我？”男孩故意回答，“你给我买的船票吗？马丁先生。我想我应该和站在这儿的其他人一样吧。”

他从棋盘上捡起几粒骰子，左右手来回抛着玩儿。

“喂，先生们。无聊死了。咱们来玩扑克吧？”

没人搭理哈维。他继续抽着烟，一个劲儿地抖腿，用脏兮兮的手指敲击桌子。然后，他掏出一卷钞票，好像要数钱一样。

“你妈下午怎么样？”有人问，“中午饭那会儿我没看到她。”

“我估计在她的头等舱里。一到海上她就晕船。我打算给那女服务生15美元，让她帮忙照顾我妈。我能不下去就尽量不下去。因为每次穿过管家的配餐室时，总觉得那是个神秘的地方。嗨，这是我第一次在海上航行。”

“哦，哈维，别给自己找借口。”

“谁找借口了？先生们，这是我第一次出海。除了第一天我有点晕船外，我一点都不难受，先生们！”说着，他伸出不示弱的拳头，蘸湿手指，继续数钱。

“哦，你真是个大人物，有什么都能从你的脸上清清楚楚地看出来。”费城人打了个哈欠，“要是你能不这么莽撞的话，你肯定能成为你们那儿的优秀人才。”

“我知道。我是美国人——以前，将来，一直都会是。等我去了欧洲，我会证明给他们看的。呸，烟没了。我可不能抽手推车上卖的烟。哪位有纯正的土耳其烟？”

轮机长微笑着走进来，面色红润，浑身湿漉漉的。“喂，麦克，”哈维兴奋地叫起来，“我们去撞一艘船吧，怎么样？”

“要懂点规矩，”麦克严肃地回答道，“小辈们像往常一样尊重长辈，长辈们也会领情。”

角落里传来低低的窃笑。德国人打开烟盒，递给哈维一根闪闪发光的雪茄。

“小朋友，这才是适合你的东西。”他说，“你试试，然后你就会觉得从没有这么快活过。”

哈维点燃这支不怎么可爱的香烟，他觉得自己已经融入到了成人的世界。

“再来点猛的才能把我干倒，”哈维说。他并不知道自已点燃了劣质的东西，一支“惠灵雪茄”。

“我们现在看到的不就是吗？”德国人说，“麦克·唐纳德先生，我们到哪了？”

“还在附近一带，沙菲尔先生。”轮机长说，“今晚我们就能到大浅滩。不过，总体来说，现在我们周围都是捕鱼船队。我们已经和三艘小渔船发生过擦碰，中午撞掉了一艘法国船的桅杆。或许可以说，这真是一次亲密的航行。”

德国人看着哈维满眼泪水，问道：“喜欢我的雪茄吗？”

“不错，够味儿。”哈维挤出几个字来。“我猜，我们慢下来了，是吗？我得出去看看大雾是什么情况。”

“如果我是你，也会这么做的。”德国人回答。

哈维踉踉跄跄地翻过甲板，跑到最近的栏杆旁。他非常难受，但是他看到甲板上的服务生正在收椅子。他在众人面前夸口说自己不晕船，所以他的骄傲使得他只能跑到二等舱船尾的龟背甲板上，这里空无一

人。他爬到甲板边缘处，紧挨着旗杆的地方。这时，他一瘸一拐地更难受了。惠灵雪茄，汹涌的波涛，耳边的噪音，拧成一团，像要把他的心掏出来一样。哈维的脑袋昏沉沉的，两眼直冒金星，身体似乎变轻了，两只脚在海风中飘荡。由于晕船，他几乎虚脱了。海浪卷起客轮，将哈维抛起，翻过栏杆，摔在光滑的甲板上。接着，一个低浪打过来，像母亲的手一样把哈维揽入臂弯。或者说是一把将哈维拉起，顺势扔进海里。深蓝色的大海包围了哈维，他很快便进入了沉睡。

一阵开饭的号角声把哈维惊醒了，他曾经在阿迪朗达克暑期班上学时，听到过这样的声音。慢慢地，他记起自己是哈维·切尼，溺水而死，但他太虚弱了，想不起所有的事情。他的鼻子嗅到一股新的味道，后背湿漉漉的，全身都是海水。当他睁开眼睛时，发现自己还在大海上。因为周围波涛汹涌，好像银色的山脉，他躺在一堆奄奄一息的鱼上，一个后背宽阔、身穿蓝色套头衫的人背对着他。

“完了，”男孩心想，“我死了，肯定的，这个家伙掌管着我。”

正当他暗自嘀咕的时候，那个人转过脑袋来，乌黑卷曲的头发里露出一对若隐若现的金环。

“哈！现在好点了吗？”他问，“就这样躺着，我把船划得平稳些。”

他飞快地调转摇晃的船头。小船跃起足足有20英尺高，但还是驶入了平滑如镜的海面。不过，这登山般的划船方式并没有打断蓝毛衫的话。“干得不错吧，我说，是我救了你。额，什——么？很不错，我说，你们的船又没碰到我，你咋掉下来的？”

“我病了，”哈维说，“病了，控制不住自己。”

“幸亏我及时吹号，你们的船就偏了一点。我以为你被螺旋桨搅碎当鱼饵了，可你一直漂——漂到我这儿了，我把你当成一条大鱼救了上来。这次算你命大。”

“我在哪儿？”哈维问。他不相信自己现在已经安然无恙了。

“你和我在一艘平底小渔船上——我叫曼纽尔。我是双帆船‘我们在此’号上的人，住在格洛斯特。过一会儿，就能吃晚饭了。呃，什么？”

他好像长着两双手和一颗铁铸的脑袋一样，因为他觉得吹大海螺壳似乎不过瘾，必须站起来，随平底船的摆动，才能吹出刺耳尖利的声音，穿透浓浓的海雾。哈维不记得这样的消遣持续了多久，因为他躺在那里看着雾气缭绕，吓得不轻。他仿佛听到了枪声、号角声和尖叫声。有种比平底船还要大的什么东西，异常活跃，隐约出现在船旁，一时间，许多声音袭来，他好像被扔进了一个拥挤的黑洞里。身穿油布雨衣的人们给了他一杯热饮，脱掉了他的衣服，于是，哈维睡了过去。

哈维醒来时，听到了船上的第一声早餐铃。他正在纳闷自己的特等舱怎么变得这么狭小。一转头，他看到一间三角形的舱室，只见一盏煤油灯照亮了巨大的方形横梁，一张触手可及的三角桌占据了从船头到前桅的空间。在船尾，二手普利茅斯壁炉后坐着一个和他年龄相仿的男孩。他长着一张扁平的红色面庞，一双灰色的眼睛闪闪发光。男孩穿一件蓝色的套头衫，高筒胶靴。地上还有几双同样的靴子，一顶旧帽子，几双破羊毛袜，黑黄色的雨衣在床边摇来晃去。这里的空间非常狭小，像塞满了棉花，散发出阵阵气味。油布雨衣有着自己独特的浓厚气味，再混合着炸鱼味、烧焦的油脂味、油漆味、胡椒味和腐烂的土豆味。不过，所有这些味道都被渔船和海水的味道包围着。哈维看到睡觉的地方没有床单，顿时心生厌恶。他躺在一块肮脏的厚棉布垫子上，鼓鼓囊囊

的。而且，这艘船也和蒸汽客轮大不相同，她既不是顺流而行，也不在浪里翻滚，只是漫无目的地漂荡着，傻乎乎地像一匹被缰绳牵着的小马驹。嘈杂的水声在哈维的耳边回荡，船底嘎吱嘎吱作响，周围的一切都让哈维绝望，他小声嘟囔着，不由得开始想妈妈。

“好点了吗？”男孩咧嘴笑着问道，“来点咖啡吗？”他端着满满一锡罐咖啡，加了些糖浆在里面。

“没有牛奶吗？”哈维看了看漆黑的双层床，似乎期待着那里能有一头奶牛。

“哦，没有。”男孩回答，“要到大约九月中旬才能见到。咖啡还不错，我做的。”

哈维默默喝了咖啡。男孩递给他满满一盘脆脆的炸猪肉，哈维狼吞虎咽地吃了下去。

“我还没晾干你的衣服。我猜衣服有点缩水。”男孩说，“它们的样式跟我们的不一样——一件都不一样。你翻个身看看有没有受伤。”

哈维又是伸胳膊又是蹬腿，但说不出哪里有伤。

“很好，”男孩高兴地说，“收拾好，上甲板去。爸爸想见你。我是他儿子。他们都叫我丹。我还是厨师在船上的助手，干一些别人都觉得脏的活儿。自从奥托掉下船后，船上除了我没别的男孩。他是唯一的荷兰人，大约20岁。风平浪静的，你怎么从船上掉下来了？”

“哪有风平浪静？”哈维闷闷不乐地说，“刮了一阵大风，我又晕船。我估计肯定是从栏杆上翻下去的。”

“昨天只有点儿微风，昨晚也是。”男孩说，“不过，在你看来那就是大风啦——”他低声说，“待久了，你就会明白。快点，我爸等你呢。”

和其他倒霉的年轻人一样，哈维长这么大从没有人敢对他发号施令——从来没有。至少不久前是这样。跟他说话，人们得拖长了语调，有时候还得眼泪汪汪、苦口婆心地讲“听话”的好处和理由。切尼太太总是担心伤害哈维的心灵。也许这就是她整天坐立不安，紧张到虚脱的原因。哈维不明白自己为什么要迫于任何人的压力而变得着急。于是，他说：“如果你爸着急要见我，他可以自己下来啊。我想让他立刻带我去纽约，他会得到报酬的。”

丹瞪大了眼睛，这个玩笑让他兴奋不已。“嗨，爸爸，”丹扯着嗓门冲前甲板的船舱门大声喊，“他说您要是着急见的话，就亲自下来见他。听到了吗？爸爸。”

一个低沉的声音传过来，哈维从没有听过从胸腔里发出的这样浑厚的声音：“别胡闹，丹，让他过来。”

丹暗自窃喜，扔给哈维一双变形的骑行鞋。甲板上传来的声音让这个男孩克制住了自己的怒火，一想起自己和父亲的财富，以及回家的路程，他渐渐地感到些许宽慰。毫无疑问，这次获救将使他成为伙伴中的英雄。他爬上陡峭的楼梯，来到甲板上。在船尾差点被一堆杂物绊倒。在通往后甲板的台阶上，坐着一个身材矮胖的小个子男人，胡须刮得干干净净，长着两道灰色的眉毛。夜色降临，浪涌远去，留下平静无垠的大海。远处地平线周围点缀着十几艘渔船的白帆。它们中间露出几个小黑点，那是几艘已经出海的平底船。纵帆船抛了锚停在海上，主桅上挂着一面三角帆。船上只有一个男人留在房顶上——他们把船舱叫作“房

子”，船上再没有其他人了。

“早上好——我应该说，下午好，你已经睡了一天一夜，小鬼。”小个子男人招呼道。

“早上好，”哈维回答。他不喜欢被人叫“小鬼”。作为一个溺水者，他期待能得到同情。他的脚不管什么时候沾了水，他的妈妈都会痛苦不堪，但这个水手好像并不在乎。

“现在，让我们听听。不管从哪方面来说，你都非常走运。你叫什么名字？你打哪儿来（我们猜有可能是纽约）？要到哪儿去（有可能是欧洲）？”

哈维说出自己的名字和大客轮的名字，并且简单讲了这次的故事，还反复强调必须立刻把他送回纽约，到那里他的爸爸会回报他们，要多少都行。

“嗯，”哈维说完以后，胡子刮得干干净净的男人却无动于衷，“我不觉得哪个人或者哪个孩子是特殊的。竟然在风平浪静的时候从船上翻下来，更不能接受什么晕船的借口。”

“借口！”哈维叫道，“你以为我从大客轮上掉到你这艘又小又破的船上是在闹着玩吗？”

“我不知道你说的闹着玩是什么意思，小鬼。不过，我要是你的话，上帝知道，我可不会这么说这条救命的船。第一，这是冒犯教义的。第二，你让我很恼火。——你好像现在还不知道，我是格洛斯特‘我们在此’号的迪斯科。”

“我不知道，我也不关心。”哈维说，“当然，我很感激你们救我。

不过，我想让你明白，越早送我回纽约，你越能拿到更多的报酬。”

“意思是——现在？”迪斯科竖起乱蓬蓬的眉毛，瞪大温和的蓝色眼睛，充满疑惑地看着哈维。

“好多好多钱，”哈维很高兴，终于吸引了迪斯科的注意力，“货真价实的美元。”他把手伸进口袋，微微腆起了肚子，这是他表现自己显赫地位的一种方式。“今天你把我救上来，这是你这辈子干得最棒的一件事。我是哈维·切尼唯一的儿子。”

“他挺受欢迎的。”迪斯科冷冷地说。

“你要是不知道谁是哈维·切尼的话，或者知道得不多——没关系。现在就掉转船头，我们赶快回去。”

哈维认为，美国大部分土地上的人都在议论或嫉妒他爸爸的财富。

“保不准我会，也不会。收起你的肚子，小鬼，你的肚子里全是我的食物。”

哈维听到丹咯咯地笑了起来，他假装在前桅处忙着干活。哈维羞得满脸通红。“我们会给你报酬的，”他说，“你觉得什么时候能到纽约？”

“我不经常去纽约，也不知道波士顿。也许九月左右的时候我们会到达东部海角。听你说起你爸——很遗憾，我没听过他的故事——也许他会给我10美元，也许一个子儿也不给我。”

“10 美元！什么，你瞧，我——”哈维把手伸进口袋里，摸索着那卷钞票。不过，他掏出来的只有一小包湿透的烟卷。

“这可不是合法的钞票，对肺不好。扔下船去吧，小鬼，再找找。”

“钱被偷了。”哈维愤怒地哭喊起来。

“这样，你得等你爸来酬谢我了？”

“134美元——全被偷光了。”哈维激动地翻着口袋。“把它们还给我。”

一丝奇怪的神色掠过迪斯科冷峻的脸庞。“小鬼，你拿着134美元干吗？”

“这是我的一部分零花钱——每个月都有。”哈维觉得这样说会让他们惊讶不已，虽然没那么直接。

“哦，134美元是他零花钱的一部分——只是一个月的！你掉到海里时什么都记不起来了是吧？这么说吧，你可能撞断了一根柱子，就像‘东风’号上的老哈斯金一样。”迪斯科似乎在自言自语——“他在舱口跌倒了，然后一头撞上了主桅——硬邦邦的。大概3个星期以后，老哈斯金都坚持说那是一艘袭击商船的战舰。于是，他宣布要向塞布尔岛开战，因为那个岛属于英国，而且离浅滩又远。后来的航程里，他们把他缝进睡袋，只露出脑袋和脚。现在，他在埃塞克斯的家里成天玩那些破布娃娃呢。”

哈维气得差点噎住，可迪斯科还在继续安慰他：“很遗憾，我们为你感到可惜——这么年轻。我想，我们都不要再提那些钱了。”

“你当然不会提了，就是你偷的。”

“随你怎么说。要是这样能让你舒服的话。现在说说回去的事吧。”

就算能回去，我们也不会那么做。你现在不适合回去。我们刚到大浅滩，自己干活挣面包吧。我们没见过一个月能拿50美元的人，更别说零花钱了。运气好的话，九月的第一个星期能在什么地方靠岸。”

“可——可现在才五月，不能因为你要捕鱼，我就干等着什么也不干吧。我告诉你，没门儿。”

“说对了，没错。没人让你什么都不干。奥托在拉阿沃尔掉下船了，有一大堆你能干的。我怀疑他是在刮大风时没抓牢，掉进海里的。不管怎么说，他都不会回来否认了。既然你来了，显然，这是上帝在帮我。不过，我想你不是真的什么都不会干，对吧？”

“上了岸，我保证让你们都兴奋起来。”哈维恶狠狠地点点头，低声抱怨着，含糊不清地冒出一句“海盗”。迪斯科听到这句差点笑出来。

“只顾说话，我差点忘了。别多嘴。既然上了我们这艘船。那就瞪大眼睛，听丹的吩咐，帮他做事。我会给你工钱，虽然你不值那个价——不过，我会给你——一个月十块五吧。到航行结束时，差不多能拿到三十五块吧。干点活儿能让你的脑袋舒服点。至于你爸、你妈和钱的故事，以后再说。”

“我妈在那艘大客轮上。”哈维的眼睛里满含泪水，“现在就带我去纽约。”

“可怜的女人——可怜的女人！不过，等你回去的时候，她会忘掉这一切的。我们这艘船上有8个人，如果现在就返航的话——这可是一千多英里——我们会错过捕鱼季。就算我同意，船上的其他人也不会答应。”

“可我爸会摆平这事的。”

“他可能会，我不怀疑他会试着那么做。”迪斯科说，“可是，一个捕鱼季可以维持8个人的生计。到九月你见到你爸的时候肯定安然无恙。去吧，去帮丹。就像我刚才说的，一个月十块五。当然，吃住都和我们一样。”

“你意思是我还得洗锅，刷盘子？”哈维说。

“还有别的事情。没人允许你这么大声说话，小鬼。”

“我不！我爸会给你足够的钱，能买得起这艘小破船。”——哈维在甲板上跺着脚说——“你要是能把我安全带回纽约，他会给你10倍多的钱。而且——而且——不管怎么说，你已经从我这儿拿走了134美元。”

“什么——？”迪斯科铁青的脸沉了下来。

“什么？你很清楚那是什么。不仅如此，你还要我干低贱的粗活。”哈维对自己用的这个形容词非常满意——“干到九月。我告诉你没门儿，你听到没？”

哈维言辞激烈地训斥迪斯科时，他正若有所思地看着主桅顶端。

“闭嘴！”迪斯科终于开口，“出于我的责任考虑，我对你自有安排。这是我的决定。”

丹悄悄站了起来，用胳膊肘戳了一下哈维。“别再惹我爸生气了，”他恳请道，“你已经有两三次说他是贼了。从来没人敢这么说他。”

“我不！”哈维声嘶力竭地叫喊着，根本不理睬丹的建议，迪斯科依旧在一旁沉思。

“好像有点儿不友好，”迪斯科终于开口了，他扫了哈维一眼，“我不怪你，一点都不怪你，小鬼。要是我把你的胆汁打得喷出来，你可别怪我。搞清楚我说的是什么是了？给纵帆船上另一个男孩打下手，每月给你十块五——包吃住——为了教你学东西，也为你的健康考虑。明白不？”

“不！”哈维说，“带我回纽约，要不然我让你——”

他记不清接下来发生了什么。他躺在船舷上的漏水口处，捂着流血的鼻子，迪斯科平静地低头看着他。

“丹，”迪斯科对儿子说，“我看到这个男孩时，并没有仓促地去判断。你以后也绝不能被草率的判断所误导。丹，现在我觉得他很可怜。因为他显然被自己那番上等生活的话给迷惑了。他给我的名字不一定是真的，他说的别的话也一样。——至于掉下船的说法，我也半信半疑。你对他好点，丹，我给你的工钱是他的两倍。他的脑子完全糊涂了，干点活儿让他清醒些吧！”

迪斯科神色凝重地走进船舱，那是他和其他水手睡觉的地方。只留下丹安慰那个可怜的三千万家产的继承人。

1 骑行鞋，又称自锁鞋，骑自行车的专用鞋。其鞋底有金属锁扣，骑行时，正好和自行车脚蹬吻合，接触后，金属扣会自动卡在脚蹬上，防止颠簸或快速骑行时，脚从脚蹬上滑落发生危险。

第二章 Chapter Two

雨下得越来越急，越来越密，落在满是油污的地板上。“我警告你，”丹说，“爸爸平时不像今天这么暴躁，你真是活该。哼！你不该那么说话。”哈维还在双肩起伏，啜泣抽搐着。“我明白那种感觉。爸爸第一次打我，就是这个样子，那也是最后一次打我。——那是我第一次出海。当时我很难过，而且很孤单。我明白。”

“就是，”哈维咆哮道，“那个男人要么疯了，要么喝多了，我——我是什么都不会做的！”

“别那么说我爸，”丹小声说，“他一喝酒就发火，而且——好了，他跟我说你是个疯子。你怎么想到说他是贼的？他是我爸。”

哈维坐起来，擦了擦鼻子，讲了那卷找不见的钞票。“我没疯，”他反复强调，“只是——你爸从没见过比5美元还大的钞票，我爸一个礼拜就能买下这艘船，绝对没错。”

“你不了解这艘船的价值。你爸爸肯定有很多钱。他的钱是哪儿来的？爸爸说疯子没真话。你说啊。”

“他有金矿，还有其他的生意，在西部。”

“我在书上看过这样的买卖。也是西部？他是不是骑着漂亮的小马驹，拎着一把手枪，就像马戏团表演一样？人们都说那是狂野的西部。我听过他们的马刺，笼头，都是货真价实的纯银。”

“你真是个大笨蛋！”哈维尽管不高兴，但还是被丹逗乐了，“我爸从来不骑什么小马驹，他出去的时候会坐车。”

“什么？运龙虾的车？”

“不，当然是他自己的私人专列。你长这么大，见过私人专列吗？”

“司兰汀先生有一辆，”丹小心翼翼地说，“我见过它在波士顿停车场放着，三个黑鬼推着跑（丹的意思是在擦玻璃）。不过，司兰汀先生拥有长岛的每条铁路，人们都这么说，还说他买下了半个新罕布什尔，建起一排栅栏，里面养着狮子、老虎、熊、水牛、鳄鱼之类的东西。比曼先生是个百万富翁。我见过他的车，懂吗？”

“人们说我爸是几百万富翁。他有两辆私人专列。一辆以我的名字命名，叫‘哈维’号；另一辆是我妈妈的名字，叫‘康士坦茨’号。”

“等会儿，”丹说，“爸爸从来不让我发誓，但我想你应该可以。在我们继续往下说之前，我希望你敢发誓，要是说谎的话就会不得好死。”

“当然敢。”哈维回答。

“还不够。你得说‘我要是说了假话，我就不得好死。’”

“要是我说的哪个字有假，”哈维说，“我立马死在这儿。”

“包括那134美元和这些事儿？”丹问，“我听见你和爸爸说的了。我看你要是说谎的话，就会被大海吞下去，就跟约拿²一样。”

哈维气得满脸通红，急着为自己申辩。丹是个聪明的年轻人，有自

己的判断力。十分钟的盘问后，他深信哈维并没有撒谎——没多少假话。而且，还有那些最可怕的誓言，那是丹自小就知道的。哈维坐在船舷的漏水口处，红着鼻子，兴奋地讲述着一件又一件令人难以置信的奇闻。

“天哪！”当哈维骄傲地列举了一系列关于“哈维”号的事迹以后，丹终于发自内心地赞叹起来。接着，他那宽阔的脸盘上露出一丝喜悦，不禁咧开嘴调皮地笑了起来。“我相信你，哈维。爸爸这辈子终于做了一次错误的判断。”

“当然，他错了。”哈维一边说，一边早已想好了如何报复。

“他肯定会发疯的。爸爸最讨厌判断失误。”丹仰面躺下，用手拍着大腿说，“喂，哈维，你可别把这事说出去。”

“我可不想再挨打。不过，我会找机会报仇的。”

“我还从没听过谁敢和爸爸算账。但是，他肯定会再打你，他越犯错越揍你。不过，金矿和手枪——”

“我可从没提过手枪一个字”，哈维插嘴道，因为这关系到他的誓言。

“对，你没说过。两辆私家专列，还有，一辆是用你的名字命名，一辆是你妈妈的。还有一个月200美元的零花钱。不愿为挣一个月十块五而被打进漏水口。这可是本次捕鱼季最大的收获。”丹忍不住笑起来。

“那我没错吧？”哈维以为找到了同情自己的人。

“你错了，大错特错！你在我旁边待着，跟着我干。或者你会抓住机会的，我也会支持你，帮你的。爸爸一般都会尽力帮我，因为我是他儿子。他讨厌被惯坏了的人。我估计你今天非常生他的气，我也经常像你这样。不过，爸爸是一个正直能干的人，所有捕鱼船队的人都这么说。”

“这就是你说的公正，是吧？”哈维指着自已红肿的鼻子说道。

“那没事儿，不就是让你流了点血吗？爸爸是为你好。不过，话又说回来，谁要是认为我爸、我或者是这艘船上的任何人是贼的话，我是不想和这个人打交道的。我们不是靠码头为生的普通人。我们是渔夫，我们在一起出海捕鱼已经6年多了。这点你别搞错了！我跟你说过，我爸不允许我发誓。他说那是些没用的誓言，还会揍我。我给你晾衣服时，不知道你兜里有什么，我没注意看。但是我要说清楚，像你刚才发誓那样，我和爸爸都没有拿你的钱。你被带到船上后，只有我和爸爸两个人见过你，我们对你的钱一无所知。这就是我要说的，明白？”

流淌的血显然让哈维的脑袋清醒了，也许海上的孤寂也起了作用。“说得对，”哈维迷惑不解地低下头，说道，“好像有个人救了我，没让我淹死，我应该感谢他。丹。”

“哦，你真是摔晕了，傻瓜。”丹说，“这里只有我和爸爸见过你。那个厨子不算。”

“我也许应该想到，那笔钱就是那么丢了的，”哈维自言自语道，“而不应该把见过的每个人都当成贼。你爸爸呢？”

“在船舱里。你又想找他干吗？”

“等会儿你就知道了，”哈维说完，东倒西歪地走下台阶。他的脑袋到现在还是一直在嗡嗡作响。通往船舱的路上挂着一只钟，在轮舵那里一眼就能瞧见。迪斯科坐在巧克力色的船舱里，忙着在记事本上写什么东西，嘴里还不时地使劲咬着手中的黑色大铅笔。

“我刚才表现得很不好。”哈维很惊讶，自己竟然可以这么温顺地说话。

“现在又怎么了？”船长问，“又把丹骂了一顿吗？”

“不，我要找你。”

“听着呢。”

“嗯。我——我来这儿是要收回刚才说过的话。”哈维飞快地说，“我快要淹死的时候，有个人救了我——”他咽了一口唾沫。

“哎，你要这么说，就像个男子汉了。”

“他没告诉我名字。”

“说得对，说得对。”迪斯科露出了干巴巴的诡异的笑容。

“所以，我是来说对不起的。”哈维又咽了一口唾沫说道。

迪斯科慢慢从他坐着的储物柜上站了起来，伸出足足有11英寸长的大手。“我觉得刚才那样做对你的意识有好处。事实证明，我的判断没错。”从甲板上传来吃吃的窃笑。11英寸长的大手紧紧握住哈维的手，握得他从手一直麻木到胳膊肘。“我们会对你好的，小鬼。我觉得在你身上发生的那些不好的事情都已经过去了。责任不完全在你。赶紧去干

活儿吧，你会平安无事的。”

哈维回到甲板上时，耳根通红。丹说：“你的脸都白了。”

“我没觉得。”哈维说。

“我不是那个意思。我听见爸爸说的了。每次爸爸说不去想别人的不好时，爸爸就是对他让步了。他讨厌自己判断失误。呼！呼！一旦爸爸做出什么决定，他宁可在英国人面前流血，也绝不会改变想法。很高兴，事情都解决了。爸爸说不能送你回去，他是对的。这是我们的生存方式——捕鱼。再有不到半个小时人们就回来了，就跟鲨鱼追着一条死鲸鱼一样。”

“为什么？”哈维问。

“当然是为了吃晚饭啊。你的胃没有咕噜咕噜地提醒你？你要学的还真不少呢。”

“我想我也饿了。”哈维暗自哀伤，看着头顶混乱的绳索和杂物。

“这艘船真的很棒。”丹没有明白哈维的眼神，热情高涨地说，“特别是等我们把主帆放下来，把所有的鱼都抹上盐的时候。不过，在那之前，我们得先干活儿。”他指着两根桅杆间漆黑的空隙处，那里是打开的主舱口。

“那是干吗的？空空荡荡的。”哈维说。

“你，我，还有其他人，都得来把它装满，”丹回答，“那是放鱼的地方。”

“活的？”哈维问。

“哦，不。它们都是死鱼——直挺挺的——用盐去腌。储藏室那儿有成百上千桶盐，我们都没地方放行李了。”

“可是，鱼在哪里呢？”

“它们在海里，只要虔诚祈祷它们就会上船来。”丹引用了渔民的谚语说道。“昨晚捞起你的时候，你身上带着40多条鱼。”

丹指了指船尾的甲板前面用木围栏围成的鱼舱。

“等他们回来时，咱俩要用水把鱼冲干净。今晚，鱼舱会装满的。我见过船上堆满了等着加工的鱼，吃水都下降半英尺了。我们站在桌子前忙活，困得差点把自己当鱼给剖开了，累得都快睡着了。瞧，他们现在回来了。”丹的目光越过低矮的舷墙，看到六七艘平底渔船在波光粼粼的海面上向他们驶来。

“我还从没有这么近距离地观察过大海，”哈维说，“真漂亮。”

夕阳照在海面上，将其映成了粉紫色。金色的阳光照在角落的木桶上，桶里的鲭鱼泛起蓝色和绿色的条纹。视线所及的每艘纵帆船似乎都在用看不见的绳子拖着自己的平底小渔船前进。小船上的黑色人影像装了发条的玩偶一样。

“大家的收获都不错，”丹眯着眼睛说，“曼纽尔的船都没地方再装下一条鱼了。他的船被压得像睡莲叶子一样低。”

“哪个是曼纽尔？我不知道怎么才能像你一样认出他们来。”

“最南边的最后一艘船。昨晚就是他发现你的。”丹一边指向曼纽尔，一边说，“曼纽尔划船像葡萄牙人，你认不错。他的东边——从划船姿势就能看出来——是宾夕法尼亚。一眼就能看出来，船上装满了小苏打。宾夕法尼亚的东边——看！他们连成一排——隆起的肩膀，那是长腿杰克。他是戈尔韦人，住在南波士顿。他们大部分时间都在那里，而且他们擅长划船。往北，远处点儿——你一会儿就能听到他的歌声——那是汤姆·普拉特。他以前参加过战斗。他在‘旧俄亥俄号’战舰上待过，那是我们的第一艘军舰——他只说合恩角的事儿，其他的从不多说一句，除了唱歌的时候。不过，他捕鱼确实很有一套。听！我说什么来着？”

一阵悠扬的曲调从北方驶来的平底船上悄悄飘过来。哈维听到歌曲大概是关于什么人的手脚冰凉，接着又唱道：

“打开航海图，寂寞的航海图

相逢在哪里

头顶乌云密布

脚下雾气缭绕”

“满满一船，”丹笑呵呵地说，“要是他唱‘哦，船长’，那也说明他捞了不少鱼！”

小调还在继续：

“现在，送给你，哦，船长

我虔诚地祈祷

永远不要埋葬我

不论是在教堂还是修道院”

“这是汤姆的两个拿手好戏。他明天会告诉你关于‘旧俄亥俄号’的故事。看到他身后那艘蓝色平底船了吗？那是我叔叔——我爸爸的兄弟——要是大浅滩有什么倒霉的事的话，当然都会轮到索尔特叔叔。你看他划得多慢。我用我的工资和提成打赌，他是今天唯一一个被蜇伤的——蜇得还不轻。”

“什么东西蜇了他？”哈维饶有兴趣地问道。

“大部分时候是海草莓。有时候是海南瓜，有时会是海柠檬和海黄瓜。对，他的胳膊肘以下都被蜇过。这个人算是倒霉到家了。现在，咱俩该用绳子和滑轮把他们拉上来了。刚才说的是真的吗？你说从出生到现在一指头的活儿都没干过，听起来有点儿可怕，是吧？”

“不管怎样，我打算学着干活，”哈维坚定地回答道，“这是全新的开始。”

“把钩子拿过来，在后边。”

哈维抓起一根绳子，从主桅的钢索上取下悬挂着的长铁钩。丹从他的千斤顶上拉下另一只钩子。曼纽尔划着满载而归的平底船，来到纵帆船旁边。这个葡萄牙人露出闪亮的笑容，哈维后来才真正理解了这种笑容。他手持短柄鱼叉，开始把鱼扔到甲板上的围栏里，大叫道：“231条。”

“把钩子扔给他，”丹说道。哈维把钩子扔到曼纽尔的手中，他把钩子扔到平底船头用绳子围起来的索圈里，勾住丹的滑轮，抓住把手环，

顺势攀上了纵帆船。

“拉！”丹大叫，哈维照做了。他惊奇地发现平底船轻松地升起来了。

“抓住，船还没落在桅顶横杆上！”丹笑着说。哈维不敢松手，船停在了头顶的半空中。

“低头，”丹又叫道。哈维低下头时，丹用一只手扶着这只轻便小船，直到它稳稳地落在主桅后面。“它非常轻，正好能坐下一个人。在海上航行有很多门道。”

“啊哈！”曼纽尔伸出褐色的手，说：“现在好多了？昨晚我捕鱼时发现了你。现在，轮到你捕鱼了。嗯，怎么样？”

“我——我非常感谢。”哈维结结巴巴地说道。他那只可怜的手又可怜巴巴地伸进了口袋，但他突然想起自己已经没有钱可给了。当他深入了解曼纽尔后，他才明白一个小小的错误就会让这个人心神不定，浑身发烫。

“用不着谢我，”曼纽尔说，“我怎么会让你在大浅滩上漂荡呢？现在你也是渔夫了。——嗯，怎么样？哦，啊哈！”说着，曼纽尔前后扭动身子，把身上的东西都解了下来。“我今天还没清理渔船呢，太忙了。那些鱼扑得太快。丹尼，我的孩子，帮我清理一下。”

哈维立即走上前。这是他的救命恩人。他要为这个人做些什么。丹把拖布扔给哈维。哈维倚着平底船笨拙地擦洗鱼群留下的黏液。不过，他是诚心诚意地在干活。“把脚踏板掏出来，它们滑进凹槽里了，”丹说，“擦干净，放下去。千万别一脚踩下去，除非你希望这艘船坏掉。

那是长腿杰克。”

闪闪发光的鱼从旁边的平底船滑进围栏里。

“曼纽尔，你拿好钓具，我摆桌子。哈维，去清洗曼纽尔的船。长腿杰克的船就在曼纽尔的船上面。”

哈维抬头望去，头顶还有一艘平底船。

“看上去就像印度方块，是吧？”丹看着一艘一艘的船在头顶上方擦起来，说道。

“船下水时就像鸭子一样，”长腿杰克的下巴上长着灰色的胡子。这个大嘴巴的戈尔韦人像曼纽尔刚才那样，前后扭了扭身子。迪斯科高亢的声音从天窗飘了出来，人们甚至还能听到他咬铅笔的声音。

“149条半，倒霉，迪斯科，”长腿杰克说，“我只有拼了这条老命才能装满你的口袋。预定计划没完成，葡萄牙人赢了我。”

又一艘平底船停靠过来，一条条鱼纷纷跳进鱼舱。

“203条。瞧瞧这些客人！”说话的这个家伙比戈尔韦人的块头还要大，他的脸上有一块紫色的刀疤，从左眼斜着劈下来，直到右嘴角，看起来很奇怪。

哈维不知道还需要干什么。每一艘平底船落下时，他都会去擦拭，拉出脚踏板，放在船底。

“他干得不错。”脸上带着伤疤的汤姆认真地注视着，有些惊讶。“干活儿有两种方法。一种是打鱼法——先随便拿起绳子的一头，

上面都打上活结——另一种是——”

“我们在‘旧俄亥俄号’上干活的方式！”丹插嘴道。他用一块长板轻轻碰了一下汤姆的膝关节，“躲开，汤姆，我要摆桌子。”

说着，他便将木板的一端用力塞进船舷的缝隙中，迅速弯腰，躲开来自这个好战男人的回击。

“他们在‘旧俄亥俄号’上也这么做，丹，明白吗？”汤姆笑着说。

“我猜他们都是斜眼，因为他们没找到回来的路，而且我知道，如果某人还不让开的话，他就得去主桅杆上找他的靴子了，往前！我忙着呢，没看见吗？”

“丹，你在船上躺一天了。”长腿杰克说，“你一点都不尽职。我敢肯定，一个星期你就能把我们的货物管理员给带坏。”

“他叫哈维，”丹挥动着两把奇形怪状的刀子，说道，“用不了多久，他就抵得上波士顿五个挖蛤蜊人了。”他把刀子优雅地放在桌上，歪着头看了看，对这一结果非常满意。

“我看那是42条，”船边传来一个低低的声音。接着，一阵哄堂大笑过后，又一个声音说道：“我的运气来了。因为我捕了45条，不过我被蜇惨了。”

“42还是45，我弄不清了。”又是那个低沉的声音。

“宾和索尔特叔叔在数鱼，这比马戏团都热闹。”丹说，“你瞧着吧。”

“进来——进来！”长腿杰克大喊，“孩子们，外面全湿了。”

“42，你说的。”索尔特叔叔说。

“那我再数一遍。”一个温和的声音回答。

两艘小船一起划回纵帆船的旁边。

“你怎么那么有耐心！”索尔特叔叔在后面划着船，突然拍打起水花，嚷嚷道，“哪有你这样的农民，竟然来打鱼，害得我都输了。”

“对不起，索尔特先生。我是因为胃痉挛才上船的，我记得是你劝我来的。”

“你和你那紧张的消化不良应该淹死在鲸鱼洞里。”矮胖的小个子索尔特叔叔咆哮道，“你又招惹我了，你说到底是42还是45？”

“我没记住，索尔特先生，让我们数数。”

“别指望它会是42，我数的是45。”索尔特叔叔说，“你仔细数了吗，宾？”

迪斯科走出船舱，用威严的语气说：“索尔特，你现在立马把鱼扔上去。”

“爸爸，别管他们。”丹低声说，“好戏才刚刚开始。”

索尔特辛苦地忙活着，一条一条地叉着数。长腿杰克大声喊道：“他妈的真是太逗了！”另一条平底船上的小个子男人在船舷上刻下一连串记号。

“这是上个礼拜捕的。”他一边说，一边伤心地抬起头，看着食指刚刚挪开的地方。

曼纽尔用胳膊肘轻轻推了推丹。丹迅速冲向船尾的滑车，身体尽量靠在船舷边。曼纽尔让平底船迅速向前移动，丹用钩叉钩住船尾的绳子。其他人一起使劲拉起绳索，将船靠拢——连人带鱼全拉了上来。

“1，2，4——9，”汤姆·普拉特盯着鱼，认真地数着，“47条，宾，不错啊！”丹把宾从船尾拉起来，拖到堆满鱼的甲板上。

“停下！”索尔特叔叔大喊，拍着腰说，“停下，我搞不清自己有多少条鱼了。”

还没来得及反抗，他就被抬到船上了，和宾一样的待遇。

“41条。”汤姆·普拉特说，“索尔特，你竟然输给了一个农民，就这样还算个水手吗？”

“肯定没数对，”他踉踉跄跄地爬出鱼舱，“我都快被蜇成马蜂窝了。”

索尔特叔叔厚实的双手肿胀起来，变成斑驳的浅紫色。

“一些同行会发现海草莓根，”丹指着刚刚升起的月亮说，“如果他们像我一样，必须下去打捞的话。”

“还有别的，”索尔特叔叔说，“岸上的肉吃多了就会变懒，开始嘲笑自己人了。”

“你们坐下！坐下！”甲板上传来一个声音，这是哈维从未听过的。

迪斯科·特鲁普、汤姆·普拉特、长腿杰克和索尔特听到后继续往前走。小个子宾解下方形的绕线轮和缠绕在一起的麻绳；曼纽尔四肢伸展，躺在甲板上，丹跳进鱼舱，哈维听到他在用锤子敲打木桶。

“索尔特，”他说，“马上就要吃饭了，然后我们得去加工鱼。你可以把鱼扔给我爸。汤姆·普拉特和爸爸一起装船，你能听到他俩吵架。我们是第二队，你，我，曼纽尔和宾——这艘船上最年轻最帅的。”

“那有什么用？”哈维说，“我饿了。”

“再等一会儿就能吃饭了。嗯，今晚的饭还不错。虽然爸爸的那些兄弟很烦人，但雇了个好厨师。今天收获不小，是吧？”他指着堆满鳕鱼的鱼舱说，“曼纽尔，你那儿的水深是多少？”

“二十五英寻，”葡萄牙人迷迷糊糊地回答，“今天撒网又快又准。改天我表演给你看，哈维。”

年长的人们还没回来，月光开始慢慢洒在寂静的海上，根本无须厨子大喊“第二队”，丹和曼纽尔便走下船舱。桌子前面坐着的是汤姆·普拉特，最沉着缓慢的老人之一，他已经吃完饭，用手背抹了抹嘴巴。哈维跟着宾坐下来，前面摆放着一盘鳕鱼的杂碎、猪肉丁、薯条和一块热面包，还有一些浓烈的黑咖啡。他们饿坏了，却一直等着，直到宾夕法尼亚庄严地祷告完。然后，他们才埋头吃起来。这时，丹端起杯子深深吸了一口气，问哈维感觉如何。

“很饱，但还能塞一片。”

厨子是一个像煤炭一样黑的大块头黑人。和哈维所见过的黑人不同，他不爱说话，只是心满意足地笑着，比画着，示意人们多吃一点。

“瞧见没，哈维？”丹用叉子敲打桌子，说道，“就像我说的那样。最年轻最帅的男人们——我，宾，你和曼纽尔——我们是第二队，第一拨吃完我们才能吃。他们都是老家伙，又小气又能吃。得先让他们的胃口高兴，所以他们先来吃喽，可这并不是理所当然的。对吧，大厨？”

厨子点点头。

“他不会说话吗？”哈维低声问，

“没怎么打过交道。我们也不太了解。他的舌头本身就有点奇怪。他来自布列塔尼角岛，那儿的农民操一口苏格兰家乡音，他也是。布列塔尼角岛全是黑人，人们都是在打仗时逃过去的，所以说话都像农民——气呼呼地像在吵架。”

“那不是苏格兰话，”宾夕法尼亚说，“那是盖尔语，我在书上见过。”

“宾读过的书不少。他说得大多数都对——除了数鱼——额？”

“他们说多少就是多少吗？你爸不检查就直接认定？”哈维问。

“什么？当然。有什么必要为一堆老鳕鱼说谎呢？”

“有人就谎报过，”曼纽尔插嘴道，“他每天都在说谎。5条，10条，25条，或者更多。”

“在哪儿？”丹说，“那肯定不是我们的人。”

“安圭拉岛的法国人。”

“啊！西海岸的法国人不算。显而易见，他们不识数。如果你碰到

他们的软钩，哈维，你就会明白。”丹极为鄙视地说，“每次穿衣服，只多不少。”

长腿杰克大喊着走出舱门，“第二队”立刻爬了上去。

月光下，桅杆和索具的影子随着一直悬挂着的三角帆在起伏的甲板上来回翻滚；船尾的鱼堆像流淌的银子一样倾泻下来。鱼舱里传来了踩踏声和抱怨声。迪斯科·特鲁普和汤姆·普拉特在盐箱之间来回走动。丹递给哈维一只长柄草耙，把他领到粗木桌靠船舱的一侧，索尔特叔叔拿刀柄不耐烦地敲打着，脚下放着一桶盐。

“你负责把鱼扔给舱口处的爸爸和汤姆·普拉特，注意别让索尔特叔叔扎到你的眼睛，”丹飞快地跑到鱼舱，说，“我在下面递盐。”

宾和曼纽尔站在齐膝深的鳕鱼堆里，迅速挥舞着小刀。长腿杰克戴着手套，旁边放着一只篮子，面朝桌子和索尔特叔叔。哈维盯着长柄草耙和鱼桶。

“嗨！”曼纽尔大喊。他弯下腰，拎起一条鱼，一根手指卡住鱼鳃，另一根手指去抠鱼眼。然后，他把鱼放在桶边，用闪闪发光的刀刃，从鱼的喉部切到鱼尾，发出撕裂的声音，又在鱼鳃两侧各切一刀，然后把鱼扔到长腿杰克脚下的篮子里。

“嗨！”长腿杰克戴着手套，握着一把勺子，挖出鳕鱼的内脏，扔进篮子里。然后，他又用另一只扳手和勺子将鱼的脑袋和内脏清理干净。空膛的鳕鱼滑向索尔特，他用力吸了一口气，接着，撕裂声再次传来，鱼的脊骨便飞出船舷了。被取了内脏的无头鱼敞开肚皮，被扔进鱼桶，海水飞溅，哈维看得目瞪口呆。第一声大吼之后，所有人都安静了下来。鳕鱼像活着一样在众人手里滑行。过了很久，哈维回过神来，不再

琢磨这不可思议的娴熟技艺。这时，他的鱼桶已经满了。

“扔！”索尔特头也没回地咕哝道。于是，哈维一次两三条地把鱼扔进船舱。

“嗨！一捆一捆地扔，”丹说，“别散开！索尔特叔叔是船上的剥鱼能手。仔细看，学着点！”

确实，胖大叔动作敏捷，好像在争分夺秒地切割书页一样。曼纽尔半蹲着，弯下腰，仿佛一尊雕像，但他的两条长胳膊还在不停地捞鱼。小个子宾辛苦地坚持着，但显然很疲惫。有一两次，曼纽尔想找机会帮他，但又不能停下自己手中的活儿。曼纽尔突然大吼一声，因为他的手指被法式鱼钩给钩住了。这些钩子是用柔软的金属做成的，用完后还能再次使用。不过，鳕鱼经常会逃脱软钩，又在其他地方被逮住。这也是格洛斯特船队看不起法国人的原因之一。

粗盐抹在生肉上，发出刺耳的声音，听起来好像砂轮在旋转——刀子碰撞鱼桶时发出的叮叮当当声，拧断鱼头的咔嚓声，鱼肚和内脏飞溅的啪嗒声，索尔特叔叔的刀子划刻鱼骨的咔咔声，湿漉漉的空膛鱼落在鱼桶里的扑通声，各种声音混在一起。

一个小时后，哈维恨不得全世界都停下来。因为鳕鱼比想象中的要重。由于长时间投掷，他的后背生疼。不过，当他想到这是他平生第一次参与劳动时，顿觉自豪不已，只能装作平静地坚持着。

“喂，刀子！”最后，索尔特叔叔叫道。宾迅速跑过来，气喘吁吁地赶到鱼堆旁。曼纽尔扭动腰身，舒展筋骨。长腿杰克靠着船舷。厨子走了过来，像个黑色的影子一样一声不吭，收拾好一大堆鱼骨和鱼头，然后离开了。

“鱼头早餐和海鲜浓汤。”长腿杰克咂咂嘴说。

“哎，刀子！”索尔特叔叔又重复道。他的手里握着扁平的，弯曲的切割工具。

“看看你的脚下，哈维。”丹朝下喊。

哈维看到6把匕首插在舱口里侧的系索耳上。他把刀子递给大伙儿，又把钝的那些拿了回来。

“水！”迪斯科·特鲁普说。

“把筐给我，还有长柄勺，哈维，快点。”丹说。

不到一分钟哈维就回来了，手里拿着长柄勺，里面装着褐色的液体，看着不怎么新鲜，尝起来却像果汁一样。迪斯科和汤姆·普拉特喝过后，下巴都要酸掉了。

“这是鳕鱼，”迪斯科说，“它们不是大马士革无花果，汤姆·普拉特，更不是银条，自打一出海，我已经告诉过你不止一次了。”

“这件事说了7个捕鱼季了。”汤姆·普拉特冷冷地回答道，“放整齐就是放整齐，就算堆放压舱石都有对有错，要是你见过把400吨的铁放进——”

“嗨！”曼纽尔大喊一声，众人立刻开始干活，直到鱼舱空了才停下来。等到把最后一条鱼扔下来的时候，迪斯科·特鲁普和他的兄弟摇摇晃晃地到船舱里去了；曼纽尔和长腿杰克继续前行，只剩汤姆·普拉特独自等了好久才溜回舱口，最后也消失了。不到半分钟，哈维就听到船舱里鼾声震天，他双眼无神地望着丹和宾。

“丹尼，我比上次表现得稍好了点。”宾说话的时候，困得眼皮都抬不起来了。“不过，我觉得我该帮着清理的。”

“你用不着心存愧疚，”丹说，“去睡觉吧，宾，你没必要干孩子们的活儿。拿一只桶过来，哈维。哦，宾，把臭鱼篮子倒干净再睡。你能坚持会儿吗？”

宾提起沉甸甸的篮子，里面装满了鱼的内脏。他把东西全都倒进一个带有铰链盖的桶里，然后，他也离开了船舱。

“孩子们，加工完鱼以后，打扫干净。按‘我们在此’号上的规定，好天气时该由你们值班。”丹精力充沛，冲洗了鱼舱，收起桌子，放在月光下晾干。他用一捆麻絮把刀上的血渍擦干净。然后，他又开始在磨石上磨刀，哈维按照他的安排，把鱼的内脏和脊骨扔下船。

第一桶垃圾扔下去时，溅起的是一个银白色的鬼影，它直直地从油亮的海面上跃起，发出诡异的叹息，像口哨声一样。哈维吓得大叫一声，连忙向后退，丹却哈哈大笑起来。“逆戟鲸，”丹说道，“来找你要鱼头了。它们饿的时候就会这样跳起来。它们的呼吸声就像从坟墓里发出的哀号，对吧？”烂鱼散发出浓浓的恶臭，弥漫在空气中，白色的柱子一样的身子沉下去时，光滑的水面泛起了油乎乎的泡沫。“你以前没见过逆戟鲸吗？以后出海，这很常见。嘿，船上有个男孩真不错。奥托岁数太大，还有一个荷兰人，他老和我掐架。我倒不在意他满嘴教义，你睡着了？”

“困死了，”哈维一边打盹，一边回答。

“值班时不能睡觉。站起来，去看看我们的锚灯是不是还亮着。现在该你值班了，哈维。”

“呸！能有什么危险？这么好的天气。呼——呼！”

“爸爸说，这种时候才会出事呢。好天气容易迷糊。可能你还没反应过来，就被一艘班轮撞成两截了。然后17名厚脸皮的官员，装出绅士的样子，指手画脚地斥责，说咱们大雾天不点灯。我好心教你，如果你要是再打盹，我就用绳子抽你啦。”

月光见证着大浅滩上千奇百怪的景象，照在这个穿着灯笼裤和毛线衫的瘦削的年轻人身上，他走在重达70吨的纵帆船上，在杂乱的甲板间摇摇晃晃。在他的身后，走着另一个男孩，呵欠连天，一边打盹儿，一边像行刑者一样挥动打结的绳子，不时地抽打几下。

挂着铰链的轮子发出低沉温柔的咔嗒声，三角帆在微风中发出噼里啪啦的声音，起锚机嘎吱嘎吱地响。令人头疼的巡逻还在继续。任凭哈维如何反抗，威胁，低声抱怨，最后都哭出来了，可丹还是不松口，只是一个劲儿地说提高警惕有多重要。他用绳子一会儿抽打平底船，一会儿又去抽哈维。终于，船舱里的时钟敲了十下，第十声响起时，小个子宾爬上甲板。他发现两个男孩瘫倒在主舱口处，并排沉沉地睡去了。于是，宾只好把他俩拖回到自己的床铺上。

[2](#) 约拿，灾星。约拿是《圣经》中的一位先知，因违背上帝意愿给同一艘船上的人们带来厄运，后被抛进大海，海上立刻风平浪静。

第三章 Chapter Three

如同40英寻水深般的沉睡后，哈维觉得神清气爽，耳聪目明。他狼吞虎咽地吃着早餐。人们把一大盘鲜美多汁的鱼片一扫而光——这是厨子用昨天晚上收集的鱼块做成的。哈维和丹收拾了锅碗瓢盆，还有老船员们的剩饭。年长的都出海捕鱼了，只剩他俩把猪肉切片，为午饭做好准备，擦拭了船桅，添满油灯，帮厨子加了煤和水，查看了装满战利品的前货舱。美好的一天又来到了——温和、轻柔、澄明。哈维深深地吸了一口空气。

夜里，海上聚集了更多的纵帆船。广阔的海平面上布满了风帆和平底船。远处的地平线上，一艘看不见船身的大客轮在冒烟，惊扰了大海的蔚蓝。东方，一艘大船正在扬起高贵的风帆，好像给整幅画面拉开一道正方形的裂口。迪斯科在舱顶抽烟——一只眼睛盯着周围的船只，另一只眼睛看着桅顶的一面小旗子。

“爸爸每当这样陷入沉思，”丹低声说，“都是在为大伙儿盘算。我敢拿我所有的工资和利润打赌，我们马上要抛锚停船了。爸爸对鳕鱼了如指掌，整个船队都知道这一点。看见没，他们一个个都跟上来了，不用特别留意什么，只要一直跟着咱们就行。那是‘里波王子’号，来自查塔姆³。昨晚，她就偷偷跟上了。看见那艘大船了吗？挂着一面新三角帆，前帆上还有块补丁，她是西查塔姆来的。她待不了多久，除非突然走运，自打上一季就这样。她倒不会悄悄跟在后面，什么锚都拖不住她……爸爸像那样吐出烟圈时，他准是在观察鱼群。要是我们现在跟他说话，他会发疯的。上次，我就这么没眼力见儿，他拎起一只靴子就抽

我。”

迪斯科往前凑了凑，嘴里叼着烟斗，双眼空洞无神。正如他儿子所说，他正在研究这些鱼——凭着自己的知识和经验，他凝视着在大浅滩徘徊的鳕鱼群。他接纳了那些跟在他屁股后面，想一探究竟的船队。他觉得那是对他的能力的一种恭维，不过，现在可不欢迎他们。他希望能赶走其他船只，好让自己的船可以单独停靠。因为马上要到维京岛了。这里的鱼群都在狂风暴雨的区域。迪斯科站在一条20磅重的鳕鱼的角度，考虑到了最近的天气、大风、洋流、食物供给以及船上的用度等问题。事实上，这一个小时里，他自己真的已经和鳕鱼融为了一体。终于，他从嘴里取下烟斗。

“爸爸，”丹说，“我们干完活儿啦。可以出去一会儿吗？真是捕鱼的好天气。”

“别穿鲜红的衣服，也不要烤焦了的棕色鞋子，找点适合他的穿。”

“爸爸高兴了——事情解决啦。”丹兴高采烈地把哈维拉进船舱。这时，特鲁普把钥匙扔了下来。“爸爸保管着我多余的衣服，都是他给我安排的。因为妈妈说我太粗心。”丹在储物柜里翻腾着，不到3分钟，就把哈维装扮成另一番模样——脚穿一双快到大腿的渔民橡胶鞋，身上是一件厚实的蓝色套头衫，胳膊肘还打了块补丁，手上戴了一副手套，头上是一顶防水帽。

“现在你还真像那么回事儿，”丹说，“快点！”

“就在附近，”特鲁普说，“别去船队那边乱跑。要是有人问我下了什么命令，照实说——因为你们啥也不知道。”

纵帆船的尾部系着一只红色的小平底船，上面写着“海蒂”。丹拉起船头的缆绳，轻轻扔到船底，哈维跌跌撞撞地跟在后边。

“你这样是上不了船的，”丹说，“这要是在海上，你早就掉进海里了。要想上船，你得学会把握时机。”

丹装好桨栓，再在横坐板上坐下，看着哈维干活。哈维曾经在阿迪朗达克水域里划过船，样子像女士一样轻柔；不过，轻便的单人桨和短粗的8英尺长的海桨还是有区别的。他们被困在了轻柔的波涛里，哈维开始嘟囔起来了。

“快！快划！”丹说，“要是你把桨困在海里，船就会被打翻。这艘船很漂亮吧？也是我的。”

小船非常干净。船艏放着一只小小的锚，两壶水，能探测70英寻水深的棕色细锚绳。在哈维的右手下方，一只马口铁号角挂在楔子上，旁边有一把丑陋的大锤，一支短柄鱼叉，还有一根短木棍。两条绳子上挂着沉重的铅锤和双头鳕鱼钩，它们整整齐齐绕在方轴上，插在船舷上。

“船帆和桅杆呢？”哈维问。他的双手已经磨起了水泡。

丹咯咯地笑起来。“你没怎么划过平底船，你得拉桨，但不要那么用力。你难道不想要一艘这样的船吗？”

“哦，要是我开口的话，我爸也会送我一两艘船的。”哈维回答道。他一直在忙，直到这时，他才想起他的家人。

“那倒是。我忘了你爸是百万富翁啦。你现在的表现可不像个有钱人。不过，一艘船，索具，钓具——”丹把它描述得仿佛是一艘捕鲸船一般——“要花不少钱呢。你觉得你爸会像送宠物一样给你？”

“根本不用担心。这是我至今唯一没向他提过的要求。”

“那你肯定是家里最费钱的孩子了。哈维，别那样划。速度是关键，因为大海不是静止不动的，海浪会——”

“啪！”的一声，船桨柄砸在了哈维的下巴上，哈维向后倒去。

“我正要说这个事。我也尝过这滋味，不过，我学划船时还不到8岁。”

哈维下巴疼得厉害，皱起眉头，重新坐好。

“爸爸常说，一遇上事就发火是没用的，处理不好是我们自己的问题。在这儿试试。曼纽尔会告诉我们水深的。”

“葡萄牙”水手划着船在一英里外随波浪起伏。当他看到丹倒拿着船桨时，他用左臂挥了三下。

“三十英寻，”说着，丹用钩子勾起一串蛤蜊，“超过那些兵蛋子。像我这样放诱饵，哈维，不要乱搅你的线轴。”

还没等哈维掌握放诱饵的诀窍，扔出铅锤，丹的绳子早已不见了踪影。平底船随意漂荡，直到他们找到合适的抛锚位置时，才停下来。

“我们来了！”丹大喊道。船舷边有一条大鱼在扑腾，溅起一阵水花淋湿了哈维的肩膀。“大家伙，哈维，大家伙！在你手底下！快！”

显然，“大家伙”并不是指晚餐号角。于是，哈维递过木棍。丹把鱼打晕，拉上船。然后，他又用被称为“击鱼棒”的短木棍扳开鱼钩。哈维感到一阵拖拽，赶紧使劲儿拉绳子。

“哎呀，这是海草莓果子！”他大喊，“看！”

鱼钩被一堆海草莓缠绕住了，一边是红色，另一边是白色——简直和陆地上的草莓一模一样，只不过没有叶子，管状的根茎黏糊糊的。

“别摸，扔掉！别——”

警告来得太晚。哈维早已从鱼钩上取下果子，满心欢喜地打量着。

“哎哟！”哈维大叫一声。他好像抓了一把荨麻一样，手指疼得直发抖。

“现在，你知道海草莓是什么东西了吧。除了鱼之外，光着手不能碰触任何东西，爸爸说的。把它们从船舷上甩下去，挂好诱饵，哈维。光看是没用的。这都要跟工钱挂钩。”

想到自己一个月十块五毛钱的工资，哈维就笑了。他想，要是妈妈看到儿子乘着一艘平底渔船漂荡在大海中央，她会怎么想呢？每次他去萨拉克湖，母亲总要痛苦万分。而且，哈维清楚地记得，他经常嘲笑妈妈的紧张和担心。突然，绳索从手里穿过，隔着厚厚的羊毛手套刺痛手掌，原本起保护作用的木圈也没用了。

“它是个大家伙，它有多大劲，你给多大余地就行，”丹叫嚷道，“我来帮你。”

“别，你别管，”哈维抓着绳子，“啪”的一声，“这是我的第一条鱼。是——是条鲸鱼吗？”

“也许是条大比目鱼。”丹低头盯着水里的大家伙，随时等待机会行动。一个白色的椭圆形东西穿行在绿色的大海里，闪闪发光。“我拿我

的工钱打赌，它肯定超一百磅了。你还是坚持要自己一个人把它拉上船吗？”

哈维的关节被磨破了，撞在船舷上，一直在流血；他用力拉动绳子，兴奋的脸呈现出绛紫色；汗如雨下的他，盯着急速跳动的鱼线，阳光照射下的海面泛起了晕圈，几乎刺得他无法睁开眼睛。两个男孩被大比目鱼纠缠得筋疲力尽，大鱼和他们又鏖战了20分钟。不过，大鱼最终还是被拉出水面，拖到了船上。

“这就是新手的好运气，”丹擦了擦额头的汗水，说，“这条鱼足足有一百磅。”

哈维望着这个颜色杂乱的庞然大物，内心充满难以言说的骄傲。他在岸上时，见过几次这样的大鱼被放在大理石板上，但他从没想过问问它们是怎么上岸的。现在，他明白了。这是用身上的每一个部位的疼痛换来的。

“要是爸爸也在的话，”丹一边拖拽，一边说，“他早就看得一清二楚了。这种鱼越来越小。你今天捕到的这条大比目鱼应该是这趟出海最大的了。昨天的捕捞——你注意到没？——都是大鱼，但是没有比目鱼，爸爸早就发现了。爸爸说大浅滩的所有东西都会成为预兆，而且他能分析出对错。爸爸看得比这鲸鱼洞还要深。”

正当他说话时，从“我们在此”号传来一声枪响，索具上挂起一只土豆篮子。

“瞧，我说什么来着？这是在召唤所有人。爸爸有话要说，要不然他不会在一天的这个时候叫人们停下来。收起鱼线，哈维，我们回去。”

丹和哈维迎着纵帆船划过去，正要穿过平静的海面时，半英里外传来了哀号声。他们赶紧循声望去，看到宾像一只巨大的水生蠕一样，忙活半天却还在原地打转。这个小个子男人使出全身力气又是前俯，又是后仰，但是每次尝试都失败了，他的平底船还是来回摇摆，让绳子紧紧勒住了。

“我们得去帮他，要不然他准会在那儿生根发芽的。”丹说。

“怎么回事？”哈维问。这是一个全新的世界，哈维无法在这里向前辈发号施令，还得毕恭毕敬地请教问题。大海广阔无垠，喜怒不惊。

“锚找不到了。宾经常把它们弄丢。这趟出海，他已经丢过两次了——在沙地里也丢——爸爸说下次他要是再弄丢的话，就会给宾一只应急锚。那样准会让宾伤透心的。”

“什么是应急锚？”哈维又问。他模模糊糊地预感，这个应急锚应该是一种海上的酷刑，类似故事书里描写的把水手绑在船底，在水里拖着走。

“其实，就是一块大石头，不是什么锚。看见平底船，你就能看见船头的应急锚。所有的捕鱼船都明白那是什么意思。他们肯定会狠狠地取笑他。宾可无法忍受这样的事情，就像一条狗绝不允许它的尾巴上挂着一只长柄勺。他是一个非常敏感的人。嗨，宾！又被困住了？别再白费力气了。站起来，把你的钓竿竖起来。”

“它动不了啦，”小个子男人气喘吁吁地回答，“它根本动弹不了，我已经试过无数次了。”

“这堆乱七八糟的东西是怎么回事？”丹指着没用的船桨和钓竿问，

它们横七竖八地交错在一起，这明显是没有经验的新手干的。

“哦，那些啊，”宾自豪地说，“那是西班牙起锚机。索尔特先生教过我怎么操作；可是用上它也不顶事儿。”

丹在船舷边弯下腰，偷偷捂着嘴笑起来。他用力猛拉了一两下，锚立刻被拉了起来。

“拉起来，宾，”他笑着说，“要不然又被卡住了。”

哈维和丹离开了，只剩宾瞪大两只蓝色的眼睛，可怜巴巴地盯着被杂草缠绕的锚，还不忘对他们表达深深的谢意。

“哦，我说，一想到这事儿，哈维，”当再也听不到宾的声音时，丹说，“宾不是脑子糊涂，他也并不是什么危险人物，但他的才能已经用光了。看到了吧？”

“真是这么回事，或者这又是你爸爸的判断呢！”哈维弯腰撑着船桨问道。他感到自己慢慢学会了如何轻松地操作船桨。

“爸爸这次的判断没有问题。宾肯定是个十足的怪人。不，确切地说并不是那种坏蛋，他更像一个没有伤害能力的傻瓜。就这么用（哈维，对了，就这样划），我告诉你，你应该明白。他以前是一个摩拉维亚⁴传教士。爸爸说，他的名字叫雅各布·鲍勒，他和他的老婆还有四个孩子住在宾夕法尼亚州外面的一个什么地方。嗯，宾带着他的家人去参加摩拉维亚集会——很像是信徒们的野营集会——他们在约翰斯敦⁵就待了一晚上。你听过约翰斯敦吗？”

哈维想了想，说：“是的，听过，但不知道为什么，我的脑子里总觉得它跟阿什塔比拉⁶差不多。”

“两个地方都发生过大事——这就是你搞混的原因，哈维。噢，一夜之间全都完蛋了，宾和他的家人在约翰斯敦的旅馆里都出了事。大坝决堤，淹没了约翰斯敦，那儿的房子都被冲走了，你推我撞，全部沉入水底。我见过照片，太可怕了。宾还没明白过来发生了什么事，就眼睁睁地看着家人被淹死了。从那以后，他的脑子就坏掉了。他怀疑约翰斯敦发生过什么事情，只不过可怜的他，这辈子也想不起那是怎么回事儿。他只会傻笑，或者瞎琢磨。他不知道自己是谁，也不知道自己打哪儿来，就这样他碰到了索尔特叔叔。当时，索尔特叔叔正好在阿勒格尼⁷。我妈这边的亲戚，有一半住在宾夕法尼亚。索尔特叔叔每个冬天都会去那儿转悠。索尔特叔叔好心收留了宾，而且他对整个事件很清楚。他把宾带到东部，在他的农场给他找了份工作。”

“怪不得呢。昨晚，渔船碰撞的时候，我听见他喊宾‘农民’，那你的索尔特叔叔也是农民吗？”

“农民！”丹大叫起来，“从这儿到哈特拉斯⁸的水都不够把他那靴子里的泥洗干净。他是个地地道道的农民。知道吗？哈维，我见过他提着水桶，一直忙到太阳下山。他把水龙头放在桶上，就像抓着奶牛的奶头一样，他真是十足的庄稼人。嗯，他和宾一起经营着农场。今年春天，索尔特叔叔把农场卖给了一个波士顿的傻瓜，那个人想盖一座避暑别墅，花了不少钱。嗯，两个疯狂的家伙勉强度日。直到有一天，宾的教会——摩拉维亚——发现他流浪和定居的踪迹。于是，他们写信给索尔特叔叔，不知道他们具体说了什么，但是索尔特叔叔挺生气，他大多数时候都不会发脾气。他宣布自己不会放弃宾，不会把他还给宾夕法尼亚或任何地方的摩拉维亚教会。然后，他找到了爸爸，领着宾，在两个捕鱼季前来的——还说，他和宾为了生活必须打鱼。我想，他认为摩拉维亚教会的人不会到大浅滩去寻找雅各布·鲍勒。爸爸很高兴地接受了他

们。索尔特叔叔已经30年没出海了。他不再去研究粪肥专利，在‘我们在此’号上占四分之一的份额。出海对宾起了很好的作用，爸爸也习惯带着他。爸爸说，总有一天，他会想起约翰斯敦的老婆和孩子。然后，很有可能，他也活不下去了。这是爸爸说的。你可千万别和宾提起约翰斯敦或者相关的事情，否则，索尔特叔叔会把你扔下船。”

“可怜的宾！”哈维低声说，“看他俩的样子，我从来没想过，索尔特叔叔会那么关心宾。”

“我喜欢宾，我们都喜欢。”丹说，“我们应该帮他，但是我想先给你说一下他的情况。”

此刻，他们离纵帆船很近了，其他船在他们后边的不远处。

“你们用不着把平底船拉回来，吃完晚饭也不晚。”迪斯科·特鲁普在甲板上说。“我们先去加工鱼。摆好桌子，孩子们！”

“比鲸鱼洞还深奥的人，”丹说道。他一边冲哈维眨眼，一边准备好工具。“看见那些船了吗？它们从早晨就跟上了。它们都在等爸爸，瞧见没，哈维？”

“在我看来，他们都一样。”的确，对于一个从没出过海的新水手来说，这些晃晃悠悠的纵帆船好像是从一个模子里刻出来的。

“那可不一样。黄色的那个，脏兮兮的，第一斜桅歪七扭八的，它是‘布拉格’号。船长叫尼克·布兰迪，大浅滩上最小气的一个人。等我们到了缅因礁时，我们就敢这么说他。远处是‘瞭望’号。船主是哲罗德两兄弟。这艘船来自哈维奇⁹，速度特别快，运气也不错。不过，爸爸可是在死亡之地里捕过鱼的人。还有那三艘，一起挨着的，分别是‘玛吉·

史密斯’号、‘玫瑰’号和‘伊迪斯·沃伦’号。都是刚出来。我猜，明天就能看见‘艾比·迪林’号了，爸爸，对吧？它们都是悄悄从奎因浅滩出发的。”

“明天见不到那么多船，丹尼。”每当特鲁普叫他儿子“丹尼”时，就意味着老头心情不错。“孩子们，这儿太拥挤了。”接着，他对陆续上船的船员们说，“让他们等着吧，放大饵，钓小鱼。”特鲁普看着鱼舱，里面的鱼不怎么游动，这是奇怪的一件事。除了哈维的大比目鱼，船上再也没有超过15磅的鱼了。

“我在等合适的天气，”特鲁普又说。

“那你得自己想办法了，特鲁普，我看不出有什么好天气。”说着，长腿杰克扫了一眼平静的海平面。

然而，半个小时后，他们正在加工鱼。大浅滩开始起雾了，就像他们说的“大雾遮住了每条鱼”。大雾四处弥漫，层层笼罩。苍茫的海面上雾气缭绕。船员们停下手中的工作，一声不吭。长腿杰克和索尔特叔叔把起锚机插进插口里，开始起锚。湿漉漉的麻绳在滚筒上绷紧时，起锚机发出咯吱咯吱的声音。最后，曼纽尔和特鲁普也开始帮忙了。锚杆升了起来，发出呜咽的声音，三角帆也涨起来了，特鲁普稳稳地操作着轮舵。他说：“把三角帆和前桅大帆都撑起来。”

“悄悄甩掉它们，”长腿杰克大喊。他迅速拉起三角帆，其他人咔嗒咔嗒地把前桅帆升了起来。“我们在此”号迎风而行时，前桅咯吱咯吱作响。纵帆船行驶在大浅滩里，翻起白色的巨浪。

“大雾后肯定会起风。”特鲁普说。

对于哈维来说，这种感觉妙不可言。最令他高兴的事莫过于特鲁普没有对他下任何命令，只有偶尔嘟囔几句，最后还会加一句“干得好，我的孩子！”做总结。

“以前没见过起锚吧？”汤姆·普拉特问。哈维望着潮湿的帆布，惊得目瞪口呆。

“没有，我们要去哪儿？”

“打鱼，停泊。等你在船上待上一个星期，你就会明白的。对你来说也许很新鲜，可我们永远不知道会发生什么事情。现在，跟着我——汤姆·普拉特——我从没想过——”

“一个月14美元总比被子弹打穿肚子强，”特鲁普一边驾驶一边说，“放松点，别紧张。”

“钞票更好，”好战的男人一边回答，一边把圆木桅杆系到三角帆上。“不过，我们给博福港外面的‘吉姆小姐’号装配起锚机时，却没想这些。梅肯堡向我们的船尾开火。真是一场灾难。迪斯科，那时你在干吗？”

“就在这儿，或者附近的什么地方。”特鲁普回答，“在深水区挣钱，躲避海盗。对不起，汤姆·普拉特，我这儿没有炮火。不过，我想我们到东边时，正好能赶上大风。”

船头传来持续不断的拍击声和震颤声，夹杂着重重的撞击声和海浪哗啦啦拍打船舷的声音。索具湿漉漉地滴着水，船员们懒洋洋地躺在船舱的下风处——只有索尔特叔叔僵直地坐在主舱口处，抚摸着被蜇伤的双手。

“我想，那艘船会跟着的。”特鲁普抬起眼皮看了一眼他的兄弟。

“我猜它一点儿用都没了，干吗还浪费这些帆布？”农夫水手回答。

特鲁普手中的轮舵在转动，动作平稳得几乎察觉不到。几秒后，一个大浪呼啸着向纵帆船斜劈过来，重重地打在索尔特叔叔的肩膀上，把他从头到脚淋了个透。索尔特叔叔湿漉漉地站起来，刚要向前走，又一个大浪砸过来。

“看，爸爸在甲板上追着他到处跑，”丹说，“索尔特叔叔以为他的四分之一份额能抵得上船帆。这两次出海，我爸都这样。嗨！这样就能看出他是什么出身了。”索尔特叔叔刚藏在前桅那儿，一个海浪就把他拍倒了。特鲁普面无表情，脸上就像旋转的轮舵一样有条不紊。

“索尔特，要是下面有支索帆的话，划起来就容易多了。”特鲁普说道，他好像什么都没看见一样。

“放好你那破玩意儿。”飞溅的水花中传来一个咆哮的声音：“不管发生什么事儿，只要不打扰到我就行。宾，你直接下去，拿自己的咖啡。你应该更清楚，在这样的天气里，别在甲板上到处晃悠。”

“这会儿，他们肯定在大口喝着咖啡，下着跳棋，然后一直等到母牛回家。”丹说道。索尔特叔叔把宾推到前面的船舱里。“我看咱们得这么过一段时间了。在大浅滩不打鱼，会闲得发疯的。”

“很高兴你能这么说，丹尼，”长腿杰克大声说。他一直在琢磨着找乐子。“我已经忘得一干二净了，我们有一位戴着油布帽的乘客啊。不打鱼也不能闲着什么都不干。汤姆·普拉特，叫他过来，我们来教他。”

“这次可不是我的主意，”丹咧嘴笑着说，“你得自己一个人去。我

可是爸爸用绳头教会的。”

长腿杰克追着他的猎物，足足说教了有一个小时。“不管是瞎子，醉鬼，还是迷糊的人，每个人都应该了解大海。”这艘70吨的纵帆船设备并不齐全，只有一支树桩一样的前桅，可长腿杰克却有一种表达的天赋。当他想把哈维的注意力吸引到斜桅顶的吊索上时，他就会用胳膊的关节卡住男孩的脖子，使他足足盯了半分钟。为了强调船头和船尾的区别，他让哈维亲身体验了一段浮栅栏。在绳头的作用下，每条绳索上的铅锤也都深深刻在了哈维的脑海里。

如果整个甲板都空空荡荡的，海上的课程也就没那么难了。只不过这儿什么都能放，就是不能站人。甲板前面是挂着铁链和麻绳的起锚机和钓具，想跨过去都不容易。前甲板上是烟囱，舱口处摆着盛放鱼内脏的桶，后面的主桅杆占了大部分位置，水泵和敷料桶几乎没地方放。平底船都被拴在后甲板区带环的螺栓上，棚、缸、零散的东西散布其间。最后，还有支架上那根60英尺高的吊杆，纵向劈下来，每次经过时都要低头弯腰。

当然，汤姆·普拉特忙得不可开交，但还是不忘绘声绘色地描述“旧俄亥俄”号的船帆和桅杆。

“别管他说什么，听我的，太天真了。汤姆·普拉特，这个讨厌的家伙，这不是‘旧俄亥俄’号。你把孩子都搞晕了。”

“他这辈子算完了，翻来覆去地听这些，”汤姆·普拉特恳求道，“给他个机会了解一些基本原则，哈维，航海是一门艺术，要是我们在前甲板上，我可以给你展示——”

“我知道，你说过好多遍了。闭嘴，汤姆·普拉特！现在，照我说的

去做。收起前帆，哈维，抓紧时间回答问题。”

“把它拉起来。”哈维指着下风处说。

“拉什么？北大西洋？”

“不是，是帆杆。然后，把你刚才给我看的那条绳子拉回——”

“不行。”汤姆·普拉特突然插嘴道。

“安静点！他正学着呢，而且还没记清楚名字。继续，哈维。”

“嗯，这是收帆索。我把钓具钩在上面，然后放下——”

“把帆降低，孩子！降低！”出于职业习惯，汤姆·普拉特生气了。

“降低帆喉，拉起吊索。”哈维继续说道。这些名词都堆积在他的脑海里了。

“把你的手放在上面。”长腿杰克说。

哈维照做了。“放低，直到绳环——放松——天哪——不，那是索圈——直到勾住索圈。然后，我会按照你所说的把它们拴在一起，吊到最高处，然后再降低帆喉。”

“你忘记拉耳索了，不过，只要有时间，有人帮你，你肯定能学会。船上的每条绳子都是有用的，要不然早被扔下去了。听明白了吗？我可是在教你怎么赚钱呢，你这个皮包骨头的小保管员。等你学会了，就能自己划船从波士顿去古巴了，然后告诉他们长腿杰克是怎么教你的。现在，我再教你认绳索，拿起那些绳子，照我说的给我指出来。”

他又开始讲了，疲惫不堪的哈维慢慢走向他说的那些绳索。一条绳子抽在哈维的肋骨上，疼得他差点没喘过气来。

“等你有了自己的船，”汤姆·普拉特严肃地看着他说，“你可以自己驾驶。到时候，把所有学到的都用上。再来一次——这样才能学会！”

紧张的训练让哈维满脸通红，最后的教训令他浑身发烫。他是个聪明的孩子。爸爸非常聪明，妈妈异常敏感，原本就很倔强，从小的宠溺更让他变成一个顽固分子。他望着其他人，发现就连丹都没有笑。显然，他们已经司空见惯了。于是，虽然很疼，但他也只能咽了一大口口水，喘了口气，咧嘴笑了笑。遗传自母亲的聪明使得他非常清楚，船上的每个人，也许除了宾以外，都不会多说一句。这样的方法能让他学到很多。长腿杰克说出六根绳索的名字，哈维站在甲板上跑来跑去，像退潮时的鳗鱼一样活跃，一只眼睛还得提防汤姆·普拉特手里的绳头。

“很棒，做得不错，”曼纽尔说，“晚饭后，我给你看一个我做的小纵帆船模型，上面挂满了绳索。那样，我们就能再学习了。”

“对于一个乘客来说，你的表现是一流的。”丹说，“爸爸说在你被淹死前，会教你一些海上技能。爸爸真大方，下次咱俩一起值班时，我再教你。”

“浪更高了！”特鲁普气冲冲地喊。从船舷上放眼望去，大雾正在升腾。起重杆慢慢升起，10英尺外什么都看不到。深沉空洞的海浪依旧在低吟，一浪接一浪地拍打着船舷。

“现在，我来教你一些长腿杰克不会的。”汤姆·普拉特大声说。他从船尾的储物柜里取出一把破旧的深海铅锤。铅锤的一端是空的，他从羊油托盘里取了些羊油抹在洞口，继续说：“我教你怎么放这只蓝色的

鸽子。呼!”

特鲁普检查了航线，修正了轮舵方向。曼纽尔在哈维的帮助下（哈维现在非常自豪）放下吊杆上的三角帆。汤姆·普拉特一圈一圈地甩着铅锤，发出低沉的嗡嗡声。

“伙计，快点，”长腿杰克不耐烦地说，“大雾天，我们连25英尺都走不了。什么办法都不管用。”

“戈尔韦人，别嫉妒。”说着，他一松手，铅锤扑通一声掉进远处的大海里，纵帆船缓缓驶向前方。

“不过，测水深可是个技术活哦，”丹说，“要是在海上待一个星期，你只能靠铅锤了。你觉得有多深，爸爸？”

特鲁普的脸色轻松自若。他的技术和名气在整个捕鱼船队里早已被悄然认可。据说，蒙着眼睛他都能找到大浅滩，他简直被奉为大师。“60英尺，可能是——要是让我判断的话，”他瞥了一眼房间里的小指南针，说道。

“60。”汤姆·普拉特收起一堆湿透了的绳子。

纵帆船再次加速。“扔铅锤！”15分钟后，特鲁普说。

“多少？”丹骄傲地看着哈维，低声问道。哈维完全沉浸在自己的表现里，丝毫没有注意到丹的问话。

“50，”特鲁普说，“我猜，咱们离原来的地方有五六十英尺远，快到裂口处了。”

“50！”汤姆·普拉特大声回答。大雾里，人们几乎看不到他，“再有一码，她就到了——就像炮弹打开梅肯堡的缺口一样。”

“哈维，放饵。”丹在水下摸着绳子。

纵帆船在浓雾中似乎迷失了方向，前帆已经涨满。船上的其他人等在一旁，看着两个孩子钓鱼。

“嚯！”丹把鱼线挂在斑驳的扶手栏杆上。“可是，爸爸到底是怎么知道的？哈维，过来帮忙。这是个大家伙。上钩啦。”说着，他俩一起使劲，拉起一条瞪大眼睛的鳕鱼，大约有20磅重。鱼钩正好插进了它的胃里。

“怎么，它的身上全是小螃蟹。”哈维翻过鱼身，大叫道。

“凭巨锚起誓，它早就长满虱子了。”长腿杰克说，“特鲁普，不忙的话看看船底的龙骨。”

水花拍打着锚，所有人都等在船舷边，各自站好，抛出鱼线准备钓鱼。

“这鱼能吃吗？”哈维气喘吁吁地问。他又拉起一条覆盖了螃蟹的鳕鱼。

“当然！长满虱子，说明它们是聚在一起的，它们咬住鱼钩的时候太饿了。不要在意如何放饵。就算光秃秃的鱼钩，它们也会迫不及待。”

“嗨，太好啦！”哈维大叫起来。鳕鱼喘着粗气，拼命拍打——就像丹曾经说过的那样，几乎全都上钩了。“我们为什么不能在船上钓鱼，

非得在平底船上钓呢？”

“可以，但是等我们开始加工鱼的时候就不行了。那样，鱼头和内脏会把鱼群吓得跑到芬迪湾¹⁰。在船上钓鱼并不先进，除非你能像爸爸一样懂那么多。我估计今晚的排钩不够用。背疼也比在平底船上捕鱼要强，对吧？”

这真是一份劳累至极的工作。因为在平底船上，直到拉上的最后一刻，海水会一直托着沉重的鳕鱼。可以这么说，你和鱼是并排着的。但是，纵帆船的干舷有几英尺高，所以要在船舷处俯下身，使出更大的力气才可以把鱼拉起来。不过，俯身会让肚子抽筋。这项工作持续时间较长，被认为既野蛮又激烈。等到鱼不再咬钩时，船上就已经堆满了等待加工的鱼。

“宾和索尔特去哪了？”哈维问。他拍了拍油布雨衣上的淤泥，学着其他人的样子把鱼线盘起来。

“在边喝咖啡边看。”

制转杆上挂着一盏油灯，黄色的火苗跳动着。桌子已经摆好，两个男人坐在那里，二人中间放着一张棋盘，他们只顾下棋，丝毫不关心外面的鱼群或是天气如何。宾每走一步，都要怒吼几句。

“你怎么搞的？”索尔特叔叔斥责的时候，哈维正一只手拉着梯子顶端的皮圈，朝厨师大喊。

“有好多长满虱子的大鱼——一堆一堆的。”哈维学着长腿杰克的样子问，“游戏进展得怎么样？”

小个子宾垂头丧气的。“他全下错了，”索尔特叔叔愤愤地说，“宾

根本不听。”

“在下跳棋，是吗？”丹问道。哈维提着锡桶，跌跌撞撞地走过来，里面装满了热气腾腾的咖啡。“今晚不用咱们打扫了。爸爸很公正，该轮到他们了。”

“两个小鬼。他们打扫，你俩挂饵。”特鲁普一边说，一边随意转动轮舵。

“哼！我想，那我宁愿去打扫。爸爸。”

“用不着怀疑。不过，不用你俩打扫。干活！干活！你俩放饵，宾负责扔。”

“臭小子，为什么不告诉我们你们要钓鱼？”索尔特叔叔在桌子前忙个不停，“丹，刀子太钝了。”

“如果放锚链都惊动不了你的话，我估计你真得雇个助手了。”黄昏里的丹穿梭在拖网和鱼桶间，“噢，哈维，你难道不想下来帮忙吗？”

“放饵，”特鲁普说，“我想，照这样下去，鱼鹰捕的鱼都没我们多。”

他的意思是，等鳕鱼被清理干净后，孩子们会选一些内脏当诱饵——比起光着手在鱼饵桶里乱摸已经强多了。桶里装满缠绕整齐的鱼线，上面每隔几英尺就挂着一个大鱼钩；检查每一个鱼钩上都挂好了鱼饵，保证从平底船上干脆利落地放下诱饵，这可是细致活儿。丹看都不用看就能放饵，哈维却把手指挂在了倒钩上，觉得自己好倒霉。鱼钩在丹的指间穿梭，像在一个技艺娴熟的女仆手中一样。“我还没走利索的时候，就已经在岸上帮忙拖网了。”他说，“不过，这活儿很费事。哦，

爸爸！”丹冲着舱口大喊，特鲁普和汤姆·普拉特正在给鱼抹盐。“你觉得我们大概需要几盘鱼线？”

“3盘左右。快点！”

“每个桶里大约有300英寻长的鱼线，”丹解释说，“今晚够忙活了。哎哟！割破了。”他咬着手指说，“我告诉你，哈维，在格洛斯特，拖网渔船花再多的钱都雇不到我。它是很先进，但也是最麻烦的。”

“如果这不是拖网渔船，我不知道你说的是什么。”哈维闷闷不乐地回答，“我的指头都割破了。”

“呸！这正是爸爸做的一些该死的实验。他从不用拖网捕鱼，除非必须做不可。爸爸心里清楚，所以他总是用诱饵捕鱼。鱼线被拽得下垂时，说明鱼上钩了，这样才能拉起来，要不然连鱼鳍都见不着。”

宾和索尔特叔叔遵照特鲁普的命令去清理渔船，不过孩子们也并不轻松。汤姆·普拉特和长腿杰克一直打着灯笼在平底船里待命，鱼桶一准备好，他们就立刻抓起来装满，放一些彩色的小浮标，把小船放进哈维认为是极其狂暴的大海里。“他们会被淹死的，我说，平底船满得像一节货运车厢了。”他大喊道。

“我们会回来的，”长腿杰克说，“除非你们不想让我俩回来。如果鱼线缠住了，我们会揍你俩的。”

平底船随着波峰涌起，无法躲开纵帆船，眼看着要撞上去的时候，却顺着波峰滑下来，被吞没在湿漉漉的暮色中。

“抓紧，一直摇铃，别停。”丹说着，从起锚机后面取出一根系着铃铛的绳子，递给哈维。

哈维拼命地摇铃，因为他觉得自己手里握着两条命。船舱里的特鲁普正在潦草地记录着自己的航海日志，看起来并不凶恶。晚餐时，他甚至还朝忧心忡忡的哈维干巴巴地笑了。

“天气不好，”丹说，“喂，你和我把排钩放下来！他们刚走没多远，不会被锚链缠住。根本不需要铃铛。”

“叮当！叮当！叮当！”哈维还在摇铃，夹杂着咚咚声，又持续了半个小时。旁边传来吼叫声和碰撞声。曼纽尔和丹一起去拉吊平底船的滑车。长腿杰克和汤姆·普拉特一起登上甲板，仿佛身上被半个大西洋浸透了一样。平底船咯噔咯噔地跟在他们后边，被吊了起来。

“鱼线没缠住，”汤姆·普拉特身上的海水还在往下滴，说，“丹尼，下次还是你来做。”

“有你们陪着吃晚餐真高兴。”长腿杰克像大象一样跳着，把靴子里的水倒出来，用油乎乎的手摸了摸哈维的脸。“第二轮吃饭时，能有我们陪着是多么荣幸的事啊。”接着，四个人都去吃晚饭了。哈维把鲜鱼汤喝了个底朝天，煎饼也吃了个精光。曼纽尔从储物柜里取出一艘精巧的两英尺高的模型——“露西·福尔摩斯”号。这是他的第一艘船，不过，还没来得及给哈维展示绳索，哈维早已呼呼大睡。宾把哈维推到床铺上时，哈维甚至连手指都没动一下。

“这真是一件令人难过的事情——非常难过。”宾望着男孩的脸庞说，“他的爸妈都以为他死了，丢了一个孩子——丢了一个男孩！”

“别提这事儿，宾。”丹说，“到后面去，和索尔特叔叔把那盘棋下完。告诉爸爸，要是他不介意的话，我替哈维值班。他累垮了。”

“真是个好孩子，”曼纽尔匆匆脱下靴子，消失在黑乎乎的下铺。“他能成为一个男子汉的，丹尼。我不觉得他像你爸爸说的那样疯狂。额，什么？”

丹咯咯地笑了，不过笑声很快在鼾声中结束了。

船舱外，夜色深沉。起风了，年长的人们还在守夜。船舱里，钟表的滴答声清脆而响亮。纵帆船懒洋洋地停泊在海上，海水拍打着船舷。烟囱滋滋地冒着烟，火花毕毕剥剥作响。两个孩子还在睡觉，特鲁普、长腿杰克、汤姆·普拉特和索尔特叔叔轮流值班，盯着轮舵，拖着疲惫的步子到前面去看锚，为避免磨损会放松一点缆绳，每次轮班他们都要瞥一眼昏暗的停泊灯是否还亮着。

第四章 Chapter Four

哈维醒来时，发现第一分队的人们在吃早饭，“吱呀”一声门开了，纵帆船的每一平方英尺都在吟唱自己的曲调。黑人厨子站在小厨房的后面，魁梧的身影随着壁炉的火光一起摇曳。镂空木板上的坛坛罐罐随着纵帆船的起伏发出丁零当啷的声音。船头一直朝前，奋力奔向远方，随波涛起伏，在海里震颤。接着，她又像一只镰钩一样干脆利落地俯冲向海面。他听到船头劈裂浪花时发出的咔嚓声，飞溅的水花在落到甲板上之前停顿了一下，像铅弹一样倾泻而下。锚链孔里的缆绳发出混乱的噪音，起锚机沉闷而尖锐地吼叫着，经过一系列的转向、抛起、反冲，“我们在此”号积蓄力量，继续前进。

“现在，要是在岸上，”长腿杰克说，“你那些乱七八糟的活儿，不管什么样的天气，都必须干完。在这儿，我们摆脱了船队，再也没有那么多麻烦事——真是天助我也。晚安，大伙儿。”他像一条蛇一样从桌子旁溜到床上，开始抽起烟来。汤姆·普拉特也跟着他照做了；索尔特叔叔和宾摸索着爬上楼梯去站岗，厨子开始为第二分队准备晚饭。

第二分队的人从床上爬起来，摇摇摆摆地打着哈欠，其他人早已爬上了床铺。他们吃得再也吃不下一口饭后，曼纽尔往烟斗里装了些劣质烟草，两腿叉开坐在制转杆和床铺间，双脚斜搁在桌子上，一边抽烟，一边温和而慵懒地微笑着。丹全身舒展，躺在床上，摆弄着一架花哨的、配有镀金塞子的手风琴。伴随“我们在此”号的前进，曲调时而悠扬时而起伏。厨子的肩膀靠着储物柜，里面放有煎饼（丹喜欢煎饼）和削好的土豆。他盯着壁炉，以防水会顺着管道溢出来。整个房间到处弥漫

着饭味和浓烟。

哈维正在思考，纳闷自己为什么没有晕得死去活来。然后，他再次爬上床，那是最舒服最安全的地方。丹继续演奏“我可不想去你的地盘儿”，他尽量保持着音准，不受颠簸的影响。

“这要持续多久？”哈维问曼纽尔。

“等到大海平静下来，我们就能划船去看排钩了。也许是今晚，也许还得等两天。你不喜欢吗？嗯，什么？”

“我本应该一星期前就大病一场的，不过现在也并没觉得有多难受。”

“那是因为我们让你成了渔民，就这几天。我要是你的话，等我到了格洛斯特，要为我的好运供上两三支大蜡烛。”

“给谁？”

“当然是——山上教堂里的圣母啊。她一直对我们渔民很好，所以，我们葡萄牙渔民很少被淹死。”

“你是罗马天主教徒，然后呢？”

“我是马德拉群岛11的。我不是波多黎各12人。那我能说自己是浸信会13教友吗？额，什么？我去格洛斯特，就经常送蜡烛——两根，三根，要么更多。善良的圣母从来没有忘记我，曼纽尔。”

“我不那么认为，”汤姆·普拉特在床铺上插嘴道。他划了一根火柴点烟，火光照亮了他有伤疤的脸。“大海就是大海，这是合乎情理的。

这件事情上，你可以自己决定，选蜡烛或者油灯都可以。”

“有想法一致的朋友，”长腿杰克说，“那再好不过了。我和曼纽尔的思路一样。10年前，我是一艘波士顿商船的船员。刮着东北风，我们离开米诺特暗礁。不过，刚开始就遇上了重重的大浪，迎面压下来。掌舵的老头喝得醉醺醺的，下巴靠着舵柄在打颤。我对自己说：‘要是我能再次回到码头，我就要给那些圣徒展示救我性命的那艘船。’现在，我就在这儿，正如你亲眼看到的，破旧的‘凯思林’号船的模型，花了我一个月的时间，我把它献给了牧师，他把模型悬挂在圣坛上。从艺术角度来看，亲手做个模型送过去，比送蜡烛有意义多了。你可以从店里买蜡烛，可是一个模型能让善良的圣徒们明白，你是花了心思的，而且满心感激。”

“你相信吗，爱尔兰人？”汤姆·普拉特撑着胳膊肘转过身来。

“俄亥俄人，我要是不相信的话又能怎样？”

“哇哦，伊诺克·福勒做了一个‘旧俄亥俄’号的船模，现在放在卡朗博物馆，也是一个非常美丽的模型，不过，我想伊诺克绝不会奉献给教会；我觉得——”

长达一个小时的讨论全都围绕渔夫们的喜好展开。虽然经过了一轮一轮的争吵，但最终谁都没能证明什么。幸亏丹开始演奏欢快的乐曲，才结束了争论：

“跳跃的马鲛鱼，条纹的脊背

迎风的船帆

这是一个大风天——”

长腿杰克也跟着唱了起来：

“大风天

起风了，一起手挽手！”

丹坐在床上，慎重地看了汤姆·普拉特一眼，抱着手风琴继续唱：

“鳕鱼上下跳跃

呆头呆脑地跳上主链条，蹿上铅锤

大风天”

汤姆·普拉特好像在找什么东西。丹俯身蹲下，歌声却更响亮了：

“比目鱼游到了海底

笨蛋！笨蛋！注意你在哪里歌唱！”

汤姆·普拉特的大橡胶靴，盘旋着飞过前甲板，撞到了丹抬起的胳膊。大人和孩子之间开战了，因为当他举起铅锤时，他发现单调的口哨声会让别人不高兴。

“我想去拿你的宝贝，”丹小心翼翼地把靴子还给汤姆，说，“要是你不喜欢我的音乐，拿出你的小提琴。我可不打算在这儿躺一整天，听你和长腿杰克因为蜡烛吵个不停。汤姆·普拉特，你来拉小提琴，我来教哈维！”

汤姆·普拉特弯下腰，从储物箱里取出一把白色的旧小提琴。曼纽

尔两眼放光，从制转杆后面拿出一件带弦的小乐器，有点像吉他，他说这是马谢特琴。

“开一场音乐会吧，”长腿杰克在烟雾缭绕中开怀大笑，“正儿八经的波士顿音乐会。”

舱门打开了，水花扑面而来。迪斯科身穿黄色的油布雨衣，走了下来。

“你来得正是时候，迪斯科。外面什么情况？”

“就那样！”随着“我们在此”号的颠簸起伏，他一屁股坐在了储物箱上。

“我们正在唱歌，消化消化早饭。当然，你来领唱，迪斯科。”长腿杰克说。

“我会唱的就那两首老歌，你们都听过了。”

没等他说完，汤姆·普拉特的忧伤曲调早已打断了他的托辞。这个声音好像海风发出的悲吟，又像桅杆发出的咯吱咯吱声。迪斯科看着头顶上方的横梁，开始哼唱一首古老的小曲，汤姆·普拉特卖力地围着迪斯科表演，以便让曲调和歌词更贴切些：

“吱吱呀呀的邮轮——大名鼎鼎的邮轮，

从纽约带来的问候，她的名字叫无敌战舰

也许你会说快船有很多——燕尾号和锚球号

然而，无敌战舰可以击败它们。”

“此刻，无敌战舰停靠在默西河，

拖船将她送入大海；很快，你会知道水有多深

（合唱）

她是利物浦的邮轮——哦，上帝，放行吧！”

曲子共有二十节，因为他在无敌战舰上工作过，从利物浦到纽约的每一英里都没有错过。他深情地演唱着，仿佛真的置身于那艘战舰的甲板之上。在他的身旁，手风琴发出有力的节奏，小提琴也在吱吱呀呀地响。汤姆·普拉特跟着唱了一首《粗犷坚强的麦克·吉恩为舰船领航》。接着，他们又喊了哈维。哈维深感荣幸，很乐意参与进来，只不过他只记得《艾尔森船长的航行》的只言片语，那是他在阿迪朗达克的营地学校学到的。似乎这首歌正适合此情此景，可是没等他说出歌曲名称，迪斯科“”的一声跺了一下脚，大叫：“小鬼，别唱了。这是错误的判断——也是最糟糕的一种，因为它很刺耳。”

“我本应该提前警告你的，”丹说，“这首歌让爸爸很恼火。”

“怎么回事？”哈维问道。他既觉得惊讶，又感到有点生气。

“你要说的，”迪斯科说，“从头到尾都是错的，都怪惠特尔。我没有特殊的义务去纠正每个马布尔海德人，但艾尔森没错。我爸一遍一遍地给我讲那个故事，我知道。”

“说过一百次啦。”长腿杰克低声插嘴道。

“本·艾尔森是‘贝蒂’号的船长，是个年轻人，刚从大浅滩回家——那是在1812年战争之前，但正义不灭。他们发现了波特兰的‘活跃’号，

当地的吉布恩是船长。他们发现船在离开科德角的灯塔。当时，风刮得非常大，他们想尽可能快地把‘贝蒂’号驶回港口。嗯，艾尔森说在那样的情况下冒险救一艘船太不理智了，船上的人不听他的。他又建议待在‘活跃’号附近等大海平静一些时再行动，可他们还是不听。这样的天气里，不管有没有灯塔，他们绝不能绕海角转悠。就这样，他们竖起支索帆出发了，当然少不了带着艾尔森。马布尔海德的人们对他不敢冒险非常生气，因为第二天大海平静了（他们压根儿没想到这一点），一个特鲁罗14人带走了‘活跃’号上的一些人。他们去了马布尔海德，添油加醋地说了这件事情。他们说艾尔森如何给镇上丢了脸，一直说个不停，艾尔森的手下也很害怕，看到民众们都在反对。于是，他们背叛了艾尔森，咒骂他是整个事件的罪魁祸首。女人们没有煽风点火，也没有恶语中伤——马布尔海德的女人们不会那么做——只是一群男人和男孩把他放在一艘旧平底船里，拖着绕整个镇上转，直到船底磨破。艾尔森告诉他们，总有一天他们会为这件事情后悔。哦，后来真相大白了，就像往常一样，但对于一个清白的人来说已经晚了，一点用都没有。惠特尔一路上听了些零零散散的假故事，在艾尔森死后，继续给他造谣抹黑。这是惠特尔一时疏忽，但是很不公平。丹从学校带回来这些零散的故事后，我狠狠地揍了他一顿。当然，你不知道，不怪你，但是我要告诉你真相。以后，永远记住。本·艾尔森不是惠特尔编造的那类人。我爸非常了解他，知道事情的前因后果。小鬼，小心点，别仓促下结论。下一首！”

哈维从来没有听过迪斯科说这么多话，而且两颊发红，情绪激动。不过，幸亏丹及时地解释说，孩子们只能学到学校里教的东西，生命短暂，没时间在海边验证每一个谎言。

接着，曼纽尔的小马谢特琴发出了刺耳的声音，显得很和谐，他

用葡萄牙语唱起了《天真的妮娜》。最后，他的大手一挥，猛地一拨琴弦，结束了演奏。然后，迪斯科开始他的第二首歌曲，这是一首嘎吱嘎吱的老掉牙的曲子，所有人汇成一首大合唱。其中一节唱道：

“此刻，四月离去，冰雪消融

走出新贝德福德，立刻撒网

不错，走出新贝德福德，立刻打扫

我们是捕鲸人，从没见过麦浪滚滚”

这时，只剩小提琴还在演奏，过了一会儿，歌声又响起来了：

“麦浪滚滚，我的挚爱小花正在绽放

麦浪滚滚，我们要出海

麦浪滚滚，我离开时，你正播种

当我回来时，你会成为一块面包”

歌声差点让哈维哭了出来，尽管他不清楚其中的原因。然而，当厨子放下土豆，伸出手开始演奏小提琴时，情形令人更加难过。厨子仍然斜靠着舱门，曲子好像在讲述很糟糕的事情，却是随时可能发生的。过了一会儿，他开始演唱，用的不知道是一种什么语言。他的下巴紧挨小提琴的上端，在油灯的照射下，他那白色的眼珠闪闪发光。哈维从床上起身，这样可以听得更真切些。在船骨的嘎吱声和浪花的拍打声中，音乐或温柔或哀吟，好像浓雾里行驶的大船一样迷茫，最后化为一阵哀怨。

“天哪，上帝！勾起不好的回忆了，”丹说，“到底是什么？”

“芬尼安坎霍尔之歌，”厨子说，“讲的是他去挪威的事。”他的英语虽然不流利，但很清楚，好像从留声机里发出来的。

“我敢肯定，我去过挪威，但我没听过这样闹心的噪音。不过，听起来好像是首老歌。”长腿杰克叹着气说。

“咱们别想其他的事了。”丹说，于是，用手风琴演奏了一首悦耳的歌曲，结束了音乐会：

“自从出海，已经26个星期

15万公斤

15万公斤

10万公斤

在班奎罗和大浅滩之间！”

“停下来！”汤姆·普拉特大吼道，“你难道不想走了吗？丹，那肯定是约拿，除非我们把盐都抹完了你再唱。”

“不，不是。对吧，爸爸？除非你唱完最后一节，要不然就没事儿。关于约拿，我可用不着你教我！”

“什么？”哈维问，“约拿是什么？”

“约拿是指任何让我们倒霉的东西。有时候可以是人——有时候是个男孩——或者是一只桶。我知道一把约拿匕首，两次出海都栽在它手

里了，”汤姆·普拉特说，“约拿有各种各样的。吉姆·博克尔就是个约拿，直到他在乔治斯淹死为止。我从没和吉姆·博克尔一起出海，我饿死也不会和他一起。‘以斯拉洪水’号有艘绿色的平底船，也是个约拿，最糟糕的约拿。有4个人淹死了，深夜里常常在海湾闪着红光。”

“你相信吗？”哈维问，他想起汤姆·普拉特曾经讲过的蜡烛和模型，“我们不是应该给什么就收下什么吗？”

床铺那边传来了咕哝声，表达了不同的意见。“下了船，是。但在船上，什么事情都可能发生，”迪斯科说，“小鬼，难不成你也想做约拿吗？”

“哦，哈维可不是约拿。从我们捞上他那天开始，”丹插嘴道，“我们都是收获满满的。”

厨子抬起头突然笑了——干巴巴地笑了，很奇怪。他真是一个让人非常尴尬的黑人。

“讨厌！”长腿杰克说，“下次别这样，大厨，我们可不习惯你这么笑。”

“怎么了？”丹问，“难道他不是我们的幸运神吗？我们遇到他以后，难道没有捕捞得更多吗？”

“哦，是的，”厨子说，“我知道，不过捕捞还没结束呢。”

“他不会给我们造成任何伤害的，”丹着急地说，“你想暗示什么，想说什么？他没有任何问题。”

“不会伤害我们。不会。但是，总有一天，他会成为你的主人，丹

尼。”

“完了吗？”丹平静地说，“他不会——绝对不会。”

“主人！”厨子指着哈维说，然后又指着丹，“仆人！”

“真新鲜。什么时候？”丹笑着问。

“过几年，我会见证的。主人和仆人——仆人和主人。”

“你是怎么想出来的？”汤姆·普拉特问。

“在我的脑子里，我能看见。”

“为什么？”其他人也立刻问。

“我不知道为什么，但我知道会是这样。”厨子低下头，继续削土豆。人们从他嘴里再也问不出一句话来。

“好啦，”丹说，“等哈维成为我的主人前，还会发生好多事情呢。不过，我还是挺高兴的，大厨没有把哈维定为约拿。现在，从索尔特叔叔的特殊运气来看，我怀疑他也许是整个船队里最像约拿的人了。真不知道它会不会像天花一样传播。他应该在‘凯莉·匹特曼’号上。那条船自己就是约拿，肯定是——船员和索具都无法阻止它在海上偏航。天哪，上帝！就算是在风平浪静的天气里，它都会散架。”

“不管怎样，我们现在总算摆脱捕鱼船队了，”迪斯科说，“包括‘凯莉·匹特曼’在内的所有船。”这时，甲板上传来一阵敲击声。

“索尔特叔叔的运气又来了。”迪斯科离开时，丹说道。

“风吹散大雾了。”迪斯科大声叫道。整个船头弥散着新鲜空气。大雾散去，但是身后阴沉的大海仍然在翻滚着巨浪。“我们在此”号从浪头上滑下来，冲进悠长的水波大道里，如果它能保持平静，那这里真是个避风港一样温暖的地方。然而，海浪丝毫没有停歇或心生慈悲，反而继续把纵帆船向上猛抛，直达峰顶。纵帆船曲曲折折地沿着波浪滑下来时，海风呼啸着穿过索具。远处的海面溅起一堆泡沫，渐渐地其他海域也如同接到信号一样溅起泡沫来。哈维放眼望去，到处灰蒙蒙的。四五只海燕怯懦地盘旋着，飞过船首时发出尖利的叫声。一阵阵暴风雨漫无目的地四处飘荡，一次次地冲下来，又慢慢散开。

“我好像看见刚刚那边有什么东西一闪而过。”索尔特叔叔指着东北方向说道。

“不会是船队里的任何一条船。”迪斯科抬起眼皮瞧了瞧，一只手搭在舷门上。坚固的船首直直地插入波谷。“海浪就像抹油一样加速了，丹尼，你不想跳到高处，看看我们是怎么放排钩浮标的吗？”

丹穿着大靴子，与其说是爬上索具，不如说是小跑着（这一点让哈维嫉妒不已）攀上桅顶的横杆，四处张望，终于在一英里外的波峰上看到了小小的黑色浮标旗。

“一切正常，”他大喊，“出发喽！一直朝北，像烟雾一样过来了！她也是一艘纵帆船。”

他们又等了半个小时，天空才一片片地开始放晴。苍白的阳光不时地照射在大海上，海面呈现出斑驳的橄榄绿色。接着，前桅升起来，飘荡着，渐渐消失不见了。随着又一个大浪，船尾升起来了，上面有旧式的木质蜗牛角吊柱，帆是红褐色的。

“法国人！”丹大叫，“不，不是。爸，爸！”

“这儿没有法国人，”迪斯科说，“索尔特，你这该死的运气紧紧地缠着我们，就像钉桶上的螺丝钉一样。”

“我看见了。那是亚比叔叔。”

“你别这么肯定。”

“那是所有约拿的头领，”汤姆·普拉特大吼，“哦，索尔特，索尔特，你怎么不去上床睡觉？”

“我怎么知道？”可怜的索尔特说。纵帆船随海浪翻滚。

她就是那艘“荷兰飞行”号，气急败坏，慢吞吞。船上的绳索和棍子杂乱堆放着。老式的后甲板大约有四五英尺高，上面索具乱飞，纠结缠绕在一起，像码头丛生的野草。她比风速还要快——已经严重偏航——支索帆被降为前桅大帆使用——他们说那简直是“乱弹琴”！——她的前桅帆杆固定着拉绳，斜桅竖起来，像一艘古老的护卫舰；起重杆已经加固过，用螺丝钉结合在一起，没法再修补了。船头向前冲，宽大的船尾向后压。这艘船像一个不修边幅、不爱整洁的邪恶老女人鄙视一位衣着得体的女孩一样，到处乱撞。

“是亚比，”索尔特说，“船上全是杜松子酒和朱迪克人，上帝给了他判断力，他却没有好好地利用。他碰上诱饵了，像密克隆人一样。”

“是他自己的问题，”长腿杰克说，“这样的天气却没有船帆。”

“不是的，要不然他早就完蛋了。”迪斯科回答，“看样子他想来撞咱们。让他一头栽下去很简单吧，汤姆·普拉特？”

“如果这是她的装运方式，那她就危险了，”水手慢慢地说，“要是她把船帮上的麻絮都扔出来的话，她就能很快使出力气了。”

这艘船又被大海抛了起来，咔嗒咔嗒地转圈之后，再次迎风而行。

长着花白胡子的家伙在船舷边喋喋不休，用厚重的嗓音在大喊着什么，哈维却听不懂。然而，迪斯科的脸沉了下来。“他竟然冒险来给咱们送消息。说什么我们要遇到大风了，他倒霉了。亚比！亚比！”迪斯科像用水泵抽水一样上下挥动手臂，然后又指向前方。船员们都哈哈大笑起来。

“颤抖啊，砍掉桅杆，起航吧！”亚比叔叔大喊，“狂风来啦——狂风来啦。喂！想想你上次的行程，你那些格洛斯特的黑线鳕。你再也见不着格洛斯特了，再也见不着了！”

“都疯了——和往常一样，”汤姆·普拉特说，“我真希望他没找见我们。”

大船已经走远，只有灰白色头发的那个人还在大喊，内容大致是关于公牛湾的一场舞会，还有前甲板上死了的男人。哈维听得浑身发抖。他看到懒散的船员躺在甲板上，恶狠狠地瞪着眼睛。

“对她来说，正好漂到地狱里去，”长腿杰克说，“我想知道在岸上时他到底做了什么坏事。”

“他是用拖网捕鱼的渔民，”丹向哈维解释，“他总是沿着海岸找诱饵。哦，不，不是，他不回家乡。他在那儿的东边和南边。”说着，丹朝冷酷无情的纽芬兰海岸方向点点头。“爸爸从不让我去那里，他们那群人非常难搞——亚比是最坏的。你看到他的船了吗？嗯，那艘船已经

有70年了，他们说的，它是老马布尔海德的最后一条攻丝机船。船上没有后甲板，亚比也不去马布尔海德。他在那儿不受欢迎，所以他到处游荡，躲债，骂骂咧咧，就像你刚才听到那样。好多年前，他说自己成了个约拿。从印第安人的船上拿了酒做咒语，然后再呼风唤雨，做此类的勾当。我觉得太疯狂了。”

“今晚拉网没用了，”汤姆·普拉特陷入深深的绝望中，“他是专门跟着我们的。我宁愿拿出我的工资和股份，把他吊在‘旧俄亥俄’号的舷梯口，我们就不用浪费时间了。抽上六七十下，萨姆玛托就能把他打得皮开肉绽。”

凌乱的“攻丝机”在风中摇摆，所有眼睛都盯着她。突然，厨子用他那留声机一样的声音大叫道：“他要死了，所以才这么说的！他快死了——快死了，我告诉你们！看！”那艘船驶向三四英里外的远处一片阳光照射的海面。渐渐，阳光消退了，光线从船身上消失了。帆船掉进深渊——不见了。

“它被撞沉了！”迪斯科一边大喊，一边在后面跳起来。“不管他是喝醉了，还是清醒的，我们都要去救他们。用力推，把船凿开！麻利点！”

三角帆和前桅大帆被挂了起来，他们迅速拉起缆绳，把哈维推到了甲板上。为了节省时间，他们一边将锚整体从船底拉起，一边前进。除非是在生死攸关的时刻，通常他们很少这样蛮干。小小的“我们在此”号像人一样发出抱怨。他们冲向亚比沉船的位置；发现两三个拖网桶，一个杜松子酒瓶，一个船用壁炉，此外别无所获。“别管它们。”迪斯科说。尽管并没有谁暗示要打捞这些东西。“我不应该在船上和亚比较量。我想她早就撞了，那些填船帮的麻絮肯定掉了一个星期了，他们也

没想过要把水抽干。在离港时，船员们又都喝多了。”

“挺好！”长腿杰克说，“要是他们浮出水面的话，我们还得救他们呢。”

“我自己也是这么想的。”汤姆·普拉特说。

“死了！死了！”厨子翻着白眼说，“他被自己的运气带走了。”

“我觉得挺好。等我们见到船队时就告诉他们。额，什么？”曼纽尔说，“不管是谁在大风里那样航行，都会把接口撑破——”说着，他用手比画了个无法用语言描述的手势，宾坐在舱顶，出于惊恐和惋惜而啜泣着。哈维虽然没有意识到自己在无边无际的大海上见证了死亡，但他还是感到非常难受。

接着，丹爬上了桅顶的横杆。在大雾再次笼罩大海以前，迪斯科驾船返回排钩所在的海域。

“在这附近航行的时候，我们一定要快，”他对哈维说，“你以为那是诅咒，小鬼，那只是酒精在作怪。”

晚饭后，风平浪静，适合在甲板上钓鱼，这个时候，宾和索尔特叔叔非常活跃，钓到的也都是非常非常大的鱼。

“亚比肯定把自己的运气带走了，”索尔特叔叔说，“大风没加剧，也没平静。排钩怎么样了？不管怎么说，我都瞧不起讲迷信的。”

汤姆·普拉特坚持要捞起那些东西，找一个新的泊位。然而厨子却说：“运气一分为二。你去瞧瞧就会明白。我很清楚这一点。”这句话让长腿杰克很高兴，他说服了汤姆·普拉特，两人一起走了出去。

检查排钩意味着要从平底船的一侧摘下鱼，再次挂上诱饵，然后把它们重新放进大海——就像把晾衣绳上的衣服挂上去，取下来。这真是一件耗时而又非常危险的事，因为松弛的长绳也许会在一瞬间把渔船扯翻。不过，当从大雾里轰隆隆地传出一声“现在，该你了，船长”时，“我们在此”号上所有船员都松了一口气。满载而归的平底船在旁边打转，汤姆·普拉特呼喊曼纽尔去救援。

“运气果然分两半。”长腿杰克叉着鱼说。哈维望着本已卷入水里的平底船被救了上来，惊得目瞪口呆。“一半是‘南瓜’。汤姆·普拉特想拉起来不干了。可我告诉他：‘我要回去找厨子，他能预知一切。’另一半上来的是沉甸甸的大家伙。快点，曼纽尔，拿一桶鱼饵。今晚会漂过好运气。”

鱼钩上刚刚挂好诱饵，鱼就上钩了，它们的同类刚刚在这个鱼钩上丧命。汤姆·普拉特和长腿杰克有条不紊地把排钩拉起又放下。渔船的船头在湿漉漉的鱼钩绳子间起伏。他们把海参（他们称为“南瓜”）从钩子上扯下来，把刚刚捞上来的鳕鱼摔在船舷上，再次挂好诱饵，装满曼纽尔的平底船，这样一直忙到黄昏。

“我可不想冒险，”迪斯科说道，“不想在他的周围到处漂。一个星期后亚比会漂起来的。升起平底船，晚饭后洗刷。”

晚上的工作量非常大，有三四条呼呼喘气的逆戟鲸在他们附近。大家一直干到九点。迪斯科暗自窃笑了三次，每次都是在哈维把分解了的鱼扔进鱼舱的时候。

“我说，你转变的速度太快了，”当他们在磨同伴替换下来的刀具时，丹说，“今晚海上发生的事不少，我还没听到你说话呢。”

“忙得顾不上，”哈维一边回答，一边试了试刀刃，“想想，那艘船真是太令人意外了。”

银光闪闪的波浪里，小纵帆船在停泊处非常活跃。令人惊奇的是，一看到绷紧的缆绳，小船就像一只小猫一样猛扑过去，溅起了优雅的水花，穿过锚链孔，接着又传来了枪声般的爆裂声。她好像摇了摇头，似乎在说：“哦，对不起，我不能再陪你待更久了。我要去北方。”然后，她便想溜走，但是又突然停了下来，索具发出剧烈的哗啦哗啦声。“因为我要去监测，”她又开口了，就像一个醉汉在对着灯柱说话。剩下的话（当然，她是在用动作表现语言）她没有说，因为她陷入了心神不宁的烦躁中。正当大海向她奔涌而来时，她像一只撕咬线绳的小狗，像一位笨拙的妇女侧身坐在马鞍上，像一只没头的母鸡乱撞，又或是一头被大黄蜂蜇了的母牛。

“看她的样子，她现在就是个帕特里克·亨利¹⁵。”丹说。

她侧身荡在水里，起重杆从左舷跑到了右舷。

“可是——对于——我而言——不自由——毋宁死！”

！她一屁股坐在了月光照映下的水面上，要是没有齿轮的嘲笑的话，她也还是满心自豪的。

哈维哈哈大笑起来，说道：“怎么回事？你说得就好像她是个大活人一样。”

“她像房子一样稳当，像鲱鱼一样干瘪。”丹热情地说。他跳过甲板时溅起一阵水花，说，“‘躲开，躲开，别靠近我，’她说。你看她——你看她！天哪！你应该看看，一艘牙签船能把锚拉起15英寻高。”

“什么牙签船，丹？”

“那是新式船。专门捕捞黑线鳕和鲱鱼的。前面就像游艇一样好看，还有尖尖的船首斜桅，还有能装下鱼舱的房子。我听说伯吉斯自己做过三四个模型。爸爸根据它们起伏颠簸的情况，再三考虑。靠这种船能赚好多钱。爸爸能找到鱼，不过方法却不先进——他跟不上时代的脚步。船上装满了省时省力的钓具设备。你见过格洛斯特的‘选举’号吗？她是艘新船，还是牙签船里的新成员。”

“那得多少钱，丹？”

“好多好多。大概一万五，也许更多。你可以想象那是一座金山银山。”然后，他又压低声音，自言自语道，“我想，要是我有这样的一艘船，我会把她叫作‘海蒂’号。”

第五章 Chapter Five

丹和哈维经常在一起聊天，但那是第一次，他告诉哈维为什么会把平底船的名字改成和想象中的伯吉斯黑线鳕渔船一样的名字。哈维听过很多关于格洛斯特的海蒂的真实故事，见过她的头发——丹觉得任何词语都不足以形容那些头发的美。那年冬天在学校时，丹坐在海蒂的后面，于是他“钓”了几根头发得到了一张照片。海蒂大约14岁，对男孩子们不屑一顾。丹的心灵在那个冬天痛苦万分。哈维郑重地发誓，他会严守秘密，所以丹才会向他说出这一切。月光下的甲板上，海雾令人窒息。在他们的身后是旋转的轮机，甲板迎着前方行驶，大海失去了日间的喧嚣。当然，孩子们在彼此熟识后，准会发生争斗。曾经有一次，哈维和丹从船头打到船尾，直到宾上前将他们分开才停歇。宾答应不会把他们打架的事告诉迪斯科，因为迪斯科觉得在值班时间打架比睡觉还要恶劣。哈维在体格上无法与丹相抗衡，最近的海上训练起了很大作用，虽然失败了，但他并不打算用什么狡黠的手段和他的征服者打个平手。

事情发生在哈维的疖子治愈以后。他的胳膊肘和手腕的地方由于被毛线衫和油布雨衣磨破而生出了疖子，海水的侵蚀更是雪上加霜。不过，疖子熟了后，丹用迪斯科的刀片把它们割了下来，告诉哈维他现在已经不是“纽芬兰大浅滩渔民”了，疖子的痛苦折磨是最好的证明。

因为他还是孩子，而且很忙，所以他不会费心去思考。不过，对于他的妈妈，他还是深感愧疚的。哈维常常盼望着能够见到妈妈，将他全新的生活讲给妈妈听，让她知道自己现在对这一行是多么熟悉。然而，妈妈以为他死了，她如何能承受得了这种痛苦，这是哈维想都不愿

意想的事。但是，有一天，他站在扶梯上嘲笑厨师，因为厨师指责他和丹用吊钩偷走了煎饼。这时，他突然发现自己有了很大的进步。现在的他已经能在租赁的轮船上，在吸烟室里，接受陌生人的训斥了。

哈维已经成为了“我们在此”号上公认的一员，不管是在餐桌上还是睡觉时，他都有了自己的位置。而且，在暴风雨的天气里，人们都愿意听他讲那些岸上的“天方夜谭”。不到两天半工夫，只要一说他自己的故事——似乎太遥不可及——除了丹以外（就连丹也是将信将疑），没人相信他。于是，他编了一个朋友，是一个他听说过的男孩。这个男孩在俄亥俄州托莱多有一辆四匹小马驹拉的车，每次买衣服都是五套。他举办了一场华尔兹舞会，参加舞会的人里最年长的女孩也不到15岁，不过，舞会上送来的礼物都是纯银的。索尔特驳斥道，这种故事即便不算亵渎神灵，也都是极其邪恶的，但他还是像其他人一样听得津津有味。最后，众人的评论让哈维对华尔兹舞、服饰、带黄金滤嘴的香烟、名表、香水、小型派对、香槟、桥牌以及酒店住宿等有了全新的认识。渐渐地，谈及这位伙伴时，哈维改变了语调。因为长腿杰克给这个男孩取了很多外号，比如“疯狂小子”“金边娃娃”和“没断奶的傻子”等等。哈维把灌满海水的双脚放在桌子上，给他的“伙伴”编出丝绸睡衣和进口领结之类的事情，让这个“伙伴”更加令人讨厌。哈维是一个适应力很强的孩子，懂得察言观色，分辨得出人们的话音。

不久，他发现迪斯科把一个绿色的破旧的四分仪（人们把它叫作六分仪）藏在床铺下的睡袋里。每次，哈维测量太阳的高度时，都会靠着老农民的历书，确定自己的位置。他跳进船舱，用一颗钉子在锈迹斑斑的火炉烟囱管上刻下这个值得纪念的日期。现在，船上的首席轮机手也不用再忙活了。哈维像一名资深海员一样，小心翼翼地朝船舷边吐了一口痰，然后就说出了当天纵帆船所在的位置。在船上干了30年的轮机手

也没有他一半的气势。从此以后，迪斯科的四分仪再无用武之地。这一行也有自己的行规。

所谓的“六分仪”，埃尔德里奇航海图，老农民的历书，布伦特的“海岸航行手册”，以及鲍迪奇“航海指南”都是迪斯科用来教他的法宝，至于使用深海铅锤就要靠他自己的裸眼了。汤姆·普拉特在第一次教哈维如何扔“蓝鸽子”时，哈维差点要了宾的命。哈维的力气还不够在海上长时间地持续探测水深。但是风平浪静的时候，迪斯科可以安排哈维在浅水区轻松地扔出七磅重的铅锤来探测水深。正如丹说的：“探测水深不是爸爸想要的结果，他只是想取样本而已。哈维，给铅锤涂上油脂。”于是，哈维给底部涂上油脂，小心翼翼地把沙子、贝壳、泥浆，或者什么东西递过去，迪斯科用手指摸，用鼻子闻，然后就能下结论。就像前面提到的，只要迪斯科想到鳕鱼时，就会从鳕鱼的角度去考虑。凭借长时间的本能和经验的摸索，迪斯科带领“我们在此”号从一个泊位到另一个泊位，走到哪里都能捕到鱼，就像蒙着眼睛的棋手在下棋一样。

然而，迪斯科的棋盘是在大浅滩——这是个三角区，每条边的跨度都有250英里长——茫茫无际的大海，弥漫着潮湿的雾气，可恶的狂风，折磨人的浮冰，鲁莽的大客轮，还有捕鱼船队的点点风帆。

船队接连几天都在大雾里作业——哈维负责不断地摇铃——直到对这样的浓雾天气熟悉以后，他才跟着汤姆出海，他的心都要从嗓子眼儿里跳出来了。但是，大雾没有散去，鱼儿在咬饵，六个小时里，没有人能够在海上无助地待着。哈维全身心地握着绳索和鱼叉，汤姆·普拉特要的时候就赶紧递过去。循着铃声，凭着汤姆的本能，两人划回纵帆船旁。曼纽尔的海螺声在他们旁边听起来单薄而微弱。不过，对于哈维而言，这是一次恍如隔世的经历。一个月内，哈维第一次觉得像做梦一

样：小渔船周围波涛汹涌，雾气蒸腾，绳索慢慢摇晃着，最后消失不见了，海天融为一体，他瞪大眼睛也只能看到不足十英尺的范围。过了几天，他和曼纽尔一起出海，到40英寻深的水域，但整个锚缆都放完了，也还是够不到海底。哈维感到了死亡的恐惧，对他来说，与陆地唯一的联系没有了。“鲸鱼洞，”曼纽尔一边拉一边说，“这可是跟迪斯科开了个大玩笑。快！”曼纽尔划向纵帆船，找到汤姆·普拉特和其他人，众人正在嘲弄船长。因为这是他第一次把船员们带到了这片贫瘠的区域，鲸鱼洞的边缘，大浅滩的空洞。他们在大雾中再次寻找了停泊的地方。这次，哈维乘着曼纽尔的平底船时，吓得毛骨悚然。一个白色的影子出现在浓雾里，散发着死亡的气息，咆哮着猛冲过来，水花四处飞溅。这是他第一次在大浅滩见到可怕的夏季冰山。哈维蜷缩在船底瑟瑟发抖，曼纽尔忍不住哈哈大笑。不过，海上有时候也会晴空万里，温暖宜人，似乎这样的天气只适合拉着钓鱼竿，划着桨追逐海面上的太阳光斑，除此之外做所有的事都是一种罪过。遇上云淡风轻的时候，哈维就会学习如何操控纵帆船，从一个泊位行驶到另一个泊位。

前桅的帆在蓝天下飘摇，纵帆船在长长的浪涌里冲刺，当他手握轮舵，第一次感受到纵帆船任由他指挥时，他兴奋不已。他觉得自己很伟大，虽然迪斯科说要是跟在他的船后面，蛇的脖子都会被扭断。不过，俗话说得好，骄兵必败。支索帆扬起后，他们在大风中前行，哈维站在船的右侧，想给丹展示自己已经完全掌握了这项技术。前桅帆“”的一声断了，好在这是一面旧帆。斜桁撕裂前索帆，当然，这样是哪里都去不了的。他们默默地放下破损的前索帆。接下来的几天里，哈维只好利用闲暇时间，躲在汤姆·普拉特的船上，学习如何使用针线去补帆。丹兴奋地取笑着哈维，并且说自己在刚开始时也犯过同样的错误。

像其他男孩子一样，哈维调皮地模仿船上所有人的特征，直到他掌

握了每个人的特长：迪斯科手握轮舵时独特的站姿；绳索拉起时，长腿杰克挥舞手臂的动作；曼纽尔滚圆的臂膀在平底船上用力地挥动；还有汤姆·普拉特迈着“旧俄亥俄”号的大步，在甲板上昂首阔步的姿态。

中午时分，头顶烈日，哈维站在起锚机旁。“看这孩子模仿我们，真有意思，”长腿杰克说道，“我用所有的工资和份额打赌，他不是学着玩儿的。他觉得自己就是个勇敢的水手。看他现在的样子。”

“我们每个人都是这么过来的，”汤姆·普拉特说，“孩子们自以为长大成人了，一直在自欺欺人，直到死的那一天。我在‘旧俄亥俄’号时就是那样。记得第一次站岗时——港口站岗——觉得自己就是法拉格特将军¹⁶。丹就是这神气。看看他们现在，想让自己变得更自然——每根头发都是缆绳，血液里流淌着松焦油。”说着，他走下楼梯。“我想你这次判断失误了。迪斯科，你怎么就觉得那孩子不正常？”

“他以前就是不正常，”迪斯科回答，“刚来船上时就像个疯子，但是他现在变得理智了，是我治好的。”

“他编故事挺有一套。有一天，他跟我们讲了一个跟他个头差不多的孩子的故事。那个孩子驾着四匹小马拉的车，邀请了几个同龄的孩子在俄亥俄州的托莱多开派对，我估计就是这么说的。听起来有点离奇，不过挺有趣。他知道好多这样的故事。”

“我看那都是他自己脑子里想出来的。”迪斯科忙着写航海日志，坐在船舱里回答道，“百分之百是编造的，除了丹没人听。我知道，丹在背后也笑他呢。”

“你听过西蒙·彼得·卡豪恩吗？有人撮合了他姐姐海蒂和洛林·杰拉德的婚事，男孩们把这当笑话来取笑他和乔治一家。”索尔特叔叔慢吞

吞地说。他在船上的背风处一声不吭地淋着雨。

汤姆·普拉特静静地抽着烟，有些不屑一顾。他是科德角人，20多年前就听过这个故事。索尔特叔叔粗声粗气地笑着，继续往下讲：

“西蒙说洛林一方面寻欢作乐，一方面又蠢得要命，人们却说她嫁了个有钱人。西蒙说话不靠谱，他是那么说的。”

“他说起话来可不像宾夕法尼亚的荷兰人，”汤姆·普拉特回答道，“你最好让科德角人去讲这个故事。追根到底，卡豪恩家自己也曾到处流浪呢。”

“哦，我可不想表现得像个演说家，”索尔特叔叔说，“我是来讲道理的。我要说的是关于咱们哈维的。一方面寻欢作乐，一方面又蠢得可怜。有人还相信他是个有钱人。哈！”

“你有没有想过，要是船上所有的人都和索尔特一样，那该有多好玩。”长腿杰克说，“一半在犁沟里，一半在烂泥堆里。不用卡豪恩开口，就能看出是个渔夫！”

大家都开始笑索尔特的装备了。

迪斯科一言不发，专心地写着他的航海日志。他的字迹方方正正的，略显瘦削，污渍斑斑的纸上一页一页地记录着：

7月17号，今日大雾，无鱼。向北停泊。一天结束。

7月18号，早晨起雾，少鱼。

7月19号，微风，东北风，天气晴朗。向东停泊。收获颇丰。

7月20号，大雾，微风。一天结束。本周捕鱼3478条。

星期天，他们从来不干活。如果天气好的话，他们会刮胡子，洗漱，宾夕法尼亚还会哼哼小曲。有一两次，他曾提议，要是大家愿意的话，他可以宣讲一些教义。索尔特叔叔听到这个想法后，大惊失色，并且提醒他要记住自己不再是牧师，也别再想这件事情。“我们不能让他记起约翰斯敦，”索尔特解释说，“那样说不定会出什么乱子！”于是，他们达成妥协，宾可以读一些《约瑟夫》上的内容。这是一本真皮面的旧书，散发出浓浓的海风的味道，非常详实，就像《圣经》一样厚重，里面记录了许多攻城略地的故事，所以显得鲜活而生动。他们几乎从头读到尾。其他时候，小个子宾总是安安静静的。尽管他会打扑克，听音乐，被故事逗笑，但他会一连三天，一言不发。众人想逗他开心时，他说：“虽然我并不想显得自己不合群，可我真的没什么可说。我的脑袋一片空白，我连自己的名字都不记得。”说着，他会微笑着转向索尔特叔叔，期待能得到答案。

“为什么，宾夕法尼亚·普拉特，”索尔特大声说，“下次你会把我的名字也给忘了！”

“不——永远不会，”宾咬紧嘴唇，说，“宾夕法尼亚·普拉特，当然。”有时候，索尔特叔叔忘记他的名字时，会说他叫哈金斯，里奇或者麦克什么的，但宾还是一如既往地满意，直到下一次再问。

宾对哈维总是非常温和。他觉得哈维是个找不到家的可怜孩子，又是一个脑子不聪明的傻子。索尔特看到宾喜欢这个孩子，他也释然了。索尔特不是一个亲切的人（他把管教孩子们守规矩当成自己的事业）。有一天，风平浪静，哈维瑟瑟发抖地爬上主桅（丹站在他身后，随时准备救援）。这是哈维第一次上主桅，他想把索尔特的大靴子挂上面，

这是他的任务，也是对附近船只的羞辱和嘲笑。在迪斯科面前，即便老头对他直接发号施令，哈维也不敢造次，或者和其他船员一样对他说“你不想做这些？”或者“我想，你最好是”诸如此类的。迪斯科脸上的胡子刮得非常干净，对于年轻人来说，迪斯科眼角的皱纹透着冷峻的威严。

迪斯科给他看了那张磨损的海图，说这个比任何政府公布的地图都要全面。迪斯科手握铅笔，顺着大浅滩沿线一个泊位一个泊位地指给他看——勒阿弗尔，西部湾，班奎，圣皮埃尔，格林滩和大浅滩——同时，迪斯科还给他讲了各地鳕鱼的情况和六分仪的使用原理。

哈维在这方面的能力超过了丹。因为他对数字天生敏感，瞥一眼大浅滩阴沉的太阳，他便能获取信息，来施展他的聪明才智。对于海上的其他事情，年龄会成为限制。正如迪斯科所说，哈维在十岁时就应该出海。丹可以在黑暗中放下排钩，或者抓住绳索。紧急关头，索尔特叔叔的手掌被鳕鱼划破时，丹可以摸索着继续加工鱼。大风刮在脸上，丹可以判断出风力，驾驶纵帆船驶向任何适合的水域。他做这些事情时就像放下索具一样简单自然。平底小船好像成了他的一部分，完全听命于他一样。不过，这些知识他却没法教给哈维。

狂风暴雨的天气里，大家会讲起纵帆船的一些故事。聊天时，他们要么坐在前甲板上，要么坐在船舱里的储物柜上。备用的螺丝圈、铅锤、绳圈丁零当啷地摇晃着。迪斯科讲述了50年代的捕鲸之行。巨大的母鲸在幼崽身边被捕杀，愤怒的大海波涛汹涌，鲜血喷薄而出，足足有40英尺高。渔船被撞成碎片，捕鲸的专用火箭弹发生了故障，在吓得魂飞魄散的船员们中间突然爆炸。1871年，波涛汹涌的大海迎来了寒潮，使得1200名船员无家可归，在冰上冻了三天——这些都是令人称奇的故事，但全都是真实的。不过，最刺激的还要数鳕鱼的故事，以及它

们在船底的龙骨下讨论各自处境的内容。

长腿杰克的品味更倾向于超自然。他讲的莫诺莫伊沙滩上的鬼故事，吓得没人敢出声，说那些孤独的捞蛤人遭到了戏弄，吓个半死。在死后没有得到很好的安葬的鬼魂在沙滩和沙丘上四处游荡，藏匿在火岛的宝藏由基德船长17的船员守护。大雾天气里，船只却能一直向前驶向特鲁罗小镇，缅因州的港口空无一人，只有陌生人才会在同一海域抛锚两次。原来，那是一群死去的水手在作怪，他们在深夜里划着一艘破船，呼啸前行——不是叫喊，而是呼啸——因为抛锚人的灵魂搅扰了他们的安宁。

哈维说他的家乡在东海岸。从荒凉山往南，到处都是骑着马来避暑的人，村舍里铺着硬木地板，挂着门帘，在那里消遣。他嘲笑杰克那些离奇鬼故事——不再像一个月以前那样胆小——不过，听到最后，他还是不由自主地浑身打颤，吓得僵坐在那里一动也不敢动。

汤姆讲起鞭刑时期，自己在“旧俄亥俄”号上，没完没了地绕着合恩角航行的艰难经历。当时的海军如今已经像渡渡鸟灭绝一样，在南北战争中灭亡了。他告诉人们火红的炮弹如何击中加农炮，离炮筒只有一小块湿黏土的距离。炮火打在木头上咝咝地冒着烟，“吉姆·巴克”号船上，没有经验的小水手一边泼水，一边朝炮塔再次呐喊。他还讲了封锁时期的故事——接连几周在海上漂荡，只有蒸汽船燃料用光时（帆船绝没这样的可能）才会返航，大风和寒流迫使200名船员不分昼夜地敲打着缆绳、船板、索具上的冰块，当厨房像发射出去的炮弹一样炙热时，船员们抱起桶把热可可灌进肚子里。汤姆·普拉特没接触过蒸汽船，他退役时，这种船相对比较新鲜。他承认蒸汽船出现在和平年代，貌似不错，但他还是期待帆船有重新回到大海的那天，会有万吨的纵帆船，配备有190英尺高的吊杆。

曼纽尔的发言缓慢而轻柔，故事都是关于马德拉群岛上女孩子的。月光下，摇曳的香蕉树下，干涸的河床边，一群女孩子在洗衣服。他还会讲一些圣人的故事，纽芬兰的港口有人在跳奇怪的舞蹈或者在打架。索尔特的话题侧重农业，尽管他也阅读《约瑟夫》，并且还会做解释，但他毕生的任务就是要证明绿色肥料的价值，尤其是三叶草优于任何形式的磷酸盐。提到磷酸盐，他的话里尽是厌恶。他从床铺上拿出一本油乎乎的《奥兰治·贾德》开始吟诵，拖长声调，对着哈维喋喋不休，而哈维却一句都听不懂。每当哈维嘲笑索尔特的演说时，小个子宾就会觉得非常难过，所以哈维只好作罢，出于礼貌而继续忍受。哈维能这样做还是不错的。

厨师自然不会参与这样的谈话。通常，他只会在非常必要时才会发言。然而，奇怪的灵感有时会突然降临，他会把握时机，一半用盖尔语，一半用零散的英语，滔滔不绝地说上一个小时。他尤其擅长和孩子们交流，他从不避讳预言哈维将会成为丹的主人，而且他会看到这一天的到来。他讲起冬天在布列塔尼角运送邮件的故事，乘坐狗拉的雪橇到库德雷，北极破冰船从大陆出发，冲破坚冰，抵达爱德华王子岛。然后，他还会讲从他妈妈那里听到的故事，说的都是关于南方的生活，那里永远不会结冰。他还说，在他死后，他的灵魂会躺在温暖的白沙滩上，棕榈树在头顶摇曳。对于孩子们来说，这个人太奇怪了，因为他这辈子从来没有见过棕榈树。而且，通常在每顿饭的时候，他都会问哈维，而且只问哈维一个人，饭菜是否合他的口味。这样总会立刻引起其他人的嘲笑。不过，人们还是很尊重厨师的判断，他们在心中，都把哈维当成了幸运星。

哈维每一次深呼吸新鲜空气时，身体都会变得强壮起来，每个毛孔都储存着新鲜的知识。与此同时，“我们在此”号继续前行，在大浅滩捕

鱼，银灰色的咸鱼压得整整齐齐，越堆越高。每天的工作平淡无奇，但是所有的日子都是如此繁忙而紧密。

迪斯科的名声不断攀升，自然会被其他渔船跟着——丹说他被“盯上了”。不过，迪斯科有个非常棒的小窍门，能帮他们穿越浓浓大雾笼罩的大浅滩。迪斯科之所以不和他们结伴有两个原因。首先，他想自己单独实践。其次，他反对不同地区的捕鱼船混在一起作业。船队里大部分是格洛斯特船，零星分布着普罗温斯敦、哈里奇、查塔姆的船，还有一些来自缅因州。不过，船员们都知道鲁莽衍生风险，贪婪膨胀，必会在拥挤的船队中造成各类事故。如同羊群围在一些不熟悉的头羊周围。“让那哲罗德兄弟领着他们吧。”迪斯科说，“到了东海岸，恐怕我们得在他们中间逗留一段时间。如果够幸运的话，不会待太久。哈维，你不考虑换个地方吗？”

“是吗？”哈维回答。花了好长时间才加工完鱼，他又开始汲水（他已经学会了如何放桶）。“我倒是不介意到鱼不多的地方试试。”

“我想去的地方——哪怕不站上去也行——就是东部海角。”丹说，“爸爸，好像我们在大浅滩最多只须再待两个星期。哈维，到时候你就能见到你想见的人了。然后我们就要忙起来了，没人能按时吃饭。饿了就随便垫点，实在支撑不住的时候就眯一会儿。幸亏一个月前就把你捞上来了，否则我们哪有功夫让你一根头发不少地到达处女滩呢？”

哈维曾经在埃尔德里奇图上看到过处女滩和其他一些名字奇奇怪怪的海滩，它们是航行路线的中转点，运气好的话，他们能在那里把盐抹完。不过，看处女滩的面积，那只是一个点。哈维不明白迪斯科是如何借助六分仪和铅锤找到那个地方的。后来，他才知道迪斯科有足够能力应付这点小事，处理其他事也游刃有余，并且他还能帮助其他船只。

船舱里挂着一块4×5英尺大小的黑板，哈维一直不懂它有什么用，直到浓雾密布的几天过后，哈维才明白。当时，他们听到一阵嘈杂的声音，那是脚踏式雾笛警报器在嘟嘟作响——这架机器发出的声音就像得了肺癆的大象发出的声音。

于是，他们采取了紧急停泊的措施，把锚链拉到船底下，以免惹麻烦。“横帆船正在大声喊叫他们的位置。”长腿杰克说道。三桅帆船挂起湿漉漉的红色前帆，在大雾中非常显眼，“我们在此”号用简易信号向对方船只摇了三次铃。

这艘船比纵帆船要大，中桅帆被收了起来，从船上传来了一阵尖叫和呐喊声。

“是法国人，”索尔特叔叔嘲讽道，“圣·马洛的密克隆船。”这个农民在海风里也能看得一清二楚。“迪斯科，我的烟快抽完了。”

“这儿也一样，”汤姆·普拉特说，“往后退，往后退。你们打哪儿来？——圣·马洛吗？”

“啊哈！对！对！克洛斯·布莱特——圣·马洛！圣·皮埃尔！密克隆！”这伙人挥舞着羊毛帽，聚在一起，嘻嘻哈哈道，“黑板！黑板！”

“拿过板子来，丹，记下，我也算是服了，美国这么大，到处都能碰得到法国船。46度49分，我估计他们就在这么个位置。”

丹用粉笔把数字记在黑板上，挂上主桅支索，对面传来一阵嘹亮的“谢谢”声。

“他们就这么离开，有点不礼貌吧！”索尔特的手在口袋里摸索着说道。

“上次出海，法国人还没给够你教训吗？”迪斯科问，“我可不想因为你骂他们是‘密克隆’船上没用的鸡崽，被他们拿压船石头砸。就跟你离开勒阿弗尔那会儿一样。”

“哈蒙·拉什说那样才能让他们兴奋起来。对我来说，广阔平坦的美国就不错。我们船上的烟草严重短缺。小鬼，你会说法语吗？”

“哦，会。”哈维勇敢地回答道。然后，他大喊：“嗨，我说！各位！停下！我们想要点烟草！”

“啊，烟草！”对方大叫道，然后又笑了。

“他们听懂啦，不管怎样，我们要放一艘船过去吧。”汤姆·普拉特说，“我没拿过法语的什么证书，但我知道还有一句行话。快，哈维，给我翻译。”

汤姆和哈维爬上那艘黑色的渔船时，船上乱糟糟地堆着索具，场面混乱得简直无法描述，船舱里贴满了闪闪发光的圣母像——他们说那是纽芬兰的圣母。哈维发现自己的法语在大浅滩根本施展不了，对话也仅限于点头和微笑。不过，汤姆·普拉特却在旁边挥舞着胳膊，如鱼得水地和他们交流着。船长递给他一杯说不出味道的杜松子酒。船员们扯着嗓子，头戴红帽子，手持长刀，像一群滑稽的小丑，把他当哥们儿一样迎接过来。接下来，交易开始进行。他们有烟草，而且很多——都是美国烟草，从不在法国交税。他们想换些巧克力和饼干。哈维划着船回到纵帆船上，厨子和迪斯科安排好，因为他俩负责仓库的囤货。哈维返回去的时候，刚一上法国船，他们就迫不及待地清点罐装可可粉和袋装饼干，好像海盗分赃一样。不过，汤姆·普拉特下船时，身上绑着细条的黑色烟草，袋子里塞满了可以咀嚼的或者直接吸的烟丝。那些快乐的法

国水手驾船消失在大雾中，最后，哈维听到一阵欢快的合唱声：

在我姨妈骄傲的后面，

有一片美丽的树林

夜莺在这里歌唱，

昼夜不停地歌唱

你要把这美丽的歌声带给谁？

谁又把它带到这里？

我把它送给美丽的魁北克

索雷尔和圣丹尼¹⁸

“为什么我的法语不管用，你的比画却派上用场了？”“商人”汤姆·普拉特在给“我们在此”号上的船员分发东西时，哈维问道。

“比画！”汤姆大笑起来，“哦，是，是比画。不过，却要比你的法语古老。那艘法国船上坐着的是共济会¹⁹会员，这就是原因。”

“那你也是共济会的吗？”

“看起来像，是吧？”这个从战争中出来的男人一边说着，一边把烟丝装满烟斗。此时，对哈维而言，深邃的大海又留给他一个不解之谜。

¹⁶ 法拉格特将军，戴维·格拉斯哥·法拉格特（1801年7月5日—1870年8月14日），是美国南北战争时期的一位海军将军。他是美国海军第

一位少将、中将和上将。

[17](#) 威廉·基德（William Kidd，1645年1月22日—1701年5月23日），出生于苏格兰敦提，苏格兰航海家、海盗、私掠者，被人们称为“基德船长”（Captain Kidd）。

[18](#) 索雷尔和圣丹尼，都是加拿大的城市。

[19](#) 共济会，出现在18世纪的英国，是一种带宗教色彩的兄弟会组织，也是目前世界上最庞大的秘密组织，他们自称宣扬博爱和慈善思想，以及美德精神，追求人类生存的意义。

第六章 Chapter Six

在哈维的记忆中，印象最深刻的莫过于船只自由自在地行驶在无边无际的大西洋上。正如丹所说，渔船之所以可以如此自在，当然离不开同行的热情，以及周围船只的智慧。不过，蒸汽船所承受的期望更多。后来，他们在海上经历了一次有趣的邂逅。一艘破旧的大运牛船，慢慢悠悠地跟了“我们在此”号3英里。船上所有的牲畜都在上层甲板，臭气熏天，就像上千个牛棚散发出来的味道一样。其中有个船员极度兴奋，用一只扩音喇叭朝迪斯科的船大喊。这艘船无助地在海面上漂荡，迪斯科的“我们在此”号行驶在它的下风处，以此表示抗议。“喂，你们想去哪？哪儿都去不了。你拖着牲口圈，歪歪扭扭地在海上乱窜，根本不管旁边的渔船，你的眼睛是掉在咖啡杯里了，还是你那颗愚蠢的脑袋上根本没长眼睛？”

听到这些话，那位船长在驾驶台上暴跳如雷，指责迪斯科自己的眼睛有问题。他大声嚷嚷道：“我们已经3天没有接收到观测数据了。你以为我们能蒙着眼睛驾船吗？”

“喔，我就可以，”迪斯科反驳道，“你的铅锤咋了？被你吃了？你难道感觉不到船底深度？还是那些牲口太臭影响了你？”

“你拿什么喂它们呢？”索尔特一脸认真，牛圈的味道唤醒了他身上的每个农民细胞。“他们说船上的牛很容易死掉，虽然这跟我没关系。不过，我觉得可以把油饼捣碎，然后撒到——”

“天哪！”穿红毛衫的牧牛人看了一眼外边，说道，“是哪个疯人院

把这个老头给放出来的？”

“年轻人，”索尔特从前桅支索前站起来，继续说，“让我告诉你，趁我们还没走远——”

站在驾驶台上的人摘下帽子，故作礼貌地说：“打扰了。不过，我做事自有分寸。如果这位大胡子老农民能行行好，闭上嘴，那些海蓝色的藤壶即便斜着眼睛，说不定也会屈尊给我们指点。”

“索尔特，这次你可让我开眼了。”迪斯科愤怒地说。他无法忍受这种别扭的谈话，直接抛出经纬度的位置，再也没多说一句话。

“哦，那条船上都是疯子，肯定是。”船长说。他通知了驾驶室，朝纵帆船扔了一捆报纸。

“那群该死的傻子，和你差不多，索尔特，我见过他们那类人。”“我们在此”号离开时，迪斯科说，“他们就跟迷路的孩子一样漂荡，我正要跟他说说我的判断。你就不能跟你那该死的种地活儿断绝关系吗？你难道就分不清场合吗？”

哈维、丹和其他人一起站在后面，互相挤眉弄眼，暗自窃笑。然而，迪斯科和索尔特还在认真地吵架，一直吵到傍晚。索尔特争辩说，一艘运牛船就是蓝色大海上的牛圈。而迪斯科坚持说即便如此，你的尊严和渔民的骄傲都要求你必须认清形势。长腿杰克默默地站了一会儿——有愤怒的船长就有愤怒的船员——晚饭后，隔着桌子，他开口了。

“为什么要费心管别人说什么呢？”

“他们会在几年里一直说这个事儿——这就是原因，”迪斯科说，“捣碎油饼。”

“当然，还得加盐。”索尔特仍然执迷不悟，一边阅读一份旧纽约报纸上的农业信息，一边说。

“你的话让我很不舒服。”迪斯科船长也没有退让。

“别那么想，”和事佬长腿杰克说，“看这儿，迪斯科！今天这样的天气，还有其他船在海上漂荡吗？再说了，还有谁会提醒它？要我说，在这海上，还有谁能跟它讨论管理和航行的学问？别想了。当然没有。在海上见了面顶多三言两语。双方都没当真，互相取乐。我们都明白。”丹在桌子底下踢了哈维一脚，害得刚好喝水的哈维差点呛了。

“哦，”索尔特觉得脸上有些挂不住了，就说，“我早说过跟我没关系，我说了啊。”

“对，”在礼节和规矩方面富有经验的汤姆·普拉特说，“好啦。我明白，迪斯科，凭你的判断，不管怎么样，听到类似谈话你就应该制止——不能让它发生。”

“我也不知道怎么就成这样了。”迪斯科出于颜面考虑，赶紧找了个台阶下。

“为什么，当然会这样啦，”索尔特说，“你是这儿的船长，要是你能给我点暗示，我肯定闭嘴。不是因为你是领导，也不是自己有错，起码为了给这俩倒霉的孩子做个榜样。”

“哈维，我没告诉过你吗？最后都会绕到咱俩身上。倒霉的孩子。不过，要是能看到刚才那场面，我倒愿意拿一半的比目鱼来换。”丹悄悄说。

“不过，还是不能混在一起。”迪斯科说。索尔特把烟丝装进烟卷里时，两眼又透出要展开新一轮争吵的光芒。

“分清楚有好处。”长腿杰克还在努力制止这场暴风雨。“斯坦因和哈雷早就发现了这一点。他派康纳罕去马里拉找船长，顶替原来的牛顿船长。因为牛顿船长得了风湿病，不能出海。我们都叫康纳罕是‘大航海家’。”

“尼克·康纳罕每次都要喝一磅朗姆酒才会上船，而且还要记在货单上。”汤姆·普拉特一边摆弄铅锤，一边说，“他常去波士顿那些船运公司转悠，想让老板根据他的能力让他当驳船的船长。大西洋大道20的山姆·考伊听了他的故事，让他白吃白住了一年多。航海家康纳罕！啧啧，死了有15年了，是吧？”

“我看，有17年了，他死在‘卡斯帕·麦克维勒’号建成的那年。但是他做事总是稀里糊涂的。斯坦因带走他，就好像是贼偷走了热风炉，那是没办法的办法，因为没人可用了。当时，人们都去了大浅滩，康纳罕组织了一大帮不好对付的人当水手，从来没那么多人。都是朗姆酒惹的祸！谁都能驾驶得了‘玛丽拉’号，船和货物都上了保险。他们离开波士顿港去纽芬兰的大浅滩。身后是呼呼的西北风。所有人都拎着酒瓶，上帝也挺关照他们，见鬼了，他们没有派任何人守夜，连根绳子都没碰，直到把15加仑的劣质酒喝了个精光。据康纳罕回忆，大约持续了一周。

（但愿我能把他讲的故事复述清楚！）海风呼啸，正值夏天，‘玛丽拉’号扬起前桅的船帆——康纳罕拿起六分仪，浑身直打哆嗦，脑子里浮现出航海图，头却晕晕乎乎的，最后终于知道他们要往南去塞布尔岛。一路上大家心情大好，没人说话。然后，他们又开了一桶酒，喝了个天昏地暗。‘玛丽拉’号到达波士顿灯塔后，一直偷懒，从没有拉起过下风的横档——只是任由其倾斜着向前行驶。不过，沿途上他们没看到

海草、海鸟，也没有纵帆船。那个时候，他们才发现已经出来14天了。他们怀疑大浅滩已经将他们遗忘。于是，他们测了测水深，大约60英寻。康纳罕说：‘是我，康纳罕。每次都是我！我带领你们到大浅滩了，到30英寻的地方就能像小娃娃一样无忧无虑了，我是航海家康纳罕！’”

“接下来探测到90英寻，康纳罕说：‘要么是铅锤线拉长了，要么是大浅滩下沉了。’”

“听起来这样的解释还算合理，他们拉起铅锤，坐在甲板上数着绳结，绳子被搞得一团糟。‘玛丽拉’号继续前进，速度渐渐慢了下来。这时，旁边来了一艘不定航线货船。康纳罕开口了。”

“康纳罕很随意地说：‘到目前为止，你们见过渔船吗？’”

“‘爱尔兰海岸有好多。’货船上的人回答。”

“‘哈，一边儿去，’康纳罕说，‘爱尔兰海岸跟我有什么关系？’”

“‘那你在这儿干吗呢？’货船上的人又问。”

“‘受难的基督！’康纳罕说，（他心情不好，大口喝酒时，就会这么说）‘受难的基督！’他说，‘我现在在哪儿？’”

“‘克里尔角21西南35英里，’对方回答说，‘但愿这样能让你感到安慰。’”

“一听这句话，康纳罕蹦了起来，船上的厨子一量，足足有4英尺7英寸高。

“‘安慰！’康纳罕重复道，他厚着脸皮说，‘你把我当乡下人耍吗？离开波士顿灯塔14天，距离克里尔海角35英里。受难的基督啊，真是创纪录了。而且，我老妈还在斯基伯林22。想想这个事情！忍无可忍！’但是，他说话从来不知分寸。”

“船员大部分来自科克郡和克里郡，有一个想回家的马里兰州人，他们都叫他叛徒。他们驾驶着‘玛丽拉’号去了斯基伯林，在那里和老朋友们玩儿得很高兴，待了一个星期。然后，他们回来了，大约用了32天才到达大浅滩。这个时候快到秋天了，食物也快吃光了，所以康纳罕就驾船回到波士顿，当时船上连根骨头都没得吃了。”

“航运公司是怎么说的？”哈维问。

“他们能说什么？大浅滩里有的是鱼。康纳罕只顾吹嘘自己在东部的行程创下了纪录！他们只能自我安慰。其实，这首先是因为他没有把水手和朗姆酒分开。其次是把斯基伯林当成了班奎罗浅滩。航海家康纳罕，愿他的灵魂得到安息，他真是个撒谎不看稿子的好公民。”

“以前，我在‘露西·福尔摩斯’号上，”曼纽尔轻声说，“格洛斯特人不要我们的鱼。为什么？也不出价。所以，我们漂洋过海，打算去法亚尔岛23卖。当时正好起风了，我们躲进船舱，快速行驶——没人知道划向哪里。慢慢地，我们看到了一片陆地，天气暖和了些。接着，又看到砖瓦房里有两三个黑人。额，什么？我们问这是在哪儿，他们说——好了，你们猜，他们说什么了？”

“大加纳利岛24。”迪斯科思索了一会儿说。曼纽尔笑着摇了摇头。

“布兰克角25。”汤姆说。

“不，比那还要糟。我们到了比热戈斯群岛26，那些人是从利比里亚来的！所以，我们就在那儿卖了鱼！还不错，是吧？嗯，怎么样？”

“像我们这样的纵帆船能直驶到非洲吗？”哈维问。

“只要值得一去，食物充足的话，可以途经合恩角。”迪斯科说，“我爸曾经有条船，船身略带些红色，大约15吨重，我想——应该叫‘鲁帕特’号——他驾船穿行在格陵兰岛的冰山间。那年，一半的船只都在那儿捕捞鳕鱼。不光这样，他还让我妈跟他一起——我想，我爸是想让她知道钱是怎么挣的。大伙儿都被冻僵了，我出生在迪斯科岛。当然，我什么也不记得。冰雪融化时，我们返回家乡。不过，他们用那里的地名给我取了名字。这样给娃娃取名字，真是耍小聪明，不过，人这一辈子，注定都会犯错误。”

“对！对！”索尔特摇头晃脑地说，“难免犯错。我要告诉你俩小子，如果你们一旦犯了错误，每天至少会犯上百个错——犯错后，要像男子汉一样勇于承担错误，那你们就是最棒的。”

长腿杰克使劲朝所有人眨了眨眼睛，只有迪斯科和索尔特没有注意到。这件事总算画上了句号。

后来，他们一路向北行驶，平底船几乎天天出海。他们沿着大浅滩东岸，在三四十英寻水深的地方撒网捕鱼，收获得满满当当的。

就是在这里，哈维第一次见到了乌贼。乌贼是最好的捕鱼诱饵之一，只是摸不着它的脾气。一天深夜，人们被索尔特的喊叫声吵醒了。“乌贼！”一个半小时里，每个人都趴在船舷上放下钓乌贼的鱼钩——涂成红色的铅片，下端用曲别针弯成的圈做成伞骨的样子。乌贼不知道为什么总喜欢把自己蜷成一团，还没来得及逃脱曲别针钩，就被钓

了起来。不过，乌贼在离开水里时，先是喷水，接下来就朝捕捞者的脸上喷墨汁。这群人只好摇头晃脑地躲避四射的墨汁，样子很是滑稽。喷墨结束后，人们的脸像扫过烟囱一样黑，但是甲板上会堆满新鲜的乌贼。大鳕鱼看着闪闪发光的章鱼须挂在蛤饵钩上，哪怕是一点点都会很乐意上钩。第二天，他们果然收获颇丰。同时，他们还遇到了“凯莉·匹特曼”号。他们冲着船大声炫耀自己的战利品，“凯莉·匹特曼”号想和他们做交易——七条鳕鱼换一条大乌贼，可迪斯科不同意这个价格，“凯莉·匹特曼”号闷闷不乐地停在半英里外的下风处，希望自己也能捕到一些。

直到晚饭后，迪斯科一句话都没说。他派丹和曼纽尔出去给“我们在此”号的缆绳上浮标，并且宣布他打算在停泊转向时使用阔板斧，防止别的船靠近。“凯莉·匹特曼”号派了一艘平底船来打听他们为什么要在缆绳上装浮标，而不是在海里直接抛锚。丹自然把迪斯科的话复述了一遍。

“爸爸说，他不相信5英里内的任何一艘渔船。”丹高兴地大声说道。

“那他干吗不离开？谁拦着他了？”对方答道。

“因为你们在他的下风处，他不喜欢任何一条船在他身边晃悠，更别说是你这样一艘到处游荡的小破船了。”

“我的船才不是到处游荡。”船上那个男人生气地驳斥道。丹的话直击要害，因为“凯莉·匹特曼”号名声不好，锚泊装置总是出问题。

“那你们怎么停泊呢？”丹问，“那可是你们最出名的。要是她不游荡，那你们干吗挂起新的三角帆？”这一问可问到了痛处。

“嗨，你这个葡萄牙手风琴艺人，带着你的小把戏滚回格洛斯特，滚回学校去，丹·特鲁普。”对方开始反击。

“工装裤！工装裤！”丹扯着嗓子大喊。丹知道“凯莉·匹特曼”号上有一个船员，去年冬天在一家服装厂工作过。

“小矮子！格洛斯特的小矮子！滚出去，滚出去，你这个新斯科舍家伙！”

被人叫新斯科舍家伙可不舒服，丹决定以牙还牙。

“你才是新斯科舍佬，你这个瞎摸乱闯的城里人！趁火打劫的查塔姆人！光脚开着你的破船赶紧滚回去！”丹的力气都用光了，可查塔姆人更变本加厉了。

“我知道会发生什么事，”迪斯科说，“风已经吹上船了，应该有人立即去制止。要不然她会一直呼呼作响直到午夜，等我们睡着了，她肯定会漂走。幸好，我们没被其他渔船包围。不过，我不会帮查塔姆人起锚的，也许她自己能挺得住。”

太阳落山时，海上果然开始起风了，一直刮个不停，越来越大。虽然海浪不大，不会打翻平底船的索具，但“凯莉·匹特曼”号有自己的规矩。到孩子们值班快结束时，他们听到船上传来一阵噼里啪啦的声音，像一把巨大的前装式手枪发出的枪声。

“光荣啊，光荣啊，哈利路亚！”丹唱了起来，“她过来了，爸爸。先是船底在动，和以前在班奎罗的情形一样，迷迷糊糊地开过来了。”

换作别的船，迪斯科也许会出手相救。但现在，“凯莉·匹特曼”号被整个北大西洋的风推着，径直冲向“我们在此”号。迪斯科不得不砍断

缆绳。在三角帆和停泊帆的共同作用下，“我们在此”号尽量和“凯莉·匹特曼”号保持着安全距离——迪斯科可不愿花一个星期时间去找缆绳。“凯莉·匹特曼”号默默地生着闷气，从“我们在此”号旁边擦身而过时，迪斯科迅速躲开了。于是，那艘船船舷侧倾，完全坠入了纽芬兰大浅滩。

“晚上好，”迪斯科举起安全帽问道，“你那花园种得怎么样了？”

“得去俄亥俄租头骡子吧，”索尔特叔叔说，“我们这里不需要农民。”

“要我借给你一只平底船的锚吗？”长腿杰克大声说。

“拆下你的方向舵，插进泥里去。”汤姆·普拉特说。

“嗨！”丹站在齿轮箱上，声音高亢而尖利，“说——话！工装裤大罢工了吗？还是他们雇了女工呀，你们这群流浪狗！”

“放松转舵索，”哈维叫喊道，“把他们钉在海里吧。”这是跟汤姆·普拉特学到的带有海水味道的笑话。曼纽尔斜倚在船尾，大喊：“约翰·摩根在拉风琴！哈哈！”他摇晃着粗壮的大拇指，做出嘲讽的动作，小个子宾骄傲地喊着：“驾！吁——到这来，嗨！”

接下来的整个夜晚，哈维发现，“我们在此”号拖着短短的锚链，发出噼里啪啦的声响，艰难而缓慢地移动着，而且又用了半上午的时间修复缆绳。不过，孩子们觉得，相比胜利和荣耀，这点代价不算什么。他们想起对那艘狼狈的“凯莉·匹特曼”号说的那些话，心里又有些过意不去。

第七章 Chapter Seven

第二天，他们周围聚集了更多的帆船，盘旋着从东北方向西缓慢行驶。正当他们打算在处女滩捕鱼时，大雾袭来，他们只好抛锚停了下来，四周模糊，只传来叮叮当当的铃声。没有鱼可捕，只是偶尔有平底船相遇，互相交换信息。

丹和哈维差不多一整天都在睡觉，那天夜里黎明即将来临时，他们醒了，正想蹑手蹑脚地去厨房“钓”些煎饼。虽然没人禁止他们正大光明地吃煎饼，可他们就是喜欢这样的恶作剧，而且，这还会使厨子怒不可遏。下面的热浪和臭味使得他们只能爬上甲板去享受战利品。他们发现迪斯科正站在钟的旁边，他把敲钟的活儿交给了哈维。

“接着敲，”迪斯科说，“我怀疑我听到了些什么声音，如果真有什么，我最好留在这里。”

这是一只废弃的钟，浓雾似乎都能把它捏碎。钟声停下来的间隙里，哈维听到周围传来大客轮尖利的汽笛声。他对大浅滩非常了解，所以很清楚汽笛声意味着什么，内心的恐惧清晰地向他袭来。一个身穿鲜红色套头毛衫的男孩——作为渔夫，现在的他讨厌任何可以想象出来的鲜艳的衣服——多么鲁莽无知，曾经认为让大蒸汽客轮撞上一艘渔船是多么酷的一件事。这个男孩住在提供冷热水洗漱的头等舱里，每天早晨会用10分钟时间在镶金边的菜单上点菜。还是这个男孩——不，应该说是比他成熟很多的兄长——天刚蒙蒙亮，四点就起床了，穿着滴水的油布雨衣，为拯救宝贵的生命卖力地敲钟。这口钟比服务生的早餐铃还要

小。因为在他附近的什么地方，可能会出现30英尺高的钢甲船头，以每小时20英里的速度在海上呼啸而来。最令人心痛的是，那些在铺着柔软床垫的干燥的船舱里熟睡的乘客永远不会知道，他们也许在早饭前已经撞上了一艘小船，夺去了他人的生命。于是，哈维一刻不停地敲着钟。

“瞧，他们转动该死的螺旋桨，放慢速度了。”丹说。他正在吹曼纽尔的海螺，“保持在法定速度内，就算我们都沉在海底，到时候也还可以自我安慰。听，拉响警报了！”

汽笛“嗡——嗡——嗡”响个不停，哈维还在“叮——叮

——当——当”地敲钟，“呜——呜——呜”的海螺声也响了起来。白色的浓雾中，海天融合在一起。这时，哈维觉得有什么东西从自己身旁经过。他抬头仰望，看到了悬崖般的船头，湿漉漉的船身，似乎正跳跃着直接奔向纵帆船，卷起调皮的水花。大船升起时，露出刻着一串罗马数字的悬梯——X V，X VI，X VII，X VIII等等——在闪着橙红色光芒的船舷一侧。然后，它突然向前倾了一下，发出令人心跳骤停的“嗖嗖”声。悬梯消失了。一排铜框舷窗迅速闪过，大船喷出蒸汽，哈维举起双手无助地做了抵挡。滚滚的热水柱在“我们在此”号的身边咆哮而过。大客轮的汽笛声消失在浓雾里，小个子纵帆船踉踉跄跄地在汹涌的波涛里摇晃。哈维正要晕倒时，耳边传来噼噼啪啪的声音，仿佛树干在人行道上轰然倒下，一个低低的声音从远处传来，像电话声一样慢慢靠近：“顶风停船！你把我们撞沉了。”

“是我们的吗？”哈维上气不接下气地问道。

“不是！那边的船。敲钟！我们过去看看。”说着，丹跑着去放平底船。

除了哈维、宾和厨子以外，所有人都在半分钟内跳上了平底船。顷刻间，一艘纵帆船的前桅啪的一声折断了，从船舷滑落。又一艘空荡荡的绿色小船经过，撞上了“我们在此”号，仿佛想让大船带自己走。接着，别的东西漂了过来，脸朝下，身穿一件蓝色毛衫——一具残缺的尸体。宾脸色大变，倒吸一口冷气。哈维拼命敲钟，担心自己的纵帆船也随时会被吞没，船员们回来时，听到丹的声音，立刻跑了过去。

“‘詹妮·库什曼’号，”丹歇斯底里地叫着，“被拦腰截成两段——翻了个底朝天，碎得稀巴烂！就在离这儿不到25英里的地方。爸爸救了个老头，其他人都没了——还有，他儿子也死了。哦，哈维，哈维。我真受不了！我亲眼看见——”说着，丹抱头痛哭。这时，其他人把一个老头拖上船来。

“你们为什么要救我？”陌生老头号啕大哭，“迪斯科，你为什么要救我？”

迪斯科把一只有力的大手放在老头肩上，老头的嘴唇在不停颤抖，眼神狂乱盯着沉默不语的船员。宾夕法尼亚·普拉特站起来有话要说。索尔特叔叔想不起他的名字时，会叫他哈金斯，里奇，或者麦克。此刻，他的脸上不再是愚蠢无知的表情，他像聪明睿智的老人一样，语气坚定地说：“上帝赐予你的，上帝会把他带走，上帝保佑你！我是——我是传播福音的牧师。把他交给我吧。”

“噢，你是？可以吗？”老头说，“那请你祈祷把儿子还给我！祈祷还我9000美元的船，还有1000公担的鱼啊。你们要是不救我，我就去见上帝了。我老伴儿做了寡妇，她会节俭过日子，不会知道，永远都不会知道。现在，我却不得不亲口告诉她。”

“没什么可说的，”迪斯科说，“稍微躺下会好点，詹森·奥利。”

三十秒钟的时间里，一个男人失去了他唯一的儿子、整个夏天的劳动成果、他赖以生存的一切，任何安慰都是徒劳的。

“他们都是格洛斯特人，是吧？”汤姆·普拉特无奈地摆弄着平底船的把手环。

“嗯，那没什么区别，”詹森拧干胡子上的水，说，“今年秋天，我要一直在东格洛斯特，划船接送夏天的游客。”他跌跌撞撞地跑到船沿边，哀唱起来：

“快乐的鸟儿在歌唱

绕着神坛在飞翔

哦，高高在上的上帝啊！”

“跟我来，下来！”宾在说话，好像他有权力发号施令一样。他俩的眼睛正好相遇，对视了片刻。

“我不知道你是谁，但我会去的，”詹森顺从地答道，“也许我会挽回一些——一些——9000美元。”宾领着他走进船舱，随后把门关上。

“那不是宾，”索尔特叔叔大叫，“那是雅各布·鲍勒，而且——他想起了约翰斯敦！我从没在活人脸上见过这样的眼睛。现在该干吗？现在我该怎么办？”

外面的人也能听到宾和詹森的谈话声。后来只剩宾一个人在说话，索尔特摘下帽子，因为宾正在祷告。很快那个小个子男人走上楼梯，豆

大的汗珠滑落脸颊，看着眼前的船员。这时的丹还在轮舵那里啜泣。

“他不记得我们了，”索尔特低声抱怨道，“又得重新开始，总是捉摸不定——他会对我说什么？”

宾说话了，他们能听出这番话是对陌生老头说的。“我已经祷告了，”他说，“我们的人都相信祷告。我为这个男人的孩子祷告。我眼睁睁地看着我儿子死在我眼前——我俩最大的儿子——还有其他人。难道还有谁比上帝更明智吗？我从没为其他人做过祷告，唯独给他的儿子做祷告，祈祷他的儿子回来。”

索尔特用乞求的眼神看着他，想知道宾是不是记起了什么。

“我发疯多久了？”宾突然问道，嘴角在颤抖。

“扯，宾！你从没疯过，”索尔特开始说话了，“稍微有点儿注意力不集中。”

“我看见房子砸在桥上，然后就起火了。别的没印象。那是什么时候的事？”

“我受不了啦！受不了啦！”丹大叫起来，哈维在一旁深感同情，低声呜咽起来。

“大概5年前。”迪斯科的声音有些颤抖。

“那这几年我每天都是别人的负担吧。那个人是谁？”

迪斯科指了指索尔特。

“没有——没有！”这个海上农民不停地搓手，哭着说道，“你赚的

钱是你开销的两倍，宾，我在船上那四分之一的股份还要分你一半，那是你该得的。”

“你们都是好人，从你们的脸上就能看出来。可——”

“仁慈的圣母啊，”长腿杰克低声说，“他一路跟着我们，现在终于解除魔咒了。”

旁边传来一艘纵帆船的铃声，浓雾中有人高声喊：“嗨，迪斯科！听说‘詹妮·库什曼’号的消息了吗？”

“他们找到他儿子了，”宾大叫，“站好，亲眼看一看上帝的救赎！”

“詹森在船上，”迪斯科用颤抖的声音回答，“没有——其他人吗？”

“可我们只找到一个。他蜷缩在一堆木头上，那可能是原来的船舷。他的头破了。”

“那是谁？”“我们在此”号的人激动万分，急切地问。

“我猜是小奥利。”那个人拉长声音说。

宾举起双手，讲了几句德语。哈维敢发誓说，耀眼的光照在他扬起的脸上，但那个声音又说：“喂！你们这些家伙昨晚还狠狠地嘲笑我们。”

“现在我们可没嘲笑。”迪斯科说。

“我知道，但说实话，碰到小奥利时，我们的船有点儿——有点儿漂得找不着方向。”

这是口无遮拦的克里·匹特曼说的。“我们在此”号的甲板上传来一阵阵笑声。

“你们能把老头送上船吗？我们在这儿放鱼饵和索具呢。我想，不管怎么样，你们留着他没用了。这个可恶的起锚机弄得我们人手不够了。我们会照顾好他的，他是我老婆的姑父。”

“我愿意给你船上的任何东西。”特鲁普说。

“什么也不要，或许，可能锚有用。嗨！小奥利受了点刺激，把老头也一起送过来吧。”

宾把昏厥过去的老头叫醒，汤姆·普拉特划着船把他送了过去。他连一句谢谢都没说就走了，不知道接下来会发生什么事情。大雾笼罩了一切。

“现在，”宾深深吸了一口气，似乎要祷告。“现在，”——笔直的身子像一把剑回到剑鞘一样；闪闪发光的眼睛也褪去了光芒；声音也回到了往常一样窃窃低语的状态——“现在，”宾·普拉特说，“索尔特先生，现在下棋会不会有点早？”

“有件事情——有件事情，我正要说，”索尔特立刻大声说，“我服了，宾，你怎么能知道别人心里想什么？”

小个子满脸通红，温顺地跟着索尔特往前走。

“起锚！快点！让我们离开这片疯狂的大海吧！”迪斯科大喊。船员们从来没这么迅速地服从过命令。

“你觉得这是什么意思？”长腿杰克问。他们再次穿梭在潮湿的海雾

中，茫然不知所措。

“我认为它，”迪斯科在轮舵前说道，“是这样的：‘詹妮·库什曼’号这件事堵着我们空荡荡的心——”

“他——我们看见他从旁边漂过去了。”哈维呜咽着说道。

“当然，把他从水里捞出来，把小船推上岸；正好把他推上来，我带着他，是为了让他记得约翰斯敦，雅各布·鲍勒这类的。我们会安慰詹森，鼓励他振作起来，就像是让船靠岸。由于不够强大，慢慢就又滑下去了，现在他就又掉到水里了。我认为是这样的。”

众人认为迪斯科说得非常正确。

“要是宾一直把自己当雅各布·鲍勒，”长腿杰克说，“那可够索尔特受了，宾问这几年谁一直照顾他时，你们没看到他的脸色吗？怎么样，索尔特？”

“睡了——死一样地沉，像孩子一样翻身上床睡觉了，”索尔特轻手轻脚地跟在后面，回答道，“当然，他醒来后不能没有吃的。你以前见过祈祷能有这样的效果吗？他的祷告把小奥利从大海里救了上来。这是我的想法。詹森为他的儿子感到非常自豪。我一直都不相信崇拜空虚的偶像是一种明智的表现。”

迪斯科说：“可是，到底还是有这类人的。”

“那肯定是，”索尔特迅速反驳道，“宾脑子没糊涂，我只是在他身边做好我该做的。”

这群饥饿的人一直等了三个小时，宾才再次出现。他脸色沉静，思

绪一片空白。他以为自己一直在做梦。接着，他想不明白人们为什么沉默，可大家又没法跟他说。

接下来的三四天里，迪斯科冷漠地让所有人忙起来。不能出海时，他们就会到鱼舱把船上的库存堆叠起来，以便腾出更多的地方放鱼。从船舱到壁炉后边的风门，到处都是鱼。迪斯科向众人展示了如何堆放货物才能让纵帆船处于最佳吃水状态，这是一门诀窍。于是，船员们在恢复精神后再次活跃了起来。长腿杰克拿绳子的一端挠哈维痒痒，就像戈尔韦人说的的那样，“像一只病猫为自己的无能为力而伤心”。在这些疲惫的日子里，哈维思考了很多，向丹吐露了自己的心事，丹也表示赞同——包括以后想吃煎饼时就去要，不再用鱼钩偷钓了。

然而，一周后，他俩又想出了疯狂的点子，把旧刺刀绑在一根棍子上，竟然想去刺鲨鱼，差点让“海蒂”号翻了船。这个残忍野蛮的家伙在平底船旁边游来游去，其实只是想吃些小鱼而已，好在鲨鱼和他俩最后都安然无恙。

终于，纵帆船结束了在大雾中捉迷藏的日子。一个早晨，迪斯科在甲板上大喊：“快！孩子们！我们到‘城里’了！”

第八章 Chapter Eight

哈维终生都不会忘记那样的景色。太阳刚刚跳出地平线，他们已经将近一周没有见到太阳了。太阳的红色光芒低低地照在纵帆船的三角帆上，抛锚的纵帆船一共有三支船队——一队向北，一队向西，另一队向南。所有的纵帆船大概有一百多艘，材质不一，大小各异。远处，还有一艘横帆式法国船，这些船互相致意打招呼。它们都把平底船放了下来，像从拥挤的蜂巢里放出了蜜蜂一样。起伏的波涛里充满了喧闹嘈杂的声音，绳索和木板的丁零当唧声，船桨溅起的水花声。太阳渐渐升起，船帆呈现出各种颜色，起初是黑色，然后是珍珠灰，后来变成了白色；越来越多的船只冲破迷雾向南驶去。

这些平底渔船慢慢聚拢，分开，重新聚集又再次四散，但是都涌向一个方向。人们的欢呼声、口哨声、嘲笑声、哼小曲声，混在一起，水面上零星散落着从船上扔下的垃圾。

“到城里了，”哈维说，“迪斯科说得对。那是城里。”

“我见过更小的城市，”迪斯科说，“这儿有一千来号人。那边就是处女滩。”说着，他指向一片绿色的大海，空旷的海面上没有一艘平底船。

“我们在此”号绕过北边的船队，迪斯科挨个向朋友们挥手，然后抛锚，像一艘赛艇结束赛季一样干净利落地停了下来。大浅滩的船队总是对航海技艺精湛的船表示默许，但是，对那些技术差劲的水手会一直嘲笑。

“正好赶上捕毛鳞鱼。”“玛丽·奇尔顿”号叫喊起来。

“大部分盐都用完了？”“菲利普国王”号问。

“嘿，汤姆·普拉特！今儿晚上吃饭吗？”亨利·克雷问。大家一问一答，来来回回。这些人以前都见过彼此，平时在雾里捕鱼，而且也不像大浅滩的船队一样爱闲聊。他们好像都听说过救哈维的事，问他是不是已经成为了一名合格的水手了。年轻人取笑丹，丹伶牙俐齿，用家乡的外号向他们问好，这些外号可是他们最不喜欢的。曼纽尔和同乡用他们的语言叽里咕噜地交流着，就连不爱说话的厨子也坐在第二斜桅，大声和与他一样黑肤色的朋友聊着盖尔语。他们给缆绳装上浮标——大浅滩海底都是岩石，一不小心就会磨损到锚，会有到处漂荡的危险——之后，平底船向前行进，一直驶入一英里外的船群中，才抛锚停下来。纵帆船停靠在安全的距离内，像鸭妈妈盯着自己的孩子一样，而那些平底船却像没礼貌的小鸭子。

渔船驶入喧闹的大海，船与船互相碰撞。哈维的耳朵嗡嗡作响，人们都在评论他的划船技术。他们操着各地方言，有拉布拉多语、长岛语、葡萄牙语、那不勒斯语、意大利混杂语、法语、盖尔语，有人在唱歌，有人在叫喊，还有人骂骂咧咧，这些交织在一起，包围了哈维。他似乎成了众人的笑柄。平生第一次，他感觉到了羞愧——也许，这是因为这么久只和“我们在此”号打交道——在这群随着小船起伏摇晃的野蛮人中间。一个温柔的大浪从波峰到波谷大约三弗隆²⁷长，悄悄地扛起一排不同颜色的平底船。船只挂在天际，立刻呈现出壮观的带状，船上的人们都被抛了起来。接着，那些嘴巴大张、挥舞着手臂、胸膛裸露的水手都消失不见了，而在另一个大浪涌起时，又一排人出现了，像木偶剧场的纸片人一样。哈维惊呆了。“小心！”丹一边撒网一边说，“我让你放，你就放。从现在起，毛鳞鱼会成群结队地游过来。汤姆·普拉特，

咱在哪儿撒网？”

汤姆·普拉特队长推推搡搡，费力地向前挪动，在这儿和老朋友打招呼，到那儿又警告老对手几句，终于带着他的小舰队到了大部队的下风处。这时，立马有三四个人升起锚，打算尾随“我们在此”号。不过，正当一艘平底船超速驶离原地时，掌舵人发了疯似的拉紧锚缆，引起一阵哄堂大笑。

“放松绳子！”20多个声音大喊，“让他把锚索抖开。”

小船迅速向南冲去，哈维问：“怎么回事？船抛锚了，是吧？”

“抛锚了，肯定的。可锚具飞得太快了，”丹笑着说，“鲸鱼把它缠住了……放低，哈维！它们来了！”

周围的海上阴云密布，黑压压的一片。接着，一群银白色的小鱼蜂拥而至，大概有五六英亩大的区域里，鳕鱼像五月的鲑鱼一样开始跳跃；鳕鱼后面，三四条魁梧的黑背鲸在海面上欢腾跳跃。

接着，每个人都开始大喊，用力拉起锚冲进鱼群，却不小心和旁边渔船的鱼线纠缠在了一起，都着急地嚷嚷着，拼命将长柄渔网插入水里，尖叫着让同伴谨慎些，而心底的喜悦像新鲜的苏打水一样滋滋冒泡。鳕鱼、渔民、鲸鱼，一起扑向倒霉的小鱼。哈维差点被丹打翻到船下。不过，尽管场面非常混乱，但哈维还是注意到一双邪恶的小眼睛，他永远都不会忘记——像马戏团里大象的眼睛一样——那条鲸鱼几乎是贴着海面游过来的，朝哈维眨着眼睛。这些鲁莽的海上猎人缠住了三艘船的锚缆，拖拽了半英里远，才像野马一样脱缰而去。

不一会儿，小海鱼游走了。5分钟后，大海变得平静下来，只剩铅

锤在船边溅起水花时发出的声音，鳕鱼击水时的扑棱扑棱声，还有渔民用棍棒敲打鳕鱼的声音。这次捕鱼经历非常棒。哈维看到了水下银光闪闪的鳕鱼，成群结队地慢慢游走，一边游一边不慌不忙地咬钩。平底船抵达处女滩或东岸时，大浅滩的规定是一线一钩；不过，船只挨得非常近，单个的鱼钩也会互相打结。哈维还因此和两拨人吵了起来，一边是留着长发的温和的纽芬兰人，一边是咆哮乱吼的葡萄牙人。

比鱼线缠绕在一起还要糟糕的是，平底船的锚缆在水下缠在一起。所有人都选择自认为适合自己的位置抛锚，只在固定点周围漂浮或游荡。每当鱼儿上钩速度不快时，他们都想立刻起锚，占据更好的位置。然而，每个人最后都会发现自己还是紧紧挨着四五条渔船。在大浅滩，割断其他人的锚缆是坏透了的罪行，但还是会发生，而且神不知鬼不觉，一天会发生三四起。汤姆·普拉特当场抓住了一个正在干这种勾当的缅因州人，用船桨将其打翻在船舷。曼纽尔也遇到了这样的情况，教训了他的老乡一番。不过，哈维的缆绳被割断了，和宾同病相怜，平底船装满后，他们只好求助救援船来帮忙把鱼运到“我们在此”号上。黄昏来临时，小海鱼再次席卷而来，疯狂的喧嚣又一次拉开帷幕。夜色朦胧，平底船回到纵帆船上，他们借着鱼舱边上的煤油灯光开始加工。

这次又是满载而归，加工鱼的时候哈维就睡着了。第二天，一些船正好停泊在处女滩的入口处。哈维和众人的视线落在了一块长满杂草的岩石上，它孤零零地立在那里，高出海平面20英尺左右。鳕鱼成群结队，安安静静地穿过茂密的巨型海藻，咬钩的时候一起咬，停的时候又一起停。中午时分，船上有一段闲散的时光，人们开始找乐子。丹看到“布拉格希望”号出现了，她刚刚加入捕鱼团队，人们就开始跟她打招呼：“船队中最小气的人是谁？”

三百个声音兴高采烈地回答道：“尼克·布雷迪。”这声音听起来仿

佛是一曲管弦乐。

“谁偷了灯芯？”丹也来凑了个热闹。

“尼克·布雷迪。”船上的人们齐声高唱。

“谁把咸鱼饵炖了汤？”远处传来了陌生的声音。

人群中再次响起愉快的合唱。其实，布雷迪并没有多么吝啬，只是担了这个名声，而且大部分原因是船队中人赋予的。然后，他们又发现了一艘特鲁罗船。6年前，船上这个人被指控在一根鱼线上挂了五六个钩子——是“小偷”，他们这样叫他。这是发生在大浅滩上的事情。当然，后来他也被人们称为“小偷吉姆”；尽管他曾经在乔治斯躲藏，但他发现自己的外号已经家喻户晓了。人们像放鞭炮一样，噼里啪啦地大声叫嚷着：“吉姆！哦，吉姆！吉姆！小偷吉姆！”众人哄堂大笑。这时，一位具有诗人气质的贝弗利人——他成天都在忙，一连好几个星期都在谈论——唱道：“‘凯莉·匹特曼’号的锚百无一用。”平底船上的人们像得了宝贝一样更加起劲。于是，他们就问贝弗利人，诗人怎么也出来捞钱了，因为即便是诗人也不能任由自己的性子做事。每艘纵帆船上的人几乎都来起哄了。一旦谁的船上出现了粗心大意的脏厨子，众人就会戏弄他和他的食物。要是哪艘纵帆船遇到了什么麻烦，就会有人把故事一五一十地讲给整个船队。有人吃饭时从同伴那里“钓”了香烟，开会时他必定会被点名，他的名字会一传十十传百。迪斯科准确无误的判断，长腿杰克几年前卖掉的运鱼小船，丹的心上人（哦，丹一听就暴跳如雷！），宾的倒霉的锚，索尔特对粪肥的看法，曼纽尔在岸上时犯下的小错误，以及哈维握桨时的娘娘腔——这些掌故都成了公开的笑料；阳光下，海雾像一层银色的薄幕盖在大海上，那些声音听起来像一排看不见的法官坐在席上宣判一样。

平底船在海上漂荡，人们一边捕鱼，一边斗嘴，直到海浪从海底涌起。这时，他们不得不分开，保持距离。有人说海浪如果继续翻滚，处女滩就会崩塌。鲁莽的戈尔韦人和他的侄子却不这么认为。他们撑起锚，专门向波峰驶去，有人喊着让他们离开，另一些人却鼓动他们继续划行。平滑的大浪像柱子一样向南移动，将平底船高高抬起，推进薄雾，又将其重重摔向狂暴深邃的海里。这时，平底船抛了锚，在周围旋转着，距离水下看不见的暗礁不到一两英尺。他们真是在逞能，竟然和死神玩游戏；船上的人手足无措，忐忑不安地看着，直到长腿杰克划到它后面，静静地割断锚缆。

“你们没听见撞上石头了吗？”他叫嚷着，“为了你们这两条贱命，划！划！”

小船漂了过来，船上的人们还在赌咒发誓，争吵不停。随之而来的海浪才制止了他们，像一个人在地毯上绊倒一样，海上传来低低的呜咽和咆哮声，处女滩翻滚的浪花绵延了好几英亩，白色的海浪，怒吼着向岸边奔腾过来，令人心惊胆战。接下来，所有的船热情地为长腿杰克鼓掌，戈尔韦人也闭上了嘴。

“厉害吧？”丹像只小海豹在水里一样，蹦蹦跳跳地说，“每隔半个小时船就会爆发一次，除非海浪越翻越高。通常多久会出现，汤姆·普拉特？”

“每隔15分钟，一分不差的，哈维，你已经见识了大浅滩最伟大的事件。不过，要不是长腿杰克，你会看到更多的死人。”

大雾渐浓，纵帆船开始摇铃，一阵快乐的声音传来。一艘大船谨慎地从薄雾中探出头来，迎接它的是呼喊和叫嚷声，“来吧，亲爱的。”爱

尔兰人说。

“又是法国船吗？”哈维问。

“没长眼睛吗？她是巴尔的摩船，吓得发抖的胆小鬼，”丹说，“我们得好好教训她。我猜，这是她的船长第一次碰到捕鱼船队。”

这是一艘体格硕大，重达800吨的黑色船。她的主桅盘旋而上，主桅帆随着风向摇摆不定。现在，她比海上的其他船只更富女性气息。这个犹豫不决的大家伙，船头带着白色的镶金边的雕饰，看上去像个迷茫的女孩子，在一群坏小子的嘲笑中，半撩起裙子穿过泥泞的街道，现在的她完完全全处在这样的局面中。她明白自己就在处女滩的附近海域，听到了海浪的咆哮，于是她问人们这是哪里，平底船上的人们告诉她：

“处女滩？你在说什么？这里是星期天早上的勒阿弗尔。赶快回家清醒一下。”

“回去，你这个缩头乌龟！回去告诉他们，我们来了。”

船尾向下栽进海里，浪花翻滚着进入排水管，六七个声音一起发出了和谐的曲调：“啊——呀——嗨——她撞了！”

“用力拉！用这辈子最大的劲儿，拉起来！现在，你已经控制住她了。”

“往下！使劲往下！啥也别管！”

“大家都来压水泵！”

“放下三角帆，用力撑！”

此时，船长勃然大怒，絮叨着什么。人们回应着他，只好暂时搁置了手里的活儿。他听到了各种关于他的船的故事，以及下一个停泊地。人们问他有没有买保险，什么时候偷了锚，因为他们说那是“凯莉·匹特曼”号的锚。他们嘲笑他的船是“泥地里的耙斗”，指责他倒垃圾时吓跑了鱼。他们还说会把船拖走，还要向他老婆收取拖船费；一个大胆的年轻人竟然溜到船尾下方，拍着船身，说“滚！黑家伙！”

厨子把一盘灰倒在他头上，他拿了鳕鱼头去回击。大船上的船员们从厨房取了小煤块点燃后往下丢，平底船扬言要“灭了”她。要是她真的在冒险，他们也会警告她。不过，她平安无事地离开处女滩，他们还是制造了很多机会拿她寻开心。大船在上风处半英里的地方再次撞上岩石，历经磨难的大船终于脱离一切阻挠，找到了出路；平底船上的人们却觉得这艘船勇气可嘉。

那一夜，处女滩的风一直在嘶鸣咆哮。第二天早晨，越过怒吼的苍茫大海，哈维看到船队的主桅在风中摇曳，等候领航的小船下海。直到10点，才有一艘平底船起锚。“天眼”号的两个哲罗德人以为海上风平浪静，率先出海，实际上却打错了算盘。一分钟内，一半的船都出海了，在波浪里起伏。不过，特鲁普却一直在让船员们加工鱼。他认为这样的冒险没有任何意义。到了晚上，狂风骤雨加剧，他们高兴地迎接着那些湿透了的不速之客。这群人在风暴里能有个容身之处简直高兴得不得了。男孩们举着灯站在钓具旁，大人们早已做好起锚的准备，瞪大眼睛盯着翻滚的巨浪，波涛汹涌的大海会让他们放下一切去挽救宝贵的生命。夜色里传来了“平底船，平底船！”的喊声。他们放下钩子，拉起一个湿透了的男人和一艘差点沉没的船。最后，他们的甲板上到处堆放着平底船，床铺也都被占满。哈维值班时，大浪五次向甲板袭来，他和丹只好跳上前桅斜桁，斜桁突然砸向纵帆的下桁，他们只好用胳膊和腿抱

住桅杆，用牙齿咬紧绳索和湿透的帆布。一艘平底船被大浪拍成了碎片，海水打在一个男人的头上，将他击倒在甲板上，他的前额磕破了一个口子；黎明时分，狂暴的大海泛起冰冷的白光。一个面色惨白的男人爬上甲板，他的一只胳膊受了伤。他向众人打听他兄弟的消息。早饭时，船上多了7个人：一位瑞典人，一位查塔姆船长，一位缅因州的汉考克男孩，一个达克斯伯雷人，还有三个普罗温斯敦人。

第二天，船队进行了一次人员大清点。尽管没人说什么，但当每艘船的船员都确定在场后，众人的胃口还是不错的。只有两个葡萄牙人和一个格洛斯特老头溺水了，不过许多人被割伤或划伤了。两艘纵帆船的索具都坏了，被吹向南方，漂流了三天。法国船上死了一个人——这艘巨型船和“我们在此”号做过烟草生意。在一个潮湿朦胧的早晨，这艘船安静地滑向远处，掉进深水里，船帆依旧悬挂着，哈维从迪斯科的望远镜里见证了这场葬礼，他们只是把一个长方形的包裹推下了船舷。他们似乎什么都没做，没有举行任何悼念仪式。当晚抛锚后，哈维听见他们在唱歌。星光点缀的黑色大海上，他们唱着听起来好像是赞美诗一样的曲调，节奏平和而缓慢：

海上的纵帆船

徘徊着不肯离去

我将远行

哦，圣母玛利亚

哦，上帝

为我祈祷

永别了，故乡

永别了，魁北克

汤姆·普拉特登上了那艘船，因为他说死者是他共济会的兄弟。原来，那个可怜人被海浪拍打了两次，碰到船首斜桅的后端，伤了后背。消息闪电般传播开来。不合常理的是，法国人对这个人留下的工具进行了拍卖，他在圣·马洛或密克隆没有朋友，房间里铺满了他的东西，从红色的针织帽到带鞘刀的皮带。丹和哈维正好在海上20英寻深的水域。自然，人群中少不了他俩。这次划行非常不容易，丹光买那把刀就花了一些时间。这把刀有着奇怪的铜刀柄。他们跳下大船，划着小船离开时，海上正好下起了雨。这时，他们才想起惹了麻烦，因为耽误了捕鱼。

“我想，要是暖和点，咱俩都会没事的。”丹披着油布雨衣，直打哆嗦。他们渐渐驶入了大雾中心，像往常一样，大雾降临时没有任何预兆。

“周围的海潮捉摸不定，光靠直觉根本不够。”他说，“抛锚，哈维，我们先捕鱼。等会儿雾就散了。放下最重的铅锤。在这附近，三磅的铅锤对你来说不算什么。你看，鱼线早就收紧了。”

船首开始冒泡，大浅滩不可抗拒的力量牢牢地抓住了平底船的锚，但他们看不到船的全貌。

哈维竖起衣领，蜷缩着靠在鱼线轮上，像个疲惫的海员一样。现在，大雾对他来说没什么特别的可怕之处。他们默默地捕了一会儿鱼，发现鳕鱼稳稳地咬钩了。这时，丹拿出鞘刀，在船舷上试了试刀刃。

“真是好东西，”哈维称赞说，“你是怎么搞到这么便宜的东西的？”

“都是他们那天主教迷信在作怪，”丹挥舞着明晃晃的刀。“这么说吧，他们不想从死人身上拿铁物件。我竞拍这把刀子时，看见那个阿里沙特²⁸的法国人往后退了。”

“可是，拍卖就不能想着是从死人身上拿的东西了，这是生意。”

“我们当然明白，可没法堵住别人的嘴啊。这也是生活在先进国家的优势。”说着，丹开始吹口哨：

“哦，盖双层茅草屋的工匠，你好吗？

现在，即将到达东部海角

在海角抛锚

男孩女孩很快会相见”

“那东港人为什么要竞拍呢？他也买了靴子。缅因州很先进吗？”

“缅因州？别提了！他们知道得不多，或者说他们没多少钱去粉刷房子。我见过他们。东港那个人跟我说，这把刀子是用过的——这是船长告诉他的——去年在法国海岸用过。”

“杀人吗？把击鱼棒递给我。”哈维拉起鱼，再次装饵，把鱼线抛下去。

“杀了！当然。我听到这事儿就更想买了。”

“上帝啊，我都不知道。”哈维转过身，说道，“就为这个，等我拿

到工资，我给你一美元。不，两美元。”

“真的吗？你真这么喜欢它？”丹涨红了脸，问，“好吧。跟你说实话，我是为你才买下这把刀子的——送给你；但我没说，我想知道你的反应。这归你了，喜欢吧，哈维。我们是同一条船上的伙伴，现在，以后，都是，永远都是。接着！”

说着，丹拿出刀、皮带和其他东西。

“丹，瞧这儿，我不知道怎么——”

“拿着。我要这些没用。希望你能喜欢。”

这样的诱惑实在让人难以抗拒。“丹，你真是个好人的，”哈维说，“只要我活着，我会一直保存好它。”

“听到这句话太高兴了，”丹说着，高兴地笑了。然后，他急忙转换了话题：“好像你的绳子动起来了，很快。”

“我估计是被鱼咬住了。”哈维用力拖拽着说。他先把皮带系在腰上，然后才开始拉网。听到刀鞘尖碰撞横坐板的叮当声，内心深处感到一阵喜悦。“注意听！”他大声说，“它好像碰到草莓根儿一样的东西了。不对，这里全是沙地，对吧？”

丹凑过来，用自己的智慧做出了判断。“大比目鱼生气时，会这么干。这儿没有草莓根儿。拉一两次，她肯定会上钩。我想，咱们应该先拉起来，看看怎么回事。”

两个人一起使劲往上拉，每到系索耳的地方鱼线缠绕的速度都会加快，海里的东西慢吞吞地升了起来。

“中奖喽，哦！”丹大喊。然而，一阵尖利、恐怖的声音从海上传来——那是两天前葬身大海的法国人的尸体！吊钩正好勾住他的右腋窝，他就这么摇晃着，笔直地竖起来，头和肩膀耷拉在水面上。他的胳膊紧贴身体两侧，而且——看不清他的脸。两个男孩被吓得摔倒平底船底，他俩躺在那里不敢动弹，船舷上拉紧了的绳子上还挂着那具尸体。

“海浪——是海浪把他带过来的！”哈维说。当他的手摸到皮带时，嘴唇不住地哆嗦。

“哦，上帝啊！哦，哈维！”丹低声抱怨，“快！他是来取那些东西的。让他拿走，解下来。”

“我不要！我不想要！”哈维哭着说，“可是我找不到皮带扣。”

“快点，哈维！他就挂在你的鱼线上！”

哈维坐起来，开始解皮带。对面就是那个没脸的脑袋，头发湿漉漉地往下滴水，“他还在动，”哈维悄悄对丹说。丹迅速拿出刀子，割断绳子，哈维把皮带扔了老远。那具尸体扑通一声掉进水里，丹小心翼翼地站起来，脸色比大雾都要惨白。

“他是来取那些东西的。他是来取那些东西的。我以前见过一具腐烂的尸体挂在排钩上，没什么可怕的。但这次，他是专门来找咱们的。”

“我希望——我希望我从没买过那把刀。那样，他就不会爬上你的鱼线了。”

“我不知道这有什么区别。这么多年，头一次这么害怕。哦，哈维，你看见他的脑袋了吗？”

“我吗？我这辈子也忘不了。不过，丹，看这儿。其实他并不是故意的。都是海潮的缘故。”

“海潮？哈维，他是来找刀子的。知道吗？他们把他沉在船队往南6英里的地方。我们现在离那条船两英里。他们告诉我，他淹死的时候，身上缠着一英寻半的锚缆。”

“我不知道他要刀子干吗——要上岸吗？”

“比那更糟糕。我想，他是要拿着刀子去找上帝，去——你动那些鱼干吗？”

“把它们扔下船去，”哈维回答。

“为什么？我们又不吃。”

“我不管。我解皮带时看见他的脸了。你如果想要的话，把你钓的留着。我那些留着没用。”

丹虽然什么都没说，可他也把鱼扔了。

“我想，这下就安全了吧。”最后，他小声嘟哝着说，“要是大雾能散去，我宁愿拿出一个月工资。大雾里发生的事情有些是在晴天看不到的——像这类冤魂野鬼。很庆幸，他是这样漂过来的，而不是走着来的。不过，他也许是走来的。”

“别说了，丹！我们这会儿就在他头顶上面。我要是安全地待在船上多好，就算索尔特叔叔揍我都行。”

“他们会来找我们的。吹喇叭。”丹拿起号角，又停了下来。

“吹啊，”哈维说，“我可不想一晚上都待在这儿。”

“问题是，他是怎么拿走那些东西的？以前有个岸上的人跟我说，他曾经在纵帆船上时，大家都不敢吹号去呼唤平底船，因为船长——不是和他在一起的那个，是5年前的那个——有一次他喝醉了，把一个男孩推下船淹死了。从此以后，那个男孩就一直跟着他，经常喊着‘平底船，平底船’。”

“平底船！平底船！”大雾里传来模糊不清的喊声。两个孩子又吓得蜷缩成一团，丹手里的号角都掉在了地上。

“拿好！”哈维大叫，“那是厨子。”

“见鬼，别再让我想起那个愚蠢的故事。”丹说，“当然是厨子来救我们了。”

“丹，丹——，喂，丹！哈维！喂，哈维——！”

“我们在这儿。”两个孩子一起喊起来。他们听到了划桨声，但什么也没看到。直到厨子划着船出现了，浑身湿漉漉，闪烁着耀眼的光芒。

“发生什么事了？”他问，“等回去了，你们准会挨揍！”

“我们正巴不得呢。也是我们应该受的。”丹说，“只要能回家，啥都是好的。我俩真够倒霉了。”厨子给他们抛了一根绳子，丹给他讲了刚才的经历。

“绝对是！他是来找他的刀子的。”最后，厨子只说了这么一句。

厨子划着船穿过大雾，把他俩接回去的时候，他们从来没觉得“我

们在此”号如此亲切。船舱里透出温暖的灯光，前方飘来饭食的香气，听到迪斯科和其他人的声音，简直令人心情愉快，这一切是那么的活跃，那么踏实。众人斜倚在船舷，威胁要狠狠揍他们一顿。不过，厨子很有头脑。他先在船尾周围兜兜转转，讲了精彩的故事情节，他把哈维描述成是消灾解难的吉祥神，然后才让他们把平底船拉上纵帆船。于是，这两个男孩简直成了不可思议的英雄，每个人都追着他们问东问西，并没有因为给大家带来了麻烦而惩罚他们。小个子宾发表了抨击愚蠢迷信的演说，但众人并不赞同他，反而喜欢长腿杰克的令人毛骨耸然的鬼故事。他们一直聊到了午夜。这样的情形下，除了索尔特和宾，没有人对“偶像崇拜”持什么异议。厨子点亮蜡烛，摆上蛋糕和水，取了一撮盐，把它们放在船尾，顺水漂流，以此祈祷法国人的亡灵可以安宁，不再来兴风作浪。丹点燃蜡烛，因为是他买了带刀鞘的皮带。厨子叽里咕噜地念诵着什么，直到火苗沉入水中为止。

守夜结束后，哈维问丹：“你怎么看待进步与天主教迷信？”

“哼！我想我和其他人一样足够开明进步，可是没想到那个死去的圣·马洛人，为那30美分的刀子，一只手搭在甲板上，差点吓死两个可怜的孩子，所以，只好交给厨子全权处理了。我不相信任何外国人，不管死活，都不信。”

第二天早晨，除了厨子，所有人都为昨晚的仪式感到难堪，只能不分昼夜地干活，彼此说话时，语气也都是恶狠狠的。

“我们在此”号和“帕里·诺曼”号齐头并进，只为争夺最后的几群鱼。双方的竞争非常激烈，于是，其他船队选择了靠边观望，并且开始用烟草打赌。船员们不是忙着拉网，就是忙着加工，一直忙到困得倒头就睡——从黎明前忙到伸手不见五指的深夜。他们甚至把厨子也叫来帮忙。

哈维在鱼舱递盐，丹负责加工鱼。“帕里·诺曼”号的一个船员从船舷掉了下来，扭伤了脚踝，“我们在此”号才有幸获胜。哈维觉得船上再也塞不下一条鱼了。可迪斯科和汤姆·普拉特还在不停地堆啊堆，甚至还扔掉了几块大压舱石，把杂乱的鱼堆压紧，最后还能给第二天的鱼留下地方。迪斯科没有告诉他们盐是什么时候用完的，他跑到近船尾的贮藏室，拉起一面大主帆。那时是早晨10点。到中午时，三角帆落了下来，他们把上桅帆升起来。一些平底船跟在旁边，想让大船帮忙给老家捎信，并且羡慕他们的好运气。最后，他们清空了甲板，升起旗子——这是驶离大浅滩的第一艘船——起锚，开始返航。迪斯科装作想照顾那些并没有来送信件的同行，让“我们在此”号得体地穿梭在纵帆船间。事实上，这是他小小的凯旋仪式。五年以来的出色航行，确实证明了他是什么样的海员。丹的手风琴、汤姆·普拉特的小提琴，合奏出一支神奇的曲调，只有在盐全部用完时才会听到。

“嗨！嗨！哟吼！送信来！”

所有的盐都用完了，起锚回家！

哦，折叠主桅帆，我们回来了

新英格兰——

一千五百公担

一千五百公担

再来一千公担

我们在班奎罗和大浅滩间穿行”

最后几封信系着煤块，被扔在了甲板上。格洛斯特男人们大声喊着要捎给妻子、女性亲眷以及雇主们的口信。“我们在此”号奏着乐曲，穿过船队。船帆在风中飘荡，好像一个人在挥手告别。

不久，哈维发现，扬起三角帆，从一个泊位航行到另一个泊位的“我们在此”号，和那个朝西偏南方向满帆返航的“我们在此”号是截然不同的两艘船。即使在“小儿科”的天气里，轮舵也会受到敲击。他能感受到纵帆船在遇到汹涌的波涛时，鱼舱受到的重创。两侧浪花泛起的泡沫让他头晕目眩。

迪斯科一直在让船员整理船帆。当船帆像赛艇一样铺平时，丹不得不在大主桅上等着，因为它会经常乱飘，必须用手拉开。闲暇时，他们又得抽水，因为那些鱼在不停地滴水，这样才能让船升起来。然而，因为无须捕鱼，哈维有时间从另一个角度去观赏大海。船舷低矮的纵帆船和她周围的环境融为一体。每当她随着波峰涌起时，几乎看不到地平线。通常情况下，纵帆船都是在烦躁的推挤中坚定不移地行进，穿过灰色、灰蓝色，或者黑色的波峰浪谷，周围是一条一条的泡沫带，或者沿海浪的侧面轻柔地滑行。她似乎在说：“你不会伤害我的，是吧？我只是小小的‘我们在此’号。”然后，她就乐呵呵地顺水溜走了，直到碰见新的阻碍。船上迟钝的船员们，日复一日地辛苦劳作，根本注意不到这些。哈维却一点都不呆板。枯燥的涨潮落潮声，伴随着持续不断的浪花拍打声。海风呼啸着掠过空旷的海面，蓝紫色的云影聚在一起。红日喷薄而出，驱散了早晨的阴霾，越过层层白色巨浪；中午耀眼的阳光炫目而略带咸味；雨滴轻柔地亲吻着死寂的海平面；寒冷刺骨的夜幕宣告一天的结束；月光下的海面波光粼粼，第二斜桅冷峻地搅乱灿烂的星海。这时，哈维总会下楼，找厨子要一个甜甜圈。

不过，最有趣的要数孩子们一起站在轮舵前，汤姆·普拉特在旁边

指挥；船桅轻柔地击碎碧蓝的大海，在下风处留下完整的彩虹桥。吊杆的狭窄处碰到桅杆时发出呜咽声，脚索吱吱呀呀地响，鼓涨的风帆咆哮怒吼着。纵帆船落到波谷时，就像一个妇人被自己的丝裙绊倒一样；当她继续前行，到达波峰时，三角帆已经被打湿了。丹依然半吊悬着，殷切眺望着撒切尔岛上高耸的双子塔的灯光。

迪斯科一行离开冰冷灰暗的大浅滩海域，路过圣劳伦斯海峡时，看到了往魁北克方向去的运木船，还有西班牙和西西里的双桅横帆船。这时，海上刮起了来自阿蒂蒙浅滩的东北风，把他们送去观赏塞布尔岛的东方灯塔。不过，迪斯科并没有为此流连忘返，而是和那几条船一起经过韦斯特恩和勒阿弗尔，向乔治斯的北部边缘驶去。从那里开始，纵帆船乘风破浪，欢乐地冲向前方。

“我心里惦记着海蒂，”丹悄悄告诉哈维，“海蒂和妈妈。下个礼拜天你得雇个孩子往你玻璃上浇水，要不然听不到水声你就没法睡觉。我估计，你得一直和我们待在一起，直到你的家人来，你觉得上岸最大的好处是什么？”

“热水澡？”哈维回答。海水打湿了他的眉毛，风干后渗出了白色的盐花。

“挺好，不过有件睡袍更好。自从我们扬帆起航，我就梦想能穿上睡袍，那样你就可以随便活动你的脚指头了。妈妈给我做了一件新睡衣，洗得软绵绵的。那就是家，哈维。那是家！你能从空气里闻到家的味道。我们现在进入热浪的边缘了，我好像能闻到杨梅的味道。我想知道能不能在晚饭时赶回去，往左舵转一下。”

摇摆不定的船帆在沉闷的空气里飘动翻转，周围是深邃平滑的大

海，泛起油滑的蓝光。他们吹着口哨等着起风，却只等来一场倾盆大雨，噼里啪啦地下了没多久，便是八月中旬的电闪雷鸣。两人赤着脚、光着上身躺在甲板上，讨论着上岸后第一顿饭要吃什么，因为陆地已经清晰可见了。一艘格洛斯特剑鱼船漂浮在“我们在此”号旁边，一个男人站在船首的驾驶台处，挥舞着鱼叉。他没有戴帽子，头发湿漉漉地耷拉了下来。“一切顺利！”他高兴地大喊着，好像自己正在一艘大客轮上值班一样。“乌尔曼码头的人们都在等你，迪斯科。船队有什么消息吗？”

迪斯科大声回答了他。夏天的狂风暴雨劈头盖脸地砸过来，闪电立刻沿着海角从四面八方射来，像一座座低矮的山丘一样包围着格洛斯特海港。十磅岛，鱼棚，鳞次栉比的屋顶，水中的标杆和浮标。这幅令人炫目的场景时而会出现在“我们在此”号面前，随后又消失了，反反复复有十来次，船尾的响哨浮标在后面发出哀鸣声。接着，风暴慢慢减弱，蓝白色的电光时不时地划过天际，只剩迫击炮一样的雷鸣声，星空下的空气似乎也被震得嗡嗡作响，逐渐一切归于平静。

“旗子，旗子！”迪斯科突然指着前方大喊。

“那是什么？”长腿杰克问。

“奥托！降一半，桅杆。那样，他们从岸上就能看见我们了。”

“我忘光了。他不是格洛斯特的人，是吧？”

“今年秋天会娶格洛斯特女孩。”

“圣母保佑她！”长腿杰克一边说，一边把桅杆放低一半，以防自己也像奥托一样。三个月前，奥托在刮大风时从船上掉了下去。

迪斯科擦掉眼睛上的水，低声传达了命令，指挥“我们在此”号

驶入乌尔曼港口。纵帆船围着拖轮摇摆，守夜人从漆黑的码头呼唤“我们在此”号。黑暗中，整个过程充满了神秘感，哈维能感觉到自己再次靠近了大地，成千上万的人进入了梦乡，雨后的泥土散发着味道，货场熟悉的调度引擎不住地发出吭吭声，这一切都让他心跳加速。他们听到灯塔上值锚更的人在打呼噜，嗅到了深邃黑夜里一团闪烁的灯光。一些人被惊醒了，一边抱怨一边扔给他们一根绳子。很快，他们便登上了安静的码头。这里的两侧排列着铁顶的工棚，空旷却温暖，悄无声息地立在那里。

这时，哈维坐在轮舵旁不停地抽泣，感觉心都要碎了一般。一直坐在磅秤上的大个子女人跳上纵帆船，立刻亲吻丹的脸颊，那是丹的母亲。电闪雷鸣时，她看到了“我们在此”号。直到哈维缓过劲来，她才注意到这个孩子。迪斯科给她讲了哈维的故事。天亮时，他们一起回到迪斯科的家。等到电报局开门后，他才能给家人发电报。哈维·切尼也许是全美国最孤单的小孩了，可奇怪的是，迪斯科和丹似乎觉得哈维压根没必要哭。

直到迪斯科出现，乌尔曼码头也还没准备好接受他的价码，因为“我们在此”号比任何一艘格洛斯特船都要提前至少一周抵港，所以他们可以考虑几天。于是，所有人都到街上去转悠。长腿杰克拦下一辆洛基有轨电车，他说按规定，自己可以免费乘车，最后售票员只得同意。丹翘起雀斑鼻子，趾高气扬地到处走动，在家人面前故作神秘。

“丹，如果你再这样，我就要揍你了。”特鲁普闷闷不乐地说，“这次，自打我们上岸，你表现得太无知愚蠢了。”

“他要是我儿子的话，我早就动手了。”索尔特叔叔没好气地说。他和宾寄宿在特鲁普家。

“哦呼！”丹在后院一边拨弄手风琴，一边准备在敌人进攻时随时翻墙逃走。“迪斯科，你一直相信自己的判断力，不过你要记住，我可警告过你，你自己的亲生骨肉警告过你！要是你判断错误的话可别怪我，但我会坐在甲板上看着你。还有你，索尔特叔叔，法老的侍酒官²⁹可没跟着你！你小心点，等着瞧。你会像该死的苜蓿草一样被铲除；我就不一样了——丹·特鲁普——我会像一棵月桂树一样茂盛，因为我没有坚持自己的观点。”

迪斯科穿着一双精美的绒毡拖鞋，端起在岸上的架子，一边抽烟一边说：“你越来越像可怜的哈维了。你俩一直在桌子底下挤眉弄眼，互相踢打，整个房子都不得安宁。”

“对一些人来说，会发生很大变化。”丹回答道，“你们等着瞧。”

丹和哈维乘坐电车去了东格洛斯特。在那里，他俩穿过杨梅树丛，走到灯塔下，躺在红色的巨石上，笑得肚子都饿了。哈维给丹看了一封电报，两人发誓一定要保守秘密，直到真相大白。

“哈维的家人？”晚饭后，丹一脸沉静，说道，“嗯，我觉得他们没什么了不起的，要不然为什么到现在我们都没收到他们的任何消息。他爸在西部有好多商店。说不准，他会给你五美元，爸爸。”

“我跟你说过什么？”索尔特说，“吃饭时，不要乱喷唾沫。”

²⁷ 弗隆，英美的长度单位。

²⁸ 阿里沙特，位于加拿大新斯科舍省。

²⁹ 法老的侍酒官，出自《圣经》创世记里的一个故事。法老的侍酒官犯了错被关进牢里，约瑟为他解梦，预言三天后会官复原职，果然

应验。

第九章 Chapter Nine

不论切尼先生个人有多难过，即便他是百万富翁，他都必须和其他工人一样，让自己的生意得以继续。年老的哈维·切尼在六月底就去了东部，那里有一位崩溃的妇人，半疯半傻，日思夜想她那葬身茫茫大海的儿子。她的周围都是切尼先生安排的医生、训练有素的护士、按摩师，甚至还有心理疗伤师，然而，一切都是徒劳的。切尼太太一动不动地躺在那里，要么陷入深深的哀恸，要么向每个愿意听她诉说的人讲起儿子的故事，一说就是一个小时。她已经绝望了，可是谁又能给她希望呢？她所需要的是有人向她保证，溺水而亡不会有痛苦。因此，她的丈夫只好派人看着她，以防她去亲自试验。对于自己内心的伤痛，他只字不提——只有当他独自坐在办公桌前，看着日历，自问继续下去有什么意义时，才能体会到深深的痛。

在他的脑海里，曾经有过非常令人满意的安排：某一天，当他把所有事情都安排好，儿子从大学毕业，他会把自己的想法告诉儿子，并且把产业交给他。到那时，他会像所有忙碌的父亲一样，让儿子成为他的左膀右臂和同盟军，他们会一起打拼灿烂的事业，迎接美好的未来——有经验的老者辅助年轻气盛的头脑。现在，他的儿子死了——葬身大海，就像切尼的一艘运茶船上的瑞典海员一样；更糟糕的是，他的妻子也快不行了。他自己也被一群妇女、医生、侍女、仆人搞得晕头转向；他简直无法承受妻子那些不停变化的怪念头；绝望的切尼已经再没有心情去面对生意场上的那些竞争对手了。

他把妻子带到圣地亚哥的住所，那里还没有完全建好。他把妻子和

她的随从安排到价格不菲的侧厅，他自己住在带阳台的房间里，左右分别住着秘书和兼做电报员的打字员，成天忙得精疲力尽。西部的四条铁路正在打价格战，这原本应该是他感兴趣的；在他俄勒冈州的木材场里发生了一场毁灭性的大罢工，加利福尼亚州的议会不喜欢他，而且正准备向他宣战。

往常，不等对方宣战，他就会率先发难，肆无忌惮地采取一些手段，只要自己高兴就好。然而，现在的他浑身无力，瘫坐在椅子上，黑色的软帽耷拉在鼻子上，魁梧的身子蜷缩在宽松的衣服里，不知道是在盯着脚上的靴子，还是在看海湾里的中式帆船。他一边随手打开周六的邮件，一边心不在焉地回答秘书的问题。

切尼正在琢磨，如果放下这一切，换得脱身，需要付出多少代价。他买了巨额保险，可以获得丰厚的养老年金，还可以去他在科罗拉多的地盘，或是在华盛顿或南加利福尼亚岛这样的地方建一个小社区（那样对他妻子有好处），也许一个人会在这种环境里忘记那些实现不了的计划。另一方面.....

打字机的敲击声戛然而止，女打字员看着秘书，脸色煞白。

他递给切尼一封来自圣弗朗西斯科的信：

落水后被渔船“我们在此”号救起

大浅滩捕鱼很开心

幸有迪斯科•特鲁普照顾

在格洛斯特等候汇款或指示

妈妈可好

哈维·切尼

电报从这位父亲的手中掉在了地上，他的脑袋靠着办公桌的盖板，呼吸变得急促起来。秘书急忙去找切尼太太的医生，医生来了以后，发现切尼先生在房中踱来踱去。

“怎么——你怎么看待这封信？可能吗？它是什么意思？我有点不太明白。”切尼大声嚷嚷道。

“我知道，”医生说，“我每年少赚7千美元——就这么回事。”他想到由于切尼专横的命令，内心经过痛苦挣扎后放弃了纽约的诊所，长叹一声后归还了电报。

“你的意思是要告诉她？要是个骗局呢？”

“那么做的动机是什么？”医生非常冷静，“一查就明白了，这就是那小子。”

一位法国侍女冒冒失失地闯进来，这种必不可少的人物只有高薪水才能留得住。

“切尼夫人说让您马上过去。她有事找您。”

这位身价三千万的富翁毕恭毕敬地跟在苏珊娜后边；一个尖细高亢的声音从宏伟的白木楼梯上传来：“什么？发生了什么事？”

切尼先生爆出这则消息后不久，整幢房子里回响着这个声音，任何门窗都无法阻挡。

“没事儿，”医生沉着地对打字员说，“小说中仅有的关于医学的描述提到，任何喜悦的真相都不会致命，金丽小姐。”

“我知道，但我们首先得做很多事情。”金丽小姐来自密尔沃基，喜欢直来直去；她开始琢磨秘书的想法，猜测马上要忙起来了。秘书正认真地看着墙上的美国地图。

“米尔索姆，我们立刻出发。私家专列——直达——波士顿。马上联系。”切尼朝楼下大喊。

“我早就知道会是这样。”

秘书转向打字员，两人四目相对（这里面还有一段故事——不过，与本文无关），打字员好奇地望着秘书，对他的消息来源表示怀疑。他向她打了个手势，示意她去发送摩斯电码，就像将军调兵遣将一样。然后，像音乐家一样，撩了撩头发，看了看天花板，开始工作。金丽小姐用白皙的手指敲击电码，接通了美洲大陆。

“K.H ·韦德，洛杉矶——‘康士坦茨’号是在洛杉矶，对吧？金丽小姐？”

“对，”金丽小姐一边敲击电码一边点头。秘书看了看腕表。

“准备好了吗？‘康士坦茨’号私家专列将开向那里。安排好周日准时从这里出发。接下来，周二，芝加哥，联系纽约十六大道的特快列车。”

咔嗒——咔嗒——咔嗒！“你没有更好的安排了吗？”

“在这些路段上没有了。从这儿到芝加哥需要花费60小时的时间。

就算是乘坐开往东部的专列也没有多快。好了吗？接下来还要安排湖岸和密歇根南部铁路，做好迎接‘康士坦茨’号的准备，转往纽约中心和哈得孙河，途经布法罗，去奥尔巴尼，通知这些地方，要从奥尔巴尼到波士顿。我绝对要在周三晚上抵达波士顿。要确保没什么阻碍。发电报给卡尼夫，托西和巴尔尼斯。——署名，切尼。”

金丽小姐点点头，秘书继续往下讲。

“现在，接着。发给卡尼夫、托西和巴尔尼斯。准备好了吗？芝加哥的卡尼夫。下周二下午，我的私家专列‘康士坦茨’号将抵达纽约的十六大道，然后接特快列车开到布法罗。经由纽约中央铁路去奥尔巴尼。——去过纽约吗，金丽小姐？总有一天，我们会去，——好了吗？私家专列在周二下午由布法罗到奥尔巴尼。这是发给托西的。”

“我没去过纽约，但我知道那里！”金丽小姐猛地抬头说道。

“对不起。现在发给波士顿，奥尔巴尼的巴尔尼斯，内容和从奥尔巴尼到波士顿的安排一样，下午3点5分出发（你不用发这句话）；周三晚上9点5分就能到。这些都是韦德要做的，不过会让老板们发抖。”

“棒极了，”金丽小姐的眼睛里充满了钦佩，这才是她所熟悉并且欣赏的男人。

“还行吧，”米尔索姆谦虚地说，“现在，要不是我，别人得浪费30个小时，花一星期的时间才能想出这条路线，而不是拿出从圣达菲直接去芝加哥的计划。”

“但你看这儿，关于纽约特快列车。就算是昌西·迪普自己，也绝不会让他的私家专列挂在这趟车上的。”金丽小姐回过神来，说出自己的

看法。

“是，但他不是昌西，他是切尼——是闪电。没问题。”

“就算如此。不管怎么样，我想我们最好给那孩子拍个电报，你忘了。”

“我会问的。”

秘书返回时，带来了切尼先生命令儿子准时在波士顿见面的消息，他发现金丽小姐正对着电报机的电键笑。接着，米尔索姆也笑了起来。因为洛杉矶发来了情绪失控的电报：“我们想知道为什么——为什么——为什么，大家的不安情绪在蔓延。”

十分钟后，芝加哥方面再次给金丽小姐发来了请求：“如果发生了世纪大案，请及时通知我们。我们将严阵以待。”

比这些更加可笑的是托皮卡发来的消息（托皮卡到底在想什么，就连米尔索姆也猜不到）：“别开枪，上校。我们马上投降。”

当切尼收到对手们的回复时，看着他们的惶恐不安，切尼冷冷地笑了。“他们以为我们要发动战争了。米尔索姆，告诉他们，我可不想现在开战。跟他们说明，我们为什么这么做。我觉得你和金丽小姐也应该一起去，虽然我在路上也不可能做什么生意。告诉他们实情吧——仅此一次。”

于是，真相大白。金丽小姐充满感情地敲击电键，秘书引用了令人难以忘怀的名言：“让我们与和平相拥吧。”两千英里外的董事会会议室里，铁路工程的代表们终于松了一口气，他们手里操纵的铁路价值6300万美元。切尼要飞奔去见独子，这个孩子竟然失而复得，简直是奇迹。

老熊要去找幼崽，而不是找公牛打斗。这些为了经济命脉而拿起匕首的硬汉，现在放下武器，祝福切尼一路顺风。6个惊魂未定的笨脑瓜活跃起来了，吹嘘说要是切尼不放下武器的话，他们原本可能会有大动作。

对于电报局来说，这是一个忙碌的周末。既然焦虑已经消散，各地的人们就开始忙着为切尼一行安排食宿了。洛杉矶向圣地亚哥和巴斯托发了电报，南加利福尼亚州的工程师们收到了通知，待在孤寂的机车车库里准备就绪；巴斯托把这些命令又传达给大西洋和太平洋铁路；阿尔伯克基又全部转述给艾奇逊、托皮卡和圣达菲的管理层，甚至连芝加哥也收到了消息。车头、车厢、全体司乘人员和那辆镀金的“康士坦茨”号专列一起浩浩荡荡地出发了，即将行驶2350英里。这趟列车要先行出发，赶在177次列车会车前通过。调度员和工作人员都接到了通知。专列需要16台发动机，16位工程师，16名消防员——每台发动机和每名司乘人都要最优秀的。更换发动机只有两分半的时间，三分钟加水，两分钟加煤。“告诉他们，按照要求布置水箱和斜槽；因为哈维·切尼非常着急，着急——着急，”电报急得都要唱起来了。“预计列车时速将达每小时40英里，各部门监管员要在各自负责的路段护送好专列。从圣地亚哥到十六大道，芝加哥，让魔毯飞起来吧。全速前进！”

“天气会越来越热。”切尼说。星期天，天还没亮，他们就出发了。“我们要加快速度，夫人，尽我们一切可能。但我真觉得你没必要戴上软帽和手套，你最好吃点药，躺下来。我想让你玩儿多米诺骨牌，但今天是礼拜天。”

“我没事儿。哦，我没事儿。但是——摘下帽子会让我感觉永远到不了那儿。”

“睡会儿吧，夫人。不等你醒来，我们就能到芝加哥。”

“可我们要去的是波士顿，亲爱的。告诉他们快点。”

6英尺高的机车奋力开往圣巴纳迪诺和莫哈维荒原，但是现在的路况不适合加速，驶出这里后才能提速。当他们转向东部的尼德尔斯和科罗拉多河时，沙漠的热气紧随高山的热浪。列车在干旱和炽烈中吱吱呀呀地前进，他们把碎冰敷在切尼太太的脖子上，继续漫长的旅程，经过阿什福克，向着弗拉格丝塔芙行驶。那里的天空是干燥的，广袤的大地上有森林，有猎物。迈速表的指针来回摇摆，车顶的煤屑嘎嘎作响，旋转的车轮卷起尘土。列车内的乘客们坐在床铺上，挽起衣袖也还是热得气喘吁吁。切尼坐在人群中，为了压过机车的呼啸声，不得不扯开嗓门，讲那些每个铁路人都知道的关于铁路的老掉牙的故事。他还讲了儿子的事情，他是如何在大海中死里逃生的，他们不住地点头，鼓掌，为他祝贺；人们问起“后边”的切尼太太，还说要是火车司机再快一点点的话，她能否承受得了。切尼先生认为她可以。于是，这条庞大的火龙从弗拉格丝塔芙一路狂奔至温斯洛，直到相关路段的调度员提出抗议才慢下来。

然而，在特等包厢里的法国侍女吓得脸色煞白，紧紧抓住银制门把手。切尼太太却只是小声嘟哝着，一个劲儿地请求丈夫命令火车继续加速。于是，列车将干燥的沙漠和亚利桑那的银色月光映衬下的岩石一起抛在身后，继续在酷热中飞奔，直到挂钩发出撞击声，刹车软管滋滋作响，他们才知道已经通过洲际分界，到达了柯立芝。

三名勇敢而有经验的司机——出发时冷静而自信，浑身清爽；当他们结束可怕的车轮之行时，脸色惨白，瑟瑟发抖，汗流浹背——完成了一次伟大的飞跃，从阿尔伯克基到了戈洛丽塔，离开斯普林格，爬上州立铁路的拉顿隧道，他们又闯入拉洪塔，在这里，阿肯色的景色一览无遗，又从长长的斜坡俯冲至道奇城，切尼看着调快一小时的手表，再次

松了一口气。

车厢里没有人说话。秘书和打字员一起坐在压扁的西班牙毛垫上，后边是平板玻璃做的瞭望窗，窗外此起彼伏的铁轨交织在一起，好像在记录沿途的风光。从极度奢华夸张的包厢到空旷简洁的走廊，切尼先生焦灼地踱着步子，嘴里叼着雪茄却没点燃。司乘人员也忘记了他是众人的敌人，反而对他深表同情，竭尽全力去款待，让他高兴。

夜里，这个大家伙经过了翻山越岭的辛苦之后，车厢里的灯光照亮了豪华的宫殿。他们走过繁华，穿过荒芜。此刻，他们听到水箱发出的咝咝声，一个中国男人发出的嘶哑喉音，锤子敲击克虏伯车轮的叮叮当当声，流浪汉在车尾平台遭到驱赶时的咒骂声，工人将煤块扔进灶膛的咣当声，当他们经过一列停靠着的火车时反射回来的轰鸣声。大家向窗外望去，只见外面是深邃的深渊，脚下是高架桥，有时又会爬上遮蔽半个星空的岩石山。有时，陡崖和沟壑过后，列车又进入地平线边缘的崇山峻岭。现在，他们又突然闯进山间，地势越来越低，直到进入真正的大平原。

在道奇市，有个陌生人伸进一只手，扔了一张堪萨斯报纸，上面登载了采访哈维的一则报道，显然他是偶遇了一位事业心强的记者，这个人从波士顿发了一封电报。这则令人愉快的新闻报道说明哈维安然无恙，同时也让切尼太太稍稍宽慰了些。她又让工作人员向司机下令“加速”，经过尼克森、托皮卡和马塞利诺时，列车的速度很容易便提了上去，于是，他们飞快地将西部大陆抛在身后。乡村和城镇挤在一起，有人觉得自己仿佛置身于人群中一样。

“我看不到数字，眼睛疼，我们现在跑得怎么样了？”

“尽我们的能力跑到最快，夫人。我们没必要赶在特快列车前抵达，就算到了也只能等着。”

“我不管。我要找到行进的感觉。坐下来，告诉我还有多远。”

切尼先生坐下来，为她念着数字（上面有当天所创造的速度纪录），但是这辆70英尺长的列车仍然无法改变蒸汽机车固有的缓慢爬行，只能像一只巨型蜜蜂一样嗡嗡地在热浪中穿行。然而，这个速度对于切尼夫人来说还是不够的；热浪，无情的八月热浪，让切尼夫人头晕目眩，她觉得指针根本没有动，什么时候，到底什么时候才能到芝加哥呢？

他们在抵达麦迪逊堡时，更换了发动机，切尼给机车司机联合会捐了一笔钱，足够让他们彼此平起平坐。然而事实并非如此，他只是向司机和消防员支付了他认为他们应得的费用，只有银行才知道他给了那些同情自己的人多少酬金。记录显示，在十六大道，最后一名员工全权负责转轨操作，因为切尼夫人终于睡着了，如果谁在转轨时把她撞醒的话，那可就足够上帝忙活了。

现在，有一位高薪聘请的专家，负责把湖滨和密歇根南部的快车从芝加哥护送到埃尔克哈特。他有点像独裁者，不喜欢被人命令，不接受别人就如何倒车给出的建议。不过，他对“康士坦茨”号却是小心翼翼的，如同这趟列车上装满炸药一样，就算同伴指责他，他们也只是悄悄耳语或者比画手势。

“闭嘴！”艾奇逊、托皮卡和圣达菲的工人后来谈起这件事情时说，“我们又不是为了创造纪录。哈维·切尼的老婆在后边生病了，我们不想让她遭受颠簸。想想看，我们从圣地亚哥到芝加哥的行驶时间是57

小时54分。你可以把这个数字告诉东部线路的人们。我们真要是为了创纪录，一定会告诉你的。”

对于西部人来说（尽管这会让每个城市不高兴），芝加哥和波士顿的距离非常近，铁路更是助长了这种错觉。高速列车带着“康士坦茨”来到布法罗车站，进入纽约中心站，踏上哈得孙河铁路（几位胡须雪白，戴着金表的著名大亨登上这辆列车来和切尼谈生意），优雅地进入奥尔巴尼。从波士顿到奥尔巴尼的一路穿行——总耗时87小时35分钟，也就是3天15小时35分钟。哈维正在这里等他们。

经过激烈的情感宣泄后，大多数成年人和孩子都想起该吃饭了。他们放下窗帘，一边享受伟大而幸福的团聚，一边为失而复得的儿子准备了丰盛的美食，周围的火车呼啸而过。哈维吃饱喝足后，一口气夸张地讲完了他的历险记，时不时地用一只手把妈妈抚摸他的手推开。长期生活在空旷而充满咸味的空气里，他的声音变得浑厚了，手掌也变得粗糙而坚硬，手腕上的斑斑点点都是鱼内脏划伤的疤痕，橡胶靴和蓝毛衣上全是鳕鱼的味道。

那位阅人无数的父亲热切地望着他。他不知道儿子在这些日子里到底承受了多少苦难。其实，他忽然发现自己并不了解儿子，但他清晰地记得有一个圆脸小男孩，永远不满足，总是喜欢“缠着老爸”，惹妈妈落泪——就是这样一个在公共场合和酒店大厅找乐子的男孩，含着金钥匙出生的他喜欢捉弄或斥责门童。然而，眼前这个身体健壮的年轻渔夫丝毫没有扭扭捏捏，他的眼神坚定而清澈，毫不畏缩地看着父亲。他说话时的声音清晰利落，语言掷地有声，充满了敬意。而且，他的嗓音好像在承诺这种改变是永恒的，全新的哈维已经来到。

“一定是有人强迫他改变了，”切尼先生心想，“现在，‘康士坦茨’号

上可不会发生这样的事，就算欧洲人的教育也不会有更好的效果。”

哈维把故事至少已经详详细细地讲了两遍，但是他的妈妈还是在反复问：“可你为什么告诉这个人——特鲁普——你是谁？”

“迪斯科·特鲁普，亲爱的。行走于甲板上的最好的男人。我不管排第二的是谁。”

“你为什么不让他送你上岸呢？你要知道，你爸爸会给他十倍多的钱。”

“我知道；可特鲁普觉得我疯了。我还说他是贼，因为我找不到兜里的钱了。”

“有个水手在旗杆旁发现了——就在那天晚上。”切尼太太哭着说。

“那正好能解释清楚。我再也不怪特鲁普了，我只是说我不会干活儿——在一艘捕鳕渔船上——当然，他打了我鼻子，哦，我像一头猪一样动不了。”

“我可怜的宝贝！他们肯定虐待你了。”

“也没多严重。噢，后来，我就找到光明了。”

切尼拍着他的大腿笑了。这个男孩将按照自己的心意去成长。以前，他从没有在哈维眼中看到过这种光芒。

“那个老头一个月给我10块半，现在支付了一半。我和丹一起干活。我还做不了大人的活儿，但我能和丹一样掌控平底船了。大雾天气，我也不会慌——不那么慌了。风不大的时候，我也可以自己独当一

面——那是掌舵的技巧，妈妈——我还可以自己给排钩装饵，当然，我了解自己的绳索；而且，母鲸游回来时我能准确地扔诱饵。我对老约瑟夫的故事非常清楚。我还要给你演示怎么用一片鱼皮擦干净咖啡渍，还有——请再给我一杯。嗨，你们不知道，每天要干多少活儿，一个月才能到挣10块半！”

“我刚开始才挣8块半，儿子。”切尼说。

“真的吗？你从没有告诉过我，爸爸。”

“你也从来没问过啊，哈维。有一天，我会告诉你的，只要你愿意听。试试橄榄汁吧。”

“特鲁普说这个世界上最有趣的事情是看着别人跟他学到生活的本领。又能吃到精心准备的美食了，真好。虽然我们也能吃饱，但是大浅滩还是很艰苦。迪斯科给我们吃的最好，他是个好人，还有丹——迪斯科的儿子——丹是我的搭档。还有索尔特叔叔和他的粪肥，而且他还读《约瑟夫》，但他坚信我疯了。还有可怜的小个子宾，他真是个疯子。你绝不能和他说约翰斯敦，因为——哦，还有，你一定要认识一下汤姆·普拉特，长腿杰克和曼纽尔。曼纽尔救了我的命。可惜他是个葡萄牙人，他说得不多，但他是个很不错的音乐家。他发现我被钩住了，漂啊漂啊，然后就把我给捞上来了。”

“我想知道，你的神经没受伤吧？”切尼太太问。

“怎么可能，妈妈！我像马儿一样辛苦干活，像猪一样能吃，睡觉像死人一样沉。”

对于切尼太太来说，这些已经够她受了。她开始想象自己的眼前有

一具尸体漂浮在茫茫大海上。她回到自己的特等间，留下哈维蜷缩在爸爸身边，讲述他所受到的恩惠。

“你可以以我的名义去为他们做任何事情，哈维。听你这么一说，他们似乎都是好人。”

“船队里最好的人，爸爸。你可以去格洛斯特打听，”哈维说，“但是迪斯科一直觉得是他治好了我的神经病。我把你、我们的私家车和其他所有的事情只告诉了丹一个人，但我不太确定他有没有相信，明天，我要让他们吓一大跳。比如，他们能不能开着‘康士坦茨’去格洛斯特呢？不管怎么说，妈妈好像不适合活动，我们明天肯定会把鱼都处理完毕。他们会买我们的鱼。你看见了吧，我们是这个渔季里第一个离开大浅滩的，一公担卖4块2毛5。我们坚持这个价格，直到他们接受为止。他们很快就会买。”

“那你的意思是明天还要工作？”

“我告诉特鲁普我会回去工作。我负责称重。我还带了账本。”他看着油乎乎的账本，眼神是那么郑重其事，他的爸爸差点透不过气来。“据我所知，还有300公担的鱼——不——准确地说是294或295。”

“雇人替你吧。”切尼建议，他想看看哈维会说什么。

“不会，爸爸。我是纵帆船上的记账员。特鲁普说我有数字头脑，比丹要强，特鲁普是一个非常公正的人。”

“好吧，我想‘康士坦茨’号今天晚上不会挪地方了，你打算怎么办？”

哈维看了看表，指针指向11点20分。

“我就睡这儿，睡到3点。然后坐4点的运货车。按规定，船队里的人可以免费乘坐。”

“那是你的打算，但我觉得‘康士坦茨’号能和你们的运货车一样快。你现在最好睡觉吧。”

哈维躺在沙发上，踢掉靴子，还没等爸爸关灯，他就睡着了。切尼坐在旁边，看着这张年轻的面孔，手臂的影子落在他的额头上。切尼想起了很多事情，他发现自己作为一个父亲，忽略了太多。

“一个人永远不会知道自己什么时候会遇到最大的危险，”他说，“也许这比淹死更糟糕。不过我不希望如此——我可不希望。要真是那样的话，我可没那么多钱给特鲁普，就这么回事。我不觉得有什么危险。”

早晨，清新的海风从窗户吹进来，“康士坦茨”号和其他运货车并肩停靠在格洛斯特，哈维早已开始工作了。

“那样，他又会掉下船被淹死的。”切尼太太痛苦地说。

“我们去看看吧，万一有情况可以给他扔条绳子。你还没见过他为自己挣饭钱呢。”

“胡说八道！好像有人盼着他——”

“好吧，那个男人雇了他，他也没错。”

他们走下列车，经过街道两旁挂满油布雨衣的商店，来到码头。“我们在此”号格外显眼。灿烂的晨光里，在大浅滩时挂上的旗子依

旧迎风飘扬，所有人都像海狸一样七手八脚地忙得不可开交。迪斯科站在主桅旁，监督忙着拉索具的曼纽尔、宾和索尔特叔叔。长腿杰克和汤姆·普拉特装满篮子时，丹把它们都扔到船上。海水飞溅的码头边上，哈维手拿笔记本，代表船长，站在磅秤员前面。

“好啦！”下边的声音大叫道。“拉！”迪斯科大喊。“嗨！”曼纽尔说。“这儿！”丹推开篮子说。接着，他们听到了哈维的声音，清脆而稚嫩，他正在核对重量。

最后一条鱼被扔进去时，哈维抓住横索一跃而起，跳到6英尺高的纵梁，他把账本交给迪斯科，这是最近的一条路。他大喊：“297公担，全部清仓。”

“哈维，总数多少？”迪斯科问。

“865公担。3676块2毛5。除了工资，我希望也能有提成。”

“好吧，我可不能说没你的份儿，哈维。你能不能把咱的账本送他们办公室去？”

“那个男孩是谁？”切尼问丹。丹已经习惯了，这类被称作夏天的寄宿客的闲人，总是爱东问西问，四处闲逛。

“哦，货物管理员啊，”丹回答，“他漂在大浅滩上，我们救了他。他说自己是从一艘大客轮上掉下来的，他是一名乘客。现在他顺便就成了渔民。”

“他值那个工资吗？”

“当然。爸爸，这个人想知道哈维值不值你给的工钱。喂，你们想

上船吗？我们可以给夫人搭梯子。”

“的确，我很应该上去，没事儿，夫人。你也能亲自去看看。”

一个星期前，这位夫人连头也抬不起来，现在却能顺着梯子爬上船，站在乱糟糟的杂物和索具之间，惊讶不已。

“你们对哈维感兴趣？”迪斯科问。

“嗯，是——啊。”

“他是个好孩子，不管吩咐他做什么，他都能做好。你知道是我们救了他吧！我猜，我们救起他时，他的神经受损很严重，要不然就是头撞在什么上了。现在，他全好了。对，这是船舱，虽然有点乱七八糟的，但还是欢迎你们来参观。烟囱管上的是他记的数字，我们一般都在上面记东西。”

“他睡这儿吗？”切尼太太问。她坐在黄色的箱子上，审视着那些乱糟糟的床铺。

“不。他在前面睡，夫人。只有他和我儿子偷钓煎饼时才会待在这里。除了这个，我找不出他有什么其他毛病。”

“哈维也不是什么毛病都没有，”索尔特叔叔从楼梯上走下来，说，“他把我的靴子挂在主桅上，而且他不尊重比他懂得多的人，尤其是种地方面的。不过，大多数时候，他都是被丹给带坏了。”

丹在早晨就已经收到了哈维的暗示，此刻的他正在甲板上跳起欣喜若狂的战舞。“汤姆！汤姆！”他站在舱口朝下面低声叫道，“他的家人来了。爸爸还不知道。他们正在船舱里谈话。那位夫人真是温柔。看长

相，他爸爸真的是哈维说的那样。”

“我的天哪！”长腿杰克满身海盐和鱼皮地从底舱爬上来，说，“他说的小男孩的故事和小马车是真的吗？你相信吗？”

“我一直都知道是真的。”丹说，“过来瞧瞧爸爸怎么面对自己的失误。”

他们高兴地走过来，正好听到切尼先生说：“听到这样的评价，我很高兴。因为——他是我儿子。”

迪斯科吃惊得合不上嘴——长腿杰克发誓说听到了他的下巴发出咯噔的声响——他瞪大眼睛盯着切尼先生，又看了看切尼夫人。

“四天前，我在圣地亚哥收到了他发的电报，所以我们就来了。”

“坐着自己的私家列车？”丹说，“哈维说你们可能会坐专列来。”

“当然，自家的车。”

丹不住地眨巴着眼睛，傲慢地看着迪斯科。

“他给我们讲过一个故事，说他自己有一辆四匹小马拉的车子。”长腿杰克问，“那是真的吗？”

“很有可能，”切尼说，“夫人，有吗？”

“我们在托莱多时，他有一辆小马车。我想应该是那辆。”切尼太太说。

长腿杰克小声吹了声口哨，说：“哦，迪斯科。”然后就再没说什

么。

“我是——我被自己的判断误导了——比马布尔海德人都要笨。”迪斯科说出这番话时好像被起锚机吊起一样吃力，“我不是有意冒犯你，切尼先生，我误以为孩子疯了。他提到钱的时候很古怪。”

“他和我说了。”

“他跟你说别的了吗？因为我打过他一次。”说着，迪斯科紧张地瞟了切尼太太一眼。

“哦，说了。”切尼回答，“我必须说，也许对他来说，这是世界上最好的事情。”

“我认为必须打他，要不然我绝不会那么干。我不想让你们以为孩子在这条船上受了虐待。”

“我没这么想，特鲁普先生。”

切尼太太一直在观察这些人——迪斯科长着一张象牙黄色的脸，没有胡子，刚毅而无私；索尔特叔叔的头发带着农村的味道；宾满脸单纯和困惑；曼纽尔安静地微笑着；长腿杰克咧开嘴笑起来；汤姆·普拉特的脸上有块伤疤。凭着自己的标准，切尼太太认为他们都是粗人。然而，她的眼睛里流露出母亲的智慧。于是，她站起来，伸出双手。

“哦，请告诉我，你们都是谁？”切尼夫人一边啜泣，一边说，“我想谢谢你们，报答你们——所有人。”

“说实话，这已经是给我的百倍回报了。”长腿杰克说。

迪斯科正式介绍了每位成员。就算古代的中国人也做不到船长这么有礼貌，切尼太太语无伦次地连声道谢。当她知道是曼纽尔最先发现哈维时，她几乎要扑过去抱住曼纽尔了。

“可我怎么能让它一直漂在海上呢？”可怜的曼纽尔说，“要是你发现他在海里会怎么做呢？额，什么？我们有这么一个好孩子，很高兴你们有这样的儿子。”

“他还告诉我，丹是他的搭档！”切尼太太大声说。丹的脸早已开始泛红，但是当切尼太太当着众人的面在他的双颊上亲吻时，他羞得满脸通红。接着，他们领着切尼太太到前面参观了前甲板。这时，她又开始哭起来，非要下去看看哈维和大家一模一样的床铺。在这儿，她看到一位黑人厨子正在清理壁炉。当她走进来时，他点了点头，仿佛已经等了她很多年。大家一起给切尼太太讲船上的日常生活，她坐在制转杆旁边，双手戴着手套，放在油乎乎的桌上，有时笑得嘴唇颤抖，有时两眼含着泪花。

“以后，谁还会上这艘船来？”长腿杰克对汤姆·普拉特说，“我总感觉她把这里当成了大教堂。”

“大教堂！”汤姆·普拉特嘲笑道，“哦，要是一艘渔业委员会的船，而不是这艘被吹得摇摇欲坠的破船就好了。如果她来的时候，我们能体面些，有秩序，船上还能有其他迎宾的话，她就能昂首挺胸地登上楼梯，那样，我们——我们得多派些人手。”

“这么说，哈维就不是疯子了？”宾慢条斯理地对切尼说。

“不，当然不是，谢天谢地，”伟大的百万富翁弯下腰，温和地回答道。

“发疯是一件可怕的事情。除了失去孩子，我不知道还有什么事情比这更糟糕。但是，你儿子回来了，对吧？让我们一起感谢上帝吧。”

“嗨！”哈维在码头上热情地朝下面大喊。

“我搞错了，哈维。我搞错了。”迪斯科马上伸出一只手，说，“我判断失误。你别再提了。”

“我想，我会注意这件事的。”丹轻声嘀咕说。

“你现在就要走，对吗？”

“是啊，可你还没给我工钱呢，除非你想让‘我们在此’号被扣下来。”

“这事啊，我差点忘了，”说着，他数了数剩下的钱。“你干完了所有约定的活儿，哈维。你做得非常棒，好像你天生就在——”迪斯科赶紧闭上了嘴。他不知道该怎么往下说了。

“在私人专列外面的世界吗？”丹接过话来，毫不留情。

“快来，我指给你们看。”哈维说。

切尼留下来和迪斯科继续谈话，其他人都在切尼太太的带领下去看私家专列了。法国侍女看到大队的“入侵者”时尖叫了起来，哈维一言不发地给他们展示“康士坦茨”号的荣耀。同样，他们也什么都没说——印花皮革，纯银门把手和扶手，裁剪精美的天鹅绒，厚玻璃，镍的、铜的、熟铁的装饰以及内陆的稀有木材。

“我告诉过你，”哈维说，“我告诉过你。”这是哈维最有力的报复

了，事实足够说明一切。

切尼太太下令为众人设晚宴。为了长腿杰克以后能在寄宿房间里完整地讲述这个故事，切尼太太还亲自在房间招待了他们。这些人习惯了坐在小桌前，听着在耳畔咆哮的海风吃饭，非常规矩，也特别干净。然而，切尼太太却并不知情，只是觉得奇怪。她想让曼纽尔做管家，因为当他使用这些易碎的玻璃器皿和精美银器时，没有发出一点声音，显得泰然自若。汤姆·普拉特想起了在“旧俄亥俄”号上的辉煌时期，以及外国君主和官员们一起进餐时的礼节；长腿杰克是爱尔兰人，谈天说地时能让大家轻松自如。

“我们在此”号的船舱里，两位父亲抽着雪茄，暗自思忖着对方。切尼非常了解如何面对一个用钱无法打动的人；同样，他明白迪斯科所做的一切是用金钱买不到的。他并没有透露自己的计划，只等恰当的时机出现。

“我对您儿子也没做什么，或者说只是让他干了点活儿，教他如何使用六分仪，”迪斯科说，“他在数字方面的天赋比我儿子强多了。”

“顺便问一句，”切尼若无其事地说，“你对你儿子有什么打算？”

迪斯科取下雪茄，在船舱里挥舞了一圈。“丹只是个普通孩子，他用不着我为他考虑太多。等我退休了，他就可以管理这艘小船。他现在也不急着放弃这门儿生意。我知道。”

“嗯！去过西部吗？特鲁普先生？”

“坐着一艘小船去过纽约一次。我没坐过火车。丹也没有。对于特鲁普家的人来说，走海路最合适。我去过很多地方——都是顺道去的，

当然了。”

“我可以让他学到所有可能用到的海上技能——直到他成为船长。”

“怎么可能？我以为您只是仁慈的铁路大王。哈维告诉我的，那会儿——我判断失误。”

“我们都会犯错。我想，也许你可能知道我有一艘茶船线路——从圣弗朗西斯科到日本横滨——其中6艘是铁铸的，每艘大约1780吨重。”

“都怪这孩子！他从没说过。我倒是更愿意听到这些，而不是那些铁路、小马车的事儿。”

“他不知道。”

“我估计这种事儿他压根儿不会放心上。”

“不过，我只买了——布鲁•M船运公司——摩根和麦奎德的旧航线——这个夏天。”

迪斯科坐在壁炉旁，瘫倒在座位上。

“全能的恺撒大帝！我怀疑自己从头到尾都被搞晕了。怎么回事，菲尔•埃尔哈特离开6年——不，7年了——现在，他是‘圣何塞’的大副——每次出海26天。他的妹妹还在这儿，而且她还给我老婆读了他的信。布鲁•M船运公司是你的？”

切尼点点头。

“要是早知道，我早就不顾一切把船开回来了，我敢这么说。”

“那样的话，对哈维来说也许没这么好。”

“要是我早知道的话，要是他能提到那些可恶的茶船，我就能早点明白！我再也不会坚持自己的判断了——绝不会。那些都是设备完善的班轮。菲尔·埃尔哈特说的。”

“很高兴能听到这些评价。埃尔哈特现在是‘圣何塞’的船长，我想知道的是，你会不会让丹跟我一两年，我们看看到底能不能把他培养成大副。你放心把他托付给埃尔哈特吗？”

“带一个野小子是在冒险——”

“我明白，你为我做了很多。”

“那不一样。现在，你瞧。我没有专门推荐丹，不是因为他是我的亲生儿子。我知道，大浅滩并不能让他成为船长，但是他还可以学。他会掌舵——要我说，没哪个孩子能比得上他——至于其他的，我们特鲁普家的人天生就能学会；不过，我希望他在航海方面不要表现得太差。”

“埃尔哈特会照顾他的。他可以先像小孩子一样跟着航行一两次，然后再学着做得更好。假如这个冬天你带着他，那我明年开春就来接他，我知道，太平洋离得很远——”

“哼！我们特鲁普家的人，是生是死，都在大海上绕着地球转。”

“但是，我想让你明白——我的意思是——任何时候你想见到他，告诉我，我都会为你安排交通，而且不会花你一分钱。”

“要是你有空和我走走，我想让你去我家一趟，和我老婆说说这件

事。我已经判断失误了，那么严重，好像现在我已经分不清什么对错了。”

于是，他们一起来到特鲁普家。这是一座价值1800美元的白房子，刷了蓝色的边。前面的院子里有一艘废弃的平底船，种满了旱金莲。挂了百叶窗的客厅里展示着各种纪念品，都是出海带回来的。一个身材高大的妇女坐在那里，一言不发，神情肃穆。由于常年瞭望出海的亲人，她的眼睛变得灰暗而模糊。切尼向她说明来意，她疲惫地做了回应。

“切尼先生，在格洛斯特，一年会有一百个人死在海上，”她说，“一百个孩子和男人。我痛恨大海，就算它能听见我们说话，我也会说恨透了它。上帝从来没有为人类准备好停泊的地方。你的那些船出海，我想，然后还能直接开回家吗？”

“风向允许的话，他们不会耽搁。要是他们能按计划回来，我还会给他们发奖金。茶叶在海上不能耽搁。”

“他小的时候，经常玩儿开商店的游戏，我盼着他真能朝这个方向发展。但是，很快，他就学会摆弄平底船了，我知道他不会让我如愿了。”

“这些船都是横帆船，太太，都是铁铸的而且很结实。还记得菲尔的妹妹拿到信后给你念的那些吧。”

“我知道菲尔从来不会撒谎，但是他太爱冒险（海上的人大都是这样），要是丹觉得合适，切尼先生，就让他去吧——不用管我。”

“她只是讨厌大海，”迪斯科解释道，“而且，我——我不知道怎么能表现得更礼貌些，我想，或者说我只能谢谢你。”

“我的父亲——我的哥哥——两个侄子——还有我二妹的男人，”丹的妈妈用手抱住头，说，“我怎么能不管这些呢？”

丹回来了，欣然同意，那股高兴劲儿简直无法用语言来表达。切尼先生这才松了一口气。的确，这个提议意味着一条通往理想的平坦可靠的道路。然而，丹想到的却是在广阔的甲板上进行巡逻，瞭望遥远的海港。

切尼太太和不善言辞的曼纽尔私下聊起哈维被救一事。他似乎对金钱并不感兴趣。逼急了，他说他要五美元，因为他想给一个女孩买点东西。要不然——“我有饭吃，有烟抽，来钱这么容易，我要钱干吗？我喜不喜欢你都要给吗？额，那啥？你应该给我钱，但不是这种方式。你能想到多少就给多少。”他把切尼太太介绍给一位不讨人喜欢的葡萄牙牧师，他有一份长长的名单，这份名单和他的教士服一样长，上面都是生活贫困的寡妇的名字。作为严格意义上的一神论[30](#)教派信徒，切尼太太从教义上无法对他们表示同情，但最后她还是对这位棕色皮肤、滔滔不绝的小个子男人表达了敬意。

曼纽尔是忠诚的教会之子，为切尼太太的善举进行了祈祷。“我终于解脱了，”他说，“6个月以来的忏悔得到了救赎。”然后，他就去逛街了，买了条手帕送给了现任女友，这可让其他人伤透了心。

索尔特和宾去了西部度假，没有留下任何地址。他担心这些有钱人开着毫无用处的私家车，会让他的同伴产生不合适的兴趣。去内陆走亲访友是个不错的选择，等到岸上清静了再回来。“宾，你可千万不能被有钱人领走，”他坐在火车上说，“否则，我会用棋盘砸烂你的脑袋。你要是再忘了自己的名字——你叫普拉特——你和索尔特·特鲁普是一起的，或者你就待在原地等我来找你。千万别跟在那些人后面乱跑，《圣

经》上说他们胖得眼珠子都蹦出来了。”

[30](#) 一神论，信奉上帝是唯一的，可以取代传统基督教三位一体的学说。

第十章 Chapter Ten

但是，“我们在此”号上那位安静的厨子却是特例。因为他用一块布包着他的工具，登上了“康士坦茨”号。他并不看重薪酬，对睡觉的地方更是毫不在意。他的事业，正如梦境中所示，是要在后半生的日子里一直追随哈维。大家和他进行了一番争论，后来也被他说服了。然而，布雷顿角的黑人和亚拉巴马州的两个黑人却持不同的意见。于是，原来的搬运工和厨子把这件事告到了切尼那里。这位百万富翁对此一笑了之。他认为哈维也许有一天会需要一位贴身仆人，这位毛遂自荐者肯定抵得上5个佣工。因此，他留下了厨子。不管他说自己是麦克·唐纳，还是用盖尔语骂人，这些都不重要。车子将驶回波士顿，到时候如果他还没有改变主意，他们就会带他到西部。

离开“康士坦茨”号，切尼充满活力，到处闲逛，因为他打心眼里讨厌“百万富翁”身份的束缚。格洛斯特是一座建在新土地上的新城，他打算要将其“收入囊中”。像往常一样，他每到一座城市，从斯诺霍米什到圣地亚哥，都留下了他的印记。人们沿蜿蜒的街道做生意赚钱，一半是港口，一半是船舶商店。作为生意场上的领军人物，他想了解一下这里的生意经。有人说，新英格兰的周日早餐里，百分之八十的鱼丸来自格洛斯特，并且还列出了数据来给他做强有力的证明——船只数量，渔具，港口码头，投资金额，腌制，打包，工厂，保险，工资，修理以及利润。他和大型船队的老板们聊天，船主人数比员工人数稍多一些，船员大部分是瑞典和葡萄牙人。然后，他又和迪斯科商量，迪斯科是为数不多的拥有自己的船的船长。最后，他还要自己在心里比较一番。他来到海运旧货商店，满怀无法满足的西方人的好奇，兴高采烈地问这问

那，直到滨海地区的人们都在纳闷：“这个男人到底想干吗？”他又去了互助保险站，要求解释每天记在黑板上的那些神秘的语句；于是，在这个不大的城镇，渔民遗孀和孤儿救助组织的书记员们都来找他。他们丝毫不觉羞愧地来讨要，都想打败其他救济会的记录，切尼摸着他的胡子，把这些事情都交由切尼太太处理。

切尼太太在离东海角不远的公寓下榻——这里很特别，显然是由住宿者自行管理的，桌布上都是棋盘一样的红白格子图案，这里的人们好像老朋友一样亲密。半夜饿了的话，还可以起床去做威尔士的奶酪面包。在这里居住的第二天早晨，切尼太太在早饭前摘下了钻石首饰。

“他们都很讨人喜欢，”她向丈夫吐露，“而且很友好，很简单，虽然他们几乎都是波士顿人。”

“那不是简单，孩子他妈，”切尼先生一边说，一边朝苹果树后面的巨石望去，那里挂着吊床，“那是另外的东西，我们——我们还没有。”

“不是啊，”切尼太太平静地说，“那儿的妇女们没有一件上了100美元的裙子。为什么，我们——”

“亲爱的，我知道，我们有——我们当然有。我想这只是东部人的穿着方式。你玩儿得高兴吗？”

“我总是见不到哈维；他老是跟着你；不过我没有以前那么担心了。”

“自打韦力离开后，我从来没有这么高兴过，在这之前，我从来没有真正地理解我有个儿子。哈维会成为好孩子的。亲爱的，需要我为你拿什么吗？要不要枕个垫子？哦，我们再去码头转转吧。”

这几天，哈维一直追随爸爸，两人并肩而行。切尼以上了年纪为借口，把手臂搭在儿子宽阔的肩膀上。这时，哈维才注意到，自己从没有想过——在父亲的内心深处，对新鲜事物的神奇感知力竟然来源于市井街头——不由得佩服起来。

“你什么都不说，是怎么让他们把一切告诉你的？”当他们来到放置索具的阁楼时，儿子问道。

“我这辈子和许多人打过交道，哈维，我觉得大致能认清他们，我也了解自己。”然后，切尼先生停顿了一会儿。他们在码头边坐下来，“如果一个人能自己处理好自己的事情，别人就会看出来，然后他们就会把你当自己人。”

“就跟我在乌尔曼码头受到的待遇一样。我现在也是他们中的一份子了。迪斯科告诉所有人我是自己挣工钱的。”哈维伸出双手，摩擦着手掌，闷闷不乐地说：“它们又变柔软了。”

“念书这几年就这样吧，毕业后可以再让它们坚硬起来。”

“是啊，但愿如此。”哈维回答道，但听起来一点都不开心。

“哈维，一切都由你自己决定。当然，你还可以躲在你妈身后，成天发牢骚，让你妈为你的紧张和暴躁之类的事情担心。”

哈维不安地问：“我以前是这样吗？”

父亲转过身，伸出手。“你和我一样清楚。如果你想跟我对干，我是没办法把你培养成才的。要是你一个人的话，我还可以管好。但是，你和你妈妈一起对付我的时候，我是假装不了自己有这个能力的。不管怎么说，生命太短暂。”

“那样，我就永远长不大，对吧？”

“我想，这是我的不对。但是。你想听真话的话，到目前为止，你还没有。现在，明白吗？”

“嗯！迪斯科觉得.....比如说，你能不能想起从我出生——从头到尾，所有的花费？”

切尼笑了。“我从来没记过，不过，我大体估计一下，四五万美元吧，也许是六万，年轻一代很费钱，他们要买东西，他们还觉得不新鲜，总是父母掏腰包。”

哈维打了一声口哨，但想到父亲花了这么多钱，还是挺高兴。“都打水漂了，是吧？”

“投资，哈维。我希望这是投资。”

“就按3万算吧，我挣的30美元只是千分之一。可怜的投资和回报啊。”哈维郑重其事地摇摇头。

切尼哈哈大笑起来，差点从桥架上翻下来掉进水里。

“丹从十岁起，迪斯科就开始让丹挣钱了。丹也上过半年学。”

“哦，你也要学他？”

“不，我谁也不学。我现在还养活不了自己——就这么回事.....我应该滚蛋。”

“老朋友，我不会那么做的，或者，要是我也是被踢出来的话，我

想我也会那么做。”

“那样，我会记你一辈子——永远都不会原谅你。”哈维的下巴支撑在两只攥起的拳头上，说道。

“绝对是。你明白了吗？这就是我要做的。”

“明白了，都是我的错，和别人没关系。说来说去都一样，我总该做些什么。”

切尼从背心口袋里掏出一根雪茄，咬掉雪茄头，开始抽起来。父子俩长得如此相像：胡子遮住了切尼的嘴巴，哈维和父亲的鼻子都稍微带点鹰钩，眼睛挨得非常近，高高瘦瘦的颧骨。如果再抹点褐色的油漆，活脱脱就像故事书里画的红色印第安人一样。

“现在，你还可以继续。”切尼缓缓地说，“一年花我6000到8000，直到你成年。那时，我们就可以称你为男人了。你可以一直这样下去，一年花掉四五万，除了你妈妈给你的以外。你还可以有自己的游艇或者花哨的牧场，你可以假装饲养一些活蹦乱跳的家畜，还可以和你的朋友一起打牌。”

“就像拉里·塔克一样？”哈维插嘴道。

“对，或者像德维特家那两个男孩或者老奎麦德的儿子一样。在加利福尼亚，这样的人很多，咱们说话这会儿东部的少爷就来了。”

一艘光闪闪的黑色蒸汽船开进了港口。船上有红木甲板，镍板罗盘箱，粉白色条纹的遮阳篷，纽约某家俱乐部的旗子迎风飘扬。两个年轻男子穿着他们自认为是航海服的衣服，正在天窗下打牌；两个姑娘撑着红色和蓝色的阳伞一边看一边大声笑着。

游艇放慢了行驶速度，拉起锚链上的浮标。哈维挑剔地说：“不管有没有风，我都不会待在这种船上。连横梁都没有。”

“他们玩得很开心。我可以让你也拥有，可以是他们的两倍，哈维。你觉得怎么样？”

“我的天哪！旁边不能再放小游艇了，怎么可以！”哈维一边说，一边仍旧注视着那艘游艇。“要是我放索具还不如他们的话，那我就待在岸上……要是我不喜欢呢？”

“不愿意待在岸上——或者什么？”

“游艇，农场，还有啃老。还有，遇到麻烦就躲在妈妈身后，”哈维眨巴着眼睛回答。

“哦，那样的话，你就跟着我干吧，儿子。”

“一个月10美元？”哈维两眼放光。

“一分钱不多给，等到你有资格了再谈。攒起来，几年内都不能动它们。”

“那我最好马上就去打扫办公室——成大事都是这么起步的——从现在做起，总比——”

“我知道；我们都以为是这么开始的。不过，我想打扫卫生的人到处都有，要多少有多少。我自己刚开始时也是犯了这样的错误。”

“3000万美元的错误，对吗？我也会冒这样的险。”

“我会告诉你的，我失去了，也得到了。”

切尼望着平静的海面，摸着胡子笑了。这番话后，哈维才明白父亲是在讲他的人生。他的语调舒缓而平静，没有手势，没有表情；这段历史是十几家主流杂志乐于重金购买的——这40年的故事其实是新西部的历史，而且是还没有被书写的历史。

故事的开头，有一个举目无亲的小男孩。他在得克萨斯到处流浪，经历了无数变化无常、令人难以置信的遭遇。故事的场景在各州辗转。一个月内出现的城市或许在三个月后便会销声匿迹。曾经遇险的野外营地或许已经被开拓为大都市。有时，三条铁路已经竣工，但第四条却遭到了蓄意破坏。故事里有蒸汽机，有小镇、森林、矿山，来自世界各国的人们在这里努力工作，创造生活，发掘财富。巨额财富恍如云烟从眼前飘过，有时又仅仅会因为时间和行程而错过。有时，他在马背上，大多数时候他徒步而行，时而富有，时而贫困，出出进进，来来回回，当过水手，开过火车，做过承包商、公寓管理员、记者、工程师、鼓手、房地产经纪人的政客。他也赖过账，卖过酒，开过矿，投机倒把的生意没少做。他放过牛，也曾到处流浪，疯狂转变着的角色触动了小哈维·切尼，他认真而安静地听着，思考自己的最终理想。正如他所说，他要追求整个国家的荣耀和进步。

切尼说他的信仰从来没有舍弃他，即便是在濒临绝望时——这种信仰来自他对人对事的深入了解。他详细讲述了自己一生的勇气 and 经历，好像在自言自语。在他心中，这一切如此清晰熟悉，以至从没有改变语调。他回忆了自己如何攻击对手，又如何原谅他们，如同他们在那些漂泊的岁月里对他那样；他曾为了长久的利益，对全镇人、各公司以及各财团百般恳求，巧言利诱，威逼恐吓；他也曾翻山越岭，身后留下一条条蜿蜒盘旋的铁轨。最终，他高高在上，无人能撼动他的地位，只剩鱼

龙混杂的人们传扬着关于他的零星琐碎的故事。

听着爸爸的故事，哈维凝神屏息。他的头微微倾斜，目光一直没有离开父亲的脸。天色渐渐暗下来，雪茄发出的红光照在布满皱纹的脸颊和凝重的双眉上。哈维仿佛看到一列火车，在城市的暗夜里呼啸而过——每隔一英里，炉门便会闪闪发光：然而，这列火车会说话，每句话都震颤激荡着男孩，直达心灵深处。最后，切尼扔掉烟蒂，父子俩坐在夜色里，身边是海水。

“我以前从没和别人说过这些。”父亲说。

哈维大喘了一口气，说：“这些真是前所未有的伟大经历。”

“这是我所得到的。现在，我要告诉你我失去了什么。对你来说，这些没什么太大用处，但是我不想让你等到像我一样老的时候才明白。当然，我善于和人们打交道，而且我有自己的原则，不会受人愚弄，但是——但是——我比不过那些受过教育的人！虽然我一直在边走边弥补，但是我想缺陷还是很明显的。”

“我从没觉得！”儿子愤愤不平地说。

“但是，你会发现的。哈维。你会的——一旦从大学毕业你就会发现。难道我不明白吗？难道我看不出他们脸上的表情？他们觉得我是个‘粗人’，在其他地方都这么叫我。我可以把他们彻底打败——是的——可是不能报复他们，不能像他们一样直击要害。我不是说他们有多高高在上，也不是说我自己有多差劲。现在，机会摆在你面前，你需要吸收所学。你将和一群志同道合的人生活在一起。他们的目的也许是为了以后每年至多能挣到几千美元。但是，你要记住，你的目标是几百万美元。你将学习法律，以便当我不在时，你能更好地保护自己的财产。

你要和市场上最优秀的人坚定地站在一起（他们以后会有用的）。首先，你要把那些平庸普通的想法扔掉，不要托着腮帮子死读书。哈维，没有什么能比读书的回报更丰厚。在我们国家，学习越来越受到重视——生意和政治上都需要。你看着吧。”

“这桩买卖到最后我也看不到有什么甜头，”哈维说，“大学四年！我希望我选择的是男仆和游艇！”

“没关系，儿子，”切尼坚持道，“你现在的投资在将来必定会给你带来最大的回报，我想，等你接管生意后，你会发现我们的资产不会有任何缩水，再考虑考虑，明天早晨给我答复。快点！晚饭要迟到了！”

因为这是一场生意对话，所以哈维觉得没必要让妈妈知道；切尼自然也持同样的看法。不过，切尼太太看见后有些担心，还有点嫉妒。她的儿子，那个曾经顶撞她的孩子不见了，取而代之的是一个热切的年轻人，出奇地安静，大部分谈话都是和爸爸之间的。她明白他们在谈生意，所以不在她的管辖范围内。如果她有任何疑惑，只要切尼从波士顿回来时，给她带回一枚新的卵形钻戒就释然了。

灯光下，切尼太太转动手指上的戒指，微笑着问：“你俩一直在干吗呢？”

“聊天——只是聊天。老婆，聊的都和哈维没啥关系。”

可事实并非如此。那个孩子出于自己的考虑提出了条件。他很严肃地解释说，对他而言，铁路，就像木材，房地产或者采矿一样，不具任何吸引力。在他的内心，最渴望的是掌管父亲新购买的大帆船。如果父亲能在认为恰当的时间里答应他这件事情，他这方面保证能在四五年的大学时间里，做到勤奋和节制。放假时，他要全面地接触并且了解航

线，他的问题不会超过两千个，但是内容会涉及他父亲保险柜里最私密的文件，以及圣弗朗西斯科港口的拖船。

“成交，”切尼最后说，“当然，大学毕业之前，你可以几十次地改变想法。但是，如果你想体面地接管它，而且如果你在23岁之前还没有改变主意的话，我就会将它移交给你。你觉得怎么样，哈维？”

“没问题；做任何事情都不要半途而废。不管怎样，当今世界竞争太多。迪斯科说过，亲人就应该团结在一起，他的船员从来不会背叛他。他说，这就是他们能捕到很多鱼的原因之一。听说，‘我们在此’号星期一要去乔治斯。他们在岸上待不了多久，是吧？”

“嗯，我想，我们也该走了。我把生意扔在那里不管，自己在两大洋之间跑来跑去，杂乱无章。现在该是重新整理起来的时候了，虽然我不喜欢这么做。20年来，我从没有像现在一样享受过假期。”

“我们不能就这么离开，我要去送迪斯科。”哈维说，“星期一是纪念日，无论如何，过了星期一再走。”

“纪念日是怎么回事？公寓里的人们都在说这件事。”切尼情绪低落地问。他也并不急于破坏美好的假期。

“哦，据我理解，这是一种歌舞表演，为夏天的租客而举办。迪斯科不太赞成这种活动，因为专门给寡妇和孤儿募捐的钱会被花掉。迪斯科总有独到的见解，你发现了吗？”

“哦，——是的。有点儿。在某些方面。那这么说这是镇上的表演活动了？”

“这是夏季的集会。他们会宣布一些溺水者或失踪人员的名单，然

后有人会发表演说，背诵赞美诗，大概就这些。迪斯科说，接下来救助委员会的那些负责人就会跑去后院，争取捐款。他说真正的表演在春季。那时候，所有的神职人员都会参与进来，没有一个夏天的租客。”

“我明白了，”切尼说。他非常理解自小生长在城市里的人对城市活动的自豪，“我们会待到纪念日，然后下午再走。”

“我估计我得下去找迪斯科他们了，让他在出海前带着船员们集合。当然，我得和他们待在一起。”

“哦，是这么回事。”切尼说，“我只是个可怜的夏天的租客，而你是——”

“大浅滩的渔民——地地道道的大浅滩的渔民。”哈维一边登上一辆有轨电车，一边回头说。切尼依旧沉浸在对未来的幸福憧憬中。

迪斯科并不喜欢任何旨在慈善募捐的社交活动，但是哈维恳请说，按他的理解，如果“我们在此”号的成员在当天不出现的话，他们的荣誉就会受到损失。于是，迪斯科做出了让步。他听说过——令人奇怪的是，全世界的人竟然都知道海上发生的事情——他听说一个“费城女演员”要来参加这次活动；他怀疑这个女人会朗诵《艾尔森船长的航行》。就他个人而言，他不喜欢女演员，同样也不喜欢夏天的租客。不过，公道归公道，尽管他自己（丹一想到这个事儿就会咯咯地笑）曾经栽到自己的判断上了，但这次绝对不会重蹈覆辙。哈维回到东格洛斯特，花半天时间向这位女演员解释了事件的本质，她本来觉得这件事很好笑。女演员在东西两海域都享有很高的声誉，她考虑了很久后，终于还了事实一个公道，就像迪斯科曾说过的那样。

凭以往的经验，切尼知道纪念日会发生什么事情。然而，任何公共

集会的本质对人类灵魂而言，无非是吃喝而已。那天的早晨雾蒙蒙的，天气还有些闷热。切尼望着一辆辆电车向西疾驰而去，车上坐满了身着夏季薄裙的妇女、戴草帽的白人男人，他们刚刚从波士顿下班回来。邮局外停放着自行车，奔波忙碌的职员们互相打招呼；胜利的彩旗在沉闷的空气里缓缓摇摆；一个神气活现的男人手持冲水管正在冲洗砖砌的人行道。

“太太，”他突然说，“你还记得——西雅图被烧毁³¹后——人们重建的景象吗？”

切尼太太点点头，挑剔地望着川流不息的街道。和丈夫一样，她也熟悉西部这些聚会，也一一做了比较。渔民渐渐混入人流，涌向市政大厅的门口——长着忧郁的双下巴的葡萄牙人，有的没有戴帽子，有的用披肩遮挡；眼睛清澈的新斯科舍人，沿海各省份的男人们；法国人，意大利人，瑞典人，丹麦人，还有从纵帆船上下来的船员们；到处都是一袭黑衣的妇女们，哀伤中流露出骄傲，她们互相致意，因为今天是她们的重要时刻。信奉不同教义的牧师——高级宗教圣会的牧师们平日忙于监督指导，现在正坐在海边休息；山上教堂的牧师和路德教会长满络腮胡的前水手，跟来自20艘船的船员们相识已久。还有一些纵帆船的主人，救助会的主要资助人，还有一些小人物，他们仅有的技术也都挂在了桅杆上，还有银行家，海事保险代理人，拖船和给水船的船长，装配工，修理工，装卸工，盐商，造船工，修桶匠，以及沿海的各类居民。

他们穿梭在一排排的座椅间，以嘲弄夏季租客们的服饰为乐。一位市政官员汗流浹背地在巡逻，直到他把纯粹的市民自豪感到处撒播完为止。切尼几天前只和他聊过5分钟，而现在两人似乎早已成了老相识。

“哦，切尼先生。您觉得我们的城市怎么样呢？——是的，太太，

您可以随便坐哪里，只要您高兴。——我猜，在西部也有这样的活动吧？”

“是的，不过我们那里没有这里的历史悠久。”

“当然，是这样的。我们在庆祝二百五十周年的时候，您真应该在场的。我跟您说，切尼先生，这座古老的城市确实不负盛名啊！”

“我听说过。它也确实值得庆祝。但是，为什么这座城市没有一家高档酒店呢？”

“——就在那儿，往左拐，佩德罗，那里有很多房间，您和您的朋友可以入住。哎呀，这是我一直跟他们强调的，切尼先生。虽然那儿投资了不少，但我想对您来说没什么。我们想要的是——”

一只手重重地搭在了他穿着高级呢绒外套的肩膀上，这是一位红脸的波特兰船长，主要负责运输冰和煤。他转过身，说：“你们到底在搞什么？你们在城里拍拍手就通过了法令，让正派的人们在海上这么辛苦？城里太干燥了，像骨头一样干巴巴的，比我上次来的时候还要没意思。不管怎么说，都得给我们腾个地方喝口饮料啊。”

“好像今天也没影响你吸收营养吧，卡尔森。稍后我会把它提上政治议程。在门口坐会儿，想好你要说的，我一会儿回来找你。”

“说那些对我来说有什么好处？在密克隆，一箱香槟酒18美元”，管风琴前奏响起时，这位船长突然落座，安静下来。

“这是我们的新乐队。”官员自豪地对切尼说。

“花了4000美元。我们明年得提高收费许可，才能雇得起。我不打

算让牧师在大会上宣传所有的宗教教义。我们的一部分孤儿要站起来唱了。我妻子教孩子们。一会儿见，切尼先生。我得上台了。”

童声真真切切地响起来，高亢而清脆，喧闹的人群终于安静下来。

“噢，上帝创造了你们，上帝保佑你们！永远赞美上帝，永远礼拜！”

空气中回荡着重复的旋律，大厅里的妇女们身子向前倾。切尼太太和其他人一起开始呼吸急促起来，她无法想象世界上竟然有这么多寡妇；然后她本能地想找哈维。哈维在观众后面找到了“我们在此”号的同伴，他正站在丹和迪斯科中间。前天晚上，索尔特叔叔带着宾从帕姆利科湾赶回来了，他对哈维还是充满了疑虑。

“你们还没走？”他嘟囔道，“小鬼，你在这儿干吗？”

“噢，大海和洪水，上帝保佑你们！永远赞美上帝，永远礼拜！”

“有什么不对吗？”丹说，“他在这里，和我们大家一样。”

“可他穿的衣服和别人不一样。”索尔特龇牙咧嘴地低声吼道。

“闭上你的嘴，索尔特。”迪斯科说，“你的脾气又不听话了。哈维，就待在这儿。”

接着，市政当局的另一位重要人物登上讲台开始发言，欢迎世界各地的人们来格洛斯特。然后，他很随意地指出格洛斯特优于世界上任何地方。这里拥有丰富的海洋资源，提到为了每年的丰收，多少人付出了代价。稍后，他又宣布过一会儿会宣读死亡人员的名单——一共117人（寡妇们屏息凝视，然后相互看着对方）。格洛斯特没有多少家制造厂

或工厂可以宣扬。她的子民们靠大海为生，众所周知，乔治斯和大浅滩都不是牧场。岸上的人们能做的最大努力便是帮助那些孤儿寡母。一番简要介绍之后，他代表全市感谢所有富有公益精神的人们来参加这次募捐活动。

“我只是瞧不起这个乞讨环节，”迪斯科怒气冲冲地低声说，“这样就很难让民众对我们有公正的看法了。”

“要是他们对将来没有预见，不懂得存钱，”索尔特接着说，“按照事物发展的规律来说，他们总有一天会后悔莫及。小鬼，你得到警示了吗？财富只能维持一段时间，如果你到处挥霍——”

“只会失去一切，一切，”宾说，“那时你该怎么办？我曾经——”他那双水汪汪的蓝色眼睛上下看了看，好像在寻找什么依托——“我曾经读过——我想，是一本书里——一艘船上所有人都淹死了——只剩一个——他对我说——”

“闭嘴！”索尔特打断他的话，“你没念过多少书，瞎想太多没用。还是想想怎么养活自己吧，宾。”

哈维挤在渔民中，只觉得后背一阵毛骨悚然的寒冷，从脖子一直蔓延到靴子，感到深入骨髓的可怕。虽然这是闷热到窒息的一天，但他还是觉得寒冷刺骨。

“那个就是费城的女演员？”迪斯科·特鲁普怒气冲冲地看着台上说，“哈维，你确定她要讲老艾尔森的故事？哈维，处理好了吗？你现在知道她要讲什么吗？”

女演员讲的并不是《艾尔森船长的航行》，而是一首诗歌，内容是

关于布里克瑟姆鱼港和一支拖网渔船船队深夜遭遇暴风雨袭击的，女人们在码头点燃指路的篝火，尽可能地帮助他们。

“她们拿走了老奶奶的毛毯

老人颤巍巍地命她们快走

她们拎起宝贝的摇篮

宝贝们绝不拒绝她们”

“哎呦！”丹从长腿杰克的肩膀上望过去，“不错啊！但是肯定花了不少钱。”

“土拨鼠要出洞了，”戈尔韦人说，“丹，港口光线不亮。”

“她们并不知道

燃起的是指路的篝火

还是葬礼的火焰”

这个声音极富感染力，拨动了所有人的心弦。当她讲到浑身湿透的船员们被海潮推到岸上，无论是死是活，都被抬到火堆旁，问道：“孩子，这是你的爸爸吗？”或者“太太，这是你的男人吗？”长椅上，人们的呼吸变得凝重起来。

“布里克瑟姆船

迎风破浪

行驶的爱

如同闪电划过风帆”

女演员结束演讲时，台下几乎没有掌声。妇女们在找手帕，一些男人两眼泪光闪烁，望着天花板。

“嗯，”索尔特说，“去别的剧院听这节目得花1美元——有可能两美元。我估计有些人能掏得起钱。对我来说，纯粹白花钱……天哪，巴特·爱德华船长，到底是什么风把他刮到台上了？”

“千万别小看他，”身后一个东港的男人说，“他是诗人，他要读他的作品。也是我们这行的。”

他并没有说巴特·爱德华船长已经努力了5年，就为能在格洛斯特的纪念日上朗诵自己的一首诗。最终，委员会被他磨得精疲力尽，又觉得好笑，于是就满足了他的要求。当他身着礼拜日的盛装站起来时，还没等他开口，老人简单而单纯的幸福就为他赢得了观众的喜欢。他们静静地聆听着37行经过锤炼的文字，大篇幅地描述了纵帆船“约翰·哈斯肯”号在1867年的风暴中遇难的故事。当他结束演讲时，观众席里爆发出热情的欢呼声。

一位有远见的记者悄悄溜到巴特船长身边，向他索取这首诗的复印本，并且对作者进行了采访。于是，巴特船长，这位曾经的捕鲸者、造船工、捕鱼高手、诗人，在他73岁的时候，得到了世界给予他的一切，再无他求。

“瞧，我觉得这样才合理。”东港的人说，“我曾经去过他刚才那首诗里写到的地方，我双手捧着他的诗，我可以证明他把一切都写进去

了。”

“我们的丹一顿早饭的功夫就能随便写出这样的诗来，要不然的话你就揍他。”索尔特向来的原则是推崇马萨诸塞州的荣耀。“但我觉得他说得有点啰唆——缅因州那部分。还有——”

“我猜，索尔特叔叔这次出海要完蛋了。他从来没那么痛快地夸过我，”丹咯咯地笑着说，“哈维，你怎么啦？这么安静。看起来脸色发绿，病了吗？”

“我也不知道自己怎么回事，”哈维回答，“我的肚子胀得像要撑破一样，全身发胀，直打哆嗦。”

“病了？哦——太倒霉了。等活动结束，我们就走。”

这些寡妇——她们几乎是在一个捕鱼季里就成了寡妇——强打精神，好像奔赴刑场一样，因为她们知道未来会发生什么。夏季租客中的女孩们身穿粉色和蓝色的衬衫式连衣裙，不再吃吃地嘲笑爱德华船长伟大的诗歌，转过头张望，不明白为什么会突然安静了下来。刚才同切尼先生谈话的市政官员站上讲台，渔民们奋力往前靠。他开始宣读今年丧生人员的名单，名单是按月分组的。去年九月的死亡人员大部分都是单身的或者是外地人，他的声音在寂静的大厅里显得格外响亮。

“9月9日——纵帆船‘弗洛丽·安德森’号在乔治斯沉没，全体人员失踪。

鲁本·匹特曼，船长，50岁，单身，住在本市主街。

埃米尔·奥尔森，19岁，单身，住在本市哈蒙德街329号，丹麦人。

奥斯卡·斯坦伯格，25岁，单身，瑞典人。

卡尔·斯坦伯格，28岁，单身，住在本市主街。

佩德罗，据称是马德拉群岛人，单身，住在本市的基恩公寓

约瑟夫·威尔士，又名约瑟夫·怀特，30岁，纽芬兰圣约翰斯人”。

“不对——缅因州的奥古斯丁人。”大厅里传出一个声音。

“他从圣约翰斯出发。”发言人一边回应，一边搜寻说话人。

“我知道。他是奥古斯丁的，是我侄子。”

发言人用铅笔在旁边的空白处做了纠正，然后继续往下读。

“同一艘纵帆船，查理·里奇，新斯科舍省利物浦人，33岁，单身。

奥尔波特·梅，住在本市罗格斯大街267号，27岁，单身。

9月27日——奥尔温·多拉德，30岁，已婚，在东港从平底船落水溺亡。”

这句话直击要害。有个寡妇在座位上蜷缩起来，紧握双手，又打开。切尼太太一直瞪大眼睛在听，突然觉得难受，几乎无法呼吸。丹的妈妈在她右边隔着几个座位的地方，看到后迅速赶到她身边。发言人还在继续。当念到一、二月的死亡名单时，枪林弹雨的射击更加密集，寡妇们只剩下喘息的工夫了。

“2月14日——纵帆船‘哈利·伦道夫’号，在从纽芬兰回家的路上，桅杆折断；阿萨·缪斯，已婚，32岁，掉下船，失踪。

2月23日——纵帆船‘吉尔伯特·霍普’号，迷失方向，罗伯特·比文，29岁，已婚，新斯科舍帕布尼科人。”

他的妻子就在大厅里。人们听到一阵低低的哭泣声，就像一只小动物被袭击一样。空气突然变得令人窒息，一个女孩跌跌撞撞地跑出大厅。几个月来，她抱着一线希望，因为虽然有人也曾随平底船到处漂，但会奇迹般地被一艘深海大帆船所救。现在，她已经得到了确切的答案。哈维看到人行道上的一名警察为她拦下一辆出租马车。“到车站50美分”——司机刚开始说，警察举手示意——“可我正好要去那儿。上车。看这儿，阿尔夫，下次如果我的灯没亮，你就别喊我。明白吗？”

大厅的侧门关上了，一片明媚的阳光也被关在门外。哈维的眼神再次转向发言人和他那份无止境的名单。

“4月19日——‘玛米·道格拉斯’号在大浅滩失踪，全体船员生死未卜。

爱德华·坎顿，43岁。船长，已婚，住在本市。

霍金斯，又名威廉姆斯，34岁，已婚，新斯科舍省谢尔本人。

克雷，混血人，28岁，已婚，住在本市。”

名单没完没了，永无止境。哈维的喉咙涌起鼓鼓囊囊的一堆，肠胃翻腾起来，这让他想起了从大客轮上掉下来的那天。

“5月10日——纵帆船‘我们在此’号（哈维全身血液沸腾）。奥托·斯文森，20岁，单身，掉下船失踪。”

大厅的后面，再次传来撕心裂肺的哭声。

“她不应该来，她不应该来。”长腿杰克“啧啧”地表示同情。

“哈维，别推，”丹咕哝着说。哈维倒是听见了，但他只觉得四周一片漆黑，眼冒金星。迪斯科往前凑了凑，对妻子讲了些什么。迪斯科太太坐在那里，一只胳膊抱着切尼太太，另一只胳膊托起她乱晃乱抓的戴着戒指的双手。

“头放低——放低！”她低声说，“一会儿就好了。”

“我不会！做不到！哦，让我——”切尼太太根本不知道自己在说什么。

“你必须做到，”特鲁普太太重复道，“你儿子晕过去了。在他们成长的过程中都会这样。你难道不想照顾他吗？我们可以从这边出去。悄悄地，你只要跟着我就行。嗨，亲爱的，咱们都是女人。我想，我们必须照顾好男人们。来！”

“我们在此”号的人们立刻穿过人群，像保镖一样护送开道，他们把脸色苍白、浑身发抖的哈维抬起来，放到接待室的长椅上。

“让他妈妈来。”特鲁普太太只说了一句，切尼太太弯下腰望着儿子。

“你怎么以为他能承受这些？”她愤怒地向切尼先生吼道，切尼先生哑口无言。“太可怕了——可怕！我们就不该来。这就是个错误，太缺德了！它——它就是个错误！为什么——他们为什么不把这些东西发表在报纸上，那才是登名单的地方。你还好吗，宝贝？”

此刻，哈维觉得非常难为情。“哦，我想，我已经好了，”他一边说，一边挣扎着想站起来，傻傻地笑道，“我肯定是早饭吃什么东西

了。”

“咖啡，也许是。”切尼先生硬朗的脸上线条分明，好像青铜刻出来的雕像一样，“我们不会再来了。”

“我想，现在最好去码头吧。”迪斯科说，“那儿到处都是外国人，新鲜空气能让切尼太太振作起来。”

哈维宣布他已经好多了。然而，直到他看见“我们在此”号，看到码头，码头工人的双手，他才好受了些。他的内心十分矛盾，既充满了骄傲，但又夹杂着几分伤感。其他人——夏季租客之类的人——要么在独桅艇上游玩，要么在码头上看海；但是，他从中明白了许多——比他刚开始想的要多。他只想坐在那里，大声哭一场，因为那艘纵帆船即将远去。切尼太太一个劲儿地哭，每走一步都在掉眼泪，并且对特鲁普太太说了一些非常特别的话。而特鲁普太太像哄小孩一样哄着她。从六岁起就再也没有享受过这样待遇的丹吹起了响亮的口哨。

那群老朋友——哈维觉得他们是古老的水手——坐上一艘古老的纵帆船，旁边都是破旧的平底船。哈维溜到码头前端，解开尾缆。船员们驾驶着纵帆船，驶出码头。每个人都有许多话想说，却又什么都没有说。哈维嘱咐丹要照看好索尔特叔叔的靴子、宾的锚，长腿杰克恳请哈维一定要记住教给他的航海技能，然而，由于在场的还有两位女士，这个笑话并不好笑。好朋友即将分别，远隔千山万水，无论如何也高兴不起来。

“升起三角帆和前桅！”迪斯科大喊。风吹向轮舵，迪斯科站在前面。“再见，哈维。不知道该说什么，我会经常想念你和你的家人。”

于是，纵帆船滑向远方，再也听不见彼此的声音了。他们坐在那

里，望着纵帆船驶离海港。切尼太太还在低声抽泣。

“别哭了，亲爱的，”特鲁普太太说，“我们都是女人。我想，你哭出来也不会让心里有多好受。上帝知道，我哭也没用，但他知道我还有其他要哭的事情。”

如今，事情已经过去几年了。在美国的另一边，一位年轻人漂洋过海，满身雾气地迎风走在街上，道路两旁到处是木制仿砖砌成的豪华房子。他在一扇大铁门前停下来，另一个年轻人骑在马背上——这匹马至少值1000美元——迎面而来。接下来是他们的对话：

“你好，丹！”

“你好，哈维！”

“有什么好事儿吗？”

“哦，这趟行程我干的是二副一样的鬼差事。你差不多也快完成那三重奏一样的大学生活了吧？”

“差不多。我跟你说，利兰·斯坦福大学三年级，那儿不像古老的‘我们在此’号。不过，明年夏天我就会接管生意。”

“你是说咱们的船？”

“当然。你等着瞧吧，我要拿你开刀，丹。等我接管了，我就让旧航线下岗，让你哭着喊着来求我。”

“我倒愿意试试。”丹说着，露出兄弟般的亲切笑容。哈维翻身下马，询问要不要进来坐一会儿。

“我坐电车来这儿就是为这个。不过，厨子在附近吗？总有一天，我会把那个疯厨子给扔进海里，都怪他那个该死的玩笑。”

这时，一阵低沉得意的笑声传了过来。“我们在此”号上的前厨子从大雾中走出来，牵住缰绳。他亲自照料哈维的一切，不允许任何人插手。

“和大浅滩的雾一样浓，对吧，大管家？”丹试图达成和解。

可是，这位黑得像煤球一样的凯尔特预言家认为直接回答并不合适。他用手拍了拍丹的肩膀，在他的耳边用沙哑的嗓音第20次重复了那句古老的预言。

“主人——仆人，仆人——主人，”他说，“丹•特鲁普，还记得我在‘我们在此’号上说过什么吗？”

“哦，我也不想否认，现在看来确实是这么回事。”丹说，“她是一艘高贵的船，总的来说，我欠她太多——这艘船和爸爸。”

“我也是。”哈维•切尼说。

格兰特船长的儿女

第一章 鲨鱼肚里的秘密

1864年7月26日，在北爱尔兰和苏格兰之间的北海峡海面，有艘豪华游轮正在狂风怒号中行进。游轮上挂着两面旗，船尾的桅杆上挂着一面英国国旗，大桅杆上挂着一面小蓝旗，小蓝旗上有“E·G”两个字母，“E·G”是“Edward·Glenarvan”的缩写，也是爱德华·格莱拉弗的名字。

小蓝旗上的名字下面，有个标记，标记代表着爱德华·格莱拉弗的公爵身份。在英国贵族中，爵士身份属于苏格兰十二元老之一。

爱德华·格莱拉弗爵士是皇家泰晤士游船的一名会员，皇家泰晤士游船协会在英国非常有名，影响力很大，这艘游船就是他的私人船只，以“邓肯号”命名。在这艘豪华游船上，不仅有格莱拉弗爵士，还有他年轻美貌的妻子海伦夫人，以及他的表兄麦克那布斯少校。

“邓肯号”游船是艘刚造好没多久的新船，如今正驶向格拉斯哥。这艘游轮远行前，曾在克莱德河试航，结果非常顺利。此时，在船行驶到已经能看到阿蓝岛的时候，瞭望台上一名正观望的水手突然报告说：“有条大鱼扑了过来，扑进船尾的浪槽里了。”

船长约翰·麦盖尔大惊，立刻派人告诉了格莱拉弗爵士。爵士很快带着少校走了过来，在通往船尾楼顶的路上，爵士问船长扑进浪槽里的是什么鱼。

“应该是条鲨鱼，一条很大的鲨鱼！”船长说。

“哦？这一带还有鲨鱼？”爵士觉得有些奇怪。

“有，这一带有种叫‘天秤鱼’的鲨鱼，因为头部像天秤而得名。这种鲨鱼可以在任何温度的海洋里生活。如果我没有看错，应该就是它了。如果您允许，想必夫人也喜欢看我们钓这种鲨鱼，到时候就能知道它长的是个什么样子了。”

船长说完，见自己的话吊起了大家的胃口，接着又说：“这是一种可怕的鲨鱼，繁殖能力很强，而且很凶残。对于这种鲨鱼，我们要为民除害，抓住一切机会除掉它。如果您愿意看捕鲨鱼，这绝对是个难得的机会。”

“好吧！我等着这激动人心的时刻！”

爵士说完便命人接来了兴冲冲的夫人海伦。登上了尾楼的海伦夫人兴致极高，想要观赏这百年不遇的惊心场面。

海面 and 蓝天如同水洗般晴朗，大家很清楚地看到了在海里悠闲畅游的鲨鱼，看着它一会儿沉入海底，一会儿又飞身跃起，行动非常敏捷矫健，令人赞不绝口。

捕捉鲨鱼的工作开始了，麦盖尔船长让几名水手将一条末端系着大钩，钩上穿着一块肥厚腊肉的粗绳子从右舷栏上扔了下去。那块诱人的香饵即使在离鲨鱼45米之外的地方，也依然被它闻到了，它快速地逼近游船。

这条大鲨鱼有着圆鼓鼓的眼睛，前行时瞪得更大了，眼神里全是对食物的渴望。它用那灰黑色的双鳍拍打着波浪，靠不停摆动的尾巴保持身体的平衡，并沿直线向前蹿去。在张开嘴巴时，大家很明显地看到了

它的四排白色的牙齿，也看到它的头像“秤”一样宽。

麦盖尔船长说得没错，它就是美国所说的“天秤鱼”，在法国的普罗旺斯，它也被称之为“犹太鱼”，这种鲨鱼是所有鲨鱼中最贪吃的一种。

“邓肯号”游轮上的每个人都盯着鲨鱼，看得有些出神。很快，他们发现它游到了香饵面前，为了便于吞食那块腊肉，它是打了个滚扑上去吞食的。瞬间，那块腊肉便进了它的嘴巴，当然同时，它也在缆索的猛烈摇动中上了钩。

见鲨鱼上钩，水手们急忙转动辘轳，大鲨鱼被吊了起来。

见自己被吊出水面，大鲨鱼开始拼命挣扎。但此时的挣扎已经没有任何用处了，因为自有经验丰富的水手们将它制服。他们只需用一根末端打着活结的绳子，套住它的尾巴就能让它听话。

果然，鲨鱼很快从舷栏上被拉到了船上，并重重地摔在了甲板上。接着，一名水手悄悄地靠近它，举起一把利斧，狠狠地朝它的尾巴砍去。

失去尾巴的大鲨鱼没什么可怕的了。不过，即使这样，水手们依然对它充满了好奇。

没错，他们像其他船上的水手一样，都想杀掉鲨鱼，看它肚子里有什么。当然，除了想知道它吃了什么外，还想知道它肚子里有没有什么稀奇之物。而这种好奇心，鲨鱼大多都会满足他们的，水手们绝不会毫无收获。

不过，在充满腥臭的鲨鱼腹内搜寻，海伦夫人没什么兴趣看，于是

便回到了自己的舱里。

此时，再仔细看那条奄奄一息的鲨鱼，发现它有3米多长，600多斤重。这样的庞然大物对水手们来说并不奇怪。不过，虽然这种“天秤鱼”不是鲨鱼中最大的，但却是最凶猛的。

很快，大鲨鱼的肚子就被水手们剖开了。不过很可惜，在它的肚子里，水手们没有发现任何食物，只发现了它刚刚吞食的那只鱼钩。看来，可怜的它很久没有吃东西了。就在大家带着失望，准备将它的残骸扔下海时，突然被一个看上去很粗糙的东西吸引住了，那东西隐藏在鲨鱼的腹部器官里。

“看，那是什么？”一个水手叫了起来。

“好像是块石头！这家伙吞石头是为了平衡身体！”另一个水手说。

“算了吧，怎么能是石头呢？明明就是连环弹嘛。连环弹被打进了这个家伙的肚子，没等它消化，又被我们捉住了。”又一个水手说。

“别乱说，这明明就是个酒瓶。你们就没发现它是个酒鬼吗？为了喝酒，把酒瓶都吞下去了。”大副汤姆·艾撒汀说。

“哦！难道这鲨鱼的肚子里真有只瓶子？”爵士惊奇地大叫。

“嘿，还真是个瓶子！”艾撒汀说完，仔细地看了看又说，“不过，有一点能确定，这瓶子不是从酒窖里拿出来的。”

“哦，这样的话，艾撒汀，把瓶子拿出来吧，通常从海里捡到的瓶子，里面都会有一些珍贵的文件。”爵士说。

“你真相信有这种事？”少校问。

“这种可能性不是没有！”

“不！我不认同你的可能性，我觉得很可能是这个瓶子里藏着不为人知的秘密！”少校严肃地说。

“我们很快就能知道结果了。艾撒汀，看看瓶子里有什么。”格莱拉弗爵士说。

“好的！”大副说完，费了不少劲才从鲨鱼腹部取出看不清样子的瓶子。

“太好了！让人把它洗干净，拿到尾楼来。”

格莱拉弗爵士说完，便和大家一起去了尾楼。

不一会儿，艾撒汀便将那个洗干净的瓶子拿到了尾楼的方厅里，放在由爵士、少校和船长围坐的桌子上。女人的好奇心丝毫不比男人少，海伦夫人也跟了过来。

其实，在海上，人们的好奇心会更大，很多小事都可能被放大。所以，就那么一只瓶子，大家全都围了过去，一声不响，一眼不眨地看着。

这个瓶子里到底有什么秘密？是有船只出事了？抑或只是一位航行者无聊，写了个便笺放在了瓶子里，并丢进海里？

为了看个究竟，爵士拿起瓶子研究起来。他认真和小心的样子，如同英国警方在侦破一件重要的案子。

当然，爵士这么做并没有错，因为表面看来没什么意义的事，很可能背后隐藏着重大的案情。

爵士在检查瓶子里面之前，首先检查了瓶子的外部。他发现这是一只细颈瓶，瓶口被一节生了锈的铁丝缠着。此瓶的瓶身很厚，很结实，即使用很大的压力都不会让它破裂。

爵士很快就看出它是法国香槟省独有的一种瓶子。在那里，很多卖酒的商人都会用这种瓶子去敲椅子的把手，通常情况下，椅子把手都被敲断了，但瓶子却一点破损都没有。

这只瓶子不知经过了多长时间的漂泊，也不知经过了多少次撞击，总之，它仍然非常完好地存在着，可见它是多么结实了。

“看来，它是克里弗酒厂的瓶子。”少校肯定地说。

对于香槟他是内行，所以没人质疑他的话。

“亲爱的少校，如果我们只是知道瓶子是哪家酒厂出来的，却不知道它是从什么地方来的，又有什么意义呢？”海伦夫人说。

“不用着急，我亲爱的海伦，我们现在可以知道它来自很遥远的地方。”爵士说完，指着瓶子说，“看到没有？这个瓶子的外面黏着很多凝固的矿石，由此说明，它是经过海水长时间的浸渍形成的。由此可以看出，瓶子在进入鲨鱼的肚子之前，它已经在大海里漂流了很长时间了。”

“我认同你的看法。瓶子外面聚集了这么厚的杂质，没有长时间的浸淫是做不到的。”少校对爵士说。

“那这瓶子到底是从什么地方来的呢？”海伦夫人好奇地问。

“不要着急！我亲爱的海伦，想要弄清这个瓶子的来历，需要一些耐心。我想，除非我的推测是错的，不然的话，我们的疑问，这瓶子就能给我们回答。”

格莱拉弗爵士说着话，便去刮瓶口那层坚硬的杂质，刮了一会儿后，瓶塞露了出来。不过瓶塞因为受到海水的侵蚀，已经有些破损了。

“很可能里面的东西也损坏了，多可怕！如果是重要的文件可就糟了。”爵士说。

“嗯，很可能是！”少校附和道。

“不过据我推测，由于瓶口塞得不紧，所以才会一直漂着，没有沉下去。最后又被鲨鱼吞进了肚里，然后带到了我们‘邓肯号’上。”爵士又说。

“没错！不过，如果我們是在大海里捞起来的，就可以推断出捞获地的经纬度。这样的话，我们就只需研究气流和海流方向，就能知道它漂了多少路程了。现在从鲨鱼嘴里发现它，是无法用这种方法推断的。”约翰·麦盖尔说。

“看看再说！”爵士说着，十分小心地拔开了瓶塞。顿时，一股咸腥味充满了整个尾楼。

“里面有什么？”海伦夫人紧张又焦急。

“看来我的猜测没错，像是几张纸条！”爵士说。

“啊？有纸条！有纸条啊！”海伦夫人激动地大叫起来。

“不过，也许因为潮气侵入的原因，纸条已经牢牢地粘在瓶子上了，想要拿出来并不容易。”爵士说。

“要不把瓶子打破？”少校说。

“不！我不想把瓶子打破！”爵士摇头道。

“那倒也是，我也希望不要打破！”少校转而言。

“当然最好不要把瓶子打破了。不过瓶子里的东西显然比瓶子更重要，所以只好牺牲掉瓶子了。”海伦夫人说。

“要不只把瓶颈敲掉好了！”船长突然说。

“好吧！那就这样吧！我亲爱的爱德华！”海伦夫人叫道。

其实，除了这个方法，也没什么其他办法了。所以格莱拉弗爵士虽然心有不合，但也不得不把他认为珍贵的瓶子的颈部敲掉了。不过，瓶子外面的一层杂质就像花岗岩一样坚硬，必须用铁锤去砸才行。

很快，瓶颈就被砸破了，碎片落在了桌子上。他们从打破的瓶颈处，看到里面有几块黏在一起的纸。爵士小心翼翼地将那些黏在一起的纸拿了出来，然后慢慢揭开，一点点地摊在桌子上。

此时，海伦夫人、少校和船长都挤了过来。

这些纸片，由于被海水侵蚀过，根本无法看清全部内容，只能看到一些模糊不清的文字。爵士在仔细地观察了几分钟后，拿起纸片，翻来覆去地看，不仅看正面，还看反面，甚至还对着太阳光照着看。

最后，总算把纸片上保留的那些印迹组成了完整的句子。他对旁边充满了期待，已经等得有些不耐烦的人说：“从没有侵蚀掉的文字初步来看，这里有用三种文字组成的三个不同内容的纸条。不过，也很可能是同一内容，只是用英文、法文、德文表达出来而已。”

“从几个能看清的字上，怎么也能知道纸条表达的意思吧！”海伦夫人说。

“哦，不，很难说，我亲爱的海伦，这些纸条上的字很不清楚。”爵士说。

“那可不可以把写有三种不同文字的纸条结合起来看呢？”少校问。

“应该可以，因为三张不同的文字，不一定每张上都是同一行被侵蚀，所以从这三张纸条中，也许能够凑出完整的意思。”船长说。

“嗯！我正准备这么做。不过，我们要一步步地来，先来看英文能看清的纸条吧！”爵士说。

62 Bir gow

sink stra

aland

skipp Gr

that monit oflong

and ssistance

lost

“这些好像看不出有什么完整的意思。”少校有些失望。

“即使看不明白完整的意思，但每个单词的意思还是能知道的。”船长说。

“对！这当然是确定的，比如‘sink’是沉没的意思；‘aland’是着陆的意思；‘that’则是‘此’的意思；‘and’是‘及’；‘lost’是必死的意思。这些单词都是很完整的。还有这个‘skipp’显然它应该是‘skipper’，船长的意思；而还有好像是说一位名叫Gr.....什么‘格’的人，应该是指一位船长的名字，大约是说船长驾驶的船只遇到了海难。”

“是的，还有这个‘monit’和‘ssistance’，两个字的意思也很清楚，一个是‘文件’，另一个是‘救援’。”麦盖尔船长说。

“这么说，好像能知道一些意思了。”海伦夫人说。

“可惜呀，还是有些重要的词没有了，比如发生海难的船叫什么名字，在什么地方发生的海难等等，没有这些，我们想帮他们也没办法呀。”少校说。

“我们总会想办法知道这些的。”爵士并不灰心。

“嗯！是的，我也相信。”少校非常容易被别人的思路带走，但随即又补充了一句，“可要怎么才能知道呢？”

“三张纸条互为补充就知道了。”爵士说。

“好吧！那我们继续看！”海伦夫人又急了，催促道。

他们开始研究第二张纸条。这第二张纸条损坏得更厉害了，他们只看到几个不相连的单词。

7juni Glas

Zwei atrosen

graus

bringt ihnen

“看来这是德文。”船长只看了一眼便说。

“你懂德文的吧，麦盖尔？”爵士问船长。

“是的，爵士，我懂。”

“那就给我们说说这几个单词的意思吧！”爵士说。

船长仔细看了看那几个单词，然后慢慢地说：“7juni是指日期，6月7日的意思。要是我们再把英文纸条上的‘62’联系起来，那就是指1862年6月7日。”

“很好！继续！”海伦激动地叫道。

“在这日期的同一行，有‘Glas’这个单词，如果把英文纸条上的‘gow’与它联系起来，应该是指‘Glasgow’，也就是格拉斯哥¹的意思。看来，是说失事的船属于格拉斯哥港。”

“嗯，我也觉得是这样。”少校和往常一样，附和道。

“这张纸条的第二行缺失，但第三行却有两个重要的单词，‘zwei’是‘两个’的意思；而‘atrosen’则很可能是‘matrosen’，这个单词是指‘水手’。”

“这么说，这句话的意思就是说那条船上有个船长和两名水手落难了？”海伦抢着问道。

“非常有可能！”爵士回答。

“不过，爵士，我要坦白地告诉您，下面那个‘graus’是什么意思我不清楚。不过也许在和下一张纸条联系起来时，我们就能知道它的意思了。对于最后两个单词，‘bringt’和‘ihnen’，是请求、乞求的意思。这样如果我们再把第一张写有英文字的纸条联系起来，就很明白，是说请求救援的意思。”船长说。

“是的！没错，请求救援！”爵士叹了口气，接着说，“可那几个不幸的落难者又是在什么地方出事的呢？到目前为止，我们还是看不出来。出事地点非常重要，可我们没有一点线索。”

“希望写着法文的纸条能给我们提供帮助。”海伦夫人说。

“那我们现在看法文吧，我们都懂法文，应该更容易理解。”爵士说。

在第三张纸条上，他们看到了用法文写的以下文字：

troi	ats	tannia
gonie	austral	

abor

contin pr cruel indi

jete ongit

et37°11' 37°11' lat

“啊！这里能看到数字！天啊！快看！大家快看啊！”海伦夫人高兴地叫着。

“我们最好按顺序来研究。我们先看第一行，从这一行残缺的几个单词中，我们能看出，头几个字是说‘三桅船’，现在将第一张纸条和这个单词联系起来，船名也就完整了，应该是叫‘大不列颠’；第二行后面的两个单词‘gonie’和‘austral’，其实就‘austral’有明确的意思，我们知道，是说‘南半球’。”爵士说。

“有了这个单词，就能看出大概方位了。应该是说船在南半球失事。”麦盖尔船长说。

“很明显是这样！”少校说。

“我们再继续看下去，‘abor’应该是指‘aborder’，也就是‘到达’的意思。那么是不是说，这几个不幸的落难人到了某个地方？而‘contin’是不是指‘continent’，也就是大陆的意思呢？可这个‘cruel！’……是不是指德文中的‘graus……grausam’？这个单词是‘残暴’的意思。”

爵士说完停了一下，继续说：“我们继续往下看吧！”

爵士对这些不很完整，但却能隐隐吐露出意思的纸条越来越有兴趣

了，兴致盎然地说：“‘indi’是不是‘inde’？也就是‘印度’的意思呢？是不是说遇难者被海浪卷到了印度？还有这个‘ongit’，应该是‘Longitude’，也就是经度的意思，但后面的数字看不清楚了，接着下面又出现了个数字，想必这个数字是指纬度。也就是说，他们的落难地在纬度37度11分的地方！这下好了，我们有了位置了。”

“可只有纬度数，没有经度数呀！”少校说。

“亲爱的少校，我们不能要求得那么完美了，现在有了准确的纬度，已经很不错了。从这三张纸条中我们能看出，这张法文纸条是最完整的一个，而这三张纸条中的单词意思，又能彼此联系，而且三张纸条的单词所占的行列也一样多，由此我们可以得出这样的结论，这是三张内容一样的文字。我们现在可以把这三张中的完整单词列出来，然后研究出最接近正确的意思。”爵士说。

“那我们最终用什么文字来翻译呢？是法文、英文还是德文？”少校问。

“我看我们还是用法文吧，法文我们几个人都懂。”爵士说。

“您说得很对！爵士！”船长说。

“那么，我们现在可以把这三张纸条中的文字拼凑出来，空白处还让它保留空白，有疑问的我们也可以标出来，然后一起研究、判断！”

爵士说着，拿起了一支笔，在上面写了起来，过了一会儿，他将这张纸拿给大家看，大家看到上面写着：

7juin 1862 trois-mats Britannia Glasgow

1862年6月7日 三桅船“大不列颠号”

格拉斯哥

sombre gonie austral

沉没 哥尼亚 南半球

à terre deux matelots

上陆 两名水手

capitaine Grabor

船长 格 到达

contin pr cruel indi

大陆 被俘于 野蛮的 印第

jeté ce document de longitude

抛 此 文件 经度

Et 37°11' de latitude portez-leur secours

37度11分 纬度 乞求 援救

perdu

必死

在他们认真看的时候，有水手过来报告说“邓肯号”已经进入克莱德湾，要船长发命令。

“现在怎么办，爵士？”麦盖尔船长问格莱拉弗爵士。

爵士想了想说：“这样吧！我们先到丹巴顿，送海伦夫人回麦凯莫府后，我去伦敦，将这件事汇报给海军部。”

船长就此下了命令。

“朋友们，现在我们继续研究。从这些凌乱的文字中，我们找到了大船失事的一些线索。这些失事的船只中有几名落难者，他们是否能够获救，就看我们的判断是否准确了。所以我们必须尽全力来做这件事，解开这个谜底。”爵士说。

“是的！亲爱的，我们一定要这么做。”海伦夫人说。

“我觉得我们现在有必要先把这些纸条上的内容分几部分来处理，首先就是我们已知的部分，接着是我们能猜出的部分，最后当然是无法知道的部分了。那么，我们现在知道了什么呢？我们知道在1862年6月7日，有艘来自格拉斯哥港的三桅船——‘大不列颠号’失事了，最后两名水手和一名船长落难在纬度37度11分的地方，现在请求救援。”爵士说。

“对，是这样的！”少校说。

“那么我们能猜到的是什么呢？我觉得应该是船只的失事地点在南半球海面。当然，我们有必要对‘gonie’这个单词多加注意。因为我们无法判断这个单词是指一个地名，还是只是一个地名的一部分。”

“这个单词会不会是‘patagonie’？也就是巴塔哥尼亚的意思？”海伦夫人问。

“可能是吧！不过，巴塔哥尼亚在不在南纬37度线上呢？”少校问。

“这个不难知道！”船长一边说，一边打开了地图。

“确实是这样！巴塔哥尼亚穿过了南纬37度线。也就是说，南纬37度线先是横截了阿罗加尼亚，然后又沿着巴塔哥尼亚北部穿过了草原，最后进入大西洋。”

船长一说完，爵士接着说：“我们现在继续推测下去，‘abor’很可能是‘aborder’，也就是到达的意思。那么，两名水手和这位船长是到达了什么地方呢？‘contin’，有可能是‘continent’，也就是大陆的意思。我们要注意，是‘大陆’，不是海岛。那么，他们到了大陆后又怎么样了呢？有个只有两个字母的‘pr’说出了他们的命运。这个单词很可能是‘pris’，也就是被俘了，或者是‘prisonniers’，做了俘虏。那么他们做了谁的俘虏呢？也就是说被什么人掳去了呢？很可能是被野蛮的‘cruels indiens’，也就是被印第安人掳去了。我这么推测你们同意吗？这么一说，是不是那些空白的地方，也就有字了呢？你们难道不觉得这几张纸条的意思已经说得很明显了吗？现在还有什么不明白的？”

爵士的眼神里充满了自信，言语也是异常的肯定。他的热情和自信感染着大家，大家一起回答说：“非常明白，再明白不过了！”

好一会儿，爵士又说：“朋友们，我觉得前面的种种推测，都是非常值得信任的，所以我觉得船应该是在巴塔哥尼亚海岸附近失事的。我随后会叫人在格拉斯哥港打听，问问‘大不列颠号’当时是要去什么地方，这样我们就能知道他们失事的地方，会不会是被迫驶去的了。”

“嗯！其实我们完全不需要去那么远打听，我们这里有商船报纸，上面会给出我们需要的信息。”船长说。

“马上查！快一点查！”海伦夫人着急地说。

船长拿出了一大捆报纸，这些报纸都是1862年的，然后仔细翻了起来。

没用多长时间，他就高兴地说：“找到了，1862年5月30日，卡亚俄2！满载，驶向格拉斯哥港，船名‘大不列颠号’，船长是格兰特。”

“啊！格兰特！是格兰特！”爵士大声地叫了起来。

“原来是他呀，那位有着雄心壮志的英格兰人！他还曾想在太平洋上建一个新苏格兰呢！”

爵士显得很兴奋。

“是啊！没错！就是他，人们在他1862年乘‘大不列颠号’从格拉斯哥港出发后，便再也找不到他的消息了！”船长又说。

“不用再怀疑了！没什么值得怀疑的！就是他，‘大不列颠号’5月30日离开卡亚俄，在8天后的6月7日，他们就在巴塔哥尼亚海面出事了。由此可以看出，整个事件都体现在这三张残缺不全的纸条里。现在你们知道了吧，朋友们！我们的推测没错！离事实已经很接近了。当然，现在我们还有一点不知道，那就是他们落难的经度数。”爵士越说越兴奋，说到后面则显得有些沮丧。

“也没事！现在我们连那地方叫什么名字都知道了，又知道纬度，所以经度并不是非知道不可。我们是可以找到他们落难的地方的。”船长安慰爵士说。

“这么说，我们是什么都知道了？”海伦夫人说。

“是的，都明白了，亲爱的海伦。三张纸条上的空白处，已经都被我们毫不费力地填上了，就如同格兰特船长亲口给我们叙述，我们替他做记录一样清楚。”

爵士说完，拿起笔，开始在一张纸上做记录：

1862年6月7日，格拉斯哥港有只名为“大不列颠号”的三桅船，在靠近巴塔哥尼亚一带海岸的南半球海面上失事，两名水手和格兰特船长登上了大陆，被野蛮的印第安人俘虏。地方位于经.....纬37度11分处，请求救援，否则必死无疑！

“太好了！亲爱的！要是那些落难者能够重新获救，回到祖国，你功不可没啊！”海伦夫人替丈夫叫好。

“我相信，他们一定能重回祖国怀抱的。这三张纸条已经说得很明显，很清楚了。英国海军部一定不会不救他们的孩子。绝对不会！以前，他们曾救过航海家富兰克林以及其他一些失事的船员，所以这次他们一定不会不救‘大不列颠号’的遇难者的！”

“是的，这些遇难者一定也有家庭，他们的亲人一定因为他们的失踪而伤心痛苦。包括格兰特船长的妻子和儿女.....”海伦夫人说着说着，伤心起来。

“没错！你说得很对，我亲爱的夫人！我会尽快通知海军部的，他们一定不会让我们失望。朋友们，现在，我们就到楼顶去吧，快进港了！”

确实是这样，使足了马力的“邓肯号”，正沿着比尤特岛的海岸在航行，美丽的山城被他们远远地抛在了船后。很快，“邓肯号”驶进了狭窄

的海湾航道，在格里诺克镇前转了个弯。

晚上6点钟的时候，“邓肯号”停在了丹巴顿那座雪花岩的脚下，而那雪花岩的岩顶上，正矗立着苏格兰英雄华莱斯。华莱斯是13世纪苏格兰解放战争中的人民领袖，不过后来被英国人杀害了。

岸上，有辆马车正等候着海伦夫人和麦克那布斯少校，准备将他们送回麦凯莫府。爵士在和他年轻美貌的夫人拥抱告别后，跳上了去往格拉斯哥的快车。

动身前，他用电报给《泰晤士报》和《晨报》发了一篇启事，启事的内容是这样的：

想要知道格拉斯哥港三桅船“大不列颠号”，以及船长格兰特船长的消息者，请咨询格莱拉弗爵士。

地址：苏格兰，丹巴顿，莱斯村的麦凯莫府。

[1](#)英国第三大城市，苏格兰最大的工商业城市和港口。

[2](#)秘鲁第二大城市。位于卡亚俄湾内，里马克河口南岸。

第二章 格莱拉弗夫人

麦凯莫府位于苏格兰南部的莱斯村附近。莱斯村实际是个美丽的小山谷，麦凯莫府那古朴典雅的宅子因为有着高高的地基，所以能轻松地俯瞰美丽的莱斯村。由于整个宅子都被约孟湖环绕，所以它像一座水上建筑矗立在那里。

麦凯莫府的历史已经有很多年了，它一直属于格莱拉弗家。

格莱拉弗住的莱斯村是英雄罗布·罗伊和弗克斯·麦考克里考的故乡，两位英雄留下的美好遗风也感染着这里的人，让他们都拥有热情好客，为人仗义的性格。

不过，在苏格兰大面积爆发社会革命的时候，很多佃户都被赶出了莱斯村，原因就是无力缴付昂贵的地租。另有一些没有被赶走的，最终也被活活饿死，还有一些则只能去做了渔夫。总之，当时整个社会都处在动荡和绝望之中。

格莱拉弗是本地的贵族，而在所有的贵族中，他们这一家族又是最维护平民权利的，对于家中的佃户，他们总是平等对待，所以他家的佃户没有一个离开，忠诚地做着格莱拉弗家族的臣民。这也就让格莱拉弗的麦凯莫府，始终都有苏格兰人在里面，就和“邓肯号”上只有苏格兰人一样，这在乱世中的苏格兰来说，绝对少见。

不管是麦凯莫府，还是“邓肯号”上的苏格兰人，他们都是老领主麦考克里考、麦克法伦、麦克那布斯、麦克诺顿庄户的子孙。总而言之，

他们都是土生土长的斯特林和丹巴顿两郡的人，他们每个人都勤劳诚实，忠诚地对待他们的主人。

这些人中，有些人至今还在说着古英格兰话。

格莱拉弗爵士家境富裕，却一向仗义疏财。当然，相比于他的慷慨，他的善良和仁慈更显珍贵，因为一个人的慷慨是有限的，但善良和仁慈却是无限的。这位英国贵族元老，莱斯村的绅士，麦凯莫府的主人，最终因为忠于英逊王詹姆士二世，不愿意无原则地逢迎当时的王朝而被英国政客歧视。

同时，因为他始终继承着先辈的优秀传统，坚决抵制对英格兰的侵略，这也成了他被政客们歧视的主要原因。

爵士同样继承着先辈的优良传统，而且胸襟开阔，充满智慧，他打开大门，迎接一切进步的事物。当然，这也都以不违背“苏格兰”的利益为底线。为了给苏格兰争光，他参加了皇家泰晤士河游船会的竞赛，并获得了很好的成绩。

32岁的格莱拉弗爵士身材高大，风度翩翩，虽然容貌英俊严肃，但眼神中闪现的却是温和与善良。气质超群的他，象征着苏格兰高地这片土地的风骨。

大家都知道格莱拉弗爵士为人豪爽，遇事敢作敢为，特别有古代骑士风度。而他确实也如中古时期苏格兰君主弗克斯一样，是19世纪的骑士领袖代表。同时，他比中世纪基督教圣人圣·马丁还要仁爱。在高地，如果遇到贫民，他会无私地将能给的全部给予他们，甚至为了给贫民御寒，他连身上的大衣都能脱下来赠予。

这年，格莱拉弗爵士娶了海伦小姐，此时也正是他们新婚三个月的时间，两个人非常恩爱。海伦小姐是苏格兰有名的旅行家威廉·达甫内尔的女儿，达甫内尔由于研究地理，并热衷于旅游探察而早早地离开了她。

虽然海伦不算名门望族，但却是纯粹的英格兰人。这在爵士看来，比任何拥有贵族身份的小姐都令他满意。更令他倾心的是，海伦热情奔放、美丽勇敢。

就这样，莱斯村有名的绅士娶了美丽勇敢的海伦做自己的终身伴侣。

实际上格莱拉弗爵士第一次遇到海伦的时候，海伦就已经是个无父无母的孤儿了，她没有什么财产，独自生活在父亲留给她的一所房子里。爵士刚开始的时候觉得这个少女很可怜，经过接触后发现她更善良，便决定娶她，因为他相信，她一定能做一个贤惠的妻子。

做了爵士夫人的海伦只有22岁，这是个金发碧眼的美丽女子，她的眼睛如同苏格兰春天的湖水一样清澈。善良美丽的她，对丈夫充满了敬重、感激和爱恋。在对丈夫全心全意付出的同时，她觉得自己就是个富豪，而丈夫则是个让人怜爱的孤儿。

当然，不仅对丈夫，就是对佃户和仆人，她也爱护有加。因此，她又被仆人和佃户称之为“仁慈的莱斯夫人”，为了她，一些人甚至甘愿付出生命。

麦凯莫府里，便有了格莱拉弗爵士和海伦夫人这对神仙眷侣。

在麦凯莫府外的林荫小道上，到处都是枫树和栗树，而湖岸上，时

常也有人在唱着古老的战歌。在这看似荒凉的山谷，处处都有古代的建筑遗迹，这些遗迹又很自然地能让人联想起苏格兰那光荣的历史。

爵士夫妇时常会漫步在这些地方。

白天，他们有时会去有着落叶松和白桦林的森林，有时又会去一望无际的灌木丛，有时还会去攀爬约孟山、骑着马在山谷间奔驰……他们感受着大自然带来的美景，欣赏着一幅幅自然天成的画卷，这些美景如同沃尔特·司各特歌颂的美景一样令人神往。

傍晚的时候，爵士夫妇会沿着如同回廊般的林荫小道散步，这条林荫小道很像麦凯莫府脖子上的一道项圈，非常美丽。走着走着，他们会坐在一些孤石上，看着淡淡月光下的美景。天地一片寂静，世上好像没有了其他的人，只有他们。

如此美景之下，两颗相爱的心也越走越近，心胸开阔明朗起来，他们静静地感受着大自然所赋予的美妙景观，用心探求大自然的奥秘。

结婚后的前三个月，爵士夫妇就是这么度过的。

不过，爵士始终没有忘记妻子是大旅行家的女儿。他想，妻子的内心一定渴望像父亲一样去旅行，去探秘。于是，他造了“邓肯号”。

果然，在“邓肯号”造好后，他带着妻子一起踏上“邓肯号”，向世界上最美的地中海、希腊半岛行驶，海伦夫人的高兴和激动可想而知。

“邓肯号”象征着丈夫对她浓浓的爱意，这条船是在驶向他们美丽爱情的深处。他们要像度蜜月一样，在仙境般的东方海岸上度过这美好的时光。世间还有比这更美好的事吗？

不过，因为那三张纸条，他们的旅行计划发生了改变，格莱拉弗爵士去了伦敦。他要为拯救那几个遇难的船员奔波。

因为是救人，所以善良的海伦夫人没有为这次短暂的分离而郁闷，只是关心着自己的丈夫，同时也牵挂着那些遇难的人，不知道爵士这次向英国海军部求助是否顺利。

在他们分别后的第二天，海伦夫人接到了爵士发来的电报，她估计丈夫很快就要回来了。然而就在当天晚上，她又收到了丈夫的第二封电报，电报上说求助遇到了困难，要推迟回来的时间。第三天，海伦夫人接到了第三封电报，电报里全是对英国海军部的不满。

海伦夫人的心里有了隐隐的不安。晚上，在她一个人闷闷不乐地待在房间时，突然看见管家荷波艾走了进来，说有一个男孩和一个女孩要见爵士，问她愿不愿意接待。

“哦？是我们高地的吗？”海伦夫人问。

“不是，夫人。我不认识他们。他们说是乘火车到了帕乐兹后，又走到莱斯村来的。”管家回答道。

“那就请他们过来吧，荷波艾！”海伦夫人说。

管家答应着离开了，一会儿工夫，他带着两个孩子来到了海伦夫人的房间。两个孩子长得很像，应该是姐弟俩，姐弟俩的穿着虽然朴素，但却很整洁。姐姐看样子有16岁，美丽的面孔上带着疲惫，双眼像是因为哭过而有些肿。不过，她的神情很坚定，是个让人一见就能产生好感的女孩。

她的手里拉着一个12岁的男孩，男孩的脸上带着倔强和坚强，像个

小小男子汉一样站在姐姐身边。他像是姐姐的保镖，一旦谁要冒犯姐姐，他便要替她出头。

姐姐看到海伦夫人后，先是有些愣住了。海伦夫人便率先开口，温和地问他们：“你们是要找我吗？”

“不！我们不找你，我们要找格莱拉弗爵士！”男孩开口说。

“对不起，请您原谅他的无礼，夫人！”姐姐看了看弟弟，急忙向海伦夫人道歉。

“哦！格莱拉弗爵士不在家，我是他的太太，如果你们有什么事需要我替……”

“您就是格莱拉弗夫人吗？”女孩急忙问。

“是的，小姐。”海伦夫人微笑着说。

“您就是《泰晤士报》上登启事，说‘大不列颠号’沉没的麦凯莫府的格莱拉弗爵士的夫人吗？”女孩问道，语气中有些紧张，也有些激动。

“是的！是这样的，你们是谁？”海伦夫人急忙问。

“夫人，我是格兰特小姐！”女孩说完，看了看男孩，“他是我的弟弟。”

“啊！原来是格兰特小姐呀！哦！格兰特小姐，是你吗？”海伦夫人一边叫，一边把女孩拉到了身边，并抓住她的手，吻了吻她的小脸。

“夫人，我父亲沉船的事，你们还知道什么？能告诉我们吗？他不是还活着？我们能见到他吗？我请求您！请您告诉我们吧！”女孩开

始哽咽。

“哦！我亲爱的孩子！我真不想让你们空欢喜，我们……”海伦夫人不知道该怎么说。

“夫人！有什么就尽管说吧！我们承受得起，我们很坚强，我们不怕听到坏消息，我们能接受任何痛苦。”

“我亲爱的孩子，我只能告诉你们，希望很渺茫，但也不能说你们和父亲就没有了见面的机会。”

“哦！天啊！太好了！”格兰特小姐流着泪叫了起来。男孩也走上前，抱住了格莱拉弗夫人，抓起她的双手不停地吻着。

三个人在激动过后平静了下来，女孩又向海伦夫人提出了一些问题。海伦夫人便将他们在“邓肯号”上捕到鲨鱼，发现了鲨鱼肚子裡的瓶子，以及瓶子里有三张纸条的事说了。最后又说，根据那几张纸条，他们推断“大不列颠号”很可能是在巴塔哥尼亚附近沉没的。而船上的船长格兰特和两名水手很可能逃生成功，到了一个大陆，最后又用了三种文字进行求救，并将求救纸条放进瓶子丢进了大海。

在海伦夫人向他们讲述整个经过的时候，男孩小罗伯尔一直瞪大眼睛，认真地听着。他的心情随着海伦夫人嘴里吐出的字发生着变化。他的脑海里开始浮现父亲的形象，随着海伦夫人的讲述，他好像看到了父亲站在“大不列颠号”的甲板上，看着船在慢慢下沉，看着父亲在大海里挣扎。他甚至感觉自己和父亲一起抓住了一块岩石，然后上了岸，在海滩上奔跑……

随着海伦夫人的讲述，他好几次都叫了出来：“爸爸！可怜的爸

爸！”

在叫的时候，他不自觉地靠近了自己的姐姐，紧紧地依偎在姐姐身边。而格兰特小姐则双手合十，默默地听着。直到海伦讲完了，她才说：“夫人，您能告诉我们，那纸条还在吗？”

“亲爱的孩子，那纸条不在我这里。”海伦夫人说。

“啊？不在吗？”女孩有些失望。

“是的，不在！爵士为了救你们的父亲，拿着纸条去伦敦了。不过纸条上的每一条信息，我都告诉你们了。对于我们是怎么找到那几张纸条的，我也告诉你们了。在那些已经被海水侵蚀的残存字迹里，我们只看到了纬度，可惜经度……”

海伦夫人还没说完，小男孩便说：“可以不用经度啊！”

“是的，小罗伯尔！所以格兰特小姐，我连那纸条上最细微的地方都告诉你了，你现在知道的和我一样多了。”海伦夫人看着两个可爱的孩子，微笑着说。

“是的夫人，只是我想看看我父亲的笔迹。”女孩说。

“那就等明天吧，明天也许爵士就带着它们又回来了。他之所以带着那纸条去伦敦，就是为了给海军部的人看，以便让他们派船去寻找你们的父亲。”夫人说。

“夫人！这是真的吗？那真是太好了！你们真的会为父亲去和海军部谈吗？”少女激动得叫了起来。

“当然是真的，孩子。不过不用感激。不管是谁处在我们的位置，都会像我们一样去做的。希望你们的愿望能实现！你们现在可以暂时住在我们家，等爵士回来……”

“夫人！对我们这样的陌生人，夫人能这么热心，我们很感激，但却不想打扰您！”女孩说。

“陌生人？亲爱的孩子，你们已经不是陌生了。既然你们来了，那么爵士一定会告诉格兰特船长的儿女们他们所谈的情况，以及会采取怎样的措施去救你们的父亲的。”

在这样真诚的邀请下，格兰特船长的一对儿女也就同意留在麦凯莫府，等爵士回来了。

海伦夫人在和两个孩子聊的时候，并没有提爵士电报上所说的海军部的态度，也没有提格兰特船长很可能被南美洲的印第安人俘虏了。她不愿意说这些，是因为怕这两个可怜的孩子替他们的父亲担心，更不想让两个孩子失望。而且说了又有什么用处？于事无补呀！

抱着这样的想法，海伦夫人没有说不好的事。

在回答完关于格兰特船长的一些问题后，海伦夫人就开始询问起两个孩子的生活了。而当她知道了他们的情况后，她就知道，格兰特小姐就是小罗伯尔在这世上唯一的保护人了。

两个孩子的经历虽然简单，却很打动人，所以海伦夫人听了后，也更加同情他们了。

格兰特船长有两个孩子，那就是玛丽·格兰特小姐和罗伯尔·格兰特。格兰特船长的名字叫哈利，格兰特是他的姓。

哈利·格兰特的妻子在罗伯尔出生时就死了。而每当他远航时，就会将两个孩子托付给一位堂姐帮忙照顾，堂姐的年龄已经很大了，但对两个孩子却很好。精明能干的格兰特船长既擅长航海，又擅长经商，属于商船上难得的人才。

格兰特船长和儿女们原本住在苏格兰珀思郡的顿德城。格兰特一家是地地道道的本地人，格兰特船长的父亲曾是圣·卡德琳的牧师，所以格兰特船长从小就接受了良好的教育。

格兰特船长的父亲认为，一个人不管做什么事，知识都是必不可少的，即使他以后的理想是当水手，也需要很好地掌握知识。

哈利·格兰特刚刚上船时，只是一名普通的船员，可几次远航后，他就因为出色的表现，升为大副了，最后又做了船长，在罗伯尔出生后的几年时间里，他累积了一些财产。

而最终让他名声大震的，则是一个伟大的计划。

格兰特和格莱拉弗家族，以及苏格兰中部低地的很多世家大族一样，对欺凌侵占英格兰很不满。因此，为了依靠自己的力量促进苏格兰的发展，他决心在澳大利亚一带找一块陆地，让苏格兰人大移民。那么他这么做的目的是什么呢？是不是想以此来摆脱大英帝国的控制而独立呢？很有可能是这种目的。

也许正因为他的这种想法被泄露了出去，所以政府对他的移民计划大加干涉，这种干涉如果放在其他国家，很可能会送了命。不过，格兰特船长没有灰心，他号召同胞发扬爱国主义精神，甚至还把自己的全部家产拿出来实现这个计划。

为此，他造了一艘船，组建了一个拥有精明强干水手的船队，并将儿女托付给那位年老的堂姐，自己带着一群水手，乘船去太平洋各大岛探险。

那是在1861年的时候。在那年，以及在第二年的5月，人们还是能听到他的一些消息的，不过在6月份的时候，也就是在他离开卡亚俄之后，人们便没有听到过他，以及他的“大不列颠号”的情况了。而那些专门针对商船的媒体——《商船日报》也没有再报道过格兰特船长，格兰特船长和他那艘船的命运也就无人可知了。

也就是在那时候，格兰特船长的堂姐去世了，两个孩子成了孤儿。那时候，玛丽·格兰特仅仅14岁。不过，懂事而勇敢的她并没有被悲伤击倒，她把全部精力都用在照顾弟弟身上。弟弟年龄还小，她不仅要抚养他，还要教育他。而之所以能做到这两点，都是因为她节俭能干。她日夜不停地劳作，抚养着自己和弟弟。

这位十多岁的女孩，小小年纪就承担起了妈妈和爸爸的责任。虽然姐弟俩的生活很清贫，但他们却坚强地活着。玛丽之所以能支撑这一切，就是因为可怜的她以为父亲和“大不列颠号”已经出事了，父亲已经死了，所以她必须承担起照顾这个家庭的责任。

然而，当她偶然翻阅《泰晤士报》，看到那条启事时，本已绝望的她瞬间又感觉到了希望，那种激动和兴奋无人能体会。

她马上去探听消息，她觉得，即使有人告诉她，她父亲的尸体出现在了荒僻的海边，甚至在一只破船上被发现了，也比活不见人，死不见尸要好。那种既绝望，又怀抱希望的折磨简直太让人痛苦了。

所以，她把这个消息告诉了弟弟。两个人当即乘上了赶往帕乐兹的

车，又经过一段步行后，他们在晚上到了麦凯莫府。而到了这里，在听了海伦夫人的讲述后，她心里的希望就更大了。

这就是海伦夫人从格兰特小姐嘴里知道的情况。格兰特小姐讲述这些的时候，并没有表现出痛苦，而是很平静地讲完的。一直以来，在这段苦难的岁月里，她像个英雄一样活着。

海伦夫人一想到这些，就心痛地流下了眼泪，她将姐弟俩紧紧地搂在自己的怀里。

小罗伯尔在听姐姐讲的时候，脸上露出的更多是惊讶，因为很多事情他都不知道，所以只是瞪大眼睛，看着姐姐，听姐姐说。在他知道了这段经历，也知道了姐姐为他所付出的一切后，他抱着姐姐喊道：“亲爱的姐姐，你就是我的妈妈！”

这是一个孩子从内心发出的声音。

几个人聊着聊着就到了深夜。海伦夫人怕两个孩子太劳累，不愿意把话题扯得太远，便带他们去已经准备好的卧室。两个孩子很快就进入了梦乡，他们在梦里期待着好消息，梦想着他们的美好未来。

在两个孩子睡着后，海伦夫人却怎么都睡不着了。她将少校请了过来，并把和两个孩子的谈话告诉了他。

“真是个不简单的小女孩，玛丽·格兰特！”少校听完，赞叹道。

“希望老天保佑，让爵士和海军部交涉成功，不然的话，两个孩子就更可怜了。”海伦夫人说。

“我想他一定会成功的，除非海军部的那些老爷大人们有着比岩石

还硬的心肠。”少校说。

不过，虽然少校说得很肯定，但海伦夫人还是忧心忡忡，一夜都没睡好。

第二天一大早，玛丽·格兰特和她的弟弟就起床了，他们在院子里着急地转来转去。突然，他们听到了一阵马车声：格莱拉弗爵士回来了。

而就在这时，海伦夫人和少校也来到了院子，他们一起奔向爵士。

爵士一脸忧郁和愤慨，神情沮丧，在拥抱他的夫人的时候，他一句话都没有说。

“发生什么事了，爱德华？”海伦夫人着急地问。

“唉！亲爱的海伦，那些人真是……太没同情心了！”

“难道他们拒绝了？”海伦还是有些不相信。

“是的，他们拒绝派船去寻找，甚至说当年为了寻找富兰克林，浪费了几百万！他们还说，纸条上的字迹太模糊，看不懂。还说那些人已经失踪两年了，很难找到他们，又说既然落在了印第安人的手里，那么肯定是到了内陆。他们不会为了这三个人——三个苏格兰人去搜查巴塔哥尼亚的。这样做没有丝毫好处，而且很可能会遇到危险。甚至说不定牺牲的比得救的人还要多。总之，他们不愿意去寻找，他们找了种种理由来推托。他们直到现在，还记得格兰特船长那个移民计划。唉！看来，可怜的船长没救了！”

“父亲！我可怜的父亲！救救他吧！”玛丽·格兰特大叫一声，跑了

过去，跪在了爵士的面前。

“什么？你的父亲？这到底是怎么一回事，小姐？……”爵士看着面前跪着的女孩，大吃一惊，忙问。

“爱德华，是这样的，这位是格兰特船长的女儿玛丽小姐。”海伦夫人说完，又指着小男孩说，“他是格兰特船长的儿子。海军部这么做，两个孩子就真成了孤儿了。”

“哦，原来是这样呀！小姐，如果我早知道你们在这里……”爵士扶起了格兰特小姐，没有说下去。

院子里发出了呜呜咽咽的哭泣声，打破了莱斯村原有的寂静。爵士、海伦夫人，以及少校和悄悄围在他们周围的仆人，都难过得说不出话来。不过，从这些沉默着的人脸上，能看出他们对英国政府这个决定的愤怒。

好一会儿，少校开口了，他问爵士：“是不是一点希望都没有了？”

“是的，没有希望了！”

“那么，既然这样，我去找他们，找那些人……”小男孩罗伯尔高声叫道。

他愤怒地握着他的小拳头，想往外面冲，但被姐姐拦住了。

“不可以这样！罗伯尔，你不能这样！这些好心肠的人为了我们，做了很多，我们首先要谢谢他们，要将感谢埋在心里，然后离开！”格兰特小姐说。

“玛丽！”海伦夫人叫道。

“小姐，你们接下来要去做什么？”爵士问。

“我们要跪在女王面前请求，我们要看女王是不是完全不顾为了救父亲的两个孩子的请求，是否面对两个想要救父亲的孩子还无动于衷。”

格莱拉弗爵士轻轻地摇了摇头。他不怀疑女王陛下的仁慈，但他知道，玛丽·格兰特是绝对见不到女王的。求见的人不可能走到王座面前，因为英国王宫的大门上，像轮船上的舵盘一样，写着一行字：

“请不要与掌舵人说话。”

海伦夫人看到丈夫的表情，知道格兰特船长的两个儿女去求女王这种做法根本行不通。但眼看着两个孩子在绝望中生活，她又于心不忍，看着玛丽牵着弟弟的手要走，她突然说：

“玛丽·格兰特，先不要急，等一等，我的孩子们，你们听我说。”

格兰特船长的两个孩子停了下来。

海伦夫人双眼噙泪，走到爵士身边，因为过于激动，她的声音有些颤抖。

“爱德华，在格兰特船长将这封信丢在海里的时候，就是把生的希望托付给了上帝，而上帝又把信转交给了我们，所以.....上帝是要我们去救那些不幸的人啊！”

“什么意思，海伦？”爵士问。

其他人都静静地听着，四周鸦雀无声。

“是这样的，我想，一个人如果在结婚后，做一件好事的话，一定会感到非常幸福的。而我亲爱的爱德华，你为了让我快乐、幸福，制订了旅游计划。那么，如果我们能拯救那些不幸的落难者，那该是件多么快乐、幸福的事呀，而且也更有价值！”

“亲爱的海伦！”爵士激动起来。

“你明白我的意思了，亲爱的爱德华？我们的‘邓肯号’非常轻快，也很结实，它是经得起南半球海洋上的风浪的！我想，我们不妨将其当成是环球旅行，好吗？爱德华！我们出发吧，去找格兰特船长！”

没等海伦夫人说完，爵士已经向夫人伸出了双臂，他微笑着，紧紧地拥抱着她。此时，玛丽和小罗伯尔也赶了过去，亲吻着她的双手。这动人的一幕，让所有在场的人都感动了，他们兴奋地大声喊：

“哇！太好了！我们美丽的莱斯夫人！我们坚决拥护格莱拉弗爵士和格莱拉弗夫人！”

第三章 船上的不速之客

前面说过，海伦夫人是个豪爽善良而极富同情心的人，让“邓肯号”去救格兰特船长的提议就很好地证明了这一点。而有着同样品格的格莱拉弗爵士，因为有了这样一位懂自己，善良贤惠的妻子而感到自豪。其实，当他在伦敦海军部受挫后，曾想过亲自出马去救那些落难者，但却并没有在海伦夫人面前说起，因为他舍不得离开新婚的妻子。

如今，海伦夫人有了这样的想法，他就没有顾虑了。当看到家中的仆人都在支持这个决定，拥护他们的做法后，爵士由衷地为“莱斯夫人”喝彩。他们要救的是苏格兰人，而这些仆人也是苏格兰人，他们的主人要救他们的同胞，怎能不令仆人们激动和高兴呢？

有了远航的决定后，他们一分钟都不想耽误了。当天，爵士吩咐麦盖尔船长，让他将“邓肯号”开到格拉斯哥港来，为即将到来的环绕地球一周做准备。需要补充的一点是，海伦夫人在提出这个建议的时候，并没有盲目地高估“邓肯号”的质量，因为“邓肯号”确实具有坚固耐用，轻便灵巧的优点，完全具备远航条件。

“邓肯号”是一艘装着蒸汽机的游船，不仅样式美观，而且载重达210吨。大家不会忘记，哥伦布和麦哲伦去新大陆探险时驾驶的船只，在吨位上都比“邓肯号”小。

我们再来看看“邓肯号”：“邓肯号”上的帆有很多，光前桅就带有主帆、梯形帆、小前帆、小顶帆等等；大桅带有纵帆、樯头帆、三角帆、大触帆，以及很多辅助帆。由于各类帆很多，所以它完全具备快帆船利

用各级风力的特点。同时，“邓肯号”还能依靠内部机器的力量让船行驶，而这个内部机器，也是有着高压性能的，具有160匹马力的最新产品。

“邓肯号”上还有蒸汽机，蒸汽机可以加大气压，推动双螺旋桨。因而，当“邓肯号”加大马力的时候，就可以达到高出所有轮船的速度。

完全没错，是这样的。当他们在克莱德河试航时，通过测程仪得知，“邓肯号”的速度达到了每小时32公里。这样的速度对远航来说完全没有问题，麦盖尔船长只需将舱房进行改装，就可以进行环球旅行了。

改装舱房时，为了多装一些煤，避免沿途补充燃料，麦盖尔船长还扩大了装煤的船舱。接着，他又扩大了装粮的船舱，让舱里装上了够吃两年的粮食。当然，钱这方面也不需要担心。最后，他们甚至还在船头的甲板上架了一门有转轴的大炮。

在远航过程中，什么事都有可能发生，所以在船上装一架重8磅，射程达7公里的大炮完全有必要。

需要说明的是，麦盖尔是位出色的船长，业务的熟练让他能够游刃有余地指挥游船，同时，他也是格拉斯哥港数得上来的优秀船长。30岁的他虽然时常沉着脸，但本性非常善良。拥有勇敢品质的他是在格莱拉弗家长大的，格莱拉弗家不仅把他抚养成人，而且还把他培养成了一名优秀的海员。在以前的远航中，麦盖尔就曾表现出惊人的沉着和智慧，所以当爵士让他做“邓肯号”的船长时，他高兴地答应了。

麦盖尔敬重这位麦凯莫府的主人，这种敬重就像弟弟对哥哥一样，心甘情愿地为他效力。以前找不到机会，现在终于有机会效力了。

“邓肯号”上的大副叫汤姆·艾撒汀，是位老水手，也非常值得信任。

整个船上的船员，包括船长和大副在内是25人。这些人都是丹巴顿郡首屈一指的水手，也是格莱拉弗家族的庄户子弟。这样的一群人，在船上形成了团结友爱的团队。同时，团队里人才济济，就连吹传统风笛的人都不缺。

拥有这样一批水手，格莱拉弗爵士也就相当于拥有了一支精兵队伍。更重要的是，水手们都很满意自己所处的位置，做事也很认真负责。热情勇敢的他们善于使用各种武器，也能熟练地驾驶船只，所以非常愿意追随主人冒险远征。

在他们听到这次远征的目的后，开心地哇哇大叫，那欢呼声响彻了丹巴顿山谷。

虽然麦盖尔船长在忙着改装煤舱和粮舱，但他没有忘记给爵士夫妇准备长途航行要住的房间。同时，他还替格兰特船长的儿女们布置了舱位。虽然海伦夫人只答应了让玛丽随“邓肯号”远行，但即使不让小罗伯尔去，他也一定会瞒着大家躲进货舱的。甚至说如果让他像富兰克林和纳尔逊小时候那样，在船上做见习水手，他一定也会毫不犹豫地答应。像这样倔强的孩子，谁能制止得了他？

最终，大家同意让他去，而且不以乘客的身份去。也就是说，不管他是做见习水手还是小水手、大水手，他都要为大家服务，而麦盖尔也愿意教他海员知识。

对于这样的决定，罗伯尔欣然接受，并且说：“如果我学得不好，你们就用皮鞭打我好了。”

“不用怕，我的孩子，我们不会这么做的。”格莱拉弗爵士认真地说。其实不用说都知道，船上那用九条皮鞭做成，用于打见习水手的“九尾鞭”早都禁用了，而且对爵士来说，“邓肯号”上并没有存在“九尾鞭”的必要。

船上的乘客，除了爵士夫妇、格兰特船长的儿女外，爵士还加了一个人，这个人就是麦克那布斯少校。

少校是个温和而话语很少的50岁的中年人。谦逊是他的特点，所以不管对任何人、任何事，他都以别人的意见为主，很少与人争辩、吵架，甚至从不跟人发脾气。他的个性，就算是上敌人的堡垒，说不定也会像上自家的楼梯一样淡定。当然，这样绵软的性格并不代表着他胆小，其实他非常勇敢，即使炮弹落到身边，脸色也不会变。可见，他应该是至死都不会发脾气，至死都不会着急的一个人。

当然，如果真要从他身上找出一个短处来的话，那可能只有一条：他是一个彻彻底底，纯纯粹粹的苏格兰人，他固执地遵守着故乡的旧风俗。因而，他不愿意为大英帝国服兵役，而他头上的少校军衔，还是他在高地黑卫队第42团时获得的，而黑卫队是由纯苏格兰贵族组成的队伍。

麦克那布斯少校原本是以表兄的身份住在麦凯莫府的，现在又以少校身份上“邓肯号”，也是再正常不过的事了。

“邓肯号”上的主要成员都在上面做了介绍。而世间的事就是这样，因为一个机缘巧合，这只船以及船上的这些人的命运就连在了一起，并准备进行一场结果难以预料的航行。而当这只船开到格拉斯哥港的轮船码头之后，很快就吸引了人们的注意，引来了大批人参观。

人们关心这只船，以及船上的人，这使停泊在这个港口的其他船只，以及那些船只上的船长羡慕不已，特别是“苏克迪亚号”上的布尔特船长。

“苏克迪亚号”和“邓肯号”一样，也是一只游船，而且也很漂亮，并且就停在“邓肯号”的旁边。“苏克迪亚号”正准备去加尔各答，论大小，它比“邓肯号”大，但大家似乎把兴趣都聚集在了格莱拉弗爵士的“邓肯号”上，而且所受的关注度越来越高。

启程的日子在一天天接近，精明能干的麦盖尔船长，在“邓肯号”于克莱德河试航后一个月，便将煤和粮食储备齐了。一切都准备妥当后，他们只等出发了。

出发的日期定在了8月25日。在这个时间出发，不到初春来临，他们就能到达南纬地带了。

爵士的这次远航计划公布后，曾有很多人来劝阻，说这样的航行既累又危险，但他丝毫不为其动摇，并继续为离开麦凯莫府做着准备。

其实，很多人虽然当面劝阻他，甚至批评他，但内心却在赞赏他，而且整个舆论也都倾向于支持这位勇敢的苏格兰爵士。很多媒体，除了政府报纸外，都在谴责海军部。当然，对于自己的这个做法，从不计较个人得失的爵士，根本就没有考虑付出，他考虑的只是怎么拯救那些落难者。

8月24日，格莱拉弗夫妇、少校、格兰特姐弟，以及船上的厨师长奥比尔先生，随行服侍格莱拉弗夫人的奥比尔太太等人，均在全府仆人的热烈欢送下，离开了麦凯莫府。几个小时后，他们就坐在了船上。

格拉斯哥的居民们，全都怀着敬仰的心情，欢送海伦夫人，因为只有她才会放着安逸奢华的生活不过，去远征援救同胞。

爵士夫妇住在“邓肯号”船尾的楼舱里，这个楼舱共有两个卧室，两个洗漱间，一个客厅。除此而外，还有一个客厅，客厅两边又有六个房间，分别住着格兰特姐弟、奥比尔夫妇和少校。麦盖尔和艾撒汀的房间则在客厅的另一端，面朝中甲板，背对客厅。

“邓肯号”上的船员住在平舱，里面既通畅又舒适。除了他们这些人外，船上还有煤、粮食和武器等，除此就没有其他的什么东西了，所以空地有的是。为此，麦盖尔船长还曾利用这些空地，对内部进行了调整。

8月24日到25日凌晨3点，正值落潮，“邓肯号”开始起航。开船前，格拉斯哥的市民还在“邓肯号”起航时看了一场动人的仪式。那是在晚上7点钟的时候，爵士带领全体船上成员，一个不落地离开游船，去了格拉斯哥古老的圣迈哥教堂。

圣迈哥教堂是经过“改教运动”大破坏后依然健在的一座古教堂。对于这座教堂，沃尔特·司各特曾对它有过优美的描写。在爵士领着众人去的那一刻，它大门敞开，迎接着“邓肯号”上的全体人员。无数市民跟在了后面。

在这有着多年历史的古老教堂里，穆尔多牧师为他们每个人祝福，乞求上天能保佑他们这次远征顺利。而在这些人中，玛丽·格兰特的声音最响亮，她在为她的恩人们做祷告，同时，在上帝面前，她肆意让那感激的眼泪往下流淌。

祷告完后，全体成员怀着平静的心情离开了教堂。11点钟的时候，

他们回到了船上，麦盖尔船长和船员们开始为即将到来的起航做最后准备。

深夜到来，“邓肯号”的机器生上了火，船长命令加足马力。很快，“邓肯号”便被黑夜和大股的浓烟包围。由于风向是西南风，不利于张帆，所以“邓肯号”上的所有帆都收了起来，藏在了帆罩里，以免受到煤烟的污染。

凌晨2点钟的时候，“邓肯号”在轰鸣的机器震颤中动了起来，蒸汽在汽缸里发出了嗞嗞的声音，气压表指向了四级压力。那时候，潮正处于平满时，微弱的曙光隐隐能让他们辨认出夹在浮标和石标间的克莱德航道。浮标和石标上的信号灯，由于晨曦的原因，显得非常暗淡，此时，正是起航的好时机。

船长命人通知爵士，爵士跑向了甲板。

潮水开始降落，“邓肯号”的汽笛鸣叫起来。缆索松了下来，螺旋桨也转动起来，“邓肯号”慢慢离开了周围的船只，向克来德湾的航道驶去。

由于对这个海湾的地势比较了解，所以船长并没有找领航人。实际上，任何一个领航人，都未必比他更懂得领航。而在船起航时，他用右手操纵着机器，左手掌舵，老练而娴熟。

一会儿工夫，几座工厂就看不见了，出现在他们面前的是一些稀稀落落，位于河边丘陵的别墅，城市的热闹和喧嚣越来越远，最后终于一点声音都没有了。

经过一个小时的行驶，“邓肯号”朝丹巴顿的峭壁继续行驶，又过了

两个小时，“邓肯号”进入到克莱德湾。早上6点，“邓肯号”经过坎泰儿岬，出了北海峡，行驶在大西洋上。

航行的第一天，海浪很大。晚上的时候，风势越来越强，“邓肯号”开始颠簸，越来越厉害。强大的风势让女人们躲在了房间，好在她们状态都不错。

第二天，风向发生了改变，船长扯起了主帆、纵帆和小前帆。由于“邓肯号”的质量很好，所以有力地压住了波澜，船的颠簸有所减轻。甲板上也便迎来了海伦夫人和格兰特小姐。他们和爵士、少校、船长一起看日出。

日出的景色很好，太阳如同一个金色的盘子，从大海深处慢慢升了起来。在耀眼的光芒下，“邓肯号”缓缓地滑行在海面上，鼓起的风帆在太阳光的照耀下，像是被太阳的光线撑起来似的。

大家在静静地观看日出时，海伦夫人突然说：“啊！真是太美了！这是晴朗的一天，希望风向不要变，一直这样送‘邓肯号’前行。”

“是啊！我亲爱的海伦，这个方向真是太好了！我们旅行的开始就这么顺利，真是个好兆头，真的不能再强求老天怎么样了。”爵士说。

“我亲爱的爱德华，这次航行要很长时间吗？”

“这要问船长！麦盖尔，一切还不错吧，你对这船怎么看？满意吗？”

“非常满意！爵士！这艘船真是棒极了，我想，任何水手都会因为上这艘船而自豪的。那船笛和机器的配合非常精妙。还有那船后的浪槽，多么均匀啊，对于浪头，这船能轻易躲过。我们现在一小时可以行

驶30公里，按这个速度的话，我们10天就能穿过赤道，不到五个星期，我们就能绕过合恩角了。”船长高兴地说。

“听到了吗，玛丽？不到五个星期，真是太好了！”海伦夫人也高兴地说。

“没错！夫人，我听到了，听了船长的话，我真是太高兴了。”格兰特小姐说。

“怎么样？玛丽小姐，这次的航行，你受得了吗？”爵士关切地问。

“完全受得了，爵士，我感觉很好，而且很快就能全部习惯了。”

“那小罗伯尔怎么样？”

没等格兰特小姐回答，船长抢先说：

“哦！他啊，您可千万别提他，他不是到机器间，就是在桅顶上，我敢说，他根本不知道什么是晕船。您看，那不就是他吗？”

大家顺着船长手指的方向一看，小罗伯尔正吊在小顶帆的帆索上，悬在30米高的地方。

格兰特小姐看了大吃一惊。

“没事的，小姐！”麦盖尔船长笑着说，“我敢保证，而且保证用不了多长时间，我就能向格兰特船长说‘这了不起的小家伙’了。那位令人敬佩的船长，我们很快就会找到的。”

“希望老天爷能听到您的吉言，船长先生。”格兰特小姐说。

“亲爱的孩子，一切都是天意，一切都会充满希望。因为我们不是自己在走，而是有上天在指引我们。我们没有乱跑，是有股力量在指点着我们。为了这场拯救，我们集合起了这股精良的力量，你只需看看他们就能知道，我们一定会成功的，不管遇到什么问题，什么困难，我们都可以解决。而且我曾答应过我的夫人，要实现我们的旅行计划，结果就有了这样的机会。我相信一定是这样的！”

“亲爱的爱德华，我相信你！你真的非常出色！”海伦夫人说。

“不！不是我出色，是我拥有最好的船员，而且还能在最好的船上。怎么，玛丽小姐，你就不想赞美一下我们的‘邓肯号’吗？”爵士开玩笑说。

“赞美！当然赞美！爵士，我不仅赞美，而且还以内行的眼光赞美呢！”

“哦？是吗？”

“是的，爵士。我小时候经常在父亲的船上玩。父亲也许曾想将我培养成水手，所以对于调帆面、编帆索这样的活，我都可以做。”

“哈哈，小姐！你到底在说什么呀！”船长瞪大眼睛叫道。

“看来，玛丽小姐已经是麦盖尔船长的朋友了。在麦盖尔船长的眼里，全世界任何一个职业都不如水手。即使是女子，做水手也好过做其他职业！麦盖尔，我说得没错吧！”爵士笑着说。

“那是，爵士。不过，我还是认为格兰特小姐在楼舱当贵宾比在甲板上扯拉帆索更适合。不过嘛，她那话说得我还是很高兴的。”

“特别是她赞美‘邓肯号’，你会更开心吧！”爵士补充道。

“‘邓肯号’承受得起这些赞美！”船长回答道。

“看你们这么赞美这艘船，我还真想到舱底下去看看，我想看看水手们在甲板中住的情况。”海伦夫人说。

“住得好极了，就像在家里一样。”船长说。

“他们真的是像住在家里一样，我亲爱的海伦。‘邓肯号’实际上就是我们苏格兰的一部分，它是丹巴顿郡的一部分，是因为特殊的原因，只能漂在海上而已。所以，我们并没有离开我们的家乡，我们一直在自己的家乡，这里就是麦凯莫府，大海就是约孟湖。”爵士说。

“那么，我亲爱的爱德华，能否让我们参观一下您的麦凯莫府呢？”海伦俏皮地说。

“那请吧，夫人！不过，我要先通知一下奥比尔才行。”

厨师长奥比尔虽然是正宗的苏格兰人，却长得很像法国人，热情聪明的他在听到主人的召唤后，很快就来了。

“奥比尔，早饭前，我们想到处看看。我们回来时，希望早饭已经摆好了。”爵士说，他好像忘记了自己是在船上，而是要去达尔百和卡戴林的湖边散步一样。

奥比尔深深地鞠了个躬，以示回答，他的脸看起来始终很严肃。

“少校，你会陪我们一起去吗？”海伦夫人问。

“如果你去，我就去！”少校说。

“啊，不用了，他现在正沉浸在雪茄烟里，还是不要把他拉出来了！对了，玛丽小姐，我要给你介绍一下，这个烟君子，整天抽烟，即使连睡觉时也要抽。”爵士笑着对海伦和格兰特小姐说。

少校同意这种说法，笑着点了点头。爵士带着其他人下去了。少校没有去，他和平时一样，淡定地坐在那里。他从不想不愉快的事，所以只是沉浸在浓浓的烟雾中，看着船后的浪槽。

静静地看了一会儿，等他再转回头来时，却发现一个陌生人站在他面前。平时淡定到不会被任何事惊到的他，着实被这件事惊了一下——这个人他从没见过。

此人身材高大，体形修长，年龄在40岁左右。远远看去，他有点像一颗大头钉杵在那里。为什么这么说呢？因为他不仅头很大很宽，而且额头也很高，鼻子和嘴巴都很大。除此之外，他还有着长长的下巴。再看眼睛，又圆又大，不停地滴溜溜地转着。看样子，他聪明机灵，而且非常乐观。

世界上有一些人总以庄重示人，而且很严肃，不苟言笑，以此来掩饰内心的卑鄙和龌龊。不过，这位陌生人却不像是这样的，他不仅不令人感到严肃，而且看起来很随性，很潇洒。

显然，他应该是位好好先生，而且总喜欢把事情往好的方面想。在他还未开口前，人们已经能从他的样子中看出他是个很喜欢说话的人了。而从他那不加掩饰的举止来看，应该是个粗枝大叶的人。

他的头上戴着一顶鸭舌帽，脚上是黄皮靴，靴子上套着皮罩。他的下身穿着绒裤，和夹克的颜色一样，都是栗色的。夹克上有很多袋子，袋子里装满了乱七八糟的东西，比如簿子、册子、皮夹子等，腰间还斜

挂着一个很大的望远镜。

陌生人的机灵好动与少校的沉默淡定形成了鲜明的对比。

陌生人围着少校走来走去，打量着他，但少校却用他一贯的淡定看着陌生人，既没问他来自哪里，也没问他要去向何方，为什么上了“邓肯号”。

陌生人对没有引起少校的关注感到有些沮丧。他将目光从少校身上收回，取下了腰间挂着的大望远镜，望远镜的长度拉出镜头可达1.2米。陌生人叉开双腿站立，像公路上的路标一样一动不动。在把望远镜对准天水相接的地方看了差不多有5分钟后，他将望远镜收了起来，挂在甲板上，然后将手按在望远镜的上方，好像手下的不是望远镜，而是一把手杖。

不料，他拉出的镜头因为是一节一节的，能活动，所以猛地缩了回去，陌生人因为站立不稳，倒在了大桅下，直挺挺的。

这种场景，任何人看到都会发笑，但少校的脸上却没有什么表情，甚至连眉毛都没动一下。陌生人忍不住了，终于大声喊道：

“厨师长，厨师长去哪里了？”显然，他是个外国人。

见没人出来，少校也没表情，他又提高了声音大叫：“厨师长！厨师长！”

此时，奥比尔正好去前甲板的厨房，听到有个陌生的大个子叫他，怔在了那里，心想：“这个人是从什么地方冒出来的？”

不过，他又想，难道是格莱拉弗爵士的朋友？可是不可能呀，都没

听爵士提过。

奥比尔一边想，一边爬上了楼舱甲板，走到陌生人面前。

“怎么？你就是船上的厨师长？”陌生人看着他问。

“是的！先生，不过我想问……”

没等奥比尔说完，那人便说：“我是6号的！”

“你在6号房间？”厨师长更奇怪了。

“对呀！请问你贵姓？”

“我叫……奥比尔！”

“哦！奥比尔呀！很好，我的朋友，我想，现在是开饭时间了吧，我要吃饭，越快越好，我已经有36个小时没吃东西了，或者说我整整睡了36个小时。想想看，一个从巴黎跑到格拉斯哥的人，这么久没吃饭，你要理解我的急迫心情！请问，几点能开饭？”陌生人噼里啪啦地说了起来。

奥比尔傻眼了，他怔怔地说：“9点！”

陌生人在身上那众多的口袋里摸了很久，总算在摸到第九个口袋的时候摸到了什么，他拿出来看了一下。

“哦！很好！现在是8点，离吃饭还有段时间，那么先给我来一块饼干，然后再来一瓶白葡萄酒。我太饿了，一点劲都没有了。”

奥比尔还是茫然地看着陌生人，陌生人继续说着，一刻都不想停。

“我还想问一下，船长呢？船长难道到现在还没起来？还有大副！这都是去哪里了？还在睡觉？幸好今天天气不错，顺风，即使没人管，船也会照样走！”

正在这时，麦盖尔船长走到了楼舱的梯子上，奥比尔马上对陌生人说：

“这位就是船长！”

“噢！太好了，很高兴见到您，布尔特船长！见到您，我可真是太高兴了！”

麦盖尔船长惊住了，他的吃惊不仅仅是因为出现了一个陌生人，还因为那人在喊他“布尔特船长”。

陌生人丝毫没有理会麦盖尔船长的吃惊表情，他犹如打开了话匣子，滔滔不绝地说了起来。

“我真是太高兴了！请允许我先和您握握手吧。前天晚上原本想和您握手的，但因为开船，怕打扰您。现在好了，船长，现在我们就算正式认识了，我真是太高兴了！”

麦盖尔船长的眼睛瞪得大大的，看看奥比尔，又看看这个陌生人。

“好了！亲爱的船长，我们认识了，就是老朋友了吧！那么说说看吧，您对这艘‘苏克迪亚号’是不是很满意？”

麦盖尔船长再也忍不住了，终于开口说：“我不知道什么苏克迪亚号！”

“哦！怎么会这样？‘苏克迪亚号’就是我们乘坐的这艘船呀，这可是一艘好船，我很早就听有人和我说了，说这船的质量很好，船上的设施和服务都很好。当然，那热情的布尔特船长就更好了。我记得，有个非洲旅行家，好像也姓布尔特，应该和您是本家吧，哈哈……那是多么有胆识的人啊！我可真羡慕您啊，可以做他的本家。”

“先生！要让您失望了，因为我不是旅行家布尔特的本家，因为我根本就不是布尔特船长！”

“哦，那么，我是在和‘苏克迪亚号’上的大副鲍来斯先生说话吗？”

“鲍来斯先生？”麦盖尔船长喃喃着，开始想这到底是怎么回事，正想给他解释清楚，便看见爵士和海伦夫人，以及格兰特小姐走到了楼舱甲板，而那陌生人一见他们就大叫：

“天啊！你们都来了，有男客，也有女客，真是太棒了！鲍来斯先生，您是否应该给我们做个介绍？”

话音刚落，还没等麦盖尔船长说话，他便绅士十足地走到了爵士他们面前，先称呼了一声格兰特小姐“夫人”，然后又冲海伦夫人喊了声“小姐”，最后又转向爵士，叫了声“先生”。

他的胡乱称呼，让几个人全怔住了。

麦盖尔船长这时开始向他介绍道：“这位是格莱拉弗爵士。”

“哦！是爵士。”陌生人急忙改口。

“那么请先让我自我介绍一下，在船上我们不应该太过拘束，不需要过多的礼节，我们很快就会熟悉起来的。和这些夫人们在一起，

在‘苏克迪亚号’上的航行，一定会非常顺利和惬意的，而且时间也会过得很快。”

海伦夫人和格兰特小姐对突然冒出的不速之客感到吃惊，一句话都说不出来了，只是怔怔地看着他。

终于，爵士开口了。

“先生，我想请教……”

不等爵士说完，陌生人便又说：“我是巴黎地理学会的秘书，我叫雅克·巴嘉勒尔，我还是柏林、孟买、达姆施塔特、莱比锡、伦敦、彼得堡、维也纳、纽约等国地理学会的会员。当然，也是东印度皇家地理人种学会的名誉会员……怎么说呢，我光在研究室研究地理就研究了20年。如今，我想做一些实地考察，这次我去印度，要把许许多多大旅行家都没有完成的事全都做了。”

第四章 上错船的巴嘉勒尔

这位巴黎地理学会的秘书非常可爱，在介绍自己所拥有的头衔时，他说得像唱歌一样动听流畅。爵士从他的言行举止，很快就知道了他的个性。何况雅克·巴嘉勒尔这个名字和所拥有的名气他并不陌生，他在地理方面的一些著作以及关于地理学方面的声望，爵士也都听说过，而且身为全世界地理学界会员的他，在法兰西也是有着卓越成就的学者之一，所以虽然是个不速之客，但格莱拉弗爵士还是微笑着，诚恳地向他伸出了手。

“我们现在已经彼此认识了，但巴嘉勒尔先生，能允许我问您一个问题吗？”

“没问题，不要说一个问题，就是20个问题都可以。爵士，和您谈话真是一件愉快的事。”

“您刚刚说您是前天晚上上的船对吗？”

“没错！爵士，我是在前天晚上8点钟的时候，从喀里多尼亚火车上下来，乘坐马车来到港口，下了马车又上到‘苏克迪亚号’上的。我还在巴黎的时候，就预定了‘苏克迪亚号’的6号房间。当时由于天太黑，上船后我也没遇到一个人，而且因为连着坐了30个小时的火车、马车，太累了，为了避免晕船，我上船后就睡了。我可真是实实在在地睡了36个小时啊，爵士，您千万不要怀疑我说的话！”

在巴嘉勒尔说完后，大家总算知道他为什么上了这艘船了。这位法

国著名的地理学家，只是上错了船，误上了“邓肯号”。在“邓肯号”上的大家都去圣迈哥教堂的时候，他正好上了船，所以没人发现他的存在也很正常。

不过，现在大家明白了，但这位马虎的地理学家却并不知道他上错了船。如果告诉他上错了船，这船不是开往他要去的印度，而是其他地方，他又会怎么样呢？

“巴嘉勒尔先生，印度是您选定做研究的首发地对吗？”

“是的，爵士。游览印度是我平生最大、最美好的愿望之一。我多么想在那个拥有‘象国’之称的国家实现梦想啊！”

“那么，巴嘉勒尔先生，您能否换个地方去实现梦想呢？”

“哦，那可不行，爵士。换个地方不好，我在印度有个地理学界的任务要完成，而且我的身上还带有给印度总督莫萨爵士的介绍信。”

“啊！您在印度还有任务？”

“是的，我有一个非常有趣的探险计划，而且这个计划还是我一位博学的朋友，费沃亚·得·圣玛旦先生帮我订的呢。我的探险目的就是追随许许多多的著名旅行家，完成他们未完成的工作。我还要在库里哥教士在1846年失败的地方完成他的遗志。总之，我要从雅鲁藏布江的河道开始，沿喜马拉雅山北麓，去西藏境内，我要知道这条流了1500公里的河道，是不是最后在阿萨姆东北部和布拉马普特拉河进行了汇合。知道吗，爵士，这是地理学上的一个疑问，如果哪位旅行家解决了这个问题，金奖章就十拿九稳了。”

说起这些，巴嘉勒尔陶醉极了，他好像已经开始展翅飞翔，去那些

他准备探索的地方了。

爵士沉默着，他不知道该怎么说。好一会儿，他才说：“巴嘉勒尔先生，您的探险计划真是太好了，科学界肯定会为您鼓掌叫好的。不过，我还是觉得您应该放弃这个计划，至少目前您需要放弃去印度。”

“放弃？哦！不！为什么要放弃？”

“因为您现在并没有去印度的方向，而是向着印度半岛的反方向航行。”

“什么？布尔特船长……”巴嘉勒尔诧异地看着麦盖尔船长。

“对不起！我不是布尔特船长。”麦盖尔船长说。

“那么，我乘坐的‘苏克迪亚号’……”

“对不起！这船不是‘苏克迪亚号’！”

听了这话，巴嘉勒尔先生的震惊可想而知。他看看一本正经的爵士，又看了看脸上浮现出同情和惋惜的海伦夫人和玛丽，再看看一直微笑看着他的麦盖尔船长，最后看看面无表情，像泥塑一样的少校。

他耸耸肩，将鼻梁上的眼镜往上一推，大叫道：“哦！不！这一定是开玩笑！”

话音刚落，他的眼光便落在了舵盘上，他看到了舵盘上大大的几个字：邓肯号—格拉斯哥。

“什么？‘邓肯号’！这是‘邓肯号’？”他狂喊起来，随即便一溜烟地奔下了楼梯，跑到6号房间去了。

等到那个马虎而倒霉的地理学家不见了身影，船上的所有人，除了少校外，全都憋不住大笑起来。如果他是搭错了火车，也倒好办。比如他如果是去丹巴顿郡，但他却上了去爱丁堡的火车，那么他可以在下一站下车。可现在却是乘错了船。他要去印度，坐的却是开向智利的船，这岂不是太滑稽了吗？

“我想，这事只有巴嘉勒尔做得出来。像他这么马虎、粗心造成的笑话，绝不止这一件。我听说有一次，要画美洲地图，结果却把日本画进去了。不过尽管这样，还是不影响他成为一个有着卓越成就的学者，更不妨碍他成为法兰西优秀的地理学家。”爵士说。

“可是，这个可怜的地理学家怎么办呢？我们该不会真把他带到巴塔哥尼亚去吧。”

善良的海伦夫人忧心忡忡地说。

“为什么不可以？是他自己粗心大意，这个责任该由他来负。比如他上错了火车，难道火车还要专门为他停下来，然后让他下去吗？”少校开口了，但依然面无表情。

“停是不可能的了。可如果我们到了停泊的港口，倒可以让他下去。”海伦夫人说。

“当然，如果他愿意，他可以这么做。等我们到了下一个停泊的港口，他可以下去。”爵士说。

此时，当巴嘉勒尔去6号房间看了自己的行李都在船上后，有些难堪地、可怜巴巴地重回到舱顶甲板。他好像已经不会说其他话了，只是不停地嘀嘀咕咕地念叨着：“邓肯号！邓肯号！”

在甲板上，他走来走去，仔仔细细地检查游船的设备，看完后，他又看了看海面上的水平线，这才走到爵士面前说：

“我想知道，这‘邓肯号’是去……”

“巴嘉勒尔先生，这船是去美洲的。”

“去美洲？”

“对！去智利的康塞普西翁。”

“天啊！是去智利呀！去智利！可是我去印度的任务又要怎么完成呢？地理学会中央委员会主席嘉德费茨先生肯定会怪我的。不仅他，还有塔弗沙先生、古德波先生、费沃亚·得·圣玛旦先生……他们都会怪我的！天啊！这可怎么办？以后我还怎么有脸去开学术会议？”

“先别慌，巴嘉勒尔先生，事情还没有糟糕到这种地步，您只不过是迟些到罢了，而且雅鲁藏布江会一直等着您去探索的。而且我们在马德拉会停泊，那时候，您可以再搭船回欧洲。”爵士说。

“谢谢您，爵士！也只能这么办了。不过，这件事怎么也算是件离奇的遭遇吧。当然，也只有我才会碰上这种怪事。不过，我在‘苏克迪亚号’上定的舱位又该怎么办呢？”

“没办法，您只能放弃了。”

“嗯！是这样的。”巴嘉勒尔说完，重新又看了一下船后，这才说，“看来，这是一只游船。”

“没错，先生，这是游船，而且是属于格莱拉弗爵士的游船。”麦盖

尔船长说。

“请放心接受我们的招待吧！”爵士说。

“太感谢了！爵士，多谢您的盛情邀请。不过，能允许我发表点小意见吗？那印度可真是个好地方，那里会发生很多稀奇古怪的事。这几位夫人一定还没去过印度吧！所以，如果能让船的舵盘转一转，让‘邓肯号’转而去加尔各答航行，会不会更容易些呢？既然这船是私人旅行……”

巴嘉勒尔还没说完，便见大家不停地摇头，也便没有再说下去了。

“先生，如果我们只为了游览，那么您的建议我们一定会认同，爵士也会同意。不过，‘邓肯号’这次远行是有任务的，是为了救那些被遗弃在巴塔哥尼亚海岸的船长和水手，然后把他们带回国。这样的一项义举，我们是不会改变的……”

仅仅用了几分钟时间，大家便把“邓肯号”远行的目的告诉了这位法国地理学家。他们从无意间获得的三张纸条，说到了格兰特船长，然后又说到了海伦夫人的建议……

这位法国地理学家听了以后，非常感动。

“夫人，请允许我对您给予最真诚的赞美，您所做的这一切，真是太伟大了！让这只船按照计划航行吧，我可不想让它有一天的延误。”

“那您是否愿意和我们一起去寻找遇难者呢？”海伦夫人问。

“那可不行！我还有我的任务要完成呢。到了下一个停泊港口的時候，我就该下去了。”

“那就只能在马德拉岛下了。”麦盖尔船长说。

“嗯！就在马德拉岛下，那里离里斯本不过只有800公里。这样我就可以再乘船回里斯本了。”

“好的，先生！随便您！能招待您几天，我感到非常荣幸，希望这几天您能过得开心！”

“啊！爵士呀！虽然我乘错了船，但却也遇到了你们，我真是太幸运了！不过真要说起来，还真是个笑话。一个要去印度的人，最后竟然坐上了去往美洲的船。真是太荒唐了！”

法国地理学家想到这里的时候，心里又有些郁闷，但这也是无可奈何的事，只能按捺着性子待几天了。

带着既来之则安之的想法，法国地理学家又变得开朗活泼起来，当然，时不时地他也会暴露出他粗心大意的毛病来。而他的风趣和幽默，也总是逗得太太们哈哈大笑。就这样，仅仅一天工夫，他便和大家混熟了，也交上了朋友。

在他的请求下，爵士还给他看了那三张纸条。他也仔仔细细地看了，并且研究了很久，做出了很多分析。当然，他的分析和爵士的一样。对于玛丽姐弟，这位法国地理学家也表现出了很大的关心，并给他们打气，让他们对找到父亲充满了希望。他的一些话，让格兰特小姐的心情好了很多。他甚至还说，如果他不是有任务的话，他一定会和他们一起去寻访格兰特船长的。

而当他知道海伦夫人是旅行家威廉·达甫内尔的女儿时，连声大叫起来。称海伦夫人的父亲是个很有胆识的学者，还曾是巴黎地理学会的

会员，并说他们也曾通过很多次信，还说海伦夫人的父亲加入学会就是他和另外一位叫玛泰柏朗的会员介绍的。巴嘉勒尔非常兴奋，称这次是个奇遇，能让他和达甫内尔的女儿同船旅行，他真是太高兴了。

最后，他要求吻一吻海伦夫人的额头，虽然这在英国人看来不合时宜，但海伦夫人还是同意了。

由于非洲北部海流的关系，游船很快就驶近了赤道。8月30日的时候，他们已经能看到马德拉群岛了。爵士决定履行他对巴嘉勒尔的承诺，提出停泊，让这位无意间闯入的法国地理学家上岸。

“我亲爱的爵士，我不和您客套，但您是否能告诉我，在我没有误上‘邓肯号’之前，你们是否要在马德拉港口停泊？”

“不，原来并没打算在此停泊。”爵士实话实说。

“那么，那就继续让我错误下去吧。这个群岛已经被研究得太透了。对于地理学家来说，没什么研究的价值了。该说的都说了，该写的也都写了。而且这里原本以种葡萄为名，可现在葡萄也不行了。我记得，1813年的时候，马德拉的葡萄酒产量是22000桶，等到1845年却变成了669桶。现在，就连500桶也没有了。真是太让人伤心了。如果您不介意的话，是不是可以在加那利群岛停泊呢？”

“好的，没问题！反正这样也不会偏离原来的航行路线！”

“谢谢，亲爱的爵士！加那利群岛好歹有三组岛可以研究。还有那特纳里夫峰，我也一直想去攀登。这次可是个机会，一定要抓住，我要攀登这座著名的高峰。”

“全随您，亲爱的巴嘉勒尔。”爵士微笑着说。

加那利群岛离马德拉群岛并不远，还不到460公里，对于“邓肯号”速度这么快的船，根本就算不上距离。

8月31日下午2点，麦盖尔船长和巴嘉勒尔在甲板上散步聊天。巴嘉勒尔不断地问麦盖尔船长智利的情况。突然，船长打断了他的话，指着南地平线说：

“巴嘉勒尔先生……”

“有什么事吗，我亲爱的船长？”

“请您朝那边看，您看出什么来了吗？”

“没有！我可什么都看不到。”

“不要看地平线！你往上看，看那云彩！”

“云彩！看云彩？我来看去……”

“现在再沿着触桅的辅帆架子往上看。”

“我还是什么都没看到。”

“不是您看不到，只是您不愿意看到罢了。那里虽然离我们有75公里，不过特纳里夫山峰在地平线上还是能清清楚楚看到的，您听明白我的话了吗？”

是的，不管巴嘉勒尔是真没看到还是不愿意看到，几个小时后，那座高峰就要出现在他们面前了。除非是个盲人，不然谁都能看到。

“现在呢？您应该看到了吧？”船长又问。

“哦！看见了，非常清楚。不过，那就是所谓的特纳里夫顶峰？”

他的语气里带着不屑。

“是的，就是它。”

“可它看起来并不高。”

“怎么会？它海拔可有3300多米呢！”

“可它比不上勃朗峰，勃朗峰可是阿尔卑斯山的最高峰。”

“是的！不过这么高的山峰，您爬起来也是很高的。”

“哦，亲爱的船长，您是说我爬上去吗？我爬上去干什么呢？这座山荷泊尔先生和彭柏先生都曾爬上去过。荷泊尔先生爬上去后，还写了篇优美的文章，将它描述得淋漓尽致，荷泊尔先生真是个伟大的人啊！他还考察了这座山的五个地带：葡萄带、月桂带、松林带、阿尔卑斯系灌木带最高处的贫瘠带等等；也考察了最高的荒瘠带。他一度爬上了山顶的最高处，而从山顶看，能看到四分之一面积的西班牙。此外，他还曾去爬过火山，还钻到了火山的腹地，考察了熄灭后火山口的最深处。您说说，这么伟大的人都做过的，我再去做又有什么意义？”

“您说得没错！是没什么去做的了。太可惜了，无事可做，在那等船也无聊，也没什么可以散心的地方。”

“哈哈……散心的地方没找到，粗心的地方倒是不少。”巴嘉勒尔风趣地说道。

两个人沉默着，巴嘉勒尔突然又说：“亲爱的船长，您说，佛得角群岛有没有可停泊的港口呢？”

“倒是有的，而且好像在那里搭船也比较方便。”

“嗯，是的！在那里下船还有个好处，就是佛得角群岛离塞内加尔也不远，如果在塞内加尔的话，说不定我还可以遇到法国同胞。当然，确实有很多人说那一带的群岛既荒凉又脏，没什么意思，不过对于地理学家来说，还是很有意思的。知道吗？这就是角度问题，很多人因为不知道从学识的角度看，所以旅行也就像河蚌一样，钻在蚌壳里往前蹿。我可不是那样的人。”

“先生，您想在哪儿上岸就在哪儿上岸好了。我相信您在佛得角群岛逗留的话，一定会对地理学做出贡献的。我们在那里停泊的时候还会加煤，您下船也不耽误我们行程。”

就这样，船长继续命令船向加那利群岛西边开去，著名的山峰渐渐被船抛在了后面。

9月2日早晨5点，“邓肯号”驶过夏至线。此时，天气发生了变化，潮湿而闷热。西班牙将这样的季节称之为“水季”。岛上缺少树木和水，全靠雨水，所以水季对非洲各岛的居民虽然有利，但对船上的乘客来说却不利。因为浪太大，船上的乘客不敢到甲板上去，只能待在方厅聊天。

9月3日，“邓肯号”就要到佛得角群岛了，准备下船的巴嘉勒尔开始整理起了行李。驶向佛得角群岛，必须经过盐岛，盐岛是个非常荒凉贫瘠的沙滩。“邓肯号”先是沿着一大片珊瑚礁航行，接着驶过圣雅克岛，圣雅克岛的南北两端有两座高山，从北向南纵贯。过了圣雅克岛后，麦

盖尔船长将“邓肯号”驶进了维拉布拉亚湾，停在了12米深的海面上。

这天的天气很差，虽然海风不至于吹进海湾，但惊涛拍岸的声音很响。同时还夹杂着倾盆大雨。大雨中，他们看见了一座城，一座像是建立在平台上的城，平台的台基像是由90米高的火山岩支撑着，高大而荒凉。

海伦夫人原想下船去城里看看，但见雨太大，只好作罢。不过，不管多大的雨，向船上加煤的工作还是要进行的，虽然困难很多。

雨水和海水交织，形成了洪流，“邓肯号”上的所有乘客只能躲在甲板下，讨论着这恼人的天气，发着牢骚。当然，在这些人中，少校平静如常，好像即使洪水滔天，他也能满不在乎。而最不淡定的是巴嘉勒尔，他焦躁地踱来踱去，并不停地摇着头。

“我敢说，这可恶的天气就是在和我做对！”他愤然说。

“也有可能是大雨在向您宣战！”爵士说。

“但我们是一定能战胜它的！”巴嘉勒尔说。

“可这样大的雨，我觉得您不该去冒险。”海伦夫人说。

“夫人是说我吗？我绝对敢去冒这个险。不过，我怕我的行李和仪器，它们要是被雨水打湿了，那就完了。”

“其实，这样的大雨，也就是刚刚下船的时候比较困难。到了城里，情况会好很多。虽然也许住的地方不够干净，而且还有可能和猴子、小猪在一起住，不怎么舒服，但这对旅行家来说，也没什么。希望您能在七八个月后搭船回欧洲。”爵士说。

“什么？七八个月？”巴嘉勒尔尖叫道。

“怎么也需要七八个月吧，因为雨季时，这里没什么船过来的。不过也没事，您可以在等船到来的时候，去一些不被熟悉的群岛考察。不管是地理学、气象学还是测量学，甚至人种学方面的研究，您都可以去做的。”

“是的，有些河流您也可以考察。”海伦夫人说。

“根本就不可能有河流，夫人！”

“没有大河，也是会有小河的。”

“小河也没有。”

“没有小河，总归会有小溪吧！”

“连小溪也是没有的。”

“好吧，那看来您只有去森林研究了。”淡定的少校也插嘴了。

“可这里好像连一棵树都没有呀！”

“哦！那这里可真是个美丽的地方！”少校一脸正经地说。

“千万不要失望，我亲爱的巴嘉勒尔，至少这里还有一些高山可以让您去考察。”爵士也插话道。

“啊？您是说山吗？这里的山不仅不高，而且还没什么意思。爵士，更主要的是，这些工作早就有人做过了。”

“这也有人做过？”爵士惊讶地问。

“唉！我就是这么倒霉，什么都让人占了先机。”

“不会吧！”

“没错！真是这样！”巴嘉勒尔可怜巴巴地说。

“哦！那真是太可怜了，那您下船后要干什么呢，巴嘉勒尔先生？”海伦夫人问。

巴嘉勒尔沉默着。

“我看呀，当时您还不如就在马德拉下船。虽然那里已经不产葡萄酒了。”爵士也替他惋惜道。

“如果是我，我情愿在船上等待时机。”少校突然又说，他的神情好像是在说：“要是我，我才不下船呢。”

“我亲爱的爵士，不知您后面还准备在什么地方停泊？”巴嘉勒尔终于说。

“后面吗？我想，应该不到智利的康塞普西翁是不会停的了。”

“哦！那可真是太糟糕了！那里离印度可真是太远了。”

“也不是这样的，绕过了合恩角，不就一天天接近印度了吗？”

“嗯，那倒也是。”

“而且只要到了印度，不管是东印度还是西印度，都没什么区别

了。”

“怎么可能没区别？”

“巴塔哥尼亚草原上的居民，不是号称西印度的印第安人吗？不管怎么说，总归都是印度人呀。”

“哦！亲爱的爵士，您不说，我怎么想不到这一点呢？”巴嘉勒尔叫了起来。

“还有一点，巴嘉勒尔，如果要得金奖章，并不一定非要去印度呀。世界上可研究的东西多了，可探索的事物也很多。任何地方都有新的事物可以发现。而且西藏的丛山和安第斯山脉的丛山，难道不是一样的吗？”

“可雅鲁藏布江呢？它怎么说？”

“对于雅鲁藏布江嘛，我觉得您完全可以用科罗拉多河代替呀！这条河流知道的人可不多，所以在地图上，是可以随地理学家的喜欢，想怎么画就怎么画的。”

“您说的道理我明白。可是爵士，地图上的河道往往一错就会错上很多。不过，我相信，如果我提出什么要求的话，地理学家们也会像派我去印度一样，去巴塔哥尼亚的。说起来也是，我为什么没有想到这一点呢？”

“您总是粗心大意的，怎么会想到这些？”爵士笑着说。

“说实话，巴嘉勒尔先生，您说说，到底愿不愿意和我们一起去？”海伦夫人的神情严肃起来。

“我倒想去，可是夫人，我又要怎么完成我的任务呢？”

“对了！我还要告诉您一下，我们可是要过麦哲伦海峡的。”爵士突然补充说。

“爵士，不要再诱惑我！”

“再说一点，我们还会去饥饿港！”

“什么？饥饿港，你们说饥饿港？”法国地理学家叫了起来。这诱惑真是太大了，让他不得不重新打算。

“饥饿港在地理书上，可是被说得神乎其神的，太有名了。”

“巴嘉勒尔先生，您再想想，如果您加入到我们这个团队，我们就有法兰西和苏格兰两个国家的人参与了。”海伦夫人说。

“那当然，这倒是没什么问题的。”

“而且我们这次远征，如果有您这样一位地理学家参加的话，对我们会有很大的帮助。您用科学知识来为人类服务，为人道精神服务，您说世上还有什么事比这更光荣呢？”

“是的！夫人，您说得太好了！”

“巴嘉勒尔先生，我觉得您不如将错就错，或者说，其实这是天意的安排。请您像我们一样吧，在天意将纸条带到我们身边时，我们就出发了。而天意又把您送到了‘邓肯号’上，那您就不应该离开‘邓肯号’呀。”

巴嘉勒尔想了想，终于开始松口了。

“我的朋友们，说实话，我看你们是想让我留下来，对吗？”

“您是怎么想的呢，巴嘉勒尔？其实，我觉得您也很想留下来，对吗？”爵士说。

“哦！是这样的。不过我一直不好开口，怕太冒昧！”那位粗心但博学的法国地理学家大声说。

第五章 优秀全面的小罗伯尔

知道巴嘉勒尔要留下来，每个人都很高兴，特别是小罗伯尔，他高兴地跳起来，搂住了巴嘉勒尔的脖子，兴奋之情溢于言表，差点将法国地理学家撞倒在地。

“真是个好孩子，我要教他地理学。”他说。

我们应该知道，麦盖尔船长可是一直致力于将小罗伯尔训练成一个优秀的水手；格莱拉弗爵士正在培养他成为一个勇敢而正直的人；少校训练他沉着冷静的性格；海伦夫人教育他成为善良真诚的人；玛丽则要求他不要辜负每一位热心教他的老师。

在这样的环境下，小罗伯尔必定会成长为一个优秀而全面的君子。

“邓肯号”在这里加上了煤，然后离开了这恶劣天气下的地方，向西进发。它沿着巴西的海岸行驶，到9月7日的时候，一阵北风将“邓肯号”送过了赤道线，进入了南半球。

“邓肯号”顺利地横渡着大西洋，每个人都满怀信心。在寻找格兰特船长的行程中，似乎成功在一点点地接近他们。在这些人中，最有信心的是麦盖尔船长，而他的信心，又来自于他的美好愿望，那就是全心全意地让玛丽小姐获得幸福。虽然他一直想隐藏对玛丽的特别关心，但除了玛丽以外，其他人都看在眼里。

对于那位博学的地理学家来说，他可以算是南半球上最幸福的人了。他整天忙着研究地图，那方厅的桌子上，摆放着的全是地图。因为

这个，奥比尔先生想要布置餐桌而没有地方，也会时不时地和他发生争执。

不过，楼舱里的人除了少校，都是支持巴嘉勒尔的。当然，少校之所以不支持是因为他对地理学没兴趣。

同时，巴嘉勒尔还在大副的一个箱子里发现了一堆书，里面有很多西班牙文字的书，因此，他决定学习西班牙语，而这种语言，船上没有一个人懂。巴嘉勒尔之所以想学西班牙语，是因为他觉得这对他在智利海滨做考察有帮助。他甚至还觉得，冲着他对语言的敏感，很可能一到康塞普西翁，他就能流利地和当地人对话。

为了达到这个目标，他一天到晚都在咿咿呀呀地学着这些复杂的语言。不过，闲着的时候，他也会教小罗伯尔一些科学知识，并将“邓肯号”路过的一些海岸的历史讲给他听。

9月10日的时候，船行驶在南纬5度73分，西经31度15分的地方。就在这一天，爵士听到了就连最有学识的人也不知道的历史。原来，这天巴嘉勒尔给大家讲美洲发现史时，讲到了哥伦布。最后他说，那位著名的热那亚人，至死都不知道自己发现了新大陆。

大家都觉得不可能，巴嘉勒尔却说得很肯定。

“没有比这更真实的历史了！当然，我没有想去抹杀哥伦布做出的贡献，但事实总归是事实。在15世纪末期的时候，人们一心一意想做的只有一件事，那就是怎么找一条最快到达亚洲的路，怎么最快从西方走到东方。总之，只有一句话，那就是怎么找出一条捷径到印度。这就是哥伦布想要试图解决的问题，所以他四次航行，曾到过美洲，在库马纳、洪都拉斯、莫斯基托、尼加拉瓜、维拉瓜、哥斯达黎加、巴拿马等

一带登陆。

“不过，这一带的海岸他知道的只有日本和中国，所以到死他都不知道那个新大陆的存在，死后更没有以他的名字命名那新大陆。”

“虽然我很愿意相信您的话，不过我亲爱的巴嘉勒尔，我还是有些地方不明白，那就是哥伦布的发现，是哪位航海家探出了结果？”爵士问。

“当然是哥伦布之后的一些人了，比如和哥伦布曾一起航行过的奥荷塔、品顿、维瑟普切、孟杜萨、巴思提塔斯、嘉白内尔、瑟利斯……这些航海家都曾沿着美洲东海岸进行过考察，他们曾由北向南去探测美洲海岸，发现那里在360年前，就和我们今天一样，被海流推着走。你们知道吗？朋友们，我们现在驶过的赤道线的地方，就是品顿15世纪末驶过赤道线的地方。

“我们如今已经快要接近南纬8度了，品顿是否是在这里到达巴西陆地的？一年之后，葡萄牙人嘉白内尔也曾来过塞居落港，之后，维瑟普切又在1502年的第三次远征中，向南推进；1508年，品顿又和瑟利斯一起航行，探察美洲沿岸各地。1514年的时候，瑟利斯发现了纳巴那他河口，不过也就是在那里，他被土人吃掉了，绕美洲南端的任务也就只能留给麦哲伦了。

“麦哲伦在1519年的时候，带领5只船出发，沿着巴塔哥尼亚的海岸南下时，发现了得塞多港和圣朱利安港，并在圣朱利安港停泊了很久。之后，他又航行到了南纬52度，发现了一千一百童女峡，也就是现在的麦哲伦海峡。1520年11月28日，他穿过海峡，进入到了太平洋。想想看，当他看到海面在阳光的照耀下闪闪发光时，心情是多么激动啊！”

“巴嘉勒尔先生，我真想生活在那种环境下。”小罗伯尔激动地叫道。

“是呀，我和你一样，我的孩子。如果我能早出生300年，我想，这个机会一定不会旁落他人。”

“要真是那样，对我们来说反而是个遗憾了，先生。因为您要是300年前就出生的话，那我们怎么能在這條船上听到您给我们讲这么精彩的故事呢？”

“这倒没什么，夫人，即使我不为你们讲，自然也会有别人为你们讲。他们甚至还会告诉你们，西海岸探险是皮赛儿兄弟的功劳。这两兄弟真是大胆的冒险家啊，他们曾是很多城市的建立者，比如库斯科、基多、利马、圣地亚哥、比利亚里卡、瓦尔帕莱索以及‘邓肯号’要到的康塞普西翁都是他们的功劳。在那个时候，他们两兄弟的发现和麦哲伦的发现联系起来后，就形成了美洲海岸线。这个贡献，也令旧世界的学者们惊喜万分。”

“如果是我的话，我一定不会满意的！”罗伯尔说。

“为什么不满意？”玛丽瞪着喜欢听发现史的弟弟问。

“就是，我的孩子，您为什么不满意呢？”爵士带着微笑也问。

“要是我的话，我一定还会看麦哲伦海峡的南部还有些什么。”

“嗯！没错，孩子，说得好极了。就是我，也想知道美洲大陆究竟是怎么延伸到南极的呢。还有比如它和南极之间，是否和德莱克推测的一样，还有一道海——对了，这位德莱克是你的同乡，爵士——所以说，如果罗伯尔·格兰特和雅克·巴嘉勒尔出生在17世纪的话，一定会跟

着索珍和勒美尔出发，因为这两名荷兰航海家也想揭开这个谜底。”

“这两个人也是学者？”海伦夫人问。

“不！这两个人不是什么学者，而是大胆的商人。他们也没想给科学做贡献。那时候，荷兰有个东印度公司，这个公司对穿越一切麦哲伦海峡的贸易船都要加以控制。我们知道，那时候，西方人要是去亚洲的话，必须穿过麦哲伦海峡，所以东印度公司可以说实施了一种垄断。有一些贸易船便想着和这些垄断进行斗争，所以想找另一条海峡。在这样的背景下，出现了一名叫伊萨克·勒美尔的人，此人接受过全面教育，而且非常聪明，他拿出钱来，组织了一个远征队，团队里就有他的侄儿雅各伯·勒美尔和一名霍恩的优秀海员索珍。

“这个远征队从1615年6月出发，这个时间比麦哲伦海峡的发现迟了100年。好在他们在炎地和斯达腾岛发现了勒美尔海峡，1616年2月16日，远征队绕过了被称为‘风暴角’的合恩角。这个合恩角可不简单，比好望角厉害得多。”

“太好了！我真想去那些地方探险。”罗伯尔又大叫。

“孩子，如果你真去了那些地方，你一定会非常高兴的。”巴嘉勒尔越说越兴奋，越说越起劲。

“这不难想象，一个航海家在一些航海地图上，一个个地标着自己发现的新地标，世间还有什么比这更开心，更快乐呢？比如看着一个陆地慢慢出现在自己面前，一个个的小岛、海峡仿佛是从海面上升了起来。最初，地图上的界线还不清楚，不连贯，这一块陆地，那一块小港，更远的是偏僻的港湾……但慢慢地，随着航海家的不断发现，地图上的虚线一下子变成了实线，港湾成了弓形海岸，海角和滨海陆地连接

起来，最后，一个完整的新大陆出现了，这个新大陆有江河、湖泊、山峰、河谷，甚至还有平原和村落，慢慢地，又形成了繁华的都市。

“啊！一个新大陆的发现者，才算得上是真正的发明家啊。他们发现这些地方的时候，就和地质学家发现了新矿山一样。一个新大陆出现了，接着就有了新世界，最后一点点都被别人挖掘、探测……真是太美好！可这一切都被别人发现过了，我们这些晚到者，反倒没有用武之地了。”

巴嘉勒尔说到后面的时候，显得有些沮丧。

“怎么可能没有用武之地呢，我亲爱的巴嘉勒尔！”爵士安慰他。

“没有了，都被发现了。”

“我们现在做的事，就是我们的用武之地呀。”

此时，“邓肯号”正疾速向维斯普廷和麦哲伦等名人走过的航道上疾驶。

9月15日的时候，“邓肯号”穿过了冬至线，船头也转向了著名的麦哲伦海峡的入口。好几次，巴塔哥尼亚的南部海岸几乎都可以看到了，但却好像又只是一条线，隐隐约约地天边出现。

“邓肯号”沿着海岸，在6公里以外南下。巴嘉勒尔用他那超大的望远镜看美洲海岸，只看到了模糊的轮廓。

9月25日，“邓肯号”行驶到了和麦哲伦海峡同纬度的地方，并很快驶了进去。通常情况下，汽船都是喜欢由这条路驶进太平洋的。此时的海峡长度不过700公里，不过水却很深，即使是大吨位的船也可以进

去。这个海峡的海底平坦，海内盛产鱼类，而海岸的森林也有很多动物。总之，这里是很好的停泊点，这个海峡的优点，是勒梅尔海峡和合恩角所没有的。

在进入海峡的最初几个小时，也就是在110至148公里的航程里，抵达格里考里角之前，海岸都很平，有很多沙，对这些细节，巴嘉勒尔丝毫也不放过。在海峡内是需要航行36个小时的，所以两岸的景致让这位地理学家可以有充足的时间在阳光下静心观看。

北边的岸上好像没有人烟，但南边那光秃秃的岩石上，却有几个火地人在游荡。让巴嘉勒尔失望的是他没有看到巴塔哥尼亚人，但船上的同伴们却不以为然。

“怎么会没有巴塔哥尼亚人呢？没有巴塔哥尼亚人，还叫巴塔哥尼亚吗？”他嘟囔道。

“尊敬的地理学家先生，不要急嘛，我们总会见到巴塔哥尼亚人的。”爵士说。

“很难说！”

“为什么很难说？这地方一定会有巴塔哥尼亚人的。”海伦夫人说。

“我表示怀疑，夫人，因为这么长时间，我都没有看到他们。”

“我想，巴塔哥尼亚在西班牙语中是‘巴挞弓’的意思，而这‘巴挞弓’又是‘大脚’的意思。想必这巴塔哥尼亚人的脚一定很大。”

“唉！知道名字的来历又有什么用呢？我们还不知道这些人该怎么称呼呢。”巴嘉勒尔故意说，似乎要以此激起大家的讨论。

“什么？不知怎么称呼？怎么可能？少校，你知道吗？”爵士叫道。

“我不知道，我也没兴趣知道！”少校说。

“巴塔哥尼亚人是麦哲伦给他们命名的，但火地人却称巴塔哥尼亚人为提尔门人；智利人叫他们高卡惠人；卡门的移民叫他们提尔门人；阿罗加尼亚人叫他们惠立什人；旅行家伯格威尔叫他们寿哈；法尔珂那叫他们特霍尔惠特……他们自己呢？又叫自己为依纳肯，而‘依纳肯’是‘人’的通称！所以我问大家，这么多的称呼，我们要怎么称呼他们？一个民族有这么多的名称，我真怀疑是不是有这个民族。”

“哇！好一番高谈阔论！”海伦夫人说。

“我承认您的这些说法，不过您还是要承认一个事实，巴塔哥尼亚人的称号多而乱，但他们的身高，应该有结论的吧！”爵士说。

“是错误的结论，我并不承认。”巴嘉勒尔说。

“不是说他们身材很高吗？”爵士说。

“不知道！”

“你可真是，那些亲眼见了巴塔哥尼亚人的旅行家们……”爵士不满地大声说。

“那些说他们亲眼见过的旅行家们，说法也不一样。麦哲伦说他的个子还不及巴塔哥尼亚人的腰部！”地理学家说。

“那不就说明他们很高吗？”

“可是德莱克却说英国人比最高的巴塔哥尼亚人还高。”

“哦！怎么拿英国人比？如果拿苏格兰人比，那巴塔哥尼亚人就不可能高了。”少校用鄙视的口气说。

“卡文迪什说这些人既高大又强壮，霍金斯也说他们是巨人，拉美尔和瑟泽还说他们身高有三米三。”地理学家又说。

“看看，这么多人说他们高，真实情况一定是这样的。”爵士说。

“是的，这些人的说法看似很令人相信，但沃尔德、拿伯罗和法尔珂那的话同样也令人相信，他们说巴塔哥尼亚人中等身材；著名的地理学家派伦·拉·基罗德、伯戈维尔、瓦利斯和凯特莱，还说巴塔哥尼亚人只有一米六左右呢。”

“那么，有这么多完全相反的说法，真实情况到底是什么样的呢？”海伦夫人问。

“真实情况？夫人，真实情况是巴塔哥尼亚人腿短身长。更有人开玩笑说，这些人坐着一米八，站着一米五。”巴嘉勒尔笑着说。

“好！学者们说得太妙了！”爵士也笑着说。

“要想让这些矛盾之处统一，那就是这些人并不存在，这才是最好的结果吧！好了，为了结束这场没有结果的争论，我说件让大家心情好的事吧，朋友们，那就是麦哲伦海峡真是太漂亮了，即使没有巴塔哥尼亚人，它也是漂亮的！”

没错，绕着布伦瑞克半岛航行的“邓肯号”，海岸两边的风景美极了。在又绕过格里考里角后，“邓肯号”前行了130公里，便把奔德·亚利纳大监牢抛在了船的右舷外了。智利的国旗和教堂里的钟楼隐隐出现在树林中，再往前行，海峡两边则突起了花岗石峭岩，那些峭岩的形状非

常怪异，让人看了有些害怕。山脚在森林里隐藏，但山顶上却有常年不化的积雪，白茫茫的一片插入云霄。

矗立在云际的塔云恩峰高2100米，位于西南面。夜幕降临，黄昏显得特别长，即将消失在天际的阳光将单调的天空染成了五颜六色。天空的星星越来越密集，航海者就是依靠南极星座指示方向的。在有星星的黑夜，星光如同海岸上的灯塔，给航行中的船只引着路。

“邓肯号”没有在沿途港湾停留，继续航行。

航行中，一种俯临海面的落叶木南极桦的树梢从帆架上不时掠过，有时候，“邓肯号”的螺旋桨又不断地拍打水面，惊醒了海面上停着的雁鹅、鳧鸭、鸥鹬，以及沼泽里的鸟类。

再前行一段时间，星光下的海岸上便出现了一些残垣断壁，那些建筑物虽然已经倒塌，但在夜色中却显得非常庞大，这些废弃的建筑遗迹是殖民者留下的。这些废弃遗迹用仅存的这点东西向海岸两边肥沃的土地，以及森林里丰富的物产表示着抗议。

穿过这片残败的遗迹，“邓肯号”便向饥饿港航行。

饥饿港的得名出自1581年。那时候，西班牙人赛孟多带领400名移民来到这里居住，并在此建立了圣菲利普城。几年后，因为饥荒，难熬的寒冬让移民死了一大半。1587年，有艘“嘉文史号”战船来到了这里，发现并拯救了这400名移民中的最后一个，这个人在这座具有600年历史的古城废墟里挣扎了整整六年，差不多快要饿死了。因为这个人，这段历史被记载了下来。

沿着荒凉的海岸，“邓肯号”继续前行。黑夜过去，黎明到来，“邓

肯号”依然在这条重要的海峡里航行，两岸又出现了桦树、榛树、枫树形成的森林，森林里不断冒出青油油的山岭，以及长着丰茂金雀花的土丘、山峰，以及那高高矗立的布兰克纪念塔。

“邓肯号”随后又经过了圣尼古拉湾口，这里曾被称之为“法国人湾”。从远处看，海面上有海豹和鲸鱼在嬉戏。这里的鲸鱼的个头很大，即使在3公里之外，仍然能看到它们喷出的水柱。“邓肯号”在绕着弗洛瓦德角时，看到上面布满了尖细的残冰。2000多米高的萨米都峰在海峡对岸耸立着，让人看得胆战心惊。岩石如同带子，将云层分隔开来，让山峰变成了空中群岛。实际上，由于合恩角只是荒海南纬56度下的岩石，所以弗洛瓦德角也就成了美洲大陆的尽头。

从这尖端过去后，海峡便越发显得窄了。海岸两边形成了两座岛屿，一座是布伦瑞克半岛，另一座则是德索拉西翁岛。德索拉西翁岛整体呈长条形，周边被成千上万的小岛环抱，犹如一条大鲸鱼落在鹅卵石沙滩上。

南美洲末端与非洲、大洋洲和印度的末端相比有着很大差别，显得支离破碎。伸进大西洋的一个角，很可能是经受了一场天灾才造成的。

在过了这片肥沃的土地后，两岸又荒凉起来，到处是连绵不断的光秃秃的海岸。海岸的支流如同凶猛的动物，将海岸啃噬成了月牙形。

“邓肯号”沿着弯弯曲曲的航道，像蛇一样爬行，但却没有丝毫的迟疑和错误。“邓肯号”行驶过的地方被浓烟包围，与海雾融为一体。荒芜的海岸上，有一些西班牙人开的商行。在这里，“邓肯号”没有丝毫减速，继续从一个个商行前经过。

过了塔玛艾角后，峡道慢慢变宽，船在行驶中也有了旋转的余

地。“邓肯号”转过波罗群岛的陡峭海岸后，便沿着南岸航行。在入港36小时后，那位于德索拉西翁岛最末端的皮拉尔角的峭岩便也展现出来。很快，“邓肯号”的面前出现了波光粼粼的海面。巴嘉勒尔激动起来，不停地挥舞着手，因为太过激动，差点因站立不稳而倒在甲板上。

第六章 分头行动

从皮拉尔角绕过去后的第8天，“邓肯号”开足马力，驶进了长22公里，宽18公里的塔尔卡瓦诺湾。这天天气晴朗。实际上，这个地方从每年的11月到第二年的3月，天空都是晴朗的。

不过，由于安第斯山脉挡住了整个海岸，所以南风不断地吹了过来。

根据爵士的命令，麦盖尔船长将船紧贴济罗岛和美洲西岸的零星小岛向前行驶。

行驶中，船上的人都在四下查看，希望海面上能浮起一块烂船板、一根断桅杆，或者是船上的任何一个小物件，只要能给他们提供“大不列颠号”沉没的线索也好，但遗憾的是没有，他们什么都没有发现。

“邓肯号”只能继续朝前行驶，此时，离克莱德湾多雾的海面已经过去差不多42天了，“邓肯号”停泊在了塔尔卡瓦诺港。

刚一停下船，格莱拉弗爵士便让人放下了小艇，带着巴嘉勒尔乘坐小艇上了岸。博学的地理学家希望能借此机会展示自己学过的西班牙语。不过，对于他的西班牙语，本地人连一个字都听不懂，这不免让他很吃惊。

“难道是我的音调有问题？”他说。

“我们还是去海关吧！”爵士说。

到了海关后，海关人员用简单的英语单词，以及手势和表情告诉他们，美国领事馆在康塞普西翁。如果去的话，骑马一个小时能到。爵士找来两匹快马，两个人骑着马很快就进了城。这座城很大，是皮赛儿兄弟那勇敢的伙伴，瓦第维亚这个天才冒险家建立的。

曾经多么繁华的一座城呀，此刻却萧条败落。而之所以变成这样，都是因为土人的掠劫。1819年，经过一场大火，这里的房屋被烧毁，没有烧毁的地方也被烟熏火燎，变了模样。

此时，这座城已经被塔尔卡瓦诺港彻底淘汰了，如今的城内，居民只剩下不到8000人了，而这数千名居民，也因懒惰而让街道变成了草地。

阳台上，有曼陀林乐器响起，窗帘内传出了柔美的歌声。原本以男性为主的城市，如今已经变成了只有妇女和儿童的村落。

爵士没有心思去研究它为什么会萧条，即使巴嘉勒尔不断怂恿他了解，他也无动于衷，他不愿意耽误时间，他要马上去美国领事馆找庞陀克。

美国领事庞陀克热情地接待了爵士，在听到格兰特船长遇难的事后，他答应爵士他会在沿海一带调查了解。

对于三桅船“大不列颠号”有没有在智利，或者是在阿罗加尼亚海岸的37度线附近出事，答案很肯定，没有。因为不管是英国领事馆还是其他国家的领事馆，都没有接到类似报告。不过，爵士并没有因此而放弃。他到了塔尔卡瓦诺后，不辞辛苦地四处打听、探访，甚至还花钱找线索，但一切都是白费力气。即使他们向沿海居民了解，也没有丝毫线索，也就是说，这里没有“大不列颠号”失事的痕迹。

当爵士把这些情况告诉船上的同伴时，格兰特小姐和她弟弟的失望可想而知。而这已经是“邓肯号”到达塔尔卡瓦诺第六天的事了。大家不得不聚在楼舱里商量。海伦夫人不断地安慰格兰特小姐和她的弟弟——她除了安慰他们，还能做什么呢？

在沉闷的气氛下，巴嘉勒尔再次把那三张纸条拿了出来，仔细研究，仿佛想让纸条亲口说出话来。他就那么一直死死地盯着，整整盯了一个小时。爵士不得不叫他说：“巴嘉勒尔，用您那聪明的脑瓜，好好想想，我们对这几张纸条的理解是不是有误？是不是我们的逻辑出现了问题？”

巴嘉勒尔不回答，他皱眉沉思。

“会不会是我们把地点弄错了？不过再笨的人，也不会认错巴塔哥尼亚这几个字吧！”爵士又说。

巴嘉勒尔还是一声不吭。

“还有，那个‘indien’单词，我们说是指印第安人，应该更能说明我们前面的判断是正确的吧！”爵士又说。

“是这样呀！完全没错！”少校回答爵士说。

“再往下看，也就更容易理解了，遇难的船员在要做印第安人的俘虏前，写了求救纸条，这不是很明显吗？”爵士还在说。

“看来，我不得不打断您的话了，爵士！”

巴嘉勒尔终于开口了。

“您的推断是没错，但最后一点我不是很认同。”

“哦，什么意思？”海伦夫人问。

所有人都把目光转向了地理学家。

“我觉得，格兰特船长在写求救纸条时，已经成了印第安人的俘虏了。而且这点很清楚，不容怀疑。”巴嘉勒尔强调说。

“什么意思？麻烦您解释清楚一点吧，先生！”格兰特小姐说。

“太容易解释了，亲爱的玛丽小姐。纸条的空白处，我们是不能读成‘将被俘虏’的，而应该读成‘已被俘虏’，这样说大家明白了吗？”

“那是绝对不可能的。”爵士说。

“不可能？为什么不可能，我的朋友？”巴嘉勒尔微笑着问爵士。

“很简单，瓶子里的纸条上写着经纬度，由此可以说这求救纸条是在船触礁后写好扔进海里的。”

“这一点没有丝毫根据！因为我不明白为什么被印第安人俘虏后就不能写求救纸条，不能装在瓶子扔进海里了。”巴嘉勒尔反驳道。

“理由很简单，被俘后，他们不可能遇到海，没有海怎么扔瓶子？”

“那也可以扔进流入大海的河里。”巴嘉勒尔说。

在惊诧中，没有人再说话，因为这种现象虽然让他们觉得不可思议，但理论上又是行得通的。巴嘉勒尔见大家暗淡的眼神里有了亮光，知道自己又给大家带来希望了。

海伦夫人第一个开口了：“这个想法也不是没有可能。”

“还是个非常妙的想法。”巴嘉勒尔得意地补充了一句。

“那您的意思是……”爵士问。

“我觉得我们不妨沿着南纬37度线穿越美洲海岸，不要离开半岛，沿37度线找到大西洋，很可能在37度线上就能找到‘大不列颠号’的船员。”巴嘉勒尔说。

“我觉得可能性不大。”沉默的少校突然说。

“不管希望是大还是小，我们都不能放弃。如果我的推测是对的，那瓶子的是通过某个内河，流到海里的话，根据我说的路线，我们一定会找到做俘虏的他们的。怎么样？看看地图吧，我一定会让你们相信我的话的。”

巴嘉勒尔说着，将一张智利和阿根廷各省的地图摊在了桌子上。

“我想，你们还是跟我横贯一次美洲大陆吧！我们可以先跨过狭长的智利，然后越过安第斯山脉的高低岩，去草原中间。想想看，这些地方缺大江吗？缺那大河吗？缺水道吗？什么都不缺。都是可以把装着纸条的瓶子送到海里去的。而这些地方，也是可以被土人部落抓获的，格兰特船长他们，很可能就是在这些地方落入了印第安人的手里。我们可不能让他们失望。沿着我给大家指的地图上的这条线路，你们难道不愿意去吗？即使我指的这条路是错的，我们不是还可以沿着37度线找吗？我们一定要找到这些遇难船员，不就是沿着37度线环绕地球一周吗？”

他热情洋溢的一番话，感动了大家，大家全都站起来和他握手。

“是的，一定在那里，我的父亲一定在那里。”罗伯尔紧紧地盯着地图，像是要把地图看进眼睛里去，他不停地嚷嚷着。

“我的孩子，你父亲在什么地方，我们就去什么地方找！我们亲爱的朋友巴嘉勒尔说得再清楚不过了，我们应该毫不迟疑地沿着这条线去找。格兰特船长不是在印第安人手里，就是在一些小部落手里。要是在小部落的手里，我们可以直接将他们救出来。但如果在印第安人手里，我们就要先侦察好情况，然后走东海岸回船上，再到阿根廷的首都招一批人，由少校指挥，这样就能完全对付阿根廷的印第安人了。”爵士说。

“好的，爵士，那我们就这么做。不过我还想补充一句，横跨美洲的旅行一定能顺利完成。”

“对！顺利完成，还不会疲劳。想想看，很多人的装备都不如我们，也没有我们这么伟大的事业鼓舞，但他们都能横贯大陆旅行，比如1782年的威纳莫，不就是从卡门走到了高低岩吗？还有1806年，智利康塞普西翁省的法官董·路易，他从安杜谷出发，穿过安第斯山脉，经过40天的路程，不是到了布宜诺斯艾利斯了吗？还有那个卡希亚上校、杜比倪先生，以及我可敬的同事莫西博士，他们不是都游遍这些地区了吗？他们是为了科学研究这么做的，而我们则是为了救人，当然更要这么做了。”

玛丽激动得声音都有些颤抖：“先生！您不怕危险，仗义救人，太让我们感动了。感激的话都不知道要怎么说。”

“危险？怎么会有危险？谁说有危险？”巴嘉勒尔叫了起来。

“我没有说！”罗伯尔瞪圆了眼睛，一脸坚毅。

“危险？哪里有什么危险？我们做的事怎么会有危险呢？我们只是在做一次648公里的旅行而已。我们是在沿直线走啊，而且这旅行路线遵循的纬度以及气候都是和在北半球西班牙、西西里岛、希腊等地的纬度一样的。这次的旅行，其实就像散步一样轻松，而且绝对不超过一个月。”

“哦，巴嘉勒尔先生，那您说，那几名落难的船员，在印第安人手里会有生命安全问题吗？”海伦夫人插话道。

“安全！这还需要考虑吗？印第安人可不是野人，是不会吃人的。我曾认识一位法国人，季莱尔先生，他就曾被草原区的印第安人掳去整整三年，当时吃了不少苦，也受到了很多虐待，但他却经受住了考验，最终胜利回国。欧洲人在这些地方，就和有用的动物一样，是有他们的价值的，所以印第安人会非常爱护他们，就像爱护他们那些值钱的动物一样。”

“要是这样的话，我们就不要再犹豫了，出发吧！不过我们要走哪条路线呢？”爵士问。

“有条路特别好走，虽然前面有些山路，走着走着也会遇到安第斯山东面山脚的小斜坡，但接下来就好走了，那是一片沙地和原野，没有任何崎岖的山路，那里简直就像一个大花园一样漂亮。”巴嘉勒尔说。

“我看还是先看看地图再说吧！”少校说。

“亲爱的少校，地图在这里。我们可以先沿37度线，从智利海岸罗美纳角与卡内罗湾之间出发。然后穿过阿罗加尼亚首都，随即再越过安杜谷火山南面的小道，过几个高低岩，再下一道绵延山坡，再渡过一条纳乌克河和科罗拉多河，就能到达潘帕草原了。走过潘帕草原，再过盐

湖、格米伊河、塔芭儿坎山，就到了布宜诺斯艾利斯省边界了。过了边界，再爬坦丘尔山。沿途，我们可以一直寻找，一直找到大西洋岸边的马达那斯角。”

巴嘉勒尔熟练地说着这些地名，摆在面前的地图都成了摆设。他的记忆力很强，在熟读弗勒雪、毛利纳、荷泊尔、伯爱尔、杜比倪等这些人的著作后，他便记下了这些地方。在说完一连串的地名后，他又说：“我亲爱的朋友们，这条路线是直线，只需30天我们就能走完。当然，如果风势不好，‘邓肯号’说不定比我们还会早些到达东海岸。”

“这么说，‘邓肯号’要在哥连德角和圣安托尼角之间巡航，是这样吗？”船长问。

“是的！”

“那么这一趟远征，都是哪些人去呢？”爵士问。

“我觉得去的人越少越好。我们现在不过是去打探格兰特船长的下落，又不是去和印第安人打仗。所以我想格莱拉弗爵士当然是我们的领袖，还有少校肯定也是要去，当然还有你们忠实的巴嘉勒尔……”

“还有我！我也要去！”小罗伯尔大叫。

“不要随便插嘴！”玛丽告诫弟弟说。

“他为什么不能去呢？旅行对年轻人来说是种很好的锻炼。”巴嘉勒尔冲小罗伯尔说。

“这样的话，我们就有四个人了，如果再叫上‘邓肯号’的三名水手……”

爵士的话还没有说完，麦盖尔船长就冲爵士说了：“您就不能让我去吗？”

“我亲爱的船长，女客都在船上呀，我们最亲爱的人在船上，当然需要最忠诚、热情的船长留下来照顾她们了。你去了，谁来照顾她们？”爵士说。

“我们不能陪同你们一起去吗？”海伦夫人问道，她有些担心爵士他们。

“亲爱的海伦，这次旅行我们很快就会回来的，所以我们只是暂时分别，而且……”

“好的，我明白！祝你们成功！”海伦夫人说。

“这可不是旅行！”巴嘉勒尔说。

“不是旅行又是什么呢？”海伦夫人问。

“我们只是走马观花般地经过，就像神仙来人世间转一圈一样，走走，行行善。‘日行一善’就是我们的座右铭。”

巴嘉勒尔半开玩笑的这句话，结束了这场辩论。其实，这并不能算是一场辩论，甚至可以说只是一次谈话而已，因为大家的目标一致。有了决定，他们当天就开始做起了准备。对于这次行动，他们也不准备张扬，怕打草惊蛇，最后让印第安人将格兰特船长他们又藏起来了。

他们将动身的日子定在了10月14日。在挑选随行的水手时，船上的水手个个抢着要去。这反倒让爵士为难起来，不知道该选谁，最后只能抽签决定。抽签结果是大副汤姆·艾撒汀、水手维尔逊和穆纳参加进

来。维尔逊和穆纳的身体很强壮，而艾撒汀又有“拳王”之称，被选中的三个人开心得不得了。

爵士积极地做着准备，他要求大家一定要按时出发。而同时，船长也开始了贮煤工作，以便尽快起航，这样就能在远征团队到达阿根廷海岸之前提前到达。所以爵士也和船长约定，两队人马进行比赛，看谁能最先到达那里。

10月14日，在他们预定的时间里，一行人准备出发了。出发时，大家全都聚在了方厅里，“邓肯号”也张好了篷帆，将螺旋桨打在了塔尔卡瓦诺湾的水面上。爵士、巴嘉勒尔、少校、罗伯尔、艾撒汀、维尔逊、穆纳都带着马枪和“高特”手枪准备下船。他们找的向导带着骡子则在岸边的水栅处等着他们。

“我们该出发了！”爵士说。

“去吧，朋友们！祝你们顺利！”海伦夫人强装镇定地说。

爵士抱了抱海伦夫人，罗伯尔跑到姐姐面前，搂起了她的脖子。

“亲爱的朋友们，我们最后一次握握手，然后就要等到在大西洋海岸见面了。”巴嘉勒尔说。

整个船上的人都涌在了甲板上，送7位远征者离船。不一会儿，7个人就到了码头，游船也开始向岸边开去，离岸不过百米。

“愿上帝保佑你们！”海伦夫人在楼舱上，大声喊道。

“放心吧，夫人！上帝一定会保佑我们的！请相信，我们会互相帮助的！”巴嘉勒尔说。

“开船！”船长命令道。

“上路！”爵士也对远征队员们说。

两队人马分别行动，陆地上的远征者赶着坐骑，向海岸进发，而“邓肯号”则加足马力向海洋驶去。

第七章 阿罗加尼亚国

格莱拉弗爵士的远征队里，除了他们7个人外，还有向导，以及向导带来的两个大人一个小孩。

向导是赶骡者的头子，是个在本地生活了20年的英国人，专门租骡子给旅客，并给过高低岩及各个山隘的旅行者做向导。在过了山隘后，他们又会将旅行者交给另一位对阿根廷比较熟悉的向导。

这位英国向导叫立古儿，虽然整天和骡子、印第安人打交道，但他却并没有忘记自己的母语，所以也能和爵士他们进行交流。这给爵士及远征队提供了方便，不管是提要求还是下命令，都不会因为语言不通而发生误会了。这位叫立古儿的向导也很乐意用英语同他们交流，因为巴嘉勒尔的西班牙语实在很难听懂。

立古儿用智利语来说叫“卡达芭”，而这个英国“卡达芭”又雇了两名当地的骡夫，骡夫用智利语来说叫“陪翁”，此外，他还雇了一名12岁的孩子做他们的助手。

“陪翁”的主要工作是牵运送行李的骡子，小孩的工作是在前面引路。所以小孩骑着一匹挂着铃铛的小母马，走在骡队的最前面，后面跟着的是10匹骡子。

在这10匹骡子中，有7匹是7位旅客在骑，还有一匹是英国向导立古儿骑。另两匹托着行李和布匹，这些布匹是他们准备“贿赂”一些部落酋长用的。两个“陪翁”因为要牵骡，所以是步行。

这样的装备，从安全和速度上都可以保证横贯智利的长途旅行。首先，过安第斯山就不是一次普普通通的旅行，必须借助强壮的骡子才行。而这些骡子，由于是阿根廷产的品种，所以发育很好，非常适宜爬山。同时，这些骡子对饲料的要求也没有那么高，甚至每天只需给它们喝一次水就能让它们走上8个小时，即使不停歇地走48公里也不用休息，即使驮300多斤重的东西也不会嫌重。

连接两大洋的这段路程中是没有任何旅社的，旅行中，远征者们只能吃干肉和辣椒拌饭，或者途中打些野味来烤着吃。对于喝的方面，他们每人身上都带着一些甜酒，甜酒装在用牛角做成的器皿里，遇到瀑布或溪水时，只需往瀑布或溪水里加上几滴甜酒就行。当然，在这种路上行走，因为神经始终处于紧张状态，非常容易受到刺激，所以含酒精的饮料并不能多喝。

至于晚上睡觉所盖的东西，他们都装在鞍子里，并用绣了花的宽带子绑在马的身上。装被子的鞍子是用本地的羊皮做成的，将这种羊皮一面割光，另一面保留羊毛，就能在寒冷而潮湿的黑夜，供旅行者们遮盖。盖着这样的暖和被子，也就能一觉睡到大天亮了。

爵士是个对旅行很内行，对各种地方风俗习惯很容易适应的人，所以他为自己和同伴准备了智利人穿的衣服。巴嘉勒尔和罗伯尔的装束是孩子穿的，是一种智利人穿的斗篷，不同的只是大小不一样。两个人穿着长长的皮靴，看起来非常滑稽。一穿上，自己先笑起来。

斗篷又叫罩篷，是一块面积不小，带着格子的花呢，然后在上面穿了个洞。

远征者们脚上穿的靴子是用小马后腿上的皮做成的；乘坐的骡子装

备也很齐全，骡子的嘴里衔着阿拉伯独有的嚼铁，嚼铁的两端又有皮质缰绳，而这些缰绳必要时又可以当鞭子用。骡子的头上有色彩艳丽的络头和漂亮的褡裢，褡裢里装着当天要吃的干粮。

粗心大意的巴嘉勒尔，每次上骡子时都差点被骡子踢上几脚。而当他一爬上鞍子，便会悠闲地坐在上面，根本不管骡子，任由它随心所欲地走，这使他腰上别着的大望远镜荡来荡去，看起来非常好玩。

幸好骡子非常听话，这也让他非常满意。而小罗伯尔，一上骡子便展现出了一流骑手的姿态。

全队出发的时候天气很好，天空像被水洗过一样瓦蓝，虽然烈日炎炎，但海风还是让他们感受到了微微的凉意。沿着塔尔卡瓦诺湾的曲折的海岸，他们快速行进，在向南走了48公里后，踏上了37度线的末端。

行进中的第一天，大家在芦苇丛中穿行，很少说话。冒着黑烟的“邓肯号”虽然渐行渐远，很快就要消失在天边了，但他们还是依稀能看到。而那临别时的话语，也一直回旋在他们的脑海。

在默默无语的旅行者中，有个人一直在自言自语，而且是用那蹩脚的西班牙语在自说自话，这个人就是法国地理学家巴嘉勒尔。

英国向导看样子也是个话很少的人，一路上都不说话。看来职业并没让他变得油嘴滑舌，他甚至和“陪翁”都很少说话。两个“陪翁”做这职业时间长了，也明白要多做少说，所以除了骡子停下来，他们会咳嗽一声，催促它们不要偷懒外，并不说多余的话。而如果他们的咳嗽对骡子不起作用，他们就会向骡子扔个石头，石头往往扔得很准，即使再执拗的骡子，也会乖乖地服从。

如果骡子身上那种绣花的带子松了，或者缰绳掉了，“陪翁”就会急忙脱下自己身上的罩篷，蒙在骡子头上，然后把带子系紧，把缰绳重新绑上，然后照旧往前走。

向导和“陪翁”有个习惯，他们早晨8点吃完早饭后就出发，一直到下午4点才会停下来休息。爵士非常尊重他们的习惯。这天，向导在向大家发出休息的信号时，旅行者们正好走到海湾南端的阿洛戈城，截至目前，他们还没有离开能听到海水拍打的海岸。他们还要向西前进32公里，直到卡内罗湾，才能到37度线的末端。

旅行者一行走遍了海滨，却没有发现任何沉船迹象，再往下跑也是白费时间，所以他们决定将阿洛戈城作为出发点，沿着这条直线一路向东进发。

这天晚上，他们进了城，来到了一家简陋的旅社，准备过夜。

阿洛戈城是阿罗加尼亚的首都，而阿罗加尼亚人又是智利族的一个分支，这一分支的人身材强健，神情傲慢，在南北美洲中属于完全没有受过外力统治的一族。实际上，阿洛戈城曾一度被西班牙人统治，但这里的居民却没有退缩和屈服，他们抵挡西班牙人的侵略，就和阻挡智利人一样凶猛，所以最终他们有了独立的旗帜，那面蓝底白星的旗子也一直飘扬在护城墙顶上。

这天晚饭前，爵士和巴嘉勒尔还有向导在街上散步，街边的房子屋顶是用茅草盖成的。这里除了有一所教堂，以及一座叫圣梵济的修道院遗址可以看外，已经没有什么可看的东西了。

爵士试图向这里的居民打听一下沉船消息，但没有结果。而巴嘉勒尔对于他所说的西班牙语，这里的人听不懂感到很失望。其实，阿洛戈

城的人是说阿罗加尼亚语的。这种土语在整个麦哲伦海峡地区都通用，所以巴嘉勒尔的西班牙语即使说得再好，也没有用武之地。

由于不能和土人交流，他只能四处看了，这也让他重新找到了乐趣。因为他觉得阿罗加尼亚人的长相特别有意思，而且这些人对于一个外国人朝他们死命地看并不反感，任由他来观察。

阿罗加尼亚人身材高大，皮肤呈古铜色，面部扁平。这里的男人没有胡子，眼神时常躲闪，脑袋很大，头上披着又黑又浓的头发。这些人看起来像是整日无所事事，游手好闲。

不过，相对于男人的懒散，女人却很能吃苦。她们每天不仅要忙着做家务，而且还要为主人照顾马匹、擦拭武器、耕田、打猎……除了这些外，她们还会抽空编织一些翠蓝色的罩篷，这样的罩篷，她们两年织一件，一件最少能卖300美元。

总的来说，阿罗加尼亚的风俗野蛮，人类的所有坏习惯，他们似乎都有，所以并不是一个能引起人们注意的民族，但这个民族却喜欢独立。

“真是些勇敢的人啊！”巴嘉勒尔散完步回来，在和大家围坐着吃饭时，突然感叹道。

大家觉得他的赞美有些言过其实，他又说，在他游览阿洛戈城的时候，他那颗法兰西人的心在猛烈地跳动。大家不知道他说的是什么意思。少校则问他那颗心为什么会猛烈跳动。巴嘉勒尔说，他的心狂跳不止是有原因的，也很正常。因为他有个同乡曾做过阿罗加尼亚的国王。少校问他这个国王的名字，巴嘉勒尔骄傲地说是脱勒斯先生。

他说脱勒斯先生是个地道的好人，长着络腮胡须，早年还在法国的柏立戈城做过律师。不过，虽然他做了阿罗加尼亚的国王，但最终还是被之前下台的那些人赶下了台。

少校在听他说朋友是一个律师，而且做了国王又被人赶下来时，忍不住笑了。巴嘉勒尔严肃地说：“律师做国王，可比国王做律师要容易得多。”

他这话一出口，大家全都笑了起来，并举起手里的玉米酒，连喝几口，为那位做过阿罗加尼亚国王的律师祝福干杯。几个小时后，大家各自裹着罩篷睡着了。

第二天早上8点钟，一行人又开始出发。小孩牵着领路的骡子走在最前面，“陪翁”走在最后，一行人又沿着37度线向东走去。他们穿过了阿罗加尼亚的一片葡萄园，又过了一片青草肥沃的地区。

慢慢地，人烟稀少起来。又走了一里多路后，他们见到了美洲大陆闻名的印第安人的练马人。再向前走，他们看到了一座被废弃的驿站，这个驿站曾是土人躲避风雨的地方。最后，他们还遇到了两条拦路的河。

幸好向导找到了一个浅滩，大家这才安然渡过。此时，安第斯山脉已经展现在了他们眼前，那是一个个向北绵延，有着圆顶的山峰。这条山脉是整个新世界的脊梁，他们看到的只是巨大脊梁中最低的一部分。

下午4点钟的时候，他们已经走了56公里了。疲惫的他们在旷野中的一棵野石榴树下休息。骡子很累，“陪翁”打开了它们的缰绳，让它们自由自在地在草地上吃嫩草。骡子驮着的褡裢里有干肉和辣椒饭，吃完这些后，他们将羊皮做的被子铺在了地上，然后躺在上面休息。他们要

借此消除一天的疲劳。

晚上睡觉有“陪翁”和向导轮流守夜，他们睡得很安心。

在如此晴朗的天气下，全体人员，包括罗伯尔都很开心，身体上也没什么不适。所以大家觉得还不如就跟在“赌场”上一样，手气好的时候乘胜追击。于是，第3天的时候，他们的速度加快了，即使遇到有激流的河，也能安然渡过。

晚上，他们在介于智利和土人国之间的河旁休息，第二天又接着走，再次前行了56公里。

这里土地肥沃，花草盛开，植物有宫人草、木本紫罗兰花、曼陀罗花、仙人掌等等。这个地区还有一些独有的鸟类，比如鹭鸶、鸱枭，以及逃避鹞鹰的黄雀等。

当然，草丛里也有动物存在，比如南美豹等。至于在这里的土人，虽然偶有看到，但却很少，像印第安人和西班牙人的混血儿就更难看到了。

偶尔见到的土人打着赤脚，赤脚上拴着大马刺，胯下骑着的马也被刺得鲜血直流，但仍在草原上狂奔。马奔跑的速度很快，如同一个鬼影，一晃而过。他们想找人问路，却怎么都找不到合适的人，所以什么消息都没打听到。

由于无法做探访，爵士只能耐着性子，继续往前走。

17日的时候，他们还是按以前的进度和顺序前行，罗伯尔却精气神十足，不按顺序走，非要走在拴着铃的骡子前面。为此，他坐着的骡子也吃尽了苦头。最后，爵士不得不严厉呵斥他，这才让他回到了原来的

位子上。

道路开始变得崎岖难行，地势也是高低起伏，很不好走，这预示着前面就要遇到山地了。

河多了起来，河水沿着崎岖的山坡汨汨地流着。巴嘉勒尔不停地看着地图。如果有些溪流在地图上看不到，他便很生气，他生气的样子看起来非常好笑，有些七窍生烟的感觉。

“这条河流竟然在地图上找不到，一条河流竟然连它的身份证明都没有，这是非常严重的事情。从地理学的法律角度来看，这条河是不存在的。这怎么可以？”

他一边嘟哝，一边开始给这条河流起名字，并在地图上做出了记号，而每次起名字的时候，他总要用上西班牙语中最响亮的形容词。

“多好的西班牙语呀，多么有震撼力的语言啊。如同金属制成的，我觉得，这种语言里，一定含有78%的铜、22%的锡，它的强度能超过铸钟的青铜。”巴嘉勒尔得意地说。

“这么美丽的语言，你应该学得很不错了吧？”爵士问他。

“当然！亲爱的爵士！不过，也许是音调的问题……可惜啊！如果音调对的话，他们一定能听懂的。”

巴嘉勒尔遗憾地说，他真希望自己能找准音调，所以一边走，一边练习发音，嗓子都被他练得发哑了。同时，一路上他也没忘记回答一些地理学上的问题，当然，在这上面，他显然是内行，甚至可以说全世界都没几个人比他厉害。

因为只要爵士向那向导提出一些问题，比如想知道当地的一些特点时，他总是可以抢先说出来，而且说得非常完整，这不禁让那向导大吃一惊。

这天中午10点的时候，他们遇到了一条横截他们一直遵循着的那条直线的路，爵士不知道这叫什么路，便问向导。不等向导回答，巴嘉勒尔就说了：“这是一条由荣博尔通向洛杉矶的路。”

爵士问向导，巴嘉勒尔说得对不对，向导说：“完全正确！”

向导说完，又问巴嘉勒尔：“您以前来过这里吗？”

“来过！”巴嘉勒尔一本正经地说。

“来过？怎么来的？是骑着骡子来的吗？”

“当然不是，我是坐着安乐椅来的。”

向导虽然不知道他这话是什么意思，但也没再问，耸耸肩走了，走到了队伍的最前面。

傍晚5点钟的时候，他们来到了一个山坳，并在那里休息。山坳在小洛卡城的北边，离小洛卡城仅有几里远，却是安第斯山的最低处。

第八章 穿越安第斯山脉

远征至今，他们还没有遇到什么不能解决的问题。不过，接下来的爬山难免会遇到一些问题和危险，与自然界真正做斗争才刚刚开始。

因为他们现在马上就要面临一个问题，那他们穿越安第斯山脉，要走哪条路才能不改变原来的路线？他们问向导。

“这一带有两条路，其中一条是曼朵察曾经发现的阿尼卡那条路。”巴嘉勒尔又抢先说。

“是的！没错！”

“还有一条路是否就是威纳里卡岭以南的那条路？”巴嘉勒尔又问向导。

“对！是这样的。”

“不过，朋友们，这两条路都有一个问题，那就是不是偏北就是偏南。”巴嘉勒尔说。

“还有路可以选择吗？”少校问。

“有，那就是位于火山斜坡的安杜谷小道，那里在南纬37度30分的地方。也就是说，如果我们走这条路的话，离我们预定的路线就差了半度。这条路的高度也不高，不到2000米。是察米地奥·得·柯鲁茨探索出来的。”

“这条安杜谷小路应该可以走，不过，你认得这条路吗？”爵士又问向导。

向导说：“认识，爵士，这条路我是走过的。我之所以没有提起它，是因为它是小路，这条路最多只能走到牧群里去，这条路是东部的印第安人畜牧走的路。”

“哦，朋友，如果是这样的话，只要牛马能走的地方，我们都能通过。而且这条路正好就在我们要走的直线上。我们就走这条路吧！”

有了决定后，一行人便出发了。他们钻进了拉斯内卡斯山谷，山谷的两边是结晶石灰岩，山路用一个让人几乎感觉不到的斜坡在向上延伸。

差不多11点的时候，他们走到了一个小湖边。

这个小湖是附近小河的汇流形成的天然蓄水池，周围环境非常好。小河的水流发出汨汨的声响，缓缓地流进湖里。湖岸上有高原，高原上长满了林木野草，通常情况下，印第安人就是在这里放牧的。

绕过这里，他们看到的是横亘南北的沼泽地，由于他们有骡子带路，而骡子有经过沼泽地的经历，所以很快就过去了。下午1点钟的时候，他们从巴内纳堡旁绕过。山坡不再是斜着缓缓向上，而是形成了陡坡。周围高山嶙峋，骡子踩在石头上，石头哗哗地往下滚，看起来很像石头瀑布。

下午3点钟的时候，他们看到了很多1770年土人起义时毁掉的一些堡垒，这些堡垒在此时，因岁月而变得诗意起来。

“唉！难道这些高山还不够将人阻隔吗？还要修碉堡！”巴嘉勒尔

说。

从这时候开始，路不仅越来越难走，而且也险峻起来。山坡的坡度越来越大，路也越走越窄，小路下的山谷，深得吓人。

骡子意识到了危险，小心地用鼻子嗅着路。远征队的队员们一个挨一个地紧紧跟随前进。有时候，当他们拐了一个陡弯后，却发现领路的那头骡子不见了，他们只能根据远处传来的铃声前行。有时候，那蜿蜒曲折的山路会让骡队形成两条平行线，甚至那领头的向导可以和走在最后面的“陪翁”讲话。而他们之间隔着的那个山谷，虽然宽度不到20米，但深度却达到了几百米以上，成了平行而行的两队人马间的巨大鸿沟。

不过，即使在如此险峻的山上，仍然长着一些草本植物，这些草本植物从岩石缝隙伸了出来，展示在人们面前。

从这些植物上，人们还是感觉到了矿物质对它们的侵袭。

凝固的熔岩越来越多，熔岩呈铁青色，高高耸起，尖端有黄色晶体。这些物质的存在，让人们马上意识到，他们就要靠近安杜谷火山了。周围的岩石一层层地堆砌，在上面摇摇欲坠，好像随时都有掉下来的可能。但即使这样，它们还是互相攀附，以防止倒下。从这些形状来看，也许只是微微的震动，就可能让岩石改变它们原有的形状。而从这些倾斜的山峰，东倒西歪的窟窿，以及那不规则的圆顶上，他们能看出这座山的形状还没有固定下来。

没错，安第斯山的大骨架正发生着变化，所以也让路线随着大骨架的变动而发生变化，也许昨天留下的认路标识，今天再来看时，已经不在原来的位置了，所以这让向导常常搞不明白。他需要停下来四处查看，仔细辨认岩壳形状，从那些容易破碎的石头上，寻找印第安人走过

时留下的痕迹。

没有其他办法，他们只能这么辨别方向。

爵士紧紧跟着向导，他知道向导的烦恼，也知道他们的行路越来越困难，却也不能去问他们，因为他觉得向导很可能就和这些骡子一样，天生有识路的本领，他应该相信他们。

有差不多一个小时，向导都在路上犹豫，在他们已经爬上去很高时，却又发现路不对，赶快退了出来。这种情况维持了很长时间，突然，他们走进了一条不怎么宽的山谷，这山谷非常狭窄。在这样的山谷里，四处都是悬崖峭壁，这些峭壁呈山峰状，挡住了他们前行的方向。

向导四处找路，但都找不到，他只能从骡子上下来，交叉着胳膊站在那里沉思。

爵士走近他，问道：“迷路了吗？”

“没有，爵士！”

“但我们现在已经不是在安杜谷那条路上了对吗？”

“不，我们还在那条路上。”

“不会错吧！”

“不会错！您看到了吗？这里到处都是印第安人烧篝火留下的灰烬，那里还有羊群走过留下的痕迹。”

“这么说，这条路是别人走过的了？”

“是的，不过现在走不过去了，很可能是不久前的地震将这条路堵住了。”

“即使堵住了骡子，也是不会堵住人的吧！”少校突然说。

“哦，那要看你们到底想怎么做了，我已经尽力了。如果大家愿意往回走，然后再在高低岩那边重新寻找出路的话，骡子和我会带大家走那条路。”

“那不就要耽误很长时间了？”

“至少会耽误三天。”

爵士没有说话，向导在遵守自己的合约做事，他的骡子是不能再往前走了。爵士回头看了看同伴。

“你们愿意继续走这条路吗？”

“当然愿意！”艾撒汀说。

“我们现在的问题是什么呢？是爬一座山脉的问题。当我们爬上去了，下坡就比现在好走多了。而且我们过了这座山，就能找到阿根廷的向导还有能在草原上奔驰的快马了。不要犹豫了，我们继续前行吧！”巴嘉勒尔说。

“继续前进！”远征者们都叫了起来。

“你不能陪我们去吗？”爵士问向导。

“我要赶骡子！”

“好吧！那随你！”

“我们不用他陪，过了峭壁就能找到安杜谷的小路，我会把你们带到山脚下的。我的能力，绝不亚于高低岩这一带的任何向导。”巴嘉勒尔说。

于是爵士给向导结了账，并让他和他的“陪翁”及骡子一起回去了。留下来的武器、工具以及干粮，他们几个人分摊着背。而此时，他们必须马上往山上爬，即使这样，很可能还要走一段时间的夜路。

走上去后他们发现，左边的斜坡有条能直上直下的小路，非常曲折，骡子完全无法通行。而就算是人走，困难也很大，不过，经过两个小时的疲惫赶路，他们终于走到了那条安杜谷路线上。

此时他们已经到了真正的安第斯山上，离那条高低岩的最高山脊也不远了。不过，这时候他们却怎么都无法认清脚下的路。想必最近一次的地震，把整个地区都搅了个翻天覆地，他们此时只能从山腰上隆起的一些地方一点点地向山脊上爬了。

找不到可以走的路，巴嘉勒尔也有些不知所措起来，只是拼命地往安第斯山的顶峰爬。

山顶的海拔在3300至3600米之间。好在天气很好，这样的天气，对他们远征的人来说非常有利。如果放在5月至10月这样的季节去爬这样的山，很可能就爬不了了。严寒的天气会把人冻死，更何况这地方会经常刮一种飓风，这种飓风每年都会将很多人刮到高低岩的深坑里去。

爵士和同伴们整整爬了一夜，即使是那根本就无法攀爬的层层岩石，他们也拼尽全力往上爬，而对于那些既深且宽的洞穴，他们都勇敢

地跳了过来。要是单独无法完成，他们就一个挽着一个的胳膊，形成一条绳索，用肩膀做梯子，像马戏团的演员一样，表演惊险的空中飞人，勇敢地越过了重重险阻。

这种时候，大显身手的往往是强壮的穆纳和灵巧的维尔逊。两个勇敢的苏格兰人，不断地借力给大家，有好几次，如果不是他们的帮助，大家很可能都过不去。每次遇到这种情况，爵士最担心的就是小罗伯尔了，因为他毕竟年龄太小。而巴嘉勒尔呢，则用他法国人的固有热情和开朗，奋力地前进着。至于少校，稳健的他知道什么时候该用多大的力，把握得也是恰到好处。所以这段路，他爬得若无其事，不慌不忙。几个小时的攀爬，对他来说，就和在山底下走没多大区别。

早晨5点的时候，气压表上显示，他们已经在2300米高的位置了。这里属于二级平顶，也是乔木地带的尽头。

此地偶有野兽出没，要是猎人的话，一定会像发了财一样高兴的。这些野兽好像知道人最喜欢猎杀它们，所以远远看到它们便飞快地逃跑了。在这些野兽中，首先有这个地区特有的骆马，这种动物可以代替羊、牛、马工作，而且生存能力非常强，即使是骡子都无法生存的地方，它们也能生存下来。

除了骆马之外，这里还有一种大耳鼯鼠，这是一种啮齿类小动物，它们既像野兔，又像野鼠，那长长的腿又像极了袋鼠。长着漂亮皮毛的它们性格温顺，胆子很小。在树上的时候，它们又像栗鼠一样蹦来跳去，非常可爱。

“没有鸟的翅膀，却有鸟的能力，它们和那些四足动物完全不同。”巴嘉勒尔说。

不过，这些野兽并不是山顶上的住客，在更高的3000米雪地，有一种美丽的反刍动物——羊驼。羊驼最被人称道的就是它的长毛，像丝绒一样柔滑。还有一种没有角的山羊，这种山羊被动物学家称为“未角羚”，它们长着细密的绒毛，高且瘦，由于时常高昂着头，给人一种孤独的感觉。

孤傲的未角羚很不喜欢有人靠近，所以想要见到它们并不容易，当它们远远地看到人时，便像鸟儿展翅一样，瞬间不见了，即使是那白得晃眼的雪地上，也看不到它们一点踪影。

天破晓时，整个山区变得有些面目全非起来，四处都是明晃晃的冰，峭壁上的冰柱泛着淡青色的光，高高地耸立着，太阳光照射在冰柱上，显得格外耀眼。此时爬山是危险的，所以他们必须先去探测一下，如果有裂缝，便不能再前进了。

维尔逊跑在了最前面，做起了急先锋。他用脚一点点地试着冰面，跟在后面的同伴们小心翼翼地随着他的脚印走。他们不敢高声说话，生怕声音太大，会震掉悬在他们头顶的七八十丈高的雪团。

试探着，小心翼翼走着的他们，总算走到了灌木地带，再往上爬250米左右，那些灌木也就该被仙人掌之类的禾本草类替代了。如果再走到3300米高的地方，很可能任何植物都没有了。

远征队员们只在8点钟的时候休息了一下，吃了点东西恢复体力，便又开始冒着巨大的危险前行了。此时的他们不仅需要跨过那如同刀尖一般的冰凌，而且还要越过那深不见底的深坑。行进中，他们看到很多地方都插上了木头做的十字架，很显然，这些地方发生过不幸的事件。

下午2点钟的时候，险峰间出现了一块光秃秃，荒凉如沙漠的平

地。此刻，天空蔚蓝，空气干燥。在这样的高度，是不会下雨的。那些水蒸气在此处变成了雪或冰雹。四周零星的云斑石或雪花岩，隐隐地从白雪中探了出来，像一个个的尸骨，从裹尸布里露了出来。有些硅石或麻石的小碎块，也被风吹得滚下了山谷，发出浑厚的声音。

此时的远征者们，已经有些心有余而力不足了。爵士看到大家精疲力竭，便有些后悔爬这么高，走这么远。而那小罗伯尔，虽然在拼命和疲劳搏斗，但也实在走不动了。见大家都不提休息的事，3点钟的时候，爵士停了下来。

“我们还是休息一下吧！”他说。

“在这地方休息吗？这里可连藏身之处都没有。”巴嘉勒尔说。

“必须要休息了，小罗伯尔需要休息！”爵士说。

“我不要休息！我可以的，爵士！我可以走！大家不要停！”小罗伯尔勇敢地说。

“让人背你吧，孩子，我们不管怎样，都要走到东面去，到了那里，也许会有茅草棚。我希望大家再走两个小时。”巴嘉勒尔说。

“大家觉得怎么样？”爵士问。

“好！”大家一致同意。

“我背小罗伯尔吧！”穆纳补了一句。

大家继续往前走，吃力地爬了两个小时。他们此时只是什么都不想地往上爬，一直爬到了最高峰。

空气变得越来越稀薄，大家的呼吸都困难起来，有了高原反应。

血液失去了平衡，从牙龈和嘴唇上渗了出来。当然，也许在高空
中，雪让空气也不好了起来，所以也是牙龈和嘴唇渗血的原因之一。空气的稀薄，让人必须费力呼吸，以便加速血液循环，这种用力，会让身体的每个器官更加疲劳，疲劳程度不亚于雪面上的阳光反射。在此种环境下，即使是再勇敢的人，意志再坚强的人，也都有些熬不住了。

高原反应中的疼痛和眩晕也出现了，不仅让体力有所减弱，而且也削弱了意志。和气候抗争，总是要吃亏的。不一会儿工夫，远征队员们的跤摔得越来越多，而一旦摔倒，就很难立刻站起来，必须跪着才能爬起来。

这段路程用了很长时间，眼看大家都要支持不住了。看着白茫茫一片的雪山，感受着刺骨的寒冷，以及快要吞噬四周的黑夜.....如果再找不到过夜的地方，后果将不堪设想。就在大家胆战心惊时，只听少校用惯常的平静语气说：“那里有座小房子！”

第九章 移动的山脉

那个小房子，也只有少校才会看到。放在任何人，即使是在小房子旁来来回回地走，甚至从小房子的顶上踏过也不会发现。因为那里仅仅从雪地上露出了一点，而那一点还和四周的岩石混杂在了一起，不注意的话根本看不出来。

小房子埋在了雪里，他们必须把雪扒开才行。在维尔逊和穆纳费尽全力扒了半个小时后，小房子的入口露了出来，远征队成员急忙进去，挤成了一团。

小房子是印第安人用土坯修建而成的，整个房子呈正方形，长宽各在3米3左右，高高地矗立在一块雪花岩顶上。小房子只有一个小门，门前有个石梯。不过，即使门再小，只要刮起飓风，里面依然会钻进雪花和冰雹。

小房子里大概可以容纳10个人。虽然这个小房子并不能为大家遮风避雨，但怎么也比在外面强，外面起码在零下10摄氏度以下。

屋里有个小灶炉，还有用土坯做的烟囱，如果能够生火取暖，抵挡外面的寒气，还是很不错的。

“我们要感谢老天爷给了我们这个栖身之处，虽然不是很舒服，但已经不错了。”爵士说。

“这还不舒服？这可是一座王宫啊！就是没有禁卫军和朝臣而已。我们能在这里栖息，已经算很舒服的了。”巴嘉勒尔说。

“是啊，还有灶炉能够烧火取暖。我觉得，现在大家虽然很饿，但寒冷更让人难受，我想，如果有一些木柴，应该比能打到野味更让人高兴。”艾撒汀说。

“有道理！我们想办法找点木柴吧！”巴嘉勒尔说。

“在这岩石顶上，哪里有什么木柴。”穆纳摇着头说。

“既然屋里能设灶炉，那么外面一定可以找到木柴的。”少校说。

“麦克那布斯说得很对。你们把这里先布置一下，准备做晚饭，我去打柴。”爵士说。

“我和维尔逊跟你一起去吧！”巴嘉勒尔说。

“还有我，我也去！”罗伯尔爬起来说。

“我的孩子，你就不用去了，好好休息吧！虽然你还是个孩子，可现在已经做了很多大人才能做到的事了。”爵士说。

就这样，格莱拉弗爵士、巴嘉勒尔和维尔逊走出了小房子。

此时已经是傍晚6点钟了，虽然没有风，但寒气逼人。天色开始转暗，太阳用最后一抹光彩轻抚着山峦。巴嘉勒尔看了看随身带着的气压表，发现水银柱显示在零下4分95度，也就是说，他们现在在3600米的高空，仅比勃朗峰低910米。

如果此刻也像在瑞士的高峰那样，有飓风或旋风刮来，那么他们谁也别想爬过这山脊。

爵士和巴嘉勒尔走上了一块云斑石，他们向四下看着。此时，他们

正处在峰峦叠嶂的高峰上，从这个地方向四下看，能看到65平方公里的地方。看东面，是山坡，缓缓地向下延伸，完全可以行走。更远处有乱石堆积。乱石应该是从冰山上冲下去的。再往下看，科罗拉多河流域已经完全隐没在黑夜中了。地面层峦叠嶂，一切都在夕阳的照耀下渐渐隐去，整个安第斯山的东方就快要看不清了。看西面，形成尖峰的嶙峋石壁依然被最后的阳光照耀着，看着浸淫在阳光中的岩石和冰山，顿时有种光彩夺目的感觉。北边能看到起伏的山峰，如同一个人用铅笔画朦胧曲线时，手微微颤抖形成的，非常随性。南边和其他几面山都不一样，十分美丽壮观，因为近黄昏，反而更显出它的美来。

没错，只需向荒野中的尔必朵河谷看一眼，便能看到安杜谷火山了，甚至还能看到那如同张着大嘴的喷火口。喷火口在离他们3公里以外的地方，如同一只巨大的怪兽，又像是圣经里提到的长鲸，张开大嘴，喷射出巨大的浓烟和褐色的火焰，照亮了四周的山峦，整个山峦都变得红了起来。

雪白的冰雹、暗红的烟火、火红的熔岩……交织成了一个色彩绚烂的万花筒。

突然，一道耀眼的火光展现在了他们面前，给那一望无际的盆地戴上了一个美丽的光环。而就在此时，夕阳的余晖也已消失殆尽，它像一颗陨星，在暗影里缓缓消失。

看着那幕火山喷发带来的壮丽景象，巴嘉勒尔和爵士出了神。原本要找木柴的他们，此时却像一个鉴赏家一样，欣喜地观赏着。不过，对于这种壮观的场面，维尔逊并不感兴趣，只是提醒他们，要找木柴了。

虽然他们站着的岩石上没有木柴，但却有一些干枯的苔藓。于是，

他们采集了很多苔藓，同时，他们还发现了一种根部能当柴烧的植物，所以也就拔了一些。

在将这些珍贵的燃料拿回小房子的炉灶后，想要点火却不容易了。而之所以不容易点着，是因为空气太过稀薄，没有足够的氧气。当然，这只是少校的看法。

“相反，水不需要100度就能沸腾，如果喜欢喝沸水煮的咖啡，那就只能委屈一下了。因为在这样高的地方，水到90度就会开。”少校继续说。

少校说得没错，火点了很久才点着。而在水沸了以后，他们将温度计插进去试了一下，发现只有87度。不过即使这样，他们还是冲了热咖啡喝。在这样寒冷的天气里，能有热咖啡喝，真是太幸福了。

然后，他们又吃了一些干肉，当然，这些干肉是不够他们吃的。而这也让巴嘉勒尔有了另一个想法，他说：“我听说骆马肉烤着吃很不错，而那骆马又能代替牛羊，如果我们能试着让骆马肉替代牛羊肉，一定是个不错的做法。”

“难道这餐晚饭没能让你满意吗，大地理学家？”少校板着脸说。

“满意！当然满意了，我的好少校！不过我觉得，如果能有一盘野味的话，一定会更好的。”

“你太会享受了！”

“你给我的这个评价我接受，少校，不过，你又是怎么想的呢？你嘴里虽然这么说，但心里其实也想着吃点什么野味吧！”

“嗯！也许是这样的。”少校说。

“要是有人想让你和他一起去打猎，你会怕寒冷和黑夜吗？”

“当然可以，如果你也愿意的话……”

大家还没来得及对他们的对话做出回应，突然听到了一阵吼声，声音由远及近，吼声悠长，吼叫的是野兽，而且不是一两只，而是一群。看样子，似乎是一群野兽正向他们这边奔来。

难道老天在赐给一个小房子的同时，还要赐给他们一顿丰盛的晚餐吗？地理学家巴嘉勒尔想。

不过，他的兴头很快就被爵士打断了，爵士对他说，在高低岩这样的地方，是绝对不可能有野兽的。

“不是野兽是什么？难道你们没听见吗？声音越来越近了。”艾撒汀说。

“难道发生了雪崩？”穆纳问。

“不会，那是野兽的叫声。”巴嘉勒尔反驳道。

“那我们去看看吧。”爵士说。

“我们现在是猎人，以猎人的身份去看！”少校说着话，拿起了一支马枪。

大家从小房子里出去，高山上的夜晚虽然因为满天星斗而没有漆黑一团，但月亮还没出来，四周还是影影绰绰，阴森森的。东、北、西这三面的山峰已经全部消失在夜幕中了，他们看到的只是最高的几座岩

石，如同幽灵般地矗立在那里。

阵阵的吼声越来越响，越来越近地向他们涌来。

到底是怎么回事？在他们还没弄清楚的时候，突然，随着哗啦哗啦的声响，有东西掉了下来。当然，不是发生雪崩，而是受惊的野兽跳了下来。它们跳下来时所发出的声响，让整个高山都颤抖起来。涌来的野兽有上万头，在空气稀薄的山顶奔腾着，叫嚣着，发出震耳欲聋的声响。

是什么样的野兽？是草原上的还是只是山上的骆马和未角羚？

如同旋风一般的动物从他们头顶几尺高的地方席卷而来，格莱拉弗爵士、麦克那布斯、罗伯尔、艾撒汀和两个水手急忙趴在了地上，只有巴嘉勒尔还站在那里，很快，他就被那些动物撞倒在了地上。

此时，一声枪响。这一枪是少校开的，他摸黑开了一枪后，感觉到有只被他射中的野兽倒在了离他几步远的地方。然而，那群野兽并没有被枪声吓倒，而是全都朝火山方向奔去，奔跑时还发出惊天的吼声，慢慢地，声音和影子都消失不见了。

“啊！总算找到了。”有人在说话，是巴嘉勒尔的声音。

“找到什么了？”爵士问他。

“眼镜呀，我找到了我刚刚丢掉的眼镜，老天保佑！”

“你有没有受伤？”

“没有！只被踩了几脚，不过也不知道是被什么动物踩的。”

“就是它踩的。”

少校说着话，已经将他打死的那只野兽拖了过来。

大家急忙和拖着野兽尸体的少校进了小房子。借着炉火，大家看到了少校那一枪所获得的猎物，那是一个很漂亮的无峰小骆驼。它的头很细，身子扁扁的，腿长长的，全身咖啡色，只有肚子下有白色斑点。巴嘉勒尔看了看后，大叫：“哦，原来是原驼呀！”

“什么是原驼？”爵士问。

“就是可以吃的动物。”巴嘉勒尔说。

“味道好吗？”

“味道好极了！绝对是上等佳肴。我早说今晚会有肉吃。看，多好的肉呀，不过谁来剥皮呢？”

“我来吧！”维尔逊主动请缨。

“好，你剥皮，我烤肉。”巴嘉勒尔说。

“您还能做厨师，巴嘉勒尔？”罗伯尔问。

“我可是法国人，孩子，法国人哪有不会做厨师的？法国人生来就是一个好厨师。”

5分钟后，维尔逊已经剥好了皮，巴嘉勒尔将那大块大块的肉放在了点燃的植物根上烤了起来。过了10分钟，原驼的肋条肉散发出了诱人的香味，巴嘉勒尔将它们切成一块块地拿给大家，每个人都毫不客气地接了过去，大咬一口。

不过，就在大家刚刚吃了一口时，便哇地叫出了声，一个个龇牙咧嘴的，这让巴嘉勒尔很是奇怪。

“太难吃了！”有人说。

“就是，没办法吃！”另一个人说。

对于自己辛辛苦苦烤成的东西大家说难吃，巴嘉勒尔一肚子不高兴，但他也不得不承认他烤的肉即使是饿死鬼也难以下咽。大家开始拿那佳肴和他开玩笑。他知道大家是在开玩笑，便开始找原因，想弄清楚原本美味的原驼肉，为何在他手里会变得这么难吃。

聪明的他，终于想起了一点，他说：“我知道了！我知道了！我知道为什么不好吃了。”

“什么原因？是因为烤的时间太长了？”少校问。

“不！当然不是了，你这挑剔的少校！是因为跑得太多了。怎么回事，我怎么把这事忘了呢？”

“什么叫‘跑得太多了’，巴嘉勒尔先生？”艾撒汀问出了大家想问的。

“怎么连这都不知道呢？就是说，原驼要在它睡觉时打死，那时的肉就很好吃。如果在它跑的时候打死，而且跑得那么快，肉也就不好吃了。根据这个肉味，我想，它们一定是从很远的地方跑来的。”

“还有这种说法？”爵士表示怀疑。

“当然是这样的！绝对是！”

“那么，到底是什么原因，让这群原本安安静静地在窝里睡觉的动物吓成这样，逃了出来呢？”

“对于这一点嘛，亲爱的爵士，我没有办法回答您。不过您要相信我。您去睡觉吧，不要再问了，我也要睡觉了。都睡吧！还有少校！”

之后，在炉灶上又添加了一些燃料后，大家便裹着罩篷睡觉了。小屋里响起了此起彼伏的呼噜声，地理学家巴嘉勒尔的呼噜声犹如低沉的男中音，在大家的呼噜大合唱中，显得尤为突出。

在这些人中，有一个人一直睡不着，那就是格莱拉弗爵士。而他睡不着的原因来自于内心深深的不安。他的脑海里不断浮现出那些野兽奔向一个地方的场景，当时那些野兽的惊惧，让他很不理解。按理说，原驼不会是因为有其他猛兽追赶而跑到这么高的地方的，猛兽原本就不多，而如果说是猎人追赶，那就更不可能了，因为这里的猎人更少。

那么到底是什么样的原因，让它们走向了火山方向的深坑呢？是什么样的恐怖事件让它们做出了如此举动？爵士猛地觉得，很可能是灾难降临的前兆。

不过，在困乏中，他的想法又变了，甚至觉得也许是件好事。他甚至想，也许他们明天就能到安第斯山下的大平原了。在那里，他们会展开仔细调查，也许离找到格兰特船长不远了。他甚至想象着，格兰特船长和他的两个水手被他们从苦难中解救了出来，这些想象让他热血沸腾。

炉灶里的火喷射出红红的火焰，也有噼里啪啦的燃烧声溅起了点点火花。火光照耀着小屋里睡着的同伴们的脸，以及在墙壁上形成的若隐若现的影子，这一切都不停地打断着他的沉思。

他一会儿有不好的预感，一会儿又有好的预感，总之，这些矛盾和反复让他更加焦躁难安。

突然，他听到了隐隐约约的声响，那声响来自于屋外，到底是什么声音呢？他不知道，也难以理解。

此时，他好像隐隐听到了一阵由远及近，轰隆隆的，带着威胁性的声音。按理说只有在离山顶1000米以下的山腰才能听到的这种像暴雨声的声音究竟来自何处，爵士很想知道答案，于是他走出了小房子。

此时，月亮已经升起来了，高山上的空气特别清新。四周一片寂静，天空看不到云彩，只能隐隐看到安杜谷火山活动时留下的一道道光。

大自然是安静的，没有风雨，也没有闪电，而且天空还闪烁着成千上万的星星，这样安静的天穹下，为什么会发出奇怪的隆隆响？还有那群原驼，它们奔逃的原因是什么？是不是和这轰隆隆的声响有关？

爵士看了看表，已经深夜两点了，他不能确定是否会有危险逼近，同时，他也不忍心去叫醒困乏了一天，正在睡觉的同伴。

回到小房子，困意再次袭来，他进入到了朦胧状态，这种状态一直持续了好几个小时。

突然，他被一阵震耳欲聋的声响惊醒，那声音像是在战场上，无数炮车在地面上转动时发出的声音。随着巨大的轰隆声，爵士突然感觉到自己身下的地面开始陷落，小房子也在摇晃，大地发生了崩裂。

“快逃啊！”他大叫一声。

睡梦中的同伴全都醒了，还没等逃出小房子，慌乱中的他们便在地上滚作一团，并落在了一个陡峭的山坡上。

天亮了，眼前的景象让他们大吃一惊，群山完全变了模样：圆锥形的山顶被齐腰斩断了，那些尖尖的山峰陷落下去，他们的脚下好像有扇门被打开了……

这是高低岩山区独有的特殊现象，几英里宽的整座山，一起向平原方向移动。

“天啊！地震了！”巴嘉勒尔大叫一声。

是的，他说得没错，地震了。这是智利时常发生的天灾。就在他们所处的区域，曾两度被震毁，而那圣地亚哥城，在14年中，有两次被震倒。

这条震动带，是因为地壳里的地下火一直在燃烧，晚期出现了山脉，让火山无法排泄热气而导致的。

几位远征者被震到了山崖边，他们攀着苔藓，拼命抓着山的边缘。此时的他们，除了惊恐和害怕，已经没有任何感受了。大山像是一列行进中的快速列车，以每小时90公里的速度向下行驶，他们只感到头晕眼花。想要大声叫喊，却叫不出来。

不过，即使想叫，别人也是听不到的；他们想要动一动，又怕一动就会掉到悬崖下。现在的他们，看来是无路可逃了。

脚下是山崩地裂发出的隆隆声，夹杂着的还有雪崩的噼里啪啦声，以及花岗岩和雪花岩发出的撞击声。当然还有一些雪块被砸碎后，随风飞舞所发出的呜呜声。这些声音的存在，让他们连向同伴打招呼也做不

到了。他们扒着的山，有时向下没有阻碍地滑，有时又像漂在海里的船只，上下颠簸，左右摇晃。在经过无底深坑的时候，有大块的石头哗啦啦地往下掉，很多千年古树被连根拔了起来。一些地面的突起部分像是被铁铲铲平了，像一把巨大的铁锹一样，在安第斯山东部形成一个斜面，非常光滑。

我们不免会这么想，如果有块几万万吨的重物，以50度角的斜度向下快速滑，会有着怎样的威力？

这样的运动究竟会持续多长时间？谁也不知道。而要运动到什么地方？哪个深渊？也是谁都说不清的。他们7个人在什么地方？还在原来的地方吗？是不是都活着？有没有人掉进深坑？不知道！他们扒着的山体运动带给他们身体的不适感越来越严重，先是头晕眼花，接着都快要窒息了。他们不仅被刺骨的寒风肆虐，而且还被不断飘来的雪花迷了眼。

身体被冻僵了，几乎没有生气，而之所以还能扒住岩石，则是他们求生的本能使然。

突然，他们听到了“砰”的一声响，瞬间便脱离了那座滑动的山体。

他们被扔了出去，扔在了山脚下的一个山坡上。山坡上，他们开始滚动，而那座滑动的大山却停了下来。

好几分钟过去了，没有一个人动。终于，有一个人爬了起来，虽然头昏眼花，却还能勉强站住。

站起来的是少校，他擦了擦被雪花和灰尘覆盖的眼睛，向四周看着。他看到他的同伴全都躺在一个山窝里，如同玻璃球落在了盘底一

样，重叠在一起。

少校点了点那叠在一起的人，除了一个人外，其他的都在。在的人全都直挺挺地躺着，不说一句话。

少掉的那个人是罗伯尔·格兰特。

第十章 兀鹰爪下的少年

安第斯山高低岩的东方，全是一些长形陡坡。长形陡坡一直往下，直到平原。

一场地震，让平原上矗立起了一座山，而平原上则到处是厚厚的牧草，草地上长着茂盛的树木，其中就有硕果累累的苹果树。

这有些像法国最富饶的诺曼底省，有一部分迁到了高原地区的感觉。

远征者们猛地从高山一下子来到了平原，如同从沙漠突然到了绿洲，从雪峰来到了草地，从寒冬来到了盛夏一样令人不可思议。

不过，这种不可思议，只会在平常的环境中产生。在如此环境下，再大的突变都不会让他们感到意外，有的只是惊恐。

大地突然安静下来，这片区域的地壳不再运动，或者说是去更远的地方运动去了。

当然，在安第斯山脉，任何地方发生震动和摇晃都是很正常的事。不过，这次他们经历的地震实在是太猛烈了，猛烈到让整个山形都发生了变化。如今再一眼望去，面前全是新的山峦。

在这么巨大的变动下，想让此地的向导找旧路想必是怎么都找不到了。

这天的天气很晴朗，早晨8点钟的时候，太阳从大西洋上升了起来，穿过阿根廷草原，投射到另一边的太平洋海面上。爵士和其他人在少校的抢救下，慢慢苏醒过来。幸好他们只是因为震动而昏厥，并没有受伤。而那个高低岩，也总算被他们爬了过来，现在已经到了山脚下。

如果不是因为少了小罗伯尔，他们一定会欢呼，因为这场地震让他们少走了很多路，将他们带到了山脚下。

罗伯尔是个多么可爱勇敢的孩子呀，每个人都喜欢他。巴嘉勒尔甚至都有种离不开他的感觉。少校虽然平时很严肃，不苟言笑，但也很喜欢他。格莱拉弗爵士，对他更是疼爱有加，甚至把他当成自己的孩子来看。

在他听到罗伯尔失踪后，急坏了，他觉得这个可怜的孩子一定是落到了深坑里，说不定正在不断地呼喊他，让他救命。

“朋友们，亲爱的朋友们，我们一定要找到他，必须找到他。我们不能就这么把他丢了，不管什么地方，所有的山谷、悬崖、深坑，我们都要去找，一定要找到。你们给我身上拴个绳子，吊着我，让我下去，我要去找他，明白我说的话了吗？我一定要这么做。希望老天爷能保佑这个可怜的孩子，如果他丢了，我们怎么去见他的父亲？为了救格兰特船长，我们却牺牲了他的儿子，像话吗？”

大家全都低着头，默默地听着。他们感觉到爵士在看他们，也知道爵士想从他们眼神中找到一线希望，但他们谁也没有抬头去迎那目光。

“你们说，到底怎么样？为什么不说话？没听到我说的话吗？你们觉得没希望找到是不是？觉得没有一点希望吗？”爵士着急地看着他

们。

仍然是沉默，最后，还是少校开了口，他说：“朋友们，有谁知道罗伯尔是什么时候不见的？”

这个问题还是没有人回答，因为他们也不知道。

“高低岩下崩的时候，他在谁的身边？”少校接着问。

“在我的身边。”维尔逊说。

“那么，什么时候你觉得他不在你身边了？好好想想！”

“我记得山崩的时候，山体间发生了碰撞，在碰撞前不到两分钟的时候，我见罗伯尔还在我身边，双手抓着苔藓。”

“不到两分钟？维尔逊，那时候的一分钟都是很漫长的，你可千万不要记错了！”

“我想……不会记错的，我记得……是不足两分钟。”

“那么，罗伯尔那时候是在你的左边还是右边？”少校又问。

“在我左边，我记得他的罩篷还拍到了我的脸。”

“那你在我们的什么方向？”

“在你们的左边。”

“这么看来，罗伯尔是在这边失踪的。”少校一边说，一边面朝山站立，指着右边的位置说，“根据他失踪的时间来看，他应该是掉在距地

面3公里的那部分山里去了。我们如果要去找的话，就要到那里去找，我们可以每人去一个地带，一定会找到的。”

没有人再说什么，剩下的6个人急忙往高低岩爬，他们分别在不同的高度和方位寻找，而寻找的路线就是山崩路线的右边。他们寻找得特别仔细，甚至是石缝也没放过。悬崖原本的深坑，有一部分已经被一些迸落的石头填满了，他们只能下到坑里去寻找。

他们不断地冒着危险爬下去，不见罗伯尔后，又爬上来，衣服被撕破了，甚至手脚也都被划破了，血淋淋的，但没有一个人抱怨。

除了几个上不去的平顶，安第斯山的这块区域全都找过了，并且已经找了很长时间，虽然大家谁都顾不上休息地去找，可显然一切的努力都是白费。那个可怜的孩子是不是已经死在了山里？或者已经被一块大岩石压住，葬身在大山下面了呢？

一直找到下午1点钟，爵士和同伴全都累得筋疲力尽，他们重又回到原来的山谷，爵士悲痛欲绝，只是不停地叹息着：“我不想走了，哪儿也不去了。”

大家明白他的伤心，知道他受到了刺激，也都开始劝慰他。

“那我们先休息一下，恢复恢复体力，不管是继续寻找还是继续赶路，我们都必须先休息一下。”巴嘉勒尔对少校和艾撒汀说。

“是呀，爱德华要我们留在这里，那就留在这里吧，我知道他还抱着希望，可还有什么希望呢？”少校说。

“谁知道呢？”艾撒汀说。

“可怜的小罗伯尔。”巴嘉勒尔说着，眼泪流了出来。

山谷里有很多树，少校选了一棵高大的树，并在树下搭了个临时帐篷。他们如今剩下的只有几块盖布，一些武器和一点干肉、冷饭了。幸好不远的地方有条小河，河里的水虽然因为山崩而显得有些浑浊，但还能用。

穆纳在草地上生起了火，很快就烧好了水。他给爵士端来了水，可爵士不喝，只是沮丧地躺在罩篷上。

一天就这么过去了。这天的深夜和头一天一样，非常平静。不过，在其他入躺着休息的时候，爵士又爬上了高低岩。他独自一个人往前走着，仔细地听着，希望能听到哪怕是一点微弱的求救声。

因为怕错过可能会有的求救，他还时不时地将耳朵贴在地面上，屏住呼吸仔细地听，并不停地叫喊着罗伯尔的名字。虽然他叫喊的声音充满了失望，但还是一边走一边叫着。

爵士就这么在山间徘徊了一整夜。由于担心他不顾一切地寻找，从光滑的岩石或峭壁上滑下去，有时巴嘉勒尔也会陪着他，有时又是少校跟着他。不过，带给他们的还是失望，爵士那千万声的“罗伯尔”，回应四周的只是同样的声响。

夜晚过去了，天边吐出了鱼肚白。在遥远的山岭，他们强制性地爵士拉回了帐篷。爵士的眼神里全是绝望，绝望中又带着痛苦。没人敢和他说一个“走”字，更没有人跟他提议离开这个山谷。

然而，干粮已经吃完了，阿根廷向导和过草原所必需的马匹，应该在前边不远处。可谁敢说走呢？可难道又要返回吗？返回的路甚至很可

能比前行的路更难走，况且他们已经和“邓肯号”约好在大西洋的岸上集合了呀。

不能再耽误下去了，为了全体的利益，他们不能不出发了。

少校想将爵士从悲痛中拉回来，劝了他很久，但爵士好像都没有听到，只是不停地摇头，有时也会挤出几个字：“是说走？”

“是的！我们必须走了！”

“再等一个小时。”

“好，那就再等一个小时。”少校说。

可一个小时过去了，爵士又说再等一个小时。看情形，就像是在给一个死刑犯恳求延长生命一样。就这样，时间在一个小时一个小时地过着，一直到了正午时分。按照少校和全体成员的意见，他们不能再耽搁了，非走不可了。于是大家一起告诉他，说不能不走了，如果再不走，全体人员的性命都可能出现大问题。

“哦！是的！那就走吧！”

他一边说，一边将眼光从少校那边转向天空。突然，他看见天空有个小黑点。

爵士缓缓地举起了手，指着那小黑点，一动不动，像被定格在了那里。在大家都茫然地看着他时，他说：“快看！快看！快看那里。”

大家一起看向天空中他指着的小黑点，黑点越来越大，他们看到了，那是一只鸟，一只在天空飞得很高很高的鸟。

“是一只兀鹰。”巴嘉勒尔说。

“对！没错，是一只兀鹰。它飞过来了！过来了！等一下！等一下！”

爵士喃喃着。

爵士在说什么？什么等一下？难道是受到刺激糊涂了？

那只大鸟越飞越近了，巴嘉勒尔说得没错，那是一只兀鹰。兀鹰在过去曾被当地的酋长奉为神明，所以这一区域的兀鹰因为受到保护而长得很大很强壮，力量也大得惊人。它们有时候甚至能把一头牛用利爪抓到空中，然后丢进深谷。

这里的兀鹰常常会袭击平原上的羊、马、小牛，并用爪子把它们抓到高高的天上，飞到两万尺的高空去。这样的高度，已经是人类的极限了。所以这种兀鹰在那样高度的话，人们在下面是很难用肉眼看到它的，而它那锐利的眼睛却可以俯瞰地面的一切，并将一切最细微的特征分辨出来。

冲着这一点，它们强大的视力就让很多生物学家赞叹不已。

这只兀鹰越飞越低是什么原因？难道它看见了什么？看见了一具尸体？难道是罗伯尔的尸体吗？

“谁知道啊！”爵士突然说。他的眼睛一直没有离开那只兀鹰。庞大的兀鹰越来越近，而且开始盘旋、急上急下。突然，大家看到，在离地面不到200米高的地方，它上面绕圈飞行，并且连绕了好几圈，而它横飞的距离应该在15英尺左右。它那灵活的双翼像是浮在了空中，一动也不动。这也是大鸟展示它们威力的时候，通常的小鸟做不到这点，小

鸟必须通过振翅来保持身体的平衡。

少校和维尔逊同时拿起了马枪，爵士用手势制止了他们。兀鹰又开始在距他们不到四分之一英里的地方，绕着一个不可攀登的平岭盘旋，盘旋的速度快得惊人，爪子像铁爪一样忽张忽紧，羽冠也开始摇晃。

“在那里，就在那里！”爵士突然大叫。

很快，他又开始大叫：“要是罗伯尔还活着的话，那么……这只兀鹰就会将……开枪！朋友们！快开枪！”

就在爵士说话的工夫，兀鹰已经绕到高耸的山峰后面去了，不一会儿，大概也就是一秒钟的时候，但也许又像是过去了一百年，总之，兀鹰从山峰后面飞了出来，缓缓地向空中飞去。大家惊恐地叫了起来，因为它的爪子下有个人在摆动，那个人正是罗伯尔。

兀鹰抓着他的衣服，飞到了距离他们所搭的帐篷不到150英尺高的地方。显然，它已经看到远征的成员们了。它开始用力展翅，夹着风，想要带着沉重的猎物飞向远方。

“啊！快呀！即使罗伯尔被撞得粉碎，也不能让兀鹰……”

爵士的话还没说完，已经抓起了维尔逊的枪，他想瞄准那只兀鹰，但胳膊和手都在发抖，眼睛也开始发花。

“我来！”少校说完，稳稳地举起枪，全身像被定住了一样一动不动地瞄准兀鹰，此时的兀鹰离他们已经有150米远了。

不过，他的手还没扣动扳机，山谷里就传出了一声枪声。有道白烟从两座雪花岩间冒了出来，而那正展翅飞翔的兀鹰也因头部中了枪，慢

慢地开始下坠，它的一对大翅膀犹如降落伞一般，带着它和爪下的猎物，缓缓地往前飞，越来越低，最后落在了约10步远的地方。

“到我们手里了！到我们手里了！”爵士喊着。

他没有管那一枪是谁开的，更没管是来自什么地方，他只是奔向兀鹰落下的地方，其他人都跟了过去。等他们赶过去，发现兀鹰已经死了。罗伯尔的身体被兀鹰那宽大的翅膀盖在了下面，爵士扑向孩子，将他从兀鹰的爪子下拖了出来，然后将耳朵放在他的胸口听着。

“快！他还活着！活着！”他用前所未有的响亮声音喊道。

大家七手八脚地将罗伯尔的衣服剥掉了，用冷水敷在了他的脸上。一会儿工夫，罗伯尔动了动，接着睁开了眼，看着面前的爵士，他小声呻吟道：“爵士，是您！……我的父亲……”

爵士激动得有些哽咽，半天说不出话来。他跪在地上，在孩子身边放声大哭。

罗伯尔的得救，真的是个奇迹！

第十一章 葡萄牙语还是西班牙语

小罗伯尔逃出兀鹰的魔爪，赢得了大家的热情拥吻，甚至恨不得将他吞进肚子里。虽然他还有些虚弱，但还是被大伙儿拉过来拉过去地紧紧拥抱。这样的拥抱，并没有折磨到罗伯尔，反而让他感受到了力量和温暖。

和小罗伯尔亲热完后，大家这才想起了他的救命恩人。自然，首先想到这一点的就是冷静的少校。他四下寻找，在离河边大约50步的地方，看到了一个人。那个人站在高高的山冈上，一动不动。

此人身材非常高大，差不多有2米以上，古铜色的脸上，在眼睛和嘴之间涂着红色，下眼皮上涂着黑色，额头上涂着白色……他的肩膀很宽，长长的头发用皮绳扎着，脚边放着一支长枪。

看样子，他应该是当地的土人，他的着装显然是边区巴塔哥尼亚人的服装：上身披着一件漂亮的大衣，大衣是用原驼的颈部皮肤、腿部皮肤和鸵鸟的筋缝制起来的，大衣外面有细细的绒毛，绒毛上绣着红色的阿拉伯式花纹；大衣里面是件紧身的狐皮袄，尖尖的前襟朝下搭着；他的腰带上悬挂着一个小小的袋子，袋子里装着涂脸用的颜料；他光着脚，但小腿上却用牛皮绑着一双靴子，靴子也是用牛皮做的。

脸上涂得五颜六色的巴塔哥尼亚人雄壮又聪明，他定定地站在岩石上，一动不动，显得那样庄重和威严。不知道的话，恐怕会误以为这是个神灵的雕像。

少校看到此人后，马上指给爵士看。爵士急忙向那个人跑去，那个人也朝前走了两步，迎了上来。爵士用双手紧紧地握住他的一只手，爵士的眼神、笑容，以及整个表情，全都充满了对他的感激。

爵士的真诚土人感受到了，他微微点了一下头，说了几句话，但少校和爵士都听不懂。

巴塔哥尼亚人在仔细地又把面前的两个外国人看了看后，重新换了一种语言。不过，不管他用什么语言，都和他第一次用的语言一样，并没有让爵士他们听懂。但好在这个土人说的几个词句爵士还是听懂了，知道是几个常用的西班牙语。

“您说的是西班牙语吗？”爵士用简单的西班牙语问。

那个土人点了点头，这种让头一上一下点的动作，在任何民族都表示肯定的意思。

“这下可好了，我们的朋友巴嘉勒尔有用武之地了，幸好他学了西班牙语。”

爵士说着，开始叫巴嘉勒尔。巴嘉勒尔跑了过来。他先是用法国人特有的风度和气质向那位土人打了招呼，不过，他所表现的风度和气质，很可能土人感受不到。

在他知道土人说的是西班牙语时，马上说：“太好了！完全没问题。”

于是，他开始说西班牙语，为了让自己的发音更清楚，他还特意张大了嘴巴：“呜斯——梭以思——翁——好门——得——奔！”（你太好了！）

土人认真地听着，但却没有说话。

“他听不懂！”巴嘉勒尔说。

“是不是你的音调有问题？”少校提醒他。

“很可能是这样，我就是吃了破音调的亏。”

他重新说了一遍“你是个好人”，那个人还是听不懂。

“要不我换一句再说说。”巴嘉勒尔说完，一个一个地吐出了几个音：“苏木——独维大——翁——巴塔哥！”（很明显，你是巴塔哥尼亚人！）

对方仍然默不作声。

“狄泽伊姆！（说话呀！）”巴嘉勒尔急得抓耳挠腮。

但那土人还是一脸茫然，不说话。

“呜斯——公卜里言得意斯（听得懂我说的吗？）？”巴嘉勒尔大声说，嗓子都快喊哑了。

显然，土人一点都听不懂，他用西班牙语说：

“诺——公卜勒那奥。（不知道你在说什么。）”

土人这话一出口，巴嘉勒尔吃惊地看着他，然后把鼻梁上的眼镜往上推了推，不耐烦地说：

“他说的是什么呀，我根本就不懂。肯定是阿罗加尼亚语。”

“怎么可能？这人一定是用西班牙语回应你的。”爵士说完，转向土人，用西班牙语问：“你说的是西班牙语吗？”

“西！西！（是！是！）”土人连连回答。

巴嘉勒尔更惊诧了，少校和爵士彼此看了一眼。

“我们博学的地理学家朋友，你本身就是个粗心的专家，是不是这次又粗心大意，学错了？”少校的嘴上现出了难得的微笑。

“哼！”巴嘉勒尔不服气地哼了一声。

“对呀，很明显，这巴塔哥尼亚人说的就是西班牙语……”爵士说。

“西班牙语？他说的？”巴嘉勒尔撇撇嘴。

“你肯定是学了另一种语言，但你以为你学的是……”少校的话还没说完，巴嘉勒尔便耸耸肩，然后打断了他的话。

“少校，你真是太过分了！”

“不然怎么人家听不懂你说的是什么？”少校又说。

“那是因为他说得不好，我不是也听不懂他的吗？”巴嘉勒尔不耐烦起来。

“不是他说得不好，是你听不懂！”少校冷冷地吐出这句话。

怕两个人为此争吵起来，爵士急忙打圆场说：“少校，您的说法不对，我们的朋友巴嘉勒尔即使再粗心，也不至于学错一门语言。”

“如果不是学错了，那么我亲爱的爱德华……”少校对爵士说完，把头转向巴嘉勒尔，“我看还是你说说吧，我的好巴嘉勒尔，你解释解释，你和土人说同一种语言，为什么会各自听不懂？”

“我才不解释呢。我可以证实我说的就是西班牙语，我天天苦学西班牙语的本子就在这里，你看看！少校，你看看！我看你还有什么话说。”

巴嘉勒尔说完，在衣袋里摸来摸去，摸了几分钟后，摸出一本破旧的书交给少校。少校接过来看了看说：“这是什么书？”

“《卢厦歌》！不知道吗？一部非常美妙的诗，它是……”

巴嘉勒尔还没说完，爵士便叫了起来：

“什么？《卢厦歌》？”

“没错！朋友，是大诗人珂梦斯的《卢厦歌》，绝对不会错！”

“珂梦斯？”爵士重复了一句，笑了。

“天啊！我倒霉的朋友，这珂梦斯可是葡萄牙诗人呀！看来，你这六个星期以来，学的原来是葡萄牙语呀！”

“什么？珂梦斯！卢厦歌！葡萄牙语！……”

巴嘉勒尔喃喃着，说不下去了。他一阵晕厥。周围传来同伴们放肆的大笑，因为此时，大家已经全都围在他们身边了。

那个土人始终看着他们，脸上没有任何表情，他是绝对不会想到有这一幕的，他只是安静地等待着。

“哦！怎么会这样？我真傻呀！不，我这是疯了！怎么会这样？这不是个笑话吗？我怎么会做出这种事来？简直就是巴布尔特的故事嘛，怎么可以把语言都混淆了呢？朋友们！朋友们！这……这……我去印度，却跑到了智利；我学西班牙语，学的却是葡萄牙语！这……这……太不像话了！如果一直这样下去的话，我会不会有天扔烟头的时候，把自己也扔下去了？哦！不！怎么会这样！”

不管是谁，听了巴嘉勒尔这番话，再看他的这副样子，都会忍不住大笑，而他自己首先就笑了起来，而且还说：“笑吧！都开怀大笑吧！尽管笑！我也笑我自己，我比你们笑得还厉害！”

说着就哈哈地大笑起来，他笑的样子，完全不像一个学者。

“笑是笑过了，可怎么办呢？没人能当翻译了！”少校说。

“哦，不要烦恼。我之所以将西班牙语和葡萄牙语搞错，就是因为它们很相近，我很快就会弥补过来的。这位尊敬的巴塔哥尼亚人，西班牙语说得真是太好了，放心吧！我保证很快就能用西班牙语向他致谢！”

巴嘉勒尔没有吹牛。果然，没过多长时间，他居然能和那位土人交流了，而且还知道那土人的名字叫塔凯甫，这个名字在阿罗加尼亚文里的意思是“神枪手”。

看来，塔凯甫是以枪法准而得名的。

令他们感到庆幸的是，巴塔哥尼亚人就是以导游为业的，他们专门给旅客在草原上带路。这样的巧遇，不得不说是天意。所以，这再次让远征队的成员们觉得这次的探险一定会成功，而且也没有人再怀疑不能

找到格兰特船长了。

大家和土人一起到了罗伯尔身边，罗伯尔向土人伸出了两只胳膊，土人没说话，只是将一只手放在罗伯尔的额头上，然后又捏了捏他疼痛的四肢，最后，他微笑着到河边采了几把野芹菜，并用野芹菜给罗伯尔擦了擦身。他擦得非常仔细，罗伯尔经过他的一通野芹菜按摩后，渐渐有了力气，而且很可能几个小时后就可以恢复过来了。

就这样，大家决定先留在临时帐篷，第二天再走。不过，没有了干粮和骡子，他们现在急需解决的是食物和交通工具问题。幸好有塔凯甫，塔凯甫以前就经常给巴塔哥尼亚边境的旅行者做向导，而且也是最聪明的向导之一，他说他可以为这个远征队提供需要的一切，带他们到相距这里不超过四里的集市去，那个集市是印第安人的集市，有他们需要的一切。

当然，塔凯甫的这个建议也是通过手势，以及简单的西班牙语表达出来的，好在巴嘉勒尔听明白了。爵士和巴嘉勒尔马上表示同意，并和其他伙伴告别，跟着塔凯甫沿着河向上游走。

像巨人一样高大的塔凯甫走得很快，爵士和巴嘉勒尔要紧走几步才能跟上他跨的一大步。走了一个半小时后，他们看到周围风景宜人，土地肥沃，草地长势也很喜人。在这里，想必即使有10万头牛羊也是不愁没有吃的。

池塘到处可见，沟渠纵横排列，给这片平原之地提供了肥沃的条件，池塘里不时会看到黑天鹅在里面嬉戏；草丛中有鸵鸟腾跃的身影，它们悠闲舒适的样子，让这片风光秀丽的水上花园变得更美了。

除了黑天鹅和鸵鸟外，这里还有很多品种的鸟，这些鸟很漂亮，却

也会发出聒噪的声音。这里有种斑鸠，身上的毛是浅灰色的，但又带白色条纹，非常可爱。这种斑鸠经常和黄莺聚在枝头，叽叽喳喳地叫着，远远看去，像是一朵朵会唱歌的鲜花。

天空中，有成群的野鸽子飞过，还有各种麻雀……它们在空中展翅飞翔，在树林里互相追逐嬉戏，嘴里不断发出啾啾啾的声音。

看着这美好的景象，巴嘉勒尔一路上赞叹不已。

巴嘉勒尔的赞叹，让土人很吃惊，因为对他来说，天空有鸟飞翔、池塘有天鹅嬉戏、草原有草……都是再普通不过的事了，这是大自然创造的，又有什么好赞叹的？不过，巴嘉勒尔却越看兴致越浓，越说越兴奋，丝毫没觉得路途遥远，直到他们已经看到印第安人的帐篷，他才说怎么这么近就到了，因为在他心里，他们才走了不多一会儿。

印第安人的集市位于两山之间的山谷深处。在一些树枝搭成的帐篷里，住着30多个游牧的印第安人，他们放牧着大群的乳牛、牦牛、羊和马。这群被放牧的牲畜仿佛成了这片草场的主人，而那些放牧者反而成了四条腿的客人。

这些印第安人又被称为安第斯秘鲁人，是阿罗加尼亚人、白环什人和奥卡人的混血人种。他们普遍是中等个子，有橄榄色的皮肤，而且身体健壮厚实，脸庞很圆，额头很窄，颧骨很高，嘴唇很薄，容貌非常女性化。

这些印第安人看人的眼神冷冷的、淡淡的。这种外形和神情，人种学者一看就知道他们不是纯血种族，也很少有人会对他们感兴趣。而对于爵士他们来说，目的并不是这些人，而是那些牧群，因为他们需要牛马。

塔凯甫和那些印第安人在进行了一番交涉后，交易便达成了。爵士买了7匹阿根廷小马，这些小马鞍辔齐全，同时，他们还买了100多斤干肉、几斛米以及盛水用的皮桶等等。这些东西原本印第安人想让他们用葡萄酒或米酒来交换，但爵士他们没有，最后，他用200两黄金换了这些。

黄金的价值，印第安人也懂得。爵士还想给塔凯甫买一匹马让他骑，但他却说自己用不着。

买好这些后，三个人一起告别了被巴嘉勒尔称之为“供应商”的印第安人。用了不到半个小时，他们便回到了临时帐篷。看到这几个人归来以及他们所带的东西，大家都欢呼起来。当然，爵士和巴嘉勒尔都知道，大家不是在为他们欢呼，而是为那些马匹和食物。

丰盛的食物让大家饱餐了一顿。罗伯尔差不多也已经完全恢复了，吃了一些食物。

在剩下的时间里，他们主要是休息，恢复体力。在休息的时间里，大家聊得最多的就是海伦夫人和玛丽，当然也谈到了麦盖尔船长，以及他的那些船员。最后又谈到了他们远征的目的，格兰特船长，并说应该距找到他不远了。

在大家聊天的时候，巴嘉勒尔也没有闲着，他寸步不离地跟着塔凯甫，因为他真的遇到了一位真正的巴塔哥尼亚人，这让他兴奋异常。在这位巴塔哥尼亚人面前，他瞬间变成了矮人。看到塔凯甫，他觉得塔凯甫完全可以和古罗马的马克西明皇帝和学者樊·德·伯罗克见过的刚果黑人差不多，都有着2米多的身高。

当然，巴嘉勒尔跟着塔凯甫还有个原因，那就是向塔凯甫学习真正

的西班牙语。好在不管他用多么蹩脚的西班牙语和塔凯甫啰唆，塔凯甫都能耐着性子听他说。

这次，这位法国地理学家可不是照着书本学习语言了，他经常亮开他的嗓子，响亮地念出那些字符来。

“要是我以后说西班牙语还是音调不对，那就不能怪我。谁能想到我会让一个巴塔哥尼亚人教我西班牙语呢？”巴嘉勒尔经常对少校说。

第十二章 无意中的线索

10月22日8点钟，塔凯甫把启程的号令一发，大家便开始前行。

阿根廷位于南纬22度到42度之间，并由西向东倾斜。远征队员们只需从这微微倾斜的路上下去，便能到海边了。

在爵士说给塔凯甫买马让他骑时，塔凯甫拒绝了，爵士以为他会和很多向导一样，步行。因为即使真是这样，就凭他那么长的腿，走起路来，一定不会比马跑得慢。然而，爵士猜错了。因为就在他们出发时，塔凯甫的嘴里发出了一声呼哨，很快，一匹高大的阿根廷种马从附近的小树林跑了过来。

这匹马高大健美，有着棕红色的毛。它的头颈细长，肩胛高耸，鼻孔扩大，双目如炬；双腿强劲有力，高昂着头的它，胸脯一直挺得高高的……一切的一切都说明，它是一匹高贵而矫健的良马。

少校是个识马行家，对这匹棕红色马赞不绝口，甚至认为它和英国“猎马”有得一拼。

这匹马有个好听的名字叫“特迦”，“特迦”在巴塔哥尼亚语里是“飞鸟”的意思。显然，这匹马无愧于这个称呼。在塔凯甫刚一跨上鞍时，它就腾空跃起。

这位巴塔哥尼亚人确实也是个骑马能手，不管是他坐在马上的姿态还是挥鞭纵马的姿势，都让人不得不竖起大拇指。塔凯甫的装备是阿根廷平原里常用的，有两种猎具，分别是“跑拉”和“拉索”。而所谓的“跑

拉”就是在—根皮带上拴上三个球，并将这根皮带挂在鞍前。

遇到“猎物”后，印第安人会将这条“跑拉”扔出去，这样野兽或敌人的腿就会被裹住并绊倒。印第安人对“跑拉”的使用很熟练，所以“跑拉”对印第安人来说，绝对是个非常好的武器，而对敌人来说就是个可怕的暗器了。“拉索”和“跑拉”的作用完全不一样，甚至可以说是相反的，但也是他们从不离手的武器。

“拉索”是由两根皮条编织成的10米绳子，它的末端被套在了铁环里并打成了活结。当人们使用它时，只需右手扔出活结，左手抓住系在鞍上的一端就行了。

除了以上这两种武器外，塔凯甫还背着一支马枪，而这就是巴塔哥尼亚人的全副武装了。

坐在棕红马上的塔凯甫，俨然像个英雄，他健壮而灵活，行动从容自然，赢得了大家的赞美。不过，对于大家的赞美，他并不在意，并远远地跑在了队伍的前面。

一队人前行时，有时奔驰，有时缓步慢行，绝不会出现快步小跑的情况。而之所以这样，也许是因为阿根廷的马不知道什么叫中等速度。

小罗伯尔骑马很大胆，并表现出了绝佳的控鞍能力，爵士看他那么娴熟，也就完全放下心来。

草原地带分三个部分，是从高低岩的山脚下就开始了的。第一部分是指从安第斯山到400公里以外的地方，这个区域全是低矮的根木丛和灌木丛；第二部分有720公里宽，由茂密的草铺就而成，一直到距布宜诺斯艾利斯288公里外的地方；第三部分全是些大片的紫苜蓿和白术。

走出高低岩山区，远征队员们便来到了沙丘地带，这个地带的地势就像波浪一样，跌宕起伏。如果没有植被将它们“按”住，它们一定会随风飞扬的。而这些扬起的风沙非常细小，所以只需一点点风，那沙就会像烟一样，一阵一阵地飘荡起来，有些甚至还会涌起一阵阵的沙柱，旋转着升到高空。

这种壮观的场景让远征队员们既高兴又烦恼。高兴的是，当那沙柱在草原上随风飘扬，形成或聚或散、或高或低、或直或弯的形状时，这种大自然形成的美妙画面就让他们喜不自胜；烦恼的是，当它们飞扬起来时，即使是将眼睛闭上，细小的沙砾也能飞快地钻进去。

这天正好刮着北风，有半天的时间，他们都是在沙尘中行走的。尽管如此，大家走得依然非常快，高低岩很快就被他们抛在了40英里以外的地方，远远地只能看到一个影子，随即便消失在了黄昏的烟雾之中。

夜幕降临，一行人走了60多里路后，有些疲乏。而此时也正是夜宿时间，他们都很高兴。在河岸上，他们搭起了帐篷。纳乌克河又被称为纳米河或考陌河，这条河的河水色浑且水流湍急，在红色的悬崖中静悄悄地流淌着。

纳乌克河发源于许多湖泊中间，而这些湖泊的所在地，又只有印第安人知道。

这一夜无人说话，第二天照常赶路。平坦的道路，不是很糟的气候，让一行人走得很快，也很顺利。不过，到了中午的时候，天气突然变得闷热起来。而到了傍晚，天边的西南处被云彩染成了彩色，这是变天的征兆，向导塔凯甫看出来，指着西边那一带给巴嘉勒尔看。

“我知道了！”巴嘉勒尔很快就明白了他的意思，转而对同伴们

说，“马上就要变天了，我们要迎来一场‘奔百洛’了。”

说完后，他又为大家解释了什么是“奔百洛”。

原来，“奔百洛”是阿根廷草原上常有的西南风，有着这样风的天气非常干燥。果然，当晚就刮起了“奔百洛”。这让晚上只裹着“罩篷”的远征队员苦不堪言。马躺在地上，人紧紧地挤在马身边互相取暖。

爵士开始发愁，这样的天气如果继续下去，很可能会耽误他们的行程。不过，巴嘉勒尔在看了看气压表后，安慰他们说情况不至于这么糟糕。

“通常情况下，气温下降，‘奔百洛’的出现带来的是三天的暴风雨。不过，如果像现在这样，水银柱只是向上升，表明刮几个小时就会停止了。放心吧！亲爱的朋友，明天天一亮，绝对是个艳阳高照的好天气。”

“你说得这么肯定，好像书上看到的一样，巴嘉勒尔。”爵士说。

“本来就是书上说的嘛，不信你看就是了。”

果然就像书上说的，凌晨1点钟的时候，风停了，大家也都睡了个好觉。第二天一早，每个人都精神百倍，特别是巴嘉勒尔，他一会儿敲敲关节，发出愉快的叫声；一会儿又伸伸懒腰，像只懒洋洋的小狗。

这天是10月24日，也是他们从塔尔卡瓦诺出发后的第10天。他们现在距科罗拉多河和37度线的交叉处还有150公里。也就是说，他们只需走3天就能到了。

一路上，爵士的注意力一直集中在有没有土人上。他想从土人那里

打听格兰特船长的消息。

如今，巴嘉勒尔已经可以用他新学的西班牙语和巴塔哥尼亚人交谈了，并且和塔凯甫之间也有了更深的了解，如果要向土人打探消息的话，塔凯甫是可以给他们做翻译的。不过，他们所走的路线却不是印第安人常走的地方，因为从阿根廷到高低岩山区的大路都在这条路线的北边，所以那些被酋长统治下的游牧印第安人在这里并不容易遇到。即使偶然遇到，一看到他们一行人也就很快地逃跑了。

原来，这些人不愿意和陌生人接触。

确实是这样，他们这一行人的装备，让任何行走在草原上的单身行人都会觉得可疑的，即使强盗看见他们全副武装，带着武器，骑着快马，也会溜之大吉的。而一些旅行者看到他们这种装备，又会误认为他们是强盗。所以，不管是良民还是强盗，能见到都很不易，更不要说深入交谈了。

爵士一行此时却很渴望遇到一伙强盗，即使双方开上几枪，但若能交流也是好的。

想找到个印第安人打听路线看来是不可能了，不过，这荒凉的路线却引起了一件事情的发生，而这件事情的发生正好给那三张纸条做了注解。

远征队所走的路线有好几次都是横穿草原，其中有条小路非常重要，是由卡门通向孟杜萨的。沿途他们看到了很多骡马牛羊的骨骼，有些被鸢鸟啄得七零八落，而那些被鸟啄过的骨头又被空气蚀得白晃晃的，走一段就能看到一堆。

骨头数以千计，而那些骨头中，难免会有一些人的骨头存在，人的骨头和牲畜的骨头混杂在了一起，最后又都化成了泥土。

直到现在，看他们沿着一条路线走，塔凯甫也没有提出任何意见，不过他知道，这条路线既没有和草原上的任何一条路相连，也没有通向任何一个城镇、村落，或是任何一个开垦区。

作为向导，他看到这帮人不仅不让他带路，而且还带着他走，感到有些惊讶。不过虽然惊讶，但他却始终保持着印第安人的矜持，不多说一句话。即使有那么多的路没有走，他也一言不发。

这天，直到要走上了那条要道，这位向导终于忍不住了，他勒住马，对巴嘉勒尔说：“这是通向卡门的一条路。”

“没错！我的好塔凯甫，这是由卡门到孟杜萨的路。”巴嘉勒尔用很纯粹的西班牙语说。

“我们不走这条路？”塔凯甫问。

“是的，不走！”

“那我们是要去……”

“我们一直向东走！”

“一直向东？可是没有路可走了呀！”

“谁知道呢！”

塔凯甫更茫然了，但却没有说话，只是看着法国地理学家巴嘉勒尔，显出很惊讶的表情。不过，他并不认为巴嘉勒尔是在开玩笑。一直

都一本正经的印第安人，是想不到别人会不一本正经的。

好一会儿，塔凯甫又说：“难道你们不是去卡门？”

“对！我们不去卡门！”巴嘉勒尔说。

“也不到孟杜萨？”

“对！不去孟杜萨！”

此时爵士走了过来，他问塔凯甫在说什么，为什么停下不走了。

“他问我们是去卡门还是孟杜萨，我说都不是，他很吃惊。”

“是的，我们走这条路，他应该会很奇怪。”爵士说。

“我想也是的。因为他说前面没路可走。”

“那么，巴嘉勒尔，你是否把我们这次远征的目的告诉了他？这样他就能知道我们一直向东走的原因了。”

“难说，这印第安人懂什么地球的经度纬度的。而且我们发现那三张纸条的事，他听了一定会觉得是个神奇的故事。”

“我问你，到底是这故事他听不明白，还是讲故事的人说不清而导致他听不懂？”少校插进来一句话，表情很严肃。

“哦！麦克那布斯，看来你还是怀疑我的西班牙语！”巴嘉勒尔说。

“那就试试，我敬爱的朋友！”

“试就试！”

巴嘉勒尔走到了塔凯甫面前，尽可能详细地把那段故事讲了出来，当然，有时候会因为找不到合适的字代替，有时又因为有些细节不好翻译出来，或者是某些细节很可能对塔凯甫来说不容易理解……总之，他那长长的一番话常常被打断。

地理学家巴嘉勒尔的表情更是好笑，他指手画脚，费尽心机，直到汗水从额头流向胸口。最后，他实在说不下去了，只好用手势来解释。最后，他跳下马，在沙地上画起地图来，告诉塔凯甫什么是经线，什么是纬线，是怎么交叉的。还有哪里是太平洋，哪里是大西洋。卡门的那条路，又是通到什么地方。在这个过程中，这个地理学家感觉到了从未有过的困难。

塔凯甫一直在默默地听着，神态安闲，看着巴嘉勒尔的表演，也不知道他是听懂了还是没听懂。总之，巴嘉勒尔讲了半个多小时后，停下来擦着满头大汗看着塔凯甫。

“你能懂他说的吗？”爵士问。

“他要是再不懂，我也不知道该怎么办了。”巴嘉勒尔说。

塔凯甫一动不动，也不说话，只是看着沙地上逐渐被抹平的地图。

“你明白吗？”巴嘉勒尔问他。

塔凯甫像是没有听到他说话，还是一动不动。巴嘉勒尔已经看到了从少校嘴角露出的讥讽笑容。为了不被嘲笑，他正要重新给塔凯甫叙述一遍，塔凯甫却将手一挥，制止他说下去。

“你们是要找一个俘虏？”塔凯甫问。

“没错！”巴嘉勒尔马上说。

“就是从太阳落山的地方到太阳升起的地方？”塔凯甫用了他们印第安人的说法——这条路线确实是由西向东。

“没错，是这样的！”

“就是说，上帝将俘虏的秘密交给了大海？”

“对！是上帝亲自交给大海的。”

“哦，那就实现上帝的旨意吧！我们一直向东走，如果有必要的话，是要走到太阳那边的。”塔凯甫一脸严肃地说。

巴嘉勒尔见自己的学生听懂了，得意起来，他将塔凯甫的话转述给了同伴们。

“多么聪明啊！在我们国家，如果是20个人听我这么说，很可能有19个都不懂！”巴嘉勒尔赞叹道。

爵士让巴嘉勒尔再问塔凯甫，是不是听说过有外国人落入草原区印第安人手里。

巴嘉勒尔照实问了，并静等塔凯甫的回答。

“好像听说过！”塔凯甫说。

当巴嘉勒尔把这句话翻译给大家听时，7个人同时聚在了塔凯甫身边，用眼光示意他说下去。

巴嘉勒尔更是激动得几乎说不出话来，他继续对这个话题问下去，

并眼巴巴地看着表情严肃的塔凯甫，恨不得在他还没开口时，就能看出他想说什么。而塔凯甫每说出一个西班牙单词，巴嘉勒尔都要用英语翻译给他的同伴听，仿佛塔凯甫是在直接用英文说。

“俘虏是个什么样的人你知道吗？”巴嘉勒尔问。

“是个欧洲人！”

“你有没有见过？”

“没有，我只是在印第安人聊天时曾听到过，说他是个好汉，有颗牯牛般的心！”

“牯牛般的心！啊，巴塔哥尼亚语言真是好啊！朋友们，你们知道是什么意思吗？是说他是个勇敢的人！”巴嘉勒尔说。

“哦！是我的父亲！我的父亲！”

小罗伯尔激动地叫着，将脸转向巴嘉勒尔：“‘那是我的父亲’用西班牙语怎么说？”

“是‘艾斯——米奥——巴特勒’。”巴嘉勒尔回答道。

罗伯尔一把抓住塔凯甫的手，大声说：

“艾斯——米奥——巴特勒！”

“苏奥——巴特勒！（是你的父亲！）”

塔凯甫回答完，眼神亮了。他一把搂住了小罗伯尔，并将他抱下马鞍，既好奇又同情地看着他，平静的外表下却是热血沸腾。不过，巴嘉

勒尔还没有问完他的问题，比如那些印第安人有没有说俘虏在什么地方，俘虏在做什么，以及塔凯甫是什么时候听说的。这种种疑问瞬间就浮现在了巴嘉勒尔的脑海里。而当他提出这些问题的时候，塔凯甫也很快就回答他了，他说那个欧洲俘虏当时是在印第安人的部落做奴隶，而这部落在科罗拉多河与勒格落河之间。

“那现在欧洲俘虏在什么地方？”巴嘉勒尔又问。

“在卡夫古拉酋长的家里。”

“卡夫古拉家在不在我们走的这条路线上？”

“对！就在这路线上。”

“酋长是个什么人？”

“他是印第安·鲍与圣族的首领，是个两舌两心的人！”

“就是说，他人很善变，做事反复无常！”巴嘉勒尔翻译塔凯甫的那句话给他的同伴。

“那你觉得我们能解救出我们的朋友吗？”

“如果他还在印第安人手里，应该可以。”

“那么就是不能确定他现在还在喽？你是什么时候听说这事的？”

“很久很久了，离我听说这件事已经过去两年时间了。”

爵士的兴奋可想而知，因为这个时间跟他们那三张纸条上描述的时间非常吻合。不过还有一个问题，不等爵士说出来，巴嘉勒尔已经在问

了。

“是几个俘虏？一个还是三个？”

“不清楚！”

“现在俘虏的情况，你一点都不知道了吗？”

“是的，一点都不知道了。”

谈话就这样结束了。是不是三个俘虏很早就分开了呢？如果塔凯甫提供的这个资料是正确的，那么从他那里得来的情报就可以证实，印第安人嘴里所说的那个欧洲俘虏，被俘的时间以及关押时间、地点，甚至那句描述俘虏的“勇敢”，都指向了哈利·格兰特。

10月25日，远征者们怀着激动的心情一路向东。这一带被当地人称为荒漠，非常荒凉，一望无际的地面上，因为狂风的磨砺，看起来非常平坦，甚至差不多要寸草不生了。

这里除了一些已经没有水的干沟，以及印第安人挖的池沼里还能找到几块石头外，其他地方连一块小石子都没有了。即使发现一些稀稀落落的矮树林，矮树林间的间距也很远。偶尔看见零星的几棵白色决明子树，树上也会有果子。打开外壳，里面是带有甜味的果味，吃起来清爽可口。

此外，还有几丛香树、“沙纳尔”树、野金雀花树和各种荆棘……从这些荆棘的瘦小程度上就能看出此地是多么贫瘠了。

26日，远征队的队员们因为要赶到科罗拉多河畔过夜，所以策马快鞭，这一天也是最辛苦的一天。

当晚，他们来到了西经69度45分的地方，看到了草原区最美丽的大河，这条河经过很长的一段流程后，流入大西洋，因此被印第安人称之为大河。

这条河在接近河口的地方有个奇特的现象，就是离海越近，河里的水越少，而之所以这样，很可能是因为被松土吸走，抑或是蒸发了。当然，直到现在，这一现象的成因也是个谜。

一到科罗拉多河，巴嘉勒尔第一个跳进红色的河水里洗澡，这里的水色之所以是红色，是因为被陶土染红了。洗澡的时候，巴嘉勒尔吃惊地发现，河水非常深，河水深的原因也很简单，就是太阳融化了积雪，使水量增大。同时，河面宽得连马都无法渡过去。幸好几百米外的上游处有个木板桥，桥上的木板都是用一些皮条捆住吊在河上的。

一队人马从木桥上过去，决定在左岸露宿。

巴嘉勒尔睡觉前，把科罗拉多河测量了一下，并在他的那张地图上做了标示。由于他不能去了解雅鲁藏布江在西藏的山中的情况，便只好来测绘科罗拉多河了。

之后的两天，一行人平安无事。可和前几天他们看到的一样，四周全是荒凉贫瘠的土地，风景也没什么变化，连地形都显得很呆板。不同的是，这里的土壤比前面的潮湿。他们一行人走的时候，时不时地要过一些有水渍的洼地或沼泽。

28日晚上，一行人在一个大湖的岸上休息。这个大湖里的水其实是矿泉水，但印第安人却称其为“蓝库湖”，也就是“苦湖”的意思。原来，1862年，这里的土人曾经被阿根廷军队屠杀过，湖因此得名。

这天晚上，如果没有猴子和野狗的骚扰，大家一定会舒服地睡个觉。但猴子和野狗整晚叫个不停，仿佛是用它们的语言来欢迎这群不速之客。当然，它们的语言让这群欧洲人烦不胜烦，完全无法领略这种“美妙的”语言。

第十三章 沙漠般的平原

阿根廷的潘帕区在南纬34度与40度之间，“潘帕”是阿罗加尼亚语，意思是草原。而这一区域之所以被称之为“草原”，就是因为它是由西部的含羞草和东部的茂草构成的，这些植物生长在浅红色或黄色的土壤的上层浮土里，也就是地质学家所说的第三纪地层，所以这里有很多洪水前期的兽骨，以及印第安人所说的已经绝种的大犰狳骨骼。

这些骨骼就像沙尘一样多，全部隐藏在野草下，所以可以说，这一区域体现了原始时代的历史。

美洲的草原称得上是北美合众国北部五大湖的“草野”，也就是西伯利亚的“荒原”。由于它属于内陆地区，所以这一区域的严寒越过了布宜诺斯艾利斯，而据巴嘉勒尔说，夏天的热气在被海洋吸收后，热量会在冬天返回来，所以海岛上的冬天和夏天，没有内陆上的差异大。而草原的气候也没有东海岸一带均匀。

草原区的气候变化很大，忽冷忽热，忽寒忽暖，从寒暑表上就能看出水柱上下跳动之大。

不过在秋天，也就是4月5日的前后，雨水通常多而急，但在10月前后，气温会很高，气候也变得很干燥。

早晨天一亮，爵士一行看准路线后便出发了。此时，地面由于被很多灌木缠结，非常结实。没有沙丘，也没有构成沙丘的细沙，空中自然也就不会有被风扬起的沙尘。

行进在草丛中的马，大踏步地向前走着。

这里遍布一种草原上独有的草，在遇到暴风雨的时候，印第安人可以在这种草下躲避。

每隔一段距离，草地上就会出现一片潮湿的洼地。洼地里长着一一种柳树，这种柳树经常生长在淡水附近。所以每遇这种地方，马匹就会在此拼命喝上一通，这不仅是为了解决它们一时的口渴需求，也是为了之后着想，因为前面很难说会不会有淡水。

果然，越往前走，洼地越少，柳树和淡水也越少。

塔凯甫一直走在队伍的最前面，一路打着丛莽。这种丛莽是一种毒蛇，一旦将牛咬了，不到一个小时，牛就会死去。塔凯甫驾着他那匹矫健的特迦马，在荆棘中奔腾，在惊跑毒蛇的同时，也为后面的马匹开了路。

在如此平坦的草原上奔驰，不管是马还是坐在马上的人，都感到很舒服。这片区域即使在周围160公里之内，也找不到一块石头，甚至一粒石子。不过，如此单调乏味的地方，让人很容易厌倦。因为不管是风景还是自然奇观，都在这里不见了踪影。

当然，对于奇观的需求，巴嘉勒尔的兴致不小。遇到任何事情都有兴趣的地理学家，就连单调的一草一木也觉得很有意思。至于为什么会对这些普通的东西有兴趣，他自己也不知道。他只是在遇到小树丛或者一棵草的时候，打开话匣子，滔滔不绝地说给罗伯尔听，好在罗伯尔也喜欢听他讲。

10月29日的时候，展现在他们面前的平原依然那么单调。下午快两

点钟时，他们遇到了一些牲畜的遗骨。这些牲畜的遗骨白花花地堆在那里，仔细一看才知是牛的骨骼。这无数牛的遗骸并没有在路上排成弯弯曲曲的一条线，非常奇怪。

难道是牛太过劳累，倒地而亡形成的？对于这些遗骸是怎么存在的，连巴嘉勒尔也不知道。为什么牛骨头会聚在一个地方？巴嘉勒尔请教塔凯甫，塔凯甫很快就解释给他听了。

“怎么可能？”巴嘉勒尔听了后很不相信，但塔凯甫却表示是真的，这让其他人很是不解。

“怎么回事？”大家问。

“说是天火烧死的。”巴嘉勒尔说。

“什么？天火？就是说雷击的了？雷击会造成这样的惨剧？五百头牛会同时倒地死亡？”艾撒汀吃惊地问。

“塔凯甫是这么说的，我想，他应该是对的。而且我相信他所说的，因为草原上的风暴很厉害，所以希望我们不要遇到这种考验。”

“天气太热了！”维尔逊说。

“是呀！在阴凉的地方，温度计都显示30度了。”巴嘉勒尔说。

“很正常，我不觉得奇怪，我现在觉得热气在向我身上涌，希望不会继续这么热下去。”爵士说。

“唉！还是不要寄希望于变天了，你看看，天那边连一丝雾都没有。”

“唉！真是太倒霉了。”爵士说完，把脸转向罗伯尔，“马都受不了了，你怎么样？我的孩子！”

“我很好！爵士，我喜欢热，热了好！”

“哦，特别是冬天热了好！”少校说完，向空中喷了一口雪茄烟。

这天晚上，他们在一座废弃的草棚旁休息。这个草棚是由树枝编成的，上面涂着泥，顶上盖着草。草棚的旁边是个用木桩围成的院子，院子大得足以让八匹马在里面过夜，这样可以避免受到狐狸的侵扰。

当然，马虽然不怕狐狸，但狡猾的狐狸却喜欢去咬马的络头，一旦络头断了，马也就跑了。

离草棚几步远的地方，他们看到了一个土坑，这个土坑是做炉灶用的，坑里全是灰烬。草棚里有一条凳子、一张破了的牛皮床、一只锅、一条铁链子，还有一把煮“麻茶”的壶。“麻茶”是南美这边很受欢迎的一种饮料，也是印第安人喜欢喝的茶。

实际上，“麻茶”就是一种干枯的叶子，用水泡了后，用麦梗子吸就行了，有些类似美洲人喝饮料的动作。

在巴嘉勒尔的要求下，塔凯甫为他们煮了几杯“麻茶”，他们又拿出了干粮，这样，一餐晚饭就有了。大家一边吃着干粮，一边喝着麻茶。麻茶在此时也赢得了大家的赞叹，称味道好极了。

第二天，也就是10月30日的时候，太阳在东方慢慢升起，将最热的温度倾倒在了大地上。这一天的天气很热，可惜平原里没有可以遮阴的地方。但尽管如此，大家依然鼓足勇气往前走。有好几次，他们遇到了牧群，看到牛羊在这种天气下懒懒地躺着，一动不动，甚至连吃草的力

气都没有了，而那牧牛羊的人，却连个影子都不见。

当然，有那些习惯喝羊奶的狗守着这群牝牛、牡牛、牯牛和羊，牧牛羊的人还有什么好担心的呢，好在这些牛被驯养得也很听话，不像欧洲的牛，见了红色就发狂。

“之所以害怕红色，想必是共和国的草吃多了。”巴嘉勒尔说。由于当时法国统治者非常怕革命，谈“红”色变，所以巴嘉勒尔借此打趣。

晚上的时候，草原上的景物发生了变化，厌倦了单调场景的远征者们，一点变化都让他们注意到了。这个区域的禾本草类少了很多，但牛蹄印却越来越多。当然，这里有两米多高的大棵白木，这可是全世界的驴子都想得到的美味。

除此之外，这里还有一种矮小的树，以及一些带刺的暗绿色植物，这些植物稀稀落落地生长着。在如此环境下都能生长，这都源于它们适宜干燥的土壤。

也许之前，由于平原上湿润的黏土滋润着牧草，所以才让牧草长得茂密丰盛，犹如地毯一样。如今那厚地毯变旧了，大块大块的地方掉了毛。实际上，这也是贫瘠土地的象征，更是地面越来越干燥的证明。

所以，之后路程的艰难也就可想而知了，塔凯甫开始提醒大家要注意。

“这样的变化我并不讨厌，老看那些草，看得我头晕眼花的。”艾撒汀说。

“就是，不过看到草，也就意味着有水。我们需要喝水。”少校慢吞吞地说。

“哦，水是不用发愁的。在路上总会看到一条河的。”艾撒汀说。

如果这段对话被巴嘉勒尔听到，他一定会告诉艾撒汀，在科罗拉多河与阿根廷省的山脉之间，河流非常少。不过那时候巴嘉勒尔正在和爵士说话，爵士让他注意一下奇特的现象，而他也正在为那奇特的现象做着解释。

原来，爵士发现，天边看不到一点火，也看不到有什么地方失了火产生烟，但大气中却充满了烟味。对于这烟味来自于什么地方，爵士想让巴嘉勒尔做出解释来。

很快，烟味变得更浓了，大家也都闻到了，而且都很惊讶。不过，巴嘉勒尔和塔凯甫却一点都不惊讶。地理学家巴嘉勒尔解释起这个问题来，一点都不困难。

“看不到火却闻到了烟。有句话叫‘无火不成烟’，这在欧洲就有例子。所以说，一定是某个地方着了火，只是这平原太平坦了，气流非常畅通，所以在120公里以外的地方烧草，我们都能闻到气味。”

“120公里以外？”少校反问了一句，有些不服气。

“当然是120公里以外了。不过，我想说的是，这些火应该是大规模的焚烧，范围很大。”巴嘉勒尔肯定地说。

“那么谁会在草原上放火呢？”罗伯尔问。

“很可能是雷电引发的火，也有可能是草晒干了，是印第安人放的火。”

“为什么印第安人要放火？”

“对于这个嘛，有人认为草原上烧过一次火，草就会长得更茂盛。所以如果真是这样的话，那么很可能是印第安人为了让草灰积肥才放火的。当然，我觉得放火的目的是为了灭虫子，灭一种叫兽虱的寄生虫，这种寄生虫对牲畜很有害，这样一把火就能把那些寄生虫烧死了。”

“可是这种烧法，会不会把草原上的一些放牧的牛羊群也烧死？”少校还是不相信。

“对呀，很可能会烧死一些。不过牛羊有很多，烧死一些也无妨。”

“我现在可不是为那些牛羊群担心，我们管不了那些，可我想，那些穿过草原区的旅客怎么办？遇到这样的火，他们会怎么做？会不会被烟火包围？”

“你怎么会为这些事担心？这种事情就算是发生，在我看来，也是一件很壮观的事，我并不讨厌遇到这种事。”巴嘉勒尔大叫道，他好像对发生这样的事很渴望。

“看，这就是学者，他们为了学术研究，不惜被火活活烧死！”爵士笑着说。

“怎么会？我亲爱的爵士，我可不傻，不会无谓送命的。我读过美国小说家库柏的一本游记，他小说中有个叫‘皮袜子’的人曾说，当野火来了的时候，可以把四周的草都拔掉，当拔成一块直径达几米的空地时，也就没有危险了。这种做法做起来非常简单，所以我不怕大火烧来，我甚至希望能遭遇这么一场大火。”

当然，巴嘉勒尔希望的大火并没有发生，如果真有一场大火，他肯

定已经被烧焦了。因为这天的太阳光照直接可以用烈火炎炎来形容，在这种天气下，即使是原本很适应的马也受不了了，喘个不停。

想要找阴凉的地方，根本找不到。如果天空偶尔飘一朵浮云把烈日暂时遮住，地面上就会出现一些阴影，于是大家马上催促马儿快跑，追着阴影去躲，稍稍慢一步，就像被烤得出了油。

前面说过，维尔逊说不愁找不到水，他说这话的时候，根本不会想到真有这么一天，他们渴得发慌。他以为在路上怎么都能见到一条小河，可事实不是这样的，事实上，平坦的地面没有任何沟渠来储水，即使看到了印第安人挖的池塘，也早已干涸了。

巴嘉勒尔看天气越来越干燥，几次问塔凯甫，什么时候能找到水。

“盐湖才有水。”塔凯甫说。

“什么时候能到盐湖？”

“大概明天晚上能到。”

阿根廷人在草原旅行时，通常都是临时掘井取水。不过远征者们却没有挖掘工具，所以只能将自带的水分给大家。在如此干渴的情况下，自然不会因这点水而满足。

大家一口气走了48公里，晚上停了下来。此时，每个人都想好好睡上一觉，恢复一下一天来的疲劳。然而，虽然预料到有蚊子，但却没想到蚊子多得在他们头顶形成了乌云，嗡嗡嗡地叫个不停，让他们根本无法休息。

如此多的蚊子涌向这里，预示着风向要发生变化了。果然，风向改

变了90度，由原来的西风变成北风了。通常情况下，当起南风或西南风时，可恶的蚊子是不会涌过来的。

在这种情况下，少校还和平时一样镇定，但巴嘉勒尔就不同了，他烦躁起来，恨死了那嗡嗡乱叫的蚊子，只恨自己没有酸水来擦身上被蚊子叮的包。少校极力安慰他，说博物学家曾统计，世界上有30万种昆虫，现在只是受到了一万只昆虫的袭击，已经很幸运了。但巴嘉勒尔第二天早晨起来依然憋了一肚子的火。不过，即使心里有气，天一亮没经别人催促，他还是起身就走，因为早走就能早到盐湖。

他们骑着的马已经既乏又渴了，虽然尽量把自己喝的水留给马喝，但那点水对马来说，太少了。这天，天气越发干燥，潘帕区的北风和非洲大沙漠里的热风一样，挟着沙砾满天飞，让他们不仅要受烈日的烘烤，还要忍受飞沙迷眼，非常痛苦。

这时单调的行程突然被打断了，原来，穆纳在前面走着走着，忽然勒转了马头，告诉大家说有一批印第安人正朝他们走来。对于这件事，一行人又有两种不同的看法，爵士觉得遇到这些印第安人是好事，他们很可能会提供“大不列颠号”失事船员的线索；但塔凯甫却持不同的看法，认为平原上遇到游牧的印第安人，很可能是盗匪，所以要尽量避开才行。

最终，大家决定准备好武器，做好应对突发危险的准备。

很快，他们看到了这群印第安人，不过人数并不多，只有十来个，这让塔凯甫放下心来。在距离印第安人只有百步远的时候，他们把印第安人的面部已经看得很清楚了。这些人是土著，而且是1838年阿根廷独裁者诺撒将军扫荡过的那个种族。他们身材高大，有着高高的额头，额

头朝前鼓起，也有着象征印第安人健美的橄榄色皮肤。

这些人的身上披着原驼皮或臭鼬皮，身上的装备除了两丈长的长枪外，还有刀、弹弓、“跑拉”及“拉索”。从这些人坐在马上的样子就能看出，他们个个都是好骑手。

此时，这些印第安人也停了下来，并开始互相呜里哇啦地说着什么，像是在商量什么事情。在爵士向他们走去时，还没走到4米远，那群人突然掉转马头，一溜烟跑了，速度快得惊人。爵士他们已经很累了，想追也追不上。

“一群孬种！”巴嘉勒尔骂道。

“能逃得这么快，一定不是什么好人。”少校说。

“他们是什么人？”巴嘉勒尔问塔凯甫。

“高卓人！”

“啊？是西班牙和印第安人的混血种族？”巴嘉勒尔转向大家，大叫道，“不过他们看到我们为什么要跑呢？我们有那么可怕吗？”

“你为什么这么说？”少校问。

“高卓人非常和善，是些善良的庄稼人。”

“是这样吗，巴嘉勒尔？”

“当然是了，那些可怜的高卓人，把我们当成强盗了。”

“我觉得他们是不敢袭击我们，所以跑了。”爵士说，他想向那些人

问些事情，而那些人却逃跑了，这让他很懊恼。

“我觉得也是，而且我觉得这些高卓人不仅不善良，而且是些不折不扣的盗匪。”少校说。

“为什么这么说？”巴嘉勒尔不满地叫了起来。

于是，关于种族学的一些问题，几个人又争了起来，争得非常激烈，连一向淡定的少校也破例加入进来，表达他的看法。

“你的看法不对，巴嘉勒尔！”

“为什么不对？”巴嘉勒尔反问道。

“塔凯甫都觉得这些印第安人像强盗，他的看法是有根据的。”

“塔凯甫这次的看法是错的。高卓人是善良的农夫、牧人，他们什么都不懂，我就曾写过一个小册子，非常受读者欢迎。”巴嘉勒尔反驳道，有些气愤。

“这次你一定错了，巴嘉勒尔先生。”少校坚持道。

“麦克那布斯先生，你是说我错了？”

“应该又是你粗心犯的错吧。我觉得你该把你书上的内容再重新纠正一下。”少校坚持说，表情一如既往地严肃。

巴嘉勒尔见少校嘲笑他的地理学知识，非常愤怒，脾气也上来了，大声怒吼：“告诉你先生，我的书没什么值得纠正的。”

“还是有需要纠正的，至少这次需要纠正。”少校也固执起来。

“先生，你今天是故意和我做对吧！”

“我看你今天脾气太大了！”少校毫不示弱。

从他们的争论可以看出，事情的本身根本不需要这种争执，于是爵士劝他们说：“我看呀，你们今天一个拼命挖苦对方，另一个又格外暴躁，都不像平时的你们，这让我很惊讶。”

塔凯甫听不懂他们在吵什么，但却知道他们是在争吵，他的脸上浮现出了微笑，慢慢地说：“都是北风不好。”

“什么？你说北风不好？北风和这件事有什么关系？”巴嘉勒尔喊道。

“是北风不好，如果没有北风，你就不会这么冲动。我听说南美洲的北风很容易刺激人的神经，让人变得冲动。”爵士说。

“啊！我们最崇拜的基督圣人圣·巴特利克也说过。你说得对，爱德华！哈哈哈……”少校大笑起来。

不过巴嘉勒尔没有笑，他是真的生气了，他觉得爵士的玩笑话开得太过分，所以又找上爵士争辩。

“你这是什么话呀，爵士，你是说我的神经受刺激了？”

“对呀，巴嘉勒尔，北风刺激了你，这种风是会让草原里的人犯罪的。就和阿尔卑斯山脉东部地区的风刮到了罗马乡间一样！”

“犯罪？你是说我像个会犯罪的人吗？”巴嘉勒尔不依不饶。

“我可不是这个意思。”

“那你还不如说我要杀你！”

“哈哈……”爵士忍不住笑出声来。

“亲爱的巴嘉勒尔，我真怕你杀了我啊，幸好北风只吹一天就停了。”

爵士的话引得众人哈哈大笑。

依然还在气愤中的巴嘉勒尔愤然离场，骑着马独自跑在最前面生气去了。不过一刻钟后，他像没事人一样，又和大家有说有笑了。

法国地理学家巴嘉勒尔的性格就是这点好，任何事过后就算。巴嘉勒尔这次的脾气爆发，爵士说得对，很大程度上是外在原因造成的。

晚上8点钟的时候，走在前面的塔凯甫指出了通向盐湖的路线，一刻钟后，他们到了盐湖堤下。渴望已久的地方终于到了，不过很快他们就又失望了，甚至说是绝望了，因为湖水全干涸了！

第十四章 寻找水源

盐湖是由温塔纳和瓜河绊尼两条山脉延伸而来，由众多湖沼形成。湖里含有大量的食盐氯化钠，所以在以前，一些人经常从布宜诺斯艾利斯出发，到盐湖来取盐。不过现在这里的水被蒸发掉了，盐分全都凝结在湖底，湖面形成了一面巨大的盐镜子，反着光。

塔凯甫在对他们说盐湖有水喝的时候，并不是指盐湖里面，而是指入湖的一些淡水。可谁知那些河流也干涸得和盐湖一样，骄阳将湖里、河流里的水全部蒸发完了，所以当远征队员们看到这种情况的时候，全都傻眼了。

此时，他们携带的皮桶里的水也已经有些变质了，不能喝了。大家焦渴难耐。饥饿和疲惫完全不能和“渴”相比，大家必须先解决这个问题。他们找了一个被土人遗弃的皮帐篷，并将它支在一个土坑里。

精疲力竭的他们安顿了下来，马则躺在了湖岸上，饥渴的马无奈而嫌恶地吃着咸草和枯芦苇。

大家在皮帐篷里住下后，巴嘉勒尔问塔凯甫接下来要做什么。两个人开始用西班牙语对话，聊得很快，表情各异。塔凯甫始终很镇定，巴嘉勒尔却手舞足蹈。爵士在旁边听着，听懂了几个字。几分钟后，塔凯甫抱起了膀子。

“他在说什么？好像是说让我们分开？”爵士问巴嘉勒尔。

“对，他让我们分成两队。他说在我们中间，如果有些人的马既渴

又走不动了，那就沿着37度线慢慢往前挨，这样那些还有点力气的马，便能跑到前面，去侦察格米伊河了，这条河离这里只有50公里，是流入圣洛佳湖的。如果那里的河水很多，他们就可以在河边等后面的人了。如果那里的水也没有了，那么他们就能折返回来，叫后面的人不要走冤枉路。”

“可要是还找不到水怎么办？”艾撒汀说。

“没有水就继续南下120公里，到温塔纳山脉最开始的几条支脉去，那里有很多河流。”

“哦，爵士，带我去吧！”罗伯尔说，好像这是去玩一样。

“你能赶得上我们吗，我的孩子？”

“能，我能赶上！我的马很好，老是要向前跑。带上我吧，好吗？爵士……求求您了！”

“好的！我的孩子！”爵士也想让罗伯尔在他身边，这样他才会放心。

“我们三个人，如果再找不到有淡水的地方，那就太笨了！”爵士接着说。

“我呢？我在哪一队？”巴嘉勒尔问。

“哦，亲爱的巴嘉勒尔，你还是在后备军这一队吧，你太了解37度线上的情况了，你知道格米伊河，还知道整个潘帕区，所以不能离开我们。我、穆纳、维尔逊都赶不上塔凯甫，也不能和他一起到约定地点，我们就在你的指挥下，信心十足地慢慢前行。”少校说。

“看来，我只能接受了。”地理学家巴嘉勒尔说，他很高兴自己获得了认可，有了指挥权。

“不过这次，你可千万不能粗心，千万别把我们领迷路了，比如引到太平洋的岸上去了等等。”少校又说。

“要真是那样可就太好了，你这个讨厌的少校。”巴嘉勒尔笑着说，把头转向爵士，“亲爱的格莱拉弗，你该怎么听懂塔凯甫的话呢？”

“我会一点西班牙语，紧急情况下可以让他听懂我的话，我也能听懂他说的部分话。”

“好吧！那你就去吧，我可敬的朋友！”

“先吃晚饭吧，要是睡得着就睡一觉，天亮咱们出发。”爵士最后说。

吃完晚饭，因为没有水喝，大家都觉得很难受，但也没有办法，只有睡觉了。巴嘉勒尔在睡梦中还梦到了很多急流、瀑布、大江、大河、池塘、小溪……甚至还梦见了很多凉水瓶，瓶子里装满了凉水，总之，梦里他见到的全是水，而这个梦也是毫无逻辑，乱作一团。

早晨6点钟的时候，塔凯甫、格莱拉弗、罗伯尔三个人都把马准备好，又将皮桶里最后一点臭水给马喝了后，骑在了马上。

“再见喽！等会儿见！”少校、艾撒汀、维尔逊、穆纳一起冲他们说。

“你们最关键是要找到淡水，不要只顾往前跑。”巴嘉勒尔补充了一句。

塔凯甫、爵士和罗伯尔走了不一会儿，再回头，发现由巴嘉勒尔领头的那队人马已经不见了，不免有些吃惊。

穿过那片盐湖后，他们到了又一个陶土质平原，那里生满了一米八左右的灌木，这属于木本含羞草，因为含有苏打水的成分而被称之为“如木”。太阳光照射着疏落分布的大片盐地，经过盐地反射后的光线强烈得惊人。

盐地初看很像结冰的水面，不过，灼热的阳光很快就能让人分清那是盐地还是冰面了。即使如此，整片被阳光晒得发焦的贫瘠土地还是和闪闪发光的盐地相互呼应，给这片荒原增添了不一样的景象。

前面说过，如果格米伊河也和盐湖一样干涸了，那么他们就不得不去南下130公里的温塔纳山区了，那一山区和盐湖完全两样。1835年，斐茨·罗伊船长曾乘着“猎犬号”，来到这个地方探险。

此地土壤肥沃，可以说是全印第安领土最好的牧草场，牧草丛生，一直延伸到森林里。森林里有种决明子树，这种树上的果子晒干后，磨成粉可以做出印第安人最喜欢吃的面包。这座森林里还有一种破斧树，是白色的，木质坚固。还有一种遇火就燃，被印第安人称为“洛杜柏”的树，以及开着层层叠叠的紫花，犹如金字塔的一种“维纳洛”树，还有那能在空中撑起24米高的大伞的“梵柏”树，这种伞状大树可以让整群牛羊在下面乘凉。

这个地方，阿根廷人一直想占领，但终因无法战胜印第安人，只能作罢。

不难想象，这样肥沃的地方，一定有从大河来的水给它们提供足够的湿度。没错，确实是这样，即使是最干旱的时候，这里的一些河流也

不会干涸。不过，要想找到这些河流，还要向南走210公里才行。所以塔凯甫的先到格米伊河的主张是对的，这样既不会脱离原来的路线，而且比温塔纳山靠近很多。

先头部队的三匹马跑得飞快，因为聪明的它们，知道主人会带它们去什么地方。特别是那匹棕红色的特迦，它展现出了渴望摆脱一切疲劳和饥渴的勇气，如飞鸟一般，跨过干涸的沼泽，跳进了树丛，并发出快乐的嘶叫。

相比之下，爵士和罗伯尔的马就没有那么欢快了，不过，也许是受到了特迦的鼓舞，它们勇敢地跟在后面。塔凯甫坐在马上基本上不用动，非常镇定，这也鼓舞着他的同伴，就像特迦鼓舞着它的同伴一样。

行进中的塔凯甫，不时地回头看着罗伯尔。

小小年纪的罗伯尔，稳稳地坐在马上，骑马行进时，肩背侧斜，腰部非常灵活。他的双脚自然下垂，双膝紧挨鞍上，让塔凯甫不禁叫起好来。确实是这样，这次的远征，已经把罗伯尔训练成一流的好骑手了。

“不错！罗伯尔，连塔凯甫都在称赞你呢，我的孩子！”

“为什么称赞我，爵士？”罗伯尔问。

“说你骑马的姿势非常好。”

“哦！我只是觉得这样骑着舒服！”听到有人夸奖他，罗伯尔的脸红了。

“就是要骑得舒服才行。罗伯尔，不要太谦虚了。我预测你一定会成为一个绝佳运动员的。”

“哦，我小时候，爸爸说想让我成为优秀的水手，我要是做了运动员，他会怎么看呢？”罗伯尔笑着说。

“做绝佳的运动员是不影响做一名好水手的。好骑手也许不一定能做好水手，但好水手却可以成为好骑手。因为在帆架上骑惯了，也就可以舒服地坐在马上了。对于怎么勒马，怎么指挥它，都很容易。”

“我可怜的父亲啊，爵士，是您救了他，他以后不知道会多感激您呢！”罗伯尔说。

“你爱你的父亲吗，罗伯尔？”

“爱，非常爱！他对我和姐姐很好，他一直一心一意地待我们，每次旅行回来，都会带他去过的地方的纪念品回来。一回到家，他就会拥抱我们，和我们亲热地说话。爵士，您认识了他，一定会喜欢他的。玛丽很像他，他说话的声音非常温柔。他是做水手的，但说话却能那么温柔，您一定想不到吧！”

“是的，绝对想不到，罗伯尔。”

“我仿佛看到他就站在我的面前。我那慈爱的爸爸呀，在我小时候，他经常把我抱到膝盖上，摇我睡觉。他还会哼一支苏格兰歌曲，歌曲里都在赞美我们的国家，有些调子我还能记得呢，不过不是很熟，玛丽记得很清楚。爵士，我们是多么爱他呀，我觉得一个人年龄越小，一定会越爱父亲的。”

“没错，长大后，更多的是对父亲的尊敬，我的孩子！”听了罗伯尔流露出的心声，爵士非常感动，动情地说。

在他们这么聊着的时候，马在缓慢前行。

“一定会找到我的父亲的，对不对？”罗伯尔沉默了一下，突然说。

“对！一定会找到的。塔凯甫已经给我们提供线索了，我非常信任他。”爵士说。

“塔凯甫是个非常正直的印第安人！”罗伯尔说。

“是的！确实是这样。”

“有件事情，不知您知道吗，爵士？”

“什么事？”

“和您在一起的每个人都很好！像海伦夫人，我真的特别爱她。还有少校，很淡定。还有麦盖尔船长、巴嘉勒尔先生，还有‘邓肯号’上的全体水手，他们都很好，既勇敢又热心。”

“是的，他们都非常好，我的孩子！”

“可是您却是这些好人中最好的一个！”

“哦？为什么这么说？”

“您应该知道的，爵士！”罗伯尔说着，拉起爵士的手，放在嘴上轻轻吻了吻。

爵士有些茫然地摇了摇头。他们的谈话没有再继续，因为他们已经落后塔凯甫很远了，塔凯甫在很远的地方招手催他们。他们知道，时间是非常宝贵的，后面有一队人马还在等着他们。

三个人再次催马狂奔起来。不一会儿，他们就发现除了特迦外，其余两匹马都跑不动了。已经到了中午了，他们必须让马休息一个小时，不然太累了。然而，旁边那大丛的苜蓿已经全都被晒枯了，三匹马都不愿意吃。

爵士心里又不安起来，干燥的天气没有变化，如果再找不到水，不知道会发生什么事。塔凯甫也沉默着，如果说这个印第安人心里有了失望的话，他一定在想，要是格米伊河也干涸了，那可怎么办呢？

他们继续出发，不管怎样，就是用马鞭，甚至马刺逼马上路都行。后来，马虽然开始动了，但却是缓慢行走，再也不可能走快了。塔凯甫本来可以跑到前面去，因为特迦只需几个小时就能把他送到格米伊河岸边。而他自己也想这样，但又不能把其他两个人丢在这荒野地带，所以只能紧紧勒住特迦的缰绳，强迫它慢下来。

让特迦慢行，特迦很不舒服，所以它不断地做着抵抗、跳跃甚至嘶叫。塔凯甫只能放松缰绳，像对人说话一样对特迦说好话，最终，经过一番人与马的“商量”，特迦接受了主人的做法，慢了下来，只是不断地咬着嚼铁，以示不满。

特迦了解它的主人塔凯甫，如同它的主人了解它一样。

这匹聪明的马有着灵敏的嗅觉，它感受到了空气中的湿意，拼命吸着这股湿意，还不断将舌头鼓动得咕咕作响，仿佛是在饮清凉的泉水。塔凯甫知道，他们离泉水不远了。

塔凯甫把特迦举动的意义告诉了爵士，并鼓励他们。同时，另外两匹马很快也知道了特迦的心思。它们拼尽全力，跟在了塔凯甫骑着的特迦身后向前奔去，下午3点钟的时候，一条白茫茫的线出现在了前面的

一个凹处，那凹处在阳光下发着粼粼的光。

“水！是水！”爵士大声叫道。

“是水！真的是水！是水！”罗伯尔也叫道。

他们没有催马，那三匹可怜的马便飞奔起来，向波光粼粼的地方跑去，此时，不管什么都无法阻止它们奔向那里。没有几分钟，它们就奔到了格米伊河岸。

最终，马连鞍带人，一起扑进了那救命的河水里，河水漫到了马的胸脯处。

三匹马的主人在河水里洗了个澡，虽然衣服都湿了，但他们却欣喜若狂。

“太好了！真是太舒服了！”罗伯尔大声叫着，不停地喝着河水。

“慢点！慢点喝！孩子！”爵士虽然这么对罗伯尔说，但自己却做不到慢点喝。

此时，他们听到的全是咕咚咕咚的喝水声。

塔凯甫也在喝，但他却没有爵士和罗伯尔喝得那么急，他慢慢地，一小口一小口地喝着。不过却也喝个不停，像是要把整条河的水全喝光。

“好了，有了这条河，朋友们就不会失望了。等他们一到格米伊河就有水喝了。这水真是既清又多，太好了。不过塔凯甫千万别把这一整条河的水都喝干。”爵士开玩笑说。

“我们要不要去迎接他们？这样可以减轻一些他们焦急等待的痛苦。”罗伯尔说。

“说得不错！孩子，可我们要怎么带水给他们呢？皮桶还在维尔逊那里呀。还是不要去迎接了，按原定计划在这里等他们吧，按照时间，以及我们马行走的速度来看，他们应该会在夜里赶到的，我们先在这里替他们准备好住宿的地方，以及丰盛的晚餐吧！”

塔凯甫不等爵士开口，便去找宿营地了。很快，他就幸运地在河岸上找到了一所关牛马用的院子。这种院子三面环墙，只要不怕露天睡觉，还真是个好地方。

当然，爵士他们并不要求一定要在屋子里睡觉，所以也没有再去找其他地方，只是在太阳下晒着自己湿透的衣服。

“住处有了，就要想法做晚饭了。我们这前头部队一定要为后面来的朋友准备好一切，等他们到了，也就没有什么可抱怨的了。而且现在等待他们的这段时间，我们正好可以去打猎。怎么样？准备好了吗，罗伯尔？”

“好了！爵士！”罗伯尔说着，一骨碌从地上爬了起来，手里拿着枪。

爵士想去打猎，是因为格米伊河两岸的平原上有成群结队的鸟，比如潘帕区特有的红鹧鸪、黑鹧鸪，以及雌鸪、黄色的秧鸡、绿色的松鸡……当然，除了这些鸟外，他们并没有看到野兽。不过塔凯甫指了指深草丛说，野兽都藏在那里。也就是说，他们只需要多走几步，就能到狩猎区了。

有了这么多的猎物，“猎人”们也挑剔起来，他们不想打飞禽，只想打野兽，所以便对着深草丛开了几枪。很快，他们面前就出现了鹿和原驼。原驼和在高低岩冲倒他们时一样，跑得飞快，打不上。他们只好又降低要求，打那些跑得慢的野兽，这些野兽用来做菜，味道都会不错。

最后，他们不仅打了十来只红鹧鸪和秧鸡，而且爵士还打下了一头野猪，这种野猪的味道非常鲜美，爵士的那一枪打得真是值了。

没用上半个小时，精神百倍的他们就将需要的野味备齐了。罗伯尔打到一只长满活动鳞甲的犰狳，这只犰狳整整有半米长，肥嘟嘟的。塔凯甫告诉他们，犰狳绝对能做成一盘好菜。罗伯尔对自己能打到这么一只怪物很自豪。至于塔凯甫，则打了一只潘帕区特产的鸵鸟。鸵鸟跑起来速度惊人。塔凯甫打这只鸟时，起先并没有围追堵截，而是骑着特迦跑到了它的面前。由于这只鸵鸟喜欢在原地转圈，很难一枪打中，塔凯甫就坐在特迦上，让特迦跟着转圈，转了不知道多少圈后，人和马都累得不想跑了，但还是打不中。最后塔凯甫扔出了他的“跑拉”，精准地套住了鸵鸟的腿，鸵鸟一时之间无法动弹，几秒钟后便躺在了地上，塔凯甫立刻捉住了它。

这不仅是一场娱乐，更是他招待外来者的待客之道。

最终，他们打到的野味有：一大串鹧鸪和秧鸡，鸵鸟、野猪、犰狳……全都带回到了院子里。鸵鸟和野猪被他们剥了皮，切成了薄片。由于犰狳是名贵的野兽，最适于烤着吃，所以他们就将它连壳放在热炭上烤了起来。

几个人在吃晚餐时，只吃了鹧鸪和秧鸡，其他的美味都留了下来，准备招待后面的朋友。吃着晚餐的时候，他们也同时在喝清水，而此时

的清水，简直比他们喝过的世界上最美的美酒都好喝，甚至比那苏格兰高地所崇尚的著名的威士忌酒都好喝。

当然，他们吃喝的时候，也没忘记给马补充能量，院子里堆了大量的干藁草，足以让它们填饱肚子。在吃好喝好后，他们裹着罩篷，躺在一一大堆柔软的紫花苜蓿草上，这种草被潘帕区里的猎人一直当成草席使用。

第十五章 与狼群夜战

这是个没有月亮的夜晚，微弱的星星在天空眨着眼，照着这片肥沃的草原。天边的黄道星隐没在黑夜里，因为浓雾，看不清楚。

格米伊河静静地流淌着，如同从云母石上滑下来的油水。所有的生物好像都休息了，无边无际的草原上一片寂静。

三个人像是在互相影响，全都一个姿势，直挺挺地躺在草堆上酣睡。

两匹疲惫不堪的马也倒在了地上，但特迦却保持着它纯种好马的优良姿态，四条腿笔直地站立着睡觉，它睡觉时和行走时一样英武，好像时刻做着准备，等待着主人的召唤。

院子里安静极了，炉子里的火炭在静悄悄的黑夜里闪出最后一点红光，它快要熄灭了。

不过，塔凯甫在晚上10点钟时，猛地醒了过来。他皱着眉头，凝神细听，像是要听到一点意外声响。很快，他那没有表情的脸上，隐约露出了一丝不安。

难道来了一批印第安人？或是来了一群黑斑虎、水老虎或其他猛兽？他预感到最后一种可能性很大，他向院子里那燃烧着的火堆看了一眼，内心更不安了。那堆干苜蓿马上就要烧完了，没有火光，很难挡住凶猛的野兽！

在这样的时刻，塔凯甫觉得没有别的更好的办法，他只能耐心等待，等待事情的发展。于是，他半躺在地上，两肘压膝，双手支地，眼睛一眨不眨，保持着在焦虑中突然醒来的人才有的姿势。

整整一个小时过去了，如果不是塔凯甫，不会有人听到外面有异样，很可能会放心大胆地睡觉。不过，虽然外来人无法感觉到危险的降临，但印第安人对危险的敏锐感觉，以及他天生的本能让他预感到，危险马上就要降临了。

仔细一听，那匹聪明的棕红马特迦也醒了过来，嘴里发出了微微的嘶叫，鼻孔伸向院子出口。塔凯甫一下子直起腰来。

“特迦觉得敌人来了！”他想。

他站了起来，走出了院门，看着黑茫茫的草原。四周依然一片寂静，但塔凯甫还是隐约发现有黑影在苜蓿丛边游动，好像还有什么东西在闪闪发光。

光是从各个方向散发出来的，有时亮，有时又暗，如同磷火在大湖沼上闪起。如果是外地人，一定会以为是萤火虫，萤火虫在潘帕区很常见。不过塔凯甫不这么看，他知道那是敌人，而且是凶恶的敌人。

塔凯甫一下子装上了子弹，躲在一个木柱后面注视着那里。

他等待着，不久，草原上响起了一阵像是狂吠，又像是长号的混杂声。塔凯甫朝那发出怪声的地方开了一枪，很快引起了无数的叫嚣。

爵士和罗伯尔被惊醒了，他们一下子爬了起来。

“发生什么事了？”罗伯尔问。

“印第安人来了？”爵士问。

“不！是‘阿瓜纳’。”塔凯甫说。

罗伯尔不解地看着爵士。

“‘阿瓜纳’是什么东西？”他问。

“是红狼，潘帕区的红狼。”爵士回答。

两个人一起拿起枪，跑向塔凯甫。塔凯甫用手势告诉他们，让他们看那块长满苜蓿的草原：那吓人的怪叫声就是从那里发出来的。

罗伯尔不由自主地向后退了一步。

“我的孩子，你害怕狼？”

“不！我不怕！爵士，只要和您在一起，我什么都不怕！”他的眼神坚定，回答有力。

“很好！红狼不是什么了不起的野兽，我们不要怕，只要来得不多，我们不用怕它们。”

“就是！我们有枪，它想来就来好了！”

“来了它们就是死路一条！”

爵士嘴里虽然这么说着，却也只是安慰罗伯尔的话。这一大群野兽的到来，实际上已经让他感到害怕了，更何况不知道来了多少。如果来了几百头的话，那么靠他们三个人，即使有再厉害的武器，也是不占上风的。

在塔凯甫说“阿瓜纳”的时候，爵士知道这是印第安人对红狼的称呼。这种动物的身材虽然和大狗一样，但却比大狗矫健和强壮。它们的头像一只狐狸，毛色是肉桂红的，脊背上有一排黑色的鬃毛。

红狼生活在沼泽区，以捕食水生动物为食，它们经常白天睡觉，晚上出动，并袭击牧场，牧场主很怕它们。这种动物饿起来的时候，连牛马都会攻击，所以是本地人最恨的动物。

当然，如果是单个红狼的话，它一点都不可怕，但如果是成群的饿狼，那就厉害了。人们经常情愿打一只美洲豹、黑斑虎都不愿意招惹一群狼，因为虎豹是可以从正面打它们的，但遇到红狼群，却是前后左右都顾不过来的。

所以，当爵士听到那一声声的怪嚎，再一看黑影在平原上蹦跳，便知道那里聚集了很多红狼，而这些红狼，正是饿得嗷嗷叫的时候，吃不上一口，它们是怎么都不会退缩的。

情况非常危急。

此时，狼群在缩小它们的包围圈，三匹马也都醒了，发出害怕的叫声。特迦拼命用蹄子踹地，想要挣脱缰绳，冲到外面去。塔凯甫不停地打着呼哨给它发指令，让它安静下来。

爵士和罗伯尔守在院子的入口处，枪也上好了子弹，做好了一切向冲在最前面的红狼开火的准备。突然，塔凯甫把他们举起的枪按住了。

“他想做什么？”罗伯尔问。

“他不让我们开枪？”

“为什么不让我们开枪？”

“可能觉得时机不成熟吧！”

其实，塔凯甫并不是觉得时机不成熟，而是有着更加重要的原因。当他托起了他的子弹袋，并将它翻转过来，表示里面几乎没多少子弹的时候，爵士明白了。

“发生什么事了？”罗伯尔问。

“他是说我们要节省子弹，今天我们打完猎，弹药快没有了，还有不到20发子弹。”

罗伯尔没再说话。

“怕吗，罗伯尔？”

“不！不怕！爵士！”

“真是个好孩子！”

此时，又有一枪打了出去。原来，一只胆大的狼冲了上来，被塔凯甫打死了。其余的狼排成密集的队形，原本前进的步伐停了下来，并退后几步，挤在了离院子大约100步的地方。

塔凯甫向爵士招了招手，爵士过去替换了他的位置。塔凯甫跑到院子里，将所有能烧的东西全都搬到了院子的入口处，并丢了个燃烧的火炭在里面。很快，幽暗的夜空便被火光照亮了，火光同时也照亮了周围的平原。

透过火光，爵士这才意识到，他们需要对付的红狼有多么多。甚至

可以说他从没见过这么多的狼聚在一起，也从没见过这么凶狠的狼。塔凯甫燃起的那堆火像一张网，将那群狼拦在了外面，但同时也更加激怒了它们。

有几只狼跑到了火堆处，烧着了前爪。

叫嚣着的狼群不断地往前涌，用枪打肯定不可能把它们全部消灭，也不可能将它们击退。

仅仅只过了一个小时，15只狼便死在了他们的枪下。

有了那堆火，他们的处境不再那么危急，只要弹药不完，火堆不灭，狼群就奈何不了他们。不过，一旦子弹没有了，而且火堆也熄灭了，那么他们就没有办法抵抗红狼了。到那时候，他们又该怎么办呢？

爵士看着罗伯尔，心里非常难过，他此时没有想到自己，只想这个可怜的孩子。他觉得这个孩子承受了他这个年龄完全不能承受的很多东西。此时，罗伯尔的面孔苍白，但他的手里还攥着枪，紧紧地盯着狼群。

此时，爵士决定冷静地思考一下，想个一了百了的办法。

“一个小时后，我们可就没弹药了。我们不能在那时候下决心。”

爵士这么想着，回头看了看塔凯甫，他将他脑海里所有的西班牙语全部集中起来，和塔凯甫对话，一面说，塔凯甫一面开枪射击。

他们俩对彼此的了解很有限，所以交流起来很困难。好在爵士知道红狼的属性，不然，塔凯甫所说的话以及所做的手势，他是怎么都不会听明白、看明白的。虽然如此，他还是费了有一刻钟的工夫，将塔凯甫

的回答转达给了罗伯尔。

“怎么样？”罗伯尔问。

“他说坚持到天亮就好了，天亮后，红狼就要回窝了。这些是夜狼，怕阳光，它们是野兽里的鸱鸒！”

“那我们就坚持到天亮好了！”

“不过，我的孩子，没有弹药也坚持不到那时候呀。”

此时，塔凯甫又做了个示范给他们看，在有只狼跑到火堆边时，他握着长刀，挥向火网那边，随后，血淋淋的刀被收了回来。

深夜两点钟的时候，火快熄灭了，弹药也快用完了。塔凯甫向火坑里投进了最后一捆干草，而弹药也只剩下最后五发了。

爵士看了看四周，异常伤感。

他想到了身边这个可怜的孩子，也想到了他的同伴，想到了他深爱的一切人。罗伯尔一直没有说话，也许天真的他根本不知道死亡马上就要降临。不过爵士已经想到了，他看到了一幅残忍的画面：活生生的孩子被饿狼撕咬，吞进肚子。

他再也控制不住自己的感情了，将罗伯尔揽在了怀里，紧紧地抱着，吻着他的额头。

两行眼泪顺着他的眼角，哗啦啦地流了下来。

罗伯尔依然微笑地看着他。

“我不怕！”他说。

“不怕！我的孩子！是的，我们不怕，很快就要天亮了，还有两个小时，两个小时天就亮了。我们就有救了。好！塔凯甫，打得好！打得真好！你就是巴塔哥尼亚的好汉！”他大叫着。

而此时，塔凯甫正用枪托打死了想冲过火堆的两只狼。

不过，在就要熄灭的火焰中，他们看到，那群密集的红狼排着队形又冲上来了。

血战到了最关键的时刻，火焰越来越小。

原本照得雪亮的原野重新回到了黑暗中，红狼的眼睛看起来更加凶残。几分钟后，狼群全都涌进了院子，塔凯甫打出了最后一枪。在又打完一只狼后，所有的弹药全都用完了。塔凯甫像个勇士一般，双手抱臂，将头紧紧地抵在胸口沉思。他是不是想用最疯狂的方法来击退群狼呢？

此时，狼群的进攻方式发生了变化，它们像是一下子跑开了，刚刚震耳欲聋的嗥叫声也消失了，整个平原陷入一片死寂。

“红狼跑了。”罗伯尔说。

“可能是吧！”爵士侧耳倾听外面的声音。

塔凯甫像是听到了爵士和罗伯尔的对话，对爵士摇了摇头。意思是说，这群狼是不会轻易放弃到口的美味的，除非天亮了，太阳光将它们逼回窝里去。

就在他们猜测群狼会怎么做时，群狼的策略显然发生了变化，它们不再去正面冲击院子。在它们觉得火堆和枪、刀让它们一时无法得逞后，迫不及待地选择了绕到院子后，从背后进攻，而它们的这个战术，会给三个人带来更大的危险。

很快，三个人听到了红狼的爪子在往那半朽的木桩上抓，而从那摇晃的木桩缝隙处，他们看到了红狼伸进来的血盆大口以及强健的腿。马发出了惊骇的叫声，挣脱缰绳在院子里疯跑。爵士一把抱住了罗伯尔，他决定保护他到最后一刻。而且为了得到死里逃生的机会，他正想着该怎么冲出突围。

不过就在此时，爵士的目光被塔凯甫的举动吸引过去了。

塔凯甫像个被围困的野兽，在院子里拼命地转着圈。突然，他跑到了等得不耐烦的特迦面前，给特迦戴上鞍轡。给特迦戴的时候，他很认真，也很仔细，甚至连一条皮带，一个纽扣都没忘记系上。特迦不断地发出咆哮声，声音越来越大，但塔凯甫像没听到一样。爵士看他如此，心里既恐慌又绝望。

“难道他要丢下我们逃跑了？”在看到塔凯甫就要上马时，他脱口而出。

“不！他绝对不会丢下我们的！”罗伯尔说。

没错！塔凯甫不仅不会丢下他们，而且准备牺牲自己来拯救他们。

特迦已经准备好了，正咬着嚼铁，蹦跳着，眼里充满了怒火，它的眼神中发出像闪电一样凛冽的光，聪明的它，已经知道主人的意思了。在塔凯甫揪住马鬃的一刻，爵士急忙抓住了他的胳膊。

“你是要这么离开？”爵士看着没有狼的那片荒原。

“没错，我要离开！”塔凯甫说着，他明白了爵士手势的意思，接着用西班牙语说，“特迦！勇敢的马，快，引着狼群离开。”

“塔凯甫！不要这样！”爵士喊。

“快！快跑！”塔凯甫又说。

此时，爵士已经感动得说不出一句话来了，他对罗伯尔说：“知道吗，孩子，他是想为我们牺牲！他要跑向别处，然后引狼群去追他！”

“塔凯甫！好朋友，你千万不要离开我们！”罗伯尔扑到了塔凯甫的脚边，大叫着。

“他不会离开我们！”爵士说完，转身又对塔凯甫说，“我们一起跑！”

爵士一边说，一边指着被惊得紧靠马柱的两匹马说。

“不行！那两匹马不行，它们是劣马，已经惊了。特迦是好马！”塔凯甫明白了他的意思回答道。

“那么，这样吧，我来骑马，你留下来，留在罗伯尔的身边！”爵士说着，抓过了特迦的缰绳，大声说，“我来！”

“不可以！”塔凯甫的话斩钉截铁。

“不行！让我去，请你救救这个孩子，他就托付给你了，塔凯甫！”爵士依然夺着缰绳。

处在激动情绪中的爵士，英语、西班牙语一起说了起来。不过对此刻来说，用什么样的语言又有什么关系呢？在这紧要关头，手势和行动足以表达一切，他们就在此刻完全了解了对方。

爵士要去，塔凯甫又不让，两个人就这么争执着，危险也在一分一秒地逼近，院后的树桩都被红狼咬得快要断了。

爵士和塔凯甫争抢着要去做引开红狼的“诱物”。塔凯甫把爵士拉到了院口，指着没有狼的原野，激动地说着，他的意思是他必须这么做，如果再耽误时间，骑马诱狼不成功，留下来的两个人会更危险。然后还说他懂特迦，特迦绝对可以利用它的矫健迅猛保全大家。

爵士急得脑子一片空白，就是不让他那么做，非要自己去不可。突然，他被一个人推到了一边。特迦蹦了起来，前蹄一个悬空，纵身跳过了已经熄灭的火堆和一堆红狼的尸体，同时，还有个孩子的声音在大声叫：“爵士！原谅我做的事吧！”

说时迟那时快，罗伯尔已经上了马，趴在马背上。他抓住马鬃，消失在了黑暗中。

“天啊！孩子，你怎么可以这样！你太糊涂了！罗伯尔！”爵士绝望地大叫起来。

不过，他的叫声，就连他身边的塔凯甫也是听不到的，因为震耳欲聋的怪叫声已经响起了，红狼转身向那匹马和那个孩子奔去，它们全都向西涌去了，速度快得惊人，像是一阵影子急速而过。

塔凯甫和爵士急忙追出院子。此时，平原又恢复了它的寂静，只隐隐能看见西边有条黑色的线，弯弯曲曲地在夜色中移动，爵士扑通一声

跪卧在地，他紧握双手，绝望地砸着地面。他再看塔凯甫，却见他正微笑着，看着远方，和平时一样镇定。

“特迦，一匹好马！孩子！勇敢！一定会没事的！”他轻轻说着，发出赞叹的声音。

“如果他掉下马了呢？”

“不会的！绝对不会掉下来的。”塔凯甫肯定地说。

不过，即使塔凯甫再肯定，再有信心，可怜的爵士还是后悔得要死，急得要死，在痛苦和绝望中等待着黎明的到来。就是此时，他连自己已经脱险都没有意识到。他要去找罗伯尔，但塔凯甫不让他去，还说他根本追不上特迦，而且特迦也会将狼群远远地丢在身后。何况就是要找罗伯尔，也不能黑夜去寻找，一定要白天去找才行。

凌晨4点钟的时候，东方渐渐露出了鱼肚白，又过了一会儿，天边的浓雾在那片鱼肚白上蒙上了银光，露水洒满了平原，蒿草也在晨风中摆动。

他们终于可以去寻找罗伯尔了。

“走吧！”塔凯甫说。

爵士一言不发，踏上了罗伯尔曾经骑过的那匹马，两个人一起向西边驰去，向着罗伯尔骑着特迦奔去的方向奔去。

他们跑了将近一个钟头，在这一个钟头里，他们寻找着罗伯尔。爵士非常害怕见到血淋淋的尸体，他拼命地催着马快跑，都快要把马肚子刺穿了，后来，他们听到了一声枪响，那枪响非常有规律，像是信号

枪。

“是他们！”爵士说。

他们跑得更快了。过了一会儿，他们便和巴嘉勒尔带领的人马会面了。让爵士感到高兴和激动的是，罗伯尔也在那里，他坐在特迦的背上，生龙活虎。爵士不禁开心地叫了起来。而特迦见到主人塔凯甫，也欢快地嘶叫着。

“孩子！我的孩子呀！”爵士喊叫着，眼神里全是慈父的爱。

他和罗伯尔同时跳下了马，奔过去互相拥抱着，随即，塔凯甫也把罗伯尔紧紧地抱在怀里。

“活着！他活着！”爵士不断地叫着。

“是的！我活着！好好的，不过幸亏了特迦！”

塔凯甫没等罗伯尔说这句话，便跑到了他的马旁边，感谢起马来。他和马说着话，抱着它的脖子拼命地吻着，好像那马的血管里流着的是人的血。

一阵亲热过后，他把脸转向了巴嘉勒尔，指着罗伯尔说：“他太勇敢了，是个勇士！”最后，他又用印第安人的夸奖语言，称赞了罗伯尔，还说，“他的马刺从没抖过！”

爵士怜爱地拥着罗伯尔，问他：“我的孩子，为什么？为什么不让我和塔凯甫去冒那个险，而要自己去呢？”

“爵士，冒险的事就应该由我来做，因为塔凯甫救过我的命，而

您，又要去救我父亲的命！”罗伯尔用孩子的语气，笑着说。

第十六章 走向坦迪尔

一群人兴奋了很长时间。

后面那一队人员除了少校，都渴得快要没命了，幸好格米伊河就在前面不远处，大家一起又上了路。早晨7点钟，一行人重回那座小院，看着院子前后那一只只红狼的尸体，便知昨晚的生死之战是多么激烈了。

后面那队人员喝足喝饱后，大家又在院子里一起吃了顿丰盛的早餐。对鸵鸟的肋条肉，食客们给了很高的评价，而对连壳烤的犰狳，食客们更是觉得这是从没吃过的美味。

“一定要吃到饱破肚子为止，吃少了都对不起老天爷！”巴嘉勒尔说。

巴嘉勒尔吃得非常多，当然并没有胀破他的肚子，因为在他喝了格米伊河的清水后，觉得这水喝进肚子就是为了促进消化的。

爵士不想待在这里太长时间，便在早晨10点钟的时候发了出发令。他们将皮桶重新装满水，这样在路上就有得喝了。马在吃饱喝足后，精神十足，将打猎时的劲头全都用上了。

潮湿的土壤非常肥沃，但四周依然不见人烟。11月2日和11月3日接连两天，大家都很顺利，一路无事。3日夜晩，长途跋涉的他们有些疲乏，便决定在布宜诺斯艾利斯的边界处，潘帕区的尽头歇息。这距他们10月14日离开塔尔卡瓦诺湾已经过去22天了，他们共走了730公里，也

就是说，他们已经顺利走了三分之二路程了。

11月4日早晨，一行人跨过了阿根廷的平原区和草原区的分界线，他们希望能在这一带遇上扣留格兰特船长的印第安人酋长。

布宜诺斯艾利斯省是阿根廷的14个省中，最大也最富饶的地方。这个省位于东经64度和65度之间，与南部印第安人区域接壤，土地肥沃，气候宜人。

此地地势平坦，到处生长着禾本草类和高大的蔬菜类植物，平坦的地势一直延伸到了坦迪尔和塔巴尔康西山的山脚。

离开格米伊河后，气温发生了很大变化。由于巴塔哥尼亚的寒风在空气中形成了气浪，使本地平时的气温保持在17摄氏度，在经历过长时间的燥热后，舒服了很多。一路上，他们兴奋而充满信心，不过，不管塔凯甫怎么说在此地会发现格兰特船长，他们一路走来却几乎没发现有人居住，或者准确地说，这里住的人已经迁徙了。

在向东走的时候，他们看到了很多湖泊。有时候，他们会从湖岸经过，有时又会横截某个湖泊，湖水有咸的也有淡的。湖岸的树丛中有很多鸟儿在跳跃，还有百灵鸟在欢快地唱着歌，当然更有羽毛像蜂鸟一样美丽的鸟。这些鸟在森林里表现得很兴奋，时不时地振翅飞翔，毫不在意那些披着红肩章，挺着红胸脯，在树上进行大合唱的棕鸟。

在一些荆棘丛中，他们还发现了一种鸟，这种鸟的窝像一些殖民地的白种人所睡的吊床一样，悬在空中。湖边还有一种羽毛色泽艳丽的朱鹭，这些朱鹭像训练有素的军人一般，迈着整齐的步伐，悠闲地散着步，时不时地还会扑闪着它们火红的翅膀。这些鸟看到人都不怕，这让巴嘉勒尔很是失望。

“我只是想看看朱鹭怎样飞，可它们就是不表演给我看。”他对少校说。

“很好办呀！”少校说。

“是很好办，这是个机会，我想利用你一下。”

“怎么利用，巴嘉勒尔？”

“跟我来吧，少校！还有罗伯尔，你也来吧，我需要个见证人。”

说着话，巴嘉勒尔和少校、罗伯尔让其他同伴先走，他们朝那群有着红色翅膀，整齐散步的朱鹭走去。

到了枪弹能打中的地方后，巴嘉勒尔在枪里装上了火药，砰地开了一枪。受惊的朱鹭飞了起来，巴嘉勒尔拿起它的望远镜，认真地观察着。

看到那鸟飞得看不见了，他这才问少校：“看到没有？看它们飞了吗？”

“当然看到了，我又不是瞎子。”

“你说，它们飞的时候，是不是像羽箭一样？”

“不像！一点都不像！”

“简直都没办法比！”罗伯尔也说。

“我早就说不像嘛，但就是有人说很像，这个人就是我的同乡，著名的夏多卜里昂。他可以称得上是谦虚的人中最骄傲的那个人，他居然

用羽箭来形容朱鹭起飞！罗伯尔，看到没有，这比喻是多么的不靠谱啊！你可千万别信文学语言中的比喻，千万别信。而且不到万不得已，也不要去看。”

“这一下你该满意了吧？”少校说。

“满意！真是太满意了！”

“满意了就好，我们快走吧，就因为你那著名的同乡，我们现在落后了两公里。”

巴嘉勒尔和少校、罗伯尔在追赶上大部队的时候，正好爵士和塔凯甫在谈论着什么，但却因为语言不通而着急。塔凯甫几次停下来，观察远处的地平线，每看一次，他的脸上就会露出惊讶的表情。

见少校和巴嘉勒尔都不在，塔凯甫便和爵士说，没想到怎么都无法沟通。在远远见到巴嘉勒尔时，爵士喊：“快来呀，巴嘉勒尔朋友，塔凯甫和我说话，可我怎么都听不懂。”

巴嘉勒尔在经过和塔凯甫的几分钟沟通后，转身对爵士说：“塔凯甫说他看到了一个奇特的现象，他感到很不可思议。”

“是什么让他不可思议？”

“他说在这个平原上，平时总会遇到印第安人成群结队地行走，也有从牧场劫来牲畜的强盗，还有去乌达斯山区卖他们的鼬绒毯子和皮条编成的鞭子的印第安人，可是咱们走了这么久，不但没有看到印第安人，而且连他们的行走痕迹都没有看到。”

“塔凯甫有没有说是什么原因导致了他们不来？”

“他不知道，只是感到很惊讶。”

“他原本觉得会在这里遇到什么样的印第安人？”

“他想遇到俘虏外国人的印第安人，也就是以卡夫古拉·凯特里鄂尔或杨圣特路茨等为酋长的印第安人。这两个部落首领在30年前有着无上的权威，不过最后被赶到了这里。此后，印第安人在某种程度上就被驯服了，也就待在了潘帕平原上，有时候他们也会在布宜诺斯艾利斯省境内游荡。这一地区曾是他们做强盗时经常光顾的地方，但现在却没有遇到他们，在这一点上，我和塔凯甫一样吃惊。”

“这样啊！那现在我们该怎么办呢？”爵士问。

“我还是再问问他吧！”

巴嘉勒尔又和塔凯甫聊了一会儿说：“他的想法我觉得很对，他说我们继续往东走，走到独立堡去，这样也就能一直在我们想走的路线上了。而且到了那里后，如果我们还是没有格兰特船长的消息，至少可以知道阿根廷平原上的印第安人到什么地方去了。”

“独立堡离这里远吗？”爵士又问。

“不远，离这里差不多有90公里，在坦迪尔山里。”

“那我们什么时候能到？”

“后天晚上应该能到。”

这件意外的事让爵士很失望，在潘帕区却遇不到一个印第安人，这是他万万没有想到的。以前这里的印第安人有很多，如果没有特殊情

况，他们是不会离开这里的。更严重的问题是，如果格兰特船长原本是被抓到这里的，最后又被带去了什么地方呢？南方还是北方？这些问题让爵士犹豫起来。想要找到格兰特船长，他们必须先找到格兰特船长的消息啊！想来想去，还是只能按塔凯甫的想法，先到独立堡，等到了独立堡，怎么也会找到可以问话的人吧。

傍晚4点钟的时候，他们看见远处出现了一个丘陵，丘陵在这个平坦的地方显得很高，而那丘陵也就是塔巴尔康西，一行人便在山脚下休息了。

第二天，他们要过山，过这座山对他们来说很容易。沙地犹如起伏的波浪，也没有很陡的坡存在，爬过安达斯高低岸的他们，简直不把这座山当回事。

过这座山的时候，马连速度都没减。中午的时候，他们走过了塔巴尔康西堡，这个堡垒是为了防备土人抢劫筑成的，如同碉堡锁链的第一个堡垒。不过，在这里他们并没有遇到印第安人，这让塔凯甫更吃惊了。正午时分，他们看到有三个骑着马的人，带着枪在他们周围跑来跑去，观察着他们。而当他们想去靠近那几个人时，他们又飞快地跑了，跑的速度很快，这简直让爵士郁闷极了。

“又是高卓人！”塔凯甫说。

而这些高卓人，也曾引起少校和巴嘉勒尔的激烈争论。

“哦，原来是高卓人呀，巴嘉勒尔，今天没有吹北风，你觉得这些人怎么样？”

“我觉得他们很像大强盗！”

“哦！亲爱的地理学家，‘像强盗’和‘是强盗’却是有很大差距的。”

“不！只有一步之遥而已，我亲爱的少校！”

两个人的对话再次引起了大家的大笑，不过，这次巴嘉勒尔没有生气，反而说起印第安人来。

“我记得从一本书上看到过，说阿拉伯人长着一副凶恶的面孔，但眼神却很温和。这些美洲土人看来和阿拉伯人完全相反，他们的眼神特别凶。”巴嘉勒尔对那些高卓人的形容，比看面相的都看得准。

根据塔凯甫的建议，大家聚在一起前进。因为在这种荒野，他们必须防备突如其来的袭击。不过，这种防备显然是多余的，因为一路平安无事。晚上，他们在一个废旧的寨子休息，这个废旧寨子原来是凯特里鄂尔酋长平时集合的地方。塔凯甫判断最近没有人住过，在仔细检查了一番后，发现这里已经很久没人居住了。

过了一天，他们再次进入平原，此时的他们，能看到邻近坦迪尔山的几个大牧场了。不过塔凯甫仍然决定不在那里停留，他想尽快去独立堡打听消息，更想知道这片区域为什么没有人。

自从他们过了高低岩，便很少看到树林了，而此时，树林又出现在了他们面前，而且这些树木还是欧洲人来了美洲后才种植的，有楝树、桃树、白杨、柳树、豆球花树……这些没有人管，自生自灭的树长得格外好，全都围绕牲畜栏种植，牲畜栏里饲养着牛、马、羊等，这些牲畜的身上全都打着主人的印迹。

牲畜栏外有健壮的狗守护。山脚下的盐碱地里长着刍草，长势非常好。因此，人们经常来这里建牧场，每个牧场有一个总管一个工头，每

千头牲畜会配四个帮工。

可以这么说，这些人就像《圣经》里说的大牧主那样生活着，他们的牲畜群比美索不达米亚平原的牧主饲养的牲畜还要多。不过，这些牧人没有家庭生活，因为牧场主通常是贩卖牛马的商人，并不像《圣经》里说的大牧主有很多子孙。

当然，以上这些都是巴嘉勒尔讲给大家听的，讲到这里的时候，巴嘉勒尔就会大谈他的人种学说，并对不同的人种进行了趣味性的分析和比较，他那风趣幽默的语言，让一向脸上没什么表情的少校也有了表情。

同时，他们还看到了一次海市蜃楼，而这个奇观的发现，又让巴嘉勒尔大讲特讲。海市蜃楼这种自然奇观在平坦的原野上经常出现：一望无际的平原上，出现了岛屿。白杨绿柳的倒影在水里荡漾。更奇妙的是，水会随着行人前进后退。那幻影看起来就像真的一样，肉眼很难辨别真假。

11月6日这天，他们遇到了几个大的牧场，还遇到了一两次宰杀牲畜的地方。这种地方被称作“杀腊场”。这个名字来自于这些牲畜被杀后的用途：腌腊肉。

血腥的大屠杀是从春末就开始了的，去牧场带牲畜的人会将“拉索”扔出去，套上一个就捕获一个，套够了就将它们带到“杀腊场”。而所屠宰的牲畜有公牛、母牛、牯牛、羊……宰杀的时候，一次能宰杀几百头。

宰杀后，他们会将牲畜剥皮、切肉。这些人的技术娴熟，手段残忍，宰杀场面更是惨不忍睹。通常情况下，宰杀牯牛时，牯牛会强烈抵

抗，所以此时的屠夫就成了斗牛场上的斗牛士。

没有什么地方比这里更让人恐惧的了，空气中到处洋溢着腥臭味，屠宰现场更是不断传出屠夫的凶狠叫声，狗吠声，牲畜的哀鸣声……总之，这里到处弥漫着死亡的气息。

在如此残忍的现场，肯定少不了一种飞鸟，那就是阿根廷独有的鸢鸟。成千上万的鸢鸟从几十公里外飞过来，在“杀牲场”的上空盘旋，瞅准时机抢夺屠夫手里的碎肉，那些碎肉由于刚从牲畜体内出来，还在微微颤抖。

不过，此刻这里没有血腥和残杀，四周一片寂静，也许是因为大规模的屠宰还不到时间吧。

塔凯甫催促着特迦快行，因为他想当晚赶到独立堡。其他人也学塔凯甫，扬鞭催促自己胯下的马跟上特迦。一行人从高大的禾木草中向前飞奔，途中遇到了几座庄户，都是筑得高高的堡垒。那些堡垒的正屋有个阳台，阳台实际上是用武器向外射击的射击点。

虽然也许爵士能从这些人那里打听到他所需要的情报，但最终还是决定到坦迪尔村去打听。原因是这里离坦迪尔村已经不远了，过了罗汇索河，再走几公里就到了沙伯勒夫河。

过完这两条河，他们越来越接近坦迪尔山了，不一会儿，他们便踏上了坦迪尔山的草坡，一个小时后，他们到达了坦迪尔村。

这个村庄隐藏在一个狭窄的山坳里，独立堡的城垛就在村子上面。

第十七章 见独立堡司令

坦迪尔山位于坦迪尔县，是一条海拔300多米的古老山脉。此山为半圆形，由一连串覆盖着青草的丘陵组成。坦迪尔县包括布宜诺斯艾利斯省的整个南部，并以这一带的山腰为界，而那来自山城的很多河流的发源地就在山腰处。

坦迪尔村在北部的山冈脚下，位置非常好，约有400名居民受独立堡掩护。坦迪尔村的位置之所以好，就是因为那里有沙伯勒夫河的重要支流。当然，这个村子有个奇怪的现象，巴嘉勒尔应该知道，那就是这个村子里居住的人，均是来自法国和意大利的移民。

为什么是这样呢？原来，纳巴那他河下游这一片的几个殖民地，全是法国人建立起来的。

1828年，为了抵御印第安人的侵袭，法国人巴耳沙普带领众人修建了独立堡，而之所以能够建成独立堡，也多亏了著名的学者杜比倪，杜比倪对南美各国很有研究，了解得很清楚。

独立堡是坦迪尔村的一个重要据点，此地村民的交通工具通常以牛车为主，去布宜诺斯艾利斯，牛车只需12天时间，所以此地的贸易比较发达。他们送到布宜诺斯艾利斯的大多是牧场养的牲畜、腌制的腊肉，以及印第安人的手工制品，比如棉布、羊毛织物、由编皮匠编制的货物等等。

坦迪尔村的房屋修建得很好，村里不仅有学校，还有教堂。

在将坦迪尔村的情况向大家做了介绍后，巴嘉勒尔还说，在这里肯定打听不到消息，因为这里的城堡经常有军队驻守。于是，爵士选了一家看起来比较好的旅社住了下来，并把马牵到了栅栏。

随后，他和巴嘉勒尔、少校、罗伯尔，在塔凯甫的带领下向独立堡走去。几分钟后，他们来到了独立堡门口，门口站着一名懒散的阿根廷哨兵，看到他们也不搭理，他们很随意地进去了。从哨兵的态度可以看出，要么这里的防卫很松懈，要么这里很安全。

再往前走的时候，他们看到一片空地上有士兵在操练，士兵的年龄很小，大的不过20岁，小的则只有7岁，所以准确点来说，这只是十几个少年儿童在舞枪弄棒，不过舞得很像一回事。

操练的士兵们所穿的制服是衬衫，而且是用条子布做的衬衫，并用一条皮带紧紧地扎住了。他们的腿上没穿长裤，也没穿短裤，甚至没有穿苏格兰式的短制服。看到政府没有把钱花在做漂亮军服上，巴嘉勒尔对这个地方的政府马上有了好印象。

这些年轻的士兵每人佩带一支后膛枪和一把军刀。也许是身材矮小的原因，枪在他们面前显得很沉重，刀在他们面前显得很长。这些年轻的士兵个个脸上黑乎乎的，根本无法认出谁是谁。就连指挥他们的长官，脸上也是焦黑一片。

爵士他们大概数了一下，共有12名士兵。想必他们是在进行大会操，而之后经证实确实如此。

巴嘉勒尔对这么小的孩子当兵一点都不感到奇怪，他对阿根廷的统计学特别熟悉，也知道阿根廷每家的儿童不超过9个。不过让他感到惊讶的是这些小士兵练的是法国操，甚至连那教练的命令都是法语，而

且这些士兵所做的12个主要冲锋动作既娴熟又准确，就和巴嘉勒尔在法国看到的一样。

“太奇怪了！”他说。

不过，爵士来独立堡却不是来看小士兵操练的，更不是为了研究这些小士兵的身份的，所以他没有让巴嘉勒尔继续惊讶下去，并让巴嘉勒尔去找驻军军官。巴嘉勒尔马上行动，和一个小兵说了几句，小兵就向一座营部的房子走去。

一会儿工夫，军队的司令便走了出来。这是一位50多岁，长着花白头发，身体健壮，有着军人风度的男人。他长着高高的颧骨，坚硬的八字胡高高翘起，显得很滑稽。

这位司令官长着一双炯炯有神的眼睛，嘴里噙着一个短筒烟斗，烟斗里冒出一团烟雾。看人的时候，他是隔着烟雾来看的，这都让巴嘉勒尔想起了法国老军官的习惯。

塔凯甫向司令介绍了爵士一行人。在塔凯甫说话的时候，司令的眼神却一直看着巴嘉勒尔，看得巴嘉勒尔很茫然，也有些难为情，不知道这位司令是什么意思。在他正要问的时候，这位司令很不客气地抓住了他的手，并用法语欣喜地问：“你是法国人？”

“没错！我是法国人！”

“哦！太高兴了！欢迎你们！太欢迎了！我也是法国人！”司令激动地说着，因为激动，他不停地摇着巴嘉勒尔的手。

“他是你的朋友？”少校问巴嘉勒尔。

“当然！到处都有我的朋友！”巴嘉勒尔自豪地说。

司令因为激动，用力太大，巴嘉勒尔的手差点被他捏碎。好不容易从那老虎钳子一样的手里挣脱出来，巴嘉勒尔便开始和司令谈话。爵士想插话进来，打听他想了解的事，但那司令显然在讲他的历史，并不愿意有人打断他的话头。

从他的叙述中，他们知道这位豪爽的军人来这里很久了，法语也已经说得不是很流利了。虽然并没忘记，但语法已经有问题了，所以他的法文听起来就像法国殖民地的黑人说的一样。

原来，这位司令不仅是独立堡的司令，也是法军的军曹，还曾经是巴耳沙普的伙伴。当然，这些都是大家从他的嘴里知道的。

自从1838年建成独立堡以来，他就没有离开过独立堡。如今，阿根廷政府让他镇守这个要塞之地。50岁的他叫麻奴艾尔·伊发纳盖尔，是巴斯克人，一年后入了阿根廷的国籍，并在军队服役时，娶了一位印第安人做老婆。

那时，他的这位印第安夫人给他生了一对双胞胎，已经6个月大了。

他和他的印第安夫人都不喜欢女孩子，好在双胞胎都是男孩子。当然，之所以只要男孩，是因为麻奴艾尔不知道除了当兵，还能干什么，所以他希望上帝能保佑他，让他生出一个连的士兵来。

“你们应该看到了吧，个个都非常可爱，都是好兵！不管是若塞、若旺，还是米开尔、贝沛！那贝沛只有7岁，但他已经会打枪了！”

那个只有7岁的男孩，在听到父亲夸奖他后，高兴地并起双脚行了

个军礼，举枪的姿势也很好看，有模有样的。

“多有前途啊！他以后一定会当上校，做师长的。”司令满意地看着年幼的儿子说。

司令越说越开心，对于他来说，军人这个职业高于一切，而他的儿子们也前途无量，这是毋庸置疑的，不允许任何人反驳。正如歌德所说，“能让人快乐的，都是梦幻”。

司令将他的历史整整讲了十多分钟，这让塔凯甫很吃惊，因为他不明白，一个人一张口，怎么可能有那么多的话说。虽然在他说话的时候，没人打断，但塔凯甫还是认为，一个法国军曹，说话应该知道适可而止，不能滔滔不绝，没完没了。

终于，他停止了说话，并请大家到他的家里去。大家不好驳他的面子，也不得不去见见他的夫人，看看是不是形象气质不凡，如果能用“气质不凡”来形容印第安女人的话。

大家接受了他的邀请，司令问大家是怎么到这个地方来的，这也正是爵士提问题的时候，不然他可能永远都没有机会说他们来此的目的。

巴嘉勒尔用法语告诉他他们这次横穿潘帕区的原因，最后还问印第安人为什么都离开了。

“哦！没错！是没有一个人了！确实！没有了.....没有一个人了！没事做，他们什么事都做不了了.....只能离开！”司令说完，耸了耸肩。

“到底为什么离开呢？”

“当然是打仗了。”

“打仗？打什么仗？”

“当然是自己人打自己人了。”

“什么意思？自己人打自己人？”

巴嘉勒尔越听越糊涂，跟着司令说起了黑人说的法语。

“对呀！巴拉圭人和布宜诺斯艾利斯人打起来了。”

“结果呢？”

“结果，印第安人只能跑了，跑去北方了。他们跟在了弗劳莱斯将军的屁股后头。那些印第安人，都是强盗。”

“那么酋长们都去什么地方了？”

“当然也都去了。”

“你是说，那个凯特里鄂尔酋长……”

“那倒没有。”

“那杨圣特路茨呢？”

“他也没有去。”

在将这段对话翻译给塔凯甫后，塔凯甫点了点头，表示司令说的是对的。原来，塔凯甫并不知道有一场内战，而这场内战还引来了巴西的干涉，阿根廷的内战让双方死了很多人。这种自相残杀的战争，给了印

第安人机会，他们决定去趁火打劫，所以当阿根廷在打内战的时候，潘帕区就没人了。

虽然这事看起来是两件事，但却是相互关联的，是因果关系。司令说得一点没错。

不过，这件事却也打乱了爵士的整个计划，他原本想做的都做不成了。想想看，如果格兰特船长在这些酋长的手里做了俘虏，那么他现在一定也被带到北方去了，如果是这样的话，接下来又要怎么去找呢？怎样才能找到他呢？难道又要跑到草原的北部边界去做一次冒险吗？这个冒险有没有意义呢？找不找得到格兰特船长呢？他必须认真考虑考虑。

此时，他还有一个重要问题要问司令，不过失望让他忘记了这件事，幸好少校想了起来。

“司令，您是否听说过欧洲人做了潘帕区印第安人酋长的俘虏？”

麻奴艾尔皱着眉想着，在记忆里搜索。

“是有这么回事！”好一会儿他说。

“啊！是真的吗？”爵士大叫一声，他的心里又有了希望。

爵士、巴嘉勒尔、少校和罗伯尔一起聚在了司令的身边，殷切地看着他。

“请您说详细点！”大家一起催他。

“那是好几年前的事了。对！……没错！已经好几年了！不过没有见过……”司令慢慢说。

“几年以前？您记错了吧，那船失事的日期不会错，是1862年6月的事……还不到两年！”爵士说。

“不！绝对不止两年，爵士！”

“怎么可能？”巴嘉勒尔喊道。

“没错，不止两年，那时候是贝沛刚出生的时候，当时有两个人。”

“不！不是两个，是三个！”爵士又说。

“就是两个，没错！”司令的语气很肯定。

“您说两个？是两个英国人吗？”爵士又问。

“不，怎么会是英国人呢？是法国人和意大利人呀！没有英国人！”

“您是说那个意大利人被杀掉了，对吗？”巴嘉勒尔激动起来。

“没错！我也是后来才知道的，最后……法国人得救了！”

“得救了？”小罗伯尔叫了起来，此时，他只听到了这三个字。

“没错，他们从印第安人的手里得救了。”司令又说。

大家全都看着巴嘉勒尔，巴嘉勒尔拍了拍额头，露出失望的表情。

“我全明白了，全明白了，什么都可以解释了。”

“怎么回事？”爵士问，他着急而不安。

“朋友们，我们现在必须忍受一次大乌龙带来的结果了。因为我们

把线索找错了。这里被俘的，根本就不是格兰特船长，而是我的一个同胞，我的那个同胞有个同伴叫马可·瓦泽洛，最后被人杀了。我那同胞在跟那些印第安人在科罗拉多河畔跑了几次后，幸运地逃跑了，最后还回到了法国。我们原来是想追踪格兰特的足迹，没想到却追到了年轻的基莱尔的踪迹。”

巴嘉勒尔的一番话使现场一片静默，很明显他们找错线索了，司令所说的俘虏情况、国籍，以及有同伴被杀，其中一人逃出印第安人手里，一切的一切，都证明他们找错了。

爵士失望地看着塔凯甫，塔凯甫又问司令：“难道你就从来没听到过有三个英国人被俘吗？”

“是的，从来没听说过！我敢保证，如果有，坦迪尔村是一定会听说的，我一定会知道……所以……不，没有这回事！”

爵士在听了司令干脆的回复后，觉得没有必要在独立堡停留了，于是他们和司令握手告别。

看着希望破灭，爵士非常难过，而走在他身边的罗伯尔，更是默默地流着眼泪。爵士想安慰他，却又不知该怎么安慰。巴嘉勒尔自言自语地说着什么，少校紧紧闭着嘴唇，一言不发。至于塔凯甫，由于找错了线索，很伤他的自尊心，所以也是闷闷不乐的。

其实，这样的错误根本不是他的责任，而且谁也没想过要责怪他。

大家回到了旅馆，晚饭吃得也是没滋没味的。当然，勇敢而热情的他们，谁也不后悔走了这么多冤枉路，谁也没觉得白受了磨难。但每一个人又都觉得所有成功的希望，在一瞬间破灭了。

坦迪尔山和海岸，还可能有格兰特船长的消息吗？不！一定不可能有。因为如果有欧洲人在大西洋岸上被印第安人俘虏，司令麻奴艾尔怎么可能得不到情报？还有那些往来于坦迪尔和卡门之间的人，他们去内罗河口做生意不可能注意不到这件事。因为在阿根廷平原上做生意的人，一有消息，很快就会一个传一个。

既然现在没有一点格兰特船长的消息，他们就只有一件事可做，那就是马上去约定好的地点和“邓肯号”会合。

不过，巴嘉勒尔又向爵士要了那三张纸条，哭丧着脸重新研究起来，他想努力找出一个新的线索。

“这纸条上写得不是很清楚吗？对于格兰特船长的船沉没，以及被俘的地点，说得再清楚不过了。”爵士说。

“哦！我看未必是这样！绝对未必是这样！我们设想一下，格兰特船长如果不在潘帕区，也就是说他不在美洲，那么他会在什么地方呢？纸条上的内容应该会告诉我们的，一定会告诉我们的，我敢说，如果我找不出来，我就不叫雅克·巴嘉勒尔！”地理学家巴嘉勒尔敲着桌子，自信地说。

第十八章 洪流来了

相距240公里的独立堡和大西洋，如果没有意外事情发生，爵士一行和“邓肯号”会合只需4天，当然，意外事情发生的可能性几乎没有。不过，这是不是也就意味着，他们寻访格兰特船长，拯救落难船员的事就此失败了？在没有找到格兰船长的情况下，自己就这么回到船上去吗？爵士有些不甘心。

第二天，爵士没有下达出发的命令，一切的准备工作都是少校做的。

少校备好了马，装好了干粮，制订好了行程计划.....由于他的准备工作做得好，一行人早晨8点就走下了坦迪尔山的青草坡。

爵士带着罗伯尔策马奔驰，始终一言不发。他遇事从不轻易妥协的性格让他无法就这样接受失败。他的心狂跳得厉害，整个身体像被火烤着一样难受。巴嘉勒尔还在想着那三张纸条，他一个字一个字地去分析，希望能找到另一种解释。塔凯甫沉着脸，放任特迦跑在最前面。少校依然淡然地做着他觉得应该做的事，仿佛线索根本就没有中断。艾撒汀和他的两个水手看到主人那么烦闷，也闷闷不乐，提不起精神。

突然，一只野兔从他们面前惊慌逃窜，有些迷信的两位苏格兰水手在彼此看了一眼后，维尔逊说：

“一个不好的兆头！”

“没错！兆头不好！在高地就发生过。”穆纳回应道。

“在高地是在高地，在这里是在这里，高地有动物逃窜是有坏事发生，在这里未必就是。”维尔逊突然又反驳说。

这天晚上，他们走过坦迪尔山区，进入了如水波荡漾一般的大平原。一路上，他们看到的都是清澈的溪水，以及经过了溪水灌溉的肥沃土壤。走过这一片区域后，地面变得平坦起来，如同风浪过后的海洋，静静地流淌着。阿根廷潘帕区的最后岗峦，他们很快也要走过去了，青草就像给马蹄铺就了一条长长的绿毯，踩在上面很舒服。

在这之前，天气都很晴朗，万里无云。不过，这天的情况却不一样了，天色发生了变化。

几天以来，因为高温而聚集的水汽此时全都凝结成了乌云，这一切也都预示着，倾盆大雨马上就要降临了。同时，由于邻近大西洋，不停歇的西风让气候变得异常潮湿。在他们来到这片肥沃的土地，看到绿油油的牧草遍布牧场时，就知道空气里的湿度有多大了。好在大片大片的乌云并没有变成大雨降下来。

晚上的时候，一口气跑了65公里的马在一个大坑旁休息，由于没有任何东西遮盖，他们只能用罩篷做帐篷和被褥，在风雨欲来的草地上睡着了。幸好风雨来势缓慢，还在酝酿，并没有落下来。

第二天，整个平原的地势变得低了起来，地下水慢慢涌了出来，土壤如同人的皮肤，每个毛孔都渗出了汗水。他们走了没多久，就看到了沼泽地，这些沼泽地有大有小，有深有浅，但无一例外地都成了拦路虎。

对于那些能辨识清楚，没有水草的沼泽地，几匹马还能应付，但遇到深浅无法预测，甚至出现了流动泥窝的沼泽，马匹行走起来就困难

了，有些虽然有草掩盖，但一不小心陷进去也是很危险的。

这些深不可测的沼泽，一定曾让很多人和牲畜陷了进去。

走在前面半英里的罗伯尔，突然骑马返回来，不停大叫：“巴嘉勒尔先生，巴嘉勒尔先生，前面的林子里长着牛角。”

“什么？长着牛角的林子？”巴嘉勒尔又问了一遍。

“对！是小丛林里长着牛角。”

“哦！小丛林，我的孩子，你一定是做梦了。”巴嘉勒尔不相信，耸了耸肩。

“我没有做梦！不信您自己去看，那里真的很奇怪，地里面长着牛角，就和麦子一样，我真想弄一些种子回去。”罗伯尔又说。

“看来是真的，他说得一本正经的。”少校说。

“当然是真的，少校先生，不信您也可以去看看。”

确实，罗伯尔既没有做梦，也没有说谎，他说的全是真的。他们走了没多久，便看见了一片牛角地，那些牛角形状的东西排列整齐，一眼看不到边。而且确实是小丛林，是那种既矮又密的丛林，非常奇怪。

“我说是真的吧！”罗伯尔说。

“出怪事了！”巴嘉勒尔说着，回头看着塔凯甫，想听他的解释。

“牛角在上面，但牛在下面。”塔凯甫镇定地说。

“什么？这是真的牛角？你是说一群牛陷进了泥里？”巴嘉勒尔大叫道。

“没错！是这样的。”塔凯甫说。

原来，之所以有牛角露出来，是因为一群牛在经过这里时，陷了进去死掉了。好几百甚至上千头牛闷死在泥滩的事，在阿根廷平原经常发生，塔凯甫不可能不知道，同时这些死去的牛也给来往的行人提了醒，让他们多加防范。

大家因为有了这些牛角的提醒，便绕过了那片死牛泥滩，而那死牛的数量之多，完全可以做一场古代祭祀神灵的百牛祭。

一个小时后，他们将那有牛角的小丛林抛到了身后两公里以外。

塔凯甫预感会有什么事发生，他观察着周围的情况。周围的一切，让他觉得很平常。

他没有一直往前走，而是常常停下来，原本就高大的他，坐在马背上就显得更高了，可以看到很远的地方。但他又没有发现什么异常，便又继续前行。走了差不多1公里多路的时候，他又停了下来，并不断地变换着方向，一会儿向北，一会儿向南，就这么走了好几公里。在他回来领路的时候，却什么都不说，这么反复几次后，巴嘉勒尔有些好奇，而爵士内心却很不安。他让巴嘉勒尔问塔凯甫发生什么事了。

塔凯甫告诉巴嘉勒尔，他看到整个平原都渗进了水，所以很吃惊，在他做向导以来，还是第一次出现这种情况，以前就算是在大雨季，阿根廷的原野都是有旱路可走的。

“如果潮湿越来越严重，会是什么原因造成的？”巴嘉勒尔问。

“不知道，不过，我知道……”

“山里的溪水涨满后，会不会发生泛滥的情况？”

“有！有过这种情况。”

“那是不是就是山里的溪水泛滥造成的呢？”

“也有可能！”塔凯甫说。

虽然并不肯定，但巴嘉勒尔还是告诉了爵士。

“塔凯甫有没有说要怎么办？”爵士问。

“我们现在应该怎么办？”巴嘉勒尔问塔凯甫。

“快速前行！”

这句话说起来容易，做起来却很难。因为地面太软，马老往下陷，所以很快就疲惫了。而且随着地面越来越低，这一片平原到处坑坑洼洼，那些坑坑洼洼的地方又都聚满了水，给马的前进增加了难度。

这个犹如锅底一样的平原，水越积越多的话，很可能会变成大湖，那时候想要过去就更难了，而且很可能有危险存在，所以最重要的是赶快过去。

再难行，大家也要加紧脚步前行。

就在马蹄下的水滩越积越多的时候，下午两点左右，暴雨开始下起来了，倾盆大雨倾倒在了平原上，如果此时想要体现自己遇再大风雨都

不慌张的修养，这应该是个很好的机会。在这倾盆大雨降临而又无法遮蔽的时候，他们只能咬紧牙关，任由雨水浇到脸上、身上。

身上的罩篷集水成池，帽子就像屋檐一样，哗啦啦地往下流水，直倒在罩篷上。就连马鞍上的缨络都变成了水网，马蹄一踩下去，瞬间溅起很大的水花，骑在上面的他们，就在上下两路大水的侵袭下狼狈逃窜。

就这样，疲惫的他们冷透了，冻僵了。傍晚时分，他们总算来到了一所破牲畜栏旁。

这样的地方，只有毫不讲究舒适性的人才会将其当成住处，或者只有那些落难的人才愿意进去休息。但爵士他们没有别的选择，也就全部钻进了这个也许连潘帕区最穷的印第安人也不愿住的废旧牲畜栏里休息。

好不容易生了一堆火，但那火的热量还没湿气大。

外面继续下着大雨，下得很疯狂，牲畜栏顶的烂草经不住大雨的侵袭，掉下了大滴的水珠。火被浇灭了。穆纳和维尔逊就这么点火、被浇灭……浇灭又点着……反复了很多次。

在这样的环境下，他们的晚饭就只能凑合了，大家吃得很勉强。当然，有个人还和往常一样，那个人就是少校，他在嚼湿透的干肉时，嚼得很起劲。淡定的少校在面对任何环境时，情绪都不会受到影响。而巴嘉勒尔，作为一个生性乐观的地道法国人，他不断地为大家讲笑话，但没有一个人笑得出来。

“看来，我的笑话也受潮了，响不了。”他最后说。

在这种情况下，他们只有睡觉了。

夜晚，天气越来越差，牲畜栏的木板发出了噼里啪啦的声响，仿佛马上就要断了。事实也的确如此，牲畜栏已经被风吹得歪斜了，大有随风而去之势。任凭风吹雨打的马在外面不停地呻吟着，它们想必在羡慕主人，因为他们至少有破屋遮挡风雨。

不过即使环境如此，疲惫和瞌睡还是占了上风，罗伯尔将头歪在爵士肩上最先睡着了，接着其他人也慢慢地进入梦乡。

上帝做了他们的守护神，这一夜他们平安无事。早晨，他们突然被特迦的嘶叫声惊醒。这匹优良的马一直都保持着警惕和清醒。它在外面的不断地发出嘶叫声，甚至还用蹄子去踢棚壁，也许是想叫醒里面睡着的人们。看来，就算没有塔凯甫，特迦也能叫醒人启程。而大家对特迦的信任和依赖，也让他们很快就醒了过来，快速启程。

此时，雨已经下得越来越小了，不过地面还保留着很多积水。黄泥下，因为水渗不进去，便积成了水洼、沼泽和池塘。在这些水洼、沼泽和池塘里的水继续增加的时候，大家便连哪里是水坑，哪里是平地都分不清了。

巴嘉勒尔拿出地图来看，他想起了格南得河和维法洛塔河就是这么吸收平原上的水，然后将两条河床形成一条的，而当形成一条河流时，那河便有几公里宽了。

他们现在必须加快前进的脚步，这关系到全体成员的安全问题。如果水泛滥成灾，他们又要到什么地方栖身？看着那一望无际的水面，看不出有高度的地方，当大水入侵时，一定是来势汹汹，没有阻碍。

因此，特迦领头，大家又开始催马快奔，特迦似乎比某些两栖动物还厉害，在水里也能成为一头河马，所以当它在水里跑跳时，仿佛就是河里的一条船在游动。

不过，快到上午10点钟的时候，特迦开始烦躁，它不断地将头转向南方，看着无边无际的平坦之地，嘶叫声越来越大，鼻孔开始拼命地呼吸空气。突然，它腾空而起，差点将骑在它身上的塔凯甫摔下马来。塔凯甫发现，特迦的嘴边泛起的泡沫里有了血迹，这是因为它嚼铁太用力的原因。

特迦越来越急躁，塔凯甫差点无法控制它了。塔凯甫觉得如果放下它的缰绳，特迦肯定会全力向北边跑去的。

“怎么回事？特迦发生什么事了？是不是被蚂蟥咬了？阿根廷的蚂蟥很厉害。”

“不！”塔凯甫只说了一句话。

“那它怎么了？是意识到有危险吗？”

“没错！它意识到了危险。”

“有什么危险？”

“不知道。”

特迦意识到的危险，如果大家还是看不到的话，耳朵应该有所警觉了。因为有一种声音像是从天边飘来的，那声音是涨潮的声音，同时，湿风夹着灰尘般的水沫涌了过来。鸟儿从空中急速飞过，似乎在逃避着一种莫名的危险。

几匹马的半截腿都浸在水里了，看来洪水要来了。

果然，只一会儿工夫，随着惊人的叫嚣声，一群牛马像狂风一样从他们身边卷过，没命地向北逃窜，速度快得惊人。而那溅起的浪花，比几百条鲸鱼在海里翻滚掀起的浪花还大。

“快跑！”塔凯甫高喊一声。

“发生什么事了？”巴嘉勒尔喊。

“洪水来了！洪水来了！”塔凯甫一面回答，一面策马向北奔去。

“洪水泛滥了！快跑啊！”巴嘉勒尔大叫一声，同伴们跟着他的马，随着特迦向北逃去。

他们必须要逃命了，在南面8公里的地方，浪潮既高又宽，以排山倒海之势向他们这边涌来，南面的平原，瞬间变成了汪洋大海，连那深草都看不见了，就像被砍掉了一样。许多含羞草被海浪连根拔起，漂在了水面上，越堆越高，像极了一个个流动着的岛屿。

洪流席卷而来，以不可抗拒的力量涌了过来。看来，这是潘帕区的一些大河溃堤了，也可能是北边的科罗拉多河和南边的勒格落河全都泛滥了，因而形成了巨大的河床。

塔凯甫告诉大家，滔天的浪头，正以快马般的速度向他们奔来。他们拼命朝前跑着，犹如暴风雨在追赶浮云。

塔凯甫四处寻找，但却始终不见一个可以躲避的地方。好像连那天边，都是与水接壤的。马匹由于受到了过度的惊吓，没命地跑着，他们只能紧紧地抓着马鞍。爵士时不时还回头看着。

“洪水马上就要淹过来了。”他想。

“快跑啊！快跑啊！”塔凯甫一直不停地叫着。

大家只能催促屁股下那可怜的马，马刺拍打在马的肚子上，流出了鲜血，形成一条血流。

踩在坑坑洼洼不平坦的泥坑里的马，好几次差点摔跤，也有好几次被水底的草绊住，走不动了，甚至倒在水里，他们又拼命将它拉起来；马又跌倒，他们又拉起来……眼看水还在不断往上涨，那追逐着他们的大浪，预示着洪流马上就要追上来了，相距他们不过两到三公里。

浪花如同雪花，在水面上翻滚。

人想要躲开水，但水又不断地追逐着人，这是人和大自然最壮烈的竞争。在相持了十多分钟后，大家只顾着逃命，到底逃了多少路程，都不知道。不过以马的奔跑速度来算，应该是有不少路程了。但即使这样，水也已经淹到了马的胸脯，马跑起来更困难了。

在那一刻，格莱拉弗、巴嘉勒尔、艾撒汀……全都觉得要没命了。他们感觉这就像是坐在了船上，船在大海里沉了，他们唯有等死。慢慢地，马蹄已经无法探到地面，水也深到了2米处，马很快就要被淹死了。

在洪流中的8个人和此时的焦急、惊恐以及悲伤，无法用语言来进行描述。

此时的他们，面临的是他们根本就无法抵抗的自然界灾难，他们感到自己太渺小了，根本就无力抗拒，此时的命运，完全没有掌握在自己手里。

又过去了5分钟，马已经是在水里游泳了。狂流以很大的力量，推着马匹，以每小时约32公里的速度前行。

在他们都感到绝望了的时候，少校突然说：“有一棵树！”

“什么地方？”爵士大声问。

“就在那里！”塔凯甫说着话，指着北方七八百米远的地方，那里确实有一棵高大的胡桃树。

大家不需要说，便知道那棵树他们必须要抓住，也许马匹到不了那里，也不能用那棵树救命，但他们需要。此时，艾撒汀的马在长鸣一声后不见了，艾撒汀迅速摆脱马镫，开始游泳。

“抓住我的马鞍！”爵士朝他喊道。

“谢谢，爵士，我能游过去。”

“罗伯尔，你的马怎么样？”爵士转头问罗伯尔。

“还行，爵士，它还可以，正像鱼一样在游泳呢。”

“注意安全！”少校叮嘱道。

少校的话音刚落，一个浪头便打了过来。这是个1米高的巨浪，巨浪发出的声音如同雷鸣，一下子扑到了他们身上，将他们一个个地连人带马卷入到了大旋涡里，旋涡里泡沫飞溅，人却不见了。

几百吨的水浪将他们一会儿托起来，一会儿按下去，几个翻滚后，浪头过去，他们浮了起来，点了一下人数，人还在，但马匹除了特迦还

驮着塔凯甫，其他的都不见了。

“坚持一下！”爵士喊着，一只手拖着巴嘉勒尔，另一只手划着水。

“行！能坚持住，不过我倒不讨厌这……”巴嘉勒尔说。

巴嘉勒尔的“不讨厌”什么还没说出口，这个倒霉鬼便呛了一口泥水，泥水连同那半句话一齐咽进了肚子里。少校还是非常淡定，不慌不忙地向前游着。他左一下右一下地划着水，比游泳教练游得还娴熟。

两个水手在水里也如同海豚一样，游得很轻松。而罗伯尔则抓着特迦的鬃毛，让它拖着自己走。英勇的特迦乘风破浪，凭着本能朝那棵大树游去。离树还有20米了，很快，大家都趴在了树上。

够惊险，也够侥幸！因为如果没有这样一个栖身之地，他们非死在浪中不可。

水此时也已经涨到了树干的顶部，大树的枝头有很多，大家想攀上去并不难。塔凯甫脱离了特迦，拖着罗伯尔最先爬了上去。然后又用他强有力的胳膊，将其他几个疲倦的同伴拉上来。大家坐在了安全的地方，但那勇士特迦却被急流推着，漂到远处去了。聪明的它不断地将头转向塔凯甫，振动着它的长鬃毛，嘶叫着。

“你不管它了？”巴嘉勒尔问塔凯甫。

“我怎么会不管它？”塔凯甫一边高声说着，一边钻进了洪流，很快，他又在离树10米远的地方露出头来，接着，大家看到他將胳膊搭在特迦的脖子上，随着急流，一马一人向远处漂去……

第十九章 大树上栖身

爵士一行逃生的这棵树，树冠是圆的，有着发亮的叶子，非常像胡桃树。不过，它并不是胡桃树，而是“蓊茈”树。“蓊茈”树在阿根廷平原总是疏落地分散着，可以说是孤树一棵。

这棵“蓊茈”树长着巨大的主干，主干的形状是微微蜷曲的，粗大的根不仅深埋土里，而且就像吸盘一样，牢牢地攀附在地面上，非常牢固，所以它是能抵挡住洪流的侵袭和冲刷的。

他们攀上去的这棵“蓊茈”树有30多米高，枝繁叶茂，能将周围120平方米的面积罩在树冠下。两米多粗的主干分出了三个主枝，而所有的枝叶又都集中在三个主枝上。三个主枝中的两个主枝向上生长，上面长着重重叠叠的叶子，这些叶子特别像一把撑开的大伞。

这棵树的枝叶交错生长，如同由手工很好的篾匠师傅编织而成，进而形成了一把保护伞，以防止风吹雨淋。三个主枝中的一个主枝和其他两个正好相反，是向下生长的，而且横倒在水中，所以有些树叶也被浸在了水里。

总之，这棵树如同海洋中的一座长满了绿草的孤岛，树上的横枝则像一条条海峡，从孤岛上长长地伸了出去。这么大的一棵树，自然有很多空间。而那伞状的枝叶四周，又有很多空隙，空隙像茂密森林里储存空气的空旷地带。只要在这棵树下，不管站在什么地方，即使有很大的太阳，也都能感受到凉意。

两个向上生长的主枝，又将无数分枝送上了云霄，而旁边的一些寄生藤，由于靠近这棵大树，也便依附了上去。有阳光的时候，阳光会从这些空间、缝隙中洒进来，照出一个硕大的阴影。可以说，因为有了这棵“蓊茏”树，周围的寄生藤便被主干很好地支撑了起来。

在爵士他们这些避难者上了这棵树后，原本停留树上逃难的飞禽便逃到了更高的枝叶里，并发出叽叽喳喳的抗议声。

当然，不管飞禽怎么抗议，爵士他们一行都要在此栖身。罗伯尔和维尔逊依靠矫健的身体，攀到了树的最高处，他们将头钻出圆圆的树冠，便处在了整个平原的最高处。

放眼四望，他们看到了很远的地方，更看清了他们现在的处境：被一片汪洋大海困在一棵树上。

凡是他们目光所能触及的，都是茫茫大海，无边无际。水面上除了漂浮着的一些枝叶，没有其他生物，更不可能有其他树木，只有独独一棵“蓊茏”树屹立在洪流之中，并被洪流冲得颤动。远处，他们看到了被连根拔起的树干，还有七零八落的树枝，以及他们曾住过的已经倒塌的牲畜栏顶棚。同时，水面上还有一些从大牧场冲下来的柱子以及野兽的尸体，甚至还有血肉模糊的兽皮。更远的地方，一棵猛烈摇晃的树上，聚着几只黑斑虎，黑斑虎们扒着树干，惊恐地吼叫着……一切的一切，都被洪流带着，由南向北漂着。再远一点，他们能看到的只有黑点，什么都看不到了。

不过，那个黑点吸引了维尔逊，他觉得那是勇敢的塔凯甫和忠诚的特迦。

“塔凯甫！勇敢的塔凯甫朋友！”罗伯尔轻轻叫着，向着北边扬着

手。

“他一定不会淹死的，罗伯尔，我们还是下去吧，和爵士们待在一起。”维尔逊说。

两个人很快从三重枝叶间爬过，爬到了主枝的顶部，那里有爵士、巴嘉勒尔、少校、艾撒汀和穆纳。他们有的坐着，有的骑着，也有的攀着……总之，怎么舒服怎么来。维尔逊叙述了他们在上面看到的一切，也带到了塔凯甫和特迦。

大家都同意他的看法：塔凯甫肯定会活着的，不过就是不知道最后是他救了特迦，还是特迦救了他。他们这些逃到树上的人，处境比塔凯甫还严峻。虽然这棵树不会被水冲走，但如果水势继续涨的话，说不定也会淹到他们躲着的地方，因为这一带的地势很低，像个蓄水池。

所以，爵士刚一上树便开始用刀划树皮，以便测量水位。此时，水位已经稳住了，泛滥似乎也已到了顶峰，这让他们松了口气。

“接下来我们要做什么？”爵士问。

“能做什么？当然是做窝了！”巴嘉勒尔用欢快的语气说。

“做窝？”罗伯尔大惊。

“是要做窝，我的孩子，我们不能过鱼的生活，只能过鸟的生活了。”

“不过，我们就是有了窝，又要吃什么呢？”爵士说。

“我给你们喂食！”少校说。

大家全都转头看着少校，只见少校坐在由两个柔软树枝搭成的天然椅子上，慢条斯理地伸出一只手，递给大家一个还在滴着水的布袋。

“哇！少校！你太厉害了！还是你想得周到，在那么慌张的情况下，竟然记得拿这东西。”爵士叫了起来。

“既然我们不想被淹死，必定也不想让自己饿死呀！”少校用淡定的语气说。

“虽然我也想到了，不过我太粗心了！”巴嘉勒尔像个孩子一样，天真地说。

“您那布袋子里装着什么？”艾撒汀问。

“可以够我们七个人吃两天的东西。”少校说。

“太好了！希望24小时后，水能退下去。”爵士说。

“最好24小时之内，我们能有办法到陆地去。”巴嘉勒尔纠正说。

“所以，我们现在的主要任务是吃东西。”爵士说。

“应该是先把衣服烤干吧！”少校又说。

“用什么烤？”维尔逊说。

“当然是用火烤！”巴嘉勒尔说。

“在什么地方生火？”

“当然就在这树干顶上了。”

“那又要用什么生呢？”

“我们去树上砍枯枝。”

“即使有柴，我们现在也没办法生起火来，因为火绒湿得就和海绵一样了！”爵士说。

“不用火绒也行！有苔藓，再有阳光，我拿我的望远镜镜头一照，火就能生起来了。只是谁去树顶上砍枯枝呢？”巴嘉勒尔说。

“我去砍！”罗伯尔自告奋勇。

罗伯尔爬得很快，一会儿就钻进了枝叶深处。怕他有危险，维尔逊也跟在了后面。两个人离开后，巴嘉勒尔已经找到一些干苔藓。此时阳光正好，他只需用望远镜将这些苔藓点着就行了。

他们将干苔藓放在了“蓊茏”树干的分枝处，并放了一些湿树叶在上面。这样就形成了一个天然的炉灶，也就不怕在树上点火引发火灾了。很快，维尔逊和罗伯尔带着一大捆干柴回来了，并把干柴放在了干苔藓上。

为了扇火，巴嘉勒尔还爬到了“炉灶”上方，像阿拉伯人一样叉开双腿，然后往下一蹲，利用身上的罩篷扇火。干柴点着了，熊熊的火苗从“炉灶”上升了起来。大家就那么随意地烤着，每个人都将罩篷挂在树上，随风吹着。

该吃早饭了，每人定量分配，因为还有明天一天要维持。洪水有可能不会像爵士说的那样，24小时就能退，而他们所带的干粮很有限。

不过，好在“蓊茏”树虽然不结果子，但却有新鲜的鸟蛋。树枝上也

有很多鸟巢，鸟巢里不仅有鸟蛋，而且也有鸟，这样看来，一切都不是太糟，他们暂时不用发愁。

在前途未知的情况下，他们想尽量把栖身之处布置得舒服一些。

“厨房和饭厅在楼下，卧室在楼上！这房子真大啊，也不要房租，我们不必住得太紧凑。我看上面好像还有天然的软藤，这样我们就能把自己紧紧地捆绑在树上，放心大胆地睡觉了。没什么好怕的，我们轮流守夜。我们这些人，足以打跑印第安人的舰队和各种野兽。”巴嘉勒尔夸张地说。

“可我们没有武器！”艾撒汀说。

“我有枪！”爵士说。

“我的也在！”罗伯尔也说。

“不过，巴嘉勒尔要是制造不出子弹，有枪也没用的。”艾撒汀又说。

“不用造，这里就有！”少校说着，拿出弹药袋来，里面有保存得很好的子弹。

“少校，这是从哪里来的？”巴嘉勒尔问。

“塔凯甫的，他可能觉得这些弹药对我们有用，所以在跳水救特迦前，把这个留给我了。”

“真是个仗义无私的好巴塔哥尼亚人！”爵士感动地说。

“没错，所有的巴塔哥尼亚人都是这样！我真佩服他们！”艾撒汀

说。

“我们也不要忘记那匹忠诚的马！它也是巴塔哥尼亚人的一部分，要是我猜得不错，等我们再见到他们时，塔凯甫一定还好好地骑在它背上。”巴嘉勒尔说。

“这里离大西洋有多远？”少校突然问。

“差不多65公里。朋友们，既然大家可以自由行动，那我可要和你们告辞了，我要找个观察台，用望远镜观察周围的环境，然后汇报给你们。”

巴嘉勒尔说完，便灵活地往上攀去，很快就消失在茂密的枝叶间了。其他人也各自活动，有人开始找睡觉的地方去了。这并不难，树上既没床铺，也没桌椅，只要有枝丫就行了。

找到了各自睡觉的地方，他们又回到炉灶边，开始闲聊。

他们没有谈目前的处境，因为也没什么可谈的，他们现在要做的就是忍耐和等待，别无他法。大家谈的是格兰特船长，当这里的水退了后，他们用不到三天就能回到“邓肯号”上去了。可他们没有找到格兰特船长和两个落难的水手，在这次失败后，也就是横穿南美大陆无功而返，那么一切希望好像都没有了。

他们还能去什么地方找？海伦夫人和玛丽要是听到没有希望了，该有多失望啊！

“可怜的姐姐！她一定很失望，一切都完了！”罗伯尔说。

爵士找不出任何话来安慰这个孩子，他还能给孩子带来什么希望

呢？他已经按纸条上说的，找了一遍了呀。

“南纬37度线，并不是个空洞的数字！不管这个数字是指什么，是指格兰特船长的船出事的地方还是他们被俘的地方，这数字都不会错，这不是瞎猜出来的，是我亲眼看到的，清清楚楚，明明白白！”爵士说。

“是啊，爵士！可我们的搜寻还是失败了！”艾撒汀沮丧地说。

“真是让人苦恼，太让人失望了！”爵士更是懊恼。

“苦恼是有些苦恼，但不必太失望！因为有这个数字，所以才会支撑着我们一直寻找下去。”少校安慰他说。

“什么意思？你觉得我们还有其它办法吗？”爵士问。

“当然还有其它办法。我们还可以做一件简单而富有逻辑的事，亲爱的爱德华，等我们回到船上后，我们可以将船往东边开，一直沿37度线走，必要的话，可以走到我们最初的出发点！”少校说。

“麦克那布斯，你说的这些，我也想过，而且不知想过多少遍了。可是有成功的希望吗？我们离开美洲大陆，可就远离格兰特船长所说的巴塔哥尼亚了呀。纸条上可是写得清清楚楚的。”

“我们能确定的是‘大不列颠号’的失事地点既不在太平洋岸，又不在大西洋岸，难道还要再去潘帕区找一遍？”

爵士没有说话。

“那条纬线既然是格兰特船长说的，我们就可以沿着这条线去寻

找。即使希望再渺茫，我们也应该试一试。”少校又说。

“我不是说不必去……。”

爵士还没说完，少校便转身向两名水手说：“朋友们，同意我的意见吗？”

“完全同意！”两名水手说。

“朋友们听我说！”爵士说完停了一下，把脸转向罗伯尔，“罗伯尔，你也听着，因为这个话题非常重要。我要想尽一切办法找到格兰特船长，这是我承诺过的，我一定要去做，即使用毕生精力去做这件事，我也要做。格兰特船长为苏格兰效忠，我们全苏格兰人都应该在他落难时援助他，这是我们的职责所在。所以怎么都要去找，即使希望再渺茫，我们也要沿着37度线去寻找，哪怕绕地球一周也要去找。当然，这不是问题的关键所在，问题在于，我们是不是要放弃在美洲大陆的寻找了？我们是不是以后再也不到这里来了？”

这个问题问到了点子上，所以没人能回答，也不知道该怎么说。

“你是怎么想的？”爵士问少校。

“怎么说呢？亲爱的爱德华，我无法用‘是’或‘否’来回答你，因为这个责任太重了，所以需要好好想一想。不过现在我想知道，如果沿着南纬37度线去找，都要经过哪些地方？”少校说道。

“这个问题要问巴嘉勒尔。”

“好吧！那就问他。”少校说。

此时，巴嘉勒尔正被树叶遮住，看不到了，想要找他，必须下面叫。

“巴嘉勒尔！巴嘉勒尔！”爵士大声喊着。

“来了！”半空中，巴嘉勒尔回应道。

“你在什么地方？”

“我在观察台！”

“在那里做什么？”

“我在观察那一眼看不到的天边。”

“可以下来一下吗？”

“有事吗？”

“是的，有事找你！”

“说吧！什么事？”

“我们想知道37度纬线都要经过哪些地方？”

“这个太容易了，我不用下去就能告诉你们。”

“好吧，那你就在上面说。”

“听着！南纬37度线离开美洲后，需要穿过大西洋！”

“嗯！还有呢？”

“然后到特利斯探达昆雅群岛。”

“明白，接着说。”

“下去两分的地方，就要经过好望角。”

“接下来呢？”

“还要穿过印度洋。”

“接着呢？”

“再经过阿姆斯特丹群岛中的圣彼得岛。”

“接着说。”

“再横截澳大利亚的维多利亚省。”

“然后呢？”

“这就出了澳大利亚……”

这句话没说完，是他不知道地名了吗？不，一声惊叫从树叶浓密的地方传了过来。爵士和朋友们吓得脸色发白，不知所措。难道发生了什么不知名的灾难？还是倒霉的地理学家掉下去了？维尔逊和穆纳醒悟过来后，急忙上去看他怎么了。最后发现，巴嘉勒尔正从树枝上一点点地往下滚，他两只手没有抓任何东西。迎接他的是死还是活？不知道！眼看他就要滚到汪洋大海里了，少校一把抓住了他。

“谢谢你，麦克那布斯！”巴嘉勒尔叫起来。

“怎么回事？滚下来了？难道又是粗心造成的？”少校问。

“没错！没错！又是粗心！这次可真要创纪录了！”巴嘉勒尔吓得话都快说不出来了。

“创了个什么粗心的纪录？”

“我们又搞错了！又搞错了！我们怎么老是搞错？”

“什么搞错了？说明白点！”

“爵士、少校、罗伯尔、朋友们，我们一直都在没有格兰特船长的地方找他！”巴嘉勒尔大声嚷嚷着。

“到底是怎么回事？”爵士更不明白了。

“我们找的地方，不仅不会有格兰特船长，而且他从没来过！”

这句话让大家全都张大了嘴巴。

巴嘉勒尔说的是什么意思？是他神经错乱，说胡话吗？可他为什么说得好像很有把握一样？大家全都眼巴巴地看着爵士，因为巴嘉勒尔肯定的话里，直接答复了他提出的所有问题，不过爵士仍然在不停摇头，他不赞成巴嘉勒尔的说法。

兴奋的巴嘉勒尔一点都没有住口的意思，又滔滔不绝地说了起来。

“真是这样啊！朋友们，我们确实是找错了，因为纸条上根本就没有说这儿。”

“说说你的理由，巴嘉勒尔。”还是少校比较镇定。

“这么说吧，少校，我原来和你们一样，也是搞错了。我现在回答你们的问题，因为说到‘澳大利亚’的时候，我突然才明白了。”

“什么？你是说格兰特船长……”

“纸条上的austral这个字不是我们以为的‘南半球’（austral），而是‘澳大利亚’（Australia）一词的前半个字。”

“哦？这可就奇怪了！”少校说。

“何止是奇怪，简直就是不可能的事。”爵士耸耸肩，他绝不认同这种说法。

“为什么不可能，在我们法国，没有‘不可能’一说。”巴嘉勒尔辩解说。

“那你是什么意思？你的意思是说‘大不列颠号’失事的地点是在澳大利亚海边？”爵士用不屑的语气说。

“当然！”

“说实话，巴嘉勒尔，你的说法让我很吃惊，特别是从一个地理学家的嘴里说出来时，我感到格外吃惊。”

“有什么好吃惊的？”巴嘉勒尔不高兴了，见大家不相信他这个地理学家的话，他心里很不是滋味。

“很明显，假如说是澳大利亚，那么，大洋洲就得有印第安人，可大洋洲有印第安人吗？”

巴嘉勒尔显然也考虑到了爵士说出的这点，他微微一笑说：“亲爱

的格莱拉弗，你反驳的理由没有说服力。我可以把你反驳得哑口无言，让你们英国人惨败一次，替我们法国在同你们英国在克雷西和达赞顾尔所打的两次败仗复仇。”

“希望如此，巴嘉勒尔！”

“听着，纸条里根本就没有‘印第安人’（indiens）和‘巴塔哥尼亚’（Patagonie）。因为‘indi’不是指‘印第安人’，而是‘当地土人’（indigenes）。说说看，大洋洲有没有土人？”

“好！巴嘉勒尔！”少校鼓励他。

“我的解释怎么样，亲爱的爵士？”

“你的解释很好，不过，除非你能证明‘gonie’不是指‘巴塔哥尼亚’（Patagonie）或‘危险万分’（agonie）。”爵士说。

“应该是指‘危险万分’！”少校说。

“管它是什么呢，都没有关系。我连解释都不想去解释它。最关键的一点是，‘austral’是指澳大利亚。我们只要知道这个解释就可以了。这样看来，我们一开始就错了，接着就步步错。如果我最先看到这个纸条，不是你们把我带进沟里的话，我一定会解释清楚的。”

巴嘉勒尔的这番话，为他赢得了很多掌声，佩服他、赞扬他的都有。艾撒汀及两个水手、少校，特别是罗伯尔，也重新找到了希望，他们非常开心，祝贺着地理学家巴嘉勒尔。而此时，爵士也开始妥协，这从他的话里就能听出，他认可了巴嘉勒尔的说法。

“再问你最后一个问题！亲爱的巴嘉勒尔，如果你能将这个问题也

解决了，那么我就承认你确实是聪明机智。”

“问吧！爵士先生！”

“请你将那纸条上的内容讲述一遍，纸条上完整的内容是什么？”

“太简单了！我马上就按纸条给你讲一遍。”巴嘉勒尔说着，拿出了几天以来一直琢磨、研究的纸条。

在地理学家巴嘉勒尔重新整理脑子里的想法，准备复述纸条内容时，大家全都静静地看着他，紧张地盯着他手里的纸条。巴嘉勒尔用手指头指着纸条上那不完整的字，用坚定的语气念道：“1862年6月7日，三桅船‘大不列颠号’，籍隶格拉斯哥港，沉没在——这里缺几个字，不过没有关系——澳大利亚的海上。由于急着登陆，两名水手和船长格兰特将到达或者已到达这陆地，将被俘或者已被俘于野蛮的当地土人，兹特抛下此文件。等等，这不是说得很清楚吗？”

“不错，是很清楚，可澳大利亚是个岛，‘大陆’两字怎么安上去？”

“放心吧，亲爱的爵士，即使是一流的地理学家，也会将澳大利亚那个岛称之为‘澳大利亚大陆’的。”

“好吧！我无话可说了！那么我们就……去大洋洲！希望老天保佑！”爵士大声叫道。

“去大洋洲！”大家异口同声地喊道。

“巴嘉勒尔，你应该知道，你来我们船上就是天意！”爵士又说。

“好吧！我承认是老天让我上了你们的船，这事千万不要再提

了。”巴嘉勒尔说。

一席对话结束，在众人心中引起了强烈反响，并将大家的情绪全都调动了起来，原以为已经走进了一个死胡同，永远也出不来了，不料又有了新线索，给大家已经失望的心情又注入了新的希望。此刻的他们，恨不得马上飞到大洋洲。因为当他们回到“邓肯号”上时，是不能将失望带回去的，不然海伦夫人和玛丽小姐，一定会为找不到格兰特船长而悲伤。

因此，他们忘记了此刻所面临的危险，变得兴高采烈起来，令他们遗憾的是，这种激动和兴奋无法强烈地进行表达。

那时候是下午4点钟，他们计划在6点钟吃饭，巴嘉勒尔决定用一桌丰盛的晚宴来庆祝这个大发现。可惜能吃的东西太少了，于是他邀请罗伯尔和他去“附近”打猎，罗伯尔当然双手赞成。于是，他们拿着塔凯甫留下的弹药袋，擦擦所带的枪，装上子弹出发了。

“注意安全！”少校郑重地叮嘱两位“猎人”。

两个人爬到了树的最高处，爵士和少校看了看他们在树上刻的水位标记，维尔逊和穆纳则重新去点“炉灶”的火。

爵士从树上往下爬，一直爬到了水面上。他有些失望，因为没有任何退水迹象，当然水面也没有再上涨。不过，水从南向北流得还是很快，这足以说明，阿根廷所有河流的水量还没有达到平衡，如果想要退水，水面就必须稳定下来，涨退都停止下来才行。

所以说，只要水还在向北方急流，退水就不可能。

在爵士和少校观察水位的时候，树上发出了枪声，接着便是欢呼

声，欢呼声中既有罗伯尔的男高音，也有巴嘉勒尔的男低音，欢呼声和枪声一样响亮，而从他们欢快的声音里，根本判断不出谁更孩子气。

看来，他们的树上打猎成功了，这也预示着他们有野味吃了。

当少校和爵士回到“炉灶”边时，发现维尔逊又有了一个好创意，那就是用针和线做成鱼钩，然后坐在树上钓鱼。此时，他的罩篷里已经有十来条活蹦乱跳的小鱼了，这是一种和香鱼一样鲜嫩的鱼。

看来，这又是一盘好菜。

这时候，罗伯尔和巴嘉勒尔两个“猎人”也从树顶爬了下来。巴嘉勒尔一只手小心地捧着一些鸟蛋，另一只手提着一串被他称之为百灵鸟的小麻雀。罗伯尔用他的聪明和机灵，打了几只黄绿相间的水鸟。它的肉质鲜美，在乌拉圭一带很名贵。

平时能将菜做出72种变化的巴嘉勒尔，此次只能将这些食材放在热灰里了。不过，虽然做法简单，但菜品却很多，而且味美肉鲜，完全称得上是一顿美味佳肴，这些美味包括：干肉、鸟蛋、烤麻雀、烤小鸟、烧鱼……这样在树上取材，在树上烹制，在树上吃的美味，想必他们一辈子都不会忘记。

吃饭的时候，大家聊得很起劲，一直称赞巴嘉勒尔既是个好猎手，又是个好厨师。地理学家毫不客气地照单全收，并不时地报以微笑，俨然一副“万能人”的表情。吃完饭后，大家又调侃起了他们的处境，说起了他们正栖息的树，称在这棵树上不仅可以眼观六路，耳听八方，而且这棵大树简直是宽阔无边。

“知道吗？我和罗伯尔打猎时，犹如进了一个大森林，怎么都钻不

出来。我就找呀找呀，找了很久，找到了太阳下山。最后不得不照原路返回，但又找不到去时的路了，饿得肚子咕咕直叫。在昏暗的树丛里，我们听到了野兽的怒吼……最后又一想，不会的，怎么会有野兽，太可惜了！”巴嘉勒尔夸张地讲着他和罗伯尔的“传奇”打猎故事。

“什么？你觉得没有野兽很可惜？”爵士说。

“对呀！太可惜了！不过，洪水不就和猛兽一样吗？而且还是让你跑不了的猛兽……”巴嘉勒尔说。

“哦，照你这么说，巴嘉勒尔，你是想说猛兽对我们有好处对吗？它有什么好处？说说看！”少校说。

“少校，你难道不知道猛兽也是有很多种分类的吗？比如可以用某门、某纲、某目、某科、某属、某种……来分！”

“这所谓的分类就是好处？我可不觉得这些猛兽有什么好处。远古时期，如果我在挪亚方舟上，我一定不会让挪亚方舟上有一对狮、一对虎、一对豹、一对熊……有害无益的野兽。”

“你真会这么做？”巴嘉勒尔问。

“当然！我肯定会这么做的。”

“用动物学的观点来说，你真是犯了一个错误！一个大大的错误！”

“大大的错误？我可不觉得，至少从人道上来说，我是对的。”少校说。

“你这话说得太不应该了。如果是我，就和你相反，我一定会让大

懒兽、翼手龙.....将那些洪水前期存在的生物全部保留下来，这样的话，我们现在就能看到它们了。可惜，现在这些生物都灭绝了！”

“告诉你吧！挪亚做得最错的地方就是留下了那些猛兽，这种做法应该受到咒骂。”

.....

两个人又因为挪亚争执起来，大家都觉得很好笑。少校一辈子难得与人争辩，但却整天和巴嘉勒尔斗嘴。当然，主要是因为地理学家巴嘉勒尔故意刺激他。最终，还是要爵士出面调停。

“猛兽这一话题是个伪命题。不管说可惜也好，不可惜也好，从科学上来说也好，从人道上来说也好，总之，今天就没有猛兽，我们现在是在‘空中森林’，在这种地方，巴嘉勒尔应该不可能看到猛兽。”

“怎么不可能？”巴嘉勒尔说。

“树上有猛兽吗？”艾撒汀说。

“当然也会有，像那些被猎人逼急了的美洲虎，它们不是也会往树上逃吗？所以虎在遇到洪水的时候，无处可逃，也会上树逃命的，这样我们就有遇到的可能了。”

“可是你今天没遇到美洲虎吧！”少校说。

“是的，我在树林里搜遍了，但都没有，真是太可惜了！如果有的话，那可真是太好了。我们可以来一场围猎，那美洲虎可是猛兽，一爪子就能把马脖子扭断。不过，如果它吃过了人肉，就只喜欢吃人肉了。当然，它最爱吃的是印第安人，接下来是黑人，再接下来是黑人和白人

的混血，最后才是白人。”

“太庆幸了！我是最后一种它想吃的。”少校说。

“没错，但也证明你没什么味道。”巴嘉勒尔带着鄙夷，反击道。

“那就让我没什么味道吧！”少校也毫不客气。

“你真是太无耻了！白种人向来以头等人自居！不过，在美洲虎先生看来，并不是这样的！”好斗的巴嘉勒尔继续说着。

“好了！我的巴嘉勒尔！我们这里现在既没有印第安人，也没有黑人，更没有其他人种，你那些美洲虎先生最好不来。我们的处境并不乐观，住得也不舒适……”爵士说。

“什么？不舒适？”巴嘉勒尔瞬间将话题转移到了其他方向，“什么意思？爵士先生，你是说我们运气不好吗？”

“当然啦！难道你觉得住在树上既舒服又方便吗？”

“是呀！舒适！太舒适了！我还从没这么舒适过呢。就是我的书房也没这么舒适过。我们就像鸟儿一样生活，在树上唱歌，在树上跳舞。我现在开始相信人类就应该在树上生活了。”

“不过太可惜了，你少了一双翅膀！”少校又找到了机会挖苦巴嘉勒尔。

“总有一天会长出来的。”

“在没有长出来之前，我亲爱的朋友，我们还是不要住这种空中楼阁，还是住在公园里有沙的地方，家有地板的地方，船上有甲板的地方

吧！”爵士说。

“格莱拉弗，我们要随遇而安才行！不管遇到什么，好的、坏的，我们都不要在意。我看你一定是后悔离开麦凯莫府那个舒适的府邸了！”

“当然不是，只是……”

“我深信罗伯尔在这里很舒服。”巴嘉勒尔又说，他希望找到一个同盟军。

“没错！巴嘉勒尔先生！”罗伯尔欢快地说。

“这是因为他这种年龄喜欢这样的生活方式。”爵士说。

“也适合我的年龄！一个人越是不讲究舒适，他的需求就越少。需求少了，幸福感也就强了。”巴嘉勒尔又说。

“算了吧，巴嘉勒尔，我看你呀，又要攻击财富和华丽的建筑了。”少校说。

“当然不是这样了，少校！对了，说到这里，我想起了一个阿拉伯故事，要是你们想听，我讲给你们听吧！”

“好啊！好啊！巴嘉勒尔先生！”罗伯尔高兴地拍手叫好。

“你想用这故事说明什么？”少校问。

“老伙计，它会证明一切需要证明的东西。”

“那就是什么也证明不了。不过也好，你说吧，你不是很会讲故事

吗？讲个给我们听听。”少校又说。

“在第8世纪的时候有个阿拉伯回教徒的著名教主，叫纳哈农拉石，他有个儿子经常愁眉不展，闷闷不乐。这个儿子就去请教法师，问怎样才能感到幸福和开心。法师告诉他，说幸福在这个世界上很难找。不过他有个百试百灵的方法，可以让人幸福开心。教主的儿子问是什么方法。法师说：‘找一个快乐的人，把他的衬衫披在你的身上。’教主的儿子吻谢了法师后，就去找‘幸福快乐衣服’了。他找啊找啊，找遍了整个京城，把国王、王子、贵族的衬衫都穿了，还是不快乐。于是，他又穿了艺术家、军人、商人的衬衫，也不快乐……总之，他穿了很多衬衫，都没有觉得快乐。最后他失望了，决定回到父亲那里。就在那一天，他经过乡下时，看到一个农夫在开心地干农活，一边干还一边唱歌。他想，他终于找到一个快乐的人了。于是，他走上前去打招呼，并问：‘你快乐吗？’农夫说：‘我很快乐！’教主儿子又问：‘难道你不想要点什么吗？’农夫说：‘不！我不想要什么。’教主儿子接着问：‘让你不做农夫，做国王你愿意吗？’农夫摇头说：‘不！我一辈子都不换。’教主儿子说：‘那你把你的衬衫卖给我吧。’农夫说：‘我没有衬衫啊！’”

第二十章 离奇获救后的离别

巴嘉勒尔绘声绘色地讲着故事，大家对他的故事也很喜欢，不过都保留着自己的意见。法国地理学家巴嘉勒尔先生和往常一样，得到了一个谁也说服不了谁的结果。不过，有一点大家都达成了共识，那就是即使在最艰苦的环境下，他们也不能灰心，也不能没有希望。

现在的处境已然这样了，既无王宫，又无茅草可住，他们只能忍耐，住在树上。

大家东扯西聊，很快就聊到了日落西山，这惊心动魄的一天，只好以睡觉来收尾了。

树上的这些人因为洪水，也因为长久的颠沛流离，感到非常疲惫。何况这一天的天气很热，毒辣辣的太阳透过树叶照在了他们身上，让他们犹如被挂在树上炙烤一样难受。

树上的原居民——鸟儿已经休息了，就连那号称“潘帕之莺”的水鸟也停止了甜美的吟唱，其他鸟儿全都呼啦啦地躲进了枝繁叶茂的顶部。对于树上的新居民来说，他们最好的办法就是和鸟儿一样，快地睡着。

不过，睡觉前，爵士、罗伯尔和巴嘉勒尔还是爬到了“观察台”，对这一片汪洋大海做了这天的最后一次观察。那时候是晚上6点钟，太阳从闪烁的浓雾地平线上正慢慢隐去，整个半边天都处在了蒸汽中，原本明亮的南半球星座，如今已经被蒙上了一层薄雾，朦朦胧胧的。不过，

即使这样，他们还是能够隐约地辨别出。

巴嘉勒尔把南极圈最亮的星座指给罗伯尔看，而爵士也在旁边听着。巴嘉勒尔说排成斜方形的是南极十字架4个头号和2号的大星。还说离地球最近最亮的星星是“人马星座”，又说有两大片云的是“麦哲伦星云”，它比我们平时看到的月亮大200倍等等。

让他们感到可惜的是，“猎户星座”原本从两极都是可以看到的，但此时却没有出来。不过巴嘉勒尔还是给他的两个学生讲述了巴塔哥尼亚人的星宿学中的有趣现象，那就是在充满诗情画意的印第安人看来，“猎户星座”的四颗星星是在一条大“拉索”和三个“跑拉”上的，还说这几颗星星之所以能挂在天上，都是猎人抛出“拉索”和“跑拉”的结果。

这些星座倒映在平静如镜的水面上，让他们一时间觉得身处两个天空。而那两个天空又是一样的清澈，非常有趣。

在博学的地理学家巴嘉勒尔向罗伯尔和爵士讲天上星河的时候，东边的地平线上却隐隐出现了下暴雨的迹象。既黑又浓的云慢慢飘了过去，将一颗颗亮晶晶的星星遮住了。这些云有着清晰的轮廓，显得阴森可怕，瞬间就将半边天吞噬了，甚至好像胃口更大，要将整个天空都归它们所有。

云层移动的速度很慢，推力应该来自于内部，因为外界没有一点风做它们的动力。天空保持着静态，就连树上的叶子，也都像是被固定住了一样，没有一丝颤动。水面没有起一丝涟漪……连空气都好像静止了，或者说好像有个巨大的抽气机，将空气抽光了。整个氛围有种诡异感，像是充满了电。

大气中的一切生物，也都犹如被通上了电，爵士、巴嘉勒尔和罗伯

尔仿佛感受到了电流正通过身体。

“看来要起风暴了！”巴嘉勒尔说。

“打雷怕吗？”爵士问罗伯尔。

“为什么要怕打雷，爵士？”

“很好，不然一会儿会有暴风和雷雨过来。”

“从现在的天气情况来看，暴风雨会很大。”巴嘉勒尔补充说。

“我不怕风暴，我怕下大雨。如果下起了大雨，我们肯定会成为落汤鸡的，说不定水还会渗进我们的骨头。总之，巴嘉勒尔，人是不能和鸟儿一样，住在树上的。不信你等会儿就知道厉害了！”爵士说。

“哦！为什么不拿出哲学修养来？”巴嘉勒尔说。

“什么是哲学修养？有了哲学修养就不会让我们淋成落汤鸡了？”

“那当然做不到，不过有了哲学修养，我们就不会感到冷了，我们会感到很温暖。”

“好吧！我们还是回到朋友们之间吧，要大家用哲学修养和罩篷把自己裹起来，裹得越紧越好。我们现在需要忍耐，而且是最大的忍耐。这是我们必须要做到的。”

爵士又看了一眼那“邪恶”的天空。此时，黑云已经将天空完全遮住了，好在黑云的边缘有个缺口，昏黄的光还能从那些缺口处隐约露出。

汪洋大海已经变了颜色，成了幽暗的一片。天上的乌云和水里的黑

暗也已经连成了一片，连原本该有的影影绰绰也消失了。四周一片寂静，像黑暗一样深沉，好像即使是光和电，也不能穿过这层黑暗，传到人的耳朵里去。

“我们快下去吧！就要打炸雷了。”爵士说。

于是他们一起顺着树干往下滑。突然，他们看到下面有微弱的光，这让他们大吃一惊。那微弱的光像是从水底发出来的，形成了无数的小水光，小水光在水面上慢慢地移动，交织。

“是什么？难道是磷光？”爵士问。

“不！一定是萤火虫。这是些活着的，不值钱的钻石。布宜诺斯艾利斯的太太们经常会拿它们做漂亮的装饰品！”

“什么？它们是昆虫吗？为什么会像火星子一样到处蹦？”罗伯尔叫了起来。

“没错！是这样的，我的孩子。”

罗伯尔顺利地捉住了一只萤火虫。巴嘉勒尔说得没错，这是一种被印第安人称之为大土蜂的昆虫，有一寸多长。这种昆虫最奇怪的地方是翅膀前有两个小斑点，而光正是从那些小斑点里发出来的，光度很强，能够让人用它们在黑暗中看书。

巴嘉勒尔把那虫子往他面前凑了凑，发现表的指针指向了夜里10点钟。

爵士回到少校和三个水手那里，嘱咐他们做好应对暴风的一切准备。如果雷声响起，此地一定会有大风，而大风必定会让“蓊茏”树猛烈

摇晃，所以他们必须把各自用藤条绑在树枝上，而且要绑牢靠。

对于他们来说，天上下的雨如果无法躲避，那么就一定要防止从树上滚下去，滚进树底下的急流中去。

之后，大家各自道了“晚安”，虽然“安”对他们来说实现起来很困难，但他们还是用罩篷将自己紧紧裹住，互相捆住对方，等待着暴风和瞌睡的来临。

人和大自然的植物不一样，但却和大自然的动物是一样的，当自然界发生一些大的变化时，心里总会有着隐隐的不安，这种感觉即使是再坚强，再镇定的人也不会做到静如止水。所以他们虽然睡下了，却也烦躁不安，根本无法睡着。在第一节雷打响时，他们没有一个人入睡。

雷声是在深夜11点左右的时候响起的，那轰隆隆的雷声震耳欲聋。

爵士冒着危险，爬到了横枝的末端，将头伸出树叶，看着天空。

天空像被泼上了墨汁，黑压压的，闪电像一把寒刀，将黑压压的天空划开了一道明亮的口子，并清晰地反映在了湖面上。乌云像一块黑布，时不时地从一边揭开，但却没有碎裂的声音。爵士看看头顶的天空，又看了看天边，依然漆黑一片，他重又回到树干的顶端。

“情况怎么样，爵士？”巴嘉勒尔问。

“情况很不好，这样下去，风暴不会小。”

“很好，既然我们逃避不了，那就接受吧，等待着一场奇观出现吧。”巴嘉勒尔掩饰不住内心的兴奋。

“你的奇谈怪论又要出来了。”少校说。

“少校，我和爵士的看法一样，这一定是一场惊人的大暴风。在我刚刚想睡觉的时候，突然想起了几件事，这让我开始盼望这场惊人的大风暴。为什么呢？因为我们现在正处在雷雨地区，我不记得从什么书上看到过了，说在1793年的时候，在布宜诺斯艾利斯省，在一场风暴中出现了37次雷电。我的一位同事莫西先生就曾数过，说有一声雷电，竟然持续响了55分钟。”

“哦？这么清楚，难道他拿着表数的？”少校不屑地说。

“没错，是将表拿在手里的……不过嘛，要是教人趋吉避凶的话，我倒有个办法。那就是在我们所住的这个平原上的最高点——‘蓊茏’树上，放个避雷针。因为在潘帕区的所有树木中，‘蓊茏’树最容易被雷电击中。而且朋友们，你们应该知道，起风暴和打雷的时候，千万不能躲在树下。”巴嘉勒尔说。

“真好！你这个建议说得还真及时。”少校讥讽道。

“我不得不承认，巴嘉勒尔，但说风凉话的时候，你也要看时候再说呀！”爵士也说。

“这有什么关系？学知识嘛，什么时候学都是好的。啊！看，打雷了！”

一个很大的雷声响起，打断了他们的对话。此起彼伏的雷声越来越大，威力也越来越大。如果借音乐来比喻雷声的话，可以说是从低音转入到了中音。不过很快，雷声尖锐起来，大气里好像有无数管弦乐被奏起，空气中不断有火光闪现，密集的雷电让他们一时之间不知道雷声引

发的闪电是哪一条。接连不断的轰隆声、划破天空的撕裂声，在他们的头顶不间断地响着。

闪电变着花样在闪现，有几条闪电甚至已经斜插地面，在同一个地方反复出现，厉害的时候会出现五六次。曾有专门研究闪电的人做过有趣的统计，认为叉形闪电有两种形状，可在这里，叉形闪电竟然有几十种花样。同时，还有一些闪电是被分成无数枝节的，有些就像珊瑚树一样，在黑压压的天空放射出奇异的树杈形，纷繁复杂，非常有趣。

很快，天空由东到北的地方像是蒙上了磷光，发出耀眼的光芒，瞬间让天空燃烧起来，天空的火烧云就像地上的一大堆木炭一样，这一壮观现象再次倒映在水面上，形成了一个巨大的火球，而“蓊茏”树正好在那火球的中间。

爵士和同伴们无言地看着这惊人的一幕，他们想要交流，可说出的话，彼此完全听不清楚，大片大片的白光不时地射向他们身边，周围时明时灭，让大家各自看到了对方的脸：少校的脸色依然镇定；罗伯尔有些惊恐和害怕；两名水手的表情很无所谓……白光下的这些表情，让人有种幽灵的感觉。

此时，雨还没有开始下，但风却蓄势待发。不过没一会儿，黑黝黝的天空像是被扯开了一道口子，雨像瀑布一样泻了下来。千条万条雨柱从天空垂了下来，形成了雨帘。闪电下能看到大颗大颗的雨点子打在湖面上，溅起了水花，白亮亮的。

这场雨的降临，是否也就意味着雷电就要结束了呢？爵士他们在接受了淋浴般的雨柱后，是不是就完事了？不！一定没那么简单。在电闪雷鸣之际，有个拳头大的火球突然裹着黑烟，落在了“蓊茏”的主枝末

端。火球滚落下来，只几秒钟，他们便听到了爆炸般的轰隆声，瞬间，一股硫磺味弥漫在了空气中。在一阵短暂的沉寂后，大家听到了艾撒汀的叫喊声：

“树着火了！”

没错，仅仅是一眨眼的工夫，树西边的部分就燃烧起来了。那由枯枝和干草做成的鸟巢，以及“蓊茈”树上快要掉落的白木，都让火势加速燃烧起来。还没等树上的人反应过来，风又刮起来了，风让火势加剧，火苗开始四处蔓延。

现在非逃不可了。

大家连忙向还没有着火的树的东边爬去。惊恐中，每个人都没有说话，慌里慌张，手忙脚乱地爬着，冒险爬上了随时都有可能折断的细枝上。

此时，西边的树枝燃烧得正旺，发出噼里啪啦的声响。火势像一条蛇，蜿蜒爬行，有些掉进了汪洋中，有些被烧断的枯枝带着火落进了洪水中，发出嗤嗤的声响，还有的掉下去的树枝上的火花没有熄灭，随波而流，并不时地发出暗褐色的亮光。树上的火焰突然腾空而起，直插云霄，和空中的火烧云连成一片，忽而又被风按了下来，在“蓊茈”树上荡漾。

爵士、罗伯尔、少校、巴嘉勒尔以及三个水手，没有不惊骇的。浓烟呛得他们直咳嗽，喘不过气来，而那热气更是烘得他们站立不稳。更要命的是，大火已经开始朝他们这边蔓延了，甚至已经烧到了他们躲着的细枝下的主枝上。他们现在完全束手无策了，既不能阻止火势的蔓延，也不能将它们扑灭。如果不离开这棵大树，他们很快就会被活活烧

死在树上。

所以，他们现在面临的处境是：要么淹死；要么烧死。总之，他们怎么都是死，如果要选择的话，也就只能选择一个不是很残酷的死法了。

“跳水吧！”爵士大喊一声。

此时，火焰已经烧到了维尔逊的身上，他马上跳进水里。接着，正准备跳下去的人听到了他惊恐的叫声：“救命啊！快救命啊！”

艾撒汀急忙爬到离他最近的树枝旁，将他从水里捞了起来。

“发生什么事了？”艾撒汀问。

“有鳄鱼！水里有鳄鱼！”

维尔逊用颤音回答完，大家便看到他们脚下围了一圈可怕的鳄鱼。它们那被火焰照亮的鳞甲在火光中发着光：扁扁的尾巴、尖长的头、鼓起的眼睛、扩到耳后的双颞……一切的一切，都让巴嘉勒尔认出了它们是什么。

它们是美洲特有的最凶残的“阿厉加鼉”，也就是被西班牙人称为“介鰻”的生物。

这些可怕的蜥蜴类动物足足有十多条，它们一边用扁扁的尾巴拍打水面，一边用长长的下颞啃树。

上不能上，下不能下，树上的这些人还能怎样呢？无论如何，他们都是要惨死的，不是死在火下，就是死在鳄鱼嘴里。在这种时候，就连

一向淡定的少校也不淡定了。

“很可能一切都要结束了！”他说。

这种可能性太大了。虽然在通常情况下，当人们对自然界的某种灾难无能为力之时，自然界的另一种元素会来制服它，但此时，爵士看着被水火、鳄鱼相挟的他们，却完全无能为力了。

这时候，风暴渐衰，空气中有无数的水汽存在，雷电在水汽的驱使下，爆发出了极大的威力，所以让渐渐弱下去的风形成了圆锥形的飓风，飓风的锥顶朝下，将沸腾的水和翻卷的云结合起来，向前推进，速度快得惊人。

飓风卷起了洪水，并将其吸到了圆锥的中心，形成了一个大大的水柱，而那旋转着的水柱，因为强大的吸引力，又将周围的气流全部吸了过去。

很快，那股飓风涌向了“蓊茏”树，并将这棵大树一圈一圈地裹了起来，整棵树都像是被这股飓风连根拔起，开始摇晃起来。爵士最初不知这是飓风所为，还以为是鳄鱼啃咬树所致。

几个人只能紧紧地拥抱在一起，想靠全体人的力量来抗拒大自然的威力。

不过，树倒了，根部朝上翻了起来。那正燃烧得旺盛的树枝瞬间便进了洪流之中，发出很大的嗤嗤声。当然，这仅仅只是一秒钟的时间，飓风在将“蓊茏”树连根拔起后，马上又去了其他地方。它在行进中，不断地吸着洪水，所过之处形成了很大的旋涡。

“蓊茏”树已经横卧在洪水中了，并随着水、风两重力量向前漂流。

鳄鱼在“蓊茏”树被飓风连根拔起时便一哄而散了，只有一只向翻起的树根上爬，边爬还边张开了嘴巴。

穆纳抓起一根带火的树枝，拼命朝它背上、腰上打去。鳄鱼被打翻在洪流里，并沉入急流中的旋涡，在进旋涡前，它还不服气地用尾巴拍打水。

此时，没有了鳄鱼威胁的他们，急忙爬到了火势蔓延的上风。这时，这根承载着他们的“蓊茏”树，正被一团火焰带领，在夜幕下的洪流中漂流。火焰因飓风的捣乱，烧得更旺了，如同燃烧着的渔船，带着火向前冲。

“蓊茏”树带着火和几个人在洪流中漂流了两个小时，还是没有看到陆地。火焰已经快要完全熄灭了，漂流中的他们，竟然脱离了危险。少校慢慢吐出了一句话：“此时的我们，如果获救，一点儿也不奇怪！”

洪流还是由南向北，保持着原来的方向。天空的闪电慢慢在减小，只是偶尔划过一道，夜色重新进入到了深深的黑暗之中。巴嘉勒尔看着天边，想要找到一个可以依靠的目标，但什么都没有。风暴接近尾声，雨点丝毫没有减弱，大颗大颗的，在风势中飘舞，如同雪花在飘散。大块大块的云朵不断地分裂，分裂成了一块一块的，在高空飘移。

“蓊茏”树在洪流中加快了速度，而且越来越快，好像树深处装着的发动机似的。没有任何一种迹象表明它能像这样漂多久。不过，凌晨3点左右的时候，少校突然提醒大家，说树根好像已经探到底了。艾撒汀折了一根树枝，伸到水下去探，证实地面确实在增高。在他们正想着是不是要到陆地了时，仅仅过了20分钟，快速行进中的“蓊茏”像是撞到了什么地方，停下来了。

“我们到陆地了！陆地！”巴嘉勒尔高兴地喊道。

没错，“蓊茏”树的一个已经烧焦的树枝末端触到了一片高地上。这样的航行，让人们在见到陆地的那刻，比任何航海家见到陆地都高兴。触礁也就是着陆，这是多么神奇的事啊。

罗伯尔和维尔逊以最快的速度蹦到了陆地上，他们大声地欢呼着。

突然，他们听到了一阵熟悉的呼哨声，接着，陆地上传来了一阵马蹄声，不一会儿，塔凯甫出现在了他们面前。夜色中，他那高大的身材显得那么威武、醒目。

“塔凯甫！是塔凯甫！”罗伯尔激动得大叫。

“塔凯甫！真的是塔凯甫！”所有的人都叫了起来。

“朋友们！”塔凯甫朝他们喊着。他像是一个站在码头，迎候着头班船旅客的人。在他估算出他们会流向这里后，便在这里等着，因为他就是被水冲到这里来的。

塔凯甫双手将罗伯尔抱了起来，巴嘉勒尔跑到了他的背后，从背后抱住了他。随即，爵士、少校和水手们也冲到了塔凯甫的身边。能见到这位忠诚的向导，他们异常兴奋，所以使劲地跟他握手。

最后，塔凯甫将他们带到了一座已经废弃了的牧场栏舍，那里正烧着一堆旺火，火上烤着大块大块的猎物，这样他们便能一边烤火取暖，一边吃美餐了。这餐饭他们吃得连一点碎屑都没留。

在吃饱喝足烤暖后，他们重新回想这段经历，没有人不感到惊讶的。他们无法想象，竟然在水、火、鳄鱼的三面夹击下脱险，甚至神奇

地漂回了陆地。

塔凯甫也向巴嘉勒尔简单地讲了他的脱险经历。他说，他之所以会获救，全是因为那英勇的特迦。

巴嘉勒尔把他们对那三张纸条的重新解释，以及大家的希望全都告诉给了塔凯甫。虽然巴嘉勒尔的设想，塔凯甫也不知道听懂了没有，但能肯定的是，当他看到他的朋友们快乐而又满怀信心时，表现得很高兴，也很满足。

我们不难想象，这群英勇的远征者，在从“蓊茏”树上下来，还没休息一天便迫不及待地动身了。早晨8点，他们做好了出发前的一切准备工作。那时候，他们所处的位置，差不多在大牧场和宰杀场的南部，由于找不到交通工具，他们只能步行。好在只有60多公里路，而且有人走累了，也有特迦可以驮。如果需要，特迦背上坐两个人都没问题，而他们总共只需走38个小时，便能到达大西洋的沿岸了。

等到出发时间一到，塔凯甫便带领大家，背对洪流向较高的平原方向走去。此时，单调的阿根廷领土重又呈现在他们面前，他们看到的只是欧洲人种的几棵树，稀稀落落地矗立在牧草地上，此情形像极了坦迪尔和塔巴尔康西两山附近。

阿根廷的一些本地树木，只有在过了漫长的草原，接近哥连德角附近时才会出现。

第一天就这么过去了。第二天，他们距海岸还有约24公里的路程，而且似乎已经感受到了海洋的存在。那时，常在下半天和下半夜刮起一阵怪风，而怪风又会将草木顺着一个方向吹下去。

慢慢地，贫瘠的土地上竖起了稀疏的树木，有矮小的含羞草，还有一丛一丛被称为“桤柯荷”的树，以及一簇簇被称为“枸纳麻柏尔”的树。除此之外，土地上还有像打碎了玻璃的盐滩，闪着光，挡在他们面前，使他们行走起来越来越难。

这些盐滩，他们必须绕过才行。于是大家全都加快了脚步，以便能在当天赶到大西洋岸上的萨拿朵湖。

晚上8点的时候，又累又乏的他们看到很多40多米高的沙丘出现在面前，而这沙丘的另一面是白沫乱飞。同时，他们听到了涨潮的声音。

“大海！”巴嘉勒尔最先叫了一声。

“是的，是大海。”塔凯甫回答他说。

此时，大家虽然已经筋疲力尽，但还是兴奋地爬上了沙丘。不过，由于天色已黑，他们想在那阴森森的海面上寻找点什么却是不可能的。不用说，他们寻找的是“邓肯号”。

“‘邓肯号’应该就在这一带，在岸边荡来荡去地等我们！”爵士有些急躁，大声说。

“也许明天就能看到了。”少校说。

艾撒汀朝他们预计“邓肯号”出现的地方呼喊，但却没有一点回音。此时，风浪越来越大，乌云从西边飘来，浪头的泡沫如同灰尘，飞上了沙丘。所以即使“邓肯号”就在附近，艾撒汀的呼唤，船上的人也是听不到的。

另一方面，此地的海岸并没有可以停泊的海湾，甚至连海港、支流

都没有。

沿岸是长长的沙滩，一直延伸到海里。如果“邓肯号”在这里触到了沙滩，很可能比触及与水面相平的礁石都危险。因为这一带波涛汹涌，沙滩激起了很高的浪头，如果“邓肯号”被风吹到这里，很可能就没救了。

因此，在看到这一带海岸的险恶，以及根本没有躲避风浪的地方后，“邓肯号”一定会开得远远的，这是唯一正确的做法。何况麦盖尔船长为人处世非常谨慎，必定会加倍小心的。

艾撒汀就是这么估算的，所以他觉得“邓肯号”一定是在离岸8公里以外的地方。

一向淡定的少校劝爵士冷静。他说对着那黑暗的地方，即使再怎么看也看不到，何必白费力气？

在劝慰过爵士后，少校先以沙丘为墙，建了一个宿营地。

如今，他们所剩的最后一点干粮，成了他们这次旅程的最后一顿晚饭。饭后，大家也都学少校，挖了一个洞做床铺，而那一望无际的细沙，成了他们的被褥，直接盖到了下巴处。

劳累了几天的他们，刚一倒下便沉沉地入睡了。当然，有一个人一直睡不着，在守夜，他就是爵士。

狂风大作，波涛汹涌，海浪拍打在沙滩上，发出了轰隆隆的声响。爵士不相信“邓肯号”就在他们附近的海面上，但如果说“邓肯号”还没有到达这里，又是不可能的事。

他们一行人是10月14日离开塔尔卡瓦诺湾，11月12日到达大西洋岸的。这就是说，在他们一行人穿过智利、高低岩、潘帕区和阿根廷平原的这30天里，“邓肯号”绝对有足够的时间绕过合恩角，到达和塔尔卡瓦诺湾相对的东海岸。特别是像“邓肯号”这样的快船，根本不可能误期。何况虽然风暴凶猛，大西洋那片的海域必定也受到了影响，但质量过硬的“邓肯号”，加上老练的船长，一定会早早地到达这里的。

爵士就这么安慰着自己，但还是无法安下心来。此时可以说是他情感和理智交织的时期，此时的情感战胜了理智。在这片黑暗的黑夜里，有着他深爱的海伦、玛丽，以及“邓肯号”上的所有船员。他马上就要见到他们了，他怎么能冷静得下来？

虽然已是黑夜，但海面上的波光粼粼还是能看清的，爵士起身在荒凉的海岸上徘徊。他不停地走走听听，好像突然看到远处有微弱的亮光。

“是船上发出的亮光吗？会不会是‘邓肯号’发出的？难道我的眼力能穿透黑夜？”

爵士这么一想，马上想到了巴嘉勒尔说他是夜视眼，即使是黑暗里的东西，他也能看清楚。于是，他去找巴嘉勒尔。这名法国地理学家正窝在沙窝里，像动物冬眠一样睡着。在被一只健壮的胳膊拽起来后，懊恼地喊道：“谁呀？干什么？”

“巴嘉勒尔，快起来，是我！”

“你是谁呀！”巴嘉勒尔还没清醒过来。

“我是格莱拉弗。快起来，我要借你的眼睛来用用。”

“借我的眼睛？”巴嘉勒尔擦了擦自己的眼睛。

“没错，借你的眼睛用用，我要让你在黑夜中看看，海面上有没有‘邓肯号’。快起来！”

“有夜视眼还真倒霉！”巴嘉勒尔自语道。不过在心里却为能给爵士帮忙而感到高兴。

巴嘉勒尔站直身体，伸了伸懒腰，不过，他还是像刚刚睡醒的人一样，鼻子里发出呼呼的声音。他跟着爵士，来到了岸的上头。

“请你仔细看一下海那边。”爵士说。

巴嘉勒尔认真地看了几秒钟。

“怎么？难道你没看见什么吗？”爵士问。

“我什么都没看见，我敢说，就是来只猫，也看不到多远。”

“你再仔细看看，看那周围有没有红的或绿的灯在亮，就是说有没有看到船的左舷灯和右舷灯？”

“我什么灯都没看到，只看到漆黑的一片。”巴嘉勒尔说着，眼睛不由自主地闭上了。

就这么被心急的爵士拖了有半个小时，巴嘉勒尔机械地跟着他，耷拉着脑袋，而猛地，又会突然抬起头来。走路踉踉跄跄的地理学家，如同一个醉汉跟在身后。爵士仔细一看，巴嘉勒尔是在边走路边睡觉。

爵士没有叫他，继续搀着他，将他送回他睡觉的那个沙窝，并用沙将他埋好。

东方刚刚吐出鱼肚白，大家便被一声声的“邓肯号！邓肯号！”叫醒了。大家爬起来和爵士一起欢呼着，叫喊着，向岸边奔去。

没错，在离岸大约4公里的海面上，他们看到了“邓肯号”，“邓肯号”的船帆低低地裹在帆罩里，以缓慢的速度向前行驶。船上的烟和水里的晨雾交织在一起，模糊不清。

海浪拍打着沙滩，如此吨位的船是不可能到沙滩脚下的，那样会非常危险。

爵士拿起了巴嘉勒尔的望远镜，观察那只船的行动。“邓肯号”上的麦盖尔船长，一定没有看见他们，因为船不仅没有掉头，反而还在继续朝前行驶，前帆张了一半，左舷还扣着帆脚。

就在此时，塔凯甫将他的枪里装上了弹药，朝着游船方向开了一枪。

大家仔细地听着，塔凯甫总共开了三枪，沙丘里回响着塔凯甫的枪声。终于，他们看到游船的中间部位冒起了白烟。

“‘邓肯号’要放炮了，看来他们看到我们了。”爵士高兴地说。

果然，仅仅几秒钟，隐隐的炮声便传到了岸上。接着，“邓肯号”加大马力，掉转帆篷，摇摇晃晃地想要靠近岸边。

爵士从望远镜里看到，游船上放下来了一只小艇。

“海伦夫人一定不会来的，海浪太大了。”艾撒汀说。

“麦盖尔也不可能来，他不能离开船。”少校也说。

“姐姐！姐姐！”罗伯尔大声嚷嚷着，伸出胳膊不停地朝那在海浪里颠簸的小船摇手。

“我要上船。”爵士说。

“爱德华，耐心点！两个小时后，你就会在船上了，不急这一会儿。”少校说。确实，小船上即使有6只桨在划，但一来一往，还是需要两个多小时的。

爵士转过头，开始寻找塔凯甫。此时塔凯甫正叉着腰，站在特迦身边，安静地看着波涛汹涌的海面。

爵士走过去，拉住了他的手，指着游船说：“和我们一起上去吧！”

塔凯甫摇了摇头。

“朋友，和我们一起吧！”爵士又说。

“不！我不能！这里有特迦，那里有‘潘帕’！”他转头指了指那一望无际的平原，淡淡地说。

爵士知道，塔凯甫永远不会抛下那片埋着他祖先的故地，他对这荒凉的平原有着浓烈的爱。所以，他握了握塔凯甫的手。塔凯甫没有要报酬，他带着憨厚的微笑，说了句“只是在为朋友帮忙”。

爵士没有勉强，他知道对塔凯甫最大的尊重就是接受他的做法，可他又想为塔凯甫留下点什么，他要让塔凯甫永远记住，塔凯甫有一群欧洲朋友。不过，他手里还有什么呢？武器和马匹全都在洪流中丢失了，他和同伴们两手空空。

在他想着怎么给塔凯甫留个纪念时，猛地想到了一样东西。他从皮夹里拿出了一幅相框，相框里镶嵌着一个小小的画像，这画像是劳伦斯的杰作，也是他最珍贵的东西，他将它送给了塔凯甫。

“这画像里的人是我的夫人。”爵士说。

塔凯甫对爵士拿出自己最珍贵的东西送给他觉得非常感动，他看着画像说：“夫人真是美丽又贤惠啊！”

此时，罗伯尔、巴嘉勒尔、少校、艾撒汀和那两个水手也都来了，每个人都和塔凯甫说着不舍的话。就要离开这个英勇热心的朋友了，每个人心里都很难受。塔凯甫用他那长长的胳膊一齐揽住了他们，将他们拉到自己胸前。

巴嘉勒尔想到塔凯甫对那张南美及两洋的地图很感兴趣，便送给了他，而这张地图也是巴嘉勒尔保存的唯一的宝贵东西。由于没有东西可送，罗伯尔只能不断地亲吻他。

罗伯尔不仅亲吻救过他命的塔凯甫，而且也亲吻特迦。

此时，“邓肯号”上的小舟已经渐渐靠岸，并钻进了沙滩间的一道河汊，停在了岸边。

“我的夫人在哪儿？”爵士问。

“我的姐姐在什么地方？”罗伯尔也问。

“海伦夫人和玛丽小姐在大船上等你们！走吧，爵士，我们不能再耽误了，再耽误潮水就落了。”划小舟的人说。

分别在即，大家又和塔凯甫进行了最后一次握手、拥抱、热吻，塔凯甫将他们送到小舟旁，又将小舟推入水中。

罗伯尔上船时，塔凯甫动情地一把搂住了他，慈爱地看着他。

“去吧！你是大人了！”他说。

“再见！朋友！朋友！再见！”爵士大喊一声。

“我们还能见面吗？”巴嘉勒尔喊道。

“老天知道！”塔凯甫说完，伸长胳膊指了指天。

他最后的那句话，在晨风中飘了很远。

小舟很快进入海面，在落潮的推力下，渐行渐远。隔着浪花，有很长一段时间，大家还能看见塔凯甫的身影，见他正一动不动地看着他们。慢慢地，他那高大的身材变得矮小起来，最后在他们眼前消失了。

虽然只是萍水相逢，但他们之间却产生了深厚的友谊。

一个小时后，罗伯尔率先跳上了“邓肯号”，他飞奔到玛丽面前，抱住了她的脖子。全船的水手都发出了热烈的欢呼声。

沿着37度线，横穿南美的搜寻就这么结束了。搜寻中，不管是高山还是大海，都未曾让他们放弃行走在37度线。虽然他们还没有遇到什么人为的困难，但却受到了大自然的严峻考验。不过，即使这样，大自然的灾难也没能成为他们的障碍，相反还锻炼了他们的意志。

第二十一章 重新制订寻找计划

回到“邓肯号”后，大家沉浸在了重逢的喜悦里，爵士不想因为这次寻找无果而让大家扫兴，所以他一开始就说：“我们一定要有信心！朋友们，虽然这次我们没有带回格兰特船长，但我们有信心和把握找到他。”

没错，为了不让海伦夫人和玛丽小姐失望，他必须做这样的保证。

在小舟划近大船时，海伦夫人就和玛丽小姐早早地等在了尾楼顶上，玛丽小姐由于太过紧张，心跳得很厉害，不仅说不出话来，而且站都快站不稳了，幸好有海伦夫人挽着她的胳膊。刚开始的时候，她以为小舟上会有父亲格兰特船长。不过，站在她身边的麦盖尔船长，却用那双水手特有的锐利眼神，看着远处，他清楚地看到，小舟上没有格兰特船长。

“他在那里，我的父亲，他来了！”玛丽小姐一直喃喃着。

不过，她的心情很快就荡到了谷底，因为在小舟越来越近时，她发现一切都只是自己的想象。在小舟离大船不到100米时，海伦夫人、玛丽小姐和麦盖尔船长都知道了小舟里没有格兰特船长，玛丽的眼泪模糊了双眼，她绝望了。

不过，就在此时，爵士那充满信心的保证让她不仅看到了希望，而且好像吃了一颗定心丸。

在一场拥吻后，远征者们将这次在陆地上搜寻时遇到的惊险场面全

都告诉了海伦夫人、玛丽小姐和麦盖尔船长。当然，爵士首先说的还是巴嘉勒尔通过他的智慧，发现了纸条上的新注解。接着，他又夸奖了小罗伯尔，将他勇敢真诚，不怕危险的事情说了，并说玛丽小姐应该为有这么一位好弟弟而自豪。

爵士的夸奖让罗伯尔有些难为情，很想躲起来，但不知道躲去哪儿，幸好玛丽小姐伸开了双臂，他便一下子偎在了姐姐的怀里。

“罗伯尔，这有什么难为情的？这才是格兰特船长的儿子呀！”

麦盖尔船长说着，伸出双手将罗伯尔从玛丽小姐的怀里拖了出来，吻着他那沾着玛丽小姐泪水的小脸。

在这里我们需要说一句，少校和地理学家同样受到了大家的热烈欢迎，而他们也谈到了真诚热心的塔凯甫。海伦夫人遗憾没有和善良的印第安人塔凯甫握手。少校在和大家叙完旧后，钻进了自己的房间，仔仔细细地刮起了胡子。

巴嘉勒尔则像个勤劳的小蜜蜂，东奔西跑地寻东找西，和船上的每个人打招呼，听每个人给他唱赞歌。他甚至还想吻遍“邓肯号”上的全体人员，包括海伦夫人和玛丽小姐。当然，他最先吻的也是这两个人，接着才挨个吻下去，直吻到最后一位——奥比尔先生。

奥比尔觉得没有更好的方法来表达他对远征队员们的欢迎了，能表达的只有美食，于是宣布开饭。

“要吃午饭了吗？”巴嘉勒尔高兴地问。

“没错，先生！”奥比尔说。

“那一定是顿丰盛的午餐吧！难道让我一个人坐一张桌子？还有，餐具呢？餐巾呢？都有吗？”巴嘉勒尔嚷嚷个不停，到处都是他的声音。

“这些都会有的，巴嘉勒尔先生！”

“这就是说，今天可以不用吃干肉、烟煨蛋和鸵鸟肋条了？”

“先生！怎么可能吃这些呢？”奥比尔这个厨师长不高兴了，觉得小看了他的手艺。

“我亲爱的朋友，我可没有小看你！知道吗？我们一个月以来，全都是吃这些东西。我们没有坐在桌子旁吃，我们是坐在地上吃，甚至骑在树杈上吃。所以当你宣布开饭时，对我来说，简直就是一场梦，甚至觉得会不会是自己的幻想。”巴嘉勒尔笑着说。

“巴嘉勒尔先生，那么你就去证实一下这是不是真的吧！”海伦夫人笑着说。

“那让我挽着您去吧！”巴嘉勒尔绅士十足地说。

“阁下有没有什么新的命令给我？”麦盖尔船长问爵士。

“亲爱的麦盖尔，午饭后，我们讨论下一步计划。”

游船上的客人，以及船长麦盖尔都来到了方厅，麦盖尔嘱咐开船的水手做好准备，一旦下命令就起航开船。

少校在刮完胡子后，其他人也都洗漱完毕，全都围在了餐桌旁。厨师长预备好晚饭后，大家吃得欢天喜地，直嚷嚷着好吃，说比平原上那

些丰盛的食物美味多了，而巴嘉勒尔也把每样菜都取了两份，还声称这是粗心所为。

说到“粗心”，海伦夫人便问可爱的法国地理学家，在远征途中，有没有犯过粗心的毛病。少校和爵士互看一眼后，全都会心地笑了。巴嘉勒尔笑得最大声，那笑里带着天真。他说他用他的荣誉保证，以后绝不会粗心了，然后还把苦读珂梦斯的作品，以为学的是西班牙语的事说了。说完又补充道：“一句话，吃一堑长一智！不过呢，那次的粗心，我可一点都没吃亏。”

“亲爱的朋友，为什么这么说？”少校问。

“这还不明白吗？因为这次粗心，我不仅学会了西班牙语，而且还学会了葡萄牙语。一举两得！”

“哦！好一个一举两得！看来要恭喜你了，恭喜你学一种语言，会两种语言。”少校调侃道。

大家全都一窝蜂地开始恭喜巴嘉勒尔。巴嘉勒尔虽然吃着饭，但嘴并没有停下，而是边吃边和大家聊天。不过，在大家都聊天时，有个没被人注意的秘密却被爵士注意到了，那就是船长麦盖尔老是坐在玛丽小姐身旁，并对她大献殷勤。

海伦夫人给丈夫使眼色，意思是“一直都这样”，而爵士也是带着欣慰的神情看着那对青年男女。突然，他叫了声麦盖尔，不过问的却是别的事。

“这次航行怎么样？”他问。

“非常好！不过我们没有经过麦哲伦海峡。”

“啊？我不在船上的时候，你们竟然绕过了合恩角？”巴嘉勒尔喊道。

“你是后悔没看到合恩角吧，亲爱的地理学家，如果你有分身术，你就能同时去很多地方了，比如在跑潘帕草原的时候，又去绕合恩角！”爵士笑着说。

“虽然无法分身，但怎么说也是个遗憾呀！”巴嘉勒尔说。

大家没再引他往下说，这个话题也到此为止。船长继续讲述他们在海上航行的经过，他说他们沿着美洲海岸走，在观察了西边的岛屿后，也没发现有“大不列颠号”的任何痕迹。到了皮拉尔角，因为靠近麦哲伦海峡的入口处，正好顺风，于是便向南去了。他们一直沿着德索拉西翁岛屿航行，直到南纬67度线才又绕过合恩角，沿着火地岛前行，最后又穿过了勒梅尔海峡，沿着巴塔哥尼亚海岸北上。

在他们行驶到与哥连德角同纬度的地方时，遇到了风暴，而这场风暴也袭击了潘帕草原上搜寻的远征队员们。好在“邓肯号”安然无恙，在沿着海岸航行了3天后，开始焦急地等待远征队员归来，直到听到塔凯甫的枪响才发现他们。

对于海伦夫人和玛丽小姐，麦盖尔船长更是敬佩有加，称在惊涛骇浪面前，两位女士毫不畏惧，也不烦躁着急。而她们之所以能如此淡定，则是因为她们的心一直牵挂着去潘帕草原搜寻的远征队员。

船长麦盖尔在讲完后，爵士先是夸奖了他一番，接着转向玛丽小姐说：“亲爱的玛丽小姐，我发现麦盖尔船长很欣赏你。我想，你坐在他的船上，一定很放心吧！”

“欣赏我？”玛丽小姐说着话，眼睛在看向海伦夫人的同时，也看向了年轻的船长麦盖尔。

“哈哈！船长先生，我姐姐喜欢你，我也喜欢你！”罗伯尔突然大声说。

“亲爱的孩子，我也很爱你们！”船长这么一说，玛丽小姐的脸腾地红了。为了转移话题，麦盖尔船长又说：“等我把‘邓肯号’航行的情况说了，阁下也把你们横穿美洲大陆的情况，以及我们小英雄的事迹说说好吗？”

说远征队的事情，没有比这更让海伦夫人和玛丽小姐感兴趣的了。爵士为了尽快满足她们的好奇心，将她们所经过的一幕幕讲了出来。他讲了他们爬安第斯山的时候，遇到了地震，然后发现罗伯尔失踪，还被兀鹰用爪子抓了起来，最后在塔凯甫那一枪的帮助下，罗伯尔获救；接着讲了他们和红狼的一场惊心动魄的战斗，以及罗伯尔牺牲自己，保全大家的精神；又说了在独立堡见司令、遇洪水，以及在“蓊茏”树上避难，最后“蓊茏”树遭到雷击，大树起火，树下又有鳄鱼，之后又遇飓风，“蓊茏”树被连根拔起，漂到了陆地，在大西洋过了一夜.....

这一切的一切，不管是开心还是恐惧，他都原原本本地说了出来，听众们忽而欣喜，忽而害怕。在爵士的讲述中，罗伯尔多次得到了姐姐玛丽和海伦夫人的抚慰，而他也从未得到过如此多人的疼爱、拥抱和亲吻。

爵士在讲述完这些后，又说：“朋友们，过去的已经过去了，我们现在应该想接下来怎么做，未来一定会属于我们。下面我们谈谈该怎么

继续找格兰特船长吧。”

午饭结束后，大家全都跑到了海伦夫人的客厅，围坐在一张堆满了各种彩色地图的桌子旁，讨论也就此开始。

“亲爱的海伦，上船时，我就和你说过，‘大不列颠号’失事的船员这次虽然没有被我们找到，但我们有信心找到他们。我们曾横穿美洲跑了一趟，这趟没有白跑，因为我们知道了这样一个事实，那就是这只失事的船既不是在太平洋沿岸，也不是在大西洋沿岸。怎么说呢？就是说我们误读了那三张纸条上的意思，误读的是对巴塔哥尼亚的解释。幸好我们伟大的地理学家巴嘉勒尔发现了这个错误。所以现在，我们没有什么疑问了，我们要重新拿出那几张纸条来解释给大家听，让大家放心。”

巴嘉勒尔接受了重新解释纸条上的内容给大家听的任务，并很快讲了起来。他将gonie和indi两个完全不同的字仔细地讲给大家，然后又把“澳大利亚”（Australia）一词从austral这个字里解释出来，以此证明格兰特船长离开秘鲁海岸回欧洲的时候，很可能是因为船只出现了问题，被西风打到了大洋洲的海岸。总之，他用他那巧妙的假设和严谨的推理，让不容易受到蒙蔽，性格固执的麦盖尔船长也接受了他的观点。

在巴嘉勒尔讲完后，爵士便宣布“邓肯号”向大洋洲行驶。

不过，少校却在“邓肯号”掉头向东航行前，说要提一个小小的意见。

“是什么？说吧！”爵士说。

“我说这些不是想要推翻朋友巴嘉勒尔的推论，也不是说他说得有问题。我只是觉得他的推断虽然谨慎，但却需要引起我们的注意，就是

他所说的这些只能作为我们搜寻的参考。我觉得我们完全有必要再对这几张纸条做一番推敲研究，以便达到无懈可击的地步。”少校说。

大家不知道平时谨慎细心的少校觉得哪里有了问题，总之觉得有些不安。

“少校，说吧，继续说。我已经准备好应对你所提出的一切问题。”巴嘉勒尔说。

“很简单！我想说，在5个月前，我们在克莱德湾研究这三张纸条的时候，觉得一切解释完全符合情理。甚至除了巴塔哥尼亚的东海岸，根本不可能在其他海岸沉船。就是说，关于这一点，我们曾连丝毫的怀疑都没有。”

“没错，是这样的。”爵士说。

“可是后来呢？巴嘉勒尔像碰到鬼了一样，突然莫名其妙地跑到了我们船上，在我们拿那三张纸条给他看时，他也毫不迟疑地同意我们的推断，并和我们一起到美洲海岸搜寻。”

“没错！我完全同意你的说法，少校先生！”巴嘉勒尔一脸平静地说。

“但是，我们却把方向找错了！”少校又说。

“对呀，我们是把方向找错了。”巴嘉勒尔先是用少校的口气说完，接着又嚷嚷道，“不过，人总是免不了会犯错，错了就要改正。如果明知错了，还要一直错下去，那简直就是个傻瓜。”

“请等我说完，地理学家先生！你的性子怎么这么急呢？我并不是

说我们要再去美洲搜寻。”少校说。

此时，爵士首先就等不及了，对少校说：“那你到底想说什么？”

“没什么，我只是要让大家承认一点，此时我们觉得‘大不列颠号’的出事地点在大洋洲，就和我们当初觉得是在美洲一样肯定。”

“当然，我们完全承认这点。”巴嘉勒尔说。

“既然大家承认这点，那么我就要告诉你，巴嘉勒尔，你的想象力实在是太丰富了，今天觉得是这样，明天又觉得是那样。今天否定了昨天的，昨天又否定了前天的……这样否定来否定去，谁能保证我们在搜寻完大洋洲后，又觉得纸条上其实不是这个意思，而是别的意思，并在其他‘肯定’的地方搜寻呢？”少校严肃地说。

爵士和巴嘉勒尔面面相觑，一句话都说不出来。因为少校说得很对，这让他们很是吃惊，也有些沮丧。

没等他们说话，少校继续说：“所以我觉得我们在去大洋洲之前，是否再作一次验证。我们可以根据纸条上的字迹，将南纬37度线穿过的地点再研究一遍，看看是否还能在纸条中找到相似的字迹。”

“没问题，这很容易，不需要多长时间就能做到，因为这条纬线经过的陆地并不多。”巴嘉勒尔说。

“那我们就再仔细研究一下吧！”少校说着，打开了一张英国版的地球平面图，并将整个地形摆在海伦夫人的面前。大家全都聚了过去，寻找着合适的地点，听巴嘉勒尔按图解说。

“我前面都已经说过了，37度纬线穿过南美洲后，就到了特利斯探

达昆雅群岛。而在纸条里，我们是看不到一个字眼跟这个群岛的名字有关联的。”巴嘉勒尔说。

大家又仔细地研究了后，发现巴嘉勒尔说得没错，所以这岛便被他们放弃了。

“接下来，我们出了大西洋，到了好望角。这里比37度低两度，随后我们进了印度洋，并在路上碰到了阿姆斯特丹群岛。同前面我们说的特利斯探达昆雅群岛一样，大家再研究一下吧，看从纸条上能不能找到相关的地名。”

大家在又仔细研究了一番后，不管是用英文、法文还是德文，不管是完整的还是不完整的字数，都与阿姆斯特丹群岛这个地名没有任何关系，最终，这个岛也被放弃了。

“接下来，我们又到了大洋洲。37度线穿过了澳大利亚大陆，从白洛夷加进去，然后又从杜布湾出来。我想，你们应该能看出，写着英文的纸条中的stra和法文字条中的austral，他们都和澳大利亚（Australia）这个字有关。我想，我不用再重复了吧！”

大家都赞成巴嘉勒尔的说法，并把出事地点的最大可能性放在了这里。

“继续往前看！”少校依然一脸平静。

“好！我们继续往前看。用地图旅行可真是太容易了。我们离开了杜布湾会经过大洋洲东面的那片海峡，也就是岛国新西兰。在这里我要提醒大家，用法文写的纸条上的continent是指‘大陆’。但新西兰却只是一个小岛，所以格兰特船长应该不会逃到那里去。即便如此，我们还是

要研究研究，比较比较。经过认真研究每一个地方后，看有没有是新西兰的可能。”

“没有这种可能，我把纸条和地图都研究过了。”船长麦盖尔说。

“没有这个可能！完全和新西兰无关。”大家都说，包括少校也这么认为。

“那么，在远隔万里的新西兰岛和美洲海岸之间，南纬37度线也就只剩一个荒岛了。”

“那岛叫什么？”少校问。

“你看地图就知道了，叫玛丽雅泰莱萨岛。这个岛在三张纸条中，也是找不到任何一个和这个名字有关的印迹的。”

“没错！确实没有。”爵士点头说。

“所以朋友们，你们说，是不是最大的可能是在澳大利亚大陆上？”

“是的，就这里可能性最大！”大家一起说。

于是，爵士就问船长：“麦盖尔，煤和石油是不是够？”

“完全够了！阁下，在塔尔卡瓦诺时，我补充了很多。而且在好望角的时候，还可以继续补充。”麦盖尔船长说。

“那么，现在开船到……”

爵士下命令的话还没说完，便又被少校打断了。

“我还有最后一个问题。”

“说吧，少校先生！”

“不管我们去大洋洲能不能搜寻到，我们在特利斯探达昆雅和阿姆斯特丹的时候，都停留一天可以吗？这两个群岛可都是在37度航线上的，我们不用拐弯，说不定也能搜寻到‘大不列颠号’出事的印迹呢！”

“他还真是多疑，固执的少校！”地理学家巴嘉勒尔嘟哝道。

第二十二章 重踏搜寻之路

相距196个经度的澳大利亚白洛夷加和美洲哥连德角之间，如果沿赤道航行的话，是需要走6350公里的。不过，地球是圆的，所以“邓肯号”只需沿着南纬37度前行，就能让航程减小到5200公里。

“邓肯号”从美洲海岸出发，需要经过1140公里的路程才能到达特利斯探达昆雅岛。而如果正好顺风，这段路程便能在10天内完成。确实如此，当天晚上，逆风的风势减弱，风向转为顺风，所以有着很好性能的“邓肯号”便在平静的海面上顺畅地航行了。

曾经去平原经过了一个月远征的乘客，很快就适应了在船上的生活，而对于离开的那一个月，仿佛只是很短的一段时间。

“邓肯号”离开太平洋，没有多长时间便进入了大西洋。曾经让“邓肯号”接受了惊涛骇浪考验的大海，此刻却成了“邓肯号”的帮手，处于平静中的海洋，风势正好利于“邓肯号”航行，所以船上的帆在西风的护送下，协同锅炉燃烧带来的力量一路航行。

航行进行得太顺利了，没有遭受任何意外，也没任何枝节发生。船上的人都在热切期盼大洋洲的出现。离目标越来越近了，大家又开始讨论起了格兰特船长，仿佛他们这次去大洋洲，就是为了去商埠接他回来一样。

格兰特船长的房间，以及他另外两位伙伴的吊床也都准备好了。房间原来是奥比尔住着，他主动让出了自己的房间，去了太太的房间。而

对于格兰特船长房间的布置和装饰，兴奋的玛丽小姐一定要亲自参与。

格兰特船长的卧室隔壁是地理学家巴嘉勒尔所谓的“6号房”，也可以说是他在“苏克迪亚号”上预定的“6号房”。

博学的地理学家时常躲在他的“6号房”里写东西，而他所写的正是他们之前一个月经历的，书名叫《潘帕印象记》。处于创作中的巴嘉勒尔，经常会激动地先读出来，然后再写在笔记本上。很多次，在他写得兴奋的时候，会向希腊神话中的史神珂里欧和诗神佳丽奥卜寻找灵感。

巴嘉勒尔向史神、诗神寻求灵感并不是秘密，他也不藏着掖着，所以海伦夫人常常预祝他能获得成功。显然两位女神的首领阿波罗非常愿意帮助地理学家，所以两位女神才有机会离开华丽的宫殿，帮助巴嘉勒尔完成他的著作。

少校看巴嘉勒尔常常和女神们神交，除了预祝他成功外，也会调侃他：“亲爱的地理学家，你可千万不要再犯粗心大意的毛病了，在你想学英语的时候，千万别拿中国的语法书学。”

船上的大家就是这么和谐团结。当然，爵士和海伦夫人也没忘记关注麦盖尔船长和玛丽小姐，觉得他们两个人个性很合，做事也默契。当然，麦盖尔船长应该还不想现在被点破，所以他们还是觉得顺其自然的好。

“如果格兰特船长知道了，你说他会怎么看？”爵士有天问海伦夫人。

“格兰特船长一定会认可麦盖尔的，也一定会觉得他配得上自己的女儿。亲爱的爱德华，如果真是这样，那就太好了。”

此时，“邓肯号”一直朝着自己的目标在行驶，离开哥连德角后的第5天，也就是11月16日，海上刮起了西风。非洲南端也会经常刮东南风，但他们在绕过好望角的时候，却遇上了西风，这对他们来说是再好不过的了。所以“邓肯号”马上拉起了全部帆篷，不管是主帆、纵帆、前帆、顶帆、樯头帆……各种辅帆一齐张开，帆索也扣在了左舷上。

船以惊人的速度向前飞奔，船首以劈波斩浪之势前行，船上的螺旋桨几乎都碰不到水。“邓肯号”像在海上参加滑水比赛一样，在海面上飞驰。

第二天，大家看到海面上漂起了很多海藻，整个海面如同一望无际的草原。原来，这是北大西洋从邻近大陆冲下来的杂草，汇集成了一片“海藻海”。而之前，莫利船长也曾提醒过要防备出现这种现象。地理学家巴嘉勒尔将他们在阿根廷看到的草原和这片“海藻海”相比较，简直是再形象不过了。当然，在这样的环境下航行，速度自然比原来慢了很多。

24小时之后，天亮了，站在瞭望台上的水手突然大叫：“看！陆地！”

“陆地？在哪儿？”值班的艾撒汀问。

“就在迎风的方向！”那名水手指给艾撒汀看。

水手的声音叫醒了船上的人，甲板上瞬间站满了人。不一会儿，楼顶上先是伸出了一个大望远镜，接着出来了地理学家巴嘉勒尔。他将望远镜架好，对着水手所说的陆地观看，可根本看不出哪里有陆地。

“你要朝云里看才行。”麦盖尔对巴嘉勒尔说。

“哦，果然！不过应该是座山，看不大清楚。”巴嘉勒尔说。

“那是特利斯探达昆雅岛吗？”麦盖尔问。

“要是我的记忆力没问题我的话，那里距我们不过68公里，所以这个岛应该在海拔2100米左右，这距离正好够我们刚刚看得见。”巴嘉勒尔说。

“没错！”麦盖尔说。

几个小时之后，那座之前还影影绰绰的特利斯探达昆雅岛出现在了天边，黑黝黝的圆锥形顶峰在旭日中显露出来。很快，主岛也从石林中出现出来，让岛群形成了一个三角形，三角形向东北倾斜。

特利斯探达昆雅群岛的中心位于南纬37度8分，西经10度44分。此岛西南17公里处是无路岛，东南8.5公里处为莺岛，因为这两个岛的环绕，这一区域的海洋面上便形成了一个岛屿群。

傍晚，“邓肯号”上的人开始测定认路标志，并最终将船的一角定在了如同岩石一角的无路岛上；船的另一角则定在了如同破损堡垒的莺岛北端。

下午3点钟，“邓肯号”向此群岛的法尔默思湾驶去。法尔默思湾将吹来的西风挡在了外面，所以海面风平浪静。因此，这里完全算得上是个优良的港口。

由于这一带的海岸有着不计其数的海兽，所以港口停了很多捕捉海豹、海兽的船只。不过，此地的港外停泊点因为经常受西北风和北风袭击，所以还是很危险的，麦盖尔船长便小心地寻找合适停泊点。

1829年，英国的一只双桅船“邱里雅号”就是在这里沉没的。

距岸还有半公里左右的时候，“邓肯号”在一个有很多暗礁，水深达到了8米的地方停了下来。乘客们纷纷登上一个大艇，在松软的沙地上着了陆。

特利斯探达昆雅群岛的居民在一个位于海湾深处的山溪旁生活，四周溪水潺潺。村子里住户不多，大概有50所房子，整洁的房子呈几何图形排列，颇有英国建筑风格。在这些英国建筑的后面，有个15平方公里的平原，平原尽头是火成岩，火成岩上矗立着圆锥形山峰，峰顶约2130米，直插云霄。

当地总督热情地接待了爵士一行，而这个地方也是受好望角英国殖民政府管辖的。爵士趁机向他询问格兰特船长的“大不列颠号”的消息，不过，不管是格兰特船长还是“大不列颠号”，这位总督大人都很陌生。

这个群岛并不是海上的交通要道，所以来此群岛的船只并不多。甚至自从1821年“白朗顿霍尔号”在无路岛触礁失事，1845年“布利莫葵号”，1857年美国三桅船“斐列德尔菲雅号”在此出过事之后，船只来此的就更少了。

爵士在问总督的时候，并没抱什么希望，只是顺便问问而已。为了心安，他还派人划着船上的快艇去绕岛巡视。这个岛并不大，只有15平方公里。其实就是再大上3倍，也没有伦敦或巴黎大，所以他们不担心。

在爵士们向总督打听消息的时候，船上的乘客就去村子附近的海岸散步。这里的居民约有150多人，而且很多都是英国人或美国人，他们最后又和南非或当地的黑种人通婚，所以这里的女子长相并不是很动

人。

从船上下来的旅行者在踏上陆地后，便有了一种踏实感和幸福感。他们喜欢脚踏陆地的感觉，所以一直沿着毗连平原的海岸散步。平原上有部分土地是经过耕种的，长着一些农作物。其他地方则由一连串的喷石悬崖构成，在这些悬崖的高处，有很多机灵的信天翁和呆笨的企鹅。

在观看了这里的火成岩之后，他们继续向平原走去。此时，山上的积雪开始融化，形成溪流流了下来，所以四处传来潺潺的流水声。整个平原在苍翠的灌木点缀下，非常漂亮，树丛里的鸟儿也和花儿一样的多。8米多高的鼠李树和木本苧科植物在牧场上高高矗立，还有枝蔓很多的巴西蔷薇，枝条结实，纤维纠缠的狮子头草和散发着清香的灰灰菜，当然，这些地方也少不了苔藓、野芹、凤尾草……

以上都是当地的特色植物，种类虽然不多，却长势喜人——大自然好像要把春季的所有美好都在这个平原上展示。感性的地理学家巴嘉勒尔不禁高兴地赞美起来，认为法国的文学家费纳龙歌颂的著名仙岛奥吉吉也不过如此。他甚至还劝海伦夫人在岛上找个仙洞住下来，就像美丽的女神珈丽莎一样，做群岛的主人。对于他自己，则愿意拜倒在海伦夫人的石榴裙下做个小仙人。

一行人边说边笑，一直到傍晚才回到船上。傍晚的村子里，到处都是放牧归来的牛羊。村子里的一些田地里种着从其他地方带来，仅有40年历史的麦子、玉米和蔬菜，这些植物郁郁葱葱，从田里一直蔓延到了街道。

在爵士一行散步回来后，“邓肯号”派出的巡视艇也回来了。这些巡

视艇仅仅用了几个小时就绕着岛转了一圈，当然，一路上他们也没有发现格兰特船长及那失事船的印迹。所以这次的搜寻结果，应该完全将特利斯探达昆雅群岛从搜寻计划中删除，因为毫无收获。

“邓肯号”原本可以从这群岛屿离开继续向东进发，但当晚他们却没有开船，原因就是爵士允许船员们来一场猎取海豹的活动。这种海豹在这里也有人将其称为海牛、海狮、海熊、海象。不管名称叫什么，总之是太多了，多得几乎可以把法尔默思湾的沿岸海域塞个水泄不通。

以前，这里生活着许多北极鲸鱼，不过由于捕猎的人太多，在用叉子将它们捕获或将它们赶走后，北极鲸鱼便在这里消失了，但还有很多两栖类动物成群结队地在此出现。

“邓肯号”的船员们准备夜里捕猎海豹，然后在第二天白天把它们熬成油储藏起来。

为此，“邓肯号”推迟了3天起航，将起航时间定在了11月20日。

这天晚上，吃晚饭的时候，大家兴致勃勃地听巴嘉勒尔讲了特利斯探各岛的历史，知道这座岛屿是1506年被葡萄牙最著名的探险家特利斯探·达·昆雅发现的，特利斯探曾是探险家阿布奎基的追随者之一。

这群岛屿在刚刚被发现时，因为是风暴中心，所以无人问津。

当然，这种看法并非毫无道理，它的名声并不好，甚至比古巴荒岛贝尔穆德斯还差，所以船只都不愿意来这里，而凡是来这里的，大多都是被大西洋的飓风逼得不得不过来此地躲避。

1697年，东印度公司有三艘荷兰船来此停泊，并测定了群岛方位；1700年，英国天文学家哈雷修订了这个方位数据；1712年到1767年，在

55年间，又有几位法国航海家来到此地，其中最有名的就是法国人纳布鲁斯，他是在1758年探险时来到这里的。而即使这样，岛上还是很少有人来，更不要说有人居住了。

1882年，美国人兰百尔来此工作，和他一起来的两位同伴在1月登上了这片陆地，并开垦荒地。当他们开垦得差不多的时候，好望角总督提议他们将这里划给英国政府，做英国领土。至此，这里的草棚便挂起了英国国旗。当时这个地方只有两位臣民，而这两位臣民还分别属于意大利人和葡萄牙人。当然，这个地方的地主就是兰百尔。

原本只有三人的土地，管理起来很容易。不料有一天，兰百尔在巡视各地时，不知是自己失足落水还是被害落水，总之是被水淹死了。1786年，拿破仑被囚禁在大西洋的圣赫勒拿岛上，英国人派出监视他的两支部队分别驻扎在了阿森松岛和特利斯探各岛。驻扎在特利斯探各岛的士兵由好望角的炮兵连和霍腾陀族的士兵组成。直到拿破仑死在那个荒岛上，这些士兵才被调回好望角。

“这里最后只剩下一个人，是个欧洲上尉，英格兰人……”巴嘉勒尔说。

“什么？是英格兰人？”少校惊问，一听到是自己的同胞，他马上表现出难得的兴趣。

“没错！这个英格兰人叫威廉·格拉斯。当然，除了他以外还有他的妻子和两个霍腾陀人。没过多长时间，又有两个英国人来了，这两个英国人一个是水手，别一个则在阿根廷当过骑兵，还在泰晤士河上做过渔夫；又过了一段时间，也就是在1891年的时候，‘白朗顿霍尔号’沉没，侥幸脱险的一对年轻夫妻留了下来。那时候，岛上只有六个男人和两个

女人；1899年的时候，岛上又有了七个男人，六个女人，四个孩子；1905年的时候，岛上人数达到了40人，如今，又增加了3倍多。”

“哇！原来一个地方的历史形成是这样的。”爵士感慨道。

“当然，为了让大家更多地了解特利斯探各岛的整个历史，我还要说一点。我觉得这个岛和南太平洋的胡安斐岛很相像，甚至可以称之为鲁滨孙之岛。因为胡安斐岛，也曾有两名水手在那里流落过。而在这个群岛流落过的也有两名学者：1793年，我的同胞，博物学家瞿布迪·朵阿尔在这个岛上采集植物标本，不料因为采集时太过专心，越走越远，迷了路，直到船长起锚时才上了船；还有1824年，亲爱的爵士，有你一个画家同胞叫夷耳的，也曾被丢在这个岛上达8个月。他更惨，忘了上船，而那船长也忘了他没有回船，就将船开去了好望角。”

“哦！这位船长真是太粗心了，难道和你是兄弟？”少校再次调侃巴嘉勒尔。

“虽然不是兄弟，但他的粗心劲，还是很像我弟弟的。”巴嘉勒尔对少校的调侃毫不生气，自嘲道。

自此，有关特利斯探群岛的历史便讲完了。

晚上，“邓肯号”上的船员进行了一场精彩的捕猎，收获了50多只海豹。在获得爵士允许时，船员们不仅享受了猎捕的快感，同时也有所收获，双重的喜悦让他们第二天就把这些值钱的动物剥了皮，并熬制成了油。

当然，在船员们忙活的时候，船上的其他人又登上了陆地浏览风景，爵士和少校还挎上了枪，准备打些野味来尝尝鲜。他们一直走到了

山脚下，看到了遍地的岩石碎块，还看到了带孔的黑色岩石。这是岩石风化后的残骸，也是火山的遗迹。

无数岩石在山脚下堆积，那座圆锥形的山峰到底是什么样子不用想就会知道，一定是杂乱无章的。

曾经有位叫卡尔思的英国船长说这圆锥形的山峰是死火山，看来不无道理。

爵士和少校看到了几只猎物，那是几只野猪，其中一只被少校打死了。而爵士仅仅打到几只黑竹鸡。不过，就是这两样东西，回去也是可以让厨师做出几盘美味佳肴的。

高原的山顶上有几只山羊，还有一些连狗看到都害怕，但却长相英武，敏捷大胆的山猫。这些山猫在岛上繁殖很快，大有在不久之后就成为山中之王的趋势。

晚上8点，大家回到船上休息，“邓肯号”也离开了特利斯探各岛。

麦盖尔船长计划在好望角上装煤，所以也就不得不让船离开南纬37度线，向北走了两度。“邓肯号”在西风下向目的地航行，不到六天，他们便将特利斯探各岛和好望角的700公里走完了。

11月24日下午3点，船上的每个人都看到了桌山。又过了不一会儿，船长测到了信号山的位置，而那也正是海湾入口的标志。晚上将近8点的时候，“邓肯号”进了海湾，并在开普敦港抛锚了。

作为地理学会会员的巴嘉勒尔，当然知道好望角的发现时间是在1486年，发现者是葡萄牙海军上将迪亚士；1497年，葡萄牙著名的航海家达·伽马也曾来过这里。而珂梦斯的《卢厦歌》歌颂的正好就是这位

航海家，巴嘉勒尔怎么可能不知道？

对于这点，他还曾发表过他的意见，他说迪亚士发现好望角实际上比哥伦布第一次航行早了6年。如果迪亚士当时绕过了好望角，那么对美洲的发现应该会无限期地延迟下去，因为欧洲和东印度间的航行，虽然绕过了好望角，但却也是这两者间最短、最佳的路线。

来自热那亚的伟大航海家为了寻找一条通向“香料之国”的路，一直开船西行，总算找到了一条捷径。所以说，当他绕过了好望角后，捷径也就找到了，这时候，他继续往西探险又有什么意义？

1652年，荷兰人凡·利白柯建立了英国最重要的殖民地首府开普敦，这片殖民地在1815年签订条约后便属英国管理了。

开普敦位于开普湾深处，“邓肯号”上的乘客们决定利用船只停泊的时间，上岸游览一番。当然，由于麦盖尔船长打算26日清晨起航，所以他们上岸游览的时间非常有限，只有上煤期间的12个小时，所以大家只能走马观花。

开普敦整座城并不大，游览完整座城也不需要多长时间。整座城的分布非常像一个分成方格的棋盘，棋盘上的棋子就是这里的居民。在这个大棋盘上，总共有“棋子”居民3万人左右，而这3万人中，不仅有白人也有黑人，他们各自扮演着自己的角色，有些是国王，有些是王后，有些则是士兵、小卒……甚至还有丑角。当然，对这些人物的形象比喻，都来自于地理学家巴嘉勒尔。

开普敦没有名胜古迹，能看的无非是一些像东南角耸起的堡垒、总督衙门的花园、证券交易所、博物馆以及迪亚士最早发现好望角时，树立起的一座十字架石碑。

不过，当人们看完这些后，如果能再品尝一下当地著名的地方酒的话，也就没有什么遗憾了——当然最终他们也这么做了。

于是，第二天清晨，他们满足地准备离开，“邓肯号”拉起了触帆、三角帆、主帆、前帆起航。只用了短短几个小时，他们便绕过了著名的“风暴角”，也就是好望角。而之所以“风暴角”被改名“好望角”，则是因为葡萄牙国王约翰二世的个人喜好。

舒适的顺风，也没有大的海浪，“邓肯号”从好望角到阿姆斯特丹的1600公里路程，很可能只需10天就能完成了。曾经去过潘帕的人，觉得在海上搜寻简直比在草原上舒服多了。在草原上，他们经历了风和水的袭击，而现在在海上，不管是风还是水，都在帮助他们行走。此刻，他们一下子觉得大自然太好了。

“海洋啊！伟大的海洋，你们是人类的朋友，船只是文明的推手。想想看，朋友们，要是地球上没有海洋，人们即使到了20世纪，也未必会知道它千分之一的面积！再想想看，不管是在西伯利亚森林，还是在中亚细亚的平原，更或者是在非洲的沙漠，美洲的草原，即使是在大洋洲的矿山里，在严寒的两极冰区，人们都是无法进去冒险的，就是再大胆，再勇敢的人也会退缩。

“因为不管是交通工具还是炎热、疾病，甚至那强悍的土人，都可能是人类无法逾越的障碍。那11公里的沙漠，很可能让人至死无法相见，那是比270公里的海洋更大的阻力。不要说在其他地方，就是海岸，即使只是遥遥相对，也有心灵相通之感。但如果隔着的是一片森林，就只能称之为异类了。

“打个比方，英国和澳大利亚之间虽然相距甚远，但因为疆界相

连，给人的感觉并不远，而埃及和塞内加尔却如同隔着几百万公里。还有北京和彼得堡，离得更像远在天边。再看看我们今天，我们穿越汪洋大海，比走撒哈拉沙漠还要容易，这就像美国的莫利舰长所说，全世界各大陆之间之所以能建立起友好的关系，都是因为海洋。”

地理学家巴嘉勒尔热情洋溢地说着，大家也都认真地听着，很是认同，就连少校也没有反驳。没错，如果寻找格兰特船长，他们只能沿着37度线在陆地上搜寻，那么这么艰巨的任务，一定无人敢去尝试，更不要说完成了。幸好有海洋，让他们能从这片陆地搜寻到另一片陆地。

12月6日，天刚蒙蒙亮，一座新的山峰便从海面上升起来了。

那是位于南纬37度47分和东经77度24分的阿姆斯特丹岛。在天气晴朗时，阿姆斯特丹岛那圆锥形的高峰即使在25公里以外也能看见。可这天早上都快8点了，高峰的轮廓依然模模糊糊，远远看去，就像特纳利夫峰一样。

“这高峰很像特利斯岛的高峰！”爵士说。

“没错！你说得太对了！”巴嘉勒尔说，“如果甲乙两岛同丙丁两岛相似的话，那么甲乙两岛也就相似，这是根据几何原理推断出来的。不过我还是要说一句，阿姆斯特丹岛和特利斯岛一样，不管是过去还是现在，都有很多海豹，也有一些像鲁滨孙一样的人。”

“什么？鲁滨孙一样的人有很多吗？”海伦夫人问。

“当然！夫人，据我所知，很多岛屿都有类似的漂流事件，在您的同胞笛福写《鲁滨孙漂流记》之前，就已经有这种事发生了。”

“巴嘉勒尔先生，我想请教您一个问题可以吗？”玛丽小姐突然说。

“没问题，不要说一个，就是两个都行，我亲爱的小姐，我保证认真回答你！”

“如果你被流放到了荒岛上，你会害怕吗？”玛丽小姐说。

“我怎么会害怕？”巴嘉勒尔叫了起来。

“算了吧，我的朋友，你总不会说你渴望被丢在荒岛上吧！”

“我当然不会这么说。不过，我要是真遇到这种情况，我想，我是不会讨厌的，我会重新安排我的生活，比如靠捕鱼、打猎为生，还比如冬天住在山洞，夏天住在树上等等。总之，我会去开发岛屿，以满足我的生活需求。”巴嘉勒尔说。

“你一个人也会去开发？”

“如果只有我一个人，我是会一个人去开发的。而且在这个世界上，人是不可能孤独的，因为就算是没有人做朋友，也是会有动物和你做朋友的，比如可以驯服一只小山羊，养只会说话的鹦鹉，再养一只听懂人话的猴子。要是岛上猛地来了一个伙伴，比如说鲁滨孙遇到的那个忠实的礼拜五.....有着这样的生活，那不是很美满吗？特别是如果有两个朋友在一座孤岛上，那就更幸福了！比如说少校和我.....”

“算了吧！谢谢你愿意和我一起在孤岛上，不过我可对学鲁滨孙没有兴趣，而且我也学不像。”少校急忙说。

“亲爱的巴嘉勒尔先生，您的想象力真是太丰富了，现实和梦想是有距离的。您想象中的鲁滨孙，好像是上帝帮他选好了一个孤岛，然后把他送上去，最后他又在大自然的帮助下，快活地活着。您呀，什么事

都往好的方面想！”海伦夫人笑着说。

“哦！夫人，难道您觉得人在荒岛上就不快乐了？”

“是的，我觉得人本身就是群居动物，不能离开社会活动。孤寂会使人绝望的。想想看，在刚开始的时候，一个人从海里爬出来，既需要为物质生活焦虑，生活也没有安全感。由于想不到怎么去别处，眼前的处境又让他感受到了威胁。这一切都会让人恐慌的。而且由于一个人孤独地看守荒岛，既没有希望回国，又看不到亲人，想想看他会怎么样？那该是多么痛苦的事啊。在那孤岛上，孤岛是他的世界，就好比全世界只有他一个人，这不就和生活在世界末日里一样吗？这样的孤独生活是很恐怖的。相信我吧！巴嘉勒尔先生，还是不要过这种生活为好。”

地理学家巴嘉勒尔不得不认同海伦夫人的看法，后来他们的谈话依然围绕“孤独生活”进行，这种谈话一直坚持到“邓肯号”停在了阿姆斯特丹岛距岸1公里的海面上才停止。

这群岛屿是由两个岛屿组成的，而这两个岛屿之间又有50公里的距离。两个岛屿分别是北边的阿姆斯特丹，也就是圣彼得岛；南边是圣保罗岛。

不过，在这里必须强调的一点是，地理学家经常把这两个岛的名字弄颠倒。

这两个容易被弄混的岛是荷兰人弗拉明在1796年12月发现的，之后，旦特尔伽思陀带着“希望号”和“探求号”寻找纳布鲁斯的时候，还来过这两个岛。而这两个岛最后一直被混淆则是从旦特尔伽思陀开始的。当时，由于海员芭罗儿和伯旦在地图上将两个岛的名字标错，所以造成了荷思伯、品伯特及其他地理学家一直把圣彼得岛说成了圣保罗岛，把

圣保罗岛又说成了圣彼得岛。

1859年，奥地利军舰“洛法纳号”在进行环球航行时，船员们发现了这个错误，并进行了纠正。而此次，巴嘉勒尔又着重强调了一下。

位于阿姆斯特丹南部的圣保罗岛是个无人岛，很可能在远古时代，它就是座火山，所以也由锥形火山构成。阿姆斯特丹岛在圣保罗岛的北部，周围20公里的地方生活着离开家乡，过着孤独生活的人们。这些人大多是渔场的看守人，而这个区域的渔场，都归波旁岛上的商人奥拓梵先生所有。牧场主奥拓梵是欧洲列强公认的岛主，每年获利在7.5到8万法郎左右。他获利的原因，大都是因为他让人在那里捕花尾带鱼，并将这些花尾带鱼腌起来，然后大批运出去卖掉。

当然，应该了解的一点是，阿姆斯特丹岛原本归属法国。不过最开始的时候，由于波旁岛圣德尼城的主人卡蔓最先占领，所以应该归卡蔓先生。后来根据国际条约，阿姆斯特丹岛划给了波兰人，波兰人便雇用了马达加斯加岛的奴隶在此开垦种植。

当然，那时候说是波兰人的就跟说是法国人的一样，所以这个岛很快就又落到了法国人手里。

1864年12月6日，“邓肯号”停泊在此岛时，岛上仅有三个人，这三个人中有一个法国人，两个黑人。这两个黑人都是岛主雇用的伙计。所以地理学家巴嘉勒尔非常高兴，因为他遇到了自己的同胞威奥尔先生。威奥尔先生的年龄已经很大了，他以长辈的身份，热情地接待了“邓肯号”上的乘客。

对他来说，这一天是最幸福、最热闹的一天。因为在阿姆斯特丹，光临的只是一些捕海豹者以及捕鲸人，这些人因为天天和凶猛的动物打

交道，所以非常粗鲁，没什么涵养。

威奥尔先生向“邓肯号”上的乘客介绍了他雇用的两个人，他们就是岛上的全部人口了。当然，除了他们之外，还有躲在窝里的野猪和上千只企鹅。这些野猪和企鹅居住在西南方一个天然的港湾深处，而那港湾也是因为山崩而形成的。

阿姆斯特丹岛在奥陀一世统治时，便有沉船事故发生。巴嘉勒尔为大家讲述了这个故事，第一个故事他以“阿姆斯特丹上，两位苏格兰人的漂流记”为题。而这个题目自然引起了大家的兴趣。

那是在1827年的时候，当时，英国的“巴弥纳号”船从这座岛前经过，突然发现岛的上空有浓烟，接着船长发现了遇难者发出的求救信号。他立刻派出小舟接回了已经被折磨得没有人形的两个人，这两个人一个是22岁的贝勒，另一个则是48岁的卡洛夫。

这两个人在18个月里，没喝过一口淡水，只以蚌类维持生命，或者将随身带的钢针敲弯，做出来鱼钩来钓鱼，有时他们还会去捉一些野猪来吃，有时甚至好几天不吃任何东西，不喝一滴水。他们只是不让用火石点燃的火熄灭，每天如同古罗马神庙里的女神一样，守着那堆火。火是不能熄灭的，因为那是他们唯一获救的希望。

就这样，他们在艰苦和疲惫中煎熬。虽然也曾遇到一只捕海豹的帆船，但根据渔业上的习惯，他们两个人需要在岛上捕海豹、剥皮、熬油一个月，然后才会再派船来接他们。但他们在岛上待了5个月，仍然没有船来接，好不容易有只到凡第门去的船靠了岸，但那船长却毫无同情心，拒绝带走两个苏格兰人，甚至连一点食物、一滴淡水都没有留给他们。

幸好，他们最后遇到了“巴弥纳号”，这才将两个可怜人救上船，不然他们必死无疑。

除了这件事，能够记录在阿姆斯特丹历史上的就是佩农船长的遭遇了。

佩农船长的历险经历和那两名苏格兰人的差不多。刚开始的时候，他是自愿来这岛上住的，而且也准备住些时日，没想到预先约定好接他的船只没有来，甚至过了40个月还是无人来接他。最后，一只被风吹到这里的外籍船发现了他，救了他。

当然，在佩农被遗忘在此的期间，还发生了一些流血事件，而那些流血事件，也有些像笛福小说里主人公鲁滨孙回岛时的经历。

佩农当时带着两个英国人和两个法国人，这四个人都是水手，他们原本打算用15个月的时间来这里打海狮，没想到15个月过去了，却没有船来接他们，最后他们连粮食也没有了。

而就在这种情况下，四名水手出现了内讧，也就是“国际关系”出现了问题，两名英国人偷袭两名法国人，甚至偷袭佩农，而如果不是那两名法国人帮助佩农，佩农一定会遭到两名英国人的黑手的。此后，五个人日夜监视对方，武器不离身，过着度日如年的生活，在焦急和困苦中生活着。

困境让五个不幸的人成了势不两立的两派，最终要不是一条英国船救了他们，说不定就会出现自相残杀的情况。

以上的两起流落事件，让阿姆斯特丹岛两度成为被遗弃者的家，而幸好这两起被遗弃事件，最终又得到老天的帮助。而自那两次事件发生

后，便不再有船在这里失事了。即使有，那些流落的人也会找到威奥尔先生的渔场来。当然，这位年老的善人，对遇难者总是慷慨地给予帮助。

在爵士他们问起“大不列颠号”和格兰特船长时，这位大善人却丝毫不知。所以很显然，阿姆斯特丹和圣保罗岛都不可能是格兰特船长的出事地点。当然，大家对威奥尔先生的回答并不感到惊讶，因为“邓肯号”停泊的地方，并没有格兰特船长的印迹。不过，他们问威奥尔的目的，只是想证实一下，格兰特船长并没有在这里，仅此而已。

有了这个结论，麦盖尔船长决定第二天就起航。

在还没有起航的这段时间，大家又在岛上游览了一番，一直到晚上。

岛上的风景很美，不过岛上的动植物，就是再擅长写长篇大论的生物学家也写不出一页纸来，因为这个岛上那些所谓的兽类、禽类、鱼类、鲸类，仅仅只是几只野猪，一些信天翁、鲑鱼和海豹罢了。

岛上有一处温泉，温泉及含铁的矿泉都是从一处淡黑色的岩缝里渗出来的，并在水面上升起了水烟，有些时候，水温很高。麦盖尔船长曾用温度计试了一下，达到了摄氏80度。如果从距离温泉几步远的海里捕来鱼，然后放入摄氏80度的水里去的话，说不定这些鱼瞬间就会变成美餐的。

所以说，这样的水温，就是巴嘉勒尔也不敢跳进去洗澡。

大家在兴高采烈地游玩了一番后，傍晚时分，他们向威奥尔先生道别，并向他表达了祝福之意，希望他在岛上一切顺利。老人回谢了他

们，并祝他们一帆风顺，搜寻成功。

最后，大家一起上了小舟，回到了“邓肯号”上。

第二十三章 和巨浪搏斗

12月7日早晨3点，随着锅炉的轰隆响，水手们摇起辘轳，将船锚吊起，“邓肯号”离开了小港的沙底。当把锚架上的螺旋转动的时候，船便下海了。

早晨8点，“邓肯号”上的乘客登上甲板，发现阿姆斯特丹已经渐渐消失在天边的云雾中。

这将是“邓肯号”沿着37度线行走的最后一次停泊。这里离大洋洲海岸还有1620公里。如果一路上都是西风，而且海上也没有出现什么意外的话，“邓肯号”很快会到达目的地的。

站在甲板上的玛丽小姐和罗伯尔，看到海面上波涛汹涌，很是感慨。这些波涛，父亲的船是否也曾经过，会不会就是在这里，船被波浪冲坏了，沉了，船员也失踪了呢？是否最后只剩下父亲和两名水手在印度洋上和汹涌的海浪搏斗？是否他们最后又被一股力量推向了遥远的海岸？

船长麦盖尔在海图上给玛丽小姐和罗伯尔画每股海浪的流向，在画到印度洋横亘海流时，发现其势力很大，并自西向东往大洋洲流去。也许正因为如此，那只“大不列颠号”的桅杆才会被打断，然后舵也失去了平衡。也就是说，在风大浪大的时候，船上的所有武装都被解除了，他们最终只能随海浪流动的方向往海岸奔去，最终船只沉没。

不过，他们还是有问题没有解决。那就是1862年5月30日，《商

船日报》曾记载了格兰特船长的消息，而那消息是从卡亚俄发出的。如果是在印度洋上失事，为什么“大不列颠号”离开秘鲁海岸只有8天，便在6月7日进入了印度洋？

当然，这个问题巴嘉勒尔也做了合理的解释，让即使是有不同意见的人也哑口无言。

巴嘉勒尔对此做出解释已经是12月12日晚上的事了。

那时候，“邓肯号”离开阿姆斯特丹岛6天。爵士夫妇、格兰特姐弟、少校、船长麦盖尔全都在楼舱里聊天。和平常一样，他们聊得最多的就是“大不列颠号”的失事地点以及船长格兰特和两名水手。

在大家聊得起劲时，爵士提出了上述问题，这么一说后，大家瞬间就像被当头泼了一盆冷水。

巴嘉勒尔没想到爵士会猛然提出这个问题，马上将头抬了起来，随即即便一声不响地去找那三张纸条了。等他回来的时候，只是耸了耸肩，一脸的“这么简单的问题”，很无所谓的样子。

“亲爱的学者，看你耸肩我就知道，你一定认为这个问题不是问题，那么既然这样，你也要给我们做个解释呀！”爵士说。

“不用急，我先来请教船长一个问题。”巴嘉勒尔说。

“说吧，巴嘉勒尔先生，什么问题？”船长麦盖尔问。

“我只想知道，如果有快艇的话，它用一个月的时间从美洲到大洋洲的太平洋可能吗？”

“当然！不过每天必须用110公里的速度行驶。”

“110公里是最快的速度吗？”

“不！有些快的帆船也有这种速度的。”

“很好！那么问题就解决了。纸条上的日期中‘6月7日’几个数字间的间隙很大，那么是不是6月7日就有待商榷了。如果纸条上的日期，是因为‘7’字前面的一个字被侵蚀掉了，原本是‘6月17日’或者是‘6月27日’，这个问题是否就解决了呢？”巴嘉勒尔说。

“没错！是这样的！从5月31日到6月27日……”

海伦夫人没有说完，巴嘉勒尔便说开了：“这样‘大不列颠号’就有足够的时间来穿越太平洋到达印度洋上了！”

这个答案大家都接受。

“我又弄明白了一些事，这多亏我们亲爱的地理学家帮助。如今，我们只有到大洋洲的西海岸上搜寻格兰特船长的踪迹了。”爵士说。

“难道只能是西海岸吗？”麦盖尔问。

“对呀，船长问的有道理。纸条上根本就没有说失事地点是在西海岸还是东海岸，所以我们搜寻的目标不能只放在西海岸一边，还是应该放在东海岸，就是说37纬度的东西两端都要搜寻。”爵士说。

“这样一说，问题不是又来了吗？”玛丽小姐也说。

“哦，那倒没有，小姐。大家请注意，如果‘大不列颠号’在大洋洲东岸停泊的话，它应该会马上得到救援和帮助的，因为这一带住的几乎全

是英国的侨民。这就是说，格兰特船长走不了16公里，就会遇到同胞，所以这个方向不可能。”船长的回答打消了玛丽小姐的疑虑。

“是这样的，麦盖尔船长。我完全同意你的看法，如果是在东海岸的杜布湾出事，格兰特船长绝对会在英国移民区获救，而且还会很快找到交通工具回家。”巴嘉勒尔也说。

“这就是说，如果失事是在大洋洲的西岸，遇难的船员就不那么容易获救了？”海伦夫人说。

“没错，是这样的，夫人！那一带非常荒芜，没有一条路通往阿德雷德或墨尔本。所以船在那里沉没的话，是不会得到救援的，就和在非洲无情的海滩上失事一样。”巴嘉勒尔说。

“那如果我父亲就是在那里失事的，他这两年又要怎么生活？”玛丽小姐说。

“我亲爱的小姐，你是不是觉得你父亲的船就算是失事，在大洋洲登陆也不成问题？”巴嘉勒尔又问。

“是的，我希望是这样，巴嘉勒尔先生。”

“格兰特船长游上岸，登陆后又是怎么做的呢？据我猜测有三种情况，一种是和伙伴们去了英国移民区；另一种就是落在了当地土人手里；最后一种就是在大洋洲的沙漠中迷了路……”巴嘉勒尔说到这里，突然停住了，他看了看大家，想看看他的这三种猜测，赞同的多还是反对的多。

“请继续讲下去，巴嘉勒尔先生！”爵士鼓励道。

“那么我首先要否定第一种情况，因为格兰特船长是不可能跑去英国移民区的，否则，他早就回家乡和家人团聚了，也就没有我们这次的搜寻了。”巴嘉勒尔说。

“我可怜的父亲！他离开我们已经两年了！”玛丽小姐喃喃道。

“姐姐，让巴嘉勒尔先生说下去，他后面会告诉我们……”

小罗伯尔还没说完，巴嘉勒尔又说：“唉！我可怜的孩子，我真的没办法告诉你们确切的情况，但我推测，你父亲很可能落到了大洋洲土人的手里，或者……”

“或者什么？土人会不会……”海伦夫人也着急起来。

“夫人，请您放心！土人虽然愚笨，但天性善良。他们不像邻近新西兰的那些土人，杀人成性。如果遇难的船员被他们俘虏，绝对不会受到生命威胁。在这一点上，我完全能够保证。所有的旅行家们都说过，说大洋洲的土人是最怕流血死人的，很多次，他们还和旅行家们联合起来，打退那些流放囚徒的袭击。他们是非常忠实可靠的，但那些囚徒就太凶残了。”巴嘉勒尔安慰他们。

海伦小姐转而对玛丽小姐说：“听到了吗？你的父亲即使落在了土人手里，我们也能找到他。而那纸条上的消息也告诉我们，他是落到土人手里了。”

“如果他在荒凉的沙漠里迷路了呢？”玛丽又说，她用殷切的眼神看着巴嘉勒尔。

“即使迷了路，我们也是能找到他的。对不对，朋友们？”巴嘉勒尔的眼神中充满了信心。

“对！我不相信人类会真的迷路！”爵士说，他想把玛丽小姐从悲观的情绪中拉出来。

“是的，我也不相信！”巴嘉勒尔也说。

“大洋洲很大吗？”小罗伯尔问。

“我的孩子，大洋洲有775万平方公里。也就是说，它有欧洲的五分之四那么大。”巴嘉勒尔说。

“有那么大？”少校不相信。

“当然有那么大！少校先生，即使有误差，误差也只是一码左右。那纸条上写着‘大陆’两个字，你总得相信它称得上‘大陆’两字吧！”

“如果真有这么大，那当然有资格被称为‘大陆’了。”少校说。

“那我再补充一句，在沙漠迷路的旅行家不多，我知道的也就只有勒沙德一个人，直到现在还下落不明呢。在我上‘邓肯号’之前，在地理学会上，听说已经找到他的行踪了。”巴嘉勒尔又说。

“澳大利亚大陆有没有搜寻过？”海伦夫人问。

“没有！早着呢，夫人！人们对澳大利亚大陆的了解还没有对非洲了解得多，不过，这并不是人类的错，而是老天不成全探险家们。从1606年到1862年，在大陆或沿海从事探险工作的不少于50人。”

“50人？有这么多？”少校有些不相信。

“怎么？少校先生觉得不可能？我可是把冒险的船员和大陆探险者

一起算在内的。”

“即使那样，50人也太多了点。”少校继续反驳。

“你觉得多？我还觉得少呢！”巴嘉勒尔有些兴奋。他和别人的不同点就是，遇到和他唱反调的，他反而会更高兴。

“那你说有多少？”

“你真不相信？那我马上把这50个人说出来。”

“哦！亲爱的地理学家，你一定要冷静，说话可不能不负责任哦！”

“你敢和我打赌吗，少校？拿你的马枪和我的望远镜作赌注。”

“为什么不敢？巴嘉勒尔，就看你愿不愿意了。”

“那好！咱们一言为定！如果你输了，你可就没马枪打羚羊，打狐狸了——除非我借给你。当然，如果你要借，我还是会借给你的。”

“巴嘉勒尔，到底谁赢谁输还不知道呢，你可别以为你一定会胜了我！”

“那我们就开始吧，先生们、女士们，请你们做裁判。至于计数员嘛，就让小罗伯尔做。”巴嘉勒尔大声说。

他的话引得爵士夫妇、玛丽、小罗伯尔、少校和麦盖尔船长都笑了起来。大家急着要看这场赌博谁赢谁输。而此次争论的焦点就是大洋洲，也是“邓肯号”要到达的地方。在这种情况下谈它的历史，没有比这更适合的了。因此，大家带着好奇，考察着巴嘉勒尔的记忆力。

“记忆女神啊！请赐予你最忠实的崇拜者神灵般的记忆力吧！在250年前，朋友们，有谁不知道大洋洲呢？而从17世纪，也就是1606年开始，无数的航海家和探险家去了这个地方，比如西班牙航海家奎洛斯，他给此地取名为‘圣地澳大利亚’。记住我说的这个航海家的名字了吗？罗伯尔，我现在要说第二个了。”

“我记下来了。”小罗伯尔说。

“好！接着，也就是在同一年，奎洛斯船队的副指挥特烈斯，他在新陆地南面去勘察。当然，有着重大发现的应该是荷兰人海拓兹，他曾在西南南纬25度的地方登陆，并将那里命名为‘恩德拉’。之后还有很多航海家去过那里，比如齐圣、俄戴多尔、勒兹、卡本塔……”

巴嘉勒尔噤里啪啦说了一大堆人名。

停了一下，喝了口水后，他又接着说：“接下来我说英国人。1680年，一个有名的浪人曾在此地打野牛，还有横渡南太平洋的丹比尔，他用几年时间，到过很多地方，最后乘坐‘希勒号’跑到了澳大利亚西北部，和土人住在了一起，并对那里的风俗习惯和生活状态做了描写；1699年，他回到了海拓兹，从海盗摇身一变，变成了皇家海军船船长。在那之后的70年，便没有一个航海家来到这里了。

“1700年，库柯船长在此片区域出现，自此，澳大利亚便迎来了很多欧洲移民。了不起的航海家库柯船长在进行了三次轰动一时的航行后，有了很多奇遇。比如他在奥塔希迪观察了金星自太阳面前经过的天文现象，那时候还差点葬身海底。还有一次，他乘坐的船只差一点就要触礁、沉没，幸好有珊瑚卡入裂口处，堵住了进水口。当然，库柯船长最大的功劳是发现了世界上最大的珊瑚海，并且多次来这里。不过不幸

的是，在他最后一次航行时，船失事于萨维茨群岛。”

巴嘉勒尔说到这里后，又接连说了一长串航海家，比如菲利浦船长、巴思上校、弗德林中尉……说到这些人物的时候，他如数家珍，充分显示了其超强的记忆力。

口干舌燥的巴嘉勒尔说得嗓子都要冒烟了，忙问罗伯尔记了多少个人名了。

“56个！”罗伯尔说。

“听到了没有？少校！如果你还想听，我还可以说，像居白勒、伯格威尔、洛兹夷德、威廉姆……”

“好了好了！够了！”少校听得头昏脑涨，他被这一连串人名吓住了。

“这就够了？还有呢，像斐路、括伊、贝儿那、特利伽，宁柯翰……”巴嘉勒尔越说越快。

“快停下吧！不要说了！饶了我吧！”少校嚷嚷。

爵士也替少校求情：“巴嘉勒尔，就数到这里吧，这次该麦克那布斯倒霉，谁让他不相信的？这下好了，他知道输了！”

“马枪呢，少校？”巴嘉勒尔得意地说。

“归你了！虽然我舍不得，但我愿赌服输。你的记忆力真是太好了！不要说一支马枪，就是一个机械库，想必你也能赢去。”少校说。

“看来，对于澳大利亚的历史，已经没有人比你更清楚了，甚至一

个小小的地名、人名，还有细小的事情……”海伦夫人还没说完，便又被少校打断了。

少校一边摇着头，一边不相信地说：“细小的事情他也能记得？”

“怎么样，少校？不服吗？”巴嘉勒尔大叫。

“我是说大洋洲的一切细小事情，你未必全都知道。”少校解释说。

“哼！真是岂有此理！你怀疑我的记忆力！”巴嘉勒尔拍拍胸脯说。

“那我要是说一件事，你要是不知道的话，我会赢回我的马枪吗？”少校问。

“可以，你说吧！”

“你可要说话算话啊！”

“当然会说话算话！”

“好的，那我问你，你知不知道澳大利亚为什么会不属于法国？”

“这个嘛！我觉得……”

“要是你不知道的话，说出英国人对这种事的看法也行。”

“我不知道，少校！”巴嘉勒尔沮丧地说。

“哈哈！其实很简单，是因为你那勇敢的同胞伯尔船长，他在1802年的时候听到大洋洲的青蛙在呱呱呱地叫的时候，非常害怕，马上拔锚离去……”

“什么？在英国是这么说的？简直就是开玩笑！”巴嘉勒尔大声喊道。

“没错，是像开玩笑！我承认，不过在英国，这种说法就是事实。”少校说。

“无聊！简直太无聊了！现在还有人这么说吗？”有着爱国之情的巴嘉勒尔再也忍不住了，大声吼道。

“我不得不告诉你，是这么说的，我亲爱的地理学家。你怎么会对这段历史一无所知呢？”爵士说完，全场哄堂大笑。

“我不知道！我一点都不知道！这是污蔑！我要抗议！英国人说法国人是‘爱吃青蛙的人’，既然法国人爱吃青蛙，怎么会怕青蛙呢？这绝对是污蔑！”

“话虽然是这么说，但事实依然是事实嘛！”少校忍俊不禁地说。

就这样，那支马枪从少校手里到了巴嘉勒尔手里，最后又从巴嘉勒尔手里回到了少校的手里。

打赌后的第三天，船长在中午测算了一下，发现“邓肯号”已经到东经130度37分的位置了。大家看着海图，发现离白洛夷加很近，而在白洛夷加和旦特尔伽思陀岬之间，大洋洲海岸类似弓的背部，而37度纬线部分又像弓弦。此时如果“邓肯号”向赤道方向行驶的话，那么很快就会到查坦莫角了。

不过这时，“邓肯号”却在被澳大利亚大陆挡住了风浪的印度洋上，向东航行。

大家估算，很可能白洛夷加会在四天后出现在地平线上。而直到此时，“邓肯号”都是借助西风在前行。不过这几天里，风力有所减弱。12月13日，竟然一点风都没有了，这导致船帆紧紧地贴在了桅杆上。

此时，如果“邓肯号”没有装汽轮机，很可能就要滞留在海面上了。

无风的状态很可能会保持很久。晚上的时候，爵士和船长麦盖尔讨论起了这个问题。年轻的船长见船上的煤也快要吃完了，面对减弱的风力，不禁有了隐隐的不安。他将船上所有的帆都张了起来，就连小帆、辅帆也没落下，不过，正如水手们所形容的，风连一顶帽子都装不满。

“不管怎么样，我们都不能埋怨老天，无风总好过逆风！”爵士说。

“没错，阁下！不过这意味着明天要变天，所以我有些着急。我们现在是在季风区域航行，季风通常是从每年的10月持续到第二年的4月，这段时间是东北风，所以只要它稍稍刮起来，我们的航行都可能延期。”麦盖尔说。

“那现在该怎么办？要真是这样的话，也只能耽误几天了。”

“是呀！如果逆风，而且没有风暴的话。”

“什么意思？你是说真要变天？”爵士说完，看了看天空。此时还没有什么变化，晴空万里。

“没错！我怕会变天。这些话我也只能和阁下说，我不想让海伦夫人和玛丽小姐担心、惊慌。”船长又说。

“你想得非常周到！不过真会有可怕的事情发生吗？”

“我怕真的会有暴风雨。您是不能只看天上的表面现象的，因为表面现象是会误导人的。这两天以来，风雨表低得让人担心，只有0.73米。这是在给我们发警报，我们不能不注意。我在南印度洋已经尝到过风暴的滋味了。南极冰山区蒸汽的凝结曾产生过强烈的吸引力，所以也就产生了极地风和赤道风，两种风发生冲突就会形成旋风和飓风，甚至其他各种风暴。到了那时候，船一定会吃亏的。”船长说。

“麦盖尔，‘邓肯号’很坚固，船员也很有经验，即使风暴来了，我们也会有办法应对的。”爵士说。

麦盖尔没再说什么，但作为船员的本能，他还是有些忧虑。麦盖尔是英国所谓的“天气通”，他对天气有着天然的敏感，所以看着指数不断下降的风雨表，开始在船上做一系列的防御措施。

麦盖尔预感到会有一场猛烈的风暴降临。虽然目前天空并没有什么变化，也没有不好的兆头，但那风雨表是不会骗人的。因为在通常情况下，当天空的气流从高纬度向低纬度流时，两地的距离会缩短，水平流动的速度越大，风速也就越大。

整个晚上，船长麦盖尔都待在甲板上，差不多晚上11点钟的时候，南边天空出现了云斑，麦盖尔船长叫来全部水手，并让他们落下小帆，保留主帆、纵帆、前帆和触帆。

半夜的时候，海上的风更大了，以每秒20米的风速前进。桅杆、帆索，甚至船舱都发出了各种不同的声音，这些奇怪的，甚至有些恐怖的声音让原本不知风暴来了的乘客也都警醒了。巴嘉勒尔、爵士、少校和罗伯尔全都涌上了甲板。他们在上床睡觉前，天空还是晴空万里，满天星斗，如今却已经乌云翻滚，狂风大作了。在这些人中，有好奇的，也

有想出力帮忙的。

“这是起飓风了吗？”爵士问麦盖尔。

“是呀，这不说来就来了吗？”

麦盖尔说着，命令其他水手卷起了前帆的收缩部分。在飓风中，水手们艰难地爬上了软梯，费力地撑起收缩部分，并用帆索捆扎在拉低的帆架上。麦盖尔尽量将一些帆面保留下来，以便缓和船的左右摇摆，平衡船只。在做好这些防备工作后，他又命令艾撒汀和水手长做好应付飓风的准备。他们将系小舟的绳子和绑桅杆的缆绳进行了加固，并将大炮两边的滑车也系紧了，甚至连横桅索和后支索也都拉紧，将每个孔都堵得严严的。

麦盖尔船长一直守在大炮旁，像个将军一样，寸步不离。他不断地从楼舱顶凝视风云突变的天空，仿佛要把它们接下来的行踪弄明白。

此时，风雨表已经下降到36厘米了，这种情况在以前的航行中是很少出现的。同时，风暴镜的颜色也提示着他们，风暴马上就要来临了。

凌晨1点钟的时候，海伦夫人和玛丽小姐在房内都感受到了颠簸，她们冒险跑到甲板上。此时，风速已经达到每秒28米，狂风将缆绳当成了乐器的弦，不停地颤动着，弹奏出属于自己的音乐；辘轳间相互撞击；绳索在粗糙的索槽里磨出了尖锐的声响；帆布被吹得前后激荡，发出呼啦啦的声响；大浪高得惊人，将游船打得东摇西晃……船只如同长着翅膀，在大浪的翻滚中卷着水花前行。

麦盖尔看到了海伦夫人和玛丽小姐，急忙走了过来，劝她们回舱。此时，狂风将大浪打在了船上，甲板随时都有被打坏的可能。由于风急

浪高，海伦夫人和玛丽小姐根本听不清船长的话，在浪涛稍稍平息一点的时候，海伦夫人问：

“什么？你是说这里有危险？”

“那倒没有！不过还是请你们回舱里去吧！”麦盖尔严肃地说。

海伦夫人和玛丽小姐无法不听从这带着命令式的恳求，她们回到了船舱。不过很快，又有大浪卷来，将她们船舱的玻璃震得发颤。风更猛烈了，桅杆受不了弯了下去，“邓肯号”像是要从浪头上跳过去。

“把主帆卷起来！把前帆和触帆降下来。”麦盖尔大声命令着。

水手们加紧卷帆索，在将吊帆索松开后，又将触帆用纤绳拉了下来，在拉动纤绳的时候，发出的声音甚至比风声还要高。做好这些后，大烟囱里喷着浓烟的“邓肯号”，蒸汽机的叶子板一下又一下地拍打着浪涛，随即，叶子板翘了起来，翘出了水面。

爵士、少校、巴嘉勒尔和罗伯尔站在甲板上，紧紧地抓住横栏杆，看着狂风大浪中的“邓肯号”，在惊讶中赞美着。虽然他们各自的话对方听不到，但却都能感受到，对方和自己一样震惊。

大海上空有海鸟在飞翔，这些风暴中的鸟，发出了比平时更大的叫声，甚至风浪越大，它们叫得越欢。

突然，他们听到了一阵声响，声音震耳欲聋，比风暴声还大。蒸汽从蒸汽机里喷射出来，如同报警的汽笛一样，发出了尖利的声响。“邓肯号”猛地向一边倾斜，维尔逊急忙去扶舵盘，不料却被舵杆打倒了，横对着狂风大浪的“邓肯号”失去了控制力。

“发生什么事了？”麦盖尔奔到指挥台前，大叫一声。

“我们的船倒下睡着了。”艾撒汀此时还不忘幽默一下。

“舵被打掉了？”

“是的！先救机器！快救机器！”机械师大叫。

麦盖尔连滚带爬地朝机器房奔去，机器间雾气沉沉，汽缸里的活塞已经不动了，连杆器也推不动横轴。机械师见连杆器失去了作用，担心汽缸爆炸，索性将蒸汽门关了起来，让蒸汽从排气管出去。

“到底怎么样了？”麦盖尔问。

“蒸汽机不转了，应该是弯了或嵌住了。”机械师说。

“嵌住就不能取出来吗？”麦盖尔又问。

“不可能取得出来。”机械师说。

蒸汽机不动了，蒸汽从活门里跑了出来，而这些损坏的地方此时又不适合抢修。因此，船长麦盖尔只能利用船帆，在原本也是敌对方的“风”里找契机。

麦盖尔先跑到甲板上，向爵士汇报了整个情况后，又让爵士带着其他几个人回船舱，但爵士却不肯。

“阁下，你们快回船舱吧！这里有我和另一名船员就行了。船很可能会被埋入波浪，波浪无情，很可能会将你们一起卷进去。”麦盖尔的态度严肃又坚决。

“可我们也想帮点忙！”爵士说。

“不行！你们非进去不可！爵士，在这种时候，船上的事应该由我做主！快回舱吧！我求你们了！”

麦盖尔的语气严肃，这也让他们知道了情况的严重性。爵士明白此时自己最应该做的就是服从，于是，他带着其他人离开了甲板，去了两位女士那里。

两位女士正焦急地等待着消息。她们不知道这场船和风浪的斗争谁赢谁输。

“麦盖尔真是太勇敢，太坚强了！他是个真正的男子汉！”爵士一进方厅就说。

“没错，他让我想起了莎士比亚的《暴风雨》中的那位司锚官，他曾对乘坐军舰的国王嚷：‘快走开！回舱里去！如果你们无法让风浪平息，那就什么也别说，也别做！告诉你们！’”巴嘉勒尔附和道。

此时，那位勇敢的男子汉没有耽误一分一秒，他要想办法让“邓肯号”从险境中解脱出来。

他决定用微帆航行的方法避免“邓肯号”被风吹得偏离航线。因此，“邓肯号”上很快就升起了一面帆，那帆是斜着拉上去的，为的就是让它侧面受风。水手们再次将前帆张开，并缩小了帆脚，在桅杆上张起了三角帆，还让舵柄对着下风舷。

“邓肯号”原本就有很好的性能，在给它注入了急风后，更是如同一匹被鞭打的快马，在风口浪尖奋勇搏斗。船帆很少，能经受得住狂风的吹吗？虽然这些帆都是用上等的帆布做成的，但在这样猛烈的风势下，

多好的帆都有可能被吹破。

当然，麦盖尔是用小的帆面来借风力的，同时还用斜进的方式，这不仅可以让船维持原有的航向，而且还可以让船身最结实的地方对准浪头。不过，这样的行驶也有很大的危险性，因为船只很可能落到两个浪头间的广阔深槽里爬不出来。

不过，这也是麦盖尔的无奈选择，要想让桅杆和船帆不被风打下来，他只能用微帆斜进的方式。船员们全都站在他的面前，随时准备接受他的调遣。麦盖尔将自己绑在了护桅索上，观察着被狂风疾浪肆虐的海洋。

夜晚就在这种紧急状态下过去了，大家都希望天亮时风暴有所减弱，很可惜，他们的希望落空了。

早上8点钟的时候，狂风比刚才更厉害，而且已经成了飓风。

麦盖尔默不作声地开始为船上的人员安全考虑，此时“邓肯号”已经倾斜得很厉害了，甲板的支柱发出了咯吱咯吱的声响，海浪甚至打在了主桅上伸出的辅杆上。很长一段时间，全体船员都以为船会那么翻过去，起不来了。在帆已经被吹出帆框，如同一只大海鸥要掉下去时，有水手拿着斧头砍去了大桅杆上的护桅索。

“邓肯号”竟然又翻了回来，漂在了海面上。不过，虽然漂起来，但却没有风向，左右摇晃，桅杆也快要被折断了。这种行驶的方法肯定不行，整个船体已经完全受不了了，如果边板散了，接缝处再一裂开，波浪很快就会冲进来的。

船长麦盖尔目前还有一个解决问题的方法，那就是扯起三角帆。而

要扯起这个小帆，他用了好几个小时，直到下午3点钟的时候，三角帆才在主桅的辅杆上随风飘扬。

就这样，一块三角帆，拖起了“邓肯号”前行，并以无法测算的速度向东北方向行驶。当然，“邓肯号”必须保持最大速度，因为只有这个速度才能让船体保持安全。很多时候，“邓肯号”的船尖像锋利的刀尖，披风斩浪，开出一条道来；有时候，又像一条鲸鱼一样，飞快地钻进浪头，同时，波浪也从船头扫向船尾；有时候，船的速度又和浪的速度一样，使舵失去了作用，左右摇晃，差点将船打翻；有时候，在飓风的推动下，浪以比船速还快的速度，越过“邓肯号”船顶，以不可阻挡之势扫过整个船身……

12月15日，整整一天一夜就这么在时而充满希望，时而满是失望中反复着，好在虽然惊险，却也过去了。船长麦盖尔始终没敢离开自己的岗位，他什么都不吃，一直观察着海面以及“邓肯号”的情况，虽然表面冷静，其实内心很惊慌，而最让他惊慌的还是北方朦胧中的影子。

怎么可能不惊慌？此时此刻，什么样的危险都是有可能发生的。

“邓肯号”被风浪打出了航线，并以无法驾驭的速度向大洋洲海岸奔去。麦盖尔感觉到灾祸很可能就要降临了。他怕船触礁，怕“邓肯号”被撞个粉身碎骨。他开始估算大洋洲海岸离他们的距离，应该不少于10公里。在这样的情况下，靠岸实际上也就意味着沉船。在无边无际的大海上，不管往什么地方行驶，总好过触礁的，因为海浪虽急，但总有办法防护，最多只是受它的摆布罢了，可如果风暴将“邓肯号”吹到岸边，一触礁，那可就完了。

在这关键时刻，麦盖尔找到了爵士，并和他展开了一场对话。他毫

不掩饰地说明了当前的情况，还说他不怕牺牲，他能够很镇定地应对即将到来的危险。最后，他又说如果迫不得已，他只能将“邓肯号”向海岸停靠。

“如果能救船上的人，你想怎么做就怎么做吧！”爵士说。

“海伦夫人和玛丽小姐怎么办？”船长又问。

“到了关键时刻，我会通知她们的。如果真的没有任何希望了，那你就通知我一声。”

“我一定通知！阁下！”

麦盖尔说完，爵士便又回到了两位女士身边。两位女士已经感觉到了危险的来临，不过却不知危险到什么程度。在男同胞面前，她们还是表现出了很大的勇气。而此时，地理学家巴嘉勒尔正在为小罗伯尔讲解大气环流方面的知识，小罗伯尔聚精会神地听着。巴嘉勒尔讲到了旋风、羊角飓风、直线台风之间的不同；而少校正带着宿命般的理论，唉声叹气地等待着末日的来临。

深夜11点左右，风暴减弱了很多，空气中的湿雾也分散开来。在明朗中，船长麦盖尔看到下方3公里处有一片陆地，“邓肯号”正奔着那片陆地驶去。前面的浪很高，麦盖尔知道，高浪一定是遇到了坚实的阻碍才会扬得那么高。

“前面出现了暗礁！”麦盖尔对大副艾撒汀说。

“我也觉得是这样。”艾撒汀回答。

“看来，我们的命运已经掌握在上帝手里了。如果我们的船能从暗

礁的缺口处驶过，我们就能活下来。可如果上帝不让船对准那缺口，我们的生命就要终结到这里了。”麦盖尔说。

“此时正值涨潮，也许我们能过去，船长！”

“能过去吗？艾撒汀，那浪腾得那么高，怎么可能闯得过去？我们只能祈祷上帝，让上帝来帮助我们了，伙计！”

此时，在三角帆的推动下，“邓肯号”以惊人的速度向前行驶。很快，它离暗礁只有两公里远了，水汽遮住了麦盖尔的眼睛，不过麦盖尔还是看到满是泡沫的水面处有个地方很平静，如果“邓肯号”能驶向那里，也就安全了。不过，要怎么才能过去呢？麦盖尔船长将船上所有的人都请到了甲板上，他不愿意在船沉没之际，让他们一无所知地被关在舱里。当爵士和伙伴们看到了前方的巨浪时，发现玛丽小姐已经吓得脸色煞白了。

“麦盖尔，我没有办法救我的妻子，如不成我们就一起死，你负责救玛丽小姐。”爵士轻声说。

“知道了，阁下！”麦盖尔船长轻轻说完，拉着爵士的手，贴在了自己已经饱含眼泪的眼睛上。

“邓肯号”离那暗礁更近了。此时正是涨潮的最高期，如果船底有足够的水，将会载他们驶过那片暗礁。不过，浪太大了，如果浪将船先抛上去，再落下来，很可能使船体触礁，那沉船也就在所难免了。如果能那巨浪降低，让巨浪处的水流平缓点就好了。

终于，在最危急的时刻，麦盖尔想到了一个办法。

“快！倒油！伙伴们，倒油！”他大声喊道。

这句话一下子提醒了船上的水手们。这正是他们走出绝境的方法：往巨浪上盖上一层油，巨浪就会平息下来，而当这层油倒在上面时，就能润滑巨浪，让巨浪翻滚的势头减弱。这办法见效快，但很快就会失效。在他们人为地让海面趋于平静后，很可能让巨浪掀得更高，甚至给船只带来更大的危害。

不过没办法，这是唯一的机会。水手们将装海豹油的大桶滚到了船头，并用超出平时的力气，将木桶挂在左右舷的栏板外。

“准备好！”麦盖尔大声喊着，等待着最佳的倒油时间。

还有20秒，“邓肯号”马上就要到那巨浪翻滚的海面上，并驶进缺口处了。

时机到了！

“动手！”麦盖尔大喊一声。

水手们砍破了油桶，桶里的油一下子倒了下去，顿时将巨浪压了下去。“邓肯号”在被压平的水面上一晃而过，仅仅只是一眨眼的工夫，船便平稳地驶进了那个缺口处。

此时，海面上因为没有了油层的束缚，翻滚得更厉害了，完全称得上是波涛汹涌。

第二十四章 意料之外的线索

过了暗礁，在水深5米的地方，麦盖尔船长首先做的就是将船两边的锚抛下，船稳稳地停了下来。停船的海底是粗沙石，能吃住锚，所以“邓肯号”不再怕滑锚，也不再怕船搁浅。在惊险中急速行驶了几个小时后，总算安全了。

这里三面环山，每座山都像是个尖尖的山峰，挡住了狂风的肆虐。

“船长！谢谢你！”一到安全区，爵士就拉住了麦盖尔的手。

虽然只是寥寥几字，但足以让麦盖尔欣慰。爵士将刚刚面临死亡时的焦急心情完全隐藏了起来，海伦夫人、玛丽小姐，甚至罗伯尔都不知道他们刚刚面临的是生死一瞬间。

如今还剩下一个重要问题需要搞清楚——“邓肯号”被这场风暴打到什么地方来了？是不是还能找到37度纬线？白洛夷加的西南方离“邓肯号”停下的地方有多远？这几个问题都需要船长麦盖尔来回答。

麦盖尔也不含糊，一面用手测算，一面观察，并在海图上做出了标记。结果还不错，“邓肯号”离开37度纬线并不远，仅仅相差了两个纬度，在东经136度12分和南纬35度7分的地方，这个地方叫灾难角，位于澳大利亚南端，距白洛夷加大约有160公里。

所谓灾难角，顾名思义也就是容易发生灾难的地方。这里和坎加鲁岛之间的位置正好与泊达角相对。灾难角和泊达角之间又形成了一条海峡，海峡通向北边的斯宾赛湾和南边的圣文森湾。

圣文森湾的东岸是南澳省的首府阿德莱德港，人口大约四万，建于1836年。这里的资源非常丰富，居民大多以种植葡萄、柑橘和其他农副产品为业，很少有大规模的工业。总的来说，这里的人是不注重商业和手工业的。

在这样的地方，“邓肯号”能否把损坏的部分修好？这也成了他们急需解决的问题。而要想修复损坏的部位，麦盖尔船长还要知道什么地方损坏了。于是，他派人下水检查，很快就有了结论：蒸汽机的轮子歪了，顶住了龙尾骨，导致汽轮无法转动。

由此也可以判断出，“邓肯号”损坏的程度还是很严重的，需要很多工具，而这些工具在阿德莱德港是根本没有的。

最终，爵士和船长麦盖尔商量后决定，“邓肯号”继续张帆前行，沿大洋洲的海岸去寻访格兰特船长的踪迹，到了白洛夷加，说不定就能得到一些线索，然后再南行到墨尔本去修损坏的船只。

在将蒸汽机修好后，“邓肯号”就能继续沿着东海岸搜寻了。

这个建议赢得了大家的赞同，麦盖尔船长决定等风顺了就开船。

没等多长时间，飓风就完全消失了，接着又刮起了西南风。大家即刻做好准备，让帆重新上了桅杆。凌晨4点钟的时候，随着水手们转动辘轳，船渐渐地驶离了港。“邓肯号”重新撑起了主帆、前帆、顶帆、辅帆、纵帆、橦帆。帆索扣在右舷上，借着大洋洲海岸的风力，靠岸急驶而去。

两个小时后，灾难角便被“邓肯号”抛在了后面。晚上的时候，“邓肯号”绕过了泊达角，沿着坎加鲁岛，在距岸几公里的海上航行。

大洋洲众多小岛中最大的一个岛是坎加鲁岛，欧洲流放到澳大利亚的顽固囚徒就在那个岛上。坎加鲁岛的外观非常漂亮，岸上的岩石也被绿茵茵的草木覆盖住了。那里和1802年最先被发现时一样，有着成群的袋鼠在树林和平原上跳跃奔跑。

第二天，“邓肯号”放下了小舟，几个人登陆去搜寻线索，此时船只在36度的纬线上，爵士不想在36度和38度之间的任何一个地方留下探寻的遗憾。

12月18日一整天，“邓肯号”都张着帆，紧贴遭遇湾前行，如同轻快的帆船一般疾速行驶。这是墨累河，也是1828年旅行家斯德特发现的澳大利亚最大的河流能够到达的地方。这个地方没有坎加鲁岛的海岸那般郁郁葱葱，只有贫瘠而光秃秃的山丘，这是支离破碎的单调的海岸形象。

此外，这里也零零星星有着灰色的暗影。总的来说，这是在南北极才会出现的荒凉景象。

这次旅行，他们是驾驶着小舟去的，而驾驶小舟并不是件好差事，不过水手们没有一个抱怨。当然，每次去旅行，总少不了爵士、巴嘉勒尔和小罗伯尔。

他们三个人在搜寻的时候，虽然没有看到“大不列颠号”的哪怕是一点点的遗物，但心里却从没丧失信心，而是一直带着希望。寻访中，他们非常仔细，也非常小心，生怕漏掉任何一个地方。每天夜里他们在船上度过，白天则上岸去寻访。

就这么一路行一路寻访，12月20日，他们到了白洛夷加，但依然没找到一点沉船的迹象。不过，这并不能证明格兰特船长没有到过这些地

方。因为船失事有两年了，即使有残骸，也很可能被海水冲没了，腐蚀了。

而且船一旦失事，土人一般来说会最先知道，他们就像老鹰能远远闻到尸体味道一样，第一时间来到船失事的地方，将东西打劫一空。此外，格兰特船长和他的伙伴们即使被海水冲到岸边，又被土人俘虏，也会将他们带去大陆的。

不过这么一想，地理学家巴嘉勒尔的推测又有了问题，如果是在阿根廷的领土上，格兰特船长一定会在纸条上将拘留地点的经纬度标出来，而不是写失事地点。因为潘帕区河流众多，很容易将求救纸条放进海洋。而在澳大利亚就不一样了，南纬37度线横截的河流并不多，而且科罗拉多河和勒格落河都是流过荒漠和沙滩而进入海洋的，所以经常断流。而其他像墨累河、雅拉河等支流交错，商船云集，要想将一个装有求救纸条，很容易破碎的瓶子扔进船来船往的河流，最终又漂流到印度洋，这可能吗？

当然是不可能的，随便一个人就能通过推断得出这样的结论。所以巴嘉勒尔推测的瓶子是由内河进入海里，在美洲还是说得过去的，但在大洋洲就行不通了。对于这一点，少校也曾提出过，而巴嘉勒尔也承认自己的推测在这里不适用，所以说，纸条里的纬度数，只可能是指沉船位置，也就是说，瓶子是格兰特船长在大洋西岸撞船、沉船时丢下海去的。

不过，就像爵士说的，肯定格兰特船长在船失事时抛下求救瓶子与格兰特船长被俘并不矛盾，在这一点上，麦盖尔也已经预料到了。因为格兰特船长的纸条上写的是“将被俘于野蛮的当地土人”，由此看来，找到几个俘虏，只是沿着37度纬线，而不去涉及其他地方，也是有问题

的。

经过一番讨论后，他们认定：要是在白洛夷加找不到“大不列颠号”的线索，爵士他们也只能回欧洲了，因为虽然没有成功，但却也是尽力而为，没有遗憾了。

这样的决定又不免让船上的人感到很沮丧，特别是格兰特姐弟俩。两个人在跟着爵士夫妇、麦盖尔船长、少校及巴嘉勒尔上岸时，心里都在想，父亲是否能获救也就在此一举了，这唯一的希望深深地牵动着他们的心。

“不要灰心！肯定有希望！一定有希望的！”海伦夫人不断地安慰玛丽小姐。

在离岸不到200米的时候，白洛夷加伸入海内已经有3公里长了，而那伸进去的尖端也是缓和的山坡，小舟划进的那个天然港湾，则是由一群珊瑚礁围成的。

“邓肯号”上的乘客登上了无比荒凉的陆地，那带状的陡坡将海岸围成了一条线，18米的高度就是整个海岸的天然屏障。要想上去，他们必须借助钩绳才行。幸好船长麦盖尔无意中发现向南半英里的地方有个缺口，那缺口明显是因为石灰岩受到了海水侵蚀，山基不牢，从而引发山崩形成的。

爵士一行穿过缺口，像爬软梯一样爬上了岩顶。小罗伯尔像小猫一样，爬上笔直的斜坡，远远地将巴嘉勒尔和少校抛在了后面。见罗伯尔跑在了自己前面，巴嘉勒尔很不服气，而少校则心平气和，如往常一样淡定。

不一会儿，一行人便集合起来，观察着展现在他们面前的平原。平原里长着灌木丛和地衣植物，土壤贫瘠。爵士说这里让他想起了苏格兰低地中的荒谷，而巴嘉勒尔说让他想起了法国的布列塔尼亚半岛。

这一带虽然没人居住，但依稀能看到远处的建筑物。而那些建筑物，肯定不是野蛮土人的住所，而应该是农民居住的地方。

“看！风磨！”罗伯尔突然叫。

果然，在他们两公里以外的地方，风磨像一对翅膀在风中旋转。

“真是个风磨！别看那风磨小，它可是非常适用的，一看就很顺眼。”巴嘉勒尔拿起他的望远镜看了看说。

“那里很像个教堂的钟楼！”海伦夫人说。

“没错！夫人，教堂是给灵魂食粮的，而风磨则是给物质食粮的，所以从这方面来说，两者没多大差别。”巴嘉勒尔说。

“我们去那里看看吧！”爵士说。

一行人向风磨方向走去，走了半个小时后，他们面前呈现出了和刚才完全不同的景象。这里完全没有刚刚看到的荒凉，反而非常富饶。

没有杂草，全是经过了开垦，有着活树做篱笆的农庄。农庄里，一群群的牛羊在草原上吃草，草原四周栽种着高大的豆球花树，不仅如此，四周还有金黄的麦穗和庞大的草堆，这些麦穗和草堆围绕着一个果园，果园布置得非常有诗意，也非常实际。想必这样的地方，就连田园诗人霍拉斯也会赞叹的。

此外，他们还看到了草棚、脚屋，当然最后还看到了一座看似简单，却非常舒适的住宅。这处住宅在磨坊下，非常抢眼，风磨转动着翅膀，像是在轻轻地抚摸着住宅。

一行人刚刚走到住宅门口，便有四只大狗狂吠开了，它们像是在向主人报告：有客人来了！

在狗叫声中，一位50多岁，面容慈祥的老者从屋里走了出来，后面跟着他的妻子和5个健壮的儿子。从老人的长相上很容易就能看出，他是爱尔兰移民，由于在本国受到了苦难，所以才远渡重洋，来此地谋生的。

没等爵士他们说明身份和来意，便听到了欢迎的话语。

“远到而来的客人，欢迎来奥陌尔家做客！”

“先生是爱尔兰人吧？”爵士马上伸出手，握住了老者的手问。

“曾经是爱尔兰人，但现在是澳大利亚人。请进来吧！诸位，不要客气！”奥陌尔说。

面对这样的热情邀请，大家也就不客气地接受了，海伦夫人和玛丽小姐跟着奥陌尔太太一起进了屋，同时，那5个儿子还帮他们卸下了身上的武器。

奥陌尔的这座房子属于木质结构，楼下有间宽敞明亮的大厅，厅里有几条长凳子，还有两个橡木木橱，里面摆放着白色的瓷器和发亮的锡壶，大厅里有一张可供20人坐的长桌子。

以上就是大厅里的所有家具，而每样家具都很结实耐用，像那5个

健壮的年轻人一样。

奥陌尔很快就为来客摆上了午餐。午餐中间是冒着热气的火锅，两旁是烤牛肉、羊腿，四周则是水果。有了主菜，当然也不会缺了小吃。热情的主人让宽大的桌子上摆满了美食。“邓肯号”上的人也就不客气地坐在了桌旁。

在农场，雇工和主人一样平等，所以在一起吃饭。

“我早就在恭候你们了！”奥陌尔对爵士一行说。

“哦？早就等候我们？”爵士吃了一惊。

“没错！凡是来的人，我都热情恭候！”

奥陌尔说完，全家主仆都站了起来，肃穆地做着饭前祷告。海伦夫人面对淳朴的风俗，看了爵士一眼，她知道丈夫喜欢一切古朴的东西。

午餐大家吃得很开心，聊得也很投机。一方是以苏格兰人为代表，另一方则是以爱尔兰人为代表，坐下来后，两方便成了一家人。奥陌尔先向他们讲了自己的历史，也就是被贫困赶得移民国外的历史。

很多人像他们一样，跑到很远的地方去生活，结果依然穷困潦倒。这不仅是他们运气不好，而且也怪他们懒惰，没有用心做事。一个人如果勤劳节俭，勇敢上进，必定会取得成功。这是奥陌尔总结出来的。

当年，在本国因为困苦，所以携带家眷来到了澳大利亚，并在阿德莱德下了船，他不作矿工，宁愿做农场主。两个月后开始经营农场，现在已经做得很成功了。

澳大利亚的土地每份按80英亩计算，由政府估价出售，一个人如果足够勤劳，买下一份田地，完全可以维持生计，甚至还会有结余。

奥陌尔正是凭借他的经验以及勤劳和节俭，先以一份田地，赚得了几份田地。如今他人丁兴旺，农场也很兴旺，虽然经营不到两年，但已经成为当地有名的农场主了。如今的他，拥有500亩土地，500头牛羊。过去曾被别人奴役，如今却成了自己的主人，享受着最大的自由和民主。

大家在听完奥陌尔的历史后，全都衷心祝贺他。

在奥陌尔说完自己的历史后，也希望对方能说说自己的事情，不过他并没有直接提出来，而是含蓄地说：“我是什么人，我已经告诉你们了，可是不便问你们是些什么人。”

对于爵士来说，他当然急于倾诉他们此次的目的了。因此，直爽的他一开口就问起了奥陌尔，问他有没有听说过格兰特船长的事。

奥陌尔的回答没有给他们带来希望，他甚至说从没听过这个名字。而这两年里，也没听说有什么船在这里的海岸或白洛夷加出现。而且他还说，“大不列颠号”出事仅仅两年时间，他绝对有把握遇难船员没有来西海岸。

“爵士，我现在有个问题，失事的船和你有什么关系吗？”奥陌尔说完后又问道。

爵士一五一十地将他们如何得到了那个装有求救纸条的瓶子，以及他们乘坐“邓肯号”寻访格兰特船长的过程，全都毫无保留地说了，甚至还说，奥陌尔的回答让他们的希望变成了绝望。

没错，这些话让在场的所有人都感到了痛苦，特别是罗伯尔和玛丽小姐，他们眼泪汪汪地听着。而巴嘉勒尔也一直在找合适的语言来安慰他们。麦盖尔船长心里很不好受，甚至觉得烦闷，他们满怀希望来寻找格兰特船长，没想到寻找的结果却是让他们绝望。

突然，在场的人都听到了一句话：“感谢上帝！爵士，如果格兰特船长还活着的话，他一定是在澳大利亚大陆！”

第二十五章 “大不列颠号”上的遇难船员

“如果格兰特船长还活着的话，他一定是在澳大利亚大陆！”这句话顿时引起了全体人员的惊愕。爵士一下子从桌子旁跳了起来，大声问：“刚刚谁在说话？”

“爵士，是我说！”桌子另一端一个农场工人说。

“哦，是你呀，阿埃童！”奥陌尔说的时候，惊讶程度也不亚于其他人。

“没错！是我！”阿埃童兴奋地说，“爵士，我和您一样，也是苏格兰人，而且我还是‘大不列颠号’上的一个遇难的船员。”

阿埃童这句话带来的反应，绝对不亚于一个炸雷，玛丽小姐顿时觉得天旋地转，她兴奋得差点晕倒，慢慢地倒在了海伦夫人的怀里。麦盖尔、罗伯尔和少校全都围在了阿埃童的身旁。

阿埃童有一张严肃的面孔，炯炯有神的眼睛深深地陷入到了眼眶中。45岁的他很瘦，但看起来却很有力气，肌肉将他身上的肥肉全都赶走了。中等身材的他有着宽阔的肩膀，整张脸充满了智慧和毅力……总之，他是一个很容易让人产生好感的人。

他像是受过苦难，而那刻画着苦难的容貌立刻获得了别人的信任和同情。看来，他是一个吃过苦，不怕苦，甚至能战胜苦的人。

爵士和他的朋友们很快就意识到了这一点，他们觉得这个阿埃童一

定能为他们带来有用的信息。所以爵士代表大家向他提出了很多问题，而阿埃童也都一一回答了。两个人犹如在一个难以预料的场合相遇相识，并成了知音，所以都是百感交集。

在这种情绪的影响下，爵士提出的问题自然也是没有章法的，想到什么就提什么了。

“你说你是‘大不列颠号’上的遇难船员？”他问。

“没错，爵士，我是船上的水手长。”

“那么船只失事后，你是和他们一起脱险的吗？”

“不，爵士。船失事时非常可怕，我是被甩出船帮，最后又被海水打到岸上来的。”

“那么你是不是纸条上说的那两个水手中的一个？”

“什么纸条？我不知道这件事。”

“那么格兰特船长呢？他怎么样了？”

“我之前以为他已经淹死了，沉到海底去了。甚至我一直以为我是唯一活着的人。”

“但你刚刚说船长还活着。”

“不！我要解释一下，我是说如果船长活着……”

“可你刚刚也说，如果他活着，他就会在澳大利亚大陆！为什么会这么说呢？”

“没错，他要是活着，他就会在这片土地上。”

“可是你到底知不知道他在哪儿？”

“不知道！爵士！我再重申一遍，我一直以为他不在了，不是葬身海底，就是撞岩石死了。是您告诉我，他可能还活着。”

“那么我想问你，你还知道些什么？”爵士问。

“我知道的就是如果他活着，那他就一定是在澳大利亚大陆。”

“那么，船究竟是在什么地方出事的呢？”少校终于也忍不住了，插话道。

这本来是爵士最先要问出的话，但一紧张就给忘了。现在，谈话真正进入正题。而不久后，那段可怕的历史就慢慢清晰起来。

阿埃童回答少校的问题时说：“当船头接触到帆的时候，我被甩了出去，‘大不列颠号’也就向大洋洲海岸方向驶去了。那时候离岸还不到两英里，所以我觉得出事地点就在那里。”

“你是说在南纬37度线上吗？”麦盖尔又问。

“没错，是这样的。”阿埃童说。

“你是说在西海岸？”

“不，我是说东海岸！”阿埃童纠正说。

“时间……”

“1862年6月27日！”

“没错，是这个时间。”爵士大叫道。

“现在您明白了吧，爵士，要是格兰特船长还活着，一定是在大陆，不需要去别的地方找。”阿埃童又说。

“那我们现在就去找，一定要找，一定要把他解救出来！朋友们！”

巴嘉勒尔大叫起来，停了一会儿又说：“天啊，那三张纸条真是太重要了，不过那纸条也幸运，落在了聪明人手里。”

此时此刻，没有人有心情听他恭维，爵士夫妇、格兰特姐弟，全都涌到了阿埃童身边。他们紧紧地握住阿埃童的手，好像有了这个人，格兰特船长也就能安然无恙了。他们觉得，既然阿埃童作为船上的水手长都脱险了，船长难道还会逃不出那场灾难？阿埃童也不断地重复着，说格兰特船长如果和他在一起就好了。

大家向他提出了很多问题，他都详细地做了解释，而当他讲话的时候，玛丽小姐一直握着他的手，这个人可是他父亲曾经的伙伴呀，而且还是“大不列颠号”上的一名船员。这个人曾在格兰特船长身边生活过，他们曾一起漂洋过海，共同冒险……想到这些，玛丽小姐紧盯着阿埃童那张经历过风吹雨淋，阳光暴晒的脸，激动地流下了眼泪。

除了少校和麦盖尔对是否要完全相信阿埃童持怀疑态度外，其他人都不再怀疑阿埃童的身份了。而少校和麦盖尔之所以心里有疑虑，是因为这件事太巧合了。不过，阿埃童说出的很多事情及日期，都和纸条上写得很符合，更主要的是他说出了一些特殊细节。当然，细节虽然重要，不过也不一定是真的，因为骗子的手段太高明了，因此，少校一直

保留自己的态度，没有下定语。

而对于麦盖尔来说，他对阿埃童的怀疑却很快就被打消了，因为他听到阿埃童在对格兰特姐弟说他们父亲的事，这让他觉得，阿埃童果然是格兰特船长的伙伴，因为阿埃童太熟悉格兰特姐弟俩了。他说，在他们出海那天，他还在格拉斯哥港见过他们。那天，船长举行了告别宴会，格兰特姐弟来吃饭，那时候，小罗伯尔还不到10岁，当时格兰特船长让水手迪克照看小罗伯尔，但小罗伯尔却背着他们爬到了桅杆的横木上，吓了大家一跳。

“我真有这么做吗？”小罗伯尔笑着问。

阿埃童又讲了一些小事情，而那些事情虽然很小，但麦盖尔却觉得十分重要。阿埃童说完，停了下来，玛丽小姐柔声请求道：“阿埃童先生！再给我们说说我们父亲的事吧！”

阿埃童极力满足了两姐弟的要求，而爵士也不愿意打断他的话，不过他却有很多重要的问题需要问，而海伦夫人见玛丽急切地想知道父亲的一切，便不让他现在开口问。

此后，阿埃童还讲述了“大不列颠号”的历史以及它在太平洋上的航行。对于那次航行，玛丽小姐也略知一二，因为船只是在1862年5月没有了消息的。而在消失前，这只船曾在大洋洲各主要陆地靠岸，比如新几内亚、新西兰、新喀里多尼亚……这些陆地大多是殖民地，所以他们所到之处，时常会受到英国当局的歧视，最后，他们在巴布亚西岸找到了一个据点，觉得如果在那里建个移民区的话，是可以繁荣发展的。

确实是这样，如果在摩鹿加群岛和菲律宾的航路里增加上一个中途站的话，是一定能吸引很多船只的。因为苏伊士运河开通后，经过好望

角的航线便被取消了。富有正义感的格兰特船长，自然是非常反感那些带着种族歧视的政治斗争的。

“大不列颠号”在勘察完巴布亚之后，便去了卡亚俄置办粮食。1862年5月30日，船离开了卡亚俄港，并决定从印度洋到好望角，然后又从好望角回欧洲。不过启程了三个星期后，一场大暴风雨就把船体打坏了，为了不至于翻船，他们只好砍断了桅杆。但即使这样，船底还是漏水了，怎么都堵不上。

几天几夜没合眼的船员们虽然很累，却仍然没有离开抽水机一刻。在风暴中颠簸了八天八夜后，船舱里进的水达到了六米，而船体也开始下沉。更糟糕的是，船上的小舟被狂风刮跑了，大家只能在船上干等。而就在这时，正像地理学家巴嘉勒尔推测的那样，船到了澳大利亚东沿岸，便撞岸沉没了。

在船被撞的那一刻，阿埃童被卷进了浪头，最后又被甩到一个珊瑚礁上，晕了过去。当他醒来后，已经落入土人手里了，而当他被带到内陆以后，便再也没有听到过关于“大不列颠号”的消息。

阿埃童对“大不列颠号”的叙述讲完了，他的讲述引起了在场人的一次次惊呼。少校对阿埃童的怀疑也消失了，因为如果阿埃童是骗子，怎么可能讲述得这么清晰？

有了那三张求救纸条，又有了阿埃童的亲身经历，一切都指向格兰特船长及他的同伴并没有葬身海底。人们在合理地对格兰特船长和那两名水手的遭遇做了推测后，又请阿埃童讲述一下他在内陆的情况。而阿埃童的这段讲述也很简单。

他说，在他成了土人的俘虏后，便开始在大运河流域劳动，生活非

常艰苦。因为土人部落本身就很贫困，不过他并没有受到虐待。在过了近两年奴隶般的生活后，他心中对自由的向往从来没有放弃过。他想到了逃跑，虽然逃跑很可能会遇到危险，但他不想放过任何一个逃跑的机会。

1864年10月的一个夜晚，趁土人防备不是很严，他偷偷地跑掉了。他跑到了原始森林，在那里吃草根、树叶、树皮等，过了整整一个月。他白天靠太阳辨路，夜晚靠星星辨路，并常常陷入绝望境地。就这样，经过沼泽、河流、高山……他走过了很多连探险家都不敢去的地方。

最后，在他走得筋疲力尽，奄奄一息时，来到了这里，善良的牧场主让他过上了平静而幸福的生活。

“没错，阿埃童很感恩，我对他也很满意。他是个勤劳、勇敢的人，只要他愿意，这里将是他永远的家。”奥陌尔也说。

阿埃童做了一个感谢的手势。他在等待大家继续问他问题。此时，他知道大家有许多问题要问，而他也愿意满足大家的需求。不过，在大家所提的问题中，很多都是重复的，他回答了一遍又一遍，他想知道还有没有新的问题呢？

爵士让大家讨论，制订寻访计划。而此时，少校却把头转向了阿埃童，问他：“你说你曾是格兰特船长的手下，有什么可以证明的吗？”

“当然有！”阿埃童没有丝毫的迟疑。

不过，也许是觉得少校对他不信任，他又补充了一句说：“我可以给你们看我在船上工作时候的服务证书。”

说完，阿埃童走出了大厅。看到阿埃童出去了，奥陌尔又对爵士

说：“爵士，我可以担保，阿埃童绝对诚实可靠。他在我这里做事的两个月里，没有做任何让我不满意的事。我之前也知道他曾是落难的俘虏，他这人非常光明磊落，值得你们信任。”

爵士正准备向牧场主解释自己从没怀疑过阿埃童的身份，阿埃童已经拿着证书走进来了，证书上写着“兹派一级海员汤姆·阿埃童为格拉斯哥港三桅船大不列颠号上的水手长”。证书上面有船主和格兰特船长的签名，玛丽小姐很快就认出了父亲的笔迹。

阿埃童的身份完全没有问题了。

“现在我要征求大家的意见，就是我们接下来要做的事。”爵士说完，把脸转向阿埃童：“阿埃童，你的意见非常重要，如果你能给我们提供一些宝贵的意见，我们将非常感谢！”

阿埃童想了想说：“谢谢阁下对我的信任，我一定不会辜负您的信任的。我对这一带的风土人情非常了解，如果我能为大家出力的话……”

“你当然能给我们出力了。”爵士说。

“我和大家想的一样，船长和两名水手从那场灾难中逃脱，既没有跑到英国属地，又没有任何消息，我怀疑和我一样，是被土人俘虏去了。”阿埃童说。

“你说的正是我推测出的，那三个遇难者很可能是被土人俘去了，那纸条上已经写清楚了。不过我们是否能够推测出，他们所去的地方是和你一样，是在南纬37度线以北呢？”巴嘉勒尔说。

“非常有可能，先生！歧视欧洲人的土人很少会住在英国的殖民

地。”阿埃童说。

“这样找起来就有些困难了。这么一大片土地，我们要怎么去找呢？”爵士为难地说。

大家都沉默着，海伦夫人用探寻的目光扫了一遍全场后，仍然没有得到答案，连那一向快言快语的地理学家巴嘉勒尔也住了嘴，而麦盖尔船长则为难地在大厅踱步。

“有什么好主意，阿埃童先生？如果是你，你会怎么做？”海伦夫人只得问他了。

“如果是我的话，夫人，我想，我会回到‘邓肯号’上，然后直接驶到出事地点，在那里见机行事。这样的话，很可能还会找到一些线索，然后再决定下一步怎么做。”

“这样做是不错，可是要等‘邓肯号’修好才行。”爵士说。

“船坏了？”阿埃童问。

“是的，船坏了。”麦盖尔说。

“坏得很厉害吗？”阿埃童又问。

“厉害倒不厉害，就是蒸汽机的叶片坏了，不过需要一些修船的工具，而这些工具只有墨尔本有。”

“难道不能张帆行驶？”阿埃童又说。

“走倒是能走，不过要是稍微有逆风的话，‘邓肯号’到杜布湾就需要耽误很长时间，不管怎么说，还是要去墨尔本的。”

“那就让它去修好了，我们不坐船去杜布湾。”巴嘉勒尔说。

“难道我们步行去？”麦盖尔问。

“我们沿着37度纬线行走，横贯澳大利亚和横贯亚美利加是一样的。”

“那‘邓肯号’又该怎么办？”阿埃童问，显然他对“邓肯号”更关心。

“等‘邓肯号’修好，直接去接我们就行了。有谁反对这个计划吗？少校，你觉得怎么样？”

“我同意！只要横贯澳大利亚这个做法可行就行。”

“那当然是没问题的，而且我还建议海伦夫人和玛丽小姐也一起去。”巴嘉勒尔说。

“你说的是真心话吗，巴嘉勒尔？”爵士问。

“那当然，亲爱的爵士，这可只有580公里，我们一天走30公里的话，不到一个月就走完了。这个时间和修好‘邓肯号’所需的时间一样。而且如果向北一点的纬线走，从澳大利亚最宽的部分穿过，很可能还要经过酷热的大沙漠，会经历很多大胆的冒险的事。可我们这次不一样，如果大家愿意的话，还可以乘坐马车，或者坐土车。坐土车更有情调，就和从伦敦到爱尔兰一样，没什么不可以的。”巴嘉勒尔说。

“如果遇到猛兽呢？”爵士把可能发生的事又进行了提问。

“澳大利亚怎么会有猛兽？”

“如果遇到那些不开化的土人该怎么办？”

“放心吧！这条纬线上是不可能有什么土人的。即使有，也不会像新西兰的土人那么凶狠。”

“如果遇到被流放的英国罪犯呢？”

“流放的罪犯，澳大利亚的南部省没有，只有东部殖民地才有。37度纬线穿过的维多利亚省不仅不允许流犯入境，而且还制定了法律，就连外省刑满释放的流犯都不允许入境。甚至今年维多利亚省政府还通知了轮船公司，要是接受了流犯，就将会禁止那个港口运煤，而且还会停止发补助给公司。”

“没错，是这样的。不仅维多利亚是这样，就连南澳、昆士兰，甚至塔斯马尼亚各省也制定了这些法律。”奥陌尔说。

“是的，就是我，也没有遇到过。”阿埃童也说。

“这下大家该放心了吧，朋友们。我们既不会遇到土人，也不会遇到猛兽，更不会有流犯，这么好的地方，就是欧洲也没有啊。现在大家该同意我的计划了吧！”巴嘉勒尔说。

“怎么样，夫人？”爵士问海伦夫人。

“我完全同意！亲爱的爱德华！”海伦夫人说完，又对大家说，“朋友们！我们上路吧！”

第二十六章 穿过澳大利亚

做事一向雷厉风行，说做就做的爵士，在巴嘉勒尔的建议得到大家的支持后，马上便开始了旅行前的准备工作，并决定第二天出发。

此次横贯澳大利亚大陆，又会发生什么事情呢？既然格兰特船长在这片大陆的事已经成为不容辩驳的事实，那么此次远征无疑是会有收获的，而这个收获就是，即使没有找回人，也会找到线索的。他们将沿着37度线进发，虽然不能肯定在这条线上会找到船长，但最起码会找到他的印迹——更重要的是，这条线通向的是船出事的地点。

更让他们有信心的是，阿埃童答应和他们一起去，做他们的向导。他要带领大家穿越维多利亚的森林，直到东海岸。

能获得格兰特船长曾经的水手长帮助，爵士非常高兴，不过他还是问奥陌尔，阿埃童的离开会不会给他们带来不便。

奥陌尔虽然很舍不得这个得力帮手，但还是同意了。

“怎么样？阿埃童，你答应和我们去寻找你遇难的同伴，对吗？”爵士再次问道。

阿埃童略略停顿了一下，很快又说：“是的，爵士！我答应和诸位一起去。即使不能找到船长的踪迹，也是能将大家带到出事地点的。”

“谢谢你，阿埃童！”爵士感动地说。

“不过我要再问一个问题，爵士！”阿埃童说。

“说吧，什么问题？”

“你们决定在什么地方和‘邓肯号’会合？”

“如果我们不需要走遍全部路程的话，那么就在墨尔本会合；如果我们要一直走到东海岸去，那就在那里会合。”

“那么‘邓肯号’的船长会在什么地方？”

“船长在墨尔本听候指令！”

“好的，我知道了！爵士，只要你信任我就行了。”

“我当然信任你！”

爵士说。

“大不列颠号”上的水手长阿埃童受到了全体成员的热烈欢迎。格兰特姐弟都不知道该怎么表达自己的谢意。当然，在场的所有人中，还是有人有些失落的，那就是奥陌尔，阿埃童的离开，意味着他要失去一位聪明忠实的帮手，不过他知道阿埃童做向导意味着什么，也就忍痛割爱了。

爵士请求奥陌尔给他们提供一些交通工具，奥陌尔答应了。之后，大家和阿埃童约好了会合的时间和地点，然后就回到了“邓肯号”上。

这一路上，大家的兴奋可想而知。一切的情况都在向好的方向发展，他们的任何顾虑此刻都不存在了，勇敢的寻访者们不再没有头绪，每个人的心里都充满了信心和希望。如果一切进展顺利，很可能只需两

个月，“邓肯号”就能将格兰特船长和那两名水手送到苏格兰海岸，并在那里登陆。

爵士商量行动计划时，麦盖尔船长提出他也要横贯大陆去旅行，他觉得旅行队伍中一定不能少了他，而且还提出了种种理由，表示非去不可。

“你去不是不可以，但有一个问题我不放心，那就是大副留在船上行吗？”爵士说。

“绝对没问题。艾撒汀是个非常优秀的海员，他一定能将‘邓肯号’开到目的地。而且心灵手巧、忠于职责的他，一定会尽快将船修好，也绝不会改变计划，延缓时间的。所以阁下只需像信任我一样信任他就行了。”麦盖尔说。

“既然如此，那就陪我们一起去吧，而且要是找到玛丽小姐的父亲，你在场会更好一些。”爵士又说。

“啊！……阁下！……”麦盖尔有些难为情，但心里却很激动。

第二天，麦盖尔带着木匠和几名水手，载着粮食去了奥陌尔的农庄，负责和奥陌尔商量交通工具的事宜。

他们去的时候，整个农庄的人都在等候他们，决定等他一吩咐，他们就动手工作。在做这些准备工作的时候，阿埃童也在那里，并毫不吝啬地将自己的经验提供给大家。

在使用交通工具方面，麦盖尔和奥陌尔的意见达成了一致，那就是女人乘牛车，男人骑马。对于马和牛车，奥陌尔都可以提供。

牛车是一种大拖车，有6米长，车上盖着大的皮质的篷子，底下装着4个车轮，车轮上没有辐条和铁箍。由于车头离车尾比较远，所以不能急转弯。为此，他们又往车头上装了10米的车辕，并决定让6头牛成对地站在辕边。

赶这样的牛车，没有技巧是不行的。作为赶车能手的阿埃童，驾车任务非他莫属。

由于车上没有弹簧，所以走时会颠簸得很厉害。麦盖尔想了很长时间都没想好怎么解决这个问题，只能将车内布置得舒适一点。为此，他将车厢用木板隔成了两部分，前一部分坐人，后一部分装粮食、行李和灶具。

经过木匠们的加工，前部分坐人的地方被设置成了精致的小屋，屋里的地板上铺着地毯，屋子里不仅有盥洗设备，还有两张床铺，是为海伦夫人和玛丽小姐准备的。四周挂上了皮帘，晚上放下来能阻挡寒气，如果下起雨来，男人们也可以躲进去避雨。没有下雨的晚上，男人们则在外面搭帐篷休息。

总之，麦盖尔船长为将这狭小的空间布置成一个安乐窝，下了很大的功夫。当然，结果非常让人满意。有了这个流动的屋子，海伦夫人和玛丽小姐也就不再用再留恋船上的房间了。

出行的男人们的交通工具很简单，爵士、巴嘉勒尔、罗伯尔、少校、船长和维尔逊、穆纳每人一匹马。驾驶牛车的阿埃童则坐在车头。

不过，不喜欢骑马的奥比尔决定坐在牛车的行李厢里。

他们需要的牛马全都在庄园的草地上吃草，下了出发令后，它们很

快就能集合了。麦盖尔在将一切都安排妥当后，带着奥陌尔一家到了“邓肯号”上。这次奥陌尔是要回拜爵士的。

阿埃童觉得他也要去一趟才行，于是，快4点的时候，麦盖尔船长带着这些客人进了船舱。

不用说，他们受到了最热烈的欢迎，爵士甚至还留他们在船上吃饭。盛情难却，客人们也都同意了。当奥陌尔看到“邓肯号”上的一切后，惊诧万分，交口称赞，因为船上房间里的每一样家具、壁橱都是用枫木和紫檀木做成的。

不过，阿埃童却不一样，好像对这种“奢侈”的东西不感兴趣，他感兴趣的是整条游船的样子和配备。他从航行的角度开始参观，不仅看机器，而且还询问了机器的马力和耗煤量，甚至还去了煤舱和粮舱。对于武器间的大炮的性能和射程，他也很关心。

麦盖尔在听了他的一些专业问题后，更相信他是个内行了。最后，阿埃童又参观了桅杆和船具。

“这条游船真漂亮啊，爵士，它是多少吨位的？”他问。

“有210吨位。”

“那么就是说，如果船开足马力的话，1分钟就能跑9公里？我说的没错吧？”阿埃童问。

“如果你说10公里的话，那就说对了。”麦盖尔说。

“啊？10公里？那也就是说，没有战船能追上它了？”阿埃童的眼睛一亮。

“没错，‘邓肯号’可是竞赛能手，不论用什么方式航行，它都不会输。”麦盖尔自豪地说。

“那么张帆远航，一定也比别的船快吗？”

“那是当然的了！”麦盖尔说。

“爵士，船长，请接受我作为一名船员的祝贺吧！”阿埃童又说。

“好的，阿埃童，如果你愿意，你也可以到这船上来做事。”爵士说。

“以后我会考虑这个问题的。”阿埃童最后说。

正当这时，奥比尔先生说宴席摆好了，让大家去吃饭。

“一个厉害的角色！阿埃童！”巴嘉勒尔对少校说。

“嗯！没错，不过太聪明了！”

少校话里有话。不知道为什么，他总觉得阿埃童的长相和举止有些问题。当然，这也许是他的一些偏见和嫉妒心理在作怪。

吃饭的时候，阿埃童还对他熟悉的一些大陆做了非常有趣的介绍，甚至还问爵士准备带多少水手去大陆远征。当他知道只带穆纳和维尔逊时，很是吃惊，并劝爵士再找几个去。说到这里的时候，他非常坚持。

这种坚持，又让少校对他的反感减弱了。

“为什么要带那么多人去？难道途中会有危险？”爵士问。

“当然没有危险！”阿埃童说。

“那么，水手们还是留在船上比较好。‘邓肯号’张帆和修理都需要人手，而且更重要的是，将来‘邓肯号’还要在指定的地点会合，所以船上的人数不能太少。”

阿埃童听爵士也这么坚持，便没有再说什么。

天色已晚，奥陌尔和阿埃童一行向爵士他们告别，回到了庄园，车马都已经准备好了，启程时间定在了第二天的早上8点。

海伦夫人和玛丽小姐也为启程做好了一切准备，而这个准备工作，她们花的时间并不长，所带的东西也没有巴嘉勒尔多。巴嘉勒尔用了半个晚上的时间，拆下了他的那个巨大的望远镜，擦了又擦，装上后，觉得没擦干净，又拆下来又擦……折腾了很长时间，所以在第二天天已大亮，少校用很大的声音叫他时，他还在呼呼大睡。

一只小舟放了下来，在将行李派人送往农庄后，一行人跳了上去。麦盖尔最后一次叮嘱大副艾撒汀，嘱咐他一定要在墨尔本等候指令，并且不论在任何情况下，都要接受指令。艾撒汀让麦盖尔放心，并代表船上的全体海员，祝福麦盖尔他们一行成功。

小舟离开了船，欢呼声此起彼伏。

仅仅用了10分钟，小舟就靠了岸，又过去十几分钟，一行人出现在了奥陌尔农场。

海伦夫人非常喜欢那辆巨大的牛车，在看到牛车上的屋子时更是兴奋。牛车由6头牛来拉，6头牛也是两个两个地并排站着，器宇轩昂。

拿着牛鞭的阿埃童，正等着出发的指令。

“这辆牛车真是棒极了！它比得上世界上所有的邮车，有了这样一辆车，完全可以像江湖艺人一样，走遍全世界。再没有比这更好的旅游交通工具了，一座流动的房子，能走、能停，来去自由，真是太好了。看来，古代游牧民族萨马特人的想法我们都实现了。”巴嘉勒尔说。

“没错，巴嘉勒尔先生，以后你也可以光临我们这个流动房子的客厅。”海伦夫人说。

“那是当然了，夫人，去你们的客厅，将是我的荣幸，我一定不会错过这个机会的。”巴嘉勒尔说。

“我每天都等候你的到来，因为你是……”

海伦夫人还没说完，巴嘉勒尔便抢先说：“我是你朋友里最真诚的一个，对不对？”

当然，巴嘉勒尔殷勤的一番话马上就被后面站着的7匹马打断了，7匹马上的马鞍全都备齐了，马开始高声嘶叫。

爵士在付了购置一切的费用后，又对奥陌尔说了很多感谢的话，而那些话在奥陌尔听来，比金钱更重要。

启程指令一发出，海伦夫人便和玛丽小姐坐进了她们的“房子”；阿埃童爬上了赶牛车的位子；奥比尔钻进了后车厢；其余人全都跨上了马。

他们在奥陌尔及其家人的“上帝保佑你们”中出发了。

牛马嘶鸣，车轮滚动，随着车厢咯吱咯吱的声响，一行人转了个弯，那热情的爱尔兰牧场主便看不见了。

12月，北半球已经很潮湿，很凄冷了，南半球则还是夏日炎炎。出发这天，夏天已经到了。由于太阳是在12月21日这天进入摩羯宫的，所以它在地平线上的时间越来越少，爵士他们一行几乎是在热带的太阳底下行进。

澳大利亚是印度洋上的英国领地的总称，主要有新荷兰、塔斯马尼亚、新西兰及四周的若干小岛构成。澳大利亚大陆，则被划分成了大小不等的殖民地，这些殖民地间的界线都是直线，这是因为英国人随心所欲，不考虑地形、河流、气候和种族划出来的。一个挨着一个的长方块殖民地彼此嵌合，如同数学家们画成的几何图形，完全不是地理学家的划分方式。

当然，海岸线倒是曲线，这些曲线自然生动，像是在向那些直线示威。

这种棋盘式的划分方式一直被巴嘉勒尔嘲笑，他觉得，如果澳大利亚属于法国的话，法国的地理学家们绝对不会像用直尺画直线般来划分界线。

大洋洲的大陆被分为6个殖民地，海边住着移民。以前曾有一些胆子大，敢于冒险的居民在内陆324公里处的地方生活，但后来却不知怎么样了。所以澳大利亚的腹地，按理说是无人知道其内在情况的。

幸好37度线不用去那荒无人烟的地方，而那些地方，即使是科学考察、探险也很可能是有去无回。爵士当然也不愿意带着大家去冒这个险，他所要去的是澳大利亚南部，也就是包括阿德莱德省的狭长部分，

是整个维多利亚省和新南威尔士，那个倒置着的三角形尖端。

从奥陌尔的农场到维多利亚边境还不到100公里，两天就能走完，阿埃童计划第二天晚上在维多利亚省最西边的阿斯人居住的城市过夜。

远征刚刚开始的时候，马上的人精神百倍，屁股下的马也神采奕奕。人精神百倍倒没什么，马要是太活跃就很危险了，所以需要多加控制。特别是骑马远征，一定要合理分配能力才行。

因此，大家决定每天只行40至50里路程，一点都不多走。何况牛拉大车走得很慢，马必须配合牛的速度。因而，那辆牛车以及车上的粮食和工具，也就成了大家保护的焦点，仿佛那是流动的堡垒。骑着马的人都走在车子两边，保护着它，不离牛车太远。

骑着马的人没有什么次序安排，只要不脱离大部队太远，还是可以自由行动的。对于善于打猎的人来说，可以到处跑跑看看，而如果想和女士聊天，那就要紧紧地守在牛车旁边了，而如果想要几个人聊聊哲学问题，也可以互相凑在一起。

在这些人中，既想和女士聊天，又想和大伙谈哲学问题的就是巴嘉勒尔，所以也就忙得不亦乐乎。

刚开始的这段路程并没有什么稀奇之处，那一连串的丘陵光秃秃的，还有一些非常开阔的地方长满了青草。当然，还有一些地方遍地都是灌木丛，灌木丛里的植物叶子尖尖的，带着咸味，是羊喜欢吃的植物。

几公里的路走过去，到处都是这些东西，当然偶尔还会看到一种猪头羊身的动物在电线杆下吃草。

总而言之，这里的平原看上去和潘帕草原并没有什么两样：翠绿而平坦的草地，清澈蔚蓝的天空，一群群的野兽。这种情景，让少校以为还是在阿根廷。地理学家巴嘉勒尔让大家不要急，说地形很快就会发生改变，而且他还向大家保证，说一定会有新事物出现。

下午3点钟的时候，牛车穿过了一片没有树的旷野，这里也叫“蚊园”。从名字就能知道，这里是蚊子的天堂。讨厌的蚊子不断地飞向人和牲畜，使人、牛马烦不胜烦。想要蚊子不叮显然是不可能的，幸好牛车上有防蚊水，只需在蚊子叮过的地方擦一擦，很快就能止痒消痛了。巴嘉勒尔由于是大个子，特别受蚊子青睐，无可奈何的他经常气得骂娘。

傍晚的时候，他们来到了用豆花树点缀着的平原，平原上有稀稀落落的几棵白胶树，再远一点是新压的一条辙道，旁边又种植了一些橄榄树、柠檬树、青栋树……最后，他们还看到了一些护园的栅栏。

大约到了晚上8点钟的时候，拉着车的牛在阿埃童鞭子的驱赶下，加快了速度，赶到了红胶站。而所谓的红胶站，只是草原上饲养牲畜的一个建筑物而已。我们有必要知道，牲畜在澳大利亚草原上非常重要，它们甚至可以说是草原上的主要财富。

作为牧人，远离故土后，他们在无边无际的草原上游牧，累了就要在地上坐下来休息一会儿，所以又被形象地称之为“坐地人”。

饲养牲畜的红胶站并不大，但爵士一行却受到了热情的款待。对于这些生活在偏僻之地的人家来说，见到人很兴奋，所以也非常好客。而这种好客的“坐地人”，在澳大利亚也是很常见的。

第二天天一亮，爵士一行便开始行动，他们必须在当晚赶到维多利

亚省。地面起伏不平，蜿蜒起伏的小山一眼看不到尽头，红色的细沙遍布小山，如同一面大红旗，可惜红旗像是被风吹皱了，不是那么平整。

几棵白皮杉的枝干很直，洋洋洒洒地伸出了它们的枝条，那深绿色的叶子遮天蔽日，庇护着肥沃的草场，草场上到处跑着活蹦乱跳的袋鼠。行走了一段路后，大家看到了一大片荆棘和小胶树。

很快，荆棘和小胶树由密变疏，成了一棵棵大树，孤立在那里，有了原始森林的感觉。

不过，在他们快要接近维多利亚边境时，四周的景物又发生了显著变化，脚下的土地也变了样。不过，他们自始至终在沿着一条直线前行，即使遇到丘陵和湖泊也不例外。几何学上不是有条定理吗？两点之间，直线距离最短。所以不管困乏还是即将面临的困难，对他们来说都算不上什么。

一行人的速度以牛车的行进速度为准，慢吞吞的。不急不躁的牲畜走得虽然不快，却也没有停下一步。

就这样，他们一口气走了大约100公里。如果把行进计划分成两天的话，那么23日的傍晚，他们就能够到达阿斯人的居住区了，这里也是维多利亚境西部的第一个城市。牛车直接被阿埃童带到了一家客栈，据说这家客栈是全城最好的。

晚饭他们吃的是清一色的羊肉，各种做法的羊肉热气腾腾地摆了一桌，非常丰盛。

大家一边吃一边聊，每个人都想了解澳大利亚大陆的新奇事物，所以就想让地理学家巴嘉勒尔开口。自然，巴嘉勒尔没有让大家失望，他

以“幸福的澳大利亚”开头，谈起了维多利亚省。

“用‘幸福’两字概括澳大利亚并不准确，应该用‘富饶’二字。因为‘幸福’和‘富饶’是两回事。澳大利亚有金矿，大家都知道，可这些金矿又都被一些冒险家占有，等我们穿过那片金矿的时候，你们就能看到了。”巴嘉勒尔一开始就说。

“作为殖民地的维多利亚，历史很短对吧？”海伦夫人问。

“没错，夫人，只有30年历史。1835年6月6日，是个星期二……”

巴嘉勒尔还没说完，少校便插嘴道：“晚上7点15分！”

对于总拿日期和巴嘉勒尔开玩笑的少校，巴嘉勒尔并不觉得这是在开玩笑，他很认真地说：“不，是7点10分！”

说完，见没人有异议，便又说：“在菲利浦港，也就是墨尔本城东面的海湾上，巴特曼和法珂在那里建立了一个据点。在刚开始的15年中，这块殖民地还是新南威尔士省的一部分，后来宣布独立，变成了维多利亚省。”

“这么说是独立后繁荣的？”爵士问。

“我最高贵的朋友，有些数据可以说明，不管这些数据少校是多么讨厌，但我还是觉得很有说服力。”巴嘉勒尔没有直接回答爵士的问题。

“没事，你说吧！”少校说。

“在1836年的时候，这块殖民地上有244个人。今天，这里已经有50

万人了。还有700株葡萄树，这些葡萄树产的葡萄每年又会制作出12.1万加仑的葡萄酒。草原上还有1.3万匹马，67.5万头牛。”

“还有猪没有统计上。”少校一本正经地说。

“哦，没错，对不起，忘了，猪有79625头。”

“那羊有多少呢，巴嘉勒尔？”少校逗他。

“有712万只！”巴嘉勒尔回答得很认真。

“这个数字，有没有把我们正在吃的这只算进去？”少校一本正经地问。

“不，当然不包括在内，因为这只羊已经被我们吃掉四分之三了。”

“太精彩了！巴嘉勒尔先生，真不愧是地理学家！我们不得不承认，这位地理学家对这些问题了解得简直太清楚了，我看我的表兄麦克那布斯是无论如何也考不住他的。”海伦大声叫好道。

“确实，直到现在还没有……”少校没说完，却故意引巴嘉勒尔说话。

“等等！少校先生，我向你保证，这地方绝对是世界上最奇怪的地方。这里大陆的形成，以及它的气候、物产、地形……甚至于将来的消失，都不可能让世界上的任何学者感到吃惊。因为这片大陆在刚开始形成时就不是从中心开始的，而是从四周先耸起，如同一个巨大的圆环。那圆环的中间先是形成了内海，接着又干涸，最后才形成陆地。还有更奇怪的，比如空气和土壤里没有一点潮气；树木每年都会脱一层皮，叶面会背向太阳，叶子一直挂在树上，从不落下；木材很不容易点燃；淋

了雨的石料很快就会融化；树长得很矮小，但草却长得很高；禽兽的种类很特别，不仅有四足兽和长嘴鸟，还有鸭嘴兽，这鸭嘴兽的出现，不得不让动物学家们又增添了新门类——单孔动物。而且在这里还经常会看到一些用长短不齐的腿跳跃的袋鼠，还有那长着猪头的山羊，会飞的狐狸，黑色的天鹅，筑巢的老鼠，会迎接客人的鸟……还有那各种鸟类的鸣叫，宛转悠扬，有的像报时的钟表，有些又像鞭跑在响，还有些像磨刀的声音，或者是那滴答滴答的钟摆声……有些鸟是早晨日出时叫的，有些则是傍晚月落时哭……天啊，太多了太多了，都是一些稀奇古怪的事，完全不符合逻辑。这里啊，就是一个完全不符合自然规律的奇怪之地。”

巴嘉勒尔在说完这些离奇的事情后，洋洋得意。说的时候，手也没闲着，随着他声音的不断升高，手里的叉子被它扬得像在跳舞，这让坐在他身边的人不得不随着他的舞动而调整坐姿，生怕他的叉子会扎中自己。

最后，在大家雷鸣般的掌声和赞叹声中，他住了嘴。

当然，不管他说的是真的还是天方夜谭，大家都已经很满足了，也不想再去问什么，补充什么。不过，少校还是忍不住了，激他道：“说完了没有，博学的地理学家？”

“什么？完了？当然没有，早着呢！”巴嘉勒尔被少校一激，劲头又上来了。

“难道还有比你刚才说的更离奇的？”海伦夫人问。

“那是当然了，还有气候，比刚刚说的动植物还要离奇呢！”

“那就举个例子吧！”

“好，我们先不说澳大利亚的卫生情况。这里氧气丰富，没多少氮气，很不错吧。更主要的是这里没有湿风，所以这里的人从没听说过得伤寒、天花等疾病的。”

“确实，这是一个很大的优势！”爵士说。

“虽然是个优势，但还不算明显。如果单从气候来说一件事的话，你们听了肯定会以为是假的。”巴嘉勒尔又说。

“哦？什么？说出来听听！”麦盖尔说。

“你们不会相信我说的。”

“不！我们肯定相信，快说吧！”大家被他吊足了胃口。

“要我说吗？那我说了，它有……”

“什么？”

“有着教化功能！”

“什么？教化功能？”

“没错！由于这里的金属不生锈，所以人也不会生锈；由于这里有纯净的空气，所以会洗涤一切，不管是衣服还是灵魂，甚至还能洗清罪恶，所以才有英国那边的顽固犯人流放到这里来教化的事情。可见，这里的环境能让坏人变成好人。”

“哦？真有这么大的好处？”海伦夫人问。

“没错，夫人，不管是对人还是对野兽，都会起作用的。”

“你一定是在讲笑话吧，巴嘉勒尔先生！”

“当然不是笑话了，你们没看到吗？来这里的牛马羊群，全都被驯化了。”

“绝对不可能！”

“虽然你们觉得不可能，但却是事实。凡是做了坏事的，一到这里便会充满正气，几年后就能脱胎换骨了。这样的作用，慈善家都知道。他们知道在澳大利亚的大陆，人类的天性都在向善的方向发展。”

“好的，就算你说的是真的，那么巴嘉勒尔先生，你已经够优秀了，要是再来这个有灵性的地方，又会变成什么样子呢？”海伦夫人笑着说。

“肯定会变得更优秀了，夫人，一定会变得无可挑剔！”巴嘉勒尔说完，笑得前仰后合。

第二十七章 探险家们钟爱的地方

第二天天一亮，一行人就动了身。这天的天气很热，但大家并没有感到很难受，因为道路的平坦，牛马跑起来毫不费力。在经过一片稀疏的新生林后，晚上，他们来到了白湖岸边，不过由于白湖里的水盐分很高，不能直接饮用。

白湖里的水色很复杂，就连地理学家巴嘉勒尔也承认“白湖”这个名字名不副实。就和黑海不黑，红海不红，黄海不黄，蓝山不蓝一样，白湖的水一点都不白。不过，为了维护地理学家的名誉，他不断地对这个湖名进行辩解，但理由苍白而没有说服力。

晚饭是奥比尔准备的，大家吃了饭后，两位女士回到了房车，其他男士则回了帐篷，虽然四周不断传来狼狗的嗥叫，但他们还是很快就睡着了。

第二天一早，大家看到白湖的对岸有一片美丽的平原，平原上长满了菊花。面对这样的美景，大家还是很想去游玩一番的，但为了不耽误时间，只好依依不舍地离开了。

一路上，他们除了看到远处有几座光秃秃的山丘外，还看到了一眼望不到边的草原和花朵，这一切都让他们觉得进入到了明媚的春天。

草原上，蓝色的细叶麻和本地特有的朱红爵床草形成了强烈的对比。形状各异的树很好地点缀着这片草地。同时，含盐的土壤里还生长着一些胭脂类植物，这些植物有些是青绿色的，有些则为淡红色，都能

做工业原料，而当它们烧成灰后，又能提炼出很好的碱来。

此时，巴嘉勒尔从地理学家摇身一变，变成了植物学家，而且能叫出这些陌生花草的名字来。对数字向来敏感的他，又向大家说起了澳大利亚的植物数来，说如今的植物有120个种类，约4200种。

在他们行进了差不多16公里后，牛车开始穿行在高大的树丛中，这些树有豆球花树、木本含羞草、白胶树等等，种类繁多。当然，这些生长在平原里的色彩缤纷的植物没有辜负阳光的滋养，它们敞开怀抱，接受着阳光的照耀，并不时地散发出浓郁的香气。

当然，相比于植物种类的繁多，动物的品种和数量就少得多了，平原上只看见几只火鸡在奔跑，不等人靠近，便飞奔而去。不过，沉着的少校很快就打了一只濒临灭绝的鸟，这种鸟被英国移民称为“巨鹤”。它们身高约1.5米，身长约0.6米，长着黑黑的嘴巴，宽大的下颚，下颚的末端尖尖的，呈圆锥形。同时，这种鸟有着朱红色的头，油绿色的颈，白色的胸和鲜红色的爪子。

总之，仿佛大自然在创造它们的时候，用上了调色板，非要把各种颜色全聚集在它们身上才罢休。

在大家热情地赞美这种鸟时，如果不是走了几里路后，小罗伯尔又打了一只怪兽，那么这一天的风光很可能都被少校抢了。罗伯尔打下的这只怪兽样子很奇怪，既像刺猬又像食蚊兽，甚至可以说是一种四不像动物，更夸张一点说是十不像的爬虫。总之，这类动物可以伸出它那带着黏液的舌头，捕捉蚂蚁吃，而蚂蚁正是它的主要食物。

“是针鼹鼠！你们见过吗？”巴嘉勒尔一口叫出了怪兽的名字。

“太难看了！”爵士感慨道。

“难看是没错，可它却是珍奇动物，这种动物只有在澳大利亚大陆才有。”巴嘉勒尔说。

巴嘉勒尔原本想将这只针鼹鼠当成单孔动物的标本留着，但却遭到了厨师奥比尔的极力反对，只能放弃。

这天，他们一行人来到了东经141度30分的地方，走了这么久，他们难得见到几个“坐地人”。

这些地方几乎无人居住，甚至连土人也不见一个。之所以这样，是因为那些未开化的民族大多生活在大令河和墨累河支流，只限于在人烟稀少的地方游荡。不过很快，他们就被一个壮观的场面惊呆了，场面庞大的投机商贩运着牲口从东部山区来到了维多利亚及南澳省。

那是在下午4点钟的时候，麦盖尔指着前面3公里处的位置给大家看，大家先是看到麦盖尔所指的地方扬起了很长溜的灰尘，但却不知道发生了什么事。后来请博学的巴嘉勒尔给大家解释，不过，没等巴嘉勒尔开口，阿埃童就说了，说那是牲口经过时扬起的灰尘。

没错，阿埃童说的是对的。因为当那扬起的灰尘离他们越来越近时，他们听到了羊咩、马嘶、牛哞……在这些混合音中，不断地夹杂着人的叫喊、口哨和咒骂声。

再走近一点，他们看到了，烟雾中走出了一些人，其中有个像是这支大军的总指挥。爵士走了过去，同那位总指挥攀谈起来。

总指挥说他是来自东部的山姆·马切尔，是这支队伍的“牧守”，正准备去佩特兰。

他们赶的这群牲畜，则是从蓝山平原买来的。刚刚买来的时候，这些牲畜很瘦弱，如今正要赶着它们到南澳那肥沃的草场上去，等将这些牲畜养肥了，他们就能高价出售，赚取利润了。这群牲畜，他们差不多能赚取5万法郎。虽然钱不少，但却需要很大的耐心和毅力，才能将这些牲畜赶到目的地。

看来，这些人赚点钱也不容易。

在牧群沿着含羞草丛继续向前行走时，“牧守”在一棵大树下开始向海伦夫人、玛丽小姐及其他人讲述自己的经历。

“牧守”说他们出来已经有7个月了，每天大约要走25公里。而要想到达目的地，他们需要3个月的时间。在这一趟生意中，除了所赶的牲口外，他还要管理20只狗，30个人，在这30个人中，有5个人是非常擅长寻找牲口的。

这个长长的队伍，走在最后的是6辆大车。30个赶牧者每人手拿一根皮鞭，在牧群中走来走去，维持秩序。那20只狗则像警察一样，在牲口的两边来回巡逻。

在大家赞扬他们这庞大的人畜队伍的井然有序时，“牧守”告诉他们，种类不同的牲口还不能在一起行走，比如野生的牛羊就不能走在一起，甚至凡是羊走过的地方，牛也是绝对不会在那里吃草的。所以全都是牛走在羊的前面，羊被分成了五个团队，并由20个人指挥，最后面的是马。整个队伍被分成了三个部分。

“牧守”告诉大家，这支庞大的队伍，领头的既不是狗也不是人，而是牛。聪明的牛是这支队伍的“首领”，每个牲畜都要听“首领”牛的指

挥。

这些牛“首领”庄严地走在队伍的最前面，用它们的本能选择着最好的路，这样自然也就会有人来对它们另眼相看。为了这支队伍，人反而要去讨好牛。在牛要停下的时候，他们就让整个队伍停；牛要歇的时候，就让整个队伍歇，因为如果执意要它们走，牛不答应，也是行不通的。

这样一支远征的牲口队伍，虽然没有古希腊名将色诺芬指挥，但也足以编入史册。随后，“牧守”又将他们远征的细节做了补充，说他们这支队伍如果只是在平原走，还算好办。因为这些牲畜白天可以吃沿路的草，渴了可以喝小沟里的水；夜里睡觉时，只要听到狗叫，它们就会起来，非常听话。不过要是走到那遍布植物和含羞草的草丛，那就麻烦多了。

此时，牲畜很容易混乱，也容易跑散，他们需要花很长的时间来整顿队伍秩序。如果不幸有“首领”走失，是需要不惜一切代价找回来的，否则整个队伍就可能溃散。而一旦遇到下雨天，情况就更糟了，很多牲畜会懒得往前走，遇到大风暴的时候，牲畜还会被吓得发狂，乱窜乱跑。

不过，由于“牧守”的机智和勇敢，他们最终克服了这些困难。他们一公里一公里地朝前挪着，把平原、树林、山丘全都抛在了后面。不过，仅有机智和勇敢还不够，他们还必须有耐性，而这耐性在他们过河时是非常关键的要素。

当人畜队伍到了河边时，“牧守”会发愁，能不能过去，关键是看牲畜愿不愿意过去。

“首领”牛在最前面，见了河掉转头就往回走，“首领”都不下去，羊也不下水，而且到处乱跑。没办法，到了夜里的时候，他们硬将公羊拖下了河，可那母羊却怎么都不愿意跟着下去。

不得已，他们只能让牲畜先喝水，熟悉一下环境。不过，这些聪明的牲畜好像知道这是圈套，怎么都不喝水，即使小羊已经渴得咩咩直叫了，母羊依然不动。在这种时候，“牧守”对着牛羊的哞叫、咩叫毫无办法，怎么都要耽误近一个月的时间。

终于有一天，也许有队牲畜高兴了，竟然过了河。这时，其他的牲畜也跟着过去，但又有问题出来了，那就是这些牲畜不能有秩序地过河，在混乱中，还会有牲畜被淹死。

以上就是“牧守”和他们说的话，在他说的時候，牧群已经走出好远一段距离了，他必须尽快赶到队伍的前面，以便选择最好的牧场。因此，他跨上了良马，和爵士们挥手告别，很快就消失在了灰尘中。

一行人背对牧群，继续朝前走，一直走到了晚上，才在沓儿坡山脚下停住。

此时，巴嘉勒尔提醒大家，说今天是12月25日，他们这才知道，这天是圣诞节。这么一个重要的节日，他们必须庆祝下。好在厨师奥比尔并没有忘记这一天，早早地准备好了食物，所以晚餐时也就有了可口而丰盛的晚餐摆在面前。看着这些美味，大家都没有忘记称赞奥比尔的手艺。

这一餐有：鹿火腿、腌牛肉、熏鲑鱼；大麦粉和荞麦做成的蛋糕；甚至还有中国名茶和大量的威士忌，以及波尔多葡萄酒。大家就这么吃着喝着聊着，差点忘了自己是在远征途中，还以为是在麦凯莫府的大餐

厅里！

自然，这么丰盛的晚餐也少不了水果，巴嘉勒尔便把那长在野橘树上的果子摘了下来。这种果子吃起来没什么味道，但将里面的核咬碎后就会感到很辣。喜欢新奇的巴嘉勒尔为了尝尝味道，嘴都辣麻了。这使少校在问他内陆的沙漠特点时，他的嘴麻得都说不出话来。

第二天，没什么重大的事情发生，他们经过了罗同河的肥沃地带后，又过了差不多已经干涸的迈根其河。这天的天气晴朗，也不是很热，从南边吹来的风让他们感到很凉爽，就像到了北半球一样，巴嘉勒尔于是又把这种现象讲解给他的学生罗伯尔。

“我们的运气真是太好了！因为相比较而言，南半球是比北半球热的。”

“为什么南半球比北半球热？”罗伯尔问。

“地球在冬天会离太阳更近，你听过这种说法吗？”

“听说过的，先生！”

“那有没有听说过冬天之所以冷是因为太阳斜射的原因？”

“也听说过！”

“这不就行了，我的孩子？南半球之所以比北半球热，就是这个原因。”

“我还是不明白。”罗伯尔眨巴着眼睛说。

“想想看，在欧洲过冬时，澳大利亚是什么季节？”巴嘉勒尔问。

“夏季！”罗伯尔说。

“这就对了嘛，正是这个时候，地球正好最靠近太阳，明白了吗？”

“明白了！”

“在南半球，夏天热是因为南半球比北半球离太阳近，明白了吗？”

“明白了，巴嘉勒尔先生。”

“所以说地球上的‘冬天’离我们近，就是相对北半球的人而言的。”

“哦，这以前我从没想过。”罗伯尔老实地回答。

“嗯！现在该知道了吧，以后千万别忘了。”

罗伯尔对这堂天文地理课很满意，而他也知道维多利亚省的平均气温在摄氏23度左右。

晚上的时候，一行人在离农思达湖约5公里的地方宿营，这里北边是高昂的德郎孟山，南边是德里邓山。

第二天中午11点钟的时候，一行人来到了威麦拉河河岸。这条河的河水很浅，有半英里宽，岸边长着胶树和豆球花树，还有几棵桃金娘科植物。

这些植物的枝头上缀着红花，长枝有4.5米左右。青绿的枝叶间有成千上万只小鸟在跳来跳去。树下的碧波间，有一对黑天鹅在悠闲地戏水。不过很快，这些河里的“珍禽”便钻进水里不见了，而那条威麦拉河则有很多支流，曲折地流向了美丽的原野。

牛车停在了丰茂如地毯的草地上，草地上长满了乱蓬蓬的草，草在水里留下了它们的倒影。这条河上没有木筏，也没有桥，只有浅滩的地方能蹚水过去。他们看了一下，发现上游四分之一的地方河水很浅，便决定从这里过去。在他们再三探测后，发现河的宽度只有3米左右，牛车从这里过去完全没有危险。

“还有其他办法吗？”爵士问阿埃童。

“没有了，不过这里很安全，可以过去的。”阿埃童说。

“那夫人和玛丽小姐需不需要下车？”

“不用！牛车会走得很稳，让她们放心，会像走在平坦大道上一样。”

“好的，阿埃童！我相信你！”

骑着马的众人全都围住了那辆牛车下河，以防牛车出意外。通常情况下，车子在从浅滩过河时，四周都会有一连串的空桶做“救生圈”，不过爵士他们一行没有这个道具，所以只能试探着过河。坐在牛车上牵着牛指挥的阿埃童非常镇定；少校和两名水手走在前面挡住了激流；爵士和麦盖尔船长则守在车子两旁，护驾两位女士；巴嘉勒尔和罗伯尔跟在后面。

到了河中心时，水深了很多，已经淹过了车子的轮轴。牛如果探不到底的话，很可能会将车一起拖下去，好在阿埃童下水抓住牛角，将牛车拉正。

不过就在这时，车子碰到一块石头上，发出了咯吱的声音，随即车子便歪了，水淹到了车里女士们的脚跟处。爵士和麦盖尔急忙抓住车

挡，车子重又漂了起来，这可以说是最惊险的一幕了。幸好阿埃童同时抓住了牛轭，并使劲一扳，将车子再次扳正。

河底出现了缓坡，淹着牛马脚部的地方低了下去。没一会儿，他们便安全地过了河。虽然大家的全身都湿透了，但好在安全，所以也很满意。不过车厢被碰坏了一些，爵士骑的那匹马的前蹄铁掌也掉在了水里，不见了。

这种意外情况让大家有些为难，阿埃童自告奋勇，说他愿意去几公里之外的地方找钉马掌的铁匠。

“那就拜托你了，阿埃童，你去大概要多长时间？”爵士问。

“几个小时吧，不会很长时间的。”

“好的，那你去吧，快去快回，我们就在威麦拉河岸上宿营等你。”

就这样，几分钟后，阿埃童骑着快马，穿过一排茂密的含羞草丛，消失不见了。

阿埃童离开后，大家将这一天的时间全都消磨在了聊天和散步中，他们一边观看威麦拉河边的风景，一边聊着天。走到灰鹭和红鹤旁，吓得两种鸟扑啦啦地全飞掉了；无花果树上的缎光鸟，百合花上的黄鹂、斑鸠、翘翘鸟在树枝间飞来飞去；鱼鹰没有捕鱼，在林间穿行；就连那看似沉稳的鹦鹉，也在盛开着花的胶树上发出聒噪的声音。

聊天散步的人们欣赏着大自然的美丽风光，他们有的去了潺潺的流水边，有的躺在了软绵绵的草地上，有的则在木本含羞草丛中溜达。

这一天，时间过得很快，天一下子就黑了。众人根据星座指示的方

向朝前走去，由于南半球没有北斗星，所以他们只能将地平线与天空闪耀的南极十字座作为指向标。回到牛车旁，奥比尔已经在帐篷里摆好了晚饭，大家也都入座吃饭。这顿晚饭很丰盛，还有一盆烩鹦鹉。鹦鹉是维尔逊打的，经奥比尔的精湛手艺后，变成了美味佳肴。

吃过晚饭，看着美好的月色，大家没有早早去睡，而是继续聊起了天。聊天当然少不了巴嘉勒尔。在海伦夫人提议让巴嘉勒尔给大家讲讲他们去大洋洲探险的故事时，大家一致表示赞同，而巴嘉勒尔也很乐意开口。

于是，他们躺在了茂盛的盘杉树下。巴嘉勒尔点燃他的雪茄，在雪茄冒出的缕缕轻烟中讲了起来。

“不知道大家还记不记得，我在船上时曾给大家说了很多旅行家的名字，这些旅行家个个深入腹地，进行周游世界的探险。这些人中有伯克、马金莱、兰兹博罗和斯图亚特。对于马金莱和兰兹博罗，这里我就不多说了，因为他们是澳大利亚委员会派去寻找伯克的，因为伯克在去了一个地方旅行后，就再也没有回来。而这次我要说的就是伯克和斯图亚特，这是两个大胆的探险家。闲话少说，我要言归正传了。”巴嘉勒尔清了清嗓子。

“1860年8月20日，在墨尔本皇家学会的鼓励下，有位爱尔兰军官出发了，这个人就是罗伯尔·伯克。和他们一起出发的有11人，比如天文学家威尔斯，植物学家白克莱尔博士、格来，印度青年军官金格、蓝尔、白纳荷，以及几名印度士兵。

“当然，除了他们这些探险家外，还有驮着行李和18个月粮食的25匹马和25匹骆驼。

“一行人按照原先设定的路线——克柏河走着，一直走到了北岸的卡奔塔利亚湾。最后又顺利地越过墨累河和大令河流域，一直到了殖民地的边界梅宁驿站。

“行李太多，也是种累赘，再加上伯克脾气不好，探险队的内部也就出现了不和的声音。就连指挥骆驼的兰戴尔，也带着几名仆人逃离了探险队，但伯克仍然照旧前进，朝着克柏河的方向走去。他时而从水草丰美的牧场走过，时而又沿着没有水源的石子路走。一直走到11月，也就是离出发日3个月后，他们在克柏河岸建立起了第一个储粮站。

“在储粮站，他们停留了一些时间，目的就是解决一系列预计会遇到的困难，之后还在威尔斯堡建立了一个中途据点。为了探险顺利，伯克将探险队分成了两个小队，一队由白纳荷领导，驻守威尔斯堡等待另一小队的成员，驻守时间为3个月或3个多月；另一小队有伯克、金格、格来和威尔斯，这4个人带着6匹骆驼和够吃3个月的粮食出发了。粮食中包括150斤的面粉、50斤的大米、50斤的荞麦粉、50公斤的干马肉、100斤的咸猪肉和腊肉以及30斤的饼干等等。

“伯克这一队的人在艰难地穿过一片荒芜区后，到了艾尔河上，此后他们沿着东经140度线一直往北走。1月7日，他们穿过了南回归线，在那天气热得像火烤一样的地方，根本找不到水喝，不过却能看到奇景海市蜃楼。当然，有时候他们也会遇到暴风雨，天气自然会凉爽一些；有时则会遇到土人——好在土人并没有为难他们。

“总之，一路上，他们基本没有看到河流、高山等障碍物。1月12日，他们发现北面出现了一些砂岩质的丘陵。等他们到了山脚下，走路就更辛苦了。即使人能勉强前行，牲口也走不动。有句话不是说，老是在山里转，骆驼也会怕的。即便如此，他们还是经过了千辛万苦，到了

脱纳河河岸，最后又到了佛林德河上游。佛林德河是在棕树和桉树下流进卡奔塔利亚湾的一条河流。

“随后，他们又穿过了一段沙滩，离海洋也不远了。不过，不幸的是有只骆驼死了，这只骆驼一死，其他骆驼也不走了。金格和格来只好留下来陪它们，伯克和威尔斯则继续步行向北走……总之，他们遇到了无数困难，这在他们的日记中就有记载。

“最后，他们来到了一个被海潮淹没的沙滩，但却不见海洋。”

巴嘉勒尔刚停下来，爵士便问：“那他们没有再往前走了？”

“不是他们不往前走，而是不能再往前走了，因为沙滩在不断地往下陷，他们只能回威尔斯堡和同伴会合。不过想要回去又谈何容易？伯克和威尔斯累得筋疲力尽，总算是回到了格来和金格身边，四个人又一起往回走。对于回去后又碰到了什么危险和困难，也就不是很清楚了，因为他们没有做记录，不过想也能想得到，一路上一定很惊险。而当他们到达克柏河的时候，已经是4个月后的了，4个人只剩下了3个人，格来因为劳累过度病死在途中，6匹骆驼也先后死了4匹。

“当然，他们只要到达威尔斯堡，就会有白纳荷及粮食等着他们，同伴也能获救，所以他们又打起了精神，一步步地往前走。4月21日的时候，他们到了威尔斯堡。谁知，就在那一天，就在他们到达的当天，白纳荷因为等他们5个月都不见人，便离开了。”

“啊？他们走了？”小罗伯尔大惊，叫了起来。

“是的，走了！想去追白纳荷也追不上了。3个被遗弃的人在吃了一点东西后，体力稍稍恢复，便决定回去。但离大令河还有150公里，他

们又没有交通工具。就在这时，伯克提出去澳洲殖民站。

“于是，3个人便又出发了。那时候，他们剩下的只有两匹骆驼，而即使是这两匹骆驼，也有一匹死在了克柏河泥泞的支流中，另一匹又不走了，他们只好将它杀掉当干粮。那时候，他们已经没有粮食了，一直在吃着一种叫‘纳儿豆’的水生植物。

“一路上，他们找不到水，即使找到，也找不到盛水的工具。因此，一行人只能沿着克柏河的河岸前行。然而，一场意外的火灾将他们的草棚子和衣物都烧掉了。他们什么都没有了，唯有等死。在那种情况下，伯克把金格叫到了身边，对他说：‘我要死了，你把我的表和笔记本拿去做个纪念；我死后将手枪放在右手中，就那么放着吧，也不用掩埋我。’伯克说完这些话后，便不再开口，第二天8点的时候他去世了。金格见伯克死了，很是害怕，又不知道该怎么办。只好去请土人帮忙。而等他找到土人回去，威尔斯也死了。至于金格本人，最后则被土人收留，一直到9月份的时候，皇家学会派人去寻找他们，在土人居住地找到了金格。也就是说，那次穿越大陆的4个探险家，最后只活了1个。”

巴嘉勒尔这个悲伤的故事让听众很是伤感，他们想到了格兰特船长，不知他会怎样，是不是也和伯克的命运一样？这样的联想很正常，玛丽小姐的眼中流出了眼泪。

“父亲！我可怜的父亲！”她喃喃着。

“玛丽小姐，不要伤心，那些人之所以那样，就是为了冒险。格兰特船长和伯克他们不一样，再说那个金格，不是在土人那里生活得很好吗？他一定会活着回来的，你父亲一定不会遭遇那样险恶的环境。”麦盖尔急忙安慰她说。

“没错！格兰特船长的安全一定没有问题，我再说一遍，大洋洲的土人是很善良和热情的，玛丽小姐！”巴嘉勒尔也说。

“愿上帝保佑他！”玛丽的眼眶里溢满了眼泪。

“对了，那斯图亚特呢？”爵士急忙岔开话说，他想改变一下悲伤的气氛。

“你是说斯图亚特吗？他可就幸运多了，他的名字被载入了史册。斯图亚特1848年又开始旅行，先后启程两次，但都没有成功。不过他是个不会轻易放弃的人，所以在1867年元旦的时候，他又带着11名伙伴，离开了堪布斯河，一直到离卡奔塔利湾60法里的地方。在那里，因为粮食吃完了，所以又半途回去。不过，他并没有放弃冒险，又组织了第4次旅行，竟然获得了成功。那次，南澳议会为了支持他，还特意拨款2000英镑。而斯图亚特也根据自己的经验，为这次冒险做了充分的准备。最终，他的朋友伍佛德、奥德等共10人参加了这次探险。那次他们带了20只大皮桶，每只皮桶的容量达到了7加仑。

“1862年4月5日，他们正式出发，计划沿着东经131度前行，而那次他们比伯克当时走的路线向西偏了7度。那时候，斯图亚特在霍芜滩安营扎寨，随后又向东行走，经过了塔里溪，又沿着溪流走了50公里路程。

“那是一个好地方，不仅有肥沃的土地，丰茂的牧场，还有‘草地人’在放牧。那里不仅牛肥马壮，而且桉树长势雄伟。看到这种情况，斯图亚特既惊又喜，继续前行，又遇到了诺泊氏河。

“诺泊氏河从热带大棕树林中流过，河岸边住着土人，土人热情地接待了他们。从土人那里出发后，他们又向西北进发，在穿过一片砾石

形成的沙滩后，找到了阿德雷德河源。随后，他们穿越安亨地区，见阿德雷德河越来越宽，河两岸也都是沼泽，便知道离海不远了。

“7月21日，是个星期二，他们在凉水滩休息，由于前面有多条小溪拦住了去路，所以他们必须绕过无法渡过的河流，从泥沼中前进，最后终于到了长着浅草的高地。

“高地上长着很多胶树和杉木，空中还有很多凶恶的水鸟在飞翔。而在那里，他们也没有看到土人，只看到几处野营地处冒着烟。7月24日，离他们出发已经过去9个月了。这天早晨的8点20分，他们继续向北前行，当天就到了海边，斯图亚特率先听到了海浪拍打海岸的声音，不过他并没有说出来。接着，他们钻进了一片葡萄园，穿过葡萄园，他们就能踏上印度洋海岸了。看着大海，斯图亚特叫了起来：‘大海！看！大海！’其他人听到后，也跟了上去，欢呼声响彻天空。

“就这样，经过第4次探险，他们的考察终于顺利结束。斯图亚特遵照出发前南澳总督所说，在洗干净手脸后，在那片谷地的树上刻下了自己名字的简写‘约·斯’两个字，以纪念这次伟大的探险。第2天，斯图亚特又去了很多地方考察，看是不是能从西南方向到阿德雷德河口，不过最终看到的全是无法过去的沼泽地，这才作罢。最后，斯图亚特爬上了一棵树，在树顶插上了澳大利亚的旗帜，还在树干上留下了一些指示文字。如果冒险家们能够按照指示做下去，在向南一尺处挖的话，就会发现一个白铁盒子，盒子里装着一张纸，纸上写着：‘由南而北纵贯澳大利亚的伟大的探险旅行。’

“斯图亚特和同伴们是在1862年的7月25日到达目的地的，他们横穿澳大利亚，途经大陆中心，直抵印度洋海岸。

“1861年10月12日，他们又离开阿德雷德城向北挺进。为了纪念这次成功，他们还留下了国旗，写上了探险队长的名字。整个过程都很顺利，轰动世界的事件也就是这样发生的。”

“那这些勇敢的探险家都回到家乡了吗？”海伦夫人问。

“是的，他们都回去了，夫人！虽然受了不少苦，但毕竟成功了。不过整个过程中还是受了很多苦，特别是斯图亚特，在回来的路上，他患了败血病，9月初的时候病情加重，伙伴们还以为他活不了多长时间了，没想到他活下来了，不得不说是场奇迹。当然，路上他们还有很多次折腾，最终在12月10日回到了阿德雷德城。自然，他们受到了全市人民的欢迎。不过，斯图亚特的病根也就从那次后落下了，在他接受了地理学会的奖金后，乘着‘印度号’回到了苏格兰。1866年的时候，他死在了诺丁山，他的家里。”

“这个人太坚强了！他的坚强和毅力，战胜了身体的病痛，最终完成了未完成的事业。苏格兰能有他这么优秀的儿子，是件非常值得骄傲和自豪的事。”爵士说。

“斯图亚特之后，还有人去冒险吗？”海伦夫人又问。

“有的，夫人，比如以前和您说起的雷莎德，他曾先后两次去探险，最后也献身于自己钟爱的事业了。去年的时候，著名的植物学家穆勒博士为了筹集探险经费，还发起了一次募捐。最后，一些勇敢的‘坐地人’在勇敢的尹泰尔的带领下，在1864年6月21日出发去探险。此时，他们应该在大陆艰难跋涉，希望他们成功，也祝我们能和他们一样，都能成功！”

地理学家巴嘉勒尔在说完这些后，大家一看时间不早了，便各自回

去睡觉。夜深人静的野外，静悄悄的，只有报时鸟在白胶树上，一秒一秒地报着时间。

第二十八章 康斯登桥惨案

阿埃童离开大家很久都没有回来，这让少校有些不安。不过，对于内心的这种变化，他并没有表现出来，只是留意着四周的环境。这片空旷平和的土地，始终一片平静。在度过了黑夜里的几个小时后，太阳展露出了它的笑脸。

爵士担心阿埃童带不回来铁匠，这样就无法修牛车，也就无法上路。而且这样一来，会耽误很长时间。对于爵士来说，他恨不得赶快到达目的地，他不想有丝毫的耽误。

还好，阿埃童回来了，而且还带来了铁匠。铁匠身材高大，身体强壮，但却长着一脸横肉，不怎么说话，总是阴沉着脸，让人一看就不舒服。不过这都无关紧要，重要的是他能把牛车修好。

“这个铁匠怎么样？行吗？”麦盖尔问。

“我也不清楚，让他先做着试试。”阿埃童说。

铁匠开始动手，做起事看上去娴熟有力。少校注意到他两个手腕上有个像手镯一样的伤疤，而且那里已经涨成了紫黑色。想必是新伤，而对这伤疤，他像是刻意要去遮掩。无奈他身上那件破旧的毛线衫并不能全部将疤痕遮住，在少校问他手腕上的伤痛不痛的时候，他没有理会，只是埋头做事。

差不多两个小时后，牛车修好了。

对于爵士那匹马上的马蹄铁，也很快就钉好了。那是一个三叶状的马蹄铁，上端剃成了叶子形状，少校拿马蹄铁给阿埃童看，阿埃童说：“这一定是黑点站的，之所以用这种，就是为了和其他站点的马蹄印区别开来。”

那个看上去有些奇怪的铁匠做好相关的工作后，便拿着工钱离开了，总共也只说了四句话。

爵士他们一行稍微休息了一下后，便上路了。他们走过了一片“露天平原”，“露天平原”上到处都是木本含羞草丛；平原上散布着很多硅石和铁矿石；又走了几英里后，进入了一片湖滩地带，这一带的牛车将牛车印压得很深，高大的芦苇丛里到处都是不规则的小溪流，发出潺潺的水声；继续往前走，他们经过了大片大片的盐碱地，而这段路走起来并不困难，也不感到寂寞。

海伦夫人热情地将骑着马的远征者轮流请上牛车，这样每个人都有机会在牛车上休息一下了。有如此可亲的夫人和美丽的玛丽小姐聊天，每个人都觉得很荣幸，更不要说到了车上后，他们还能受到夫人热情的招待。当然，被邀请上去的人少不了麦盖尔船长，虽然他聊起天来显得很严肃，却也很可爱，让人觉得很开心。

就这样，他们在不知不觉中穿过了克洛南到火尔桑的那条路，这条路上灰尘很大，所以行人很少。一行人在穿过沓儿坡区的最前方后，又过了几个小丘陵。晚上，他们住在了离玛丽柏诺大约5里远的地方。此时，天上下起了蒙蒙细雨，如果在其他国家，地面一定会湿了，但在这里，空气和地面好像有吸附水分的能力，所以他们在野外宿营竟然没受到一点影响。

第二天，越来越多的山路出现在了他们面前，他们只能慢行，而那是一个接着一个的丘陵，仿佛是瑞士的缩影，一路上地面高低不平，非常颠簸，很难行走。

他们只好从马上下来，牵着马走，因为这样比骑在马上舒服。

中午11点的时候，他们到了卡尔思柏路克，不过阿埃童却提议不进城，以便节省时间。对任何事物都有很大好奇心的巴嘉勒尔不同意，大家只好依着他，让他自己去转，而牛车和其他人则继续慢慢前行。

巴嘉勒尔和往常一样，去什么地方总爱带着小罗伯尔，他们在城市里匆匆转了一下，但即使只是走马观花，也让他对这座城市有了大概了解。他发现这座城市里有银行、法院、市场、学校、教堂，以及100多座房子，每座房子都是用砖砌成的，每个建筑物都呈四边形，看上去非常整齐。

城市里的每条街道都是英国式的平行道，非常简单统一，没什么特色。巴嘉勒尔觉得，如果对城市进行改建，一定要延长街道，如同随着孩子的长大，要将孩子的裤腿放长一样。

不过，由于这是座新兴城市，所以整个城市都充满了活跃的气氛。很多人在街上忙忙碌碌地奔跑、做事，呈现出了欣欣向荣的景象。在忙碌的人群中，搬运金子的人都在往运输站上涌，这些金子是从本迪哥及亚历山大各山区搬来的，在搬运的过程中还有当地警察护送。而对于这些生意人来说，他们在意的只是货物，对行人很少注意。

巴嘉勒尔带着罗伯尔在城里转了一个小时，随后他们穿过一片耕地，回到了队伍中。过了耕地，他们面前就是草原了，辽阔的草原上有无数的牧人和羊群。再往前走，前面又是一片荒漠，而这也是澳大利亚

特有的景象。

不过，直到现在为止，他们依然没有见到一个过着原始生活的土人。有段时间，爵士都开始怀疑，不知道这里是不是和阿根廷的潘帕没有印第安人一样，澳大利亚大陆上根本没有澳大利亚土人了。

但地理学家巴嘉勒尔坚持认为，这条纬线上，墨累河那带平原上绝对有土人，而现在离那带平原还有约320里路。

“我们快要走到出产金子的地方了。1852年的时候，来这里开采金子的人就像蝗虫一样多，铺天盖地的。而在过去，这里就是土人居住的地方，不过现在土人都跑到荒山去了，这里成了文明人的生活区域。天黑前，我们差不多就能穿过连接墨累河和海岸的铁路了。告诉你们吧，朋友们，澳大利亚竟然会有铁路，不得不说是件很奇怪的事。”

“有什么奇怪的？”爵士问。

“因为不符合逻辑嘛，在你们看来，你们英国人在海外的殖民地架电线，开万国博览会，甚至在澳大利亚建铁路，非常正常。不过对于我们法国人来说，修铁路完全把澳大利亚的布局改变了。”巴嘉勒尔说。

“你之所以这么看，是因为你只看过去，不看现在和将来！”少校道。

“没错，我承认，不过如果让火车在这无人的荒野奔跑，那大团的蒸汽和烟雾会赶走很多单孔兽、食火鸡等小动物的，而且很可能让那些没有开化的土人看着那冒烟的怪物发愣。这火车，我觉得除了美国和英国人以外，其他人看到都会吃惊的，所以在这里建铁路，会破坏环境的，也让这里没有了诗意。”巴嘉勒尔继续说。

“是诗意重要还是现代文明重要？”少校反驳道。

不过，他们的争论也只进行到了这里，因为被火车的鸣笛声打断了。

他们一行人离铁路特别近，正好有列火车从南向北减速行驶，并停在了铁路与公路交叉口的地方。这条铁路是巴嘉勒尔刚刚说的铁路中的一条，这条铁路将维多利亚省的省会和澳大利亚最大河流墨累河连接了起来，使其肥沃富饶，所以“坐地人”也很多。想必有了这样一条铁路，墨尔本的交通也就发达多了。

这条铁路已经建成的有180公里，在墨尔本和萨塔斯特间就有两个站，分别是肯顿和卡斯尔门。正在修建中的是条直达俄丘卡的长达150公里的铁路，这条铁路建在了殖民地利物林的首府，是在墨累河上建成的。

康斯登桥架在墨累河的支流吕顿河上，位于南纬37度，距卡斯尔门只有几英里远。

赶着牛车的阿埃童带着大家朝康斯登桥走，骑着马的众人跟在牛车后面，他们都想尽快赶到康斯登桥上，以便满足好奇心。而还没等他们涌上去，便看到一群人朝桥上涌去了，那是附近的居民和牧羊人，他们全都涌到铁路旁，有人还不断地说：“快，去铁路上！”

难道是发生了交通事故，所以才会引起这么大的骚动？

爵士催马快跑，其他人跟在了他的后面。没用几分钟，他们便上了康斯登桥，而到了桥边，也知道发生了什么事。

没错，确实是发生了一场车祸，而且是一场非常悲惨的车祸。火车

没有撞车，而是脱轨，掉进了河里。看到这种情景，让他们想起了美国那场最严重的交通事故。

小河里全是火车头和车厢，想必是火车太沉，将河上的桥压断了，才导致火车脱轨。他们看到，6节车厢有5节掉进了河底，剩最后一节不知怎么和前面几节脱了节，因而奇迹般地保住了。不过没有掉下去的那节离深渊也不过一米多，想起来都觉得可怕。

铁轨弯了，枕木焦了，就连掉在河里的车厢也散架了。汽锅炸裂了，碎片到处都是。在乱七八糟的废物中，他们看到从汽锅处冒出了缕缕青烟。火车掉在河里已经很惨了，没想到又有一场大火，让场景更加惨烈。

到处都是大片大片的血迹，还有东一块西一块的残骸断肢，以及那被烧成焦炭的尸体。

没有人忍心去看死了多少人。

夹杂在人群里的爵士、巴嘉勒尔、少校和麦盖尔听到了大家的议论，除了一些救人的在忙碌外，其他人最关心的就是为什么会发生这样的惨剧。

“应该是桥断了！”有人说。

“桥什么时候断了？桥不是好好地在那里吗？”另一个人说。

“是车子到了，但桥还没有接上，所以才出事的。”又有人说。

是的，这是一座转桥。转开后可以让河里的轮船经过，有火车时又要把桥转过来。而在火车过来时没转过来，是不是守桥人员失职造成的

呢？如果火车过来了，没有桥，火车自然就会翻进河里的。

这样的猜测很有道理，因为桥的一半如今都被压在了火车底下，而另一半却被铁索吊着，显然铁索并没有遭到损坏。所以说，一定是守桥人失职造成的。

事故发生在夜里3点15分，出事的火车是晚上11点45分从墨尔本出发的37次列车。出事后，最后一节没掉下去的车厢里的列车员马上求援。无奈电线杆也被撞断了，电报、电话全都不通。所以当卡斯尔门主管的当局在3个小时后赶来，在当地殖民总监米切尔先生，以及一群警务人员组织起抢救工作时，已经是早晨6点了。

在这种情况下，有很多“坐地人”也赶来帮忙。那时候，火烧得很旺，他们要做的首先是灭火。

路基斜坡上，躺着几个面目模糊，烧得不成样子的尸体。想从火海里拖出活人来，想必是不可能的事。一节节的车厢，不到一会儿便都烧光了。整列车上总共有多少旅客，没有人知道，只有最后一节车厢里的10个人幸免于难，但也受了伤。铁路当局急忙派救护车将他们送去了附近的医院。

爵士向负责此事的总监表明了身份，和警官聊了起来。那位警官长得高而瘦，看上去机智又镇定。不过，面对这样的惨剧，他也有些束手无策，所以当爵士说了句“真是一场惨剧啊”时，他冷冷地说：“岂止是惨剧，爵士！”

“那……还有什么？”爵士惊叫道。

“更是一场罪行！”警察面无表情地说。

爵士不知道该说什么，他看了看总监米切尔先生。米切尔说：“没错，爵士！我们觉得这里面一定大有文章。很可能是最后一节车厢的人遭到了抢劫，那没有遇难的五六个人很可能是受到了歹徒的袭击。因为守桥员失踪了，而转桥也被转开，所以不能说是守桥员的责任，当然守桥人也很可能是同伙。”

面对总监米切尔的武断，那位警官只是摇了摇头。

“你不同意我的看法？”米切尔问警官。

“对于你说有可能守桥员和那些歹徒是同伙，我不认同。”

“不过，要是没有串通的话，那些在草原上游荡的土人怎么懂转那桥的？”米切尔说。

“你这句话也有一定道理。”警官想了想说。

“还有一点，据一个船夫说，昨晚10点40分的时候，有只船曾经过康斯登桥，而当船过去后，桥就又关好了。”米切尔继续说。

“嗯，那就更清楚了。”

“所以说，没有守桥员，桥就不会再被转开，所以我认为守桥员和土人相互勾结的可能性非常大。”

米切尔的话好像警察有异议，他一直在摇头。

“警察先生，你觉得制造这起罪行的不是土人？”

“肯定不是！”

“不是土人？不是土人又会是谁？”

还没等警察回答，又一阵大声喧哗从上游半公里之外的地方传了过来，众人全都向那边涌去，将那里围得水泄不通。从人群中抬出了一具尸体，尸体是守桥员的，已经变得冰凉。而这也表明警察的观点是对的，这件案子和守桥员，以及土人都无关。

“这个案子一看就是老手干的！”警官说完，停了会儿，举举手里明晃晃的手铐说，“我一定要将这‘手镯’戴到他们手上，当作他们新年的礼物。”

“老手？你怀疑是……？”

“一定是那些乘坐英王陛下的船不用付钱的人干的。”

“什么？你是说流犯？”巴嘉勒尔知道澳大利亚殖民地的一些俗语，惊叫道。

“我以为维多利亚省是不允许流犯停留的。”爵士说。

“哼！那只是法律这么说，法律对他们来说顶屁用，他们是不会遵守的，会偷渡过来。如果我没猜错，他们一定是从柏斯来的，所以他们一定还会回柏斯的，一定会的，我以我的身份保证。”警官说。

米切尔同意警官的说法，点了点头。此时，牛车也已经到了铁路和公路的交叉口，不过爵士不想让海伦夫人和玛丽小姐看到这种惨状，所以和米切尔及警官打了声招呼后便告辞了，随后招呼其他同伴一起离开灾难现场。

“我们不能因为这些事情耽误我们的行程。”他说。

几个人到了牛车旁后，爵士说了列车出轨掉落河里的事，却并没说出原因，也没描述那惨烈的场景。他准备抽个时间告诉阿埃童。

一行人在离桥头几十公里的地方越过了铁路，继续向东行进。

没过多长时间，牛车就进了一个山坳。山坳虽然狭窄曲折，但风景却很美，有很多美丽的树木，那些美丽的树木一丛丛地生长着，又一丛丛地被隔离开来，如同热带树木。在这些树中，最漂亮的是一种叫“卡黍林拉”的树，这种树有着像橡树一样的躯干，枝头上结着如同豆球花一样的香荚，树叶是青绿色的，很粗糙，有些像松树的叶子。

在一棵棵的“卡黍林拉”树中，他们还看到了一种“盘杉”，这种“盘杉”虽然不肥壮，但却很挺拔。它们有着奇特的形状，树顶为圆锥形。

树丛里有很多灌木的细枝倒垂下来，如同一条条绿色的溪流，这样美的自然风景，让人不能不欣赏。因此，海伦夫人提议暂停一会儿。于是，牛车的轮子不再咯吱咯吱地响了，四周一片寂静，树丛下那绿色的青草如同地毯一般铺张开来，大自然将这张绿色的地毯画上了细格，犹如一块大大的棋盘。

实际上，这片优美之地是为长眠于地下的人创造的，不过，因为墓地被荒草掩盖，所以他们并不知道。

“这是一片墓地！”巴嘉勒尔还是看出来了。

是的，这是土人的墓地，只是在不知道的人面前，它呈现出的是绿树成荫，以及快乐飞翔的小鸟。一切都显得那么美，在这一刻，所有人内心的阴郁全都一扫而光。这样的地方，简直可以算得上风水宝地，死神也被大家遗忘了。

如果不是白人入侵，不是白人将土人赶离他们祖先长眠的风水宝地，那么，土人是幸福的。但很可惜，土人的这神圣之地被殖民者带来的牛羊肆意践踏，就连墓地上的树林也变得稀稀落落，时间一久，坟地便被行人踩平了。

此时，巴嘉勒尔和小罗伯尔沿着墓地旁的林荫之地散步，他们边走边聊，聊得很投机。不过在走了几百米后，爵士发现他们停了下来，而且还下了马，低头在看着什么。看他们的样子，像是发现了什么稀奇古怪的事情。

赶着牛车的阿埃童催促牛，赶到了他们所在的地方，大家便知道巴嘉勒尔和小罗伯尔停下来的原因了。原来，他们看见了一个8岁的小土人，是个男孩。男孩穿着欧式服装，在一棵浓密的大树下睡觉。从他的外表他们便看出了他的种族：他有着一头鬈曲的头发，以及接近棕黑的皮肤。他的鼻子有些塌，长着厚厚的嘴唇，双臂很长，是典型的棕色人种。

不过，从他机灵的模样上又能看出，他和一般土人有所不同，很可能接受过一些文化教育。

看见小孩子，海伦夫人很关心，急忙下了车。当他们全都围在小孩周围时，小孩依然在酣睡。

“可怜的孩子，一定是在荒郊野外迷路了。”玛丽小姐说。

“我觉得他一定是来这里扫墓的，也许这里埋着他的亲人。”海伦夫人说。

“我们不能不管他，他一个人孤零零的……”

小罗伯尔还没说完，便见小男孩翻了个身，但却没有醒来，不过大家从他翻过来的背上发现了一个小牌子，上面写着：“陶林勒到俄丘卡去由服务员史密斯负责照料车资已付”。

大家茫然而惊讶。

“这一定是英国人干的，他们将孩子像包裹一样寄出去，只付过‘邮资’就不管了。我以前就听说过，不过原来不相信，没想到是真的。”巴嘉勒尔气愤地说。

“可怜的孩子！他是不是乘的就是那辆脱轨的火车？会不会是他的父母出了事，留下了他一个人？”海伦夫人喃喃着。

“我觉得不会，这牌子上的字，说明他是一个人来的。”麦盖尔说。

“看！他醒了！”玛丽小姐说。

确实，小男孩醒了。在他慢慢睁开眼睛时，因为太阳光的强烈，他马上又闭上了眼睛。海伦夫人拉住了他的手，他站起来，看着周围一圈人，吓得脸色煞白。但慢慢地，他平静下来。

“你懂英语吗，小朋友？”海伦夫人亲切地问。

“懂一点！”小男孩用带着很深乡音的英语回答。

“你叫什么名字？”海伦夫人又问。

“陶林勒。”小男孩说。

“哦，陶林勒，澳洲话是不是‘树皮’的意思？”巴嘉勒尔插话道。

小男孩点了点头，随即又把脸转向了海伦夫人。

“你是从什么地方来的，陶林勒？”海伦夫人又问。

“我从墨尔本来，到萨塔斯特去。”

“你是坐康斯登桥出车祸的那辆火车？”爵士忍不住问。

“是，先生！”

“你一个人出远门？”

“不是出远门，我是回家。巴克斯顿牧师把我交给史密斯先生，让他照顾我，但可怜的服务员史密斯摔死了。”

“火车上你就没有认识的人了吗？”

“没有了，先生！”

一个几岁的孩子，没有家人的陪伴却来到了一个荒无人烟的地方，他为什么不在康斯登桥等着，却要来这里？海伦夫人满是疑问，于是又问了几个问题。

最后才得知，他是要回老家纳克兰，那里有他的家人。

“你有爸爸妈妈？”小罗伯尔问。

“有！哥哥！”陶林勒见小罗伯尔问他，一边回答一边握住了他的手。小罗伯尔听到别人叫他“哥哥”，非常高兴，一下子抱住了他，吻了起来。两个人很快就成了朋友。

此时，大家对陶林勒都有了兴趣。看见太阳已经西下，马上就到了休息时间，也便觉得赶那几里路没什么意思，不如扎营休息。

很快，阿埃童拴好了牛，帐篷也搭好了。奥比尔准备的晚饭很快就端了上来。大家邀请陶林勒一起吃晚饭，陶林勒虽然肚子很饿，但却客气地拒绝着。

最终，他还是坐了下来，并和罗伯尔坐在一起。罗伯尔不停地给陶林勒夹菜，陶林勒一边说着谢谢，一边大口地吃了起来。

陶林勒是个可爱的孩子，虽然稍稍有些拘谨，但却很讨人喜欢。

大家吃饭的时候，并没有中止谈话，他们都很关心陶林勒，不断地问这问那。其实他的情况很简单，就和很多小土人一样，小时候被送到了殖民地的慈善机构。在那里，他们的性格变得越来越温和，从不仇视其他人，而且还经常穿着原始服装，在大街上跑来跑去，有些还会出售一些像渔具、猎具、武器等等的工艺品。

而那些土人部落的首长，为了省钱，也喜欢把自己的孩子送去慈善机构接受教育。

陶林勒的父亲便是如此，他们让陶林勒在墨尔本待了5年，5年里从未见过一个亲人。不过，有着思乡之情的陶林勒很想回老家，甚至决定不管受多少辛苦，也要回去看看，哪怕看到部落流散，家人已经不在也好。

“见了父母后，你还会回去吗？”海伦夫人问。

“要回去的，夫人！”陶林勒回答海伦夫人道，他的眼神很诚恳。

“你以后想做什么？”

“我要解救贫穷和愚昧的同胞，我要给他们自由的生活！”陶林勒大声说。

虽然这句话是从一个8岁的孩子嘴里说出来的，但却没有人嘲笑。他们这些苏格兰人都被小陶林勒的勇气和精神感动了，对他也就越发地尊重起来。而巴嘉勒尔更是有着说不出的感动和同情。

说实话，巴嘉勒尔不太喜欢穿欧式服装的小土人，他希望看到原始的，赤身裸体，身上刻有花纹的小土人，因为澳大利亚到处都是穿着欧式服饰的小土人，所以他很鄙视他们。但小陶林勒的一席话，让他的态度发生了改变，甚至开始佩服这个小土人，之后，他也成了陶林勒的好朋友。

在海伦夫人问陶林勒在什么地方读书时，陶林勒说在墨尔本师范学校，还说巴克斯顿牧师是他们的校长。

“平时你们都上什么课？”海伦夫人又问。

“圣经、数学、地理……”

“哇，你们上地理？”地理学家巴嘉勒尔兴奋起来。

“没错，先生！放寒假的时候，我的地理考试还考了第一名呢！”陶林勒说。

“太厉害了！地理课能得第一名。”

“给你看我的奖品！”陶林勒从他的衣服口袋里拿出了一本32开本的

《圣经》，上面第一页写着：“墨尔本师范学校，地理课第一名，奖给陶林勒，纳克兰人。”

一个澳大利亚土人，却很喜欢地理学，这让地理学家巴嘉勒尔很意外，也很高兴，他抱起陶林勒，不停地亲吻着。陶林勒对他这种亲密的表达方式感到很迷惑，海伦夫人解释给他听，说巴嘉勒尔是著名的地理学家，要是他站在讲台上讲课的话，一定是个出色的教授。

“啊！您是地理学教授？那您考考我吧！”陶林勒高兴地说。

“让我考你？我求之不得！让我好好看看墨尔本师范的地理课都讲了些什么。”

“陶林勒一定会让你大吃一惊的，巴嘉勒尔先生，小心点！”少校逗巴嘉勒尔说。

“哼！太小看我了，我可是堂堂的地理学会秘书！”

巴嘉勒尔说着，用手扶了扶鼻梁上的眼镜，接着像教授一样，用庄严的语气说：“陶林勒同学，站起来！”

陶林勒原本就站着，听他这么一说，一挺胸，恭恭敬敬地等着回答巴嘉勒尔的问题。

“世界上的五大洲包括哪些？”巴嘉勒尔问，那时候还没有南极洲之说。

“亚洲、非洲、美洲、欧洲、大洋洲。”陶林勒脱口而出。

“嗯！不错！那么大洋洲分几部分？”

“分三部分，分别是波利尼西亚、密克罗尼西亚、美拉尼西亚。那里的主要岛屿有澳大利亚，属于英国；新西兰，属于英国；塔斯马尼亚，属于英国；查坦姆、奥克兰、马加利、马金、马拉基等，都属于英国。”

“怎么回事？难道整个大洋洲都在大不列颠的保护之下吗？我可没那么认为，我觉得法国……”

巴嘉勒尔大叫着，还没说完，便听陶林勒吃惊地说：“什么法国？”

“墨尔本师范就教你们这些？”巴嘉勒尔问。

“没错，先生！难道他们教得不对吗？”

“对！教得对极了，教得整个大洋洲都成了他们的了！”

巴嘉勒尔吃惊又懊恼，少校被他的样子逗得直想笑。

“唉！我们还是说说亚洲吧！”巴嘉勒尔有些有气无力。

“亚洲的都城是加尔各答，主要城市有孟买、马德拉斯、亚丁、马六甲、新加坡、曼谷、科伦坡；岛屿有拉克代夫群岛、马尔代夫群岛、查哥斯群岛等等，都属于英国。”

“好了，好了！我的好学生，我们还是来谈谈非洲吧！”

“非洲有两个主要殖民地，南边是好望角殖民地，都城在开普敦；西边是些英国居留地，主要城市是塞拉勒窝内。”

“嗯！这还差不多！”巴嘉勒尔稍稍松了口气，他知道，教陶林勒的一定是个英国狂。

“不错，对于阿尔及利亚、摩洛哥、埃及……把它们都从英国的版图上剔出去。我们现在再来谈谈美洲吧！”

“美洲分为南美和北美。北美属于英国，其中包括加拿大、新布伦克、新苏格兰，还有北美合众国，约翰逊任当地总督。”

“什么？约翰逊总督？他就是林肯总统的继承人啊！你了解得还真多！对于南美，像圭亚那、佐治亚、牙买加、特立尼特等地都属于英国没错，我不说了，但我不知道你们老师对欧洲怎么看？”

“欧洲？”陶林勒说完，看了看巴嘉勒尔，他不知道巴嘉勒尔为什么会那么激动。

“没错，欧洲，你说它属于谁？”

“当然是英国！”陶林勒毫不犹豫地说。

“我早知道你会这么说。欧洲包括哪些地方？”

“欧洲有英格兰、苏格兰、马耳他岛、泽西岛、昆西岛、塞得兰群岛，它们都属于英国。”

“好的，那你想想，还有其他国家吗？孩子！”

“别的国家？好像没有了。”

“怎么会没有呢？还有奥地利、西班牙、俄罗斯、法兰西呢？”

“这些不是国家，是省份。”

“胡闹！”巴嘉勒尔气得拿下了鼻梁上的眼镜。

“难道不是吗？西班牙的省会是直布罗陀。”

“太好了！真是太好了！那么法兰西呢？难道法兰西也是英国的一个省？”

“没错！先生，省会是加莱！”

“加莱属于英国？”

“当然是喽！”

巴嘉勒尔哈哈大笑起来，陶林勒茫然地看着他。在问陶林勒问题的时候，陶林勒也在积极地回答，但让大家没有想到的是，他回答得竟然那么荒诞滑稽。大家都笑了起来，陶林勒却丝毫没有慌张，只是平静地等着大家笑完。

“怎么样，亲爱的地理学家？你是不是大开眼界了？”少校笑着说。

“少校！你说得对极了。看看墨尔本的老师教得多好，整个世界都是英国的了，这样的教育方法，土人怎么可能不被驯服？”巴嘉勒尔说完，把脸又转向陶林勒，“孩子，我问你，月球呢？月球是不是也属于英国？”

“没错！月球以后一定会属于英国的！”陶林勒大声说。

巴嘉勒尔听完站了起来，他很想笑，无法在原来的地方待了，他要找个地方好好笑一场。所以他跑到了帐篷外的地方，大笑了一场。

此时，爵士拿出一本书，是理查逊著的《地理学简论》，这本书在英国很受重视，而且比陶林勒的老师教得更准确。

“孩子！这本书送给你，留个纪念吧。这本书里的知识可以纠正你地理学上所犯的一些错误。”爵士说。

陶林勒接过了书，但却什么都没说，他只是看了看书中的一些插图，一脸的不相信，并不愿意放进口袋。

此时天已经黑了，明天还要赶路，大家不得不休息，而罗伯尔也邀请陶林勒和他一起睡觉，陶林勒答应了。很快，海伦夫人和玛丽小姐便回到了她们的牛车，而男人们都在帐篷里躺了下来。此时，巴嘉勒尔还在外面哈哈大笑，他的笑声和鸟鸣声交织在一起，如同交响乐一般。

第二天早晨6点钟的时候，被鸟叫声惊醒的人们发现陶林勒不见了，他是因为太思念故乡，想早点回去，还是因为巴嘉勒尔的狂笑让他生气了呢？没有人知道。

不过，海伦夫人醒来后发现，她的旁边有一束新鲜的单叶含羞草，而巴嘉勒尔的衣服口袋里则有爵士给陶林勒的那本理查逊著的《地理学简论》。

第二十九章 出黄金的地方

莫契勋先生是伦敦皇家地理学会会长。1814年，他曾研究过澳大利亚南海岸由北向南的那条山脉，从那条山脉中，他发现其地质构造和乌拉尔山非常相似。乌拉尔山有一条山脉专出金子，所以这位地理学家就想，澳大利亚的这条山脉会不会也含有贵重金属呢？

显然，他的猜测没有错，仅仅两年后，有人就从新南威尔士给他寄了两块金矿标本。之后，他便决定向新荷兰的金矿区输送一批劳务。

在南澳最先发现金沙的是杜彤先生，而在新南威尔士最先发现金矿床的则是弗白和斯密士先生。

这些金矿的发现，震惊了掘金人，出现了全世界的“淘金热”，特别是奥菲尔城的产金量最大，发展最为迅速，真正无愧于和《圣经》里的金国同名。

不过，直到那时候，维多利亚省有金矿的事知道的人并不多，直到1851年，这个地方才掘出了金沙。很快，巴纳茨、奥温河、本迪哥和亚历山大就被测出含金量也很丰富。不过，由于开采条件限制，前三个产地的开采量并不大，只有亚历山大的矿石质量高、分布均匀，所生产出的金子价格也到了1411法郎一斤，创了全世界市场价格的最高纪录。

如今，由于处在南纬37度，所以这支远征队也慢慢地向那个金矿区走去，这是一个让很多人发财，但也让很多人破产的地方。12月31日，他们一行人在崎岖蜿蜒的路上走了一整天之后，终于看见了金矿山那圆

圆的顶部。当晚，他们将牛马放开，让它们随意吃草，自己则在一个山坳下休息。

第二天，也就是1866年的元旦，他们向那条黄金之道走去。

能够经过这座著名的金山，每个人都觉得很庆幸。亚历山大山用澳大利亚土语来说又叫“吉坡”。这里曾是很多冒险家光顾的地方，在这些冒险家里，有良民，也有强盗；有别人要他们命的，也有他们要别人命的。特别是在1851年，在“黄金热”像瘟疫一样四下蔓延时，很多人为了得到黄金，客死他乡。不过即使那样，还有很多人执着地认为，上帝为大家撒下了黄金种子，该是收获的季节了。于是，这些人前仆后继地来收获金子。

当然，黄金虽好，却也不是每个人想得就能得到的，虽然一锄头挖下去便发了财的人不少，但累死的人也不少。而对那些想发财的人来说，死的人他们是不会去说的，说的全是发财的人，这一传十，十传百，百传千……一下子便传遍了。野心家们更多地涌向了澳大利亚大陆，墨尔本光移民就有5.4万名，这些人大多是无恶不作的抢劫犯，甚至连警察和士兵都做起了抢劫的勾当。

在那个黄金狂热、秩序混乱的年代，英国当局竟然用他们惯常的沉着控制了这个局面。首先是那些警察和士兵改邪归正了，因此，当爵士一行再经过这里时，便没有出现混乱场面。

如今，13年过去了，开采金矿的事业虽然如火如荼，但因为被严格控制，却也井井有条。

不过，年复一年被开采的金矿，已经“千疮百孔”了，如同白蚁啃噬木头，内部严重损坏，已经没有什么金子可以开采了。

将近中午11点的时候，他们来到了矿区的中心，这是一座新兴的“城市”，“城市”里有工厂、别墅、教堂、银行、报馆、旅馆、农庄、游乐场，甚至还有剧场。剧场正在上演一部风光剧，剧名叫《幸运的掘金人》，结局是主人公久掘而得不到金，失望中，最后一锄挖出了一块大大的金块。

来到了世界闻名的金矿，爵士好奇心倍增，也想去看亚利山大的采金区，所以他让阿埃童先赶牛车在一个地方等他们，他们参观完后就找他汇合。这一想法正合巴嘉勒尔的意，和往常一样，他自告奋勇要去当向导和解说员。

就这样，他们从用碎石铺就的宽阔马路上走过，马路上因为洒了水，所以没有多少灰尘。路两旁全是一些“黄金有限公司”“掘金人总办事处”“块金总汇”等等大招牌，非常引人注目。

看来，劳动力和资本联合起来也替代不了过去的单干形式，到处都是轰隆隆的机器声。再往前走，他们看见地面上有不计其数的洞眼。而工人们正拿着锄头，在阳光下挖着什么。这些正在挖掘的工人说着各种语言，但彼此并没有争吵，只是埋头拼命挖着。

“不要以为没有赤手空拳来找金子的人。虽然矿区由政府买来出租，所以很多挖金子的人都是一些公司雇用的，但还有一些既买不起地方，又想要金子的人，也就不得不冒险来挖金子了。”巴嘉勒尔说。

“既然是被政府出租的，不交钱的人又是怎么挖到金子的？”

“有种说法叫‘跳坑’。就是说，他们虽然在矿床上无法开采，但只要运气好，也可以挖到金子。”巴嘉勒尔说。

“是怎么挖金子的？”少校又问了一句。

“我不是说了吗？‘跳坑’呀！”巴嘉勒尔有点不耐烦了。

“可你没说怎么‘跳’呀。”少校又问。

“‘跳坑’是这里的一种风俗，虽然可能会引发凶杀和骚乱，但政府部门却是无法取缔的。”

“我们是问你怎么‘跳’，你可真会吊人胃口。”

“我不是马上就要说了吗？这里有个公认的规矩，就是说任何一个矿区，除非遇上重大节日，不然如果24小时无人开采，那么这个矿区就变成公用地了。这时候，如果老天保佑你，你就可以在上面开采。所以说，小罗伯尔，你要是运气好，找到这样一个矿床的话，那里就归你所有了。”

“先生，请不要教坏了我弟弟。”玛丽小姐沉着脸说。

“小姐，不要生气，我就和他开个玩笑。你说，他会挖金子吗？永远不会的。那挖金子也不是简单的事，要掘地、翻地，还要播种施肥，只有这样才会有所收获。如果像老鼠打洞一样，东挖一下，西刨一下，根本就没办法找到金子。而且这种找金子的方法，也是那些走投无路的人才干的事，小罗伯尔是不会干这种事的。”

参观了主要的矿场后，他们在细沙铺成的马路上走了不一会儿就到了银行。银行的建筑很高大，屋顶竖着国旗，爵士一行不仅得到了银行总监的接待，而且还允许他们进去参观。银行里存放着从各公司搜集来的金子。银行总监拿着一些形状怪异的金子标本，告诉他们开采金子的方法。

生金的形状大致分两种，一种是卷形金，一种是分解金。这两种金子都属于矿石块，当金子和泥土混合在一起或者包在硅石里时，开采就要以土质的不同，分别使用地面开采或深度开采的办法了。

而如果是卷金，则通常分布在有急流的山谷或深沟处，一般根据体积的大小，对它们进行分层，上面的是金粒，下面的则是金片，金片越到下面越薄。如果想把金子进行分解，通常是将外部的硬皮先分解掉，然后将分解好的金子做成金团，而这金团，通常就是一个人的资产了。

在亚历山大，金子往往分布在黏土层或者青石片层的夹缝里，所以一些运气好的人还有可能从黏土层或夹缝里找到大片的金块，这样的地方也被称之为“金窝窝”。

在银行参观完生金标本后，他们又去了矿物陈列馆——这里陈列着很多澳大利亚土壤形成的各种矿物质。澳大利亚并不仅仅只有金子这一种矿产，整个澳大利亚大陆如同一个巨大的聚宝盆，所以这里摆放着很多珍宝。

比如玻璃橱里那闪闪发光的白色黄玉，完全能和巴西的黄玉媲美。除此之外还有珍贵的石榴石、墨绿的石帘石、玫瑰色的红宝石、亮晶晶的金红石，以及投龙河两岸生产的小粒金刚钻。

总之，展柜里摆放着琳琅满目的珍宝，应有尽有，品种很齐全。这些珍宝就差将它们做成首饰摆在首饰店里了，想必如果真用这种珍宝做成首饰，一定会被一抢而空的。

爵士在告别了银行总监后，出了银行，带着大家去参观矿床。

一路上，即使是将金钱置之度外的巴嘉勒尔，也在不停地朝地下

看，好像在寻找什么宝贝。大家和他开玩笑，他也毫不在乎，依然故我，甚至时不时地弯下腰来，捡起一块石头研究一番，随即又带着鄙视和失望丢掉，一路上都是如此。

“亲爱的地理学家，你这是丢了什么东西吗？”少校取笑他。

“是的，走在生产金子的地方，总觉得有宝贝掉在了地下，不知道为什么，所以我决定了，我要找块金子带走，越重越好。”

“要是你真找到了，你会怎么做，巴嘉勒尔先生？”爵士笑着问。

“如果我真找到了，那我.....我就献给我们国家，然后存在法兰西银行。”

“你觉得银行会接受你这块金子吗？”

“为什么不接受？他们可以作为建设铁路的公共基金嘛！”

大家对他的爱国精神大加赞赏，海伦夫人也祝愿他能找到一块世界上最大的金子。他们一边开着玩笑，一边向周围的矿区走去，他们看到，到处都有工人在规划地方，并机械地劳动着，不过看上去没什么热情。

参观完后，爵士带着大家去了一家小酒馆，等着和牛车会和。既然来了酒馆，他们也就趁着等阿埃童的时间吃了点东西，巴嘉勒尔还叫来老板，要了些当地的饮料。

服务员送来的饮料实际上也是英国的一种水酒，不过因为酒多水少，所以又加了一些糖。这种纯澳大利亚的饮料，让来自欧洲的他们很不习惯。所以在接过酒杯后，他们又兑了一些水，将它变成了真正的英

国水酒，他们的做法，引起了服务员的好奇。

喝完酒之后，他们又聊了一些掘金人的事。巴嘉勒尔对他所看到的一切都很满意，不过也有一些遗憾，那就是当年亚历山大大规模采金的时候，他没有来参观，他觉得如果那时候来参观的话，一定会比现在还有意思。

“那时候，地面上全是一个个的小洞，那些小洞里都是像蚂蚁一样的掘金人，他们遍地挖洞，非常厉害。不过，这些人实在太没远见了，只知道过奢靡的生活，挣再多的钱都不够他们挥霍。我们现在坐着的小酒馆，当年就被说成是‘地狱’，因为这里全都是些赌博的人，这些人时不时地还会带上刀子，连警察都不怕。没办法，政府只好找来军队镇压。军队来了后，这些人也就规矩多了，开始纳税。当然，虽然征税并不困难，但秩序却比加利福尼亚还乱。”

“采金这一行，是谁都能做的吗？”海伦夫人问。

“没错，夫人！采金不需要文凭，只需要健壮的身体就行了。那些被贫困逼得背井离乡的人，大多身无分文，有钱的带锄头，没钱的带刀，当然，不管有钱没钱，能做正经事的人，绝对不会做这么疯狂的事。于是金矿区的周围就出现了一些怪现象，比如到处都是帐篷、船篷、草棚，以及由泥土、木板和树叶搭起的小屋。而这些简易棚子中间就是总督府的大厦，上面还挂着英国国旗。当然，还有公务员们住的蓝布帐篷，以及一些换金小贩、收金商建的各种店铺。

“那些收金商赚的当然是那些很富的人和很穷的人的钱。很富的人有金子卖给他们，那些穷人则用体力挖金，也卖给他们。所以在那时候，真正赚钱的就是他们。而那帮长着长胡子，穿着红色羊毛衫，拿着

锄头的掘金人则整天生活在水里泥里，闻的是四处散发着的腐臭味。那些难闻的，让人窒息的灰尘像烟雾一样笼罩在他们身旁，所以他们的寿命都很短。如果遇到澳大利亚天气不好的时候，一场伤寒病就能让他们十个人中死去九个半。所以对于那些冒险家来说，他们拼命掘金大半辈子，真正发财的有几个？那时候有一二百人都在绝望中死去。”巴嘉勒尔说。

“那又是怎么采金子的呢？巴嘉勒尔！”爵士问。

“采金子嘛，非常简单，那些为了采金子做的初期工作叫淘金。当然，现在完全不用这道程序了，现在开发公司会直接找到金脉，然后去那里采金片、金叶和金块。而淘金者只淘金，也就是从沙子里淘金。比如他们会先挖地，把认为能出金的金层挖出来，然后再用水冲洗，将金子和沙子分离开来。这种分离有个工具，是从美国传来的一种摇床。摇床的样子像个两米长的盒子，没有盖子，里面分成两层。第一层有粗铁丝网，粗铁丝网下又有几层细铁纱网；第二层的下半部分很窄，淘金的时候通常是把含金的沙土放在第一层，在用水冲洗后再进行搅动，让石块留在粗纱上。而那碎金和细沙则根据其体积的大小，留在了每一层的细纱网上，土则变成泥水，流到了第二层的最下端。最简单的淘金机就是这样构造的。”

“是很简单，但怎么说也是一种工具。”麦盖尔说。

“就是，有些人为了更便宜，还会购买二手货，如果实在没钱买，也可以不要。”巴嘉勒尔又说。

“那要是不用这种工具，又要用什么来代替呢？”玛丽小姐问。

“一个大盘子簸箕。不过，这样筛选出的就不是麦粒，而是金粒

了。在刚刚开始采金的第一年里，许多采金人不用什么本钱就发了财，就是用这种方法。那时候，遍地都是黄金。溪水在矿床上流，所以整个墨尔本的街道，好像都是金沫子。1852年一个月，从亚历山大运到墨尔本的黄金价值就有823万法郎。”

“和俄罗斯皇帝的年薪差不多了啊。”爵士说。

“那皇帝真可怜！”少校说。

“有一下子就发财的吗？”海伦夫人问。

“当然有，夫人！”

“能给我们说说吗？”爵士问。

“1858年，在巴纳茨，有人就找到了一块573两重的金子；在吉普斯兰，有人找到了重782两的金子；1861年，又有人找到了一块重达834两的金子。在这里，有个采金人还发现了一块重65公斤的金子，这要是以722法郎半斤来计算的话，这块金子的价值就是22.386万法郎！也就是说，一锄头下去，会挖出1.1万法郎的年金，很厉害吧！”

“那是不是这些黄金的发现，让世界的黄金量增加了呢？”麦盖尔又问。

“肯定增加了，而且增加了很多。19世纪初，每年全世界的黄金产量也就4700万法郎，现在应该到9万万法郎以上了，甚至接近10亿了。”

“那是不是说，我们的脚下有很多黄金？”小罗伯尔问。

“没错，孩子！说不定有几百两呢。不过，我们之所以将它踩在脚

下，是因为我们不看重这些东西。”

“那澳大利亚是不是个很富饶的地方？”

“那也不能这么说，因为这地方虽然出金子，但却也养了一群闲人，他们终日无所事事，骄奢淫逸。所以说，最好的地方应该是出铁，而不是出金子。出铁可以让人们制造劳动工具，然后投入到劳动中去，这既锻炼了身体，又创造了财富。”

聊天就此结束，之后他们便在第二天太阳刚刚升起的时候，离开了产金区。同时，也走出了吉坡区的边境。

一行人走在了尘土飞扬的达尔令西区的路上，几个小时后，他们走了大约一半的路程。

一路上如此顺利，说不定半个月就能到达杜布湾的海滨了。到目前为止，大家的身体还能承受，而牛马也没有觉得疲累。地理学家巴嘉勒尔说澳大利亚的气候宜人，这话确实没错，天气不是很热，也没有多少潮气，人和牲畜都很舒服。

不过，自从他们看到康斯登桥火车脱轨后，一行人就有了戒备，好像以前的预防措施都不够用了，并多出了很多规定，比如打猎的人不能跑出牛车太远，必须保证在牛车的视线范围内；夜晚必须留人看守牛车，早晚必须装好子弹……知道有强盗出没，他们的心里有了担忧。

当然，精神的高度紧张和添加保安措施，爵士他们并没有让海伦夫人和玛丽小姐知道，以免她们担心。

这些保安措施非常有必要，因为稍不注意，就可能引发乱子。而且不止爵士他们一行有这个顾虑，城市里的居民和牲畜站上的一些“坐地

人”，他们也时刻地提防强盗偷袭。所以一到天黑，家家都关门闭户，院子里也都拴上了狗，一有动静，狗便狂吠起来。而那些牧人，每天早晚放牧回家，没有一个不佩枪的。这种紧张的气氛也是他们不得已而为之，一个个血案的发生，不得不让他们神经紧绷，提高警惕。

不要说市民，就是政府当局也很小心，就连那到乡下去的邮车，也要宪兵队跟着。以前邮车在跑上奔驰非常放心，现在都成惊弓之鸟了。这天，爵士一行人穿过马路时，看到有辆邮车疾驰而去，后面扬起很大的灰尘，虽然只是匆匆驰过，但爵士还是看见车子里坐着荷枪实弹的警察。

当年，黄金狂热的时候，欧洲社会上的一些好逸恶劳、梦想发财的人都涌向了澳大利亚，现在如此戒备，好像又回到那时候了。

在穿过基莫公路一公里之外后，牛车钻进了一片桉树林。这片桉树林特别大，包括了几个经纬度。从白洛夷加出发后，穿越这么一大片丛林还是第一次。

看到这些约60米高，树皮有15厘米厚的大桉树，大家忍不住发出了赞叹声。这些树的枝干非常粗，差不多有6米，桉树上有带着香味的树脂流出，树脂堆集到离地面45米的高度。在如此高度下，树枝上是不会生出枝芽的，甚至树干上连一个疙瘩都没有，就像被木匠用刨子修理过一样。

这些大树一棵棵地排列着，一排就有几百棵。而这些树也只有到了一定的高度后才会分枝，所分的枝左右对称。同时，每个树枝上都长满了树叶，叶子里有大朵大朵的花，那些花如同一个个的钵盂，看上去非常壮观。

好在这片树林里，空气对流很好，风将树林里的潮气全都带走了。而由于树与树之间隔着一段距离，所以可以让牛群、马群畅通无阻。这里不像原始森林，没有密集的树枝，也没有荆棘横生，更没有倒下的树干，以及树干上那纠缠在一起的藤条。

通常要想进原始森林，需要刀砍火烧，但在这里不用。当他们进入森林后，看到的地面全是由浅草铺就的，苍翠的树木和天地形象地形成了一根根的“擎天柱”，一眼望不到边。

虽然这片树林里树荫不多，也不凉爽，但林子里还是会有阳光像隔着薄纱一般地渗进来，在给大家带来热度的时候，也带来了一点光明。树林里的树影很规则，阳光洒下的光影也很清晰……一切的一切，仿佛都将大家带入到了一种仙境，给人一种全新的感觉。

澳大利亚的森林和欧洲大陆上的森林确实不一样，森林里生长得最多的就是品种繁多的金娘科，金娘科也是澳大利亚植物种类的代表。在如此苍翠的树荫下，暗影形成得并不深，之所以这样，都是因为叶子长得奇怪的原因。因为这些树叶的平面并没有向着太阳，反而是那刀口式的侧面正对阳光。

当人们迎着阳光看过去后，看到的只是树叶的侧面，所以阳光透下来时，就像透过百叶窗或纱窗一样。

大家都注意到了这一点，也都感到稀奇。不过地理学家巴嘉勒尔却没有觉得稀奇，他解释这个现象说：“树叶形状离奇并不奇怪，是造物主的作用，之所以让它拥有这样的形状，自有它的道理。不过植物学家将它命名为‘尤加利’，我就觉得有些奇怪了。”

“‘尤加利’是什么意思？”玛丽小姐好奇地问。

“‘尤加利’是一种桉树的名字，来自希腊文，是‘庇荫之利’的意思。植物学家们拿希腊文给树起名字，就是为了不让人发现这个错误，因为很明显，这‘尤加利’根本就没有庇荫的好处。”

“巴嘉勒尔先生，我们同意你的说法，不过不用说这事了，还是说为什么叶子会这么长吧！”爵士说。

“这是因为地理学和植物学的原因。你们应该知道，这一带的空气非常干燥，降雨量少，土壤干燥，树木内的汁液也不多，为了生存，它们必须躲避阳光来保护自己，防止被蒸发，于是，它们全都侧着面对太阳，不让正面照着。看看，没有比叶子更聪明的了吧！”巴嘉勒尔解释说。

“也没有比这树叶更自私的了，只顾自己，不替行人考虑！”少校反驳道。

除了巴嘉勒尔，大家都赞同少校的说法。巴嘉勒尔抹着额头的汗，说在没有阴凉的树下走路，也是一种享受，而且这种享受非常难得。不过，虽然巴嘉勒尔在痛苦地享受着，但桉树叶子的生长方式，仍然得不到人们的真正喜欢，因为穿越这片林子需要很长时间，被头顶的烈日照着，让人有些吃不消。

牛车在桉树林里慢慢地行走，一路上，他们没有碰到一只野兽，也没有遇见一个土人，陪伴他们的只有树上的几只鹦鹉。这些鹦鹉有些在枝头唱歌，有些则穿行在远处的树枝间隙，只留一抹五彩斑斓的影子给他们。

总之，在这无边无际的树林里，除了鸟声和马蹄声，一片寂静。

好像生怕惊动这片寂静，每个人说话都很小声，夹杂在马蹄声和车轮声中的只有阿埃童赶牛的吆喝声。

天慢慢暗了下来，爵士一行在几棵桉树下撑起了帐篷。这棵桉树被火烧过，树干不仅被烧焦了，而且也被烧空了，从树根一直通到了树顶，如同工厂里的烟囱。整棵树的外面只剩一层树皮苟延残喘。

“坐地人”烧树的坏习惯，想必是会毁灭这片森林的。不过，奥比尔在为大家做晚饭的时候，依然听从巴嘉勒尔的建议，在那个空心树里做饭——刚一点着火，那火苗就沿着那空心，一直蹿到了树顶。

吃过晚饭后，阿埃童、穆纳、维尔逊和船长轮流值班，直到日出。

1月3日，众人的眼睛始终盯着那漫长的路，好像永远都走不完似的，不过，当傍晚来临时，行走中的他们发现树丛渐渐稀疏了，又走了几公里后，平原上出现了一排整齐的房屋。

“这是塞穆尔！过了这个小镇，维多利亚省的边境就走完了。”巴嘉勒尔说。

“这个小镇有名吗？”海伦夫人问。

“就是一个简单的小村庄，现在正向市镇转变。”

“在这里我们能不能找个像样的旅馆？”爵士又问。

“没问题，能找到！”

“那么我们快去吧，让女士住得舒服一些，我想，这点她们一定不会反对！”

“当然不会反对，我和玛丽都很开心，不过最好不要太远，太远会耽误行程的。”

“不会远的，一点都不远。都累了，也该休息了，明天还要一起出发呢。”爵士说。

晚上9点钟的时候，月亮从东边升起来，穿透雾气，让四周光芒万丈起来。不一会儿，天越来越黑，一行人走在塞穆尔镇的马路上。巴嘉勒尔走在最前面，他好像对一切都很熟悉，即使是从未见过的也能说得头头是道，想必这是他的一种本能，所以他很快就领大家到了康贝儿旅馆。

在将牛马和车子都安排妥当后，大家被领到舒适的房间休息。

10点钟的时候，大家一起吃晚饭。吃饭前，奥比尔还以总管家的身份，对当晚的晚饭做了一番检查。而此时，巴嘉勒尔和小罗伯尔已经去镇上转了一圈了。不过，他们只是简单地说了一下夜游小镇的经过，也没看见什么值得他们评说的东西。

不过，如果够细心，一定会感觉到塞穆尔街上的骚动的。一群又一群的人不知在讨论着什么，你一言我一语的。说话时很紧张，也很不安。这些人中，有人在高声读着报纸，并将报纸上的内容加以评论。

这种情况，没有逃脱少校的眼睛。在他还没走出旅馆大门时，便感觉到了大街上气氛的异常。在他和健谈的旅馆经理笛克逊谈了十几分钟话后，便知道外面发生了什么事。不过他一直没有说出来，在大家吃完晚饭，两名女士也回房休息时，他留下对其他人说：

“康斯登桥上火车脱轨的凶手找到了。”

“抓到了吗？”阿埃童忙问。

“还没有！”少校说，他没有阿埃童的焦躁心理。

“真是太可惜了！”阿埃童补充了一句。

“那次事件的制造者是谁？”爵士问。

“你看一下报纸就知道了，看了报纸你也就知道警察的猜测没错了。”少校说着，递给爵士一份报纸，那是昨天的《新西兰日报》。

爵士拿着报纸，大声念了起来：

1866年1月2日，悉尼消息。大家应该记得，在12月29日的夜间，康斯登桥上发生了一起特大铁路事故。11点45分的时候，火车在经过吕顿河时，康斯登桥竟然是开着的，而从那失事的火车内看到有抢劫痕迹，而且在康斯登桥半公里处又发现了守桥员的尸体。这一切都证明，这是一起有预谋的犯罪。

果然，在经过仔细调查后得知，6个月前，在西澳柏斯的拘留中，有一批流犯在被送到诺福克岛的途中，有流犯逃跑，而这起康斯登桥惨案就是他们所为。

这批流犯共有29人，为首的叫本·吉奥兹，是个非常狡猾的匪徒，几个月前，他不知乘什么船来到了澳大利亚，虽然警方一直在通缉他，但却一无所获。

希望广大市民、移民及牧民积极预防，并协助抓捕，有消息请及时

报告给本地殖民总监米切尔。

爵士在念完这个通告后，将脸转向了巴嘉勒尔：

“巴嘉勒尔，现在你该相信澳大利亚有流犯了吧？”

“难免会有越狱的流犯的，不过正式收容的流犯确实没有。”巴嘉勒尔辩解道。

“不管怎么样，这里有流犯是肯定的了。我想，有流犯也不一定要改变我们的搜寻计划，你说不是吗，船长先生？”

麦盖尔没有说话，因为他怕说中止搜寻会让格兰特姐弟难过，但继续前行，要是出什么问题就麻烦了，所以他也不知道该怎么办，好一会儿才说：“要是海伦夫人和玛丽小姐没有和我们在一起，我倒不怕那些流犯。”

爵士明白他的想法，接着说：“我们不是说不去找格兰特船长了，不过因为有女士同行，有些不方便，我们可以先去墨尔本，然后回到‘邓肯号’上，最后再乘船去东海岸寻访失踪船员的踪迹，你觉得怎么样，少校？”

“在我发表意见前，我想听听阿埃童的意见。”少校说。

阿埃童被点名了，只好说：“我觉得我们离墨尔本有320公里，如果危险的话，向东和向南走都是一样的。两条路上同样都是人烟稀少，很荒凉，而且我不相信那些强盗会把我们这群身上有武器的人怎么样。所以照我说，除非我们有更好的计划。”

“完全正确，阿埃童！如果我们继续前行的话，很可能就找到格兰特船长的踪迹了。但如果我们掉过头向南走，那就会离格兰特船长越来越远。再说了，那批柏斯来的逃犯，我们大可不必将他们放在眼里。”巴嘉勒尔说。

这么一来，大家还是决定执行原计划。

“不过我还有个建议，爵士！”阿埃童突然说。

“有什么想法？说吧！”爵士说。

“我觉得不妨派人给‘邓肯号’下道命令，让他们将船开到东河岸去，不知道怎么样。”

“这恐怕不好吧！我觉得等我们到了杜布湾再发命令会更好一点。这样万一我们因为一些意外事件不得不回到墨尔本，也会方便一些。而且那船的问题也不轻，如果修不好强行出海的话会更麻烦，所以我觉得还是等等再发命令比较好。”麦盖尔说。

“也行！”阿埃童说，他并没有坚持自己的观点。

第二天，一行人离开了塞穆尔镇。

出发时，大家全都全副武装起来，做好了应对一切外来事故的准备。半个小时之后，大家重又进入那片桉树林。爵士情愿在旷野里行走，因为旷野比丛林安全，强盗不容易隐藏。不过现在他们没有任何选择余地，只好重又回到那单调的林中小道上去。

晚上，一行人沿着安格尔塞地区北境走了很长一段路程，过了东经146度线，大家这才在墨累县边境露了营。

第三十章 土人的生活

1月5日清晨，一行人踏进了渺无人烟的墨累区域。这片区域从墨累一直延伸到大洋洲的阿尔卑斯山一带山脉，现代文明还未触及，属于维多利亚省人迹罕见之处。截至目前，那里还只是一片处女之地，无人开发。

这片无人开发的区域在英国地图上被称为“黑人区”。当时，英国移民曾将土人粗暴地赶到了这里。因此，土人种族逐渐在这个荒僻之地消失了，而很多白种人，不管是移民、浪人、“坐地人”还是伐木人，一有需要，总会进入这个区域，甚至迫使土人不准走出森林一步。

这是种族歧视，地理学家巴嘉勒尔骑着马给大家讲这些话题。而对于这个话题，他又给出了一个结论，那就是大英帝国的殖民制度目的就是为了征服弱小种族，并把他们消灭在自己的家乡，这是个严酷的事实，随处可见，只不过澳大利亚更明显而已。

殖民初期，不管是流犯还是移民，他们都把土人不当人，只当野兽来看待，他们大肆驱逐土人，枪杀土人。在屠杀土人时，因为需要法学论据，他们便振振有词地说土人是大洋洲的劣民，杀这些卑贱的人种根本不算犯罪。悉尼的一些报纸甚至还公开提出一些消灭土人的方法，也就是大规模地毒死。

由此可见，英国人在扩展他们的殖民地时是多么的残酷，完全靠屠杀土人来实现，他们的残暴简直称得上惨绝人寰。在印度，他们曾杀害了500万印度人；在好望角，他们让100万霍吞脱人变成了1万人；在澳

大利亚，他们没有约束自己的行为，而是将大批的土人虐杀至死。

当然，英国当局虽然也发过通告，制裁了几名杀人不眨眼的伐木人，同时还制定了一些规定，比如白人要是割掉黑人的鼻子或耳朵，抑或是截下黑人的小拇指，将会受到鞭责。不过，这种轻描淡写的做法，丝毫没有威慑到那些凶手，他们反而更大规模地干起了杀人勾当，有些甚至还会灭掉土人的整个部落。

仅以凡第门岛为例，在8世纪初，岛上共有5000名土人，但到了1863年的时候，就只剩下7人了。而最近的《火星报》报道说，只有一个塔斯马尼亚人逃到了哈巴特。

巴嘉勒尔在说这些事的时候，爵士和少校及船长都没有进行一个字的反驳，虽然他们是苏格兰人，但他们也无法辩解什么，因为这一切都是事实，是人人皆知的事实。

“如果放在50年以前，在这里我们也许能碰到很多土人，可现在连一个土人都没有了。一个世纪以后，说不定土生土长的土人就会灭绝了。”巴嘉勒尔又说。

是啊，这个所谓的“黑人区”不仅没有一个黑人，甚至连他们曾经住过的草棚都没有影子。真是可怜呀！

走过一段森林后，他们进入到了一片荒野，而且越走越荒凉，越走越冷寂。不要说人，就是一头牛马也没有。很明显，此地太偏僻，连那些牛马也都不愿意来。

突然，小罗伯尔在一棵桉树下站住，指着一棵大树叫着：“看，那里有一只猴子！”

大家顺着小罗伯尔指的方向看去，果然看到一只动物在树枝上跳来跳去，非常矫健。它一会儿跳到这棵树的树顶，一会儿又跳到那棵树的树顶，身上仿佛长着翅膀似的。难道这地方的猴子会飞，如同传说中长着翅膀的狐狸一样？

此时，牛车停了下来，大家还没看清那“猴子”是怎么回事，它便在桉树那边消失了。不一会儿，它又像一道闪电一样，蹦在了大家的视线范围内，甚至还跳到了树下，蹦蹦跳跳地来到一棵桉树下，伸长胳膊抓住桉树的枝干。

那棵桉树的树干既高又滑，怎么抱都抱不住，只见那只“猴子”拿出一只斧子一样的东西，先在树上砍了几下，砍出一些深印，接着便踩着那些深印，噌噌地爬上了树顶，很快又钻进了树叶。

“这是什么猴子？”少校自语道。

“什么猴子，这是澳大利亚的土人啊！”巴嘉勒尔说。

没人相信巴嘉勒尔的话，正想嘲笑他，突然听到不远处传来奇怪的叫声，大家以为那里有什么意外发生，急忙快马加鞭，向前行走了大约100米，果然发现了一座土人的宿营地。

说是宿营地，其实也就是简单的草屋，非常简陋。

十多间草屋是用大块树皮做成的。在这片宿营地里，有30个人，其中有男人也有女人，有老人也有小孩。相同的是，他们个个都没有穿衣服，只是披着破旧的袋鼠皮，因为贫困，他们完全看不出人的样子。

看到牛车和爵士一行人后，他们先是想要逃跑。幸好阿埃童会一些土话，让这些土人放下心来。他们试探地慢慢围了过来，仿佛牲畜看见

主人要给它们喂食吃的样子。

这些土人身材矮小，皮肤虽然不是很黑，却很晦暗，像是被烟熏过一样。他们的头发很乱，胳膊很长，肚子微微向前挺起，身上不仅有汗毛，而且还有文身，有些人的身上还有在丧礼中割掉肉而形成的伤痕。

这样的形象，让人无法目睹，想不通造物主为什么会给他们这么一副面孔。

海伦夫人和玛丽小姐全都从牛车上下来了，她们拿出了一些吃的东西，分给了那些土人。土人抓过后便狼吞虎咽地吃了起来，像是很长时间没吃东西一样。

就这样，土人将他们当成了神灵来看待。因为澳大利亚人信奉神仙，还说原本白人也是黑人，只是死后进了天堂，成了神仙，所以变成了白人。

海伦夫人和玛丽小姐对土人中的妇女非常同情，这些妇女的处境比男人更糟糕。

大自然如同一个后母，虐待着她们，让她们不仅贫困，而且连一点女人的妩媚都没有。她们只是奴隶，是一些人用暴力抢来的奴隶。她们结婚，换来的只是主人握在手里的棍棒，而那棍棒也是大洋洲人常用的一种战棒。

婚后的她们，很快就从少女变成了老太婆，过着流浪生活的她们，因为没有固定的居住地，而且还要做很多事，所以经常怀里抱着裹在蒲包里的孩子，背上背着打鱼和打猎的工具、织网用的类似麻的草筋。

背负着这些东西，她们还要为一家生计负责，去捕蜥蜴、袋鼠、

蛇.....在地上追不到，她们就会爬到树上去捕。同时，她们还要砍柴，剥盖棚子用的树皮。

她们不像女人，甚至连人都不是，她们过着牛马不如的生活。吃东西也只能吃在男人们吃过后，不吃的和剩下的食物。

在这30人里，爵士一行看到了几个可怜的女人，她们显然很久没有吃东西了，正用一些谷粒在诱捕小鸟。为了捕到这些鸟，她们通常会一动不动地躺在发烫的地面上，如同死人一样，一躺就是几个钟头，才能逮到一只上了当的鸟。

通常能够上她们当的只是一些澳大利亚的鸟，可怜的女人们没有其他诡计，只能用这种拙劣的办法。

看着土人们全都围了上来，爵士他们既同情，又担心，怕他们抢劫。土人的嘴里不停地说着什么，舌头在嘴里打转，如同野兽一般。不过虽然不知道他们在说什么，但他们发出的音却是婉转而温柔的。

听着“诺吉，诺吉”的发音，又见他们不断打着手势，所以也就猜出了大概意思，应该是说“给我”。对这些土人来说，不管看到爵士他们手里拿什么，他们都是这么说的。因此，奥比尔不得不集中精力保护那节行李车厢，尤其是那些路途中他们需要食用的干粮，他更要保护好才行。

那些饿极了的土人，看着车里的干粮，馋得眼光发直，张着嘴，齧着锐利的牙齿。这样的牙齿，说不定连人肉都咬过。

其实，大部分的土人还是不会吃人肉的，他们只有在和人打架的时候，会吃人肉，而且是吃仇人的肉。

这时候，海伦夫人提议给他们一些吃的东西，爵士答应了。土人明白了他们的意思，做出感谢的表情，这样的表情，即使是铁石心肠的人，也会被感动的。这些土人高兴地大叫着，如同开了笼子的野兽等待喂食一般。

虽然他们不会认为自己是野兽，但也不能否认是未开化的民族，有着野兽一样的习性。

奥比尔是个善于和人打交道的人，所以在他为土人发放食物时，先从女人发起，不过不幸的是，那些女人根本不敢在男人面前吃，而那些男人一起扑向饼干和干肉的样子，就像饿虎扑食一般。

玛丽小姐一想到父亲很可能就被这样的土人掳去了，心里一酸，眼泪汪汪的。她仿佛看到父亲在这样的种族里当奴隶，忍饥挨饿，忍受着种种虐待。

麦盖尔船长不安地看着她，他猜出了她的心事，所以不等她开口就对阿埃童说：“阿埃童，你是不是从这样的土人手里逃出去的？”

“没错，船长！内地的土人和这里的差不多，不过您现在看到的只是很少一部分可怜人，达令河两岸有很多部落，部落首领的权威可是很厉害的。”阿埃童说。

“那么你们在这些土人的部落里做什么呢？”

“其实也和我以前做的事一样，打猎、捕鱼，也和他們一起打仗。我上次就说过，他们要根据你的作用来确定对你的待遇。只要人够聪明、够勇敢，是可以在部落里受到尊重的。”

“但还是俘虏对吗？”玛丽小姐又问。

“没错，是要受到监视的。不管白天黑夜都没机会逃。”阿埃童说。

“虽然是这样，可阿埃童，你还是逃出来了，不是吗？”少校插嘴道。

“没错，麦克那布斯先生，我是趁着部落间打仗，找了个机会逃出来的。既然逃出来了，我当然不会懊悔。不过如果让我再逃一次，我想，我是不会逃的，情愿一辈子做奴隶，因为我可不愿意穿越那片荒凉的区域，那是要吃很多苦头的。但愿上帝保佑，格兰特船长不会冒险做这样的尝试。”

“是呀，肯定不会的。玛丽小姐，但愿您的父亲还在土人手里。这样，只要他不在大陆的森林里乱跑，我们就能找到他。”麦盖尔说。

“您觉得找到我父亲的希望大吗？”

“当然！非常大，玛丽小姐，我一定会看到您在上帝的帮助下，获得幸福的一天的。”

玛丽小姐眼泪汪汪地看着麦盖尔，感谢之情溢于言表。

在他们说话的时候，突然，土人骚动起来，他们不停地高声大喊，并向四面八方跑去，随即，每个人都拿起了武器，像疯了一样。

爵士感到有些莫名其妙，而少校则问阿埃童：

“你既然在澳大利亚土人中间生活过一段时间，你一定能听懂他们在说什么吧？”

“能听懂一些。不过每个部落都有他们自己的语言，但我相信，这

些土人说什么我是能猜到的，他们应该是为了感谢阁下，决定表演一场战斗给阁下看。”

阿埃童翻译得没错，土人的骚动正是为了表演战斗给爵士他们一行看。土人没有任何开场白，直接开战，他们的表演很逼真，如果不是预先知道这只是一场表演，他们一定以为这是一场真正的搏斗。

据一些旅行家报道，说澳大利亚土人绝对是表演艺术家，看来真不是浪得虚名。

这些土人用来攻击别人和作防卫的武器是一根根大木棒，这些木棒很重，就是最结实的脑袋也会被打碎。他们用的武器还有斧头，这些斧头是用最坚硬的石头磨成的，这些磨尖的石头夹在棍子中间，斧柄达到了3米长。

斧头是一种可怕的武器，也是一种有用的武器，因为它既可以砍人头，也可以砍树枝——在什么情况下都能用。

土人们拿着手里的武器一边不停地挥舞，一边嘴里发出叫骂声。而战斗的土人们则一边互相攻击，一边倒下，做死亡状，另一些在旁观战斗的则发出胜利的欢呼声。这些场景不免让人有种惊心动魄之感，想着即使是真的战斗，也不过如此。

海伦夫人在旁边看得很着急，怕他们弄假成真。而战斗中，还不时有小孩子加入，那些小孩子中有男孩，也有女孩。他们打架不像大人演戏，而是真打。特别是那些女孩子，打起人来特别厉害，一个巴掌扇过去，非常凶狠。

这幕打斗戏整整演了10分钟，突然，所有的人都停了下来，武器也

丢掉了。土人们定定地站着，保持着他们最后的姿势，就像画面里的人物，瞬间变成了化石一样。

为什么会这样呢？发生什么事了？是什么让他们突然变得像化石一样？很快，大家就知道原因了。

原来，此时有一群鹦鹉飞了过来，在那些橡胶树的树顶上飞翔，橡胶树上全是咿咿呀呀的叫声。这些鹦鹉有着五颜六色的羽毛，羽毛在空中形成了移动的彩虹。想必如果没有这些诱人的鹦鹉，土人们是不会结束他们的表演的。

对他们来说，打猎比表演有用得多，所以他们准备打猎了。

石化的土人中有人抓起一件染成了红色，构造特殊的东西离开了其他人，而其他土人仍然像石化了般一动不动。动起来的那个土人从大树与灌木丛间穿过，向那群鹦鹉走去——准确地说应该是爬去。

他爬起来一点声音都没有，既没有碰到一个树枝，也没有碰到一颗石子，简直就像一个影子在冰面上滑，速度非常快。

爬到一定的位置后，土人将手里的东西抛了出去，那东西在离地面半米高的地方平行飞出，大约飞了四丈远。不过，那东西没有落地，反而一下子飞上了天，并且升到了10米高的位置，随即便有10多只鹦鹉被打死了，那个被他抛出的东西重新回到了土人的身边。爵士和同伴们看得目瞪口呆，简直不相信是真的。

“那个打到鹦鹉的东西叫‘飞去来’。”阿埃童给他们解释说。

“‘飞去来’？啊！这就是澳大利亚土人们用的‘飞去来’？”

巴嘉勒尔说着，像个小孩一样奔到了那个神奇的武器面前，并将它捡了起来，想看看是什么东西做的。

通常情况下，看到土人使用的时候，一定会认为“飞去来”里藏着机关，最起码里面有弹簧，当弹簧一开动，它就能在空中拐弯了。其实不是这样的，“飞去来”只是一块木头，有一米多长，有一定的弯度。中间大约10厘米厚，两头尖尖的。“飞去来”有一处凹进去的地方，大约有七八分厚，凸出的地方则形成了两条锋利的边缘。

武器的构造非常简单，没有任何稀奇的地方。

“原来这就是神奇的‘飞去来’呀，就一块木头，它是怎么飞出去，又怎么蹦回来，落到原处的呢？这是很多学者和旅行家都没有搞明白的事。”巴嘉勒尔拿着这件并不稀奇的稀奇武器说。

“会不会就像抛铁环一样，当铁环跑出去后，又会回到原地？”麦盖尔问。

“很可能是一种回力作用。就和我们在弹子台上打弹子一样，打在弹子的某个点上，它就能转个圈又回到原地。”爵士补充说。

“不，一定不是这样的。不管是抛铁环还是玩弹子，都会有个着力点，着力点会决定它的反作用。可这个‘飞去来’没有，它根本就不碰地面嘛，怎么会一蹦蹦那么高呢？”巴嘉勒尔还是觉得不可思议。

“巴嘉勒尔先生，对这种现象，又该怎么解释呢？”海伦夫人问。

“我解释不清。夫人，不过有一点我可以肯定。这种现象可以有两种解释，一种就是扔的方法很巧妙，另一个就是构造。不过，这扔的方法嘛，正是澳大利亚土人的一个秘密。”

“不管怎样，这都是他们智慧的体现。我们现在可不能把他们当成猴子了。”海伦夫人看着少校说。

少校一脸不服气，但却没说什么，只是不停地摇头。

大家就这么说着话，时间一分一秒地过去。爵士觉得不能再耽误时间，应该继续向东面前进了。当他正要请海伦夫人和玛丽小姐上车时，突然一个土人跑了过来，很兴奋地说了几句什么。

“啊，他们看见鸸鹋了！”阿埃童说。

“哦？什么意思？是要打猎吗？”爵士问。

“我们一定要看看，一定很神奇，说不定还是要用‘飞去来’。”巴嘉勒尔说。

“你看呢，阿埃童？”爵士问。

“不会耽误多长时间，爵士！”阿埃童说。

土人们没有浪费时间，他们很快就布置好了。打鸸鹋对他们来说是天大的喜事，而打到一只鸸鹋，很可能够他们这些人吃几天，所以他们将捕捉鸟类的全部工具都拿了过来。

不过，鸸鹋是一种很大的鸟，跑得很快，没有枪的他们又要怎么打呢？何况他们还没有猎犬。巴嘉勒尔想看他们打猎，正是在这样的好奇心的驱使下。

鸸鹋又被称作没有鸡冠的食人鸡，在澳大利亚的平原上，这种鸟已经很少了。它们差不多有0.76米高，肉色很白，头上有一片硬甲，眼睛

是棕色的，嘴巴则是黑色的，弯弯地朝下。它们的趾上长着利爪，爪子强健有力。

不过，由于它们的翅膀很短，所以不能飞。当然，即使它们飞不起来，但跑起来的它们，却是连马都赶不上的，所以要想捉住它们，必须用计，而且要用妙计才行。

准备好的土人中一人一叫，十几个土人便像冲锋陷阵一般散开了。在这片土地上，生长着一些蓝色的花，这些蓝色的花将这片土地染成了蓝色，所以他们全都走到一丛含羞草旁停了下来。

当土人们慢慢地靠近鹇鹇时，十几只鹇鹇马上逃跑了，跑到了一公里之外的地方躲了起来。指挥的猎手在侦察好地形后，做了个让同伴不要动的手势，同伴们马上全都躺了下来。指挥的猎手从随身携带的网兜里取出了两张缝成衣服样的鹇鹇皮，披在了身上。然后伸长右臂，抬头模仿起鹇鹇觅食的样子来。

他模仿得很像，在他向那几只鸟走去时，那几只鸟竟然完全没有发现。当然，他并没有径直过去，而是一边走一边停，并不停地做出在地上啄食的样子，有时候还会用脚在地下扬起灰尘。同时，他还不停地发出奇怪的叫声，让那鹇鹇以为是自己的同类。就这样，土人走到了那几只鹇鹇面前。只一眨眼的工夫，他便挥起了早已准备好的大木槌，六只鹇鹇一下子被打倒了五只。

这次狩猎土人获得了巨大成功，狩猎活动也宣告结束。

看完这场精彩的狩猎后，爵士一行向土人告别，然后接着上路。

第三十一章 “坐地人”的世外桃源

一行人在东经146度15分的地方，度过了漫长的黑夜，没有任何事情发生。第二天清晨7点，他们继续赶路，足迹在平原上画出了一道直线，向着太阳升起的地方前进。他们行进时留下的足迹，似乎和“坐地人”留下的足迹一样，只不过爵士的那匹马留下的是叶形马蹄印，这让足迹变得不同了起来。

平原上时不时会出现一些河流，河流曲折蜿蜒，不过有时候河水也会干涸。这些河流的发源地在野牛山，野牛山里山岭交叠，在地平线上起伏存在。河岸两边有很多黄杨树，远远看去，非常秀美。

大家决定在山脚下露营。阿埃童也加快了脚步，快速朝前走。这一天已经走了55公里的路程，所以牛马都显得很疲劳。直到天黑时，他们才到达了山脚下。

在将帐篷撑在一棵大树下后，他们匆匆吃了一餐饭，便早早休息了。此时的他们，觉得睡觉比吃饭来得重要得多。

这天晚上，该轮到巴嘉勒尔值班了。他扛着马枪在四周来回地转，巡视着外面的情况。此时的天空虽然没有月亮，但星星却很密集，这使整个夜色都显得不那么黑暗。巴嘉勒尔一边来回地踱着步，一边欣赏着夜空的繁星，在他眼里，天空已然成了一张星图，他默默地读着那张星图，体会着读懂的快乐。

黑夜让大自然进入到了沉睡的状态中，偶尔能听到的只是马脚上的

绊索，不时地发出窸窣窸窣的声音，打破着这份沉静。

巴嘉勒尔长时间地沉浸在自己的世界里，他的心跑到了天空，灵魂离开了人间。突然，一阵阵的钢琴声传进他的耳朵，将他拉回到了现实。

他仔细地听着，钢琴弹奏出的音乐很悦耳，有时高亢有时浑厚。

“这荒山野外的，怎么会有钢琴声？真是太奇怪了，我一辈子都不相信会有这样的事。”他诧异地喃喃着。

没错，这事确实有些诡异，巴嘉勒尔想，会不会是一种奇怪的鸟发出的声音？可这声音如同卜勒耶尔或厄拉尔这两位法国的著名钢琴家弹奏的音乐，会是鸟发出的吗？显然，鸟是不会发出像敲钟和磨刀一样的声音的。

此时，又有清脆的歌声传来。

黑夜的荒郊，既有钢琴还有歌声，巴嘉勒尔越听越奇怪，他甚至听出这是一首非常有名的曲子，是歌剧《唐璜》里的一段。

“真是太奇怪了！即使澳大利亚大陆的鸟真能唱歌，也不可能唱出莫扎特的名曲吧！”巴嘉勒尔越想越神奇。

不过，他还是把这首好听的歌曲听完了。在这么美妙的夜晚，还有如此动听的音乐，当一切都合二为一时，该是多么震撼啊！巴嘉勒尔完全陶醉在了这只能意会，不能言传的美妙之中。过了好一会儿，音乐停了，歌声也停了，一切仿佛又恢复到了之前的寂静。

当维尔逊来接巴嘉勒尔的班时，发现他还是一副如醉如痴的模样。

巴嘉勒尔看到维尔逊后，并没有说出这件事。他要在明天早上把这件奇妙的怪事讲给大家一起听，所以便直接回帐篷睡觉了。

第二天，狗叫声将沉睡的人们唤醒。爵士最先爬起来，看到了英国品种最好的几条凶猛猎犬站在小树林旁边，朝着他们的方向怒吼着。在他们走近时，那几条猎犬缩了回去，叫声更大了。

“难道这里有‘坐地人’？既然有猎犬出现，一定有猎人存在。”爵士说。

巴嘉勒尔正想说他昨天晚上的奇遇，便见两个骑着剽悍好马的年轻人出现在了他们面前。这些人穿着标志性的猎人服装，很是绅士。看到他们这支旅行队后，他们站住了。

看样子，这两名猎人一定在想，怎么在这里会出现一队全副武装的旅行者呢？

正在此时，牛车上的两名女士走了下来。两位猎人一看，急忙下马，摘下帽子向女士走去。

爵士也迎了上去。由于他们是外面来的生人，于是便首先通报了自己的名字和身份，两位年轻人急忙鞠躬致敬，其中一位年龄稍大点的说：“爵士，夫人，如果不嫌弃的话，请到寒舍去休息一下吧！”

“请问您二位是……”爵士问。

“我叫米希儿，他叫桑笛儿。我们是霍坦站的主人，既然来了，那就请到寒舍坐坐吧！”年长的年轻人又说。

“哦，你们真是太客气了，实在不敢打扰……”

“爵士！你们能接受邀请，对作为飘零者的我们来说，将是最大的荣幸。”米希儿继续说。

爵士不好再推托，只能接受了。

“先生，如果不冒昧的话，请问昨天晚上弹唱莫扎特名曲的是你们吗？”巴嘉勒尔问。

“没错，先生！昨晚唱歌的是我，伴奏的是我的堂弟桑笛儿。”米希儿说。

“真是太好听了！请接受我由衷的赞美！”巴嘉勒尔伸出了手。米希儿绅士十足地同他握了握，然后指了指右边的路，大家便一起动身了。他们一面聊，一面欣赏着路边的风景，向霍坦站走去。

那里有布置得如同英国公园一样的美丽庄园：一望无际的草地被灰色的栅栏圈成了一块块的牧场，里面有上万头牛羊在吃草；管理这些牛羊的是很多牧人和牧犬，整块庄园不时地传出牛吼声、羊咩声、犬吠声和鞭策声。

东边有片树林，树林后耸立着霍坦山。霍坦山高有5000多米，巍峨雄壮。一排排的常绿树像是人工雕琢的样子。一些像棕榈树的低矮灌木连成的丛林，隐没在树叶中。这些丛林里有很多小白花，散发出淡淡的香味，让空气中都流动着一股薄荷香。

在这些树木中，有很多是从欧洲移植过来的果树，比如桃树、梨树、苹果树、无花果树、柑橘树等，甚至包括橡栎树。看到这么多的果树，大家都欢呼起来。不过，在这里碰到家乡的果树，并没有让他们很吃惊，真正让他们吃惊的是在枝头唱歌的鸟儿。

那里不仅有羽毛美得像绸缎一样的缎鸟；还有一半是金黄羽毛，一半又是些发亮绒毛的丝光鸟；更有他们最早时见到的琴鸟，琴鸟的尾巴有些像古希腊神话里的乐圣奥尔斐弹的那把古琴。琴鸟在凤尾草中穿来穿去，不过在它们的尾巴接触到树枝时，却听不到乐神安飞翁为重建白城而演奏的音乐。

巴嘉勒尔恨不得抓只琴鸟，在它们的尾巴上弹上一曲。

通向庄园的那条道的两边种植着一些树，走过这条小道，一座用木材和砖石建造的漂亮房子就呈现在了他们面前。

房子的造型非常漂亮，墙外环绕着回廊，整整有一圈，是典型的瑞士风格别墅。不过，回廊的廊檐下却挂着中国式的灯笼；前庭有些像罗马古建筑；窗外种植着五颜六色的花……

看来，没有比这别墅更舒服，更精致的地方了。

别墅外的草坪上，每隔不远处便有一根铜灯柱，灯柱上装着雅致的灯球。夜里的时候，灯光可以把别墅四周照得如同白昼；房子里装了煤气，是从一座小型煤气机里输送出来的，而煤气机就放置在屋外凤尾草树下面的木棚里。

整个住宅没有脚屋、马房和厂棚，所以根本看不出这是个农庄。这里的房屋总共有20多座，全都坐落在半公里路之外的山谷里，在这一区域形成了一个独特的村落。每座住宅里都有电话，家家户户可以通过电话联系。这座隐藏在异国风光的丛林中的村落，好像丝毫感受不到外界的嘈杂和喧嚣。

很快，众人就走完了那段林荫小道，接着又过了一座铁桥，桥不

大，桥下是潺潺的流水。桥的一端是住宅外的花园。在他们过了小桥后，马上就有热情的管家先生出来迎接了。

而当他们走进华丽的大厅时，顿时被豪华的家具和精美的摆设惊呆了。

从房子的设计和房屋里的摆设能够看出，主人很有艺术文化修养。比如前厅，摆满了各式各样精美的骑马射猎艺术品；和前厅相对的一间房有个大窗户开着，里面有架钢琴，钢琴上摆着乐谱，乐谱很齐全，每个时期的名曲都有；房间里还有个画架，画架上摆放着画稿；画架旁边有座像座，像座上摆放着大理石人像；墙上挂着很多西欧名画，地上铺着名贵的柔软地毯；墙上挂着的壁毯上绣着一些美女图；一座古铜吊灯悬挂在天花板上……此外，房间里还有很多珍奇古玩。

在澳大利亚森林里，有这么一座别墅，别墅里放着这么多的名贵珍品，实属罕见。不要说爵士他们，就是任何人见到，都会大吃一惊的。

总之，在飘零的流浪日子里，还能将自己的生活过得这么有趣味，将家乡的东西布置得到处都是，让人恍惚不是进了“坐地人”的住处，而是到了英国或法国贵族的高级别墅，这不能不让人啧啧称奇。

柔和的阳光透过纱窗照进房间的每个角落，海伦夫人站在窗口，看着外面的美景忍不住地赞叹起来。

原来，住宅下面有一片开阔之地，这片宽阔之地从房屋下面一直延伸到了东边山脚，整个地方由连绵的草地和树林、稀稀疏疏的空地、起伏不止的山峦、崎岖不平的谷地构成，形成了一幅精美的山水画。而这幅山水画在太阳的照耀下，像是被激活了，散发出动人的光芒。看着这样的场景，哪怕是再有想象力的人，也是难以勾勒出如此画面的，而这

明媚的自然风光也足以让人一饱眼福。

此时，桑笛儿已经吩咐厨师做好了早饭。10多分钟后，大家坐在了餐桌旁，酒菜之丰盛自不必说。爵士一行在如此豪华的别墅里并没有丝毫的拘束，在愉快地品尝美食的时候，高兴地聊起了天。

不过，最开心的莫过于两位“坐地”年轻人了，他们以能在家款待嘉宾而感到高兴和荣幸。

两位年轻人很快就知道了爵士一行的目的了，他们为爵士那无所畏惧、乐于助人的精神所打动，也对格兰特船长的一对儿女说了些安慰的话。

“格兰特船长如果没有在沿海殖民区的话，一定是落在了土人手里，那纸条上写好了所在的方位，看来在他们一上岸的时候，就被土人掳去了。”米希儿说。

“格兰特船长的手下阿埃童也曾落入土人手里，不过又逃出来了。”麦盖尔船长说。

“你们是否听说过‘大不列颠号’失事的事情呢？”海伦夫人问两位年轻人。

“不，从没听说过。”两位年轻人说。

“你们觉得格兰特船长要是做了土人的俘虏，是否会受到非人的待遇呢？”海伦夫人又问。

“不！我觉得不会，因为本地的土人并不凶残，夫人。你们尽管放心，这些土人的性格特别温和，以前就有很多欧洲人和他们生活在一

起，也都从没受到过虐待。”年轻人说。

为了证明两位年轻人说的是对的，巴嘉勒尔说：“当年伯克探险队中唯一生还的金格就很能说明这个问题。”

“不仅仅是那位探险家，还有个叫布柯莱的英国兵，在1803年的时候，也曾脱险于菲利浦港，最后被土人收留，在那里过了33年。”桑笛儿说。

“还有澳大利亚杂志上登过的一个人，是最近发生的事。有个叫毛利尔的人，在土人那里过了16年，现在回到家乡了。所以我觉得格兰特船长的经历很可能和毛利尔一样，你们完全有希望找到格兰特船长。”米希儿又说。

两位年轻人的话也证实了巴嘉勒尔和阿埃童以前说的那些话是对的，大家听了自然非常高兴。

后来，在海伦夫人和玛丽小姐离开后，大家又聊起了康斯登桥惨案。两位年轻人也说听说过此事，不过并没有引起他们的不安，因为他们的畜牧站总共有100多人，这些匪徒是不敢向他们出手的。而且在墨累河这片荒凉的土地上，根本没有东西可抢，他们不可能冒险来到此地。再说，新南威尔士那边戒备森严，他们很难到这里来。两位年轻人的说法得到了阿埃童的认同。

由于两位年轻人的热情和好客，爵士一行决定在霍坦站待一天。而这一天的12个小时，也成了他们旅行以来最休闲的日子，牛马也正好趁这个时间恢复一下体力。在这种情况下，两位年轻人提出了一个休闲方案，大家一致赞同。

中午，七匹强壮的猎马带着大家出了院门，而海伦夫人和玛丽小姐则坐着轻快的马车出发了，他们的后面跟着打猎的仆人，每个猎人身上都背着猎枪，同时，猎犬也奔跑在他们之前。

他们用了4个小时，踏遍了这片园林的大路和小道，这片园林就像是德意志的一个小土邦，居民很少，但山羊却多得数不清。不过，那些可供他们打猎的鸟兽虽然不断地从四周涌来，但却没有一只跳到他们的枪口。所以当他们的枪响了一声后，原本在森林里安居乐业的动物们全都不安起来。

小罗伯尔和少校在一起，看到这种情况非常兴奋。他不管姐姐的叮嘱，不管不顾地第一个开枪。好在麦盖尔船长一直照顾着他，才让玛丽小姐放下心来。

这场围猎当然取得了很大成绩，特别是他们打中了本地的一种特产——袋熊和袋鼬。

袋鼬的狡猾程度完全能和狐狸媲美，而它“偷”的技术，绝对可以超过狐狸。不过，长相难看的它只有约1.5米长。巴嘉勒尔首先打死了一只，由于其虚荣心作祟，所以他觉得他打的袋鼬非常漂亮。

“多漂亮的一个动物呀。”他说。

小罗伯尔打中了很多猎物，其中有一只是黑毛白斑点的袋狐，它们的皮和貂皮一样珍贵。此外，他还打了一对在树洞口休息的小松鼠。

当然，最惊心动魄的一场打猎还是追捕那只大袋鼠。那时候还不到下午4点，猎狗们突然把一群袋鼠惊动了，小幼袋鼠很快就钻到了母亲的袋囊中，大袋鼠就一个接着一个地跑了。

袋鼠是世界上有名的跳远冠军，它的后腿整整比前腿长了两倍，所以当它一屈一跳之间，就会像弹簧射出去似的，既快又远。而带头逃跑的是只雄袋鼠，有1.4米高，非常漂亮。

虽然猎人和猎犬在紧紧追捕，但那群袋鼠却像一点都不累似的。在这种情况下，猎犬也不敢贸然出击，甚至连靠近它们都不敢，因为袋鼠有着锋利的后爪，非常可怕。

追逐到最后，猎犬和猎人们都跑不动了，而那雄袋鼠却躲到了树后。接着，便有肚子已经被破开的猎犬从空中摔下来。显然，猎犬们在涌到袋鼠群附近时，没占到便宜不说，而且肚子也被抓破了。

没有办法，猎人们必须用子弹来收拾它们。不过，就在此时，小罗伯尔却差点为此送了命。原来，在他瞄准那些袋鼠想要开枪时，因为走得太近，一群袋鼠一跃而起，向他扑了过来。

罗伯尔一下子倒在了地上，在马车里坐着的玛丽小姐吓得一句话都说不出来。在这种情况下，根本没人敢开枪，因为怕伤着罗伯尔。

还是麦盖尔机灵，他冒着生命危险，拔出猎刀扑向了大袋鼠，大袋鼠当场毙命，而罗伯尔因为解救及时，毫发未伤。在他爬起来后，便扑向了姐姐，姐弟俩抱在了一起。

“谢谢你！麦盖尔船长！”玛丽小姐握着船长的手说。

“我有责任保护他，这是我的职责所在。”麦盖尔说。

因为这起意外事件，打猎活动也就此结束。而因为“群袋鼠无首”，其他袋鼠便仓皇而逃。那只被麦盖尔用刀杀死的大袋鼠也成了大家的战利品。当天晚上，用土方法炮制的大袋鼠尾汤也成了当晚最受欢迎的美

味。

晚饭吃完后，大家又吃喝了一些冰激凌和果子露，之后便聚在大厅开起了音乐会。音乐会上，海伦夫人为大家弹了一首曲子；米希儿和桑笛儿为大家唱了支法国名作曲家古诺、马塞、达维德的名曲中的一段，最后又唱了天才作曲家德国人瓦格纳的名曲，唱得非常好。

开完音乐会后，大家又喝了些澳大利亚名茶，巴嘉勒尔还说他要品尝一下当地的土茶。

于是，两位年轻人便给他端来了一杯看起来像墨水一样的饮料，而颜色之所以这么深，则是因为这茶是用一升的水和半斤茶叶，经过4个小时熬制而成的。

巴嘉勒尔喝得直龇牙，但还是赞叹说这是难得一喝的好茶。

夜深人静，一行人进入了梦乡，在梦中，他们还延续着白天的快乐。

天一亮，爵士一行便和两位年轻的“坐地人”告别。彼此说了一些亲热的告别语后，相约以后在欧洲的麦凯莫府再见。

之后，牛车和马队绕过山麓，让那座豪华的别墅如同幻影一般，消失在了他们的视野里。不过，在又走了8里路后，依然没有走出霍坦站地界。

上午9点钟，他们走出畜牧站的最后一道栅栏，进入了维多利亚省那片连名字都不知道的地方。

澳大利亚的阿尔卑斯山脉在东南方像一道屏障，挡住了他们的去

路。山脉绵延1500公里，陡峭的悬崖如同一个伟大的防御工程，阻挡着空中的流云。

阴云密布的天空热得让人透不过气来，崎岖不平的山路更增加了行进的难度。说是平原，但却山丘遍布，小胶树稀稀落落地分布在山丘上。再往远处看，丘陵越来越高，像极了阿尔卑斯山脉的阶梯。

一行人越往前走，山路越高，这从牛拉车时的吃力程度就能看出来。牛累得呼呼喘气，身体的紧绷让牛筋突起，所拉车的车轮在地面上因为摩擦，发出了咯吱咯吱的声响。

虽然阿埃童是名赶牛车好手，但也不可避免地出现了牛车撞击地面的现象。不过，虽然忐忑、颠簸，但车上的两名女士却没有说一句埋怨的话。

船长麦盖尔带着他的两名水手走在最前面开路。他们尽量挑好路行走，但几乎看不到什么路，高低不平的地面如同海边的礁石一样，牛也像是在礁石缝里寻找路径，一时之间，大家有种在波涛汹涌的海面上行驶的感觉。

路不好走倒也罢了，关键是非常危险。时不时还会遇到荆棘，好在有维尔逊拿着斧头在前面开路。

地面既湿又软，一脚踩下去就会感到身体在往下陷。这一段路程对他们来说是那么遥远，而且还有很多障碍。那高耸的花岗岩，幽深的山谷，深不可测的河滩，都让他们不得不绕道而行。因此，他们这段时间所走的路程并不多。

傍晚时分，一行人在山脚下的高本柏纳河宿营，这里长满了1米左

右高的灌木，灌木的叶子呈淡红色。

“接下来还有很多苦要吃！想想看，就这山名，想想都可怕。”爵士说。

“不用被这个名字吓跑，这是一个雷同的名字，就像澳大利亚和欧洲都有格兰比安山脉、比利牛斯山脉、阿尔卑斯山脉、蓝山山脉一样，都只能算是模型，而且还是缩小了很多的模型。这些名不副实的名字，只能说地理学家们的想象力太匮乏了，想不出新的名字，就连一个名字也要反复用。”巴嘉勒尔说。

“这么说，这条阿尔卑斯山脉是……”

海伦夫人还没说完，巴嘉勒尔便说：“只是个袖珍山而已，我们走过去毫不费力！”

“只有你这种稀里糊涂的人才会觉得翻这么一座山不用费力。”少校慢慢地说。

“什么意思？我什么时候稀里糊涂了？我早就不糊涂了，不信你问问两位女士，叫她们评论评论，看你们还能不能找出我的问题。”巴嘉勒尔不高兴地反驳道。

“没错，巴嘉勒尔先生！你一个错都找不到，你已经是个非常完美的人了。”玛丽小姐说。

“啊！太完美了也不好！巴嘉勒尔先生，我觉得你还是和以前一样比较好！”海伦夫人笑着说。

“哦？真的吗，夫人？如果我不犯错，我就成了一个普通人了。所

以，我还是需要犯一些小错误，这样就能与众不同了，而且还能让你们开心。如果我不犯错，好像没尽到义务似的。”巴嘉勒尔严肃地说。

这一天就这么过去了，第二天，也就是1月9日的时候，不管巴嘉勒尔如何乐观地表示这座山很好爬，但他们还是越来越感到吃力，找不到路，他们不得不边找边走，有时候甚至还会钻到又深又窄的山坳里，直到无路可走。

在走了大约一个小时后，阿埃童觉得已经到了进退两难的地步。就在此时，他发现路旁有个小旅馆。

“这儿怎么会有旅馆的？太奇怪了，在这种地方有什么生意可做？”巴嘉勒尔说。

“最起码它能给人指路。我们进去坐坐吧！”爵士说。

爵士和阿埃童一前一后地进了小店。

这个旅馆叫“丛林旅舍”，老板长着一脸横肉，看起来像个粗人。店里卖的酒有烧酒、白兰地和威士忌。这些酒不仅卖给客人，老板自己也喝，在没有客人的时候，他会坐在那里自斟自饮。

当然，在这么偏僻的地方，来的客人都是赶牧群的人或者“坐地人”。

爵士给了老板一些小费，问了几个问题，老板虽然爱理不理，却也回答了，而且还告诉了他路线。

在他们出门时，发现墙上有张告示。

告示是殖民地的警察贴的，上面说柏斯有些流犯潜逃了，首犯叫本·吉奥兹，如果有人发现并将他捉拿归案，会有赏金100镑。

“这样的大坏蛋，应该受到绞刑！”爵士说。

“那也要抓住他才行呀，100镑可不是个小数目，这家伙不值这些钱的。”阿埃童说。

“这个老板看起来也不像个好人。”爵士又说。

“没错！我也觉得他不像个好人。”阿埃童附和道。

阿埃童赶着牛车，一行人又开始赶路了。他们向鲁克洛方向走去，那里有条羊肠小道崎岖又蜿蜒，一直通向山腰。在这里，大家开始走山路。

这条山路很陡，下坡时，因为车速太快，必须有人在后面拉着才行；而当车转弯时，由于车辕太长，又不好拐弯，不得不把牛解开。有时，因为坡太陡，走起来不方便，他们又不得不让那已经疲惫不堪的牛来拉一下。

终于，穆纳所骑的那匹马倒下了，不知是因为太过疲劳还是生病，倒下就没再爬起来过。

阿埃童检查了那匹马，并没有查出它的死因。

“很可能是血管爆裂引发的死亡。”爵士说。

“也许是吧！”阿埃童说。

爵士把自己的马给了穆纳，自己则坐上了海伦夫人和玛丽小姐坐的

牛车。一行人继续往前走，而那匹死去的马也就成了老鹰的美餐。

真像巴嘉勒尔说的，澳大利亚的这个阿尔卑斯山脉并不高，宽度不过5公里左右，如果山路选择正确的话，翻越此山只需48小时。而如果到了山的那边，路也就不会那么难走了。

1月10日那天，一行人终于爬到了海拔600米左右的山顶。这时大家才发现，这座山从远处看确实是山，但走近才发现就是一座丘陵。山顶地势并不陡峭，一眼看去，四周也没有什么障碍物。

山的北边是奥美奥湖，湖面上波光粼粼，有很多水鸟浮在上面。除了湖以外，还有墨累河流域冲积形成的平原；山的南边是仿佛铺着绿色地毯的草场，那里的地层不仅具有丰富的含金量，而且还有茂密的森林。由此可见，不管是物产、河流还是动植物，那里还是大自然做主的，原始的，没有受到人为破坏的地方。

这样一看，阿尔卑斯山脉成了一道分隔原始和文明的屏障。

此时，几道阳光穿过西边的天空，将大地照得光彩夺目；山脉的北边，一片荒凉，只有晃动的阴影让山脉以南地区的黑夜来得更早。

一行人站在原始和文明的分界线上，很明显地感受到了光明和黑暗的对比。放眼看去，四周都是陌生的环境，心里不免有些惆怅。

当晚，他们夜宿在了山顶，第二天一早开始下山。下山比上山走得快了很多，不过，他们半路上却遇到了来势汹汹的冰雹，那不是一般的冰珠，而是像冰砖那样大，伴随着乌云倾倒下来的冰雹。

这些冰雹之大，落下之急，就连石炮炸石也炸不出那个样子。

没办法，他们不得不退缩在一块大岩石下避让。

即使这样，冰雹还是将巴嘉勒尔的头打出了两个大包，而牛车篷也被打出很多洞来。有些像刀尖一样的冰凌，甚至在砸到树上时，直接嵌进了树皮里。如果想不受伤，看来只能等冰雹停了再走了。

一个小时后，冰雹停了，一行人这才从倾斜的岩石上缓缓下去。地面很湿，岩石也滑溜溜的，他们每行一步都要万分小心才行。

牛车一路上摇摇晃晃，吱吱呀呀地往前走，车子有几处已经脱了榫，好在整个车身很结实，所以还能勉强往前走。傍晚的时候，他们从阿尔卑斯山最后一段路下去，到了稀疏的杉树丛中，前面一直是通向吉普斯兰平原的。

现在，阿尔卑斯山脉总算是平安越过了，已经放轻松的他们决定在这里夜宿。

这一夜也是平安度过，第二天一早他们又上路了。出发时大家都兴高采烈，恨不得马上到达目的地，和格兰特船长团聚。不过，他们现在只有到了太平洋海岸，才有可能找到格兰特船长和那两名失事的船员踪迹，所以即使到了吉普斯兰平原，也是找不到什么线索的。

阿埃童又向爵士提议下命令给“邓肯号”，让“邓肯号”开到太平洋沿岸，这样就便于搜寻了。而且这里有条路——鲁克洛正好通向墨尔本，交通很便利，派人给“邓肯号”下命令正合适。

阿埃童的话听起来很有道理，巴嘉勒尔也劝爵士接受这个建议。巴嘉勒尔觉得“邓肯号”如果能开过来到话，对他们的搜寻将非常有利，而且他还补充说，过了这条路，说不定就很难找到通向墨尔本的大路了。

爵士还在犹豫不决，因为少校反对。少校说，这一路的旅行是不能少了阿埃童的，因为这里靠近沿海，对这段路程，他最熟悉。如果发现了搜寻线索，需要去追踪寻找，必须有阿埃童在才行，更何况阿埃童是知道“大不列颠号”的失事地点的。

从这里可以看出，少校的想法也没错。同时，船长也同意少校的意见。

麦盖尔之所以支持少校，是因为从杜布湾派人去墨尔本，要比从这里近得多，而且还不需要穿越320里的荒野。最终，大家认同了麦盖尔船长的说法，决定到了杜布湾再说。

阿埃童有些失望，少校看在了眼里，但却没有说什么。他习惯将一些没有确定的事放进肚子里。

吉普斯兰平原地势平坦，只是由东向西稍稍有些坡度。一眼看去，吉普斯兰平原到处都是含羞草、桉树和胶树，有些灌木还开着鲜艳的花，就连那毫不引人注目的溪水里也长满了蒲草，溪水的两岸长满了兰花。而这些树，正好改变了此地单调的景色。

溪水潺潺，浅的地方可以涉水而过。鸨鸟和鹑鸪聚集，见人就逃；树林里袋鼠蹦跳的样子像极了小木偶。此时，爵士他们没有一个人有心思去打猎，因为马已经吃不消了，瘦弱得厉害。同时，闷热的天气让人和牛马都很难受，他们什么都不想，只是不停地往前走。

沉闷的空气里，只有阿埃童赶牛的吆喝声让整个氛围有了些许生气。

下午2点钟的时候，他们穿过了一片凤尾草丛，虽然这些凤尾草长

得很奇特，很漂亮，但他们却无心欣赏。凤尾草长得很像树，差不多有3米高，开着漂亮的花。他们从这些花下经过时，因为有了像大伞似的枝叶庇荫，也就舒服了很多。

容易喜形于色的巴嘉勒尔很快就开心起来，不断地发出赞叹声。他的赞叹声惊起了树枝上停着的鹦鹉，于是便响起了鹦鹉聒噪的叫声。

在巴嘉勒尔为惊起了鹦鹉而得意时，突然他的马先是摇晃了几下，接着便扑通一声倒在了地下。难道是因为天热，中暑而晕倒了吗？大家急忙围了过来。

“巴嘉勒尔！巴嘉勒尔！你没事吧！”爵士喊道。

“我没事！朋友们！我只是没有马骑了。”巴嘉勒尔笑笑，将脚从马镫上取出。

“你的马死了？”爵士又问。

“是的，就和穆纳的马一样死了。”

爵士、麦盖尔船长和少校来检查了一番死因，同样毫无结果。马真的是咽气了！

“太奇怪了，怎么会这样？”麦盖尔说。

“对呀！怎么会这样呢？”少校也嘀咕道。

这起意外事件的发生，让他们一行人都不安起来。因为在这样荒无人烟的地方，想要找马匹是根本不可能的事。如果这些马是因为得了马瘟，那么他们都将无法继续前行。

有句话叫祸不单行，在他们还没从巴嘉勒尔骑的那匹马的突然死亡中缓过来时，傍晚，维尔逊的马也死掉了。更严重的是，又有3头牛也倒下了。看来，出现了“马瘟”是不争的事实了。现如今，把拉车的牛和给他们骑的马一起算下来，活着的只剩下3头牛和4匹马了。

问题越来越严重。没有马骑，他们还可以步行，因为很多“坐地人”就曾步行穿过这带荒区。可没有了车，两位女士又要怎么做呢？这里离杜布湾还有将近200公里的路程，她们能步行吗？

麦盖尔船长和爵士都很着急，他们再次检查还活着的那些牛马，以防它们也发生意外。不过却没有发现一点不好的地方，甚至连细微的毛病都没有。

牛马都好好的，还能经受长途跋涉，希望可怕的“瘟疫”到此为止，所乘的牛马不再有事。

就这样，大家带着疑虑，还是出发了。没有马的人就走路，走累了就轮流坐一会儿牛车。这天，他们仅仅走了16公里。晚上的时候，当休息的号角一吹，大家便睡觉了。

这一夜，他们是在高大的凤尾草丛里休息，虽然草丛里到处飞着被当地人称为“飞狐”的大蝙蝠，但这一夜还是安然地度过了。

1月13日这天，没有什么意外的事情发生，牛马也没有倒下的，而且还很精神。大家这才长松一口气。海伦夫人的牛车上坐的人越来越多，非常热闹。30度的气温让他们热得受不了，都觉得有喝冷饮的必要，所以厨师奥比尔忙得不亦乐乎。

在这种时候，最受大家欢迎的就是苏格兰啤酒，因此大家开始赞扬

起巴克来酒厂的老板来，称他是大不列颠最伟大的人物，比英国名将威灵顿还要伟大，因为威灵顿虽然伟大，但却造不出啤酒。

喝了酒的巴嘉勒尔，又开始了他的喋喋不休。

这一天看似很顺利，大家也希望能顺利到底。他们一口气穿过了一片足足有25公里长的高低不平的红土地带，计划在晚上赶到那条在维多利亚南部流入太平洋的斯诺威河边休息。

很快，牛车就走在了黑土层的平原上，路的两旁是荒草，另一边长满了一种叫胃豆草的植物。天慢慢黑了下来，天边出现了一丝雾气，产生雾气的地方就是斯诺威河。这时，大家都加快了行进的速度。

走过一个土丘，转弯后，他们看到了一片森林，不过，就在他们离斯诺威河不到半公里，阿埃童赶着牛车想穿越那片森林时，牛车陷入到了泥沼里，泥沼没到了车轴处。

“后面的要当心！”阿埃童急忙对后面骑马的人说。

“怎么啦？”后面的人问。

“牛车陷进泥沼里了。”阿埃童一边说，一边用鞭子抽打那3头牛，不过不管牛怎么使劲，那牛车都纹丝不动，而且有越陷越深的迹象。

“看来，我们只能在这里夜宿了，等到明天把车子拉出来再走。”阿埃童又说。

爵士无奈地同意了。

这天的黄昏好像很短，夜幕很快就降临了，不过天气依然很热。空

气中的水汽也很重，闷得人喘不过气来。

此时，一道道闪电将天边照得白花花的，暴风雨就要来了。大家马上在一棵大树下扎好帐篷。看情况，只要不下雨，他们是能在这棵树下平安度过一夜的。不过，如果再下雨，那牛车就更难弄出泥沼地了，所以阿埃童费了不少劲，最后才把3头牛从沼泽里拉出来——泥已经到了牛的肚子上。

阿埃童把牛马牵到一起，照料它们。这天晚上，爵士对牛马也很是照顾，并不断地说着感激的话。确实，此时，没有什么比这些牲畜更重要的了。

大家简单地吃完了晚饭——因为天气太热，每个人的胃口都不怎么好。他们现在最需要的就是休息。海伦夫人和玛丽小姐向大家道了声晚安后，便回到了她们的车房里。男人们有的钻进帐篷，有的直接躺在草地上——在这样的天气下，躺在地上也没什么关系。

晚上，天空出现了乌云，黑夜在乌云的笼罩下，越发地黑暗。

四周一片寂静，连一丝风都没有，偶尔会听到猫头鹰的叫声，那叫声有些像欧洲的杜鹃鸟，听起来哀哀怨怨，非常凄凉。

深夜11点的时候，少校突然醒了，不过他依然半闭着眼睛躺在那里。过度的疲劳，让他不愿意起来。突然，树林里隐隐约有亮光在晃动，那亮光既像一条白带子，又像阳光下的湖面在闪闪发光。

难道林子里有鬼火？

少校爬了起来，慢慢向树林里走去，当他走近后才大吃一惊。原来那是一种奇特的自然现象，发光的是菌类植物。这些奇特的植物发出的

亮光是因为孢子囊在黑暗中可以发射出高强度的光而造成的。

少校是个不愿意独享美好现象的人，所以准备去叫醒对一切事物都充满好奇的巴嘉勒尔。不料，还没等他去叫，又有意外发生了。

在奇光的照耀下，他发现树林边有几个人影一晃而过。是真的有人还是自己的幻觉？

少校伏在地上，仔细地观察着。他看清了那几个人影，并不是他的幻觉，那真的是几个人，而且像是在地上寻找什么。

他们在干什么？少校决定无论如何也要搞清楚。他没有叫人，而是毫不犹豫地匍匐着跟了上去，一个人像草原上的土人一样，边爬边躲地进了草丛。

第三十二章 狡猾的内奸

夜里两点的时候，天空电闪雷鸣，乌云密布，滂沱大雨一倾而下。帐篷显然是挡不住雨水的，男士们只好全都挤到了牛车里。由于不能睡觉，所以便聊起了家常。而在这些人中，只有少校一直沉默不语。

大雨一直下个不停，这场暴雨很可能引发斯诺威河的河水泛滥。而且这里土壤变松，车轮很可能继续下陷。因此，穆纳、阿埃童和船长不停地跑到河边看水位，等他们回来时，衣服已经湿透了。

天亮的时候，雨停了，不过并没有太阳。到处都是泥滩，地面上形成了一个又一个的池塘。潮湿的地面冒出了阵阵热气，使空气中的湿度达到了极点，让人很难受。

爵士最关心的还是车子的安全问题，现在将车子弄出泥坑才是重中之重。当他们去看那辆笨重的车子时，发现稀泥已经淹没了半个车轮，想要把车弄出来并不容易，即使是把牛马的力量都加上也做不到。

“无论如何，我们都要赶快把它弄出来。”麦盖尔说。

“那行动吧！”阿埃童说。

于是，爵士、两名水手、麦盖尔船长和阿埃童都钻进树林去牵昨天拴在那里的牛马。

拴牛马的地方是一片胶树林，林中全是枯树，有一棵树的树皮已经剥落，看样子已经有近百年的历史了。那剥落的树皮，如同欧洲的软木

树被农人剥了皮一样。这些老枯的胶树大约有20米高，树枝上没有一片叶子，光秃秃的，枯枝像枯瘦的爪子，向四周分散开来。

这样的枯枝，是没有鸟肯在上面做窝的。

整个树林都像得了瘟疫，萎靡不振的。这种现象在澳大利亚并不常见，至于为什么会这样，谁也不知道。不要说现在的人，就是这些人的老祖先，可能都没见过这片林子的树叶发青。

爵士一边走，一边看着灰蒙蒙的天。胶树的枯枝，好像清晰地映衬在了天空中，如同一个个的剪影。阿埃童最先跑到昨天他牵过去，让牛马吃草的地方，但却没有发现牛马，顿时大惊。

这些牛马都是用缰绳拴着的，就是跑也不会跑很远。大家分头去找，但结果却一无所获。阿埃童慌忙从长满含羞草的斯诺威河河岸回来，发出了呼唤牛马的哨声，但却没有牛马的回应。阿埃童有些不安，大家也都面面相觑，既震惊又失望。

一个小时过去了，爵士和麦盖尔在从离车子1公里之外的地方往回走的时候，听到了咕咕咕的叫声。

“快，它们在这里。”船长麦盖尔最先反应过来，大叫一声，赶忙向那绿油油的草丛跑去。那里的青草很茂盛，就是一群牛马藏在里面也看不到。

很快，大家都跑过来了，但看到的场景却让他们目瞪口呆，因为有两头牛，三匹马已经全都躺在了地上，没气了，甚至连尸体都僵硬了。一群黑老鹅正停在树枝，冲着死去的牛马呱呱叫着，伺机抢食。

爵士和其他人怔怔地看着，说不出一句话，维尔逊忍不住大声骂了

起来。

“骂有什么用呢？维尔逊，我们现在能做的，只能是把没死的一头牛、一匹马牵回去，以后只能靠它们了。”爵士说。虽然他也很急，但此刻他只能安抚别人。

“如果牛车没陷进泥里就好了，不管怎样，我们都要把那车子弄出来。”麦盖尔说。

“我们还是先回去吧，出来的时间长了，女士们会着急的。”爵士说。

阿埃童和穆纳各自解开了牛和马的缰绳，大家沿着河岸走了回来，半个小时后，女士们才知道发生了什么事。

“太可惜了，阿埃童。如果我们过威麦拉河时，把牛马的蹄子上都钉上三叶形马蹄就好了。”少校对阿埃童说。

“为什么这么说，少校先生？”

“你们没看到吗？所有的马中，只有钉了三叶形马蹄的马没有死，其他的都死了。”

“是呀，真是这样的。”麦盖尔也说。

“只是碰巧而已。”阿埃童说完，瞟了少校一眼。

大家都等着少校说下去，但少校咬了咬嘴唇，把想说的话又咽了回去。他向正在检修车子的阿埃童走去。

“他那话是什么意思？”爵士问麦盖尔。

“谁知道呢！不过少校倒从不胡言乱语。”麦盖尔说。

“少校应该是对阿埃童产生了怀疑。”海伦夫人说。

“怀疑？为什么？”巴嘉勒尔说完，耸了耸肩。

“有什么可怀疑的？难道说是阿埃童毒死了牛马？他和我们是一条心的，为什么要毒死牛马？”爵士问。

“我只是猜测而已，也许我猜测错了。因为从阿埃童参加到我们搜寻的队伍里，一直都表现得很忠诚。”海伦夫人又说。

“虽然如此，可我觉得少校能说这句话，一定有他的理由。我要去问个明白。”麦盖尔说。

“会不会他认为阿埃童和那些流犯是一伙的？”巴嘉勒尔突然说。

“流犯？什么流犯？”玛丽小姐问。

“哦，是巴嘉勒尔乱说的。我们都知道，维多利亚省是没有流犯的。”麦盖尔补充说。

“哦，没错，我怎么糊涂了呢？维多利亚省哪里有什么流犯？即使有，在这样的环境下，也早都让他们改邪归正了。”

巴嘉勒尔因为说错了一句话，最后又想拼命去圆那句错话，结果欲盖弥彰，如同那越陷越深的牛车一样。海伦夫人定定地看着他，看得他心里直发毛。

海伦夫人和玛丽小姐去了帐篷那里，而奥比尔也像平时一样开始做早饭。

“我应该把自己像流犯一样押出境！”巴嘉勒尔懊恼地说。

“我觉得也是。”爵士说。

爵士的话很严肃，一点都不像是开玩笑。巴嘉勒尔的心里更难受了，不过爵士一说完便和麦盖尔去了牛车那里。

此时，阿埃童和两名水手正拼命地将牛车从稀泥里拉出来，他们把牛和马套在一起，使劲地拉着，皮条几乎都要拉断了，而维尔逊和穆纳则在旁边推着车轮。不过，不管他们怎么拼命拉，都拉不出来。

泥已经慢慢地干了，紧紧地咬住了车轮，就像给车轮铸上了钢筋混凝土一样。麦盖尔叫大家一起向车轮下泼水，以便让泥土脱离车轮，但还是不起丝毫作用。在人和牛马又使劲地拉了一阵后，大家都累了，只得停了下来。现在他们除非将车子的零部件全部拆除，不然没有任何办法。不过，拆车的工具他们手里也没有，就是想拆也没办法拆。

此时，阿埃童还是一门心思想把牛车拖出来，他想用鞭子拼命地打牛马，但被爵士制止住了。

“不要再打它们了，现在就剩下这两头了，再继续赶路的话，有一头必须驮两位女士，还有一头驮行李，它们的用处大着呢。”

“那好吧！”阿埃童不甘心地解下了累得气喘吁吁的牛马。

“朋友们，我们现在还是回帐篷商量一下接下来怎么办吧！”爵士说。

众人一起回到帐篷。吃完早饭后，大家开始讨论。首先，他们需要确定所处的准确位置，这个任务当然非巴嘉勒尔莫属。他仔细算了一下

后，说现在位于斯诺威河岸，南纬37度，东经147度53分的位置。

“杜布湾海岸位于什么位置？”爵士问。

“东经150度。”

“那也就是说，两地相差2度7分，那么合多少公里？”

“120公里。”

“离墨尔本呢？”

“至少也有320公里。”

“好，现在所处的位置，离所要去的地方有多远我们大概知道了，接下来说说我们要怎么做吧。”

经过一段商议，大部分人主张向海岸进发。海伦夫人和玛丽小姐在面对现实问题时，毫不胆怯，说她们可以每天走8公里。

“海伦，你真是个女中豪杰！不过，我们有没有把握在杜布湾找到我们需要的呢？”爵士说。

“没问题！沿途会经过埃邓。埃邓作为一个历史悠久的城市，去墨尔本就方便多了。而且我们现在只需走50公里，就能到维多利亚边境上的德勒吉特城，那里可以购买到粮食，而且还能找到交通工具。”

“爵士，那‘邓肯号’呢？现在让它开到杜布湾，不是正好吗？”阿埃童说。

“你觉得呢，麦盖尔？”爵士转头问麦盖尔船长。

“我觉得急着让‘邓肯号’起航不好，因为我们之后还有大把的时间通知大副艾撒汀。”麦盖尔想了想说。

“是的，我觉得也来得及！”巴嘉勒尔也说。

“何况大家不要忘了，4到5天后，我们就能到埃邓城了。”麦盖尔又说。

“4至5天？你能确定吗？或许15天到或20天能到就算不错了。”阿埃童不同意麦盖尔的意见。

“120公里需要走15天到20天吗？”爵士又问。

“再往前走下去，就是维多利亚最难走的一段路了，都是荒郊。据‘坐地人’说，那里荆棘遍布，也没有畜牧站，如果想过去，除非用斧头开路。请相信我！”

阿埃童说得很肯定，大家看看巴嘉勒尔，他也同意阿埃童的说法。

“即使这样，我们15天后，也是可以通知艾撒汀的。”麦盖尔说。

“可现在的主要问题不是路，而是我们要过斯诺威河。这河的水已经涨起来了，我们想要过去，必须等它落下去才行。”阿埃童又说。

“为什么一定要等水落下去？我们还可以找个浅滩的。”

“船长先生，浅滩是找不到的。都怪我们运气不好，在这样的时期，又遇到这样的河水，这在以前是很少发生的事。”阿埃童又说。

“斯诺威河很宽吗？”海伦夫人问。

“非常宽，也很深，夫人！这条河宽在16公里以上，水流湍急，就是游泳健将来了也很难过去。”阿埃童又说。

“我们可以砍树做小船。”小罗伯尔突然说。

“不错！真不愧是格兰特的儿子。”巴嘉勒尔夸他道。

“罗伯尔说得没错，这是我们的最后一着了，我觉得我们不要浪费时间做无谓的讨论了。”麦盖尔说。

“你觉得呢？”爵士又问阿埃童。

“如果没人帮忙，一个月我们都过不去。”阿埃童说。

“那么，你的意思是没有其他办法了？”麦盖尔有些愤怒，脸涨得通红。

“当然有！那就是让‘邓肯号’离开墨尔本到东海岸来。”

“你为什么老让‘邓肯号’起航呢？难道它到了杜布湾，我们面临的问题就不成问题了？”

阿埃童没有回答，好一会儿，才支支吾吾地说：“我只是说出我的意见，而且我的意见对大家最有利。如果阁下觉得我不该留下，那我马上就走。”

阿埃童说完，两只胳膊相抱，看着大家的反应。

“你怎么能这么说呢？我们现在是在讨论，有意见尽管提，怎么能赌气呢？”爵士说。

“我们现在是没有办法。既然无法过斯诺威河，那就要等人来帮助。而找谁帮助呢？当然是找‘邓肯号’上的人。所以我们可以暂时留在此地，幸好这里粮食还充足，如果派一个人去给大副艾撒汀送信的话，就能让他将船开到杜布湾来了。”阿埃童说得言之凿凿。

大家对他的这个建议还是有些不置可否，船长麦盖尔更是不同意。

“在派人去送信的时候，如果河水降下去了，我们就能找个浅滩过去。即使想坐船过去，也有时间。以上就是我的建议，大家可以好好考虑一下。”阿埃童继续说。

“好的，你的意见值得我们考虑。不过这个计划的最大问题就是要耽误很长时间，但大家也可以趁这个时间休养生息。你们觉得如何？”爵士问。

“少校先生，你也说说吧！怎么一直不说话呢？”海伦夫人说。

“既然点名让我说，那我就坦诚地说，我完全同意阿埃童的建议，因为我觉得他真是太聪明，太谨慎了。”少校说。

大家没想到少校会这么爽快地接受阿埃童的建议，因为他以前总是在反对阿埃童的计划。所以不要说大家，就连阿埃童也觉得有些奇怪。

原本大部分人都同意阿埃童的建议，见少校也同意，就毫不犹豫地表示赞同了。就是说，此时，爵士在原则上同意了阿埃童的建议。

“为了稳妥起见，我们是不是要等人送来交通工具再进行这个计划？”爵士又问。

“是的。因为我们要是过不去，送信人也是过不去的。”麦盖尔说。

大家都看着阿埃童，他倒是一副很有把握的样子。

“总会有办法的。”他说。

“有什么办法？”麦盖尔问。

“再回到鲁克洛通往墨尔本的那条大路上不就可以了吗？”

“什么？步行400公里吗？”麦盖尔大叫道。

“当然不，我们不是还有一匹好马吗？这段路用不了4天就能走完，再加上‘邓肯号’从墨尔本开到杜布湾需要两天，从杜布湾到这里又只需要24小时，所以总共差不多一个星期，我们就可以获救了。”

阿埃童说话的时候，少校不停地点头，这让麦盖尔很吃惊。不过大家都觉得阿埃童说的方法不错，也最有效，于是决定照这计划进行。

“那么还有一个问题，那就是谁去最合适。这个任务非常重大，也很辛苦。谁能担当此任？”爵士说。

维尔逊、穆纳、麦盖尔、巴嘉勒尔，甚至小罗伯尔都说愿意接受这个任务。麦盖尔的态度特别坚决，阿埃童一直没有说话，最后说：“阁下，如果相信我的话，就让我去吧！这一带我非常熟悉，而且比这更难走的路我都走过，所以我能担当此任。只要阁下写封信给大副，使他相信我，我保证6天后把‘邓肯号’开到杜布湾来。”

“格兰特船长的部下真是不简单，我绝对相信你！相信你能完成这个任务。”爵士说。

显然，完成这个非常困难的任务，没有比阿埃童更适合的人选了，

所以大家也都没再继续争了。不过麦盖尔却提出了反对意见，说阿埃童留在这里应该更合适，因为他可以帮助大家寻找格兰特船长的线索。不过少校说，在这种形势下，想要寻找根本不可能，所以让他暂时走开也好。

“阿埃童，去吧！快去快回！”爵士说。

阿埃童的脸上露出了得意之色，他急忙将头转了过去。不过，即使他反应再快，也被麦盖尔看在了眼里，所以麦盖尔对阿埃童有了怀疑。

阿埃童开始积极地做着出发前的准备，两个水手也帮他备马和装干粮。此时，爵士忙着给艾撒汀写信。信中他让大副火速赶到杜布湾，并告诉大副，阿埃童是个可以信赖的人。他甚至叫艾撒汀一到东海岸就派水手前来支援……

少校看着爵士写信，当要署阿埃童的名字时，他突然问阿埃童：“你的名字要如何写？”

“当然是照着读音写。”爵士说。

“不对！读音也许会读成阿埃童，但写出来却是本·吉奥兹才行！”少校一字一句地说。

第三十三章 真面目是海盗

本·吉奥兹这个名字一出口，每个人都惊呆了。

阿埃童最先反应过来，见自己暴露了，一不做二不休，马上抽出枪，朝爵士开了一枪，爵士应声倒地。同时，外面也传来了枪声。

麦盖尔船长和两名水手这才反应过来，正想去抓本·吉奥兹，但已经晚了，他跑到了胶树林，和那些土匪会合了。

爵士的伤势并不重，他爬了起来。而帐篷里是挡不住子弹的，他们必须退到安全的地方才行。

“快进牛车！”麦盖尔大喊一声，拉着海伦夫人和玛丽小姐，让她们先上了牛车。此时，只有在那厚厚的车厢里才安全。

麦盖尔、少校、巴嘉勒尔和两名水手全都抓起了马枪，准备还击。爵士和罗伯尔也钻进了车厢，一直在车厢后面的奥比尔跑了出来，加入到战斗的行列。

事情发生得太突然了，突然到难以想象。在本·吉奥兹躲进树林后，那边的枪声停了，周围死一般的寂静，只有胶树上端有白烟缭绕，那片茂密的胃豆草丛依然纹丝不动，似乎刚刚发生的一切只是一场幻觉。

少校和麦盖尔跑到胶树下搜寻，发现匪徒已经跑远了，地面上只留下他们的脚印，以及还在冒烟的导火索。谨慎的少校马上把导火索用脚

踩灭了，在这样的枯树林里，一点点火光都可能让整片森林燃烧，并带来严重的后果。

“他们跑了？”麦盖尔问。

“是的，不过他们一跑，倒更让人担心了。现在，我们在明处，他们在暗处。我们随时都会遭到袭击，所以一定要格外小心才是。”少校说。

少校和麦盖尔在周围又搜寻了一番，始终没有发现那批流犯的踪影。他们逃得如此之快，让大家都很困惑，因此也就有了更多的担心。如今，那辆陷进泥里的牛车，就像他们的坚固堡垒，成了他们的防御中心，他们必须每两人一班地轮流守着。

看到爵士被本·吉奥兹打中，海伦夫人吓坏了，她扑到了爵士的身边。很快，她清醒过来，在爵士上了车后，撕开他的衣服，让少校检查。少校说爵士受的只是皮外伤，没有碰到筋骨，不用担心。

虽然流了很多血，但爵士为了让大家放心，还是勉强抬起了带伤的胳膊，向大家做了个手势，表示自己没什么。在伤口包扎好后，他便和大家谈起了这件事。

少校最先说，除了维尔逊和穆纳在外面站岗外，其他人全都在车厢里听他说。不过，少校在叙述他已经有所了解，而大家不知道的事之前，把柏斯的流犯潜逃，并在铁路上引发惨案的事给海伦夫人和玛丽小姐说了。

不仅如此，他还把他们从塞穆尔买的那份《新西兰日报》递给了海伦夫人，最后又说，本·吉奥兹是个罪行累累的惯犯，警察当局正在悬

赏捉拿他。

不过，他前面说的这些大家并不关心，关心的是他怎么知道阿埃童是本·吉奥兹的。这一点对于其他人绝对是个谜。

在大家急切的目光中，少校慢条斯理地说了起来。

阿埃童一开始就给少校留下了不好的印象，所以他本能地警觉起来，并对阿埃童多了几分注意。在威麦拉河时，他看到阿埃童和那铁匠递眼色；阿埃童去每座城镇时，总有些犹豫；他不断要求爵士把“邓肯号”调到东海岸来；牛马的离奇死亡；阿埃童讲话时的吞吞吐吐……这一切的一切，都让他对阿埃童多了几分怀疑。

如果不是昨天晚上发生的那件事，少校肯定也不会知道阿埃童就是那些匪徒的头目。

头天晚上，少校借着菌类植物所发出的光亮，发现树林里有人影，于是悄悄地钻进了小树林，到了那几个人身边。

他看到有三个人在察看地上的脚印和马蹄印，而其中一个就是给马蹄钉三叶形马蹄掌的铁匠。

“是他们，没错，就是他们。”三个人中的一个人说。

“是的，是他们没错。三叶形马蹄印就在这里。”另一个人附和道。

“对，这马蹄印从威麦拉河一直到这里。”

“那毒草还真好，他们的马全都死光了。”

“胃豆草的功效太大了，就连一队骑兵的马都会被弄倒的。”

.....

“最后，这些人不说话了，我就又向前跟了一段时间。‘本·吉奥兹真厉害！’那铁匠又说，‘真不愧是个水手呀，能把格兰特船长的故事编得这么好，他们全信了。如果这次我们成功了，那就发大财了。’‘还是习惯叫他本·吉奥兹，这名字多好呀！’这些人说到这里的时候，离开了胶树林。随后，我也就回到了帐篷，但总是翻来覆去睡不着，看来那些澳大利亚的流犯并不像地理学家说的，全都变好了。我现在说这话，巴嘉勒尔先生千万别生气！”

少校说完，停了下来。大家默默地听着，回想着事情的前前后后。

“阿埃童！这个阿埃童，把我们引到这里，就是要抢劫杀人啊！”爵士气得脸色发白。

“是这样的！”少校肯定地说。

“这么说，从威麦拉河起，他的同党就一直跟着我们，寻找机会对我们下手？”

“没错，是这样的。”

“可恶的阿埃童，他一定不是‘大不列颠号’上的水手，说不定他那服务证书都是偷来的。”

大家全都看向少校，他也想到了这点，说：“这到底是怎么回事，我们还无法理出头绪。不过我想，他的真名一定就叫阿埃童，而那本·吉奥兹，一定是他当罪犯时的名字。并且我觉得他一定认识格兰特船长，一定做过‘大不列颠号’上的水手，不然，他不可能把那些细节说得那么清楚。而从他同伴的话里也能听出，本·吉奥兹就是阿埃童，就像

阿埃童是本·吉奥兹一样，也就是说，原本他是‘大不列颠号’上的水手，但最后却做了犯罪团伙的头目。”

经过少校的这一番解释，大家也都表示认同。

“那现在还有个问题，格兰特船长的部下，为什么会来澳大利亚？”爵士又问。

“怎么会来澳大利亚，这一点不清楚，甚至连警察都可能不知道。不过，这个谜团总有一天会解开的。”少校说。

“难道警察不知道阿埃童和本·吉奥兹是一个人？”爵士又问。

“应该是的，如果警察知道了发生在我们身上的这件事，一定会帮我们找到线索的。”

“这就是说，那伙坏人混入奥陌尔庄园，就是想作案了？”海伦夫人突然说。

“完全可以肯定是这样的，他们一定想在那个爱尔兰人身上下手，不过正好碰到了我们，所以临时改变了计划。那家伙在听爵士说了船舶失事的事后，觉得这是个千载难逢的发财机会，于是和我们出发，到了威麦拉河，通知了他的同伙——铁匠，然后在马蹄铁上做了手脚，此后，这些恶人便一直跟着我们了。阿埃童这个坏蛋，用毒草害死了我们的牛和马，最后见时机差不多了，又骗我们到了斯诺威河边，想让他的手下对我们下手。”

少校那猜测加拼凑的述说，基本概括了本·吉奥兹的犯罪历史。而大家也逐渐对他有了了解：他是一个胆大包天、穷凶极恶的罪犯。

如今，这个罪犯加入这个搜寻队的目的已经被揭穿了，大家不能不保持警惕。不过，一个被揭穿了身份，揭掉了假面具的人总比隐藏在内部的奸细危害小一些。

然而，有些事不揭穿也罢，一旦揭穿就会有人受到伤害。在大家都在谈论阿埃童的罪恶时，玛丽小姐却在想着另一件事。麦盖尔船长发现她脸色苍白，愁容满面，非常绝望，也猜测出她在想什么。

“玛丽小姐，你哭了！”麦盖尔说。

“我的孩子！为什么要哭呢？”海伦夫人也忙说。

“夫人！我的父亲！他……他……”玛丽说不下去了。

她这一说，大家才意识到，此刻，她比其他人有着更大的痛苦，从她眼中闪现出的泪花就能看出，她有多伤心。

阿埃童的阴谋一揭穿，他所说的那些线索也就烟消云散了，那么寻找她父亲的希望也就破灭了。如果“大不列颠号”根本不在杜布湾触礁，格兰特船长也根本就没踏上澳大利亚这片土地，那么，他们将再次陷入困惑中去。

见格兰特姐弟闷闷不乐，大家也都不说话了。此时，还有谁能说出有希望的话给两姐弟带来安慰呢？罗伯尔突然扑倒在姐姐的怀里哭了。

“一张有缺损文字的纸条都看不懂，我真是太笨了！”巴嘉勒尔用手拍着脑袋，对着自己生起气来。

此时，爵士走到了车厢外，站在了站岗的穆纳和维尔逊身边。平原上一片平静，但天空却有乌云聚集，这让原本就沉闷的气氛更沉重了，

静静的平原像是落根针都能被人听到。那帮恶徒就这么离开了吗？

有一大群鸟飞到了树林里的枯枝上；地上有几只袋鼠正在悠闲地吃草；灌木丛里有对风鸟伸出头来……这一切都表明，没有什么东西能打扰这个区域的宁静。

“有没有看出什么异常来？”爵士问两名水手。

“没有，阁下！看来那些恶徒走远了。”维尔逊说。

“说不定本·吉奥兹跑到阿尔卑斯山脚下去了，很可能会去找流窜的山贼做帮手。”穆纳说。

“非常有可能！这些混蛋因为害怕我们的精良武器，所以很可能在深夜偷袭我们。天黑后，我们一定要加倍注意才行。如果我们能尽快离开这个地方，走到东海岸就好了。可惜河水泛滥，我们无法过去。要是我们能买个木筏过去，花多少钱都可以。”爵士说。

“为什么我们不能就地取材，自己做木筏呢？这里有的是树木。”维尔逊说。

“不行的！这条急流很特殊，一般的木筏是没办法渡我们过去的。”

此是，麦盖尔和少校及巴嘉勒尔一起来到了爵士身边，他们准备去观察斯诺威河的水势。

由于刚刚下过大雨不久，暴涨的河水让波浪翻滚，在水底形成了很多旋涡，这样的河水没有稳妥的方法是很难过去的。

“看来这条河我们是过不去了，但我们这么老站着也不是办法，我

们现在应该去做阿埃童之前说的那件事。”麦盖尔说。

“什么意思？”爵士问。

“就是说，我们要赶快去求援，派出的人去不了杜布湾就去墨尔本。我们现在还剩下一匹好马，所以阁下就把这件事交给我吧！我去找人救援。”麦盖尔说。

“可是这太危险了，这一带经常有强盗出没，而且大小路口很可能有本·吉奥兹的人把守。”爵士说。

“我考虑到了这点。不过目前情况危急，不能再拖了。我希望一个星期后能让大家走出困境，阁下，您觉得怎样？”

“爵士在做决定前，我是否能提个要求？派人去墨尔本无可非议，但麦盖尔千万不能去，他可是一船之长，‘邓肯号’不能没有他，所以他不能去冒险，还是我去吧！”巴嘉勒尔说。

“巴嘉勒尔先生，你说得没错，可为什么要你去呢？”少校问。

没等巴嘉勒尔回答，维尔逊和穆纳便异口同声地说：“我们可以一起去墨尔本！”

“我去最合适，你们觉得我不能一口气骑320公里？”少校又说。

“大家都安静！朋友们，我们是需要派一个人去，但却又不知派谁去好，要不抽签决定吧！巴嘉勒尔，把名字都写在纸上……”爵士大声喊。

“阁下，您的名字可不能往上写。”麦盖尔说。

“为什么不能写？”爵士问。

“因为您的伤口还没好，还需要海伦夫人的照顾。”

“没错，爵士！你可不能离开这个队伍。”巴嘉勒尔附和道。

“没错，爵士，您的责任就是守在这里做指挥，千万不能离开。”少校也说。

“这一趟任务非常危险，我也应该要承担，怎么可以把它推给其他人？都不要说了，写名字吧，而且我还希望我是第一个抽。”爵士严肃地说。

大家看爵士那么坚决，只好依了他。在将大家的名字摆在一起抽签时，穆纳抽到了，他高兴地跳了起来。

“爵士，我是不是现在就可以动身了？”他问。

爵士紧紧地握住了他的手。随后，大家重又回到车厢，只剩下少校和麦盖尔在车厢外站岗放哨。海伦夫人知道了抽签的结果后，鼓励了穆纳一番，使得这位水手非常感动。

穆纳勇敢善良，强壮聪明，担当这个重任应该最合适。

晚上8点是穆纳动身的时间，黄昏时，维尔逊替他备好了马。考虑到三叶形马蹄铁很可能隐藏危险，所以便和一匹死去的马的蹄铁做了交换。这样那些恶棍就不知道这马蹄印是他们的了，而且恶棍们没有马，追不上穆纳。

在维尔逊备好马后，爵士准备写信给大副艾撒汀，不料胳膊受了伤

无法写，只好请巴嘉勒尔代写。此时，巴嘉勒尔正在走神，他的思绪在那三张纸条上，脑海里浮现的全是那三张纸条上的字迹，他反复地想着、推翻着，推翻着、想着，怎么都想不通。爵士请他代写信的话他也没有听到，爵士只好又重复了一遍，他这才反应过来。

“好啊！我来替您写！”

巴嘉勒尔说着，摊开了一张纸。不过，虽然拿着铅笔在听爵士说，可他的思绪还在那三张纸条上。爵士对他念道：“汤姆·艾撒汀，立刻起航，把‘邓肯号’开到……”

巴嘉勒尔在写到“到”字时，猛然看到半叠着的《新西兰日报》上露出了“aland”这个单词。他停了下来，思绪完全飘远了。

“巴嘉勒尔，想什么呢？”

“什么？”巴嘉勒尔反应过来。

“想什么呢？”少校问。

“没想什么，没想什么！”

随即，巴嘉勒尔一边低声呢喃着“阿兰（aland）！”，一边站了起来，他的手里举着报纸，来回摇头，想说什么，但到嘴边又停住了。海伦夫人、玛丽小姐、罗伯尔和爵士都吃惊地看着他，不知道他为什么像失了魂一样。过了好一会儿，他渐渐平静下来，眼中露出得意的神色。他坐下来，对爵士说：“说吧！爵士！”

爵士继续念下去：“将‘邓肯号’开到南纬37度线，横穿澳大利亚东海岸的地方……”

“你是说澳大利亚吗？哦！对，是澳大利亚！”他又开始自言自语。

在他写完信后，拿给爵士签名，爵士的胳膊受了伤，很痛，便潦草地签上了自己的名字。在将信封封好后，巴嘉勒尔由于激动，手还在颤抖，又在信封上写下了姓名和地址：“墨尔本，‘邓肯号’汤姆·艾撒汀大副手启。”

写完这些后，巴嘉勒尔离开了牛车，他边走边比画着，嘴里还喃喃着：“阿兰！阿兰！西兰（Zealand）！”

没有其他事情发生，穆纳出行的准备也已经齐全，这位勇敢而忠诚的水手觉得这是自己为爵士效力的时候，所以非常兴奋。

巴嘉勒尔又恢复了正常，不过他的眼神里却隐藏着一件心事。这心事他不准备马上说。当然，他之所以不说，肯定有他不说的理由，因为少校一直听到他在嘀嘀咕咕，好像是自己和自己在生气。有时候，他又会说出一句莫名其妙的话来：“不！不可说！就是说了，又有什么用？一切都太迟了！”

不一会儿，巴嘉勒尔又去给穆纳说去墨尔本的旅途中注意的事项，他将地图打开，仔细地讲解着行走路线，也就是说，有很多小路通向克诺大路，而克诺大路一直向南到了海岸后，转一个弯便是通向墨尔本的路了。只要沿着这条路走就不会错，千万不要为了抄近路而迷路。

总的来说，路线是很简单的，凭借穆纳的聪明，他一定不会迷路。至于危险，也就是在离这几公里之内有可能会碰到本·吉奥兹和他的同党，只要一过这些地方就没事了。

穆纳表示，只要穿过了匪徒的埋伏区，他一定能以最快的速度赶到

墨尔本，并将匪徒远远地甩在后面。

晚上6点钟的时候，天空又下起了倾盆大雨。帐篷是挡不住雨的，大家只好全都挤在牛车里吃饭。好在牛车非常牢固，虽然深深陷入泥里，却也如同堡垒一样给他们提供安全。而对于武器，他们有7支马枪、7支手枪，弹药和粮食都很充足，足够他们维持几天时间。“邓肯号”不到6天就能到杜布湾来，而再过24小时，“邓肯号”的船员们就能到斯诺威河的对岸，到那时，即使他们无法过去，匪徒看到他们有了增援，也会退却的。

不过，这一切要想实现，都要在穆纳冒险成功的基础上完成。

8点钟的时候，夜色渐浓，正是穆纳动身的好时机。在给穆纳牵过马来后，为了谨慎起见，维尔逊还在马蹄上缠了一块布，这样马跑起来也就没有声音了。不过，在出发前，马似乎很疲乏，这不禁又让他们担心起来，因为他们的全部希望都在马那矫健的四条腿上。

少校叮嘱穆纳，一旦突破了匪徒的埋伏地就要爱惜马，宁可迟上一天半天，也不能半途而废。

麦盖尔也交给了穆纳一支手枪，并在里面装上了6粒子弹。一个沉稳勇敢的人，再加上有力的武器，即使遇到匪徒，也是有办法应对的。

最后，爵士、海伦夫人、玛丽小姐和穆纳握了手，穆纳跨上了马鞍。爵士最后又叮嘱他：“信一定要亲自交给汤姆·艾撒汀，不要让他有一分钟的耽误，立刻开船到杜布湾来。如果在杜布湾没见到我们，就说明我们还没有渡过斯诺威河，那就赶快来救援。好了！去吧！我勇敢的水手，上帝会保佑你的！”

在充满危险，风雨交加的夜晚，一个人要穿过无边的荒野，没有坚定的意志是无法做到的。这样的告别，不管是对谁，都不免有些心酸。穆纳没有说过多的话，只说了一句“再见了！阁下！”，便消失在了黑暗的路上。

此时，风雨声更大了，桉树在黑暗中被吹得咯吱咯吱直响。有时候，枯枝落在湿地上也会发出“啪”的声响。那挺立的枯木有几棵被风刮倒了，发出可怕的声响。风在怒吼，河水在咆哮，枯枝也在哗哗作响。大片的乌云被风吹得向南跑，也许是速度太快，像烟雾一样很快又没有了……这一切的喧嚣声，把黑夜衬托得更可怕。

穆纳离开后，众人重又回到牛车里，狭小的空间让大家不得不蜷缩在一起。海伦夫人、玛丽小姐、爵士及巴嘉勒尔在门窗关得紧紧的前厢；奥比尔、维尔逊和罗伯尔则挤在后厢；少校和麦盖尔在车厢外站岗。这种戒备是完全有必要的，因为匪徒随时有可能来偷袭。

黑暗中的狂风拍打着两名“哨兵”的脸，但他们还是忍耐着。

越是恶劣的环境，匪徒越容易来袭击。因此，他们必须把眼睛瞪得圆圆的，警觉地看着四周，听不到风在怒号，雨在倾盆，树干在断裂……

不过，有时候，那狂风好像也累了要休息一样，会停下来。这时候，他们就会听到斯诺威河在静静的芦苇丛和胶树林里翻滚的声音。这种由动到静的转换，往往让人更觉恐怖。所以，少校和麦盖尔会更加小心地听着周围的动静。突然，他们听到一阵尖锐的叫声。

麦盖尔走到少校面前：“听见什么了吗？”

“听到了，会不会是野兽在叫？”

“不！像是人在叫！”麦盖尔说。

随后，他们又听到了一阵嘈杂声，那声音里好像有枪声，但似乎又听不清，因为狂风又怒吼起来。

他们跑到下风处站着听。

此时，车里的人也听到了叫声和枪声。爵士掀起帘子，走到了站岗的两个人面前。

“枪声来自什么地方？”他问。

“好像是那边！”麦盖尔说，他手指的方向正是穆纳出发时走的那条路。

“离这里有多远？”

“如果刨除传声快的风力，应该有5公里左右。”

“我们去看看！”爵士说着，提着马枪就要走。

“不能去！这很可能是匪徒的调虎离山计，骗我们离开牛车。”少校说。

“要是穆纳被匪徒打死怎么办？”爵士说完，抓住了少校的手。

“我们明天就会知道发生什么事了。”少校说。他的声音一如既往地冷静，他不同意爵士去冒这个险。

“您不能去！还是我去看看吧！”麦盖尔说。

“你也不能去！难道你想让自己白白被匪徒打死？这会削弱我们的力量，也等于自取灭亡。如果我们那勇敢的水手已经死了，肯定是不幸的，但我不希望不幸一个接一个！如果他真的死了，那也是命运的安排！如果放在他是我，我也不希望你们去救我！”少校冷冷地说。

理智地说，少校留住爵士和麦盖尔是对的，如果他们真要去的话，生还的可能性不大。在这样的晚上，跑到匪徒埋伏区，就等于自投罗网。再说，原本他们人手都不够，经不起再做无谓的牺牲了。

爵士虽然知道少校说得对，也没再坚持，但他仍然紧紧地握着手里的马枪，在车子周围打转。稍微有一点动静，便会侧耳细听。他努力睁大眼睛，像是要穿透那片黑暗，他好像看到自己的水手被匪徒打死了，甚至听到了他的求救声。那些穷凶极恶的匪徒，一向是以杀人为乐的。想到这里，他的心像刀绞一样痛。

爵士的样子，少校看在眼里，他不知道自己是否能阻止爵士的再次冲动行事，让他跑到敌人的枪口上。

“爵士！你一定要冷静！你要听我作为一个朋友的劝告。你要想想还处在危险和困境中的海伦夫人和玛丽小姐，以及其他同伴。何况，你要去哪里？这样的晚上，你知道穆纳在什么地方吗？他被伏击的地方很可能在两公里之外，可到底在两公里之外的哪里？你知道吗？你怎么去？你……”

少校的话还没说完，便听到了一阵呼救声，呼救声很微弱。

“听听吧！”爵士说。

呼救声是从枪声那里传来的，不到半公里远。爵士此时什么都不顾了，他推开少校，跑了过去。这时，他又听到了断断续续喊救命的声音，声音凄惨绝望。麦盖尔和少校也跟了过去，好一会儿，他们看见了一个人影，正沿着小道连滚带爬地跑了过来，嘴里发出呻吟声。

来人是受了重伤的穆纳。他们三个人急忙把他往牛车上抬，此时的穆纳浑身是血。

雨下得更大了，风也更疯狂了。在他们进了车厢后，车厢里的人全都惊呆了。当清醒过来后，他们马上让出位置，让穆纳躺好。少校把穆纳的上衣脱掉，衣服上的血水和雨水混合着往下掉，他们找到了他的伤口，发现他是被人在右肋下刺了一刀。

少校马上动手，熟练地为他包扎起来。这一刀有没有伤中要害，少校不敢下结论。这位勇敢水手的生死，此时掌握在上帝的手里。

伤口处鲜红的血液还在往下流，穆纳紧闭双眼，脸色苍白，奄奄一息。

少校给他清洗了伤口，然后敷上了一层厚厚的火绒，最后又盖上了几层纱布包扎起来。

当看到血止住了时，大家这才松了一口气。斜躺着的穆纳左肋朝下，头和胸部肿得高高的。海伦夫人喂了他几口水，十多分钟后，他抽搐了一下，然后睁开了眼睛，嘴里喃喃地说着话，但听不清。

少校把耳朵凑近他嘴边，听到他在说：“爵士……信……本·吉奥兹……”

少校把话重复给大家听，然后看着大家。穆纳这话是什么意思呢？

难道匪徒袭击派出的人，是怕我们找救兵？那信……

想到信，爵士急忙去摸穆纳的衣袋，最后大惊失色，因为他给大副艾撒汀的信没有了。

这一夜，大家都是在恐惧和不安中度过。他们非常担心穆纳的生命，他还在发高烧。在这种情况下，海伦夫人和玛丽小姐就成了穆纳最热心的护士。她们不停地忙碌着，无微不至地照顾着他。

天亮的时候，雨也停了。乌云仍在头顶翻滚，地面上全是枯枝，道路越发泥泞，牛车陷得更深了。不管上车下车，都变得越来越困难。好在车子已经陷到了最底部，不可能再往下陷了。

麦盖尔、少校和爵士天一亮便跑到周围观察，并沿着穆纳昨晚跑过来时，沾满了血迹的小路走，但始终没有发现匪徒的踪迹。一直走到昨晚的事发地，当他们看到两具尸体躺在那里时，便知是穆纳打死的。死去的匪徒中，其中一人就是铁匠。死后的他脸色铁青，整张脸都变了形，样子非常可怕。

为了安全起见，他们没往更远的地方跑，又原路返回。情况的严重性让他们陷入到了沉思中。

“要不要再派个人去墨尔本？”爵士终于说。

“非去不可！我的水手没有完成任务，那就让我去吧！”麦盖尔说。

“不可以！麦盖尔，你要知道，300公里，连匹马都没有。”

是的，穆纳骑走的那匹马始终没有出现。它到底是被打死了还是在荒野中跑丢了，抑或是被匪徒抢走了？如果能找到它就好了。

“不管怎样，我们都不能再分开了，即使等8天、15天也好，我们可以等斯诺威河里的水降下去，那时候我们再慢慢想办法回杜布湾，然后再想更安全的方法给‘邓肯号’送信。”爵士说。

“也只能这么做了。”巴嘉勒尔说。

“所以，朋友们，我们千万不能再走散了。单身一个人很容易进入匪徒的伏击圈，非常危险。愿上帝保佑勇敢的水手，也保佑大家平安！”

爵士的意思很明显，首先，怎么都不能有人再去冒险了。接着，他们需要在河岸上耐心等待，直到水降下来，能安全渡过去为止。在他们过了河后，离南威尔士省的边境城市德勒吉特也就不到22公里的距离了。

在那里，不难找到去杜布湾的交通工具，而到了杜布湾后，他们也能发电报到墨尔本，并能直接给“邓肯号”下命令了。

这种做法无疑是明智的，只是又晚了一步。如果爵士不派穆纳去求援，他也不可能遇到这样的事。

回到营地，他们看见同伴脸上的愁容消失了，便知道穆纳一定是得救了。

“他好很多了！”小罗伯尔迎上来说。

“哦？好多了？”爵士又问了一句。

“是的！好多了！少校也放心了，穆纳至少没有生命危险了！”海伦夫人说。

“少校去什么地方了？”爵士又问。

“他在穆纳身边，穆纳拼命要和他说话，不让人去打搅他们。”

此时，退烧且清醒过来的穆纳，在刚刚能够说话时便急着找爵士或少校。少校看他很虚弱，不想让他多说话，但他执意要说，少校只好听着。在他们谈了几分钟后，爵士回来了，穆纳说的话便由少校传达。

少校把爵士叫到了车外，然后在支着帐篷的胶树下和朋友们会合。此时的少校心情沉重，丝毫不像平时那么淡定。当他的眼睛落到海伦夫人和玛丽小姐身上时，显得很不安。

爵士问他究竟发生什么事了，少校便把情况一五一十地说了。

“我们的穆纳出发后，在黑夜里用最快的速度沿着巴嘉勒尔给他指的那条路狂奔。大约走了3公里的时候，迎面遇到了几个人，打头的就是本·吉奥兹。因为人少，所以他枪里的子弹还没打完，右肋便被刺了一刀，然后就从马上摔下来了。那些匪徒以为他已经死了，其实他还清醒着，他感觉到有人在搜他的衣服，然后听到一个匪徒说‘信找到了’，接着本·吉奥兹要回了信，并说‘有了这封信，‘邓肯号’就是我们的了’。”

少校讲到这里的时候，爵士大吃一惊，冷汗直冒。

接着少校又说：“本·吉奥兹让匪徒把马给他追回来，然后又说，‘2天后我就能登上“邓肯号”了，6天就能到达杜布湾。到时候，我们在杜布湾会合。那时候，爵士一行还陷在泥窝里出不来呢。你们快到亘布尔比桥去过河，然后到东海等我，我自有办法让你们上船。等你们上了船，我们就让船上的人去喂王八。有了“邓肯号”，我们就能在海上称王称霸了。匪徒们欢呼说：‘伟大的本·吉奥兹！我们拥护本·吉奥兹！’穆

纳骑过的那匹马很快被追了回来，本·吉奥兹翻身上马，朝克诺的大路飞奔而去，而他的同伙也向南方跑去了，显然要渡斯诺威河了。穆纳虽然身负重伤，可 he 知道自己必须要回来报告这消息，所以强撑着往回跑。在离这里大约300米时，遇到了我们，并被我们抬了回来。这就是穆纳给我叙述的一切。”

少校说完，停了一下又说：“现在明白那勇敢的水手为什么坚持要说话了吧！”

事情清楚了，大家全都惊慌起来。

“这是一群海盗，海盗啊！我们的船员会被他们杀死的，我的‘邓肯号’会落到海盗的手里的。”爵士怒骂道。

“现在知道了，本·吉奥兹的最终目的就是为了抢那艘船！然后……”少校没有说完。

“我们必须在匪徒没到之前赶去海边。”巴嘉勒尔插话道。

“可我们怎么过斯诺威河呢？”维尔逊问。

“我们可以抬着穆纳走，轮流抬着他。不管怎样，我们都要想办法过去，不能让我们的同伴死在海盗的手下。”爵士说。

从亘布尔比桥过斯诺威河有些冒险，因为匪徒很可能就守在桥头，不让他们过，而且很可能会用30人来对付他们这7个人。不过现在顾不了这么多了，只要能闯，他们是怎么都要闯过去的。

“爵士，在走冒险这最后一步棋前，我觉得还是先去侦察一下比较稳妥。这件事就交给我吧！”麦盖尔说。

“我和你一起去！”巴嘉勒尔大声说。

爵士同意了这个建议，麦盖尔便和巴嘉勒尔朝斯诺威河走去。为了不让匪徒们发现，他们一直在河边的高大芦苇下穿行，一直走到了本·吉奥兹说的那个地方……

天黑了下来，可那两个勇敢的，全副武装的伙伴还是没有回来，大家都很焦急。

将近深夜11点时，维尔逊汇报说他们回来了。

两个人跑了16多公里的路，累得筋疲力尽。

“看到桥没有？”爵士问。

“看是看到了，不过只是一座藤条扎的桥，而且完全能确定，匪徒们过去了，只是……”麦盖尔没有说完。

“只是什么？”爵士着急地问，他预感又有不幸的事发生了。

果然，巴嘉勒尔沮丧地说：“桥被他们烧断了！”

第三十四章 惊险渡过斯诺威河

亘布尔比桥被烧断了，而斯诺威河是无论如何都要过去的，所以现在不是沮丧的时候，而是积极行动的时候。现如今，他们必须在匪徒赶到杜布湾之前到达，所以摆在大家面前亟待解决的问题不是怨天尤人，而是怎么办。

第二天，麦盖尔和爵士跑到了河边，一边看水的涨势，一边想办法渡河。

潮水仍然没有下降，依旧是波涛汹涌。想从这样的洪水面前强涉而过几乎是不可能的。爵士双手交叉，定定地站在那里，沉默不语。

“还是我先游过去吧！”麦盖尔说。

“不！麦盖尔，现在不行，我们还是等等看吧！”爵士说话的时候，抓住了麦盖尔的胳膊，他怕这个勇敢的年轻人什么都不顾地跳进这滚滚的河水中。

两个人重又回到他们的帐篷，这一天，他们在焦躁中度过。河边，爵士不知道跑去了多少次，他总想找个冒险也能过去的方法，但都找不到。这条河好像是在和他们作对，水势丝毫不减，想必就是过火山的熔岩，也没这么艰难。

经过海伦夫人的精心照顾，穆纳的身体恢复得很快，已经脱离了危险。直到现在，少校才敢断定那一刀并未击中他的要害，当时之所以奄奄一息，是因为流血过多造成的。当伤口包扎好后，血也就止住了，他

只需再休养几日，便能完全恢复。

海伦夫人一直执意让穆纳住在前车厢，这让穆纳很不好意思。当然，最让他感到不安的是他觉得自己的伤势延误了大家的行程，所以提出如果能过河，大家可以先过去，只留维尔逊照顾他就行了。

接连好几天，河水都是汹涌澎湃的。爵士看起来越来越烦躁，海伦夫人和少校不断地劝他忍耐，但根本不起作用。

爵士觉得本·吉奥兹肯定已经上了“邓肯号”，如果真是这样，他忍耐得住吗？他最心爱的“邓肯号”，很可能已张开帆，开足马力奔赴海盗设下的陷阱，他的手下正一步步地接近死亡，他能忍耐吗？

当然，作为“邓肯号”船长的麦盖尔，同样非常难受，每每想到“邓肯号”上的船员要死在海盗的手里，他就焦急万分。他不惜一切地学澳大利亚人做胶树皮船，他想用棍子夹起轻便的胶树皮过去。

1月18日，麦盖尔和维尔逊试了一下那个胶树皮船，但他们即便使出了浑身解数，仍然让胶树皮船在激流处翻了，而他们也差一点葬身水底。小船很快就被卷进了漩涡，不见了，他们拼命游了3米才游回岸边。

同时，由于雨水连绵不断，高山上的积雪也融化流了下来，河水不仅没降，反而涨了，河面的宽度达到了1公里。

1月19日和20日，他们是在焦躁的情绪下度过的。少校和爵士沿着河岸，走了8公里也没找到浅滩，到处都是奔涌的河水，湍急的河流，仿佛整个山区的所有雨水全都汇集在了这里。

此时，他们援救“邓肯号”的希望也就完全破灭了，“邓肯号”只能听

天由命，因为离本·吉奥兹去墨尔本已经有5天了，“邓肯号”说不定已经开到了东海岸，甚至说不定已经落入海盗的手里了。

不过，即使这样，他们也不能老在这里待着。洪水虽然涨得快，真要退的话，也会退得很快的。果然，在21日早晨的时候，巴嘉勒尔观测出水位开始下降，他急忙把这好消息告诉了爵士。

“现在水位下降还有意义吗？一切都太迟了！”爵士叹着气说。

“可我们也要过去呀，不能老待在这里。”少校说。

“也许我们明天就能过去了。”麦盖尔说。

“就是明天过去，也救不了那些船员了。”

“阁下！请您听我说，大副艾撒汀是个纪律严明的人，所以他肯定会执行您的命令，将船开到东海岸的。不过，谁敢保证本·吉奥兹到了那里后，船就修好了呢？而且就算是修好了，说不定因为种种原因，又会延迟一两天出海呢？”麦盖尔说。

“没错！麦盖尔，希望是这样，那我们马上赶去杜布湾。现在，我们离德勒吉特只有55公里了吧！”

“对！当我们到了那里后，也就有交通工具了。那时候我们可以尽快赶到东海岸，说不定就能阻止那场灾难的发生了。”巴嘉勒尔也说。

“好！那我们马上做准备！”爵士命令说。

麦盖尔和维尔逊又开始了造船。上次的失败让他们领教了洪水的冲击力，所以这次他们锯了几棵大胶树，准备做一个既结实又大的木筏。

这个工作非常浪费时间，第二天才完工。

此时，水位已经明显下降了，不过斯诺威河的水流依然很急。但只要他们能顺着水流走，适时控制水势，还是可以渡过去的。

中午的时候，两个人把两天所需的干粮率先搬上了木筏，把牛车和帐篷也都丢弃不用了。

穆纳的伤势很快就恢复了。下午1点钟，大家上了木筏。木筏的右边有个长桨交给了维尔逊掌管，目的是防范木筏被急流冲走；麦盖尔船长站在了木筏的尾部，用一根很粗的橹掌握着航向；海伦夫人和玛丽小姐坐在了船的正中间，靠近她们的是爵士、少校和巴嘉勒尔，他们的任务是保护两位女士的安全。

“准备好了吗，维尔逊？”麦盖尔问。

“准备好了！”维尔逊握着大桨说。

“一定要小心，防止浪头将我们冲走。”

麦盖尔说完，便解开了系着木筏的绳索，木筏顺水漂去。开始时的5米左右距离还好，维尔逊还能够控制木筏，但很快，木筏就被卷进了旋涡，在里面打转，怎么都出不来。不管是桨和橹，好像都已失去了作用。

木筏转得越来越快了，坐在木筏里的人也被转得头晕眼花。麦盖尔站在那里，脸色苍白，紧紧地咬着嘴唇，眼睛盯着那无数的旋涡。

木筏随着旋涡推进，过了很长时间，木筏被转到了河中心，此时，他们离出发的岸边才不过半公里路程。水势越来越急，中心已经无法再

形成旋涡，木筏稍稍稳当了一些。

麦盖尔船长和维尔逊又用起了他们手里的橹和桨，并沿着一条斜线在水中前行。后来，经过一番千辛万苦，终于快到岸时，维尔逊手里的桨突然折断了，木筏顿时失去了平衡，再次被急流冲走。此时，麦盖尔手里的橹不能再断了，为了尽力抵抗急流，满手是血的维尔逊赶来帮他。

终于，当木筏在河里折腾了半个小时后，他们到了对岸的陡峭岩石旁。不料又撞到了岩石上，木筏被撞散了，而木筏上所带的可供两天食用的干粮也掉在了急流里。

如今，离德勒吉特还有50公里的他们，一无所有了。在这无人的荒野上，他们很难遇到移民或“坐地人”，因为这里除了海盗和山贼外，根本没有良民敢来。

不管怎样，他们都不能再耽误了，必须立刻出发。穆纳觉得自己要是跟着大部队走的话，一定是个累赘，所以要求留下来，等他们回去后再派人来接他。

爵士当然不肯将他一个人留下，怎么都不答应。爵士觉得他们到达德勒吉特怎么也要3天，然后还有5天的时间去东海岸，到那时，“邓肯号”很可能早都到东海岸了，所以反正是迟，再耽误几个小时也没什么关系。

“我不会丢掉任何一个人的。我们可以做个软兜，轮流把你抬着走。”爵士说。

软兜是用带有叶子的桉树编成的。在将穆纳放上去后，爵士第一个

去抬，和他一起抬的是维尔逊。

一行人就这么出发了。

原本的旅行是很顺利的，没想到结果却是这样狼狈。现在他们已经不是寻不寻找格兰特船长的问题了，因为阿埃童所说是假，那么格兰特船长很可能不在大陆，甚至从未来过这里的大陆。而这片大陆，又差点葬送了他们一行人。更可怕的是，这些勇敢的人也许在到了澳大利亚东海岸时，载他们回国的游船已经被匪徒抢走了。

这一天，大家都是在沉默和痛苦中度过的，抬穆纳的人每十分钟会换一次。在这样炎热的天气下，光走路都已经很累了，还要抬上一个体重很重的人，辛苦可想而知，但大家却没有一个人叫苦叫累。

走了大约8公里路之后，天黑了下来，他们便在胶树林里夜宿。晚饭是从木筏散架，掉进水里的干粮中抢回来的一些。

由于这里比沙漠还荒凉，没有野兽和小鸟，所以他们身上的马枪根本就没有用武之地，这样一来，他们明天的粮食在哪里也就没了着落。更雪上加霜的是，夜里还下起了雨。好不容易盼到天亮，雨过天晴，大家这才又集中精力出发。

突然，小罗伯尔发现了一个鸟巢，鸟巢里有十几只蛋，这让他们喜出望外。奥比尔将这些蛋用热水煮熟，然后又加了一些从水洼里挖出的马齿苋，22日这天的午餐便有了。

一路上到处都是蒺藜草，路也越来越难走。这种蒺藜草在墨尔本又叫“箭草”，如果不小心，很可能会撕破裤腿，扎进腿里，让双腿流血不止。不过，即使这样，两位勇敢的女士也没有叫苦，她们和男士一样义

无反顾地前行，让大家很受鼓舞。

当然，行进中，也少不了两位女士对男士们的言语鼓励。

当天晚上，他们夜宿在布纳山脚下的容嘉那河岸。晚饭的时候，少校打了一只很大的老鼠，这也解决了他们的晚饭问题。这种老鼠又被称为“地道鼠”，非常美味。大家都说，如果这只大老鼠能像山羊那么大就好了。

厨艺精良的奥比尔将它烤熟后，这就成了大家的一顿美味晚餐。可惜太少了，连骨头都被啃个精光。

23日，处在精疲力尽中的一行人毅然决然地上路了。从山脚下绕过去后，展现在他们面前的是广阔的荒原，荒原上的草长得如同鲸须一样，有些像箭林、刀山。这些草的根茎交错，如果想要经过，即使不用斧劈也要用火烧来开路才行。

这天早晨，厨艺精湛的厨师长奥比尔已经没有食材可用了。走在贫瘠的散乱硅石中，大家又累又饿，再加上天气的燥热，他们真的很难承受。如果再这样继续下去，一行人肯定会倒在地上的。

峰回路转，好运终于来了。在一棵珊瑚状灌木上，挂着一些像贮满了甘露的荚果，大家急忙冲上去喝了个饱，精神也随之得到了恢复。很快，吃的也有了，那就是虫蛇鸟兽赖以生存的植物，这种植物叫“纳儿豆”，是草类隐花植物。它的叶子像苜蓿，叶子下长着芽孢。芽孢里有扁豆大小的果子，采下来后，用石头一砸会出现面粉。这种植物巴嘉勒尔曾听说过，可以做粗面包。

“纳儿豆”的出现，对爵士一行人来说，简直就是救命的美食，大家

吃得格外香甜。这种植物有很多，奥比尔也收藏了很多，这预示着他们以后一段时间的粮食不用发愁了。

行走到第二天的时候，穆纳已经能自己走路了，而他的伤口也已经全部愈合。此时一行人离德勒吉特不到16公里，当晚，他们便在东经149度的新南威尔士的边境上休息。

而就在此时，雨又开始下了。虽然是小雨，但也下了几个小时，大家的衣服全都被淋湿了。麦盖尔好不容易找到了一个锯木人留下的木棚，虽然木棚已经破旧不堪，但仍然可以利用它来躲雨。

维尔逊出去找了些枯枝，想要烤“纳儿豆”粉做的面包，不过，拾来的干柴却怎么都点不燃。原来，这些枯枝里含有大量的矾质，不能充当燃料。博学的巴嘉勒尔在之前给大家讲澳大利亚的奇闻时就说过这话。

没有火，他们只能吃干冷的面包，穿湿漉漉的衣服睡觉。木棚外，枯枝上的鸟儿不停地叫着，像是在嘲笑他们的狼狈。

女人的体质本身不如男人，两位女士即使再强装精神，体力也一天不如一天了。所以与其说是走，倒不如说是连拖带爬。不过，路总有走到尽头的时候，在木棚里凑合了一晚的他们天一亮就出发了。

11点的时候，他们到了德勒吉特城在上威斯的一个小镇，也就是说，他们距杜布湾还有80公里的路程。

在德勒吉特城，他们找好了交通工具。此时爵士的心里又燃起了希望。如果“邓肯号”延误航行，他们在24小时之内就会到达杜布湾，那时候“邓肯号”及上面的船员应该还有救。

中午的时候，大家美美地吃了一餐，然后坐上一辆邮车离开了这个

城镇。5匹壮马拉着邮车，飞快地向前跑去。车夫在得知将会多得到一些钱时，更是快马加鞭，每小时能行16公里，即使休息，也不过两分钟。

处在焦急中的爵士，恨不得让自己变成小鸟飞到东海岸去。

第二天，在太阳升起的时候，他们隐隐听到了海潮的声音，这也预示着他们马上就要到达目的地了。邮车绕过海湾，到了30度线的海岸，也就是到了爵士命令艾撒汀将船开到这里的地方。

一看到海，大家便极目四望，在海面上搜寻“邓肯号”的影子。他们希望看到“邓肯号”在海里游荡，希望它能像在阿根廷的哥连德角外一样。不过，在那无边无际的海面上，他们根本看不到一只船的影子。

现在，还有一种可能性，那就是风太大，“邓肯号”在港口外抛了锚，所以开到杜布湾的内港——埃邓城去了。

因此，爵士又让邮车向右转，向9里之外的埃邓城进发。

很快，他们的邮车停在了标志港口的固定信号灯不远处，他们看到了码头上停着几只船，但没有一只有麦凯莫府的旗号。

爵士、麦盖尔和巴嘉勒尔全都下了车。他们去海关打听情况，查近几天船舶的进港记录，结果在一星期内都没有一只船到杜布湾。

“会不会是‘邓肯号’推迟了起航，所以我们赶在了它的前面？”爵士大声说。此时的他，不想往绝望方面想。

船长麦盖尔摇了摇头。他了解艾撒汀，他绝对不会拖延时间，一定会执行命令的。

“不管是凶是吉，我们都需要有个结果。”爵士说。

10多分钟后，他们给墨尔本船舶保险经理人联合会发了一封电报。然后，大家重又坐上邮车，到维多利亚旅馆休息。下午的时候，爵士收到了电报，电报上说：

杜布湾埃邓城格莱拉弗爵士：“邓肯号”在本月的18日起航，去向不明。

船舶保险经理人安德路。

电报从爵士手里掉了下去，飘到了地面上。

这就是说，那只爵士的苏格兰游船，此刻已经成了海盗船，而新的主人就是海盗头日本·吉奥兹。

从横穿澳大利亚大陆时的信心百倍开始，到现在的绝望结束，格兰特船长以及受难的船员，他们连踪迹都没找到，而且还赔上了船队上人的性命，这次失败的寻访真是损失惨重。

此刻，爵士已经精疲力尽，毫无办法了。这位勇敢的爵士，潘帕的场场天灾没有压垮他，可澳大利亚大陆上的海盗却将他压垮了……

第三十五章 两只船都成了谜

为了寻找格兰特船长，他们经历了一次次的失败和绝望，此时，他们又无路可走了。

他们现在是不是该绝望呢？茫茫大地，他们要去什么地方搜寻？又有什么办法可以让他们实施搜寻？“邓肯号”没有了，就是想立刻回国也没有可能了。这些好心肠的、勇敢的苏格兰人，在做义举的时候，丝毫没想到会这样失败。他们觉得，这样的结果，一定会遭到世人的嘲笑。

在一场场的捉弄下，爵士不得不承认，他已经无力再做这样的义举了。

玛丽小姐在这种情况下，也不好再提她的父亲，尽管她很想提，可她同时又想起了另一队遇害的船员。所以，以前是海伦夫人在安慰她，现在成了她安慰海伦夫人。于是，她建议大家回苏格兰去。

船长见她这么坚强、识大体，非常佩服。他想要给她提提格兰特船长的事，但却被玛丽小姐用眼光制止住了。她说：“不要再找我父亲了，麦盖尔先生，我们要为这些善良的人着想。在这种情况下，爵士应该命令大家回欧洲。”

“没错，玛丽小姐，麦盖尔应该回去，因为‘邓肯号’的遭遇需要让英国政府知道。不过你也不要失望。”爵士说。

“既然我们答应出来找格兰特船长，就不能半途而废。这样吧，不如你们都回去，我一个人找，找不到我誓不罢休。”麦盖尔说。

玛丽小姐为麦盖尔的誓言而感动，她伸出手，握住了这位年轻船长的手。

当天，他们便开始讨论回欧洲的事宜。不过不管怎样，他们都必须尽快先去墨尔本。

第二天，麦盖尔便去打听开往墨尔本的船的船期。他开始还以为从埃邓到维多利亚省的船有很多，实际上并不是这样。此地一共只有三四只船，全都停在杜布湾里。没有一只要开往墨尔本、悉尼或威尔士角。爵士他们想要回欧洲，只有这三个地方能搭船，因为只有这三个地方有英国本土间的正规航线。

在经过一番考虑、讨论后，爵士决定沿着海岸公路去悉尼，但巴嘉勒尔却又提出了一个令大家都没想到的建议。

他说他去过杜布湾，那里的三只船中有一只会到新西兰北岛都城奥克兰，如果能包下这只船，然后再搭半岛邮船公司的船就能回到欧洲了。

当大家还在考虑他的提议的时候，巴嘉勒尔又列举出了种种理由，每个理由都说明了一个问题，那就是整个路程只需花费五六天时间，因为澳大利亚和新西兰相距只有上千公里。而他们寻找格兰特船长正好也是在37度线上，所以这个建议从某种意义上说也是个机会，他们还可以在新西兰沿海搜索一番。

不过，新西兰只是一个岛，格兰特船长写的可是“大陆”，所以巴嘉勒尔并没挑明去新西兰就是为了寻找格兰特船长。

麦盖尔船长支持巴嘉勒尔的建议，不过，上船前，他说要先去看看

那艘他们要乘坐的船，所以爵士、少校、巴嘉勒尔、罗伯尔及麦盖尔船长一齐坐上一个皮划子，向距岸约两锚链远的船只驶去。那是只250吨的双桅船，叫“麦伽利号”。这只船专门在澳大利亚和新西兰各口岸做短程航行。

船主叫威尔·哈赖，肥胖的身材，面色红润，看起来很野蛮，似乎是个没有接受多少文明教育的人。他的手掌很厚实，鼻子很塌，独眼，嘴唇上油汪汪的。由于脾气暴躁，很少有人搭他的船。

见爵士一行上了“麦伽利号”的甲板，他大声问：“什么事？”

“你是船长吗？”麦盖尔问。

“没错，我是船长，怎么了？”哈赖说。

“你们这船是要装货去奥克兰？”

“没错，那又怎么样？”

“你们一般装什么货？”

“当然是好买好卖的货了。”

“什么时候开船呢？”

“明天开船，我们要趁午潮开船。你到底有什么事？”哈赖不耐烦了。

“你们搭不搭客？”

“搭客？那就要看是什么客了。而且也要看他们能不能吃得惯我们

船上的大锅饭了。”

“我们可以自备伙食。”

“你们有多少人？”

“有10位，其中两位是女士。”

“我可没有舱房。”

“只要把甲板上的便舱让给我们就行了。”

“这样啊……”

“到底愿不愿意？”麦盖尔也不耐烦了。

“那就要看你们……”哈赖说着话，用那钉着铁掌的皮靴在船上来来回回地走着，突然停到了麦盖尔面前，“出多少钱！”

“你想要多少？”麦盖尔反问道。

“要50镑。”

爵士点点头，表示认可。

“那好，50镑就50镑。”麦盖尔说。

“这仅仅指船费！”哈赖又补充了一句。

“可以！”

“伙食我们不管。”

“不管！”

“那好，说定了。拿来！”哈赖伸出了手。

“什么？”

“当然是定金了！”

“好吧，先付一半，25镑！”麦盖尔说着话，把钱数给了他。哈赖接过钱就往腰包塞。

“明天你们来上船吧！午饭前来，我们到了时间就会准时开船的，不管人到没到。”

“知道了！我们午饭前肯定到。”

麦盖尔说完，便和爵士一行离开了船。

“真是个大老粗。”麦盖尔说。

“哈哈……他倒对我的胃口，他就是一只纯粹的海狼。”巴嘉勒尔饶有兴趣地说。

“你怎么不说是只纯粹的狗熊？”少校没好气地说。

“我敢说，这只狗熊以前很可能做过人口买卖的事。”麦盖尔补充说。

“管他做过什么呢，只要他是‘麦伽利号’的船长，他的船是去奥克兰就行。再说了，从杜布湾到奥克兰，我们也不会见他几次面，到了奥克兰，就再也不用见他了，所以无所谓！”爵士说。

海伦夫人和玛丽小姐知道明天就能坐船往回走后，非常高兴。爵士也提前给她们打了预防针，说“麦伽利号”肯定没有“邓肯号”舒服，她们说不在乎。

对于自己的老婆可能在“邓肯号”上被匪徒杀害了，奥比尔虽然很伤心，但还是很尽责地买了足够他们在船上吃的干粮，而所买的食物，全都是双桅船上没有的。

少校找到了一个钱庄，兑换了爵士汇到墨尔本联合银行的几张汇票。此时的他们，需要补充一下现金、武器和弹药；巴嘉勒尔还去找了一份爱丁堡·约翰斯顿出版社出的一份精致的新西兰地图。

穆纳那差点要了性命的伤已经好了。维尔逊则提前到“麦伽利号”上布置他们要入住的舱房，

船舱经过他的一番洗刷后，完全变了样。哈赖看他干得起劲，也就走开了。对哈赖来说，他是不管将要乘船的人是男人还是女人，更不管他们叫什么名字。他关心的只是船舱里装着的200吨皮革。

把该准备的东西全准备好了，还有多余的时间，爵士决定再去37度线看看。

他之所以这么做有两个原因。首先，他要把阿埃童所说的假沉船地点看一看，如果阿埃童真的不是“大不列颠号”上的水手，那么“大不列颠号”既然不是在西海岸沉船，那么就该是在东海岸。而这地方他们在离开后，应该就不会再来了，所以临行前想去看看。

同时，即使“大不列颠号”不是在这里失事的，“邓肯号”如果是在这里落入海盗之手的，说不定也经过了一场恶战，他想看看能不能找到踪

迹。

于是，爵士在麦盖尔的陪同下，骑着维多利亚旅馆主人为他们准备的马，打算从北绕着杜布湾走一圈。

这是一次伤心而痛心的搜索，所以一路上他们都闷声不响，只是看着被海水浸淫的岩石。

凭借麦盖尔的聪明和热诚，他们是可以搜寻每一个地方的。而照理说，海滨也会有沉船遗物被打捞上来，但他们却一无所获。“大不列颠号”的失事，到目前为止对他们来说依然是个谜。而对于“邓肯号”，情况也一样。

突然，麦盖尔在岸边的一棵树下发现了点什么，那是篝火的痕迹。很明显，这里曾有人夜宿过，会不会是游牧队的牧人呢？

当然不是，因为另一迹象告诉他们，匪徒来过这里。这个迹象就是一件旧的，打过补丁的，脏得看上去令人作呕的灰黄两色粗毛衣，毛衣上有柏斯大牢的号码。

“看到没有，那些匪徒来过这里，我们‘邓肯号’上那些可怜的伙伴……”爵士说不下去了。

“是的，很显然，他们没有上岸，都死在……”麦盖尔的声音哽咽了。

“那些恶棍！如果有一天落到我手里，我一定会替我的船员报仇的！”爵士愤怒地大叫一声。

悲伤让爵士的脸色发生了变化，他盯着大海看了很久，接着便一声

不吭地上马离开，回到了埃邓城。

现在还有一件事情要做，那就是把最近发生的事报告给当地警察。在听他们讲述事情经过的时候，警官竟然非常兴奋，特别是听到本·吉奥兹跟那些匪徒离开了，他毫不掩饰地长松一口气，还说这下子全城都能松口气了。

当然，这消息也很快用报告的形式通知了墨尔本和悉尼当局。

爵士和麦盖尔回到旅馆后，见大家也都闷闷不乐。整个晚上，大家都在沉默中度过。他们回想到在白洛夷加时的希望，又想到现在，心里感到很绝望，而地理学家巴嘉勒尔更是烦躁不安。

晚上，麦盖尔把他叫到了自己的房间，问他有什么心事。

“我的朋友，我.....是不是和平时不一样？”

“巴嘉勒尔先生，我觉得您心里一定有秘密！”

“嗯！怎么说呢？我真是不由自主啊！”巴嘉勒尔说。

“到底发生什么事了？”

“我不知是开心还是失望。”

“您的意思是您既开心又失望？”

“没错！”

“您是不是有新的看法？找到了什么新的线索？”麦盖尔继续追问他。

“没有！到新西兰后，我们就再也不会回来了。不过，要怎么……
唉！你要知道，人都是这样，只要有一口气在，就不会死心！世界上不是有句最好的格言叫‘气不断，心不死’吗？我现在就是这样。”

第三十六章 骇人的吃人海岸

1月27日，爵士一行上了“麦伽利号”船，住在了狭小的船舱里。

船主并没有将自己的房间留给女士，因为他那房间实在是很脏，即使留也没人去住。12点整的时候，船在退潮时起锚了。由于有西南风刮来，所以船上撑起了帆。维尔逊想帮5位船员的忙，但被哈赖拒绝了。

既然船长不愿意接受帮助，维尔逊也只能不管闲事了。

5位船员是在船长的怒骂声中升起帆来。“麦伽利号”摆出了远洋的架势，把低帆、前帆、顶帆、纵帆、触帆、插帆和许多小帆全都升了起来。那有些臃肿的船头，以及宽宽的船底和笨重的船尾，让这只船像一只老迈的鸭子，慢慢地向前挪着，这样的船，注定行驶得很慢。

尽管老态龙钟，但不出意外的话，最多6天也就能驶进奥克兰港口了。

晚上7点钟的时候，船远离了澳大利亚海岸和埃邓港口的固定灯塔。海浪非常大，船走得不仅慢，而且颠簸得非常厉害，爵士一行只好如同坐牢一样，规规矩矩地守在船舱里，不敢轻易行动。

每个人都在想着心事，很少说话。爵士坐不住了，站起身来，在狭窄的船舱里走来走去；少校则像泥塑人一般，一动不动；麦盖尔不停地去甲板观察风向，罗伯尔跟在他的后面；巴嘉勒尔一个人坐在角落里，叽叽咕咕地不知道在说些什么。

他在想什么？是在想命运让他们去新西兰，还是想起了新西兰的历史？在新西兰的历史里，有没有把新西兰的两个岛当成大陆呢？他在想着那三张纸条上的事。

“contin, contin.....”他不停地念叨着，“这是大陆（continent）呀！”

他想起了两个岛被航海家们发现的过程：1642年12月13日，荷兰人塔士曼在发现凡第门后，于17日将船驶进了一个大海湾，海湾的尽头就是夹在两岛之间的海峡。

这两座岛，一个是北岛，另一个是南岛。

塔士曼派几只小艇登陆。那几个人登陆回来后，从陆地上带回来几个土人，那些土人中等身材，黑头发盘在头顶，头顶上插着又大又长的羽毛。这些土人有着棕色的皮肤，瘦得皮包骨头，说着生硬的语言。一上小艇，他们便叽叽喳喳，不知道在说些什么。

这让人误以为欧洲人和土人刚一见面就能建立友谊，谁料第二天，当塔士曼的一只小艇去附近海岸探索有没有停泊地点时，看到载着7个土人的独木舟开始攻击他们的小艇。为此，小艇里的水手长的喉咙上挨了一枪，最后只能跳海逃命，小艇里的其余8人，有6人被杀。最终，只有两个人和水手长逃回了船上。

之后，塔士曼报复性地开了几枪就乘船跑了。

而那个海湾也就被称之为屠杀湾。塔士曼沿着屠杀湾西岸一直向北行驶，1月5日的时候停在了北角附近。由于那里无法补充淡水，而且海浪很大，所以只能离开。不过，他给那里取名叫“斯塔腾兰”，也就

是“三民地”的意思，旨在纪念“三民会议”。

塔士曼一直以为他在南美洲的南部发现了一个“大陆”。不过，巴嘉勒尔又想：“17世纪的一个海员很可能会把新西兰误当‘大陆’，但19世纪的海员却不会这样。如果说格兰特船长犯这样的错误，显然是不可能的。”

在塔士曼之后的100年里，新西兰仿佛不存在了。后来一个法国航海家旭尔维在南纬35度37分又发现了这片陆地，由于旭尔维的小艇被偷，他竟然放火烧了一个村庄。

1769年10月6日，著名的库克船长用一些小恩小惠收买了土人，并开花炮恐吓他们，让他们变得老老实实。1773年，库柯船长再次来到和克湾，亲眼看到了土人吃人肉的事。

1827年3月，著名的瞿孟居威尔，那位“阿思特洛纳伯号”上的船长，竟然不带任何武器地在陆上和土人过了好几天，他不仅没有受到伤害，而且还和土人互换了礼物。土人教他唱歌，他教土人测量地图。

上述的事件整体看来很矛盾，有些土人和善，有些则凶狠，由此我们也能得出一个结论：新西兰土人的大多数残酷行为是出于报复。他们对人的好坏，取决于对方对他们的好坏。

有个叫伊尔的英国人是个流浪科学家，他曾环游世界，在经过这两个岛时，也发现了吃人肉的事。

1831年，年轻的纳布斯船长曾在群岛湾见到了这种土人吃土人的惨景，也看到了土人间战斗的激烈。野蛮的他们开始使用火器，而且使用得非常熟练，所以有些部落整个都被他们消灭了。

同时，新西兰人很恨侵略者，他们有着很强的自卫能力，永不放弃地和英国移民做着斗争。

巴嘉勒尔就这么坐在角落把新西兰的一些历史回忆了一遍，越想越焦躁。因为所有他能想起来的历史，没有一个能让他把这两个岛称之为“大陆”，但“contin”这个词却在他的脑海里挥之不去，但他又无法想象出一个更合理的解释。

1月31日，从开船到现在，“麦伽利号”船在海上已经行驶了整整4天了，可还没有过澳洲和新西兰之间那片狭窄海面的三分之二路程。船主哈赖极少关注船上的事，任凭水手们去做。他每天所做的事情就是抱着大麦烧或白兰地，把自己喝得醉醺醺。看船主这样，水手们也都学他，所以“麦伽利号”基本上就是听天由命。

这样的船长和船员，让麦盖尔不得不格外地留心起来。不止一次，船几乎要翻了，是穆纳和维尔逊急忙将舵扶正。不过，他们的帮忙并没有得到哈赖的感谢，反而遭到辱骂。他们只能忍着，有好几次，他们想把哈赖捆起来，但都被麦盖尔制止了。

麦盖尔对此船的处境非常担心，但为了不让爵士烦心，只能在背地里和少校及巴嘉勒尔说。少校给他出的主意也是把哈赖捆起来，只是说法不一样。

“你觉得怎样对整只船好就怎样做，毫不犹豫地担负起这只船的指挥。如果你不愿意指挥，那你就去驾驶这船。那个醉鬼，我们可以在到了奥克兰后放了他，他还可以继续做他的船主，那时候，他爱让船翻掉是他的事。”

“当然，少校，真到了万不得已的时候，我想我会照您的话去做

的。目前，我们还是照料着就行了。”麦盖尔说。

“你不能领航吗？”巴嘉勒尔问。

“不容易，船上连一张航海地图都没有。”麦盖尔说。

“是这样呀！”

“是的，哈赖这家伙看来对这一带太熟了，根本不需要测算航路。”

“也许他认为，他的船自己会认路，不需要人操作。”巴嘉勒尔说。

“哈哈……如果哈赖在靠近陆地时还不醒，那我们可就麻烦了。”

“但愿到时候他能醒。”巴嘉勒尔说。

“既然如此，你能不能在必要时把‘麦伽利号’开到奥克兰去？”

“关键是没有那一带的地图。礁石就在水下几米处，不管这船多么结实，龙骨一碰到就会散架的。”

“船一散架，船上的人也只能往岸上爬，没有其他办法了吗？”少校问。

“没错。对了，巴嘉勒尔先生，听您说海岸上的毛利人很厉害是吗？”麦盖尔问。

“是呀，我的朋友！毛利人非常聪明，专喜欢吃人肉！”

“你这么一说，如果说格兰特船长的船在新西兰海岸附近沉没，我们就不必去找了？”少校又问。

“沿着海岸找还是可以的，希望上帝保佑，我们不要落入这些残酷的毛利人手里。”巴嘉勒尔说。

这段对话又让巴嘉勒尔想起了两只法国军舰的遭遇。

按照毛利人的风俗，他们的荣誉来自于在受了侮辱后，用血来洗刷。在这样的部落，酋长塔谷里是不可能忘记上次他的部落所受的耻辱的，所以他耐着性子等待欧洲的船只，以便实现自己的复仇计划。

那时候，从法国过来的“卡德尼号”军舰和“马思加南号”来到了塔谷里部落所在的这一区域，由于接连的几场风暴，“卡德尼号”军舰的桅杆受到了严重损坏，于是，马利荣舰长把“卡德尼号”船停在了群岛湾里，去陆地上寻找木材。

5月22日，他在离海岸2公里的地方，发现了一片树林，那里有高大的柏树，柏树附近有个小湾，离他们的船只有1公里。

马利荣舰长让船上三分之二的人带着斧头和工具，去那片树林里砍树，并开出了一条通向小湾的路。同时，他又选了两个据点，第一个据点安置的是病员、铁匠和箍桶匠，在毛土洛小岛上；第二个据点则是一些老实忠厚、身体健壮的毛利人在帮他们干活，位置在离岸1公里半的陆上。

做了这样的安排后，马利荣舰长并没有放松警惕，他让派出去的人都全副武装。在看到毛利人没有武器，而且老实憨厚后，也就让船员们放下了武器。虽然“马思加南号”上的舰长克诺采舰长劝马利荣舰长要小心为上，但他不以为然。

此后，那些毛利人更殷勤了，与船上的官员相处得也很融洽。特别

是在马利荣舰长正式到陆上访问时，那些毛利人还称他为大酋长，并给他的头发上插上了四支白羽毛，以示尊敬。

在他们的造桅工作进行了33天，船上的水库也在淡水里取了水后，6月12日下午2点左右，马利荣把小舟准备好，去塔谷里的村子脚下打鱼。当时，他随身带了两名军官，一名叫弗得利古，另一名叫勒巫。同时还带了一个志愿兵，以及教练官和12名水兵。而那时候，塔谷里和另外五名酋长一直在陪着他。

不过，晚上的时候，马利荣舰长却没有回来。

第二天，“卡德尼号”到毛土洛岛上去装淡水，也没有遇到什么意外，照常回到了船上。但在9点钟的时候，“马思加南号”值班的水兵救起了一个人，那个人叫图尔勒，是马利荣舰长带去的一名水兵。他的腰部被铁矛戳了两下，身负重伤。这就是说，马利荣舰长带去的包括他本人在内的17人，最终只逃回了一个人。

原来，早晨7点钟的时候，毛利人还在热情地欢迎马利荣一行，他们甚至还把马利荣一行背上了岸。但突然，一群带着铁矛、木棒的毛利人向他们冲来。没办法，在人力悬殊的情况下，除了水兵图尔勒之外，其他人全都死了。

图尔勒是在中了两铁矛后，先是躲在了矮树丛中，接着趁毛利人不注意，跑到了海里。

听了图尔勒的讲述，船员们非常气愤，大叫着要报仇，但同时又想着赶快把岸上几个据点的人救回来。

而当时，克诺采舰长并没有在船上，而是在木工厂。于是，首席军

官居克莱陌儿替他临时指挥，将“马思加南号”的大划子派了出去，上面是一名军官和一名士兵，他们要去救木工厂的人。

在途中，他们发现了马利荣舰长的小舟，于是就在那里上了岸。

前面说过，克诺采舰长因为不在兵舰上，所以对大屠杀的事情一无所知。下午2点的时候，他看见一队士兵慌慌张张地向他跑来，才知道出了事。为了预防大家惊慌，他禁止把消息透露出去。

当时，毛利人已经占领了有利位置。克诺采舰长马上命令把所有的工具拆卸下来，把不是很重要的埋掉，将工棚烧掉，然后带着60人往军舰上退。在他们撤退的时候，毛利人还在后面一边追，一边大喊：“塔谷里杀了马利荣了！”

水兵们要去报仇，被克诺采制止了。

在他们登划子时，发现有1000名左右的士兵已经死了，在地上一动不动。当那大划子驶到海里后，石头就像雨点一样飞了过来。4名水兵向毛利人开枪，打死了一名酋长。

克诺采舰长立刻又派一只大划子到毛土洛岛上去，将岛上的伤病员救了回来。

第二天，克诺采舰长又派了一队兵去岛上增防。而最终，法国人进攻了村子，毛利人的6个酋长被杀。

最后，他们还想去看看和马利荣一起被杀的16个人中是否还有活的，并为死者报仇。于是，很多士兵划着一只大划子重新上了岸，并到了塔谷里的村庄。结果发现，阴毒的塔谷里早就跑了，逃跑时，肩上披的就是马利荣舰长的大衣。

士兵们在塔谷里的屋里搜出了很多东西：刚烧过的头盖骨，上面还有被啃过的牙印；一条用木头串起来的人腿；马利荣舰长的硬领衬衫，上面全都是血；士兵和水兵的衣服，弗得利古的手枪，小艇上的质形徽章和一些破烂的布条.....同时，在另一个村里，他们还搜到了很多人肠子，已经被洗得干干净净，有些已经煮熟了。

收集完了这些杀人和吃人的证据后，他们又将被害人的遗骸恭恭敬敬地埋了。最后放了一把火，将整个村子给烧了。

1772年7月14日，两艘兵舰离开了那个伤心之地。

对于新西兰土人不讲信用，会吃人的事情，库克在1773年第二次来新西兰旅行时，也证实了这一点。

12月17日，库克率领由弗诺舰长指挥的一只船来到了这里，并放下一个大划子登陆。他们登陆的目的是去采摘野草，不过那划子出去后却没有回来。当时，上陆地的总共有10个人，一个是候补少尉，另9个人是海员。

弗诺舰长有些不放心的，便派伯勒中尉去找他们。伯勒到了头一个划子登陆的地方后，曾写了如下报告：“那是一幅屠杀惨景，讲起来都让人毛骨悚然。我们同伴的头、肠子、肺.....零散地被丢在沙滩上，旁边有狗在吞食。”

除了以上两次血腥记录，我们有必要说说1815年，有两兄弟也被新西兰毛利人攻击；还有1820年，桑浦生指挥的“波伊得号”上全体船员被杀的事；当然，还有1892年3月1日，酋长爱纳拉罗抢劫来自悉尼的英国双桅船“霍思号”，并杀害了很多水手，将水手的尸体煮熟吃了的事。

有着吃人爱好的毛利人所住的海岸，就是醉鬼哈赖指挥的“麦伽利号”正慢慢驶向的地方。

第三十七章 暗礁丛里的“麦伽利号”

疲惫不堪的航程好像怎么都走不完。2月2日，“麦伽利号”已经行驶6天了，但还是看不到奥克兰的海岸。好在一直吹的是西南风，海水逆流，船也不会倒退，所以也算是件好事。汹涌的波浪让船时不时地掉进浪槽，但又不断地勉强驶出，而每个回合，都会让桅杆猛烈地摇晃。

经常醉醺醺的哈赖是个慢性子，他并不要求船走得多快，所以也没将帆拉得太紧，否则全船的桅杆都有可能倒下来。麦盖尔一直忧心忡忡，盯着船上那摇摇欲坠的零件，希望能尽快到达目的地，免得出什么意外。

由于一直在下雨，海伦夫人和玛丽小姐基本上都是待在舱里不出来。不过有时候，她们也会出来，即使淋湿衣服也不管。当情绪不高的两位女士回到船舱后，大家都想尽办法逗她们开心。巴嘉勒尔有几次还给她们讲故事，但收效甚微。

从家里出发时的信心百倍到现在归家时的垂头丧气，形成了极大的反差。

在这些人中，心情最不好的就是爵士了。他不管外面下没下雨，都会站在甲板上，只要见风停了，他便会拿着望远镜四处搜寻，仿佛想在大海上寻找点什么，他的脸上时不时地露出痛苦和不安的表情。一切对他来说，都已经是力不从心了。

麦盖尔寸步不离地跟在他身边。这一天，爵士在看了看一望无际的

天边后，突然看到海面上的浓雾中出现了一个缺口。麦盖尔也看到了，便问他：“阁下，您是否在寻找陆地？”

爵士摇了摇头。

“我想，您是急着想离开这只双桅船。按理说，36个小时前我们就应该看到奥克兰的信号灯了。”麦盖尔说。

爵士还是不说话，他一直举着望远镜，将望远镜对准地平线，看了有1分多钟。

“陆地没有在那边，阁下可以望望右舷方向。”麦盖尔说。

“为什么要向右舷看？我可不是在找陆地，麦盖尔。”爵士叹口气说。

“那您在找什么，爵士？”

“找我的船，找我们的‘邓肯号’。我觉得它一定就在那里，在海面上干着海盗的勾当，罪恶深重！它是在那里，就是在那里，麦盖尔，告诉我，它就在澳大利亚和新西兰之间，我们能遇到它，一定能遇到。”爵士激动地说。

“希望上帝保佑我们不要遇到它！”

“为什么？”

“难道阁下忘了我们现在所处的环境了吗？要是‘邓肯号’来追我们，我们逃都没办法逃。”

“逃？为什么要逃？”

“爵士！难道您觉得我们可以不逃吗？不过话又说回来了，即使逃也逃不了，我们一定会被俘，一定会被匪徒摆布。本·吉奥兹一伙可是什么事都做得出来的，我们死倒没什么，我们可以流尽最后一滴血保护其他人，可我们死了该怎么办呢？您还要想想爵士夫人呀，还要想想玛丽小姐呀。”

“可怜的女人们！麦盖尔，你知道吗？我心痛死了。我有时候感到非常失望，甚至绝望。因为我觉得好像还有更大的不幸在等待着我们，老天好像在考验我们，和我们作对，我感到非常恐惧。”

“爵士！”

“我没有为自己害怕，我是在为我爱的人和你爱的人担心。”

“不要害怕了，爵士！从现在开始，我负责‘麦伽利号’，你负责察看‘邓肯号’，而看到它不是为了接近，而是为了躲开。”

麦盖尔说得没错，若是遇到“邓肯号”，他们这“麦伽利号”就要倒霉了，而在这片区域，正是海盗们横行的地方，所以遇上非常有可能。不过至少在这一天，他们并没有碰到“邓肯号”。

当天夜里，已经是他们从杜布湾出发的第6个晚上了，麦盖尔担心的事情并没有发生。

然而，这天夜里却很可怕，天空像蒙上了一层布，黑咕隆咚的。哈赖和水手们好像一下子从醉意朦胧中清醒了过来。哈赖走出船舱，一边揉着睡眼惺忪的眼睛，一边摇着肥厚的大耳深吸了两口清新空气，好像是在给自己解乏。然后，他看着桅杆。

风吹得更厉害了，同时风向也发生了变化，开始从西向东吹，将那

条船往新西兰海岸的方向吹去。

哈赖大声叫骂那些水手，让他们赶快把帆落下来，并扯起了夜航帆。麦盖尔知道他的意思，却没说话。他不愿意和这些粗俗的水手说话。不过，为了安全起见，他和爵士还是不能离开甲板，他们不敢不盯着这只船。

两个小时后，狂风大作。哈赖把前帆收了起来，因为“麦伽利号”和美国船一样，是有两层帆架的。这项工作5个水手做起来并不困难。有了这两层帆，只要再把上层的帆落下来，那么前帆就能缩小到最小面积了。

狂风让风浪大了起来，“麦伽利号”的底部震动得特别厉害，如同撞在了岩石上。不等笨重的船壳涌上浪头，便又被打了下去。海水冲上了甲板，就连甲板左舷边的小艇也被冲得无影无踪了。

麦盖尔不安起来，浪头虽然不大，但如果换了别的船，还是可以随浪行驶的，完全不用担心。不过这只船却很可能会下沉，因为每往下沉一下，甲板上溅起的海水就会因为排水口没有排出而溢满船舱。

因此，为了预防万一。麦盖尔建议砍破舷板，让水更容易往外流，但这个建议却被哈赖拒绝了。这还不算什么，还有更大的危险在等着他们。当快要11点的时候，站在甲板下风处的麦盖尔和维尔逊听到了异响，他们本能地警觉起来。麦盖尔对水手说：“是回澜！”

“对！是海浪触到了礁石反弹回来了。”

“怎么也有400米吧！”

“最多还有400米就是陆地了。”

麦盖尔将身子探出了舷外，他观察着那片幽暗之地，大声说：“维尔逊，快测水！”

守在船头的哈赖丝毫没有意识到危险，维尔逊抓起测水钟，跑到了前桅的桅盘处。他抛下了铅锤，让绳子从指缝间流出，不过在溜了三段后，铅锤停了。

“只有3英寻！”维尔逊说。

“我们钻进礁石丛了。哈赖！”麦盖尔对船主哈赖说。

哈赖无所谓地耸了耸肩。他走到了船舵处，将船舵不停地扭动，让它向着下风的船舷。此时已经非常危险了，维尔逊丢下测水钟，使劲去拉前桅的调帆索，并让船帆兜着风转了过去，同时又把哈赖推到了一边。而此时，哈赖还不知道维尔逊为什么要推他。

“就让风吹吧！放松扣帆索！”麦盖尔一边喊，一边掉转船头，让船避开了一块礁石。

半分钟之后，危险解除了。船开始往礁石缝里钻，天虽然很黑，但却能看见有条汹涌的白线正在离船约4英里的地方。

哈赖这才知道大祸临头了，惊慌起来，说起话来也是前言不搭后语，胡乱地发着命令。这一切都说明这个醉鬼被吓得失去了常态。他一直觉得陆地离船还有二三十公里，一切都平安无事。

谁知靠近陆地的也有险滩，海浪将船打出了他平常走的路线。真是经验主义害死人啊！

其实此时他还不知道，麦盖尔已经采取紧急措施，将船驶离险滩了，但糟糕的是无法搞清方向，所以船很可能只能在礁石圈漂荡。

风依然在向东方吹，船也颠簸得越加厉害了。船头和船尾随便落下哪一头，都有可能触礁。果然很快，暗礁越来越多，他们必须将船来个大转弯，逆风行驶到没有暗礁的水面才行。

不过，像这样一条不稳当的船，帆面缩得又小，想要让它急转弯很难，但也可以尝试一下。

“把船舵转向下风船舷！”麦盖尔朝维尔逊大喊。

“麦伽利号”慢慢地接近暗礁，很快，海浪打在了水下的岩石上，飞起很大的泡沫，泡沫在浪头发发出明晃晃的白光，像一片磷光罩在了浪头上。大海也开始咆哮、怒吼。

维尔逊和穆纳爬在舵盘上，可舵已经转到了底部，不能再转了。就在这惊险的一瞬间，随着砰的一声响，“麦伽利号”撞在了岩石上，支索断了，前桅也变得不再稳定。受了这样损坏的船，还能不能转过头来呢？

不能了！因为一个高浪打过来，将船推到了暗礁上方，随即又往下掉，“麦伽利号”重重地摔在了礁石上，一动也不能动了。

船舱里的玻璃被震烂了，船上的人也都跑到了甲板上。由于海浪一直在冲洗着甲板，所以情况非常危险。麦盖尔知道船已经深深陷入到了沙里，所以叫爵士他们回到船舱去。

“到底发生什么事了？这船怎么了？”爵士问。

“沉肯定是不沉，不过海浪会不会将船打散，这就难说了。幸好我们还能想出办法来。”麦盖尔说。

“放小艇下海不行吗？”

“等天亮再说吧！现在天太黑，浪也大，又不知道哪里是陆地。”

此时，哈赖就像疯了一样，在甲板上来来回回地跑着。他的手下，那些水手在惊慌了一会儿后，也开始破罐子破摔，用酒精来麻醉自己。麦盖尔怕他们喝醉了闹事，但要是想靠那疯了般的哈赖制止他们，显然也不可能，因为那个疯子醉鬼正在心里打着算盘，计算这次会让他损失多少，是否能够获得保险公司的索赔。

麦盖尔没有去打扰他，而是让同伴们武装起来，随时准备和喝得烂醉的水手们的骚扰作斗争。此刻，醉鬼们正在甲板上哭爹骂娘，说着脏话。

“你们要是敢跑到船舱去，我会像打狗一样将你们打死。”少校说。

喝醉的水手们被少校那严肃而凶狠的话语吓住了，一溜烟跑了。这时候，麦盖尔才耐心地等待天亮，不再担心醉鬼闹事。

风停了下来，海浪也平静了，陷在沙子里的船一动不动。麦盖尔想在太阳出来后，寻找能够上陆地的地方。此时，船上唯一的交通工具就是一个吊在右舷上的小划子。小划子很小，一次只能坐四个人，所以想要把他们全都运到陆地上，怎么也要跑四趟。

伏在舱篷里的麦盖尔，极力想要透过黑色暗夜看到些什么。他在心里盘算，如果这里离海岸比较远，那么那只划子是否禁得起跑三趟运人？他竭力地想着，期盼着东方早点吐出鱼肚白。

对麦盖尔一直都很信任的两位女士回去休息了，男士们听不到醉鬼的叫声，精神也恢复了。静悄悄的船上，就像在沙滩上睡着了般一动不动。

等到天蒙蒙亮时，已经是凌晨4点，麦盖尔站在了甲板上。此时，大地已经渐渐开始泛白，天边也有云朵出现。广阔的天空有晨雾浮现，还有一丝亮光如灯塔般在山峰闪耀。山峰完全遮住了他的视线，所以无法看到初升的太阳。

在大约15公里远的地方，他看到了陆地。

“有陆地！”麦盖尔大叫。

大家被麦盖尔的叫声惊醒，全都跑到了甲板上，一起望着天边出现的海岸。不管这个海岸上住着善的还是恶的人，他们都必须去，因为那是他们唯一逃难的地方。

“哈赖去什么地方了？”爵士问。

“不知道，爵士！他和那几个水手不知跑去哪里了。”麦盖尔说。

“马上找到他们，不能丢下他们不管。”仁慈的爵士一向都是这样。

大家找遍了船上的水手间、中舱和下舱，都没有他们的影子。

“会不会掉到海里了？”巴嘉勒尔问。

“很有可能！”麦盖尔担心地说。

说完，他走向了船尾。

“我们找划子吧！”他说着话，和维尔逊、穆纳一起想放划子，没想到却找不到划子了。

第三十八章 浮不起来的船

原来，趁着天黑，哈赖和他的水手利用船上唯一的小划子逃跑了。

“这群自私的家伙跑掉就跑掉吧，免得给我们添麻烦。”麦盖尔安慰爵士说。

“是的，我们船上多得是勇敢的人。今后，麦盖尔就是‘麦伽利号’上的临时船长，我们都做你的水手，听从你的指挥。”

爵士的话引得大家哈哈大笑。年轻的船长麦盖尔看了看大海，又看了看那残缺不全的船桅说：“现在我们想脱险有两个办法，第一个办法就是把船弄出来，然后开到海里去；第二就是做木筏上岸。”

“如果能将船弄出来，当然是最好的了。”爵士说。

“这船损坏的程度怎么样？”海伦夫人问。

“我觉得应该不是很厉害，夫人！我们可以在船头装一个临时桅杆，让它代替前桅的作用。这样虽然走起来慢，但怎么也会到达目的地的。”

“那我们就先检查一下船损坏的程度吧！”少校说。

爵士、麦盖尔和穆纳用了3个小时的时间，把货舱里的皮革移开，然后将一部分丢在了海里，以便减轻船体的重量。在彻查船底时，他们发现船左边靠近腰板的地方有裂口，幸好“麦伽利号”一直在向右倾斜，

裂口正好对着天空，所以海水没有从那里流进去。维尔逊在那裂口处又塞了一些麻线，并打上了一个铜补丁。

底舱里灌进去的水不多，用抽水机很容易抽干，这又能减轻一些船的重量。

在检查船的壳时，麦盖尔并没有发现船上有因为搁浅而受到的大损伤，不过副龙骨有一部分嵌在了沙里，他们必须要想办法弄出来。

维尔逊在检查完船的内部后，又去了船座，确定了船搁浅的沙地的部位。

所有的事情都做完了，现在只需想办法将船弄出来。太平洋涨潮的水位并不高，不过即使这样，麦盖尔还是想利用涨潮的浪头将“麦伽利号”冲起来。但做个临时桅杆也是需要很长一段时间的，所以正午涨潮时并没有赶上。他们只好再仔细观察水势对船头的影响，以便等下次涨潮再试。

计划好后，大家开始着手准备，麦盖尔让人将桅杆上剩下的帆全都卷了起来，然后又落下主帆、副帆和顶帆。机灵的小罗伯尔像只猫一样蹿上了桅杆，大胆地做起了见习水手的工作，为这次的尝试立了大功。

接下来要做的就是抛锚。他们需要在船的后面，也就是龙骨方向抛一个或两个锚，以便在船尾涨潮时浮起来。其实，现在如果有个小划子就好多了，没有的话，他们也只能用前桅断掉的木头和空酒桶做木筏，以此作为运锚的工具。而只要在他们抛锚的时候，吃得住底，那么船浮起来就有希望了。

想好了对策后，他们开始做木筏。做木筏的时候，船上的所有人都

参加进来了。他们先用斧头砍断了系着索的前桅，然后又让残桅倒下去，接着将桅盘取了下来。

麦盖尔主要想用空桶托桅盘，然后做成一个桅盘筏，这样空桶就能增加浮力了。而当桅盘筏上装上一个槽后，整个桅盘筏也就好操作多了。

造筏的工作仅仅只做了一半，正午就到了。麦盖尔让爵士带领大家继续做筏，自己则去测算地理位置。为了方便测地理位置，麦盖尔去了哈赖的房间，从那里找来了一本格林尼治天文台年鉴和六分仪，透过六分仪上的望远镜，他能看到地平线，这样也就能测算出数据了。不过没想到，北面有块陆地延伸到海洋，将那地平线遮住了，根本没办法测算。

既然如此，他就必须用人工地平线来代替。而要做人工地平线，通常要用一个装满水银的大平盘来测量。没有水银的话，还可以用流质的柏油来代替。麦盖尔知道了新西兰西岸的经度，所要测的只是它的纬度。

首先，他用六分仪测出了太阳从子午线到地平线的距离，测出的结果是68分30秒，由此也就知道太阳和天心的距离是21分30秒。由于两个数据加起来是90度，所以再根据格林尼治年鉴，就能得出纬度值，也就是38度。

由此确定，“麦伽利号”的方位是东经171度13秒和南纬38度。

麦盖尔又看了一下地图，发现“麦伽利号”现在已经偏离原航线一个纬度，稍稍偏南了，所以现在他们必须向北航行一个纬度才能到达新西兰的都城。

在把方位测定好后，正好是12点15分。大家站在甲板上，焦急地观察着“麦伽利号”的动静，他们期待它能在浪潮的作用下，从沙地里浮起来。不过，虽然船下发出了嘎啦嘎啦的声响，但最多只能说明船在颤动，船身依然纹丝不动。

下午2点的时候，锚被放在了造好的木筏上。麦盖尔和维尔逊在船尾系了一条细铁链，登筏抛锚。借着涨潮，木筏漂到了船后，并在距船约100米，水深大概10英寸的地方抛了锚。锚吃住了海底，他们又运主锚，将其抛在离水深12英寸的地方。

把这些准备工作做好后，只等涨潮最厉害的那刻到来了。麦盖尔既激动又高兴，夸奖了水手们几句，并重点夸奖了巴嘉勒尔，开玩笑说只要他好好干，以后会提升他做水手长的。

此时，奥比尔已经做好了饭，目的是让大家吃得饱饱的，好有精神干活。饭后，麦盖尔又把各方面都检查了一番。因为想要把一个搁浅的船弄出来并不是一件容易的事，所以他不能粗心大意，否则会前功尽弃的。

为了让船上的重量减轻，麦盖尔又让人把船上的大部分货物扔进了海里，并将船上比较有重量的皮捆子、松段、备用帆架和几吨生铁全都放到了船的尾部，以便压住船尾，帮助船头翘起。同时，他们还把很多空酒桶滚到船尾，然后又往里面装上了水，以便加强船头的浮力。

这些事情做完已经是半夜了，全体人员累得腰酸背痛。此时的风力在慢慢减弱，大家观察着云层的颜色和形状，发现风向有所变化。麦盖尔将这个情况报告给了爵士，并提议暂时休息，等第二天再说。

他说：“第一，我们都太累了，没有力气肯定做不好这件事；第

二，如果船浮起来了，我们在黑暗中也很难让船在暗礁堆里穿行；第三，看云层情况，明天会刮西北风，这可能是老天在帮我们，所以我们要把桅杆上的帆张起来，逆风而行，这样帆力就能将船浮起来了。”

麦盖尔的理由非常充分，这让船上性子最急的爵士和巴嘉勒尔也不得不同意。这一晚上，他们轮流值班，护船看锚，一整夜就这么平静地度过了。

一切都没出麦盖尔的预料。天亮了，西北风也刮起来了，而且越刮越大。大家全都集合起来，做好了张帆的准备。由于他们想利用的满潮还没到达，所以就在船头装上了便桅，以便替代前桅，这样一来，船漂起来的话，也就能驶离这片险滩了。

在将大大小小的帆全都升上去之后，潮水开始上涨。浪头一个接一个地打了过来，原本裸露的礁石渐渐看不见了，就像一个个的海怪，回到自己的老巢一样消失不见了。

艰巨的工作马上就要开始了，这种等待的焦躁感侵袭着他们每个人的心灵。也许因为过度紧张，每个人都很严肃，一句话都不说，静静地等待着命令。麦盖尔聚精会神地观察着潮势，盯着被他们拉得很长很紧的铁链。

1点钟的时候，潮水涨到了最大值，这时，麦盖尔一声令下，大帆主帆一起被拉了起来，风力被兜起来了，鼓在桅杆上。

“快转绞盘！”麦盖尔大声喊道。

绞盘上装着摇把，大家拼命地摇着，两条粗大的铁链在绞盘的强力转动下被拉得笔直。锚由于在海底被吃得太紧，转起来并不容易，而想

要开船成功，必须转得快才行。此时，风更大了，帆全都鼓了起来，贴住了桅杆，将船拼命往外推。

大家感觉到了船的颤动，船好像就要浮起来了。

此时，如果再有人能帮把手，说不定船就能从沙滩里浮出来。

“海伦，玛丽，过来帮忙！”爵士喊。

两个在旁边紧张握拳的女士急忙跑了过来，和大家一起用力。绞盘轮子上的掣子再次响了一下。不过也只响了一下，便不再响了，因为绞盘再也转不动了，那只桅船一动不动。这也就说明，他们全部的努力宣告失败。

潮水开始下降，不过，就是风再大，浪再高，这船也还是浮不起来。

既然第一种方案失败了，那么他们就必须执行第二种方案，也就是丢下这只船。因为他们如果想在这只船上等别的船来拯救，未免太可笑了。

这种地方其他船只根本不可能来，人家的船长和水手又不是酒鬼。何况就算是真能等到一只船，想必那“麦伽利号”也早被海浪打成碎片了。

在这种情况下，如果有大一点的风暴，船很可能被打得在沙滩上摇摆，船肯定也会散架。如此看来，船散架不可避免，所以麦盖尔决定在船散架之前，尽快登陆。

麦盖尔建议扎个“浮台”。“浮台”是船员的术语，其实就是造个木

筏，一个坚固结实的木筏，能够装上足够的粮食去新西兰海岸的木筏。这时候，一切的讨论都是多余，决定了就必须尽快执行。

晚上，他们的造木筏工作差不多要完工了，但因为天黑，他们不得不停下来。

吃过晚饭，海伦夫人和玛丽小姐回舱里休息，巴嘉勒尔和其他人在甲板上走来走去，谈起了一些严肃的问题。小罗伯尔一直跟在他们身后，这个勇敢的孩子一直聚精会神地听着，像个大人一样，想为即将到来的危险贡献一分力量。

巴嘉勒尔问麦盖尔可不可以在附近着陆，这样就能沿着海岸走到奥克兰去了。麦盖尔没有回答他，因为他不想让巴嘉勒尔失望，不想告诉他，走路几乎不可能到奥克兰。

“木筏到不了岸，那用双桅船上的小划子可以吗？”巴嘉勒尔问。

“当然可以，不过必须要在白天划才行。”

“看来，那自私胆小的坏家伙们肯定是扔下我们去奥克兰了。”

“不要再提他们了。那些没有道义的醉鬼，说不定已经掉在海里喂鱼了呢！”

“要是掉海里了也活该。谁让他们把划子划走不顾我们的？”

“不要再提这些事了，过去的还提它干什么？很快我们也会坐木筏离开的。”爵士说。

“我们不能就近上岸！”巴嘉勒尔说。

“什么？仅仅走30公里你就怕了？”爵士说。

“怎么会呢，爵士！我知道我们可以走过去，我从不怀疑我们的毅力，就连两位女士我都不怀疑。30公里，在其他地方，绝对不算什么大事。可是在新西兰不一样。你们不要认为是我胆小。如果穿越美洲、澳大利亚大陆，我举双手赞成。不过我要重复一句，我们千万不能就近登陆。”巴嘉勒尔严肃地说。

“为什么？”爵士问。

“因为这里的毛利人，也就是土人太可怕了。”巴嘉勒尔说。

“土人不用害怕。我们都全副武装，怕什么，就是来几个土人袭击，我们也不怕。”

“不是几个土人的问题，是新西兰土人结成了一个可怕的部落，他们反抗英国的统治，一直在和侵略者作斗争，而且常常会战胜，然后将敌人吃掉。”巴嘉勒尔说。

“什么？这里的土人会吃人？”小罗伯尔大惊。

随后，小罗伯尔又喃喃自语道：“姐姐，海伦夫人！我害怕！”

“好孩子！不用怕！”爵士安慰他后，又对巴嘉勒尔说，“我的朋友，你是不是说得太夸张了？”

“我说得一点都不夸张，爵士！罗伯尔是个大人了，我们不可能瞒他，我们应该让他知道这些。”

巴嘉勒尔说完，停了一下又说：“你觉得新西兰的人都很慈悲？去

年的时候，有个英国人在离奥克兰只有几公里的地方被残忍地杀害了，这个英国人叫瓦克拉。而且这些土人还是在英国官方眼皮底下杀的人。”

“算了吧！这些故事一点都不真实，旅行家经常把一件平常的事形容得惊险万分，恨不得说自己是从土人肚子里逃出来的。”少校说。

“没错，我也知道，有些话是有水分的，不过还有很多说法是可靠的，比如说牧师肯达尔、马德逊，船长狄龙、居威、拉布拉斯等等，难道我们也不相信他们的话吗？毛利人的酋长死了，他们会杀人来祭天。他们还会用人做供品，说这样可以平息死者的怨气。不拿人做供品，死人的怨气就会发泄到生人头上，而且他们还觉得杀人祭奠死者是在给死人送仆人。最后，他们会把祭奠死者的人吃掉。所以说，杀人祭奠风俗的成分少，吃人的成分多。”

巴嘉勒尔说得没错。在新西兰、斐济岛或托雷斯海峡，吃人已经变成了一种风俗了。不过，说到底吃人也是因为食物缺乏，填不饱肚子才会这样的。后来，这种残忍的风俗也就被定成了教规，赋予了神圣的意义。从此以后，吃人由只为填饱肚子变成了一种礼仪，这就是吃人风俗的演变。

在毛利人眼里，吃人很平常。此外，他们还觉得吃敌人是在给自己积蓄力量和勇气。同时，因为这些能量会聚集在大脑，所以在吃人时，人脑就是他们的主菜。

巴嘉勒尔认为新西兰的土人之所以吃人主要是因为饥饿，所以不但大洋洲那些不开化的野人会这样做，欧洲也有这样的土人。于是他说：“吃人的风俗在最文明的民族中也曾出现，并不是只有几个特殊人

士才这样。而这些吃人的人，大多存在于苏格兰的祖先中。”

“是这样吗，巴嘉勒尔先生？”少校不相信。

“当然是这样了。不会错的，不信你看看圣·哲罗姆描写的苏格兰阿提考利人吧，看了你就知道你的祖先究竟是什么样的人了。而且你不用去远古找，就在伊丽莎白时代找，莎士比亚笔下的索内·宾就是一个苏格兰土匪，因为吃人肉而被判死刑。为什么吃人？是宗教吗？宗教不会教人吃人的，是因为饥饿，饥饿让他们没有了人性。”巴嘉勒尔说。

“难道真是因为饥饿？”麦盖尔问。

“那当然，在这飞鸟走兽很少的地方，就是打猎也打不到什么，他们便只好吃人了。而且这些地方还有专门吃人的季节，就像文明国家有打猎季一样。在那吃人的季节所谓的打猎，其实就是部落与部落之间的战争，战败者就成了战胜部落的菜了。”

“照你这么说，巴嘉勒尔，吃人的习惯只有在新西兰到处都是牛、羊、猪等牲畜的时候，才会灭绝吗？”爵士问。

“那是当然了，爵士！”

“那么他们是怎么吃人的？是生吃还是煮熟了吃？”少校又问。

“少校先生！你为什么要问这个？”小罗伯尔惊慌万分。

“孩子，一定要问清楚，要是他们真要吃我的话，我还是希望他们把我煮熟了再吃。”

“为什么？”

“这样他们就不至于活剥我了呀！”

“少校，你想得美！不过就是把你放在锅里煮，不是也很难受吗？”巴嘉勒尔说。

“唉！算了，反正怎么都是死，在活剥和活煮之间，我就不选择了。”

“少校，老实告诉你吧！新西兰人吃人肉，一定会煮熟或烤熟的。对人肉的烹饪，他们可是行家。不过，要我说嘛，一想到要被人吃掉，我就不舒服。把自己送进未开化的土人的肚子里，真是太不划算了！”巴嘉勒尔说这些的时候，看起来非常认真。

“一句话！我们绝对不能落到毛利人手里，对吗？”

第三十九章 新西兰的反殖民斗争

地理学家所说不虚，新西兰土人吃人的事也不用怀疑。所以，就近上陆确实是有危险的。不过待在船上更危险，因为“麦伽利号”很快就会被风浪打坏，想要等来往的船解救是幻想，所以他们必须离开。

这里不可能有船只来往。所有来新西兰又想找地方靠岸的，不是在奥克兰就是在新普利默斯，“麦伽利号”现在搁浅的位置正好在那两个地方之间，而且正是伊卡纳马威海岸最偏僻的地带。

同时，这一地带也是土人窝，所以他们逃上岸后，必须尽快走开，而且越快越好。

“我们什么时候出发？”爵士问。

“明天早上10点钟吧，那时正好是潮水上涨的时候，潮水会将我们带上岸的。”麦盖尔说。

第二天，汇聚全部人心血的木筏造好了。不过木筏太小，装不下全部的人和食物，他们必须再造一个。造一个既能经得起风浪，又能便于操纵的木筏，而造木筏的工具自然就是桅杆了。

他们马上把支帆索砍断，大桅从右舷栏杆处倒了下来，掉进了海里，而那栏杆也随着嘎吱声，倒了下来。在将大桅砍倒后，“麦伽利号”船面就变得光秃秃的了。在大桅被锯成三段后，木筏的骨干也就有了。

他们又把前桅的断料同大桅结合起来，这时候，所有的松段都结实地联结在一起。细心的麦盖尔还将木料间装上了六只空桶，以便增加木筏的浮力。把基础做好后，维尔逊又在木筏上铺上了舱口的格子框，这样木筏上就有了漏空地板，而当浪头打向木筏时，也不会停在木筏上面。

最后，他们又将挡水板紧紧地钉在木筏的周围，以便阻止海水溅到木筏的面上。

这天早晨是顺风。麦盖尔见能够利用风当动力，便又架起了一个桅杆，四周还用支桅索拉紧，并在桅上挂起了便帆。同时，他们还在木筏后部安上了一个宽掌舵，以便在风浪大的时候操控方向。

就这样，一个新型木筏做成了。9点钟的时候，他们开始往上装食物，所装的食物足够他们食用到奥克兰了。接着，他们又把贮藏室的一些粗粮、劣质饼干及两桶咸鱼装了上去。装那些东西的时候，因为看上去质量太差，厨师长奥比尔都有些难为情。

食物是装在封闭的木箱子里的，以便防止水渗进去。接着，他们又将枪械弹药装了上去，好在他们有短枪，需要用时也很方便。同时，他们还装上了一个便锚，之所以装便锚就是为了预防无法使木筏一次到达岸边，在海里停泊时用。

10点钟的时候，潮水开始上涨，风也从西北边吹来，并在海面上荡起了浪花。

“大家准备好了吗？”麦盖尔大声问。

“准备好了！船长！”维尔逊说。

“那就上船！”麦盖尔大喊一声。

大家很快就爬上了木筏。穆纳一下子砍断缆绳，张起帆，木筏在风力及潮湿的推动下向陆地进发。

他们离岸有5公里左右。如果是个划子，用不到3个小时就能到达。但他们所用的木筏就很难说了。如果风势不减，说不定一个涨潮就能将他们顺利送上岸；但如果风停了，潮也落了，那么他们就必须停下来，等第二次涨潮时再来。

当然，大家希望一次就能成功。

风越来越大。刚开始的时候，木筏航行起来很快，黑色的礁石和黄色的沙滩很快就在波涛中淹没了。为了避免触礁，他们的注意力高度集中，生怕出现一丝差错，导致木筏的航行方向发生变化。

中午的时候，他们距海岸还有2.8公里。天气晴朗，大家隐隐看到了陆地的样子。东北边耸立着的高峰有800米左右，它的侧影像极了一只仰着脖子的猴子，龇牙咧嘴的。那座山叫比龙山，非常有名，从地图上看处在南纬38度的地方。

12点的时候，巴嘉勒尔再让大家看时，发现所有的礁石都不见了。

“还有一个礁石呢。”海伦夫人突然说。

“哦？在什么地方？”巴嘉勒尔问。

“你们看，在那里！”海伦夫人用手指着。

大家朝她指的方向看去，发现1海里之外的地方有个小黑点。

“还真是，我们可要记住它的方向，等会儿潮水淹没它了，我们看不见的话，很可能会触礁的。”巴嘉勒尔说。

“维尔逊，那块礁石正对着北边山，划的时候要注意，离它远点。”麦盖尔嘱咐维尔逊。

为了控制方向，维尔逊全力压住木筏的后舵。不过奇怪的是，走了半公里了，那黑点依然浮在海面上。麦盖尔拿起望远镜朝那黑点看了看说：“不是礁石，是浮着的一个东西。”

“会不会是船上的桅杆？”海伦夫人问。

“不会！桅杆不可能飘这么远。”

“别急，让我看看！”

麦盖尔仔细看了看后，惊讶地说：“是小划子。”

“啊？是双桅船上的小划子？”爵士也很吃惊。

“没错，小划子现在底朝天了。”

“太不幸了，想必上面的人都死了。”海伦夫人叹息道。

“他们是晚上走的，那时候天黑浪大，就那么在暗礁里穿行，很危险的。”麦盖尔说。

“愿上帝可怜可怜他们吧！”玛丽小姐喃喃道。

木筏上的大家都沉默下来。

之后，他们离小划子越来越近，很明显，小划子是在距离岸边约2公里的海面上翻掉的，小划子上坐着的人，一个都没能逃出。

“向小划子靠近，说不定它对我们有用。”爵士说。

穆纳站在木筏的前部，挡住了划子，不让它撞上木筏。翻了的划子在风的吹拂下，悠悠地漂着，离他们越来越近。

“是空的吗？”麦盖尔问。

“没错，船长，是空的。舷裂开了，对我们没什么用。”维尔逊说。

“难道一点用处都没有？”少校问。

“没错，也许能当柴火烧。”麦盖尔说。

“太可惜了，如果小划子不破的话，还能带我们去奥克兰。”巴嘉勒尔叹气道。

“小划子坏了，这么大的浪，还是坐木筏更安全一些。小划子轻轻一撞就会碎的。爵士，我看我们就不要在这里停留太久了！”麦盖尔说。

“由你决定！”爵士回答。

“维尔逊，我们沿海岸前行。”麦盖尔下命令道。

看情形，潮还要涨1个小时。木筏因此又趁着潮势向前走了1公里。不过这时候风完全停了下来，甚至还有微微的逆风在吹，因此木筏不动了。过了一会儿，随着涨潮，木筏甚至开始后退。麦盖尔没有丝毫迟疑，马上命令停泊。

穆纳早就想这样了，所以很快将锚抛下，锚落在了海底约5英寸深的地方，木筏在后退了4米后，把锚缆拉得更紧了，帆也被卷了起来，大家都做好了停泊一段时间的准备。

陆地就在不到2公里远的地方，他们看都看得到，但又可望而不可即。潮水会在晚上9点钟以后再次涨起来的，所以麦盖尔觉得既然不准备晚上划行，那就必须停到凌晨5点。

海水汹涌，浪头被掀起很高，一浪一浪地涌上了岸。爵士问麦盖尔为什么不利用这种浪头前行，说不定很快就能将他们送上岸。

麦盖尔说：“阁下，您是被光学现象迷惑了，浪头看起来是在运动，其实并没走，流动的只是水分子而已。不信您将木板丢在海里试试，它一定会停在海面上不动的。所以我们只能耐心等待了。”

“那就先吃晚饭，晚饭后再说。”少校说。

于是，奥比尔拿出了几块干肉和10块大饼干。让大家吃这种东西，奥比尔很不舒服。不过大家似乎吃得很香，虽然海浪将木筏颠得一上一下，但女士们也吃得津津有味。

一个又急又大的浪扑了过来，木筏动荡得更厉害了，有人甚至以为木筏已经触礁了。缆绳拉得越来越吃力，怕绳索被拉断，麦盖尔便每隔半个小时，让人放1英寸，让木筏随水流漂一会儿。

慢慢地，麦盖尔着急起来，不管是缆绳断了还是锚滑了，都会产生不可想象的后果。此时，天慢慢黑了下来，太阳只剩下微弱的影子，在地平线后面缓缓下沉。水波向西方微微荡着，像银片般撒在了海面上。远远望去，有个黑点在茫茫的海面上出现，那是搁浅的“麦伽利号”，它

一动也不动。

好像从黄昏到夜晚只用了几分钟时间。很快，横亘在东面和北面的陆地就那么在夜影中消失了。

大家挤在窄小的木筏上，心急如焚。有的睡着了；有的迷迷糊糊；有的心乱如麻，即使睡着也做着噩梦；有的则一夜未曾合眼。天亮的时候，大家站起身活动了一下筋骨，都是疲惫不堪。

随着涨潮，风又起了。早晨6点钟的时候，麦盖尔急忙安排划木筏，不料情况发生了变化，锚由于嵌在沙里太深，即使木筏上装有滑车，依然拔不出来。

麦盖尔只能命人砍缆绳，让它永远沉进海里。不过，如果这次涨潮不能将他们送上岸的话，他们中间也无法停泊。

帆又被张了起来，木筏慢慢地向陆地浮去。在晨曦中，远处出现了浅灰色黑影。行驶中，他们遇到了很多礁石，但都巧妙地绕过去了。不过目前海风不稳，想要靠岸并不是件容易的事。

9点钟的时候，他们离陆地还有不到1公里的距离。他们看到了岸上的沙滩，还看到沙滩很陡，所以必须在沙滩中找到一个停靠的地方。风越来越弱，最后停了下来。帆耷拉着，拍着桅杆，这倒成了木筏的累赘。麦盖尔马上让人将它取了下来。

现在，只能靠涨潮将木筏冲到岸边了。不过，这不仅会让方向无法控制，而且因为大面积海藻的阻碍，会让木筏无法前行。

10点钟的时候，麦盖尔见木筏差不多不动了，而岸边又近在咫尺。想停吧，没有锚。等会儿遇到落潮，很可能木筏又会被冲进海里去的。

麦盖尔急得团团转，手足无措起来。

幸运的是，木筏像是突然撞到了什么，停下了。原来是搁浅在了离岸仅有25米的沙滩上。

几位男士急忙跳进水里，将木筏用缆索固定在了一块礁石上。两位女士则被大家举起，递着送上了岸，这让她们的衣服上一点水也没沾。很快，他们的武器、粮食也都到了这片骇人的海滨。

爵士虽然很想一点时间都不耽误地向奥克兰进发，不过从早晨开始，天空就阴云密布，等他们下了木筏，天空已经下起了雨。所以继续前行肯定行不通，他们必须找个避雨的地方。

好在维尔逊很快就在海边寻找到了一个被海水侵蚀形成的天然深岩洞。大家也便带着粮食和武器进去了。他们将原先被海水打进来的成堆的海藻做成了天然的床铺，然后躺下休息。洞口还有几块干木头，大家点着，烤干了衣服。

麦盖尔原本以为这雨会来得快，去得也快。没想到一下就下了好几个小时。风也在猛烈地吹着，大家只好耐心地等待。

没有任何交通工具，如果此时在外面乱跑，必定是疯子才会做的事。而且奥克兰并不算很远，只需几天就能走到。对他们来说，如果遇到新西兰土人的话，他们晚个一天半天都没关系。

在熔岩洞里休息的时候，他们谈起了新西兰的战争。为了让大家更清楚地明白他们即将面临的危险，这里有必要介绍一下北岛上的流血事件。

这事发生在1642年。当时，塔士曼到达库克海峡后，新西兰这个地

方便经常有欧洲船只来往，但仅仅只是生意往来，这里的人依然可以悠闲地过他们自由自在的生活——没有一个欧洲国家想要占领这些分布在太平洋上的岛屿。

后来，有些来自英国的传教士，不断灌输一些思想，希望新西兰的酋长接受英帝国的统治。上当受骗的酋长们便给维多利亚女王写了封信，要求受她的保护。那时候，酋长们根本没想到这是一个圈套。不过，有个人预言说：“以后我们这片土地就要被外国人占领，不再属于我们了，我们要变成他们的奴隶了。”

1840年，“先驱号”军舰开到了伊卡纳马威岛北部的群岛湾。舰长霍波逊下船到克罗那勒卡村，招呼全村村民到教堂开会，并在那个会上宣读了英国女王的委任状。

第二年的1月，新西兰的一些主要酋长被召集起来开会，霍波逊想让他们出卖土地，说他们得到了英女王的保护，而且还得到了自由，所以土地就应该是英国女王的了。最开始的时候，那些酋长的意见分歧很大，但最终还是没有能经受住花言巧语以及金钱的诱惑，承认了领土属于英国。

此后，从1840年到“邓肯号”离开克莱德湾，整个局势没有巴嘉勒尔不知道的，所以他也打算毫无保留地告诉大家。

“我曾听说新西兰人民是非常勇敢的，虽然他们做了让步，但也只是短时期的让步。之后的抵抗也正说明了这个问题。新西兰的毛利族是个大部落，在他们推选酋长时，都是英勇善战的人当选。同时，这个民族的人全都身材高大，英勇无比，比如有个叫希熙的酋长，他的英勇善战甚至能超越法兰西古代的名将威森杰托利。而现在，在伊卡纳马威

岛，酋长桑淳逊仍然在率领民众为保卫国土斗争，战争可以说一直就没断过。”

“英国人不是已经控制新西兰了吗？为什么还会这样？”麦盖尔问。

“控制是没错，霍波逊舰长曾做了岛上的总督，而且还在一些条件较好的地方建立了殖民区，总共有9个，人口也超过了18万零346人，很多商业城市也都在各个地方出现。而北岛上也有了新普利默斯、阿呼普利、惠灵顿等城市，这些城市非常繁荣，而且常有船舶往来。在南岛，还有号称新西兰的花园、赛过法国蒙伯烈的纳尔逊，库克海峡上的皮克敦、克赖斯特彻奇、英佛加尔及尔、都内丁……所有的这些城市，全都有一个特点，那就是无法判断它的优势和劣势。当然，这些城市并不是土人的村落，也不是木棚遍地，而是有码头、教堂、银行、船舶、植物园、风土研究所、报馆、医院、慈善社团、神学院、帮会组织、俱乐部、合唱团、剧院、万国展览馆……总之，和伦敦、巴黎没有多大差别。今年，这里还有全世界的工业品展览，也许现在展览正进行得火热。”

“太奇怪了！跟土人还在打仗，怎么能开展览呢？”海伦夫人惊讶道。

“英国人怎么可能在乎战争？打仗不可能让他们害怕，他们可以一边打仗，一边开展览。甚至他们还有可能在土人的枪口下修铁路。”巴嘉勒尔说。

“那战争的情况怎么样了？”麦盖尔问。

“我们离开欧洲都有6个月了，所以之后的事情我也不太清楚。不过，穿过澳大利亚时，我们应该能从报纸上了解一些情况，说不定会说

北岛的战争正打得火热。”

“那这战争是从什么时候开始打起的呢？”玛丽小姐问。

“战争是从1863年开始的。不过，在这之前，毛利人早就想摆脱英国的殖民统治了。有些部落还把老巴塔图推举起来做国王，甚至还将威卡陀江和隈帕河之间的村子当国都。

“不过，他们推举起的只是一个胆小而狡猾的老头，好在他的首相很精明。首相就是桑浦逊，而这次的战争，也就是他带领大家打的——他的优势在于对军队的组织和管理上。所以在他的建议下，一个塔腊基省的酋长就能把很多零散的部落统一起来。而另一个威卡陀的酋长则又组织了一个土地大同盟，旨在阻止土人将土地卖给英国政府。英国政府对此很是担忧，也曾在报纸上登了这个消息。更重要的是，土人们的战争水平越来越高，双方的矛盾也越来越尖锐。”

“那么战争的导火索又是什么呢？”爵士问。

“这说起来就复杂了。说是一个土人将新普利默斯附近的5000亩土地卖给了英国政府，不过那经纪人来接手时，酋长金基不愿意了，他在土地上安营扎寨，日夜守卫。几天后，高尔德上校又带兵硬占此地，于是一场战争就爆发了。”

“那么，毛利部落里的土人士兵多吗？”麦盖尔又问。

“不多，近100年来，毛利族人口在不断减少，现在两岛加起来也不到9万人吧，其中有3万名战士想必还能和对手交手。”

“那么他们赢了吗？”海伦夫人接着问。

“赢了，夫人。英勇善战的土人，战斗力让英国人都觉得吃惊和佩服。新西兰土人是非常会作战的，特别擅长打游击战。他们时常采用挨个歼灭敌人的方法，而且还专门抢夺移民的财产。当时，卡麦龙将军曾率领部队在丛林里搜索，但搜索得很是吃力。

“1863年，毛利人在一次战争中，占领了威卡陀江上游的一座要塞，那里地势险要，在一个陡峭的山头上，外面有三道防线。很多酋长号召土人保卫领土，并说一定会消灭白种人。而卡麦龙将军的3000名手下，个个凶残万分，他们捉到俘虏后，没有一个不杀死的。

“桑浦逊原来只有2500名战士，最后增加到了8000名。土人在抗战中，连妇女儿童都是要加入进来的。不过最终他们领土失陷，那里也成了一片焦土。在那场战争中，曾涌现出了很多激动人心的故事。比如有一次，400名毛利人守在了俄纳甘堡垒里，在被卡莱将军的1000人包围后，他们即使在不吃不喝的情况下也不投降，最后还杀出一条血路，逃到了沼泽地里。”

“那么英国人占领威卡陀后，是不是这场战争就结束了？”麦盖尔问。

“怎么可能结束？英国人不驯服土人誓不罢休。我这次离开巴黎时，就听说总督接受了塔兰伽各部落的投诚，还允许他们保留四分之三的土地。还说起义领袖桑浦逊也想投降。不过我敢说，这绝对是谣言。可能事实正好相反，圣战正在有组织地进行着。”

“照你这么说，这场战争会在塔腊纳基省和奥克兰省展开？”爵士问。

“我觉得应该是这样的。”

“那个地方不正是我们要去的吗？”

“没错，那里离科依亚港只有几公里，港上一定高高地挂着毛利人的旗帜。”

“这么说，我们还是从北边走比较安全。”

“我也觉得是这样的。他们那么恨欧洲人，特别是英国人，我们一定不能被他们发现。”

“要是幸运的话，我们说不定会遇见欧洲军队呢。”海伦夫人说。

“有这个可能，不过希望不是很大。丛林里很可能隐藏着土人的游击队员，通常士兵是不敢单独去搜索的。所以我们不能指望欧洲军队救我们。我们还是沿西海岸走吧，这样就能走一站休息一会儿了。而且我也想走霍兹特陀先生曾走过的威卡陀江边。”

“你说的这个人是旅行家吗？”小罗伯尔问。

“没错，孩子，他是科学委员会的一名委员，1853年曾来这里做过环球航行。”

“巴嘉勒尔先生，那么来新西兰的，有旅行家像伯克、斯图亚特一样出名的吗？”小罗伯尔又问。喜欢听旅行探险故事的他，小脸涨得通红，非常兴奋。

“当然有，像霍克博士、白利萨士教授、博物学家狄风巴和哈斯太.....他们都很有名，也把探险视为生命，只是没有去澳大利亚和非洲的旅行家知名度高罢了。”

“那你知道他们的故事吗？”

“当然知道！我说给你听吧。故事不长，因为新西兰也就这么大，没多少奇闻逸事。甚至从严格意义上来说，这些人也算不上是探险家，充其量只是一群游览者而已，而且他们都牺牲了，牺牲在一些微不足道的小事上。”

“他们都是谁？”这故事也引起了海伦夫人的兴趣。

“有几何学家威功伯和霍维特。霍维特我以前和你们说过，就是找到伯克遗体的那个人。霍维特和威功伯曾在1863年的上半年从克赖斯特彻奇出发，他们穿越了坎特伯里省北部的高山。威功伯的旅伴鲁布在《里特尔顿时报》讲述过这件事。说1863年4月22日，他们到了拉卡亚河发源的冰山脚下，然后爬上了海拔1300米的山顶，最后又累又冷，走不动了，只好在冰天雪地里睡觉。在山里转悠了7天后，终于找到了路。那时候，他们浑身是伤，没有火取暖，也没东西吃，衣服还经常被雨雪弄湿，带的一些糖也化了，饼干变成了渣子……

“最后，他们终于找到了一座土人住的草棚，还在一个菜园子里找到了一些马铃薯，这在当时，已经算是美味佳肴了。等到了塔拉马考河入海处时，才发现只有过去之后向北走才能到达格来河。不过河水很宽很深，最后他们只好找了两只破了的划子，稍作维修就下了河。可到了河中心后，划子漏水。威功伯急忙跳进河里，鲁布因为不会游泳，只好还在破划子上。不过这倒也救了他的命，因为天空下起了瓢泼大雨。

“鲁布在风浪中被冲到了岸边，失去了知觉的他在第二天醒来后，向一汪清泉爬去。之后，他在附近发现了身体陷进泥里的威功伯，威功伯已经死了。鲁布用手扒了个坑，将他的尸体掩埋。整整两天，他没进

食一粒米，就在饿极了的时候，他被好心肠的土人收留了。所以说，新西兰土人还是有好人的。5月4日，他回到了白仑拉湖霍维特的宿营地。不过，6个星期后，这个可怜的人竟然死了。”

“真是太惨了，好像他们的生命是联系在一起的，一个死了，另一个怎么都没办法活。”麦盖尔感叹道。

“麦盖尔先生说得很对！我也觉得是这样的。不过到底为什么，会让霍维特也在几乎相同的环境中死掉呢，没人能够说得明白。当时他受工程局主任维德的委托，从胡路尼元到塔马尼考河口探一条能够骑马的路。

“出发时，他是带着5个人去的。在刚刚开始65公里的路程里，他们非常顺利，他也在努力地工作着。不过到了塔拉马河边时，他们却怎么都走不通了，只好回到了起点，并带着很多食物和用品再度出发。

“那时候虽然是寒冬，但他仍然带着两名手下去渡白仑拉湖，这一去便再也没有回来。他乘坐的那只小艇搁浅在了水边，大家找了9个星期后，毫无结果。那些不幸者，很可能因为不会游泳，落在水里淹死了。”

“他们会不会没有死，而是落到了新西兰某个土人的部落里？”海伦夫人问。

“夫人，不可能的。因为出事那么久了，如果活不见人，死不见尸，在新西兰这么小的地方，一年没有消息的话，肯定就是死了。”巴嘉勒尔说到后面，声音小了下来，他想到了格兰特船长……

第四十章 威卡陀的路程

2月7日早晨6点，爵士发出了起程的指令。虽然晚上雨已经停了，但天空仍然阴云密布，阳光无法穿透，整个天空都阴沉沉的。不过，天气不是很热，白天赶路也能承受。

巴嘉勒尔拿出地图看了一下，觉得沿着弯曲的海岸走，还不如先去50公里之外的隈帕河和威卡陀江汇合的加纳瓦夏村。那里有邮车经过，这样就可以乘马车回奥克兰了。

于是，他们各自背着自己所用的东西，绕着奥迪湾的岸边走。为了安全起见，他们不仅没有拉开距离走，而且还本能地准备好了马枪，警觉地注意着草原上的动向。

巴嘉勒尔手拿地图，用艺术家的眼光盯着图上标注的地方。

这天，他们经过了一片沙滩，沙滩上堆满了蚌和乌贼鱼的头骨。这片沙滩的沙里掺杂着很多过氧化铁及一氧化铁。如果有磁石的话，一接近地面，磁石上瞬间就会附上一层亮晶晶的晶体。

海水里有游动的海生生物，它们被潮水或轻或重地抚着，见到有人来便快速游走。还有那些有着圆圆的脑袋和机灵大眼睛的海豹，它们个个长着隆起的额头，用丰富的表情注视着周围。怪不得很多古代神话会把它们诗化，称它们是会唱歌的美人鱼。

这些海兽很受人们喜欢，当然，捕捉它们主要是为了获取它们的油和皮毛。它们的毛和油，对很多捕获它们的人来说，是很大的买卖。

海豹中有大约三四只海象，这些海象个个有七八米长，长着长长鼻子的它们，颜色是灰蓝的。

它们躺在厚厚的沙滩上，懒洋洋地摇着鬃曲的硬髭毛，硬髭毛一络一络的，很像人的胡子微微翘起。

小罗伯尔细心地看着这些有趣的动物，突然惊奇地大叫：“那些海豹在吃石头。”

果然，有的海豹正大口大口地吃着海岸上的石头。

“没错，它们是要吃石头，不过这没什么奇怪的。”巴嘉勒尔说。

“可这种食物也太奇怪了吧，石头可不容易消化。”小罗伯尔说。

“孩子，这些石头可不是它们的食物，之所以要吃，是为了增加它们的体重，以便沉入水底。不信的话，等到它们需要在岸上时，这些石头又会被吐出来的。”

巴嘉勒尔说得没错，很快，那些海豹便爬向了岸边，并钻进了水里。不过，爵士没有时间等它们再返回岸边，看它们吐石头。他催促大家快点走，巴嘉勒尔只得依依不舍地离开。

10点钟的时候，大家在雪花岩脚下吃早饭。这些雪花岩纵横交错，就像上古时代欧洲中部的克勒特人一样，在海岸上架起用石头做成的大梁。蛙壳滩里有大量的海菜，这些海菜的形状很小，吃起来味道却不怎么样。不过，经过奥比尔的精心加工，在炭火上烤熟了后，还是很香甜可口的。

吃完干粮，休息了一会儿后，他们又沿着海湾的岸边向前行。在一

些峭壁上，他们发现了很多海鸟，比如军舰鸟、超鸥，以及待在岩石尖上一动不动的信天翁等。下午4点钟的时候，他们已经走了差不多15公里了，不过大家并不觉得累，女士们甚至希望不要休息，一直走到晚上。

此时，路在他们面前转了个弯，绕过了北面几座山后，进入到了隈帕河流域。

这是一片一望无际的大草原。看起来，整个地面郁郁葱葱，非常平坦，应该很好走。不过走到边缘就不一样了。那里全是开着小白花的树丛，树丛里夹杂着凤尾草。要从这些草丛里过，不开出一条路来是走不通的。

晚上8点钟的时候，他们终于绕过了几个山丘，感到有些累了，他们开始就地宿营。

夜里的时候，他们没有放松警惕，荷枪实弹地轮流站岗，一直等到太阳出来。不过，晚上他们并没点火。在新西兰，既没有老虎也没有狮子，更没有无名熊这些凶猛的野兽，所以不需要点火驱赶它们。同时，新西兰还有两条腿的黑斑虎，也就是土人，这些吃人的土人如果看到火的话，很可能被吸引过来。

一整夜就这么过去了，晚上偶有大胆的野鼠来啃食粮食，也有一种沙蝇，蛰得他们难受。

第二天，巴嘉勒尔醒来后，心情非常放松，对这个陌生的地方也没有刚开始时的恐惧了。因为到目前为止，他最担心的土人并没有出现，也没有在梦里威胁他，所以他的心情很好。

“我觉得我们这次一定会顺利走到奥克兰的，不会再遇到什么麻烦了。我想，今晚我们就能走到两河交汇的地方，等上了奥克兰大道，遇上土人的机会就更小了。”巴嘉勒尔轻松地对爵士说。

“现在我们离两河交汇的地方有多远？”爵士问。

“和昨天我们所走的路程差不多，大概有25公里。”

“不过，昨天是因为那些草丛拦住了我们的去路，不然会走得更快的。”

“以后不会有那种草丛了，我们只要沿着隈帕河走，路就好走多了。”

“那我们走吧！”

然而事情并没像巴嘉勒尔说的那样，在刚刚开始的几个小时路程中，他们依然受到了很大的阻力。新西兰的丛林没有车路，所以步行的他们还是会被那些凤尾草挡住去路，就像新西兰土人捍卫自己的国土一样。不过，临近中午的时候，他们还是走到了隈帕河的河边，而从这里一直沿河岸向北走，也就不存在什么障碍物了。

一路上，他们看到的都是纵横的小河，小河里的水清悠悠的，在灌木丛里轻快地流着。据植物学家霍克调查，在新西兰所发现的2000多种植物里，本地特有的植物只有500种。而且这些花的种类也不多，色彩很单一。真正生长旺盛的是一些羊齿类、禾本类和伞形类，常生植物几乎没有。

在这些青翠的草丛中，偶尔还会耸立一根开着朱红色花的高大树木。除此之外，还有诺福克松和罗汉柏等，这些树的枝条密集挺拔；而

那和欧洲的柏树很像的“利木”树，则被凤尾草紧紧地包围着。

这里的一些树枝和灌木丛，仿佛全都成了鹦鹉的王国，它们在枝尖树梢上飞翔、喧嚣。在这些鹦鹉中，有种绿毛鹦鹉，它的项下有一条红色带状羽毛；还有一种有着棕红色羽毛的鹦鹉，翅膀下的羽毛明显比全身的羽毛鲜艳。

少校和小罗伯尔一路走一路打猎，有几只鹬鸟和竹鸡成了他们的猎物。对于他们打到的这些猎物，奥比尔也不停歇地边走边拔毛，以免耽误路程。

对于巴嘉勒尔来说，他的好奇心永远大于其他方面，他并不在乎野味的味道和营养价值，他更看重的是它属于什么品种，所以他一直想要捉住一只新西兰特有的“凸衣”鸟。据说这种鸟很奇怪，会发出像人一样的嘲笑声，所以人们又给它起了个外号叫“嘲笑专家”；还有一种鸟叫“丝朵”，它们长着黑色的羽毛，但脖子上却有一圈是白色的，犹如黑色衣服上的白色领结，非常滑稽。

“‘凸衣鸟’在冬天长得很肥，肥得连飞都飞不动了。于是，它们不得不自己开膛破肚，将肚子裡的脂肪叨出来，以减轻体重。你们说，是不是很奇怪？”

“太奇怪了，怎么会这样？我不相信！”少校说。

巴嘉勒尔恨不得马上捉一只这样的鸟，并将鸟胸前那血淋淋的伤痕展现给少校看，可惜捉不到。

不过，他捉住了另外一种怪鸟，这种怪鸟叫“几维”，在生物学上又被称之为“鹬鸵”。

这种鸟没有翅膀，也没有尾巴，两只脚上各长着四个趾，有着白色的羽毛和鹬鸟一样的长嘴，样子非常奇特。更奇怪的是，它们什么东西都吃，不管是蛹、昆虫还是蠕虫，即使是种子它也吃。

为了逃避猫狗人的追逐，它们经常跑到偏僻的地方，所以才让巴嘉勒尔有机会捉住它们。

几维鸟的体形很可笑，非常容易引起旅行家的注意。

“阿斯洛纳伯号”和“瑟勒号”来大洋洲探险时，有法国科学院请居蒙威尔带一只这样的怪鸟回去，以便做研究使用的标本。不过，即使居蒙威尔拿出很多钱给新西兰土人，也依然得不到一只活的几维鸟。

这么难以做到的事，竟然被幸运的巴嘉勒尔做到了，而且一捉就捉住了两只。如果以后把它们送到巴黎动物园去，并在挂在外面的鸟笼子上写着“雅克·巴嘉勒尔先生赠”，那该是多大的荣幸啊。

此时，他们一行人精神百倍地沿着隈帕河岸往前走。如此荒无人烟的地方根本没有行人的踪迹，草丛里、沙滩上有河水在缓缓流淌。行人在这条河岸上走时会看见东面封锁着河谷的小山，小山的形状很奇怪，侧影浸在朦胧的雾气下，犹如很多巨兽。巨兽的样子很像他们之前在洪水中发现的怪兽，如同一条条的长鲸变成了化石。

看着这些形状怪异的山峦，就能知道这片火山的地质构造。其实，新西兰南北二岛原本就是火山喷发形成的，如今，火山底下的火在奔腾，使火山发生了颤抖，所以才有了熔岩浆从火山口冒出。

下午4点的时候，大家走完了大概15公里路，离两河的交汇处也仅有8公里了。到了两河交汇口，他们走上了奥克兰大道，而且准备在那

里夜宿。对于奥克兰这座城市，他们只需两三天就能走到，而且不久他们就能找到去奥克兰的邮车，邮车半天一趟，非常方便。

“看来，我们今天晚上还要露宿。”爵士说。

“希望这是最后一次。”巴嘉勒尔说。

“如果是最后一晚，那就太好了。露营实在是件考验人的事。”

“巴嘉勒尔先生，要是我没记错的话，在两河交汇处有个村庄，我们是否可以在那里找个旅馆住？”麦盖尔问。

“没错，那里是有个村子，叫加纳瓦夏村。不过在毛利人的村子里，根本找不到客栈和小酒店，最多只能找到一些土人住的茅草棚。我们千万不能去那些地方，还是要避开他们才好。”

“巴嘉勒尔先生，你真是太怕毛利人了。”爵士笑着说。

“亲爱的爵士，对于这些毛利人，我们一定要严加防范。毛利人现在和英国人的关系那么紧张，见到我们，能不抓吗？话又说回来了，我情愿不要他们的盛情款待，因为我觉得避开那个村子，避开那些土人才是上策，等我们过了毛利人经常出没的地方，也就能安稳地睡觉了。”

大家自然赞同巴嘉勒尔的主意，而且海伦夫人情愿在露天待一晚，也不愿意去那吃人的土人所在的村庄。因此，玛丽小姐和她都说不用中途休息，可以继续赶路，以尽快走过那段吓人的区域。

两个小时后，黄昏降临。太阳从西边的地平线上下沉，不过在即将完全沉下去之前，太阳又突破云层，射出了最后的一道光芒，光芒照在东边的山峰上，如同在跟他们一行人挥手再见。

在黄昏降临前，他们便加快了脚步，他们知道，在这样的高纬地带，黄昏很快就会过去，黑夜马上就要降临了。他们必须在黑暗来临之前赶到两河交汇处。而就在这时候，地面上升起了一团浓雾，让他们连路都看不清了。

虽然视线被浓雾遮住了，但好在听力不受影响。很快，越来越大声的流水声告诉他们，他们离目的地很近了。晚上8点钟的时候，他们来到了两河交汇处，在那里，听到了惊涛骇浪的声音。

“威卡陀江终于到了。从这条江的右岸边走就能到奥克兰。”巴嘉勒尔说。

“那今晚就在这里露宿吧，我看前面有些阴影，应该是丛林吧，丛林正好便于我们隐蔽，吃完晚饭我们就可以休息了。”少校说。

“今天的晚餐只有饼干和干肉。我们不能生火，悄然而来，悄然去。好的一点是，这浓雾可以让别人看不到我们。”巴嘉勒尔松了口气说。

大家听从了巴嘉勒尔的建议，进了小树林，在安静地吃了些东西后，因为走了一天很累，所以个个都早早地进入了梦乡。

第四十一章 做了“噬骨魔”俘虏

天亮了，水汽遇冷凝结，水面笼罩在浓雾中，什么都看不清。

没过多久，太阳出来了，云雾散尽，河边的景色从浓雾中显露出来，威卡陀江也在晨光中呈现出它美丽的剪影。

那是一个狭长的半岛，上面长满了灌木，直愣愣地伸在两河之间，半岛像一把剑伸向远方，越远的地方越尖细，最终在两河汇流的地方消失了。

隈帕河的水流非常急，在和威卡陀江合流还有近四分之一公里时，挡住了威卡陀江的去路。不过，平静的威卡陀江最终还是制服了猖狂的隈帕河，并带着威卡陀江流入太平洋。

威卡陀江面上，有只20米长、2米宽、1米高的船逆流而上，船头高高翘起，像威尼斯的交通船一样。这只船的材质是一种杉树的树干，船的底部铺着凤尾草，船上有8个桨，在桨的划动下，船飞速前进。

船尾坐着一个人，正手握长桨操纵着航向。

从船尾那个人的面相上就能看出，这是个高个子的新西兰土人，年龄在40到50岁之间。他有着宽阔的胸脯，四肢的筋肉高高鼓起，一看就知道很有力量；他的额头布满了皱纹，皱纹又粗又深，眼珠发黄，眼中发射出凶狠的光，看上去非常可怕。

不用说，这是一个毛利族的酋长，从他满脸又细又密的文身便能知

道，他的地位很高。而且他的鹰钩鼻子的两边，有两条黑色的螺旋线绕过眼眶向上翘起，并在额头交叉，最终延伸到了浓密的头发丛中。

酋长那白色的牙齿和下巴全都隐藏在了有规则的彩色图案中，图案上是涡云状的纹路，这些纹路相互缠绕，一直延伸到胸脯。

这种文身属于刺花，是尊贵的象征，在新西兰又叫“墨刻”。身上有着这样纹路的人，说明曾参加过很多次战争，是勇士才有资格拥有的花纹。奴隶和平民是没有刺这种花纹的权利的。一些有名望的酋长，他们的身上还会刺一些动物的图像，所以通常只要看一看花纹的精细程度，便能知道他们的身份高低了。有些酋长刻这种“墨刻”会达到5次之多，虽然刻的时候很疼，却也是荣耀的象征。因为在新西兰，地位越高，身上的文身刺得就越多，越密。

据说，瞿孟居威尔曾对这种刺花做过介绍，并形象地称它在新西兰土人心中，就和欧洲许多大家族所引以为豪的族徽一样。不过，两者之间也有不同点，欧洲人的族徽可以流传，但新西兰的这种刺花却是个人标记，是私人的东西，无法流传。

同时，这种刺花还有实用意义，也就是说，它不仅是尊贵的标志，而且还能让皮肤变厚，防止蚊虫叮咬。

这位坐在船尾的酋长，能看出他脸上已经被毛利族的花匠用信天翁的尖骨刺过5遍花纹了，所以他才有了高傲骄矜的神态。

这位酋长身披弗密翁麻织成的宽衫，宽衫上围着狗皮，腰里围着一条短裙，裙子上有点点血迹，那都是在最近的战斗中染上的。他的耳垂上挂着绿玉耳环，脖子上挂着玉石做的珠圈，珠圈上的玉石晶莹透亮。

当然，他身上的物件中，最让人害怕的还是那支英国造的长枪，以及两面都是刀刃的斧头，斧头长约40厘米，是翠绿色的。

酋长身边还有9位级别比较低的战士，这9名战士个个佩带武器，凶相毕露。其中有几个好像受伤不久，所以披着弗密翁麻织的大衣，坐在那里一动也不动。在9名有凶相的战士脚下，还卧着3只恶狗。

船头部分有8名水手，看样子像是酋长的奴隶，他们用力地划着桨，小船行进的速度非常快。

而在这条船上，还有10个俘虏紧紧地挤在一边，他们的脚被拴住了，无法动弹。这10个人就是爵士一行。

原来，就在昨天晚上，迷迷糊糊的他们，竟然钻进了土人窝里睡觉。半夜，还在睡梦中的他们便被抓上了船。虽然并没受到什么虐待，他们也想着要抵抗，但却来不及了，因为他们的武器和弹药全都落入了土人的手里，如果他们抵抗，很可能连命都没有了。

这些土人在说话时，话语里时不时会蹦出一些英文单词，所以很快爵士一行人就知道这是一些残兵败将，他们的人已经死了大半了，目前正在向威卡陀江的上游撤退。这位酋长的部下是被英军42旅屠杀的，所以这次回来，是为了向沿江招兵，然后再去和桑浦逊会师的。

这位毛利族酋长，有个恐怖的名字叫“噬骨魔”，这个名字用土语来说就是“啃四肢的人”的意思。“噬骨魔”威名远扬，英国士兵都知道他，而且如今新西兰总督也在悬赏捉拿他。

这样一个人，落到他手里的俘虏，大抵也不可能会活着。

眼看就要到奥克兰了，没想到却被抓上了毛利人的船，这对爵士一

行人来说，绝对是个沉重的打击。不过，爵士表现得很从容，其实这只是他的性格，越到关键时刻，他越表现得沉稳。因为在这支小队伍里，他是队长，同时也是海伦夫人的丈夫，所以他必须为大家做出榜样，必要时，甚至要第一个去牺牲。

爵士有着很强的宗教思想，他觉得任何神圣的举动，都是会感动上帝的，上帝因此就会主持公道。所以，虽然在这场旅行中，他们遇到了很多困难，但他从不后悔自己的热情，也不后悔因为热情而导致的后果。

同伴们没有让爵士失望，他们同样表现出了淡定和坦然。别人看到他们一行这样，简直不敢相信他们正大难临头。在土人面前表现出的坚强和淡定，让那些未开化的土人有些肃然起敬起来。

通常来说，土人都有着很强的自尊心，只有沉着冷静的人才会赢得他们的尊重。爵士也意识到了他们的这种思想，知道这样很可能会避免同伴受到一些无谓的虐待。

土人原本就不善言谈，所以一路上都没有说话。而爵士一行在被抓后，也没说上几句话，此时爵士想问问酋长，打算把他们怎么样，于是对着“噬骨魔”酋长说：“酋长，你准备带我们去什么地方？”

爵士说话的时候，丝毫没有慌张。酋长冷冷地看了他一眼，没回话。

“你准备要把我们怎么样？”爵士又问了一句。

酋长的眼神里发出一道凌厉的光，粗暴地说：“我们要拿你们去做交换，不然就杀掉你们。”

爵士心里有了底，所以也就不再问下去了。他现在能肯定，这些土人的首领也有落到英国人手里的，所以想拿他们交换回自己的首领。爵士知道，他们还有活命的希望，因此并没有完全绝望。

小船在江上飞快地行驶，巴嘉勒尔突然心情开阔起来，他觉得这非常好，因为如果土人将他们带到英国人的防地的话，他们倒占了便宜，会少走很多路的。于是，他开始放松地看起了地图，不时地还会看看威卡陀江流。

海伦夫人和玛丽小姐抑制住内心的恐惧，小声地和爵士说着话。而她们强装的镇定，即使是最机敏的相面人也不会看出内心的焦灼。

威卡陀是新西兰土人最引以为傲的地方，也是民族之江。他们对这条江的感情，就像德国人对莱茵河，斯拉夫对多瑙河一样。威卡陀总长约320公里，将北岛浇灌成了最肥沃的土地。

因此，两岸部落也都以江来命名，比如威卡陀部落，这个部落里住的人坚强不屈，没有任何人和任何事能让他们屈服。而现在，他们正纷纷拿起武器和侵略者对抗。

威卡陀江几乎没有别的国家的船只来这里，甚至只有本岛的一些船只在这里劈波斩浪。当然，偶尔也会有胆大的探险家来到这里，而威卡陀的上游几乎不允许任何外人进入。

巴嘉勒尔是知道土人们对这条江的热爱的，不过对于“噬骨魔”酋长会将他们带到什么地方去，他还是无法猜测。但在酋长和士兵们的谈话中，他听到了“导泊”两个字，这引起了他的注意。

他看着地图，寻找着“导泊”这个地方。那是新西兰一个有名的湖

泊，位于北岛奥克兰省南端，威卡陀江的水正流向此湖。据他计算，从威卡陀江到那里大概有70公里的路程。

巴嘉勒尔用法语和麦盖尔沟通，让他计算下船速，麦盖尔说船速是每小时2公里。

“这么说，如果只是白天行进，到达‘导泊’需要4天。”巴嘉勒尔说。

“我们现在需要知道英国人的防地在什么地方。”爵士说。

“这就不清楚了，不过根据他们的战事，战争应该蔓延到塔腊纳基省了，说不定英国军队就在‘导泊’湖边驻扎着呢。因为那个地方属于游击区。”巴嘉勒尔说。

“但愿是这样！”海伦夫人说。

一想到年轻漂亮的妻子和玛丽小姐要被送到荒无人烟的地方，任凭土人摆布，爵士的心里就很难过。不过，看到酋长一直在盯着他，他也就尽量抑制住情绪，漠然地看着江的两岸。

两江汇流口上游半公里处是巴塔图王的故居。小船从故居前经过，却没有一丝停留。江里除了这只船外，没有其他的船只。两岸偶然闪现的茅棚，彼此间也隔着很远的距离，给人一种很零乱的支离破碎的感觉。

江边的田地都已经荒芜了，岸上没有一个人。

有不同种类的水鸟给凄凉的大地带来了一丝生机。这些水鸟中有拖着一条长腿、黑翅膀、白肚皮、红嘴巴的涉水鸟，还有一种通身灰色的水鸟，更有白毛、黄嘴、黑爪的水鸟……它们悠闲地看着土人的小船。

江岸边还有一只翡翠鸟，这种翡翠鸟以鳗鱼为食，时常成群结队地在水里游。

突然，威卡陀江中冒出了一个小岛，小岛上有田鳧、秧鸡和苏丹鸡，它们以傲然的姿态梳理着羽毛，享受着安静舒适的生活。这里由于战争，两岸居民逃的逃、亡的亡了，所以没人打扰它们。

威卡陀江最初的一段江面很宽，江流在辽阔的平原上流淌。不过随着船的行驶，江面发生了变化，不断有丘陵、高山出现，江面变得窄小了很多。在离河流交汇处约6公里远的江左边，巴嘉勒尔看到地图上标的是基里罗亚高岸。

突然，酋长在这个险要之地要求停船，并让人把从爵士他们那里抢来的食物递给他们，让他们吃，他的士兵和水手们则吃土人自己的食物，也就是烤熟的凤尾草根。凤尾草根在生物学上被称之为“可以食用的羊齿蕨”。除了这种食物外，他们还吃一种新西兰到处都有的马铃薯。毛利人不喜欢吃肉类食物，所以爵士一行人所带的干肉引不起他们的兴趣。

3点钟的时候，他们途经江水右岸的几座高山，那些高山犹如遭到破坏的堡垒，而这山就叫泊卡洛亚连山。在一些高山峭壁上，确实有残留的城堡。这些城堡是当年毛利人中的工程师筑成的防御工程，这种工程也被称之为鹰窝。

太阳快要下山了，小船触到了河岸，河岸上堆着很多浮石，这些浮石实际上是火山岩。由于威卡陀江的发源地在火山地带，所以这些浮石也被急流冲得沿江都是。河岸上有几棵树，酋长决定让大家在树下宿营。

当船停下后，酋长让爵士一行下了船，这时候，他们只捆绑了男士的手，女士的手则没有捆绑。

士兵们将爵士一行押到了营地中心的火堆旁，他们被士兵们围在了中间。

在酋长还没有说要把他们当人质去交换时，爵士和船长就商量过，怎么趁着残兵败将们睡着时，偷偷溜走。

不过，在知道他们要做人质后，大家便觉得逃跑的做法不可取。最稳妥的办法就是忍耐，让土人拿他们去交换英军的俘虏，这样他们一行人生还的机会就会更大一些。因为在这种陌生的地方选择逃跑，自己又没有武器，无法自卫，会非常危险。

10个手无寸铁，还带着两名女士的他们，要对付30个武器装备齐全的土人，获胜的可能性几乎没有。

不过，对于当人质，他们也有担心，那就是怕发生意外事件，或者是因为什么事情延缓了土人拿他们去交换，当然，这种可能性也比较小。

确实，爵士的猜测没错，在“噬骨魔”的部落里，确实有一名重要首领被英军抓去做了俘虏，他们特别想将那首领换回来。

第二天，船继续朝前行驶，而且越来越快。10点钟的时候，船在泊海文纳河口停了下来，这条支流是从右岸的平原里蜿蜒流入江中支流的。

河口处有只小船，小船上坐着10个土人。这只船在和酋长他们的那只船相遇后，船上的人都互相打着招呼，意思是说“顺利地回来了”。

接着，两只小船齐头并进，一起朝前行驶，那只船上的10个人也是残兵败将，他们衣衫褴褛，沉默不语，武器上沾着鲜血，有些人的伤口还流着血。他们的这种表情，其实只是未开化民族固有的无所谓的表情而已。

中午的时候，西边出现了孟伽陀塔里山，河谷变得狭小起来，江水在峡谷里急速流动，溅起了层层浪花。划着桨、唱着歌的土人们，让桨划水的声音和歌声混合起了一起，像是在为歌伴奏一样，非常好听。浪头在船头上溅起很大的水花。

急流过去后，江面变得温顺、平静了很多，船每隔1英里会拐一个弯，缓缓地向前行驶。

傍晚的时候，酋长让船停在了山脚下，这一地带的山，最初几个山峰正好落在了狭窄的河岸上，形成一排陡峭的悬崖。有20个土人乘船驶了过来，他们开始为夜生活作准备。

很快，篝火在树下被点燃了。一个和“噬骨魔”有着相同地位的首领走了过来，和“噬骨魔”拥吻，亲切地打着招呼。

爵士一行还是被放在了营地中间，“噬骨魔”派人严密地看守他们。

第二天早上的时候，船逆流而上。威卡陀江的支流里突然窜出了很多小船，小船上的土人大概有六七十个，他们是些吃了英国士兵的苦头，从前线退回来的人，正准备回到山区去。一些小船上不时地传出歌声，有个土人在大声唱着他们的爱国歌曲：“巴巴拉提瓦提提敌，依东伽内……”

这是毛利人渴望独立而唱的国歌，国歌清晰嘹亮，引起了山谷的回

响。在那个土人唱歌时，另一些土人则一起拍着胸脯，齐声和着那首雄壮的歌声打拍子，而此时，土人水手把船划得更快了，小船在江波中急驶。

在这一天，有个非常奇怪的现象吸引住了爵士他们。那就是在下午4点钟的时候，酋长“噬骨魔”控制小船，进入了一条狭窄的小道。急流冲刷着江中的小岛，江中小岛之大令人惊讶，在这样的江面上行驶，非常容易翻船。而在这样的地方，又绝对不能翻船，也不能去江边，因为江边有滚烫的泥沙，一旦踩在江边，必死无疑。

为什么会这样？

原来，这就是有名的沸泉，顾名思义，这泉水就像烧开的水一样。而沸泉的产生，曾一度引起探险家的好奇。那因沸泉而形成的铁锈将两岸的淤泥全都染成了红色，可以说一块净土都找不到。空气中到处充斥着刺鼻的硫黄味，土缝里发出了恶臭。之所以有这种气味，则是因为泥土被泡涨后，冒出煤气产生的气味。

对于这种气味，土人们显然已经习惯了，但爵士他们却无法忍受。不过，虽然气味让他们难受，但这番奇景却是不能不去欣赏的。

江面上的小船在蒸汽形成的雾中乱窜，周围朦朦胧胧的，在江面上形成了一个巨大的穹窿。江两边是数不清的沸泉，沸泉喷射出一根根的滚烫水柱，参差不齐，像是人们特意设置的喷泉。

如此壮观的场面，让人不禁怀疑这喷泉是有人控制、调节的。江面上的水被沸泉打起，在空中和沸泉结合，又在太阳光的照射下发出五颜六色的光芒。

在这里之所以会看到如此奇观，都是因为其特殊的地质构造形成的。这里由于火山活动频繁，导致地火在地底下燃烧，河水在江面沸腾。离这里不远的地方有诺陀路阿湖，湖东面有罗托玛哈那和特塔拉塔两个温泉，而其他喷水口和硫气坑则多得数都数不清。

据说，曾有几个大胆的探险家来过此地，对这奇景感慨不已。

如今，新西兰还有加里罗和瓦长利两座活火山，过多的热量无法从那两座火山口喷出，进而在这里形成了沸泉。

小船上的土人在3公里长的热气层中穿行，很快，硫黄形成的烟雾消散了，空气中有了新鲜的空气，大家都觉得一阵凉爽。原来，船过了沸泉区域。

天黑前，他们又过了希巴巴思厄和塔麻特克两道急流，但土人们仍然在使劲划桨。至此，他们已经走了100多公里的路程。晚上，他们在另一个地方露了宿。

第二天，巴嘉勒尔看了看地图，发现右边耸入云霄的是海拔约1000米的陀巴纳山。

中午，江面上所有的小船都向南驶去，并进入了导泊湾。导泊湾有一座茅草棚，茅草棚上飘着一块布，土人们看到那块布后全都向其致敬。

爵士他们知道，那块布就是他们的国旗。

第四十二章 毛利人的“鹰窝”

据历史记载，导泊湖的形成是因为岛中间有片火山岩，火山岩的中间出现了一些窟窿，当那窟窿塌陷后，便形成了长约40公里，宽30公里的大坑。而那土坑里是来自四周山顶的泉水，形成了导泊湖。

导泊湖是个奇特的湖泊，它的海拔有300多米，四周由800米的高山环抱。西边有高高的悬崖峭壁；北边有几座山峰矗立在那里，山峰顶上长满了小树；东边是广袤无垠的湖滨平原，平原上有纵横交错的小径，小径上有很多发光的浮石；南边是一片森林，森林处有一个圆锥形的火山头……

这一切都环绕着一片碧水，看上去气势壮丽。

总的来说，这一片区域很像一个大大的烧开了的锅，锅底下是燃烧着的火苗，地面被烧得滚烫，像沸水一样在翻滚。

抖动的地面上有龟裂，如同被烤焦的烧饼，地面的缝隙处渗出一缕缕热雾。由此可见，这些地底的热气如果不在20公里之外的同伽利洛火山口找发泄口的话，整个高原必将成为一个大熔炉。

从湖面向北看，很多喷火的小火山中间耸立着同伽利洛火山，火山的顶端喷着火焰和烟雾，如同一个人头上的装饰品——羽毛。这羽毛是和一座错综复杂的山连在一起的。而在这座火山后的平原上，有一座鹿厄胡峰，峰顶在3000多米的云雾里消失了。

这座圆锥形火山向来无人问津，也从来没人探索过。但同伽利洛火

山不同的是，它很容易就能爬上去。在这近20年的时间里，就有毕威尔、狄逊和最近的霍兹特陀，前后三次来此测量过。

如果不是处在这样的危险环境下，巴嘉勒尔一定会为大家讲关于这座火山的传说，他一定会告诉大家，同伽利洛山和塔腊纳基山很久以前是朋友，也是邻居。不过有一天，他们为了一个女人而发生了争吵，脾气火爆的同伽利洛动手打了塔腊纳基。挨打后的塔腊纳基自尊心受到了很大的伤害，从瓦嘎尼河谷溜走了，走时还抛下了两座小山头。

最终，他从瓦嘎尼河谷逃到了东海海滨，独自矗立在那里，并改名为俄戈蒙山。

当然，此时的巴嘉勒尔没有讲这些故事的心情，何况他就是讲了，大家也没心思听。他们现在正处在刀刃上，只能听天由命，默默地看着导泊湖的东北岸。

酋长的船驶出了威卡陀江，进而钻进了另一条河，这条河的形状非常像威卡陀江的漏斗。

船在绕过一个尖岬后，沿着湖东面的沙滩，在海拔600米的芝加山脚下停下了。

这个山脚下长着很多弗密翁草，这种草是新西兰土人用来做布料的植物。弗密翁草可谓全身都是宝，首先它的花是上等蜜源；它的胶质茎可以做蜡或浆粉；它那可爱的青叶子能替代纸在上面写字；干叶子能做引火绒；将叶子撕裂后，还可以搓绳子、造缆索、织渔网；它的纤维能编被褥、大衣、席子或麻布；染成红色或黑色的麻布可以给高贵的土人做衣服。

在新西兰南北二岛上，这种浑身是宝的弗密翁草随处可见，不管是在海边、湖边还是江边都能看到。在爵士他们到达这片区域后，那野生的弗密翁草依然郁郁葱葱。它们形似龙舌兰，长着棕红色的花，花从叶子丛中伸出。狭长而锋利的叶子层层叠叠，形成了漂亮的剑林。弗密翁草上经常会停很多小鸟，这些小鸟争相吸吮花心中的甜汁，并传播着花粉。

湖里有一大群正在搜寻食物的鸭子，它们长着淡黑色的羽毛，羽毛间夹杂着灰绿色花纹。这些原本的野鸭子，如今已经被驯化，成了家畜。

在船又行驶了约四分之一的路程后，前面出现了一座城堡，城堡建在一处陡峭的悬崖上，那是凭着天险而建的土人城寨。爵士一行被土人押了下来。这次土人并没有绑他们的手脚，想必知道他们逃不掉。

通往城寨的小路被茂密的丛林覆盖，弗密翁草在丛林里显得格外醒目，丛林里还有长着青叶子、红浆果的“弗树”，它那鲜嫩的果实胜过欧洲的千年蕉。除了这些外还有一种可以做黑色染料的“油湖树”。

树丛里，有发出金属光泽的大鹑鸽、灰色的圆嘴鹑以及无数长着红肉冠的棕鸟，看到他们一行人过来，这些鸟瞬间便飞了起来。

爵士、海伦夫人和其他伙伴在绕了一圈后，终于到了城堡里面。城堡由一道高5米的坚固栅栏围着，里面还有两道防线。第一道防线是用木桩形成的；第二道则是柳条墙，柳条墙上凿着枪眼。

进了第二道防线，里面就是内城了。内城有40多座草棚，草棚排列很整齐，属于典型的毛利式住房。

爵士一行还没走进内城，便看到外面的木桩上挂着许多骷髅，这些骷髅让人看了很害怕。

海伦夫人和玛丽小姐急忙把脸转到了一边，她们不忍心看这么残忍的场景。这些骷髅的主人是土人敌方首领的头颅，也是土人的战利品。土人在将这些首领杀了后，砍下头来挂在木桩上，而身体却成了他们的食物。

“噬骨魔”酋长的住所在城寨的最里面，被一群简陋的茅屋包围。住所的后面是个露天广场，用于集会和习武。“噬骨魔”的房屋墙壁用木桩和树枝做成，为了暖和，墙里面还糊着一层弗密翁草席。

“噬骨魔”所住的房子不是很大，但在酋长里已经算很不错了。

这所房子朝南有个大缺口，缺口处挂着厚厚的帘子，帘子的作用实际上也是门的作用。屋顶有些像古罗马人住的房子，有飞檐，向外延伸出去。房子的椽子上刻着各式花纹，门外的墙上，雕着奇特的花卉、树木、奇珍异兽……还有很多密密麻麻的花纹，这就是所谓的迎门墙，出自毛利族的能工巧匠之手。

酋长的矮屋子地面平整，离地面约5公分高的地方有张矮床，床上铺着芦席，芦席上铺着垫子，垫子是用软软的香蒲叶子编成的；房子中间有个石洞，石洞实际上也是一个炉灶；房顶上有缺口可当烟囱，烟雾大时，会从房顶的烟囱处向外冒，所以墙壁被熏得乌黑发亮。

“噬骨魔”的房间旁有个仓库，仓库里贮藏着酋长的食物和生活用品，包括弗密翁草、山芋、水芋、凤尾草根等。

离他房子更远的地方有几所院子，院子里养着家畜，这些家畜是当

年库克船长带来的，繁殖的并不多。此外，屋外有到处乱窜着寻找食物的狗。总的来说，毛利人用来食用的牲畜他们养得并不好。

爵士一行一直在等待着，等待着酋长的发落，同时，他们还在忍受着一群老妇人的辱骂。这些老妇人不仅对他们指手画脚，甚至还伸出了拳头，朝他们不断地挥舞着。

从她们嘴里偶尔吐出的几个英文单词中能知道，她们说要为死去的亲人报仇。

面对辱骂和威胁，爵士一行的反应也各有不同。海伦夫人表面平静，内心却很惊慌。她控制住这个情绪，怕丈夫为她担心。可怜的玛丽小姐吓得差点昏过去，幸好有麦盖尔船长在旁边扶着。麦盖尔一直守候在她身边，以便在需要时保护她。

少校面对辱骂，毫不理会，巴嘉勒尔却不一样，他气得咬牙切齿。

爵士怕老妇人们对妻子造成伤害，走到了“噬骨魔”的面前，指着那些妇人，要他制止她们的无礼挑衅。

酋长瞟了他一眼，没有说任何话，只是用手轻轻一挥，妇人们便乖乖地离开了。爵士向他表示了感谢，然后回到了同伴面前。此时，近百人聚集到了“习武场”，这些人中有老人也有小孩，有男人也有女人。他们有些沉着脸，愁容满面，等待首领发号施令；另一些则在不断地痛哭流涕，为他们死去的亲人悲哀。

原来，在响应桑普逊号召，反抗英国侵略的所有酋长中，仅有“噬骨魔”活着回来了。他给民众说了他们在威卡陀江下游平原地带失利的情况。如今，派出去打仗的士兵有200多人，大部分没有回来，还有一

部分做了俘虏。那些牺牲的战士，永远都不可能回到自己的故土了。

这也就是在他们看到“噬骨魔”后伤心的原因。打败仗的事情原本没人知道，现在全都传开了。

新西兰土人在亲友阵亡后，表达悲痛的通常做法就是伤害自己的肉体，特别是女人，她们用锋利的贝壳将自己的脸和肩膀划得血肉模糊。把自己的肉体伤害得越深，表明她们越悲伤。

看着那些妇女的鲜血和眼泪一起往下流，如同疯子一样，在场的所有人都感到了恐惧。

让土人们悲伤的还有一个原因，这个原因也是他们最看重的，那就是他们的亲人不但死了，而且连骨头都没能带回来埋进自家祖坟。

毛利民族是个非常迷信的民族，他们觉得遗体的保存关系到一个人的来世。而他们所要保存的也不是腐烂的皮肉，而是骨头。他们用心收集起死者的骨头，并进行洗刷、刮磨，甚至还在骨头上涂上了一层漆，最后又将这些骨头装进一个特制的容器里，这个容器也被称之为“光荣之屋”。

“光荣之屋”上有死者的木头像，木头像上画着死者生前身上刺着的花纹。如今，这些战死他乡的战士，骨头不是被野狗吃掉，就是被暴露在野外，所以墓穴只能空着，应做的宗教仪式也无法进行。

土人们一想到这些便气愤不已，妇女们对爵士一行的辱骂刚刚过去，男人们又怒骂起来，有些甚至挥舞起了胳膊，想要对爵士一行动手。

酋长担心土人控制不住情绪，做出过激行为，所以叫人将他们押到

了另一个地方。那是个木棚，木棚里供着神位，土人将这个地方叫“华勒都”，是个神圣不可侵犯的地方。

爵士一行总算离开了那个令人恐怖、紧张的环境了。大家全都躺在了弗密翁草席上休息。海伦夫人因为高度紧张，再加上劳累，身体和精神都难以支撑，倒在了爵士的怀里。爵士紧紧地拥着她，不断安慰说：“亲爱的海伦，不要害怕，鼓起勇气来。”

小罗伯尔一进棚子，便站在了维尔逊的肩上，探出墙头和屋檐间的缝隙朝外面看，从那里能看到整个城寨的情况，也能看到酋长的房子里。

“他们都围着酋长在开会……指手画脚的，好像在咒骂着……酋长好像要说话了……”小罗伯尔轻声给大家汇报着。

好一会儿，罗伯尔又说：“那些人没有吵了，在听酋长讲话……”

“看来，酋长保护我们的目的，就是为了用我们换回他们的首领，不知道他手下那些人答不答应。”少校说。

“好像是同意了……那些……那些人都回自己棚子里了……有的……有的还离开城寨……”罗伯尔说。

“真的？”少校问。

“是真的！现在只有那些押送我们的人还在酋长那里……来了！有个人朝我们这里走来了！”罗伯尔小声喊着。

“快点下来，罗伯尔！”爵士说。

此时，海伦夫人也紧张地站了起来，抓住爵士的手说：“爱德华，玛丽和我可不能落入土人的手里。”

海伦夫人说完，递给爵士一支装好了子弹的手枪。

“这武器是从什么地方来的？”爵士大惊，眼神中有一丝亮光闪现。

“这枪我一直随身带着。毛利人是不搜女人的，实在不行，这枪就留给我，虽然不能打死他们……”

海伦夫人的话还没有说完，少校便急忙说：“爵士，快收起来，不到万不得已，千万不能暴露……”

爵士把枪刚刚藏好，那挡着棚子的门帘便被掀开了，从外面进来了一个人。他向爵士这行人做了个手势，让他们跟着他走。大家互看一眼，依次走出草棚。他们穿过一条小道，走到了酋长面前。

“噬骨魔”酋长的旁边聚集着他的手下，而在泊海文纳河口驾着小船和他会合的酋长也在他旁边，那位酋长叫卡纳特德，体格健壮，相貌凶狠，年约40岁。从他脸上刺着的细致花纹来看，他在部落中的地位很高。

不过，“噬骨魔”对他好像很冷漠。善于观察的人看了，一定能猜出他们之间有矛盾。

没错，虽然两个人的力量相当，但卡纳特德在部落里所拥有的权势，让“噬骨魔”嫉妒。因此，在两个人讲话时，“噬骨魔”的脸上虽然流露出笑意，但心里却暗藏敌意。

“你是英国人？”“噬骨魔”问爵士。

“没错，我是英国人！”爵士毫不犹豫地说，因为他知道这个国籍能促进土人拿他们做交易。

“你的同伴们呢？”

“他们和我一样。我们是旅行家，因为沉船，流落到此。我们没有参加战争，我们是清白的。”

“有没有参加战争，谁知道呢？凡是英国人，都是我们的敌人，因为你们侵占了我们的领土，烧毁了我们的村子。”卡纳特德吼道。

“他们做错了！说实话，对于这件事我也很难过，这不是因为我们落入你们之手才这么说的。”爵士认真地说。

“告诉你，我们的‘图洪加’——卢伊·阿同的大祭师落入你们英国人手里，成了你们的俘虏，他让我们把他赎回来。如果不是他说过，我们一定会剜了你们的心，告慰死者的。然后我们还要把你们的头挂在木桩上。”“噬骨魔”说。

原本冷静开口的他却越说越激动，最后气得浑身发抖，大吼着。

不过很快，他平息了自己的心情，慢慢地说：“你觉得英国兵会用‘图洪加’和你们交换吗？”

爵士犹豫了一会儿，他观察着酋长的脸色，好一会儿才说：“很难说！”

“我觉得你的命就能抵上我的祭师的命！”

“不！在我们这里面，既没有首领，也没有祭师！”

巴嘉勒尔听爵士这么说，愣住了，他诧异地看着爵士。

“怎么？你没把握？”

“是的，没有！”

“就是说，英国人不肯把我们的‘图洪加’换回来？”

“用我一个人换肯定不行。如果换，必须用我们几个人一起换。”

“我们毛利人就是一个人换一个人！”

“如果要换，那你就用两个女人换吧！”爵士说着，指了指海伦夫人和玛丽小姐。

海伦夫人想要奔到爵士面前，少校一把抓住了她。

“这两位女士在英国有着很高的地位。”爵士又说，并向她们恭敬地鞠了一躬。

“噬骨魔”观察着每个人，嘴角突然涌出险恶的微笑，但只有一会儿，他的笑容便僵住了，怒声喝道：“你们这些该死的欧洲人，想骗我吗？你以为我看不出你的心思？”

说完，他一指海伦夫人：“她是你老婆！”

“不！她不是我的老婆！”

卡纳特德说完，淫笑起来。随即推开人群，走到海伦夫人面前，将手搭在了她的肩上。海伦夫人的脸吓白了，大声惊呼：“爱德华！”

爵士气极了，他掏出手枪，一枪打死了卡纳特德。

枪声惊动了整个城寨，土人一下子涌了过来。他们举起手来，高声叫喊着，说要严惩凶手，爵士手里的枪也被夺走了。

“噬骨魔”用不可思议的眼神看了爵士一眼，然后一只手挡在了爵士面前，另一只手挡住了因为激怒而跑来的人们。

最后，他严肃地喊道：“神禁！神禁！”

土人们听到这句话，停止了愤怒。爵士一行终于在酋长和神威面前，没有受到伤害。

很快，他们又被押回牢里，不过却发现罗伯尔和地理学家不见了。

第四十三章 骇人的酋长丧礼

“噬骨魔”既是部落酋长，又是部落里的祭师，所以他拥有祭师的权威。正因为如此，他才在喊出“神禁！神禁！”时让迷信的土人退缩。

什么是“神禁”呢？其实也就是土人的一种风俗。一旦某个人或某件事被“神禁”，那么就不能有任何人接触或使用了。毛利族的教规规定，谁伸出了褻渎的手，触及到了“神禁”后的人或物，那么就触犯了神怒，是会被神处死的。即使神没有处死，祭师们也会将触犯了神怒的人处死。

“神禁”除了成为土人的一种习惯外，还会作为酋长的政治目的随时宣布。有些土人甚至在很多种情况下，受到无数天的“神禁”。打个比方，在他剪头发、绣花、造船、造房甚至是重病将死时，都可以受到“神禁”。

又比如说，在河里捕鱼的人很多，鱼养不大；还比如地里的庄稼刚成熟便遭人践踏……这都可以用“神禁”来保护，不过这属于经济目的。而如果一个酋长为了防止闲人骚扰住宅，也是可以将住宅“神禁”起来的。还比如他想垄断外来船舶的外贸活动，他可以用“神禁”来隔离这只船。又比如一个欧洲商人触怒了他，他可以用“神禁”这个欧洲商人……

总之，在这些场合下，“神禁”所起的作用就和欧洲古代皇帝的“否决权”差不多。

在土人心里，一个被“神禁”的东西，千万不能触摸，不然必遭惩

罚。比如说，一个土人动了被“神禁”的东西，在很长一段时间里，有些食物他是不能吃的。即使过了这个禁食期，他的手也不能触摸食物。而如果他是富人，他在不能触摸食物时，可以让奴隶帮他食物送进嘴里；若这个人是穷人，那么他只能用嘴去叼食物吃了，意思就是说：“神禁”让他变成了牲畜。

不管怎么说，这种奇怪的风俗约束和操纵着新西兰土人最微小的动作，甚至可以说是“神”对土人生活的干涉。这种风俗虽然不是法律，但在土人眼里比法律还庄严。而这种频繁的“神禁”，也可以说是法律的概括，它无可辩驳，也无人辩驳。

被关起来的爵士一行，因为酋长的一个“神禁”指令，让他们从狂怒的人群中活了下来。当时那几个“噬骨魔”的亲信，在听到首领“神禁”后，马上住了手，并反过来护住了爵士一行。

不过，爵士并没妄想着能够免死，他抱定了一命换一命的想法。

我们应该知道，在土人的风俗里，一个临死之人必须遭受各种苦刑，绝对不会让你痛痛快快地一下子去死的。爵士自然知道他这次的义愤之举意味着什么，也知道自己免不了会受到残酷的报复。他做好了准备，而且他也希望这个残酷报复只针对他一个人，不要牵连到其他人。

可以想象，这一夜，爵士一行是多么难熬，没有人能描述出他们的焦急心情，更没人知道他们的痛苦。可怜的小罗伯尔和乐观的巴嘉勒尔不见了，他们去哪儿了？又会遭遇什么？是不是已经成了土人报复的第一批牺牲品？

此时，对于他们俩，大家已经不抱任何希望了，连很少绝望的少校也死了心。玛丽小姐因为没有了弟弟，非常悲伤。这让麦盖尔很是心

疼。

爵士的脑海里不断回响着海伦夫人那可怕的要求，她希望他打死她，以免受苦刑或做奴隶。可他怎么会忍心打死自己的爱妻？

“玛丽小姐，我又有什么权利来打死她？”麦盖尔心里也在这么想着，不禁万念俱灰。

对于逃跑，想都不用想，根本不可能。10个全副武装的战士，正站在门口。

一直到2月13日早晨，由于“神禁”的原因，土人没有任何人和爵士一行接触。关他们的棚子里也有吃的东西，但爵士他们却一点都没动。悲伤过度的他们，丝毫感受不到饥饿。

整整一天就这么过去了，既没有坏消息，也没有好消息。很显然，这是要将死者的葬礼和凶手的死刑一起进行了。

爵士觉得“噬骨魔”肯定已经打消了交换他们的想法，不过，少校对此还抱有一线希望。

“谁知道会怎么样呢？我敢说，对你打死卡纳特德，他肯定还心存感激呢！”少校老是这么说。他让爵士回想一下卡纳特德死时，“噬骨魔”的表情。

不过，虽然爵士觉得少校说得有道理，但还是不抱任何希望。第二天又过去了，对爵士的处刑并没有举行。

为什么会这样呢？

原来，毛利人有一个必须严格执行的风俗，那就是一个人在死后的3天里，灵魂并没有离开肉体，所以死去的人还要过3个24小时，尸体才能埋葬。

2月15日，整个城寨都静悄悄的。麦盖尔时不时地站在维尔逊肩头朝外面看。外面看不到一个土人，只有关押他们的地方有土人轮流值班。

到了第3天，每个棚子的门都打开了。男男女女，老老少少的土人有好几百人涌到了堡上，他们个个都很安静，悄无声息。

“噬骨魔”也从他的房间里出来了，后面跟着的是一些部落里的首领，他们走到城寨中间，站在一个2米高的土堆上。其他土人站在土堆后的几米处，将土堆围成了半圆形。整个环境寂静异常。

“噬骨魔”做了个手势，有个土人战士便走到了“牢房”。

“别忘了我和你说过的话。”海伦夫人对爵士说。

爵士将海伦夫人拥在了胸前。此时，玛丽小姐也走到了麦盖尔身边，她对麦盖尔说：“爵士和夫人都觉得，一个妻子如果无法忍辱偷生，就可以要求丈夫把她打死；那么作为一个未婚妻，也有同样的要求。约翰，在这关键的时候，我能说，在您的内心深处，已经承认我是您的未婚妻了对吗？如果是这样，亲爱的约翰，我希望您也能像海伦夫人要求爵士的那样，好吗？”

麦盖尔欣喜若狂，叫了起来：“亲爱的玛丽……”

没等他把话说完，草帘便被掀开了，他们被押到了“噬骨魔”那里。两个女士已经下定决心要死了，所以也没什么怕的了，看起来非常平

静。男人们心如刀割，但表面却很平静，一脸坚毅。

当一行人走到酋长面前时，酋长对爵士说：

“是你杀死了卡纳特德？”

“没错！是我杀死了他。”

“那么明天太阳一出来，你就得死！”

“只是我一个人死吗？”爵士问，他的心跳得厉害。

“如果不是我们‘图洪加’的生命比你们宝贵……”“噬骨魔”叫了起来，眼神中射出毒意。

此时，土人的人群突然骚动起来。爵士朝四下一看，见人群被分开，有个土人战士气喘吁吁地跑了过来。“噬骨魔”也许是想让爵士他们听到，便用英语问道：

“你是从阵地上回来的吗？”

“是的！”土人战士说。

“你看见我们的‘图洪加’了吗？”

“看见了。”

“他怎么样？还活着吗？”

“没有！他死了，他被英国人枪毙了！”

看来，既然“图洪加”死了，爵士和同伴们的生命也就走到尽头了。

“你们都要死！明天太阳出来的时候，就是你们的死期！”“噬骨魔”大声叫道。

他们的命运就这么被做了判决，所有的人都要死。不过，海伦夫人和玛丽小姐面对这种情况，脸上却露出了微笑，看着天空，以表示感谢。

爵士一行这次没有被押到“牢房”，而是和土人一起，参加了卡纳特德的葬礼，并且还要跟随葬礼举行血祭仪式。几个土人战士将他们押到了一棵很大的“苦楝”树脚下。看守他们的人一直和他们在一起，紧紧地盯着他们。整个部落都沉浸在悲伤和哀悼中，似乎已经忘记了自己是谁。

卡纳特德已经死了3天了，按土人的风俗，灵魂已经离开肉体，可以举行葬礼了。

卡纳特德的尸体停在城寨中间的小土堆上。死去的卡纳特德穿着一件华丽的衣服，外面裹着一层草席，头上插着一根羽毛，还戴着一圈绿叶。他的整个面部、胳膊和胸脯上都擦上了油，看不到爵士用枪打过的痕迹。

卡纳特德的亲友全都走到了小土堆旁，突然，像有人指挥的乐队在唱丧歌，四周传出了哭泣声、号哭声和呜咽声，这些声音交织在一起，形成了交响曲，响彻云霄。

大家用沉痛的音调，用哭声来表达对死者的哀悼。死者最亲近的人，不停地捶打着自己的头，远亲则抓自己的脸，他们用这种形式来表现死者流的血比流的泪多。

这些可怜的女人用这种形式表达着她们的悲伤。不过，好像这样的形式还无法告慰死者的灵魂，她们觉得死者一定会将怨气和怒气发泄到活着的人身上，所以她们觉得，如果不能让死者复生，那么就要让死者在阴间享受快乐。因此，卡纳特德的妻子是不能让丈夫一个人进坟墓的，何况这个不幸的女人也不想独自活在世上。

这都是风俗，也是责任。也就是说，殉夫的事在新西兰很正常。

于是，卡纳特德的妻子出来了，她非常年轻。披头散发的她一会儿号哭，一会儿哽咽，悲伤至极。她一面哭泣，一面诉说着什么，从她模糊的话音和缠绵的语调中可以感受到，她是在歌颂死者的品德。而当她哀伤到极点时，便躺在了土堆下，将头在地上拼命地撞。

此时，“噬骨魔”走到了她的身边。她爬了起来，“噬骨魔”挥舞着手里的木槌，将她砸倒在地。

她就这么死了。

吓人的声音再次响起，土人们举起自己的拳头，威胁着爵士一行。爵士一行一动也不敢动，因为葬礼还没有结束。

卡纳特德和他妻子的尸体并排躺着。不过，在那个阴冷的环境下，卡纳特德仅有妻子一人陪着还不行，还需要奴隶。所以他们的奴隶也要跟着一起死——因为如果没有奴隶，谁来伺候他们夫妻？

可怜的6个奴隶被带到了两具尸体面前。这些奴隶都是土人部落间发生战争时，俘虏的敌方土人。

奴隶主在世时，这些奴隶忍受着饥饿，受尽了虐待，干着牲畜干的活。而在奴隶主死后，他们依然要陪着奴隶主去死，去为死人服务。

这些奴隶好像并不为他们的命运叫屈，也安于接受这样的命运。也许是因为他们早就知道要殉葬，所以表现得很平静，没有一丝惊恐。他们的双手没有被捆上，以示他们心甘情愿去陪葬。好在他们的死法会很利落，所以也算是解除了长期的辛劳和折磨。

毛利人的酷刑只针对这些欧洲人。

爵士一行在20步远的地方挤成了一团，他们把眼睛转向了别的地方，不忍心看这一个接一个的凶残场景。

6名土人战士高高地举起木槌，向那6名奴隶砸去。顿时，6名奴隶倒在了血泊里。于是，有人发出了一声号令——吃人肉开始了。

6名奴隶的尸体是不会像主人的尸体一样受到“神禁”的，所以他们归全部落的人所有。就这样，6名奴隶的尸体，成了哭丧者的酒菜。

祭礼结束后，所有的土人，首领、战士、老人、妇女、儿童……不分年龄、性别，个个都像发了疯一样，扑向了“食物”。

爵士一行看得浑身发抖，喘不过气来。他们尽量不让海伦夫人和玛丽小姐看到这惊人的一幕。而这时，他们也已经意识到，明天太阳出来时，他们不知道会有怎样的死法，而且死之前，又要经历什么，他们不敢想，也不能想。

吃完人肉，是葬礼的舞蹈节目时间。土人们开始喝一种用“极品椒”酿成的烈性酒，喝了烈性酒的土人，已经没有一点人性了。他们会不会忘了酋长的“神禁”，提前向爵士他们下手呢？爵士一行吓坏了。

好在“噬骨魔”始终保持着清醒，在给大家一个钟头的跳舞喝酒时

间后，他们依照习惯开始进行最后一项仪式。

卡纳特德夫妇的尸体被抬了起来，根据新西兰土人的风俗，他们的手脚是要弯过来，并贴着肚子的。而且现在的埋葬并不是真正的埋葬，只有把尸体埋在土里后，皮肉烂了，只剩下骨头，埋骨时才算是真正的埋葬。

墓地被选在了城寨外3公里处的小山顶上，这座山在湖的右边，叫孟伽纳木山。

在将尸体往那里抬时，有土人拿来了两只原始的轿子，这种轿子只是两个软兜。在将软兜摆在土堆下后。他们把两具蜷曲的尸体用藤箍支着放到软兜上。然后由四个土人抬着往前走。轿子后面是排列整齐的土人，他们大声号叫，唱着丧歌，一直走到墓地。

爵士他们一行始终被监视着，一直看着送殡队伍离开城寨，慢慢地，那哭声和歌声低了下来。

大约半个小时后，那些送殡的人钻进深谷不见了。接着，又看见他们出来了，在山路上蠕动。远远望去，那支漫长而曲折的队伍一起一伏的，像鬼影一样在晃动。

整个部落的人在250米高的地方停下了，那就是孟伽纳木山的山顶，是预先为卡纳特德夫妇准备的墓地。

在土人的风俗里，一个普通的土人坟墓只是一个坑和一堆石头。可对一些有权有势的酋长来说，这些人是会变成神灵的，所以也就为他们造了一个能和他们生前的名誉相匹配的大坟墓。

墓地外有一道栅栏，墓穴旁有很多木桩，木桩上刻着一些涂得鲜红

的人物。

新西兰土人认为，死去的人的灵魂也和活着的人一样，是要吃东西的，所以墓穴里还放了很多粮食、衣服和武器。

死者死后该享用的一切，全都置办齐了。他们这才将尸体放了进去，并让两具尸体并排躺着。大家在又大哭了一阵后，这才将尸体掩埋起来。

做完这些，送殡的队伍默默地下了山。此后，任何人都不能再去那座山了——谁去谁就会死。因为它是受到“神禁”的，同伽利洛山也一样，没有土人敢去。

同伽利洛山上埋着的，是1846年地震时死去的一名酋长。

第四十四章 罗伯尔帮越狱

太阳在导泊湖边的图哈华山峰和普克塔浦山峰后面沉了下去，爵士一行重又被押回“牢房”。在第二天太阳升起前，他们是不能离开这所“牢房”的。

还有一夜的时间，这一夜，他们要做离世的准备。虽然悲痛欲绝，惊恐万分，但他们还是一起吃了一餐饭。

“在死亡面前，我们不用垂头丧气，要叫那些野人看到，我们欧洲人是多么不怕死。”爵士说。

吃过饭，海伦夫人开始高声诵起了晚祷，全体同伴随着她一起脱帽祷告。

有谁在死亡降临时，会不想上帝？

做完晚课后，大家互相拥抱了一下。

玛丽小姐和海伦夫人退到了棚子的一角，躺在一张草席上。她们暂时忘记了悲伤和痛苦，互相拥抱着进入了梦乡。接连的疲惫、惊恐和失眠让她们再也熬不住了。

在玛丽小姐和海伦夫人进入梦乡时，爵士把其他人拉到了一边：

“亲爱的伙伴们，我们和两位可怜女士的生命，都掌握在了上帝手里。如果明天我们的死是天意，那作为上帝子民的我们，一定要勇敢地

接受死亡，接受上帝的审判。上帝能看透我们的心意，知道我们是一群追求高尚目标的人。如果不成功，那就是上帝的安排。到那时候，不管上帝的旨意如何严酷，我们都不抱怨。不过，在这里我们不是为了求死，这里有苦刑，有奇耻大辱，特别是还有两位女士……”

爵士的语气很坚定，说到这里，他的声音开始颤抖。他停了下来，抑制住感情，慢慢地说：“约翰，我知道你会像我对待海伦一样对待玛丽，你有什么决定？”

“我答应过她的事，我想我一定能做到！”麦盖尔说。

“可我们没有武器怎么办？”爵士说。

“还有一件武器！”麦盖尔说着，拿出了一把短刀。

“在卡纳特德倒在您脚下时，我将这把刀从野人的手里夺了过来。爵士，我们俩不管谁活着，都要履行我们对海伦夫人和玛丽小姐的诺言。”

棚子里一片沉寂。好一会儿，少校说：“朋友们，我们还没有到最后的时刻，是不能采取这种举动的，我始终不相信没有任何机会。”

“我只是这么说。情况不同啊，如果只是几个男人，我一定会喊，朋友们，冲出去，杀死那些坏蛋！不过还有她们，还有她们呀……”

就在这时，麦盖尔悄悄地掀开了门帘，发现在“牢房”外看守的土人有25个。25个看守面前燃着一堆火，火光照在了城寨里高低不平的草棚子上。那些看守有的躺在火周围，有的站着不动。不过，不管他们是躺着还是站着，他们都会时不时地转头看着爵士一行人待着的棚子。

曾有人说，在看守和想越狱的人之间，越狱的人逃跑的机会更多一些。因为一个有心，一个无意。有时候，看守的人是会忘记自己在看守的，而越狱的人却时刻盯着看守在看，所以如果犯人想逃跑的话，还是有机会的。

不过，在爵士他们所处的环境中，那些看守好像并没有无意，因为这些人对欧洲人充满了仇恨，有着强烈的复仇心。如果说爵士他们为什么没有被捆的话，是因为根本不需要捆绑，因为有25个人看着唯一的一道门。

他们所在的棚子背后靠着城寨尽头的一座石岩，前面只有一条小道通向城寨中心的平原。棚子两边是悬崖峭壁，底下又是30米深的深坑。所以要想滑下去根本不可能。想挖地道吧也不行，因为地面全是大石头。唯一的出路就是通向城寨中心，像吊桥一样的泥路，可那泥路也被土人把守着。所以逃跑根本是不可能的事。

爵士在棚子里试过很多次，但都不是逃跑的好办法。

真是令人焦躁的一夜，时间在一分一秒地过着。当夜幕完全笼罩了整座山时，天空既没有月亮也没有星星，黑暗一片。狂风在寨子周围肆虐，吹得棚子上的木桩发出了呜咽声。

土人烧的那堆火因为狂风，更亮了。火光直直地射向了关着他们的棚子。里面的人顿时被照亮了。爵士他们这群可怜的人，只能沉浸在绝望中。

周围死一般地寂静。

差不多凌晨4点的时候，一阵轻微的声响引起了少校的关注。响声

是从棚子底部的木桩后传出来的，也就是在靠近石岩的那面墙底下。

开始的时候，少校并没注意那声响，后来听到不断在响时，他把耳朵贴近地面，仔细听了听，觉得像是有人在扒土挖洞。

少校心里有了底，急忙溜到爵士和麦盖尔身边，打断了他们绝望的沉思，然后将他们引到有声音的地方。

“快听！”他小声说着，做手势让他们伏下身子听。

扒土的声音越来越响，他们听出有种很尖的东西像在钻石头，石子也在哗啦啦地往下掉。

“是不是野兽在动。”麦盖尔说。

爵士拍拍额头说：“谁知道呢？如果是人在扒呢？”

“管它是人是兽，等会儿就知道了！”少校说。

维尔逊、奥比尔也跑了过来，大家一起动手挖墙壁。麦盖尔的短刀有了用处，其他人则捡起地上的石头，甚至用手和指甲来扒。穆纳趴在地上从门帘缝隙看外面，给他们放哨。

那些土人还围坐在火堆旁一动不动，他们丝毫没意识到离他们20步远的地方有情况发生。

那层硬土是由凝灰岩构成的，特别容易碎，所以虽然没有工具，但他们挖得很快。不一会儿，大家便断定外面有一个人或几个人在挖地道。这些人为什么要挖地道？他们知道这棚子里有俘虏吗？他们有什么企图？

大家又加紧挖。手破了，流血了，可还是不停地在挖着。半个小时后，他们挖出的洞有1米左右宽了。外面的声音更响了，他们之间仅仅隔着薄薄的一层土，只要将这层土扒掉，两边就通了。

几分钟后，少校的手被刀尖扎破了，他急忙往回一缩，疼得差点叫出来，但又忍住了。

麦盖尔伸出了短刀，挡住了外面钻进来的刀，随即他摸到了一只手。那手像是女人或小孩的手，而且像是欧洲人的手。

双方都一言不发，很明显都不敢声张。

“难道是罗伯尔？”爵士自语道。

即使他说话的声音很低，玛丽小姐还是被惊醒了。她溜到了爵士身边，抓住了那只糊满泥土的小手吻着。

“是你！我的小罗伯尔！真的是你！”玛丽肯定地说。

“姐姐，是我，我来了，我来救大家了。不过不要说话。”

“真是个好孩子！”爵士激动地说。

“看着外面的土人。”罗伯尔又说。

在知道外面是小罗伯尔后，穆纳也跑了过来，一听这话，急忙跑到原地去监视。

“没事，现在只有4个看守，其他人都睡着了。”穆纳小声说。

“我们再扒！”维尔逊说。

洞扒大了，罗伯尔钻了进来，先是扑进了姐姐的怀里，接着又到了海伦夫人的怀里，他的身上捆着一条弗密翁草的长绳子。

“我的孩子！他们没有杀掉你吗？”海伦夫人小声说。

“没有，夫人！我也不知道怎么回事，就那么乘乱逃出了土人的视线。我爬出栅栏，在树丛里躲了两天。晚上我到处跑，找你们。趁着全部落的土人都在为酋长办丧事的时候，我跑到这个棚子的城寨脚下，发现我能爬到你们这里来。

“在一个没有人的棚子里，我找到了一把刀和绳子。我把峭壁上的草丛和树枝当软梯，爬上来了。我还发现这棚子靠着的高岩中间有个洞，那个洞和棚子只隔着几层厚的松土，所以就把洞扒通了。”小罗伯尔说。

没人说一句话，许许多多的热吻回应着小罗伯尔。

“我们走吧！”小罗伯尔说。

“巴嘉勒尔在下面吗？”爵士问。

“巴嘉勒尔先生？”罗伯尔一惊，反问道。

“他呢？他是不是在下面等着我们？”

“没有，爵士，巴嘉勒尔先生难道没有在这里吗？”

“不在这里，罗伯尔！”玛丽说。

“难道你没有看到他？在那么乱的情况下，你们就没碰到？你们不是一起逃的？”

“没有！我们没有一起逃，爵士！”罗伯尔说。听说巴嘉勒尔不见了，他非常吃惊。

“快走吧！一分钟都不能耽误了。现在巴嘉勒尔在任何地方，都比在我们这里好！我们要赶快走！”少校说。

时间对他们来说太宝贵了，现在他们非逃不可。

这次逃脱，他们面对的将是洞外一段几乎垂直的峭壁，有多危险可想而知。好在这峭壁只有7米左右，当他们下了这段峭壁后，就会遇到一个斜坡，斜坡一直通到山脚下，从山脚下，他们又可以钻进山谷去。而土人要是知道他们逃跑了，是要绕个大圈子才能到这里的，因为他们不知道关他们的棚子和斜坡间有一个地道。

为了逃跑成功，他们预先做了一些安排：大家先一个接一个地爬出狭窄地道，到下面的山洞里。在这些人中，麦盖尔断后，在他离开前，要先把他们扒出的洞填上，并用草席把地道口盖住。

当然，想要下那段峭壁，没有绳子不行。幸好罗伯尔带着一条。

大家急忙解开绳子，将绳子的一端拴在岩石上，另一端拖向外面。绳子是用弗密翁叶筋做成的，麦盖尔先试了试，觉得绳子有些不结实。此时，任何的险都不能随便去冒，因为摔下去的话很可能会死。

“一条绳子一次只能吊两个人，我看我们还是根据绳子能承受的重量来吧。爵士和夫人先下，等你们下去了，抓住绳子摇三下，然后再下另两个。”

“还是我先下去吧。我在坡的下端看到了一个深坑，先下去的人可以躲在里面，等后面的人。”罗伯尔说。

“好！我的孩子，你先下去吧！”爵士握了握他的手，慈爱地说。

罗伯尔出了洞，很快就不见了。一分钟后，绳子抖了三下，说明他已经顺利到了地面。

很快，爵士和夫人也冒险爬出洞外。黑夜依旧，不过东边山峰处已经有微微的光亮了。

清晨的寒气让海伦夫人很振奋，她精神十足，开始了她的危险之旅。

爵士率先抓住了绳子，随即海伦夫人也抓起了绳子，两个人沿着绳子滑了下去，很快就到了峭壁搭到坡顶的地方。随即，爵士在海伦夫人的前面顶着她，慢慢地往下退。爵士很快就找到了落脚点，周围是些草根和小树。他先试了一下，然后将海伦夫人的脚也放上去。

有小鸟被惊飞，还有小石子哗啦啦地往下掉，两个人胆战心惊。

在坡上走了近一半的距离后，他们听到洞里有人叫“停下来”。

是麦盖尔在叫。

爵士一只手抓住一丛方茎草，另一只手拉着海伦夫人停了下来，大气都不敢出。

原来，监视外面土人的维尔逊发出了警告声，他发现爵士他们在下面发出了声响，所以急忙托着门帘看外面。听到他的招呼声后，麦盖尔急忙提醒爵士。

果然，看守的土人听到棚子里有异样声响，走了过来。不过他在离

棚两步远的地方停下了，低下头仔细听着。他站在那里时间虽然只有1分钟，但对棚子里的人来说，却像1个小时。

最后，土人可能觉得自己听错了，又摇摇头回到了同伴身边，并抱了一捆干柴，加在了半熄的火堆上。火又旺了起来，照亮了土人的脸，从他脸上，看不出任何的怀疑。又看了看天边最开始的那一缕淡淡的晨光后，他重新躺在火边，烤着冻得很僵的手脚。

“可以了！”维尔逊小声说。

麦盖尔冲洞外的爵士发出信号，爵士顺势往下一滑。很快，海伦夫人和爵士便在罗伯尔等着的那条小路上停住了。

在将绳子摇了三下后，其他人都下来了，最后，麦盖尔带着玛丽小姐也下来了，他们到了罗伯尔说的那个深坑。仅仅用了5分钟，全体成员都顺利地逃出了棚子，离开了临时藏身的土坑。他们避开了有人居住的湖岸，沿着狭窄的小路钻进深谷。

他们走得很快，像鬼影一样，在小树丛中穿行。他们要去哪儿呢？

没人知道，他们只是没目的地乱跑。不过，他们自由了。

将近早晨5点的时候，天慢慢亮了，云堆高处，有淡蓝色的影子出现。

晨雾中很快就要露出朦胧的山峰了，太阳很快也要上山，不过，太阳上山虽然不是处置他们的时间，却是暴露他们逃跑的时间。

所以，他们必须在土人追捕之前，逃出土人圈子。而且必须跑得远远的，让他们无法找到踪迹。

不过，他们无法走快，因为小路实在是太难走了。爬坡时，爵士扶着海伦夫人，麦盖尔扶着玛丽小姐。罗伯尔则满心欢喜，享受着成功和胜利的喜悦。他在前面开路，两名水手断后。

再有半个小时，旭日就要从云雾中升起了。

没有巴嘉勒尔的引路，逃命的几个人又乱跑了半个小时。此时，大家在逃命中还想着巴嘉勒尔，还在为他的安危担心。下落不明的他，成了成功喜悦中的一道阴影。不过，大家还是尽可能地朝东方跑，迎着晨曦跑。

很快，他们到了离导泊湖约150米高的地方。

清晨的寒冷让处在高空中的他们越发冷了，刺骨的寒冷侵蚀着他们的肌肤。高山和丘陵隐隐约约地重叠在他们面前。不过爵士此刻想的却是进山越深越好，他只想先钻进谁也找不到的迷宫，然后再设法摸出来。因为太阳出来了，这就预示着逃亡者又要面临追杀了。

就在这时，他们听到了惊人的咆哮声，那是由成百上千的呼叫声混合而成的，在空中发酵。

声音是从城寨里传出来的。可城寨此刻又在什么地方？爵士一时之间无法辨清方向。而且由于被浓雾笼罩，他们根本看不清下面的低谷。

不过不用怀疑，土人一定是发现他们逃跑了，正在追捕呢。他们现在是否已经被土人发现了？他们沿途留下的遗迹会不会已经向土人指明了方向？

此时，下面的雾气全部涌了上来，并把他们包围在湿云里，他们看见脚下100米远的地方有着疯狂的土人。

看来，他们看见了土人，而土人也看见了他们。又是一阵咆哮声响起，咆哮声中还夹杂着狗叫声。

全部落的土人都跑了出来，他们想要爬上悬崖，但却爬不上来，所以又转头涌向了栅栏，抄小路追踪他们.....

第四十五章 墓穴成了保护伞

爵士一行离山顶还有30米远的距离。

他们要想躲过毛利人的追捕，只能爬到山上，然后再转到山的另一边去。他们希望另一边有山脊，这样就能让他们直达山峰了。不过，山峰混杂在庞大的山系中，让他们有些分不清方向。如果巴嘉勒尔和他们在一起，一定能知道这复杂的山势是怎么形成的，应该怎么逃脱。

不管怎样，他们必须费力往上爬。叫骂声离他们越来越近，突然，那群凶狠的土人追到山脚下却停住了。

“朋友们！加油！”爵士并没看到这种情况，还在为大家加油。

不到5分钟，他们就爬到了山顶。他们四下看着，判断着自己所处的形势，考虑着要怎么躲那些土人。

站在他们所处的高度，他们能够看到整个向西展开的导泊湖。导泊湖的四周被许多山环绕，风景非常优美。导泊湖的北边是毕龙伽山的群峰；南边是同伽利洛山的喷火口；东边视线被与华西梯连山相连的山峦遮挡，华西梯连山是由一连串起伏的山岭组成的大山脉。此山从库克湾起，斜贯北岛全境。所以他们必须从山那边再跑下来，这样就能钻进狭隘的山坳里了。

不过，如果真要这样的话，他们可能又找不到出路了。

此时，云雾在太阳的照耀下消散了，他们清楚地看到了山下的毛利

人。那里是个平顶小山头，小山头的平顶上有个圆锥形山尖，当他们到达那个山尖时，土人离他们也不过150多米。

爵士一行不敢停留，不管多累也要拼命地跑，不拼命跑的话，很可能被土人包围的。

“趁现在我们的路还没有被截断，赶快跑到山那头去。”爵士大声说。

不过，两位可怜的女士却是怎么努力都跑不动了，在她们努力又要往上爬时，少校制止了她们：“不用跑，你们看看下面。”

爵士和其他人一起朝下看，发现了一件不可思议的事情。

山脚下的土人，像是接到了一道严厉的指令，或是遇到了不可逾越的鸿沟，全都停在那里，不往上追了。

那些吃人的土人，只是在山脚下一字儿排开，拼命地叫嚣着，挥舞着手里的枪和斧头。不要说他们，就连他们的狗都停在那里，像它们的主人一样，大声狂叫。

这到底是怎么回事？是什么样的力量制止了他们？

被土人追赶得够呛的他们瞬间目瞪口呆，很是莫名其妙。他们想，会不会是“噬骨魔”部落的一种魔力？而一旦魔力失效，他们又会拼命追上来呢。

突然，麦盖尔大叫一声，其他人一起回过头来。麦盖尔手指着圆锥形山尖上那筑起的小碉堡给他们看。

“那是卡纳特德的墓！”罗伯尔大声说。

“什么？你没说错吧，罗伯尔？”爵士问。

“没错！爵士，那里就是卡纳特德的坟墓。我知道！”

罗伯尔确实没有说错，再往上走15米，就是山尖的顶端了，那里有很多涂了红颜色的木桩，木桩将那里围成了一道栅栏。爵士也认出了那是新西兰酋长的坟墓。

原来，仓皇逃跑的他们，无意间逃到了孟伽纳木山的山顶。

爵士带领大家一起向那圆锥形山尖走去，一直爬到了坟墓脚下。他们发现，坟墓前有个大缺口，缺口处用草席盖着。如果打开草席，他们就能走进墓室了。爵士正要往墓室走，却又连连后退两步。

“里面好像有个土人。”

“哦？这墓室里还有土人？”少校也很吃惊。

“是呀，我也奇怪。”

“不管他，先进去看看再说。”

爵士、少校、罗伯尔和麦盖尔率先钻进墓室。果然，那里有个披着弗密翁草麻外衣的毛利人。由于墓室太暗，他们看不清毛利人的样子。不过，毛利人表现得很平静，正悠闲地吃着东西。爵士正要和他说话，那个“土人”却开口了，口气非常和蔼，他用流利的英语说：“我亲爱的爵士，坐下吧！有早饭在等着您呢！”

是巴嘉勒尔。

大家一听，全都奔了进来。而每个人都被长着长长胳膊的巴嘉勒尔抱了一下。

巴嘉勒尔找到了，有了他，大家也就不用没目的地乱转了。大家正要开口问他是怎样到这里来的，爵士一句很扫兴的话让大家把兴奋又收了回去。爵士说：“土人把我们包围了！”

“土人？根本不用在乎他们。”

“我怕他们会……”

“他们？那群笨蛋！你们看着好了！”

巴嘉勒尔说着，走出了墓室，其他人跟在他后面。再看山脚下，那群土人依然在原地咆哮。

“让他们叫吧！拼命叫！喊破嗓子地叫！这群愚蠢的家伙，看他们敢不敢爬上来。”巴嘉勒尔说。

“什么？他们不敢爬上来？为什么不敢？”爵士问。

“因为这里埋着他们的酋长，所以这山被‘神禁’了，此刻这坟墓保护着我们。”

“什么？‘神禁’？”

“对呀，朋友们！正因为这座山被‘神禁’了，所以我才逃到这里来的。这里就和欧洲中世纪那些不幸的人逃到不可侵犯的圣地一样。”

“啊！太好了！上帝保佑！”海伦夫人长舒一口气，高兴地将双手举向天空说。

没错，这座山因为有了酋长的坟墓，所以成了“神禁”之地，避免了那群迷信的土人侵袭。

不过，逃到这里的爵士一行并没有算是完全脱了险，只能说暂时安全了。不过这暂时的安全，也是可以让他们想出更好的脱险办法。爵士心里五味杂陈，沉默着，什么话都不说。少校摇着头，露出不可思议及庆幸的神色。

“朋友们！那群蠢货如果想把我们这么围困起来，那简直就是做梦。我敢说，不出两天，我们就能逃出他们的魔掌。”巴嘉勒尔说。

“我们是要逃，可怎么逃呢？”爵士说。

“不知道！不过我们终究会逃掉的。”巴嘉勒尔说。

此时，每个人都想知道巴嘉勒尔的遭遇。不过很奇怪，巴嘉勒尔这个原本说话滔滔不绝的人却沉默了下来，直到别人逼他，他才挤出几句。

平时说话眉飞色舞的他，现在却没有一点精气神，回答起问题来也是支支吾吾的。

“这巴嘉勒尔怎么像换了一个人似的？”少校想。

是的，巴嘉勒尔不仅说话不像以前了，就连仪表也和原来不一样了。他用罩衫紧紧地裹住了自己，生怕大家看到什么。一谈到自己，也总是面露尴尬之色。不过大家不便紧追不放，所以只好装作没看到他的情绪变化。

在不谈到他自己的时候，巴嘉勒尔依然兴高采烈，和往常一个样。

对于他所经历的，也是大家在墓室外的栅栏脚下，围着他坐下时，他有所保留地，有选择性地讲给大家的。

在爵士用枪打死了卡纳特德后，他和罗伯尔一样，乘乱逃出了城寨的外城。不过，他没有罗伯尔幸运，他误入了另一群毛利人的营地，并被抓了起来。那里的酋长身材很高大，样子看起来也很聪明，巴嘉勒尔很快就看出他比本部落的其他人地位高。那位酋长的英语说得很好，喜欢用鼻尖磨巴嘉勒尔的鼻子，以示欢迎。

巴嘉勒尔警觉地想，难道自己又成了这里的俘虏？可又不像。不过，他每走一步，酋长都会殷勤地陪着他，简直到了寸步不离的地步。最后，他知道了自己为什么会得到这种“优待”。

原来，这位酋长叫“西夷”，也就是“太阳之光”的意思。巴嘉勒尔从酋长的言行看出，他并非什么恶人。在那酋长看到巴嘉勒尔鼻梁上的大眼镜以及身上挂着的望远镜后，便对巴嘉勒尔有了敬意，他努力想让巴嘉勒尔成为他身边的人，并不断用小恩小惠笼络巴嘉勒尔，同时为了预防巴嘉勒尔逃跑，晚上的时候，还用弗密翁麻的绳子捆住他。

就这样，巴嘉勒尔在那里待了3天，这3天，他说不清自己是受到了优待还是虐待。

“应该说既是优待，又是虐待。”巴嘉勒尔最后说。

对此，他并不做过多的解释，总之，他在精神上也成了俘虏，虽然没有面临像爵士他们一样的生死恐怖，却也比爵士他们好不了多少。

终于在一天夜里，他将捆着他的绳子咬断，逃跑了。

由于他曾远远见到卡纳特德埋在这里，也知道酋长所葬的孟伽纳木

山顶上，是会被“神禁”的，所以就逃到了这里来。同时，由于他的同伴还囚禁在这一山区，所以他不愿意丢开他们独自逃命。

好在他成功了。昨天夜里，他来到了卡纳特德的墓室。在这里，他一边休养生息，一边等待机会救回同伴。

巴嘉勒尔把他的经历讲完了，他会不会有意隐瞒了他在土人那里的一些生活细节？大家从他一次次吞吞吐吐的语言中，感觉到是这样，但也没有追问，因为对他们来说，他逃出来了，大家就应该祝贺他。

过去的事情就是那样，他们必须谈谈接下来该怎么办了。

当前的处境还是很严峻的，因为虽然土人们此时不敢往山上爬，但却准备围困他们，想必是要让他们熬不过饥饿和干渴，乖乖地逃下山。所以土人们有的是耐性，他们有的是时间等待。

而在这段时间，爵士一行也在等待时机，必要时，他们要给自己创造机会。

所以爵士首先做了一番侦察，他发现孟伽纳木山的地形是临时碉堡式。当然，他的目的不是借助这些碉堡防卫，因为土人是不敢攻上来的，他的目的是如何走出这个碉堡。少校、麦盖尔、巴嘉勒尔和他一样，也去观察了一下这座山，观察各条山路的方向、坡度和能够到达的地方。

他们发现，孟伽纳木山连接到华西梯连山的那条山岭有1公里长，而且是斜坡，一直通向平原。岭上的山脊很窄，而且没有规则地起伏着。如果想要逃脱围困，这是唯一的途径。而且他们如果黑夜从山脊上逃跑的话，也不容易被土人发现。更重要的是，在他们逃进那条连山深

谷后，很可能毛利人就无法追到他们了。

不过这条路很危险，因为山脊低的地方枪弹能够打到，这样土人在山腰下就很容易地构成了一道火网，这条火网是任何人都闯不过去的。

爵士和他的朋友们一起冒险前行，走上了那段危险的山脊。果然，迎面就是冰雹样的弹丸，幸好没有打中他们。但几包火药纸团却被风吹到了他们面前，纸团上有字，好奇的巴嘉勒尔捡起来一看，怒声道：“朋友们！你们知道这帮混蛋是用什么做的火药纸团吗？”

“是什么，巴嘉勒尔？”爵士问。

“是用《圣经》上的纸做的。如果《圣经》里神圣的语言只是为了让他们做火药团，那我真为那些传教士委屈，他们白费心血了。他们还说要给毛利人建图书馆，我看简直就是不可能的事。”巴嘉勒尔气愤地说。

爵士和同伴们又爬上了圆锥形山坡的坡路，走向墓室，想去看看墓室内部的情况。走着走着，他们突然觉得脚下有什么东西在动，非常吃惊。最后才发现脚下就像锅被煮沸般在颤动。很明显，地下火燃烧起来了。蒸汽很久以前就蕴藏在山下，由于无法喷射出来，所以在里面沸腾。

作为从威卡陀的沸泉中过来的人，这种特殊现象并没有让他们大惊小怪，他们知道依卡那马威岛的中部基本上都是火山质。有无数像筛子一样的孔让蒸汽、沸泉和硫气坑从孔里泄露出来。

巴嘉勒尔发现了这点，并让同伴注意，说此刻他们站着的这座山就是火山质，是北岛中部许多圆锥形山顶之一。也就是说，这座山以后会

变成火山。火山的内部是呈淡白色的凝灰岩，轻微的一个颤动就很可能让山体形成一个大火山口。

“你说得没错，不过在这里还不如在‘邓肯号’锅炉旁危险。这里的地壳好在像个坚固的钢板。”爵士说。

“没错，可这里毕竟是个大锅炉，即使再结实，用久了也会出问题的。”少校说。

“少校，我可不想老待在这里，但老天也要给我们一条路走才行。只要老天给我们指一条路，我马上就走。”巴嘉勒尔说。

“唉！如果这座山能带着我们走就好了。看它肚子里装那么多的气，说不定我们脚下就有几百万马力的力道。可惜啊！白白浪费了。如果‘邓肯号’有这千分之一的马力，就能将我们送到天的另一边了。”麦盖尔感慨道。

麦盖尔的这句话，再次勾起了爵士的伤感。因为爵士不管身处何种环境，首先是为同伴担忧，所以在自己还很危险的时候，他又在为“邓肯号”及船上的员工难受了。

他一边沉思，一边走回同伴身边。海伦夫人看到他，迎了上去。

“我亲爱的爱德华，地形侦察得怎么样了？有没有希望？”

“有！很有希望！亲爱的海伦，那些土人是不敢越过这山界一步的，所以我们不愁找不到机会逃脱。”

“是的，我们现在还是回墓室吧，这可是我们的堡垒，我们的府第、饭厅、研究室。没有人会来打扰我们！夫人们，请容许我在这座美

丽的住宅招待大家吧！”

巴嘉勒尔说着，走进了墓室。

山脚下的土人见这些“可恶”的逃犯又要亵渎被“神禁”的墓室，发出了骇人的咆哮，那咆哮声如同枪声一样响。不过，幸运的是，枪弹打不到他们想要达到的高度，所以子弹又飞到山腰下去了。于是，那辱骂声便随着枪弹声在天空盘旋。

海伦夫人、玛丽小姐和同伴们见土人迷信到发狂，也便完全放下心来，他们一个个地钻进了墓室。

卡纳特德的墓室周围有很多涂着红色颜料的木桩。木桩上刻有很多象征性的图案，或者说木桩上刻着一些花纹，这些花纹表示死者的高贵和拥有的功绩。墓室里有成串辟邪的东西，这些辟邪用的物件有些是贝壳制作的，有些则是石头雕刻的。这些物品全都在木桩与木桩间悬挂，摇摇晃晃的。

墓室内部的地面上是地毯似的绿色叶子，墓室的正中心比其他地方高一些，高出的地方就是新挖成的坟墓。

卡纳特德的武器全都摆在墓室里，武器包括枪械，里面装着子弹和火药线，长矛，漂亮的绿玉斧头……以及大量的弹药。总之，这些武器足够卡纳特德在阴间打猎用了。

“这还真是个军械库呢。我们可以拿来作一番用处。土人死了竟然还要埋武器，而这些武器正好又帮了我们，他们想的真是太周到了。”巴嘉勒尔兴奋地说。

“哈哈……怎么会这样？这些枪可都是英国造的呢。”少校说。

“那是当然的了。把枪当礼物送给这些土人，真是太蠢了。然后他们又拿这些枪对着送他枪的人。不过，这次我不能不说这是对的，因为不管怎么样，这些枪对我们有用。”爵士说。

“不过，更有用的是为卡纳特德准备的食物和水。”巴嘉勒尔狡黠地说。

确实是这样，死者的亲友为死者准备了很多食物和水，以此表明他们对死者的尊敬。而墓室里堆放的粮食，足以让他们吃上个十天半月，或者说，这是留给死者的永远也吃不完的食物。

食物主要是植物，有凤尾草根，还有被土人称为“旋花芋”的甘薯，以及从欧洲移植过来的马铃薯。墓室里的大缸里装着清水，以及十多个编得很精美的篮子，篮子里装着用绿树胶做成的长方块东西。

因此，大家在这里完全不用愁吃喝，所以也准备毫不客气地大吃一顿。

于是，爵士拿出足够大家吃的东西，给奥比尔去加工。奥比尔是个非常讲究的人，即使在这种环境下，也不愿意让大家凑合着吃一餐。不过，面对这些东西，他又不知道该怎么加工，因为他根本没有火。

还是巴嘉勒尔有办法，他说只要把凤尾草根和甘薯塞到土里就行了，不用去管它。

确实是这样，地面上的温度都很高，更不要说土里的温度了。如果有温度计的话，他们一定会测出60到65度的温度来。也正因为如此，奥比尔的手差点被烫了。在他正烤着草根时，一股热浪突然冒出，喷出了两米高的距离，吓了他一跳。

“快把水龙头关上。”少校大声嚷嚷。两名水手急忙来帮忙，并将那坑堵住了。

此时，巴嘉勒尔却呆呆地看着那个地方，脸上露出了微笑，并自言自语地说：“嘿嘿！完全可以，怎么不可以呢？”

“有没有烫伤？”少校问奥比尔。

“没有烫伤，少校！真没想到……”

“没想到老天这么优待我们对吧！”巴嘉勒尔得意地叫了起来。

“现在我们有了卡纳特德的食物和水，还有火给我们烤！天啊！这里真是太好了，简直就是个天堂。我觉得，我们可以在这里建立一个殖民地，然后在这里住一辈子，做山上的鲁滨孙！真是太好了！我看这里任何东西都不缺。”

“没错，真是什么都不缺，如果地壳再硬一些就更好了。”麦盖尔说。

“还嫌这地壳不硬？这地壳可不是一天两天形成的，耐地心火力已经很久了。我觉得，在我们走之前，这里都不会有问题。”巴嘉勒尔说。

“吃早饭了！”奥比尔严肃地说，表情就和在麦凯莫府伺候主人一样。

大家马上来到了栅栏房，吃着那些近来他们常吃的救命的食物。此时，他们能吃的只有两种食物，不过在这种情况下，也没什么可挑剔

的。

对于凤尾草根的味道，每个人的看法都不一样。有些人觉得很甜，很好吃，但有的人却觉得没有味道。那热土里的烤甘薯，他们吃得很香。巴嘉勒尔因此说，卡纳特德很幸福，埋在这里还有这么好吃的东西。

吃饱喝足后，爵士提议大家商量逃脱计划。

“这就想走了？这么好的地方，急什么急？”巴嘉勒尔说，话语里满是不舍。

“巴嘉勒尔先生，这个地方虽然舒适安全，可我们也不能老沉迷在这里呀。”海伦夫人说。

“夫人，您都这样说了，我当然要遵命了！您要议，那就议吧！”

“我觉得，我们要想逃跑，必须等东西吃完再跑，这样我们的精力也就充沛了。而且我们不妨在今晚就设法跑到东边山谷去，然后乘黑暗穿过土人的包围圈。”爵士说。

“太好了！要是毛利人能放我们过去的话。”巴嘉勒尔说。

“要是不放我们过去呢？”麦盖尔问。

“那我们还可以想出妙计来。”巴嘉勒尔说。

“你有妙计？”少校问。

“妙到让你们谁都想不到。”巴嘉勒尔说完，便什么都不愿意说了。

他们只有等待，等天黑时，偷偷溜过土人的防线。

土人一直没有离开他们原来的地方，人数也在不断地增加，应该是后来又来了不少人。山脚下燃起了一堆堆的篝火，这些篝火形成了一个大大的火圈子。

在黑夜笼罩着四周的时候，孟伽纳木山如同从一个大火坑里冒出来，很快又消失在黑暗中。他们在坟墓里，听到了200米以下的土人在骚动、叫嚣、喧哗。

晚上9点钟的时候，天已经很黑了。爵士和麦盖尔决定在带领大伙儿从危险的山路上逃跑前，再去侦察一番。他们悄悄地跑了下去，大约走了10分钟路程的时候，到了那条窄窄的山脊上，而这山脊正好穿过土人的包围圈，并高出营地约17米。

直到这时，一切都还是非常顺利的。躺在火旁边的土人，根本没有注意到有两个人在逃跑，所以他们又多走了几步。突然，山脊左右两边同时响起了枪声。

“快往回跑！那些土人的枪法很准。”爵士说。

很快，他俩就爬上了山顶的陡坡，回到墓地后，安慰被枪声惊扰到的同伴。爵士的帽子上中了两弹，不过有了这个经历，他也就知道，在这条漫长的山脊处，到处都是土人战士，他们绝对不能冒这个险。

“还是明天再说吧！土人监视得太严了，我们根本就过不去。”爵士说。

天气很冷，幸好卡纳特德最好的衣服和最厚的被褥都在墓地里，所以每个人都不客气地裹在了身上。然后在土人迷信的保护下，安然入睡

了。由于外面有栅栏挡着，地下又有滚烫的蒸汽冒着，他们还有什么不放心的呢？

第四十六章 制造火山爆发

2月17日，孟伽纳木山墓地里的10个人被旭日唤醒。

山脚下的土人依然在山脚下疯狂地转来转去，气急败坏，视线始终不离开他们。一看褻渎了他们圣地的欧洲人出来，土人们便大声地叫嚣着。

大家向四周看了看，看见前后左右的山峰全都笼罩在晨雾中，晨风将导泊湖吹得波光粼粼。

大家都想知道巴嘉勒尔有什么绝妙的主意，便都围住了他，眼巴巴地看着他。巴嘉勒尔很快就满足了大家的好奇心，他说：“朋友们，我这个计划最大的好处就是，如果成功了，更好；如果不成功，最多还像现在这样，没什么改变。”

“到底是个什么样的计划？”少校问。

“我的计划就是：土人迷信的这座山既然能成为我们的避难所，那么我们还可以利用这种迷信逃出这座山。要是我们能让‘噬骨魔’和他的手下相信我们因为褻渎了这片圣地，受到了惩罚，让他们相信苍天将愤怒发泄到了我们头上……总之，让他们相信因为一场天祸，我们死了。你们想想看，这样的话，他们是不是就会离开这里，回到他们的城寨去？”

“那是当然了。”爵士说。

“可要怎样才能让他们相信我们死于非命呢？”海伦夫人说。

“很简单，我们让他们相信，我们被天火烧死了。朋友们，如今替天行道的烈火就在我们脚下，我们只需将这火放出来就行了。”巴嘉勒尔说。

“什么？你想制造火山喷发？”麦盖尔大惊道。

“没错，造一个人工火山。也就是一个临时性的火山，这个火山的火势可以由我们来控制。我们让蒸汽和地火冒出来，然后喷射出去就行了。”巴嘉勒尔又说。

“这个主意确实不错！非常好！巴嘉勒尔！”少校说。

“明白我的意思了吧！我们假装被新西兰的火神所放的火烧死了，实际上是躲在了卡纳特德的墓里……我们要等个几天，三天、四天或五天。总之，我们要让土人相信我们死了，然后在他们放弃围困我们时再离开。”

“要是他们爬上山来，看我们有没有受到天罚呢？”玛丽小姐说。

“不！绝对不会的！亲爱的玛丽，他们绝对不会这么做的。这山可是受了‘神禁’的。既然这山自动烧死了触犯‘神禁’的人，那么他们就更会遵守‘神禁’了。”

“很好！没有比这更好的办法了。不过，我怕那些土人一直在山脚下不走，我们这里的粮食又吃完了。不过这种可能性不大，特别是如果我们做得像的话，我想他们很快就会走的。”爵士说。

“那么这一招要什么时候开始执行？”海伦夫人问。

“今天晚上动手，夜里做最好！”巴嘉勒尔说。

“你真是个天才，巴嘉勒尔！我不是一个盲目乐观的人，但这次，我保证你能成功。那些坏蛋，让他们看看我们的表演吧，让他们迷信，让他们继续滞留100年！传教士千万不要怪我们，我们可是万不得已才这么做的。”爵士说。

巴嘉勒尔绝妙的计划被大家一致通过。

迷信的毛利人，利用他们这一点，一定会成功。爵士一行人现在就打算这么做了。

虽然设想得非常好，但要做成功并不容易。如果一个假火山，没弄好弄成了真火山怎么办？火山口被他们真正扒开又怎么办？那还不把他们一起吞下去？在蒸汽、火焰、熔岩一冒出来后，他们还能控制住火势吗？圆锥形的山顶，会不会整个都沉入火海？喷射地火是大自然的一个权利，可现在人却要利用这个权利了。

巴嘉勒尔显然预料到了这种情况，所以也便很小心谨慎地实施他的计划。首先，那火不能制造得太大，只需做出一个喷火的样子，骗骗土人就行了，不然真弄出个火山爆发，想必连他们自己都逃不掉的。

这一天，他们在焦躁中度过，等待着夜晚的来临，但却怎么都等不来。每个人都在算着时间，那一分一秒是那么难熬。

在将计划执行前的准备工作都做好后，他们又开始做逃跑时的准备工作。他们将墓室里的粮食分成了几份，打成一个个的小包裹，然后拿出几张草席、武器。当然，做这些工作的时候，他们都是躲在栅栏里进行的，没让土人看到。

6点钟的时候，奥比尔做好了一顿丰盛的晚餐，这可能是他们在这里吃的最后一餐。这顿饭过后，他们还不知要在深谷中逃亡多久，以后会在什么时候，什么地方吃饭都难说。所以大家为了预防将来的饥饿，都决定饱饱地吃上一顿。

有盘大菜放在了最中间，是隔水蒸熟了的老鼠肉。老鼠是维尔逊捉的，这也算是新西兰的名贵野味了。不过海伦夫人和玛丽小姐却死活不吃。男士们不管，和土人一样，大口大口地吃着。老鼠肉的味道不错，甚至可以说很美味。几只老鼠很快就被他们吃完了，只剩下一堆骨头。

黄昏来临，太阳那微弱的光也隐到了乌云后面，好像有风起云涌的样子。很快，天边电闪雷鸣。

对于这时候的电闪雷鸣，巴嘉勒尔非常开心。他说这就是为了协助他完成计划才出现的天气变化，是老天要帮他演这出戏。

自然界发生的这种天气变化，对迷信的土人来说，非常恐怖。因为新西兰人一直认为雷是大神卢伊·阿同发出的怒吼，电是大神愤怒的眼神。因此，雷电交加让他们觉得大神要来惩罚亵渎“神禁”的人了。

晚上8点钟的时候，山顶隐藏在了黑暗中。天空像是被拉开了一张黑幕，衬托着巴嘉勒尔即将制造的火光。

此时，毛利人已经看不到山顶上的这些欧洲人了，所以正是他们动手的时候。而且这事要做就要做得快，因此爵士、巴嘉勒尔、少校、罗伯尔、奥比尔和两个水手都来帮忙。

巴嘉勒尔把喷火口的地方选择在了离卡纳特德墓室30步远的地方。因为墓室是一定不能喷火的，这一点特别重要。如果墓室着了火，被烧

毁了，那么这座山的“神禁”也就消失了。

巴嘉勒尔选中了一块有着巨大岩石的地方，岩石四周冒出了热气。看来，这块大岩石的底下是山顶自然形成的小喷火口。由于石头太重，所以才压住了火没能喷发出来。如果此时把这块大岩石掀开，那喷火口就如同拔掉了塞子，蒸汽和熔岩也就喷出来了。

爵士他们几个急忙去墓室，拔出了几根木桩，用力撬开了那块大石头。最终在他们的协同作业下，岩石开始活动。同时，他们又为这块岩石在山坡上挖出了一条壕沟，以便让火沿着斜坡滚下去。他们把岩石撬得活动力越大，石头下的地面也就颤抖得越厉害。

隐隐有火焰奔腾着从热气沸腾的地壳下蹿了出来。胆大的爵士他们没有害怕，继续闷声工作，像神话里操纵地火的神灵一样。很快，岩石下出现了几条裂缝，裂缝里冒出了几股热气，这也预示着这个地方已经很危险了，他们只需一使劲，便能将那块大岩石翻起来，并从斜坡上滚下去。

薄薄的地壳发生了迸裂，炽热的气柱直冲云霄，沸泉和熔岩奔腾着向毛利人的宿营地及山下的沟沟坑坑滚去。

圆锥形的山尖开始整个颤抖，大家以为它正在向一个无底深渊陨落。爵士和同伴险些被喷射出的火焰灼伤，他们急忙躲到了墓室里。即使他们跑得很快，也被90多度的开水溅上了几滴。

火山口喷出了沸水，这沸水先是像蒸锅汽，接着又散发出了浓厚的硫黄味。

此时，泥土、熔岩和火山碎块全都成为炽热的一团，火焰在山腰上

奔流，划出了一条火铺成的路。附近的山峰全被这火照得透亮，深谷里也闪出强烈的光。

山脚下躺着的土人全部爬了起来，熔浆在他们四周沸腾，溅在了他们的身上，烫得他们大声号叫。没有被火烫着的，也都拼命向四周的丘陵逃跑。跑到一定距离后又回过头来，失魂落魄地看着那惊人的一幕。

他们看到了张着大嘴的火山，看到了愤怒的火神把亵渎圣山的人吞了下去。在喷射出来的熔岩和滚落下来的石头稍稍少了一些时，爵士他们听到土人们在念咒语：

“‘神禁’啊！‘神禁’啊！‘神禁’啊！”

此时，大量蒸汽、烧红的石块以及熔岩都从喷火口冲了出来，这已经不是沸泉了，这就是火山爆发，也直到此时，才是地火喷射最猛烈的时候。

火山喷发出现后，不到一个小时，白热的熔浆便在山腰上形成了一条白色的带子。大群老鼠从各个地方逃出，像无头的苍蝇般，只想尽快离开这个被烧焦的土地。

狂风刮了一整夜，暴雨如注。圆顶上一直在喷射地火，而且越喷越厉害，这让爵士担心起来，因为喷出的火焰已经将喷火口边缘都点燃了。可他们只能躲在栅栏后，盯着这可怕的火山爆发。

第二天清晨，火山爆发的猛烈程度仍然没有丝毫减弱，反倒有浓厚的淡黄色蒸汽，同喷出的火焰交织在一起，熔浆开始四处奔流了。

爵士用眼睛不断地瞟着各个地方，并扒开栅栏缝，观察土人的动静。

土人已经离开火山喷射范围，逃到附近的高地上去了。火山脚下，几具被烧成焦炭的尸体堆在那里。更远一点，靠近城寨的地方，熔岩已经将20多座草棚烧毁了，而且还在冒烟。土人东一群西一群，仰望着火光冲天的山峰，表现出惊恐，这种惊恐就来自于他们的迷信。

“噬骨魔”跑到了战士们当中，爵士很清楚地看到了他，发现他从没有火的山边走到了山脚下，却也没有走上前一步。

接着，他张开两只胳膊，如巫师念咒一般，对着这座山开始比画起来。他这么做的意思，大家很容易就猜出了。正如巴嘉勒尔所说，“噬骨魔”对这座能够替天行道的神山，又赋予了一种意义，“神禁”也更严厉了。

很快，排成一行的土人离开了，他们沿着曲折的小径，回到了自己的城寨。

“他们总算走了！感谢上帝！我们成功了！亲爱的海伦！我勇敢的同伴们，我们也算是死过、埋过的人了。今天晚上，我们要复活，然后离开这个地方，离开我们的坟墓，逃出野蛮人的部落。”爵士动情地说。

墓室里弥漫着的喜悦心情很难用语言表述，每个人的心里都对未来充满了希望。这些勇敢而坚强的人暂时忘掉了过去经历的种种失败，沉浸在了成功后的喜悦之中。此时的他们，根本没去想要逃出这荒凉之地，回到欧洲是件多么难的事。

他们虽然骗到了“噬骨魔”这个部落，难道就等于骗过了所有新西兰的土人部落吗？

他们没有想这些，只是在咒骂着毛利人。特别是少校，毫不掩饰对毛利人的鄙视，将所有他能说出的难听的话都用来形容毛利人。骂人的本领，巴嘉勒尔丝毫不比少校逊色，两个人比着来骂毛利人。

高兴归高兴，但要真正离开，还需要等一整天。所以在这段时间里，大家开始商议逃跑计划。巴嘉勒尔那被他视若宝贝的新西兰地图还在身上，所以他拿了出来，仔细地在地图上寻找着最安全的逃跑路线。

在经过了一番热烈讨论后，他们决定向东边的巴伦特湾走。从那里走要经过一段陌生区域，这些陌生区域看起来像是没有人居住。这群勇敢的人，对于大自然所制造的障碍并不害怕，他们最怕的就是遇到毛利人，所以一心想要避开他们去海岸。

在东海岸，有传教士在那里建的传教站，而且到目前为止，北岛部分区域是没有受过战争蹂躏的。所以土人的流动部队也不会搜索到那些地方。从导泊湖到巴伦特湾，差不多有160公里的路程，每天走16公里的话，也要走10天才能走到。

走这条路，吃苦是难免的，但对于这群勇敢的人来说，没有一个人嫌累、嫌苦。他们只要到了传教站，就能在那里休息了，而且也就有了更多的机会到奥克兰，因为他们最终还是要到奥克兰去的。

在做好路线决定后，大家继续观察山脚下土人的动静。晚上，山脚下已经没有任何土人了。在夜幕降临的时候，也没有任何篝火显示山下有土人。可以这么说，如今，他们是畅通无阻了。

晚上9点钟的时候，乘着黑夜，爵士发出了启程号召。大家拿上卡纳特德的粮食和武器，慢慢地开始下坡。麦盖尔和维尔逊走在最前面，仔细听着周围的动静，稍有风吹草动，他们就会停下来，一有细微的亮

光，他们就要侦察一下。

每个人都是在顺着山坡的坡势往下滑，避免被人发现。

走到离山顶70米的地方时，麦盖尔和维尔逊到了最危险的山脊，这里是土人在山脚下可以发射到的范围。毛利人是很狡猾的，会不会用假装退却来诱他们上钩呢？如果毛利人没有被火山爆发的骗局骗过去，并在这时候出现，那将是件非常可怕的事。

所以爵士虽然一直很有信心，但还是非常紧张，他的样子引起了巴嘉勒尔的嘲笑。走过这段山脊大约需要10分钟，可以说，整个队伍的安全，就在这10分钟里。海伦夫人紧张地抓着他的胳膊，他甚至感觉到了她的心跳。

尽管环境险恶，可他们没有一个人想要退缩。麦盖尔带着全体人员，在夜幕的掩护下，在狭窄的山脊上小心地爬着。有块石头碰了下去，滚到了山脚，麦盖尔停了下来。

如果山脚下有土人的话，异样响动一定会引起他们两边的疯狂扫射的。

狭窄的山脊上，爵士一行像蛇一样爬行着，当然速度很慢。在麦盖尔走到山脊最低点时，他离土人曾盘踞的平山顶还有不到8米远的距离。过了这里，山脊就更高了，坡也很陡，再向上走四分之一的路，便是一片矮树林了。

最低的山脊区域他们总算是走过去了，没有遇到任何危险和意外。接下来，爵士他们开始爬那很陡的区域，那片小树林他们是看不见的，但却知道在什么地方，那里只要没有埋伏，也就到了安全地带。

然而，他注意到，他们已经走出“神禁”范围了。那段上升的山脊是不属于孟伽纳木山的，这是耸立在导泊湖东面的山系，所以他们不仅要防止土人开枪射击，还要防止他们扑上来。

整整10分钟，爵士一行都是在缓缓地向平岭爬的。虽然麦盖尔没有看见那片矮树林，但他估计，矮树林应该在离他们70米远的地方。

突然，他停了下来，甚至往后倒退，他仿佛是听到了前面阴影里有什么声音。他的这个后退让后面的人也大吃一惊，大家都站着不动了。

大家就在惶恐中等待着，呼吸都不敢大声。此时此刻，一分一秒是那么的漫长。难道他们又要往回跑，跑到山尖上去？

声音没有再响，麦盖尔带着大家又继续往山脊的窄路上爬。

很快，矮树林模糊的影子出现在了他们面前，又走了几步，他们便进入那片矮树林了，所有的人都聚集在了一棵大树下，并蹲了下去.....

第四十七章 前后夹击

漆黑的夜晚，正是他们逃走的有利时间。他们必须趁着黑夜离开导泊湖这一区域，这是最危险的一片区域。

在他们一行人中，巴嘉勒尔担任向导，而在这险峻的逃行中，他一次又一次地依靠他那奇妙的旅行家本能，带着大家在黑暗中穿行。那几乎完全看不见的小路，他也能找到，甚至不会走错。

由此可以说，是他天生的夜视眼帮了他的忙，他那双猫一样的眼睛让他在黑夜里连最细微的东西都看得到。

东面有个斜坡，爵士一行走了整整3个小时。巴嘉勒尔故意稍稍向东南方向走，走到了凯马纳瓦山脉和华西梯连山之间的狭窄通道，这条通道是奥克兰到和克湾必经的道路。他打算过了山坳后就离开大路，并借着高山的掩护，穿过那段无人区，向海岸走去。

9点的时候，他们已经走了12个小时了——12个小时走了20公里路。没办法，他们无法要求在黑夜里，让两位坚强的女士走得更快。而且，此时好像很适宜他们夜宿。他们到了两大山脉之间的小道，右边就是通向伯兰的大路。

巴嘉勒尔一直拿着地图不撒手，在向东拐了个弯后，已经10点钟了。此时，他们到了一个峻峭的山口，准备吃饭休息。

他们拿出袋子里的干粮，大口大口地吃了起来。玛丽小姐和少校虽然不喜欢吃凤尾草根，但现在也开始大口嚼了起来，一行人一直休息到

下午2点。

他们又开始前行，这次向正东方走。晚上的时候，他们到了离山12公里的地方，开始露天睡觉。

这一晚，他们是在平静中度过的。

第二天，他们遇到了一些困难，因为他们走到了一片奇特的区域。这个区域到处是火山湖、沸泉和硫气坑，虽然让他们看到了很多奇观，风景也很美，但却走得很辛苦。

这段路程，每隔一段就有很多弯，这些曲曲弯弯的路无疑很难行走。

50平方公里的地方，热量以各种形式从地底下喷出。就连那透明的咸水泉，也从一丛丛茶树中渗了出来。咸水泉上有无数的昆虫在飞舞，泉眼里发出了刺鼻的气味，在地面上流出了一层沉淀物，白得耀眼。

从咸水泉里出来的水很烫，附近其他泉眼里涌出的水却是冰冷彻骨的。泉眼旁边有高大的凤尾草，这种只适合古代生物生长的环境，丝毫没有影响它们的郁郁葱葱。

地下喷射出的水就像公园里的喷泉一样，而喷泉涉及的范围，因为蒸汽的原因而四下缭绕。喷射出的水像是有神在操控，形状起伏，从一层层的天然平台流了下来，猛一看，真以为平台上安装了一个现代化水盘。当水被浇下去后，团团的白烟便慢慢地混合在了一起，将平台上半透明的阶梯全都侵蚀，有些像沸腾的瀑布里的水，因为倾入洼地而形成了大湖泊。

再远一点是喷泉的尽头，那里有很多硫气坑，所以也让那里的地面

冒起了很多泡泡。

同时，那里还有一些熄灭了一半的喷火石，喷火口留下的大裂缝，冒出了气体，这让空气中充满了刺鼻的亚硫酸气。硫黄凝结，形成硬壳或结晶块，铺得地面上到处都是。

这里幅员辽阔，但却一直被这么蕴藏、堆积，无人理睬。也许直到有一天，当西西里岛的硫黄矿都采完时，人们才会想到这片毫不起眼的区域。

一行人穿过障碍重重的区域，疲惫和辛苦可想而知。同时，在这里夜宿也非常困难，更重要的是他们即使拿着马枪，也没有遇到一只值得奥比尔来亲手烹制的鸟。所以在大部分的时间里，他们只能吃凤尾草根和甘薯。虽然这些食物无法恢复他们的体能，却可以让他们不至于饿肚子。

种种不利局面让他们急着要走完这片荒地。

当然，想要绕过这片荒地也不容易，他们至少需要花费4天的时间。2月23日的时候，他们离孟伽纳木山已经有80公里了。爵士一行人就在山脚下夜宿。这座山巴嘉勒尔的地图上虽然有，但却没有标注名字，而他们眼前展现的是一片灌木丛生的平原，再远一点还有一片森林。

这让他们非常高兴，不过他们并不希望这个适宜人居住的地方有太多居民，因为土人让他们感到恐惧。好在到目前为止，他们连一个人影都没有看到过。

这天，少校和罗伯尔打了三只小雏鸟，三只小雏鸟也就成了他们这

天餐桌上最抢手的食物。

边吃边聊天的众人，在吃甘薯和马铃薯时，巴嘉勒尔有个提议，而这提议一经他提出便受到了大家的热列赞同。他提议把那座高入云霄，还没有名字的山叫格莱拉弗，甚至还庄重地将名字写在了他那张地图上。

自此以后，他们旅途中的一些单调枯燥的细节也就不再细说了。

一行人在森林和平原上行走，麦盖尔根据太阳和星星的位置，测定着方向。幸好这几天的天气不是很热，也没有下雨。不过经历了千辛万苦的爵士一行却越来越累了，越累就走得越慢，越慢就越心急，他们急着到传教站去。

一路上，虽然他们还是会聊天，但已经不再是聚在一起聊了。他们自动地分成了几组，分组不是从情感分，而是从思想上分。

很多时候，爵士都是一个人默默地朝前走着，越靠近海岸，他就越会想起“邓肯号”，想起“邓肯号”上的船员。在抵达奥克兰之前，还是可能遇到很多危险的，但此时他却把所有的危险都抛在了脑后，他又想起了船上那些遭到残害的水手们，那惨杀的画面不断地浮现在他的脑海，怎么都挥之不去。

大家也没再谈起格兰特船长，因为既然没法再去救他，谈了又有什么用？如果说他的名字会被人提起的话，那一定是格兰特的女儿玛丽小姐和麦盖尔之间的谈话了。

麦盖尔并没有向玛丽小姐再提起过他们被关到土人草棚里时，她对自己说的那些话。生死关头说的话，他不想把它当成是正式的诺言。

他向玛丽小姐谈起了格兰特船长。他仍然没有忘记要寻找格兰特船长，他甚至还向玛丽小姐保证：阁下将来一定还会继续寻访的。

他说，格兰特船长那三张纸条绝对是真的，不容怀疑。所以格兰特船长一定还活着，即使找遍全世界，也一定要找到。玛丽小姐听到这话时，完全陶醉了。他们就被这样一个决定紧紧地连在了一起，思想也融为一体。

对于这个话题，海伦夫人也会时不时地参与进来，虽然她对找到格兰特船长没有抱多大希望，但却不愿让这对年轻人扫兴，更不想让他们失望。

一行人中，少校、罗伯尔、维尔逊和穆纳经常一起去打猎，不过打猎也不会离队伍很远，打猎时，每次都会获得若干野味。

巴嘉勒尔和其他人都不一样，他一直裹着那件弗密翁外衫，独自在一旁默默地思考着什么。

当然，有句话是一定要说明一下的。虽然根据自然规律，处在苦难、危险中的人性格会发生变化，变得烦躁自私，但爵士一行，这些共患难的朋友却始终是精诚团结的，为了大家，甚至会不惜生命。

2月25日，他们被一条河挡住了去路，那就是巴嘉勒尔地图上标注的隈卡利河。最终，他们找到了一个浅滩，徒步过去。

此后的两天里，他们走的是一个接一个的灌木平原。导泊湖和海岸间的路程，他们已经走了近一半了，虽然很累，却也没有遇到什么意外之事。

不过走着走着，他们面前出现了一望无际的森林，这片森林给人的

感觉有些像大洋洲的森林，不过这里没有桉树，有的是“高利”松。

四个月的旅行虽然让他们欣赏美景的心情少了很多，但一看到可以和里班古柏、加利福尼亚“巨树”相媲美的“高利”松，他们仍然惊叹不已。“高利”松又名“脂胶”松，光分枝下的树干就有30多米。这些“高利”松一棵棵地长着，彼此间并不相连。因而让整片森林都由单棵树，而非树丛组成。

这些树的顶上像是撑起了一把绿伞，一下子伸向天空300多尺高。

“高利”松的树龄看起来并不大，只不过上百岁的样子。所以也有些像欧洲的红松，有着深绿色圆锥形的王冠。不过，和红松不一样的是，绿色花盖下是无数交叉着的枝丫，这些新西兰最大的树，有些足有17米粗，爵士一行张开胳膊合围都抱不过来。

他们就是在这样的树丛里钻了三天，从没有人走过的黏土地上走过。由此也可以看出，没有人在这里生活。“高利”松的脚下堆积着厚厚的松脂，如果松脂能输出的话，想必是运也运不完的。

爱打猎的几个人还在这里看见了很多几维鸟，这种鸟在毛利人常去的地方是根本看不到的。看来，它们是被毛利人的猎狗赶到了这没有人烟的森林里。当然，它们也给爵士一行提供了丰富的、有营养的野味。

突然，巴嘉勒尔看见密林里有一对飞禽，他立刻警觉起来。他叫上少校和罗伯尔，三个人不顾疲劳，朝两只飞禽追去。

大家对他强烈的好奇心很不理解。其实，他是认出了那对鸟。那是一对陌花鸟，属于恐禽类，也就是被博物学家认为早已灭绝的鸟。不过，霍兹特陀先生及一些旅行家说这种鸟在新西兰还有。所以当他在

时此地看到这种鸟时，也就证实霍兹特陀先生和那些旅行家是对的。

巴嘉勒尔所追的两只陌花鸟是和大懒兽、翼手龙同时代的生物后代。这些鸟是一种超大鸵鸟，有6米多高。胆子小却跑得快的陌花鸟在枪弹下能速度很快地飞奔，所以他们三个人在追了几分钟后，见陌花鸟消失在大树后面不见了，也就只能作罢。

3月1日这天晚上，爵士一行终于走出了森林，在尹吉兰基山脚下夜宿。这座山有2000米高。此时，他们从孟伽纳木山到这里也已经走了有160公里了，还有50公里路程就能到海岸了。

麦盖尔原本希望这段路能在10天内走完，没想到却遇到了很多困难。

真是这样，他们沿途走了很多冤枉路，遇到了很多障碍，再加上测算得不是十分准确，实际的路程远比他们估计的要多出五分之一的路程。所以当他们走到这个山脚下时，全体成员已经累得筋疲力尽了。

还有两天才能到海岸，现在大家亟需打起精神，提高警惕，因为他们又要走到毛利人常去的地方了。因此，大家顾不上疲劳，在第二天太阳一上山便又出发了。

在将右边的尹吉兰基山抛在后面后，他们左边又有一座高1200米的哈带山。两山之间的路很难走。虽然是十来公里的平原，但上面却长满了熊柳，熊柳的枝条非常柔软，又被称之为“窒息藤”。

因此，他们每走一步，手、胳膊和腿就会被这些熊柳缠住。这些枝条像一条条的长蛇，弯弯曲曲地缠绕在他们身上。两天里，他们一边开路一边前进，和“蛇”进行着搏斗。这种会缠人的枝条非常坚韧，巴嘉勒

尔差点想把它列入“植虫科”去。

在这样的平原，打猎显然是不可能的，所以爱打猎的几个人也便没有了用武之地。身上携带的粮食已经被他们吃完了，又没办法补给，淡水也很缺，大家越走越累，又饥又渴，简直到了苦不堪言的地步。

从出发到现在，这应该是他们最狼狈的时候。

他们已经不是在走路了，而是在拖着腿向前挪，每一步挪得都那么艰难。他们像是一群失去了灵魂，只剩下躯壳的肉体；失去了五官，只是本能地朝前走着。最后，他们终于挪到了约廷尖，也就算是到达了太平洋海岸。

突然，他们看到了几座草棚，那草棚一看就是遭受战争灾难后的一个村落，附近的田地已经荒芜了，到处都是焚烧和抢掠过的痕迹。就在这里，爵士一行又将接受一场生死考验。

当他们沿着海岸艰难地往前挪的时候，离海岸1公里远的地方，有一队土人挥舞着手里的武器，向他们冲来。爵士一行已经到海边了，想跑也无处可跑，只好决定和土人来个殊死搏斗了。正这么想的时候，麦盖尔大喊：“快，那里有只小艇，我们上小艇。”

没错，离他们不到20步远的地方，有一只独木舟，舟上还有六把桨。爵士一行看到它，就像看到救命稻草一般，冲了过去。

在将它推到水里后，一行人就跳了上去。麦盖尔、少校、维尔逊、穆纳划桨，爵士掌舵，两名女士及奥比尔、巴嘉勒尔、罗伯尔则躺在他们身后。

只用了不到10分钟，独木舟就在海面上走了四分之一海里了。海面

很平静，大家也都默默无语。不过，麦盖尔不愿意离海岸太远，决定沿着海岸向前划，但就在这个时候，他拿桨的手停下了。

原来，又有三只独木舟从约廷尖那里划了过来，舟上坐的是土人，显然是要追他们的独木舟。

“快！往大海里划！往大海里划！宁肯沉到大海里也不能让他们捉住。”麦盖尔大喊。

四把桨一齐用力划，独木舟转向了海中心。差不多半个小时后，他们的舟和追他们的舟便保持了相同的距离。不过过了没多久，他们便划不动了，速度也慢了下来。而后面追他们的小舟却划得越来越快，距他们已经不到两公里了。

看来，想要逃避土人的攻击是不可能了，土人带着枪，肯定是要向他们开火的。

此时，爵士在做什么呢？他站在小舟的尾部，向天边看着，似乎正期望着什么。他在期望什么？能实现吗？又或者是不是他有什么预感？

突然，他的眼睛亮了一下，接着伸出手，指着远处一个点说：“有船，有一只船！朋友们，那里有船，我们快划呀，快划！”

四个划桨的人没有一个人去看那让他们重拾希望的船，他们只是拼命地划着，一点都没有放松。不过巴嘉勒尔却爬了起来，拿出他的望远镜朝那个黑点看去。

“确实是一只船，还是一只汽船。正开足马力往前跑，看样子是向我们这个方向开来。伙伴们，快划呀！”巴嘉勒尔兴奋地说。

划桨的人又加了把劲，差不多半个小时后，他们和追他们的舟又保持了原来的距离。而那只被他们视为救命稻草的汽船离他们越来越近了，已经能够看得清楚了。当那两根落了帆的桅杆和大团的黑烟冒出来时，爵士将舵一下子扔给了罗伯尔，抓起巴嘉勒尔的望远镜看了起来，他看得很仔细。

突然，他脸色苍白地站在那里，一脸紧张，望远镜从他的手里掉了下去。麦盖尔和伙伴们看到他这个样子，也不知道发生了什么。

为什么他显得那么绝望？

“那是‘邓肯号’！‘邓肯号’！坐着流犯的‘邓肯号’！”爵士的一句话完全解释了他神情变化的原因。

“没错！是‘邓肯号’！”麦盖尔也叫了起来。他丢下桨，站起身来。

“看来，我们面对的是死路一条。前后夹击。”爵士自言自语道。

是的，是那条汽船，是被流犯抢了，做了海盗船的汽船！

少校仰头看天，大骂了一句：“怎么这么倒霉啊！”

此时，没有人再去划独木舟，只任由它在海面上漂。因为他们已经不知道该向什么地方划了，他们无路可逃了。前面是海盗，后面是土人，他们逃不掉。

突然，“砰”的一声枪响。追过来的土人向他们开枪了，正好打在维尔逊的那只桨上，桨又动了几下，独木舟更靠近“邓肯号”了。

“邓肯号”正开足马力往这里驶，和他们只有不到半海里的距离。麦

盖尔在腹背受敌中，已经不知道该怎么办了。他不知道该向什么地方逃。两名可怜的女士吓得魂不附体，跪在小舟上祷告。

土人的枪弹更密集地扫射过来。这时，随着轰的一声响，“邓肯号”上的炮弹从他们的头上飞过，他们被枪炮夹击，看来只能束手就擒了。

麦盖尔绝望了，他抓起一把斧子，想要把小舟砍个洞，然后让一船人随着小舟一起沉入海底，但却被罗伯尔的一声大喊制止住了。

“快看，是汤姆·艾撒汀！是汤姆·艾撒汀！是他在船上！我看见他了！他也看到我们了，他在挥帽子，和我们打招呼呢！”

麦盖尔高举斧子的手停在了半空。

第二颗炮弹又从他们头上飞过，将追他们的三只独木舟中的第一只打成了两截。同时，“邓肯号”上发出了“乌拉！”声。土人慌了，扭头就向海岸划去。

“快！快来救我们！救我们！汤姆！”麦盖尔大喊。

就这样，这群倒霉鬼就这么离奇地回到了“邓肯号”上，一切都是那么富有戏剧性！

第四十八章 意外出现的“邓肯号”

爵士一行的耳朵里，响起了熟悉的、古老的苏格兰音乐。此时他们的心情，完全无法描述，一切都像做梦一样。当他们踏上“邓肯号”的甲板，听风笛手吹起风笛，奏着麦凯莫府的传统族歌时，船员们用他们热烈的欢呼声欢迎着船主他们归来。

爵士、麦盖尔、巴嘉勒尔、罗伯尔甚至连少校都激动得说不出话来，眼泪在眼眶里打转。他们互相拥抱，一阵狂欢。

巴嘉勒尔像疯了一样，在甲板上乱蹦乱跳，同时还把他不离身的大望远镜当成枪，瞄准了向海岸逃去的土人的独木舟。

不过，船上的人员在看到爵士一行衣衫褴褛，面色黑黄后，便知道他们一定受了很多苦，所以也就停止了欢呼。

三个月前，他们满怀希望去寻找格兰特船长和两名船员，现如今，他们一个个像鬼一样，逃回了船上。

对他们来说，这艘船他们早就不抱希望了，早就做好打算，再也不见它了，可他们却鬼使神差地重新回到这艘船上。这完全是偶然。而当他们回到这里时，却又是那么狼狈，那么憔悴，完全是一副九死一生的样子。

而此时，爵士忘记了饥渴，他问汤姆·艾撒汀，怎么会跑到这一带的海面上来。

确实很奇怪，“邓肯号”怎么会出现在新西兰东海岸的？怎么没有落到本·吉奥兹手里？是什么指引这只船来到了绝望的他们面前？这一切都是个谜。

为什么？怎么会？大家全都用这句话开头，向艾撒汀提问。这位忠厚老实的老船员在不知道听谁的，最先回答谁的时候，最终决定先回答爵士的问题。

“流犯呢？那些流犯去哪儿了？你们是怎么应付过去的？”爵士问。

“流犯？”艾撒汀疑惑地问，他显然不知道爵士说的是什么。

“对呀！抢劫游船的那些混蛋呀！”

“抢劫游船？什么游船？您的‘邓肯号’吗？”

“当然是‘邓肯号’啦！汤姆，那个船上的本·吉奥兹呢？”

“什么本·吉奥兹？我不知道这个人，也没看到过他。”艾撒汀越听越糊涂。

“什么？从来没有？”爵士大叫，他也糊涂了。

“汤姆，那我问你，为什么‘邓肯号’来到了新西兰东岸的外面？”

艾撒汀一副大吃一惊的表情，这让爵士、海伦夫人、玛丽、巴嘉勒尔、少校、罗伯尔、麦盖尔、奥比尔、穆纳、维尔逊也大吃一惊。在等汤姆·艾撒汀平静地说出下面一句话时，大家惊愕万分。

艾撒汀说：“遵照您的命令，‘邓肯号’才来到这里的。”

“什么？遵照我的命令？”

“没错！爵士，您在1月14日给我的一封信中，嘱咐我这么做的。”

“什么？快！快把信拿来给我看！”爵士觉得不可思议。

此时，10个回到船上的旅行者们都围住了可怜的艾撒汀，目不转睛地看着他。原来，是那封从斯诺威河写的信把他们送回到了“邓肯号”上。

“到底怎么回事？快点说清楚，我是在做梦吗？你真的收到了一封这样的信，汤姆？”

“是的！是收到了您的一封信。”

“在什么地方？墨尔本？”

“对！是在墨尔本收到的，就是我们将船修好的时候，收到了您的一封信。”

“信呢？”

“信是您亲自写的，爵士，我看到您的亲笔签名了。”

“是的！那封信是一个叫本·吉奥兹的流犯送给你的吗？”

“不，是一个叫阿埃童的水手送给我的。他曾在‘大不列颠号’船上当过水手长，信就是他送给我的。”

“对！没错！阿埃童，本·吉奥兹，他们就是一个人。这事先放下，我问你，那封信里说了什么？”

“信里您命令我立即离开墨尔本，到……”

“难道信里不是说在澳大利亚东海岸？”爵士着急起来，艾撒汀更茫然了。

“怎么会是澳大利亚东海岸？不是呀！上面写着新西兰东岸呀！”他说的时侯，两只眼睛瞪得圆圆的。

“不是！是澳大利亚东海岸，汤姆！写的是澳大利亚东海岸，不是新西兰！”大家异口同声地说。

艾撒汀的大脑轰的一声，差点晕过去。爵士说得那么肯定，想必是自己把信看错了。原本忠厚老实的老水手，怎么会犯这样的错误呢？他的脸腾地红了，心里也更慌了。

“不要慌，汤姆，这一定是天意！”海伦夫人安慰他说。

“不！夫人，请您原谅我！不对！千万不要原谅我！可我没有看错信呀！阿埃童看信上的地方也和我看见的一样啊。而且还是他，他要我把船开到澳大利亚东海岸去。”

“是阿埃童要去澳大利亚东海岸？”爵士又问。

“对！他要我去！还说信里的地方写错了，说你要我到杜布湾去和你们会合。”

“信还在吗，汤姆？”少校问，他也糊涂了。

“在，少校先生！我马上去拿。”

艾撒汀去前甲板他的房间拿信去了。在他走开的1分钟内，大家全

都你看看我，我看看你，很是惊讶。只有少校紧紧地盯着巴嘉勒尔，双手环抱说：“哼！巴嘉勒尔，看来不得不承认，这错误犯得有点大啊！”

“什么？”巴嘉勒尔茫然地弯腰低头，额头上挂着的眼镜如同一个大大的问号。

艾撒汀拿来了那封由巴嘉勒尔代笔，爵士署名的信。

“您看看吧！”艾撒汀说。

爵士接过信念了起来：“令汤姆·艾撒汀速速起航，将‘邓肯号’开到南纬37度线横截新西兰东海岸的地方……”

“什么？新西兰东海岸？”巴嘉勒尔大叫起来。

他一把将那封信从爵士手里抢了过来，揉了揉眼睛，随即又把眼镜从额头拉到了鼻梁，仔细地看。

“写的真是新西兰！”他喃喃道，信从他的手里滑到了甲板上。

此时，有只手搭在了他的肩上，他回过头，和少校正好好面对。

“我的好巴嘉勒尔！还算不错，最起码‘邓肯号’没去印度！”少校说的时候，脸上的表情很严肃。

这玩笑引得全体船员大笑，笑得前仰后合。巴嘉勒尔的脸上有些挂不住了，疯了一样在甲板上走来走去，然后抱着头抓头发。他不知道自己在做什么，也不知道在想什么，他机械地跑下楼舱梯子，跑到中甲板上，像喝醉了般摇摇晃晃地走着，没有任何目标。

随即，他又爬到了前甲板，在前甲板上，他的脚突然绊在了一捆缆

索上，如果不是他速度很快地抓住了一根绳子，他一定会摔倒的。

接着，大家听到了轰的一声震响，前甲板上的那尊炮响了。霰弹打在了平静的海面上，让海面沸腾起来。原来，慌张的巴嘉勒尔抓住了炮上的绳子，由于炮里是装着弹药的，所以绳子一动便将扳机触到了火药引子，引起了爆炸。巴嘉勒尔因为这一震，也从前甲板的梯子上滚了下来，一直滚到了水手间，不见了。

炮声惊得大家又是一张慌乱，以为出什么事了。10名水手一下子奔到了中甲板下，将巴嘉勒尔抬了出来。此刻，他的屁股朝下，头和脚并到了一起，仿佛人被折成了两段。

巴嘉勒尔没说话，水手将他长长的身躯扛到了楼舱里，就那么摊在甲板上。所有的人都为他担心。少校每到有人受伤时，便成了医生，所以立刻准备给巴嘉勒尔脱衣服，看他伤到了什么地方，并要为他裹伤。

但就在少校给他脱衣服时，他像触电般地突然坐起。

“不！不能脱！千万别脱！”他大嚷着，将那套破衣服重新拉回身上，然后扣起来，紧张得有些反常。

“衣服总要脱的呀，巴嘉勒尔！”少校说。

“我说不脱就不脱！”

“我只是想检查一下……”

“不用检查！”

“说不定身上哪里摔……”少校又说。

“你是说摔断了吗？要是摔断了，让木匠来修一下就好了。”他说完，两条长腿一蹦，自己站了起来。

“叫木匠来修什么？”

“修中舱的支柱呀，我不是把支柱摔断了吗？”

大家又是一阵哄堂大笑。这一次笑得更厉害了，比任何一次都厉害。不过他这一说话，大家也都放心了，说明那可敬的巴嘉勒尔在刚刚的触炮摔跤中，没受什么伤。

“即使这样，这位地理学家也一定觉得很害臊！”少校想。

“巴嘉勒尔，现在你老实坦白，我知道你的粗心大意都是老天的安排。因为不用说，如果不是你写错了，‘邓肯号’一定就落到海盗手里了。而如果不是你，我们肯定又被土人抓去了。所以看在上帝的面上，请你告诉我，是什么样的离奇联想，让你鬼使神差地将‘澳大利亚’写成了‘新西兰’？”爵士认真地问。

“这……这不简单吗？那……”巴嘉勒尔吞吞吐吐地说到这里，看了看罗伯尔，又看了看玛丽小姐，说不下去了。接着又说：“没办法！亲爱的爵士，我就是个稀里糊涂的人，就是个糊涂蛋，一辈子都改不掉的荒唐。我死都改不了粗心大意的毛病……”

“除非你把你那张皮剥掉。”少校突然说。

“剥我皮？什么意思？”巴嘉勒尔突然气势汹汹起来。

“什么什么意思？我没什么意思啊？你是指什么？”少校反问道，语气很平缓。

话就说到这里，没再继续进行下去了。

“邓肯号”为什么会到了新西兰解释清楚了。那几位像做了一场梦般的人，也不再想别的事，他们都想去房间里舒舒服服地休息一会儿，然后吃饭。

此时，爵士和麦盖尔等海伦夫人、玛丽、少校、巴嘉勒尔和罗伯尔以及其他人都进了楼舱后，把艾撒汀留了下来，他们还有事要问他。

“汤姆，现在有事我要问你。在你接到我的命令，说到新西兰海岸附近时，有没有觉得奇怪？”爵士问。

“是觉得奇怪，而且非常奇怪。爵士，不过我对接到命令，从来不会说什么，只照指令做事就行了。如果我自作主张，不照指令做事，出了问题，不就是我的事了吗？即使您处在我的位置，应该也会这么做的吧，船长？”艾撒汀说。

“没错，我也会这么做的。”麦盖尔说。

“那么当时你是怎么想的？”爵士又问。

“怎么想的？爵士，我当时就想，为了找到格兰特船长，您才让我到指定的地点来。我想您一定是有了安排，另有船载您去新西兰，所以才要我们到新西兰东海岸来接您。而且在离开墨尔本时，我对船要到达的目的地一直是严守秘密的，等船开到大海，大洋洲的陆地都不见了，我才向大家说。而那时候，船上还出了一些小风波呢，我当时也有些为难。”

“什么风波，汤姆？”爵士问。

“开船的第二天，阿埃童知道了我们要去的目的地……”

“阿埃童？你是说他还在船上？”爵士大叫道。

“是的，还在船上，爵士！”

“阿埃童还在？”爵士又说了一遍，看了看麦盖尔。

“真是老天有眼啊！”麦盖尔说。

只用了一会儿时间，阿埃童的所作所为，以及他的长期预谋、爵士受伤、穆纳的被狙击、一行人在斯诺威河那带的沼泽地所受的困苦……总之，阿埃童的所有行为，全都呈现在了爵士和麦盖尔面前了。没想到，事态发生了想象不到的逆转，流犯竟然又落到了他们手里。

“他现在在什么地方？”爵士问。

“在前甲板下的一个房间里，我派人监视他了。”

“为什么关他？”

“当他知道船是开到新西兰后，大发脾气，并威逼我更改航向，甚至鼓动船员反叛。我意识到他是个危险的家伙，就对他采取防备措施了。”

“最后呢？”

“之后，他就一直待在他的房间，自己也不想出来。”

“太好了，汤姆！”

之后，爵士和麦盖尔便被请到了楼舱，他们最渴望的丰盛晚餐已经准备好了。坐在方厅餐桌里的他们，一开始并没有提到阿埃童。

不过，当饭吃完，大家恢复了精神，再次聚到甲板上时，爵士把阿埃童被扣在船上的事对大家说了。同时，他还说他准备把阿埃童叫到大家面前来审问。

“我能不参加吗？老实说，我亲爱的爱德华，我一看见他就难过！”海伦夫人说。

“这场对质非常重要！海伦，留下吧！我一定要让本·吉奥兹亲眼看到，他又面对面地站在了我们全体受害人的面前。”

海伦夫人答应了。

玛丽和海伦夫人坐在了爵士右边。爵士的左边是少校和巴嘉勒尔、麦盖尔、罗伯尔、维尔逊、穆纳、奥比尔、艾撒汀……也就是说，所有曾差点被阿埃童陷害丢掉性命的人，全都在这里。当然，船上的其他人不知道这一幕的重要，都保持着沉默。

“带阿埃童过来！”爵士大声说。

第四十九章 打动罪犯阿埃童

阿埃童走了出来，穿过中甲板，走上了楼舱的梯子。

眼神黯淡无光的他，牙齿紧咬，拳头紧握，神色中既没有傲慢，也没有受到屈辱的愤慨。他走到爵士面前，双臂环起，一声不响地站在那里，显得淡定而又坦然，没有丝毫的恐惧和慌张。

“阿埃童，我们又见面了。在‘邓肯号’，也就是你想送给本·吉奥兹那帮流犯手里的船上，我们又见面了！”爵士目不转睛地盯着他说。

阿埃童的嘴唇微微动了动，面无表情的脸上突然泛红。这红不是忏悔，不是尴尬，而是没有成功的愤怒。原本想做这艘船的主人，结果却做了这艘船的罪犯。而不久后，他的命运也会在这艘船上被裁决。

不过此时，他没有说话。爵士耐心地等着，但他仍将嘴巴闭得紧紧的，一句话都不说。

“为什么不说话？阿埃童？难道你没什么话说？”爵士忍不住又问。

阿埃童皱了皱眉，连同额头的皱纹都密集地皱了起来，随后，他从容地答道：“没什么好说的，爵士！是我自己计划不周密，被人抓个正着，您想怎么样就怎么样吧！”

这句话说完后，阿埃童又不说话了，他漠不关心地将眼睛转向西边海岸，好像已经决定将周围发生的一切都抛在脑后。看他的神情，仿佛完全与此事无关。不过爵士还是忍耐着，因为他想知道阿埃童的历史，

特别是与格兰特船长和“大不列颠号”相关的那段历史。因此，他竭力压制住内心的怒火，继续审问下去。

“我有几个问题，我想你总不会拒绝回答吧，阿埃童！首先，我知道，我是叫你阿埃童好呢还是叫本·吉奥兹好？你到底是不是‘大不列颠号’上的水手？”

阿埃童像是没有听到他说的话，不动声色地望着海岸。

爵士继续问着，心里也着急起来。

“你为什么要离开‘大不列颠号’？为什么跑到大洋洲来？”

对方依然一言不发，脸上也没有丝毫表情。

“听我说，阿埃童，我希望你主动坦白，因为这才是你的唯一出路。我最后问你一次，你愿意回答我提出的问题吗？”

阿埃童把脸转向了爵士，并紧紧盯着他的眼睛，毫无惧色：“爵士！我无话可说，我有没有罪，还是让法院来证明吧！”

“证明你有罪你觉得难吗？不，太容易了！”爵士说。

“容易？爵士，我觉得这话说得太早了吧！我敢说，就是伦敦最好的法官也拿我没办法。格兰特船长都不在这里，您说有谁能说我为什么来大洋洲？警察没有抓住我，我的同伴也没人落网，那么谁能证明警察缉拿的本·吉奥兹是我？没有，没有人知道，除了您。又有谁能说出一个犯罪事实来？不要说犯罪事实，就是可谴责的行为也没有。谁能肯定地说我想劫取这艘船当海盗船？谁能说？有证据吗？没有！听清楚了，爵士，没有任何人！您现在对我有怀疑是吗？好，您定我个罪，有确凿

证据的罪，您有吗？没有！所以在提出证据之前，我始终都是阿埃童，我是‘大不列颠号’上的水手，不是什么犯人本·吉奥兹。”

阿埃童在说这些话时有些激动，但很快又恢复了平静和淡然。他一定觉得这样的一番话会结束这场审问，不过爵士还是问了下去。

“阿埃童，调查你的犯罪证据不是我的事。我们现在所抱的立场希望你能清楚，我不会说你所犯的罪行，那些事法官会问你。我只是在找人，你知道的，我只是要你说一句话，很可能就能把我们找错的路线纠正过来，好吗？”

阿埃童没有丝毫犹豫地摇了摇头。

“格兰特船长在什么地方？告诉我好吗？”爵士仍然执着地问。

“不！我不会说的，爵士！”

“那你能告诉我‘大不列颠号’失事的地点吗？”

“不！我不会说的。”

“阿埃童，帮帮那两个可怜的孩子，如果你知道格兰特船长在哪里说的话。那两个可怜的孩子就等着你一句话啊！”爵士恳求道。

阿埃童犹豫了，他的脸抽搐了一下，低声说：“不！我不能说！爵士！”

说完，停了一下，又很暴躁地大声吼道：“不！我不说，我是不会说的。你叫人吊死我好了。”

阿埃童补充的这句话，像是为自己刚刚很可能出现的心软而愤怒。

“什么？吊死？”爵士也怒不可遏，吼道。

吼完后，他深吸一口气，控制住自己的情绪，用庄重的语气说：“阿埃童，这里没有法官，也没有刽子手，在船到了码头后，我就把你交给英政府，他们会知道怎么处置你！”

“我要的就是这个结果。”阿埃童平静地说。

之后，他便又回到了临时拘留他的那个房间，两名水手在外面监视着他的一言一行。而这次审问，也让在场的人都感到愤慨和失望。

爵士没有办法说通阿埃童，他还能怎么做呢？很显然，他现在只能根据原来的计划，回欧洲了。此次寻访的失败，也只能等以后找到线索再进行了。因为照现在的情况，“大不列颠号”的踪迹已经找不到了，三张纸条上也没有任何可寻找到的线索，甚至37度线上的陆地也已经没有了，所以“邓肯号”只能开回欧洲。

爵士在和同伴们经过一番商议后，又和麦盖尔谈了谈回航的事情。麦盖尔看了一下煤仓，发现存煤最多只能烧半个月，所以他们必须在最近的中途站补充燃料。

麦盖尔建议将船开到塔耳卡瓦诺湾去，在补充了燃料后，再做环球旅行打算。由于从这里到塔耳卡瓦诺湾也在37度线上，而且是直航，所以补充完必需品后，就可以绕过合恩角，从大西洋航线回苏格兰了。

这个计划被大家接纳了，所以麦盖尔又马上命令机械师加大气压。半小时后，他们的船头方向指向了塔耳卡瓦诺湾，一路上太平无事。晚上6点钟的时候，新西兰最后的山峰已经在天边的雾气中隐去了。

这就是说，他们要归航了。

对于这群勇敢的人来说，回格拉斯哥港却没有带回格兰特和他的两名船员，多少有些让他们扫兴。出发时，大家欢天喜地，满怀信心。可现在要返回欧洲，这让他们有种打了败仗的感觉，一个个都垂头丧气起来，没有一个人因为要回到家乡而兴奋。为了找到格兰特船长，他们每个人都愿意去冒险，即使时间拖得再长他们也心甘情愿。

所以全船船员仅在见到爵士他们一行回船时“乌拉”过，之后便一直无精打采。船上的客人们也都没有像从苏格兰出发时那样谈笑风生，每个人都躲在自己的房间，甲板上很难看到有人。

当然，这些人中，有一个人把这种悲情情绪表现得更加夸张，这个人就是巴嘉勒尔。

平时，他怎么都会从绝望的信息中找到一些希望，可此时，他也一直愁眉苦脸，默不作声，大家很少看见他。

这个生来喜欢说话，有着法国人特有活泼性格的他，现在却变得沉默和沮丧起来，甚至比船上任何人都伤心。在爵士谈到再次寻访时，他总是摇摇头，很是绝望，好像已经把“大不列颠号”上遇难船员们的命运知道得清清楚楚了，大家也觉得他深信几名船员已经没有活在人世了。

不过，船上还有一个人，原本可以说出“大不列颠号”失事的情况，可他就是不说，这个人就是阿埃童。显然，阿埃童是知道格兰特船长他们的情况的，最起码知道船失事的地方，但他不说，因为如果找到了格兰特，那么就有了他犯罪的证人，这对他将是非常不利的，所以他怎么都不肯说话。

他让船上的人，特别是水手们恨得牙痒痒，恨不得打死他。

爵士一直想从他嘴里套出话来，并做了很多次尝试，但怎么说都没有用。总之，阿埃童非常固执，固执到莫名其妙，以至于少校觉得他根本就不知道格兰特船长和“大不列颠号”的事情。而少校的这种猜测，和巴嘉勒尔的不谋而合，这也正是巴嘉勒尔对格兰特船长命运悲观的主要原因。

不过，如果阿埃童一点都不知道，为什么不说出来？他应该明白，他说不知道，对他没有什么伤害，但他死也不松口，这就为他们制订新的寻找计划制造了麻烦。

那么，阿埃童在大洋洲，是不是可以推断出格兰特也在大洋洲？对于这个问题，他们必须想尽一切办法让他开口。

海伦夫人见爵士几次审问失败，便要求她去和阿埃童谈谈。男人不能做到的事，很可能被女人的温和所打动。就像太阳和狂风比赛，看谁能让行人脱衣服的时候，狂风刮得越大，路人就把衣服裹得越紧；反倒太阳一出来，路人就主动把衣服脱下来了。

这个故事谁都知道。而且爵士也知道他年轻的妻子非常有智慧，便答应了由她去说服阿埃童。

3月5日，阿埃童被带到了海伦夫人的房间，玛丽小姐也被海伦夫人叫了过来。因为玛丽小姐，所以海伦夫人不愿意忽视掉任何有帮助的线索。

两位女士和阿埃童聊了1个小时，不过谈话的情况却一直没有向外透露。她们到底和阿埃童聊了什么？她们有什么办法撬开阿埃童的嘴，套出一些秘密？总之，聊天详情除了她们两个人外，没有人知道。不过在她们让阿埃童离开后，好像并没有获得什么有用的线索，很是沮丧。

所以在将阿埃童带回那间拘留房间时，有几名水手拦在路上，对他进行了暴力威胁。而阿埃童呢，只是耸了耸肩，什么也没说。这更让水手们愤怒了，直到麦盖尔和爵士制止，水手们才愤愤离开。

不过海伦夫人并不罢休，她决定继续说服那个冷血固执的人。所以第二天的时候，她亲自跑去阿埃童的房间，以免在他经过甲板时，引起大家的愤怒。

善良温柔的海伦夫人这次是单独一个人面对阿埃童的，整整聊了两个多小时。爵士急得像热锅上的蚂蚁，一直在房间里走来走去。有时他下定决心，不管用什么办法都要从阿埃童那里探听到消息，有时他又想把妻子叫出来，他不想让妻子遭受谈判失败带来的痛苦。

不过，海伦夫人这次出来时，脸上却带着微笑。她会不会已经套出了很多信息呢？会不会感动了铁石心肠的坏蛋，让那坏蛋动了恻隐之心，说出了秘密？

虽然海伦夫人的脸上是微笑，但少校还是露出一副不相信阿埃童会说出甚至会知道什么秘密的神情。

不过很快，一个好消息瞬间传遍了整艘船——坏蛋阿埃童被海伦夫人说动了。这个消息如同电流一般，人人都知道了，而且也都聚在了甲板上，这速度比听到艾撒汀的哨子声集合得还快。

爵士也迎了上去，着急地问：“他说了？”

“说是还没说，不过他让步了，说想见你！”

“哦！亲爱的海伦，你成功了！”

“我希望能起点作用，爱德华！”

“你有没有许给他承诺？还要我向他保证一下是吗？”

“是的，我许给他了一个诺言。亲爱的，我许诺他，减轻他的一些处罚。”

“好的！亲爱的海伦，让他来见我吧！”

海伦夫人被玛丽小姐陪着回房间了，阿埃童又被带到了方厅，爵士在方厅等着他。

第五十章 阿埃童的坦白

阿埃童再次来到了爵士面前，押送他来的人退了回去。

“是想和我说什么吗，阿埃童？”爵士说。

“没错，爵士！”

“是要和我一个人说吗？”

“是的，不过我觉得少校和巴嘉勒尔要是在的话会更好。”

“更好？是对谁更好呢？”

“对我！”

阿埃童非常镇定地说完，看着爵士。爵士也盯着他，看了一会儿后，他叫人将少校和巴嘉勒尔叫了过来。

当少校和巴嘉勒尔到了之后，爵士对阿埃童说：“好了，现在可以说了！”

阿埃童沉默了一下，接着说：“爵士，按说我们要先签个合同，先谈好条件，还要有证人才行，这就是我为什么会请巴嘉勒尔先生和少校也在这里的原因。因为我现在要和你提一个交换条件。”

爵士对阿埃童的油盐不进已经深有了了解，所以并没表现出惊讶，虽然他觉得像阿埃童这样一个人，竟然还要和他谈交换条件有些荒唐。

“你想交换什么？”爵士一脸平静地问。

“希望从您那里得到一些好处，因为您也想从我这里得到您觉得有用的信息，所以我们可以一手交钱，一手交货。爵士，您能答应这个条件吗？”

“那要看你能说出什么信息了。”巴嘉勒尔插言道。

“我不问你能说什么信息，我现在只想知道你打算从我这里得到什么好处。”爵士淡淡地说。

阿埃童点了点头，慢慢开口道：“我想要的好处就是，不要把我交到英国政府那里去，爵士！”

“阿埃童，你觉得这样才公平对吗？”

“不！我没说这样就公平，但我总归有条件，而如果我让您将我放掉，您肯定是不答应的，对吗？”

面对阿埃童提出的这个条件，爵士犹豫了一下。格兰特的命运就在他回答的一句话里，可是，他又觉得他不能拿法律开玩笑，因为阿埃童已经犯了法。

“阿埃童，我不能就把你这样放掉！”爵士说。

“我并没有让你把我放掉！”阿埃童的脸上浮现出笑容，那笑容里带着自豪。

“那么，不让我把你交给政府，又不放你，又该怎么办呢？”

“有一个折中的办法。爵士，将我吊死和放我走，您肯定都不愿

意，那么就取中间。”

“中间是什么？”

“将我流放到太平洋的荒岛上，然后给我必要的东西。我可以在荒岛上生活，并在那里忏悔。”

爵士被阿埃童的这个建议惊到了。他看了巴嘉勒尔和少校一眼，两个人都默不作声。爵士想了想说：“阿埃童，我可以答应你的要求，但你一定要把你知道的告诉我，不能隐瞒。”

“可以，爵士！我可以将我知道的关于格兰特船长和‘大不列颠号’的事都告诉你。”

“毫不隐瞒吗？”

“那当然，全部说出来。”

“有谁可以证明你全说了呢？”

“爵士，请你相信我的人格。当然，相信一个坏人的人格，也许是很可笑的，不过又有什么办法呢？因为我只能用人格担保，愿不愿意随您。”

“我暂且相信你吧，阿埃童。”爵士说。

“这么做不会错的，爵士！因为如果我骗了您，您还是有办法报复我的。”

“我有什么办法报复你？”

“您把我放在了荒岛上，那么我怎么都逃不掉的。您可以再去抓我。”阿埃童流利地说。

阿埃童是个聪明人，他把对方担心的事情先说出来，然后替对方说出解决问题的方法，叫对方无法反驳。如此诚恳地和对方谈条件，对方能不相信他吗？当然，他还有一招，有一招更让人对他信任。

“爵士及二位先生，我希望三位能知道一个事实：我是将一切摊在大家面前来谈的，我不会去骗大家。同时，我还有一个证据，可以证明我会诚实地说以下这些话的。为什么呢？很简单，我希望你们也能很真诚地和我交谈。”

“好吧！说吧，阿埃童。”爵士说。

“您还没接受我的提议呢，爵士！不过，我还是可以毫不犹豫地告诉你一件事，那就是对于格兰特船长的事，我知道的并不多。没错，爵士，我能提供给你的，只是一些关于我自己的事，对于您寻找他，帮不了多少忙。”

爵士和少校的脸上浮现出失望。他们以为阿埃童掌握着重大的秘密，而现在，他首先承认他提供的信息对寻找格兰特船长没有什么用处。当然，三个人中，唯一面不改色的就是巴嘉勒尔。

不管怎样，阿埃童的话尽管无人证明是真实的，但如此坦白，已经让人很感动了，尤其他最后又补充了一句：“我预先说了，爵士，如果您接受这次交换，那对我的好处要比对您的好处多。”

“不管怎样，我接受你的提议。我也答应，阿埃童，将你放到太平洋一个荒岛上去。”

“好的，爵士！”

阿埃童的这个决定对他而言是好还是不好呢？很不好说。因为他面无表情，丝毫没显露出高兴还是不高兴，仿佛这个谈判和他无关，说的是别人的事。

“那么我现在可以回答你们的问题了。”阿埃童最后说。

“我们现在没什么好提问的，你还是把知道的一切都告诉我们吧。阿埃童，你先说说，你是个什么样的人。”

“爵士和两位先生，我的真名就叫汤姆·阿埃童，我也确实是‘大不列颠号’上的水手长。在1861年3月12日的时候，我乘格兰特船长的船离开了格拉斯哥。在太平洋上，我们一起跑了14个月，我们一直在寻找能够做苏格兰移民区的地方。格兰特船长是个干大事业的人，而我有自己的打算，再加上我们的性情也不一样，我又不愿意迁就他，所以经常发生矛盾和争论。爵士，你们要知道，格兰特这个人一旦决定做一件事，任何力量都是阻挡不了的，那个人就像是钢铁铸成的，所以也想让别人做钢铁。不过，即使这样，我还是不怕他，我叛变了，而且还让船员和我一起叛变，并想将那只船夺过来。对于我该不该做这件事，现在可以不做讨论，不管我是错也好，对也好，总之，格兰特船长毫不迟疑地在1862年4月8日，在大洋洲西海岸将我赶下了船。”

“大洋洲？也就是说，在‘大不列颠号’到卡亚俄停泊前，你已经不在那船上了。那么这船是在到达卡亚俄之后失踪的？”少校插嘴道。

“没错，我在船上的时候，‘大不列颠号’就没在卡亚俄停泊过。而我之所以在奥陌尔农庄里谈到卡亚俄，是因为你们先说了它在卡亚俄停泊过。”

“接着说下去吧！”爵士说。

“就那样，我被格兰特船长丢在了荒无人烟的海岸，离西澳省省会柏斯的流犯拘留所仅仅只有30公里。我在海滨处彷徨时，遇到了一些流犯，那些人刚从牢里出来，所以我也就入了伙。爵士，对于那两年的生活，还是请您不要再问了，我只想告诉您的是，我最后化名本·吉奥兹，而且还做了流犯的头子。1864年9月，我以阿埃童之名，被爱尔兰人雇用。我在那里的时候，就是想瞅个机会弄一只船。所以两个月后，当‘邓肯号’来了，爵士你们去农庄，将格兰特船长的历史说个清清楚楚的时候，我知道了一些我不知道的事实，知道了‘大不列颠号’在卡亚俄停泊过，并且在我离开船的两个月后，也就是1862年6月发出了最后的消息，而且纸条上还说是在37度线上失事的。于是，我决定将‘邓肯号’弄到手，这样一只好游船，是连英国最快的兵舰也赶不上的。不过，船因为严重受损，需要修理，于是我就想让它开到墨尔本去。而我自己则以原来的真实身份跟着你们，引你们到大洋洲东岸，也就是我假定的船失事的地点。所以我引你们穿过了维多利亚省，还让我的同伙跟着我们，有时候他们也会跑到我们前面。当然，我手下在康斯登桥做的那案子，完全没必要。因为当‘邓肯号’到了东海岸后，也就逃不出我的手心了。当我有了这只船，我就能在海上称王称霸了，所以为什么还要做那种案子呢？但没办法，他们还是做了。

“就在我将你们引到斯诺威河，牲畜又被我用胃豆草毒死得只剩下一头牛和一匹马时，我又将牛车引到了斯诺威沼泽区的泥淖里，最后提出恳切建议……当然，之后的事情你们已经知道了，我也就不说了。不过你们一定要相信一点，如果不是巴嘉勒尔先生粗心大意，写错一个地名的话，那么‘邓肯号’一定已经落在我手里了。这，就是我的历史。很可惜，诸位先生，没有你们想要的线索。现在你们总该相信了吧，你们

做了个赔本的买卖。”

阿埃童说完，便不再说话了。他习惯性地双臂抱胸，安静地等着。爵士、少校和巴嘉勒尔都沉默不语。他们知道这就是事实，阿埃童已经把自己知道的都说了。“邓肯号”之所以没被劫去，是他万万没想到的。因为他的同伙已经到了杜布湾海边，爵士发现的那件囚衣足以说明这个问题。他的同伙很忠实地响应他们头目的命令，在那里等着“邓肯号”，不过久等不来，只好又跑到新南威尔士省的乡下干伤天害理的事情去了。少校继续他的盘问，以便确定和“大不列颠号”有关的一些日期。

“这么说，你确实是在1862年4月8日在大洋洲西岸被赶下船的？”

“绝对没错。”阿埃童说。

“那之前格兰特有没有提到他的一些计划？”

“我只是隐隐知道一些。”

“说说看，即使只是一些细微的线索也行。阿埃童，说不定你提供的一些细微线索，就能让我们找到真相。”

“爵士，我能告诉您的就是，他想去新西兰看看。不过，他的这个计划在我还没有离开船上时，并没有实现。所以‘大不列颠号’在离开卡亚俄后，也是很有可能会跑到新西兰附近陆地的。而且这与文件上所说三桅船失事的日期1862年6月27日很吻合。”

“当然吻合。”巴嘉勒尔说。

“不过，文件上并没有‘新西兰’字样呀。”

“对于这一点，我也不是很清楚。”阿埃童说。

“好吧，阿埃童，你实现了你的诺言，我也会实现我的诺言。我们去商量一下，看把你丢到太平洋哪个岛上比较好。”

“随便什么岛都好，爵士！”阿埃童说。

“你先回房间吧，等我们商量好再说。”

于是，阿埃童在两名水手的看守下，去了他那间拘留房。

“他并不像个十恶不赦的人。”少校说。

“是呀，他个性坚强，人又聪明，这样的人，怎么会去做坏事呢？”爵士不解道。

“格兰特船长你们觉得怎么样了？”

“恐怕凶多吉少，可怜的两个孩子，谁能告诉他们，他们的父亲在什么地方？”

“我能告诉，是的，我能告诉！”巴嘉勒尔说。

刚刚，我们一定注意到了一个细节，那就是平时多话、性格急躁的巴嘉勒尔，却在爵士盘问阿埃童时，几乎一言不发。他只是仔细地听着，并不说话。而这句话却是石破天惊，所以首先就把爵士吓了一跳：“巴嘉勒尔！你……你开什么玩笑，你……你知道格兰特船长在哪儿？”

“没错，我知道，而且和别人知道的一样。”

“从什么地方知道的？”

“当然是从那三张纸条上了。”

“哦？”少校不相信地看着他。

“少校，等我说完你再耸你的肩膀好了。我以前没说出来，是因为怕你们不相信。不过现在我决定说了，虽然说了也没多大用处，但阿埃童的那句话正好证明了我的想法是对的。”

“是说新西兰吗？”爵士问。

“你们先听我说。爵士，我在替您给艾撒汀写信时，写错了一个字，而那一个字又救了大家。那个写错的字并不是毫无理由地写错的，因为当时爵士您让我代笔的时候，‘西兰’这个名词正好在我的脑海里回旋。之所以这样，是因为在我们奔到牛车里避流犯，少校对海伦夫人说流犯作恶的时候，他把登着康斯登桥惨案的那份《新西兰日报》递给了她。当时，正写信的我，看到报纸折了一半，还有一半报名露了出来，而露出的那部分正好就是aland。我当时心里一亮，因为aland正是英文纸条上写的aland呀，我们通常会认为这字是‘登陆’，实际上可能是‘西兰’（zealand）的残余。”

爵士不置可否地哼了一声。

“那样的解释，一开始我们并没有想到，知道为什么吗？因为法文纸条比较完整，所以我就盯住法文纸条去寻找线索了。而这个重要的字，正好不在法文纸条上。”

“哈哈……巴嘉勒尔，你太主观了。你现在又把前面两种解释推翻了。”少校说。

“那你反驳吧，少校，我可以一一再驳你的反驳。”

“如果真是这样，那么austral又该作何解释？”

“当然还是刚开始我们说的意思了，‘南半球’（australes）的地区。”

“好，那indi呢？你开始说它是‘印第安人’（indiens），最后又说
是‘当地土人’（indigens）。”

“这个吗？我第三次，也是最后一次解释它为‘绝地之
人’（indigence）！”巴嘉勒尔说。

“那么contin呢？总不会不是‘大陆’（continent）了吧？”少校大叫起
来。

“新西兰是个岛，当然不是‘大陆’。”

“那是什么？”爵士问。

“亲爱的爵士，我把纸条上的内容解释给你听，你再判断吧。不过
我要提醒你两点，首先，尽量忘记前面的两次解释，从先入为主的思想
里解放出来；其次，有些地方未免会有所牵强，而且我可能也解释不
好，但这些地方也都是无关紧要的。尤其是‘gonie’，我将其解释为‘风
涛险恶’，心里总觉得不对，不过又想不出其他解释。更重要的是，我
的解释是以法文为基础的。别忘记了，写纸条的可是个英国人，作为英
国人，对法文的语法运用不熟练也正常。在这一点上交代完之后，我要
开始我的最新解释了。”

巴嘉勒尔说完，拿出那三张纸条中的一张，慢吞吞地念了起来：

“1862年6月27日，三桅船‘大不列颠号’，籍隶格拉斯哥港，沉没于风涛险恶的南半球海上，靠近新西兰——也就是英文纸条上所说的‘登陆’。在两名水手和船长格兰特到达此岛后，不幸变成了蛮荒绝地之人。兹特抛下此文件于经.....及纬37°11'处。请速予救援，否则必死无疑。”

巴嘉勒尔念完了，从他所念的内容来看，他的解释还是可以接受的。不过，这次解释和前两次，仿佛同样正确，所以也有可能和上两次一样，都是同样的错误，所以爵士和少校都没有讨论的兴趣。不过，既然“大不列颠号”的踪迹在37度线上，那么巴塔哥尼亚海岸和澳大利亚海岸没有找到，新西兰的机会相对也就多了。巴嘉勒尔提出的这点，爵士和少校也不得不考虑。

“巴嘉勒尔，为什么要隐瞒这件事，而且还要隐瞒两个月？你应该早点告诉我才对。”

“因为我不希望大家空欢喜一场。那时候，我们正要去奥克兰，也就是纸条上所指的37度线上的一个地方呀。”

“可是后来我们出了奥克兰那条线，你总要说的吧！为什么还不说呢？”

“因为我虽然知道是这种解释，但现在怎么都对寻找格兰特船长没有用啊。”

“什么意思，巴嘉勒尔？”

“很简单，如果格兰特船长的船在新西兰沉了，而且两年没有消息，那么他不是死于沉船，就是死于新西兰土人手里。”

“所以，你觉得……”爵士问。

“我觉得，即使我们找到了船失事的痕迹，船上的人也早已经不在
了。”

“唉！这些话先保密，不要说！朋友们，当我找到了合适的机会，
再告诉格兰特那对可怜的儿女吧！”爵士说。

第五十一章 玛丽雅泰莱萨岛

在全船人都知道阿埃童的招供对寻找格兰特船长根本没有决定性线索后，每个人的心情都很沉重。原本大家希望阿埃童说出秘密就能找到格兰特船长及其他两名水手，没想到丝毫起不了作用。

因此，“邓肯号”决定还是按原路返回。在返回途中，可以选择一个荒岛把阿埃童放下。

巴嘉勒尔和麦盖尔在地图上选择适合放阿埃童的荒岛，正好看到37度线上有个荒岛，名叫玛丽雅泰莱萨，这个岛离美洲海岸约1900公里，离新西兰大概810公里，是一座孤零零地矗立在太平洋中间的峭岩。

这座岛北边靠近帕摩图群岛，归法国管辖；南边则什么都没有，即使从那里走到南极冰区，也是空空荡荡的，所以也没有一只船去那荒僻之地考察过。总而言之，这是一座和外界隔离的小岛，只有喜欢风暴，在海洋上飞行的鸟儿会来岛上偶然歇息。这样一个地方，在很多地图上都没有标注。

这是一个和外界完全隔绝的孤僻的地方，而且也远离一切航线。他们在选择好这个小岛的位置后，又告诉了阿埃童，阿埃童答应在这里过远离人群的生活。所以“邓肯号”开始掉头，方向指向玛丽雅泰莱萨岛。

而且通过这条直线，“邓肯号”在经过小岛后，也就能直达塔尔卡瓦诺湾了。

两天后的下午两点，瞭望的水手向他们报告，说很远的地方出现了

一片陆地，想必那就是玛丽雅泰莱萨岛了。此岛浮在海面上，像极了一条大鲸鱼。

“邓肯号”以每小时9公里的速度前进，距小岛还有16公里。小岛的侧影浮现在了水面上，越来越清晰。随着太阳的西沉，浮在水面上的小岛在强光的照映下，出现了曲折的侧影。倒插在太阳照耀下的海面上的是几座低矮的，稀稀落落的山。

5点钟的时候，麦盖尔见小岛上方有股轻烟袅袅升起。

“那是一座火山？”麦盖尔问正拿着望远镜观察的巴嘉勒尔。

“很难说，这岛我不是很了解。不过，如果它的形成是因为海底突起的话，那么火山喷发喷出个岛屿也不奇怪。”

“那么我们是不是可以说火山能把它喷出来，也就能将它喷回去？”爵士问。

“可能性太小了。这岛已经存在几百年了，应该不会出现这种情况。尤里亚岛曾经从地中海冒出，不过在海面上的时间不久，仅仅几个月就消失不见了。”巴嘉勒尔回答说。

“约翰，船能在天黑前着陆吗？”爵士问麦盖尔。

“不行，爵士，我不能让‘邓肯号’在黑暗中冒险向不熟悉的海岸靠近。我现在要减小马力，让它就这么在附近荡着，等明天天亮后，我们再放小艇上岸。”麦盖尔说。

晚上8点钟的时候，“邓肯号”离玛丽雅泰莱萨岛只有3公里了，岛在水里仅剩下一条长长的影子，快要看不到了。“邓肯号”一点一点地向那

小岛靠近，9点钟的时候，那里突然出现一道强光。强光来自一团火，火光照亮了黑暗，在一个地方，持续不断地燃烧着。

“这应该就是火山。”巴嘉勒尔一边仔细观察，一边说。

“不过，如果是火山爆发的话，肯定会发出巨响的，可我们离那里那么近，怎么会听不到响声的？而且现在刮的是东风，声音应该能传到我们耳朵里。”麦盖尔说。

“是的，这火山很奇怪，只有火没有声。而且它们总是亮亮停停的，就像灯塔一样。”巴嘉勒尔又说。

“说得没错，不过我们不是在有灯塔的海岸附近呀，怎么会有灯塔呢？”麦盖尔说完，突然又惊呼起来，“啊！太奇怪了，又有火光出来了，在海滩上，快看，那火还在移动。”

确实，那火光一会儿有，一会儿又没有。

“是不是这岛上住了人？”爵士说。

“一定住着土人！”巴嘉勒尔说。

“如果有土人，那就不能将阿埃童丢在这里。”

“为什么不能，就把他送给土人吃了吧！他一定会受土人欢迎的。”少校开着玩笑，但表情严肃。

“还是找一个没人住的荒岛吧！我可是答应过他，要保证他安全的，我不能说话不算话。”爵士被少校要改善土人“胃口”的说法逗笑了，却也一本正经地说。

“不管怎样，我们都要提防着。新西兰土人太野蛮了，也很狡猾，他们经常手举火把，欺骗过往船只，和以前那些康瓦尔的居民一样，引诱过往船只。”巴嘉勒尔补充道。

“船头掉个方向，明天太阳出来时，我们就能知道是怎么回事了。”麦盖尔吩咐掌舵的水手说。

深夜11点的时候，乘客及麦盖尔全都回房间了，船头的甲板上只有几名值班的水手在四下漫步，而船尾只剩下舵手在守着舵把。

此时，玛丽小姐和罗伯尔走上了楼舱顶。

格兰特船长的一对儿女就那么伏在扶栏上，忧愁地看着海面上的微微粼光，以及“邓肯号”尾部发着亮光的浪槽。此时的玛丽小姐，正在担心着弟弟的前途，而罗伯尔也在想着姐姐以后该怎么办。同时，他们都想起了父亲。他们亲爱的父亲是否还在人世？他们就这么放弃寻找父亲吗？不！绝对不能这么放弃，他们不能没有父亲。没有父亲，他们该怎么办？这段时间，不要说失去父亲，就是没有爵士和海伦夫人，他们都不知道会变成什么样子。

经历了磨难的罗伯尔，越发成熟了，他知道姐姐的心事，于是握住姐姐的手说：“千万不要失望，玛丽，父亲曾告诉我们，‘勇气会代替世上的一切’。那是百折不挠的勇气，是能够战胜一切的勇气，这样的勇气我们必须要有。姐姐，一直以来，都是你在照顾我，那么，现在就让我为你操劳吧！”

“我亲爱的弟弟！”玛丽小姐哽咽着说不出话来。

“有句话我想告诉姐姐，不知道姐姐会不会生气。”

“说吧，我的弟弟，我不会生气的。”

“你肯答应我吗？”

“什么意思？”玛丽小姐问完，心里有了不安。

“让我去当水手。”

“难道……难道你要离开我？”玛丽小姐大叫一声，紧紧地握住了弟弟的手，好像生怕一松手，弟弟就消失了一样。

“是的！姐姐，我想和父亲一样，成为一名水手，还要像约翰船长一样！我亲爱的玛丽，约翰船长不会让我们失望的，他是那么侠义、勇敢的人，你一定要像相信我一样相信他。他答应过我，要将我培养成优秀的船员。他还答应我，一边培养我，一边带我去寻找我们的父亲。亲爱的姐姐，你要答应我，一定要答应我！因为如果我们跑丢了，父亲一定会走遍天涯海角寻找我们的。所以现在他不见了，我们就有责任走遍天涯海角去找他。如今，我的生命里已经有了目标，我要毕生为这个目标而奋斗，去寻找那个永远不会抛弃我们，我们也永远不会抛弃的人。亲爱的姐姐，我们的父亲！他太伟大了！”

“是的！他是个高尚而伟大的人。知道吗，弟弟，父亲现在已经是祖国祖国的骄傲了。如果不是运气不好，没有完成他的事业的话，他一定是我们国家的伟人之一。”玛丽说。

“我怎么会不知道？”罗伯尔激动地说。

玛丽小姐一把搂住了弟弟，眼泪从眼眶落下，掉在了罗伯尔的额头上。

罗伯尔在玛丽小姐怀里叫着：“姐姐！姐姐！我们的朋友，他们虽然不说、不提，可我还是抱着希望，我永远都抱着希望。我要做个像父亲那样的人，在事业未成功前，绝不死去。”

玛丽一句话都说不出，只是不断地抽泣着。一想到他们还会去寻找父亲，一想到麦盖尔船长的侠骨柔情，她的心里就有种温暖的情愫在内心奔腾。

“约翰先生也一直抱有希望吗？”她按捺住怦怦跳动的心说。

“是的，他一直怀抱希望。他像个大哥哥一样，永远都不会抛弃我们。我要去做水手，好吗？姐姐，我去做水手，和他一起去寻找我们的父亲，好吗？”

“好的！只是我们姐弟俩就会分开了。”

“姐姐，你不会孤零零一个人的，船长和我说过了，海伦夫人也不想让你离开她。你是个女孩子，你可以接受她的好意。如果你不接受，反倒是辜负了她。可我是个男孩子，男人要勇敢，要靠自己。父亲很早就教育过我。”

“可我们的老家怎么办？那里充满了我们的回忆！”

“那里我们不会忘记，也不会抛下！姐姐，这些事情，我们的朋友，约翰船长和爵士都已经决定了，而且还做好了安排。爵士让你留在麦凯莫府，他们要把你当女儿一样对待。这是爵士告诉了约翰，约翰又告诉我的。你在那里会像在自己家里一样的，那里会有人和你谈我们的父亲，你还可以在那里等我和约翰。总有一天，我相信父亲是会回来找我们的。到了那天，这该是多么值得高兴的一件事啊。”罗伯尔说着说

着，激动的额头发出了亮光。

“我亲爱的弟弟，你长大了！如果父亲能亲耳听到你说这些话，该是多么高兴啊！你太像我们的父亲了，我亲爱的弟弟，你真像我们那可亲的父亲，等你长大了，一定会做个父亲那样的人的。”玛丽小姐说。

“希望如此，姐姐！”罗伯尔说着，脸上浮现出神圣和庄严的神态来。

“不过爵士和夫人的恩情，我们又要怎么报答呢？”玛丽又说。

“这不是什么难事。因为我们爱他们，尊敬他们，我们会经常表达我们的感情，多吻吻他们，然后一旦有机会，我们可以为他们去奉献，甚至献出生命！”罗伯尔天真地说。

“不！我们不能为他们死，我们要为他们好好地活着！他们一定希望我们好好活着，我也希望你好好活着。”玛丽说完，狂吻弟弟的额头。

两姐弟一边聊着天，一边幻想着未来，他们在黑夜的船上，彼此对望。即使不说话，彼此的心里也在对话。平静的海面上荡起了涟漪，一起一伏的。螺旋桨在黑暗中缓缓地搅动着波光。

突然，一件奇妙的事情发生了。两姐弟像是被什么神秘的东西吸引着，让他们同时产生了一种幻觉，他们感觉到，在那微微荡起的微波里，有一个声音传了出来，那声音低沉凄凉，让两个人的心全都绷了起来。

他们听到，那声音在叫：“救救我！救救我！”

“姐姐，你听到什么了吗？有没有听到什么？”罗伯尔问。

玛丽小姐想必也听到了。她没有回答弟弟，却和弟弟罗伯尔一起趴在栏杆上，俯下身子朝黑夜里的海面寻找。不过他们什么都没有看到——那里漆黑一片。

“罗伯尔！我……我好像……听到……我听到了，和你一样听到了！我们会不会是在做梦，我亲爱的弟弟呀！”玛丽先是脸色苍白，接着呼吸急促了起来。

接着，又是一声声的“救命”传到了他们的耳朵里。这次更清楚了，以至于两姐弟同时发出了“父亲！是父亲……”的叫声。

玛丽因为激动过度，竟然晕倒在了罗伯尔的怀里。

“救人啊！救救我姐姐！救人啊！救救我父亲！”罗伯尔大喊道。

船尾掌舵的最先奔过来，帮着罗伯尔把玛丽小姐扶了起来。接着值班的水手们也跑过来了，然后是麦盖尔、海伦夫人和爵士，他们全都从睡梦中惊醒，跑了过来。

“我姐姐就要死了，我父亲……我父亲在那里。”罗伯尔大声叫着，指着黑夜中的海面说。

众人莫名其妙。

“真的！我父亲真的在那里，我听到我父亲喊救命的声音了。还有我姐姐，我姐姐也听到了。我们都听到了。”罗伯尔又大声叫道。

此时，玛丽清醒过来，她睁开眼睛，像疯了一样，大声叫道：“父

亲！我的父亲在那里！”

可怜的少女玛丽，她爬起来冲向栏杆，把身子俯下去，想要投入海里。

“爵士！夫人！我父亲就在那里，我向你们保证，他就在那里。我们听到了他的声音，是从海浪里传出来的，就像临死告别的声音一样。”玛丽大声叫着。

她开始抽搐，接着全身痉挛，抖个不停。大家不得不把她抬回她的房间，海伦夫人跟着她进了房间，去照顾她。而罗伯尔还在那里喊着：“是真的！我的父亲就在那里！我们没说错，真的就在那里，爵士！”

在这种情况下，众人都觉得两个孩子是因为思念过度，产生了幻觉。不过这么严重的幻觉，又该怎么解释呢？

所以爵士还是抓住了他的手：“孩子，你听到你父亲的声音了？”

“对！爵士，我听到了，就在那里，在海浪中间。他在喊‘救我！救我！’。”

“你真听清是你父亲的声音？”

“是的！没错，就是我父亲的声音！爵士！我听得很清楚，我可以发誓，我姐姐也听到了，她和我一样，清楚地听到了父亲的声音！您想想，一个人可以听错，可两个人怎么会听错呢？爵士！救救我的父亲吧！放只小艇子！放只小艇子！”

爵士见他这样，觉得一定是幻觉太严重引起的。不过他还是把掌舵

的舵手叫了过来。

“霍金斯，在玛丽小姐晕倒时，你是在这附近掌舵吗？”

“是的，爵士，我就在这里。”

“那你有没有看见什么，或者听见什么？”

“没有！什么都没看见，也没听见！”

“是这样吗，罗伯尔？”

“不！是真的，真的是我父亲在叫。如果是霍金斯的父亲在叫，他一定也会听到的。可那是我父亲呀，爵士！是我父亲啊！”罗伯尔坚定地说。

罗伯尔的嗓子哑了，他脸色苍白，再不开口，最后也和姐姐一样，昏了过去。爵士急忙让人把他抬回了房间，由于受了过度的刺激，他进入到了深度睡眠中。

“可怜的两个孤儿！上帝对他们太残酷了！”麦盖尔说。

“是呀，他们伤心过度，所以产生了幻觉。”爵士说。

“两个人同时产生幻觉，怎么可能？太奇怪了，科学也是无法解释这种现象的。”巴嘉勒尔自语道。

随即，他俯下身子，对着海面，侧耳细听。四周一片沉寂，巴嘉勒尔又大声叫了几声，依然没有什么回音。

“太奇怪了！看来，思念和痛苦交织起来，一些现象是无法解释

的。”他喃喃说着，向自己的房间走去。

第二天，也就是3月8日的早晨5点，天刚蒙蒙亮，罗伯尔两姐弟便聚在了甲板上，其他人因为无法劝住他们，也到了甲板上。他们要看看昨晚勉强能看到的那片陆地。

所有的望远镜都拿出来了，他们向岛上仔仔细细地看着。“邓肯号”离那小岛仅有1公里，他们沿着海岸缓缓地向前开。在他们的视力能看清岸上的一些细微情况时，罗伯尔突然大喊，说他看见海岸上有三个人，一边挥舞胳膊，一边在跑，其中一个人的手里还摇着一面旗子。

麦盖尔抓过罗伯尔手里的望远镜，看了一下后喊道：“是英国国旗！”

“没错！是英国国旗！”巴嘉勒尔也叫了起来，他回头看着罗伯尔。

“爵士，如果您不想让我游着去岛上，那就请放下一只小艇。爵士！我求您了，我要第一个登岛。”罗伯尔激动得声音发抖。

船上没人再说话。因为这是他们万万没有想到的。在37度线穿过的一个小岛上，竟然有三个人，三个遇难的人，而且还是三个英国人。于是，他们每个人都想起了昨夜的那一幕，他们想到罗伯尔和玛丽听到的呼救声……

也许，两个孩子弄错了，是有呼救声传进了他们的耳朵，但那怎么会是他们的父亲呢？怎么可能？不管怎样，都是不可能的。于是每个人都想，说不定会有个大大的失望在等待着他们，因为希望越大，失望也就越大。这两个孩子，已经经不起这种打击了。可现在又有什么办法呢？他们无法阻止两个孩子上岸，别人没有，就连爵士也没有。

“放艇子！”爵士大喊。

只用了1分钟，艇子就放到了海里。罗伯尔、玛丽小姐、爵士、麦盖尔和巴嘉勒尔全都涌上了艇子。艇子在六名水手的拼命划动下，很快就离开了大船。在离岸还有大约20米远的时候，玛丽大叫一声：“是我的父亲！”

是的，岸上有一个高大而健壮的人，他站在两个人中间，面孔慈爱而又坚毅，完全就是玛丽和罗伯尔的结合体。他正是两个孩子不断描述的那个人，他们的心灵没有欺骗他们，那是他们的父亲，是格兰特船长。

格兰特船长在听到玛丽的呼唤后，先是张开双臂，接着便像被雷击了一样，倒在了沙滩上。

第五十二章 相聚

巨大的幸福降临不会让人窒息，即使格兰特和他的一对儿女在小岛上激动得差点背过气去，大家除了为他们高兴外，却并不担心他们。而那激动的场面，是用多少笔墨都无法描述的，甚至任何美妙的词语，都无法写出当时的场景。

几个人只是看着他们三个人紧紧地抱在一起，一句话也不说，全都流下泪来。

格兰特船长一登上“邓肯号”，便在甲板上站立，向迎接他们的海伦夫人及其他人表示感谢。

原来，三个人在团聚后，经过短暂的晕厥，很快醒了过来，然后两个孩子在返回游船的小艇上，向自己的父亲讲述了“邓肯号”是如何进行环球航行寻找他的。虽然只是简单地说了一下，但其中的艰难，格兰特船长一想便知。

对于爵士和海伦夫人，以及船上所有的人，格兰特船长都觉得自己背负了很大的人情债。从爵士到水手，这些人为了寻找他，付出了很多努力，吃了很多的苦。格兰特船长的心头涌现出了无限的感激之情，而这种感激，又通过他坚毅豪爽的性格以及英气勃勃的面孔表现了出来，以至于让全体船上人员都感受到了这种感激，这也让他们觉得，他们之前的辛苦全都值得。

不要说其他人，就是生性淡漠的少校，也热泪盈眶起来。至于感性

的巴嘉勒尔，则像个孩子一样，呜呜地哭了起来。

像一切爱女儿的父亲一样，格兰特看着女儿玛丽小姐，觉得她是那么漂亮妩媚。他忍不住说了出来，并要海伦夫人评论，仿佛要告诉大家，他不是被疼爱蒙蔽了双眼，他说的都是事实。

随后，他又把脸转向儿子罗伯尔。

“你们看，他长得多高，多帅，简直就是个大人。”他乐不可支，怎么看儿子都看不够。

说完，他将两个孩子重又搂到胸前，拼命地吻着，怎么吻都吻不够，仿佛要把两年离别所积蓄的思念全都用亲吻抒发出来。

罗伯尔先向父亲介绍了船上所有的人，这个懂事的孩子用不同的介绍方式介绍不同的人，虽然他介绍的内容，无外乎是“他们每一个人，对我和姐姐都太好了”。在介绍到麦盖尔时，年轻的船长脸红了，在给玛丽的父亲回话时，他的声音都在发抖。

还是海伦夫人为他解了围，说起了旅行过程中的经历给格兰特船长听，格兰特船长为自己拥有这么能干、懂事的儿女而自豪。当知道罗伯尔在此次旅行中屡次建功时，他意识到，这个可爱的孩子已经用自己的方式，向爵士这些人偿还人情债了。而在麦盖尔谈起玛丽时，他也没有丝毫吝啬自己的溢美之词。

海伦夫人巧妙地插了几句话，格兰特船长意识到了什么，他将女儿的手放到了英俊的麦盖尔手里，然后回头对爵士和海伦夫人说：“爵士、夫人，我们为我们的孩子祝福吧！”

格兰特船长感激的话都说完了，其他人想表达的感情也都说了，最

后，爵士把阿埃童的事告诉了格兰特船长。格兰特船长证实，阿埃童确实是在大洋洲被他赶下船的。

“这个人很聪明，做事也敢作敢为，只是贪欲将他引向了犯罪的道路。希望他能反省、忏悔，以后做个好人。”格兰特船长说。

在将阿埃童送到岛上之前，格兰特船长决定在他的岛上招待一下这些朋友，他请大家去参加他的板屋，还希望大家能坐在那里，像鲁滨孙一样吃一餐饭。这个提议获得了大家的欢呼。而最急着想去看格兰特船长在岛上生活的地方的是他的一双儿女，他们知道，在这个地方，父亲一定因为想念他们，流了很多的眼泪。

艇子下水了，格兰特船长及他的一双儿女、爵士夫妇、少校、麦盖尔和巴嘉勒尔等，再一次去了小岛。

只用了几个小时，他们便走遍了格兰特船长的这片领土。这座小岛准确来说，仅仅是从海底升起的一座大山的山顶，山顶上有一小片平地，平地上到处是雪花岩岩石和火山残余物。地壳形成时，山峰在地下火的影响下，从太平洋深处冒了出来，然后形成了物化土，随即又被植物占领了这片土地。

同时，一些过往的捕鲸船将很多猪、羊等牲畜载到了岛上，并在这里繁衍生殖。此后，这太平洋的孤岛上便有了动物、植物和矿物。

而当“大不列颠号”的遇难者来到这里后，也就开始了人类劳动，这片土地也便被开垦出来。在两年半的时间里，格兰特船长和两名水手，让这个荒岛变了样，他们种植了好几亩地，种了很多蔬菜。

众人来到了格兰特船长所住的地方，屋子建在一棵胶树的下面，胶

树的叶子绿油油的。屋子的窗户面临大海，从窗户里能看到太阳光照射下的大海在闪闪发光。格兰特船长让人将桌子摆在了茂密的树荫下，大家就座后，很快就有一只山羊腿、一些纳儿豆粉做的面包、几碗奶、两三棵野菊苣和一些清凉的水端了上来。虽然只是一些简单的食物，但坐在这样的环境下进餐，却是别有一番风味，更有了世外桃源的感觉。

这样的生活，是巴嘉勒尔所向往的，他高兴地嚷嚷着：“真是便宜阿埃童那家伙了，这个小岛简直就是天堂嘛。”

“没错，这是个天堂。当我们三个受难者来到这里后，真是太幸运了。只恨这岛小了一些，如果是个宽阔的岛屿，不是海浪冲击的小缺口，而是一个大港湾的话，那就更好了。”

“为什么觉得小了不好呢，船长？”爵士问。

“如果是个大岛，那么就可以做一些基础建设，让苏格兰人在太平洋上有移民区了。”

“船长，您还没有放弃这个念头吗？您的这个想法，真是太伟大了，在我们国家很有影响力。”

“我不会放弃的，爵士。当上帝借您之手，将我救出去后，其实就是为了让我完成这个事业。我古老的苏格兰同胞，所有受苦受难的人，我们应该有一片属于自己的地方，以便逃离贫困。我亲爱的国家应该在这一地带拥有属于自己的移民区，完全属于自己的居住地，这样我们就能在这里享受欧洲享受不到的独立和幸福了。”

“说得太好了，格兰特船长，这个计划太好了，真是个伟大的计划。不过这个岛……”海伦夫人还没说完，格兰特船长便说：“这个岛肯

定不行，夫人！这里只是一些岩石，养活几个人还可以，可我们需要的是大片的拥有丰富资源的地方，而那个地方，只有南非才有。”

“很好！船长，您的愿望很美好，您想找的那样一片土地，我们会和你一起去找的，美好的前途一定属于我们。”爵士大声说。

就这样，格兰特船长和爵士的手紧紧地握在了一起，仿佛这一握就是给对方的一个承诺。

之后，在这座小岛上，在这座小屋里，大家最迫切想知道的就是“大不列颠号”上遇难的三个人在两年半的时间里，是怎么生活的。当然，格兰特船长很快就满足了他们这个愿望。

“我们的故事和一切来到荒岛过鲁滨孙生活的人的故事一样。来到这里后，根本没有人可依靠，能依靠的只有上帝和自己。我们必须和大自然作斗争，为自己争取生存环境和资源。至于是怎么来到这里的，还要说1862年6月26日到27日夜里发生的事。那时候，经历了6天大风暴的‘大不列颠号’被风浪打到了这里，触到了这个岛的岩石上。这个岛宽约3公里，长大概8公里，岛里有30来棵树，当然还有一些草场和清水泉。幸好这个清水泉一年四季都不会干涸。所以当我带着幸存的两名水手来到这里后，并没有感到绝望，我的两位患难朋友包柏和乔艾，我们三个人团结起来，共创家园。开始的时候，我们就和我们的榜样——笛福作品中的鲁滨孙一样，将船上残存的工具、火药、枪械，以及宝贵的种子带上了岛。刚刚开始的时候确实很辛苦，不过很快，打猎和打鱼就能为我们提供稳定的食物了。

“由于岛内的羊很多，沿岸还有很多水生动物，所以我们暂时不用担心生活，同时，生活也慢慢规律起来。

“好在我们从船上抢救了一些测量工具，很快就知道了我们所处的位置。不过这个结果让我们很沮丧，因为这个小岛处在任何航线之外，所以不可能有船过来搭救我们，除非有船只遇到了意外，来到了这里。在得知这种情况后，我不敢再奢望能与亲人见面，所以一边思念着亲人，一边勇敢地接受着这个考验。我们开始劳动，很快，马铃薯、菊苣、酸模等植物就种植到了岛上，并开始调剂着我们的日常生活。

“之后，还有其他一些蔬菜进入到了我们的生活当中。同时，我们还捕到了几只野羊，并将它们驯服，之后又有了羊奶和奶油。当然，那干河沟里长出的纳儿豆也成了我们做营养面包的食材，所以在生活上，我们还算富足。

“当然，我们所住的屋子就是用‘大不列颠号’的旧料造成的，屋顶涂上了柏油的帆布，正是因为有了它，我们才顺利度过了多雨的季节。在这个小屋里，我们讨论了很多事情，也做了很多计划。

“我也曾想用破船板造一只小艇，然后往有陆地的地方跑。不过就算是最近的陆地——帕摩图群岛离这个岛也有800公里。这样一个漫长的航程，一只小艇是不可能做到的。所以我放弃了这个计划，只能等机会，等着有人来救我们。

“那时候，我真想念我可怜的孩子们啊！我无数次站在岸边的岩石上，等候过往的船只。在我们沦落到此的这段时期，仅仅有两三只帆船出现过，不过很快就没影子了。两年半的时间就这么过去了，我们甚至都觉得没什么希望了，不过我们还是没有失望。

“最终，就在昨天，在我爬到岛的最高峰时，看到有轻烟在岛的西南方向飘荡。接着那烟慢慢大了起来，不一会儿，有船出现在了我们的视

线中，并且向我们这个方向驶来。不过小岛没有可停泊的地方，这船会不会避开小岛开走呢？这又是我所担心的。

“那真是一种煎熬，昨天，我的心差点从胸膛里蹦出来。我的两个同伴在岛的另一座山峰上点起了火，不过游船并没有任何回应。可看到希望就在眼前，难道我们就要这么失去吗？我没有再迟疑，怕船在夜里绕过这个岛开走，所以下了海，往船那里游。那时候，希望占据了我的内心，给我补充了能量。所以我以超人的毅力与波浪作着斗争，在我渐渐接近游船，已经不到30米时，船却掉头了。于是我发出了失望的呼救。当时，只有我的两个孩子听到了，其实那不是他们的幻觉。后来，我只能重新回到海岸。疲惫加上焦急，弄得我浑身瘫软，只能算个半死的人了，是我的两个同伴把我拉上了岸。我们在岛上就这么过了难熬的一夜！

“本以为我们就会被永远抛弃了，谁知天一亮，我们竟然看见船慢慢地荡过来了。还看见你们的艇在下海。我们太激动了，因为我们得救了。更让我激动的是，天啊！竟然是我的两个孩子，我两个亲爱的孩子就出现在我的面前，并且伸开双臂要拥抱我。”

格兰特船长的讲述最终在他拥吻玛丽和罗伯尔中结束了。直到此时，格兰特船长才知道，他们之所以获救，是因为那三张纸条。他是在遇难8天后，写了三张纸条，装在瓶子里让它随着海浪漂流的。

不过，在格兰特船长讲述他的经过时，巴嘉勒尔又在想什么呢？

这位可爱的地理学家，正将那三张纸条上的文字在脑海里反复回想，他把原本设想的三种解释重又想了一遍，好像全都错了。那么，那三张被腐蚀的纸条上，到底写着什么呢？又是什么意思呢？他按捺不住

了，抓起格兰特船长的手说：“船长，您现在是否能告诉我们，您那纸条上写的是什么呢？”

见巴嘉勒尔提出这个问题，所有人的好奇心全都被吊了起来，9个月来都没有猜出的哑谜，想必现在可以得到答案了。

“船长，那三张纸条上的文字，您还记得吗？”巴嘉勒尔又问。

“当然记得。我没有一天不去想它，那可是我们唯一的希望！”

“船长，那几句话是什么意思？我们猜来猜去，实在是猜不出来。”爵士说。

“我马上就告诉大家！不过你们要知道，为了增加获救机会，我在瓶子里装了三张用不同文字写成的纸条，大家想知道哪个纸条上的内容呢？”格兰特船长问。

“什么？三张纸条上的内容都不一样？”巴嘉勒尔又叫了起来。

“大概意思是一样的，只是地名不同。”

“那么还是先说法文写的吧。那张保存得相对比较完整，我们每次解释纸条上的内容，都以它为基础。”爵士说。

“爵士，用法文写的是这样的：1862年6月27日，三桅船‘大不列颠号’，籍隶格拉斯哥港，沉没在离巴塔哥尼亚800公里的南半球海面。因为急求登陆，两名水手及船长格兰特爬上了岱波岛。”

巴嘉勒尔不由自主地哼了一声。

“不幸长久成为蛮荒绝地之人。兹特抛下此文件于经153°、纬37°11’

处。务乞速予救援，否则必死于此！”

格兰特船长说完后，巴嘉勒尔忍不住了，大声说：“怎么是岱波岛？不是玛丽雅泰莱萨岛吗？”

“没错，巴嘉勒尔先生，这个岛在英国地图上是玛丽雅泰莱萨岛，但在法国地图上却是岱波岛呀！”

格兰特船长的话音刚落，巴嘉勒尔的肩膀上就挨了重重一拳，打得巴嘉勒尔的身子猛地往下一弯。他回过头，看见是少校。一向沉稳老道的少校，这次看来破例了。

“真是个好地理学家啊！”少校轻蔑地说。

巴嘉勒尔对少校打在他肩上的那一拳并没什么感觉，但在地理学上出现问题，却给了他比那一拳还重的打击。他低下头去。

因为对那张纸条，他就像格兰特船长说的那样，已经差不多知道原文了。那些残缺模糊的字，他也已经猜出来了，像巴塔哥尼亚、澳大利亚、新西兰，这些名字虽然先后在脑子里蹦出，但好像都是正确的。其他的也好像都知道原义了，可就是“abor”让他糊涂了。他将它解释成了“达于”（aborder），实际上它是法文地名“岱波岛”（tabor），这个地方，就是“大不列颠号”遇难后避难的地方啊。当然，这个错误在所难免，因为“邓肯号”上的地图都写着“玛丽雅泰莱萨岛”。

“即使这样，我也不能忘记一岛两名的事啊。这是一个不可原谅的错误，我不配做地理学会的秘书，我的脸都被丢尽了。”巴嘉勒尔抓着他的头发嚷嚷着。

“巴嘉勒尔先生，您不需要这么难过的。”海伦夫人安慰他。

“不！夫人！我真是太蠢了，就像一头蠢驴一样蠢。”

“是的，还比不上头玩杂技的驴。”少校开玩笑似的替他骂了一句，算是安慰他。

吃完饭后，格兰特船长把那间他们住了两年多的房子整理好了，他不准备带走任何东西，因为这些东西还要留给阿埃童，让一个恶人享受善良人创造的财富。

回到船上后，爵士打算开船，也顺便让人送阿埃童下水。阿埃童站在楼舱口，站在格兰特船长的面前。

“阿埃童，咱们又见面了。”

“船长，是您啊！很好！见您一切都好，我很高兴。”阿埃童平静地说，他并没有表现出见到格兰特船长的惊讶。

“阿埃童，当初将你赶到有人居住的地方，反而害了你！”

“好像是这样的，船长！”

“现在你要替我住这个无人居住的荒岛了，希望老天能答应你的忏悔！”

“但愿是这样！”阿埃童的语调依然平和。

爵士看着阿埃童。

“把你丢在这个荒岛的决定，你还坚持吗，阿埃童？”

“是的，爵士！”

“这个岱波岛合你的意吗？”

“非常合我的意！”

“好的！阿埃童，听我一句话，这里离任何陆地都很远，你和你的手下是不可能取得联系的，因为奇迹毕竟很难出现。所以‘邓肯号’放你在这个岛上，你逃不掉。不过你不会和格兰特船长在这里的两年多那样，既无人知道，也无人救援，虽然你不配被别人记着，但我们会记着你的，我们知道你在什么地方，我知道该在什么时候，什么地方来找你，我永远也不会忘。”爵士说。

“愿上帝保佑您！”阿埃童说得很简洁。

这也是爵士和阿埃童的最后谈话。之后，阿埃童下了游船，上了小艇。

麦盖尔又让人给他送了几箱干粮、工具、武器和若干弹药。所以，阿埃童在这个岛上利用劳动来改造自己，不仅什么都不缺，而且连书籍都有。

到了分别的时候，大家全都站在了甲板上。有几个人心里很难过，比如玛丽小姐和海伦夫人。

“一定要这样吗？一定要把他丢在这里？”海伦夫人问爵士。

“是的！海伦，在这里是为了让他改过自新。”

小艇在麦盖尔的指挥下，离开了大船。站在艇子上的阿埃童，不动

声色地摘下头上的帽子，给大家庄重地行了个礼。

爵士也脱了帽子，全体船员都脱下了帽子，他们像是表达着对一个临死之人的告别。就这样，小艇在一片沉默中离开了。

到了陆地，阿埃童走向沙滩，小艇又回到了大船。

此时已经是下午4点钟了，大家全都在楼舱顶上看着他，见他双臂环抱，一动不动，像座石像一样矗立在岩石上，看着“邓肯号”。

“我们走吗，爵士？”麦盖尔问。

“走吧，约翰！”爵士急促地说，掩饰着内心的难过。

“开船！”麦盖尔对开船的水手喊道。

汽管里响起了蒸汽声，波浪被螺旋桨打着，发出了很大的响声。晚上8点钟的时候，岱波岛上的最后几座山峰也在夜幕中消失不见了。

第五十三章 结局

在“邓肯号”离开岱波岛的第11天，也就是3月18日，他们看见了美洲海岸，并在第二天停在了塔尔卡瓦诺湾。

在航行了5个月后，他们回来了。在这5个月里，他们一直严格遵循着南纬37度线，并环绕地球一周。这值得纪念的一次旅行，在英国旅行史上还是第一次。他们穿过了智利、潘帕区、阿根廷共和国……经过了大西洋、达昆雅群岛、印度洋、阿姆斯特丹群岛、澳大利亚、岱波岛……然后穿过了太平洋。

当然，他们的一切努力都没有白费，因为他们找回了“大不列颠号”的遇难船员，并把他们带了回来。

更重要的是，那些响应爵士号召，去寻找遇难者的，忠诚而热心的苏格兰人，一个也不缺，完好无损地回来了，回到了他们古老的苏格兰。这次远征，很符合古代史上的一场“勇敢人的战争”。

此时，“邓肯号”的燃料和其他供养也都补充完毕，他们即将沿着巴塔哥尼亚的海岸，绕过合恩角，驶进大西洋。

没有比这更顺利的航行了，因为这只船里装载着满满的幸福。船上已经没有什么秘密了，连麦盖尔对玛丽的爱慕之情也已经成了公开的事。不过，还有一件事成了少校心里的神秘事件，那就是巴嘉勒尔一直将衣服裹得紧紧的，甚至连领带都打得很严，围巾更是围得密不透风，甚至围到了耳根处。

少校一直心存疑虑，想要看个究竟。不过，不管他怎么盘问，用什么方法旁敲侧击，甚至是诈巴嘉勒尔，巴嘉勒尔始终什么都不说。而即使当“邓肯号”穿过赤道线，甲板上的温度达到了50度高温时，他依然把衣服裹得严严的，连一个扣子都不松。

“该不是马虎地将这里当成严寒的圣彼得堡了吧！”见巴嘉勒尔裹着一件大衣，像是很冷的样子，少校开玩笑道。

5月9日，也就是在船离开塔卡瓦诺湾的50天之后，麦盖尔看到了克利尔角的灯火。“邓肯号”驶进了圣乔治海峡，并穿过爱尔兰海，转过克莱德湾，于11点的时候停在了丹巴顿。

下午两点的时候，船上的所有人在高地人的热情欢迎中进入了麦凯莫府。

当我们看到这里的时候，是不是会觉得很多事情都是注定了的呢？比如格兰特船长和他的两名水手的得救是注定了的；麦盖尔和玛丽之间产生爱慕，最终在古老的圣迈哥教堂里举行婚礼也是注定的。因为9个月前，那位曾为格兰特船长及遇难船员祈祷的穆尔多牧师最后又为格兰特船长及他的救命恩人送去了祝福；而将来，罗伯尔也会像他的父亲、自己的姐夫一样做个海员，甚至还要在爵士的大力支持下，继续格兰特船长未完的伟大事业……这一切，都像是注定的。

一切都很圆满，唯有巴嘉勒尔，他不可能一辈子不结婚，而他的婚姻，是否也是注定了的呢？也许早就注定了。因为这位博学有趣的地理学家，虽然做了一番英雄，被人传诵，但同时他那马虎的毛病也传得尽人皆知。很多人都想见他，都来邀请他参加一些社交活动，忙得他不可开交。

就在这种情况下，有位30岁的可爱的小姐看上了他，并且愿意和他结婚。这位小姐就是少校的妹妹，一位脾气有些古怪，但却美丽善良的阿汝贝娜，她爱上了同样有着古怪性格的巴嘉勒尔。

虽然这位想要嫁给巴嘉勒尔的小姐拥有上百万法郎的陪嫁，但却始终没有因为这点而自傲。

巴嘉勒尔虽然也垂青阿汝贝娜小姐，但却并不主动。

于是，少校决定撮合他们，他甚至告诉巴嘉勒尔，他可以再做一次粗心大意的事，那就是结婚。

巴嘉勒尔还是犹豫不决，很是奇怪，怎么都不愿意说出“好”字。

“是不是你不喜欢阿汝贝娜小姐？”少校问他。

“没有！少校！她多可爱呀！她实在是太可爱了！不过说实话，我情愿她不可爱，甚至希望她有一些缺陷。”巴嘉勒尔慌忙解释说。

“如果是这样，那你尽可以放心，她并不完美，她有很多缺点，即使再完美的女人，都是有缺点的，所以巴嘉勒尔，你这是答应了？”

“我不敢答应！”

“到底是怎么回事，我亲爱的朋友？为什么老是这么犹豫不决？”

“是我配不上阿汝贝娜小姐！”巴嘉勒尔无数次地说。

可为什么配不上，他依然不说。

终于有一天，巴嘉勒尔在被少校逼得走投无路的情况下，说出了实

话。他将自己身上的一个“缺陷”告诉了少校，这个“缺陷”非常特别，如果他犯了法，警察抓他的话，肯定能很快从这个“缺陷”上找到他。

“就为这个呀！”少校大叫道。

“就是这个原因。”巴嘉勒尔认真地说。

“这又有什么关系呢，我亲爱的朋友？”

“你真觉得没关系吗？”

“当然没关系，不仅没关系，反倒会因为这独特的一面而更迷人呢。这样一来，你也就成了阿汝贝娜梦想中最独特的那个人了。”

少校一本正经地说着，丝毫没有笑，这让巴嘉勒尔心里很忐忑。

之后，少校又去找了阿汝贝娜小姐，仅仅用了很少的时间就谈好了。15天后，婚礼在麦凯莫府的小教堂举行，新郎巴嘉勒尔打扮得漂漂亮亮的，迎接貌若天仙的新娘阿汝贝娜。当然，这天，巴嘉勒尔的衣扣仍然扣得严严实实。

原本巴嘉勒尔的这个秘密，是一辈子都不会有人知道的，当然只要阿汝贝娜不说。不过，少校告诉了爵士，爵士又告诉了海伦夫人，海伦夫人又告诉了麦盖尔太太，也就是玛丽。最后，这件事又传到了奥比尔太太的耳朵里，之后，这件事便传开了。

原来，巴嘉勒尔在毛利人家里做俘虏的时候，他的身体上被毛利人刺上了花纹。这个花纹并不是刺了一点点，而是从脚跟一直刺到了肩膀，而且还在他的胸前刺了一只大几维鸟，几维鸟张着两只大翅膀，嘴巴啄的地方正是他的心脏所在处。

这件被刺花的事，也就成了巴嘉勒尔在这次伟大旅行中最难堪，最难受的一件事了，而且也成了他一生的刺，这件事让他从此不再原谅新西兰。正因为如此，虽然大家都劝他，他也想念自己的国家，但他却再也不愿意回法国了，他怕地理学会有个刺过花纹的秘书的事成为新闻事件，让学会成为整个社会的笑柄。

当然，对于格兰特船长，当他重回祖国后，全苏格兰人都欢迎他。他的回家也成了全民族的一件大喜事。他，自然成了在苏格兰家喻户晓的一个人。

格兰特船长的儿子罗伯尔，果真也像他一样，成了一名水手，并在爵士的帮助下，为实现在太平洋建立一个苏格兰移民区而努力奋斗……

海底两万里

第一部

第一章 传说中的海怪

对于生活在1866年的人们来说，一定都记得那件发生在海上的，离奇得难以解释的怪事。当时，各种各样的传闻在沿海居民中间蔓延着，我们没有必要去一一考证，但有一点可以确定，那就是整件事情受到了欧美进出口商人、船主和各国海军官员的关注。

事情源于一只巨大的海怪，它酷似鲸鱼，但又不同于鲸鱼，体积比鲸鱼大很多，行动比鲸鱼又快得多。一些航海日志是这样记录这只海怪的：这个庞然大物很长，形状跟纺锤相似，有时会发出磷光。即使是居维叶¹、拉塞佩德²、杜莫雷尔³、卡特勒法热⁴这样的生物学家，也说不出这是一种什么生物。正是这个无法确定种类的怪物，在充满好奇心的人们中间引起了轩然大波。

最先发现这个怪物的，是加尔各答市布纳希汽船公司的“加瓦纳·喜金孙”号。1866年7月20日，巴克船长驾驶着“加瓦纳·喜金孙”号行驶在澳大利亚海岸东五英里的海域，突然，他发现了一座“暗礁”，就在他要测定“暗礁”的位置时，竟然发现这座暗礁喷出了15米高的水柱。

事情过去了三天，西印度-太平洋汽船公司的“克利斯托巴尔哥郎”号在太平洋上遇到了同样的事情。也就是说，海怪从澳大利亚海岸游到了太平洋海岸只用了三天。

1866年8月4日，国营轮船公司的“海尔维地亚”号和皇家邮船公司的“山农”号，在距离上面说的海域两千里的美国和欧洲之间的大西洋海面上相遇了，他们同样看到了那个大怪物。如果以两条船为参照物，那只怪物比二者的总长还要长，足足有106米。要知道，那些经常出没在阿留申群岛的大个鲸鱼也不过五六十米。

关于海怪的消息接连不断地传来。连“贝雷尔”号、茵曼轮船公司的“约迪纳”号、法国二级军舰“诺曼底”号、“克利德爵士”号也声称遇到了同样的事情。关于海怪的传说越来越离谱，一些浮躁国家的居民以此作为茶余饭后的谈资。唯一不同的是英国、美国和德国，它们是以科学的精神来对待此事。

信息的传播速度超乎了人的想象，在很短的时间内，连普通人家都知道了海怪的事情。咖啡馆里、舞台上、报刊上，到处充斥着关于海怪的奇闻。一些不负责任的媒体描述得更为离谱，他们认定海怪的触须可以缠住一只载重五百吨的船，并把它拖到海底下去。为了让自己的观点更加可信，他们甚至搬出了亚里士多德、普林尼。更有的人用庞特匹丹的挪威童话、保罗·艾吉德的记述，以及哈林顿的报告来佐证自己是正确的。哈林顿说自己在1857年的时候在“伽斯提罗”号上看见过一种只在“立宪”号到过的海域才能看见的巨蛇。

这样的社会环境造就了一批相信者和怀疑者，他们在学术团体和科学报刊上无休止地争论着。亢奋的人们热衷于海怪的问题，这种氛围甚至席卷了文坛，一些新闻记者和文人也加入论战。当然，这种争执不仅仅局限于笔战，一些态度傲慢的家伙甚至为此付出了血的代价，哪怕只是留了两三滴血。

争论持续了6个月，始终分不出胜负，公说公有理，婆说婆有理。

在这场论战中，巴西地理学院、柏林皇家科学院、不列颠学术联合会或华盛顿斯密孙学院发表的权威论文，被当时流行的小报批评得一无是处，乃至《印度群岛报》、摩亚诺神父的《宇宙》杂志、皮德曼的《消息报》刊登的内容和法国及其他各国大报刊的科学新闻都不能幸免。林奈⁵的“大自然不制造蠢东西”的言论被引用的频率非常高，这些“有才”的作家故意曲解他的意思，作为自己言论的佐证。他们假惺惺地恳求大家信奉大自然，不要去相信大怪鱼、大海蛇、“莫比·狄克”等等人们疯狂臆造出来的怪物的存在。

终于，结束论战的人物出现了，一个以尖刻的讽刺著称的颇受大家欢迎的编辑先生发表了一篇包括唯物主义基本范畴和基本原理的文章，用马克思主义哲学消灭了那个怪物。他成了另外一个希波吕忒⁶，在一片和谐的氛围中消灭了那个怪物。人们美其名曰——机智战胜了科学。

就这样，所有的传言都淹没在1867年的年初，人们都相信，传言不会复活了。但人们的结论似乎下得太早了，一系列新的事件再次出现。一个会移动的，行踪诡异的小岛、岩石或者说是暗礁取代了怪物，成为人们热议的新话题。这与那些科学问题不同，这是实实在在会给人们带来灾难的，因此，事情开始朝着另一个方向发展。

1867年8月5日，在一个任何地图都没有标注的地方突然冒出了一座岩石，而蒙特利奥航海公司的“摩拉维安”号恰好撞上了它。当时，“摩拉维安”号刚好在夜间驶到北纬27度30分、西经72度15分，在风力的助航和400匹马力发动机的推动下，船的平均速度达到了每小时13海里。幸好船身的质地比较坚固，才使船上236名加拿大乘客幸免于难。

据亲历者描述，事故发生在早晨5点左右天刚破晓的时候。船上值班的海员们立即跑到船的后部，十分细心地观察着海面。除了一个600

多米宽的大漩涡以外，海面上没有任何声息。按照习惯，他们仔细地将事故发生的地点记录下来。然而，船究竟是撞上了暗礁还是撞上了一艘沉没的船，谁都无法给出答案。本着实事求是的原则，到达目的地后，船员们全面检查了船底，才发现船的龙骨断裂了。

如果不是三星期后再次发生了同样的事，也许这件事就已经被人们淡忘了。1867年8月26日，在北纬27度30分、西经72度15分的地方再次发生了撞船事件，而且出事的是一艘非常有影响力的船。

从只有一艘400马力、载重1162吨的明轮木船的公司，到拥有4艘650匹马力、载重1820吨的船，最后发展到拥有12艘船（8艘明轮、4艘暗轮）的船舶公司，格那尔这一名字无人不知，无人不晓。1840年，他就开辟了从利物浦到哈利法克斯²的航线。到1867年，公司已经成为拥有“阿拉伯”号、“波斯”号、“中国”号、“司格图亚”号、“爪哇”号、“俄罗斯”号等多种品牌船舶的知名企业。

对当时的海运业来说，格那尔的地位是无人可比的。据著名实证主义者斯宾塞记载，格那尔公司的船在大西洋上航行了2000次，每一次都准时到达目的地，从不延迟，不会遗失一封信、落下一个乘客。可以说，这家船舶公司的规范管理让它获得了丰厚的收益，尽管法国的海运公司也曾试过跟它抢生意，但总是以失败告终，因为人们信赖格那尔公司，愿意搭乘它的船。对于所有的乘客而言，选择格那尔公司已经成为一种习惯，因此，格那尔公司出现事故，在人们当中引起了很大的反响。

有同样遭遇的还有“司格图亚”号。1867年4月13日，在顺风顺水的海面上，“司格图亚”号以每小时13海里半的速度行驶在西经15度12分、北纬45度37分的海面上。当时它的水下深度是6.7米，排水量是6685立

方米。

撞击发生在下午4点16分，“司格图亚”号船尾、左舷机轮后面一点的地方发生了轻微的撞击。由于船上的乘客正在大厅中吃点心，大家并没有注意到轻微的撞击，后来，管船舱的海员跑到甲板上大喊“船要沉了！”，这才引起人们的注意。起初，旅客们十分惊慌，在船长安德生的安抚下，人们才渐渐平静下来。安德生向大家保证，“司格图亚”号一定能保证大家的安全，因为“司格图亚”号的防水板有七大间，一两个小漏洞不会影响船的正常行驶。

经过检测，安德生船长确定第五间防水板被海水浸入了，而且漏洞相当大。幸运的是这里没有蒸汽炉，不会导致炉火熄灭。

潜水员奉安德生船长的命令下水检查船身的损坏情况，他们发现，船底有一个长两米的大洞，根本无法堵住，船只能继续航行。当时，“司格图亚”号距离克利亚峡还有300海里。这300海里足足行驶了三天，利物浦的人们无不为之捏了把汗。

上岸后，工程师们将“司格图亚”号架了起来，他们亲眼见证了船身吃水线下两米半的地方，被划出了一个整齐的等边三角形的缺口。从缺口的形状来看，破坏船身的利器一定不是钢铁质地的，因为钢铁质地的利器在划破船身后很难转身后退。

舆论再次将这次事件推上了风口浪尖。转眼间，这个怪物就背负了很多原因不明的航海事故，它成了罪大恶极的代名词。据不完全统计，每年航海事故的发生数为3000起左右，查不出原因的有200起，毫无疑问，人们将所有的责任都推到了这个怪物身上。

不管这样的揣测科不科学，有一点是可以确定的，五大洲的海上交

通陷入了紧急时刻，人们迫不及待地要消灭这个可怕的海怪。

第二章 肯定与否定

时任巴黎自然科学博物馆副教授的我，被法国政府派去内布拉斯加州参加为期6个月的科学考察。考察完成后，我正准备带着丰硕的考察成果从美国内布拉斯加州的贫瘠地区返回。当时，距离离开还有一个多月，我想利用短暂的逗留时间整理各种标本，恰好在这时，传来了发生这些事故的消息。

对于人们热议的话题，我并不陌生，而且试图得出自己的结论。我将美国和欧洲的各种报刊研究了很久，始终无法得出确定的答案。但有

一点我从不怀疑，那就是这件事绝对不是谣传，因为“司格图亚”号的裂口足以证明。

纽约的人们对于事故发生的起因有很多种揣测，其他不得而知，但那种认为事故源于浮动的小岛或者不可捉摸的暗礁的观点，毫无可能。因为，除非暗礁被安装了机器，否则，它根本不可能一会儿到达这里、一会儿又到了那里。

同理，它也不可能是一只浮动的船壳或是一只巨大的破船，因为它不可能转移得那么快。

于是，人们得出了两种靠谱的结论，一种认为它是一个力大无比的怪物，另一种认为它是一艘动力十分强大的“潜水艇”。

从当时的情况来看，第二种观点是有一定道理的，在我看来，很有可能是某一国政府为了克制其他国家而制造出这种武器，就像水雷、潜水冲击机一样，这是一种新型的武器。

很快，各国政府纷纷发表声明，说这是事关各国公共利益的事情，各国政府必须要真诚对待，开展全面的调查。然而，在英国，在法国，在俄国，在普鲁士，在西班牙，在意大利，在美国，甚至于在土耳其调查后，均无结果。于是，他们表示，如果是某国政府所为，根本不会这样密不透风，因为每一个国家都会受到敌对势力的监视，根本不可能有这样的机会。所以，第二种结论也被推翻了。

各种揣测、调查并不足以让海怪消失，它再次出现在人们的视野里，于是，各种荒诞不经的传说更加肆无忌惮起来。

由于我出版过一本名为《海底的神秘》的书，在学术界引起了一定

的反响，有很多人将我视为自然科学方面的专家。因此，在我到达纽约后，有很多人来询问我对这件事的意见。

对此，我在大多数情况下都否认这件事的真实性。后来，巴黎自然科学博物馆教授伯艾尔·阿勒纳斯先生被《纽约先锋论坛报》邀约，请他发表对这个问题的意见，于是，我不得不发表自己的看法。在这里，我将摘录一些文字，它们来自于我发表在4月30日《论坛报》上的一篇文章，内容很丰富的文章，内容如下：

“在我排除了很多不可能的猜想以后，我只能承认有一种力量惊人的海洋动物的存在。”

“我们无法认识海底的世界，因为，探测器无法到达22000海里或15000海里的地方。因此，我们无法推测那里生长着什么生物。”

“但是，我们可以用辩证法来考虑这些问题。既然地球上有很多我们不认识的生物，那就存在一种可能，在探测器无法到达的海底生存着一种不被我们所认识的鱼类，在特定的时候，它们也想出来透透气，来海面上玩耍一下，这种想法是说得过去的。”

“从另一个角度来看，如果它是一种我们认识的动物，那么我们就要梳理一下鱼的分类，从而承认一种巨大的独角鲸的存在。”

“根据我们对独角鲸的认识，我们可以确定，海上的那种动物身长比独角鲸长十倍，而且具有自己的攻击武器，它的牙可以刺穿‘司格图亚’号，它的力量可以冲破一只汽船的船壳。”

“生物学家们都知道，独角鲸的牙齿就像一把骨质的剑，像钢铁一样坚硬。这一点是可以确定的，因为有人曾经在鲸鱼身上发现过独角鲸

的牙齿。独角鲸的牙齿可以穿破船底，像利锥穿透木桶那样。在巴黎医学院陈列馆就可以看到一枚独角鲸牙齿，长225厘米，底宽48厘米！”

“因此，在对现有资料进行分析和整理的基础上，我得出结论：是身躯庞大的海麒麟用牙齿撞坏了船只。这样就可以解释这种现象了。当然，这只是猜测，也可能并不准确。”

最后几句话是我为自己留下的一条后路，以保住我作为教授的尊严，同时也避免自己成为美国人的笑柄。实际上，我的本意是承认这个“怪物”的存在的。

我的文章勾起了人们的想象力，得到了一部分人的支持。人性就是这样，总是对神奇怪诞的东西感兴趣，而海洋的存在，给我们留下了足够的空间。相对于陆地而言，海洋为庞大的生物提供了最好的环境。与海洋里庞大的生物比起来，大象、犀牛是那样瘦小。也许海洋里存在着硕大无比的软体动物和看起来叫人害怕的甲壳动物，如100米长的大虾，或200吨重的螃蟹，这也是很正常的。从前，与地质学纪年同期的陆上动物，如四足兽、四手兽、爬虫类以及鸟类，都是按照巨大的模型创造的。经过漫长的岁月，这些巨大的模型逐渐缩小，埋藏在深不可测的海洋底下（因为海洋是稳定的，而地壳是运动的），也许那些庞大的物种都保留在海洋内部？

我必须要停止这些想象，要知道，可怕的现实正朝着我的想象发展。我不得不强调，大家都一致承认有一种神奇的东西存在，但大家所说的这种神奇的东西并不是怪诞的大海蛇，二者截然不同。

然而，这已经不是一个纯粹的科学问题。很多人从利益出发，主张将海上这个可怕的怪物消灭，铲除对交通的隐患，确保船只安全航行。

工商界的报刊《航业商情杂志》就阐述了这样的观点。这种观点得到了很多国家的支持，北美合众国首先发表了声明，表示纽约方面已经组织了清除独角鲸的远征队，同时，装有冲锋角的二级战舰“林肯”号将加入这次行动。各造船厂纷纷为佛勒冈司令官提供便利，帮助装备这艘二级战舰，以便早日加入行动。

怪物似乎得到了消息，之后的两个月，再也没有出现过。有人开玩笑说，这个精灵的家伙肯定是偷听了政府的电话，已有防备，所以不再随便出现。

于是，这个装有强大冲锋角的二级战舰闲置下来，整日无事可做。等待让大家陷入了烦躁，正在这时，大概是7月2日，旧金山轮船公司从加利福尼亚开往上海的一艘汽船“唐比葛”号在太平洋北部的海面上又遭遇了这个东西。

消息传来，人们立刻骚动起来，佛勒冈司令官一刻都不敢耽搁，装上日用品和煤，立刻出发了。海员们都很积极，全部准时到岗，只差生火，加热，解缆了，大家都希望这只船早点出发。

还有3个小时，“林肯”号就要离开博罗克码头了，此时，一封信送到了我的手里，信的内容如下：

地址：纽约第五号路旅馆。

收件人：巴黎自然科学博物馆教授阿勒纳斯先生。

先生：

各国政府都希望您加入“林肯”号远征队，如果您愿意参加，佛勒冈司令官将为您提供一个舱房供您使用。

敬启

海军部长何伯逊

第三章 先生，听您的

在此之前，我还比较抵触谈及海麒麟的事情。在读了这位海军部长的来信后，我突然认识到自己内心的真实想法，于是我改变了主意，我愿意同大家一起将这个捣乱的怪物铲除掉。

此时，我忘了自己刚刚长途跋涉回来，身体是如何疲倦，也忘了要回国看看朋友，看看植物园内小房子里珍贵标本的愿望。此时，我心中只有一个想法，那就是跟大家一起去铲除怪物，因此，我毅然决然地接受了美国政府的邀请。

我还有一些出人意料的想法，我幻想着海麒麟能够将我送上法国的岸边，或者我在欧洲的海域捉到它，并将它的牙齿带回自然科学博物馆。

不管怎样，决定了就不会改变，我一定会去太平洋北部的，哪怕是与回法国南辕北辙，我也要这样做。想到这儿，我急切地叫来了我的仆人葛瑟尔。在我出行的时候，葛瑟尔总是陪伴在我左右。我很喜欢这个生性冷淡、循规蹈矩、勤奋的青年人，他对我也很好。对于生活中的一些突然事件，他总是能泰然处之。他心灵手巧，做什么事都信手拈来。尽管他的名字在方言中是劝告的意思，但他很懂得分寸，别人不问他的

时候，从不轻易发表意见。

俗话说近朱者赤，由于跟植物界的学者接触比较多，葛瑟尔也成了生物专家。他能从门、类、纲、亚纲、目、科、属、亚属、种、变种，一直数到最后的一个类别，熟练得像杂技演员爬梯子一样。分类是他生活的全部，除此以外他什么都不知道。尽管他对分类理论很在行，但由于缺乏实践，我猜他连大头鲸和长须鲸都分不出来。总之，他是个忠诚正直的人。

10年来，葛瑟尔始终跟随在我左右，陪我去各地进行科学考察。他从不计较利益得失，哪怕是旅途再辛苦，只要我需要，他提起行李箱就会随我出发，刚果、中国，随便哪里，他连问都不问。

他的身体很强壮，不过思维倒很简单，思考问题的能力实在不敢恭维。

葛瑟尔今年30岁，我40岁，我们的年龄比例正好是15比20。当然，葛瑟尔也有缺点，就是太过礼貌，每当听见他用第三人称跟我说话时，我就会感到烦闷。

我边准备行李，边喊：“葛瑟尔！”

我很信任葛瑟尔，平时我从来不会问他愿不愿意跟我去旅行，但这次是个例外，不仅因为这次远征时间比较长，而且充满了危险，我觉得自己应该征求葛瑟尔的意见。

“葛瑟尔！”第三次叫出他的名字，我有点不耐烦。

葛瑟尔终于出来了。

“先生，找我什么事？”他走进来问。

“我们两个小时以后出发，你赶紧准备一下。”

“先生，听您的。”葛瑟尔平静地回答。

“立刻，马上。赶快把所有的旅行用品、衣服都放在我的箱子里，不用点数。”

“那先生的标本要怎么处理呢？”葛瑟尔问。

“放在以后整理。”

“那怎么处理先生的那些奇形怪状的动物、植物，大马、大蛇以及其他动物的骨骼呢？”

“暂时寄放在旅馆里。”

“先生的那只活野猪呢？”

“托人在我们离开的时候照顾他，最好将我们的那群动物送回法国去。”

“难道我们不回巴黎？”葛瑟尔问。

我有些迟疑，说：“回是回去，不过要先去一趟别的地方。”

“先生，一定要这么做吗？”

“放松一点，我们搭‘林肯’号出发，只不过是绕个弯而已。”

“就按先生的意思办。”葛瑟尔肯定地回答。

“葛瑟尔，大概你已经听说了关于怪物的事情，就是那条有名的独角鲸。作为《海底的神秘》的作者，我有义务接受这个光荣的任务，同佛勒冈司令一同出发。我知道这次旅行会存在危险，也不知道确切的航程，但是，我相信，与一位老练的船长出发，一定会平安归来的。”

“我愿意跟随先生。”葛瑟尔回答。

“毕竟这是一次危险的旅行，我希望你再仔细考虑一下。”

“先生，听您的。”

葛瑟尔仅用了一刻钟就将箱子整理好了。我从来不用担心他会落下什么，因为凭借他对鸟类和哺乳类动物的分类本领，将衬衫和西服分类简直是小菜一碟。

我们乘坐酒店的电梯来到二楼的大厅。我又步行了几级台阶，来到服务台结账。我拜托朋友将我打包好的动植物标本送回法国，同时，给替我照顾野猪的人留下一笔钱。办完所有的事情后，我和葛瑟尔上了一辆去往34号码头的马车。马车从百老汇路出发，途经团结广场、第四号路、包法利街的十字路口等站，全程只需20法郎。在34号码头，我们将乘坐加士林轮渡到纽约的一个区——博罗克林，它位于东河左岸，距离停泊“林肯”号的码头只有几分钟的路程。在这里，远远就能看见“林肯”号喷出的黑烟。

达到“林肯”号以后，我第一件事就是去找佛勒冈司令。一个水手将我领到船尾，一位看起来气色很好的军官向我伸出了手，他说：“阁下是伯艾尔·阿勒纳斯先生吗？”

“是的，您就是佛勒冈司令吧。”

“是的，教授，舱房已经备好，就等您大驾光临了。”。

对佛勒冈司令的盛情款待我表示了感谢，便跟随海员到了为我准备的舱房，而司令则去准备开船的事情。

作为捕捉新目标的重要装备，“林肯”号有着得天独厚的条件，由于装有高压蒸汽机，“林肯”号内的气压可以增加7个大气压力，因此航行速度很快，平均时速可以达到每小时18.3海里，但要对付那只独角鲸，仍然存在一定危险。“林肯”号内的其他装备也很精良，看起来完全能够完成这次航海任务。而对于我而言，最满意的就是他们为我准备的位于船尾的舱房，我的房门正对着军官们的餐室。

“我们的舱房不错。”我对葛瑟尔说。

“那是当然的，先生，我们的旅途一定会很舒服，就像寄生蟹住在海螺壳中那样。”葛瑟尔回答。

见葛瑟尔正在整理箱子，我便独自一人走上了甲板，参观如何开船。我到达甲板的时候，海员正在解“林肯”号的最后几根铁索。看起来，如果我再晚来一刻钟，就会错过这次惊险的旅行。当然，“林肯”号也会失去一个整个事件的记录者。

佛勒冈船长十分准时，一分钟也不愿意耽搁，他迫不及待地想到达那个神秘的地方。他叫来了船上的工程师，问道：“准备好了吗？”

“准备好了，船长。”工程师答道。

“启程！”佛勒冈船长下达了指令。

机器房迅速收到了开船的指令，轮机人员赶紧让机轮转动起来。蒸

汽涌入半开的机关中，活塞发出了呼呼的响声，推动机轴的杠杆。动力让螺旋桨迅速地搅动海水，“林肯”号就这样踏上了庄严的航程，离开了前来送行的渡轮和汽艇。

好奇的人们挤满了博罗克林码头和纽约的东河沿岸地区，足足有50万人，他们发出的欢呼声响彻天地。人们用手帕向“林肯”号表达着自己的敬意，目送着“林肯”号离开，直到船抵达赫德森河口——纽约城所在的长形半岛的尖端，人群才不情愿地散去。

船的右岸是一排排别墅，当船穿过炮台的时候，上面用鸣礼炮的方式向大船致敬，“林肯”号则以连升三次美国国旗的方式向炮台回礼。渐渐地，船改变了方向，驶进设有浮标的航道。当大船掠过沙洲时，尊享了数千观众的欢呼。

大船出港以后，有一艘渡轮和一艘汽艇相送，直到纽约航路的出口，它们才返航回港。此时已是下午3点。领港人离开大船，踏上了返航的小船。煤转化成动力推动着波浪，晚上8点以后，岛上的灯光渐渐暗了下来，加足了马力的船舶在大西洋上继续驰骋。

第四章 尼德·兰

佛勒冈不仅是一名优秀的船长，也是一名优秀的海员，他与大船非常默契，就像融为一体一样，简直可以说他就是船的灵魂。他从不怀疑独角鲸的存在，因此，不准人在船上讨论。

相信海怪的存在，与信奉宗教大体相同，不是出于理智，完全是出于情感。他发誓，只要那个怪物存在，自己就一定会将它清除出海洋。他对海怪将毫不手软，会像罗德岛¹的骑士杜德尼·德·格那样去消灭骚扰人们正常生活的海怪，也就是说，佛勒冈船长与独角鲸中间，只能有一个胜利者。

长官的意见得到了船上的海员们的赞同，他们用实际行动表示着自己对长官的支持。他们坚信能够消灭海怪，同时制定了各种作战计划，认真地进行海面侦查，而且轮换着到定横木上去值班。哪怕被太阳晒伤，脚被滚烫的甲板烫伤也没有人叫苦，仍然坚持在自己的岗位上。

尽管“林肯”号还没有沾上太平洋的海水，但船员们已经开始幻想胜利的情景，他们幻想着碰到独角鲸，并且用鱼叉解决了它，将它拖到船上。

船一出港，佛勒冈司令就下达了命令，谁第一个报告独角鲸的踪影，就可以得到2000美元的奖金。因此，每个人都嫌自己的眼睛不够用，时刻盯着海面的情况。

至于我，对于独角鲸的事也是亲力亲为，跟大家一样保持着一种迫切的心情。整个船上只有葛瑟尔显得与众不同，他对我们所热衷的事情始终不感兴趣，给船上其他人的热情浇上了一盆冷水。

我要再次强调，佛勒冈船长是一个细心的人，细心到将每一种能制服独角鲸的装备都带在船上，毫无疏漏。如手投的鱼叉、鸟枪的开花弹、用炮发射的铁箭、十分完善的后膛炮，应有尽有。据传，后膛炮的威力很大，可以发出重4公斤的锥形炮弹，射程是16公里。这种大炮是美国制造的，模型曾在1867年的万国博览会中展览过。

除了各种装备精良的武器，船上还有一样法宝，那就是鱼叉手之王尼德·兰。尼德·兰大约40岁，身材伟岸，有6尺多高。他的气质很与众不同，神情庄严，性格暴躁，眼睛炯炯有神，表情非常引人注目。他是叉鱼业的佼佼者，双手非常矫捷，灵敏冷静，大胆机智，至今还没有碰见过对手，除了狡猾的长须鲸和特别聪明的大头鲸，其他鱼类都很难躲过他的鱼叉。

能将他请到船上，绝对是明智之举。因为他耳聪目明，机灵劲儿超过了整个船上的人。我无法用更美好的语言去赞美他，只能说他是船上的望远镜，是一门随时可以发射的大炮。

尽管是加拿大人，尼德·兰对我这个法国人有一种特殊的好感，他很少与其他人接触，我是个例外。我从交谈中得知，尼德·兰的老家在魁北克，那里至今还通行拉伯雷的法国话，当这城市还属于法国的时候，他家里就已经出了一批大胆的打鱼人了。而我不仅对尼德·兰这个人感兴趣，对他说的法国话也很感兴趣。

我和尼德·兰渐渐熟了起来，他开始给我讲他在北极海中打鱼和战斗的故事。那些故事由他讲起来有声有色，就像一部史诗，而他的语气，则像加拿大的荷马²在朗诵着北极的《伊利亚特》³。

之所以这么详细地记录尼德·兰，是因为他是我最好的朋友，我们的友谊是在共同的战斗中建立起来的，因此，我对他的想念难以言喻。

一开始，尼德·兰不太相信独角鲸之类的传说，他是唯一一个与大家意见不统一的人，因此，他尽量避免与大家讨论这件事情，但我一直想让他开口谈这件事。

三个星期后的一个黄昏，我们的船经过南回归线，到达离巴塔戈尼

亚海岸30海里，跟白呷同一纬度的地方，距离麦哲伦海峡不到700海里。再过8天，“林肯”号便要在太平洋的海面上行驶了。

面对神秘的大海，我和尼德·兰一同坐在船尾甲板上，漫无边际地谈论着各种各样的话题，很自然的，我们的话题转向了独角鲸，谈论着遇到独角鲸后的各种可能性。只见尼德·兰一言不发，我充分地利用了这次机会，对他说：“尼德·兰，既然上了船，你怎么会不相信独角鲸的存在呢？原因是什么？”

他没有马上回答，而是摆出他惯有的姿势，用手拍拍他宽大的前额，闭目沉思。过了一会儿，他说：“阿勒纳斯先生，是有原因的。”

“作为一位职业的捕鲸专家，我知道您对海中的巨大哺乳类动物一点都不陌生，按理说，您应该赞同大家的想法，为什么成了唯一一个怀疑这件事的人呢？”

“教授，相信您经常听人说有划过天空的非常特殊的彗星，有住在地球上的太古时代的动物，这只是普通人的想法，天文学家和地质学家是不会承认这么荒唐的看法的。作为一名职业的捕鲸人，我见过很多种鲸鱼，也杀死过很多种鲸鱼。但是，不论鲸鱼如何强大，如何凶狠，即使长了牙，也绝不可能弄坏一艘汽船的钢板。”尼德·兰说。

“尼德·兰，很多权威人士也是这么认为的。”

“教授，如果说鲸鱼能够毁坏一艘木头船，那是有可能的，虽然这样的事我没有亲眼见过。但是，穿透钢板，我真的很难相信，除非我能够亲眼看到，否则我很难相信这件事情。”

“尼德·兰，我们有必要好好讨论讨论这件事……”

“教授，这个没什么可讨论的了，也许只是一条巨大的章鱼。”

“尼德·兰，那是不可能的。所谓章鱼，是一种软体动物，它没有坚硬的肌肉。就算章鱼有那么大的体积，长达五百英尺，它也不能损坏‘司格图亚’号或‘林肯’号这类的船。所以有关海怪的传说，并不是无稽之谈。”

尼德·兰带着讥讽的口气说：“生物学家，这么说您对独角鲸的存在持肯定态度了？”

“是的，尼德·兰，我所说的是有事实根据的。海洋中存在这一种哺乳动物，这一点我深信不疑。它有坚实的躯体，属脊椎动物科，类似于长须鲸、大头鲸或海豚，并且长着锋利的牙齿，破坏力很强。”

“哦！”尼德·兰随意地应了一声，满是不相信的语气。

我又说：“尼德·兰，你要搞清楚，一种动物想要在海洋底部生存，要具备一定的条件，它必须拥有坚强无比的躯体。”

“怎么讲？”尼德·兰问。

“因为水底的压力很大，只有拥有一种巨大的力量才能在那里生存。”

尼德·兰的眉头动了一下，看着我问：“真的吗？”

“是的，有数字为证。”

尼德·兰再次怀疑起来：“有时候数字并不完全可靠！”

“尼德·兰，此数字非彼数字，你听好了。只要了解一点常识就知

道，一个大气压力相当于32英尺高的水柱压力。实际上，这是以淡水为基础的，要知道海水的密度比淡水的密度大。尼德·兰，你想想吧，生活在海底，要承受同您所在深度相等倍数的大气压力。打个比方，如果在320英尺深处的压力是10个大气压，那么在3200英尺深处就是100个大气压，32,000英尺深则是1000个大气压。如果您潜入大海洋的底部，您身体每平方厘米要承受上千公斤的压力。哦，尼德·兰，您算过您身体有多少平方厘米的面积吗？”

“很大呢，阿勒纳斯先生。”

“的确很大，足足有17,000平方厘米的面积。”

“这么多？”

“那当然，一大气压要重于一公斤的重量，按照您全身上下17,000平方厘米的面积来计算，您身上要顶着17,568公斤的重量。”

“那我怎么感受不到？”

“你之所以感受不到这样的重量，是因为你的身体内和身体外承受着相等的压力，内外平衡，压力便抵消了。但在水中就完全不一样了。”

尼德·兰明显对我的谈话感兴趣了，他说：“因为水在我的周围，而不能进入到我的身体，所以才造成这样的结果。”

“是的，尼德·兰。现在我们来推算一下，如果深入到海底32英尺，要承受17,568公斤的压力；在海底下320英尺，受到17万5680公斤的压力；在海底下3200英尺，受到175万6800公斤的压力；如果在海底下32000英尺，要受到1756万8000公斤的压力。按照这样的算法，如果人

潜入海底，就会被压成薄片，像被压扁的铁板一样。”

尼德·兰大喊一声：“太神奇了！”

“好了，尼德·兰，回到我们的主题来，如果是一个身长几百米的脊椎动物，要在海底生存，要承受千百亿公斤的重量。现在，您应该对这种动物的骨架和机体有一个大概的认识了吧！”

“要承受这样的重量，它们的身体至少要有八英寸的钢板那么厚，像铁甲战舰那样才行。”

“你说得一点没错，尼德·兰，那么你应该知道这样一个巨大的动物，以快车的速度撞击在船壳上，会是什么样的后果了吧。”

“也许我能够想象得出。”尼德·兰的语气渐渐弱了下来，我能感受得到，他在动摇，但是碍于面子，又不愿意马上认输。

“现在您相信了吧？”

“现在我只能确定一件事情，那就是只有足够大的动物，才能生存在海底。”

“应该说海底一定存在着一种巨大的动物，因为如果海底没有这样的动物，就无法解释‘司格图亚’号所遭遇到的事故。”

“这……”尼德·兰又陷入了迟疑。

“你不妨直说吧！”

“因为……这不是真的！”尼德·兰无意中背出阿拉果⁴的这句有名的话。

尼德·兰的回答再次证明了他的固执，我很识趣地转换了话题。大家都知道，“司格图亚”号的事故是毋庸置疑的，有船底上的洞为证。

或许您会认为我通过一个洞就断定一切，毫无道理，但我要说的是，洞不是无缘无故产生的。既然排除了暗礁撞坏的可能性，那么元凶就一定是动物的牙齿。

综上所述，我断定这个动物属于脊椎动物门，哺乳动物纲，鱼类，鲸鱼目。具体来说，它属长须鲸、大头鲸、海豚的那一科，至于其他方面该如何归属，只能等逮到它以后才能知道了，只有解剖了这个神秘的动物，才能解决一切问题。因此，首先我们要碰见它、捉住它，然后解剖它。

第五章 冒险行动

几天下来，“林肯”号的旅途一切顺利。但期间却发生了一件展现尼德·兰惊人技巧的事，他没有辜负大家对他的信任。

这一天，日历指向6月30日，“林肯”号行驶在马鲁因海面上，途中遇见了几艘美国捕鲸船，但都不能向“林肯”号提供关于独角鲸的消息。但是，当“梦鲁”号的捕鲸船船长得知尼德·兰在我们船上的时候，请求他帮忙去追捕一条已经发现的鲸鱼，得到了佛勒冈船长的准许，因为佛勒冈船长也想见识一下尼德·兰的本领。尼德·兰的本领真没得说，他投出的双叉不仅射中了他们发现的那条，而且还捕获了另外一条，叉子直接刺破了鲸鱼的心脏。

船上的人欢欣雀跃，我们相信，如果那个怪物碰见尼德·兰，很难全身而退。

7月3日，我们到达了与童女峡在同一个纬度的麦哲伦海峡口上，战舰沿着美洲东南方的海岸以惊人的速度行驶着。对这条曲折的海峡，佛勒冈船长很反感，他表示，我们要从合恩角绕过去。

船长的主张得到了全体船员的一致赞成，大家普遍认为，那条独角鲸不会生存在这条狭窄的海峡里，哪怕是经过也很困难。而途经合恩角是我们最好的选择。所谓合恩角，是伸在美洲大陆南端的岩石，从前荷兰水手用自己故乡的名字称呼它。

我们的船继续向西北开，明天，我们就可以在太平洋的海面上行驶了。

“快来看啊！快来看啊！”“林肯”号上的水手们相互鼓励着。

在2000美元奖金的诱惑下，很多人打起了精神，睁大眼睛准备随时汇报，一刻也顾不上休息。晚上，那些患昼盲症的人精神更好，因为他们在黑暗中也能看清楚，于是比别人多了50%的机会获得这笔奖金。

对于我而言，金钱并不能打动我，但我同样密切注视着海面。除了吃饭和睡觉，其他的时间我都留在甲板上，哪怕阳光暴晒或是下雨的天气也不例外。为了让自己舒服一点，有时我伏在船头的围板上，有时扶着船尾的栏杆，眼望着一望无际的海洋，连眼都不眨一下。每当看见海面上有鲸鱼灰黑的脊背露出的时候，船上的所有人员就像过年一样，大家都挤在甲板上，眼里冒着喜悦的光，就等着鲸鱼出现。但当“林肯”号扭转了船头，向发现的动物冲去的时候，才发现空欢喜了一场。原来，只是一条普通的长须鲸，或是大头鲸，大家咒骂着离开了。

有很多时候，我感觉自己的眼睛发黑，觉得自己要瞎了一样，但是葛瑟尔却没有这样的烦恼，还总是劝诫我说：“如果先生能把眼睛睁得小一点，也许就不那么辛苦了。”

这个季节，南半球的天气很恶劣，但是海面很平静，人们一眼望去，可以看出很远。

在船上的所有人当中，只有尼德·兰最淡定，除了在甲板上值班以外，他很少像我们一样盯着海面，他那双神奇的眼睛，并没有发挥多大的作用，因为他每12小时中有8小时在舱房中看书或是睡觉。对此，我多次责备他不负责任。

对于我的责备，他显得不以为然，说：“算了吧！阿勒纳斯先生，别说是没有，就算真的有海怪，也不会给我们机会看见它的，我们这不是浪费时间吗？我也听说了，在太平洋北部的海中，我们正在寻找的怪物又出现了，但是您想想，那条独角鲸那么精明，有可能两个月以后还停留在那片海域上吗？教授，您应该更了解动物的秉性，凭借它具有的快速移动的能力，除非有特殊情况，否则，它早就跑远了！”

我无言以对。我们的行动确实有些盲目，但是，除此以外，我们还能怎么做呢？机会可遇不可求，况且船上的每一个人都坚信独角鲸的存在，坚信它会出现的。

7月27日，“林肯”号穿过西经110度上的赤道线，一直向西行驶，行驶在太平洋中部的海面上。按照佛勒冈的意思，我们要离大陆和海岛远一点，行驶到水深的地方去，因为怪物不喜欢水浅的环境。大家也都同意船长的看法。船员为战舰添了煤后，穿过土阿莫土群岛¹、马贵斯群岛²，夏威夷群岛³，在东经132度的地方越过了北回归线，向中国海开去。

行驶在中国海的海面上，船上的每个人都感觉离怪物更加近了。长时间的海上行驶，给大家的生活带来了很大困扰，每个人都心跳加速，恐怕是为将来患血瘤症埋下了隐患。到了后来，每个人都紧张到吃不好睡不好。连值班水手由于视觉失误而发出的错误的警报，也会引起全员的骚动。这样的骚动每天要发生一二十次，后来大家对这种事都习以为常了。

一天过得像一个世纪。对于大家而言，这三个月就像三个世纪那样漫长。这三个月来，“林肯”号时而向看到的鲸鱼冲去，时而离开航线，时而掉转船头，有时还一下子停住.....为了捉到那个怪物，“林肯”号冒着机器坏掉，浪费动力的风险，从日本海搜到美洲海岸。但始终一无所获，所面对的仍然是茫茫无际的大海，传说中的巨大的独角鲸、潜在水中的海岛、沉没的破船、飞走的暗礁，以及其他什么神秘的东西，都没有出现。

渐渐地，人们的心里产生了变化，不再像之前那样笃信独角鲸的存在，紧接着，羞愧、恼怒的情绪像闸口一样打开。像失去信仰的人一

样，每个人的心理防线都垮了下来，大家只想做一件事，好好地吃一顿，睡一觉，来弥补自己因为判断失误而牺牲的时间。

人们从一个极端跑到了另一个极端，最初最拥护这次远征的人成了最坚决的反对者。从库管员到军官，打算放弃的氛围更加浓烈。由于佛勒冈船长的坚持，这艘船才保持前进的方向。

可是，这种大规模的搜索持续太久时间是无益的，“林肯”号已经尽了最大的努力，应该能够得到人们的谅解。这艘船上的人员表现出了极大的耐心和热情，对得起美国海军部对他们的信任。哪怕没有成功捕捉到那只怪物，也不是他们的过错。看来，是到了该回航的时候了。

船长很快收到了回航的建议，但是，船长坚持自己的意见，想要再等待一下。但船员们已经没有耐心等下去了，紧张的气氛一触即发。无奈之下，一个星期以后，佛勒冈船长向哥伦布承诺，如果三天后还没有海怪的踪影，“林肯”号就向欧洲海岸进发。

得到了船长的承诺，船员们的精力又回来了。人们以另一种心情欣赏着海洋的景色，以纪念这次独特的远征。于是，望远镜一天24小时被占用着，这对于独角鲸而言，是最后的挑战。

在最后的三天里，“林肯”号始终以缓慢的速度行驶着。到了最有可能碰到独角鲸的海面，人们想方设法吸引它的注意，让它现出原形。船员们先是将大块大块的腊肉扔到船后，不过仍然没有效果，反倒便宜了那些鲨鱼们。“林肯”号停在了海面上，许多小船被放下去，搜索任何一个独角鲸可能出现的角落，但是效果并不明显，直到11月4日晚上，目的还没有达到。

时间一晃到了三日后，返航的那天。佛勒冈船长履行自己的诺言，

命令战舰离开太平洋北部的海面，向东南方行进。

此时，船处在北纬31度15分、东经136度42分，距离日本本土200英里的地方。晚上8点钟，月亮害羞地躲在了乌云后面，大海的波纹放松地舒展着。

面对这样的景色，我和葛瑟尔悠闲地倚在船头右舷桅板上，眼睛朝一个方向望去。而船上的其他人爬在缆绳上，借助黑夜望远镜，细心地观察着天海交接的地方。月亮时而透过云朵间，露出一张害羞的脸，使黑压压的海面闪耀着动人的光辉，时而躲在乌云后面，使整个海面消失在黑暗之中。

我瞥了葛瑟尔一眼，他的脸上也流露出沮丧的表情。至少，我感觉是这样的，也许是好奇心驱使的。

我对他说：“喂，葛瑟尔，现在是获得2000美金的最后机会了。”

葛瑟尔答道：“请先生相信我，我从没对这2000美金感兴趣过，如果想摆脱贫穷，还不如接受合众国政府给的10万美元。”

“葛瑟尔，也许你是对的，我们不计后果地加入到这次远征中来，浪费了很多时间和精力，如果当初作出不一样的选择，我们已经回到法国了。”

“是啊，已经回到先生的小房子里，我早已完成生物化石的分类了。先生的野猪也能回到法国，接受巴黎民众的参观了。”

“是啊，还不知道那些好事的人怎么嘲笑我们呢！”

“人们一定会嘲笑您的，这就是您得到的报酬。”

“你说得没错！”

“我想要是换成另外一个学者，一定不会冒昧地做这种事……”

还没等葛瑟尔的话说完，不远处便传来了尼德·兰的声音，他喊道：

“快来啊，那个让我们冥思苦想的家伙就在我们斜对面呢！”

[2](#)是法属波利尼西亚的一部分，法国在19世纪中将此地并入领土中。

[3](#)是太平洋中北部的岛群，是世界著名的旅游胜地。

第六章 全速前进

这一喊声像支兴奋剂一样，船上所有的人都丢下手里的活计，朝着尼德·兰跑去。船长发出了停船的命令，船靠惯性移动着。

尽管天色很暗，我也很想看看尼德·兰究竟看到了什么。我感觉自己的心都快跳出来了。

尼德·兰并没有让大家失望，大家都看到了他的手指向的东西。距离“林肯”号370米左右，水下发出了神秘的光，就像之前传说的那样。从光的强度来看，一定是从巨大的发光动力体发出来的。发光的部分在

海面上形成一个巨大的椭圆形结构，椭圆被拉得很长，中心是亮白的焦点，射出不可直视的光，这光渐远渐淡，直至熄灭。

“那不过是无数磷分子的集合体。”一位军官说。

我直接否定了他：“不是的，发出这种强度的光，绝不是佛拉得或萨拉吧¹这类的动物。这种光是从动力体里发出的。快看啊，它动了，向我们冲过来了！”

战舰上一片唏嘘声。

佛勒冈船长说：“安静，把稳舵，我们向后退。”

水手们和工程师们各就各位。汽门马上被关掉了，“林肯”号从左舷转了180度的圈。

佛勒冈船长指挥道：“舵向右，向前开！”说时迟那时快，战舰很快离开了发光的区域。想不到的是，那神秘的东西却以更快的速度向我们逼近。

大家被这种紧张的气氛吓得气都不敢喘，而那个动物却游刃有余地与我们回旋。时而冲向我们；时而以时速14海里的速度围绕着战舰转圈，并且将船置于巨大的光圈中；时而离开“林肯”号，留下冒着一团团烟雾的闪着磷光的尾巴；时而从海天尽头出发，以惊人的速度向“林肯”号冲过来，在距离船身20英尺的地方突然停下来，并且熄灭了光，就像房子里突然停了电一样。不久，它又突然出现在战舰的另外一端，不知道是从船身旁边绕过来的，还是从海底潜水过来的。神出鬼没的怪物不断地向我们施加压力，感觉它能随时消灭我们。令我奇怪的是，面对突然出现的怪物，我们不是在捕捉，而是在逃避，形势完全变了。于

是，我向佛勒冈船长建议，我们要还击，谁知，却看见了佛勒冈船长紧张的神情。

他对我说：“阿勒纳斯先生，我要对船上所有人的生命负责，在没有摸清情况之前，我不能让大家去冒险。我现在实在不知道该怎么去对付这个怪物。等到天亮吧，也许到时候问题就解决了。”

“船长，你不想弄清楚这究竟是什么东西吗？”

“先生，事情已经很明白了，这是一条带电的独角鲸。”

“也许应该像你所说的那样，为了安全着想，我们不能靠近它，就像不能接近一条电鳗，或一个水雷那样！”

船长对我的话表示赞同：“没错，它身上有雷电般的力量，它一定是上帝造出来的最可怕的动物了。正因为如此，我们更要加倍小心。”

所有的人都忘记了睡觉，站在船头守望。面对强敌，“林肯”号只能保持低速慢慢行驶。而独角鲸就像是与“林肯”号比武一般，紧随其左右，久久不肯离开。

快到半夜的时候，独角鲸突然不见了，收起了自己的光芒。大家都很好奇，难道是它离开了，我们都不希望它离开。到了半夜0点53分的时候，船上传来了一声巨响，就像被极强的压力挤出的水柱所发出的声音那样。

当时，船的尾楼上站着佛勒冈船长、尼德·兰和我三个人，我们都聚精会神地凝视着黑压压的海面。

船长首先打破了沉默：“尼德·兰，您听过鲸鱼叫吗？”

“当然听过了先生，不过像这种鲸鱼的叫声我还是第一次听到，我想我应该去争取那2000美金。”

“我相信你能获得这2000美金，不过我要提醒你，这声音好像就是鲸鱼类动物用鼻孔吐水时所发出来的声音。”

“您判断得很准确，不过这声音的分贝要大很多，毫无疑问，一直跟随我们的肯定是一条鲸鱼类动物。先生，请您答应我，明天天亮时，让我们交谈几句。”

我怀疑地说：“尼德·兰先生，你确定鲸鱼会听你说话？”

尼德·兰答道：“只要让我靠近它四鱼叉那么远，它就只能乖乖听我的。”

船长说：“您是不是需要一只捕鲸艇呢？否则怎么接近它？”

“先生，还是您想得周到。”

“不过，要一只捕鲸艇，岂不是拿我的生命去冒险？”

“难道只有你危险吗？”尼德·兰干脆地回答。

时间流逝到深夜两点多，在距离“林肯”号5海里的海面，再次亮起了强烈的白光。虽然距离很远，又夹杂着风声和浪声，但我们还是清楚地听到了鲸鱼尾巴的搅水声和它的喘息声。这只巨大的独角鲸将空气吸入肺中的时候，就像是水蒸气被送到2000马力机器的大圆筒里面一样。

我暗自想，这只鲸鱼的实力一定敌得过一队骑兵的鲸鱼。

直到天亮，大家都一直保持着警戒，每个人都处于一种备战状态，

各种打鱼的设施都被搜罗出来——能把鱼叉射出一英里远的大口径短銃、致命的长枪，当然，还有尼德·兰手里那把可怕的鱼叉。

时钟指向6点，天亮了起来，独角鲸的电光被晨曦的微光淹没了。时钟指向七点，天大亮了，视野被晨雾挡住了，哪怕最好的望远镜也不起任何作用，因此大家又陷入了失望和懊恼之中。

我攀上尾桅，发现早有军官等在那里。

8点，晨雾渐渐被阳光消散，天渐渐明朗起来。突然，又传来了尼德·兰的喊声，像昨天晚上一样。他说：“看啊，怪物在船左舷后面！”

大家的目光再次聚集在尼德·兰手指的方向。只见距离战舰一海里半左右的地方，一个长长的黑色躯体浮出水面。它的尾巴像桨一样搅动着海水，形成一个巨大的漩涡，力大无比。这个动物经过的地方，都留下了一行巨大、雪白耀眼的水纹，汇成一条长长的曲线。

我们的战舰离这个鲸鱼类动物越来越近，我终于有机会观察这个怪物了。“山农”号和“海尔维地亚”号对这个怪物的分析报告描述得有些夸张，从外形上来看，它身长不过250英尺。至于宽，我很难估量。这是个长宽高比例很匀称的动物。

我发现，有两道水和汽从这只怪物的鼻孔吐出来，直喷到数十米的高度，由此我断定了它的呼吸方式，并且最后断定这动物属于脊椎动物门，哺乳纲，鱼类，鲸鱼目……属。到这里，我必须打住了。要知道，鲸鱼目有三科：长须鲸，大头鲸和海豚，独角鲸属于最后一科。每个科又分为好些属，属又分为好多种……尽管很复杂，但我相信，在上帝和佛勒冈船长的帮助下，我可以完成对这种动物的分类。

大家有些不耐烦了，因为船长迟迟不下命令。仔细地观察完这个动物后，船长叫来了工程师，问：“先生，气压够了吗？”

“够了，先生。”工程师答。

“好，加足马力，冲刺！”

战斗的号角令大家欢呼了三声。过了一会儿，两道黑烟从战舰的烟囱上冒出来，甲板随着汽锅震动起来。

“林肯”号像上了膛的子弹，猛地向怪物冲去，但这怪物好像一点也不在意一样，当战舰接近它半锚链2的时候，它的身体仍然露在水面上，逃跑的意思并不明显，只是刻意地与我们的船保持一定的距离。

就这样，我们的船与海怪前后相随持续了三刻钟左右，但我们的船甚至不能多接近这条鲸鱼4米。很明显，这样的局面很难打破。

佛勒冈船长心里很烦躁，不停地抚摸着下巴上的胡须。

船长喊道：“尼德·兰呢？”

尼德·兰很快出现在船长面前。

船长问道：“尼德·兰，你还愿意把小船放下海去吗？”

尼德·兰给出了否定的回答，因为他知道，除非这个东西自愿，否则很难捉住它。

“有什么办法呢？”

“先生，如果您允许的话，或者我可以尝试一下在船头前桅的绳梯

上守着，等我们足够接近它的时候，我就把鱼叉投出去。”

船长说：“好的，尼德·兰，就按你说的办。工程师，继续加大马力。”

尼德·兰踏上了他的岗位。火苗更加旺盛了，机轮每分钟转到43转，蒸汽从活塞里喷出。经过测程器测量，此时“林肯”号正以时速18海里半的速度前进。

但那个可恶的动物也不甘落后，也以时速18海里半的速度前行。

这样的速度足足持续了一个小时，哪怕多靠近鲸鱼两米的距离，也无法做到。这对于美国海军中最快的战舰来说，实在有点难为情。船员们流露出愤怒的表情，水手们诅咒着怪物，但怪物始终淡定如初。佛勒冈船长更加烦躁了，不停地摸着下巴上的胡须。

他再次将工程师叫过来，问：“马力已经达到最大的限度了吗？”

“是的，船长，按您的吩咐，已经将马力加到了最大限度。”他答。

“活塞上紧了吗？”

“上到了6.5气压。”

“把它们上到10气压。”

船长命令的语气很严厉。恐怕在密西西比河上，再也找不到这样的船了，哪怕是跟人比赛赌输赢的船，也无法做到。

我对站在我身边的葛瑟尔说：“伙计，你看，感觉我们的船马上就要爆炸了！”

“先生，听您的吩咐。”葛瑟尔答。

我很愿意利用这个机会过去尝试一下。

上紧了活塞，将煤炭倒入火炉中，风箱把空气送进去，火苗更加旺了。“林肯”号的速度又提了起来，船桅被风吹得震动起来。由于烟囱过窄，浓烟拥挤着找不到出口。

船长吩咐将测程器再一次抛下去。

“现在速度多少？”佛勒冈船长问。

“报告船长，19.3海里。”

“继续增加人力。”

命令生效了，气压表指向了10。但这条鲸鱼也毫不示弱，轻松地以19.3海里的速度移动。

多么激烈的较量呀！任何语言都难以描述我当时激动的心情。尼德·兰手拿着鱼叉站在他的岗位上准备着，有几次他们离得很近。

“我们追上它了！”尼德·兰大声喊道。

可就在尼德·兰准备投叉的时候，这条鲸鱼发现了危险，动作敏捷地逃开了。据我观察，它的时速足足有30海里。就在我们的船以最快速度航行的时候，它竟然能够绕船一周，就像是在逗我们玩儿一样！大家发自内心地愤怒了。

时间到了中午，捕鲸行动丝毫没有进展。于是，佛勒冈船长决定采取更为直接的办法。

他说：“既然‘林肯’号比不上它的速度，那我们只能利用锥形炮弹来对付它了。水手长，快叫炮手到船前头来集合。”

水手们立即装上炮弹，打了出去。然而，炮打空了，从距离船半海里远的动物上面掠过去，没有打中。

船长命令道：“换一名好炮手，谁能打中这个怪物，就奖给他500美元！”

船长的话音刚落，一位胡子花白、目光镇定、面容冷静的老水手走到大炮前，摆好炮位，对着目标瞄准。轰的一声炮响了，直直地打在动物身上，船员们欢呼起来。至今我还清楚地记得老水手的面容。

然而，打中的炮弹并没有给它致命的打击，而是从它圆圆的身上掠过去，落在两海里外的海中。

看到结果，老炮手暴跳如雷，说：“见鬼，这混蛋的身上一定有一层6英寸厚的铁甲！”

佛勒冈船长也无法淡定了，啐了一声：“该死的东西！”

在佛勒冈船长的命令下，“林肯”号又开始追逐鲸鱼了，船长发誓一定要追到那条鲸鱼，哪怕追到船爆炸！

对此我表示赞同。

既然不能在速度上战胜敌人，人们便开始期盼那只怪物体力不支。然而，这么长时间过去了，鲸鱼并没有显出一点疲劳的样子。

“林肯”号在这场战斗中的表现是可圈可点的，船上的每个人都保持

着一种不屈不挠的精神。据我估计，整天下来，鲸鱼至少游了500公里。

黑夜再次降临了，波涛汹涌的海洋被阴影笼罩着。

我以为我们的远征就这样结束了，要跟那只古怪的动物说再见了，然而事情并非如此。

夜间10点50分，战舰前面三海里的海面上再次亮起了光，跟昨天夜里一样闪亮，照亮了“林肯”号附近的海洋。

由于运动量过大，那条独角鲸好像是在休息，一直停着不动。也许是白天跑得累了。它漂浮在海水上。佛勒冈船长觉得这是个好机会，要好好利用。

为了不将敌方惊醒，他命令“林肯”号降低速度行驶，小心谨慎地前进。利用鲸鱼休息的机会一举消灭它们，这在海上是常有的事情。尼德·兰就不止一次在鲸鱼昏睡的时候叉中它们。这一次，他又到了船头斜桅下，走上了他原来的岗位。

战舰压低了声音前进，在距离动物370米左右的时候关了气门，船凭着惯性在移动。船上很静，连一根针掉落的声音都能听见。当船开到距离白热的焦点不足100英尺的时候，光的亮度再次强烈起来，照得我们眼睛发花。

这时，倚在船头栏杆上的我发现尼德·兰在我下面，一手拉着帆索，一手挥动他锋利的鱼叉，与那只睡着的动物距离只有20英尺了。

这时，他的胳膊猛地使劲一伸，将鱼叉投了出去。紧接着，我听到鱼叉碰上硬壳的声音。

突然，对面的电光熄灭了，战舰的甲板上，两团巨大的水猛扑上来，冲倒了船上的人，打断了护墙桅的绳索。而我也例外，由于没站稳，从船栏杆上掉到海中去了。

[1](#)佛拉得是一种腹足类软体动物。萨拉吧学名樽海鞘，是一种海洋无脊椎动物，是类似于水母的半透明、扁平桶状的海洋生物。

[2](#)锚链长度是按“节”来衡量的，一节链长约为27.5米。

第七章 种类不明的鲸鱼

突如其来的落水把我吓得发慌，但是，我知道自己当时是有意识的，我先是下到了20英尺深的水里。当然，我在潜水方面还是有一定造诣的（当然不能跟拜伦和埃德加那些大师相比）。尽管沉在水中，神志却很清醒。我两脚使劲一蹬，又浮上了水面。

寻找战舰所在的位置，是我浮出水面后做的第一件事。紧接着，一连串的问题在我的脑海里打转：船上的人发现我落水了吧？“林肯”号会不会改变航程？与独角鲸的斗争结果如何？会有人救我的吧？

夜色浓重，一个巨大的黑影消失在东方，它的标灯远远地熄灭了。我觉得不会有人来救我了，于是陷入了失望之中。

我拼命地喊着“救命”，并向林肯号游去。

由于衣服被海水浸湿了，穿在身上特别重，这成了我求生的障碍，我简直透不过气来了，我要沉下去了，发出了最后的呼声：“救命啊！”

紧接着，我的嘴里被海水填满，我越是挣扎，越被海水卷入水底……

就在死亡的边缘，一只有力的手拉住了我的衣服，紧接着，我被托出水面，葛瑟尔的声音在我的耳边响起：“先生，醒醒，您靠着我的肩膀，或许可以游泳。”

我一把抓住了葛瑟尔的胳膊，像抓住一棵救命稻草。

我断断续续地说：“是你啊，葛瑟尔。”

他答道：“是我，我来保护先生。”

“你也不小心掉到海中来了？”

“不是的，我跟过来照顾你！”葛瑟尔极为自然地说。

我接着问：“战舰呢？”

葛瑟尔转过身来回答：“先生，战舰是指望不上了。”

“什么意思？”

“我下水的时候，听见有人说‘舵和螺旋桨都坏了’。”

“坏掉了？”

“是的！是那个怪物干的，尽管‘林肯’号只是损坏一点，但那一点是最关键的地方，所以船已经无法掌握方向了。”

“我们死定了！”

葛瑟尔也知道我们生存的希望不大，但是他很平静地说：“我们还可以支持几个钟头，在这几个钟头内，我们可以做很多事！”

我被葛瑟尔的情绪感染了，也变得乐观起来，我用尽全身力气游着，但衣服仍然禁锢着我的身体，令我行动不便。葛瑟尔也意识到了，他用刀子割破了我的衣服，替我脱掉了，我终于可以抓住他游泳了。

过了一会儿，我将葛瑟尔的衣服也脱掉了，继续着我们的航行，但危险的处境并没有改变。葛瑟尔冷静地说：“这个时候大船已经指望不上了，现在我们只能指望大船上的小艇，那是我们唯一的生路。为了能坚持得更久一点，我们要尽量节约力量。”即使在水下，葛瑟尔的思维也很清晰，在计划着我们应做的事。

就像葛瑟尔说的，为了节约力气，我们一个人朝天躺着，两臂交叉，两腿伸直，浮着不动，另一个人潜水把他往前推送。我们轮换着做这种“拖船”的工作，只是每个人都不会超过10分钟，照这种方法，我们可以在水面上浮好几个钟头，也许可以一直支持到天亮。

接下来，就看我们的运气了。尽管我的心里对这件事不抱任何幻想，但是，只要想起我们有两个人，我就又重新燃起了希望。

此时是夜里11点钟，距离太阳升起还有8个小时，也就是说我们要继续游8个小时。老天还算照顾我们，海面没有波浪，很平静，使我们不至于太过疲劳。我试图透过黑暗，看看周围的环境，但什么也看不见，只有我们激起的浪花透出一点亮光来。在我手下破碎的水波，像一面镜子，又像一块青灰色的金属片，就好像我们在水银中游泳一样。

半夜1点左右，我开始感到疲倦，四肢开始痉挛，身体开始僵硬。为了保住两个人的性命，葛瑟尔一个人扛起了所有的工作。不久，就传

来了他急促的呼吸声，我知道，葛瑟尔也坚持不了多久了。

我对葛瑟尔说：“别管我了，保住自己的性命。”

葛瑟尔很快就否定了我的话：“那是不可能的，哪怕是死也是我先死。”

这时，风吹散了一片厚云，月亮露出了笑脸。在月光的照耀下，海水闪闪发光。我们像注入了力气一样，重新燃起了希望。我将头抬起，看向远方。在距离我们5海里的海面，我发现了模糊的战舰，但小艇，一只也没看见！

我想用喊声引起“林肯”号的注意，但是距离太远了，船上的人根本就听不见，并且我的嘴唇已经肿胀得发不出声音，好在葛瑟尔还可以说话，他连续喊了几声救命。

我们停止一切会影响我们听力的动作，等待着“林肯”号的回答。尽管我有些耳鸣，但仍然听见有人在回应葛瑟尔。

“他们听见我们的呼救声了，太好了！”我低声说。

“是啊，我们有希望了。”

这样的结果鼓舞了葛瑟尔，他再次向海面发出求救的呼喊。

这一次，我们听得很清楚，有人听到了我们的呼救，并且做出了回应。也许是跟我们一样的受难者，也许是撞船事故的另一个受影响者，也许是战舰上的一只小艇在黑暗中呼唤我们。

葛瑟尔为了将我托起，拼尽了最后的力气，而我也在与身体的痉挛

做最后的抗争。葛瑟尔将身体探出水面往远处张望，然后又筋疲力尽地躺下。

我问他：“有什么新发现吗？”

葛瑟尔没有回答我的话，他低声说，“为了保存体力，我们还是不要说话了！”

我有一种预感，他看见了那个怪物。在接下来的过程中，葛瑟尔始终坚持拖着，偶尔抬起头来，看看附近的情况，看看我们是不是距离“林肯”号越来越近了。我的体力消耗得越来越快，身体僵硬，仅存的一点力量根本无法支撑我的身体。海水开始往我的嘴里灌，身体被寒冷侵占了。我努力抬起了头，但没支撑一会儿便又跌入水里。

就在我觉得自己将要与世隔绝的时候，一个坚硬的物体支撑了我。随后，我感觉被人拉到水面上来，胸闷的感觉不见了，但我的意识正在渐渐消失。

我感觉有人在用力摩擦我的身体，产生的热度让我苏醒过来，我迷迷糊糊地睁开眼睛，问道：“葛瑟尔，是你吗？”

“我在这里呢，先生。”葛瑟尔答道。

傍晚，我醒来的时候，我第一眼看到的不是葛瑟尔，而是另一张对我来说很熟悉的脸。

我一口喊出了他的名字：“尼德·兰！”

“没错，先生，我就是来追奖金的尼德·兰！”加拿大人答道。

“您是怎么掉入海中的？”

“我也和你一样，在船被撞的时候跌入海中的，我比您幸运的是掉在了一个浮动的小岛上。”

“一个小岛？”

“我说的小岛就是您说的那只巨大的独角鲸。”

“尼德·兰，此话怎讲？”

“我终于知道为什么我的鱼叉拿那只怪物没有办法了。”

“究竟是什么原因呢，尼德·兰？”

“教授，那个东西是没有生命的，它是用钢板做的！”

好奇心让我重新振作起来，我努力回忆之前看到的那个怪物，尼德·兰的话让我的立场开始动摇，我要重新认识这个成为我们临时避难所的生物。我尝试着用脚踢它，真切地感觉到这是个坚固结实、钻不透的硬物体，而不是我所认为的海中哺乳类动物的庞大躯体的柔软物质。

我开始怀疑这是一个与太古时代动物的甲壳相似的骨质坚硬体，可以归入两栖爬虫类，就像是龟鳖、鳄鱼或是鼋龙¹之类的动物。

但是，我的想法再次被推翻了，我脚下的这个怪物的脊背是有光泽的，很滑，并不是粗糙有鳞的。触碰它时会发出金属所特有的响亮声，那么，尼德·兰说得没错，它是由螺丝钉铆成的铁板制造的了。

整个学术界都以为它是个动物，没想到它戏弄了所有的人，竟然是个人造的机器。这太令人惊讶了，所有人的心血都白费了。照目前的情

形来看，或许人们更愿意接受它是一个荒诞的、类似于神话的生物的事实。

答案已经清楚了，我们正在一个潜水船的脊背上，就像浮在一条巨大的钢鱼上。事实摆在眼前，我和葛瑟尔只能表示赞同。

“船上都有些什么？”我问。

“有一套驾驶机器和一批驾驶人员，他们已经三个小时没动了。”

“一直待在原地？”

“也不是，阿勒纳斯先生，它会随波漂荡。”

“如果是这样的话，我想我们有救了。”

“唔！”尼德·兰迟疑地说。

突然，这个钢鱼动了起来，在助推器的推动下，渐渐动了起来。我们赶快紧紧把住那个浮出水面约80厘米的上层。老天还算照顾我们，船的速度并不快。

尼德·兰低声说：“我现在最担心的是它突然沉到海里去，如果那样，我们就死定了！”

我们都很赞同尼德·兰的看法，现在唯一的办法，就是赶紧跟里面的人取得联系。据我推断，船的上层一定会有一个入口。于是，我们仔细地搜索起来，但我们很快发现，一行行的螺丝钉排列得很清楚、很均匀，把钢板衔接得十分结实，无缝可寻。

入夜后，我们毫无办法可寻，只能等到天亮再想法进入这只潜水船

的内部。

我们三个人的性命就捏在驾驶人的手里。如果他们潜入水下，我们就没有活路了。如果他们能一直坚持这样航行，我就有把握跟他们取得联系。要知道，哪怕在船里生存，也是需要空气的，他们肯定会到海面上来换气的，所以，我断定，船的上层肯定有个可以跟外界联系的口。

我们不再将希望寄托在佛勒冈船长身上，只能靠我们自救了。船的速度很缓慢，每小时约12海里。类似船桨的装置十分规律地搅动海水，有时船浮出一些，有时会向高空喷出磷光的水柱。

凌晨4点左右，船的速度明显快了起来，我们被拖得有些头晕。还好有尼德·兰，他一下子摸到了一个钉在钢背上的大环，我们牢牢地挽住它，才不至滑倒。

有一件小事令我印象深刻。当波浪小一些的时候，我似乎听到远处传来一些不可捉摸的乐曲声。我想，没有人知道那只怪船是怎样在水下航行的，是什么样的机器让它拥有这样快的速度，他们在船里是怎样生活的呢。

天终于亮了。雾聚集了一会儿，就散开了。正当我要仔细观察一下上层平台的船壳的时候，我觉得船渐渐下沉了。

尼德·兰用脚狠踢钢板，喊道：“你们就是这么待客的吗？赶紧开门吧！”

船在行驶的过程中，发出很大的声音，盖住了我们的喊声。幸运的是，过了一会儿，船竟然不再下沉。

突然，船里面发出一阵推动铁板的声音。一个人从铁板下面爬了上

来，看到我们大喊了一声，赶紧又钻了回去。

过了一会儿，我们被8个蒙着脸的壮汉抓到了机器中，被几个又高又大的壮汉押解着，我们的心里充满了恐惧。

1鼉，爬行动物，体长两米多，背部、尾部均有鳞甲。穴居江河岸边，皮可以蒙鼓。鼉龙是一种怪物。

第八章 动中之动

说时迟那时快，我们被粗暴地拖进潜水船中，在那样的环境里，我们根本就分不清方向。我不知道大家是一种什么样的心情，只觉得自己不由得打了一个冷战，感觉鸡皮疙瘩都起来了。难道我们遇上强盗了？

一个狭小的盖板将我们与外界隔开了，我们陷入一片黑暗中，伸手不见五指。我被绑在一架扶梯上，鞋子被脱掉了。尼德·兰和葛瑟尔跟在我的身后，也被人押着。通过声音，我们分辨得出有一扇门打开了，我们走进去以后，门就立即关上，发出很响亮的声音。

我们被孤零零地关在里面。黑暗中，我们根本不知道被关在哪儿，一丝光亮都没有。受到这样的对待，尼德·兰表示很生气，他尽情地发泄着自己的愤怒。

他大声喊道：“混蛋，你们太野蛮了，跟那些吃人肉的畜生没什么区别。告诉你们，我是不会屈服的！”

葛瑟尔显得很平静，他安慰道：“安静些，尼德·兰，现在还没到关键时刻，你没必要那么激动。”

尼德·兰完全听不进去，他说：“还没到关键时刻，我们已经快被烤了，兔崽子们，大爷还有把尖刀给你们留着呢，你们别得意得太早……”

见尼德·兰如此动怒，我对他说：“这种时候生气也没有用，只会让情况变得更糟，也许正有人监听我们说话呢。我们现在最重要的任务是搞清楚我们被关在哪儿。”

我尝试着往前走了几步，五步后，我碰到了一堵铁墙，所谓的墙其实是用螺丝钉铆住的铁板。接着，我向反方向移动，又撞上了一张木头桌子，桌子边放着几张方板凳。这间监狱式的房间地板上铺着很厚的麻垫子，走起路来听不到脚步声。从光光的墙壁也摸不出有门窗的痕迹。葛瑟尔从相反的方向走过来，我们撞在了一起。接着，我们重新回到舱房的中间，算起来舱房大约有20英尺长，10英尺宽。高度要高于尼德·兰的身高，但准确的数字，暂时还无法衡量。

半个钟头过去了，我们还是没有搞清楚状况，就在这时候，眼前突然从黑暗转向光明，简直是两个极端。这种光线我们在“林肯”号上就曾见识过，射在海面上就成了很美丽的磷光。我本能地闭上眼睛。为了弄清楚周围的状况，过了一会儿，又赶紧睁开，我发现光线是从装在舱顶上的一个半透明的半球体中发出来的。

看清楚周围的尼德·兰拿着刀做出防卫的姿势。很明显，我们的处境很危险。

“先生，放轻松点。”冷静的葛瑟尔说。

我们借着舱房的灯仔细地观察里面的环境。只见房中有一张桌子和五张凳子。由于封闭很严谨，看不到门户。周围很安静，我们听不到任

何声音。在这种情况下，我们想搞清楚它是停在海面上，还是在海底下移动。

但是，突然变得这样明亮肯定是有原因的。我估计，很快就会有人过来跟我们见面了，而且很可能是一个重量级的人物。我果然没有想错。很快，一声门响后，走进来两个人。

走在前面的是一个身材短小的男人，他肌肉发达，两肩宽阔，躯体健壮，头颅看起来很结实，蓬松的黑发，浓浓的胡须，犀利的目光。看起来应该是南方人，因为他身上散发着法国普罗文斯省人所特有的气概。狄德罗认为人的手势是富于譬喻的，这个人的举动就很好地诠释了这句话。我想他一定是一个善于用修辞的人，出口成章。可惜的是，我无法证实这件事，因为他对我讲的是一种特异的、听不懂的语言。

第二个人长得更有特点，总结如下：第一，自信，因为他的头高傲地摆在两肩形成的弧线中，他那漆黑的眼睛冷静地注视着人；第二，镇定，因为他的肤色，苍白不红，表示他血脉的稳定；第三，刚毅，这从他眼眶筋肉的迅速收缩可以看出来；第四，勇敢，他的深呼吸表明了他的肺活力很强。

不仅如此，这还是一个有才华的人，他坚定的目光似乎反映出他高深的思想。所谓相由心生，从他的举止和表情来看，他应该是个坦白直率的人。

他的出现并没有给我们带来紧张，反而让人觉得很安定，我料定我们的交谈会很顺利。

我无法确定这个人的年龄，只能发现一些表面特点，比如他身材高大，前额宽阔，鼻子笔直，嘴唇平正，牙齿齐整，两手细长，按照面相

学来说，这个人感情丰富，堪称完美。他还有一个细微的特征，那就是两只眼睛的距离要远一些，视野更加宽阔。这一点在以后的日子里得到了证实，他的眼力甚至比尼德·兰的还要高强。他注视一样东西的时候有一个特点，就是会紧皱起眉毛，微微合上眼皮，也许这样更聚光。这是我见过的看起来最厉害的眼神了，感觉他能放大远方的事物，还能洞察人的内心，甚至能一眼看穿海底深处的情形。

这两个戴着水獭皮便帽、蹬着海豹皮水靴、穿着特殊织物做成的衣服的陌生人，动作非常灵活，而且显得非常与众不同，而其中高个的那位显然是这船上的首领，他用打量的眼神将我们从头看到脚，一言不发。然后转身对他的同伴说了一些我们不懂的话。他们的语言听起来很响亮、婉转，其中母音的声调好像变化很多。

他的同伴一边点头一边回答，然后转过身来对我们说些什么。由于语言不通，我们只能用法语告诉他我们听不懂。这样的交流非常困难。

葛瑟尔提醒我向他们讲讲我们的经历，于是我用非常清晰的音节向他们重新讲述了我们的遭遇，并向他们做了正式的自我介绍，当然，也向他们介绍了我的仆人葛瑟尔和鱼叉手尼德·兰师傅。

他们似乎对我的描述非常感兴趣，一直认真地听着，但是从他们的表情来看，他们似乎没有听懂我说的话，始终一言不发。

现在只剩下一个办法，我决定讲英语试试。这是一种很流行的语言，希望他们能听得懂。但是，尽管我平时经常看英语和德语的书，但是说起来仍然很困难。不过，为了让他们明白我们的意思，只有硬着头皮说下去。

但效果并不佳，我叫来尼德·兰，说：“还是您来说吧，您的英语地

道一些，也许他们能听得懂。”尼德·兰很痛快地答应了，用英语将我们的经历讲了一遍。他的大概意思跟我说得差不多，只是加了一些渲染，质问他们藐视人权，警告他们没有权力将我们关在这里，还特意引证了《人身保障法》的条文，要对非法监禁我们的人提起诉讼。他的言语很激动，动作很夸张，最后用手势告诉他们，我们饿了，要吃东西。

刚才过于专注，忘了吃饭这件事了，此时我们的肚子都发出了咕咕的声音。

结果再次令我们失望了，尽管尼德·兰说得天花乱坠，但他们还是没有任何表情，很显然，他们不懂英语。现在我们真的不知道该怎么办了，他们既不懂得阿拉戈的语言，也不懂得法拉第的语言，我们实在无能为力了。正在大家为难时，葛瑟尔对我说：“先生，不如我跟他们讲德语试试。”

“你懂德语？”我吃惊地问。

“先生，您不会因此不高兴吧，我像其他的佛兰德斯人一样，会说德语。”

“小伙子，我当然不会生气了，正相反，我很高兴，开始吧。”

葛瑟尔第三个出马，用德语将我们的遭遇又描述了一遍，语气一如既往地镇定。可是，这样的尝试再次失败了，他们还是不懂。我们再次陷入了失望之中，开始后悔自己懂的语言太少。突然，我想起我小的时候学过拉丁语，于是尝试用拉丁语讲述我们的经历。实际上，懂拉丁语的人一定会笑话我的发音，但是为了解决问题，我只能硬着头皮说下去。可结果再一次让大家失望了。

最后，这两个陌生人见我们不再说话，便用那种特殊的语言彼此说了几句，就走开了，对我们没有任何表示，门就关上了。

尼德·兰又开始发怒了，埋怨这些人的无理，同时，怪自己倒霉，说了那么多种语言，法语、英语、德语、拉丁语，可是这些人一种都不懂。

尼德·兰的抱怨让我有些不满，我生气地对鱼叉手说：“够了，发脾气能解决问题吗？我们有时间还是想想别的办法吧。”

可是，我们的伙伴根本听不进去我的劝告，反问我：“可是，教授先生，难道我们就在这铁笼子里等死吗？”

葛瑟尔说话了：“放心吧，我们不会那么容易死掉的。”

我对葛瑟尔的话表示赞同，说：“别那么悲观，也许事情没那么糟。现在，大家来发表一下对刚才那位船长和船员的看法吧。”

“我认为这些人就是混蛋！”尼德·兰回答。

“老兄，我们要讨论的不是这些。我承认，这两个人的国籍很难断定，既不是英国人，不是法国人，也不是德国人。依我看，这个船长和他的助手应该是生长在低纬度地带的人。他们身上带有南方人的特点。难道他们是西班牙人、土耳其人、阿拉伯人或印度人吗？当然，这只是猜测。至于他们的语言，实在很难猜测。”

葛瑟尔说：“语言不通真的很麻烦，看来世界上需要一种统一的语言。”

尼德·兰说：“他们才不管别人说什么语言呢，之所以用这种语言，

好像就是为了让别人无法听懂。你们想想，语言不通可以理解，难道张张嘴、动动牙齿是饿了想吃饭的意思还不懂吗？世界上任何一个地方都是通用的吧，所以我说他们是故意的。”

葛瑟尔说：“也许他们真的是那种不聪明的人！”

正在我们争论的时候，房门打开了，一个侍者进来给我们送衣服，是那种海上穿的上衣和短裤，衣服的质料我从来没有见过。我们赶紧将衣服穿上。接着，侍者将三份餐具放在桌上。从侍者的动作来看，他也许是个哑巴，或者是个聋子。

葛瑟尔说：“这才是待客之道嘛。”

尼德·兰不屑地说：“算了吧。这里能有什么可吃的？至多是甲鱼肝、鲨鱼片，海狗骨头罢了！”

“也许会有惊喜哦！”葛瑟尔说。

桌布已经摆好了，食物用银制的罩子盖着，我们在饭桌前坐了下来。很显然，我们受到了礼遇，从这一点可以看出，对方是一个有文化、有礼貌的人。如果不是看到刺眼的电光，我简直会以为自己是在豪华的酒店里。当然，我要对大家说清楚，这里没有面包和酒，只有新鲜、清凉的水，很显然，尼德·兰并不喜欢。在餐桌上，有几种肉我认得，是烹调得很精致的鱼，还有几种是我说不出名字的菜，我甚至分不清它们是动物还是植物，不过很好吃，很合我的胃口。餐桌上的餐具也很精美，勺子、叉子、刀、盘上都刻着字母，字母周围有一句题词，原文被我们抄了下来，内容如下：

MOBIL IS IN MOBIL IN

翻译过来是动中之动！这里的IN译成“中”字正好可以用在这只潜水船上。而字母N可能是在海底下发号施令的那位神秘人物的姓名开头的字母。

我的两个同伴现在只想着一件事，就是尽量多吃一些，我很快也加入了他们的队伍。还有一件事可以确定，就是从目前来看，我们应该是安全的，主人肯给我们食物，而且食物还很丰富，看来主人没有让我们死的意思。

吃饱以后，紧接着，睡意就侵袭过来。我们已经连续与死亡抗争了一夜，看来现在该休息一下了。

“伙计们，我真想好好地睡一觉。”葛瑟尔说。

“英雄所见略同！”尼德·兰回答。

说时迟那时快，我的两个同伴躺在舱房的地毯上，没过多久就开始打鼾了。

而我，尽管也很困，但却睡不着。有很多问题还没有答案，我忍不住开始思考。而且，我明显地感觉到船在向海底下沉。于是在半梦半醒之间，我被噩梦纠缠住了。在关押我们的那个屋子里，我窥见了一大群没见过的动物，它们好像和这只潜水艇是同类，一样可怕。渐渐地，我的思绪停止了，开始慢慢地睡去。

第九章 尼德·兰愤怒了

不知道睡了多久，我们的精神恢复如初。我是第一个醒来的，看到我的同伴还趴在角落里，留在睡梦中。

当脑袋离开那种硬邦邦的床以后，我马上变得清醒起来，我又恢复了以前的精力。我开始重新打量这个关押我们的地方，没有发现任何不一样的地方。唯一的区别是，那个侍者在我们熟睡的时候，把桌上的东西拿走了。毫无变化的处境让我产生了一种怀疑，我们会不会被永远关在这个囚笼中。

然而，困扰我的并不只是这种无法逃脱的想法，更令我难过的是越来越稀薄的空气。这是一间封闭的屋子，正常情况下，每人每小时要消耗100升空气中所含有的氧，而现在的境况显然不能满足我们的正常需要，如果再这样下去，当这间屋子只剩下二氧化碳的时候，我们就无法呼吸了。因此，眼下最迫切的问题是给我们的牢房换换空气，当然，整个潜水艇也该换换空气了。

我再次对这所移动住宅如何换气的问题感兴趣起来，难道他们通过氯酸钾加热放出氧气？还是用氢氧化钾吸收二氧化碳气体呢？如果他们通过这些化学方法获得氧气，就必须与陆地保持一定的联系，才能取得这些化学原料。或者是他们利用高压把空气储藏在密封的房间里，然后根据船上人员的需要再把空气放出来？还是他们用更方便，更经济，也是最容易实现的方法，像鲸鱼类动物一样，每隔24小时浮到水面上来换一次空气。不管怎样，都到了该换气的时候了。

呼吸困难的感觉越来越强烈了，我不得不加紧呼吸，以便吸取更多一点氧气。突然，我感觉到房间里变得凉快了，而且闻到了一股带海水咸味的新鲜空气。我确定，屋子里吹来了含有大量碘质的海风。为了让肺部充满新鲜气体，我张大了嘴。这时，我明显感到船在摇摆，原来它

浮到了海面上，果然，它采用了鲸鱼的呼吸方式来换气。

在自由地呼吸着新鲜空气的同时，我的头脑更加清晰，开始寻找那个透气的孔，也可以说是“通气的管子”。结果很容易就被我找到了，就在房门的上面，源源不断的空气就从那里送进来，填补房中不足的空气。

正在我观察周围的情况时，我的两个伙伴也醒过来了。他们揉揉眼睛，伸伸懒腰，一下子站起来。

葛瑟尔像平常一样，客气地问：“先生睡得好吗？”

我回道：“还可以，葛瑟尔！尼德·兰，您睡得如何？”

“非常甜美，教授。不知道是不是我的错觉，我觉得我现在呼吸的是海风！”

水手的嗅觉果然灵敏，我将刚才发生的事告诉了他们。

他说：“怪不得我们在‘林肯’号上看到这条所谓独角鲸的时候会听到那种吼声呢。”

“尼德·兰师傅，没错，那就是它的呼吸声！”

“不过，阿勒纳斯先生，是不是到了晚餐时间了，我睡得忘记时间了。”

“伙计，你说的是昨天的晚餐吗？现在恐怕已经是第二天的中午了，该吃午餐了。”

葛瑟尔吃惊地问：“难道我们睡了24个小时？”

“我想没错。”我答。

尼德·兰根本不关心时间，他真正在意的是填饱自己的肚子，他说：“不管是什么餐，只要有东西送过来，我就很满足了。”

“两顿一起来吧。”葛瑟尔说。

加拿大人说：“这个靠谱，船上的午餐和晚餐，我们都得尝尝。”

我接着说：“对呀！尼德·兰，不用担心，这些人并不想饿死我们，否则昨天就不会给我们送餐了。”

“难道，要先把我们养肥？”尼德·兰问。

“我可不这样认为，他们可不像是吃人的野蛮人！”我回答。

尼德·兰很严肃地说：“仅仅是送了一次饭而已，不能说明什么，谁知道这些人多久没吃新鲜的肉了。如果真是这样的话，教授您，您的仆人和我，三个身体健康的人的肉……”

我打断了尼德·兰的话，说：“您不要这样想，也许这样的想法会让我们陷入更糟的处境。”

鱼叉手说：“可是，事实确实如此，我们饿得要命，却没有食物送来。”

我答道：“尼德·兰，也许是我们的胃口赶在船上规定的用餐时间前面了。”

“是！我们忍一会儿就好了！”葛瑟尔安静地答道。

性急的尼德·兰又开始抱怨起来：“葛瑟尔，我真是佩服你的定力，不管遇到什么事情都不发火，总是那么镇定。竟然还可以把饭后的祷告挪到饭前来念，就算饿死，也不埋怨一句！”

“埋怨又不能改变事情的结果。”葛瑟尔说。

“至少可以发泄一下。我知道，教授不喜欢我管他们叫吃人的野蛮人，那我只有管他们叫海盗了。这些海盗以为将我们关在这个笼子里，就听不到我的咒骂，那就大错而特错了。教授，您说他们会不会放我们出去？”尼德·兰问。

“说实话，我也不知道，尼德·兰。”我回答。

“那么，您预测一下如何？”

“这就要看我们发现的是不是一个重大的秘密了。如果潜水艇上的人认为这个秘密对他们很重要，一定要保守，不能让更多的人知道，那么，我们就危险了。如果情形刚好相反，那么我们应该用不了多久就能出去了，他们只是等待一个登陆的机会。”

葛瑟尔说：“说不定他们就这样把我们留下来了呢，把我们编入他们的船员名册中了。”

尼德·兰接着说：“把我们留在这艘船上，直到有一艘比‘林肯’号更快、更灵巧的战舰，一举歼灭了这个匪巢，才能将我们解救出去。”

我答道：“也许像你说的那样，尼德·兰师傅，可是，到目前为止，他们还没有向我们表达这种意思。我们现在讨论这种事情是不是太早了？我再强调一遍，我们要等待，既然没事就不要随便找事。”

鱼叉手坚持自己的看法，他说：“教授，正相反，我们要大干一场了。”

“哎！尼德·兰师傅，干什么呀？”

“逃走啊。”

“在陆地上逃狱都那么难，更何况是海底的监狱，我看不行。”

葛瑟尔问尼德·兰：“你打算怎么做？我想一个美洲人是不会束手无策的！”

事实很清楚，想逃出这里，是一件不可能的事。鱼叉手面对葛瑟尔的质问，默不作声。从尼德·兰身上还是可以看出法国人的特质的，从他的回答中，就可以看出来。

过了一会儿，尼德·兰说：“那么，阿勒纳斯先生，既然逃跑是不可能的，那我们该怎么办呢？”

“我也不知道，我的朋友。”

“很简单，留在这里啊。”

葛瑟尔说：“对呀！留在里面总比留在上面或下面好些！”

尼德·兰赶紧补充道：“不过，首先要将看守、警卫和把门的都赶出去。”

“尼德，兰，难道你想占领这艘船？”

“是的。”加拿大人回答。

“这怎么可能？”

“先生，怎么不可能呢？机会来了我们没有理由不利用，如果这个船上只有20个人，我想，我们两个法国人和一个加拿大人是可以做到的！”

我不想再与尼德·兰讨论下去了，对他的想法，我不再表示反对，只是告诉他在机会到来之前一定要忍耐，不要有任何动作。不管什么行动，只有事前计划好，才会有成功的可能。

尼德兰答应我不再发脾气，不再说粗话，不再做粗暴的动作，不表现出任何企图来。可是，他的承诺并不能使人安心。不过为了鼓励他，我还是表示了赞同：“好，尼德·兰，就这么一言为定了。”

随后，房间陷入了沉默，我们分别想着自己的心事。尽管尼德·兰对占领机器船表现出很大的信心，但是，我对此不抱任何幻想。我觉得尼德·兰所说的机会很不靠谱，一艘船能够维持正常的运行一定会有很多人，一旦发生冲突，如果我们的对手很强大，我们就更不可能活着出去了。就算是想破脑袋，我也想不出该如何逃出这间房子。再者说，船长怎么会允许我们自由行动呢，很显然他是要保守秘密的，让不让我们活下去还是个未知数呢！只有那个头脑简单的鱼叉手还想着能逃出去。

尼德·兰的脸上始终表现出激动的神情，一定是在幻想着占领机器船的情景。过了一会儿，我又听见他嘴里不知在默默地咒骂着什么，只见他的样子愈来愈吓人。终于他站起来，像一只被困的老虎，愤怒地敲打着墙壁。

时间过得很快，我们已经快饿得虚脱了，这一回，侍者并没有来。我想，如果他们对我们还存在一点友善的态度，就不该如此忽视我们三

个人的处境。

尼德·兰饿得快发疯了，碍于之前的承诺一直在忍耐着，但我很担心，一旦船上的人出现，他会彻底发作。

两个小时过去了，尼德·兰更加愤怒了，他开始叫喊，可是没有任何回应。舱房里一阵寂静，没有一点声响。而且，我明显感觉船不动了，因为船身在推进器推动下所发生的震颤不见了。我猜测有可能是它潜入到大海的最深处了，所以才会这样阴森可怕。

被困在这间房子里这么久，我真的不敢想象接下来会发生的事。我们曾经幻想船长会放我们出去，现在看来果真是幻想，永远不会变成现实。我不再觉得船长是一个高雅善良的人，他在我的印象中变成了一个无情的、冷酷的怪人。在我眼里，他完全没有人性，也没有同情心，他是人类永远的敌人，我们之间有着解不开的仇恨。

也许，他们存心将我们关在这里活活饿死，想到这儿我越来越感到恐惧。这种时候，只有葛瑟尔若无其事，而尼德·兰已经开始像猛虎般在吼叫。

这时候，门外传来了脚踩在金属地板上的声音。门锁响了一声后，侍者从打开的门外走了进来。

还没等我们反应过来，尼德·兰便像猛虎一样扑过去，一把抓住这个步行的侍者，用手掐着他的脖子。侍者被他那有力的大手掐得透不过气来。

正当我和葛瑟尔想解救这个侍者的时候，我听到有人用法语说：“您不要急，尼德·兰师傅。教授先生，您听我说！”

第十章 水 中 人

说话的人正是这艘船的船长。

尼德·兰听了船长的话，立刻站了起来。在主人的吩咐下，被掐得半死不活的侍者赶紧蹒跚着离开，并没有表现出对尼德·兰的愤恨，这足以证明船长在船上有很高的威信。我和葛瑟尔都有些吃惊，我们默默地等着看事情如何发展。

船长靠在桌子的一角，双手交叉着，仔细地观察着我们。他在想什么？难道是后悔刚刚用法语对我们说话？

我们都保持着沉默，谁也不愿意先开口。过了一会儿，船长用镇定的语气说：

“各位，其实我会说法语、英语、德语和拉丁语。初次见面时，你们说过的话我都听得懂，但为了证实你们说的话是真话，我才让你们将事实描述了四遍。而你们的四次描述，内容都完全相同，这使我肯定了你们的身份。很荣幸，我竟然遇到了肩负着出国进行科学考察使命的巴黎博物馆生物学教授伯艾尔·阿勒纳斯先生、他的仆人葛瑟尔以及北美合众国海军部‘林肯’号战舰上的鱼叉手尼德·兰先生。”

我们对船长点点头，表示礼貌。船长的法语很标准，没有一点口音。不管是字句、词汇还是表达，都很流利，像是出自法国人之口，但是从外表来看，我又觉得他不是法国人。

他接着说：“先生们，隔了这么长时间才来看你们，你们一定觉得我很无礼。其实，我一直在考虑，怎样对待你们几个人，但始终没有做出决定。要知道，你们打乱了我的生活，因为我是一个与人类不相往来的人……”

“我们不是故意的。”我说。

“真的是这样吗？”船长提高了声音说：“你们应该清楚，自己为什么上‘林肯’号，也应该知道‘林肯’号在海面上到处追逐我，用炮弹轰我的船。尼德·兰师傅还用鱼叉打我的船，难道这一切都不是故意的吗？”

从船长的语气中，我听出了愤怒。面对这些指责，我觉得自己有必要进行一些说明：“先生，您知道吗，您已经在美洲和欧洲引起争论了。您的潜水艇冲撞其他船只所发生的意外事件，已经轰动了两个大陆。您没必要知道人们做了多少种神秘的假设，但您应该知道，直到太平洋北部海面，‘林肯’号仍然觉得是在追打一种海怪，所以才非要把它从海洋中清除掉不可。”

船长的脸上露出轻轻的笑容，他温和地回答：“阿勒纳斯先生，您能确定你们的战舰只是在追击海怪，而不是去追击潜水艇吗？”

我很难回答这个问题，因为无论是潜水艇还是巨大的独角鲸，都是佛勒冈船长要消灭的对象，这是他的职责。

船长接着说：“先生，既然您无法回答我的问题，我就有权利把你们当成敌人看待。”

我不想再跟他纠缠这个问题，所以，故意不回答。

船长又说：“我没有接待你们的义务，我可以重新将你们扔回到这

艘船的平台，就当没有发现你们一样，我甚至可以潜入海中，我有权这样做的，对吗？”

我回答道：“只有野蛮人才会这样做，文明人是不会这样做的。”

船长有些激动，他说：“我不是你们所说的文明人，我早就跟整个人类社会断绝了关系。所以人类社会的法规对我没有用，希望您以后不要再在我面前提这些东西了。”

船长说这些话的时候很果断，并且他的眼睛里闪烁着愤怒和轻蔑，我敢肯定，这个人的背后一定隐藏着一段不平凡的经历。他不止让自己游离于人类的法律之外，而且让自己保持绝对的独立、自由，不受任何约束！很显然，与他交手的船都获得了失败，谁还敢到海底下去追赶他呢？面对这样一艘特质的铁甲舰，哪一艘能吃得消它的冲撞呢？在这种情况下，没有人能够质问他所做过的事，现在只能等待他的判决了。

我的脑子里很快闪现出上面的想法，谁知那个怪人一言不发，好像在思索着什么。我像俄狄浦斯注视人面狮身怪一样，既害怕又好奇地注视着它。

船长再一次打破了沉默，他说：“尽管我还在迟疑，但既然命运将你们送到这里来，你们就留在我的船上吧。在这里，你们是自由的，但有一个前提，你们要答应我一个条件，你们只要口头上答应就可以了。”

我答道：“先生，您说吧，我想这一定是一个正直的人可以接受的条件。”

“是的，先生，是这样的。我们遇到了一点小意外，因此，我必须

将你们关在你们住的舱房里几小时，或是关上几天。我也不想这样，但是特殊情况特殊对待，你们一定要服从。我应该对你们负责，不该让你们看到的，与你们无关的，就不能让你们看到。你们能答应吗？”

看来船上一定发生了什么事情，而且是不符合法律的。也许这将成为我的经历中非同小可的一件事。

“我们接受，但您要回答我一个问题。”

“说吧，先生。”

“你刚刚说我们完全自由，那么您所说的自由是怎样的自由呢？”

“你们可以像船上其他人一样随便走动，随便观察，但是特殊情况下除外。”

显然，我并没有得到我想要的答案，于是我又说：

“先生，很抱歉，囚徒在监狱里也是可以随便走动的，这种自由显然不能满足我们的要求。”

“可是你们还想拥有什么自由呢？”

“我们要见我们的祖国，我们的朋友，我们的亲人！”

“这样做只是让你们不再受那世俗的束缚罢了。这明明是束缚，你们却认为是自由，抛弃了它，不会像你们想象得那样难受的！”

尼德·兰喊道：“告诉你，以后我会想办法逃走的。”

“尼德·兰师傅，我并没有让您回答。”船长冷淡地说。

我也被他激怒了，说：“先生，您倚势欺人！太蛮横了！”

“先生，您误解了我的仁慈！对于我来说，你们是俘虏，我有权将你们重新送回海底去，但我还是留下了攻击过我的你们。你们发现了一个任何人都不会知道的秘密，您以为我会将你们送回陆地上去吗？永远都不可能，我要你们留在这里，不是为了你们，而是为了我自己！”

可见，船长是非常固执的，他的看法很难改变。我明白，他是让我们在生死之间进行抉择。对于这样的条件，我们很难接受。

但船长接下来的话，对我产生了很大的影响。他说：“阿勒纳斯先生，在此之前，我对您有所耳闻。我相信，上我的船对您而言是一个有趣的旅行，你应该会喜欢。我以前拜读过您关于海底秘密的著作，对于生活在陆地上的人而言，这部著作非常难得。但是，对于海底的了解，您只是完成了一部分而已，海底世界还有很多神奇的景象，相信您一定会百看不厌的。跟我在一起，您会一直保持一种震惊、好奇的心情，下一次进入海底世界的时候，我们将是一对科学研究的伙伴。相信我，我会将一个新的元素世界展现给您，您将领略到其他人没见过的世界。”

我的心事被船长说中了，我甚至暂时忘记了接受他的建议会让我失去自由。以后的事情以后再说吧，于是我回答道：“先生，尽管你游离于人类生活之外，但是您无法否认人类感情的存在，我们非常感谢您收留我们。就我个人而言，我可以暂时忘却自由，去追寻科学，我相信，我这样做值得。”

很遗憾，船长并没有像我想象的那样，与我握手表示赞同，而是想离开房间。我及时制止了他，问了他最后一个问题：应当如何称呼他。

他告诉我们可以称呼他尼摩船长，而我们所在的这条船叫“鹦鹉

螺”号。

尼摩船长将侍者叫进来，并用那种我听不懂的语言吩咐了几句。然后转身对尼德·兰和葛瑟尔说：“你们跟这个人去你们的舱房用餐吧。”

“我很乐意！”尼德·兰回答。

于是，他和葛瑟尔跟这个关了我们30多个小时的房间告别了。

“阿勒纳斯先生，我带您去吃午餐。”

“船长，听您的。”

我在船长的带领下，走上了一条有电光照耀的走廊，大约走了十多米以后，第二道门在我们面前打开。

一个装修考究的餐厅呈现在我的眼前。小餐厅的两端摆放着镶嵌乌木花饰的高大橡木餐橱，橱柜架子的甲板上摆放着各种价值连城的陶器、瓷器、玻璃制品。在由天花板倾泻的光线的照耀下，金银制的餐具显得辉煌夺目，天花板上的精美图画，使光线显得更加柔和。而在餐厅的中央摆着一桌丰盛的菜。尼摩船长指引我入座，并对我说：“教授，您饿了吧，赶紧吃吧，别客气。”

这是一顿丰盛的午餐，有很多鱼类和荤菜，其中几道菜我连名字都说不上来。这些食物都是用上等的食材做成的，尽管有一些特殊的味道，但是很合我的胃口。还没等我问船长一些关于菜的问题，他就已经猜到了我的心事，主动回答我说：“这些菜对于生活在陆地上的您来说一定很陌生，但您可以放心大胆地吃，这些菜很卫生，而且富有营养。长久以来，我一直吃这些食物度日，船上的其他船员也是一样，你看，我们的身体一样强壮。”

我好奇地问：“这些食物都是海产品吗？”

“没错，教授，我的全部生活来源都来自大海。通常我会用撒网的方式获取食物，有时候，会等到网满得快要断了才把它拉上来。偶尔，我们也会去那些海底深处获取食物，追逐那些生活在海底深处的猎物。海底对于我而言，就像牧场对于牧民一样，整个海底都是我的私人产业，它们是造物主送给我的礼物。”

我吃惊地看着尼摩船长，说道：“船长，餐桌上有鱼做成的食物我能理解，但有一点我想不明白，餐桌上怎么会有肉呢？”

尼摩船长回答：“教授，我想您是误会了，我从来都不吃陆上动物的肉。”

我指着盘子里的东西，对船长说：“难道这不是肉吗？”

“教授，您误会了，这不是肉，这同样是海里的东西，具体来说就是海螯的里脊。这盘像炖猪肉的是海豚的肝。我有一个很精干的厨师，他能将菜做成不同的样式。您尝尝这道被马来西亚人誉为世界上最美味的菜——海参罐头。这是奶油糕，这奶油不是普通的奶油，它是从鲸鱼的奶头上挤出来的，糖是从北极海中的一种大海藻里提炼出来的。还有一道菜，您一定要尝一尝，就是这道秋牡丹的果子酱，它的味道比最甜的果子酱还要好。”

我怀着一种好奇的心情品尝了所有的菜，其实，真正吸引我的并不是食物，而是尼摩船长讲的那些不可思议的、听起来非真非假的故事，他说：“阿勒纳斯先生，我们吃的、穿的都来自神秘的大海，这是我们生命的源泉。你往自己身上看一看，这些衣料是由一种贝壳类的足丝织

成的，染上了古人喜欢的红色和我从地中海海兔类动物中提取出的紫色。我们船上的香料是从海底植物中提炼出来的；睡觉用的床是用海中最柔软的大叶海藻做成的；写字用的笔是用鲸鱼的胡须做成的，墨水是用墨鱼或乌贼分泌的汁做成的。总之，现在我所拥有的一切，都是海洋赠予我的。”

“船长，您对海的感情很深吧？”

“这是肯定的，占地球面积70%的海洋就是一个包罗万象的世界。这个世界很单纯、很纯净，生活在海洋里的人不会觉得孤单，因为他的左右到处都是生命的气息。海象征着包容和爱，正像著名的法国诗人说的那样，海洋是不死的。大自然赋予了海洋三种生物，那就是动物、植物和矿物。海洋中的动物繁殖能力很强，主要包括腔肠动物四类，节肢动物三类，软体动物五类，脊椎动物三类，即哺乳类、爬虫类和成群无数的鱼类。鱼类的品种最丰富，足足有13000多种，其中在海水中生存的占了九成。海是大自然的仓库，一切都源于海，一切又归于海。海洋能够为你打造一个和谐的世界，在陆地上拥有的暴力、战争，在这里都消失了，在这里没有嚣张的气焰，没有权势，只有和谐。先生，海能够赋予人独立的个性，赋予人自由，所以，就在海里生活吧，您将成为一个完全自由的人！”

尼摩船长正说到兴头上，突然不再出声了。我不知道是什么原因，也许是他说得太多了，也许是他不太习惯这种表达方式。只见他在房间里走来走去，很焦躁的样子。过了一会儿，他逐渐平静下来，脸上又恢复了那种平静的表情，对我说：

“教授，现在我可以带您去参观我们的‘鹦鹉螺’号，不知道您愿不愿意。”

第十一章 “鹦鹉螺”号

离开了餐厅，我们来到了另外一个与餐厅差不多大的房间——图书室。高大的紫檀木镶嵌着铜丝的书架摆在图书室的四壁，架上的隔板上摆放着装帧统一的书籍。在书架下面摆着一排用兽皮盖住的长沙发，坐上去很舒服，曲度很适合人类的生理结构。沙发的旁边配有一排可以随意移动的支架，可以将书放在上面看。除了书架和沙发，在房间的最中央放着一张大桌子，上面放着一些过时的报纸，还有很多小册子。从天花板的磨砂玻璃球里照射出柔和的灯光，使整个房间显得很温暖。我被这个设计精致的图书室吸引住了，对于船上能有这样精致的图书室感觉很惊讶，满肚子赞美的话。

我将身子转向在沙发上躺下的主人说：“尼摩船长，对于这座隐藏在海洋深处的图书室，我满怀激动，如果它存在于大陆的宫廷中，或许我不会这般吃惊。”

尼摩船长说，“教授，这里是不是比您的自然博物馆工作室还安静呢？”

“您太谦虚了，尼摩船长，这里要比我的工作室豪华一百倍，这里有六七千本书呢……”

“阿勒纳斯先生，准确地说是12000本。这些书隔绝了我与陆地上的所有联系，我的‘鹦鹉螺’号第一次潜入水底的那一天，我购买了最后一批书，最后几份日报。从那时起，人类的思想就与我隔绝了。这些书可

以任您翻阅。”

我很感谢尼摩船长给我这样的机会，我将书架从上到下打量了一下，我看到了不同语言的科学书、哲学书和文学书，唯一缺少的是政治经济学书籍，一本都没有。在整个图书室，不同语言的图书随意排列着，没有明显的分类，从这一点可以看出，“鹦鹉螺”号的船长通晓很多国家的语言。

无论是古代还是近代大师的杰作都可以在这里都看到，这里凝聚了人类在史学、诗歌和科学等方面多年积累的成果，从荷马到维克多·雨果，从色诺芬到米希勒，从拉伯雷到乔治·桑夫人，每一本书都凝结了一个时代的精华。这个图书室最珍贵的图书要数那些机械学、弹道学、海洋绘图学、气象学、地理学和地质学等方面的书籍，它们占据了书架的重要位置，很显然，主人很注重研究这方面。此外，傅科尔、亨利·圣·克利·迪维尔、查尔斯·弥尔·爱德华、凯特法尔、邓达尔、法拉第、贝尔特洛、塞基院长、彼得曼、莫利少校、阿加西等人的著作也占了很大一部分。就连科学院的论文、各国地理学会的会刊等在这里也保存着。令我感到意外的是，我写的那两本书被尼摩船长放在很显眼的位置上，也许正是因为这两本书，我才受到了尼摩船长的款待。

通过贝特朗的《天文学的创始人》一书，我竟然推算出这只船的制造日期。据我所知，那本书是1865年出版的，据此可以判定，“鹦鹉螺”号下水的日子应该在三年前。我希望有更新的书证明我的猜测，但是此刻，我更想发现船上的奇迹，研究的事就等到以后再说吧。

我对船长的大方表示感谢，希望能从这些书中得到更多的启迪。然而尼摩船长却告诉我，这里不仅是图书室，也是吸烟室。

我很好奇，船上竟然也能吸烟，我开始怀疑船长与哈瓦那有来往，可我又一次猜错了，他很坚决地否定了我。

船长让我试试船上的香烟，并保证我一定会喜欢。我接过那只形状有点像哈瓦那制的伦敦式雪茄，并在一个漂亮的小火盆上把烟点起来。认识我的人都知道，我是一个爱吸烟的人，却过了两天不抽烟的生活，于是一见到烟，便尽情地吸了几口。接下来我说：

“味道很好，但我知道这不是烟草。”

船长回答：“你说得没错，这不是来自哈瓦那的烟草，也不是来自东方。而是大海中的海藻赋予我的一种烟精，这种海藻的数量很少。对了，先生，难道您不想念哈瓦那吗？”

“船长，以后不要跟我提哈瓦那了。”

“您就尽情享用吧，不用去关心这些烟是怎么来的，你只需知道，尽管这些烟没有经过烟草管理局的检查，但质量一定没得说。”

“这话我相信。”

紧接着，尼摩船长带我进入与图书室相对的一道门，展现在我眼前的是一个宽敞华丽的长方形客厅。客厅很大，面积将近60平方米，房间有5米高，天花板用淡淡的图案花纹装饰着，顶上的射灯照射出明亮柔和的光线。这里就像是一座博物馆，陈列着各种珍贵的宝贝，你能想到的，你想不到的，这里都有。

下面，就由我来带你欣赏一下房间里的宝贝。房子周围的壁毯上悬挂着30来幅画框相同的名画，画与画之间用闪闪发亮的饰物相隔。这里有很多珍贵的画作，有一些只能在欧洲私人的收藏馆或是画展上才看得

到。这里悬挂的作品有：拉斐尔的《圣母》，达·芬奇的《圣女》，戈列治的《少女》，提香的《妇人》，维洛奈斯的《膜拜图》，牟里罗的《圣母升天图》，荷尔拜因的《肖像》，委拉斯奎兹的《修士》，瑞贝拉的《殉教者》，鲁本斯的《节日欢宴图》，特尼尔斯父子的《佛兰德斯风景》，吉拉德、米休、保罗·波特的《世态画》，席里柯和皮埃尔·保罗·普吕东的油画，伯旧生和韦尔内的海景图。在一些近代作品中，有些油画甚至有很多名人的签名，如德拉克洛瓦、安格尔，代坎普、杜洛伊、梅索尼埃，道拜尼等，还有一些古代铜像和石像的缩小版仿品，都摆在房间角落里的座架上。

我渐渐被“鹦鹉螺”号所拥有的神奇吸引了。

古怪的船长对我说：“教授，这个客厅有些乱，很抱歉在这里接待您。”

“船长，如果我没猜错，您是一位艺术家吧？”

“先生，说我是个业余的爱好者更合适。我以前很喜欢收集这些精美的艺术品，因此，孜孜不倦地收集了很多价值很高的艺术品。而现在，这些东西已经成为对我来说是死亡之地的陆地的纪念品了。对于我而言，那些艺术家已经成为另一个世界的人，离现在也有两三千年，因此，在我看来，他们没有古代和现代之分。名师是不分时代的。”

只见客厅的一个并不太显眼的位置，放着一台大型的钢琴，钢琴上随意摆放着一些乐谱。我指着房间里摆放凌乱的韦伯、罗西尼、莫扎特、贝多芬、海顿、梅耶贝尔、赫洛尔德、瓦格纳、奥比、古诺以及其他许多人的乐谱说：“您认为这些音乐家怎么样呢？”

尼摩船长回答道：“对于我这个‘与世长辞’的人来说，这些音乐家与

俄尔普斯¹是同时代的人，他们有着共同的特点，生活在我的记忆之中。先生，我跟您说过，对于生活在陆地上的人来说，我就是一个死人，同您的长眠在地下六英尺深的朋友们一样！”

接着，尼摩船长陷入了深深的沉默之中。我专注地观察着船长脸上的表情，只见他的胳膊靠在一张嵌花的桌子上，心无旁骛地想着自己的心事。我识趣地不去打断他，继续欣赏餐厅里的艺术品。

除了手工艺品外，那些天然的海中植物、贝壳等也占据了客厅的主要位置。在大厅中间，有一个电光照耀的喷泉，喷起的水落在一片用大贝壳制成的环形水池中。这个巨大的无头软体类动物的贝壳边缘有6米长，比威尼斯共和国送给佛朗索瓦一世的贝壳还要大得多，而巴黎圣许毕斯教堂曾用这种贝壳做了两个巨大的圣水池。

在这个喷泉的周围有一个用红铜架子镶嵌的玻璃柜，柜中摆放了很多珍贵的海产品，上面贴着标签，很明显已经分过类。看到这些难得的东西，我感到难以抑制的喜悦。

植虫动物可以分为两类，分别是腔肠类和棘皮类，柜子中摆满了这两类海产品。属于腔肠类的有管状珊瑚，扇形矾花，叙利亚的柔软海绵，摩鹿加群岛的海木贼，磷光珊瑚，挪威海中的珊瑚，不同种类的伞状珊瑚，八枚珊瑚虫，石蚕（我的老师密尔·爱德华对石蚕的分类很在行），波旁岛的眼形珊瑚，安的列斯群岛的“海神之车”……总之不同种类的珊瑚这里都有，还有一些从没见过的腔肠类动物。这些珍稀的动物构成了一个海岛。除此之外，在那些多刺的棘皮类动物中，还有海盘车、海星球、五角星、慧星球、流盘星、海猬、海参等动物被做成的整套标本摆在这里。

对面是一个陈列着各种软体类动物标本的玻璃柜。面对眼前的无价之宝，我简直高兴极了。我没有时间挨个对这些宝贝进行详细描述，仅列出几种供大家参考：这里有白玉贝，产于美丽的印度洋，这种贝的底色是红棕色的，上面映衬着有规律的白点；这里有价值两万法郎的刺球王贝，这种颜色鲜艳，全身长着刺的贝类对于欧洲博物馆来说也是少见的品种；这里有最难捕获的普通糙贝，它产于新西兰岛海中；这里拥有塞内加尔岛的奇异唇贝，这种贝壳会让你联想起一吹就四散飘飞的肥皂泡；这里有最受人欢迎的爪哇的喷水壶形的贝，这种贝拥有石灰质的管子，形似树叶；这里有新荷兰岛海繁殖的一组红棕色的洼贝，还有美洲海繁殖的青黄色洼贝。除此以外，还有很多珍贵的贝壳，比如：具硫黄质的版形贝、珍贵的西德勒和维纳斯七角贝、图兰各巴海岸的格子花盆贝、质地细密光亮的细纹蹄贝、来自东方海岸的绿色帆贝、在锥形贝类中不为人知的圆锥贝，甚至还有印度和非洲作为货币使用的各种各样的磁贝以及东印度群岛最珍贵的贝壳——“海的光荣”。还有一些由科学家们用最美的名词命名的纽丝螺、燕子螺、金字塔形螺、油画海扇蛤、卵形贝、螺旋贝、帽螺、唐冠螺、朱红贝、油螺、竖琴螺、岩石螺、毛法螺、花斑长旋螺、纺锤螺、袖形贝、带翼贝、笠形贝、硝子贝、棱形贝，它们都属于蚝贝。

在另外一些格子里，也摆着一些闪闪发光的珠子，有一些是玫瑰红色珠，是从红海的尖角螺中取出来的，还有蝶形海耳螺的珠子，有黄色的、蓝色的、黑色的，以及各海洋中各种软体动物和北方海中蚌蛤类的新奇产品。这里最珍贵的要数那些从最稀罕的珍珠贝中取出来的珠子，它们的分量要比鸵鸟蛋还大，价值要超过旅行家塔韦尼埃卖给波斯国王的那颗珍珠，哪怕是与我最看中的珍珠——马斯卡特教长的另一颗珍珠比较起来，它们也略胜一筹。

所以，很难计算出所有藏品的价值，如果尼摩船长是用金钱换来的这些收藏，那他是从哪里来的钱呢？正在疑惑的时候，船长打断了我的思绪：“教授，您一定对我的贝壳很感兴趣，任何一位生物学家都会感兴趣的。这些贝壳都是我亲手收集起来的，我搜寻了海洋的任何一个角落，在这个过程中，我收获了另外一种快乐。”

“我能理解您的心情，作为亲手收集这些珍宝的人，就算是在这些宝藏中行走，都是一件幸福的事。在欧洲，任何一所博物馆都不会有像您这样的关于海洋产物的珍贵收藏。对于这些收藏，我想用最美的语言来赞美它，可是，我不知道该如何赞美。我并不是要窥探您的秘密，但是我很好奇‘鹦鹉螺’号为什么能具有这么强大的动力。我刚刚在客厅的墙壁上看见很多仪器，不知道您能不能向我介绍一下它们的用途……”

船长回答道：“阿勒纳斯先生，我已经向您承诺过，您在我的船上自由的，因此，您可以随意地参观‘鹦鹉螺’号，我愿意做您的向导。”

“我真的不知道该如何表达我的感谢之情！先生，我知道随便乱问是不礼貌的，但是我很想知道那些物理仪器是干什么用的……”

“教授，我房子里也有这样的仪器，到时候我会告诉您它们的用处，现在我带您去参观一下您以后住的地方，我想您对这个应该会很关心。”

尼摩船长带着我走出了这个神奇的房间，经过走廊来到了船头的一个房间，这里不仅有床，而且还有梳妆台和一些家具，房间很漂亮。

我对船的主人充满了感激之情。

他边开门，边对我说：“我们的房间是挨着的，而且它跟我们刚离

开的客厅是相通的。”

船长的房间古朴得让我不敢相信，房间里只有一张铁床，一张办公台和一些梳洗用具。除了一些生活必需品，没有任何装饰。

尼摩船长请我坐下，并对我讲述了很多。

[1](#)是希腊神话里的神奇乐师，他用美妙的琴声击退了海妖，拯救了希腊的英雄们。

第十二章 电主宰一切

在尼摩船长的房间，他指着挂在墙壁上的仪表对我说：“这些仪表对于‘鹦鹉螺’号来说是航行的必需品。我总是时刻注意这些仪表盘，因为他们为我提供了准确的位置和方向。有些仪表您一定很熟悉，比如测量“鹦鹉螺”号室内温度的温度表，测出空气的质量和预告天气变化的晴雨表，指示空气干湿情况的湿度表，通过混合物分解来预报暴风雨的暴风镜，为我们指明航线的罗盘，测太阳高度的六分仪，及时向我们提供船所在经纬度的经纬仪，可日夜观测的具有两种用途的望远镜。通过这些仪器，我可以在‘鹦鹉螺’号浮上水面时，观察大自然。”

我答道：“我当然了解那些航海常用的仪器，但是，另外一些您没提到的仪器呢，比如说上面有转动时针的流体压力计，这些是做什么用的呢？”

“它是测量海水的压力的，有了这个仪器，我就知道船在海中的深度了。”

“那些新式的测验器呢？”

“为我提供海底下各水层的温度。”

“还有另外一些我看不懂的呢？”

尼摩船长建议我耐心地听他说完。他沉默了一会儿，接着说：“船上所有的动力都依靠电来提供，可以说电是‘鹦鹉螺’号最初的原动力。支撑日常生活的光和热也都是由电来提供的。”

“电！”我惊叫起来！

“没错，教授。”

“可是，船长，电怎么可能使船行走的速度如此之快，根据现在的科学水平，电能所产生的力量是有限的。”

尼摩船长回答：“电与电是不同的，你明白这一点，也就明白了一切。”

我接着说：“船长，我不是想打探您的隐私，只是感到好奇。如果您觉得可以，就回答我的问题；如果觉得不方便就可以不做回答。我知道，如果您用某种特殊的物质来发电，那么，这种物质用完以后，您是如何补充的？”

尼摩船长爽快地说：“这个问题可以回答，开发海底的锌、铁、银、金等矿藏是一件可以实现的事，我根本不需要从陆地上获取，海洋便可以为我提供一切。”

“海洋负责提供？”

“是的，教授，方法有很多。按照物理原理，金属线受到不同的热度就能产生电，因此，我们将埋藏在海洋不同深度的金属线连接成电路，就达到了我的目的，不过，我更喜欢另一种比较简单实用的办法。”

“能不能介绍一下？”

“您一定知道海水中氯化钠的比例很高，它能够占到海水总量的2.7%，其余96.5%是水，剩下的物质包括小量的氯化镁、氯化钾、溴化镁、硫酸镁、硫酸和石碳酸。我就是从氯化钠中提炼钠，从而制造我所需要的物质。”

“钠也可以吗？”

“没错，教授。我们通常用另一种物质代替锌，而这种物质是由钠跟汞混合而成的。你知道，汞是不会损失的，我们只需要补充损失的钠就可以了。另外，还可以透露一点，钠电池的动力要比锌电池强很多倍。”

“船长，听您的解释我已经意识到您利用钠的优越性，但是，提取钠这个过程是怎样的呢？您在提取的过程中一定会损失很多钠，生产出来的会超过消耗的吗？也就是说，有剩余的钠吗？”

“教授，我并不使用电池来实现整个过程，而是利用煤炭来实现。”

“陆地上的煤炭？”我惊讶地说。

“海底也有煤炭吧？”尼摩船长反问道。

“在海底怎么采矿呢？”

“阿勒纳斯先生，有时间我会让您大饱眼福的，将解开您所有的疑惑。我有必要再向您重复一次，‘鹦鹉螺’号的动力、光和热都靠电来实现，而电是海洋赋予我们的。”

“电并不是万能的吧？它能制造空气吗？”

“呵呵！这个也是可以实现的，因为电可以发动强大的抽气机，将外面的空气输送到封闭的房间里，我们可以根据需要，确定留在海洋深处的时间。只是，这样做实在没有必要，我们随时都可以浮到海洋上来换气，又何苦给自己制造麻烦呢？”

我答道：“我敬佩您发现了人们一直在探索的秘密，利用了大自然的力量。”

尼摩船长冷淡地回答：“不知道他们会不会发现这个秘密，管他呢，您已经见证了这种宝贵的动力的首次应用。这种动力所拥有的特点让我们受益匪浅，不仅能够连续地为我们提供照明，还可以用于时钟的运转。请您注意观察这座钟，靠电运行的它非常准确，它的准确性超过了任何一款钟表。我以24小时为基础对一天进行划分，对于我而言，白天和黑夜、太阳和月亮没什么区别，因为我可以将人造光带到海底去，它可以满足我们所有的生活。您看，时钟显示现在是上午10点。”

“没错。”

“‘鹦鹉螺’号的速度是随时被记录的，通过我们面前的这个表盘就可以读出，原理很简单，只需要将测程器的一个线跟螺旋桨连接起来。现在你看这个表就知道我们的船正以时速15海里的速度行驶着……”

我打断了船长的话，说：“真是太神奇了，船长，您从来不利用风

能、水能和蒸汽，只需要一种原动力就可以搞定一切。”

尼摩船长站起来，带我走出房间，来到“鹦鹉螺”号的后部，对我说：“阿勒纳斯先生，您别着急嘛，我的话还没说完呢。”

通过刚刚的参观，我对船的分区有了一个初步的了解，大体是这样的：船的前半部包括了餐厅、图书室、客厅、我和船长的房间，还有一个储藏空气的密室。房与房之间用那些不渗水的隔板隔开，其中餐厅长6米，图书室长5米，大客厅长10米，船长室长5米，我的房间长2.5米。还有储藏空气的密室，也长达6.5米。所有的门都是用防水隔板做成的，用橡胶闭塞器关得紧紧的，确保在有微小漏洞的情况下也能保障“鹦鹉螺”号的安全。

接下来，尼摩船长带我穿过一条狭窄的过道，来到了船的中心——一个井一般的开口跟前，开口处有一架铁梯子，可以通到这口井的顶部，我又开始好奇这架梯子的作用。

船长很快就为我解开了谜底，告诉我这是通到小艇上的。

我十分吃惊，问：“难道您还有一只小艇？”

“不仅有，而且还是一只很好的小艇，轻快、安全，可以用来游览或是钓鱼。”

“您登上小艇，是不是需要浮在水面上呢？”

“不是这样的，‘鹦鹉螺’号船身的上部有一个凹洞，是专门用来存放这艘小艇的。小艇的四周用螺丝钉钉得紧紧的，船身都是不透水的甲板。小艇与‘鹦鹉螺’号船各有一个跟人差不多大小的小孔，这样人就可以从大船通到小艇内部，而这架梯子就是与那个小孔相连的。当我想登

上小艇的时候，就会用螺钉关上‘鹦鹉螺’号的孔门，同时也关上小艇的孔门。当我松开固定大船和小艇的铰钉，就可以漂浮在水面上了，而当我打开本来是紧闭的盖板，竖起桅杆，划起桨来，就可以遨游在大海里了。”

“那么，您是如何回归大船的呢？”

“阿勒纳斯先生，您正好说反了，是大船回到我身边。”

“是通过什么方式传达信息的呢？”

“大船和小艇之间通过一根电线连接在一起，因此，只需我打个电报就行了。”

我被船长的介绍震惊了，说：“这简直太不可思议了，一切都那么方便！”

穿过一个楼梯间，我终于来到了葛瑟尔和尼德·兰的舱房，在一个长约两米的房间里，我和我的两个伙计重逢了。此时，他们正在开心地品尝着食物。于是，我又在船长的带领下，来到了储藏各种食物的厨房，那里足足有3米长。

厨房里还是少不了电，一切烹饪工作全部利用电来完成。这里的炉子是用白金片制成的，电力通过白金片均匀地将热传到锅上。除了制作食物，“鹦鹉螺”号还通过蒸馏器的汽化作用提取饮用水。在厨房的隔壁，是一间舒适的浴室，24小时供应热水。

与厨房相连的便是长5米的船员工作室，这里似乎并不欢迎我，房门没有打开，因此，里面的布置也完全是保密的。但是凭感觉，这个房间应该是根据驾驶“鹦鹉螺”号需要的人数来设置的。

再往里面走，就是船的机器间了。房间全长20多米，里面放满了驾驶船所需要的一切，如生产动力的原料，还有分装着转动螺旋桨的机器。房间里灯光非常明亮，我可以看清里面的全部内容，从这里的布置来看，尼摩船长是当之无愧的一流工程师。

房间里的气味让我很不舒服，尼摩船长很快看出了我的不适，他对我说：“房间的气味是钠分解时散发出来的，这是这艘船的败笔。为了清除这种气味，我们每天早晨都要浮出水面透气。”

我对“鹦鹉螺”号的机器设备充满了好奇，不停地研究着。这时，船长对我说：“船上的全部电池装置都是本生¹的，鲁姆科夫²的电池装置电力不强。实践证明，结构简单的本生电池电力很强，而鲁姆科夫的装置就差一些。电池产生的电通过面积很大的电磁铁对杠杆和轮齿组成的特殊结构产生作用，从而推动轮轴，这样船就可以移动了。初步计算，推进器的直径是6米，涡轮的直径是7.5米，在这种情况下，轮轴每秒钟可以转120转，最高可以达到时速50海里。”

“鹦鹉螺”号的秘密我只知道一部分，还有很多无法解答。例如电是如何产生这么强大的力量的，这种力量来自哪里？究竟是从新型的变压器所造成的高电压中得来的，还是通过杠杆转动得来的？等等类似的问题都难以理解。

我对尼摩船长说：“求是的精神驱使我不得不冒昧地问你一些问题。我已经见识到‘鹦鹉螺’号在行驶中所产生的力量和速度了，但是，我很好奇，我们是如何指挥它向左、向右、向上和向下移动的？为什么这艘船可以潜入海底深处，它是如何承受海底几千几万的大气压力的？又是怎么升到水面上来的？又是如何维持在合适的深度的呢？”

船长略微迟疑了一下，回答说：“既然你将留在船上，那么就不妨为你揭开谜底。走，跟我去客厅吧，那里是真正的控制室，到了那里，你就知道整艘船的秘密了！”

第十三章 一连串数字

我们每个人嘴里叼着一根雪茄，舒服地坐在客厅的沙发上。船长将“鹦鹉螺”号的平面图、侧面图和投影图等全部图片都摆在我的面前，对我解释道：“阿勒纳斯先生，从这些图您可以看出这只船的形状和容积。船的中心是一个圆筒形，两端呈圆锥状。就像一支雪茄烟，它最长的地方有70米，最宽的地方是8米，这种设计与普通的远航船有所不同，更利于船在积水中行走，阻力更小。我们粗略地估算过，‘鹦鹉螺’号的面积是1010.45平方米，体积为1500.2立方米，也就是说，每次潜入水中时，船的排水量能达到1500立方米或1500吨。”

“当初，我设计‘鹦鹉螺’号的时候，就是要达到让船身露出水面十分之一的效果，这样，船在水中就可以保持平衡了。另外，通过排水量我们知道，船的重量为排水量的90%，也就是1356.48立方米，因此，船上其他物品的重量一定不能超过这个数目。”

“‘鹦鹉螺’号的内壳和外壳都是由钢板制造的，两壳之间用蹄铁连接

起来，因此，船身无比坚固，不怕最汹涌的风浪。我们刚刚说过，船的两层壳是用钢板制造的，而钢的密度要比海水的密度大。船的外壳有5厘米厚，重量约为394.96吨。船的内壳有50厘米高，25厘米宽，重62吨。而其他机器、镇船机、各种附属船具和装置品、内部的各样墙板和木材等的重量之和也在规定的范围之内。我在‘鹦鹉螺’号上设置了一个储水池，它的容积为150.72吨。我只需让水池装满水，就可以完全潜入水中了。教授，情况就是这样的。”

我好奇地问：“船长，我还是有疑问，让船与海面齐平，这一点我可以理解，但是，当船潜入海底的时候不是会遇到压力吗？那么您是如何让‘鹦鹉螺’号全部装满了水，从而潜到海底去的呢？”

尼摩船长回答：“教授，您应该将静力学和动力学分开来考虑，否则会造成严重的错误。物体都有重力，有了这种趋势，下沉就不是困难的事。我只需增加重量，并时刻关注海水在不同深度的压缩数量就可以了。”

“你说得有道理。”我回答。

“然而，压缩海水并不是一件容易的事，我要时刻关注压缩数量。如果船潜入1000米深的水层，我就要注意海水应保持在1000米的压力下，根据计算，我要将总重量增加到1513.77吨。”

“仅仅如此吗？”

“是的，阿勒纳斯先生，这是很容易证明的。我有很多个储水池，能容纳上百吨的水量，所以我能潜入海底很深的地方。当我要升到水面的时候，只需要将储水池中的水排出去就可以了。”

面对数字推理，我无法反驳。我只能对船长所做的说明表示赞同，但我明显感到这样做会存在困难。面对我的不解，船长希望听到我的解释。

我说：“我们打个比方，当您潜入水下1000米深的时候，‘鹦鹉螺’号的外壳承受着100大气压的压力。如果您想在这个时候上升到水面，就必须保证船上抽水机的力量超过100大气压的压力，也就是说，这种力……”

尼摩船长紧接着说：“这很容易实现，只需要有电就可以了。教授，我已经跟您重复过很多次了，船上的动力是无限的，抽水机的动力也是无限的，您应该见识过了，上次您曾见识过它对‘林肯’号喷出的水柱。另外，只有当我们想潜入到1500和2000米的中等深度时，我才需要补充那些储水池，这对保护机器有好处。因此，当我想潜入水下二里深的海洋底下时，我会采用其他同样有效的办法。”

“船长，能透露是什么办法吗？我很想知道。”我问。

“看来，我一定要跟您讲清楚我是如何驾驶这船的了。当我想让它在水平面上移动时，我会使用普通的舵，而把机轮和滑车转动的副舵装在船尾。当我想让‘鹦鹉螺’号在水中上升、下降时，我就利用杠杆原理从船的内部来操纵它们。当纵斜机板的位置与船身平行时，船便在水平面上行驶。如果它们的位置倾斜了，船就会在推进器的推动下，沿着对角线方向沉下去，或沿着这对角线浮上来。而推动器可以加速这种浮动，一旦水的压力达到一定程度，‘鹦鹉螺’号就可以迅速移动。”

船长的话让我感到无比震惊，我喊道：“船长，您实在是太有办法了。那么领航人在海底又是如何判断行走的路线的呢？”

“领航人的位置在‘鹦鹉螺’号船身的上部突出部分，那里装有一个透明玻璃的笼间，能够确保领航人清楚地看见航路。”

“这样的压力不会使玻璃破碎吗？”

“没问题的，只要不是冲击，玻璃都可以承受。记得在1864年的时候，曾有人在北方海中利用电光做打鱼的实验，当时使用的玻璃只有7毫米厚，结果竟然可以抵抗16大气压的压力，同时又可以让强烈发热的光线通过。与当时相比，我们的玻璃更厚，已经达到了21厘米，超过了当时的30倍。”

“尼摩船长，领航人又是如何在漆黑的海底看清航线的呢？”

“在领航人的笼间后面，装有一座光度很强，可以照亮半海里距离的电光探照灯。”

“啊！船长，您真是个天才。现在，我终于可以解释在‘林肯’号上看到的所谓独角鲸的磷光现象了，真的是迷惑了很多学者啊！既然说到这儿，我就不得不向您请教，影响很大的‘司格图亚’号事件，是偶然发生的吗？”

“教授，那次确实是个意外，当时我正在水底两米处航行，所以发生了冲撞。事实上，‘司格图亚’号并没有遭受什么损失。”

“先生，您说得没错。但是跟‘林肯’号的相撞呢？”

“教授，俗话说人不犯我，我不犯人。如果不是它攻击我，我也不会还击，我总不能让它伤害我吧。其实，‘林肯’号损失并不严重，只需要到附近的海港修理好就可以了，并不是很困难。”

我发自内心地赞美道：“‘鹦鹉螺’号真是一艘神奇的船！”

尼摩船长的情绪有些激动，他说：“是的，我爱它胜过一切。虽然在海上航行很危险，会受到意外的袭击，但我仍然爱它。荷兰人詹森曾说过，尽管大海给人的第一印象会让人感觉很害怕，但在‘鹦鹉螺’号上却毫无这种感觉。要知道，这是一艘牢固无比的船，双层的船壳使它既不用害怕船被损毁，也不怕被风吹走；既不用担心发生可怕的火灾，也不用担心煤炭会用完。从这些可以看出，‘鹦鹉螺’号是一艘举世无双的船，我作为这艘船的船长、建筑师和工程师，我有信心！”

激动的情绪让尼摩船长变成了另一个人。可以看出，他对船的感情，就像一个父亲爱他的儿子一样！作为这艘船的设计师，船长曾在伦敦、巴黎、纽约学习过。为了建造这艘神秘的船，他通过很多假地址来购买船的材料。比如，从法国克鲁梭工厂购买船的龙骨，从伦敦朋尼公司购买推进器，从利物浦利亚工厂购买船壳的钢铁板，从巴黎嘉衣公司购买船的储水池，从普鲁士克虏伯工厂购买机器，从瑞典的摩达拉工厂购买船前头的冲角，从纽约的哈提兄弟公司购买精确的测验仪器。他要求这些厂家按照他的设计图制造，当然，署名都不是他的。

我很好奇他是如何将一块一块材料组装起来的，他告诉我，他在大洋中的一个荒岛上建立了自己的工作场。岛上的工人都是他的同伴，正是在他们的配合下，才将“鹦鹉螺”号完整地装配好。船完工后，他毁掉了周围的痕迹，因此，没有任何人知道船的秘密。

我知道制造船的费用一定很巨大。据尼摩船长自己说，“鹦鹉螺”号的载重吨数是1500吨，建筑费用为170万法郎，连装备费一共为200万法郎，算上船内所有的美术品和收藏物一共是500万法郎。

“尼摩船长，我最后问您一个问题。”我忍不住插嘴道。

“别客气，问吧，教授。”

“您很富有对吗？”

“是的，如果我愿意，可以偿还法国几十亿的国债！”

我有点不敢相信船长的话，但又觉得他没有必要骗我。管他呢，将来会有机会验证这话是真是假。

第十四章 黑 水 流

数据表明，地球上海水所占的面积为383.2558万亿平方公里，体积共有22.5万亿立方米。如果将它变成一个圆球，这圆球的直径则为60里，重量为300亿亿吨。这实在是个巨大的数目，要知道，这个数目的海水相当于陆地上所有的河流在4万年中所流下的水量。

在地质学的纪元中，火的时期之后为水的时期。首先，海洋占据绝大部分面积，然后，山峰和岛屿逐渐呈现，后来又在洪水的作用下隐没，重又现出，连接起来，构成大陆，最后才形成了现在的格局。固体大陆从流体海水所取得的面积为3700.657万平方英里，也就是1291.6万公顷¹。

地球上的各大陆形状不同，把海水分为五大部分，即北冰洋、南冰洋、印度洋、大西洋和太平洋。

太平洋从北至南，是在南北两极之间，从西至东，是在亚洲和美洲之间，共有145度经度的宽广。太平洋的水量非常丰富，海水流动很缓慢——命运安排我首先从太平洋经过。

尼摩船长告诉我，如果我高兴，我们可以从这里开始旅行。于是，当钟指向12点45分的时候，船长命令船浮上水面。

三声电铃响后，储水池里的水被排出来了，之后“鹦鹉螺”号开始做上升运动，直到船停了下来，船长告诉我，我们到地方了。

我顺着钢铁楼梯，来到了“鹦鹉螺”号的上面。只见船刚刚浮出水面80厘米。“鹦鹉螺”号的船头和船尾像是一只雪茄烟，表面上的钢板像爬行动物的鳞甲。我终于明白为什么“林肯”号不能发现它了，因为从远处看来，它跟海中的动物没什么区别。

平台的中间，放着船长的小艇，看起来像是一个突出的筋包。平台的前后，一个是领航人所在的房间，一个是放置射灯的房间。平台上的海风很凉爽，吹散了天空中的云朵，视野很开阔，可以看出来很远。在船上，感觉不到波浪。

视线所到达的地方只有海水，没有暗礁，没有小岛，更没有“林肯”号。为了弄清楚船所在的纬度，尼摩船长使用六分仪测量太阳的高度。当太阳和地平线齐平的时候，他确定现在的时间是正午，于是，他问我是否出发。我看了一下海面，重新回到客厅中。船长熟练地在地图上记了方位，告诉我，我们所在的经度是西经137度15分。

为了弄清楚船长的国籍，我故意问他：“您是根据哪种子午线计算的？”

船长回答我说：“我可以根据巴黎、格林尼治和华盛顿子午线来计算。但由于您在，所以我以后会根据巴黎子午线计算。”

这个回答并没有让我得到任何信息，我只能点头表示感谢。船长又说：“现在所处的位置是西经137度15分、北纬30度7分，距日本海海岸300多海里。今天是11月8日，我们现在就开始海底探险吧。”

“希望一切顺利！”我回答。

接着，船长又对我说：“教授，您可以开始研究了，我现在会让船在水深50米下的地方行驶，目的地在东北偏东方，您可以随时观察航行路线。我要先告辞了，您可以随便使用餐厅，不要客气。”

尼摩船长告辞了，留我一个人在这里思考。我只对“鹦鹉螺”号的船长感兴趣，这个人让自己游离在人类世界之外，从不透露自己的国籍，难道我永远也无法知道这个答案吗？这个人会报复人类吗？也许他被人伤害过，也许他在政治生涯中受过挫折，这些都只是猜测。我只是一个被他收留的人，他甚至没有跟我握过手，这足以说明我们的关系。

这个问题，我整整想了一个小时，可是始终无法想清楚这个谜底。最后，我只有将注意力转移到桌上的平面地图上，将手放在上面所指出的经纬度相交的那个位置。

海洋中也有自己的江河，它是一种特殊的水流，具有不同的温度、不同的颜色，大家都称它为“暖流”。地球上共有5条主要的水流路线，依次分别在大西洋北部、大西洋南部、太平洋北部、太平洋南部、印度洋南部。也许，第6条水流也存在，将里海和阿拉伯海与亚洲的各大湖连起来，成为一片大海。

而地图上那个点，展开了被日本人称作黑水流的一条暖流，它从孟加拉湾流出，由于热带太阳光线的直射，变得很温暖，穿过马六甲海峡后，沿着亚洲海岸向前流淌，在太平洋北部的地方形成了一个环弯形，直到阿留申群岛。樟脑树的树干和各地的土特产都是通过这条暖流输送出去的，纯靛蓝的水色同海水的颜色完全不同，形成鲜明的对比。如今，我们的船正在这条水流上经过。我的双眼紧紧盯着这条水流，正当自己要同它融为一体时，尼德·兰和葛瑟尔出现在客厅门口。

我的两个伙伴第一次看到客厅里的展品，他们简直被震惊了，尤其是尼德·兰，他喊道：“难道我产生了错觉？我们是在魁北克博物馆吗？”

“如果您愿意，也可以说成是桑姆拉大厦。”葛瑟尔回答。

我将我的两个同伴叫到房间里，对他们说：“这里不是加拿大，更不是法兰西，而是‘鹦鹉螺’号所在的海底下50米。”

葛瑟尔说：“您说的肯定是真的，这个餐厅能让佛莱蒙人竖起大拇指称赞。”

“朋友，不要高兴得太早，对于你这个分类工作者来说，这里可有很多工作可做啊。”

葛瑟尔是一个非常积极的人，还没等我吩咐，就已经开始了他的工作，嘴里念叨着：“腹足纲，油螺科，磁贝属，马达加斯加介蛤种……”

这时，对于分类学一窍不通的尼德·兰问起我同尼摩船长会谈的情形：“您发现他是哪一国人的吗？这艘船打算把我们带到哪里去……”他一口气问了我很多问题，我都来不及回答他。

我努力将自己知道的都向他讲述了一遍，又问他有没有什么发现。

尼德·兰说：“我没有任何收获，没看到什么，也没听到什么，甚至连个影子都没有看到，难道他们是电人？”

“电人！”我觉得他的想法有些不可思议。

尼德·兰严肃地对我说：“我真的是这样想的，阿勒纳斯先生，实在没有别的更好的解释。对了，您知道船上有多少人吗？10人，20人，50人，还是100人？”

“我希望您放弃逃走的想法，要知道，这艘船上的设备很先进，既然来了就应该好好地参观一下，否则，太可惜了。您要相信我，只要你见识了这艘船的奇特之处，你就会心甘情愿地留在这里了。”

尼德·兰回答道：“除了船上的钢板，我没有看到任何其他的东西，估计将来也不会有什么改变。我们选择逃跑，才是最明智的……”

尼德·兰的话音刚落，客厅就陷入了一片黑暗。由于光线突然消失，让我的眼睛产生了一种疼痛感，就像在黑暗中突然亮起了灯光，让眼睛受到了刺激一样。

我们不再出声，连动也不敢动一下，共同等待着命运的宣判。这时，传来了一种滑行的声音，我甚至以为是盖板在“鹦鹉螺”号的两侧动起来了。

尼德·兰说：“我们真的要完蛋了。”

葛瑟尔则低声说：“水母目！”

忽然，眼前又出现了光明，光线从两个长方形的孔洞射进客厅里。在电光的照耀下，海水变得很闪亮。我们和海水之间只隔着两块玻璃晶片，一想到这些玻璃有可能会碎裂，我就陷入了一种恐惧。还好边上有红铜的结实框架顶住，使它具有更强的抵抗力。

在灯光的照耀下，我们将“鹦鹉螺”号周围的海水看得清清楚楚，真的是一道美丽的风景线。很难用语言描述那种美。

对于海水的认识我们算是比较深刻的，知道海水中所含有的矿物质和有机物质，能够增加它的透明性。比如在太平洋的安的列斯群岛，阳光可以穿透海水约300米，在海底约145米深的地方可以看见水底下面的沙床，十分清澈。然而，“鹦鹉螺”号却带给我们另一种体验，电光照耀在海水中，变成了流动的光。

我开始赞成爱兰伯的假设，认为海底是有磷光照耀的，我甚至可以想象出这样的景象是多么美好，我相信，这是大自然赋予海底居民的恩赐。于是，客厅的窗户成了我们见证海底奇迹的通道。客厅里越黑暗，越能反衬出外面的光辉，突然我觉得自己置身于一个很大的鱼缸里面。

在没有任何参照物的情况下，“鹦鹉螺”号好像静止了。只有看着船头的水线纹，才知道我们是在向前行走。眼前的景色彻底将我们征服了，我们时而靠在玻璃窗前，时而换个姿势，静静地欣赏着美景。这时，葛瑟尔打破了沉默，说：“尼德·兰先生，眼前的景色值得一看吧？”

“太有意思了，这么美丽的景色真是值得欣赏。”尼德·兰被眼前的景色吸引了，完全忘记了逃跑计划。

我喊道：“我终于明白船长为什么喜欢远离人世的生活了，这里完

全是另外一个神奇的世界！”

“可是我为什么看不到鱼呢？”尼德·兰好奇地问。

葛瑟尔回答：“看不到又怎么样呢，也许只是您不认识它们。”

“怎么可能，我可是叉鱼手呢！”尼德·兰喊道。

两个伙伴在这个问题上无法保持意见统一，他们的出发点不同。

教科书中是这样给鱼下定义的——有双重循环作用的，冷血的，用鳃呼吸的，生活在水中的脊椎动物，属于脊椎动物门中的第4纲和最后一纲。鱼分为两个种类：硬骨脊椎类和软骨脊椎类。

葛瑟尔在分类方面要比尼德·兰在行得多，因此，他对自己的朋友说：“尼德·兰，虽然您是个优秀的叉鱼手，但是分类不是您的强项。”

尼德·兰很严肃地回答：“其实人们对鱼的分类很简单，只分为能吃的和不能吃的。”

葛瑟尔回答：“专业的分类是将它们分为硬骨鱼类和软骨鱼类，你懂得这些吗？你说的那是不专业的分法。”

“葛瑟尔，你小看我了。”

“那您还能够细分吗？”

“我应该可以。”尼德·兰回答。

葛瑟尔继续说道：“让我来告诉你吧，硬骨鱼类可分为6目。第一目是硬鳍鱼，这种鱼有完整的上鳃，像个梳子。这一目可以分为15科，大

约75%的鱼都属于这一类，比如鲫鱼。”

尼德·兰回答：“鲫鱼很好吃。”

葛瑟尔接着说：“第二目是腹鳍鱼，它的腹鳍垂在肚腹下面和胸鳍后边，并不长在肩骨上。这一目可以分为5科，大部分淡水鱼都属于这一科，比如鲤鱼、鲮鱼。”

尼德·兰不以为然地说：“淡水鱼，不感兴趣！”

葛瑟尔接着说：“第三目是副鳍鱼，这种鱼的腹鳍接在胸鳍的下面或者挂在肩骨上。鲽鱼、比目鱼、鞋底鱼、大比目鱼分别属于这一类的4个科目。”

鱼叉手从吃货的角度又喊道：“这样的鱼非常好吃。”

葛瑟尔如数家珍，接着说：“第4目是无腹鳍鱼，属于这种类型的有鳐鱼、鳗鱼、电鳗鱼，它们共同的特点是鱼身很长，没有腹鳍，身上有很厚的带黏性的皮。”

尼德·兰说：“这种鱼的味道一般。”

葛瑟尔说：“第5目是鳃鱼，这种鱼的特点为鳃是完全自由的，像很多小刷子一样，整齐地对应在鳃环节上。这一目只有一个科，海马鱼、龙马鱼都属于这一科。”

“没有味道。”尼德·兰嫌弃地回答。

葛瑟尔又向尼德·兰介绍最后一目：硬腭鱼。他说：“这种鱼的颞骨是固定在齿颞的颞间骨边上的，上颞的拱形骨跟头盖骨牢固地连接在一

起，因此而得名。这一目包括两科，典型的代表是鲍鱼、银鲳。”

“我都不愿意浪费锅来煮这种鱼。”加拿大人喊道。

“尼德·兰，这回你明白了吗？”葛瑟尔问。

“我完全不懂，不过请你说下去，葛瑟尔，我知道您对这些感兴趣。”

葛瑟尔缓缓地说：“至于软骨鱼类可以分为三目：圆口鱼、梭鱼、鳍鱼。第一种鱼的鳃开着很多小孔，可以合成一个转动的圆环，比如七鳃鳗，就属于这一目。第二种鱼的鳃类像圆口鱼的鳃，是用下鳃活动的，属于软骨鱼类中比较重要的，主要分为两科，比如鲨鱼、鲛鱼……”

还没等葛瑟尔说完，尼德·兰便吃惊地问：“鲨鱼和鲛鱼属于同一类？哈哈，葛瑟尔，为了鲛鱼的命运着想，人们还是不要把它们放在一个鱼缸里了！”

葛瑟尔接着说：“软骨鱼中第三目的鲟鱼跟平常的鱼没什么区别，只是多了一个有盖的孔。这一目分为4科。”

尼德·兰笑葛瑟尔是一个吃货，因为他把最好吃的鱼放在最后来讲。葛瑟尔最后补充说：“哪怕你听懂了我刚刚说的所有的话，也没什么用，因为下面还有很多分类，如科又分为属，属又分为亚属，为种，为变种……”

这时，尼德·兰俯下身子，贴着玻璃窗说：“天啊，葛瑟尔，你看啊，好多种鱼啊，它们朝我们游来了！”

葛瑟尔回应道：“是啊，感觉在我们的眼前摆着一个大鱼缸！”

我并不赞同葛瑟尔的话，说：“鱼缸里的鱼是不自由的，而这里的鱼可以像鸟儿一样自由自在。”

尼德·兰说：“别浪费时间了，葛瑟尔，现在请你为这些鱼分分类吧！”

葛瑟尔拒绝了，说：“我可没那本事，我家主人可以！”

于是我告诉他们，眼前的是一条剑鱼。

大家都知道，葛瑟尔是一个对分类学有着一定研究的人，但他并不是生物学家，因此，他有可能分不出鲚鱼和鲐鱼的区别。而尼德·兰不同，他是一个捕鱼高手，见识过各种各样的鱼，他可以毫不迟疑地说出这些鱼的名字来。

尼德·兰补充道：“是一条中国剑鱼。”

葛瑟尔赞同地说：“对，它属于剑鱼属，硬皮科，固颞目。”

如果尼德·兰和葛瑟尔合体，将是一个十分出色的生物学家。眼前的剑鱼，围绕着“鹦鹉螺”号游来游去，仔细观察可以发现，它的身躯就像是被压扁了一样，背脊上有剑式的武器，尾巴两边长着四排尖刺。它们的外表简直无可挑剔，颜色搭配简洁大方，上边是灰色，下面全白，中间点缀着点点金黄，在波浪的漩涡中闪闪发亮，漂亮极了！在剑鱼中间夹杂着鲤鱼，并且是那种我喜欢的中国鲤鱼，它的上半身是黑黄色的，肚下带着淡淡的玫瑰色，眼睛后面长着三根刺。这种鱼很稀少，甚至连勒瑟伯德都没亲眼见过，他只在一本日本的图画书中见到过。

一大群水族部队围绕着“鹦鹉螺”号游了整整两个小时。它们玩耍着、跳跃着，进行着色彩和速度的竞赛。在它们之中，我看到了青色的海婆婆，长着双层黑线的鲷鱼，尾巴圆润、颜色洁白、背上长着紫红色斑点的虾虎鱼，生长在日本海中周身蓝色、头顶洁白的鲭鱼，不用说，从名字就可以看出这种鱼的气势。除此之外，还有长着蓝色或黄色鳍的条纹鲷鱼，有一条黑带长在尾巴上的线条鲷，裹在六条丝带中的线带鲷鱼。我们还看到了外形很像笛子的笛口鱼以及近一米长的海鹌鹑，日本的火蛇，多刺的鳗鱼，眼睛细小灵动、牙齿锋利的六英尺长蛇等等。

我想用最美丽的语言来赞美它们，我的两个伙伴则忙着判断鱼的种类，对鱼进行分类。这些外表活泼美丽的鱼让我感到从未有过的幸福，要知道平时我们不会有机会随意观察这些动物，如今，它们就在我们面前游来游去，自由自在，让我们看个够。

眼前比鸟还多的不知名字的鱼被电光吸引过来了，我甚至无法一一列举它们的种类。可见，日本海和中国海鱼的种类非常多，很多都可以成为标本。这时，客厅中的灯光突然亮了起来，船的盖板也关闭了，这时，眼前的美景消失了，我却仍然沉浸在刚刚的喜悦之中，直到机械停止不动为止。通过罗盘我判断出，我们正在朝着东北偏东方以时速15海里的速度行驶着，船位于水下50米，承受着5气压的压力。

大钟指向了5点，船长仍然没有出来。我和我的两个伙伴各自回到了自己的房间。只见餐桌上已经摆好了晚餐，有美味的海鳖汤，鲤鱼的薄片肉，看起来十分可口的鲤鱼肝，还有一盘金鲷鱼的肉片，味道与鲑鱼比起来毫不逊色。

在船上我仍然保持着夜间看书、写笔记的习惯。像平常一样，我思

考了一点问题以后就躺在海藻叶制的床上睡着了。睡梦中，“鹦鹉螺”号穿过黑潮暖流，迅速地驶离了这里。

[1](#)1公亩约等于100平方米。

第十五章 一封邀请书

我醒来时已经是11月9日了，昏睡了整整12个小时。葛瑟尔像往常那样过来向我问好，接着就干起活来，而他的室友仍然睡得昏昏沉沉。

我完全没有心思理会我的这个伙计，只是一心琢磨尼摩船长为什么还没有出现，我渴望再一次见到他。

我穿上了一件引起葛瑟尔很多想象的、质地很好的贝壳丝衣服，对他说：“你知道这衣服是用什么制成的吗？是由能发光的、丝一般柔软的纤维制成的。在地中海沿岸的海石上能找到很多这样的纤维，它们是由一种形状类似猪腔骨的贝类留下的，用它来制作衣服、袜子、手套，既柔软，又暖和。有了这些东西，‘鹦鹉螺’号上的人完全不愁穿戴，这些东西要比陆地上的棉花、羊毛和蚕丝质地好得多。”

穿好了衣服，我来到了客厅，发现那里没有人。于是，我又开始全神贯注地研究玻璃柜里的宝藏。我想弄明白，为什么柜子里那些稀罕的植物，已经风干多日，却仍然能保持鲜亮的颜色。同时，我发现了很多珍贵的水生植物，如环生的海苔，孔雀昆布，形状像葡萄叶似的海藻，粒状的水马齿，柔软的鲜红色海草，扇子形的海菰，外表像下陷的冬菇一样的吸盘草，这种草一直被归入植虫动物一类，最后我还看到了整个一簇的海藻类植物。

船长消失了整整一天，使得我没有机会接触那些珍稀的植物标本。“鹦鹉螺”号始终保持着东北偏东的方向行驶，以时速12海里的速度前进，距离海面50至60米。

11月10日，距离船长消失已经三天了，除了一个船员，我们没有看见其他人，船上显得冷冷清清的。尼德·兰和葛瑟尔陪我度过了大半天，他们也很好奇，船长为什么不出现，难道这个人病了吗？还是要改变主意处置我们？

值得庆幸的是，我们在这里拥有葛瑟尔所说的自由，主人还为我们提供了考究的饭菜，那么，既然对方遵守了承诺，我们也就没有理由抱怨，更何况人家对我们始终以礼相待，还有什么权利抱怨人家呢？

在这无聊的日子里，我总要找点事情做，于是我开始尝试将这次奇遇写成日记，尽可能将每一个细节描述清楚。船上那些用海中的大叶藻制成的纸张成了我的伙伴。

11月11日，当我在房间里感受到新鲜空气的时候，我向中央楼梯走去，登上了平台。此时，时钟刚刚指向6点。由于阴天，海水显得很暗，没有波浪。我之所以走上平台，只是幻想着能与船长在平台上相遇，可令我失望的是，我只看到在玻璃笼间里操作的领航人。于是，我坐在小艇外壳的突出部分，大口地呼吸着新鲜空气。

不知不觉中，一轮红日从东方渐渐升起，浓雾在太阳的照耀下逐渐散去。阳光下的海面看起来像是燃烧的火药，散发出一片红光。种种迹象表明，今天一整天都将刮风。然而，经过暴风雨洗礼的“鹦鹉螺”号对普通的风暴并不惊恐。

这时，有人走上平台来，打扰了我原有的平静。我以为是尼摩船

长，没想到上来的人是他的副手。他似乎并没有注意我的存在，径直走到平台前面，用一架倍数很大的望远镜仔细观察四周的情况。结束这些动作以后，他走近嵌板，说了一句法语，这也是我后来经常听到的，但是我并不懂法语，只能用音译的办法将它记录下来，大致是这样的：

“诺图隆—雷思普—拉伊—威尔希尔。”

船副做完了这些事后，离开了平台。通常这种情况下，“鹦鹉螺”号就又要潜入海底航行了，感觉无趣的我穿过狭长的过道，回到自己的房中。

这样的状况持续了5天。我每天早上都会在平台上听同样的人讲同样的话。尼摩船长像人间蒸发了一样，始终没有露面。我渐渐不再抱有希望。直到11月16日，我和我的两个伙伴从外面回到房间时，看到了一封署名为“阿勒纳斯教授收”的信。我迫不及待地拆开信封，一串带有德文字体的文字映入眼帘，信是这样写的：

明天早晨，将在克利斯波岛的林中安排一次打猎，尼摩船长诚挚地邀请阿勒纳斯教授和他的伙伴们抽空参加。

“鹦鹉螺”号船长尼摩

1867年11月16日

尼德·兰喊道：“去打猎！”

葛瑟尔补充说：“而且是在克利斯波岛的林中！”

尼德·兰又说：“难道我们有机会去陆地了？”

我重新将信读了一遍，肯定地说：“没错，信中是这样写的。”

尼德·兰说：“那我就接受邀请吧，至于其他的怎么办，就随机应变吧。我很高兴又可以尝到新鲜的野味了。”

尼摩船长是个不喜欢大陆和岛屿的人，他为什么会邀请我们去林中打猎呢？我的心里产生了很多疑团，为了得到答案，我很乐意地接受了他的邀请。

我翻出地图，知道了克利斯波岛的大体位置，在北纬32度40分、西经167度50分的地方，我将它指给我的同伴看。据我所知，古老的西班牙地图将这个岛称为洛加·德拉·蒲拉达，翻译过来是银石的意思，1801年的时候，克利斯波船长发现了它。那个小岛距离我们所在的位置大约1800海里，为了到达目的地，“鹦鹉螺”号便朝着东南方向行驶。

我告诉他们，尼摩船长即使偶尔登上陆地，也一定会选择荒无人烟的地方。尼德·兰摇摇头，不作任何回应，过了一会儿，他和葛瑟尔离开了我的房间。很快到了晚餐时间，船员客气地将晚餐送了过来。

解决了吃饭问题，我躺在床上想着明天的事，想了很久才昏昏睡去。

第二天早上，刚刚起床我便发现“鹦鹉螺”号不再行驶了，我简单洗漱后赶到了客厅。原来，尼摩船长早就到了，一直在客厅里等我。我出现后，他第一件事就是问我愿不愿意跟他去打猎。我当然给予了肯定的回答，不过，紧接着我又问了一句：“既然您已经与大陆隔离，为什么

还要去克利斯波岛的森林打猎？”

船长笑着回答说：“教授，您误解了，我所说的森林同您所说的森林不同，我的森林没有太阳，没有光和热，没有狮子、老虎、豹子以及其他四脚兽。森林里的一切只为我提供原料，这里就是海底的森林。”

我好奇地问：“海底的森林？”

“您说得没错，教授。”

“您是说去海底森林里打猎？”

“的确如此。”

“不用坐船吗？”

“不需要，即使步行去，也不会沾上海水。”

“您确定是打猎吗？”

“是去打猎。”

“需要猎枪吗？”

“需要。”

我不可思议地看着“鹦鹉螺”号船长，眼睛里充满了疑问。我甚至觉得他的脑子出现了问题，也许消失这么多天，正是因为发病的缘故。哎，可怜的船长，希望他不要发病才好。

我的眼神出卖了我的想法，但是尼摩船长并不做解释，只要求我跟

着他，于是，我们一起去餐厅吃早餐。船长客气地请我用餐，我们像往常一样吃饭、聊天，他告诉我，要尽量吃饱一点，因为海底森林里没有餐馆，让我做好早点吃午饭的准备。

各种美味的海产品填饱了我的肚子，包括鱼类、海参、助消化的海藻类植物等，饮料则是用水和酵素酒合成的液体。我知道，很久以前，堪察加岛人就是用海藻酿酒的。

尼摩船长起初只是顾着吃饭，后来才肯张口，他对我说：“阿勒纳斯先生，不要以为我是自相矛盾才会邀请您到我的克利斯波岛的森林中去打猎，也不要以为我是因为发疯才告诉您这是海底森林，这样的想法是不对的。只有当您知道事实真相的时候，才会放弃这种想法。要知道，人只要拥有可呼吸的空气，就可以在海底生存，这是人人皆知的常识。然而，这并不只是一种假设，人只要穿上一件不透水的衣服，头上戴一个金属的盒子，再获得必需的空气，在海底生存就可以成为现实。”

我补充说：“简单地说，只是需要一套潜水设备。”

“你这样说并没有错，但是，带了潜水设备的人是无法在海中自由活动的。因为输送空气的胶皮管子同大船是连在一起的，我们很难走远。”

我好奇地问：“难道还有更好的办法？”

“当然，洛克鲁尔和塔纳洛兹创造的器械就解决了这个难题。为了在海底更好地生存，我改善了你的两位同乡的器械，让它使用起来不至于那么痛苦。解决的办法是，将一个厚钢板制的密封瓶中储满50大气压力压缩的空气，用一条腰带捆在人的背后，而瓶上有一个吹风机，用来

控制盒中的空气。只要压力达到一定程度，盒中的空气才会流出来。而洛克鲁尔器械，则是用两条胶皮管子从钢盒中接出来，一条用来吸气，另一条用来呼气，而人的舌头，就成了控制这两条胶管的开关。但是，当深海中压力变大的时候，我就要像潜水员一样，把我的脑袋装在铜制的圆球中，而圆球恰恰与两条胶皮管相连。”

我问道：“尼摩船长，这样并不能保证氧气始终充足，总会有用完的时候，要知道当空气中的氧只剩下百分之十五时，就不能再呼吸了。”

“您说得没错，但是您忘了，阿勒纳斯先生，‘鹦鹉螺’号的打气机可以将高压压缩的空气装进去，这样，这套器械里的空气就足够我呼吸9到10小时了。”

我回答：“我彻底被折服了，但是，您在海底是怎么解决照明问题的呢？”

船长回答：“兰科夫灯可以解决一切问题。阿勒纳斯先生，我的背上背着呼吸器，而腰间别着探照灯。探照灯的电池不是普通的氯化钾，而是海中的氯化钠，你知道，海中的氯化钠是取之不尽的。只需要一个感应线圈便可以将电聚集起来输送到灯泡，而灯泡中有一根弯曲的装有少量二氧化碳的玻璃管。当探照灯处于开启状态时，二氧化碳便发出一组白光，为我照明。有了这些设备，呼吸和照明的问题就都解决了。”

“尼摩船长，你解除了我所有的疑问。但是，除了洛克鲁尔呼吸器和兰科夫探照灯以外，我还很好奇，如何在海中使用猎枪呢？”

“这可不是普通的火药枪。”船长回答。

“难道是气枪？”

“也不是，我在没有硝石，没有硫黄，没有木炭的情况下，根本就不能制造火药。”

我接着问：“要知道，海水的重量是空气重量的855倍，在这种环境下，您是如何克服这些困难开枪的呢？”

“这不是问题，现在流行的富尔顿1的设计就可以解决这个问题。富尔顿的设计是在英国人菲林格尔和布列、法国人福尔希、意大利人兰迪的基础上加以改进的，这种枪装有特殊的开关，哪怕在海中射击也可以做到游刃有余。但是，我必须重复一遍，我的枪不是用火药，只是用了压缩空气，这种空气在‘鸚鵡螺’号上是取之不尽的。”

“难道这种空气永远都不会用完？”

“当然，要知道我有洛克鲁尔瓶，有了这种设备，空气就像水龙头里的水一样，只需要开关水龙头，就会源源不断地涌出。阿勒纳斯先生，马上您就可以亲身体会这种神奇。”

“但是，您知道，海底的视线并不是很好，而且海水的重量要比空气重得多，怎样才能保证瞄准猎物呢？”

“先生，这种枪的神奇之处就在于它可以一枪毙命，不管伤势如何，只要接触到便会立即倒下。”

“这是什么原因呢？”

“因为这种子弹与众不同，它是由奥地利化学家列妮博罗克发明的一种小玻璃球，里面有钢套子，下面有铅做底，带有很高的电压。只要

是接触到动物，哪怕只是轻微的冲击，也会让动物停下来死去。这种子弹的威力很大，但是体积并不大，普通猎枪的弹盒可以装上10个。”

我从椅子上站起来：“耳闻不如一见，从现在开始，我就跟着您走了，我要用我手中的枪来实验一下。”

船长带我到了“鹦鹉螺”号的后部，经过尼德·兰和葛瑟尔的舱房门前，我叫上他们一起出发。不一会儿，我们来到了靠近机器房的一个小房子里，穿上特制的衣服后，就将开始一场奇特的旅行。

[1](#)美国著名工程师，他发明的汽船是第一次工业革命的重要发明之一。

第十六章 徜徉在海底平原

小房子位于“鹦鹉螺”号的军火库和储藏衣服的地方。墙上挂着12套供散步者使用的潜水衣。这些潜水衣并没有引起尼德·兰的兴趣，他很不情愿穿。

我对他说：“尼德·兰，你要搞清楚，我们是要去克利斯波岛的海底森林！”

由于吃鲜肉的梦想破灭了，尼德·兰很失望。他回答说：“阿勒纳斯先生，您确定您要穿上那些衣服？”

“当然。”我肯定地说。

尼德·兰无所谓地耸耸肩，说：“先生，随你吧！”

在船长的嘱咐下，两个船员走过来帮我们穿这些不透水的、沉甸甸的衣服。衣服的质地是橡胶的，没有缝隙，在强大的压力下，也可以保持完整。它的作用相当于一套又柔软又坚固的盔甲。衣服是连体的，裤脚下连着厚厚的带铅铁板鞋底的鞋。穿衣服的人靠一块铜板来保护胸部，以抵御水的冲压，这样人就可以自由呼吸了。衣服的袖子和手套是连在一起的，丝毫不妨碍手部运动。

眼前的这套潜水衣很完美，相比18世纪发明的树皮胸甲、无袖外罩潜水衣、藏身箱等要先进得多。不一会儿，我和葛瑟尔在别人的帮助下穿好了衣服，尼摩船长和他的一个大力士同伴也都穿好了潜水衣。只要我们将脑袋钻进金属圆球中，就可以出发了。

不过我并没有着急出发，而是要求尼摩船长将猎枪给我看一看。

尼摩船长答应了我的请求，命令船员将一支看起来并不复杂的枪拿给我看。枪托是由钢片制成的，体积相当大，中间是储藏压缩空气的容器，上面有活塞，转动机件便可以使空气流入枪筒。枪托里面装了足足20粒电气弹，在弹簧的作用下，子弹可以自动跳入枪膛中。一粒子弹打出之后，另一粒立即填满，可以保证连续发射。

我对尼摩船长说：“我们快到海底去吧，我迫不及待地想试试这支枪了。”

“教授，现在我们在海底10米处，马上就可以出发了。”

“我们怎么过去呢？”

“马上您就知道。”

尼摩船长率先将头钻进圆球帽子里面去，我和葛瑟尔重复着他的动

作。尼德·兰轻蔑地说：“你们好好地打猎去吧”。

潜水衣看起来跟普通的衣服一样，也有领子，不同的是这个领子是铜的，而且有螺丝钉。头顶的圆球上有三个孔，人可以透过它们看见周围的东西。当我们的头钻进圆球中时，背上的洛克鲁尔呼吸器便立即发挥了作用，以确保我们自由呼吸。

准备就绪后，我们手拿着猎枪出发了。但是穿上这身沉甸甸的衣服，鞋底被钉在甲板上，很难挪动步伐。这时，我被推进一个跟藏衣室相连的小房子中，我的同伴也一个一个被推进来，我听到身后关门的声音，紧接着，房间陷入了漆黑。

隔了几分钟，我的耳边传来了呼啸声，之后，我感到一股冷气从脚底涌到胸部。很明显，我们被海水包围了。不一会儿，小房子里便充满了水。这时，“鹦鹉螺”号船侧的另一扇门打开了，一道光线照了进来，我们可以在海底行走了。

如今，我很难用语言形容当时的情景，相信就算是一个著名的作家也很难描绘，这样一来，我也就情有可原了。

尼摩船长走在前面，我们走在中间，他的同伴跟在我们后面。我和葛瑟尔紧紧挨着，以便互相照顾。在这里，我们的感受完全不同，衣服、鞋底和空气箱似乎不再沉甸甸了，也不再觉得厚厚的圆球是个负担，我们的头在圆球里可以自由活动。海水带走了一切重量，在这里，阿基米德原理体现得更加充分。于是，我从一个呆立不动的物体变得行动自如。

我惊奇地发现，阳光竟然可以照到海底30英尺的地方。在太阳光的作用下，水中的颜色不见了，能见度非常好，我可以看清100米以内的

物体。而百米之外，水底则呈现出不同的色度，远处是浅蓝的，再远处是模糊黑暗的。在这里，水就像是空气一样，虽然密度比空气大，但透明度相当。我抬起头，就能看见平静无波的海面。

海底的沙子很细、很平静，没有皱纹，在上面行走，只看得见潮水的痕迹。沙子像是一把强力反光镜，将太阳光反射回去，从而产生一种强大的光线辐射。也许，没有人会相信我的话，不过这确实是真的。

我们在沙层上缓缓地移动，10分钟后，像长长暗礁一样的“鹦鹉螺”号船身就消失不见了，但可以看见船上探照灯的亮光，哪怕是走到黑暗的地方，也可以顺着光线回到船上去。

如果不是亲眼看见，真的很难了解电光在海底的作用。在陆地上，由于空气中含有尘埃，因此，光线变得像雾一样，没那么透亮。但是在海底没有杂质的情况下，电光就变得很透亮了，一点也不模糊。

我们在无边际的细沙平原上走动，不时用手拨开水帘，走过后它又自动合上，脚下水的压力也消失不见了。过了一会儿，一片美丽的景色出现在我的眼前，一块海底岩石上铺满了美丽的动植物。

此时，刚好上午10点。太阳光倾斜着投射在水面上，光线由于折射，显现出七种不同的颜色。海底的花、石、植物、介壳、珊瑚类动物，被光线装饰得美丽异常。红、橙、黄、绿、青、蓝、紫，7种颜色汇聚成色彩缤纷的万花筒，就像是水彩画家亲自搭配的颜色一样绚丽。这样的美景让我一饱眼福，此时，我真想同葛瑟尔共同分享这种喜悦，更想向尼摩船长表达我激动的心情。但是，这些想法很难实现，我只好自顾自地开心着，哪怕要耗费很多空气，我也要表达一下自己的心情。

面对如此美丽的景色，葛瑟尔也不淡定了。这个对生物分类着迷的

人又开始了他的工作。满地都是腔肠动物和棘皮动物，有变化不一的叉形虫、孤独生活的角形虫、纯洁的眼球虫、被人称作雪白珊瑚的蘑菇形的菌生虫、肌肉盘贴在地上的白头翁……整个沙层被布置成了一片花地，再镶上结了天蓝丝绦领子的红花石疣，显得格格外精致。在水流的作用下，这些花朵也随着轻微地摆动起来，显得更加婀娜多姿。此时，我的脚下有成千上万的美丽的软体动物：环纹海扇，海棒鱼，会跳跃的德纳贝，洼形贝，朱红胄，酷似天使翅膀的袖形贝，叶纹贝，以及其他许许多多的无穷无尽的海洋生物。对于我们给它们带来的搅扰，我感到十分惋惜。但是，我们不能停下脚步，前面等待我们的是更美丽的风景。我们头上是成群结队的管状水母，漂在水中的它们伸出天蓝色的触须；月形水母像是一把套了天蓝色框子的伞，为我们遮住了阳光；还有发亮的半球形水母，为我们照亮了前进的道路。

在接下来的旅行里，各种各样的珍稀品种呈现在我的眼前，而我始终跟在尼摩船长后面，不敢落下。不久，脚下的土壤不再是细沙，而是一片胶黏的泥地，由硅土或石灰贝壳构成，美国人将它称为“邬籽”。接着，是一片海藻地，这种植物的繁殖能力很强，长在地面上，未曾被海水冲走过。脚踩在海藻质地的草坪上，软绵绵的，那感觉像是踩在地毯上一样。我们不光脚踩着一片绿色，头上还顶着一片绿色。这些绿色，都是由海藻类植物构成的，足足有两千多种。认得出的有长长的海带（有些是球形，有些则是管状）、红花藻、叶子很纤细的薜苔、很像仙人掌的蔷薇藻。还有离海面较近的青绿色的海草，再深一些地方的是红色的海草，而最深处的是黑色或赭色的水草，形成了海底花园和草地。

植物界可以说有很多奇迹，而这些海藻类绝对可以算作其中之一。海藻类涵盖了地球上最小的植物和最大的植物，既有5平方毫米的微生物，也有长度超过500米的海带。

离开“鹦鹉螺”号一个半小时以后，就是中午了。太阳光垂直照下来，没有了折射作用，颜色逐渐消失。我们走路的声音很响亮，能够传出去很远。这是因为声音在水中比在空气中传播得更快，差不多快了四倍。

渐渐地，海下地面开始出现明显的斜坡，越来越低。随着深度的增加，阳光变得很微弱。当我们到达百米深度的时候受到的大气压约为10帕，不过由于我的潜水衣是特制的，所以这种压力对我来说没什么影响，就是觉得手指不能灵活摆动，但这种情况也很快就消失了。我穿着并不是很习惯的潜水衣，游了两个小时，按说应该很累了，但现在并没有这种疲倦的感觉。

到了大约300英尺的深度，还勉强可以看见微弱的太阳光，接着它的，就只有红色的曙光，那是白天和黑夜之间的暗淡的光线，勉强可以引路，暂时不需要兰科夫灯。

这时候，尼摩船长把我叫到前面，指着远处阴影中模糊不清的物体，我想，他是在告诉我，那就是我们的目的地。是的，我没有猜错。

第十七章 海底森林

我们走到了尼摩船长所拥有的物产最丰富的森林边缘，这里算得上是一片富饶的土地。尼摩船长成为这片领土的主人，没有人和他竞争，是他的勇气让他拥有了一切，除了他，还有谁敢拿着斧子来这里开荒种田呢？

在这片森林中，高大的木本植物比比皆是，其中一种拥有阔大的拱形枝干的树木，将我深深地吸引。这是我以前从未见过的树种，它的树枝排列的形状很奇特。

在这里，草类植物生长得并不茂盛，树木也不像陆地上那样或是垂下，或是向外蔓延，这里的所有树木都是笔直伸向海洋表面。大多数树木都不长枝条和叶带，尽管看起来很细小，但都像铁杆一样笔直。在海水强大密度的影响下，海带和水藻坚定不移地垂直生长，即使偶尔被我用手指分开朝着别的方向，当我的手放下的时候，便也立即恢复垂直的样子。

我渐渐适应了海底的世界，熟悉了这些古怪的形状，也熟悉了没有光亮的生活，我可以避开林中地上随处存在的尖利的石块。在我看来，海底植物的生长过程是不断地从旧范式向新范式过渡的科学发展的过程。与南北两极地带和热带领域相比，这里的物产更加丰富。仅仅几分钟，我已开始混淆植物和动物的区别，要知道，它们在海底的区别是很小的。

据我观察，这里的植物并不是真正同土壤相连。抓住它们根部的，不管是固体、沙、贝、甲壳或石子，对它们的影响都不大。对它们而言，只需要一个支点，就可以疯狂地生长。它们的生长更多是靠内因，一定存在一种维持和滋养它们的东西，这个东西就是海水。这些或是没有叶子，或是长着小片叶子的植物，表面颜色很单一，只有玫瑰红、洋红、青绿、青黄、灰褐和古铜色。比如像扇子般展开的孔雀彩贝，通红的陶瓷贝，像嫩笋一样的片形贝，约有15米高的古铜藻，茎在顶上生长的瓶形水草，还有很多其他类型的海产植物就这样鲜活地呈现在我面前，而不是像在“鹦鹉螺”号船上看到的那些风干的标本。这些植物有一个共同的特点，那就是都不开花，就像一位很风趣的生物学家说的那

样：“大海是一个与众不同的自然，在这里动物类开花，植物类不开花！”

海洋中有开着花的丛林，植虫动物的篱笆行列，它们或是生存在像温带树木一般高大的灌木丛中间，或是生存在湿润的阴影下面。也有像花一般绽放出条纹状花朵的脑纹状珊瑚，晶莹剔透的黑黄石竹珊瑚，生长茂盛的石花珊瑚，当然也少不了动物类，如成堆成堆的蝇鱼，它们像成群的鸟儿，在树枝之间飞来飞去。还有两腮耸起、鳞甲尖利的麦虫鱼，飞鱼，单鳍鱼，它们像一群鹌鹑，在我们脚下跳来跳去。

尼摩船长发出休息口令的时候，已经到了下午一点钟。我很高兴能在这样的环境中休息一下，于是，我在一条像箭一样笔直的海草华盖下面躺了下来。那感觉舒服极了，唯一让我感到遗憾的是，我们不能通过语言交流。我只能将套在圆球里的头靠近葛瑟尔，我从他的眼睛里同样看到了兴奋的亮光。见我靠近，他还在潜水衣里做各种搞笑的动作，表示他对这次旅行的满意程度。

我很吃惊，已经足足走了4个小时的路，但是并没有饥饿的感觉，我不明白这是什么原因。唯一与陆上不同的是，我似乎比平时更容易困，而且很难控制睡觉的冲动，恨不得只要躺下立即就能睡着，只有与其他人通过身体接触交流的时候，才暂时制止了瞌睡虫。与我不同的是，尼摩船长和他的同伴，早就躺在清澈的水晶体上，美美地睡着了。

有了榜样的作用，我很快也陷入昏睡之中，当我再次醒来的时候太阳已经向西边沉下去了，我不知道自己睡了多久，只觉得很满足。我发现尼摩船长已经站起来了，我也跟着站起来，伸伸懒腰，忽然，我发现在距离我几步远的地方，有一只一米高的海蜘蛛，正斜着眼睛看我，似乎马上要朝我扑过来。

我被眼前的阵势吓到了，尽管我穿着厚重的潜水衣，不会被它咬伤，但是恐惧仍然很难控制。就在这个时候，葛瑟尔和尼摩船长的伙伴起来了，他们在尼摩船长的指引下，也看到了那只怪物。只见他的伙伴拿出枪，一枪就将那个怪物打得抽搐挣扎。

这次经历让我预感到，后面还会有更可怕的动物出现在我的面前，到时候，恐怕连潜水衣也无法抵御它们的袭击了。于是，从那时开始，我提高了警惕。刚开始的时候，我以为我们休息过后就会回到船上去，但后来我发现我想错了，尼摩船长让我们休息，是为了给后面的旅行储备精力。

在倾斜地势的作用下，我们不知不觉中被拉到海底的最深处。大概下午3点的时候，我们来到了一座狭小的山谷中。山谷的四周是峭壁，要知道这是150米深的海底。通常情况下，人们只能在90米以内的海底旅行，但是由于我们装备更精良，因此可以超越大自然的极限。

我之所以判断我们是在150米的海底深度，是通过四周的环境得出的结论。因为周围海水很清澈，而且没有了阳光的照射。越往下，周围越是黑暗，无法看清十步外的情况，我们只能摸索着缓慢行走。这时，尼摩船长用电光机器为我们照明，我们眼前立即出现了一道明亮的光。我和葛瑟尔照着尼摩船长的样子做，轻轻地转动螺丝钉，让电磁铁跟曲玻璃管接通，很快四盏灯都亮了起来，海下没有阳光的地方也变得明亮起来。

尼摩船长继续向海底深处出发，周围连树木都变得稀少了。于是，我得出结论，植物界要比动物界消失得早些。尽管海产植物在这贫瘠的土地难以生存，但数量很多的动物、植虫动物、节肢动物、软体动物和鱼类却生活得有滋有味。

手电筒的灯光将周围的海底居民吸引过来，但它们始终停留在我们的猎枪射程之外。因为，我发现尼摩船长曾几次停下来瞄准，但经过观察之后，最终放弃了射击。

我们的旅程结束在下午4点钟的时候。当时，我们的去路被一道高大的岩石墙和一大堆怪石群挡住。那些巨人般的岩石层、花岗石的悬崖、乌黑的岩洞，让人无法攀爬上去。这里就是陆地了，克利斯波岛的尽头。

尼摩船长突然停住脚步，用手势示意我们停下来，我克服了自己想穿过这道墙的渴望，止步于尼摩船长的领地的最后界限。我理解他不愿意跨过这界限的原因，过了这里就属于地球的陆地了，那是他不愿意面对的。

于是，我们在尼摩船长的带领下往回走，往回的路与来时不同，相比之下，这条路更陡，但是距离海面更近一些。有过潜水经历的人都知道，返回海面的时候，一定要控制节奏，要逐渐地适应，如果突然上升到海面，在压力变化的影响下会造成严重的内伤。过了一会儿，光线又重新照亮了我们的周围，在折射作用下，海洋中的物体又变成了七彩的。

到了海底10米深的地方，各种各样的鱼类开始出现，成群结队数量可观，但是，我们的狩猎对象并没有出现。这时，我发现船长正在做出射击的姿势，将枪口朝着一个游动的东西瞄准，枪响后，一个很好看的水獭在几步远的地方应声倒地，它可能是生活在海中的唯一的四足兽了。被船长射中的水獭有一米半长，皮表面呈栗褐色，底下是银白色，这种颜色在俄国和中国的市场上十分罕见，制成皮筒一定很好看，可以卖个好价钱。

对于这新奇的哺乳类动物，我除了喜欢还是喜欢。当然，它也是其他狩猎者喜欢的对象，圆鼓鼓的头，短短的耳朵，圆圆的眼睛，白色瓷须像猫须一般，掌形带甲的脚，团簇的尾巴。这种珍贵的肉食动物主要生活在太平洋的北极圈里，十分罕见，已经濒临灭绝。如今，我们有幸遇到，并且狩猎到，真的是非常幸运。于是，尼摩船长的同伴以迅雷不及掩耳之势上前把水獭捡起来，扛在肩头，继续我们的旅程。

一个小时后，我们来到了一片位于海底不及两米深的细沙平原上。抬头看海面，可以看见跟我们做一样动作，穿一样衣服，只是方向相反的一群人在头上，那是我们的影子。影子个个脑袋垂在下面，两脚倒悬在空中。

在这里，可以看到很多对平时而言难得一见的景象。在我们的头上呈现出厚薄不一的波浪，肉眼看去像掠过一阵浓云，瞬间出现，瞬间消失。我又看到浪头起伏时演变成无数泡沫，飞溅得像羊群一样的白涛。我也看到巨大的鸟类从海面疾飞掠过，仿佛就在我们头上。

这个时候，我亲眼见证了一次完美的射击，跟任何猎人的射击比起来都有过之而无不及。只见尼摩船长朝着一只两翼张得很大的飞翔过来的大鸟瞄准，砰的一枪，大鸟掉在尼摩船长的同伴身旁，很快，猎物就被我们捕获。这次捕到的是一种美得让人赞美的海鹅。

美丽的海鹅并没有终结我们的狩猎任务，我们继续着这次难忘的旅程，在接下来的两个小时内，我们艰难地跋涉，有时沿着细沙平原走，有时沿着苔藓草地走，渐渐地我开始有些走不动了，好在这时，看见了“鹦鹉螺”号的探照灯从半里远的地方模糊地照过来。我估计20分钟后，我们就可以回到船上休息了，可以自由地呼吸了。尽管现在我们有空气储藏器，但我觉得供给我的氧气并不是很多，很难满足我的要求。

然而，这只是我的一厢情愿而已，后来我们耽误了很多时间才回到船上，因为发生了意外。

尼摩船长走在最前面，我跟在他后面，距离他有20步左右。突然，我看见尼摩船长回转过身来，用手把我按倒在地下。他的同伴也对葛瑟尔做了同样的动作。我被突如其来的意外搞得一头雾水，好在有尼摩船长在我身边，我少了几分担心。于是，我安然地躺在苔藓丛林的后面，但当我抬起头时，我被吓得全身都僵住了。原来，一对巨大无比的鲨鱼发出磷光，气势汹汹地游了过来。这是鲨鱼中最可怕的一类，尾巴巨大，目光呆滞，嘴的周围有很多喷出磷质的孔，闪闪发光。

如果这对火鲛发现我们，肯定会用它们的铁牙床，将我们咬成肉酱！此时，我不知道葛瑟尔是不是还有心思将它们进行分类。对我而言，此时我已不再是一个生物学者，而是一个即将成为火鲛口中美餐的人。眼睁睁地看着它们的银白的肚腹，还有满是利牙的大嘴。

也许是我们命不该绝，这对贪食的动物并没有发现我们，在黄黑色的尾巴略微触碰到我们后便游过去了。能够躲过这次劫难，真的是上天眷顾我们，这次遭遇比在森林里碰见猛虎还要惊险。

半个小时后，确定火鲛离开后，我们在电光的指引下，回到了“鹦鹉螺”号。在确定我们都进入小房子后，尼摩船长把门关起来。然后他按下一个圆钮，船内部的抽水机活动起来以后，我周围的水渐渐低下去，很快，小房中的水便不见了。打开里面的门以后，我们走进了装有潜水衣的房子。

我们迫不及待地将衣服脱下来，拖着疲乏的身子回到各自的房中，复杂的感情夹杂在一起，一方面沉浸在这次有趣的探险之中，另一方

面，觉得身体马上就要散架了，迫不及待地进入了梦乡。

第十八章 太平洋下四千里

我在回到“鹦鹉螺”号的第二天，也就是11月18日，经过短暂的调整后终于完全歇过来了。醒来后，我照例来到了平台上，碰到“鹦鹉螺”号的船副又在重复着我听不懂的话。我猜测，这句话一定跟海面的情形有关。于是，我观察着海面的动静，只见近处、远处都很平静，空荡荡的，克利斯波岛的高地消失在我们航向的后面。海面上一片湛蓝，三棱镜分出的其他颜色都被海水吸收了，只将蓝色反射到四面八方去，将海面染成了一幅条纹宽阔的天光蓝毛布，在层叠的波涛上很有规律地摊开。

尼摩船长的出现，惊动了正在欣赏美丽海景的我。然而，他却只顾着自己做天文观察，做完观察后，时而靠着探照灯笼间，时而注视着洋面，完全没有意识到我的存在。不一会儿，又有20名壮硕的水手来到甲板上收渔网。这些人的体型很像欧洲人，但国籍却各不同，有来自爱尔兰的、法国的、斯拉夫的，也有希腊的和克里特岛的。他们彼此用特有的语言交流着。由于不懂他们在说什么，我只能眼睁睁地看着他们。

“鹦鹉螺”号用的渔网是袋形的，用一根浮在水上的横木和一条串起下层网眼的链锁支开，跟诺曼底沿海使用的差不多。这些口袋似的网被装在船后面的铁框上，像扫把在海底打扫一般，将遇到的鱼全部网上来。我在网中看到了很多种类新奇的鱼，如动作滑稽可笑又名丑角鱼的海蛙鱼，黑色带有许多触须的噪嘆鱼，带红色波纹的弯剑鱼，弯月形有

厉害毒汁的馥鱼，橄榄色的八目鳗，长着银白鳞片的海豹鱼，能发电的旋毛鱼，多鳞有古铜色横斜纹的纹翅鱼，淡青色的鳌鱼，虾虎鱼等。也有一些身形较大的鱼，如头部隆起的加郎鱼，一米长的天蓝和银白相间的鲤鱼，华丽的金枪鱼。对于这些鱼而言，这个袋网就像是一个噩梦，一旦误入就很难逃脱。

今天的成绩不错，网到的鱼足足有上千斤。但是网在船后拖拉着有好几个小时，看起来也不是什么特别的收成。由此可见，我们在“鹦鹉螺”号上并不缺少食物，“鹦鹉螺”号的速度，和它的电光的吸引力，可以为我们带来源源不断的食物。船上有一个食物储藏室，用来存放这些不同种类的海产品。有些要趁新鲜食用，有些要保存起来。

食物准备充足了，换气完毕了，“鹦鹉螺”号又要开始海底旅行了。当我准备回去的时候，尼摩船长转过身来，没有问候，直截了当地对我说：“教授，您看到了吧，海洋是具有生命的，像我们一样会愤怒，也会有温情。昨天，她还在沉睡，今天，她就又动起来了，您看，她在太阳的抚摸下苏醒了！又要开始新一天的生活了。作为一项学术研究，这是不是很有趣呢？在我看来，她跟人一样，有脉搏、有血管、有起伏，就像科学家莫利说的那样，海洋跟动物身上的血液循环一样，有真正的循环作用。”

尼摩船长自顾自地说着，并不需要我与他交流，于是，我干脆连礼貌的“当然”“一定”和“您对”都省略了。他每说一句话，中间都会停顿很长的时间，似乎是用一种特殊的形式在思考。

他接着说：“不错，海洋有真正的循环作用，这是通过增加热、盐和微生物来实现的。热力的存在使得海水具有不同的密度，使海中出现许多顺流和逆流。赤道地带存在水汽蒸发现象，而北极区域则没有，

于是热带海水和极圈海水间永远不停地在进行交流。此外，海洋的呼吸作用是通过那些由上而下和由下而上的水流形成的。我发现，海水的分子在零下2度的时候是密度最大的。温度再降低，重量又减轻了。您将在极圈海域看到这种现象所产生的结果，您将了解到，自然的规律导致了冰冻作用只有在水面上才会发生。”

听到尼摩船长说极圈二字，我心里想，难道这个大胆的人要把我们带到极圈中去吗？

船长醉心于他对海洋的研究，根本顾不上留意我的想法，过了一会儿，他又说：“教授，海水中盐的含量是非常大的，如果您能够将海水中的盐提炼出来，可以造成一个450万立方里的面积的盐堆，在地面上堆起来，可以铺成十米高的一层表皮。大自然赋予海这么多盐分是有原因的，因为盐质使海洋永不容易蒸发，使海风不能将分量过多的水汽带走，如果过多的水汽化成水的话，那么，温带的地方就会被水淹没了。大自然真是了不起啊，可以调动全地球的力量，使其保持平衡！”

尼摩船长停了一会儿，在平台上转了几圈，又接着对我说：“至于那些生活在水滴中的原生秒水虫，数量也是巨大的。一滴水中便有千万亿的不可计数的微生物，它们在一毫克的水量中便有80万个。它们的作用是吸收海中的盐，消化水中的固体物质，在它们的作用下，形成了石灰质陆地和珊瑚。当水滴中的矿物质被吸去了以后变轻了，于是浮到水面上来，在水面吸收了盐质变重后，又沉下去，重新给那些微生物带来可吸收的新物质。就这样，上下循环的潮流永远都不会停止，因此海洋的生命力更强大，海洋中的生物更丰富。人们说，海洋是人类致命的地方，但那只是对人而言，对无数的动物和我而言，它是真正生命的所在！”

尼摩船长的表情变得同往常不同，他怀着一种特殊的心情接着说：“所以，海洋赋予了我真正的生活！我还有个想法，要在水中建设城市，海底住宅，像‘鹦鹉螺’号一般，每天早晨浮上来换气。如果这个理想能够变成现实，那么，那将会是一座真正自由的城市。不过，也难说不会有专制的魔王……”

尼摩船长用一个激烈的手势配合这句话。过了一会儿，尼摩船长像是要把一些不祥的思想驱赶出去一样，快速跑过来，向我提出一些问题。

“阿勒纳斯先生，您知道海洋的深度吗？”

“船长，我只知道一些基本的探测数据。”

“您可以告诉我吗？”

我回答：“我记得不一定准，还请您见谅。北大西洋的平均深度为8200米，地中海为2500米。在南大西洋南纬35度的地方，有几种探测数据，一种是12,000米，一种是14,091米，还有一种是15,149米，根据这些数据计算，海洋的平均深度应该是7000米左右。”

尼摩船长答：“先生，我可以向您提供一些更确切的数字，目前我们所在的太平洋位置的平均深度为4000米。”

说完这话，尼摩船长便离开平台，带我来到了客厅。他立即发动了测程器，表盘显示船的速度为每小时20海里。

之后尼摩船长便又消失了，我们几个星期没有再见面。只是偶尔，我瞥到他的背影。他的副手仍然定期地来进行航线记录，所以我可以及时了解“鹦鹉螺”号所走的路线。

我和我的两个伙伴在一起谈了很长时间，葛瑟尔向尼德·兰讲述了我们在海底的惊险遭遇，尼德·兰开始后悔没有同我们一起去，错过了很多的精彩。当然，我们都希望以后还有游历海底森林的机会。在航行的间隙，客厅的嵌板会每天敞开几个小时，我们通过这里了解海底的秘密，大家都百看不厌。

“鹦鹉螺”号向着东南方向行驶，位于海底100米和150米的深度之间。但有一天，不知道为什么它使用的两块纵斜机板，沿着纵斜线潜下去，一直到了2000米的深度。此时，温度表指向摄氏4.25度，好像在这样深度的水里，温度不会受地带的影响，是统一的。

11月26日凌晨3点，“鹦鹉螺”号行驶到了西经172度的位置，跨过了北回归线，可以远远地望见夏威夷群岛。1779年2月14日，有名的航海家库克就是在这里被杀死的。

自出发以来，我们已经足足走了4860里。这天早晨，我走上平台看这群岛的七个岛中最大的夏威夷岛，我清楚地看到它那已经属于开发地带的边缘，跟海岸线平行的各支山脉和海拔数千米的火山群。还看见了岛上高耸的摩那罗亚火山。在这一带，“鹦鹉螺”号的渔网还打到了孔雀扇形珊瑚，它属于扁平水螅类，是太平洋这一部分的特产动物。

“鹦鹉螺”号仍朝着东南方行驶。12月1号，它在西经142度上越过赤道线；12月4号，经过马贵斯群岛附近的海域。行驶到南纬8度57分、西经139度32分时，我看见了300海里以外的洛嘉伊万岛的马丁尖岬，这是法属马贵斯群岛中的最重要的一个岛。我远远地看见满是丛林密布的山岭，由于尼摩船长不喜欢接近陆地，我无法看清楚其他的東西。在这一带海域，渔网打到了哥利芬鱼、赤裸鱼、骨头鱼、忒吒鱼，这些都是非

常珍贵的品种。哥利芬鱼的尾巴是金黄色的，长着天蓝色的鳍，肉味鲜美无比；赤裸鱼几乎没有鳞甲，也很好吃；带骨腮的骨头鱼，黑黄的忒吒鱼，都比鲤鱼好吃，值得品尝。

从12月4日至11日，“鸚鵡螺”号共行驶了4000多里。途中，我们遇见了一大群奇异的软体动物——枪乌贼，它们跟墨鱼很相像，属于头足纲，双鲤目。法国渔人将它们称作水黄蜂。古代生物学家对这种鱼类很有研究，根据生在吉利安之前的希腊医生阿典尼的话来判断，希腊的有钱公民也会食用这道美味的菜。

在12月9日和10日夜间，“鸚鵡螺”号同一大群喜欢夜出的软体动物相遇，这一群动物足足有数千百万个。它们的路线同槽白鱼和沙丁鱼相同，从温带地方转移到较暖的水域去。我们通过很厚的玻璃窗观察它们是如何向后倒退，如何极端迅速地游泳，如何运用它们的运动管转动，看它们族群中是如何优胜劣汰。这种多脚动物胡乱抓爬，难以形容，就像是小孩玩的蛇形吹气管子。连速度行驶非常快的“鸚鵡螺”号，也在这大群动物中间走了好几个钟头，无数枪乌贼落入了我们的网中，此外网住的还有被奥宾尼分类的九种太平洋的品种。

各种奇妙的景象和场面出现在我们的旅行之中，我们沉浸在这种快乐当中。我们一面欣赏造物者的作品，一面发现海底深处的秘密。

12月11日，我整天都窝在客厅里看书。我的两个伙伴透过打开的嵌板，观察那明亮的海水。突然，“鸚鵡螺”号不动了，它的储水池满装着水。

在水下1000米的地方，除了集中大鱼，其他的海洋居民很少出现在这一领域。当时，我正在读简·墨苏著的一本很有趣味的书——《胃的

调理者》，正当我领略书中的意境的时候，葛瑟尔用不淡定的声音请求我让他进来。

我好奇地问发生了什么事，葛瑟尔只是叫我出去看看。

我站起来，向窗外望去，只见外面有一团巨大的黑东西，悬在海水中间不动。我正试图去为这种巨大的动物分类，忽然意识到这不是动物，而是一条船。

尼德·兰肯定了我的判断，并补充说：“这是一条碰了暗礁的船。”

在我们面前的的确是一条船，船上的护桅索仍然挂在链上，船壳还很完整，估计船沉下来不久，最多也就几个小时。三根断桅从甲板上两英尺高的地方掉下来，表明这只遇难的船不得不把桅樯牺牲了。这只装得满满的船是侧躺着的，向左舷倾斜，从造型上看很凄惨。更为凄惨的是甲板上躺着挂在绳索上的尸体。只见一个人站在舵边，一个妇人手中抱着一个小孩，在船尾跳板格子上站着。通过船上的电光可以看见，这个妇人还很年轻，她死前的最后一个动作是将孩子拖起，而这个可怜的孩子正抱着妈妈的脖子。更为恐怖的是4个水手的尸体，他们的姿态看上去非常吓人，因为他们的身躯抽搐得不成样子，可以看出他们死前在做着最后的挣扎，企图摆脱将他们缠在船上的绳索，最终在挣扎中死去。唯一镇定的是那个看航路的舵手，表情很严肃，只见他灰白的头发贴在前额，痉挛的手放在舵轮上，仿佛遇难后仍然在驾驶着那艘船。

我们被眼前怕人的景象惊呆了，发不出任何声音。我们眼看着沉船事故，观察着每个濒临死亡的人的表情，我的心跳加速。突然，一些巨大的鲨鱼出现了，它们显然是被眼前的大餐吸引了，快速地向前游来。

这时，“鹦鹉螺”号绕过沉没的船继续向前行驶，我清楚地看见了沉

船的名字：“佛罗利达”号，山德兰港。

第十九章 万尼科罗群岛

沉船的景象牵动着每个人的神经，也揭开了“鹦鹉螺”号一连串海中灾祸的开始。自从到了船只往来比较多的海中，遇见那些遇难的船只在海水中腐烂就成了常有的事，在更深的海底下面，甚至还有生锈的大炮、子弹、锚、链以及其他许多铁器。

我们在“鹦鹉螺”号上孤独地生活，而船的脚步却从来也没有停止过。12月11日，我们望见了位于南纬13度30分和23度50分之间、西经125度30分和151度30分之间的帕摩图群岛，由东南偏东至西北偏西，从度西岛直至拉查列岛，海岛在长500里的海面上罗列起来。群岛的面积共370平方公里，由约莫60个小群岛组成，其中包括由法国占领的作为它的保护地的甘比尔群岛。造就这些小岛的功臣是珊瑚，正是由于这个种群的存在，才使得地面缓缓上升，终于有一天，这些小岛连接起来，形成新岛后又与周围的岛连接在一起，久而久之，自新西兰和新喀里多尼亚岛起，至马贵斯群岛止，便形成了一个新的大陆，也许将来会成为第五大洲。关于新大陆构成的理论我曾在尼摩船长面前谈过，他的反应很冷淡，说这个地球上需要的不是新大陆，而是新人。

在这些群岛中，最有特色的岛屿就是克莱孟德尼，它是“密涅瓦”号船长贝尔在18年前发现的。在这次航行中，“鹦鹉螺”号偶然来到了这里，我也可以研究太平洋中的小岛所构成的造礁珊瑚体系。造礁珊瑚跟普通珊瑚不能混为一谈，它们的纤维组织被一层石灰质的表皮蒙上，著

名的老师密尔·爱德华先生把它们分为5部分。这些珊瑚树是由细小微生物的分泌物累积而成的，它们数以亿万计地生活在细胞里面，分泌的石灰质逐渐累积，组成了岩石、礁石、小岛、岛屿。在偶然的机会下，它们形成一个圆形的环，围绕着一个珊瑚洲或一个内湖，边缘有缺口，可与大海相通。当然，它们也形成一些礁石的悬崖，跟新喀里多尼亚海岸和帕摩图群岛的小岛相似。或者像联合岛和毛利斯岛一样筑起礁石脉，像城墙一样坚固。

我沿着克莱孟德尼的悬崖走了几百米，在短短的时间内，我开始对微生物这个伟大的劳动者充满了敬意。这些悬崖大半是被称为千孔珊瑚、滨珊瑚、星珊瑚和脑形珊瑚的造礁珊瑚类的杰作。造礁珊瑚类动物比较喜欢海波激荡的表层，在这里它的繁衍能力更强，因此，它们是从上层开始工作的，逐渐到下层。带着剩余分泌物的上层物质沉到下面去，周而复始。达尔文学说用该学说来说明环状珊瑚岛的构成，相比那种认为海面下几米有浮出的山岭或火山的峰顶作为造礁珊瑚的工作基地的学说，更加符合实际。

由于墙是直的，所以我很容易靠近墙壁观察我感兴趣的东西，此时，我看到探测器显示的深度超过了300米，石灰石被我们船上的阵阵电光照亮了。

葛瑟尔问我：“先生，积累这些巨大的墙垣要花多少时间呢？”

我告诉他，在学者看来，一个世纪的时间都算短的。

他较真地问：“准确来说，究竟是多长时间呢？”

我不得不将时间回答得准确一些，对他说：“要192,000年，葛瑟尔，《圣经》记载的时间也不完整。此外，煤炭的形成也需要更长的时

间，因为森林被洪水冲击后产生矿化作用，玄武岩产生冷化作用，时间长一点，才能够作用得更加充分。其实，文字的记录只是一个数字概念，并不能指出两个时间的先后，因此，照《圣经》的说法，太阳并不是一开始就存在的。”

“鹦鹉螺”号又一次浮上海面透气，我可以透过玻璃窗看见低洼的和多树的克列蒙瑞尼岛发展的全部过程。在旋风和风暴的作用下，岛上的珊瑚石变成了富饶的沃土。暴风将一些谷粒果核带到附近岛屿石灰质的土地上，原本地里蕴含着鱼类和海产植物分解出来的渣滓便形成了很好的草木肥料，不久种子就可以生根发芽了。种子长大后变成了树林，贮藏了丰富的水蒸气，又繁殖出一些微生物、爬虫和昆虫。而风这个天然的搬运工又将这些东西带到其他海岛上，就这样，海岛活跃起来。岛上有了植物和动物，人自然就被吸引过来了，群岛就这样逐渐形成了。

克莱孟德尼消失在傍晚的夕阳里，我们发觉“鹦鹉螺”号在西经135度上接触到南回归线的时候改变了航向，向西北偏西驶去。正值夏季，太阳光十分强烈，但是，由于我们行驶在水底30至40米的深度，并没有受到这个因素的影响，海水的温度总保持在10度到12度之间。

12月15日，社会群岛和塔希提岛出现在我们面前，作为太平洋王后的塔希提岛看起来是那么婀娜多姿，社会群岛也很令我们留恋。早晨的时候，我看见了几里外高耸的山峰，而我们的食品也全部来自小岛，美味的鲭鱼、鲤鱼、乳白鱼，还有好几种属于鳗鱼类的海蛇。

8100海里的里程在不知不觉中过去了，“鹦鹉螺”号转眼便来到了汤加塔布群岛和航海家群岛之间，此时测程器的仪表盘指针指到9720海里。在很久以前，“阿尔戈”号、“太子港”号和“博兰公爵”号的船员就是在汤加塔布群岛丧生的，而拉·白鲁斯的朋友、郎格尔船长是在航海家

群岛被杀的。过了不久，维蒂群岛出现在我的视野里，“和合”号的水手和指挥“约瑟芬”号的南特人布罗船长就是被岛上的居民杀害的。

很多的小群岛，如维蒂岛、万奴岛和甘杜朋等岛构成了长100里，宽90里的岛群。这里位于南纬6度至2度、西经174度至179度之间。

1643年，托利色利发明了风雨表，路易十四即位，塔斯曼发现了这群小岛。这三件大事究竟哪一件对人类最有益处，值得思考。后来，人们纷纷登上了这群小岛，最有名的是库克、土尔加斯朵和杜蒙·居维尔，他们分别于1714年、1793年和1827年来到这里。杜蒙·居维尔登上小岛以后，曾进行过勘察，清楚了小岛的大体结构。

“鹦鹉螺”号越来越接近狄勇船长遇到过惊人冒险的地方——魏利阿湾，他第一个发现了这里的秘密。

我们按照谢奈克的方法在海湾中打到很多好吃的牡蛎，我们将牡蛎剥开放在饭桌上，美美地吃上了一顿。在地中海科西嘉岛，牡蛎这种贝壳类动物非常普遍，而且产卵非常快，一个牡蛎可以产200万个卵，如果没有牡蛎这种动物来遏制它，相信这一带整个海湾都会被牡蛎填满。

尼德·兰吃了很多牡蛎，但并没有像吃其他食物那样，后悔吃撑了，因为牡蛎最大的优点是不会使人产生饱胀感。人体每天需要315克氮素，而这些氮素需要大约200个牡蛎来提供。

12月25日，“鹦鹉螺”号驶入新赫布里底群岛。

1606年，奎洛斯发现了这个群岛，1768年，布甘维尔登上群岛探险，1773年，库克将它命名为新赫布里底群岛。这个群岛位于南纬15度至2度、西经164度至168度之间，由九个主要大岛组成，形成一条从西

北偏北至东南偏南的120里的长带。我们的船沿着奥卢岛岸边行驶，临近正午的时候，发现这个群岛上耸立着一座很高的山峰，整个群岛被一片青绿的树林覆盖着。这一天刚好是圣诞节，因为不能同家人过节，尼德·兰显得很懊恼，要知道基督教徒将这一天视为家庭团聚节。

我与尼摩船长分别了七八天，27日清晨，终于再次见面。当他走进客厅的时候，我产生了一种幻觉，觉得我们只是分开了五六分钟而已。

当时，我正在地图上看“鹦鹉螺”号的航线，船长凑上前来，用手指着地图说：“这是万尼科罗群岛。”

这是一个很有诱惑力的名字，因为白鲁斯的探险船就是在那里失踪的。我立即站起来，问：“我们已经到达万尼科罗群岛了？”

“你说得没错，教授。”船长回答。

“我们是否有幸去看看这个沉没了罗盘号和浑天仪号的岛屿？”

“教授，如果您愿意，我们可以去探险。”

“大概什么时候能到？”

“教授，马上就到。”

尼摩船长走上平台，我紧随其后。刚到平台，我就急急地望向天际。

两座大小不等的由火山形成的岛屿出现在东北方，被40海里长的环形珊瑚礁围绕着。是的，这里就是万尼科罗岛了，它还被杜蒙·居维尔称作搜索岛，位于南纬16度4分和东经164度32分之间，就在万奴岛的天

然小港前面。岛上好像有一道青纱帐，将岛上的土地和海滩笼罩起来。岛上耸立着加波哥山，它高达900米，站在上面可以俯视全岛。

小岛的附近是一个狭窄的水道，外围有一道石带，“鹦鹉螺”号就行驶在暗礁岩石里。这里的海水深度大概在50米至65米之间。这时，我发现有十二三个土人站在红树荫下，他们对于我们的到来感到非常惊讶。对于这个能在水面上行走的灰黑色的东西，他们充满了警惕，也许他们将“鹦鹉螺”号当成是很厉害的鲸科动物了。

这时，尼摩船长突然跟我聊起白鲁斯遇难的事情，这事我是知道的。

“船长，对于这件事，我了解的并不比你多。”我回答他。

“您可以再普及一下。”他带些讥讽的语气说。

“小事一桩。”

我简单地向他描述了杜蒙·居维尔在著作中提到的关于这件事的原委。

1785年，路易十六派遣拉·白鲁斯和他的副手郎格尔船长作环球航行，于是他们选择乘坐“罗盘”号和“浑天仪”号两艘三级舰出发，此后便音讯全无。

6年后，法国政府开始关心这两艘战舰的命运。为了开展搜寻工作，装备了两艘大运输舰——“搜索”号和“希望”号。9月28日，土尔加斯朵指挥这两艘大运输舰从布勒斯特海港出发。过了两个月，他们从“阿伯马尔”号船的船长口中得知，已经发现了两艘失事战舰的残骸，失事地点在新佐治岛沿岸。土尔加斯朵在不知道这个消息的情况下向海

军部群岛出发，他的根据是韩德船长的一个报告，报告中称这群岛是拉·白鲁斯失事遇难的地点。

最终他并没有得到自己想要的结果，反而失去了两名副手和好几名水手。

真正将遇难者谜底揭开的是一位老航海家狄勇船长，他是一位资深船长，经常在太平洋上航行。1824年5月15日，他驾驶“圣巴土利克”号经过新赫布里底群岛之一——第克贝亚岛附近。在那里，一个印第安人乘着独木舟，靠近他的船边，卖给他一把银质的刀柄，柄上有镂刻的文字痕迹。这个印第安人又说，6年前，他在万尼科罗岛住下来的时候，曾看见过两个欧洲人，他们是一只遇难船上的船员，这船多年前撞在岛附近的暗礁上了。

狄勇立即联想到拉·白鲁斯船上的遇难人员，因为这些船只的失踪曾经震动世界。他打算去万尼科罗群岛，按照印第安人的说法，那里还有遇难船只的许多遗物，只是大风和海浪阻挡了他，无法前往。

狄勇回到加尔各答，他想方设法让亚洲学会和印度公司注意他的发现。后来，他得到了“搜索”号的指挥权，1827年1月23日，在一个法国人的陪同下，前往万尼科罗群岛搜寻。

1827年7月3日，“搜索”号停泊在万尼科罗群岛前面，也就是此刻“鹦鹉螺”号所在的这个万奴岛的天然小港中。

狄勇在这个地方获得了很多遇难船只的遗物，如：铁制的用具，锚，滑车的铁链环，小炮，一颗18号的炮弹，残破的天文仪器，船后部断片。此外，还有一口带着“巴赞给我造的”标识的铜钟，从标记可以得知，这口铜钟是由布勒斯特军械局铸造厂生产的，产于1785年左右。

狄勇船长整整在那里待了三个多月，收集了很多完备的资料。之后，他前往新西兰，于1828年4月7日到了加尔各答。回到法国后，查理十世热情地招待了他。可杜蒙·居维尔对这一切并不知情，他已经出发去别处寻找船只失事的地点了。他的根据是一只捕鲸船传出的消息——在路易西安尼省和新喀里多尼亚岛的土人手里发现了很多徽章和一种圣路易十字勋章。

狄勇离开万尼科罗群岛两个月后，杜蒙·居维尔带领“浑天仪”号向大洋出发。他的船停靠在何巴市面前，在这里他得知了狄勇所收集的结果，此外，他从加尔各答轮船公司的“和合”号的一个名叫何伯斯的船副那里得知，在南纬8度18分和东经56度30分之间的一个小岛上，那里的土人使用了一些铁条和红色毛布。

杜蒙·居维尔不知道是否应该相信那些报刊所刊登的内容，经过慎重的考虑，他仍然决定到狄勇曾经到过的地方去。

1828年2月10日，“浑天仪”号到了提科皮亚岛面前，为了尽快到达万尼科罗群岛，他聘请了一个落户在岛上的逃兵当向导和翻译，两天后，他望见了万尼科罗群岛。一直到14日，他始终沿着群岛的礁石脉行驶，直到20日，他才停泊在礁石圈里面，即万奴岛的天然港内。

23日，几名登岛的船员得到了一些遗物，而当地土人则始终逃避，不愿意带他们到船只遇难的地方去。人们从这种逃避的态度中断定，船上的遇难人员一定受过他们的虐待。当地土人是担心杜蒙·居维尔给拉·白鲁斯及他的苦命同伴报仇。为了让这些土人带路，26日，杜蒙·居维尔明确地告诉他们自己不会报复，而且还送给他们很多礼物，当地土人这才带领船副雅居诺，到了船只遇难的地方。

在巴古和万奴两岛的礁石间，水下5米至6.5米的地方，堆积着很多被石灰质的沉积层粘住的锚、炮、铁块和铅块。浑天仪号的大艇和捕鲸船费了九牛二虎之力才开到了这个地方，船员们把他们发现的宝贝打捞上来，清点后发现有一个重1800斤的锚，一门口径8分的铁铸大炮，一大块铅和两尊铜炮。

杜蒙·居维尔问土人知不知道拉·白鲁斯后来造的那只小船失事的地方，迟迟得不到答案。为了纪念这位著名的航海家和他的同伴，杜蒙·居维尔在一株红树华盖下，建造了一座简单的四角形的衣冠墓。为了避免土人的贪心，上面没有竖立铁架。

就在杜蒙·居维尔打算离开岛上的时候，他和他的船员都受到海岛气候的影响，得了热病，于是出发的日期拖延到了8月17日。

为了告知杜蒙·居维尔狄勇的发现，法国政府派出“巴沿尼”号小战舰到万尼科罗群岛，任命列哥郎·德·土浪美林为指挥，当时船停在美洲西部海岸。“浑天仪”号离开几个月后，“巴沿尼”号到达了万尼科罗岛，他们并没有新发现，只证明了土人没有破坏拉·白鲁斯的墓。

以上就是我告诉尼摩船长的事实。

他问我：“这么说，人们还是不知道拉·白鲁斯造的第三只船在哪里失事的？”

“您说得没错。”

尼摩船长沉默了一会儿，示意我跟他到客厅去。此时，“鹦鹉螺”号潜入海水下几米深，嵌板打开了。

我迫不及待地走到玻璃隔板面前观看，只见菌生植物、管状植物、

翡翠海草、石竹小草将珊瑚礁石的基地盖满了，下面是成千上万的可爱鱼类，有鲍鱼、雕纹鱼、卿筒鱼、裂骨鱼、金鱼，在它们中间，我发现了一些打捞机无法打捞的遇难船只留下的物品，如铁马磴、锚、炮、炮弹、绞盘架、船头废料等等，现在都被活生生的花朵覆盖了。

当我为眼前的残骸感到难过的时候，尼摩船长严肃地对我说：“1785年12月7日，拉·白鲁斯船长率领了‘罗盘’号和‘浑天仪’号出发。他最初选择访问了友爱群岛，新喀里多尼亚，然后向圣克鲁斯群岛出发，停在哈巴衣群岛的纳姆嘉岛。接着，船行驶到现在的万尼科罗群岛的礁石上面，当时他们并不知道这座岛的名字。走在前头的‘罗盘’号撞在南边海岸的礁石上，在前来救援的途中，‘浑天仪’号也碰上了暗礁。触礁后，‘罗盘’号立即沉下去，而‘浑天仪’号支撑了几天。遇难船员们受到了当地土人的善意招待，他们住在岛上，利用两艘大船的材料，建造了一艘小船。有些不愿意再冒险的船员选择留在万尼科罗群岛上，而另一些体弱多病的船员则跟着拉·白鲁斯一同出发，向所罗门群岛开去。最终，他们在伤心岬和喜悦岬之间遇难了。”

“您是从哪里知道这些的？”我吃惊地问。

“别急，你马上就可以看到我从失事的船上找到的文件。”尼摩船长将一个印有法国国会标记的白铁盒递给我。铁盒已经被海水腐蚀了，里面有一纸发黄的公文，字迹很清楚。

阅读后得知这是法国海军大臣给拉·白鲁斯船长的训令，周围还有路易十六的笔墨。

这时，尼摩船长说：“对于一位海员来说，能够死在珊瑚墓这里真是一件幸福的事，这里实在太幽静了，愿上天赐给我和我的同伴一座同

样的坟墓！”

第二十章 托列斯海峡

12月27日至28日夜间，“鹦鹉螺”号以最快的速度离开了万尼科罗群岛，开始向西北方进发。仅仅三天时间，它足足走了750里，也就是从拉·白鲁斯群岛走到了巴布亚群岛。

1868年元旦，一大早葛瑟尔就在平台上找到我，对我说：

“先生，新年到了，祝您一切顺利，不知道我这样的祝福合适不合适！”

“谢谢你，葛瑟尔，在巴黎你也是这样问候我的。不过，这次所处的环境可不同，你说的一年顺利，是希望我们早日结束被囚禁在船上的生活，还是在新的旅行过程中一切顺利呢？”

葛瑟尔老实地回答：“先生，我该如何回答您好呢？这两个月，的确让我们见识到了很多离奇的事，这让我们感到很新鲜，可是，将来我们的结局会怎样呢，是不是不会有离开的机会了？”

“是的，葛瑟尔，不会有了。”

“那我就用尼摩船长的名字来回答吧，要知道他的名字在拉丁语里是‘一点不碍事’的意思。”

“葛瑟尔，你指的是？”

“先生，我所说的顺利的一年，就是指可以让我们看到海底的一切……”

“葛瑟尔，你也想看见一切吗？那需要很长的时间，尼德·兰又是怎么想的呢？”

葛瑟尔回答：“尼德·兰并不这样想，您知道的，他是个很实际的人，喜欢酒、肉和面包，光是吃鱼和看鱼并不能让他满足，他吃惯了牛排，喝惯了白兰地，所以当然不适应这样的生活。”

“葛瑟尔，对于我而言，船上的饮食条件并不难适应。”

葛瑟尔附和道：“我也是一样的，可是尼德·兰却不能忍受，他一直在伺机逃走，所以，如果新的一年我们是顺利的，那么他就不顺利了。反过来亦然。所以，总有一方满意的。这就是我的结论，最后敬祝先生万事顺意。”

“谢谢，葛瑟尔，可是今年没有礼物了，我只能同你握手表示新年的祝福了。”

“先生从没有像现在这样慷慨过。”葛瑟尔回答。

葛瑟尔说完了要说的话，转身离开了。

自从我们离开日本海以后，足足走了11,340海里，即5250里。现在，展现在“鹦鹉螺”号面前的就是澳大利亚东北边岸珊瑚海的危险海面。距离海面几海里远的时候，我们就开始沿着暗礁行驶。1770年6月10日，库克率领的船就是在这里失事沉没的，他自己乘的船碰在一座岩

石上，由于有一块珊瑚石堵在被冲破的船身上，船才得以保全。

对于这条长360里的暗礁脉，我充满了好奇。亲眼所见后发现，暗礁脉上常有波涛汹涌的海水冲击，奔腾澎湃，十分凶猛，那声音就像是打雷。突然，“鹦鹉螺”号转动纵斜机板，将船下降到水底很深的地方，我便不能欣赏这座由珊瑚石构成的长城了。

在水下，我欣赏到了我们打捞到的不同种类的鱼，有大小同鲸鱼一般的嘉蒙鱼，两侧呈浅蓝色，身上有横斜纹，鱼的体积越大，纹路越不明显。这些鱼成群结队地陪伴我们，为我们提供鲜美可口的肉。渔网又打到许多青花绸鱼，这种鱼只有半分米长，味道跟海绊鲤很像。接着又打到了锥角飞鱼，它被誉为海底飞燕，在黑暗中可以放出磷光，照亮空中和水中。渔网眼上还有一些软体类、植虫类和藻类，包括翡翠虫、海渭、糙鱼、马刺鱼、罗盘鱼、樱子鱼、硝子鱼以及刀片藻和大囊藻。这两种藻类可以从细孔中分泌出一种黏液。在藻类植物里面我又发现了一种十分好看的胶质海藻，这在博物馆里绝对算得上是天然珍宝。两天后，我们驶出了珊瑚海，1月4日，我们望见了巴布亚岛海岸。这时候，尼摩船长告诉我，他打算经过托列斯海峡去印度洋。此外，他什么也没说。对于这样的航线，尼德·兰非常高兴，因为这条路使他跟欧洲海面渐渐接近了。

众所周知，托列斯海峡是很危险的地带，这不仅有刺猬一般的暗礁，而且还住着很多土人。巴布亚岛（又名新几内亚岛）和新荷兰岛被托列斯海峡天然地分开了。

巴布亚岛总面积约4万平方公里，长达400里，宽达130里，位于南纬0度19分和10度之间，西经128度23分和146度15分之间。正午，我看着船副测太阳的高度，望见了远处层层叠起的阿化斯群山的高峰。

1511年，葡萄牙航海家弗朗西斯·薛郎诺发现了这座岛。1526年，唐·约瑟、德·米纳色斯也来过；1527年格利那瓦来过；1528年西班牙将军阿尔瓦·德·萨维德拉来过；1545年尤哥·奥铁兹来过；1616年荷兰人舒田来过；1753年嘉铁列、爱德华、布几威尔、库克、贺列斯特等人来过；1792年土尔加斯朵来过；1823年斗比列来过；1827年杜蒙·居维尔来过。雷恩兹曾说过：“巴布亚是占据全部马来亚的黑人的集中地。”我坚信，这次旅行将我带到了可怕的安达孟尼人面前。

“鹦鹉螺”号很快就到了地球上最危险的海峡口，就算是大胆的航海家，也不敢在这里冒险通过。路易·已兹·德·托列斯是个例外，他从南方海上回到美拉尼西亚群岛时，曾经冒险经过这里；而1840年，杜蒙·居维尔的几艘船冒险经过这里的时候，船只几乎全部搁浅。而如今，“鹦鹉螺”号要来领教这珊瑚礁石群的厉害了。

托列斯海峡宽约34里，中间被无数的岛屿、暗礁和岩石堵住，增加了通过这里的难度。为了顺利通过这里，尼摩船长采取了必要的措施，让“鹦鹉螺”号浮在水面上前进，它的推进器像鲸鱼类动物的尾巴一般，慢慢地冲开海浪。

为了见证奇迹，我和我的伙伴们来到了平台上，我们看见尼摩船长在领航人的笼间里，亲自指挥着“鹦鹉螺”号。

我的面前有一幅很详细的托列斯海峡地图，它是由“古往·德波亚”号的前海军少尉，现在的海军上将文生唐·杜日兰组织编制的，他是杜蒙·居维尔最后一次环球航行的参谋人员之一。这幅图可以为“鹦鹉螺”号提供向导，从而避免一些危险。

进入海峡后，“鹦鹉螺”号周围的海水变得汹涌澎湃，翻滚沸腾。海

浪的方向是从东南向西北的，我们以两海里半的速度行驶在珊瑚礁上方。

“真是恐怖的海！”尼德·兰对我说。

“没错，不仅恐怖而且可恶，连像“鹦鹉螺”号这样的船都很难对付。”我回答。

尼德·兰又说：“那位怪船长要非常熟悉航线才行，稍一疏忽，可能就撞在珊瑚礁石上了。”

尼德·兰说得没错，我们的处境非常危险，不过让人稍感安慰的是，“鹦鹉螺”号像是有了魔法，安然地经过了这些珊瑚礁。它绕过了“浑天仪”号所走的航线，从北边沿着莫利岛行驶，再回到西南方，向甘伯兰海道驶去。我紧张起来，以为它要重复杜蒙·居维尔的航线，但忽然船又回到西北方，穿过许多不为人知的岛屿，接着又再次驶往通提岛和凶险的水道，然后又第二次改变方向，向西方格波罗尔岛开行。

下午三点钟，波涛汹涌，正是大海涨潮的时候。“鹦鹉螺”号靠近这个岛，至今仍记得当时出现在眼前的好看的班达树林。“鹦鹉螺”号沿着海岛走了两里左右，突然，我被一个强烈的冲击震倒了。“鹦鹉螺”号撞上了一座暗礁，停了下来，可以明显感觉到靠左舷轻微地搁浅下来。我踉跄着站起来，看见了出现在平台上的尼摩船长和他的船副。他们检查了船的情况后，说了一些我不懂的话。

我们停在距离格波罗尔岛两海里远的地方，这个岛的海岸从北至西形成回环形，像是一个臂弯。向南边和东边望去，可以看见大海退潮时露出的珊瑚石尖，我们的船就地搁浅在海里面。这里的海平面不高，因此，想重回大海有些困难。不过幸运的是船并没有损坏，可见船身的坚

固程度。尽管如此，现在最要紧的事也是回到海里，否则尼摩船长的潜水船就完了，只能搁浅在这里。

当我的脑子胡思乱想的时候，尼摩船长表现得很冷静，他不动声色地走过来，一副胸有成竹的样子。

我问他：“出了什么事吗？”

“不，一点小意外而已。”他回答道。

我又说：“一点小意外？如果不解决问题的话，恐怕您要重新做一个陆地居民了！”

尼摩船长做了一个否定的手势，他坚毅的目光告诉我这是不可能发生的事，过了一会儿他又对我说：“阿勒纳斯先生，您多虑了，‘鹦鹉螺’号没有任何问题，我们仍然可以去海洋深处探险，这只是整个航程的开始，我怎么会让它这么早就结束呢？”

我完全忽略了尼摩船长的讽刺语气，对他说：“可是尼摩船长，‘鹦鹉螺’号在一开始就搁浅了，您应该知道，太平洋涨潮的幅度不大，我实在想不出什么法子能让‘鹦鹉螺’号浮起来，重回大海。”

尼摩船长回答道：“教授，您说得没错，太平洋的潮水涨幅不大，但您知道的，这是托列斯海峡，高潮和低潮之间足足有一米半的落差。再过五天就是月圆之夜了，月球如果不帮助‘鹦鹉螺’号回到海面，我才觉得奇怪呢！”

尼摩船长边说边和他的船副回到“鹦鹉螺”号船中。而船没有任何变化，仍然停在原地不动，那些珊瑚腔肠类动物开始将它们牢固的洋灰在船身上堆砌。

“先生，有什么进展吗？”尼德·兰在船长离开后，来到我面前问。

“尼德·兰师傅，我们要耐心地等待5天，9号的时候月球会帮助我们重新回到大海上。”

“这可信吗？”

“尼摩船长是这么说的。”

“难道他真的不打算把锚抛到海中去，也不把链索结住机器来拉船吗？”

“既然潮水可以帮助我们，当然就没必要浪费力气了。”葛瑟尔简单地回答。

尼德·兰看着葛瑟尔，耸了耸肩，表示自己是个内行。

他又说：“您要相信我，现在‘鹦鹉螺’号除了可以卖废铁，没有任何用处了，它根本不可能像以前那样在海上或者海底航行了。我看现在到了我们跟尼摩船长告别的时候了。”

我答道：“尼德·兰师傅，我可不这么认为，我认为勇敢的‘鹦鹉螺’号还有机会，4天后，也许潮水可以帮助我们。再者说，如果现在我们靠近英国或者法国南部海岸，逃走或许能够实现，但目前我们是在巴布亚海面，情况完全不一样。如果确定‘鹦鹉螺’号真的没有重回大海的可能了，我们再做最后的打算，而现在就逃走，我总觉得是一件不好的事。”

尼德·兰又说：“那我们侦察一下附近的地形总行吧，这岛上有树，

树下一定有动物，我真想吃几口动物的肉。”

葛瑟尔表示赞同尼德·兰的话，他说：“先生，您能不能让尼摩船长把我们送到岛上去，让我们习惯一下走路也好啊，让我们重温一下回到陆上的感觉。”

我答应了葛瑟尔的请求，但我对他们说：“我可以去试试，但你们别抱太大的希望，也许他不会答应。”

葛瑟尔说：“只要试一下就行了，如果船长能够答应我的请求，我们是不会做过分的事情的。”

出人意料的，尼摩船长竟然答应了我们的请求，他似乎很爽快，而且没让我保证一定会回到船上。当然，我知道在新几内亚岛上逃亡是很危险的，所以我绝不会让尼德·兰去尝试。如果落在巴布亚土人手里，还不如被囚禁在“鹦鹉螺”号上呢。

尼摩船长为我们提供了一艘小艇，我没有问尼摩船长会不会跟我们一起去。我甚至以为会没有人为我们划船，驾驶小船的事只能由尼德·兰一人搞定。需要说明的是，尽管大船在暗礁之间的水路上航行是一件危险的事，但对于一艘小船来说，这并不是什么难事。更何况尼德·兰是一个经验丰富的水手。1月5日到来的时候，我们带着电气枪和刀斧驾驶着小艇离开“鹦鹉螺”号。海面很平静，偶尔有微风拂面。我和葛瑟尔负责划桨，而尼德·兰在暗礁间的狭小水路中指挥着舵。小艇快速前进，一切都很顺利。

尼德·兰怀着一种无法抑制的快乐，他看上去就像一个刚刚释放的囚人，终于远离了囚禁他的牢房。

他一再重复道：“我们可以去吃肉了。只要有野味，没有面包也成啊。鱼肉也很好吃，但是天天吃真是难受啊，现在抓一只野味，放在火上烤一烤，那才够味呢。”

葛瑟尔说：“真够嘴馋的，他说得我都流口水了！”

我说：“但我们得先搞清楚，林子里的野味是不是很凶猛啊，如果它们的身材比我们还高大，怎么去打猎啊？”

尼德·兰回答说：“阿勒纳斯先生，您说得对，也许它的牙齿已经磨得像刀一般锋利了，但我决定了，哪怕这个岛上只有老虎，我也要吃它的腰窝肉。”

“尼德·兰师傅，说得好吓人呢。”葛瑟尔回答。

尼德·兰又说：“管它是没有羽毛的四足兽，还是有羽毛的两脚鸟，只要一出现在我面前，我立刻开枪致敬。”

我说：“好家伙，尼德·兰师傅又粗心大意起来了！”

尼德·兰回答：“阿勒纳斯先生，您就放心地划桨吧，25分钟以内，我一定让您吃上我烤的肉。”

8点半左右，我们驾驶着小艇穿过了格波罗尔岛的珊瑚石带，慢慢地停在沙滩上。

第二十一章 两日陆地生存

尽管我们被囚禁在“鹦鹉螺”号上不过两个月，但当我的脚踩在土地上的那一刻，还是产生了一种难以形容的感觉，这感觉给我留下了极其深刻的印象。而尼德·兰踏上土地的一刹那，看起来更像是一个占有者。

仅仅用了几分钟，我们上了岛。这里所谓的土地是由珊瑚堆积而成的，也有些是干涸的河床，中间夹杂着一些花岗岩。从岩石的构成来看，这个岛屿大概形成于太古时期。这里有很多高大的树木，远远看去，整个天际像是被一道绿色的帘幕遮掩起来一样。树林间有合欢树、无花果树、火鸟树、麻栗树、木芙蓉、班达树、棕树，葛藤将它们连接起来，形成一个天然的吊床，周围丛生着很多兰科、豆科和蕨科植物。

可是，这些并不能引起加拿大人的注意，他一门心思追求食物。只见他先是从树上打下来几个椰子，让我们美美地享受了椰汁和椰肉，以弥补这么多天来我们对“鹦鹉螺”号船上食物的遗憾。

“太好吃了！”尼德·兰赞叹道。

“味道确实不错！”葛瑟尔附和道。

尼德·兰接着提议：“我想把这些水果带到船上去，不知道尼摩会不会反对？”

我回答：“他不会吃的，但应该不会反对。”

“他真是没有口福啊！”葛瑟尔惋惜地说。

尼德·兰回答：“这样也好，剩下的都可以给我们吃了。”

我对尼德·兰说：“我奉劝你不要将船都装满了，最好留一点地方装其他的東西，或许岛上还有其他的特产，比如蔬菜什么的。这在‘鸚鵡螺’号上一定是最受欢迎的。”

葛瑟尔立即表示赞同，他说：“先生说得没错，我建议将小船划分为三个部分，分别用来装水果、蔬菜和猎物。可是，为什么到现在也没见到猎物的影子呢？”

“葛瑟尔，你要有信心。”尼德·兰回答。

我说：“别说那么多了，我们出发吧，大家路上一定要小心，尽管这是个荒岛，但是也不排除有其他人的可能，我们要时刻提防，不要成为别人的猎物。”

“咕……”尼德·兰发出两声怪叫，上下嘴唇碰了一下，似乎是在发表自己的意见。

葛瑟尔好奇地问：“尼德·兰，发生什么事了？”

尼德·兰回答说：“我开始懂得人肉的诱惑力了！”

葛瑟尔大叫：“什么，尼德·兰，你要吃人肉！那我岂不是惨了，回到船上我要和您住在一起的。难道某天醒来，我会成为你的食物吗？”

尼德·兰笑答：“放心吧，葛瑟尔，我们是朋友，不到紧要关头，我是不会吃你的。”

葛瑟尔回答：“我可不敢相信你的话，还是赶紧去打猎吧，如果猎物不能满足你的味蕾，那我真的危险了。”

我们边走边聊，短短两个小时，我们就穿过了森林的穹隆，走遍了整个小岛。在这个过程中，我们意外地得到了很多食物，都是船上没有的，对于我们来说很珍贵。这些食物是热带地区很常见的面包树，没有核仁的那种，被马来西亚人称为“利马”。

面包树的特点在于树干笔直，高达40英尺。树顶由很多宽大的树叶组成，呈环形，很漂亮，生物学家很容易就认出了这是“面包果树”。目前，马斯卡林群岛已经将这种树移植成功。对于热带地区而言，这是很有用的植物，不需要耕种，一年里有8个月可以结出面包果供给人们食用。面包果是粗大的球形果子，长约一分米，外表凹凸不平，看上去像一个六角形。

对于尼德·兰而言，面包果并不陌生，在以前的旅途中他也吃过，因此，他懂得如何将果子做得更好吃。所以，当第一眼看到这些果子的时候，他就开始流口水了。

他急急地对我说：“先生，我迫不及待地想尝一尝面包果了。”

我鼓励他说：“尼德·兰，不用客气，你赶紧尝尝吧，我们的目的很明确，就是来获得食物的，所以没理由不尝。”

“我马上就可以搞定。”尼德·兰说道。

凭着经验，尼德·兰用火镜将面包树的树枝点着，等火光着到一定程度的时候，我和葛瑟尔选了两个最好的果子摘了下来。不一会儿，大多数面包果就都变成了黄色，产生了黏性，只有少数的面包果还没有成熟，厚厚的表皮上蒙上一层白肉。

这是些没有核仁的果子，葛瑟尔摘了十余个交给尼德·兰，让他处

理成厚片，准备放在火上烤。尼德·兰边切片边说：“你们就等着吃好吃的面包果吧。”

葛瑟尔说：“我们确实很长时间没有吃面包了！”

尼德·兰又说：“先生，这同普通的面包可不一样，这是更美味的糕点，先生，您真的从来没吃过吗？”

“没吃过，尼德·兰师傅。”

“那您一会儿就好好品尝一下面包果特有的风味吧，包您吃了一个还想吃第二个，否则我就不是第一号鱼叉手了。”

过了几分钟，面包果已经烤熟了，里面白色的粉状物像是又软又嫩的面包屑，看起来相当诱人。我们迫不及待地吃起来。这东西看起来像面包，吃到嘴里以后就变成了白叶菜的味道。我由衷地觉得味道很好，我很喜欢吃。

“如果这种果子可以长久保鲜，就可以带回船上去吃了。”我说。

尼德·兰激动地说：“真的吗，先生！认为不能保鲜那是从生物学家的角度来说的，但作为一个面点师，我可以尝试。葛瑟尔，去摘一些果子回来，我们可以拿回船上去吃。”

“您要怎样加工这些果子呢？”我好奇地问。

“您知道的，这果子里有淀粉泥，只要利用它将果子制成发面团，就可以长久保存了。想吃的时候，只需要在厨房里烤一烤，就可以吃了。当然，到时候或许会有一点点酸味。”

“尼德·兰师傅，有了面包果，我们就不差什么东西了吧？”

尼德·兰回答道：“教授，我们还差一些水果和蔬菜！”

“那我们现在出发，找水果和蔬菜去。”说完，我们立即出发去寻找我们想要的东西，目的只有一个，就是让我们的午餐更加丰盛。

果然不虚此行，中午的时候，我们找到了很多香蕉，这在热带地区并不是稀奇的水果，马来西亚人将它们称作“比桑”，意思是可以生吃的东西。除了香蕉，我们还找到了味道辛烈的巨大的雅克果、甜芒果和大个的菠萝。尽管寻找这些东西花费了我们很多时间，但是品种齐全的水果是对我们最好的补偿。

尼德·兰走在最前面，葛瑟尔跟在尼德·兰后面，我走在最后。鱼叉手果然手疾眼快，总是能采到很好吃的果子，使得我们的贮藏食品更加丰富了。

葛瑟尔再一次问尼德·兰：“好朋友，这次我们不缺什么了吧？”

“嗯！”尼德·兰回答得有些勉强。

“难道您对今天的收获还是不满意？”

尼德·兰回答：“你没发现吗？我们找到的都是些蔬菜和水果，可是一点肉类都没有，没有肉也就没有汤了。”

我说：“是呀，看来尼德·兰答应做给我吃的排骨，没有希望了。”

尼德·兰赶紧接过话茬儿，说：“先生，真正的狩猎还没有开始呢，您别着急，这么大的岛，总会有动物的。”

“哪怕今天没有，明天也会有的，对吧？不过我们不能离岸边太远，我想我们得返回了。”葛瑟尔提议道。

尼德·兰喊道：“不会吧，现在就要回去？”

我肯定地说：“没错，我们天黑之前一定要回到船上去。”

“那现在几点了？”尼德·兰问。

“看样子，至少是下午两点了。”葛瑟尔回答。

尼德·兰惋惜地说：“在陆地上的生活，时间过得真快啊。”

“走吧。”葛瑟尔提醒道。

在回去的路上，我们又得到了一些棕榈果，采摘这种果子要爬到树顶上。还有一些被马来西亚人称作“阿布卢”的小豆以及品质上乘的芋薯。

当我们带着东西回到小艇上的时候，发现东西实在是太多了，可尼德·兰总觉得还不够。临上船的时候，他又看见几棵高达25英尺至30英尺的棕榈树，这是当地比较珍贵的树种，叫作西米树，这种树不需要打理，自己会繁殖生长。

尼德·兰是个户外生存的高手，只见他挥动斧子，几下就将西米树砍倒，从叶子上的粉色粉屑来看，这几棵树已经成熟了。

我用生物学家的眼光观察尼德·兰砍树，他先将树干去掉一层一英寸厚的树皮，再剥去表皮下面缠绕成一团的纤维网，接着就可以取得粉状的西米了，这是美拉尼西亚居民的主要食物。

只见尼德·兰将树干砍成一片一片的，等将它放在太阳底下晒干后，通过一块薄布，就可以将纤维和粉末分开，从而提取到西米了。

下午5点的时候，我们带着所有的成果离开了海岛，回到“鹦鹉螺”号旁边。我们回到船上的时候，看不到一个人，“鹦鹉螺”号像是被遗弃了一般。我们将食物搬上船以后，回到各自的房间。晚饭已经准备好了，就摆放在房间的桌子上，我简单吃了一点东西，便休息了。

1月6日，船上仍然没有一点声响，毫无生气。我们发现小艇仍然停在“鹦鹉螺”号旁边，还在原来的位置，我们决定再次去格波罗尔岛上探险。尼德·兰希望今天的运气好一点，可以得到一些猎物。

太阳升起来的时候，我们已经出发了。我们在波浪的带动下，很快就到了岛上。

再次踏上陆地以后，我觉得还是让尼德·兰带路比较好，因此我和葛瑟尔跟在后面。尼德·兰的腿很长，走得很快，我们常常被他甩在后面。

尼德·兰先沿着海岸向西走了一会儿，跨过一些激流，来到了高地平原，这里有很多漂亮的树木。树上，停着一些翠鸟，看见我们过来，它们立即飞走了，很是警惕。通过鸟儿的表现判断，这里不仅没有居民，而且应该很少有人到岛上来。面对这种情况，我们实在不知道该怎么对付这些两足动物。于是我们穿过草原，来到一片小树林的边缘，这里有很多鸟儿在歌唱，洋溢着一派生机。

“这只是一些鸟类呢。”葛瑟尔说。

尼德·兰说：“也有些可以作为食物的。”

葛瑟尔回答：“我只看到了一些鹦鹉，好像不能吃吧？”

尼德·兰答道：“好朋友，在没有其他食物的时候，鹦鹉就等于山鸡。”接着，他补充说，“而且，如果烹调水平够高的话，这也是值得品尝的。”

在这片浓密的小树林里，一大群鹦鹉在树枝间飞来飞去，如果有人指导，相信它们一定可以说人类的语言。当然，在没接触过人类的情况下，它们只是叽叽喳喳叫个不停。这里鹦鹉的种类非常多：有神气严肃的五彩鹦鹉，它们像是哲学家；有大红色的赤鹦鹉，飞起来像一块随风飘荡的红纱；有带着天蓝色斑点的巴布亚鹦鹉……还有一些其他种类的飞禽，根据经验来看，这些飞禽都是不能食用的。

不过，这地方应该盛产一种鸟类，它们从不走过阿卢群岛和巴布亚群岛的边界，由于机缘未到，我们没有欣赏到。

我们离开鸟儿的天堂，穿过一片稀疏的树林，来到了一片有很多树丛的平原。在那里，也有很多华丽的鸟儿飞过，它们的羽毛很特别，一定要逆风才能飞行。这些鸟儿飞行的路线波状起伏，在空中划出美丽的曲线，它们的羽毛颜色很鲜艳，吸引着人们的眼球。我很快认出这是无双鸟。

“属于燕雀目，直肠亚目。”葛瑟尔补充道。

“是鹤鹄科吗？”尼德·兰问。

“应该不是，尼德·兰师傅，到您大显身手的时候了，您能否将这美丽的鸟儿打下一只来？”

尼德·兰回答：“教授，我只能说试一下，您知道的，我的强项是叉

鱼，枪法要差一些。”

这种鸟是马来西亚人和中国人进行贸易的重要内容，马来西亚人想方设法捕捉这种鸟，或是在树顶上安放罗网，或是使用强力胶，或是在泉水中投毒。这些方法对于我们来说并不适用，我们只能通过射击来捕捉它们。事实证明，射击确实不是我们的强项，只是浪费了一些弹药而已。

时钟指向11点，我们穿过了岛中心的山脉，没有任何收获。此时，我们的肚子开始叫起来，饥饿折磨着我们。我们以为今天的运气会好一点，谁知只是一厢情愿而已，一点猎物也没得到。幸运的是，葛瑟尔随意开了两枪，竟然获得了午餐。葛瑟尔得到了一只白鸽和一只山鸠。简单地拔掉羽毛后，我们就将它们放在旺火上烤。在鸽子快要熟了的时候，尼德·兰开始处理面包果。食物准备好后，我们很快吃得精光，连骨头都没剩，由于白鸽和山鸠在生长过程中会吃很多肉豆蔻，因此它们的肉像加了香料一般，味道非常好。大家对这顿午餐非常满意。

“这个味道跟母鸡的味道差不多。”葛瑟尔说。

我问：“尼德·兰，我们还缺什么东西？”

尼德·兰回答：“教授，我们还差一只四脚猎物，刚刚吃的鸽子、山鸠只能算是零食，不吃到有排骨的动物，我是绝对不会罢手的。”

“尼德·兰，如果你不能捕捉到一只无双鸟，我也不会罢手的。”

葛瑟尔建议道：“那我们出发吧，先向海边走，等到了第一层斜坡的时候，再到森林里去。”

葛瑟尔是个有见识的人，因此我们按照他的建议出发。一个小时

后，我们来到一座西米树森林，森林里有一些不伤人的蛇，在我们脚下逃走了。无双鸟非常机灵，我们总是没有办法接近它们。对此，我很失望，觉得自己的愿望要落空了。可就在这时，葛瑟尔弯下身子，发出了胜利的呐喊，他带着一只非常好看的无双鸟向我走来。

我兴奋地喊道：“葛瑟尔，你太棒了！”

“先生，您过奖了！”葛瑟尔腼腆地回答。

“绝对不是夸奖，你真的做了一件了不起的事，竟然捉到了一只无双鸟，太了不起了！”

“先生，如果您仔细观察一下，就知道我没有谦虚了！”

“葛瑟尔，为什么这样说？”

“因为它跟鹤鹑一样，醉了。”

“醉了？”

“是的，先生，我想它是吃豆蔻吃多了，醉了，所以我才有机会捉到它。尼德·兰先生，您看，贪吃贪喝会产生可怕的结果！”

尼德·兰不服气地说：“切，两个月来，我只喝了一些真尼酒，根本没道理责备我。”

于是，我开始观察这只奇异的鸟。葛瑟尔的判断是正确的，它的确是因为吃了豆蔻汁醉了，以至于瘫软在地，无力飞行。我们完全没有必要担心，只需要让它好好地睡上一觉，醒来后就没事了。

巴布亚和邻近群岛共盛产8种无双鸟，同其他的比起来，这只无双

鸟属于最美的一种。由于比较稀少，它被誉为“大翡翠”无双鸟。它的周身有三分米长，头和眼睛都比较小，离嘴边比较近，长着褐色的脚爪和指甲，翅膀是榛子色的，末端是朱红色的。它的头部和颈部是淡黄色的，喉间是翡翠色，腹部和胸部是栗子色，全身的色彩非常鲜艳。它的尾巴上长着两个角形的绒毛绿球，与细长的羽毛相接，这种飘逸的形象为它博得了一个好听的名字——“太阳鸟”。

我有一个愿望，就是将这只美丽的无双鸟带回去送给巴黎的植物园，巴黎的小朋友还没有在动物园里看过这种鸟。

尼德·兰问：“这种鸟真的有那么稀奇吗？”加拿大人用一种毫不客气的口吻问道。

“老朋友，这种鸟非常珍贵，哪怕是一只死去的无双鸟也可以卖个好价钱，正因为这样，才有人想方设法来假造它。就像假造珍珠和钻石一样。”

葛瑟尔吃惊地问：“先生，还有人假造无双鸟？”

“没错，葛瑟尔。”

“先生，您知道土人是怎么制造的吗？”

“略知一二。每年季候风来临的时候，便是无双鸟脱毛的季节，那些制假者将无双鸟美丽的羽毛收集起来，粘贴在被拔过毛的鹦鹉身上，略加修饰后再卖到欧洲那些喜欢鸟类的博物馆或个人手里。”

尼德·兰说：“这也无伤大雅，前提是这鸟不是拿来吃的。”

得到这只无双鸟后，我的欲望被彻底地满足了，但是尼德·兰的欲

望却远远没有被满足。幸运的是，下午两点的时候，一只肥大的野猪主动献身给尼德·兰，那种野猪被当地人称作“波利沃特”。这只野猪出现得很及时，正当大家期盼四足野味的时候，它出现了。于是，尼德·兰一枪解决了它。接着，他很快从猪身上割下六七块腰窝肉，准备晚上烤着吃。接着，剥皮，开膛，取出内脏。

处理完野猪之后，尼德·兰和葛瑟尔再一次发挥了他们卓越的打猎才能，从树丛中赶出了一大群袋鼠，尽管它们的动作非常敏捷，但是终究没有电气弹跑得快，没跑出多远，就应声倒下。

在获得了丰盛的食物以后，尼德·兰兴奋地喊了起来：“教授，您看啊，我们的食物够丰盛了吧。‘鹦鹉螺’号船上从来没有这些食物啊。看，我们又得到了五只袋鼠。想起回到船上，我们吃肉，那些人干看着的画面我就高兴。”

尼德·兰太过兴奋了，如果他能够早点闭嘴的话，我想这些袋鼠都跑不过他的手掌心。

这时，葛瑟尔说：“这些袋鼠属于兔袋鼠，哺乳类的第一目，尽管身材非常短小，但是跑的速度非常快。由于它们是运动健将，所以肉质很鲜美，一直被当成珍品。”

我们很满意自己的成果，尼德·兰甚至想明天还到岛上来，再捕捉一些袋鼠，甚至其他可以吃的四足动物也统统一网打尽。但意外总是在人们得意的时候出现，我们也是如此。

下午6点，我们回到海滩停泊小船的地方。远远看去，“鹦鹉螺”号就像一座很长的礁石，停靠在离岸两海里的海面。

尼德·兰一刻不停地准备着晚餐。他将“波利沃特”野猪的腰窝肉放在红火上烤，空气中弥漫着野猪肉的香味。

面对这些新鲜美味的烤肉，我也变得像尼德·兰一样快乐起来。请大家原谅我们的嗜肉，实在是太久没有吃过了。

这顿晚餐的美味，使我至今难忘。野猪肉配上两只山鸠，使得菜的种类更加丰富。还有西米面条、面包果，再加上芒果、菠萝和椰子果酿成的饮料，我们对这顿丰盛的晚餐满意极了，我甚至觉得我的伙伴吃得忘记了一切。

葛瑟尔问道：“我们今晚不回船上去了，好吗？”

尼德·兰补充说：“最好永远都不回去了。”

尼德·兰的话音刚落，一个石头落在我们脚边，我们立即清醒过来。

第二十二章 尼摩船长的手雷

我们朝着树林的方向看过去，但并没有离开原地，我停下了往嘴里送食物的手，尼德·兰也停止了咀嚼食物。

葛瑟尔说：“这些石头是哪里来的，肯定不是陨石吧？”

像是配合葛瑟尔的话，紧接着，第二块圆形的石头又落了下来，打

落了葛瑟尔手里一块好吃的山鸠腿肉。这引起了我们的注意。

我们三个人同时站了起来，握紧了手里的枪，准备应对这突然的攻击。

尼德·兰问道：“难道是猿猴？”

葛瑟尔回答：“差不多吧，他们是野蛮人。”

我提议赶紧回到船上去，于是，我们向海边走去。

就在我们向后退的时候，20来个土人拿着弓箭和投石器，出现在我们面前，距离我们不到100步远。此时，我们距离小艇有大概20米远。

这些土人不慌不忙地向我们走来，同时带来了雨点一样的石块和弓箭。尼德·兰宁可放弃生命也不愿放弃那些食物，于是，他不顾危险地将食物快速地收拾起来。

过了两分钟，我们回到海滩边上，将食物和武器放在小艇上，接着，我们飞速将小艇推入海中，安上了两支桨。我们刚刚划了200米，便出现了100多个土人，他们大喊大叫，挥舞着双手走到海水中齐腰的地方。我一厢情愿地认为，这些土人一定会将“鹦鹉螺”号上的人吸引出来的，可是我错了，这只机器船像睡着了一样，毫无动静。

又过了约20分钟，我们终于回到了“鹦鹉螺”号上。

我走进客厅，只见尼摩船长在那里弯着腰弹奏他的大风琴，他陶醉在自己的音乐之中。

我叫了声船长，但是尼摩像是没听见一样，没有回答。

我又叫了一声船长，并试图用手去触碰他。

他的身体微微抖了一下，转过身来对我说：“哦，教授，是您啊，你们打猎的成果如何啊？”

我回答说：“收获颇丰呢，遗憾的是，我们给您带来了不少麻烦，现在有很多两腿动物在船的附近，我比较担心。”

“两腿动物指的是？”

“是一些野蛮人。”

尼摩船长用一种讽刺的语气说：“教授，回到陆地上碰到野蛮人不是什么稀奇事，不过，能让您称为野蛮人的，一定是很坏了。”

我还想再说些什么，只听尼摩船长说：“先生，野蛮人我见得多了，到处都是。”

我说：“不过，船长先生，如果您不想让他们到船上来做客，最好想一想办法。”

“教授，您就把心放在肚子里吧，这是完全不用担心的。”

“可是外面的土人人数众多。”

“多到什么程度？”

“有上百个。”

尼摩船长重新弹起了大风琴，他说道：“‘鹦鹉螺’号从来不怕野人的攻击，就算是所有的土人都聚集在海滩上也不怕！”

风琴再次发出了悠扬的乐声，乐曲中带着苏格兰曲风的特色。很快，船长再次沉浸在音乐中，我不再说话，怕打扰到他。

当我重新回到平台上时，黑夜已经到来。由于船搁浅在低纬度的地区，因而夜晚直接越过黄昏降临在人间。渐渐地，格波罗尔岛在我的眼前变得模糊起来，海滩上闪耀着火光，是那些土人守在岸上，久久不愿离开。

我安静地在平台上欣赏着热带地区的美丽夜晚，一不留神过去了几个钟头。有时，我会记起那些土人，但我并不恐惧，因为尼摩船长给了我很大的信心。有时，我的思绪回到了法国，跟随黄道十二宫的星宿一齐离去。我还联想到那个月圆之夜，月球要掀起波浪，将我们送回海面上。快到凌晨的时候，海面更加平静，隔壁的树林也听不到任何声音，我重新回到舱房中，安心地睡去。

一夜平安无事，也许是土人看到“鹦鹉螺”号这个大怪物，便不敢贸然靠近。但是，船上的嵌板依然开着，还存在着被土人潜入的可能性。

1月8日早晨6点，我来到了平台上。晨雾渐渐散去，格波罗尔岛从雾气中显露出来，接着，海滩、山峰相继出现。

土人的人数变得越来越多，甚至达到了五六百人。有的土人乘着低潮来到距离大船400米远的珊瑚石尖上。我们可以看清彼此。那些巴布亚土人身材高大健壮，前额宽大突起，鼻子粗大，牙齿很白。他们的头发是红色的，像是羊毛一样，披散在漆黑发亮的身躯上。他们的耳朵上挂着骨质的耳环，很少见这些土人穿衣服，只有一些女人穿着及膝的草叶裙子，上面用一根草带子系起来。土人当中，头领的脖子上系着一个弯月形的饰物和红白色玻璃编成的项链。这是一个全民武装的部落，所

有的土人都带着弓、箭和盾，肩上背着像网一类的东西，网里装满了圆形的石块。

其中一个头领走到靠近“鹦鹉螺”号的地方，专心地研究眼前这只船。从他的装束来看，他应该是一个高级的“马多”，身上披着一条用香蕉树叶编的围巾，围巾颜色鲜艳，还带着花边。

那个人离我们很近，我们可以轻易地击毙他，但我不会轻易动手，我首先要确认他的意图。

在海水的低潮期间，这些人围着“鹦鹉螺”号看来看去，他们很安静，并不大喊大叫。我常常听到他们说“阿洗”这个词。我从他们的手势中大概猜出，他们想让我去岛上，但我无论如何是不会答应这个邀请的。

这些人的出现使得我们不能离开大船了，这可苦了尼德·兰师傅，他很失望，因为不能再补足食物了。于是，他充分发挥巧手的优势，将从岛上带回来的肉类和面粉加工成熟。而那些土人，只是坚持到11点海水涨潮的时候便离开了。但我发现，海滩上的人数越来越多，连临近小岛的土人都聚集到这里，只是我还没有看到过载人的独木舟。

由于无事可做，于是我决定去海里打捞一点贝类、植虫类和海产植物。重要的是，明天“鹦鹉螺”号就要离开这里了，尼摩船长曾预言，月圆涨潮的时候，船就可以回到大海上去了。于是，我向葛瑟尔要了一个轻便的打捞器，就像打捞牡蛎的网一样。

葛瑟尔问我那些野蛮人的去向，他说：“先生，不知道为什么，我感觉那些土人并没有那么凶恶。”

“你要知道，他们是吃人的猛兽。”

“吃肉并不代表他们不是老实人。”葛瑟尔回答，“这同一个诚实的人同时也可以是一个贪吃的人是一样的道理，并不矛盾。”

“是的！葛瑟尔，我并不反对你的说法，他们是吃人的老实人，可是不为了不被他们吃掉，我想我还是警惕一些的好。但尼摩船长看起来好像并不在意，完全不加防范。好了，我们还是快动手打捞海产品吧。”

在两个小时内，我们很积极地打捞，但是，并没有得到什么珍贵的海产品，只是打捞到一些驴耳贝、竖琴贝、河贝子等，还打到了一些好看的糙鱼、海参、珍珠、牡蛎和一打小鳖，这些海产品都可以作为船上的食物。

让我们感到意外的是，我们竟无意中找到了一件自然变形的珍品，这种东西并不常见。葛瑟尔将打捞器捞起来的时候，网中都是些很平常的贝类，但是，当我仔细观察网里的东西时，竟发出了喜悦的欢呼声。

葛瑟尔好奇地问：“先生，您没事吧？”

“朋友，没事，我得到了一件宝贝，我甚至愿意用一个指头来换它呢。”

“什么宝贝呢？”

“你看这个贝壳。”我将我手里的战利品拿给葛瑟尔看。

“先生，这不过是一个普通的斑红橄榄贝，橄榄贝属，节鳃目，腹足纲，软体类门……”

“你说得没错，但是葛瑟尔，你仔细看看这个橄榄贝的纹路，就会发现它的不同之处，它不像普通的橄榄贝那样从右往左卷过来，而是从左往右转过去。”

“你说的是真的？”葛瑟尔喊道。

“我怎么会骗你呢，你看，这是一个左卷贝！”

“左卷贝！”葛瑟尔兴奋地重复着。

“不信的话你过来看看贝壳的螺旋纹。”

葛瑟尔颤抖着接过这枚珍贵的贝壳，对我说：“先生，我从没有像现在这样激动过！”

这的确很让人激动。在自然法则规定中，贝壳的螺纹是从右向左的，天体行星和卫星的公转和自转也是从右向左的。人类使用右手的可能性要多一些，因此，人类的工具和器械、楼梯、锁钥、钟表的法条等都是由右向左来使用的，就是为了配合人类的这一特点。同样道理，大多数情况下，贝类的纹路也都是右转的，因此，那些左转的贝类极其珍贵，一些爱好者会以重金来收购。

我和葛瑟尔陶醉在我的意外发现之中，我在幻想着，我们的博物馆又多了一件珍贵的宝贝。没想到的是，一个石子落了下来，将我们的珍品打碎了，始作俑者是一个土人。

面对突然的状况，我发出了绝望的喊声。而葛瑟尔快速地拿起我的手枪，对准10米外的土人就是一枪，我还没来得及阻止，子弹就落在土人胳膊上的护身灵镯上。

“葛瑟尔！”我喊道。

“先生，是这个土人先发起攻击的。”葛瑟尔答道。

我对他说：“可是，我们仅仅是损失了一个贝壳，也不能要了他的性命啊！”

葛瑟尔激动地说：“先生，我宁可他打碎的是我的肩骨，可他为什么偏偏要打碎我们的贝壳呢，混蛋玩意儿！”

我知道，葛瑟尔的反应是发自内心的，可是，我还是不能赞同他的说法。此时，我们并没有察觉到情况已经发生了变化，“鹦鹉螺”号周围围绕着20多艘独木舟。这些小船是用中空的树身做成的，很长，很窄。为了使船身平衡不左右摆动，每个独木舟都配上了两条浮在水面的竹制长竿。独木舟快速向我们驶来，担任驾驶任务的是一些半光着身体、熟练使用自由桨板的土人。看着眼前的阵势，我们不得不害怕起来。

“鹦鹉螺”号既没有桅杆，也没有烟囱，这种特殊的设计对于巴布亚人来说很陌生，哪怕是再了解欧洲船只的人，也会对眼前的船只毫无头绪。他们只是凭直觉判断这个东西对他们无利。因此，他们始终保持在安全的距离，不敢贸然靠近，但当他们发现船只是停止的以后，他们企图了解船只的构造。对此，我们当然持反对的态度。

但是，这些土人只害怕轰隆隆的炮声，对于我们这种没有声响的武器，完全不畏惧。只见他们的独木舟距离“鹦鹉螺”号越来越近了，他们开始用箭攻击船只了。

葛瑟尔说：“外面的箭跟冰雹一样，不知道有没有毒！”

我边从嵌板进来边说：“我们应该先通知尼摩船长。”

我走到空无一人的客厅，冒昧地敲了敲朝着船长房间开的那扇门。

里面传来一个声音说：“请进。”我走进房间，发现船长正在专注地计算着什么，本子上有很多未知数和其他的代数符号。

我抱歉地说：“打扰您了。”

船长回答说：“尽管我在做一件非常重要的事情，但凭我对您的了解，如果不是有紧急的事情，您是不会敲门进来的。”

“你说得没错，非常紧急，我们被一群土人围起来了，我想，再过几分钟，他们就要对我们进行攻击了。”

尼摩船长淡定地说：“哦，他们是怎么过来的，乘独木舟吗？”

“没错，船长先生。”

“没什么大不了的，教授，我们只需要把嵌板关上就行了。”

“正是，我就是来告诉您……”

“这太简单了。”尼摩船长说。

只见，他只是按了一个按钮，就将命令传达给船员了。

过了一会儿，他转过来对我说：“已经搞定了，教授，嵌板已经关上了，小船也放好了，现在，任何东西都不能损伤我们的船了，哪怕是‘林肯’号战舰的炮弹也不行，您现在不担心那些人冲进来了吧？”

“船长，我还有个担忧。”

“什么担忧呢？”

“我担心明天换气的时候，那些人会沿着嵌板爬进来……”

“教授，您以为他们有机会走上船来吗？”

“应该可以吧。”

“哈哈，教授，别担心，让他们上来好了。实在没有必要阻止他们。不过，他们真够可怜的，我途经格波罗尔岛的时候，就曾有一个苦命的人牺牲了，我也不想这样。”

我本打算马上离开的，没想到被尼摩船长留了下来。他让我坐在他的身边，耐心地询问我们登陆的情况以及我们的遭遇。他完全想象不到加拿大人对肉的迫切渴望。我们的谈话内容很宽泛，尽管尼摩船长还是像以前那样不轻易打开自己的心扉，但是，我明显感觉到了他的和蔼可亲。后来，我们谈到了“鹦鹉螺”号目前所处的地位，谈到了杜蒙·居维尔差点在这里丧命，说到这里的时候，他显得非常激动，说：“作为最有智慧的航海家之一，他从不怕南极的冰层，不怕大洋洲的珊瑚礁，不怕太平洋的吃人肉的土人，没想到，经历了种种危险后，竟死于火车失事，多么不幸啊，太可惜了！我真想象不出，这么精明能干的人，最后一刻在想什么呢？”

尼摩船长的情绪是那样激动，以至于我都被感染了。

我和尼摩船长手拿着地图，重复着那位伟大的航海家做过的事情，寻找他探险过的地方以及一些记载资料。

尼摩船长对我说：“居维尔在海面上做过的事，我全部在海底做了，相比之下，我做得更方便，更完整，因为‘鹦鹉螺’号可比‘浑天

仪’号和‘热心女’号安静多了，从没有大风大浪。”

我说：“船长先生，你有没有想过杜蒙·居维尔的旧式海船跟‘鹦鹉螺’号有相似之处？”

“有什么相似之处呢？教授！”

“相似之处在于它们都搁浅了！”

尼摩船长并不赞同我的话，他冷冷地说：“‘鹦鹉螺’号并不算搁浅，你要清楚，居维尔要让他的船离开礁石，重回海上必须付出很大的努力，而我却不同；还有，‘浑天仪’号和‘热心女’号几乎沉没了，但我的‘鹦鹉螺’号毫无危险。我们只需等待，只要等到指定的那一天，便可以重回海上了。”

我肯定地回答：“船长，我相信……”

尼摩船长不等我说完，便站起来说：“明天下午两点四十分，便是‘鹦鹉螺’号重回海上的那一刻，我们将毫发无伤地离开托列斯海峡。”

尼摩船长一口气说完这些话以后，便示意我离开。我知趣地回到自己房中，只见葛瑟尔在，他很想知道我和尼摩船长说了什么。

我告诉他：“尼摩船长对此不屑一顾，我们只要踏实睡觉就行了，什么都不用管。”

“先生，你确定吗？”

“当然，对了葛瑟尔，尼德·兰去哪里了？”

葛瑟尔回答说：“抱歉，先生，尼德·兰正在做袋鼠肉饼，味道一定

不错。”

我躺在床上，听着土人在外面大声地呐喊和踩踏，久久不能睡去。土人在外面折腾了一夜，但船上的人并不理睬，他们对此早已司空见惯，没有任何感觉，就像守在铁甲堡垒中的士兵全不留心在铁甲上奔跑的蚂蚁一样。

早上6点，我准时起床。我发现今天的嵌板并没有打开，因为船内有空气储藏库，缺氧的时候，只需要放几立方米的氧气到“鹦鹉螺”号里就可以了。我一直在房间里工作，直到中午，也没有见到尼摩船长，貌似船没有做任何出发的准备。

又过了一段时间，我来到客厅。根据尼摩船长的预测，海潮会在2点40分左右达到最高点，那时，“鹦鹉螺”号就可以离开这里了。如果预测不准的话，恐怕“鹦鹉螺”号还要继续留在这里，不知道要待到什么时候。

过了一会儿，我隐约觉得船在颤抖，接着听到船身与珊瑚石上的石灰质摩擦时发出的沙沙的响声。

尼摩船长在2点35分时出现在客厅里。

可是，不久就在船身上感到有些似乎是前奏的颤抖。我听到珊瑚石上石灰质形成的表面在船边上摩擦，沙沙作响。

“我们准备出发。”他说。

“啊！”我应了一声。

“我下了打开嵌板的命令。”

“那些土人呢？”

“哪里有土人？”尼摩船长耸了耸肩问道。

“他们不是想爬进‘鹦鹉螺’号吗？”

“从哪里进来？”

“就是打开的嵌板呀。”

尼摩船长平静地回答：“教授先生，那是不可能的，无论是谁，只要我们不允许，他就根本无法进来，哪怕是嵌板开着的时候也不行。”

我不解地望着船长。

尼摩船长看出了我的迷惑，问：“还是不明白吗？”

“是的。”我诚实地回答。

尼摩船长把我领到中央楼梯那里，说：“您看吧！”

恰好尼德·兰和葛瑟尔也在那里，他们存在着跟我一样的疑惑。只见船员将嵌板打开，那些土人疯狂地呐喊着向船扑来，足足有二十几个。可是，当第一个土人的手触碰到嵌板的把手时，马上便被一种无形的力量推开。他的伙伴们也遭遇了同样的命运，都跳跃着逃跑了。

葛瑟尔见到这样的场面，兴奋极了。尼德·兰在急躁性格的驱使下，跑到楼梯上去一探究竟，当他的手碰到楼梯扶手的时候，被击倒在地。他大声喊道：“有鬼的！我被雷击到了！”

我很快明白了，那不是普通的扶手，而是接通了船上电流的扶手。

只要接通电源，接触扶手的人就会受到电击。如果尼摩船长将整个船上的电流都放到这个导体中去，足以置人于死地。这简直是一张电网，任何不请自来的客人都会受到电击的惩罚。

土人再也不敢接触那个可怕的扶手了，一直在往后退。这时，我们笑着安慰不幸的尼德·兰，用手抚摸他，而他则大声地咒骂着。

时钟指向2点40分，此时，“鹦鹉螺”号被波浪掀动，渐渐离开了珊瑚石床。它的机轮重新搅动海水，速度也越来越快，不一会儿就将托列斯海峡的危险水道抛在后面，向大海驶去。

第二十三章 强制入睡

1月10日，离开托列斯海峡的第二天，“鹦鹉螺”号活跃在大海之中。我根据机轮的转动速度判断，它的时速不少于35海里。

我感叹电的神奇，它不仅能够为“鹦鹉螺”号提供动力、热力和照明，而且还能够保护“鹦鹉螺”号。这种神奇的力量真的值得我赞美，同时，我还要赞美制造这艘船的工程师，他的创造非常伟大。

1月11日，我们开始一路向西，经过了东经135度、南纬10度的韦塞尔角，这里是卡彭塔里亚海湾的东尖端。这里的海域有很多零散的礁石，地图上均有记载。根据地图指示，“鹦鹉螺”号很容易地绕开了处于左舷方向的礁石，和右舷方向的维多利亚暗礁，它们同在东经135度和南纬10度，这时船正沿着这纬度行驶。

1月13日，“鹦鹉螺”号到了东经122度的帝汶海，在这里可以看见与海同名的帝汶岛。这岛的面积有1625平方公里，被“拉夜”王公们统治着。这些王公们自称为鳄鱼的子孙。在这里，鳄鱼大量繁殖，人们为了表达对祖宗的尊敬，奉养它们，给它们食物，还将青年女子作为食物送给它们。如果有不了解情况的人敢触碰它们，就会惹来杀身之祸。

“鹦鹉螺”号并没有在帝汶岛停留，只是在中午的时候经过这里，因此并没有跟这些难看的鳄鱼打交道。

在这个区域，我还看到了属于这群岛屿的罗地小岛。这个岛上盛产美女，这是马来西亚市场公认的。

“鹦鹉螺”号在这里改变了方向，开始向西南印度洋方向行驶。我开始疑惑，尼摩船长接下来打算带我们去哪里呢？难道要回到亚洲海岸吗？还是要靠近欧洲海岸？从航行的方向来看，他并没有故意躲避有人居住的陆地。难道他要带我们去南极，先经过好望角，再经过合恩角，然后向南极方向行驶，最后再重新回到太平洋中来？不过，“鹦鹉螺”号方便在太平洋海面上航行吗？看来只有等待时间告诉我真相了。

“鹦鹉螺”号经过了嘉地埃、依比尼亚、西林加巴当、斯各脱暗礁群后，我们就再也看不见陆地了。此时，是1月14日。“鹦鹉螺”号的速度突然缓慢下来，时而在水中走，时而浮出水面。

尼摩船长借着这次航行的机会，将海水不同水层中的水温记录了下来，还做了一些有趣的试验。通常情况下，要测量水下不同水层的水温，是很复杂的，要利用相当复杂的机器，而且不管是用玻璃温度表来测量还是使用金属仪器来测量，所得到的结果都是无法校正的。但尼摩船长却可以克服这个难题，他可以亲身到海底去测量任何一个水层的温

度，只要温度表跟水层接触，就可以得出很精确的数字。当然，这么做一定要借助“鹦鹉螺”号的力量，或者是把所有的储水池装得很满，或用纵斜机倾斜下降，这样就可以轻松到达3000、4000、5000、7000、9000、10000米的深度。经过试验，尼摩船长得出了一个结论，不论任何纬度，1000米水下的水层温度是恒定的，永远是4.5度。

对于尼摩船长的实验，我非常感兴趣。通过观察我发现，尼摩船长对这种实验有一种无法阻挡的热情。我常常思考，他做这个实验的目的是什么呢？是为了人类的利益吗？答案是否定的。因为他的实验结果根本不会有人知道。除非他打算将实验的结果交给我，如果是这样的话，我就有离开“鹦鹉螺”号的希望了，但是现在，我还没有看到这种希望。

抛去其他因素，尼摩船长还是将他获得的各种数字都告诉了我，这些数字都是关于地球上主要海洋海水密度的报告。通过这些数字，我获得了不是关于科学的，而是关于个人的知识。

事情是这样的。1月15日的早上，我和尼摩船长在平台上散步，他问我是否知道各处海水的不同密度。我告诉他我不知道，因为科学界还没有对这个问题进行过研究。

尼摩船长告诉我，他曾做过类似的观察，而且能够保证数据的准确性。

我回答道：“这很好，可惜的是这些数据不能传到陆地上去。”

尼摩船长停顿了一会儿，说：“教授，您说得对，‘鹦鹉螺’号是与陆地完全不相干的世界，它对于陆地而言，就像土星和木星相对于地球一样。不过，既然命运安排我们在一起，我还是要把我观察到的结果告诉您。”

“敬请赐教！”

“教授，海水比淡水的密度大是众所周知的，但各地海水的密度并不是完全一样的。我们可以将淡水的密度当成1，那么太平洋海水的密度是1又千分之28，地中海的海水密度是1又千分之30……”

我在心里默念了一句：难道他曾到地中海去冒险过吗？

只听他接着说：“爱奥尼亚海1的海水密度是1又千分之18，亚得里亚海2的海水密度是1又千分之29。”

从尼摩船长的实验数据可以看出，“鹦鹉螺”号并不刻意躲避欧洲海面，因此，我判断，也许不久的将来，我们就会出现在欧洲——比较文明的陆地海中去。如果尼德·兰听到这个好消息，一定会高兴得睡不着觉。

之后的几天内，我们大部分时间都在做各种不同的实验，研究不同深度水层的盐分含量、海水的感电作用、海水的染色作用，海水的透明传光作用。在实验中，尼摩船长的奇特才能充分地发挥出来，而且我能感受到他对我好感。

后来的几天内，我再次陷入了孤单，始终没有看到船长的出现。

1月16日，“鹦鹉螺”号停在海面下几米深的地方，它像睡着了一样，电力机械不动，机轮不动，只是随着波浪荡来荡去。我猜测是船员在检修机件。就在我胡乱猜测之际，我和我的同伴们看到了神奇的景象。

当时，“鹦鹉螺”号的嵌板是打开的，探照灯并没有点亮，因此，水中看到的只是模模糊糊的阴影。由于海面上的光线也不足，我们眼前的

一切都变得模糊不清。可就在一刹那间，“鹦鹉螺”号明亮起来，起初我以为是探照灯的灯光，后来发现我错了，原来是“鹦鹉螺”号漂浮在一层磷光里面，照亮了我们周围的一切。光来自微生物，它们不断地在船身周围游来游去，使得光线非常夺目。这时，我在明亮的水层中间，看到了闪光，这种亮度只有在炼钢的熔炉里才看得见，在强光的作用下，周围有些明亮的部分也变得很暗了。

在这种强光的作用下，阴影无从生存。它不同于普通的亮光，这光里分明充满了生命，这光是生动的，活泼的。

没错，是海中点滴微虫和粟粒夜光虫聚集在一起，才形成了这样的亮光。它们的数量非常惊人，仅仅30立方厘米的水中，就有25,000的发光微生物。加上水母、海盘、章鱼、海枣以及其他发光植虫动物（被海水分解了的有机物体的泡沫，或满浸鱼类所分泌的黏液）产生的微光，使得它们的光更加强烈。

“鹦鹉螺”号在这种强光中停留了好几个小时，我们欣赏着海中粗大的动物像火蛇一样游来游去，赞美之情油然而生。

船外的火光中间，游荡着漂亮的海猪，它们是不知疲倦的海中丑角，还有长达三米的剑鱼，它们就像是风暴的预言者，时而用剑锋冲撞着玻璃。当然，还有体积较小的剑鱼，跳跃的鳍鱼，人头形状的狼鱼，以及成百上千的其他鱼类，它们在这阴暗的大气中奔跑，形成了美丽的条纹。

这景象像是魔法一样，让人心醉！也让人不禁猜测，究竟是空气中的变化导致了这种景象，还是海面上发生了风暴呢？当然，即使有风暴，“鹦鹉螺”号也是感受不到的，只是随着波浪摆来摆去。

“鹦鹉螺”号就这样行驶着，而我们则不断地被眼前的景象所吸引。葛瑟尔一直在忙着给看到的动物分类，我们几乎忘记了时间，日子似乎可以忽略不计了。

尼德·兰总是幻想着改变船上的生活，而我们则像蜗牛一样，习惯了目前的生活，不想去改变。这样的生活让我明白，成为蜗牛是一件很容易的事。

我们渐渐熟悉了这样的生活，甚至觉得这样的生活很方便，开始遗忘世上还有另外一种生活。就在这时候，一件离奇的事情唤回了我的思绪，我们开始好奇自己所处的位置。

1月18日，在东经105度和南纬15度的地方，“鹦鹉螺”号遇上了很坏的天气。风浪很大，而且从晴雨表显示的来看，马上就要迎来暴风雨。

船副照常来测量太阳的角度，我也跟着来到了平台。往常的时候，船副总会说那句我听不懂的话，这次却不同，他说了一句完全不同的话，尽管我不知道他在说什么，但我确定，此次非同寻常。果然，过了一会儿，尼摩船长走出来，拿着望远镜向天边望去。

船长站在那里足足有几分钟，始终朝着同一个方向眺望。过了一会儿，船长放下望远镜，跟船副交流了几句。从船副的表情来看，他有一种难以抑制的激动。尼摩船长不同，他的表情很淡定，当然他也提出了一些反对意见，得到了船副肯定的回答。这些只是我从他们的手势判断出来的，我试图朝着船长眺望的方向看去，可是，什么都没有看到，只见天和水完全交界在一条水平线上。

再看尼摩船长，只见他在平台的两端走来走去，由于想着心事，完全没有留意到我的存在。平时，船长总是迈着规律的脚步，但今天却有

些不一样，脚步很坚定，却没有规律。他有时停下脚步，双手交叉在胸前，眼望大海。难道他在寻找什么？可是，“鹦鹉螺”号哪怕是距离最近的海岸，也有好几百海里。

而此时的船副，则显得有些神经质，他不停地走来走去，有时候还会跺脚，偶尔又固执地看着远方的天际。这与尼摩船长的冷静形成了鲜明的对比。

我下定决心尽快弄明白是怎么回事，因为我听到尼摩船长下达了增加推动力的命令，“鹦鹉螺”号行驶得更快了。

这个时候，船副似乎又有新的发现，他示意了一下船长。船长停下脚步，拿着望远镜看向天边，观察了很久。

我很好奇尼摩船长在看什么，于是回到客厅，将我常用的望远镜拿到平台上，扶着平台的把手，将望远镜装设在探照灯的笼间上，打算一探究竟。

但还没等我的眼睛挨到望远镜，就有人出现抢走了我的装备。

我转过身，想弄清楚是怎么回事，却发现尼摩船长愤怒地站在我面前，他脸上的表情是我从没见过的，眼睛像要喷火一样，双拳紧握，牙齿咬紧，全身的每一个细胞都透露出可怕的仇恨。他一言不发地站着，而我的望远镜则从他的手中滑落下来，掉在他的脚边。

我不知道他的愤怒来自于什么，难道是怕我这个外人知道什么秘密吗？对，也许他并不是仇恨我，因为他的眼睛始终盯着远方，那里一定有我不知道的秘密。

后来，尼摩船长似乎想到了新的主意，他冷静下来，表情也逐渐好

转。他神秘地跟船副说了一些什么，然后转过身来，激动地对我说：“教授先生，我觉得您应该遵守我们的约定。”

“船长先生，约定的什么条款呢？”

“在我看来你们可以恢复自由之前，我要把您和您的同伴关起来。”

我看着他的脸回答说：“您是主人，您说了算，但是我可以问您一个问题吗？”

“不可以，先生。”

从他的语气中我读到了坚决，因此，我只能放弃我的想法，听从他的安排。

我找到我的两个伙伴，告诉他们船长的决定。您应该可以想象得出加拿大人的反应。不容我们说更多的话，就有船员将我们关进来到“鹦鹉螺”号第一晚住过的那个房间里。

尼德·兰想问些什么，但是船员们没给他机会，他一张口，就被关进了牢笼里。

葛瑟尔对我说：“先生，能告诉我是什么原因吗？”

我将事情的经过告诉了我的同伴，他们也像我一样好奇，但是得不到答案。

我的头脑里一直回旋着一个疑问，而尼摩船长的表情始终徘徊在我的脑海里，纠缠着我。各种假设都无法得到证实，我被这种情绪折磨着。这时，尼德·兰的话将我拉回到现实之中，思绪暂时得到了解脱。

尼德·兰说：“吃午餐了！”

饭菜已经准备好，摆在餐桌上。在下达开饭命令的同时，尼摩船长让船员加快了“鹦鹉螺”号的速度。

“先生，能否听我一句话？”葛瑟尔问我。

“当然可以。”我回答。

“先生，别想太多了，赶紧吃饭吧，还不知道接下来会发生什么事呢。”

“葛瑟尔，你说得没错，我们要吃得饱饱的。”

尼德·兰说：“可惜的是，人们只给我们吃船上的食物。”

葛瑟尔回答：“尼德·兰师傅，满足吧，如果没有午餐，岂不是更糟。”

听了葛瑟尔的话，加拿大人停止了所有的咒骂。

吃饭的时候，大家都沉默寡言。我吃得不多，葛瑟尔也是勉强吃一些，只有尼德·兰一直在吃。午餐过后，我们回到各自的座位上。

突然，房间陷入了一片黑暗。尼德·兰在黑暗中很容易地就睡着了，令我感到意外的是，葛瑟尔竟然也睡着了。正在我对此感到好奇的时候，突然感觉自己的眼睛也睁不开了。接着，头脑也变得昏昏沉沉的，在昏睡之前，我意识到，我们的饭里一定被加了安眠药。看来尼摩船长来了个双保险，不仅要把我们关起来，还要我们睡着。

我感觉到嵌板关起来了，大海的波浪也停止了。难道是“鹦鹉螺”号

离开了海面，还是回到了水底？

我还在跟睡眠进行抗争，但显然我是失败者，我的四肢渐渐变得无力，眼睛彻底睁不开了，很快我陷入沉睡中，瞌睡虫统治了我的整个身体。

[1](#)地中海的一个海湾，北接亚得里亚海。

[2](#)位于意大利半岛和巴尔干半岛之间，为地中海的一部分。

第二十四章 珊瑚王国

第二天一早醒来后，我觉得神清气爽，令我吃惊的是，我竟然躺在自己的房间。我想，我的同伴应该像我一样回到自己的房间了。他们应该像我一样，完全不知道夜里发生了什么事。除非有偶然的机会，否则我们永远不会知道昨晚发生了什么事。

我打算出去走走，但又搞不清楚状况，不知道船长是重新赋予了我们自由，还是仍然将我们视为囚犯。事实证明，我再次获得了自由，我经过走廊，走上楼梯，来到了平台上。我的两个伙伴已经先我一步，正在平台上等我。

我问他们是否知道昨天发生的事，他们的答案都是三个字，不知道。他们存在着跟我一样的疑问，不知道自己是什么时候，是怎样回到房间的。

至于“鹦鹉螺”号，我们没有发现任何不妥，它还是像往常一样前行。它的速度很慢，只是漂浮在海面上。

尼德·兰瞪着大眼睛观察海面，观察远处，但是看不到陆地，看不到船只，只能看见远处海天相接。

这时，风很大，西风将波浪吹起来打到船上，使得船随着波浪摆动起来。

一早，换过新鲜空气之后，“鹦鹉螺”号行驶在水下15米深的地方，这样可以保证很快回到水面上来。1月19日这天，“鹦鹉螺”号如此往返了好几次，这是以前从未有过的。船副像往常那样，再次出现在平台上，重复着那句我听不懂的话。

这几天，尼摩船长并没有出现，我们只能看见给我们送饭的那个管事人，看不出他有任何异常。

下午两点的时候，我在客厅里整理笔记，尼摩船长出人意料地推门进来。我们彼此行了一个礼，没有任何交谈，我继续做我的工作，但在内心里，希望他能向我透露一下那天晚上究竟发生了什么事。

然而，我并没有如愿，尼摩船长一言不发，他的样子看起来很疲惫，明显睡眠不足。从他的表情来看，他正在被一种苦痛折磨着。他不停地重复着几个动作，或是在地上转圈，或是站起来又坐下，或是拿起书又放下，或是对着器械做着记录，但是无论做什么，都无法掩饰他内心的焦躁。后来，尼摩船长走到我面前，对我说：“教授先生，您懂得医术吗？”

我被这突如其来的问题蒙住了，我看了他一眼，并没有立即回复他。

他接着说：“您懂医术吗？我记得您的好多同事，像葛拉提奥雷、

摩坤-丹顿，以及其他的人都曾经学过医。”

我回答说：“的确如此，我在做博物馆教授之前，也曾当过几年大夫和住院医生。”

“太好了，先生。”

尼摩船长对我的回答很满意，但我不明白他为什么突然问这个。我也不知道接下来他会提出什么问题，我该怎么回答。

船长说：“教授先生，我有一个船员病了，您能否帮忙治疗一下？”

“他生病了吗？”

“是这样的。”

“我们现在过去看看。”

“请跟我来吧。”

接受这个邀请，我的心情非常激动，冥冥之中，我觉得这个船员的病情跟昨晚的事情有关，于是，在好奇心的驱使下，我跟着尼摩船长来到了“鹦鹉螺”号的后方，走进靠近水手住所的那个房间。

躺在病床上的的是一个40岁左右的人，看上去是典型的盎格鲁-撒克逊人，外表很坚强。我弯下身为他检查。我发现他不仅生病了，而且头部受了伤。包裹头部的纱布沾满了鲜血，为了检查伤口，我将纱布解开，病人睁开双眼看着，没吭过一声。

病人的头部不知被什么工具打碎了，脑子都露了出来，伤口很吓人。由于伤势较重，病人的呼吸很缓慢，脸部的肌肉一直在抖动。

由于脑部发炎，病人的思想和动作有些麻木，脉搏也时有时无。他的手脚都很冰凉，种种迹象表明，这个不幸的人很难再救活了。我为他重新包扎了一下，回过头来，对船长说：“他是怎么受的伤？”

船长明显在搪塞我，他说：“当时，‘鹦鹉螺’号受到了冲撞，机器上的一条杠杆被折断了。当时，船副正在杠杆下方，他奋不顾身地冲下去，替船副承受了这个打击……在‘鹦鹉螺’号上，全体船员就是一个统一的整体，可以为兄弟牺牲，可以为朋友牺牲，每个人都心甘情愿。教授，他的伤势究竟怎样？”

我觉得难以启齿。

这时，船长对我说：“您放心说吧，这个人不懂法语。”

我看了一眼伤员，回答道：“他只能再坚持两个小时。”

“真的没救了吗？”

“是的。”

尼摩船长的手颤抖着，眼角流下几滴泪，这是我第一次看见船长哭。

我又看了一眼这个垂死挣扎的人。他的脸色很苍白，在房间灯光的照射下，显得他的脸有些惨白。他的额头上有很多皱纹，那是生活的磨难赋予他的。我幻想着从他的口中说出一些真话，那些涉及“鹦鹉螺”号的秘密。

这时，尼摩船长下了逐客令，说：“教授先生，您可以出去了。”

于是，房间里只剩下船长和那个病人。我回到自己的房间后，久久不能平静。那一天，我一直被一种不安的情绪笼罩着，夜间睡眠也很糟糕，半睡半醒间，我听到了丧乐，音乐里，掺杂着一些我听不懂的祷词，也许人们是通过这种方式表达对死者的祝福。

第二天早上，我和尼摩船长再次在平台上相遇。尼摩船长径直走到我的面前，对我说：“您愿意和我去海底散步吗？”

“我的同伴可以一同去吗？”我问。

“如果他们愿意，我很欢迎。”

“船长先生，他们当然愿意。”

“那么，请你们去换潜水衣吧。”

我们谁都不再提起那个去世的病人。我来到尼德·兰和葛瑟尔的房间，告诉他们船长的提议。葛瑟尔立即表示愿意同去，而尼德·兰竟然也出人意料地表示愿意和我们一同去。

早上8点半，我们换好了行头，带上探照灯和氧气瓶。那座厚厚的嵌板打开后，尼摩船长和随从的十来个船员一同出来，到了水下10米的地方，我们的脚踩在了海底陆地上。

刚开始，我们要经过一段崎岖不平的路，这里是海下25米深的地方。这同我们首次探险的地方并不相同。这里没有细沙、没有海底草地、没有海底树林，通过周围的环境我判断出，这个地方是珊瑚王国。

矾花目属于植虫动物门，翡翠纲，主要包括矾花、木贼和珊瑚三科。其中，珊瑚属于珊瑚科，是一种奇怪的物种，被人分入过矿物类，

也被人分入过植物类和动物类。在古代，有人将它当成治病的药材；在近代，曾被人当成装饰的珍宝。直到1694年，马赛人皮桑尼尔才明确地将它们分入动物类。

珊瑚的本质是一种微生物，它们聚集在易碎的和石质的伪珊瑚树上。这种珊瑚的繁殖能力很强，能够像树枝一样发芽，它们每个都是单独的个体，同时又是个统一的整体，感觉就像一个国家一样。最近的植虫研究结果表明，珊瑚虫在分支繁殖中起到了矿化作用，对于我而言，最感兴趣的就是海底的这片石质森林。

借助兰科夫探照器的帮助，我们朝着正在形成的珊瑚层走去。很多年以后，这些珊瑚脉能够将印度洋的这一部分海面封闭起来。路旁布满了小珊瑚树构成的珊瑚树丛，树枝上挂满了闪闪的星状小花。这里的植物同陆地上的植物是相反的，那些固定在海底岩石上的树枝都是从上向下生长的。

灯光在树枝中间穿梭，造就了海底独特的迷人景象。我依稀看见薄膜一般的和圆筒形状的细管在海水中颤动，于是迫不及待地去采那些带有纤维触须的新鲜花瓣（有的刚开，有的刚露头）。我感觉自己的身子非常轻快，就像化作了一条鱼一样。当我的手触碰到这些花朵的时候，花丛中立即发出警报，接到警报的花瓣立即躲入红匣子中去了，花朵消失在我的眼前，珊瑚丛也很快变成了一大团石圆丘。

偶然的会将这些珍贵的植虫送到我的面前。要知道，这种珊瑚非常有价值，同在地中海、法国、意大利和巴巴利海岸打到的一样珍贵。在贸易活动中，有的人将其中几种称作“血花”和“血沫”，名字非常富有诗意。这种珊瑚在市场上可以卖到500法郎一公斤，可见这片海域中蕴藏着大量的财富。

其他种类的珊瑚树也会夹杂在这种宝贵的物质里，构成了整块的“马西奥达”珊瑚。在这些整块的珊瑚上面，我看到了美丽的玫瑰珊瑚。

过了一会儿，珊瑚树丛连接起来，树枝分布也密集起来，真正的石质丛林和奇矮建筑的长槽展现在我们面前。

尼摩船长走在前面，带我们走过一段长廊般的过道，经过这里，我们来到了水下100米深的地方。灯光照在这些凹凸不平的拱形建筑上，顶上像是安装了水晶灯一样的天花板。

我们每走一步，都会见到一种迷人的景象。我相继看到了海虱形珊瑚、节肢蝶形珊瑚，有的是青色的，有的是红色的，就像是铺在石灰地上的海藻。在科学界，经过生物学家的论战，最终才将珊瑚堆列入植物。但有一位思想家曾提出：它们是刚从无知觉的沉睡中挣扎起来，但又没有完全脱离矿物的属性。

两个钟头以后，我们来到了水下900米深的地方，那是珊瑚形成的最后边界。在这里，没有孤立存在的珊瑚丛，没有低树林的丛木，只有大片的森林，巨大的矿物草木，粗大的石树以及海葛藤，在各种色彩和反光的点缀下，羽毛草花圈非常好看。我们在高大的树枝下自由自在地漫步，脚下便是管状珊瑚、脑形贝、星状贝、菌状贝、石竹形珊瑚，像是一条由花卉织成的地毯，颜色鲜艳夺目。

这样的美景真的很难用语言来描绘。遗憾的是我们不能互相交换一下此时的心情，也不能脱离罩在身体外面的圆盔。此时，我是多么希望能够同海中的鱼类做进一步的接触，同时也希望自己能像那些两栖动物一样任意穿梭于大海和陆地之间。

就在这时，尼摩船长停下了脚步。我和我的伙伴们也随着船长停下脚步。我转过身来，发现船员们围成一个半圆形环绕着他们的首领，而他们的肩上抬着一件长方形的东西。

我们所在的位置是一片宽大的空地，四周被一圈高大的树枝环绕着。探照灯的灯光在这里显得很模糊，将地上的阴影拉得很长。空地的尽头漆黑一片，只有珊瑚的尖刺留住了一丝微弱的亮光。

我和尼德·兰、葛瑟尔并排站着，每个人都细心地观察着，我们知道，我们即将见证一个离奇的场面。我向下望去，只见地面上有好多凸起的石灰质，在石头基础上，竖立着一副珊瑚的十字架。十字架两边横出的两条长胳膊，就像是用石质的血制成的一样。

在尼摩船长的示意下，一个船员跑到距离十字架几英尺远的地方开始挖坑。我终于明白了，原来这块空地是墓地，用来埋葬“鹦鹉螺”号死去的伙伴，这长方形的东西里装的就是那夜死去的人的尸体。

我感到前所未有的激动和紧张。我的大脑被这些动人的事物搅扰着，我很想闭上眼睛，忘掉眼前的一切。

挖坟的过程很缓慢，声音很大，鱼类被铁锹撞击石灰石的声音吓得落荒而逃。铁锹偶尔会碰到水下的火石，发出星星般的火光。渐渐地，坟穴越来越大、越来越深，终于可以容纳尸体了。于是，其他船员将尸体抬过来，用白色的抹布包裹着，放到挖好的坑里去。尼摩船长双手交叉在胸前，其他的船员、朋友，也跪下来为逝者祈祷。

面对此情此景，我和我的伙伴们也虔诚地鞠躬敬礼。

简单的仪式过后，船员们用土石掩盖住坟穴，地面形成了微微的隆

起。

坟穴填好后，尼摩船长和现场的船员再次走到坟前，大家屈膝，伸手，同伙伴作最后的告别。

然后，送葬的队伍沿着原路返回，我们穿过一堆一堆的珊瑚丛，在船上灯光的指引下，回到“鹦鹉螺”号上。我们回到船上的时候，恰好是1点钟。

我换了衣服，走上平台，那些可怕的思想依然缠绕着我。于是，我在探照灯旁坐下。

过了一会儿，尼摩船长走到我跟前。

我站了起来，问尼摩船长：“那人是在那天晚上死的，对吗？”

“没错，教授先生。”尼摩船长回答。

“他和其他死去的伙伴一样，都躺在那片珊瑚墓地，对吗？”

船长突然用颤抖的手将脸捂住，发出痛苦的哽咽，他说：“海底几百英尺深的地方，就是我们死后的墓地，那里很安静！”

“船长，别太难过，至少您的伙伴不用受鲨鱼的欺负，可以安静地在那里长眠！”

尼摩船长严肃地回答：“是的，教授，在那里，他们不用受鲨鱼和人的欺负。”

第二部

第一章 印 度 洋

马上就要开始海底旅行的第二部分了。第一部分结束于动人的珊瑚墓地，在我的心中留下了难以磨灭的印象。

看来，尼摩船长真的打算就此脱离陆地了，连死后的坟墓都选在了海底。在那里，他的同伴不会受到各种各样的搅扰。这些船员同呼吸，共命运，从生到死都“不会有一个生人来扰乱！”，尼摩船长当时还说了这么一句话。

他对人类社会是如此的不信任，而且这种不信任很难转变。

葛瑟尔一直认为尼摩船长是一位被埋没的学者，他用蔑视来回应人类社会。但我并不同意这种看法。葛瑟尔还认为尼摩是一位不为人们所了解的天才，为了逃避人世的欺骗，才逃避到海里。在这里他可以获得完全的自由。

但在我看来，并不完全如此。要知道，海洋中有1.5万亿公亩的广阔水面，海水非常清澈，哪怕是低下头来看一看，都会觉得头晕。而且“鹦鹉螺”号通常在水深100至200米深的地方行驶，可以一连好多天。如果不是热爱大海的人，是很难忍受这样枯燥的生活的。

但对于热爱大海的人就不一样了，比如拿我来说，我每天都在平台

上散步，呼吸海洋的新鲜空气来强壮身体；每天透过客厅的玻璃观察物产丰富的海洋宝库，阅读图书室的各种书籍，做笔记……这些事情占据了我所有的时间，我没有一刻会感到厌烦。

在健康方面，我们每个人都很棒。船上的餐饮完全能够满足我们身体所需的营养，只有尼德·兰对此并不满意，因此，他总是想方设法做出不同口味的菜式，对此，我并不赞同。在环境方面，海底也有着很大的优势，因为在这里，温度是恒定的，完全不用担心会患上感冒。船上有很多石蚕属的草树，这种树在法国被称作“海茵香”，它是一种很好的药材，同腔肠动物易化的肉混合起来，可以治疗咳嗽。

连日来，大量的水鸟、蹼足鸟、海鸥等鸟类不断地出现在我的眼前，可惜的是它们都成了我们的盘中餐，对于海洋上漂泊的生活而言，这些被打死的鸟烹调一下，会成为诱人的美味。

海龟也是“鹦鹉螺”号收获的猎物之一，它们属于海甲鱼类，背后微微隆起，龟甲是最珍贵的宝贝。在水下的时候，这些龟通常会闭起鼻腔外孔的活肉塞，在水下停留很久。有时，“鹦鹉螺”号会打捞起一些睡梦中的甲鱼，但它们的肉并不好吃，真正美味的是甲鱼蛋。

至于鱼类，自打我从嵌板后面发现它们的秘密以后，我就开始发自内心地赞美它们，我曾仔细观察过几种鱼类，要知道，我以前从来没这么做过。

这里我要着重指出的是红海、印度洋和近赤道美洲那一部分太平洋所特有的牡蛎类。这些鱼类并不是靠石质的东西来保护身体的，而是用骨质的甲壳来保护身体。甲壳有时为立体三角形，有时为立体四方形。

葛瑟尔的札记里曾提到过这一带海中所特有的腹鱼类。如针鱼，它

的背脊是红色的，腹部是白色的，还有三行纵列的线纹。还有电鱼，它长7英寸，颜色非常鲜艳。也有珍贵得可以作为标本的卵形鱼，这种鱼的带纹是白色的，没有尾巴。可以称得上是真正的海豪猪的鱼虎也不少，它的身上有很多刺，身子鼓起来的时候就变成了一个刺猬。还有海马鱼，它能够在很多海洋中生存。还有长嘴飞马鱼，这种鱼由于腹鳍很阔大，像翼一样，所以能飞，但是飞得不高，只能跳入空中。还有鱼尾上有很多圆环的鸽子鱼，下巴长达25公分的大嘴鱼，美味又漂亮的美首鱼，能够跳跃的奇形鱼。奇形鱼的身上长着黑色的纹路，由于腹鳍很长，因此它能够自由地在水面上溜来溜去。美丽的风帆鱼可以竖起所有的鳍，远远看来，就像扯起布帆一样。华美的彩鱼得到了大自然的厚爱，身上聚集了黄、天蓝、银白和金黄多种颜色。绒翼鱼则全部由丝条组成。刺鳍鱼的身上老是沾着污泥，还会发出窸窣的声音。海幼鱼的肝是有毒的，还有波帝鱼，这种鱼有一个会动的眼罩，还有一个管状的长嘴哨子.....

就像陆地上的麻雀一样，海中到处都是鱼，只要带上猎枪，只要一滴水就可以将鱼打死，我想夏斯包式和雷明答式枪的制造者一定会对此感到吃惊。

在勒瑟伯德的分类理念看来，第89种鱼属于骨质鱼类的第二亚纲，这一纲有一个明显的特征，即都有一个鳃盖和一块鳃膜。据我所知，蝎子鱼就属于这个属。从外形上看，它的头上有尖刺，有一个脊绪，偶尔会有细小的鳞。有一些两指鱼的品种属于第二亚属，这种鱼身长三至四分米，身上带有黄色带纹，头的形状不是很常见。而一些号称“海檐鲸”的怪鱼品种属于第一亚属，这种鱼的特点是脑袋很大，头上有深纹，个别的还会起瘤，身上带利刺和疙瘩，从外形上来看，这些鱼有些人讨厌和害怕，因为它们的身上和尾上满是鸡眼，还有很多刺。

从1月21日起，“鹦鹉螺”号每天都是24小时行驶，三天共行驶了750里，也就是1620海里，也就是说时速为22海里。在行驶的过程中，船上的电光将鱼吸引过来，使得我们可以有机会认识各种各样的鱼。不过由于船的速度很快，大部分鱼赶不上船的速度，所以很快被船落在后面，当然，有些鱼还是可以第一时间跟上来的，在船的周围游动，陪伴着我们。

1月24日凌晨，船到达了南纬12度5分、东经94度33分的地方，在这里，我们可以看见企林岛。这座岛是由造礁珊瑚浮起形成的，岛上长满了椰子树，既高大又漂亮，据说达尔文和费兹罗亚船长曾来这岛上探险。

“鹦鹉螺”号距离这座荒岛很近，在行驶过程中收获了很多腔肠类和棘皮类动物，以及隶属软体动物门的一些新奇介壳动物。过了不久，企林岛又消失在我们的视线当中，船继续向西北航行，朝着印度半岛的尖端驶去。

我记得当时尼德·兰对我说：“终于感受到文化的气息了。跟巴布亚比起来，这里当然要好很多，要知道在巴布亚有太多的野蛮人！教授先生，我们到了有马路、有铁路的印度半岛，在这里可以遇到很多本国 人，这是不是上天赐予我们的离开尼摩船长的机会呢？”

我立即否定了他，说：“这样不好，尼德·兰。我们要坚信，‘鹦鹉螺’号会把我们送回欧洲的。尤其是到了欧洲的海域，我们更要小心谨慎。你应该了解尼摩船长，在欧洲海域他绝对不会让我们自由出入的，我们享受不到在马拉巴尔或科罗曼德尔海岸，像在新几内亚森林中打猎一样的待遇了。”

“教授先生，我不明白，为什么我们一定要征得他的同意呢？”

为了避免跟加拿大人争论，我没有回答。我是一个宿命论者，我一直在思考，冥冥之中我们来到了“鹦鹉螺”号船上，难道这不是命运的安排吗？

从离开企林岛开始，行船速度大大减慢，行程也比较随意，因此，我们能参观到更深的海底。船员们屡次使用纵斜机板，利用杠杆可以将机板对浮标线倾斜移动。

就这样，我们来到了海底两三百公里深的地方，要知道，即使能够到达1.3万米的探测器，也无法深入到印度海的深处，因此，从没有人勘测过这里。至于这里的温度，根据我们测量，始终保持在4度左右。

不过，我注意到，深水处的水温总是比海洋表面的海水温度要低。

1月25日，海面上一片寂静，没有任何波澜，于是，“鹦鹉螺”号浮出水面来透气。在强大的推进器的作用下，水流被喷上高空。在这种情况下，“鹦鹉螺”号很容易被误认为是一条巨大的鲸鱼类动物。除了睡觉，我这一天都在平台上度过。大部分时间里，我的视线里没有看到任何内容，只是到了下午4点的时候，我看见一艘长形的汽船在我们的西边行驶。从我们这个方向，可以看见汽船的桅杆，但它不会看见紧挨着水面的“鹦鹉螺”号。根据我的判断，这艘汽船应该属于印度半岛和东方航线轮船公司，它的航线是锡兰岛至悉尼，中途停泊在佐治王岬和墨尔本港。

过了一个小时，大自然为我们展现了一个神奇的景观，令我和葛瑟尔获得了极大的满足。我们所说的神奇的景观，实际上是一种迷人的动物。在古人看来，遇见它，是一种祥瑞。亚里士多德，阿达尼，普林

尼，奥比安，都曾对它进行过研究，主要是研究它的性情嗜好，并且用美好的诗词来赞美它，将它称为“鹦鹉螺”和“庞比留斯”。但这些名称并没有被近代科学所接受，它被命名为“阿哥那提”——缸鱼。当时，只见海面上游动着一群缸鱼属的动物，足有上万条。如果细分下去，它们是带突瘤的缸鱼属，只有印度洋海域才有。这种美丽的软体动物是靠向后倒退来运动的，它们的运动管非常丰富，通过管来进行排水运动。它们有8根触须，其中有6根是浮在水面上的，又长又细，而其他两根呈掌形，迎风张开，像帆一样。

由于距离很近，我们可以清楚地看见它们的螺旋波纹的介壳，居维埃曾将它们的壳比喻成精美的小艇，这是非常形象的。因为，这壳虽然是这个动物分泌出来的，但并没有紧紧附着它，可以随时离开。

我对葛瑟尔说：“缸鱼可以随时离开它的介壳，但它们始终保持着唇齿相依的关系。”

葛瑟尔的回答很有意思，他说：“用来形容尼摩船长非常恰当，或许应该将‘鹦鹉螺’号改为‘缸鱼’号。”

在一个小时的时间内，这群软体动物始终伴随着“鹦鹉螺”号行驶。可是过了一会儿，它们像是接收到了什么可怕的信号，整齐地卷起了帆，又将胳膊缩了回去，身体也缩了起来，然后，介壳很快藏入水中不见了。一系列的动作如此统一，甚至连演习过的舰队都无法超越它们。

转眼间，黑夜来临了，“鹦鹉螺”号在细浪中缓慢前进。

1月26日，我们的船在东经82度附近穿过了赤道线，重新回到北半球的航道上。

当天，陪伴我们的是一大群鲨鱼。这一带海域由于鲨鱼的快速繁殖而变得危险起来。在鲨鱼属中，有背脊呈栗子色、肚腹呈灰白色的烟色鲸，它的嘴里足足有12排长牙；有脖子上长着大黑点的睛点鲛，这个黑点被白圆圈圈起来，就像眼睛一样；有嘴脸呈圆形，身上带有灰点的淡黄鲛。这些凶猛的动物时常冲撞客厅的玻璃，力气之大令人害怕。尼德·兰有些闲不住了，嚷嚷着要到平台上叉这些怪物。但“鹦鹉螺”号没有给加拿大人机会，船加快了速度，不久就将鲨鱼甩在后面了。

1月27日，船行驶到了广阔的孟加拉湾口，在这里，我们遇见了非常凄惨的景象。这里的海面上，漂浮着很多尸体。那是从印度城中的恒河流下来的，一直流到了大海里。这里有一些天然的殉葬者——鹭鸟和鲸鱼。那些鹭鸟没有完成任务，就由鲸鱼来完成。

当天晚上7点多，“鹦鹉螺”号悠闲地行驶在海面上，船身一半在水里，一半露在水面上。远远望去，海面一片乳白色。也许你会认为这是月光的作用，实际并非如此，新月还不到两天，它早就消失在阳光中的水平线下了。虽然有微弱的星光，但是同水面上的颜色相比，还是显得很暗淡。

葛瑟尔揉揉自己的眼睛，简直不相信眼前的景象，于是向我提问。幸运的是，我能够回答他的问题。

我告诉他，这就是人们常说的奶海，整个水流都是白色的，这种景象可以在盎波尼岛海岸和这一带海中看到。

葛瑟尔继续问：“先生，为什么会出现这种景象呢？如果我没说错的话，这海水并没有变成奶呀！”

我答道：“当然不是了，葛瑟尔，你之所以看到海水是白色的，是

因为海水中有无数的细微滴虫，这种滴虫的外形是胶质无色的，但却可以发光，它的宽度大概有一根头发那样厚，长度也只要一毫米的五分之一。这些微生物聚集在一起，就形成了一片白色。”

葛瑟尔喊道：“竟然有好几里长！”

“是啊，老实人，不要幻想着去计算这些滴虫的数量，一定不会得出答案的，因为我听说，曾经有航海家在这奶海上走了40多海里。”

“鹦鹉螺”号在这白色的水流中行走了好几个小时，毫无声响，就像在其他海域中行驶一样。快到半夜的时候，海面又恢复了原来的颜色。但我们身后的海面，仍然是一片白色，就像被北极光照耀得一样。

第二章 尼摩船长的新建议

1月28日中午，当“鹦鹉螺”号浮出水面的时候，它正位于北纬9.4度。从这里望去，可以看到西边约15公里处有一块陆地。陆地上首先映入我眼帘的是高低起伏的山岭，山岭高约600米。当我测定了这块陆地的方位后，就回到了船舱，在地图上找到测好的经纬度后，我发现，原来我们到了锡兰岛——一颗悬在印度半岛下端的明珠。

锡兰岛是地球上的岛屿中最为富饶的岛之一，为了更详尽地了解这个岛的情况，我去船舱的图书室查找相关图书，正好找到了西尔所著的《锡兰和锡兰人》。根据这部书的内容，我知道了古时候这座岛有各种不同的名称，并且它的位置是在北纬5.55度和9.49度、东经79.42度和

82.4度之间，岛长442.6千米，最宽的地方有241.4公里，周长为1448.4公里，面积为63320.03平方公里，比爱尔兰岛的面积要小一些。

这时，尼摩船长和大副走了进来。船长看了一下地图，然后回过头来对我说：“锡兰岛是以采集珍珠闻名于世的。阿勒纳斯先生，您愿意去采珠场看看吗？”

“太好了，船长，我当然愿意。”

“好，这个简单。不过，我们只能看到采珠场，却看不到采珠人。因为今年定期采珠的时间还没有到。但这不要紧，我这就吩咐让船驶到马纳尔湾，晚上我们应该就能到。”

船长对大副交代了几句，大副便马上离开了。不久，“鹦鹉螺”号又潜入了水中，压力表显示它在水深9米左右。

我从面前的地图上找到了马纳尔湾，它位于锡兰岛的西北海岸，在北纬9度的位置。马纳尔海湾是由马纳尔小岛的延长海岸线形成的。要到达马纳尔海湾，必须上溯锡兰岛的整个西部海岸。

“教授，”尼摩船长说，“在孟加拉湾、印度海、中国海、日本海、美洲南部海域、巴拿马海湾、加利福尼亚海湾，都有采珠人，但锡兰岛却是出产珍珠最多的地方，这里出产的珍珠品质也最为优良。我们来得早了一些，每年三月采珠人才齐聚马纳尔湾。他们要整整忙碌30天，会出动300只船一起采珠。每只船上有10个船手和10个采珠人。采珠人分为两组，轮流潜入水中。他们通常是用一根长绳的一头系在船上，另一头系在一块大石头上，然后用两只脚夹住大石头，再潜入水下12米深的地方去采集珍珠。”

“那么，”我说，“他们一直使用这种原始的方法吗？”

“是的，总是使用这种方法。”尼摩船长回答道，“尽管1802年《阿米恩条约》签订后，这些采珠场就属于工业化程度最高的人——英国人了。”

“不过，船长，我认为，您所穿的那种潜水衣对采珠一定大有帮助。”

“是的，这很有用，因为那些可怜的采珠人不能在水底停留太久。英国人佩斯瓦尔在他写的《锡兰岛游记》中记载说，有一个加非列利人可以在水下停留5分钟。我觉得这很不可信。我知道有些人可以在水下停留56秒，最厉害的甚至可以停留86秒，不过这种人是很少见的。而且，从水里出来回到船上后，这些可怜人的鼻孔和耳朵都会流出血水来.....我认为，这些采珠人停留在水下的平均时间是30秒。在这30秒内，他们得赶紧把自己采得的珍珠贝往一个小网中塞。一般来说，这些采珠人都不会活得很久，因为他们的视力很早就退化了，眼睛也会发生溃疡，他们身上也有很多伤口，有时甚至在水底就中风了。”

“是的，”我说，“这是一种很悲惨的职业，是为了满足少数人的喜好而存在的。不过，船长，您能告诉我，一只船一天可以采多少珍珠贝吗？”

“大约4到5万只。甚至有人说，1814年，英国政府为谋得高额利润，雇人采珠，采珠人在20天的时间里，一共采得了7600万只珍珠贝。”

“那么，这些采珠人会得到比较高的工资吧？”我问道。

“工资非常少，教授。在巴拿马，他们每星期只能挣一美元。平常他们采到一个有珍珠的贝才能得一美分，但他们采得的贝里多数是没有珍珠的！”

“这些可怜人，他们让雇主发了财，可自己只能在采到一颗有珍珠的贝时挣到一美分！真是太可恶了！”

“教授，要不这样吧，”尼摩船长对我说，“您跟您的同伴一起去看马纳尔海滩吧，如果有已经早来的采珠人在那里，那我们就可以看看他们是如何采集珍珠的了。”

“好的，船长，就这么办吧。”

“阿勒纳斯先生，您怕鲨鱼吗？”

“鲨鱼？”我喊道。

这个问题，至少对我来说，还用问吗？

“怎么样？”尼摩船长立即又问道。

“船长，我老实跟您说，我还没有习惯跟这种鱼打交道。”

“我们已经很习惯了。”尼摩船长回答道，“再过些时候，你们也会习惯的。而且，我们还有武器，没准我们可以猎得一条鲨鱼呢。那是非常有趣的打猎。那么，教授，明天，明天一早我们再见吧。”

尼摩船长语气从容地说完这些话后，就离开了船舱的客厅。

“我们要考虑一下。”我自言自语地说道，“不要忙，我们可以到海底森林中去猎水獭，就像我们在克利斯波岛树林中做的那样。这个可以

去。但是，到海底去，谁知道会不会碰到鲨鱼呢，那家伙可不一般！”

于是我开始幻想鲨鱼，想到它那宽阔的、有一排排尖尖牙齿的牙床，一下就能把人咬为两段，我的腰上就觉得有点疼了。还有，尼摩船长提出这让人为难的邀请时，他那满不在乎的神情，真是让人猜不透。他们不会认为这就跟去树下捉一只不咬人的狐狸一样容易吧？“嗯，我觉得葛瑟尔一定不愿意参加，这样我也就可以有借口不去了。”我心里想着。至于尼德·兰，老实说，我觉得他肯定愿意去。不管有多大的危险，对于好斗的他来说，这种事总有一种特殊的诱惑力。

我重新拿出西尔的书来读，但我只是无心地翻了翻。我总是在书中的字里行间看见那大大的、张开的、让人害怕的牙床。这时候，葛瑟尔和尼德·兰走了进来，他们神态安宁，很是高兴。他们还不知道有什么在等待着他们。

“天哪，先生，”尼德·兰对我说，“您的那位尼摩船长——那个怪物——向我们发出了一个很友好的邀请。”

“啊！”我说，“你们知道了……”

“对不起，先生，”葛瑟尔回答道，“尼摩船长请我们明天陪先生一起去参观锡兰岛的采珠场。他说的话非常得体，简直就像是一位地道的绅士。”

“他没有对你们说点别的吗？”

“先生，”加拿大人回答道，“除了让我们跟您一起去采珠场外，其他什么也没说。”

“说真的，”我说，“他没对你们提过一些细节，关于……”

“没有，教授。您跟我们一起去看吗？”

“我……当然！尼德·兰师傅，我觉得您对这件事很感兴趣。”

“是呀！我觉得这个很新奇，让人十分好奇。”

“或者也会很危险呢！”我暗示道。

“很危险！”尼德·兰说，“到珍珠贝海滩上走一走也会有危险！”

一定是尼摩船长认为没有必要让他们去趟海滩还想到鲨鱼，所以他才没跟他们讲。我眼神有些慌张地看着他们，好像他们的身体已经被鲨鱼咬走了一部分似的。我应该提前告诉他们吗？当然应该告诉他们，可是我不知道该怎样跟他们讲才好。

“先生，”葛瑟尔对我说，“先生，您愿意给我们讲讲采珍珠的事吗？”

“是就讲采珍珠吗？”我问道，“还是也讲有关……的故事？”

“就讲采珍珠。”加拿大人回答道，“亲眼去看看之前，还是先知道一点比较好。”

“好吧，朋友们，你们请坐，我会把自己从英国人西尔写的书中了解到的一切，都讲给你们听。”

尼德·兰和葛瑟尔坐在长沙发上。加拿大人首先问我：“先生，珍珠是什么？”

“这么说吧，尼德·兰，”我说道，“在诗人看来，珍珠是大海的眼

泪；在东方人眼里，珍珠是一滴固化了的露珠；对妇女们来说，珍珠是她们戴在手指、脖子或耳朵上的椭圆形的首饰，它晶莹剔透，非常漂亮；对化学家来说，珍珠是有点胶质的磷酸盐和碳酸钙的混合物；最后，对生物学家来说，它不过是某种双壳类动物分泌螺铀质器官的病态分泌物。”

“它是属于软体动物门，”葛瑟尔说，“无头纲，甲壳属的。”

“说得很对，葛瑟尔，但是，”我补充道，“能在体内凝结成珍珠的最好的软体动物，是珍珠贝、乳白珠贝，以及宝贵的小纹贝。珍珠不过是一种圆形的螺铀质的凝结物。它或者黏在珠贝的壳上，或者嵌在动物身体的折纹上。在珠贝壳上黏着的是固定的，而在动物身体上的是可以自由活动的。不过，珍珠总需要一个小小的固着物，或者是一颗石卵，或者是一粒沙，来作为它的核心，螺铀质就这样在好几年间不停地、一层一层地环绕着这个核心累积起来。”

“人们能在同一个贝中找到好几颗珍珠吗？”葛瑟尔问道。

“是的。有些小纹贝简直就是一个珠宝盒。有人甚至这样说，一个珍珠贝里面——这点我很怀疑——含有不下于150条鲨鱼。”

“150条鲨鱼？”尼德·兰喊道。

“我是说鲨鱼吗？”我急忙解释道，“我要说的是150个珍珠，不是鲨鱼，说鲨鱼就跑题了。”

“是的，”葛瑟尔说，“先生，那么，现在可以给我们讲讲用什么方法可以把珍珠取出来吗？”

“要想把珍珠取出来，可以有好几种方法。如果珍珠是黏在贝壳上

的，采珠人就会用钳子把它夹出来。不过，最常用的方法是把小纹贝摊在铺有草席的海岸边上，它们暴露在露天中就会死去。10天后，等它们腐烂到相当程度的时候，再把它们浸在一个很大的海水池里，然后打开它们，洗刷干净。接下来，有两道工序。首先，人们把商业中称为‘真银白’‘混杂白’和‘混杂黑’的珍珠分别分开盛在125千克到150千克的箱子里，然后再把珍珠贝的腺组织取开，煮一煮，筛一筛，把最小的珍珠都取出来。”

“珍珠的价格是由它们的大小决定的吗？”葛瑟尔问道。

“不仅要看它们的大小，”我回答道，“还要看它们的形状，看它们的水色，就是看它们的颜色，看它们的光泽——也就是肉眼看上去非常柔和绚丽的光泽。最美丽的珍珠称为贞珠或者范珠，它们是在软体动物的纤维上单独长成的，是白色的，多数是不透明的，但有的是像蛋白一样透明的，最常见的形状是球形或梨形的。球形的，可以做手镯；梨形的，可以做耳环。因为这是最宝贵的珍珠，所以它们论粒卖。其他的珍珠都是黏在贝壳上的，它们的形状比较不规律，它们是论重量卖的。最后，小珍珠是最次一级的珍珠，称为小粒，它们是论堆卖的。”

“不过，”葛瑟尔说，“采珍珠是不是很危险？”

“不，不，”我急忙回答道，“要是之前采取一些预防措施，就没有什么危险。”

“这种工作能有什么危险呢？”尼德·兰说，“顶多就是喝几口海水罢了！”

“尼德·兰，就是像你说得那样，”我也学着用尼摩船长那种满不在乎的语气说道，“老实说，尼德·兰，你害怕鲨鱼吗？”

“我，我怎么会怕鲨鱼呢？”加拿大人回答说，“我可是专业的捕鱼手！捕捉它们可是我的专长！”

“我不是说用大的鱼钩去钓它们，我是说，把它们拉到甲板上来，用斧子砍断它们的尾巴，割开它们的肚子，挖出它们的心肝，然后扔到海里去！”我说道。

“您是说，遇到……”

“正是。”

“在水中遇到吗？”

“在水中遇到。”

“天哪，这就需要有一根好鱼叉。先生，您知道吗，鲨鱼是天生有缺陷的。它们要是想咬人的话，必须先把肚子翻过来，在它们翻过身子的时候，就可以……”

尼德·兰用这种口气说到“咬”这个字的时候，我听着简直觉得整个脊背都凉飕飕的。

“你呢，葛瑟尔，你怎么看鲨鱼？”

“先生，我坦白跟您说。”葛瑟尔说道。

“这就好了。”我心里想着。

“如果先生要求猎鲨鱼，”葛瑟尔说，“那么，作为您的助手，没有理由不跟您一起去！”

第三章 价值连城的珍珠

我的睡眠很糟糕，夜里总是无法入睡。即使侥幸入睡了，也总是梦到鲨鱼，我突然觉得，将“超度”作为“鲨鱼”一词的语源，无可无不可。

第二天一早，尼摩船长特意安排人在凌晨4点将我叫醒。我乖乖地穿好衣服，去客厅里见他。尼摩船长已经在等我了，见到我以后，他问道：“教授先生，您准备好了吗？”

“一切准备就绪。”

“那我们出发吧。”

“船长，难道只有我们两个人？”

“他们已经在路上了。”

我好奇地问：“难道我们不需要装备吗，比如潜水衣？”

“我已经安排好了，我们不会靠近海岸的，只是远远地在马纳尔礁石岩脉的远处海上。那只小艇可以将我们带到水下，完全不需要我们跋山涉水了。当然，小艇上会有我们穿的潜水服，等我们下水的时候会派上用场。”

我跟着尼摩船长来到中央楼梯，又走上平台。果然，尼德·兰和葛瑟尔已经在那里做准备，从他们的表情来看，他们对这次旅行很感兴

趣。远远地，我看到“鹦鹉螺”船上的5个水手将小艇停靠在大船边上，正在等着我们。

夜色笼罩着海面，天空被片片云彩遮住，散发出微弱的星光。我的眼睛被远方的陆地吸引着，只能看到一条摇曳不定的线，天边被这条线从西南到西北封住了75%。

夜间的时候，“鹦鹉螺”号到了锡兰岛西部海岸，现在又到了海口的西边，准确地说是马纳尔岛陆地形成的这个海湾的西边。这里的海底，罗列着很多长度超过20英里的小纹贝礁石岩脉，简直是天然的珍珠生产厂。尼摩船长带着我、葛瑟尔和尼德·兰，坐在小艇后面，他的四个同伴解开了绳索，我们就离开了大船。

小艇驶向南方，船上的潜水人并不急于下水，而是用海军战舰上常用的方法在水中划桨。

每隔一秒就划一下桨，小艇的速度很快，使得周围的水珠飞溅起来，在水珠的作用下，小艇在轻微地颠簸着。

我们始终保持着沉默，谁都不知道尼摩船长在想什么。也许他觉得我们距离陆地太近了，这种想法与加拿大人是截然相反的，加拿大人总是觉得自己距离陆地太远。至于葛瑟尔，则只是坐在那里看热闹，看不出心里在想什么。

时钟指向5点30分，天边的曙光将海岸的轮廓映射出来。海岸的东边和南边高低起伏，此时我们距离海岸只有5英里，在这短短的距离内，海岸同雾水混在一起。在我们的视线里面，看不到船，也看不到采珠人。用尼摩船长的话说，我们来早了。

6点钟，天色逐渐转亮。日夜交替较快，这是热带地区特有的情形。对于这里而言，没有晨暖和黄昏。太阳刚刚穿过东方的云幕，红日就升起来了。

陆地在我们眼里越来越清晰了，甚至可以看清楚稀疏的树木散落在各处。小艇朝着马纳尔岛前进。这时，尼摩船长终于站了起来，观察周围的环境。

他示意同伴将锚抛下去，但铁链只下沉了一米左右深，就被一处小纹贝礁岩脉突起来的最高峰挡住。在大海退潮的力量下，小艇转过头来，只听尼摩船长对我们说：“教授先生，一个月以后，数以万计的珍珠商船就会聚集在这个狭窄的海湾里，船上的采珠人则会承担起搜宝的责任。这一带海湾的地理位置非常适合采珠工作。这里没有最强烈的风，也没有汹涌的波浪，这对采珠人来说，是最有利的条件。现在，我们就穿上潜水衣，开始水下游览吧。”

我并不答话，只是望着海水出神。同行的水手为我们穿上厚重的潜水衣。于是，我们开始了这次没有“鹦鹉螺”号船员陪同的旅行。

不久，我们的身体就被橡胶衣服包裹住了，背上还背了空气箱。可是，这一次我们没有带兰科夫灯。于是，趁着我的头还没有钻进铜帽中的时候，我向尼摩船长提了出来。

船长回答说：“这一次，我们用不上兰科夫灯，因为我们不会深入到海底，太阳的光线足够为我们引路了。而且，灯光有可能会引来危险的动物。”

我回过头来看我的两个朋友，只见他们已经罩上了铜帽子，根本不能听到我和尼摩船长的谈话。在戴上帽子之前，我又向他提出了最后一

个问题：“船长，难道我们没有武器吗？”

“武器，你们山中人的钢刀不是比铅弹更厉害吗？我这里有一把刺刀，就放在您的腰带上吧，我们出发。”

只见我的同伴每个人都配上了一把短刀，尼德·兰手里还舞动着一把鱼叉，这叉是他离开“鹦鹉螺”号之前放在小艇中的。

紧接着，我也戴上了沉重的铜帽，背上的空气储藏器立即工作起来。

在水手的搀扶下，我们一个接一个地来到了水下约1.5米深的地方，我们的脚踩在平坦的沙上。尼摩船长示意我们跟着他走，沿着逐渐下斜的坡道，我们进入了水底。

水底的环境清除了我脑海中鲨鱼的念头，我的内心变得非常平静，由于动作敏捷，我的信心更足了，将注意力完全投入到欣赏水下美景中。

太阳照得水下非常明亮，我甚至可以看到最微小的物体，10分钟过后，我们来到了平坦的水下5米深处。

途中，我们遇到了一大群单鳍属的新奇鱼类，数量多得像沼泽地中的山鸡，这种鱼没有鳍，只有尾上的那一支。其中，有一种像蛇一样的爪哇鳗，长8分米，肚子是白色的，很容易同海鳗混淆在一起。至于躯体呈鸡蛋型的硬鳍属中，燕雀鱼则是典型的代表，它的脊鳍像镰刀一样。这些鱼都是可以食用的，晒干经盐水浸泡后，非常美味，人们通常称之为“卡拉瓦”。还有就是土兰格巴鱼，它属于长轴属，全身披着有8条纵带的鳞。

太阳越升越高，海底更加明亮，水下的环境也逐渐发生了变化，走过细沙地后，我们来到了突起的岩石路。路上，铺了一层动物地毯，其中有软体动物和植虫动物。壳很薄、大小不一的胎盘贝夹杂在两门动物之间。同时，我还看到了印度洋特有的一种牡蛎——介壳呈圆形的橙色满月贝，还有突锥形贝，一些波斯朱红贝……这些贝类美不胜收，“鸚鵡螺”号的美丽色彩就是由这些贝供应的。我们还看到了有人手形状的多角岩石贝，长约15厘米，竖立在水底；有全身长着尖刺的角形螺贝；有舌头形状的鸭子贝，在印度斯坦市场上可以见到的可食用的蝇贝；可以发出亮光的带甲水母；最后，我们还看到了美丽绝伦的扇形圆眼贝，这是这一带海中繁殖能力最强的树枝形动物之一。

在这些植物的下面，还有很多其他品种的节肢动物在活动，最多的是齿形蛙类，它身上的甲壳呈弯曲的三角形；卑格鱼可以算得上是这一带的海中特产；还有形状非常难看的单性鱼。我也曾碰见过跟单性鱼一样难看的动物，那就是被达尔文列为重点观察对象的大蟹，它们有一种特殊的本领——可以吃椰子。它会先爬上海岸，然后想办法将椰子从树上弄下来摔破，再用很有力量的钳把椰子剥开来吃。这种蟹在明亮的水底行动非常敏捷。同时，这里还有自由自在的鱼鳖类，它们慢慢地爬行于岩石之间，也会经常爬到马拉巴海岸。

7点的时候，我们终于到了繁殖着不计其数的亿万珍珠贝的小纹贝礁石岩脉上。

这些软体动物非常宝贵，它们黏附在岩石上，很结实，完全摆脱不开。从这个意义上来说，珍珠贝是不自由的，大自然没有赋予它移动的能力。

杂色小纹贝的两片介壳差不多相等，外壳呈圆环状，它的壳壁很

厚，外表很粗，凹凸不平。有些珍珠母的外壳上带有条状的淡青色线纹，线纹尽头处有些发亮。这种珍珠母比较年轻。

其他种类的珍珠母，表面上看起来粗糙一点，颜色黑一点。如果年龄达到10岁以上，宽度可以达到15厘米。

尼摩船长将一大堆小纹贝指给我看。我很清楚，这里是一个宝藏，而这个宝藏是采不尽的，因为相比大自然的创造力而言，人类的破坏能力显得微不足道。尼德·兰就是大自然破坏者的代表，他赶紧将那些最好的珍珠贝塞到他带着的渔网中。

我们继续向前出发，尼摩船长带着我们走上小路。海底的地面逐渐升高，当我将胳膊举起来的时候，甚至摸到了水面。后来，岩脉的水平面又逐渐低下去。我们经常要绕过一根根的四角锥形的高大岩石，而那些粗大的甲壳动物，就隐藏在岩石的灰暗处，像是一门大炮，一动不动地盯着我们。

无数的多须鱼、藤萝鱼，卷鱼类和环鱼类环绕在我们的脚边，它们毫不客气地伸展着自己的触角和卷须。

突然，一个宽大的石洞出现在我们眼前，洞口周围铺满了各种海底花草。刚开始的时候，我觉得照到这里的阳光很微弱，洞中很黑暗。当我跟着尼摩船长进入洞中以后，逐渐熟悉了这种亮度。渐渐地，我可以分辨出天然石柱支架起来的、穹隆很宽大的形成轮廓的起拱石，这些石柱的宽大底座安在花岗岩的石基上，同托斯甘式建筑的笨重石柱很相似。起初，我不明白尼摩船长为什么要把我们带到这个神秘的地窖中来。不过，疑团很快就解开了。

当我们经过一段陡坡之后，站在了圆形的井底地面上。尼摩船长停

住脚步，用手指着一件东西。刚开始的时候，我看得不是很清楚，后来发现，尼摩船长指的是一只身量巨大的珍珠贝，一只庞大无比的砗磲，一个盛有一池水的圣水盘，一个超过两米宽的大钵，显而易见，这只贝比“鹦鹉螺”号客厅中放着的还大。

为了看得更清楚，我来到这个稀有的软体动物跟前。只见它的纤维带把它钉在花岗岩的石板上，黏附着石板，就这样在安静的石洞中生长。根据外形判断，这只贝的重量起码有300公斤。净肉都能达到15公斤，要想吞食几打这样的贝，起码要有一个卡冈都亚¹的肚子。

很显然，尼摩船长对于这只双壳动物的存在了然于胸。看来，他已经来过这里很多次了。我开始猜测，船长带我们来这里，是为了让我们欣赏这里的奇珍异物。然而，我再次错了，尼摩船长来这里的目的是为了进一步了解砗磲的情况。

通过观察得知，这只软体动物的两壳是半张开的。船长上前将短刀插入两壳间，使它们无法合拢。然后他用手把两壳边挂着的作为这动物的外套的膜皮弄开。

在膜皮叶状的皱纹间，出现了一颗椰子大小的珍珠，它呈圆球形，是一种透明体。通过光芒可以看出，这是一颗无法估计价值的稀有珍宝。我的心为之一动，很想去摸一摸它，掂一掂它的分量。但是，船长阻止了我的动作，并抽出他的短刀，让两片介壳再次合拢起来。

我突然明白，尼摩船长是想把这颗珍珠塞在那只砗磲的衣膜里面，这样，这颗珍珠就可以慢慢长大了。日复一日，软体动物的分泌物堆积在珍珠周围，等到果实成熟后，尼摩船长就可以将这只自己培养的珍珠摆在自己的陈列室里。尼摩船长在按照中国人和印度人的办法来生产一

颗珍珠。这种办法是：将一块玻璃片和金属物塞入这种软体动物的内部皱褶里面，螺铀质便渐渐把它包裹起来变成珍珠。据我观察，同尼摩船长收藏的珍珠相比，这里的珍珠显然更加珍贵。初步估计，这些珍珠起码值1000万法郎。

这些珍珠并不是奢侈的装饰品，而是天然的奇珍异宝，我想任何一个女人都不会将这颗大珍珠戴在耳朵上。

参观完这里，尼摩船长带我们离开石洞，来到小纹贝礁石上。这里的海水很清澈，因为还没有采珠人过来工作，把水搅浑。我们几个人悠闲地散着步，按照自己的节奏，或是停下休息，或是向前赶路。至于我自己，已经忘记了那可笑的空想。这个地方，海底与海面的距离很近，因为我发现，我的头距离水面只有1米了。这时，葛瑟尔来到我的身边，用他的铜帽贴着我的铜帽，朝我挤眉弄眼，以示友谊。不过，这水底高原只有几米的距离，很快我们就再次回到深水中。这时，尼摩船长突然停下来，我以为他在示意我们往回走，然而我错了。他只是做了一个手势，让我们就近蹲下来。接着，他用手指指向不远处。

原来距离我们5米的地方，有一个黑影沉入了海底。我又开始害怕那可怕的鲨鱼了。可是，这一次是我弄错了，那不是怪物，而是一个活人，是一个黑皮肤的印度采珠人。

还未到采珠期，他就来到这里采珠。只见他的小艇停在头上几英尺的水面，而他一会儿潜入水中，一会儿又浮上来。在他的双脚之间，夹着一块像面包一样的石头，石头的一端绑在小艇上，这样他就可以借助小艇的力量迅速下到海底。他没有更多的采珠工具，到达海底5米深以后，他立即跪在海底，将小纹珠贝塞入他的口袋中。紧接着，他上去将口袋里的东西放在船上，又再次潜入水中。

由于采珠人的视线被岩石遮挡住，因此看不到我们。更何况，他怎么会想到竟然有人在海底偷看他的采珠工作呢？

每潜入水中一次，他可以拿到十来个螺贝，由于螺贝是被黏附在岩石上的，因此要耗费他很大的力气才能将螺贝拉下来，可以说每一颗珍珠都是他用生命换来的。

我聚精会神地观察着采珠人的活动，半个小时都没出什么意外。可就在我对这种有趣的采珠现象习以为常的时候，我发现采珠人做了一个害怕的手势，立即站起，试图回到海面上去。很快我就明白他为什么害怕了，只见一个巨大的黑影出现在采珠人的头上，那黑影正是鲨鱼。只见那个怪物张开嘴巴，迎面朝采珠人冲过来。我吓得一动也不能动，眼睁睁地看着这个饥饿的动物向印度人扑来。为了活命，印度采珠人躲到一边，暂时避开了鲨鱼的血盆大口，但是，并没有躲开鲨鱼尾巴的打击。这一下正好打在他的胸口上，他立即跌入海底。

说时迟那时快，几秒钟以后，鲨鱼再次翻转脊背，马上就要把采珠人分为两半了。突然，蹲在我身边的尼摩船长站了起来，手拿短刀，朝着鲨鱼冲去。

鲨鱼正要咬这个不幸的采珠人的时候，发现有新的敌人靠近，于是它立即翻转方向，向船长冲过来。

我至今都无法忘记尼摩船长当时的姿态，只见他弯下身子，非常冷静地等待着那条巨大的鲨鱼。当鲨鱼向他冲来的时候，他敏捷地躲到一边，同时，将短刀刺入鱼腹。当然，战斗刚刚开始，这一刀刺激了鲨鱼，它怒吼起来。鲨鱼的血很快将海水染红，在这浑浊的水中，我什么都看不见。直到游到明亮的地方以后，才看见勇敢的尼摩船长一只手抓

住鲨鱼的一只鳍，另一只手疯狂地刺向鲨鱼的鱼腹。尽管鲨鱼挨了好几刀，但都没有刺到致命的地方，所以鲨鱼更加疯狂地扭动身体，扰乱了整个水面的平静。

尽管我被吓得不能动弹，但我非常想回去救船长。

我眼睛一眨不眨地关注着战斗的形势，只见船长被压在身上的巨大躯体绊倒，摔进了水底。过了一会儿，我看到了鲨鱼吓人的牙齿，与其说是牙齿，还不如说是钳子，看样子，尼摩船长马上就要成为鲨鱼的晚餐了。正当这时，手拿鱼叉的加拿大人冲向了鲨鱼，扔出了救命的一叉，打中了鲨鱼。

一团鲜血在海水中弥漫，只见鲨鱼疯狂地扭动着身体，激烈地挣扎着，激起了很大的水花，很显然，尼摩船长得救了。

鲨鱼被刺破了心脏，喘息着进行着最后的挣扎，令人意想不到的是，葛瑟尔竟然被掀倒了。

此时，尼德·兰迅速将尼摩船长扶起，好在船长没有受伤，他们共同走到印度人身边，快速地将绳索割断，抱起印度人，两脚使劲一蹬，浮出海面来。

我们三个人赶紧跟上来，带着那个意外得救的人，转瞬间，都到了采珠人的小艇上。

尼摩船长最关心的是能不能救活这个不幸的采珠人。

我们也是一样，大家都希望船长能够成功，因为这个可怜的人刚刚落入水中不久，最要命的是这个人被鲨鱼尾巴打伤。

幸运的是，在葛瑟尔和船长的按摩下，采珠人逐渐恢复了知觉。无法想象，当他睁开眼睛的瞬间，看见4个大铜脑袋弯身朝向他，他会是什么感受呢？

尤其是尼摩船长将珍珠囊放在他手中时，他心中是什么感觉呢？只见这位得救者，用一只发抖的手接过了贵重的礼物。他的眼神表明，他对这一切感到很惊奇，或许他觉得自己遇上了超人的神灵。

在船长的示意下，我们回到了小纹贝的礁石岩脉间，沿原路返回。半个小时后，我们找到了“鹦鹉螺”小艇的铁锚。在水手的帮助下，我们爬上小艇，卸下了沉重的铜帽，尼摩船长的第一句话是对加拿大人说的，他说：

“尼德·兰师傅，谢谢您。”

加拿大人回答：“船长，这是我应该做的。”

船长只是淡淡一笑，他告诉我们必须尽快回到“鹦鹉螺”号上去。

小艇飞快地行驶着，我们又碰到了浮在海上的那条鲨鱼的尸体。从鳍梢的颜色可以判断，这是印度海中最让人恐怖的黑鲨鱼，它身长足足有25英尺，它的大嘴占了它全长的三分之一。

这是一条成年的鲨鱼，它嘴里的上颚上，有摆成等边三角形的6排牙齿，这是判断它是否成年的依据。

就在我全神贯注地注视鲨鱼的尸体时，一连十几条鲨鱼出现在鲨鱼身边，争先恐后地吃肉，对我们所在的小艇则视而不见。

我们返回“鹦鹉螺”号时，已经8点多了。我们回想着在马纳尔一带

礁石岩脉间旅行所遭遇到的事情。我不得不承认尼摩船长很勇敢，同时也意识到了他对逃到海底下生活的这一种族的牺牲精神的敬佩。无论怎样，尽管他很古怪，但他还是存在爱人之心的。

当我将心中的想法说出来的时候，尼摩船长显得有些激动，他说：

“教授先生，尽管印度的人民还生活在水深火热中，但是我的心仍然挂念着这个国家，这种关注永远不会停止，除非我不在人世！”

[1](#)拉伯雷《巨人传》里的主人公。

第四章 红 海

1月29日，我们的船以每小时20海里的速度向马尔代夫群岛和拉克代夫群岛驶去，远远地将锡兰岛甩在天边。接着，又沿吉檀岛行驶，这岛原名珊瑚岛，是法斯科·德·嘉马在1499年时发现的，它是拉克代夫群岛的19座主要岛屿之一，纬度位于北纬10度和14度30分之间，经度位于东经69度和50度72分之间。

自离开日本海以来，我们足足行驶了16,220海里，即7500里。

1月30日很快到来了，当“鹦鹉螺”号浮出海面透气的时候，只能看见一片汪洋。我们的船正朝着西北偏北方向——阿曼海驶去。阿曼海位于阿拉伯和印度岛之间，是波斯湾的出口。

据我所知，波斯湾是没有出口的，那里根本无法通行。那么，尼摩船长是想带我们去哪里呢？我百思不得其解。

尼德·兰对于这种未知的旅程很不满意，他甚至直接找到我，问船长要带我们到哪里去。

我安慰他，告诉他随着船长的意思就好了。

他气呼呼地说：“随着船长的意思可以，但是可不能把我们带得太远，波斯湾是没有出口的，进去了还得原路返回。”

“好的，听你的就是了。过了波斯湾，“鹦鹉螺”号会走红海，从巴布厄尔曼特海峡通过是可以做到的。”

尼德·兰回答：“先生，你应该知道的，红海跟波斯湾一样没有出口，因为苏伊士海峡还没有凿通，即使凿通了，也不至于让‘鹦鹉螺’号在堤堰和闸口的水道间冒险吧。所以，红海不可能是带我们回到欧洲的路。”

“所以，我只是说可能而已。”

“那您是怎么想的呢？”

“我想，当‘鹦鹉螺’号走过阿拉伯和埃及一带的海域后，它会重新回到印度洋，或者经莫桑比克海峡，或者走马斯加林群岛海面，驶到好望角。”

“到了好望角以后会怎么样呢？”加拿大人特别坚持地问道。

“那么我们就要走入我们还不认得的大西洋了，朋友！对这种海底旅行，你已经感到疲倦了吗？当你看到海底那些新奇的、时常变换的景象，难道会无动于衷吗？在我看来，这种旅行将来差不多是没有人能做的了，要是就这样完结了，我真的会感到非常遗憾。”

“不过，”加拿大人回答说，“阿勒纳斯先生，您知道我们被禁在这只‘鹦鹉螺’号上已经快三个月了吗？”

“不，尼德·兰，我不知道，我也不想知道，我没有去算时间，我也不想去想结果。结局终有一天会到来。并且对此我们根本无法左右，我们现在讨论这个，一点用处也没有。尼德·兰，如果你现在是来对我说‘找到逃走的机会了’，那我很愿意跟你讨论最后的结果。可是，现在的情形并不是这样，并且坦白地说，我想，尼摩船长可能永远也不会冒险到欧洲去。”

4天内，直到2月3日，“鹦鹉螺”号以不同的速度、在不同的深度下走过了阿曼海。“鹦鹉螺”号好像是随意行驶的，因为它走的航线很不确定，不过它从不越过北回归线。

离开阿曼海的时候，“鹦鹉螺”号浮出了水面，让我们有一个很短的时间去认识阿曼地方最重要的城市——马斯喀特城。马斯喀特城的外表非常奇特，让我不禁发出了赞叹。但留给我们欣赏这座美丽城市的时间仅有一瞬间，不一会儿，“鹦鹉螺”号又潜入了海底的深处。

随后，它沿着马拉和哈达拉毛一带的阿拉伯海岸、在距岸6海里的海面行驶。这一带海岸线上有起伏不平的山岭，间或有一些古代遗迹。2月5日，我们进入了亚丁湾。亚丁湾就像是巴布厄尔曼特长颈形海峡的漏斗，把印度洋的海水倒流入红海中。

2月6日，“鹦鹉螺”号浮出了水面。这时候，我们远远看见了亚丁港，港口筑在海岛上，中间有一条很狭窄的海峡把它跟大陆连接了起来。

我本以为到了这个地方以后，尼摩船长一定会退回来。可是我错

了，我很诧异，他并没有这样做。

2月7日，我们进入了巴布厄尔曼特海峡，“巴布厄尔曼特”在阿拉伯语中的意思是“泪门”。这个海峡宽20海里，但只有52公里长，对“鹦鹉螺”号来说，如果开足马力，穿过这个海峡也不过花费一小时。但是我什么也没有看到，就连英国政府用来巩固亚丁港防卫的丕林岛也没有看到。因为有很多从苏伊士到孟买、加尔各答、墨尔本、波旁、毛利斯的英国船和法国船，都要经过这条狭窄的海峡。所以“鹦鹉螺”号一直没有浮出水面，只是很小心地在水底行驶。

中午的时候，我们就进入了红海。

红海是《圣经》中记载的名湖。即使是在下雨天，在这里也感觉不到凉爽。它没有一条大河流入，温度过高又使得水量不断蒸发、消失，平均每年有一米半厚的水面消失。真是一个奇怪的海湾，这种四面封闭的湖，如果照一般湖的情况来说，应当早就完全干涸了。

我甚至不想去思考尼摩船长是怎么想的，他为什么要把我们带到这个海湾中来。不过对于“鹦鹉螺”号进入红海，我举双手赞成。

“鹦鹉螺”号以正常的速度行驶着，不快也不慢。它有时浮出水面，有时又潜入海底，以躲避不断往来的船只。这样也使得我有机会可以从海底和海面上来观察这让人惊异的海。

2月8日早晨，摩卡港出现在我们面前。

随后，“鹦鹉螺”号走近了非洲海岸。这一带的海水就深得多了。在这里，透过打开的嵌板，在水晶般清澈的海水中，我可以仔细观察那色彩鲜明的奇妙的珊瑚丛林，那披上用海带和黑角菜做成的华美青绿毛皮

的一片片宽大的岩石。与利比亚海岸相连接的这些火山的暗礁和小岛，像地毯一般铺开，景色变化无穷，真是美得无法形容。但是，由海底这些丛生的枝状动物展现出来的最美丽的地方，是在“鹦鹉螺”号就要驶到的东部海岸附近。那是在铁哈马海岸一带，在这一带海岸，不单海面下有一层层的花一般的植虫动物，而且这些植虫动物在20米左右的水深处组成了五彩斑斓的图像、花纹，这些图像、花纹有很多的变化，水底下的比接近水面的一层变化更多，但颜色较为黯淡，因为近水面的一层受海水的湿润，颜色非常鲜艳。

就这样，在客厅的玻璃窗边，我不知道度过了多少让人惬意的时间。在“鹦鹉螺”号电光探照灯的照耀下，我不知道欣赏了多少海底的新奇动植物。有伞形菌；有颜色呈石板色的多须峭，特别是晶形峭；有像笛子一般，等着潘神来吹的管珊瑚；有这一带海域中特有的贝壳，它们附着在珊瑚礁的洞穴中，下部有螺丝纹环绕；最后还有成千上万的属于水螅类的那些我没有看过的普通海绵。

海绵纲是水螅类的第一纲，这一纲就是由这种非常有用的新奇的产物组成的。海绵并不是植物，像现在还有些生物学家认为的那样，它是动物，不过是最低一目的动物，是比珊瑚更低的水螅类。它是动物这点是不用怀疑的，我们不能同意古代人的想法，认为它是介于动物与植物之间的中介物种。不过，关于海绵的机体组织，生物学家还没有形成一致的意见。有些生物学家说海绵是水螅类，也有一些生物学家如爱德华先生却认为它是独立的、单一的个体。

海绵纲大约共有300种，这些品种大多数海中都有，也有一部分生长在淡水里，被称为“河水海绵”。不过海绵繁殖特别多的地方是在地中海、希腊半岛、叙利亚海岸和红海一带。

在这一带海域，那些柔软细嫩的海绵繁殖得非常快，而且这里有些海绵的价值很高，每块达150法郎，比如叙利亚的金色海绵、巴巴利亚的坚韧海绵等。既然我们被苏伊士海峡分开，走不过去了，那我就不可能在近东海岸的港湾里研究这些植虫动物了，我只得在红海中来观察它们了。所以，当“鸚鵡螺”号慢慢地在水层走过这些东部海岸的美丽岩石时，我把葛瑟尔叫到了我的身边。

在这一带海域的海水里，生长着形状各异的海绵，比如足形海绵、山状海绵、球形海绵、指形海绵等。对于这些各式各样的海绵，颇具诗人气质而少了学者气质的渔人们给它们取的名字都非常美妙，例如，花篮、花枣、羚羊角、狮子蹄、孔雀尾、海王手套……这些名字都是非常恰当的。从它们呈半液体的胶质的纤维组织中不断流出像线一样的水，这像线一样的水把生命带进了每一个细胞中，然后又通过收缩运动排出体外。这种半液体的胶质在水螅死后便不再分泌，会腐烂，并产生阿摩尼亚气体，剩下海绵的角质纤维或胶质纤维。刀形海绵是茶褐色的，根据它的弹力、渗透力或抵抗浸渍力的程度大小，人们可以把它用作各种不同的用途。

这些水螅丛附着在岩石上、软体动物的壳上以及蛇婆茎上。它们把最轻微的凹凸也都铺平了，有的是平铺开，有的是竖起或垂下，像珊瑚形成的瘤一样。我告诉葛瑟尔，可以用两种方法来采集海绵，或者用打捞机，或者用手。后一种方法一般是潜水的采绵人使用的，这种方法比较好，因为它不会损害水螅丛的纤维，可以让它保留更高的使用价值。

在海绵类旁边繁殖着的植虫动物，有一种形状很美丽的水母，有软体类动物，比如各种各样的枪乌贼，根据奥比尼的说法，这些枪乌贼只有红海才有。还有爬虫类，比如属于龟鳖属的条纹甲鱼，这种甲鱼可以

作为我们餐桌上的一道美食食用。

这里还有很多值得注意的。下面举一些“鹦鹉螺”号的渔网时常会捕到的鱼：鲤鱼类，比如椭圆形、砖石色、身上有不等的蓝黑斑点、带有双重的齿形刺的鲑鱼；背色呈银白色的白鲱鱼，尾巴上带小点的赤鲱鱼，以及像两米长的宽大带子、在水中间滚来滚去的锦带谭鱼。完全没有牙齿的没齿鲑，它是跟鲨鱼很相近的一种软骨鱼。峰顶上有弯弯的尖刺的驼峰牡蛎，它的身长足有1英尺半。蛇鱼类，比如尾巴是银白色的、背上淡蓝色的、胸部是褐色带灰色边线的海鳗。身上有窄窄的金色条纹，颜色像法国国旗红蓝白三色的光鱼，它属鲭科的一种。长4分米的楔形硬鳍鱼，以及身上有漆黑的六条横带、蓝色和黄色的鳍、金色和银色的鳞的美丽的加郎鱼。还有团足鱼、黄头耳形豚鱼、硬鳍斯加鱼、海婆鱼、剑鱼、虾虎鱼以及在我们已经走过的海洋中处处生活着的其他成百上千种鱼类。

2月9日，“鹦鹉螺”号浮出了海面。这里是红海最宽阔的一片海面，直径达190海里。海面的西岸是苏阿京，东岸是刚福达。

这天中午，尼摩船长在地图上记录完“鹦鹉螺”号航行的方位后，就走上了甲板，正好我也在那里。我在心中默默地计划着，我一定要问问他对于此后航行计划的打算，如果他不说不行，我就不让他回船里去。

他一看见我就向我走了过来，并且很有礼貌地递给我了一支雪茄烟，然后对我说：

“教授，您喜欢这红海吗？您有没有充分观察红海中蕴藏着的奇妙东西呢，比如，生活在其中的鱼类和植虫类，生长在其间的海绵花坛和珊瑚森林？您看到那海边的城市了吗？”

“是的，尼摩船长。”我回答道，“‘鹦鹉螺’号太适合做这种研究了，它真是奇妙无比，是一只又聪明又有智慧的船！”

“不错，先生，它不仅又聪明又大胆，而且还不会受损伤！它对于红海中厉害的风暴、汹涌的波涛、危险的暗礁，一点也不畏惧。”

“是的，”我说，“红海经常被人们称为最厉害、最多发风浪的海，如果我没记错的话，在上古时代，人们就不是很喜欢它，它的名声就不好。”

“是的，阿勒纳斯先生，人们确实不喜欢它。希腊和拉丁的历史学家没有一个说它好的。史杜拉宾说，红海在刮北风和雨季的时期特别厉害，特别不好航行。阿拉伯人艾德利西用古尔则海湾的名字来写红海，他说有很多的船只航行到它的浮洲时就沉没了，没有人敢在夜间冒险航行。他认为，红海受非常厉害的台风控制，不管是在海底下还是在海面上，又处处有可以损害船只的小岛，所以，它‘一点好处都没有’。”

“很显然，”我马上说道，“那是因为这些历史学家没有在‘鹦鹉螺’号船上航行过。”

“是的，船长微笑着回答道，“在这一点上，近代人可并不比古代人进步，而且发明蒸汽力是需要好几千好几百年的时间呢！”

“不知道在100年以后，是不是会有第二只‘鹦鹉螺’号出现呢！”

“阿勒纳斯先生，一般说来，进步都是很慢的。”

“是呀，”我回答道，“您的这艘船比它所在的时代进步了一个世纪，甚至好几个世纪。如果这艘船就这样跟它的发明人一起消逝了，那是多大的不幸呀。”尼摩船长听了我的话后并没有回答。

静默了几分钟后，我接着问道：“船长，您对红海似乎有过特别的研究，您能给我讲讲红海这个名字的来历吗？”

“阿勒纳斯先生，对于这个问题，有很多不同的解释。您愿意听听一位14世纪的史学家的意见吗？”

“当然愿意。”

“这位空想家认为，‘红海’这个名字是在以色列人走过这片海域之后才有的。当时，埃及军队把他们追赶到海上后，海听到了摩西的声音就涌了上来，把埃及军队淹没了。因为这片神奇的海当时变成了鲜红的颜色，所以，从那以后，人们都叫它‘红海’，再不以其他名字称呼它了。”

“尼摩船长，”我说道，“这是诗人的解释，我并不满足于这个解释。所以，我想问问您个人的意见。”

“阿勒纳斯先生，按照我的理解，我们应该把红海的名字看作希伯来语‘爱德龙’一词的转译，古代的人之所以用‘红海’来称呼它，是因为这片海的海水有一种特殊的颜色。”

“可是，直到目前为止，我所看到的都是清澈的海水，没有什么特殊的颜色呀。”

“是的，不过当您走进这个海湾的内部时，您就会看到很奇异的景象。回想从前我看过的多尔湾，那完全是红色的，就好像血湖一样。”

“那么船长，您认为海水之所以是这个颜色是因为海水中有某种微生物海藻存在吗？”

“是的，那是一种被称为‘三棱藻’的细小植物所产生的朱红色的黏性物质。40000个这种植物，才占1平方厘米的面积。说不定等我们到多尔湾的时候，您就可以看到这些植物了。”

“这样说来，尼摩船长，难道您不是第一次搭乘‘鹦鹉螺’号经过红海？”

“先生，这不是第一次。”

“那么，对于您前面讲过的以色列人走过这片海和埃及军队被淹没在海中的事，我想问问您，您在海底下曾看到过关于这件历史大事件的一些痕迹吗？”

“没看见过，教授，因为有一个很明显的理由。”

“什么理由呢？”

“那就是摩西带领他的人民走过的那个地方，现在完全是沙土，差不多连骆驼的腿也泡不湿了。您知道，如果没有足够的水，我的‘鹦鹉螺’号是不可能驶过那里的。”

“这个地方在哪儿？”我问道。

“这个地方在苏伊士运河上面一点，从前那里是很深的河口，因为当时红海的水面还一直延伸到那些咸水湖中。暂且不说现在这条水道能不能发生奇迹，但从前以色列人就是通过这里走到巴勒斯坦去的，埃及的军队也是在这里被水淹没的。所以我想，如果我们在这些沙土中来做发掘工作，一定可以发现埃及制造的大量武器和用具。”

“那是一定的。”我回答道，“而且希望考古学家要赶快进行这项发

掘工作，因为如果等苏伊士运河开通以后，这里就会建设起许多新的城市。对于‘鹦鹉螺’号这样的船来说，这条运河实在没有什么用处。”

“是的，不过它对全世界会很有用。”船长回答道，“古时的人很清楚，如果在红海与地中海之间建立起交通，对于他们的商业是有很大大好处的。可是，他们没有想到要挖掘一条直通的运河，而是利用尼罗河来做中间的连接。根据传说，这条连接尼罗河和红海的运河，很可能在薛索斯特里斯王朝时期就已经有了。其中，可以肯定的是，公元前615年，尼哥斯曾进行过一条运河的开凿工程，引尼罗河的水穿过与阿拉伯相望的埃及平原。这条运河如果上溯航行需要四天的时间，河的宽度可以满足两艘有三排桨的船并行通过。这项运河工程由斯塔斯帕的儿子大流士继续进行，大约在蒲图连美二世时代完工，史杜拉宾曾见证过这条运河作航行使用。不过，在近布巴斯提的运河的起点和红海之间的河床坡度大小，一年中只有几个月可以航船。直到阿德南时代，这条运河一直用作商业贸易的交通。后来，由于哈里发沃默尔命令放弃运河，导致运河淤塞了，随后又修复了起来；公元761年或762年，哈里发阿利·蒙索尔要阻止粮食通过这条运河运送到反抗他的穆罕默德·宾·俄毕杜拉那里去，这条运河就被完全填平了。”

“船长，那么，现在看来，古代人不敢开凿的这条把两片海连接起来的并使加的斯到印度的航程整整缩短9000公里的运河，现在由德·勒赛普接手开凿了，不久，就可以把非洲变为一个巨大的海岛了。”

“很可惜，”尼摩船长又说道，“我不能带您穿过苏伊士运河了，但后天，当我们在地中海的时候，您就可以望见塞得港的长堤了。”

“地中海！”我喊道。

“是的，教授，您觉得这很奇怪吗？”

“让我觉得奇怪的是，我们后天就要到地中海了。”

“为什么会感到奇怪呢？”

“因为如果‘鹦鹉螺’号经好望角，绕非洲一周，后天就到达地中海的话，那它必定要以非常惊人的速度航行。”

“教授，谁告诉您它要绕非洲一周呢？谁告诉您它要经过好望角呢？”

“除非它在陆地上行驶，或者从地峡上面过去，或者……”

“或者从底下穿过去，阿勒纳斯先生。”

“从底下穿过去？”

“是的，”尼摩船长用很平静的语气回答道，“很久以来，人们在这舌形地面上所做的一切，大自然早就在它底下做过了。”

“怎么可能！原来底下有条通路！”

“是的，底下有一条地道，我把它称为阿拉伯海底地道。地道在苏伊士下面，通到北路斯海湾。”

“那么，这地峡只是由松动的沙土形成的吗？”

“上面是沙土形成的部分，但到了50米以下，就有一层很坚固的不动的岩石。”

“您是偶然发现这条地道的吗？”我愈加好奇地问道。

“是因为偶然的机会，但同时也是因为推理，教授，甚至推理的成分要多于偶然的成分。”

“船长，我虽然在听您讲，但我的耳朵却抗拒它听到的话，不能相信这是真的。”

“先生啊！有耳朵，但听不见的人在什么时代都有。这条海底地道不仅存在，而且我已经走过好几次了。如果不是这样，我今天也不会冒险到这无路可走的红海中来了。”

“我能不能冒昧地问问您是怎么发现这条海底地道的？”

“哦，先生，”船长回答我，“没关系的，这不算冒昧，在不能分开的人们中间，不应该有任何秘密存在。”

我没有理会他这句另有所指的话，只是等待着尼摩船长讲讲他是怎样发现这条地道的。船长说：

“教授，帮助我发现这条只有我一个人知道的海底地道的，是一个生物学家的简单推理。我曾经注意到，在红海和地中海中有某些完全相同的鱼类，比如，蛇鱼、车鱼、绞车鱼、簇鱼、愚鱼、飞鱼等。在我确定了这个事实后，我就想，在这两个海中间是不是有连接水道存在呢。如果有连接水道存在，由于两个海的水平面不同，地下水流必然要从红海流到地中海。因此，我就在苏伊士附近打了很多鱼，把铜圈套在这些鱼的尾巴上后又把这些鱼放入了海里。几个月后，在叙利亚海岸，我找到了一些我之前放走的尾巴上有铜圈的鱼。这就证明两个海之间是有路可通的。于是，我就利用‘鹦鹉螺’号去找寻这条通路，终于发现了这条

通路，而且我也冒险走过去了。教授，不久以后，您也要通过我的阿拉伯海底地道了。”

第五章 阿拉伯海底地道

当天，当我把这次谈话的一部分内容告诉给葛瑟尔和尼德·兰的时候，他们俩立刻产生了兴趣。我对他们说，两天后我们就会进入地中海，葛瑟尔高兴得拍起手来，尼德·兰则耸了一下肩膀，喊起来：

“一条海底地道！一条两海之间的通路！可有人听说过吗？”

“朋友，”葛瑟尔说道，“‘鹦鹉螺’号您曾听说过吗？没有。可是它确实存在。所以，用不着哪怕是微微的耸肩，不要以为您从没有听说过，您就可以理直气壮地反对了。”

尼德·兰立即摇摇头说：“来吧！我巴不得有这条地道，有这位船长，并且愿上帝让他把我们带去地中海。”

这天晚上，在纬度21度30分的地方，“鹦鹉螺”号浮在水面，靠近阿拉伯海岸。我望见了奇达，这个埃及、叙利亚、土耳其和印度之间的重要市场。

没一会儿，奇达在夜晚的阴影中看不见了，“鹦鹉螺”号潜入微带粼光的海水中。

2月10日，也就是第二天，有好几只船，向我们开来。于是“鹦鹉

螺”号又潜入水中航行。中午的时候，在地图上标记船的方位时，海面上什么也没有，它就又浮上来，并且一直到露出浮标线。

我坐在平台上，尼德·兰和葛瑟尔陪着我。在东岸的湿雾中，好像有一大块东西隐约显现。我们靠在小艇侧面，大家随便地聊着。这时候，尼德·兰伸手指向海上的一点，对我说：

“您看见了吗？那边，教授！”

“没有，”我回答，“尼德，我眼睛不好，您知道的。”

“好好看一下，”尼德·兰又说，“在右舷前头，差不多和探照灯的同一直线！您看不见那块好像在动的东西吗？”

“是，”我仔细地看了一下说，“水面上似乎有一个灰黑色的长的东西。”

“是另一艘‘鹦鹉螺’号吗？”葛瑟尔说。

“不是，”加拿大人说，“也许我弄错了，也许是一只海牛。”

“红海中有鲸鱼吗？”葛瑟尔问。

“有的，老实人。”我回答，“人们有时能碰见呢。”

“这不是鲸鱼，”尼德·兰说，同时目不转睛地盯住那东西，“鲸鱼，我太熟悉了，它们的形状我不可能弄错。”

“等着看吧，”葛瑟尔说，“‘鹦鹉螺’号要过去了，一会儿我们就可以知道那是什么了。”

没错，这灰黑的物体很快就离我们只有1海里远了。它很像搁浅在海中间的大礁。是什么呢？我还不能确定。

“啊！它动了！它潜入水中了，”尼德·兰喊道，“真奇怪！会是什么动物呢？没有像鲸鱼或大头鲸那样的分开来的尾巴，鳍也好像是切断的手足一般。”

“那么是……”我说。

“看啊，”加拿大人立即又说，“它朝天翻过来了，它把奶头挺起在空中了！”

“是人鱼！”葛瑟尔喊道，“是真正的人鱼，请原谅我这样说。”

人鱼这个名字让我找到了方向，我立即明白这个动物是就是传说中被称作鱼美人的人鱼水怪。

“不，”我对葛瑟尔说，“这不是人鱼，这是海马。它是一种奇怪的动物，红海中不见得有多少。”

“脊椎动物门，哺乳纲，单官哺乳亚纲，鱼形类，人鱼目。”葛瑟尔接着说。

葛瑟尔这样说，我就再没有什么可以说的了。尼德·兰却仍在注视着那个东西。他的眼睛看见这东西，闪出要把它捉到手的贪婪光芒。他的手像是要去叉它。看他的样子，真是让人觉得，他是在等待时机，跃入海中，去攻打它。

“呵！先生，我从没有捕过这种东西。”他很激动，声音有些发抖。

这一句话表达了鱼叉手的全部心意。

尼摩船长这时候出现在平台上。他显然望见了海马，也明白了鱼叉手的意图，立即对加拿大人说：

“尼德·兰师傅，您要是有一支鱼叉，一定会手痒，想要试一下吗？”

“正是这样，先生。”

“您不会不高兴吧？将来您若再操叉鱼这一行的时候，请把这只鲸科动物加在您曾经打过的鲸鱼的清单上。”

“这样我绝不会不高兴。”

“那么您可以试一试。”

“谢谢您，先生。”尼德·兰说道，眼睛同时一亮。

“不过，”尼摩船长立即又说，“您最好不要放走这东西，这对您有好处。”

“打这海马有危险吗？”我并不理会加拿大人，做着耸肩的姿态问道。

“有时候有危险，”船长回答，“这东西向攻打它的人转过身来，撞翻他的小艇。但尼德·兰师傅不用担心。他眼光很敏锐，动作也准确。我劝他留心，不要放走这海马的原因是人们把这东西当成一种美味好吃的食物。我也知道，尼德·兰师傅是不会拒绝一大块一大块好吃的肥肉的。”

“啊！”加拿大人喊道，“这东西原来还是珍品啊！”

“是的，尼德·兰师傅。它的肉属于真正好吃的肉，十分受珍视。在马来群岛，人们都把它留到全公餐桌食用。就因为这样，所以人们对这种好东西拼命地猎取，对它的同类海牛也是一样，以致这类动物日渐稀少了。”

“那么，船长，”葛瑟尔严肃地说，“如果这条海马是它种族中的最后一条，为了科学的利益，放过它，不是更好吗？”

“可能更好，”加拿大人回答，“不过为了膳食的利益，还是捕获它好些。”

“尼德·兰师傅，您打吧。”尼摩船长说道。

于是，船上的7个船员，依旧不作声地，不知不觉地，到了平台上来。一个人拿着一支鱼叉和一根跟钓鲸鱼用的差不多的钓竿。接着，小艇被松开了，从它的窝中被拉出，放到海中。

6个桨手坐在横木板上，手把着舵的是小艇艇长。尼德·兰、葛瑟尔和我三个人坐在后面。

“船长，您不来吗？”我问。

“不，先生，我祝你们打海马成功。”

6支桨划着小艇离开大船向海马驶去，此时，在距“鹦鹉螺”号两海里的海上，海马正游来游去。

在距离这鲸科动物还有几百米远的时候，小艇就放慢速度，桨没有

声息地放到了平静的水中去。尼德·兰手持鱼叉，站在小艇前端。这类打鲸鱼的鱼叉，通常是拴在绳索一端，绳索很长，动物被叉子叉住，带着叉子走的时候，绳索就迅速放出去。但现在这根索的长度只有20米左右，它的另一端绑在一个小木桶上面，小木桶在水里浮着，指示海马在水里面所走的轨迹。

我站起来，清楚地看到了加拿大人的对手。这海马又名儒艮，和海牛很相似。它的尾巴很长，拉在身体后边，两侧的鳍尖端有指爪。作为防御武器，它的上颚还有两枚很长很长的牙齿，这是它跟海牛不同的地方。

尼德·兰准备猎捕的这条海马身形巨大，身长超过7米。它在水面上一动不动地躺着，仿佛睡着了，这种情况下比较容易猎取。

小艇小心地靠近海马，差不多五六米远了。所有的桨都挂在铁圈子上，纹丝不动。我半站着身子。尼德·兰全身有些往后仰，熟练地挥动鱼叉，投了出去。忽然传来一声呼啸，海马沉了下去。可能是用力过猛，鱼叉打在水中了。

“鬼东西！”愤怒的加拿大人喊道，“我没有打中它！”

“打中了，”我说，“它受伤了，看，它的血！不过你的叉子并没有钉在它身上。”

“我的鱼叉！我的鱼叉！”尼德·兰喊起来。

收回鱼叉，水手们同时划了起来。艇长让小艇跟着浮桶追赶海马。

海马不时浮出海面上来呼吸。它游得非常快，可见它受的伤并没有影响它的气力。小艇也不慢，因为船员们胳膊有力。好几次只相距几米

了，加拿大人就要投叉了，但海马却立即沉下，躲开了，没办法打中它。

可以想象，在这种情况下，急性子的尼德·兰是何等愤怒。他对这条不幸的海马发出英语中最严厉的咒骂。对我来说，我仅仅是有些不高兴罢了，因为海马使我们所有的计划都落空了。

我们不停地追赶了一个钟头。我想，捕捉它恐怕是很不容易了。孰料那海马忽然起了报复的坏念头。它转过身来，攻击小艇。这它可要后悔了！海马的这种行径逃不过加拿大人的眼睛。

“小心！”他说。

小艇艇长说了几句他特有的奇怪语言，意思是通知水手们，大家要小心戒备。海马在离小艇20英尺的水面上停住，它的大鼻孔不在嘴的尖端，而在嘴的上部敞开。它突然吸起空气，然后，一鼓作气，扑向我们。

小艇躲不开它的冲撞，艇身翻倒过去一半，一两吨的海水跑进艇中。这水必须排出去。艇长用他的机灵，使艇身只是侧面而不是正面受到海马的攻击，所以小艇没有被撞翻沉没。尼德·兰紧靠在小艇前头，把鱼叉向巨大的动物刺去，那东西用牙齿咬住小艇的边缘，把小艇顶出水面，就像狮子咬小鹿那样。我们都被撞翻了，身子互相交叠。真说不好这次的冒险打猎将怎样结束，要不是那狠命地跟海马战斗的加拿大人把叉打中了它的心脏。

我听到牙齿碰撞在小艇铁板上的声响，海马沉到水里，把叉带走了。不久，小木桶浮上水面来，然后，海马的躯体现出，脊背翻过来了。小艇划过去，把它拖在后面，向“鹦鹉螺”号划回去。

只有使用力量很大的起重滑车，才能把这条海马拉到大船的平台。它重达5000公斤，就在加拿大人面前被宰割了。他一定要当面看着这动物被宰割。当天午餐时，管事人就把船上厨师做得很好的这些肉拿出几片来给我吃。我觉得味道很好，甚至比小牛肉还好，虽然不一定好过大牛肉。

第二天，2月11日，“鹦鹉螺”号的食物储藏室又增加了一种美味。我们捕获了一群落到“鹦鹉螺”号上面的海燕。那是埃及特有的尼罗河海燕：嘴是黑色的，头灰黑，有斑点，眼睛周围有带白点的圈，脊背、两翼和尾巴是灰黑色，肚腹和胸颈为白色，脚爪是红色。另外我们还捉到十来个尼罗河的鸭子，这也是很美味的猎物，脖子和头上是白色的，并且带有黑色斑点。

“鹦鹉螺”号行驶的速度很缓慢。可以说，它是慢步溜达着往前走。我发现，红海的水越接近苏伊士，咸味越少。下午5点左右，我们测定拉斯—穆罕默德角就在北方，这角是石区阿拉伯的顶端，在苏伊士湾和亚喀巴湾中间。

“鹦鹉螺”号进入尤巴尔海峡，这个海峡直通到苏伊士湾。

我清楚地望见两湾之间的一座高山，从那里可以俯瞰拉斯—穆罕默德角。这是荷厉山，摩西当年与上帝见面的地方就在其中西奈山的山顶，在人们心中，这山头不断有闪电笼罩。

6点左右的时候，“鹦鹉螺”号时而浮上来，时而沉下去，经过多尔湾的海面。多尔湾位于海湾里面，海水在湾中呈红色，这点尼摩船长在前面就已经加以说明了。不一会儿，黑夜来临，四周是深深的静默。有时有塘鸡和夜鸟的叫声，怒潮打在岩石上的声响，以及汽船的响亮水门

搅打湾中海水所发出的远远的声音，冲破了这静默。

从8点到9点，“鹦鹉螺”号一直在水下几米深的地方航行。

根据我的计算，我们应当十分接近苏伊士了。从客厅里的嵌板看出，我能看见被我的电光清楚照出的水底岩石。我能感觉到海峡是越来越窄了。

九点一刻，船又浮出水面，我来到平台上，迫不及待地想穿过尼摩船长的海底地道。我无法安静地等待，我要呼吸夜间的新鲜空气。不久，在黑暗中，有一些黯淡的火光，因为蒙雾而有些模糊，大概距我们有1海里远。

“一座浮在水上的灯塔。”我身旁有人说。

我回过头来，原来是船长。

“那是苏伊士浮在水上的灯火，”他接着说，“我们不久就要走进地道入口了。”

“进出口不容易吗？”

“不容易，先生。所以，我照例要亲自到领航人的笼间，守在那里，指挥航行。阿勒纳斯先生，‘鹦鹉螺’号现在要潜入水中了，等通过了阿拉伯海底地道后，才能浮上来。所以，现在请您下来吧。”

我跟着尼摩船长下来。紧接着，嵌板关闭，储水池装满了水，船随即潜入水底十来米深。我想要回房，船长留住我，对我说：

“教授，您愿意跟我一起到领航人的笼间去吗？”

“我不敢开口，我正求之不得呢！”我回答。

“那么，您请来吧。这样您就可以看见，这次既是地下航行又是海底航行的整个过程。”

尼摩船长领我到了中央楼梯。在楼梯栏杆的中腰，他打开一扇门，我们沿上层的长廊走去，到了领航人的笼间里，前面说过，这笼间在平台的前方尖端。

那是一个每面都有差不多6英尺宽的小舱房，跟密西西比河和哈得逊河汽船上领航人的笼间差不多一样。一架垂直放着的机轮在舱房中间转动着，轮齿接在舵缆上，舵缆直通到“鹦鹉螺”号的后面。在舱间的复壁上，船窗两面都是装上了凸镜片的，使守舵人四面八方都可以看见。这笼间是黑暗的，但我的眼睛很快就习惯了这种黑暗，我看见里面的领航人，他很精壮，两手扶住机轮的把手。在外面，平台上另一端的探照灯在笼间后面照耀，可以照到海面很远的地方，看起来分外明亮。

“现在，我们来找地道吧。”尼摩船长说。

领航人的笼间跟机器房之间是用许多电线接连的，在笼间里面，船长可以很方便地对“鹦鹉螺”号发出航行方向和速度快慢的指示。他只需按一下金属钮，机轮的速度就会立刻下降。

我默默地注视着“鹦鹉螺”号此刻走过的十分陡峭险峻的高墙，这是沿海高厚沙地的坚固的基础。我们沿着这座高墙走了一个小时，和它相距只不过几米远。尼摩船长两眼紧盯着挂在笼间的有两个大小同心圆的罗盘。随着船长每次做一个手势，领航人就即时改变“鹦鹉螺”号行驶的方向。

我在左舷的船窗边，观看着由珊瑚累积成的十分美丽的基础建筑。在岩石凹凸不平的外面，无数植虫、海藻、介壳动物，舞动着它们的巨大爪牙，长长地伸张出来。

10点15分，尼摩船长亲自上阵把舵。在我们面前出现了一条又黑又深的宽阔的长廊。“鹦鹉螺”号直冲进去，两旁发出了一种刺耳的沙沙声响。这声音来源于红海的水，由于地道的斜坡冲到地中海上，“鹦鹉螺”号也跟着这道急流下去了，像箭一般快，尽管它的机器想要尽力慢一些，把推进器逆流转动，也没有起什么作用。

地道两边狭窄的高墙上，我只看见在电光的照射下，飞奔的舰船划出辉煌的线纹、笔直的线条和火色的痕迹。我的心激动不已，将手按在心上。

10点35分，尼摩船长放开舵上的机轮，向我转过头来，说：

“到地中海了。”

不到20分钟，“鹦鹉螺”号顺着水流，就通过了苏伊士地峡。

第六章 希腊群岛

第二天，也就是2月12日，天刚亮，“鹦鹉螺”号就浮出水面。我立即跑到平台上去。往南三海里的地方，隐约显现出北路斯城的侧影。我们被一道急流从一个海带到另一个海来了。不过，这地道顺流而下容易，逆流而上恐怕就很困难了。

7点左右，尼德·兰和葛瑟尔也上来了。这两个分不开的同伴只知安安静静地睡觉，全然没有留意到“鹦鹉螺”号所完成的壮举。

“那么，生物学教授，”加拿大人以略带调侃的语气问，“您那地中海呢？”

“我们现在就在它的水面上了，亲爱的尼德·兰。”我说。

“嗯！”葛瑟尔哼了一声，“就是昨晚吗……”

“对，就是昨晚，几分钟的时间，我们便通过了这原以为无法通过的地峡。”

“我不相信。”加拿大人说。

“您错了，尼德·兰师傅，”我立即说，“那个就是埃及海岸，那向南方弯下去的低低的海岸。”

“先生，您去跟别人说吧。”加拿大人很固执。

“既然先生确定，”葛瑟尔对他说，“那你就要相信先生。”

“尼摩船长还客气地邀请我观看了他的地道。他亲自指挥“鹦鹉螺”号通过这条狭窄的地道，那时候我就在他的面前，在领航人的笼间里，亲爱的尼德·兰。”

“尼德·兰，您听明白了吗？”葛瑟尔说。

“您的视力好，”我又说，“您可以望见那伸在海中的塞得港长堤。”

加拿大人仔细地看了一下，说：

“果然，教授，您说得对。您的那位船长是一位出色的人物，我们现在确实是在地中海了。很好。我们来商谈一下我们的小事情吧，但不要让别人听到。”

我知道加拿大人要商谈的是什么事情，但是不管怎样，我想谈一谈总是好的，既然他想谈。于是我们三个坐到探照灯附近，在那里可以感受到一些浪花的泡沫。

“尼德·兰，”我说，“我们现在等着听您讲话了，请问有什么好消息对我们说吗？”

“我要跟你们说的是很简单的几句。”加拿大人回答道，“我们现在是在欧洲了。在任性的尼摩船长还没有把我们带到两极的海底中，或者带回大洋洲之前，我要求离开‘鹦鹉螺’号。”

说实话，跟加拿大人讨论这件事，总是让我感到很为难。

我一方面一点也不想妨碍我的同伴们得到自由，另一方面我自己又完全没有离开尼摩船长的意愿。因为他，因为他的船，我得以日复一日地完成我的海底研究，也就是在海底重写出来这部关于海底宝藏的书。试问我还会再得到这样一个机会来窥探这些海洋的秘密吗？当然是不可能的！所以我无法想象我还没完成我们的周期计划就离开“鹦鹉螺”号。

“尼德·兰伙计，”我说，“请您直率地告诉我，在这船上的生活让您觉得厌烦无聊吗？您很憎恨命运把您送到尼摩船长手中来吗？”

加拿大人停顿了一刻，然后，交叉着两臂说：

“坦白说，我并不后悔这次海底旅行，我很高兴，但是必须要彻底完成，才能算数。这就是我的想法。”

“尼德·兰，这事是一定要做完的。”

“那么在何时何地完成呢？”

“什么地方？我一点也不知道。什么时候？我说不出来，或者不如说，假定旅行是要结束的——在这个世界上，有始必有终——就是那一天，海洋中再没有什么可以让我们学习的时候。”

“我跟先生想法一样。”葛瑟尔说，“很可能走遍了地球上的所有海洋后，尼摩船长让我们三人集体自由飞走。”

“飞走！您是说飞走，获得自由吗？”加拿大人喊道。

“尼德·兰师傅，用不着夸张，”我立即回答道，“尼摩船长我们一点也不用怕他，但我也不认为葛瑟尔说得对。我们知道了‘鹦鹉螺’号的秘密，我想，它的主人就算不再限制我们的自由，也不能任由我们在陆地上随便宣传这些秘密。”

“那么，您希望怎样呢？”加拿大人问。

“希望有一些我们可以并且应该利用的像现在一样的机会，但是应该在6个月后。”

“生物学专家，请问您，6个月后，我们将在哪里呢？”加拿大人问道。

“也许在这里，也许在中国。您知道，‘鹦鹉螺’号跑得飞快。它跑过海洋，就像燕子飞过天空，火车跑过大陆一样。”它并不怕常有船只频繁来往的海面。谁敢告诉我们说，它不会到达法国、英国或美洲海岸，

在那里不会跟在这里一样，有个适合逃走的机会吗？”

“阿勒纳斯先生，”加拿大人说，“您的论证从根本上就错了。您总是说将来，将在那里或将在这里，而我说的是现在，我们现在正在这里，我们就要利用眼前这个机会。”

我被尼德·兰的论证驳倒了，看来这次较量我是输了。我实在无法找出对我更有利的论证来。

“先生，”尼德·兰又说，“我们做一个假设，当然这是不可能的，假设尼摩船长今天就给您自由，您接受吗？”

“我不知道。”我回答。

“假如，”他又补充道，“他只是今天给您自由，以后就不再给了，那您接受吗？”

我没有回答。

“葛瑟尔朋友是怎样考虑的呢？”尼德·兰问。

“至于葛瑟尔朋友，”这个老实人平静地回答道，“你们的葛瑟尔朋友没有什么可说的，他在这个问题上，是绝对没有任何意见的。跟他的主人一样，跟他的同伴尼德·兰一样，他是个独身的人。没有妻子，没有父母，没有孩子在故乡等着他。他为先生做事，他同先生想的一样，他同先生说的一样，他感到最大的遗憾是，人们不能把他算作一票，凑成多数。现在进行论辩的只有两个人，一个是先生，一个是尼德·兰。”说过这些话之后，葛瑟尔朋友闭嘴听着，准备给双方记分。

我看见葛瑟尔完全置身事外，不能不发出微笑。

事实上，加拿大人，看到葛瑟尔不来反对他，应该也很高兴。

“那么，”尼德·兰说，“先生，既然葛瑟尔不算数，那我们俩来讨论这问题吧。我说过，您听到我的话了，您有话反驳吗？”

很显然，要最终得出结论来，我也不愿意躲躲闪闪。我说：

“尼德·兰朋友，我的回答是这样的。您反对我是对的。我的论证在您的面前站不住脚。我们不能指望尼摩船长仁慈地放我们自由。出于一般人最常有的谨慎，他也不会让我们自由。反过来，我们也要小心谨慎地利用第一次机会，脱离‘鹦鹉螺’号。”

“对，阿勒纳斯先生，您这些话说得很对。”

“但是，”我说，“我要提出一点，只一点，那就是一定要等到很有把握的机会。逃走计划一定要一次性成功。因为，如果失败了，我们就不会有再来一次的机会了，尼摩船长也自然不会原谅我们了。”

“您这些话非常正确。”加拿大人回答说，“只是您提出的这一点可以用在任何的逃走计划上，两年后做或两天内做都可以。所以，还是这个问题：有好机会，就要把握住。”

“我同意。尼德·兰，现在请您告诉我，所谓的好机会到底是指什么呢？”

“我的所谓好机会，就是在黑夜里，在‘鹦鹉螺’号很接近欧洲的某一处海岸的时候。”

“你打算游着逃走吗？”

“是的。如果我们离海岸足够近，船又浮在水面，我们就逃走。如果我们离岸很远，船又在水下航行，我们就不走。”

“不走又怎样呢？”

“不走，我就找机会夺取那只小艇。我知道怎样操纵这小艇。我们只要走进艇里面去，把螺钉松开，我们会浮上水面来，这样就是在船头的领航人也不会察觉。”

“好，尼德·兰。您就注意侦察这个好机会吧，但您不要忘记，一旦行动失败，我们就完了。”

“我不会忘的，先生。”

“现在，尼德·兰，您想知道我对于您的计划的看法吗？”

“很想，阿勒纳斯先生。”

“那么，我认为——我并没说我希望——这个好机会不会出现。”

“为什么不会出现？”

“因为尼摩船长不可能看不到，我们并没有放弃恢复自由的希望，他一定会小心防备，尤其是在靠近欧洲海岸的这一带中。”

“我同意先生的观点。”葛瑟尔说。

“我们走着瞧吧。”尼德·兰回答，然后果断地摇摇头。

“那么，”我补充说，“尼德·兰，就谈到这里吧。以后不要再提这事了。到您准备好的那一天，您通知我们，我们跟着您走。我完全信任您

的计划。”

这次讨论就这样结束了，可是后来，却导致了很严重的后果。

我必须说，事实似乎是证实了我的预见，结果加拿大人很是失望。我不知道是尼摩船长在这一带船只频繁往来的海上不信任我们，还是他仅仅想躲开在这地中海行驶的所有国家的无数船只。“鹦鹉螺”号经常是在水底走，或是在距海岸很远的海面行驶。就算船浮出来，也只是让领航人的笼间露出水面。或者它就潜到很深的水底去。因为在希腊群岛和小亚细亚之间，我们到不了深两千米的海底，所以，我只能从维吉尔¹的诗句中认识斯波拉群岛之一——卡帕托斯岛。尼摩船长把手指放在平面地图上的一个点上，念出这诗句来：

在卡帕托斯上面住着海王尼普顿的能预言的海神格洛里厄斯·普勒泰²……

没错，海王尼普顿的老牧人曾住在这座岛上。而现在这座岛被称为斯加班图岛，位于罗德岛和克里特岛之间。透过客厅的玻璃窗，我可以清楚地看见位于岛下的花岗石岩峭壁。

2月14日，我打算用研究希腊群岛鱼类来度过一天的时间。可是，不知什么原因，船上的嵌板闭关得紧紧的。通过“鹦鹉螺”号的航向我可以判断，船在朝着康地岛方向行驶。我曾经搭“林肯”号战舰去过那里，当时，那里正在爆发反抗土耳其专制的起义。但至于起义结果如何，我全然不知。当然，我也无法从尼摩船长那里得到答案，因为他一向与陆地绝缘。

当天晚上，我和尼摩船长单独待在客厅里，我没有问起起义的事情。因为我通过尼摩船长的沉默判断，他心里有事。过了一会儿，尼摩

船长一反常态地通知船员打开客厅的嵌板，他就沿着嵌板在那里走来走去，眼睛一直关注着外面的海水。我猜不到船长在干什么。而我，只能利用这个时间继续研究鱼类。

我在这些鱼类中发现了亚惠虾虎鱼，亚里士多德曾管它叫“海鳅”，这种鱼在尼罗河三角洲一带的咸水中很常见。还有另外一种带磷光的鲷鱼经常陪伴在它的身边，它属于鲷鱼的一种，被埃及人当作神圣的动物，当它们大批量出现在尼罗河水中的时候，预告着将洪水泛滥，那时，人们会举行隆重的仪式来欢迎它们。我还看见了翼手鱼，这种鱼身长3分米，鱼鳞是透明的，骨质苍白带有红色的斑点。我的注意力被另一种鱼吸引了，也引发了我对古代无限向往。那是一种贴在鲨鱼肚子行走的印鱼。在古代人看来，这种鱼可以阻止船行走，正值亚昔盎海战时，“安东尼”号就曾被这种鱼挡住了去路，于是奥古斯汀打了胜仗。鱼类竟然能够决定一个国家的命运。

这时，一个腰间别着皮袋的潜水人出现在海水之间，我确定他不是尸体，因为他正在用胳膊游泳，时而浮到水面，时而潜入水中。

我回过头来对尼摩船长喊道：“船长，您快看，这里有一个遇难的人。我们一定要救他。”

船长并不理会我，而是径直走到玻璃窗前。此时，那个人也贴到了嵌板上，双眼注视着我们。我正感到诧异，发现尼摩船长对那个人点了点头。潜水人做了一个手势回答他，便立即回到海面，消失不见了。

船长对我说：“您不要担心，他是被大家称作比斯岬的马达邦岬的尼古拉。在西克拉群岛上，无人不知晓他的大名。作为一个勇敢的潜水人，他经常从这个岛游到那个岛，他在水下生活的时间比在陆地上还

长。”

“船长，您也认识他？”

“教授先生，我为什么就不能认识他呢？”

回答完我的问题，尼摩船长来到了客厅左边隔板的一个橱柜前。只见橱柜盖上有一块铜板，上面写着“鹦鹉螺”字样，上面题了“动中之动”四个字。

船长似乎没有注意到我，他打开橱柜，只见里面放着很多成条的东西。

原来是金条。他从哪里弄来这么多金条呢？这些金条是用来做什么的？

我默不作声，一直盯着船长看。只见他将金条一条一条地取出来，整齐地摆在柜子中，将柜子摆得满满的。据我估计，柜子里起码存了1000公斤重的金子，应该价值500万法郎。

船长将盖子盖上，并用希腊文在上面写了地址。

写好后，尼摩船长打开一个按钮，这时，出现了4个人，他们费力地将小柜子推出了客厅。接着，是滑车摩擦铁楼梯的声音。

这时，尼摩船长回头对我说：“教授先生，您刚刚说什么来着？”

“我什么都没说，船长。”

“那快去休息吧，先生，晚安。”

说完，尼摩船长走出了客厅。

回到房间的我，毫无睡意，一直在想着刚刚发生的事情。那个柜子和潜水人之间到底有什么关系。紧接着，我明显感受到了颠簸和摇动，“鹦鹉螺”号离开水底，浮出了水面。

过了一会儿，我听到平台上传来了一阵脚步声，我知道，一定是有人将小艇放到大海上去，因为小艇与“鹦鹉螺”号相碰撞时发出了声音。

两个小时后，小艇被重新拉回船上，“鹦鹉螺”号重新回到水底。如果我没猜错的话，金条已经按照地址送出去了。是送到陆地上去了吗？尼摩船长的通信人是谁呢？

第二天，我将我的两个同伴叫过来，并将昨天晚上发生的事告诉了他们。他们和我一样，心中充满了疑问。

加拿大人问：“那几百万两黄金是从哪里来的呢？”

我无法回答他的问题。午饭后，我来到了客厅继续我的工作。直到下午5点，我一直在写笔记。突然，我感到一阵闷热，只得将身上的贝足丝衣服脱下来。我很好奇，我们没有处在高纬度，又是潜在水中，怎么会产生这样的热度呢？我看了一下压力表，表针指向60英尺深，仅仅是水面的热力是无法达到的。

我带着疑问继续工作，可是温度一直上升，已经到了无法忍受的程度。我不由自主地想，难道是船上着火了？

正在我打算离开客厅的时候，尼摩船长走了进来。他看了一下温度表，对我说：“现在是42度。”

“船长先生，我觉得我已经受不了了。”

“呵呵，教授，这热力是我们自由调节的。”

“这么说，您可以随意降低温度？”

“不能，不过我们可以离开这热源。”

“那么，您说这热力是外来的？”

“不错。我们现在简直是在沸水中行驶。”

“是真的吗？”我喊道。

“请看。”

嵌板打开，我看见“鹦鹉螺”号周围的海是白茫茫的。

水流中间升起一阵带有硫黄的水蒸气，水流像锅炉中的水一般沸腾。我把手放在一块舷窗的玻璃上，热得厉害，我赶快缩了回来。

“这是什么地方？”我问。

“教授，”船长回答我说，“现在是在桑多林岛附近，就是在分开尼亚—卡玛依小岛和巴列亚—卡玛依小岛的那条水道中。相信您会想看一看海底火山喷火的奇异景象。”

“我原以为，”我说，“这些新岛屿的形成早就结束了。”

“在海底的火山区没有什么是停止的，”尼摩船长回答，“地球也老是受地下火力的折磨。根据嘉西奥多尔和蒲林尼的说法，公元19年，有

一个名字叫特耶女神的新岛，在新近形成的那些小岛位置上出现。不久这岛沉没了，到公元69年又重新浮出水面，以后又沉下去一次。从那个时期直到现在，它不再在海中升降。但是，1866年2月3日，一个名为佐治岛的新的新岛，在接近尼亚—卡玛依小岛的地方，从带有硫黄的水蒸气中间冒出来了。6日，它同尼亚—卡玛依合为一体。又过了7天，2月13日，阿夫罗沙小岛出现在海面上，在它和尼亚—孟加宜中间隔着一条10米宽的水道。这个现象出现的时候，我正在这一带海中航行，因此我得以观察岛屿形成的整个过程。

“阿夫罗沙小岛呈圆形，直径300英尺，海面以上高30英尺，它的成分为黑色玻璃质的火山石，同时夹杂有长石碎片。后来，在8月10日，又有一个更小的名为列卡岛的小岛，在靠近尼亚—卡玛依小岛的地方出现。从此，这三个小岛连在一起，形成一个大岛。”

“现在我们航行的水道在哪里呢？”我问道。

“请看这里，”尼摩船长指着一张希腊群岛的地图回答道，“我把新出现的小岛都补充标记上去了。”

“这水道有一天会被填平吗？”

“非常有可能，阿勒纳斯先生。自1866年以来，有8个火山石的小岛浮出在巴列亚到卡玛依小岛的圣尼古拉港对面。显然，不久，尼亚和巴列亚两个小岛就要连接起来。”

我回到玻璃舷窗旁边。这时“鹦鹉螺”号已经停住了。高温愈来愈令人难以忍受。这里的海水本来是白色的，由于铁盐的作用，现在变成了红色。尽管客厅封闭得很严密，但还是有一种令人不舒服的硫黄气味渗进来。我又望见了海水中的赤红色火焰，辉煌灿烂，把电灯的光辉都遮

蔽了。

我全身都是汗，喘不过气来，就要被高温烤熟了。

“我们不能再停留在这沸腾的水流中了。”我对船长说。

“是的，再留在这儿就太不谨慎了。”尼摩船长心平气和回答。

命令发出，“鹦鹉螺”号掉转船头，离开了这座大熔炉。如果莽撞地留下，难免要遇到危险。一刻钟后，我们又可以在海面上呼吸新鲜空气了。

我不由得想，如果尼德·兰选择这一带海域来实行逃走计划，我们怕是不能活着走出这火海。

第二天，2月16日，我们离开了这片在罗得岛和亚历山大港之间，深度有3000米的海域。之后“鹦鹉螺”号在雪利哥海面行驶，绕过马达邦海角后，就远远地离开了希腊群岛。

第七章 地中海两日

地中海，是最碧蓝的海，是希伯来人口中的“大海”，希腊人的“海”，罗马人口中的“我们的海”。在地中海周围，长满了橘树、芦

荟、仙人掌、海松树等，还有番石榴花在不停地吐出芬芳。地中海被群山环抱，这里空气清新。但是，在地中海的地下，熔浆不停地翻滚，这里正是海王尼普顿和阎王普鲁托¹争夺世界霸权的地方，是争斗到现在还没有停止的战场。米希勒说，就是在地中海，在它的岸上，在它的水中，是地球上的人类在这个星球上锤炼自己的最强有力的一个场所……

虽然地中海很美，但我只能大概瞭望一下。地中海面积大约有200万平方公里。因为尼摩船长在这次快速航行中，一次也没有出来过，所以我没办法从他那里得到关于地中海的知识。我猜测“鹦鹉螺”号在这次海底旅行中走过的路程大约有600里，走了大概48小时。2月16日早晨，我们从希腊一带的海面出发，到18日太阳从东方升起时，我们已经通过了直布罗陀海峡。

我可以很明显地看出，尼摩船长不喜欢地中海，因为它正好处在船长要逃避的人类所居住的陆地中间。这海水和这海风给他带来的即使不是很多的懊悔，也一定是很多的回忆。在地中海，海洋赋予他的那种自由自在的神情姿态、独来独往的行动，都不见了。他的“鹦鹉螺”号在地中海——非洲和欧洲相接近的海岸中间，也显得非常沉闷。

因此，在通过地中海时，我们的速度是每小时25海里。很显然，尼德·兰很难过，只好放弃他的逃走计划。在“鹦鹉螺”号以每秒12米或13米的速度行进的过程中，他不可能使用那只小艇。因为在这样的条件下离开“鹦鹉螺”号，无疑就像从飞奔的火车上往下跳，这简直是太不要命的行为。并且，我们的船只有在夜间才浮上水面来，置换新鲜空气，在其他行进的过程中，它就只根据罗盘的度数和测程器的指示来行驶。

所以，当我从地中海里往外看的时候，就像飞驰的列车上的旅客所看到的在他眼前疾驰而过的风景一样，也就是说，只能看到远远的天

际，对于像闪电一样闪过的眼前的景致却是看不见的。不过，我和葛瑟尔两人仍然可以看见地中海中的一些鱼，它们依靠鳍的力量可以在“鹦鹉螺”号附近的水流中停留一些时间。我们在船舱的客厅玻璃旁静待时机，相信所记的笔记对于我教学地中海鱼类会有很大的帮助。

在被阵阵电光照得雪亮的水流中间，有一些长1米的八目鳗游来游去，这种鱼差不多在所有气候的不同地方都有。还有属于鲑鱼类的尖嘴鱼，宽5英尺，肚腹是白色的，脊背上有带颜色的斑点，从船里看上去，它们就像宽大的围巾被水流夹带着滚来滚去。其他的鲫鱼类的鱼很快就游了过去，我很想认识它们，看它们是否值得希腊人给它们赋予的“鹰”的称号，或者近代渔人很离奇地给它们的“老鼠”“蟾蜍”和“蝙蝠”的名字。好多鳶形鲛有12英尺长，这是潜水人特别害怕的东西，它们结伴在水里以很快的速度游来游去。梅狐狸，长8英尺，嗅觉极其敏锐，就像淡蓝色的阴影一样在水中出现。鳊鱼是鲷鱼属，有些长达13分米，全身是银白和天蓝色的条纹，这特别能凸显出它们鳍的深黑色；它们的眼睛嵌在金色的眼眶里，这是一种古时专门用来祭祀美神维纳斯的鱼。美丽的鳍鱼，长9至10米，是速度很快的鱼，它们有力的尾巴不断冲撞船舱客厅的玻璃，让我们能看到它们有栗色小斑点的淡蓝色的脊背，它们跟鲨鱼很像，但没有鲨鱼的力气大。这种鱼在各地的海洋中都能碰见，春天的时候，它们喜欢游到河里去。但在地中海的这些不同的鱼中，当“鹦鹉螺”号上浮接近水面的时候，我可以很清楚地观察到的，是属于骨质鱼组第63属的一种鱼。那是脊背为蓝黑色，肚腹上带有银甲，背上的线条发出金黄色微光的鳍鲸鱼。这种鱼是以跟着船只一起走而出名的，在热带的炎热天气里，它们躲藏到船的阴影里乘凉。真的是这样，它们跟着“鹦鹉螺”号，像以前陪着拉·比路斯的船只一样。在很长的时间内，它们不断地与我们的船进行比赛。我透过船舱的玻璃欣赏着这些鱼，可以看出，它们仿佛生来就是为赛跑的，它们的头很小，身

子很光滑，呈纺锤形，有些身长超过3米。它们的胸鳍特别有力，尾巴是交叉形的。它们行动时呈三角形，像可以和它们比赛速度的某种鸟类一样，因此，古人说它们是熟知几何学和战略学的。

凭着记忆，我仅举出了葛瑟尔或我能望见的那些地中海的鱼类。那是拳状电鳗，呈淡白色，游走时像不可捉摸的气体一样。还有海鳐鱼，像长3至4米的蛇一样，有着青、蓝和黄的美丽颜色。有海鳐鱼，长3英尺，它的肝是非常美味的。有带鱼，浮来浮去，就像细长的海藻。有虾虎鱼，诗人称其为琴鱼，水手称其为笛鱼，它们的嘴上三角形和多齿形的两块薄片，形状就像老荷马的乐器。有燕子笛鱼，游得很快，就像燕子一样，因此得名。有金头鲷，头是红色的，脊鳍上满是丝线条。有芦葵鱼，身上有黑色、灰色、栗色、蓝色、黄色、青色的斑点，能发出钟铃般的叮当响声。有华美的鲾鱼，这种鱼是海中的山鸡，全身呈菱形，有淡黄色的鳍，鳍上有栗色的小斑点，它身体的左上部通常有栗色和黄色的花纹。最后是漂亮的海鲱鳃，是海里真正的无双鸟。

至于海中的哺乳类，在走过亚德里亚海口时，我好像看到了两三条大头鲸，它们有真甲鲸属的脊鳍；几条圆球头属的海猪，它们是地中海的特产，头的前面有一条条的明亮的花纹。还有十来条海豹，它们的肚腹是白色的，有黑色的皮毛，身长3米，它们的名字叫“和尚”，它们的样子简直就跟多明尼克派的修士一样。

葛瑟尔说，他自己好像望见了一只6英尺宽的、背上有三条长长的伸出去的突起棱骨的大龟。

至于植虫类动物，我曾在短时间内欣赏到一种美丽的橙黄色、形状为唇形的水螅，它们吸附在船左舷窗户的玻璃上，那是一条条很长很细的丝带，丝带上长出了无穷无尽的枝叶，末梢是最精美的、就算是阿拉

克妮的织女也织不出来的花边。可惜我没能捕捉到这个美丽的动物，幸而“鸚鵡螺”号在16日晚上行驶的速度特别缓慢，要不然，像这么美丽的地中海的植虫动物一定不可能被我看到。下面是当时的情形。

我们正走过西西里岛和突尼斯海岸的中间。在通过墨西拿海峡的狭窄海域时，海底突然上升，在这一带好似形成了一条山脊，水深只有16米左右，而两边海底的深度却有170米。因此，“鸚鵡螺”号要很小心地行驶，生怕会撞上这道海底栅栏。我在地中海地图上指给葛瑟尔看那条很长的暗礁所在的位置。

“先生，打断一下，”葛瑟尔说，“这个就是连接欧洲和非洲的一条地峡了吧。”

“是的，老实人。”我回答道，“它完全堵住了利比亚海峡，史密斯的测量也证明这两个大陆从前在崩角和夫利那角那里是连接起来的。”

“我也觉得是这样。”葛瑟尔说。

“要知道，”我又补充道，“类似的一道栅栏也存在于直布罗陀海峡和叙达海峡之间，在地质学上的纪元时期，二者是把地中海完全封锁起来的。”

葛瑟尔用心研究着，“鸚鵡螺”号缓慢地接近了地面，走过了浅水海底。

这浅水海底，因为有很多石头，而且地底是火成岩，所以长满了花草，还有海绵、海参、透明的海胆；有发出轻微磷光的淡红色的蔓；有海带，俗名叫海黄瓜，浸在七色阳光的光线中；有游走的宽1米的车盘，它们那大红的颜色，把海水都染红了；有最美的咸丛海水仙；有茎

很长的石纹花；有许多不同种类的可以食用的海栗子；有青色的海葵，它的茎是淡灰色的，花盘是栗子色的，掩映在由触须形成的类似橄榄色的毛发里面，很难看清楚。

葛瑟尔特别注意观察了软体动物和节肢动物，虽然关于这一部分的术语很枯燥，但我不愿让这个老实人白费功夫，所以也都记录了下来，不想把他的观察遗漏了。

在软体动物门中，他看到了柿形海扇，一个挨一个堆起来的酷似马蹄形的双壳贝，三角形的多那螺，壳是透明的、鳍是黄色的三齿稍子贝，橙黄色的腹脚贝，带点淡青色小斑点的卵形贝，名字叫海兔的腹足贝，古锹形贝，多肉的无触角贝，地中海特产的伞贝，在壳中会产生一种很宝贵的螺铀的海耳贝，火焰形的海扇无头贝（据说，相较于牡蛎，法国南部的人更爱吃这种贝），让马赛人很珍视的毛蚶，又白又肥的双层草贝以及介蛤（这种介蛤在北美沿海地区有很大的产量，在纽约的零售数量也很可观）。除此之外，还有颜色不断变化的、藏在自己壳洞中的盖形梳贝；我很爱吃的有胡椒味的豹石子贝；头上有个凸起的壳、侧面有突出的带线条痕迹的薄鳃类蛤；带有很多大红瘤的辛提贝；尖端弯曲、有些像小艇形状的肉食贝；头上像戴着一顶帽子的铁贝；螺丝形壳的人形柱贝；灰色的海神贝；有白点、像蒙着丝巾、类似小蚰蜒的琴贝；爬在其他动物背上的洼涡贝；壳是椭圆形的琉璃草耳朵贝；茶褐色的丝挂贝以及数不清的海螺，海蛤，菊贝，岩贝，薄片贝，宝石贝，花瓶贝等。

葛瑟尔在他的笔记上把节肢动物很准确地分为六纲，其中有三纲是属于海产动物。这三纲是甲壳纲、蔓足纲和坏虫纲。

甲壳纲又分为九目，其中第一目包括十足目节肢动物，这些动物的

头部和胸部通常是连接起来的，有好几对体节组成，胸部又有4至6对走动的脚。按照我们的老师密尔·爱德华的方法，葛瑟尔把十足目节肢动物分为三类：短尾类、长尾类和无尾类。这种分类方法，听起来名字有点通俗，但很明确。在短尾类中，葛瑟尔以“阿马地蟹”举例，这种蟹的前面有两支分开的长刺，还有蝎子蟹——不知道为什么希腊人会用这种蟹来象征智慧。除此之外，还有可能因迷路到浅海底中来的棍形海蜘蛛、刺形海蜘蛛，它们通常生活在水很深的地方。十足蟹、矢形蟹、菱形蟹、粒形蟹——这些蟹很容易消化，葛瑟尔指出，还有无齿的伞花蟹、螃蟹、西蟹、毛绒蟹等。他把长尾类分为五科——装甲科、掘脚科、无定位科、虾科、足目科。葛瑟尔举例说，普通的龙虾（人们很喜欢吃母龙虾肉）、熊虾或海蝉、河虾以及各种食用的虾。但他没有说到其他科的区别，其中有对虾这一属，因为地虾是地中海中唯一的对虾属。

当“鹦鹉螺”号通过利比亚海峡的浅水海底到了深海中后，速度又恢复了正常，之后便看不到软体动物、节肢动物和植虫动物了，只能看到一些大鱼像黑影一样游过。

在2月16日至17日夜间，我们进入了最深的地方，也就是达3000米的地中海的第二道水域。受机轮的推动，“鹦鹉螺”号随侧面的纵斜机板下滑，一直潜到了最深处的水层面。

在这里，虽然没有什么新奇的东西，但不断涌来的海水也让我看到了各种或动人或可怕的场面。就是在这个时候，我们经过了地中海遇难沉船事件发生率最高的地方，不知道有多少船只在从阿尔及利亚沿海至普罗文沙海岸遇难。

因此，在快速从海底深处经过的这次行驶中，我看到了很多躺在海

底的沉没的船。有的被珊瑚胶黏住了，有的仅仅蒙上了一层铁锈，还有散落在各处的锚、大炮、子弹、各种铁架、机轮叶、机器零件、破碎的圆筒、损坏的锅炉，以及那些浮在水中或直立或翻倒的船壳。

这些船只是因为相撞或者碰上了花岗石暗礁才沉没的。我看到有些船桅杆直立，船上的东西已经被水浸坏了，它们应该是笔直沉下去的。似乎它们就停泊在广阔的港口，正准备准时出发。当“鹦鹉螺”号从这些沉没的船只中间穿过，它的灯光照耀到它们的时候，看起来就好像这些船只在用它们招展的旗帜向“鹦鹉螺”号致敬，把它们的编号一一向它报告！不，不是这样的，在这灾难的所在地，只有寂静和死亡。

当“鹦鹉螺”号越来越接近直布罗陀海峡的时候，我看到地中海海底的这些遇难沉没的船只的残骸堆积得愈加多了。欧洲和非洲海岸在这里变得狭窄起来，在这狭窄的间隙，相互之间发生碰撞是常有的事。经过的时候，我看到有许多用铁制成的汽船的各种古怪的残骸，有的倒下了，有的竖立着，就好像某个庞然大物。其中一只船的侧面破裂了，烟囱也弯了，它的机轮只剩下了骨架，它的舵也已经离开了尾柱，但铁链仍然牢牢地把舵系住，后面的铁盘受海水的侵蚀，已经显出非常难看的形状。看到这里，我不禁想到，有多少人在这次海难中丧生了！有多少牺牲者被卷进了海底！有没有保全了性命的水手，可以给人们讲讲这次可怕的灾祸？或者海浪是否依然在守护着这次海难的秘密呢？

然而，“鹦鹉螺”号无情且快速地开足马力从这些船只的残骸中间穿了过去。2月18日，凌晨三点左右，“鹦鹉螺”号到达了直布罗陀海峡的入口。

直布罗陀海峡中有两道水流：一道是上层水流，从很久以前，人们就知道是它把大西洋的水引入地中海的；还有一道与之方向相反的下层

水流，现在通过推理已经证明了它的存在。按道理说，由于大西洋潮水和流入其中的其他大河的河水，地中海海水的总量应该是不停增加的，海水的水平面应该每年上涨才是，因为水汽的蒸发远远赶不上流入其中的水量。但事实上并非如此，由此，人们就自然而然地认可有一道下层水流的存在，通过它把地中海过剩的水从直布罗陀海峡输送到了大西洋。

事实确实是这样。“鹦鹉螺”号现在就要利用这道与上层水流相反流向的下层水流。它迅速地进入了这条狭窄的水道。在那一瞬间，我望见了蒲林尼和阿维纽斯所说的那座沉没在海底的壮丽的赫克留斯庙的废墟，以及支撑那座庙的小岛。几分钟后，我们就浮在大西洋的水面上了。

[1](#)古罗马神话里的冥王，阴间的主宰，地府之王，人们死后灵魂世界的主宰者。

第八章 维 哥 湾

大西洋有着非常辽阔的水面，长9000海里，宽约2700海里，面积有2500万平方海里，是非常重要的海域。在古代，除了迦太基人，可以说几乎没有人知道这片海域。迦太基人就是古时候的荷兰人，因为贸易，他们曾沿着欧洲和非洲的西部海岸往返航行。蔚为壮观的水面上，有插着各国旗帜的船只往来其间，这片水面的最西头是两个尖角，也就是航海家非常害怕的合恩角和暴风角。

“鹦鹉螺”号靠着动力，推动它前面的冲角，在大西洋上劈波斩浪，不断向前驶去。在三个半月的时间里，它已经行进了近一万里，超过绕

地球一周的距离了。现在我们要上哪里去呢？将来我又会遇到什么呢？“鹦鹉螺”号通过直布罗陀海峡，进入了大西洋海面后又浮上了水面，我们每天又可以在甲板上散步了。

在尼德·兰和葛瑟尔的陪同下，我立即走上了甲板。远远望去，在距离我们12海里的地方，隐约出现了西班牙半岛最西南的尖角——圣文孙特角。在我们走上甲板的时候，起了非常大的南风，海面波涛汹涌，海水滚滚而来，“鹦鹉螺”号激烈地颠簸起来。因为时刻有大浪打来，我们在甲板上待不下去了，所以我们几个人在呼吸了几口新鲜空气后，又回到了船舱中。我回到我自己的房间，葛瑟尔也回到了他的房间。但是加拿大人好像心事重重的样子，他跟着我走了进来。在我们通过地中海的时候，因为“鹦鹉螺”号的速度很快，使得他很难实行他的计划，他显然非常失望。

在我关上房门后，他坐了下来，也不说话，只是望着我。

“亲爱的朋友，尼德·兰，”我对他说道，“我很了解你的心情，不要责备自己。在“鹦鹉螺”号以那么快的速度行驶的过程中，想要离开它，简直就是发疯！”

尼德·兰不说话。他那紧闭的嘴唇和拧在一起的眉毛，说明他的心中有一个坚定的信念。

“看着吧，”我又说，“事情并没有想象得那么糟糕，你还是有希望的。我们现在正沿着葡萄牙海岸往上游行去，再过一段时间，我们就可以到达法国、英国了，到了那里，我们就可以轻而易举地找到一个能顺利逃走的机会了。啊！但是，如果‘鹦鹉螺’号驶出直布罗陀海峡后直接往南驶去，如果它把我们带到了没有陆地的地方，那我肯定跟你一样，

会感到无比的郁闷。但是，我们现在知道了尼摩船长并不躲避靠近陆地的海面，我估计再过几天，你就可以顺利实行你的计划了。”

尼德·兰紧紧盯着我的眼睛，最后，他张开嘴巴说道：“今天晚上，我就会实行我的计划。”

听了他的话，我一下子就站了起来。我承认，我真的一点也没料到他会这样跟我说。看样子我得跟加拿大人说点什么，但我又找不出应该说的话来。

“我们不是约定要等待一个好的机会吗？”尼德·兰接着说道，“这个好机会现在就掌握在我的手中。今天晚上，我们离西班牙海岸只有几海里，晚上很黑，海面又吹着风。阿勒纳斯先生，您既然已经有言在先，那么我完全相信您。”

因为我一直没说话，加拿大人站了起来，走向我，然后对我说：“就在今天晚上9点。我已经告诉葛瑟尔了。那个时候，尼摩船长在他房中可能已经睡下了。机械师以及船上的其他海员都不可能注意到我们。我和葛瑟尔会先到船舱的中央楼梯去，而阿勒纳斯先生，您就留在离我们两步远的图书室中等待我的信号吧。船桨、桅杆和帆都已经在小艇中了，而且我还准备了一些食物。除此之外，我还弄到了一把英式的螺丝扳子，我们可以用它把小艇钉在“鹦鹉螺”号船身上的螺丝钉取下来。你看，一切都已经准备好了，我们就等着今天夜里见了。”

“海上的风浪可是很大的。”我说。

“我知道风浪很大，”加拿大人回答道，“但这次必须冒险了。为了自由，是值得我们付出代价的。而且，那个小艇很结实，即使有风浪，我们只要走几海里，也不会有什么问题。想想，也许明天我们就可以跑

到几百里之外的海面上了呢？但愿我们一切顺利，如果一切顺利的话，明天10点或11点的时候，我们就可以在陆地的某处了，当然也可能已经送了命，所以，只有依靠上帝的恩典了。我们今天夜里见！”

说完这些话后，加拿大人便走出了我的房间，留下我一个人不知所措地待在房间里。我也想过可能机会来了，我希望可以有时来仔细考虑、琢磨、讨论，但是我那性情固执的同伴却不让我这样做。到底我还能对他说些什么呢？尼德·兰是对的。现在的确是一个好机会。我能反悔吗？我能为了我一人的私利，阻碍我同伴们的将来吗？我负得起这个责任吗？明天，尼摩船长不就会把我们完全带到远离所有大陆的大海中去了吗？

就在这个时候，响起了嘹亮的哨声，我知道这意味着船上的储水池已经储满了水，“鹦鹉螺”号又要潜入到大西洋的海底去了。

我要尽量避开船长，以免他发现我心中的躁动情绪，因此，我决定留在房间中不出去了。我就这样焦虑地度过了很愁闷的一天。一方面，我很想走，很想寻得我的自由；另一方面，我又觉得很可惜，离开这神奇的“鹦鹉螺”号，我的海底研究也就完不成了。如果这样离开，就像我经常说的，如果这样离开“我的大西洋”，那么我就观察不到它最深的水层了，也就无法解开印度洋和太平洋曾向我透露的秘密了。这就像我刚读完第一章小说，它从我手中掉了下去，我在做梦到最美好的时候，梦就被打断了。我就在这样的苦闷中度过了一天的时间，有时，我好像看到自己和同伴一起安全逃到了陆地上；有时，我又自私地希望有意料之外的事情发生，使得我可以有机会阻止尼德·兰进行他的计划。

我曾到过客厅中两次。我要去看看罗盘，我要确定一下“鹦鹉螺”号行驶的方向是接近海岸还是离开了海岸。“鹦鹉螺”号一直在沿着葡萄牙

沿岸的海域行驶，它在大西洋中沿着海岸线向北驶去。这是个好机会，因此，我必须下定决心，准备逃走。我的行李并不多，除了我的笔记，就再没有什么其他的了。

我总在想尼摩船长如果知道我们要逃走他会怎么想，他会不会很难过，或者会不会给他造成什么伤害，甚至如果有人发现我们逃走或我们逃走没有成功的时候，他会怎么办。显然，我对尼摩船长没有任何抱怨，恰恰相反，他对人的态度比我遇到的任何人都真诚。离开他，不能说我就是忘恩负义。我没有许过要永远与他在一起的誓言。他也认为，让我们彼此在一起的，是客观环境的力量，而不是我们的约定。但他这种公然的说法，这种想把我们永远留在船上做囚人的想法，正说明我们企图逃走的所有想法都是合理的。

自从在桑多林岛附近跟船长见过一面后，我就再没有见过他。在我们走之前，还有没有机会让我跟他再见一面呢？我既想见到他，又怕见到他。如果屏气静听，我是不是就可以听到他在隔壁房间走动的声音呢。可是，听了很长时间，也没有任何声音传到我的耳中来。那想必船长并不在房间。我于是又想，这个脾气古怪的人是不是还在船上呢。自从那个晚上，小艇离开了“鹦鹉螺”号去执行一个神秘的任务，我对于这个人的想法，就有了稍许变化。在我看来，不管怎么说，他跟陆地一定还保留着某种关系。难道他从未离开过“鹦鹉螺”号吗？有时候，整整几个星期的时间，我都见不到他。在这段时间里，他都在做什么呢？我一直认为他是因为愤世嫉俗，不愿与人接触，不愿见人，但有没有可能他是去了其他地方，去完成某个我不知道的秘密任务呢？所有这些想法，以及很多其他的想法，同时涌入了我的心里。现在这种我们所处的奇怪的情形，很容易让人胡思乱想。我感到非常不安，这让我难以忍受。

由于心中烦躁，我觉得这一天实在过于漫长，时间实在是走得太慢

了，等待好像是无止境的。像往常一样，我还是在我的房间里吃的晚饭。因为心里有事，根本吃不下多少。7点钟从餐桌起身的时候，我在心中计算着，距我跟尼德·兰约定的相见时间还有120分钟。想到这些，我更激动了。我的脉搏猛烈地跳动着，根本平静不下来。我在房间里走来走去，希望通过走动可以让我烦躁的心平静下来。如果我们在这次逃走行动中不幸送命，我并不会觉得有什么难过，但是，想到如果我们的逃走计划在离开“鹦鹉螺”号之前就被发现了，想到我们被带到愤怒的尼摩船长面前，或者，更为糟糕的，他因为我的背叛而内心痛苦，我的心就会不自觉地怦怦跳起来。

我要再去最后看一眼船舱的客厅。走过长长的走廊，我到了那间在那里不知道度过了多少快乐和获益良多时间的陈列室。我用眼睛紧紧盯着那些陈列品，就像一个要永远流亡的人，在走之前的最后一个晚上会做的事情一样。这些大自然的杰作，这些艺术的精品，在这么多天里，我把我全部的精力都放在了它们身上，现在，我要永远离开它们了。然后，我又透过客厅的玻璃，把眼光投向大西洋的海底，可是嵌板没有开，就是这块铁板把我与我还不认识的这个大洋隔开了。

就这样，我在客厅里走来走去。我走近客厅的门，那门在客厅的角落，是与尼摩船长的房间相连的。我很吃惊，那扇门是虚掩着的。很自然地，我退了回来。如果尼摩船长就在房间里，他可能就会看到我。但我没有听到任何声音，我走进房间，发现房中没有人。我推开房门，走了进去。船长房中的布置还是跟以前一样，就像隐士僧侣的房间那样严肃朴实。这个时候，房中墙上挂着的几幅铜版画引起了我的注意，我第一次踏进这个房间时并没有留意到这些画。那是一些肖像画，画的都是历史上的伟大的人物，他们把自己的一生都献给了人类的伟大事业。他们是哥修斯哥，那个听到“波兰完了”的喊声就倒下了的英雄；波查里

斯，近代希腊的列盎尼达斯；俄康乃尔，保卫爱尔兰独立的战士；华盛顿，美利坚合众国的创始人；马宁，意大利爱国志士；林肯，被拥护奴隶制的人暗杀的美国总统；最后，是那位为了黑人的解放而献出了自己生命的殉道士约翰·布朗，他吊在绞刑架上的样子，就像维克多·雨果用铅笔画出来的那可怕的样子。这些英雄人物和尼摩船长之间有什么关系呢？从这些英雄人物的肖像画中，我有可能发现船长的秘密吗？他是被压迫人民的保护者、解放奴隶的志士吗？他是当代引起政治或社会动荡的什么人吗？他是这次可悲的但也永远是光荣的、美国可怕内战中的一位英雄吗……

忽然，房间的钟表响了8下。当钟表的第一声响声过后，我忽然就像从梦中惊醒了一样，我浑身开始颤抖，好像有一只无形的眼睛看透了我内心最深处的秘密。我急忙走出了船长的房间。走到客厅里，我开始观察罗盘。通过罗盘，我发现，我们一直在往北行驶。测程器显示“鹦鹉螺”号并没有加速，正以平常的速度行驶；压力表显示，“鹦鹉螺”号正在水深60米左右的地方行驶。所以周围的一切环境对于加拿大人实行他的计划都非常有利。

回到我自己的房间后，为了暖和一些，我又多加了一些衣服，穿上了靴子，戴上了用水獭皮做的帽子，还披上了海豹皮做里子的外衣。一切准备就绪，我开始等待。四周一片寂静，只有“鹦鹉螺”号推进器的震动声。我竖起耳朵来，用心去听。我感到十分不安，很怕会有一些喊叫声，告诉我尼德·兰的逃跑计划已经被发现了。

还有几分钟就到9点钟了。我把耳朵贴在与船长房间相连的一侧墙上，但没有听到任何声音。我走出自己的房间，来到客厅中，客厅里很黑，一个人也没有。

我打开跟图书室相连的那扇门，图书室里同样光线黯淡，冷冷清清的。我走到门的附近，站在那里，这扇门正对着中央楼梯。我在等待尼德·兰的信号。

这个时候，“鹦鹉螺”号推进机的震动声变小了，过了一会儿，一点声音也没有了。“鹦鹉螺”号的行进计划怎么变了呢？我不知道船停了下来对于尼德·兰执行他的计划是有利还是不利。周围一片寂静，我只能听到自己的心跳声。忽然，我觉察到了轻微的冲撞。我马上反应过来，“鹦鹉螺”号是停驻在大西洋海底了。我更加觉得不安起来。加拿大人还没有给我发出信号。我很想出去找他，让他改变计划。我觉察到，“鹦鹉螺”号的航行计划改变了……正在这个时候，客厅的门被打开了，尼摩船长走了进来。他看到我，没有说一句寒暄或客套的话，只是用很亲热的语气对我说：

“教授，原来您在这里，我正在找您呢。您了解有关西班牙的历史吗？”

就算是一个很熟悉自己本国历史的人，处在我当下的情况，也会变得心神恍惚，头脑发胀，也会一句话也说不出。

“教授，”尼摩船长又接着说，“您听到我的话了吗？您了解有关西班牙的历史吗？”

“了解得很少。”我回答道。

“许多学者都不知道。”船长说，“那么，教授，您请坐，”他说，“我要跟您说说发生在这个国家历史上的一个新奇事件。”

船长躺在一张安乐椅上，我机械地坐在他旁边，隐藏在他淡淡的阴

影中。

“教授，”尼摩船长对我说，“请您听我说，您会对这段历史感兴趣的，因为它可以帮您解决一个您一直无法解答的问题。”

“船长，我在听您说呢。”我说道。我不知道船长要说什么，我想这会不会跟我们的逃走计划有关。

“教授，”尼摩船长接着说，“请您注意，我们现在要上溯到1702年。您知道，在那个时期，你们法国的国王路易十四以为他做一个手势，比利牛斯山就得缩到地下去。他非要西班牙人接受他的孙子——安茹公爵做他们的国王。这就是统治西班牙的腓力五世国王。可是他的统治很不力，与其他国家出现了问题，发生了争执。一年后，荷兰、奥地利和英国王室在海牙制定了同盟协约，要把腓力五世赶下台，支持奥地利的一位亲王上台，并且给了他查理三世的封号。

“西班牙当然要抵抗这个同盟，可是它没有强大的军队力量，不过它有钱，但是那些金银都要从美洲运送过来。1702年，由法国夏都·雷诺海军上将指挥的23艘法国战舰护送的一队载有大量金银的运输船驶向了西班牙。与此同时，敌人联合的海军也在大西洋上不断游弋。

“这队运输船本来是要驶到加的斯港口的，但法国海军司令接到了英国舰队在这一带海域巡逻的情报，就决定把这队运输船开到维哥湾去。

“提炼这些金银的费用比所得的好处大得多。不过在维哥湾就不一样了，我只需要去捡人们丢掉的东西就行了。当然，不只是在维哥湾，在其他各处的失事地点也一样，对于这些，我统统都在海底地图上做了标记。您现在明白我是有无穷无尽财富的富翁了吧？”

“我明白，船长。但请让我说一句，您来打捞维哥湾金银的这件事，不过是比跟您竞争的一个会社先行了一步罢了。”

“什么会社？”

“是一个获得西班牙政府特许来打捞这些沉没运输船只的会社。因为巨大的利润可图，会社的股东们都受到了诱惑，兴致高昂，人们估计这些沉没船只上的财富足有五亿之多。”

“五亿！”尼摩船长回答，“以前有，现在就没有了。”

“正是这样，”我说，“所以，把这个消息告诉这些股东可能是一件好事。通常，赌博的人最懊悔的，是他们疯狂的希望的破灭，而不是金钱上的损失。不过，对于这些股东，我并不觉得惋惜，我想到的是千千万万的受苦人，如果把这些财富分配给他们，对于他们来说会有多大的帮助呀，可现在这些都没有用处了！”

我本来不想表达这个惋惜的意思，我感觉这会伤害到尼摩船长。

“没有用处！”船长激动地说道，“那么，先生，您觉得这些财富由我收集起来，就没有用处了吗？在您来看，我这么辛苦地打捞这些东西就是为了我自己吗？谁告诉您我不是准备好好地使用它们的呢？您以为我不知道世上有无数的受苦人、被压迫的种族、要救济的穷人、要报仇的牺牲者吗？您不明白吗……”

说到这里，尼摩船长停了下来，他是不是在后悔说了这么多话呢？看来我猜对了。不论是出于什么动机，不管他是不是到海底来寻求独立自主的，他首先还是一个人！我终于明白，当“鹦鹉螺”号驶过发生起义的克里特岛附近的海域时，尼摩船长送出去的数百万金子是给谁的了！

第九章 沉没的大陆

2月19日一早，加拿大人走进了我的房间。我正在等他，他看起来神情非常沮丧。

“怎么样，先生？”他对我说。

“尼德·兰，昨天的机会对我们来说非常不利。”

“是的！那个古怪的船长在我们正要逃出他的船时，却把船停了下来。”

“是的，尼德·兰，他跟他的银行经理之间有秘密。”

“他的银行经理？”

“或者不如说是他跟他的银行之间有秘密。我所说的银行就是大海，也就是他存放财富的地方，那个比国家的金库还要安全可靠的大海。”

我是把昨晚发生的意外事件告诉了加拿大人，希望这样可以使他放弃逃跑的计划，不要抛弃船长。可是，我讲述的结果却是尼德·兰很强烈地表达了他的悔恨，他对于自己没能亲自到维哥湾的战场上去走走表示非常惋惜。他说：

“好，事情还没有结束！这一次计划又落空了！下一次我们一定可

以取得成功，如果可能，就是在今晚……”

“‘鹦鹉螺’号是向哪个方向行驶的？”我问道。

“我不知道。”尼德·兰回答道。

“那么，中午的时候，我们就来观测一下船所在的方位吧。”

加拿大人去葛瑟尔那里了。我穿好衣服，走进了客厅。罗盘的指示不是很明确，它显示“鹦鹉螺”号的航向是西南偏南的方向，也就是说我们是在向着背离欧洲的方向行驶。

我等着要把船所在的方位记在地图上，等待的过程中，我感到非常焦虑。11点左右，储水池里的水没有了，“鹦鹉螺”号浮出了水面。我跑到甲板上，当我到达那里时，尼德·兰已经在那里了。

我们完全看不到陆地了，放眼望去，都是一片片汪洋大海。在遥远的天际，有几只帆船，那一定是顺着风向到了桑罗克角，然后再绕过好望角的船。天色暗了下来，恐怕是要起风了。

尼德·兰非常生气，极力向多雾的天际远眺，他很希望在那浓雾后面，有他所渴望的陆地。

正午，太阳出来了一会儿。大副在天气暂时晴朗的时候测量了太阳的高度。一会儿，海面更加汹涌了，我们只好回到船中，嵌板很快又关闭了。一个小时后，我看了一下地图，发现地图上标记的“鹦鹉螺”号的方位，是在西经16度17分、南纬33度22分，离此最近的海岸还有150里——现在是没办法逃走了。

“电光灯对我们来说起不到作用。”

我觉得他没有听懂我的话，但又不能再重复了，因为船长已经把他的头套在金属球中了。我也用金属球套好了我的头，他还给了我一根铁手杖。几分钟后，像往常一样，在做了我们之前做过的动作后，我们就踩在300米深处的大西洋的海底了。

时间已经接近半夜了。海水里一片漆黑，尼摩船长指给我远处的一团淡红色的微光，那点点微光在距“鹦鹉螺”号两海里左右的地方亮着。我不知道那亮光是什么，是什么在发亮，以及它为什么和怎样在海水中发光的。总之，因为那点点微光，虽然光线很模糊，但也可以使我们看清自己的周围。不久后，我就习惯了海底的这种黑暗。在这里，电光灯根本起不了什么作用。

尼摩船长和我，我们彼此挨得很近，我们一起向着那点点微光走去。平坦的海底开始渐渐变得陡峭。因为有手杖的帮助，所以我们依然可以大踏步地前进。不过，总体来看，我们还是走得很慢，因为我的脚时不时会陷入一种有海藻和石子的泥泞里。

行进的过程中，我忽然听到有声音从我的头顶上传来。这种声音越来越大，成为一种连续不断的声响。不过，一会儿后，我就明白这声音的来源了。原来是下起了大雨，我听到的声音是雨滴落在海面上发出的声响。我不自觉地想，我肯定要被淋湿了！我要在水中被水淋湿了！脑中产生这个古怪的想法时，我不禁笑了起来。老实说，穿了那很厚很厚的潜水衣，我真的一点也感觉不到水，我只觉得自己是在比地上空气更为稠密一些的海水中罢了。

走了半小时后，地面上开始出现很多的石头。水母、很小的甲壳类、磷光植虫类，它们发出了轻微的光，照亮了地面。我看到了由无数植虫类和海藻堆积起来的一堆一堆的石头。当我踩在这些黏黏的海藻地

毯上时，我的脚时不时地就会打滑，如果没有铁手杖的帮助，恐怕我会不止一次地摔倒在地了。回过头去看，我看到“鹦鹉螺”号那淡白的灯光渐渐变得模糊了。

上面说的我看到的那些石头堆是按照某种规律排列起来的，我不知道那是什么规律，也不知道为什么它们会有这样一种规律性。我看到一些很长很长的巨大的深沟，它们不断地延伸，没入了远方。还有很多我不敢相信的其他奇特的地方。我那沉重的铅铁靴底发出了干脆的声响，我感觉到我好似踏上了用骸骨堆积成的床垫，那么我现在走过的这个广袤的海底平原是什么呢？我很想问问船长，但他的那套与他的船员们到海底旅行时用的手语，就是他们在海底用来交谈的那套手语，我一点也不懂。

指引我们前行的淡红色的光越来越强了，我们能看到那些红光把天际也照得泛红了。发出光的位置就在海底，对于这点，我感到非常奇怪。这是一种电力发散现象吗？我是遇到了陆地上的学者还不知道的一种自然现象吗？甚至我脑中忽然有了一个奇怪的想法，难道这火团是因为人才出现的吗？在这深水的海底，我会不会碰到尼摩船长的同伴、朋友？他们也像船长一样过着这种古怪的生活，船长是来拜访他们的吗？我是要遇到那些被流放的同胞了吗？对于陆地上的穷苦生活，他们觉得十分厌倦，所以就来到了这海洋的最深处找寻那独立自主的生活吗？这些疯狂、奇特的想法不时萦绕在我的脑中，加上我不断承受着眼前一系列神奇景象所带给我的刺激，在这种情况下，如果我真的在这大海的深处碰见了尼摩船长梦想中的一座海底城市，又有什么值得奇怪的呢！

我们的道路被照得愈来愈亮了，光芒来自一座高约800英尺的山顶。我现在看到的，不过是由水层形成的晶体所造成的反光。那个光源，不知原因的光源，还在山的那一面。

在这大西洋海底深处罗列起来的石头迷阵中间，尼摩船长一点也不迟疑地大步前进着。他很熟悉这晦暗的道路。他一定是时常来，因此他不可能会迷路。跟着他走，我很有信心。我觉得他就像海中的一位神灵，当他走在我前面的时候，他那魁梧的身材，显现在水平天际那晶莹的背景上。

时间走到了清晨6点。我们来到了那山的石栏前面。但要走近那石栏，我们必须通过一条很难走的小径，从广阔的乱石丛林中冒险穿过去。

那真是一片死气沉沉的丛林。那些树没有树叶，也没有树浆，它们受海水的作用已经石化了，到处都有巨大的树木耸立其间。这里就像一个煤矿坑一样，那些树木深深的根把它支起在倒塌的地面上，枝叶就像用黑纸做的一样，把它们的剪影清楚地投影在海水形成的天花板上。你可以想象一座哈尔兹的森林，不过是沉在水底的森林，是挂在山坡上的森林，现在我看到的情形就跟那有些相像。小路上满是海藻和黑角菜，一群甲壳类动物在小路的中间缓缓地爬动。我不断向前走去，慢慢地攀上一块块大石头，跨过倒下来的树干，碰断了在两树之间摇摆的海番藤，惊吓了在树枝间迅速游过的鱼。我觉得兴致勃勃，一点也感觉不到疲倦。我紧紧跟随着我那不知疲倦的带路人走着。

多么美丽的景象！怎样才能把它们描绘出来呢？怎样说明海底这些树木和岩石的形象呢？怎样描绘海底深处的晦暗与杂乱呢？怎样描绘它们那被海水反射后增强的红色光泽呢？我们越过一片一片岩石，当我们走过后，它们随即一片片地倒了下去，发出了类似雪山崩塌的隆隆的响声。左右两旁都有很广阔的平地，就好像是人类亲自整理过的，我不禁在想，海底的居民会不会突然出现在我的面前呢。

尼摩船长一直在往前走，我不愿落在他的后面，于是也大着胆子跟着他走。我的手杖帮了我很大的忙。在这些好似深渊旁边凿出来的狭窄小路上，一失足，就会出现危险。我脚步很稳地走着，并没有感到头昏眼花。有时我会跳过海底的一个裂口，裂口深不可测，如果是在陆地上，这样深不可测的裂口可能会使我后退。有时我会冒险从深窟上倒下的摇动的大树干上走过。我尽量不去看自己的脚下，把注意力集中在欣赏这个地方粗旷的景色上。那里，有一些巨大的岩石，完全不理睬平衡的定律，它们的下部切削不平，倾斜地支了起来。有些树便从这些岩石的缝隙中，像受了很大的压力一样迸了出来，它们彼此相互支撑着。还有一种天然形成的楼阁——类似尖峰的大扇的墙垣，像突出的碉堡的墙一样，呈很大角度地倾斜着，如果是在陆地上，由于地心引力的存在，估计它们不可能成为现在这个样子。

就是我自己，也感觉不到由于海水的强大密度所造成的那种压力。虽然我那沉重的衣服、铜质头盔，以及铅铁靴底让我觉得非常累赘，但当我走上那崎岖不平的斜坡时，我简直像羚羊和山羊一样快，可以说是身轻如燕地越过了。

离开“鹦鹉螺”号两个小时后，我们穿过了一条长长的丛林带，在我们头顶100英尺之上，耸立着那座山峰，山峰的投影映照到对面的山坡上，光辉又反射了回来，山上还有一些石化了的小树。

我想问问船长。但既然没法开口问他，我就挡住了他，拉住他的胳膊，让他停了下来。但他摇摇头，用手指着那山的最后一个山峰，好像在对我说：

“走！再走！继续走！”

我跟着他，再一次鼓起勇气向前走去。几分钟后，我就攀上了那座尖峰，那座山峰高出所有那些大堆的岩石10米左右。

我向我们刚走过的一边看去，这座山峰高出其他平地大概700至800英尺左右，但从整体来看，它高出大西洋海底的高度为上面所说的两倍，即1500英尺左右。我极力往远处看，一眼就看到了那亮光照射下的广大的空间。是的，这是一座火山，在距离山峰50英尺以下，在像雨点一样密密麻麻的石头和渣滓中间，一个非常大的喷火口正吐出硫黄火石等急流，四散的急流就像瀑布一样，团团没入了海水中。处在这样位置上的火山，就像一个巨大的火烛，照着海底下广阔的平原，一直延伸到远方水平线的尽头。

就像上面说的，这个海底的喷火口喷出了硫黄火石等，但并没有烈焰。因为必须有空气中的氧气才会有火焰。在水底下，火是无法燃烧起来的。但火石流本身就会产生白热化，发出白色的火光，就像在跟海水作斗争一样，二者相接触的时候便会化成水汽。速度很快的海流又把所有这些混合气体都卷了进去，火石流一直滚到了山脚底下，像维苏威火山喷出的岩浆流进了多列·德尔·格里哥海港中一样。

站在山顶往下看，我们刚才走过的那边，那已经荒废了、沉没了、倒下了的一切，呈现出了一座城市的样子，但却是已经破坏了的的城市——屋顶坍塌了，庙宇倒下了，拱门破损得零落不堪了，石柱倒在了地上。虽然如此，但我们依然可以从这些废墟中看出原来的哥特式的建筑结构。

再往远处看去，那里是一个宏大的水利工程的遗址。近处是一座圆丘形状的建筑，类似巴尔巴尔庙。另一边还能看出堤坝的形状，好像一个古老的在海岸上庇护过那些商船和战舰的海港。更远一些，有一道一

道倒塌下来的墙垣，有宽阔无人的马路，就像一座沉没在水底的庞贝古城。而此刻，尼摩船长已经把那已经消失的古城呈现在了我的眼前。

我现在是在哪里？我是在哪里？我管不了那么多了，我一定要知道我现在在哪里，我要说话，我要把套在我头上的那个铜球摘下来。

这个时候，尼摩船长走到了我面前，向我做了一个手势，让我停下来。然后，他拿起一小块尖尖的石头，向一块黑色的玄武岩大石头走去，在上面写下了这样四个字——大西洋洲。

我心中的疑问一扫而光，变得豁然开朗起来。大西洋城，这里就是忒沃浦比说的古代的亚特兰蒂斯，柏拉图说的大西洋洲。欧利根、波菲利、雅布兰克·昂维尔、马尔特·布伦、韩波尔曾否认大西洋洲的存在，他们仅仅把这里当成是存在于神话传说的故事中。但波赛唐纽斯、蒲林尼、阿米亚诺斯·马切利努斯、特图里安、恩格尔、许列尔、托尼福、布封、德维查克等人都认可这个洲的存在。这个神奇的大陆，现在就呈现在我的眼前，而且我还看到了那些可以证明它在沉没时曾遭受过巨大灾难的无可争辩的实物证据。那么，这就是那块存在于欧洲、亚洲、利比亚之外，在海加尔山外面，上面居住着强大的大西洋种族（他们曾对古希腊人发起过多次战争），最后却沉没了的陆地。

柏拉图曾把这些传说时期的英雄事迹记载在他个人的著作中。他的《德谟多库篇》和《克里底亚篇》就是受诗人、立法家梭伦的启发而写成的著作。

一天，梭伦与萨依斯城的一些聪明又有智慧的老人交谈。根据城中神庙圣墙上的编年录，萨依斯城已经有800年的历史了。这个时候，其中的一位老人讲述了关于另一个城的历史，那个城要比萨依斯城古老

1000年。这个最早的雅典城，曾经被大西洋人入侵过，导致它的一部分被破坏了。他说，这些大西洋人占据着一个广大的洲，这个洲比亚洲和非洲的总和还要大，它的面积从纬度12度起，向北至40度止。他们的统治范围一直延伸到埃及。但他们并不满足，他们还希望把希腊纳入其版图内。但是，由于希腊人进行了顽强的不屈不挠的抵抗，导致他们最后不得不放弃了把希腊扩充进其国家版图的计划。几个世纪后，一场洪水、地震灾害发生了，这次巨大的灾难仅仅用了一天一夜的时间就把整个大西洋洲完全吞没了，只剩下这个洲上最高的山峰马德尔、阿苏尔群岛、加纳利群岛、绿角群岛等还浮在海面上。

当尼摩船长写下那四个字时，上面的一切就不自觉地在我的脑中出现了。由于那最扑朔离奇的命运的指引，我踏上了这个神奇大陆的一座山峰。我的手摸到了十万年前的、地质时期的那些古老的遗址！我走过了最初的原始人类曾经走过的那些地方，我那沉重的靴底踩在了洪荒时期动物的骨骼上，而那些曾经郁郁葱葱、遮天蔽日的森林现在已经化成了矿石。

为什么？为什么我没有足够的时间？我真想从这座山的陡峭斜坡上走下去，走遍这曾经连接起非洲和美洲的广袤大陆，去看看那些沉没前的伟大城市。或者，那边，在我眼睛所及的地方，我好像看到了那勇武好战的马基摩斯人曾经居住的城市，那有着虔诚信仰的欧色比斯人曾经居住的城市，巨人族曾经在那里生活过千百年，他们一定有力量用石头来建筑一座直到今天还可以抵抗水力侵蚀的建筑物。或者有一天，如果发生了火山喷发，这些沉没的废墟或许可以重新浮出水面。有人指出，在大西洋的这一海域有很多海底火山。一些船只经过这一海域时都会感受到因火山喷发造成的特殊的震动；一些船只经过这一海域时还听到了类似水火两种元素在做激烈抗争时所发出的被抑制住的没有迸发出来的

声音；还有一些船只曾在这一海域见到过海面上漂浮着火山灰。从这里直到赤道，地下都有很多活火山，导致地块不断地在发生变化。或许，谁知道呢？在遥远的未来，由于火山喷发，以及火山喷出的火石不断地累积，可能会使得发生火山喷发的山峰重新出现在大西洋海面上。

当我在想着上面这些事情的时候，当我正设法想把我看到的眼前所有这些伟大景物的细节都存储进我的大脑的时候，尼摩船长却用手扶着布满青苔的已经剥落的石碑，站在那里一动不动，不知道在想些什么。他是在想那些已经逝去的过去的人类吗？他是在向过去的人们打听人类命运的秘密吗？这个脾气古怪的人到这里是来找寻逝去的历史，以此磨炼自身的吗？还是他已厌倦了现在的生活，希望到这里来复活古代的生活？我相信，只要我能知道这个古怪的人在想什么，明确地了解他的想法，我就能知道自己该怎么做了。

我和船长一直在那里静静地待了一个小时，欣赏着那因火山产生的光辉照耀下的广阔平原。有时，火山产生的热力实在惊人，那来自地心内的沸腾使得山的表面迅速地发生了颤动。隆隆的声响通过海水传播出去，产生了洪亮的回响声。这个时候，透过海水，月亮出现了，向这块沉没的大陆投下淡淡的光芒。虽然那仅仅是一些微弱的光芒，却产生了一种难以形容的景象。

船长站了起来，最后看了一眼这广阔的平原，然后向我做了一个手势，让我跟着他离开。

很快地，我们就走下了山峰，在过了已经石化的森林后，我就看到了“鹦鹉螺”号探照灯发出的灯光。远远看去，那就像一颗挂在天际的星星。船长一直向着“鹦鹉螺”号的方向走去，当我们踏上船时，正是第一缕曙光照在海面上的时候。

第十章 海底煤坑

2月20日，我睡了很久才起。身体的疲劳让我一直睡到了11点。我赶紧穿戴洗漱完毕，就是为了早点知道“鹦鹉螺”号的航行方向。通过客厅中的仪器得知，它正向南航行，时速为20海里，水深100米。

葛瑟尔过来找我，我将昨天夜间的旅行告诉了他，同时敞开嵌板，让他望向沉没的大陆部分。“鹦鹉螺”号行驶在距离大西洋洲平原地面10米的水层，它的速度非常快，像是一只被风推送的气球一样飞跑。我们坐在客厅中，就像是坐在特快专列上一样。我们眼前不断掠过奇形怪状的大石块，或是屹立不动的树林，以及他们交叉在海水中挤眉弄眼的怪样子。还可以看见藏在轴形草和白头翁地毯下面的大堆石头，无数长长在立的蛇婆在上面竖立着，另外可以看见的是轮廓奇怪的大块火石，它的存在使地心大火力量的猛烈得以证实。

当我们的电光照耀这些奇特景象的时候，葛瑟尔正认真地听我讲述大西洋人的历史，巴伊¹写出的那些迷人的篇章就是基于这纯粹空想的观点。我和葛瑟尔探讨这些英雄人民的伟大战争经历，讨论大西洋洲的历史问题。可是葛瑟尔有些心不在焉，他并不留意我所讲述的各人的经历，然而，不久以后我就解开了心中的疑问。葛瑟尔已经被无数的鱼类所吸引，完全投入到分类研究中，思想离这个现实的世界越来越远。在这样的情况下，我选择同他一起做鱼类学的研究。

同我们以前研究过的相比，大西洋这边的鱼类并没有显著的特点。只是有一种鲤鱼，身长5米，体力也好，可以跃出水面很高。还有各种

鲨鱼，最引人注意的是长15英尺的海色鲛，它的周身是透明的，待在海中毫不起眼，特别的是它长着尖利三角形的牙齿。

对于多骨鱼的分类，葛瑟尔明确标记了淡墨色的帆船鱼，这种鱼身长3米，上颚有一把尖利的刺刀。被亚里士多德时代称为海龙的颜色生动的海鳐，它的脊背上有利刺，使得捕捉它们的时候充满了危险。其次，葛瑟尔记录了脊背呈褐色的哥利芬鱼，周身带有蓝色小条纹，圈在边缘金黄的框子里面。记录中还有美丽的鳊鱼；能发出蓝色光线的月形金嘴鱼，它在阳光的照耀下，像银白色的斑点一般。还有一种旗形鱼，它身长8米，喜欢成群结队地生活，它长有淡黄色的峭，鳍长6英尺，呈镰刀和长剑形。这种鱼很胆大，喜欢吃草叶，不爱吃小鱼，有趣的是，雌鱼要是做一些相关的动作，雄鱼就会立即服从，就像训练有素的很驯服的丈夫那样。

我们一面观察海洋动物的品种，一面欣赏大西洋洲的辽阔平原。由于地形变化较大，“鹦鹉螺”号的速度会有些变化。就像鲸鱼类动物有感应一样，“鹦鹉螺”号会跟着感觉溜进许多丘陵形成的狭窄曲折的水道里面去。它一会儿像氢气球一样浮上水面，一会儿又潜入水底行驶。这种本事不得不让人佩服，于是，我联想起了氢气球飞行的情景，唯一不同的是，“鹦鹉螺”号完全服从它的领航人的双手。

时钟指向下午4点，地面的泥土成分逐渐发生了变化，石头越来越多，出现了很多变质岩和玄武石凝灰岩，还有一些散在中间的硫黄火石和黑石。我猜测，不久，我们将踏上辽阔的平原。是的，没错，当“鹦鹉螺”号继续行驶的时候，我望见前方的水平线被一带高墙挡起来，像是没有了出路。很显然，我们到达了大陆，至少也是一个岛（也许是加纳利群岛之一，也可能是绿角群岛之一）。我始终无法判断船的方位，也许，这是尼摩船长故意安排的。但是我可以确定，这座高墙就是大西

洋洲的尽头，我们几乎走遍了整个大西洋洲。

我的观察并没有被黑夜中断，葛瑟尔回去休息了，只有我一个人留在客厅中。“鹦鹉螺”号的行驶速度很慢，围绕着地面上不知何物的东西盘旋，偶尔会接触这些东西，就好像想停在上面似的。有时，又会浮出水面。透过海水的透明晶体，我望见一些光辉的星宿，那正是跟参垦鱼贯排列起来的六七颗黄道星宿。

我贪婪地欣赏着玻璃窗前的美丽景色，直到嵌板关闭，我才停止。这时，“鹦鹉螺”号到达那座高墙旁边了，我无法猜测它将如何继续前行。回到房间后，我发现“鹦鹉螺”号不动了。我打定主意，只睡一会儿就早早醒来。

第二天早上8点多，我来到了客厅中。压力表显示，“鹦鹉螺”号正在洋面上行走。同时，我听到平台上有脚步声。

海上的波浪情况与船的摇摆没有任何关联，我来到嵌板上，发现板是敞开的，令我感到意外的是，外面并不是白天，而是一片漆黑。我好奇极了，我们究竟在哪里，难道是我弄错了？现在是晚上？我冷静下来一想，不对，外面没有一点星光，比真正的黑夜还要黑。

我的思绪有些混乱，这时，我听到有人对我说：

“教授先生，是您吗？”

我回道：“是我，尼摩船长，我们现在在哪儿？”

“教授先生，我们在地下呢。”

我诧异地喊道：“在地下？但‘鹦鹉螺’号为什么还是浮着走呢？”

“它一向如此。”

“我真的想明白了。”

“您别急，探照灯马上就亮起来了，到时候，您就会明白这一切的。”

我在平台上等待答案被揭晓。这种黑暗是绝对的，甚至连人的影子都看不到。我注意到，空中的顶点正好在我的头上，我开始感受到一丝微光，紧接着，探照灯亮了起来，驱逐了周围的黑暗。

明亮的探照灯让我感觉有些晃眼，我眨了一下眼睛，重新注视着眼前的一切。我发现“鹦鹉螺”号是静止不动的。它就浮在岸边，而让它漂浮起来的海面是一个长两海里、宽六海里的湖。从压力表的数字来看，湖的水面与外海的水面是相同的，因此可以判断它们是相通的。这里的形状就像是一个漏斗，上面是圆形的，下部倾斜，而周围都是高墙，高度足有五六百米。顶上有一个圆孔，使得太阳光可以从这里照耀进来。

在我没有捋清这一切的时候，我向尼摩船长走去，问他：“我们这是在哪里呢？”

船长告诉我，我们停留在一座死火山的中心，这座火山是由于地面震动，海水侵入内部而熄灭的。他说：“教授先生，就在您睡着的时候，‘鹦鹉螺’号潜入海面10米下，从一条天然开凿的水道驶进这小咸水湖里面，而现在我们所在的这里是湖中停船的港口，是最安全、便捷的。不用担心会有海风的威胁。无论你怎么努力，都不可能在大海的海岸上找到这样一个安全的港湾。”

我回答说：“尼摩船长，您说得没错，这里很安全。但是这个地方

只有您知道吧？除了您，谁还会过来呢？对了，上面不是有一个孔吗？”

“是的，上面那个是喷火口，从前火石、烟气和火焰，都是从这里喷进来的，但是现在，这成了我们的透气口了。”

我再次问道：“不过，这座火山是如何形成的呢？”

“这只是海洋中众多小岛的一个，船只从外面看，它只是一个暗礁而已。而对于我们而言，它就是一个巨大的岩洞了。我也是无意中发现的。”

“人们从那个孔无法到达这里吗？”

“不可能，我无法从这里上去，上面的人也不可能从这里下来。要知道，这里的石壁很陡峭，垂直距离差不多有100英尺左右，山腰间的石层不可能越过的。”

“船长，我不得不佩服您，大自然的一切都可以被您利用。但是，您能不能告诉我，这个港口有什么作用呢？‘鹦鹉螺’号好像并不需要停泊的地方。”

“是的，你说得没错。但是，您要知道，它需要电力发动，这就需要原料发电，需要钠产生电原料，而制造钠又需要煤炭。而这里，拥有丰富的煤炭资源。因为森林资源被海水淹没后，很多年之后就变成了煤。”

“那么船长，我们来这里是为了挖矿了？”

“正是如此。这些矿藏就在海水下面，像纽卡斯尔²的煤坑一样。船

员们只要穿上潜水衣，手拿锄头和铲子，就可以挖到煤了，我们根本不需要去陆地上的煤矿要煤炭。而当我们用煤炭来加工钠的时候，火焰和烟雾就从这个孔喷出去，从外面看来，这仍是一座活火山。”

“我们可以参观一下船员是如何挖煤的吗？”

“不行，我们没有时间，现在我们要继续我们的海底旅行。因此，这次我们只是过来拿以前储存的钠，等装载完钠，我们就要继续出发了。如果您想在附近散散步，就充分利用装钠的这段时间吧。”

我谢过船长，去找我的两个同伴。他们还在房间里，我将他们叫过来，向他们讲述了我们所在的位置。来到平台以后，葛瑟尔显得很平静，觉得在山底航行不是什么稀奇的事情。而尼德·兰没有别的想法，只是一味地寻找出路。

10点左右，我们填饱肚子，离开船来到岸上。

葛瑟尔说：“我们又在陆地上了。”

加拿大人对此并不赞同，他说：“我们并不是在陆上，而是在陆下。”

我们的眼前是一片约500英尺宽的堤岸，它就存在于山崖脚下和湖水之间。我们沿着沙滩，绕着湖水散步。从上面看下去，悬崖的下边崎岖不平，堆着许多火山喷出的大块石头和巨大的火山浮石。在分解作用下，这些大堆石头上浮起一层光滑的珧琅质，在探照灯的照射下发出美丽的光彩。被我们的脚步扬起的云母石微粒，像一阵火花的浓云一般飞起来。

地面距离湖水越来越远，地势逐渐上升，不一会儿，我们就来到了

弯曲的石栏附近。这里的斜坡很陡，走上去一定要慢，因为这累积形成的岩石之间，并没有被洋灰接合起来。更重要的是走在这些长石和石英晶体所造成的玻璃质的粗面岩石上很容易滑下去。种种迹象表明，这个巨大的岩洞的确是由火山造成的，我不断地提醒同伴注意。

我对他们说：“你们想一下，沸腾的火石充满了这个漏斗，并且这种白热流质的水平面一直高到山的出口，像熔铁在熔炉里一样，你们能够想象出漏斗当时的情形吗？”

葛瑟尔回答：“可以想象得出，但是先生，您能告诉我，这个熔炉是如何停止工作，又是如何将静静的湖水注满熔炉的吗？”

“葛瑟尔，应该是当时的海底地形发生了变化，形成了现在作为‘鹦鹉螺’号的航道的出口。大西洋的海水就是从这里流入火山内部来的。水火两种元素经历了激烈的斗争以后，尼普顿海王取得了胜利。于是，多年过去了，这座沉没的火山，变成了安静的岩洞。”

尼德·兰说：“很好，我赞成上面的解释，但是从我们的实际出发，我为这个口不在海平面上而感到遗憾。”

葛瑟尔答道：“不过，尼德·兰朋友，如果这个口在海平面上，‘鹦鹉螺’号就不能穿进来了！”

“尼德·兰师傅，我得强调的是，如果海水不从山底下冲进去，就没有今天的岩洞了。所以您的惋惜是多余的。”

我们继续散步，路越来越窄，甚至没有了路，我们只能选择跳过去。要经过兀起悬挂的大石，我们只能选择俯身爬过去。在葛瑟尔和尼德·兰的帮助下，我克服了路径的困难。到了30米外的地方，地形再次

起了变化。先是累积岩和粗面岩，接着是玄武岩。后一种结了许多气泡，一片片地摊开在那里。前一种岩石则形成规律的梭形，像一系列石柱排起来，把这巨大穹隆的起拱石支起，堪称天然建筑物的壮丽模型。其次在玄武石岩中间，镶嵌着很多沥青条纹，铺着硫黄形成的宽阔地毯。这时，有一道强烈的光从洞口射入，照射着这些掩埋在火山里的物质。

到达200英尺高左右，我们已经到了极限，无法再通过前面的障碍物。内部穹隆又成兀起斜出，往上走就转变为绕圈的行路。植物和矿物在山腰展开斗争，一些小树从岩石里长出来。我很快辨认出那是大戟草，这种植物可以流出具腐蚀性的浆汁。这里还生长着向日草，这个名字其实并不形象，因为阳光从来不照射它们，那褪了色的和不大香的花串向下垂着，样子看起来很凄凉。这里还有菊花和长叶芦荟，它们无力地生长着。在火石形成的滑道中间，还有一些细小的紫罗兰，散发出一股香气，这让我感到很愉悦。对于花而言，香气是灵魂，而海中的花，像那美丽的水草，正是缺少了灵魂。我们来到了一丛健壮的龙血树下面，这时候，尼德·兰喊了起来：

“教授先生，您快过来看，这里有一个蜂巢。”

我朝他做了一个不相信的手势。

加拿大人再次重复：“您过来看呀，确实是一个蜂巢，周围还有很多蜂在飞呢。”

我将信将疑地走过去。加拿大人说得没错，那里的确有一个蜂巢，就在龙血树洞中挖成的一个孔穴上，工作着无数的勤劳的蜂。在加纳利群岛上蜂是很常见的，它们产的蜂蜜被视为珍品，价值连城。加拿大人很自然地要采蜂蜜，留作食用，对此，我无法反对。

加拿大人用一些干草夹上一些硫黄，用打火机点燃后，用来熏蜂。蜂渐渐离开了蜂窝，于是，尼德·兰成功采集了好几斤香甜的蜜。他把蜜装在背上的口袋中，对我们说：

“回去我要把蜂蜜跟面包树的粉和起来，给你们做美味的糕点。”

葛瑟尔回道：“太好了，那是又香又甜的面包呢！”

我对他们说：“暂时还是先不要去想又香又甜的面包吧，我们继续我们有趣的旅行吧。”

当我们走到转弯的地方时，便可以看到湖的全貌。探照灯的灯光照在湖面上，显得十分平静，一点皱纹、一点波纹都没有。此时，“鹦鹉螺”号像是绝对静止了。船员在平台上工作，可以清楚地看到他们的身影。

接着，我们绕过这些前列岩石的最高尖峰，它们把穹隆圆顶支起。在这里，我们看到了蛰鸟的身影，它们时而在黑暗中盘旋，时而飞回巢中又飞出。还有一种肚腹呈白色的鸱，一种鸣声刺耳的鹰。在斜坡上，有美丽肥胖的鸱。加拿大人简直要流口水了，一直在后悔没有带枪。他想用石头来代替铅弹，前几次都没有成功，没想到后来居然打伤了一只美丽的鸟。他不惜冒生命危险，也要将这只鸟弄到手。在他的努力下，终于将这只鸱塞入口袋中，同蜡蜜放在一起了。再往前走就是山脊了，我们无法经过。此时，我们的头上是火山口。在那里可以清楚地看到头上的天空。我甚至看见乌云被西风吹走，一直把云雾的细丝碎片带到这山峰上。这足以证明，这些云停在很低的空中，距离海平面至多800英尺。

半小时后，我们拉着加拿大人回到内层堤岸来了。岸边有很多植

物，像是铺了一张大地毯一样。其中，最多的是海鸡冠草，这是一种泡来很好吃的伞形花小草，又称为钻石草、穿石草和海苗香。葛瑟尔采了好几束。同时，这里还有好多甲壳类，龙虾、大盘蟹、长手蟹、苗虾、长脚虾、加拉蟹，以及数不清的大量蚌蛤、磁贝、岩贝和编笠贝。

在这个地方，出现了一个高大的岩洞。我和我的同伴们舒服地躺在细沙上。火力把珐琅质和发光的洞壁磨亮了，可以清楚地看到洞壁上的云母石粉屑。尼德·兰尝试着用手探测墙壁有多厚，我不禁笑出声来。加拿大人再次将话题转到逃走计划上，这次我不再采取冒进的形式去打消他的希望，也不再向他强调尼摩船长往南行驶只是为了补充钠的储藏量。我希望他现在就回到欧洲和美洲海岸去，这或许有利于加拿大人未完成的逃走计划。不知不觉中，我们已经来到洞中一个小时了，刚开始我们的谈话很有趣，但渐渐就变得无趣了。谈话的兴致逐渐被困意所取代。我没有抗拒睡虫，深深地睡着了。

忽然，葛瑟尔的声音把我惊醒，只听这个老实人喊道：

“警报！警报！”

我赶紧支起上半身来，问道：“发生什么事了？”

“水涌上来了！”

果然像葛瑟尔说的那样，海水像急流一般涌向我们。既然不能成为软体动物，我们只能逃走。几分钟后，我们到达了安全地点——岩洞的顶上。

葛瑟尔问：“这是什么状况，又有什么奇妙景观吗？”

我回答说：“朋友，那只是潮水而已，像司各特3小说中人物的遭遇

一样，我们遇到了突袭而来的潮水。大西洋潮起潮落，这是自然平衡的法则，就算是湖中的水平面也是要上升的。我刚刚洗了个澡，现在得回到‘鹦鹉螺’号换衣服去了。”

我们的环湖旅行在三刻钟后结束，我们重新回到了船上。此时，船员已经将钠装载完毕，“鹦鹉螺”号又要开始新的旅行了。奇怪的是，尼摩船长并不急于下命令。难道他要等到夜间从地下水道出去吗？也许是吧。

不管我猜得对不对，“鹦鹉螺”号在第二天准时离开它的港口，又航行在陆地的海面或是大西洋水底下几米深的水层了。

第十一章 萨尔加斯海

“鹦鹉螺”号行驶的方向没有改变，尼摩船长仍是下令把船向南行驶，所以，再回到欧洲海岸去的所有希望都要暂时放弃了。我不敢想象他会把我们带到哪里去。

这一天，“鹦鹉螺”号经过了大西洋中很奇怪的一片海域。我们知道，大西洋中有一股名为“漩流”的大暖流。该暖流从佛罗里达湾出发，向斯勃齐堡湾流去。但在北纬44度左右、汇入墨西哥湾之前，该股暖流会分为两支：主流流向爱尔兰和挪威海岸，支流则折返向南流去，流到

阿棱尔群岛附近，然后抵达非洲海岸，由此经过一个长长的椭圆形，再回到安的列斯群岛。

这第二条支流与其说是笔直流动的支流，不如说是犹如项圈一般的环流——形成了许多暖流圈，把这片冰冷、寂静的大西洋围绕起来，形成了萨尔加斯海。这可是大西洋中真正的湖沼，大暖流的水想要绕这个湖一周，要经历三年的时间才能完成。

严格说起来，萨尔加斯海这片海水遮盖了整个广袤的大西洋洲。某些作家甚至认为，那些散布在这片海域的无数草叶，来自于古代大陆的草地。情况可能是这样的，就是这些草叶植物，以及昆布、海带和黑角菜之类，来自欧洲和美洲海岸，被大西洋暖流裹挟着一直到了这片海域。

此刻，“鹦鹉螺”号经过的地方就是上面说的这片海，是真正的一片草地。昆布、海带、黑角菜、热带海葡萄等形成了很厚、很密实的一块地毯，船要加足马力才能把这块厚实的地毯冲开。尼摩船长不愿让“鹦鹉螺”号的机轮纠缠在这些草叶堆里面，因此，他让船下沉到水下几米，在水面几米深的水层中行驶。

萨尔加斯海的名字来自西班牙语，是海藻的意思。这些海藻是浮水藻和承湾藻，由它们构成了这广大的草叶海面。《地球自然地理》的作者、科学家莫利认为，这些藻类植物之所以在大西洋这一带平静的海域中聚集起来，原因在于：

“我们可以拿出来的证据，我以为就是从谁都知道的一种经验得出的结果。把软木塞碎片或其他可以漂浮的东西的碎片放进一盆水中，并使盆中的水做圆形运动。这时候，我们就可以看到那些分散的碎片会成

群地聚集到水面的中间位置，也就是最不受水的运动影响的位置。把这个现象类比一下，那个盆可以看作大西洋，而暖流就是呈圆形运动的水流，萨尔加斯海就是漂浮物齐聚形成的中心。”

我同意莫利的观点，而在这普通船只很难到达的特殊环境中，我又可以来研究这种现象。在我们的头顶上，漂浮着从各处漂来的物体，它们在那些呈紫黑色的草叶中间堆积着。有生长于安第斯基山脉、经由亚马孙河或密西西比河漂来的大树干；还有无数遇难船只的残骸，只剩下船架以及破损的甲板，甲板上面堆满了各种水草和贝类，看起来显得非常沉重，再没有浮上水面来的可能性了。

3月22日一整天，“鹦鹉螺”号都在萨尔加斯海中行驶着，喜欢吃海中植物和贝类的各种鱼，在这里可以找到丰富的食物。一天后，大西洋又是我们经常可以看到的样子了。

从2月23日到3月12日这19天中，在大西洋水面，“鹦鹉螺”号的平均行驶速度是每24小时100里。很显然，尼摩船长要完成他的海底周游计划，我一点都不怀疑他在绕过了合恩角后还会再回到太平洋的南极海来。

所以，尼德·兰害怕也是有原因的。在这些驶过的海面上，没有看到过一个岛屿，不用再想逃走了。要想让尼摩船长改变主意，也没有什么好的方法，所以我们唯一可以做的就是服从。因为对于一件不可能依靠强力或计谋做成的事情，我喜欢用思考，或者用说服的方法做成。尼摩船长已经让我们发誓不泄露他的生活秘密，那是用名誉做担保的誓言，我们一定会遵守的，那么，这次旅行结束后，难道尼摩船长还会不让我们恢复自由吗？不过，这还需要跟尼摩船长再商谈。如果我去要求恢复我的自由，合适吗？会被接受吗？他当时不是已经跟我们说过，为

了他的生活秘密不被泄露出去，需要将我们永远禁闭在“鹦鹉螺”号船上吗？4个月来，我之所以从来没提过这件事，在他看来，不就是我对于自己处境的默认吗？如果再来讨论这个问题，最后的结果恐怕是会引起他的怀疑，以致将来如果出现我们可以实行逃走计划的好机会，也会让我们的逃走计划实施起来变得更加困难。对于这所有的理由，我在心里翻来覆去地衡量比较，慎重地考虑，也下不了决心。我把这些理由提出来和葛瑟尔谈过，他和我一样，也是很为难。总之，虽然我不是个容易失望的人，但我很明白，我重见世人的机会是一天少于一天了，特别是在尼摩船长大胆地把“鹦鹉螺”号向着大西洋南方行驶的时候。

在我上面说的这19天的时间里，我们的旅途中，什么意外事件也没有发生。我很少见到尼摩船长。他很忙。我时常在图书室里看见他翻开摆在那里的一些书，特别是生物科学方面的书。他还翻阅了我写的关于海底秘密的著作，并在空白处写满了批注，有些是驳斥我的理论和整个系统的。但尼摩船长只是通过这种方式修正我书中的那些不正确的部分，他很少跟我讨论一些问题。有时，我会听到大手风琴发出的忧郁、沉闷的声调。那是尼摩船长在弹奏。在弹奏大手风琴时，他还带着丰富的表情。但是，弹奏的时间一般只选择在夜间，隐在黑暗中，和当“鹦鹉螺”号行驶在沉睡得如同荒漠的海洋中时。

在这19天的旅行中，我们基本都是在水面上航行的。这片海少有人烟，仿佛是被遗弃了一般。只有几艘运货到印度去的帆船，向着好望角的方向驶去。其中一天，我们还被一只捕鲸的小艇追逐过，相信他们一定是把“鹦鹉螺”号当成很有价值的巨大鲸鱼了。但尼摩船长不愿意让这些勇敢的打鱼人白费力气和时间，他下令“鹦鹉螺”号又潜入了水中，才让这些捕鲸人停止了追逐。尼德·兰对这个意外事件很感兴趣。我想，加拿大人对我们这条由钢板制成的大鲸鱼没被那些打鱼人的鱼叉叉

死，一定觉得很遗憾。

在这段时间，葛瑟尔和我观察到的鱼类，和我们在其他纬度研究过的鱼类并没有多大的不同。我们看到的鱼，主要是那种可怕的软骨鱼属中的一些鱼，它们分为三个亚属。一共不下32种带条纹的鲨鱼，有5米长，扁扁的头比身躯还大，尾鳍呈圆形，背上有7条平行斜下来的黑色带子；其次是珠子鲨鱼，颜色是灰色的，鳃间有七个孔，只有一个脊鳍，长在身上的中间部位；还有大海狗走过，人们从前曾把它们当成贪食凶恶的海鱼；一队一队漂亮的海豚，有好几天一直陪着它们，它们五六条组成一群，像狼在乡间游荡一样，这种鱼的身子长3米，上面呈黑色，下面呈红白色，带有很罕见的小斑点。

观察完这些鱼类后，葛瑟尔对一大群飞鱼做了分类。再没有比看海豚敏捷地猎取这些飞鱼更有趣的事情了。不管这些飞鱼飞的路程远近、飞出的曲线如何，即使是在“鹦鹉螺”号上面，不幸的它们老是碰到海豚用那张开的嘴迎接它们。这些飞鱼有的是海飞鱼，有的是鳶形魴魴。它们跳出海面后，那发光的嘴总能在黑色的夜空中划出一条条火线，然后，它们又像流星一样潜入了暗黑的海底。

一直到3月6日，“鹦鹉螺”号都是在这种情形下行驶的。13日那一天，尼摩船长开始用“鹦鹉螺”号做探测海底的实验，我对这个非常感兴趣。

自从我们从太平洋出发以来，差不多已经走了13000里。通过测定，我们发现，“鹦鹉螺”号现在的方位是在南纬45度37分、西经37度53分。就是在这一带海域，“海拉尔”号的邓亨船长曾投下过14000米长的探测器，但也没有到达海底。也是在这里，英国二等战舰“会议”号的海军大尉巴尔克曾投下过15000米长的探测器，也没有到达海底。尼摩船

长决定把“鹦鹉螺”号驶到最深的海底，来检测一下之前人们多次探测所得的结果。我准备把这次探测试验的结果完全记录下来。

当船舱客厅的嵌板都打开时，“鹦鹉螺”号开始下潜，一直到达最深的海底。

你可以想到，“鹦鹉螺”号并没有使用装满储水池的方法来使得船下潜，因为这种方法不可能充分增加“鹦鹉螺”号的重量，使它一直下潜到海底。而且如果使用这种方法，当它浮上来的时候，还要排除多装的水量，抽水机可能没有足够的马力来抵抗外部的压力。

尼摩船长决定使用船两侧的纵斜机板，让它与“鹦鹉螺”号的浮标线成45度角，然后沿着一条充分延伸的对角线潜下去，由此来探测海底。计划好后，“鹦鹉螺”号的推进器开到了最大的速度，它的四重机叶猛烈地搅动着海水，这情景简直难以用语言来形容。

在这强大力量的推送下，“鹦鹉螺”号全身抖动得像一根咚咚震响的绳索，由此它也慢慢地潜入了水中。尼摩船长和我待在船舱的客厅中看着，我们用眼睛紧盯着那移动得非常快的压力表的指针。不久后，“鹦鹉螺”号所在的位置就超过了大部分鱼类可以生活的水层。大部分鱼类只能生活在海水或河水的上层水域，只有极少数的鱼类可以住在相当深的水层中。在后一种鱼类中，我看到过有6个呼吸口的六孔海豚，有像望远镜一样巨大眼睛的望远镜鱼，有灰色的前胸鳍和黑色的后胸鳍，还有用淡红色的骨片胸甲做保护的带甲刀板鱼，以及生活在1200米深处、顶着120度的水压生活的榴弹鱼。

我问尼摩船长，他是不是曾在更深的水层观察过鱼类。他回答我：“鱼类吗？很少。但在目前，人们又知道了什么？对于科学，人们

又推测到了些什么呢？”

“船长，人们所知道的情形是这样的。人们知道，在海洋的最底层，植物比动物更不容易生长，会更快地绝迹。人们知道，在还可以看到一些生物的水层，没有任何一种海产植物。人们知道，在2000米水深处，生活着肩挂贝、牡蛎类，两极探险英雄麦克林托克 [1](#)曾在北极海2500米深处，采得一个星贝。人们知道，英国皇家海军‘猛犬’号船员曾从2620英尺，也就是1海里多的深处，采得一个海星。尼摩船长，您或许会对我说，人们实在是一无所知吧？”

“教授，”船长回答道，“不，我不会这样认为。不过，我想问您，对于这些生物可以在这样深的水层中生活，您又怎么解释呢？”

“我可以用两个理由来解释。”我回答道，“首先，由于海水的不同咸度和密度所决定，那些上下垂流动的水流会发生一种运动，这足以维持海百合和海星一类生物的基本生活。”

“是这样的。”船长回答说。

“其次，因为氧气是生命存活的基础。我们知道，氧气会溶解在海水中，并不会因海水的深度增加而减少，反会因海水的深度增加而增加，而海底水层的压力又会把它压缩了。”

“啊！人们知道这些事吗？”尼摩船长说道，语气显得有点惊异。“不过，既然这是事实，那么，人们当然会知道。不过，教授，我还要说的是鱼类的鱼鳔。如果鱼是在水面捕得的，那么鱼的鱼鳔里的氮气含量会多于氧气，但如果鱼是从水深处捕得的，它们的情况就恰恰相反，鱼的鱼鳔里的氧气含量会多于氮气。这也证明您所说的这点是对的。现在，让我们继续观察吧。”

我的眼睛紧盯在压力表上面。表针指示“鹦鹉螺”号目前在6000米水深处。从我们下沉以来，已经过了一个小时了。“鹦鹉螺”号随着它的纵斜机板溜下去，一直在往下沉。一望无际的海水看起来非常透明，这种透明的海水简直无法用语言形容。再过一小时后，我们会到达13000米海深处，即3.75里海深处，但我们还没有感到船要到达海底。

但是，到了14000米水深处，我看到有黑色的尖顶从海水中露出来。这些尖顶可能是与喜马拉雅山或白朗峰一样高或更高的山的山顶，如果是这样的话，下面就还是深不可测的深渊。

虽然受到了强大的阻力，但“鹦鹉螺”号仍然在继续下潜。我能感觉到它的钢板螺旋衔接处都在颤抖了，白色的方格铁板有些地方已经弯起来了，它的中间隔板发出了呜呜的声音，船舱客厅的玻璃窗受到海水的压力，好像也要凹进去了。如果这个坚固的机器不像尼摩船长所说的那样坚硬得像一大块实铁的话，那它一定早就垮了。

在掠过那些水底的岩石斜坡的时候，我仍然能看到一些介蛤类、蛇虫类、活的刺虫类，以及某种海星。

但没过多久，这些生命迹象就完全消失了，在“鹦鹉螺”号又下潜了3里后，就超过了海底生物可以生存的极限了，这就像气球上升到了不能呼吸的空气外层一样。我们到了16000米的水深处，也就是4里海深处，“鹦鹉螺”号这个时候是顶着1600的气压在行驶，也就是说，它身上每平方厘米都承载着1600公斤的重量。

“多么新奇的地方！”我不禁发出了这样的感叹，“我们走进了人类从没有到过的最深处！船长，您看那些宏伟的岩石，那些没有居民的岩洞，那些地球最深处的收容所，那些没有任何生命迹象的地方！这是没

人见过的壮丽景象，为什么我们只能让它们存在于我们的记忆中呢？”

“那么，教授，”尼摩船长问我，“您能想出比把它们仅仅放在记忆中更好的办法吗？”

“您这话是什么意思呢？”

“我的意思是说，在这海底深处，再没有比拍照更容易的事情了！”

我还来不及对他的这个提议表示惊讶，尼摩船长便一声吩咐，紧接着就有人把一架照相机拿到了客厅中。从船舱敞开的嵌板望出去，周围的海水因为受到“鹦鹉螺”号灯光的照耀，显得非常清楚。因为这个光线，周围没有任何阴暗或者明淡不均的地方。就算是在太阳光下照相，恐怕也没有比这更好的光线了。而且“鹦鹉螺”号在它的推进机的作用下，以及受它的纵斜机板斜度的管制，停住不动了。这使得照相机可以对准海底的风景拍摄，几秒钟后，我们就得到了非常清楚的海底风景的底版。

我现在拿出来的是用这些底版冲洗的照片。从照片上，我们看到那些一直沉没在海底的岩石的原貌，那些构成了地球基石的花岗岩，那些大石堆中出现的深幽的洞穴，那些非常清楚的像某些弗莱蒙画家用画笔所绘出来的轮廓呈黑色线条的侧影。向更远处看去，是横在边际的山脉，而这幅风景画的底层远景，是一道像波纹一样弯曲的美丽线条。我不知道用什么语言才能描述这些平滑、黝黑、闪着光泽、没有任何苔藓、没有任何斑点的岩石，它们呈现出离奇古怪的形状，并且牢固地矗立在细沙形成的海底，在“鹦鹉螺”号灯光的照耀下，闪闪发亮。

在尼摩船长照完了相之后，他对我说：

“教授，我们上去吧。不要在这个地方停留时间过长，也不要让‘鹦鹉螺’号太长时间地顶着这样的压力。”

“好，我们上去。”我回答道。

“您站稳了。”

我还来不及理解尼摩船长为什么这样告诫我，就重重地摔在了地毯上。

按照船长发出的信号，“鹦鹉螺”号的推进器与发动机开始协同工作，它的纵斜机板也垂直地竖立了起来。“鹦鹉螺”号就像要飞向天空的气球一样，闪电般地迅速上浮。它拨开海水，发出响亮的声音。可是，对于所有这些情况的详细情景，我们都看不到。不过4分钟的时间，“鹦鹉螺”号就越过了从海底到水面的4里距离，像一条飞鱼一样，跃出了水面，同时把海水击打得飞溅起老高，随后又落回水面。

[1](#)英国航海家，北极探险家。

第十二章 大头鲸和长须鲸

从3月13日到3月14日夜间，“鹦鹉螺”号一直在朝着南方行驶。我以为到了合恩角，它就会掉头往西行驶，进入太平洋，这样就可以绕世界周游一周了。但实际上，它并没有这样做，它仍然继续向着南方驶去。那么，它是要到哪里去呢？难道是到南极去？这太疯狂了。我开始不自觉地想，船长的这种大胆狂妄的做法足以说明尼德·兰的顾虑以及恐惧都是合情合理的。

这几天以来，加拿大人不再跟我说起他的逃走计划了。他变得不爱说话，非常沉默。看得出，这种看不到尽头的囚禁让他感到非常难受。我能感受到累积在他心中的愤怒是多么的强烈。每次当他在船上遇到船长的时候，他的眼睛都会燃起阴沉可怕的火光，我时常担心他那暴烈的天性可能会使他走向一条极端的路。

3月14日，尼德·兰和葛瑟尔来到我的房间找我。我问他们有什么事。

“先生，”加拿大人对我说，“我想向您提一个问题。”

“你说吧，尼德·兰。”

“您觉得‘鹦鹉螺’号上一共有多少人？”

“我也不太清楚，我的朋友。”

“我觉得，”尼德·兰立即说道，“驾驶这艘船并不需要很多的人。”

“是的，”我回答道，“从目前的情况来看，大约最多需要10个人就足够了。”

“那么，”加拿大人问道，“既然是这样，为什么船上有这么多人呢？”

“为什么？”我反复道。

我用眼睛盯着尼德·兰，我很了解他的意图。

“因为，”我回答道，“据我推测，结合我所了解的船长的生活来看，‘鹦鹉螺’号不仅仅是一艘船，就像船长一样，对于想与陆地断绝所

有关系的人们来说，它又是一个藏身处。”

“可能是这样吧。”葛瑟尔说，“不过‘鹦鹉螺’号上只能收容一定数目的人，先生可以大概估计一下它能容纳的最多的人数吗？”

“葛瑟尔，你这话是什么意思呢？”

“就是用计算的方法大概估计一下。根据先生所知道的这艘船的容积可以知道它上面的空气的含量，另一方面也可以知道每个人呼吸所需要的空气，将这些结果与‘鹦鹉螺’号每24小时必须浮上水面来调换空气相比较的话……”

葛瑟尔没有把话说完，但我很明白他是什么意思。

“我明白你的意思了，”我说，“并且这很容易计算，但那只是一个很不确定的数字。”

“那没关系的。”尼德·兰坚持着说道。

“对于这个问题，是这样计算的，”我回答道，“每个人每小时消费100升含有氧的空气，24小时总共消费了2400升含有氧的空气，这样就可以求出‘鹦鹉螺’号含有多少倍的2400升空气来。”

“正是。”葛瑟尔说。

“可是，”我又说，“‘鹦鹉螺’号的容积是1500吨，一吨的容积是1000升，‘鹦鹉螺’号含有150万升的空气，拿2400来除……”

我用铅笔很快地计算出：

“所得的商数是625。这就是说，‘鹦鹉螺’号上24小时的空气可以供

625人呼吸之用。”

“625人！”尼德·兰重复道。

“可是你要想想，”我又说道，“乘客、水手和工作人员都算上，我们还不及这数字的十分之一。”

“这对于三个人来说，还是过多了！”葛瑟尔低声说道。

“可怜的尼德·兰，所以我只能劝你忍耐了。”

“比忍耐还要更进一步，”葛瑟尔回答道，“我们只能听天由命了。”

“但从长远来看，”我又说，“尼摩船长不可能一直往南走！他总是要停下来时的时候，比如遇到了冰山。他总有一天要回到有人居住的海中去，到了那个时候，尼德·兰，我们就有机会实施你的计划了。”

加拿大人摇摇头，用手抚摸着前额，一句话也没说，就离开了。

“先生，我觉得尼德·兰很可怜。”葛瑟尔说道，“我觉得他老是想着之前的事情，过去生活的一切不时出现在他的脑海中。对于来到这艘船上后我们所失去的一切，他觉得很惋惜，心中产生了悔恨。从前的回忆苦苦地纠缠着他，他很伤心，很难过。我们必须了解他目前的情况。他在这艘船上能做什么呢？什么也不能做。他不像先生一样是一位学者，他跟我们不一样，对于大海中的美丽事物他没有什么兴趣，所以他才想不顾一切地冒险离开，只求能走进他们国家的一个酒店中去。”

很显然，船上单调的生活对于习惯了自由和积极生活的加拿大人来说，是不可忍受的。海上发生的能让他高兴的事件是少之又少的。可是，这一天，一件偶然发生的意外事件又使他重回了从前当鱼叉手时的

好日子。

这天上午11点左右，“鹦鹉螺”号行驶在海面上，遭遇了成群的鲸鱼——对于这种遭遇，我并不觉得奇怪，因为我知道由于受到人类过度的追击，这些动物都躲到两极边缘、高纬度的海水中来了。

鲸鱼在海上航行事业方面所起的作用，在地理上的一次次大发现中所带来的影响是很重大的。正是这些鲸鱼带领着巴斯克人、阿斯图里人、英国人和荷兰人，冲破大海中的重重危险，从地球的这一极端到地球的那一极端。

海上风平浪静，我们坐在甲板上。此刻，这一纬度地区的季节正好是美丽的秋天。忽然，加拿大人指着东方天边向我们说道，那边有一条鲸鱼。我们仔细地去看，发现在距离“鹦鹉螺”号5海里的海面上，有一条鲸鱼的灰黑色的脊背不停地浮起来、沉下去。

“啊！”尼德·兰喊道，“如果我现在是在一艘捕鲸船上，那一定会是让我觉得非常痛快的一次遭遇。那是一条身躯非常巨大的鲸鱼！你看它喷出的那混合有气体的水柱，就能知道它的鼻孔是有多大的力气了。真可惜！我怎么就被困在这块钢板上了呢！”

“难道说，”我问道，“尼德·兰，你还没有打消你要捕捉鲸鱼的念头吗？”

“先生，捕鲸鱼的人怎么能够忘记他从前的手艺呢？怎么可能厌倦那种捕捉所带来的激动呢？”

“尼德·兰，你之前没在这一带海域中捕过鲸鱼吗？”

“从来没有过，先生。我只在北极海中，就是在白令海峡和台维斯

海峡一带捕过鲸鱼。”

“这么看来，你对南极海中的鲸鱼还是很陌生的。你以前捕捉到的都是一些平常的白鲸，那些鲸鱼是不会冒险通过赤道温热的海水来到这南极海中的。”

“啊！教授，你在说什么呀？”加拿大人用相当怀疑的口吻说道。

“我说的是事实。”

“哦，好吧，是事实！正在这里说话的我，在两年半以前，在北纬65度的格陵兰岛附近捕获了一条鲸鱼，这条鲸鱼的身上还带着一支白令海峡中的捕鲸船所用的鱼叉。现在我要问您，鲸鱼在美洲西岸被刺中了，如果它没有绕过合恩角或好望角通过赤道的话，它为什么会死在美洲东岸呢？”

“我跟尼德·兰的想法一样，”葛瑟尔说道，“对于这个问题，先生您怎么解释呢？”

“朋友们，我的解释是这样的，鲸鱼类是一种有地域性特征的生物，按照种类的不同，它们会定居在某处海中，并不会离开。如果有一条鲸鱼从白令海峡走到了台维斯海峡，那原因很简单，就是因为这两个海洋中间一定有一条相通的水道，不是在美洲海岸边，就是在亚洲海岸边。”

“我们能相信您的话吗？”加拿大人闭着一只眼睛问道。

“我们要相信先生说的话。”葛瑟尔回答道。

“那么，”加拿大人立即又说，“既然我没在这一带海中打过鲸鱼，

我就不认得在这带海中往来的鲸鱼了吗？”

“是的，尼德·兰，我刚才已经跟你说过了。”

“那你就更应该去认识它们了。”葛瑟尔回答道。

“看！看！”加拿大人声音很激动地喊道，“它过来了！它向我们冲过来了！它是在侮辱我、玩弄我！它知道我现在不可能惩治它！”

尼德·兰一边乱跺脚一边用手挥动着一支并不存在的鱼叉，在那里颤抖。

“这里的鲸鱼跟北极海中的鲸鱼一样大吗？”他问道。

“差不多一样大，尼德·兰。”

“先生，我见过长到100英尺的大鲸鱼！我甚至听说阿留申群岛的胡拉摩克岛和翁加里克岛的鲸鱼身长超过150英尺。”

“我觉得这种说法有些夸张了。”我回答道，“这些不过是鲸科、有脊鳍的动物，也就是大头鲸。它们通常比普通白鲸要小一些。”

“啊！”加拿大人喊道，他的眼睛紧盯着海面，“它更近了，它到‘鹦鹉螺’号所在的水圈中来了！”

鲸鱼一直在往前游。尼德·兰用眼睛死死地盯着它。他喊道：“啊！并不是一条鲸鱼，是10条、20条，一群鲸鱼呢！一点办法也没有，在这里就像手和脚被绑住了一样根本动不了！”

“不过，尼德·兰，”葛瑟尔说道，“为什么你不去请求尼摩船长准许你去追鲸鱼呢……”

葛瑟尔的话还没有说完，尼德·兰就已经从打开的嵌板溜进了船舱，跑去找船长了。没过一会儿，两个人就一起出现在了甲板上。

“尼摩船长，您看一下这群鲸鱼，它们在距‘鹦鹉螺’号1海里的海面上游来游去。”

尼摩船长说道：“那是南极的鲸鱼，它们可以让一整队的捕鲸船都发财呢。”

“那么，先生，”加拿大人问道，“为了不忘记我从前当鱼叉手的职业，我是不是可以去捕捉它们呢？”

“仅仅为消灭它们而去捕捉它们，有什么好处呢？”尼摩船长回答道，“我们船上要这么多鲸鱼油也没有什么用。”

“可是，先生，”加拿大人又说道，“在红海中，您不是准许我们去捕捉海马吗？”

“那时是为了要给我们的船员补充新鲜的肉，所以才那样做的。现在是为了杀害它们而杀害它们。我知道这是人类的特权，很多时候是为了消遣，但是我不允许人们做这种残害生命的消遣。尼德·兰师傅，去杀害这些善良无害的像普通白鲸一般的南极鲸鱼，是非常不应该的，是应该被责备的行为。就是因为那些捕鲸人，才把整个巴芬湾弄得一条鲸鱼也没有的，他们就是通过这种方式消灭了整个一纲有用的动物。不要为难这些不幸的鲸鱼了吧。就是你们不去捕捉它们，它们都已经有不少的天敌了，比如，在北方，就有大头鲸、狗沙鱼和锯鲨之类。”

当船长在对尼德·兰讲这些大道理的时候，我们很容易能想到加拿大人的表情是什么样的。这些话对打鱼的人来说没有任何意义。尼德·

兰看着尼摩船长，显然是不理解船长跟他说的这些话。可是，尼摩船长的话是对的。打鱼人的野蛮和过度的屠杀总有一天会把大海中的最后一条鲸鱼都消灭殆尽。

尼德·兰嘴里哼着《美国进行曲》，两手插在口袋里，转过脸去，不再理睬我们。尼摩船长看着那一群鲸鱼，对我说道：“就像我刚才说的，就是除开人类不算，鲸鱼也有不少天敌。这一群鲸鱼不久就要跟强大的敌人遇上了。阿勒纳斯先生，您看见6海里海面上那些正在移动的灰黑点了吗？”

“那是大头鲸，是很可怕的动物，曾经我碰到过两三百只成群结队的大头鲸队伍！这种动物是非常残酷有害的东西，消灭它们是对的。”

加拿大人听到最后一句话，急忙转过身来。

“那么，船长，”加拿大人说道，“为了鲸鱼的利益，现在就让我们去消灭它们吧……”

“用不着我们去冒险。‘鹦鹉螺’号本身就足以驱散那些大头鲸了。它装有钢制的冲角，我想，它的厉害可以赶上您的鱼叉了。”

加拿大人一点不客气地耸耸肩：“用船的冲角去攻击鲸鱼！谁听说过这种做法呢？”

“请等一下，阿勒纳斯先生，”尼摩船长说道，“我要给您看一次您从没有见过的捕鲸的方法。对于这些凶恶的鲸科动物，一点也用不着可怜它们。它们就是嘴和牙齿。”

“嘴和牙齿！”再没有比这更好的形容了，用这种说法来描写脑袋巨大的大头鲸再合适不过了。这类鲸鱼有的身躯超过25米，而它们巨大的

脑袋约占了身长的三分之一。它们的武装要比长须鲸强大，长须鲸的上颚处只有一串鲸须，大头鲸却有25枚粗牙，每枚牙长20厘米，牙尖呈圆筒形和圆锥形，每枚牙重约2斤。就是在那巨大脑袋的上部和有软骨片分开的大空洞里面，藏有三四百公斤重的名为“鲸鱼白”的宝贵鲸鱼油。

“可是，这一群怪东西一直在往这边游。它们一定是看见了长须鲸，准备攻击它们。我们提前就可以预知大头鲸一定会取得胜利，不单是因为它们比温良的敌手更结实、更便于攻击，而且也因为它们可以在水底下待比较长的时间不浮上水面呼吸。”

现在正好是去援救这些长须鲸的时候了。“鹦鹉螺”号行驶在水里面。葛瑟尔、尼德·兰和我，我们坐在客厅的玻璃窗前。尼摩船长到驾驶室去了，以便操纵他的潜水船像一件毁灭性的武器一样行动。不久后，我感觉到“鹦鹉螺”号的推进器骤然加速转动起来，速度立即加快了。

当“鹦鹉螺”号行驶到这两群鲸鱼附近的时候，大头鲸和长须鲸已经开始战斗了。“鹦鹉螺”号是想把这群大头怪物拦住。开始的时候，这些怪物看见这个新奇的东西参与进战斗中来，并不怎么激动，还是跟平常一样。但过了一会儿后，它们就不得不开始防备它的攻击了。

好一场恶斗！就连尼德·兰不久后也终于拍着手掌兴高采烈起来。“鹦鹉螺”号变成了一支非常有攻击性的鱼叉，就像在船长的手中挥来挥去一样，不停地投向那些肉团，从那些肉团中穿过去，之后就会留下那怪物的两半片蠕动的身躯。大头鲸用它那厉害的尾巴不停地拍打着“鹦鹉螺”号的两侧。但即使大头鲸不停地冲撞它，大船也没有什么感觉。猎杀了一条大头鲸后，它又跑过去猎杀另一条。它不停地转来转去，不肯放过一条猎物。这大船完全按照掌舵人的指挥，不时地前前后

后。大头鲸沉入深水层，它就潜下去追捕；大头鲸浮到水面上来，它就跟着追到水面上来。或正面打，或侧面刺，或切割，或撕裂，从四面八方，纵横上下，用它那可怕的冲角乱刺乱撞。

好一场屠杀，水面上是何等激烈！这些被吓怕的动物发出了尖锐的叫啸，还有它们那特有的鼾声。本来很安静的水层中间，现在被它们的尾巴搅得翻起了汹涌的波浪。

这种激烈的大屠杀一直延续了一个小时，那些大头怪物完全是躲无可躲。有好几次，十几二十条大头鲸一齐联合起来，想压扁“鹦鹉螺”号。透过“鹦鹉螺”号的玻璃，我们可以看到它们那有着整排大牙齿的大嘴，还有它们那可怕的眼睛。尼德·兰简直抑制不住自己了，他不停地威吓它们，咒骂它们。我们觉得它们好像抓住了我们的船，就像在矮树丛下的小狗咬住了小猪的耳朵一般死也不放。“鹦鹉螺”号催动它的推进器，不顾它们的巨大重量，不管它们的强大压力，去拖拉它们，把它们带到了海水的上层，不停地攻击它们。

最后，这一群大头鲸四散逃走了，海水又恢复了平静。“鹦鹉螺”号浮上了海面。嵌板打开了，我们立即跑上了甲板。

海上漂浮着稀烂的鲸鱼的尸体，看那情形，就是一次猛烈的爆炸恐怕也不可能比这更厉害地把这些巨大的肉团分开、撕破、碎裂了。我们现在航行在漂浮着许多庞然大物的躯体中间，这些躯体有灰蓝色的脊背、灰白色的鱼肚，全身长着巨大的疙瘩。被吓怕了的大头鲸早就逃到天边去了。好几海里的海面都被染成了红色，“鹦鹉螺”号就航行在一片血海上。尼摩船长也来到了我们所在的甲板上。他说：

“尼德·兰师傅，你觉得怎么样？”

“先生，”他的热情退下去了，这时安静下来了，加拿大人回答道，“非常不错，那真是厉害得让人害怕的景象。不过我不是屠夫，我是打鱼人，这不过是一次大屠杀罢了。”

“这是一次对有害动物的屠杀，”船长回答道，“‘鹦鹉螺’号并不是一把屠刀。”

“我还是喜欢我的鱼叉。”加拿大人立即回应。

“各人有各人不同的武器。”船长回答说，同时用眼睛紧盯着尼德·兰。

我很害怕尼德·兰会克制不住自己发脾气，做出激烈的行为，由此造成不良的可悲的后果。但当他看到“鹦鹉螺”号这时正要靠近一条长须鲸时，他的愤怒很快就消失了，他的注意力被那条长须鲸吸引过去了。

这条长须鲸没能避开大头鲸的牙齿。我认得它是一条扁头的完全是黑色的南极鲸鱼。从解剖学的角度来看，它跟普通白鲸和北嘉皮岛的鲸鱼的不同之处在于，它颈部的7根脊骨是接合起来的，比它的北方同类多两根肋骨。这条不幸的鲸鱼侧躺着，肚上满是被咬破的伤口，已经重伤而死了。在它受伤的鳍尖上，还挂着一条它救护不了的小鲸鱼。它的嘴还在流水，水像回潮一般，通过它的须，潺潺作响。

尼摩船长把“鹦鹉螺”号开到了这条鲸鱼的尸体旁边，船上的两个工作人员走到了这条鲸鱼身边。他们把鲸鱼奶头中藏着的奶都取了出来，足有两三吨左右，这让我大吃一惊。

船长把一杯还带着热气的鲸鱼奶递给我。我不太好拒绝他的好意，但又不能不向他表示我不喜欢喝这种饮料。他向我保证这种奶的味道非

常好，跟牛奶没有什么不同。

喝了一口以后，我很认同船长的看法。这种奶对我们来说是很有用的，因为我们可以用这奶制成我们日常食品中很好吃又容易保藏的食品——咸黄油或奶酪。

但从这一天开始，我可以看出尼德·兰对尼摩船长的态度愈来愈坏了。我觉得很不安，暗下决心要密切注视加拿大人的一举一动。

第十三章 冰 山

“鹦鹉螺”号又向着它原先的行驶方向往南驶去。它以非常快的速度沿着西经50度行驶着。它是要到南极圈去吗？我想不会的，因为直到今天，人类所有去到这个地球顶点的尝试都是以失败而告终。并且，现在已经是相当晚的季节了，因为南冰洋地区的3月13日相当于北冰洋地区的9月13日，是到了春秋分的时期了。

3月14日，我在南纬55度望见了漂流的冰块。那仅仅是一些20到25英尺长的灰白色的碎片，但形成了许多暗礁，不停地撞击着海浪。“鹦鹉螺”号行驶在南冰洋的洋面上，由于尼德·兰曾经在北冰洋海中打过鱼，所以他对于这种冰山的景象是很熟悉的，但葛瑟尔和我却都是第一次见这种景象。极目远眺，南方的天际，有一片令人眼花缭眩的雪白。英国捕鲸人把它称为“眩目冰带”，因为不论云层有多厚，都不会使它变得暗沉。这片雪白预告着前方有成群的冰堆或冰层。

果然，不久后就出现了更大的冰块，它们那雪白的光辉随着云雾的任意变换也在发生着变化。有些冰块就像绿色的脉管，好似那硫酸铜在上面画出的波纹线条一样。有些冰块就像巨大的紫色水晶，中间有光线穿过。阳光反射在后者的晶体上，它们那无数的切面上发出闪闪的光芒。前者就像一块块巨大的石灰石，好似构成了一座大理石城市。

我们愈往南走，这些漂流的冰岛就愈来愈多、愈来愈大。这些冰岛上有着南极的鸟类，成百上千的海燕、棋鸟和海鸭筑的巢。这些鸟类叽叽喳喳的叫声震得我们直耳鸣，有些鸟还把“鹦鹉螺”号当成了鲸鱼的尸体，飞到船上来，用嘴不停地啄那钢板，发出嗒嗒嗒的响声。

当“鹦鹉螺”号在冰群中行驶的时候，尼摩船长时常到甲板上来。他很留心地看着这一片人迹罕至的海面。

有时候，我可以看到他那镇定的眼神变得激动起来。他是不是在想，到了这人迹罕至的南极海中，他就像回到了自己的家里，他是这人类难以到达的空间的主人呢？可能他真的是这么想的，但他从来没有说过。他站在那里一动不动，只有当他意识到自己是这艘船的驾驶人的时候，他才回过神来。

于是，他巧妙地指挥着他的“鹦鹉螺”号，很轻巧地躲开了那些长达几海里、高70至80米不等的大冰块的冲击。有时候，前面看起来是完全被封闭住不能通行的。在南纬60度的海面上，没有任何可以行驶的路，但尼摩船长却指挥着“鹦鹉螺”号小心地寻找着，不久后就发现了一条很窄的通道。他指挥着这艘船，大胆地从那狭窄的通道驶了过去，同时他也知道，这窄窄的水道在“鹦鹉螺”号走过后便会被封闭。“鹦鹉螺”号就这样被这只妙手指挥着，避开了所有的这些大冰块。按照这些冰块的式样大小，葛瑟尔很高兴地对它们进行了正确的分类，那就是像山的冰

山，无边无际的平坦冰田，浮冰或漂流的冰，层冰或碎裂的冰，圆形或环形的冰圈，还有那一块一块的冰流。这里的温度相当低，我们把温度表放在外面，温度表的指针指向零下2度至3度。但我们穿着用海豹和海熊的皮做的衣服，觉得很暖和，并不感觉冷。而且“鹦鹉螺”号内部也会用电气机发热，一点也不冷。另外，退一步说，就算实在太冷了，那么“鹦鹉螺”号只需潜下水底几米深的海域，就可以到达人们可以忍受得住的不太冷不太热的温度中了。

如果我们早两个月到这里，在这南极圈内，可能永远是白天，但现在已经有三四个小时的黑夜了。再过一段时间，这一片海域就会有6个月的时间都被黑夜覆盖。3月15日，“鹦鹉螺”号走过了南设得兰群岛和南奥克内群岛。

3月16日早晨8点，“鹦鹉螺”号沿着西经55度，切过南极圈行驶着。这里处处都是围绕着我的冰块，四处都被冰块封住了，无路可走。可是，尼摩船长总能找到一条又一条通路，一直在往前行驶。

“他究竟要去哪里呢？”我问道。

“到前面去。”葛瑟尔回答说，“总之，到了他不能再往前走的时候，他就只能停下来了。”

“我可不敢这么肯定地这样说！”我回答道。

坦白说，对于这种冒险的游历，我觉得非常痛快。这些新鲜壮观的景象让我迷醉，我简直无法用语言来描述这些让我惊异的景象。冰群变得更雄伟壮丽了。这边，是一大群冰块形成的一座东方城市，中间有无数的清真寺院和尖塔；那里，是一座因地震而被推倒在地的倒塌的城市。在阳光的斜照下，它们不停地变换出不同的颜色，而有些时候，这

壮观的景象又在雪花飞舞的大风暴中消失不见了。当大风暴来临的时候，到处都是爆炸声、崩裂声，冰山像翻筋斗一样，又像画家在作画一样，把这里的整个布景都改变了。当大风暴来临、这些冰群的平衡被破坏的时候，“鹦鹉螺”号便会潜入水中。声音传到水下，剧烈的程度惊人。冰群不断下沉，形成深而广阔的可怕水涡，这种不断旋转的力量一直扩散到很深的水层。每当这个时候，“鹦鹉螺”号就会把持不住地乱摇乱翻，就像要被疯狂的水流卷走一样。有时看不见路了，我想我们恐怕要成大海的俘虏了，可是本能却引导着船长，根据一些微小的迹象，比如那冰田上显现出来的一条一条淡蓝色的细水纹，船长总可以发现新的通路，从来不会弄错。所以，我一点也不怀疑他之前曾经驾驶着“鹦鹉螺”号来过这南极海。

但是，在3月15日这天，层层冰群把我们的路完全挡住了。这还不是真正的冰山，只是因寒冷冻结起来的巨大的冰群。这种障碍物可阻止不了尼摩船长。他指挥着“鹦鹉螺”号用它那猛烈得吓人的力量向冰群冲去。“鹦鹉螺”号像楔子一般穿进不停飞出粉末的冰群中，伴着大得惊人的破裂声，它把冰群划开了。它就像古代的攻城机一样，被无穷大的力量推动着不停地向前。冰群的碎片被抛到高空，像冰雹一样落在我们的周围。仅仅依靠它本身的推动力，我们的船就掘出了一条水路。有的时候，由于它的力量过于猛烈，它会爬到冰群面上来，用它的重量压碎冰群，或者，偶然地，它会被冰群束缚在底下，这个时候，它就会用简单的摇摆动作把冰分开，在冰面上造成阔大的裂口。

在这些日子里，不时有猛烈的冰屑来袭击我们。由于有浓厚的云雾，我们站在甲板的这一端，根本看不清甲板的那一端。不时还会有从各个方向突然刮起的暴风。白雪不断地堆积成十分坚硬的冰层，只有用尖利的铁锹才能弄开它。仅仅在零下5度的温度下，“鹦鹉螺”号外部就

全部被冰层封住了。在这种环境下，一艘平常的船可能是没有办法行驶的，因为所有的绞辅绳索都被冻在滑车沟里了。也只有这艘没有帆、装有可以不用煤的电动机的船才能冒险跑到这样高的纬度来。

在这种情形下，风雨表的指示针总是处于很低的位置，有时降到了73度5分。罗盘也没办法正确地指示出方向了。当“鹦鹉螺”号到达南磁极圈的时候，它的指针开始变得乱摇乱晃起来，指出的方向也与实际的方向相反。根据汉斯廷的说法，这南磁极圈差不多位于南纬70度、东经130度，而根据杜贝莱的观察，这南磁极圈是在东经135度、南纬70度30分。所以，这就必须观察放置在船上各部分的罗盘，取一个平均数作为标准。不过因为我们不停地在不断变化的水路中间行驶，用这个平均数来估量走过的水路的方位，所以结果总是很难让人满意。

到了3月18日，经过几十次无果的冲击后，“鹦鹉螺”号完全找不到出路了。在“鹦鹉螺”号周围的不是冰流、冰圈、冰田，而是连接在一起、无穷无尽的屹立不动的一片冰山。

“冰山！”加拿大人对我说。

我明白，对尼德·兰以及所有以前的航海家来说，冰山是不可超越的障碍。中午时分，有一会儿的时间，太阳出来了，尼摩船长做了一次相当准确的观察，指明“鹦鹉螺”号是在西经51度30分、南纬67度39分。这已经是南冰洋地区相当深入的海域了。

这个时候，展现在我们面前的完全不像是大海或者流动的水面。对着“鹦鹉螺”号的冲角，展现在我们面前的是一片崎岖不平的同时夹杂着混乱无序的大冰群的辽阔平原，再加上那乱七八糟、凌乱无序的景象，就像河流在解冻前所显示出来的景象一样，不过面积却是十分巨大罢

了。到处都是陡峭的尖峰，就像直升到200英尺高的细针，远一点，是由尖峰形成的一连串的悬崖，带着灰白的色泽，像一面一面的大镜子，映着一些半掩在云雾中的阳光。而充斥着这荒凉的自然界的，是那可怕的寂静，就连偶尔出现的海燕和海鸭的振翅声也没有办法打破这种寂静。一切都被冰冻住了，连声音也被冰冻住了。所以，在这被冰冻起来的冰场中，“鹦鹉螺”号停止了它的冒险行动。

“先生，”那一天，尼德·兰对我说道，“如果您的船长能再走远一点.....”

“那么？”

“那么，他便是杰出的人。”

“尼德·兰，为什么这么说呢？”

“因为没有人能走过冰山。您的船长有力量，可是，他不可能比大自然更有力量。在大自然划下界限的地方，不管他愿不愿意，他都得停下来。”

“是这样的，尼德·兰，不过我很想知道冰山的后面是什么。可是在我们面前的是一道围墙，这让我觉得很难受。”

“先生，您说得很对。”葛瑟尔说，“围墙被发明出来，只是为激怒人们的。无论什么地方都不应该有围墙。”

“是的！”加拿大人说，“在这座冰山的后面，人们早就知道有什么东西了。”

“是什么呢？”我问。

“是冰，都是冰！”

“尼德·兰，你说得很肯定，”我继续说，“但是，我可不敢这么肯定。所以我要去看看。”

“那么，教授，”加拿大人说道，“您要放弃这个想法。您已经到了冰山的面前，这就够了，您不能再往前走了，您的尼摩船长和他的‘鹦鹉螺’号也不能再往前走了，不管他愿意不愿意，我们都要掉头回去往北走了，也就是回到老实人居住的国土上去。”

我必须承认尼德·兰说的是对的。“鹦鹉螺”号行驶到冰山面前的时候就必须停止了。因为不管它怎么努力，不管它利用推动器发出的用来冲破冰块的力量有多强大，它还是一动也动不了。平常的时候，即使它不能往前进，那它也可以退回去。但现在，对于“鹦鹉螺”号来说，后退跟前进一样是不可能的，因为来时的水路在我们通过后就被封住了，只要“鹦鹉螺”号稍微一停，它就会被立刻冰冻住，寸步难行。下午两点钟左右，这样的一种情形就发生了，新的冰层以惊人的速度蔓延，迅速地把“鹦鹉螺”号冰冻起来。我现在不得不承认，尼摩船长的决定太草率、太不谨慎了。

我来到了甲板上，那里，尼摩船长已经在观察形势有些时候了。看到我走上来，他对我说：

“那么，教授，您是怎么想的？”

“船长，我想，我们是被困住了。”

“被困住了？您这话是什么意思呢？”

“我是说，我们不能前进，也不能后退，不能向任何一个方向行驶

了。我想，这就叫‘被困住了’，至少对居住在陆地上的人们来说是这样的。”

“阿勒纳斯先生，您是不是在想，‘鹦鹉螺’号不可能脱身了？”

“我觉得很不容易脱身，船长，因为现在的季节已经相当晚了，我们不能指望解冻的时候了。”

“啊！教授，”尼摩船长用一种讥讽的语气说道，“您还是这么悲观！您总是只看到困难和障碍！我现在可以肯定地告诉您，‘鹦鹉螺’号不仅可以脱身，而且它还可以继续前进。”

“继续向南方前进吗？”我用眼睛紧盯着船长问。

“是的，先生，它要行驶到南极去。”

“到南极去！”我喊道，同时不自觉地表示出了我的怀疑和不可置信。

“是的！”船长冷冷地回答道，“‘鹦鹉螺’号要到南极去，到那地球上所有的子午线相交的、以前没有人到过的地方去。您知道的，我可以驾驶着‘鹦鹉螺’号去做我想要做的任何事情。”

那个时候，我忽然有一种冲动，想问一问尼摩船长，是不是已经去过那人迹罕至、从未有人类足迹踏过的南极。

“没有，先生，”他回答我说，“我们现在就一起到那里去。对于别人到不了的地方，我可以到达。我从没有让‘鹦鹉螺’号行驶到这么遥远的南极海上来过，但我再跟您说一次，它还要继续往前走。”

“我相信您，船长，”我带着讥讽的语气又说道，“我相信您！我们继续往前走！对我们来说不存在什么难以通过的障碍！我们可以冲开这座冰山！我们把它炸开，如果它敢反抗，我们就给‘鹦鹉螺’号装上翅膀，让它从冰山上面飞过去！”

“教授，您觉得我们可以从上面过去吗？”尼摩船长平静地说道，“我们不是从上面过去，而是从下面过去。”

“从下面过去？”我喊道。船长的计划突然给了我启示，让我的心忽然明亮起来。我明白了。“鹦鹉螺”号的神奇构造可以帮助船长冲破这人类难以超越的障碍，再一次帮助船长达成他的愿望。

“教授，我觉得现在的我们已经心意相通了。”船长微笑着对我说道，“您现在已经知道这个计划是可以成功的——在我个人看来，我觉得这个计划一定行得通。这个计划对于一艘平常的船来说是办不到的，但对于‘鹦鹉螺’号来说是很容易办到的。如果现在在我们面前的是一个大陆，它就只能停步不前了。但相反，如果南极是一片自由的海，它就能到南极点上去！”

“是的，”尼摩船长的说法提醒了我，我说，“即使海面被冻结凝固住了，但它的下层依然是可以自由通行的，因为这有充分的自然条件，那就是海水的密度要比冰山的密度大。如果我没有搞错的话，也就是说冰山沉入海水的部分与它浮出海面部分的比是三比一？”

“差不多是这样的，教授。海面上的冰山有1英尺，那么在海面下的冰山就有3英尺。并且，因为这些冰山不超过100米高，海面下的冰山就不至于深入到300米的海水。300米深对‘鹦鹉螺’号来说算得了什么呢？”

“根本不算什么，先生。”

“并且它可以潜入到更深的水层，一直到海水中的温度恒定的水层。在那里，我们可以抵御海面下零下30度或40度的寒冷。”

“是的，先生，您说得很对。”我很激动地回答道。

“唯一的问题就是，‘鹦鹉螺’号要潜入海底好几天，”尼摩船长紧接着又说道，“那么在这几天中，我们就不能调换船上的空气了。”

“就是这个问题吗？这个问题很容易解决，”我回答说，“‘鹦鹉螺’号上有容量巨大的空气储藏库，我们只要把储藏库全部装满，不就有够我们使用的空气了吗？”

“这个想法不错，阿勒纳斯先生。”船长微笑着回答说，“我不希望您到时责备我过于冒险了，所以我现在先提出我能想到的反对意见来，请您考虑一下。”

“您还有反对意见吗？”

“只有一个。那就是，如果南极是海，而且那片海完全被冻住了，那么，很可能到时我们就浮不出水面了。”

“是这样的，先生，不过，难道您忘了‘鹦鹉螺’号装有非常厉害的冲角了吗？如果南极的海面真被冻住了，到时我们可以沿对角线的方向直冲上去，冰面遭到剧烈的冲击，不是就会迸裂开了吗？”

“啊！教授，您今天还真是有不少的好主意呢！”

“并且，船长，”我愈来愈兴奋地接着说道，“我们为什么不能这样想呢，也许在南极跟在北极一样，人们都能碰到自由通行的海。无论是在南半球还是在北半球，冰冷的两极都跟陆地的两极不同。在还没有反

面的证据出现前，我们可以假定在地球的这两个极点或者有陆地，或者有跟冰层分开的海洋。”

“我也是这样认为的，阿勒纳斯先生，”尼摩船长回答说，“不过，我单单要提醒您注意这点，是因为您之前提出了许多反对我计划的意见，而您现在却又提出了许多支持我计划的赞成的理由。”

就像尼摩船长说的那样，我甚至要鼓励他这样做了。现在是我要把他拉到南极去，我走在前面了，我比他走得更远了……但实际上完全不是这样，我不过是个可怜的傻瓜。尼摩船长对这个计划的可行性与不可行性了解得比我要多得多，他不过是让我在这些看起来不可能实现的梦想中高兴高兴，甚至让我为之疯狂，这看来很好玩罢了。

不过，他一点时间也不肯浪费。跟我说完这番话后，他就发出信号，把他的大副叫了上来。两人用我听不懂的语言迅速地交流了一下。也许大副预先就得到了尼摩船长的通知，也许他也觉得这个计划可行，所以他没有表露出一丝惊异的表情。即使如此，他的冷淡也比不上葛瑟尔。当我告诉这个老实人，我们要一直走到南极去的计划的时候，他显露出的表情可以说是冷淡到了极点。他听了我的话后，就只说了一句“随先生的便好了”。我也只好满足于他的这种回答。至于尼德·兰，如果要问谁的两肩耸得最高，那一定就是这个加拿大人的两肩了。他对我说：

“您瞧，先生，您和您的尼摩船长真让我觉得可怜！”

“尼德·兰，我们是要到南极去呢。”

“去是可以去，但你们却回不来了！”说完这番话后，他就回他的房间去了。“为了不弄出人命。”他离开的时候这样对我说道。

但是，这个大胆计划的准备工作却还是按部就班地开始了。“鹦鹉螺”号用它那强大的抽气机把空气吸入储藏库，然后再用高压把空气储存起来。4点左右，尼摩船长告诉我，甲板上的嵌板要关起来了。我再一次看了一眼我们就要穿过的这座冰山。这个时候正是白天，天气晴朗，空气新鲜，很冷，温度在零下12度左右，没有风，所以这种温度并不会让人觉得很难受。

十来个船员走到“鹦鹉螺”号的两侧，他们拿着尖尖的铁镐，开始凿开船身周围的冰。不一会儿，船身就松动了。船员们很快就完成了这项工作，因为新结的冰还相当薄。然后，我们一起回到船舱中。当“鹦鹉螺”号的储水池装满了浮标线周围的自由海水后，它就潜到了水面下。我和葛瑟尔一起回到客厅中坐下。透过打开的玻璃，我们可以看到南冰洋的下层。温度表的水柱在上升，压力表的指针也在表盘上移动着。

到了水下300米左右，就像尼摩船长预测的那样，我们就到了冰山底部的水面了。但“鹦鹉螺”号依然在继续下沉，一直到了800米的水层。刚才水的温度是12度，但现在不超过11度，也就是说我们已经争取了两度。不用说，因为有热气机管，“鹦鹉螺”号一直保持着很高的温度。船的这些动作都按照尼摩船长的计划特别准确地完成了。

“请先生原谅，我要说一句，”葛瑟尔对我说，“我们一定可以过去的。”

“我也是这样想的！”我带着不容置疑的语气回答道。

在这畅通无阻的海底，“鹦鹉螺”号沿着西经52度向着南极的方向驶去。从67度30分到90度，“鹦鹉螺”号还要走过22度半的纬度，也就是说，它还要走过500多里。“鹦鹉螺”号这时的速度是每小时26海里，相

当于一辆快速行驶的快车的速度。如果它保持这个速度行驶，那么40个小时后，它就可以行驶到南极了。

由于来到了一片人类从未涉足的海域，受好奇心的驱使，晚上的一部分时间里，葛瑟尔和我一直待在客厅的玻璃边。受到“鹦鹉螺”号探照灯的照耀，海水晶莹雪亮，但海水中却一片荒凉，没有任何生命的迹象。鱼类不会待在这种像监牢般的海水中，它们会通过这里的这条通道从南冰洋游到南极那片自由的海中去。从长形钢铁船壳的振动，我们可以感觉得出“鹦鹉螺”号行驶得非常快。

深夜两点左右，我决定回房间休息几个小时。葛瑟尔和我一样，也要回房间休息了。穿过走廊的时候，我没有遇到尼摩船长，我想这个时候他一定是在那领航人的驾驶室里。

第二天，3月19日，早晨5点，我又来到了客厅。通过电力测程器，我发现，“鹦鹉螺”号的速度慢了一些，这个时候，它在很小心地慢慢排出储水池中的水，这说明它在上升。

我的心不自觉地跳动起来。我们就要浮出水面了，我们马上就可以呼吸到南极那自由的空气了吗？还没有。这个时候发生了一次冲撞，从发出的不爽快的撞击声音判断，我知道，“鹦鹉螺”号碰上了冰山底层的冰面，而且这个冰面还很厚。的确，用航海的术语来说，我们是“撞上了”，不过现在不是在冰面上，而是在冰面下撞上了，也就是在3000英尺的海洋深处“撞上了”。这就是说，在我们的头顶上有4000英尺的冰层，包括浮在水面上的1000英尺的冰层。这时海面上下所有冰层的高度，都超过了我们之前记录的任何高度。情形有些让人感到不安。在这一天内，“鹦鹉螺”号前前后后做了很多次尝试，但它总是会碰上盖在它头顶上面的像天花板一样的冰墙。有时候，它是在900米的水深处碰上

了冰山，也就是说那冰山有1200米厚，除了海底下900米深的冰层，还有300米的冰层浮在水面上。与“鹦鹉螺”号潜入水底的时候相比，冰山的高度现在又增加了一倍。

我小心地记录下冰山这些不同的高度，这样，我就获得了排列在海水中的这条冰山山脉的走势图。

晚上，我们的情况没有出现什么好转。在400米和500米的水深处，“鹦鹉螺”号总是会碰上冰山。冰山的厚度显然是减少了，但隔在我们和洋面之间的冰层还厚得很呢！现在的时间是晚上8点。按照每天的习惯，这个时候，“鹦鹉螺”号内部的空气早在4个小时之前就应该换过了。不过，虽然尼摩船长没有让储藏库放出一些新鲜的补充空气来，但我并不觉得怎么难受。

这一夜，我睡得很不好。希望和恐惧轮翻地出现在我的心中。一晚上，我起来了好几次。“鹦鹉螺”号还在继续摸索着上升。凌晨3点左右，我看见冰山下层的冰面只有50米了，也就是说，把我们和水面隔开的冰层不到100米了。冰山渐渐变成了冰田，山地渐渐变成了平原。我的双眼紧紧地盯着压力表。“鹦鹉螺”号沿着对角线的方向，向着那在探照灯照耀下闪闪发亮的冰面冲去。“鹦鹉螺”号在不断地上升，冰山像蜿蜒的栏杆一样不断地在降低，一海里一海里地变薄了。最后，在值得纪念的这一天，3月19日早晨6点，客厅的门打开了，尼摩船长走了进来，他对我说：“我们到了自由通行的海面了！”

第十四章 南 极

我飞奔到甲板上。

是的！自由通行的海。从我站的地方望过去，近处有一些散乱的冰块和漂浮的冰层，远处是一片大海，大海的上空是群鸟的世界，而水底下有成千上万的鱼类。海水的颜色按照深浅的不同，呈现出从深浓的靛蓝到橄榄的青绿。温度表显示，现在的温度是3摄氏度。与冰山附近的天气相比，这里就好像是春天，在北方的天际露出了远远的冰群的面貌。

“我们现在是在南极吗？”我问船长，同时心在不可抑制地砰砰跳着。

“我不知道。”他回答我说，“中午的时候我没有测量我们所在方位。”

“可是，太阳能穿过这些云雾吗？”看着那灰色的天空，我说。

“太阳只要露出一点就够了。”船长说道。

距离“鹦鹉螺”号南方两海里处，有一座高200米的孤立的小岛浮出了海面。“鹦鹉螺”号小心翼翼地向着小岛驶去，因为这片海中可能各处都有暗礁。一个小时后，我们到达了小岛。又过了两个小时，我们就绕着小岛走了一周。它的整个周长有4海里至5海里。一条狭窄的水道把它与一片广大的陆地分开了，或者那是一个大洲，我们还望不到它的边界。这片陆地的存在好像证明了莫利的假设是对的。的确，那位高明的美国学者指出，在南极和纬度60度中间，海上有浮动的冰群，这些冰群非常巨大，是在大西洋北部不会碰到的巨大冰群。根据这个事实，他得出一个结论，那就是南极圈中有大片的陆地，因为冰山在大海中间是没办法形成的，它们只有在靠近陆地的岸边才能形成。按照他的计算，覆

盖在南极的冰群形成了一个球形的圆盖，这个圆盖的宽度可能达到4000公里。

可是，“鹦鹉螺”号因为怕搁浅，只能停在相距这片大陆6米左右的岸边。我们看到，有一片雄壮的岩石层高耸在岸边。尼摩船长命人把小艇放到了海水中。船长以及他的带着各种器械的两个船员，还有葛瑟尔和我，我们一起来到了小艇上。这个时候是上午10点，我没有看见尼德·兰。我想加拿大人一定不愿承认南极就在他的面前。我们只划了几下桨，小艇就到了岸边。在葛瑟尔就要跳下小艇的时候，我把他拉住了。

“先生，”我对尼摩船长说，“第一个踏上这片陆地的应该是您。”

“是的，先生，”船长回答道，“我会毫不犹豫地踏上这极圈的土地。到今天为止，还没有一个人在这片陆地上留下他的足迹。”

说完这番话后，他轻快地跳上了岸。紧张激动的情绪让他的心脏不停地跳动着。他攀上了一块岩石，倾斜的岩石尽头是突起的一个犄角。站在那个岩石的犄角上，他交叉着两手，满眼是抑制不住的热情。他站在那里一动不动，静默地望着远方，就好像取得了这南极的所有权一样。在这种极乐情绪中过了大概5分钟后，他向我们转过身来，对我喊道：“先生，如果您愿意，就请上来吧。”

我跳下小艇，走向岸来，后面跟着葛瑟尔，那两个船员留在了小艇中。

岸上的土质是赭红色的凝灰岩，一直延伸到远处，就像是由一层层的砖石构成的一样。地上满是被火山灼烧的石头、火山喷出的火石以及石屑。很显然，这片大陆是由火山喷发形成的。往远处看，我们还可以看到某些地方在喷出轻微的烟，发出一股硫黄的气味，这证明在这片大

陆的内部仍然有火在喷发。可是，攀上一座高耸的悬崖，极目远眺，在半径几海里的圆周内，我们望不到任何火山。大家都知道，在南极地带，詹姆斯·罗斯曾经在东经160度、南纬77度32分上找到了还在活动的爱列贝斯和铁罗尔火山口。

这个荒凉的大陆上没有什么植物。一种单调的黑色苔藓丛生着，铺在黑色的岩石上。除此之外，仅有的是某种微生草木、原始硅藻、堆积起来的石英质的细胞植物、呈现大红和猩红色的黑角菜以及被退潮的海水带上来的鱼类。

岸边还有一些软体动物，比如小蚬、蛇类、心脏形的光滑贝，以及那些呈长方形的、膜质的、头由两个圆形的突出的耳叶形成的触须贝。我又看到在北方曾见过的无数的触须贝了，这些触须贝长约3厘米，鲸鱼一口就可以吞食掉它们一大群。这些美丽的翼步类动物，是大海中真正的蝴蝶。而往远处看去，使这海岸边流动的海水生动活泼起来的是出现在海底深处的植虫类——一些珊瑚树。根据詹姆斯·罗斯的观察，这些生活在南极海中的珊瑚树，在1000米深的海水中都可以生活。此外，还有属于海胞类的小翡翠珊瑚以及这一带地区所特有的许多海燕和散布在地上的许多海星。

但洋溢着生命气息的地方是在空中。空中有无数不同种类的鸟儿在上下飞翔，发出嘈杂的鸣叫声，混合在一起的叫声如此响亮，使得我们的耳朵发出了轰鸣声。除了天空中，还有一些鸟类栖息在岩石上，它们一点也不怕人，看着我们走过的时候，还很亲热地聚集到我们脚边。那是在水中和在陆地上行动起来都十分轻快、便捷的企鹅。有的时候，人们会把它们与动作敏捷的镊鸟搞混，但镊鸟在陆地上是没办法很敏捷地行动的，看起来非常笨拙。这些企鹅成群结队地聚集在一起，发出古怪的叫声。它们的动作很少，但叫喊声却十分响亮。

在这些鸟类中间，我看见有属于涉水鸟科的南极水鸟。它们的大小跟鸽子差不多。白色，有锥形的短嘴，眼睛周边有一圈红圈。葛瑟尔把这种鸟捉来当成食物，因为这类鸟如果烹调得当，味道是非常鲜美的。空中还有翼幅宽4米、煤黑色的信天翁飞过，它们也叫海鸳，这个名称真是名副其实。还有巨大的海燕类，其中包括最喜欢吃海豹的、翼呈拱形的弓形海燕，身上带有白色和黑色的海棋鸟——一种很小的海燕，以及有的是整体呈灰白色、两翼边缘是栗子色，有的整体呈蓝色的一组海燕，这种蓝色的海燕是南冰洋的特产。我对葛瑟尔说道：“灰白色的那种海燕油脂很多。在费洛埃群岛，人们会在它们的腹部放上灯芯，点燃后可以当灯来用。”

“就差一点儿，”葛瑟尔回答说，“它们就可以完全是一盏灯了。这样看来，如果大自然能在它们的身上再预先准备一个灯芯就好了！”

走了半海里的路程后，地上出现了许多洞窟，那是短翼潜水鸟的鸟巢，是它们筑好后用来产卵的。当我们走过的时候，从洞窟中飞出很多短翼潜水鸟。它们发出像驴一样的叫声。这些鸟的身材跟我很像，全身呈石板色，下面有一圈白色，脖子上有柠檬色的圆圈。后来，尼摩船长打了好几百只这种鸟，因为它们那黑色的肉可以吃，而且味道非常鲜美。而这些鸟就那样站着让人拿石子打死，并没有想逃走的意思。

可是，云雾一直没有散开，到了11点钟的时候，太阳还没有出来。这让我觉得非常焦急，因为没有太阳，我们就不能做各种观察。那么，我们如何确定我们是到了南极呢？

当我走回尼摩船长身边的时候，发现他用胳膊肘靠在一块岩石上，一言不发，只是用双眼紧盯着天空。看来他也有些不耐烦了，好像在生气。但这又有什么办法呢？这个大胆又具有强大力量的人是不可能像指

挥“鹦鹉螺”号超越海洋中的各种困难那样指挥太阳的。

中午到了，太阳仍然没有出来。甚至在云雾的遮挡下，人们根本没办法明确它的具体位置。不久后，云雾又变成了雪花。

“我们明天再来好了。”船长干脆利落地对我说道，然后我们一起去看停在不远处的“鹦鹉螺”号。

当我们离开“鹦鹉螺”号以后，船上的船员把渔网放入了大海中，我兴致勃勃地观察着人们刚从海里捕获的鱼类。在南极海里生活着很多候鱼，它们是为躲避纬度较低海域水层的风暴，才转移到这里来的。可是到了南极以后，它们往往又成了海豚和海豹的猎物。除此之外，我看见一种灰白色的软骨鱼，它们身长约10厘米，身上有斜横的淡白条带，并且生有尖刺，这是南极的刺鳍鱼；还有南冰洋的软骨奇鱼，它们的身子拉得很长，足有3英尺长，这种鱼有着银白色和光滑的表皮，圆圆的突起的头，脊背上有三支鳍，头的最前端是一支向嘴边弯过去的喇叭管。我吃过这种鱼的肉，觉得味道一般，吃起来平淡无味，但葛瑟尔不这样认为，他很喜欢吃。

直到第二天，暴风雪还没有停止，在这种情况下，人们根本不可能站在“鹦鹉螺”号的甲板上。当我在客厅中记录我这次来到南极大陆后的所见所闻的时候，我听到了在大风雪中间上下飞翔的海燕和信天翁发出的号叫声。“鹦鹉螺”号并没有停泊在一处，在太阳掠过天际投下的曙光中，它沿着海岸驶去，又向南行进了10海里左右。

第二天，3月20日，暴风雪终于停了。天气比较寒冷，温度表显示当下的温度是零下2度。浓雾散开了，我希望今天我们可以测出所在的方位。

尼摩船长还没有出来，于是葛瑟尔和我先乘坐小艇去了陆地。这里的土质跟我们第一次踏上这片大陆落脚处的土质一样，也是由火山喷发形成的。满地都是火山喷发后的迹象，有火山岩、玄武岩等，但我还是没有看到喷出这些岩石的火山口。这里跟之前我们踏足的地方一样，有无数的海鸟，这给南极大陆增添了许多生动活泼的气息。除了海鸟，这里还生活着一大群海中的哺乳类动物，那是各种不同种类的海豹。当我们走过它们身边的时候，它们会用温和的眼光盯着我们看。这些海豹有的躺在地上，有的睡在倾斜的冰块上，有些刚从海里上来，有些又回到了海里去。看见我们近前，它们并不逃走，因为它们从没有跟人打过交道，并不害怕人类。这里的海豹有很多，足足可以装满好几百艘船。

时间是早上8点。我们还有4个小时来观察太阳以确定我们的方位。在花岗石的悬崖中间，有一处宽大的港湾，呈新月形，我向着这个港湾一步步走去。

站在那里，放眼望去，在我们的周围，不管是陆地上还是冰层上，一望无际的都是海中的哺乳动物。我眼光不自觉地开始搜寻那个老头蒲罗德，在神话里，他是给海神尼普顿看守家畜群的老牧人。

这里的海豹特别多。它们三五成群地形成不同的队伍，每个队伍里都有雄的和雌的海豹。雄海豹在关照整个家族，雌海豹在给它们的小海豹喂奶，有些已经成年的年轻海豹在远一些的地方随意走着。这些海豹要走动的时候，它们的躯体会伸缩，然后一跳一跳地走，它们还会用自身那不发达的鳍来帮助走动，走起来相当笨拙。它们那短短的鳍在同类海牛的身上，却变成了真正的前臂。但是，一旦它们进入海里，就会变得特别灵活，因为这些海豹的骨盘狭窄，毛又短又密，脚是掌形的，非常有利于游泳。当它们游上岸休息的时候，姿态看上去非常美观，特别招人喜欢。

我向葛瑟尔指出，这鲸科动物的大脑叶特别发达，除了人类以外，任何哺乳动物都没有这么丰富的脑髓神经，所以它们非常聪明。因此，只要接受某种程度的训练，这些海豹就很容易被驯养，进而成为家畜。我同意某些生物学家的意见，只要给予海豹适当的训练，人们就可以把它们当成打鱼的猎犬，让它们为人类服务，做许多有益的事。

大部分海豹睡在岩石上或者沙地上。这些海豹是没有外耳的，这一点，它们跟有突出的外耳的海獭不同。在这里，我还看见好些海獭的变种，这些变种的海獭长3英尺，毛是白色的，它们的头就像猎狗一样，上下颚共有10枚牙齿，其中有4枚门牙、2枚百合花形的大虎牙。在它们中间，还有海象走来走去。海象也是海豹的一种，它们是有可以活动的短鼻子的海豹，是海豹这种动物中体型最大的，它们身长20英尺，高大约10英尺。看见我们走近，它们一动也不动。

“它们不是很危险、会伤人的动物吗？”葛瑟尔问我。

“不，”我回答说，“除非是有人要攻击它们，它们才会伤人。海豹为了保护它的子女，甚至可以把渔人的小船弄成碎片，这并不是什么稀奇的事。”

“它是为了自卫，那是它的正当权利。”葛瑟尔立即说道。

“我没说不是呀。”

又走了两海里远，我们就被一片高高矗立的岩石挡住了去路，正是因为有这些岩石，所以这片港湾才会不受南风吹打的影响。这片耸立的岩石就在海边，海浪打在岩石上，不时有泡沫飞溅，而在岩石外，有隆隆的吼叫声传来，这吼叫声就像一群牛羊在反刍时发出的响声一样。

“这是……”葛瑟尔说，“水牛们在开音乐会吗？”

“不是的，”我说道，“这是海马们在开音乐会。”

“它们是在打架吗？”

“也许它们是在打架，也许它们是在玩耍。”

“请先生原谅，我们应当去看一看。”

“好的，葛瑟尔，我们应当去看一看。”

于是，我们走过那些乱石，走过那些被冰块弄得很滑的碎石，走过那些灰黑色的岩石地。我不止一次地滑倒了，搞得我腰部很痛。可能是因为葛瑟尔比较小心，也可能是因为他比较结实，他一次也没有摔倒过。他把我扶起来后，对我说：

“如果先生把两腿分开一些走，就容易保持身体的平衡了。”

终于走上了那片岩石的高处，展现在我们面前的，是一片白色的大平原，上面全是海马。这些海马正在成群结队地玩耍，刚才我们听到的是它们快乐的声音，而不是它们愤怒的号叫声。

海马的外形和四肢跟海豹很像。但它们的下颚没有虎牙和门牙，而上颚有两枚长约80厘米的虎牙，下颚还有长约33厘米的角牙，这些牙的牙质致密无疵，比象牙还要硬，而且不容易变黄，成为人们争相谋求的珍品。因此，海马受到过度的猎取。猎取海马的人盲目对海马进行屠杀，不管是有孕的母海马还是幼小的海马，他们都不放过，每年猎杀的海马数量超过4000条，如果这样下去，不久海马就会从地球上完全消失了。

从这些新奇的动物身边走过，它们一点也不害怕，待在那里没有动，这让我可以从容地观察它们。它们的皮很厚，皮上还有很多皱纹，颜色是类似赭红的茶褐色，皮毛短而少。有些海马长到了4米。它们比北冰洋的海马要安静，胆子也要大，因为它们并没有委派特别选出来的海马哨兵在它们露营地的四周进行看守。

观察完海马后，我就想回去了。这个时候的时间是11点。如果尼摩船长觉得条件允许，可以进行观察、测量，那我就想当面看着他做。可是，我不敢存有这一天太阳会出来的奢望。天边仍然有重重积压的浓云，我们依然看不到太阳的影子。好像这十分宝贵的太阳，不愿意在这地球上人迹罕至的地点，露出头来给人们看。

我想我们应当回“鹦鹉螺”号去了。我们沿着悬崖顶上一条狭窄的斜坡走下去。11点半的时候，我们到了登陆的地方。尼摩船长乘坐搁浅在那里的小艇来到了这里。我看见他站到一块玄武石岩上，旁边放着他的器械。他用双眼紧紧盯着北方的天际，那里，太阳画出了一条长长的曲线。

我站到他的旁边，静静地等候着，没有说话。正午的时间到了，跟昨天一样，太阳还是没有出来。这真是不由人的事。我们又没办法做观察工作了。如果明天还是不能做观察工作，恐怕我们就只好放弃测定所在方位的事情了。

今天是3月20日，明天3月21日正好是春分，如果不考虑折射的光，我们就看不到阳光了，因为太阳将有6个月的时间没入水平线以下不能出来。南极圈的极夜时期就要开始了，这会持续到9月中的秋分，太阳才会再次出现在北方的天际，沿着长长的螺旋线上升，直到12月21日。12月21日是北冰洋地区的夏至日，过了这一天以后，太阳又开始下降。

因此，明天就是太阳最后一天出来的日子了。

我把我的想法和顾虑告诉了尼摩船长。听完我的话后，他对我说：

“您说得对，阿勒纳斯先生，如果明天我测量不了太阳的高度，那么在接下来的6个月里，我就都不能做这个测量工作了。不过也正是因为这次航行的机会，我们才能在3月21日的时候来到这南极海中。如果太阳能稍微露一下头，我们就可以很容易地测定我们所在的方位。”

“为什么这么说呢，船长？”

“因为太阳是沿着拉长的螺旋线走的，想在水平线上确切测量它的高度，是很困难的，即使使用仪器也很容易得出错误的结果。”

“那么，您打算怎么测量呢？”

“我打算使用我的航海時計。”尼摩船长回答我说，“明天3月21日，把折光作用估计在内，如果太阳直射线正好切在北方的水平线上，那就可以判断我们是在南极点上了。”

“是的，”我说，“不过，从数学的角度看，通过这种测量方式得到的结果并不完全精确，因为春分时间不一定是在正午。”

“当然，先生，但差数也不会超过100米，并且我们也不需要更精确的结果。那么，我们明天再来吧。”

尼摩船长转身回船上去了。葛瑟尔和我一直待到了下午5点。我们不停地在海滩上跑来跑去地做观察、做研究。除了捡到一颗海鸟蛋外，我们没发现什么新奇的东西。这颗海鸟蛋特别大，我想对于喜好收集珍奇事物的收藏家来说，他可能愿意出1000法郎来买这颗海鸟蛋。因为在

它浅黄色的外壳上有像是用象形文字描绘的线条和花纹，这足以使它成为一件稀奇的珍玩。我把它交给了葛瑟尔。葛瑟尔把它拿在手中，小心翼翼地，走起路来脚步很稳，就像是在保护珍贵的中国瓷器一样，完好地把它带到了“鹦鹉螺”号上。

到了“鹦鹉螺”号船上后，我把这颗海鸟蛋放在了陈列室的一个玻璃橱中。

晚餐我吃得很好，吃了一块味道很美的海豹肝，我觉得吃起来味道很像猪肝。吃完晚饭后，我就回房间睡觉了，在临睡前，我像印度人一样，虔诚地祈求太阳的恩惠，希望它明天可以出来。

第二天，3月21日早晨5点，我走上了甲板，看到尼摩船长已经在甲板上了，他对我说：

“天气已经变得晴朗一些了，看来太阳很有希望可以出来。吃完早饭后，我们就一起到陆地上去，选择一个合适的地点做我们的观察工作。”

跟尼摩船长确定了计划后，我就去找尼德·兰了。我想拉他跟我一起去。但固执的加拿大人拒绝了我的请求。我看得出来，正如他的脾气越来越坏一样，他也一天比一天沉默了。因为早预料到会是这样，所以对于他的固执、不愿意去，我也并不觉得惋惜。陆地上有那么多的大海豹，早知道我就应该用它们做诱饵，来引诱这个粗心又不爱思考的打鱼人了。

吃完早餐后，我就乘坐小艇到陆地上去了。在夜间的时候，“鹦鹉螺”号又前进了好几海里，所以现在“鹦鹉螺”号在距离岸边整整1海里的大海，这里的岸上有高400米至500米的岩石矗立。小艇上载了我、尼

摩船长、两个船员，以及我们做测量工作要用的仪器，即航海時計、望远镜和晴雨表。

当我们乘坐小艇去陆地上的时候，我看见了許多鲸鱼，它们是南极特有的鲸鱼。一种是没有脊鳍的平直鲸，这种鲸的腹部有很多皱褶，有宽大的灰白色的鳍的驼背鲸，尽管它叫驼背鲸，但它们那隆起的背并没有形成翼；还有黄褐色的、最活泼的鲸科动物鳍背鲸。远远地，我们就听到了这些巨大的动物发出的声音，它们正在把混有气体的水柱喷向高空，远远望去，它们就好像在喷出阵阵的浓烟。这些大型的哺乳类动物在安静的海水中往来、玩耍，现在，南极的这片海水已经成为受猎人过度追逐的鲸科动物的避难所了。

9点钟的时候，我们靠岸了。天空明朗起来，浓浓的云层向着南方散去，水面的雾也在慢慢地消失。尼摩船长向着一座高峰走去，我想他一定是在这座高峰上做他的观察工作。于是，我们跟在船长后面，在满布火山喷发时所发出的硫黄味的气体中，沿着满是尖利的火石和浮石的路，艰难地往上攀登。虽然船长已经很久没在陆地上生活过了，但走上这些最陡峭的斜坡，他依然显得轻便灵活，不单我比不了，就是追赶羚羊的猎人看到后也会觉得羡慕的。

我们花了两个钟头的时间才攀上这座满是云斑岩、玄武岩的高峰。站在峰顶上往下看，我们看到了一片广阔的海，远远地延伸到北方，与天际合为一线。在我们的脚下，是让人目眩的明亮的白冰场。在我们头上，随着云雾的散去，透出了带着一丝淡白的蔚蓝色。在北方，太阳就像一只火球一样，但它的边缘已经被水平线的锋刃削去了一角。在海水的中间，有非常好看的喷水花束成百上千地开放着。远远地，我们看到了“鹦鹉螺”号，看上去就像是一只正在酣睡的鲸鱼。在我们后面，东方和南方的地方，是一片广阔的陆地，布满瞭望不见边际的岩石和凌乱的

冰群。

走到峰顶后，尼摩船长拿出晴雨表小心地开始测量这座山峰的高度，因为要确定我们所在的方位。

差一刻就到正午了，因为折光作用，太阳像一个金盘一样出现了，它把它最后的光芒撒在了这人迹罕至的荒凉的大陆。

尼摩船长戴上网形线望远镜观察那沿着一条拖拉得很长的对角线渐渐沉入水平线下的太阳。这种望远镜利用一个镜面可以校正折光作用。我手里拿着航海時計，心跳得很快。如果太阳轮盘隐没一半的时候，航海時計正好是指着正午，那就可以确定我们是在南极点上了。

“正午！”我喊道。

“南极！”尼摩船长用很严肃的声音说道，同时把望远镜递给我，望远镜里显出的太阳正好在水平线的位置上被切成了完全相等的两半。

我注视着那照在峰顶上的最后的阳光和那从层峦叠嶂的山峰上投下来的黑影。

这时，尼摩船长用手扶住我的肩，对我说：

“先生，1600年，荷兰人迪尔克被海浪和风暴吹送到了南纬64度，发现了南设得兰群岛。1773年1月17日，著名的库克沿着东经38度，到达了南纬67度30分；1774年2月28日，他沿着西经109度，到达了南纬71度15分。1819年，俄国人波林格瑟到了南纬69度上；1821年，他沿着西经111度，到了南纬66度。1820年，英国人布莱斯·福尔在南纬65度上停了下来。同年，美国人穆里尔，当然我怀疑他的记述不太可靠，从西经42度往上走，在纬度70度14分上发现了自由流动的海。1825年，英国人

鲍威尔到达南纬62度。同年，英国人维德尔，一个捕海豹的渔人，沿着西经35度，一直到了南纬72度14分；沿着西经36度上，一直走到了南纬74度15分。1829年，英国人福斯图指挥着‘谢特克里’号，占领了南纬63度26分、西经63度26分的南冰洋大陆。1831年2月1日，英国人毕司格在南纬68度50分发现了恩德比岛；1832年2月5日，他在南纬67度发现了阿德拉伊岛；2月21日，他在南纬64度45分发现了格拉罕岛。1833年，法国人杜蒙·居维尔在南纬62度57分的冰山前停了下来，并发现了路易·菲利普岛的所在位置；两年后的1月21日，他到达了南方的另一尖点，位于南纬66度30分的阿德利岛；8天后，他到了南纬64度40分被他命名为卡拉利的海岸。1838年，英国人维尔克斯沿着东经100度前进到南纬69度的地方。1839年，英国人巴连尼在南极圈的边界发现了沙布利邓岛。最后，1842年，英国人詹姆斯·罗斯走上爱列贝斯山和铁罗尔山，1月12日，在南纬76度56分、东经171度7分，他发现了维多利亚岛；同月23日，他测定了南纬74度的方位，这是当时可以达到的最远的位置了，27日他到达南纬76度8分，28日他到达南纬77度32分，2月2日他到达南纬78度4分；1842年，他回到了他一度越不过去的南纬71度。那么，现在，我，尼摩船长，在1866年3月21日，在南纬90度上到达了南极点，我占领了面积等于人类所知道的地球大陆全部面积六分之一的这一部分的土地。”

“船长，您准备用什么名字来给它命名呢？”

“先生，我打算用我的名字来给它命名！”

在说这话的时候，尼摩船长展开一面黑旗，旗子的中间有一个金黄的N字。然后，他回过身来，面对着把最后的光芒射向大海水平面的太阳喊道：

“再见，太阳！沉下去吧，光辉的太阳！就请你在这自由的海底安息吧，让那六个月的黑夜遮蔽我的新领土吧！”

第十五章 意外还是偶然

3月22号早晨6点，“鹦鹉螺”号便准备离开。天气很冷，最后一丝黑暗没入了清晨的曙光。星星在天空闪耀，特别明亮，我们可以看到南冰洋地区的极星南宿星在头顶的正上方闪烁。

温度表显示，温度已经降到了零下12度，寒风吹来，刺入肌骨。流动水面上的冰群愈来愈多了，无数灰黑色的冰块浮在水面上，海面渐渐冻结成了一整块，形成了新的冰层。很显然，南极海面在冬季六个月的时间里都是结冰的，绝对不可能通过。那么，这个时期的鲸鱼是怎样生活的呢？它们会从冰山下面游出去，去找寻比较适宜居住的海域。而海豹和海马已经习惯了严寒的天气，仍然会留在这冰天雪地中生活。这些动物的天赋异禀可以帮助它们在这冰天雪地里挖掘洞穴，而洞穴的门是敞开的，这保证了它们可以到洞口来呼吸。被寒冷所迫，鸟类都迁移到北方去了。这个时候，这些哺乳类动物是这南极大陆唯一的主人了。

这时，“鹦鹉螺”号的储水池装满了水，开始慢慢下降。下降到1000英尺深的时候，它不再下降。强大的推进器搅动着海水，使得“鹦鹉螺”号以每小时15海里的速度向北方直直地行驶而去。到晚上的时候，它已经行驶到冰山下巨大的冰壳下面了。

为避免“鹦鹉螺”号的船壳在碰到一些沉在水中的冰块时产生危险，

客厅的嵌板完全关闭了起来。因此，这一天的时间，我都在整理我的笔记。我总是在想在南极点时的情景。我到达了那人迹罕至的地方，一点也不觉得疲倦，没有感到任何危险，就像坐在火车车厢里在铁轨上溜过去一样。而现在是归途了，还会有什么与之相似的新鲜、令人惊奇的事在等待着我吗？我想一定还有，海底的神奇是层出不穷的。可是，自从因偶然的机会有来到这艘船上以来的五个半月里，我们已经走了14000里。在这比地球赤道线还要长的旅途上，有那么多或新奇或可怕的偶然事件使得我们的旅程惊心动魄，兴味无穷。克列斯波林中打猎，托列斯海峡搁浅，珊瑚墓地，锡兰采珠，阿拉伯海底地道，桑多林火海，维哥湾的亿万金银，大西洋洲，南极！对所有这些事情的怀念，在夜间像梦一样在我的脑子里不断掠过，使我一刻也不能安歇。

凌晨3点左右，我被猛烈的一下冲击惊醒了。我立即起来坐在床上，在黑暗里仔细地听。这时候，我突然被抛到了房子的中间。很显然，“鹦鹉螺”号是在碰上什么东西后发生了很严重的倾斜。我靠着墙板，沿着墙来到走廊，又从走廊慢慢来到客厅。客厅被天花板上的灯光照得通明。桌椅家具都倒了。但幸运的是，那些玻璃柜的下部钉得很结实，所以没有倒下来。船左舷挂的图画，由于垂直线发生了转移，都被贴在了绣花挂毡上，挂在了右舷上，下面的框缘离开原来的位置有1英尺远。这时“鹦鹉螺”号往右倾斜，并且完全不动了。我听到脚步声和嘈杂的人声从船的内部传来，但尼摩船长并没有出来。在我正要离开客厅的时候，尼德·兰和葛瑟尔进来了。

“发生什么事了？”我马上问他们。

“我正要来问先生呢。”葛瑟尔回答说。

“好奇怪呀！”加拿大人喊道，“我知道是怎么回事！‘鹦鹉螺’号一定

是碰到什么东西上了，从它倾斜的情况来判断，我想这一次不会像上一次在托列斯海峡中那样幸运了，它可能不会脱身了。”

“不过，”我问，“它至少是在水面上吧？”

“这个我不知道。”葛瑟尔回答道。

“这个很容易确定。”我说。

我去看压力表，看后非常惊异，我看到压力表的表针指着360米深的水层。

“这是怎么回事？”我喊道。

“我们需要去问一下尼摩船长。”葛瑟尔说。

“可我们到哪里去找他呢？”尼德·兰问道。

“你们跟我来。”我对我的两个同伴说。

我们离开了客厅。图书室中没有人。中央楼梯边、船员工作室也没有人。我想尼摩船长也许是在驾驶室，我们最好还是等着，于是我们三人又回到了客厅。我这里就不讲加拿大人是如何大声咒骂的了。这是一个让他发火的好机会，我希望他的坏脾气都能尽情发泄出来，所以我没有回应他一句。

这样过了大概20分钟，我们尽力想去听清楚“鹦鹉螺”号里发出的一些最轻微的声音。这时候，尼摩船长走进了客厅。他好像没有看见我们。他的面容经常是很镇定又没有表情的，但现在却露出一些不安的情绪。他静静地看看罗盘和压力表，把手指放在平面图上南冰洋的这一部

分。

我不想打断他的思路。直到过了一刻钟的时间，当他转过身子面向我的时候，我才拿他在托列斯海峡对我说的一句话反问他：

“船长，是偶然事件吗？”

“不，”他回答道，“先生，这一次是意外事件。”

“很严重吗？”

“可能很严重。”

“会有危险吗？”

“没有。”

“‘鹦鹉螺’号触礁了吗？”

“是的。”

“这次是因为什么触礁的呢？”

“是由于大自然的任性胡来，而不是由于人们的笨拙无能。我们的指挥驾驶并没有出一点错误。可是，我们不能阻止平衡力发生作用。人们可以违背人为的法则，但却不能抵抗自然的法则。”

尼摩船长在这个时候还来做这种哲学思考，真是太让人惊奇了。不管怎么说，我觉得他的答复对我没有起到一点帮助作用。

“先生，”我继续问道，“我可以问问这次事故发生的原因吗？”

“一群庞大的冰块，整整一座冰山，倒了下来。”他回答我说，“当冰山底部或受温热的水流或受来回水流的冲击减损的时候，它们的重心就会往上移。那时，它们就会发生大的翻转。现在的情形就是这样。‘鹦鹉螺’号在水底行驶的时候碰上了一个大的翻倒的冰群。这个冰群从船身下溜过。‘鹦鹉螺’号被冰群那巨大的力量顶了起来，被带着到了浅一些的水层，然后就不动了。”

“如果我们把储水池里的水都排出去，使船重新获得平衡，那么‘鹦鹉螺’号不就能脱身了吗？”

“目前就是在做这个工作，先生。您可以听到抽水机正在抽水的声音。请看一下压力表上的指针，它显示‘鹦鹉螺’号正在往上升，但是同时冰群也在跟‘鹦鹉螺’号一齐向上升，一直要到这个冰群被一个障碍物阻挡住，我们才有可能脱身。”

果然，“鹦鹉螺”号一直向右倾斜着倒在那里。只有当冰群停下来的时候，它才可能恢复平衡。但在这个时候，谁知道我们会不会碰到冰山的上部，被挤在两个冰面中间呢？

我想着我们现在所处的环境可能会面临的一切后果。

船长不停地注视着压力表。自打撞上冰群后，“鹦鹉螺”号只上升了150英尺左右，但它一直是倾斜的。忽然，我们觉察到从船壳上传来的一种轻微的移动。很显然，“鹦鹉螺”号恢复了一点平衡，站起一点来了。悬挂在客厅中的东西分明回到了它们原来的位置，墙板已接近垂直。我们谁也没有说话，仿佛能听到心脏跳动的声音。我们一直看着，感觉船立了起来，我们脚下的地板又变为横平面的。

10分钟过去了。

“‘鹦鹉螺’号终于恢复平衡，站起来了！”我喊道。

“是的。”尼摩船长说道，同时他向客厅的门走去。

“不过，我们能浮上去吗？”我问他。

“当然能浮上去。”他回答说，“因为储水池还没有排水，排水后，‘鹦鹉螺’号自然就可以浮上海面。”

船长离开片刻，我看见船员们在得到他的命令后停止了操作，“鹦鹉螺”号不再上升了。是的，它可能碰到了冰山的底部，让它留在水中会更好一些。

“我们侥幸脱险了！”葛瑟尔说道。

“是的，如果没有脱险，我们就可能在这些冰块中间被压扁，至少会被困住，因为没有充足的空气……是的，我们侥幸脱险了！”

“让它完蛋好了！”加拿大人小声嘀咕着。

我不想与加拿大人做无谓的争辩，于是没有回答他。而且，嵌板在这时候打开了，外面的光线透过嵌板的玻璃照了进来。

就像我说得那样，我们现在完全是在水中。不过，在“鹦鹉螺”号两边，相距10米左右的距离，各竖起了一道雪白炫目的冰墙。船的上下两方也有同样的冰墙。在船的上面，因为被冰山下层的冰面遮了起来，所以就像多了一个宽阔的天花板。在船的下面，因为倒下去的冰块在慢慢滑下去的过程中遇到了两侧的冰墙，并找到了一个支点后就不动了，所以也维持着它目前的这种位置。“鹦鹉螺”号是被困在冰洞里了。这冰洞宽约20米，里面都是平静的水。所以，如果它要从这冰洞里出来并不困

难，或向前进，或向后退，然后再往下行数百米，走到冰山下面就可以找到一条通路了。

客厅天花板上的灯熄灭了，但还是有亮的光线照射进来。那是来自四面冰墙的强烈反射，它们把“鹦鹉螺”号探照灯的光强烈地反射进客厅中来了。对于光线在这些任意切割的冰群上所发出的光线，我简直不能用语言来描述，冰上的每一角度、每一条棱、每一个面，都按着分布在冰上的线脉的不同性质，发出种种不同的光线。这就像一个令人炫目的巨大的珠宝玉石矿藏，特别是青色玉石的青线、蓝宝石的蓝光和玻璃翠的碧光交织在一起，使得处处都有无限柔和的蛋白的色调，这些光散布在晶莹的冰群的尖点中间，就像有许多双目不能直视的亮眼的钻石一样。此时，探照灯的光力增加了百倍，就像灯光通过了巨大灯塔的凸镜那样。

“好美！好美！”葛瑟尔叫了起来。

“是的！真美！”我说，“真好看。尼德·兰，是不是？”

“是的！真美！”尼德·兰回答说，“真华美！真壮观！我真恨自己，我不得不这样说。人们从没有看过这样的景象，不过这景象可能需要我们付出很大的代价。直说的话，那我想，我们眼前所看到的景色是上帝不许人的眼睛看到的！”

尼德·兰说得对。这真是太美了，实在不像是凡人所能看到的景色。

忽然，葛瑟尔喊了起来，我回过头来问道：“什么事？”

“先生快把眼睛闭起来！先生不要看了！”

葛瑟尔说这话的时候，急忙用手遮住了眼睛。

“老实人，你怎么了？”

“我眼花了，我看不见了！”

我向玻璃那里看过去，但我的眼睛忍受不住那强光。

我知道是怎么回事了。“鹦鹉螺”号正在快速前进，所有冰墙上那些静止的光忽然变成了像雷电发出的光芒。这数亿万“钻石”发出的晶光混合起来了，在推动机的推动下，“鹦鹉螺”号正在一个电光熔炉中行驶。

这时，客厅的嵌板又关闭了起来。当我们的眼睛受到光线过度猛烈的照射后，眼睛上似乎出现了重影，一直有光线附着在眼膜上。我们把两只手按在眼睛上，过了好些时候才让眼中的纷乱得以恢复。这时候，我们才敢把双手放下来。

“天哪，我从没有见过这样的景象！”葛瑟尔说。

“我也从没有见过！”加拿大人回答道。

葛瑟尔又说：“看惯了这些自然界的神奇景象后，当我们回到陆地上的时候，对于陆地上那些由贫乏可怜的人手造出来的简陋的小东西，我们会怎么想呢？不！人类居住的世界对于我们来说真是太没意思了，不值得我们注意！”

这样的话从一个冷淡的佛莱蒙人口中说出来，可以看出我们已经兴奋到了何等程度。可是，加拿大人却伺机浇了一盆冷水。

“人类居住的世界！”他摇摇头说，“你放心吧，葛瑟尔。我们回不

去了！”

那时是早晨5点。这个时候，“鹦鹉螺”号的前端又发生了一次撞击。我知道那是它的冲角碰上了一个大的冰群。这可能是由于不慎驾驶导致的，因为这条海底地道满是冰群，并不容易行驶。因此，我想，尼摩船长可能是在改变路线，或是绕过那些障碍物，或是沿着地道的弯折处行驶。总之，“鹦鹉螺”号并没有完全被阻止，依然可以前进。但是，完全出乎我意料的是，“鹦鹉螺”号显然是在向后倒退。

“我们是要倒回去吗？”葛瑟尔问道。

“是的。”我回答说，“恐怕再往前走，这个地道是没有出口的了。”

“那么……”

“那么，”我说，“很简单，我们倒回去，从另一个口出去就可以了。”

我这样说是想表示我心里很镇定，但实际上并非如此。这时，“鹦鹉螺”号倒退着行驶，速度愈来愈快，机轮倒着转，带着我们疾驰而去。

“我们要被耽搁时间了。”尼德·兰说。

“早几个钟头或晚几个钟头都没关系，只要能出来就行。”

我不停地从客厅到图书室来回走着，我的同伴们坐在那里一言不发。不久后，我躺在长沙发上，拿起一本书，开始机械地看起来。一刻钟后，葛瑟尔走过来，对我说：

“先生，您看的这本书很有趣吗？”

“很有趣。”我回答道。

“我想也是很有趣。先生看的是先生写的书呢！”

“是我写的书吗？”

正是，我手中拿着的是那本《海底的神秘》。我真是没想到会这样。我把书合起来，又来回地走起来。尼德·兰和葛瑟尔两人站了起来，要离开。

“朋友们，请留下吧。”我拉住他们说，“我们留在这里，直到我们走出这条走不通的道路。”

几个小时过去了，我时不时地去看那挂在客厅墙壁上的机械压力表，表针指示，“鹦鹉螺”号一直维持在300米深的一个水层，罗盘总是指南，测程器显示行驶速度是每小时20海里。就一个很窄的水道来说，这是很快的速度了。尼摩船长知道船不能行驶得过快，但这个时候，几分钟感觉就像几个世纪一样漫长。

8点25分左右，“鹦鹉螺”号又发生了第二次碰撞。这一次是在船的后部。我开始面色发白。我的同伴们走到我的身边。我拉着葛瑟尔的手，我们面面相觑，都没有说话，只是用眼睛示意，这比用语言来表达我们的想法好像会更为直接一些。

这个时候，尼摩船长走进了客厅，我迎上向前去问道：“南边的路也堵住了吗？”

“是的，先生。冰山翻倒的时候把所有的出口都堵住了。”

“我们是被困住了吗？”

“是的。”

第十六章 缺少空气

就这样，“鹦鹉螺”号的四周都是不可能通过的冰墙，我们成了冰山的俘虏。加拿大人用他那粗大的拳头拍打着桌子，葛瑟尔则沉默不语。我直直地盯着船长。他的面容又恢复了平常冷淡、严肃的表情，他两手交叉着，似乎在思考着什么。“鹦鹉螺”号不动了。这个时候，船长说话了，他镇定地对我们说：

“先生们，在目前我们所处的情况下，有两种死的方式。”

这个神秘人物好像一位数学教师在给他的学生解答算术题。他说：

“第一种死的方式是被压死，第二种死的方式是被闷死。没有饿死的可能，因为‘鹦鹉螺’号储藏的粮食还有很多，足够我们吃的，所以我们就来考虑一下压死或闷死的可能性。”

“船长，”我回答说，“我们不用怕闷死，因为储藏库还有满满的空气。”

“对，”船长接着说，“可是这些空气只能使用两天，现在我们在水中已经待了36个小时了，‘鹦鹉螺’号污浊的空气需要换了。到48小时的时候，我们储藏的空气就会用完。”

“那么，船长，我们只要想办法在48小时前脱身就可以了。”

“至少，我们应该想个办法把围住我们的冰墙凿开。”

“从哪一面凿呢？”我问道。

“通过探测器我们就会知道。我会让‘鹦鹉螺’号搁浅在下部冰层，然后让我的船员穿上潜水衣下去，从冰墙最薄的地方凿开冰山。”

“可以把客厅的嵌板打开吗？”

“可以，‘鹦鹉螺’号已经停下来了。”

尼摩船长离开了。不久后就传来了哨声，我知道是储水池在储水。不久，“鹦鹉螺”号又慢慢下沉了，停在了350米深的冰层底下，也就是冰山下部的冰层潜入水底的深度。

“朋友们，”我说，“形势很严峻，但我相信你们可以拿出自己的勇气和力量来。”

“先生，”加拿大人回答我说，“现在不是用咒骂来惹您讨厌的时候。我准备为了大家共同的安全牺牲一切。”

“好样的，尼德·兰。”我伸出大拇指，向加拿大人说道。

“我还要说，”他补充说，“我使铁锹就和使鱼叉一样灵活，如果我能帮上什么忙，就请船长随便吩咐我吧。”

“他一定不会拒绝你的帮助的。请跟我来，尼德·兰。”

我带着加拿大人到了“鹦鹉螺”号船员换潜水衣的房间。我把尼德·

兰的提议告诉了船长，船长欣然接受了。加拿大人也穿上了他的潜水衣，一会儿后，他就跟所有的同伴们一样准备好了。每人背上都背着一个洛克鲁尔空气瓶，里面是由储藏库供应的大量的新鲜空气。对“鹦鹉螺”号的空气储藏库来说，这是一次大量的然而又是非常必要的支出。至于兰科夫灯，在这满是光亮的明亮的海水中似乎用处就不是那么大了。

当尼德·兰准备好装备后，我又回到了客厅。客厅的嵌板被打开了，我站在葛瑟尔旁边，仔细地看那困住“鹦鹉螺”号的周围的冰层。

几分钟后，我们看见十多个船员下到了水里，其中有尼德·兰。因为他身材高大，很容易就可以认出。尼摩船长也跟他们在一起。

在穿凿冰墙之前，尼摩船长让人先进行了各种探测工作，以保证穿凿工作是向着正确的方向进行的。他们把很长的探测绳放入上下两面的冰墙。上面到了15米，仍然被厚厚的冰墙挡着，所以从上层冰墙来开凿是不太现实的，因为那就是400米高的冰山本身。于是尼摩船长又使人探测下部冰层的厚度。下部有10米厚的冰板把我们与海水隔开。这片冰场大概10米厚，也就是说要把这个冰场凿开一片，凿开的大小等于“鹦鹉螺”号从浮标线上计算的面积。凿开这么一个大孔后，我们就可以从这个孔下到冰面的下面去。这大约需要挖掘6500立方米的冰。

工作马上就开始了，每个人都在全力以赴。他们没有在“鹦鹉螺”号周围挖掘，因为这样可能会给“鹦鹉螺”号造成更大的困难。尼摩船长带着人在距离船左舷约8米远的地方画了一个巨大的圆圈。他带着船员们就在这圆圈周围的好几个地方开始同时挖掘。铁锨不停地凿着坚硬的冰，一块一块的冰从冰层上被凿了下来。由于重力作用，这些冰块没有什么重量，于是纷纷跑到了冰山顶上。这样一来，下面的冰层就变薄

了，而上面的冰层反而增厚了。但没关系，我们是要从下面通过，至少下面的冰层被削薄了。

经过约两小时的努力工作，尼德·兰疲倦不堪地回来了。他和他的同伴们被其他人员替换了下来。这次，葛瑟尔和我也加入进来了。“鹦鹉螺”号的大副来指导我们工作。海水特别凉，但当我挥动铁锹不久后就暖和起来了。虽然是在30度的气压下劳作，但挥动起铁锹来还是很轻松自在的。

工作了两小时后，我回到船舱吃了点东西，休息了一会儿。我觉得洛克鲁尔气瓶供应给我的新鲜空气与已经有很多二氧化碳气体的“鹦鹉螺”号船中的空气很是不同。船舱里的空气已经48小时没有换过了，已经变得非常污浊。可是，12个小时过去了，在画出的冰圈上，我们只挖去了约1米厚，也就是约600立方米的冰。假定每12小时可以挖去同样多的冰，那么要完全完成这个工作，还要五夜四天的时间。

“五夜四天的时间！”我对我的同伴们说道，“但储藏库中的空气只够我们用两天了。”

“并且，”尼德·兰补充说，“这还没算上假如我们逃脱这座魔鬼监狱后，可能还要被困在冰山下，仍然不能立即呼吸到上面的空气！”

这个想法是正确的。那时谁能预料到我们得救所需要的最少的时间是多少呢？在“鹦鹉螺”号回到水面之前，我们不就会因缺氧窒息而死了吗？难道“鹦鹉螺”号连同它上面的所有人都注定要死在这冰冻的坟墓里了吗？形势十分不容乐观。但人人都在正视这个问题，并决心各尽所能，坚持到底。

跟我想的一样，夜间的时候，我们又从这巨大的圆圈中挖去了一片

1米厚的冰。但是，到了早晨，当我穿上了潜水衣，走进零下六七度的海水中时，我看到旁边的冰墙又渐渐地连接起来了。而且，离我们开凿的水坑远一点的水，因为人们的劳作没有使它变温，又现出了要结冰的态势。面前又出现了新的危险，我们还有得救的机会吗？这种海水的冻结，可能把“鹦鹉螺”号的船壳像压玻璃一样压碎，那么，该怎么来防止这种情况的发生呢？

我并没有告诉我的两个同伴我们要面临的这个危险，以免打击到他们做这种艰苦救护工作的勇气。不过，当我回到船上的时候，我把这个情况向尼摩船长提了出来，要他注意可能要面临的这种严重复杂的情形。

“我知道这件事。”他对我说。他总是这样，即使出现了最可怕的意外也不能改变他的镇定。“这就是又多了一个危险，我不知道要用什么方法躲过去。我们得救的唯一机会，就是我们的工作要比海水冻结得快。问题的关键在于谁先抢在前面。”

“抢在前面！”我早就应该想到这一点了。

这一天，在好几个钟头的时间内，我坚持顽强地挥动着铁锹。这工作支持和鼓励着我。并且，在外工作就等于会离开“鹦鹉螺”号，直接呼吸那现从储藏库取来的、由空气瓶供应的新鲜空气，也就是说可以离开那污浊的船舱里的空气。

到了晚上，我们又挖去了近1米的冰层。当我回到船上时，呼吸着那饱和的二氧化碳空气，我差不多要窒息了。啊！为什么我们没有办法消除这种有害的气体呢？我们并不缺少氧气。这海水中含有大量的氧气，我们可以使用强力电池把它分解出来，然后让那刺激污浊的空气恢

复到原来的状态。我想过这件事，但并不好实行。因为，我们呼吸所产生的二氧化碳气体已经侵入到船上的各个部分。要收集二氧化碳气体，必须把氯化钾放在玻璃管中，不停地摇动玻璃管。可是船上没有氯化钾，也没有其他可以替代的物质。

这一晚，尼摩船长不得不打开空气储藏库的排气口，放出一些新鲜的空气到“鹦鹉螺”号内部。不这样做的话，也许我们早上就醒不过来了。

第二天，3月26日，我又开始做矿工的工作，要把第5米的冰块挖出来。此时，冰墙两侧和底层的冰层显然又加厚了。看得出，这些冰块在“鹦鹉螺”号可能脱身之前会都凝结起来。我一时感到非常绝望。我的铁锹就要从我手中掉下来了。再挖有什么用呢，我就要因窒息而死了，而且还是被这像石头一样的冰层压扁，就是再残酷野蛮的人也没有发明出这样一种酷刑呀。这就好像我是被夹在一个怪物的牙床里面，无法抵抗，而怪物却在逐渐收紧它的利齿。

这个时候，尼摩船长在指挥大家工作，他自己也在工作，他从我身边走了过去。我用手把我们所处的由冰层形成的监狱的墙壁指给他看。此时，船右舷的冰墙离“鹦鹉螺”号的船身已经不到4米了。

尼摩船长懂我的意思。他向我做了一个手势，让我跟着他走。我们回到船上。脱下潜水衣后，我随着他走到了客厅。

“阿勒纳斯先生，”他对我说，“我们要使用些特殊的奇妙的方法了，不然的话，我们就要被封在这逐渐凝成一体的冰中，就像被封在石灰中那样。”

“是的！”我说，“但应该怎么做呢？”

“啊！”他喊道，“我的‘鹦鹉螺’号是不是有足够的力量可以支持住这种压力而不至于被压扁呢？”

“那又会如何呢？”我问道。我不明白船长的意思。

“您不明白吗？这海水的冻结可以帮助我们！您没看见因为海水的凝结可以炸开那困住我们的冰场吗？就像它在凝结的时候可以炸开最坚硬的石头那样。您不觉得它并不是毁灭人的力量，而是拯救人的力量吗？”

“是的，船长，或许是这样的。但是，不管‘鹦鹉螺’号有怎样的力量，它都不可能抵挡得住那大得吓人的压力，它会被压扁的，压成一片钢叶。”

“先生，我能想到这点。那么，如果这样的话，我们就不能指望大自然的帮助而只能完全靠我们自己了。那就得反抗这种凝结作用，就得消除海水的凝结。现在不单是‘鹦鹉螺’号两侧的冰墙愈来愈靠近了，而且‘鹦鹉螺’号前后也只剩下不到10英尺的海水了。海水的凝结在从各个方向向我们靠拢。”

“储藏库中的空气，可以维持到什么时候？”我问船长。

“后天，后天储藏库里的空气就用完了！”船长回答道。

我被吓出了一身冷汗。不过，对于他的这个答案，我有必要感到惊讶吗？3月22日，“鹦鹉螺”号潜入了南极的水底下。今天是3月26日，5天来，我们完全靠着船上储存的空气生活，而最后仅剩的新鲜空气又要留给工作人员。就是现在我在写这些经历的时候，我对这些事情的印象还是十分深刻。我全身战栗起来，恐惧布满了我的全身，好像我的肺叶

中已经没有了空气一样。

可是，尼摩船长站着一动不动，一言不发，他在思考。很显然他已经在心里打定了一个主意，但他好像又不太接受这个主意，自己又否定了自己的答案。后来，他低声说：“开水。”

“开水？”我重复道。

“是的，先生。我们现在是被关在一个相当狭窄的空间里。如果不断地从‘鹦鹉螺’号的抽气机喷射开水出来，不是可以提高这空间的温度，延缓水的冻结吗？”

“这倒可以一试。”我坚定地说道。

“那我们就试一试吧，教授。”

那个时候，外面的温度表显示是零下7度。尼摩船长带我走进厨房，那里有许多复杂的蒸馏器，通过蒸发作用来供应我们可以喝的开水。此刻，机器装满了水，电池释放出来的所有电热都被传导到浸在水中的螺旋管中去了。几分钟后，水就达到了沸点。然后，我们把开水送入抽气机中，在放出开水的同时又有冷水进来，以补充流出去的开水。电池发出的热力大得惊人，从海中吸进的凉水经过机器，一到抽气机中就成了沸水。

我们开始往外放开水。大约过了3个小时后，外面的温度表显示是零下6度，温度提高了1度。又过了2个小时后，温度表显示是零下4度了。

看到这种工作的进展情况后，我开始从许多地方加以检查，我对船长说：“我们一定可以成功的。”

“我想是可以成功的。”船长回答我说，“至少我们不至于被压扁了，但我担心的是我们还是会窒息。”

到了夜间，水的温度又提高了一度，再往外放开水已经不能使温度再提高了。但海水只有再下降两度才会凝结，因此，这就可以保证我们不至于被冻住了。

3月27日，6米厚的冰从这冰层中被挖去了，还剩下4米厚的冰需要挖。也就是还需要我们合力工作48小时。此时，“鹦鹉螺”号内部的空气已经不可能被更换了，因此这一天的情形就更糟糕了。

一种难以忍受的污浊空气让我感到非常难受。到下午3点左右，我实在难以忍受这种痛苦了。即使打个呵欠、喘口气都会让我的上下颚变得扭曲。我的肺迫切需要新鲜的空气。空气是呼吸所必不可少的东西，现在却愈来愈稀薄了。我完全处于昏昏沉沉的状态中，甚至连躺下来的力气都没有，我几乎要失去知觉了。我忠实的朋友葛瑟尔也跟我一样，受着同样的折磨。他留在我身边，再不离开我。他拉着我的手，不断地鼓励我。我还听到他低声说：

“如果我可以不呼吸，让先生有多一些的空气该多好！”

听到他说这话，我眼中不觉蓄满了泪水。

对我们所有人来说，待在船上都觉得非常难受，所以轮到我们自己去挖冰的时候，人人都很迅速地、很高兴地穿上潜水衣，要立即出去工作。铁锹碰在冰层上咚咚作响。胳膊累了，手破了，但这些算得了什么，这些伤口有什么要紧！总算可以呼吸到新鲜空气了！总算可以呼吸了！总算可以呼吸了！

可是，没有谁会超出指定的时间，延长自己在水下工作的时间。每个人工作完以后，就将新鲜空气的气瓶交给同伴。尼摩船长自己先做出了榜样，他第一个遵守了这种严格的纪律规定。时间到了，他把他的空气瓶给了另一个人，回到船上有害的空气中。他总是那么镇定，从不示弱，也从不发一句怨言。

这一天，我们更好地完成了工作，只剩下2米的冰需要挖去了。把我们与自由的海水隔开的，只有2米的冰了。可是，储藏库的新鲜空气已经所剩无几了。剩下的一些空气只能留给工作人员使用了，一点也不能供应给“鹦鹉螺”号了！

当我回到船上的时候，我几乎要窒息了。这一晚好难熬呀！我简直不知道该怎么来描写这种痛苦。第二天，我感觉呼吸不畅。头痛又加上了昏沉、发晕，我现在就像一个喝醉的人。我的同伴们也经历着跟我一样的痛苦。有些船员已经呼吸急促并且发喘了。

这一天，只剩下第六层的最后1米冰了，尼摩船长觉得用铁锹挖得太慢了，决定用高压来冲开那把我们和底下海水分开的冰层。这个人直到现在还保持着他一贯的冷静和镇定。他在用他的精神力量来抑制肉体上的痛苦。他缜密地思考、计划，然后一丝不苟地执行。按照他的命令，船减轻了重量，也就是说，由于重力的变化，“鹦鹉螺”号从冰冻的一层浮了起来。当它浮起来的时候，人们就开始想办法把它拖到照它的浮标线所画出并挖出的巨大坑里。然后，让它的储水池装满水，这样，它开始下降，沉在了水坑里。

这时候，所有的船员都回到了船上，与外界相连的两扇门都紧闭了起来。“鹦鹉螺”号这时是躺在冰层上的，这个冰层只有1米厚，并且已经有千百处被探测器钻通了。

储水池的龙头完全打开了，100立方米的水流了进来，让“鹦鹉螺”号的重量增加了10万公斤。

我们静静地等待着，忘记了自身的痛苦，仍然怀抱着希望。我们好像在赌博，能否得救，完全就看这最后一击了。虽然我的脑子不断地发出嗡嗡声，头昏得要命，但不久后我还是听到了来自“鹦鹉螺”号船身下的颤抖声。冰层破裂了，发出奇怪的声响，就像撕纸时候的声音一样——“鹦鹉螺”号渐渐地沉下去了。

“我们穿过去了！”葛瑟尔在我耳边低声说道。

我说不出口，只能紧紧地抓着他的手。我完全不由自主地在抽搐，紧紧地握住了他的手。

突然间，“鹦鹉螺”号被它过重的重量裹挟着，像一颗炮弹般沉入了水中，就是说，它掉下去了，穿过了冰层，像在真空中尽可能快地下沉一样掉下去了！

于是，船长命令把所有的电力都传输到抽水机上，抽水机开始快速地把储水池中的水排出。几分钟后，下降停止了。又过了没多久，压力表显示，“鹦鹉螺”号在上升了。推进器全速开动，船身的钢板发出了震动声，似乎都能感觉到螺丝钉在动。“鹦鹉螺”号带我们向北方驶去。

但是，现在从冰山下航行到自由海，还需要多少时间呢，需要一天吗？如果是这样的话，那我仍免不了要死在前头了。我半躺在图书室的长沙发椅上，几乎不能呼吸了。我的面孔开始发紫，我的双唇已经变蓝了，我身体的所有器官好像都失灵了，肌肉也动不了。我看不见也听不到了。我感觉不到时间了。对于这样的时间我经历了多久，我简直无法估量。但我忽然意识到了我临死的痛苦，我知道我是快要死了……

一下子，我苏醒了过来。几口空气进入了我的肺中。我们是升到水面上了吗？我们是越过冰山了吗？

不是！那是尼德·兰和葛瑟尔，我的两个忠实的朋友，他们在牺牲自己救我。一个气瓶里面还有些剩余的空气，他们没有用，而是给我保存了起来，当他们快要窒息的时候，却把一点一滴的生命留给了我。我要把气瓶推开，他们扯住我的手，于是我又很快意地呼吸了一会儿空气。

我向大钟看去，这个时候正是上午11点。这天应该是3月28日。此刻，“鹦鹉螺”号正以每小时40海里的惊人速度行驶着。它简直就像在海水中做着痛苦的挣扎。

尼摩船长在哪儿？他还活着吗？他的同伴们是否跟他一起牺牲了呢？这时候，压力表显示，我们距离水面只有20英尺了。也就是说，只有一个冰层把我们与大气分开了。我们能冲开它吗？“鹦鹉螺”号就在做这个工作。是的，我感觉到它倾斜了，后部下降了，将前面的冲角挺了起来。水装进去以后，就足以使它发生倾斜。然后，在它的强力推进器的推动下，它从冰层下面像一架强大的攻城机一样冲了上去。它先是逐渐撞击冰层，然后退了下来，再加足马力全速向裂开的冰层冲过去。最后，随着极大的冲击力，它跳上了被它的重力所撞碎的冰面。

嵌板打开了，可以说是拔开了，新鲜的空气像潮水一般涌入“鹦鹉螺”号船舱的每个角落。

第十七章 从合恩角到亚马孙河

我都不知道我是怎么到甲板上来的。可能是加拿大人把我抱上来的。我终于呼吸到大海上那让人兴奋的新鲜空气了。我的两个同伴站在我的旁边，他们也尽情地呼吸着这新鲜的空气。不幸受苦的、长久没有吃东西的人们，是不能马上尽情乱吃饱餐一顿的。但我们不一样，我们用不着节制，我们可以尽其所能让自己的肺充分吸收这海面上的空气。而给我们送来这种快意迷醉的，正是那海风，正是那海风！

“啊！”葛瑟尔说，“空气，真好！先生，我们不用再担心呼吸困难了！现在不缺空气了，人人都有可以呼吸的空气了。”至于尼德·兰，他没有说话，只是张开大嘴尽情地呼吸着，那张开的嘴简直让鲨鱼看了都会害怕。加拿大人好像一个正在燃烧的火炉，正在那里拼命地“抽气”呢。

我们很快就恢复了力气。看了一下我们周围，我发现，甲板上只有我们三个人，没有一个船上的人员。尼摩船长也不见了。“鹦鹉螺”号上奇怪的水手们仅仅呼吸那流通到船舱内的空气就满足了，居然没有一个人出来享受这外面的新鲜空气。

我说的第一句话是对我的两个同伴表示感激和感谢的话。在漫长痛苦的最后数小时，是尼德·兰和葛瑟尔延续了我的生命，我真的不知道该怎么样来报答他们的这种牺牲精神。

“行了，教授，”尼德·兰回答我说，“这件事值得拿出来说说吗？这件事有什么值得称赞的地方呢？一点都没有。这只是一个简单的算术问题。您的生命比我们的生命有价值，所以应该救您。”

“不，尼德·兰，”我回答说，“我的生命并没有比你们的更有价值。

谁的生命也比不上善良仁爱的人的生命更有价值，而你们正是这种人！”

“算了！算了！”加拿大人很有些不好意思地一再说道。

“你呢，我忠实的朋友葛瑟尔，你一定也承受了巨大的煎熬吧。”

“老实说，先生，我并没觉得多痛苦。我就是少了几口气，但我觉得还可以挺过去。并且，眼见先生晕过去了，我就一点也不想呼吸了，就像人们说的，这是要了我的命呀……”葛瑟尔觉得自己太啰唆了，不好意思起来，没说完就停住了。

“我的朋友们，”我情绪激动地说道，“我们彼此要永远团结在一起，同时你们有权利让我听你们的……”

“我要使用这个权利。”加拿大人立即说道。

“怎么使用？”葛瑟尔说。

“当我要离开这像地狱一般的‘鹦鹉螺’号的时候，我要使用这个权利拉您跟我一起走。”尼德·兰说道。

“还是说些正经事吧。”葛瑟尔说，“我们现在是朝着北方行驶吗？”

“是的。”我回答说，“因为我们是向着有太阳的方向走，现在有太阳的方向就是北方。”

“不错，”尼德·兰补充说，“不过我们还应该知道，我们是向着太平洋还是向着大西洋走呢？是向往来人多的地方还是荒无人烟的地方走呢？”

对于这点，我就不能给予确定的答复了。现在尼摩船长又回到“鹦鹉螺”号可以获得完全自由的大海中了，我怕他要把我们带到亚洲和美洲之间广阔的太平洋中去，这样他就完成了他的海底环球旅行了。但是，如果我们回到了太平洋，离开所有人居住的地方，那么尼德·兰的计划就要落空了。

对于这一点，不久后我们就得到了明确的答案。“鹦鹉螺”号行驶的速度很快，不久就走过了南极圈，船头向着合恩角的方向驶去。在3月31日晚上7点，我们横穿过了南美洲的这个尖角。

那时，我们忘记了过去经历的所有的痛苦，所有那被困在冰群中的记忆都消失不见了。我们只是想到了自己的将来。尼摩船长并没有露面，在客厅中和甲板上都没有看见他。他的副手每天在地图上记录着行驶的方位，通过这些记录，我了解到了“鹦鹉螺”号所走的确切方向。这天晚上，我非常高兴，因为我发现“鹦鹉螺”号行走的方向很明确，我们是在沿着大西洋的水路到北方去。我把我所观察到的结果告诉了加拿大人和葛瑟尔。

“这是个好消息呀！”加拿大人说，“不过‘鹦鹉螺’号要到哪里去呢？”

“那我可说不准，尼德·兰。”

“尼摩船长会不会等过了南极以后，又要到北极去冒险，然后再从西北方的著名水道回来呢？”

“也不能确定他不这样做。”葛瑟尔回答说。

“那么，”加拿大人说，“我们就不用客气了，恕不奉陪了。”

“不过，”葛瑟尔补充道，“这个尼摩船长确实是一个杰出人物，能认识他，绝不后悔。”

“特别是在要离开他的时候！”尼德·兰立即说道。

第二天，4月1日，“鹦鹉螺”号浮上了水面。中午前几分钟，我们向西远望，望见了海岸。那是火地岛。早期的航海家因为望见岛上土著人的茅屋升起了无数的烟火，于是就给它取了这个名字。

火地岛是一个大的群岛，位于南纬53度至56度、西经67度50分至77度15分之间，长30里、宽80里。看起来它的海岸线很低，但远方却矗立着高高的群峰。我好像望见了萨眠图山，这座山高出海平面约2070米，是由金字塔形的片岩形成的，峰顶很尖。尼德·兰告诉我说，根据这座山是被云雾所遮还是山形可以显露出来，就可以判断天气的好坏。这时候，看上去山峰在天空中清楚地显露了出来。那是好天气的预兆，事实也正是如此。

“鹦鹉螺”号又回到了水面下，接近海岸后沿着海岸走了几海里……从客厅中的玻璃窗望出去，我看见了很长的海藤以及巨大的黑角菜，就是那种带球的海藻，只有南极的自由海中还有一些这样的品种，它们有带黏性的和光滑的纤维带，长度达300米，比大拇指还粗，很坚韧，简直像真正的铁索一样，时常可以被作为船缆使用。另外还有一种叫苇柏菜的海草，叶长约4英尺，缠在珊瑚的分泌物中，像地毯一样铺在海底。它被无数甲壳动物和软体动物，如螃蟹、乌贼等当成巢穴和食物。

在这物产丰富的海底，“鹦鹉螺”号以非常迅速的速度驶过。到了晚上，它走近了马鲁因群岛。第二天，我就可以看见那群岛上的峻峭山峰了。

在这一带海域，我们用渔网打到了很美丽的昆布和品种各异的海带，特别是打到了一种黑角菜，这种黑角菜的根上还带有美味的淡菜。不仅如此，我们还在甲板上打到了十来只海鹅和海鸭，不久它们就都被送到了厨房里。在鱼类方面，我还看到了属于虾虎鱼属的骨鱼，尤其是长约2分米、身上处处有灰白和黄色斑点的杜根鱼。

我也欣赏到了无数的水母。那是马鲁因海中特有的茧形水母，是最美丽的水母属。有时候，它们呈现出半球形，就像很光滑的一把伞，上面有红褐色的条纹，下面垂着12条很有规则的彩带。有的时候，它们又像一个翻过来的花篮，从篮中散出大片红色的叶子和红色的细枝，看上去非常美观。在它们游动的时候，它们摇动着那4只叶状的胳膊，让自己丰富的触须飘摇四散，随便地挂在哪里。我很想保留一些这种精美植虫动物的品种，但它们不过如过眼云烟，一离开原来的海水，就会消失得无影无踪。

当马鲁因群岛最后的高地在水平线上消失不见的时候，“鹦鹉螺”号潜到了20至25米深的水层，沿着美洲海岸继续行驶，而尼摩船长一直也没有出现。

一直到4月3日，我们都没有离开巴塔戈尼亚海岸。“鹦鹉螺”号有时沉在海底，有时浮出洋面。它驶过了拉普拉塔河。4月2日，它横穿了乌拉圭，但是在距离陆地约50海里的海面上横穿过去的。它一直在往北沿着南美洲弯曲延长的海岸线行驶。自从从日本海出发以来，到现在为止，我们已经走了16000千里了。上午11点左右，我们从南回归线西经37度上切过，走过了浮里沃海面。尼摩船长不喜欢让他的船离有人居住的西海岸太近，所以加足马力，以非常惊人的速度驶了过去，这使得尼德·兰大为不快。

这种快速的行驶维持了好几天。到4月9日晚上，我们看到了南美洲最偏东的形成圣罗克角的尖角。但“鹦鹉螺”号到达这里后又躲开了，它潜入了最深的海底，去找寻在这尖角和非洲海岸塞拉·勒窝内之间的海底山谷。这座海底山谷是从安的列斯群岛相同的纬度上分出来的，有大约9000米深。在这里，从大西洋一直到小安的列斯群岛，有一道长约6公里的悬崖，很陡峭。在与绿角群岛相同的纬度上，也有一道差不多一样长的石墙，这样就把整个沉下去的大西洋洲围了起来。这座广大山谷的底层有一些崎岖不平的山脉，使得这海底下的景象非常美丽。我是按照“鹦鹉螺”号图书室中所藏的手稿地图来讲这海底的情形的，这地图显然是尼摩船长亲手绘制的，并且都是根据他个人的观察绘制出来的。

两天内，在这一带荒凉无比、没有任何生命迹象的深水中，“鹦鹉螺”号利用纵斜机板到底下去看过。“鹦鹉螺”号有很长的沿纵对角线，使它可以潜到所有的深水层。但在4月11日，它忽然上升了。在亚马孙河的出口现出了陆地，这是宽大的河口，输出的水量很丰富，把好几里内的海水都冲得没有咸味了。

越过了赤道线，西方约20海里处是几内亚群岛，那是法国的领地，在那里我们可以找到容易藏身的地方。但是海风吹得厉害，汹涌的波浪不容许一只小艇去冒险。对此，尼德·兰一定也了解到了，因为他没有跟我说任何一点。对我个人而言，我也不会主动提起他的逃走计划，因为我不愿意他做那些一定会失败的试验。

还好我还可以做些有趣味的研究，以弥补这次的延误。在4月11日至12日的两天时间内，“鹦鹉螺”号没有离开海面，船上渔网打到的植虫类、鱼类和爬虫类非常丰富，成绩喜人。

有些植虫类是由渔网的锁链拖拽上来的。大部分是那美丽的属海葵

科的须形海藻，还有那大西洋一带海域的特产——背带须形藻。它有着小小的圆筒躯干，有优美的直线纹和红色斑点，头上展开新奇的触须花朵。

对于这一带海域中的鱼类，我还没有机会加以研究，就举下面几种不同的吧。在软骨鱼类中，有化石花斑鱼，这是一种呈鳗色、长约15英寸，有淡青色的头、紫红色的鳍、蓝灰色的脊背，肚腹是鲜明的银白红褐色斑点、眼膜周围由金黄色圈起来的一种很奇特的鱼。它们一般是生活在淡水中的，是亚马孙河水把它们带到了海中来。有很多带肉球的平鱼，这种鱼的脸呈尖形，尾巴很长、很细，像一根齿形的尖刺。有长约1米的小鲨鱼，鱼皮是灰黑带淡白色的，牙齿排成数行，弯曲向后，又称为拖鞋鱼。有蝙蝠鞍鱼，这是一种呈等腰三角形的红色鱼，半米长，胸鳍在突出的肉上，看起来有些像蝙蝠的形状，但在鼻孔边有角质的触角，因此又被称为一角鱼。最后有好几种剑鱼，也叫带甲鱼，这种鱼的两侧有很多刺，呈现出鲜明的金黄色。还有酸刺鱼，它们身上有鲜明的紫色，显出柔和的光泽来，就像鸽子咽喉部分的颜色那样。

最后来说说观察的一组多骨鱼类吧。其中有巴桑鱼，属无翼鳍属，面部颜色雪白，完全呈现钝角形，身上是美丽的黑色，长有一条很长很细的肉质纽带。除此之外，还有多利刺的齿状鱼，发出闪闪的银白色光的3分米长的沙丁鱼，长有两支肛门鳍的卵形鳍鱼，颜色全黑的黑色牙刺鱼——人们经常会点燃火把来钓它们（这是一种2米长的鱼，它的肉很鲜美，味道跟鳗鱼肉差不多，晒干后还带有熏鲜鱼肉的味道）。有只在脊鳍和肛门下长鱼鳞的半红色拉布鱼，有身上有金、银色光辉，又有红玉和黄玉色泽的蜚鱼；有肉非常嫩，身上的磷光时时在海水中显露出来的金尾鲷鱼，有舌头很细小、身上为橙黄色的普比鲷鱼，还有魔鳍金黄的石龙子、黑色硬鳍鱼、苏里南群岛的突眼鱼等。

这个“等”还是阻挡不了我再谈一种鱼。这种鱼葛瑟尔也还记得，因为它是一种很特殊的鱼。

我们的其中一张渔网打到了一种扁平的鳊鱼，把这鱼的尾巴截去，就完全成为一个圆盘状，它重20公斤左右。鱼身下面是白色的，上面是淡红色的，带有深蓝色的圆点，并且圆点周围还有黑圈，表皮很光滑，后面是一支中间开裂的蛤。它被放在甲板上，极力挣扎着，全身抽搐，想翻过身来，它费了很大的力气，最后一蹦，居然又蹦到海里去了。可是葛瑟尔看着这条鱼，立即扑了上去，在我要拦住他的时候，他的两手已经又把鱼抓住了。

接下来，他立即被这个鱼给打倒了，两腿朝向空中，半身麻痹，大声喊着：

“啊！主人，我的主人！您快来救救我。”

这可怜的老实人从不这样称呼我，这是第一次。

加拿大人和我跑过去把他扶了起来，我们用两手急急地摩擦着他，当他恢复过来的时候，这个永远喜欢分类的人用很小的声音低低地说道：

“软骨纲，软鳍目，鳃是固定的，鲐鱼科，电鱼属！”

“是啊，我的朋友。”我对他说，“那是条电鱼，就是因为它，你才弄得这么狼狈。”

葛瑟尔马上接着我的话说：“啊，你是相信我的。不过我要狠狠地报复一下这东西。”

“你想怎么办？”

“吃了它。”

果然，晚上的时候，这鱼就进了我们的肚子，不过这真的只是个报复行为。因为说实话，这鱼的肉并不细腻，还很难咬动。

这种攻击葛瑟尔的鱼，是一种叫伞形的电鱼，非常危险。这种奇怪的动物要是在水这样的导体里，只要几米的距离就可以发动电能来攻击别的鱼类。而且它的发电能力非常强，据研究表明，在它身体两侧带有电量的面积，不少于27平方英尺。

第二天，也就是4月12号，“鹦鹉螺”号已经到了马罗尼河口附近的地方，离荷兰领地不远。在这一带的海上，生活着好几群海牛，它们一起过着群居的生活。这些只是普通的海牛，跟海马以及大海马差不多，同样属于人鱼目。这些外表漂亮的动物，虽说有6米长，重4000公斤左右，但性格温顺，从不害人。

“鹦鹉螺”号上的船员为了充实食品库，便捉了6头海牛，要知道，它们的肉比牛肉和小牛肉还要可口。当然，捕捉海牛没什么技术含量，因为这些温和的动物一点也不懂得反抗。这好几千斤的肉，在晒干后就要储存在船上的食品库里。

这一带海域的物藏真是不少。这一天，大家又在进行打鱼活动了，这样一来，“鹦鹉螺”号的食物储藏就更丰富了。这次捕到的鱼也很多，这种鱼的鱼头有一块突出的椭圆形肉质边缘的薄骨片。这是属于亚鳃软骨目第三科的一种鱼——鲫鱼。顾名思义，这种鱼可以“印”在物体上，因为它们身上有由活动的软骨片组成的平板圆盘，圆盘中间可以弄成真空的，这样就可以像吸盘一样印在物体上了。

打鱼活动结束后，船靠近了海岸。这儿附近有不少海甲鱼安睡在水面，不过想要抓住它们可不太容易，因为它们太敏感了，轻轻一点响动就会被惊醒，而且，锋利的鱼叉对它们那坚硬的外壳也无济于事。但有一点，要是让鲷鱼来捕捉海甲鱼就没问题了。的确，鲷鱼就是个活的钓钩，可以帮助朴实的钓鱼者来获得收益。

用鲷鱼来捉海甲鱼，“鹦鹉螺”号的船员是这么做的：他们在鲷鱼的尾端系了一个很大的环，这个环虽然大，但是并不妨碍它们工作。环上系着一条长绳，再把绳子的一端绑在船上。把鲷鱼投到海里，鲷鱼马上就表现出它们超凡的捕鱼能力。它们用最快的速度游到海甲鱼的胸甲上，牢牢地吸在上面，哪怕被海甲鱼攻击也绝不松开。这样，当把鲷鱼拉回到船上时，被黏住的海甲鱼也就一起被拉回来了。

就这样，捉了好几条海甲鱼，每条都有1米宽，200公斤左右重。它们的胸甲是一层层的又薄又透亮的宽大的骨片，上面布着棕色带黄白色的斑点。因为这胸甲的存在，所以这种鱼显得异常珍贵。而且从食用的角度来说，这鱼也是味美可口的，跟普通的甲鱼差不多。

打完了鱼，我们也就结束了在亚马孙河这一带海域的逗留，当黑夜降临的时候，“鹦鹉螺”号又回到了大海。

第十八章 章 鱼

在这几天内，“鹦鹉螺”号经常会躲开美洲海岸。很显然，它不想到墨西哥湾或安的列斯群岛海中去。那一带海域的海水并不浅，并不是不

适合它航行。那一带海域的平均深度是18000千米。很可能是因为那一带有许多岛屿，有许多汽船往来，所以对尼摩船长来说就不太适合。

4月16日，在距离海岸线30海里左右的位置，我们看见了马丁尼克岛和加德路披岛。甚至某个时刻，我还望见了岛上群山的高峰。

加拿大人打算在墨西哥湾实行他的计划——或者逃到某些陆地上去，或者靠近往来岛屿沿岸的一只船。当他看见“鹦鹉螺”号避开了墨西哥海湾时，他感到很失望。如果在墨西哥海湾，尼德·兰能趁尼摩船长不知情的时候，把小艇夺到手，那逃走的可能性是非常大的。但如今是在大西洋上，那就不用再想逃走的计划了。

对于这件事，加拿大人、葛瑟尔和我谈了很长时间。自从我们来到“鹦鹉螺”号船上做俘虏到现在，已经6个月过去了。我们走了有17000千里。就像尼德·兰说的，那是根本看不到终点的旅程。所以他向我提出了一个建议，这是我完全没有预料到的建议，那就是向尼摩船长干脆利落地提出来——船长是打算把我们无限期地留在他的船上吗？

类似这样一种会谈让我觉得非常为难和厌烦。在我来看，这种会谈是不会有结果的。我们不可能指望“鹦鹉螺”号会回到陆地上去，所以一切都只能靠我们自己了。并且，最近这段时间以来，尼摩船长这个人变得更加沉郁、更不常露面、更不爱交往了。好像他在有意躲着我。我很少有机会能碰到他。以前，他很喜欢给我讲解这海底的神奇，现在他听任我自己看书做研究，几乎不到客厅中来了。

他为什么会这样呢？这是因为什么呢？我并没有做什么对不起他的事或是做错了什么事。难道是在船上让他为难了？不过，我从没奢望过有一天他会恢复我们的自由。

所以，我请尼德·兰在去找船长前让我好好想一下，如果这次会谈没有任何结果，可能会增加船长的猜疑，使我们的处境变得更加困难，对于加拿大人实行起逃跑计划来绝对是有害无利的。我又补充说，我不可能以我们的身体健康为理由请求离开“鹦鹉螺”号。事实上，除了在南极的冰山下我们承受了巨大的痛苦外，尼德·兰、葛瑟尔和我，我们的身体一直都很好。那种卫生的饮食、健康的空气、规律的生活、恒定的温度，决不至于让人生病。而对于一个对陆地没有任何留恋的人来说，对尼摩船长来说，“鹦鹉螺”号就是他的家，他想到哪里就到哪里，他可以朝着他的目的地走去，这在别人看来充满神秘的道路，在他看来就不那么神秘了。对于船长的这样一种生活，我是可以理解的，但是我们不能这样，我们并不能做到与人类完全隔绝。对我个人来说，我也不想让那十分奇异、十分新鲜的研究与我一齐埋葬。我现在有机会来写这样一本关于海洋的真正的书，而我想，这本书早晚有一天是可以公之于世的。

就在这里，在安的列斯群岛海域海水下10米处，从敞开的嵌板看过去，又有多少我应当记在我的日记本上的有趣的海洋生物啊！在许多植虫动物中间，有那名为海扁筒的船形腔肠类，那是一种粗大的长方形膀胱，带着螺钿质的闪光，把它们的膜迎风张开，让它们的蓝触须浮在水中，像丝线一样，看上去就像美丽迷人的水母，但摸上去又像分泌腐蚀性汁液的麻草。在鱼类方面，有长约10英尺、重600磅、属于巨大软骨鱼属的蛇平鱼，它们的胸鳍是三角形的，脊背中间有些突起，眼睛长在头部的最前端，像是船只的残骸，浮来浮去，有时就像不透亮的窗板一样，遮盖住我们的玻璃窗。还有黑白两种颜色的美洲剑鱼，有很长的、多肉、带黄色的鳍和突出颞骨的匣形虾虎鱼，有鱼齿很短很尖、满是细鳞、属于臼脂结的一种、长约16分米的鲭鱼。有从头到尾包括胸腹间带有一条一条的金黄色带、在水中摇动它们那熠熠生辉的鳍、像云层一般

出现的海鲱鲤鱼；有装有碧玉色的条带、穿着丝绒的外衣，像维郎尼斯所画的王公一样在我们眼前走过的金黄的苹果鳍鱼；有胸鳍拨得很快，一下子就不见了的带刺的鲷鱼；有身长约15英寸、被包围在闪闪磷光中的磷光鲸鱼；有拿它们粗大多肉的尾巴搅动海水的鳅鱼；有好像用它们那尖利的胸鳍摇来摇去割海水的红色鲍鱼；有银白色的月光鱼，它们的这个名字取得非常恰当，因为它们在水中升起来的时候，就像发出了许多淡白光线的月亮。

4月20日，我们行驶在平均1500米深的水层。那个时候，跟船最接近的陆地是留加夷群岛。散开的群岛就像铺在海面上的一堆石板。在这一带有很多海底悬崖，就像宽大的铺下的平板大石那样形成一道一道直立的高墙，在墙中间露出许多黑洞来，即使用船上的灯光，也照不到底。

这些岩石上面铺着层层阔大的海产草叶，宽大的昆布类、巨大的黑角菜，简直就像是由海产植物形成的墙壁，就像地下巨人生活的世界。

从上面我们说的巨大的植物，葛瑟尔、尼德·兰和我自然而然地就会谈到这一带海域中的巨大的动物。显然其中有些是作为其他一些动物的食物的。不过，从几乎不动的“鹦鹉螺”号的玻璃窗中看出去，我在那很长的草叶条上看到了腕足门的主要节肢类动物、长爪的海蜘蛛、紫色海蟹、安的列斯群岛海中特有的翼步螺等。

大约是11点左右的时候，尼德·兰让我注意看那巨大昆布间发生的让人害怕的骚动。

“那么，”我说，“这里估计是章鱼的洞窟，在这儿看见一些这种怪异的动物一点也不奇怪。”

“什么？”葛瑟尔说，“是那头足纲的枪乌贼，单纯的枪乌贼吗？”

“不，”我说，“是那身躯巨大的章鱼。尼德·兰一定是搞错了，因为我并没看见什么。”

“我觉得很可惜。”葛瑟尔回答说，“我很想亲眼见见这种大章鱼，这种东西我听人说过很多次了，它还可以把船拖到海底下去呢。这类东西叫克拉……”

“克拉克，吹嘘一下就够了。”加拿大人用讽刺的语气说道。

“克拉肯。”葛瑟尔抢着说道，并没有理会同伴的嘲笑。

“我才不相信世界上有这么一种动物存在呢。”尼德·兰说。

“为什么不相信？”葛瑟尔说，“我们都相信过先生所说的海麒麟。”

“葛瑟尔，我们错了。”

“当然错了！不过一定还有别的人相信它的存在。”

“可能是这样，葛瑟尔，但是，我一定要亲自动手宰过这种怪物才会相信它的存在。”

“那么，”葛瑟尔问我，“先生你也不相信有巨大的章鱼存在吗？”

“哎！有谁会相信它的存在呢？”加拿大人喊道。

“尼德·兰，有许多人会相信的。”

“不是打鱼人，恐怕是学者们吧！”

“不好意思，尼德·兰。打鱼人和学者们都相信它的存在！”

“但是，现在跟您说话的这个人——我，”葛瑟尔神情十分严肃地说，“我记得很清楚，我曾看过一只大船被一条头足类动物的胳膊拉到海底下去。”

“你看见过这个？”加拿大人反问道。

“是的，尼德·兰。”

“是你亲眼看见的吗？”

“对，是我亲眼看见的。”

“那请问是在什么地方看见的呢？”

“在圣马罗港。”葛瑟尔沉着坚定地回答道。

“在海港吗？”尼德·兰用讥笑的语气问道。

“不是，是在一所教堂里。”葛瑟尔回答道。

“在一所教堂里！”加拿大人喊道。

“对，尼德·兰。那是一幅绘着这条章鱼的图画！”

“好嘛！”尼德·兰大笑着说，“原来葛瑟尔先生在逗我玩呢！”

“事实上，他是对的。”我说，“我听人说过这幅画。不过画的主题源于一个传说。你们知道，在谈到生物科学时，我们一般是怎样看待这些传说的，并且，一谈到怪物，人们的想象就会变得丰富起来。不仅有

人说这些章鱼可以拉走船只，并且有一个叫奥拉夫松·马格努斯¹的人说有一条头足类动物，长约1海里，与其说那像一个动物，不如说那像一个岛屿。又有人说，宜都罗斯的主教有一天在一堆岩石上搭了一座神坛做弥撒。做完了弥撒后，这堆岩石就自己动了起来，回到海中去了。这堆岩石原来是一条章鱼呢。”

“说完了吗？”加拿大人问道。

“没有。”我回答说，“另一个主教，庞特匹丹·德·博尔根也说到过这样一条章鱼，在这条章鱼身上甚至可以操练一队骑兵呢！”

“从前的主教们可真能说！”尼德·兰说。

“最后，早期的生物学家也举过一些怪物的例子，它的嘴好像一个海湾，身躯十分巨大，连直布罗陀海峡都过不去。”

“真妙！”加拿大人说。

“在这些故事里面，有一些是真的吗？”葛瑟尔问。

“我的朋友们，这里面没有一个是真的，这些已经超出了真实的界限而走入了寓言或传说的范围，所以都不是真的。不过，讲故事的人都是依据一定的原因进行想象的，这个原因可能不是真实存在的东西，但至少有一个假借的理由。人们不能否认有巨型的章鱼和枪乌贼存在，不过它们都赶不上鲸科动物。亚里士多德曾经确实说过有一条长310厘米的枪乌贼，现在的打鱼人也时常看见身长超过180厘米的枪乌贼。杜利斯提和蒙伯利野的博物馆也收藏有一些长达2米的章鱼的骨骼。此外，根据生物学家的计算，这种动物身长6英尺，但它们的触须却长达27英尺，单凭这一点就足够使它们成为可怕的怪东西了。”

“现在有人捕到过吗？”加拿大人问。

“即使没人捕到过，但至少水手们是看见过的。我的一个朋友，哈夫尔港的鲍尔·博斯船长时常肯定地对我说，他在印度洋中曾经碰见过一条这种身躯巨大的怪物。但最奇怪的，不能否认这些巨大动物存在的，就是数年前，也就是1861年发生的那件事。”

“那是怎样的一件事呢？”尼德·兰问道。

“是这样的。1861年，在特尼里弗岛的东北部，差不多跟我们现在所处的相同的纬度上，通讯舰‘亚列敦’号的船员看见一条巨大的枪乌贼在水中浮游。布格船长驾驶船靠近它后，用鱼叉和枪打它，却没有什么结果，因为枪弹和鱼叉在刺穿它那棉花一般的肉后，就好像插进了完全稀烂的黏液中。经过几次的失败，也没有把它捕上来，最后船上的人员把绳索结扣扣在这个软体动物的身上，这绳索结直滑到了它尾鳍的边上才停了下来。船上的人员想把这怪东西拉上船来，但它的身体十分重，受绳索的拖拉，弄得它的尾巴都掉了，最后它没有了尾巴，便潜入水中不见了。”

“总算有了一件是真的事。”尼德·兰说。

“是一件确切无疑的事，亲爱的尼德·兰。因此有人建议，把这章鱼称为‘布格的枪乌贼’。”

“它有多长？”加拿大人问。

“它不是长6米左右吗？”葛瑟尔一边说着，一边站在玻璃边重新看那崎岖不平的悬崖。

“正是6米长。”我回答说。

“它的眼睛长在额头顶上，那不是生得非常大吗？”

“是的，葛瑟尔。”

“它的嘴是不是跟鹦鹉的一样，尖得不得了？”

“不错，葛瑟尔。”

“那么，先生，打断一下。”葛瑟尔平静地说道，“如果这边的不是布格的枪乌贼，至少也是它的兄弟了。”

我转身看着葛瑟尔，尼德·兰跑到了玻璃窗边。

“真是吓人的东西。”他喊道。

我也跑过去看，我简直被吓得退了回来，不禁生出厌恶的表情。在我眼前走动的正是那让人害怕的怪物，这个真可以列入古代悲剧传说的怪物里面了。

这是一条身躯巨大的章鱼，长约8米。它非常快速地倒退着走着，游走的方向跟“鹦鹉螺”号行走的方向相同。它那海色的呆呆的大眼睛直直地盯着前方。它的8只胳膊，或者说成是8只脚更适合长在它的脑袋上，因此这种动物又有一个头足类的别称。它的脚可以伸得很长，有它身躯的两倍，不断地伸缩摆动，就像那疯妇人的头发一样乱飘。我们清楚地看见了那呈半球形圆盖的、排列在它触须里面的250个吸盘。这些吸盘有时贴在客厅的玻璃上，中间是真空的。这怪东西的嘴，那骨质的嘴，生得像鹦鹉的嘴一样，垂直地或开或合。它骨质的舌头本身有几排尖利的牙，颤抖着露出一副大铁钳。大自然是多么离奇古怪啊！软体动物身上居然长了一个鸟嘴！它的身躯呈纺锤形，中间鼓鼓的，有一个大

肉块，看起来它的重量不下20000到25000公斤，它身上的颜色随着这怪东西情绪的变化极端迅速地改变着，从灰白色陆续变为红褐色。

这个软体动物的情绪为什么会这么起伏呢？一定是因为“鹦鹉螺”号在它面前，“鹦鹉螺”号要比它更大、更吓人，并且它用它的吸盘、脚或者下颚又没法捕捉到“鹦鹉螺”号。可是，这些章鱼是多么吓人的怪物呀！造物者赋予它们的是多么神奇的力量呀！它们得有多大的劲呀，想想它们可是有三个心脏的！

偶然的时机才让我遇上了这枪乌贼，我真的不愿意丢了这个机会，丢了对这个品种小心加以研究的机会。我努力克服自己对它外形的所有厌恶心情，拿了一支铅笔，开始为它写生。

“或者这与‘亚列敦’号看见的是同一个东西吧。”葛瑟尔说。

“不是。”加拿大人回答说，“因为这一条有尾巴，是完整的，而那条是丢了尾巴的。”

“这不能成为理由。”我回答说，“因为这类动物的胳膊和尾巴是可以重新生长出来的，已经过了7年了，布格的枪乌贼是有时间再长出新的尾巴来的。”

“此外，”尼德·兰也紧接着回答说，“如果这条不是它，那许多条中间或者有一条就会是它！”

果然，好些其他的章鱼也出现在了船右舷的玻璃边。我数了一下，一共有7条。它们正随着“鹦鹉螺”号前行，我听到它们的嘴碰在钢板上发出咯咯的声音。我们是它们希望中的食物。我继续着我的观察工作，我看到这些怪东西随着“鹦鹉螺”号在我们两旁的海水中十分准确地保持

着一定的速度，从玻璃窗看出去，就像它们是站着一动不动一样，我简直可以在玻璃上用纸把它们缩小后临摹下来。这个时候，“鹦鹉螺”号行驶的速度很慢。

忽然，“鹦鹉螺”号停了下来。一次冲击使它全身都发出了震动声。

“我们是撞上什么了吗？”我问道。

“总之，”加拿大人回答说，“我们快要摆脱那群怪东西了，因为我们浮起来了。”

“鹦鹉螺”号浮了起来，但它却停着不走了。它的推进器的轮叶没有搅动海水。1分钟过去了。尼摩船长走进了客厅，后面跟着他的大副。

我有好些时间没有看见他了。他的神色看起来很忧郁。他没有跟我们说话，或者可能是没有看见我们。他走到嵌板边，看了一下那些章鱼，然后对他的大副说了几句话。他的大副出去了。不久嵌板便闭合起来，天花板的灯也亮了。

我走到船长面前，对他说：

“这真是新奇的章鱼品种。”我说话时的语气很从容，像一个喜爱鱼类的人在鱼缸前说话时那样。

“是的，教授。”他回答我说，“但我们现在要跟它们进行肉搏了。”

我盯着船长，我没有听明白他说的话。

“肉搏吗？”我重复道。

“是的，先生。‘鹦鹉螺’号的推进器停了。我想是因为有一条枪乌贼

的下颚骨撞进了轮叶中，因此导致船不能动了。”

“您要怎么办？”

“浮上水面，把这条害虫给宰了。”

“这是一件很困难的事情呀。”

“是的。电气弹对这团软肉来说没什么用，如果没有足够的抵抗力，是不足以让电气弹爆炸的。我们还是用斧子砍吧。”

“也可以用鱼叉，先生。”加拿大人说，“如果您不拒绝我加入，我一定会来帮忙。”

“我接受您的帮助，尼德·兰师傅。”

“我们陪您一起去。”我说道。我们跟着尼摩船长向中央楼梯走去。楼梯边有十来个人，拿着冲锋用的斧子，准备出击。葛瑟尔和我，我们拿了两把斧子，而尼德·兰则手执一竿鱼叉。

这个时候，“鹦鹉螺”号已经浮上水面来了。一个水手站在楼梯的最高一级上，把嵌板上的螺钉松了下来。可是母螺旋刚放开，嵌板就十分猛烈地被掀了起来，显然是被章鱼的一只胳膊的吸盘拉住了。很快，有一只长胳膊像一条蛇一样从开口处伸了进来，其他20只胳膊还在上面摇来摇去。尼摩船长只挥了一斧就把这根巨大的触须截断了，它卷曲着从楼梯上滚了下去。

在我们彼此拥挤着走上甲板的时候，它的另外两只胳膊像双鞭一样在空中挥动着，落在了尼摩船长面前站着的那个水手身上，并且以非常大的力气把他卷走了。尼摩船长大喊一声，跳了出去。我们也跟着一齐

跳了出来。

多么惊心动魄的场面啊！这个不幸的人被章鱼的触须缠住，黏在了吸盘上，让这条庞大的卷筒卷着随意地在空中摇来摆去。他不停地喘着粗气，看起来快要窒息了，他叫喊着：“快来救我！快来救我！”他是用法语说的这话，这引起了我的注意。原来船上有一个我的同胞，或者还有好几个我的同胞。这让人听了心碎的呼救声，我一生都无法忘记。

眼看这个不幸的人就要没命了。谁能从这强大的力量中把他夺回来呢？说时迟，那时快，尼摩船长跳到了章鱼的身上，又是一斧头把它的另一只胳膊也砍了下来。他的副手此刻也像疯了一样奋勇地跟那些爬在“鹦鹉螺”号两边的其他章鱼决斗在了一起。船员们各自挥动斧头，开始乱砍乱杀。加拿大人、葛瑟尔和我，我们也拿着我们的武器加入了这场肉搏。一种浓烈的血腥味弥漫在空中，让人心悸。一瞬间，我以为那个不幸被章鱼缠住的人可能已经被人从它那强大的吸盘上救了下来，因为那个章鱼的八只胳膊有七只都被砍下来了，剩下的一只把那个人像一支笔一样在空中挥来挥去。但当尼摩船长和他的副手扑到它身上的时候，这个东西喷出了一道黑色的液体，这是一种从它肚子的一个口袋中分泌出的黑水。结果，我们的眼睛都被弄得看不见了。当这团浓黑色的雾气消散的时候，枪乌贼不见了，跟它一起消失的，还有我那不幸的同胞。

那时的我们是何等的愤怒呀，我们控制不住地要跟这些章鱼拼命！不知是有10条还是12条章鱼已经到了“鹦鹉螺”号的甲板上和两边，我们在甲板上，在混合着鲜血和墨水跳动着的滚来滚去的一条一条的肉段中间，这些动物黏性的触须就像多头蛇的头一样，不一会儿就又生了出来。尼德·兰的鱼叉每一下都准确地刺入了枪乌贼那海色的眼睛中，把它的眼珠挖了出来。可是，我那勇敢的同伴一时没躲开，突然被一条怪

物的触须卷住后掀倒在地。枪乌贼那可怕的嘴对着尼德·兰张开了。这个不幸的人眼看就要被咬为两段了。我急急地跑过去救他，但尼摩船长走在了我的前面，先我一步动了手。他的斧子砍入了章鱼那两排巨大的牙齿中间，加拿大人意外得救了。他站起来后，把整个鱼叉刺入了章鱼的三个心脏中。

“很高兴能有报答您的这个机会！”尼摩船长对加拿大人说。

尼德·兰点点头，没有说话。

这次战斗持续了一刻钟之久。怪物被打败了，有的受伤了，有的死了，最后都给我们让出地方来，滑入水中不见了。

尼摩船长全身血红。他站在探照灯附近，一动也不动，用双眼盯着那吞噬了他的一个同伴的大海，大滴的泪珠从他的眼里流了出来。

[1](#)古挪威的国王。

第十九章 大西洋暖流

我们中间没有一个人能忘记4月20日那天所出现的惊人的场面。我是伴随着强烈的情绪写下来那一幕的。写完后，我把这段记述读了一遍，读给葛瑟尔和尼德·兰听。他们觉得我记述得很正确，就跟实际情形一样，但产生的效果还不够强烈。只有我们诗人中最有名的那位，也就是《海上劳工》的作者才能用他的妙笔把那惊心动魄的情景描绘出来。

我在前面已经说过，尼摩船长用很长的时间盯着那流动的海水。他

真的非常痛苦，难受得不得了。自我们到“鹦鹉螺”号上来，这已经是他失去的第二个同伴了。而且这个同伴死得那么惨！他几乎被章鱼粗大的胳膊压扁了、窒息了，他的身体几乎被章鱼的铁牙床磨碎了，他不能像他的同伴一样在安静的水底珊瑚墓地长眠。

就我个人来说，在这次战斗中，那个不幸的人发出的最后的绝望的呼喊声让我的心都碎了。这个可怜的法国人，忘记了在船上约定使用的语言，用祖国和母亲的语言发出了最后一次的呼救。“鹦鹉螺”号上所有的船员，他们的身心都是跟尼摩船长一起的，他们也跟他一样在躲避人类，而这其中有一个是我的同胞。这个神秘的团体显然是由不同国籍的人组成的。来自法国的只有他一个人吗？这又是不断横在我心头的一个难解的问题。

尼摩船长回他的房间去了，很长一段时间，我都没有再看见他。如果从“鹦鹉螺”号来判断——因为他是整艘船的灵魂人物，船完全能感应到他的情绪——他应该是愁闷、失望和踌躇的。“鹦鹉螺”号并没有沿着一个方向行驶。它像一具死尸一样随波上下。它的推进器已经停止了，或者说它几乎不用推进器了。它没有固定漂流的方向。它又不忍离开那战斗的地方，那吞噬了它的一个亲人的海面。

这样过了10天。一直到了5月4日，“鹦鹉螺”号在巴哈马水道口望见了留加衣群岛后，又向着北方的水道驶去。于是我们沿着海中最大河流的潮水行驶，这条大河有它自己的岸，自己的鱼类和自己的水温。我称这个河为大西洋暖流。

是的，这是一条河流，它在大西洋中自由地流动，而且它的水流跟大西洋的水流互不相混。这是一条颜色很深的大河，比周围海水的颜色还要深。它的平均深度是3000英尺，平均宽度是60海里。在某几处，它

的水流速度是每小时4公里，水容量比地球上任何一个河流的水容量都要大。

按照莫利船长的说法，大西洋暖流的真正水源，也就是它的出发点是在加斯贡尼海湾。在这海湾中的时候，它的水流的温度和颜色还不是很强，但已经开始形成了。它沿着赤道、非洲海岸向南流去，水流受热带地区阳光的照射，日益变得温热起来。它横穿过大西洋，一直到达巴西海岸的三罗格罗，然后分成两个支流，一个支流流入安的列斯群岛海中，尽量吸收那里的温热水分。这个时候，大西洋暖流担负起恢复海上温度平衡的重任，它把热带海水跟北极海水混合了起来，使之保持均衡。在墨西哥湾中，它被晒得非常热，然后沿着北美洲的海岸向北流去，一直流到纽芬兰岛。再然后受台维斯海峡寒流的推送，转折向西，又流入大西洋，在地球这一处的一个大圈上沿倾斜的曲线流动。到北纬43度的位置，暖流又分为两支，其中一支在东北季候风的帮助下，回到加斯贡尼湾和阿苏尔群岛，另一支让爱尔兰和挪威海岸变得温暖后，又流至斯勃齐堡，在那里，它的温度降至4度，成为北极自由流动的海。

此时，“鹦鹉螺”号就是沿着大西洋暖流行驶的。从巴哈马水道口出来，在14里宽、350米深的地方，暖流流动的速度是每小时8公里。越往北，暖流流动的速度越慢。这种规律性的变化是有其存在的必要性的，因为有人已经指出，如果暖流的速度和方向发生了改变，那么欧洲的气候就将变幻莫测。

到了中午时分，我跟葛瑟尔走到了甲板上。我告诉了他关于大西洋暖流的一些特殊性。当我把话讲完后，我让他把手放进水流里面去。

葛瑟尔按照我说的把手放进了水流里，他感到很奇怪，因为他丝毫不感觉不到冷热。

“这是因为，”我说，“大西洋暖流从墨西哥湾出来后，它的温度跟人的体温差不多。暖流就像一个巨大的暖气炉，流经欧洲沿海地区，使得欧洲沿海地区的气候温和，永远有青草绿叶。并且，如果我们按照莫利船长说的那样，把暖流的热力全部利用起来，那么得到的热量可以使一条像亚马孙河或密苏里河一般大的河流永远保持熔点温度。”

这个时候，暖流的速度是每秒225厘米。它的水流跟周围的水流很不一样，因为受到挤压，它的水面突出在洋面上，导致它的暖水和海中的冷水之间凹凸不平。另外，暖流的水因为富含盐质，所以看起来很黑，它呈现出的纯蓝靛色与周围的绿波截然不同。当“鹦鹉螺”号驶入与加罗林群岛同一纬度的位置时，它的冲角进入了暖流，但它的推进器还在海水中搅动，于是，我们可以看到这两种水流的明显的分界线。这个时候，在地中海中很常见的一种鱼——鱼游过来了，它们成群结队地在暖流中游着。

夜间的时候，大西洋暖流的粼粼波光与“鹦鹉螺”号探照灯发出的电光交相辉映，就好像在为我们指路，特别是在天气发生剧烈变化，有暴风雨威胁到我们的时候。

5月8日，“鹦鹉螺”号驶入与北加罗林群岛同一纬度的位置，我们与哈提拉斯角的侧面遥遥相望。在这一海域，大西洋暖流的宽度是7500海里、深度是210米。“鹦鹉螺”号依然像前几天一样随意地行驶着。好像已经没有人管理和监督这艘船了。在这种情况下，我要承认，逃走的计划是很有可能实现的。因为，在有人居住的海岸可以很方便地找到藏身处，而且现在海面上有许多不断往来行驶的汽船，它们中的一些是定期从纽约或波士顿到墨西哥湾去的船只，还有一些是小型的二桅帆船，它们在美洲沿海各地承担着沿岸航行的工作，我们能得到这些船只帮助的希望很大。所以，现在是一个非常好的逃走的机会。即使“鹦鹉螺”号

在离美洲联邦海岸30海里的位置行驶，也没有什么关系。

但突如其来的恶劣天气完全打乱了加拿大人的逃走计划。天气变得很坏。“鹦鹉螺”号走进了常会有暴风的一带海域，这里经常会有台风和旋风，之所以会这样，正是因为大西洋暖流的存在。冒险乘坐一只脆弱的小艇，与不断狂吼的波涛搏斗，那一定会白白送命。尼德·兰本人也认识到了这个现实，所以，虽然只有逃走才能治愈他那发狂的思乡病，但在目前的情况下，他也只好咬紧牙关，再忍耐一些时间了。

“事情必须得有个结果了。”那一天，他对我这样说，“我想，对于这件事，我们必须有个明确的决定。尼摩船长他离开陆地后一直在往北走。但我对您直说了吧，我已经受够南极了，我决不会再跟他到北极去。”

“那怎么办呢，尼德·兰？这个时候，我们是不可能逃走的！”

“我还是坚持我从前的那个主张。咱们必须跟船长谈谈。当我们驶近您祖国沿岸的时候，您没有开口跟他说。但现在到了我祖国的沿岸了，我就要跟他说。过不了几天，‘鹦鹉螺’号就要到达与新苏格兰同一纬度的位置了，那里靠近纽芬兰岛，有很宽阔的海湾，圣劳伦斯河就流入这个海湾中。圣劳伦斯河是我家乡的河，是我生长的城市魁北克的河。每当我想到这个的时候，我就完全控制不住我的愤怒，我的头发都要竖起来了。先生，我情愿跳到海里去！我不愿留在这里！我快闷死了！”

加拿大人显然是忍无可忍了。他的那种坚强、自由的天性让他不可能适应这无期徒刑一般的监牢生活。他的容貌一天一天在改变，他的性格愈来愈忧郁了。我能感受到他所忍受的痛苦，因为我也一样，我也很

想念我的家乡。差不多已经过去7个月了，我们一点也不知道陆地上的消息。还有，尼摩船长的孤独，他脾气的改变——特别是自从那一次与章鱼进行战斗后，他变得更加沉默了，这都让我对与尼摩船长一起航行产生了新的不同的看法。我觉得自己已经没有最初的热情了。在这只有鲸科动物和其他海中生物生活的环境中，只有像葛瑟尔那样的一个佛莱蒙人才能安心地接受。真是的，如果这个老实人没有肺而有腮，我想他完全可以做一条非常了不起的好鱼。

“先生，您觉得呢？”尼德·兰见我沉默不语，又问道。

“尼德·兰，那么，你是想让我去问尼摩船长，他对我们是怀着怎样的意图并有什么打算吗？”

“是的，先生。”

“可是他之前已经说过了，那还有必要再问一次吗？”

“是的，先生。我希望最后一次把这件事情搞清楚，请你就为了我，以我的名义跟他说说吧。”

“可是我很难有机会见到他，而且他好像也在躲我。”

“那你就多了一个去见他的理由，不是吗？”

“尼德·兰，我以后一定去问他。”

“那是什么时候？”加拿大人坚持地问道。

“等我遇到他的时候……”

“阿勒纳斯先生，那你让我去找他谈好吗？”

“不，还是我去找他谈。明天……”

“不，今天。”尼德·兰说道。

“好，就今天，今天我就去见他。”我答应了加拿大人的请求。如果让他自己去的话，我相信他一定会把整件事情搞砸的。

加拿大人回他的房间去了，我独自留在那里。我决定去问问船长，决定现在就去把这件事情办了——我喜欢有事就马上去办，不喜欢拖拖拉拉的。

我回到了我自己的房间。从我的房间中，我可以听到有脚步声从尼摩船长的房间中传来。不应放过这个能遇到他的机会，我在心里默默地对自己说。于是，我走过去，敲了敲他的门，没有人回应。我又敲了一下，然后我用手转动了门锁。

门打开了。我来到房间后，发现船长正弯身坐在工作台前，完全没有注意到我的出现。我暗下决心，一定要得到自己想要的答案，于是，我走近船长。

这时，船长突然抬起了头，皱着眉，粗暴地对我说：“您在这里干什么？”

“船长，我要跟您谈谈。”

“但是，我现在很忙。您就不能让我安静一下吗？”

这种说话方式让我很难接受，但是，既然下定了决心，就绝不退缩。我冷冷地说：“船长，有一件事，我非说不可。”

船长用讥笑的语气对我说：“有什么重要的事？难道您有什么新发现？”他摊开手上的书稿，用严肃的语气对我说，“教授先生，我手上的书稿被译成很多种语言。书稿中记录着我对海洋的研究以及我一生的经历。如果上帝支持，这书稿将会永久地留在这个世界上。我已经在上面签署了名字，并且用一个密封的盒子装好。如果‘鹦鹉螺’号沉没了，那么，最后一个活着的人，将会将它投入大海，海浪会将它送到某个人的手中。”

书稿签署了船长的姓名？那么，他的秘密总有一天会公布于世？接着，我引用他的话说道：“船长先生，我同意您的做法。绝对不能让您的研究成果受到损失，但您是在用很原始粗糙的方法来执行您的计划。谁知道大风会把这盒子吹到哪里去呢？它又会落到什么人手中呢？您就不能再想想其他更好的方法吗？您，或者你们中的一位不可以……”

“不可以，先生。”尼摩船长打断了我的话，急促地说道。

“如果您能恢复我们的自由，我，我和我的同伴们，我们愿意保存这个特别的手稿……”

“自由！”尼摩船长站起来说。

“是的，先生，就是自由，我现在想跟您谈谈。我们在您的船上已经待了7个月了，我今天代表我的同伴和我来问您，您是不是想把我们永远留在您的这艘船上。”

“阿勒纳斯先生，”尼摩船长说，“我今天要跟您说的，就是7个月前我跟您说的：谁进了‘鹦鹉螺’号都别想离开。”

“您这简直就是奴隶制！”

“随便您怎么想吧。”

“可是，奴隶也有恢复自由的权利，随时随地都可能有机会恢复自由，不管是哪种机会，只要他认为是个好机会，都会加以利用的！”

“对于这个权利，”尼摩船长回答说，“谁否认您没有了吗？难道我曾让你们发过誓吗？难道我曾以此把你们束缚住吗？”

尼摩船长两手交叉在胸前，用眼睛紧紧地盯着我。

“先生，”我对他说，“再一次跟您谈这个问题，您肯定不愿意听，我也很不愿意提起。但既然我们已经说到了，就一次说个明白吧。我再重复一次，这不单单是关于我一个人的问题。对我来说，我喜欢研究，研究对我来说是一种帮助，一种有力的精神吸引和转移，一种热情，它可以让我忘掉一切。与您一样，我也愿意自己一个人生活，不求为人所知，只是，我有一个小小的希望，那就是我想把自己的研究成果，在某一天用一个也许不怎么牢靠的盒子装上，让它随波逐流，送给未来的人。总之，在某些方面，我对您和您的生活态度有了一定的了解，我很佩服您，我也心甘情愿地跟随着您，不会有什么苦恼和不快。但在其他方面，我对您的生活一无所知，我觉得您的生活的一些方面很复杂、很神秘，对于这一部分，一直到现在，我的同伴和我，都丝毫不了解。我们的心时常随着您而跳动，我们会为您的某些痛苦而难过，也会因为您的某些天才或勇敢的行为而受到鼓舞。但是，我们同时又看到，哪怕是要表示一下人类的同情心，不论是站在朋友的角度还是站在敌人的角度，我们都必须压抑自己的感情，不敢轻易表露出来。就是这种感觉，这种我们对您的陌生的感觉，也使得我们难以忍受我们的处境，甚至对我来说也是这种感觉。而对于尼德·兰来说，更是如此。作为天性喜欢自由的加拿大人，由于对自由的热爱，对奴役的憎恨，他就会生出逃跑

的计划。对于尼德·兰的所思所想，以及他想做的，您有没有考虑过哪怕一次……”

我停下来，没有继续再说。尼摩船长站了起来说：

“尼德·兰在想什么，他想做什么，想怎么做，就随他去做好了，那跟我有何关系？又不是我把他找来的，也不是我乐意把他留在船上的。至于您，阿勒纳斯先生，您是能看透一切的人，有些事就是不说出来，我想您也是能了解的人，我没有什么可以对您说的。希望这是您最后一次来找我谈这个问题，再有下一次，我是不会再听您说的了。”

我从尼摩船长的房间退了出来。从那一天开始，我们之间的关系开始变得紧张。我把我们之间的谈话内容转述给了我的两个同伴听。

“现在，我们总算知道了，”尼德·兰说，“对于这个人，我们是不可能抱有什么期待的。‘鹦鹉螺’号现在接近长岛了，不管天气如何，我们一起逃吧。”

但是天气却愈来愈恶劣了，有迹象显示，大风暴就要来了。天空中的颜色已经变成了灰白的牛奶色。在天际，紧随着一阵一阵疏散的云朵来的，是那浓密的乌云。低垂的厚厚的云层很快覆盖了整个天空。海水开始高涨起来，涌起了巨浪波涛。除了那风暴的好朋友海燕之外，我们看不到一只鸟儿。风雨表受了大气中饱和的电力，内部物质分解了，开始显著下降，表示空气中的温度很高，水蒸气很多。暴风雨马上就要来了。

终于，大风暴在5月8日那一天来了。这个时候，“鹦鹉螺”号正行驶到与长岛同一纬度的位置，离纽约水道只有几海里远。不知受什么古怪情绪的影响，尼摩船长没有让船潜入海底，而是让它在水面上乘风破浪

浪，这也使得我有机会观察并描述这次大风暴的经过。

风从西南方一阵一阵地吹来，首先是小风，刚开始时的速度是每秒15米，到了下午两点左右，风速达到了每秒25米。这已经是暴风了。

尼摩船长站在甲板上，在猛烈的暴风里，他一动不动。他用一根绳子绑在腰间，以此来抵挡袭来的阵阵巨浪。我也站在甲板上，也用绳子把自己捆了起来，我一边欣赏着风暴，一边赞美着这个不怕风暴的奇人。片片巨大的浓云从我们头顶扫过，波涛汹涌的海水一阵阵涌来。我已经看不到风浪形成的大漩涡中间的小波浪了，只能看到那浓黑色的长波大浪。浪涛并不汹涌，因为它们一浪接着一浪，延伸到远方的时候，逐渐成了条纹状的细浪。

我不敢直视闪电的光辉，但尼摩船长正在紧盯着它，好像要把暴风雨的灵魂吸取过来。可怕的隆隆的响声遍布空中，这是由互相搏击的波浪的怒吼声、大风的呼啸声以及雷电的爆裂声混合而成的很复杂的响声。风从天际的各处吹来，台风由东方出发，经过北方、西方和南方，又回到东方，跟北半球的回旋风暴的方向正好相反。

啊，终于知道这大西洋暖流为什么被称为风暴王了，真是名副其实。由于它水流上下空气的温度不同，才引起了很强烈的台风。

接着下起了大雨，还伴着雷电带来了一阵火光，雨点则成了轰隆隆的闪电的修饰了。真要说的话，我觉得要选一种配得上尼摩船长身份的死，那一定是雷击致死。忽然，“鹦鹉螺”号猛烈地颠簸起来，这时候，它把前头的冲角竖了起来，就像是竖在空中的避雷针一样，我还会看到冲角上不时有很长的火花发出。我实在是筋疲力尽了，只好爬在甲板上，然后滚到了嵌板边。我把嵌板打开，回到了客厅，这时候，狂风暴

雨大作，雷电交加，猛烈到了极点，连在“鹦鹉螺”号船舱里站起来都很困难。

直到半夜左右，尼摩船长才回到船中。然后我听到了储水池开始蓄水的声音。“鹦鹉螺”号渐渐装满了水，慢慢地沉到了海底。

透过客厅中打开的玻璃窗，我看见好些惊慌的大鱼在雷电火光照耀的水中像幽灵一样游过。有一些鱼就在我眼前被雷电能死了。“鹦鹉螺”号一直在下降。我想只有当它下降到15米深的地方时，才可能找到安静。但出乎我的意料，由于上部水层受到了过度猛烈的搅动，它一直下降到50米的水深处。在大海的深处，它才重新寻找到安宁。

海底是那样的安宁，那样的寂静，那样的平和，谁能想到这个时候的海面正在经历着狂风暴雨的洗礼呢？

第二十章 北纬**47度24分**、西经**17度28分**

经历了这次大风暴之后，我们的船被抛到东方去了。我们的愿望——在纽约或圣劳伦斯河口附近的陆地逃走，也成了泡影。最可怜的是尼德·兰，他失望极了，开始变得像尼摩船长一样孤独，常常将自己关起来不理人。我和葛瑟尔的关系则变得更加紧密，时常待在一起。

而“鹦鹉螺”号则躲到了东北方。几天来，它变得很神秘，时而漂流在水上，时而在水下行驶，在危险的浓雾之间行驶着。浓雾产生的主要原因是冰雪消融，使空气变得极端湿润。很多船只消失在浓雾之中，可

以说浓雾造成了很多灾祸。海水拍打暗礁的声音被风声淹没，因此，还有很多船只消失在暗礁之下。尽管经过这里的船只通过鸣笛相互警告，但仍然会有悲剧发生。

所以，航行在这一带的船只就像是经历一场战役，那些战败的船只变成了残骸，静默地躺在海底。其中有一些已经腐烂，而一些新遇难的船只还很崭新，那些铁制部分依旧可以映照出我们探照灯的光辉。据统计，在种族角、圣·保罗岛、美岛峡、圣劳伦斯河口这些海域遇难的船只最多，船员连同乘客一同消失在茫茫大海之中。

日历翻到5月15日，我们行驶在纽芬兰岛暗礁脉的极南端。海水的冲积作用形成了暗礁脉，这里有一大堆有机体的渣滓残骸，它们是从赤道一带被大西洋暖流输送过来的；有的被寒流夹带着从北极沿美洲海岸流下来。堆积在这里的还有被雪崩冲刷下来的漂流石岩。数以万计死亡的鱼类用语就形成于此，很多软体类和植虫类动物正是在欲望的驱动下，葬身在这里。

在纽芬兰岛暗礁脉附近，海水只有几百米深，但稍向南一点，海底就下陷到约3000米，形成了一个很大的洞穴。暖流在这里范围很大，水流的速度和温度也逐渐下降，从而形成了海。

硬鳍海兔是我能举出的被“鹦鹉螺”号惊吓到的鱼类之一。这种鱼脊背是灰黑色的，身长约1米，它们对爱情很忠诚，可以说为同类树立了良好的榜样，但是这种榜样作用并没有被同类所效仿。还有一种味道鲜美的酥鱼，它的身体是翡翠色的；有跟狗头很像的卡拉克鱼，它的眼睛很圆很大；有像蛇一样的奇形鲫鱼，属于卵生鱼类；有黑色的弹形虾虎鱼，也被人称作河沙鱼，长约2分米；有尾巴很长的长尾鱼，会发出银色的光辉，而且游行速度很快，可以一直游到北极的海中去。

有的时候，船上的网里还会出现一种勇敢彪悍、多肉的鱼，这种鱼的头上有很多刺，而且鳍上有针，被称为海中蝎子，它是奇形鲫鱼、鳕鱼和鲑鱼的克星。还有一种鱼是“鹦鹉螺”号上的打鱼人费了好大力气才捕捉到的，它的身上多瘤，周身为栗子色，鳍为红色。由于鱼身结构很特殊，所以离开海水以后，还能够存活一段时间。

当然，除了以上说的，我还可以举出一些鱼的种类，比如在北极海域长期陪伴我们的小鱼；盛产在大西洋北部的银白尖嘴鱼；“拉斯加斯”笠子鱼；鹰鱼类，这是鳘鱼的一种。通常情况下，人们将鳘鱼归结为山中的鱼，因为纽芬兰岛可以算得上是一座山，不同的是它位于海底。

当“鹦鹉螺”号经过拥挤的鳘鱼群的时候，葛瑟尔激动地喊道：“哇，鳘鱼哩！我曾经以为鳘鱼跟鲾鱼、靴底鱼一样是扁平的呢。”

我喊道：“哈哈，你的想象力太丰富了，杂货铺里的鳘鱼之所以是扁平的，是因为人们将它割开后摆出来的。但是活着的鳘鱼跟鲾鱼类一样，是纺锤形的。这样的构造有利于在水中穿行。”

葛瑟尔回答：“先生，我相信您说的。您快看，这鱼也太多了，跟蚂蚁一样。”

“哈哈，我的朋友，如果没有人类的渔网，也许会更多呢。你知道一条母鳘鱼能产多少卵吗？”

葛瑟尔回答：“我猜大概有50万。”

“起码有1100万，兄弟。”

“1100万，除非我亲自验证过，否则让我如何相信？”

“葛瑟尔，你算完以后就会相信我的话了。要知道，美国、英国、法国、丹麦和挪威人都是成千上万地打这种鱼，如果不是鳕鱼的繁殖能力强，恐怕海中早就没有它们的影子了。就拿英国和美国来说吧，7.5万名水手驾驶着5000只船，专门用来捕捉鳕鱼。按一只船上4万条计算，一共可以捕捉20万条。挪威海域也是一样的情形。”

葛瑟尔答道：“听先生这么说，我相信你，不需要再计算了。”

“计算什么？”

“刚刚您说的1100万只卵。但还有一点需要跟您确认……”

“确认什么？”

“如果是这样，那岂不是4条母鳕鱼就可以供应英国、美国和挪威的需求了。”

当我们的船经过纽芬兰岛暗礁脉时，我发现每只船都会放下来10根左右长的钓丝，钓丝上装有200个钓饵，每根钓丝的一端都与小锚相连，被浮标上的线固定在水面上，而“鹦鹉螺”号很容易就通过了水底的现网。经过这里的大部分船都驶向北纬42度。那个方向跟纽芬兰的圣·约翰港和内心港在同一纬度，内心港则是横过大西洋海底电线的终点。

而“鹦鹉螺”号并不随波逐流，它向东驶去，看样子像是要沿着海底电线朝暗礁高地驶去。这里的高低都被探测过，高低起伏都有明确的记录。

时间到了5月17日，我在距离内心港约500海里，水下2800米深的地方，看见了海底的电线。起初，我并没有告诉葛瑟尔，初见电线时

候，他还以为是一条巨大的海蛇，他一如既往地想对它进行分类。我不得不点醒这个老实人，同时，向它描述这条海底电线装备的特殊过程。

在1857年至1858年之间，第一条海底电线被铺设，但是它的作用在发了400次电报以后便无法发挥了。于是，工程师们在1863年又铺设了一条长达3400公里的新线路，线缆有4500吨，是用“大东方”号运输的，但最终也以失败告终。

8天后，“鹦鹉螺”号在海底3832米深的地方行驶，海底电线就是在这里装设失败的。查看地图可以发现，这个地方距离爱尔兰海岸有638海里。当人们发现电线中断以后，便决定将损坏的部分重新拉上来，割断后重新连接。可是没过几天，线又断了，此时，已经无法挽回损失。

美国人并没有气馁，铺设海底电线的倡导者——西留斯·费尔提，将自己的全部财产都投入进去，同时，再次搜集新办法。很快，资金到位后，又铺设了另外一条优良的线路。新的线缆是完全绝缘的，先用纤维做的带子缠裹，然后再用金属套管包起来。1866年7月3日，“大东方”号再次出发，到海上装设新线路。

装设工作很顺利，可是仍然有意外发生。当电气工人装线的时候，总是有人损坏里面的铜丝，导致线缆无法导电。于是安德生船长召集他的工程师，开会研究这件事，并且贴出告示，如果抓到破坏线缆的人，可以不经审判直接扔入海里。此后，再也没有发生损坏线缆的事情。

7月23日，“大东方”号将海底电线铺设到了距纽芬兰岛约8公里的时候，收到电报说普鲁士和奥地利在萨多瓦战役后签订了停战协定。几天后，海底电线在浓雾中安装到内心港，至此，整个工程胜利竣工。第一个使用海底电报的是美洲和欧洲之间，当时很流行以下几句话——“光

荣是属于上帝的，和平是属于善良的人们的。”

我不敢想象，原来海底电线是这个样子的，这个长得像长蛇一样的东西由介壳的残体掩蔽起来，上面可见很多虫孔，最外面封上了一层石质的黏胶，是为了使它不受软体动物的侵害。它停留在海底多年，不受波浪的影响，但它发挥的作用却如此之大，每隔32%秒钟便会有电波传出。经过多年的检验证明，这条海底电线是经久耐用的，因为树胶外套留在海水中，变得更加牢固了。同时，由于地点靠近暗礁高地，所以海底电线永远不会被冲到深水层中去。

“鹦鹉螺”号在海底电线的指引下，到达了水底4431米的海底，只见电线安置在那里，没有任何拖拉的痕迹。接着，我们靠近了1863年意外事件发生的地点。

这里有一个长约120公里的广大山谷，形成在海底。就大小而言，如果将勃朗峰放下去，山峰也不至于露出水面来。山谷的东边被一道高2000米的峭壁挡住。26日，我们来到了山谷，这里距离爱尔兰只有150公里。难道尼摩船长要在不列颠群岛登陆吗？显然不是。出人意料的，尼摩船长掉转方向向南行驶，重新回到欧洲海域，难道是要绕过翡翠岛吗？

正在我胡乱猜测之际，我的耳边响起了尼摩船长的声音，他说：“很久以前，这只船叫‘马赛人’号，它于1762年下水，船上装有74门大炮。16年后的8月13日，拉·伯亚波·韦斯利尔指挥‘马赛人’号同‘普利斯顿’号作战。1779年7月4日，它会同德·埃斯坦海军大将的舰队共同打败了格连那德。1781年9月5日，它带着使命加入到格拉斯伯爵在杰萨比克湾的海战中。1794年，它被法兰西共和国更换了名称。同年4月16日，它加入了威拉列·若亚尤斯指挥的舰队，将美国派出的万·斯他比尔海军

大将率领的一批小麦输送船护送到平安的地方。共和纪元二年圆月111日和12日，这个舰队在海上遭遇了英国舰队。先生，历史是如此巧合，今天是圆月13日，1868年6月1日。如此推算下去，距离今天，事件已经发生了整整74年。就在这个地方，北纬47度2分、西经17度28分这片海域，英勇的‘马赛人’号的三支桅被打断，船舱中也进了海水，船上三分之一的船员都失去了战斗力。为了不屈服于敌人，他们宁可带领356名水手沉到海底去，他们将旗帜钉在船尾，高喊‘法兰西共和国万岁！’，静静等待船沉没海底。”

我喊道：“‘复仇’号！”

尼摩船长双手交叉着，低声说：“先生，你说得没错，‘复仇’号，多么美的名字。”

[1](#)法国资产阶级革命时期的表示月份的说法。

第二十一章 屠 杀 场

开始的时候，他只是淡淡地讲述这艘爱国战舰的经历，意外的是，当他说出最后几句话的时候，情绪高涨起来。引起我注意的是“‘复仇’号”这个名字的意义。当我将这一切联系起来的时候，我的眼神已经离不开船长。只见船长用双手伸向海洋，火热的眼睛映照出战舰的残骸。也许我永远也不清楚事实的真相，但是，我越来越确定，将尼摩船长和他的同伴们隔绝在“鹦鹉螺”号船壳中，不是一种普通的情绪，而是一种非常强烈的仇恨。但他们会不会在这种仇恨的驱使下展开报复行动，我就不得而知了，也许将来会有答案。

可是，当“鹦鹉螺”号缓缓回到海面的时候，“复仇”号的形象也渐渐消失。事实表明，我们再一次行驶在弥漫自由空气的水面上了。

这时，远处传来轻微的爆炸声，我看向船长，只见他丝毫没有动。

我叫了一声船长。

他没有回答。

我独自来到平台上，只见葛瑟尔和加拿大人已经在那里了。

“哪里传来的爆炸声？”我紧张地问。

“应该是炮响。”尼德·兰回答说。

在我的视线内，出来了一艘汽船，它向“鹦鹉螺”号驶来。突然那艘船加大了马力，迅速向我们追赶过来，距离我们只有6海里。

“尼德·兰师傅，那是哪里来的船？”

加拿大人回答说：“从它的帆索船具和桅杆高度来看，应该是一艘战舰，也许它们是在追赶‘鹦鹉螺’号，并伺机将它击沉！”

葛瑟尔说：“我说朋友，它真的会伤害‘鹦鹉螺’号吗？它可能做水下攻击吗？”

我问：“尼德·兰师傅，您能辨认出这船的国籍吗？”

尼德·兰回答：“由于没有挂国旗，暂时无法确定它的国籍，但我可以确定那是一艘战舰。”

15分钟过去了，我们继续观察这艘朝我们驶来的大船。但是，这么远的距离，我不相信它能认出“鹦鹉螺”号是一艘潜水艇。过了一会儿，加拿大人告诉我，那是一艘有冲角、有两层铁甲板的大战舰，从它的两座烟囱里喷出了浓厚的黑烟。它的帆同帆架交错在一起，彼此挤得很紧。在帆架上看不到任何旗帜标志。由于距离较远，无法辨认信号旗的颜色，只能远远看到它像薄带一样在空中飘舞。如果尼摩船长同意让它靠近，那么，我们就得救了。

尼德·兰说：“教授先生，等到船距离我们约1海里的时候，我们就跳到海里游过去，我建议您跟我一起走。”

我并不理会加拿大人的提议，继续看着那艘船。随着距离的缩小，那艘船在我眼里的影像越来越大，我想不管是哪个国家的船，它都会欢迎我们的。

葛瑟尔接着说：“先生，请您好好考虑一下，如果您愿意跟着尼德·兰朋友走的话，我负责将您驮到那船边去。”

我刚想回答葛瑟尔的问题，就见一道白烟从战舰发出，几秒钟后，周围的海水被一件重物激起了浪花，落在“鹦鹉螺”号的后部。紧接着，我的耳边响起了爆炸声。

我警惕地喊道：“他们怎么会向我们开炮！”

加拿大人低声说道：“勇敢的好人！”

“看来，他们并没有同情我们几个遇难的人！”

“请先生原谅……”葛瑟尔边拍打身上的水花，边说，“请先生见谅，他们一定是认出这条独角鲸啦。”

我喊道：“他们眼神也太差了吧，我们是活生生的人呢。”

尼德·兰看着我的眼睛说：“也许他们正是为了这个呢！”

我豁然开朗，现在可以肯定了，人们对这个怪物的存在保持一种敌对的态度。毫无疑问，在与“林肯”号的接触中，当加拿大人用鱼叉叉它们的时候，佛勒冈司令已经意识到这条独角鲸是一只潜水船，它远比鲸科动物更危险。是的，一定是这样的，所以周围的海面上一定布满了追逐这艘毁灭性的机器的舰艇。

当然，我同样意识到，如果尼摩船长利用“鹦鹉螺”号进行报复，后果将是严重的。我们回想一下，我们被囚禁在房间中的那一夜，“鹦鹉螺”号就攻击了那些船只。那些葬送在珊瑚墓地上的人，就是那次战争的牺牲者。是的，我越来越肯定自己的猜想是正确的。至此，尼摩船长的秘密暴露了一部分，虽然无法确定他的身份，但有一点是可以确定的，那就是如今很多国家联合起来追杀他，一定是与他有着不共戴天的仇恨。往事像电影一样在我的脑海中回放，我突然意识到，在前来追赶“鹦鹉螺”号的船只当中，没有朋友，只有无情的敌人。

紧接着，越来越多的炮弹落在我们的船周围，还好没有击中“鹦鹉螺”号的。

战舰距离我们越来越近，转眼只有3海里了。尼摩船长始终忽视战舰对我们的猛烈轰击，只是躲在船里不出来。可是，加拿大人告诉我，一旦炮弹打在“鹦鹉螺”号的船壳上，那伤害将是致命的。

他说：“先生，我们应该想办法逃走。或许我们可以向追来的船发出信号，让他们明白我们是正直善良的人。”

尼德·兰拿出他的手帕来回摆动，虽然他的力气很大，但是马上就被一只更有力的手掌制止了。

船长喊道：“混账东西，你是不是想让我把你钉在那只战舰的冲角上？”

尼摩船长说出的话非常可怕，再看他的脸更是可怕。也许是由于心脏痉挛的缘故，他的脸变得非常苍白，仿佛心脏停止了跳动一样。他的瞳孔可怕地抽缩着。他边吼边按住了加拿大人的肩头，不再让他动弹。接着，回头对着攻击“鹦鹉螺”号的战舰吼道：“难道你知道我是谁？我不用看就知道，你属于那个被诅咒的国家。好，现在我就把我的旗帜给你看看！”

尼摩船长在平台上插了一面旗，不难看出，跟在南极插的那面一样。正在这时，一颗炮弹落在“鹦鹉螺”号船身上，还好没有造成严重的损坏。只是船长受到了惊吓，炮弹在他身边落下，又落入海中。而船长似乎对此并不在意，他干脆地对我说：“先生，现在您和您的同伴一起下去。”

我好奇地问：“船长，您是要攻打那只船吗？”

“你说得没错，我要将它炸沉。”

“请不要这样做！”

尼摩船长冷冷地说：“这件事您别管，我已经决定了。教授先生，命运注定让您看见不该看见的场景。是对方先开的火，我要让他们付出惨痛的代价，您赶紧进去吧。”

“这艘船属于哪个国家的？”

“您不知道就最好了。我不会告诉您的，您快下去。”

我们三个人只有服从。这时，“鹦鹉螺”号的十五六个水手出现在船长周围，他们带着同样的仇恨注视着那艘追来的船。就在我们回到房间的时候，又有一颗炮弹落在船身上，紧接着，传来船长的喊声：“开打吧，把所有的炮弹都留给敌人，他们一定会败给‘鹦鹉螺’号的！但不要让它在这个地方沉没，它不配同‘复仇’号的光荣残骸消失在同一个地方！”

我按照船长的指令回到房中。尼摩船长和他的副手仍然留在平台上。紧接着，“鹦鹉螺”号的推进器转动起来，迅速躲到炮弹打不到的地方。但对方的船似乎并不死心，继续朝我们追来，而尼摩船长也只是与它保持一定的距离。

转眼到了下午4点左右，不安的情绪将我带到中央楼梯。我无法让自己停住脚步，冒险来到平台上。只见船长显得很激动，不停地在原地踱步，眼光不时瞄向距离“鹦鹉螺”号五六海里的战舰。此时，尼摩船长不再是一个绅士，更像是一头猛兽，他故意让战舰追来，故意将它引到西方。奇怪的是，他并不回击，对此我难以理解。我试图做最后的努力，让他改变主意，但是还没等我开口，就被他制止了。他告诉我，他是正义的，他是被压迫者。他曾经深爱过这个国家，但是他的爱人、子女、父母全都去世了，所以他痛恨这里的一切，痛恨船上的人。

说完了这些，他再次警告我不要说话。

我的目光落在追来的战舰上，它正在紧追不舍。我赶紧找到尼德·兰和葛瑟尔，对他们说：“快，我们逃走！”

尼德立即表示赞同，他问：“战舰是哪个国家的？”

我答不出来，只是对他说：“它属于哪个国家的并不重要，重要的是，天黑之前它会被击沉。与其做一个杀人的帮凶，还不如同他们一起去死。”

尼德·兰平静地说：“这正是我的意思，等到天黑我们就伺机逃走。”

夜幕来临了，船上一片静默。“鹦鹉螺”号沿着原来的航线行驶。我能够听到推进器的声音以及规律的搅水声。它浮在水波上，顺着波浪一会儿转向这边，一会儿转向那边。

我和同伴们已经下定决心，当战舰接近“鹦鹉螺”号的时候，我们就逃走。由于月亮很圆，月光很明亮，也许我们会被发现，但是这并不能改变我们的主意。既然我们无法阻止惨剧的发生，那我们就只有离开这里。有几次，我以为“鹦鹉螺”号要还击了。出人意料的是，它只是让敌人靠近，但紧接着就又做出逃避的姿态。

时间就这样流逝着，我们始终在等待着逃跑的时机。也许是太激动，我们彼此之间话很少。尼德·兰想立刻跳入海中，但我制止了，我让他等待时机。据我观察，如果“鹦鹉螺”号对战舰展开攻击，我们就很容易逃走。

时钟指向了凌晨3点，我的内心越来越不安，为了缓解紧张的心情，我来到了平台上。只见船长还在那里，他靠着旗帜站着，旗子在微风的吹动下，在他的头上招展。他的目光一刻都没有离开敌人的战舰，炯炯有神的目光像是电灯，诱惑着敌人的战舰。当月亮越过子午线的时候，木星在东方升起。抛开人为的因素，天空和海洋是如此平静地共

处，在月光的照耀下，海水像一面明镜，将月亮的影子美丽地展现出来。身处如此安静的环境中，我觉得自己的生命都在颤抖，甚至忽略了“鹦鹉螺”号上的仇恨。战舰距离我们约2海里远。只见它们循着“鹦鹉螺”号的磷光追来。我能清楚地看见对方表示方位的灯光以及挂在平台上的白色船灯。船上喷出的一阵阵火花、一团团煤渣，像星光一样散在空中。

我在平台上安静地待到早晨，尼摩船长似乎忽略了我的存在。战舰距离我们还有1.5海里的距离，当曙光初现的时候，炮声再次响起。是“鹦鹉螺”号在攻击它的敌人，我和我的同伴们逃走时刻，马上就要来临了。

我想下去通知我的伙伴们，正巧碰上了船副和几个水手。尼摩船长连他们的存在也忽略了。这时，“鹦鹉螺”号已做好了“战斗准备”，其实准备的措施很简单，只是将平台周围栏杆上的线网放下来，将探照灯和领航人的笼间藏到船身里面。同时，卸掉了可能阻碍它行动的突出部分，这样就准备就绪了。

我回到客厅中，明显感觉到“鹦鹉螺”号一直在浮出水面。清晨的曙光照耀着海水，在海浪的波动下，玻璃窗前显得很活泼、生动。

就这样，可怕的6月2日便开始了。大约5点的时候，“鹦鹉螺”号的速度减慢了。我立刻明白了尼摩船长的意图，他是故意让敌人靠近。紧接着，耳边传来猛烈的炮火声，以及炮弹落入水中发出的呼啸声。

我们的机会来了，我对伙伴们说：“朋友们，时机成熟了，让我们握握手，愿上帝保佑我们！”

尼德·兰始终表现得很坚定，而葛瑟尔看起来则很镇静，我略微有

些紧张，感觉就要控制不住自己的情绪了。我们经过图书馆，通过那扇通往中央楼梯笼间的门，这时，我突然听到上层嵌板忽然关闭了。加拿大人想跳到梯阶上去，被我拉住了。紧接着，耳边传来熟悉的呼啸声。我们清楚，这是“鹦鹉螺”号在潜水。

“鹦鹉螺”号的意图很明显，而我们都清楚，逃走的行动已经迟了。“鹦鹉螺”号放弃了从坚固的铁甲上来攻打敌人的双层战舰，它现在要潜伏到战舰的浮标线下面，在更有利的方位来进行袭击。我们被迫成为这场悲剧的见证者。此时，我们已经没有更多的时间来思考，只得躲回房间，面面相觑。我感觉自己快要疯掉了，头脑一片空白，那感觉就像是在等待一场可怕的爆炸，难受极了。我的耳朵变得非常警惕，随时准备接收外界传来的信息。

奇怪的是，“鹦鹉螺”号突然提升了速度，以至于整个船壳都开始颤抖。突然，我感受到了冲撞的发生。我似乎听到了推进器拉开来和送进去的声音。要知道“鹦鹉螺”号的推进器是有着强大的推动力的，它穿透那艘战舰就像是穿过布帆一样。我已经无法抑制我的情绪了，我们跑出房间，急忙去找尼摩船长。

在客厅中，我看到尼摩那忧郁、冷酷的面庞。他的双眼一直在注视着他的敌人，眼看着这艘庞大的物体沉入海底。船距离“鹦鹉螺”号大概10米远，我可以清楚地看到船壳裂开，海水一拥而入，水瞬间就淹没了两门大炮和吊床舱房。甲板上跳动着慌乱的人影，在海水的冲击下，那些不幸的人挣扎着、扭曲着身体，做着最后的挣扎。

我觉得自己已经没有知觉了，头发竖起，两眼睁得溜圆，呼吸急促，紧接着，耳边的声音逐渐消失，我被一种神奇的力量固定在玻璃上面。

转眼间，一艘巨大的战舰就沉没了，“鹦鹉螺”号则始终没有离开，还在对它进行最后的监视。忽然，战舰发生了爆炸，甲板被轰跑了，船舱也着了火。海水的力量使“鹦鹉螺”号也倾斜了。紧接着，那艘战舰迅速下沉，挤在桅杆上的遇难者将桅杆上的横木架压弯了。不一会儿，那艘庞然大物沉入水中，海水将船员的身体拉入漩涡。我转过头来看尼摩船长，只见这个可怕的行刑者，眼睛里充满了仇恨，眼睛一眨不眨地看着这一切。

当一切都结束后，尼摩船长回到他的房间。我紧跟着他，在他房间的嵌板上，我看到了一些英雄人物的肖像，同时看到了一个年轻的妇人和两个小孩的肖像。尼摩船长盯着肖像，向像中人敞开怀抱，跪在地上抽噎起来。

第二十二章 尼摩船长的最后几句话

经历了这一可怕的事件，“鹦鹉螺”号陷入一片黑暗和沉默，它在水下近百尺深的地方逃离了事发现场，没人知道它是向北还是向南。我不知道这个实施了报复的人想逃到哪里，而我开始对这个人产生了一种厌恶之情。也许他曾经受过很深的伤害，但这并不是他伤害别人的理由，他没有权利报复。尽管我不是他的同谋，但是他让我见证了他的罪行，我想我有理由讨厌他。

11点的时候，房间里又恢复了光明。我来到客厅，一个人都没有看见。我开始研究客厅里的各种机器。经过观察我发现，“鹦鹉螺”号正以时速25海里的速度向北方驶去，时而浮在海面上，时而潜入水中。从地

图的记录来看，我们经过了英吉利海峡口，正以极快的速度向北极海中驶去。

夜间，我们的船行驶到大西洋海面200里的地方。我打算回到房中休息，但是，梦魇一直伴随着我，脑海中总是回放着那幅可怕的画面。

自那时起，我们不知道将会被“鹦鹉螺”号带去哪里，只知道船正以飞快的速度行驶，只知道船穿梭在雾霭之间。也许它要走近斯勃齐堡的尖角，走近纽藏伯尔的悬崖，或者是要驶过神秘的白海，喀拉海¹，鄂毕湾²，利亚洛夫群岛，以及亚洲沿海没有人到过的海岸。时间就像停止了一样，我们的生物钟彻底被打乱了，生活失去了规律。我感觉自己进入了一个神奇的领域，我总是想象着有个蒙面的人，身材高大的他一头扎进海洋中去。我简直成了怪异的戈登·宾。

“鹦鹉螺”号似乎做好了长期行驶的准备，我们在船上看不到任何人的身影，也没有人向我们解释什么。我们只是能感觉到，船偶尔会浮上水面透气，船员一直在机械地重复着两个动作——打开、关闭。之前，船长每走到一个地方都会在地图上记方位，但现在这项工作也省略了，于是，我彻底不知道自己在什么位置了。

尼德·兰憋闷得快要发疯了，直到最后关头，他竟然说不出话来。葛瑟尔努力让他恢复正常，又怕他精神错乱，自寻短见。葛瑟尔细心地照料着尼德·兰，不让他有任何闪失。我知道，我们不能再这样下去了，有一天早上，我迷迷糊糊中听见尼德·兰俯身低声对我说：“我们逃！”

我吃惊地站起来，问：“什么时候？”

“晚上。你没发现吗，‘鹦鹉螺’号上的人都精神萎靡，处于一种麻木

状态。教授，您会跟我们一起走吗？”

“会，只是我们甚至不知道自己在什么位置。”

“今天早上，我在浓雾之中看到了一块陆地，就在向东20海里的地方，尽管我不知道那是什么地方，但我们可以逃到那里去。”

我完全赞同尼德·兰的想法，回答说：“对！只要有机会获得自由，哪怕被大海吞噬了也值得！”

“现在的海浪很汹涌，风又大，只要我们逃到那块陆地，就不用担心他们划着小艇来追我们了。我已经偷偷准备了一些食物和水。”

“你一定要叫上我。”

尼德·兰又补充说：“如果他们发现我们逃跑，并追上我们，你们一定要杀死我，我不想被他们捉回去。”

“哪怕是死，我们也要在一起。”

我铁了心跟尼德·兰一起逃走。我来到了风浪很大的平台上，天气很恶劣，但我们决定，只要见到陆地我们就逃走，不能错过任何机会。

此时，我既想见尼摩船长，又不想看见他。想起那个可怕的画面，我觉得自己无法原谅他，想想还是不见的好，这也是人之常情。

留在“鹦鹉螺”号上的最后一天是最漫长的，为了不泄露我们计划逃走的目的，我和我的两个伙伴一直保持着一定的距离。晚上6点，晚餐时间到了，可是我什么都不想吃。为了让自己保存体力，勉强吃了一些。6点半的时候，尼德·兰走进我的舱房，对我说：“我们暂时不要见

面了。等到10点的时候，我们趁着黑暗逃走，我们在那边等您。”

尼德·兰顾不上听我的回答就离开了。此时，我决定再确定一下船行驶的方向。我来到客厅，确定了我们的船是在深50米的地方，并以惊人的速度向东北偏北方驶去。

最后，我要跟陈列室里面的珍稀宝贝告别，我努力将每一件宝贝都记在心里，留作纪念。就这样，一个小时过去了，我重新回到我的房间。根据计划，我穿上了海底专用的结实衣服。整理好笔记里的秘密。我的心跳得非常厉害，担心尼摩船长突然出现，如果碰见尼摩船长，他一定会发现我们的秘密。

我经过船长的房间时听见里面有脚步声，他每发出一个响声，我就以为他要出来了，幻想着他指着我的鼻子问我，为什么要逃走。我又幻想着自己触碰到了报警器，这种感觉糟糕极了，我甚至想，还不如直接跑到船长的房间，跟他摊牌更舒服一些。

当然，这种想法只是停留在脑海，我很快就让自己平静下来。然而，尽管身体平静了，但心情始终无法平静。我回忆着在“鹦鹉螺”号度过的所有日子，回忆登上“鹦鹉螺”号后拥有的快乐与痛苦，比如：在海底打猎，经过多列斯海峡，遇见巴布亚岛的土人，坐礁搁浅，珊瑚墓地，苏伊士海底地道，桑多林岛，克里特的潜水人，维哥湾，大西洋洲，冰山，南极，被困在冰层中，跟章鱼战斗，大西洋暖流的风暴，甚至是经历的那个非常悲惨的画面。这些事情一股脑儿地涌入我的脑海，一幕幕地放映着。突然，我觉得尼摩船长变得高大起来，现出了超人的原型。我甚至觉得，他不是人，而是海神。

9点半钟的时候，我感觉自己的头快要炸了，为了让自己好过一

些，我用双手紧紧按住脑袋。我想让自己的思维停止运转，但在这半个小时里，我的脑海里不停地浮现那个噩梦，我觉得自己快要疯了。这时，我隐约听到了手风琴的声音，琴声中透露出一种对人世的憎恨和远离，可见，演奏的人想要斩断同人世的纠葛，如此婉转而哀怨。我的整个身心都被琴声吸引了，仿佛游离到人世之外。

突然，我的脑子里出现了一个可怕的画面，尼摩船长发现我们要逃跑，于是离开房间，到客厅里等我，他要跟我说话，而且对我施了法术，我只能听从他的指令。然而，现实中很快就到了10点，我必须去跟伙伴们会合了，哪怕是上刀山下火海也没有退路了。我只能硬着头皮打开房间，小心翼翼地尽量不发出声音。然而，偏偏事与愿违，门发出了非常恐怖的声音，或许这只是我的幻觉。我沿着“鹦鹉螺”号的过道，在黑暗中一步一步地向前摸索，每走一步，心跳都要加快几下。

客厅里一片黑暗，我蹑手蹑脚地进入客厅后，发现尼摩船长正在那里。我担心的事并没有出现，他根本无暇顾及我，而是完全沉浸在梦幻般的音乐中。我努力让自己走路不发出声音，因此，走得很慢，足足花了5分钟，才走到客厅通往图书室的门。

正当我胜利在望，即将离开客厅的时候，尼摩船长的一声叹息将我的希望打破了。我感觉到他站起来了，而且向图书室这边走过来，也许说飘过来更贴切，不知道什么原因，他突然哭起来，胸部鼓鼓的，紧接着他说了一些莫名其妙的话：“够了，上帝啊！到此为止吧！”

难道尼摩船长后悔自己的所作所为了吗？

我顾不上多想，趁机跑出图书室，通过中央楼梯，来到了小艇旁边。我从开着的小孔走入艇中，发现我的两个伙伴已经在等着我了。

“我们可以出发了！”我喊道。

“马上出发！”尼德·兰回答。

为了打开“鹦鹉螺”号船身钢板上开的孔，尼德·兰用钳子把螺钉紧紧地上好。等我们准备好以后，尼德·兰又用那把钳子松开固定大船和小艇之间的螺钉。突然，船上一片混乱，难道是有发现我们逃走了吗？我发现我的手里多了一把短刀，是尼德·兰递给我的。

我低声说：“我们以死相抗！”

尼德·兰不再理会螺丝钉，想去弄清楚船上究竟发生了什么事。只听船员们在不断地喊“北冰洋大风暴来了！”很显然，这阵骚乱并不是针对我们的。

没什么比北冰洋大风暴更让人害怕的了，这是挪威沿岸一带最危险的海域。难道，“鹦鹉螺”号就要被卷入深渊中了吗？我们的小艇会是什么样的命运？

此时，海水就像涨潮一样，汹涌无比。海水之间形成了很急的漩涡，吞噬了所有经过的船。那是激流的中心地带，就像人的肚脐眼一样，那种力量可以将15公里以内的所有东西吸附进去，动物和船都不能幸免。

船长的决策让“鹦鹉螺”号驶入了一个危险的境地，漩涡成螺旋状运动，将船迅速卷入，速度越来越快。小艇还没有离开大船船身，我感觉自己此时正被一种惊人的力量所带走。就在那一刻，我感受到了死神的召唤，血液停止了循环，神经已经麻木，全身开始冒冷汗。船上，到处是绝望的吼叫声，还有大船撞击飞石的声音。在这紧急时刻，“鹦鹉

螺”号像一个战士，在不停地调节自己，我们则随着大船不停地竖起，落下。

“我们不能离开大船，只有依附大船我们还有一线希望……”尼德·兰的话音未落，就传来了可怕的嘎嘎的声音。接着，螺丝钉就掉落下来，小艇挣脱了大船的怀抱，像石块一样，落入漩涡中。

一根铁条撞在了我的脑袋上，昏迷立刻侵袭了我。

[1](#)北冰洋的边缘海，位于亚洲大陆西北部沿岸和新地岛、北地群岛之间。

[2](#)喀拉海深入俄罗斯西伯利亚西北部的大海湾，位于亚马尔半岛与格达半岛之间，是鄂毕河的出海口。

第二十三章 总 结

下面，我简单地将我们这次海底旅行进行一下总结。我不知道我和我的伙伴们是如何逃出那场可怕的灾难的，只知道，当我醒来的时候是躺在罗夫丹群岛上一个渔夫的木头房子里面。我们都安然无恙，互相拥抱表示庆祝。

由于交通工具的原因，我们不能马上回到法国去。因此，我们只能等往来北角的汽船经过这边时才能走。在这段时间内，我向那些善良的人讲述了我们的惊险故事。整个讲述尊重事实，没有遗漏任何情节，也没有夸张。也许，当科学进步到一定程度的时候，人们可以随时去海底体验我们所经历的故事。

但在其他人没有经历过这样的历险之前，估计人们不会相信我的记录。不过那又有什么关系呢，我有权利讲述自己看到的一切。在过去10个月的时间里，我们穿过了太平洋、印度洋、红海、地中海、大西洋、南北两极海洋，经历了一段无比神奇的海底环球旅行。

可是，关于“鹦鹉螺”号的一切我就都不得而知了。它有没有抵住北冰洋大风暴的压力；尼摩船长是不是还活着；他是否还在继续他的复仇计划；海浪会不会把关于他生活的手稿带到大陆上来；他的真实姓名和国籍到底是什么……这些问题，我都无法回答。但我真的希望他那强有力的潜水船能够度过那次可怕的灾难，重新在海洋上生存。这样，尼摩船长就可以居住在他所选择的祖国的海洋中，平息心中所有的仇恨。但愿他能够放弃复仇的情绪，成为一个真正的海洋探险家。虽然他的命运很离奇古怪，但并不妨碍他的崇高与伟大。由于我也经历了10个月的超自然的生活，因此，我更能理解他。我想，我可以回答6000年前《传道书》中提出的一个问题了。书中问道：“谁能了解这海洋的最深处呢？”我想，我和尼摩船长可以回答了。

第一部 气球上降落的人

第一章

“我们是不是在往上飞？”

“不，恰恰相反，我们正在往下降！”

“史密斯先生！比你说的还糟糕，我们是在往下掉！”

“哦！天啊！怎么会这样？还不赶快把压舱物都抛掉！”

“你看，已经都抛掉了，全空了！”

“现在气球开始上升了吗？”

“还没有！”

“我好像听到了海浪拍打的声音！”

“不奇怪，我们乘坐的吊篮下就是大海！”

“海面离我们不到500英尺吧！”

“啊！快！把一切有重量的东西全都抛下去……一切，一切的东西！”

这些带着惊恐叫喊的声音来自于1865年的3月23日。那天的下午4点钟，一望无际的太平洋上空传出了这些惊悚的叫喊。

那一年原本属于草长莺飞的春季，不料却被从北方吹来的恐怖暴风打破了。

这场暴风是从3月18日开始刮起的，整整刮了9天，片刻不停地咆哮着。

暴风沿着北纬35°，横穿赤道，经过1800英里的路程后，来到了南纬40°。从美洲到欧洲，从欧洲到亚洲，暴风一路肆掠。所到之处，城市被毁，树木被废，巨浪毁堤.....

之后的统计数据就可见一斑：从海面抛向陆地的船有几百艘；巨浪将一些地方夷为平地；几千人在陆地、深海送了命.....

这，就是那场狂风带给人们的灾难，以及呈现给人们的凄惨情形。

在这之前，也有类似的暴风，比如1810年10月25日在哈瓦那、1825年7月26日在瓜德罗普，都曾经历过这样的灾难。不过，这两次的灾难都比不上1865年的这场毁灭性大。

而就在陆地和海洋经历这场世纪灾难的同时，太平洋上空也同样上演着惊险的一幕。

那天，太平洋上空飘浮着一只氢气球，那是一只犹如被龙卷风卷起，所以才会冲上天空的气球。在暴风中，氢气球以每小时90英里的速度穿过太空，卷进漩涡，并在气流的漩涡中打着转。

仔细一看，不难看出，那只气球的下面是系着一只吊篮的。不过，

由于浓重的水雾弥漫海面，所以吊篮里坐着的五个人，人们是看不到的。

海面上突然凭空飘浮着一只带着吊篮“尾巴”的气球，有人就好奇了，这气球是暴风的玩具吗？它是从哪里来的呢？又是要飘向什么地方？

当然，没有人觉得它会是在刮暴风的时候从地面上的升起来的。但是，暴风是18日开始刮起来的，在人们看到这气球时，已经是23日了，是不是可以说，这只气球在5天前就飞上了天空呢？

这么看来，我们没有理由不相信，这携带着吊篮“尾巴”的气球来自一个遥远的地方，因为根据狂风的速度，一昼夜的时间，足以将这气球带出2000英里了。

不要说其他人，就是吊篮里坐着的那些人，他们自己也无法计算出从气球起飞到现在，经过了多少路程。

如果有人知道吊篮里还坐着人，一定会更加好奇的，因为在这样咆哮的狂风面前，他们怎么可能平安无事？

他们脚下的吊篮被狂风吹得荡来荡去，而且还打着转，难道他们感觉不到旋转，没有跌宕起伏和眩晕的感觉吗？

没有！不过，可惜的是，他们无法透过吊篮下的迷雾来欣赏脚下的风景，他们被一团团的阴云环绕着，眼前雾茫茫的一片，没有白天和黑夜的区别。

飘浮在高空中的他们，看不到周围的一切，既看不到脚下有什么，也听不到地面上的人声，甚至有时连那澎湃激昂的海浪声也传不到他们

的耳朵里。只有在气球急速下降时，他们才会意识到危险。

于是，他们扔掉了所有的装备：弹药、枪支和粮食。那减轻了负重的气球便再次升了上去，升到了4500英尺的高度。

当迷雾散去，在一瞬间，他们看到了脚下的汪洋大海，同时意识到，悬在空中比落下深海要安全得多。于是，他们不断扔掉随身携带的东西，即使那东西再有用，在生和死面前，也都变成了垃圾。同时，他们尽量避免让气球漏气，因为他们深知，只有气球里的氢气，才是他们活命的法宝，也只有氢气，才能保证他们一直悬浮在空中。

每一个黑夜，他们都是在惊险和恐怖中度过的。（如果胆子小一点，肯定早都吓死了。）黑夜过去就是白昼，可白昼丝毫没有让他们的恐惧减轻，直到3月24日那天清晨来临，暴风呈现出了减弱的迹象，这才让他们轻轻地松了口气。

那天，在东方吐出鱼肚白时，浮在他们头顶的片片阴云逐渐散去，并向高处移动。几个小时后，狂风变成了强风。用一句专业术语来说就是：大气流动的速度比原来减弱了一半。

当然，这样的风势如果放在船上的水手身上，他们仍是要收帆待命的。

云雾渐散，到中午11点时，空气变得越发稀薄，并散发出雷雨过后的潮湿气息。暴风好像已经停止了向西肆掠，风也变得若有若无。这风会不会像印度洋上的台风，说停就停，瞬间就烟消云散呢？

还没等他们高兴，预料不到的事情又发生了——气球开始缓缓下降，像一只泄气的皮球，正在慢慢变瘪。气囊越伸越长，已经由圆形变

成了椭圆形。

中午12点时，气球离海面只剩下2000英尺了。

原本这只气囊的容量是很大的，能够容纳5万立方英尺的气体。而正是因为它能容纳如此多的气体，才会让气球升上天空，并越升越高。甚至即使不上升，也会在空中平行移动很长时间。

可现在，气囊里气体的减少，让气球吊篮里的人意识到了危险的逼近，他们再次把除了自身之外，一切能使吊篮下降的物品——极少的存粮，衣服口袋里的小刀等全部丢了下去。

即使这样，还是不能让他们感到安全。于是，有人爬上了套网索的圆环，将气球与吊篮间的绳索系牢了一些。

不过，所有的人都很清楚，气球里的氢气已经不足以让气球携带吊篮和他们维持一个向上甚至平行的状态了。留给他们的，只是死路一条。

他们乘坐的吊篮下，连小岛都没有，更不要说陆地了。有的只是一片汪洋大海，没有可着陆的陆地，连下锚的地方都没有。

一望无际的大海上，咆哮着惊涛骇浪。这样的汪洋大海，即使视野扩大40英里，也是看不到边际的。

从高处看下面的大海，犹如缓缓移动的平原。而在暴风肆掠下激起的浪头，则又如同在广阔平原上奔驰的骏马。那泛起的一个个水花，就像是骏马的鬃毛在迎风飘扬。

没有陆地，即使连孤帆也不见一片。他们能做的只是不惜任何代价

阻止气球下降，否则，气球就会被海浪卷入大海。

吊篮里的人在这危急时分想尽了办法。但是，尽管他们竭尽全力，却也无法阻止气球的下坠，气球正向东方，以飞快的速度下坠着前移。

他们处在了极其凶险的境况下。此时的他们已经不再是气球的主人，即使再努力，也只能成为气球的奴隶，被气球带着走。

气囊还在不断地往下瘪，氢气从看不见的缝隙往外泄，他们没有办法去堵塞那缝隙，只能看着它漏气。

气球下降的速度还在加快，下午1点钟时，吊篮离海面已经不到600英尺了。

氢气还在从缝隙处外泄，又有东西从吊篮里扔了下去。重量的再度减轻，让他们还能坚持一些时间，不至于在几个小时里掉下去。

但是，这也仅仅只是延缓了他们的坠海时间，如果在几个小时里，在天黑前他们找不到可降落的陆地，那么无疑，他们就会和气球、吊篮一起葬身海底。

这种时候，他们唯有孤注一掷了。这些机智勇敢、聪明冷静的人没有怨声载道。他们在想办法怎么延迟气球和吊篮坠海的时间，决定不到最后一刻绝不放弃。他们知道，柳条编织的吊篮，不可能在海面漂浮，一旦落入海里，就没有理由不沉下去。

下午两点时，气球离海面更近了，只有约400英尺的距离。此时，吊篮里的一个人发声了，此人声音洪亮，听不出丝毫恐惧。回答他的人，声音同样铿锵有力。

“没有东西可扔了吗？”

“不，还有，还有一万金法郎。”

随着说话声，一个有些重量的金袋被抛进了海里。

“气球有没有上升？”

“有上升，但很快又会下降的。”

“还有可扔的东西吗？”

“没有了。”

“不，还有，我们乘坐的吊篮！”

“抓住网索，把吊篮扔进海里！”

在这种时候，放弃吊篮确实是唯一一个减少氢气球重量的方法。有人割断了系着吊篮的绳索。气球在吊篮掉下去的同时，上升了2000英尺左右。

抓着网索的五个人，慢慢地爬上气球网，紧紧地攀着网眼，脚下是万丈深渊。

重量的增强或减弱，对一个气球的升降有着很大的影响，即使扔下很轻的东西，也会让它的高度发生改变。它就像一个天平，一个浮在空中的天平，精准地反映着重量的变化。

可以想象，当它的重量稍稍减轻后，它就开始急速上升了。

此时，攀着气球网上的五个人正是这样，因为吊篮的失去而急速上升。但没过一会儿，随着气体从缝隙往外泄，气球又开始下降了。

他们已经无计可施，只能听天由命了。

下午四点钟时，载着五人的气球离海面只剩下500英尺了。

一声响亮的犬吠声从网眼上传来，原来，攀在网眼上的还有一只狗，它是跟着它的主人一起乘坐气球，经历这场冒险的。

“多卜，你看那是什么？”一个人大声喊着，声音因激动而有些颤抖。

“天啊！是陆地！陆地！”

原来，气球在经过几百英里的飘移后，来到了一个地方。这样，他们的前方脚下便出现了一片陆地，那是一个有些高度的陆地。

不过，看着虽说不远，但实际怎么也得在30英里以外。气球要想飘移过去，怎么也需要一个小时。

一个小时！会不会气球还没飘到那片陆地，氢气就泄完了呢？

这是他们目前最需要解决的问题。

不过，既然已经清清楚楚地看到了陆地，那么他们即使付出任何代价，也是要到那里去的。那里是什么？是座岛屿还是大陆，他们不清楚，因为那场狂风很可能将他们吹到世界上任何地方的任何角落。至于到了哪个角落，他们无法得知。

不过，那是一块陆地，他们能确定。既然是块唯一能让他们停留的

陆地，那么不管那里有没有人，他们都要去，必须去，不得不去。

四点钟的时候，气球下降的速度越来越快，他们也更加贴近水面了。他们感觉到了巨大的海浪无数次地冲击网眼下部。这让气球如同一只断了翅膀的小鸟，怎么都飞不上去。

好不容易维持了半个小时，他们离那片陆地还有大概1英尺了，可气球像一个耗尽了全部体力的伤员，再也飘不动了，悬在了那里。气球里只剩上面一点点气体，所有的人，包括那只狗都紧紧地攀住了气球网……

最终，他们的半个身体还是浸在了海里，感受着波涛汹涌的海浪，冲击着他们的身体。

没过多长时间，气球的气囊就变成了一个瘪瘪的口袋，像帆一样任风吹走了。他们会这样被吹到陆地上吗？

然而，在离目的地还有两锚链距离的时候，网眼上的四个人突然大声惊呼起来，原来，那只已经没有氢气的气球，在一个巨浪的打击下，竟然腾空而起，好像是攀附在它身上的重量又减轻了。

气球又升到了1500英尺的高度。在那里，气球遇到了一股风。那风很糟糕地不仅没有将瘪了的气球吹到他们需要到达的目的地，反而吹向了和陆地平行的前方。

值得庆幸的是，这种糟糕的情况仅仅维持了两分钟，很快，它又飘了回来，落在了他们想要到达的，一块不会被海浪冲击到的沙滩上。

在彼此的帮助下，他们从网眼里逃了出来。此时，那空瘪的气球因为没有了任何负担，被风一吹，悠悠地飞了起来，转瞬间就消失不见

了。

从气球里下来的几个人这才看到，原本吊篮里有五个人和一只狗，现在却只有四个人了。

大家这才明白，在快要接近陆地时，为什么气球会突然腾空而起，想必是有人和狗被卷进了海里，气球因为重量减轻，所以才升上去的。

在发现少了个同伴后，四个人齐声说：“一定要救他！一定要把他救起来！他应该会自己游上岸吧！”

第二章

在气球上飘流，被狂风带到海岸上的是些职业气球飞行员吗？不，根本不是，那么他们是业余的吗？也不是。他们只是一群战俘。因为其英勇无畏，个性豪迈，所以才想到了这个异想天开的逃跑方法。

他们曾无数次地经历生死，差点从漏气的气球上掉下海。但幸运的是，他们在神灵的保佑下，活过来了。

3月20日那天，是他们坐上气球，从里士满逃亡的日子，从那天后，便开始了他们的空中飞行。如今，他们离弗吉尼亚的首都很远，足足有7000英里。

他们逃出的里士满正经历着一场可怕的南北战争，那时候，作为南方要塞之地的里士满，顺理成章地成了尤里西斯·格兰特将军想要占领

的地方。

那么，这些战俘是什么人？又是为什么要用气球逃跑呢？

事情要从1865年2月说起。那时候，格兰特将军正绞尽脑汁，想要以奇制胜，占领里士满。不料却没能如愿，反而连他的几名军官也成了敌人泰莱思的俘虏。这几名军官也被囚禁在了里士满城内。

在这些被俘的军官中，最有名的就是赛莱斯·史密斯了，他是联邦参谋部的成员。

此人是马萨诸塞州人，一位学识渊博的学者。

在这场南北战争中，他奉命负责一项在战略上极为重要的铁路管理工作。作为北方人的他，虽然看似瘦骨嶙峋，实际上却非常健硕。虽然年龄不过45岁左右，但那一头短发和几撮胡子却早已花白。勋章上的他长相端庄、气度不凡，非常英武。当他紧闭嘴巴时，显得非常严肃，双目也是炯炯有神，俨然一位激进派学者。

实际上，他是一名从底层做起的工程师，曾和一些行伍出身的将军一样，不仅头脑机智，而且心灵手巧。曾经的舞锤弄斧，使他的身体非常强壮。同时，作为一名活动家兼思想家，他有着热情开朗的性格，让他能在遇到任何问题时都乐观对待，并最终找到解决办法。见多识广的他在任何紧要关头都能保持清醒的头脑，善于随机应变，他坚强而又有毅力，遇事永远都充满信心。

正是因为有着以上的这些性格特点，他才能永远做自己的主人。

他曾将16世纪奥兰治威廉三世的一句话“即使没有成功的希望，我也要勇敢进取，坚忍不拔”作为自己的座右铭，并时刻提醒自己。

作为勇敢化身的赛莱斯·史密斯，自从在伊利诺伊州自愿效力于尤里西斯·格兰特后，每次战役都少不了他，比如在巴丢卡、波尔门特、匹兹堡埠头等地作战时，他英勇善战，屡立奇功；而在围攻科林斯、吉布森港、黑河、查特努加、威尔德涅斯和波托马克等地时，他更是勇猛善战，以一当十，从没辜负格兰特将军“绝不计算我的伤亡”的训导。

史密斯无数次差点成了格兰特所说的“不用计算的阵亡将士”，但最终，他安然无恙，直到在里士满被俘。

在被俘的人中，除了赛莱斯·史密斯以外，还有一位重量级的人物，那就是《纽约先驱报》的战地记者吉汀·史佩莱。这位叫史佩莱的记者原本只是随着北军做战地报道的，不料也被南军抓住了。

吉汀·史佩莱在英、美编采人员中有着很大的名气，他和斯坦利等有名的记者一样，只要能够做出最准确、最有深度的报道，即使遇到任何困难和危险他都不怕。

不仅如此，他总能在最短的时间里将新闻报道在第一时间传回自己效力的报社。所以在美国众多报纸中，《纽约先驱报》因他们的存在而成为纽约最知名的报纸。

吉汀·史佩莱作为一流的记者，拥有一切优秀记者所具备的素养，比如他精明能干，体力充沛，办事敏捷，善于动脑。史佩莱去过的地方有很多，可以说是周游过全世界。

见多识广的他，不仅有着军人的素质，而且还具备艺术家的气质。他热情健谈，非常有行动力，同时还不怕辛苦，冲劲十足；他拥有超强的职业道德，在为自己的报纸做新闻时，也为自己做了新闻；他对一切

事物都充满好奇心，善于捕捉别人不知道或采访不到的事物；作为战地记者，他习惯了在枪林弹雨中完成自己的工作，对他来说，越是从危险中得到的素材，越是具有新闻价值的好素材。

史佩莱参加过的战役有很多，而每次采访，他总是冲在最前线：一手左轮枪，一手笔记本。

枪林弹雨没有让他拿笔的手颤抖。在别人聊天时，他一遍又一遍地给报社打电报，发自己采写的新闻报道。他采写的每一篇新闻都言简意赅，主题明确。史佩莱还曾在《民主派机关报》工作过，在那时就有人评价他，说他是幽默风趣的好记者。

史佩莱在参加完黑河战争后，不顾危险，不惜代价地久久地趴在电报局窗口，只是为了给报社传递回最新消息。他还曾花费两个小时，两千元，用电报给报社发回《圣经》的前几章。

当然，正是他这种执着认真的精神，才让《纽约先驱报》比其他报纸更早地报道了这一战况。

吉汀·史佩莱年约四十，身材高大。他拥有淡红色络腮胡须，眼神坚定又机警。凡是他的眼神扫过的事物，都能牢牢地记在心里。体格健壮的他，也可以适应任何气候.....

这种种的一切，都让他的身体犹如经过了火炼，然后又浸在冷水里形成的钢筋。

他在《纽约先驱报》做记者有十个年头，不但文笔优美，而且精通绘画。因此，他的新闻报道和别人的单纯文字不同，他会配上插图，这不拘一格的表现形式在内容充实的情况下也就显得更加形象了。

这位尽职的战地记者在被俘前，还在用笔写着他的报道：“有名南军正用枪对着我，但是……”

当然，那名用枪对着他的南军士兵并没有打中他，他和以前的每一次一样幸运，只是稍稍受了一点伤。

赛莱斯·史密斯和吉汀·史佩莱就这样被捕了，并同时被送往里士满。在被捕前，他们从未见过面，但却都听到过对方的事迹。

史密斯工程师身上的伤很快就好了。在疗伤期间，他认识了同在接受治疗的史佩莱记者，两个传奇式人物一见如故，很快就建立起了真诚的友谊。此后不久，他们便有了一个共同的目的：逃回格兰特的军中。他们甚至决定向格兰特将军提出，为了联邦的统一继续战斗。

两位有了共同目标的美国人决定伺机逃跑。不过，虽然南军允许他们在市镇里自由行走，但整个里士满却是戒备森严的。逃跑，几乎是不可能的事。

被囚禁在里士满期间，史密斯的仆人来寻找主人了。

这是位对史密斯非常忠诚的仆人，是个勇敢的黑人。因为其父母是奴隶，所以他一出生就在史密斯家里做奴隶，虽然史密斯“反对奴隶制”让他获得了自由，但他却不愿意离开自己的主人，甚至愿意为主人去牺牲生命。

30多岁的他有着强壮的身体，而且聪明活泼、勤劳诚实，这些性格都使他整天处在乐观的状态中。

他叫那普加涅查，不过，他更习惯别人叫他那普。

那普在得知主人被俘的消息后，毫不犹豫地离开了马萨诸塞州，来到了里士满。凭着耐心和机智，他终于在经过了20多次的生命冒险后，进入到了史密斯被囚禁的地方，见到了主人。

见到那普，史密斯既感动又惊讶，而那普在看到主人时，兴奋和激动的心情溢于言表。

不过，那普虽然能进入里士满，但他们想溜出去却是万万不可能的。因为里士满的状况是“进松出紧”。南军对北军的战俘看守很严，想要顺利逃出，没有绝佳的机会根本办不到。

在这期间，两军还在继续作战。

格兰特将军在付出了重大代价后，最终取得了匹兹堡的胜利。然而，格兰特在里士满战线上，即使和巴特莱部队联合，依然无法取得胜利。因此，他们这些战俘想要尽早得到释放，简直就是痴人说梦。

囚禁中的生活是枯燥而乏味的，将采访写新闻视为生命的史佩莱记者再也受不了了，他开始转动脑筋，决定不惜任何代价也要逃出里士满。然而，虽然尝试过要逃跑，但最终还是失败了。他的囚禁生活还是要继续过下去。

在他们这两名战俘急切想要逃回格兰特军中时，被围困在里士满的人也迫切希望和南军取得联系。

比如被北军包围的南军约勒德·布撒泰。

里士满的总督一直想和李将军联系，但因为一直被北军围困，未能如愿。为了把当地的情况尽快传递出去，以求得到援兵，约勒德·布撒泰建议利用氢气球越过包围线，然后到达南军的兵营。

这个计划赢得了总督的认可，他很快就令人造了一只氢气球供布撒泰使用。同时，他还派了五个人做他的助手，让他们在乘坐气球时，携带上干粮、降落时使用的自卫武器，以备出现意外时使用。

3月18日，是他们约定好气球起飞的日子。

因为怕被敌军发现，所以他们将起飞时间定在了夜间。当然，想要升空并飞行顺利，还要到达他们想去的目的地，最好是有舒缓的西北风。在这些条件都具备后，他们只需几个小时，就能到达李将军的军营了。

不过，事情并没有向他们预想的方向发展。

这天晚上没有舒缓的西北风，而是疯狂的飓风。暴风越刮越猛烈，布撒泰只好延期动身，因为在如此恶劣的天气下，不管是气球还是乘坐的人员，都是很有危险的。

虽然延缓了行动，但那只被他们灌足了气的气球还是放在了里士满的广场上，布撒泰一直在等待时机，等待风势减弱了再起飞。由此可见，这些困守在城里的人是多么盼望暴风过去啊。

但是，两天过去了，暴风依然没有减弱的迹象，那拴在地上的气球被狂风吹得撞来撞去，虽然布撒泰担心气球被撞破，想去采取一些保护措施，但却因为飓风而无法办到，只能顺其自然。

很快，3月19日又过去了。20日早上，暴风更加猛烈，让气球起飞是不可能了。

不过就在那天，在里士满的一条大街上散步的赛莱斯·史密斯被一

个人叫住了。叫他的人他并不认识，是个叫庞库那夫的水手。这名水手的年龄在35到40岁之间，体格健壮，皮肤黝黑，有着一张英俊的脸和有神的大眼睛。

水手庞库那夫是标准的美国北方人，他曾在各大洋进行过航行，也参加过很多探险活动，经历过别人没有经历过的很多事。由此可以想象，这是一位多么胆大勇猛、敢作敢为的男人。

庞库那夫是年初到里士满办事的，和他一起来的还有位来自新泽西的男孩，15岁，是庞库那夫曾经工作过的一条船的船长的遗孤。对这个孩子，庞库那夫像对待自己的亲生儿子一样好。

在南军围城之前，庞库那夫和男孩没能出城，等到他们被围困在里面了，想出去又没办法出去了。

庞库那夫的性格决定了他不会向任何困难低头，所以他也在寻找机会，寻找能逃出去的机会。当他听说有位被俘的军官工程师史密斯的遭遇后，他能体会到史密斯被囚禁在这里的苦闷。

于是，他在见到史密斯后，便叫住了他，并直截了当地问：“史密斯先生，你有没有在里士满待够？”

史密斯怔住了，看着庞库那夫。庞库那夫走近他，小声地补充了一句：“先生，您就没打算逃跑吗？”

“逃跑？”史密斯有些惊讶，脱口而出。

虽然他不知道这位和自己说话的人是谁，但他用自己那敏锐的目光打量了庞库那夫一眼后，便认定他是一位可以信赖的人。

“您是谁？是怎么知道我的？”史密斯问。

庞库那夫向他简短地介绍了自己，并说史密斯是个名人，没人不认识。

史密斯点了点头，问他：“你有什么逃跑的好办法吗？”

“有！你看到广场上那只气球了吗？它停在那里很久了，毫无用处，我觉得它是为我们准备的……”

没等水手庞库那夫说完，工程师史密斯就知道他的意思了。他一把抓住庞库那夫的胳膊，将他拉到了自己的住处。

庞库那夫向史密斯说出了他的计划，整个计划听起来很简单，但却是要冒险的，这个“险”就是生命安全，而制造这个“险”的就是威力很大的飓风。好在如何操纵气球是工程师赛莱斯·史密斯很擅长的事，而对气球的飞行，庞库那夫又像对航海一样熟悉，这点飓风对他来说不在话下。

这样的话，习惯于在大海里冲风破浪的他，如果能和史密斯一起，再带着他视为儿子的赫伯特一起逃离里士满，就不是件困难的事了。

庞库那夫讲的时候，史密斯一直默不作声地听着，他的眼神已经透露出了“很好”的意思。想着自己向往已久的机会就要来了，不愿错过任何机会的他，觉得庞库那夫的这个计划是可以实行的。

不过，他不得不承认，这个计划很危险。

首先，夜间是有岗哨的，虽然他们有可能走近气球潜入吊篮，甚至割断系住吊篮的绳子，但弄不好，也可能会被岗哨发现并打死。

当然，即使有一半的成功机会，他也不想错过。

如果没有这场风暴，那该多好呀。史密斯想。

不过如果没有这场风暴，气球早就起飞了，也不可能给他们这个机会。

“要走的话，我这里不仅我一个！”史密斯最后说。

“你要带几个人走？”庞库那夫问。

“还有两个人，一个是我的朋友史佩莱，另一个是我的仆人那普。”

庞库那夫沉思了一会儿。

“也就是说你这里有三个人，再加上我和赫伯特，总共五个人。气球的承载人数是六个……”

“好！那就没什么问题了，我们决定了！”史密斯坚定地说。

史密斯的“我们”里，包括了史佩莱。他之所以能替史佩莱决定，是因为他对史佩莱的了解。这位战地记者不是胆小怕事之人。

两个人分手后，史密斯很快就将这个计划告诉了史佩莱。果然，史佩莱马上就同意了，还说让他感到惊讶的是，这么好的机会，自己怎么就没有想到呢。

至于那普，他是主人史密斯走到哪里他就会跟到哪里去的人，所以更没有犹豫。

下午，庞库那夫又去和史密斯商量起航的事。

“就今天晚上吧！我们在广场上集合！”庞库那夫说。

“好的，晚上十点钟，希望上天保佑，在离开前风势能减。”史密斯说。

庞库那夫和史密斯告别后，向自己的住处走去。

在那里，15岁的赫伯特·普朗正在焦急地等待着他们敲定时间。

就这样，五个有着坚强意志，敢于冒险的人打算在暴风之夜冒冒险，碰碰运气！

这一天的风势都没有减弱。布撒泰和他的同伴都不愿意在这样的不利条件下起飞，他们无法想象坐在风吹雨打的吊篮里的恐怖。

这一天过得漫长而难熬。整整一天里，工程师史密斯都在担心，担心气球会在狂风的冲击下破裂。他无数次迎着大风，在空旷的广场上来回踱步，看着那些飞行工具，一踱就是好几个小时。

和史密斯一样，庞库那夫也是坐立不安，他也好几次去广场，双手插在衣兜里看着那个气球，打着呵欠。看似他在消磨时间，实际上和史密斯一样担心。他甚至还担心拴在地面上的气球会不会被风吹得刮到了天上。

夜晚终于来了。四周一片昏暗。在这个雨夹雪的寒冷天气里，整个里士满都笼罩在了黑暗和浓雾中。

呼啸的狂风好像突然让处于守和攻的南北两军休了战，大炮的轰鸣声被狂风的怒号完全掩盖了，街道上看不到一个人影。在如此恶劣的天气下，布撒泰根本想不到他们的气球会丢失，所以也没在广场上设岗。

一切都给史密斯他们的逃跑创造了条件。

不过，在这样的狂风骤雨中，采用这么冒险的方式逃跑，会成功吗？

快到集合时间了，庞库那夫带着赫伯特提前来到了广场。

“天气实在太糟了！”庞库那夫一边大声说着，一边用手去压头上那顶被风快要刮跑的帽子。

“不过，我们……我们一定会成功的！”他给自己打气。

九点半的时候，史密斯和他的伙伴们从不同的方向来到了广场。汽灯被大风吹灭了，广场上一片漆黑。刚刚来到广场的几个人，连那拴着的大气球都看不见。

气球上的网索系在沙囊上，气球下的吊篮是用一根钢缆固定在一个铁环上的。顺利在吊篮处会合的五个人，没有被其他人发现。不要说其他人了，在这样黑漆漆的夜晚，即使是他们自己，想要看清对方也不容易。

史密斯、史佩莱、那普和赫伯特一言不发地快速坐进了吊篮。庞库那夫没有马上上去，而是按照工程师史密斯的指示，将沙囊一一解开，整个过程只花了几分钟。

做好这些后，庞库那夫也坐了上去。

只剩系着气球的那根纲缆没有解开了，只要史密斯一声令下，解开钢缆，气球就可以起飞了。

可就在这时，一件意料不到的事发生了，一只狗跳进了吊篮。原来，这是史密斯工程师的爱犬多卜。在看到主人离开后，它挣脱了拴着它的绳索，追赶上了它的主人，并上了吊篮。

史密斯担心狗的存在会增加额外重量，影响气球的上升，想赶它走。

“它太可怜了，留下它吧！”庞库那夫说着话，将两袋沙土扔了出去，算作减轻狗的重量。随后，他解开了钢缆，气球飞速斜着向上蹿去。由于起飞速度过快，吊篮碰到了两户人家的烟囱，但很快就消失得无影无踪了。

他们的耳旁响起了飓风的呜咽，在伸手不见五指的黑夜，气球在下降，史密斯根本不敢想象会发生什么。

总算是飘到了天亮，然而，被浓雾包围着的他们，根本看不见大地，更不知道自己飘向了哪里。

时间在一天天地过去，直到第五天的时候，他们才从散去的云层间，看到他们身处汪洋大海中。他们乘坐的气球，因为飓风的作用，竟然以不可想象的速度，飞到了他们难以想象的地方。

现在我们知道了：3月20日起飞的五个人，在3月24日的时候，除了一个人失踪外，其他四个人全被丢在了远离他们国家6000英里的荒凉海岸上。

四个人一从气球上下来，便决定去寻找失踪的那个人，因为那个人就是他们的领袖——工程师赛莱斯·史密斯。

第三章

从网眼上掉下去的史密斯，很快就被海浪卷走了，同被海浪卷走的还有那只狗。那只忠实的狗，在看到主人掉下去后，出于本能去救主人，也掉了下去。

“我们快点去找吧！”记者史佩莱大声喊着。

安全降落的史佩莱、赫伯特、庞库那夫和那普，全然不顾疲劳，决定去寻找掉在海里的史密斯。

四个人中，最伤心的莫过于那普了，伤心欲绝的他痛哭流涕。世界上最亲最敬的人掉进海里生死未卜，他能不伤心吗？

根据时间推算，史密斯落下水是在他们着陆前的两分钟里，所以还是很有机会救回他的。

那普不停地哭喊着：“我们快去找到他吧！快去找到他吧！”

“一定会找到他的，那普。”史佩莱说，“一定能找到他！”

“他还活着吗？”

“活着，当然活着，一定活着！”

“他会不会游泳？”庞库那夫问。

“会的！他会游泳！”那普直点头，最后又补了一句，“多卜一定和

他在一起。”

水手庞库那夫看着一望无际的大海，又看看被巨浪拍打的海岸，摇了摇头。对于找到史密斯，他很不乐观。

史密斯失踪的地方，离他们着陆的地方有近半英里，由此可以说，史密斯落水的地方，离海岸也足有半英里。

此时已经快要六点钟了，笼罩在浓雾下的暮色，显得越发黑暗。四个人从他们降落的地方一直向北走，那里究竟是什么样的地理环境，他们无从猜测。但不管怎样，他们都要去。

他们走在没有任何植物的、光秃秃的沙地上。由于地面不平整，坑坑洼洼，走起来非常艰难。

走着走着，他们看到有叫不出名的大鸟从坑洞里飞出来，成群结队地盘旋在他们头顶。庞库那夫认出那是海鸥和猎隼，这些海鸥和猎隼的叫声连绵起伏，连奔腾的潮水声也掩盖不了。

他们边走边停，停下就呼叫，然后再倾听海里有没有出现回音。他们觉得，如果史密斯已经游上了岸，一定离他们上岸的地方不远。所以即使史密斯的回答他们听不到，多卜的叫声他们一定是能听到的。

然而，在他们静下心来倾听时，除了海水拍打海岸的声音以及鸟鸣声外，什么都没有。于是，他们继续前行，找遍了海滩的角角落落。

在他们徒步前行大约20分钟后，突然发现脚下已经白浪翻滚了，只得停了下来。陆地被他们走完了，他们到达了一个海滩的尽头，海水正凶猛地冲击着海岸。

“我们到岬角了！”庞库那夫看着大家，“我们现在只能按原路返回，一直向右走，就能走出海滩。”

“他可能就在这里，很可能就在这里，我们再喊几声吧！再喊几声！”那普说着，开始面对大海喊起来。其他人也都跟着大声地呼喊，但仍然没有回音。他们不放弃，停了一会儿后，又齐声大喊。

在依然听不到任何回音后，他们这才不甘心地往回走。这次，他们沿着岬角的另一边走，这条路不仅遍地是沙石，而且比刚才的更崎岖不平。

不过，庞库那夫很快就发现这一带的海岸很直，而且地面比其他地方高。于是告诉大家，这里靠近丘陵。众人透过浓雾，果然看到了隐隐约约的山丘。

大家很快又发现，这里的鸟类没有那边多，海水的喧嚣声也弱了很多。他们甚至还注意到，这里的波涛比那边的减弱了很多，拍打海岸的声音也没有了。

岬角一带的地形，形成了半圆形的海港，而海里的浪花则正好让岬角尖端隐藏起来。他们如果从这里一直向南走的话，很可能是史密斯上岸后落脚地的对面。

在步行了约一英里半之后，他们竟然找不到返回的路了。不过，既然是个岬角，而且也曾绕它走到了尽头，那么这里一定是和沙滩外的陆地相连的。于是，虽然已经筋疲力尽，但他们还是鼓足勇气往前走，希望能碰到一个拐角，回到原地去。

在走了差不多两英里后，他们来到了一个到处都是又圆又滑岩石的

高耸土堆上，土堆下是海水。

他们再次被海水阻挡，不禁大失所望。

庞库那夫说：“这么看来，我们是在一个小岛上。我们已经从小岛一端走到另一端了。”

庞库那夫说得没错。他们降落下来的地方不是大陆，也不是沙滩，而是一个孤零零的小岛。整个小岛全长不到两英里，宽度就更不用说了。

这是一片海鸟栖息的荒岛，遍地都是乱石，寸草不生。这个地方会不会和一些重要的群岛连在一起？很难说。当他们还在吊篮时，通过云雾，曾看见过陆地，但当时并没有看清楚。

尽管如此，航海多年的水手庞库那夫，依然能从昏暗的光线中认定，西边有一片朦朦胧胧的巨大阴影，阴影是突起的，极有可能是海岸。不过，因为天色过于黑暗，那里是不是孤岛，有没有和其他岛屿相连，他们都不清楚。

不管怎样，此刻，他们不能离开四周都是一望无际海洋的这个小岛。因为天黑，他们只能将寻找工程师史密斯的事拖到第二天了。

让他们感到不安的是，他们没有听到一声回音，所以无法判断史密斯是死是活。

“我们的朋友史密斯虽然没有出声，但并不能代表什么。”史佩莱安慰着大家。

“也许他晕过去了，也许是受了伤，总之，他很可能不能马上回

答，所以我们不要灰心。”

史佩莱说完，提议大家在小岛上燃起火堆，以便给史密斯信号。然而，这里遍地沙石，根本找不到任何树枝或荆棘。

他们只能到处去寻找。

不管是那普还是史密斯的这些伙伴，他们对史密斯都充满了敬重。找不到他，那份悲伤无法用语言来形容。但在这样的情况下，除非史密斯能自救，能自我逃生，然后在海岸上找到避难之地，不然很可能就永远地离开这个世界了。

漫长而痛苦的时光在慢慢地流逝。天气异常寒冷，每个人的处境都非常困难，但这些困难他们似乎并没有感受到。他们一刻都不想休息，一心只想着他们的领袖。他们怀抱希望，一遍又一遍地在这个寸草不生的沙石地里奔走呼叫，他们一次次地回到小岛的北端，在他们降落时的地点寻找、喊叫、倾听。

每喊一声，他们都在竭尽所能地让自己的喊声大一点，再大一点，以便能在更遥远的地方听到。在一切都风平浪静后，有次那普的呼喊甚至都有了回声。

“很可能西方不远处有海岸。”赫伯特提醒庞库那夫说。

庞库那夫点了点头，他也意识到了。而且他相信自己的眼睛，相信自己的眼睛不会欺骗自己。多年的经验告诉他，只要出现陆地，不管那地方是多么模糊，他都会认出来。

然而，那普的呼喊带来的回声却是那么的遥远，小岛的整个东部又是一片昏暗，所以那边到底是怎么回事，他们依然一无所知。

不过，好在天气已经逐渐晴朗，午夜时分，天空满目星辰。可惜史密斯不在，不然他一定会告诉他的同伴，这些星辰并不是北半球的，因为这里看不见北极星，这里看到的星座和在美国常见的不一样，这里的南十字座在天空能发出耀眼的光芒。

他们在焦灼中度过了漫长的黑夜。3月25日清晨五点钟，天慢慢亮了起来，但地平线还是黑黝黝的。

破晓时分，一抹朝霞在海面上升起，因为有浓雾在他们身边环绕，所以小岛上的他们依然无法看清20英尺以外的东西。

史佩莱和那普仔细地观察着海面，庞库那夫和赫伯特则急切地寻找着海岸，很可惜，他们没有看到一点陆地的影子。

“没事的，虽然我们没有看到陆地的影子，但我相信.....那里一定有陆地.....就像我们现在不在里士满一样地肯定。”庞库那夫说。

朝雾不再上升，飘浮在了半空，让人觉得到处都是烟雾缭绕。阳光慢慢照射到了小岛上。差不多早上六点半的时候，烟雾变得越来越稀薄，并逐渐消散，形成了上浓下薄的景象，整个小岛像是从云端慢悠悠地飘下来似的。

随着浓雾的消散，小岛周围的海洋完全显现出来，并逐渐向东面的远处延伸。不过，海洋西面却像是被一块险滩硬生生地插了进去，海面在那里戛然而止。

不错！那里的确有一片陆地。这样的话，他们现在可以说暂时安全了。不过，将他们所处的这个小岛和对岸隔开的是一条约半英尺宽的海峡，海峡水流湍急。

面对水流湍急的海峡，有个人却没有和任何人商量，便自作主张地跳了下去，这个人就是那普。他想到对岸去寻找他的主人。

没人能拦住他，庞库那夫叫他他也不听。史佩莱想跟着下去，但却被庞库那夫拦住了。

“你想渡过海峡？”

“对！我要过去！”史佩莱回答。

庞库那夫说了一声“好”，随即又说：“那普如果能过去，他就足够能帮助他的主人。假如我们全都冒险跳进海峡，在那样的急流下，很可能被冲进大海的。如果我的感觉没错的话，现在是退潮期。你看看，沙滩上的潮水已经退下去了。所以先别急，等水浅的时候，我们就能很容易地找到一条足以让我们安全涉过去的水域了。”

史佩莱冷静地一想，觉得庞库那夫说得没错，便说：“是的，我们不能太分散，这样不容易互相关照。”

此时，海峡里的那普正与激流搏斗，他要横渡海峡。岛上的同伴看着海峡，见那里有黑色的胳膊不时从水里露出来，但很快又不见了。等会儿又露了出来……就这样，他在一点一点地接近，终于临近了对岸。

从时间上来看，从小岛到对岸大概需要半个多小时，距离是几百英尺。

那普选择从一块高大的花岗岩石下上岸。上了岸后，他抖了抖身上的水，随即便拔腿就跑，很快就消失在一块岬角后面了，而他消失的岬角和小岛北端的岬角高度完全相当。

那普的所有举动，他的伙伴们都在担心地看着，直到他上岸并消失在岬角后面，他们这才一边寻找散布在海滩上的贝壳生物充饥，一边盯着那可能寄托着希望的陆地。

贝壳生物很难吃，但他们不得不吃，因为再难吃也好过饿肚子。

对岸像是一个宽阔的港湾，南端形成了险峻的岬角，岬角上寸草不生，非常荒凉。

对岸的岬角靠近海岸，由此也就形成了一系列奇形怪状的花岗石轮廓，高高地耸立在那里，越向北，岬角就越宽阔，这也使海岸越发迂回曲折，从西南向东北转弯，在终点处形成了一个狭长的地角。

构成港湾弓形地带的两端距离是8英里左右。由于小岛离海岸有半英里，最宽处也不过有四分之一英里，所以远远看起来，港湾如同一条大鲸鱼横在那里。

小岛对面的沙滩上散布着许多黑石头，最底层则是沙砾。一旦退潮，黑石头便慢慢地显露出来。黑石头下的第二层是花岗石峭壁，它垂直地将沙砾与黑石头阻隔开来。

峭壁的顶部虽然高低不齐，但整体看来高度却有300英尺。峭壁连绵不断，向右延伸了3英里左右便突然终止，如同一座人工凿开的断崖，莫名其妙地消失在了南角的地面上。

海岸的高地上没有一棵树。从小岛上，某些地方有些类似好望角开普敦的一些平坦地带，当然要小很多。

不过，悬崖的右边倒长满了植物，绿油油的，这让小岛上的他们好像看到了一片望不到边的森林。在看过花岗石的连绵起伏，再看到悬崖

上的青翠植物后，他们顿时有种满目苍翠的感觉。而当他们又将目光越过高地，看向西北方7英里之外时，他们看到阳光照在一个山巅上，山巅闪耀着明晃晃的光。

那是一座高山，一座顶端积满了白雪的高山。

他们所在的小岛是不是和大陆相连，他们无从知道。但如果有地质学家看了左方那些因地震而形成的土堆后，一定会说，这都是由火山爆发造成的。而这岛，不用说，它是火山爆发的产物。

史佩莱、庞库那夫和赫伯特仔仔细细地考察着这片土地，因为这片土地很可能是他们几年，甚至一辈子的居住地。

如果没有船只经过这里，他们将永远无法离开。

“嗨，庞库那夫，发现什么了？”赫伯特问。

“一切事物都有它的两面，有好的一面，也有坏的一面。”庞库那夫说。

“再等等看吧，现在正在退潮，三个小时后，我们一定能想办法过去的。只要我们到了对岸，就能想出脱离困境的办法了，而且很可能会找到史密斯。”

确实像庞库那夫所说，三个小时后，潮水退去了，海峡的大部分显露出了沙滩。小岛和对岸只隔了一条窄窄的水域，要想过去非常容易。

十点钟左右的时候，史佩莱和同伴们脱去衣服，将衣服捆成一团顶在头上，下到了不到5英尺深的水域，涉水而过。15岁的赫伯特不够高，便像鱼一样游过去了。

三个人顺利地到达了对岸。

阳光下，他们先是晒干了身体，然后穿上衣服开始商量下一步要做什么。

第四章

三个人坐着商量时，史佩莱突然从地上弹了起来，叫庞库那夫和赫伯特在这里等他，然后顺着几个小时前那普所走的路线跑了。他心里牵挂着朋友史密斯，所以很快就绕过峭壁拐角不见了。

赫伯特也想跟着一起去，庞库那夫说：“孩子，你不用去，我们留下来寻找过夜的地方和吃的东西，这样等他们回来后就有休息的地方和食物了。每个人都应该有自己的工作。”

“那好吧！我们现在开始！”赫伯特说。

“嗯，我们要好好计划一下。现在又累、又冷、又饿的我们，首先要找个住的地方，然后生一堆火，找一些吃的东西。森林里不缺木柴，这里到处是鸟窝，有鸟窝就不缺鸟蛋。所以我们现在只要找个能躺下休息的地方就行了。”

“太好了，我们找个山洞吧，我相信我们一定能找到一个可以栖身的山洞。”赫伯特高兴地说。

庞库那夫鼓励他：“一定会的！走吧，孩子。”

两个人来到了海滩边的一个硕大石壁下，潮水从这里退去已经很久了。他们没有向北走，而是向南边走去。在他们还没有从气球上降落时，庞库那夫便注意到离他们现在的位置大约几百步的地方，有个山口非常狭窄。他当时就想，那一定是河流或小溪的出口。而现在，他们需要找的住处正好是靠近河流和小溪的地方，何况史密斯很可能被巨浪冲到这里来。

前面已经介绍过了，这里的悬崖有300英尺高，因为巨浪无法冲击到，所以上面没有一个空洞，甚至连一条缝隙都没有。悬崖的质地是花岗岩，坚实而陡峭，海水很难将它侵蚀。

悬崖上空盘旋着无数的海鸥，其中不乏一些蹼足鸟类。它们长着又尖又长的嘴巴，一刻不停地叫着。这些鸟类不怕人，很可能是因为第一次见到侵入它们领地的人类。

在这些鸟类中，庞库那夫认识一种游禽类的大海鸥，以及藏在花岗岩峭壁缝隙里的小海鸥。他想，如果有枪的话，一定可以打死很多的。而此刻，他和赫伯特都手无寸铁。

其实，海鸥的肉是很难吃的，不要说肉，就连蛋都带着腥臭。

赫伯特继续往前走，在走到海边时，突然碰到了一堆被海藻覆盖的石头，可以想象几个小时后的涨潮，这里一定会被潮水淹没的。

赫伯特拿开海藻，在乱石中发现了一些类似蛤蜊的东西。这种蛤蜊，对于处在饥饿中的他们来说，简直是太好了。

赫伯特马上叫庞库那夫，庞库那夫跑了过去，看到这些蛤蜊说：“只有贻贝吗？可以充当鸟蛋了！”

“这不是贻贝！”赫伯特一边说，一边仔细地观察这些软体动物，“它们是茨蟹。”

“茨蟹？能吃吗？”庞库那夫问。

“当然！好吃极了！”赫伯特说。

“太好了！我们就吃它们吧！”庞库那夫说。

庞库那夫是非常信任赫伯特的。赫伯特虽然只有15岁，但却精通自然史。他的父亲还曾有意识地培养他这方面的知识，并经常性地让他去听一些波士顿的名师讲课，那些教授也特别喜欢聪明好学的赫伯特。

以前，赫伯特就曾不止一次地向庞库那夫证明自己的博学，所以庞库那夫相信赫伯特不会搞错。

岩石上有着密密麻麻的，一动不动地黏在岩石上的茨蟹。它们有着椭圆形的贝壳，虽然是软体动物，但也会穿孔，能在最坚硬的岩石上挖出洞来。

茨蟹和一般贻贝的区别就在于外壳的两端很圆。

在太阳光的照射下，茨蟹半开着壳，这让庞库那夫和赫伯特美美地饱餐了一顿。他们像吃蛤蜊一样地吃着茨蟹，带着辣味的茨蟹，让他们在没有任何调料的情况下，也感觉非常可口。

终于吃饱了，但那带着辣味的茨蟹却让他们感到口渴。他们需要找淡水来喝，但在这种地方，哪里能有淡水？不得已，两个人在又捡了装满衣袋和手帕的茨蟹后，回到了悬崖下面。

又走了两百步左右，他们到了庞库那夫曾看到的那个山口。那里确实有一条溪流，但流出的到底是不是淡水，他们也不知道。溪水是从石壁下的缝隙里流出来的，而石壁是剧烈地震的产物。

溪流的尽头形成了一个带有弯度的小尖角，宽度大约在100英尺左右，深度不到20英尺。湍急的溪水在花岗石的夹缝间流淌，河身在石壁下的河口处突然拐弯，进入到了半英尺外的矮树林中。

“我们终于有水喝了，那里还有我们需要的木柴。”庞库那夫指指那矮树林说完，好一会儿又说：“赫伯特，我们只缺住的地方了。”

溪水清澈见底，庞库那夫相信溪水在潮水未涨前，不会有海水倒灌进来，所以还是清甜可口的。

最重要的水问题他们解决了，现在只需找藏身的山洞了。然而，到处都是平滑的陡峻石壁，他们转来转去还是毫无收获。

不过，在河口处，有个比涨潮后的水面还高的地方。那里也有一堆岩石，因为剧烈的地震而形成了天然岩洞。这种由巨大岩石块形成的岩洞又被称为“石窟”。

庞库那夫和赫伯特进了“石窟”，沿着沙路走了很久，里面比他们想象的还要幽深。“石窟”里的光线并不暗，有缕缕阳光从石缝里照进来，亮晃晃的。

让他们感到好奇的是，这些由大块岩石自然形成的山洞，有些岩石的排列却是非常整齐的，整齐到令他们惊讶的地步。当然，从石缝里进来的不仅有阳光，还有风，悠长的通道在“石窟”里形成了过堂风，风进来了，寒气也就进来了。庞库那夫想，要是用沙石将一部分石缝堵住的

话，这里倒是一个不错的住处。

“石窟”的平面图类似“&”，很像拉丁文“和”字的缩写。

庞库那夫打量着这个“石窟”，开始考虑堵哪些缝隙可以阻止强烈的西风和南风。

“我们有活干啦！如果能找到史密斯的话，他一定会非常好地利用这座迷宫的！”庞库那夫说。

“一定会找到他的，庞库那夫。”赫伯特大声说，语气很肯定。

“等他回来的时候，我们要给他展示一个像样的住宅。这样，我们在左边通道生火，还要留个洞口来出烟。”赫伯特继续说。

庞库那夫很喜欢他找的这个“石窟”，他仔细地打量着它：“孩子，这都不难，‘石窟’足够我们住的了。动手吧，我们先弄些木柴过来，堵塞多余的缝隙，要不然风吹进来的话，声音会像鬼叫一样，特别恐怖。”

两个人离开了“石窟”。转过拐角，他们爬到了河的左岸。水流湍急起来，一棵枯树顺着潮水流了下去。潮水快要上涨了，而潮水的上涨必定会将那顺流而下的树枝推向更远的。

这提醒了庞库那夫，他觉得不妨利用潮水的涨落来运送较重的东西。

他们继续向前走，走了10多分钟后，庞库那夫和赫伯特来到了河流的另一拐角处。在这里，河水流经一片美丽的森林。虽然正值秋天，但森林里的树木却依旧郁郁葱葱。

在这里，他们看到了很多松柏科树木。松柏科在世界的每个角落都能看到，不管是寒冷的北方还是炎热的南方都有这类植物的身影。

对自然史颇有研究的“少年博物学家”赫伯特认出了那些可以散发清香的喜马拉雅杉，还认出了夹杂在杉树中间的枞树。枞树的枝叶非常浓密，向四周伸展，如同一把大大的伞撑在那里。

他们穿过一片深草丛，突然，有些枯枝在他们脚下发出了像鞭炮一样的声响。

庞库那夫对赫伯特说：“孩子，虽然我们不知道这是什么树，但它一定很适合当柴火。我们叫它‘柴树’吧，目前我们最需要的就是它。”

“那多弄一些回去。”赫伯特一边说，一边捡了起来。

遍地都是这样的枯枝，俯拾即是，根本不需要他们从树上往下折。这些树枝是绝佳的柴火，而且燃烧起来一定很快。如果两个人随身带的话，拿不了多少。可捡多了，又怎么运过小溪呢？

庞库那夫意识到了这个问题，他说：“孩子，我们要想办法来运这些木柴，不想办法不行，如果我们有一辆大车或一只船就好了。”

“我们有河。”赫伯特说。

“没错。”庞库那夫说，“我们可以做个木筏，这样河就成了我们的运输线。”

“不过现在是涨潮期，方向不对。”赫伯特担心地说。

“没事，我们可以等退潮。退潮的时候，我们就能借着水流，将柴

火运到‘石窟’方向了。现在赶紧做木筏吧。”庞库那夫说。

庞库那夫带着赫伯特，捡了很多柴火，并将它们捆成捆放到了河边，而河边的草丛里也有很多这样的枯枝，这些地方想必是永远也不会有人来的。

做好准备工作后，庞库那夫便开始着手造木筏。

他们把造木筏的地方选在了河堤的突出处，这里是天然的小港，而且水流很弱。

水手庞库那夫和少年赫伯特向造木筏的地方搬了几根粗木头，然后用爬藤将它们绑在了一起，木筏就这么造成了。他们将捡来的木柴堆了上去。

他们捡的木柴有很多，即使是20个人也搬不完。一个小时后，所有的工作都做完了，他们便将木筏系在岸边，静等退潮。

还有几个小时才到退潮期，庞库那夫和赫伯特商量，趁这个时间去一处高坡，看看四周的情况。

他们要去的高坡在离河流拐角大约200英尺的地方。通向高坡的地方有块石壁，石壁的一端是倾斜着伸向森林的，过了斜坡便又是一块平地。所以这个石壁也就成了他们去高坡的一个天然石梯。

庞库那夫和赫伯特沿着石壁往上走，身强力壮的他们没用几分钟便到了坡顶，站在坡顶上，他们能完全俯视河口。

他们首先看到了他们在最危险的情况下，幸运渡过的海洋。此时看起来，他们既感慨又激动。

海岸的北部是史密斯失踪的地方，他们多么希望能够看到一些气球的残骸啊，甚至还希望能看到史密斯正攀在上面。可什么都没有，他们看到的只是无边无际的海洋和空无一人的海岸，连记者史佩莱和那普的踪影都没有，也许他们已经走出好远，走出他们的视线了。

赫伯特突然大声说：“我觉得像史密斯这么优秀的人，不会随便被淹死的。他一定是在一个地方上岸了，对不对，庞库那夫？”

庞库那夫轻轻地摇了摇头，他觉得很可能已经不会再看到史密斯了，但为了不让赫伯特灰心，他仍然说：“当然，这是肯定的，即使别人都没有办法存活，史密斯还是可以顺利脱险的。”

庞库那夫说的时候，也没忘记仔细观察海滨。

山坡下的沙滩是向外延伸出去的，一直延伸到了河口的右边，最后被河口翻滚的浪花拦住。在那里，有些礁石露出了水面，个个像水陆两栖怪兽一样，一动不动地躺在水里。礁石旁边的大海在阳光下波光闪闪。

有个突出的岬角将南面的水平线完全遮住了，使他们无法看清陆地延伸出去的方向是在东南还是西南，使海岸形成了一个狭长的半岛。

在港湾北部的尽头，海岸的轮廓延伸到很远的地方，并最终形成了一个很大的弧形。

海滨那里没有悬崖，只有退潮后的大片沙滩，地势非常平坦。

庞库那夫和赫伯特又向西看去，吸引他们的是六七英里外，山顶上堆积着白雪的高山。而从山坡下斜的地方一直到海岸两英里内，全都生长着大片的树木，还有零星的常绿树木在里面，所以并没有让他们觉得

荒凉。

从森林到海边，是一片平地，上面零散地长着一些高矮不齐的树丛。左边的林间空地上有一条小溪，在阳光的照耀下闪着亮光。沿那条小溪继续往前走，可以找到小溪的发源地——山岭的支脉间，也是庞库那夫他们停靠木筏的地方。

水流沿着高大巍峨的花岗岩石壁间隙流了出来。石壁左边险峻狰狞，右边却和缓平整，微微倾斜。整片石壁看上去像是由一块块的岩石堆积而成的，那些岩石经过了风吹雨淋，变成了一块块的沙砾，径直向海角尽头延伸。

这让庞库那夫有了一种陌生感，他不禁喃喃道：

“这是一个海岛吗？”

“总之，看起来，它像是一个很大的海岛。”少年赫伯特说。

“不管它有多大，岛还是岛！”庞库那夫说。

实际上，这是个海岛还是个大陆，是他们一直无法弄明白的地方。要想解决这个问题，他们需要很全面地观察整个地方。不过，不管这里是海岛还是大陆，看起来好像很肥沃，风景也不错，算得上物产丰富。

“不错！很好！能让我们降落到这样的地方，可以说是不幸中的万幸了。”庞库那夫说。

“是呀！感谢神灵！”赫伯特说着，虔诚地表达着对上苍的感谢。

两个人四处看着，可这样粗浅地看，根本无法预测自己未来的命

运。

最后，他们又沿着那块天然石梯的南边山脊往回走。这边石壁的边缘有很多奇形怪状的石头，石头的缝隙里栖息着成千上万只飞鸟。

赫伯特从石壁上跳下去时，惊起了很多飞鸟。

看着那些被他惊动的鸟，赫伯特惊喜地大喊：“啊，它们不是海鸥，也不是沙鸥！”

“那是什么？是鸽子吗？”庞库那夫问道。

“是的，是鸽子。不过是野鸽子，也许是山鸽子。看到了吗？它们的翅膀上有黑纹，还有两道。尾巴是白色的，羽毛是青灰色的。所以我判断出，它们应该是野鸽子。野鸽子的肉非常好吃，蛋就更不用说了。我们看看它们的窝里有没有蛋！”

“哈哈……我们可不能给它们孵蛋的时间，除非它们孵出的是荷包蛋！”庞库那夫兴致极高，风趣地说。

“我们要怎么煎荷包蛋呢？”赫伯特说，“是用你的帽子吗？”

“不错的想法！不过我可不会用帽子变戏法，我们只能吃吃泡蛋。最硬的蛋就交给我吧！”庞库那夫说。

两个人在花岗石的缝隙里仔仔细细地搜查了一遍，在一些洞穴里，看到了鸟蛋。捡了好多后，他们用庞库那夫的手帕包了起来。看着快要退潮了，他们便从山坡上下来，向河的岸边走去。

等他们到了放着木筏的岸边，已经是下午一点钟了。快要退潮了，

他们必须趁这个时间将木柴运到河口去。

庞库那夫不想上木筏掌控方向，但又不能让木筏随波逐流。于是，虽然没有绳索和钢缆，庞库那夫还是用一些爬藤拧成了长长的绳子，然后将绳子一端系在了木筏的尾部，自己牵着另一端。

在赫伯特用长竿将木筏撑开后，木筏在水上漂流，庞库那夫在岸边控制着木筏的方向。由于河水平缓，他们完全不用担心木筏会在水里打旋。

没用一个小时，他们和找到的木材便到了河口。

河口离他们的“石窟”仅仅只有几步远。

第五章

木筏上的干柴被卸了下来，庞库那夫用一些木柴将能灌风的缝隙堵了起来。随后，他用沙石和烂泥封闭了迎着南风的洞口，只在旁边留了一道细缝用作出烟、拨火。最后，庞库那夫和赫伯特还将“石窟”分隔成了三四个房间（如果这也能称为房间的话），并在石洞里铺上了一层细沙。

当然，在这么简陋且光线黑暗的地方，恐怕只有野兽才会真正满意。不过好在洞里很干燥，中间位置较高，能让他们站直身体。

看着布置好的一切，他们还是有些满意的，在没有其他更好的地方

的时候，有这样的石洞已经很不错了。

“也许他们找到了比我们这里更好的地方。”赫伯特一边协助庞库那夫做事，一边说。

“嗯，有可能，不过既然我们不知道他们有没有找到史密斯，我们就必须做好准备工作——有准备好过没有准备。”庞库那夫说。

“是啊！要是他们能把史密斯先生也找回来，那该多好啊！”赫伯特大声说。

“没错！如果能找回来就好了。”庞库那夫停了一下，接着又说，“如果他能活着，那真是个了不起的人，简直是创造了奇迹。”

“活着？”赫伯特不满地看了庞库那夫一眼，大声反问道，“你的意思是我们不会再看到他了？”

“不，我当然不是这个意思！”庞库那夫说完，手里的工作也差不多完成了。他看着他们布置好的“房间”，满意地点了点头，说：

“现在，只等我们的朋友们回来了。总算能给大家一个安身之地了。”

接下来要做的就是造炉子和生火做饭了。

这件事对他们来说并不难。他们在专门留下细缝的出烟口处，铺了几块平板石，简易的炉灶就做成了。在这个地方做饭，只要烟带不走热气，还是能给“房子”增添些温度的。

捡来的木柴被他们放在了另一个“房间”，庞库那夫拿了一些放

在“炉灶”旁。

在庞库那夫忙得热火朝天的时候，赫伯特突然问他有没有火柴。

“当然有，这是我要给你的一个好消息，因为没有火柴和火绒，我们就没办法生火做饭了。”

“没有火柴还可以像土人一样钻木取火。”赫伯特说。

“好吧，要不你试试？孩子！这样既能让你锻炼身体，还能看你能不能钻出火来。”

“嘿嘿……这对我来说太简单了。这是太平洋岛上的土人经常使用的办法。”

“嗯，没错，不过我试过很多次都不行。我想，大概土人使用了一种特殊的方法吧，要么就是他们使用的石头和一般石头不一样。我看呀，还是用火柴吧！”

庞库那夫说着便去找自己的火柴，结果发现没有了。

“见鬼！火柴上哪里去了？”

烟鬼庞库那夫习惯将火柴盒放在坎肩口袋里，可他伸手摸时却发现没有了，最后摸遍所有裤子的口袋都没有，他大吃一惊。

“坏了！”他看着赫伯特说。

“火柴盒一定是被我弄丢了！怎么办？赫伯特，你那里总有火绒盒之类的东西吧？”

“我这里什么都没有，庞库那夫。”赫伯特说。

庞库那夫往外面跑去，赫伯特也跟了出去，两个人在他们走过的沙滩、石缝和河岸找了个遍，但都没有找到。火柴盒是铜制的，按理说掉在什么地方应该很容易看得到，但他们找遍了每个角落，都没有。

“庞库那夫，你不会是在吊篮里时，将它扔到海里了吧！”赫伯特问。

庞库那夫摇摇头。

“不，我记得很清楚，我没有扔掉！”

庞库那夫想了一会儿，继续说：“不过像这么小的东西，确实容易在忙乱中丢失，要是真的丢了的话，我宁可丢掉我的烟斗！唉！真是糟糕，这火柴盒去哪里了呢？”

“你看，现在退潮了，我们去着陆的地方看看吧！”赫伯特说。

在这样一个岛上寻找一盒火柴，想必是不太可能的事。因为涨潮的时候，沙滩上的鹅卵石都被海浪冲走了，更不要说火柴盒了。不过怎么也要去试一下的。

赫伯特和庞库那夫向他们昨天降落的地方快速走去，那里离他们的“石窟”大约有两百步左右。可他们连石砾堆和岩缝都找过了，还是没有。

如果是丢在这个地方的，肯定被海浪冲走了。于是他们又去岩石缝隙找，也是毫无所获。对他们当时的情况来说，火柴盒的丢失，无疑是非常大的损失，而且这样的损失还是别的东西无法替代的。

庞库那夫内心有着无法掩饰的不安，他皱紧眉头，沮丧地一言不发。赫伯特安慰他说，即使在这里找到火柴，也被海水浸泡过了，不能用了。

庞库那夫摇摇头：“不，孩子，火柴是装在铜盒子里的，盒子盖得很严，不会浸到水。唉！没有了火柴，我们可怎么办呢？”

“我们一定会找到生火的办法的，而且史密斯先生和史佩莱先生一定有火柴。”赫伯特说。

“也许吧，不过他们现在不在，即使他们有，回来也吃不到我们做好的东西了。”

“说不定他们也没有火柴或火绒这样的东西呢。”赫伯特很快又说。

“嗯，也有可能。”庞库那夫说。

“那普和史密斯不抽烟，史佩莱是个情愿扔掉火柴盒也不扔掉笔记本的人。”

赫伯特不再说话了。丢了火柴是件令他们感到沮丧的事，但他还是相信即使没有火柴，也仍然会有别的方法生火。

庞库那夫是个有着非凡经历和经验的人，他不会自寻烦恼，但这次却和少年赫伯特不一样，他没有那么乐观。不过，不管怎样，他们只能等那普和史佩莱回来了，煮蛋计划只好搁浅。这不管对他们还是对他们的同伴来说，都是一件很郁闷的事。

没有找到火柴，生不了火，庞库那夫和赫伯特只好又去捡了一些蛤蜊，然后默默地回到“石窟”。

不过，庞库那夫对寻找火柴还是没有放弃。他们再次从“石窟”出发，两眼紧盯地面，慢慢开始了又一遍的寻找。他们甚至还爬到了河的左岸，在他们停靠木筏的地方寻找，还去了山坡上寻找，甚至还到森林和深草丛中寻找，但依然什么都没有。

一直找到傍晚五点钟，庞库那夫和赫伯特这才又回到“石窟”。在“石窟”里，他们在把每个角落都摸遍，还是没有找到后，这才死心。

六点钟，太阳落山时，在海滨漫步的赫伯特和庞库那夫看到了那普和史佩莱。

只有他们两个人，没有史密斯.....赫伯特非常失望：庞库那夫没有猜错，史密斯果然没有找到。

史佩莱和那普一看到赫伯特和庞库那夫，便一言不发地坐在了石头上。又累又饿的他们，连说话的气力都没有了。

那普两眼通红，眼泪扑簌簌地往下掉，没能找回主人让他既伤心又绝望。

休息了一会儿后，史佩莱便向庞库那夫和赫伯特讲起了他们寻找史密斯的经过。

他们沿着海岸一直找到了8英里之外，去了比他们最后一次降落时还远的地方。可所有找过的地方，不仅没有一个人，而且连人的一点印迹都没有。那里的鹅卵石根本就没有动过的痕迹，整个海滨连一个脚印都没有。显然，那段海岸没有去过人。

不管是大海还是陆地，都是一样的荒凉，史密斯很可能还没有找到上岸的机会，便在离岸几百英尺的地方淹死了。

史佩莱讲完以后，那普便跳了起来，大声喊道：“不！他不会死的！他不可能死！别人也许会，但他不会，绝对不会！任何灾难他都能逃过！任何灾难！”

吼完后的他又喃喃道：“不！我受不了！受不了！我接受不了他不在！”

赫伯特跑到那普面前，安慰他说：“那普，相信我们，我们一定会找到他的！一定会找到的，老天会将史密斯先生送还给我们的。饿了吧，先吃点东西吧！”

赫伯特一边安慰他，一边递了些蛤蜊给这个极度悲伤的黑人。虽然食物很难吃，但却能够充饥，让人不饿肚子。但已经饿了好几个小时的那普，依然一点东西都不吃。

失去了主人的他，不愿意一个人活着。

难以下咽的蛤蜊还是被史佩莱狼吞虎咽地吃下去了。筋疲力尽的他，一下子倒在了沙滩上。

赫伯特走到他身边，握着他的手说：“先生，和我们走吧，我们找到了一个住处，比随便躺在一个地方好多了。天已经黑了，先回去睡觉吧，明天我们去更远的地方找。”

史佩莱和那普随他们一起向“石窟”走去。

路上，庞库那夫问史佩莱身上有没有火柴，即使一两根也行。史佩莱停下脚步，摸摸口袋却什么都没有找到，他说：“原来有，大概是被我扔了。”

庞库那夫又问那普，那普说他也没有。

“该死！”庞库那夫不禁叫道。

史佩莱一把抓住他的胳膊：“你也没有火柴？”

“没有，一根也没有，所以才没办法生火！”

那普叹了口气，大声说：“如果主人在，他一定会有办法。”

四个人怔在那里，不安地你看看我，我看看你，谁都不说话。好一会儿，赫伯特才打破了沉默。

“史佩莱先生，你再找找，你平时抽烟，一定带着火柴。再找找，也许能找到一根。”

史佩莱重新在大衣、裤子和坎肩口袋里仔细摸了一遍，竟然在坎肩的里层摸到了一个类似火柴的木棒。庞库那夫大喜，但却只能隔着衬里捏它，怎么都拿不出来。如果这根小木棒是火柴，他必须小心翼翼，不能让火柴头碰掉。

“让我试试可以吗？”赫伯特说着话，灵巧地将它取了出来，而且没有将它弄断。

这根火柴，在其他时候很可能一文不值，但在此刻却显得非常珍贵。更让他们高兴的是，这是一根没有用过的，完好无损的火柴。

庞库那夫哈哈大笑：“有了这一根，好比有了一整船火柴。”

拿着这根来之不易的火柴，他领着大家去了“石窟”。

进了洞，在他们搭起的炉灶旁，庞库那夫就要使用这唯一的珍宝了。这个珍宝在有人居住的地方，随处可见，但此时却是独一无二的。他拿在手上，紧张得手直发抖，他必须一次点成功。

为了提高成功率，他说：“如果有引火纸就好了。”

史佩莱犹豫了一下，还是从他的宝贝笔记本上撕下了一页，递给他：“用它吧！”

庞库那夫接过史佩莱递给他的纸张，跪在了柴堆前。在将干柴架起来后，他还往下面垫了一些枯草、枯叶和干燥地苔，这样做的目的是为了保持柴堆里的空气流通，使火容易点燃。

接着，他将纸张卷成了圆锥形，像在有风处吸烟一样，将纸筒插到了地苔里。随后，他又捡起一块粗糙的石头，将它擦了又擦。最后，他屏住呼吸，按捺住自己怦怦乱跳的心，轻轻地在石头上划着火柴，划第一下的时候没有划着。由于怕碰掉火柴头，他也不敢使劲。

“不行，我干不了这活，手抖得厉害，划不着！”庞库那夫说着站起身，让赫伯特来点。

赫伯特也没经历过这种事，甚至也没这么紧张过，比普罗米修斯上天偷火还紧张。不过，他没有拒绝，也没有犹豫，拿起火柴就划。随着“哧”的一声响，火柴头燃起了蓝色火苗，并冒出一股呛人的烟来。

赫伯特此时不紧张了，他不慌不忙地让火柴向下倾斜，这样火就更旺了。最后，他将点燃的火柴放在了纸筒里，几秒钟后，纸筒、地苔和干草着了起来。

庞库那夫急忙在旁边用嘴吹起风来，一分钟后，干柴发出了噼里啪

啦的声音，熊熊大火在黑暗中燃烧起来。

“谢天谢地！太好了！我从没这么紧张过！”庞库那夫起身喊道。

用平板石做成的火炉点亮了“石窟”，炉子里的烟从一些狭窄缝隙里跑了出去，像烟囱一样为这火炉拨着火，很快，“石窟”暖和起来。

只有一根火柴，他们必须保住这个“火种”，不然火炉再熄灭，他们就没办法了。他们必须永远留住一些红木炭。

早就准备好大量木柴的他们，此时只需随时添柴就可以了。

有了火炉，庞库那夫决定给大家做一顿比吃蛤蜊还丰盛的晚餐。他让赫伯特拿了两个蛋。

在庞库那夫和赫伯特为大家做晚餐时，史佩莱倚在一个角落，一言不发地看着他们。他的脑子里一直在想着三个问题：史密斯还活着吗？如果活着，又在哪儿呢？如果没有摔死，为什么不发信号给他们？

在史佩莱想这些问题时，那普走出了“石窟”，在海滩上像丢了魂般独自徘徊。

做晚餐的庞库那夫原本会50种做蛋方法，但此刻却不能由他选择了，他只能将蛋焖在火灰里。五六分钟后，火灰焖蛋做好了。他将史佩莱和那普叫过来吃，这是他们四个人在无名岛上吃的第一顿美餐。

庞库那夫做的焖蛋非常好吃，而且由于蛋里含有很多营养，所以对于这群可怜的落难人来说，非常难得。在满足中，他们也有了精神。同时也在心里想，如果能一人不缺地吃一餐团圆饭，那该多好啊！

试想一下，五个从里士满逃出来的人，围坐在“石窟”的干沙地上，吃着美味的焖蛋，中间是噼里啪啦的熊熊烈火，那是多幸福的事啊。如果真是这样，他们一定会感谢上苍的。

然而，此刻，他们一致公认的领袖，那个博学多才的赛莱斯·史密斯竟失踪了！而且很可能连个尸首都找不到。

在忙乱、紧张和伤心中，3月25日就这么过去了。

深夜来临，洞外是怒吼的狂风，海浪不断地拍打着海岸，时而发出单调的低响，时而发出震耳欲聋的巨响。

对于这天晚上的感受，记者史佩莱做了简短的记录，他记下了对这片陌生之地的初步印象。在他的记录里，有史密斯的失踪，也有寻找司米司和生火做饭等等。不过，过度的疲劳，还是让他决定暂时忘掉心里的忧愁。

他找了一个阴暗的角落躺下。少年赫伯特一躺下就睡着了，水手庞库那夫一直惦记着那堆火，虽然躺着，却也不时起来添加柴火。

四个人中，三个人在“石窟”里，有一个人却怎么都不愿意进来，那就是伤心欲绝的那普。他不管同伴们怎么叫他，只是自顾自地整夜徘徊在海滨，不停地呼喊着他的主人……

第六章

这几个从云端落入荒无人烟的海岸的人，开始清点他们所带的全部物品。

其实，除了他们身上所穿之物外，已经基本没有什么了。不过，必须说明的是，吉汀·史佩莱除了身上穿的衣服外，还有一个笔记本和一只表。而这两样东西之所以被他保留了下来，并不是刻意为之，而是忘记抛掉了。

他们四个人的身上都没有武器、工具，甚至连一把小刀都没有。当时还在吊篮里的时候，为了减轻氢气球的重量，他们把所有的东西都抛下去了。

此时此刻，他们连丹尼尔·笛福和维萨小说中主人公在约翰·菲兰德群岛和奥克兰群岛航海遇难的塞尔库克和勒那都不如，因为这两部小说中的主人公遇难时并不是一无所有。同时，那些在航海中遇难的人，船上还有像粮食、家畜、工具和弹药之类的东西。但他们这些从气球上降落的人却什么都没有，更不要说工具了。

他们现在，只能凭借自己的能力，赤手空拳创造一切。

其实，如果赛莱斯·史密斯能和他们在一起，那么，凭借他的科学头脑和创新能力，他们一定不会一筹莫展的。

可是，他们也许再也见不到史密斯了，所以他们只能寄希望于自己，同时还要乞求上天保佑他们，除此之外，他们没有别的指望。

这一带属于什么地方？附近有没有人？这里是不是一个荒岛？这里适不适合居住？这都是他们急需搞清楚的。

因为只有弄清楚了这些问题，他们才可以决定下一步该怎么做。然

而，庞库那夫却觉得这些问题最好过几天再探索，他们现在首先要做的是准备食物，找一些像鸽子、鸽子蛋之类的食物。他们必须在工作前，先恢复自己的体力。

对他们来说，现在已经可以生存了。因为“石窟”可以暂时安身；火生起来了，留住火种也不难；石缝里有鸽蛋、海滩上有蛤蜊、高地上空有野鸽子在天空盘旋……这些想要捡、拾，甚至用木棍、石头往下打都不难；附近的森林还有可以食用的果子……当然，最重要的是，淡水这里也有。

有了这些，他们便决定先在“石窟”休整，然后再去深入探险。对于庞库那夫的建议，那普特别赞同，因为他的想法不变，他不能离开这里，这是他主人史密斯出事的海岸，他要在这里等他的主人。

那普一直不相信主人已经死了。不对，更确切地说，是他不相信像史密斯那样的人，怎么会这么稀里糊涂地死去。因为他觉得，史密斯绝对不可能被海浪卷走，更不可能在离岸不到几百英尺的海里淹死。除非让他亲眼见到、亲手摸到史密斯的尸体，不然他绝不相信。

这个念头在他脑海里根深蒂固地存在着，而且越来越坚定。也许这只是他一厢情愿的幻想，但却是令人感动的幻想，所以庞库那夫也不愿意说破。

庞库那夫对史密斯活着不抱希望，但他知道他不能和那普去争辩，更知道争辩也没有用。

那普如同一条在主人坟前执着守候的狗，他哀伤得几乎活不下去了。

3月26日清晨，那普再次沿着海岸向北走，再次去了出事的海滨，他清楚地记得，史密斯就是在那里失踪的。

这天早上，他们不仅吃了鸽蛋和茨蟹，而且赫伯特还在石头凹处找到一些海水蒸发后留下的盐。盐在这种时候出现，对他们来说正是时候。

吃完饭，庞库那夫原本希望史佩莱陪他和赫伯特去森林打猎，但考虑到必须有个人留在洞里照顾火种，而且那普找到史密斯的可能性虽然小，却也不是没有可能，所以需要有个人在关键时刻帮助那普，便让史佩莱留下来了。

临出发时，庞库那夫说：“我们打猎，最好能在路上找到些猎具，或者在森林里弄些武器。”

赫伯特没有回答庞库那夫，他提出了另一个问题，他说没有火绒，最好能有它的替代品。

庞库那夫问用什么替代，赫伯特说：“焦布，也许焦布可以代替火绒。”

庞库那夫觉得他的主意不错，不过这样的话，他的一块手帕就必须牺牲了。最后，想着牺牲一块手帕却可以保住火种也值得，便将他的大花格子手帕撕下了一块，烤成了半焦，放在“石窟”中间一个小洞深处，避免它受潮。

九点钟的时候，天阴了下来，天空刮起了东南风。

赫伯特和庞库那夫绕过“石窟”，向河的北岸走去。到了森林里，庞库那夫先从一棵大树上掰下两根大树枝做棍子，赫伯特又将这两根棍子

在石头上磨尖了。

这样，他们就有了粗糙的武器。此时，如果有人拿着刀子，他们一定会不顾一切代价换来。

两个拿着原始工具的“猎人”，沿着河岸向草丛深处走去。不过，河身没有一直向前，而是拐到了西南方向，所以他们越往前走，河床就越窄了。加上两岸越来越高，树枝间互相交叉，使其形成了一座座拱门。

为了预防迷路，庞库那夫决定一直沿着河岸往前走，这样不管怎样都能找到回来的路。不过，越往前走越难走，比如有些柔软的树枝搭在了水面上，还有一些地方有荆棘、爬藤。想要过去，他们必须一边拨开障碍物，一边在障碍物中跑跳。赫伯特非常灵活，像只猫一样，很快就在矮树丛中不见了。

一到这种时候，庞库那夫就马上叫住他，以免他走失。同时，庞库那夫还在观察着周围的地势。他发现河的左岸非常平坦，但却大多是沼泽地，而且渐渐向内陆平缓升高。在他看来，有些像水网。

庞库那夫再仔细一看，发现那些水都是从地下泉眼里流出来的。

在他们这边，有些矮树丛中，会有一些小溪流，很容易跨过去。但河的那边也有河水流过，形成的却是峡谷。而且峡谷那里有座小山，上面有层层叠叠的树木，像帘子一样挡住了人的视线。

庞库那夫想，在河的那边行走一定很难，地势陡不说，而且弯向水面的枝丫牵牵绊绊，结成了一团麻。

毫无疑问，这片森林和他观察过的海岸一样，都是从来没人到过的地方。庞库那夫在这里只看见了动物留下的脚印，却又不知道是哪些动

物留下的。赫伯特认为一定是一些猛兽留下的，而这些猛兽一定会给他们带来麻烦。

不过，好在他们没发现树上有斧子砍过的痕迹，也没有篝火的余烬，这进一步说明，没有人来过这里。

这对他们来说是件值得庆幸的事，因为在太平洋的任何一个岛屿，有人反而会比没人更可怕。

越往前走越困难，他们走路的速度也越来越慢，两个人只顾走路，也就顾不上谈话了。走了差不多一个小时，他们才走了一英里多路。走路都这么艰难，更不要说打猎了。

树枝间时常有小鸟乱飞乱叫，好像是受到了惊吓。也许它们是在看到人以后，才懂得害怕的。

在他们走进一片沼泽地后，赫伯特发现了一种类似翠鸟的鸟。这种鸟长着又长又尖的嘴，羽毛上发出金属般的光泽，但这种光泽不能给人带来美感。

“这应该是啄木鸟。”赫伯特说着，想走近去看。

“太好了，这下有机会吃啄木鸟的肉啦。不过就是不知道它们愿不愿意让我们烤！”庞库那夫说。

他的话音刚落，赫伯特已经将一块石头向啄木鸟扔去了，虽然没有击落，但也打到了它的翅膀，鸟很快就飞走了。

“我真是太差劲了！”赫伯特懊恼地说。

“不，你已经很厉害了，孩子！你扔得很准，要是别人的话，说不定扔过去，连碰都碰不到。不要泄气，很快我们就会捉住它们的。”庞库那夫安慰他说。

两个“猎人”继续向前走着。树木已经没有前面的密集了，很多树的外形也很漂亮，但结的果子却不能吃。庞库那夫和赫伯特找了很久，还是没找到日常生活中最实用的棕榈树。

棕榈树从北半球到北纬40°到处都是，但在南半球却只有南纬35°才有。在这片森林里，只有松柏科比较常见，还有能被赫伯特认出的是类似于北美西部洋松的喜马拉雅杉和高达150英尺的大枫树。

突然，一群美丽的鸟飞了过来，长着色彩艳丽的长尾巴。它们纷纷落在一棵棵树枝上，轻抖着身体。羽毛随即飞落下来，地面上瞬间就铺上了一层美丽的绒毛。赫伯特捡起一根羽毛看了一下说：“这是锦鸡。”

“我最喜欢吃的是松鸡和珍珠鸡，不过如果这种鸡也好吃的话……”庞库那夫还没说完，赫伯特便说：

“锦鸡非常好吃，肉质很鲜嫩。”说完，他看了看那些美丽的锦鸡又说：“如果我没有记错的话，这种鸟是不怕人的，我们只需走近它们，用棍子打就行了。”

于是，水手庞库那夫和少年赫伯特从草丛里出来，走到一棵树枝上停满锦鸡的树下。

这些靠吃昆虫而活着的锦鸡，正在用它们的爪子攀在小树枝上等待昆虫。

两位“猎人”拿起棍子，就像镰刀割草一样，将它们一连串地打了下

来。

这些美丽的鸟没有一点要飞的意思，任凭“猎人”们将它们打落在地上，等到有锦鸡反应过来要飞走的时候，地下已经落了差不多有上百只了。

“太棒了！只有这种野禽最适合像我们这样的猎人，伸手就能得到。”

庞库那夫说着，找了个细而柔韧的树枝，将这一只只美丽的锦鸡穿上串，这些鸟顿时就像那排成行的云雀在齐飞。

穿好鸟儿后，他们扛着战利品继续前进。河流在这里突然向南转了一个弯，不过这个弯好像并不长，因为河的源头就在前面不远处的深山里，而这些河水也是由主峰上的积雪融化汇合而成的。

他们此次的目的前面已经说过了，是要找一些野味给同伴吃。可是到目前为止，他们的目的还没有达到，所以还是继续往前走。

突然，前面有一只类似动物的东西跑到了草丛里，还没等他们看清楚是什么动物就不见了，庞库那夫不禁说：“要是多卜在这里就好了！”然而，和主人一起失踪的多卜，想必也和主人死在一起了。

差不多下午三点钟的时候，又有一群鸟飞进了树林，这些鸟一进来便开始在杜松上啄食松子，突然，它们发出了像喇叭叫似的长鸣。

这是一种在美国常见的、带着颈羽的松鸡。庞库那夫和赫伯特看见了好几对，发现它们鲜艳的栗色羽毛中，点缀着深褐色的斑点。有些松鸡脖子上还长着像翅膀一样的两个肉瓣。

赫伯特认出，长肉瓣的是公松鸡，没有肉瓣的是母松鸡。它们的大小和普通鸡的大小差不多，但味道却比笋鸡还要鲜美。

庞库那夫打定主意要捉上一只。不过，想要捉它们却并不容易，因为这些松鸡很难让人接近。他们试了好几次都无功而返，反而把那些可怜的鸟吓得一阵乱飞。

于是，庞库那夫对赫伯特说：“既然它们飞起来我们逮不着，那么不妨用绳子来钓好了。”

这个建议让赫伯特有些吃惊，他大叫：“是像钓鱼一样钓松鸡吗？”

“没错！”庞库那夫得意地说。

此时，他已经看到草丛里有六个松鸡窝了，每个窝里都有三四个蛋。他十分小心地观察着松鸡窝，以免将它们弄坏。他知道，松鸡一定会到它们的窝里来的。所以打算在这里布下圈套，也就是放上钓丝。

这是一个奇特的装置，这种装置只有艾萨克·沃尔顿¹的门徒会用。

庞库那夫做这些的时候，赫伯特一直饶有兴趣地看着，并不怎么相信这样做会成功。庞库那夫用的钓丝是用细爬藤做的，一根根连接起来，每根长度差不多有15到20英尺左右。庞库那夫还从一棵矮小的刺槐上将一把粗大结实的倒刺掰了下来，绑在爬藤的一头作钩子，钓饵就是一种在地面上蠕动的大红毛虫。

一切都安排妥当后，庞库那夫悄悄地从草丛里钻出来，将绳子的带钩处放在了松鸡窝附近，然后拿着另一端回到了草丛里，和赫伯特躲在一棵大树下，耐心地等着松鸡上钩。

半个小时过去了，没有丝毫动静。但又过了一会儿，一切就像庞库那夫预料的那样，有几对松鸡回窝了。它们一边往窝里走，一边还在地上寻找吃的东西，丝毫没有意识到它们已经被“猎人”盯上了。

此时，最有兴趣的就属赫伯特了，他静心屏气地看着。庞库那夫紧张得大气不敢出，瞪大了双眼，张大嘴巴，噘起嘴唇，好像正在等着松鸡入口。

他们看到，松鸡走到了钩子附近，并在那里转来转去，还没有发现地上的钓饵。为了引起它的注意，庞库那夫轻轻地拉了拉绳子，钓饵微微动了一下，钩子上的虫子好像活了似的跳动着。

庞库那夫的心情比那些钓鱼等鱼上钩的人还着急，因为钓鱼的人是看不见水里鱼的动向的。

果然，在绳子动了一下后，三只松鸡便被吸引了过去，它们开始用嘴去啄食食饵。几乎就在同时，贪吃的松鸡在将食饵吞进嘴里时，钩子也进了嘴。庞库那夫迅速将绳子一抖，三只松鸡便被吊了起来。

“哈哈！”他大笑着，向松鸡跑去，并将它们捉住了。

赫伯特兴奋地拍着巴掌，这是他第一次看见有人用绳子钓禽类。庞库那夫此时却非常谦虚，说这种办法很早就有人用过了，并不是他的发明。

“不管怎么样，在当前的情况下，我们必须多想办法。”庞库那夫最后说。

他们用绳子将这些松鸡的爪子绑在一起，提上走了。

庞库那夫特别高兴，觉得这样就不至于空手回去见同伴了。看看天色已晚，他提议回“石窟”。

虽然找不到方向，但河流就是他们的方向，他们只需沿着河流，照原路返回就行了。

差不多傍晚六点钟的时候，两个筋疲力尽的“猎人”终于到了“石窟”。

[1](#)英国作家。著有《钓客清谈：做人与生活的境界》，是一部介绍自然界的美和乐趣的英语书籍。

第七章

吉汀·史佩莱两臂交叉，一动不动地站在海边，久久地凝视着大海。

一层厚厚的乌云从东方蔓延开来，以很快的速度向他的头顶移动。夜色开始降临，风也越来越大，吹在身上冷飕飕的。天空呈现出凶恶的模样，一切都像在告诉他：暴风雨就要来了。

赫伯特径直走向“石窟”，庞库那夫则向史佩莱走去。正在发呆的史佩莱，丝毫没有感觉到有人走近。

“看来，今晚要迎来在这里的第一场暴风雨了。史佩莱先生，暴风雨来临，海燕是很喜欢的。”

庞库那夫的这句话让史佩莱回过神来，他转身看着庞库那夫。

“还记得海浪卷走我们的伙伴时，气球离海岸有多远吗？”

庞库那夫没想到他会问这个。想了想说：“不会超过两锚链。”

“一锚链是多长？”史佩莱又问。

“差不多有120寻，大概200米的样子。”

“也就是说，史密斯失踪的地方离岸不会超过400米对吗？”

“应该是这个样子。”庞库那夫说。

“那只狗也是在那时候失踪的？”

“对，是这样的！”

史佩莱皱了皱眉，“我觉得有些奇怪。”他说，“如果说我们的伙伴和他的狗都死了，那么尸体为什么没有被冲到岸上来？”

“确实有点奇怪。不过，海里的风浪那么大，极有可能把他们冲到更远的地方去了。”庞库那夫说。

“这么说，你是认为我们的朋友已经死了吗？”史佩莱又问。

“我是这样认为的。”

“你的一些经验，确实让我很佩服，庞库那夫。”史佩莱停了一下，继续说，“不过，不管是不是死了，在史密斯和多卜一起失踪的这件事上，我觉得还是有很多解释不清的地方的。”

“史佩莱先生，我也希望事情能像你盼望的那样。可是，在这件事

上，我觉得我的看法没错。”庞库那夫说完，回到了“石窟”。

一进去，他便看到赫伯特扔了一抱干柴进去，炉子发出噼噼啪啪的声音，烈火将“石窟”通道最暗的地方都照得通亮。

庞库那夫开始做晚饭。他们需要恢复体力，所以必须做一些能吃饱又有营养的食物。他们决定将锦鸡留在明天，所以先将两只松鸡拔了毛，又在棍子上烤起来。

七点钟时，那普还没有回来，庞库那夫有些不安，担心悲伤过度的他会在这荒无人烟的地方出了意外，甚至怕他因为绝望而自杀。

对于庞库那夫的看法，赫伯特持不同意见，他说也许是那普发现了线索，所以才忘记了时间，继续在寻找。还说很可能这线索对史密斯非常有利。因为如果没有希望，那普为什么不回来呢？也许他发现了一些人的痕迹，比如脚印，也许发现了一些残留物等，因为有了这些东西，他才会沿着线索去寻找，说不定现在正在他的主人身边呢。

少年赫伯特这么推测着，也这么说着，其他两个人则默不作声地听着。记者史佩莱对赫伯特的分析表示赞同，但庞库那夫却认为那普一定是沿着原来的路走得太远，赶不及回来，不可能找到线索。

在发表了自己的看法后，赫伯特突然也有些坐立不安起来，几次要去找那普，但庞库那夫都说没用，在如此黑暗和恶劣的天气环境下，根本不可能找到那普，还不如在家里等他。到了明天，那普要是还没回来，他庞库那夫一定会毫不犹豫地和大家一起去寻找的。

史佩莱同意庞库那夫的意见，劝赫伯特在这种时候最好不要和大家分开，赫伯特只好放弃计划，但眼泪却从眼眶里流了出来。

史佩莱被赫伯特的仗义所打动，紧紧地将他搂在怀里。

天气变得越来越恶劣，阵阵狂风从东南方刮来，吹过了海滨，激起了更大的海浪。海浪冲击着岸边的礁石，发出很大的声响。即使有倾盆大雨，也被暴风吹得零零散散了，整个海岸笼罩在一片雾气之中。

沙砾碎石哗啦啦地冲撞着海岸，如同是从车里在向外倾倒。飞沙走石和雨水汇集到一起，形成了两股坚不可摧的力量。旋风在河口和峭壁处打着转，激起了阵阵漩涡。

“石窟”炉灶上的烟从缝隙里出去后又被吹了回来，通道里烟雾弥漫，呛得人快要窒息了。在松鸡烤好后，庞库那夫只得将火熄灭，留几块火炭在灰烬里做火种。

到了晚上八点钟，那普依然没有回来。

毋庸置疑，一定是狂风暴雨将他阻拦在了外面，他很可能已经找到了一个藏身之所，等待暴风雨过后再回来，或者也许他想第二天回来。现在即使想去寻找，也是不可能的了。

三个人的晚餐是鲜美的松鸡肉，庞库那夫和赫伯特为打这些野味辛苦了一天，又累又饿，所以吃得津津有味。

吃过晚饭，大家都在昨晚睡的角落休息了，庞库那夫还是躺在了靠火的地方，而赫伯特则躺在他的身边。

深夜，外面风急雨紧，就和他们从里士满乘坐气球逃跑的那晚一样。秋季是暴风雨的频发期，给人造成了巨大的灾难。在无边无际的大海上，狂风暴雨更是没有任何阻碍地肆虐，尤其让人害怕。这样的天气，对荒无人烟的东海岸来说，更是可怕。

幸好有这自然堆成的“石窟”。但是，这些由花岗石堆积而成的“石窟”并不十分牢靠，风吹过来时，连地基好像都在晃动。

庞库那夫枕在一块岩石上，明显感觉到头下面在频繁震动。

他不停地安慰着自己，让自己不要害怕，自己所住的“石窟”绝对不会倒塌。

可是，即便如此，他还是听到远处高地上有石头被风刮起，有的掉在了沙滩上，有的则掉到了他们居住的“石窟”顶上，有的直接被垂直卷起，在空中分裂成小石块，如同一颗颗子弹被射出。

庞库那夫爬起来两次，在向外面看的时候，只能借通道入口来保证自己的安全。暴雨好像并没有他躺在那里听到的那么恐怖，庞库那夫随即又回到了自己刚刚躺着的地方，听炭火在灰烬里发出的爆裂声。

呼啸的风声和轰隆的雷电声都没打扰到赫伯特，他睡得很熟。庞库那夫在爬起来两次后，也睡了，航海生涯让他足以应付这种环境。可史佩莱却是辗转反侧睡不着，他在心里埋怨自己，为什么不陪着那普一块去。由此可见，史佩莱对史密斯也并没有放弃希望。而就在此时，熟睡中的赫伯特突然被一种心神不宁的预感惊醒，他的脑海里不断浮现出那普。为什么那普没有回来，这个问题让他也开始辗转反侧起来。外面的狂风暴雨好似都不存在了，他不时地合上眼皮，但又猛地睁开眼。

夜越来越深了，差不多深夜两点钟时，正酣睡的庞库那夫被一个人推醒了。

“发生什么事了？”庞库那夫喊道。同时，职业习惯让他马上清醒了过来。

史佩莱俯下身子，对他说：“快听，庞库那夫，快听！”

庞库那夫竖起耳朵，但他耳边除了风雨声外，没有其他声音。

“是风声吧！”他说。

“不！”史佩莱说。他凝神听了一会儿又说：“我好像听到……”

“什么？”

“我好像听到了狗叫的声音！”

“什么？狗叫？”庞库那夫跳起来大喊。

“对！是狗叫！”

“不会！不可能，不可能的！在暴风雨中，怎么会……”

“不要说话，你听……”史佩莱继续说。

庞库那夫聚起精神听了一会儿，果然，在风雨中，他好像也听到有狗在叫。

“对不对？是不是狗叫声？”史佩莱激动地握住了庞库那夫的手说。

“对……好……好像是！”庞库那夫说。

“是……是多卜！多卜！”赫伯特大喊一声。

三个人同时向“石窟”洞口冲去。不过，他们想要出去却并没有那么容易，因为狂风很快又把他们吹进去了。最终，在他们用尽全力冲出去

后，却只能倚在一块岩石上。他们四下看着，却又说不出话来。夜色昏暗，海洋、天空和沙滩全都变成了漆黑一片，没有一丝亮光。

他们就那么在黑暗中站了几分钟，狂风阻止了他们的下一步行动。他们的衣服全都湿了，风沙吹打得他们连眼睛都睁不开。

在暴风雨稍稍又有些停歇的时候，他们再次听到了狗叫声，他们即刻做出了判断：声音离他们并不近。

肯定是多卜在叫，可是它是孤零零一个还是有谁和它在一起呢？很大的可能是孤零零一个，如果它和那普在一起，它一定会到“石窟”来的。庞库那夫没有办法开口，也没办法让别人听到他说话，他只是捏了捏史佩莱的手，意思是让他“稍等”，随即又重回“石窟”。

不一会儿，他拿着点着的干柴跑了出来，并将它扔在了黑暗中，同时吹起了口哨。

狗仿佛正在等候这个信号，很快，叫声近了。不久，一只狗跑向了“石窟”。三个人马上跟着跑了进去。

在往火炭上加了一把火后，火燃烧起来，将“石窟”的通道全照亮了。

“多卜，就是多卜！”赫伯特激动地大喊。

他们面前的确是多卜，这是一只漂亮的盎格鲁·诺尔曼杂种狗，这种狗的特点是：跑得快，嗅觉灵。总之，它具有猎狗所具备的一切优点。

这只属于工程师赛莱斯·史密斯的狗，孤零零地站在他们面前，它

的身边既没有那普，也没有它的主人。

多卜并不知道这个“石窟”，可它又是怎么到这里来的呢？这让他们有些不可思议，特别是在这样有着暴风雨的黑夜。更令他们奇怪的是，多卜并没有显得很疲倦，身上也没有沾上泥。

赫伯特将多卜拉到了自己身旁，拍着它的头，多卜则用它的脖子来回摩擦着赫伯特的手。

“狗都找到了，还怕它的主人找不到吗？”史佩莱说。

“上天保佑！我们让多卜带路去找吧！”

这次，庞库那夫没有反对。因为多卜的回来，太出乎他的意料了。

“走吧！”他说。

离开前，庞库那夫仔细地盖上了灰堆里的火炭，甚至还又添加了几块木柴，以便使火种能维持到他们回来。多卜发出了短促的叫声，好像是叫大家跟它走。

最后，庞库那夫将剩余的晚餐用手帕包了起来，带在身上，随即和大家一起在狗的带领下出去了。

此时，雨下得正急，而风也到了大发威力的时候。云端里没有丝毫的月光透出，想要直线前进根本不可能。他们紧紧地跟在多卜后面。在这人狗一行中，多卜走在最前面，接下来是史佩莱和赫伯特，庞库那夫走在最后。他们想说话都不可能，只能默不作声地往前走。雨虽然不是很大，但风势却很凶猛。

不过，有一点对他们还是很有利的，那就是这晚刮的是东南风，风在他们身后扬起了灰尘，对他们的前进却没有多少障碍。如果风沙是迎面而来的，他们也就没办法前行了。

总之，很多时候，他们像是被人从后面推着，不由自主地在往前跑，想要站住脚都难。除了风的原因外，多卜的出现，也给大家带来了希望，让他们有了力量。这次，他们不再是漫无目的地寻找，他们已经相信那普肯定是找到了他的主人，所以才打发忠实的多卜给他们送信的。

不过，工程师史密斯是活还是死？会不会是那普让多卜叫他们过去，给不幸遇难的史密斯料理后事？

过了一座悬崖，三个人不约而同地停下来喘息休息。转过岩石就有一个能避风的地方了，经过15分钟的奔跑，他们终于可以歇口气了。而在岩石后，他们彼此间也就能说话，同时也能听到对方说话了。赫伯特刚刚提到史密斯这个名字，多卜就发出了几声急促的叫声，好像是在告诉他们，史密斯得救了。

“你是说他得救了，对吗？多卜，他是不是得救了？”赫伯特反复地问着。

多卜又叫了几声，像是在回答它。

几个人又往前走。此时，潮水又开始上涨了，再加上狂风的推动，海浪升到了异常的高度。显然，这已经是春潮了。奔腾的巨浪和礁石碰撞，发出很大的声响。潮水像是要把整个海岛都淹没似的，沿岸没有长堤保护了，海滨受到了大浪的侵袭。

在他们离开悬崖不久，暴风就又向他们袭来。虽然他们一直弯着腰前行，但还是被风推得很快，幸好有在前面领路的多卜，才让他们没有丝毫的犹豫，执着地向一个方向走。

在他们向正北方向走的时候，右边是茫茫的大海，波涛巨浪在狂风中发出了震耳欲聋的响声；他们的左边则是漆黑一片，根本无法看清是什么样子。但在想象中，那里应该很平坦，因为风在吹向那边的时候，丝毫感觉不到有障碍，也没有碰到什么又折回来的感觉。

清晨四点钟，他们差不多已经走出5英里之外了。阴云稍稍有些散去，冷风吹在身上也没那么刺骨了。穿着单薄的他们冷得瑟瑟发抖，但谁也没有退缩，他们只是跟着多卜一直走着。这个有灵性的动物走到什么地方，他们就会跟到什么地方。

差不多五点钟的时候，迷雾越发稀薄，阴云也不再完全笼罩。此时，四周出现了一些浅灰色光晕。晦暗的天空中，有一线白光露出。波涛巨浪上面开始闪动白光，水花也重新变成了白色。

此时，他们左边的海岸上，起伏的丘陵已略有显现，不过也只是像黑底上的灰点一样模糊不清。

大约六点钟的时候，天大亮了，浓云淡去，此时他们离“石窟”已经有6英里左右了。沿着海滩，他们还在往前走，一路上，看到了很多礁石。这些礁石大都隐入深海，只有少量露出海面。左边是一片开阔的沙丘地，上面长着许多蓟草。这里没有悬崖，朝向海洋的方向没有任何障碍物，只有一小堆一小堆的凌乱石头。

这里的树木不是很密集，三三两两地丛生着，树身和枝干向西倾斜。

西南方，隐隐有着森林的影子。

此时，多卜显得有些焦躁，它一会儿跑在前面，一会儿又跑到后面，好像是在催促他们快点走。随后它就离开了海岸，向沙丘走去。他们也都跟了上去，这里完全像是一个沙漠，没有任何生物。

沙丘广阔辽远，由很多山石和部分小山组成，分布得并不均匀，整个地形有些像在沙上做的瑞士模型。这样的地方，除非有着超强的直觉，不然肯定会迷路。

离开海岸后，在沙丘上走了五分钟，他们跟着多卜来到了一个洞口。这个洞口在一座很高的沙丘后面。多卜到洞口时停了下来，随即便一声比一声大地叫了起来，三个人怀着忐忑的心情走了进去。

洞里的一个草铺上躺着一个人，那普跪在躺着的人身边。

直挺挺躺着的人正是工程师赛莱斯·史密斯……

第八章

跪在史密斯身边的那普一动不动，庞库那夫一见他便问：“还活着吗？”

那普没有反应，史佩莱和庞库那夫都变了脸色，而赫伯特则攥紧拳头，怔怔地站在那里。

伤心过度的黑人那普根本不知道有人进来，更没有听见庞库那夫的问话。

史佩莱走近僵卧着的史密斯，蹲下身解开了他的衣服，将耳朵凑到他的胸前。

他好像听了很久，其实也只有一分钟，可那一分钟似乎比一个世纪还长。终于，他听到了极其微弱的心跳声。

那普挺直身子，两眼发直，好像身边没有任何人。过度的伤心已经让他的面容发生了变化，几乎快要认不出来了。他一直以为他的主人已经死了。

史佩莱花了很长时间为史密斯仔细检查，最后站起身来。

“他还活着！”

一听这话，庞库那夫马上跪在史密斯身旁，他也听到了心跳声，而且在史密斯唇边，他还感觉到了微弱的呼吸。

在听到史佩莱说史密斯还活着的时候，赫伯特便去找水了。他在距离洞口大约100英尺的地方发现了一条小溪，小溪里的水很清澈。也许是因为下雨的缘故，溪水像被过滤过一样，干净得没有一点杂质。

不过，他却没有盛水的器具，想从沙丘里寻找一枚贝壳也没找到。最后，他只能将手帕浸在小溪里，然后拿着浸满水的手帕跑回洞里。

手帕里的水足够史佩莱用来给史密斯湿润嘴唇了。在史密斯的唇上沾了点冷水后，刺激产生了奇效。他突然从胸部吐出一口气来，嘴唇微微动着，似乎想要说什么。

“我们一定会救活他的。”史佩莱大声说。

刚刚已经完全绝望的那普听到这句话后，又清醒了过来，他的心里又有了希望。他解开主人的衣服，却发现他的头上、身上和四肢没有一点伤痕。

太让人惊奇了。原本以为他被激浪冲到了乱石中，然后挣扎到了沙丘的洞里，没想到他的手上连一点伤都没有，真是太不可思议了。

不过，这些疑问他们不久后就能得到答案。在史密斯能说话的时候，他会把整个过程告诉他们的。目前最重要的是将他救醒，照目前情况来看，按摩应该可以达到这个目的。

于是，他们开始将庞库那夫的绒衣垫在史密斯身上，对他进行按摩。

经过反复按摩，史密斯苏醒过来。他先是微微动了动胳膊，接着呼吸也正常起来。不过，由于精力耗尽，他没有说话，不然他一定会说，幸好伙伴们及时赶来，不然他肯定活不过来。

看到史密斯被救活，庞库那夫这才问那普：“你以为你的主人已经死了，对吗？”

那普点头说：“是的，我以为他死了。要不是多卜找到你们，并把你们领到这里来，我肯定已经把主人埋了，而且还会死在他的坟前。”

赛莱斯·史密斯可真是死里逃生啊！

随后，那普向他们讲述了他找到史密斯的过程。他说那天黎明到来前，他离开了“石窟”，并爬上了海滨的最高处，然后一直向北走，走到

了他曾经去过的海岸。

那时候，那普并不抱希望，他之所以再次去海岸、岩石和沙滩里寻找，只是想找到一点线索。因此，他特别留意那些被潮水冲不到的海滩，因为能被潮水冲到的，线索肯定也掉了。那普那时候也并没有想到会把主人找回来，只是想找到主人的尸体，然后亲手埋掉。

那普找了一遍后，还是没有结果。在那荒无人烟的地方，根本不曾有过人的踪迹，成千上万的贝壳散落在海水冲不到的地方，也不见人动过。

于是，那普决定继续向前走几英里，他想，也许是海水把尸体冲到更远的地方了。因为他认为，尸体在海岸较低的地方，迟早会被冲到岸上来的，所以他要和主人见最后一面。

“我沿着海滨又走了两英里，将浅水处的岩礁和深水处的沙岸都看过了，都没有，我已经绝望了。可就在昨天傍晚，差不多五点钟时，我在沙滩上看到了许多脚印。”

“脚印？”庞库那夫惊呼。

“对，脚印！”那普说。

“那些脚印是从什么地方开始有的？是从水边开始的吗？”史佩莱问。

那普摇头：“只有满潮线上有，其他地方的一定被潮水冲掉了。”

“继续说下去吧，那普。”史佩莱说。

“看到脚印，我高兴坏了。跟着脚印一路跑就到了沙丘，大概有四分之一英里。我一边跟着跑，一边注意着别把脚印踩掉了。差不多五分钟后，天黑了下来，我听到了狗叫声，我知道那是多卜，然后它就把我带到了这里，带到了主人的身边！”

那普说，在他看到主人毫无生气的身体时，悲伤至极，怎么都看不出生命的迹象。他在刚开始寻找的时候，只是想找到主人的尸体，可当他找到后，却又希望他是活着的。但当他费尽力气想唤主人醒来时，却一点作用都没有。他没有别的办法，就想对这个他敬爱的人尽最后一次忠。这时，他想到了他的伙伴们，他知道，他们一定也希望看他不幸的主人一眼。看着多卜，他便想到让这条忠诚的狗带信，因为他丝毫不怀疑狗的智慧。在这些伙伴中，多卜对史佩莱最熟悉，所以他就一遍又一遍地在多卜面前重复史佩莱的名字，最后，他给多卜指了指南方，多卜就朝着他指的方向跑去了。

多卜凭借它那神奇的直觉和嗅觉，竟然去了它从没去过的“石窟”附近，并最终带他们过来了。

几个人聚精会神地听完了那普的讲述。

他们在想，史密斯肯定是经过千辛万苦才从海里逃到岸上的，随后又经过重重困难到了沙丘。不过，他身上为什么会没有一点伤呢？这让他们很吃惊，也很不解。史密斯是怎么走完这一英里多路的？从海滨到沙丘的山洞这段路，他又是怎么走的？他们难以理解。

“这么说来，那普，不是你带他到这里来的？”史佩莱问。

“不，不是我！”黑人那普说。

“看来是他自己来的。”庞库那夫说。

“很明显是他自己来的，但这太令人难以置信了。”史佩莱说。

这事最后也只能让史密斯自己解释了，他们现在只能等他说话。

经过又一番的按摩后，史密斯的胳膊动了起来，接着头也动了动，最后还说出了几个字，但谁也听不清他在说什么。

那普弯下身子，呼唤着史密斯，可史密斯好像听不见，眼睛依然紧闭着。不过从他的动作来看，他已经脱离了危险，只是还没有完全恢复知觉而已。

对于这个山洞，庞库那夫感到很遗憾，因为这里既没有火，也没有取火的东西，他开始后悔没有把焦布带在身上，不然说不定能用两块火石砸出火星来，就能点燃焦布了。

史密斯的衣服口袋里什么都没有，只有坎肩里的一只怀表。看来，必须尽快把史密斯抬回“石窟”了。

在这点上，大家的意见比较一致。

在又用冷水湿润了史密斯的嘴唇后，他再次苏醒过来。庞库那夫想起了带在身上的烤松鸡，便将鸡肉汁和水融在一起做成了饮料，赫伯特在海边捉回了两只大蚌。庞库那夫将自己调制的饮料用蚌壳送到了史密斯的嘴里，史密斯贪婪地喝着，睁开了眼睛。

那普和史佩莱正好俯在他的身上。

“主人！主人！”那普叫着。

史密斯听到了，他首先认出了那普和史佩莱，接着又认出了庞库那夫和赫伯特，他用无力的手握了握他们的手。

史密斯又说了几个字，由此可见，即使在这种情况下，他仍然没有停止思考问题，这次大家都听清了，而且刚才他说的一定也是这句话，他说的是：

“这是荒岛还是大陆？”

“管它是什么呢！”庞库那夫大声说，“我们有的是时间看它是什么，只要你活着，是什么我们都不在乎。”

史密斯点了点头，像睡着一样闭上了眼睛。

他们没有再打扰他睡觉。史佩莱想着快点把史密斯抬到舒适点的地方，而那普和赫伯特，以及庞库那夫已经离开山洞，跑向了一座小山，他们看中了小山顶上的几棵东倒西歪的树。

在去那座小山的路上，庞库那夫不断地重复着一句话：

“‘荒岛还是大陆？’都那样了，只有一口气了，他竟然还在想这个，真是了个了不起的人！”

庞库那夫和两个同伴爬上小山后便开始了工作。由于没有工具，他们只能用手去掰一棵棵树枝。这是一种像海枫一样的树，之所以掰这些树枝，是想将它做成担架，抬史密斯回“石窟”。

大约40分钟后，他们的担架做好了。而这期间，史佩莱一直陪伴在史密斯身边，等他们回来，已经差不多是上午十点钟了。

回到洞中，史密斯正好从昏睡状态中醒来，他那苍白的，像死人一样的脸色也逐渐趋于正常。他微微抬起头，向四周看看，像是在思索自己在什么地方。

“听我说话累吗？赛莱斯？”史佩莱问。

“不累。”史密斯说。

庞库那夫说：“我觉得史密斯先生要是吃些松鸡肉冻的话，会更有精神一些。史密斯先生，我们这里有松鸡。”

庞库那夫一边说，一边将肉冻递给史密斯。

史密斯只少少地吃了一些松鸡肉冻，其余的都分给其他伙伴吃了。他们正饿得厉害，这样的食物，对他们来说实在太少了。

“对了，‘石窟’里有很多好吃的东西，知道吗？史密斯先生，从这里向南走，有一所我们的房子，有睡觉的地方，还生着火，也有我们打的鸟，那种鸟被我们的赫伯特称为锦鸡。现在担架做好了，只要你恢复些力气，我们就抬你回家去。”庞库那夫热情地说。

“谢谢你们，我的朋友。”史密斯说：“一两个小时后我们就走吧。史佩莱，现在你说说。”

史佩莱便把他们的经历向史密斯讲了一遍，讲他们是怎么坠落在这个陌生的地方的，又是怎么发现“石窟”并寻找他的。当然也没忘记说那普的忠诚和多卜的忠心、智慧以及其他种种事情。总之，凡是史密斯不知道的，他全都说了。

“这么说，不是你们把我救起来的？”史密斯的声音还很微弱。

“不是！”史佩莱说。

“不是你们把我带到洞里的？”

“不是！”

“山洞离海有多远？”

“差不多半英里。史密斯先生，你觉得奇怪吗？我们看你在这儿，也感到奇怪。”庞库那夫说。

“奇怪！真是太奇怪了！”史密斯说。此时的他，已经恢复了元气，对一切事物都充满了兴趣。

“可你能告诉我们你掉进海里后的情况吗？”庞库那夫说。

史密斯陷入了沉思。当他被海浪从气球网上卷进大海后，先是沉了几下，随后在上升的时候，隐约感觉到身边有活物在挣扎，最后知道是多卜，多卜从气球上跳下来是为了救他的。那时候气球已经不见踪影了。减少了他和狗的重量的气球，像箭一样射了出去。

掉在激浪澎湃的海洋里的他，离海岸超过了半英里。他拼命地游泳，旁边的多卜也一直咬着他的衣服，以便让他能浮在水面上。不过因为有激浪冲来，将他们冲向了北方，他们在挣扎了半个多小时后，便一起沉到了深海里。从那时起，直到他躺在伙伴们的怀抱，他什么都不知道。

“不管怎么样，你肯定是在被海水冲到岸上后，用尽全力来到这儿的。因为那普是根据你的脚印找到你的。”庞库那夫说。

“也许……当然……”史密斯若有所思，随即又问：“海滨上没有人迹吗？”

“没有，一点印迹都没有。”史佩莱说完，停了一下又说：“再说，如果真有人救了你，为什么又把你扔在这里？”

“不错！亲爱的史佩莱，你说得对。”史密斯说完，把脸转向他的仆人，“告诉我，那普，难道不是你……你是不是一时失去知觉……那时……不，不可能，那太传奇了……脚印还在吗？”

“在的，主人！”那普认真地说，“入口的地方和小山背后被雨打不到的地方都有，其他地方的脚印被暴风雨冲掉了。”

“庞库那夫，请拿我的鞋子和那脚印比对一下，看是不是我的好吗？”史密斯说。

庞库那夫拿着史密斯的鞋子去了。在那普带着庞库那夫和赫伯特去找脚印的时候，史密斯对史佩莱说：“这是一件非常奇怪的事！”

“根本无法理解！”史佩莱说。

“什么也别想，亲爱的史佩莱，这些问题留待以后再谈吧！”

过了一会儿，几个人回来了，说史密斯的鞋子和脚印完全吻合。由此可见，脚印肯定是史密斯的。

“好吧，刚才我以为是那普失去了知觉，看来是我失去了知觉。想必我像个梦游者，被多卜从海里拖上来，然后迷迷糊糊地被它引到了这里来……多卜，过来，我的狗！”

机灵的多卜一边叫，一边跳到了主人身边。史密斯亲热地抚摩着它的头。大家都觉得没有其他可能来解释史密斯的获救了，这件事肯定归功于多卜。

中午12点的时候，庞库那夫问史密斯现在能不能坐担架。史密斯虽然没有回答，却依靠顽强的毅力，站了起来。不过，他还是需要靠在庞库那夫的身上，不然就会跌倒。

“把担架抬过来吧！”庞库那夫说。

交叉着枝干，上面铺着树叶和野草的简易担架抬来了。史密斯躺了上去，庞库那夫和那普各抬一头，向海滨走去。这是一段约八英里的路程。由于不能走得太快，他们需要时不时地歇息，所以到达“石窟”，差不多需要六个小时。

风依然在刮，而且很大，幸好雨已经停了。史密斯虽然躺在担架上，但却用胳膊支撑身体观察着海岸和内陆。他一直没有说话，只是睁大眼睛看着周围的景物，看着那高低不平的地势，茂密的森林和各种产物……这些东西深深地印在了他的脑海里。

不过，在走了差不多两个小时后，疲倦的他睡着了。

五点半的时候，他们到了悬崖下，很快也就回到了“石窟”。

在几个人将担架放在沙地上时，史密斯还没有醒来。

一场暴风雨让这里发生了很大的变化，这变化让庞库那夫大吃一惊。海滩上多了很多大块的石头，石头上覆盖着厚厚的水草、海藻和水生植物。看来，曾经只是漫过小岛的海水，因为风浪大，冲到了花岗石壁下面。

“石窟”前的泥土被海浪冲走了。庞库那夫突然有了不祥的预感，急忙冲到通道里，很快又沮丧地回来了，呆呆地看着伙伴们：火被浇灭了，灰烬也已经成了一摊泥，留着代替火绒的焦布也不见了。海水一直灌到了通道，“石窟”里的所有东西都已经被损坏了……

第九章

史佩莱、赫伯特和那普都知道发生了什么，对于庞库那夫认为的这件事的严重后果，大家却又有着各自不同的反应。

找到了主人的那普，对什么都不再在意，甚至不愿听庞库那夫的“唠叨”。赫伯特和庞库那夫的感觉相同，史佩莱则只是随意说了句：“庞库那夫，我觉得无所谓！”

“我再重复一遍，我们的火灭了！”

“哼哼！”

“没有办法再生火了！”

“我觉得没什么！”

“我说史佩莱先生……”

“怕什么？史密斯先生不是在这里吗？他不是活着吗？他在就会有办法生火！”

“用什么生火？”

“不用任何东西都可以！”

庞库那夫没再说什么，还能说什么呢？他和其他人一样，都觉得不管什么事都难不住史密斯。在他们每个人的心里，史密斯就像是宇宙的中心，是一切科学和人类智慧的结晶。只要和史密斯在一起，他们就能过上美国最发达的城市生活。有了他，什么都会有的。

总之，和他在一起，没什么好担心的。如果有人告诉他们，他们站着的地方马上就要被火山吞灭了，或者是很快要沉入海洋了，他们可能也会非常镇定地说：“没事，有史密斯在呢！看他的吧！”

史密斯还躺在担架上，经过一路的颠簸，他又昏睡过去了，所以没办法请教他怎么生火。松鸡肉吃完了，没有火不能做其他野味，更何况那些锦鸡也被冲走了，这天的晚餐他们只好随便吃点什么了，接着再想下一步该怎么办。

他们把史密斯抬到了“石窟”的中间位置，并用干海藻为他铺了个床。良好的睡眠有助于史密斯恢复体力，比吃营养品有效。

黑夜来了，随着风向转变为东北风，天气异常寒冷。曾经隔的那些小间也被冲毁了，寒风直灌进来，“石窟”里冷得几乎无法住人。由于担心史密斯病没养好，再冻感冒，大家便都把外套和坎肩盖在史密斯身上。

晚上他们吃的是赫伯特和那普从海滩上捡的大堆的茨蟹，以及他们在岩石上搜集到的一些能吃的海藻。这些海藻只有在潮水涨得很高的时候，才会被冲到岩石边，属于一种马尾藻类植物，又叫溇卜。

溷卜晒干后能产生一种胶状物，非常有营养，亚洲沿海的居民经常食用。晚上，大家在吃了很多茨蟹，又吸了一些溷卜的汁后，还是非常满足的。

“没事，史密斯先生很快就会想出办法的。”冻得瑟瑟发抖的庞库那夫说。

天气冷得刺骨，他们没有任何御寒的办法。

庞库那夫心里非常着急，想尽了办法生火。那普为了帮助他，还去找了一些干燥的地苔，试图用两块鹅卵石擦出火花。不过，因为地苔不容易点着而失败。其实，两块鹅卵石擦出的所谓火星，并不是火，而是光，所以才会失败。

虽然知道把握不大，但庞库那夫还是一遍又一遍地摩擦着，甚至模仿土人的做法，双手不停地摩擦干柴。庞库那夫和那普不断进行着这种剧烈运动，但如果用两根木头就能将动能转换为热能的话，这种做法是否也可以烧开轮船的锅炉呢？所以结果可想而知。两块木头虽然被磨热了，但还不如他们剧烈运动后身体的热度。

一个小时后，庞库那夫累得满身大汗，赌气地把木块扔在了地上。

“别人再怎么说明，我也不会再相信土人说的摩擦起火了。要是再这么磨下去，我的胳膊就先燃烧起来了。”

水手庞库那夫否认土人的摩擦取火，实际上是缺少根据的。土人虽然通过剧烈运动摩擦取火，但却并不是每一种木柴都能起火。而且他们还有一种“秘诀”。庞库那夫之所以取不出火，是因为他不懂这个“秘诀”。

发了一顿脾气的庞库那夫，很快就又高兴起来，因为赫伯特捡起了他扔的木头，又摩擦起来。这位强壮的水手看着少年做他已经失败的事，哈哈大笑。

“孩子，摩吧！好好摩！”

赫伯特笑着说：“我是在摩，可我摩是为了让身体暖和一点，现在我冷得发抖。我可没说要摩出火来！我的好庞库那夫，我很快就会和你一样热了。”

果然，赫伯特很快就累得满头大汗，只好放弃了这件事，而在那天，也没人再尝试过摩擦起火。

不能为这点小小的困难就去打扰史密斯，这句话史佩莱说了不下20次，之后，他就躺到一个沙铺上睡觉去了。赫伯特、那普和庞库那夫也都躺下休息，多卜睡在了他主人的脚边。

到了第二天，也就是3月28日，早晨八点钟的时候，史密斯醒了，当他看见伙伴们都围在他身边看他时，仍像前一天那样，开口便问：“这是荒岛还是大陆？”

可见，他最惦记的就是这件事。

“我们一点都不清楚，史密斯先生！”庞库那夫说。

“你们现在还知道？”

“等你带我们视察完这个地方，我们就知道了！”庞库那夫说。

“我想我应该可以试试！”史密斯说完，毫不费力地站了起来。

“你能站起来了，太好了！”庞库那夫非常激动，大声说。

“我感到身体没劲。有吃的吗？朋友们，很快就会好的，你们不是有火吗？”史密斯说。

几个人都不说话了，几秒钟后，庞库那夫才叹气说：“没有火！准确地说，是我们现在没有火了！”

随即，他把前一天发生的事情详细地说给了史密斯，还把他们找到独一无二的火柴的趣事告诉了他。最后又说到他们想用土人的方法取火，但没有成功。

“嗯，我们可以想办法，如果没有和火绒类似的东西……”史密斯说。

“怎么办？”庞库那夫问。

“那我们就自己做火柴。”

“是做化学火柴？”

“对！化学火柴！”

“也许这么做可能还比你昨天做得容易些。”史佩莱拍了一下庞库那夫的肩说。

庞库那夫却没将这件事想得那么简单，但他没有反驳。

这是一个晴朗的天气，大家全都走出了“石窟”。

太阳从水平线上慢慢升起，照在了那块高大的悬崖上，顿时给那里

增添了一层黄晕，看起来非常漂亮。

史密斯在匆匆看了一眼四周后，坐在了一块石头上，赫伯特递给他一些蛤蜊和马尾藻。

“史密斯先生，我们只有这些了。”

“谢谢你，孩子，可以了……至少今天早上是够了。”

他一边大口地吃着这些简单粗糙的食物，一边喝着用巨大贝壳取来的淡水。

其他人都默默地看着他。史密斯吃完后，交叉着双臂说：“看来朋友，你们并不知道命运将我们带来的是荒岛还是大陆，对吗？”

“是这样的，史密斯先生。”少年赫伯特说。

“我们明天就可以知道了，到时，我们可就没其他事了！”史密斯说。

“还有事！”庞库那夫说。

“什么事？”

“生火！”这件事是庞库那夫一直绞尽脑汁在想的事。

“嗯，火我们是一定要生的。庞库那夫，放心吧！”史密斯说完，转身看着大家。

“昨天你们在抬着我的时候，我好像看到西面有座高山，从上面可以俯瞰这片土地对吗？”

“是的，那座山看起来非常高……”史佩莱说。

“那我们明天就去爬那座山，到时就能知道这是荒岛还是大陆了。我再重复一遍，到时就没别的事了。”

“有，还有生火！”庞库那夫非常固执。

“庞库那夫，他会给我们生火的，有点耐心！”史佩莱说。

庞库那夫瞪了史佩莱一眼，好像在说：“要是靠你的话，我们就不用想吃烤肉了。”不过他最终没说出口。

此时，史密斯一直没说话，他好像对火的事一点都不担心。沉思片刻后，他说：“朋友们，看来，我们的处境很悲惨，因为我们很有可能是在荒岛上。如果是在大陆，那我们总会到达有人居住的地方，只是多费些时间和力气而已。可如果我们是在荒岛上，那就要岛上有人帮助我们才能脱离困境。如果没有人，那就只能自己想办法了。”

“没错，是这个样子的。”庞库那夫说。

“不过，不管是荒岛还是大陆，赛莱斯，你觉得这是什么地方呢？”

“现在还不能肯定！”史密斯说，“据我猜测，应该是太平洋的陆地。因为我们离开里士满时，刮的是东北风，那时候风力很大，由此可以说我们的方向一直没有变。如果风向是从东北到西南，那我们很可能已经越过了北卡罗来纳州、南卡罗来纳州、乔治亚州、墨西哥湾、墨西哥狭窄地带……到了太平洋。据我估计，气球最少飞出了六七千英里。如果风向只是改变了半个方角的话，我们所在的地方很可能是曼达瓦群岛，或者是帕劳群岛。要是风力再大一些的话，我们可能已经到了新西兰。如果真是到了新西兰，那回家可就方便多了。因为不管我们遇到的

是英国人还是毛利人，都对我们有帮助。相反，如果这里是小群岛的荒岛海岸，那我们只能做长期在此居住的打算了，也就是要想着怎么能舒舒服服地住下去。而要想知道是荒岛海岸还是陆地，我们从那座能俯瞰周围的高山就能看出。”

“什么？‘长期’？你是说‘长期’，亲爱的赛莱斯，真是这样吗？”史佩莱大声喊道。

“我们要做好最坏的思想准备。没有最坏，就当是意外收获吧！”史密斯说。

“对，应该这样。如果真是个孤岛，我希望它不在船只的航线之外。如果在的话，那可就倒大霉了！”

“在没有上山确定之前，什么都不好说。”史密斯说。

“可是，明天上山，赛莱斯先生，你的身体受得了吗？”赫伯特问。

“我希望我能做到。孩子，也要看你和庞库那夫是否是个机灵能干的猎手了。”史密斯回答道。

“说到野味，史密斯先生，只要能烤，我保证可以带回野味来……”庞库那夫爽快地说。

“那你尽管把野味带回来吧！庞库那夫。”史密斯说。

大家经过一番具体分工后决定：史密斯和史佩莱留在“石窟”里，观察海岸和高地；那普和赫伯特及庞库那夫去森林，在搜集柴火的时候，如果遇上飞禽走兽就打回来。

上午十点钟，大家出发了。赫伯特信心很足，那普也是兴致勃勃，但庞库那夫却在小声嘀咕：

“要是回家后真能看到火，肯定是雷点着的。”

三个人爬上河岸，在河流的拐角处，庞库那夫停下了脚步，对其他两个人说：“我们是先打猎，还是先砍柴？”

“先打猎吧，看看，多卜已经开始寻找野味了。”赫伯特说。

“好吧！那先打猎，回来捡木柴。”庞库那夫说。

随后，三个人先从一棵小枞树上各掰了一根粗枝做武器，跟上了在深草丛上蹦下跳的多卜。

这次，他们没有沿着河道走，而是直接进了以松柏科为主的丛林深处。这里有些地方的松树虽然稀疏，但却因为长在了一起，便显得很高大。从它们的生长情况来看，这里好像比史密斯想象的纬度要再高一些。丛林中有很多因为年深日久而磨秃的树桩，这满地的木柴，他们做燃料是怎么都用不完的。经过一片空地，丛林慢慢密了起来，想要穿过去也困难了很多。

丛林中并没有现成的路，因为怕迷路，庞库那夫走几步就要折个树枝做记号。由于上次是和赫伯特沿着河道走的，这次他们没按那条路线走，有些失策。他们走了快一个小时了，却连一个动物都没有看到。仅仅有些小鸟，可没等他们走近，便被多卜惊动飞走了，连锦鸡也没看见一只。看来，他们只有再回上次钓到松鸡的沼泽地去了。

“庞库那夫，你答应主人带的野味如果只是这些，怕是不需要用火来烤吧！”那普略带讥讽地说。

“有点耐心，我倒怕回去后缺的不是野味。”庞库那夫说。

“难道你不相信史密斯先生？”

“是的！”

“你不认为他能生起火？”

“我要亲眼看到火才相信。”

“那就等着吧！主人说有火就一定会有的。”

“那就等着瞧吧！”

此时，太阳还没有升到正上方，他们继续前行。突然，赫伯特发现一棵树上有果子可以吃，这也算是收获了。这种树是南欧松，上面结的松子特别好吃，是欧美地区的珍品。树上的松子已经完全成熟了，几个人一边吃，一边听赫伯特介绍。

“看，拿海藻做面包，把生蛤蜊当肉，餐后的点心就是松子。对于我们这些一无所有的人来说，有这么一餐已经很不错了。我们没有理由埋怨。”赫伯特说。

“孩子，我没有埋怨，我只是觉得这顿饭，肉太少了。”庞库那夫说。

“多卜看到什么了！”那普喊着，朝丛林深处跑去。

多卜转眼就钻到看不见的地方了，却仍然在叫。同时，在多卜的叫声中，他们好像还听到了夹杂着奇怪的哼哼声。

庞库那夫和赫伯特也跟着那普跑了过去。这时候，如果多卜捕捉到了什么野味，他们先考虑的，首先是怎么捉住，而不是怎么烹调。

等他们三个“猎人”跑进灌木丛，便看见了多卜正在和一只野兽搏斗，多卜咬住了那个野兽的耳朵。野兽看起来有点像猪，长度在两英尺半左右，颜色是深褐色，不过肚子上的颜色比背上浅。它浑身上下长着又稀又硬的毛，脚趾间像有脚蹼连着，紧紧地按在地上。赫伯特认出来了，它是水豚，是啮齿动物中最大的一种。

水豚没有和狗搏斗。由于眼睑太厚，它的眼珠深深地陷进了眼窝，眼珠转动的样子显得非常笨拙，也许是第一次看见人类，它有些发蒙。

那普紧握棍子正要去打，却见它已挣脱了多卜的牙齿，很轻地叫了一声，随即向赫伯特冲去，差点把他撞倒，然后便跑进丛林不见了。

“糟糕！”庞库那夫喊。

等他们三个人跟着多卜追了上去，那水豚已经跳到被古松覆盖的水池不见了。

那普、赫伯特和庞库那夫怔在那里，多卜纵身跳进水池，但躲在水底的水豚却再也没有出来。

“我们等等看！它一定会到水面上呼吸的！”赫伯特说。

“它不会被淹死吗？”那普问。

“不会的，它长着蹼足，算得上是两栖动物。我们注意盯着它。”赫伯特说。

多卜待在水里没有上来，不停地在水面上寻找。庞库那夫和其他两个人站在池边把守着，他们要切断水豚的退路。

果然就像赫伯特说的，几分钟后，水豚就露出了水面。多卜凶猛地跳在它身上，拖住它不让它下沉。又过了不长时间，水豚便被它拖到了岸边，那普举起棍子就将它打死了。

“哈哈！”庞库那夫发出了胜利的笑声。

“只要有火，这只猪会被我们吃得只剩下骨头！”

庞库那夫说着便将水豚扛在了肩头。看太阳的位置，差不多有两点钟了，庞库那夫挥手示意大家回去。

多亏的多卜，他们没费一点力气就找到了回去的路。半个小时后，他们已经走到河边了。

和上次一样，庞库那夫又飞快地做了一个木筏。木筏顺流而下，向“石窟”漂去，不过如果没有火，一切的劳动也就白费了。

可当他们还没走出50步时，庞库那夫便站住了，他指着悬崖的转角，扯开嗓门大声喊：

“赫伯特！那普！你们看！”他喊道。

他们看到，“石窟”里，有轻烟在袅袅上升。

第十章

几分钟后，三个“猎人”奔到了噼啪作响的火炉旁。扛着水豚的庞库那夫，一会儿看看坐在火旁的史密斯，一会儿又看看史佩莱。

“收获怎么样呀？勇士们！”史佩莱和他们打着招呼。

“火，天啊，真是火，这下可以烤这只大肥猪了！我们马上就能大餐一顿了。不过，这是谁生的火？”庞库那夫问道。

“太阳！”史佩莱说。

史佩莱回答得没错。庞库那夫在奇怪这火竟然是太阳点燃的时，他简直有些不相信自己的眼睛了。他怔怔地站在那里，都忘了问史密斯。

“你有放大镜？”赫伯特问史密斯。

“没有，孩子，可我做了一个。”他答道。

史密斯把他的“放大镜”拿出来给大家看。原来，它的构造非常简单，是由史密斯和史佩莱表上的玻璃做成的。史密斯用一些土将两片玻璃粘在一起，然后在中间灌满了水，“放大镜”就这么做成了。用放大镜将太阳光聚在干燥的地苔上，一会儿工夫，地苔就燃烧起来了。

看完这个“放大镜”后，庞库那夫一言不发地看着史密斯，从他的表情中可以看出，在他眼里，史密斯即使不是神仙也是一个不平凡的人。怔了好一会儿后，他才大声说：“把这记下来，史佩莱先生，记下这些！”

“已经记了！”史佩莱说。

随后，那普协助庞库那夫做了肉叉，然后将洗干净的水豚架在了燃烧正旺的火上烤起来。

“石窟”又温暖起来，当然除了因为有火外，还因为他们又用木柴和泥土重新做了隔板。

很明显，史密斯和史佩莱这天的效率非常高。

史密斯基本恢复了体力，这从他爬上高地就能看得出来。史密斯最擅长的就是目测高度和距离。当他站在高地的顶上，久久地注视着火山锥时，就已经估算出了这座明天他们打算去爬的山的距离和高度了。

这座山位于西北方向6英里的地方，差不多有3500英尺高。如果站在山顶上，是可以看到50英里以外的。因此他觉得，是“荒岛还是大陆”，在他登上那座山后就能一目了然了。

这天的晚餐非常丰盛，除了水豚肉、马尾藻外还有南欧松的松子，大家对水豚肉的美味全都赞不绝口。整个吃饭过程中，史密斯都很少说话，他在想明天的事。

庞库那夫两次提建议，说现在最好该怎么做，但史密斯只是摇头不作声，他想得更全面。

最后他说：“明天我们就能知道接下来应该怎么做。”

晚饭结束，在向篝火堆里又添加了木柴后，全体人员——包括忠实的多卜，全都进入了梦乡。这一晚，他们睡得很安稳。

第二天就是3月29日了，他们精神抖擞地起床，开始为他们命运的一次远征做准备。

一切都已准备好，就等着出发了。前一天吃剩的水豚肉足够大家再吃一餐，路途中还可以找到更多食物；被做成放大镜的两块玻璃又安在了史密斯和史佩莱的表上，庞库那夫又烧了一块布代替火绒。

在火成岩地区，他们不会缺火石。

早上七点半，大家带着木棍，从“石窟”出发了。大家这次的路线是庞库那夫提议的：“去时走森林里开辟过的小道，回来时走其他路。”

这样的路线也是去高山最直的一条路。绕过南面的拐角，他们沿着河的左岸开始前行，直到河流折向了西南，他们才离开河道。

在常绿树下，他们找到了曾经走过的路。九点钟时，他们到了森林的最西边。刚刚走过的地方，以前曾是沼泽，后来由于地壳运动，变成了沙地。慢慢地，沙地由平坦变得起伏，直到形成现在的斜坡，并从岸边一直延伸到了高地。

在他们走这一段路时，时不时会看到一些小动物出现，多卜总是第一时间扑上去。不过由于主人觉得打猎没到时间，所以很快就被叫回来了。史密斯只要心里有了计划，就会下定决心去做，不会轻易改变。所以对于周围的环境和物产，他都没有兴趣，他只想赶快爬上前面的高山，所以也就旁若无物地径直前行。

十点钟的时候，他们在一棵大树下休息了几分钟，随即就又出发了。

穿过森林，山的形状呈现在了他们面前：这是有着两个火山锥的山。

在两个火山锥中，其中一个高约2500英尺，锥顶很平，如同被削过

一般，下面是由乱石支撑着的，有些像动物爪子，紧紧地抓着地面，脚趾向四面分散开来，脚趾间形成了很多峡谷，峡谷里树木丛生。不过，有一丛树却和锥顶相平。东北方向的山坡上树木很少，所以他们很清楚地看到那里有条深深的缝隙，应该是水道。

另一个火山锥在头一个的上边，锥顶呈圆形向一边倾斜，有点像一顶歪戴的帽子。这个火山锥看起来像是由泥土构成的，表层有一些突出的红石头。

大家在经过一番商议后决定，沿着第二个火山锥爬。根据这座山的地势，他们准备沿着支脉的山脊前行。

“我们这是要到火山地带去了。”史密斯说完，便领着大家向支脉爬。支脉虽然弯弯曲曲，但并不算很陡，所以走起来也比较容易。

一路上，到处都是乱石、玄武岩和浮石碎片。很明显，这里曾发生过地震。路上的枞树三三两两地生长着，枝繁叶茂，将和它有着百尺距离的峡谷遮得一线阳光都透不进去。

爬了一会儿，赫伯特看到了一些庞大动物新近留下的足迹。

“这些野兽会阻挡我们吗？”庞库那夫问。

“到时候再说！”史佩莱以前在印度打过虎，在非洲猎过狮，所以很镇定，又说，“到时候我们会想出办法来的，不过还是要特别小心才行！”

他们警觉地慢慢往上爬。

路越来越难走，不仅曲折，而且还有很多障碍物。由于不能直接往

上爬，通向高山的距离也便显得远了很多。有时走着走着，他们面前会横出一个深渊，只得绕道而行，费很长时间和力气去寻找另一条路。所以在中午12点的时候，他们不得不在一棵大枫树底下休息吃东西。

附近有条山涧，水流形成了一个瀑布。这时他们才发现，这里距离高山顶还有近一半的路程，想必天黑前是不可能赶到目的地了。

从这里看，底下的海洋很辽阔。右边因为一个隆起的海角挡住了视线没有看到。从左边看可以看到几英里外，在向他们住的那个方向看时，视线又被一些奇形怪状的山脊挡住了，那些山脊如同中央火山锥的支柱，所以在这里依然无法看出是“孤岛”还是“大陆”。

下午一点钟的时候，他们继续往上爬。在斜着向西南方向爬的时候，他们走进了一个灌木丛。灌木丛很浓密，几对雉科鹑鸡类飞禽在树荫下拍打着翅膀，这是角雉，和鸡的大小差不多。不过，角雉的喉咙下方却是长着肉瓣的，眼睛后面也有圆形的小冠毛。雌角雉是褐色，雄角雉则全身通红，有着白色的斑点，非常漂亮。

史佩莱捡起一块石头向它们扔去，扔得非常准，一只角雉被打死了。庞库那夫深吸一口气，此时他已经很饿了，所以贪婪地盯着那些角雉。

离开灌木丛后，他们互相攀着肩膀翻过了100英尺左右的陡坡，爬上一个平台。平台上树木很少，土是火山土。再往上爬，坡度就更陡了，必须绕成曲线才能行走，而且走时必须小心谨慎，不然很可能被摔得粉身碎骨。

走这段路的时候，那普和赫伯特走在最前面，庞库那夫殿后，史密斯和史佩莱走在中间。这段路依然有很多野兽的足迹存在。能到这么高

的地方来的必定是那些站得稳、脊骨柔软的羚羊或山羊。他们在行进中也看到过几只，但庞库那夫却将它们认错了，大喊：

“看！绵羊！”

一行人停下来，他们看见，在距离他们大约50英尺的地方，有6个头不小的动物，长着弯曲的角，但角的顶端又是扁平的，看起来很有力量。它们那光滑的褐色长毛下是蓬松的细绒毛。

赫伯特说这不是绵羊，而是温带山区最常见的莫伏鹿羊。

“这种羊有羊腿和羊排吗？”庞库那夫问。

“当然有！”赫伯特说。

“那我就把它们当绵羊！”庞库那夫说。

这些被赫伯特称为莫伏鹿羊的动物站在一块玄武石中间，一动不动，呆呆地看着他们，好像第一次看见人类。随后，不知为什么突然一惊，跳过山石不见了。

“再见！改天我们再见！”庞库那夫看着它们逃跑的影子，风趣地喊道。

史密斯、史佩莱、赫伯特和那普全被他逗得哈哈大笑。

几个人继续往上爬，接下来碰到的就是地壳发生变化遗留下的熔岩了。时不时地，他们会被含硫的泉水挡住道路，所以只能从旁边绕过去。他们看到，有些地方的硫已经和其他物质形成了结晶，存在于由很多长石晶体构成的白色火山岩渣里。

两个火山锥中较低的那个顶部比较平整。而越是临近高地，他们爬山来就越困难。差不多下午四点钟的时候，他们终于走完最后一带林区。走过林区，周围看到的都是一些弯曲的矮松，而它们之所以长成这样，都是因为抵挡狂风造成的。

这一天，天气晴朗，万里无云，这也是他们最感幸运的地方。不过，由于处在海拔3000英尺的地方，即使是微风，对他们爬山也有影响。周围一片寂静，虽然知道外面晴空万里，但因为那比较高的火山锥遮住了半边水平线，所以他们几乎看不见太阳。

等到太阳西下，海滩上因为光照而形成的庞大山影也越来越大。东边开始涌出了一些水汽，虽然是云，但却更像是雾，在太阳光的照耀下，发出多彩的光芒。

由于山势崎岖蜿蜒，他们真要爬上去还有两英里左右的路要走，而且路也越来越滑，一旦遇上那些风化了石头，很可能会摔下山的。

夜幕已经降临，史密斯和他的伙伴们费尽力气，用了七个多小时才到达了第一个火山锥顶端的高地。一到高地，他们便决定吃饭休息，恢复体力。

第一个火山锥的顶端也是第二个火山锥的底部，这里有许多岩石，他们很快找到了休息的地方。虽然旁边没什么可以当燃料的，但高地上却有几丛灌木，也有地苔。

庞库那夫在用石头围火炉的时候，那普和赫伯特捡了些干枯的灌木枝回来。他们躲在岩石的避风处，用火石打出火星，点着了焦布，那普对着焦布吹了几口气后，仅仅几分钟，烈火就噼噼啪啪地燃烧起来。

在这里，他们生火不为烤肉，而只为了御寒。那普打的几只鸟他们决定放在第二天吃。这天的晚餐很简单：一些剩下的水豚肉和南欧松的松子。

晚上六点，他们吃完了晚餐。此时，天还没有完全黑下来，史密斯想再去看看高火山锥的环状底层。如果火山锥很陡，走不上去的话，他们就要考虑怎么绕过去了。这问题让他考虑了很久，因为那个“斜戴帽子状”的火山锥很难爬上去。如果不能直接登上山顶，又无法从火山锥底下绕过去的话，他们很可能没办法观察到西边的陆地方向，也就是说，他们这次爬山的目的将无法实现。

史密斯不顾疲劳，在赫伯特的陪同下，沿着高地的边缘向北走去。庞库那夫则和那普布置睡觉的地方。史佩莱要记录下这天发生的事情，所以没去。

光线不是太暗，高地上的夜色幽静迷人，史密斯和赫伯特紧挨着往前走，一句话都不说。高地上有些地方比较宽，很容易就能过去。但有些地方却被岩石挡住了去路，只剩窄窄的一条道，不能并排前行。

在走了大约20分钟后，两个人不得不停了下来，因为两个火山锥的斜坡并成了一个，坡度接近70°，根本无法通行。

史密斯和赫伯特不得不放弃从这里过去，但这么一来，他们又得到了一个爬到火山锥顶端的机会。因为在他们面前突然出现了一个深洞，是棱角粗糙的火山口。火山口的作用是，当火山喷发时，岩浆会从这里喷出，熔岩凝固后和火山渣形成了一个的阶梯，从阶梯上上去就容易多了。

史密斯只匆匆看了看这个地方，便带着赫伯特，毫不犹豫地进了山

洞，越往里面走，光线越暗。离山顶还有1000英尺，火山口里的斜坡能不能上？这个问题等会儿就能知道了，因为不到最后关头不放弃的史密斯必须上到不能上为止。

幸好火山内的斜坡一直蜿蜒而上，他们才顺顺当当地攀了上去。

火山当然已经完全熄灭了，山坡上也没有一缕烟，甚至在黑洞里也看不到一点火星，当然更没有轰隆声和其他响声。也许这个深井通向了地壳底层，但里面却没有一点颤动。火山口的空气里也没有硫黄的气味。由此可见，这是一座沉睡着的火山，而且是个完全被熄灭的死火山。

史密斯的这个探索可以算是成功了。

两个人继续往上爬，爬上了内壁，越爬火山口愈大，甚至通过火山口还能看到天空的半径也是越来越大。

他们每往前走一步，视线里的星星就会增加一些，直到满天星辰映入他们眼帘。放眼望去，不仅天蝎座主星在头顶闪闪发光，就连据说离地球最近的半人马座比邻星也都显现在了他们眼前。

不过，随着火山口的增大，他们又看到了南鱼座的北落师门和南三角座。最后还发现，在接近南边的地方，相当于北半球北极星的南十字座也在天空闪耀。

将近八点钟时，史密斯和赫伯特到了火山锥顶端的最高峰。

此时，四周一片漆黑，他们几乎连两英里以外的地方都看不见了。到底这片大陆是被大海包围着呢，还是陆地西边和太平洋中的某个大陆相连呢？他们现在无从知晓。

一条带状乌云出现在了西边的水平线上，夜色更加昏暗。到底什么地方是陆地，什么地方是海洋，他们仿佛处在了一个大圆圈的中央，完全看不清楚。

突然，水平线上透出一丝微弱的光，乌云向他们头顶移动，地面上慢慢有了光线。原来，这是一弯新月在西沉，当乌云移开后，水平线完全被月光照亮了。仅仅只有一瞬间，史密斯就看见了水面上倒映的新月在荡漾。他一把抓住赫伯特的手，沉重地说：“这是一座荒岛！”

此时，新月落到了水波之下。

第十一章

史密斯和赫伯特回到了高地，那是在他得知所处的地方是个荒岛后的半个小时后。对其他入，他只是简单地说，上天将他们扔在了一个荒岛上，其他事情明天再谈。

随后，大家都去睡觉了，这群被抛在荒岛上的人，居然安安稳稳地在海拔2500英尺的山洞里睡了一觉。

天亮了，这天是3月30日。没有其他东西吃，他们只吃了一点烤角雉做早餐，然后就又开始往上爬了。

史密斯准备再到火山顶上去观察一番。如果他们所在的荒岛和任何陆地都不相连，也没有来往太平洋各群岛的航线的话，他们很可能就要

一辈子困在这里了。这次，其他人都参与到了这次探寻中，他们也想看看这个荒岛，以便决定以后靠什么来生存。

早上七点，史密斯、赫伯特、庞库那夫、史佩莱和那普出发了，他们好像对现在的处境并不慌乱。毫无疑问，这是因为他们对自己有信心。不过，需要说明的是，史密斯的信心基础和其他人的不一样，史密斯的信心来自于他认为在这片看似荒凉的土地上，一定会找到适合他们生存的必需品，而其他人的信心则来自于有史密斯。

特别是庞库那夫，自从“生火事件”后，他便没有什么值得悲观的事了，甚至觉得只要和史密斯在一起，哪怕是只有一块光秃秃的石头，也没什么可怕。

“哼！我们在没有官方许可的情况下就离开了里士满，这地方又没人阻拦我们，我们要是逃不出去，才怪呢！”他说。

根据昨晚史密斯的行走路线，他们沿着高地出发，绕过了矮一点的火山锥，向那巨大的火山洞口走去。天高气爽，太阳出现在万里无云的天空，照耀着整个东面山坡。

来到了火山口。火山口和史密斯昨晚在黑暗中辨认出的一样，是一个很大的漏斗形，越走越宽，从高地到顶端有1000英尺左右。洞口以下是厚而宽的熔岩，这些熔岩从山坡一直蜿蜒到了山下，由此可以看出当初岩浆流到低处山谷的路线。荒岛的北边，到处都是这样的凹沟。

火山口内部的斜坡度数在35°到40°之间，爬上这样的斜坡并不难。从这也能看出，熔岩是以前遗留下的，在新喷口还没喷发时又从山顶漫下来。

由于光线太暗，火山管的深度用肉眼无法观察，但可以看见，它是从底层通向火山口的。不过，能够确定的是，火山已经完全熄灭了。

史密斯和伙伴们到达火山口的顶峰，站在北边隆起的锥形小山丘上时，还不到早上八点。

“看，海，全是海！”他们禁不住喊道。从这句话也能看出，他们已经有当个孤岛居民的思想准备了。

是的，他们被无边无际的大海环绕着。史密斯刚刚在上来时还抱有希望，希望他昨晚因为天黑没有看清楚，希望这次看到的是海滨和岛岸。然而，在半径50多英里的范围内，除了汪洋大海，什么都看不到，没有陆地，甚至没有孤帆。

荒岛被一片辽阔的大海所包围，处在大海的中心。

他们就那么怔怔地呆望着，看了几分钟，看遍了所能看到的每一处，每一个边缘。庞库那夫的视力很好，经常能看到别人看不到的地方，如果水平线上有一片陆地，即使像水汽一样模糊，他也能看到，但他犹如望远镜般的眼睛，依然没看到任何东西。

看完海洋，他们又开始看山下的海岛。史佩莱第一个开口道：“这个岛有多大？”

确实，在无边无际的海洋面前，它很渺小。

史密斯想了想，又仔细看了看海岛的四周，再把他们所处的高度都考虑到后，他说：“朋友们，长度大约在100多英里。不会错，应该是这样！”

“面积有多少？”

“这很难说，地势不规则。”史密斯又说。

如果史密斯估算得不错，那么它的大小就和地中海的马尔他岛或赞德岛相似。不过，与那两座岛不同的是，它的形状更奇特和复杂，不管是海角、地岬、地角、港湾和河流，都比那两座岛少，它的形状很扁，且没有规则。

史佩莱根据史密斯描述的情况将海岛的轮廓画了出来，很快就看出了它形状的奇怪来——就像一只极大的海兽躺在了太平洋的水面上。

实际上，这座海岛的形状确实如此，史佩莱画得很准确。

了解了这座岛的形状，对他们有着很大的意义。

他们降落的地方在海岛的东部，这里形成了一个宽阔的港湾，而港湾的尽头正好是一个突出的海角。

庞库那夫第一次观察时，因为视线被隆起的地岬遮住，所以并没有看得很清楚。在东北方，有个港湾是被两个海角围住的，海角间还有一条长长的海峡，如同一只半张着嘴的蛟龙。

海岛的中间是火山。

东北和西北海岸形成了一个弧形，有点像动物扁平的头盖。由于海岸突起，所以在那里形成了一块高地。不过，这部分形状并不明显。

从隆起的那点开始，从南到北都比较平坦。沿岸的三分之二被一条细窄的小河隔开，海岸因此变成了像鳄鱼尾巴般的长长的一条。

这条尾巴伸向海里30多英尺，形成了一个半岛。半岛弯曲处又形成了可以停靠船只的宽阔海湾，这也是海岛的低海岸。

海岸最狭窄的地方就是“石窟”，它距纬度相同的西海岸小河，差不多有30英里左右。

海岛的内陆又是什么样的呢？南部海岸有很多树木；北部则多是沙丘，且非常干燥。

突然，史密斯和伙伴们发现了一个地方，那个地方位于火山和东部海滨之间，是条湖，沿湖生长着很多常青树。在这样的孤岛上发现这种树木，让他们很是惊讶。从他们所处的山顶看过去，湖面和海面一样高，史密斯大概估算了一下，湖面的高度在300英尺左右。湖在高地与海滨向上延伸的位置上。

“那是不是一条淡水湖？”庞库那夫问。

“是的，是条淡水湖，湖水是从山里流出来的。”史密斯说。

“快看！有条小河在向湖里流水。”赫伯特指着从西边流过来的一条狭长溪流说。

“没错，既然有小河在向湖里送水，那么可以肯定的是，靠海的地方一定有出口，回去时过去看看。”

这条曲折的小河以及前面提及的河流，都是这座孤岛上的水系，也是他们几个人能看到的。不过，整个海岛三分之二都被覆盖上了树木，形成了一片森林，所以这些河流很可能是从树底下流进海里的。甚至可以说，这一带温带草木很多。不过北部却看不见任何河流，所以东北部的沼泽地成了一潭死水。

当然，其余地方都是些沙丘和沙滩，和海岛上那茂密的树林比起来，沙丘和沙滩处显得那么突兀。

再一看他们才发现，海岛的正中央并非火山。火山矗立在西北部，所以也成了两个地带的分界线。火山支脉被绿荫遮盖的地方是西南、正南和东南。北边和那三方不同。山脉的分支很明显，一直延伸到沙地平原。

很明显，火山喷发时，大堆的熔岩正是向这边喷出的，所以才形成了东北港湾的峡口。

史密斯和伙伴们在山顶上足足待了一个小时，海岛就摆在他们面前，像一幅立体的彩色图画：绿的是森林，黄的是沙地，蓝的是水。除了被大树覆盖下的土地、塌陷的山谷和火山口的内壁，其他地方他们看得一清二楚。

还有一个非常重要的问题，一个能影响到他们前途的问题：

岛上有没有人居住？

问题是由史佩莱提出来的，但经过他们一番仔细观察，答案是：没有。

任何一个地方都没有开垦过的痕迹，没有房舍、小屋、渔场，甚至连证明有人家的轻烟都没有。

当然，还有几个地方就是庞库那夫看也看不出有没有住人。那个地方离他们最远，有近30英里，伸向了西南半岛。还有就是被森林覆盖的四分之三面积的土地，他们无法将上面覆盖的东西揭开，看下面有没有

稀疏的村舍。

不过总的来看，他们所处的地方就是太平洋的一个海岛，一个荒无人烟的海岛。

岛上到底有没有居民，他们还需要经过更彻底的搜索。还有一个问题他们无法回答，那就是这里是否经常或者偶尔有船只或土人来？

方圆50英里的地方看不到陆地，不管是马来人的帆船还是波利尼西亚人的独木舟，都是很难渡过50英里的。

现在还有几个问题：海岛靠近什么群岛？是不是孤零零地在太平洋上？没有仪器，能算出经纬度吗？看来这些都不容易办到。在没有了解这些情况前，他们只好假设附近有土人做些防备。

看完海岛，在确定了它的形状和地势，也算出了它的大小，查清了海岛上的山川河流，甚至森林和平原的分布情况后，史佩莱将它们一一画了出来，只等下山后，再从矿物质、动物及植物方面总结出这块土地的资源情况了。

即将下山时，史密斯用他那安详而沉稳的语调问大家：

“朋友们，上天将我们抛在了这样一片土地上，我们很可能要在这里长期生活。当然，如果正好有船只从这里经过，我们就会得救，但这种可能性太小了。这是个小岛，没有停船的港湾，所以很有可能，它位于一般船只的航线之外。也就是说，相对于来往太平洋各群岛的船只，我们太靠南了。对于绕过合恩角到澳洲的船只来说，我们又太过靠北了。总之，我们的处境不是很乐观……”

“亲爱的赛莱斯，你说得没错。”史佩莱大声说，“我们都是男子

汉，我们信任你，你也要信任大家。是不是这样，朋友们？”

“对！我完全听你指挥。”赫伯特首先抓住了史密斯的手。

“不管在什么地方，什么时候，你都是我的主人！”那普喊道。

“对我呢，不管您要我做什么，如果我‘哼’一声，我就不是杰克·庞库那夫。只要您愿意，就把它变成小美国！我们把这里建设成城市，铺铁路，打电线发电报.....如果有一天，这里不再是孤岛而是城市时，就把它交给联合政府。不过我还有个希望！”

“什么希望？”史佩莱问。

“我们不要当自己是遇难的人，要当自己是来开垦的移民！”

庞库那夫的话让史密斯笑了起来，大家一致同意庞库那夫的提议。最后，史密斯向大家表达谢意，谢谢大家对他的信任，还说一切都要靠大家共同努力。

“好了，我们现在回‘石窟’吧！”庞库那夫大声说。

“稍等一下，朋友们，我觉得我们是不是该给这个海岛，还有我们看到的海角、地岬和河流起个名字呢？”史密斯建议道。

“好想法，有个名字，我们叫起来就方便多了。”史佩莱说。

庞库那夫想了好一会儿才说：“在这段时间，有些地方好像已经有名字了.....”

“就像‘石窟’。”赫伯特说。

“对！这个名字叫起来很方便，也是无意间叫起来的，我们就把第一次过夜的地方叫‘石窟’吧，好吗？史密斯先生！”庞库那夫问。

“好！既然已经取了名字，庞库那夫，就叫它‘石窟’吧。”

“太好了！其他的也好起。”庞库那夫非常高兴，连连说，“赫伯特和我说过鲁滨孙的故事，要不我们模仿鲁滨孙起名字吧，比如说上帝湾、鲸鱼岬、伤心角什么的！”

“那还不如用史密斯先生的名字，史佩莱先生的名字，那普的名字.....”

“用我的名字？”那普笑得露出了雪白的牙齿。

“有什么不可以？如果叫那普港，不是很好听吗？还有基汀角.....”庞库那夫越说越兴奋。

“我觉得还是用国家的地名会好点，这样也就能提醒我们不要忘了我们的祖国。”史佩莱说。

“想法不错！这样，一些主要地方，我赞成用国家的地名来命名。”史密斯说完，想了一会儿又说：“比如我们可以把东边的大海湾叫联合湾，南边的大海湾叫华盛顿湾；还可以把我们站立的这座山叫富兰克林山，我们看到的那湖叫格兰特湖.....这样非常好。朋友们，我们用祖国的名字怀念祖国，纪念那些为国为民的人。对于从这座山顶上所看到的河流、海湾、海角和地岬，我们就根据它的形状命名，这样既好记也有地方特点。这海岛形状奇特，想一些能表现其特点的名字应该不会太难。还有那些有待我们去探索的地方，不管是森林、河流还是小溪，我们都可以随时根据它们的形状来命名，大家觉得怎么样？朋友们！”

史密斯的提议自然赢得了满堂喝彩。

此刻，海岛就像一幅地图摆在了大家面前，只等他们给起名字了。当史佩莱把这些名字标在他画的地图上时，海岛的地理名称也就完成了。

他们先确定了两个大海湾和一座高山的名字，就是根据史密斯的提议：两个海湾，一个叫联合湾，另一个叫华盛顿湾；高山就叫富兰克林山。

“我提议，海岛西北的那个半岛叫蛇盘半岛，半岛尾部很像尾巴，就叫甩尾角，行吗？”

“完全同意！”史密斯说。

“那么，”赫伯特用手指着海岛的另一端，“那海湾特别像个张着嘴巴的大鲨鱼，就叫鲨嘴湾好了。”

“太棒了！”庞库那夫拍手称好，接着又说，“嘴巴的上下部分如果叫颞角就更形象了。”

“可那有两个海角怎么办？”史佩莱说。

“没事，就叫上颞角和下颞角。”庞库那夫说。

“好的，我都记下来了。”史佩莱说。

“现在还剩荒岛东南端的海角了吧？”庞库那夫说。

“是说联合湾的尾部吗？”赫伯特问道。

“不如叫它兽爪角吧。”那普脱口而出，他也想让这块领地上有他命名的地方。

那普的这个名字取得非常好，因为那陆地部分确实像一只卧着的怪兽，海角正好处在怪兽的脚部。

事情进行到这里，庞库那夫非常满意。他们对于气球将他们降落到了那个淡水区，充满了感激，所以给那条小河取名感恩河，着陆的岛叫着陆岛；“石窟”上方高耸着的那块花岗石峭壁，因为站在上面能看到整个海湾，所以取名叫观望壁。

最后，他们又将蛇盘半岛上的森林取名为西遥森林。

能看见的所有地方都已被他们取好了名字，对于以后再发现的地方，他们还会随时命名。

取完名，史密斯通过太阳的高度和方向又做了方位测定，确定正东是联合湾和观望壁；通过日出日落时间和中午时分太阳的位置，他又确定了海岛的正北方向。因为海岛方向处于南半球位置，所以当太阳在正午时，经过的就是北方而不是南方，跟在北半球时看到的不一样。

当所有的工作做完后，就在大家准备下富兰克林山，回“石窟”时，庞库那夫叫了起来：

“我们真是太傻了！”

“怎么回事？”史佩莱有些不解，因为他已经合上笔记本打算走了。

“我们忘了给我们所在的岛取名字了！”

赫伯特想提议用史密斯的名字命名，他想，伙伴们一定会同意的，可还没等他说，史密斯便说：

“朋友们，不如用一个伟人的名字来命名吧。这个人为了美利坚合众国的统一一直在战斗，我们就给这个岛取名林肯岛吧！”

大家兴奋至极，连呼三声，很喜欢史密斯的这个提议。

这天晚上睡觉前，这群林肯岛的新移民聊了很久：他们聊到了祖国，聊到了可怕的战争，聊到了格兰特将军和林肯，聊到了北军的事业……他们相信，正义的事业一定会胜利。

这一天是1865年3月30日。

他们没有想到，就在他们聊过后的第16天，在一个星期五，华盛顿发生了一件可怕的阴谋，那就是，一位暴徒夺走了亚伯拉罕·林肯的生命……

第十二章

林肯岛的新移民经过火山口，绕过火山锥，用了将近半个小时回到了他们昨晚过夜的高地。庞库那夫觉得差不多到了平时该吃早饭的时间了，便让史佩莱和史密斯把表对了一下。

史佩莱的表是个精良的怀表，每天都不会忘记小心地上发条，而史密斯的表在他流落沙丘上时就停了。

史密斯将他的表上足了发条，根据太阳的高度确定了应该是早晨九点钟，将表对在了这个时间上。

史佩莱准备调整自己的表的时间，却被史密斯拦住了：“亲爱的史佩莱，先等一下，你的表是里士满的时间对吗？”

“是的，赛莱斯。”

“也就是说，你表上的时间是根据里士满的子午线确定的。里士满和华盛顿的子午线几乎一样，是这样吗？”

“没错，是这样的。”

“那好，你每天记住给它上发条，不要拨动表上的针。记住，这可能对我们有用。”

“这会有什么用呢？”庞库那夫暗自想。

在高地上，他们痛痛快快地吃了一顿，将剩下的野味和松子全都吃掉了。对于没有吃的东西，庞库那夫可一点都不发愁，因为一路上他们都有找到吃的东西的机会。只要给多卜一份符合它胃口的食物，它便能在灌木丛中找到新鲜的野味。庞库那夫还计划让史密斯为他做一两支猎枪和一些火药，这些，他觉得史密斯很容易就能办到。

从高地下下来后，史密斯提议重新选一条路回“石窟”，他想去看看格兰特湖，因为格兰特湖被树木环绕，非常美丽。

于是，他们沿着格兰特湖的发源地——那条支脉的山脊走。在这些新移民的嘴里，他们已经很熟练地用上了新地名，而这些新地名的使用，也极大地方便了他们的相互表达。特别是年轻的赫伯特和庞库那

夫，他们几乎对这些名字着了迷，一路上都在议论，庞库那夫说：

“赫伯特，这些名字听起来棒极了！我们以后不用再担心走丢了。孩子，不管是朝着格兰特湖走，还是沿着感恩河穿越西遥森林，我们都能走到观望壁去，还可以到联合湾！”

庞库那夫的一番话赢得了大家的赞许。不过即使不怕走丢，他们还是相互等着，一起前行。因为这片密林里，很可能会有猛兽。为了谨慎起见，他们必须多加防范。

通常，领路的总是多卜，不过多卜时不时地要去丛林钻一钻，所以多卜后面的庞库那夫、赫伯特和那普就成了领路人。走在最后面的是史密斯和史佩莱，他们总是并肩前行。

史佩莱随时需要记录发生的事，而史密斯则很少说话，时不时会拣一些东西放进口袋，这些东西要么是矿物质，要么就是植物。

“他总在拣什么？我从来没发现有什么值得拣的东西。”庞库那夫喃喃道。

差不多十点钟的时候，一行人走下富兰克林山，到了大约一英里远的黄色石灰质地的平原。这里树木稀疏，一直延伸到森林边缘。

这里有块很大的玄武岩——据比萨克普学说讲，这样的岩石冷却需要3.5亿万年。这些岩石分布在平原各处，而且分布得很不规则。不过令他们奇怪的是，山坡上特有的一些熔岩，这里却没有。

史密斯本来以为小河的发源地在森林和平原交叉处，不出任何意外就能到达小河源头，不料见赫伯特急急忙忙地跑了过来，那普和庞库那夫则躲在了一块岩石后。

“发生了什么事了？孩子！”史佩莱问。

“我们看到烟了，离我们一百步远的石头丛里有烟！”赫伯特说。

“难道这里有人？”史佩莱喊道。

“在不知道对方来历的情况下，我们绝不能暴露自己。我认为岛上不会有土人的，我怕遇见他们。对了，多卜呢？去什么地方了？”

“多卜在前面。”

“它就没叫吗？”

“没有。”

“那太奇怪了！想办法叫它回来。”

不一会儿，史密斯、史佩莱和赫伯特，以及其他两个人都聚在了一起，他们全都躲在了玄武岩的石堆后面。

结果，他们全都清楚地看到有一缕黄烟升上了天空。

史密斯轻轻一吹口哨，多卜便跑了回来。史密斯向其他人做了个手势，让他们等着，然后一个人从岩石后溜了出去。其他人一动不动地等待着，等得不耐烦起来。

这时，他们突然听到了史密斯的喊叫声，便急忙冲了过去。等到了史密斯面前，才闻到空气中弥漫着刺鼻的臭气。

在史密斯刚刚看到烟的时候，也吃了一惊，不过很快他就猜到了这

股烟的来历，因为这气味太好辨别了。

“这股烟是自然界产生的，那里有硫黄泉，如果我们咽喉痛，倒可以用它来治。”史密斯说。

“史密斯先生，可惜我没伤风！”庞库那夫说。

于是，几个人一起向浓烟上升的地方走去。果然，他们看见有硫黄泉从一个岩石之间的缝隙里涌了出来。当硫黄泉吸收了空气中的氧气后，空中便散发出了强烈的硫酸味。

史密斯将手伸到硫黄泉里，顿时觉得泉水滑腻腻的。他轻轻尝了一下，发现味道特别甜，而这硫黄泉的水温估计也在36℃左右。

赫伯特问他是怎么算出水温的。

史密斯说：“孩子，非常简单，当我把手伸到泉水里面后，既没有觉得它烫，也没有觉得它凉。这就说明它和我们人体的温度差不多，而我们人的体温就在36℃左右。”

由于这些硫黄泉对他们这些新移民来说没有什么实际用途，他们便朝几百步以外的森林边缘走去了。

走到森林边缘，正如他们想象的那样，河水从这里流出，非常清澈。河岸非常高，两岸全是红土，红土里含有氧化铁，所以他们即刻将小河命名为红河。

当然，说它是小河并不准确，它实际上是条大河，河水既深又清，是由山涧的水汇合而成，既有河水的舒缓，又有大海的激烈，安静时如潺潺流水，激烈时又拼命冲击岩石，有时甚至还会从高处直泻而下，形

成一道瀑布。

这条河与格兰特湖的距离有一英里半左右，河宽30到40英尺，是一条淡水河。想必格兰特湖里的水也是淡水。

若能在湖边找个居住地，应该比“石窟”理想很多。

河水在朝几百英尺外的方向流，两岸又都被一些树木遮盖着。这些树木不是他们在离观望壁几英里之外的地方看到的松柏科，而是美国和塔斯马尼亚温带地区的品种。

虽然正值四月初，但在这里却相当于北半球的十月，算是初秋，所以树木的枝叶依然很茂盛。树林中的树木除了桉树还有桉树，还有一种树到第二年才能长出一种香甜的甘露蜜。这种甘露蜜和东方的甘露蜜差不多。

在一些倾斜的河岸上还生长着澳洲杉以及一种比较高的草，这种草在荷兰被称为“觚草”。不过，他们最想要的就是太平洋各群岛都盛产的椰子树，这里却没有。原因很简单，这里纬度太低。

“太可惜了！椰子树用处很多，果实也好吃！”

树林里聚集着很多飞鸟，主要集中在桉树和桉树的树杈间。不过，由于枝杈间太过稀疏，完全不能遮住它们的翅膀，所以很容易就让一行人认出里面有着黑、白、灰色鸟冠的鹦鹉，还有五颜六色的长尾鹦鹉，以及浑身闪耀着绿色光泽的红头鹦鹉和蓝鹦鹉等等。除了各种鹦鹉外，他们还看到了各种颜色的飞禽，这些飞禽聚在一起，形成了一个万花筒。它们一边拍打翅膀，一边叽叽喳喳地乱叫，嘈杂的声音能把人的耳朵吵聋。

突然，丛林中出现了一些奇怪的声音，这些声音混杂在一起，像是在举办一场奇怪的合奏。居民们不仅听到了鸟叫声、野兽吼声，好像还听到了一种像是土著人嘴里发出的声音。

听到这些怪异的声响，那普和赫伯特忘了“必须小心谨慎”的原则，向灌木丛中冲去。不过，他们并没有看见凶猛的野兽或是可怕的土著人，而是看见了六只善于模仿各种叫声的鸟，那就是山雉。

仅仅只用一根棍子，他们便准确地将合奏中断，随即便有了打牙祭的食物，他们又可以吃上一顿美味的晚餐了。

赫伯特还发现了一些长着青铜色翅膀的鸽子，它们浑身碧绿，有着华丽的冠，有些则像麦加利港的鸽子。不过，想要捉住这些鸽子并不容易，除了这些鸽子难捉，还有成群的乌鸦和喜鹊同样难捉。

当然，如果他们有猎枪，肯定一枪就能打死一大群。可这些“猎人们”的武器只有石头和棍子，这些原始的武器根本无法满足他们打猎的需要。

森林里，他们还看到了在丛林中上蹿下跳的动物，这些动物跳得很高，一跃能有30英尺，称它们为“飞兽”绝不夸张。跳得既高又快的它们，个个就像松鼠一样，不停地从一棵树跳到另一棵树，“猎人”们的武器更显得不中用了。

“看，袋鼠！”赫伯特大声喊。

“好吃吗？”庞库那夫问道。

“你是说袋鼠肉吗？”史佩莱问，“如果炖得好的话，比最好的腊味还好吃！”

史佩莱的这句话极具诱惑力，所以话音刚落，庞库那夫就带着那普和赫伯特冲着袋鼠去了，史密斯想喊他们回来，可已经来不及了。

不过，袋鼠是灵敏的动物，在看到人来后，它们立刻像皮球一样弹着走了，速度非常快，“猎人”怎么追赶都是白搭。在气喘吁吁地追赶了五分钟后，袋鼠钻进森林不见了，就连多卜也对那些袋鼠感到无奈。

庞库那夫他们悻悻然地回来了，见了史密斯和史佩莱后说：“史密斯先生，我说吧，咱们一定要造几支猎枪才行，你说能不能造？”

“也许可以。我想，我们第一步还是先制造一些弓箭吧，我想你对弓箭的使用，一定会和澳洲的猎人一样熟练的。”

“弓箭？”庞库那夫有些不屑，“那不是小孩子才玩的吗？”

“你可不要小看它，我的庞库那夫先生。”史佩莱说，“很多世纪以来，弓箭制造了多少流血事件？火药可是不久以前才有的，而战争却是有了人类就有的！”

“也对，史佩莱先生，我说话向来不加思考，请原谅。”庞库那夫说。

一向对博物学感兴趣的赫伯特此时又将袋鼠的话题引了出来：

“我们想要对付的袋鼠是一种大袋鼠，是最难捉的一种，长着灰色的长毛；如果我没有记错的话，还有黑袋鼠和红袋鼠、岩石袋鼠和鼯，这些袋鼠捉起来就相对容易一些。袋鼠据统计有12种……”

赫伯特话没说完便被庞库那夫打断了：“赫伯特，对我来说，袋鼠

就有一种，那就是‘肉叉上的袋鼠’，可惜我们今天没捉住！”

大家在听了庞库那夫的新分类后，都禁不住大笑起来。

没有其他野味，晚上也只能吃山雉了。庞库那夫掩饰不住心中的遗憾，不过很快他们就遇到了一件好事。

多卜为了填饱肚子，开始四处搜索，正饿着的它，嗅觉异常灵敏。如果真让多卜自己去打猎的话，它很可能不管什么野味，只要在它的爪子下，都会进入它的肚子，不给“猎人们”留。不过，它现在有那普监视，所以只能老老实实在地听从“猎人们”指挥。

差不多三点钟的时候，大家发觉多卜钻进灌木丛好久都没有出来，最后，“猎人们”听到了它低低的咆哮，他们知道，多卜一定是和什么动物在撕咬。那普冲了进去，看到多卜正在拼命吞食一只小动物。那普要是再晚十秒钟，小动物就被它全吃下去了。幸好多卜攻击的不是一只而是一窝，除了它吃掉的，还有两只啮齿动物在草地上。

那普一手提着一只胜利而归。这些动物的毛色是黄色夹杂绿色斑点，个头比兔子大一些，尾巴非常短。

这是什么动物并没有难倒这些美国公民，他们认出这是刺鼠的一种，叫“莫拉”，是一种比美国常见的兔子稍大一些的动物，长着像兔子一样的长耳朵。和刺鼠不同的是，它们的嘴里长着五颗臼齿。

“哈哈……太好了！有烤肉了，我们可以回家了！”庞库那夫高兴地大喊。

在稍作停顿后，他们又开始往前走。高大的橡胶树和怪柳，在山间形成了一个拱门，红河里清澈的水从拱门下流过。旁边有高达20英尺的

丁香树以及自然学家都叫不出名字的树木。这些树木全都低垂在小河上，而绿荫下的河水也正发出潺潺的声响。

这里的红河河面比其他地方宽，史密斯估计他们很快就要到达河口了。果不其然，当他们穿过美丽的密林时，发现已经到了红河的尽头。

新移民就这样到了格兰特湖的西岸。这里景色宜人，湖周围7英里处，长着各种树木，树木面积达到了250英亩左右。东边的湖岸上有几处较高的地方满眼翠绿，透过这些苍翠屏障，他们能看到海洋在阳光下闪闪发光。北边的湖岸显得有些曲径通幽，和南边峻峭的轮廓形成了鲜明的对比。

小小的湖畔有许多水禽在栖息，离南岸几百英尺的湖面上露出了很多岩石，有些像安大略湖里的“千岛”。湖畔上有几对翠鸟一动不动地停在石头上，静等游鱼到来。只要发现游鱼，它们便会在发出一声尖叫的同时钻进水底，随即将“目标”衔出水面。

湖岸上非常热闹。水禽在那里旁若无人地行走，品种有很多，有野鸭、塘鹅、水鸡、红嘴鸟……还有舌头像刷子一样的水鸟，它们和一两只美丽的琴鸟张开鲜艳的尾巴，非常欢快。

这是一个清澈无比的淡水湖，湖水颜色很深，水面上不时有水泡泛出，涟漪在湖面上一圈一圈地荡漾着，最后又彼此融汇在一起，非常漂亮。由此也可以知道，湖里有很多鱼。

“这里太美了！如果能住在这一带就好了。”史佩莱说。

“我们一定会住在这里的！”史密斯肯定地说。

他们决定选择一条最近的路回“石窟”，于是便从湖岸的南边拐了过

去。

这里有很多灌木和丛林，想必没有人在此走过，所以想在这儿开一条路并不容易。即使这样，他们还是决定从这里走，一直走到观望壁北边。

就这样，他们披荆斩棘地前进了两英里，等到穿过最后一带树丛后，高地便呈现在了他们面前。那是铺着厚厚绿茵的高地，再往前走就是一望无际的海洋了。

若想回“石窟”，他们必须斜穿高地走一英里，然后再往下走，直到感恩河的第一个拐角。不过，史密斯想了解一下湖水涨满后会从哪里泄出以及如何泄出，所以他们又穿过树丛，继续向北前行了一英里半。他们想，那里应该有从花岗石缝倾泻而下的瀑布。

简单地说，这里很可能是这个湖的中心位置，当小河的流水将它灌满后，它就形成瀑布流向了大海。如果真是这样，史密斯便能利用瀑布落差的力量了。

他绝不会让这股力量白白浪费掉的。

他们继续沿着格兰特湖向高地前行。不过，在他们朝这个方向走了一英里后，却没发现那必然存在的瀑布。

此时已经是下午四点半了，他们还要准备晚餐，所以必须回去了。于是，这队人马重又折回原路，沿感恩河的左岸回到了“石窟”。

火很快被他们生了起来，一直负责烹饪的那普和庞库那夫都有很好的手艺，他们很快就烤好了刺鼠肉，敞开肚皮饱餐了一顿。

吃完晚饭，大家正要睡觉，史密斯突然从口袋里取出几块完全不同的矿石，简单地说：“朋友们，这里有铁矿石、黄铁矿石；还有陶土、石灰石、煤……总之，自然界给了我们这么多好东西，就看我们怎么利用了。明天就开始工作吧！”

第十三章

第二天一早，庞库那夫问史密斯：“史密斯先生，我们该从哪儿做起？”

“从第一步做起！”史密斯答道。

确实，他们必须从“第一步”做起。一直到现在，他们连最基本的工具都没有，又无法做到“慢慢来，有的是时间”。他们没有时间，他们最紧要的工作是制造出日常生活中必须用到的工具。

想起来，他们原本可以不用自己摸索创造的，因为有前辈的经验在那里，但他们还是要亲自动手做。因为他们所需要的钢和铁还在矿石状态，陶器也还在陶土里，布匹和衣服的纺织原料都在未知中。

不过，有一点他们很清楚，那就是孤岛上的居民是万物之灵的“人”，他们中不仅有史密斯这样的优秀工程师，而且还有一伙聪明热情的帮手。史密斯知道伙伴们都具备什么样的特长。

史佩莱是个对什么都有自己的独到见解，见多识广的记者。他善于学习，对于开拓这样的孤岛，他灵活的头脑和灵巧的双手一定能发挥作

用。同时，他还有着在任何困难面前不退缩的执着精神，更是个酷爱打猎的好猎手，所以现在他必须把爱好变成职业。

赫伯特有着非常丰富的自然学科知识，同时还是个善良勇敢的孩子，在他们共同的事业中，他一定会发挥出自己的能力。

那普聪明机智，刚强健壮，是热诚的化身。他不仅有着钢铁般的身体，而且还懂打铁常识，这对他们的创业也大有好处。

对于庞库那夫，他不仅航行过各个海洋，而且还在布鲁克林造船厂当过木匠，并在另一些船上学习过裁缝，假期里还去当过园丁、园艺师、农民等。总之，庞库那夫和所有的水手一样，样样都能干，样样都能干好。

五个勇于向命运挑战的人，对成功有着必胜的把握。此刻，这些人聚集在一起，想不成功都难。

史密斯已经说了，他们要从第一步做起，而这第一步就是制造一些日常工具，一些可以改变大自然的工具有。大家也都知道，想要制造工具，必须有大量的热能。热能从何而来？当然是燃料。在这个荒岛上，木柴和煤炭随处可见，他们需要做的仅仅是有个炉子。

“用炉子做什么？”庞库那夫问。

“我们要做的陶器就需要用炉子来烧。”史密斯说。

“那要用什么来做炉子呢？”

“当然是砖头！”

“砖头又要从哪里来呢？”

“我们可以用陶土做砖头。现在开始吧，朋友们。为了节约时间，我们可以把原料产地开辟成工厂，让那普为我们送吃的东西。那里有的是火，还可以烹调。”

“可是，没有武器打猎，我们吃什么呢？”史佩莱说。

“是呀，如果能有一把刀就好了！”庞库那夫说。

“什么意思？”史密斯问。

“如果能有一把刀，我就可以做一副弓箭，这样我们也就有野味吃了。”

“嗯，是这样！一把刀，一把锋利的刀……”史密斯自言自语道。

此时，史密斯的眼神盯上了正向岸边跑的多卜，他很快有了主意。

“多卜，快过来！”史密斯叫着。

多卜听到主人叫它，飞快地跑了过来。史密斯用双肘夹住它的头，将它脖子上的一个套环解了下来，然后将其折成两段，大声说：“这就是两把刀，庞库那夫，满意吗？”

庞库那夫兴奋起来，大声欢呼。原来，多卜脖子上的套环正是用薄薄的钢片做成的，只要在沙石上给它开个口，然后再在石头上磨快就行了。沙石海滩上有很多，他们不用费心去找。

很快，只用了两个小时，钢片就磨好了。当装上结实的刀柄后，两把锋利的刀就做成了。

这是他们制作的首批工具，两把刀的成型让他们欢呼起来。这确实是他们辛劳后的成果。随后，他们又出发了，去了史密斯建议的格兰特湖西岸，来到了他们昨天注意到的陶土地，并捡了一些作为标本带回来。

随后，他们又沿着感恩河，从观望壁穿过，走了5英里多路来到了林间空地，此地离格兰特湖还有约200英尺。

在这里，赫伯特发现了一种树木。这种树属于棕榈科，又叫可留金芭树，虽然果实不能吃，但它的树枝，却是南美洲的印第安人做弓箭时必备的材料。

他们砍了一些又长又直的树枝，捋去树叶后，将它的两头削细。这样一来，他们只需再找一种适合做弦的柳条就行了。最后，他们又找到了一棵木槿树，这种树有结实的纤维，足以和动物的筋腱相比。

有了弓，只差箭了。箭杆很容易做，只需用硬且直，没有节的一些枝条就可以了。然而箭头用什么来做呢？铁的代用品是很难找到的，没办法，庞库那夫只能尽最大努力，碰机会寻找可以替代铁的东西了。

在为制砖做准备时，他们到了前一天发现陶土的地方。那里陶土遍地都是，用陶土制砖瓦非常合适，而且这项工作并不难，只需用沙子过滤净陶土中的杂质，做成砖头，花些时间烧就行了。

砖坯需要用模子压出来，可史密斯还是决定用手来做。

做这项工作，整整用去了他们两天的时间。具体做法是：把陶土浸在水里，调好，然后将它们分成一小块一小块。如果是熟练的工人，即使不用工具，12小时也可以做1万块左右。但林肯岛上的这五名制砖“工

人”，两天做了将近3000块。

在做好这一块块的砖后，他们又将其做成砖坯，并一块接一块地摆放在一起，等烧个三四天后，就可以用它们来砌炉子了。

4月2日，史密斯将海岛的方向测了出来，也就是说，他找出了日出的确切方位。

他在前一天先将太阳落到水平线下的时间精确地记录了下来，同时还考虑到了折射差。等到第二天早上，他又用同样的方法，记下了太阳升起的时间，最后就得出了日出到日落所需的时间——12小时24分。

由此得出结论：日出6小时20分后，这一天的太阳正好在天空的正北处，并通过子午线。

史密斯把这些结论全都记了下来，并找出了和太阳连成一条直线的两棵树，这两棵树也就帮助他确定了方位。在他一个人默默地将一切都做好后，他又找出了当地永恒的子午线。

在将炉子做好的两天前，他们就已经将林间空地上的树枝全部砍了下来，并捡回了所有掉在树下的枯枝，以此作为他们烧砖和生活所需的燃料。在收集燃料期间，因为有了弓箭，庞库那夫打猎也顺利了很多。而他能够得到箭头，也要归功于多卜。

多卜猎回了一头豪猪。这头豪猪的肉并不鲜美，但它身上的硬刺对他们来说却非常宝贵。于是，他们将这硬刺装在了箭头上，再加上一些有着美丽冠子的鹦鹉羽毛，漂亮的箭就做成了。

史佩莱和赫伯特学箭术很快，没多长时间就成了技术娴熟的神箭手。此后，“石窟”里便开始存储大量野味了，比如水豚、鸽子、刺鼠、

松鸡等等。这些野味大多是他们在感恩河左岸的森林里打来的。

由于庞库那夫和赫伯特第一次来这里时，曾追逐过一只啄木鸟，所以他们将这片森林命名为啄木鸟林。

这些野味他们大多选择新鲜着吃，但还有一些比如水豚腿之类的食物，他们会用清香的树叶裹上，用柴火反复熏烤，然后挂起来。等炉子和锅造好后，他们就能用熏烤好的水豚腿来熬汤了。

刚开始打猎的时候，他们并没有离开制砖厂多远。有一次，他们在打猎途中发现了一些大动物新近留下的足迹，脚爪非常有力。不过，他们认不出这属于哪一类野兽。

在得知森林里很可能有猛兽后，史密斯便提醒大家一定要小心谨慎。

他的提醒果然及时。有一天，史佩莱和赫伯特看见一只很像美洲豹的野兽。幸好那野兽没有扑过来，不然即使他们能够侥幸逃脱，也难免受重伤。

史佩莱下定决心，如果有了正式武器，比如庞库那夫要的枪，那么他一定会和这野兽较量，并把荒岛上的野兽全部消灭光。

在这些天的时间里，他们并没有去修整“石窟”，因为史密斯一直希望找到另一个更方便的住所，甚至他还想着要自己建一座住所。所以在“石窟”里，他们只是暂时性地在通道铺了一些地苔和枯叶，以便工作疲倦时休息，并没有做长远的打算。

在把林肯岛上居住的时间又算了一下后，他们开始每天记日志。

4月5日是个星期三，算下来，他们被风暴从气球上抛到这里已经有12天了。

4月6日，天刚破晓，史密斯和他的伙伴便开始在林间空地集合，他们要开始烧砖工作了。烧砖不在窑里，而是在露天下进行。

那些凝固的砖坯被他们砌成了一个大大的窑。他们把捆好的木柴放在地上，然后把晒干的砖坯一排排地围在木柴外面，很快就围成了一个正方形。在这正方形的外层，他们又开了几个通气孔。这工作他们整整做了一天，直到傍晚时，才开始在柴捆上点火。

这天晚上，为了不让火熄灭，每个人都没有睡觉，小心地照顾着。

整个烧砖工作持续了48个小时，结果不错，达到了他们的预期效果。随后，他们又将这些发烫的半成品冷却起来。在这期间，那普和庞库那夫也被史密斯带到了湖的北边，用一个树枝编的筐子，将那里的石灰石和一些普通石头运了回来，在经过一番加热后，将它们分解成了浓度很强的生石灰。

这些生石灰经过沸化后，体积有了很大膨胀，质地也纯粹了很多，和用白垩或碳酸钙烧成的完全一样。等到他们把石灰和细沙搅拌在一起后，也就成了上等的灰泥。

在做好这些准备工作后的4月9日，史密斯所需要的熟石灰和几千块砖头就全都有了。

他们马上着手砌窑，焙烧他们日常生活中绝不能缺的陶器。这个焙烧过程很顺利，五天后，窑里就烧起了煤。这煤也是史密斯在红河口一带发现的。当第一缕烟从20英尺的烟囱上升起来后，这块地方瞬间变成

了一个小作坊。庞库那夫甚至觉得任何现代化的工业品，都会从这个小作坊里做出来。

是的，看起来，这并不是天方夜谭。

在这土窑里，他们最先制造出烹调用的陶罐。由于主要原料是陶土，史密斯便在里面加了一些石灰和石英，使其混合成为正式的“管土”。随后，他们又找了一些石头做模子，用陶土做成饭碗和茶杯，另外还做了盛水的大壶等等。

虽然这些陶器看起来并不美观，甚至可以说丑陋笨重，但经过高温焙烧后，瞬间就不一样了。

“石窟”的厨房增添了很多厨房用品，这些谈不上精美的器皿在他们眼里和那上了釉的精美瓷器一样珍贵。

有必要说一下，庞库那夫为了知道这些陶土算不算得上是“管土”，甚至还做了几只大烟斗，结果让他非常满意。不过，令他有些遗憾的是没有烟叶，所以他有些懊恼，但却也抱着希望，不断地重复着：

“我就不信了，别的可以找到，烟草也是一定能找到的。”

烧制器皿的工作一直延续到4月15日。在这期间，他们没有浪费一点点时间。五位孤岛新移民瞬间全都变成了陶土匠，整天做着陶器。而是否要成为铁匠，也要等史密斯发出新指令，让他们做铁匠活时才行。

第二天是星期日，也是复活节，大家提议放一天假。

4月15日的晚上，制作好的陶器被他们运回了“石窟”，炉子也被暂时熄灭，以备需要时再用。

回家的时候，他们遇到了一件让他们值得庆幸的事，那就是史密斯发现了一种从多孔菌科的植物上取得的海绵状柔软菌肉。这些菌肉在经过适当加工后，再沾上一些火药，或在硝酸盐、氯化钾溶液中煮沸，就极其容易燃烧，所以这也成了火绒的最佳替代品。

之前，他们曾多次寻找，都没有找到一种可以代用的食用菌，也没有找到这种多孔菌。那天，当史密斯看到这些苦艾、薄荷和茵陈蒿等植物后，便采集好递给庞库那夫：“拿去吧，庞库那夫，这下你可高兴了。”

庞库那夫仔仔细细地看着，发现这种植物的叶子上布满了软毛，也有很多长须，便问：“这些是什么，史密斯先生？它们是烟草吗？”庞库那夫问。

“不，这是一种苦艾，学者们又把它叫作中国艾，我们可以用它替代火绒。”

具体做法是，当这种叫苦艾的植物干燥到一定程度后，将其放在硝酸盐溶液里浸透，便可以成为非常易燃的引火材料了。至于硝酸盐，岛上多得是它的原材料——硝石。

这天，因为有了陶罐，岛上新移民吃了一顿丰盛的晚餐：除了那普炖的刺鼠肉汤外，还有一只熏水豚腿。在这熏水豚腿中，那普还加上了一些他已经煮熟的“贝母属”块茎。

“贝母属”块茎属于一种草本植物，营养美味，吃起来很有英国面包的感觉。这也填补了他们没有面包吃的遗憾。

吃过晚饭后，史密斯和伙伴们相约去海滩散步。此时正是晚上八点

钟，海滩上的夜色非常美。由于是满月后的第五天，月亮还没有升起来。不过，水平线上已经有了一片柔和的银白色光芒。

这应该算是月亮的“曙光”了。南边的天顶上，周极星在闪闪发光，最明显的就是南十字座。

几天前，史密斯在富兰克林山上也曾看到过它。

面对这美丽的星座，史密斯看了很久，他发现这星座的上下两端各有一颗一等星，左边是一颗二等星，右边则是一颗三等星。

他想了好几分钟后，问赫伯特：“赫伯特，今天是不是4月15日？”

赫伯特说：“是的，史密斯先生。”

史密斯点了点头，缓缓地说：“在这一年当中，有四天的实际时间和平均时间完全相等。如果我没有记错的话，其中的一天是明天。可以说，孩子，在明天的十二点整，太阳会在几秒钟内经过子午线。明天的天气如果好的话，我们就能够大体推算出海岛的经度，即使有误差也相差不了几度。”

“不用六分仪也行吗？”史佩莱问。

“可以！而且今晚月色明亮，我现在就能算出南十字座的高度。由此可以根据水平线上的天极，将纬度算出来。你们要知道，朋友，在我们没有得到精确方位之前，是不可能完全肯定这是一片孤岛的，所以我们必须精确地知道这座岛和美洲、大洋洲或太平洋主要群岛的距离。”

“确实是这样的，如果我们离有人居住的海岸不到100英里，我们就可以造一只船。那时候造船可比造一所房子有用多了。”史佩莱说。

“因此，我必须在今晚算出林肯岛的纬度来，这样明天中午就能知道经度了。”

之后，史密斯回到了“石窟”。在火光下，他削了两把小平板尺，然后将两个小平板尺的一端连起来，做成了一副圆规。圆规的两只脚既能分开，又能合起。

连接板尺两端的是结实的橡胶树，是从柴堆里找来的，并用刺将它们钉在了一起。

仪器做好了，史密斯又重回海滩。然而，想要测出天极的高度，必须在没有云的水平线上测量，可如果要在海面上测量，那么南方的水平线又被兽爪角挡住了，所以他必须找到一个合适的测量点。

最理想的地方当然是正对南方的海岸，不过要在那里测量很费事，需要渡过感恩河。

最后，史密斯决定在观望壁上测量。当然，他首先考虑到了高地的海拔高度，所以打算第二天用几何学原理，把高地的高度求出来。就这样，林肯岛的居民们爬上了感恩河的左岸，站在了西北到东南沿海一带的高地边缘，那里有很多稀奇古怪的石头。

这一带的前方是感恩河左岸的山冈，山冈一直向兽爪角的尽头和荒岛南部倾斜。他们由此看过去时，初升的月亮照亮了南边的水平线，在天空的映衬下，水平线显得非常清晰。由于没有遮挡物，他们便将兽爪角到甩尾角的整个半圆形水平线看得一清二楚。

此时，在他们面前，南十字座出现了，十字架二也便倒置在了离南极较远的星座底部。

这个星座离南极比北极星离北极远，十字架二大约也在距南极 27° 的方位上，史密斯完全清楚这一点，所以计算时也将这个角度估算了进去。当十字架二经过正对南极的子午线时，他再观察，也就容易多了。

测量开始，史密斯把圆规的一只脚对着水平线，另一只脚对着十字架二，这样的话，两只圆规脚间的距离，也就形成了十字架二和水平线之间的角距。为了将所得角度固定下来，他用树木的刺将一根木条横钉在圆规的两只脚上。就这样，两者之间的角度也就适当地保留了下来。

当这些工作做完后，他要做的就是计算角度了。不过在做下一步工作之前，他必须将水平线的俯角考虑进去，所以必须再去海平面上观察，测量峭壁的高度。

当有了上述的角度后，他就能得出十字架二的高度了，并且能得出天极在水平线上的高度。因为地球上任何一个地方的纬度相当于当地天极在水平线上的高度，所以海岛的纬度也就出来了。

当天晚上的工作大体完成了，其他计算要等到第二天。夜里十点钟的时候，躺在“石窟”里的新移民在这个从陌生到熟悉的岛上睡熟了……

第十四章

4月16日是个星期日。这天正好是复活节，新移民们天刚一亮就从“石窟”里出来洗衣服了。

史密斯决定制造一些肥皂，在尽快找到小苏打或钾碱、脂肪或油料

后就开始行动。对于做新衣服，在此时也是一件很重要的事，但并非两三句话就能说清，所以他们想找个适当的时间地点再讨论。

他们身上穿的衣服质量不错，就是天天劳动磨损，也足以维持半年。目前他们急着观察海岛附近有没有住着人的陆地。如果今天天气好，他们很快就能知道了。

当水平线上升起太阳时，新移民知道，今天是个大晴天。

太阳带着美丽的光晕，在这秋日的早晨让他们感到了温暖。这是一个离别的季节，但这秋日太阳的出现，消除了他们的感伤。

他们要完成昨晚没有结束的观察：测量峭壁的海拔。

“不使用昨天晚上用的那种圆规行吗？”赫伯特问史密斯。

“可以的，孩子，现在我们要换一种测量方法，不过还是要像昨晚一样准确。”

赫伯特向来不放过任何一个学习的机会，所以他要跟着史密斯去海滨，庞库那夫和史佩莱及那普则留在了原地做其他事。

史密斯提前准备了一根笔直的木杆，对于自己的身高非常清楚的他，对比着自己的身高，算出了木杆的长度：12英尺。

赫伯特拿着的是史密斯交给他的，用柔韧的植物纤维做成的垂线，垂线的一头系着一块石头。当他们来到离海边约20英尺，离峭壁500英尺的地方时，史密斯将木杆小心地插进了两英尺深的沙地里，他要利用垂线让木杆和地面保持垂直。

做好准备工作，史密斯退后几步，趴在了沙滩上，这样他就能看到木杆的顶端和峭壁的上沿了。当他用小棍在观察点处仔细地做了记号后，便对赫伯特说：“几何学的基本原理你知道吗？”

“知道得很少，史密斯先生。”赫伯特很谦虚，不想在史密斯面前表现自己。

“相似的两个三角形需要具备什么条件知道吗？”

“知道！对应比成比例。”赫伯特说。

“不错，孩子！我刚刚做了两个相似的直角三角形，一个小一点，三边是垂直木杆和从这根棍子到木杆底部的距离，此时，我的视线就是三角形的斜边；稍稍大点的三角形，三边是垂直峭壁的高度。我们现在要测量的也就是这个高度。这根棍子到峭壁底部的距离，以及由我视线形成的三角形斜边，就是第一个三角形斜边的延长线。”

“我明白了，史密斯先生。”赫伯特大声说，“小棍子与木杆间的距离和小棍子与峭壁底部的距离比就是木杆高度与峭壁的高度比。”

“很好！赫伯特，我们现在已经知道了木杆的长度，如果再来量两段水平距离的话，那么根据比例一算就能得出峭壁的高度了，这样就省得我们直接去测量了。”

木杆在沙滩上的高度是10英尺，根据木杆的长度，他们测出了两段水平距离。

从小棍子到插木杆的地方，两者间相距15英尺；小棍子到峭壁底部的距离是500英尺。把这两段距离量完后，史密斯和赫伯特便回到了“石窟”。

史密斯拿出一块他第一次外出打猎时带回来的平板石，这块石头很像一块石板，可以用尖利的贝壳在上面写字。在这张平板石上，史密斯写下了下面几行数据：

$$15: 500 = 10: X$$

$$500 \times 10 = 5000$$

$$5000 \div 15 = 333.3$$

从这些比例中，他又得出了花岗石峭壁的高度：333英尺。

最后，史密斯拿出了前一天晚上用过的圆规，测出了十字架二和水平线之间的角距。在这中间，他将一个圆周分成了360个等分，并精确地将圆规角度落在圆周上，从而得出它们之间的角距为10°；而在这个角度上再加上十字架二距离南极的27°，再减去观察时所在的峭壁离海面高度的值，就得出了一个37°的角来。

此时，他们知道了南极与水平线间相距90°，在从90°里又减去53°后还剩下37°。由此，史密斯最终得出了测量结论：林肯岛位于南纬37°线。如果将计算时的误差计算在内的话，那么海岛位置就在南纬35°与40°之间。

如今，只要算出经度，他们就能确定海岛的位置了。史密斯决定在中午，太阳经过子午线时再进行测量。

这个星期日，他们还计划好了要去岛的上游，地点在湖的北边和鲨嘴湾之间。如果时间允许，他们还准备去下颚角的北部。并决定在沙丘上吃饭，晚上再回来。

将近八点钟的时候，一队人马沿着海峡边缘前行，对面的着陆岛上有许多飞鸟在悠闲地散步。这是一种潜水鸟，叫声听起来有些像驴子。庞库那夫看飞鸟，从来只看它们美味不美味。这些鸟肉有些黑，但他想，味道一定不错。

此外，他们还看到了一些两栖动物，这些两栖动物个头庞大，在沙地上慢慢地爬行着，他们很容易地认出这是些海豹。

海豹想必是要在小岛上安家，这样的动物并不能从吃的角度来考虑，因为它们不好吃，肉质粗糙又肥腻。

不过，史密斯还是非常仔细地看它们，他没有说出自己的想法，只是告诉大家，不久之后还要去一次小岛。

海滩上有着无数的贝壳散落在地，品种很多，如果被研究贝壳的专家看到，一定会欣喜若狂的。

贝壳让他们得到了实惠。退潮时，那普在位于“石窟”5英里左右的岩石丛里，发现了很多蛤蜊。

“这一天那普可没白过。”看着那一大片蛤蜊聚集地，庞库那夫说。

“能找到这么一大片，还真是好运。据说每只蛤蜊每年能产卵5到6万，按这个速度，我们以后永远不用愁吃不到它了。”史佩莱说。

“不过，蛤蜊没什么营养。”赫伯特说。

“是的，蛤蜊中的蛋白质很少。一个人要是每天只吃蛤蜊，必须吃上个十五六打才行。”史密斯说。

“那太好了！反正这些蛤蜊怎么吃都吃不完，我们就拼命吃。要不要带上一些当早饭？”庞库那夫说。

说完，不等大家回答，他就和那普去捡了，而且一捡就是一大堆。在将蛤蜊装在那普用木槿纤维做的网袋后，他们又将它和原来装着的食物放在一起，继续向沙丘和大海间的海滨走去。

史密斯不断地看表，接下来的工作是观察太阳，必须在正午进行。

孤岛的这部分很荒芜，除了夹杂着熔岩碎片的沙石和贝壳外，什么都没有。

这样的荒芜一直延续到了联合湾尽头的下颚角。这里虽然荒凉，但海岸也有一些海鸟常来，比如海鸥、信天翁和野鸭。庞库那夫对野鸭“情有独钟”，好多次想射几只下来，但由于野鸭很少停下来，不容易射中，所以也就没有成功。

庞库那夫又对史密斯说：“看看，史密斯先生，没有一两支猎枪，我打不到什么。”

“那是。庞库那夫，不过做猎枪还要靠你自己，你要先给我们找一些能做枪身的铁，还有一些做撞针用的钢，还要硝石、炭和硫黄做火药，还要用水银和硝酸做雷汞，用铅做子弹……这些东西都齐备的话，赛莱斯也就能给我们做出最新式的武器来了。”史佩莱说。

“嗯，是这样的。而且我可以肯定地说，在这岛上，完全能够找到这些东西。不过，做枪需要一些特殊工具才能做得精致，所以还是以后再说吧！”史密斯说。

“那为什么我们当初在吊篮里的时候，要把所有的武器、用具，甚

至刀扔出去呢？”庞库那夫大声说。

“如果不扔出去，庞库那夫，我们会随着气球沉入海底的。”赫伯特说。

“嗯，你说的是对的。孩子！”庞库那夫说完，又想起了其他的事，便问：“我想，那布撒泰和他的伙伴在第二天早上发现气球没了，一定会急死吧！”

“我可不管这些！”史佩莱说。

“这可都是我的主意！”庞库那夫洋洋得意起来。

“非常好的主意，庞库那夫！结果我们到了这里。”史佩莱笑了起来。

“我宁可在这里也不在南方人手里，特别是史密斯先生回到了我们中间。”庞库那夫大声说。

“和我想的一样，真的！所以我们还要什么呢？我们现在什么都不缺了。”史佩莱说。

“如果不是这样的地方……我们真不需要什么！再说了，我们总有一天会离开这里的。”庞库那夫耸了耸肩笑道。

“如果林肯岛和有人居住的岛或大陆间隔不远，那么朋友们，我们离开这里的时间会比我们想象的早。对于林肯岛的具体位置，一个小时内我们就会知道了。虽然我没有太平洋地图，但太平洋南部的地理位置却一直在我脑海里的。根据我测出的纬度，林肯岛的西边是新西兰，东边是智利海岸。不过，这两个国家之间至少相距6000英里。所以，这个

岛在这片海洋中的哪一点上，很快就能从经度上知道了，而且会知道得非常清楚。”

“同一纬度上，帕劳群岛是不是离我们很近？”赫伯特问。

“对！但怎么也有1200英里。”史密斯说。

“那边都有些什么？”那普指着南方问。对别人的谈话，他也表现出了极大的兴趣。

“什么也没有。”庞库那夫抢先说。

“是的，什么都没有。”史密斯进一步说。

“赛莱斯，林肯岛要是距离新西兰或智利不到两三千英里的话，我们该怎么办？”

“那就不盖房子，由庞库那夫指挥我们造船……”

“太好了！太好了！我一直想当船长，就等你制造一个能远航的船了！”

“需要的话，我们可以造一只。”史密斯回答说。

这群荒岛移民一边悠闲地聊着天，一边等待观测时间的到来。赫伯特依然没搞明白史密斯在没有任何仪器的情况下，怎么确定太阳通过海岛子午线。

此时，他们从“石窟”出发，走了6英里多路程了，离史密斯神秘得救的地方——沙丘也不远了。他们停了下来。

已经是中午十一点半了，他们决定在这里吃中饭。赫伯特朝不远处的小河跑去，用那普所带的瓶子装回了一些淡水。

在准备吃饭的间隙，史密斯安排好了一切，准备对天文进行观测。他在一个落潮后地面平整的海滨处选了一个地方，这里的细沙平滑如冰面，所有的沙子都摆放得很整齐，像是经过了精心设计。

地面是不是水平，对他来说无关紧要。那6英尺高的标杆插在地上，是不是和地面垂直也不重要。相反，史密斯还要将它歪向南边，背对太阳。他只需牢记一点，海岛在南半球，所以林肯岛上的人所看太阳运行的弧线不在南水平线上，而在北边。

赫伯特终于明白了史密斯要如何确定太阳经过海岛子午线的方位了。所谓海岛子午线的方位，其实就是当地的正南方。史密斯在没有仪器的情况下，只需测量标杆在沙地上的投影就能求得他所需要的结果了。

按理说，当影子长度缩到最短时，正是中午十二点的时候，只要仔细看影子末端，就能找出影子缩短后和伸长间的距离。

当史密斯将标杆偏向与太阳相对的方向时，影子就变长了，这样它的变化也就更容易看清了。也就是说，日晷时针越长，针点移动就越容易辨认，而标杆的影子就是日晷上的指针。

测量的时间到了，史密斯跪在地上，标杆的影子在逐渐缩小，随着影子的变化，他在上面打上了小木桩做标记。其他人带着好奇，也弯腰看他测量。史佩莱拿着表，随时报告影子缩到最小时的时间。

有一点要说明一下，史密斯观测的这天正好是4月16日，也就是

说，是和平均时间相同的。因而史佩莱表上的时间，也是华盛顿的真实时间，这样算起来就容易很多。

此时，随着太阳的移动，影子慢慢缩短，当史密斯看到影子开始加长时，他问：“现在是什么时候？”

“五点过一分。”史佩莱马上回答。

现在只需把结果算出来就行了。华盛顿和林肯岛相差五小时，由此也可以说，林肯岛中午时，华盛顿是傍晚五点钟。当太阳绕地球每过 1° 时需要四分钟，也就是说，移动 15° 可用一个小时。这样用 $15^\circ \times 5 \text{小时} = 75^\circ$ 。

华盛顿的经度为 $77^\circ 3' 11''$ ，由此可以推算出：海岛在西经 152° 的地方，也就是格林尼治子午线以西 77° 加 75° 。

当史密斯向大家公布这个结果时，也向大家表明，这和计算纬度一样，同样存在着误差。不过，刨去误差，他能肯定的是林肯岛的位置在纬度 35° 到 40° 之间，经度在格林尼治子午线以西 150° 到 155° 之间。

从以上数据就能看出，他所估算的可能误差在 5° 上下，如果 1° 合60英里，那么在实际位置上， 5° 的误差也就是300英里。当然，这个误差是不会影响他们所要知道的推断的，由此也可以看出，林肯岛距离每一个国家和岛屿都很远，如果想要乘船去那些地方，即使船够大够好，也是非常危险的。

这个结果也让他们知道，林肯岛离泰地岛和帕劳群岛至少有1200英里的距离；离新西兰则至少有1800多英里；距美国西海岸更是有4500多英里。

史密斯努力地回忆着，他实在想不起，太平洋还有哪个岛屿能与林肯岛靠近。

第十五章

又是一天过去了，4月17日，庞库那夫第一句话就问史佩莱：“先生，我们今天做什么呢？”

“赛莱斯先生让做什么就做什么。”史佩莱说。

前一段时间，史密斯带着大家先是做制砖工人，接着又做陶器工人，如今，他们很快又要成为冶金工人了。

头天吃过早饭，他们一行人离开“石窟”，去了7英里之外的颞角，那里是连绵不绝的沙丘尽头，没有观望壁那种悬崖峭壁，有的只是火山喷发出的一些奇形怪状的矿物质，这些矿物质又在两个海角间形成了狭长的海湾。

来到这里后，他们便没再继续往前走了，而是折转身往回走。在暮色苍茫时，他们回到了“石窟”。不过，由于是否能够离开林肯岛，他们还没有特别肯定的答案，所以怎么都睡不着。

1200英里，这是海岛和帕劳群岛之间的距离，非常遥远，一只小船是绝对无法渡过的。更主要的是，寒冷的季节马上就要来临了。

对于这些困难，庞库那夫强调了很多次，造船不是那么容易的事，

何况他们还没有必要的工具。要想造船，必须先做造船用的工具：锤、斧、镑、锯、钻、刨等等。光做这些工具他们就需要花费很长时间。

因此，这也决定了他们必定要在林肯岛上过冬。而要在林肯岛上过冬，寻找一个比“石窟”还能避寒的地方也就提上了议事日程。

然而最终，他们决定先炼铁，要想炼铁，就必须寻找适合炼铁的铁矿。

史密斯曾在海岛的西北部发现过这种矿物质。但在通常情况下，藏在地里的金属质地并不纯，经常和氧或硫化化合物混在一起。

史密斯曾带回来过两种标本，一种是没有经过碳化的磁铁矿；另一种则是黄铁矿，也就是硫化铁。所以他们必须先除氧，也就是用炭使氧化铁还原，以便得到纯粹的铁。

氧化铁还原需要用炭将矿石烧到一定温度后才能进行，这个过程可以使用土方法，既简便又迅速，而且只需一道工序就能将铁矿石炼成铁。还有一种方法就是用鼓风炉，需要分两步走，第一步先让铁矿石熔化，第二步再将百分之三或百分之四的炭从矿石化合物中排除，以便让其变成铁。

史密斯刚刚捡来的这些氧化铁，只是不规则的深灰色大块，从这些深灰色大块中，他们可以得到一种由八面结晶体形成的黑色粉末。

这种矿石通常存在于天然磁石里，产自瑞典和挪威。离这个矿脉不远之处就是煤层了，林肯岛的新移民也早已经利用过这些煤做燃料了。由于炼铁原料就在手边，给他们的工作带来了极大的便利。英国的矿藏之所以丰富，就是因为是在开采出煤的时候，还能开采出金属用以冶炼。

“史密斯先生，这是不是说，我们可以炼铁了？”庞库那夫问。

“是的，为了炼铁，我们首先要去做你最喜欢做的事，去着陆岛上打海豹。”史密斯说。

“打海豹？炼铁需要海豹？”庞库那夫有些莫名其妙，转头问史佩莱。

“赛莱斯既然已经这么说了，肯定错不了！”史佩莱说。

史密斯已经从“石窟”离开了，其他人又无法解答这个问题，庞库那夫只好接受任务，准备打海豹。

史密斯、赫伯特、史佩莱、那普和庞库那夫很快就在岸边集合了。此时正值退潮，海峡形成了一道浅滩便于他们通行。他们涉水而过，水还没有淹过膝盖。

这是史密斯第一次来到着陆岛，而其他人则是第二次了。当初，他们就是被气球扔在这个地方的。

在他们登上这座着陆岛时，有几百只企鹅看着他们，并没有表现出丝毫的害怕。孤岛新移民拿着棍子，虽然不费吹灰之力就能将它们打死，但一行人却并没有动，因为企鹅不是他们的目标，所以他们不想无端地将其杀害。当然，更重要的一点是，他们不能惊动那只躺在几锚链之外的沙滩上的海豹。

着陆岛上还有一只鸟，样子非常老实，翅膀已退化成像鳍一样在两边张开的短肢，浑身的羽毛也像鳞片一样。在这些鸟聚集的地面上，到处都是洞，连海鸟也在洞里做了窝。居民们也没想着要去伤害这些鸟，便悄悄地穿过此地向北走去。在着陆岛尽头的水面上，露出像岩石一样

移动的黑色脑袋。

这就是他们想要猎捕的海豹，不过要想捉住它，就必须等它上岸。因为这种长着细密短毛和肥壮身体的动物在水里游得很快，想要在水里捉住它们简直是不可能的事。不过当它们在陆地上时却很笨拙，由于蹼足短小，只能在陆地上摇摆着缓慢行走，捉起来就方便多了。

这种动物的习性庞库那夫非常熟悉，于是他告诉大家，海豹经常会到海滩上晒太阳，晒着晒着就会睡着，所以要捉它们，等它们睡熟时最好。

猎人们都躲在了岩石后，静静地等待海豹在海滩上出现。

一个小时后，有好几只海豹来到了海滩上玩耍。庞库那夫和赫伯特绕过着陆岛的海角，堵住了它们的退路，然后从后面向它们进攻。此时，史密斯、史佩莱和那普也从石头后边爬了出来，向即将展开战斗的战场跑去。

高大健壮的庞库那夫大吼一声，冲了出去，史密斯和其他两个人也跑过去挡住了海豹下水的道路。只一会儿工夫，两只海豹便死在了他们的棒下。不过，其他几只还是逃回到了海里。

“史密斯先生，这就是你要的海豹，到手了！”庞库那夫一面说，一面向史密斯走去。

“太好了！这样我们就可以做风箱了。”史密斯说。

“做风箱？”庞库那夫大惊，“用它们做风箱？看来这些海豹的运气不错！”

原来，史密斯是要用这种两栖动物的皮做鼓风机，这是冶炼时不可缺少的工具。被他们捉住的海豹身长不到6英尺，大小一般，头很像狗的脑袋。

虽然海豹不是很大，但要将这两只抬回去，还是需要费些力气和时间的。因此，那普和庞库那夫决定就地剥它们的皮。而在这期间，史密斯和史佩莱也决定去巡视着陆岛。

水手庞库那夫和黑人那普的剥皮技术不错，三个小时后，两张海豹皮便摆在了史密斯的面前，史密斯甚至都不需要进行鞣制便能直接使用。

在潮水再次退去的时候，几个人涉过海峡，回到了“石窟”。

回去后，他们把海豹皮绷在了木架上，然后用纤维将其缝合起来，并尽可能地不让它漏气。此时，史密斯手里除了用多卜的套环做的两把钢刀外，并没有其他工具。不过在他发挥了同伙的智慧后，便有了其他办法。

三天后，他们的工具仓库里增添了鼓风机。这样在矿石加热的时候，便能用鼓风机给矿石送风了，这是冶炼工作中最重要的一环。

正如记者史佩莱所记载，4月20日的清晨，孤岛新移民进入到了他们的“金属时代”。

之前已经说过，史密斯准备在邻近煤矿和铁矿的地方进行冶炼工作，他在经过一番考察后，得出了矿脉在富兰克林山东北支脉山里的结论。而那里离“石窟”有6英里左右，在那里工作还要每天往返“石窟”，根本不太现实。

因此，他们决定在富兰克林山用树枝搭一个简易棚子暂时居住，这样就能不分昼夜地工作了。

在有了这个决定后的清晨，他们便准备出发了。出发前，那普和庞库那夫找了个筐子，将风箱放在上面，同时还放入了一些植物和兽肉。除了所带的食物之外，他们决定沿途再找一些能吃的东西。

在走向富兰克林山时，他们需要经过一片啄木鸟林，进入啄木鸟林要从东南方向进入，经过树木最密集的地方，然后从西北方向斜穿出去。

走路过程中，他们没有忘记重新开辟一条路，以便让这条路和观望壁及富兰克林山联系起来。

这条路上有很多品种繁多且熟悉的美丽植物。这些新品种都是赫伯特发现的，其中有庞库那夫命名的“假韭菜”。这些“假韭菜”比真正的韭菜大了很多，而且它们和洋葱、冬葱、芦笋一样，属于百合科。它们的叶子不仅能吃，而且根也能做菜。同时，这些根在经过了发酵后，还可以制成可口的饮料。因此，在前行的过程中，他们也没忘记收集这些树根。

他们用了整整一天的时间通过森林。不过在穿越森林的时候，也知道了森林里的很多动植物。

多卜在森林里专门搜寻兽类，它不断地穿行在林间，将隐藏在里面的动物一个个赶出来。赫伯特和史佩莱还用弓箭射死了两只袋鼠以及一只既像刺猬又像食蚁兽的动物。

这种动物在缩成团时，浑身的刺会倒竖起来，很像刺猬，但也有些

类似于食蚁兽。它们长着利爪，嘴巴像鸟嘴一样，又细又长。它们有着伸缩灵活的舌头，舌头上长着很多小刺，这舌头正是它们捕食昆虫的利器。

“在它下了锅后，又会像什么呢？”庞库那夫问了句很有意思的话。

“像美味的牛肉。”赫伯特说。

“不错了，我们不能要求太高。”庞库那夫说。

在行进过程中，他们还看到了几头野猪，这些野猪对他们视若无睹，既不躲，也不冲过来。

在一行人觉得不再会遇到什么野兽时，史佩莱隐隐看见几步之外的浓密树林里，有只野兽伏在一棵树的低枝下。史佩莱开始以为那是一只无尾熊，也就是“懒兽”。

这种动物的体形和大型狗比较相像。不过身上却长着很硬的毛，也有锋利的爪子。这种动物能够非常灵巧地攀爬树木，平时也以吃树叶为生。

在他们认出这种动物后，并没有打算去打它。不过史佩莱在笔记本上记载时，却将原来的“熊”字抹去，换成了“无尾熊”，随后又继续前行了。

晚上五点钟的时候，史密斯下令休息，此时他们已经穿过了森林，来到了富兰克林山东部的主要支脉下。几百英尺以外有红河的水流过，所以他们能获取大量的淡水。

只用了一个小时，他们就将营地安扎好了，是在森林边缘的树木之

间，用爬藤和树枝编织而成的营棚。在用爬藤和树枝扎营棚时，他们还在周围抹上了一层泥土。这样，一个不错的住处就有了。

孤岛新移民开始准备他们的晚饭，并在营棚前烧了一堆熊熊烈火，将肉放在火焰上烤。晚饭结束时已经八点钟了，他们留了一个人值班，其他人躺下休息。之所以留人守着，除了不让篝火熄灭外，还为了预防野兽潜入营地。

第二天是4月21日，史密斯和赫伯特一起去寻找古代生成的土层。上次他们去的时候，已经从那种土层中发现了铁矿石和标本。最后，他们又在东北部的一个支脉下发现了一个矿脉，那里接近红河发源地，且矿石都是暴露在地面上的。

此种矿石特别容易熔化，含铁量也很高，很适合史密斯用以还原炼铁。这是炼铁土法，也是塔卢尼亚人常用的，最后又被科西嘉人将其简化使用并传了出去。

用这种方法炼铁需要砌个熔炉，还要制造几个坩埚，以便把矿石和炭一层层地放在坩埚里，最后让它发生变化并还原。不过，史密斯并没有打算用这些设备。他只是想把矿石和煤做成一个立方体，然后用风箱把空气鼓入立方体中。

很明显，这是世界上最早的冶金学家土八该隐 曾采用过的方法。既然亚当的后人用这种方法冶金成功，那么林肯岛上的他们一样会成功。

因此，他们很快就捡了炭和铁矿石，并将铁矿石打碎，将上面的杂质擦干净，最后把炭和铁矿石一层又一层地叠加起来，就像木炭工人烧木炭一样。最后，在鼓风机的作用下，炭先是变成了碳酸，最后变成氧

化碳，而在这个变化过程中，又能使氧化铁还原，放出氧气。

史密斯这样进行他的工作之前，先在窑里制造了陶土管子，将其装在海豹皮风箱的一端，风箱装在了矿石堆的附近。

鼓风机是史密斯用一个木架、一些植物纤维做成的绳子，以及一个秤锤做成的。当鼓风机把大量的空气吹进立方体后，温度便提高了。空气使立方体里面发生了化学变化，经过一段时间，纯铁也就冶炼出来了。

工作量大，任务艰巨，想要做好这件事，必须依靠大家的耐心和智慧。最后，他们成功地炼出了一块和海绵差不多的生铁。不过，这块生铁还要加以锤炼才能使用。也就是说，想要打铁，必须把熔解后的杂质排出去。

当然，这些“铁匠”是没有任何工具的业余“铁匠”，他们的条件比最早时期的冶金工人还差。不过，他们依然像前辈一样，认认真真地干了起来。

他们给生铁装上了木柄，做成了锤子，随后又将花岗石当砧子，打起铁来。经过几天时间，到了4月25日这天，他们终于打出了铁条，虽然只有几根，但他们还是用这些铁条做成了铁橇、钳子、鹤嘴锄以及铲子等工具。

当庞库那夫和那普拿着这些工具时，高兴得像捡了宝贝。

当然，这些金属并没有达到完美的状态，也没有成为他们需要的钢，还只是钢和炭的混合物。想要得到钢，必须将生铁中多余的炭除去，或者要在熟铁里加入一定数量的炭才行。

用第一种方法，他们可以做出天然钢或铸钢；用第二种方法，则可以抽出泡钢。

史密斯决定采用第二种方法炼钢，因为这种方法炼出的钢非常纯。为了更好地进行这项工作，他又用陶土做了一个坩埚，并将铁和炭末放在坩埚里加热，最终，钢炼成了。

刚刚制成的钢，不管是在冷还是热时，都能随意加工。史密斯也就是在此时，在那普和庞库那夫的协助下，把钢烧红后，浸在水里，最后制成了硬度很好的斧头。

许多工具都是采用这种方法制成的，比如，刨刀和砍柴的斧子等。当然，制作短斧他们用的是钢板，做锯和凿子用的是钢块。

这些工具虽然粗糙，却也是他们以后工作中不可或缺的。

5月5日，林肯岛上新移民的“金属时期”结束，“铁匠们”重回“石窟”。不过，很快他们就有了新的工作，新的头衔，而林肯岛新移民也已变成了林肯岛的居民。

第十六章

5月6日，这天也是北半球的11月6日。

这些天的孤岛都阴沉沉的，大家开始为过冬做准备。不过，目前的气温并不是很低，如果用一只摄氏寒暑表在林肯岛测量的话，平均温度

应该在10℃到12℃左右。不过这并不让他们惊奇，因为林肯岛处在南纬35°到40°之间，气候和北半球的西西里岛及希腊一样。

尽管如此，严寒的冬季也还是会降临西西里岛和希腊，所以如果是在最冷的冬季，林肯岛也会被封冻，因而必须预先做好准备。当然，就算是严寒还没有威胁过来，雨季也快到了。

这座孤岛处在大洋中，孤零零的，任凭风霜雪雨侵袭，因此变天和发生严重灾害是常有的事。所以，他们眼前的首要问题就是怎么立刻寻找到一个比“石窟”更安全的住所。

虽然，庞库那夫对自己寻找的“石窟”钟爱有加，可他也知道，他们必须要找另一个住所了。因为海水曾侵袭过“石窟”，这情况大家也都知道，如果再发生这样的事，局面就很难收拾了。

“我们必须准备一些防御设备。”史密斯有一天对他的伙伴们说。

“防御什么？岛上又没有其他人。”史佩莱有些不解。

“到底有没有人，还不好说，因为我们没有观察过内陆。再说了，即使没有人，猛兽肯定也是有的，所以我们必须对可能遇到的危害有所防备。这样我们就不需要每天生火守夜了。还有，朋友们，我们的眼光应该放得长远一点，因为我们所处的地带，很可能是海盗出没的地方……”

“什么，海盗出没？我们离陆地那么远，海盗也会来吗？”赫伯特有些不相信。

“这是很有可能的，孩子。”史密斯耐心地对他说，“海盗既是勇敢的水手，又是可怕的敌人，所以我们必须采取一些防御措施。”

“好主意！不管有两条腿的人出现还是四条腿的野兽出现，我们都要提防。不过史密斯先生，我们是否应该把海岛再搜查一番，然后再决定是否行动，这是不是更好一点呢？”庞库那夫说。

“是的，再好也没有了！”史佩莱附和完，又加了一句，“可我们在这里都找过了，根本就没有找到一个山洞，也许山的那边有，谁知道呢？”

“是这样的。朋友们！”史密斯说，“你们可能忘了，我们现在需要的是寻找靠水的地方，根据我们在富兰克林山顶端看到的情况，西边既没有小溪，也没有河流。我们这里正处在感恩河与格兰特湖之间，这种优越是在其他地方看不到的。同时，风从西北边吹来时，我们会因为背向南方而不会像其他地方一样迎着风，所以这个地方才是最佳选择。”

“这么说，我们还是在湖边造一座房子吧，那里砖头和工具都有，而且我们做过制砖工人、陶器工人、冶金工人……再做瓦工肯定也是举手之劳。”庞库那夫说。

“确实是这样。不过我们在做任何决定的时候，先要经过全面考虑。如果我们能找到一个天然住所的话，不仅安全，而且还会省掉很多工作。更何况这种天然住所既能防御岛上的敌人，又能防御岛外来的敌人。”史密斯说。

“说得没错，赛莱斯。”史佩莱说，“不过我们把整个花岗石壁都找遍了，连一个窟窿、一条裂缝都看不到！”

“就是，什么都没有。”庞库那夫有些沮丧，叹口气又说：“如果能在一个高高的峭壁上凿出一个什么危险也危及不到的住所就好了，最好

能有五六间房，还能面朝大海……”

“还要窗明几亮！”赫伯特笑着加了一句。

“还有能上能下的楼梯！”那普补充道。

“很好笑吗？”庞库那夫大声说，“难道我说的咱们办不到吗？我们不是有鹤嘴锄和铲子吗？史密斯先生不是还会给我们做火药吗？用火药难道不能炸个山洞吗？史密斯先生，你是说过什么时候我们需要火药，就会给我们马上做的对吗？”

庞库那夫在那里发挥他丰富想象力的时候，史密斯始终在一旁静静地听着，心里想着庞库那夫的话。想要将花岗石炸开，就是有炸药也不容易。如果大自然不能帮他们解决住所问题，这将是件非常麻烦的事。所以他没有回答庞库那夫，而是建议大家再到河口和北部峭壁尽头仔细寻找一番。

就这样，大家又在两英里周围进行了仔细检查。不过，陡峭的峭壁上非常光滑，根本找不到一个洞穴。他们只看到峭壁上空有很多野鸽在盘旋。原来，在山峰顶上，花岗石边缘的一些小孔就是它们的窝。

这陡峭的山峰让他们很是为难，因为不管是用鹤嘴锄还是炸药，想要在峭壁上凿出一个山洞来住人，都是一件可算得上痴心妄想的事。所以他们现在面临的问题是：他们要放弃庞库那夫找到的那个“石窟”，但放弃“石窟”，海岸上又没有其他可以藏身之处。

林肯岛的居民们在搜寻了一番后，终于来到了峭壁的终点——北边拐角。再往过去走就要经过很长一段斜坡，然后才是和海岸平行的沙地。

从北边拐角到西边尽头，全是些由岩石、泥土和沙粒形成的斜坡路，斜坡倾斜度为45°，上面点缀着很多草木，树木一丛丛地生长着，野草厚得像毛毯。不过再往过去走不远却看不见植物了，那里是一片开阔的沙地。这片沙地形成的平原从斜坡的尽头开始，一直到海滨。

史密斯觉得湖水漫出来必定会流向此处，他的这种看法并不是没有根据的。因为从红河里流出的水有很多，必定需要一个河流作为出口。不过，虽然他已经搜索了很久，但从观望壁到河口，始终没有找到那个出口。

史密斯建议大家去爬斜坡，从观望壁那里回“石窟”。这样的话，他们就可以沿途观察湖的东岸和北岸了。他的建议得到了大家的支持，几分钟后，跑得最快的赫伯特和那普上了高地，随即，史密斯、史佩莱和庞库那夫也跟了上去。

此时正是海岛最美的时候，太阳照耀下的湖面发着耀眼的光，光线穿过树木，使整片树林都笼罩在光环之下。

海岛居民们贪婪地看着这片树林，看着老树上的枝丫因为黝黑而在一片绿树中显得格格外不同。有着美丽羽冠的鹦鹉站在枝头尖声大叫，美艳绝伦。它们如旋转着的万花筒，不断地在树木中来回跳跃。

他们没有立刻去湖的北岸，而是绕开高地，从河的左边向河口方向走去，这一段弯弯曲曲的道路差不多有一英里半。不过由于树木稀疏，树木之间间隔着很宽的距离，所以走起来并不十分困难。

这是一块肥沃的土地，走过这片树木茂盛的树林，红河和感恩河之间的草木就没有这么茂盛了。

史密斯和他的伙伴们开始小心翼翼起来，他们携带的武器只有弓箭和带着铁尖的棍子，还好并没有野兽出现，也许它们经常出没的是南部密林。不过突然，走在最前面的多卜看到了一条蟒蛇。这让他们大吃一惊。这是一条长约十四五英尺的蛇，不过很快就被那普用棍子打死了。

史密斯在仔细看了这条蛇后，告诉大家不要害怕，它没有毒，只是一条衲脊蛇，是新南威尔士的土人经常饲养的蛇。不过，这里很可能还会有其他能使人致命的毒蛇，比如叉尾的蝰蛇，它们经常会突然笔直地竖起来。抑或是飞蛇，它们不仅长着一对耳朵，而且爬得很快。

多卜刚才受到那条大衲脊蛇的惊吓，很快又去追另一只爬行动物了。由于它跑得很急促，大家都为它捏了一把汗，史密斯急忙将它唤了回来。

又走了一会儿，他们便来到了红河流入格兰特湖的地方。这里他们曾经来过，当时他们从对岸的富兰克林山上下来后来到了这里。

史密斯觉得红河流进格兰特湖的水量非常可观，所以大自然一定会给它很多出口，这些出口无疑也会形成瀑布。如果能够找到出口，对他们将非常有利。

居民们相互间拉开距离往前走，却也不让相互间失去联系。他们先是绕着湖岸走，看到很深的湖面下到处都是游鱼。庞库那夫想做几根钓鱼竿，钓几条鱼。

他们从东北角绕了过去，觉得湖水应该是从这里流出的，因为这里的湖岸几乎和高地的边缘一样高。不过寻找了一番还是没有看到排水的痕迹。

居民们继续沿岸搜索，再又拐了一个小弯后，看到湖岸低了下去，并和海岸保持着平行。这边的森林比那边稀疏，可那一丛一簇的树木却让周围的风景愈发地美丽。而从这里，他们也能看到格兰特湖的全景，湖面平静如镜，没有丝毫的波纹。

多卜在灌木丛里四处乱窜，将丛林中的各种飞鸟赶了出来。史佩莱和赫伯特向这些鸟射了几箭，赫伯特射出的一箭正好射中了一只飞鸟，飞鸟掉在了地上。多卜跑去将飞鸟衔了回来。

这是一只美丽的水鸟，浑身青灰，嘴巴很短，前额却很宽，脚爪有蹼，像花边一样。这种鸟的翅膀周围有一道白线镶嵌其中，大小和较大的鸕鶿差不多，名字叫“黑鸭”。

黑鸭是介于涉水鸟和蹼足鸟之间的长着趾的水禽。这种鸟的味道和角雉无法相提并论，口感非常差。不过多卜并没有像人类那么挑剔，所以大家决定将这只黑鸭赏给多卜，留给它当晚饭。

他们继续沿着湖东岸向前走，很快又到了他们曾去过的一个地方。不过，史密斯却怎么也找不到湖水流出的迹象，这让他非常诧异。即使是在和史佩莱和庞库那夫说话，他都掩饰不住内心的惊讶。

一直很安静的多卜突然焦躁起来，这个机灵的动物开始在岸边来回奔跑。猛地，它停了下来，并定定地看着湖面。随即，它举起爪子，指着一个其他人都看不见的东西狂吠起来，很快就又安静下来。

此时，史密斯和其他人并没有注意到多卜的异样，当它叫得愈来愈厉害的时候，才引起了史密斯的注意。

“多卜这是怎么了？”他问。

多卜冲他跑了过来，神态更加不安。随后它又向岸边冲去，并猛地跳进了湖里。

“多卜，快回来！”史密斯大声喊，他怕多卜遇到危险。

“发生什么事了？”庞库那夫望着湖面问。

“可能是闻到什么两栖动物之类的了吧！”赫伯特回答。

“可能是只鳄鱼。”史佩莱说。

“我觉得不是，有鳄鱼的地方纬度都比较低。”史密斯说。

这时候，多卜已经被它的主人喊了回来，但它回到岸上后却并没有安静下来。受直觉支配的它伏在了深草丛中，双眼紧紧地盯着水里。此时的湖面很平静，一点涟漪都没有。大家几次停在岸边，注视湖面却什么都看不见。

水里到底隐藏着什么呢？

史密斯有些茫然。

“我们继续我们的探测吧！”他说。

又行走了大约半个小时，他们已经相聚在了湖的东南角了。直到此地，他们的湖岸搜索才结束。不过史密斯还是没能找到湖水流出的地方。

“这样的出口一定存在，虽然我们看不见，但湖水一定是从西边的花岗石壁流出的。”史密斯说。

“亲爱的赛莱斯，知道从什么地方流出有用处吗？”史佩莱问。

“有非常重要的用处。”史密斯严肃地说，“如果水是从峭壁里流出来的，那么峭壁里肯定有洞。如果能把洞里的水排出，我们就能住在里面了。”

“不过史密斯先生，难道湖水不能从湖底流出，然后经过地道流入大海吗？”赫伯特问。

“当然有这个可能。不过，如果真是这样，那大自然就没有给我们住所，我们必须自己盖房子了。”史密斯说。

在他们准备穿过高地直接回“石窟”时，多卜却越发地狂躁起来。它愤怒地叫着，没等史密斯阻止，就又跳进了湖里。

大家一起向岸边跑去。这时，多卜已经游到20英尺外的地方了。史密斯在叫它的时候，突然看到水里露出了一只大脑袋，那里的水看起来似乎并不深。

这是一只有着圆锥形脑袋的两栖动物，长着一双大眼睛，嘴边有柔软的长须。赫伯特看到它，马上知道它是什么了，他大声喊着：

“海牛，这是海牛！”

其实它并不是海牛，而是儒艮，鲸类的一种。它的鼻孔是长在鼻子的上部的。当这只巨大的动物向多卜扑过来的时候，多卜也吓了一跳，急忙往岸上逃。此时，它的主人们却没办法救它。

突如其来的情况让史佩莱和赫伯特也没有想起用弓箭。儒艮一下子抓住了多卜，并将它拖到水底下。

拿着铁头标枪的那普想去救多卜，但被史密斯拦住了。

“不行，那普。”他说。

此时，水里正在展开一场不可思议的搏斗。以多卜目前的处境来说，它是难以招架的。岸上的居民们只看到水面上白浪翻滚，看不到战斗的双方。

他们清楚地知道，这是一场可怕的搏斗。看来，多卜是注定要死了。不过，突然，多卜从另一处漩涡里又钻了出来。不知是从哪里来的一股力量，竟然将它抛到了离水面十英尺之外的空中，随即多卜又掉到了动荡的湖水里。不过没多久，它就游上岸来。更让人吃惊的是，它不仅轻易地脱了险，而且身上没有受到重伤。

这到底是怎么一回事？史密斯和其他人都很不解。不过更让他们诧异的是，水里面的搏斗仿佛并没有停止。

也许儒艮遇到了更凶狠的猛兽的进攻，所以才放了多卜而自卫吧。

湖里的搏斗进行了很久，鲜血染红了湖面。慢慢地，儒艮在一片血红的湖水里浮了上来，很快就在一片沙滩上搁浅了。居民们急忙跑了过去，发现儒艮已经死了，而湖水也已经被血水染红了。

这是一只长达15到16英尺，重三四千磅的巨大动物，它的颈部有伤口，貌似是用尖刀割破的。

湖底到底有着什么样的两栖动物，在进行了一场骇人的袭击后，又把凶猛的儒艮咬死了呢？没有人能说得明白。史密斯和他的伙伴们抱着对这件事的莫大兴趣回到了“石窟”。

第十七章

5月7日，林肯岛的居民们进行了分工，史密斯和史佩莱去了观望壁；赫伯特和庞库那夫出发去河的上游捡木柴；那普一个人留在“石窟”为大家准备早饭。

史密斯和史佩莱很快就来到了湖的南岸上儒艮搁浅的小沙滩。

此时，一群飞鸟正在啄食它的肉，史密斯想把儒艮的肉给大家吃，便用石头赶走了飞鸟。这是一种味道绝佳的肉，在马来群岛和其他一些地方，称得上是王孙贵族们能吃到的特供菜。不过，这种肉还要那普动手做才行。

在赶走飞鸟的时候，史密斯又对昨天发生的事产生了兴趣，他又有了新的念头，那就是要揭开昨天那场水底搏斗之谜。他想知道到底是什么样的动物，让儒艮致死的。

于是，他在湖边久久地站着，看了很长时间，但什么都没发现，湖面在阳光的照射下闪闪发光。

在靠近儒艮搁浅的沙滩那边，湖水比较浅，不过也从那里开始，湖底明显倾斜下去，由此可见，湖的中央一定很深。整个湖面很可能是一个巨大的盆地，而那湖水正来自红河。也就是说，是红河的水将这里灌满，变成了湖泊。

“赛莱斯，好像水底下并没有什么可疑的东西。”史佩莱说。

“是的，亲爱的史佩莱，我只是无法想明白昨天发生的事。”史密斯说。

“不错，我也是。儒艮身上的伤确实非常奇怪。而且我还有一些不明白的地方，那就是多卜为什么会被扔到水面上来呢？如果不是亲眼看到，我一定觉得多卜是被一只强大的胳膊托起扔出水面的，然后那只看不见的手又用刀将儒艮杀死了。”史佩莱说。

史密斯点点头，陷入了沉思。

“有些事情真是让人想不明白，不过有一个问题是不是还比较容易理解呢？亲爱的史佩莱。我是怎么得救的？我是怎么被人从海浪里拖出来的？又是怎么到沙丘上去的？这些疑问，难道不是问题吗？我想，这里面一定有什么我们不知道的秘密，这个秘密我们一定也会揭开的。不过现在，我们只需留心观察，不要在大家面前讨论这些怪事，我们要先将这些疑问埋藏在心里，然后继续我们的工作。”史密斯说。

大家应该记得，史密斯到目前为止，都没有发现能让湖水泄走的出口。不过他一直坚信，一定有这样一个地方。

走着走着，他们来到了一股急流处，好奇心让史密斯扔了几块木头在水里，那几块木头流向了南边的拐角。于是，他跟着木头漂去的方向走，走到了湖地的南端。

南端有块地方湖水在下陷，貌似有部分水流进了地缝。

史密斯将耳朵贴在地面上，那地面和湖面一样高。他静静地倾听着，并清晰地听到了瀑布发出的声响。

“我找到排水的地方了。”史密斯一边说，一边站了起来。

“没错，湖水是经过花岗石右壁的一条通道流向大海的，我们只需利用它就能找到流经的石洞了。”

史密斯说完，砍了一根长长的树枝，在除去树叶后，将它放在了岸边的拐角处。此时，他发现水里有个一英尺左右的大窟窿——这就是他们一直以来想要寻找的排水口。排水口的水流很大，史密斯放的树枝很快就被冲得没了踪影。

“没有什么疑问了，出口就在这里，我要将它打开看个究竟！”史密斯说。

“你要怎么打开？”史佩莱问。

“我要让湖面降低三英尺。”

“你想怎么降低？”

“我只要一个比这个口还大的出口就行了。”

“你要将这出口开在哪里呢？赛莱斯。”

“很简单，开在离海滨最近的地方。”

“可那里只是一片花岗石呀！”史佩莱说。

“是这样的。”史密斯继续说，“我要将花岗石炸开，然后等到水流出去后，湖面就降低了，此时，那里必定会露出一个洞口来的……”

“然后可以重新形成一个瀑布，然后让水泻向海滩？”史佩莱又问。

“对！就是要形成一个可以让我们利用的瀑布。走吧，走吧！”史密斯说完，催促着史佩莱离开。史佩莱是完全信任史密斯的，所以丝毫没有怀疑这事会不会成功。

不过，他们现在既没有火药，工具也有限，怎么才能将花岗石壁凿开呢？史密斯虽然对此事充满信心，但在条件不成熟的情况下，他能达成所愿吗？

在史密斯和史佩莱回到“石窟”时，赫伯特和庞库那夫已经开始从木筏上卸木柴了。

“我们刚刚做完樵夫，史密斯先生，是否还要做泥水匠……”庞库那夫开玩笑说。

“泥水匠……不，我不需要泥水匠，我现在需要化学家。”史密斯答道。

“是的，我们要化学家，我们要炸海岛……”史佩莱补充道。

“什么？炸海岛？”庞库那夫大惊。

“是的，至少可以说是要炸一部分。”史佩莱回答。

“让我先说说情况吧！朋友们！”史密斯说完，便将他和史佩莱了解到的情况和他的打算告诉了大家。

从史密斯的口中大家知道，在观望壁下面的花岗石壁里，有一个不知大小的山洞，所以要凿开石壁进到里面去。为了达到这个目的，必须先凿出一个较大点的出口，使湖面降低，然后将急流通过的山洞进行清除。而要想做到这些，他们必须制作炸药，在岸上或其他部分炸开一条

深沟，这也是史密斯利用自然界提供的物质来实施他的计划的想法。

很显然，大家是拥护史密斯这个计划的，特别是庞库那夫。因为炸花岗石、人工制造瀑布等等这些大规模的工作，对他来说是强项。所以既然现在史密斯需要化学品，他便也像过去变成木匠和铁匠一样积极，要做个化学家。

对他来说，大家需要什么，他就可以做什么，正如那普所说，如果需要，甚至连“舞蹈和礼仪教师都做”。

就这样，那普和庞库那夫被派去提炼儒艮身上的油，而儒艮身上的肉则要被他们当作食物。

每个人都对史密斯非常信任，所以他安排什么大家都会支持。

几分钟之后，史密斯和赫伯特、史佩莱带着筐子去了煤层方向，在那里的过渡地层里，有大量的黄铁矿石，史密斯曾去那儿找过一些类似的标本。

他们用了一整天的时间，将矿石运到了“石窟”，接近傍晚时，堆在“石窟”外的矿石已经有好几吨了。

第二天，也就是5月8日，史密斯他们开始了工作。由于黄铁矿石的主要成分是炭、火石、矾土和硫化铁，又因为硫化铁的含量比较高，所以他们先对其进行了分离，变成硫酸盐。随后，他们将获取的硫酸盐经过蒸馏，获得了硫酸。

很简单，他们的目的就是为了获取硫酸。

硫酸是工作生产中不可缺少的原料。在当时，每个国家只需根据硫

酸的消耗量，就能估算出这个国家的工业生产情况。况且这种硫酸的用处还有很多，比如他们以后制造蜡烛、鞣制皮革等等都要用到。

不过，这次史密斯获取的硫酸有其他用途。

之后，史密斯又在“石窟”后面平坦的地上铺了一层树枝和木柴，在设想好的框架上，他铺上了薄薄的一层黄铁矿石。这些黄铁矿石差不多有核桃般大小，是事先打碎后才用的。

在将这些准备工作做完后，他们点燃了木柴，让其热度传到了黄铁矿石上，由于黄铁矿含有炭和硫黄，所以很快就燃烧起来。他们又新添了一些碎矿石，将其堆成一大堆，并在外面盖上了干土和野草。为了让其充分燃烧，还留下了一些通气孔，给人的感觉像是要把木柴烧成木炭似的。

由于硫化铁变成硫酸铁、矾土变成硫酸铝的过程需要10到12天左右，所以在做好以上工作后，他们便去做其他事了。

不过，硫酸铁和硫酸铝虽然能在水中溶解，但火石、焦炭和灰渣却不能在水中溶解。

在进行这些化学工作时，史密斯还在做着其他工作。一行人干得热火朝天，信心百倍，恨不得马上获得成功。

那普和庞库那夫已经提取下了儒艮身上的全部脂肪，并将其装在了大陶土罐里。他们现在需要做的是用碱化的方法，将脂肪里的甘油分离出来。要想完成这个工作，他们还需要小苏打或石灰，而不管用什么方法分解脂肪，都能做成肥皂，并使甘油分离出来——这种甘油正是史密斯做炸药最想要的。

想用石灰很方便，不过用这种办法得到的石灰质的肥皂，是不能在水里溶解的，因此毫无用处。但如果将石灰换成小苏打，则可以得到一种能够溶解的肥皂，这样的肥皂在他们的日常生活中也是经常要用到的。

史密斯是个做任何事都想得很全面的人，所以他宁可费神去找小苏打。找小苏打难吗？不，并不难，岸边的水生植物如海蓬子、番杏和各种漂上岸来的马尾藻科……都是制小苏打的原料。

当他将这些植物大量收集起来后，先把它们晒干，然后在露天坑洞里焚烧，几天后就能得到灰色的粉末，也就是人们所说的“天然小苏打”。

有了天然小苏打，史密斯便用其和脂肪化合，得到了能够溶解的肥皂，同时也得到了一种中性物质——甘油。

做完这些还不够，为了给以后的工作做准备，史密斯还需要另一种东西，那就是硝酸钾，也就是硝盐和硝石盐。

当然，想要硝酸钾，史密斯只需用硝酸和碳酸钾化合就行了。而碳酸钾又很容易从植物的灰里得到，所以真正难以找到的是硝酸，因为硝酸不像其他物质，伸手即拿，所以还是会遇到一些困难的。

幸好赫伯特在富兰克林山旁曾发现过一个硝盐矿脉，所以他们只需将这种盐进行提炼就行了。

以上的准备工作他们整整持续了一个星期，在硫化铁还没有变成硫酸铁之前，其他工作都完成了。剩下的几天，他们便开始抓紧时间砌特殊的砖炉，准备蒸馏还没有制得的硫酸铁。

5月18日的时候，砖炉砌好了，化学变化也完成了。在这些天里，史佩莱、赫伯特和那普及庞库那夫在史密斯的指导下，也成了后者最得力的助手。他们需要史密斯这种既让他们信服，又知识渊博的老师。

黄铁矿石在经过一番加热后，都还原了。他们将得到的硫酸铁、硫酸铝、火石和炭渣及灰烬放在了一只装满水的盆里，在将这些混合物搅拌后，让其沉淀，最后把上面的水倒出来，得到了底下含有硫酸铁溶液和硫酸铝溶液的纯净液体。而其他那些不能溶解的物质则一直保持着一种固体状态。

最终，那些纯净液体在经过蒸发后，形成了硫酸铁的结晶，而其余含有硫酸铝，且没有蒸发过的液体便被他们丢掉了。

就这样，史密斯有了可以用来提取硫酸的硫酸铁结晶。不过，制造硫酸还是需要花很大成本的，需要很多设备，比如一套特殊的工具：白金的仪器、不怕酸类腐蚀的铅室等等。

这些必需品他们一样都没有。不过史密斯知道，在波希米亚，有一种制造硫酸的方法，非常简单好用，而且能够生产出浓度很高的硫酸。

“北欧硫酸”就是用这种方法制成的。

具体做法是将硫酸铁的结晶密封在瓶子里，然后进行煅烧，使之蒸发成水汽，最后经过一段时间的冷却后就变成了硫酸。

于是，史密斯将结晶放进了锅里，然后点起了炉火，让其结晶蒸发为硫酸。

这件工作完成后的5月20日，也就是他们开始工作后的第12天，史密斯获得了大量的硫酸，并打算用这种化学品为他们以后的很多事服

务。

目前最主要的是要用这种化学品做什么呢？制造硝酸。硝酸制造起来并不难，只需用硫酸和硝石化合就能蒸出硝酸来了。

只是这种硝酸要用来做什么呢？大家并不知道，史密斯也没有告诉他们。不过，他的目的很快就要达到了，只需经过一道工序，他费尽心思想要的东西就能制造出来了。

这最后一道工序便是用蒸发的方式浓缩甘油。浓缩甘油前要用一只水槽把少量的硝酸和甘油混合在一起。这样的话，也不需要冷却剂就能得到黄色的混合油液了。

在进行这样一道工序的时候，为了预防发生爆炸引起的危害，史密斯便在离“石窟”有一段距离的偏僻之处做这项工作，制成后他才拿着瓶子给大家看，兴奋地说：“这就是硝化甘油！”

确实，这是一种很令人害怕的化学药品，这种药品的爆炸威力比普通炸药的威力还要大十倍。由于它在爆炸后屡屡造成事故，因此，自从人们发现这种制作炸药的方法，便用一种有较多孔的能吸收液体的黏土或糖将其混合，以降低它的爆炸危险性。

不过，林肯岛上的这群居民在操作的时候，并不知道降低危险性的方法。

“我们就是用它去炸石头？”庞库那夫有些怀疑。

“没错！朋友，这种硝化甘油可以产生极大的威力。越是坚硬、阻力大的花岗石，爆炸起来越厉害。”史密斯说。

“那这种威力我们什么时候可以见识到呢？史密斯先生？”

“明天就能看到了。我们现在去挖一些埋炸药的坑。”史密斯说。

第二天是5月21日，他们在天刚亮的时候，便去了格兰特湖的东岸，那里离海滨仅有500多英尺。那块高地从水边向下倾斜，湖水仅由一道花岗石阻拦。

因此，他们只需炸开外围的花岗石，湖水就能从缺口冲出，进而形成一条小河，并沿着高地的斜坡一直向海滩流了。这样的话，湖面也会自然降低了，泄水的石洞也会暴露出来。而那石洞就是他们的目标。

庞库那夫在史密斯的指导下，拿着鹤嘴锄，开始凿花岗石地面。埋炸药的坑要挖在岸边的斜坡上，而且还要比湖面低很多才行。因为只有这样，当岩石炸开后，才会有很大的缺口让湖水外流。

这项工作庞库那夫做了很长时间，而史密斯为了取得更好的效果，甚至决定用7夸尔¹的硝化甘油对其进行爆炸。为了做好这项工作，庞库那夫和那普轮班工作，一直做到下午四点钟才将坑挖好，将炸药埋好。

此时，又有一个问题出现了：如何去点那埋好的炸药呢？通常是利用雷管引爆，进而引起硝化甘油的爆炸。这样做的前提是必须要用很大的冲击力才行，如果只是点火，很可能只会让它燃烧，而不会让它爆炸。

所以，史密斯还需要制造雷管。虽然没有雷粉，但他有的是硝酸，因而也就能很轻易地制造出一种类似于棉花火药的东西。当这种药品被塞进弹药筒，然后加上一些硝化甘油，就能用火绳将其点燃，进而产生爆炸了。

对于撞击下的硝化甘油也可以爆炸这一点，史密斯非常清楚，因此他决定采用这种方法，如果这种方法不成功，他再想其他方法。

其实，撞击硝化甘油的方法很简单，只要将少量硝化甘油滴在坚硬的石头上，然后用锤子去拼命砸，就能很快爆炸了。不过这么做的话，用锤子去砸的人可就危险多了，非死不可。

于是，史密斯决定用一根植物纤维做的绳子，吊起几斤重的铁来代替砸硝化甘油的人。让那块铁吊在炸药坑洞的上面，然后用另一根绳子沾上一些硫黄，再将它的一端系在第一根绳子的中间，另一端拉到离炸药几英尺外的地上。

当他们将沾上硫黄的绳子点燃后，火势顺着绳子会燃到第一根绳子的接头处。而一旦火烧到了接头的地方，第一根绳子就会烧断，吊着的铁块自然就会砸在硝化甘油上。

这一切的准备工作做完后，史密斯让其他人退到了很远的地方，然后将硝化甘油灌满土坑，一直灌到与坑口齐平。最后又在岩石表面滴了几滴。而此时，岩石上面的铁块也已经是悬好的了。

史密斯点燃沾着硫黄的绳子后便离开了，而且还和其他人回到了“石窟”。

根据史密斯的计算，这根绳子需要燃烧25分钟左右。果然，在这个时间后，他们听到了惊天动地的爆炸声。那爆炸的威力，让他们觉得整个林肯岛都在震动，石块更是被炸得满天乱飞。

空气中产生了很大的气浪，让他们明显地感受到了“石窟”的颤动。虽然他们离那里有将近两英里，但还是被掀翻在地了。

这样的威力，海岸一定是被炸开了。所以当 they 从地上爬起来时，便飞快地向湖岸方向奔去。

到了那里，他们欢呼起来。

花岗石壁上裂出了一个很大的口，急流翻滚着穿过了高地，并从300英尺高的地方飞流而下.....

[1](#)容积单位，一夸尔约等于四分之一加仑。一加仑约等于3.79升。

第十八章

史密斯的计划成功了。可他还和往常一样，并没有因为这点成功就满足。他站在那里，紧紧地闭着嘴唇，眼睛睁得大大的，看着他的成果。

赫伯特兴奋到了极点，那普则高兴得手舞足蹈，庞库那夫不停地点着他那硕大的脑袋，自语着：“太棒了！我们的工程师真是太棒了！”

硝化甘油的确发挥了巨大的威力，由它炸开的出口非常大，流出的水也比原本旧出口流出的大了三倍。因此，当爆炸发生后不久，湖面就明显下降了3英尺，甚至更多。

林肯岛的居民们急忙回到了“石窟”，他们拿出所有的工具：几把鹤嘴锄、铁头标枪、纤维绳索、火石和钢块.....重返高地，多卜跟在了他们后面。

在路上，庞库那夫忍不住问史密斯：

“你做的那种甘油的威力实在太大了，是不是用它就能将海岛全部炸毁呢？史密斯先生。”

“不要说海岛，就是大陆，甚至整个世界都能炸毁。当然，这需要足够的数量。”史密斯说。

“这么说，你也能用这种硝化甘油做弹药了？”庞库那夫又问。

“不可以，庞库那夫。这种甘油太容易爆炸了。做棉花火药，甚至一些普通火药，都不是什么难的事，因为我们有硝酸、硝石、硫黄和炭。不过不幸的是，我们没有枪。”

“哦，枪啊，史密斯先生，只要有决心，不怕做不到。”

此时的庞库那夫，已经将“难”字从他的人生字典里去除了。

他们期待的情景即将出现，居民们先是上了观望壁，接着向出口处走去。

几分钟后，他们来到了格兰特湖的南端，并一眼看到他们的目的已然达到。

湖里露出了他们曾搜寻了很久的洞口，因为湖水下降而留下的一道狭长分水线也正让他们更近地接近了洞口。洞口宽约20英尺，不过高度并不高，还不到2英尺。洞口的形状很像人行道边下水道的沟口，所以他们想要进去也不难。

不过，那普和庞库那夫还是拿起鹤嘴锄，将洞口凿成了一个更让他们感到舒服的高度。

史密斯走近洞口，发现从洞口通向洞里是有一定斜度的，倾斜度在30°到35°之间，完全可以通行。如果继续往前走，坡度没有变陡的话，他们走向海面都不难。

花岗石的内壁有很多大的石洞，这些石洞对他们很有用。

“我们怎么还不进去？史密斯先生，待在这里干什么？你看，多卜都进去了。”庞库那夫问，他迫切想进入那条狭长的通道。

“好的，不过我们一定要能看见路才行。那普，你去砍一些带树脂的枯树枝过来。”史密斯说。

那普和赫伯特向湖边跑去，附近有很多松树和其他树木。

他们很快就回来了。在把一些树枝做成火把后，他们用火石和钢片将火把点燃。

举着火把，史密斯带领大家进入了原本灌满湖水的黝黑通道。

让他们没有想到的是，他们越往前走，通道的直径就越大，弯腰走着走着，竟然能够完全站直身子了。洞里的花岗石因为常年被流水冲洗，又湿又滑，走在上面，随时都有滑倒的危险。

于是，他们像爬山一样，用一根长长的绳索将大家连在一起。不过幸好花岗石上有向外凸起的部位，这样也就形成了天然的阶梯，减少了他们滑倒的次数。

在火把的照耀下，他们看到花岗石上有很多闪闪发亮的水珠，想必石壁上还垂着钟乳石吧。

史密斯仔细观察了一下这些黑色的花岗石，发现它们是个整体，石纹细致，不仅看不出地层，甚至连一条缝也看不到。看来，自从有了海岛，这条通道就已经形成了。当然，这条通道也不像是由流水冲击而成的。

造成这个通道的不是尼普顿¹而是普鲁托²，因为石壁上留有熔岩的印迹，那印迹就连日久天长的水流都没能将其冲掉。

林肯岛的居民们继续往前走，走得很慢很慢。这个石洞由于是第一次来，所以他们无法知道它有多深。虽然脚在继续冒险往深处走，但心里还是有着莫名的恐惧，所以谁也没有说话。不过，他们每个人的脑子里都有无数个念头在闪现：

这个通向大海的地洞，会有水螅及其他巨型动物吗？

幸好有多卜，它一直走在前面。依靠多卜这个有灵性的动物，他们就能知道有没有危险在前面等着他们。他们知道，不到紧要关头，多卜是不会发出警告声的。

沿着弯弯曲曲的道路，在走了大约100英尺的时候，走在最前面的史密斯停下来了，其他人也跟着停下来了。

他们发现，脚下很宽，是一个大小适中的山洞，顶上在一滴一滴地往下滴水。不过很快大家就发现，水并不是从岩石里渗出来的，而是石洞里奔腾而过的急流留下的印迹。

这里虽然有些潮湿，但不仅没有污浊之气，反而有清新之感。

“亲爱的赛莱斯，这是岩石的深处，虽然很适合藏身，但却不适合住人。”史佩莱说。

“为什么说不能住人？”庞库那夫问。

“因为这里太小了，光线也暗。”

“那我们可以把这里凿得深一些，大一些，还可以开几个洞来透亮和通风。”庞库那夫说，他现在觉得没有什么事是不能做到的。

“我们再看看吧，也许后面会有更合适的地方，大自然一定会让我们省下改造的力气的。”史密斯说。

“我们才走了三分之一路程吧！”赫伯特问。

“差不多三分之一。从洞口到这里只不过有100英尺，不可能少于这个数……”史密斯还没说完，那普就打断了主人的话：

“多卜到哪里去了？”

他们开始在附近寻找，但还是没有发现多卜。

“它应该走到前面去了吧！”庞库那夫说。

“我们赶快跟上去！”史密斯说。

他们继续加快脚步往前走。

史密斯每遇到通道拐弯的时候，就会特别留意，虽然通道里需要拐弯的地方有很多，但他还是能很容易地认清方向。他知道，石洞是通向大海的。

在他们又走了差不多50英尺时，突然听到远方传来一种声音。通道

在此时起了传声筒的作用，他们停了下来。这声音非常清晰。

“是多卜，是多卜在叫！”赫伯特大声喊道。

“对！是它，是它在叫。勇敢的它像是很愤怒。”庞库那夫说。

“没事，我们手里有铁头标枪，只要提防着就没事，继续前进！”史密斯说。

“太奇怪了，越来越奇怪了！”史佩莱在庞库那夫的耳边轻声说，庞库那夫点了点头。他们奔跑起来，向多卜发出叫声的方向跑去。多卜的叫声更加清晰，那是一种愤怒至极而发出的声音。

它是不是因为侵犯了什么动物的窝，所以在搏斗？居民们就是在这种好奇心的驱使下，什么危险也不顾地跑上前去的。

几分钟后，他们前行了差不多16英尺，看到了多卜。

这里已经快要接近通道的尽头了，而且是个高而宽敞的石洞。多卜在那里来来回回地跑着，愤怒地叫着。举着火把的庞库那夫和那普将石洞的每个地方都照亮了。

史密斯和史佩莱、赫伯特则拿着标枪，做出随时战斗的准备。不过，宽大的石洞空空如也，他们将四周搜遍，但还是什么都没有。

没有野兽，更没有人。不过，多卜还在叫着。不管是他们抚摩它也好，呵斥它也好，都无法使它安静下来。

“这个地方一定是湖水流到海里去的出口。”史密斯说。

“是的，所以我们一定要留神，千万不要掉到窟窿里去。”庞库那夫

说。

“多卜，走！向前走！”史密斯喊着。

多卜听主人这么一叫，更兴奋了。它飞奔向石洞的尽头，在那里叫得声音更大了。

他们打着火把向前走去，看见花岗石地面上有个洞，那洞像是一口井，想必湖水就是从那里排出去的。而且这里也不是什么倾斜的、能够通行的通道，而是一口能够直上直下的井，冒险下去的可能性不大。

他们把火把凑近井口，试图能看清里面，但什么都看不见。史密斯将一根点燃的树枝向井里扔去，树枝在迅速下坠的时候将井里照亮了，但他们还是没有看到任何东西。

很快，他们听到了“嗤”的声响，接着树枝上的火熄灭了，由此可见，树枝掉在了水里，也就是海面上。

史密斯估算了一下树枝坠落的时间，测算出井的深度应该在90英尺左右。由此可见，这里的地面应该也在海拔90英尺的地方。

“此处将是我们的住所！”史密斯肯定地说。

“这里很可能会有野兽。”史佩莱说，他仍然有着强烈的好奇心。

“即使真有两栖动物，也已经从井里逃出去了。它已经把地方让给我们了。”史密斯说。

“可是不管怎么说，多卜不会无缘无故地叫，它一定是看到或听到什么了。我真想让自己变成多卜，哪怕是一分钟也好。”庞库那夫说。

史密斯看着他的狗，小声喃喃道：“是的，我也相信，多卜一定知道很多我们不知道的事。”

靠近他的几个人想必也听到了他的这句话。

不管怎么样，林肯岛居民们的希望没有落空。他们一方面是靠运气，另一方面却是依靠他们领袖的惊人智慧，使他们获得了很多。

如今，他们已经占领了这个巨大的石洞，里面虽然光线很暗，而且也无法估算出石洞的大小，但能肯定的是，他们能够用砖头将它隔成很多房间。所以即使它算不上一幢住宅，但至少也算得上是个宽大的公寓。如今，湖水已经改道，不再回来了，这里可以任由他们使用了。

不过，摆在他们面前的还有两个问题需要尽快解决，一个是怎么让这个岩石中间的洞获得阳光，另一个就是怎么才能让他们出入方便。

头顶上的花岗石非常厚，要想从上面取得光源是不可能的事，所以他们只能将临向大海的岩壁凿穿。

史密斯在从洞口过来的时候就估算过这个石洞的坡度和长度，而且也认定外壁应该不是特别厚。如果能让光线从这里进来，也就一定能从这里开一扇门。因为凿门和凿窗的做法一样，只需在外面架一个梯子就行，所以并不难。

当史密斯把自己的想法说出来后，庞库那夫说：“好的，史密斯先生，那我们现在就开始干吧！我这里有鹤嘴锄，把墙壁凿透很简单，你只需告诉我凿什么地方就行了。”

“在这里凿吧！”史密斯说着，把身体强壮的庞库那夫带到了一个地方，那里的石壁是凹进去的，而且凹得相当深，岩石的厚度应该也比别

处薄。

在火把的照耀下，庞库那夫开始凿花岗石。凿的时候，碎石迸得到处都是。在他凿了差不多半个小时后，那普替换他开始凿。又是半个小时后，史佩莱换下了那普。

几个人一直干了两个多小时，他们开始怀疑用鹤嘴锄是否能凿通花岗石。正在此时，史佩莱的最后一锄凿穿了岩石，手里的工具脱手掉在了外边。

“哈哈！太好了！”庞库那夫大喊起来。

他们看出，这石壁仅有3英尺厚。

史密斯凑近壁孔，他看到这里离地面有80多英尺，还看见了海岸和小岛，以及那一望无际的海洋。

阳光通过他们凿出的孔透了进来，照亮了这宽阔宏伟的石洞——他们能完全看清石洞的形状了。石洞的左边宽和高度最多不会超过30英尺，右边却非常宽敞。顶壁是圆形的，高度达到了80英尺以上。

石洞顶壁由不规则的花岗石石柱支撑，形状有些类似教堂中央的圆顶。石柱有的像侧面的扶壁，有些则像椭圆形的拱门，拱门上点缀着各种花纹。在一些角落，他们还看到了很多突出的图案，那些图案很像是挂着的装饰品。通过石柱形成的奇异拱门，有缕缕光线隐隐透出来。

这个山洞真是大自然的杰作，可以说是拜占庭、罗马和哥特式建筑艺术的综合体。大自然用它的鬼斧神工，为他们创造了一个阿尔罕布拉式的福地。

看着这个山洞，林肯岛的居民们发出了由衷的赞叹。他们原以为这只是一个狭小的石洞，没想到却是一个别开生面的神奇宫殿。那普犹如进入了大庙，禁不住恭敬地把帽子摘了下来。

赞叹声和欢笑声充溢着石洞，回声不断地在石洞响起，最后渐渐消失在黑暗的中堂。

“朋友们！我们可以在这里开扇窗，将左边当卧室和仓库，另一边的石洞当书房和博物馆。”史密斯大声说。

“我们应该给它起个名字！”赫伯特说。

“对！起个名字，就叫‘花岗宫殿’吧！”史密斯说。

其他人听到这个名字，都欢呼起来，觉得特别贴切。

火把就要燃烧完了，他们不得不从石洞里出来，准备第二天再来整理这个新住处。

离开前，史密斯再次趴在黑咕隆咚的井口朝里面看了看，并且还仔细听了听。井底没有丝毫声响，甚至连深处本应有的波涛汹涌也没有。他又扔了一根燃烧着的树枝，刹那间，深井又被照亮了，但和上次一样，他还是没看到任何可疑的东西。

如果真有水怪在深井，也会因为没有水流，找不到新出口而重回大海的。他想。

史密斯呆呆地注视着深井，一句话也不说。

庞库那夫走到他的身边，碰了他胳膊一下，大声喊道：“史密斯先

生！”

史密斯一下子回过神来，连问：“什么事？朋友？”

“火把就要灭了！”

“那……走吧！”史密斯说。

一行人离开了石宫，开始向漆黑的洞口处爬去。多卜紧跟在他们身后，还不时地发出咆哮声，不过声音非常低。

从下往上走很不容易，他们走一会儿便要休息几分钟，然后再走。那漫长的花岗石梯阶，如同一个个的中途休息站。

又走了一会儿，他们呼吸到了新鲜的空气。石壁上那晶莹的水珠好像已经被蒸发掉了，火把越发暗淡，那普手里的火把已经有一支熄灭了。为了不在黑暗中行走，他们必须加速前进。

差不多四点钟的时候，史密斯和他的伙伴们终于走出了通道。此时，庞库那夫手里的火把也灭了。

第十九章

5月22日，林肯岛上的居民开始迫不及待地布置起他们的“宫殿”来。和之前那个狭小的“石窟”相比，他们的新住宅“花岗宫殿”则宽

敞安全了很多。

“花岗宫殿”隐藏在坚固的岩石里，不仅海水灌不进来，就是雨水也淋不到。不过，对于旧居“石窟”，他们也没有丢弃，史密斯决定将它开辟成工作作坊。

布置“花岗宫殿”时，史密斯和众人来到海滩，寻找史佩莱凿崖壁时掉落的鹤嘴锄，因为只要找到鹤嘴锄就能发现凿穿花岗石的地方。很快，史密斯就找到了鹤嘴锄，虽然它已经陷进了泥沙里，但还是从微妙的痕迹处将它找了出来。

被他们凿穿的花岗石小洞口处，有几只野鸽子在那里飞进飞出，很可能是将那里当成了为它们造的窝。

史密斯建议大家把石洞的右边隔成几间房，在前方留一条过道，然后在迎面开五扇窗，一扇门，以此采光和进出。

庞库那夫对开五扇窗采光很同意，但对于开一扇门却感到有些多余。因为他觉得，通道就是“花岗宫殿”的天然阶梯，进出并不困难，所以不必重开一扇。

“朋友，我们觉得那个通道进我们的住宅方便，那么其他人要进来也是同样方便的。所以我的想法和你完全不同，我想把那里堵死，可能的话再做一道堤坝，让湖水重新升高，将那入口处完全淹没。”史密斯说。

“那里淹没了，我们又从什么地方进去呢？”庞库那夫问。

“我们可以在外面做个梯子，梯子就用绳子做。当我们收起绳子做的软梯时，就没人能进我们的住宅了。”史密斯又说。

“你怎么那么担心？到目前为止，我们从没遇见过什么猛兽，更不可能有土人。”庞库那夫觉得史密斯简直有些杞人忧天。

“你能肯定没有猛兽和土人吗？庞库那夫？”史密斯看着他问道。

“我们还没检查完整个岛，所以还没办法完全肯定。”庞库那夫说。

“这就对了。截至目前，我们对这岛的了解还只是一部分。再说了，即使岛上没有敌人，也很难说不会有外面的敌人进入海岛。太平洋的某些地方是异常危险的，我们不得不防。”史密斯说。

史密斯的话没有错，庞库那夫没再说什么。最终，大家接受了史密斯的在“花岗宫殿”的正面开五扇窗和一道门的建议。除此之外，他们还需要开一扇向外凸出的大窗户，以及几个椭圆形的小窗孔，目的同样是为了采光。同时，他们还打算将有着奇妙圆顶的中堂作为一间主要房间。

高出地面约80英尺的“花岗宫殿”正面，由于向着正东方向，所以太阳一升起，首先照到的就是它。如果从“石窟”的乱石堆中画一条垂直线到地面的话，“花岗宫殿”的峭壁处正在这条垂直线与感恩河口的峭壁凸出处中间。

因为有这些凸起部分的阻挡，使东北风无法从正面吹，只能从侧面吹过来。另外，史密斯还计划在将窗框做好前，做一些避免室内遭受风吹雨打的特制百叶窗，而且这种百叶窗还能在必要时隐蔽起来。

显然，他们的第一步工作是凿洞。不过如果只靠鹤嘴锄的话，很可能需要很长的时间才能完成。好在有万事都能的史密斯，他制作出的硝化甘油还剩了一部分，正好可以拿来使用。

史密斯将这种硝化甘油炸药放在选定的石壁上精准炸开，随后用鹤嘴锄和铲子将门窗凿成他们需要的形状，并将边缘地方磨平。

这样的工作连续做了几天，当早上的阳光通过他们开的窗户透进“花岗宫殿”时，连里面隐蔽的角落都照亮了。

根据史密斯的原定计划，他们下一步是将石洞分成临海的五间空房。然后将右边开的那扇门作为进出口，外面安放好软梯，然后在石洞里隔出30英尺的厨房、40英尺的饭厅和40英尺的寝室。

当然，还有庞库那夫提议的会客厅也少不了，再向右就是大厅。

他们设计的所有房间都没有把石洞占满，因此，他们还打算设计出走廊和仓库。这样的话，他们的一些工具、食品以及储备物资就都能放进非常适合储存东西的仓库了。当他们把在岛上搜集到的各种物产和动植物都放进仓库时，也就不担心它们受潮了。况且仓库很宽，他们能够将这些东西不重叠地挨个放着。

除了这些地方可以利用外，大石洞上方还有很多小石洞，也是可以供他们随意使用的，而这个小石洞的存在，像极了他们新居的阁楼。

做好一切计划后，下一步就是如何实现了。居民们此时又从工兵变成了制砖工人。他们将砖头烧好后，搬到了“花岗宫殿”。

直到此时，他们依然只能通过狭长的通道进洞。进洞时，先爬观望壁，再绕过河岸，到通道里后，向下走200多英尺。如果想要回到高地，就必须朝上爬同样长的距离。

这样做浪费了很多时间，而且到达目的地时已经很累了。因此，史

密斯认为拿软绳做楼梯的事情不能再拖了。这样当他们把梯子收起来时，从外面就完全看不出有通向“花岗宫殿”的道路了。

软梯很快就做好了，做工非常讲究。用爬藤植物的坚韧纤维做梯帮，软梯犹如粗索般结实；横档是用红杉的树枝做的，轻巧又结实。这一整套工序均由做绳梯的专家庞库那夫完成。

此后，他们又用一些植物纤维结成了一些绳子，在门上拴起了一个轱辘。有些类似于起重机的功能。

就这样，他们开始毫不费力地运砖头了。由于运输上简化方便了很多，所以内部的装修也很快就启动了。砖头他们有不少，石灰也不缺。很快，隔间的初步制作就完成了。刚开始的时候，“宫殿”看起来还是很简陋的，不过当他们按照一步步的计划，把房间和仓库都隔起来后，这里就有了“宫殿”的豪华气派。

做这些工作的时候，史密斯亲自拿着锤子、刮刀带头去做，并且做得顺手又完美，给大家树立了很好的榜样，让他们工作起来劲头更足，更有信心了。

爱说笑的庞库那夫，不断地给他们这个团队制造着笑料，他一会儿做木工，一会儿又做绳索工，再一会儿当泥瓦工。对于史密斯，他更是佩服得五体投地。他甚至觉得史密斯是一个万能博士，没有他解决不了的事情。

当然，现在还有一些问题需要解决，比如衣服，这是一个比较严重的问题。还有像冬季室内的照明，以及怎么利用岛上那肥沃的土地、怎样把野生植物变成栽培植物等等。一切的一切，在史密斯的策划下，一定都可以顺利完成。

庞库那夫经常说，他还有个梦想，那就是能开凿几条运河，这样就能运输岛上的丰富物产了，甚至还可以开矿，制造各种工业生产所需的机器。还可以修铁路，让铁路在林肯岛上像一个个密集的蜘蛛网一样，将各个地方都联系起来。

史密斯任由庞库那夫在那里自言自语，他不想让对生活充满希望的勇士扫兴，因为他知道信心是能感染人的。所以他一边听庞库那夫说，一边微笑，丝毫不提他们日后可能遇到的困难。

他不想告诉大家，在这航线以外的太平洋地区，也许他们一生都无法得到人类的援助，所以他们一切都必须靠自己，不然什么都得不到。因为林肯岛和其他任何一个岛屿都隔着很远的距离，同时他们也无法造出很好很大的船，又不能驾着小船去航海……

也许正像庞库那夫所说，鲁滨孙奇迹般地获得了一切，他们所处的环境要比鲁滨孙强，同样可以获得一切。

是的，对这些精力旺盛的人来说，只有懒汉才会死在这里，他们是可以获得成功的。

在近段时间的工作中，赫伯特一直表现得非常积极和突出。聪明活泼的他，学什么都很快，做什么都做得非常好。史密斯越来越喜欢这个优秀的少年。而赫伯特对史密斯也带着尊重和崇敬的心情。两个人如此亲近，并没让庞库那夫产生嫉妒的心理。

那普和任何时候一样，一直勇敢、热心、忠诚无私地表现着自己的美好品德。他像庞库那夫一样，崇拜着他的主人，却表现得并不热烈。每当庞库那夫兴高采烈地说着什么的时候，那普总是做出“这有什么稀奇”的表情。不过，庞库那夫和那普很快就成了好朋友，并不见外地

用“你”来互称对方。

在他们做这些事的时候，史佩莱也一直和大家一起辛勤工作，而且干得非常熟练，丝毫不比他的伙伴们差。这一点也让庞库那夫很吃惊，他没有想到，这个新闻记者不仅能够丝丝入扣地分析问题，而且做起事来也毫不含糊。

5月28日，软梯装好了。软梯装在80英尺的垂直高度，阶梯达到了100级。让他们感到幸运的是，离地40英尺的峭壁上有一个凸起的地方，史密斯正好利用这个凸起的地方，将软梯分成了两截。这样的话，他们用鹤嘴锄又仔细地将凸起部分凿开，以此形成了一座平台，最后把第一段的梯子由此系住，第二段梯子的上端固定在平台上，下端系在“花岗宫殿”上，这样，整个软梯的摇晃程度就减弱了很多。而且仅用这根软绳，采用分段方式就能到达“花岗宫殿”。

此外，史密斯还计划装置一种水力机械，这样居民们去“花岗宫殿”就能毫不费时费力了。

原本就有着灵便身体的居民们很快就习惯了用软梯上下，而这一切也都离不开庞库那夫的指导。庞库那夫对此的熟练得益于他是个爬惯了桅杆和帆索的水手。

当然，在大家都习惯使用绳索的时候，多卜可就麻烦了，必须经过严格训练才行。这只可怜的有着四条腿的动物，虽然很不愿意接受这种训练，但在庞库那夫的耐心教导下，竟然也能勉强攀爬了。甚至不久后，它爬软梯的样子就可以和马戏团的动物媲美了。

面对这样的“徒弟”，庞库那夫感到非常骄傲。不过，有时候庞库那夫也不需要多卜自己爬，而是背着它爬，对这一点，多卜也是坦然接

受。

必须要说的是，当他们在做上述工作的时候，寒冷的冬季马上就要来了，大家因此也没忘记食物的问题。这样，史佩莱和赫伯特就成了大家推举出来的食品采购员。

他们每天都要抽出好几个小时去打猎。当然，到目前为止，他们活动的地方也只局限于啄木鸟林以及河的左岸一带。之所以这样，就是因为没有桥梁和船只，他们不能过感恩河。

而被他们命名为“西遥”的大片密林，他们还没有去探测过。对于这么重要的探险工作，他们计划等开春后，天气暖和时再进行。好在啄木鸟林是鸟兽聚集的地方，而且还有袋鼠和野猪，他们带着标枪和弓箭穿行在里面时，经常能打到很多野味。

此外，赫伯特还发现了一个适合兔子生长的地方。在湖的西岸，有一片潮湿的草地，杨柳摇曳，各种香草散发出阵阵清香。那里有兔子们非常喜欢吃的大茴香、香薄荷和很多唇形芳香植物。

史佩莱认为那是大自然形成的天然养兔场，所以必定有兔子，没有兔子倒奇怪了。

于是，他和赫伯特仔细搜寻起来，结果虽然没有看到兔子，但却发现了很多珍贵的植物，对赫伯特这个“自然学家”来说，认出它们毫不费力。赫伯特很快便搜集了一些迷迭香、薄荷、郭公草……这些草有着一定的药用价值，有的能治肺病，有的则能当收敛剂，有的还能做退烧药，有的甚至能预防痉挛或风湿。

等他将收集到的这些嫩芽拿回去后，庞库那夫问他做什么，他

说：“这些是草药，生病时可以吃。”

“岛上可是没有医生的，我们不可以生病。”庞库那夫说得一本正经。

赫伯特没有回答他的话，只是继续去搜集，而“花岗宫殿”里的每个人都对赫伯特的做法表示赞赏。除了这些草药，赫伯特还采摘了一些可以用来泡水喝的北美洲“薄荷茶”。

而在此期间，工夫不负有心人，赫伯特和史佩莱找到了兔子的居住地，那里满是窟窿，像筛子似的，密密麻麻的。

“我们找到兔子窝了。”赫伯特非常兴奋。

“不错，是这儿！”史佩莱也很高兴。

“可它们都在家吗？”

“不知道，很难说！”

当然，这个问题他们很快就解决了。因为他们话音刚落，便有成千上万只小动物从四面八方涌了出来，而且飞快地向远方逃去，跑得非常快，连多卜都追不上。

两位“猎人”和他们的狗在追赶了一番后，还是让那些动物逃跑了。不过史佩莱并没有死心，他决定怎么也要逮住一些，最好能逮住六七只。

当然，逮住的这些他只想用它们来充实食品库，等到有机会时，他们还可以将这些逮住的兔子进行圈养。

要想捉住这些动物并不难，他们只需在洞口布置一些圈套就行了。不过，他们当时并没有那样的圈套，也没什么东西可以制作成圈套。他们只能到那筛子似的每个洞眼前，将棍子伸进去搅一番。

没有别的办法，他们只能“守洞待兔”。

差不多过了半个小时后，他们在洞口逮住了四只兔子。这种啮齿动物和欧洲的差不多，叫美洲兔。

他们将捉住的兔子带回“花岗宫殿”，晚餐时，它便作为主菜被端上了餐桌。没有人轻视这些美洲兔，因为它们的肉实在是太美味了。这是他们寻找到的一个很有价值的资源，而且还是个貌似永远都享用不尽的资源。

5月31日那天，他们隔离房间的工作也完成了。他们又开始想着给房间添置家具，不过这项工作他们计划等漫长的冬季来临时再完成。

他们将隔出的第一间房作了厨房，并在里面砌了烟囱。当时，这些业余的工人们觉得想要把烟通到外面去非常难，而史密斯也觉得凿个出烟口通到高地上不太可能，最简单的办法就是在厨房的窗子上开个小洞，然后用砖头砌个烟囱，将烟囱做得像铁炉子的管道一样连到洞口。

不过，遇到有风的天气，这样的烟囱也会产生倒烟。但由于迎面吹来的风并不多，而且作为厨师的那普并不计较这些，所以也就这么做了。

等到他们把内部装修完之后，史密斯便去堵湖水原本的出口了，这样做后，除他们外，也就没人能进来了。

在做这些事的时候，他们计划先让大块岩石滚到入口，然后将入口

牢牢地堵住。当然，史密斯并没按照他原来的计划去筑堤坝，让湖水恢复原有的高度去淹没洞口，只是在用大岩石堵的入口缝隙处种植了一些野草和灌木，以便在明年春天来临时，让那茂密的草木将入口完全隐藏。

同时，史密斯还计划用瀑布将淡水引到他们的新居来。于是，他在地面上凿了一道通向他们的“花岗宫殿”的小沟。就这样，源源不断的清澈湖水便流进了他们的厨房，每天的输水量在25加仑到30加仑之间。可以说，这条小沟很好地解决了他们用淡水难的问题。

如今，一切工作差不多都做好了，而这些工作他们做得非常及时，因为寒冷的季节眼看就要到了。有着厚厚百叶窗的正面窗口，关闭时特别严实，只等史密斯有时间时做玻璃装上了。

为了让他们的新居变得更美观，史佩莱还将各种各样的植物和浮草装饰在了窗子周围那些凸起的岩石上。瞬间，窗口便像镶在了美丽的画框中一样，清新又淡雅，非常具有艺术性。住在这座充满了艺术感的又舒适又安全的新居里，居民们都有了一种自豪感和成就感。

他们从窗口向外面径直看去，辽阔无边，能够看到整个联合湾；向北看，能看到上颚角和下颚角；向南看，能看到兽爪角。

确实，这一切都让他们非常满足，无法不骄傲，不自豪。庞库那夫面对他们的新居更是赞不绝口，甚至风趣而形象地称这是“五层楼的豪华公寓”。

第二十章

进入6月份，冬季来了。

此时，林肯岛相当于北半球的12月。冬天的林肯岛，狂风暴雨就没有停过。不过因为有了“花岗宫殿”，林肯岛的居民们面对这种恶劣天气，完全可以高枕无忧，丝毫不用担心。而他们当初的“石窟”就不一样了，不仅无法抵挡严寒的入侵，而且还有汹涌的潮水往里面灌。

显然，史密斯之所以要找“花岗宫殿”，就是因为他已预料到会有这样的事情发生，所以才做了这些准备。

不仅对“人”过冬做了安排，史密斯甚至还将放置在“石窟”里的炼铁工具和熔炉都早早做了安排。

在冬季的整整六个月的时间里，居民们没有去打猎，也没有去捕食，只是做了一些杂活，因为食品库里储备的食物足以让他们安稳地度过这段时间。

庞库那夫在闲着没事时建议做些捕兽机，他对此事乐此不疲，不久便用爬藤做好了几个圈套。此后，他们便每天都在美洲兔的居住地捕食一定数量的啮齿动物。

有了这些源源不断的啮齿动物，那普几乎整天不闲地忙着腌肉、熏肉，以保证大家吃到美味的食物。不过，最让他们感到头疼的是，他们身上穿的，仍然是气球降落时的那身衣服——已经没有其他衣服可穿了。

因此，他们开始讨论做衣服的事。原来的衣服虽然暖和而结实，而且因为穿时比较爱惜，也没怎么烂，但他们需要换装。而且，在严寒的

冬季，穿那样的衣服也会冷得受不了。

万事都难不住的史密斯也在为此事犯难。虽然他们解决了最需解决的住房和食物问题，但穿衣问题还是应该提上日程。不过即使想到了解决的办法，等做好也已过了冬季了。

史密斯心里已经有了打算。他记得他们去富兰克林山上探测时，曾看到那种莫伏鹿羊，不过这需要等天气转暖时再去捕猎。只要有了这些羊毛，他就会有办法将羊毛做成既暖和又结实的衣服。当然，具体该怎么做，他还在考虑。

史密斯现在急需解决的是在不添加衣服的情况下，如何安稳地度过在岛上的第一个冬季。

“也不难，我们就在‘花岗宫殿’里待着，像烤肉一样地烤我们就行了。反正这里的燃料多，不用节省。”庞库那夫说。

“就是，而且林肯岛的纬度高，冬天应该不会太冷。赛莱斯，你曾说过，35°就相当于北半球的西班牙对吗？”史佩莱说。

“是这样的，不过西班牙的冬天也很冷，冰雪都少不了，所以林肯岛最冷时应该也会冷。当然，这是个海岛，气候应该比西班牙稍稍暖和一点。”史密斯说。

“为什么海岛的气温会暖和一些呢？史密斯先生？”赫伯特有些不明白。

“因为大海就像一个巨大的贮藏器，它会将一部分夏天的热量储存起来。这样到了冬天的时候，它就释放出一些热量来，所以能够保证沿海地方的温度适中。虽然冬天的气温会比夏天低很多，但也会比其他地

方的冬天稍高一些。”史密斯解释说。

“哦，这些问题到最冷的时候自然就知道了，不用再谈了。反正我不管冬天冷不冷，我能知道的是，冬天的白天肯定很短，夜晚很长，我们还是考虑怎么照明吧！”庞库那夫说。

“这非常容易！”史密斯说。

“容易什么？你指容易谈吗？”庞库那夫问。

“这是一个容易解决的问题。”

“可我们要什么时候开始解决呢？”

“明天吧，我们明天先去打海豹。”

“是为了做蜡烛吗？”

“没错，我们要做蜡烛！”

史密斯说出了他的计划。对于用海豹做蜡烛，这计划执行起来完全可以，因为他们有石灰和硫酸，海岛上也有足够多的动物给他们提供制造蜡烛所需的脂肪。

6月4日是个星期天，也是圣灵降临节。按照习惯，居民们要休息一天。

停下了所有工作的居民们对着苍天做了祷告，说了很多感恩的话。如今，岛上的他们已经和刚刚降落到着陆岛时的落难者不同了。他们没有祈求什么，他们只是感激上苍。

6月5日，天气虽然不是很好，但他们还是向着陆岛出发了，他们需要在退潮时渡过海峡。于是，他们决定先造一只船，而且这船一定要尽量造得结实好用。

因为有了船，对他们来说，交通也就便利多了，以后就是去海岛西南部进行大规模的探测，也能沿感恩河顺利前行了。而这项探测工作，他们决定等天气好转时进行。

海豹有很多，可他们只有标枪。但即使这样，还是有六只被他们毫不费力地刺死了。那普和庞库那夫就地开始剥皮，他们只需带着皮和脂肪回“花岗宫殿”就行了。脂肪做蜡烛，海豹皮做皮靴。海豹肉不好吃，他们舍弃了。

最终，他们带着300磅的脂肪和六张海豹皮回去了，而那脂肪全都用在了做蜡烛上。

制造蜡烛并不难，虽然无法做到完美，但至少可以做得实用。史密斯手里有现成的硫酸，所以他就将硫酸和中性脂肪放在一起加热，然后分离出了甘油。最后，又从这些新的化合物里，用开水分离出油脂、硬脂和人造奶油。

为了让制作工序更简单，他还使用了石灰来碱化脂肪，这样很快就得到了一种带着石灰质的肥皂。这种肥皂特别容易被硫酸分解，同时，硫酸也让石灰沉淀，进而有了硫酸盐，并游离出脂酸来。

脂酸又分离出了油酸、珠酸和硬脂酸。油酸因为是液体，所以只需给这三种混合物施加足够的压力就能提取出来，而其余两种就是制造蜡烛的原料。

整个制作过程不超过24小时。制造好后，他们又做了试验，并用植物纤维做了蜡烛芯，将其放在熔化的蜡油里，然后用手去捏制，最终捏成了地道的油脂蜡烛。

当然，唯一欠缺的是蜡烛的外表不够光滑，颜色也不够白亮。

没有在硼酸里浸泡过的蜡烛芯无法在燃烧过程中通过半熔化随蜡油燃尽，但史密斯还是采用了一系列措施让它达到了这个要求。

有了蜡烛，“花岗宫殿”里的居民再也不怕漫长的黑夜了。

拥有了蜡烛后，仅仅在一个月內，他们就做了很多事，甚至还把一些粗糙的工具进行了改良，让其变得更精致，同时也新添了一些工具。

首先就是制造了剪刀。有了剪刀他们才开始了进岛后的第一次理发。当然，剪刀还无法让他们刮脸，但至少可以将他们的胡子剪得短一些。虽然赫伯特没有胡子，那普的胡子也很少，但其他三个人的胡子却很多，已经是满脸胡须了，迫切需要这把剪刀。

同时，他们还做了锯子。虽然锯子制作起来很麻烦，但最终他们还是做成了，只是使用时必须用很大的力气才能将木头锯开。

有了锯子，他们便做了很多的桌子、凳子和碗柜等，同时还做了床架，并在床上铺上了草垫，以此替代被褥。不仅如此，他们还为厨房做了食品工具架，以便在上面摆放烹调用品。最后还做了砖炉。

有了这些东西，整个厨房便变得井井有条了。在厨房工作的那普，也有了在化学实验室工作的感觉。

在做完各种生活用具后，居民们完全将自己变成了木匠。他们开始

想着怎么在因为爆炸而产生的瀑布上搭桥了，而且决定搭两座桥，一座搭在观望壁那里，另一座则搭在高地那里。由于有道水流把高地和岸边隔了开来，所以他们想去海岛北部的话，必须涉水才能过去。为了避免涉水，又不得不去红河发源地，这样就只能绕道了。但如果能在观望壁和高地处各搭一座长20到25英尺的桥梁的话，那么他们的出行就会变得简单多了。

当然，架桥这项工程最需要的就是木头，这对他们来说不是难事，仅仅用了几天时间就架好了两座桥。

有了这两座桥，那普和庞库那夫去沙丘附近的蛤蜊场也就容易多了。他们甚至还造了一辆简易粗糙的车代替筐子，拉回了好多蛤蜊，并将这些蛤蜊放在了感恩河的河口。

很快，蛤蜊在岩石丛中繁殖起来，并形成了新的蛤蜊场。这些软体动物非常美味，居民们每天都会吃一些。

虽然林肯岛的居民们只探测了林肯岛的一小部分，但由此可见，仅这一小部分，也已经完全可以满足他们的需要了。倘若他们还能深入到更多隐蔽的地方，到感恩河和甩尾角间的森林区去打猎，将可能发现更多的新物产。

所以，居民们是不满足于发掘一小部分海岛的。虽然肉类和蔬菜他们都不缺，找来的木质树根经过一段时间的发酵后又能给他们提供带着酸味的饮料，在饮料里加入一些从养兔场采来的香草后，又能变成芬芳可口的茶……但他们还在继续发掘着。

不仅发掘，他们还搞发明，找到了不用甘蔗和甜菜就能炼制糖的办法。这种糖是用一种叫“酿蜜枫”的树，经过蒸馏后得到的液体。

“酿蜜枫”是枫树的一种，分布在温带地区，林肯岛上有很多。当然，“酿蜜枫”经过分解，还能分解出矿物质——盐。唯一可惜的是没有面包。

也许在不久之后，居民们就可以在岛上找到一种能替代面包的食物了。

这不是什么天方夜谭，因为南部森林里是能够找到西米和面包树的，不过直到现在，他们都没有发现这种宝贵的树木。

然而，在这件事情上，上天不久就让他们看到了希望。虽然上天赐给他们的东西并不大，甚至可以说很渺小，但这种东西就是史密斯再绞尽脑汁，发挥全部智慧也创造不出来的。

这宝贝是在赫伯特补坎肩时，无意中在衣服夹层里发现的。

这一天，天空下着倾盆大雨。居民们都聚集在“花岗宫殿”的大厅做事情，正在补衣服的赫伯特突然大声喊着：“快看呀！史密斯先生，有一粒小麦！”

说着话，赫伯特把那粒小麦，那粒独一无二的小麦粒拿给了伙伴们看。那是从他坎肩口袋的小窟窿掉到夹层里的。

原来，这麦粒是他们在里士满的时候，赫伯特喂庞库那夫送给他的几只鸽子时，遗漏在衣服里的。

“小麦？一粒小麦？”史密斯急忙问。

“是的，史密斯先生，是一粒小麦，不过只有一粒！”

“哈哈……孩子，看来我们的日子会越过越好了。不过，这粒小麦它能做什么呢？”庞库那夫大笑着说。

“可以让我们做面包！”史密斯说。

“是面包吗？会不会还有蛋糕、馅饼？哈哈……我看呀，这粒小麦做成的面包，一定不会撑破我们的肚皮。”庞库那夫又笑了起来。

赫伯特听了庞库那夫调侃的话，也觉得这粒小麦没有太大的意义，正打算将它扔掉，但被史密斯阻止了。

史密斯将小麦粒接了过去，仔细地看着。在看到小麦粒没有任何损伤，非常完整后，他对庞库那夫严肃而认真地说：“庞库那夫，一粒小麦能结多少个麦穗你知道吗？”

“我觉得会结一个吧！”庞库那夫有些奇怪史密斯为什么要问他这些。

“不，是10个。庞库那夫，那么一个麦穗又会结出多少粒麦子你知道吗？”

“我怎么会知道呢？”

“差不多是800粒！”史密斯冲庞库那夫说完，又对大家说：“因此，如果我们将这粒小麦种下去，成功的话会收到800粒小麦；再将800粒种下去，收到的是64万粒；将这64万粒种下去，收到的就是5.12亿万粒；当把5.12亿万粒种下去后，收到的就是4000亿粒……总之，情况就是这样！”

居民们默默地听着，听得哑口无言。这是些让他们感到惊讶的数

字，但这数字又是真真实实可能存在的。

“很难想象吧，朋友们！这还只是一般繁殖等差级数。不要以为每个麦穗结800粒麦粒就算多了，比起罂粟和烟草来，这些又算得了什么呢？罂粟一粒种子能结32,000颗籽，烟草能结36万颗，如果不限地让它们繁殖，只需几年，地球上都要被这些植物长满了。”史密斯说完停了一下，接着又说：“庞库那夫，现在你说说，4000亿粒麦粒是多少蒲式耳¹？”

庞库那夫摇头：“我可不知道，我只知道我是个大傻瓜！”

“每蒲式耳平均有13万粒，那么4000亿粒就是300万蒲式耳以上。怎么样啊？庞库那夫！”

“天啊！300万！”庞库那夫大叫。

“是的，是300万。”

“你是说在四年之内吗？”

“对，四年之内，甚至都不需要四年，仅两年就够了。根据这里的纬度来看，我觉得每年是会有两次收成的。”

庞库那夫还和原来一样，用他的大声欢呼来表达高兴。

史密斯把脸转向赫伯特：“因此，你发现的这粒小麦对我们非常珍贵。如今，每一样东西对我们来说都是非常有用的，所以朋友们，千万不要忘记这点！”

“不会再忘的，史密斯先生，我们都不会忘记。如果有一天我找到

了一粒能结36万粒烟草籽的种子，我保证绝不扔掉，现在呢？我们要做什么？”庞库那夫说。

“将这粒种子种下去。”赫伯特说。

“对！很小心地种下去，将来能不能收获麦穗就靠它了。”史佩莱说。

“就是不知道它能不能发芽！”庞库那夫又说。

“会的，一定会发芽的！”史密斯说。

这天是6月20日，也是播种这唯一一粒种子的最好时机，因此，当天他们就种了下去。刚开始的时候，有人提议将种子种在盒子里，但经过商议，他们还是决定种在大地上，结果怎样，任凭大自然安排。

当然，虽然结果由大自然安排，他们还是给予了这粒种子特别的关怀，一心想着最终的成功。

这天正好雨过天晴，他们爬上了高高的“花岗宫殿”岗。在那个既能照着太阳，又能避风的地方除草灭虫，将其做成一个优良的田畦，并在上面洒了一层石灰，还装上了栏杆，然后在那滋润的土壤里种上了他们那粒宝贵的麦粒种子。

居民们在做这件事情的时候，如同在为一座大厦奠基石。庞库那夫由此也想起了他那次没有火柴的焦急心情。这次比那次还重要，火要是灭了，他们还有其他方法燃火，但如果这粒种子没了，那就不是人力所能办到的了。

1计量单位。它是一种定量容器，好像我国旧时的斗、升等。一蒲

式耳在英国等于8加仑，相当于36.268升。

第二十一章

庞库那夫每天都要去那块“麦田”，如果有什么昆虫敢去那里，一定会很倒霉的，因为庞库那夫绝对不会饶过它们。

6月底的时候，在一连几天的阴雨过后，天气变得异常寒冷。29日那天，温度甚至达到了0.6℃。

6月30日，也就是北半球12月31日那天，正好是个星期五。那普说这是一年中的最后一天，不吉利，但庞库那夫却说这就说明新年的第一天是个大好日子。

不管怎样，旧年底，新年初的这些天是寒冷的，感恩河的河口甚至已经结上了冰。很可能在不久之后，整个格兰特湖面也会结冰的。

在这样寒冷的冬天，他们需要准备很多木材。机灵的庞库那夫在河水还没完全冻封的那几天便开始用木筏运送大批木柴了。河水除非冻住，不然就会永远不知疲倦地流动着，这也为他们运送木柴提供了方便。

除了在森林里获取燃料，他们还需要从其他地方获取。于是，他们又去了富兰克林山的支脉下，运了几车煤炭回来——在最冷的时候，煤炭所产生的高热量才是最受他们欢迎的。

7月4日，温度更低了，达到了-13℃。

由于大家平时做任何事都是在饭厅，于是就在饭厅砌了一个火炉。

“花岗宫殿”里的淡水是史密斯从格兰特湖引进的，虽然天气很冷，但却并不妨碍他们从冰面下的湖水里引水。

那一股股的淡水还是让史密斯非常满意的。为了储存这些淡水，他还在仓库后凿了一个蓄水池，当水池满了后，多出来的水会自然通过地下井流入海里。

干燥的天气让居民们很想去感恩河与兽爪角之间探险，那里有一片广阔的沼泽地，很可能有水禽，居民们觉得一定能够打到很好的野味。因此，他们很快做好准备，整装待发。

从“花岗宫殿”到那块沼泽地大约有八九英里的路程，一来一回大概需要一整天时间。由于那块地方以前没去过，所以居民们决定全都参加这次远程探险。

7月5日的早上六点，天刚蒙蒙亮，史密斯、史佩莱、赫伯特、那普和庞库那夫手拿标枪、圈套、弓箭，带着干粮，从“花岗宫殿”出发了，多卜跑在了最前边。

此时的感恩河已经结冰，想过去的话，最近的路就是从冰面上过去。不过史密斯最后还是说：“冰面是不能代替桥梁的。”

所以他们接下来的任务就是在这里也架一座桥。

当居民们从冰面上到了感恩河的右岸后，他们有些激动，因为这是他们第一次到达这个地方。这里有美丽的松柏林，松柏林上还挂着美丽的雪花。

在穿越松柏林的时候，还没走到半英里，多卜便惊动了飞禽走兽。飞禽走兽们飞的飞，跑的跑，全都去了空旷地带。

看着那些奔跑的动物，赫伯特说：“这些看起来有些像狐狸！”

不错，那些奔跑的野兽中就有一群狐狸，它们个子很大。在多卜追赶它们的时候，还会发出很大的嗥叫声。叫声将多卜吓了一跳，怔在了那里，而这些狡猾的狐狸也就趁多卜怔住时逃得无影无踪了。

不懂动物学的多卜，自然会被那骇人的叫声吓住。不过那些叫声却恰恰暴露出了它们的身份，赫伯特很快就认出，那些浑身灰红，黑尾巴上长着一些白毛的狐狸是“白狐”。

赫伯特告诉大家，这种狐狸通常出现在智利、马尔维纳斯群岛和美国北纬30°与40°之间的区域。不过，让赫伯特有些遗憾的是，多卜竟然没能捉住一只。

“它们的肉好吃吗？”庞库那夫问。对他来说，海岛上的动物，他只关心好不好吃。

“不好吃。不过，动物学家们至今都不知道它们长着昼眼还是夜眼，有些还将它和狗归为一类。也不知道这种归类是否正确。”赫伯特说。

赫伯特能知道这些，可见他对动物学的兴趣和了解。史密斯听他这么说，用赞许的眼神看了他一眼笑了。而庞库那夫在得知这种狐狸的肉不好吃后，也就不把它放在心上了。

不过，他也想到，如果在“花岗宫殿”建家禽场的话，一定要多加防范，不能让这些狐狸光顾。在他把这种担心说出来后，大家也都表示赞

同。

从这一带绕过去后，居民们突然发现有一段海滩是被海水冲击着的。

此时正好是早上八点，天气虽然寒冷，却也很晴朗。在又走了一段时间后，太阳照在身上暖洋洋的。由于没有风，史密斯和同伴们也就不再感到寒冷的侵袭了。蔚蓝的大海风平浪静，如同地中海港湾的晴天一样。兽爪角向东南方拐过去，伸向了四英里以外的地方，好像一把弯刀放在那里，越是接近尖端越细。

沼泽地在左边，边缘地带形成了一个尖尖角，正被太阳火辣辣地照着。

联合湾那边很空旷，连一片沙滩都没有，更没有做大海屏障的东西。此时如果有船只在这里遇到东风袭击，想必也是无法躲避的。

海面很平静，没有浅滩，更没有礁石。陡峭的海岸让他们意识到，此地的沿岸一定是万丈深渊。

向西四英里是西遥森林的边缘。对林肯岛的居民来说，这里可算是冰雪侵袭中的南极岛或荒凉海岸了。

到了吃饭的时间，他们停下来没再走。那普在点燃木柴和干燥的海藻后，又烤了一些肉，沏了几杯薄荷茶。

一行人吃着烤肉看着周围的环境。相对于其他地方，这里应该是林肯岛最贫瘠的地方，和西部形成了鲜明的对比。这不禁让史佩莱感慨，如果当初他们是降落在这里的话，很难说会不会像现在这么活着。

显然史密斯也想到了这一点，他说：“如果我们掉在这里，很可能上不了岸。这里的海水太深了，连礁石都没有。‘花岗宫殿’最起码还有沙滩，那边小岛的环境，也给我们提供了脱险的条件，可这里却什么都没有。”

“真是太不可思议了，林肯岛的地形会这么复杂。照理说，如此复杂的地形，只有陆地才会有。林肯岛之所以物产丰富，土地肥沃，是不是墨西哥暖流经过的原因呢？而它的北边和东南边好像是北冰洋周边一样。”史佩莱大发感慨。

“是呀，亲爱的史佩莱！”史密斯连连点头，看着四周继续说，“我也发现了这个问题。这个海岛的地形和自然状况太奇特了，它似乎囊括了整个陆地的全貌。我想，如果说这里以前是一片陆地，我都不会觉得奇怪。”

“什么？你是说，太平洋中间有大陆？”庞库那夫大声问。

“即使这样，也没什么奇怪的。难道澳大利亚、新爱尔兰和太平洋里的群岛，被称为第六大洲有问题吗？难道它们没有欧洲、亚洲、非洲及美洲重要？我觉得，大洋里的岛屿，很可能在以前是大陆上的高脊。当大陆沉入水里时，它们就形成了岛屿。”史密斯回答说。

“难道它们也像过去的亚特兰蒂斯一样？”赫伯特问。

“不错，孩子……非常有这个可能。”

“林肯岛会是大陆的一部分吗？”庞库那夫又问。

“嗯，很可能是一个大陆的一部分，因为岛上丰富的物产说明了这一切。”史密斯说。

“是的，不然怎么会有那么多的飞禽走兽？”赫伯特肯定地说。

“很有道理，孩子，你这一说倒让我找到了根据。按我们一直以来的观察所得，林肯岛上有很多动物，更有趣的是，这些动物的种类非常多。能出现这种情况，很大的可能就是这里原是大陆的一部分，因为大陆沉入太平洋，留下了这片岛屿，自然也留下了这些物种。”

“那是不是可以这么说，总有一天，很久以前遗留下的这些大陆也会沉下去？到了那时候，是不是可以说美洲、亚洲也就没有陆地了？”庞库那夫不是很相信。

“不，那倒不至于，因为旧的大陆不在，新的大陆还是会出现的，毕竟成千上万的微生物会为新建大陆而努力。”史密斯说。

“为新建大陆忙碌的微生物是什么？”庞库那夫又问。

“这些微生物叫珊瑚虫。正是因为它们不断地兴建，才形成了像库力梦岛和太平洋中的很多珊瑚岛。这些微生物非常微小，它们聚集的一厘米就可能有4700万个珊瑚虫。这些微生物能生成石灰，石灰又能在海底形成大块物质，这些大块物质会像花岗石一样坚硬结实。古时候的初期，陆地通常是利用大自然的火形成的，现在由于地壳运动的力量减退，所以微生物就接替了火的职能。经过无数珊瑚虫的努力，随着时间的推移，终有一天，太平洋会变成一片大陆，供我们后代去开发和居住了。”史密斯说。

“那一定需要很长很长的时间。”庞库那夫说。

“做这些事，大自然有的是时间。”史密斯说。

“还要新大陆做什么？适合人类居住的地方已经够多了。”赫伯特说完，停了一下又说：“当然，大自然创造出的东西，总有它的用途。”

“是的，世间万物的存在，都有它的用途。所以我觉得，这也就是为什么珊瑚岛存在的地方，一定会有新大陆的原因。”史密斯说。

“那给我们详细讲讲这些吧！史密斯先生。”赫伯特说。

“科学家们认为地球以后一定会灭亡。即使没有灭亡，动植物也是最先无法生存的。到了那个时候，地球将会变得异常寒冷。当然，对于气温为什么会变得寒冷这个问题，科学家们也有一些分歧。有科学家认为地球气温之所以降低是因为太阳的温度降低造成的，也有人认为是地球内部火焰的逐渐熄灭而造成的。这样的影响通常比想象中还大。对我来说，我同意后一种说法。为什么这么说呢？很简单，月亮只是一颗冷冰冰的星球，虽然太阳没有偏向，也给了它热量，但月球上却是根本无法住人的。月亮之所以这么冷，就是因为它内部的火焰完全熄灭了。既然月球内部的火焰熄灭了，那么其他星球也会有这种情况出现的。当然，我们可以不用去管这些原因。但总有一天，地球会冷却，这种冷却的过程也是一个逐渐演变的过程。

“那么，真的到了那个时候，又会发生什么呢？很可能温带地区在经过相当长的时间后，会像我们的南北极一样不能住人。这时候，人类和其他动植物就会向赤道地带挤去，那时候就有大规模的人口迁移了。到那时，欧洲、中亚地区、北美洲、南美洲都会被放弃，草木也都随人转移，一切动植物都向赤道进发。那么，南美洲的中部和非洲中部将会成为人类的主要居住地。而拉伯兰人和萨摩亚人都会发现，地中海沿岸的气温竟然和寒带一样。当然，也很可能由于大家都往赤道挤，那里的资源不够地球上生物的消费。这都是有可能出现的。不过，自然界有着

非凡的能力，很可能现在就在赤道地区为地球上所有动植物的迁徙打下了基础。比如说一些微生物，它们很可能就是受到自然界的委托，为开辟新大陆而工作的。所以我常常想，朋友们，我们的地球，很可能将来会变得面目全非。当新大陆产生后，原有的大陆就会被淹没，甚至在未来的一些年代，会出现一些像哥伦布一样的人，他们发现了坎波拉素山、喜马拉雅山和勃朗峰所形成的岛屿，甚至还会发现，它们竟是美洲、亚洲和欧洲下沉留下的遗迹。最后也才知道，原来这些新大陆也不能居住。因为热度会消散，这个消散的过程就和一个人去世的过程一样，身体在逐渐冷却。那时候，地球上的生命就很可能绝迹。即使不绝迹，也可能只是维持一段时间。

“到了那个时候，整个地球都可能变得死气沉沉的。当然，等到条件成熟，它们很可能又会复活。朋友们，这所有的一切，实际上都是大自然的秘密。我现在只是从珊瑚虫的工作说到了以后，看来是扯得有点远了。”

“亲爱的赛莱斯，我可不认为你扯得远，我觉得这是预言，都会发生的。”史佩莱说。

“只能说这是上帝的秘密。”史密斯说。

“你们说得都对。不过史密斯先生，你能告诉我，林肯岛是那些小虫子形成的吗？”庞库那夫认真地听完后，问史密斯。

史密斯摇头：“当然不是，它们纯粹是因为火山造成的。”

“那么它们以后会消失吗？”

“有这个可能。”

“但愿它们消失的时候，我们已经不在这里了。”

“不用担心，庞库那夫。它消失的时候，我们当然不会在这里。我们可不会老死在这里，我们终有一天会离开这里。”史密斯说。

“不过，我们还是应该像我们会永远住在这里一样建设我们的家园，我们可不能半途而废。”史佩莱说。

他们的谈话到此为止。吃完早饭，居民们继续前行，直到到了沼泽地的边缘。

这片沼泽地共有20平方英里，向东南延伸，一直延伸到一个圆形的海岸上。这片沼泽地的土壤属于火山黏土，黏土里夹杂着一些像灯芯草、芦苇、野草之类的腐烂植物，形成了一层厚厚的地毯。

沼泽地里的水坑结了冰，在阳光下闪闪地发着光。当然，水坑不可能是由雨水和暴涨的河水形成的。因为沼泽地的水分很可能是由土壤渗出来的，这些带着沼气的水分在天热的时候，很容易让人生病。

在一些水坑里，长着水生植物，水生植物上有成群栖居的野鸭、绿翅鸭和丘鹬密集在这里，它们时不时地扑打着翅膀，似乎一点都不怕人，即使这些居民走近它们，它们也不会飞走。

密密麻麻聚集着的飞禽，如果用枪打的话会打死很多，但居民们只能用弓箭。这样打虽然不如用枪打方便，却也有个好处，那就是用弓箭没有声音，不会惊动其他飞鸟。如果用枪的话，很可能枪一响，飞禽们都飞到其他地方去了。

当然，捕获结果让他们很满意。他们打了一些鸭子。这些鸭子的头是绿的，嘴巴扁平，虽然通体以白色为主，但也夹杂着黄褐色的花纹。

翅膀上还有黑、白、红三色。

赫伯特称这种鸟为“花鳧”。

在捕捉它们的时候，多卜出了很大力。

之后，居民们将这片沼泽地起名为“花鳧沼地”。在这片沼泽地里，他们不仅可以得到大量水鸟，而且还可以寻找一些用来驯养的鸟类。这样以后就能将它们赶到湖边，开辟一个家禽场，当家禽来养。

差不多傍晚五点钟的时候，林肯岛的居民们穿过花鳧沼地，从感恩河的冰面上过去，回到了“花岗宫殿”。

此时，已经是晚上八点钟了。

第二十二章

8月15日，严寒的天气还在继续。虽然没有再出现之前的最低气温，但对岛上的居民来说，天气晴朗还好点，一旦刮起风来，穿得太少的他们会冷得瑟瑟发抖。

庞库那夫有件非常遗憾的事，那就是岛上虽然有许多狐狸和海豹，但却没看到一只熊。如果岛上有熊，他们就可以用熊皮来做衣服，那多暖和呀。

“熊可真舒服呀。我什么都不想要，只想借它身上那件暖和的衣服

过冬。”

那普听了庞库那夫的话笑了：“可是熊不愿意把它的衣服借给你。庞库那夫，它可不是圣·马丁。”

“我们可以逼迫它借。特别是你，那普，你可以向它借的。”庞库那夫半开玩笑半认真地说。

当然，直到目前为止，他们在岛上还没有发现凶猛的食肉动物，一次都没看见过。

即使这样，他们还是没有放弃希望，赫伯特、庞库那夫和史佩莱一直在观望壁和森林边缘布置陷阱，希望能捕捉到大一点的食肉动物。

庞库那夫认为，不管是啮齿动物还是食肉动物，对它们的围捕都是一样的。只要它们能跑进陷阱，就有办法将其带回“花岗宫殿”。

当然，他们的陷阱布置得非常简单，只在地面上挖了一些坑，在坑里放了一些食饵，用气味引诱它们过去，同时还在洞口铺上了一些树枝和野草。

挖陷阱的时候，他们并不是随意去挖的，他们也有选择，选择那些有野兽脚印出现的地方。

自从布置了这些陷阱，居民们每天都要来看。在刚刚开始几天里，陷阱里还是掉进了一些动物，比如他们曾一连三次捉住了在感恩河右岸见过的白狐。

当庞库那夫第三次把白狐从陷阱里扔出来时，非常厌恶地看了它一眼，沮丧地说：“怎么全是你们，你们一点用处都没有！”

“也不是一点用处都没有，它们还是有用处的。”史佩莱说。

“什么用处？”

“用它来引诱其他动物呀。”

大家觉得史佩莱的想法不错，于是，陷阱里的食饵也就换成了死白狐。

除了这个陷阱外，庞库那夫还用一些长而结实的树木纤维做了几个圈套，去兔子的居住地套兔子，效果比用陷阱好很多。不过，虽然捉了不少兔子，但种类却只有一种。

好在单调的兔子肉在那普的精心烹制下，也都变成了美味佳肴，让居民们百吃不厌。

8月份的第二个礼拜，居民们竟然有两次在陷阱里捉到了超过白狐的美味，那就是他们曾在湖的北边见过的小野猪。庞库那夫即使没有吃过这种小野猪肉，也知道它们像美洲和欧洲的家猪一样好吃。

“我要告诉你，庞库那夫，它们不是家猪。”赫伯特说。

“孩子，不管它是不是，可我就要把它当家猪看！”庞库那夫一边说，一边俯下身子到陷阱口去抓小野猪的短尾巴。

“为什么要把它当家猪呢？”

“我喜欢把它当家猪。”

“那你……你是很喜欢猪喽，庞库那夫？”

“是呀，我是喜欢猪，特别是猪腿。如果它的腿不是四只，而是八只的话，那我会更加喜欢的。”庞库那夫说。

野猪有四种，居民们逮住的只不过是其中的一种，是美洲产的一种野猪，叫畜乳。这种野猪的颜色特别深，没有同类野猪所生的那种长牙。

总之，畜乳全身的肉都能吃。就凭这一点，庞库那夫已经很满足了。

8月份已经过了一半，风向开始转向西北，气候也开始变暖，气温虽然有所上升，但天空却飘起了雪花，整个海岛都裹上了一片银装。居民们瞬间觉得海岛焕然一新了。在一连几天的大雪后，海岛上积了差不多两英尺的厚雪。

风越刮越大，即使在坚固雄伟的“花岗宫殿”，他们依然可以听到海水撞击礁石的轰隆声。在一些空旷的地方，雪花甚至会被旋风吹得打转，更夸张的是，瞬间能让雪花在天空形成高高的雪柱。

通常情况下，如果有船只遇到这样的雪柱，都会开炮轰击的。

当然，横扫海岛的暴风雪是从西北方吹来的，所以“花岗宫殿”并没有遭受到正面袭击。

不过，在这风雪怒吼的日子里，雪柱还是让他们感到害怕。

为此，史密斯告诫大家不要出去。于是大家只好从8月20日到25日，整整在“花岗宫殿”里待了五天，听外面的风雪在啄木鸟林嘶吼。他们想，那片树木一定是遭受到了风雪的蹂躏，说不定很多树木都被连根拔起了。

庞库那夫用调侃的语气不停地安慰自己：

“就让风去刮吧！让它们去当樵夫，替我们砍柴吧！”

其实，就算他们想去阻止，也是没有办法做到的。

此时，居民们是多么感谢上苍呀，是上苍给了他们一间结实牢固，如铁桶般结实的住所。当然，在感谢上苍的同时，他们也没忘向史密斯表达谢意。因为这个石洞虽然是上天创造的，但也是史密斯发现的，然后又被史密斯利用了起来，所以他们才避免了受到风雪的摧残，安全地躲在里面。

如果他们不是住在这里面，而是住在用砖头或木头建造在观望壁上的房子，那肯定是无法经受这样的暴风雪的。甚至于那个“石窟”，也是无法住的。因为当海水漫过小岛之后，很可能会排山倒海地灌入“石窟”。也只有住在“花岗宫殿”，才让他们不用担心风吹雨淋浪打。

当然，躲在“花岗宫殿”过冬的居民们并没有闲着，他们将仓库里存放的木料，用锯子锯成了木板，然后又做成了家具。庞库那夫对这些样子笨重的家具非常喜欢，甚至说不管别人拿什么来换，他都不会答应。

就在这段时间里，他们还学会了编篮子。

对于编篮子这项工作，他们完成得非常不错。编篮子所用的原料是柳树，来自湖北部凸起的地方。在那片柳林里，生长着许多紫红色的绢柳。雨季前，庞库那夫和赫伯特曾将它们砍回来，经过加工后，这些柔软且有弹性的柳条便能编篮子了。

刚刚编篮子时，他们没有经验。不过凭借着聪明和机灵，在研究和

回想了曾见过的篮子后，他们最终还是做成了。

编的时候，居民们还互相比赛，看谁做的篮子样式好看。不久，仓库里就增添了很多大大小小、各式各样的篮子。最后，那普还将这些篮子拿去装块茎和南欧松子。

8月末，天气又有了新的变化，气温没有再降下去，暴风雪也停了。居民们又开始为探险做准备。此时，岸上的积雪已经积了两英尺厚了，地面也被冻住了，硬邦邦的，好在行走起来并不困难。因此，史密斯建议大家去爬观望壁。

仅仅只是几个月的时间，一切都发生了很大的变化。森林里，原本一片翠绿的枞树，此时却只看到白茫茫的一片。从富兰克林山到海边，不管是森林还是平原，甚至湖泊、河流也都成了白色。感恩河的河水是在冰面下流动的，因此，在遇到涨潮或落潮的时候，冰面就会因为破裂而发出很大的咔嚓声。

冰封的湖面上，有着无数的飞鸟在展翅飞翔。湖水里的鸭子、丘鹬、水鸭和海鸠全都成群结队地聚集在一起。

从岩石丛中流出的水，形成瀑布后又结成了冰柱。猛一看，就像一个个形状奇特的漏斗倒挂在水流中，煞是好看，像极了一件件文艺复兴时期的艺术品。

森林里被暴风雪损害到何种程度，具体他们还不清楚，需要等到冰雪融化后才能看出。

史佩莱和庞库那夫、赫伯特没有忘记去看他们曾经布下的陷阱。但当他们到了那地方才发现，陷阱也被积雪盖住了。他们小心翼翼地寻找

着，丝毫不敢大意，生怕自己成了陷阱的“猎物”。如果掉进了自己布下的陷阱，不仅危险，而且也很丢脸。

幸好，他们顺利地找到了陷阱。陷阱里没有动物，但附近却留下了很多动物的爪印，其中有些爪印还很清晰。从那些爪印中，赫伯特判断出它们是猫科食肉动物。由此他们也意识到，史密斯说得没错，林肯岛上有凶猛的野兽存在。而且毫无疑问，这些野兽是住在西遥森林里的，因为饥饿，冒险来到了观望壁，甚至很可能已经嗅出“花岗宫殿”有人居住了。

“这些猫科食肉野兽是什么？”庞库那夫问。

“很可能是老虎。”赫伯特说。

“老虎？老虎不是只有热带才有吗？”

“不一定，在一些新大陆，像墨西哥和布宜诺斯艾利斯的巴塔哥尼亚高原都有。而且我们这个岛和拉普拉塔河附近差不多，所以有老虎一点也不奇怪。”赫伯特说。

“既然如此，我们一定要提防，千万要小心。”庞库那夫说。

温度的上升，使岛上的积雪开始融化。又经过了一场雨之后，林肯岛原本的银装素裹完全不见了，整个岛像是被清洗了一遍似的。

尽管天气不是很好，但居民们还是需要补充一些日常需要的东西，比如要去采集一些南欧松子、块茎和酿蜜枫；还要去捉一些兔子、刺鼠和袋鼠等。

为了得到这些，他们到森林里去了很多次。此时才发现，很多树木

都被那场风雪刮倒了。庞库那夫和那普推着大车去了很远的煤层处，挖了很多煤炭回来。一路上，看见他们曾烧陶器的土窑，也已经受到了严重的损坏，6英尺高的烟囱早就被刮掉了。

他们要给“花岗宫殿”再补充一些木柴。看到感恩河的冰面化了，他们便利用河水和木筏，运送了好几趟。然而种种情景让他们知道，寒冷的季节还有一段时间才能过去。

他们还去了一趟“石窟”。当他们看到“石窟”时，更加庆幸在暴风雪的日子里，他们有了别的住处。因为现场的种种迹象表明，海水对“石窟”一定展示过它的威力。

他们看到，潮水曾漫过了小岛，闯进了“石窟”的通道，通道里全是泥沙。而那岩石上，更是积着厚厚的海藻。

在那普和庞库那夫、赫伯特打猎砍柴时，史密斯和史佩莱就去整理“石窟”。庆幸的是，他们炼铁的工具和风箱还完好无损，同他们用沙子保存时的样子一样。

他们储存起来的木柴和煤炭给这个冬季做了贡献。居民们因为有了它们，才没有受到严寒的侵害。当然他们也知道，北半球的2月，温度还会急剧下降。他们在南半球的8月底，正相当于北美洲的2月，所以严寒还会再来。

8月25日左右，下雪天又变成了下雨天。风向也发生了转变，转为向东南方向吹去。天气极度寒冷起来。

据史密斯推算，此时的温度绝对不会高于-22℃。刺骨的寒冷加上狂风，让他们难以忍受。这样的天气持续好几天，居民们不得不第二次

将自己“封闭”在“花岗宫殿”里。他们将原先开着的窗孔都堵了起来，只留一条窄窄的缝隙通风，所以也很消耗蜡烛。

为了节约蜡烛，他们不再节省燃料，将炉火烧得很旺，在取暖的同时还用以照明。

有时候，五个人中的两个也会忍着寒冷到冰天雪地里去，看那因为潮水一涨一落而形成的雪堆。不过很快，他们便忍受不了寒冷，跑回了“花岗宫殿”。因为严寒，每次在他们用双手攀爬软梯的时候，不仅觉得困难，而且还要忍受一阵阵的疼痛，冻僵的手在触摸软梯时，有种钻心的痛，一直从手指传到全身。

为了让空闲时间不在无聊中浪费，史密斯决定让大家在室内工作。

之前我们已经说过，居民们是将酿蜜枫的汁液当糖吃的。他们会将树皮割开一道深深的口子，然后让汁液流入瓶子，最后通过各种方法对瓶子里的液体进行熬制。慢慢地，液体变得发白，形成浓浓的糖浆。

原本大家对这样的东西已经很满足了，但有一天，史密斯告诉他们，他们可以当制糖工人，做出更好更甜的东西，居民们兴奋起来。

“制糖工人？我觉得这工作一定不错！”庞库那夫说。

“是的，这是一项非常精细的工作。”史密斯说。

“太合适我们现在做了！”庞库那夫又说。

在大家听到史密斯说的“精细”时，全都以为需要庞大的场地、复杂的设备和工序。但其实并非如此。这制糖工作不仅工序不烦琐，而且非常简单，只需一道工序就能将那种液体变成结晶体了。

具体做法是，将他们开始做好的糖浆盛在一只很大的土罐子里，然后放在火里熬，让它表面形成一层碎屑。当这层碎屑变厚后，那普要用木刀将它掀起来，避免它加速蒸发，同时也能避免它发焦。

当糖浆在炉火上熬制了几个小时后，就变成了浓缩蜜糖，而且他们这些炼糖工人也浑身热乎乎的了。最后，他们又将蜜糖倒进预先制作好的陶土模型里。

第二天，在蜜糖冷却后，便会凝结成许多糖块和糖片了。这些糖几乎是透明的，只是有些微微发红，味道特别好。

9月中旬，天气还是没能转暖，一直被“囚禁”在“花岗宫殿”的居民们感到非常厌倦。他们几乎每天都要出去一趟，但因为寒冷，总是无法走得太远。待在室内的他们，只得不断地做事，以改善他们的居住条件，一边工作一边聊天。

趁这个时间，史密斯和大家说了很多事，主要是讲科学在实际生活中的应用。他们虽然没有图书馆，但史密斯却是一本可以随时翻看的移动百科全书。只要有问题，他就能为大家解答，所以他们也便不停地“翻阅”史密斯这本书。

时间就这么在无聊和充实中度过。这群乐观而勇敢的人在这时都没有为自己的未来担忧。

9月中旬一过，“囚禁”的日子总算结束了。每个人都在焦急地等待着，期盼着美好季节的来临。即使不是美好季节，严寒天气快点过去也好啊。他们在想，如果能有一件保暖的衣服，那么在这样的季节里，他们可能已经出去打猎很多次了。

打猎，不管是去沙丘，还是去花鬼沼地，只要有飞禽走兽的地方，他们一定会满载而归。

不过，史密斯一直为大家的安全和健康着想，建议大家不要去森林深处。而大家也都依照他的意思去做了，轻易不外出。

当然，必须要说的是，在被“囚禁”的生活里，也有无法忍受的，那就是庞库那夫和多卜。

多卜这只忠诚的狗实在无法忍受“花岗宫殿”的狭小空间，即使待在里面，它也不停地在每个房间乱窜，不时地表达着被“困”在此处的不满和烦闷。

史密斯留意到，每次多卜去仓库后面那通向大海的黑井时，都会发出奇怪的咆哮。

井口是用一个木盖子盖着的。多卜总是绕着那井口转，有时候甚至还会将爪子伸到井盖下面，像是要将木盖掀起来。随即又会奇怪地大叫一阵，叫声愤怒而又不安。

多卜的奇怪举动，史密斯见过不止一次。

这只深井里到底有什么？为什么这只机灵警觉的狗会一直盯着它呢？深井是通向大海的这不会错，但会不会还有其他的通道也通向海岛的地底下呢？会不会这条深井和其他小洞是相连的呢？会不会有猛兽探出井口呼吸呢？

史密斯猜测了各种可能性，虽然没有根据，有很多猜想甚至听起来很荒唐，可相信科学，不愿意往迷信方面想的他，还是对多卜的举动感到好奇。多卜绝对不会无缘无故地对着月亮大叫，深井若是没有引起它

的不安，它怎么会这么执着呢？多卜的举动，让史密斯心里的疑惑更多了。

史密斯将自己的想法仅仅只是告诉了史佩莱，他不想告诉其他人，第一是没什么用处，第二是他觉得也有可能是多卜的幻觉，造成了它的怪异举动。

严寒季终于要结束了，虽然也有过下雨、下雪，甚至有过冰雹、狂风，但这样险恶的天气并没有维持多长时间。当冰雪融化后，不管是海滨还是高地，感恩河还是森林，又全部能通行。居民们为大地的回春而高兴，因为再过不久，他们就可以只在吃饭和睡觉时待在“花岗宫殿”，其他时间都在外面了。

9月下旬，居民们开始了经常性的打猎。这又让庞库那夫想起了猎枪，他不停地央求史密斯制造火药，甚至说史密斯是答应过他的，一定要说话算话。史密斯知道，没有一些特殊的工具，他们不可能制造出一支能用的枪，所以一直没有动手，这一项工作也便推到无限期。

他和平时一样，说赫伯特和史佩莱都是神奇的弓箭手，用弓箭同样能猎来野味。不管是刺鼠、袋鼠还是水豚；也不管是鸽子、鸨、野鸭还是鹅……总之，这些飞禽走兽，在他们的弓箭下无疑都是无法逃生的，所以不妨再等些日子。

然而，庞库那夫非常固执，一刻不停地缠着史密斯，直到史密斯答应他才作罢。

对于这一点，史佩莱倒是非常支持庞库那夫的。

“岛上有没有猛兽我们不知道，如果有的话，我们必须做好和它们

斗争的准备，将它们消灭，所以制造枪这事，肯定有一天会成为我们的首要任务。”史佩莱说。

不过截至目前，史密斯考虑的并不是武器，而是衣服。这一个冬天，居民们依靠身上的衣服熬了下来，但很明显，这身衣服不可能维持到第二年冬天。他们现在不管用什么代价，一定要得到一些食肉动物的皮毛，然后做衣服。

他们曾发现过莫伏鹿羊，所以大家也一致同意去捉这种羊。甚至觉得如果能够饲养下来，对他们必定是有好处的。所以此刻，他们还需要开辟一个饲养牲畜和家禽的地方。一句话，他们要在岛上建饲养场。

这两件事，才是天气转暖后，他们必须尽快做的事。

为了接下来的这两项工作，他们必须深入到林肯岛的每个地方，特别是他们没有去过的地方，这些地方包括感恩河右岸从河口到蛇盘半岛的那大片密林，以及海岛西部……不过，去这两个地方，他们必须选择一个好天气，也就是说，大概要在一个月之后才能进行。

于是，他们又开始了焦急的等待，而在等待的过程中发生的一件事，让他们探索整个林肯岛的愿望更迫切了。

那天是10月24日。庞库那夫和往常一样去看他布下的陷阱。平时，他总是将食饵好好地放在坑里。这次当他去的时候，竟然发现了一只母畜乳和它的两个小崽子。

这可是能够放在他们食品室里的动物。庞库那夫高兴坏了，急忙捉住它们，并带回了“花岗宫殿”，还得意地向大家炫耀了一番。

“看吧，我们又可以大吃一顿了。史密斯先生！史佩莱，还有你，

每个人都有份。”

“看你这么高兴，我也高兴，可你要请我吃什么呢？”史佩莱说。

“当然是烤小猪了。”

“哦？是烤小猪吗？庞库那夫，我开始还以为你带回来的是塞满了松露的小松鸡呢。”

“怎么？你不喜欢烤小猪？”庞库那夫不满地大叫。

“那倒不是。如果不是有些吃腻的话……”史佩莱说。他有些失望。

“嗯，你说得对！都是你说得对！”庞库那夫说，他对自己拿回来的野味不受欢迎而感到有些不开心，嘟囔道，“你还真不好伺候，如果是我们刚刚登岛时的7月份，你看到了这种野味，不开心死才怪。”

“不说了，不说了！人嘛，都有这缺点，总是处于不满足中。”史佩莱笑着说。

“好了，现在该轮到那普展现他的手艺了。你们看看，这两只小猪还不到三个月，简直就像鹌鹑一样嫩。那普！快来吧，我可要亲自看你烹饪。”庞库那夫喊道。

于是，庞库那夫和那普拿着小猪去了厨房，并用心地烹饪起来。

结果，那普果然拿它们做了一顿精美的晚餐。丰盛的晚餐包括两只烤乳猪，一只袋鼠做的汤，一只熏腿，还有南欧松子和薄荷茶。确实，这已经是他们最好的食物了。而在这顿美味佳肴中，最好吃的就要数那两只烤乳猪了。

五点钟的时候，居民们在“花岗宫殿”的餐厅里，先是喝了冒着热气的美味袋鼠汤，接着又吃了烤乳猪。庞库那夫亲自为大家分割，并给每个人分了一大块。

烤乳猪肉非常好吃，庞库那夫吃得狼吞虎咽，正吃得高兴，突然他一声大叫，接着又骂了一句什么。

“怎么啦？”史密斯问。

“这是什么？这是怎么回事？把我的牙都崩掉了。”庞库那夫说。

“是什么崩的？烤乳猪里难道还有石头吗？”史佩莱说。

“大概是吧！”庞库那夫一边说，一边从嘴里取出了一个东西，那是崩掉了他牙齿的东西……

当然，崩掉他牙齿的不是石头，而是一颗铅弹。

第二部 隔壁荒岛上的人

第一章

七个月前，一群逃亡者从气球上降落到了林肯岛。

在这七个月里，他们虽然四处搜索，但却从未发现有人，也从未发现有人升起过炊烟，更没有找到一点人行动后留下的痕迹。

这一切的一切，都好像是在告诉他们：这里没有人居住，从来都没有。

在这群曾经的遇难者，现在的居民不得不得出“林肯岛上除了我们之外，没有其他人，而且从未有过其他人”结论时，庞库那夫却吃到了一颗子弹。

这个结论，马上就被他们推翻了。

这颗子弹是从一只小野猪身上找到的，这只没有能力伤人的小野猪，身体里的子弹来自一支枪管。也就是说，这颗子弹是从一把枪里发射出来的，射进了小野猪的身体。

毫无疑问，只有人类才可能使用这样的武器。

在庞库那夫将那颗子弹放在桌子上时，伙伴们都惊呆了。虽然那颗子弹是那么平淡无奇，但他们很快就联系到了很多事情，这些事情比白

天见鬼还让他们震惊。

史密斯很容易就将这件怪事和之前发生的一系列怪事联系到了一起。他拿起子弹，在手指间反复地转着、看着，随即转身问庞库那夫：

“你能肯定带有这颗子弹的畜乳只有三个月吗？”

“能肯定，绝对不会再大。史密斯先生，当我在陷阱里面发现它们的时候，它们还在吃奶呢。”庞库那夫说。

“很好，那现在足以说明，在这三个月里，有人曾在林肯岛上开过枪。”

“不仅开过枪，而且还是在打这只小野猪。虽然这只小野猪没死，但却受伤了。”史佩莱说。

“这是肯定的。根据这件事，我们不妨作个推断：我们来到这里之前，岛上是有人的。如果没有人，也可以说，在这三个月之内，有人在这里着陆过。那么，这些人是有目的地来这些地方，还是偶然来到这里的呢？是乘船过来的还是因遇险不得不来这里呢？这些都是我们要想办法弄明白的事。至于这些人是什么人，是欧洲人还是马来人，是朋友还是敌人，我们无法得知。而他们现在是不是已经离开了这个岛屿，我们也不清楚。不过，这些问题非常重要，我们必须尽快弄清。”

史密斯的话音刚落，庞库那夫就从桌旁跳了起来，大声嚷着：“不可能，绝对不可能。林肯岛上除了我们之外，绝对不会有别人的，我敢发誓，不会有人。海岛就这么大，如果真有人，怎么没发现他们？不可能，绝对不可能！”

“如果没人，那就更怪了！”赫伯特说。

“如果这只畜乳身体里生来就有一颗子弹，那就更奇怪了。”史佩莱说。

“除非，子弹是庞库那夫嘴……”那普神情严肃，话没说完，庞库那夫便打断了他的话。

“那普，你看看，你看看，我的下巴颏里能有子弹吗？如果有还能五六个月发现不了？”庞库那夫说着话，张开了大嘴，露出32颗牙齿。

“你好好看看，那普，你看能从我嘴里找出一个窟窿吗？找到一个，我就拔6颗牙齿给你。”

史密斯虽然心事重重，却也被那普和庞库那夫逗笑了。他说：“那普的假设肯定不对，我能肯定的是，在三个月内，曾有人在海岛上开过枪。我想，这些人也许是不久前才登岛的，也许他们只是路过，因为我们曾在富兰克林山顶端俯瞰全岛。要是真有人的话，我们不会看不到的。而且这些人很可能是几星期前才出现的，也许是被大风暴吹到这里来的。当然，不管怎么说，我们都必须把这件事弄清楚，这是非常重要的一件事。”

“我觉得我们有必要小心一点！”史佩莱说。

“是的，这正是我想告诉大家的。说不定是海盗呢。”史密斯说。

“那么，史密斯先生，”庞库那夫用少有的严肃语气说，“我们来造一只平底船怎么样？这样我们就可以任意搜寻全岛了。我们必须做好准备，不做准备不行。”

“庞库那夫，你的建议很好。不过现在我们来不及了，造船的话，

怎么也要一个月时间。”史密斯说。

“那是不错，但用一个月造的是正规船。我们不需要航海用的船，我们就造一只平底船。我敢说，只要五天，只要五天就能造好。我们只在感恩河上航行就行了。”庞库那夫说。

“五天就能造一只船？”那普不相信。

“是的，五天能造一只船，一只印第安人的船。”

“船是木头的？”那普还是觉得不可能。

“当然。不过，更准确一点说应该是树皮的。我再说一遍，五天一定能完成，史密斯先生。”庞库那夫加重了语气。

“五天？那好，干吧！”史密斯最后说。

“不过在这期间，我们一定要多加小心才是。”赫伯特说。

“的确是这样。朋友们，我要求大家，即使是打猎，也不能离‘花岗宫殿’太远。”史密斯叮嘱大家。

在紧张的氛围中，居民们吃完了晚饭。

这顿饭吃得让庞库那夫很扫兴，而在这顿饭后，居民们重新得出了一个结论：荒岛上还有除他们之外的人，或者曾有人来过。枪弹说明了一切。这一结论不容置疑。

当然，这一结论的得出，让居民们处在了提心吊胆中。

这天晚上临睡前，史密斯和史佩莱聊了很久，他们不断地重复着一

些问题，这些问题和史密斯难以想象的获救，以及他们屡次遇到的怪事之间到底有没有关系呢？史密斯在经过一番思索后问道：“有一句话我想和你说，亲爱的史佩莱，你愿意听听我的想法吗？”

“当然愿意，赛莱斯。”

“我的想法就是，即使我们在岛上搜索的时间再长，也不会发现什么的。”

造平底船的工作，庞库那夫第二天就开始了。他并没有打算造一只甲板和船舷都有的船，他要造的只是一只只能在感恩河上航行的平底船。当然，最主要的是，这船一定要能通过河水较浅的地方，也就是说要能在这条河的发源地航行。

平底船不难造，只需将树皮一个挨一个地连接起来，一艘轻便的小船便造成了。如果这只船遇到了什么障碍，必须要搬运的话，也非常方便。

于是，庞库那夫决定用钉子将这一片片的树皮钉起来，以保证平底船不漏水。

造船的树皮需要非常坚韧，所以在选择树木上他们也很小心。上次的暴风曾将很多高大的桦树刮倒了，那树皮正是他们需要的。

由于很多桦树倒在地上，所以他们只需将树皮剥掉就行了。不过最难的是他们没有好用的工具，但最终还是克服了重重困难。

庞库那夫在史密斯的帮助下，不停歇地干着。史佩莱和赫伯特也没闲着，他们负责给大家提供足够的食物。

赫伯特娴熟地使用起了弓箭和鱼叉，让史佩莱很是佩服。同时，赫伯特的勇敢和渊博的知识，也让史佩莱很是惊讶。

当然，出去打猎，他们还是遵从了史密斯的建议，没有离开“花岗宫殿”超过两英里。即便是这样，他们还是从森林的边缘，猎到了大量的刺鼠、水豚、袋鼠和畜乳等等。

虽然他们设的那些陷阱已经不如冬天有效了，不过兔子窝依然给林肯岛的居民们提供着日常的食物。

10月26日，赫伯特和史佩莱在去打猎的路上，聊起了史密斯发现枪弹时的推论。

“史佩莱先生，你不觉得奇怪吗？如果真有其他入登了岛，为什么没有靠近我们的‘花岗宫殿’？”

“如果这些人还在岛上，却又不靠近‘花岗宫殿’，这是有些奇怪；但如果他们已经不在岛上了，那就没什么奇怪的了。”史佩莱说。

“什么意思？你是说这些人已经离开荒岛了？”赫伯特反问。

“很有可能是这样的，孩子。他们很可能在这里逗留的时间很短。如果逗留的时间长，特别是现在还在的话，他们是一定会暴露行踪的。”

“可如果他们能离开这里，还算是遇难者吗？不算了吧？”赫伯特又说。

“这句话说得好！赫伯特，但至少他们算临时遇难者。有可能是风暴将他们吹到了这里，等风暴一过，他们那没受什么损坏的船就又能航

行了，所以他们走了。”史佩莱说。

“我觉得有一点是肯定的，那就是史密斯先生好像不希望岛上有人，或者害怕岛上有人。”赫伯特说。

“很明显，能从海上来到这里的，很有可能是马来人。这些人不好对付，见了最好躲开。”史佩莱说。

“也许什么时候我们会发现他们登岛的痕迹，你说是吗？史佩莱先生？”赫伯特又说。

“那是肯定的了，孩子。这也是我们接下来要探寻的。只要他们留下一个帐篷，或是一点烟火灰烬，我们也能追寻到他们的踪迹。”

说这些话的时候，他们正好在感恩河附近的美丽森林里。森林里屹立着很多高达200英尺的松树，这些松树又被新西兰的土人称为加列松。

“我有一个想法，史佩莱先生，如果我们爬到一棵加列松上的话，说不定能看到周围的很多景物。”赫伯特说。

“好主意！不过这么高的树，你能爬得上去吗？”史佩莱问。

“我试试吧！”赫伯特说完，便像个敏捷的猴子，朝树上纵身一跳，攀上了几根树枝。树枝的分杈很多，所以他爬的时候并不是很困难。几分钟之后，赫伯特爬上了树顶，处在了绿色平原的最高处。

居高临下的赫伯特，很容易就从海岛东南方的兽爪角看到了西南的甩尾角。而由于富兰克林山的高耸，海岛西北边被很大一部分地平线遮住了。从这高高的瞭望台上，赫伯特看到了岛上他们没有探测过的地

方。这些地方会不会就是那些陌生人的藏身之地呢？

赫伯特仔细地看。海上看不出有什么，不管是水平线还是海岛周围，完全看不到一只船。不过，还是有一段海岸被树木遮挡住了，所以即使有只船在那里，特别是当它没有桅杆时，即便靠近了海岸，他也是看不到的。

在向西遥森林里看时，也是什么都没有看到。树木在那里形成了一道道厚厚的屏幕，密得没有一丝缝隙，足足有好几平方英里。他再顺着感恩河向上看，就连确定它的源头在深山的什么地方都困难，所以也许会有小河水在向西流也说不定。

不过话又说回来了，赫伯特就是将宿营的迹象全忽略掉，难道连一缕轻烟也看不到吗？不可能的，因为天气晴朗，即使只有薄薄的轻烟，他也会很容易发现的。

这么一想，在一瞬间，他好像看到在西方有一缕薄烟，不过当他定睛看时才发现是自己看花眼了。他又尽量用自己那敏锐的视觉，朝四面八方看，他很肯定，他能看到的地方什么都没有。

赫伯特从加列松上下来，和史佩莱一起回到了“花岗宫殿”。当他们向史密斯汇报查看的情况后，史密斯只是轻轻摇了摇头，一句话都没有说。显然，他认为在彻查林肯岛之前，他是不会对这个问题下结论的。

不过，在两天后的10月28日，他们又发现了一件不可思议的事。

那天，赫伯特和那普沿着海岸到距离“花岗宫殿”大约两英里的地方散步，突然发现了一只龟。这是迈答斯的一种食用绿海龟，它们的壳和肉都是绿色的。

这只海龟当时正在从乱石堆向海里爬，正巧被赫伯特看见了。

“快，那普，快帮帮我！”赫伯特喊着。

那普跑过来看到了绿海龟。

“太漂亮了！可我们怎么才能捉住它呢？”那普说。

“没什么难的，那普！”赫伯特说，“只要我们将它的肚皮朝上翻，它就逃不掉了。你拿着鱼叉，看我怎么做你就怎么做！”

而此时，这只绿海龟也已经意识到了危险，将头和脚往硬壳里一缩，顿时像一块石头，趴在那里不动了。

赫伯特和那普将他们手里的叉子伸向海龟的身子底下，然后一起使劲，很快就将它翻了过来。海龟长度大约3英尺，体重至少有400斤。

“太好了！太好了！庞库那夫看见的话，一定高兴死了。”那普喊道。

确实，庞库那夫要是看到它，一定会很高兴的。因为这种海龟是吃海藻长大的，味道非常鲜美。被翻转过来的海龟，脑袋露了出来。由于它的头上长着上颚骨，前面小而且扁，又隐藏在下颚骨下，所以脑袋显得尤其粗大。

“现在要如何处置我们的猎物呢？是想法把它拖回我们的‘花岗宫殿’吗？”那普问。

“反正它是翻不回去了，我们就先留它在这里吧。回头把大车拉来，拖它回去。”赫伯特说。

“是个好主意！”那普说。

为了确保万无一失，赫伯特还不嫌麻烦地在海龟的身旁砌起了石头，将它紧紧地夹在那里。虽然那普觉得他这么做有些多此一举，但赫伯特还是坚持去做。

于是，两个人沿着海滩回到了“花岗宫殿”。赫伯特为了给庞库那夫一个惊喜，丝毫没提那只被他们做上了记号的上等海龟。

不过，当两个小时后，他们拉着车想去拖海龟回来时，却发现海龟不见了。

那普和赫伯特当时就面面相觑，四下察看，看是不是记错了地方。但最后发现完全没记错，海龟就是放在那里的。赫伯特甚至还看到了他夹那只海龟的那些石头，所以他完全可以肯定他们没找错地方。

“看来，是海龟自己翻身逃了。”那普说。

“也许是吧！”赫伯特虽然这么说，但却仍然很疑惑，呆呆地看着他夹海龟的石头发愣。

“庞库那夫要失望了！”那普说。

“就是史密斯先生，对海龟的失踪也会莫名其妙的。”赫伯特暗想。

“赫伯特，听着，千万不要和别人说起。”那普说。他怕别人笑话他们。

“不行，我们非说不可。”赫伯特说。

拉来的大车完全没用了，他们只能拉着空车又回去。

那时候，史密斯和庞库那夫正在造船，当赫伯特把经过向他们叙述了一遍后，庞库那夫大喊：“唉！真是两个大傻瓜，我看这下可丧失了五十顿饭呢。”

“可是庞库那夫，这不能怪我们。我刚刚说了，我们把它翻过去了。”那普说。

“那就是翻得不彻底！”庞库那夫说。

“不彻底？”赫伯特不同意这种说法，重新又将他是如何小心地用石头把海龟砌在中间的事说了一遍。

“这就有些奇怪了。”庞库那夫说。

“史密斯先生，你说海龟的身子仰过来，还爬得起来吗？肯定爬不起来吧，特别是大海龟。”赫伯特说。

“是这样的，孩子！”史密斯说。

“可它怎么就不见了呢？”赫伯特说。

“你们放海龟的地方，离大海有多远？”史密斯问。他停下了工作，思索起来。

“应该不到50英尺吧！”赫伯特说。

“当时是低潮？”

“对，是低潮，史密斯先生。”

“好了，很明显，海龟在海滩上办不到的事，在水里一样办不到。

但是在涨潮的时候，却能翻转过来，并游到大海深处。”史密斯说。

“啊，是这样啊，那我们就真是个傻瓜了。”那普大声说。

“不错，是傻瓜，我刚才就这么说你们了。”庞库那夫加了一句。

史密斯的这个解释看似非常合理，可他真的认可自己的解释吗？

未必吧！

第二章

10月29日，庞库那夫保证的五天内造一只树皮平底船的计划顺利完成。

这只轻舟长12英尺，重不到200斤。船身是由一种叫“卡拉经帕”的树的柔韧细枝做成的，共有三个座位，为了保持平衡，三个座位分别在船头、中间和船尾。

除此之外，这只轻舟还有两个船桨和一个掌握方向用的尾橹。

这只平底船下水很容易，只需将它放在“花岗宫殿”前的沙滩上，待潮水上涨的时候，船就会浮起来。

在做试验的时候，庞库那夫兴奋地跳上去，一边对这只船大加赞美，一边拿着橹摇了起来。他放声大笑，为自己的胜利完工而欢呼。

“这只船，我们可以用它来环游……”

庞库那夫的话还没说完，只听史佩莱说：“环游全世界？”

“不，我可没说全世界，我是说全岛。我们可以找一些压舱石头，还要竖起一根桅杆，等过几天，史密斯再为我们做一面帆……这样的话，我们就能信心十足地出航了。史密斯先生，有你，史佩莱先生，还有你，还有赫伯特，那普，还有你，你们都来试试我们的新船吧！快来呀，试试看，看能不能坐下我们五个人。”

这船确实需要先试一下。庞库那夫通过岩石间的水道，将平底船摇到了岸边。他们商量着，准备沿海岸将船划到第一海角，也就是南部岩石的尽头去。这条路线，算是他们第一次试航路线。

在居民们刚刚上船后，那普就开始大喊：

“庞库那夫，你的船有些漏水。”

“没事的。那普，这些木头是会自己密合的。再过两天，两天之内，肯定连一条缝都没有了。到那时候，我们船里的进水量，就会比酒鬼胃里的还要少。快跳进来吧！”

在大家都坐上船后，庞库那夫划开了桨。

天气晴朗，没有一丝风的海面风平浪静。坐着船在海上行驶，犹如在湖水里行驶一样，又有些像是在平静的感恩河逆流而上，非常安全。

那普和赫伯特各拿一支桨划着，庞库那夫则坐在船尾摇着橹。

他们让船穿过海峡，到了小岛的南端。有微风从南方吹来，不过，

不管是他们航行在海峡还是在碧蓝大海，微风都没有引起惊涛骇浪，只是在海面上泛起微波。不过，因为船上人多，载重量大，也没人能感受到波浪的力量。在划到离岸约一英里的时候，他们停了下来，打算好好看看富兰克林山。

看完富兰克林山，他们又将船划到了河口。平底船沿岸开始航行，海岸似乎将花皂的沼泽地全都遮住了，一直伸向尽头的海角。

由于海岸线曲折，海角距离感恩河有近3英里的路程。即使这样，他们还是决定将船划到海角去。如果有需要的话，他们还想划得更远，以便更好地了解兽爪角一带的海滨。

平底船沿着曲折的海岸线航行，绕过了被潮水淹没的礁石。他们看到，由花岗石形成的峭壁是从河口处逐渐向海角倾斜的，东一堆西一堆地散布着，完全和观望壁的峭壁不同。这种荒凉的景观，让他们感觉好像有人曾在这里开采过，遭到遗弃才如此凋零。

森林到向外突出的陡峭海角长达两英里，上面没有任何植物，形状很像从枝叶茂密的森林里伸出来的一只巨大胳膊。

平底船在顺利地向前划行。史佩莱手拿铅笔，不停地在笔记本上画着什么，很快，海岸的轮廓就清晰地出现在了纸上。那普和赫伯特、庞库那夫一边划船一边聊着，并不时地观察着这块他们从没到过的新领地。随着平底船的向南航行，颚角的南北处好像也开始了移动，并将联合湾紧紧地包围了起来。

坐在船上的史密斯一直没有说话，他只是带着种种疑虑，神情专注地观察着这个陌生的地方。

平底船在又前行了大约45分钟后，他们到了海角的顶点。在庞库那夫正准备掉转船头时，赫伯特突然站了起来，指着一块黑黑的东西说：“快看，那边的海岸上有什么？”

大家一起朝他指的地方看去。

“好像真有东西，是残破的船骸吗？好像有一半还陷在泥沙里呢。”史佩莱说。

“天啊，我明白了！”庞库那夫大喊。

“你明白什么了？”那普问。

“那是木桶，那一定是木桶，也许里面还有东西呢。”庞库那夫说。

“靠岸吧！庞库那夫。”史密斯说。

仅仅划了几桨，平底船就进了一条小河，船上的几个人全都跳上了岸。

庞库那夫说的是对的，那是木桶，而且有两只，正半埋在沙里。不过，除了两个木桶外，他们还看到了绑在木桶上的一只大箱子。想必这只箱子就是因为木桶浮力的支撑，才能在海面上漂浮，最后又被搁浅在了海滩上。

“这么说，荒岛上确实有过遇难的船了？”赫伯特说。

“没错，一定有过。”史佩莱答道。

“这箱子里会有什么呢？”庞库那夫一边问着，一边查看箱子。

“锁着呢，没关系，我们可以把它砸开！用什么砸？用石头……”庞库那夫自说自话，举起了一块石头，正打算往下砸，却被史密斯拦住了。

“庞库那夫，能等一会儿再砸吗？就等一个小时。”

“为什么要等？史密斯先生，也许这箱子里有我们需要的东西。”

“我们肯定会打开箱子看的。不过庞库那夫，先不要将它毁坏，先交给我，我们可能用得着。我们现在先将它带回‘花岗宫殿’，到了那里我们不需要砸锁就能打开这箱子。这箱子带起来也不费事，既然能够漂到这里来，肯定也会漂到河口去的。”史密斯说。

“没错，史密斯先生，看来我又冲动了。不过人难免会控制不了自己。”庞库那夫解嘲说。

史密斯说得绝对没错，确实是这样，箱子既然需要两只空桶才能漂浮，那么可见还是有一定重量的。将箱子放在平底船上，显然很麻烦，而且很可能船载不动。所以最好的办法就是让它在水面上漂，然后将它拉到“花岗宫殿”的沙滩上。

不过，这只箱子是从什么地方来的？这个问题非常重要。史密斯和他的伙伴们在四处认真观察了一番后，又去了几百步以外的海岸，但再也没找到遇难船只的其他遗物了。

赫伯特和那普爬上了一块高高的山石，依然没有看到任何东西，比如像折断桅杆的孤舟，或者是没有扬帆的船只等等。

但能够肯定的是，这岛上有过遇难船只。而且，想必也和枪弹事件有关。也许遇难船里的人在荒岛的其他地方登陆过，甚至很有可能还在

这里。而同时，他们又想起了一点，那就是：那些遇难者不可能是海盗，因为这只箱子是欧美制造的，不可能是海盗的东西。

大家全都围在这只硕大的箱子旁，四下打量着。这是只橡木箱子，箱子密封得很严，箱盖外面包着一层很厚的兽皮，并用铜钉牢牢地钉着。用手敲的时候，会发出空洞的声音。两只木桶被牢牢地拴在了箱子的两边，绳子的结打得非常好。

庞库那夫在看了那个结后说，只有水手才会系这样的结。整个箱子没有丝毫破损，从它只是搁浅在沙滩，没有撞在乱石上就能说明这点。

经过一番仔细观察后，他们得出结论：箱子在水里的时间并不长，甚至可以说是上岸不久。因为海水好像并没有渗进箱子里去，有可能箱内的东西也没有损坏。

现在的这种情景表明，很可能曾有只折了桅杆的船在荒岛附近漂浮，有人将这只箱子扔了出来。船上的人是想让箱子漂到陆地，以后再来找回去。

“我们现在就把箱子拖回‘花岗宫殿’，到时候就能打开箱子看看里面有些什么了。如果我们最后遇到了从遇难船只中逃生的人，就把箱子还回去。如果找不到……”

“那就是我们的了。”史密斯还没说完，庞库那夫就大声发表自己的想法，说完又嘀咕了一句，“可是里面都有些什么呢？”

海潮已经逐渐接近箱子了，很快就会把它浮起来。居民们急忙用一根绳子，将箱子拴在了平底船后面。之后，庞库那夫和那普用桨挖开了泥沙，以便让箱子移动时更方便点。

最后，平底船拖着那只箱子，绕过了遗留箱子的地方，这里也被他们取名叫拾箱角。

箱子很重，两只木桶只能勉强使它浮在水面上。庞库那夫时刻担心箱子会脱扣而沉到海底。当然，他的顾虑是多余的。在他们划了半个多小时后，航行了3英里的他们在“花岗宫殿”下面靠岸了。

平底船和木箱子一起被拖上了沙滩。此时正值退潮，他们很快就到了潮水涨不上来的地方。那普急忙去“花岗宫殿”取来工具，他们要让箱子完好无损地打开，然后再清点里面有些什么。

在做这一系列准备工作的时候，庞库那夫一直处在兴奋中。他先将两个木桶卸了下来。木桶完整无缺，他们以后还能用。随后，他又用凿子、锤子将箱子的锁打开。在箱盖打开后，他们发现，箱子的内壁还衬着一些锌皮，想必是为了防止箱子里的东西受潮所设计的。

“这里面会是什么？说不定会是罐头！”那普大声说。

“但愿不是罐头。”史佩莱说。

“如果是……”庞库那夫的声音很轻。

“是什么？”那普听到了，忙问。

“没什么！”庞库那夫不愿意说。

他撕开皮箱里的那层锌皮，先将它放在了箱子上，然后又取出箱子里的东西放在沙滩上。每当拿起一样东西时，庞库那夫都要欢呼几声。看到这些东西，赫伯特也是兴奋地直拍手，那普更是在旁边跳起了舞。

在看到箱子里还有书时，赫伯特更高兴了，而见箱子里还有厨房用品，那普高举起来，放在嘴上不停地亲吻。

总之，箱子里的东西很多很杂，好像是为了不让每个人失望似的，里面有工具、武器、仪器、衣服，甚至还有书籍，样样俱全。史佩莱将这些东西全部记在了笔记本上。

工具有：三把小刀，两把砍柴用的斧子，两把木工用的斧子，三个刨子，两个铰子，一把鹤嘴锄，六把凿子，两把锉，三把锤子，三把螺丝起子，两把钻孔锥，十袋洋钉、螺丝钉，三把大小不同的锯子，22厘针……

武器有：两支燧发枪，两支撞针枪，两支后膛马枪，五把尖刀，四把马刀，两桶每桶25斤的火药，12箱雷管……

仪器有：一个六分仪，一副双筒望远镜，一架长筒望远镜，一匣绘图仪，一个航海指南针，一只华氏寒暑表，一只无液晴雨表，一只装有照相器材、物透镜、感光板、药品的匣子……

衣服有：两打类似于羊毛，实为植物纤维的衬衫；三打长袜……

生活用品有：一只铁汤罐，六把带柄小铜锅，三只铁盘，十只钢精匙子，十只钢精叉子，两把水壶，一个轻便火炉，六把餐刀……

书籍有：《圣经》、地图、《波利尼西亚成语辞典》各一本，《自然科学》共六本，三沓白纸，两本空白笔记本……

“看箱子里的东西，我们不难看出，主人一定是个生活经历丰富的人。看这些东西，什么工具、武器、仪器、衣服、生活用品、书籍……什么都不缺。好像料定自己会遇险，所以才准备的似的。”史佩莱在清

点完这些东西时说。

“真是这样，什么都有。”史密斯若有所思。

“是不是能够肯定，箱子的主人不是海盗了？”赫伯特问。

“肯定不是。当然，除非箱子的主人被海盗抓住了，然后又被抢了箱子……”庞库那夫说。

“这不可能。箱子的主人应该是乘坐欧美船只时，遇到了暴风，无奈被风吹到了这里。也许这些东西是乘客保留下的必需品，所以才会被扔在海里，并拴上了木桶。”史佩莱说。

“这个看法您是否同意？史密斯先生。”赫伯特问。

“同意，孩子。我想应该是这样：当他们遇险时，或者意识到自己将要遇到危险的时候，他们马上将各种各样有用的东西收集了起来，放在了一个箱子里，最后希望事后能在海岸上找到……”史密斯还没说完，庞库那夫就插话道：“难道他们连照相器材的匣子也要收集起来？”

“嗯，对于这些照相器材，确实很难说为什么要留着。如果多放一些衣物或火药，我觉得更符合常理。”史密斯说。

“可惜这些仪器、工具和书籍上没有任何记号，不然我们可以查出他们的来历。”史佩莱又说。

确实如史佩莱所说，所有的东西，包括书籍、用品、工具、武器，在经过他们的仔细检查后发现，没有一个东西有牌子。

更奇怪的是，这些东西就像新的一样，好像从没有用过。从这一点

上来看，这些东西应该不是随随便便扔在箱子里的，而是经过了慎重考虑，精挑细选装进去的。同时，还有一件事足以说明这一点，那就是，箱子里的东西为了防潮，还用锌皮保护着。如果是慌乱中收集的，是不可能有工夫进行金属的焊接的。

更何况，箱子里的《自然科学》和《波利尼西亚成语辞典》都是英文书籍，但却既没有出版日期，也没有出版者姓名。像那本英文四开本《圣经》，不仅没有出版日期和出版者姓名，而且印刷独特。

特别是那本地图，印刷、设计和内容都特别精致，里面不仅有世界各国的分图，而且还有几幅地球平面图，都是根据麦卡托投影法制作而成的。内文用的是法文，同样没有出版日期和出版者名字。

因此，从这些东西上，他们没有找到丝毫线索。不过，有只船曾在附近航行，这一点却是不容怀疑的。但这群人来自什么地方，是哪个国家的人，他们却一点儿都看不出来。

当然，抛开这些疑问，这只箱子的到来，倒是给林肯岛上的这些居民提供了很多东西。虽然之前，他们凭借自己的智慧，利用自然界，也制造了很多东西，但现在一下子又凭空多了这些文明世界使用的东西，还是让他们非常开心，好像上天要帮助他们，故意给他们带来的似的。

他们不禁又感激起上苍来。

当然，在这些人中，还有个人有些失望。这个人就是庞库那夫。

箱子里什么都有，就是没有他最期待的东西。在他翻到箱底，还没有看到他想要的东西时，欢呼声也不如刚开始热烈了。当清点完这些东西后，他失望地喃喃道：

“东西是都不错，可你们看到没有？根本没有我最想要的东西嘛！”

“你想要什么？庞库那夫？”那普问。

“怎么也应该有烟草嘛，半斤烟草我也就满足了嘛！”庞库那夫严肃地说。

几个人忍不住笑了起来。

在发现这只箱子后，大家更加确定要彻底搜查林肯岛了。而且经过商议后认定，第二天天一亮就出发。他们要沿着感恩河向上游进发，直到西海岸。他们甚至还想到，如果真的遇到了那些遇难的人，他们会毫不迟疑地去帮助他们，解救他们的。

商量完后，在天黑之前，居民们把从箱子里拿到的各种物品搬进了“花岗宫殿”，并有条理地放在了大厅里。

这一天是10月29日，也是个星期日。临睡前，赫伯特要求史密斯给大家念段《福音》。

“好的！”史密斯说。

他拿出了箱子里的那本《圣经》，正要打开时，庞库那夫喊：“等等！史密斯先生，我是个迷信的人。你先随便翻一页，然后把第一行的字念出来，我看看和我们的遭遇是不是吻合。”

史密斯微微一笑，按照庞库那夫的意思，随手翻了一页，而这一页，正好又夹着一个书签。

他发现，在《马太福音》第七章第八节，有用铅笔画的红十字。于

是，他将第一行念了出来：“凡祈求的，就能得到；寻找的，就能寻见。”

第三章

10月30日，大家开始为预定的全岛搜索做准备。

近期发生的很多事情，让他们的搜寻变得有意义了很多。确实是这样，如今的情况和原来不一样了，现在他们不但不再需要别人的帮助，而且还可以去帮助别人。所以大家一致同意：只要行得通，他们会尽可能地感恩河上游前行。

因此，此次的搜寻很可能要去很远的地方。如果需要，他们甚至还想把粮食和武器都运到荒岛的西边去。

现在，他们出发前不仅需要考虑带什么东西走，还要考虑能带些什么东西回来。如果真像他们猜测的，海滩上发现了遇险船只的话，那么，将会有大量遗留物品需要他们搬回来。这样的话，大车就比平底船更有用了。不过，大车太过笨重，拉起来很不方便，这又让庞库那夫充满了遗憾。如果说刚打开箱子，遗憾的是箱子里没有他最爱的“半斤烟草”的话，那么现在他遗憾的就是箱子里少了两匹新泽西的壮马。因为强壮的马对现在的他们来说，实在是太有用了。

那普将足够他们吃三天的食物装了起来，除了大量肉类之外还带了几加仑的啤酒。三天是史密斯规定的最长搜寻期限。此外，他们还计划

一路上给食物做些补充，所以也携带上了轻便的火炉。

另外他们还带了两把砍柴的斧子，以便过密林时开路用。还有望远镜和袖珍指南针这些仪器，他们都没有忘记带。

除了需要的工具和仪器外，他们还带了两支燧发枪。他们觉得，此次搜寻带燧发枪比带撞针枪更合适。燧发枪需要的是火石，他们随时可以装，而撞针枪需要的是雷管，雷管是有，但却是有限的。如果雷管用完了，想要再做就麻烦多了。

随后，他们又带了一支马枪和一些弹药。对于火药，目前储存的仅有50斤，所以他们只稍稍带了一些。史密斯打算自己将来再制造一些炸药，以便节省下箱子里的这些火药。

除了这些武器，他们又带了五把尖刀，并将它们藏在了皮鞘里。

带着这样的装备，居民们信心满满地出发了。不用说，因为有了这样的装备，出行最高兴的要数庞库那夫、赫伯特和那普了。不过，史密斯还是让他们保证，不到万不得已，不能随便开枪。

早上六点钟的时候，居民们和多卜一起坐上了平底船，离开海岸向感恩河口行驶。

在他们出发前的半个小时里，潮水就开始涨了。涨潮还要维持几个小时，这对他们航行来说非常有利。而如果是退潮，他们的船会因为逆流而上出现一些困难，所以他们必须赶着涨潮前行。

这天正好处在月圆的三天之内，潮水涨得很凶猛，足够令船身始终保持在潮流中心，在高耸的两岸间快速前行，完全不需要靠双桨提速。

仅仅用了几分钟，他们便来到了感恩河的一个拐角处。在七个月前，庞库那夫曾经来过这里，而且还在这里制造过第一只木筏。

等他们过了这个拐角，河面一下子变得开阔起来，船只也从高大的绿树丛中飞快驶过。

感恩河两岸的景色异常秀丽，自然形成的河水和树木，有着不一样的美，令史密斯和他的伙伴们啧啧称奇。越往前走，树木的种类也就越多。特别是河右岸生长的那些被建筑师视为宝贝的榆树科植物，虽然长期浸泡在水里，却也没有腐烂。

还有一些其他科类的植物，其中较为特殊的是一种含着珍贵油料的果仁树。再往前走，赫伯特发现了一种木通科植物，这种盘藤灌木的枝条由于在水里浸泡过，所以就成了一种很好的索具。

同时，赫伯特还发现了一些带着美丽花纹的黑檀木。

找到了个平底船容易靠岸的地方，史佩莱、赫伯特和庞库那夫拿着枪，随着多卜上了岸去打野味。除了打猎，他们还想去采集一些有用的植物。赫伯特发现了一种藜科野生菠菜，以及一些白菜类的十字花科蔬菜。

因为这些蔬菜可以移植，他们非常高兴。还有一些水芹、萝卜以及一些一米多高、多毛多枝的草茎植物，这些植物结着褐色的种子。

“这些植物是什么你知道吗？”赫伯特问庞库那夫。

“难道是烟草？”庞库那夫大声说。对庞库那夫来说，没有什么植物能比装进他烟斗的烟草更令他高兴的了。

“不是，庞库那夫，它们是芥菜。”赫伯特说。

“管它是什么菜呢，孩子，如果碰到烟草，咱们可千万别错过了。”庞库那夫说。

“不要急，总有一天会为你找到烟草的。”史佩莱说。

“好吧，希望到那时候，我们已经不知道有什么不能从我们岛上找到了。”庞库那夫说。

对于那些能够移植的植物，他们小心翼翼地连根挖了起来，带回了平底船。此时，史密斯在船上正想着他的心事。

史佩莱、赫伯特和庞库那夫不断地上岸，他们有时会去感恩河的右岸，有时又会去感恩河的左岸。

感恩河的右岸树木非常茂盛，而左岸地势则比较平坦。史密斯看了一下携带的袖珍指南针，发现从河的方向到第一个拐弯处是从西南向东北拐的，这一段路中，有3英里左右是笔直的。

不过，当他们拐过了第一个弯之后，方向就发生了改变。感恩河的上游开始朝西北延伸，直到河流的发源地，也就是富兰克林山的支脉。

在几次登岸中，有次史佩莱竟然捉住了四只小鸟。这种小鸟的颈部很长，嘴巴薄且长，长着短短的翅膀，几乎没有尾巴。赫伯特称它们为鹌鹑，说它们可以饲养。就这样，这些鹌鹑也就成了他们未来家禽里的第一批客人。

直到此时，他们都没有开过一枪。

他们所开的第一枪是在西遥森林，那时候，他们发现了一种像翠鸟一样美丽的飞鸟。

“我知道这是什么鸟。”庞库那夫大声喊着，随即一直背着的枪也从肩膀上滑了下来。

“你知道这是什么？”史佩莱问。

“这是我们第一次打猎时，逃跑的那种飞鸟。我们还曾用它给那一带的森林命名呢。”

“你是说啄木鸟？”赫伯特喊。

确实是啄木鸟，它们的羽毛散发着一一种金属般的光泽。当他一枪打出去时，鸟便掉落了下来，多卜随即将它衔到了平底船上。随后，他们又打了很多吸蜜鹦鹉。这些吸蜜鹦鹉长得和鸽子差不多大小，羽毛是白色掺杂绿色，翅膀则是深红色的，冠毛处还镶着一道白边。

吸蜜鹦鹉是赫伯特打下来的，他非常开心，因为吸蜜鹦鹉比啄木鸟的肉质嫩。

当然，想要庞库那夫承认他打下的野味不是最好吃的，也不容易。

上午十点钟的时候，他们划着平底船，来到了离感恩河河口约5英里处的第二个拐角。在这里，他们决定暂时休息，并在树荫下吃饭。

这里河流的宽度有60到70英尺，河床深度在五六英尺左右。史密斯发现，这里的支流虽然多，但却只是一条小溪，船只根本无法在上面行驶。周围的森林，不管是啄木鸟林还是西遥森林，都是一眼望不到边的。在森林深处，以及他们坐下休息的感恩河岸边大树下，居民们丝毫

找不到人停留的蛛丝马迹。

因为不管是树木还是杂草丛生的灌木林，以及那些爬藤，均没有被刀砍过的痕迹。如果遇难者真的在荒岛生活过，他们应该不会已经离岸，但丛林中又确实无法找到这些脱险者们。

因此，史密斯急着想去的地方是林肯岛的西海岸。据他估算，从这里到他想去的目的地，至少有5英里路程。

于是，他们继续划着平底船前行。行进中，感恩河仿佛不是在朝着海岸流，而是在向着富兰克林山流。

他们已经打定了主意，只要河水能浮起船，他们就用平底船前行。这样既能省力，又不浪费时间。要直接走路的话，必须用斧子在密林中开路才行。

然而，助他们前行的潮水慢慢失去了作用，也许是因为退潮引起，也许是因为离感恩河的河口太远的缘故，总之，他们感觉不到海潮的流动了，船也无法顺流而行。赫伯特和那普人手一只桨，慢慢地划着，坐在船尾的庞库那夫也开始摇橹。

越往前走，树木越稀疏，时不时地，他们还会看到有孤零零的大树耸立在那里。但那孤独耸立的大树却又似乎因为相距太远的缘故，愈发显得美丽起来。想必是因为距离带给了树与树之间空气流动的机会，所以让它们长得越发枝繁叶茂。

这里的植物真是太美了，要是植物学家看到这些，一定会张口说出林肯岛所处的纬度。

“看，桉树！”赫伯特突然喊道。

说得没错，那正是美丽的桉树，是和澳大利亚、新西兰生长的桉树同属一类的树木。这是一种亚热带树木，高度为200英尺左右，光树干部位就达到了20英尺。这种树凹凸不平的树皮有5英寸厚，树皮内含有红色树脂，散发着阵阵芳香。

它属于叶子垂直生长，有着“爱神木”之称的桃金娘科，但长得如此之大还是很少见的。它和其他树的不同就在于是叶边而非叶面向上生长，所以很容易让阳光穿过树木透洒过来，也由此显得分外美丽。

桉树的底下绿油油的，一群小鸟从树下的灌木丛里振翅飞翔，叽叽喳喳的，美丽的翅膀像极了红宝石，在阳光下发着璀璨的光。

看着美丽的桉树，那普问：“这是一种乔木吧，它有什么作用呢？”

“嘿嘿……这些树就是一个个大胖子，看着好看，没用的。”庞库那夫说。

“庞库那夫，你说错了，桉树可是制造家具的上等木料。”史佩莱说。

“我需要再补充一点，桉树这一科有很多种类都是非常有用的。比如番石榴的果实能做果子酱；丁香树能制香料；安石榴能结石榴；柳金娘丁香树的果实能酿造美酒；乌葛杨梅内含有酒精；石竹科的杨梅树皮能制肉桂；尤琴椒树能造牙买加辣椒；普通杨梅嫩芽和果实能提取胡椒；有的桉树能提供香料；几内亚的桉树能发酵制啤酒……总之，澳大利亚的所有橡皮树、铁皮树，都是桃金娘科，有46属，1300多种。”

赫伯特说起植物学来，滔滔不绝。史密斯面带微笑地听着，庞库那夫也在心里为赫伯特骄傲。

“太好了！赫伯特，不过我敢说，这些树可绝不像你说的那么有用，它不是你说的品种。”

“是的，庞库那夫。”

“那就是我说对了？这树长这么多的树皮没什么用处。”庞库那夫说。

“那倒也不是。庞库那夫，现在我们头顶上的这些高大的桉树就有很多用处。”史密斯说。

“什么用处？”

“它们对人的身体可是大有好处的。知道在澳洲和新西兰，居民们把这种树叫什么吗？”

“不知道，叫什么？史密斯先生。”

“叫它们‘寒热病树’。”

“是说它们能传播寒热病吗？”

“不，恰恰相反，它们能预防寒热病。”

“哦，是这样呀。那我可要记下来了。”史佩莱说。

“嗯，记下来吧。亲爱的史佩莱，桉树是可以驱除瘴气的，这一点已经得到了证实。在中欧和北非，那里的土壤对人的身体健康很有害，这些能够自然解毒的树对当地的卫生条件大有改善，而且听说有这种桃金娘科森林的地区，连疟疾都没有了。所以这些树木的存在，对我们生

活在这个岛上，是非常有利的。”

“啊，现在看来，这个岛是真不错啊。太好了！我们在这岛上，什么都有，只是……”

庞库那夫的话没说完，史密斯便说：“庞库那夫，会有的，一切都会有的。我们现在继续往前走吧，河流允许我们去哪儿我们就去哪儿。”

他们划着船，继续向前行进了大约两个小时。行驶过的地方长满了桉树，看来，桉树是荒岛的这部分森林中的主要树木。

感恩河一直向前延伸，弯弯曲曲的。河两岸是高高的陡坡，上面绿茵茵一片，全是看不到边的桉树。行驶中，河床里出现了很多突出的岩石，也有很长的水草，给行驶中的平底船增加了难度。

划桨越来越困难，庞库那夫只好用长竿撑船。但河水愈来愈浅，眼看着平底船就要没办法向前行驶了。

太阳向水平线渐渐下沉，长长的树影满地都是。史密斯知道，想要很快到达荒岛的西岸是不可能了。离海滨差不多还有五六英里路，如果在黑夜穿越陌生丛林的话更不容易，于是便决定再往前行驶一段后就宿营。

森林越来越浓密，看来，这里是动物的聚集地。如果庞库那夫没看错的话，他似乎看到了很多猴子在树木间上蹿下跳。最后，有两三只猴子还到了他们的平底船旁，瞪眼看着他们，想必是第一次见人，并没有觉得害怕。

想要一枪打死一只猴子一点都不难，庞库那夫也很想试试，但史密

斯却不同意，他认为这是没有意义的屠杀。同时，猴子们非常机灵，如果无缘无故遭到侵犯，它们很可能会不顾危险地向他们进攻。

确实是这样，庞库那夫如果单纯从食物角度来看，这种食草动物也算是绝佳的美味，但他们现在食物非常充足，完全不必浪费火药。

四点钟的时候，受到越来越多的水草植物及岩石的阻碍，他们的平底船越来越难行进。河两岸越来越高，似乎快接近富兰克林山的支脉了。如今，他们离由南面山坡的涧水形成的感恩河的源头也更远了。

“不行了，在15分钟之内，我们的船非停不可。走不了了，史密斯先生。”庞库那夫说。

“那好，我们就停在这里吧。庞库那夫，我们需要扎营。”

“现在我们离‘花岗宫殿’有多远？”赫伯特问。

“如果将河道的弯曲度考虑在内的话，我们现在应该已经到了西北部7英里左右的地方了。”史密斯回答他。

“扎营？我们还要往前走？”史佩莱问。

“是的，我们必须前行，明天一早，我们不坐平底船，用两个小时的时间去海滨。因为只有这样，我们才会有充足的、一整天的时间去观察海岸。”史密斯说。

“好，那就在前面停船。”庞库那夫说。

平底船马上就要触到石头了，可以推算出河宽最多不超过20英尺。两岸丰茂的树木像是给河面搭起了凉棚，让整个河面都处在了半明半暗

中，影影绰绰的。他们好像听到了万马奔腾般的瀑布声，想必那也是几百英尺外上游的天然屏障吧。

河身突然拐了一个弯。坐在平底船上的他们，透过一些树木间隙，看到了那个瀑布。平底船再次触碰到了河底，他们不得不选择靠岸。几分钟后，他们的船停在了一棵大树下。

上岸后，已经快五点钟了。太阳的余晖洒落在浓密的枝叶间，照在了瀑布上，使那溅起的水珠变成了七道彩虹。如果再往前，感恩河就会在灌木丛中消失，那里就是它的发源地。由于无数支流的汇合，形成了一条河流，而又因为无数支流的分离，使这里变成了小溪。

这就是大自然的杰作。

周围的景色真是太美了，大家都愿意在这里露宿。从船上下来后，他们便在一丛小树下列起了篝火。旁边有很多大树，如果他们愿意，几乎可以在旁边的大树杈上过夜。

每个人都饿了，一阵风卷残云后，他们准备睡觉。然而，还没闭上眼睛，他们便听到了一阵奇怪的咆哮声。为了安全起见，他们燃起了更大的火，让那噼噼啪啪的烧柴声壮胆。为了保持火势旺盛，那普和庞库那夫还轮流守夜，添加柴火。

两个人时不时地会在黑夜中，在火光中，看到灌木丛中的野兽走了出来……

好在这一夜他们安然度过了。

第二天，也就是10月31日，早上五点钟的时候，他们起身，准备重新上路。

第四章

清晨六点，准备搜寻的居民们很快吃完了早饭，并决定从一条捷径出发，向荒岛西岸行进。

走到目的地需要多长时间呢？史密斯曾计算过，怎么也要两个小时。当然，最终会不会超过两个小时，还要看他们可能遇到什么样的障碍。西遥森林里生长着各种灌木丛，多得一眼望不到边，所以他们必须手握砍斧，在灌木和爬藤中开辟出一条路来。而那夜间听到的野兽咆哮，更让他们做好了随时开枪的准备。

最终他们又要露宿在什么地方，那要由富兰克林山的方位来决定。从北往下走大约3英里，就能到达富兰克林山，一直向西南走就能到达西岸。

出发前，他们先将平底船拴好，庞库那夫和那普还带上了足够大家吃三天的食物。有了这些食物，一路上他们就不用想着去打猎了。

史密斯再次叮嘱大家，不能随便开枪，免得惊动了那些“遇难者”。手拿指南针的他，决定在前面引路。

附近的森林，他们并不陌生，曾在湖边和观望壁上看到过。树木品种有喜马拉雅、洋松、桤柳、橡皮树以及桉树、木槿、杉树和其他树木等等。树木因为生长得很密集，无法长得更粗壮。

因为需要边走边开路，所以居民们走得并不快。按照史密斯的计划，他们要在这里开一条和红河相连的道路。

他们好不容易从荒岛的高山斜坡走到了一片平坦之地。也许是因为吸收了地下沼泽的水汽，也许是受到了小河流水的灌溉，这里的植物生长得特别茂盛。不过这也让史密斯有点奇怪，因为他记得上次他们去火山口的时候，除了红河和感恩河，并没有看到其他水源。

这一段路，他们仍然遇到了很多猴子，这里的猴子在见到他们后，露出了惊讶的表情。史佩莱打趣说，很可能这些活泼的四脚动物将人类当成了自己退化的兄弟。

史佩莱的打趣是有一点道理的。因为他们在越过灌木时，不时地会被爬藤缠住、勾住，行动迟缓。而那些猴子却能灵巧地在灌木丛中上蹿下跳、奔跑。和人类相比，它们灵敏自如多了。

好在这些猴子并没有表示出对他们的敌意，只是看着他们。

除了猴子，他们还看到了畜乳、刺鼠、袋鼠和其他的啮齿动物。见到这些动物，庞库那夫有好几次差点忍不住向它们开枪，但最终还是说：“跳吧！玩吧！等我们转回来再收拾你们。”

差不多九点半的时候，他们的面前出现了一条三四十英尺宽的河流，湍急的河流挡住了他们前进的步伐。河水中央的岩石，因为被海浪冲击，溅起了片片白沫。这里的河水虽然清澈，但却很深，无法通行。

“看来我们无路可走了。”那普喊道。

“怎么会无路可走？这种小河算不得什么的，我们可以游过去。”赫伯特说。

“那倒不必。这条河应该是通向大海的，我们可以沿这边的河岸向前走，走不到海滨才怪呢。走吧！”史密斯说。

“稍等一会儿，朋友们，这条河叫什么名字？我可不想让我们的地图留下空白。”史佩莱说。

“对，应该起个名字。”庞库那夫说。

“孩子，你给起个名字吧！”史密斯对赫伯特说。

“我们到了河口再给它起行吗？”赫伯特说。

“也好！我们不要再停顿了，尽快沿河岸前行吧。”史密斯说。

“不行，再等等！”庞库那夫说。

“又怎么啦？”史佩莱问。

“不能打猎，总能捕鱼吧！”庞库那夫说。

“我们不能再浪费时间了。”史密斯说。

“不需要太久，只要五分钟，五分钟。为了我们的食物着想，也要给我五分钟。”庞库那夫说完，趴在了岸边。他将胳膊伸到水里，很快就从岩石缝里抓出了很多活的皮皮虾来。

“太厉害了！”那普一边说，一边去帮庞库那夫。

“唉！这岛上可是什么都有，就是没有烟草！”庞库那夫叹着气，喃喃道。

满河都是皮皮虾，仅仅用了不到五分钟，他们便装满了袋子。

从河岸走比从森林里走要快得多。路途中，他们时不时地会发现一些动物的足迹，从足迹上他们判断出这是巨大的野兽，很可能是来河边喝水时留下的足迹。不过，他们虽然能看见这些动物的足迹，但却看不见这些动物本身。他们捕获的那只畜乳，崩掉庞库那夫牙齿的啮齿动物，也不是在这里打中的。

从急流中，史密斯还发现了一个问题，那就是他们离西岸远比他原先想的要远。

确实，假如河口离这里仅仅只有几英里的话，那潮水一定会将河水顶回去的。可事实并非如此，河水仍然在连绵不断地流着。史密斯感到很奇怪，并不时地拿出指南针，想看河流到底拐了多少个弯，最后才又回到西遥森林的。

走着走着，河面宽了起来，河水也不湍急了。右岸和左岸的树木都稠密起来，想要透过树木看到点什么，几乎是不可能的。不过他们能确定，这片森林里不可能有人，因为多卜并没有叫。如果附近有人，机警的多卜不可能不叫的。

十点半的时候，史密斯突然听到前面的赫伯特大喊了一声：“看！大海！”

他们急忙向前走去，只用了几分钟，荒岛西海岸的全景便呈现在了他们面前。

这里和他们无意中从气球上降落的东海岸完全不同。这里既没有花岗石峭壁，也没有岩石，甚至连沙滩都没有。森林延伸到了海边，树木

的枝干垂在了海里，浪花飞溅到了枝叶上。

通常他们看到的海岸，即使没有广阔的沙滩，也会乱石当道，但这里没有。这里的海岸更像是大海的边缘，装饰边缘的就是那些茂盛美丽的树木。所谓的海岸仅仅只是比水平面高一些而已。在这片长着森林的肥沃土地下，一定还有花岗石。不过，这些丰茂的森林生长在上面，一定也和生长在内陆上一样牢固。

他们去了一个陌生的海港，那里勉强能够容纳两三艘渔船。这条河流和其他河流不同的是，水流不是缓缓地流向大海，而是从一个40多英尺高的地方倾泻而下的。这也就解释了他们在河的上游时，根本感受不到涨潮的原因。

确实，太平洋的水即使涨到最高处，也不会高出河面。由此可见，即使几百万年过去了，这里的潮水也是无法将花岗石侵蚀的，更不可能形成一个和海水相接的河口。

看到这种场景，大家一致同意将这条河命名为跌水河。从这条跌水河向北，走到森林边缘约两英里处时，树木就稀疏起来。再往外面走，风景依然美丽，山冈由北向南形成了一条线。

跌水河和甩尾角之间的海岸，全都是高大美丽的树木，形成了一片茂密的森林。

树木形状各异，有些长得笔直，直插云霄；有些则做弯腰拂水状；更有些的根部被海浪轻轻地冲洗着。

如今，他们要在这片蛇盘半岛上开始搜寻了。在他们看来，其他荒芜的海岸不可能有人居住，只有这里才可能是那些遇难者的栖息地。

这天，天气非常晴朗。在一块山石上，那普和庞库那夫一边准备着中饭，一边向四周看着。四周及他们所能看到的视线之内，不见一只船。不过，史密斯不这么看，在没有看完整个蛇盘半岛的海岸之前，他是不会下结论的。

十一点半的时候，午饭吃完了，史密斯下令动身。为了能继续沿着海岸前行，他们并没有去峭壁和沙滩处，而是从大树底下穿行。

从跌水河到甩尾角，大约有12英里的路程，一路没有障碍的话，走到那里他们只需四个小时。可如今，他们不仅要绕大树走，而且还有灌木和爬藤挡道。砍伐灌木、斩断爬藤都需要时间，在这步步受阻中，延误行程也是很自然的事。

这里完全没有船只遇险的迹象。史佩莱曾说过，即使遗留下东西，也会被海水冲走的，所以他们不能因为没有看见遗迹就认定没有船在这里遇险过。

史佩莱的说法绝对正确，因为畜乳身体内的枪弹足以说明在之前的三个月里，林肯岛上有人开过枪。

在快下午五点钟的时候，他们还是没有离开蛇盘半岛，离蛇盘半岛的尽头还有两英里左右。

事情很明显，史密斯和他的伙伴们要想到达甩尾角，再赶回他们在感恩河发源地的营地，那简直是不可能的事，所以他们必须在海角上过夜。

居民们不缺食物，带的东西足够，而且河岸上虽然没有走兽，却有着大量的飞禽，比如啄木鸟、锦鸡、角雉、松鸡、吸蜜鹦鹉、鹦鹉、红

鹦鹉、野鸡、鸽子.....这些飞禽全都栖息在树上，甚至可以说是每一棵树上都有鸟窝，每只鸟窝里都有飞禽。

差不多七点钟的时候，他们拖着疲惫的身体，到达了甩尾角。这里就是海边森林的尽头了，海岸也不再像刚才的模样，上面布满了岩石、暗礁和泥沙。虽然这里有可能让他们找到一些东西，但因为黑夜的到来，他们只能等明天了。

庞库那夫和赫伯特开始寻找露宿的地方，赫伯特还在西遥森林的尽头，发现了一些竹子，这些竹子密集地生长在一起。

“太好了，这对我们非常有价值。”赫伯特说。

“什么价值？”庞库那夫不解地问道。

“告诉你吧，庞库那夫，这些竹子我们削成竹篾后能编篮子；要是将竹皮捣成糊状，还可以制造纸张，中国人就是这么做的；那些粗粗细细的竹竿，我们还能用它做竹管。竹管能运水；要是那种粗大的竹子，还是很好的建筑材料。因为竹子既结实又轻便，更主要的是它不怕虫蛀；那些齐竹节，如果我们把它们锯成一段一段的，还可以当杯子用。这样的杯子，中国人也常用。当然，你对这些是没有兴趣的，不过.....”

“不过什么？”

“你知道吗？告诉你吧，印度人还将竹子当芦笋吃呢。”

“芦笋？是30英尺高的芦笋吗？它们好不好吃？”

“当然，好吃极了。不过真正吃的并不是30英尺高的竹子，而是它

的嫩芽。”

“太好了！孩子，真是棒极了！”庞库那夫连连说。

“我再补充一点，如果将那些嫩茎剥了皮泡在醋里，最后就成了上等的调味品。”

“啊，赫伯特，你越说这东西越好了。”

“最后还有一点，竹子里含有一种汁水，非常香甜，用它是可以制造可口的饮料的。”

“还有吗？”庞库那夫问。

“没有了，完了！”

“那它不能当烟抽？”

“不，不能，可怜的庞库那夫。”

对话结束，他们也很很快找到了可以休息的地方——岩石上的洞穴。

岩石上有很多洞穴，这些洞穴很可能是被西南风激起，形成海浪，冲击岩石而形成的。在这样的洞穴里休息非常不错，还能躲避夜晚海风的袭击。

然而，当他们正准备去一个洞穴看看时，突然听到了一声吼叫。

“都往后退！”庞库那夫大喊一声。

他抓住赫伯特的胳膊，将他拉到一块岩石后又说：“我们枪里可都

是小子弹，从这只野兽的叫声中能知道，它并不在乎这小子弹。”

庞库那夫的话音刚落，便见一只野兽出现在了洞口，那是一只有着漂亮花纹的野兽。

这只带着花纹的野兽是美洲豹，大小和亚洲种类的豹子差不多，身长约5英尺。在那金黄色的毛片上，分布着眉形条纹和卵形黑点。这些条纹和黑点，与它雪白的胸脯形成了鲜明的对比。

赫伯特知道美洲豹是老虎的天敌，与豺狼的劲敌——花豹一样，都是十分可怕的动物。

美洲豹向前迈了一步，机警地四下看着，身上的毛全部倒竖起来。看样子它不像是第一次闻到人味。

此时，史佩莱也从一块石头后跑了出来。赫伯特以为他没有看见美洲豹，有些着急，正想去阻拦他，史佩莱却对他做了个不要动的手势。

史佩莱遇到过老虎，所以应对这种凶猛的野兽很有经验。他走到了离野兽仅有10英尺的地方，先是一动不动地站着，然后将枪抵在了肩窝上，使整个身体完全紧绷。在野兽准备纵身向他跃来时，他枪中的子弹精准地打向了美洲豹两眼间的位置——美洲豹倒在了地上，死了。

赫伯特和庞库那夫急忙跑了过去，那普和史密斯也从另一边向倒毙的美洲豹跑去。他们在看着地上的野兽时，心里在想，这美丽的兽皮，要是拿来装点“花岗宫殿”的话，一定很漂亮。

“天啊，史佩莱先生，你真是让人既羡慕又嫉妒啊！”赫伯特冲着史佩莱大喊。

“好吧，孩子，你也可以做到的！”史佩莱说。

“我？行吗？”

“完全可以，你就当它是一只野兔，沉着地朝它开枪就行了。”

“是啊，它可并不比兔子狡猾。”庞库那夫说。

“现在呢，它的窝已经让给我们了。朋友们，我们为什么不进去过夜呢？”史佩莱说。

“会不会有其他野兽进来？”庞库那夫有些担心。

“我们在洞口燃一堆火吧，这样野兽就不敢进去了。”史佩莱说。

“那么，我们行动吧！”庞库那夫说。

这天，那普留下来剥那只美洲豹的皮，其他人则在森林里捡了一些干柴堆在洞口。史密斯在看到那片竹林后，也砍了一些，和干柴放在一起。

等到这一切都做好后，他们便钻进了美洲豹的洞里。洞里到处都是白骨，他们把枪支准备好，随时预防突如其来的袭击。

晚饭后，在临睡前，他们又往洞口的火堆里放了些干柴。那阵阵爆裂的声音，打破了四周的寂静。

那是竹子发出的声音，像极了鞭炮。这样的声音，想必再胆大的野兽也会胆寒的。

制造这样震耳欲聋的声响，并不是史密斯第一个做的。据马可·波

罗说，很多世纪以来，在中亚地区的鞑靼人，就是采用这种方法来驱散帐篷附近的野兽的.....

第五章

这群林肯岛上的新居民，就这么在美洲豹的洞里，如同土拨鼠一样睡了一夜。

太阳出来的时候，他们到了海角尽头的海岸，仔细观察着海面。此时的他们能看到周围三分之二的水平线。史密斯在看了一会儿后，便能够确定海上既没有一只航行的船，也没有一点遇难船只的残骸了。最后，他又用望远镜看了一遍，结果还是一样。

不仅海面，就连岸上也是这样。形成一条直线的约3英里长的海角南边，根本什么都看不到。隆起的高地遮住了海岸的其他部分，就是在蛇盘半岛的尽头，也无法看到兽爪角。

荒岛南岸他们还没去看过，要不要即刻就去，在那里再花上整整一天时间呢？

那一天正好是11月2日。

去荒岛南岸并没有在他们预先的计划内，当他们在感恩河的发源地弃船登岸时，也只是决定到西岸去看看，然后返回船上，最后再从感恩河返回“花岗宫殿”。

当时之所以如此计划，是因为史密斯认为西岸肯定能住人，而且不管是遇难船只还是正常航行的船只，都有可能在那里停泊。但当他亲眼见到此地的情况后，便打消了原来的看法，因为这里根本就没有适合抛锚的地方，所以他临时决定再去南岸看看，也许那里有他们在西岸没有发现的东西。

史佩莱也提议继续搜寻，以便找到他们假定的遇险者，于是问兽爪角离半岛尽头有多远。

“如果将海岸的曲折状况计算在内，应该在30英里左右。”史密斯说。

“30英里？”史佩莱大惊。

“那可需要走一天呢。我们不妨最后从南部海滨回‘花岗宫殿’。”史佩莱说。

“不过，从兽爪角到‘花岗宫殿’差不多有10英里呢。”赫伯特说。

“这样算下来，应该有40英里吧。不过不用害怕。我们这次对陌生的海岸进行观察后，以后就不用再去重新搜索了。”史佩莱说。

“想法不错，但我们的平底船怎么办？”庞库那夫说。

“那船独自在感恩河的发源地也有一天时间了，再放上两天也没什么关系。到目前为止，我们还看不出这岛上有贼。”史佩莱说。

“不过，一想到海龟的事，我就没办法相信岛上没贼了。”庞库那夫说。

“海龟！你是说，难道到现在为止，你还不相信它是海水翻过来的吗？”史佩莱问。

“谁又知道是什么情况呢？”史密斯喃喃着。

“可是……”那普张着嘴，话没说完便停了下来。

“你有什么要说？那普。”史密斯问他。

“如果我们沿着海岸去兽爪角，在绕过兽爪角时，去路会被挡住的。”那普说。

“你是说会被感恩河挡住吗？是这样的，到时候我们可就既没桥也没船了。”赫伯特说。

“不过，史密斯先生，只要有树干，我们还是会过去的。”庞库那夫说。

“没关系的，如果我们真的打算走近道去西遥森林的话，那完全有必要造一座桥来。”史佩莱说。

“造一座桥？对呀！史密斯先生不是优秀的工程师吗？需要的话，他一定会为我们搭一座桥的。至于我们今天晚上如何去感恩河的对面，我倒可以给大家保证，保证大家滴水不沾地过去。我们身上带着的食物还可以吃一天，同时还能边走边打野味。走吧，我们快走吧！”庞库那夫等不及了。

史佩莱的建议得到了庞库那夫的大力支持，也得到了大家的一致认同。其实这主要缘于大家都想尽快解开内心的疑团。去了兽爪角，他们就可以说看遍整个林肯岛了，谜底也一定能被揭开，所以他们一点时间

都不想耽误。那40英里的路程很漫长，想要在天黑时回到“花岗宫殿”，并不是一件容易的事。

清晨六点，一行人从营地出发。为了避免再次出现“美洲豹”事件，他们全往枪里装上了子弹，多卜也被安排在了队伍的最前边，其他人跟着它往前走。

半岛尾部形成了一个海角，如果从海角尽头算起的话，海岸周围足足有5英里长。这一部分他们搜查完了，既无扎营迹象，也没有残留的物品，更没有燃烧后的遗留灰烬，甚至连一个脚印都没有。

总而言之，不管是过去还是最近，有人登陆的迹象都不存在。

在他们到达海角后，弧形地带就全部走完了，再向东北方向拐的话就到了华盛顿湾。从这个地方看整个南部海滨，25英里外就是海滨尽头兽爪角。透过清晨薄薄的晨雾，他们能隐约看到兽爪角的轮廓。也许是一种错觉，兽爪角犹如是悬挂在陆地和海洋之间。

他们所站的地方与对面那巨大的港湾间，地势明显分成了三部分。离他们最近的是平坦地带，背后是一大片森林。再往前走，海岸就变得曲折起来，更有尖角突出在海面。

兽爪角所在的地方，到处都是黑色的岩石，凌乱中组成了一幅奇怪的画面。

他们停下来，大致看了一下这片荒岛上的部分地势。

“如果有船来这里，肯定会沉的。你看，到处不是沙洲就是暗礁，太险了！”庞库那夫说。

“如果船沉了，是不是会遗留下一些东西？”史佩莱说。

“也许石头上会有残存的木片，不过沙滩上肯定没有。”庞库那夫说。

“为什么这么说？”

“很简单，沙滩比石头还要危险。不管什么东西掉在沙滩上，都可能陷下去并被淹没。就是那上百吨的大船，只需几天，也有可能连船都消失不见。”

“那么，如果有船在这里遇了险，如今找不到一丝遗迹，是不是也不奇怪？庞库那夫。”史密斯问。

“是这样的，史密斯先生。时间和风暴会掩盖一切的，所以没什么奇怪。不过，即使真是这样，没有一根桅杆和圆木被冲到海岸上来，也是很难让人信服的。”

“这样的话，那我们还是继续搜寻吧！”史密斯说。

在又走了差不多20英里后，他们来到了华盛顿湾的另一边，此时已经到了下午一点钟。

他们开始停下来吃饭。

海岸从他们停下来的地方变得曲折，遍布岩石和沙洲。他们看到了久久冲击海湾中的岩石，形成一道道水花的波涛。

从这个海角到兽爪角，森林与礁石间的海岸非常狭窄。

走在有着很多岩石的海滩，他们有种寸步难行的感觉。越往前走，

花岗石峭壁就越是陡峭。站在下面，他们只能看到顶端的绿色树梢。

经过半个小时的休息，他们又开始赶路了。此时，他们连岩石间也不放过，细心地搜寻着。庞库那夫和那普，不管发现什么，即使是在海浪里的东西，他们也会跑上去观察一番。不过总是失望而归，他们发现的，很多都只是一些奇形怪状的石头。不过，有一点他们能肯定，那就是这里有很多可以食用的蛤蜊。

但由于所处的位置运送起来不方便，所以这个发现对他们来说也没什么意义。

海岸上，没有任何发现的东西能够说明这里曾有遇险的船只。哪怕出现任何一件值得他们注意的东西，他们都会注意到，但还是没有。他们没能看到一根桅杆、一根圆木，或者是像在拾箱角发现的“聚宝箱”。

差不多三点的时候，一行人来到了一条小溪边。小溪在这里形成了一个天然港口，这个港口在海里并不容易被人发现，只有通过一条狭长的通道后才能看到。

小溪的后面，因为剧烈的地震，使岩石分裂成了一条道。沿着这个破口形成的道，他们经过一个角度很小的斜坡，最后来到了一处高地。高地离兽爪角至少有10英里，所以它与观望壁的直线距离也不过4英里。

史佩莱建议大家休息一会儿，大家都同意了，因为经过一段艰难的跋涉，他们又累又饿。虽然离平时的吃饭时间还早，但他们还是想用点野味来补充补充体能。吃完这餐饭，他们便要坚持到晚饭时再吃了，而晚饭他们计划等回到“花岗宫殿”后再吃。

于是，大家聚在了一棵美丽的海松树下，狼吞虎咽地吃起了那普口袋里装着的食物。

他们坐着的地方离海面有五六十英尺，周围的视野并不宽广。不过，在海角以外，他们还是能看到联合湾的。但由于地面的隆起，使其和森林形成了一道天然的屏障，将北边的地平线全都遮住了，所以无法看到小岛和观望壁。

当然，虽然能看到一大片海洋，但史密斯还是架起了他的望远镜，在水平线上并没找到船只的踪影。就连水边和峭壁处，他们都仔仔细细地检查过，并且还使用起了仪器，但仍然没有发现什么可疑物品。

“看来，这下我们能完全放下心来了，不用再担心有人和我们抢林肯岛了。”史佩莱说。

“但畜乳身体里的子弹，总不会是我们凭空想象出来的吧。”赫伯特大声说。

“真是该死，那是真的。”庞库那夫大叫道，他又想起了他被崩掉的牙齿。

“可我们现在会得出什么结论呢？”史佩莱问。

“这结论就是，三个月前，或许是更早，曾有一只船，不管是有意还是无意，来到了这个岛上。”史密斯说。

“这么说，赛莱斯，你认为他们什么痕迹都没留地又陷进了沙滩？”史佩莱叫道。

“并不是这样的，亲爱的史佩莱！想想看，既然有人曾来过岛上，

难道他们就不能离开这岛吗？”

“如果我没猜错的话，史密斯先生，你的意思是那船又离开了？”

“当然，很有可能是这样！”

“那么，我们曾错过了回国的机会？”那普问道。

“很可能是这样。”

“既然如此，那么好吧，我们已经失去了机会，还是赶快赶路吧，这是没有办法的事。”庞库那夫说，他想回“花岗宫殿”了。

在他们正打算起身的时候，突然听到多卜一边大叫，一边从森林里跑了出来，嘴里还衔着一块破布，破布上满是污泥。

那普一把抢过那块布，那是一块非常结实的布。

多卜还在叫着，并不时地来回乱跳，好像是在喊它的主人们，快快跟它去森林。

“看来我们能揭开子弹的谜底了。”庞库那夫大声说。

“你是说这里有遇险的人？”赫伯特问。

“很可能那人受了伤。”那普说。

“也有可能已经死了。”史佩莱补充说。

几个人沿着森林边缘的大松树，跟着多卜往前跑。史密斯和伙伴们全都将武器准备好了，随时准备出击。

就这样，他们在森林里走了一段，却依然没有发现人的痕迹，这不禁让他们又失望起来。灌木和爬藤没有丝毫受到损坏的迹象，他们仍然要像在密林中一样，用斧头去砍树丛和爬藤，然后往前走。由此可以推断，这里根本不可能有人来过。不过，多卜仍然在来回跑着，并不像是在随意奔跑，而像是一个有目的的搜索。

多卜在密林中来回奔跑了七八分钟，终于在几棵大树间停住了。史密斯和伙伴们也停下了，他们四下看着，但灌木丛和大树间什么都没有。

“多卜，怎么了？”史密斯对着他的狗说。

多卜开始在一棵松下跳跃，并发出很大的叫声。庞库那夫突然大声喊道：“啊，太好了！太好了！”

“什么太好了？”史佩莱问。

“我们只是不断地在海里和沙滩上寻找遇难船只。”

“那又怎样？”

“可是它却在树上。”

庞库那夫说着话，用手指着松树顶上的大块白布说。看来，多卜衔在嘴里的那破布就是从松树上面掉下来的。

“可这又不是什么破船。”史佩莱有些失望地说。

“对不起，我错了。”庞库那夫的声音小了起来。

“怎么？为什么说……”

“因为这是我们气球上遗留下的东西，是我们的气球，它现在就在我们头顶的树上呢。”

庞库那夫说完，又兴奋起来，大声说：

“有这些布多好呀，可以够我们用很多年呢，还能用它们做衬衫和手帕，多好呀。史佩莱先生，荒岛上的树能结衬衫，真是太好了，你觉得怎么样？”

这只带着他们来到此地的气球，最后居然落在了这里，落在了这棵树上，又让他们重新获得，这对他们来说，是不管怎样也要留下来的，他们要将它带回自己的国家，或者取掉上面的漆，然后好好利用这几百码的上等棉布。

总之，发现它，怎么都算是一件高兴的事。因此，人人都变得和庞库那夫一样开心了。

不过，现在要想将这破败不堪的气球从树上取下来，并不是一件容易的事。那普和赫伯特，以及庞库那夫都爬上了树，想尽办法将它从树杈上解下来。

他们忙活了两个小时后，终于有了收获，不仅将带有活门、弹簧和黄铜零件的气囊拿了下来，而且也取下了大量的绳索、套环和吊绳。在这些零部件里，除了气囊有部分被扯坏外，其他的都完好无损。

这件事对他们而言，真是喜从天降啊。

“史密斯先生，这气球对我们已经没什么意义了，以后我们就是离开小岛，也不会乘气球离开的，是不是？这气球可是不会听我们摆布，想去哪就去哪的，我们已经经历过这种事了。你看，我们不妨造一只

船，20来吨，然后用这些布来做主帆、前帆和三角帆。剩下的布，我们还可以拿来穿衣服。”庞库那夫说。

“这件事情以后再说，庞库那夫，以后再说吧。”史密斯答道。

“在不知道做什么的时候，我们要将它放在安全的地方才行。”那普说。

当然，他们现在最先要做的就是怎么把这些布和零件搬回“花岗宫殿”。

由于分量太重，他们必须找一辆车子来搬才行。而在搬走之前，他们也不能让这些对他们来说是宝贝的东西暴露在外面，任凭风吹雨打。所以最后，在他们的一起努力下，终于把它拖到了岸边，拖到了那个他们曾住过的美洲豹洞穴，这个洞穴是肯定不能有风雨入侵的。

“本来缺一个柜子，现在好了，有柜子了。可这柜子没办法上锁。我看还是将这洞穴堵起来吧，两条腿的贼我们不怕，怕就怕那四只脚的兽。”庞库那夫说。

六点钟的时候，他们已经将一切都收拾妥当了。随后，他们给海湾取了个名字叫气球港，然后沿着兽爪角继续前行。

庞库那夫和史密斯讨论了很多，说了很多计划和打算，但最一致的意见便是不要耽搁，尽快实现计划：在感恩河上架一座桥，以便和荒岛南部进行联络；平底船无法装运气球，所以拉辆大车过来，将气球运回去；造一艘带甲板的船。

庞库那夫的想法是造一艘单桅快船，这样他们就能环航全岛了，而且以后这船也会有其他用途。

此时，黑夜降临。当他们到了曾发现大木箱的地方时，天已经完全黑了下来。即使这样，他们还是又搜寻了一番，但和其他地方一样，找不到一点遇难船只的踪迹。这也再一次证实了史密斯之前所说的，不会寻找到任何线索的结论。

从发现木箱的地方到“花岗宫殿”大约有4英里，在他们沿着海岸，经过感恩河的河口，过了感恩河的第一个拐弯处时，已经是午夜时分了。

80多英尺宽的河面，想要过去非常困难。但庞库那夫之前已经保证让大家滴水不沾地过河，所以他只得硬着头皮去想办法。

疲惫不堪的他们先是走了很长的路，接着又爬树取气球，所以都恨不得马上回到“花岗宫殿”，饱餐一顿后好好睡一觉。他们想，如果有一座桥该多好，他们只需15分钟就能到家了。

四周一片漆黑，庞库那夫准备实现自己的承诺，造一个木筏载大家过去。他和那普各持一把利斧，选了两棵树后就砍起来。

坐在岸边的史佩莱和史密斯打算去帮他们，而赫伯特则在岸边徘徊着。当他走到河边后，突然指着感恩河大喊：

“快看，那是什么东西在漂？”

庞库那夫马上停下工作，黑暗中，他隐隐看到有什么东西在水里移动。

“是小船。”他大喊。

大家跑过去一看，果然有只小船正顺流而下，所有的人不禁大吃一惊。

“注意安全！”庞库那夫喊道。他并没有考虑，此时不出声是不是会更安全一点。

小船继续向前漂移，在离他们大约12英尺的时候，庞库那夫喊道：

“这是我们的船。是绳子断了，所以漂下来了吗？太好了，真是太好了！”

“这是我们的船？”史密斯小声喃喃着。

庞库那夫并没有看错，这正是他们的平底船。一定是船上的绳索断了，所以才从感恩河的河口上游漂下来的。他们现在必须马上把它截住，不然很可能被激流冲出河口。

那普和庞库那夫马上用长木杆阻止了它的漂移。

平底船靠了岸，史密斯率先跳了上去。在经过一番检查后，发现绳子果然是在岩石上磨断的。

“哼！这事儿真是太奇怪了。”史佩莱小声对他说。

“确实非常奇怪。”史密斯说。

不管这事有多奇怪，但他们不能不说是太幸运了。赫伯特、史佩莱、那普和庞库那夫先后上了船。平底船磨断的绳子不会有问题，但有问题的是，这船为什么是在这个时候被他们截住的。如果早一会儿或晚一会儿，这船肯定是会漂到大海里去的。

如今的时代已经不是神话时代了，不然，他们一定会以为有神灵在这林肯岛上暗地里保护着他们。

他们划着桨，来到了感恩河的河口。平底船在“花岗宫殿”附近的海面停下，大家下了船，朝“花岗宫殿”的软梯处跑去。

不过，就在此时，多卜又开始愤怒地狂叫了。寻找梯子的那普，也突然大喊一声：“梯子呢？我们的梯子不见了！”

第六章

史密斯怔怔地站在那里，一言不发。其他人则在黑暗中寻找着软梯，他们认为软梯很可能被吹到了一边，也许是掉在了地上……不过，在石壁上摸索，在地面上寻找了一番后，还是一无所获。

会不会是被风吹到了半空中？因为天黑，他们无法证实这样的推测对不对。

“如果这只是一个玩笑的话，那么，这个玩笑开得也太过分了。我们想回自己家，但却找不到进家的梯子。对我们这些累得要死的人来说，真是太不好玩了。”庞库那夫大声喊着。

那普无计可施，大嚷大叫，却不知道该说些什么。

“我现在才发现，林肯岛上真是怪事连连！”庞库那夫又说。

“奇怪吗？有什么好奇怪的！庞库那夫，很简单，有人趁我们不在的时候，霸占了我们的房子，然后还把软梯拉上去了。”史佩莱说。

“你是说有人？那.....那会是谁？”庞库那夫说。

“当然是开枪打畜乳的那个人了。还能有谁？我们还真是倒霉！”史佩莱说。

“如果上面有人，那我喊喊他，他一定会答应的。”庞库那夫有些不耐烦起来。

“喂！”庞库那夫拉开长音，大声吼着。峭壁和山谷间，回荡出了“喂”的回声。

他们开始侧耳倾听，好像听到了一阵“咯咯咯”的笑声，但这笑声是不是人发出来的，他们并不知道。但也没人来回应庞库那夫，即使他再次大声呼喊，仍然无人应答。

确实，即使是再麻木的人，在遇到这种情况的时候也会感到恐惧，更何况他们并不麻木。在他们所经历的每件事中，意义都非同寻常。但在他们居住于这荒岛上的七个月时间里，的确没有一件怪事能同这件事相提并论。

突如其来的变故，让他们在惊诧中忘记了疲劳。然而他们只能待在“花岗宫殿”下，还无法思考接下来要怎么做。他们知道谁都无法解决这个问题，谁都无法给出一个答案，但却还是互相聊着，聊得天南地北，神奇又不失离奇。

那普此时因为无法进入厨房而感到难过。之前所带的食物已经吃光了，黑夜中的他们无法重新补充食粮。

终于，史密斯开口了。

“朋友们，我看我们只能等到明天，到时再见机行事了。我们现在先回‘石窟’吧，虽然没什么吃的东西，但起码可以睡上一觉。”

“这到底是谁在和我们开这么大的玩笑？”庞库那夫喃喃着。他还在犹豫，并不想离开这里。

不管和他们开玩笑的是谁，他们现在最好的做法就是听从史密斯的建议，去“石窟”，等待天亮。而留在“花岗宫殿”值班的则是多卜。

多卜在接受了这个命令后，一声不响地趴在了悬崖底下。它的主人，以及主人的伙伴则只能去找那乱石丛休息了。

虽然疲惫不堪，但如果认为他们一到“石窟”就能呼呼大睡的话，那就大错而特错了。睡不着的原因不仅仅是因为他们急于想知道到底发生了什么事，而且他们也在考虑等到天亮，是不是一切真相就都能大白于天下。

当然，他们更想知道，是不是真有人在故意捉弄他们。最后，还有一个睡不着的原因就是在“石窟”里睡觉，一点都不舒服。

不过，那个舒服的住所已经被人霸占了，他们只能先这样。

“花岗宫殿”对他们来说意义太大了，那里不仅是他们的住所，还是他们的仓库。他们全部的东西，包括武器、仪器、火药和粮食都在那里。如果这些都被别人抢走了，那他们就只能从头做起，而如果要重新制造武器和新工具的话，那将是件非常严重的事。

他们变得焦躁不安，每隔几分钟，就有人跑去看多卜是不是还好好地守在那里。

当然，有一个人表现得很淡定，那个人就是史密斯。他像平时一样镇定地等待着。不过，这令人不可思议的事件，即使凭他那聪明的头脑和理性的思维，也无法想明白。同时，当他觉得有个人在左右他们时，就有些懊恼起来。

这种懊恼也出现在了史佩莱的身上。于是，他们轻声地议论着，议论着这莫名其妙的事情。但想破头皮还是没想通。这岛上肯定有着不为人知的秘密，这个秘密到底要怎么才能揭开呢？

好幻想的赫伯特不停地向史密斯问东问西；那普觉得这是主人的事，甚至如果不是担心伙伴们生气，他一定可以像在“花岗宫殿”一样熟睡的。而在这些人里，最着急的就是庞库那夫了，他快要被气疯了。

“这一定是个玩笑，是有人给我们捣鬼。我不喜欢开这种玩笑，开玩笑的人他等着，别落到我手里，否则我一定会让他好看的。”庞库那夫气愤地嚷嚷着。

曙光从东方微微露出，几个人马上起床，到了峭壁旁的海岸上。早晨的太阳是可以直射“花岗宫殿”的，所以他们只需再等一会儿，“花岗宫殿”的整体就都会被太阳照亮的。

虽然是早晨五点，但透过遮天蔽日的枝叶，他们仍能看到那几个紧闭的窗户。

一切都显得非常正常。不过，他们突然发现出发前关好的门现在是敞开着的，都忍不住大叫一声。

有人去过“花岗宫殿”，毫无疑问。

软梯的上半段一直是从门口挂到平台的，现在仍然在那里，但下半段却被拉了上去，拉到了齐门槛的地方。当然，这么做的目的，是那“侵略者”想防止有人侵袭。

进了“花岗宫殿”的是些什么人？有多少人？想知道这些是不可能的。因为，直到现在，没有一个人露出头来。

庞库那夫继续喊着，喊了好一会儿，仍然无人应答。

“这该死的！安安静静地以为是躺在自己家吗？喂！你们就是强盗、土匪、海盗、约翰牛！”

美国人庞库那夫，在他骂出“约翰牛”时，觉得已经把对方骂到极点了。

太阳完全升了起来，照在了“花岗宫殿”的正面。不过，里面却依然悄无声息。

“花岗宫殿”里有没有人，他们并不知道。但从梯子所处的位置看，应该是有的。不过他们能肯定的是，这些人不管是谁，都还没有离开。但要怎么才能抓住他们呢？

赫伯特提议，不妨在箭上系一根绳子，这样当他们把箭射向门槛上的软梯空当时，就能拽住箭上的绳子，然后将它拉到地面上来了，这样也就能恢复进“花岗宫殿”的通道。除了这个办法，似乎也没有其他办法可行。而且假如射箭本领高的话，这么做是一定会成功的。弓箭“石窟”里就有，除此以外，还有一些木槿编织的绳子。

就这样，庞库那夫将这根绳子系在了弓箭上，然后让赫伯特瞄准软梯下端，张弓射箭。

史密斯、史佩莱和庞库那夫急忙向后退了几步。他们怕窗口有什么东西出现，这样他们就完全暴露在那人的面前了。此时，史佩莱也举起了枪，并把枪托抵在肩窝处，枪口对准了“花岗宫殿”的门。

赫伯特射出了那支箭，箭带着绳子，飞到了软梯最后两档之间。

他们成功地达到了目的。

赫伯特一把抓住了绳子头，就在他准备把软梯拉下来时，门缝里突然伸出了一只手，紧紧地抓住了绳子，将绳子重新拉进了“花岗宫殿”。

“该死的！如果我有子弹，一定不让你活着！”庞库那夫喊道。

“那是谁呀？”那普问。

“你问那是谁？这也看不出吗？”

“没有看出来。”

“这都没看出来？那是一只猴子！一只吼猴，猩猩，狒狒，大猩猩，猿猴……看来，我们的住所现在成了猴子窝了。它们趁我们不在的时候，从梯子上爬了上去。”庞库那夫气愤地说。

仿佛为了证明庞库那夫的话是对的，窗口再次出现了两三只猴子的脸。它们打开窗户，向这些原本的主人们做着鬼脸。

“我就说是开玩笑。这些可恶的家伙，我们要杀一儆百！”庞库那夫喊完，举起枪，瞄准一只猴子就打。那只猴子从上面掉了下来，掉在

了沙滩上。其他猴子见状，一转眼全都不见了。

这只猴子属于猕猴类的一种，也有可能是黑猩猩或是猩猩，更有可能是大猩猩。总之，这是类人猿，因为和人最相像而得名。不过，对动物学非常精通的赫伯特却坚决地说它就是猩猩。

“它长得真好啊！”那普大声喊着。

“好又能怎样？我们还是没办法进去。”庞库那夫说。

“我们有射击能手赫伯特，他有弓箭，不妨让他来试试。”史佩莱说。

“这些猴子机灵着呢，我想它们一定不会再出现在窗口了。我们是打不到它们了。一想到它们会在我们的仓库里乱翻，我就.....”

“不用着急，我们不会被它们弄得没有办法的。”史密斯说。

“它们会一直不下来吗？我不信，史密斯先生，你知道上面一共有多少只吗？”庞库那夫问。

他的问题没人能够回答。赫伯特做了第二次试验，但和上次一样，同样被猴子拉了上去。等到再拉的时候，绳子断了，软梯牢牢地留在原地。这情况确实让他们很为难，庞库那夫急得直跳脚。

这一系列情况原本很可笑，但庞库那夫却笑不出来。当然，他们最后一定会将这些“侵略者”赶出去的，也一定会重新回到家裡的，但还要等多长时间呢？又要怎么做才能赶它们走呢？问题就在这里。

两个小时过去了，在这段时间里，猴子们一直非常谨慎，不再露

面。有三四次，它们从门口和窗户里探出鼻子和爪子，下面的人就马上开枪了。

“还是躲起来吧，也许当它们觉得我们走远了，会重新露出头来的。到时赫伯特和史佩莱就躲在岩石后，看见它们就打。”

大家便立即按照史密斯的安排开始行动。史佩莱和赫伯特因为射击技术高超，躲在了猴子看不见的地方。此时，那普、庞库那夫和史密斯则爬上了高地，去森林里打猎了。因为现在已经到了早饭时间，但他们一点食物都没有。

半个小时后，史密斯和庞库那夫拿着一些野鸽子回来了，并燃起火来，将鸽子肉烤得非常香。

但还是没有一只猴子出来。史佩莱和赫伯特让多卜继续在窗下守着，自己去吃饭了。吃过后，他们继续在那里埋伏。

两个小时过去了，情况依然没有好转。猴子犹如失踪了般突然销声匿迹了。当然，也许是因为有同伴被打死，所以害怕了，躲起来了，躲在了“花岗宫殿”的后半部，或者是跑去了仓库。而当他们一想起仓库里有那么多珍贵的东西时，便急得团团转，甚至连史密斯叮嘱他们要有耐心这点也忘了。

“真是太糟糕了！我们竟然对它们毫无办法。”史佩莱说。

“可不管怎么样，我们都要把它们赶出去。”庞库那夫着急地喊着，“不管它们有多少，哪怕有20个，我们也可以将它们制服，不过这需要我们和它们面对面较量。真是的，难道我们就没办法抓住它们吗？”

“要不，我们从湖边，从原来的洞口进去吧。”史密斯终于说。

“对啊，我们可真糊涂呀，怎么连这个地方都没想起来？”庞库那夫说。

确实，要想进入“花岗宫殿”里，和这些“侵略者”面对面地战斗，这是唯一的办法了。

洞口虽然被他们用石头和泥土筑成的墙堵住了，但他们可以把那墙推倒，这堵墙以后就是想修复，也不是什么难事。幸好当时没有将湖水引到高处，淹住洞口，不然不知道要多浪费多少时间和精力呢。

就这样，他们带着武器和锄头、铲子，来到了“花岗宫殿”下。此时已经是中午十二点钟了。多卜还被留在原地，他们几个人则爬上了感恩河左边的堤岸，向观望壁走去。

不过，就在他们向那个方向走了不到50步时，听到了多卜的怒吼声。大家折转从河堤上冲了下去。一转弯，他们就发现了事态的变化。

有一大群猴子，像是突然受了什么惊吓，慌忙要逃。其中有两三只像杂技演员一样，从一个窗口爬向另一个窗口。如果要将梯子放回原处，它们是容易下来的，但它们好像并没打算这么做，也许是因为害怕，所以看上去它们有些糊涂，找不清方向。

此时，居民们想要瞄准它们真是太容易了，于是大家便开枪射击。猴子死的死，伤的伤，随即又是一阵叫喊，跌进了房间里。有些猴子在向外冲时，跌到了沙滩上，摔死了。

几分钟后，他们敢肯定，“花岗宫殿”里已经没有一只活猴了。

庞库那夫大声笑着叫好。

“不要叫好！行吗？”史佩莱说。

“为什么不能叫好？都被我们杀光了。”庞库那夫说。

“虽然是这样，但我们还是进不去。”史佩莱说。

“那……我们从那水洞口进去吧！”庞库那夫说。

“行是行，不过最好……”

像是为了特意回应史密斯的话，一条软梯竟然从门槛上滑了下来，掉在了地上。

“天啊！真是太神奇了！”庞库那夫看着史密斯，大声喊道。

“太神奇了！”史密斯喃喃着，首先上了梯子。

“史密斯先生，留神呀，说不定那些该死的家伙还没死光呢。”庞库那夫喊道。

“很快就能知道了。”史密斯嘴里说着，人继续往上爬。

此时，大家也跟在他的后面往上爬，不一会儿就爬到了门口。他们四下看着，并没有看到一个人，在猴子曾经光顾过的仓库，也同样没有一个人。

“那么，那个梯子，又是谁给我们送下去的呢？”庞库那夫大喊。

这时，他们先是听到了一声喊叫，接着看见一只原本躲在走廊里的

猩猩冲到了屋里。猩猩个头很大，那普在后面紧紧追赶。

“啊，你这强盗！”庞库那夫也喊着。

在他拿着手里的利斧，准备朝猩猩的脑袋上劈时，史密斯抓住了他的胳膊：“把它留下吧，庞库那夫。”

“留下它？饶了这个畜生？”

“是的，梯子可是它扔给我们的。”

史密斯的话让其他人觉得很奇怪，甚至不知他是在开玩笑还是说真的。

不过，大家还是扑向了猩猩。猩猩拼命自卫，但最终还是寡不敌众，被捉住并捆了起来。

“这下好了，我们捉住它了，怎么办？”庞库那夫说。

“让它当我们的仆人。”赫伯特说。

赫伯特并不像是在开玩笑，因为他知道，猩猩的聪明，是完全可以被利用的。

于是，大家开始仔细端详起猩猩来。因为是类人猿的一种，所以它的颜面和澳洲、南非的土人有些相像。它没有同类那样凶猛可怕，又不像狒狒那么好动；既不像南美洲长尾猿那么脏，也不像北非的叟猴那样狂躁，更不像犬面狒狒那样顽劣。

在类人猿中，有和人一样拥有智慧的猩猩，而这只猩猩正好具备了这个特点。如果他们不在时，留它在家里干个活的话倒很不错。它很可

能不仅会伺候人，还会扫地、洗衣服、擦皮鞋，甚至还会像人一样使用刀、叉、汤匙等等，甚至还会喝酒……

它们能做到像受过训的仆人一般能干。有人曾将这样的猩猩培养成了自己的仆人，既忠诚又能干。

居民们捉住的这只猩猩个头很大，差不多有6英尺高，体格匀称健硕。它的胸腔很宽，头却不是很大，圆圆的。颜面角达到了65°，鼻子向外突起，通身长着光亮而柔软的毛发。

总之，这是一只品种优良的类人猿。

它的眼睛不如人眼大，眼神里却闪烁着一种智慧的光芒。雪白的牙齿在胡子下闪闪发光。更有意思的是，它的下巴上有一小撮卷卷的胡须，而且还是褐色的。

“太漂亮了！可惜它不懂我们的话，不然就能和我们交流了。”庞库那夫说。

“主人，难道……难道，我们真要收它做仆人？”那普疑惑地问。

“当然了那普，你可不要嫉妒哦！”史密斯笑着说。

“它一定能做得很好的！你们看，它多年轻呀，而且很容易调教。我们不要像有些人那样，拔它的牙齿，打骂它，只要好好对它，它就能很好地忠于主人。”赫伯特补充说。

“是的，它一定可以的！”庞库那夫说。此时，他已经不生这个霸占过他们住处的“开大玩笑的人”的气了。他走到了猩猩面前：

“嘿！你好吗？老兄！”

猩猩哼了一声，眼神中没有敌意，也没有怒意。

“你是否愿意加入我们的团队，为史密斯先生服务呢？”庞库那夫继续问。

猩猩又哼了一声，好像是在代替回答。

“给你的待遇是一日三餐，其他的就没有了。你愿意吗？”

猩猩第三次哼了一声。

“这谈话也太简单了吧！”史佩莱说。

“简单更好！好的仆人应该少说多做。没有其他的待遇，明白吗？伙计！我们是不会先给你报酬的，如果到时候你干得不错，我们会给你报酬加倍的！”庞库那夫最后说。

就这样，他们这个团体又有了一位新成员。在决定给它起个什么名字时，庞库那夫提出，为了纪念他曾认识的一只猿猴，他想叫它狙伯迪，简称狙布。

大家完全赞同他的提议。于是，没有经过任何仪式，猩猩小狙布就和他们一起住在了“花岗宫殿”，做起了他们的仆人。

第七章

林肯岛上的这群居民，最终没有打开原有的洞口，而是从原路回到了房间。他们因此也省去了推墙和修墙的麻烦。

因为，当他们想去推墙时，那群猴子却因为受到某种惊吓而开始出逃，这给了他们机会。为什么会这样？难道是猴子们发现了他们要从别处进去袭击它们？是这样吗？它们退却的真正理由是什么？

趁着是白天，他们将死去猴子的尸体带到了丛林里埋掉，然后又忙着整理被那群“侵略者”搞得乱七八糟的东西。虽然房屋里的东西被翻了个翻天覆地，却没有任何东西被损坏。这又是他们的一个幸运。

收拾好后，那普开始烧火做饭。食品室里有很多好吃的东西，所以他们很快就饱餐了一顿。

当然，美餐时，他们并没有忘记新成员小狙布。他们给了它很多南欧松子和块茎，小狙布吃得津津有味。

不过，庞库那夫只解开了它前肢的绳子，留下了绑着后肢的绳子。想要全部解开，还需等他们训练得它非常听话时才行。

在睡觉前，史密斯召集大家开了个会，讨论他们需要马上实施的计划。当然，迫在眉睫的事是在感恩河上搭一座桥，这样就能将荒岛南岸和“花岗宫殿”之间的道路打通了。接着，他们还要建一个围栏，以便驯养他们打算捕捉的莫伏鹿羊以及其他可驯养的动物。

这两件事是他们当前最需要解决的问题。而在搭好了桥之后，他们便能很容易地将气球运回来了。那时候，他们也就能得到布匹，而围栏里的动物也能给他们提供“毛”，进而让他们有冬衣穿了。

史密斯计划将围栏设在红河发源地附近。因为那里有新鲜的青草，

很利于食草动物生活。

而从观望壁到红河的发源地，那段路已经被他们走成了一条道。如果能有一辆比原来还好的大车，特别是他们如果能捉住一只可以拉车的野兽的话，那么运送东西也就方便多了。

那普提出了他的想法，认为围栏离他们住的“花岗宫殿”远不远并不重要，重要的是家禽不能离他们太远。而且家禽最好能离厨房近一些，所以靠近原来洞口的那段湖岸非常不错，甚至可以说没有比那里更合适的了。

在那个地方，他们不仅可以驯养鸟类，而且还可以驯养水禽。在之前狩猎时，他们捉到的鹌鹑也很适合在那里驯养。

那普的意见得到了重视，计划也就定了下来。

第二天，也就是11月3日，他们的造桥工程开始实施。对于这项工作，必须人人参加。所以很快，这群居民又都变成了木工，他们扛着锯、斧子、锤子，从河岸上走了下来。

突然，庞库那夫说：“昨天幸亏有狙布给我们梯子，我们这次出去，梯子可千万不要又被‘坏家伙’们收上去了。”

“是呀，我们还是把梯子的下方绑住吧！”史密斯说。

于是，他们钉了两个木桩在沙地上，钉得特别牢靠，然后将软梯缚在了上面。随即便爬上了感恩河的左岸，并很快来到了河口拐角处。

他们考虑着在这里架桥是不是合适，貌似非常不错。

从这里到他们前一天去的南部海滨只有3英里半，他们很容易就能在这座新桥和气球港之间修建起一条能让大车通行的道路，为“花岗宫殿”和荒岛南部建起一条交通线。

史密斯随即还向他的伙伴们提出了另一个方案，那就是将观望壁孤立起来，这样，那些野兽和猿猴也就不会再到这里来了。那么他们的“花岗宫殿”“石窟”“家禽场”.....整个上半部高地也就不怕受到它们的掠夺了。

当然，这个计划实施起来并不难，所以史密斯很快就着手做了起来。

高地的三面均是水，有人工挖掘的，也有天然形成的。西北方向是格兰特湖岸，包括从通道入口到湖岸排水的缺口这段距离。

北边是一条新水道，从湖岸缺口一直延伸到了海边。此水道位于瀑布源头的上下端，在通过高地和岸边时，自然冲出了一条河床。现在他们只需将这条小河的河床往深里挖，就能将猛兽阻隔在外面了。至于东部，从河口到感恩河河口这一段，则有大海这个天然屏障。南边有从河口到拐角的感恩河做阻碍物。

经过他们的一番规划，只剩下高地的西边可以通行。这一段是从河流拐弯处到格兰特湖的南角，两处之间的距离有一英里。

当然，在这里最简便的方法是挖一条深渠，并用湖水将这深渠灌满。当湖水过多时，就会通过这条深渠，流向感恩河了；而在湖水排泄后，湖面就能降到最低。史密斯正是因为有了红河水量大的结论，才想出这个方法的。

“如此一来，观望壁就会成为一个岛屿了，周围全是水。我们和岛上其他领土的联系，只能通过桥——一座将要搭在感恩河上的桥。此外，还有两座，一座搭在我们打算开凿的运河上，另一座就是通向感恩河左岸的桥了。如果我们能让这些桥吊起来，观望壁无疑就会既方便又安稳了。”史密斯说。

为了让大家理解他的话，史密斯还画出了一幅观望壁的图，通过这幅图，让大家明白他的计划。当然，大家完全赞同这种设计，庞库那夫更是举起斧子，大声说：“我们这就去搭桥！”

搭桥是他们最先要做的工程。于是，他们砍伐上等的建桥树木，并将上面的枝枝杈杈全都砍掉，将其做成横梁、托架和厚板。

他们要造的是吊桥，将感恩河右岸的桥梁固定，然后让左岸部分可以活动。这样，就能利用均衡锤，将桥吊起来了。

工程非常艰巨，虽然有史密斯这个指挥，但他们还是花了很长时间来做这件事。因为感恩河的河宽达到了80英尺，修桥之前，他们必须在河床中打下桥桩，只有这样才能支撑起桥板。而为了打桥桩，他们又必须安装打桩机。这样当桥桩形成两个弓形结构后，就能让桥身承受一定的重量了。

幸好他们所有的木工工具和金属安装工具都齐备，所以干起活来兴致也高。在七个月的各项技能锻炼中，他们使用工具的熟练程度已经很高了。当然，必须要说的是，史佩莱的操作技术已经丝毫不比庞库那夫逊色了。这不禁让庞库那夫暗忖：“一个记者的手工活能做到如此地步，真是了不起！”

经过三个星期的辛勤劳动后，他们完成了感恩河上架桥的工程。在

这三个月里，他们连早饭都是在工地上吃的，只有在晚上才回“花岗宫殿”休息。

也正是在这段时间，小狙布和他们熟悉起来。它好奇地盯着他们，看着他们做事。为了预防万一，庞库那夫并没有将它的束缚全部解除，他想得很明白，只有在他们将几座桥都架好后，才可以给它自由。

当然，狙布身上的束缚并没妨碍多卜和它玩耍，而狙布不管做什么事，都显得很严肃，很认真。

11月20日，他们的架桥工作全部完成。桥身部分因为有均衡锤的缘故，所以很容易悬吊，只需小小的力气便能将桥升起来。而那桥落下时用来支撑的横木，也因为和枢纽之间有着20英尺的距离，所以不会让动物轻易跳过。

桥架好后，他们便开始商量起搬运气球的事，他们很想尽快将气球放在能让它万无一失的地方。但如果想要搬运，就必须拉着大车去气球港。要想用大车拉，又必须在西遥森林开辟出一条道来。这些都需要很长时间才能完成。那普和庞库那夫后来又去气球港看那气球，回来后告诉大家，藏在石洞里的气球布没有损坏，所以大家也就决定先完成观望壁的工作。

“既然不用担心动物们来这里，那我们还是安心地开辟家禽场吧！”庞库那夫说。

“这样的话，我们是不是可以再開一块高地，将野生植物都移植过来？”那普说。

“对，我们要准备第二块麦田了。”庞库那夫说的时候，非常得意。

他们的第一块麦田里只有一粒种子，而那粒唯一的庄稼，在庞库那夫的细心照料下，长势很好。史密斯曾说过可以结10个麦穗，现在全成了现实。而每个麦穗，又都有着80颗麦粒。仅仅用了六个月的时间，他们就得到了800粒麦粒，所以他们可以每年收获两次麦子。

那800颗麦粒，除了有50颗被他们珍藏起来外，其余的都打算用来开辟另一片新开垦的麦田，并决定像照顾那唯一的麦粒一样去照料它们。

在将耕地的准备工作做好后，他们在麦场周围围了一圈结实的篱笆，那篱笆不仅高，而且顶部也都削尖了，一般的动物是很难跳进去的。对于飞鸟，他们也有预防。庞库那夫在这方面是个天才，他用木板做了几个人体模型，并让这些模型发出一些风车的响声，以便吓飞那些想偷吃的鸟。

做好这些工作后，他们这才将750粒麦粒种在了畦垄里，让其在大自然中自由生长。

11月21日，史密斯开始设计运河工程，他要将格兰特湖的南角到感恩河拐弯的地方分隔开来。因为那里只有上面两三英尺是泥土，再往下就是花岗石了，所以他必须先制造出一些硝化甘油来。史密斯制造的硝化甘油为这次的硬地开沟起了作用。仅仅不到两个星期，高地的坚硬土地上就被开成了一条6英尺高、12英尺宽的沟渠。

之后，他们又用同样的方法，在岩石的湖岸开了一条沟渠，并从湖里引出水来，形成了一条小河。这条小河也便成了感恩河的支流，被他们命名为硝甘河。

情况和史密斯推测的完全一样，湖面一下子降低了，但降低得很

少。为了让高地统统被河流包围，他们又将河床加宽，同时用木桩隔开了泥沙。

这一系列的工程直到12月中旬才全部完工。此时，观望壁一下子变成了不规则的五边形，方圆四英里的流水像带子一样环绕着它。有了这样的地势，他们就再也不用担心盗贼了。

这里的12月天气很热，但居民们仍然孜孜不倦地工作着，他们急于建家禽场，所以没有丝毫休息就干了起来。

在高地的隔离工作完成后，狙布的自由也就恢复了。当然，它没有离开它的新主人们，也没有要逃跑的意思。

狙布不仅性格温和，而且力大无穷，动作敏捷。不信你可以看，它在爬“花岗宫殿”的软梯时，身形灵敏，无人能比。在被新主人们经过一段时间的调教后，已经开始拉木料，甚至还会将石头从硝甘河里运走了。

“虽然它称不上是个泥水匠，但怎么也算是个猴子！”赫伯特开玩笑道。“猴子”是泥水匠对徒弟的称呼，因此非常适合此时的狙布。

家禽场设在了格兰特湖的东南岸，占地约200平方米。外面由篱笆围着，里面有很多窝棚，供飞鸟繁殖使用。窝棚由树枝做成，并被分隔成了很多小单间，以供新来的鸟居住。

第一个进窝棚的是那对鹌鹑。很快，这对鹌鹑就孵出了小鹌鹑。除了鹌鹑一家，还有很多鸭子，它们都住在格兰特湖边。在这些鸭子中，有些还是中国产的一种鸭子，它们的翅膀像扇面，羽毛光鲜亮丽，和锦鸡有一比。

几天之后，赫伯特又捉住了一对鹑鸡。这对鹑鸡的尾巴很长，并向外张开。这种鹑鸡实际上是一种美丽的野鸽子，不过很快就被他们驯化了。此外，还有一些塘鹅、翠鸟和大鸛是自己到了家禽场的。当这里的小家禽们叽叽喳喳地闹腾一番后，也就安安稳稳地待在里面了。

小家禽的繁殖能力很强，居民们完全不用担心他们没有家禽吃。

为了扩大家禽场的使用范围，史密斯还在家禽场的一角建起了一个鸽棚，并养了很多常来高地的鸽子。这些鸽子比起斑鸠来，特别好养，很快也就养成了。

终于到了用气球布做衬衫的季节了。由于保持气球原状，给它吹足气，然后带着他们离开无边无际的荒岛的想法只有无法在岛上生存的人才会有，因此，史密斯根本没朝这上面去考虑。

在将气球的气囊运往“花岗宫殿”前，他们还必须想办法减轻大车的重量，因为他们虽然有车，但却没有更好的办法去解决拉车问题。

荒岛上是否有能替代马和驴子的动物呢？这对他们来说，也成了一个问题。

“如今，找个能拉车的牲口简直是太重要了。虽然以后史密斯先生会为我们制造蒸汽火车，我们以后也能坐火车从‘花岗宫殿’出发，途经富兰克林山，然后到达气球港。”

庞库那夫对自己的话确信无疑，你看，当一个人的幻想成为信念时，力量有多大！

平心而论，庞库那夫所说的，只是需要一头能拉车的牲口而已。当然，这次也和以前的每一次一样，老天没让他们失望。

那是12月23日的一天，那普和多卜一个在大喊，一个在大叫，而且是在用尽全力地喊和叫。正在“石窟”里劳动的其他人，以为发生什么事了，急忙奔了过来。

他们被眼前的一幕惊呆了——有两头温顺的牲口，在桥开通时，竟然闯到了高地上。它们看上去是马，至少应该是驴子。两头牲口长得非常匀称，通体为淡灰色，而且还是一公一母。

牲口的腿部和尾巴处全都是雪白的，只是头、颈部以及全身带着黑色的条纹。两头牲口沉稳地向前走着，眼神中没有惊慌，更没有害怕。它们瞪眼看着惊呆了的居民，至少在当时，它们还不知道这些人以后会成为它们的新主人。

“这是野驴，是一种介于斑驴和斑马间的动物。”赫伯特喊道。

“难道它们不是驴子吗？”那普问。

“耳朵没有驴子长，长得也比驴子漂亮。”

“不管是驴子还是马，总之，正像史密斯先生说的，这是我们的‘动力’，必须将它们捉住。”庞库那夫说。

说完，他悄悄地从草丛爬到了硝甘河的桥上，将桥往上一吊，两头野驴就成了瓮中之鳖。可如何捉住它们呢？用暴力？可是能制止得了它们吗？不，肯定不行。最后，他们决定让野驴先在高地上自由自在地待几天，反正这里有的是青草。

随即，史密斯便开始着手在家禽场附近修建牲口棚了，还在里面准备了饲料，垫上了干草，以便让它们在这里过夜。

给野驴备好窝棚后，他们便让两头漂亮的牲口自由行动了。为了避免惊动它们，使它们受到惊吓，居民们尽量和它们保持一段距离。由于两头野驴习惯了在原野和森林里狂奔，有好几次都对滞留此地表现出了不耐烦，很想离开。

它们沿着阻拦它们的河水来来回回地走着，发出短而急促的喊声，并不时地在草地上蹦跶。但过了一会儿，它们便安静下来，呆呆地看着河那边的丛林，也许它们在想，以后再也去不了那里了。

看到时机差不多了，居民们使用植物纤维制造了一套套在牲口上的挽具，并在野驴到来不久，做了一辆大车，甚至还在西遥森林中开辟了一条道路。准确地说，是一条从感恩河拐角到气球港的，大车可以通过的便道。

12月底，他们就可以驾着野驴出行了。

野驴驯得已经能在庞库那夫手里吃东西了，而且居民们再走近它们时，它们也不会跑了。刚开始要给它们套上挽具时，它们会直立起来开始挣扎，很难勒住，但没过多久，它们便顺从了。

由于野驴没有斑马倔强，所以南非很多山区的居民都用它们拉东西，而且即使是在欧洲最冷的地方，它们也能听话地干活。

在用野驴拉车的这天，居民们全都上了大车，庞库那夫独自在前面牵着牲口赶路，向气球港方向走去。

自然，这一路并不平坦，坎坷不平的路上很是颠簸，但大车和他们还是平安地到达了气球港，并将气球的气囊和零部件全都装上了车。

晚上八点钟的时候，他们从感恩河的桥上过去，在下了左边的堤岸

后，将驴车停在了海滩上。

解开野驴身上的缰绳，再将野驴牵回牲口棚，庞库那夫做完这一切后，晚上临睡前，还禁不住兴奋地大吼了一声：“好！”

第八章

1月份的第一个星期，林肯岛的居民们做好了他们需要的衣服。做衣服的针是大木箱里就有的。虽然手有些笨拙，但做出的衣服却很牢固。大木箱里没有线，也幸亏史密斯的建议，他们解下了气球上的旧线，解决了做衣服时的最大问题。解气球上的线的时候，并不容易，需要很大的耐心，这又多亏了史佩莱和赫伯特。庞库那夫在做这种精细活的时候，没什么耐心，中途“退了场”，不过用针线缝衣服的时候，却没人能比得了他。

确实，没人不知道，水手是很擅长使用针线缝衣服的。

布料的获取也算费了些周折，他们要先从植物焚烧后的灰里获取小苏打和钾碱，然后清洗气球气囊上的布料。在经过一番清洗后，将那棉布上的油漆洗掉，在它恢复了柔软性和弹性后，再将其晾干，这样布也就洁白如新了。

居民们做了很多衬衫和袜套。做好后，他们就换洗了几个月来一直穿在身上的衣服。虽然衣服的布料很粗糙，但对他们来说，已经非常不错了。同时，因为有了这些布料，他们也就有了被单，而被单的存在，

让“花岗宫殿”一下子温暖起来，睡榻变成了舒适的床铺！

就在这段时间，他们还制作了第一批靴子，也就是海豹皮靴。他们从美国穿到这里的靴子，已经必须要换了。而这批靴子，他们在制造的时候，为了不夹脚、挤脚，特意做大了一些。

此时已经到了1866年，虽然年初天气很热，但他们还是不断地要去森林打猎。森林里到处都是刺鼠、野猪、水豚、袋鼠和其他动物。箭法百发百中的史佩莱和赫伯特获得了很多野味。

不过，史密斯依然叮嘱大家要节约火药，甚至尽可能地为寻找替代品做准备。箱子里的弹药，他们需要留到以后再用。因为在这样一片荒岛上，谁又能知道还会发生什么？因此，对于不可知的未来，他们要尽可能地节省火药。

史密斯开始自造弹药。因为岛上找不到铅，他便用铁粒来代替。由于铁弹没有铅弹重，他便将铁弹尽可能地做大一些，并少装一些火药。这样做虽然力量不如原来的子弹，但如果射击者技术不错，还是可以弥补这个缺点的。

本来史密斯也能制造火药，因为硝石、硫黄和木炭他们不缺。但做这项工作的时候，却是要特别小心谨慎的，没有特殊工具的话，很难保证质量。于是，史密斯决定制造火棉。制造火棉并非只能用棉花，一些植物纤维，比如大麻、亚麻、绿泽兰等的纤维都可以，它们的纤维和棉花纤维一样纯净，非常适合做棉花火药。

在林肯岛的红河河口，生长着很多绿泽兰，居民们也曾经用它制造过咖啡。

当然，现在他们需要收集的还有绿泽兰的树心。对于火棉制造时所需的发烟硝酸，也是可以制造的。史密斯可以用它手里的硫酸，加上从大自然获取的硝石中获得硝酸。这些都是生产火棉时所需的东西。

不过，火棉也是有缺点的。首先它特别容易燃烧，和其他物体的燃点为 240°C 不同，它在 170°C 的时候就能发生自燃。这就很容易让枪支走火，进而使其损坏。当然，火棉的优点也很明显，比如它不容易受潮，不会使枪筒受到污染，其火力也能达到普通火药的四倍。

制造火棉非常简单方便，只需将棉花或类似于棉花的纤维在发烟硝酸里浸一下，然后在冷水里洗净，最后晾干就可以了。

不过，史密斯只有普通的硝酸，没有发烟硝酸或硝酸单水化合物。因而，这种硝酸在遇到潮湿的空气时，往往会冒出一股白烟。为了解决这个问题，史密斯往普通硝酸里掺加了三至五倍的浓硫酸。就这样，林肯岛上的居民们再打猎时，便拥有了自制火药。由于他们使用时非常谨慎，所以效果并不比原本的火药差。

到现在为止，高地上已经被他们开垦出了3英亩土地。当然，为了野驴的生活，他们还是保留了一些青草地。

此外，他们也曾去啄木鸟林和西遥森林几次，在那里挖了很多野菜、菠菜、水芹、萝卜和大头芥等，以便自己栽培。很快，这些可以食用的蔬菜就生长起来，成了他们在吃野味时非常不错的调剂品。

除此之外，木柴和煤炭也被他们一车一车地拉了回来，而每外出一次，他们都不会忘记顺便修复道路，因而很快，车轮下的道路就变得平坦而光滑了。

“花岗宫殿”储存食品的地方，源源不断地有从养兔场获得的兔肉。当然，也幸好天然养兔场在硝甘河的对面，不然，兔场里的兔子们一定会到高地破坏他们精心开垦的菜地的。

岩石间的蛤蜊场也经常为他们补充食物。在蛤蜊场，他们很容易获得上好的软体动物。

当然，除了这些外，庞库那夫还会在格兰特湖和感恩河上钓鱼，每次都收获颇丰。庞库那夫做的几根钓丝，上面有铁钩，不仅常常会钓到一些鳟鱼，而且还会钓到一种银白色的腹部带着金黄斑点的鱼，这种鱼的味道非常鲜美。

厨师那普具有精湛的厨艺，经常给他们变换花样。如今他们最缺的，也只有前面说过的面包了。

在林肯岛，他们还经常会捉到一些从颚角沿岸来的海龟。这些海龟时常隐藏在丘陵起伏的海滩，所以那里经常会看到雪白滚圆的龟蛋。龟蛋和鸟蛋有所不同，蛋白不会凝结。一只海龟一年产卵能达到约250枚，而且是在阳光下孵化的，所以非常多。

“这里可以算得上是蛋场了，只要伸手就能捡到。”史佩莱说。

不过，对于拥有这么多的龟蛋，他们还是不满足。在去猎捕其他食物时，还往往会再带回一些海龟来。从营养学的角度来看，这已经算得上是珍宝级的食物了。

烹制海龟时，那普会在龟汤里放入一些香料用以调味，大家也是吃得赞不绝口。

这里还要说一件特别幸运的事，那就是有大批鲑鱼进了感恩河。这

些鲑鱼分布在上游几英里之内，非常好捉，他们因此而得到了大量可储存的冬季食品。

原来，在这个季节，正好是雌鲑鱼找地方产卵的时候，所以当它们引着雄鱼进入淡水后，就会激起水花，发出一阵唧唧声。一千多条鲑鱼，个个身长两英尺半。想要捉住它们，居民们只需在水里做一个水闸来阻拦它们，然后伸手去捉就行了，一次差不多能捉一百多条。

这些鲑鱼被他们晾干后腌了起来，等到冬天结冰，没有办法捕鱼时可以拿出来吃。

此时，聪明机灵的獾布已经完全升职为仆人了。它穿起了外套和白亚麻短裤，而且还系上了围裙。对于围裙上的那只口袋，獾布表现出了很大的兴趣，经常将爪子伸进去玩。

獾布能这么快胜任，都源于那普的细心训练。居民们经常看见那普和獾布在谈话，不知道的还以为黑人那普和猩猩獾布是有共同语言的。时间一长，獾布对那普便很信任和喜欢了，而那普对獾布也有着同样的感情。

平时的时候，獾布的主要工作是搬柴。没事做的时候，它就会待在厨房里，模仿那普的一举一动。黑人那普在训练獾布时，非常有耐心。聪明的獾布也没辜负师傅的教导，很快就学会了做很多事。

一天，獾布在胳膊上搭着一条餐巾，出人意料地跑到了餐桌上伺候大家吃饭。獾布的这个举动让“花岗宫殿”的居民们兴奋异常。

獾布伺候起大家来既认真又麻利，不管是换盆子还是拿碟子，以及倒水，都做得沉稳仔细，这禁不住让被伺候者们大笑起来，庞库那夫更

是笑得无法自制，众人开始不停地喊狙布：

“狙布，快！拿汤来！”

“狙布，给我拿份刺鼠肉来！”

“狙布，给我一个盆子！”

“狙布，你真是个好狙布，一个忠实的狙布！”

不管大家怎么乱嚷，狙布总会一个个地去做，做得井井有条，一件事不漏。

第二天，当庞库那夫把头天狙布伺候他们的事拿出来当笑话讲时，狙布总会摇头摆尾，做出听懂了的反应。

“狙布，真的，该给你提高待遇了！”庞库那夫说。

现在大家应该已经知道，猩猩狙布已经在“花岗宫殿”被居民们完全驯服了。

即使跟着居民们去森林，它也不会逃离。最有意思的是，它经常扛着庞库那夫给它的棍子，如同一个人扛着一把枪，和居民们一起去打猎。

遇到居民们要去摘树上的果子时，它会飞快地爬上去；如果居民们的车轮陷入了泥坑，它也会跑上前用肩膀将车轮顶出来。

“太好了！这家伙如果只玩不干活，我们肯定拿它也没办法！”庞库那夫经常说。

到了一月底的时候，居民们开始在荒岛中部干活。他们打算在富兰克林山的山脚下，也就是红河发源地增设一个牲畜栏，用来豢养一些食草动物，比如能够取毛做冬天衣服的莫伏鹿羊。之所以将牲畜栏设得离“花岗宫殿”远一些，是担心太近惹麻烦。

做出了新辟牲畜栏的决定后，每天一早，全部居民，或是只有史密斯、赫伯特和庞库那夫三人便会向红河发源地走去，从“花岗宫殿”到那里不到5英里。建牲畜栏的地方他们选择在了富兰克林山的南面，那里有一块草地，中间有几棵树，旁边还有一条小溪，小溪的水是从山坡上流下来的。

这是一块建牲畜栏的好地方，既有新鲜的青草，又有大树，而且大树还没有把那片土地全部遮住。因此，他们决定在青草地周围设一道高高的栅栏，以防那些矫健的动物跳进去伤害他们要饲养的牲畜。同时，牲畜栏一定要宽敞，因为他们准备饲养100只莫伏鹿羊、野山羊和未来的羊羔。

史密斯在把牲畜栏外的界线划定后，便开始采伐设置栅栏所需的木料了。在他们修路时，已经砍伐了很多木料，所以只需做成木桩，牢牢地插在地里就行了。

当然，在栅栏的迎面位置，他们也没忘记留下一个出口，并在那出口处安装了结实的大门。

牲畜栏的设置他们用了不下三个星期。

当然，除了做栅栏，史密斯还做了许多能让牲畜睡觉的地方。由于莫伏鹿羊的力气很大，所以他们将牲畜棚建得非常牢固，因为他们知道，初来这里的牲畜肯定会因为一时的不适应而发脾气，当兽性发作

时，一定是非常可怕的。所以那些木桩都安插得非常结实，并且每隔一段距离安插一根，以保证整个栅栏的耐用性。

牲畜栏建好后，他们便开始在食草动物时常出没的地方围猎。围猎时间选定在了2月7日。这天天气晴朗，居民们全体出动。此时，野驴已经完全变成了“家驴”。史佩莱和赫伯特骑着它们，向需要围猎的地方奔去。

两匹野驴将在他们的围猎中发挥很大作用。

围猎计划很简单，先包围他们想要饲养的牲畜，然后逐渐缩小包围圈。在这个过程中，史密斯、庞库那夫和那普以及狙布，各守森林一方。骑着驴的史佩莱和赫伯特及多卜则在牲畜栏周围半英里处来回奔跑，围堵它们。

林肯岛的莫伏鹿羊有很多，这种羊的身形和鹿差不多，角比山羊角还硬，是一种优良品种。它们那灰色的短绒毛上，夹杂着许多长长的白毛。

这样的围猎方式特别辛苦，他们必须来回地奔跑，不停地叫喊。好不容易围住上百只莫伏鹿羊的时候，不想又让它们逃跑了三分之二。

最终，他们只是将30只莫伏鹿羊和10只野山羊赶进了牲畜栏。牲畜栏的门起先是敞开着的，对被赶得乱窜的牲畜来说，还以为是条逃生之道，没想到一进去，便成了栏中之畜。

总之，这种结果已经很好了，他们没什么好抱怨的。

进了牲畜栏的莫伏鹿羊，大多都是母羊，有几个甚至很快就要生小羊羔了。因此，莫伏鹿羊的家族一定会继续扩大的，很快，他们将不仅

会有羊毛，而且还会有皮革。

围猎结束时已经到了晚上。回到“花岗宫殿”后，“猎人”们已经筋疲力尽。不过，虽然很累，但第二天他们还是忙不迭地去牲畜栏检查了一番，发现他们头天围进去的“牲畜”也曾试图撞倒栅栏，但没有成功。

当然，不久以后，这些牲畜便适应了被圈养的生活，不再闹了。

二月份过得很平淡，没什么特别的事情发生。居民们只是照计划实施，过着平静的日常生活。并在改进畜牧栏及修建去气球港的路的同时，又开始修筑另一条路。这已经是他们修筑的第三条路了，此路是从牲畜栏通向西海滨的路。

算下来，他们在林肯岛上没有仔细搜索的也就只有蛇盘半岛的森林了，那里到底隐藏着多少野兽，他们不知道，而史佩莱也恨不得马上和大家一起去森林里将那些野兽驱逐出去。

现在天气还热，在天气变冷之前，他们首先要用心培育一些植物，那就是从森林里移植到观望壁的植物。赫伯特每次出去，总会挖一些野菜带回来，然后种植进去。有时候，他还会带回一些菜籽，如能够榨出上好植物油的菊苣科植物，以及一些能够治疗坏血病的野菠菜和马铃薯等，当然还有原本生长在南美洲的珍贵植物块茎。

赫伯特的用心有了效果，他们的菜园子里已经拥有了很多植物，多得已经不怕飞鸟来破坏了。菜畦里还种着像莴苣、卵形马铃薯、野菠菜、大头芥、萝卜等很多十字花科植物。

总之，在这样一片肥沃的土地上，居民们一定会收获更多的希望。

经过一直以来的辛劳和努力，“花岗宫殿”里的居民们已经有了很多

除了酒之外的饮料。这些饮料，即使再挑剔的人，也不会有什么不满意。

当然，最后他们还是从苏薄荷茶及麒麟掌里酿出了酒。除了这种酒，史密斯还用针枰的嫩芽，经过发酵和煮沸后，制成了一种啤酒。这种啤酒的味道很好，英国和美国人将这种酒叫“泉水啤酒”，也就是“松啤酒”。

夏天即将结束的时候，居民们的家禽场又有了新成员，这是一对美丽的鸨，属于鸨科鸟，羽毛很特别。还有很多阔嘴鸭，嘴两边长着长长的膜。还有美丽的公鸡，它们的鸡冠和肉瘤，以及表皮都是黑色的。

总之，直到现在，他们一切的工作都进行得非常顺利，而这也全靠了这群智勇双全的人。因为自身的优秀，连老天都在帮助他们。

这段时间，在白天的酷暑过去后，晚上便有阵阵海风吹来，非常凉爽。

此时，当他们做完了当天的工作后，便会坐在观望壁里那通用爬藤装饰过的平台聊天谈心，计划未来。每到这时，性格爽朗的庞库那夫总能给大家带来欢笑，使整个场面变得快乐又温馨。

当然，他们最常聊的就是他们的国家，那个南北战争到底怎么样了？那样一场战争，一定不会拖延很长时间的。那个他们出走的里士满，一定已经落在了格兰特将军的手里。一旦格兰特将军攻破南部联盟首府，那场可怕的战争也就结束了。

如今，正义的北军一定取得了胜利。他们多么渴望拿到一份报纸，一份能让他们了解自己国家和同胞的报纸啊。

这群不幸而又幸运的人，和他们的国家、同胞失去联系已经11个月了。不久后的3月24日，就是气球将他们抛在这无名岛的周年纪念日。

去年的那一天，他们成了这座荒岛上的难民，在风雪和雷雨的侵袭下，完全不知怎样保全自己，更不知道未来会怎样。最终，依靠富有智慧的工程师史密斯和其他人，他们有了武器、仪器和工具，成了荒岛上的居民。利用岛上的动植物和矿藏，他们开始了一段新的人生。

.....

每当大家讨论这些的时候，史密斯在大多数的时间里总是最沉默的那一个，在其他人说话时，他只是默默地听着。在赫伯特天真地表达他的想法、庞库那夫幽默地说笑时，他也会跟着别人笑一下，但他的心里，随时随地思考的却是之前发生的那一系列不可思议之事。

那些事，截至目前，在他的内心深处都是神秘莫测的。

第九章

晴朗的天气一直持续到3月份的第一个星期，之后天气便发生了变化。3月1日那天还很热，月亮也很圆，但很快就变了天，阴云密布，暴风雨马上就要来临了。

3月2日，随着轰隆的雷声响过，狂风从东方吹来，噼里啪啦地朝着“花岗宫殿”打来的，是如同葡萄弹一样的冰雹。居民们急忙关上门窗——稍慢一点，很可能让冰雹和雨水穿过门窗进入房间。

看着鸽子蛋大小的冰雹，庞库那夫暗叫一声不好：看来，麦田要遭殃了。

庞库那夫不顾恶劣的天气，冲出了“花岗宫殿”，向麦田跑去。那绿色的麦梢已经隐隐露出了头，他急忙用一大块布，将露出头的麦梢罩了起来。为了避免麦穗受到伤害，这点辛苦他是不会在意的。

这样的坏天气，一持续就是一个星期，在这一个星期里，雷声不停地响在高空。

暴风雨夹杂着雷电的轰鸣，狂风暴雨袭击了一次又一次，空中不断有闪电闪过。林肯岛上的几棵树，以及森林、湖畔的一棵棵大树，也都被雷电击倒了。雷电有两三次击打在沙滩上，瞬间让沙石融化成了像玻璃一样的晶状体。

在发现了这些像玻璃一样的物质后，史密斯马上想到可以利用这个原理来制造玻璃。

天气不好，又没有特别急的事情要做，居民们便在“花岗宫殿”做一些简单的事，比如完善屋子的设施等。为此，史密斯还制造了一台车床，做了几件厨房用品和洗漱用品，随后又制造了放置枪支的枪架，用以保存武器。

因此，在不好的天气里，从“花岗宫殿”传出的工具声和车床声响成一片，与室外的雷声交相呼应。经过他们一番锯、刨、锉、旋等，终于，“花岗宫殿”里的任何设施都不缺了，不管是桌子椅子，还是碗柜都绰绰有余。

就是在这样的恶劣天气下，大家也没有忘记小猎布，有一天，那普

将它的“卧室”安排在了仓库后面的房间里。这个房间有些像船舱，只有一个吊铺，吊铺上铺满了干草，非常适合獾布居住。

“獾布真是太可爱了，很听话，又不顶嘴，还不辩解，是个非常好的仆人。那普，是不是？它是个合格的仆人吧！”庞库那夫看到獾布时，总是对那普不断地重复这些话。

当然，獾布是无愧于这种夸奖的，它总是毫无怨言地帮大家洗衣服、扫地、捡木柴、烤肉、伺候吃饭等等。当然，还有一件最令庞库那夫感动的事，那就是在没有伺候他钻进被窝睡觉前，獾布是不会去它的吊铺睡觉的。

至于居民们的健康，直到目前都没什么问题。虽然他们经常要去参加户外劳动，环境卫生条件有限，而且还是热带气候，但他们清楚地知道，他们不能生病。值得庆幸的是，这些长期进行脑力和体力劳动的人，竟然从没生过病。

确实是这样，这是一群健康的人。经过这一年的时间，赫伯特长高了两英寸，身体也逐步发育，越来越像个大人了。而他也有自己的目标，那就是做一个德才兼备、身体健康的人。

为了实现这个目标，每次做完事后，他都会抽出时间来学习。他拿出箱子里的书，反复阅读，以吸取书本中的知识。同时，他还不忘向史密斯学习各种科学知识，向史佩莱学习语文，而这两位老师，也非常愿意教他。

史密斯为了把自己所知道的一切都教给赫伯特，不仅经常讲给他听，而且还会做给他看。而赫伯特也经常会将史密斯教给他的知识运用到生活中去。

“如果我死了，赫伯特一定会接我的班的。”史密斯经常这样想。

3月9日，持续了很多天的暴风雨终于停了。不过，这也是夏季的最后一个月，所以天气依然阴沉沉的。经过雷电激烈震荡的大气层，好像并没有恢复原有的晴朗，除了有三四天的晴天，他们可以出去打猎外，其他时间几乎每天都是阴雨绵绵。

此时，野母驴也生产了，生下了一头小母驴。小母驴长得很快，一天一个样。牲畜栏里的莫伏鹿羊群也有了新成员，小羊羔们不断地在牲畜棚里咩咩直叫。听到这些叫声，那普和赫伯特非常高兴，而这些新添的小羊羔里，也有那普和赫伯特各自最喜欢的。

此外，居民们也试着开始驯养野猪，没想到也成功了。

于是，他们又在家禽场附近修建了一个猪圈。很快，里面就有了小猪崽。这些小猪崽的性格不像它们的父母那么野蛮，温顺了很多。而且在那普的精心饲养下，个个长得肥头大耳。

勤劳的小狙布经常热心地将厨房里的剩菜拿给小猪崽们吃，有时还会拽着小猪崽的耳朵和它们玩。淘气的它和孩子们一样，将小猪崽的尾巴当成玩具了。

三月份的一天，庞库那夫在和史密斯聊天时，庞库那夫提醒史密斯，有一件史密斯曾答应要完成的工作还没做。

“队长，你曾说过，你要做一种机械梯来代替软梯的对吗？什么时候能做起来？”庞库那夫问。

“哦，你是说升降梯吗？”史密斯问。

“我不知道它叫什么，就暂时叫它升降梯吧。不管叫什么名字，只要让我们不费时费力地进出‘花岗宫殿’就行了。”庞库那夫说。

“这并不难，可这有意义吗？”

“当然有，史密斯先生，如果有了这样的梯子，我们进出就轻松多了。当然，也许对有些人来说，这样做是有些讲排场，但对搬运东西来说，这却是非常有意义的。带着既沉又重的东西爬软梯，很不方便。”

“哦，那好吧！庞库那夫，我一定会让你满意的！”史密斯说。

“可没机器你要怎么做呢？”

“可以先做机器。”

“做什么机器？一架蒸汽机吗？”

“不，一架水压机。”

史密斯说得没错。他如今已经能够利用一些自然力量，使它毫不费力地为他想要拥有的机器服务了。不过，要想达到这个目的，还需要将“花岗宫殿”的内部水流提高。

于是，他扩大了石头与草丛间的那个缺口，使通道底部瞬间产生了湍急的瀑布。当通道里的水慢慢漫出来时，他又将它们从地下井排了出去。最后，史密斯在瀑布下方安装了一个圆筒状的螺旋桨，让外部缠绕着绳索的轮盘和圆筒螺旋桨相连。同时，他还在绳索上挂了一只吊篮，以便利用地面长绳来调节动力，当人坐上吊篮之后，便能很快地升到“花岗宫殿”的门口了。

这个计划很快就实施了。3月17日的时候，他们就开始使用这个升降梯了，效果非常好。从那天起，升降梯代替了原始软梯，一切重物，不管是木料、煤炭还是粮食，以及人，都能通过这个简单的装置上上下下下了。

想想看，面对这么方便的设施，还有谁会不满意呢？不要说人，就是狗——多卜也喜欢上了这设施。因为原来登软梯时，由于它不像狙布一样擅长攀缘，所以很多时候不得不攀在那普或庞库那夫的肩上，有时甚至还会攀在猩猩狙布的背上进“花岗宫殿”，非常不方便。

之后，史密斯又准备制造玻璃。

要制造玻璃，他们最开始时做的陶土炉子就有了用处。虽然在准备的期间，史密斯遇到了很多困难，好多次试验都失败了，但最终还是找到了制造玻璃的材料。

为了成功地制造出玻璃，他的两位老助手史佩莱和赫伯特一连好几天都守在“制造厂”。

其实，制造玻璃的原料并不复杂，只需沙粒、白垩、碳酸钠或硫酸钠就行了。沙粒海滩上多得是，白垩石灰里也有，小苏打海藻里就有，硫酸则可以从黄铁铜里提取。地下有的是煤，所需要的加热，陶土炉子就能承担。

很快，该要的原料都摆在了面前，只等开始做了。

当然，还有件工具很难制造，那就是吹玻璃的吹管。这种吹管必须是铁管，长度要达到五六英尺，史密斯是用它来蘸液体玻璃的。吹管最终是庞库那夫做的，他将薄薄的铁片卷成了枪筒形，也就能当吹管用

了。

8月28日，吹管试验合格。他们选了300分的沙粒、35分的白垩、40分的硫酸钠和两三分煤屑相混合……最后又将这些原料统统放进坩埚里，又将坩埚放在了炉子上。

当炉子里的高温让坩埚里的原料化为了胶状物时，史密斯就用吹管蘸了一些，放在预先准备好的金属板上滚了滚，使其变成适合吹的形状。最后，他将吹管递给了赫伯特，并让他吹吹管的另一端。

“要怎么吹？是像吹肥皂泡一样吗？”赫伯特问。

“当然，完全和吹肥皂泡一样！”史密斯说。

于是，赫伯特鼓起了嘴，使劲往管子里吹了一口气，吹气的时候，他还不忘双手不停地旋转吹管。很快，玻璃在吹管里就被吹得膨胀起来。最后，他们在膨胀物上涂了一层胶状体，一块直径一英尺的玻璃球就出现了。

然后，史密斯从赫伯特手里拿过吹管，不断地来回摇晃着，最后将那个柔顺的玻璃球拉长，使其成为一个有着尖尖两头的圆柱体。最后，他又去掉两头的半圆形，使其形成了一个玻璃圆筒。

接下来的工作就容易多了，只需将锋利的铁片放在冷水里浸一会儿，便能快速将尖尖的两头去掉了。此时再直着将玻璃筒割开，再次经过一番加热，让玻璃软化后，铺在平板上，用木辊子碾平就行了。

第一块成品玻璃做成了。根据这个做法，他们又做了15次，最后制出了50块玻璃。这样，“花岗宫殿”的窗口便装上了玻璃。虽然有些粗糙，不够白亮，但却很透明。

制成了玻璃后，他们又做了瓶子和杯子。当这些日常生活用品从吹管的末端形成时，他们开心得像个孩子。

庞库那夫执意要试试，大家便同意让他“吹”，不想却用力过猛，出来的产品变得奇形怪状。不过，他却将此当成了乐趣，乐此不疲。

在这段时间里，居民们也曾去岛上旅游了一次，那次，他们发现了一种能够增加日常食物种类的大树。

事情是这样的。那天，史密斯和赫伯特去打猎，在他们到了感恩河左岸，西遥森林里时，赫伯特像往常一样，不停地问史密斯问题，史密斯都耐心地做了解答。

不管是打猎还是做其他事，都必须一心一意。史密斯因为不擅长打猎，再加上赫伯特不停地向他提问一些化学和物理学方面的知识，所以他们错过了很多袋鼠、水豚和刺鼠。最后，直到天色已暗时，两个人这才发现，他们手里一个猎物都没有。

正在此时，赫伯特突然高兴地大叫：“快看，史密斯先生，那棵树！”

这棵树算不上是乔木，更准确地说应该是灌木。因为整棵树仅是一根树茎包着一层鳞状树皮，树皮上长着一些和叶脉平行的树叶。

“这树有点像棕榈树，但它究竟是什么树呢？”史密斯问。

“是凤尾松，史密斯先生。我在《博物学大辞典》里看到过，上面有一张配图就是这样的。”赫伯特说。

“但为什么树上没有果实呢？”史密斯说。

“没错，史密斯先生，它没有果实，但它的树干里却有一种‘面粉’，这‘面粉’可是大自然给磨好的。”赫伯特说。

“就是说，它是面包树？”

“对呀，可以说是面包树。”

“孩子，不错！真是不错！我们的小麦还没成熟，有了这个正好。不过，孩子，你没弄错吧！”史密斯还是有些不放心的。

赫伯特没有弄错。他将凤尾树的一个枝干折了下来，发现里面是腺状组织结构，真有不少粉末，而这些粉末也就是树心。

总而言之，这是一种有着粉状树心且夹杂着木质纤维的树。由于此树的年轮也是粉质的，因此就形成了一圈圈的同心圆。

在他们闻时，发现树散发着一股刺鼻的气味，原来这气味来自粉末里的黏液。不过，只要经过挤压，那刺鼻的黏液就会被挤出去，留下的淀粉也就成了很有营养的面粉了。

史密斯和赫伯特围着这棵凤尾松视察了一番，并在这一带做上了记号后就回到了“花岗宫殿”。

当他们向大家宣布了这个新发现后，大家都很高兴，第二天就去收“面粉”了。

庞库那夫对这个岛越来越感兴趣，他问史密斯：

“史密斯先生，你说，遇难者海岛，在世界上存在吗？”

“什么意思？庞库那夫。”

“是这样的，我是想，一些荒岛，一定是为一些有才的人准备的。因为当这些有才的人到了那里后，必定会想出好的办法来应对的！”

“嗯！有这个可能！”史密斯笑着说。

“我觉得一定是这样的。史密斯先生，至少我们的林肯岛就是这样的。”庞库那夫认真地说。

凤尾松的茎被居民们大批大批地带回了“花岗宫殿”。史密斯为此专门制作了一台压榨机，以此来清除“面粉”中的刺鼻黏液。而那最终留下的“面粉”，又被那普做成了糕点。虽然这还算不上是真正的面包，但已经相差无几了。

如今，不管是牲畜栏里的野驴、山羊，还是绵羊，都已经能够提供居民们必要的驴奶和羊奶了。而那架大车，他们已经很少用了，只是常常驾着一辆一个人坐的驴车，去牲畜栏。

庞库那夫经常去那里，而他每次去，必定会带着狙布，狙布也就成了赶车的“车夫”。狙布赶车特别有天赋，经常挥舞鞭子，灵活地做着它该做的工作。

牲畜栏和他们的“花岗宫殿”一样，变化很大，如今已是一片欣欣向荣的景象。如果不是因为他们背井离乡，看不到国家和亲人的话，他们真的很幸福。他们已经开始习惯了这里的生活，熟悉了这片荒岛。如果有一天他们真要离开，说不定还会舍不得呢。

当然，虽然不舍，但那对祖国的热爱，依然让他们时刻等待着机会离开。他们等着有船进入他们的视线，这样就能发出求救信号，然后让

船带他们离开。因为现在的他们，虽然也过着幸福的生活，但也有很多担心，总害怕有什么意外发生。因为，谁都不敢夸下海口，说自己会永远幸福，永远不会遭受灾难。

当然，不管怎么说，他们在这个岛上已经生活一年多了，这个岛也成了他们一切谈话的焦点。

有一天，他们对岛的位置重新做了一次观测，而那次观测，也和他们接下来遇到的事情有着非同寻常的关系。

4月1日是个星期天，也是复活节。林肯岛的居民们和往常一样在放假休息，做祷告。这一天的天气特别好，和北半球十月的天气一样。

傍晚，吃过晚饭的他们照例坐在了观望壁的平台上，看着天渐渐变黑。此时，那普为大家端来了用绿泽兰种子做的饮料，以代替饭后的咖啡。

几个人一边喝着咖啡，一边聊着荒岛在太平洋中的位置，史佩莱突然说：

“亲爱的赛莱斯，我们捡的那个木箱里有六分仪，你有没有拿它重新测我们的位置？”

“没有测！”史密斯说。

“这个仪器应该比你之前测时用的仪器精准，如果拿它测一下的话，说不定会有新的发现呢。”

“有什么好测的？荒岛的位置难道会变吗？还不就在原来的位置。”庞库那夫说。

“是这样没错。不过，要是仪器不精准的话，测出的也不会太精准。既然我们可以获得精准……”史佩莱话没说完，史密斯便说：

“亲爱的史佩莱，你说得完全对！虽然上次的差错仅仅在 5° 之内，但还是核实一下比较好。”

“是呀，说不定我们离外界并没有想象中那么远呢，谁知道呢？”史佩莱又说。

“明天测一下就知道了。如果不是有很多琐事缠身的话，可能准确结果早就知道了。”史密斯说。

“好，那太好了！像史密斯先生这样的测量家，我想是不会错的。如果荒岛没到处跑的话，它应该还在上次测的那个位置。”庞库那夫说。

“明天看吧！”

第二天，史密斯拿出六分仪，重新进行了观测，以便证实他之前测的位置。

以上就是他两次得出的结果：

第一次观测，他得出了林肯岛的位置：西经 150° 到 155° 之间；南纬 30° 到 35° 之间。

第二次就精准到了分：西经 $150^{\circ}30'$ ；南纬 $34^{\circ}57'$ 。

第一次测的时候，史密斯所用的仪器非常简单粗糙，但史密斯却测得很精细，所以差度没有超过 5° 。

“如今，我们已经有了六分仪和地图，亲爱的赛莱斯，看看林肯岛在太平洋的什么位置吧！”

赫伯特听说后急忙跑去拿来了地图，由于地图是法国出版的，所以地图上的地名全是法文。在他们铺开太平洋的区域地图时，史密斯手拿指南针，开始确定他们所在的位置。

突然，手里的指南针停了下来，史密斯大叫一声：“天啊，太平洋这一带很早之前就有一个岛。”

“这里有一个岛？”庞库那夫大声问。

“是不是我们这个岛？”史佩莱问。

“不！不是的。这个岛的西经在 153° ，南纬在 $37^{\circ}11'$ ，位于我们林肯岛西边 2.5° 、南边 2° 的位置。”史密斯说。

“那……那个岛是什么岛？”赫伯特问。

“叫岱波岛。”

“它是一个重要的岛屿吗？”

“不，那是太平洋的一个荒岛，很可能从来没有人去过。”

“我们要不要去看看呢？”庞库那夫说。

“去什么地方？”

“去岱波岛！史密斯先生，如果我们造一只只有甲板的船的话，我掌舵，咱们就能去那里了。对了，岱波岛离我们有多远？”

“差不多是东方150海里左右。”史密斯说。

“这算不了什么，150海里算什么？如果顺风的话，48小时我们就能见到它了。”庞库那夫说。

“可是……去那里又有什么意义呢？”史佩莱问。

“不知道，到时候就知道了！”

就这样，这天后他们便决定要造一只船，一只只有甲板的船，并准备在10月份，天气变暖后起航。

第十章

庞库那夫是个执着的人，是个想要做一件事情，就必须要去做的。如今，他的目标就是去那个岱波岛，因此，他要造一只船，一只能够让他们航行到岱波岛的船。

造这样一只船最好用哪种木料呢？榆树还是枞树？这两种树，林肯岛有很多。在经过权衡后，他选择了枞树，因为枞树比榆树更容易砍伐，而且防水性能也不逊色于榆树。

在想好一些细节问题后，由于离他们远航的晴朗季节还有近半年的时间，所以不需要大家都来做这件事。这样的话，造船的事也就只抽出了史密斯和庞库那夫，由他们去做。

史佩莱和赫伯特继续做他们的“猎人”，而那普和他的徒弟小狙布则主要负责干家务。

史密斯和庞库那夫选好树木后便将其砍了下来，去了杈后又锯成了板。他们劳动的娴熟程度，丝毫不比真正的木工差。一个星期后，他们将“造船厂”设在了“石窟”和峭壁之间的一个地方。在将一条长约35英尺的龙骨放置在沙滩上后，他们又在龙骨后面装上了船尾木材，在前面装上了船首木材。

史密斯做这些的时候，并不盲目。他对造船知识的了解，丝毫不比其他方面的知识差。做之前，他画好了船的图样，然后才一步一步地开始做。虽然庞库那夫曾在布鲁克林的造船所工作过几年，有一定的造船经验，但其实他也只是史密斯的一个得力助手。

经过一番精密计算，最后，他们又将肋材架在了龙骨上。

庞库那夫渴望实现自己造一只只有甲板的船的愿望可想而知，所以他一分钟都不愿意离开他的造船工作。

不过，有一件事的发生，却让他离开了“造船厂”，那件事可想而知，对他也是非常重要的。当然，即使这样，他也仅仅只离开了一天。

那天是4月15日，也就是他们第三次麦收的时间。这次的收成和第一次的收成相比，自然翻了很多，也达到了他们预期的目标。

“整整5蒲式耳呀，史密斯先生！”庞库那夫在很仔细地数了这些珍宝后，对史密斯说。

“不错，5蒲式耳。按每蒲式耳13万粒计算，总共就有65万粒了。”史密斯说。

“太好了！我们这次把它们全种上吧，少留一点。”庞库那夫说。

“是的，庞库那夫，如果下次的收成也能像现在这样，那么我们很快就有4000蒲式耳了。”

“到了那时候，我们就能吃到面包了，对吗？”

“是的，那时就能吃面包了。”

“可还要有个磨盘才行，只有那样才能吃面包。”

“没事，到时候我们可以做一个磨盘。”

这次他们预计的麦田面积就比前两次大了很多，在他们很小心地将地耕好，又将那些珍贵的麦种撒下田后，庞库那夫便又致力于他的造船工作了。

在这期间，负责打猎的史佩莱和赫伯特冒险去了西遥森林他们从没去过的一些地方。当然，进那里面时，他们是往枪里装好了子弹，做好了准备的。

那是一片深幽而美丽的大森林，树木密集，好像是因为地方不够，所以树与树之间才那么紧地挤在一起一样。

在如此密集的森林里行走探索，非常不容易，好在史佩莱每次来这里时都会事先带上指南针。枝叶的浓密，使阳光无法透射进来，更无法让他们按原路返回，所以他们必须依靠指南针指路。

按理说，在如此拥挤的空间，不应该有很多飞禽走兽，因为这太不利于它们活动了。然而，在4月份的下半月，他们竟然打到了两三只大

的食草动物。有一只是考拉，是在它们躲在密集的树枝间时被捉的，这种考拉他们曾在格兰特湖的北岸看到过。

考拉的皮被他们带回了“花岗宫殿”，仅仅只是用硫酸鞣制了一下，这些考拉的皮就能用了。

4月30日的时候，史佩莱和赫伯特再次进了西遥森林深处。史佩莱走在前面，赫伯特走在后面，两个人走着走着，走到了一块树叶比较稀疏的地方，阳光透过那些树叶洒了进来。走在前面的史佩莱发现了几株植物，那些植物的茎圆且直，并开出了一簇簇像葡萄一样的花团，散发出一种香气，花团里还有细密的种子。

史佩莱在仔细闻了这种香气后，折了一根树枝，好奇地问赫伯特：

“赫伯特，这是什么植物？”

“你是从哪里找到的？史佩莱先生？”

“就在那里，有空地的地方。有很多，想要多少就有多少！”

“这个东西啊，史佩莱先生，庞库那夫要是看到，一定会感激你一辈子的。”赫伯特说。

“啊？是吗？它是烟草？”

“对呀，是烟草，虽然不算最上等的，但也是烟草啊。”

“啊！是这样呀，那庞库那夫一定会高兴坏的。我们可不能让他独享，也应该给我们留一份。”

“我倒有个主意。史佩莱先生，我们可以先不告诉庞库那夫，等我

们把这烟草叶制好了，再把烟斗给他装得满满的，递给他。”赫伯特说。

“对！对！赫伯特，到了那天，我们的好朋友庞库那夫一定会什么都不要就满足的。”

于是，记者史佩莱和少年赫伯特，采集了大量的宝贵烟草回到了“花岗宫殿”。像防范一个机警而严厉的海关检查员一样，他们躲避着偷偷摸摸地带着“烟草”溜进了房间。

当然，他们并没有隐瞒史密斯和那普，庞库那夫也始终没有半点怀疑。在这段有些漫长的时间里，他们将那些小片的烟草先是晒干，接着切细，最后放在了炙热的石头上焙制。

要真正成为可吸的烟叶还要等差不多两个月时间。而在这两个月的时间里，他们一切都进行得非常顺利，庞库那夫也一直一无所知，因为他在忙着造船，只有晚上才回来睡觉。

5月1日那天，非常适合捕鱼，而且这次捕鱼必须全体出动。因此，庞库那夫不得不放下了他心爱的造船工作。

有一段时间，他们曾看见过一个庞然大物出现。那庞然大物就是鲸鱼，出现在了林肯岛附近两三英里的海上。

“如果我们能将它逮住，该有多好啊！”庞库那夫大喊。

“如果有合适的船和上好的鱼叉，我一定会追上去，并捉住它的。虽然这样比较麻烦，但非常值得去做。”庞库那夫说。

“庞库那夫，我可很想看你使用鱼叉的，肯定非常有趣。”史佩莱

说。

“有趣不假，不过那也很危险。既然现在无法捉住它，我们就不要去管它了。”史密斯说。

“我想不通，在纬度这么高的地方，怎么可能有鲸鱼出现呢？”史佩莱说。

“奇怪吗，史佩莱先生？鲸鱼是会出现在我们这里的。在太平洋中，英美捕鲸员都说过了，在新西兰和南美洲中间的海洋里，很容易遇到南半球鲸鱼。”赫伯特说。

“是这样的。我奇怪的是，为什么我们只看到了一条？当然，反正我们无法接近它们，一条和很多条没什么区别。”庞库那夫说完，叹了口气又回去工作了。

庞库那夫在钓鱼方面很有天赋。如果说，对于钓鱼者来说，他们的钓鱼乐趣和所钓的鱼的大小成正比，那么捕鲸员的喜悦一定是和捕到了一条大鲸鱼成正比的。当然，如果钓鱼和捕鲸鱼都只是爱好，那么这个问题也就没那么重要了。

然而，虽然没有得到这条大鲸鱼，但如果能逮住，这大鲸鱼一定会给大家带来很多好处的，比如鲸鱼的油、鲸鱼的骨头等等，对他们来说都是个宝贝。

这条大鲸鱼好像并不打算离开荒岛海面，所以赫伯特和史佩莱在不打猎、那普也不做饭时，就会站在“花岗宫殿”的窗口，或者是站在观望壁上，拿着望远镜去看它。

他们看到，大鲸鱼在进入联合湾后，会在从颚角到兽爪角的那段海

面上激起浪花。由于它庞大的身躯是支撑在有力的尾巴上的，所以游动也靠尾巴，游动速度应该达到了每小时12海里。当它游到离岸很近的海面上时，他们会很清楚地看清它的样貌。这是一只南方鲸鱼，通体都是黑色的，头部比北方鲸鱼扁。

除此之外，他们还看见从它的气孔里会喷出很高的水汽。这让他们更觉奇怪了。因为关于这一点，动物学家和捕鲸员的看法不同。对于喷出来的是空气还是水，有人就认为是空气，而之所以落下来是水，是因为遇冷造成的。

不管怎样，这么大一只哺乳动物的出现，仍然让居民们朝思暮想，特别是庞库那夫，自打见过它，便一直想着，即使在工作时，也在想，最后甚至到了像个孩子没有得到想要的玩具时，茶不思饭不想，连说梦话说的都是鲸鱼。

如果他有办法去猎捕，有适合入海的船的话，他一定会什么都不顾地去捕捉的。

在他们都认为得到鲸鱼是不可能的事的时候，一个偶然的机会成全了他们。那是在5月3日的时候，站在窗口的那普突然大喊起来。原来，那只大鲸鱼竟然在海滩上搁浅了。

正准备去打猎的赫伯特和史佩莱，马上放下他们的枪。庞库那夫也扔下了斧头，史密斯和那普，以及众人一起向那里跑去。

原来，那条大鲸鱼在涨潮时，在距“花岗宫殿”还有3英里的拾箱角搁了浅，没办法再回到大海里去了。

现在正是他们抓紧时间，断了它归路的时候。于是，居民们手拿鹤

嘴锄和搭钩，跑过感恩河桥，冲向河的右岸，沿着海滨一直向大鲸鱼搁浅的地方跑去。这段路程，他们只用了不到20分钟。而也就是在这段时间里，鲸鱼搁浅的上方已经有大群飞鸟在盘旋了。

“这可真是个大怪物啊！”那普大声喊着。

发出这样的喊声一点都不奇怪。因为在海滩上搁浅的这个家伙长达80英尺，重量不下15万斤，是个特大的鲸鱼。

大怪物一动不动地躺在沙滩上，虽然处在涨潮期，但它好像并没想着要挣扎到水里去。

居民们怔怔地看着，等到退潮后才走过去。他们围绕着这个大怪物转了一圈后，发现鲸鱼之所以不动，是因为它已经死了。它的左侧插着一根鱼叉。

“这么看来，这一带是有捕鲸船的。”史佩莱开口说。

“为什么这么说？”庞库那夫问。

“那鱼叉不是还在鲸鱼的身上吗？”

“不，史佩莱先生，这绝对不能说明问题。我听说鲸鱼是可以带着鱼叉游上万英里路程的。它很可能是在大西洋的北部被打中，最后又游到了太平洋南部，然后搁浅死掉了，这很正常。”庞库那夫说。

“但是……”史佩莱没说下去，但他并不同意庞库那夫的说法。

“完全有这种可能。我们还是先看看鱼叉吧！真是捕鲸员的话，鱼叉上一定会有船的名字，这是他们的习惯。”史密斯说。

庞库那夫拔掉了那把插在鲸鱼身上的鱼叉，并念出了上面的字：

“玛丽尤·撒塔莱，格雷普兰。”

“天啊，这是一只格雷普兰的船！我家乡的船！”庞库那夫激动地喊着。

“朋友们，不会错的，玛丽尤·撒塔莱，这就是一只捕鲸船，而且是顶呱呱的捕鲸船！朋友们，听到了吗？这是一只格雷普兰的船，是一只格雷普兰的捕鲸船！”

庞库那夫挥舞着手里的鱼叉，不停地念着上面的字，那里有他家乡的名字。

自然，玛丽尤·撒塔莱号是绝对不会来这里索取他们插中的鲸鱼的，所以他们必须趁着鲸鱼还没有腐烂时将它切开。头顶上那群飞鸟，想必跟着这个“美味蛋糕”已经飞了很久了。

此刻，面对摊在沙滩上的美味，它们好像一分钟都不愿意等了，随时准备往下扑。居民们不得不开枪，将它们驱散。

由于是母鲸，居民们得到了很多鲸奶。博物学家德芬巴赫说过，鲸奶是可以替代牛奶的。确实是这样，不管是从味道、颜色还是浓度上来看，它都和牛奶没什么区别。

捕鲸船上，庞库那夫也曾去工作过，所以对于怎么切肉很是熟悉，于是他带着大家去做。这项任务非常艰巨，他们整整做了三天。不过，对于这么繁重的工作，他们并不害怕，连史佩莱也是如此。这就像庞库那夫所说，史佩莱最后会成长为一个真正的“遇难英雄”的。

切鲸鱼很讲究，他们必须先将鲸油切开，然后切成两英尺半的方块。随即还要将其分成很多片，让每片的重量在1000斤左右。这样也能用当地的陶土罐来熬制鲸油了，避免将“花岗宫殿”弄得腥气冲天。

当然，在熬油的过程中，鲸油的重量会减少很多，几乎是原来的三分之一。

鲸鱼很大，仅从舌头上，他们就得到了6000斤油；从下嘴唇上，他们得到了4000斤油。这都让他们可以在相当长的时间里有足够的硬脂和甘油提供。此外，鲸鱼的骨头虽然不需要拿来做雨伞或支架，但也是有其他用途的。比如鲸鱼嘴上部的800块骨片，因为是纤维组织，所以有着很好的弹性。旁边的则很像一个超大的梳子，光梳齿就达到了6英尺。

想想看，鲸鱼就是用它来衔成千上万的小鱼和软体动物的，其力量可想而知。

在这些分解工作完成后，他们心满意足地将剩下的残骸留在海滩上。他们不用担心这些残骸，因为很快就会被那些飞鸟吞食干净的。此后，“花岗宫殿”的居民们再次恢复了他们的日常工作。

在重回“造船厂”工作前，史密斯忽然想做一些东西，他所说的这些东西，自然也引起了大家的极大兴趣。那就是，他要选用鲸鱼的12块骨头，然后再将每块骨头切成同样大小的六份，最后将其顶端削尖。

“史密斯先生，做这个东西干什么？”赫伯特问。

“可以刺死狼和狐狸，也可以刺死豹。”史密斯说。

“我们是要现在做吗？”

“不，这个要冬天做，只有在我们手里有了冰块时才能做。”

“什么意思？不明白！”赫伯特说。

“孩子，以后你会明白的。这东西可不是我发明的。在美洲的阿留申群岛，那里的猎人经常使用这样的工具。这些骨头，在天冷结冰时，可以将它们折弯浸在水里结成冰，由此让它们一直保持这样一个弯曲的形状，最后我们再在上面涂上一层油，扔到雪地里。那些正处在饥饿中的野兽吞下去后，知道会怎样吗？它们的胃会很快将冰融化，而那骨头因为冰的融化则会恢复成直形，然后就将吞食它的野兽的身体刺穿了。”

“太好了！真是个天才发明啊！”庞库那夫说。

“这样的话，可以为我们节省下很多弹药。”史密斯说。

“是啊，这可比我们设陷阱好多了。”那普也说。

“好吧！我们就耐心等待冬天的到来。”

“嗯！等冬天到来！”

至此，这件事放了下来，他们继续造船。到了5月底的时候，他们给船铺板的工作也已经完成了一半。从这半成品的形状来看，是只外形美观，适合航行的船。

庞库那夫将他全部的热情都投入到了这项造船工作中来。幸好他的身体强壮，不然恐怕会吃不消的。为此，伙伴们也时常拿给他一些慰劳品。而5月31日，他得到了他人生中最好的一件礼物，这件礼物给他带

来了非常大的快乐。

那天，他们吃完饭，庞库那夫正打算离桌，有人将手放在了他的肩膀上。他一看，是史佩莱。

史佩莱说：“不要走，稍等一下，庞库那夫，别想偷偷溜走，你的餐后点心还没吃呢。”

“不用，我要去工作了！谢谢你，史佩莱。”庞库那夫说。

“可喝一杯咖啡总行吧！朋友？”

“我什么都不需要。”

“那么抽一袋烟怎么样呢？”

一听这话，庞库那夫一下子跳了起来，因为他看到了史佩莱手里那装上了烟的烟斗。

当史佩莱伸手递给他烟斗，赫伯特用一块烧红的火炭为他点烟时，庞库那夫那忠厚的脸庞一下子变了。

他想说话，但却一句话都说不出来。怔了怔后，他一把夺过了烟斗并衔在嘴里，拼命地吸着。连吸五六口后，当那带着香味的蓝烟从烟斗里飘出来后，他在烟雾中不断地说：“是烟，这真的是烟！真的是烟！”

“是呀！庞库那夫！还是好烟呢！”史密斯说。

“啊！老天，万物的主啊，岛上现在真是什么都不缺了。”庞库那夫激动地喊着。他贪婪地吸了一口又一口。

“是谁找到这个的？是你吗？赫伯特？一定是你！”庞库那夫终于想起问这句话了。

“不是的，庞库那夫，是史佩莱先生找到的。”

“啊？史佩莱先生？”庞库那夫一边大叫，一边冲过去抱住了史佩莱，并将他紧紧地挤在胸前，挤得他喘不过气来。这感觉史佩莱从没遇到过。

“庞库那夫！”史佩莱在能喘一口气时，连连说：“饶了我吧，你应该感谢赫伯特，如果不是他认出了这种植物，我也不知道它是烟草。还要感谢赛莱斯，这烟叶可是他烤的。当然还有那普，是他费尽心思才让我们保守住了这个秘密。”

“太棒了！朋友们，相信我，总有一天，我会报答大家的！总有一天！我们的情谊，那可是一辈子的，一辈子！”庞库那夫激动得满脸涨红。

第十一章

6月，冬季来临，此时也就是北半球的12月。他们目前要做的就是抓紧时间做好既保暖，又结实的衣服。

用来做冬季衣服的羊毛还在莫伏鹿羊的身上，他们只需剪下来，然后织成毛料就行了。

不过，此时的他们还没有刷毛机、梳毛机、磨光机、绷架、绞丝机和纺织机。不能自动地做这一切，他们只能用手工。

无法自动纺织，他们就利用毛质纤维在强大的压力下会黏在一起的特性，先将其做成毛毡。制作毛毡比较容易，只需紧紧挤压就可以了。因为羊毛压缩得越紧，毛毡就越容易保暖。

短毛的莫伏鹿羊，特别适合先做成毛毡。

这项工作不可能由一个人完成，于是庞库那夫便暂时放下了造船工作，和大家一起协助史密斯，开始了做毛毡前的准备工作。比如清除渗透在羊毛里的油脂和油质。具体清除办法是：将羊毛放在盛满水的大木桶里，然后让木桶里的水一直保持在70℃的温度。

浸了24小时后，再拿出来用小苏打水彻底清洗羊毛，并将其拼命挤压，很快，结实的毛料也就做成了。当然，这样的毛料未免太粗糙了，即使拿到欧美市场，肯定也是一文不值，但在这林肯岛上，却是什么都不换的宝贝。

其实，这种简陋的制造毛料的方式，很早以前就有人用了。而那原始的毛料，也是用史密斯现在的方法做的。当然，在制造一架能够压榨羊毛的机器时，史密斯还是发挥出了他的工程师特长，巧妙地利用了海滩上瀑布做动力的原理，来发动那台水力压榨机。

这种方法，应该到目前为止都没人用过。

再没有比这么做更简单的了。他们先将羊毛放在了凹槽中间，然后用有着很大重量的木槌，不断地交替着去槌。当然，用动力代替人力的就是他们将要造的机器。几个世纪以来，人们一直在使用这种机器，只

是最后人们又发明了压滚，才不再使用这种方式，而采用了有规律的滚压方式了。

这项工作最终取得了绝对胜利，当然这胜利也是在史密斯的正确指挥下取得的。为了方便压榨，使羊毛柔软，也为了避免羊毛在槌的过程中过于收缩，他们事先将羊毛在肥皂水里做了浸泡。最后，当羊毛从压榨机里出来后，就变成厚厚的毛毡了。

这粗糙的羊毛有着很多优点，比如因为其交织细密，不仅适合做衣服，而且还适合做毛毯。

当然，这粗糙的羊毛制品不是美丽的细毛呢、开斯米，也不是绸子、缎子，更不是驼绒和法兰绒，它只是林肯岛上的一种纺织品。这种纺织品可以给他们提供暖和的衣服，厚厚的被子，并让他们安全地度过1866年到1867年的冬天。

严寒是在6月20日到来的。庞库那夫的造船工作只好暂时停止，虽然有些遗憾，但也是没办法的事，只能等到开春后再进行了。

庞库那夫的最大愿望就是去岱波岛，他对那里充满了好奇。不过，史密斯却不同意他纯粹出于好奇远航。因为他觉得在那样一个荒岛上，不可能找到什么想要的东西。而且他们所造的船，在他看来还是稍微小了一些。在那样陌生的海洋里航行150海里，到底会发生什么？他也不知道，所以有着深深的顾虑。

如果那船到了海里，到不了岱波岛，又无法回来，在那漫无边际的海洋里漂着，又该怎么办呢？

史密斯和庞库那夫无数次聊起了这件事。庞库那夫对这次的航海却

表现得信心十足，特别迫切。而当问他为什么要这么做时，庞库那夫又说不出来了。

“朋友，你看看，你对林肯岛赞不绝口，说到离开时就会悲伤，但你又拼命地想离开。为什么呢？”有一天，史密斯又问庞库那夫。

“不是永远离开，是离开几天。史密斯先生，我就想去那边看看，看那个岛是什么样的。”庞库那夫说。

“说不定它不如林肯岛。”

“我知道呀，我知道它一定比不上我们的林肯岛。”

“那为什么还要冒险去那里呢？”

“只是想去看看而已，算不上冒险。”

“那儿很可能什么都没有，也不可能有什么。”

“谁又能确定什么都没有呢？”

“如果航行中遇到飓风怎么办？”

“不会的，我们在天气好的季节去，绝对不用担心这事。不过，史密斯先生，为了预防万一，能不能让赫伯特和我一起去？”庞库那夫又说。

“庞库那夫，赫伯特偶然间成了我们的孩子，如果他或者你出了什么意外，你觉得我们能好过吗？”史密斯拍着庞库那夫的肩膀，语重心长地说。

“史密斯先生，请放心吧！我们绝对不会让你们担心的。而且还没到远航的时间呢，等时间到了再说吧。我想，当我们的船造好了，我们一起乘着它下海，环绕我们的荒岛时，我敢说，你一定会放心让我们去的。说句实话，最重要的可是你造的这只船。”庞库那夫想去的心情丝毫没有改变。

“不是‘你造的船’，是‘我们造的船’。”史密斯纠正他说。他决定暂时让步，因为他知道他们谁也说服不了谁，只能等以后有机会再谈了。

差不多到六月底的时候，林肯岛下了今年的第一场雪。牲畜栏里早就准备了很多饲料，只需每星期派人去看一次就行，不用每天都去。

为了猎到更多的动物，他们还是布置了陷阱，而史密斯用鲸鱼骨制造的那食饵暗器也做过了试验。

居民们将鲸鱼骨弄弯后，让弯鱼骨的外面结上冰，并涂上最厚的脂肪，放在了野兽经常出没的地方。

很快，试验就取得了成效，由此可以证明阿留申群岛的渔夫们发明的这个非常打猎利器特别管用。有好几只狐狸、野猪，还有一只美洲豹都成了他们的试验成果。这些脂肪全被它们吃进了胃里，最终它们都被伸直了的鲸骨刺穿了身体。

这个试验的成功让史密斯非常高兴。当然，除了这件事外，还有一件有趣的事，那就是他们和外界联系的一种尝试。

和外界联系，这是史佩莱想过很多次的事，可该怎么联系呢？是将一封信装进瓶子，扔进海里，寄希望于这个瓶子被海水冲到有人居住的海岸？还是利用鸽子来给他们送信？

不过，这两种方式，最后都被他自己否决了。因为他们所处的海岛离外界有1200英里，仅靠一只信鸽或一个瓶子去完成这个任务怎么可能？简直就是个笑话。

不过在6月30日的时候，赫伯特用枪打下了一只信天翁。这只信天翁没有死，只是腿部受了伤，所以捉住它，也颇费了一些周折。那是一只非常美丽的鸟，双翅展开有10英尺，这样的一只鸟，看情况连太平洋都是可以飞得过去的。

赫伯特想留下这只美丽的鸟来驯养。因为他觉得它只是受了腿伤，很快就能痊愈，更主要的是他认为能够将它驯养好。可史佩莱却告诉他，他们要抓住这个机会，抓住一个和外界发生联系的机会。如果信天翁是从有人居住的地方来的，那么再将它放走，它就会返回那里。

作为一个好的新闻记者，他也许只是想利用信天翁将林肯岛上的冒险故事写出来，进而带到外界去。如果这个故事到了他所尊敬的编辑约翰·贝尼特那里去，对于《纽约先驱报》以及史佩莱本人来说，都将是个很大的成功。

就这样，史佩莱写了一份简单的新闻报道，装在了不渗水的袋子里，然后又在袋子上写了几句话，比如请捡到这封信的人将它寄给《纽约先驱报》等等。

最后，他又将这袋子系在了信天翁的脖子上。因为他知道，信天翁有在海面上休息的习惯，如果系在脚上，很可能会丢失或进水。最后，他们将这个“希望”放回了天空，并眼睁睁地看着它带着信飞去了西方，一直到看不到为止。

这是他们的第一次尝试，这尝试让他们很是激动。

“你们说，它会飞到哪里去呢？”庞库那夫问。

“可能会飞去新西兰吧！”赫伯特说。

“希望一切顺利！”庞库那夫大声喊着。其实他对这种方式并没有抱什么希望。

随着深冬的来临，他们又不得不在“花岗宫殿”里工作，主要是缝衣服或是做其他一些事，有时候还会利用气囊上的一些零部件做船帆。

七月的每一天都是彻骨的寒冷，好在木材和煤炭都不缺。史密斯为此还在餐厅里装了第二个壁炉，以此来消磨漫长而寒冷的冬夜。

在壁炉旁，他们时常一边做事一边聊天，有时候还会朗读木箱子里的书。也正因如此，他们又学到了很多東西。

晚饭后，在明亮的烛光下，他们烤着炉火，喝着热腾腾的绿泽兰咖啡，听着外面的狂风怒号，闻着从烟斗里散发的芳香……每个人都是那么的满足和享受。如果背井离乡和与文明隔绝不算痛苦，而是一种乐趣的话，那么他们将是世界上最幸福的人了。

可惜现实并非如此，所以他们只能把对祖国和亲戚朋友的思念放在了聊天上。他们想念着他们的祖国，期待着美利坚合众国能强大。

一直关心着国家大事的史密斯，总是和伙伴们说一些政事，谈对一些事情的看法。当他在说的时候，伙伴们也总是听得津津有味。

一天，史佩莱突然说：“亲爱的赛莱斯，你曾说美国的工商业发展很快，如果有一天它们出现停滞怎么办？”

“停滞！为什么会出现这种情况？”

“因为煤炭太缺了。说句实话，煤是非常上最宝贵的矿产之一。”

“煤炭确实很宝贵。想起来，金刚石也只不过是碳的结晶，大自然存在的金刚石，好像就是为了证明煤炭的宝贵。”史密斯说。

“什么意思？史密斯先生？你是说，我们炉子里烧的是金刚石吗？它只是长得像煤？”庞库那夫插话道。

“那倒不是，朋友！”史密斯说。

“总之，煤炭总有一天会被烧光的，这一点你不会否认吧！”史佩莱又说。

“不用担心，煤炭的矿藏有很多，十万个矿工每年才能开采一万万英担¹，想把煤炭采完，早着呢。”

“可随着煤炭需求的增多，我们能够预料，当十万个矿工变成二十万个矿工的时候，开采量也会加倍的。”史佩莱继续说。

“这倒是的，听说欧洲的煤矿都要采用新式机器来开采了。不过等欧洲煤矿开采完后，美洲和澳洲的煤矿还是可以维持很长一段时间的。”

“能维持多久？”史佩莱又问。

“至少是250年到300年吧！”

“唉！这么说，我们这一代人是不用怕了，但我们的后代可就惨了。”庞库那夫叹气说。

“那时人们会发现其他替代品的。”赫伯特说。

“希望会是这样吧！没有煤炭就没有机器，没有机器就不会有火车、轮船、工厂以及各种现代化文明。”

“我们的后代会发现什么替代品呢？你知道吗？史密斯先生。”庞库那夫担心地问。

“大概是能猜测出的，朋友！”

“是什么？”

“水！”

“水？水能做什么？做轮船和引擎的燃料吗？水可以烧水吗？”庞库那夫大喊。

“是这样的。水能分解出一些元素。当然，这个分解的过程需要电。但是到了那个时候，水就会成为一种可以掌控很多的力量了。一切伟大的发明，都和一种不可思议的规律分不开，并逐渐完善，最后被我们应用。所以朋友们，我相信，有一天水是会被当成燃料的。当把组成水的氢和氧分离开后，当然也许也会结合，这都将成为热和光的无尽能量。到时候，它的力量之大，是连煤炭都比不上的。而且以后的轮船和火车，藏煤室及煤水车里装的都可能不再是煤，而是一种压缩气体。当这两种气体在炉子里燃烧时，就会产生很大的能量，所以我们不需要担心。只要地球存在一天，便会给人类提供生存的需要。只要我们不缺动物、植物和矿物，我们就永远不会缺光和热。所以我深信，没有了煤炭，我们还是可以用水来提供热能的，水就是将来的煤。”史密斯的语气很坚定。

“希望我能有机会看到。”庞库那夫说。

“可惜你生得太早了！庞库那夫！”那普突然插话说。

当然，打断这段谈话的并不是那普，而是多卜，它突然又开始发出了阵阵怪叫。上一次它怪叫，就曾让史密斯很惊讶。那是在“花岗宫殿”通道尽头的一口井旁，多卜曾绕着那井口不停地狂叫、奔跑。

“多卜怎么啦？为什么又那么叫？”庞库那夫问。

“怎么回事？狙布也叫起来了。”赫伯特又说。

确实是这样的，猩猩狙布也和狗多卜一样，表现出了极度的不安，并很快显现出了焦躁和愤怒。

“看来，那个直通大海的井里有动物，常常从井底钻出来呼吸。”史佩莱说。

“嗯，肯定是这样的，不会有别的原因。”庞库那夫说完，将脸转向多卜，朝它喊道：“多卜，不要叫了，还有你，狙布，回到你的房间去。”

猩猩狙布和狗多卜全都停止了狂叫。狙布到它的吊铺上睡觉去了，多卜还留在房间。这天晚上，它每隔一会儿就要低低地咆哮几声。居民们并没再谈这个话题，但史密斯却一直眉头紧皱。

7月的最后几天，天上不是下雨就是下霜。当然，气温却没有去年低，即使是最冷的时候，也有-22℃。不过，虽然这个冬天不太冷，但风雪还是很多。此外，不断的海潮时不时地威胁着“花岗宫殿”的石壁，使其不断地发出很大的声响。

每当这时，居民们便会倚在窗口，看那奔腾的海水向岩石下冲去，瞬间又被撞出浪花。这壮丽的景象让居民们看得特别过瘾。

波涛夹杂着泡沫，不停地吞噬着海滩，让海滩一会儿消失一会儿出现，那些峭壁，也好像被浮在了一百多英尺宽的海面上，看上去非常壮观。

在这样的风暴下，他们不敢冒险出去，因为被刮倒的大树比比皆是，十分危险。不过，即使这样，他们每星期还是必须要去牲畜栏一次。幸运的是，他们圈的那块地因为有富兰克林这座山做屏障，所以不容易受到飓风的袭击，那里的树木、栅栏和畜棚也还好好地停留在那里。

不过，观望壁的家禽场可就没有那么幸运了，因为迎着东风，损失非常大。鸽棚顶被刮跑了两次，栅栏也被吹得东倒西歪。这些都需要他们重修，而且必须修得比上次还要牢固才行。因为很显然，林肯岛在太平洋大旋风的中心，属于最危险区域。当狂风从四面八方刮过来时，犹如在用鞭子抽打陀螺。

和陀螺不同的是，林肯岛不会动，但那风做的鞭子却是一直围绕着它在转，在抽打。

8月的第一个星期，天气恢复了正常，大气也变得平静下来。不过，大气一平静，严寒又来了，寒暑表显示，此时的气温甚至已经降到了-22℃左右。

8月3日，居民们到了荒岛的东南，在花皂沼地附近去打猎。而在那里，他们看到了来这里过冬的一些水禽，看得他们直眼馋。

那里有数不清的野鸭、丘鹬和小水鸭。最后，大家商量后决定用一天时间专门来打这些鸟。

参加这次打猎的人，不仅有史佩莱和赫伯特，还有庞库那夫和那普。全部成员中只有史密斯中途退出，说他在“花岗宫殿”还有其他事。

那天，他们一行人出去，并说好傍晚就回来，随即就向气球港奔去，接着又直奔花鳉沼地，多卜和狙布这次也跟他们一起去了。一行人在过了感恩河后，史密斯将吊桥放下，说他要回家，要去单独做一件事。

史密斯所做的是仔细观看井的内部。井口是和“花岗宫殿”的通道持平的，底下通向大海，是格兰特湖的输水道。

多卜经常绕着井口乱跑的原因是什么？为什么会发出怪叫？是什么让它不安？有什么吸引着它到井口来？狙布为什么也会和多卜一样不安？这井除了通向大海，还会通向哪里？能通向荒岛的其他地方吗？

这一切的一切，都是史密斯想知道的。所以他要趁大家都不在的时候搞清楚这件事。如今，时机来了。

只需要一根绳梯他就能下到井底。自从他们用了升降梯后，绳梯也就被搁置起来。史密斯重新将它拿了出来。

井口的直径在6英尺左右。他先将绳梯的上端牢牢系住，然后将另一端放进了井里。下井的时候，他的腰里插了一把刀，一把左轮手枪，手里还提了一盏灯。

下到井底，却没有发现什么，只有一些突出的尖石头。如果是灵活的动物的话，很容易沿着这些突出的石头爬到洞口去的。

史密斯发现了这一点，便也借着灯光，仔细察看那些尖石头。不过，他依然没能从那上面发现什么痕迹，也没发现有什么破损的地方表明被做过阶梯。

在往下又走了几级后，史密斯再次举起灯，四下看着，依然没发现可疑之处。

当史密斯已经跨到最后一级的时候，他触及到了水面。此时，水面非常平静，不管是水面上还是井壁上，都没有任何孔和洞通向峭壁内部。史密斯尝试着用刀柄在石壁上敲了几下，石壁发出的也不是空声。显然那是结实的花岗石，不可能被什么生物开出一条道来。

在海滩岩石的下层土地下，有一条沟将大海和井底连接起来。如果想要从大海进入井底，然后再爬到井口，是必须穿过这个沟道的。能做到这一点的，只能是水里的动物。不过，这条沟通向什么地方？在海岸的哪里？水是深还是浅？史密斯并不知道。

史密斯在检查完井内后，沿着绳梯上去，然后拉起了绳梯，盖好了井盖。

回到餐厅，史密斯喃喃道：“即使什么也没看见，但我依然相信，这里一定有猫腻。”

[1](#)重量单位，1英担约等于50.80千克。

第十二章

傍晚，出去打猎的几个人兴冲冲地回来了，个个满载而归，所打的猎物比任何一次都多。甚至连多卜的脖子上都挂着一串小水鸭，像项圈一样。而狙布的身上则缠绕着成串的丘鹬鸟。

“主人，我们现在可有东西消磨时间了。我要把这些东西全都做成大肉饼存起来，这样我们就不用担心没有余粮了。不过我还是需要有人当帮手。”那普高兴地说完，将脸转向庞库那夫。

“我找你行吗？庞库那夫！”

“不行，我要做船上的零部件，不能帮你！”庞库那夫说。

“那你行吗？赫伯特先生？”

“我明天要去牲畜栏，也不行，那普！”赫伯特说。

“那只能找你了，史佩莱先生！你能帮我吗？”

“当然，我非常愿意帮你。不过那普，我可告诉你，要是你的烹饪秘诀被我看到了，我可要写出来发表了。”史佩莱说。

“欢迎发表，想什么时候发表都行！”那普爽快地回答。

就这样，第二天的时候，史佩莱做了那普的助手，在厨房里帮着那普做肉饼。

史密斯在头一天将他在井底发现的情况告诉了史佩莱。和史密斯一样，史佩莱也觉得即使没有发现什么，也还是应该继续去探索。

天气又变了，接连下了一个星期的霜。

这一个星期，居民们除了去家禽场看家禽外，其他的时间都没有离开“花岗宫殿”。“花岗宫殿”里到处都洋溢着令人垂涎三尺的香味，这当然是那普和史佩莱在厨房里大显身手后的结果。

不过，他们并没有将所有的野味都做成储藏食品。因为严寒的冬季，他们即使不把野鸭和另一些野禽腌制，而是留下来吃新鲜的，也会是世界上最美味的。

而在这一个星期里，庞库那夫也在很擅长缝帆的赫伯特的帮助下，将船帆缝制好了。

船上的索具他们不缺，用的全是气球上的。同时，他们也从气球的绳网上取得了上好的绳索。总之，气球上的所有东西，庞库那夫都用在了新船上。那些绳网除了船帆上需要外，还剩下很多绳子，都被他用作了升降索、护桅索、帆脚索等等。

船上所用的滑车，史密斯则根据庞库那夫的要求，用车床做了一些。所以在船还没造好的情况下，船上的整套索具却已经全部做好了。最后，庞库那夫还做了一面美国国旗。而国旗上的蓝、红、白三色，均是他从染料植物中得来的。

这种染料植物岛上有很多。然而，国旗上，除了有代表合众国37州的37颗星外，庞库那夫还加了代表“林肯岛”的第38颗星。因为他觉得，此时的林肯岛，已经归属于伟大的合众国版图了。

“虽然还没有归并，但我在心里已经将其归并了。”他说。

国旗做好后，他们还将它升起在了“花岗宫殿”最中间的一扇窗户上。同时，当那国旗随风飘扬时，居民们连呼三声，以表敬意。

此时，寒冷的冬季很快就要结束了。他们来到岛上后的第二个冬天，似乎也要平安地度过去了。不过，就在8月11日的夜里，他们时常去的观望壁的高地却差点被破坏掉了。

那天过后的凌晨四点，居民们还在睡梦中，突然听到了多卜的狂叫声。

此时，多卜并没有在井边叫，而是在门口叫。它不仅叫，而且还不不停地用前爪去挠门，像是要把门挠开似的。而听到多卜叫，狙布也叫了起来。

“喂，多卜！你在干什么？”第一个被惊醒的那普喊了一声。听到问话，多卜叫得更响了。

“发生了什么事了？”史密斯问。

他们急忙穿好衣服，冲到了窗口，打开窗户。外面白茫茫的一片，朦胧中，他们还是看到了一片灰色。虽然看不清那是什么，但却听到了那灰蒙蒙的地方传来的奇怪声音。

看来，很可能是他们以前未曾发现的动物来到了这里。

“那灰色的是些什么？”庞库那夫喊。

“有可能是狼，也有可能是美洲豹，还可能是猴子。”那普说。

“坏了，它们快要到高地了。”史佩莱说。

“天啊，那是我们的家禽场，还有我们的菜园！”赫伯特也大喊。

“它们一定是从桥上过来的，想必是谁忘记把吊桥吊起来了。”史密

斯说。

“是的，是我，是我忘了把吊桥吊上去了。”史佩莱说。

“史佩莱先生，看你干的好事。”庞库那夫说。

“已经这样了，没办法挽回了，我们还是商量接下来该怎么办吧！”史密斯说。

当史密斯和同伴还在互相议论着的时候，那些野兽已经过了桥，来到了岸边。那些野兽到底是些什么，已经不重要了。重要的是它们均能登上感恩河左岸，并很快到观望壁去。所以必须尽快阻止它们，必要时，肯定还有一场恶战在等着他们。

“但它们到底是什么呢？”在听到野兽惊人的叫声后，赫伯特提出了这个问题。这个声音他好像听过，他猛地记起了第二次去红河发源地时，曾听到过这样的叫声。

“我知道了，是狐狸！”他大声叫着。

“啊？那快去！”庞库那夫也大喊一声。

于是，大家拿起斧子、枪，飞快地跳进升降梯，并快速到了岸边。

没错，这是一群狐狸，一群正处在饥饿中的、非常可怕的狐狸。即使这样，居民们还是奋不顾身地冲了上去，射出了一排子弹。黑暗中的枪声，把对方吓退了。

此时，对居民们来说，主要是想办法拦住这群强盗，不能让它们到高地去。不然，菜园、家禽场和麦田，都可能被无情地损坏、践踏，给

他们造成巨大的损失。尤其是那麦田，很可能会成为永远都无法弥补的损失。

好在这群狐狸也只有经过感恩河再到高地这一条路，只要守住了感恩河和花岗石峭壁间的堤岸，就能斩断它们前行的道路。更对他们有利的是，堤岸比较狭窄。

大家都知道这是最好的办法，因此在史密斯的安排下，迅速地到达了指定地点。此时，处在朦胧的天色和雾色中的狐狸已经处在了惊慌中。史密斯、史佩莱和赫伯特、庞库那夫以及那普之间，形成了一道牢不可破的防线。而多卜更是张开它的血盆大口，站在人前，做好了战斗的准备。狙布在它的后面，前爪抓着一根带有节疤的棍子，如同舞蹈一般地挥舞着。

天色还处在昏暗之中。想要看到对方，也只有开枪时，借着左轮枪的火光看到。他们看出，那些双眼如同燃烧的火炭，浑身通红的狐狸足足有一百多只。

“不能让它们过来，千万不能让它们过来！”庞库那夫厉声道。

“它们绝对过不来。”史密斯说。

它们确实没有过来，当然，并不是它们退缩了，不敢过来了。而是当后面的狐狸往前涌时，居民们的左轮枪和斧子让它们无法过来。好几只狐狸已经倒在了血泊里，但它们的数量好像并没有因此减少，很可能是后援正源源不断地从桥上向这边涌来。

没办法，居民们只能和狐狸进行肉搏战了。当一只狐狸如同一只山猫，扑向那普的背时，赫伯特开了一枪，那只狐狸死了，那普也被救了。

下来。多卜表现得很勇敢，它愤怒地和狐狸做着搏斗，冲上去咬狐狸的脖子，很快就咬死了一只。而猩猩狙布，也做着勇敢的动作，挥舞着手里的武器，击打狐狸，它不想被他们安排在后面。

狙布的目光非常敏锐，而且和居民们不同的是，它能够看清黑暗中的东西，所以它总会跑向战斗最激烈的地方，并帮助居民们向狐狸进攻。当它击中了狐狸后，便会因兴奋而发出尖锐的叫声。

有一次，它甚至跑去了很远的地方。直到居民们开枪时，通过火光才看到它正被五六只大狐狸包围着，勇敢地作战。

经过了整整两个小时，激战才结束，居民们终于获得了胜利。此时，天刚刚破晓，他们看到了那些失败者慌张地越过桥头，向北蹿去的背影。接下来，那普迅速地将桥吊了起来。

当天大亮，他们清理现场时发现，死狐狸足有五十多只。

正在他们想欢欣鼓舞时，却突然发现少了狙布。

“狙布，狙布到哪里去了？”庞库那夫大喊。

狙布失踪了。和狙布感情最深的那普大声地喊着。狙布也第一次没有回应朋友的叫声。

大家开始四处寻找，他们个个提心吊胆，生怕会在狐狸尸堆里看到狙布。在他们将染红了积雪的尸体拖到一边时，在死狐狸中找到了狙布。此时，那些死狐狸的肢体已经变得残缺不全了，应该是狙布这勇猛的战士用棍子殴打的结果。

可怜的狙布手里还紧紧地握着半截棍子，它在缺少了武器，寡不敌

众后，胸前受了重伤。

“它没有死，它还活着！”那普弯下腰，检查了一番后说。

“一定要将它救活，要像对待自己人一样对待它。”庞库那夫说。

狙布好像听懂了庞库那夫的话，将脑袋轻轻地依偎在庞库那夫的肩上，像是在向他表示感谢。庞库那夫的手也受了伤，但他的伤和其他伙伴一样，不足挂齿。因为他们拥有精良的武器，所以对方无法逼近他们，只是猩猩狙布的伤势比较重。

在那普和庞库那夫将受重伤的狙布放进升降梯时，狙布只是轻轻地呻吟了一声。到了“花岗宫殿”，他们从床上拿了一个垫子放在地下，让狙布躺在垫子上，然后小心地清洗了它周身的伤。

经过仔细检查后他们发现，多卜受的并不是致命伤，但因为流血过多，它的身体极其虚弱。并且，在将它的创口进行了包扎后不久，狙布开始发起了高烧。

居民们就像那普所说的“完全要像对待自己人一样”地照顾着它。他们给它喝了几杯清凉饮料，这些清凉饮料是从“花岗宫殿”的药草箱里取出，浸泡而成的。狙布起初很虚弱，但渐渐地，呼吸正常起来。看到这种情况，居民们这才放下心来，安安稳稳地睡觉了。

多卜在朋友狙布受伤后，也总是像居民们所说的，“悄悄地”来探望。对于大家对狙布的看护，它好像表现得很满意。而当它看到狙布的前爪露出了床铺外面时，也会用轻轻舔爪的方式表达关切。

白天，居民们将死狐狸运到了西遥森林埋了起来。

这次狐狸侵袭差点造成毁灭性的打击，对居民们来说，这是一次很深刻的教训。此后，他们每天一定会在完全确认吊桥已经吊了起来，没有任何疏忽，不会有任何动物来侵犯时才上床休息。

几天后，在居民们的用心照顾下，獾布身体状况好转了，热度也退了，原本就懂一些医术的史佩莱告诉大家，獾布已经脱离了危险。

8月16日的时候，獾布的身体完全恢复了，饮食也正常起来。那普为此还专门为它做了几份美味，“病人”獾布吃得津津有味。

说到獾布，优点有很多，如果说它有什么缺点的话，那就是有些贪吃了。而它的这个缺点，那普怎么都纠正不过来。

史佩莱经常说是那普把猩猩獾布惯坏了。有一天，那普无奈地对史佩莱说：“这可怎么办呢？好像除了吃，獾布没有其他的乐趣，我非常希望它能快乐。”

连着躺了十天，8月21日的时候，小獾布终于能起床了。伤势痊愈的它，过不了多久，又能活蹦乱跳了。不过，和很多生过大病的人一样，獾布的胃口比原来更好了。

史佩莱相信獾布有超出人类的一些本能，也相信它不会毫无节制地大吃特吃。

那普看到自己的徒弟胃口大开，非常高兴，宠溺地说：“吃吧，吃吧，獾布，全吃掉吧！你为我们战斗受伤，我无论想什么办法都会让你恢复健康的。”

8月25日那天，那普突然大声叫着大家：“史密斯先生、史佩莱先生、赫伯特先生、庞库那夫，你们来啊！快来啊！”

那普叫的时候正好是在狙布的房间里，大家急忙从餐厅跑了过去。

“发生什么事了？”史佩莱问。

“你们快看呀！”那普高兴地说。

大家看到了什么呢？看到了小狙布竟然像个孩子似的，在“花岗宫殿”的过道上叉着双腿，悠闲地抽着烟。

“天啊！那可是我的烟斗！它怎么把我的烟斗拿去了？喂，好狙布，我的好狙布，拿去吧！我送给你了！抽吧！老兄！”

狙布很娴熟地喷了口烟，像是很满足似的。史密斯对狙布的行为倒不觉得奇怪，他甚至给大家举了很多例子，说一些受到驯养的人猿，会和人一样有烟瘾的。

自此，小狙布就有了自己的烟斗，而这个烟斗也曾是庞库那夫使用的。这只烟斗原来是吊在庞库那夫房间，靠近烟草的地方。最后被狙布拿了去，而且还自己装烟，自己用火炭点烟。

在猿猴里，想必已经没有比它更逍遥自在的了。

狙布和庞库那夫，原来就有着很好的感情，这下又有了共同的嗜好，感情也就更进一步了。

“也许它就是一个人。如果真有一天，它开口说话了，你会奇怪吗？”看着狙布“人模人样”的样子，庞库那夫经常问那普。

“不会，我觉得肯定不会。不过，它不和我们说话，我有时倒很奇怪。他真像人，就差说话了。”那普说。

“要是有一天，它突然对我说：‘庞库那夫，我们交换烟斗吧！’我肯定会觉得非常有趣。”庞库那夫又说。

“就是，只可惜它生来是个哑巴！”那普说。

九月初的时候，冬天已经过去了，大家又开始了正常的工作。庞库那夫和史密斯的造船工作进行得非常顺利。甲板差不多都铺好了，船身内部也用了一些完全适合的、经过蒸气熏弯了的肋材。

在林肯岛上，最多的就是木料了，为此庞库那夫还建议史密斯将船的内壁做成双层的。这样的话，船身也就更牢靠了。

史密斯无法估计当船驶入海里后会遇到什么情况，所以也很同意庞库那夫的意见，将船造得特别结实。

9月15日，船的内部和甲板都竣工了，为了将一些缝隙补上，他们用晒干的海藻做了填充，用锤子将海藻凿进了缝隙里，最后又在上涂了很多融化后的松脂。

他们造好的这只船开起来并不难。居民们首先将12,000斤重的花岗石放在了压舱室，最后又在压舱的石块上铺了一层甲板，让船的内部形成两间舱室。舱里有可当橱柜的坐板两条，还有支持两舱隔板的桅杆，而人也能通过两个舱口从甲板到舱里去。

做桅杆的树，庞库那夫没费多少工夫就找到了。那是一棵没有节疤的枞树，只需将顶部刨圆，将桅底砍成长方形即可。对于船上所用的桅杆、舵和船身用的木料，他们都是在“石窟”做好再拿过去的。

虽然这些材质很粗糙，但却结实耐用。10月的第一周的时候，居民们连帆架、桅柱、帆杠、圆材、桨等全都做好了。一艘完整的船停放在

了他们的面前，大家非常高兴，便提议去做一次林肯岛的航游，以便熟悉船的属性及检测它的不足。

在这期间，他们也没忘记做其他事。比如莫伏鹿羊和山羊又增添了小羊羔，为此，他们又加大了牲畜栏。还有蛤蜊场、养兔场、煤矿区和铁矿区，甚至连没有探索过的西遥森林的一些地方，他们也都走遍了。

在那里，他们不仅看到了一些不知名的飞禽走兽，而且还重新发现了一些土生植物。虽然他们“花岗宫殿”的蔬菜品种不少，但多一种蔬菜总归是没有坏处的。

除此之外，他们还发现了一些番杏科植物，它们长着肥厚的叶子，和好望角产的非常相似，也能食用，有些植物的种子里还含有很多淀粉。

新船下水试航是在10月10日。造船获得成功让庞库那夫神清气爽。在将船上的索具全部配齐后，他们用滚轮将船推到了水边。

潮水上涨的时候，居民们欢呼着，庆祝新船浮起来。在欢呼声中，庞库那夫的声音更加响亮，甚至有些得意忘形。

当然，造船虽然完成了，但他还有其他工作，比如调度指挥。在大家的极力推崇下，他高兴地接受了“船长”这个称号。

为了庆祝他当上船长，大家决定给船起个名字，最后经过一番商量后决定将船取名为“长风破浪号”。

当潮水将“长风破浪号”浮起来后，居民们发现它在水里很平稳，非常容易驾驶，于是便将试航放在了当天。

他们决定离开海滨，做一次林肯岛的全岛航行。

这天，天气晴朗，海面风平浪静，虽然当天刮的是西北风，但却丝毫没有影响他们到南部海滨一带去。

“大家都上船吧！”船长庞库那夫下了命令。动身之前，他们已经吃了早饭，但还是带了一些食物上船，因为这次航行到晚上才能回来。

史密斯和庞库那夫一样，也急于想知道新船的情况。这艘船的图样是他根据庞库那夫的建议设计的，但却没有庞库那夫那么信心十足。

虽然庞库那夫自从那次和他聊了想去岱波岛后，没再提过这事，但史密斯还是希望庞库那夫能完全打消这个念头。确实是，如果只有两三个人乘着这只载重不超过15吨的小船去冒险的话，他是无论如何也不放心的。

十点半的时候，包括多卜和狙布在内，全体成员都上了船。当赫伯特拔起陷入感恩河河口沙滩的铁锚时，表示这场新船试航开始了。他们将船帆升了起来，让桅顶飘起了林肯岛的旗号。这被称为“长风破浪”的新船，也在庞库那夫的驾驶下，向海洋出发了。

顺着联合湾吹来的风向，“长风破浪”向前行驶着。和庞库那夫说的一样，新船的速度非常快，其他人坐在这只既快又稳的船上感到非常满足。

在绕过拾箱角和兽爪角后，庞库那夫开始让船沿着荒岛南岸逆风而行。此时，船的航行状况非常好。

船的性能这么好，让居民们很高兴，因为这只船很可能以后会给他们带来很大的帮助，只要在风和日丽的时候出航，一定会很顺利的。

船在行驶到距气球港三四英里时，他们看清了海岛的全貌。从兽爪角到甩尾角，沿岸的景色一直在发生着变化。森林里深绿的枞树和其他树木的浅绿，形成了层次美，一眼看过去，到处都是绿茵茵的。这片绿和富兰克林山顶峰的白雪皑皑，又形成了鲜明的对比。

“太美了！”赫伯特忍不住大叫。

“是呀，我们的岛真是太美了。我爱它，就像爱我的母亲一样。想想我们刚来这里时的凄凉，再想想现在，我们这五个从气球上降落到这里的人还缺什么呢？”庞库那夫说。

“对！我们现在什么都不缺了，什么都不少，船长！”那普说。

于是，那普和庞库那夫大声地欢呼了三声，以示对林肯岛的爱意。

此时，史佩莱正靠在船桅上，描画着眼前的景象。史密斯则在一旁，默默地看着他。

“史密斯先生，你觉得我们的船怎么样？”庞库那夫问。

“看起来很不错！”史密斯说。

“那你说，这船能到比较远的地方航行吗？”

“想去哪儿呢？庞库那夫。”

“岱波岛，比如说去岱波岛。”

“朋友，当我们遇到紧急事情的时候，乘坐‘长风破浪号’去比较远的地方我很赞同。可你要去岱波岛，我真是不放心。既然不是非去不可，

为什么还要冒这个险呢？”史密斯说。

“没有人不想了解邻居的情况。岱波岛可是我们唯一的邻居，我们应该去拜访，这是礼貌。”庞库那夫认真地说。看来，他的想法丝毫没变。

“哟……我们的朋友庞库那夫，怎么一下子讲起礼节来了？”史佩莱说。

“我不是什么讲礼节！”庞库那夫不高兴起来，他对史密斯一直反对他很不开心，但他又不想让史密斯担心他。

“庞库那夫，你想想，我们怎么能让你一个人去岱波岛呢？”史密斯继续劝他。

“有个人陪我去就行了。”

“即使这样，原本的五个人，就有两个人要处于危险中。”史密斯又说。

“不是五个，是六个。还有狙布！”庞库那夫说。

“不对，是七个！还有多卜。”那普补充说。

“绝对不会有危险的，史密斯先生！”庞库那夫加重了语气。

“这都只能说是可能，可能有危险，庞库那夫。我想再说一遍，我们不能进行不必要的冒险。”

固执的庞库那夫没再说话，这件事也就在此暂告一段落。不过，庞库那夫并没有放弃，他在想着以后继续谈这话题。

不过，让他没有想到的是，没过多久后发生的一件事倒帮了他，去岱波岛这原本可去可不去的事情就变成非去不可了，而且是去做好事。

他们在向气球港的海岸行驶。因为那里的小溪很可能会成为一个停泊船只的海港，所以 they 要查看沙洲和礁石间的海峡。必要时，在那里布置浮标。

在离岸不到半英里的时候，他们迎着斜风调转方向前行。因为风将一部分高地挡住了，所以船行驶的速度开始减慢。此时，船上的帆无法鼓起，海面变得很平静，像镜子一样。只是偶尔因海风吹过，使海面形成涟漪。

船头上，赫伯特一直注视着海峡中的航行方向，突然，他大喊一声：“庞库那夫，按风向行驶，按风向行驶！”

“到底发生什么事了？有礁石？”庞库那夫问。

“不.....稍等一会儿，我现在还看不清楚，向着风.....往右.....”赫伯特嘴里说着，侧下身，伸手在海里捞起了一件东西，大声说：“有一只瓶子！”

他从海里捡起的是一只有着软木塞的瓶子，而他捞起这个瓶子的位置则在离海岸不到几锚链的位置。

史密斯从赫伯特的手里接过瓶子，打开来，从里面拿出了一张纸。纸已经被水浸透了。但还是能隐约看到上面写着：

遇难者.....岱波岛：西经153°，南纬37°11'。

第十三章

“岱波岛有遇难的人！离我们几百英里的岱波岛有遇难的人！天啊，史密斯先生，这下你还会反对我去吗？”庞库那夫激动地大声喊。

“嗯，庞库那夫，你去吧！尽快动身！”史密斯说。

“那明天去，你觉得怎么样？”

“好！就在明天吧！”

史密斯的手里一直攥着瓶子里的那张纸，在又仔细看了看后说：

“朋友们，根据这张纸上的措辞，我认为这个在岱波岛上遇难的人有着非常丰富的航海经验，因为他写出的岱波岛的经纬度和我们测出的完全一样，而且精确到了分。另外，他写的是英文，可见不是英国人就是美国人。”史密斯说。

“完全没错！而且这也就能解释我们为什么会捡到那只箱子了。既然有遇难的人，想必一定来过遇难的船。庞库那夫想着造船，现在我们在试航时又捡到了这个瓶子。不管这个遇难者是谁，都说明他的运气很好。因为如果不是今天的此时此刻，很可能瓶子就不会到达我们手里，而且很可能会撞在石头上撞得粉碎。”史佩莱说。

“确实是这样，在‘长风破浪号’正好航行到这里时捡到了它，没有比这还巧的事了。”赫伯特说。

“这件事你有没有觉得奇怪？”史密斯问庞库那夫。

“奇怪？我不觉得奇怪，我只是觉得凑巧而已。史密斯先生。瓶子是会漂到一个地方去的，它没有漂去其他地方，而是漂到了这里。”庞库那夫说。

“嗯，庞库那夫，也许你说得对，不过……”史密斯说。

“可是没办法知道这瓶子在海里漂了多久，对吗？”赫伯特又说。

“是这样的。这纸有些像是最近才写的。你有没有这么认为？”史佩莱说。

“判断不出来。看来，也只能以后才知道了。”史密斯说。

在他们说话的时候，庞库那夫已经开始掉转方向，扯着满帆，向兽爪角方向驶去了。

每个人都在想那个在岱波岛上遇难的人。现在他们去那里救他还来得及吗？这件事，对林肯岛上的居民来说，是一件大事。他们也是遇难者，幸运地在这里生活下去了，所以他们也想尽最大的努力来帮助遇难者。

绕过兽爪角，差不多已经到下午四点钟了，“长风破浪号”在感恩河的河口抛锚了。

当天晚上，他们开始为远征做准备。庞库那夫和赫伯特去岱波岛应该是最合适的，因为他们都懂航行。如果第二天，也就是10月11日起航的话，以目前的风势，150海里的航行距离，应该用不到48小时就能到达目的地，所以应该会在13日到达岱波岛。

这样，再返回林肯岛的时间，应该是在10月17日。

好在近来的天气很好，随着气温的上升，风势也比较平稳。一切好像都对两位勇敢的远航者有利。

原本打算让史密斯、那普和史佩莱留在“花岗宫殿”的，但史佩莱却不愿意，作为一名《纽约先驱报》的记者，他不愿意错过这次探险的机会，所以表示即使是游泳，他也要去。最终，他也被批准去参加这次远航。

到了傍晚，居民们开始把一些需要的东西往船上搬。所搬的物品中，不仅有够吃一个星期的食物，还有被子、生活用品、武器弹药和指南针。在将这些准备工作都做好后，居民们回到了“花岗宫殿”休息。

第二天，清晨五点钟，出行的人和留下的人开始依依惜别。在一番叮嘱后，庞库那夫扬帆起航，向兽爪角出发。他们首先要绕过兽爪角，然后再向西南方向前进。

已经离开海岸四分之一海里了，“长风破浪号”上的三个人还看到“花岗宫殿”的高岗上站着两个人在挥手，他们是史密斯和那普。

“朋友们！我们这还是15个月以来，首次分离呢！”史佩莱禁不住喊道。

三个人一起向高岗上的两个人挥手致意。不久，“花岗宫殿”就消失在了兽爪角的石壁之后。

这天上午，他们一直航行在林肯岛以南地带。但不久之后，再看林肯岛，便像是一只绿色的篮子浮在海面上了，处在海岛中央的变成了高高的富兰克林山。不过，再走过一些，那高山也变得小了起来，完全无法吸引住过往船只的注意了。在走了一个小时后，他们离甩尾角也已经

有10海里左右的路程了。

无法再看清延伸到富兰克林山山脊的西海岸了。三个小时之后，水平线下面，整个林肯岛都消失不见了。

“长风破浪号”的航行非常顺利，冲风破浪，飞快地向前行驶着。庞库那夫根据指南针，张起前帆，掌握着行驶的方向。赫伯特则和他轮流掌舵。赫伯特的掌舵情况也很好，让庞库那夫一点毛病都找不到。

史佩莱会时不时地和轮流掌舵的两个人分别聊聊，有时还会去帮着整一下绳索，庞库那夫船长对这两个业余水手感到非常满意。

傍晚到了，一轮新月出现在了苍茫的暮色中，很快又降落了。他们只有在16号才能看到上弦月。天黑了，星斗满天，这也意味着明天将是个大晴天。

庞库那夫非常小心地将前帆落下，以预防在满帆时，遇到夜风侵袭。虽然这天的夜晚很平静，他完全不用担心，但做水手时养成的小心谨慎的习惯，还是让庞库那夫不敢马虎。

史佩莱这天晚上睡了半宿。庞库那夫则和赫伯特两个小时轮一次班，轮流掌舵，轮流在舵旁休息。庞库那夫相信赫伯特，犹如相信自己一样。这个少年的沉稳和果断令他吃惊，同时也让他欣慰。

庞库那夫一直像船长指挥舵手一样地指挥着他，而赫伯特也出色地做着舵手，没有让“长风破浪号”的前进方位发生丝毫偏差。

航行的第一夜就这么平安地度过了，他们迎来了10月12日的白天。这天白天的情况也很顺利，一直在向西南方向前进。因为只有这个方向才能够保证他们不遇到别的海流，船只直接驶入岱波岛的视线范围。

行驶在海上时，他们依然没有忘记四下观察。海面上除了偶有信天翁或军舰鸟飞到枪弹的射程之内，看不到任何东西。史佩莱不禁想起了上次自己带信给《纽约先驱报》的那只信天翁。

在岱波岛和林肯岛之间，经常飞行的好像也就信天翁最多。

“这海面真是太寂寞了，没有比这更寂寞的了。现在可是捕鲸船到南太平洋的季节呀。”赫伯特说。

“也没你想象那么寂寞吧！”庞库那夫说。

“什么意思？我听不明白。”史佩莱说。

“怎么会寂寞？我们不是在海面上吗？难道我们这船不是船，我们是小鲸鱼？”

庞库那夫说着，自己倒先笑了。

傍晚时分，据他们估计，他们离开林肯岛已经差不多36个小时了，照每小时3海里到4海里的速度，应该航行120海里了。如今风势很小，说不定很快就要停下来了。尽管如此，如果他们航线准确，估算没错的话，应该在天破晓时，会看到岱波岛的。

在10月12日向10月13日过渡的这一夜，史佩莱、赫伯特和庞库那夫都没有睡着，他们激动地盼着天亮。

这次的冒险究竟会怎样？他们谁也说不清。他们真的快到岱波岛了？那个等待拯救的遇难人还在吗？遇难的是谁？林肯岛上的几个人一直很团结，会不会因为多了一个人而不团结了呢？遇难人会不会愿意换

个岛生活呢？

一切一切的问题，都需要他们明天来解答，所以他们根本无法安下心来。好不容易天亮了，他们的眼睛一齐看向西方的水平线。

“看，陆地！陆地！”清晨六点，庞库那夫发出了一声大喊。

庞库那夫没有看错，确实有块陆地在那里。“长风破浪号”上的伙伴们是多么高兴啊。很快，用不了几个小时，他们就能登上岱波岛了。

现在，他们离目的地还有不到15海里了。岱波岛的海岸比较低，比水面高不了多少。

此时，“长风破浪号”的船头冲向了海岛的南部，从东方冉冉升起的太阳正照向两处海峡。

“看看，这海岛没有我们林肯岛大。很可能和林肯岛一样，都是由地震形成的。”赫伯特说。

十一点钟，他们的船离海岛不到两海里了。庞库那夫小心翼翼地向前行驶着，寻找适合登陆的海岸。此时，他们已经能非常清楚地看到岱波岛了。岛上生长着很多大树，包括橡皮树，品种和林肯岛上的一样。

不过，让他们感到惊讶的是，岛上没有炊烟，整个海岸也不像有人生存。

可那纸条上明明写着有遇难者，而且那遇难者还在苦苦地等待营救。

此时，他们的“长风破浪号”已经穿过了礁石，并驶向了曲折的海

峡。庞库那夫让赫伯特掌舵，自己则站在船头，手里握着帆索，很小心地观察着每个拐弯的部分，随时准备下帆。

史佩莱拿出望远镜，焦急地向海岸看着。不过，他还是什么都没发现。

中午十二点的时候，他们的船身碰到了陆地，庞库那夫急忙抛下船锚，收帆登岸。

很明显，他们已经登上了岱波岛。因为根据最新的航海地图，已经没有其他岛屿在新西兰和美洲之间的太平洋上了。

由于担心退潮时，海水将船吹走，庞库那夫和两个同伴便将船牢牢地系好，随即向沙滩走去。他们想爬到半英里之外的一座小山上，那座山看样子有250至300英尺高。

“如果站在那座小山上，我们一定能看清海岛全貌的，然后再仔细搜索。”史佩莱说。

“是呀，在林肯岛上，史密斯先生也是爬上了富兰克林山，我们也要这样。”赫伯特说。

“没错，这是最好的办法。”史佩莱说。

三个人一边说，一边向那块小山走去。去小山会经过一片空地，空地上有成群的野鸽子和海鸥，在空地上空不停地盘旋着，情况和林肯岛差不多。空地的左边，他们看到的是一片丛林，丛林里有沙沙沙的声响，像是草叶在摆动，里面应该有其他动物。不过，岛上看不出有人。

到达小山脚下后，他们仅仅用了几分钟便爬上了小山。站在小山

上，他们环顾着四周。

这片海岛周围方圆不过6英里。就连海角、地岬、港湾和河流都能看到，整个海岛给人的感觉像是一个被拉长的椭圆。周围全是大海，没有陆地，更没有孤帆。

当然，和林肯岛不同的是，林肯岛有些地方肥沃，有些地方荒芜。而这里树木丛生，非常富饶。有两三座小山，但也不高。有条河流通过一片草地，流向了大海，入海的河口也很窄。远远看去，那条河流如同是斜躺在这条椭圆形的海岛上。

“这海岛可真小。”赫伯特说。

“是呀，对我们来说，是有些小。”庞库那夫说。

“好像……好像岛上并没有人。”史佩莱有些疑惑地说。

“确实是这样，根本就看不到有人的迹象。”赫伯特也说。

“我们下山吧，慢慢搜查。”庞库那夫说。

三个人一起下了小山，回到了停泊“长风破浪号”的地方。此时，他们决定先徒步在海岛上巡视一番，这样就不会落下什么地方了。当然，沿海滩走路并不难，仅仅只有几处大岩石挡路，他们只需绕过去就行。再向南前进时，他们惊动了一些海鸟和海豹。不过那海豹一看到他们，马上就跑进了水里。

“想必这里的海豹是见过人的，所以他们才会怕人，和当初看到的林肯岛上的海豹不一样。”史佩莱说。

走了大概一个钟头后，他们来到了小岛的南部，这里有一个突出的海角。再沿着西岸往北走，也是沙石海岸。沙石海岸的背后是茂密的森林。

他们花了四个小时，将整个海岛搜遍，不过，不管什么地方都没有住人的迹象，海滩上也没有人的脚印。

他们现在不得不承认，海岛上是没有人的，即使以前有，现在也没有了。当然，这让他们更奇怪，除非那纸条是几个月甚至几年前写的。现在，曾经在这岛上的遇难者已经得救了，或者是已经离开了人世。

庞库那夫、史佩莱和赫伯特做着种种猜测。这些猜测又有多少是对的呢？他们决定先到“长风破浪号”上去吃点东西，晚上再继续搜查。

吃完饭，已经是傍晚五点了，他们又进入到森林。

森林里的动物看到他们后四散而逃，逃跑的是一些家养的山羊和猪。由此可见，确实这里曾有捕鲸船来过，最后将猪和羊留在了这里，并在岛上繁殖了起来。赫伯特开始想着怎么捉它个一两只，然后带回林肯岛去。

此时，他们完全能确定这岛是曾经有过人了。接下来有更多的证据证明了他们的推断，比如森林里有树丛被踩成了路；有树木被斧子砍过；人类双手劳动的印迹也非常明显……

不过，那被砍的树木像是很多年前砍的，被砍过的地方已经长满了青苔，道路上全是荒草，很难看到树桩。

“我们现在确实能证明岛上有过人，而且能证明这人在岛上住过一段时间。不过，这是什么人呢？为什么会在这里？”史佩莱说。

“纸条上不是说，是遇难的人吗？”赫伯特说。

“当然，如果这人还在岛上，我们肯定能找到他。”庞库那夫说。

三个人继续向前搜寻，他们很自然地斜穿海岛，走向了通往大海河流的地方。

一路上，他们又陆续发现了很多有人住过的痕迹，比如那些长在林间空地上的植物，都是些可种植、可食用的蔬菜。

当然，看种植时间，应该也在很多年前。

这些植物的发现让赫伯特很高兴，因为这里有许多菊苣、胡萝卜、白菜……这些植物，他只需收集种子就能拿到林肯岛上去种植了。

“太好了！看来这些那普也会喜欢，对我们来说正合适。这次来这岛上，即使没有找到遇难的人，有了这些，也不算白来。老天对我们真是太好了！”庞库那夫说。

“确实不错！不过从这些被开垦过的地方看，岛上应该早就没人住了。”史佩莱又说。

“嗯，我也觉得应该是这样。不管什么人在这岛上，都不会不照料这些珍贵的农作物呀。”赫伯特又说。

“是啊！看来，遇难人是走了！我们现在只能这么假设。”庞库那夫说。

“但是……那纸条是很多年前的吗？”

“我想是的。”

“如果真是很多年前的，那么瓶子在海里漂了那么久，怎么会到林肯岛附近呢？”

“这很正常，没什么不可能的。天黑了，我看我们还是停止搜查吧。”庞库那夫说。

“好！我们回船去，明天继续搜查。”史佩莱说。

他们只能这样了。不过，当他们正打算返回“长风破浪号”时，赫伯特指着林间的一团黑影说：

“看，那里有所房子。”

三个人立刻向那所房子跑去。黑夜里，他们隐隐约约看到了一所用木板钉成的房子，房子上面是一层厚厚的防雨布。庞库那夫飞快地奔过去，推开了半掩着的门。里面空空如也！

第十四章

庞库那夫、赫伯特和史佩莱，进了那所处在黑暗中的房子，里面黑洞洞，静悄悄的……

庞库那夫连喊几声。

黑暗中没有应答，也没有声音。

庞库那夫点燃了一根小树枝。顿时，整所房子都被照亮了。屋里并不是什么都没有，房间最里面有个壁炉，壁炉非常粗糙，里面还有一些残余的灰烬和一些干柴。庞库那夫将燃着的小树枝扔进了壁炉，壁炉里的干柴噼里啪啦地燃烧起来。

仔细再看，他们发现房间里还有一张床，上面是凌乱而潮湿的床单。这都说明此处很久没人住过了。壁炉的一角有两把生锈的水壶，一只铁锅；房间的碗柜里放着几件水手的衣服，不过已经发霉了；桌子上有个锡饭盒，一本《圣经》，但也已经受潮；墙角放着一些劳动工具，比如一把铲子、一把鹤嘴锄、两支猎枪，其中一支猎枪已经坏了；一个架子上放着一些用过的火药、枪弹和几匣雷管。放这些的架子是用木板做的.....

所有的一切，上面都覆盖着厚厚的灰，那是成年累月留下的灰。

“没有人！”史佩莱说。

“是的，没有人！”庞库那夫说，有些失望。

“应该是很久没人住过了。”赫伯特说。

“应该是很久了。”史佩莱又说。

“史佩莱先生，我看咱们今晚不用回船了，就在这房子里住一晚吧！”庞库那夫说。

“没错！庞库那夫，如果屋主回来，看到我们，应该也不会赶我们走的。”史佩莱说。

“他不可能回来的。”庞库那夫摇头说。

“为什么这么说，你觉得他已经离开这个岛了？”史佩莱问。

“不！如果他离开岛的话，肯定会把这些武器和工具带走的，可他没有。你应该知道对于遇难的人来说，这些东西是多么珍贵。所以不会！不！绝对不会的，不会离开这岛的。”庞库那夫说完，停了一下，接着又说：“不，不会的！他没有离开。要是他自己造了只船离开了，那这些东西不会留下。他，应该还在岛上。”

“那么，他还活着吗？”赫伯特问。

“很难说，可能活着，也可能死了。如果死了，难道他会自己埋掉自己吗？不管怎样，我们至少应该先找到他的尸体。”庞库那夫说。

就这样，他们在岱波岛上的第一夜是在没有人住的房子里度过的。有壁炉，墙角也堆着干柴，足以维持房间的温度。当他们关上门后，三个人便坐在凳子上，谈了起来。

虽然他们说的话不多，但他们却想得很多。每个人都在想象着各种情况的发生，他们希望听到外面传来脚步声，更希望看到有人突然推门进来，站在他们的面前。

虽然这所房子已经被人遗弃了，但如果真发生了他们希望的情况，他们一定不会吃惊的。他们甚至随时都准备着和这岛上的遇难者握手，告诉他，他们是来救他的。

但是，他们没有等到脚步声，也没有等到有人推门进来。时间就那么一分一秒地过着。

这一夜对庞库那夫和他的伙伴们来说，绝对是漫长的一夜。整整一夜，就只有赫伯特睡了两个小时，而这两个小时的睡眠，也是因为他年

轻，正需要睡眠。

睡在床上，他们都在想着第二天的搜寻，想着第二天要搜寻完整个小岛，要连最隐蔽的角落也搜寻到。

庞库那夫的那些推论是正确的。房子被遗弃在这里，还有很多工具、武器和生活用品都留着，这一切都说明了一个问题——主人已经不在了。不过，即使是已经离开了人世，他们也要找到他的尸体，甚至给他举行一个正式的丧葬仪式。

天终于亮了。

三个人开始仔细地搜查这所房子。从房子周围的情况来看，此处非常适宜盖房子。因为它背后是一座小山，小山上长着五六棵形状漂亮的橡胶树。房子的前面是一片树林，中间是曾用斧子开辟过的宽敞空地，空地四周有着东倒西歪的木栅栏。空地通向海边，海岸向左是河口。因而，站在这所房前便能看见大海。

再看造房用的木板，很容易就能看出是用船壳和甲板做成的。很可能是有只破船漂到了这座岛的海岸上，有几人或一人逃生成功，用那只船的残骸盖了这所房子。

在房子里来回踱了很久的史佩莱，进一步证实了这个假设，因为他在盖房子的木板上，看到了一些模糊的字迹。那木板应该是遇难船只的外壳，上面写着：“大……不……”

史佩莱叫来了庞库那夫，庞库那夫看过后大喊：“大不列颠，这通常是船的名字，不过从这名字没有办法知道它是英国船还是美国船。”

“是英国船还是美国船倒都不重要，庞库那夫！”史佩莱说。

“是的。如果遇难船上的水手还活着的话，不管他们是哪个国家的人，我们都是要救的。不过我看在搜查前，还是先回‘长风破浪号’一趟为好。”庞库那夫说。

庞库那夫有些担心起自己的船来。如果岛上真有人，那船再被一些人占了，那么……想过后他又耸耸肩，觉得自己的这个担心有些多余。

当然，不管这种担心多不多余，庞库那夫还是希望能回船吃饭。况且这段路并不远，还不到一英里。

就这样，他们一边往停泊船的地方走，一边查看丛林深处，并看见了上百只山羊和猪在四处乱窜。

离开那所房子差不多20分钟后，他们来到了小岛的东边，看到“长风破浪号”仍然停在原地，船锚也深深地隐在泥沙里。

庞库那夫松了口气。这只船就像他的孩子一样，牵挂孩子的安危是一个做父亲的责任。

在船上他们好好地吃了一顿早饭。他们希望这顿饭能吃得饱饱的，这样就能坚持到中午再吃了。吃完早饭，他们继续搜查，这次搜查得非常仔细。

这座岛上的居民很可能已经离开了人世，所以他们这次是冲着找死人而不是找活人的想法而去的。

不过，搜查的结果同样让他们失望——他们一无所获。直到上午，他们找遍了覆盖小岛的密林，什么都没有发现。他们几乎能完全肯定，人已经死了，残骸很可能也被野兽吃了个干干净净。

“我看明天一早我们就动身回去吧！”在一丛枫树下，庞库那夫对其他两个人说。此时差不多有两点钟，他们需要休息几分钟。

“把遇难者的东西带回去也不错！不算亏心！”赫伯特说。

“是的，这些工具和武器可以充实我们的‘花岗宫殿’，补充枪弹和火药很重要。”史佩莱说。

“我完全同意！不过我们千万不能忘了，走时捉两头猪，这可是我们林肯岛上没有的。”庞库那夫说。

“还有收集菜籽！这样我们就能得到新旧大陆都有的蔬菜了。”赫伯特说。

“那么，我们最好能在岱波岛多待一天，这样就能把该带的东西都带上了。”史佩莱说。

“不必要，史佩莱先生。我觉得我们还是明天一早走为好，这样我们的风向就仍然是西面。我们来时很顺利，希望回去也能很顺利。”庞库那夫说。

“那好，我们不要浪费时间了。”赫伯特起身说。

“不会浪费时间的。赫伯特，你收集种子比我们在行，你去收集时，我和史佩莱先生就去捉猪。虽然我们有多卜，但也能想法捉几只的。”庞库那夫说。

于是，赫伯特去了生长农作物的地方，庞库那夫和史佩莱则去了丛林。

很多和猪差不多的动物在丛林乱窜，非常灵活，他们很难接近。在追了差不多半个小时后，终于把在密林里躺着的两头猪捉住了。可就在這時，他们听到了一阵呼喊声。声音是从海岛北边百米远的地方传来的，喊声中夹杂着恐怖的尖叫，完全不像是从人的嗓子里发出来的。

庞库那夫拔腿就跑，那两头正要被捆的猪趁机逃走了。

“那是赫伯特，赫伯特的声音。”史佩莱说。

“我们赶快去！”庞库那夫边喊边跑。

幸好他们跑得快，到了那里时，发现赫伯特正被一个野人按在地上。野人非常高大，像是巨型人猿。

庞库那夫和史佩莱一起扑向大怪物。庞库那夫本身就是大力士，史佩莱也是壮汉，所以很快就救出了赫伯特。他们将那野人按在了地上，牢牢地捆住。

野人挣扎了几下，但因为绑得很紧，也就不再动弹了。

“受伤了吗？赫伯特。”史佩莱问。

“没有受伤！”

“如果你被这个人猿伤了，那我们就……”庞库那夫还没说完，赫伯特便说：“他不是人猿。”

庞库那夫和史佩莱大惊，仔细一看被他们绑起来的怪物，果然，他是人，不是人猿。不过，这是什么样的人啊，样子凶残而可怕，可怕到无法形容。

当然，更令他们感到有些毛骨悚然的是，他好像已经丧失了人性。

此人披着乱蓬蓬的长发，长发垂及胸前，和胡须混在一起。一丝不挂的身上，仅在腰间围了一块破布。他有双指甲极长的大手，还有如同红木一样的皮肤，更有硬如牛角的双脚，他的眼里，闪现出的是野性。

这个已经不能称之为人的动物，却是真正的人。不过，这样的人兽，躯体内到底是人性多还是兽性多呢？

“你觉得这是人吗？或者曾经是个人？”庞库那夫问史佩莱。

“嗯！这是没有问题的。”史佩莱说。

“那么，他应该就是那个遇难者了？”赫伯特说。

“应该是这样的。不过，这个不幸的人好像已经完全丧失人性了。”史佩莱说。

记者史佩莱说得没错，这个遇难者曾经是个文明人，但孤独的野外生活，已经让他变成了一个野人，甚至更坏的是，他也许已经退化成人猿了。看看他紧咬的牙，那牙齿就和野兽吃生肉时的利齿一样，再听听他喉咙里发出的沙哑的声音……

他肯定已经丧失了所有的记忆，甚至已经忘记怎样用机械和工具，怎么点火了。从他灵活敏捷的举止来看，虽然体力发达，但智力却已经退化了。史佩莱问了他几句话，但他好像一点都不懂，甚至好像什么都没有听到。

不过，史佩莱从他的眼神中还是发现，他好像并没完全丧失理智。

做了俘虏的他，并没有挣扎，也没想着去挣脱束缚。是否他过去曾是个人，当生活将他变成了兽后，再一见到人，太过激动了呢？会不会他在见到人时，脑海里也闪过一些记忆，然后恢复了人性呢？要是给他自由的话，他会逃跑吗？是不是还要留在这里？这些都很难说。

史佩莱仔细打量了他很久，然后说：“不管他以前是什么，现在是什么，将来又会变成什么，我们都有责任将他带回我们林肯岛去。”

“是的，是这样的！我们要小心地照顾他，也许会让他恢复人的智慧。”赫伯特说。

“是呀，一个人的灵魂是不会消亡的。将一个人从愚昧中拯救出来，是一件很好的事。”史佩莱说。

庞库那夫不相信，摇了摇头，他怀疑是否真的能将这样一个变成动物的人又恢复成人。

“我们一定要试试，不管怎样都要试试，出于人道也要这样。”史佩莱又说。

确实，他们是教徒，也是文明人，拯救一个人是他们的责任。三个人都明白这点，而且他们深信，史密斯若是知道的话，也一定会这么做的。

“那就这么一直绑着吗？”庞库那夫问。

“放开他的脚的话，他还是可以走路的。”赫伯特说。

“那我们试试吧！”庞库那夫说。

于是，他们割断了绑在“野人”脚上的绳子，但绑着手的绳子并没放松。“野人”站了起来，却并没有逃跑的意思。

三个人走到了他的身边，他用冷酷的带有野性的眼神看了他们三个人一眼，好像丝毫不记得这是他的同类，至少应该是曾经的同类。他的嘴里发出了咿咿咿的声响。不过，他的外貌虽然非常野性，但却并没有反抗。

在史佩莱的提议下，他们将他带到了那所小屋，希望他在看到自己的东西时，能回忆起点什么。因为那所房子也许就像星星之火一样，可以点燃他人性的光辉，激活他麻木的灵魂。

那所房子离他们捉住“野人”的地方并不远，几分钟后，他们就站在了房子里。但那“野人”像是什么都不记得，对房间的任何东西都没有反应。

也许，这个可怜的人在最初来到这里的时候，还有些人性和理性。但长期在小岛上困守，孤独和恐惧将他变成了“野人”的模样。除了这些原因外，真的无法想象一个人会退化到如此的地步。

史佩莱想，也许当他看到火光时，他会有所反应的。因为当那熊熊的烈火燃烧起来的时候，那美丽的火焰，通常连真正的野兽也会吸引过来的。所以，当他们点燃壁炉里的柴火时，似乎真的引起了他的注意，不过很快，他转过身去，那瞬间闪现的智慧光芒又消失了。

显然，他们没有更快的让他恢复的办法，只能先将他带上“长风破浪号”。

将“野人”带上“长风破浪号”后，留下庞库那夫在船上看着他。

赫伯特和史佩莱继续上岸做他们未完成的工作。几个钟头后，他们回到了海边，带着那所房子里的遗物：工具、武器，以及挖到的蔬菜和收集到的种子，甚至还有不少野味和两头猪。

在上了船后，他们只等着早上涨潮，就能起锚开船了。

“野人”在前舱，非常安静，始终一言不发，像个聋哑人。

庞库那夫递给他熟肉的时候，他推开了。很明显，这些熟肉不对他的胃口。不过，当他看到庞库那夫将赫伯特打来的鸭子拿在手里时，却像野兽看见猎物般地夺了过去，狼吞虎咽地吃了起来。

“你们认为他会恢复人性？”庞库那夫不停地摇头。

“有可能的。只要我们细心地照料他，一定会的。是孤独将他变成了这个样子，从此以后，他不会再孤独了。”史佩莱说。

“就是，他太可怜了。他一定这样生活很久了。”赫伯特说。

“是啊！”史佩莱说。

“你们看他有多大年龄？”赫伯特问。

“这倒很难说。他满脸的浓胡须，根本看不清长相。不过应该不年轻了，怎么也有50岁左右吧！”史佩莱说。

“你发现没有？史佩莱先生，他的眼睛深深地陷了进去。”赫伯特说。

“是的，赫伯特。不过我想说的是，同他的外表相比，他的眼神中更显人性。”史佩莱说。

“唉！不管怎样，我们看着吧。我倒对史密斯先生对这个‘野人’有什么样的看法很感兴趣。我们本来要找的是人，结果带回去的却是个妖怪！不过好在我们尽力了。”庞库那夫说。

这一夜，平安度过。他们不知道“野人”有没有睡觉，不过，虽然他们已经完全解除了他身上的绳索，但他也没有动。他没有像真正的野兽一样，在刚刚被捉的时候，会有些发愣，但过一会儿，野性又会发作。

清晨，已经是10月15日了。一切都像庞库那夫说的，天刚亮，天气就发生了变化，风开始向西北吹，这对“长风破浪号”返回林肯岛是个好事。不过，这也让天气越来越冷，给他们的航行带来了困难。

他们是清晨五点钟开始起锚的。庞库那夫收起主帆，向着东北方向的林肯岛驶去。

第一天非常顺利，航行中没有什么意外，“野人”也很安静地待在前舱。也许他曾是个水手，船身的颠簸，会让他想起什么吗？想起他的职业？不过，他始终很安静地待在那里，好像一点都不觉得烦闷，只是有些惊讶的表情时不时地会表现出来。

第二天，风势变强了，北风也是越来越大，这使“长风破浪号”无法把握方向。庞库那夫不得不顺风而行，但一个海浪直接打在了船头。庞库那夫虽然没说什么，但这种情况还是让他有些许的不安——风势如果继续这么大，那么他们回林肯岛的时间，一定会比去岱波岛花的时间长。

确实是这样的。“长风破浪号”在海里已经行驶了两天两夜了，到了17日清晨，他们还是看不到林肯岛的影子。航行时快时慢，既无法让他们估算出走了多远，也不能确定这方向是否正确。

又过了24小时后，他们依然看不到陆地在哪里。狂风从迎面刮来，海上更是波涛汹涌。船上的帆被他们紧紧地收了起来，并不时地变换着方向。到了18日的那天，大浪竟然将“长风破浪号”全都卷了进去，如果庞库那夫不是让大家把自己绑在了甲板上，他们很可能被波浪卷走。

等到风浪平息下来，他们开始解绑在身上的绳索。让他们想不到的是，“野人”竟然上来帮忙了。他好像一下子恢复了水手的本能，手拿圆木，从舱口奔了出来，打穿了一块舷壁，使甲板上的水流了出去。等到船舱里的水全都流完后，他又不声不响地走回到自己的舱里。在他工作的时候，庞库那夫、史佩莱和赫伯特都惊讶地看着他。

他们的处境的确很困难，这也是庞库那夫最担心的。他们如果真在大海里迷失了方向，可能就再也回不到林肯岛了。

夜晚到来，越发地寒冷。差不多到夜里十一点钟的时候，风势有所减弱，大海也趋于平静。船身平稳下来，船速也加快了。

庞库那夫、史佩莱和赫伯特都没有睡觉，他们小心谨慎地四下看着。他们现在面临两个可能，一个就是他们离林肯岛不远了，破晓时很可能就会看到；另一种可能就是他们被海流带去了很远的地方，再也找不到正确的航线了。

庞库那夫是个乐观主义者，虽然有些烦躁，但也没有完全失望。他紧紧地握着舵柄，恨不得自己长一双能看破一切的眼睛。

深夜两点钟的时候，他猛地跳了起来，大声喊道：

“快看！光！光！”

确实是这样，有一点亮光在东北20海里外的地方亮起，那就是林肯岛。应该是史密斯燃起的火，为的是给他们指明航行方向。这样看来，庞库那夫的航线有些偏北。于是，他重新掉头，向有火光的方向驶去。

那是火，是燃烧在水平线上的火。但那火也像一颗启明星一样，照耀着他们前行的航线。

第十五章

“长风破浪号”航行了四天，终于在10月20日的上午十点，缓缓地向感恩河的沙滩驶去。

在林肯岛的史密斯和那普见天气变了，“长风破浪号”载着伙伴们又迟迟不归，很是不安。天一亮，他们便爬上了观望壁，在望眼欲穿中，看到了“长风破浪号”。

史密斯高兴地说：“他们总算回来了，谢天谢地！”

那普表现得更是高兴，甚至跳起了舞，他一边转圈，一边拍手叫道：“是呀！我的主人，他们终于回来了！”

史密斯在刚开始的时候，推测遇难者不在船上，因为他觉得庞库那夫他们很可能没有在岱波岛找到遇难者。或者就是找到了，那个人也不愿意离开岱波岛。

果然，甲板上只有庞库那夫、史佩莱和赫伯特三个人。

早早在沙滩上等着的史密斯和那普，在船刚一靠岸时便迎了上去说：“你们总算回来了，真把我们急坏了。朋友们，是遇到什么事了吗？”

“没什么意外。我们这次出航非常顺利，经过和情况，我们会慢慢告诉你的。”史佩莱说。

“不过，看来你们的搜索没有成功，去时三个人，回来时还是三个人。”史密斯说。

“对不起，史密斯先生，我们不是三个人，我们是四个人。”庞库那夫说。

“四个人？你们找到遇难的人了？”

“是的，找到了。”

“那……活着吗？”

“是的，他还活着。”

“可是……他……他在什么地方？是什么人？”

“他是……”史佩莱停了一下，又说：“准确一点说，他曾经是人，赛莱斯，我们能回答你的，只有这些了。”

随后，史佩莱便详细告诉了他们在岱波岛的搜查情况，并告诉他们岛上有长期无人居住的房子，以及最后他们怎么捉住了那个已经不像是人的遇难者。

“关键的问题是，我直到现在都不知道该不该将他带回来。”庞库那

夫说。

“当然要带回来了，庞库那夫！”史密斯回答得很快。

“可是……这可怜的家伙一点人性都没有，也不做人事。”

“也许现在是这样，但几个月之后，这个可怜的家伙就会和我们一样了。如果我们中的某个人长期孤独地生活在那样一个岛上，谁知道会变成什么样子呢？一个人孤单单地生活在一个荒芜之地是最大的不幸。朋友们，既然你们见到了那个可怜的家伙，就应该相信，孤独是很能摧残一个人的。”

“不过，史密斯先生，你怎么知道他是最近才变野蛮的？”赫伯特问。

“因为那纸条是最近才写的，而且很可能，写那纸条的就是这个遇难者。”史密斯说。

“会不会是他一个死去的伙伴写的？”史佩莱问。

“不可能，亲爱的史佩莱。”

“为什么不可能？”史佩莱又问。

“如果是这样的话，纸条上会说有两个遇难者，实际上那纸条上只说了一个人。”史密斯回答得很肯定。

接着，赫伯特又简单地叙述了他们在海上遇到的事，并说在风暴激烈时，那“野人”突然变成了水手，还帮助他们。由此也可以说明，那个人的脑子里曾经闪现过一些以前的经历。

“很好！赫伯特，你所观察到的这个细节，说明这个人并不是无药可治。他如今变成这样，是绝望导致的。现在，他遇到了他的同胞，既然他还有灵魂，我们就能拯救他的灵魂。”史密斯最后说。

当他们将岱波岛上那个“野人”从“长风破浪号”的前舱带出来时，史密斯非常同情他，而那普更多表现出的是吃惊。

不过，“野人”刚一上岸就想逃跑。

史密斯及时走了过去，将一只手轻轻地搁在他的肩膀上，样子威严、目光仁慈。“野人”像是受到了感染，马上安静下来。他垂下眼睛，低下头，没有了逃跑的举动。

“真是个可怜的人！”史密斯喃喃道。

史密斯长久地注视着这个可怜的人。从外表上看，他确实已经不像个人了，不过，和史佩莱一样，史密斯很快就从他的眼神中，看出了一种无法用语言来形容的智慧。

大家决定将这个遇难者，也叫陌生人，带到他们的“花岗宫殿”居住，并给他设了一间单独的房子。在那间房里，他是逃不出去的。

没有遇到任何的反抗，他们很顺利地将他带去了那里。他们想，经过一番细心照顾，很可能有一天，他也会像他们中的每个人一样，成为林肯岛居民中的一员。

此时，史佩莱、赫伯特和庞库那夫都饿坏了，那普急忙为他们准备午饭。吃饭时，史密斯又详细地听他们讲述了岱波岛的情况。他同意他们三个人的看法，觉得那个陌生人不是英国人就是美国人。之所以这么肯定，就是从那所房子木板上的“大……不……”这个名字联想到的。

同时，陌生人有着浓密的胡须和蓬松的头发，史密斯认为他很可能是撒克逊人。

“对了，赫伯特，你一直没和我们说你是怎么遇到那个‘野人’的。我们可是真不知道，当时如果不是听到你的呼救，匆忙去救你，你很可能就被他掐死了。”史佩莱说。

“哎呀！我也不知道是怎么回事，我就记得我正在收集种子，突然听到扑通一声，像是有什么东西从树上掉了下来。我还没来得及转身，那个不幸的陌生人，也许刚刚是藏在树上的，就突然扑在了我的身上，速度很快，比我现在说得还快。如果当时不是史佩莱和庞库那夫……”

赫伯特的话还没说完，史密斯便说：“我的孩子，没想到你冒了这么大的风险。不过，如果没有你这次冒的风险，说不定你们还找不到这可怜的人呢，那我们也就少了一个新伙伴了。”史密斯说。

“这么说，赛莱斯，你是想让他重新变成人吗？”史佩莱问。

“当然！”史密斯说，语气很坚定。

吃过饭后，他们重又走出“花岗宫殿”，将“长风破浪号”里的东西搬了下来。史密斯把所有的武器和工具都仔细地看了一遍，但怎么都找不到能证明陌生人身份的印迹。

从岱波岛上捉来的猪，是大家公认的对林肯岛最有用的东西。他们将猪送进了猪圈，希望它们很快在这里繁衍起来。

除了猪受欢迎，还有那两桶弹药和几匣雷管同样受到了居民们的欢迎。大家甚至开始商量要在“花岗宫殿”的外面或石洞里建一座小型的火

药库，这样的话就不用担心爆炸了。然而，就算是有了这些弹药，但他们制造的棉花火药还是要继续使用，因为它的效果丝毫不比普通火药逊色，所以没有理由淘汰它。

在他们将从岱波岛获得的东西都搬完后，庞库那夫说：“史密斯先生，我觉得我们应该将‘长风破浪号’放在一个稳妥的地方。”

“放在感恩河的河口不安全吗？”史密斯问。

“倒不是不安全，史密斯先生。放在感恩河口的话，有一半时间是搁在沙滩上的，时间长了船会受损。你应该知道的，这可是一艘上好的船，我们回来时，遇到那么大的海风大浪袭击，都安然无恙。”庞库那夫答道。

“让它浮在海里可以吗？”史密斯又说。

“当然可以，只是.....史密斯先生，在海里没有什么遮挡的，我怕刮东风的时候，‘长风破浪号’会长期遭受波浪的冲击导致受损。”

“那么，你觉得放在什么地方合适呢？庞库那夫？”

“我们把它放在气球港吧。这样的话，因为小河外有岩石挡着，正好可以做我们的港口。”史密斯说。

“会不会太远了？”

“不会的，离我们的‘花岗宫殿’不过3英里。而且我们还有条平坦的大道通到那里，所以不怕。”

“好吧！那就这样吧，庞库那夫！不过，我总是觉得放在附近会更

方便我们照顾。以后，等我们有空了，再筑个港口吧！”史密斯说。

“太好了！我们筑港口的时候，还要筑个灯塔、码头。啊！史密斯先生，我太激动了，只要和你在一起，就不怕办不到。”庞库那夫兴奋地大叫。

“勇敢的庞库那夫，我们绝对能做到，不过这也要靠你的大力帮助才行。在我们的所有工作中，你的力气，让你一人干了三人的活。”史密斯最后说。

于是，赫伯特和庞库那夫重新登上“长风破浪号”，拔锚起帆，去了兽爪角。两个小时后，他们将船停在了气球港那平静的海面上。

从岱波岛到这里的陌生人在“花岗宫殿”已经住了很多天了，居民们有没有觉得他的野性已经有所减少了呢？他那逐渐封闭的内心，是否已经开始打开？简单点说就是，他的灵魂回到他的身体上了吗？

答案是肯定的，而且回来得很快，让史密斯和史佩莱有时候简直无法相信这个不幸的“野人”曾经丧失过人性。在野外生活惯了的陌生人，当初在岱波岛时，曾完全无拘无束，所以当让他住在“花岗宫殿”的时候，开始时并不接受，经常一言不发地生闷气，居民们还曾担心他会从窗口跳下去。

慢慢地，他平静了下来，而居民们也给了他更多的自由。

他们完全有理由对他抱有希望，而且是很大的希望，因为陌生人已经不再茹毛饮血，他开始吃一些比他在岱波岛上所吃的食物稍稍文明点的东西，而且见到熟肉时，也不再排斥和反感了。

史密斯趁他睡着的时候，帮他剪短了头发和胡子。原有的胡子和头

发像鬃毛，让他的脸看起来更野蛮。当然，他当初那块遮体的破布已经不在，取而代之的是合适的衣服。

由于大家的耐心照顾，陌生人逐步恢复了人的样子，甚至连那凶恶的眼神也变得温和起来。毫不夸张地说，如果他曾经的智慧光芒回到脸上的话，他一定是个非常漂亮的，有魅力的男人。

每天，史密斯总会抽出几个小时和这个新伙伴在一起，并不断地在新伙伴面前做各种事，以吸引他的注意。

确实，史密斯的做法，如同星星之火，在陌生人的心底蔓延。

此外，史密斯经常会在他的面前大声说话，以便让他的听觉和视觉一起打开，进而打开他那封闭的内心。

不仅史密斯这么做，居民们也都在这么做。有时候是这个人，有时候是那个人，有时候他们全体出动。

在他面前，他们谈论最多的就是航海了。他们知道，一个水手最感兴趣的就是这样的话题。

从陌生人的一些反应中居民们发现，对他们的谈话，他是能听懂一些的。不过，居民们从他的表情中发现，他有时候显得很苦闷，也很痛苦。有好几次，他们甚至发现，他像是要开口说话，但最终还是什么都没说。

当然，不管怎样，这个可怜的陌生人还是沉默和忧郁的。

他沉默的原因是什么？只是表面沉默吗？他的忧郁呢？是因为孤独造成的吗？他们都无法确定。不过可以想象，在一定的环境下，每天看

到的事物很有限，接触的也仅仅是几个居民，他一定不习惯。不过也许很快他就会习惯和他们一起生活的，因为这里不缺吃，不缺穿，他的原始生活习惯一定会发生改变的。

他真会习惯这种生活吗？说句不好听的话，到时候，他会不会像动物被主人驯服后一样？这对居民们来说，是个非常大的问题。而这个问题的答案，也是史密斯急于想知道的。

不过，他现在仍然不愿意草率地对待他的朋友，同时也是病人。因为对他来说，陌生人就像是得病了，但到底会不会完全康复，他真的不知道。

史密斯随时都在关注着他。更准确地来说，他是在等待陌生人的灵魂回来，并随时帮陌生人抓住灵魂。当然，居民们对史密斯诊治的过程充满兴趣，并热心地希望能帮助史密斯诊治。

也许不久后，只有庞库那夫仍对能否治好他心存怀疑，其他人则会和史密斯一样，对治好他充满了信心。

正如前面所说，陌生人表现得很安静。有时候，他甚至对史密斯表现出了一种依恋。很明显，他感受到史密斯的作用了。于是，史密斯决定对他做一次试验。陌生人经常会注视海洋，所以史密斯想将他从大海面前带到森林去，他觉得那些绿树，也许会让他想起些什么。

“但是，我担心到了森林里后，他会逃跑！”史佩莱说。

“我正想试这一点。”史密斯说。

“这家伙呼吸到了新鲜空气，非撒腿就跑不可。”庞库那夫说。

“我不信他会这样。”史密斯说。

“那我们就来试试。”史佩莱说。

“试试看！”史密斯说。

这一天是10月30日。岱波岛上的那个遇难人在林肯岛的“花岗宫殿”已经待了九天了。这天阳光明媚，阳光洒在海岛上。

史密斯和庞库那夫一起来到陌生人住的房间，见他正靠窗躺着，凝望着天空。

“朋友，起来吧！”史密斯冲他说。

陌生人很快就坐了起来。他看着史密斯，然后跟着他往外面走。庞库那夫跟在他后面，对这次的试验不抱希望。

到了门口后，史密斯和庞库那夫帮他上了升降梯，此时的那普、赫伯特和史佩莱也已经在“花岗宫殿”外等着他们了。随着升降梯的下降，几分钟后，他们集合在了沙滩上。

居民们离陌生人远了一些，让他单独行动。

他快速向大海走了几步，脸上浮现出难得的光泽。不过，他并没有逃跑的打算，只是静静地看着被小岛隔断的、漫上沙滩的细浪。

“他看到的只是海，并不会让他产生逃跑的念头。”史佩莱说。

“是呀，我们应该将他带到高地的森林边缘，在那里做试验才能得出结论。”赫伯特说。

“即使想跑，他也跑不掉的，吊桥是吊起来的。”那普说。

“哦，这种人是不会将硝甘河那样的河当回事的，他只需一跳就能过去。”庞库那夫说。

“我们很快就会知道答案了。”史密斯简单地说完，看着陌生人的眼睛。

他们将陌生人带到了感恩河的河口，大家通过河的左岸，爬上了观望壁，到了森林的边缘。

这里树木茂盛，微风吹过，树叶发出了沙沙沙的声响。他们发现，陌生人深深地吸了一口气，贪婪地将大气里的芬芳吸进鼻孔。

居民们紧紧地跟在他的身后，随时准备等他逃跑时抓住他。

果然，陌生人好像准备跳进那条阻隔他到森林里去的河流。他蹲了下去，做出了纵身要跳的动作，但很快，他又退了回来。在一种迷茫中，有一颗大大的眼泪从他的眼眶里流了出来。

“啊！你流泪了，你回归本性了！”史密斯高兴地喊道。

第十六章

没错，这个可怜的人流泪了！

他的脑海里一定是想起什么事了，用史密斯的话来说就是，他所落

下的几滴泪，让他变成了一个人。

居民们走到了离他有段距离的地方，以便让他独自在高地上待会儿，让他感受到彻底的自由。不过，他好像并没打算要这种自由。

不久，史密斯将他重新带回“花岗宫殿”。

又是两天过去了，陌生人好像慢慢地愿意和大家一起生活了。更让居民们肯定的是，他在听他们说话，而且应该听得懂。当然，令大家奇怪的是，他还是不愿意和居民们说话，这也是能肯定的。因为有一天傍晚，当庞库那夫路过他房间时，听到他在自言自语：

“不！我！绝不！在这儿！”

庞库那夫把情况告诉了大家。

“看来，他的内心一定隐藏着一段痛苦的记忆！”史密斯说。

陌生人已经能在菜园子里干活了，而且是使用工具在干活。看到这种情况，居民们并没有去打扰他——想必他更愿意保持这种独来独往的个性。当有人走近他身边时，他会在倒退中不停地喘气，胸前起伏不止，仿佛肩上挑着沉重的担子。

为什么会这样？是悔恨吗？他们只能这么想了。有一天，史佩莱突然说：“我想，他之所以不和我们说话，说不定是因为事态严重，他说不出口而已。”

他们只能耐心地等待他开口。

又是几天过去了，这天是11月3日。陌生人在高地上干着干着，突

然停了下来，手里的铁铲掉落在地上。史密斯在不远处看着他，见他又流下了泪来，一种抑制不住的同情让他向陌生人走去，并轻轻地拍了拍他的胳膊，叫了声：“朋友！”

陌生人竭力想要躲开他的眼睛，史密斯想去握他的手，但他马上缩了回去。

“朋友！”史密斯又叫了一声，眼神和语气非常坚定。

“我希望你能看着我的眼睛！”

陌生人慢慢地将眼神转向史密斯。突然，像是有磁石吸引着他似的，在史密斯坚定而又充满智慧的眼神下，他内心高高堆起的围墙垮了。他瞬间有种想逃跑的冲动，但同时表情一变，眼睛里有东西在闪烁。他有很多话想说，他再也控制不住自己了。

终于，他将双手交叉，用沙哑而沉重的语气说：“你们是谁？”

“我们是和你一样的人，一群遇难的人。我们把你带到了我们中间，你的同胞中间。”史密斯充满感情地说。

“同胞？我……没有！”

“我们都是你的朋友！”

“朋友？我的朋友？”陌生人喃喃着，突然用双手捂住了脸，大声叫道：“不！不要！离开我！快离开我……”

他歇斯底里地喊着，向高地边缘跑去。在那里，他一动不动地站着，很久，很久。

史密斯回到了伙伴中，将刚刚发生的事情告诉了他们。

“看来，他一定是有什么秘密！很可能是个经过了忏悔，想要重新做人的人。”史佩莱说。

“我们到底带回来的是个什么人？他有着多大的秘密……”庞库那夫说。

“我们不要管他有什么秘密，我们要做的就是尊重他。不管他曾犯过什么罪，现在也已经用最痛苦的方式赎清了，我们不应该将他看成罪人！”史密斯打断了庞库那夫的话。

在海岸上，陌生人整整待了两个小时。他一定是在那里回忆过去，回忆他以前的人生。那无疑是悲惨的。

陌生人站在海岸上时，居民们的眼睛始终没有离开他，但也没有去打扰他。两个小时后，他像是下定了决心似的，走到了史密斯面前。

他的两眼红肿，但却不再流泪。他表现得极度谦卑，神情焦躁、腼腆、羞愧……

总之，他的眼睛始终看着地下。

“先生，你们是英国人吗？”他问史密斯。

“不，我们是美国人。”史密斯说。

“哦！”陌生人回应一声，随即又小心翼翼地说：“那还好！”

“那你呢？你是什么地方的人？朋友！”史密斯问。

“英国人！”他慢慢地说。

这三个字对他来说，说出来是那么费劲。说完后，他走到了海滩上，在瀑布和感恩河的河口处来来回回地走着，表现得极度不安。

当他走过赫伯特身边的时候，他站住了脚，用很低的声音问：“现在是几月？”

“11月。”赫伯特说。

“哪一年的11月？”

“1866年。”

“12年，12年了！”他哑着嗓音叫着，离开了赫伯特。

赫伯特走到大家面前，将他们的对话告诉了大家。

“唉！真是个不幸的人，连哪年哪月都不知道。”史佩莱说。

“是呀！在岱波岛找到他的时候，他已经在那里生活了12年了。”赫伯特说。

“天啊！12年！独自过着那样一种生活，整整12年，这会完全摧毁一个人的。”史密斯说。

“我也是这么想的。这个人会不会不是遇难，而是因为犯罪，所以被放逐在那里的？”庞库那夫说。

“很可能是这样的。庞库那夫。如果真是这样，那很可能放逐他的人，有一天也会将他接回去的。”史佩莱说。

“可到那时候，他们就找不到他了。”赫伯特说。

“是这样的，既然那些人还会去找他，那么……”

史密斯再次打断了他们的话：

“朋友们，在一切都没了解清楚前，我们就不要再讨论这件事了。我相信，那个可怜的人受尽了苦难，不管他曾犯了什么错，犯过多少错，他都已经用最可怕、最痛苦的方式赎清了。也许他是想要摆脱这种痛苦，所以才这么苦闷。我们不要逼他，不要逼他告诉我们他的过往。如果可以的话，我相信终有一天他会主动告诉我们的。等到我们知道的时候，就能决定怎么做了。再说，也只有他才会知道他对回到祖国是否还抱有希望。反正我是表示怀疑。”

“为什么这么说？”史佩莱问。

“因为有个问题，如果他肯定自己有一天会被救走，他怎么会扔那纸条？绝对不会。有可能的是，他是被判终身在那小岛上，所以他也没想过会重新看见同类。”

“不过……有一件事我还是想不明白。”庞库那夫说。

“什么事？”

“我在想，这个人要是在岱波岛上生活12年了，那么能够想到，他成野人应该也有很多年了。”

“嗯，很有可能。”史密斯说。

“那这就奇怪了，说明那纸条是他很多年前写的。”

“当然，不过那纸条上的字，像是最近才写的。”

“但那瓶子里的纸条，难道不是经过好几年才漂到林肯岛的吗？”

“对啊，这种可能也有。”史佩莱说。

“会不会这瓶子在林肯岛上已经很久了？”史密斯说。

“不会的。当我们捡起它来的时候，它在漂着。我们绝对不认为瓶子到了岸上一段时间后，又会被海水冲走，因为这是不可能的。南岸有那么多的岩石，很容易被撞得粉碎的。”

“是这样的。”史密斯若有所思地说。

“还有一点，如果那纸条是很多年前就写下的，想必在瓶子里一定封闭很多年了，一定会受潮的，可那纸条完全不是那种情况，它保存得非常好。”庞库那夫又说。

庞库那夫的观点完全正确，他说出了一个不争的事实，虽然这个事实很令人费解。因为他们捡到的那个瓶子，里面的纸条看起来就是最近才写的，而且纸条上还注明了经纬度，那就说明写纸条的人，显然并非一般的水手，而应该是有着丰富的水文学知识的人。

“现在有很多我们无法解释的问题，但我们也不要急于问他什么，等他愿意说的时候再说吧，朋友们。”史密斯最后说。

随后的几天，陌生人又恢复了他之前的沉默，也没去高地之外更远的地方。他只是不停地干活，一分钟都不休息。同时，他做事的时候，也是一个人躲在一边去干。更让居民们感到费解的是，他从不回“花岗宫殿”吃饭，即使是再三邀请他，他也不去，只是一个人吃些生蔬菜。

晚上的时候，他也不回自己的房间休息，而是待在树木丛生的地方。遇到不好的天气，他会蜷缩在岩石缝里。他依然和他在岱波岛时一样，要住在野外。居民们费尽心思和口舌，让他和大家一起生活，但他都不肯。居民们也就随他，打算等待时机再劝他。

果然，不久后时机就成熟了，受到良心驱使的他，勇敢地向居民们自白，讲了他身上发生的一件可怕的事。

那一天是11月10日的晚上八点钟，天已经快黑了。陌生人突然出现在了大家的面前。那时候，大家正聚集在平台上，像往常一样聊天。陌生人当时的眼中发出了异样的光，像是又回到了之前的野蛮时代。

看到陌生人的样子，史密斯和伙伴们都吃了一惊。看来，因为一段可怕的经历，让他在准备讲话时，牙齿发出了咔嚓咔嚓的声响，如同一个正发着高烧的病人在呢喃。

他到底是怎么啦？是因为看到同类，心里难受吗？是他不愿意过正常人一样的生活？是他还在留恋过去的野人生活？也许是的，因为他开始断断续续地说了。

“为什么？为什么要把我带到这里来.....为什么要让我离开我的小岛.....你们和我是什么关系？为什么要这样.....你们了解我吗？知道我是谁吗.....我做过什么，为什么一个人在那里.....你们知道吗？是谁告诉你们我不是被遗弃在那里的.....是谁说我是被判决老死在那里的？我的过去是怎么样的.....你们知道吗？你们知道我有去偷盗、去杀人.....你们是怎么判断我不是坏人的.....我只是一个该死的东西，不配活在人类生活中.....只配像野兽一样生活，你们知道吗.....告诉我，你们知道吗？”

居民们静静地听他说话，没有人去打断他的话。这些断断续续的话，像是直接从嘴里流出来的，不由自主地流出来的。史密斯走向他，准备安慰他几句，不过他却连连向后退，大声说：“不！不！我只想问你一句话，我到底有没有自由？”

“当然有！”史密斯说。

“那么……再见！”他大叫一声，像疯子一样逃开了。

那普、庞库那夫和赫伯特跟着他跑了过去，但到了森林边缘的时候，却不得不空手而归。

“我们应该由他去！”史密斯说。

“看来他不会回来了。”庞库那夫说。

“不！他一定会回来的。”史密斯肯定地说。

又过去了几天，陌生人还是没有露面，但史密斯始终认为这个可怜的人是会回来的，这是他的一种预感吗？

“悔恨加重了他的痛苦，他想过孤独的生活，这会压制他的野性，所以这也会是他野性的最后一次发作。”史密斯说。

在此期间，居民们的各项工作照常进行。牲畜栏和观望壁的工作一样多，因为赫伯特从岱波岛搜集了许多种子，他们要将这些种子播种下去。

菜园设计得很合理，居民们想让菜园获得丰收，所以一刻不停地用心照料，工作好像总也做不完。他们种植的蔬菜越来越多，必须扩充园

地。很多原来生长着杂草的空地，他们也想将其变成真正的麦田和蔬菜园。

幸好海岛有着大片的青草地，不至于让野驴饿肚子。同时，他们还将观望壁那被水环绕的高地变成了菜园。同时，他们准备将牧场迁到山冈以外的地方。因为牧场不用再担心猿猴和野兽的袭击，不需要重点保护了。

11月15日，居民们迎来了麦田的第三次收割。就在18个月之前，他们仅有一粒麦粒，18个月后，麦田越来越大。他们在第二次种下了60万粒后，收得了4000蒲式耳，而如今，他们已经收到了5亿粒麦子。

居民们的粮食充足，每年只需播种10蒲式耳，就能得到足够人和牲畜食用的粮食了。在11月份后半个月的时候，居民们在收割完麦子后，开始将庄稼变成粮食。当然，这时他们还只有小麦，没有面粉。想要把小麦变成面粉，他们还必须有一个磨坊才行。

瀑布曾被史密斯作为制毡的动力，而这次，他又打算用流向感恩河的瀑布作为磨坊的动力。

大家经过一番商量后决定，在观望壁上建一个简单的风磨。由于高地面临大海，所以经常会有海风吹过来，建风磨的难度并不比建磨坊大。

“我觉得呀，建风磨太有意思了，这会让我们周围的环境更美的。”庞库那夫说。

他们开始选择木料，制造风磨的骨架。做风磨所需的石头是从湖的北边找来的，至于风磨的风翼，则是用气球气囊上那没用完的布料做

的。

在制作之前，史密斯首先做了个模型，最后将磨坊的位置定在了湖岸上，也就是家禽场的右边。他们先用几根结实的料将一个扇轴支撑起来，然后又在上面安装了一个风磨的骨架，这样，风会带动机械转动，动力也就产生了。

他们的工作进行得非常顺利，对木匠工作很娴熟的那普和庞库那夫只根据史密斯的模型就能工作了。

没过多久，他们就在选定的地方建起了圆柱形的亭子。亭子的形状很像一个胡椒瓶，顶部尖尖的。中央轴上是被铁夹子固定的风翼，有四根。这些风翼和中央轴之间保持了一定的角度。很快，亭子里的各种机械，比如两块磨石、一只漏斗、一个振荡槽和一个筛粉机就全做好了。

两块磨石一块是固定的，另一块则可以活动；方形大木槽的漏斗是上面大下面小，为的是让麦粒漏进磨石；振荡槽是用来将麦粒灌进磨眼的；而那筛粉机则是为了筛出面粉，留下麸皮。

由于他们所用的工具很好，工作又没什么难度，所以很快就完成了。当然，之所以完成得这么好，是因为磨坊的机械原理太简单了。

这次建磨坊的工作，全体居民都参加了。12月1日，磨坊顺利建成。磨坊的设计很成功，做得也很成功。庞库那夫依然和往常一样，对自己的工作成果很满意。

“现在我们就等风了。风一来，我们的麦子就能磨了。”庞库那夫说。

“要等一阵好风来，庞库那夫，这风也不能太大。”史密斯说。

“不对，风越大，我们的风车才会转得越快。”

“不需要它转得太快。据估算，风翼每分钟转动的次数是每秒内走过的尺数的六倍时，磨坊就能达到最大的工作量了。和风每秒走24英尺，它能让风翼在一分钟内转动16次，所以转得再快就是浪费了，没有必要。”史密斯说。

“是这样呀，那真是太好了。这时东北方正好有微风过来，很快就能帮我们工作了。”赫伯特说。

居民们都在高兴地等着，等待面粉出来，等着品尝在林肯岛上吃的第一口面包。

他们没有耽误一点时间，马上就开工了。这天，他们早上磨了两三蒲式耳的小麦，第二天早上，“花岗宫殿”的餐桌上就摆上了面包。虽然也许是因为面没发好，不是很松软，但不管怎样，每个人都吃得津津有味，开心得无法形容。

在这期间，陌生人还是没有出现。史佩莱和赫伯特曾好几次去“花岗宫殿”附近的森林寻找，但都没有找到他，甚至连他的踪迹也没发现。

由于他长时间没有回来，居民们开始感到了不安。这里鸟兽众多，虽然他曾在岱波岛上像野人一样生活过，知道怎么生存下去，但如果他现在又变得像原来一样，过着野人的生活，并且兽性大发，那该怎么办呢？

但史密斯还是很坚定地说：“他会回来的，一定会回来的。”

史密斯一直在重复这句话，不过，他的伙伴们却并不这么想。

史密斯继续说：“当这可怜人还在岱波岛的时候，他只是孤零零的一个人。但现在他来了这里，他知道我们会等他。他既然有勇气告诉我们他过去的一部分生活，那么他一定会将他的全部生活告诉我们的，他是在忏悔，所以一定会回来的。而当他告诉了我们他全部的故事，他就永远也不会离开我们了。”

事实再次证明，史密斯是对的。

12月3日，赫伯特从高地离开，去湖的南岸钓鱼的时候，并没有带武器。因为在岛的这一部分，从来没有出现过野兽，也没有人想过会有凶狠的野兽存在。

在赫伯特去钓鱼时，庞库那夫和那普在家禽场工作，史密斯和史佩莱在“石窟”里制造小苏打。他们的小苏打已经用完了。

突然，庞库那夫和那普听到了一阵喊“救命”的声音。而因为“石窟”离出事地点远，史密斯和史佩莱刚开始并没有听到。

那凄厉的“救命啊！救命啊！”让庞库那夫和那普率先奔出了家禽场，一边大声叫喊，一边向湖边跑去。

他们的叫喊声也惊动了“石窟”里的史密斯和史佩莱，两个人也往湖边跑。

谁也没有想到，陌生人竟然冲到了庞库那夫和那普的前面，他纵身一跳，飞快地越过森林和高地间的硝甘河，并上了岸。

此时，赫伯特的面前正有一只凶猛的美洲豹。这只美洲豹的样子及

大小和他们上次在甩尾角打死的那只差不多。赫伯特吓了一跳，喊着救命，靠在了一棵树上，而野兽此时也一蹲身要扑过去了。

陌生人手里没有武器，只有一把刀，但他却猛地向野兽扑去。野兽见又有了一个敌人，而且是向它进攻的敌人，便马上掉转身，向陌生人扑去。

陌生人和美洲豹展开了一场搏斗。不过这场搏斗的时间并不长，灵活矫健的陌生人很快就用像钳子一样的一只手，掐住了美洲豹的喉咙。另一只手则紧紧地攥着刀，狠狠地刺入美洲豹的心口。即使美洲豹的利爪已经抓进了他的肉里，他也不顾。

美洲豹死了，陌生人狠狠地踢了一脚野兽的尸体后准备离开。赫伯特缠着他，不让他走，并不停地嚷嚷：“不！你不能走！不要走！”此时，其他居民也赶到了。

史密斯走向陌生人。陌生人的衬衫都被美洲豹撕破了，肩膀上流着血，但他却像不知道一样。在看到史密斯后，他皱了皱眉头。

“朋友，你冒着生命危险，救了我们孩子的命，我们欠你人情。”史密斯说。

“生命？我的生命一文不值，算不了什么。”陌生人喃喃道。

“你受伤了。”

“没事！”

“把你的手伸给我可以吗？”

赫伯特说着，想用手去拉刚刚救了自己性命的恩人的手，但陌生人却很快地躲开了，沉着脸，胸前不停地起伏。

“告诉我，你们是谁？”陌生人说。

这是他第一次要居民们讲他们的事，很可能他在等他们讲了自己的事情后，他再讲自己的故事。

史密斯简单地说了他们如何从里士满逃出，又怎么降落到此地，更说了他们是怎么靠努力拥有了现在的财富。

陌生人认真地听着，听得聚精会神。

讲完后，史密斯又把史佩莱、赫伯特、庞库那夫、那普，以及自己都介绍给了他。最后又说，自从到了林肯岛，让他们最感到高兴的事就是从岱波岛回来时，有了一位新朋友。

陌生人在听他说了“新朋友”三个字后，脸一下子红了，一脸的恐慌不安。头越垂越低，垂到了胸前。

“知道我们是什么人了，能不能和我们握握手呢？”史密斯又说。

陌生人摇摇头，用沙哑的声音说：“不！不！不能！你们是好人的，可是我……”

第十七章

陌生人没有说完的最后一句话，证明了居民们此前的猜测是对的。他确实有过一段痛苦的往事，而这往事又是和作恶有关。他在赎罪，但自己却怎么都无法宽恕自己。

无论此人之前做过些什么，但他现在已经感到了惭愧，他要忏悔。当居民们热情地和他握手时，他却觉得自己不配。不过，经过了美洲豹事件，他没再回森林，甚至连“花岗宫殿”以外的地方都没有去。

他人生中最大的秘密是什么？他以后会说出来吗？

在这一点上，大家的意见相同——在他不说的时候，绝对不问，以此让他毫无顾虑地和大家生活在一起。

生活还和之前的每一天一样，这样持续了几天。史密斯和史佩莱一直在一起工作，他们有时是化学家，有时又是实验家。史佩莱通常也只有在和赫伯特出去打猎时才会离开史密斯。春秋时分，森林里的动物一定不会少，他们必须随时当心，不能再单独行动了。那普和庞库那夫的工作是在厨房或家禽场，有时也在牲畜栏，他们从来没有空闲的时候。

陌生人依然单干，他再次恢复了刚到“花岗宫殿”不久后的生活，不和大家一起吃饭，睡觉在大树底下，绝对不和居民们联系。居民们想让他和大家在一起过集体生活，但这对他来说好像是难以忍受的。

“既然如此，又为什么要写纸条，还把装纸条的瓶子扔进大海要人们去救他？”庞库那夫说。

“对于这件事，他一定会解释给我们听的。”史密斯老是说这样一句话。

“什么时候会解释给我们听呢？”

“也许会比你想象的早，庞库那夫。”

确实是这样，陌生人离自己主动坦白的时间已经不远了。

12月10日的时候，也是陌生人重回“花岗宫殿”附近一周后，史密斯看见他走过来，用平静而谦逊的语气说：“先生，我请求您一件事好吗？”

“有什么事就说吧，不过我要先问你一个问题。”史密斯说。

陌生人听了这话，脸瞬间又涨红了，慢慢地开始后退。史密斯知道他心里在想些什么，看来，他是怕史密斯问起他的过去。

史密斯没让他走，拦住了他。

“伙伴，你不仅是我们的伙伴，还是我们的朋友，我希望你能明白这一点。好了，现在还有什么要说给我听的，请说吧。”

陌生人一下子捂住了眼睛，浑身开始颤抖，一时竟说不出话来。

“先生，我请求您，请您答应我一件事。”好一会儿，他开口道。

“说吧，什么事？”

“你们有个离这儿四五英里的牲畜栏。它们需要照料，能让我去那里吗？”

史密斯同情地看着他，好一会儿才说：“朋友，牲畜栏里的牲畜棚是住牲口的。”

“那里最适合我，先生。”

“朋友，你是自由的，做任何事我们都不会限制。你愿意去牲畜栏住，也行。不过，我们的‘花岗宫殿’也随时欢迎你。还有，既然你要住到那里去，那我们必须先给你整理一下，让你舒舒服服地去住。”史密斯说。

“你们不用管，我自己会安排的。”

“朋友，这件事怎么做合适，你应该让我们去决定。”史密斯说。他对陌生人，总是用“朋友”这个亲密的称呼。

“谢谢您，先生！”陌生人轻声说完，转身走了。

史密斯把陌生人的想法告诉了大家，大家商量后决定给他在牲畜栏盖间木头房子，一间住着舒服的房子。

当天，居民们便拿着工具去了。不到一个星期，那间木头房子就盖好了，只等陌生人搬进去。这房子离牲畜棚大概只有20英尺，此时的牲畜栏里已经有80多只羊，他住在那里照顾起来很方便。

为了让木头房子更适合人居住，他们还做了一张床、一张桌子、一条凳子、一只碗柜、一只箱子。另外还把一支枪、一些弹药和工具放在了牲畜栏里，以供陌生人使用。

在居民们给他造房子的时候，陌生人正在高地做事，他并没有看到他的新居。他想把他在高地上未完成的工作做完。经过他的劳动，高地已经被全部翻松，只等着播种了。

12月20日，牲畜栏里的房子完全收拾好了。史密斯告诉陌生人，他

想什么时候搬过去都行，陌生人说他晚上就搬去。

这天傍晚，居民们和陌生人都聚在了“花岗宫殿”的餐厅。此时是晚上八点钟，由于担心陌生人因为他们都在而感到不舒服，居民们便去了大厅。

他们坐在大厅聊了几分钟后，突然听到有人轻轻敲门，接着陌生人就走了进来。他没有任何开场白，直接说：“诸位先生，在我离开大家之前，我想告诉你们我的过去。你们应该知道我的过去。”

陌生人的几句话让居民们很是感动。

史密斯起身说：“朋友，我们并没要求你一定要告诉我们，你有权不说。”

“不，我应该让你们知道。”

“那么坐下说吧！”

“不，我要站着说！”

“好吧，说吧！”史密斯说。

陌生人站在了一个光线暗淡的角落，他的头上没戴帽子，双手交叉在胸前。像是在下决心，他深吸了一口气，然后用那略带沙哑的嗓音说了起来。在叙述的过程中，居民们中没有人去打断他，以下就是他所讲的——

1854年12月20日，有艘豪华游船“邓肯号”停在了白洛夷加，它在澳大利亚西海岸南纬37°。“邓肯号”是苏格兰贵族格莱拉弗爵士的游船。

游船上除了有格莱拉弗爵士和他的夫人外，还有一名英国陆军少校、一名法国地理学家，以及两个孩子，这两个孩子是格兰特船长的儿女。而就在一年前，格兰特船长和他的水手们在“大不列颠号”船上失踪了。

“邓肯号”上的船长是约翰·麦盖尔，这艘船上的水手共有15个人。游船之所以要在澳大利亚海岸停靠，是因为在六个月前，当“邓肯号”航行到爱尔兰海时，捡到了一个瓶子，瓶子里有个纸条，纸条上用三种语言——英文、德文和法文说“大不列颠号”遇险了，格兰特船长和他的两名水手还活着，落难到了一个海岛上。

纸条上注明了落难海岛的经纬度。

不过可惜的是，纸条上的字只能看到纬度，经度被海水浸湿，看不清楚了。

虽然只看到了纬度37°11'，但如果沿着37°线前行的话，不管是大陆还是海洋，最终都是能找到格兰特船长和那两名水手落难的海岛的。

虽然“邓肯号”将此事汇报给了英国海军部，但英国海军部却迟迟没有去寻找。于是，格莱拉弗爵士决定去寻找他们，并很快将格兰特船长的一对儿女玛丽和罗伯特·格兰特接了过来，带着两个孩子和自己的家人，沿着纸上所写的纬度前行。

“邓肯号”在离开格拉斯哥后，没有停歇地经过麦哲伦海峡，进入到了太平洋，最后到了巴塔哥尼亚。

刚开始的时候，格莱拉弗爵士一直以为格兰特船长和两名水手是被当地的土人掳去了。

“邓肯号”在到了巴塔哥尼亚的西岸时，船上的一行人登陆后去打

听，一直打听到东岸的哥兰黛角。游船从西岸驶到东岸后，没有打听到结果的一行人又上了船。

“邓肯号”沿着37°线，横穿巴塔哥尼亚，依然毫无线索。

11月13日，“邓肯号”又驶向了大西洋，一路上继续寻找。他们途经特李斯坦达昆雅群岛和阿姆斯特丹群岛，但都没有找到。直到1854年12月20日，“邓肯号”到了澳大利亚的白洛夷加。

原本格莱拉弗爵士是想像他们以前穿过美洲那样穿过澳洲的，所以船上的一行人又登了陆。为了打听到格兰特船长的消息，他们去了离海岸几英里之外的一个爱尔兰农场，农场主很热情地接待了他们。

格莱拉弗爵士向农场主问起了格兰特船长的消息，问他在一年多前，有没有听说有个叫“大不列颠”的三桅船，在澳大利亚西海岸沉没了。

爱尔兰农场主说他没有听说过，但他的一个仆人却突然站出来说：“阁下，这真是太巧了，要是格兰特船上还有人活着的话，一定會在澳大利亚一带。”

格莱拉弗爵士便问那仆人是誰。

仆人说：“阁下，我是苏格兰人。我曾是格兰特船长手下的水手，是‘大不列颠号’船上的幸存者之一。”

格莱拉弗爵士非常高兴，也看了他所提供的证明文件，证明他确实是“大不列颠号”的水手，叫阿埃童。不过在船触礁时，他和格兰特船长被分散开了。原以为船长和其他水手都死了，自己是“大不列颠号”上的唯一幸存者。

“不过，沉船的地方不是澳大利亚西岸，而是东岸。如果纸条上说的是真的，格兰特船长还活着，那么一定是被当地土人掳去了，我们只要去东岸找就行了。”仆人说。

仆人的样子给人的感觉很真诚，说出的话也没有什么漏洞。而那农场主也说，他雇用此人也是在一年多以前，这仆人既忠诚又老实。

格莱拉弗爵士相信了他，并决定听从他的意见，循着37°，横穿澳大利亚去寻找。

最后，格莱拉弗爵士还和他的夫人、格兰特船长的两个孩子、一名陆军少校、一名法国地理学家，还有麦盖尔船长及几个水手组成了搜寻小组，请阿埃童做他们的向导。

而就在此时，“邓肯号”出现了问题，去了墨尔本修理，随船负责的是大副汤姆·奥斯丁。

阿埃童则带着一行搜寻人员出发了，那天正好是1854年12月23日。

需要说明的一点是，阿埃童确实是“大不列颠号”的水手长，但却是个叛徒。他的叛变只是因为和船长格兰特发生了争吵，随即便煽动水手和他一起叛变，想要将船抢过去。

当然最后他没有得逞，并在1852年4月8日，被格兰特船长丢在了澳大利亚的西海岸，格兰特船长他们开船走了。

这种做法按海上的规矩来说，并没有错，但这个叛徒却很愤怒.....

实际上他并不知道“大不列颠号”遇险了，他只是在听格莱拉弗爵士

说了后才知道的。

此时的他，早已经不是水手长阿埃童了，他已经成了一群逃犯的头目，而且化名为本·吉奥兹。他之所以要去做格莱拉弗爵士的向导，就是想把他们引到自己的地盘，然后抢走“邓肯号”，并用“邓肯号”在太平洋上做海盗。

.....

陌生人说到这里的时候，停顿了一下，声音开始颤抖，接着说——

这群搜寻人员让阿埃童做向导横贯澳大利亚，怎么可能不倒霉？而就在那时候，阿埃童已经串通好几个手下，跟在了他们身后。

“邓肯号”到了墨尔本后就去修理了，阿埃童决定引诱格莱拉弗爵士让“邓肯号”离开墨尔本去澳大利亚东岸，因为对他们来说，在那里打劫船只更容易。

因此，阿埃童将搜寻人员引到了离东岸不远的一片大森林，让爵士进退两难，然后他又假装出主意，让爵士写信给“邓肯号”上的大副，让“邓肯号”驶到东岸的杜布湾去，还说他可以送这封信。

格莱拉弗爵士确实让人写了信，而这叛徒也以为自己的阴谋进行得很顺利。因为只要“邓肯号”驶进了杜布湾，他们就能毫不费力地将它抢过去，并将这些人全部杀光。

这样的话，他本·吉奥兹也就成了海上一霸了。

不过，最终老天爷开眼了，没让他实现可怕的阴谋。

阿埃童去了墨尔本，并将信交给了大副汤姆·奥斯丁，见了爵士信的大副也开始起航了。不过，等到过了一天，阿埃童才发现那船并不是驶向他想要去的目的地，而是在向新西兰的东岸前进。

可以想象，阿埃童是多么失望和懊恼。

他想要去拦大副，但大副却将爵士的信拿给他看。他发现，信上果然写着新西兰东岸。原来，写这封信的那位法国地理学家出现了失误。

就这样，阿埃童的计划落空了。他气急败坏，想一个人直接抢船，没想到很快被制服，并被戴上了手铐脚镣，带到了新西兰海岸，而他的同党和格莱拉弗爵士并不知道发生了什么。

“邓肯号”一直在新西兰海岸待到了3月3日，阿埃童在听到轰隆隆的炮声时才知道，是格莱拉弗爵士一行人上船来了。

原来，格莱拉弗爵士经过重重险阻，穿过了森林，到了澳大利亚东岸的杜布湾，在发电报到墨尔本后，才得知“邓肯号”没有去杜布湾，还说“邓肯号”18号就起航了，目的地不清楚。

格莱拉弗爵士意识到情况不好，并认为游船肯定是被本·吉奥兹抢走了，甚至已经沦为海盗船了。

当然，即使这样，格莱拉弗爵士还是没有放弃寻找格兰特船长，他是一位勇敢而充满爱心的人。他搭上了一辆商船，沿着37°线，横穿新西兰，向新西兰西岸驶去。虽然没有发现格兰特船长和他的水手们，却知道了“邓肯号”在新西兰东岸，这不能不说是老天的安排。

“邓肯号”依然在大副手里。而那时，“邓肯号”在那里已经等了整整五个星期了。

那一天是1855年的3月3日，格莱拉弗爵士上了“邓肯号”后，将阿埃童叫过去审问。阿埃童开始时不愿意说，爵士告诉他，如果他不说不说，那在下一次靠岸时，就将他交给当地的英国官方，阿埃童依然什么都不说。

不过在“邓肯号”继续沿着37°线航行的过程中，阿埃童被格莱拉弗爵士夫人感化了。他答应把一切都说出来，但有个条件，就是格莱拉弗爵士不要把他交给英国官方，把他遗留在太平洋的任何岛上都行。

格莱拉弗爵士急于知道格兰特船长的情况，也就答应了。

就这样，阿埃童向爵士讲述了他和格兰特船长的事，但在格兰特船长将他留在澳大利亚海岸之后，又发生了什么他就知道了。

最终，格莱拉弗爵士实践了自己的诺言，“邓肯号”也继续前行，最后到了岱波岛。他们原计划要将阿埃童留在那里的，没想到在那里找到了格兰特船长和他的两名水手，这不能不说是个奇迹。

其实也很正常，因为这岛就在37°线上。

于是，那个叛徒恶棍就被留在了那个荒凉的小岛上，而原本在岛上的格兰特船长和其他两个人则离开了。在他们离开前，格莱拉弗爵士说：“阿埃童，你在这里是不会与任何人取得联系的。这里远离任何一个陆地，所以你逃不掉。将你遗留在这里，是让你想想自己的良心在哪里，这只有上天知道。你不会消失，也不会被遗忘，就像格兰特船长一样。当然，虽然你不值得人去怀念，但我们会记得你，知道你在什么地方，也会知道什么时候来接你。我一定不会忘记来接你的！”

“邓肯号”扬帆起航，消失在了水平线上，那天是1855年3月18日。

阿埃童被孤零零地留在了那里，虽然他不缺火药、武器、工具和种子，而这一切，都是格兰特船长和那两名水手留下的。

格兰特船长在岛上盖的那所房子，他也可以居住。也就是说，他只需在孤独和寂寞中赎清自己的罪恶。

.....

“先生们，他很痛苦，为自己犯下的罪恶而后悔、羞耻。他无数次对自己说，他一定要配得上在人群里生活时，才会在有一天人们来接他时离开。这个恶棍受到了惩罚，受尽了无数的折磨。他想通过自己的辛勤劳动，改造自己，重新做人。他每天祷告，想通过每天的祷告来悔过自新。两年过去了，三年过去了，时间在一分一秒地过着。在孤独中，他学会了谦恭，他期待水平线上出现船只，他不停地问自己，自己是否已经赎清罪了，他已经吃尽了人间的苦难。想想看，对在忏悔中煎熬的人来说，孤独是多么可怕！”

“不过，看来上天觉得对他的惩罚还不够，慢慢地又将他变成了一个野人，让他觉得自己有了野性。

“他不知道用了多久让自己变成了那个样子，可他最终还是真的变成了被你们找到的那个可怜可悲的家伙！”

“你们现在应该知道了吧，我就是那个.....阿埃童·本·吉奥兹。”

阿埃童讲完了，居民们也都听完了，他们都站了起来。他们无法形容自己的内心，那故事是多么悲惨，又是多么的沉痛和绝望啊！

史密斯开口了，他说：“阿埃童，你是曾犯下了罪行，而且是很大

的罪行，但那是过去。现在上天觉得你的罪恶赎清了，所以你才回到了我们身边，这就是一个证据。阿埃童，你得到了宽恕！现在，你还愿意和我们做伙伴吗？”

阿埃童连连后退几步。

“握握手吧！”史密斯说。

阿埃童抓住了史密斯伸过来的手，眼泪汨汨地流了出来。

“你愿意和我们住在一起吗？”史密斯又问道。

“让我再独自待一段时间好吗？史密斯先生，让我一个人住在那牲畜栏里吧！”阿埃童说。

“你愿意怎样就怎样吧！阿埃童！”史密斯说。

阿埃童正准备离开，史密斯又问了他一句：“朋友，我想再问一个问题，既然你想独自生活，为什么又要写纸条扔在海里，让我们去找你呢？”

“纸条？什么纸条？”阿埃童连问两遍，有些不明白是什么意思。

“我们之所以去找你，是因为捞到了一个瓶子，瓶子里有张写有岱波岛正确位置的纸条。”

“没有！”阿埃童摇了摇头，想了一会儿，又说：“没有！我从没写过什么纸条，也没有扔瓶子到海里。”

“从来没写？”庞库那夫又问了一句。

“没有！从来没写。”

阿埃童说完，向大家鞠了一躬，然后走到了门口，离开了……

第十八章

赫伯特紧跟着跑到门口，见阿埃童已经在升降梯里了。很快，他消失在了黑暗中。

赫伯特回到屋里，带着同情的语气说：“他真可怜！”

“他终有一天会回来的。”史密斯说。

“怎么回事？史密斯先生，难道那瓶子真的不是阿埃童扔的？不是他扔的，那纸条是谁写的？”

是的，这确实是个令他们难以理解的事情。

“很可能就是他扔的，只是这个可怜的人不正常，自己不知道而已。”那普说。

“对！他肯定是不记得自己做过什么了。”赫伯特说。

“这个问题我们不妨这么想，朋友们，也许，他能够知道岱波岛的准确位置，因为那时他还没有被遗留在岛上，还没发生之后的事。”史密斯说。

“不过，要是他写纸条的时候，他还没有变成一个野兽，那就是说他是七八年前扔的那瓶子。但那么长的时间，为什么瓶子里的纸条没有潮湿呢？”庞库那夫说。

“那很可能是阿埃童记错时间了，他变成野兽是以后的事情。”史密斯又说。

“也只能这么想了，不然真没办法解释。”庞库那夫说。

“确实，已经没办法解释了。”史密斯说，他好像并不想继续纠结这个问题。

“但是，我们能相信阿埃童说的话吗？”庞库那夫说。

“相信！我相信他所说的故事的真实性。格莱拉弗爵士乘着游船远行，以及远行的结果都上了报的，我现在还能记得。”史佩莱说。

“对！阿埃童说的一定是真的。不用怀疑，庞库那夫，这会让他更痛苦的。人在反省、谴责自己的时候，不会说假话的。”史密斯说。

12月21日，居民们走出“花岗宫殿”，爬上高地时却并没有看见阿埃童。而他回到牲畜栏附近的木屋时，已经是深夜了。居民们打算不去打扰他。让他主动从自责中走出不容易做到，但时间一定能让他做到。

赫伯特、庞库那夫和那普继续做他们平常做的工作，史密斯和史佩莱也回到“石窟”去做他们原来进行的工作。

“亲爱的赛莱斯，你昨天并没有对瓶子里纸条的事做出满意的解释。我不明白的是，你怎么会说是那可怜的人自己写了纸条，装进瓶子扔进海里，自己最后又不记得了呢？”史佩莱突然说。

“因为我无法认定就是他把瓶子扔进海里的，亲爱的史佩莱。”

“那么你.....”史佩莱觉得史密斯的话更难理解了。

“我什么都不知道，也不想这些事。怎么说呢？总之，有很多的事，我们是无法做出解释的，所以我也只是将这件事当成不能解释的事件中的一件。”史密斯没等他说完便打断了他的话。

“这倒是真的。赛莱斯，有很多事情都让我们有些莫名其妙，比如你的被救、海滩上那只装着很多东西的箱子、多卜的莫名叫声、瓶子里的纸条.....这些像谜一样的问题，会不会让我们永远也找不到答案？”

“我觉得不会，一定不会。即使最后我们要钻到海岛底下去寻找答案，也一定要弄个水落石出。”史密斯说。

“对！希望有一天，我们能有机会找到这些神秘事件的谜底。”

“机会？史佩莱，我不信什么机会和神秘说，这里发生的一系列不可思议的事情，总会有一个原因的。而这个原因，我们一定要找到。不需要给我们机会，我们都要找到。不过现在，我们还是要继续我们的工作，继续观察。”

很快，1月份就到了。时间进入到了1867年。

夏季来临，大家继续辛勤地工作。连续几天，赫伯特和史佩莱去打猎的时候，看到了牲畜栏那边的情况，并告诉大家，阿埃童已经住在了他们为他盖的木屋子里，而且很用心地在照料里面的羊群。有了阿埃童，他们也就不需要隔三岔五去牲畜栏那边照顾牲畜了。

不过，为了不让阿埃童孤独寂寞，他们还是经常去看望他。同时，

史密斯和史佩莱心里一直存在着一些疑团，所以能有个人在那边照料着，遇到什么意外之事及时通知他们，也是件非常不错的事情。

不过，有些意外事情要尽量在发生前告诉史密斯才行。因为这些意外事情除了和林肯岛的秘密有关外，还有一些其他的事情，比如海面出现了船只、西海岸有船遇到危险、海盗来了等等。所以，史密斯决定想一个办法，让牲畜栏那边和“花岗宫殿”之间随时随地取得联系。

1月10日，史密斯向伙伴们说了他的想法。

“啊？史密斯先生，你要做什么？难道要装电报吗？”庞库那夫有些惊讶，问道。

“是的，就是这个意思。”史密斯说。

“是用电吗？”赫伯特问。

“没错，是要用电的。制造电池的材料我们有，但难的是需要个拉铁丝的工具。当然，这些问题我觉得都是可以解决的。”史密斯说。

“好吧！要是哪天我们能坐上火车，我才高兴呢。”庞库那夫说。

就这样，他们开始着手准备。刚开始的时候，他们做的是最难做的事情——制造铁丝。因为铁丝做不成的话，也就没必要制造电池和其他附件了。

我们知道，在林肯岛是不缺铁质的，所以拉铁丝没问题。史密斯首先制造了拉模板，这种拉模板是由大小不同的圆锥形窟窿钢板组成的，可以让铁丝很容易达到他们所需要的粗细。

这个工作做起来一定要小心、细致才行。所以他们先将铁做成了铁棍，然后将铁棍的两头挫尖，最后把铁棍插入拉模板的窟窿里，让卷轴一面卷一边往外拉，在将它抽长到25英尺到30英尺的时候再将它松开，随即又在较小的窟窿里重复同样的工作。最后，史密斯将获得的40到50英尺的铁丝连接起来，使它们能从“花岗宫殿”一直到5英里外的牲畜栏。

史密斯在安装好机械后，就将拉电线的工作交给了其他人，自己则去制造电池了。没多久，居民们就把拉铁丝的工作完成了。

如何制造直流电池，这是史密斯要做的事。我们知道，现代的电池是用炭精棒、锌和铜做成的。可在林肯岛上，他寻遍了各个地方也没有找到铜，最后只好放弃使用铜。

炭精是将煤去掉氢后，放在蒸馏器里得到石墨，这是可以做到的。但想要炭精，还需要花大力气来制造一种特殊设备。

至于锌，居民们在拾箱角捡到的那只大箱子里就有，用它来做电池是再合适不过的了。

史密斯在经过反复的考虑后，决定仿造1820年柏克勒尔发明的一种电池。这种电池只需要锌、硝酸和钾碱，而这三种东西他都有。

利用硝酸和钾碱互相作用而制成的电池，构造并不难，史密斯只需在很多玻璃瓶里装上硝酸，接着再将这些瓶子的瓶口塞住。然后将玻璃管插进有塞子的瓶口，这样管子的下端就会产生很多小孔。最后，将它们装在一只有黏土的布口袋里，把管子浸在硝酸里。

史密斯事先将一些植物烧成了灰烬，做成了钾碱溶液，然后将溶液

从管子上端倒下去，这样一来，硝酸和钾碱就能通过黏土互相作用了。

最后，史密斯将两块锌片中的一块浸入硝酸里，另一块浸在钾碱溶液里，当两块锌片被金属线连接时，电流就产生了，并从瓶子里传到了管子的锌片中。这样一来，管子里的锌片就成了阳极，阴极就是瓶子里的锌片。在将每个电瓶所产生的电流都加到一起的时候，就能发电报了。

这是史密斯的天才设计，这个设计虽然简单，却让“花岗宫殿”和牲畜栏之间有了电报联系。

2月6日，居民们开始在通向牲畜栏的路上架设电线杆，电线杆上装有拉电线用的玻璃绝缘器。仅仅用了几天时间，他们就把电线拉好了，这些电线能够随时输送每秒十万公里的电流，而这种电流的回路便是他们脚下的土地。

史密斯总共做了两套电池，分别放在“花岗宫殿”和牲畜栏处。这样一来，牲畜栏这边有事就能通过发电报的方式通知“花岗宫殿”的居民；当“花岗宫殿”这边有事的时候，也能发电报给牲畜栏这边。

至于收报机和发报机，对史密斯来说就太容易做了。他将两地的电线分别缠在了一块绕着导线的软铁上，这样，两极之间就通上了电。当电流从阳极发出后，通过线路到了磁铁，磁铁瞬间被磁化，然后让电流从地底回到阴极，一旦电路中断，磁铁也就失去了磁性。

当把软铁放在磁铁前时，电路一接通它就会被吸住。反之，电路一断就会掉下来。

史密斯在将铁片的这些运行装置做好后，就只需一个圆盘了。他在

圆盘上面还写上了字母，然后又在铁片上安上了指针，两个电站间就能彼此联系了。

他们把一切都准备妥当是在2月12日。

这天，史密斯先向牲畜栏那边发了个电报，问一切可好，很快，阿埃童就有了回复。庞库那夫为此高兴坏了，此后，他每天一早一晚给牲畜栏那边的阿埃童发电报，而每一次，他都能得到回复。

有了这个接通两边的“通讯”，对居民们来说有两个好处：第一，他们能清楚地知道阿埃童是不是在那里；另一个就是让阿埃童不再孤单了。

即使这样，史密斯还是坚持每周去看望他，阿埃童也时不时地会来“花岗宫殿”，而每次他来，都会受到居民们的热情招待。

这样忙忙碌碌工作的日子非常美好，居民们的蔬菜和粮食也在一点点地增加。从岱波岛采集来的种子所种的蔬菜长势很好，因此，观望壁的高地上呈现出了一派欣欣向荣的景象。

不用说，他们的第四次麦收照样是个大丰收。能想象得到，他们再也不用去计算接下来会收获多少粒麦子了。

庞库那夫曾想着要去数的，但史密斯告诉他，如果他每分钟能数300颗的话，一小时数9000，他需要数近5500年才能数完。最终，老实的庞库那夫还是放弃了这个打算。

此时的天气也非常好，白天虽然很热，但一到晚上，海风便能让温度很快降下来。在这期间，也曾下过几场持续时间不长的暴雨。暴雨来势凶猛，电闪雷鸣，十分恐怖，像是要把整个林肯岛吞噬掉，这样的状

况经常会延续好几个小时。

就是在这样的天气下，林肯岛的各项工仍然在有序地进行着。

家禽场里挤满了家禽，居民们只得用“吃”来减少它们的数量。而且，他们还需要控制这些家畜的数量，因为很快，猪又生了小猪，这让那普和庞库那夫可累坏了。为了照料它们，着实花了不少时间。

史佩莱和赫伯特经常骑着野驴出去。当然，他们骑的早就不是最初的那两头了，现在他们骑的是一对漂亮的小驴。赫伯特能成为优秀的骑手，多亏了史佩莱的指导。这样，他们经常用牲口拉车，向“花岗宫殿”运柴火、煤炭，甚至运送史密斯需要的各种矿产。

在这段时间里，居民们还去了西遥森林几次。在那里，他们完全不用担心会中暑，因为头顶上那浓密的枝叶，让太阳光根本无法穿透。他们将整个感恩河的左岸都看了一遍，开避了一条从牲畜栏通向跌水河河口的道路。

在这几次探险中，由于经常遇到凶猛的野猪，居民们便全都全副武装。即使这样，他们也和野猪展开过很多次搏斗，甚至还和美洲豹做过激烈的斗争。

史佩莱对美洲豹恨之入骨。不过，每次搏斗，赫伯特都会是他的得力帮手。赫伯特勇敢，史佩莱沉着，两个人合作起来非常默契。后来，他们出去时便携带武器，有了这些武器，也就不再怕那些野兽了。

如今，在“花岗宫殿”的餐厅里，到处挂着色彩斑斓的兽皮，已经有20张了，很可能还会继续增加。

居民们是有着很大的野心的，他们要将岛上的美洲豹全部消灭掉。

史密斯有时候会去一下偏僻而陌生的地方，到了那些地方，他会很仔细地观察每一处。而在那些密林深处，他注意的并不是兽迹，而是其他踪迹。但让他失望的是，他并没有发现任何令他怀疑的东西。

而每次去这些地方，史密斯都要带上多卜和狙布，但它们并没有像在井口那样咆哮。不过，它们咆哮的地方——深井，史密斯也下去看过，什么都没发现。

捡到的那只箱子里，还有照相器材他们没用过。这段时间，史佩莱在赫伯特的帮助下，开始选取荒岛上风景最好的地方拍照。

照相机非常精良，有着非常好的物镜扩大功能。除了相机外，照相器材里还有涂底板用的珂罗酊、能让底板感光的硝酸银、定影的亚硫酸钠、涂湿印相纸的氯化银、冲晒底片需用的醋酸钠和氯化金……

总之，照相所需要的东西全都有。当然，在没有将底片放进印相夹前，他们还必须将印相纸放在硝酸银溶液里几分钟。

很快，史佩莱和赫伯特便成了技术高超的摄影师。他们在林肯岛的很多地方都拍了照，比如有在观望壁拍的，有站在富兰克林山上拍的海岛全景，有在有着奇形怪状石头的感恩河口拍的，还有在牲畜栏、兽爪角、拾箱角等地方拍的。

当然，他们还没有忘记给岛上的每个人拍张照片。

“照相后，我感觉我分身了！”庞库那夫说。

庞库那夫的有些相照得特别好，被他挂在了“花岗宫殿”的墙上。一有时间，他就会站在自己的相片前，高兴地看着自己。恍惚间，他觉得

自己站在了百老汇最豪华的橱窗前，怎么都舍不得离开。

必须要说明的是，照得最成功的要数狙布。照片上的狙布看上去有着说不出的感觉，一本正经地坐着，像人一样。

“狙布像是在做鬼脸似的。”庞库那夫说。

这样的照片，小狙布不可能不喜欢，如果不喜欢，那可真是太挑剔了。当然，真实的情况是它很开心，所以总会带着一副趾高气扬的表情看自己的照片。

很快，3月份来了，炎热的夏天彻底结束。雨水越来越频繁，但气温依然很高。林肯岛的3月份相当于北半球的9月，天气也不是很好——一切都好像预示着严寒很快就要到来了。

21日早晨，刚刚起床的居民们一开窗还以为看到了初雪景色。原来，赫伯特在打开窗口时，突然大叫：“天啊，快看！整个岛上都飘满了雪花！”

“怎么可能？这时下雪？”史佩莱一边说，一边走到窗口。

其他人也过来了。他们不能确定那是不是雪，但能确定的是，不仅整个岛，就连“花岗宫殿”下的海滩上都是白茫茫的一片。

“肯定是雪！”庞库那夫说。

“太像雪了！”那普说。

“但从温度表上看，现在是14℃，会下雪吗？”史佩莱说。

史密斯看着外面，一句话都没说。在这样的季节，这样的温度下，

怎么可能下雪？他无法解释这种现象。

“糟糕！我们种的东西都要冻死了！”庞库那夫难过地大叫。

他正准备下去，机灵敏捷的狙布却已经抢在了他的前面，很快就要滑到沙滩上去了。

然而，没等它着地，那白茫茫的一片便瞬间向空中飞去，“雪花”四散开来，几分钟内，遮天蔽日的“雪片”便遮住了太阳光。

“不是雪花，是鸟！”赫伯特又大喊。

原来，那白茫茫的一片只是一群群长着雪白羽毛的鸟。成千上万的鸟栖息在海岛的每一片海滩上，形成了一幅壮观的画面。居民们全都惊呆了，直到它们消失在天空，飞远了，这才清醒过来。

此时，林肯岛又恢复了原样，它像是刚刚经历了女巫的魔咒，一下子让严寒的冬天变成了盛夏。

令他们有些遗憾的是，因为事出突然，竟然没能让史佩莱和赫伯特打下一只鸟来，更无法确定它们的种类。

几天后的3月26日，就是这群遇难人从气球上降落林肯岛的两周年纪念日了。

第十九章

林肯岛上的居民来林肯岛已经有两年了。在这两年的时间里，他们没有和自己的同胞有过任何联系，没有任何来自文明世界的消息。流落到这里的每个人，都如同宇宙间那不起眼的、被忽视的小行星一样。

国家到底发生了什么样的变化？种种想法时常出现在他们的脑海。在他们离开家乡的时候，国家正因为内战而四分五裂。是不是现在的南方叛军还在流血？一切的一切，对居民们来说，都是令他们倍感痛心的事。他们经常谈论此事，也毫不怀疑，英勇的北军为了祖国的荣誉，已经取得了最后的胜利。

在他们来到林肯岛的两年里，出现在他们视线范围的船一只都没有，哪怕是一叶孤帆都不曾看见。很明显，林肯岛是不在正常的航线范围内的，甚至可以说，根本没人知道有这样一个岛。

这一点不用说，从地图上也能看出。要不然，虽然这里没有港口，但也可能会有船来补充淡水。

四下一望，在无边无际的大海上，除了小鸟外，没有任何东西。要想离开这里，回到祖国，他们必须自己想办法。

当然，他们也有获救的希望。在4月份的第一周里，居民们坐在“花岗宫殿”餐厅时讨论起来。

当时，他们谈起了自己的祖国——美国，然后又说起了自己的家乡，更说起了想要看到自己的故乡，希望是多么的渺茫。

“我可以说，要离开林肯岛，还是有个办法的，而且只有这个办法可行，那就是造一艘能航行几百里的大船。我们既然能造小船，为什么就不能造大船呢？”史佩莱说。

“如果有了大船，我们就会像去岱波岛一样，很容易到帕劳群岛去了。”赫伯特加了一句。

“我完全赞同。”庞库那夫虽然对造船和航海问题向来持支持态度，但也说，“不过，我虽然是赞同这么做的，但到近处去航行和去远处完全不同。我们去岱波岛的时候，虽然遇到了狂风，但我们心里很清楚目的地就在附近，可我们离最近的陆地有1200海里，那可是很长一段距离。”

“所以你不想去冒这个险对吗？庞库那夫？”史佩莱问。

“没什么险不敢冒，只要你们愿意，什么风险我都敢去冒。史佩莱先生，你们应该了解我，我这个人是天不怕地不怕的。”

庞库那夫说完，停了一下又说：“而且不要忘了，除了我之外，我们这里又多了一个水手。”

“多了个水手？谁？”那普问。

“当然是阿埃童了。”

“是的，阿埃童也是水手。”赫伯特说。

“不过，那还要看他愿不愿意和我们一起离开了。”庞库那夫说。

“这简直是多余的话，他就是在岱波岛，如果格莱拉弗爵士的游船又去接他，你说他会拒绝离开吗？”史佩莱说。

“朋友们，有件事你们可能忘记了。”史密斯听他们说完，开口了。看大家都看着他，接着又说：“这几年，阿埃童在那里几乎是失去理智

的。当然，问题还不仅仅在这里，问题是我们要不要等曾经答应阿埃童来接他的那艘苏格兰船救我们。格莱拉弗爵士答应过阿埃童，在他觉得阿埃童已经赎了罪时，会将他接出岱波岛的。我相信格莱拉弗爵士是说话算话的。”

“是的，我也相信。而且我觉得他们会很快来接阿埃童的，因为阿埃童在岱波岛已经12年了。”史佩莱说。

“那好吧，就按你们说的，爵士会回来带走阿埃童，而且很快就会回来，这些我都没意见，不过他的船会停在哪儿呢？很明显，他会停在岱波岛，而不是我们的林肯岛。”庞库那夫说。

“这没什么可以怀疑的，因为地图里根本就没有林肯岛。”赫伯特说。

“所以，朋友们，我们也要在岱波岛做一些准备，以通知去的人知道阿埃童在我们的岛上。”史密斯说。

“那很容易办到。只要我们在格兰特船长和阿埃童曾经住过的木屋里留一张纸条，上面写清林肯岛的位置，接阿埃童的人一定能看明白的。”史佩莱说。

“太可惜了，我们第一次去的时候，竟然没想到这么做。”庞库那夫有些遗憾地说。

“我们当时怎么可能知道要这么做呢？当时还不知道阿埃童的故事，更不知道有一天会有人接他。可惜现在虽然知道了这事，再去岱波岛却太冷了。”赫伯特说。

“是呀，现在太迟了，等到明年春天时再去吧。”史密斯说。

“要是那艘苏格兰船开春前就去了呢？”庞库那夫有些担心。

“那种可能性太小了，因为格莱拉弗爵士是不会选择冬天到这一带来远航的。除非是阿埃童和我们在一起待的五个月里他去过，要是在这期间他没去过，那肯定是要过些时间才会去的。这样吧，等到10月份的时候，天气有所好转，我们就去岱波岛，还是来得及在那里留一张纸条通知的。”史密斯说。

“如果‘邓肯号’正好在这几个月去了岱波岛，那就太遗憾了。”那普说。

“但愿没有那么糟糕，但愿上天不会不给我们这个唯一的机会。”史密斯说。

“我觉得，当我们再去岱波岛的时候，就能知道这个机会还在不在了。如果游船去过的话，那里一定会留下痕迹的。”史佩莱说。

“那是当然的，所以朋友们，既然我们有这样的回国机会，就先耐心等待吧。如果最后连这个机会也没有了，那时候再商量接下来该怎么办更合适。再等等吧！”史密斯说。

“还有，将来不管我们用什么方法离开了林肯岛，我们一定要明白，不是我们嫌这里不好。”庞库那夫说。

“对！庞库那夫，那只是我们不愿离开我们的祖国、家庭和朋友而已。”史密斯最后说。

等他们商量好这些后，便不再去谈造大船以及大船是向北行驶到太平洋群岛还是向西去新西兰了。大家依然和以前一样，用心地做着各自

的事，为在“花岗宫殿”度过第三个冬天而做着准备。

当然，他们还有个计划，那就是在恶劣的暴风雨来临之前，要乘坐小船来一次环岛航行。截至目前，居民们并没有考察完海岛的全部沿海地带，比如海岛的西岸和北岸，也就是从跌水河口到颚角，以及颚角那如同鲨鱼一样张开嘴的狭长海峡……对这些地方，他们只是稍稍有些了解，所以他们还想再去看看，做深入的了解。

这次的航行，是由庞库那夫提出的。史密斯完全同意他的提议，因为他也想去这些地方。

天气开始发生变化，但气压计的变动却并不明显，所以他们预计天气不可能变得更坏。不过，就在4月份的第一个星期里，气压突然降得很低，等重新上升后，又接连刮了五六天的大风，最后才上升到对航海有利的29.9英寸高度，并保持在那里。

4月14日，居民们决定乘坐停在气球港的“长风破浪号”做一次长时间的航行，为此他们开始准备充足的能在船上吃的食物。

史密斯希望这次的航行阿埃童也能参加，所以便告诉了他这个计划。但阿埃童却更愿意留在岛上。于是大家最终决定，在大家出航期间，阿埃童暂时住在“花岗宫殿”，并由狙布陪他。好脾气的猩猩狙布也没表示出不满。

他们正式出发是在4月16日清晨。除了阿埃童和狙布之外的所有居民，包括多卜都上了船。

这天有从西南方向吹来的微风。于是，“长风破浪号”斜迎着风离开了气球港，向甩尾角驶去。海岛周围虽然有90英里长，但从气球港到甩

尾角，南岸这部分却只有20英里长。由于迎风而行，他们的行驶必须靠近海岸。

到达甩尾角，他们整整用了一天的时间。在离开气球港之后的八个小时中，仅仅只有两个小时是退潮期，其余六个小时全是涨潮，因而他们只能逆流而行，所以用了很长时间，天黑时才绕过海角。

即使这样，庞库那夫还是向史密斯提议，收起两帆，继续慢行。但史密斯建议在离岸几锚链的地方抛锚，他想在第二天的白天仔细观察这部分海岸。他的提议获得了大家的认同，同意夜间停止航行。如果天气好的话，他们甚至希望能在靠岸处抛锚。

就这样，居民们在停靠于海角下端的“长风破浪号”上休息了一晚，此时风已经停了，四周静悄悄的。这一夜，除了庞库那夫外，居民们都无法像在“花岗宫殿”一样睡个安稳觉。不过，他们还是睡着了。

4月17日，天刚刚亮，庞库那夫就开始扬帆起航，他的航行方向一直保持着左舷航行，这样可以让“长风破浪号”一直沿着西岸前行。

这一带居民们还是很熟悉的，他们曾徒步来到森林海岸探索，此地的景色之美，曾引起他们无数次的赞叹。因此，为了把周围的一切看得更清楚一些，他们尽量让船靠岸前进。不过，由于很多树干漂浮在海面上，所以他们的船不得不左躲右闪，航行中的船还被迫停了几次，这也让史佩莱有了拍摄美景的机会。

中午时分，“长风破浪号”到了跌水河的河口。从船上向对面左岸看去，是稀疏的树木，而当过了3英里之外时，即使稀疏的树木也不存在了。西边山岩间生长着一簇一簇的树木，荒芜的山脊一直向下倾斜到了海滨一带。海滨的南北有着很多差别，相比而言，南部的地势平坦，土

地肥沃，树木异常茂盛；北部则是一片荒凉，地势崎岖陡峭。

荒凉的北部很像是“铁滩”，意思就是这些地方外表荒芜，犹如从远古时代地底涌出的玄武岩浆结晶形成的海滩。如果站在这些荒岛上，那些嶙峋的大石头一定会让人大吃一惊的。

当初，虽然他们在富兰克林山的顶端曾眺望过这里，但因为站得太高，无法看到这些嶙峋的山石。如今从海面上直视，这些地方则越发显得荒凉了。

“长风破浪号”经过了半英里的航行后，发现了很多岩石，虽然大小不一，高度也从20英尺到300英尺不等，但形态各异，有些像圆圆的塔楼，有些则像棱柱，尖尖的，更有些像角锥形的方塔，圆锥形的工业烟囱……总之，就是北冰洋上的冰山也没有它们形态丰富。

更有意思的是，有些岩石间还搭着桥梁，有些则有着一串串波浪形的拱门，有的洞窟雄伟宽阔，有的则是一排排的石柱、尖塔和拱门……大自然的鬼斧神工，绝对可以超过“哥特式”教堂。

这些凭人的想象力无法创造出的艺术品，就这么绵延在八九英里的美丽海滨上，非常壮观。

居民们傻傻地看着，看得入了神，没有人说一句话。不过，多卜显然没有被这些天然的艺术品所震撼，它突然叫了几声，瞬间，回声从玄武岩石的峭壁处传了出去。史密斯觉得多卜的叫声有些奇怪，那叫声特别像在“花岗宫殿”井口发出的叫声。

“再到岸边去一下。”史密斯说。

“长风破浪号”又向有着“艺术品”的海岸靠近了一些。这里是否有值

得他们去探索的洞窟呢？

不过，在仔细看了看后，史密斯并没发现洞窟，连一个可以栖息的藏身之地都没有。同时，峭壁的底部还在受着海浪的冲击。不过很快，多卜不再叫了，他们也就与海滨保持着几锚链的距离前行。

荒岛西北部的海岸很平坦，一些沼泽地上生长着丛林，居民们也曾在这里探索过。这一带又和刚刚看到的荒凉海岸有所不同，数不清的水禽的存在，让这片海岸显得很有生机。

这天晚上，“长风破浪号”在荒岛北部的小海湾停下了，这里靠近陆地，附近的海水又深，很适合停下来过夜。这一天都过得很平静，夕阳西下时，海面变得异常寂静，直到破晓时分，才有微风吹起。

因为停靠的地方很容易上岸，所以打猎能手赫伯特和史佩莱便上岸去了两个小时，回来时手里多了几串野鸭和丘鹬。当然，他们能有如此收获，也都得益于多卜的机灵能干，让每只落下的禽类都一只不落地到了他们手里。

第二天早上八点，“长风破浪号”再次起航。由于是顺风，风势渐大，它便飞快地向上颚角驶去了。

“看来很快就有西风刮来了，而且是很猛烈的西风。昨天太阳落山时，我看到西边红彤彤的，今天早上又有马尾云出现，所以看情况不是太好。”庞库那夫说。

马尾云的出现预示着天气要发生变化。这是卷云的一种，通常散布在头顶处，大概离海面5000英尺左右，有些像轻巧的粗棉花。

“既然如此，我们快把帆张起来吧，到鲨嘴湾去躲躲，那里应该可

以保证我们的安全。”史密斯说。

“说得没错！北边海滨尽是沙子，实在没什么看头。”庞库那夫说。

“是的，只要我们愿意，就在鲨嘴湾耽误今明两天都没什么关系，我觉得那里非常值得我们去用心探索。”史密斯说。

“这已经不是我们愿意不愿意的事了，是我们不得不去，非去不可。”庞库那夫说完，又看了看天空的西边说：“那边的天气非常不好，马上就要变天了。”

“风在向颞角吹，也算是在一路顺风而行。”史佩莱说。

“这风吹得倒不错，不过我们进港需要逆风。这一带的海面比较生疏，希望我能顺利驶过。”庞库那夫说。

“从鲨嘴湾南岸的情况来看，海里很可能有礁石，而且有很多。”赫伯特补充道。

“你觉得该怎么做就怎么做吧，庞库那夫，我们全都听你的。”史密斯说。

“没什么好担心的，史密斯先生，怎么都会想出办法来的，就算是让刀插进我的肋骨，我也不会让礁石去撞‘长风破浪号’的肋骨的。”庞库那夫说。

庞库那夫所说的“长风破浪号”的“肋骨”指的是船在水中的部分。对于这部分，他看得比自己的身体还重要。

“现在几点钟了？”庞库那夫问。

“十点！”史佩莱说。

“史密斯先生，那我们现在离颚角有多远？”

“差不多15英里。”史密斯说。

“嗯，还有两个小时，等到了十二点，我们就能到达颚角海面了。不过不幸的是，我们正赶上退潮期，海水是向海湾流的，现在又出现了风浪，可能很难进颚角了。”庞库那夫说。

“更要命的是，今天是满月，赶上了4月份潮势最凶猛的时候。”赫伯特说。

“庞库那夫，那你可以在颚角附近抛锚吗？”史密斯问。

“现在就要变天了，我们只能在靠近岸边的地方抛锚。史密斯先生，你想要做什么？我们要在颚角附近抛锚的话，肯定会搁浅的。”庞库那夫说。

“那要怎么做？”

“我准备想办法将它停在海面上，等涨潮期的来临。具体来说就是我们要等到傍晚七点钟。如果那时候光线不错的话，我就进港，不然的话，我们只能整夜停在海面上，一直到明天早上太阳出来时再进去了。”庞库那夫说。

“就像我前面说的，庞库那夫，你想怎样就怎样吧！”史密斯说。

“唉！太可惜了，海滨没有灯塔，要是有了灯塔的话就好办多了。”庞库那夫说。

“是呀，这次没有善良的工程师为我们点火，引导我们入港了。”赫伯特说。

“对了，亲爱的赛莱斯，一直都忘了道谢。老实说，如果那次不是你的那堆火，我们不一定能回来……”史佩莱说。

“什么？火？”史密斯非常惊讶。

“史密斯先生，我们指的是，在从岱波岛回来的时候，‘长风破浪号’在抵达岛的前几个小时，我非常焦急，不知道方向对不对。可就在10月19日的夜里，你在观望壁点了一堆火，然后我们就调整了方向，迎着林肯岛的上风头回来了。”庞库那夫解释说。

“就是，就是，多亏我有那么好的办法呀！”史密斯说着，若有所思。

“这一次，除非阿埃童想到了这一点，不然就没人帮我们做了。”庞库那夫又说。

“嗯！不会有人了，不会有人了！”史密斯说的时候，眼神悠远。

过了几分钟，当史密斯看到船头只有自己和史佩莱后，俯下身子，小声对他说：“我发誓，史佩莱，10月19日的夜里，我绝对没有在观望壁或什么地方点过火！”

第二十章

庞库那夫的预测没有错，事情果然和他说的一样。风越刮越大，很快从微风变成了暴风，速度达到了每小时40到45英里，如果在海里遇到如此大的风，首先要做的就是收起桅帆，但即使这样，船也会像飞一样前行。所以“长风破浪号”在六点钟时，行驶到了港湾口。

不过，此时潮势发生了改变，船无法进港。

庞库那夫让船和海岸保持了一定距离。按当时的情况，庞库那夫即使想去感恩河的河口，也是无法办到的。于是，他把三角帆作为暴风帆，升到了主桅的顶上，在船停下来后，船头是正对着陆地的。

风势很大，不过因为有陆地挡着，掀起的波涛并不高，因此他们也不用担心海浪威胁到“长风破浪号”。而由于压舱解决得特别好，所以也不可能翻船。但是，因为有大量的海水被冲到甲板上，使船骨受到了很大的考验，所以船很可能会被打坏。

当然，作为经验丰富的水手，庞库那夫把可能出现的问题都考虑到了，何况他对自己的船很有信心。但即使这样，他还是有些焦虑，可也只能耐心等待天亮了。

这一晚，史密斯和史佩莱并没有聊天，他们没找到机会。不过，史密斯悄悄给史佩莱说的那件事，以及笼罩在整个海岛上的一股神秘力量，还是让他们觉得必须要进行一次深层次的探讨了。

史佩莱不断地想着这件事，想着这件再次让他们觉得不可思议的怪事。荒岛的海滨上出现了野火，那火是真实存在的，他的确看见了。不仅他看到了，赫伯特和庞库那夫也看到了。那实实在在存在的火，像黑夜里的标志，告诉了他们林肯岛的正确方位。他们一直以为那火是史密斯点的，但史密斯却说他根本就没做过这件事。

史佩莱想好了，在“长风破浪号”回去后，他们要认真地研究此事，并且要让史密斯将这件怪事告诉大家，也许在大家都知道了这件事后，才能共同想办法在全岛的每个方位做仔细的搜查。

当然，这天夜里，他们没有在港湾入口的陌生海岸上发现什么莫名其妙的野火，而“长风破浪号”也一整夜地停泊在了海面上。

风势有所减弱是在东方出现第一丝曙光时。风势的减弱改变了两个方位，这都有利于庞库那夫进入那狭窄的港湾。差不多七点钟的时候，“长风破浪号”由上颚角的上风口，通过海峡在海面上滑行。此时，他们发现周围的海岸上有着很多形状怪异的熔岩峭壁。

“这里绝对是个停船的绝佳港湾，就是停一个舰队都没有问题。”庞库那夫说。

“太奇怪了！这个港湾一定是经过了好几次火山爆发，由岩浆凝结堆积而成，四面都被遮挡住了。我觉得暴风再猛烈，这里也不会受到影响，会一直平静如镜面的。”史密斯好奇地说。

“是的，绝对是这样，这里想要风刮进来都难。因为这里仅有两个海角形成的狭窄通道能通风，但南面的海角又遮住了北边的海角，所以风更不容易进来。我可以这么说，我们的‘长风破浪号’就是在这里停上一年，锚都不会动的。”庞库那夫说。

“可是对我们的船来说，这港湾太大了！”史佩莱说。

“没错，我也觉得只停‘长风破浪号’有些太浪费了。要是美国舰队想在附近找个军港，没有比这里更合适的了。”庞库那夫开玩笑说。

“我们现在就像在鲨鱼嘴里似的。”那普想起了港湾的形状。

“嗯，是呀，那普，我们现在正在往鲨鱼嘴里走。你是担心它突然闭起了嘴，我们出不去了吗？”赫伯特笑着说。

“我才不怕呢，赫伯特先生，我只是不喜欢这个港湾，它的形状太难看了。”那普说。

“看看，看看！我还说要把它献给我们的国家呢，那普倒看不起它了。”庞库那夫大声说。

“先不说别的，就说这里的水吧，它够深吗？停‘长风破浪号’还可以，其他装甲舰未必可以。”史密斯说。

“想知道水深不深倒不难。”庞库那夫说。

于是，他用一根绳子吊起了一块铁，将铁当成铅垂线，对水的深度进行了测量，最后发现全部放下去还触不到底，而那条绳子足足有50寻1长。

“看！现在就是装甲舰来了，也不会搁浅的。”庞库那夫高兴地说。

“还真是这样。看来，这个港湾就像个无底洞。不过也正常，这海岛可是火山爆发形成的，有深渊并不奇怪。”史佩莱说。

“我敢说，这些峭壁也很直。要是庞库那夫用一根比刚才那条绳子还长五六倍的绳子，也不会触碰到海底。”赫伯特说。

“嗯，是这样的。但是庞库那夫，有一点我可要说，这个港湾有一个非常大的缺点。”史佩莱说。

“缺点？什么缺点？史佩莱先生，你说！”

“你没有发现这里少一个到荒岛内陆去的通路吗？我看了一圈，没有找到能登陆的地方，一个都没有。”

史佩莱说得没错。由于峭壁是熔岩形成的，所以便成了一道无法逾越的障碍。这也有些像挪威的海峡，不过这里比挪威海峡更荒凉，更冷清。一直贴近断岩前行的“长风破浪号”，真的没有找到一块可以让船上的人登陆的堤。

庞库那夫也有些无奈，他安慰自己说，以后有必要的話，可以用手雷在峭壁上炸出一个缺口来。

无所事事又无法登陆的居民们，不得不由庞库那夫调转方向，在下午两点左右的时候，出了这个港湾。

一出港湾，那普便长长地松了口气。

忠诚老实的黑人那普，在那张大鲨鱼嘴里时，总觉得不舒服。

从颞骨角到感恩河的河口不过8英里，又因为“长风破浪号”是正对着“花岗宫殿”的，所以只是一阵轻微的风，船便在离岸一海里的海面上飞驰起来。

在经过了那硕大的熔岩峭壁后，他们很快就到了形状奇怪的沙丘地带。这个地方也是史密斯当时莫名其妙得救的地方，成千上万的海鸥不断飞来。

四点钟之后，庞库那夫驾着船又从小岛的地岬处向右边行驶，最后进了小岛和海岸间的海峡处。五点钟的时候，在感恩河口的沙滩上，“长风破浪号”抛锚了。

他们终于回到了阔别三天的住处。阿埃童早早就在海滩上迎接他们了，狙布也高兴地低叫着，欢迎他们回来。

此时，荒岛沿岸他们已经全部搜寻过了，却没有发现什么可疑之处。既然荒岛上一定有神秘的东西存在，那它会在哪里？是不是在蛇盘半岛那无法看穿的森林里呢？他们不知道，但只有那里他们从没去搜查过。

史佩莱和史密斯先进行了一番沟通，最后决定告诉大家一定要注意岛上出现的奇怪事件。而在所有的奇怪事件中，最近发生的一件让他们更加难以理解，那就是点火的问题。

不过，在他们两个人先沟通的时候，史密斯不禁又问史佩莱，这已经是他不止二十遍地询问了：“你肯定那是火？会不会是局部的火山爆发？或者会不会是流星？”

“绝对不可能是火山或流星。赛莱斯，那肯定是火，而且是人点的火。要是您觉得我会看错的话，可以再问问庞库那夫和赫伯特。”史佩莱说。

就这样，过了几天，在4月25日的晚上，当大家又聚在观望壁上时，史密斯开口道：“朋友们，我想提醒大家，岛上发生了很多稀奇古怪的事，我想让大家对这些稀奇古怪的事发表一下自己的看法。当然，这些事情说起来很……”

史密斯还没说完，庞库那夫的嘴里先是喷出一口烟，接着说：

“想说神奇吧！我们的林肯岛上会发生神奇的事？”

“庞库那夫，我可以换种说法，是神秘事件。当然，除非你能回答

让我和史佩莱感到迷惑的问题。”史密斯说。

“什么迷惑？说吧，史密斯先生。”庞库那夫说。

“好的，我想问你，在我掉到海里后，是如何来到内陆的？那可是4英里以外的地方。为什么我会一点儿都不知道？”史密斯问。

“可能是你失去了知觉.....”庞库那夫说。

“不，这讲不通。还有，你们当时是住在‘石窟’里的，而我却在‘石窟’5英里之外，多卜是怎么找到‘石窟’那里的？”史密斯又问。

“可能是狗的嗅觉灵敏.....”赫伯特说。

“有着这样的灵敏嗅觉也太不可思议了，而且当天狂风暴雨没停过，多卜到‘石窟’时，身上竟然没有一点泥，而且是干的。”史佩莱说。

“好吧，还有不明白的，在多卜和儒艮搏斗时，为什么会无缘无故地被抛出水面？”史密斯继续问。

“我现在承认，我确实不明白，一点都不知道是什么原因。还有那儒艮的侧面像是被什么利器割伤的，这些都太莫名其妙了。”庞库那夫说。

“当然还有就是小畜乳的身体里怎么会有子弹？既然没有遇难船只的遗迹，为什么又会有装了各种各样东西的箱子？还有那装着纸条的瓶子，为什么会在我们试航时被我们捡到？当我们需要船只的时候，为什么平底船会断了绳子从感恩河口漂到了我们身边？当猿猴侵占我们的住处后，软梯怎么又那么巧地从上面落下来让我们用？最后当然就是阿埃童说他没有写过纸条的事了。这些问题，谁能解答？”

当史密斯将这一件件发生在林肯岛上的怪事摆在大家面前时，赫伯特和那普、庞库那夫都茫然地你看看我，我望望你，不知该如何回答。

这还是史密斯第一次将这些奇怪的事情归纳起来展现给大家。全部听完后，每个人都傻了眼。

“确实是这样，史密斯先生，你是对的，这些事情真的难以解释。”庞库那夫终于认同了事情的蹊跷。

“还有一件，朋友们，这是最近新添的事情，跟之前的事相比，这件事更加离奇。”史密斯接着说。

“是什么？史密斯先生？”赫伯特好奇心来了，马上问道。

“庞库那夫，你是不是说过，当你们从岱波岛回来时，林肯岛上有篝火？”

“是的。”庞库那夫说。

“你确定看到了篝火？”

“当然能确定！那天看到的篝火，和我现在看到你一样不容怀疑。”庞库那夫说。

“赫伯特，你当时看到了吗？”

“当然，史密斯先生，当时那火光像一等星一样。”赫伯特叫道。

“可是那会不会就是一等星？”史密斯继续问。

“当然不是！当时可是阴云密布呢，而且星星怎么会跑到低于水平

线的地方？史佩莱先生和我们一样都看到了，他能给我们作证。”庞库那夫回答。

“好吧，我在这儿也再说一句，那火光非常亮，像闪电一样亮。”史佩莱说。

“对！对！是这样的，那火光像是点在我们‘花岗宫殿’的高岗上。”赫伯特附和道。

“好的，那我告诉朋友们，10月19日那天夜里，我和那普根本就没在海滨上点过火。”史密斯慢条斯理地说。

“什么？你没点过火？”庞库那夫吃惊得话都快说不出来了。

“我们一直没有离开‘花岗宫殿’。如果你们当时看到了火光，一定是其他人点的。”史密斯说。

庞库那夫和赫伯特，以及那普全都怔在了那里。庞库那夫和赫伯特知道他们没有看错，在10月19日的夜里，他们确实看到过一堆火。

此时，他们没有理由不相信，林肯岛上是有秘密的。而这个秘密就是每当他们遇到困难，在紧急关头时就会有一股难以想象的力量在帮助他们。这样的秘密激起了居民们极大的好奇心。这秘密在哪里？是有什么东西隐藏在隐蔽的地方吗？他们一定要不惜任何代价搞清楚。

史密斯又告诉了大家一件事，那就是多卜和狙布有时会在“花岗宫殿”与大海相通的井口旁打转、号叫。史密斯还说，他曾到井下去过，但并没有发现什么可疑的东西。

经过这次谈话后，全体居民决定，等到气候转暖时，他们要仔细搜

查整个林肯岛。

不过，自那以后，庞库那夫便有些坐卧不安了。他一直觉得荒岛是他们的，但当有一天，他知道荒岛不再只属于他们，而且也属于另一个人，甚至不管他愿不愿意接受，他们都在受那个人的支配时，他感到非常失落。

那普也和他谈起过这些解释不了的问题，不过他们原本就有些相信神灵，所以觉得是神灵给了他们力量，让他们统治林肯岛。

林肯岛的5月份，也就是北半球的11月，天气开始转冷，有时候甚至比冬季还冷，冬天的过早到来，让他们不得不开始为过冬做准备。

当然，虽然严寒即将到来，但居民们却早已经准备好了。他们饲养的莫伏鹿羊已经有很多只了，这些羊的羊毛能够制造大量的毡子，这些毡子又能让他们做成最保暖的衣服。

当然，做冬衣的时候，他们是不会忘了给阿埃童也准备一套的。史密斯建议他到“花岗宫殿”来和大家一起过冬，因为在“花岗宫殿”里过冬，比在牲畜栏那里要好得多。这次阿埃童没有拒绝，只是说等牲畜栏的工作做完后就过来。

4月中旬，阿埃童搬了过来。此后，阿埃童就开始和大家过集体生活了。虽然他也希望自己能融入这欢乐的气氛中，但却依然摆脱不了忧郁和自卑，不和大家一起说笑。

这已经是居民们在林肯岛上过的第三个冬天了。而这个冬天和前两个冬天一样，居民们大部分的时间都是在“花岗宫殿”里度过。有很多次，狂风暴雨差点把海岛基石震塌，汹涌的巨浪像是要淹没整个海岛。

不管何种船只，只要停在岸边，都会被撞得粉碎。

在又一次大风暴后，感恩河洪水泛滥，桥梁有两次差点被洪水冲走。而每次浪潮击打海滩，水花四溅时，堤岸都像要被淹没得无影无踪，所以他们必须要加固桥身。

像龙卷风一样的暴风雨夹着雪花，给观望壁的高地带来了极大的灾难。受损害最多的是磨坊和家禽场，因此，居民们不得不赶紧把家禽围栏修好，以避免动物们的安全受到更严重的威胁。

在最恶劣的天气里，有好几只美洲豹和成群的猿猴都曾闯过河来，这些或机灵或凶猛的野兽，因为饥饿，不得不冒死从河里过来，特别是在河水结冰的时候，它们更容易从冰面过来。这都让居民们非常担心。这些野兽要是过来了，不管是家禽、家畜还是农作物都会遭殃，所以他们时常用枪来对待这些不请自来的“客人”，用枪逼迫它们离开。

居民们是永远不缺活干的，除了有时需要外出外，他们还有着很多计划和打算，以使“花岗宫殿”变得更舒服，更好。

在如此寒冷的季节里，居民们也曾去花鳉沼地打猎。去那里打猎，他们通常都会选择下霜的日子。因为在那种气候下，会遇见很多水禽和野鸭、丘鹬等。

打猎时，史佩莱总是和赫伯特在狙布和多卜的配合下进行，这样的配合使打猎活动百发百中。从“花岗宫殿”到打猎处的这段路对他们来说是比较好走的，他们有几条路可供选择，比如跨过感恩河桥去；从通向气球港的大路去；从拾箱角绕到峭壁去等等，不管哪条路，都只有二三英里而已。

最冷的是6月、7月、8月和9月，这四个月很快就过去了。在这四个月里，天气确实非常冷。不过，居民们的“花岗宫殿”并没有受到风暴强袭的威胁。牲畜栏也一样，因为没有暴露在外面，同时因为富兰克林山为它遮挡了一部分狂风，前方又有森林和海岸上的峭壁，所以所受的损失最小。

10月时，阿埃童回到牲畜栏的木屋里住了几天，修理那些稍微受到损坏的东西。手艺精湛、做事麻利的他很快也就弄完了。

整个冬天过得很平淡，没有什么新的怪事发生。自从那次汇总了怪事后，庞库那夫和那普不管遇到什么事，即使是小得不能再小的事，他们也会联想一下，看是否属于神秘事件。

多卜和狙布也没再围绕井口号叫转圈了，更没有显得不安，好像前面的一系列怪事都要中断了似的。不过每天晚上，居民们还是会在“花岗宫殿”谈论这些事，而且过些时间彻底搜查荒岛的想法也没有变，即使是最难去探索的地方，他们也想去看看。

当然，就在此时，有件重要而可怕的事情的发生使他们暂时改变了计划。

那是10月的一天，天气已经慢慢转暖，大地很快就要回春了。大自然好像刚刚经历了冬眠，开始苏醒。森林里长出了很多常绿树，大多是松柏科，而另一些如喜马拉雅杉之类的树都已经抽出了嫩芽。

大家应该不会忘记，史佩莱和赫伯特经常喜欢在林肯岛拍摄相片。那天是10月17日的下午，差不多在三点钟的时候，受晴朗天气的感染，赫伯特决定去拍一些联合湾的照片。联合湾在观望壁的对面，一端是颚角，另一端则是兽爪角。

那时候，水平线很清晰，海面也是一片平静，只有微风吹过时会荡起一丝涟漪，在阳光的照耀下闪闪发光。

赫伯特是将相机放在“花岗宫殿”餐厅的一个窗口上照的，这样的角度完全可以俯瞰整个海岸和港湾。在像往常一样拍了几个镜头后，赫伯特便到阴暗的角落用药品定影了。

当他再从阴暗角落回到亮处时，他拿出了底片来看，突然发现底片的水平线上有个不怎么清楚的黑点。赫伯特非常不满意这个黑点，想把它去掉，便又去洗了几次，但那黑点还是存在。

“难道是镜头上的黑点？”赫伯特想。

在好奇心的驱使下，他从望远镜上取下了一个放大镜，仔细看那个斑点。这一看他大叫一声，放大镜差点从他手里掉下来。

他急忙跑去找史密斯，并把底片和放大镜都递给史密斯，让他看底片上的黑点。

史密斯仔细看了一下，抓起望远镜就冲到了窗口。

当望远镜慢慢扫过水平线后，他停在了那个黑点上，好一会儿，史密斯才放下望远镜，说了一句：“那里有只船！”

没错，在离林肯岛不远的地方，有一只船。

[11](#)英寻约等于1.8288米。

第三部 林肯岛里的秘密

第一章

两年半，林肯岛上的居民从气球上降落到这里已经有两年半了。在此期间，他们没有和外界的任何人、任何物发生联系。即使有一次记者史佩莱将他们的故事写成信，让一只信天翁带到大陆去，也仅仅是他们在给自己一个机会，并没有对它抱有什么幻想。

阿埃童虽然不是和他们一起从气球上降落下来的人，但也是另一座孤岛上的遇难者，并不算是外界的人。

但在那一天，10月17日，在这荒凉的岛上，竟然出现了一只船，有船必定就会有人。

这是不变的事实。那船就在离他们林肯岛不远的地方。这只船为什么要到这里来？是路过还是要找岸靠的？到底是什么情况？几个小时后，居民们就能清楚了。

当赫伯特看到船后告诉了史密斯，史密斯看到又马上叫来了史佩莱、庞库那夫和那普后，庞库那夫立刻拿起了望远镜。望远镜在水平线上扫过去，他盯上了史密斯和赫伯特所说的那个点，也就是照片底片上出现的那个黑点。

“天啊！真的是只船！老天保佑！”他大声喊着，但并不是惊喜的叫

声。

“是往咱们这里开的吗？”史佩莱问。

“不知道，现在只有桅杆露在水平线上，船还看不到呢。”庞库那夫说。

“那现在我们要怎么办？”赫伯特问。

“只能等着了。”史密斯说。

这只船的出现让居民们沉默了很久，这是他们到林肯岛之后，遇到的最重要的一件事。这件事情的出现，引起了他们内心的一些情感，有激动、兴奋，但也有恐惧和失落。

当然，之所以会这样，是因为他们和一般流落在荒岛上的人还不一样。那些人在和残酷的自然界做斗争的同时，更多的是痛苦和苦闷。而林肯岛的居民们却不是这样的，特别是庞库那夫和那普，他们在这里很愉快，也很富有。所以当他们觉得有一天他们要离开这个荒岛时，内心的失落和难受可想而知。

他们依靠自己的辛劳和智慧，将这片荒芜的土地开垦得富饶美丽，开始了他们的新生活，甚至已经习惯了这样的生活。

不过，不管这船是从哪里来的，都可能给他们带来家乡的消息，带来他们的同伴，所以从这点上来说，他们又是激动和兴奋的。

庞库那夫靠在窗口上，不时地拿起望远镜看。他的眼睛死死地盯着那只船，他看到，那只船的位置应该在东面20海里的海面上。因为距离比较远，所以还没有办法给那船发信号。

摇信号旗，那只船上的人肯定看不见，而开枪的话也不会听到，甚至此时就是燃起烽火来都是多余的。但有一点他们必须承认，那就是有着高高富兰克林山的海岛，绝对逃不过那只船上的人的视线。

不过，这船到底来这里干什么？是误打误撞来的？地图上，太平洋区域除了有岱波岛外，并没有其他陆地，而且岱波岛还不在于波利尼西亚群岛、新西兰和美国海岸起航的船只经常跑的航线内。

当大家正在为这些问题而烦恼的时候，赫伯特突然大声说：“会不会是‘邓肯号’？”

之前我们已经说过，格莱拉弗爵士的游船叫“邓肯号”，曾驶到岱波岛将阿埃童遗弃在那里，还承诺以后会把阿埃童接回去。岱波岛距离林肯岛不远，经线距离仅有150英里，纬线有75英里。

如果有向那个岛上行驶的船，林肯岛他们应该是可以看到的。

“这事要马上告诉阿埃童，叫他过来，只有他才知道那是不是‘邓肯号’。”史佩莱说。

大家都认同史佩莱的说法，于是马上用发电报的方式通知阿埃童：“速来这里！”

几分钟后，铃响了，阿埃童回电：“马上就到！”

在等待阿埃童的时间里，居民们还在用望远镜看那只船。

“如果是‘邓肯号’，阿埃童肯定会认出来的，他曾在那只船上待过。”赫伯特说。

“要是阿埃童发现是‘邓肯号’，一定会非常激动的。”庞库那夫说。

“是啊，但愿这船真是格莱拉弗爵士的‘邓肯号’，阿埃童现在已经有资格上‘邓肯号’了。我只怕这是别的船。这里海盗很多，我怕是有海盗要上我们的岛。”史密斯说。

“有海盗也不怕，我们可以把他们赶出去。”赫伯特说。

“是的孩子，不过如果不需要我们战斗，是不是会更好呢？”史密斯笑着说。

“说这些猜测的话没用，航海的人是不可能知道林肯岛的，就连最新的地图上都没有。不过，赛莱斯，要是有一只船猛地发现这里有块大陆，也不会错过来察看一番的，是不是呢？”史佩莱问。

没等史密斯回答，庞库那夫便说：“那肯定是的。”

“我觉得很可能是这样，甚至很可能船长的工作就是专门寻找一些没被人发现过的陆地，林肯岛正符合他们的察看范围。”史密斯补充说。

“那要是这船来了，离我们的岛只有几锚链的时候，我们要怎么办才好呢？”庞库那夫说。

这问题问得有些突然，史密斯半天没有回答，想了好一会儿，才同往常一样，用平静的语气说：“我们要怎么做呢？朋友们，我想，我们首先要和船上的人取得联系，代表美国占有了此岛，然后乘坐他们的船离开。最后当我们带着我们的人重返此岛时，就能把太平洋上的这个岛献给美利坚合众国了。”

“啊！这可真是太好了！这样我们就等于送给国家一份大礼了。我们把这岛开发得也差不多了，岛上也有了名字，还有天然港口、储水场、道路、电报设施、船只和制造场等等，应有尽有，就差让林肯岛上地图了。”庞库那夫高兴地说。

“但是，如果在我们离开后，有人想夺取这个岛呢？”史佩莱说。

“该死！会这样吗？那我情愿一个人留下来守着它。你们把这个任务交给我吧，我绝不会让任何人从我手里把岛夺走的。”庞库那夫喊道。

时间已经过去了一个小时，他们还是不能确定那只船是不是在向林肯岛驶来。虽然能看出离林肯岛又近了一些，但船是向着什么方向行驶的呢？就连庞库那夫也说不清楚。不过，由于海面上正刮着东北风，想必船会向右顺风行驶，更何况向林肯岛驶来正好是顺风。此时海面还是很平静的，即使地图上没有标着浅滩，想必他们也能放心大胆地开过来。

四点钟的时候，阿埃童过来了。此时离居民们叫他过来已经过去了一个多小时，他刚刚跨进“花岗宫殿”的餐厅便说：“先生们，有什么吩咐？”

史密斯和往常一样，向他伸出了手，随即将他领到了窗口。

“阿埃童，我们请你来是想让你确定一件事，这件事非常重要，那就是我们发现了一只船。”

阿埃童听到这句话，脸色微变，眼神黯淡下来。他从窗口探出头去看了一下水平线，但什么都没有看到。

“用望远镜看吧。阿埃童，会不会是‘邓肯号’来接你了呢？”史佩莱说。

“你是说‘邓肯号’？会这么快来接我？”阿埃童喃喃着，小声说。

在荒岛上像野人一样过了12年，他还觉得没有赎清罪吗？他已经改过自新了，不管别人看他还是他自己看自己，他没有觉得自己已经得到宽恕了吗？

“不，这一定不是‘邓肯号’！”他说。

“阿埃童，你知道吗？我们现在一定要预先知道接下来会发生什么事，然后再做准备。”史密斯说。

阿埃童用望远镜向大家所说的方向看去。他一动不动地看了很久，最后说：“那确实是一只船，但我想它不是‘邓肯号’。”

“你为什么会觉得它不是‘邓肯号’？”史佩莱问。

“‘邓肯号’是一只游船，周围不可能没有一点烟存在。”

“会不会是因为张帆行驶的原因？如果它现在是顺风，离陆地又远，会不会为了节省煤，所以才没有烟出来呢？”庞库那夫说。

“你说得也有道理，庞库那夫先生，这船是熄了火了，我们只能等它走近后再看，到时候也就会知道将要发生什么了。”阿埃童说。

说完，他去房间的一个角落坐下，不再说一句话。居民们又开始谈论起了这只船，但阿埃童始终没有加入进来。复杂的心情让大家无法安心工作，不停地走来走去，坐立不安。

让赫伯特感到好奇的是，那普表现得很平静，好像并不期待早早回国，难道他不觉得主人的国家就是他的国家？

史密斯陷入了沉思，他的内心里期待这只船到来的念头在慢慢减弱，害怕船到来的心情却越来越强烈起来。

那只船离荒岛更近一些了。从望远镜里，他们已经能看出那是一只双桅船，并不是太平洋上强盗们经常用的那种帆船。那么此时，是不是可以说史密斯的顾虑是多余的，这只船即使在海岛附近出现，也不会给他们带来危险呢？

庞库那夫又仔细地看了一会儿后，能完全确定这是一只双桅船了。这只船正张着中桅帆和上桅帆，沿着右舷，斜着向海岸驶来。

阿埃童也做出了同样的确定。

不过，由于刮着西南风，这只双桅船如果是向这个方向驶来的，那么很快就会被兽爪角挡住，所以必须去气球港，在华盛顿湾的高岗上才能看到。但糟糕的是，此时已经是傍晚五点钟了，在这样的暮色中，他们很快就要什么都看不见了。

“天快黑了，要不要去海边燃一堆火告诉他们方向？”史佩莱问。

这是一个非常重要的问题。史密斯的内心虽然保留着自己的顾虑，但也表示了同意。夜间时，这只船会不会离开后一去不复返？如果船开走了，以后还会有船过来吗？没有船再过来了，居民们会不会永远都无法离开了？

“不管那是只什么船，我们都要让它知道这岛上是有人居住的，我们不能放过这个机会。这个自动送上门的机会要是被我们放过了，很可

能会后悔一辈子的。”史佩莱说。

就这样，他们决定让那普和庞库那夫去气球港，并在天黑时点燃一堆篝火，以此吸引船上人的注意。

然而，就在那普和庞库那夫准备离开“花岗宫殿”去气球港时，却发现那船掉转了方向，向联合湾驶去了。想必那船上的驾驶者的技术非常娴熟，他们很快就接近了海岸。于是，原定计划取消，那普和庞库那夫留了下来。

大家再次将望远镜交给了阿埃童，让他确定这船是不是“邓肯号”，因为“邓肯号”正好也是双桅船。如今，那船离海岸只有10英里左右了，阿埃童只需看看船的两根桅杆间有没有烟囱就能确定了。

此时从望远镜上看，水平线上的船非常清晰。阿埃童放下望远镜，非常肯定地说：“不是‘邓肯号’，绝对不是！”

庞库那夫接过阿埃童手里的望远镜，朝船看去，只见船的载重在三四百吨之间，结构非常精致漂亮，船身虽然狭窄，但樯帆整齐。这是一只航行起来非常快的船，至于是哪一国的，暂时还不能确定。

“那船顶上像是飘着一面旗，不过看不清颜色。”庞库那夫说。

“再过半小时就能看到了。而且我发现那船长像是想上岸，所以今天或明天，我们应该就能和他们见面了。”史佩莱说。

“最好能知道船上是什么人再打交道，现在只要我能认出那船上飘着的旗，我就可以知道了。”庞库那夫说。

庞库那夫说话的时候，眼睛始终没有离开望远镜。此时，天已经完

全黑了下来，风也停了，船上的旗卷着、垂着，他更看不清楚了。

“不过不是美国旗，也不是英国旗。要是英美的旗的话，红颜色很容易看得出来；也不是法国旗和德国旗，更不会是俄国的白旗、西班牙的黄旗。好像.....好像是个单色旗。别急，让我想想，让我想想，想想这一带海面上，还会有什么旗？智利旗？可那是三色的；巴西旗？不对，那是绿色的；日本旗？也不是，那是白色和红色的，而这旗是.....”

此时，微风把那面旗吹展开来，阿埃童拿起庞库那夫放下的望远镜一看，用沙哑的声音喊道：“是黑旗！”

是的，那是一面黑沉沉的旗，正在桅杆上随风飘扬。此时，他们都不禁对那只船产生了怀疑。

是不是工程师史密斯的疑虑成真了呢？来的是一只海盗船？这船是不是太平洋上横行的海霸？这船到林肯岛沿岸是要做什么呢？这是一个无人知晓的荒凉小岛，是要在这里窝藏赃物吗？还是要在这里过冬？这片由居民们开垦的净土，难道要成为这些坏人的藏身之处，成为海盗的巢穴？

居民们的心里不由自主地产生了这样的想法。因为这黑色的船旗颜色，很可能是海盗的旗号。如果当初由阿埃童带领的犯罪分子成功地抢走了“邓肯号”，是不是“邓肯号”也会挂上一面这样的旗子？

大家纷纷议论起来。

“朋友们，不用担心，这船可能只是到沿岸转一圈，很可能不会上岸。当然，不管怎样，我们还是隐蔽起来比较好。观望壁上的风磨真是

太显眼了，阿埃童和那普，你们快去把风翼降下来吧，‘花岗宫殿’也要用树枝遮蔽起来。把火也都熄灭，尽量不要让他们知道岛上有人。”史密斯说。

“那我们的船怎么办？”赫伯特说。

“我们都藏在气球港了，想必那些人不会找到的。”庞库那夫说。

居民们很快就去执行史密斯的命令了。那普和阿埃童去了高地，做了一些必要的防备，把一切人的存在迹象全都掩盖了起来。在他们做这些工作的时候，其他人则去了啄木鸟林，拾了很多树枝和爬藤，将“花岗宫殿”的窗子伪装了起来。同时，他们还准备好了枪支弹药，以应对突如其来的袭击。

在他们将一切准备工作做好后，史密斯说：“朋友们，要是这些坏蛋想要侵占林肯岛，我们一定要保卫它，是不是？”

“对！赛莱斯，即使牺牲自己的生命也在所不惜。”史佩莱说。

史密斯伸出了自己的手，其他人都上去和他的手紧紧地握在一起。

当然，有一个人只是默默地蹲在角落，没和大家一起握手，他就是阿埃童。也许他认为自己是罪犯，没资格这么做。

史密斯知道阿埃童的想法，他走了过去。

“阿埃童，你想怎么做？”他问。

“我想尽我的责任！”阿埃童说。

说完他站在了窗边，透过浓密的枝叶向外看去。

此时已经是晚上七点半了，20分钟前，太阳就已经消失在了“花岗宫殿”后面，所以东方的水平线上也只是朦胧一片。

那只双桅船还在向联合湾驶去。在驶过兽爪角之后，又沿着上涨的潮水向北去了。所以，这时候那只船正好和观望壁高地相对，离他们不过两英里。

双桅船也算是进了宽阔的海港，如果在兽爪角和颞角画直线的话，这条直线应该正好通过右舷后部。

这只船要干什么？是要进入海湾吗？还有，如果这船入了港，是不是会在那里抛锚？还有，这船会不会只是在此处转一圈，上面的人根本就不下船，直接就又走了呢？这些，都将在后来的一个小时里揭晓。他们现在要做的只能是等待。

这只挂着黑旗的船让史密斯很是不安。在林肯岛上，他和伙伴们一直都工作、生活得很顺利很开心，这只船的出现，会不会给他们的工作和生活带来威胁？

这只船上的人，只可能是海盗，不会是别的。

他们为什么要来这里？是不是曾经来过这里，所以才在驶近荒岛的时候，挂上他们的旗帜？岛上曾经发生过的奇怪的事，会不会和海盗有关？

史密斯一直在默默地想着这些问题，可想了很久还是得不出结论。但有一点他很清楚，他觉得双桅船一定会给他和伙伴们的安全带来威胁。

不过，不管最后发生了什么事，他和他的伙伴们是一定不会屈服于

恶人的，他们一定会作战到底。当然，现在他们还有个事情一定要搞清楚，那就是海盗的人数是多少？武器会不会比他们的更精良？

这些情报要怎样才能知道呢？

黑夜完全降临了，甚至连月亮也已经消失。荒岛和海洋，一下子被黑暗包围。水平线上也是阴云密布，没有一丝光线透出来。黑夜好像让风从暮色中消失了，他们不再听得见树叶的沙沙声，更听不到潺潺的水声。

那只船上的灯也熄灭了，什么都看不见。不过，即使现在它停在了荒岛周围，他们也是看不到它的。

“这只该死的船很可能晚上就会走，那么明天我们就看不到它了。”庞库那夫说。

此时，黑暗中先是闪过了一道亮光，接着传出了炮声。那轰隆隆的炮声像是在回答庞库那夫刚才的推测。

那只船还在那里，船上装有大炮。

炮声是在亮光闪过后，过了六秒才响起来的。

所以说，此时，那只船离岸仅有1.25英里。

铁链从链孔里被放了出来，发出了哗啦啦的声响。

双桅船抛锚了，而且是在他们“花岗宫殿”的视线范围内抛锚的……

第二章

再清楚不过了，那只海盗船在离岛不远的地方抛锚，就是为了第二天用小艇登岸。

史密斯和林肯岛上的其他居民，做好了随时行动的准备。虽然他们做了准备、下了决心，但也提醒自己不能大意。如果海盗们登岸后，不到岛内看的话，他们还是可以隐藏起来的。也许海盗们只是想从感恩河取一些淡水离开，那么应该不会发现河口一英里之外的一座桥，以及他们的“石窟”工场。

可船顶上挂着的旗帜是想说明什么？还有那一炮的意思是什么？很明显，这是一种示威的做法，或者是想说他们已经占领海港了？史密斯此时已经知道，海盗船上的武器装备非常精良，而且很齐全。有了炮，林肯岛上的居民们要去怎么对付呢？他们仅仅只有几支滑膛枪而已。

“不管发生什么事，我们的‘花岗宫殿’也是攻不破的。而且这里有芦苇和乱草掩盖，敌人一定不会发现，更不可能攻进来。”史密斯说。

“可我们的麦田、家禽场、牲畜栏，我们创造的一切……很可能不到几个小时就会没有了。”庞库那夫气愤地跺着脚，大声嚷嚷着。

“是的，一切都可能被毁灭。庞库那夫，我们无法阻止他们做这些事。”史密斯说。

“他们是不是有很多人？如果只有十多个，我们还是能够阻止他们的，但如果有四五十或者更多，我们就没办法了。”史佩莱说。

正在这时，阿埃童走了过来。

“史密斯先生，让我去一趟吧！”

“干什么？朋友！”

“我去打探一下情况。”

“可是，阿埃童……这样很危险的，不行！很可能会有生命危险……”史密斯犹豫着。

“为什么不行？先生？”

“因为这不是你的事。”

“即使不是我的事我也要去做。”阿埃童说。

“你想怎么去？坐船吗？”史佩莱问。

“不，我不坐船，我游过去。要是坐船的话，很容易被他们发现的。我一个人从海里游过去比较好。”阿埃童说。

“那船离岸还有1.25英里呢，你行吗？”赫伯特说。

“我水性很好。赫伯特先生。”

“可是……这是有生命危险的。”史密斯还是不想让他去冒险。

“我不怕。史密斯先生，答应我吧，这是我重新做人的机会。”阿埃童说。

“好的，去吧！阿埃童！”史密斯说。他知道如果不答应，阿埃童一

定会伤心的。

“我和你一起去。”庞库那夫说。

“你不相信我？”阿埃童伤心地说完，叹了口气。

“不是这样的，别误会！阿埃童，庞库那夫不是不相信你，你误解他了。”史密斯说。

“是呀！我只是想用船送你过去，现在匪徒很可能已经上岸了。如果你一定要一个人去，那我和你一起去，我在着陆岛等你，你一个人上他们的船。”庞库那夫说。

事情就这么决定了。

阿埃童准备出发。阿埃童的计划非常冒险，但在这样的夜色中，也许会成功。他只要到船边抓住主要链条，便能获悉船上的人数，甚至有可能知道海盗们来到这里的真实意图。

两个人在同伴们的陪伴下出了“花岗宫殿”，来到了海滩上。由于海水很凉，阿埃童脱下衣服后，在身上抹了一层油以防冻，因为他很可能要在海水里待上好几个小时。

此时，庞库那夫和那普也已经去搬那只平底船了，平底船在感恩河的河口几百英尺的地方。等他们回来，阿埃童已经将衣服搭在肩上，准备动身了。居民们握手和他告别。

阿埃童和庞库那夫上了平底船并划动起来。

两个冒险的人在夜里十点钟时，消失在了黑暗中，而他们的伙伴则

全都去了“石窟”等他们。

庞库那夫和阿埃童划着平底船过了海峡，并在对面的着陆岛上岸。由于怕被在着陆岛上溜达的海盗发现，他们的一举一动都十分小心。在经过一番侦察，确定着陆岛上没人后，庞库那夫和阿埃童一起上了着陆岛。石洞里有小鸟被他们惊动，飞了出来。

阿埃童深吸一口气，跳进海里，向那双桅船的方向游去。庞库那夫则躲在了一个乱石堆后等着他。

双桅船上正好亮着灯，阿埃童很容易找到它的正确位置。

阿埃童在水里拼命地游着，却没有发出丝毫的声音。船上的灯光映照在水里，阿埃童只是将头露出水面，两眼注视着黑暗中的船身。

此时，他什么都没想，只想尽快完成任务。对于船上的坏人以及海里的鲨鱼，他全然没有考虑。水流悄无声息地带着他前行。

半个小时后，阿埃童游到了船边。他先是抓住主链喘了口气，接着攀上了主链，爬到了船的前端。

看到有几条水手裤正晾在那里，他随手拿起一条穿上，静静地倾听着船上的声音。船上的人并没有睡觉，而是在那里谈笑唱歌。在说话声和谩骂声中，他听到了令他心里隐隐作痛的几句话：

“我们得到的这只船可真是太棒了！”

“不愧叫‘飞速号’，行驶起来又稳又快！”

“诺福克船队都追不上它。”

“船长万岁！船长万岁！”

“鲍勃·哈维万岁！”

鲍勃·哈维，当阿埃童听到这个名字后，顿时一惊。这是他在澳洲时的同伙，是一个胆大包天的水手，没想到他现在还在干这种犯罪的勾当。

可以想象，当阿埃童听到这个名字时的心情。

看来是哈维在诺福克岛的海岸抢夺了这只双桅船。诺福克船队去追，却没有追上，船上装有武器、弹药和各种工具。

原来，这只双桅船原本准备开往夏威夷群岛的一个岛屿，不料却被海盗抢去成了海盗船。有了这只船，这些海盗在太平洋上无恶不作，抢劫过往船只，屠杀船上的人，简直比索马里海盗还没有人性。

海盗们高兴地喝着酒，兴奋地说着他们曾干过的无耻勾当。阿埃童从他们的话里知道，“飞速号”上的船员，大多是英国罪犯，是从诺福克岛上逃出来的。

说到这里，有必要先介绍一下诺福克岛的情况。它位于澳大利亚东部，处在南纬29°2'，东经165°42'，是一座小岛，岛上有座海拔1100英尺的霍太山。

在诺福克岛上，曾监禁过一些英国感化院都无法感化的顽固罪犯。当时，岛上有500名罪犯，由150名士兵监管，这些士兵又都听从一名总督的指挥。

岛上纪律严明，罪犯经常会受到苦刑。

不难想象，当这么多的暴徒聚集在一起时会怎样。虽然监管严厉，但还是不断有人逃跑。逃跑后的罪犯便经常突袭船只，将船抢过来后在波利尼西亚群岛一带继续抢劫过往的船只。

这种做法也曾是阿埃童以前想做的。哈维在抢了停在诺福克岛附近的“飞速号”后，又将船上的人杀死，最后驾驶着这只抢来的船在太平洋上横行。此时，这个阿埃童的熟人是海盗的头目。

原来的罪犯，如今的海盗们大都在船尾的舱里，也有几个躺在甲板上聊天。

阿埃童现在明白，这只船是偶然间来到林肯岛附近的，以前从来没有来过这里。这和史密斯的推测一样。在航行中，哈维发现了这块陌生的陆地，便决定到岛上巡视一番，如果满意，这里将会变成他们的大本营。

“飞速号”上悬挂的黑旗以及那声炮响，都是模仿军舰降旗时的做法，是海盗的一种示威行为，不是什么信号，做这些举动也和林肯岛没有关系。

如今，居民们辛辛苦苦开拓的领地面临着危险，荒岛上不仅有储水场和港口，还有家禽场、牲畜栏、麦场和用于居住的“花岗宫殿”等。这些都是居民们通过辛勤的劳动获得的，非常宝贵。

如果这些资源和领地被犯罪分子抢去了，很可能会成为他们最隐蔽的藏身之处。由于无人知道此地，所以犯罪分子是非常安全的。而对于林肯岛的开拓者，海盗们也一定不会放过，肯定会灭口，所以哈维和他的部下一旦知道居民们的存在，大家就危险了。

即使海盗们要出海打劫，也会留几个人看守的。这样的话，居民们很难脱身。所以，大家必须不惜一切代价将这群罪犯消灭。阿埃童是这么想的，他知道，史密斯一定也会这么想。

但是，直接面对面地战斗能不能取得胜利呢？这还取决于海盗的人数和装备情况。阿埃童决定无论如何也要搞清楚这一点。

在他上船一个小时候后，船上的喧哗声慢慢地没有了，很多海盗都喝醉了，呼呼大睡起来。阿埃童没有丝毫犹豫，决定冒险爬上甲板。

此时，船上的灯光也已经熄灭了，整只船上一团黑暗。他抓住船桅，慢慢地爬到了前甲板。甲板上躺着东倒西歪的海盗，他悄悄地从他们身上跨过去。在船上绕了一圈后，发现船上装着四门能发射八到十磅炮弹的大炮。他悄悄用手一摸，发现是后膛炮，这些新式武器不仅操作方便，而且威力很大。

他大概看了一下，甲板上睡着的应该有十多个人，下面舱里睡了多少人？他还不知道。不过从刚才他们的谈话中，阿埃童估计船上总共有50个人。

50个强盗，林肯岛上只有6个居民，这是多么悬殊的力量，看来想要赢得这场胜利，绝对不是一件容易的事。幸好有阿埃童，让史密斯有机会掌握敌人的情况，以便适时做出安排，避免出现惊慌和忙乱。

阿埃童只要完成他的摸底任务，把情况告诉给林肯岛的居民就行了。

他准备到船头后再下水返回。

不过，他突然产生了一个想法，那就是他要做一件额外的工作：牺

牲自己的生命，保全林肯岛上的居民。

他觉得，史密斯肯定打不过这些海盗。海盗们有精良的武器，不管是集中火力攻击“花岗宫殿”，还是采用围困的方法让大家饿死，都会达到他们的目的。但是，林肯岛上的居民是他的恩人，是他们，让他脱胎换骨成了好人。如果这些人被海盗们屠杀，岛上的劳动成果也被毁于一旦，林肯岛成为海盗的巢穴……后果不堪设想。

阿埃童对自己说，这都是自己的错，是自己造成了如此恶劣的后果，因为他的伙伴哈维只是在做他以前打算做的事。

想到这里，他觉得太可怕了。于是，他想鱼死网破，炸掉整只船和船上的人。当然也包括他自己。

这样的话，自己也算是为林肯岛上的居民做了贡献。

这么决定后，他没有迟疑，决定去找火药库。他知道，火药库通常在船的后半部分。而在海上抢劫是不会缺少火药的，只需一粒火星，就可以让整只船炸毁。

阿埃童沿着中舱甲板，慢慢地向后面走去。甲板上到处都是熟睡的人。当然，更多的不是睡熟而是喝醉倒下的。主桅底部有一盏灯，周围有一个枪架，枪架上的武器应有尽有。阿埃童先从枪架上拿走了一支左轮枪，发现里面装满了弹药。

这些弹药足够他来完成这个破坏计划。他直奔船尾，想去后舱的火药库。

想要穿过光线很暗且遍地躺着喝醉海盗的甲板绝非易事。当他不小心踢到海盗时，这些恶棍先是谩骂，接着回踢了他一脚。为了不被他们

发现，阿埃童只能走走、停停、躲躲。最后终于走到了后舱的隔板旁，找到了通往火药库的门。

门是锁着的，怎样才能打开呢？除了用力，似乎没有别的办法。可他使了很大的劲，门还是打不开。他再一想，还是先砸掉门上的挂锁吧，不过很可能会弄出一些声响来。好在他的腕力够大，挂锁终于被他拧断了，库门也打开了。

不过，在他正准备进去时，一只手搭在了他的肩膀上。

“谁？干什么？”一个粗鲁的声音。

阿埃童在黑暗中，看到了一个高高的影子，接着，一道灯光照在了他的脸上。

阿埃童连退几步，他在灯光中认出了这个高高的影子是他曾经的伙伴鲍勃·哈维。不过，哈维并没有认出他，或者说他早就以为阿埃童死了。

“干什么的？”

哈维一把抓住了阿埃童的胳膊，问了一句。

阿埃童没有回答，他想挣脱哈维的手，冲进火药库。因为他觉得只要自己能对着火药箱开一枪，就能成功了。

“伙伴们，快来！”哈维大叫一声。

有两三个海盗被叫醒了，跳了起来，向阿埃童扑过来，想把他扑倒在地。阿埃童急忙闪开身，连开两枪，两个海盗随着他的枪声倒下了。

不过，他也因为躲避不及，被哈维一刀砍在了肩膀上。

此时，阿埃童已经无法实施自己鱼死网破的计划了，哈维已经将火药库重新锁好，甲板上和舱里的海盗也醒了。为了保全自己，帮助林肯岛上的居民战斗，他只能先逃走。

有个问题是，能逃得了吗？不过，阿埃童决定不管怎样都要尽全力回到伙伴们面前。

枪里还剩四颗子弹。刚才打掉的两颗，一颗是朝哈维开的，不知道打中了没有，即使打中，也一定只是轻伤。阿埃童趁海盗们退后的机会，冲上了扶梯，跑向甲板。

经过灯下面时，他开枪将灯打灭。周围一片漆黑，这样他就能逃跑了。不过又有海盗冲了过来，于是阿埃童开了第三枪，打中了其中的一个，后面的海盗开始往后退。阿埃童三步并作两步跑上甲板，仅仅三秒钟，一个海盗的咽喉就被他卡住了。他连开三枪，最后一颗子弹，打中了被卡住咽喉的海盗。随即，阿埃童越过舷栏，跳进了海里。

阿埃童在海里还没划几下，船上的枪声就密集起来，一齐朝海里扫射。

当船上的枪声响起的时候，着陆岛乱石后面躲着的庞库那夫会怎么想？在“石窟”里等着的史密斯、史佩莱、赫伯特和那普又会怎么想？

他们此时正拿着枪，冲到海滩上，随时准备和敌人作战。

他们以为阿埃童被海盗打死了，甚至想着海盗很可能会趁着黑夜到岛上来。

在他们焦急地等了大概半个小时后，枪声停了，但阿埃童和庞库那夫还不见踪影。此时着陆岛是不是已经被海盗占领了？他们是不是该去支援他们？又要怎么去支援？

此时，正是涨潮的时候，海峡是过不去的，又没有船，史密斯和同伴们的焦急心情可想而知。

差不多午夜十二点的时候，阿埃童和庞库那夫乘坐的平底船靠了岸，大家高兴地迎了上去，热烈地拥抱他们。阿埃童的肩膀受了轻伤，庞库那夫一切都好。

居民们马上躲进了“石窟”。阿埃童将他侦察到的情况告诉了他们，并说了自己想炸掉那只船的想法。

每个人都向阿埃童伸出了手。阿埃童又告诉大家，此时的处境更危险了，因为海盗已经被惊动了，他们知道了林肯岛上有人，所以一定会全副武装登陆的。对于海盗来说，他们没有任何顾忌，一旦落在他们手里，只有一死。

“放心吧！我们不会白白送死的。”史佩莱说。

“我们还是进去盯着吧！”史密斯说。

“我们能逃脱吗？史密斯先生！”庞库那夫问。

“当然可以，庞库那夫。”

“呵呵……我们可是6对50！”

“是的！我们只有6个人，当然不包括……”

“什么？”庞库那夫问。

史密斯没有说话，指了指上面。

第三章

这一夜有惊无险地过去了。

居民们如今面临着生死问题。他们没有离开“石窟”，而那只海盗船上的海盗好像也没有上岸的想法。自从海盗们对阿埃童开了最后一枪后，便没有再开过枪，甚至没有丝毫的声音显示他们在着陆岛附近。

难道他们拔锚起航了？是不敢和岛上的人交火，所以离开海岸了吗？

当然，事情并非这么简单。当天破晓时，透过薄雾，居民们看到了朦胧中一团模糊的黑影，那便是“飞速号”。

“朋友，现在的情况是，薄雾中，海盗所处的位置是看不到我们的，这对我们有利。但关键是，海盗们没有进一步行动，很可能是觉得岛上人多，足以抵抗他们。所以现在我们要做的就是在雾散前，将我们的人分成三路，一路在‘石窟’；另一路在感恩河口；还有一路在着陆岛。这样做即使不能阻止他们，也可以牵制他们，使他们不敢轻易登岛。

“现在我们总共有两支步枪、四支滑膛枪。我们要先将自己武装起

来，弹药我们不缺，有的是。所以我们不必害怕船上的滑膛枪，就是大炮也不用担心。我们有这些岩石作掩护，他们不能把我们怎么样。现在我们只要不在‘花岗宫殿’的窗口开枪，他们就不知道去炸它，我们就有根据地。我最担心的是肉搏战，因为他们人数占优。所以，我们必须想办法不让他们登陆，但同时还不能将自己暴露在他们面前，所以要舍得用弹枪。尽管开枪，不过也要瞄准了再开。我们每个人争取打8到10个海盗，只有这样才能将他们全部消灭。”史密斯严肃地说。

虽然情况紧急，但史密斯在说话时，语气依然十分镇定，好像不是在指挥战斗，而是在调度一项工作。当然，同伴们也都完全认可他的部署。

现在他们要做的就是雾散前分开，到各自把守的地方去。那普和庞库那夫先去“花岗宫殿”，拿了很多弹药回来。史佩莱和阿埃童都是好枪手，所以每人拿了一支步枪，射程在一英里左右；史密斯、那普、庞库那夫和赫伯特则各拿了一支滑膛枪。

位置分配是这样的：史密斯和赫伯特埋伏在“石窟”附近，负责的范围是“花岗宫殿”下的海岸；史佩莱和那普埋伏在感恩河口的岩石间，河上的吊桥被他们扯了起来，他们负责阻止海盗渡河以及在对岸登陆；阿埃童和庞库那夫划平底船过了海峡，在着陆岛上找好点。

这样的安排，可以让他们的火力同时从四个点发射，以便让海盗们觉得岛上人很多，而且防卫能力很强。

当然，如果阿埃童和庞库那夫无法阻止海盗上岸，那么，他们很可能被海盗的船切断退路，这时，他们必须在海盗堵截他们退路前赶到另一据点去。

在将一切都安排妥当后，居民们要出发去他们各自的位置了。他们互相最后一次握手，庞库那夫还热情地拥抱了赫伯特，大家都竭力抑制自己的感情，然后离开。

不一会儿，四个据点都有人了，史密斯和赫伯特在一起，史佩莱和那普在一起。他们都躲在了岩石后。而阿埃童和庞库那夫仅仅用了五分钟便顺利地渡过了海峡，登上了着陆岛，各自隐藏在东岸的岩石丛中。

别人无法看到隐藏着的他们，而他们也看不到雾里的海盗船。

此时是早晨六点钟。

没过多长时间，薄雾散尽，船上的中桅在水汽中显露出来。虽然几分钟后又有浓雾涌向海面，但很快又被海风吹散了。

此时，那只载有海盗的“飞速号”完全暴露出来，锚链上系着一根曳索，船头是向着北边的，左舷对着海岛。和史密斯估计的完全一样，这只船离岸不过1.25英里。

黑旗在船上迎风飘扬。

史密斯从望远镜里，看到了船上正对着荒岛的四门大炮。显然，他们准备先用大炮轰击海岛。

不过，此时的“飞速号”上有三十多个海盗在甲板上走来走去；船尾也有几个人；桅索中间站着两个人，手里都拿着望远镜，观察着海岛。

看来，哈维和他的手下也无法理解昨晚发生在船上的事。一个上半身没穿衣服的人，强力打开了火药库门，并和他们进行了一场格斗，开了六枪，打死一个打伤两个。

那个人呢？被他们打死了吗？或者他又回到了岸上？他是从什么地方来的？上“飞速号”的目的又是什么？真像哈维所想的那样，是要炸双桅船吗？

每个问题都让他们吃惊和想不通。不过，有一点他们能够肯定，那就是他们“飞速号”面前的海岛是有人居住的，而且可能有很多人。不过，他们拿望远镜看了，不管是岸上也好，高岗上也好，都看不见一个人。就连海滩上也不见人，甚至连一点房屋的影子都没有。

岛上的人都去哪里了？逃去了内陆？海盗船长应该是做了这样一番揣测的，所以他觉得他们首先要摸清情况，然后再让手下上岸。

一个半小时过去了，“飞速号”上的海盗还是没有进攻和登陆的迹象，很明显，哈维还在犹豫。尽管他换了倍数很大的望远镜，但隐藏起来的居民他还是一个都看不到。对于被绿枝和爬藤掩藏着的“花岗宫殿”，虽然在那光滑的岩石上显得有些突兀，但大概也没引起他的注意。确实是的，谁能想到，在那么高的地方上，有人会将它作为居住的房屋呢？在他用高倍望远镜，从兽爪角到联合湾，又到颞角都看了一遍后，依然没有人存在的迹象。

八点钟的时候，居民们看到“飞速号”上有人要行动了。先是一只小船被放了下来，接着有七个人跳了进去。七个人每人带着一把滑膛枪，他们一个掌舵索，四个划桨，另外两个伏在船头看四周情况，并做着随时开火的准备。

看来，这次他们并不是准备登陆，而是为了侦察。如果登陆，应该不会只有七个人。海盗们从他们的瞭望台上看到荒岛的海岸上有个小岛，而海岛和小岛间又有半英里宽的海峡。不过，史密斯很快就从他们

小船的行驶方向发现，他们不是要进海峡，而是要从着陆岛登陆。

着陆岛那边，庞库那夫和阿埃童正各自隐藏在岩石夹缝，看到小船向他们划来时，他们等着那船进入他们的射程。

小船在小心翼翼地前行，海盗们每隔很长时间才会去划一下。而此时，居民们才发现，有个海盗的手里拿着一根铅垂线，想必是要测量海峡的深度。这说明，哈维是想让“飞速号”靠近海岸。

“飞速号”上的三十多个海盗，在索具间一直盯着小船，并寻找着安全靠岸的界标。

此时，在离着陆岛不到两锚链的地方，小船停了下来。那个掌舵的先起身，寻找能够上岸的地方。

只听两声枪响，一股轻烟从着陆岛的一块岩石间腾起。掌舵者和测水者全都倒在了水里。原来，阿埃童和庞库那夫同时打中了那两个人。

随着一声轰隆隆的炮响，从双桅船上喷出了一团烟雾，炮弹落在了掩护阿埃童和庞库那夫的岩石顶上，岩石被炸得粉碎，但两名射击手却并没有受伤。

那只小船上的人先是一阵破口大骂，接着继续掌舵划行，此时，掌舵的重新换了一个人，其他的人则划着桨。没想到的是，他们不但没掉头回去，反而沿岸驶来，准备绕着陆岛南端过去。海盗们使劲划船，拼命想躲出阿埃童步枪的射程。

在转了半个圈后，他们在双桅船上那只大炮的掩护下，在离拾箱角岸边约五锚链的地方，继续向感恩河的河口驶去。

很明显，他们是想进入海峡，切断着陆岛上居民的退路。对海盗来说，不管着陆岛上有多少人，他们都要将居民们置于两船火力的不利位置。

小船继续向感恩河口的方向驶去，差不多15分钟过去了，周围没听到一点声音，海面也是一片平静。

虽然身处被切断退路的危险，但庞库那夫和阿埃童都没有离开他们原有的位置，他们不想在小船和“飞速号”的炮火前暴露自己。同时他们也相信，不管是防守河口的那普和史佩莱，还是埋伏在“石窟”附近岩石处的史密斯、赫伯特，都会支援他们的。

离第一次射击已经过去20分钟了，海盗划的小船也有不到两锚链就到感恩河口了。此时，海面开始涨潮，由于海峡过窄，水势很大，海盗们的小船被冲到了河口。当他们费力保持在海峡中流时，那普和史佩莱开枪了，这两枪同样没有落空，小船上又有两名海盗倒下了。

“飞速号”上的大炮又开火了，但和刚才一样，仅仅只是把岩石炸碎而已。

此时，海盗的小船上仅有三个人了。小船顺着水流，像箭一般地冲过海峡，到了史密斯和赫伯特面前。由于觉得没在射程之内，所以两个人都没有开枪。最后，小船在双桨的划行下，绕到了着陆岛北端，向“飞速号”划去。

截至目前，岛上的居民都毫发无伤，而且枪不虚发。但海盗们却损失惨重，四个海盗死的死，重伤的重伤。如果海盗想继续这么进攻的话，那居民们还打算用这个方法来个个击灭。

由此也可看出史密斯的指挥有方了。史密斯的策略，让海盗认为岛上不仅人多势众，而且武器精良，并不能轻易取胜。

小船逆水划了半个小时后，终于靠近了“飞速号”。当没有受伤的三个海盗带着其他死伤的海盗上船后，船上顿时发出了一阵阵的号叫声，接着又是莫名的两三声枪响。

稍停，又有十来个海盗怒气冲冲地跳进了小船，接着，又有一只小船被放了下来，跳进去了八个人。第一只小船依然向着陆岛划去，想赶走着陆岛上的人，另一只则准备袭击感恩河的河口。

在这样的情况下，庞库那夫和阿埃童就处在了最危险的境况中，非回海岛不可了。不过，他们还是在第一只小船进入射程后，准确地开了两枪，小船上顿时又是一片混乱。在这个间隙，庞库那夫和阿埃童冒着密集的火力，从岩石后面出来，穿过着陆岛，上了他们的小船。当海盗们的第二只小船到达南端时，他们已经穿过海峡，到了位于“石窟”的史密斯和赫伯特身边。

海盗就此占据了着陆岛，而此时，感恩河口也传来了枪声。原来，是海盗的第二只小船在驶向感恩河的河口时，八人中的两个被史佩莱和那普击中，奄奄一息。剩余几个人在惊慌之下，让小船撞上了礁石，等到了感恩河的河口时，小船已经进水了。

那六个没中枪的海盗则高举滑膛枪，登上了河的左岸，向着拾箱角枪弹打不到的地方跑去。

此时，着陆岛上有十二名海盗和一只小船。在这十二名海盗中，也有几个受了伤；而在海岛上，则有六个海盗，但因为吊桥被扯了上去，他们无法过河，更不能到达“花岗宫殿”。

“史密斯先生，现在该怎么办？”庞库那夫问。

“我想，我们要转入下一场战斗了。海盗们不可能甘心这么处于劣势的。”史密斯说。

“他们肯定过不了海峡。阿埃童和史佩莱在那里是可以阻挡他们的，因为他们的步枪能打到一英里之外呢。”庞库那夫说。

“那是当然的，不过两支步枪是敌不过双桅船上的大炮的。”赫伯特说。

“船还没到海峡呢。”庞库那夫说。

“假如到了呢？”史密斯问。

“不可能的，他们要是真敢那么做，船就会搁浅或熄火！”

“还是有可能的，落潮时，船肯定有搁浅的危险，但如果他们乘涨潮时去，就不会搁浅。那时候，在他们的炮火下，我们是守不住阵地的。”阿埃童说。

“完了，这帮混蛋真的好像要起锚了！”庞库那夫喊。

“看来，我们只能躲到‘花岗宫殿’了。”赫伯特说。

“稍等会儿！”史密斯说。

“史佩莱先生和那普还没过来。”庞库那夫说。

“到了时候，他们会过来的。阿埃童，准备好，该是你和史佩莱用步枪的时候了。”

“飞速号”就要起锚了，显然他们想驶近着陆岛。此时退潮已结束，潮水上涨至少会持续一个半小时，他们想趁这个时间前行。对于阿埃童所说的海盗会趁涨潮时进海峡这个观点，庞库那夫并不认同，他觉得他们不敢冒这个险。

此时，着陆岛上的海盗慢慢地到了对岸，与海岛只有海峡之隔了。

海盗们手里的是滑膛枪，伤不到埋伏在“石窟”和感恩河口的居民。而海盗们没想到，居民们会用射程远的步枪应对他们，所以完全暴露在了他们的火力之下，并在毫无隐蔽的情况下，观察着着陆岛和海岸。

步枪响了，阿埃童和史佩莱一人一枪，再次给海盗们带来了坏消息——两个海盗倒下了。

海盗们惊恐起来，十个人毫不顾及伤亡的同伴，向着陆岛方向逃去，并连滚带爬地上了小船，向“飞速号”跑去。

“少了八个。史佩莱先生和阿埃童真是厉害，像听到指令似的，同时开枪。”庞库那夫说。

“诸位，不好了，双桅船像是要开动了。”阿埃童说着话，开始往枪里装子弹。

“起锚了。”庞库那夫叫道。

“已经在动了。”

居民们清楚地听到了绞盘发出的声音。曾经被锚拉住的“飞速号”，起锚后，便开始向岸边漂了过来。此时，海面上吹起了风，三角帆和桅帆张开了，逐渐向海岛靠来。

两个阵营——感恩河和“石窟”的居民都隐藏得很好，但他们的情绪却很紧张。要是带着炮火的船发现了自己，就完全无法还手了。如果真是这样，那该有多么可怕啊。但又要怎么做才能阻止海盗上岸呢？

史密斯意识到了危险的降临，他思考着该怎么办。很快，大家就要问他该怎么做了，可要怎么做呢？藏到“花岗宫殿”去吗？那里有充足的食物。可要几个星期甚至几个月地囚在里面吗？这样虽然没有问题，但以后又要怎么办？任由海盗掠夺海岛，恣意蹂躏吗？最终，海盗们还是会想法屠杀躲在“花岗宫殿”的他们的。

不过，如今居民们还有一个机会，那就是哈维很可能不敢冒险将“飞速号”开到海峡去，只是停留在着陆岛外面。这样的话，海盗离海滨还有半英里距离，即使开火开炮，威力也不是很大。

“我觉得他不会去冒险，哈维如果是个航海老手，绝对不会去冒这个险，他知道在海水比较浅的时候，双桅船一定会遇到危险。没有了船，他们海盗还怎么去抢劫？”庞库那夫非常肯定地说。

此时，双桅船马上就要靠近着陆岛了，能看出船是尽力往上开的。风力小，潮流量也不大，可见哈维在竭力控制他的船。

“飞速号”沿着小船行驶过的路线在行走，通过对海峡的全面观察，正大胆地往海峡开。现在海盗的意图全清楚了，那就是：让炮火对着“石窟”，向曾打死他们同伴的开枪点发射。

“飞速号”以飞快的速度绕过了着陆岛的顶端，主帆扯起，顺着风向感恩河对岸驶来。

“这群恶棍！他们来了！”庞库那夫说。

此时，那普和史佩莱也回到了史密斯、阿埃童、庞库那夫和赫伯特这边。

史佩莱和那普之所以过来，是因为他们在感恩河的河口已经无法应对双桅船了，只好放弃那块阵地。这是聪明的举动。在这样的紧要关头，居民们最好能团结在一起。当他们从岩石后跑出来时，曾遭到了海盗的枪击，但都没有打中。

“史佩莱、那普，你们还好吧！”史密斯大声问。

“我们很好，就是枪弹从地上弹起时，碰了一下，没事。那该死的船开到海峡去了。”史佩莱说。

“是呀，看来，只需要十分钟，船就要停在‘花岗宫殿’前了。”庞库那夫说。

“现在我们要怎么做？赛莱斯？”史佩莱问。

“现在我们还有时间，先躲到‘花岗宫殿’吧，他们是看不到我们的。”

“可以，但如果我们被围困……”史佩莱没有说完。

“到时候再说吧！”史密斯说。

“那我们快走！”史佩莱说。

“史密斯先生，让我和阿埃童留在这里可以吗？”庞库那夫问。

“不行，留在这里没有意义的。庞库那夫。我们不要太分散。”史密斯说。

此时，他们一点时间都不能浪费了。居民们迅速离开“石窟”，因为有岩石挡在他们面前，所以双桅船上的海盗都没有发现他们撤退。不过有两三枪打在了岩石上，这也表明“飞速号”离他们越来越近了。

居民们快速跳进升降梯，从“花岗宫殿”大门进去，直奔大厅，仅仅用了一分钟时间。“花岗宫殿”里，多卜和狙布都在，它们是前一天晚上被居民们关在这里的。

他们回来得真是及时，因为透过窗口的树枝，可以看见“飞速号”开进了海峡。枪声不断，四门大炮对着他们刚刚的阵地——感恩河的河口以及“石窟”拼命轰击。那两处的岩石乱飞，而每发一炮，海盗们就会发出兴奋的欢呼声。幸好史密斯早早地让他们将窗户隐藏了起来。

他们多么希望“花岗宫殿”能够幸免，不遭受炮击啊。不过，就在这时候，有炮弹穿过屋门，进了走廊。

“这里被发现了！”庞库那夫大喊。

居民们不知道，哈维在看到这块悬挂着枝叶的地方时，觉得有些可疑，便开了一炮，结果发现真有问题，便又发了一炮。第二炮将遮蔽的树叶打飞了，石壁上的洞口暴露在了外面。

居民们瞬间处在了绝境中，他们的最后堡垒也被发现了。此时，他们既无法阻挡猛烈的炮火，又不能在炮火的袭击下保护这堡垒，只能眼睁睁地看着碎片在他们周围飞。如今唯一的办法就是去“花岗宫殿”的上层通道躲避，对于这处堡垒，只能舍弃了。

然而，突然，他们听到了一阵沉闷的巨响，随即便是一阵阵惨叫。

居民们全都跑向窗口。

一股水柱将双桅船抛了起来，将它冲成了两片。十秒钟不到，“飞速号”和船上的海盗全都不见了……

第四章

“船爆炸了！”赫伯特最先大喊一声。

“是的！是的！爆炸了，就像阿埃童点着火药库一样爆炸了！”庞库那夫激动地说着，和那普、赫伯特一起跳进了升降梯。

“这到底是怎么回事？”史佩莱惊诧地问，他被这突如其来的结果搞蒙了。

“现在我们终于知道了……”史密斯飞快地说。

“知道什么？”

“先不要急！史佩莱，先别急！关键是，现在海盗被消灭了，这才是最关键的。”

史密斯催促怔在那里的史佩莱和阿埃童，三个人一起赶到了海滩，和庞库那夫、那普及赫伯特会合。

那只双桅船已经消失了，连桅杆都不见了。它是被水柱抛起，然后向侧边倒下去，随后沉没的。毫无疑问，这里海峡的水深不过20英尺，有时水深，有时水浅。水浅时，沉下去的船帮就会重新露出水面的。

沉船上有东西已经浮出了水面，还有木筏漂出了舱口，比如装活鸡的鸡笼、箱子和木桶。奇怪的是，沉船的残骸却没有丝毫影子，既不见甲板上的木料，也没有船身的肋材，“飞速号”沉没得令人不可思议。

但是，船上两根折断的桅杆还是摆脱了护桅索和支索，漂了上来。桅杆上挂着帆，有卷着的部分，也有浮在水面的部分。阿埃童和庞库那夫不等潮水将那些财物漂上来便跳进了小船，想把沉船的残骸拖到海滩或着陆岛上去。不过，正在他们想要把小船摇起来时，史佩莱的一句话让他们停了下来。

“上了感恩河右岸的那六个海盗去什么地方了？”

是呀，这可不能忽视。那六个人乘的小船虽然已经在岩石上被撞碎了，但他们却在拾箱角登岸了。

居民们四下看着，看不到一个捡了命的海盗。很可能他们在看到双桅船沉没后，跑到荒岛内陆去了。

“我们慢慢对付他们。不过，他们带着武器，还是很危险的。现在我们是六个人对他们六个人，实力相当，先解决当下的问题吧！”史密斯说。

于是，阿埃童和庞库那夫划着船，向刚刚沉船的地方划去。

海面趋于平静。两天前正值新月，所以是潮水正高的时候，不过再有一个小时，双桅船应该就能露出水面了。

桅杆和圆材被阿埃童和庞库那夫用绳子缚住，绳子的另一头被他们拉到了海滩。在大家的齐心努力下，沉船的残骸被拉了起来。最后，庞库那夫和阿埃童又驾着小船将漂浮着的东西，包括鸡笼、木桶和箱子全

都捞了起来，并送到了“石窟”。

水面上浮起了几具尸体，其中就有鲍勃·哈维的，阿埃童激动地说：“过去我就和他一样，也是干这个的。庞库那夫！”

“可现在你金盆洗手了。勇敢的阿埃童！”庞库那夫说。

他们数了数浮起来的尸体，觉得很奇怪，只有五六具。这些尸体，没过多长时间就被冲进了大海，其余的海盗很可能来不及逃出来，和船身倒在一起，留在了海底。这样倒也省了他们掩埋尸体了。

史密斯和其他人用了将近两个小时的时间，将圆材拖上沙滩，然后将船上那些没有丝毫损坏的帆铺开，准备将其晾干。每个人都干得很卖力，很少说话，但脑子里却都在想着很多事。

被炸的双桅船上的任何一件物品，对居民们来说都是增添的一份财富。确实是这样，一只船上会载有日常生活所需的用品，这样居民们的仓库又能增加很多有用的东西了。这就相当于他们在拾箱角捡到的那只箱子，甚至比那只还大。

当然，庞库那夫心里还有其他想法：“如果能让这双桅船浮起来该多好。如果这船只是有个窟窿，还是能够补好的。这船怎么也有三四百吨重，和‘长风破浪号’相比，好很多了。有了这只船，就能去更遥远的地方了，甚至能爱去哪儿就去哪儿了。史密斯先生，我要和阿埃童去好好看看，在它身上下功夫是值得的。”

是的，如果双桅船还能航行，那他们回国就大有希望了。不过，要想解决这个问题，他们必须等潮水很低的时候才能动手，只有那时，他们才能检查整个船身的情况。

在把财物全部运上岸后，居民们这才才有几分钟的时间吃饭。他们太饿了，幸好离食品室不远，而那普又是一个手脚麻利的厨师。于是，他们很快就在“石窟”附近吃了饭。不用说也能知道，吃饭时，他们聊得最多的就是如何摆脱险境的。

“真是个奇迹！那群恶棍被炸得正是时候，‘花岗宫殿’正被袭击呢。”庞库那夫说。

“你能猜测出是为什么吗？庞库那夫，究竟是什么原因引起的爆炸？”史佩莱问。

“史佩莱先生，这还不简单吗？肯定是那些海盗没有严明的纪律，他们也不是水手，所以就让火药库开着。在他们不停开火的时候，有糊涂的海盗点燃了火药库，然后船就爆炸了。”庞库那夫用肯定的语气说。

“可是史密斯先生，我觉得奇怪的是，爆炸起的作用并不大，声音也很小，而且炸坏的木板和肋材也不多。我觉得船不像是被炸毁的，更像是被撞沉的。”赫伯特说。

“你认为这点非常奇怪对吗？”史密斯问。

“是的，史密斯先生。”

“我也觉得这点很奇怪，赫伯特，不过等我们检查完后就能知道是什么原因了。”史密斯说。

“史密斯先生，难道你觉得‘飞速号’是像触礁一样被撞沉船的？”庞库那夫问。

“要是海峡有礁石的话，我觉得没有什么不可能的。”那普说。

“别胡说，那普！你就没看见吗？我可是看得一清二楚的，双桅船在沉船前那一刻，有个大浪把它抛起来了，然后就倒在了左边。如果是触礁，它只会像正常的船一样，慢慢地沉下去。”庞库那夫说。

“因为它不是一只正常的船。”那普说。

“不要争了，很快就能知道是怎么回事了。”史密斯说。

“很快就会知道的。不过我可以打赌，用我的脑袋打赌，海峡里绝对没有礁石。史密斯先生，你是不是觉得这件事很奇怪？”

史密斯没有回答他。

“不管怎样，是触礁也好，爆炸也罢，庞库那夫，你都要承认一点，这事发生在紧要关头。”史佩莱说。

“那当然是，不可否认。不过问题不在这里，我是想问史密斯先生有没有看出有神灵之类的东西。”庞库那夫说。

“我无法回答你，庞库那夫。我只能这么说。”史密斯说。

史密斯的回答显然不能让庞库那夫满意，他一直认定船是被海盗们无意炸毁的。何况海峡底下和沙滩一样，有一层细沙，所以在水浅时才会轻松地跨过去，根本不可能有礁石。

何况，双桅船下沉是在水势正猛时，更不可能出现触礁的事。因为即使底下真有礁石，由于水势深的原因，船也会浮起来，不会触到礁石，所以船身不可能是因为受到礁石撞击而下沉的。

可以这么说吧，庞库那夫的分析还是有一定道理的。

差不多过了一小时的时候，居民们再次登上船去了沉船处。让他们感到遗憾的是，双桅船上的两只小船都已经不存在了。一只前面说过，在感恩河的河口被撞得粉碎，另一只与双桅船同时下沉，没有露出来，想必已经撞坏了。

此时，“飞速号”的船身慢慢露出了水面。双桅船由于桅杆全部断了的原因，再加上经过剧烈的震动，压舱底的位置发生了一些变化，致使船失去了重心，所以双桅船是歪倒在一边的。当然，船的龙骨还是能看见的。由此可以想象当时是有着一股多么惊人的力量，才导致翻船的。那股惊人的力量就是巨大的水柱。

居民们坐着小船，围绕在沉船的周围。潮水继续下退，他们即使无法查到船下沉的真正原因，至少也清楚了当时的爆炸所造成的后果。

他们发现，离前梢七八英尺的船头部分的龙骨两侧损坏最大。在20英尺长的一段里，有着两个大的缺口，一边一个。这样的窟窿，要想堵住是绝对不可能的。他们没有发现船底的铜包板和木板，很明显是被炸成了灰烬，还有连接船底的肋材、铁螺丝和木钉也都没有了。

这是一股神秘的力量，让船的龙骨和船身从头到尾全部脱落。从龙骨上来看，纵梁断了，有很多裂口。

“这船是别想再浮起来了。”庞库那夫说。

“是呀，不可能浮起来的。”阿埃童说。

“这个先不说，我们先说沉船的事。如果真像你说的是爆炸，那这结果也太奇怪了。为什么只炸船底而不炸甲板和楼顶？还有这些大窟

窿，很明显不是火药炸的，倒有些像是石头砸的。”史佩莱对庞库那夫说。

“海峡里有石头吗？你说的其他方面我同意，可就是不同意你说的是用石头砸的。”庞库那夫又说。

“我们想办法到船里去看看吧，也许到了船里面，就能知道是怎么遭到破坏的了。”史密斯说。

这当然是目前最可行的办法。于是大家也都全部同意，因为这样做还有个好处，那就是能把全船所有的财物做个清点。

进船里并不难。潮水还在下退，甲板上也能走人了。压舱的是铁块，特别沉重，已经掉到了船壳外面。海水还在从船身的窟窿里往外流，发出哗哗的水声。

史密斯带着大家拿着斧头，沿着已经破损了的甲板往前走。甲板上的很多箱子挡住了他们的路。箱子由于泡在水里的时间不长，所以里面的东西也没什么损坏。

低潮仅仅只有几个小时，他们必须抓住这个机会。于是，他们先将船上的货物放到了安全的地方。

在船身的入口处，阿埃童和庞库那夫找到了一些索具，这些索具可以将木桶和箱子吊起来。然后他们又把货物装在了小船里，运上岸，最后再来运其他的東西。对于一些整理工作，他们可以放到后面来做。

总体来说，他们很满意。因为很快他们就发现，双桅船上竟然有很多货物，各种各样的，就像那些沿海贸易的波利尼西亚商船一样，里面装载着五花八門的东西：生活用品、工业品和工具，应有尽有。甚至可

以毫不夸张地说，只要是他们想要的东西，都能从这船上找到。

在其他人为货物的丰富而感到高兴的时候，史密斯却在发呆。因为他发现，就像前面说的，不仅双桅船的船身受到了损伤，就是内部的一些装置，特别是靠船头的一些地方，也被毁坏了。这情景像有人用极大的炮弹，打到了双桅船上形成的，因为连隔板和支柱都损坏了。

搬开甲板上的箱子，居民们便很容易地从船头走到了船尾。甲板上的箱子都不大，是一些普通的小箱子，居民们搬起来并不困难。对于箱子上标明的起运地点的字迹，也已经完全看不清楚了。

最后，居民们来到了这只双桅船的船尾。在阿埃童的指点下，大家很快就找到了火药库。史密斯发现，火药库并没有爆炸，所以应该还有几桶火药。火药通常都是用金属封皮包着的，应该不会受潮，还能用。

事实确实如此。居民们从子弹堆里找到了20桶火药，桶是用铜皮包着的。在居民们小心翼翼地将这些桶搬出去后，庞库那夫这才相信，“飞速号”果然不是被炸沉的。而且火药库所处的位置，受损情况反而最小。

“不是炸沉的我相信，但要说是石头砸的，我觉得不可能，因为海峡里找不出一块石头。”庞库那夫固执地说。

“那么，这件事到底是怎么回事？”赫伯特问道。

“想不明白，就连史密斯先生都想不明白，就没人能想明白了。”庞库那夫又说。

搜查了几个小时后，潮水开始上涨，他们不得不暂停工作。不过，他们是不需要担心沉下的船被冲走的，因为如今的它就像是被抛锚了，

死死地定在了那里，所以他们就是第二天再来也没关系。当然，那些船里的物资他们还是要尽快收拾出来的，免得陷入海峡的流沙里。

忙了一天，已经到傍晚五点钟了，居民们回去吃了一顿丰盛的晚餐。吃完后，虽然疲累，但还是忍不住要看看他们拉回来的“飞速号”上的货物。

打开好几个箱子，里面都是衣物。不过能够想象得出，还是非常受大家欢迎的，因为各种尺码都有的衣服和鞋子，够他们所有人穿了。

“我们现在可成富人了！不过这么多的东西，我们要怎么办呢？”庞库那夫高兴地说。

除了衣物，庞库那夫还看到了烈性酒桶、烟叶桶、火器及刀剑，还有棉花包、农用品、木匠铁匠的工具等等。当然还有各种各样的种子。由于在水里泡的时间不长，所以都没有受潮。

庞库那夫高兴地欢呼着。如果是在两年前得到了这些东西，不知道有多珍贵。不过，对他们这些勤劳的人来说，有了这些工具和宝贝，同样很有用。

“花岗宫殿”的仓库够大，把货物装进去没有问题。但要想在天黑前把全部东西都收拾妥当，显然时间不够。而且他们还有件事没解决，那就是“飞速号”上的六个海盗。这可是一群穷凶极恶的歹徒，居民们必须时刻提防着。

虽然感恩河上的桥被他们扯了起来，但那河流和小溪是挡不住这些海盗的，在如今走投无路的情况下，他们可是什么事都做得出来的。

他们必须想出一个一劳永逸的办法，但目前，他们必须在“石窟”附

近站岗，因为那里有很多货物。

最后，他们决定每天都要留人在那里值班守卫。

一整天就这么过去了，直到天亮，海盗们都没来捣乱。狙布和多卜一直在“花岗宫殿”脚下“值班”，一有动静，随时会通知居民们。

10月19、20、21日三天，居民们都在整理从双桅船上拿过来的东西，不管是货物还是索具，每一样值钱的或有用的东西，都被他们保留了下来。

这三天里，退潮时，他们会去沉船地进行检查。涨潮时，就整理东西。

船身铜包板大部分也被他们揭了下来，船身一天天地在向沙泥里陷。不过，阿埃童和庞库那夫不等流沙将船底沉没，就已经潜入到海峡水底，将双桅船的锚链和压舱铁块都捞上了岸，甚至连那四门炮都没有让它沉下去，而是利用空桶将它们浮了起来。

就这样，居民们的军火库和“花岗宫殿”仓库全都充实起来了，庞库那夫开始盘算在海峡和感恩河口筑大炮了。他还计划用四门大炮来阻挡任何一个想要侵犯林肯岛领土的海盗。

在将双桅船上的东西运完后，双桅船仅剩一个空壳了。在史密斯打算将破船炸开，将岸上的残骸收拾一下时，天气发生了变化，不仅开始涨潮，而且狂风也从东北方吹了过来。

很快，破船和残骸就消失得干干净净。史密斯只好节省火药，放弃炸船计划了。

到了23日和24日夜里，双桅船的船身全碎了，只剩下残骸被海潮抛上海滩。

史密斯还想寻找船上的文件，但在他仔细搜寻尾楼和橱柜后发现，并没有他想找的东西。也许海盗们在抢了“飞速号”后，已经将原来与船长和主人有关的标志都销毁了。由于船尾没有漆港口名，所以无法得知这只船的国籍。不过，史密斯还是根据那两只小船的船型，从阿埃童和庞库那夫那里得出是英国制造的结论。

离出事已经过去一个星期了。当然，“出事”两字并不准确，更准确地应该说是他们的“神奇好运”。因为居民们之所以安然无恙，全是因为那神奇的好运。现在，即使退潮水浅的时候，他们也看不见那船的印迹了。当然，那船神奇地消失，也让他们获得了很多财富。

不过，因为那普的一个举动，让他们神秘好运中的神秘爆炸事件更无法解释了。

10月30日，那普去海滩散步，捡到了一块铁筒厚片，上面有着爆炸的痕迹。这块有些残缺不全的厚铁筒边缘已经变形，但仍能看出它是由炸药的爆破形成的。

那普将厚铁筒交给了他的主人史密斯，史密斯当时正和伙伴们在“石窟”工场做事。

史密斯接过那个厚铁筒看了看，回头问庞库那夫：“朋友，你还坚持认为‘飞速号’不是撞沉的？”

“对！史密斯先生，海峡不可能有礁石！”庞库那夫肯定地说。

“不过很可能是撞上了这块铁筒？”史密斯说着，将铁筒给大家看。

“撞它？就一小块铁筒？”庞库那夫不相信地嚷道。

“朋友们，记得在双桅船沉没前，有水柱将它抛起来了么？”史密斯问。

“是的，史密斯先生！”赫伯特说。

“想知道水柱是怎么形成的么？就是这个不起眼的家伙！”史密斯指着小铁筒说。

“什么？你说是它？”庞库那夫还是不相信。

“是呀，别小看它，它是水雷的残余部分。”

“什么？水雷？”除了史密斯，其他人一起喊道。

“可……这……谁布的水雷呢？”庞库那夫有些结巴，还是觉得不可能。

“我能告诉你的就是，这水雷不是我布的！但水雷的残余部分就在这里，你们可以估算一下它所爆发出的威力有多大！”史密斯说。

第五章

事实清楚了，“飞速号”的神秘沉海是因为水雷在海底爆炸引起的。

史密斯的判断不会错。在南北战争中，他就曾研制过这种可怕的武

器。那普捡到的那个铁筒里实际是装炸药的，也就是类似于硝化甘油、苦味酸等药品。双桅船被炸时之所以会掀起一个圆水柱，就是在它的作用下形成的。而船底被炸、船身下沉，均是因为鱼雷破坏严重导致的。

不要说双桅船，就是装甲舰遇到这种水雷，也会像普通渔船一样被炸毁，而这次“飞速号”遇上了它，当然不可避免地毁于一旦了。

不过，虽然知道了是什么原因造成的，但还有一个问题，那就是海峡里怎么会有水雷？是怎么来的？这又成了无法解释的问题。

“朋友们，好了，我们不用再做种种猜测了，已经完全能够确定了，在这座岛上，有个神秘的人，也许他也曾和我们一样，是因为遇难而被遗弃到这岛上来的。我为什么要这么说呢？是因为要让阿埃童知道我们两年来遇到的种种怪事。我们曾多次受到一个人的帮助，但这个人到底是谁，我们却是完全不知道的。他屡次帮助我们又是为什么呢？我不清楚。但我清楚的是，他确确实实是在帮助我们。并且根据这些事情来看，他是个非常有才能的人。因为只有具备了惊人才干的人才能做到这一切。阿埃童和我们一样，也曾受到他的恩惠。我在从气球上掉下来后，他将我从海里救了上来；那个写阿埃童在岱波岛的纸条，一定也是这个人。还有我要说的一件事，就是那只箱子，那只在拾箱角捡到的箱子，一定是他想让我们得到一些必需品，特意放在那里的；在荒岛高地上点燃篝火，让你们找到陆地的一定也是他；畜乳身上的那颗子弹，一定也是他打的；在海峡里布置水雷，炸毁双桅船的，也一定是他……总之，一句话，任何我们无法解释的怪事，都是这个神秘的人做的。所以，不管这个人是谁，是遇难的还是被流放的，我们都应该感激他，不然，我们就是忘恩负义的人了。我们现在欠下了这个陌生人的情债，我希望我们有一天能报答他。”

“没错，亲爱的赛莱斯，林肯岛上确实隐藏着一个万能的人，对我们有着莫大的帮助。我想再说一下，如果我们承认在现实生活中有超凡能力的人的话，那么这个人就接近于神了。会不会是他听到了我们在‘花岗宫殿’里所说的全盘计划，所以才在我们第一次试航时将瓶子扔给我们？还有将多卜从湖里扔出来，刺死儒艮的会不会也是他呢？还有你被救的事……因为根据当时的情况，那是谁都做不到的。这种种事情，让我们不得不相信，这个人具有呼风唤雨的能力。”

史佩莱说完，大家都点头，觉得很有同感。

“是的，如果我们能够确定帮助我们的是一个人，那么他真的是具有一般人没有的本事。这现在也成了个谜，不过这个谜在我们找到他后，肯定就能解答了。但现在还有个问题，我们到底是要尊重这位万能的人，不去惊动他呢，还是要尽量将他找到？大家有什么看法？”

“我觉得，不管这个人是谁，他都是个非常勇敢的人。我非常佩服他！”庞库那夫说。

“你说得没错，可我问的不是这个意思，庞库那夫。”史密斯说。

“主人，我觉得我们要尽量找到这个人。但我想，他要是不想露面的话，我们一定找不到他。”那普说。

“没错！那普！”庞库那夫说。

“我也觉得那普说得对。但如果是这样的话，我们就不能揭开谜底了。当然，不管我们是否能找到这个神秘的人，我都觉得我们至少应该有尽力找到他的心意。”史佩莱说。

“孩子，你呢？谈谈你的想法吧！”史密斯问赫伯特。

“哈哈……”赫伯特很高兴地说，“他先是救了你，然后又救了我们大家，我还真想谢谢他呢！”

“那是当然的，孩子，我们每个人都想感谢他。我不是个喜欢刨根问底的人，但要是能让我见他一面，挖我一只眼睛都行。我在想，这个人一定非常英俊，身材魁梧，有着漂亮的胡须，发亮的头发。还有，他一定是坐在云彩里的，手里还托着一个大地球！”庞库那夫说。

“庞库那夫，你说的那是造物主！”史佩莱说。

“嗯，不错，史佩莱先生，但我想象中的他就是这个样子的。”庞库那夫说。

“你怎么想？阿埃童？”史密斯又问一直不说话的阿埃童。

“史密斯先生，对于这件事，我不知道还有什么更好的意见，你采取的意见就是最好的。如果我们需要去寻找他的话，我随时会去的。”阿埃童说。

“谢谢你，阿埃童。不过我希望你能回答我的问题，怎么想就怎么说好了。你是我们的伙伴，而且也为我们冒了好几次险，我们做任何重要决定的时候，都会征询你的意见的，所以还是说说你的看法吧！”史密斯说。

“史密斯先生，我觉得我们应该尽最大的努力将这个恩人找出来，因为很可能他正在孤孤单单一个人受着苦难；也许他也想换种生活。还有，我也欠他的情，一定是他去过岱波岛，发现了我这个可怜的人，然后告诉你们，有个不幸的人需要解救。所以幸亏是他，才让我有了重新做人的机会。我不会忘记他的，一辈子都不会！”阿埃童说。

“好的，那咱们就决定了，我们要尽早去搜查，不放过任何一个角落，连最隐蔽的地方都不要放过。希望这位大恩人能明白我们的心情和心意，并原谅我们！”史密斯说。

接下来的几天，居民们都忙碌地在田间劳作，准备在把这些紧急的事情做完后，实行他们的计划：走遍林肯岛上任何他们没去过的地方，寻找恩人。

从岱波岛拿来的种子种植的蔬菜已经到了收获的季节，幸好“花岗宫殿”位置够大，就是把岛上所有的物资运来都放得下。而且存放地点也很安全，既不怕坏人抢夺，也不怕野兽糟蹋。同时，因为有着厚实的花岗石壁隔着，完全不用担心受潮。

即使这样，居民们还是用鹤嘴锄和火药，将通道的一些天然石洞扩大，使其成了一个全能仓库，里面不仅放着居民们的粮食、工具，还放着武器和一些工具。总之，居民们的所有物资全在里面。

从双桅船上得到的四门炮，也在庞库那夫的强烈要求下，用绳索和辘轳吊到了“花岗宫殿”。同时，他们还在窗户间的空余位置设置了炮眼。过不了多久，大家就会在花岗石壁上看到炮口了。

在可以俯瞰整个联合湾的高处，不管是什么船舶，只要它想在小岛附近抛锚，都会彻底暴露在个高空炮台的射程范围之内。

11月8日那天，庞库那夫对史密斯说：“我们的炮台筑好了，史密斯先生，能否让我们试试炮弹的射程？”

“你觉得这么做有用吗？”史密斯问。

“当然有用。不仅有用，而且非常有必要，因为这样可以让我们掌握炮弹的射程。”

“既然如此，那你就试吧，庞库那夫。不过，试验时，能不能用棉花火药？棉花火药有很多，而且用不完，我想将普通火药省下来。”史密斯说。

“就是不知道棉花火药用在大炮上，大炮经不经受得住。”史佩莱问。他和庞库那夫的想法一样，都想试试大炮。

“我想应该可以，不过用时要小心一点！”史密斯说。

史密斯的想法是对的。大炮因为是用锻钢铸造的后膛炮，按说能装大量的火药，射程也不错。但想要取得很好的效果，弹道就要尽量低伸，而要想做到这一点，必须用极大的初速度才能推动炮弹。

“初速度与火药的量成正比，这种大炮在制造时，所用的金属必须具有高度抵抗力。为什么用钢？就是因为它是抵抗力最大的金属。所以我相信，我们的炮是完全能经受得住爆炸气体膨胀的，试射效果一定也不会错。”史密斯说。

“我们先试试，等会儿就能更加肯定了。”庞库那夫说。

四门大炮被庞库那夫收拾得如同新的一样，亮度能和美国海军巡洋舰上的大炮相比。自打从水里捞出来，庞库那夫就用了很长的时间给它擦拭、磨光、上油、拆洗零件。

这天，装着圆锥形炮弹的四门大炮在所有居民，包括狙布和多卜面前试验发射，由于棉花火药的爆炸威力比普通火药大四倍，所以他们决定少放一点。

准备工作做好后，庞库那夫站在那里，抓住了拉火绳的末端，随时准备发射。

在史密斯做出“发射”指令后，庞库那夫就开炮了，炮弹飞出了着陆岛，落在了海里。射程到底有多少，他们还不好估计。

他们决定发射第二炮，而且瞄准了拾箱角尽头的岩石，那块岩石离“花岗宫殿”有3英里左右。这一炮是赫伯特发射的，打中了那块尖石头，炸得碎石乱飞。虽然庞库那夫对他打的第一炮已经很满意了，但赫伯特的第二炮更准，这让他很为赫伯特开心。

第三炮瞄准了联合湾南边的沙丘，并很精准地打在了4英里之外的沙地上。炮弹落在了海里，水花四溅。

发射第四炮的时候，史密斯特意多加了一点火药，想看看到底能射多远。由于怕发生大爆炸，他让大家站在了很远的位置，用一根长绳子代替人手拉火。

随着一声巨响，居民们飞奔向窗口一看，炮弹擦过离“花岗宫殿”近5英里的颞角的一块岩石，掉在了鲨嘴湾。

“太棒了！史密斯先生！”庞库那夫高兴地狂喊，声音和炮声不相上下。

“看看！我们的炮台不错吧，这下就是太平洋上的海盗全来了都不怕。没有我们的允许，任何人也休想登岛。”

“相信吗？庞库那夫，这样的试验最好是别做！”史密斯说。

“为什么？那我们要怎么对付岛上的六个海盗？难道放纵他们践踏我们的森林、田地和农场？这些海盗就和美洲豹一样凶狠，我觉得我们应该毫不犹豫地向他们开炮。对不对，阿埃童？”庞库那夫问阿埃童。

阿埃童犹豫着，没有马上回答。史密斯对庞库那夫这不经大脑的话感到很无奈，果然，敏感阿埃童低下了头，小声说：“我就曾是凶狠的美洲豹，庞库那夫先生，所以我没有发言权。”

说完，他慢慢地走了。

庞库那夫这才意识到自己说错话了。

“我太不是人了。可怜阿埃童。他在这里，应该和我们一样，都是有发言权的。”

“是呀，不过我们要尊重他追悔往事的心情，他越自卑，我们就越应该尊重他。”史佩莱说。

“那是当然的了，史佩莱先生，我以后再也不这么莽撞了，再乱说话我就咬掉自己的舌头，我也不愿意阿埃童伤心。不过话又说回来了，对那些海盗，我们不能客气，必须尽快将他们从岛上消灭！”庞库那夫又说。

“这是你的想法吗？庞库那夫？”史密斯问。

“是的，没错，我就是这么想的。”

“在他们没有和我们敌对的时候，我们也要赶尽杀绝吗？”

“他们以前做得还不够吗？”庞库那夫问，他从不会慎重地考虑问

题。

“也许他们会改过自新，真诚悔过呢！”史密斯说。

“他们怎么会悔过？”庞库那夫不相信地耸耸肩道。

“别这么说，庞库那夫，你看阿埃童，他已经改过自新了。”赫伯特拉着庞库那夫的手说。

庞库那夫吃惊地看着大家，他没想到自己的意见会遭到反对。那些到岛上来的海盗，是屠杀“飞速号”全体船员的凶手，所以对他来说，那些人就是野兽，所以他必须毫不留情地消灭他们。

正直率性的庞库那夫，认为绝对不能和这些人打交道。

好一会儿，他才说：“好吧，既然每个人都反对我，那么你们就饶了这些恶棍吧，但愿你们不会后悔。”

“我们随时注意着，不会有危险的。”赫伯特说。

一直没有表明立场的史佩莱说：“这六个人每个人身上都有武器，要是他们躲在角落向我们开枪，他们很快就能成为岛上的主人。”

“为什么他们要这么做？对他们没好处的，不可能这么做，而且我们也是六个人。”赫伯特又说。

“好了好了！你们这些好人想干什么就干什么吧，不用去管他们了。”庞库那夫觉得他不能说服其他人，便赌气说。

“庞库那夫，不能让自己先当恶人。要是一个不幸的人站在你面前，在你的射程内，你会开枪吗？”那普说。

“当然会，我会像打疯狗一样，打死他们的。那普！”庞库那夫冷冷道。

“庞库那夫，你一向听我的，在这件事上，能听我一句吗？”史密斯说。

“我会按你的想法做的，史密斯先生，但我的想法不会变。”庞库那夫说。

“那好！除非他们先攻击我们，不然我们绝不攻击他们。”

庞库那夫接受了这个大家都认可的只防御、不进攻的做法，虽然他并不认同这种做法。

如此大的荒岛，又有很多资源，这些海盗会不会良心发现，改邪归正，在这个新环境里开始新生？他们不知道，但出于人道主义精神，他们还是决定先防备。不过，居民们现在无法再像以前一样，只提防野兽了，因为岛上还有六个恶棍，他们很可能什么事情都做得出来。

处境确实非常艰难。对于一些胆子小的人来说，甚至可以说已经失去了安全的保障，但居民们目前却有理由反对庞库那夫的“绝杀”做法。这种想法到底有没有错？也只能拭目以待。

第六章

居民们开始进行全岛彻底大搜索。这也成了他们的头等大事。

搜索的目的有两个，一个是找出那个神秘的大恩人，因为他们已经确定有这么个人了；另一个目的就是寻找那几个海盗，了解他们藏在什么地方，怎么生活，会不会危害到居民的生活。

史密斯对于这两件事，丝毫也不想耽误，马上就开始行动。不过，搜索很可能需要花费好几天工夫，所以他们将必需品和工具全都装在了车上，以方便露营。但不巧的是，有头野驴的一条腿受了伤，暂时不能拉车，需要休息几天。所以他们将出发的日子定在了11月20日，整整向后推迟了一个星期。

这里的11月正好是北半球的5月，是春暖花开的季节，也是太阳进入南回归线，一年中白天长夜晚短的时间，是搜寻的最好时间。即使这次的搜寻不能达到目的，但说不定也会有其他发现，特别是自然产物方面的新发现。史密斯说此次要重点搜寻西遥森林，而西遥森林正好位于蛇盘半岛。

离出发还有些时间，他们决定利用这个时间去观望壁做事。此外，阿埃童还想回牲畜栏照料一下家畜。大家也同意他去那里住两天，在将牲畜们的饲料准备足后，就回“花岗宫殿”。

在阿埃童去牲畜栏之前，史密斯怕他一个人去不安全，问他要不要再让一个人去陪他，阿埃童说不需要，说自己一个人完全可以，不怕有什么危险。而且还说如果牲畜栏或附近发生了什么事情，他一定会发电报给“花岗宫殿”的他们的。

9日早晨天一亮，阿埃童便驾着野驴，拉着大车出发了。两个小时后，他发了一个电报给“花岗宫殿”的居民们，说自己已经到了，平安无事。

而在这两天里，史密斯也在忙着做一件事，那就是格兰特湖南端原有的缺口虽然已经堵死，而且草木也遮住了一部分，但他还是不放心的，想把它完全遮住。挡住了那边，“花岗宫殿”也就不必担心什么突然袭击了。

做这项工作并不难，史密斯只需让湖水升高两三英尺就能将洞口淹没。不过，要想提高湖面，还要在湖的两个缺口处建个水闸，这样湖水就能通过这两个缺口，向硝甘河和跌水河流了。

居民们对做这件事很有信心，因为两个水闸只有8英尺宽、3英尺高，所以很快就用石块砌成了，而且砌得特别严密。

砌了水闸后，外人是无论如何也不会想到在湖水底下还有一个通道，更想不到以前湖水就是从这里流出去的。

当然，给“花岗宫殿”供应水的蓄水池用的水和带动升降梯的小河他们还保留着，而且设计得绝对不会有断水之忧。这样一来，只需将升降梯吊起，他们在“花岗宫殿”就能高枕无忧了。

做完这项工作，庞库那夫、史佩莱和赫伯特还准备去一趟气球港。庞库那夫一直担心海盗去了停泊“长风破浪号”的小海湾。

“这些海盗在南岸登陆，如果沿海滨前行的话，很快就能发现小港，这样，我们的船可就危险了。”庞库那夫说。

他的顾虑并不是没有根据，所以他们完全有必要去气球港看看。

11月10日的午饭后，庞库那夫和史佩莱、赫伯特带着武器出发了。庞库那夫故意在大家面前将两颗子弹装进了他携带的步枪枪筒里，并做出一副“我已经准备好了，不管是人还是畜生，只要到了我的面前，就

会倒霉”的表情。史佩莱和赫伯特也各自带了一把枪。差不多三点钟的时候，他们离开了“花岗宫殿”。

和他们一起走出“花岗宫殿”的还有那普，那普决定先送他们到感恩河拐角处，在他们过了河后再将桥重新扯起来，并将回来的时间约好，以放枪为号。在听到枪声后，那普会过来给他们放桥。

三个人沿着荒岛南岸一直往前走，仅仅只有3英里的路程，他们却走了两个小时。一路上，他们仔细地观察着沿途各地，但不管是森林还是沼泽地，都没发现海盗的踪迹。很明显，海盗并不知道居民们的人数以及所采取的防御手段，所以他们很可能只在荒岛一带活动。

到了气球港，看到“长风破浪号”完好地浮在小海湾上，庞库那夫放心了。看来，气球港因为被高耸的峭壁遮挡着，地势又非常险峻，所以不管是处在陆地还是海里的人，都难以发现它。

“恶棍没来过这里。有句话叫‘深山才有虎豹’，他们一定是躲进西遥森林了。”庞库那夫说。

“太好了，要是他们找到了‘长风破浪号’，说不定就乘着它逃跑了呢，这样我们就不能去岱波岛了。”赫伯特说。

“那是，我们还要去岱波岛送纸条呢。要是苏格兰游船来接阿埃童，他们就能知道阿埃童的新地址——林肯岛的位置了。”史佩莱说。

“对！史佩莱先生，有了‘长风破浪号’，我们随时乘它动身都行。”庞库那夫说。

“不过，庞库那夫，我还是觉得我们把荒岛搜寻完再走比较好。如果我们找到了那个陌生人，说不定他对岱波岛的了解，就和对林肯岛一

样清楚。不要忘了，那纸条可是他写的，所以说不定他连那游船什么时候回来都知道呢。”

“是的，不过，这个人究竟是谁呢？他那么了解我们，我们却一点都不了解他。如果他只是个遇难者，为什么隐藏着不出来？我们是好人，没必要躲好人吧。而且我很不理解，难道是他自己要来这里的？要是他想离开的话，他能离开吗？甚至他还在吗？还要继续在这里待下去吗？”庞库那夫又大声说。

三个人一边聊着天，一边去“长风破浪号”前察看船上的甲板。庞库那夫看了一下系锚缆的短桩后，突然大声叫道：“太奇怪了！”

“发生什么事了？庞库那夫？”史佩莱问他。

“怎么回事？这个扣可不是我系的。”庞库那夫指了指锚缆系在短桩上的绳子说。

“不是你系的？你确定？”史佩莱问。

“绝对不是我系的，我可以发誓，我一直是打活扣的，但这个却是拱结。”

“你记错了吧，庞库那夫。”

“绝对没有记错，我系扣已经形成习惯了，一个人的习惯不会随意改变。”

“那会不会是强盗来过了？”赫伯特问。

“那就难说了。反正是有人拔过‘长风破浪号’的锚，还让它抛了锚，

这是不会错的。咦，这还有一个证据，看！锚缆也是被抽出来过的，卷索不在锚缆孔里了。我再说一遍，有人用过我们的船。”庞库那夫大叫。

“要是海盗发现了这只船，应该会抢去用，甚至乘它逃跑才对。”史佩莱说。

“逃跑？能去哪里？去岱波岛吗？这只船这么小，他们敢乘着它跑远吗？”庞库那夫说。

“也是，何况他们未必知道有岱波岛。”史佩莱接着说。

“不管怎样，有一点是不会错的，那就是我们的‘长风破浪号’偷偷被人用过了！这一点就像我生在格雷普兰，叫庞库那夫一样确定。”庞库那夫说。

他这么肯定，史佩莱和赫伯特都不再说什么了。显然，在庞库那夫把船驶到气球港后，有人动过它。而且庞库那夫还十分肯定地说有人拔过锚，又抛过锚。这两个动作，是航行时的必备动作，不然还会有什么其他原因？

“奇怪的是，为什么我们在岛上却没见过‘长风破浪号’行驶？”史佩莱又提出了一个问题。

“史佩莱先生，如果夜里顺风的话，只需两个小时，这船就能驶出我们的视线范围以外。”庞库那夫说。

“好吧，那我还有一个问题，海盗驾驶‘长风破浪号’做什么？而且用过后，还会好好地给你送回港？”史佩莱接着问。

“嗯！这倒是个问题，不过我们不用多费脑筋想了，把它列入奇怪事件吧。关键是‘长风破浪号’还在这里就好了，如果不幸被海盗们第二次劫走，怕是再也找不到它了！”庞库那夫说。

“庞库那夫，不如我们把‘长风破浪号’带回去吧，停在‘花岗宫殿’附近不行吗？”赫伯特说。

“不是不好，只是不是很好。感恩河的河口不适合停船，那里的潮势太猛了。”庞库那夫说。

“停在‘石窟’底下的沙滩怎么样？”

“也许行，不过既然我们要离开‘花岗宫殿’做一次远行，我想，当我们不在时，还是放在这里比较安全。在岛上的海盗没有全部消灭前，最好放在这里。”庞库那夫说。

“我同意你的说法。遇到变天时，这里最起码不会像感恩河那样，暴露在外面。”史佩莱说。

“要是海盗再来这里怎么办？”赫伯特说。

“孩子，如果他们用过‘长风破浪号’，即使在这里没找到它，也会在‘花岗宫殿’的沙滩上找到它的。反正我们不在时，没办法阻止他们将船抢走，所以我同意史佩莱的意见，还是留在气球港。不过，等我们搜寻完海岛后，如果还没有消灭这群恶棍，那么就要谨慎了，还是把船放到‘花岗宫殿’附近比较好。等这些讨厌的家伙不存在了，再做其他打算。”庞库那夫说。

“好的，那就这么决定了！走吧！”史佩莱说。

三个人回到“花岗宫殿”，将全部经过告诉了史密斯，史密斯对他们的想法和打算都很认同，并答应庞库那夫，以后看着陆岛和海岸间的海峡能不能利用水闸，开辟一个人工港口。如果能办到，“长风破浪号”就能永远地停在他们眼前了，随时可以关照它，必要时，甚至还可以将它锁起来。

当天晚上，他们给牲畜栏的阿埃童发了个电报，让他带两只山羊过来，那普想让它们适应一下高地的水土。但奇怪的是，电报发出去，阿埃童没有回电，这在以前是从没发生过的事。史密斯不禁有些惊讶，不过又一想，也许阿埃童正好不在牲畜栏，甚至已经动身到“花岗宫殿”了。因为他去牲畜栏已经有两天了，当时走的时候，说在10日晚或11日早晨回来。于是居民们便去观望壁等他，那普和赫伯特甚至还去桥边迎接他，准备看到他后马上放吊桥。

不过，等到晚上十点，还不见阿埃童。于是，他们又给他发了封电报，并让他立刻回答。但是，“花岗宫殿”的电报铃仍然一声不响。

居民们开始感到不安，是不是发生什么事了？难道阿埃童不在牲畜栏？或者他还在那里，但却已经不能自由行动了？他们能在黑夜里去牲畜栏吗？

大家商量时，有说去的，也有说不去的。

“会不会是电报发生了故障，无法发报了？”赫伯特说。

“有可能！”史佩莱说。

“那就等明天再看吧！确实，阿埃童有可能收不到我们的电报，我们也收不到他的。”

这一夜，大家焦躁地等着，直到天亮。

11月11日一大早，史密斯又给阿埃童发了个电报，依然没有回音。再试一次，结果还是一样。

“马上去牲畜栏！”他说。

“一定要全副武装！”庞库那夫加了一句。

最后又一想，“花岗宫殿”还是留一个人好，于是让那普留下。那普在把大家送到硝甘河畔，将吊桥扯上去后，躲在了一棵树后，他要等他们或阿埃童回来。而且如果海盗此时出现，想要逃跑的话，那么那普还可以开枪阻止他们。如果阻止不了，他还能躲到“花岗宫殿”里去，他只需上了升降梯，进入里面就绝对安全了。

一行人走出“花岗宫殿”，向牲畜栏走去，如果在牲畜栏找不到阿埃童，他们还决定去附近的森林找。

早上六点，史密斯带着三个伙伴过了硝甘河。那普藏在左岸一个小山丘后面，山丘上长着一棵龙血树，可以做他的屏障。

史密斯他们扛着两支步枪、两支滑膛枪，每支枪里都装满了子弹，即使遇到一个很小的敌对动作，他们也能及时做好开枪的准备。

路两旁都是密密的森林，是海盗们可以藏身的地方，而且这些人还有武器，的确非常可怕。

几个人走得很快，谁也不说话。在前面引路的是多卜，它有时径直向前跑，有时又会钻进森林，有时又会安静地慢行，好像并没有什么意外出现。

他们十分相信这条忠实而机灵的狗，它不会让他们受到任何突然的惊吓，但只要有一点危险存在，它就会警觉地大叫起来。

史密斯和其他三个伙伴继续前行，当走到从“花岗宫殿”牵向牲畜栏的电报线时，他们已经走了近两英里路了。一路上没有发现任何可疑情况，电报杆还是好好地竖在那里，电线也还拉着。

不过，史密斯突然发现电线好像有些松了，而走在前面的赫伯特在走到74号电线杆前时，突然停下来大声喊道：“这里电线断了！”

几个人急忙走上去。果然，电线杆被连根拔起，横在了路上。他们一下子明白了，这就是“花岗宫殿”和牲畜栏两处发不了电报的原因。

“不像是被风刮断的。”庞库那夫说。

“没错，是连根拔起的，而且是被人用手拔起来的。”史佩莱说。

“电线也断了。”赫伯特补充了一句。

“是不是最近坏的？”史密斯问。

“是的，一定是不久前才被破坏的。”赫伯特说。

“马上去牲畜栏，马上去！”庞库那夫大叫道。

此时，他们正处在“花岗宫殿”和牲畜栏的中间位置，到牲畜栏还有两英里半，他们加快了速度，急急地向前走。

没错，牲畜栏确实出了事。他们担心的并不是阿埃童没有收到他们的电报，而是担心阿埃童在去牲畜栏前就答应过前一天回“花岗宫殿”的，结果却没有回来。总之，将“花岗宫殿”和牲畜栏间的联系切

断，一定别有用意，这种搞破坏的做法，除了海盗，谁会做得出来？

居民们急匆匆地往前赶。他们真心喜欢这个新来的伙伴，如果他被他曾经的同伴杀了的话，那真的是一件让他们难以接受的事。

没过多长时间，他们便来到了路旁的一条小河边。河水是从红河里流出来的，如今已经变成了牲畜栏牧场的水源。他们慢下脚步，将手扣在了扳机上，警觉地注视着四面的森林，随时做着战斗准备。

多卜发出了低沉的咆哮声，似乎是提醒他们，危险就要降临了。

他们慢慢地向前走。树林中出现了牲畜栏的栅栏，并没有遭到破坏的迹象。大门紧闭，牲畜栏里静悄悄的，既没有往常羊的咩咩叫声，也没有阿埃童的吆喝声。

“进去吧。”史密斯说。

史密斯往前走着，其他人跟在他后面二十步之外。每个人都警觉地看着四周，做着随时开枪的准备。

不过，就在史密斯拨开门上的内闩，准备推门进去时，多卜大叫起来。随着它的叫声，只听“砰”的一声，接着便是一声惨叫。

赫伯特直挺挺地倒在了地上，子弹打中了他.....

第七章

赫伯特的惨叫声让庞库那夫急忙扔掉手里的枪，跑了过去。

“死了，这群混蛋把他打死了！把我的孩子打死了！”他号叫着。

史密斯和史佩莱随即跑了过去。史佩莱伏在赫伯特的胸前听了听，想确定他的心脏还有没有跳动。

“还有心跳！但是必须把他送去……”

“你是说‘花岗宫殿’吗？不行！那就来不及了！”史密斯道。

“那快，快抬到牲畜栏去！”庞库那夫说。

“快点！快点！”史密斯急忙说。

史密斯到了栅栏的左边，突然发现一个海盗正端着枪对他开枪，打穿了他的帽子。在海盗想要开第二枪的时候，史密斯一刀刺向了他，这一刀比枪来得还快，海盗随即躺在了地上。

此时，史佩莱和庞库那夫抬着赫伯特越过栅栏，进了围栏，去了阿埃童的房间。不一会儿，赫伯特便躺在了阿埃童的床上。又过了一会儿，史密斯也进来了。

看着赫伯特不省人事，庞库那夫悲痛万分，抽抽搭搭地哭着，并不停地拿头去撞墙。史密斯和史佩莱都无法使他安静下来，而他们也悲痛得一句话都说不出。

不过他们知道，他们只能依靠自己将眼前这个命悬一线的孩子从死亡线上拉回来。

史佩莱曾经历过很多事，所以也懂一些药理常识，而且他也曾很多

次在无奈之下治过刀伤和枪伤。这次他也要在史密斯的协助下，对赫伯特进行简单救治。

不过，当史佩莱准备救治时，赫伯特已经没有知觉了。这是一种“休克”状态，很可能是因为流血过多，也有可能是枪弹力量太猛，伤及到了他的骨头，或者是因为激烈的震荡造成的。

赫伯特脸色苍白，史佩莱摸着 he 微弱的脉搏，发现他的脉搏很长时间才会跳一下，而且好像随时都会停止。

无疑，赫伯特的病情是严重的。

几个人解开了赫伯特的衣服，让他露出了受伤的胸膛，并用手帕紧紧地捂住流血的伤口，最后又用冷水去擦他的心口。

赫伯特的伤口在胸膛以下的第三根和第四根肋骨之间，是个椭圆形的洞。史密斯和史佩莱给赫伯特翻了个身，在翻动他的时候，他发出了微弱的呻吟，他们差点都要认为这是他临死前的呻吟了。

除了胸前的伤，赫伯特的背部也有一处伤，是那枪弹从前胸射进，从后背出来的伤。

“老天保佑！还好枪弹没有在身体里，我们也就免了取子弹了。”史佩莱说。

“心脏呢？心脏怎么样？”史密斯问。

“幸好没碰到心脏，碰到的话，赫伯特早就没命了。”

“他死了？”庞库那夫绝望地哼了一句。此刻的他正处于紧张中，没

有听到前面的话，就只听到了最后一句。

“没有死，庞库那夫，他活着，他的脉搏还在跳，刚刚还呻吟了一声呢。为了孩子着想，你还是安静点吧，别激动。我们现在需要沉着，不能让大家一起跟着你紧张。朋友！”史密斯说。

庞库那夫不说话了。但史密斯的话，还是让他非常伤心，大颗大颗的眼泪从眼眶里掉了下来。

史佩莱决定全身心地为赫伯特治疗。虽然他已经能够确定枪弹是从前胸进去，后背出来的了，但在枪弹进入他身体的时候，对身体有哪些损伤？碰到了哪些器官？对一个真正的外科医生来说，都不能马上作出判断，更不要说一个记者了。

不过有一点他很清楚，那就是必须防止伤口发炎，因为伤口发炎很容易造成血流不通，进而引发高烧。但要用什么药才能消炎呢？怎么才能防止伤口发炎呢？

虽然有无数个难题在等他解决，但史佩莱还是做了他必须尽快做的事，那就是将两处伤口敷住。史佩莱觉得不能用温水擦洗伤口，也不能挤压伤口，因为那样会引起伤口流更多的血。赫伯特流的血够多了，而且因为流血，身体已经越发地虚弱。

史佩莱决定先用冷水给他清洗伤口。

赫伯特始终保持着左侧躺着的姿势。

“就让他这么躺着，不能让他动。这样躺最利于他胸前和背后的伤口恢复，对排脓有好处，还有就是要让他尽量好好休息。”史佩莱说。

“那现在要不要抬他回‘花岗宫殿’？”庞库那夫问。

“现在还不能！”史佩莱说。

“我要打死这群恶棍！”庞库那夫大声说。他的表情很吓人，握紧的拳头不停地挥着。

“庞库那夫，别冲动！”史密斯说。

史佩莱继续给赫伯特诊治，赫伯特的脸色苍白得可怕，史佩莱着急万分。

“赛莱斯，我不是外科医生，我真不知道该怎么办，你给我出出主意吧，告诉我该怎么办。”他说。

“给自己点信心！朋友！诊治时一定要冷静，什么都不要想，只想着一定要治好赫伯特！”史密斯说着，握紧了史佩莱的手。

史佩莱深吸一口气，刚刚才泄的气又鼓了起来。他恢复了沉着，挨床坐着，看着赫伯特，而史密斯也站在他的旁边。庞库那夫撕下了自己的衬衫，沮丧地做着绷带。

史佩莱告诉史密斯，现在最先要做的就是给赫伯特止血，而且还不能让伤口堵塞，也不能让伤口很快长好，不然内脏被打伤了，脓血很可能会留在胸膛里。

史密斯完全同意他的看法，所以史佩莱决定暂时不把两个伤口缝合，只是将它们暂时包扎。幸好这两处创伤不用扩创。

发炎是最有可能发生的，居民们有没有什么能够防止发炎的药品

呢？

有，有一种药是能够防止发炎的，而且这种药还是大自然提供给他们们的。这种药就是冷水。冷水是防止发炎的最有效的镇静剂，是治疗严重炎症的灵药，如今的医生，有时候也会用到它。

当然，冷水还有一个好处，那就是它能让创口保持在一个绝对休息的状态，在过早包扎伤口的情况下能起到保护创口的作用，因为一些临床经验表明，创口在最初的几天里，和空气接触非常危险。

史佩莱和史密斯，虽然不是外科医生，但却用智慧和生活中的经验，做出了以上的判断，最后又像一名称职的外科医生一样，对赫伯特进行了治疗。他们将敷布敷在了赫伯特的两处创口上，然后不断用冷水来保持敷布的湿润。

庞库那夫在进屋不久就生上了火，好在屋子里什么生活用品都有。不仅有枫糖，还有各种各样的草药。这些草药也是赫伯特从格兰特湖畔采集来的，他们熬了一些，做成清凉饮料喂给赫伯特。

此时，赫伯特已经完全失去知觉了，他的体温很高。

一晚上过去了，他还没有醒过来。

此刻的赫伯特奄奄一息，随时都有停止呼吸的可能。直到11月12日，史密斯和同伴们才终于看到了一点希望，赫伯特从长时间的昏迷中清醒过来，他睁开眼的第一时间就认出了史密斯、史佩莱和庞库那夫。他总共只说了两三句话，对于发生了什么事，他一点都不知道。

大家把事情的经过告诉了他，并让他不要动，说他已经没有生命危险了。过不了多久，他就能康复了。

赫伯特并没有感受到多大的痛苦，而这都源于他的伙伴们不断用冷水来清洗伤口，使其没有发炎。现在伤口虽然还有化脓，但体温却没有再升高，这都是好现象，希望这两处伤不会再造成更严重的后果。

庞库那夫那一直吊着的心，总算放了下来，他就像一个修女，也像慈母一般，整天坐在赫伯特的床前。

赫伯特虽然又沉沉入睡，但却睡得比较安稳。

“我相信你！史佩莱先生，我对你有信心，你一定会救活赫伯特的。”庞库那夫说。

“是的，我们一定要救活他。虽然伤势很重，枪弹甚至已经穿透了他的肺，可也只是打穿了肺，并不会致命。”史佩莱说。

“上帝会保佑你的！”庞库那夫连连说。

不难想象，在牲畜栏里的24小时，居民们的脑子里只想着赫伯特的伤势，完全没有考虑如果海盗们回来要怎么办？他们既没有想到即将到来的危险，也没有想着怎么预防可能出现的危险。

终于，在觉得赫伯特脱离了生命危险，庞库那夫又守在赫伯特床前时，史密斯和史佩莱谈起了他们所面对的问题。

他们仔细检查过牲畜栏，并没有阿埃童的影子。这个可怜的人，会不会是被他曾经的同伙绑走了呢？他有没有进行过反抗？是不是反抗又被打败了？当然，后一种假设最有可能。在史佩莱爬上栅栏时，清楚地看到有个海盗沿着富兰克林山的支脉，向南部跑去了，当时多卜还追了过去。

从牲畜栏处跑掉的海盗，就是在感恩河口被岩石撞坏的那只海盗船上的人，而被史密斯刺死的那个海盗，现在还躺在牲畜栏外，正是哈维的同党。

牲畜栏没有受到损坏，大门也还关得好好的，更没有牲畜逃去森林。而在屋子里以及栅栏里，他们都没有发现格斗的痕迹，也没有被打坏的东西，只是阿埃童的武器和他一起失踪了。

“他很可能是遭到了袭击，对于他这样一个善于自卫的人来说，肯定是抵挡不了才这样的。”史密斯说。

“没错，很可能是海盗们看牲畜栏里什么都有，就在这里住了下来，不过看到我们过来便逃跑了。还有一点也很清楚，那就是等我们来的时候，阿埃童已经不在了， he 现在是死是活，我们也不知道。”史佩莱说。

“我们要去森林搜查，将这些恶徒从岛上完全消灭。庞库那夫曾说要像对待美洲豹一样，看来他的预见是对的。我们要是早点这么做，也许就不会发生这么多不幸的事了。”史密斯说。

“是啊！看来我们不得不狠下心来了。”史佩莱说。

“不过，我们现在只能暂时住在牲畜栏里，等到赫伯特移动不会出问题时将带他带回‘花岗宫殿’。”史密斯说。

“那普怎么办？”史佩莱问。

“那普是安全的。”

“但那普要是看我们老不回去而着急，冒险来找我们呢？”

“他千万不能过来，他要是过来，肯定会在半路被杀掉的！”史密斯用很快的语速说。

“可他来找我们的可能性很大。”

“唉！可惜电报没办法发了，不然还可以告诉他。现在这种情况，我们也不能让庞库那夫和赫伯特留在这里，太危险了。这样吧，我一个人去‘花岗宫殿’跑一趟。”

“不行！绝对不行！赛莱斯，你千万不能暴露自己，而且这样的冒险是完全没有必要的。海盗们肯定在监视着牲畜栏，他们现在一定是躲在密林中，你这一出去，我们的不幸又会增加一件。”史佩莱说。

“那怎么办？那普怎么办？他整整一夜没我们的消息了，一定会来这里的！”史密斯着急起来。

“而且他也不知道像我们这样防范，所以很可能在路上被打死！”史佩莱又补充了一句。

“真的没办法给他传话了吗？”史密斯正在想这个问题的时候，突然把目光落在了多卜身上。多卜正在他面前走来走去，像是在告诉他：“还有我呢！”

“对！可以叫多卜带话！”史密斯大声说。

多卜看到主人叫它，马上抬头看着史密斯。

“对！多卜可以！我们不能去的地方，多卜能去。这样就能把牲畜栏的情况带回到‘花岗宫殿’了，还可以把‘花岗宫殿’的情况带回来。”史佩莱也高兴地说。

“那快！马上行动！”史密斯说。

史佩莱从笔记本上撕下一张纸，拿出笔来写下了几句话：

我们在牲畜栏，赫伯特受伤了，你自己注意安全。千万不要离开“花岗宫殿”。海盗有没有在附近？回信让多卜给我们带回来。

这封简短的信不仅告诉了那普他们现在的处境，还告诉了他需要注意的事项。在将这封信折好后，他们将其系在了多卜颈上一个比较显眼的位置。

“多卜，好多卜！”史密斯一边抚摩着这条通人性的狗，一边轻声说着，看到多卜像听懂似的看着他，他又说：“那普，多卜，去找那普！那普！去，快去！”

多卜听了史密斯的话后，很有灵性地在他面前来回跳了几下，它知道主人要它去做什么。牲畜栏通向“花岗宫殿”的路，它是非常熟悉的，用不了一个小时，它就能到“花岗宫殿”。

现在，不管是史密斯还是史佩莱，走这条路都是很危险的，但多卜却可以穿过野草和密林，不被发现地走完全程。

史密斯带着多卜到了牲畜栏门口，把门打开。

“多卜，去，找那普！那普！”史密斯重复着他的话，指了指“花岗宫殿”方向，多卜朝他摇摇尾巴，向前跑了，转眼间就不见影了。

史佩莱走过来说：“它一定会顺利送到的。”

“是的！忠实的多卜，机灵的多卜，不仅会送到，还会顺利回来

的。一定！”

“现在几点钟了？”史佩莱问。

“差不多十点钟！”

“用不到一个小时，它就能到那里了，我们耐心地等它回来吧！”

史密斯关上了牲畜栏的门，和史佩莱重回房间。赫伯特还在昏睡，庞库那夫不停地用冷水浸湿那块敷布。

史佩莱一时之间不知要做什么，便为赫伯特准备起营养食品来。同时，他也没忘记倾听栅栏外面的动静，以免海盗闯入来个突然袭击。

居民们等着送信的多卜，坐卧不安。差不多十一点的时候，史密斯和史佩莱拿着枪站在了门外，他们准备一听见狗叫就去为它开门。他们深深相信，多卜要是顺利到了“花岗宫殿”，那普一定会让它马上送信回来的。

等了有十多分钟的时候，他们听见了一声枪响，接着又听到了狗叫声。

史密斯急忙打开门，先是看见100英尺外的森林里出现了一缕烟，他马上朝那里开了一枪，接着，多卜蹿了进来，他急忙关上了大门。

“多卜，好多卜，你回来了！”史密斯亲热地搂着多卜的脖子，一边叫，一边取下了它颈部拴着的一张纸条，上面有那普写的几个大字，史密斯小声地念了出来：

我不出“花岗宫殿”，附近也没有海盗。赫伯特真可怜！

第八章

很明显，海盗们一直都在附近监视着牲畜栏，他们想将居民一个个杀死。对于这样凶残的海盗，居民们没有别的办法，只能将他们视为野兽。

居民们必须时刻注意安全。因为当前的情况对这帮恶棍是很有利的，他们在暗处，而居民们却在明处。他们随时都有可能采取防不胜防的突然袭击，居民们却无法对他们采取行动。

于是，史密斯和其他几个人商量后决定，暂时住在牲畜栏里。阿埃童的房间里有各种生活用品，食品也还能够维持一段时间。也许是因为居民们来得太及时，让海盗们没来得及把东西抢走就跑了。

据史佩莱分析，事情应该是这样的：六个海盗在登岸后，沿着南部海滨，穿过了蛇盘半岛。他们没有冒险进入西遥森林，却到了瀑布口。随即又沿着河口走到了富兰克林山，在那里找到了栖身之地。最后，他们发现了无人居住的牲畜栏，并在这里住了下来，随时准备实施他们抢夺小岛、杀害居民的计划。

可怜阿埃童回到牲畜栏后，便被海盗们抓住了，结果可想而知。

没错，现在岛上还有五个海盗，每个人都是全副武装，在森林里注视着外面的一切。如果现在冒险去森林，等于自寻死路。现如今，对于这些海盗的攻击，居民们既无法预防，又不能去阻止。

“等等看吧，现在没有其他办法，只能等赫伯特好了后，我们再去全面搜寻，与这些海盗不留情面地较量，这也是我们全面搜查的目的，当然还有……”

史密斯还没说完，史佩莱便接着说：“寻找那位神秘人。”

随即，史佩莱又说出了他的疑惑：

“亲爱的赛莱斯，这位一直在紧要关头保护我们的人，为什么这次却没有保护我们呢！”

“谁又能说清呢？”史密斯说。

“什么意思？”史佩莱问。

“可能我们还没有走到绝境，还有机会。亲爱的史佩莱，甚至也许他在另一种场合，用他的方式在帮助我们呢。怎么说呢？现在关键不是这个问题，关键是怎么保住赫伯特的生命。”

这确实是现在他们最担心的问题。又是几天过去了，让他们感到欣慰的是，在他们一直用冷水为他降温消炎的过程中，赫伯特的病情并没有恶化，创口也没有发炎。同时，因为他们靠近火山，所以这里的水也含有少量的硫，这都对治疗起了作用。当然，更因为有了他们的细心呵护，总算让赫伯特保住了命。化脓现象比以前好了很多，热度也降了下来。

不过，由于在饮食上对赫伯特有限制，这让他的身体非常虚弱，需要好好静养一些时间，好的休息对他的身体很有好处。当然，还有那些清凉饮料，他们也尽量让他多喝。

现如今，史密斯、史佩莱和庞库那夫给赫伯特上药和敷创口的技术越来越高了，每次给赫伯特包扎伤口时，他们总是先给他敷上布和棉花，包扎时也是松紧合适，以免伤口因为合不拢而发炎。而因为经常要更换包扎的布，所以屋里的布料，差不多也快用完了。

史佩莱在给赫伯特敷裹伤口时非常仔细，他知道这个过程的重要，所以也一直给伙伴们讲，说好的敷裹比好的手术更难得，而且还说这是大多数外科医生都承认的一件事。

离赫伯特受伤已经过去十天了，11月22日，赫伯特的身体好了很多，而且也开始吃一些营养品了。他的脸上慢慢浮现出了原来的光彩，眼神也变得明亮了。

不过，为了让他少说话，庞库那夫费尽心思找话题和他说，讲了很多稀奇古怪的事情，但他还是有很多问题要问。比如问阿埃童去哪里了，他一直以为阿埃童还在牲畜栏，对于为什么见不到他而纳闷。庞库那夫怕赫伯特难受，没有说出实情，只说阿埃童和那普一起在看守“花岗宫殿”。

“哼！这群恶棍，对他们绝对不能怜惜，史密斯先生还想用仁慈来感化他们，可结果呢？哼！叫我说，我的仁慈就是那一粒粒子弹。”庞库那夫说。

“再没见过他们吗？”赫伯特问。

“没有，孩子，不过等你好了后，我们会找到他们的，到时候我们就能看到那些背地里害人的畜生了。”庞库那夫说。

“我还很虚弱对吗？我的庞库那夫！”

“没事的。你的体力会慢慢恢复的，被子弹穿胸算得了什么？真是开玩笑，没什么可怕的，这种事我见多了，没什么了不起的！”庞库那夫义愤填膺地嚷嚷着。

“真的，太可怕了，一想到出这种事，我都禁不住全身发凉！”史佩莱不止一次地在他们面前这样说。

“如果真的到了非动手术不可的地步，你会怎么做？会犹豫吗？”史密斯有一天问史佩莱说。

“不会的，赛莱斯！我不会犹豫。真是老天保佑，没有出现一些并发症。”

在林肯岛上，居民们曾无数次运用他们的聪明才智解决问题，这都源于他们丰富的社会经验和渊博的知识，所以屡屡成功。那么，他们会不会遇到一些即使用尽全部才智，也无法解决的问题呢？

人是群居动物，人与人之间都是相互依赖的，可林肯岛上却只有他们有限的几个人。史密斯明白这点，所以曾无数次地问自己，一旦遇到一件他们全都无能为力的事情，那又该怎么办呢？

他有种忧虑，这种忧虑就是，他们这群人一直都是幸运的，但现在似乎开始走入不幸阶段了。刚开始的时候，自他们顺利逃出里士满，侥幸降落这座岛，在近两年半的时间里，他们一直都是需要什么就有什么，自然界给他们提供了大量的矿物质、植物、动物……正是因为大自然提供的这些东西，才让他们依靠自己的聪明才智和科学常识，将这些物资加以利用。所以他们一直幸福地生活着。况且，在一些非常严峻的情形下，还有一股不可思议的力量来帮助他们……

当然，这些幸运都过去了，史密斯觉得，他们现在面临着严峻的考验。

确实是这样的。当海盗们的船来到荒岛附近后，虽然船及大批海盗被一股神秘的力量消灭了，但还有六个亡命之徒逃掉了。这群人登上了岛，无恶不作。想要捉住他们，几乎是不可能的。他们携带着武器，阿埃童肯定已经被他们杀害了，赫伯特还差点丧了命.....

史密斯安静下来就会想，这会是居民们遇到的第一个打击吗？

史佩莱也会反复思索，他甚至觉得，一直对他们有着很大帮助的神秘力量，好像一下子不起作用了。那股神秘的力量，肯定来自于一个人，那个人是谁？是不是已经离开了？是不是他也没办法了呢？

这一系列的问题他们都无法回答。不过，我们不能就此认为史密斯和他的伙伴们已经丧失了信心，已经绝望了。不是，绝对不是这样的！他们是在直面自己的处境，分析一切的可能性，并随时准备应对这一切不好的局面。他们用坚韧和不屈，正准备勇敢地面对未来，即使最后他们真的遭到了严重的、灾难性的打击，也还是会勇往直前的.....

第九章

赫伯特的病情逐渐好转。现在他们只等一件事，那就是等病情再好一点，就可以将他抬回“花岗宫殿”了。

牲畜栏给阿埃童盖的那间房子虽然不错，里面的物品也应有尽有，

但总比不上“花岗宫殿”。更重要的是，牲畜栏这边非常不安全，虽然居民们谨慎而小心，但还是怕海盗们打黑枪。而在“花岗宫殿”，他们就没有这样的担心了。“花岗宫殿”可以称得上是“铜墙铁壁”，处在那样的环境，任何的进攻都是无用的，他们还怕什么呢？

于是他们等待着，焦急地等待着。等赫伯特的伤势不会因为移动而导致危险时，他们就可以动身了。虽然想要通过啄木鸟林还是有着很大的困难，但他们决定只要时机成熟，就一定要抬他回去。

在这期间，他们没有收到那普的消息，不过，他们并没有过多的担心。因为那个勇敢无畏的黑人在“花岗宫殿”里是非常安全的，绝对不会受到袭击，所以他们没有再派多卜去那里。他们怕那机灵而忠实的狗被海盗发现并射死，那么他们就会失去一个可靠而得力的助手，他们不愿意冒这个险。

所以，虽然他们渴望能尽快到“花岗宫殿”相聚，但还是需要等待。

看着自己仅有的兵力分散几处，让海盗们有机可乘，史密斯非常苦恼。在阿埃童失踪后，赫伯特又受了伤，所以他们仅剩下的四个人面对的是凶狠的五个海盗。

史密斯的苦恼被赫伯特看在了眼里，他知道自己的受伤让大家处在了更危险的境地。

11月26日，在赫伯特睡着后，史密斯、史佩莱和庞库那夫又开始商量如何对付海盗了。

在说到他们现在无法和“花岗宫殿”的那普取得联系时，史佩莱说：“我的想法和你们一样，我们不能冒险回去，不然走在路上只能挨

打。依我看，我们还不如直面而上去追赶这群恶棍呢。”

“我同意史佩莱先生的意见，我们可都不是怕死的人。不说别人，就说我吧，只要史密斯先生一声令下，我随时都会冲进森林和他们拼命。那些恶棍真是太可恶了，不就一个抵一个吗？怕什么！”庞库那夫说。

“能抵得了五个吗？”史密斯问。

“我和庞库那夫全副武装去吧，带着多卜……”史佩莱说。

“亲爱的史佩莱、庞库那夫，不要冲动，我们现在需要冷静下来考虑问题。如果我们已经摸清了海盗躲在荒岛的什么地方，那么我们是可以直接发动进攻的。但事实不是这样的，甚至恰恰相反，是他们探明了我们在哪里，直接攻击的会是他们。这一点不用怀疑。”史密斯说。

“可是，史密斯先生，他们不一定会打中我们的。”庞库那夫嚷道。

“赫伯特已经被打中了，庞库那夫，而且你再想想，你们离开牲畜栏，海盗们肯定看得很清楚，他们知道这里只有我和一个受伤的孩子，难道不会任由你们进森林，转而攻击我们吗？”史密斯说。

“没错，史密斯先生，我真是气糊涂了。这里什么都有，他们一定会想尽办法来抢夺的，你一个人当然阻止不了他们。”庞库那夫心里憋着气，但又无可奈何地说。

“要是在‘花岗宫殿’就好了。”

“如果在‘花岗宫殿’，情况就完全不一样了。在那里，我们可以把赫伯特留给一个人来照顾，其余三个人就能去森林搜索，而我也就不用再

有后顾之忧了。现在我们是在牲畜栏里，所以最好的办法就是在大家能走的时候一起走。”史密斯又说。

史密斯的话让史佩莱和庞库那夫无法再反驳，他们清楚地知道，史密斯说的是对的。

“如果阿埃童还活着就好了，那个可怜的人，到我们集体没多长时间。”史佩莱说。

“是不是他已经死了？”庞库那夫用一种异样的声音问。

“怎么？庞库那夫，你是觉得海盗不会杀他？”史佩莱问。

“我想，如果阿埃童对他们有利，他们就不会杀他。”

“什么意思？你认为阿埃童见了他以前的同伙，就会忘记我们……会背叛我们？”

“这很难说！”庞库那夫说的时候，也觉得有些不对，所以声音轻了很多。

“庞库那夫！”史密斯一把抓住了庞库那夫的胳膊。

“你有这想法是不对的，如果你真是这么想的，我很伤心。我敢担保阿埃童绝对是个忠实可靠的人，他不会背叛我们！”

“我也敢担保！”史佩莱补充说。

“对不起！史密斯先生，我错了！我不该这么想，我怎么会这么想呢？完全没有根据。我已经昏头了，每天关在牲畜栏里很烦，整天胡思乱想，心里不安。”庞库那夫不停地说。

“镇定点！庞库那夫。”史密斯冲庞库那夫说完，又转向史佩莱：“亲爱的史佩莱，你觉得还要多长时间，我们就能抬赫伯特回‘花岗宫殿’了？”

“现在不好说，赛莱斯，我们一疏忽，很可能会导致严重的后果。虽然他现在一天比一天好，但身体还很虚弱，我看……也许……差不多要八天吧。嗯！我们不能急，慢慢来，再等等！”史佩莱说。

还要八天，那时候已经到12月初了。如今，春天已过去两个月了，天气好的时候，已经很热了。林肯岛的森林也都恢复了生机，非常茂盛。按季节来看，也是收割的时候。所以如果一切顺利的话，他们不仅要搜寻全岛，而且还要下地干活。

由此可见，被困在牲畜栏里的他们，损失可想而知。然而，虽然内心焦急万分，但他们还需要忍耐，这是不得不做的让步。

有几次，史佩莱在多卜的陪同下，冒险去了栅栏外巡视。在巡视过程中，他始终将手放在扳机上，随时准备迎接战斗。

最终，他不仅没有遇到危险，也没有发现可疑的迹象。因为只要有一点危险存在，多卜都会提醒他的，但没有，在整个过程中，多卜始终没叫。甚至可以说，在当时，他不需要顾虑什么，也许海盗们在荒岛的其他地方正做着坏事。

11月27日，史佩莱再次出去，并走向了山的南部，冒险进了四分之一英里的森林。这次，多卜似乎嗅到了意外情况。它没有像往常一样漫不经心，而是焦躁地来回跑着，不停地在野草和灌木丛中穿梭。

史佩莱紧紧地跟着多卜，一面叫它的名字，唤起它的注意，一边注

意着周边的环境，甚至还躲在了树后，随时准备开枪。但也许多卜嗅到的并不是人，因为根据以前的习惯，在嗅到陌生人时，它会发出沉闷的怒吼，但现在它并不是这样吼叫，可见附近没有危险，也没有危险分子。

多卜还在继续不安地在前面四处嗅，史佩莱悄悄地跟在了它的身后。突然，多卜冲向了一丛茂密的灌木丛，接着又衔回一块破布给史佩莱。

史佩莱拿着这块有些肮脏的破布，飞快地回到了牲畜栏。居民们仔细看了一下，认出是阿埃童背上的一块毡子，这是“花岗宫殿”独家生产的，所以不会错。

“庞库那夫，看到没有，遭到不幸的阿埃童是反抗过的。只是海盗们将他硬拖走了，你现在还怀疑他吗？”

“不怀疑了，绝不怀疑，史密斯先生，我早就后悔这么想了。但通过这件事，我们也可以得出一个结论。”

“什么结论？”史佩莱问。

“从这块毡子我们就能看出，他们并没有在牲畜栏将阿埃童杀死，而是架走了他。所以说，他有可能还活着。”

“是的，确实有这个可能。”史密斯沉思了片刻说。

此刻，他们对阿埃童没有死还抱有一些希望。

以前，他们常想，阿埃童一定是像赫伯特一样遇到了袭击，被枪打中了。如果并没有打死他，而是架到了荒岛上的某一个地方，是不是可

以说他目前只是他们的俘虏？或者是海盗中有人认出了他，知道他曾和他们是一伙的，而且还是他们的首领，是个化名为本·吉奥兹的澳洲伙伴，会不会妄想让他再入伙呢？因为如果能说服阿埃童成为他们的人，对他们一定大有好处。

经过一番分析，大家觉得这件事对他们算是个好事，因为他们有可能还会和阿埃童见面。站在阿埃童的角度来说，只要他还活着，即使是个俘虏，也会想办法逃生的。这对居民们来说，绝对是个有力的帮助。

“不管怎么说，如果阿埃童成功逃脱，一定会去‘花岗宫殿’找我们的。因为他并不知道海盗们的暗杀计划，也不知道赫伯特被打中了，更不会想到我们被困守在牲畜栏里了。”史佩莱说。

“希望他在‘花岗宫殿’，也希望我们能尽快回到那里去，不然这些恶棍虽然没办法毁我们的房子，但却能糟蹋我们的高地、农场和家禽场。”庞库那夫嚷嚷道。

庞库那夫自从来到林肯岛，已经完全是一副农夫做派了，所以心里时时刻刻牵挂着他的田地和庄稼。当然，还要说明一点的是，赫伯特比他们更想回到“花岗宫殿”，他知道大家在那里是最安全的，但为了他却不得不守在牲畜栏里。因此，他只有一个念头，那就是尽快离开。可什么时候才能离开呢？他觉得自己已经可以承受移动了，而且回到“花岗宫殿”那面对大海，有着清新空气的房子，对他的身体也很有好处。

有好几次，赫伯特催促史佩莱，但史佩莱始终没有说离开，理由很简单，他的伤口还没好，在移动过程中，很可能使伤口重新拉伤。

不过，不久之后发生的一件事，让他们又不得不答应赫伯特，带他离开。当然，他们绝对没有想到，因为这个决定，最终带给他们的是更

大的悲伤。当然这都是后话了。

决定离开是在11月29日的晚上，差不多七点钟的时候，几个人在赫伯特的床前正说着话，突然听到了多卜急促的叫声。

史密斯、庞库那夫和史佩莱急忙抓起枪，跑了出去。他们看到多卜在栅栏底下又叫又跳，像是很高兴的样子。

“看来是有人来了。”

“肯定是！”

“好像不是敌人。”

“是那普来了吗？”

“说不定是阿埃童呢。”

三个人的话还没说完，有黑影就从栅栏上翻了下来，并跳进了牲畜栏。居民们一看，是狙布。多卜高兴地向狙布表达了它的亲热和欢迎。

“狙布，你怎么来了？”庞库那夫叫道。

“一定是那普让它来的。”史佩莱说。

“很可能它身上有信。”史密斯说。

庞库那夫跑到猩猩狙布面前。确实如此，如果有什么情况需要传递给主人的话，没有比选择狙布更好的了，因为它可靠又行动敏捷。同时，它不仅能去居民们没法去的地方，甚至多卜没办法去的地方，它也能去。

史密斯没有猜错，狙布的脖子上确实挂了一个小口袋，而小口袋里就有一封信，是那普写的。

当看到这封信后，史密斯和他的伙伴们的愤怒和懊恼可想而知，因为纸条上写着：

星期五早上六点钟的时候，高地遭到了海盗的侵袭。那普。

这情况让居民们气得你看看我，我看看你，一句话都说不出。怎么办？海盗们在观望壁，也就意味着他们准备践踏和毁坏庄稼。

赫伯特在看到他们沮丧的脸后，猜出情况不妙了。等到看见狙布，他就更能确认，“花岗宫殿”一定是遇到了威胁。

“史密斯先生，我们回‘花岗宫殿’吧。我能走，经得起路上的劳累，我可以的。”赫伯特说。

史佩莱走到赫伯特身边，看了他一会儿说：“那我们抬你走吧！”

不过，到底该用担架抬还是用阿埃童架过来的大车呢？这个问题很快就找到了答案，因为用担架对受伤的赫伯特来说显然更合适一些。但抬担架需要两个人，也就是说，如果遇到危险，就只有一个人去防御了。相反，如果用大车，就有两个人来防御。至于路途中的颠簸，要是把床上铺的垫子铺在车上，小心前行的话，不就避免了吗？这一点他们能办到。

第二天一早，他们决定出发。

大车被拉了过来，庞库那夫也很快套上了野驴，史密斯和史佩莱将赫伯特连同床上的垫子一起抬上了大车。天气很好，太阳从树叶中透射

过来，明晃晃的。

“枪都准备好了吗？”史密斯提醒大家。

史密斯和庞库那夫每人拿了一支双筒枪，史佩莱拿着一把步枪。一切都准备好了，只等出发。

“有没有觉得难受？赫伯特？”史密斯问。

“史密斯先生，放心吧！我绝不会死在路上的！”赫伯特说。

赫伯特是用尽力气说的，在他坚强的意志下，虚弱的身体也散发出了能量。

史密斯心里有些难受，他犹豫着，并不想下这个决心。但不走又会让赫伯特失望，甚至因为郁闷而病情加重。

“出发！”史密斯终于说。

在牲畜栏的门打开后，知道什么时候该安静的多卜和狙布走在了前面。当大车出去后，门又被关上了。庞库那夫牵着拉着大车的野驴，慢慢地向前走。

本来他们想重新选一条小路，这样安全性会高很多。但那条小路需从树下穿过，大车走起来非常困难。所以，他们还是走了原路。这条路海盗们是非常熟悉的，但他们还是决定走。

史密斯和史佩莱走在大车的两边，随时准备迎战。其实，此时也许海盗们还在观望壁高地上。

显然那普是在看到了海盗们之后，才写信让狙布给带过来的。上面

所写的时间是早上六点钟。来惯了牲畜栏的猩猩，从“花岗宫殿”到牲畜栏用不上45分钟，所以，很可能在路上他们并不会遇到海盗。如果真要发生枪战，应该是在离“花岗宫殿”不远的地方才可能。

然而，居民们还是不敢马虎。拿着棍子的狙布，有时会和多卜走在前面，有时又会在路旁的森林探索，并没有发出警告声。

做着向导，领着拉着车的野驴慢慢向前走的是庞库那夫。

他们是早上七点钟离开牲畜栏的，一个小时候，5英里的路程他们走了4英里，没有发生任何危险。沿路的情况和感恩河的河口到格兰特湖之间，以及整个啄木鸟林一样，到处都是静悄悄的。

没有什么需要多卜和狙布发警报的，这片森林就和居民们第一天从气球上降落时一样寂静。

马上就要到高地了，再走一英里，他们就能看见硝甘河上的吊桥了。史密斯想，吊桥应该还好好地存在着。因为假设海盗们过了桥，绕过了高地周围的小河，为了谨慎起见，他们也一定会把小桥放下的，这样便于他们后退。

终于，他们通过树木之间的间隙，看见了海平线。大车继续前行，他们没准备舍弃大车。此时，庞库那夫突然勒住了野驴的缰绳，用沙哑的嗓音愤怒地喊道：“这群强盗！”

居民们朝他看的方向望去，只见磨坊、棚屋和家禽场的房舍上空腾起了一股股的浓烟。浓烟里，有个人正在那里劳动——仔细一看是那普。

大家喊了一声，那普听见后，急忙跑了过来。

原来，海盗们在高地上做了一番破坏后，离开了这里，已经差不多有半个小时了。

“赫伯特先生呢？”那普问。

史佩莱来到大车旁边，见赫伯特已经又昏迷了……

第十章

居民们没有再考虑海盗会给“花岗宫殿”带来什么危害，也不再考虑高地遭受的损失了。他们没心情考虑这些，因为赫伯特的病情特别危急。此次路途中的劳累和颠簸，有没有引起什么致命的内伤？史佩莱不敢确定，这使他们陷入到了深深的绝望中。

大车到了河道拐弯处后，他们用树枝做了一个担架，将人事不省的赫伯特连垫子一起放在了担架上。十分钟之后，史密斯、史佩莱和庞库那夫抬着赫伯特到了峭壁下，大车被那普带到了观望壁的高地上。

进了升降梯后不久，赫伯特就躺在了“花岗宫殿”他自己的床上。

居民们费尽了心思，总算让赫伯特苏醒了过来。醒来后的他，在看到自己躺在“花岗宫殿”的房间时，笑了。不过由于太过虚弱，所以一句话都没说出来。

他的伤口由于还没有愈合，史佩莱怕重新裂开，又检查了一遍，所

幸伤口没有开裂。

但为什么他会昏迷呢？赫伯特的病情到底恶化到了什么程度？在史佩莱刚刚给他检查完后，赫伯特就因为高烧又昏睡过去了。

史佩莱和庞库那夫始终在他床边，没有离开一步。而在这个时间里，史密斯也将牲畜栏里发生的事告诉了那普，那普也向主人讲述了高地上发生的事。

原来，海盗们前天夜里出现在了森林边缘的硝甘河渡口。当时，那普正在家禽场附近。看到有个海盗想渡河时，他开了一枪，因为在晚上，他也不知道那一枪打中有没有。不过，海盗却并没有因为那一枪而退缩，那普也差点来不及退回“花岗宫殿”。在“花岗宫殿”里，他至少是安全的。

可要怎么办呢？海盗们马上就要破坏高地了，该如何阻止他们？有什么办法通知主人吗？在牲畜栏的主人们情况又是怎样的？史密斯和其他人是11月11日就去牲畜栏的，现在都29日了，他唯一知道的情况就是多卜带来的坏消息：阿埃童失踪、赫伯特受重伤，史密斯、史佩莱和庞库那夫被围困在牲畜栏。

那普完全不知道该怎么办了。他不停地问自己怎么办，他不怕什么，因为海盗们根本就无法进“花岗宫殿”，可农场、家禽场和田地就要任凭他们糟蹋了吗？如果能把消息传递给主人，主人也许能知道该怎么解决这件事，这不是很好吗？

就这样，那普想到了狙布，决定写封信让狙布带到牲畜栏去。那普知道猩猩很聪明，这是很久以前就证明过的。因为以前他们只要一提“牲畜栏”这几个字，狙布就知道是什么意思。同时，大家也许还记

得，狙布曾陪着庞库那夫驾车去过牲畜栏。

狙布只需穿过森林就能到达那里，而且就算是海盗们看见了狙布，也会将它当成一只猩猩来看待，不会把它当成“敌人”的。

想到这里时，那普没有犹豫，马上写好了信，并系在狙布的脖子下面。随后将它带到了“花岗宫殿”门口，将一根长绳子放到了地面，不停地对狙布说：“狙布！牲畜栏！狙布！牲畜栏！”

猩猩狙布知道了他的意思，抓住绳子，敏捷地滑到了海滩上，然后在黑暗中消失了，丝毫没有在海盗们发现。

“做得好！那普！不过，如果不通知我们，可能会更好一些。”史密斯说。

他想到了赫伯特，因为这次移动，严重地影响了他伤口的复原。

从那普说的话可以看出，海盗一个都没到沙滩上来。为什么不来，是因为他们搞不清楚岛上有多少人，甚至可能以为岛上有一支部队在防卫“花岗宫殿”？

因为他们不会忘记，当他们从双桅船上到小船时，山石的高处和低处，都有枪弹向他们打去。他们认为这些人一定是故意不暴露行踪。不过，观望壁的高地上却没有“花岗宫殿”的炮火掩护，他们能够上去，于是就肆意破坏起来。

他们抢走了很多东西，并放火烧毁了那里的房舍，直到居民们回来前半个小时，他们才离开。当时，他们以为居民们还被困守在牲畜栏。

看到海盗们离开，那普才跑了出去。他冒着暴露被打死的危险，爬

上了高地，想去扑灭那熊熊的火焰。虽然并不起什么作用，但直到大车到达森林边缘，听到叫他，他才作罢。

这就是那普这边的情况。海盗的存在，成了林肯岛上居民们的一个祸根。过去的他们，生活得多么幸福和快乐，但现在，他们却不断地要被海盗骚扰、袭击，很可能还会有更大的危险在等待着他们。

史佩莱和庞库那夫留在了“花岗宫殿”，守在了赫伯特床边。史密斯则和那普一起，去了解被海盗破坏和殃及的范围。

令他们庆幸的是，海盗们始终没有到“花岗宫殿”脚下来。不然，“石窟”的工场就要遭殃了。不过，即使“石窟”遭到了损坏，损失也比观望壁的损失小。

史密斯和那普慢慢地向感恩河方向走去。他们爬到了河的左岸，但却没有发现海盗，即使是河对岸以及丛林深处，都没有可疑的迹象。

看来，现在有两种可能：一种是海盗们在通往牲畜栏的路上看见了居民，并知道他们要回“花岗宫殿”了；另一种可能是在他们破坏了高地后，钻进了啄木鸟林深处，随后沿着感恩河跑了，所以并不知道居民们回来。

如果是第一种，说明他们又去牲畜栏了，因为那里已经没人了，但却有很多资源；如果是第二种，那么他们一定是找到了能安身的地方，正在等待时机重新进攻。所以，居民们想要采取守势，是绝对没有问题的，但尽快肃清这些强盗的计划却要因为赫伯特的伤势加重而推迟了。

确实，以他们现在的力量，只能勉强对付这帮海盗，但现在谁也离不开“花岗宫殿”。

史密斯和那普来到了高地，难过地看着被践踏的田地：成熟的麦穗倒在了地上，农场和菜园都被毁了。

幸好还有些种子在“花岗宫殿”里保存着，以后还能将菜园恢复。

被烧毁的地方有家禽场的外壁，野驴的厩房等等。此时，一些受到惊吓的动物还惊恐地在地面上徘徊。海盗焚烧时躲在湖上的飞禽，此时也飞回来了，正在岸边戏水。

虽然一切还可以重建，但看到被损坏的这些，史密斯的脸色比平时差了很多。他难以抑制自己的愤怒，但却什么都没说。在又看了一眼被破坏和烧毁的田地及房舍后，他回到了“花岗宫殿”。

随后的几天，也是居民们在荒岛上过得最痛苦的日子。因为赫伯特的身体更虚弱了，好像是因为抵抗力下降，引发了一种疾病。史佩莱担心自己没有能力与这逐渐恶化的疾病做斗争。

赫伯特几乎一直处在昏迷中，有时甚至还出现了神志不清的状态。居民们没有药品，唯一的药品就是清凉的饮品。虽然发热情况并不严重，但不久之后，就会每隔一段时间发一次烧。这是12月6日那天，史佩莱第一次发现的。

他发现，赫伯特的手指和耳鼻的颜色都发生了变化，惨白一片。接着，他发现赫伯特的身体开始发抖，打着哆嗦，身上也起了很多鸡皮疙瘩。再一摸脉搏，非常微弱，也不正常。

赫伯特口渴得厉害，皮肤也越来越干燥，时不时还会出现痉挛症状。没过一会儿，赫伯特的脸上开始发烧发烫，脉搏越跳越快，之后就是一身大汗，最后，热度又降低了。

这种情况隔一段时间就会出现一次，一次又会持续五个小时。

史佩莱一直坐在赫伯特床边，他知道，赫伯特染上了疟疾。现在必须想尽办法医治才行，不然情况会更严重。

“要想治好他，必须有退热药才行。”史佩莱对史密斯说。

“退烧药？从哪里来退烧药？我们既没有奎宁树皮，也没有硫酸奎宁，怎么办？”

“是的，可也许柳树皮能替代奎宁，湖边有柳树。”史佩莱说。

“那我去削些来试试！”史密斯说。

史佩莱说得没错，柳树皮、七叶树皮，还有冬青树叶及蛇根草，全都可以做奎宁皮的代用品。虽然它没有奎宁皮那么见效，但在没有办法的情况下，也不妨用用。

史密斯从一棵黑柳树上削了一些树皮，拿回到了“花岗宫殿”，由于无法提取其精华，他们只能不经加工就使用。在把树皮捣成碎末后，当晚就让赫伯特吃了下去。

这一夜就这么过去了，虽然赫伯特的神志还不是很清醒，但却没有发烧。第二天的时候，热度也没有上升。

庞库那夫的心里又有了希望，但史佩莱却不这么看，因为他觉得也许发烧是隔天的，可能再过一天才会复发，所以他焦急地等着第二天。

还有一点让史佩莱很不安，那就是赫伯特完全进入了虚脱状态，甚至还出现了眩晕。更让史佩莱害怕的是，赫伯特的肝脏充血了。这说

明，不久后，赫伯特神志不清的情况会更严重，甚至还会影响到大脑。

史佩莱对这种并发症简直束手无策，他将史密斯拉到一边说：“赫伯特患上了一种恶性疟疾。”

“恶性疟疾？不会的，史佩莱。恶性疟疾不可能自发产生，必须有这种病菌潜伏才会发病。”史密斯说。

“是的，我明白。赫伯特很可能是在荒岛沼泽地时就感染上了这种病菌。他刚刚已经发作过一次了，如果连续发作三次的话，他就完了。”

“柳树皮还有用吗？”

“没用了。如果没有奎宁来防止恶性疟疾第三次发作的话，他就没命了。”

他们的谈话幸好没被庞库那夫听到，不然一定会让他发疯的。

12月7日，整整一天，史密斯和史佩莱都焦急难耐，但却又没有丝毫办法。

差不多中午的时候，赫伯特又发作了第二次。这一次的发作，让赫伯特好像也意识到了自己将要不久于人世，他将胳膊伸向史密斯、史佩莱和庞库那夫。

这么年轻的生命就要结束了，太残忍了！这个心碎的场面，让史密斯和史佩莱都无法直视，更不要说庞库那夫了。他们急忙打发庞库那夫去了其他地方。

这次痉挛又持续了五个小时。很显然，他已经经不起第三次痉挛了。

当晚，赫伯特的神志更加恍惚，嘴里说着胡话。而他说的几句胡话，更让伙伴们伤心和心痛。他不停地呼喊着重童的名字，还不断恳求那位神通广大的神秘人。看来，神秘人的形象已经深深印在了他的脑海里了。最后，像是耗尽了所有体力，他再次陷入到了完全虚脱状态。

有好几次，史佩莱都以为赫伯特已经离开了人世。

12月8日，赫伯特依然是在昏迷和痉挛中度过的。他骨瘦如柴的手一直紧紧地抓着床单。居民们又给他吃了一些捣碎的树皮，但史佩莱已经不抱什么希望了。

“如果明天一早没有有效的退烧药，赫伯特肯定会死掉的。”史佩莱说。

黑夜来临了，也许这是这位勇敢善良、聪明可爱的少年的最后一夜。在同年龄段的孩子中，他是那么出色，居民们也像喜欢自己的孩子一样喜欢他。

然而，这一夜，却是他生命攸关的一夜。治疗这种可怕疾病的药，那唯一能让他起死回生的药，林肯岛上根本找不到。

这一夜，赫伯特更加迷糊，肝脏充血的现象也更严重了，甚至连大脑都受到了感染，他已经认不清人了。

再来一次痉挛，他必死无疑，他还能活过第二天吗？

太难了！在不断的发烧中，他好像已经耗尽了全部体力，如同一个

死人躺在那里。

凌晨三点钟，赫伯特发出了一声可怕的叫声，那声音像是因为极度痉挛造成的身体分裂。那普当时离他并不远，听到后马上跑了过去。

而就在此时，多卜也发出了奇怪的叫声。

居民们全都冲进了赫伯特的房间，他们想让垂死中挣扎的他安静下来。

赫伯特差点就要滚到床下去了。史佩莱急忙抓住了他的胳膊，他脉搏的跳动在逐渐加快.....

早上五点钟的时候，太阳透过窗户，照进了“花岗宫殿”。它好像是在告诉大家，这是个晴朗的早上，不过，这也可能是可怜的赫伯特的最后一天。

在一缕阳光照向床边的一张桌子时，庞库那夫指着桌子上的一样东西，惊叫了一声。

那是一个长方形的匣子，匣子上有个标签，上面写着：硫酸奎宁。

第十一章

史佩莱冲过去，拿起匣子将它打开，匣子里盛着约200克莱因的白色粉末。

在他尝了一口后，他长舒一口气，这是经过了提炼的、珍贵的奎宁，是最有效的退热剂。

现在必须马上让赫伯特把药喝下去，对于它到底是从哪里来的，怎么来的，以后可以讨论。

“端一杯咖啡来！”史佩莱说。

很快，那普端来一杯咖啡，史佩莱往里面加了大约18克莱因的奎宁，并将它喂给了赫伯特。

时间还来得及，赫伯特还没有发作第三次痉挛，他们多么希望痉挛永远不要再发作呀。

必须说明的一点是，如今，人人又充满希望了，因为在这紧要关头，在大家都已经绝望的时候，那股神秘的力量又发挥作用了。

几个小时后，赫伯特平静了很多。居民们这下可以讨论这是怎么回事了。此次的支援，陌生人比任何一次都明显。不过，他是怎么在夜里潜入“花岗宫殿”的？这是他们都不知道的，也是觉得不可思议的事情。这位像圣人一样的神秘人，行动和他本人一样神秘。

这天，他们每隔三个小时就要给赫伯特吃一次硫酸奎宁。

第二天，赫伯特的病情有了好转。当然，他还依然没有脱离危险，因为疟疾是会复发的，而且复发起来会更危险。不过，大家对他的照顾却越来越用心了。

现在他们手里有特效药，送药的人无疑又离他们很近，所以大家都充满了希望。

和以往每一次一样，他们没有失望。十天之后，也就是从12月20日起，赫伯特的身体开始慢慢恢复了。不过，体质还是很虚，只是不再发烧了。

为了身体，居民们对他的饮食严加控制，这个可怜的孩子为了早日痊愈，也非常听话，“医生”史佩莱怎么说他就怎么做。

在预计会发作第三次痉挛的时候，赫伯特没有发作，庞库那夫兴奋至极，像个刚从深渊里被解救出来的人一样，高兴地抱着史佩莱，抱得他快透不过气了。此后，庞库那夫便叫这位记者为史佩莱医生。

当然，真正救了赫伯特的“医生”并没有出现。

“一定要找到他！”庞库那夫不断地重复着这句话。对他来说，这个人是谁并不重要，重要的是他救了赫伯特，所以一旦被找到，他一定会带着十二分的热情来拥抱他的。

1867年的12月份很快就过去了，这年的年底，居民们遭受了严峻的考验。新的一年，也就是1868年的年初，天气晴朗，也很炎热，不过幸好有海风吹来，让他们感受到了一丝丝凉意。

赫伯特的身体恢复得很好，他的床在“花岗宫殿”的一个窗口旁，很容易就能呼吸到新鲜空气，这对他的身体恢复非常有利。随着身体恢复的还有他的胃口，在他可以补充营养时，那普做了鲜美可口的食物给他吃。

“有这么多好吃的，谁都想得疟疾了！”庞库那夫开玩笑说。

在这段时间里，海盗们并没有出现在“花岗宫殿”附近，而阿埃童也还没有下落。虽然史密斯和赫伯特非常希望找到他，但大家还是觉得这

个可怜的人很可能已经死了。当然，阿埃童到底怎么样，他们很快也会知道的，因为一旦赫伯特复原，他们就要去远征，而这次远征的结果也将有着非常大的意义。

他们必须向海盗报仇，但这需要动用全部的力量，所以他们怎么也要等上一个月时间。

好在赫伯特恢复得很快，肝脏不再充血，伤口也基本愈合了。

1月份的时候，他们的主要工作放在了观望壁，工作内容也很单纯：将被海盗糟蹋后残留的小麦、蔬菜等都贮藏起来。在那块被践踏的地方，他们捡了很多麦粒和植物，并准备在接下来的半个季度里重新播种。对于家禽场的外壁和牲畜栏的修复，史密斯也觉得可以过一个时期再做。因为在没有消灭这些恶棍的时候，很可能还会遭到破坏。如果再给他们第二次破坏的机会，那就太不值得了。

他们要等强盗全部消灭后再修复。

1月份的第二个星期，赫伯特能下床了。在刚开始的时候，他只是下床活动一个小时，接着是两个小时、三个小时……原本体质就健壮的他，因为年轻，身体恢复得也比一般人快。

18岁的赫伯特长得很高，一看就知道会成长为一个帅气的男子汉。

在史佩莱的严格要求下，赫伯特在经过一段时间的静心休养后，快速地恢复起来。月底时，他已经能在观望壁和海滩上散步了。

不仅如此，他还和庞库那夫、那普一起去洗过海水浴，结果对他的身体很有好处。史密斯觉得远征的时机已经成熟，随即便决定在2月15日出发。而这个时间段，也是一年中夜晚最清朗的时候，对他们搜索整

个海岛很有好处。

他们开始为这次有着非同意义的远征做准备。此次的出行非常重要，居民们也都下了决心，不达目的，决不回“花岗宫殿”。而这目的有两方面，一方面是歼灭海盗，如果阿埃童还活着，就把他救回来；另一方面就是找到那个无数次帮助他们的神秘人。

在整个林肯岛上，居民们彻底了解的地方主要是从兽爪角到颚角之间的整个东海岸，比如花皂沼地、格兰特湖周围、牲畜栏路和感恩河之间的啄木鸟林、感恩河流域和红河流域……当然，还有富兰克林山的支脉，也就是建牲畜栏的地方。

还有一些地方，他们曾探索过，虽然不是很彻底。比如兽爪角到甩尾角之间的华盛顿湾的宽阔海岸、沼泽森林海岸，以及绵延到鲨嘴湾港口那看不到边的沙丘……

没有探索过的主要有覆盖蛇盘半岛的整片森林，感恩河右边的整个地区，跌水河的左岸，支撑富兰克林山的东、西、北三面支脉，以及山谷的荒野等等，这些没有探索过的地方不仅隐秘，而且有差不多上千亩地方，所以必须深入探索。

不过，也许最好他们能先去牲畜栏，因为很可能那些海盗为了生活和自身安全，又回到那里去了。当然，也有两种情形存在，一种就是海盗们再次将牲畜栏破坏，那么他们就是过去了也阻止不了；另一种情况就是海盗正好在里面。如果真是第二种情况，那么他们就是等回来后再赶他们也不迟。

经过一番讨论，居民们决定暂时不去牲畜栏，先穿过森林去甩尾角。

穿越那段森林需要用斧头开道，从“花岗宫殿”到半岛末端，他们必须开辟出一条16到17英里的路程来。

他们的大车完好无损，那头野驴也已经休息了很长时间，可以远征了。于是，他们将食品、露营用品和各种所需工具，甚至轻便火炉也都装在了大车上。

“花岗宫殿”的武器在目前来说是非常齐全的，所以他们从中精挑细选出了一些火药和武器带在身上。

当然，有一点他们必须要注意，那就是很可能海盗也在森林里游荡，走在密林深处的他们，很可能被海盗的冷枪打中。所以居民们一定要集体行动，不管遇到什么事，都不能擅自行动。

大家最终决定，“花岗宫殿”也不留一人，就算是多卜和狙布，也要随同一起远征。实际上也是，这样一个外人根本无法上去的住宅，完全不必去留守。

2月14日是个星期天，也是他们动身的前一天。这天，居民们整整休息了一天，并做了祈祷。

赫伯特的身体虽然恢复了健康，但还是有些虚弱，所以他们决定在大车上给他安排一个座位坐着。

虽然“花岗宫殿”牢不可破，但史密斯还是在第二天破晓时做了一些必要的安排。将以前用以攀爬的软梯，深深地埋在了沙里，以便回来时使用。而升降梯，他们一块块地拆了，拆得一点不剩。拆升降梯是由庞库那夫一个人在“花岗宫殿”做的，拆完后，他将一根分成两股的绳子，让人在下面拉着，然后他从上面系下来。当绳子扯下来后，上面的平台

和海滩之间也就断绝交通了。

出发的这天天气很好。

“真暖和啊！”史佩莱说。

“呵呵……史佩莱医生，我们在树荫下走的话，保证晒不到太阳。”庞库那夫说。

“出发吧！”

史密斯一声令下，他们便向“石窟”方向走去。大车放在“石窟”前的海滩上，史佩莱让赫伯特上了车，并让他至少要在几个小时里坐车前行，赫伯特只好听从“医生”的话。

一行人出发了，走在最前面的是史密斯、史佩莱和庞库那夫，跟在他们身后的是拉着野驴的那普，接下来是大车，以及车上坐着的赫伯特。多卜对这次的远征表现得很兴奋，一直都是蹦蹦跳跳的。

赫伯特在车上找了个位置让狙布坐，狙布很不客气地坐了上去。

他们绕过感恩河的拐角后，向左边走了一英里左右就过了桥。桥这边是通向气球港的大路，他们从路口向右拐进西遥森林。在刚刚走进西遥森林时，树木稀疏，大车通行完全没有问题。慢慢地，他们需要砍掉一些爬藤和灌木才能前行，当然，截至目前，他们还没有遇到严重的阻碍。

阳光通过浓密的枝叶投射到了地上，形成了阴影。看着树中珍品喜马拉雅杉树、洋松、橡皮树、龙血树……一棵接一棵，他们忍不住赞叹林肯岛这块宝地。除了树，森林里还有很多鸟，比如山鸡、啄木鸟、

雉.....应有尽有，当然还有各种鹦鹉，比如美冠鹦鹉、长尾鹦鹉等。有飞禽就会有走兽，像刺鼠、袋鼠和水豚一看到他们走近，便飞也似的逃了。

这情景让他们想起了刚刚降落林肯岛，第一次打猎时的情景。

“这些飞禽走兽好像没有以前胆子大。从这里也能看出，海盗们曾经来过，所以在这儿一定能找到他们的踪迹。”

果不其然，他们找到了几处像是有人通过的足迹，也有一些被折断的树枝，应该是用来做记号的。还有些地方有灰烬，更有些黏土上有脚印。不过，他们没找到这些人露宿的迹象。

史密斯提醒大家不要打猎，因为很可能海盗们也在森林，一开枪就会惊动他们。即使要打猎，也要离开大车去打，不过留下大车没人看管也很危险。

下午的时候，他们离开“花岗宫殿”差不多有6英里了，前行的路越来越难走。为了穿过密林，他们不得不继续砍伐阻挡他们的树木。

密林中，多卜和狙布一直在打头阵，两个忠实的动物认真地执行着它们的任务。在它们前行一段回来后，如果不发出任何警告声，那么就可以确定前面是安全的，既没有海盗，也没有野兽。

在居民们眼里，不管是海盗还是野兽，都是动物，其凶残的本性也相似，他们不得不防。

这天晚上，他们露宿的地方离“花岗宫殿”有9英里左右，附近还有一条小溪，溪水直接流入了感恩河。以前，他们并不知道这里有条小溪，小溪的存在，让这一带的土地变得肥沃了很多。

走了一天，居民们都饿了，在饱餐了一顿后，他们开始安排怎么平安地度过这一夜。

如果只是要防御美洲豹之类的野兽，他们只需在帐篷周围点上火就行了。但现在他们还要防御海盗，而如果点火的话，不仅不会吓走他们，甚至还会将他们引过来，这非常危险。

因此，他们决定在漆黑的夜里度过。

当然，这样的夜晚必须有人守着才行，于是一致同意两人一班守夜，而且还是两小时换一次班。当然，赫伯特除外，虽然他一直要求参加守夜，但大家都没同意。于是，庞库那夫便和史佩莱一班，而史密斯则和那普一班。

值夜班的时候，他们会在营地周围站岗放哨。

夜晚虽然只有几个小时，但却是漆黑一片。当然，这漆黑与其说是因为没有太阳，倒不如说是因为那遮天蔽日的树叶。寂静的深夜，不时地传来美洲豹的怒吼和猿猴的叫声。听到同类叫，狙布总是表现得很郁闷。

这一夜总算是平安度过了。

2月16日，居民们继续向森林深处走去。前行中的障碍物越来越多，令他们烦闷而乏味。由于需要不停地用斧头开路，所以一天走下来，也不过才6英里路。

居民们对这些树充满了感情，并不舍得去砍那些高大美丽的树，只砍一些小树枝。当然，不砍大树的原因还有一点是费力又费时间。不

过，因为要选择性地砍树，开辟的道路变得非常曲折，大大延长了路程，增加了行走时间。

这天，赫伯特又发现了植物新品种，是他以前在岛上从来没发现过的。比如树蕨，这种植物的叶子就像泉水一样，向四面流淌开来。还有一种是野驴很爱吃的带长荚的刺槐，刺槐上长着一种香甜可口的果实，非常好吃。

同时，居民们还发现了几丛被誉为新西兰万树之王的卡列松。这些卡列松长势雄伟，树高达到了200英尺；枝干呈圆柱形，顶上有锥形绿叶。

这片森林里的动物品种，他们大都见过。他们还看见了一种澳洲特有的大飞禽——澳洲鸵鸟。这种鸵鸟很难接近，它身高5尺，有着褐色的羽毛，属于涉水鸟类。

多卜看到它后，拼命去追，没想到这种澳洲鸵鸟奔跑的速度非常快，远远地将多卜抛在了身后。

至于海盗们留下的印迹，居民们在一堆似乎刚刚熄灭的灰烬旁，发现了一些脚印。经过仔细检查并测量了脚的长度和宽度后，得出这是五个人脚印的结论。这说明，这五名海盗曾在这里露宿过。

只有五个脚印而不是六个。

“这里面没有阿埃童的！”赫伯特说。

“是啊，既然阿埃童没有和他们在一起，那么很可能是被海盗们杀了。这些恶棍连个窝都没有，不然我们会像追赶老虎一样去追赶他们的。”庞库那夫说。

“是啊！他们一定是在四处游荡，找机会做岛上的主人！”史佩莱说。

“他们想做岛上的主人？想做岛上的主人……”庞库那夫不停地喃喃着，像是有人用铁爪卡住了他的喉咙，话都说不出来了。好一会儿才说：“史密斯先生，我的枪里装着一颗什么样的子弹你知道吗？”

“不知道，庞库那夫！”

“就是那颗穿透赫伯特胸膛的子弹，我一定要用它打中那些海盗！一定要打中，我向你保证！”

不过，不管他们多么愤怒，多么想去报仇，但从他们观察的情况来看，都无法证明阿埃童还活着，他们再也见不到阿埃童了。

这天晚上，他们的露宿地点离“花岗宫殿”有将近14英里。史密斯估计，离甩尾角应该也不到5英里。

史密斯估算得没错，第二天他们就到了半岛的尽头。

绵长的森林被他们走完了，不过，他们没有找到海盗的藏身之处，也没有找到神秘的恩人的隐身之地……

第十二章

2月18日，居民们开始在甩尾角和瀑布沿岸一带的森林进行搜索。

这片区域宽度不超过4英里，位于蛇盘半岛的两岸，是他们要彻底搜查的区域。此片森林不仅树木高大，而且枝繁叶茂。从这些树的生长程度就能看出，这一带的土壤相对于其他地方而言，肥沃得多。

这部分森林，很可能会被人认为是从美洲或从非洲迁徙到这个温带地区的部分原始森林。为什么这么说呢？因为这些雄伟的大树周围的土壤比较热。原来，这里的土壤虽然表面湿润清凉，实际上内部却是火山的一部分。

森林中最常见的是卡列松和桉树，而这两种树都是高大雄壮。

来这片森林，居民们不是欣赏树木的，他们在心里早已经将这里列为加那利群岛第一岛屿。不过，令他们感到难过的是，林肯岛现在并不完全属于他们，已经被海盗占领了一部分，并玷污了部分领域的清白，包括这片美丽的森林。

所以，他们一定要将海盗消灭得干干净净。

居民们搜索得很仔细，但西海岸依然没有发现丝毫踪迹，甚至连脚印、断枝和灰烬都没有。

“在这里没发现他们的印迹并不奇怪。海盗们是从荒岛的拾箱角附近上岸的，在穿过花鳧沼地之后，便进入了西遥森林。随后，他们走的又差不多是我们从‘花岗宫殿’走出来的那条路，所以我们能在那边的森林发现他们的踪迹。但他们在发现这块地域不适合他们居住后，又向北走，最后找到了牲畜栏。由此可见，这里他们并没有来过。”史密斯对他的同伴们说。

“说不定他们又去牲畜栏了。”庞库那夫说。

“我觉得不会。他们肯定知道我们会去那边，所以牲畜栏对他们来说，仅仅只是仓库，不是他们的久留之地。”史密斯说。

“赛莱斯说得没错，我觉得，海盗们一定是将窝安在富兰克林山的支脉了。”史佩莱说。

“史密斯先生，那我们还是去牲畜栏吧，在那里将他们消灭掉。我们走这么远，只是在浪费时间。”庞库那夫大叫道。

“不，我们并没有浪费时间。我的朋友，别忘了我们这次来西遥森林，不仅仅是寻找海盗，还有别的目的，我们要寻找我们的恩人并报恩。庞库那夫！”史密斯说。

“那是没错，史密斯先生，不过我觉得恩人要是不想露面的话，我们是找不到他的。”庞库那夫说。

庞库那夫的话说到了点子上，而且也是大家的心里话。那位神秘的陌生人的住处，一定和他的人一样神秘莫测。

这天晚上，跌水河口停放着他们的大车。露宿时，他们照样设了值班人员守夜。现在，呼吸着新鲜空气，进行着户外活动的赫伯特，吹着凉爽的海风，又恢复成了一个非常健壮的年轻人了。

再出发时，他不再坐在车上，而是走在了队伍的前面。

2月19日，居民们离开了海岸河口的对面，那里有很多奇形怪状的石头，这些石头堆砌起来，形成了一幅奇异的图案。

随后，他们又去了河的左岸。以前，他们因为经常去牲畜栏，所以将这条路铺平了，平坦的道路离富兰克林山仅有6英里左右。

史密斯是这么打算的：他们先要仔细地观察河床里的山谷，然后慢慢地向牲畜栏附近进发。如果牲畜栏里真有海盗，就将他们消灭，然后把牲畜栏夺回来；如果那里没有海盗，他们就守在那里，这样既能伏击海盗，也能作为搜查富兰克林山的一个据点。

居民们马上同意了这个方案，因为他们都想尽快赶走恶棍，还荒岛一个太平。

富兰克林山有两大支脉，两大支脉又被一道峡谷分开，所以他们决定沿着这道峡谷前行。河岸上，杂木丛生，不过在一些高坡上，杂木却很少。这段崎岖的道路非常适宜打伏击，所以他们每走一步都非常小心。

多卜和狙布一直穿行在两旁的密林中，像是和对方比赛自己的灵活度一样。

一路上，他们没有发现有人走过，也没有痕迹证明这里或者附近出没过海盗。

傍晚五点钟时，大车停了下来。这里离牲畜栏的栅栏不到600英尺，因为栅栏被围成半圆形的一排树木遮住，所以看不清那里的情况。

在进入牲畜栏前，他们必须先侦察一番，以确定那里有没有海盗。海盗很可能就藏在附近，如果他们什么都不顾大摇大摆地进去，很可能会像赫伯特一样，送上门去被他们打，所以最好等到天黑时再去。

不过，史佩莱却觉得不能再等了，要马上侦察牲畜栏的情况。庞库那夫也忍不住了，说他愿意陪着史佩莱去侦察。

“不行！朋友们！等天黑再去吧！我可不能让你们冒这个险去暴露

自己。”史密斯说。

“不过，史密斯先生……”庞库那夫还想说什么，但被史密斯打断了。

“庞库那夫，求求你，不要冲动！”

“好吧！”庞库那夫嘴里答应着，但为了发泄，他还是像在船上做水手时那样，不断地痛骂海盗。

就这样，居民们守在大车旁，机警地注视着森林周围，并等待天黑的到来。

三个小时过去了，因为风势减弱的原因，树林里寂静异常，即使他们折断一根树枝，或者用脚踩在了干枯的树上，甚至不小心滑了一跤，都能听得清清楚楚。

多卜安静地趴在草地上，没有丝毫的不安。

八点钟的时候，天色已暗，这种时候最适宜侦察。史佩莱说他和庞库那夫去，史密斯答应了。多卜和狙布留下来和史密斯、赫伯特以及那普在一起。因为如果它们也跟着去，一旦突然叫起来，很可能会惊动海盗。

“千万要小心！这次你们过去，不是要抢牲畜栏的，而是要侦察里面的情况。”史密斯对史佩莱和庞库那夫说。

“知道了！”庞库那夫说。

两个人悄悄地走了。

由于树叶茂密，再加上天黑，三四英尺距离之外就什么都看不见了。史佩莱和庞库那夫小心翼翼地往前走，只要听到一点可疑的声音，就会停下来。

两个人之间保持着一定的距离，为的是缩小目标。其实，说心里话，他们在等待枪声。

从大车旁离开差不多五分钟后，两个人便来到了森林边缘的一块空地上，过了空地，他们就到牲畜栏的栅栏处了。

他们停在了这块没有树，因而有着朦胧光线的空地上。离牲畜栏大门还有近30英尺，门像是关着的。从森林边缘到栅栏，这30英尺的路程他们必须穿过，这段路程，用弹道学上的专业术语来说叫“危险区”。

其实，此时不管他们谁闯进了那个“危险区”，只要海盗在栅栏后面开一枪，他们都必倒无疑。所以，虽然史佩莱和庞库那夫都不是怕死鬼，但他们清楚地知道自己不能做无谓的牺牲品，这不仅对他们不好，而且还会影响同伴。如果他们被打死了，剩下的三个人又该如何抵抗这群恶徒？

庞库那夫认为海盗们一定是在牲畜栏里睡着了。见栅栏离自己那么近，急了，想要冲过去，却被史佩莱拉住了。

“等会儿，等会儿再行动！”史佩莱在庞库那夫耳边说。

庞库那夫焦急地握着枪，压制住自己想要冲出去的冲动，咒骂着海盗。

很快，这块空地上唯一的一道光线也没有了，四周一片漆黑。那黑暗像是一块黑布，从浓密的森林上空遮到了他们的头顶。富兰克林山像

是一道屏障，黑压压地挡在了西边的水平线上。纬度低的地方就是如此，而这种时候，也是他们前进的最好时机。

史佩莱和庞库那夫从到了森林边缘开始，眼睛便一刻不停地盯着栅栏。牲畜栏里好像没有人，顶部的那道黑线，比周围的环境更黑。他们看得很明白，那里没有什么模糊的影子。如果海盗们在栅栏的话，一定会留人站岗放哨，以防突袭的。

史佩莱抓住庞库那夫的手，匍匐着向牲畜栏方向行进。同时，他们随时做着开枪的准备。

在伸手不见五指的环境下，他们到了牲畜栏门口。

庞库那夫上前推门，但和他们想象的一样，门是关着的。但随即他又发现，外面的门没关。他觉得海盗们一定在牲畜栏里，因为这门只要从里面关上了，从外面是推不开的。

史佩莱和庞库那夫屏气凝神地听了一会儿，栅栏里没有任何声音，甚至连爱叫的莫伏鹿羊和山羊也没有发出一点声音。

怎么办？要不要翻过栅栏进到牲畜栏里面去呢？不可以，史密斯说过，只让他们打探。

确实，如果他们贸然进去了，绝对是种冒险。因为他们虽然有可能成功，但也有可能失败。在海盗们不知道他们会来时，突袭成功是有机会的。现在轻易地越过栅栏，会不会暴露了自己而失去突袭的机会？

史佩莱不想贸然进去，他觉得大家一起冲进去突袭的成功率更高。因为有一点是肯定的，栅栏前是没有人把守的，所以他们完全可以悄悄回去，然后商讨后再来突袭。

庞库那夫应该也有这种想法，所以在看到史佩莱转身匍匐时，也就跟着去了。

几分钟后，他们把情况汇报给了史密斯。史密斯想了想说：“好了，我有理由认为，强盗们是在牲畜栏里了。”

“等我们进去就知道了。”庞库那夫说。

“朋友们，去牲畜栏！”史密斯说。

“那我们的大车呢？留在森林里吗？”那普问。

“不！大车上有我们的军火和粮食。而且交起战来的时候，它还能做我们的堡垒。”史密斯说。

“那就向前进发！”史佩莱说。

他们拉着大车出了森林，悄悄地向牲畜栏行进。此时，夜色依然处在黑暗之中，四周就和庞库那夫、史佩莱匍匐前行时一样，没有一点声音。因为满地的杂草，所以踏在上面软绵绵的，没有一点声音。

居民们都做好了随时开枪的准备。狙布也听从了庞库那夫的命令，独自走在最后。那普用一根绳子拴住了多卜，避免它往前跑。

很快，他们就来到了空地面前。这里依然悄无声息。

一行人没有犹豫，径直向栅栏处走去，很快就过了“危险区”。在这个过程中，没有枪声响起。在到了栅栏前时，大车停了下来。那普拉住了野驴的缰绳，史密斯、史佩莱、赫伯特和庞库那夫则向门口走去，看门是不是从里面关上的。

不料，他们看到有扇门开着！

“怎么回事？”史密斯问庞库那夫和史佩莱。

两个人怔在那里。

“我发誓，刚刚这门是关着的。”庞库那夫说。

居民们犹豫了。刚才庞库那夫和史佩莱侦察时，海盗们在牲畜栏吗？毫无疑问，他们是在的，因为门是从里面关上的，只有他们能打开。可现在他们还在吗？是不是有一个海盗刚刚出去了呢？

这些问题全都涌进了居民们的脑子，他们不知道该如何解答这个棘手的问题。此时，赫伯特已经向栅栏处迈了几步，但又突然退了回来，他紧紧地抓住史密斯的手。

“怎么了？”史密斯问。

“里面有亮光！”

“你是说屋里？”

“是的！”

五个人一起看向那里，果然，屋子的窗户里，有微弱的光在闪烁。史密斯马上做出了决定。

“海盗们一定没有怀疑什么，所以才会聚在屋子里。现在这间屋子被我们包围了，也是我们唯一的机会。冲进去！”

居民们端着枪，走进了栅栏，外面只留下大车让狙布和多卜看管

着。进栅栏前，居民们还将獾布和多卜拴在了车上，避免它们乱跑。

几个人分成两边，史密斯、庞库那夫和史佩莱在一边，赫伯特和那普在另一边，他们沿着栅栏，向漆黑的牲畜栏里走去。

不久，他们来到了关着的房门前。

史密斯给大家做了个不要动的手势，然后走到窗前，向里面张望。

那盏亮着的灯在桌子上，桌子旁边是阿埃童的床铺。

床上躺着一个人。

史密斯突然惊讶地连退几步，用沙哑的嗓音喊道：“是阿埃童！”

居民们马上推开房门，冲到了屋里。

床上的阿埃童好像睡着了，脸上有因长期折磨而受的伤，手部和腕部也有着大片的伤痕。

史密斯弯下身，抓住他的胳膊叫道：“阿埃童！”

他们没有想到会在这种情况下看到他，而且是以这样的状态。

听到有人叫他，阿埃童睁开了眼睛。他怔怔地看了看史密斯后，又看了看大家。

“你们？怎么会是你们？”他大叫，露出了惊喜的神色。

“阿埃童！是我们！是我们！阿埃童！”史密斯不停地重复着。

“这是哪儿？”

“牲畜栏的房子里！”

“只有我们？”

“是的！就我们！”

“他们会回来的！快！快防备！”阿埃童大声叫着。

也许因为太过激动，他晕了过去。

“史佩莱，我们随时会遭到进攻。把大车马上拉到牲畜栏里来，然后闩上门，做好战斗准备！”

庞库那夫、那普和史佩莱出去了。他们一刻都不能耽误，否则，那大车就可能落到海盗手里。

在史佩莱和两个伙伴穿过牲畜栏，来到栅栏处时，多卜在栅栏外正低沉地咆哮着。

史密斯离开阿埃童，跑了出去，做着战斗的准备。赫伯特跟着他跑了出来，他们一齐看向能俯视牲畜栏的支脉顶峰——如果海盗们是埋伏在那里的话，绝对有将居民一个个打死的可能。

此时，月亮出现在像蒙了一层黑布的夜空，银色的月光洒向栅栏外面，将牲畜栏里那繁茂的树木、清清的小溪和遍地的绿草全都照亮了。靠山一边的房屋，以及一部分栅栏，也映在了皎洁的月亮下，只有对门的栅栏还是黑暗一片。

不久，一团漆黑的东西出现在了月光下，那是他们的大车。

在大家关门上闩时，史密斯听到门上传来一个声响。此时，多卜突

然挣脱了绳索，愤怒地狂叫着，向着房子右边跑去，那里也是牲畜栏的后边。

“准备战斗！朋友们！”史密斯大喊。

居民们端着枪，随时准备向敌人射击。

多卜还在不停地叫着，而狙布也向多卜追去，发出尖锐的叫声。

居民们跟着狙布向前跑，月光下，他们看到，在一棵大树覆盖的小溪岸边，横陈着五具尸体！

是海盗的尸体！是四个月前来到林肯岛，并上了岸的恶棍的尸体！

第十三章

怎么会发生这样的事情？是谁杀死了那些海盗？是阿埃童？不对，他刚刚还在担心海盗们会回来，让居民们做防备。

在说完那些话后，他就晕了过去。如今，他已经陷入到了昏迷之中，一动不动地躺在床上。

居民们百思不得其解。因为过度激动和兴奋，他们整整一夜都无法睡着，一直在阿埃童的房间等着，没有人再到海盗们死去的地方。不过，即使阿埃童醒来，也不一定会知道这些尸体是怎么来的，因为他连自己躺在什么地方都不知道。

当然，对于他失踪后发生的事，他应该能够叙述清楚。

和居民们分别了104天的阿埃童，第二天从昏迷中清醒过来了。他的精神不错，居民们也表现出了见到他时的喜悦心情。

阿埃童向居民们叙述了他失踪前后的事，虽然很简短，甚至只是说了他所知道的，但也着实算得上惊险。

去年11月10日，在他从“花岗宫殿”离开，来到牲畜栏的第二天，海盗们翻过栅栏，袭击了他，并将他绑了起来，堵上了嘴，带到他们躲藏的一个地方——富兰克林山麓的一个山洞。

原本这群海盗是想将他在第二天处决的，不料有个海盗认出了他原是澳洲的本·吉奥兹，便决定将他留下来。可以说，是本·吉奥兹挽救了他，如果他是阿埃童，肯定就被海盗们杀死了。

此后，阿埃童一直被原来的手下威逼利诱，让他入伙，并让他带领他们进入“花岗宫殿”，杀死全体居民，做这荒岛上的主人。

阿埃童早已不是本·吉奥兹了，现在的他已经改过自新，而且也得到了大家的宽恕，所以他情愿死，也不愿意出卖居民们。就这样，他被捆绑着、堵着嘴在山洞里待了近四个月。

而这群海盗，上岸不久就发现了牲畜栏，那里食物和日用品都很丰盛，也就成了他们赖以生存的东西，但却没有住在里面。

11月11日，两个准备到牲畜栏拿食品的海盗看到居民们来了，便向他们开枪，打中了赫伯特。打中赫伯特的那个人在开枪后就逃了回去，并向其他海盗炫耀，称他打死了一个居民。不过另一个却没有回来。

我们知道，另一个被史密斯刺死了。

得知赫伯特死了后，阿埃童的痛苦和绝望可想而知，他一想到居民们还剩下四个人，而且受着坏人的威胁就感到很难过。而当居民们因为赫伯特的受伤而在牲畜栏休养期间，海盗们也躲在山洞，很少出去，即使在抢掠焚烧了观望壁高地后，也怕居民们拿大炮轰击，所以隐藏在山洞里很长时间。

而在他们隐藏山洞的这段时间，他们更凶残地对待阿埃童，捆绑着他的手脚，即使他想逃走也不可能，唯有等死。这种情形一直维持到了2月份的第三个星期。海盗们为了不被居民复仇，很少离开山洞，仅去荒岛内陆或南岸一带打猎。不过，他们一直在等待机会，等待将居民全部掠杀的机会。

之后，阿埃童便没再听到居民们的消息了，甚至他以为自己再也没有机会见到他们了。有一段时间，经受不了虐待的阿埃童陷入到了虚脱状态，甚至连视觉和听觉都严重衰退了。有两天时间，他都处在人事不知的状态下。

“不过，史密斯先生，我是被绑在山洞里的，为什么会在这里？”阿埃童迷茫地问。

“是呀，还有那些海盗为什么会死在栅栏外？”史密斯反问他。

“什么？死了？他们死了？”阿埃童不顾自己虚弱的身体，从床上撑起了大半个身子，惊叫道。

他想爬起来，最后在大家帮助下起了床。居民们扶着他去了牲畜栏后的那条小溪边。

此时天已大亮。

河岸上躺着五名海盗的尸体，看样子死的时间并不长。

阿埃童愣在那里，史密斯和其他人也都一起默默地看着他。那普和庞库那夫在史密斯手势的指挥下，检查了那些尸体。尸体已经僵硬了。

尸体上没有显著的伤痕。

在他们又仔细查了一番后，庞库那夫在第一具尸体的额头上、第二具尸体的胸膛上、第三具尸体的后背上、第四具尸体的肩膀上、第五具尸体的腿上各发现了一个小红点。这种小红点是怎么来的，他们并不知道，也不知道这算不算是伤口。

“他们应该是在这里被打中的。”史密斯说。

“这是什么武器？”史佩莱大声问。

“应该是一种像闪电一样的武器。当然，我们不知道这是什么。”史密斯说。

“到底是谁做的呢？”庞库那夫问。

“岛上的正义人士。阿埃童，就是他把你带到牲畜栏的，这次他又再次发挥了神力。每次当我们做不到的时候，他都做到了。他总是在帮了我们后又避开我们。”史密斯说。

“我们去找他吧！一定要找到他！”庞库那夫说。

“是的，我们要找他，不过，在他不愿意见我们之前，我们是见不到这个创造了无数奇迹的圣人的。”史密斯说。

居民们被一个他们无法看到的人保护着，这让他们一下子觉得自己的行动没什么用处。而更让史密斯着急烦恼的，是这个大恩人让他有种失去自尊心的感觉，似乎恩人在帮助他们的同时又拒绝他们的感恩。

所以，在史密斯看来，从某种意义上来说，这个神秘的人降低了这种义举的价值。

“找吧！我相信，总有一天我们会向这位高傲的保护我们的人证明，我们不是一群忘恩负义的人。在我们能够报答他，为他尽一点点能力来表达我们谢意的时候，我相信，就算是付出生命，我们也会在所不惜！”史密斯说。

自此，林肯岛上的每位居民都下了决心，要用心搜寻。这位大恩人做的每一件事，都激励着他们，让他们想要解开这个谜。而要想解开这个谜，必须近距离地接近这位有着非凡能力的、神秘的人。

从小溪边出发，几分钟就走回了牲畜栏。在大家的精心照料下，阿埃童的身体也很快就康复了。

那普和庞库那夫将那五具尸体运到了离牲畜栏不远的森林里，埋了起来。随后，他们向阿埃童讲述了在他遭到囚禁时发生的事。阿埃童这才知道，赫伯特经历了生死考验，而居民们也经受了很多灾难。当时，他们都以为阿埃童被杀了，再也没有机会见到他了。

史密斯在讲完后说：“现在我们还要做一件事，因为我们的远征目的只完成了一件。虽然以后我们不用担心海盗了，但这次重新当上小岛的主人却不是靠我们自己的能力得来的。”

“嗯！我们去搜寻富兰克林山脉吧！那一带错综复杂，而且有很多

山洞。朋友们！如里能发现秘密，我就成了第一个迎接秘密的记者了。”史佩莱说。

“找不到救命恩人，我们就不回‘花岗宫殿’。”赫伯特说。

“对！凡是我們能够做到的，我们都要做到。不过，我还要说一遍，也许真的是只有他想见我们时，我们才能找到他。”史密斯说。

“那我们是不是要先住在牲畜栏？”庞库那夫问。

“是的！这里食物有很多，又正好靠近我们搜索的区域。再说了，必须去‘花岗宫殿’时，坐上大车，很快就能去了。”史密斯回答道。

“可以，不过我有个小小的意见！”庞库那夫说。

“什么？”

“现在天气一天好过一天了，别忘了，我们还要进行一次航海。”

“航海？”史佩莱问。

“对呀，我们要去岱波岛。如果我们不送封信到岱波岛，告诉来接阿埃童的苏格兰游船，他们是不会找到他的。当然，也许现在去都已经迟了。”庞库那夫说。

“庞库那夫，你想怎么去航海？”阿埃童问。

“当然是用我们的‘长风破浪号’了。”

“‘长风破浪号’，早就没有了！”阿埃童大声说。

“什么？没有了？到哪里去了？”庞库那夫一下子从座位上跳了起来。

“八天前，那群人在小港湾发现了它，想乘它航海，但……”阿埃童没有说完，庞库那夫就插话道：“但……什么？”

他的心跳得厉害。

“他们没有鲍勃·哈维掌舵，船就撞在了石头上，撞碎了。”

“天啊！真是些强盗、土匪、恶棍！不要脸的恶棍！”庞库那夫气愤地大骂起来。

“庞库那夫，没事的，我们还可以再造一只，造一只更大的。我们有全部的铁器，还有双桅船上的索具。”赫伯特拉着他的手，安慰他说。

“可是一只三四十吨的船，怎么也要五六个月才能造好！”庞库那夫沮丧地说。

“我们可以利用好时间的，看来今年是去不了岱波岛了。”史佩莱说。

“庞库那夫，冷静点！事情已经这样了，急也没用。也许晚点去岱波岛，对我们没有坏处！”史密斯说。

“‘长风破浪号’，我可怜的‘长风破浪号’！”庞库那夫喃喃着。“长风破浪号”是他最引以为豪的船，现在却没有了，他能不心痛吗？

没有了“长风破浪号”，对居民们来说，确实很惋惜。大家也一致同

意，再造一只船。做完这个决定后，他们便又要开始在荒岛最隐秘的地方搜寻了。

2月19日破晓，居民们出发了，这次他们总共用了一个星期。由于山麓支脉和无数分支形成了地势复杂的谷地和丘陵，所以这些地方，以及富兰克林山的内部都可能成为他们的搜索目标。这些地方如果真有人居住，是很难被人发现的。因为山谷的地形复杂，所以史密斯带领大家顺次搜索。

首先，他们去了通向火山南部的山谷，那里是跌水河最先流过的地方，也是海盗们躲藏的地方。阿埃童带大家去了那个他之前被囚禁的山洞。山洞和阿埃童离开前没有什么区别，里面还是能找到不少火药和粮食，那都是海盗们从别处搬来，藏在这里的。

这个山洞附近的山谷里，都被枞树和其他树木覆盖了，山谷里每处都搜遍了。当他们绕过西南支脉的拐角时，便进入了一条峡谷。峡谷的景致有些像分布奇形怪状石头的那个海滨，里面树木稀疏，乱石林立。

这一带也是野山羊和莫伏鹿羊经常纵跳嬉戏的地方。

从此处开始，也就到了林肯岛最荒芜的地方了。不过，虽然富兰克林山向各处分散的山谷有很多，但和峡谷及牲畜栏那里一样，生长着树林和牧草的不过只有三条山谷。

牲畜栏的山谷向西靠近跌水河河谷，向东靠近红河河谷。这两股溪流均是由附近山涧汇合而成的。这些溪流让附近的土地变得潮湿肥沃起来。而当溪水流到下游，和许多支流汇合后，又形成了河流，比如啄木鸟林的一些支流汇合形成感恩河就是这种情况。

这些河流延伸后形成了无数的溪流，进而使蛇盘半岛的土壤因为有了水的滋润而肥沃起来。

这三条河谷周围有很多溪流，不管三条中的哪一条，都是很好的藏身之地，最适合人居住。不过，他们搜查了每一条山谷，依然没有发现人的踪迹。

神秘的陌生人的住所，会在峡谷深处、乱石丛中吗？或者是在蜿蜒崎岖的北部山峡或熔岩流过的地方？

富兰克林山的北边有两条山谷，这两条山谷宽而不深，里面很少有草木。谷底的熔岩上，有一些火山岩石和矿石，零散地堆积着。这些地方他们都要长时间搜索的，那成千上万的洞窟，虽然不适宜住人，却也因为隐蔽，值得一搜。

不要说洞窟，就是一些阴暗的地道，他们都要进去看看。这些地道应该是火山爆发时形成的，因为喷出过火焰，所以洞里明显有熏黑的痕迹。他们举着火把，穿过了黑暗的走廊，直入深山最深处，连里面一些很小的洞隙也都看过了。

有些比较浅的地道，虽然不深，却也是阴森森的。这些自然形成的古老地道，由于没人走过，也没人动过里面的岩石，所以还保持着火山喷发时的形状。虽然阴暗且荒凉，但史密斯不得不承认，这里并不是寂静到没有任何声音的，因为在他们走进一个深达几百英尺的阴暗山洞底部时，他突然听到远处传来低沉的轰隆声，这种声音因为有了岩石的回响，使其变得更大、更响。

史密斯身旁的史佩莱听了一会儿，最后认定，这种声音的出现，很可能是因为火山底下发生着化学变化，火山要复燃了。

“难道是火山没有熄灭的缘故？”史佩莱问。

“我们上次探索过火山口后，很可能又发生了一些变化。任何一座经历过火山爆发的山口，都可能还会爆发。”史密斯说。

“不过，要是富兰克林山再次火山爆发，会给林肯岛带来危险吗？”史佩莱担心地问。

“应该不会吧！火山口如同一只安全阀门，因为它的存在，烟和岩浆会喷发出来，而且只是从这个火山口喷发。”史密斯说。

“那是不是可以说，如果岩浆形成了一个新的出口，而且是向着岛上的某个富饶地方喷的，对林肯岛就有威胁了？”

“亲爱的史佩莱，为什么你觉得它会形成新的出口，不走原来的道呢？”史密斯问。

“火山未必会按常理出牌，是很捉摸不定的。”史佩莱说。

“你应该明白，富兰克林山的斜度决定了山涧的水是向着我们探索的山谷流的，如果想要改变水流方向，除非有地震，改变地质的中心。”史密斯说。

“发生地震也不是不可能的事。”史佩莱说。

“嗯！也许，地下的力量休息了很长时间后，极易爆发地震。如果真是这样，亲爱的史佩莱，真要是火山爆发起来，必定会给我们带来严重的后果。希望火山不会爆发。当然，这是我们无法阻止的，对不对？即使真的发生了火山爆发，观望壁应该也不会受到很大的威胁，因为观望壁与富兰克林山之间的这部分很低，即使岩浆向格兰特湖流，也只会

落在沙丘和鲨嘴湾附近。”

“应该不会这么快，山顶上还没有火山爆发前出现的烟。”史佩莱说。

“没错，我昨天仔细看过，山顶的火山口没有一丝烟雾。不过因为经过的时间长了，喷火口下是会堆积一些石块和凝结了的熔岩的。因为累积过多，很可能会把那安全阀堵住。不过，在第一次火山爆发时，那障碍就被排除了。所以我们的林肯岛犹如一个锅炉，而火山口就是烟囱。我敢说，亲爱的史佩莱，锅炉是不会因为受压而爆炸的。当然，火山最好不要爆发。”

“可我们刚才绝对没有听错，里面是在发出一种声音。”史佩莱说。

“你说得没错，里面是有动静，但我们无法估算出它的能量，也无法估算出它会造成什么样的后果。”史密斯又听了一会儿说。

两个人从地道里出来，把情况告诉了其他伙伴。

“真是太好了！火山要来就来吧，只要它高兴来，会有人治它的。”庞库那夫高兴地嚷嚷着。

“谁会治它？”那普问，一脸茫然。

“当然是那位有着非凡能力的圣人了。那普，这位好心的圣人，如果火山张开了它的大口，他一定会有办法将它堵住。”

由此可见，在庞库那夫心里，是多么敬仰那位屡次帮助他们的神秘人，他是用对待神灵的态度来对待他的。他能有如此想法，也很正常，因为这股神秘的力量，已经出现过很多次了，每一次都用一种令他们无

法想象的方式爆发。

所以说，他的力量是无穷大的并不夸张。此外，他能很巧妙地让居民们找不到他，即使他们用尽心思，用非凡的热情来找，也找不到。

从2月19日到2月25日，整整七天时间，居民们将林肯岛的整个北部地区都找遍了，连最隐蔽的地方都找了，还是没有。他们甚至连岩石都没放过，一个个地敲打，还搜查了富兰克林山的边缘，直至到了那座像削过的火山锥的顶部，也没有；他们还去了像大帽子一样的山脊找过，都没有什么发现，而“大帽子”下面就是火山口。

不仅如此，他们连深渊都去察看过了。虽然那深渊里没有火，但却能发出清晰的轰隆声。当然，最终他们也没发现能引起火山爆发的烟雾，更没发现石头发烫。

他们将能找的地方都找了，但将富兰克林山找遍，也没找到那位神秘的陌生人的踪迹。

最后，他们又去了沙丘。尽管到鲨嘴湾的路不好走，就算是平路，走起来也很困难，但他们还是上上下下、左左右右地察看那高耸在海湾里的熔岩峭壁。可还是没有，连一点人迹都没有。

总之，他们这趟是无功而返了，既花费了时间，也付出了不少精力，大家既失望又懊恼。

没办法，他们只能商量着回去了。这种没有意义的搜索不能无限期下去，他们甚至觉得这位神秘的陌生人根本就不住在岛上，或者说不住在荒岛表面。这点他们非常肯定，因为荒岛表面已经找遍了。

这么一来，他们又开始胡思乱想了，特别是庞库那夫和那普，他们

不仅仅将这当成了一种神秘事件来看，甚至还用一种超出凡人的想法去想这件事。

2月25日，居民们悻悻然地回到了他们的“花岗宫殿”。他们在用弓箭将双股的绳索射到门槛口后，就又恢复了从海滩到“花岗宫殿”门口的通道。

一个月后，也就是3月25日，他们迎来了来林肯岛上的三周年纪念日。

第十四章

他们是从里士满逃出的俘虏，整整三年了，他们无数次谈起自己的祖国和家乡。

他们深信那场内战已经结束，北军的正义之战必将获得胜利。然而，在这样一场可怕的战争里，究竟发生了些什么事情？有多少人为这场战争流血？又有多少人为这场战争失去了生命呢？

这种种问题他们时常谈起，但直到目前，他们还是无法回到祖国，甚至连什么时候能回去都不知道。如果能够回去，即使只有一天，只要他们能和那个文明世界恢复联系，让祖国和林肯岛之间有了交通，然后再让他们回到岛上来，他们也愿意，也满足。

那时候，这块被他们开辟的土地，也将属于他们的祖国，在这里的这段生活也终将成为他们一生中最有意义、最幸福的时光。

这个愿望他们能实现吗？

要想实现这个愿望，只有两种可能，一种就是有船到林肯岛来，第二种是居民们能造一艘可以将他们带到最近陆地去的船。

“只能等善良的圣人给我们提供回国的方法了！”庞库那夫说。

确实，如果有人告诉庞库那夫和那普，有一艘300吨重的大船在鲨嘴湾或气球港等他们，他们绝对不会惊讶。因为在他们的心里，发生任何事都是有可能的。

史密斯没有那么乐观。他劝大家在对待造船这个问题上要面对现实，此时最紧要的事是乘船将阿埃童现在的地址送到岱波岛去。

“长风破浪号”不存在了，新的船造好需要半年时间，冬天马上就要来了，所以无论怎么赶，他们都不可能赶在开春时出航。

史密斯和庞库那夫商量说：“我们要在天气转暖时做好出航准备。朋友，我们不仅要重新造船，还要尽量把船造得大一点。等苏格兰游船到岱波岛去，是件靠不住的事。很可能它已经在几个月前去过了，因为没有发现阿埃童而又离开了。现在造一艘大船，是希望我们有一天能乘着它去波利尼西亚群岛或新西兰去。你觉得怎么样呢？庞库那夫！”

“史密斯先生，我相信你大船小船都能造。关于木料和工具嘛，我们都不缺，关键是需要多长时间的问题。”庞库那夫说。

“如果我们要造一艘250吨到300吨的船，需要多长时间？”史密斯问。

“差不多七八个月吧！至少需要这么久。何况现在已经快到冬天

了，冰天雪地是很难做木工活的，所以又要耽误几个星期。如果能在明年11月造好，就已经是很快的了。”庞库那夫说。

“行！那时候正是航海的好时间，我们不管是去岱波岛也好，去更远的地方也好，都很合适！”史密斯说。

“那就这样吧！史密斯先生，你负责设计图样，我们都是你的工人，阿埃童也会是个得力的助手的！”庞库那夫说。

居民们商量后，一致同意造船。是的，在当时的情况下，这已经算是最好的办法了。虽然造一艘二三百吨的船，需要花很多时间、很多力气，但居民们觉得既然成功地造过船，就有信心继续造好。

于是，史密斯开始了对船的设计，制作船的模型，其余人则去砍伐树木。西遥森林有的是上好的橡树和榆树，他们将其砍了来，做成了肋材、船骨和铺板。

在砍树的过程中，他们将上次远征时走过的一条通道开辟成了道路，叫它西遥路，砍好的木料被他们运到了造船工场——“石窟”。不过，他们开辟的西遥路因为所选树木的缘故，路也是弯弯曲曲的，但却给他们去蛇盘半岛提供了方便。

在做木工的过程中，木匠们需要注意一些事项，比如伐树和锯木料必须加快速度，因为湿木料不能用，需要在伐完、锯完后晾晒一段时间，干燥后才能用。所以，木匠们在整个4月都非常繁忙。仅有秋分时，因为刮暴风才暂时停下。

在这项工作中，不仅人参与了，就是灵巧的猩猩狢布，也帮了他们很多忙，用结实的臂膀帮他们将砍下的树扛回来。

“造船工场”就在“石窟”附近他们盖的一间大棚子里，砍下来的木料也放在那里，等干燥后使用。

好在4月份的大部分天气都很晴朗，相当于北半球10月的天气。所以在这段时间里，他们不仅砍伐树木，同时也没放弃其他工作。

很快，观望壁上那些被海盗践踏的痕迹就不存在了。

他们不仅重新建立了磨坊，而且还重修了家禽场。家禽场的鸟类越来越多，所以他们必须扩大场地才行。牲畜栏里如今还有五头野驴，四头经过了训练，既能拉车，又可以让人骑。另一头是小野驴，还不到训练的时候。

牲畜栏的农耕工具有犁，所以居民们常常让两头野驴拉着耕地，那两头野驴的作用，就和约克、肯塔基州的耕牛一样。虽然事情很多，也很繁忙，但因为有着各自的分工，大家也不觉得很劳累，反而锻炼了身体。

晚上的时候，居民们会聚集在“花岗宫殿”里，为他们美好的未来设计无数条计划，“花岗宫殿”充满了欢声笑语。

现在，阿埃童不再躲避大家，也不再提回牲畜栏居住，他能和大家一起工作生活了。不过，他还是经常沉默不语，心事重重。

当然，这并不妨碍他做事。他是个非常能干的人，不仅有着强壮的身体，还很机敏、灵巧。居民们都很喜欢他，也很器重他。这，他也是能感觉得到的。

当然，虽然阿埃童没有住在牲畜栏，但牲畜栏的工作却并没有放下不管。每隔一天，总会有人驾着车或骑着驴去照料那些莫伏鹿羊和山

羊，并且还会带一些羊奶回来，羊奶是那普需要的。

去牲畜栏的人，在来去的路上，有时还会打猎。因此，经常去牲畜栏的就是赫伯特和史佩莱了。他们出去时，总会带上好猎枪，并由多卜带路。因此，“花岗宫殿”里从没断过野味。大到野猪、水豚、刺鼠、袋鼠，小到野鸭、山鸡、松鸡、啄木鸟和丘鹬。

除了这些野味外，还有他们兔场的兔子、蛤蜊场的蛤蜊，以及从感恩河捉来的海龟、鲑鱼。高地上的蔬菜和森林里的果子也是应有尽有，品种繁多。

厨师那普每次面对这么多食材，都不知道要做哪一样。

当然，虽然牲畜栏没有人固定居住，但和“花岗宫殿”之间的电报线还是恢复了。因为有时候谁要去牲畜栏，并且晚上要住在那里的话，都会通过电报来通知一下。如今，荒岛已经安全了，他们不必担心再遭到坏人的攻击。

不过，曾经发生的可怕的危险，还是很有可能再重新出现的，因为随时都有可能遇到海盗或逃犯来到岛上对他们进行袭击。哈维能向这个方向来，很可能还有别的同伙和党羽知道，那些人也都有可能到这边来，居民们需要时刻注意荒岛周围海面的情况。因此，居民们每天都会通过望远镜，向联合湾和华盛顿海湾之间的水平线上观望。

在牲畜栏时，他们也会注意西边的海面。在那里，他们能看到很大一部分西方水平线。

当然，他们没有发现可疑的人或物，不过必要的警惕还是不能少。

有天晚上，史密斯向大家宣布了一个计划，那个计划就是给牲畜栏

设防。他觉得，为了小心起见，他们应该把牲畜栏的栅栏加高，并在旁边建个木制堡垒，以便必要时利用它来防御敌人。

“花岗宫殿”的位置好，牢不可破，所以如果有海盗上岸后，他们首先瞄准的肯定是牲畜栏和岛上的其他建筑物、贮藏物资和牲畜。一旦居民们正好在这里，就必须先保护好自己不受坏人伤害。

这个计划不错，大家也都赞同，但却需要他们明年春天再实施。

5月15日，居民们的新船龙骨已经做好，放在了造船工场。很快，船头和船尾的木材，以及樁头也都接在了龙骨的两头，船几乎能立起来了。

他们造船用的材质都很好，优良的橡木做了长达110英尺的龙骨，龙骨上能够支撑一根宽度达到25英尺的横梁。

不过，在大家做好这些后，寒冷的冬天就来到了。此后的几个星期，在安上第一批船尾的肋材后，他们不得不暂时停下造船工作。

5月份的最后几天，天气越来越差，东风猛烈的程度堪比暴风，史密斯开始为他们造船工场的棚屋担心。但担心归担心，他没有办法将这造船工场盖到靠近“花岗宫殿”的安全地带，因为在狂风暴雨到来的时候，着陆岛是无法挡住从大海涌向海岸的浪潮的，所以浪潮很容易会冲到花岗石壁底下。

好在他的担心是多余的。由于风向突转，拾箱角将“花岗宫殿”的整个海滩都挡住了，包括他们的“造船厂”也受到了保护。

在造船工作中，最热心的就数庞库那夫和阿埃童了。他们卖力地劳动着，即使风吹雨打，也不放弃他们的工作。

最终，因为严寒使木质纤维变得像铁一样坚硬了，无法继续工作，他们才在6月10日前后放下了手里的工作。

史密斯和其他居民都觉得，这一年的冬天应该非常寒冷，寒冷程度和新英格兰各州相当，因为新英格兰各州和赤道间的距离与林肯岛和赤道间的距离相同。在北半球的一些地方，比如美洲的英国部分地方以及美国北部等等，都因为北极地势平坦，且没有高地阻拦北风，所以非常寒冷。

不过，林肯岛的寒冷就不是这个原因了。

“我们应该知道，纬度相同的一些地方，岛屿和沿海是没有内陆冷的。比如说，我听说苏格兰的冬天比伦巴底的冬天暖和。为什么会这样呢？因为苏格兰附近的海洋到了冬天会将在夏天吸收到的热量散发出来，而散发出的热量，肯定会影响到岛屿和沿海地区。”史密斯有一天给大家讲解说。

“那……史密斯先生，为什么我们林肯岛就不是这样呢？”赫伯特问。

“这个很难讲明白。不过我想，也许是因为林肯岛的位置在南半球的原因，南半球可是比北半球冷的。孩子，我想这点你应该明白。”史密斯说。

“是的。就说冰山吧，纬度低的南太平洋，一定比纬度低的北太平洋多。”赫伯特说。

“对！对！在捕鲸船上当水手时，我就在合恩角附近见过冰山。”庞库那夫说。

“那是不是可以说，林肯岛之所以这么冷，是因为附近有冰山或浮冰的原因呢？”史佩莱问。

“亲爱的史佩莱，你的想法很有道理。我们这里冷是因为靠近冰山的缘故。我们也要清楚一个自然道理，那就是它能说明南半球为什么会比北半球冷。南半球到太阳的距离，夏天比较近，相反冬天比较远。这就是夏天和冬天温度差别大的原因。我们不妨想一下，是不是我们在林肯岛的冬天冷的时候，恰恰它的夏天是很热的。”

“对不起，史密斯先生，我们南半球的划分，为什么被你说得那么可恶？太不公平了！”庞库那夫说的时候，皱起了眉头。

史密斯笑了。

“庞库那夫，这是大自然赋予的，不管公平不公平，都只能这样。为什么会这么划分，是有原因的。按力学定律来说，地球环绕太阳转的轨道不可能是圆形，只能是椭圆形的。所以地球运转时，在通过椭圆形中离太阳远的极点时，就叫远日，反之叫近日。我们处在南半球，冬季时，正处在离太阳最远的那个点，所以这区域就比较冷。这是没有办法改变的。庞库那夫，人类即使有再多的学识，也不能改变宇宙运行的规律。”

“可是史密斯先生，人类的知识这么丰富，要是把知道的一切都写成书的话，不知道有多厚呢！”庞库那夫又说。

“要是把不知道的也写成书，一定也会很厚的。”史密斯说。

不管怎样，6月份的严寒还是来了，居民们只能整天坐在“花岗宫殿”。大家对这种枯燥乏味的生活很是厌烦，特别是史佩莱，简直觉得

是在监禁。

有一天，他对那普说：“你要是去什么地方，能给我订一份报纸来，我可以把我们全部的财产都给你，说话算话！发发善心吧，给我弄份报纸。知道吗？我最享受的事就是每天一早能知道头天各地发生了什么。”

那普憨厚地笑了，他说：“我想的是我每天都要做什么。”

其实，不管是在室内还是室外，都有很多工作可以去做。

经过三年的艰辛开拓，如今林肯岛的繁荣已经达到了顶峰。双桅船带给他们很多新的资源。除了那整套索具能够用来装备正在建造的新船外，还有双桅船上曾有的各种工具和用品，以及枪支、弹药、衣服等，现在这些东西都储存在“花岗宫殿”的仓库。

如今，他们已经不再需要自己做的那粗糙的“毡布”了，他们有许多亚麻布制品。他们在岛上过第一个冬天时曾挨过冻，但现在不管天气多冷，都不用害怕了。

不过，这种亚麻布制品他们还是需要省着点用的。

为了让那些亚麻布制品也可以应用在生活中，史密斯利用氯化钠获取了小苏打和氯，并将小苏打变成碳酸钠，将氯制成氯化钙，并最终用它们将亚麻布漂白，用在了家庭中。

居民们的衣服和以前古老家庭中的一样，一年就洗四次。需要说明的是，史佩莱等不到每天一早的报纸，却和庞库那夫成了优秀的洗衣工人。

6月、7月、8月过去了。当9月到来的时候，天气依然寒冷，平均温度只有-13℃左右，比去年同一时期还要冷。因此，“花岗宫殿”的炉火点得很旺，这也让石壁被烟熏成了像斑马纹一样的图案。

柴火他们不缺，在离他们不远的地方就有，随时可以添加，只是煤炭的运输有些麻烦，好在造船时的许多木头碎片给他们节省了不少煤。

林肯岛的人和牲畜都很平安。不过，猩猩小狙布却非常怕冷，这可能是它身上唯一的缺点了。因为它是个非常出色的“仆人”，机灵、热情、谨慎、不怕辛苦、不爱说话……它完全有资格被评选为猿猴界的典范。这么优秀的同伴，怎么能不多加关爱呢，因此，居民们为它做了一件很厚的衣服。

“它为什么做事做得那么好？就是因为它有四只手呀，能不好吗？”庞库那夫开玩笑说。

确实，虽然是动物，但它做事却非常出色。

居民们离他们上次去林肯岛搜查已经过去七个月了。在此期间，荒岛上再也没有那位神秘圣人的音讯和印迹。现在已经是9月份了，天气在慢慢转暖，但他依然没有用任何方式显示他的能量。

其实，就算他发挥了能量，可能也显示不出来，因为现在已经没什么事能难倒居民们了。

史密斯曾注意到，在这神秘的陌生人通过“花岗宫殿”和居民们联系时，多卜是会感觉到的。在这段时期，多卜从没发出过那种咆哮声，狙布也不再有不安的表现。

这两位朋友也没再去井口转圈，更没像史密斯看到的那样莫名其妙

地吼叫。难道，这个谜永远都无法破解吗？再遇到什么紧急情况，他还会出现吗？谁又知道以后还会发生什么呢？

严寒毕竟马上就要过去了。不过，就在大地刚刚开始回春的时候，发生了一件事，而这件事，很可能会导致难以预料的严重后果。

9月7日，史密斯观察了火山口，他发现，山顶处冒出了一缕烟雾.....

第十五章

史密斯将他看到的紧急情况告诉了居民们，大家全都放下了手里的工作，注视着富兰克林山的顶峰，一句话不说。

火山就要苏醒了，蒸气从火山口升腾就说明了这一点。不过，火山喷发会不会引起毁灭性的爆炸？他们不知道。就算是火山爆发，也不一定会殃及整个林肯岛。

他们觉得，火山流出的岩浆未必能造成灾难。因为向北的山坡上，有条凝结的熔岩，那是火山曾经爆发留下的印迹，这印迹证明荒岛是受过考验的。何况，从火山口的形状来看，岩浆大多会喷在他们担心的领域的对面。

当然，过去的情况无法准确地预测将来。如今，火山顶峰的原有火山口已经被堵塞了，很可能会再次出现一个火山口。这种事不是没有出现过，像埃特纳火山、波波卡特佩特和奥里萨巴火山都是这样。

火山喷发前夕，任何事情都是有可能发生的。

同时，在很多时候，火山喷发还会引发地震，地震又会改变火山的内部结构，促成新火山口的形成。

史密斯在和大家说这件事的时候，真实地表达了可能出现的两种情况，最后还告诉大家，这件事是无法阻止的。同时他还安慰大家，要是没有地震，“花岗宫殿”就会一直是安全的。不过，如果在富兰克林山南边有新的火山口出现，牲畜栏就会被毁灭了。

从这以后，富兰克林山顶部的火山口上，烟就没断过。而且他们发现，烟愈升越高，愈来愈浓，特别是火山口较低的地方，但不管什么地方出来的烟，都没有夹带火焰。

不管发生什么事，他们的工作还是要继续，特别是天气已经转暖，他们又要忙着造船了。

为了效率更高，史密斯还利用上了瀑布，在岸上建了一个水力锯木场。这样的话，树干就能更快地被做成铺板和托架了。

史密斯所做的这个水力锯木装置，同挪威一些乡村锯木场所用的差不多，都是先用水平机械装置转动木块，然后让另一个垂直机械装置转动钢锯就行了。为此，史密斯还用了一个车轮、两个滚筒、几个滑车将它装配起来。

工作效率提高后，在9月底的时候，船的骨架便有了，肋材也做好了，当用箍条将所有的船骨缚好后，船的大致轮廓也就出来了。

这是只纵帆船，形状是船头尖，船尾细长，这样的船形对远航非常有利。不过，船的铺板工程并不是马上就能做完的，需要很长的时间。

好在海盗们那只被炸的双桅船上的铁制品还能用，庞库那夫和阿埃童便从双桅船的铺板及损坏的肋材上拔下了一些螺丝钉和铜钉。

这些螺丝钉和铜钉，让他们少干了很多制铁工作，但木工方面却还有很多活儿在等着他们。

到了收割季节，造船工程暂停一星期。这一星期，他们去了高地收割麦子和其他农作物，同时也堆积了很多干草。农忙一结束，他们又马上投入到造船工作中。每天晚上，居民们都忙得筋疲力尽，为了不浪费一分一秒，他们连吃饭的时间都做了调整。

每天十二点吃完午饭后，一直要到天黑才吃晚饭，吃完就去睡觉。

当然，遇到一些有趣的话题，他们也会聊一会儿再去休息。而这些话题，大都脱离不开未来。如果他们乘着新造的纵帆船去了内陆，那么他们的生活环境肯定会发生变化。会发生什么变化呢？这都是他们重点讨论的。

不过，在谈到如何面对这些美好未来的同时，他们也一致认定，不管以后的生活发生什么样的改变，林肯岛他们一定还会回来。这是他们用智慧和辛劳创造出来的，一旦和美国联系上了，这里就将成为祖国的一部分。

这些人中，最想在林肯岛上过一辈子的就是庞库那夫和那普了。

“赫伯特，你永远也不会离开林肯岛，对吗？”庞库那夫问。

“那是当然的。庞库那夫，如果你准备一辈子在这里，我也肯定不会离开。”

“孩子，我早都想好了！我就在这里住着，你结婚了带着妻子和孩子来，我要将你的孩子培养成聪明活泼的小家伙！”庞库那夫高兴地说。

赫伯特脸红了，却也笑着说：“好吧！”

“史密斯先生，还有你，你永远是我们岛上的领袖！想想看，岛上能生活多少人？一万人没问题吧！”庞库那夫越说越兴奋。

他们就这么谈笑风生，听庞库那夫滔滔不绝地说。最后，史佩莱说，他要在林肯岛上办一份报纸，就叫《林肯岛先驱新报》。

人类之所以能够成为万物之灵，就是因为有目标、信念和愿望。他们的目标和愿望，总是离不开永远的事业，因为即使人不在，那事业还会在。正是因为有着这样的信念，人类才成为地球的主人。

他们有着美好的远景，那么獾布和多卜呢？它们对未来又是抱着什么样的态度呢？

阿埃童也曾在心里对自己说，当他再次见到格莱拉弗爵士后，他一定要让爵士知道，他已经改过自新了。

10月15日这天，他们谈到九点多钟才去睡觉，比平时晚了很多。尽管大家还是不愿意去睡，但劳累了一天，眼睛都睁不开了，必须要去休息了。在庞库那夫向他的床边走的时候，餐厅里的电报铃声突然响了。

史密斯、史佩莱、赫伯特、阿埃童、庞库那夫、那普，每个人都在，就连獾布和多卜也在“花岗宫殿”，没人在牲畜栏。

史密斯慢慢地站了起来，大家你看看我，我看看你，都像是在问对

方，你听到什么了吗？

“怎么回事？难道是……魔鬼在……”那普惊恐地叫道。

没有人回答他。

“这是暴风雨的天气，会不会是因为电流的原因……”赫伯特说不下去了。

大家一起看向史密斯，史密斯摇了摇头。

“稍等！如果真是有人发电报，那么还会再发的。不管对方是谁。”赫伯特说。

“但你觉得会是谁？”那普大声问。

“会是谁？除非是……他……”庞库那夫小声地说。

这时，电报机又响了一声，铃声将庞库那夫的话打断了。

史密斯走向电报机，向牲畜栏发报问：“你需要什么？”

很快，指针上的字码表给他们留下了这么一句话：“马上到牲畜栏来！”

“总算要揭开谜底了！”史密斯大声说。

没错！他们终于要揭开谜底了。在好奇心的驱使下，居民们的激动和兴奋让他们劳累了一天的疲劳全都消失了，并催促着赶快去牲畜栏，此时休息已经被他们抛在了脑后。

激动得说不出话的一行人马上离开了“花岗宫殿”，只留下狙布和多卜看家，此次，他们不需要它们陪同了。

天空中没有月亮，夜色黑沉沉的。如同赫伯特所说，他们的头顶像是压了一块黑压压的乌云，浓厚的乌云让天空没有一颗星星。暴风雨中夹杂着闪电，时不时地划过天空。

这天的天气非常恶劣，也许几个小时后，岛上就要迎来轰隆隆的雷声了。不过，不管天色有多黑，都阻挡不住他们去牲畜栏的路。

他们很快就上了感恩河左岸，随后经过高地，又过了硝甘河上的吊桥，最后走上森林的边缘。

每个人都加快了脚步，抑制着自己兴奋又激动的心情。很明显，他们马上就要解开这个在他们心头存在很久的困惑了，他们很快就能知道那位神秘的陌生人叫什么名字了。虽然他们没有见过他，不知道他是谁，但他却和他们的生活息息相关。他在帮助他们的时候，是那么无私，那么神通广大，即使没有和他们生活在一起，没有听到他们的讲话，也能知道他们的诉求，知道他们需要帮助，他到底是怎么做到的呢？

每个人都满怀心事，急速前行。在一扇由树枝形成的拱门下，周围一片漆黑，他们连路都没办法看清了。森林里一点声音都没有，在如此低的气压下，想必连飞禽走兽都躲了起来。没有微风，也听不到树叶被吹动的声音，只听得见居民们的脚步声。

在黑暗中又走了差不多15分钟，庞库那夫终于打破了沉默：“我们是不是该点个火把？”

史密斯说：“在牲畜栏里我们能找到火把。”

从“花岗宫殿”出发是晚上九点十二分。感恩河与牲畜栏之间的距离是5英里，走了3英里路程时，时间为九点四十七。

此时，随着巨大的“咔嚓”声，一道闪电从森林上空划过，在照亮了森林的同时也让整个海岛亮了起来。那道闪电刺得他们几乎睁不开眼了。

看来，暴风雨马上就要来了。

闪电频繁起来，也更亮了。远处传来了轰隆隆的雷声，空气沉闷到令人窒息。

居民们被一种强大的力量推动着，继续急速前行。

十点钟的时候，他们来到了牲畜栏门口，随着一道闪电照在栅栏上，雷声也接踵而至。

史密斯很快带领大家穿过牲畜栏，到了房屋门前。

发电报的人应该就在屋子里，但窗户上却没有一丝灯光。

史密斯敲了敲门，没有人应。

他将门打开，居民们全都拥了进去。屋内一片漆黑，那普划了一根火柴，点着了灯，整个屋子都亮了起来。

屋子里没有人，一切就和他们上次离开时一样。

“难道我们都出现了幻听？”史密斯喃喃道。

不会的，肯定不会，电报上清清楚楚地写着：“马上到牲畜栏来！”

他们走到放电报机的桌子前。一切都和原来没什么两样，电池好好地装在匣子里，电报机也不像有人动过。

“最后一个来这里的是谁？”史密斯问。

“是我！史密斯先生！”阿埃童急忙说。

“你是在……”

“四天前……”

“快看，有张纸条！”赫伯特指着桌子上的一张纸条，大声地说。

纸条上的字是用英文写的：

跟着新电线走！

“我们走吧！”史密斯大声说。

他现在知道了，电报并不是从牲畜栏发出的，而是从一个神秘的住处发出来的。之所以能发给“花岗宫殿”，是因为他又在原有的电线上加了一根电线。

那普拿起点着的灯，离开了牲畜栏。此时暴风雨即将到来的迹象更明显了，闪电和雷声密集起来。在电闪雷鸣中，他们竟然能够看到富兰克林山顶火山口的烟雾缭绕。

他们找遍了牲畜栏和栅栏周围，都没有找到电线。史密斯在第一根电线旁看了看，在闪电的照耀下，他看到在一个绝缘物中有根新线拖到

了地面上。

“在这里！”他说。

这根新电线如同海底的电缆一样拖在了地上，外面包着一层保护电流通过的绝缘物。这根新电线像是从森林和富兰克林山的南部支脉穿过的，一直延伸到了西边。

“我们跟着它走！”史密斯一声令下。

居民们沿着那根电线，小跑着向前走去。

雷声隆隆，他们连对方的说话声都听不见了。不过，大家仍然不顾一切地往前走，根本顾不上说话，似乎觉得说话都是在浪费时间。

他们爬过了牲畜栏的山谷和跌水河山谷间隆起的支脉，又从一条最狭窄的跌水河上跨过去。那条电线有时在地上，有时又挂在较低的树枝上。

电线一直引导着他们前行。史密斯觉得电线应该在山谷尽头深处，而那也就是神秘人的住处。

然而，情况并不是这样的。所以，他们不得不爬上了西南的支脉，又下到了贫瘠的、有着奇形怪状石头的高地上来，这里是荒凉的玄武岩峭壁。由于没办法看到电线，他们不得不弯下腰去摸电线。最后他们确定，电线是通向大海的。

居民们找遍了海岛的角角落落都没有找到，想必神秘人住所是在沿海一带的岩石深处。

黑夜里的天空突然像是着了火，红彤彤的，瞬间有种电光火石之感。闪电打在了被浓烟环抱的火山顶，像是要把火山点燃。

差不多在深夜十一点钟的时候，他们到了俯临西边海洋的峭壁。

风起云涌，500英尺的海面上，波涛翻滚。据史密斯估算，这里离牲畜栏已经超过一英里半了。

电线通向了峡谷的悬崖，然后又钻进了一堆岩石里。岩石并不是很平稳，居民们顺着电线爬了过去。在这个地方，不小心就会掉进海里，特别是一些下坡的地方，非常滑。但居民们没有考虑这些，他们像被一个神秘莫测的东西吸引着，向那神秘的地方走去，身不由己。

这样的峡谷，就是在白天都难以通行，但他们却从峡谷里走了下去，虽然他们自己都不知道是怎么走的。

岩石滚落在地上，迸出了一些火星，有些像一个个的小火球。他们正是利用这些亮光前行的。

走在最前面的是史密斯，断后的是阿埃童。他们一步步地艰难前行，有时不小心从又湿又滑的石头上摔下去，又挣扎着爬起来，继续前行。

突然，他们发现电线拐到了海滩的岩石边，岩石被海浪不断地冲击着，发出很大的声音，海滩上暗礁密布。此时，他们已经走到了玄武岩峭壁的尽头。

没有路了，这里是个分水岭，非常狭窄，和海面保持着平行。居民们沿着电线的分水岭往前走，走了不到一百步，发现分水岭和海面接壤。

史密斯蹲下摸索了一会儿，发现电线竟然钻进了海底。

居民们全都惊呆了。

他们大叫起来，甚至感到了绝望。难道他们要钻进水里，到海底的洞穴去吗？实际上，按照当时的心情，即使让他们往水里钻，他们也会毫不犹豫地这么做的。

在他们嚷嚷着要下水时，史密斯拦住了他们。

他把伙伴们带到了一个石洞前，说：“稍等一会儿，现在正是涨潮的时候，落潮时，路就有了。”

“什么？你怎么知道？”庞库那夫忍不住问。

“如果我们不能去他那里，他是不会叫我们来的。”

史密斯说话的语气很肯定，没人反驳。何况，他的想法也是非常合理的。想来峭壁底下是有一个洞穴的，涨潮时，它被海水淹没，但只要潮水落下去，就能显露出来了。

落潮还要等多久，他们不知道，只是默默地蜷缩在深洞里。此时，大雨倾盆，轰隆隆的雷声在山石间发出奇怪的回响。

虽然是在如此糟糕的环境下，但居民们仍然情绪高涨，每个人都有着很多稀奇古怪的想法。他们觉得等会儿要看到的，一定是个仪表堂堂，和凡人不一样的神灵，因为只有神灵，才会像岛上这位神秘的人一样做着这么多不可思议的事情。

午夜时分，拿着灯的史密斯开始向海滩下探索。

果然如他所说，落潮后，露出了一个庞大的洞口。而电线也被折成直角，从洞口进了一个宽阔的港湾。

史密斯走到伙伴们面前，只说了一句话：“一个小时后就能通行
了。”

“真的有洞吗？”庞库那夫睁大了眼睛，惊喜地问。

“现在还不信？”史密斯说。

“洞里的水位一定很高吧！”赫伯特说。

“我觉得有两种可能性，一种是洞里没有一点水，这样我们就可以直接进去了。另一种情况就是虽然有水，但他提供了工具给我们。”史密斯说。

一个小时后，居民们冲出山洞，冒雨到了海面。此时，水面上露出的洞口已经有8英尺宽了，如同一个桥孔，里面有着波涛汹涌的海水。

史密斯弯下身去看，发现水面上漂浮着一个黑色的东西。他急忙拉住它，原来是系在洞内尖石上的一只小船，船上有两把桨，船身包着铁皮。

“都上船！”史密斯说。

居民们欣喜地上了船，那普和阿埃童一人拿着一把桨划着，庞库那夫掌着舵，史密斯则在船头拿着灯照路。

他们乘坐的船先是经过了一个椭圆形的檐顶，接着便发现那顶部越来越高。由于周围一片漆黑，他们带的灯光又暗，所以暂时还看不清洞

的高度、长度和宽度。

他们行驶在玄武岩洞窟，听不到外面的一点声音，即使轰隆隆的雷声也听不见，可见这石壁有多厚。

这么大的洞窟，世界上有不少。这些石窟是由地质变化，自然形成的地窖。有些里面灌满了海水，有些里面则像个湖泊。比如赫布里底群岛上的芬格尔山洞；布列塔尼半岛上的洞窟；科西嘉岛的洞窟；挪威厄斯福德的洞窟等等，当然还有肯塔基州那500英尺高、20多英里长的庞大曼摩斯山洞……

大自然创造了很多这样的奇观，供人欣赏。

这个洞窟通向什么地方？是通向荒岛中心吗？史密斯不停地向居民们发出简短的指示，庞库那夫按史密斯的指示掌舵，当他们在弯弯曲曲的洞窟里走了差不多15分钟后，史密斯突然叫道：“向右偏一些！”

小船调整了方向，贴着右壁前行。史密斯在石壁上看见电线是不是还在沿着这边前行，结果发现仍然钉在岩石上时便说：“继续往前走！”

小船在双桨的划动下，继续向黑咕隆咚的洞里前进。

又前行了15分钟后，在离洞口大约半英里地的地方，史密斯又喊了一声：“停下！”

随着小船的停下，他们看到有一道夺目的光照亮了整个洞窟。洞窟处在荒岛地心，这是居民们怎么也不会想到的地方。

洞窟上有圆形的拱顶，足足有100英尺高，是由很多玄武岩的石柱撑起来的。这些石柱看样子是在地球形成时就竖在这里的，柱子上有很

多奇形怪状的花纹和高低不平的窟窿。

石柱一个紧挨着一个，高度有些是40英尺，有些则是50英尺。虽然洞外浪潮涌动，但洞窟里的海水却只是轻柔地冲刷着石柱的底部。史密斯告诉大家，向照亮了整个洞窟、将石壁照得清晰可见的光亮地方行驶。

在光亮下，轻柔的水波发出了银色的光，他们乘坐的小船犹如行驶在两片银光之间。

光亮是由中间向四方发射的，所以清楚地照亮了洞窟里的每个地方，甚至是每一块岩石。居民们知道，这是一种由电力产生的光，他们从那银白的光亮中看出了这一点。这光如同洞窟里的太阳，将整个洞窟照得犹如在阳光下。

史密斯向他们做了个继续前进的手势，双桨划着的小船向光源所在的地方驶去。小船溅起的小水花，如同一颗颗珍珠。

还有差不多半锚链，他们就能到达光源所在地了。

此处的水面宽度大约在350英尺。明晃晃的光源后面，大片的玄武岩石壁堵住了出路。这部分洞窟非常宽，呈现出小湖的形状。穹顶、四壁、尽头的悬崖、棱柱和尖顶都在光的照耀下，发出夺目的光，这些光很像是从它们身上发出的。

湖中心有漂浮物，是一截长长的，雪茄烟形状的东西。那个漂浮物静静地躺在水面上，一动不动。光源是一只长约250英尺，高出水面10到12英尺，如同庞大鲸鱼的家伙。它的光是从两边发出来的，有些像从白热的炉灶里发出的。

小船在慢慢地向它靠近，站在船头的史密斯，兴奋得差点无法自制。他猛地抓住史佩莱的胳膊，大声喊道：

“是他！原来是他！一定是他！他……”

他没有说下去，而是猛地坐了下去，喃喃自语地说出了一个名字，那名字只有史佩莱能听到。

史佩莱显然也知道这个人，所以在听了后，用奇怪的眼神看着史密斯，然后用略带沙哑的嗓音说：“是他？逍遥君！”

“对！就是他！”史密斯说。

小船在史密斯的指挥下，向那奇怪的漂浮物驶去，当他们停靠在它的左边时，有道光从厚厚的玻璃上射了下来。

史密斯带着大家登上了一个平台，然后从一个敞开的舱口冲了下去。下面有个扶梯，扶梯的尽头是甲板，上面也有电灯亮着。史密斯走到甲板尽头，轻轻地将一扇门打开。

这是一间装饰得富丽堂皇的屋子。当他们穿过这间屋子后，便进入了隔壁的一间房，房间里摆着很多书。书房的天花板上有灯光投射下来，照在了他们的身上。

书房的尽头还有一扇门是关着的，史密斯轻轻地推开了它。

这是一间如同博物馆般的大厅，非常宽敞，里面陈列着很多稀奇古怪的矿物制成品、艺术品和工业品。看到这些琳琅满目的东西，居民们犹如进了仙境。

此时，他们看到了一个人。那个人好像并不知道他们进来，只是静静地躺在华贵的沙发上。

史密斯上前一步，一开口便让伙伴们大吃一惊，他用因为激动而略微颤抖的声音说：“尼摩船长，您让我们来，我们来了！”

第十六章

沙发上躺着的人站了起来。

灯光照在他那端庄的容貌上：高而亮的额头、炯炯有神的眼睛、雪白的胡子、披散在肩上的浓密的头发……

虽然站了起来，但他的一只手依然撑着椅背，神态安详。看来，他因为生病，身体有些衰弱。不过，他说话的声音依然洪亮。

他用惊讶的语气，用地道的英语说：“先生，我没有名字！”

“我知道您！”史密斯说。

尼摩船长用他那双敏锐的眼睛看着史密斯，像是要把他看穿。随即，他靠在了沙发的垫子上。

“无所谓了！现在知道也没什么关系，反正要死了！”他喃喃道。

史密斯慢慢地走到他身边，史佩莱也走过去，握住了他的手。从他手的热度中，史佩莱知道他正发着高烧。

阿埃童、庞库那夫和赫伯特，以及那普都远远地、毕恭毕敬地站在角落看着。明亮的灯光将豪华的大厅照得满目生辉。

尼摩船长将他的手从史佩莱的手里抽了出去，然后用手势告诉史密斯和史佩莱，让他们坐下。

其他人都站在那里，怀着激动的心情注视着这个被他们奉为“岛上神秘圣人”的人。这个拥有无限能力，在不同场合，无数次解救他们，帮助他们的保护神，此刻就在他们眼前。他们欠这位大恩人很多人情。

然而，让庞库那夫和那普没想到的是，他们心目中的超凡神灵，只是一个看上去很普通的人，而且是一个快要死了的人。

尼摩船长没想到有人知道他的名字。不过，史密斯是怎么知道他的呢？而他在听到有人叫他的名字时，又怎么会吃惊地从沙发上突然站起来呢？

尼摩船长重新躺回沙发。他将头搁在一只胳膊上，看着旁边的史密斯。

“您是怎么知道我过去的名字的？先生？”他问。

“我不仅知道您，还知道那只神奇的潜水船的名字……”史密斯回答说。

“‘鹦鹉螺号’吗？”船长微微一笑，轻声说。

“对！是‘鹦鹉螺号’！”

“可是您……知道我是谁？”

“我知道！”

“很多年了，和人间隔绝很多年了！在这个海底，我生活了30年，漫长的30年。这是我找到的唯一自由的地方，是谁泄露了我的秘密？”

“尼摩船长，不要怪他不守承诺，他是一个不受您约束的人。”

“是那个16年前，到过我船上的法国人吗？”

“是的，他们没有死，还写了一本讲述您故事的《海底两万里》。”

“那只是我一生中几个月的故事！”船长看上去显得有些烦躁。

“是的，不过就是这几个月，也足以让人了解您……”

史密斯的话还没说完，就听尼摩船长说：“一个罪人，对吗？是的，是一个会遭到人类唾弃的罪人！”说完，他的唇边露出了一丝奇怪的笑容。

史密斯没说话。

“是吗？先生？”他又问了一句。

“尼摩船长，对于您过去的的生活，我和很多人一样，都不知道您为什么要选择那样一种奇怪的方式。不过，在不了解的情况下，我是无法对事情的结果作出判断的。而且，在我们到了林肯岛后，您一直伸出善意的手帮助我们、保护我们。正是因为有了您的帮助和保护，我们才得以保全性命！所以我能知道的，就是您的善良、慷慨和万能！”史密斯真诚地说。

“是我做的！”尼摩船长只简单地说了这几个字。

史密斯和史佩莱一起站了起来，其他人也围了过来，他们想用语言或表情来表达自己的感激。

尼摩船长做了一个“不必”的手势，掩饰住激动的心情说：“先听我把故事讲完吧！”

于是，尼摩船长很简单地讲述了他生平的故事。尽管他讲得很简洁，但也是用尽了全力。很明显，他正在和自己虚弱的身体做斗争。史密斯好几次请求他休息一会儿，他都摇了摇头，好像现在不讲完，以后就没机会了。在史佩莱提出给他看病时，他说：“不必了！我很快就要死了！”

在他的叙述中，大家了解到了如下内容。

尼摩船长是印度独立王国博尔本德尔君主的儿子，英雄迪泊·塞戈卜的侄子，人称达卡王子。

达卡王子10岁时，父亲将他送到了欧洲接受全面教育，希望他以后能依靠自己的才学带领全国人民与压迫者做斗争。

天资聪颖的达卡王子，在10岁到30岁的20年间，学到了很多知识，并在科学和文学方面很有天赋。

出身贵族，拥有巨大财富的他在漫游欧洲时，虽然受到了很多人的奉承和欢迎，但他却并不满足于这些，甚至说很排斥这些。有着极度求知欲的年轻英俊的他，内心里有个愿望——复仇。

他要复仇的国家是英国。对英国，他充满仇恨，英国是他最不愿意去的国家。然而，因为仇视，他又不得不关注这个国家。

达卡王子是迪泊·塞戈卜家族的成员，他的父亲虽然是君主，却也仅仅只是一个名义上的君主。作为一个被征服者，他们对征服者是怀有仇恨的，作为被侵略者的达卡王子，他无法从内心宽恕侵略者。

从小，达卡王子就是在恢复主权和报仇雪恨的思想下长大的。他热爱自己的国家，觉得他的国家如同诗一般美丽，但却不幸地成了英国殖民者的奴隶。他诅咒奴役印度人民的英国，所以从不愿意踏进那片土地半步。

精通各国政治，通晓多种高深科学知识的达卡王子熟稔欧洲人文历史，实际上更像一个优秀的艺术家。

如果只从表面看，很容易会认为他是一个只会埋头研究知识，心无旁骛，目空一切，没有祖国观念和信仰的富家子弟。实际上，这位身兼艺术家、科学家、政治家于一体的印度人，是立志要复仇的。他一直希望自己能带领印度人民赶走外来侵略者，夺回国家主权，恢复祖国独立。

1829年，达卡王子回到了博尔本德尔，并娶回了一位印度贵族女人。达卡王子的妻子和他一样，一直在为祖国的命运担心。虽然他们生了两个可爱的孩子，生活幸福美满，但他们解放印度的愿望却没有改变，他们一直在等待着机会。

终于，机会来了。

那时候，由于殖民者对人民的压榨太重，印度民众开始对英国殖民者表达出了强烈的不满，这让达卡王子觉得机会来了。他将自己一直以来对外国侵略者的仇恨，灌输给了广大印度人民。

他开始不停地在仍然保持独立的印度半岛游说，最后又到了接受英国统治的地区游说，他以迪泊·塞弋卜家族的名义，要为祖国在塞力伽帕旦战斗。

1836年，达卡王子组织了一次大规模的抗英运动，他本人也成了印度士兵武装起义的领袖。在这场战争中，他不仅奉献出了自己的财产，而且还战斗在了最前线。

勇敢而谦逊的他，像那些为了祖国的事业而战斗的英雄一样，没有丝毫考虑过自己的生命安危。他曾参加过二十场战役，受伤十余次。

然而，最终，他们最后一批起义的勇士，也被英国的枪炮镇压了。全军覆没的他们，只有他逃出了虎口。

当然，这次起义也让英国在印度的势力受到了影响。当时，如果印度士兵得到外来援助，那么联合王国在印度，乃至亚洲都是会受到影响的。而正是因为这次起义，达卡王子名声大震，成了家喻户晓的英雄。

他从不躲藏在背后，而是公开和英国作战。英国当局曾高价悬赏他的人头。

不过，虽然没人出卖他，但他的父母和妻儿却因他而送了性命，而那时他还不知道亲人为他做出的牺牲。

起义被暴力镇压，但文明不会倒退，社会发展的规律依然在推动着文明前进。

在印度士兵起义失败后，印度君主的领地依然被英国统治。

达卡王子逃出虎口后便进了博尔本德尔的深山。此后，他一直一个人生活在那里，一度甚至对人类的一切都产生了厌恶，对文明世界充满了仇恨。他发誓再也不回到人群中去了。

于是，他变卖了所有的财产，集结了二十多名最忠诚的伙伴，在某一天突然离开了众人的视线。

他去什么地方寻找他的自由了呢？在水底，在海洋的深处，在人们根本就无法找到他的地方。

曾经的军事家变成了学者。在太平洋的一个荒岛上，他成立了自己的造船厂，根据自己的设计，建造了一艘潜水艇。他利用水力来照明、发电，以此来供应潜水艇装置的需要。他的这种方法，也让电源永不枯竭，源源不断。

海里有很多珍宝，有自然界能够提供的一切，有着数不清的鱼类、海藻和哺乳动物，以及人类不知道的各种物资。这些宝藏满足了达卡王子和他伙伴们的需求，他们就这样过起了遗世独立的生活。

他将潜水艇命名为“鹦鹉螺号”，并自称尼摩船长，一直悄无声息地生活在海洋深处。

在很多年里，他游遍了南极、北极，各个大洋，成为一个被文明世界遗忘的逍遥王子。原本就搜集了无数海底珍宝的他，更因一艘西班牙大帆船在维哥湾失事，成了百万家产的拥有者。

有了这么多的财富，他便隐姓埋名去帮助那些为了独立而英勇奋斗的国家。

这样的隐世生活过了很多年，一直到1846年11月6日的一个晚上。

这天晚上，有三个陌生人上了他们的船。这三个人中，一个是法国的教授，另一个是教授的仆人，还有一个是加拿大的一名渔夫。这三个人之所以能上船，是因为当时正好有艘美国的“亚伯拉罕·林肯号”巡洋舰在追逐“鹦鹉螺号”时，两船因为发生碰撞，“林肯号”上的三个人被抛了出去，正好落在了他们船上。

尼摩船长从教授嘴里得知，自己的“鹦鹉螺号”经常被人当成大鲸鱼类哺乳动物和海盗的潜水船，因此一直受到很多人的追杀。

三个偶然进入他们船的人，接触到了他们神秘的生活。原本他可以将这三个人放回大洋的，但他没有那么做，而是将他们软禁了起来，整整七个月。

因此，这三个人亲眼见证了他们在海底航行了两万里，并目睹了潜水艇上发生的诸多事情。

这三个人并不知道尼摩船长的历史，在1847年6月6日的时候，他们偷偷地乘上“鹦鹉螺号”上的一只小船逃走了。当时，“鹦鹉螺号”正好在挪威海岸附近卷入大漩涡，所以尼摩船长一直以为那三个人已经离开了人世。

没想到那三个人却幸运地被抛在了海岸，并被罗弗敦群岛¹的渔民们所救。尼摩船长更没有想到，那位法国教授回国后，写了一本书出版了，书里的内容就是讲他们在“鹦鹉螺号”上那七个月的离奇经历。此书最终引起了广大读者的好奇。

之后的很长一段时间，尼摩船长带着他的人，继续漫游于各个海洋，而他身边的人也在一个个地去世。尼摩船长在为去世者找到一个长

眠之地——太平洋的一块珊瑚礁上之后，自己依然生活在海底。

此时，他已经是位60多岁的老人了。独自一人，无依无靠的他，将他的“鹦鹉螺号”开进了一个他之前一直停泊的港口——海底石洞，而这个石洞就是林肯岛的海底，这里最终也成了“鹦鹉螺号”和尼摩船长的藏身之处。

在林肯岛上生活了六年的尼摩船长，没有再去航海，只是静静地等待生命的流逝。他觉得他应该回到长眠的伙伴们中间了。而就在此时，他发现了一个载人的气球降落在了林肯岛上，并在离岸几锚链的位置发现了掉在海里的史密斯。穿着潜水衣在海里游动的尼摩船长在同情心的召唤下，救起了史密斯。

当然，救起史密斯后，他首先想到的是不要被其他五个遇难者发现，就将史密斯放在了沙丘地的山洞里。不过，由于火山喷发的原因，使一部分玄武岩升出了水面，将尼摩船长藏身的山洞堵住了，他的“鹦鹉螺号”便一直被堵在了山洞里。

在此期间，他一直默默地注视着那些身无他物而降落在荒岛上的人，这些人的诚实、勇敢和团结友爱让他很是感动，于是便情不自禁地去了解他们生活中的疾苦。穿着潜水衣的他，经常进入“花岗宫殿”里的一个井底，并沿着那凸出的岩石爬到井口听居民们聊天。

在那里，他听到了居民们的很多故事，了解到了文明世界的很多情况。从居民们那里，他也得知为了废除奴隶制，美国所发生的内战。

确实是这样，岛上这些善良人的行为深深地影响着他对世界和人的看法。当然，他也帮居民们做了很多事，比如救活史密斯，领多卜去“石窟”，并将它从湖里的危险大战中救出；将装满了居民们需要的东

西的箱子放在了拾箱角；在他们需要平底船时，将平底船送到了感恩河；在猴子霸占“花岗宫殿”时，赶走了猴子，并将绳梯给他们扔了下去；写纸条装在瓶子里，告诉他们阿埃童在岱波岛上；将水雷放在海峡底部，引起海盗双桅船的爆炸；在赫伯特重病之际，送硫酸奎宁，将他从垂死中救了过来；用猎捕海底动物的电弹打死了五名海盗……

种种神秘莫测的事，都体现出了尼摩船长的善良和才华。

这位伟大善良同时也愤世嫉俗的人，因为急促的心跳让他意识到自己在世的时间不多了，而他还想给居民们提出一些建议。于是，就像前面我们所知道的，他在牲畜栏通向“花岗宫殿”的电报线上接了一条线，邀请居民们来到他的住所。

如果他知道史密斯了解他的历史，并知道他就是尼摩船长的话，很可能他就不会邀请他们来了。

尼摩船长在讲完他的一生后，史密斯说，尼摩船长的历史，对居民们震动很大，他代表大家向这位大恩人表示感谢。

尼摩船长对他的谢意并不看重，也没有去握史密斯伸出的手，他的脑子里一直在想着另一件事，所以便问：

“您已经知道了我的历史，您有什么看法？”

显然，尼摩船长之所以向他们讲述自己的历史，是因为他住在深海里的事被那三个人看到了，而且还被那法国教授写进了书里，影响很大。而且，在那三个人逃跑后，在北大西洋，“鹦鹉螺号”曾被一艘巡洋舰追逐，最后将那艘巡洋舰撞沉了。

史密斯知道尼摩船长的意思，但他却没有回答。

“先生，您知道吗？那是英国人的巡洋舰！”尼摩船长的声音大了起来，瞬间，他好像又变成了达卡王子。

“那巡洋舰是来攻击我们的，明白吗？我们被挤在了一个又窄又浅的港湾……没办法，我必须闯过去，然后我就……闯过去了！”

他说完这些，停了一下，接着说：“我主张正义和公理，无论在何时何地，我都会尽力让自己去做对大家有益的事，但同时，我也会做我应该做的‘坏事’。因为我知道，正义不等于要饶恕罪恶！”

尼摩船长说完，又沉默了一会儿，接着平静地说：“对我这人怎么看？先生们？”

史密斯向尼摩船长再次伸出了手，他神情严肃地说：“先生，您的错在于抗拒历史的发展，您想让过去的事重来。不过，也正是因为这样，您的错误才既有人称赞，也有人责难——是非对错只有上帝知道。但从情理上来说，是值得原谅的。因为一个人如果错误地认为自己要做的事都是对的，那么人们也许会攻击他，但也会尊敬他。所以，您即使有错，也不会失去别人对您的尊敬！您的名字和事迹会由历史来做出评判。历史喜欢英雄的故事，但同时也会谴责因为战争所造成的后果。”

尼摩船长的胸脯在极度起伏，他将手举向空中，喃喃道：“我到底是对了还是错了呢？”

“一切事物都是从上帝那里来的，以后还要回到上帝那里去！尼摩船长，您救了我们，我们将会永远怀念您！”史密斯说。

赫伯特走到了尼摩船长身边，他跪下身，吻了吻船长的手。

处在垂死中的船长，眼里噙满泪水，慢慢地说：

“我的孩子，愿上帝保佑你！”

[1](#)挪威北部、挪威海中的群岛。

第十七章

天亮了，但洞窟深处却是感受不到外面的阳光的。此时正是涨潮期，洞窟的入口已经被淹没了。

从“鹦鹉螺号”的天窗里射出的灯光照向了远方，照到的地方明晃晃的，也让浮船周围的海水泛起了粼粼波光。

此时，尼摩船长疲惫地倒在了长沙发上，想要抬他去“花岗宫殿”根本不可能。因为他已经说过，他要和他所有的珍宝在一起，要和“鹦鹉螺号”一起等待死亡的降临。

尼摩船长很长时间都处于失去知觉的状态，史密斯和史佩莱小心翼翼地观察着他的情况。他的体力衰退得特别厉害，曾经那么强健的体魄，如今却成了一个即将失去灵魂的躯壳，所有的生命寄托只存在于心脏和大脑里。

史密斯和史佩莱悄悄地商量着，看还有没有办法帮助这个垂死的人，即使无法挽救他的生命，但是否可以让他多活几天？可他也说过，他已经没办法救活了，他也不惧怕死亡。

“我们无能为力！”史佩莱说。

“是什么原因导致的呢？”庞库那夫说。

“很简单，生命衰竭！”史佩莱说。

“我想，是不是把他抬到外面晒晒太阳会好一点？呼吸一些新鲜空气，说不定就好了。”庞库那夫又说。

“不行！庞库那夫，这样做是没有用的。而且尼摩船长已经说了，他不会离开自己的船的。他在‘鹦鹉螺号’已经生活整整30年了，死也要死在这里的。”史密斯说。

尼摩船长好像听见了史密斯的话，他稍稍抬了抬身子，用微弱的，但别人却能听清的声音说：“没错，先生，我是要死在这里……这是我的愿望。不过，我现在还有一个请求！”

史密斯和其他人一起来到他的长沙发前，将他的坐垫重新放了一下，以便他能躺得舒服一些。

灯光穿过天花板上的花玻璃，将整个大厅都照亮了。

尼摩船长注视着他这博物馆般的房子，以及房子里的珍宝。他先是看了看隔板挂毡上的一幅幅画，那是意大利、佛兰德斯、法兰西和西班牙等大师的杰作；又看了看桌子上的那块大理石雕塑和铜像；最后又看了看隔板后半部分：那里有一架华丽的风琴，旁边有鱼缸，里面饲养着各种珍奇水族，以及海藻、植虫和珍珠……

在将这些看了一遍后，他将目光停在了一面墙上，那墙上刻着一句话，也是“鹦鹉螺号”的一句箴言：

“动中之动。”

在观看这些不管是人工还是大自然创造的珍品时，尼摩船长的眼神里始终包含着不舍，仿佛这一眼看完，就再也看不到了。

实际上，他常年居住在深海，所看到的宝贝绝不仅仅只有这些。

史密斯一直没有说话，他在等尼摩船长开口。

几分钟过去了，这几分钟，尼摩船长像是在回顾自己的一生，随即他转过头来，看着居民们：

“各位先生，你们想对我尽点义务吗？”

“船长，请您相信，如果能延长您的寿命，我们每个人都愿意献出自己的生命！”

“我相信你们，那么我希望你们能答应我最后一个愿望，也就算报答我为你们做的一切了。”尼摩船长说。

“我们答应您！”史密斯庄重地点了点头。

他这句承诺，已经代表了居民中的每一个人。

“各位先生，明天，我就要死了！”尼摩船长平静地说。

赫伯特正要开口，尼摩船长用手势阻止了他开口。

“明天我死了后，我不想被埋在其他地方，我要留在‘鹦鹉螺号’。这里将是我的坟墓，也是我同伴长眠的大海深处，我们要长眠在一起。”

居民们默默地听着。

“希望你们能尊重我的愿望，将这个洞口完全封住。‘鹦鹉螺号’如今是困在里面出不去的。不过，虽然无法出去，但至少会和我的遗骸一起沉入深渊。”

居民们毕恭毕敬地听着这个将死之人的遗言。

“我死了后，史密斯先生，请您和您的朋友离开‘鹦鹉螺号’，让这全船的珍宝做我的陪葬。你们现在已经知道我是以前的达卡王子了，那么我给你们留一件纪念品。那里有个保险箱，里面装的大部分都是我在做丈夫和父亲时的东西。那时候是当成可以玩赏的东西来看的，是些昂贵的金刚钻。除了这些，还有一些是我和我的朋友在海里搜集到的珍珠。这些财宝，我希望你们以后能好好利用。史密斯先生，我相信你们，相信你们不会因为这些财宝而惹上祸端。等我上了天堂后，我还是会参加你们的事业的，我相信你们的事业一定会为人类造福。”

尼摩船长说完这些，也许是因为太累的缘故，他不得不休息了一会儿，接着又说：“你们明天在将保险箱拿走后，一定要离开大厅，并关上门，然后去‘鹦鹉螺号’的甲板，将中舱口放下，将整个船关好。”

“船长！我们一定会按您的话去做的！”史密斯说。

“出去时还坐你们来时的小船。不过，在离开‘鹦鹉螺号’之前，一定不能忘了在船尾的吃水线上，是有两个大旋塞的。你们要把旋塞打开，在海水灌进贮水槽之后，‘鹦鹉螺号’就会逐渐沉到水底去的，我也就能躺在大海深处了。”

尼摩船长在看了史密斯一眼后，像是明白他在想什么，接着又加了一句：“不要害怕，你们只不过是掩埋一个尸体而已！”

史密斯和同伴们都没再说其他的话，因为尼摩船长已经交代了他的后事，他们也就没什么可说的了，只能照办。

“答应我了吗？诸位先生！”尼摩船长最后问。

“我们一定按您说的办！船长！”史密斯说。

尼摩船长向他们做了个表示感谢的手势，接着让他们暂时离开一下，说他要休息几个小时。史佩莱想留在他身边陪他，怕他突然离世，但他却拒绝了，还说：“我会活到明天的！先生！”

居民们离开了那间像博物馆一样的房间。在经过书房和餐厅后，他们来到了一间装着电动仪器的机房。这里的仪器不仅能供应整个山洞的照明，而且还能供应“鹦鹉螺号”的机械动力。

“鹦鹉螺号”原本就是一个奇迹，但它的内部却有着更多的奇迹，连史密斯看了都惊讶不已。

居民们登上了那个高出水面七八英尺的平台，看见了一个大圆孔，圆孔外镶嵌着一块厚玻璃凸透镜，是向外透射光亮的地方。圆孔后面是舵轮舱，是“鹦鹉螺号”在海上航行时，舵手掌握方向的地方。而从这些机械设备中可以看出，在航行中，电灯光能照得很远的。

史密斯和伙伴们默默地看着这一切，刚才听到的故事，已经深深地印在了他们的脑海里。想到多次帮助他们，仅仅只结识了几个人就要死了，每个人的心里都有着说不出的难过。

以后不管后人会如何评价他那不平凡的一生，他这个达卡王子都是永远不会被人忘记的。

“真是太了不起了！想不到他会在海底生活这么多年。难道他觉得只有在海底才能得到他需要的宁静吗？”庞库那夫说。

“如果能坐上‘鹦鹉螺号’，我们一定会离开林肯岛，去有人的地方的。”阿埃童说。

“天啊！我可不坐这样的船。在水底，打死我都不干，我只希望在水面上航行。”庞库那夫大声说。

“庞库那夫，我觉得像‘鹦鹉螺号’这样的潜水艇，肯定很好驾驶，也很容易让人摸透习性。而且在海底里不怕暴风雨，也不怕撞船。即使在几英尺深的大海里，也会像在湖里一样平静。”史佩莱说。

“也许是这样，可我情愿驾驶装备齐全的船在海面上风里来雨里去。我总觉得，船就应该在海面上行驶，而不是在海底下走！”庞库那夫又说。

“朋友们，我们不用讨论潜水艇，‘鹦鹉螺号’不是我们的，我们没权利处理它，何况我们也不能去利用它。因为洞窟出口已经被上升的玄武岩堵住了，‘鹦鹉螺号’也不可能驶出洞。更重要的是，尼摩船长的愿望是和这艘船一起葬身海底，他说出的愿望就是我们要执行的法律，我们必须按照他的要求去做。”史密斯说。

他们聊了很长时间，然后去了“鹦鹉螺号”里面，在吃了一些东西后，又回到了尼摩船长躺着的房间。

尼摩船长之前和他们在一起的时候，曾陷入虚脱状态，但经过几个小时的休息后，他的精神恢复了，眼睛又熠熠发光，甚至嘴角还挂着一丝笑。

居民们围在了他的身旁。

“诸位先生，我时常观察你们，你们每个人都勇敢又诚实，为大家着想。我以前尊重你们，现在仍然尊重你们。让我和您握握手吧，史密斯先生！”

史密斯伸出手，和船长的手紧紧地握在了一起。

“非常好！”尼摩船长喃喃道。

随即他又说：“我的事情已经说了很多了，现在要和你们说说你们住的林肯岛的事情。你们想过要离开这里吗？”

“想，可我们也想回来，船长！”庞库那夫急忙说。

“是回去后再回来吗？庞库那夫，我知道你非常爱这个岛。因为你们的努力，让这个岛变了样，你们是这个岛上的主人！”尼摩船长笑着说。

“船长，我们希望这个岛能并到美国去，因为它所处的位置在太平洋上非常有利，我们想把它开辟成一个港湾。”史密斯说。

“你们是一群为祖国着想的人，先生们。你们为了祖国的繁荣富强一直在努力。做得好！一个人应该活在祖国，死在祖国！可我.....我死得离最爱的人太远了！”

尼摩船长的话里有着深深的遗憾。

“还有什么需要我们转达吗？有没有什么东西要我们带给在印度深山里的朋友？”史密斯也有些激动，动情地说。

“没有！史密斯先生，我没有朋友，认识我的人都以我早就死了！不说这些了，谈点你们的事吧！寂寞和孤独很可怕，也是很多人都无法忍受的。我曾认为可以独自生活……因此，想办法离开林肯岛，回到家乡和亲人面前吧！我知道海盗们已经将你们造的那只船毁了。”

“我们还想再造一艘更大的船，这样就能将我们带到最近的陆地了。不过，就算我们回去了，终有一天，我们还是会回来的，因为我们留恋这个地方，这里有很多东西是我们不想忘，不能忘的。”史佩莱说。

“比如说，我们在这里认识了您——尼摩船长！”史密斯接了一句。

“这里曾是我们唯一能安家的地方！”赫伯特补充说。

“我要长眠在此，如果……”尼摩船长没有把话说完，停了片刻后，他对史密斯说：“史密斯先生，我单独和你说几句行吗？”

其他人尊重船长的意见，退了出去。

史密斯和尼摩船长只谈了几分钟，便又将大家叫了进去。不过，史密斯没有把尼摩船长和他说的话说出来。

之后，史佩莱精心地照顾着尼摩船长。而尼摩船长也用尽全身的力气，和虚弱的身体做着抗争。

这一天过去了，居民们没有离开“鹦鹉螺号”一步。时间再次从白天到了黑夜，不过在洞窟里，他们却是没有白天黑夜之分的。

虽然死期将至，但尼摩船长并没有丝毫的痛苦表情，整个人都很平静，只是那端庄高贵的面容变得苍白，没有一点血色。在生命逐渐消逝

的过程中，他不时地喃喃着，发着呓语，说的全都是他以前经历过的一些事，慢慢地，他的四肢开始发凉。

偶尔，他也会和围在他身边的居民说话，或者是露出一丝微笑，而那丝微笑，也一直保持到了最后……

午夜时分，尼摩船长用尽全力将双臂交叉，想必是想死后也保持这个姿势。

差不多深夜一点钟的时候，他的眼睛又变得熠熠生光，然后喃喃了句：“上帝！祖国！”便永远地闭上了眼睛，安详地离开了。

史密斯弯下身去，送他离开。那位曾经的达卡王子成了历史，而现在，这位尼摩船长也将成为历史。

赫伯特和庞库那夫忍不住号啕大哭起来，而阿埃童只是在一旁默默地流泪。那普跪在史佩莱身边，像座雕塑，一动不动。

史密斯将手放在死去的尼摩船长头上，庄严地说：“让我们为死去的恩人祷告吧！但愿他的灵魂能回到上帝那里！”

几个小时后，居民们实现了他们的诺言，做好了尼摩船长临终前托付给他们的事。

史密斯和他的伙伴们，拿着恩人尼摩船长留给他们的东西——装着亿万珍宝的保险箱，离开了“鹦鹉螺号”。

他们离开前，躺着尼摩船长的房间依然灯光灿烂。

他们小心翼翼地关上了房门，随即又将通向甲板的铁门严实地关

上，以便让水透到“鹦鹉螺号”里去。

最后，他们跳上了系在潜水艇上的小船，然后将小船划到了“鹦鹉螺号”的船尾，将船尾吃水线附近的两个为了让船下沉而设置的大旋塞打开。

“鹦鹉螺号”缓缓地下沉，接着就不见了。

居民们眼睁睁地看着它下沉，船上的灯光顿时照亮了周边的海水，很快，洞窟又变成了漆黑一片。

当被灯光映透的海水变黑后，那艘神奇的“鹦鹉螺号”，成了它神奇的主人——尼摩船长的棺材，永远地沉入了海洋的深处……

第十八章

天亮时，居民们已经回到了洞窟的出口，一路上没人说话。为了纪念尼摩船长，他们给这里取名为达卡洞。此时正值退潮，虽然海水冲刷着船身，但他们还是很容易地从拱形洞口穿过去了。

庞库那夫、那普和阿埃童又将船拉回洞内，放在了洞壁边的沙滩上，这样就不怕小船受到海水冲击了。

夜里暴风雨就停了，在他们走出洞口时，也只有很小的几声雷声，随即就消失了。虽然没有了雷雨，但天空还是阴沉得可怕。对南半球来说，10月份是春季的第一个月。看情况，这个月的天气都不怎么好，因

为风向的位置发生了变化。

史密斯带着同伴们离开了达卡洞，径直向牲畜栏走去。那条从达卡洞接上来的电线，那普和赫伯特一路上都收了起来，留待以后再用。

从达卡洞到牲畜栏，居民们也很少说话。

10月15日夜里发生的一切，一直浮现在他们的脑海。尼摩船长，那个在危急之中时常帮助他们的陌生人，那个他们想象中有着超凡能力的人，此刻再也没有了，永远地消失在了人间，和他的“鹦鹉螺号”永远地沉入了海底。

居民们一下子发现，他们比任何时候都孤单。他们时常梦想、期盼遇到的神秘力量也随着那人的消失而不存在了。这种想法不要说别人，就连史密斯和史佩莱都有。

差不多早晨九点钟的时候，他们回到了“花岗宫殿”。

原来他们就决定要加速造船，这次史密斯更是让大家投入全部的时间和精力来做。因为对他们来说，未来的一切都是无法预料的。如果他们拥有了一只坚固的船，那么就是在天气不好的情况下航海也是可以的。而且如果船不是很小，就是长时间航行都没有问题。

居民们决定，在将船造好后，他们即使不马上离开林肯岛，也会去太平洋波利尼西亚群岛的小岛，或者是去新西兰海岸；即使不去那些地方，岱波岛他们也是一定要去的，要把阿埃童在林肯岛的事情写个纸条留在那里。

这项工作他们必须做，而且是越快越好。因为苏格兰游船即使已经来过，也可能会再来。在这点上，他们一定要非常重视才行。

于是，他们的造船工作又紧锣密鼓地开始了。史密斯、庞库那夫、阿埃童在那普、史佩莱和赫伯特的协助下，不停地工作着。除非有更重要的事，他们很少停止和休息。

还有一个原因在催促着他们，那就是他们必须赶在秋分刮风暴之前去岱波岛，否则一旦刮起来就没办法去航海了。这也就是说，他们必须在五个月内将船造好，这样才能保证3月初船能下水。

于是，居民们一刻都不停歇了。好在那只“飞速号”双桅船上的索具都被他们保留下来了，所以他们不需要制造这些，只需造船身就行。

1868年的整个年底，他们几乎什么事都没干，一直在进行着这项工作。两个半月之后，船上需要的肋材放好了，第一批铺板也铺成了。此时他们才看出史密斯这船设计的优点来，并觉得下海航行时，一定会非常好。

庞库那夫的工作非常积极，遇到同伴拿枪去打猎，他就要发牢骚，觉得不该浪费时间。不过，为了迎接即将到来的冬天，“花岗宫殿”必须储备相当数量的食物才行。但这也引起了庞库那夫的不满，只要看见有人离开“造船工场”，他就不开心，甚至赌气。不过他的赌气方式就是自己越发地卖力，一个人干六个人的活。

这个夏天，天气一直不好，有几天甚至暑热难耐，只有来上一阵狂风暴雨，才会舒服一些。不过，接连的电闪雷鸣让他们很不舒服。没办法，这是赤道地区特有的天气。

1869年1月1日，林肯岛迎来了空前的暴风雨，荒岛上好几次都响起了雷击声，许多大树，甚至格兰特湖南岸的那些用来覆盖家禽场的高大

榆树，也有一棵被击倒了。

为什么会出现这么恶劣的天气？和地心的变化、地底的变动有没有什么关系呢？史密斯觉得是有关系的，因为当暴风雨来临时，他发现火山复活的征兆又出现了。

1月3日一早，赫伯特打算去给野驴套缰绳，在他刚刚爬上观望壁时，就发现火山顶上冒起了烟雾。他立刻返回去告诉了大家，大家马上出去观看。

“天啊！这家伙不是只冒水汽了，是开始冒烟了！”庞库那夫大声说，丝毫没意识到危险的降临。

不过，他的这句话却准确地表达了火山口的变化。三个月来，火山口一直喷的是水汽，虽然喷出的水汽有时候浓，有时候淡，但始终只是内部矿物质沸腾引起的。可此时喷的却是像柱子一样的灰色烟雾，烟雾底部的宽度达到了300多英尺，上升高度达到了700英尺。烟雾散开的形状像极了一个大蘑菇。

“有火苗了！”史佩莱说。

“这火苗我们可没办法扑灭！”赫伯特说。

“应该把这火山推倒！”那普说得一本正经。

庞库那夫大笑起来。

“那普，说得太好了！这工作你做最合适。”

史密斯一直默默无语，他向前走了几步，久久地注视着富兰克林山

山顶火山口冒出的浓烟，随即又倾听了一会儿，他听到了来自远方的隆隆声。他轻轻叹了口气，走到大家面前，神情严肃地说：

“没错！朋友们，我不能再隐瞒你们了，我们这里要发生重大变故了，火山内部不仅在沸腾，而且已经起火，我们马上就要遭受火山喷发带来的危害了。”

“史密斯先生，那我们就等它喷发吧！喷发得好，我们还可以给它鼓掌，我觉得我们完全没必要为这件事紧张、操心！”庞库那夫说。

“事情可没你想得那么简单。古时候岩浆的出口现在还在，那时候是向北边流的，可是……”

史密斯还没说完，史佩莱就接着说：“可是对我们没有一点好处，最好不要喷发！”

“这哪里说得明白？说不定火山里还有什么宝贝呢，一下子把它喷出来了，我们就可以拿来用了。”庞库那夫毫不在乎。

史密斯摇了摇头，他好像预感到这种现象并不像庞库那夫说得那么简单、轻松，而是会给他们带来很大危害似的。

他觉得即使火山口的位置决定了岩浆不会直接流入林肯岛的森林和他们开拓的地带，但火山喷发还是会带来一些连锁反应的，特别是火山喷发所引发的地震。

林肯岛地质结构很复杂，比如有些是玄武岩，有些是花岗岩；北边是坚硬的熔岩，南边是松软的土地……这样不同的地质，很难将它们紧密地融合起来，非常容易引发崩裂。所以即使岩浆溢出不会造成灾祸，但因为大地结构发生改变会导致荒岛解体，后果不堪设想。

阿埃童趴在地上，将耳朵贴在地面，好一会儿才说：“好像是拉着铁链条的马车发出的声音，轰隆隆，轰隆隆的。”

居民们也都趴在了地上，认真地听了一会儿，果然和阿埃童说的一样，不是通常意义上的爆炸声。不过，在轰隆隆的声音中，好像还夹杂着一些轰鸣声，先是越来越大，接着又慢慢降了下来。如同地底下一会儿是狂风暴雨，一会儿又雨过天晴。

由此也可以说：这是因为中间管道太宽，水汽和浓烟在向外冒所发出的声音，应该不会发生爆炸。

“太好了！太好了！我们现在可以安心工作了！让富兰克林山的山顶尽情唱歌吧，让它冒烟、轰鸣、喷火吧！史佩莱先生，今天大家都要参加工作，我们要开始装龙骨了，恐怕长十二条胳膊都不够用。等到我们的新船造好后，我觉得还是用原来的名字‘长风破浪号’比较好，是不是？我打算两个月之内，让我们新的‘长风破浪号’在气球港下水，反正我们现在一分钟都不能浪费。”庞库那夫大声说。

在庞库那夫的叫嚷下，大家都去造船厂装内龙骨。内龙骨他们用了很厚的木料，因为它是船的底部，需要将船身和肋材牢牢地连接在一起，所以这项工作特别重要，大家必须都参加。

1月3日这天，由于大家都忙着装内龙骨，也就没再讨论火山的事情。而且从“花岗宫殿”下面，他们也看不到富兰克林山。不过，这天的天气原本很晴朗，但太阳却有两次都被阴影遮住了。这阴影不是阴云，必定是浓烟经过了林肯岛上空，而风也将水汽刮到了西边。

史密斯和史佩莱注意到了天空的异样，这说明火山复活还在继续。

他们两个人又讨论了一些事情，但也没停下手里的工作。不管怎么说，他们现在最紧要的工作便是造船。如果发生变故，他们有了船，也就有了保障，而且很可能这船将来会成为他们的避难处。未来不可预知，谁又能知道会发生什么呢？

晚饭后，史密斯、史佩莱和赫伯特又向观望壁高地爬去。此时，天已经完全黑了，四周一片黑暗，但他们还是可以看出，火山口里升起的不仅有水汽，还有烟雾，甚至还带有火焰和一些白色物体。

“火山口里喷出火了！”赫伯特说完，比其他两人更快地跑上了高地。

富兰克林山离观望壁高地约有6英里，此时，它正像一支点燃的火把。由于山顶浓烟四起，浓烟中还夹杂着熔渣和岩石灰烬，所以那火光就显得尤为微弱。不过即使这样，整个荒岛还是被笼罩在了一片红光之中，那红光也映照在了高岗的树上。

很快，水汽随着旋风上升，像是要将天空遮住，只隐隐能看到几颗星星在微微地闪烁。

“变化太快了！”史密斯说。

“很正常！火山复活的时间并不短。你没忘吧，赛莱斯，我们满山寻找尼摩船长时，曾看到它在冒出蒸汽，那是在10月15日前后吧！”史佩莱说。

“对，是在两个半月前！”赫伯特赶忙说。

“所以说，实际上那山底下的火已经燃了有十个星期了，现在出现这种情况并不稀奇。”史佩莱说。

“你有没有感觉到地面在运动？”史密斯问。

“有！感觉到了一些。不过我想，这离地震还远着呢！”史佩莱回答。

“我不是说现在已经受到了地震的威胁，希望上帝保佑，不要发生地震。我们先抛开地震。现在的震动，是因为地心的火焰燃烧到了一定的高温。打个比方，如果地壳是锅炉的锅身的话，那么在蒸汽的压力下，锅身会发出颤抖，现在就是这种情况。”史密斯说。

“那火焰真美啊！”赫伯特突然大叫。

果然，有串火花直接从火山口喷了出来。虽然火花上还有水汽，但那蜿蜒上升的火舌以及无数的火星正向四周发散开来，让浓烟化作了一道白色粉末，飞出烟雾范围。随后，还有一连串的爆炸声，像极了机关枪在扫射。

三个人在观望壁的高地上一直待了近一个小时，这才慢慢地走下海滩，走向“花岗宫殿”。一路上，史密斯都在想着心事，想得出神。史佩莱问他是不是担心火山喷发，会直接或间接地给林肯岛造成危害。

史密斯说：“有这方面的原因，但不仅仅是这个原因！”

“我想，我们的最大灾难，就是能让荒岛崩裂的地震。我觉得其实也不用害怕，因为火山出口还算通畅，水汽和岩浆都能喷出来，应该没事。”史佩莱说。

“是的，不过我并不是担心地下气体膨胀引起地震，我怕的是别的原因引起的灾难！”史密斯说。

“你是指什么？亲爱的赛莱斯。”

“现在还不能完全肯定，等我再考虑两天。过些天，我想去山里看看，到时候就知道了。”

史佩莱没再说话。

这一晚，虽然火山在喷发，而且声音越来越响，爆炸声甚至传遍了整个荒岛，但很快，“花岗宫殿”的居民们还是进入了梦乡，他们太累了。

1月4日、5日、6日，接连三天，他们都在忙碌地工作着。史密斯没再说什么，只是投入全部精力去工作。此时，富兰克林山上已经覆盖上了烟雾，烟雾里夹杂着岩石，在喷射出来后又落回到了火山口。

庞库那夫看到这种场景，开玩笑地说：“看，那个大家伙在玩球，就像个魔术师一样。”

喷出的物质掉回了火山口，由此可以看出，内部压力使岩浆上涨了，不过还没涨到齐火山口。东北方向的部分缺口处能看到，岩浆还没向北部山坡流。

造船任务越来越紧迫了，但岛上的其他工作却又不能不做。比如牲畜栏里的莫伏鹿羊和山羊，他们必须饲养。虽然大家让阿埃童在1月7日的时候去了那里，因为那里他最熟悉，但他一个人还是很难忙得过来。

这天，史密斯对阿埃童说：“我和你去吧！”

这让庞库那夫和其他人都很吃惊，庞库那夫说：“史密斯先生，工期就要近了，你一去，就少了两个人了。”

“明天我们就回来。这次非去不可，我要去了解了解火山喷发的情况。”史密斯说。

“又是火山喷发，火山喷发！是的，火山喷发是大事，可我不在乎！”庞库那夫带着不满说。

即使庞库那夫再有意见，史密斯还是决定第二天去牲畜栏那边。赫伯特执意要跟史密斯去，史密斯怕又引起庞库那夫更大的不满，便没带赫伯特。

第二天一早，史密斯和阿埃童坐上由两头野驴拉的大车，向牲畜栏奔去。

森林上空有一股股的烟雾飘过，火山口不断有夹杂着各种杂质的烟雾腾空而起。空气中弥漫着带有不明颜色和重量的杂质。这些杂质，显然不是单纯从火山里喷出来的。它们有些是那种能悬浮的石粉状灰烬，有些则是淀粉状的灰色尘埃。这些灰色尘埃因为重量轻，有时候甚至能在空中飘荡好几个月。

1783年，冰岛火山喷发后，大气里有一年的时间都弥漫着灰烬，曾导致阳光都无法穿过。

不过，多数灰色尘埃状物质还是下降的。

史密斯和阿埃童快到牲畜栏时，突然，天空下起了火药一样的黑色东西，顿时，地面上，甚至树林和草场都铺上了厚厚的一层烟灰。好在有东北风，那些厚厚的烟灰很快又被吹到了海里。

“怎么会这样？真是太奇怪了，史密斯先生！”阿埃童说。

“情况越来越严重了。火山口喷出的浮石和尘埃物，都说明火山的地层正发生着激变！”史密斯说。

“有什么办法解决吗？”

“现在我们除了仔细观察发展情况外，没有什么别的办法。所以，阿埃童，你在牲畜栏做你的事，我去红河的源头看看，看看北山坡的情况。然后……”

“然后什么？史密斯先生？”

“我们去趟达卡洞，看看那里的情况。等着我，不到两个小时，我就回来了。”

史密斯说完就走了。阿埃童去了牲畜栏，一边等史密斯，一边饲养因为火山喷发而表现得极度不安的莫伏鹿羊和山羊。

史密斯爬上东部支脉，经过红河后，去了他们第一次发现硫黄泉的地方。

那里发生了很大的变化。他看到的不再是一股烟，而是十几股了。不断向外输送的烟雾，像是地下发生着活塞运动，将它们奋力推出来了一般。

看来，地壳已经无法承受那股惊人的压力了。

大气里有各种气体，甚至有水蒸气和碳酸气的混合物。这一带的地面大多是由长期岩烬粉末凝结而成的火山凝灰岩，史密斯站在这些凝灰岩上，感受到了地面的颤动，不过，他并没有发现新的岩浆。

在把富兰克林山的北山坡看了一遍后，他确定没有岩浆。

此时，火山口又喷出了火柱和烟柱，接着，岩烬像雹子一样落在了地上，但岩浆依然没有涌出火山口。看来，火山物质还没有上涨到管口最上端。

“情愿岩浆涌出来啊！”史密斯禁不住自言自语道。

“那样最起码岩浆可以从原路流出，不然谁知它们会不会重开一条道呢？那危险就不在这里了。还是尼摩船长看得清啊！不，危险不在这里！不在这里！”

史密斯嘴里一边嘀咕，一边向堤道走去。下面是鲨嘴湾的外围，在这里他可以观察很久以前岩浆喷涌的路径。当他看完后，他就能完全肯定，最近的一次火山喷发，已经是很久很久以前的事了。

随后，他又按原路返回。路上，他又仔细听了听地底下发出的轰隆声。有几次，他甚至还听到了类似爆炸的声音。

九点钟的时候，他回到了牲畜栏，阿埃童正在等着他。

“牲口饲料都弄好了，史密斯先生。”阿埃童说。

“非常好！阿埃童！”

“可是它们好像很不安！史密斯先生！”

“它们应该用直觉向我们报警。它们的直觉不会欺骗它们的！”

“您还要做什么吗？”

“阿埃童，我们马上走，带上一盏灯！”史密斯说。

他们将野驴的缰绳取下来，让它们在牲畜栏里自由行动，然后两个人出了牲畜栏，关上门，向西岸的羊肠小道走去。

走在铺满尘埃的路上，森林里的野兽，甚至连鸟好像都绝迹了。微风吹起地上的灰尘，他们瞬间被灰尘包围。两个人即使走得很近，也看不清楚对方。

因为怕被灰尘迷了眼睛，甚至钻进嘴巴、鼻子，他们捂住了双眼、鼻子和口腔。

没有了眼睛看路，他们只能摸索着前行，走得很慢。再加上空气的混浊，让他们连呼吸都困难起来。每走大约一百步，他们都要停下来喘息一会儿，所以当他们来到由玄武岩和斑岩形成的荒岛北岸顶峰时，已经是十点钟了。

史密斯和阿埃童继续往下走，每一步，他们都是按照狂风暴雨那夜走过的路前行的。好在这是白天，下坡也不像上次那么危险。而且因为岩石上铺满了灰尘，走起来方便多了。

很快，他们来到了海岸尽头，也就是40英尺高的分水线。史密斯还记得那分水线是慢慢倾斜到海面的。此时，潮水很低，冲击玄武岩石块的波浪因为有火山烟灰的原因，很是浑浊。

史密斯和阿埃童很快就找到了那个入口，在洞口前，他们停了下来。

“铁皮小船应该还在吧！”史密斯说。

“在这边呢！史密斯先生。”阿埃童说着话，很快就把他们放在拱门底下的小船拉了出来。

“上船吧！阿埃童！”史密斯说。

两个人上了船，微波将小船送到了洞窟底的拱门下。阿埃童用火刀和火石点着了灯，并将灯放在了船头，然后拿起桨划起来。掌舵的史密斯驾着小船，向洞窟驶去。

洞窟里已经没有从“鹦鹉螺号”里透出的光了，里面黑暗异常。当然，也许“鹦鹉螺号”上的灯并没有灭，但却没有一丝能穿过海底照进洞窟。

他们带来的灯光很暗，却也能引着他们沿着石壁慢慢前行。靠近外面的穹窿下一片沉寂，但当他们再往前走时，却听到了火山内部发出的轰隆声。

“是从火山里传来的。”史密斯说。

除了轰隆声，他们还闻到了一股强烈刺鼻的气味，这是一种带着硫黄味的水蒸气，几乎让他们透不过气来。但这种气味也告诉他们，这是由化学反应造成的。

“尼摩船长担心的事情终于发生了。”史密斯喃喃说着，脸色都变了。

“继续往洞底走！”他说。

“继续向前！”阿埃童说着话，拾起双桨，将小船划向了洞窟尽头。

差不多过了25分钟之后，他们来到了洞窟的尽头。

此时，史密斯站了起来，将灯光照在石壁上。这是隔开洞窟和火山中央通道的石壁。石壁到底有多厚？10英尺还是100英尺呢？不好估算。不过，从地底下火山发出的声音很清楚就能知道，这石壁应该不会很厚。

在看了石壁的下方后，他又将灯绑在了桨上，然后察看玄武岩石壁的高处。

就在此时，他看到了很多不很明显的缝隙。他贴近缝隙去闻，闻到了有刺鼻气味的东西从缝隙里渗了出来，散布在洞窟的空气里。有些地方的缝隙很大，甚至裂向了离水面二三英尺的地方。

史密斯沉吟着，忽然低声说：

“危险就在这里！太可怕了！危险就在这里！尼摩船长说得没错！真是太可怕了！”

阿埃童听到了，但什么话都没说。

史密斯向他做了一个手势，他便划起桨来。半个小时后，他们到了达卡洞口……

第十九章

在牲畜栏待了一天一夜，史密斯和阿埃童将一切都整理好后，便在1月8日这天回到了“花岗宫殿”。

史密斯当即召集大家，说林肯岛危险在即，谁都无法阻止这场灾难的降临，更无法脱离这种处境。

“朋友们，我们的岛不能和世界共存，早晚会毁灭，而毁灭的主因在岛的底部，我们无能为力！”

史密斯的语气显得非常激动。大家你看看我，我看看你，最后又看向史密斯，他们不很明白他说的话。

“到底怎么回事？赛莱斯！”史佩莱说。

“我会告诉你们的，或者说，我只是把尼摩船长那天单独和我说的话告诉大家。”史密斯说。

“尼摩船长！”大家一齐喊出了这个他们心里很神圣的名字。

“对！是他临死前最后一次提醒我们的！”

“最后提醒我们，最后提醒我们……看看，虽然他已经死了，但他还是会帮助我们的。”庞库那夫大声说。

“尼摩船长说了什么？”史佩莱问。

“朋友们，我想说的是，林肯岛和太平洋上的其他岛屿不一样。尼摩船长告诉我，它的基础终究会崩溃。”史密斯说。

“不可能的事！林肯岛绝不会这样。”庞库那夫不屑地嚷道。虽然他一直很尊敬史密斯，但在这点上，他绝不认同史密斯的说法。

“庞库那夫，听着！在听了尼摩船长的话后，我昨天又去了达卡洞，已经证实了他说得没错。那个达卡洞一直延续到了火山洞的底部。现在，隔着火山中央管道和洞窟的石壁上，已经有很多裂缝了。更严重的是，火山内部的硫黄气体已经从缝隙里渗出来了。”史密斯严肃地说。

“什么？”庞库那夫皱起了眉头。

“我发现这些缝隙是因为内部压力的作用造成的。玄武岩石的石壁正在慢慢裂开，迟早会出现一道大口子。这样，火山管道就和洞窟相通了。”

“很好啊！这多好，这样海水把火一扑灭，不就什么事都没有了吗？”庞库那夫打趣道。

“根本不是那样的。等洞窟里的海水进入沸腾的岩浆，那林肯岛就要炸上天了。如果地中海的海水灌进埃特纳火山，西西里岛也会这样的。”

居民们听到事态这么严重后，便不再说话了，他们明白危险马上就要降临了。

需要说明的是，史密斯并没有夸大其词。在通常情况下，火山几乎全在临近海或湖的地方，所以很多人会天真地认为，只要将水灌进去，很快就会让火熄灭，实际上却不是这样的。他们根本不明白这样会引发地球局部爆炸，就像正烧着的锅炉发生膨胀而爆炸一样。

火山内部原本就有几千度的温度，当水灌进去后，立刻就变成了气体，让能量增大到可以突破任何屏障的地步。

所以说，可怕的危险正威胁着荒岛。达卡洞能保持多久，林肯岛就能存在多久，这毫无疑问。而这个时间，不是几个月，也不是几个星期，很可能是几天，甚至几个小时。

居民们的悲伤可想而知，不过，他们的悲伤更多的不是因为自己即将遇到危险，而是他们赖以生存的岛，他们辛苦开辟的岛就要毁灭了。他们热爱这个岛，他们希望这个岛越变越好.....可现在，他们付出无数心血建立的家园就要消失了。

庞库那夫不想隐藏他的悲伤，眼里流下了大滴大滴的泪水。

在悲伤中，他们讨论了其他情况，研究了对他们有利的以及可能存在的机会。最后大家一致同意，一分钟都不浪费，全身心造船，因为这才是他们唯一能获得安全的途径。

于是，大家全部投入到了造船工作中。如今的播种、收割和打猎，还有什么意义呢？不管将来他们要在海上航行多长时间，仓库现有的物资都足够他们使用。现在最紧要的是，赶紧把船造好，在发生不可避免的灾难时，能让他们有个藏身之地。

造船工作在如火如荼地进行着。1月23日左右，新船的甲板铺好了一半。截至目前，火山顶端还没有发生什么大的变化，火山口依然只是在喷水汽、烟火和岩石。不过就在23日的晚上，火山里的岩浆从火山口流了出来，瞬间覆盖了另一个帽状火山锥。随即，居民们听到了一阵天崩地裂的声响。他们开始还以为是荒岛爆炸了，急忙从“花岗宫殿”跑了出来。

此时是深夜两点钟。

天空像是着了火般地被映红了。那1000英尺高、亿万斤的火山锥被抛向了地面，整个林肯岛都颤抖起来。幸好火山锥是偏向北方的，所以便落在了大海和凝灰岩平原上。

火山口变大了，火焰喷出天空，将整个林肯岛上空映成了一片火海。同时，一股岩浆从另一个山顶像瀑布一样倾泻下来，像极了一只因装了太多水而溢出的花瓶。随着岩浆的外流，火舌顺着山坡一直往下滚。

“牲畜栏，我们的牲畜栏！”阿埃童大叫。

没错，岩浆是向牲畜栏方向流的。新的火山口正好向着东方，所以，林肯岛上最富饶的一些地方，像红河源头、啄木鸟林马上就要被毁灭了。

居民们一听阿埃童这么喊，马上向野驴的厩房跑去。他们牵出野驴，将大车套好，坐上大车向牲畜栏奔去。此时，他们只有一个念头，那就是赶快去牲畜栏，将那些牲口放出来。

差不多三点钟的时候，他们到了牲畜栏。此时，莫伏鹿羊和山羊在大声尖叫，声音里充满了恐惧。一股正燃烧的物质和岩浆已经从山坡倾向牧场了，一直流到了栅栏旁。阿埃童急忙打开大门，那些牲口顿时向四面惊慌逃去。

一个小时后，沸腾的岩浆充满了牲畜栏。

岩浆让横贯牲畜栏的河水成了蒸汽，房子全被烧光了，就连木栅栏也一根没剩，曾经的牲畜栏此刻变得面目全非。

居民们无法阻止这样的灾难，想反抗简直就是个笑话。这样的自然

变化，人们无能为力。

天已大亮，这天是1月24日。

史密斯和大家还没有回“花岗宫殿”，他们想在回去前弄清楚那已经泛滥的岩浆将要流向什么方向。富兰克林山的地势是向东海岸倾斜的，虽然那里有啄木鸟林隔着，但还是无法阻止岩浆洪流流向观望壁高地。

“也许格兰特湖能给我们保护！”史佩莱说。

“希望这样吧！”史密斯并不乐观。

居民们想去火山锥坠落的那片平原，但岩浆却挡住了他们的去路。岩浆分成两路往下流，一路顺着红河河谷流，一路顺着跌水河河谷流。凡是岩浆流过的地方，那里的河水都蒸发了。

想要跨过那些岩浆洪流看来已经不可能，他们只能返回。

没有了顶的火山，已经完全变了样子，原来如同帽子般的尖锥形如今变成了桌子似的平面。新的火山口在东南两边各有一个喷口，岩浆正从那里不断地涌出来，形成了清晰的两股洪流。

新的火山口上冒出的烟尘，和密云汇合，笼罩着整个荒岛。雷声阵阵，让他们分不清到底是在打雷还是火山喷发发出的轰隆声。从火山口喷出的，燃烧着的石块高高地向天空飞射，差不多有一千多英尺高，最后在天空像烟花般地爆炸了。

天空有一道道闪电划过，像是在和火山比美。

早上七点，居民们所处的地方已经没办法待了，他们便去啄木鸟林

的边缘藏身。火山口喷射出的火石像雨点般落向他们周围，从红河河谷流下的岩浆很快也要将红河谷和牲畜栏的道路切断了。森林边缘的一排树木已经着了火，发出噼里啪啦的声响。

居民们从啄木鸟林出来，到了牲畜栏路上，他们慢慢地向安全方向走去，并不时地回头张望。岩浆以很快的速度向东流着，刚刚凝固的岩浆，又被流过来的岩浆淹没了。

此时，红河河谷造成的岩浆洪流危害越来越大，大部分森林都着了火，浓烟在树梢上空翻滚，岩浆将树干全部吞没了。

在离红河河谷半英里左右的地方，居民们站住了，他们现在必须要考虑生死存亡问题。

一直在想着这个问题的史密斯，此时知道，不管是多严重的问题，居民们都已经能够承受了，于是便说：“现在我们将面临两种可能，一种比较乐观，就是湖水挡住了岩浆，这样荒岛上至少能有一部分保留下来，我们也就有了活着的机会；另一种结果很糟糕，就是岩浆洪流漫过西遥森林，林肯岛上所有的草木都将不复存在。如果是这样的话，我们就只有在光秃秃的石头上等死了。如果荒岛再爆炸，那么我们会死得更快！”

“都已经这样了，我们还造什么船？”庞库那夫双手叉腰，跺着脚说。

“不管怎样，庞库那夫，我们都要撑到最后！”史密斯说。

在他们讨论的这段时间，岩浆的洪流已经将一些树木吞没了，甚至从森林里冲出了一条道来，一直到了格兰特湖边缘。这里有段高岗，如

果体积够大，是可以挡住洪流前进的方向的。

“马上行动！”史密斯说。

大家明白了史密斯的意思——如果他们能让洪流进入湖里，那么就还是有机会的。

居民们急忙跑向造船工场，将铲子、铁锹和斧头都带了过来，并用泥土和倒下的树木，在几个小时里筑起了一道堤坝。堤坝高3英尺，长100多英尺。

一口气干完这一切，居民们似乎觉得他们只用了几分钟时间。

当然，他们筑堤筑得正是时候，因为岩浆很快就要流到堤坝脚下，像洪水漫过河岸似的向堤坝涌来，来势汹汹，仿佛要将这唯一阻碍它们蚕食整片西遥森林的障碍吞食掉。

不过，他们筑的堤坝足够牢固，洪流在和堤坝相持了一段时间后，泻入了20英尺深的格兰特湖。

居民们怔怔地看着这场水火大战，一声不吭。

这是一场多么壮观的水火之战呀，任何笔墨都难以描绘其惊心动魄的场面。在那沸腾的岩浆流入湖里后，随着咝咝的声响，湖水瞬间化成水汽。水汽盘旋着升上天空，如同一个很大的锅炉被打开了阀门。

当然，湖水最终都要干涸，因为湖水就这么多，但岩浆依然带着白色的物质源源不断地流入湖里。

有岩浆在湖底凝固，堆积起来的岩浆凝固物高出了水面，但很快，

又有新的岩浆流了上去，瞬间又转化成岩石。这些岩石与湖中心一步步地接近，并在湖里堆起了一个岩石堤。

看来，这些岩石很快会将湖填满的。当然，湖水是根本无法泛滥了，因为岩浆已经占领了它们的地盘，它们只能化成水汽升上天空——那不甘心的滋滋声异常刺耳。

不过，水汽在升上天空不久，又像雨点般落进了海里。

湖里凝结的岩石越来越多，原本平静的湖面，现在也堆起了冒着热气的岩石，犹如一块上升的土地变成了宽广的浅滩。

现在不妨在脑海里描绘这么一幅画面：一阵飓风掀起了湖水，瞬间又被严寒凝结。这就是那股不可阻挡的洪流流入湖内三小时后的情景。

不过显然，水没能战胜火。但好在岩浆朝着格兰特湖方向流，这对居民们还是有利的，他们又可以多活几天了。观望壁高地、“花岗宫殿”和造船工场，都暂时保住了。他们现在需要用这几天的时间赶紧给船铺板，往船缝里填塞东西，赶紧让新船下水。因为如果荒岛爆炸的话，在岸上的他们肯定不安全，需要去船上避难，即使没有装索具，等船下水后再装也行。

“花岗宫殿”虽然还是安全的，但随时有可能崩塌。

从1月25日到30日，这六天时间，居民们一直在造船。六个人差不多做了几十个人的工作，他们片刻不休地工作着。火山喷发出的火焰，正好给他们提供了连夜工作的机会。

岩浆还在向外流，只是比以前少了一些。也幸好如此，因为格兰特湖已经被填满了，如果再有岩浆出来，肯定会流入观望壁高地，然后再

流到海滩上来。

不过，荒岛这边因为被挡住了，所以还好一些，而另一边的情形就完全不是这样了。

那边在第二股岩浆从跌水河的河谷流出后，因为地势相对平坦，河谷宽广，所以岩浆流过去完全没有遇到障碍。沸腾的岩浆很快就涌向了西遥森林。原本一年中这段时间的树木都很干，所以很快就着了，凶猛的火势一直蔓延到树干，树枝像是在给火上添柴，特别是那交叉在一起的树枝，更是加快了火势蔓延的速度，树顶部分的火势比树根的岩浆洪流速度更快。

森林里的美洲豹、野猪、水豚，以及各种飞禽走兽全都惊慌失措地向感恩河沿岸、气球港方向的花皂沼逃去。居民们此时连最凶猛的野兽都不怕了，他们离开了“花岗宫殿”，也没有在“石窟”里住，而是搭起了帐篷在外露宿。

史密斯和史佩莱每天都会去观望壁高地，有时赫伯特也会跟着他们去。但庞库那夫从来不去，他不忍心看那被彻底摧毁的庄稼。

这确实很让他们痛心，林肯岛上现在除了蛇盘半岛的尽头还留有苍翠的树木外，其他地方的森林全都没有了，到处都是被烟火熏烤得奇形怪状、黑漆漆的树桩。

被毁灭后的森林，甚至比花皂沼还要荒凉。岩浆的侵袭是无孔不入的，连那生机勃勃的野草，也被烧得精光，那原本绿茵茵的原野变成了光秃秃的凝灰岩石。

大海里再没有从跌水河和感恩河流入的水了。如果格兰特湖也干了

的话，居民们就没有淡水喝了。幸好南边一角的湖水没有被岩浆侵袭，使他们暂时还能喝上淡水。

火山坡屹立在西北方，如同一只嶙峋的巨爪抓着荒岛。这是多么令人恐怖的画面呀！居民们开垦的原本肥沃的土地上，曾种植着粮食，在泉水的灌溉下，他们收获了很多。可如今，那里变成了荒凉的山石。现在，他们除了原本保存的食物外，已经没有新的补给了，这是多么让他们感到痛心的事。

“太难过了，心疼死了！”史佩莱说。

“是的，史佩莱，希望老天爷能给我们时机，让我们造好这只船，船将是我们唯一的避难所。”史密斯说。

“赛莱斯，火山喷发已经没有原来猛烈了，对吗？如果我没看错的话，火山口虽然还在喷岩浆，但却比以前喷得少多了。”史佩莱说。

“喷多喷少并不是关键，关键是火还在山下燃烧呢。海水随时会灌进去。这就像船上有一群旅客，船突然失了火，又没办法扑火，火还在慢慢地向火药库蔓延……史佩莱，干吧！干活吧！一分钟都不能再耽误了。”史密斯说。

又是八天过去了，也就是2月7日的时候，岩浆还在向外涌，不过好在火山喷发只局限于原来的范围。史密斯担心岩浆泛滥到海边，这样造船工场就毁了。此外，居民们已经感觉到荒岛的颤动了，这让他们非常害怕。

已经2月20日了，即使他们不眠不休地造船，但离新船下水也还要一个月。荒岛能否还能保留到那时候？他们不知道。庞库那夫和史密斯

都说，在船身做好后，立刻让船下水，对于甲板、船舷、内部的木制品和索具，他们都可以等以后再补做。

这样至少能够让居民们在荒岛外有个可靠的避难之处。他们甚至还想，可以把船带到气球港去，这样就离爆炸中心远一点。因为一旦荒岛爆炸，他们放在感恩河河口的船，是很有可能被炸碎的。

有了这个想法，他们便更加集中力量做船身。

转眼到了3月3日了，他们算了一下，差不多再有十天，新船就能下水了。

这是居民们在林肯岛上的第四个年头。在这里，他们经受过无数考验，所以此时，他们还是满怀信心，充满希望。庞库那夫虽然因为林肯岛被毁而显得有些不开心，但此时，面对即将下水的新船，他还是高兴了不少。

没错，他已经将全部的希望都寄托在新船上了。

“史密斯先生，我们这船造得真是时候。现在正是夏天过渡到秋天的时候，到了秋分，我们不得已时，还可以把船靠在岱波岛，在那里过冬。虽然岱波岛不能和我们的林肯岛相比，不过……唉！真够倒霉的，谁知道会发生这样的事呢！”庞库那夫说。

“继续干活吧！”史密斯总是这么回答他。

于是，他们又埋头干起来。

又是几天过去了，有一天那普问史密斯：“主人，如果尼摩船长活着，还会发生这些事吗？”

“当然会！那普。”史密斯说。

“如果我说，肯定不会！”庞库那夫凑在那普耳边说。

“嗯！我和你想得一样！”那普说得一本正经。

情况变得严峻是在3月份的第一个星期，火山口再次沸腾，岩浆像一条条玻璃丝，流向荒岛，流遍了山脊。岩浆洪流从已经凝固了的凝灰岩表面流出，将第一次火山喷发后残存的几棵干枯的树干全部摧毁了。这次的洪流没有朝格兰特湖西南方向流，而是流过了硝甘河，进入了观望壁高地。

这次岩浆洪流带给居民们的打击更大，高地上的磨坊、内院的建筑物和厩房都毁坏了。受到惊吓的家禽四散逃去，多卜和狙布也表现出了惊恐，它们的直觉告诉它们，大祸就要来临了。

前面一次火山喷发，荒岛上已经死了很多野兽，一些没死的也躲到了花鳉沼地上，它们已经没有其他的藏身之处了。

当然，也有少数野兽逃到了观望壁高地，但此刻，连这最后的容身之处也没有了。岩浆洪流沿着花岗石壁边缘，向海滩倾泻下来，像瀑布一样——是发着火光的瀑布。

这惊魂的一幕无法用语言来形容。如果是在夜里，可以将它形容成尼亚加拉瀑布，不过这瀑布却不是水，而是上面是水蒸气，下面是沸腾的岩浆。

居民们不得不换地方，换到了最后的堡垒——新船。虽然船的上部缝隙还没填好，但他们还是决定让它下水。

下水的时间定在了第二天，也就是3月9日早上。庞库那夫和阿埃童已经做好了一切准备。

然而，就在3月8日的晚上，火山口喷射出了水蒸气，直冲3000英尺的高空，像一根巨大的柱子。随着这股蒸汽，居民们听到了惊天动地的爆炸声。

看来，事情一定是这样的：达卡洞的石壁因为受到气体压力，崩裂了。海水穿过火山中央管道进了火坑，随即又被蒸发成水汽。不过，火山口宽度不够，水汽无法排出，于是便发生了大爆炸。

爆炸声很响，就是在100英里之外都能听得清。岩石碎片飞进了太平洋，仅仅几分钟，海水便漫过了林肯岛的所有地方……

第二十章

林肯岛已经不存在了，唯一没被淹的还有一块地方，那就是30英尺长，20英尺宽，高出水面不到10英尺的孤石。

此处是“花岗宫殿”的全部废墟。高大的石壁崩塌成了碎块，几块较大岩石的堆砌，形成了这么一块陆地。富兰克林山的火山锥已经变成了两片，鲨嘴湾的熔岩峡口、观望壁的高地、着陆岛、气球港的花岗石块、达卡洞的玄武岩，甚至连远离爆炸中心的又窄又长的蛇盘半岛……一切都消失在了海洋上。

整个林肯岛，只剩下这块长形岩石了。而如今，它也成了六个居民

和一条狗的避难之所。

所有的牲畜全在这场巨大的灾难中死了，很多动物以及鸟类，不是被压死就是被淹死，没有活口，就连他们的猎狗也在这场灾难中被活活压死了。

史密斯、史佩莱、赫伯特、庞库那夫、那普和阿埃童，以及多卜，他们还活着。幸好他们当时正聚集在帐篷下，在荒岛被炸得粉碎，所有物体都像雨点般被甩出去后，他们也被抛向了海里。

在他们浮出水面后，看到的也就是这么一个石堆了。于是，他们游了过来，并在这里落了脚。

在这样一堆石头上，他们整整生活了九天。不幸的他们，如今只剩下遇难前从“花岗宫殿”仓库里带来的粮食，喝的是岩石低洼处的雨水。而倾注了他们全部精力制造的船，已经完全变成了碎片。他们离不开这堆石头，他们没有火，也没有取火的办法。

看来，他们只能等死了。

熬到了3月18日，虽然每天极尽节省，只吃能维持活下去的食物量，但他们还是只剩下够生存两天的食物了。

在这种情况下，所有的智慧和所学的知识，都已经没有用武之地了。现在，上帝掌握着他们的命运。

史密斯依然保持着他的沉着，但史佩莱已经开始焦躁不安了，庞库那夫更是在礁石上走来走去，无法驱散内心的怨气。赫伯特寸步不离地跟着史密斯，看着他，希望他能想出办法。那普和阿埃童比较镇定，因为他们只是在听天由命。

“太倒霉了，真是太倒霉了！如果能有个核桃壳将我们带到岱波岛也好呀！没有了，我们现在什么都没有了！”庞库那夫不停地发着牢骚。

“尼摩船长死得倒真是时候！”那普慢悠悠地说。

之后的五天里，他们更加节约了，每天只吃不至于饿死的量就行。他们的身体越来越弱，而赫伯特和那普已经有点精神恍惚了。

在这样的情况下，他们对生存还有希望吗？没有了！他们能有什么希望？他们会有机会吗？期待有船在他们的视线范围内出现吗？

他们很清楚，正常的船只不会到太平洋的这部分来的。如果正好有苏格兰游船去岱波岛接阿埃童，倒是不错的。可他们有这么好的运气吗？而且能指望这些吗？简直就是开玩笑。

再说，他们还没来得及给岱波岛送信，告诉阿埃童的地址。所以，即使“邓肯号”真去了那个地方，但船长在搜遍全岛后都找不到阿埃童，还会来纬度较低的这个地方吗？

不！不可能有这样的获救机会。他们只能在这堆石头上等待死亡的降临，等待饥渴要了他们的命。

躺在石堆上的他们，仅仅只剩下一口气了。周围发生了什么，有什么事发生，他们全都不知道。只有阿埃童有时会不由自主地用尽全力抬起头，绝望地看着空无一人一物的海洋。

3月24日清晨，突然，阿埃童向水平线上的一个黑点伸出了手。然后，他强撑起身体，跪在了地上，随即又站起来，像是在用手发什么信

号。

有只船在慢慢地接近这堆石头。

这只船看起来不像是漫无目的而来的。在蒸汽机的推动下，它飞快地向这堆石头驶来。其实，如果居民们能有精神去观察水平线的话，他们应该在几个小时前就发现它了。

“是‘邓肯号’！”阿埃童喃喃着，随即便倒在了石头上，不省人事。

.....

史密斯和伙伴们终于醒过来了，他们发现自己在一只游船上，而到底是如何死里逃生，又是如何在人的精心照料下醒过来的，他们一无所知。

但阿埃童的一句话，马上让他们明白过来。

“是‘邓肯号’！”他喃喃道。

“啊？是‘邓肯号’吗？”史密斯大喊一声，随即举起手来，大声说：“万能的上帝啊！您发了慈悲，将我们这些人保全了下来！”

没错，救他们上船的，正是“邓肯号”，也就是格莱拉弗爵士的游船。阿埃童在岱波岛上已经12年了，赎满了罪，所以，格兰特船长的儿子罗伯特便指挥“邓肯号”，奉命接他回国。

就这样，居民们被救了，并且要踏上回国的旅程了。

见到罗伯特·格兰特后，史密斯问：“格兰特船长，你们是去岱波岛，没找到阿埃童，在离开那里时到了这里吗？这里可在岱波岛东北方

向100英里以外呢。”

“史密斯先生，我们不仅是为了接阿埃童，也为了接回你和你的伙伴们。”罗伯特说。

“什么？找我们？”

“没错！我知道你们在林肯岛。”

“林肯岛？”史佩莱、赫伯特、那普和庞库那夫一起，惊讶地大叫起来。

“你知道林肯岛？航海地图上可是没有的。”史密斯说。

“我在岱波岛上看到了一张纸条，所以才知道的。”罗伯特说。

“一张纸条？”史佩莱更吃惊了。

“是的！是一张纸条，上面写着阿埃童和五名美国人的所在地。”罗伯特说着，拿出了一张标明林肯岛经纬度的纸条给他们。

史密斯在看了纸条后，发现字迹和他们在牲畜栏里看到的纸条上的字迹一样，连忙说：“是尼摩船长写的！”

“啊！一定是他驾驶我们的‘长风破浪号’，去了岱波岛并留下了这张纸条。”庞库那夫说。

“他冒险去就是为了送这张纸条！”赫伯特补充道。

“看，我没说错吧！尼摩船长就是离开了人世，也还是会帮助我们的。”庞库那夫说。

史密斯非常激动，看着大家。

“朋友们，愿仁慈的上帝能怜悯我们的大恩人尼摩船长的灵魂！”

说到这里，史密斯和其他居民一起摘掉了头上的帽子，喃喃着尼摩船长的名字。

随后，阿埃童把一只保险箱交给了史密斯：“给，保险箱在这里！”

原来，在荒岛下沉时，阿埃童冒险将保险箱保存了起来，现在也交给了史密斯。

史密斯被他的做法深深打动了，他一边叫着阿埃童的名字，一边对罗伯特说：“先生，这个被你们惩罚在岛上的罪犯，经过忏悔，已经完全改过自新了，成了一个诚实的人。当我和他握手的时候，我感到非常骄傲！”

此时，罗伯特才知道关于尼摩船长的历史，以及林肯岛上居民们的情况。

船上的人观测了这片浅滩，说它的标志以后将会在地图上出现，随即，船长罗伯特下令起航。

半个月之后，居民们回到了他们的祖国——美国。他们发现，在他们居住在岛上的几年里，那场残酷的战争已经结束了，而且真理和正义取得了胜利，国家又恢复了和平和宁静。

在林肯岛上居住过的居民们，将尼摩船长留给他们的那箱财宝中的大部分，在爱德华州买了一大片土地。又将财宝中一颗最好的珍珠，以被救回国的幸存者名义，送给了格莱拉弗爵士的夫人以示感谢。

之后，他们便在这块土地上劳动、生活，追求着一份平静的幸福。他们用开辟林肯岛的智慧，重新建了一个宽阔的聚居地，并用林肯岛及林肯岛上的那些地方来命名，比如给一条河取名叫感恩河；给一座山取名叫富兰克林山；给一条湖取名叫格兰特湖；给一个森林取名为西遥森林.....

这里，也成了一个陆地上的海岛。

史密斯和伙伴们，通过他们的智慧和双手，让这片海岛也繁荣起来。

在这里生活的人，老居民一个都不少，而且他们发誓要永远生活在一起。

那普就不用说了，还是跟主人在一起；阿埃童则经常过来和他们一起劳动；庞库那夫做起农活比做水手还顺手；赫伯特在史密斯的教育下，完成了他的学业；史佩莱则创办了一份《林肯岛先驱新报》，并使它成为世界上消息最灵通的报纸之一。

他们的陆上海岛经常有人来拜访，比如格莱拉弗爵士和他的夫人；约翰·麦盖尔船长和他的夫人玛丽·格兰特；罗伯特·格兰特和麦克·那布斯少校.....

总之，都是一些和格兰特船长以及尼摩船长一生有关的人。

他们生活得很幸福，也很满足，并和过去一样，团结友爱。

不过，他们永远也不会忘记那个岛，那个在他们一无所有时，用双手和智慧，用四年的时间，让他们变得应有所有的岛。

当然，现在那里只有一堆被太平洋冲击着的花岗石.....

那里是尼摩船长的坟墓！

（完）

笔记之一

通告

最英明之线

史诗

此处，我将今晨《联合国报》上登载的文章摘录如下：

120天之后，“积分号”宇宙飞船即将竣工。最伟大的历史时刻就在眼前，它将首次进入太空。1000年前，你们英勇的祖先统一了全球，建立了伟大的联合国。而今，你们面临着更加光荣的使命：我们所建造的玻璃电飞船，将喷吐着火焰，进入宇宙深处。而它此番进入宇宙就是为了完成将其他星球上的未知的生物从原始的蒙昧中解救出来，即为它们套上那充满理性之光的逻辑之枷。这是一种充满着数学般精确的幸福，如果它们还懵懂不知，我们的责任便是将这种幸福加诸它们。当然，武力的征服总是要在文字语言之后的。

因此，仅以全知全能者之名向联合国全体号码公告如下：

凡有能力者，都应竭尽所能撰写论文、史诗、宣言、颂歌及其他各类文章，赞颂这一威武、壮美及伟大之联合王国。

这些作品便是“积分号”将要运载太空的首批礼物。

联合国万岁，号码们万岁，全知全能者万岁！

我满怀激动地抄写下这一字一句，此刻，我的两颊仍灼烧似的发烫。我们要将这逻辑等式运用到浩瀚的宇宙之中，解放那野蛮的曲线，将它纠正成一条完美的直线，就像联合国这样的直线，这是一条神圣的直线！它英明、它精确、它睿智、它伟大！

我，即D-503，是“积分号”的设计师，也是联合国的数学家，与其他数学家一样，我的笔也写惯了数字公式，想用它来描述那富于动感的进军乐章，有点困难。因此，我就将我的所见所闻，所思所想，更确切地说，就是将我们的思想记录下来。对，“我们的”；这个意思准确多了。那么，就用《我们》来为这个笔记命名吧。我将用这个笔记记录下在联合国的美妙数学式生活。这样，记录本身就会成为一部赞美诗，是的，我非常确信这一点。

在这篇笔记接近尾声的时候，我的双颊仍然是滚烫的。此刻，我更像体会到了一个女子初次听到腹内胎儿的搏动的心情。它似我，但又不是我。我必须如母亲一般，将我的精力、我的心血全副交予它，日复一日，年复一年地滋养它，孕育它。最后，忍痛将它从我的躯体上撕裂下来，毕恭毕敬地交给联合国。

我已做好了准备，如同其他所有的号码一样，准备全力以赴。

笔记之二

芭蕾舞

和谐的四方形

未知数 X

春天到了。风吹了进来，它来自绿墙之外，从哪个不知名的田野里吹来，带着香甜的黄色花粉。这甜得发腻的花粉弄得我们的嘴唇也跟着干了起来，你不住地舔着它。现在，我在大街上遇到的每个女性（当然，也包括那些男性们）必然也有着这般甜的嘴唇。这么想着，多少有点影响我的逻辑思维。

但是，天空却不然！一片湛蓝，连一丝云彩都没有（古代人的鉴赏力真不可理喻。那种被吹嘘得天花乱坠的团团雾气，多么奇形怪状又毫无秩序。他们的诗人竟能从中获得灵感）。我只爱今天这样经过消毒的、完美无瑕的天空。如果我说，我们只爱这样的天空，我相信绝没错。在这样的日子里，整个世界仿佛都是用最坚固的、永世长存的玻璃烧铸成的，就像那道绿色大墙和我们所有的建筑物。在这些日子，你可以看到这蓝色世界的最深处，可以看到它们至今无人知晓的令人惊叹的方程式，这些你可以在最普通、最习以为常的事物中见到。

不过，瞧那天空！它依然湛蓝湛蓝的，没有一点儿云彩的影子（古

人的审美趣味是那般可笑，从那些既毫无价值的，又奇形怪状，甚至没有秩序可言的因水蒸气聚合而形成的团团雾气里寻求灵感），而我则只热爱今天的天空，哦，我也可以说是“我们”只热爱它。只有在这样的天空之下，整个宇宙才似用最坚不可摧的永久留存的玻璃所铸成的，就如同那绿墙一般。在这样的天空之下，我们便能深入到这蓝色世界的最核心，洞悉那至今我们未曾知晓的美妙方程式，而这些方程式我们在那些最普通、最平凡的事物中也能看得到。

下面的事就是最好的例子：今天早上，我在“积分号”飞船上照常工作，我无意间看了一眼机床：它们是那样清楚明了，调速飞球不停地旋转着；那发亮的曲柄按照规矩转着圈；平衡器骄傲地晃动着肩膀；钻头也有节奏地转动着，仿佛应和着无声的音乐节拍伴奏。在淡蓝色阳光的照耀之下，我突然间发现了一种难于言表之美，即这个庞然大物的机械芭蕾之舞，简直美极了。

紧接着，问题便来了。这美从何而来呢？为什么这场芭蕾舞如此美妙？随即我自问自答：因为这是一种非自由的运动，这场芭蕾舞意味着绝对的审美服从，这种服从是对理想的非自由状态全心全意的服从。若说我们的祖先，在人生最富于灵性的时候，也曾沉浸其中的话（例如，在秘密宗教仪式和军事行进之中的某些舞蹈成分），这仅代表着，人类天生便具有着非自由的属性，而如今的我们，只是有意识地……

我还没有来得及完成上面的话，联络机便发出了咔嚓的响声。我抬眼一瞧，是O-90，当然会是她。半分钟以后，她就会过来，同我出去散步。

可爱的O！我总觉得她的名字恰如其分，她的身高比母性标准低了10厘米，因此，她看上去显得圆滚滚的。不论我讲些什么话，她的粉红

色双唇都会变成O形来回答我的话。而且，她的手腕如孩童一般有着一道圆乎乎的肉褶。

当她进来的时候，我脑袋里的逻辑飞轮还在转着，因为惯性的作用，我便和她谈起了我的新公式，当然也包括那机器和舞蹈秩序之美。

“太美妙了，是不是？”我问。

“是的，简直妙极了……春天到了。”O-90脸上洋溢着柔美的笑。

春天！她居然说的是春天。女人哪！……我不想再说什么了。

我们在街上散步，街上有不少号码散步，因为今天是个好天气，这种时候，下午的私人时间号码们都用来散步。同往常一样，音乐塔铜管齐鸣，吹奏着《联合国进行曲》。无数个身着浅蓝色制服（这种制服是从古代的制服传承下来的）的号码们，整整齐齐地四人一排，有序地散着步。每个号码胸前都挂着一枚金色的胸章，上面印着用于区别他们身份的号码。而我——我们，我们这四人一排的小组合仅仅是这奔腾的大海中一朵小浪花而已。我左侧是O-90（如果在1000年前，写这篇笔记的某位留着长发的祖先，可能会可笑地称她为“我的”）；我右侧两个陌生的号码，一个是男性号码，另一个是女性号码。

天空瓦蓝瓦蓝的，我们的胸章上映着一个一个小太阳，我们脸上洋溢着微笑，没有一丝太阳照射不到的蒙昧存在。到处都是阳光明媚的，你明白吗？……仿佛周遭的一切都是由某种阳光般通透的物体所组成的物质一般。我们踏着铿锵的节拍：特拉塔塔塔，特拉塔塔搭，迈着铿锵有力的步伐朝着太阳光愈走愈高……

此时，我用早上在飞车站时的目光，开始打量眼前的一切，就像我

首次见到它们一样：每条街道都呈现出完美的笔直状态，在街道的两旁是锃亮的玻璃路面，而街道边上的透明住所也是美妙的平行六面体，以及由我们这些灰蓝色号码所组成的四方形的和谐队列。我觉得，仿佛不是前几代人的杰作，而是我，恰恰是我自己取得了与过去古老生活战斗的胜利，我才是这一切的创造者。此刻，我更像是一座高塔，我不敢随意呼吸，也不敢挪动自己的臂肘，就像整个墙壁、屋顶、机器都会跟着坍塌一样，瞬间灰飞烟灭。

然后，我的思绪闪回到几个世纪之前，显然，是通过对比，我联想到了在博物馆中所见到的一幕，那是一幅二十世纪的先祖们所拍摄的照片：一条大街，街上有很多杂着五颜六色的乱糟糟的人群、汽车、牲畜、广告、树木、禽鸟及其他色彩.....据说，这就是那时候的生活！

这些所谓的确实存在的景象让我吃惊不已！简直不可思议！因为觉得太荒诞了，我竟忍不住笑出声来。而我的右边也随之传来了笑声，仿佛呼应我的笑声似的，我扭过头去，看到了一个陌生女人的脸以及她那一排显眼的洁白牙齿。

“抱歉，”她说道，“你刚才打量四周的神情非常激昂，仿佛是传说中的上帝完成了创世的第七日。我觉得，你当时的神情甚至认为，我也是你创造的杰作。因此，我觉得十分荣幸.....”

她这么说的时侯，表情严肃，我甚至还能感觉出有某些尊敬的意味（可能她知道我是“积分号”的设计师）。但是我有些纳闷，她的眉头还是眼睛里有一种奇特的X，我有些捉摸不定，猜不透那到底是什么，一时之间也没法找到答案。不知为什么，我觉得有些窘迫，连忙用我符合逻辑的话解释我的举动。

“今天显然已经和二十世纪时的情形判若天渊了，它们之间存在着不可逾越的鸿沟……”

“为什么说是不可逾越呢？（多么洁白的牙齿啊！）鸿沟上是可以架桥的啊！你试想一下：和着乐鼓行进的军队、整齐划一的队伍——这些在过去也是存在过的，所以……”

“是的，确实是这样！”我大声说道。

真是不谋而合啊。她所说的话跟我在散步前所记述的话居然惊人的相似。你懂吗？甚至连思想结构都相同。这是因为，我们中的任何一个都不是“单独的个体”，而是“整体中的一员”，因此，我们是如此的相似……

她说：“你也这么认为吗？”

我见到她那两道眉毛，它们高高挑起，就像字母X上端的两道线一样。我有点不知所措了，我向左边看了看，又向右边看了看。我的右手边是她，颇长、苗条、柔韧，又灵活得像一条马鞭。她是I-330号（我终于看清了她的胸章）。我的左手边是O，她又是截然不同的风格，浑身上下都是浑圆的，而手腕上还有那孩童般的肉褶；我们这排的最后一个那个陌生的男性号码。他有些佝偻，身体就像字母S。我们这四个人真可以说是迥然不同……

右手边的I-330，似乎看出了我眼中的迷惑，随之叹了口气，说道：“是呢，唉！”

说实话，这声叹气正符合我的心境，但是在她的脸上，要不就是在这声音里，我总觉察出有某些说不出的异样来。

我一反常态，言辞激烈地说：“有什么可‘唉’的呢？科学在进步，如果现在办不到，或许再过50年，100年……”

“那时候连大家的鼻子……”

“是的，就连鼻子，”我几乎大喊起来，“若是有差别，就会有妒忌心……比方说，有人是蒜头鼻，而有的人则是……”

“是呢，你的鼻子依照古代的说法，应该属于古典类型了。但是你的手……不，请不要抽回去，伸出来，让我看一看！”

我最不想让别人盯着我的手看。手上覆盖着浓密的汗毛，这非常不成体统，是返祖的现象。我将手伸了出去，假装无关紧要地说：“跟猿猴差不多吧。”

她仔细看着我的手，又看了看我的脸，说道：“这很有趣，简直是最古怪的和弦。”她不住打量着我，好像在掂我的分量似的，此时眉梢又微微挑起。

“他已登记我了。”O乐悠悠地张着粉红色的圆嘴，笑着说道。

我有些不高兴了，我该怎么说她呢？她还不如不说话，现在显然她有点混乱了。这个可爱的O，她的语言速度总是计算错误，正确的算法应该是语言的秒速小于思想的秒速，而她恰恰相反。

在大街尽头的蓄电塔上，钟表敲响了17下。这表示私人活动时间结束了。I-330和S形的男性号码一起离开了。看到他的脸觉得有让人尊敬的意味，我又发觉有点熟悉，但是却想不起来在哪里见到过他。

临分开的时候，I-330又露出她那令人不解的微笑：“后天，请来112

号礼堂找我。”

我耸了耸肩膀说：“若是我恰好被分配到那个礼堂的话……”

她居然用非常肯定的语气说道：“你会收到通知单的。”

这个女人让我觉得十分不快，她恰如一个偶然闯进的因子，钻进方程式干扰解题的进程，而你却无法除掉她。终于能和亲爱的O单独待着了——虽然时间并不多了。我牵着她的手，我们一起走过了四条街。到了街口该分手了，她要向右拐，而我则要向左拐了。O温柔地抬起她那晶莹透彻的蓝眼睛，望着我害羞地说：“此刻我多想去你那里，拉下窗帘……就在今天，就在这时候……”

她真可笑。但是我又能怎么回答呢？明明昨天她已经来过了。她非常清楚，我们的下一个性日期是在后天。而这恰好能说明她的思想有时候又会超前很多，就如同给发动机提前点了火一样。

我们分开时，我吻了她的眼睛两次……不，应该说是三次，那令我着迷的、美丽的、湛蓝的、没有一丝阴霾的、清澈的蓝眼睛。

笔记之三

外套

绿墙

守时戒律表

我将昨天的笔记重新看了一遍，我发觉里边的内容还不够清楚。也就是说，这一切对我们来说是明白清楚的，但对你们来说则未必。你们，是我所不知道的读者，谁知道“积分号”将会被送往何处？那伟大的人类文化史，没准你们仅仅读到了900年前的位置，就如同我们的祖先一样。没准你们并不明白一些基本的知识，比如，守时戒律表、私人活动时间、母性标准、绿墙、全知全能者。可能你们会觉得这些说法十分奇怪，让我来谈这些，虽然有点滑稽，但也不是三言两语就可以说清楚的。这就像是让一位二十世纪的作家，将自己小说中的名词，比如外套、套间住房、妻子等词语解释清楚一样困难。但是，若他小说的读者是那些更古老的原始人，他就必须要说清楚什么是外套。

我可以想象，当原始人看到“外套”这个词，他会在心里琢磨着：“这是做什么用的？只是个累赘罢了。”我相信，如果我这样说，自从200年战争结束之后，我们中的所有人都没有走出绿墙之外，你们也会像野蛮人一样觉得不可思议吧。

但是，亲爱的读者们，你们可以就此动一下脑筋，设想一下。因为这是非常好的决定。我们都知道，整个的人类历史，就是由游牧生活逐渐向定居生活的过渡。所以说，我们最终的生活方式就是定居，而（我们的）最固定不变的生活方式，正是最最自然也最最完美的生活方式。过去的人们，总是从一边流窜到另一边，那是遥远的史前时代的事儿了，因为那时候人们有着某种需要，即与之产生的混乱的战争、商业经济，以及新大陆的发现。但是现在的人们还需要这么做吗？

我知道，这种定居生活人类起初未必能适应。在200年战争期间，城市变为废墟，道路被毁坏殆尽，荒草丛生。森林将城市阻隔开来。在这样的城市中居住，会让生活非常不方便，但又如何呢？试想，人类在尾巴进化掉之后，起初都是不适应的。没有了尾巴，人还不知道该怎么驱走讨厌的苍蝇。可以肯定地说，在刚开始的时候，他甚至因为没了尾巴而愁眉苦脸。但是，进化到现在，你能想象自己有尾巴吗？或者，你们能想象不穿衣服而全身赤裸地在街上走吗？（不过，也可能你们现在还光着身子出门也不一定。）但道理是相通的：我不敢设想在一个没有绿墙包围的城市中生活，我同样不敢设想，没有数字守时戒律表的生活会怎样。

守时戒律表.....此刻它正待在墙上，它有金色的背景，上面的紫色数字正满怀威严又含情地望着我。此刻，我突然想到了古人们所说的“圣像”，突然有想吟诗或者写祈祷文（当然，两者都差不多）的冲动。唉，可惜我不会作诗！否则我就能够写出一首热情洋溢的优美诗篇了。啊，守时戒律表，联合国的心脏与脉搏！

当我们小的时候，也许你们也是如此，在学校里一定读过古代文学中那篇流传至今的最伟大的文献：《铁路时刻表》。但是若将它和守时戒律表放在一处，二者高下立现。它们一个是石墨，而另一个则是金刚石，虽然组成它们的元素相同，都是碳元素，但是晶莹剔透的金刚石永远比石墨要灿烂，它有着永恒的光芒！

当我们翻阅《铁路时刻表》的时候，是那样激动，甚至不敢大声喘气。但是守时戒律表，这并不是夸大其词，它才让我们所有人成为了伟大史诗中的六轮钢铁英豪。每天早晨，在同一时刻，我们几百万人像六轮机器一样准时地起床，如同一个人一般。而又在同一时刻，几百万人一齐进入工作状态，又同时结束一天的工作。我们恰似那有着一百万只

手的一个人一样，在同一秒钟，我们将饭勺送进嘴里吃饭；在同一秒钟，我们走出门散步，我们一同进入讲演厅，又在同一时刻，我们上床睡觉.....

当然，我必须承认，时至今日，我们仍然没能找出关于幸福的精确答案。我们这统一的巨大机体，在一天之中有两次将被分解成无数个小细胞。这两次便是所谓的私人时间，它们是16点至17点，21点至22点。在这些时候，你们会发现，有些人会将房间里的窗帘放下来，而有些人会选择在《进行曲》的旋律中走上街头散步；还有些人会像我一样，坐在书桌前忙事情。但是我相信，让那些人叫我理想主义者好了，或者幻想家我也不介意。那一天早晚会来临，等到那时候，一天中全部的86400秒全都被守时戒律表所统治。

我通过书本，以及人们的讲述知道古代人的种种不可思议的事情。当然，那些人仍然生活在不受管束的所谓自由之中，也就是说，生活在那种毫无纪律性可言的原始野蛮状态之下。我太困惑了：一个国家政权，即使这个政权还不够成熟，怎么会允许人们在没有守时戒律表的状况下自由生活呢？那里没有散步，用餐时间也可以随意安排，甚至人可以随意选择起床和睡觉的时间。有的史学家甚至还提及，那时候连大街上也是灯火通明，深更半夜还有行人走动。

我实在难以接受这些。即使他们的智力还达不到聪慧的程度，但也不至于如此愚昧啊！难道他们看不出来吗？这样的生活毫无意义，简直就是集体自杀，虽然是慢性的。那时候的政权由于人道主义的考量，禁令谋害别人，但是它们却容许这种光天化日下的罪行发生。杀死一个人，就是将个人的寿命总和减少50岁，这便是犯罪。但是，若使人类整体的寿命总和减少5000万岁，却不是犯罪。这是多么可笑的逻辑！这则简单的数学运算，随便找出一个10岁的号码，不出半分钟就能精确地计

算出来。

但是过去的那些人却办不到，即使把他们认为聪明绝顶的康德们请出来也办不到。因为没有哪个康德会想到要建立科学伦理学体系，即这种以加减乘除为基础的科学伦理学体系。

而且，更为奇怪的是，那些国家（他们居然敢这样称呼！）对性生活完全放任不管。这也太不可思议了。不分对象、不分场合，甚至不分时间……简直跟牲畜相仿，完全反科学！还有一点，与牲畜别无二致，就是随便生孩子。真是可笑至极！他们会园艺、懂养鸡、会养鱼（我们有十分可靠的材料可以证明这些），虽然他们掌握了这些知识，但是他们却没有按逻辑发展的递进方式发展到最后阶段，即婴儿生育学。他们也没有想到要制定母性标准和父性标准，这也太荒唐了！

这些都太可笑了，我简直不知道该怎么形容才好。当我写到这里的时候，隐隐地便有些担心起来：你们，这些我所不认识的读者们，会不会以为我在说笑？或者以为我就是想嘲笑你们而已，而装腔作势地说出以上那些荒唐的话？

所以，我要郑重地重申，首先，这不是笑话，我并没有开玩笑；而且我也不善于开玩笑。因为我觉得任何玩笑都有谎言的成分；其次，联合国的科学家们已经不止一次地证实了，古代人的生活确实像我说的那样，而联合国的科学是最权威的；再者，若是现在人们还生活在自由之中，也就是说，仍然处于原始的野蛮状态，那国家又从何谈起呢？即便在今天这个时代，在我们这众多号码之中，有时仍会传来猿猴时代的野性之声。对于古人，我们又会有什么过多的苛求呢？

值得庆幸的是，这种野性之声也不过是偶然现象，是不值一提的。

仅仅是机器零件的小故障，很容易修复，而整部机器的伟大的、永恒的运转将不受任何阻碍。若是不得不卸掉那些变了形的螺栓，全知全能者自然会伸出熟练的铁手，而安全卫士也不会熟视无睹.....

顺便写一句，我一下子就想起了那个人，昨天我们在散步的时候见到的那个双曲线S。大概有一次，我在安全卫士局见过他。这就难怪了，昨天我看到他便有一种肃然起敬的感觉。我也想通了为什么见到那个举止奇特的I-330号在他旁边，我竟有些尴尬.....

睡觉铃响起了。已经22点半了。明天接着写吧。

笔记之四

晴雨表与野蛮人

羊角风

如果

到目前为止，我生活中的所有一切都明明白白（可能是因为这样，所以我才比较喜欢使用“明白”这个词）。但是今天.....我却有点晕了。

首先，我竟然真的收到了一张前往112号礼堂的通知单，居然被她说中了。虽然这可能性微乎其微，仅仅是500/1000万，即等于2万分之

1（礼堂共有500个，而号码则有1000万个）。其次.....还是先让我理清顺序，一一道来吧。

礼堂：这是一个巨大的半圆形建筑，当然，它的组成材料依然是透明玻璃，阳光照射进来，在一圈圈的座椅上，都坐着那些尊贵无比的圆球似的光脑袋。我非常高兴地环顾四周。其实我是想看看，在这一片蓝色之中，我会不会见到O的那粉色的可爱嘴唇。啊！但是我脑海中居然闪现出一副洁白的牙齿，仿佛.....不对。今晚21点，O会过来我家。所以，我此刻最想见到的必定是她啊。

铃声响了。全体起立，齐唱《联合国国歌》。接着，录音讲演者全身披着扩音机的金光，冉冉升起。随后洪亮的声音便充斥了全场：

“尊敬的号码们！不久之前，考古专家们发掘出了一本20世纪的著作。那位讽刺作家在书中提及了野蛮人与晴雨表。野蛮人发觉，每次当晴雨表停在‘雨’上面时，天就会下雨。野蛮人很高兴，他想有雨，于是就将晴雨表中的水银倒了出来。直到晴雨表恰好停在了‘雨’上面。（屏幕上立即出现了一个戴羽毛饰品的野蛮人，他正在专心致志地倒水银。底下一阵哄笑。）

“你们都在笑，可是你们觉不觉得，其实那个时代的欧洲人更可笑。欧洲人和野蛮人有着同样的期盼，他们也想要下雨，但是他们却毫无办法，只能眼巴巴地看着晴雨表。这样一比较，野蛮人至少还有动手实验的勇气、干劲和逻辑性（虽然这逻辑感是那么的原始）。但是，他至少做出了判断，将因果之间联系了起来：他倒出了水银，即迈出了行动的第一步.....”

我仍然在那里，但是突然之间，我忘了眼前所看到和听到的一切

（我必须强调：我遵照事实记录下一切，毫不掩饰），虽然讲演还在进行，且依然是那么妙趣横生，可是我却突然发觉自己不应该来。（怎么会有这种感觉呢？但是，我既然收到了通知，我必须来的呀！）我突然觉得很空洞无聊，而我这么说又没有任何意义。于是，我又努力集中注意力，重新关注起讲演来，这时已经讲演到了此次的主题——我们依据数学结构制成的音乐（数学为因由，而音乐则是结果），他正在讲解最近刚发明的音乐创作机。

“.....只需要简单地转动手把，谁都可以在一小时内完成三部奏鸣曲的创作。与之相比，你们祖先作曲时却那么难。他们先要获得所谓的‘灵感’，这种东西就像得了羊角风一样奇怪，有了它他们才能完成创作。接下来，我们就来听一段他们经由灵感爆发之后所创作的音乐，这音乐简直可笑至极！这是20世纪的作曲家斯克里亚宾的作品。而这个（此时台上的帷幕缓缓拉开，一架20世纪的古老乐器呈现在所有人面前）黑色的大箱，被叫作皇家大三角钢琴，从这件乐器上也能看出，他们的音乐水平.....”

我再也想不起来下面的话了，可能是因为.....我还是实话实说吧，其实是因为我看到了她，是的，就是因为她，I-330出现在了“钢琴”边上。可能是因为她的突然出现，让我有些呆住了！

她穿着一条有些奇怪的古代服装。这条很长的黑色裙将她的身体紧紧裹住，让她的双肩和前胸更显得白皙。随着起伏的呼吸，她胸前的那道阴影显得十分诱人.....还有那两排洁白的小牙齿，它们甚至亮得有些刺目.....她面露微笑，随后落座，并开始弹奏。这音乐是野蛮的、狂热的、震撼的，就跟古代人的生活一样，缺乏任何理性的因素。人们哄堂大笑，是啊，他们笑得那么有理，仅有几个人没有笑.....但是，为什么我也没有笑.....

我到底是怎么了？啊，羊角风，这是一种精神病，带着疼痛的病。我好像也得了似的，突然觉得有种轻微的、甜蜜的疼痛，它越蜇越深，越来越痛。尔后，我见到了太阳，它正在冉冉升起，但是这太阳与我们常见的不同，不是那种透彻、明晰，有着幽幽蓝光的太阳。而是充满野性的，它炙热地燃烧着，仿佛要将一切都弄得粉碎……

我左手边的号码用余光看了我一眼，他仍然咯咯笑着。那时，我并没有意识出他在笑着什么，但是我却看清楚了他的模样：我清楚地看到他嘴边泛起的小唾沫星子，其中一个冒起了泡泡，然后，“啪”的一声，破了。这一声将我唤醒，我又回来了。

然后，我便跟所有人一样，也听到了那些没有任何意义、毫无系统可言的叮当乱想的琴声。我轻笑着，觉得无比畅快，心情又变得纯粹起来。那位天才的录音讲演者将那个野蛮时代描绘得绘声绘色，就是这样。

后来，又演奏了我们当代的音乐，以与那个野蛮的音乐进行对比。我很高兴地欣赏着我们当代的音乐，简直美极了。演奏厅里回响着那清亮、通透的半音音阶，它们一会儿集中，一会儿分散；应和着泰勒和麦克劳林公式的人造和声，还有毕达哥拉斯的短裤似的全音二次方的转调，曲子的起伏没有哀伤，只有和谐的音律之美，整个音乐采用了弗朗和费谱线条那行星光谱分析似的美丽节奏……简直堪称完美，那么恢宏庄严的曲子、那么富有整齐和谐！而古代人的音乐造诣简直太可悲了，它们那么恣肆任意、那么野蛮，毫无规矩可言。

与平常一样，所有人又四人一列地走出了礼堂。一个熟悉的双曲线身影从我身边闪过，我礼貌地朝他致意。

一小时之后，可爱的O就来了。我的心情舒畅极了，这是一种令人愉悦又健康的憧憬。回到家，我便赶到大楼办公室，将一张粉红色的票子递给值班员，她交给我一张允许拉窗帘的许可证。我们只有在性活动日才被允许拉窗帘。其余的时间，我们都生活在跟空气一样透明的玻璃房中，因此，我们的一切活动全部是公开的，任何人都能够看到。因为，所有人都是坦诚相见的，并没有什么秘密可隐藏。而且，这样的居住环境也减轻了安全卫士的工作压力。否则，肯定会有些令人厌烦的麻烦出现。恰恰是因为古代人的那些不透明的、奇怪的令人难以想象的居所造就了他们的狭隘、可悲的自我。“我的（原文如此！）房子即是我之堡垒。”他们居然说出这类话！

22点，我拉下窗帘，而O也微喘着气走了进来。她的粉红色双唇直接迎了过来，还有手里的一张粉红的票子。我扯下票根，但是我的嘴却怎么也离不开那粉红的嘴唇，直到最后一秒钟，22点15分，我才松开了嘴。

后来，我给她看我的日记，我们还一起说话。我还特别热情地谈到正方形和立方体之美，还有直线之美。刚开始，她着迷地听着，可过了一會兒，她的脸上便泛起了红晕。接着她清澈的蓝眼睛里便掉下泪来，一滴，二滴、三滴，呀，我摊开的稿页（第7页）已经被浸湿了。墨水化开了，看来，我得重抄一遍了。

“亲爱的，若是你愿意，我觉得.....”

“愿意什么？”难道又是她想要个孩子的陈词滥调吗？或者想要说别的什么，难道是那个女人的？虽说这.....我觉得是有点儿.....不过，也太荒谬了！

笔记之五

正方形

世界之主宰

愉快又宜人的生理功能

我们又见面了，我的那些读者们，我们这样的交谈形式，就像.....举个例子来说，我们是多年的故交。R-13，他可是一个非常出名的诗人，虽然他的嘴唇厚得像古代的黑种人，可是他远近闻名。而你们却生活在遥远的地方，可能是月球、金星、火星或者水星上，我们素不相识，无从知道你们在哪里，又是些什么人。

可以试想：若是一个正方形，假设它是一个有生命的、绝妙的存在，它需要聊聊自己的生活。你们或许会猜到，这个正方形可能没有想过要去谈论自己的四个角，虽然它们都是相等的。但是它想不到这一点，因为它总是这样的，它已经习惯了这样。因此也就不当是一回事了。而我，我有时候也会身处于正方形的这种境地中。比方粉红票子，它的存在是必然的，就像正方形的四角必然均等一样。但是，可能在你们眼中，这也许比牛顿的二项式定理更让人难以捉摸。

那么请听我接下来要说的话：在古时候有位哲人曾说过一句至理名言（当然，这可能是偶然为之）：“爱情与饥饿才是世界之主宰。”所

以，人类为了能统治世界就要付出努力来战胜饥饿。当然，我所指的努力是城市和乡村的战争，即那场旷日持久的200年大战。可能是因为宗教的偏见，基督徒将“面包”牢牢抓在手中，丝毫不肯放。而在联合国建立的前35年，我们所赖以生存的石油食物就已经发明了。确实，经过战争，地球上只有十分之二的人存活了下来，也正因为此，地球清除了那些多余的腐败垃圾，而今变得那么生机勃勃！

所以说，这些幸存的十分之二人口在联合国的美好大家庭中过得那么幸福。然后用来构成这个幸福百分比的分子和分母分别是快乐和嫉妒。这一点显而易见，若是在如今我们仍然存在着嫉妒的根由，那么在旷日持久的200年大战中死去的人的牺牲又有何意义可言呢？但是，嫉妒的根由确实存在，譬如蒜头鼻子和古典鼻子的差别（上回散步的谈话便涉及到这个内容），仍然有些人十分招人喜爱，而另外一些人则不讨人喜欢。

这是自然不过的事，从联合国解决了饥饿的困扰之后（代数的观念认为：饥饿便是身体获得福利的总和），便开始致力于征服另一个主宰，即爱情。最后爱情也被战胜，此意即，它被规范化，被组织了起来，纳入了数学的范畴。于是，在300年前，一个划时代意义的法典诞生了，即《性法典》。此法典规定“身为性的产物，每一个号码都对任何其他号码享有使用的许可权利”。

具体的操作方法，便是技术性的了。首先号码们必须要到性管理局的化验室进行仔细而全面的检查，准确测算出血液中性荷尔蒙的含量，依据此给你制订出相应的性活动日期表。然后，就可以提出申请，自愿与某个或者某些号码产生性行为，然后，你便得到了一个粉红票子的小本子。至此，一切就办妥了。

这是非常明白清楚的，因此，也不会存在任何的嫉妒因由，而担当分母的数为零，自然我们的幸福指数便是无限地大。相对于古人，他们曾因那可怜可悲可叹的爱情而酿成的无数悲剧，在今天不会上演。在我们的时代这只会是和谐、愉快而又宜人的生理功能。就如同睡眠、体力工作、饮食、消化等其他功能一样。所以说，逻辑的力量是那么神奇，它足以让一切得到净化。啊，若是你们，亲爱的读者们，也能感受到这力量的伟大就好了，若是你们也能学会遵从逻辑的指引，并一以贯之，那可多美妙啊！

好奇怪！此刻我笔端流淌着人类历史的最高成就，呼吸着最纯净的空气，但是我的心底却涌上了阴霾，就像蒙着一层不透明的蛛网，中间还有一个长着四只爪子的未知数 X 。可能，就是因为它，我的爪子，那两只毛茸茸的爪子一直在我眼前晃来晃去的。我不想谈起它们。也有些讨厌它们，它们就是野蛮时代的印记。难不成我身上真的有.....

我想让这些内容不存在，因为这些内容超出了我提要的范围。可是，仔细一想，我又决定保留下来。这样，我的笔记便是精确如地震仪的存在了，哪怕我头脑中任何最细微的波动都能被真实地记录下来。因为，在某些时候，这种波动便有预兆的意味.....天啊，这简直是胡说八道了。我不该这样想，想一想，所有的自然力量和本能问题都被我们解决了，不会有任何意外的灾祸发生了。

此刻，我想通了。看来我心里的那种奇怪的感觉应该是源于我所处的正方形状态，这个问题在笔记开头我已经写过了。而我心底深处也没有类似于 X 之类的存在。我仅仅是担心你们，亲爱的读者们，在你们心头会不会时常盘踞着 X 呢？我相信，你们会明白我的用心。也会体谅我，我完成这本笔记的难度。我所书写的比人类历史上任何一位作家还要难。他们当中，有人为同时代的人写作，而有的人为后世之人写作，

但是，却从未有位作家为远古的祖先们写作，或者是类似于远古祖先的未开化的生命存在写作。

笔记之六

意外历险

该死的“清楚”

24小时

我必须再写一次：我觉得我有这样的责任，即在写作过程中毫不避讳任何事。所以，我必须在笔记中列出这些事实：至今我们的生活，连定型化、固定化都没能完全实现。而我们离理想的彼岸也仅仅差最后一步了。所谓的理想，自然是没有任何意外事故的太平境界（这是再清楚不过的了），然而，在现实中……瞧，仍然是有些让人不愉快的，比方说，今天我在《联合国报》上读到一篇文章：两日后，在立方体广场将举行审判大典。这表明，有某个号码又起来破坏了伟大国家机器的运行，一些超出预见的意外事故又发生了。

除了这个意外，我自己也有点意外。虽然这件事是发生在私人时间，即特地被用来处理有些意外的专门时间，但是，我仍然……

大概是16点的时候（确切地说，是15点50分），我正在家里。

突然电话铃响了：“请问是D-503吗？”一个女人的声音传了过来。

“是我。”

“你有空吗？”

“有。”

“我是I-330。现在我就去找你，我们一起去参观古代房子。你赞同吗？”

I-330.....她总是让我心绪不宁，我觉得不安，甚至有点惶恐。就是因为这样，我更要说：“好吧，我去。”

5分钟以后，我们已经在飞船上了。五月的天空湛蓝湛蓝的，明亮轻盈的太阳在自己的飞船里优哉游哉的，它跟在我们后面，嗡嗡响着。前面是一片飘浮的白色云朵，它像一大团瀑布一样，胖乎乎，又十分有趣。我们乘坐的飞船前窗开着，风灌了进来，吹得我嘴唇发干，我忍不住舔着它，老得舔几下。

此刻，我已经看到了绿墙外的那一块块模糊的绿地。紧接着，心脏便微微沉了一下。我们在降落，下降，再下降，就像从陡峭的山坡上不断滑翔一样，终于，我们来到了古宅面前。

这幢房子被整个罩在玻璃壳子中，要不然，它早毁了。它长得很奇怪，破败不堪，还有些土里土气。玻璃门旁有个看门的老太太，她脸上满是皱纹，嘴巴更是，密密麻麻的褶皱布满四周，嘴唇已经完全瘪了进去，见不到嘴唇。我没法想象出她开口说话的样子。但是，她的确开了口。

“哦，亲爱的，你又来了。来看看我的小房子吗？”

她整张脸都展开了，显得容光焕发。我的意思是，她的那些呈放射状的皱纹就像光线，全部发散开来，显得像在放光一般。

“是的，老奶奶。”I-330说道。

她又在放光了：“多好的太阳！你看到没呢？哦，小淘气！真淘气！我知道，我知道。没事儿，你们自个去吧，我就在这里晒太阳。”

显然……我的这位女伴常常来这里。我有点心烦意乱的，想甩掉什么似的，但是却甩不掉——没准就是这天空在作怪，真糟糕！这样的天空却有云块堆在那。

当我们顺着宽大的、幽深的楼梯往上走的时候，I-330说：“这位老奶奶，我很爱她。”

“什么意思？”

“说不清楚。也许，看到她满是皱纹的嘴。也许，没有什么原因，只是爱而已。”

我不解地耸耸肩。她仍然在说着，并且面露笑容，也许她根本就没笑。

我觉得极其不舒服：“我认为不该这样说，这是再自然不过的事了，不会有‘没有原因的爱’，所有的爱都应该是‘有理由的’。因为自然界的一切都应该……”

“清楚……”我想接着说下去，但是，在我自己说了“清楚”这个词之

后，我偷偷瞄了她一眼。不知道她发现没有。此刻，她往下望着，而她的眼睑就像窗帘似的拉了下来。

我的脑海里立即闪现出这样的一幕：深夜22点，当一个人走在大街上，眼睛所及的都是在灯火通明的玻璃方格，而那些之中有一些是黑色的方格，因为它们的窗帘都被拉下来了，而它的后面……那么，在她的窗帘后面又隐藏着什么呢？为什么她会给我打电话？她又为什么带我来这里？她做这一切又是为了什么？

一扇沉重的、不透明的门被推开了，一个昏暗的、杂乱的住处（这种地方，古代人都称之为“公寓”）呈现在我们面前。里面摆着一台上回在礼堂见过的怪模怪样的“钢琴”，还有很多杂乱无章的、没有任何秩序感可言的色彩和线条，跟我那次听到的音乐一样。顶部是白色的，而四周则是深蓝色的，还有一堆乱七八糟的古旧书，它们色彩各异，红的、绿的、橙黄的。还有黄铜烛台、铜佛像，而木质家具的线条也是歪七扭八的，不成体统，没有一条线条能被列入等式。

这种混乱不堪的场景让我几乎忍无可忍了。可是，我的女伴可比我强多了。

“这间是我最喜欢的……”突然她像想到了什么，面露着微笑，这就像是一个咬唇的动作，那排洁白的小牙齿也露了出来，“或者应该这样说，这是所有这些公寓中最杂乱的一间了。”

“可能将它形容为‘王国’更恰当一些，而不应该说是所谓的‘套间’，”我说出我的意见来，“这就是无数个小型的王国，这里充满了火药味，充满了战乱的恐怖，类似于……”

“是啊，确实如此。”她很认真地回应道。

我们穿过一间房间，房间里有几张婴儿床（在古代，孩子也属于私人范畴）。之后呈现的又是一个个房间，以及房间里的东西，有闪亮的镜子、阴沉的柜子、五颜六色的沙发、很大很大的“壁炉”，还有一张红木大床。而我们的那些透明的、漂亮的、永久性的玻璃，仅仅被放在了那些毫不起眼的，小得可怜的窗户上。

“那么不可思议啊！这里的人们居然‘因爱而爱’，他们为爱痴狂，为爱而深受折磨……（说到这，她眼睛的窗帘又拉了下来）人类的精力虚耗在这些事情上，是多大的浪费啊。你觉得呢？”

她好像说出了我心中所想，且的确正中我的下怀。可她的笑容却让我心烦不已，那个刺人的X。她眼睑后面到底隐藏着什么，我不得而知。但是，相比这就是令我心烦的原因。我有些受不了了。我甚至想和她吵架。大声地喊叫（就是这样），但是我只能表示出赞同，因为她说的确实是对的。

我们停在了一面镜子面前。此时，我只能透过镜子看到她的双眼。一个念头突然间出现了：人的身体构造也有些不可思议，简直跟这该死的“公寓”差不多。太奇怪了。人的头部是不透明的，而只有两扇非常小的窗户，即眼睛。只有通过它，人们才能看出人的想法。可能是她看出了我的想法，便转向我说道：“看，我的眼睛……你觉得如何？”（这些话有些突兀，于是她又陷入了沉思。）

我面前是两扇黑洞洞的窗子，这对我来说是非常陌生的另一种生活。我见到幽暗的火光，那是从“壁炉”里发出来的，以及人影的晃动，仿佛……

这其实不难解释，因为我见到了自己的影子。但是，我觉得不舒

服，甚至觉得这人不像我。的确，正是周遭的环境令我觉得十分不适。我甚至有些害怕，仿佛自己深陷古代的牢笼之中，那古代生活的旋涡似乎要将我吞噬一样。

“你啊，”I-330看着我，说，“你到隔壁房间去待一会儿吧。”她的声音仿佛来自幽暗的双眸，来自那生着壁炉的火上。

我来到了另一间房间，坐了下来。正对面的墙架上有一个诗人的塑像，他长着塌鼻子，相貌一般，我猜这人可能是普希金。此时，他正死死盯着我，似笑似不笑的。我为什么要坐在这里呢？一动不动地看着他的模样？到底发生了什么事？我怎么会来到这里了呢？眼前的一切实在是太荒唐了！这个奇怪的女人，这场莫名其妙的把戏，到底一切都是怎么了？

隔壁柜子的门砰地响了，我听到了似乎是丝质衣服的声音。我想站起身来，我想看看她到底要做什么，我想.....现在我记不清了，也许想骂她一顿，但是，我极力忍耐着。而此时，她出现了。

她身着一件明黄色的短裙，而头上则是一顶宽边的黑色呢帽，脚上有黑色的长筒袜。裙子很薄，是丝绸的。

“很明显，你想显得与众不同，但是这样.....”

她没有让我继续说下去，而是打断了我的话：“很明显，与众不同就是特别的。所以，与众不同就要违反平等原则.....古人所说的‘甘愿平凡’，在我们看来就是要尽的‘义务’。因此.....”

“说得很对，确实是这样，”我忍不住打断她，“那你又为何.....”

她来到塌鼻子诗人的雕像前，再次垂下眼睑，将那充满野性之火的

双眼隐藏住。随即，她便开口了。她很认真地（没准她想尽力安抚我的情绪）说道：“古人们怎么能容忍这样的人呢？居然称他为诗人，你不觉得荒唐吗？不但人们容忍他的所作所为，甚至还敬佩他。多么卑躬屈膝的思想！你认为呢？”

“很清楚.....我的意思是说.....（这句该死的‘很清楚’！）”

“是的，我懂。可是，事实上，这些诗人与那些成就帝位的君主相比，具有更强的主宰性。但是，那些君主们为什么不把他们关起来，消灭掉他们呢？而在我们这里.....”

“是，在我们这里.....”我还没有说完。

她便大笑了起来，她的眉眼里都是笑意，仿佛画出了一条曲线。我发觉那笑如同一条激越的，弹力十足的鞭子一般柔韧。当时我浑身发颤。我想做点儿什么.....我要揪住她.....可是，我也不记得了.....我就下意识地看了下我的金色号码牌：16点50分。

“你不觉得是时候该离开了吗？”我尽量有礼貌地问道。

“如果我想让你和我一起留在这儿呢？”

“你在说什么？你知道你刚刚说了什么吗？10分钟后，我必须出现在礼堂。”

“.....所有号码都有责任完成艺术和科学的必修课程.....”I-330将我要说的话说了出来。

随即，她拉下了窗帘，抬起她的眼。幽暗的眼睛里有熊熊烈火在燃烧着。

“在医疗部有个医生，他登记了我。若我去求他，他一定会给你开一张病例证明，证明你生病了。如何？”

我明白了。现在我终于知道问题的答案了，原来她有这样的目的。

“原来如此！不过，身为一个诚实的号码，不妨实话告诉你，我应该立刻前往安全卫士局……”

“哦？”她又使出那勾人的微笑，“我非常想知道，你会不会去？”

“你仍旧不走吗？”

我抓住了门把手，它是铜制的，而我的声音也像是铜制的。

“等一下……行吗？”

她来到电话机旁，给一个号码打电话。当时我太紧张，居然没有听清那个号码。只记得她说：“我在古宅等你。是的，是的，只有我一个……”

我拧了铜把手：“我可以用飞船吗？”

“当然可以！随便。”

走到门口，老太太在太阳光下打瞌睡，仿佛一株植物。她那满是皱纹的嘴再一次张开了：“你的那位，怎么，她要一个人留下来吗？”

“是。”

老太太的嘴合上了。她摇着头。显然，连她那已经衰退的脑袋都深知干这样的蠢事是那么危险。

17点的时候，我已经在礼堂了。这时我突然想起来，我并没有说出全部的事实来，刚才我对老太太隐瞒了些什么：I并不是单独一个人。我并不是故意的，但是我却骗了老太太。我觉得也许是这件事让我没法集中精力听课。但是，是啊，其实是她不是一个人在那儿——我难受的应该是这一点。

21点30分，这一小时是我的私人时间，原计划我是要到安全卫士局去的。但是，经过这一天的历险，我非常累。而且，只要在两天之内报案都是算数的。因此，我决定明天再去，反正还有24小时呢。

笔记之七

很小的眼睫毛

泰罗

天仙子草与铃兰

深夜。满眼都是绿的、红的、蓝的各色颜色；那架红色的钢琴，还有那黄色的短裙。接着眼前又是一尊佛像，突然它抬起了铜眼皮，佛眼中竟然流出眼泪来；而那连衣裙也渗出血液来，而镜面上也是液汁，大床上也是，还有儿童床……太恐怖了……简直是一阵甜蜜的恐怖……

我突然醒了。见到眼前是柔和的蓝色之光。墙玻璃、椅子，还有桌

子都闪着蓝色的光亮。我的心终于平复了下来，不再狂跳。液汁、佛像.....简直荒诞透了！太明白不过了，我生病了。我从来都不做梦。据说古人常常做梦，而且做梦也是他们生活的一部分。怪不得，他们的生活中充斥着各种奇形怪状的事物：绿色、棕红色，佛像，流淌的液体。如今的我们十分清楚这一点：梦是非常严重的精神性疾病。而我，在接触这些之前，我的头脑就是一台精确的、干净而又闪亮的机器，但是如今.....确实如此，我觉得大脑里有某种陌生的存在，就像眼睛里进了一根很小的睫毛。虽然全身都十分正常，可是对眼睛来说却万分难受，一分一秒也忘不掉.....

令人愉快的清脆铃声响起了：7点钟，起床时间到了。通过眼角的余光，我知道左边和右边的玻璃墙里，跟我一样的人们，他们以跟我一样的动作穿衣。我觉得无比振奋，我就是个强大统一体的一部分。精准的手势、同时弯腰、同时转身，这是多么精确之美啊。

确实，那位叫泰罗的古人的确堪称天才。只可惜他没能想到将自己的管理方式应用到生活领域，用它协调一天的24小时；而今他的体系已经被精确地应用到每分每秒。我实在不知道这些古人的想法，他们可以任由康德这类人写出几个图书馆那么多的书，而却对于泰罗的这一预见置若罔闻。

吃完早饭。众人齐声高唱《联合国国歌》。随后依然四人一列地进入电梯。我们听到马达的轻微声响——人随之下降，下降，再下降，我的心脏有些许震动。突然之间，又想起了那个奇怪的梦。大概这便是梦所留下的印记。啊，我记起来了，昨天在飞船上，我也曾有过这种降落的感觉。但是，一切都结束了。我是对的，昨天我很坚决地拒绝了她。

坐在地铁上，我知道我离“积分号”越来越近了。这时候的“积分

号”一定躺在飞船的装配台上，它在淡蓝色的阳光下发着微光。我闭上眼睛，想着公式：我又计算了一遍需要多大的初速度它才能飞离地球。因为爆炸原料的力量，因而“积分号”每一秒的行进都会发生质的改变。公式是庞大而复杂的，我必须计算得一清二楚。当我在严谨的数学世界中遨游的时候，仿佛觉得有人来到我身边，似乎还触碰了我一下，“不好意思，打搅了。”这个声音是确实存在的。于是，我睁开了双眼。

一抬眼（可能是仍然沉浸在数字之中），仿佛眼前有个物件飞速远离我而去，再仔细分辨，这是一个脑袋，接着是它旁边的两只粉红色的招风耳。随后便是后脑勺从上到下的弯曲曲线，宛如字母S。

透过代数世界的玻璃，我再次体会到眼睛中掉入的睫毛。我心中隐隐不悦，今天我该.....

“没关系，不用客气。”我朝他微笑了一下，同时又点头致意。

他的胸章此刻我也看清楚了：S-4711（这很有趣，怪不得我首次见到他时，就会将他与S联想到一起，这是某种下意识的视觉印象）。他目光炯炯，犹如两根尖利的芒刺，快速地钻进我的身体，而且愈钻愈深，仿佛要进入我的内心深处，获悉一些连我自己都不敢面对真相.....

突然，我又想到了那个讨厌的眼睫毛，他便是安全卫士人员，不妨此刻就来个痛快，将我所知道的全部告诉给他。

“嗯，昨天，昨天我去了古宅.....”我好不容易说出了这句话，可是声音却好奇怪，干巴巴的，我甚至想咳嗽几下。

“这很不错啊，真不错。从那儿的材料里你应该能够得到一些更富

有意义的结论。”

“是啊，可是.....你知道吗，其实，我不是一个人去那里的，同行的还有I-330，而且.....”

“I-330？你运气可真好！她是个非常富有才华的女性，而且还十分幽默，有不少人崇拜她呢。”

哦，可不是嘛，上回散步的时候，他就在她身边。或许他们，她登记了他。哦，不，我没法告诉他。绝对不能告诉他。

“是啊，你说得很对！的确是这样！”我微笑着，笑容十分灿烂，但是我知道，那样子肯定很蠢，尤其是那微笑，显得我愚蠢至极。

芒刺又钻进了我的心底，随后又飞快地钻了出来，回到他的眼中。他不置可否地笑笑，朝我点了一下头，就转身离开了。

我拿起报纸，遮住脸，假装认真看报（其实，我觉得所有人的目光都射向我），没一会儿，我便将眼睫毛、芒刺的事忘诸脑后了。因为报上的一则消息：“根据可靠情报，一个秘密的地下组织在私下进行所谓的解放运动，妄图颠覆利于国民的约束条例，他们的踪迹我们已经获悉了。”

“解放”？太奇怪了！人类的犯罪本能居然如此强烈。我说“犯罪本能”是有原因的：自由与犯罪总是相生而存的.....这类似于飞船的飞行和它的速度之间的关系。若是飞船速度为零，那它就没法飞行。若人没有自由，他自然就不会犯罪。这是再清楚不过的了。

要想让人类远离犯罪，最行之有效的方法就是让人类远离自由。我们脱离自由还不算很久（从整个宇宙的范畴上来看，几个世纪也可以算

是不久而已），某些可悲又可怜的白痴就又出来捣乱……不，我真想不通，昨天我为什么没有去，我应该马上去，是的，马上去安全卫士局。16点以后，我一定要去。

16点10分我来到了街上。在街角我意外遇见了O。她欣喜若狂，看到我兴奋得满脸粉红。这是一场多么及时的相遇啊！她单纯可爱，我正需要朝她倾诉。她会支持我的……但是，也不需要这样，我已经想好了，不会改变主意了。

音乐机器仍然演奏着《进行曲》，这首曲子每天的这个时候都会准时地播放。这种不断重复、富有规律的节奏是那么优美，又是那么令人愉悦啊！

O走向我，“我们去散步吧。”她的两只圆溜溜的大眼睛不住瞧着我。这美丽的蓝色犹如两扇窗子，通往她纯净的内心世界。我可以一眼看穿，甚至是毫无阻碍地看进去，看到里面空无一物。我的意思是说，那里面什么多余的东西都不存在。

“不，我不能散步。我要去另一个地方……”接着我便告诉了她，我要去哪儿。她的表情让我有些意外：她那粉红色的圆嘴忽而转成了弯月，嘴角往下撇着，流露出一种不屑，仿佛什么东西倒了她的胃口。我突然有点儿想发火了。

“你们这些女性号码，都有着严重的偏见，简直没救了。你们简直没法使用抽象思维。非常抱歉，我只能使用这样的措辞，这便是头脑迟钝的意思。”

“你居然，居然要去找那些间谍，这太可耻了！……算了，我不想说了！居然我刚刚还去植物园给你采铃兰……”

“为什么要说‘居然我’，干吗要使用‘居然’两个字呢？毕竟是女人。”我气愤地（我不得不承认我不该这么做）抢过她手中的铃兰。“铃兰，看看吧，这就是你的铃兰，它很香，是吧？只要进行一点儿逻辑性思考也行啊。铃兰很香，的确如此。但是你不能仅仅谈论气味，说它是香或者不香，从而判定出它是好或者不好。你不能这样，对不对？铃兰有铃兰的香气，而天仙子草也有天仙子草的臭气，它们都是气味。古时候有间谍，而今也有……间谍，说出来也无妨。但是这一点不是已经很清楚了吗？古时候的间谍是天仙子草，而今我们国家的间谍则是铃兰。是啊，他们就是铃兰！”

她那粉红的嘴唇不断地发抖，仿佛要笑似的。如今我清楚了，其实是我的误解，当时我以为她就要笑了，其实并不是这样的。但我当时并不知道。因此，我的嗓门更高了：“是啊，他们就是铃兰。这很可笑吗？并非如此吧。”

每个经过我们身旁的光球似的脑袋都转向我们看着。O柔媚地挽住我的手说：

“你怎么了？今天好像有点不同……你难道是病了？”

那个梦……黄颜……佛像……我终于明白了：我必须要去卫生局。

“对啊，我应该是病了。”我回答道。心里居然有一丝庆幸（这是多么矛盾的心情啊；本来就没有什么值得庆幸的事啊）。

“你现在就得去看医生。你知道，你必须得健康，这不需要我说。”

“亲爱的O，你说得太对了，非常对！”

我没有去安全卫士局，因为我必须要去卫生局。在那里我一直待到

17点。

而晚上（恰好那里的人已经下班了），O来我这里了。我们没有拉下窗帘，而是仔细演算着一本古老的习题集的算术。做这些会让我们头脑清楚，思维也能得到净化。O静静地坐着，她头稍微向左边歪着，舌头顶着左颊，正苦思如何计算出结果。她的样子十分孩子气，我很爱她这副神情.....我感觉舒服多了，什么都是那么清清楚楚、明明白白，一切都又美好了起来。

最后她不得不离开了，而只剩下我一个人。我深呼吸了两口气（这个临睡前的呼吸动作对身体有益）。突然，一股淡淡的香气冲入我的鼻腔，一件不愉快的事涌上我的心头.....我立即发现了它，那株藏在我床上的铃兰。瞬间，所有的回忆又搅了上来，让我情绪难宁。她真不该这样做。是的，我没有去安全卫士局。因为，我生病了，这可不是我的错。

笔记之八

无理数

R-13

三角形

我第一次碰到-1的平方根，是多年前的事，那时候我还在念小学。虽然时隔多年，但是往事依然清晰：在一间明亮的球形大厅里，坐着100位脑袋圆圆的小男孩，前面是我们的数学机器，因为它实在是太老旧了，在开始上课之前，老是会发出“啪啦啪”的声音，所以，我们叫它啪啦啪老师。那堂关于-1的平方根的讲述也是那样，在上课之前，值日生照常将它的背上插头插上，当扩音机发出了“啪啦啪”的响声之后，授课开始。我当时边哭，边用小拳头捶着桌子喊：“我不要-1的平方根，将它从我的脑海里消除吧。”这个无理根就如同别人的某些可怕的存在一样，它无声无息地钻进我的脑子里，让我不得安生，我找不到答案，没法解开它，因此心烦意乱，痛苦之极。

而今我又碰到了这个-1的平方根。我翻看前一篇笔记。我意识到，我在自欺欺人，目的就是为了避开这讨厌的-1的平方根。什么生病的事，简直就是扯淡。我完全有能力来到安全卫士局。若是这件事发生在一周之前，我肯定早就去举报了。但是，此时为什么我会犹豫不决呢？到底是怎么一回事呢？

今天也是这样。在16点10分，我已经来到了亮闪闪的玻璃墙前面，眼前便是安全卫士局的牌子，在阳光的照射下更显得亮闪闪的。透过透明的玻璃墙，我见到门里工作的人们，他们整齐地排成一列，身上的灰蓝色制服令人心生敬畏，他们的脸部发出幽幽的蓝光，犹如古代教堂的长明灯。他们在这里工作，肩负着伟大的责任：为联合国奉献一片赤胆忠心，在国家的祭坛上有他们的爱人、朋友，甚至是他们自己的身躯。连我都想加入这光荣的战列，与他们并肩作战。但是，此时，我却犹豫着，我的两只脚牢牢地钉在地面上，不能挪动一步。我就那么站着，痴痴地站着，一动不动……

“嘿，数学家，做白日梦呢吗？”

我吓了一跳。我眼前出现了一对乌黑的眼睛，眼中还闪着笑意，接着看到那张厚厚的嘴唇。是诗人R-13，我的老友。站在他身边的是粉红色的O。我气愤地扭过头去。我心里想着，若不是他们来碍事，我早就进入安全卫士局了，而那个盘亘在头脑中的-1的平方根也早已脱离我的头脑，被扔得远远的了。

“谁说我在做白日梦，我是在欣赏得出了神。”我不留余地地回击道。

“确实如此，确实如此。我的老友，你不适合当数学家，而是应该去当个诗人！我是说真的，来我们那里吧。成为一名诗人。怎么样？如果你想的话，我马上就帮你安排，如何啊？”

R-13说话语速总是很快，那些字母从他那两片厚厚的嘴唇里蹦出来，嘴边都是唾沫星子，每当碰到要送气的辅音字母，口水就像喷泉一样溅了出来。

“我是为科学服务的，现在如此，将来也如此。”

我皱着眉头说，我不热衷于开玩笑，而显然R-13却十分擅长此道。

“唉，你不该这样想，所谓的科学只是一种胆怯的表现罢了。你只是用一堵墙将无限包裹其中，而不往墙外边去看一看。就是这样，若你朝墙外看一眼，你肯定会觉得眩晕，所以，你宁愿闭上眼.....没错.....”

“墙才是所有人类该遵守的界限.....”我反驳道。

R接着口若悬河地反驳着，而一旁的O则微微媚笑着。我甩了下手说：“你们笑好了，无所谓，我不在乎这些。”我没空跟他进行辩论，我

眼前需要解决的是那个讨厌的平方根，将它赶跑才是我要立马解决的问题。“你们看，这样可以不？”我接着说道，“你们一起到我那里去，做几道算术题（我想起了昨天的那个令人心安的时刻，可能今天也能这样度过）。”

O看了一眼R，随后眼波流转地看着我，她的脸颊上泛起柔和又令人心醉的粉红色，如同那粉红的票子。

“可是今天我……我的票子登记了他。”她朝R看了一眼，说道，“而他今天晚上有事……因此说……”

R湿润而发亮的嘴唇，翕动着说：“那不要紧的，我们差不多半小时就可以了。O，是吧？我对你的算术题没什么兴趣，不如你来我这里聊天吧。”

我不想一个人待着。或者更确切地说，我害怕和这个我单独待着，这个我是这样陌生，虽然他也同样地佩戴着“D-503”的胸章，仿佛只是某种巧合才会如此的。因此，我便答应了R的邀请。虽然他一贯缺乏逻辑性，也没有科学精神，甚至还不曾有诗的音韵，但至少，我们还是朋友。而且就在三年以前，我和他同时选了这个迷人的、可爱的O。所以，这多少让我们的关系更近了一层，比学生时代要好多了。

我们终于到了R的房间。屋里的所有摆设跟我房间里的一模一样：守时戒律表、玻璃软椅和桌子、柜子，还有床。然而，当R走进来之后，他搬开了一张圈椅，接着又是一张——转瞬之间，屋里的秩序感消失了，代之而来的是平衡被打破的混乱，也破坏了欧几里得几何公理。R一点儿也没变，依然是那样。在学习泰罗管理法和数学之时，他总是成绩最差的那个人。

我们一起聊到了“啪啦啪”。那时候我们都很喜欢它，于是就将很多写满感谢话的纸条贴在了他的玻璃腿上。还有给我们上课的法律课老师。他的嗓门非常大，每次说话的时候，扬声器里会送出一阵阵风来。我们便扯着嗓子跟它一起念。记得有一回，爱搞恶作剧的R-13就弄了些皱巴巴的纸团，将它们塞到了喇叭里。从那以后，每次念课文，喇叭里就会飞出很多纸团来。最后R接受了惩罚，但是现在回想起这件事，我们三个笑个不停。是的，我也忍不住哈哈大笑了起来。

“如果它跟古代人那样，它成为一个活人，那又会怎么样呢……”R忍不住猜想着，接着，他那两片厚嘴唇又不断冒出唾沫来……此刻太阳透过天花板和四壁照了进来。我们都被阳光包围着，而它的影子则在我们脚下。O温柔地坐在R-13的腿上，她漂亮的蓝眼睛也闪着可爱的光。此刻，我觉得分外平静，心烦的情绪也不在了，-1的平方根也安静了下来，不再出来捣鬼……

“你的‘积分号’如何了？它是不是很快就会进入太空去完成启迪太空居民的任务啦？加快进程吧，再快点！否则我们这些诗人会写出更多的诗篇，让‘积分号’都载不动。每天8点到11点……”R一边笑着，一边挠了挠自己的后脑勺。他的后脑勺有些方正，看起来活像小手提箱，我即便联想到一幅古代的画作——《在马车里》。

我心情愉快地问道：“啊，你也在为‘积分号’创作吗？你快说说你都写什么啦？比方，就说说今天的感想吧。”

“今天啊，今天我什么也没写。因为，我有别的事要处理……”他说到“别的事”的时候有点犹豫，因此又喷了很多的唾沫出来。

“那是什么事情啊？”

R皱了皱眉头：“若是你很想知道，我就不妨直说了吧，嗯，其实，我是在写一份判决书，我想以诗歌的形式呈现出来。而被处决的正是我们中的一员，是的，他也是一位诗人。就是精神错乱了。有点白痴……我们在一起相处了两年多，本来什么都好好的，但是突然有一天，他就疯掉了。他居然说什么：‘我是天才，我凌驾于法律之上’。他还写过不少疯话……唉！我怎么说起这些来了。”

R的厚嘴唇不再向上翘起，而是突然耷拉了下来，眼里的光泽也突然消失了。他突然站起身来，别过身去，眼睛透过玻璃看向外面。我盯着他的后脑勺，看到那个小箱子，心中暗想：“此刻，他的小箱子在翻腾着什么呢？”

接着，是一阵令人不安的沉默。我觉得有些不妥，虽然说不上来为什么。但是就是觉得有什么地方不妥……

“幸运的时候，那些莎士比亚、陀思妥耶夫斯基（还有几个作家的名字）的时代已经一去不复返了。”我有心地高声说道。

R转过头来，看向我，同时，他从厚嘴唇里又喷出很多话来，但是，他的眼神却没有了先前的光泽。

“是啊，我可爱的数学家，我们多么幸运，我们多么幸运啊！我们在这个美好的算数黄金分割点上……就像你所说的那样，从零到无限大，从痴呆的人到聪明如莎士比亚的人，我们都进行了积分化。所有的一切都是这么的和谐统一。是不是？”

不知道为什么，我突然想起了她，那个女号码，想起了她说话时的语调。我意识到在他们之间有一根很细的线（到底是什么线呢？我说不清楚）。而此时联想到这些，真是我的不对。那个讨厌的-1的平方根又

回来了。我看了看证章：16点25分。粉红票的使用时间只剩下35分钟了。

“我必须得走了……”我吻了O，和R握手道别，转身朝电梯走去。

我已经来到了大街上，当我穿过马路来到街对面时，再回头看那幢玻璃大楼。很多灰蓝色窗子被窗帘遮上了。那是美妙的泰勒式幸福。我找到了R-13家所在的小方格，窗帘已经放下了。

亲爱的O……亲爱的R……原来R身上也有（我不知道为什么会写下这个“也”字），是的，他身上也有着某种隐秘的心事。而我们三人，即我、R和O——我们是稳定的三角形，未必是等腰三角形，但一定是个三角形。我们，若是采用古人的说法（这可能对你们星球的读者来说更容易理解一些），我们亲如一家。偶尔，我们可以躲进这个牢固的三角内休息。即使是短暂的也好，这短暂的躲避也会让你心情愉快。

笔记之九

祭典

铿锵格

巨手

今天是个气氛庄严的日子，在这样光辉的日子里，你会忘记我们自身的一切，包括我们的弱点、我们的不精确性以及我们的病痛。周遭的一切都如同崭新的玻璃一样，通透、坚实、永恒。

我们身处在立方体广场。广场上的观众台是66个同心圆，有66排号码坐在那里，他们的脸上泛有安详之光，眼中满是肃穆的光亮，也许这便是联合国的光辉。女号码的嘴唇似殷红的鲜血所染就的花朵。那坐在座位前几排的则是一串串娇嫩的花带，他们是孩子们的笑脸。整个广场流露出肃穆又庄严的气势。

根据我们所掌握的材料来看，古人的礼拜仪式与我们今天的祭典非常相像。但是他们所顶礼膜拜的是上帝，即那个可笑的，古人所臆造出来无所不能的天神。我们可不会那样愚蠢，我们膜拜的是理性之神。他们所谓的上帝，只是让他们陷入不断的自我反省和痛苦无比的寻觅之中，什么也不会赋予他们。除了所谓的自我牺牲之外，甚至连那些牺牲的意义都没有搞清楚，他们仍然困惑，仍然蠢笨。与之相比，我们的理性之神则帮我们解决所有的难题，它又是平静的、祥和的。

今天是联合国最盛大的祭典，也是对200年大战的回忆，是全体对个人，是总和对单一的胜利！

而今，有一个号码就站在广场中央的立方体高台上，他虽被阳光照耀着，但脸色却如此苍白。不应该说是苍白，而应该说是无色的，类似玻璃般透明，不但是脸孔，连嘴唇也是透明的。但是他的双眼却是黑森森的，就像要将一切都吞噬掉的可怕黑洞一般。标志着他特征的胸章早已被摘除了。他的两只手用火红的带子捆住（这是古代的习俗，大意是这样的：那时候，还不存在联合国，因此，被判有罪的人肯定觉得自己有权利抗争，所以他们的手要用铁链铐住）。

在立方体高台的顶部有个一动不动的机器，它是死刑机。而在死刑机旁矗立着的则是凝然肃穆、身躯如金属铸成的全知全能者。我们在下面朝上望过去，因此，并没法看清他的面容，而只能见到他那棱角分明、匀称简朴的线条轮廓。

还有他的手.....这跟照片上的效果是一样的，如果手足够近的话，你会觉得它非常强大。而此时，我们的注意力都被它们所吸引，忘记了其他的一切。只是专注在那一双沉甸甸的大手上，此刻，它们正稳稳当当地放在膝盖上。它们太重了，简直膝盖有点无法承受了.....

突然，一只巨手缓缓地抬起了，庄严又沉重的命令由此而发出。观众台上的一个号码走了上来，这是遵照手势做出的回应。他是一名诗人，今天他非常幸运地向祭典献出自己的诗篇。

紧接着，全场响起了铿锵有力的诗句，每一句都指向那个疯狂的、丧失了理智的号码。此刻他正被反剪着双手，立在台阶之上，等待最终的宣判。

.....一片火光。在这铿锵格的朗诵中，房屋也要坍塌了一般，周围泛起黄色的光，墙瞬间便倒塌了。绿色的树干被烈火烧干，流淌出脓液，最后余下焦黑的枯枝。随之普罗米修斯降临了（这当然是指我们）：

“火焰被锁上了枷锁，他用机器和钢铁，在混沌的世界中建立秩序的法则。”

一个焕然一些的世界出现了，这是钢铁浇筑的世界：钢铸的太阳、钢铸的森林、钢铸的人类.....突然出现了一个疯子，他“打开了枷锁，火又再次出来兴风作浪”，而世界又进入了混沌之中.....十分可惜的

是，我没法记住这首诗。我只记得，当聆听的时候，我觉得这是最恰当的，也是最富教育意义的比喻了。

那沉重的铁掌又一次举起，于是，立方体高台上又出现了一个诗人。我吃了一惊，不由得站起身来。居然是他！这怎么可能呢？但是，就是他，那厚厚的黑人般的嘴唇……他怎么没跟我说起呢？他居然被赋予了如此伟大的使命……他的嘴唇在瑟瑟发抖，居然变成了灰色。我能理解他此刻的心情。毕竟近在咫尺的是我们的全知全能者，他可是联合国的灵魂人物啊。还有身旁的众多安全卫士们，但是，即使是这样，也不要显得过分紧张啊。

诗句锋利无比，又干脆利落……就像利斧一般砍削，字字短促却分外有力。它述说了我从未听过的罪恶，他居然写出亵渎全知全能者的诗篇，说他是……天哪，我怎么能重复那些字眼呢？

R-13念完诗，面色苍白地走了回去，他的眼睛没有看任何地方，而是直视着脚下的路，最后坐下。（想不到，他居然这么腼腆。）我突然看到另一张脸，在他的身后。那是一张尖尖的脸庞，呈深色的三角形，转瞬即逝。接着，我的眼睛跟数千双眼睛的目光，一齐投向了死刑机。然后，便见到那只钢铁铸成的巨臂第三次做了个手势。

那个囚徒被风吹得有些摇晃，他慢慢地走了上去。一级、二级、三级……直到走到最顶端的台阶之上。终于到了生命的最后时刻，他昂起头，脸望天空。如命运般沉重的全知全能者走了过来，在死刑机四周环顾一圈，巨掌放在了操纵杆上……全场肃穆，落针可闻，所有的目光都集中在那巨掌之上。它承载着几十万伏电压，它执行了成千上万人的意志，这又是何等威严而伟大的使命啊！

这一秒钟分外长，终于，手臂一动，操纵杆被压动了，电流接通了。明晃晃的刀刃，只是微微颤了一下……死刑机的管道发出了非常轻微的咔嚓声，一阵轻烟将那个号码笼罩住，只一瞬，他便开始消融了，所有人都目不转睛地看着，顷刻间，他的身躯就消失不见了，取而代之的是一摊洁净的液体。在这之前，他还是有着鲜血涌动的生命……

这一切的原理，我们再熟悉不过了。这是物质的分解，即人体原子的分裂。但是每次欣赏这样的分裂过程，我们总能感觉到全知全能者的超人伟力，就像在看奇迹般观看这场祭典。

女性号码们涌了上去，她们簇拥在全知全能者身边，她们露出红彤彤的脸颊，激动地张着红润的小嘴，手中拿着的鲜花[2]在微风中招展着。这是惯例，有10名女性号码可以在全知全能者身上装饰鲜花。而全知全能者则如最高司祭一般，肃穆而缓慢地走下台阶，缓缓地在观众席间走过。所有女性号码伸出手臂来欢迎他，而全体号码则要齐声欢呼、呼声震天。接着，全体号码再向安全卫士们致敬。虽然他们也在观众台上，在我们身旁，可是我们却认不出他们来……谁又清楚呢？没准古人所幻想的未来世界便是如此，他们心中的“守护之神”便是今日的安全卫士们。

[2]这些鲜花是从我们的植物博物馆里摘来的。我并不认为它们很美，它们就跟其他在绿墙之外的那些野蛮的东西们一样低级。只有那些充满理性之光的、有用之物才是富有美感的。比方说，机器、靴子、公式、食品，等等。

是的，整个的祭典仪式，有些部分类似于古代的礼拜仪式，然而更多的则是类似于雷雨般的使人得到净化的功能.....我所未见的读者们，你们若十分荣幸地读到这篇笔记，看到我的这段描写，你们是不是也会有类似的经历呢？如果你们没有，那我真的觉得你们的人生太可悲了些。

笔记之十

信

小耳朵

毛茸茸的我

昨天。它成为了一张过滤纸，所谓的过滤纸就是那些化学家们常用来过滤化学液体的纸。经过过滤之后，所有的多余的分子就会被过滤掉。今天早上，我愉快地下楼，仿佛自己已经被蒸馏得干干净净，是那么地精神爽利。

楼下的大厅里，有一个控制员，她的工作职责就是时刻看表，登记那些进来的号码们。她家U.....我不打算说出她的号码，否则我可能会说她什么不好听的话。而实际上，她是一个令人敬重的，年纪不小的女性。她唯一让我感觉不舒服的地方是，她的两颊总是下坠的，就像鱼鳃一样。（当然，这长相也没有什么特别需要批评的！）她用笔写着，我

看到：纸上的字迹是D-503，而就在这时，一滴墨水滴了上去。我刚想说话，她却突然抬起了头，朝我微笑着，那微笑也像那滴浸淫了的墨水。

“有你的信，亲爱的。你会收到它的。你会的。”

我知道，凡是经她读过的信，都必须送到安全卫士局去（这一点是不言自明的，不必我做过多的说明了）。在12点钟之前，这封信会如期转到我的手里。但是，她那浸淫着墨水的微笑让我不舒服。纯正透明的液体又被墨水搅浑了。这干扰不言而喻。在“积分号”操作台上，我险些失误，差点计算错了一个数据，这在我是从来不会发生的事。

12点，在见了那个红褐色的鱼鳃脸和她那墨水似的微笑之后，信终于转到了我的手中。我说不清楚，为什么我没能当场就打开信，而是将它塞在里口袋里，急忙跑进了屋里去。随后才拆开了信封，很快就看完了它，然后.....我便坐了下来。信的内容很简洁，是一份正式通知书，大意是：I-330登记了我，今晚21点我要去她那里，其余的就是她的地址。

“这是怎么回事？我已经很清楚地表明我的态度了。在发生了这一切之后，她怎么会有这种要求呢？再者，她怎么会知道我没有去安全卫士局呢？因为她不可能知道我生病了。而且.....”

我的头脑如一台发电机般急速转动着，不停地响着。佛像.....黄颜色.....铃兰.....粉红的月牙儿.....而且，今天，是啊，O会到我这里来。我要将这张与I-330通知单告诉她吗？她一定不会相信的！这事跟我没有任何关系啊。我完全是.....（铁定很难让她相信）但是，我们之前会有一场困难无比的、又毫无逻辑可言的谈话，这点儿我是十分肯定

的。不，不能这样，只要不进行这类谈话，怎么都行。不如就顺其自然吧。就直接给她寄一份官方通知书的复制件算了。

我快速地将通知书塞进口袋里，这个动作让我一眼便看到自己那只原始人的手。我想起那天散步的情形，I拿起我的手反复打量，难道她真的.....

眼看要到21点15分了。今晚是一个明亮的夜晚，四周的一切都是用绿莹莹的玻璃组成的。但是这种玻璃跟我们用的那种不同，它更容易碎，又很薄。空中犹如罩了一层薄薄的玻璃，里面的一切都在飞旋着、乱叫着.....若是眼前出现了那些情景，如礼堂的圆顶盖像烟雾般冉冉上升，或者是月亮像浸淫着墨水的U那样微笑，或者所有房间里的窗帘都被拉下.....我也不会有丝毫惊讶的。

我有些不同，似乎所有的肋骨都变成了一根根铁条，压迫着心脏，使我呼吸急迫。我来到了一个玻璃门旁，门上清楚地印着金色号码的——I-330。此刻，她正背对着我，伏案写着些什么。我进了屋。

“票子.....”我将一张粉红票子递了过去，“今天我接到了通知，因此，便过来了。”

“你真准时！稍等我一下，号码？先坐一下，我马上就结束了。”

说完，她便垂下眼去继续写。在那垂下的眼睑后面到底有什么呢？她到底想做什么呢？她心里到底藏着些什么呢？我怎样才能计算出答案呢？她自己仿佛就是那个来自野蛮时代的原始人。我默默地看着她。我的肋骨像一根根铁条，挤得更紧，心脏的压迫感也更强烈。

.....每次交谈的时候，她的面孔就像是飞速旋转的车轮一样，根

本没法看清楚她有几根辐条。而此刻，这个轮子居然没有动。我眼前的她有着奇特的组合：她那两条挑起的眉毛已经延伸到太阳穴处了，因此，便成了一个颇具嘲弄意味的尖三角，此外，还有一个正三角，那就是从鼻端至嘴角的两道深深的皱纹，这是一个角尖朝上的三角形。两种三角形和平地呈现在一张脸上。这十分不协调，这就是那个令我烦躁的X。而整张脸又像一个画上十字架的大叉。

轮子快速地转了起来，辐条又看不清楚了.....

“看来，你果真没有去安全卫士局！”

“我.....我生病了.....所以没去成。”

“嗯。我已经料到了，你一定不会去成的。不会有这件事，就会有那件事。（尖利的牙又露了出来，她微笑着。）不过，现在你可在我的手中了。你知道吧：‘任何号码若在48小时之内有隐情不汇报，将被认定.....’”

心脏猛地一跳，肋骨的铁条都被挤弯了。我太傻了，简直跟个小孩一样。我居然被骗了。我只得呆坐着一言不发。我已经深陷在一张网中，手脚拉扯着也逃不脱.....

她站了起来，伸了个懒腰。随即便按下了按钮，窗帘被拉了下去。我和她单独相处了，外面的世界与我们暂时分开。

I站在了我的后面，窸窸窣窣地脱下衣服。我一动不动地听着，突然之间，我想起了一件事.....不对，这是一种闪念。那还是不久之前的事，我接到命令，给一种新型街道音响振动膜片计算弧度（当然，这种振动膜片都有一个很好看的外观，就是一种粉红的小耳朵，它们被安放

在马路上，为安全卫士局记录街头人们的谈话内容）。我记得那些粉红色的小耳朵，它们只有一种器官，只有一种功能，就是听。而我现在就是那种小耳朵。

我听到解扣子的声音，“吧嗒、吧嗒、吧嗒”，先是领子，接着是胸口，接着是更低的位置……丝织品滑过肩膀、膝盖的声音，落地的声音。接着，我又听到（这比用眼睛看更清晰）一只脚，从浅灰蓝的丝质衣服里跨了出来，接着，另一只脚……

小耳朵颤抖着，悄悄听着发生的一切。周遭无声无息的，不对，有心脏撞击铁条的声音，那声音沉闷而又剧烈。我听见，或者说我感觉到了，她在我背后，停顿了一秒钟。随后，柜门的声音响了，接着又是丝质衣服窸窣窸窣的声音……

“行了，转过来吧。”

我转过身来，她身着一件杏黄色的古装衣裙。她居然穿成这样，这比她什么都不穿要恐怖1000倍。薄薄的衣料半遮半掩地露出尖尖耸起的两个尖峰，那泛出粉红的颜色的两个小点儿若隐若现，还有一双柔软的浑圆的膝盖……

她坐在一张低矮的软椅里。面前的方形小桌上有一个小瓶子，瓶子里有满满的绿色液体像毒液一般，而在瓶子边上有两个高脚小杯子。此刻，她嘴里含着一根细细的纸管，不时地从嘴角喷出烟雾。（这是一种古代的制烟物质，我一时想不起这叫作什么了。）

小耳朵仍然在震颤着。心脏的锤子仍然在猛击烧得滚烫的铁条。我自己听得清清楚楚，那每一声的撞击声，如雷贯耳……若是她听到了怎么办？

但是，她只是悠然地喷吐着烟雾，偶尔瞥我几眼，然后，不动声色地将烟灰抖在我的粉红票子上。

我尽可能地保持冷静的语调，问道：“若你只想这样的话，为什么非要登记我呢？又为什么邀我来这呢？”

她好像什么都没听到一样，拿起小瓶往小杯子斟满那绿色的液体，又喝了一口。

“好酒。你要喝吗？”

原来这是酒。这时候，我才突然醒悟过来。昨天的场景又浮现了出来：全知全能者那只巨大的手臂，那炫目的利刃，以及立方体高台上的那个脸朝后仰的躯体。我的身躯剧烈地颤抖着。

我说道：“你什么都知道，对吧！法令规定，凡是吸食尼古丁或者饮用烈酒的人，联合国绝不会轻饶.....”

两道黑色的眉高高挑起，直指太阳穴，形成一个尖三角。看着十分具有嘲讽的意味。

“‘杀掉几个人比让千千万万个人自我毁灭或堕落.....更为明智’.....你不觉得这很可笑吗？”

“可笑，你怎么会有这种想法？”

“若是将这些真理放到街上会怎样？那些赤裸裸、光秃秃的真理.....你设想一下.....比如，我那个忠实的追求者S，你不是也见过他吗？若是他衣不蔽体地走在大街上，让所有人看到他的真面目.....这会怎么样？.....噢！”她笑着说道。但是我意识到，从她的鼻子到嘴角有

一个显示出悲伤的三角形。我立即弄明白了：那个佝偻着身形，有着招风耳的S，他搂抱着她的模样，她，当时这是副样子吧.....

是的，而今我所记录的内容，只是当时我的所思所想而已。此刻，我边写边明白过来，他那样做是正常的。这话的意思即，他也是一个号码，如同所有诚实可靠的号码一样，他也有权享受生活，否则便不公平了.....这是再明白不过的事实。

I大笑了很久，她笑得非常怪。收住了笑之后，她仔细地看了我一眼。

“最惊奇的是，我和你在一起很放松。我不觉得你有什么威胁。你是个不错的人，这一点我深信不疑。你不会去的，你绝对不会去安全卫士局告发，说我又喝酒又抽烟。你或者生病了，或者实在很忙，或者还有其他的原因.....我相信，你肯定也想尝一尝这迷人的酒。”

她居然这么放肆，这么肆无忌惮地嘲讽我！我清楚地意识到，此刻我很恨她。为什么要说“此刻”呢？我应该是一直就很恨她的。

她将那杯满满的绿色毒液一饮而尽，随后站起身来，走了过来，在那杏黄色的衣裙掩映下，粉红的肌肤若隐若现，她停在了我软椅的后面.....突然，她用手臂揽住我的脖子，嘴唇挨着我的嘴唇。不对，不是挨着，而是深些，更深些，更加可怕些.....我发誓，这超出我预料之外，可能是.....可能是我根本没法抗拒（现在我完全清楚了），单单是我，是不会发生后面的事情的。

嘴唇太甜腻了（我想这便是酒精的味道吧）。仿佛猛烈的毒药进入了我的口里，越来越多，越来越多.....

我离开了大地，像一颗单独的卫星一样，不停地转着，沿着一条没经计算的轨道旋转着，转啊转，然后坠落……

此后发生的事，我仅能勉强写个大概。

从前我从来没有思考过这个问题，其实这是确实存在的事实，即我们所生活的地球，它的内核是熊熊火焰，而身为一个人，我们时时刻刻生活在这灼热的红海之表面。只是，我们从来没有认真思考过罢了，若是我们脚下薄薄的外壳变成玻璃的，转眼之间，我们便看到那……

我突然间变成了玻璃人，我看清了我自身的内部结构。我有两个我，一个是过去的D-503，号码为D-503，而另一个……从前他还只是偶尔显露一下他毛茸茸的爪子，而现在他却从躯壳里跳了出来。而这层外部的躯壳裂开了，快要……

我使出全身力气想抓住最后那根救命稻草（软椅的扶手），我大声地说出话来，以便我能听到曾经的自我的声音：“从什么地方……你究竟是从什么地方弄来的……这毒酒？”

“噢，这个啊！是一名医生给的，我的一个……”

“‘我的一个！’‘一个’什么人？”

另一个自我不可遏制地突然跳了出来，他大声喊道：“我不准许！不准许，任何人……只有我，只能是我。若是谁……我就杀死他……因为我……我……”我看见，另一个自我用毛茸茸的手使劲搂住了她，撕扯着她身上的薄丝裙，用牙咬着她。……是的，我记得确实如此，他用牙咬着她！……

我不记得细节了，反正，I最后挣脱掉了。那一刻，她的眼睛又盖

上了那层该死的不透光的窗帘。她昂着头，直着身子，斜倚着柜子站着。

我清楚地记得，我跪在地板上，抱住了她的腿，亲吻着她的膝盖，哀求地冲她说：“此刻，快啊，现在，就现在。”

她露出了尖利的牙齿，眉毛挑起，那个具有讽刺意味的三角形又出现了……她缓缓地弯下腰，无声地摘下了我的胸章。

“甜心，甜心，就这样。”

我慌乱地脱下身上的制服。但我仍旧什么都没说，她将胸章上的表打开了，让我看时间。表上显示着22点25分。

我的心顿时彻底凉了。我知道，如果22点半以后，我还在街上游荡的话，那将会给我带来致命的恶果。刚才的狂热顿时烟消云散，我又恢复到了原来的我。但是有一件事我却无比清楚：我恨她，很恨，很恨！我甚至没有跟她道别，便头也不回地跑了出去。我一路跑一路尽力将胸章别到胸前，从备用楼梯（我怕在电梯里被人发现）使劲往下奔去，直到来到空无一人的大街。

一切都井然有序，又简单又规矩。我目光所及全是亮着灯的玻璃房子，白色的玻璃天空，还有那绿莹莹的静静的夜晚。然而，在这片宁静、冰冷的玻璃之下，却有着一颗狂暴的、躁动的、毛茸茸的东西在静静地沸腾着，我气喘吁吁地使劲跑着，一定不能晚啊！

突然，我意识到，刚才着急别上的胸章掉了下来，叮当一声落在人行道玻璃路面上。我连忙弯下腰去捡起来，就在这短短的一秒钟中，我似乎听到背后有脚步声传来，我扭头看去，只见一个瘦小的驼背身影在

街角出现，至少我当时这么觉得。我又使劲地跑了起来，耳边有着风的呼呼声。终于来到了我的房门口，我停住脚步，22点29分。离规定时间只差1分钟！我侧耳倾听，并没有人跟来。这太奇怪了，一定是毒酒的副作用。

当夜我难以入睡。我感觉我的床仿佛会动，它一会儿升起来，一会儿又降下去，又升起.....我不断默默地告诫自己：“深夜，所有号码都必须睡觉，这是责任，就如同白天所有号码都必须工作一样。为了白天的工作，夜晚必须安眠。否则便是犯罪。”但是，仍然没有用，我还是无法入睡.....我完蛋了。我没法履行对联合王国的义务！我.....

笔记之十一

不行，我写不来；没有提要就没有吧！

深夜。雾气蒙蒙。空中布满了金灿灿的云块，因此没法看到更远处。古代人觉得那便是天神——那个了不起的怀疑主义者——的所在地。而我们却十分清楚，那里是清澈、晶蓝、光秃的一片，其余则一无所有。其他的我也不知道了，而现在我却已经知道得太多了。能确信知识的正确这便是我的信仰。我曾坚信自己，我坚信我非常了解自己。而今——当我再一次对镜自照的时候，我居然生平首次看清了眼前的那一个“他”。我惊奇地发现，眼前的这个人，便是“他”：两道浓黑的眉毛，在中间的眉心位置居然有道类似刀疤的垂直的皱褶（这道皱纹以前

也有吗？），浅灰色的眼睛四周有一圈黑眼圈，这是失眠导致的。而在这浅灰色的眼睛后面.....而今我终于发现，在它后边的是什麼。在此之前我从不曾知道那里会有些什麼。我从“那里”（这个“那里”既熟悉又陌生，它仿佛就在眼前，又远隔万里）望着镜中的自己，也望着那个他。我终于可以确信，那个有着两道浓眉的人，并不是我，而是其他人，这并不是真正的我，我也是生平头一次与他相遇。

啊，我到底在写些什麼，赶紧停下来吧。所有这些简直是胡说八道，太莫名其妙了，可能是昨天中毒所导致的吧.....到底是中了什麼毒呢？是中了那绿色的毒汁，还是中了她的毒？不过，这无所谓了。我之所以会写，就是想让大家看看，人类精密的逻辑与理智有时候会莫名其妙地颠倒到什么程度。而这样的头脑，则能将古代人百思不得其解的问题轻而易举地解决了.....联络机响了，R-13。是他。我简直有点儿欣喜若狂了。我实在不想一个人待着.....

20分钟以后

在这由平面的二维世界所组成的纸上，我见到一行行的字整齐排列着，而我眼前的另一个世界，则.....我对数字的感觉居然在逐步消失，只有20分钟，怎么我感觉却过了200分钟，甚至是20万分钟.....

当我平静下来，一字一句地将R与我会面的情形认真写下来，这感觉太怪异了。就像是一个人坐在自己的床边，悠闲地观察着躺在床上愁眉苦脸的自己一样。

R-13进来的时候，我已经神色如常了。我跟他谈起在祭典上他朗诵的诗歌，还表达了我由衷的敬佩之情。我觉得他写得很成功，那个狂人就是因他的诗的审判而最终走向灭亡的。

“.....而且若是我被要求为死刑机做示意图，我一定会毫不犹豫地
将你的扬抑格放进去。”我对他说道，同时不经意地瞧了他一眼，结果
就见到R暗淡无光的眼睛和发白的嘴唇。

“你怎么啦？”

“什么？啊.....我只是觉得腻了。到处都在讲判决书，判决书。我
不想再谈这些了。我不想.....”说到这里，他皱着眉头，同时揉着后脑
勺那个小箱子，小箱子里仍然装着我无法理解的东西。我们都不说话
了。过了好一阵儿，他仿佛在小箱子里找到了些什么，急于取出来，他
的双眼突然又闪亮了起来，带着笑意。他猛然站了起来：

“我要写诗，为‘积分号’写诗！是的.....我要写这样的诗。”一瞬
间，R又恢复了过去的样子，他的嘴唇又喷出很多唾沫星子，话又多了
起来，小喷泉又翻涌着。

“嗯，你看啊（又喷了些水），古代的与天堂相关的传说，你知道
吧。其实现在回想起来，那讲述的就是我们啊，而今我们所处的时代。
确实如此，你设想一下。人类有两个乐园：一种是没有自由的幸福，另
一种是没有幸福的自由，只有这两种选择，没有其他。而那些愚蠢的古
人选择了后者，所以，在接下来的日子里他们一直想得到脚镣手铐的束
缚。他们不断思念着，思念着，这便是他们口中的‘世界之大不幸’。这
样过了几个世纪，直到我们这个时代，他们才重新认识到，如何能重新
获得幸福.....不，你仔细听我说！那时上帝与我们坐在同一张桌子前。
的确是这样！是我们帮助了上帝，我们制服了那些恶魔，就是那些恶魔
们，他们让人类去犯禁，去偷吃禁果，将人类禁锢。他就是那只阴险毒
辣的蛇。而我们最终抬起了脚，往它头上使劲儿一踩.....好了，他死
了。而我们又重获了天堂。我们又回到了亚当、夏娃的时代，我们简单

纯洁、无忧无虑。没有了所谓善与恶，美与丑，因为一切都归于单纯，如天堂般纯净的美好生活，如孩童般天真的心灵。全知全能者、死刑机、立方体高台、气钟罩、安全卫士——这一切都是万般美好的，这意味着善，意味着庄严、壮观、纯粹、高尚、崇高和无瑕。因为这一切都让我们不自由——即让我们拥有着美好的幸福。也只有古人才会胡思乱想，不停地争论，什么是道德，什么又是反道德的。……得了，就是这样了，反正，我是想写一部这样的天堂史诗。你觉得如何？对了，总体的风格是庄严的……你听明白了吗？是不是很不错呢？”

当然是很不错的了！我记得，在我听完了他那番陈述之后，想：“虽然他长相不怎么样，甚至看着有点蠢，但其实他的头脑是很理性的，很聪明。”因此，我觉得我非常喜欢他，我是说那个真的我（到现在我仍然觉得，过去的那个我才是真实的我，而眼前的我患了病）。

很明显，R从我的面部表情中看出了我的想法，他搂着我的肩膀，哈哈大笑了起来：“哎，你呀你……亚当！哦，对了，顺便说一下那个夏娃的事吧……”随即，他从口袋里掏出一个小本子，边翻看边说：“后天……不是，是两天以后，O有一张你的粉红票子。你觉得怎样？还跟以前一样吗？你想让她过来吗？”

“这还用问吗？当然想啦。”

“好，那我转告她。否则，你知道吗，她自己还有些害羞呢……多么有趣啊！我跟你讲，她对我仅仅是按粉红票子行事而已，可是对于你……她又不好意思直说到底是谁插进了我们的三角关系之中。风流鬼，你坦白告诉我，到底谁啊？”

我的心里突然有个帘子掀开了：那丝绸的窸窣声，那绿色的酒瓶，

她那温软的嘴唇.....突然之间我居然问了句不该问的话（唉，我要是没说那句话该多好啊！）：“告诉我，你尝过尼古丁或者酒的滋味没有？”

R抿着嘴，皱着眉头，瞧着我。我知道他此刻的想法，他一定觉得：“虽说我们是很好的朋友.....但.....”他还是回答了我：“怎么说呢？我自己其实是没有尝过。但是我知道有个女子.....”

“I-330！”我喊了出来。

“怎么？你，难道你也是？”他大笑了起来，笑得气都喘不过来了。

镜子在桌子的另一边，此刻坐在软椅里，只能在镜中看到自己的前额和眉毛。此时，真实的我在镜中见到了一个扭曲的模样，那两道眉的裂痕歪扭着，拧紧着。接着是一声野蛮又刺耳的嚎叫：“‘也’是什么意思？你快说，那个‘也’到底是什么意思？我命令你说！”

R的两片厚嘴唇大张着，而双眼也瞪得圆圆的.....终于，那个真实的我制服了那个野蛮人，他扭住了那个野蛮人的衣领，让那个长着毛手的、气喘吁吁的我不能动弹。真实的我R诚恳地说道：“看在全知全能者的分儿上，请原谅我的冒失。我病了，病得太厉害了，我辗转反侧，无法入眠。我也不知道我到底是怎么回事。”

镶嵌着厚嘴唇的脸上掠过一丝笑意：“是的，是的。我懂的，我懂你！因为这些我非常熟悉.....当然，这是理论性的。再见啦！”

走到门口，R又像个黑球似的滚了回来，走到桌子旁，扔下一本书，说：“这是我刚完成的作品.....专门送给你的，差点儿忘了这个。再见。”说着，又朝我喷了一阵唾沫，离开了。

只剩下我一个人。或者更准确地应该说，只剩下真实的我和另一

个“我”待着。我跷着二郎腿坐在软椅里，很好奇地盯着那个在床上愁眉苦脸的我。

怎么会这样呢？这到底是为什么？三年的时光，我、O和R相处得十分融洽，而今却只是提了一下她的号码而已.....难道这就是所谓的爱情，所谓的嫉妒，这些东西果真让人疯狂，不止存在于古人所写的那些可笑的书里面。我头脑中的方程式、公式、数字完全消散了，全部变成了一团乱麻.....不行，明天我要去找R，跟他说.....不，那是假话，我不可能会去的。明天不会，后天也不会。永远我都不会去了.....我不能，我没法去见他。就这样吧！我们稳固的三角关系就这样垮了。

我一个人。傍晚。薄雾。金光灿灿的白色的天幕遮住了天空。如果我能知道高处是什么该多好！如果我能知道，我到底是谁，我是什么人该有多好！

笔记之十二

对无穷大的限制

守护天使

对诗歌的思考

我仍然相信，我会康复的，我会一如从前。最近我睡得很好。不再

做梦，也没有了病痛。而亲爱的O明天就要来看我了。一切都将恢复过来，就像一个简单的、规律的、有限的圆圈一样。我并不惧怕“有限”这两个字，因为人最高理性活动的目的，就在于要对无穷大不断的限制，要将无穷大变为灵活而又方便的、容易被人所理解的微分。正是因为这一点，我的工作，即我所热爱的数学有着美感。而她，却恰恰缺乏这种美。当然，这只是我的偶然联想。

我坐在地铁的车厢里，在车轮有节奏的隆隆声中想到了这些。伴着车轮声，我低声地吟诵着R的诗句，手里是他昨天送给我的那本诗集。我突然感觉到，在我背后有个人俯在我的肩头，偷窥我面前打开的书页。我并没有转过头，而是用眼角的余光见到一对粉红色的招风大耳朵，以及那个熟悉的佝偻身影.....原来是他！但是我不想惊扰他，仍然装作一无所知的样子。我假装什么都没有发现。心中想着，我进车厢的时候并没有见到他。不知道他什么时候就出现在我身边了。

这虽然是件微不足道的小事，但是却让我振作了起来。这是一种非常好的影响，它让我信心倍增。当你感觉到有双警惕的眼睛在关爱地注视着你的举动，以防你出现什么差错，让你一点也不会偏离正轨，这是多么好的事啊。可能你会觉得我有点言过其实，但是在我脑海中总是会出现这类情景，就如古代人所幻想的天使一般，安全卫士对我来说就是那样的存在。而古人们所设想的很多美好的东西，而今都成为了现实。

当我感觉到有一个天使在护卫我的时候，我正在低声诵读那首叫《幸福》的诗篇。我觉得这是一首具有诗意美和思想深度的优美诗篇。开篇是这样的：

二乘二是永恒的相恋；

在四的情绪中不离不分.....

人间炽热相恋的爱人们，

正是二乘二的永恒之数。

剩下的诗句也同样地让人激动，充满着睿智的、永恒的、幸福的乘法口诀。

好的诗人都应该是哥伦布。在他发现美洲之前，这块大陆其实已经存在了若干年，但只有哥伦布看出了它的价值，并且让它被世人所知。在R-13出世之前，乘法表就已经存在了，但只有R-13在这个数字的丛林中找到了它的诗意之美。他描述得多么准确生动啊。在这世上，还有比找到这种美好的更美满的幸福吗？钢铁也会生锈。而古代的居民是上帝的杰作，我的意思是说，是上帝创造了那些会犯错误的人。当然，这便意味着上帝也犯了个错。而乘法表则不然，它更加聪慧，也更加准确。因为乘法表绝对不会（请注意我的用词），它绝对不会出错。能生活在乘法表所组成的严整而又永恒规律的数字王国之中，是多么幸福的事。没有犹豫，永不犯错。仅有一个真理，仅有一条正确之路。真理便是二乘二，正确之路便是四。若是这些幸福地、完美地互乘的二们思考起自由来，也就是说，它们想着犯错，这不是太荒唐了吗？R-13抓住了问题的本质、这最.....

此时，我的后脑勺又有了感知，那是守护天使呼出的暖暖的鼻息，现在又转到了我的左耳边了。显然，他意识到我已经把书合上了，而我的思想则飘出去老远老远。其实，若他要求我打开脑中的思想，我也很乐意。这样做我会觉得舒适和快乐。如今我甚至记起来，当时我还回头看着他，双眼盯着他流出征询的意思。但是他好像没有理解我的意图，

也或许是他不想弄明白什么。最终，他什么也没有问……我的那些素不相识的读者们，而今，我只能将我的心声吐露给你们。你们，在我看来，如今就像当时的他在我身边一样，是那样珍贵，虽远隔万里，却仿佛近在身旁。

我就是这样想的，由个人，比方R-13，联想到整体，比方，我们的国家诗人和作家学院。我思索着：古人怎么没有意识到这一点呢？他们的文学和诗歌创作是那么的荒诞，文学艺术的伟大的能量竟然被他们白白浪费了！任何人可以随便写出自己的想法，爱怎么写就怎么写，这简直太荒诞了！还有更加荒谬的，在那个时代，海洋整天都做着没有任何意义的拍打海岸的动作，那潜藏在波涛中的巨大力量只是用来激发恋人的爱情冲动。而我们，我们却从海浪的拍打中获取了电力。我们将这头发狂的如野兽般奔腾的海浪，变成了温驯的猎物。同样，我们也驯服了那些如夜莺般日夜鸣鸣的诗歌。而今，它们成为了国家的工具，为国家服务。

例如，我们著名的《数学诗歌》，如果没有这类诗歌，我们怎么会如此强烈、如此真诚地爱上四则运算呢。《玫瑰花刺》，这是多么经典的诗歌作品啊，安全卫士们就是玫瑰花刺，他们守卫着我们娇嫩的国家之花，来防御粗野的触摸……当听到孩子们齐声诵读：“坏孩子来采玫瑰，花刺尖扎疼了他，坏孩子大声嗷嗷叫，边哭边跑往家逃”的时候，当看到他们像背诵祈祷文一样露出虔诚、认真的神情，你怎么能不为之感动呢？还有那首《致全知全能者之歌》，当我们读到这首诗的时候，怎么会不被那位最英明、神武、伟大的号码自我奉献、全情投入的精神所动容呢？还有那部令人畏惧的《法庭判决之歌》，以及不朽的悲剧《上班迟到的人》，以及人人都记得的通俗之作《性事卫生诗抄》！

我们生活中的所有优美，所有复杂都通过文学语言得到不朽。我们

的诗人也不是古时候的天使精灵般地降临人间，他们是与我们有着相同步调的人间的智者，他们和我们一起踩着音乐机器进行曲那严肃、机械的节拍，一丝不苟地大踏步前行。他们所创作的诗歌来源于早晨电牙刷震动的时候，来自全知全能者的死刑机器的火星飞溅时、来自联合国国歌庄严肃穆的歌声中，来自透明的脸盆发出的响声，来自窗帘落下时发出的咔咔声，来自烹饪指南轻松快活的语言中，来自街头小耳朵十分微弱的震颤声.....

这些便是我们的神，他们就在这里，在我们身边，与我们在一起。他们身处安全卫士局、身处厨房、身处工厂、身处休息室。众神变得和我们一样了，因此，我们便成为了神。那些素不相识的星球上的读者们，我们很快就要见面了，到时候你们的生活也会变得跟我们一样充满了理性和精确之美.....

笔记之十三

雾

尔

荒唐的事

天刚拂晓，我便醒了。睁开眼睛便看到了玫瑰色的天。一切都非常好，既安宁又充满秩序感。晚上O就会过来了。我已经好了。我轻轻笑

着，又睡了过去。再次醒来时是起床铃响起之后。我透过天花板和四壁的玻璃向外看去，天空变了颜色，四周都弥漫着云雾。大雾弥漫，狂乱的浓云越积越多，越积越厚，甚至逐渐逼近。仿佛天地之间的界线也不甚分明，一切都飞快地运动着，不断地融化，坠落……什么都消失不见了，我见不到房子，看不到玻璃墙，它就像晶盐水中溶解了一样。只是影影绰绰地见到黑色的身影，在街上，在屋里。这些人影就像浸在奶液中的颗粒，他们飘浮着，有高有低，一切都在烟雾之中，仿佛在那里起了一场不知名的大火一样。

11点45分，我瞄了一眼表，立刻就记住了那个时间。眼看就要到了体力劳动的时间了。我连忙回到屋里待了一下。这时候，电话响了。电话那头的说话声像一枚细长的针逐渐扎进我心里：

“噢，你真的在家！太好了！请在街口等我。咱们一起去个地方……先这样，去哪儿？哦，见了面我再告诉你。”

“你非常清楚，现在我要去参加体力劳动。”

“你也非常清楚，你会照我说的办的。两分钟后见。”

两分钟后，我在街口处。我之所以在那儿是因为我要告诉她，我要听命于全知全能者，而不是她。居然还说出“按我说的办”这样的话！她居然还那么肯定，那样自信。好吧，我必须认真地跟她说清楚……

在街上，一件件仿佛由潮雾织成的灰制服匆忙从我身旁走过，又毫无察觉地融化在雾中。我一直盯着表看……仿佛这一刻，我变成了那根颤动着的秒针。10分钟，8分钟，3分钟，2分钟……眼看就要到12点了……不用说，劳动时间已经过了，我仍然在街上。我非常恨她。但是我仍然在等她，我必须让她知道……

在如牛奶般浓稠的白雾中，我见到了两片血红的嘴唇一闪而过，就像尖刀拉开的口子。

“让你等很久啦。但是，现在已经迟了。你没法过去了！”

我不出声地盯着她的嘴唇。女人在我眼中都是嘴唇，两片嘴唇。那个女人的嘴唇是粉红色的，圆润而有弹性，像个圆圈，将自己与其余的世界阻隔开来，而眼前的这一个，这副嘴唇啊，在一秒钟之前她还不在这里，突然她就来了，像用刀拉开似的，而今还淌着甜腻的血……

她走近了一些，肩膀倚在我身上。我们仿佛融为了一体，我感觉她身上的某种东西似乎流进了我的身体。我觉得就是这样。我的所有神经、所有的头发、所有的既感觉甜蜜又疼痛难忍的心跳都让我深切地知道，对这种“理所当然”，我欣然领命。若是一块铁被一块磁石所吸引，也一样会乐意服从这种必然的、科学的规律。同样的道理，如果一块石头被用力掷向空中，在经过短暂的停顿之后，它会飞速地往大地坠落。它心中也同样欢乐无比。而人在经过了弥留之时，最后呼出那一口气，然后便离开了人世，他也有着不言而喻的快乐。

我记得，想到那里，我便觉得窘了，我微笑着，突兀地说道：“雾……真大啊。”

“尔喜欢雾？”

这个“尔”是很久远的词汇，它是古代统治者用来呼唤奴才的，人们早就不用了。它缓慢地、尖刻地滑进了我的心中……是的，我就是个奴才，这便是需要，我觉得很不错。

“是的，很不错……”我默默地自语，接着便对她说道，“不，我恨

雾，我也怕雾。”

“那么就意味着你喜欢它。你惧怕它，是因为它比你强大；你痛恨它，是因为你怕惧它；所以，你是爱它的，因为你无法征服它，人们通常都喜欢他们所无法驾驭的东西。”

“是的。说得非常对。就因为这样……我……”

我们俩就这么走着，仿佛像一个整体。在层层雾霭中，我见到远远的太阳的微光，四周都充满着活力，周遭都披上了金黄的、玫瑰色的以及红色的光泽……整个世界像一个完整的女性，我们仿佛孕育其中，还没有出生，我们怀着欣喜之情成长着。我很清楚，我特别清楚地意识到：这一切——太阳、雾霭、那玫瑰色的和金黄色的光泽，都因我而存在。我没有疑问，我也不知道我们要去哪里。有什么关系呢？就这样走着，走着，生长着，生长着，这已经让我很快乐了……

“我们到了……”在一个门口处，我们停了下来。“今天值班的正好是他，上次我在古宅里曾说过他。”

我小心谨慎地呵护着体内正在生长的萌芽，看了一眼牌子上的字“医疗部”，我明白了。

……眼前是一间被金色云雾笼罩着的玻璃房间。在玻璃吊顶棚上有各种颜色的玻璃瓶子、玻璃罐子。以及电线，闪着蓝色幽光的管子。屋子的主人是个身材单薄的男性号码，他就像个纸剪的人，不管他怎么转动身子，你看到的只是一个单薄的侧影而已。他的鼻子也像亮闪闪的尖刀一样，而嘴唇则像两片剪刀。

我并没有听见I-330跟他说的话，那时候，我只是目不转睛地盯着她

的嘴唇，我看到它们在动，而我也感觉到自己脸上露出那不由自主的幸福的笑容。医生那剪刀似的嘴唇闪动了一下，说道：“噢，是的，我明白了。这病十分危险，我认为没有比这个病更危险的了。”他微笑着，用同样薄纸般的手很快地在纸上写着什么，然后将纸交给了I-330，随即又写了一张，交给了我。

他交给我们的是一张诊断书，证明我们生病了，无法干活。我是个不折不扣的窃贼，我偷盗了联合国的工作时间，我应该受到死刑机的严惩。但是这种想法却离我十分遥远，仿佛那是书里才有的情节，跟我并没有什么关系……我连忙接过了纸条，没有一点犹豫的意思。我，以及我的双眼、双唇、双手都明白，我必须这样做。

在拐角处空无一人的车库里，我们钻进了飞船。跟上次一样，I负责驾驶，她熟练地按动了起飞键，我们飞离了地面，而且越飞越高，金色的雾以及太阳都被抛到了身后，我想起了医生那尖削的侧影，突然我觉得他是那么的可爱。以前，我知道所有的一切都是围着太阳转的，而今我突然明白过来，其实一切都是围绕着我旋转的。我慢慢地、幸福地阖上了眼睛……

在古宅门口，我们又见到了那个老太太。她的那张嘴那么可爱啊。又皱成了一团，可能，它一直闭合着，而此时又欢快地张开了，她微笑着说：“啊，你这小淘气！你怎么偷跑出来了？……既然来了，那就算了吧！如果有什么事，我一定会赶过来通知你们的。”

我们进入了那扇沉甸甸的不透亮的门，随着沉重的关门声，我的心也疼痛地打开了，愈开愈大，直至完全敞开了……我的嘴唇触碰到了她的嘴唇……我吸吮着，不停地吸吮着。我勉为其难地放开了她，不出声地盯着她那睁大的双眼，接着又……

房间里有着黄昏所有的昏暗.....蓝的、杏黄的、墨绿的山羊皮，还有那佛像的灿烂微笑，巨大的木床，发光的镜子.....我又来到了这里，跟梦中的场景很像，而今我已经深深明白，一切都有着金灿灿的玫瑰色的琼浆，我自己的身体里也是这样.....仿佛，过不了多久，它就要喷涌而出.....我深陷其中，我遵循着不可抗拒的规律的支配.....这里什么都没有，没有粉红票，没有时间考量，也没有联合国，连我似乎也不存在了。只有那两排紧紧闭合的小利齿，还有望着我的温柔的睁大的双眼，我看着这双眼睛，越陷越深.....除了屋角的洗脸池里发出的滴水声之外，我什么都听不到。我觉得这声音似乎来自千里之外，那是某个远方的声音。而我则是宇宙.....在水滴声中，我感觉到岁月的流逝，转瞬之间就如同过了几个世纪.....

我穿上了制服，向I俯下身去，我要使劲将她看个够，仿佛这是最后的诀别一样。

“我早就知道.....我早就知道你.....”I轻声地说着。随即，她用手抚了抚脸，转身轻快地走下床，穿上制服，脸上又浮现出她惯常的如刺芒一样的微笑。

“好了，我的堕落天使。这下你可完了。难道你不怕吗？好了，再见。你可以一个人回去吧。如何？”

她打开了镶着镜子的大柜门，转头瞧着我，等待我的反应。我乖乖地走出了房间。刚走出几步，我突然觉得应该再依偎一下她的肩膀，哪怕只一下也好，我只有这一个要求。于是，我急忙转身回去。我想着，也许她还站在镜子前扣制服的纽扣。但是，当我跑进房间的时候，她并不在那里。我清楚地看到柜门上钥匙的圆环仍然在不停地晃动着，但是她却不见了。她没法这样离开的呀，因为房间里只有一扇离开的门。但

是她就是不在那！我将每个角落都找了个遍，我甚至还打开了柜子，将那些五颜六色的古代衣裙都翻了一遍，但是，并没有人……

亲爱的素不相识的读者们，将这段离奇的经历讲给你们听，我也觉得实在是太荒诞了。但是这都是我的真实经历，所以，我只能据实以告。从一早醒来开始，这一天都充满着不可思议的荒诞冒险，这就跟古代的那种叫作梦的疾病十分相像。既然如此，我讲的这个听起来有些荒诞的事就没有什么大不了的。此外，我坚信，迟早我会找到答案，能解释清楚这些荒诞不经的事。这么想，我便多少有些欣慰，希望你们也不要因此而感到疑惑。

……我仍然有些许不安！希望你们能够明白，此刻我的心情！

笔记之十四

“我的”

不准许

冰冷刺骨的地板

下面要说的仍然是昨天发生的事。因为，昨晚临睡前我有很多事情要做，所以短短的私人时间里，我没法把所有的事情都写完。但是，每件事却像印刻在我脑海中一样，挥之不去。我甚至永远也没法忘记，我

至今仍然清楚地记得那冰冷刺骨的地板.....

晚上，O会准时来我这里，因为这是她约定好的时间。我下楼去值班控制员那里，准备领取许可证。

“你怎么啦？”值班员问我，“你今天有点儿.....”

“我.....我生病了。”

确实是这样，我真的是病了。因为发生在我身上的一切都是病态的。想到这，我想起了那个病例证明，是啊，我有医生开的证明啊！我连忙将手放入口袋里去摸：它依然在那儿，还簌簌作响。这么看来，所有的事都是真实的，都发生过！

我将纸条交给了值班员。我发觉我的两颊滚烫。我没敢朝她看，但是，我仍然能感觉到从她的眼睛里射过来的奇怪的眼神.....21点30分。左边房间的窗帘拉了下来。而右边的屋子里，我看见他正在读书，我见到书上方的那个秃头的邻居，他的头上有不少疙瘩，而他的额头很像一个黄色抛物线。我有些苦恼，我不停地在屋子里走来走去。出了那么多事，我该怎么对O说呢？我明显地意识到右边的邻居向我投来的目光，他在朝我这边看，那额头的皱纹清晰可见，我还发现他额头上有些模糊不清的线条，我甚至觉得这些线条是跟我有关的。

21点45分。一阵快活的粉红色旋风刮了进来，两只红润的胳膊紧紧地圈住了我的脖颈。随后，我发觉那团围住我的圈越来越松.....越来越松.....甚至，断了。她的双手垂了下来.....

“你变了，你不是以前的那个.....你不是我的了！”

“‘我的’，多么古老的用法啊。我不隶属于.....”我有些急迫地辩解

道，突然我意识到，确实，过去我不隶属于任何人，但是而今.....而今，我已经不是生活在我们的理性世界中了，而是跑到了古代，那个野蛮的充斥着-1的平方根的世界里去了。

窗帘在慢慢往下放。那个邻居的一本书突然从桌上掉了下去。在窗帘快到触碰到地板的时候，通过那个窄窄的细缝，我看见一只蜡黄的手拾起了书，我想着，如果能一把攥住这只手就好了！

“我本来.....我本来希望能在散步的时候碰到你.....我有很多话.....我有许多话要对你说.....”

可爱又无辜的O！她那粉红色的嘴，犹如下弯的月牙儿般耷拉着。但是，我没法跟她说，我没法将所发生的事告诉她。确实是这样，我不能让她成为我的同谋犯啊。因为我非常清楚，她不会去安全卫士局告发我的，因此，我没法.....

“亲爱的O，我病了。我觉得很累，今天我又去了医疗部。不过，这些都没什么，一切都会好起来的。所以，我们别谈这些了，让我们忘了吧。”

O温顺地躺在床上。我轻柔地吻着她，我轻吻着她手腕上那条孩子般的胖胖的肉褶。她美丽的蓝眼睛闭着，粉红色的半月嘴渐渐地绽露出微笑，那笑容似花朵般开放着。我吻着她的身体。

突然，我意识到自己已经成为了空壳，我的精力已然耗尽，什么都不剩。我没法，我没法。我明白，我应该.....但是，我没法.....不，这都不可能了。我的嘴唇突然变冷，与此同时，粉红色的月牙儿颤抖着，仿佛就在一瞬间，色泽全无，紧紧地关闭了。O将罩单扯了过去，盖在身上，而脸则深陷在枕头里.....

我则坐在床旁的地板上。冰冷刺骨的寒意袭来。我一声不响地坐着。那逼人的寒气不断地袭了上来。也许，在那蓝色的沉默的星河之中，也同此时我身处的环境一样沉寂又刺骨吧。

“请理解我，亲爱的，我并不愿意……”我语无伦次地解释着，“我确实……”

这是实话，我，其实那个真正的我，并不愿意……但是，我怎么解释给她听呢？我怎么才能让她明白：铁块并不情愿，但是规律却是无法拒绝的，是一定会发生的。

O缓缓地抬起头，闭着双眼说：“你走吧。”因为她是带着哭腔说出的话，“走”听起来就像在说“抖”。这个有点可笑的细节一直在脑海中挥之不去。

我浑身冰冷，四肢麻木地离开了房间转到了走廊。我的头使劲靠在玻璃上，窗外是一层淡淡的薄雾，仿佛越飘越远。可能到了深夜，又会浓雾弥漫了，我心里想着，“这将是一个多么可悲的深夜啊！”

O飞快地从我身旁走了过去，奔向电梯，门被重重地关上了。

“等等。”我使劲地喊了一声。

但是，我只能听到电梯往下落的声音，它在不断下降，下降……

“我的R，我的O，都被她夺走了，但是……但是，我仍然……”

笔记之十五

气钟罩

明净如镜的海面

我应该永生承受烈焰燃烧之苦

我刚来到“积分号”制造台，副设计师便迎面走了过来。他长着一张又圆又白的脸庞，活像个白瓷盘子，每当他说话的时候，你就像面对着一盘美食一样。

“你居然生病了。这里缺了你，差一点就出事了。”

“出事？怎么回事？”

“是啊！昨天下班铃响了，所有人的工作都完成了。大家正要离开飞车站。居然在清场的时候，发现了一个人。这是一个没有号码的男人。我简直想不明白，他是怎么进来的。不过，他被带到审讯部去了。相信，要不了多久，我们就会知道答案了。他会开口说出诸如‘他为什么来，又怎么进来的……’”说着，他露出了一个大大的笑脸。

在审讯局工作的人都是非常富有经验的物理学家，全知全能者直接管理这个部门。审讯局拥有很多富有创造力的设备，而那些设备中，最高级的还要数气钟罩。它类似于古代学校里用作实验的某种仪器：古人们将白老鼠放在玻璃罩中，用空气泵将罩中的空气不断地抽出来，里面的空气会越来越少……当然，你会猜到最后的结果是什么。

但是，我们所设计的气钟罩要完备得多，里面的气体也丰富多样。而且，我们也不会将它残忍地用在可怜的小动物身上，它有着更为高尚的责任，即保卫联合国的安全，也就是说，用它来保障数百万人的幸福。

大概在五百年前，当时审讯局才刚刚成立，有些头脑简单的人居然将审讯局和古代的宗教裁判混为一谈。这太可笑了。可笑到简直将实施气管切开术的医生与抢劫的强盗当成了一种人。当然，他们手上都有刀，也许用的还是同一种刀。虽然动作都是切开活人的喉咙。但是最终他们的目的却是不同的，一个是救死扶伤的人，而另一个则是谋财害命的罪犯。一个应该是带正号的人，而另一个则是带有负号的人.....这两者的区别再明显不过了，只要稍稍有点逻辑性，就不会混淆。而我只需一秒钟，逻辑推理之齿轮就会准确无误地钩住了负号，将它翻转过来。

但是，头脑中又出现了另一个场景：那个柜子上不断晃动的钥匙圆环。很明显，门刚被关上，但是，I却不在那里，她不见了。哪里都没有。此时，我的逻辑推理的齿轮就不管用了。是梦境吗？但是，就在此时，我仍然能感觉到右肩那难以言传的甜蜜的疼痛，那是来自I的，在大雾弥漫的街头，她曾紧紧倚靠在我的右肩上，我们并肩前行。“你喜欢大雾吗？”是的，我喜欢雾，我爱大雾.....一切都是那么富有生机、新奇而又美妙。一切都那么好.....

“都那么好！”话居然脱口而出了。

“那么好？”那一双圆溜溜的、陶瓷般的眼睛，盯着我。“你在说什么？这有什么好的？若是那个没有号码的男人真的得逞.....很有可能，还有其他的同伙，四周都有这样的人，时时刻刻都存在着，他们一直在这里，在‘积分号’附近，那么.....”

“其他的同伙？他们又是些什么人？”

“我怎么会知道呢？但是，我能感觉得到他们的存在，你知道这种感觉吗？”

“你听说过那个手术没有？好像是一种能够切除幻想的手术？”（我确实也听到了这种说法。）

“嗯，听到过。这又怎么了？”

“当然有关系了，若是我处于你的职位，我肯定会要求给我做这个手术的。”

那张瓷盘的脸上立即显现出仿佛吃了柠檬的表情，那么可怜的酸楚的神情。对于他来说，哪怕有人无意中暗示他富有想象力，他也会非常不开心。其实，这又算得了什么呢？但是，在一星期之前，我也会因此而不开心的。而如今，我不会了。因为我知道想象力确实存在，我也明白，我的病根就在这里。我还非常清楚，我并不想治愈它。至于为什么，我说不出来，但是我就是不乐意那么做。

我们共同走上了玻璃台阶；我们越来越高，而脚下的世界则越来越小。

我的那些素不相识的读者们，不论你们是谁，我可以肯定的是，你们一定生活在太阳之下。若你们也生过病，就如同现在的我一样，你们一定会知道清晨的微弱晨光是什么样的，那是一种粉红的、透明的、暖融融的金灿灿的光亮。甚至空气也带着那微微的粉红的颜色，一切都浸染了太阳柔和的血液之中。一切都是生机勃勃的，连石块也是有生命力的，柔软的，而铁也是温暖的、活生生的。人们也是如此，生机勃勃，

面露笑容。但是，仅仅一小时之后，这一切就会消失不见。太阳的粉红色的鲜血会枯竭——但是此时，我眼前的都是生命。我发现在“积分号”的躯体内有玻璃血液在流动着，它们有着生命之光。我眼看着“积分号”，想象着它此刻正在思索着自己的未来，那未来是壮阔的，又是势不可挡的。它将给宇宙带来的沉重——那是一种永无尽头的幸福。我的那些素不相识的读者们，这就是你们一直苦苦追寻，而无法得到的幸福。你们一定会找到的，你们一定会成为幸福的人，这点毋庸置疑。

“积分号”船体已经基本竣工。它是一个椭圆形的长长的船体，这让它显得精致而高贵，通体是玻璃的，这种材质既永久又坚韧。我看着那些为“积分号”忙碌的人们，有的人正忙于架构玻璃船舱内的横梁和纵柱，位于尾部的是装载着巨型火箭发动机的基座。若发射进宇宙之后，每隔三秒钟，尾部就会喷射出火焰和气体。这样它就会越飞越高，像一个喷射幸福的飞船一样，疾驰进茫茫太空……

再往下看，就见到深受泰罗工作法影响的人们，正在一丝不苟地工作着，他们犹如一架大机器上的每个操纵杆，规律地、精确地、富有节奏地弯腰、直腰、转身。他们拿着闪亮的玻璃工具，喷着火在切割和焊接玻璃板、弯管接头和托板。那巨大的玻璃起重机轻易地就碾过玻璃轨道，如同人们一样准确，它转动、弯曲，将物体准确无误地送入“积分号”的船体内部。一切仿佛都如出一辙，像人化的机器，又像机器化的人。这是多么震撼的美、和谐之音，多么辉煌！

快，奔入他们的行列之中去。我奔下了楼梯，融入人群，成为他们中的一员。所有人都有着钢铁般的节奏，这让他欣喜若狂，我见到大家丰润的脸颊，如镜子般明净清透的额头，他们都富有节律地工作着。而我自己则像在这明镜般的海洋中浮游，我身心舒展开来……突然之间，有一张纯真无邪的脸转向我，问道：

“今天怎么样啦？好些了吗？”

“什么？”

“昨天，你没有过来。大家以为你患了重病了……”他明亮的额头朝向我，微笑着说。那神情纯粹得像个孩子。

一瞬间，血便往我的脸上涌。我没法，我没法对这样的一双眼睛撒谎。我没有回答，心却越收越紧……此时，那张白瓷圆盘又出现在舱门口，他冲着我喊道：“D-503，请过来看一下，悬臂架的中心力矩怎么不太对，而且……”

他并没有说完，我已经向他奔去了——我非常不光彩地逃掉了。在跑的时候，我也不敢抬眼看，我只觉得脚下的玻璃台阶闪闪发光，弄得我头晕目眩。每往上走一步，我就觉得越发的绝望。我是个罪人，我中了很深的毒，我不配待在这里。以后，我没法跟这里准确划一的、机械的旋律融合在一起，不能跟什么都没有发生一样，在这平静如镜的海面上浮游。我应该永生承受烈焰燃烧之苦，四处流浪只为了找到一个可以不让别人看到我的地方。当然，若是我有决心……我将会选择……一根尖利的冰刀刺穿了我的心，我感觉寒冷刺骨。我自己倒是没什么，怎样都可以。但是她，如果她被告发的话……可能会……

我终于从舱口爬了上去，来到了制造台上，但我并不知道我该去哪里，我只是无谓地站着。我抬头便能看到太阳，正午的太阳正有些暗淡无光，在它的下面是一动不动的“积分号”——这个巨大的，缺乏生命力的玻璃体。它的粉红色的鲜血已经流干。当然，这只是我自己的设想而已。其实，它跟之前一模一样，但是，我仍然……

“你出了什么事？D-503，你幻听了吗？我叫了你半天了……你到底

是怎么啦？”副设计师的声音终于传到了我的耳朵里，此刻，他简直是在大喊大叫了，看来他这么大声地喊了很久了。

我到底是怎么了？我没有了方向，虽然马达照样轰轰地响着，飞船也做好了起飞的准备，但是，却没有了方向。我也不知道该往哪里飞，若是往下飞，就会撞到地上去，那么就往上飞吧，冲着太阳飞，冲着那一片火海飞去……

笔记之十六

黄色

影子

无药可救的灵魂

过了好些日子了，这期间我都没有写笔记。我也记不清确切的天数了，因为期间的生活都是平静似水的。它们都是单调、统一的黄色，如同在沙漠中被晒热的沙子，没有蔽荫，也没有一滴水，眼前只有望不到尽头的漫漫黄沙。我不能失去她，自从在古宅我们分别之后，她就消失得无影无踪了。我知道，没有她我无法活下去……

从那次她莫名其妙地消失之后，我只见过她一次，那是某次散步，大概是二三天前的事，或者是四天以前？我的记忆模糊了，因为眼前所

经历的日子，都是一模一样的。她只是与我擦肩而过，在那一瞬间将我那如黄沙般空洞的内心填满了。与她并肩前行的是那个佝偻的S，他的头只能够到她的肩膀，在她另一边是那个单薄的如纸片般的医生，而与他们并行的第四个号码，我没有记住他的脸，但是对他的手指却印象深刻，他有一双细长又苍白的手指，那手就像一道光，从制服中射了出来。I见到我，朝我招了一下手，接着她便越过S的脑袋，伸长脖子对那个手指如光束般的人说话。我隐约听到“积分号”几个字，这时，四个人的目光齐刷刷地朝我射过来，不一会儿，他们的身影便消失在灰蓝色的人群中，而我眼前仍然是一片枯黄。

那天晚上，我收到了她的一张粉红票子。我站在联络机前，爱恨交织地祈求着，希望早点看到她的号码出现，因此我不断盯着屏幕，想着I-330这几个数字。每当电梯门响，我就奔向大厅，见到一个个号码走出来，高的、矮的、苍白的、粉红的.....周围的很多窗帘都纷纷地拉下去了。可是她仍然没有出现。她没有来。

此时是22点整，可能此时此刻，她正依偎在某个号码的身上，对那个号码温存软语地说着：“你爱我吗？”的话。她会对谁发问呢？那个人到底是谁呢？是那个有着如光束般手指的人吗？还是喜欢喷口水的R，再不然是那个佝偻身形的S吗？

S.....怎么最近我总能听到他跟在我身后发出的噼啪的脚步声，那声音就像脚踩在了水洼上。为什么最近他一直像个影子似的伴我左右呢？总有那个灰蓝色的扁平的影子出现在我的前面、后面、左面或者右面。其他的号码不停地踏着它，或是迈过它，但是，它一直在我身边，距离我不远也不近的。我们之间好像有一条纽带将我们紧紧相连。可能，这根无形的纽带就是I-330。我也不清楚，也许，安全卫士们已经知道了我.....

若是有人跟你说，你的影子在观察你的一举一动，它什么都看得清清楚楚，你相信吗？突然之间，你会有一种奇怪的感觉：你的双手好像并不是你自己的了，它们不听你的话。我突然意识到，我的双手动作十分可笑，它们和脚步一点也不同步。我都忍不住想回头看个究竟了，但是我却做不到，怎么做都不行，脖子僵硬地挺直着，简直没法转动。我只得使劲跑、越跑越快。虽然我没法回头，但是我的后背仍然能感到，那影子也快速地追赶着我，我没法躲开它，简直没处躲……

我终于到了我屋里。现在总算就我自己了。但是，屋里电话，这样新的问题又出现了。我不假思索地拿起话筒：“喂，请拨I-330。”话筒里传来一阵轻微的响声，我能听到人走动的脚步声，那声音穿过走廊，进入了她的房门。接着便没了声响……我扔下话筒，我不能再等了，我必须，我必须去找她！

这事发生在昨天。我匆忙地赶去找她。来到她的住所外面，从16点到17点，我一直在附近徘徊着，整整一个小时。号码们列队整齐地从我身旁走过，那几千只脚踏着相同的节拍走着，仿佛一直长有万足的巨兽般经过。只有我是孤零零的，我像来到了荒无人烟的小岛上。我仍然在找寻，在灰蓝色的海洋中寻找她的身影……

很快，很快就会看到的。那个有着两道嘲讽的眉毛和一双黑亮而深邃的眼睛，眼睛后面是熊熊烈火，人影幢幢……我要直接冲过去，冲到烈火的后面，对她说“尔”，是的，“尔”，我要对她说：“我不能没有你。我没法独自生活下去。”但是，她并没有出现。

突然，我觉得周遭一片寂静，原来音乐机器的乐声已经停止了。我醒悟过来，已经17点了，人们都走光了，只剩下我一个人。这时候要转身回家，已经太晚了。四周都是抹着黄色阳光的玻璃的荒漠。玻璃墙面

闪着光亮，它底部朝上地悬着，看着它颠倒的样子，我觉得自己也是倒着的，那形象居然如此可笑。

我要赶紧走，我必须得离开这里。赶到医疗局去，弄一张证明，否则.....也许，还有一个办法。我就待在这，静静地待着，等安全卫士们来发现我，将我带到审讯局去，这样，所有的问题都结束了。所有的罪恶也都一笔勾销了。

一阵轻微的声响，身形佝偻的S出现在我面前。我没有直视他，但是我已经感觉到，他的一双锐利的小钢钻已经钻进了我的心里。我勉强笑了笑，说（此时此刻我必须得说点什么）：“我.....我必须得去医疗局。”

“没有人阻拦你啊？你为什么还站在这儿？”

我没有答话，我仍然感觉自己可笑地颠倒着，大头朝下而脚朝上。

“跟我走。”S厉声地说。

我听话地跟着他走，毫无目的地甩着那两只不听使唤的胳膊。

我没法抬眼看上去，因此感觉仿佛走在了一个上下颠倒的世界里：机器的基座朝上立着，而人们也似机器一样脚贴在天花板上站着；再往下瞧，就见到了凝固在马路玻璃面里的天空。我到现在还记得，当时的所思所想，我想着，也许是自己最后一眼看世界了。但是居然如此荒谬，世界不是它本来的样子，而是倒立着呈现在我眼前的。因为，我没法抬起头来。

我们停了下来。我跟前是台阶。我跨了一步.....过一会儿，我就会见到那些穿着白大褂的医生了，还有那巨大的气钟罩。

我使出了浑身的力气，努力抬起了头，猛然间，“医疗局”三个字映入了我的眼帘。怎么他会把我带到这儿来呢，而不是审讯局？他怎么会放过我了呢？其实，我根本还没有想到这些。我只是使劲向上一蹿，蹦过台阶，用力地将大门紧紧关上。直到这时，我才喘了一口气，好像从早晨到刚才我都没有喘过气一样，心脏仿佛也没有跳过，直到这时候，我的胸中的闸门才被打开了……

屋里有两个人。一个是矮墩墩的男性，他很结实，双眼像牛角一样，仿佛要随时将病人挑起来似的；而另一个则很消瘦，两片嘴唇很薄，似闪闪发光的剪刀，鼻子也似尖刀……是他，就是他。我径直朝他奔了过去，就像见到了老朋友一样，差点碰到他的鼻子，我不断说着关于失眠、我奇怪的梦境、那些影子，以及黄沙的内容。他的两片剪刀似的嘴张开着，似在微笑。

“你的情况太糟了。身体里有了一个灵魂了。”

灵魂？这是多么奇怪的说法啊，这应该是个被人们弃之不用很久的词了……

“这……非常危险吗？”我低声地问道。

“无药可救。”剪刀片子说得非常肯定。

“但是……这个病到底是怎么个情况呢？我……我不明白。”

“这个嘛……我怎么解释呢？……你是个数学家吧？”

“是的。”

“那么，这样说吧。比方说，有个平面，就像镜面一样。我们两人都站在这个平面上，对不对？这里的阳光炫目，我们歪着头，以免被太阳烤到。再比方说，有一架飞机刚刚飞过，它在镜子的表面留下一道阴影。这一切都发生在瞬间，随即便消失不见了。现在，请试着想象一下，若是这层坚硬的表面，被火灼烤，就会变软，甚至它的表面会坍塌了，不再平滑。而所有经过它的东西也会凹陷进入，落入到镜子的世界中去。而此时，我们便像孩子一般怀着好奇的心往里面看。你要明白，其实孩子们可并不像我们想象的那么傻。这样，平面就成为了另一个世界，它有了容积。而在镜子的内部——在你的身体里，也有了太阳、飞机螺旋桨的旋风，以及你颤抖的嘴唇，甚至还有别人的。你会清楚这一点区别，即冰冷的镜子起着反射的作用，而这一个镜子的世界却具有吸收的作用，万事万物在此处皆有痕迹。比方说，你偶尔在某个人的脸上看到了一道难以辨别的皱纹，此后，这个印象就会永远留存在你的记忆中。再比方说，有一天，你听到了水滴落的声音，也许你如今仍然记得那个余音……”

“是啊，就是这样的。”我使劲抓住他的手。我确实曾想起水龙头滴答的滴水的声音。我对它太熟悉了，以至终生难忘。

“但是，我怎么就突然有了灵魂了呢？为什么以前没有，而如今却……为什么没听说别人有，而我却……”我更加用力地捏住了他的手，害怕就此失去了线索。

“为什么？哦，为什么呢？人类没有羽毛也没有翅膀，而我们却有翅膀底下的肩胛骨呢？因为我们有飞行器，翅膀对于我们没有任何用处，它只会碍事。翅膀是用来飞翔的，但是，我们还能飞往何处呢，我们已经飞到了目的地了。你明白我的意思吗？”

我似懂非懂地点了点头。他瞧了我一眼，随之便尖厉地笑了起来，声音像手术刀一样锋利。另一个医生被我们的谈话所吸引，粗壮的短腿走出了自己的办公室，朝我们这边走了过来。他用牛角般的眼睛挑了那位医生一下，又挑了挑我。

“怎么回事？灵魂？你们居然谈起了灵魂？该死！这样下去我们可能要得这种传染病了。我曾经说过（他又挑了剪刀嘴大夫一眼），我认为最好是摘除掉所有人的幻想.....这很容易，只需要做个外科手术就可以了，只有手术能够解决.....”

他戴上了一副很大的X光眼镜。仔细观察了我好一阵子，透过颅骨检查着我的大脑，边说边在本上记录。

“奇特，十分奇特！你听我说，你想做摘除手术吗？你若这样做了，将会对联合国有很大的贡献。这样会避免传染病的发生.....若是你没有特别的理由，或许.....”

如果换过以前，我会毫不迟疑地说：“我非常乐意。”但是，如今，我并没有回答他的话，而是目光盯着纸片医生，恳切地看着他。

“你还不清楚吧，号码D-503是‘积分号’的设计师。若是我们做了摘除手术，肯定会破坏.....”

“唉。”短腿医生有些遗憾地慨叹了一声，回到了自己屋里去了。

只剩下我们两个。他那薄纸似的手轻轻地搭在我手上，露出剪影般的侧脸，低声对我说：“我只跟你说，你不是唯一的那个。我的同事说这病会传染，并不是危言耸听。你仔细想想，难道你没有注意到有人也发生了跟你类似的情况？症状也很相像.....”

他目不转睛地瞧着我。他是什么意思？他指的又是谁呢？难道.....

“我跟你.....”我立马从椅子上站了起来。但是，他反而提高了嗓门说道：“.....至于你说自己患了失眠症和经常做梦，我的建议是你应该多散步。长途跋涉对你会很有帮助的。明天早上你就可以试试.....比方说，你可以一直走到古宅那里去。”

他的眼光又转向我，像要看透了我一样，脸上露着微笑。我察觉到，那个微笑里藏着的字母——是那个名字，那个对我来说非常特别的名字.....这会不会是我的幻想呢？我迫不及待地等他写好了证明书，是今天和明天两天的病假证明。接着，我便又一次紧紧握住了他的手，便快速地跑到了外面。

我觉得轻松无比，像飞船一样越飞越高.....我知道，明天会有很美好的事发生。它又会是什么呢？

笔记之十七

透过绿墙玻璃

我死了

走廊

我有些迷惘了。就在昨天，我还以为一切问题都将豁然开朗，所有x都已经有了答案，但是，在我的方程式里又出现了新的未知数。这个未知数的坐标原点在古宅那里。从这个原点延伸开去，x轴，y轴，z轴都无限延长，而由它们所构筑的世界已经侵入了我的生活。

此刻我正沿着x轴（第59号大街），朝原点方向走去。昨天所发生的一切仍然像五颜六色的风暴一样在我脑中翻卷着：那颠倒的房子和人，我那两条不听使唤的胳膊，以及发光的剪刀嘴，还有水龙头滴答的滴水声……这一切都曾存在过，它们就深陷在烤软的玻璃表层的里面，就是那个“灵魂”在的地方，在那里飞速地旋转着。

我遵照医嘱，特别选了这条路线，这不是一条斜边，而沿着直角边所走的路线。此刻我已经来到了直角上了第二道边线上，就是绿墙边上的坡路上。绿墙之外是无边的绿色海洋，那里有树根、树枝、花朵和树叶，它们所组成的气浪铺天盖地地朝我袭来，我就要被吞没了，我将从一个最精细、最精密的机器变成……

但非常庆幸的是，在我和那野蛮的绿色海洋之间有玻璃绿墙的阻隔。啊，绿墙，这是多么伟大、英明的存在啊！这是人类最伟大的发明。当绿墙被筑起时，人类终于要脱离野蛮。当我们这座绿墙竣工之时，世界终于被隔绝开来，一端是由树木、鸟兽所组成的野蛮而混乱的世界，而另一端则是机械的、完美的理性世界。从此以后，人类不再是野人。

在墙的另一边，我隐约看到了一头野兽，它隔着玻璃正傻傻地看着我，那黄色的眼睛似乎在表达某种我无法理解的东西。我们俩对看了好一阵，就像是平面世界和立体世界相互对望的两个黑洞。我甚至突然意识到：“这个黄眼睛的脏兮兮的家伙虽然身处混乱的绿色海洋之中，也

许它的生活比我们还倒快乐呢？”我举手挥了一下，黄眼睛眨巴眨巴，就转身离开了，很快就消失不见了。可怜的小家伙！我怎么会想到它比我们要幸福呢？我简直疯了！不过，也许它真的比我幸福，至少，我是个例外吧，我病了啊。

我意识到我快要走到古代房子了。因为，眼前就是古宅的朱红色院墙了，还有那个老太太合拢成一团的嘴。我飞速地朝她奔去：

“她在这儿吗？”

合成一团的嘴慢慢张开：

“她？是谁？”

“啊，还有谁？当然是I-330啦。那一次，我和她一起过来的。”

“哦，对，对。”

她瘪嘴的条条皱纹，还有眼睛周围的皱纹越来越深……她瞧着我说：“告诉你吧，她在这儿，刚进去。”

“她在这里。”这时候，我发现，在老太太的脚旁长着一丛银白色的苦艾（因为这里是史前风格博物馆，所以一切都尽量保持原貌），艾叶的枝条爬在老太太手上，她拍了拍枝条，一道金黄的阳光洒了下来。那一瞬间，我、太阳、老太太、苦艾、黄眼睛……似乎我们突然成为了一个整体，就像有某种涌动的血液让我们紧紧相连似的，那是相同的、令人热血沸腾的感觉……

写到此处，我都有些惭愧了。但是我曾保证过，无论如何，我都会袒露心迹，不做隐瞒的。那么，好吧。是的，这时候，我低下头吻了吻

老太太的嘴，那张毛茸茸的，揪成一团的软嘴。她用手擦了擦嘴，露出微笑。

我快速地踩上了楼梯，经过了那些个熟悉的、昏暗的房间。我也不知道为什么我直奔卧室而去。我快速地奔到卧室门口，手已经碰到了门把手，但是，我突然意识到：“若是不止她一个人该怎么办？”于是，我停下脚步，倾听了一会儿。但是除了我的心跳声，什么也没有听到。此刻，心已经不在我的体内了，它跑到了旁边的某个地方突突跳着。

我走了进去。看到那张大床，显然没有被动过。一面镜子，另一面镶在柜子上，锁眼里还插着那个带圆环的钥匙。屋里面并没有人。我轻声呼唤着：“I-330，你在这儿吗？”一声又一声，声音非常低，我屏住呼吸，闭上双眼，如同我正跪在了她面前般呼唤：“I，亲爱的！”仍然没有任何声响，除了水龙头滴水的声音，这声音让我非常不舒服，我也不知道是因为什么。连忙跑过去拧紧了水龙头。显而易见，她不在这儿。那么，她是否在别处呢？

我从昏暗的楼梯上走下来。走到每扇门前，我都会伸手拉一下，第一扇门、第二扇、第三扇门……每扇门都紧紧锁着。除了刚才我进入的那个“套间”之外。但是那里也没有人啊。我只得转身走了回去，我自己也不知道，我为什么要这样做。我走得很慢，脚底下似有千斤重，就像有两个铁块粘在了鞋底上。至今我仍然清楚地记得，当时我这样想着：“地心引力不变的说法是错误的。这么看来，我的那些公式……”

我的思绪被突如其来的响声打断了，这声音来自低层的那扇门，它像被用力撞开了一样。砰的一声，接着便是人飞快踩着石板跑的声音。我突然振奋了起来，身体也突然间轻快了。我连忙跑到了栏杆旁，俯下身看过去，说了一声“是你吧”，所有要说的话都包含在这里面了。

突然之间，我愣住了。在楼下的方窗格的阴影里出现的是S的脑袋和他那两只粉红色的招风耳。瞬间的一闪念，我便得出了结论：“决不能让他看见我。”这个结论毫无逻辑可言，也没有任何前提基础（到现在，我也不知道我怎么会那样想）。我踮起脚，轻轻地贴着墙走，想赶紧躲到那间没有上锁的房间里去。

我刚到门口，一秒钟后，S已经上了楼，正朝这边走来。希望门别有声响！我默默祈祷，但是木头门还是吱扭地叫了一声，真是惊心动魄！绿的、红的和黄澄澄的佛像从我身边一闪而过，我飞快地跑到柜子的玻璃镜前：一眼便看到自己苍白的脸.....我的耳朵仍然听着，我感觉到浑身血液沸腾.....门吱扭被打开了，是他，他迈过了门槛！

我猛然抓住了柜门上的钥匙，看到那晃动的圆环，我突然想起那次与I.....脑子随即便闪现出一个决定，这是一个局促的决定，它甚至是没头没尾的闪念。我猛然间打开了柜门钻了进去，随后，又紧紧地关上了门。柜子里面黑漆漆的。我迈了一步，接着脚下一晃，突然觉得自己开始慢慢地往下飘落，眼前全黑了，我要死了！

现在，当我回忆起这段奇妙的经历时，我苦苦思索，认真回忆当时的景象，我也找了一些书来找寻问题的答案。而今，我终于明白了，那是一种暂时的死亡现象。古代人都非常清楚它，但是对于我们来说，这是全然陌生的领域，我们对此一无所知。

我不清楚这种状态持续了多久，可能有5至10秒钟。反正没过多久，我就活了过来。我迅速地睁开眼。四周仍然是一片漆黑，我仍然感觉自己在下沉、不断地往下沉.....我伸出手想抓住点什么。但是我碰到了粗糙的墙面，它在飞速上升，因此我的手指流血了。很明显，这一切都是真实的，并不是我的胡思乱想而已。这是怎么一回事？

我听到自己的呼吸声，那声音在颤抖（写出这一点，我并不觉得难为情，因为这一切来得太快了，我还不清楚状况呢）。一分钟，两分钟，三分钟，我仍然在往下沉。最后，我感觉下落的地面突然停住了，它不再坠落了。当仍然一片漆黑，我试着摸索着，摸到了一个把手，我用力一推，门开了。一道昏暗的光线射了进来。同时，我身后的小平台迅速往上升去。我想抓住它，但是已经太迟了。我被落在这儿了……而“这里”是什么地方，我并不知道。

眼前是一条走廊。四周一片寂静。走廊的圆形拱顶下是一串发亮的小灯，构成了一道没有尽头的小亮点儿。这里很像某种地下隧道，不同的时候，这里要狭窄很多，也不是用玻璃建造的，而是一种很古代的材料。我突然想道：也许是某种过去遗留下来的地下通道，相传就在200年大战的时候，很多人在这种地方避难。我没法想太多，只能朝前走去。

大约走了20分钟，向右一拐，眼前便开阔了些，因为走廊变宽了，灯也变亮了。我还听到了嗡嗡的声响。但听不出是机器声，还是人的说话声。我停在了一扇沉重的不透明的门前，声音就来自这里。我轻轻地敲门。随后又使劲敲了一下。门后突然安静了。就听到“当”的一声，沉重的门慢慢地打开了。

出现在我面前的是那个消瘦的、长着剪刀嘴的医生！我不清楚，我们谁更加惊讶。

“怎么是你？”他那剪刀似的嘴随之闭合上了。我目瞪口呆地望着他，不发一言。我好像并没有听到他的话，可能他的意思是，尽快离开吧。不要待在这里。因为我发觉他在用自己扁扁的薄纸肚皮挤着我，将我挤到走廊的亮处去，还使劲推我的背。

“请问.....我只是.....我想见见她，I-330.....但是好像有人在我后面.....”

“待在这儿，别动。”医生大声地说，转身离开了.....

我终于离她很近了。她可能就在附近，她会来到我身旁，来到这里。那么，现在我身在何处又有什么关系呢？我的眼前又浮现了熟知的杏黄的丝绸，她迷人的微笑，垂着窗帘的眼睛.....我的嘴唇、我的双手、我的膝盖都不住地发颤，我的脑子居然胡乱地想：“振动会产生声波，那么，颤抖也是有声的。但是，我怎么听不到呢？”

她瞪大了眼睛瞧着我。我深深地看着她，看到那双眼睛里面去了.....

“我没法.....你刚才在哪里.....怎么会.....”

我目不转睛地盯着她看，眼睛根本没法离开她。我语无伦次地胡乱说着，就像得了神经病一样，也可能这些话只是我的想法，我并没有说出口：“有个影子.....他一直在我身后.....我死了.....从柜子里.....因为那个医生，他用剪刀嘴告诉我说，我有了灵魂.....无法救药.....我得出去散步.....”

“无药可救的灵魂！可怜的家伙！”I放声大笑，清脆的笑声将我全身都融化掉了，我突然清醒了过来。发觉周身都是或长或短的笑声的音波，闪着亮光。这实在太美了。

拐角处又出现了医生的身影。啊，多么可爱、多么伟大的纸片医生。

“怎么啦？”他来到她旁边。

“没事，没事！回头我再解释给你听。他只是偶然来到这里的。你跟他们说，我很快就过去……十五分钟左右……”

医生又转身离开了。只剩下我和她，门也重重地被关上了。I像一根尖针一样，慢慢地、逐渐扎进了我的心田，我感觉说不出的甜蜜滋味，她的肩膀、她的手，甚至她的整个身体都紧紧地依偎着我。我们如同连体人一般走着。

我已经记不清，我们在哪儿拐进了黑暗中。我也看不清她，只能随着她走着，我们沿着台阶往上走，不停地走啊走。我们都不说话，闭着眼睛，头微微朝后仰着，抿着嘴唇在静听音乐，那音乐是来自我身体的轻微颤抖。

等我终于清醒了，我才意识到自己在古宅庭院的一个隐蔽的角落里，这里还有一道围墙，在墙的上面有一些残乱的光石条，以及大小不一的黄色砖块。她慢慢睁开眼，说道：“后天16点。”说完便离开了。

这所有的事情是否是真实的？我不得而知。也许，只有到了后天，我才能知道答案。而只有一个印记是明确的：那就是我右手的几个手指尖上的蹭破的皮。但是，今天在“积分号”飞船上，副设计师明确地对我说，他亲眼所见，我不停地用砂轮蹭着了这几个手指。可能确实如此。也许吧，那么，我也不知道了。

笔记之十八

逻辑的迷宫

伤口与膏药

不会再来

昨晚我一入睡，便陷入了梦境中，我自己犹如一艘超载的船般沉没了。我的周围是寂静无声的绿色海洋，波涛淹没了我，我慢慢地从水底浮了出来。突然，我睁开眼：看到我仍在自己的房间里！天色还早，这是一个昏暗的早晨。太阳的一丝光亮从玻璃镜柜门上映射到我眼睛里，这光亮让我无法入睡，我没能完成守时戒律表规定的睡眠任务。如果我能将柜门拉开就好了。但是我像陷入了蜘蛛网里似的，没法动。连眼睛也蒙上了蛛网。

最后我费尽了力气，终于挣脱了蛛网。用力拉开柜门；突然，在柜门后面那些挂满衣服的地方，钻出来了I-330！我并没有太多惊讶，因为最近见到的奇事已经太多了。我记得当时我并没有露出吃惊的神情，也没有问什么话。而是连忙跳进了柜子，用力将门关上。随后，我气喘吁吁、用手乱摸着，急迫地搂住I。至今我还记得，当时从门缝中，我见到一道刺目的阳光，它犹如闪电一般，刺进黑暗之中，它一曲一折地映射着地板、柜壁，一直往上——直到这道光之刃落在了I洁白的脖子上.....我突然觉得恐惧，惊慌地叫出了声——我又睁开了眼睛。仍然在我的房间里。

依然是那个昏暗的早晨。柜门上映着一道太阳光。而我则好端端地躺在床上。是梦！但是为什么我的心仍然悸动着，它在战栗，它在抽搐；而我的手指尖和膝盖也隐隐作痛。这是真的。此刻，我已经分不

清，哪个是梦，哪个是现实了。在我看来，那些充满理性，没有任何疑问的三维空间中，冒出了无数个无理数，那些牢不可破的光滑表面，如今变得粗糙、毛糙、伤痕累累.....

起床铃还没有响起。我静静地躺着思索，想找出这些奇特的逻辑链条之间的关系。无论是曲线，还是任何别的形状，在平面的世界里，都有与之对应的公式。但是，我们却并不清楚这些公式所对应的是什么物体。我们甚至不曾见过它们.....但是，最不可思议的是，这些无形的物体是真实存在的。虽然我们看不见，但是它们却存在着。在数学的世界里，我们总是看到那些长相奇特的、带钩刺的身影，它们是无理数公式。数学从不会出错，这点它跟死亡一样。所以说，若是在我们的平面世界中，无法找到这些物体，这便意味着，它们存在于非平面空间，即更加巨大的世界中.....

我已经等不及起床铃响了，连忙下了床，在屋里来回踱步。到目前为止，在我最近摇晃起伏的生活中，数学是我唯一安全坚实的岛屿，但是如今，它也离开了河床，开始了浮动，还不断地打着旋。所谓的“灵魂”，到底是什么？它是不是也是如我的制服、我的靴子（它们此刻都安安静静地在玻璃镜柜里待着）一样真实的存在呢？若靴子没有病，那么，为什么说“灵魂”就是病呢？我使劲想着，怎么也没法摆脱这荒唐的逻辑迷宫。它就像绿墙之外的某种存在一样，如一座可怕的森林，如一些奇形怪状的、不可言喻的生灵。仿佛，我透过厚厚的玻璃墙，瞧见了它。它是无限大的，但同时又是无限小的，它是那个-1的平方根，又是一个长着毒刺的蝎子。是的，它不是别的什么，它就是我的“灵魂”。它也是古代神话中的那只蝎子，使出浑身力量拼命蜇着自己.....

起床铃声响起。新的一天开始了。我所感知的一切都不会消失，也不会死亡，只是被白天的日光照射着而已，就如同我们所亲眼见到的其

他东西，随着深夜的来临，它们也不会消失，仅仅是被罩上了夜的黑色而已。我的头脑中升起了某种轻雾。透过这层雾气，我见到一条条长玻璃桌，还有一个个圆脑袋，大家正在整齐划一地咀嚼食物。远处，通过节拍机传来滴答声。在这习惯的、亲切的音乐中，所有人一齐机械地数数——50。这是联合国法律规定的咀嚼一块食物的次数。随后，我跟着熟悉的节拍走下楼，同所有人一样在登记离场本子上签上自己的号码。但是，我却觉得自己同所有的人隔绝着，我仿佛只身一人；被一堵隔音的软墙隔着，墙里面才是我的世界。

但是，若这个世界只属于我，我又何必记录下这一切呢？何必写下那些关于柜子、走廊之类的荒唐的“梦”呢？我觉得很糟糕，我并没有完成一部颂扬联合国的诗韵严谨的长诗，而是写成了一部幻想小说。唉，若它仅仅是一部小说也好啊，至少不是我当下所经历的生活，那些充满着未知的X，以及-1的平方根的堕落生活。不过，可能也没有那么糟！我的那些素不相识的读者们，同我们相比，你们仅仅是儿童而已。我们毕竟是由联合国哺育长大的，而我们也已达到了人类所能达到的最高水平。而你们毕竟是儿童，你们一定非常乐意吞下这丸被幻想小说外衣所包裹的苦药。

同一天傍晚

你们有过这样的经历吗？乘坐着飞船在天空中盘旋上升；舷窗开着，风呼呼地刮进来，掠过你的脸颊。此刻，你离大地越来越远。你甚至忘记了它的存在，因为大地像土星、木星和金星一样遥不可及。此刻我就是这样的感觉：狂风朝我袭来，我不记得有大地，不记得有可爱的O。但是，大地还在，虽然暂时离它远去，但是早晚我会回来。我只能闭上眼睛，不去看登记表上O-90该出现的日期。

今天晚上，遥远的大地向我证明它确实存在。遵照医嘱（我非常乐意，并且真心实意地希望自己康复），我独自一人沿着空荡荡的玻璃大街上散步了整整两个小时，按守时戒律表的规定，所有人都在礼堂里，除了我.....实际上，这是一种反常的现象。设想一下吧，若是一根手指，远离了其他手指，它被从一只手上割了下来。它只得孤零零地沿着玻璃人行道，弯着腰，独自奔跑。这多么奇怪、多么反常啊。而我就是这根手指。但是，更为反常的是，这根手指竟然不想跟其他的手指待在一起。它宁愿孤独，或者.....是的，我确实这样想，或者跟她待在一起，挨着她的肩膀，握紧她的手指，将自己的整个身心融入其间。

天色已黄昏，我才返回家中。此时，晚霞的余晖笼罩着玻璃房上，也笼罩着电塔的金色尖顶，以及那些说笑的号码脸上。这太奇怪了！晚霞的余光与早晨初升的阳光的照射角度完全一致，但却产生出完全不同的效果，晚霞总是让人心生宁静，甚至有些苦涩，而晨光——则是充满生机的。

当我来到楼下前厅时，控制员U从一堆映着霞光的信件里，找出了一封信，交给了我。我再次重申一下，U是一位令人尊敬的女性，我确信，她对我只怀有诚挚的感情。但是，每当我见到她如鱼鳃般的脸颊，我就觉得不是很痛快。

U伸出瘦干的手将信交给我，同时，她轻轻叹了口气。这一声叹息，只是微微拂动了一下我与世隔绝的窗帘，我的整个身心都集中在这封信上，我甚至捏着它手指发抖。我相信这一定是I写给我的。

接着，我又听到了一声更重的叹息。这次，它引起了我的注意，我抬起头来，将目光盯在了鱼鳃脸颊和那因羞涩而低垂的眼睑上，她露出一个温柔、有点哀伤的微笑，随后说道：

“可怜，真可怜啊！”随后又是一声加重的叹息，随后，她似不经意间朝信瞥了一眼（按照规定，她当然已经看过了信的内容了）。

“什么？.....你怎么会这么说？”

“不是的，亲爱的，其实，比起你自己，我更加了解你。我早就注意你了。其实，你需要一个比你更有生活经验的人，这样的人才能更好地陪伴你。”

她又一次微笑，这微笑像一贴膏药一样贴满我的全身，而那创伤自然来自我手上的信。随后，她害羞地低声说：“我再想想，亲爱的，容我再考虑一下。相信我，如果我有足够的勇气.....”

伟大的全知全能者啊！她刚才到底在说什么？.....莫不是她想要.....

我有些头晕目眩，眼前好像有成千上百根正弦曲线，我的手颤抖个不停。我连忙走到墙旁的亮处。阳光越来越暗，有些悲伤地洒在我身上、地板上、手上以及信笺上。我飞快地拆开信，迅速扫了一眼签名：我的心裂开了一个口子：信不是I的，而是来自O。在信页的右下角有一滴已经化开的墨水渍，墨水渍，这又是一个伤口。我顶厌恶墨水渍了，不管是墨水渍还是其他别的什么，我都无法忍受。如果是以前，这样的墨渍最多让我感觉不快。但是，如今，这个灰色的墨水渍却像一块乌云一样，逐渐弥散开，越来越浓，越来越黑，这到底是怎么了？难道又是“灵魂”在起作用？

信的内容是这样的：

你懂得……或者，你并不明白……我向来不大会写信。但是，我也顾不得这些了。现在你懂了吧，没了你，我没法再活下去了，我不再有光明，不再有春天了，因为R，他其实……当然，这跟你也许无关了，虽然是这样，我还是对他感激不尽。最近这些时日，若没有他，我真不知道该如何是好……最近这些日子，我觉得仿佛过了十年，不，可能是二十年。我的房间也变了样，它不再是四方形的了，而是变成了圆形——没有尽头，我一遍遍地转圈，转了一个又一个，总没有个头，一扇门都没有，我甚至找不到出口。

我不能失去你，因为我爱你。我知道，我没法再跟你在一起了。我深知，现在世上你只需要那个女人。所以，就是因为我爱你，我不能再……

大概需要两三天的时间，我才能将那个破碎的我缝合起来，能恢复一些过去的O-90的样子。到时候，我会亲自提出申请，将你从我的名单上剔除。这样你就会觉得舒服一些。你也会得到你想要的幸福。我不会再来了。

永不再见了。

不会再来。这当然很好，她说得没错。但是她为什么要这样呢？为什么呢？

笔记之十九

第三级的无限小

鼓额头的人

越过栏杆

她说“后天见”。她是在哪里说的这句话。是在那个走廊里吗？那个亮着一串小灯的昏暗的走廊里.....好像不是那里。应该是.....对，在古宅院子里，那个隐蔽的角落里，她说的那句话。那么，“后天”，也就是今天。我眼前的一切都插上了翅膀，时间仿佛也在飞，“积分号”也插上了翅膀，推进器已经安装完毕，今天我们还对它进行了无负载的试验。那轰鸣声是多么震撼啊！又是多么美妙动听啊！在我看来，那每一声轰鸣都是对她的敬礼，对那个我心中的唯一的敬礼。

在进行首次喷发实验时，有12名工作人员站在那儿，当轰鸣声音响起时，他们便化为了焦灰。仅有的一些残屑证明他们曾存在过。这时候，我非常骄傲地宣布：这个意外事件并没有影响我们的工作情绪，没有人因此而退缩。机器仍然在照常运转，没有任何偏差，仿佛一切都不曾发生一样。12个号码，只是占据了联合国10亿分之一的份额。这个数字，若应用在数学领域，仅仅是三级数的无限小而已。所谓的怜悯之心只有古代人才会有，他们之所以会这样，完全是出于对数学概念的无知和轻视。这当然十分可笑！

同样地，我也觉得自己很可笑：就在昨天，我竟然因为一团微不足道的污渍而耿耿于怀，这太荒谬了！这都是镜面软化的表现，所谓镜面

就应该像墙面一样坚韧，如钢铁般坚硬才对。写到此处，我立即想到了一句古代谚语：“用鸡蛋来碰石头”。

16点钟。我没有去散步，因为，她可能会出现。我并不想因此而错过与她会面的机会。而此时的太阳光也很刺眼。

我，应该是玻璃大楼里唯一的一个人。透过洒满阳光的玻璃墙，我朝外望出去，我的上下左右，全是一个个空房间，它们长得也一样。放眼望去，如同一面面镜子一般，互相照射着。只有在浅蓝色阴影投射下的灰暗楼梯上，有一个身影，她是灰色的，瘦弱的，此刻正在往上走着。我甚至听到了脚步声。透过门，我看出：一贴膏药似的微笑渐渐靠近了。而过一会儿，这个影子转到了另一条楼梯上，走了下去。联络机突然响了。我连忙奔了过去，那白色的显示屏上出现了一个我不认识的男性号码！

电梯门打开了，首先映入眼帘的是额头——他的额头突出，身材高大，歪戴着一顶帽子，而眼睛……长得有些奇怪，令人望而生畏。仿佛它们在说话。

“她给你的信（这声音是从突出的额头下传上来的）……她要求你必须……按照信上的话去做。”

说完，他转头看了一眼周围。没有别人，“快点接信呐！”

他将信塞给我，转身走了。

只剩我一个人。不，不是的。还有她。信封里有一张粉红票，我甚至闻到了她身上的味道，那淡淡的香气。快看信，看看她说了什么。我迫不及待地开始看信，怎么可能呢？我又看了一遍，上面只有短短的三

行字：“粉红票子……请你务必要放下窗帘，就像我真的在你那里……一定要让他们这么认为……非常对不起……”

我将信撕碎了。我见到了镜子里那个我，他皱着眉，眉毛都要拧成几段了。我拿起粉红票子，想也撕碎了。但是，我的脑海中突然听到了那句话：“她要求你必须……按照信上的话去做。”我的手松开了，胳膊耷拉着，票子依然好端端地在。不得不承认，她比我强大，我只能照她说的做。但是……也未必吧。再等等吧，反正时间还早。

票子仍然待在桌子上。我看到镜子中的自己，那纠结地拧成几段的眉毛。我怎么没想到去开一个医生证明呢。我真想出去散散步，沿着那绿墙使劲走，使劲走。等走到筋疲力尽了，我就回去瘫倒在床上——一动不动，就这样睡去也好……但是，我必须赶到13号礼堂去。我必须控制住自己，默默地坐上两个小时！我只能一动不动地坐着，但是，我心中想做的是吼叫和用力跺脚！

讲课开始了，太奇怪了，今天的机器演讲者的声音变了，不再是金属般富有节奏的声音，而是软绵绵的、毛茸茸的，还有点苍老的声音。哦，这是个女人的声音，她的形象在我的脑中一闪而过，她弯着腰，瘪着嘴，满脸皱纹，就像古宅门口的那个老太太。

古宅……一想到它，我就热血沸腾，思绪一下子充斥着我的头脑，如喷泉一般。我一定要控制住自己，以免我会喊叫起来。那软绵绵、有点苍老的声音充斥着我的耳膜。我只听到儿童和儿童学的话。我就像照相感光板一样，将眼前的景象，精确无比地印刻了下来：金色的镰刀（应该是扩音机上的反光），还有个孩子，作为实物……他正向扬声器的方位挪过去。嘴里咬着制服的衣角，小拳头握着，大拇指按着，胖乎乎的手上有肉褶。我仍然精确无误地印刻下这一切：那孩子的一条腿露

了出来，伸到了桌子的外边，五个脚趾像小扇子一样张开着……眼看，他就要摔下来了！

此时，我听到了一声尖叫。这是一个女性号码的声音，像扇动着翅膀一样，她飞到了台上，护住了孩子，嘴唇吻到了孩子手腕上的肉褶，孩子被挪到了桌子中间，她便转身走下了台。以下的场景也同样印刻在了我的脑海中：那粉红的、如新月般的嘴唇，还有泪汪汪的蓝眼睛。原来是O。我很轻松地找到了这个因果公式的答案，觉得这实在是件太无关紧要的小事。

她坐在我左手边，位置稍稍靠后一些。我回头看了她一眼。她不声不响地将眼光从孩子的身上移开，转向了我，目不转睛地看着我。因此，她、我与台上的桌子又形成了三个点，我迅速将三点连成三条直线，觉得这是某种未知的事件的映射。

我走在幽暗的、暮色浓重的街道上，走向通往回家的路，路灯仿佛是一只只眼睛，不断地盯着我瞧。而我则化身为钟表，不停地滴答作响。我感觉我身上的指针，就要脱离钟摆的控制，再这样走下去，我将没有任何退路了。她要让某个人认为她跟我在一起。而我只要她，至于她需要些什么，又跟我有什么关系呢？我不想一个人待在窗帘后面——我不乐意，就是这样。

身后传来了熟悉的踩水洼的声音。我用不着回头，一定是S。他没准会一直跟着我走到大门口，然后可能就在人行道上盯着看，想着用他钻头般的眼睛钻进我的屋里来，直到我放下窗帘。

他是我的守护天使吗？不是的。我已经想好了。我进了房间，打开灯。我以为我看错了，我实在不敢相信：居然O赫然站在我的桌子

旁，“站”似乎不准确，应该说是“挂”。她就像一件衣服那样挂在那儿。衣服里面仿佛没有了肉体，只有单薄的衣服架子，她的手脚都没有了弹性，直挺挺地站在那里。

“我过来是想问问，你收到我的信了吗？你收到了吧！我需要知道你的答复，今天必须要给我答复。”

我耸了耸肩。我很喜欢看她充满泪水的蓝眼睛，仿佛是她做错了事。我犹豫着，不知道该说什么好。后来，我挑衅地说道：“答复？要什么答复？……你信里说的，都是对的。”

“那，好吧……（她笑了一下，想用这个笑来掩饰她的颤抖，但是被我发现了。）好！我马上……马上就走。”

她并没有走，而是靠着桌子挂在那儿。眼睛、手和腿都耷拉了下来。桌上还有I的粉红票子。我连忙将《我们》的手稿打开，盖住了粉红票子。我这么做，只是不想让自己看到它，并不是因为O。

“看，我仍然在写着。已经完成101页了……里面还有一些意外的事……”

她默默地接着说道：“你记得吗？……在第7页上……我还洒了些墨渍……”

她的蓝眼睛里已经盛满了泪水，它们急匆匆地迅速滑落到了脸颊上，接着，快速的语句也跟着泪水溢了出来：

“我无法忍受了，我立刻就走……我以后不会再来了……但是，我仍然希望，我一定要有你的孩子。我必须要！你给我留下一个孩子，这样，我不会再来！”

我看到了她的身体在颤抖，制服也随之抖动着，我突然感到，我也要.....我将手背到身后，笑着说：

“怎么？难道你想尝尝死刑机的滋味吗？”

她的话如决堤的洪水般涌了过来。

“我不在乎。我只是想感觉，感觉到他在我的腹中，哪怕就几天也好.....只要能看到，只有一次也好，看到他手上的小褶子，就像今天在礼堂看到的那个孩子。哪怕只有一天，我也乐意！”

三个点：她、我，还有桌上那带肉褶的小拳头.....我想起了我的小时候，有一次，我们被带去参观电塔。当塔的顶端，我探身往下看，看到下面的人都成了小点点儿。那时候，我的心里突然发紧，但是又很激动，我想着：“如果我跳下呢？”但是，手却抓得更紧了。而如今，我却真的要跳下去了。“你真的想这样吗？你要清楚.....”

好像怕被阳光照到，她闭上了眼睛，而脸上却洋溢着欣喜的微笑。

“是的！我想这样做！”

我迅速地从手稿下抽出那张粉红票子，这是另一个女人的票子。我飞快地跑到了值班控制室。此时O抓住我的手，喊了一声，可我并没有听清楚，直到我返回来才意识到，她说了什么。

她坐在床边上，两只手紧紧地夹在膝盖中间。

“这.....这是她的票子吗？”

“这有什么所谓？嗯，是她的。”

有个声音咔嚓一响。可能是O身子挪动的声音。她依然坐着，双手夹在膝盖中间。

“怎么了？赶紧地……”我粗暴地使劲捏了她的手腕，在如孩子般胖乎乎的肉褶旁，出现了一道红印子，大概明天就会变成青紫色……这是我最后的记忆片段……我按下了窗帘开关，思想也随之消失，一片漆黑，只有少许飞溅的火星，我从栏墙上跳了下去……

笔记之二十

放电

思想的材料

零度悬崖

放电，用这个词来形容此刻的我，再合适不过了。我觉得最近自己确实像经历了放电一样，这些日子我的脉搏变得越加干燥，感到频繁的紧张，阴阳两极越加靠近，已经出现了干裂之声，若再移近一毫米，就会爆炸——随之，便安静下来。

此刻，我的内心很平静，我仿佛待在一个空荡荡，没有一人的空间里。只有我，静静躺在病床上，我能够清晰地听到思想断裂的咔嚓声。

可能，通过这次“放电”，我的“灵魂病”被彻底治愈了。我又变得跟大家一样了，至少目前，当我想到若此刻O站在立方体高台之上，或坐在气钟罩之下时，我没有丝毫的难过。若她告发了我，我也觉得无所谓。在我生命的最后时刻，我一定会虔诚地、带着感恩之心泪流满面地亲吻全知全能者的惩罚之手。在联合国，每个接受惩罚的号码都有这个权利。我会好好享受这项权利。任何一个号码都不会，也不愿意拒绝这唯一属于我们自己的特权，他们都备感珍惜。

.....正负极的思想依然在脑海中冲突着，我仍然能听到犹如金属般的咔嚓声。我仿佛被飞船载着飞往抽象思维的蓝色高空。这里空气稀薄，在这纯净的空间中，我感觉自己“有效权利”的观念，如轮胎一样破裂了，“啪”的一声脆响。我知道，这应该是一种返祖现象，受这种现象的传染，我才会思考起“权利”来。

有的思想是黏土质的，而有的思想则是金子的，或者是由十分宝贵的玻璃雕凿而成的，它们会永存于世。若想知道某种思想的材质，只要在上面滴一滴强酸溶液就可以了。古人将这种酸液称为脱氧剂。但是他们惧怕它，他们不敢这样做。因此，他们宁愿要黏土质的思想，将它认作是人间天堂，而这其实就是孩子们的玩具罢了。而我们（要感谢全知全能者），我们是成年人，我们不玩玩具。那么，我们就来做测试吧，连那些古人当中的最有头脑者也明白：权利来自力量，只有力量才会产生权利。我们眼前有一架托盘天平：一个盘中是一克的重量，而另一个盘子里则放了一吨的重量；一克相对一吨，正如这个托盘中是“我”，而另一个则是我们，即联合国。结果很明显了，觉得“我”有某种权利，就意味着一克与一吨相等。因此，结论也就不言自明了：若要给一吨以权利，就要给一克以义务。只有这样，才能从渺小到伟大，因此，必须要忘记自己是一克，而要牢记一克只是百万分之一吨.....

你们这些面色红润、身材魁梧的金星人啊，还有这些脸皮黝黑，如铁匠般的天王星人！在这片蓝色寂静中，我感受到了你们的满腹牢骚。可是，你们不要忘记：一切伟大都源于简单至极；在所有的原理中，只有四则运算是坚固的和永恒的。因而，只有在此基础之上的道德，才是伟大的、亘古不变的。这真理是几百年来人们艰难跋涉、不畏困苦奋力攀登的金字塔的顶峰后才得到的。身处于这样的高峰之巅，你才会意识到人类内心中残存的祖先的野性，他们仍然像蛆虫一样缓慢蠕动着；身处这样的高峰之巅，你会看到O的母性、谋杀，还有褻渎全知全能者的那个狂妄的诗人，这都是犯罪，他们都犯了死罪。这才是最公正的审判，那些住在石头屋子中的古人曾抱着天真的幻想，想要的所谓公正的宣判，在这里已经出现了。在历史的某个最初阶段，这种审判曾经出现过，那就是他们的上帝将诽谤神圣教会的人处以极刑之时。

你们这些神情严肃的、有着黑皮肤的天王星人，你们很聪明，就如同古代的西班牙人一样，他们发明了火刑，你们此刻不说话，但是我知道你们与我同在。什么？肤色白皙的金星人，你们在议论，你们在说着刑讯、惩罚和回到野蛮时代的话。亲爱的星球人！我怜悯你们，因为你们远离了数学的哲理。

要知道人类历史的进程，如飞船般盘旋上升。然而圆周与圆周又有着区别：有的金色的，而有的则是血红的。但是相同的是，它们都旋转360度。从0度开始旋转，10度，20度，200度直至360度，最后又回到0度。是的，我们又回到了原点。但是对于有着数学逻辑的头脑来说，这个零已经不是之前的那个零了。这是全新的开始，我们从零开始向右出发，却从零的左边回来，负零已经取代了正零。你们懂我的意思吗？

这个零出现在我眼前，它像一条狭长的、静默的巨大的悬岩，它尖如利刃般矗立着。在黑暗的夜色之中，我们屏住呼吸，离开了零度悬岩

黑夜的这一边。经历了几百年，我们这些哥伦布们不断地远航.....我们环绕了整个地球，最终，我们得胜凯旋！众人爬上了桅杆，喜悦地看着眼前这个全新的零度悬岩。它笼罩在联合国的北极光中，这里漂浮着浅蓝色的浮冰，有彩虹，也有太阳，闪着光，明亮刺眼。仿佛有几百个太阳，几亿道彩虹.....

仅仅一把刀子的厚度，就将我们与零度悬岩的黑暗隔开，这是怎么回事呢？刀刃是人类的杰作，它是最坚固、最不朽、最充满灵性的天才之物。刀是断头台的主角，刀是斩断困境的极致工具，刀刃切开的是谬误邪说，而无畏的思想之路正如同刀刃一般.....

笔记之二十一

作者的责任

膨胀的冰

难捉摸的爱

昨天是她应该出现的日子，但是，她依然没有出现，又派人送了一张纸条给我，上面潦草地写了几个字，含糊不清。但是我内心却十分平静，没有一点波澜。我依然照她信中吩咐的去做，将她的粉红票交给了值班员，获得准许之后，便放下窗帘，独自一人待在屋里。我之所以这么做，并不是因为我没法忤逆她的意。仅仅是因为，窗帘能将一切隔绝

开来，这一切包括那如膏药般的微笑，敷衍的话语。只有这样，我才能安静地完成我的笔记。当然，还有一个原因是，我不想失去解谜的钥匙，即I-330，只有从她那里，我才能找到答案，像柜子之谜，以及我的短暂死亡等等。因为这是我的责任，作为笔记的书写者，我必须要将这些未知数解开。况且，人并不喜欢未知数。所谓智人，只有当他的语言符号中，不存在问号，只有惊叹号、逗号和句号的时候，人才是完美的智慧化身。

我觉得身为记事作者，我有责任解开谜团。因此，在今天16点的时候，我坐上了飞船，前往古宅。当时风很大，也很急，飞船非常艰难地前行着，就像眼前是一座密林，很多的树枝不停抽打着船身，让它寸步难行。而下方的城市，却像被蓝色的坚冰垒筑而成的。突然，眼前出现了云，飞掠而来，将城市遮挡住。接着，冰层膨胀，变成了如铅块般沉重的存在。就像春天，你站在岸边看河面的冰层，眼看着它就要断裂、破碎了。可是，一分钟之后，它仍然毫无动静。接着，又过了一分钟，它还没有动，但是你的心却怦怦跳，一直跳个不停，而且越跳越快.....不过，我为什么要这样写呢？怎么会有这么奇怪的感受呢？事实上，我们所生活的世界是那么坚固、透明，又恒久不变的，怎么会有破碎呢？

古宅门口并没有人，我沿着房子的四周走了一圈，终于，在绿墙附近找到了看门的老太太。她支着手掌来挡日光，朝上看着。在墙的边缘，有几只小鸟盘旋着，它们长得像尖三角似的，边叫边俯冲过去，胸脯冲撞到了无形的电压网，它们跌了回去，不断抽搐着。

在她深深的布满皱纹的脸上，我见到瞬间闪现的阴影，她飞快地看了我一眼，便说道：

“谁也没有，谁都不在那！所以，你不必来。是的.....”

我不必来？这种说法多么奇怪啊，为什么就认定我是某个号码的影子呢？应该是你们所有人都是我的影子才对！难道不对吗？我将你们所有人都写进了记事本里。你们住进了那个过去是一页页四方形的空白纸上。若是缺了我，那些由我引路在一页页文字小路中行走的人们，能遇见你们吗？当然，这些话我并没有说出来。经验告诉我，最痛苦的是让人怀疑自己是否真实存在。因此，我便板着面孔告诉她，她的任务只是给来人开门。于是，我顺利地进了院子。

院子里空无一物，没有一点儿声息。墙外的风声犹在，但似乎已经远去了，就像那天的情形一样。我仍然记得那天，我们从走廊里出来，两人肩并肩，合二为一的情况——如果那确实存在的话。我来到了石砌的拱门下面，脚步声通过潮湿的拱顶回荡着，接着又落到了我身后。我觉得似乎有人跟着我。眼前是露着红色小砖头的斑驳的墙壁，通过墙面上的眼睛，也就是它的方形窗户，它观察着我的一举一动。看着我打开吱扭作响的谷仓门，看我左顾右盼地研究那些角落，以及各处的通道……我仔细看了看围墙上的门，门外是一片荒地——这里有二百年大战的纪念碑，地上还有东倒西歪的砖石斜脊，墙基上还有裸露的黄砖，以及古代炉灶，上头还有个烟囱，看起来就像一艘永恒的舰艇化石，停泊在此处。

这些黄砖，我记得在哪里见过它们，但是我实在想不起来了。此刻我就像透过水层，看到了水底的东西一样。我开始四处搜寻：我跌进坑里，摔倒了，脚下是绊住我的石块，生锈的铁条钩住了我的衣服，我汗流浹背，咸涩的汗水进入了我的眼睛。

没有，我没有发现从地下走廊到地面的出口——什么也没有。不过，可能这样更好一些，这至少表明，所有的一切都是我的荒唐的“梦境”。

我已经没有力气了，我直起身来，带着满身的蛛网、尘垢，疲惫地推开了围墙门，准备回到大院里去。突然，我听到了身后轻轻脚步声，还有类似踩水般的声音。S出现在了 my 面前，依然露出他那粉红色的招风耳和佝偻的身形。

他眯起眼，小钻头直接钻进我的眼中，问道：

“你在散步？”

我没有应声。我的双手真够重的。

“怎么样，你觉得好些了吗？”

“是的，谢谢你。我快要健康如常了。”

他不再问了，而是抬眼往上望去，头仰着，第一次，我见到了他的喉结。

在不远处的上空，大概离我们头顶五十米的地方，有飞船。它们飞得不高，也很慢，每架飞船上都有一支长筒观察镜。我看出这是安全卫士局的飞船。与往常不同的是，今天数量很多，足有10架到12架之多（非常抱歉，我只能说个约数）。

“怎么会有这么多？”我大着胆子问了一句。

“怎么？嗯.....通常好医生都是在病人还没有患病的时候，就开始准备治疗了；而事实上，可能病人要明天、后天，或者一星期后才会生病。这是有效的预防！”

他点了一下头，便啪嗒啪嗒踩着院中的石板离开了。临走前，他转

过头来，侧着身子说道：“小心！”

剩下我一个，一切又安静了下来，我感觉到空洞。绿墙之外，鸟儿依然在盘旋，凉风阵阵。他为什么这么说？我乘坐飞船，在空中飞行。云彩的阴影投射过来。底下是蓝色的屋顶，还有如冰层般的玻璃立方体，慢慢地，它们又变成了铅色，日益膨胀.....

傍晚

我再次拿起笔，我想将那快要来临的伟大的一致日记录下来，写写我的想法，我觉得这些想法对你们，即我的读者们是非常有好处的。但是当我静静地坐下来书写的时候，我发觉，我没法写它。此刻，我只是静静地倾听风的拍打玻璃墙的声音，我忍不住四处张望了一番，似乎在等着什么。等着什么呢？连我自己也说不清楚。只是，当我见到红棕色的鱼鳃来到我屋里的时候，我非常高兴。这是真的，我很庆幸此刻她过来了。她坐了下来，认真仔细地将制服的褶皱扯平，随即给了我一个熨帖的微笑，这微笑迅速蔓延我的全身，我觉得很舒服，就像古代的婴儿一样，被牢牢地粘紧在襁褓里。

“你知道吗，今天，当我走进教室（她工作的地方是儿童教育工厂）的时候，就看到墙上的漫画。我没有说谎，他们居然把我画得像条鱼。可能，我确实.....”

“不不，不是这样的。”我连忙对她说。（其实，如果仔细看她的话，你会觉得并没有什么地方长得像鱼鳃。这点是确定无疑的，至于我以前在笔记中提到的鱼鳃之类的话，是不严谨的。）

“嗯，其实说到底也没有什么大不了的。但是，你要知道，这样的行为，的确很不好。因此，我就报告给了安全卫士们。我很爱孩子，我

认为，最伟大的，也是最难能可贵的爱就是严酷。你明白吗？”

当然。她说的话跟我的想法非常相似。我忍不住将记事二十章中的内容读给她听，这段开头的那句是：“思想依然在脑海中冲突着，我仍然能听到犹如金属般的咔嚓声……”我感觉到她红棕色的脸颊正在发颤，她离我越来越近，愈来愈向我凑近过来，此刻，她瘦削的甚至有些扎人的手指正放在我的手里：“交给我，请将这个交给我！我要抄下这些话，让孩子们背下来。跟那些外星人相比，我们更加需要它。此刻需要，今天、明天、后天都需要。”

她环顾四周，随后压低声音说道：“你知道吗？听说，在一致日那天……”

我猛地站了起来：“什么？听说了什么？一致日会怎样？”

那道舒适的围墙消失了，我自己仿佛被猛然抛到了外面，狂风在肆虐着，乌云越压越低……

U沉稳而决然地搂住了我的肩，我意识到她的手指也在微微颤抖，她被我的激动情绪所感染了。

“先坐下来，亲爱的，别激动。什么话没有呢？我们未必都要相信啊。再者，只要你愿意，那天我会陪着你的，我会和你在一起的。亲爱的，其实，你也是个孩子啊，只要你需要……”

“不不，”我连忙摆着手说，“不必这样！千万不要这样。你真的觉得我只是个孩子，认为我没法一个人……不是的！”（必须说实话，那天我还有别的打算。）

她笑着，那笑容的意思好像在说：“呵，多固执的孩子！”她又坐下

了，耷拉着眼睛。手又开始不住地摆弄制服裙上的褶皱。又用出乎意料的语调说道：

“我想，我已经决定了……为了你……但是，请你，请你，不要催促我，我还得再想想……”

我并没有催促她。虽然我心里面清楚，我可能是幸运的，也深知若能让别人在晚年感觉幸福，我也会非常荣幸的。

……做了一夜的梦。那个奇怪的翅膀不断拍打着我，我用手护着头，躲着它。接着又梦到一把椅子，它居然能蹦，像马一样。它长得怪模怪样的，类似古代的木椅。我骑着这把椅子跑啊跑，最后跑到了床上。我很喜欢这把椅子，虽然坐在上面并不舒服。

太奇怪了，就不能想出什么办法来消除梦境吗？或者哪怕让它变得理性一些，至少要让它对健康发挥些作用吧。

笔记之二十二

凝固的波浪

一切都在完善之中

我是个细菌

若你此时站在岸边，阵阵波浪带着节拍向你扑来，退去、扑来……突然，波浪静止了，它不再涌动，而是凝固住了，这是多么反常啊。若是某一天我们正依照守时戒律表的规定散步，突然散了队形，乱了阵脚，被迫终止，使得一切都显得混乱而失控。上一次发生类似的事件是在119年以前：一块巨型陨石从天而降，它滋滋燃烧着滑进了队列之中。昨天就差点出现这样的情况。我们跟平常一样，步伐整齐地在散步。那情形跟亚述古迹上雕刻的战士们相类似，1000个脑袋，仿佛是一个人一般，甩动着速率统一的两条腿和频率相同的两只手。在街道的尽头，蓄电发出令人畏惧的轰鸣声。从那里走过来一个四方队形：队列的四周都是卫兵，在方块的中间有三个穿制服的号码。但他们的胸章已经被摘掉了。我们十分清楚发生了什么。高塔顶端有一只巨大的钟，它高耸入云，从底下望上去就像一张脸，一分一秒地向下吐出时间来，傲然地等着。此时是13点06分，四方形队列有些骚动。迎面走来的人靠得很近，我能看得十分真切。我一下便记住了那个青年的细长脖颈，还有太阳穴上鼓起的血管，它们就如同一个神秘世界的河流分支。而这个神秘莫测的世界，就是这个青年。他好像看见了我们队列中的某个人，只见他蹠起脚，伸着脖子张望。一个卫兵用电鞭子抽打着他，他的后背上闪出蓝色的火花，他便如小狗一般尖叫了起来。接着，每相隔两秒钟就能听到清脆的抽打声，随着而来的是一声尖利的叫喊。如此循环……我们依然一板一眼地步伐整齐地散步。我看见火花迸射时闪现的优美曲线，心想着：“人类社会在不断前行，永无止境。古代人所用的鞭子多么难看啊……而我们的却如此地美……”

突然，如同一个脱离了轨道的螺母，从我们的队列中跑出一个女人，她瘦弱的身形结结实实地扑过去，并喊道：“住手！不要再打了！”她径直冲向了四方形队列。如同119年前的那枚陨石一般；散步的队列被迫停了下来，凝固了，就如蓝色海浪被寒流冻住了一样。我和其

他人怀着同样的心情看着她。她此时已经不是号码了，而是一个人，她此时所做的是对联合国的侮辱。但是，她突然转过身，将腿向左边扭了一下。这个动作使我一下子认出了她。是她，是那个我再熟悉不过的身体，如鞭子般柔韧，我的眼、我的唇，我的手都触碰过它。当时我非常肯定就是她。

两个卫兵朝她奔了过去，他们试图抓住她。在如镜面般明亮通透的马路上，他们就要抓住她了。她就要被他们抓住了。我的心猛地一跳。我已经来不及思考什么了：这样做是对还是不对，是合理还是不合理——我直接冲了过去.....

几千双惊恐万分的眼睛直直地盯着我看，但这一举动只是让那个野性的、汗毛浓重的充满原始野性的我，更奋不顾身地冲了过去。他占据了 my 全部身体，而且越跑越快，只差两步就要追上她了，突然她一转身.....

一张雀斑点点的脸，颤抖而扭曲着，还有棕红的眉毛.....不是！天哪，不是I-330！

我兴奋极了，这兴奋来自内心压抑不住的快乐。我想喊：“不要，不要放过她！”但是，我仅仅听到自己喉咙发出了几声低语。而此时，一只手已经重重地压在了我的肩头。我被抓住了，并且被押解着朝前走。我连忙解释：

“你们得听我说啊，你们不知道，我本来以为.....”

但是我也没法解释清楚，我为什么要这样做。也弄不明白我的病症的因由，因此，我垂着头，一言不发。任凭他们押着我走.....就像一阵疾风刮落了树叶，默默地卑微地坠落着，不断飘落的时候，它仍然想抓

住每一根靠近它的熟悉的枝条。我就是这片树叶，想抓住每一个身旁的物体，那些球形的脑袋，那屋墙的透明玻璃，还有那蓄电塔上的蓝色指针。

而今，当厚重的帷幕要将我与世界隔绝开来的时候，我突然见到了一个熟悉的身影。他正沿着镜面般的人行道快速走过来，那个有着大脑袋和一对粉红色招风耳的人。他用我所熟悉的、扁平的声音说道：

“我有义务在此证明，号码D-503有病，他不能控制自己的情绪。而且，我确信，他只是因为不满……”

“对的，就是这样。”我连忙接着说，“我当时还喊了‘抓住她！’”背后有人说道：“你什么都没说。”

“但是我确实是想喊的，我可以向全知全能者起誓。”

一根黑色冰冷的尖锥钻进了我身体里，足有一秒钟。我也不知道他是不是相信我说的话，可能，他觉得我说的（差不多）是真话，或者他还有其他的原因，想先放过我一次。反正，最后写了张条子，交给了那个卫兵。因此，我自由了。也就是说，我又被那些整齐划一的、不见首尾的亚述人队列所包裹了。

而那个四方阵，和它们所押解的雀斑脸和太阳穴，拐过街口了，就消失不见了。我们的队列继续整齐划一地走着。这是一个有着百万个脑袋的身躯，它的每一个细胞都有着充满理性之美的快乐。它体内的号码们就跟分子、原子或者细胞一样，为成为它的一分子而欣喜若狂。

古时候的基督徒，想必也有跟我们相类似的感受。他们是我们唯一的祖先，虽然他们非常不完美，当他们仍然懂得：顺从即为美，骄傲自

满则是罪，“我们”为上帝所造，而“我”则来自于魔鬼。

如今，我也和大家一样步伐整齐，但又有些不一样。经历了刚才的情感，我还在不断发抖，就像一列古代火车刚通过的大桥，余颤不断。我感觉到了自己。但是，我过去仅在被风迷了眼睛、手指感染和患牙痛的时候才会感觉到自己，意识到个性的存在。所以，这就十分清楚明白了，有了个性的人就得了病。

也许，我再也不是一个认真地、平静地吞食细菌（有蓝色太阳穴和雀斑脸的细菌）的吞噬细胞。我也成为了细菌。也可能在我们的身边，已经有了成千上万个细菌了。可能，也跟我一样，他们假装是吞噬细胞而已……

若今天发生的事，并不是很严重的话，那么，这可能仅仅是一个开始，是第一块陨石，在它后面还有很多如石头般沉重的燃烧着的巨石，如果它们就这样不断涌来，那将会怎样呢？

笔记之二十三

鲜花

晶体的融化

只要（？）

据说，有的花百年才会开一回。那么，为何就不存在千年一开的花呢？其实我并不了解这些，但是今天我却感受了一次千年一开花的情形。

我乐颠颠地沉浸在幸福之中。从房间走到值班控制员那里去。我看到了很多千年一开的花，她们争奇斗艳地绽放着。周围的一切都吐着花蕊：椅子、鞋子、金色号码牌、电灯泡、某个人的长睫毛黑眼睛、玻璃栏杆、遗失在台阶上的头巾、值班员的小桌子，还有坐在桌旁的U的浅棕色的有点雀斑的脸颊，所有的一切都变了。它们全是新的，鲜亮的，滋润的。

U接过我手中的粉红票子。在她头部的上方，我见到玻璃墙外高悬的月亮，它像挂在枝头上，发着微微泛蓝的光。我兴奋地指着月亮说：“月亮，你看到了吗？”

U抬眼看了看我，接着又瞧了瞧票上的号码，随即用她那熟悉的纯洁的动作，将裙褶弄平。

“亲爱的，你脸色很不好。看起来像是生病了，但是生病和不正常是一样的。你在作践自己，没有人会这么告诫你，没有人。”

这个“没有人”显然指的是票子上的号码。I-330。可爱的U，善良的U，你说得很对。我生病了，我还有了灵魂，我甚至成为了细菌。但是开花，开花不就是某种疾病吗？花蕾绽开的时候，它不会觉得疼痛吗？你难道不认为，精子是最可怕的微生物吗？

我重新走到楼上，回到自己的房间里。I静静地坐在宽大的软椅里。而我则双手抱着她的两条腿，头枕在她的膝盖上，我们都没有说话。一切都是静悄悄的，只能听到脉搏的跳动声……我就像一个晶状

体，在她，在I的身上融化开来。我明显地意识到，那几面将我限制在空间中的光滑切面慢慢溶解、消失。我越变越小；但同时，我又不断膨胀、越来越大，大到没有边际。因为她已经不是I，而是整个宇宙。此刻，我与这充满快乐的床边的软椅融为一体。还有，古宅门口那个亲切含笑的老太太，绿墙外的荒野的丛林，古怪的银黑色的瓦砾堆（它就像那个老太太一样打着瞌睡），还有那一扇在远处发出砰然响声的门——这一切都包容在我身上，进入我的体内，倾听我的心跳，在这美妙的一瞬间悄悄流逝。

我语无伦次地说个没完没了，我想告诉她，我是个晶体，在我身上有扇门，我觉得在这把软椅上我非常快乐——但是我说得颠三倒四，又乱七八糟。最终我只是说了一些毫无意义的废话，我只好闭上嘴，感到非常惭愧。我怎么会突然说这些话呢？

“亲爱的I，请原谅我！我不知道是怎么啦，说了这么多蠢话！”

“怎么你会觉得这是些蠢话呢？这难道不好吗？如果我们像教人们智慧一样费尽心机地花费千百年来教人们愚蠢，也许早就已经培养出了某种极其珍贵的东西了。”

“是的……”（我觉得她是对的，此时她说什么话都是真理！）

“……因为你的蠢话，还因为你昨天散步时做的事，我更加爱你了。”

“那么，你为什么要折磨我呢？你为什么不来呢？你为什么给我送来票子，为什么又让我……”

“也许，我是想要考验考验你。又或者，我要确认，你是不是会按

照我要求的那样做，完全属于我。”

“是的，我完全属于你！”

她用手捧住我的脸，试图抬起我的头。

“那么，每个诚实号码的义务呢？啊？”

她微笑着，露出那甜蜜的、锋利的满口小白牙。她坐在宽敞的软椅里，就像一只蜜蜂，既有尖刺，又有蜜汁。

是啊，义务.....我在脑海中翻阅着我的笔记：的确，记事里哪儿也没写，甚至我连想都不曾想过，而其实，我有义务.....

我没有回答。我只是快乐地同时情绪激动地微笑着（可能那个样子非常傻）。我盯着她的眼睛，从这个瞳孔看到那个瞳孔，在两只眼睛里，我都看到了我自己：我很小很小，被缩放在那仅有一毫米高的小小的彩虹房子里。接着，我又享受到了她的嘴唇和花朵绽开时甜蜜的疼痛。

联合国的每个号码体内，都有一个看不见的、轻声作响的节拍器默默跳着，因此，我们不看表，就能精确地知道时间，误差不超过五分钟。但是，现在我的节拍器停了。我不知道过了多久，我战战兢兢地从枕头下抽出带表的胸牌.....

感谢全知全能者，我还有二十分钟！但是这接下来的一分一秒又是多么微不足道！它们转瞬即逝！可是我还有多少话要对她说，我要把自己的一切都告诉她。我要告诉她O写的信，还有那个我给了她一个孩子的可怕晚上；不知怎么了，我还想聊聊我的童年，讲讲我的数学老师，还有-1的平方根的问题；以及我首次参加一致日的事，那次我居然伤心

地哭了，在这么神圣的节日，我居然因为制服上的墨水渍而难受。

I将自己的脑袋枕着胳膊，嘴角两边是又深又长的两道线，挑起的深色眉毛弯成了弓形，露出一个未知的X。

“也许到那一天……”她微微皱着眉头，停顿了一下，随即抓住我的手，紧紧捏着，说，“告诉我，你不会忘记我，你永远记得我的！”

“你为什么要这么问？出了什么事了？I，亲爱的？”

她没有回答，而是沉默着，也没看着我，她的目光穿过我望向更远的地方去。突然我听到，风从外面用巨大的翅膀扑打着玻璃墙面（当然，外面一直在刮风，只是我刚才没有注意到而已）。不知怎么地我突然想起了绿墙上那些乱飞的飞鸟。

I仿佛要甩掉什么东西似的甩了一下头。她整个人又一次紧贴着我，随后离开，短短的一秒钟，就像一架飞船着陆前的那一秒钟飞快地全力回弹时一样。

“好了，把长袜给我！快！”

她的长袜在桌子上，正好在摊开到第124页手稿旁边。匆忙之中我蹭着了手稿，稿纸散落了一地，想要将它们重新按顺序放好估计是件困难的事。最要命的是，即使我照原样弄好了，它也不可能恢复真正的秩序了。随它去吧，反正有着重重阻碍使我难以做到这个，一些尚不知晓的未知数X就横在那里。

“我不能忍受这种情况，”我说道，“你在这里，现在就在我身边，但好像你和我隔着那不透亮的古墙。透过那道墙，我能听到墙里的沙沙声，还有说话声，但是我听不清说的是什么，我也没法知道那儿有些什

么。我没法再忍受下去了。你好像有什么事情瞒着我；你从来没告诉过我，那次在古宅我究竟到了什么地方，那些长廊通往何处？那医生怎么会在那里？也许这一切从来都没有发生过？”

I-330将手搭在我的肩上，慢慢地、深深地看进我的眼睛：

“你想知道这一切吗？”

“是的，我想，我很想知道。”

“你什么地方都敢跟我走？任我把你带到哪里去？”

“是的，天涯海角也可以！”

“好吧。我可以答应你，等过了节日，只要……哦，还有你的‘积分号’呢。这事我总忘了问：它快要完成了吗？”

“没有，你说‘只要’什么？”

她已经到了门口，说：“以后你就清楚了……”

只剩我一个人。她留下的只有一股淡淡的香气，闻起来很像绿墙后面的阵阵甜蜜的、干燥的黄色花粉香；此外，她还给我留下了许多的问号，这些问号就像古代人用来钓鱼的鱼钩（在史前博物馆里我看到过）。

……为什么她突然问起“积分号”呢？

笔记之二十四

函数的极限

复活节

全部划掉

我就像一台超速运转的马达，轴承已经很烫了，再过一分钟，融化的金属就会滴答滴答淌下来，整台机器就要彻底坏掉了。快浇些冷水，给我一丝逻辑吧！我一桶一桶地往上浇，但是逻辑只是在火热的金属表面发出啾啾的响声，很快就升腾成白色蒸汽，在空中消失不见了。

这十分清楚，为了给函数确立真正的意义，应该考虑设定函数的值域。非常确定的是，昨天荒唐的“在宇宙中的融化”过程的值域就是死亡。因为死亡正是自我在宇宙中最完美的溶化。因此，如果用公式表达就是，L代表爱情，C则代表死亡，那么就是 $L=f(C)$ ，即爱情是死亡的函数。

是啊，就是这样。就是因为这个，我才害怕I，我和她斗争着，我不情愿.....但是，为什么在我的思想里，“我不愿意”和“我不由自主地愿意”总是同时存在呢？最可怕的正是这一点：我不断地思念着昨天幸福的死亡。虽然我已经推算出逻辑函数，而且清楚地知道它毕竟引向死亡。但是我的手、我的胸膛、我的嘴唇，以及我肉体的每一毫米都在思念着它.....

明天是一致日了。她肯定会出现的。那样，我就能见到她了，但只能在远处看她。隔着距离，那会让我十分痛苦，因为我更希望靠近她，

我多么渴望能和她在一起，触摸她的手、她的肩膀、她的头发……即使是这种痛苦，我都十分憧憬，我愿意……让它赶快来吧……伟大的全知全能者啊！我在胡说些什么，我居然想要痛苦。这太不可思议了。谁都清楚，痛苦是负值，加在一起的负值会减少我们的幸福，这会……唉，到了现在什么都没有了……只有空虚，只有无能为力。

傍晚。

从大楼房间的玻璃门望出去，我看到一场激动人心的日落，尽管风还在刮着。我把软椅转过来，以躲避这片粉红色的霞光。我翻笔记，我发现自己居然忘了：写这些笔记不是为了我自己，而是为了你们，我的那些素不相识的读者们，我热爱你们，我也怜悯你们，因为你们至今还生活在几个世纪之前的时代。

因此，我有必要解释一下明天即将到来的伟大日子。我觉得这节日对我们来说，有点像古代人的复活节对于他们的意义。我记得，在节日前夕，我总会准备一份标着小时的时间表；每过一小时，我就认真地划掉一小时——这样就离节日越来越近了，只差一小时了，不到一小时了……此刻，我仍然十分确信的是，若没有别人看到的话，我还会随身带上这么一张时间表，随时关注离明天还差多久。

（有人来了，我的思路被打断了：刚刚缝纫工厂送来了做好的新制服——按照惯例，在一致日前夕，每个号码都会得到新制服。走廊里喧哗了起来，到处都是脚步声，还有兴高采烈的欢呼声。）

我继续往下写着。到了明天，我仍然会看到每年都会出现的动人场景。每回看到这一景象，我都会想第一次见到它时的欣喜，那是万众一心、同心同德的景象，所有人都齐刷刷地举起胳膊。明天是每年选举全

知全能者的节日。明天我们又将向全知全能者敬献上我们幸福坚固的玻璃王国的钥匙。当然了，这跟古代人那些乱糟糟的，没有秩序可言的选举完全两样。说来可笑，古代人在选举之前居然对选举结果一无所知。这太荒谬了！更荒谬的是，他们竟毫无预见，凭偶然性盲目地建设国家。但是，要让他们明白这些道理，恐怕至少要经历几百年的时间。

不用多说，我们在这件事上，就像所有发生的其他事情一样，根本不需要偶然性的出现，也不可能发生任何意外。选举本身具有的是一种象征意义。这表明我们是一个统一的、强大的由百万个细胞构成的机体，用古人《福音书》的话说：我们是统一的教会。在联合国历史上这个神圣的日子里，没有任何声音敢破坏这庄严肃穆的齐声合唱——一个也没有。

听说，古代人习惯像小偷一样，秘密地，偷偷地投选票。历史学家还指出：他们甚至会改换姓名、躲躲闪闪地参加选举，甚至还要精心化装一番。现在就来想象一下吧，这是一幅多么荒诞阴森的图景啊：深夜，在广场上，沿着墙根有一些身着黑色披肩的影子，他们蹑手蹑脚地走着，火把的红色火舌被风吹得时明时灭……为什么要这么偷偷摸摸？对于这问题，至今也没有合理的解释。也许，是因为选举总是和某种神秘主义的、迷信的，甚至可能是犯罪的仪式有关吧。而我们可没有什么需要掩饰的，我们也不觉得有什么值得羞愧的事：我们在光天化日之下进行选举，选举是公开的，坦诚的。我看着所有号码都投了全知全能者的票，所有的号码也都看着我投了全知全能者的票。难道还有什么别的可能性吗？既然“大家”和“我”，都是统一的“我们”，那就不会投给别人。与古代人的那种怯懦、猥琐的贼头贼脑的选举相比，我们的选举要更加地光明正大、更加地高尚。此外，这种选举也合理得多。为了预防那绝不可能出现的事，即在常规的单音和声里响起某个不谐和音，那些

隐身的安全卫士总是散落其中，在人群中，在各个角落里。在我们队伍里，他们寻找着那些有可能犯错误的号码，将他们导向正轨，以防止他们进一步犯错。联合国是众号码们的！最后，还有.....

透过墙壁，我看到左边有一个女性号码正站在柜门的镜子前；她匆忙地解开制服纽扣，有一秒钟的时间，我隐约见到她的眼睛、她的嘴唇，还有她高耸的粉红色的胸膛.....窗帘落了下来。接着，我脑子里又出现了昨天的情景，那一切又再度觉醒。我不知道“最后，还有”后面要接什么话。我没法写下去了。是的，我只想要她，对，我只想要I-330。我希望她时时刻刻总和我在一起——只和我在一起，不和别人在一起。而我所写下的关于一致日的内容，都是废话，刚才我写下的话，我真想划掉它，或者把它们撕成碎片，扔掉。因为我明白（就算我所说的是违背天理的话，但这也是我的心里话），只有与她同在，只有当我们俩肩并肩在一起时，才是我的喜庆节日。如果没有她，在我的眼中，明天的太阳也就是个白铁皮的圆圈罢了，而天空也只是一片涂了蓝色的大铁片，而我自己仅仅是.....

我连忙抓起了话筒：

“I，你在吗？”

“是的，我在，你怎么这么晚打电话？”

“可能还不晚。我想请求你.....我希望你明天和我待在一处。亲爱的.....”

我压低声音说出“亲爱的”这三个字，不知怎么地，今天早晨，在我看到操作台之后，脑子突然一闪：人们似乎在开玩笑，将一块表放在百吨级汽锤之下.....汽锤猛地一砸，百吨的重量轻轻地、绵软地接触到了

脆性的表.....

电话那头沉默着，我好像听到电话那边有人在同I窃窃私语，后来她说话了：

“不行，我不能这样。你也知道，我已经有了安排.....不，这不可能，我做不到。至于‘为什么’，明天你就会明白了。”

长夜漫漫。

笔记之二十五

自天而降

历史上最大的灾祸

已知的到此结束

清晨，所有号码都起床了，赞美歌如一幅庄严肃穆的幕布，悄悄笼罩着我们，音乐机器想起，几百支铜管和几百万人齐声高唱国歌，歌声震天。顿时，我忘记了一切：忘记了I说过的话，那有关今天节日的暗示性的警告，仿佛连I这个人我也忘记了。现在，我又恢复成了从前的模样，那个当年在一致日上因为一滴制服上的小墨水渍而哭泣的小男孩。虽然周围人并没有看出我身上那洗不掉的黑墨斑。但我自己心里清

楚，我是个有罪的人，不是吗？我知道在这些坦荡无私的人群中，像我这样一个罪犯是不该有位置的。唉，如果我能够站起来，尽我所能大喊着冲出去，招认我的所有罪过，那多美好！虽然我会遭殃，但那又如何，随它来吧！至少，我会有一秒钟觉得自己是天真和纯洁无瑕的，如同纯净的蓝天一般。

所有的眼睛都朝上看：清晨纯净的天空湛蓝而明澈，还闪烁着小小的夜露。但很快，它就渐渐变大了，此刻，它正沐浴在阳光之中。这是他——新耶和華，他乘着飞船而来。他和古代耶和華一样睿智，神圣又冷酷。时间一分一秒地过去，他离我们越来越近。成百万颗心一起向他扑去。他已经可以看见我们了。我觉得自己和他仿佛在同一个高度鸟瞰着这一切：那圆形的观众台上围着一圈圈蓝点的同心圆，在上面有一些细小光点（那些都是号码牌），如同蜘蛛网上的一道道丝。在蛛网的中央，有一个白色的睿智的蜘蛛，他就是全知全能者，他就要入席了。他用幸福的有益健康的蜘蛛网将我们的手脚束缚住。

壮观的全知全能者自天而降仪式结束了。管乐的颂歌暂时停止了，全体坐下。这时我立刻领悟到：确实如此，所有的一切就如同一张薄薄的蜘蛛网，它紧绷着，细细地、颤抖着伸展着，好像马上就会抻断，发生一件不可思议的意外似的……

我坐直身子，朝四周看了一遍。我看到许多双亲切的眼睛，它们带着充满敬爱而又惶恐的神情，一张脸一张脸地看过去。我看到有一个人举起了手，手指微微地、几乎难以觉察地向另一个人打手势。对方也同样打手势回答，以及……我懂了，他们是安全卫士。我知道，他们紧张不安，可能他们看出了问题。蜘蛛网绷得很紧，在颤动。我的心仿佛也被调到了同一波段，和它一起颤抖着。

讲台上，一位诗人正在朗诵颂诗，这是选举前的程序。可是我一个字也没听见，我只听到诗歌韵律富有节奏地颤动着，随着摆锤的每一次颤动，我都觉得某一个时刻越来越逼近了。我不断地在人群中搜寻熟悉的脸庞，我一张一张的脸看过去，如同翻阅一页一页的书页。但是，我一直没有找到我想见的那个唯一的脸庞。我必须马上找到她，因为随着诗歌节律的颤动，马上就.....

突然，我看到了他。他，在下面，主席台前闪闪发光的玻璃上，我见到一对粉红色的招风耳朵一闪而过。玻璃地面上映出一个佝偻的S形体。他正急匆匆地朝观众台奔去，仿佛一个绳套，正要套中某个号码。

S和I之间，依我看来应该有着某种联系。我一直觉得有一条线将他们连着，虽然到目前为止我也不清楚这到底是什么，但早晚我会弄明白的。我眼睛紧紧盯住了他。他往远处跑去，身后牵着一团线。好，现在他停下来了.....那里，我仿佛被雷电击穿了，我浑身僵直，目瞪口呆。在我这圆形横排离我仅有40度角的位置，S站住了，他弯下了腰。我看到了I-330。她旁边坐着微笑的有着厚嘴唇的R-13。

我脑海中闪现的第一个念头是，冲过去，向她质问道：“你为什么要和他在一起？为什么不想和我.....”但是，那张无形的有益的蛛网将我的手脚牢牢缠住。我咬着牙，如铁人一般沉沉地坐在那儿，一动不动，而眼睛却死死盯着他们。我感到疼痛，这疼痛来自我的心里，如针扎般。我记得当时想着：“由于非肉体原因引起的肉体上的疼痛，显然是.....”

很可惜，我并没有得出什么结论。只记得一时间脑海中闪现的都是关于“心”的想法：还有一句古代熟语叫“心惊胆战”。诗歌朗诵结束了，我战战兢兢地一动不动：这下就要开始了吧，但到底是什么呢？

按照规定，在选举前所有号码有5分钟的休息时间。这时通常总是静默的时间。但是，今天的静默显然有些不同，它不是平常的那种真正虔诚的、肃穆的平静，反而更像是古代暴风雨来临前的宁静。在古代，他们还没有发明先进的电塔，因此，天空还是会偶尔发脾气的，时常雷雨交加，狂风大作。

此刻空气像是由透明的铸铁蒸腾出的蒸汽制成。你必须大口大口地吸气。我的耳朵紧张得发疼，记录着周遭的一切声响：听到远处传来如耗子般偷偷摸摸的窃窃私语。我垂下眼睛，不用看，我就知道那两个人，I和R，他们正并肩地坐在一起，我膝盖上的两只手不断地颤抖着，那不是我的手，那么令人厌恶、那么毛茸茸的……

每个人都看着自己的胸牌，计算着时间，一分，两分，三分……五分……台上终于传来了一个铸铁般凝重的声音：

“赞成的，请举手。”

但愿我能有勇气如从前一般直视他的双眼！我能忠诚地用心呼唤：“我的一切都在这儿。一切都在这儿。我会毫无保留地献给你！请允许我投上一票吧！”但是，此刻我没有勇气。我只能极其艰难地举起手，就像所有的关节都被锈住了一样。

几百万只手簌簌响着举了起来。有人低低感叹“啊！”我觉得出事了，但是我不明白到底出了什么事，我甚至没有勇气抬眼去看看……

“反对的人请举手。”

以往，这是节日中最伟大庄严的时刻。所有人都肃穆端坐着，在这个众号码之王提供的有益枷锁下快乐地低垂着脑袋，喜不自胜。但是，

此时，我却惊恐地听到一阵簌簌的响声，这声音就如同一声喘息般轻微，但却比演奏的《联合国颂歌》的铜管乐还要响亮。那声音仿佛是一个人在生命终结时吐出的最后一口气，他周围的人都脸色苍白地看着他，额头上布满了冷汗……我抬起眼睛，看到……

只有百分之一秒就能看清楚：在这一瞬间，我愕然地看到成千上万只“反对”的手整齐地高举着，又整齐地落下。我看见了I那张打着未知数X的苍白脸颊，和她举起的手。我眼前一黑。

又是一个百分之一秒，这是死一般的沉默，只有脉搏声隐约响起。然后，就像是全场都听从一个疯子的指挥似的，看台上霎时发出了各种声响，有咔嚓声、有喊叫声，有无数制服在奔跑，如旋风一般，还有安全卫士的身影，他们惊慌失措地到处乱跑；我见到有人的一双双的鞋底在我眼前乱晃，还有使劲张着嘴，发出撕裂的喊叫声，就像正在上演的一幕幕恐怖的电影——不知为什么这个片段像刀刻般印刻在我的记忆中。

同样也像一幕电影似的，在下边远处，一瞬间，我瞥见了O，看到她面无血色的嘴唇。她紧贴着通道的墙站着，双手护住腹部。不过一眨眼，她就消失不见了，像是被浪头冲走了，或者是我干脆忘了，因为……

以下发生的事不是电影中的情节，而是确实发生在我身边，它发生在我脑子里，在我抽紧的心里，在我疯狂地跳动不停的太阳穴中。在我的左上方，R-13突然从长凳上跳了起来，他满嘴唾沫，脸色通红，如同疯子一般。他手上搂着I-330，她同样地脸色惨白，她的制服被撕裂了，从肩头到胸口，露出白皙的皮肤，皮肤上还淌着鲜红的血。她紧紧勾住了R的颈脖。而他跨着大步从一条长凳跳到另一条长凳，如同大猩猩一

般灵活，他们一同跑开。

就像古代大火灾中一样，我四周一片通红。我的心里仅有一个念头：冲过去，跟着他们，抓住他们。现在我也解释不清楚，我哪来的力气，像个冲锤似的冲开人群，踩着人们的肩膀，跳过一条条长凳，很快地，我赶了过去，我用尽力气抓住了R的衣领：

“放开她，你放开她！你敢！你听见没有，立即……”

幸运的是，没有人能听到我在喊些什么。因为所有的人都在喊叫，都在狂奔。

“谁？怎么回事？这是怎么啦？”R-13回过头来，喷着吐沫的嘴唇在发抖。他大概猜测是安全卫士逮住了他。

“我不愿意……我不乐意……马上放下她来。”

但是他只是愤愤地口吐飞沫，摇摇头，又使劲往前跑去。于是，下面我要写的事真让我惭愧，但是我必须如实记录下所发生的一切。你们，我的那些素不相识的读者们，只有这样，你们才能对我的病史做全面的研究。于是，我使出浑身力气，将拳头朝他的脑袋使劲儿挥了过去。你们懂吗，我打了他！这一点我记得十分清楚。我还记得，这一拳下去之后，我居然有种超脱的感觉，全身觉得轻松无比。

I-330一下子从他的手中挣脱了出去。

“你走吧，”她对R大声喊道，“你看不出来，他……走吧，R，走吧！”

R齙着黑人般的白牙，冲我口吐飞沫地喷出一句话，转身就消失不

见了。我抱起I，将她紧紧贴在身上，抱着她走了。

我的心使劲地狂跳，心脏膨胀变大，每跳一下，都涌出一股炽热的、快乐的波浪！尽管天塌地陷，我仿佛什么都顾不得了！一个念头在我脑中闪现：“让他们骚乱拥挤吧，就算有什么东西崩溃，有什么东西粉碎，又有什么要紧！只要这样抱着她走就可以了，只要抱着她走.....”

同一天深夜，**22**点。

我几乎握不动笔了。今天早上发生了这么多令人头晕目眩的事情，我觉得十分疲惫。联合国保障我们安全的、坚不可摧的大墙难道就这样轰然坍塌了吗？难道我们又将再次变成头无片瓦的人，难道我们还将回到远祖那样野蛮的生活状态？难道我们将永远失去了全知全能者？反对票.....在一致日居然出现了反对票？我觉得他们应该感到羞愧、他们应该惭愧自己的举动。但是，“他们”是谁？而我又是谁呢？“他们”，还是“我们”.....我清楚吗？

我将她抱上了最高一级的看台。此刻，她正坐在晒得发烫的玻璃长凳上。她从右肩一直到那美妙的、难以计算的弧线部位都裸露着，一道纤细的鲜血流在上面。她似乎对这些都不在意，这道血迹以及裸露着的胸.....不，不应该这样说。她其实注意到了这一切，但她觉得这样正合适，若她穿着整齐的制服的话，她没准会将它撕开，可能.....

“等到明天，”她使劲咬紧牙，透过齿缝深深地吸着气说，“明天，没人会知道发生了什么。你懂吗，不仅我不知道，其他人也不知道，因为它是未知的！你知道吗？这是多么值得高兴的事。我们已知的一切坚不可摧的事都已经结束了，将来.....将是全新的无法揣测的，难以预测

的。”

下面，人海还在沸腾，飞溅着浪花，吼叫着。但这一切都离我们远去了，而且愈来愈远，因为她正看着我，将我慢慢地拉进她的瞳孔的窗户里去。我们就这样互相看着，我们沉默地看着，坐着。不知怎么地，我突然想起，有一天，我隔着绿墙，也朝外看到一双莫名其妙的眼睛，那双奇怪的黄色眼睛，当时，在大墙上还有飞鸟在盘旋着（大概鸟是另一次看到的吧）。

“听着，如果明天没有什么意外发生的话，我会带你到那去，你懂我的意思吗？”

不，我不懂。但我仍然默默地点头。我已经溶化了，成了一个无限的小点，只是一个点……

但是，说到点，归根到底还有点逻辑性，一种适用于今天的逻辑：点，包含最多的未知数，只要这个点移动或微微晃动一下，它就可以变成成千上万条曲线，也可以形成几百个主体形态。

现在，我害怕移动。一旦移动，我不知道我会变成什么？我觉得，所有号码都和我一样，不敢动。

比如，此刻当我写这篇记事的时候，所有的号码都关在自己的玻璃斗室里，看事态的发展。平时的这个时间，走廊里会传来嗡嗡的电梯声、笑声和脚步声。而如今，这些声音都不见了。偶尔还能听到两个两个的号码在走廊里走着，踮着脚尖，悄悄说话，不住张望……

明天会发生什么事？明天我又会变成什么呢？

笔记之二十六

世界是存在的

斑疹

41度体温

清晨来临。透过玻璃天花板，我看到天空依然跟往常一样，那么结实，那么圆，就像红红的脸颊。我觉得我看到这块正常的天空，比看到天上有个四方形的太阳，或者看到的是披着各种颜色兽皮的人们，而四周的墙都是不透亮的砖墙都更加惊奇。这样看来，世界——我们的世界，是确实存在的。也许世界之所以存在，仅仅是因为惯性的作用，难道发动机已经关闭，而它的齿轮还在继续转动，还要再转上两圈、三圈，直到最后，它才会停下来？

你有过这种奇特的体验吗？你半夜醒来，睁开眼，发现周围一片漆黑，你发觉自己失去了方向，你只能四处搜寻，你想要寻找你所熟悉的和牢靠的东西。就是怀着这样的心情，我看到了《联合国报》，我在上面寻找，我快速地找着……找到了：

“大家翘首以待的一致日庆典昨天举行了。无数次证明自己英明智慧的我们的全知全能者获得了一致通过，连续第48次全票当选。选举庆典中出现了某些骚乱。这些骚乱分子都是反对幸福的敌人，他们破坏了庆典的美好气氛。幸运的是，他们人数很少，因为他们的行为，他们丧

失了保持作为联合国新任政权基础的普通一分子的权利。众所周知，他们的选票全部作废。就像音乐大厅里正演奏一曲雄壮的英雄交响乐时，大厅里几个病人发出的咳嗽声，我们是不会将这当成是交响曲的一部分的.....”

啊，伟大的全知全能者！这么说，我们最终还是得救了！对这段充满着透彻逻辑性的三段推理，谁还能提出异议呢？下面还有几行字：

“今天12点钟，行政局、卫生局和安全卫士局将召开联合会议。近日将制定一项重要的国家法令。”

哦，绿墙仍然屹然挺立。它们还在！我能感觉到它们的存在。至于那种失落无措的感觉，那种不知道自己身在何方的感觉，已经消失不见了。当我看见蓝色的天空和圆圆的太阳的时候，我再也不觉得有什么奇怪了，大家都像往常一样去工作了.....

我走在街上，迈着坚实有力的步伐。我觉得，身边所有的号码跟我一样，他们也迈着坚定的步伐走着。走到了十字路口，正要转弯的时候，我发现有点奇怪。每个人都绕着拐角上的那幢楼房走，就像那栋房子的墙边有条管子裂开了，水正朝外洒出来一样，人们便不得不绕着它走。

我往前走了约五步到十步的距离，我也感到有一股凉水朝我劈头盖脸浇来，也不由自主地躲到了一旁：在大约二米左右高的墙上，贴着一张四方形的纸，上面用毒汁似的绿墨水写着两个潦草的大字：

魔菲[3]

纸的下面站着一个S身形的佝偻身影，背朝着我，他的两只透明的

招风耳朵由于愤怒，或者是由于激动在发颤。他伸出了右胳膊使劲扯着那张纸，而左胳膊像一只受伤的翅膀一般耷拉着。他又蹦又跳，想方设法想扯下那张纸来。但是他怎么也够不着纸，大约差半米左右。

[3]魔菲：《浮士德》中的魔鬼魔菲斯特的简称。

可能，每个过路人都这么想着：“这里有这么多人，如果我上去帮忙的话，他可能会以为是我干的。我做贼心虚，所以……”

说实话，我也是这样想的。但是，当我想到，有那么多次数，他都充当过我的真正的护佑神，还救过我，于是我便鼓足勇气伸出了援助之手，将那张纸撕了下来。S转过身来，无数根芒刺迅疾地朝我飞了来，钻进我的心里，在那里找到了些什么。随后，他朝墙上之前贴着“魔菲”的地方眨眨眼，微笑着，那神情仿佛很高兴似的。奇怪，这让我有点受惊了。不过这有什么可奇怪的呢？医生总是想让病人出斑疹，体温烧到40度，而不愿病人在潜伏期令人心焦地慢慢地上升体温。这样才能更快地确认病情，我终于明白他为什么发笑了。

我下了地下铁道，脚下干净的玻璃梯级上又贴着一张“魔菲”的白纸。隧道口的墙上，车里的长椅上还有车厢的镜子上，到处都贴着这些白色的斑疹点。看起来是匆忙贴上去的，所以还歪歪扭扭的。

我不得不承认，在这种充满着离奇的、令人不寒而栗的事情过了几天之后，我才真正懂得了S微笑的含义。

人们都沉默着，车轮的嗡嗡声在寂静中显得分外响，就像被传染的

血液在悲鸣一般。有个号码被人无意间碰了一下肩膀，他一哆嗦，手里拿的报纸也掉了下来。我左边的一个号码正在读报纸，只见他的眼睛死死盯着一行字看个没完没了，他手上的报纸还在微微颤抖着。我感觉到周遭的所有一切（车轮，手，报纸，甚至眼睫毛）都在跳动着，而且越跳越快……没准儿今天我和I-330到那儿的时候，温度会升高到39度，40度，甚至是41度，或者更高些……

在制造台，也同样的寂静，只能听到远处我们看不见的螺旋桨的嗡嗡声。车床好像也陷入了阴沉的沉思中，默默无语。只有起重机悄悄地、蹑手蹑脚地滑动着，不时弯腰，用它们的大爪子抱起一团团冷缩的空气，装进“积分号”的货舱里去。第一次试航的准备工作已经就绪了。

“怎么样，一周之内能送她上天吗？”我问副设计师。他的脸像一个瓷盘，画着可爱的蓝色和娇嫩的粉花（那是眼睛和他的嘴唇），但是，今天这些小花好像都凋谢了，褪色了似的。我们大声数着数。突然，我在一个词上停住了，张着大嘴愣在那儿：在苍穹之上，装载着蓝色空气团的大起重机上面，隐隐约约地有一块小小的正方形白纸。我不由地颤抖了起来，大概是因为笑得太厉害了。真的，我居然感觉到了自己在笑着（你曾亲耳听过自己的笑声吗？）。

“听着，想象你坐在一架古代飞机上，高度有5000千米，突然一只机翼折断了，你头朝下栽了下去……但在坠落的过程中，你居然还在忙着计算‘明天12点到2点钟该做什么事……2点到6点该做什么事……5点钟是吃饭的时间！’这是不是很可笑呢？我们现在不正是如此吗？”我对副设计师说。

蓝花转动了起来，他瞪大了眼睛看着。幸好我不是个玻璃人，他没法看到我体内的变化。幸好他也不知道三四小时以后会发生什么……

笔记之二十七

没有提要了

我一个人待在无止境的走廊里。这条走廊我曾经来过.....就我一个人，头顶上是黯黑的天空，仿佛是水泥浇灌而成的。不知从哪里来的水滴答滴答地落在石头上。我的前面是那扇熟悉的、沉重的、不透亮的大门.....门后传出了低沉的嘈杂声。

她说过的：16点的时候出来见我。但是现在已经过了5分钟了，10分钟，甚至15分钟。她仍然没有出现。突然之间，只有一瞬间的感觉，我发觉我又变成了原来的我。一想到这扇门会被打开，就感到害怕。

“再等最后5分钟，如果她再不出来，我就.....”

不知从哪里来的水滴滴答滴答滴在石头上。仍然没有人出现。我又喜又悲，觉得自己得救了。我慢慢地转过身，沿着长廊往回走。天花板上成串的盏盏小灯在颤抖，灯光越来越暗淡。突然，我后面的门响了一声，随之是匆匆忙忙的脚步声。声音撞到廊顶和四壁，又轻轻折回空中。是她，她像一只鸟一样轻灵地飞奔而来，张着嘴微喘着说：

“我知道你会在这里，你肯定会来的！我就知道，你.....”

覆盖着浓密睫毛的眼睛，不断忽闪着，像是让我进去的意思.....她

的嘴唇印在了我的嘴唇上，这种古代的那种荒唐的，但是却令人心碎不已的礼仪。怎么来形容此刻我心灵的感觉呢？如一股狂风般席卷了一切，除了她，什么都没有留下。的确，她确实就在我心里，我说的正是我的灵魂，你们要笑就笑个够吧。

她费力地缓缓抬起眼睑，一字一顿地说道：

“好了，现在我们得走了。”

门开了。眼前呈现的是一排古老、破损的台阶。还有嘈杂的声音简直让人难以忍受，还有尖哨声，亮光.....

自此以后，一昼夜已经过去了。我的心里已经平静了下来。不过，我仍然难以用言语做出准确的描绘，哪怕大致描绘我的所见所闻也无能为力。我脑袋里仿佛有一枚炸弹瞬间爆炸了一样.....那一张张张嘴、翅膀、喊叫声、树叶、说话声、石块.....它们都纷纷涌到了我身旁，让我应接不暇.....

我记得，我的第一个反应是：我得赶紧回来。因为我发觉，当我在长廊里等待的时候，他们想必已经炸毁了破坏了绿墙。墙外的乱七八糟的东西都涌了进去，在过去，我们的城市里是见不到这些低级世界的脏物的。可能是我对I说了这类话，她居然笑了起来：

“不不！事实上是我们已经离开了绿墙，走了出来。”

我努力睁开了眼睛。果然如此，现在我面对面地、清醒地看到了我们号码们谁也不曾见过的事物，过去我们只是透过绿墙，模模糊糊地看着这些东西，它们那时被缩小了1000倍。

太阳.....不再是我们那个均匀地洒照在马路玻璃面上的太阳。这些

光点像是活生生的有着生命的碎片，它不停地跳动着放射出令人头晕目眩的道道亮光。而那些树木，它们直窜天空，像一根根笔直的蜡烛，有的还像是趴在地上的蜘蛛，用笨拙的瓜子支撑着身体，又像是无声无息的绿色喷泉……所有的一切都在运动、跳跃、沙沙作响。一个毛糙的小圆球在我的脚下，它滚动着过去了……我仿佛像被钉住了一般，一动不动——因为我脚下没有任何平坦的平面，你明白吗，而是讨厌的、软绵绵的、弯弯曲曲的、有柔韧的活生生的生物。

我被吓到了。简直喘不过气来——对，喘不过气来。这个词来形容我此时的处境最恰如其分。我站在那儿，双手紧紧抓住了一根晃晃悠悠的树枝。

“不要紧，没关系的！因为你头一次来，这一切都是正常的。勇敢一点！”

和I一起站在那跳动得令人头晕的绿色网上的，是某个纸剪的薄薄的侧影……不，不该说是“某个”，我认识这个人。我想起来了，他是那位医生。我恍然大悟，我发觉他们抓着我的胳膊，笑着拉着我往前走。我的脚磕磕绊绊，在地上打着滑……四周都是可怕的声音、乌鸦哑哑的叫声，青苔和坑洼，老鹰，还有树枝、树干、翅膀、树叶……

树林分开，眼前是一片明亮的空地。空地上站着很多人，或者更准确的说法是，很多生灵。现在我该讲述最难以叙述的部分了，因为这已超出了我的一切可能的想象。现在我终于知道，为什么在此之前，I避而不谈这些。即使说了，我也不会相信的，连她自己也一样。也许到了明天，我自己也不会相信了，我会觉得在这里我所写的事全部是胡说八道。

在空地上，有一块像头盖骨似的光秃秃的石头，在石头旁边有大概三四百人……人，是的，暂时称他们为“人”吧，真不知该用什么词来描述他们才好。就像在人头攒动的石头高台周围，放眼望去，你只能辨认熟悉的脸颊；在此处，我首先看见的是身着灰蓝色制服的人。不过，很快地，我就从制服群中辨认出黑色、红棕、金黄、深褐、灰色和白色的人们——看来，他们都是人。

他们不曾穿衣服，披着亮晶晶的短毛，如同史前博物馆的马类标本一样。但是这里的女性的脸和我们的女性一样，几乎没有什么差别，粉嫩、娇艳、光滑而无毛，她们的胸部也具有几何曲线的美感。而那些男性，只有脸部没有毛，就如同我们的祖先一样。

这一切太不可思议了，简直令人难以置信。以至于我只能呆立着，看看周围，我就像一架天平秤，因为一个称盘里放了太多的重量，任凭另一端你再放多少，再放多重的东西，指针都一动不动……

突然，我发觉只剩我独自一人了。I-330不在我身旁。我不知道她怎么就消失不见了，也不知道她去了哪里。我的周围全是那些披着毛皮的人，在阳光下他们身上的毛像晶亮的缎子闪闪发亮。我抓住了其中一个热乎乎、结实的黑色肩膀：

“请听我说，看在全知全能者的分儿上，能告诉我她去哪儿了吗？她刚才还在这里，怎么突然就……”

两条毛茸茸的、紧蹙的眉毛转向我：

“嘘——！别出声！”他朝林中空地中央那块头盖骨似的黄石头扬了扬眉。

我越过所有脑袋看到了她。太阳光明晃晃地从对面直射进眼睛，而她站在蓝色天幕上，太阳从她的背后射过来，因而，我只能看到她的黑色轮廓。如黑炭似的黑色身影，在距离她的头顶不远处的天空中飘浮着云彩。又不像是云，更像是石头在移动着，而她仿佛就站在那石头之上，后面是人群，空地像一艘船一样静悄悄地漂动着，脚下的大地轻轻地飘向远方.....

“弟兄们.....”她说着，“弟兄们！你们都清楚，在绿墙里，他们正在建造‘积分号’。你们也知道，摧毁绿墙以及所有的墙的日子已经快到了。到那时，绿色的风会毫无障碍地吹向全世界。但是，‘积分号’却要将那些墙带上太空，传到成千上万别的世界去，这些星球深夜都在黑色的树叶孔隙闪闪烁烁地向我们低语.....”

人的浪潮，水花，还有风向岩石涌过去。

“打倒‘积分号’！打倒它！”

“不，弟兄们，不必打倒它。‘积分号’必将为我们所用，成为我们的武器。当它第一次离开地球驶向太空的时候，我们将一起登上它。因为‘积分号’的设计师和我们在一起。他走出了高墙，和我站在了一起，他加入了我们的阵营。设计师万岁！”

霎时间，我飘了起来。我的下方是无数个脑袋，一个个的脑袋.....还有呼喊着的张大的嘴，不断举起又放下的手臂.....这情景让人沉醉，迷迷糊糊，我觉得我高出了所有的人。我是我，一个单独的个体，一个独立的世界，我不再是整体的一部分，而今，我成了一个组织.....

我又落回到了石头旁边。就像刚刚经历过恋人的热情拥抱一样，我浑身兴奋地颤抖着，软绵而无力。太阳照耀着我，周围传来各种声音，

还有I的迷人微笑。我身旁有个金发女人，她的全身像缎子般晶亮，身上有着药草的香味，她手里拿着一只木制的杯子。她的嘴唇殷红，她轻轻地喝了一小口，随后将杯子递给了我。我闭上眼睛，激动地喝着这甘美、亮晶晶的辛辣液体，想用它来浇灭我胸中焦灼的火焰。

但是，很快地我浑身的血液和整个世界都以1000倍的速度流动和旋转起来，大地仿佛在轻快地飞旋，如黎明一般轻盈。我感到身上轻松，简单，明快。直到现在，我才注意到石块上有两个我曾见过的硕大的字“魔菲”。不知为什么，在这里见到它们，我觉得并不吃惊，甚至是理所当然的。它们像一条简单的、牢固的线将一切都串联起来。在岩石上还有一幅十分粗糙的画：这是一个粗线勾勒的青年人体图像，他长着翅膀，全身透明，而只有心脏处是一块夺目的、燃烧着的红彤彤的煤块。我又看明白了这块煤块的意义.....也许不应该这样说，应该说我是感觉到了它的意义。I-330仍在说着话，但我却听不清楚她说的每一个字；我感觉到大家都步调一致地呼吸着，就像它们很快就要变成鸟一样，飞往自己想去的任何地方.....

突然，从我身后，从一片乱糟糟的人群中传出一个响亮的声音：

“可是，这是发疯！”

这时，仿佛是我，是的，我想就是我，我喊了起来，而且我还跳上了岩石，站在岩石上，我看到了太阳，众人的脑袋，还有黑色背景前的一排排绿色的海洋，我喊道：

“没错，说得一点都没错！我们必须发疯，我们必须让所有人都发疯！要尽快这样！我知道，这是必须的。”

I就在我身旁，她微笑着，嘴角朝上扬起两道深色的沟印.....我胸

中有一块燃着的煤块，这感觉仅仅一瞬，我觉得轻松无比，但又有些疼痛，这十分美妙……过后，在我心里只剩下残余的碎片在刺痛着我。

一只鸟慢慢地飞翔着。我发现，它同我一样，也是有生命的存在，它跟人一样，一会儿看看左边，一会儿看看右边，圆溜溜的黑眼珠向我投来锥子般的眼光……

接着，我又看见一个人的背部，长着亮闪闪的古代象牙色的皮毛。一只翅膀透明的黑色小飞虫在背上面爬着，他抖动了一下，想把那虫子赶走，接着又抖动了一下……

我还见到一个从树林间投射下的影子，是个交织的网状的影子。在暗影里有些人躺着，嚼着一些古怪的食物，那些食物像传说中的古代食品。是一个长条状的黄色果物还有一块黑色的食品。有个女人还给了我一块，我感觉可笑极了。不知道该不该尝尝。

……还有一个个脑袋、胳膊、腿脚和嘴巴。这些人的脸有时很快抬起来，随后又低下不见了——就如同气泡一样瞬间破了，消失不见。突然，可能是我的幻觉吧，我好像看到了那对透明的、忽闪着而过的招风耳，他一晃而过，一秒钟就消失不见了。

我使劲捏住了I的手臂。她转过头来，看着我说：

“你怎么啦？”

“他在这儿……我觉得……”

“谁在这？”

“他，S，就在刚才……在人群中一晃而过……”

细细的乌黑的眉毛向上一挑——一个尖利的三角形出现了——她笑了。我不知道她怎么会笑呢？她这样笑又意味着什么呢？

“你知道的，I，对不对？若是他，或者他们中的那帮人，有谁来到这儿，这究竟意味着什么？”

“你真可笑！墙里的人怎么会知道我们在这里呢？你可以好好回想一下，就拿你来说吧，以前难道你曾想过，这是可能的吗？这些人正在全城搜捕我们呢.....让他们忙去吧。你真是疯了！”

她愉快地笑了起来，那轻松的笑容也感染了我。我也跟着笑了。整个大地也随之陶醉了，它快活地、兴高采烈地飘荡着.....

笔记之二十八

她俩

熵^[4]和能

不透明的身体

若是你们的世界和我们古代的世界相似，你们应该很容易想象这种感觉：就像你们无意中突然发现了第六或第七块新大陆一样，类似于亚特兰蒂斯之类的地方，在那里，还会发现我们闻所未闻的城市，类似于

古希腊神话中的迷宫。还有那些可以借助翅或者飞船，在天空中自由飞翔的人们，还有仅仅凭目力就可以举起的石块。反正，那些东西，都是你连做梦都没有想到的事情。这就是我此时的感觉，我昨天遇到的就是这类情况。自200年大战之后，从未有任何人走出绿墙之外——这一点我曾告诉过你们。

我的那些素不相识的朋友们，我深知我有义务向你们详尽地描述我昨天的所见所闻，在那个新奇又不可思议的世界里，我所经历的一切。但是，到目前为止，我还不想再谈论这个话题。因为这些新的事件都太离奇了，它们一件接一件地发生，就如同暴雨般倾泻而来，我还没有能力全盘接受。我使出浑身力气扯起了制服的衣襟去接纳，伸开双手去捧，但是整桶整桶的雨水泼洒过来。我只能抓住能接到的点滴，将它们记录在纸上.....

起初，我听到我背后的房间门外有人在大声吵闹，我听出了I的声音，那声音清脆而悦耳，而另一个声音，则沉闷而显得死气沉沉的，像把木尺一样，这应该是U的声音。接着，我的房门被推开了，她俩同时出现在了 my 面前，用“弹射”来形容她们的速度更为恰当。

[4]熵：是热力学的第二定律。物理学上指热能除以温度所得的商，标志热量转化为功的程度。

I将手放在我的椅背上，向右侧着头看着U，露出一丝笑意。这样的笑容，如果是面对着，我一定会神魂颠倒了。

“在我看来，”I对我说，“这个女人好像是觉得她有责任，把你像个孩子似的保护起来，不让你接触我。这得到了你的允许了吗？”

还没等我答话，U脸上的鱼鳃直颤，她说道：“是的，他的确是一个孩子。就是这样！所以他没有发现，你这样对待他只是为了.....这一切不过是场不公平的游戏。就是这样！而我的责任.....”

有那么一会儿，我见到镜子里闪现出我那折断了的、颤抖着的眉毛。我很快就站了起来，使劲克制住另一个我，那个有着毛茸茸拳头的人。我费力地从牙缝里挤出话来，看着她的鱼鳃似的脸颊，说道：

“马上出去！出去！马上滚出去！”

鱼鳃脸先是涨成了猪肝色，接着又鼓了起来，变成了灰色。她张大了嘴想说些什么，但是什么也没说，而是掉头走开了。

我扑向了I：

“这件事我永远，永远无法原谅自己，她怎么赶这样来阻拦你.....但你不会这样想吧，她.....我明白，因为她想登记我，但是我.....”

“幸好，她来不及登记了，不过，像她这样的人，即便有1000个，我也不在乎。我知道，你不会去相信她们的话的，因为你只相信我一个。昨天的事情发生以后，我的整个人都完全地属于你了。我已经是你的人了。你随时都可以去.....”

随时可以去.....什么？我立即就明白了她的意思。血顿时涌上我的耳朵和脸颊。我喊道：“别这么说，千万不要这么说！难道你不知道，那是另一个我，从前的我或许会，但是如今.....”

“谁知道呢？一个人就像一本小说，没有看到最后一页，谁都猜不出结局。但是，正因为这样他才值得一读啊。”

她抚摸着我的头。我无法看到她的脸，但是从她的声音里我可以感觉到，她正凝望着远处，眼睛可能正看着一片云彩，默默地想着它会飘向何处。

突然，她温柔而又毅然地将我推开。

“听我说，我之所以过来，是想要告诉你……这可能是我们最后的日子了……你明白吗，今晚以后，所有的礼堂都要关闭。”

“关闭？”

“是的。刚才我路过的时候，看见里面正在准备着，里面一张张桌子，还有穿白大褂的医生。”

“这又是什么意思呢？”

“不清楚。现在谁都不知道是怎么回事。这是最糟糕的。我只感觉到，他们要行动了，这是暴风雨前的宁静，不是今天就是明天……但是，可能他们已经来不及准备了。”

我早已不再考虑，他们是谁，我们又是谁。我也搞不清楚，我希望的是是什么。到底是希望来得及还是来不及呢？我只知道一点：I-330此刻已经走在悬崖边缘，马上就要……

“但是这太不明智了！”我说，“你和联合国对抗，这无异于用手去捂住枪口，指望能将子弹挡过去……这实在太蠢！”

I笑了。

“‘我们全部都必须发疯，要尽快发疯！’你还记得吗？昨天有人说过的话.....”

是啊，这句话已经清楚地记录在了我的笔记里。这是千真万确的。所以，这一切都是真实的。我默不作声地看着她的脸，此刻她脸上那深色的X分外明显。

“I，亲爱的，此刻还为时不晚.....要是你愿意的话，我可以舍掉一切，忘记过去，我和你走出绿墙，我们和他们在一起.....虽然我到目前还不清楚他们到底是谁。”

她摇着头。透过她眼睛的两扇窗户，我看到她体内已经燃起的熊熊烈火，炉火正旺，火苗直往上蹿，上面还有一堆干柴。我明白了：已经晚了，多说无益.....

她站起来，要离开了。可能这已是最后的日子，可能是最后的几分钟.....我紧紧握住她的手。

“不！求你多待一会儿，看在.....看在.....”

她拿起我毛茸茸的手，将它举到亮处。我最不喜欢这双手，想要将它抽出来，但她抓得更紧了。

“你的手.....你当然不清楚，很少有人清楚这一点，从这城里去的女人常常会爱上那些男人。很可能，你的体内也流淌着几滴太阳和森林的血。可能这就是我爱上你的原因.....”

随即，她沉默了。真奇怪，因为这阵沉默，因为这突如其来的空寂

和一无所有——我的心狂跳个不停，我喊道：

“啊！你还不能走！你不能走！你必须要跟我说说，说说他们.....因为，因为你爱他们.....但我连他们是谁都不知道，他们来自何方？.....”

“他们是谁？他们是我们丢失的那一半，H₂和O本来是两个部分，但是为了获得水、小溪、大海、瀑布、浪涛和暴风雨，他们结合到了一起，成为了H₂O.....”

当时她的每个动作我都记得清清楚楚。我记得，她从桌上拿起一块玻璃三角尺。一边说话，一边用尺子的边棱抵住自己的脸颊，上面有一道白色的印记，很快就平复了，接着变成了粉红色，最后又消失不见了。很奇怪，我并没有记住她说了些什么，特别是开头说的话，我只记住了她说的一些个别的意象和颜色。

我记得，起初她谈到了200年大战。先是提到了红色，接着是绿色的草地，上面是殷红的鲜血，还有黑色的土地、蓝色的雪地上.....随处可见那些永不干涸的红色水洼。接着，她提到了黄色；这是一片片被太阳晒得焦枯的黄草地，还有黄皮肤的人们，他们赤身裸体、面容憔悴、蓬首垢面，他们躺着，旁边还有毛发蓬乱的死狗，以及被饿死的人的尸体.....当然这一切都发生在绿墙之外，因为城市已经取得了胜利，它已经制造出了我们今天的汽油食物。深夜.....有黑沉沉的片片烟雾，它们在树林和村庄的上空飘浮着，还有缓缓移动的烟柱。人们发出的低沉的号哭声，看不到尽头的黑压压的人流，被驱赶进城市，被武力胁迫着，被鞭笞着进入幸福。

“这一切你应该都清楚吧？”

“是的，差不多都清楚。”

“但是有一点你并不知道，当然，也只有很少的人知道：当初有一小部分人活了下来，他们勇敢地留在了绿墙之外。他们赤身裸体，只能躲进森林。在那里他们向树林、野兽、飞禽、花草和太阳学习。不久，他们身上有了长长的毛发，而在那毛发之下仍然有一颗鲜红的心，可以说，他们从未改变过。但是，你们却糟糕多了。你们的身上到处都是号码，这些号码像虱子一样爬到你们的身上各处。你们应该将这些东西撕下来，扒得光光的，然后跑到森林里去。这样，你们就会懂得什么是恐惧，什么是喜悦，什么是激怒，什么是因寒冷而发颤！你们应该向火祷告，而我们魔菲，我们想要……”

“等一下，‘魔菲’？‘魔菲’是什么意思？”

“魔菲吗？这是过去的一个人名，他就是……你还记得在绿墙外边刻在一块大石头上的青年人形吗？……不，我还是用你们的语言解释给你听吧。这样你能更好地明白它。这世界上有两种力量：熵和力，前者会带来舒适的平静和幸福的平衡，而后者则会导致平衡的破坏，导向不安定，甚至动荡的状态。我们的祖先，更确切地说，你们的祖先基督徒们崇尚熵。但我们不是基督徒，我们……”

正在这时，我听到了极轻的叩门声，随即，一个人飞快地冲了进来。就是那个帽子压到眼睛上、鼻子扁平的人，他曾经不止一次地给我传过I的便条。他迅速地跑到我们跟前，如空气泵一般大口大口地喘着气，连一句话也说不出。铁定他是一路狂奔过来的。

“快说呀！出了什么事了？”I用力抓住他的手问道。

“他们向这边来了……”空气泵总算缓了一口气，“安全卫士们来

了.....还有那个.....怎么说呢.....像驼背模样的人.....”

“S？”

“是啊！就是他，他们已经过来了，进到楼里来了。快点儿，快点儿！”

“别着急！来得及.....”I微笑着，眼睛里闪烁着快活的火花。她这种表现，要么就是荒唐又不理智的勇气，要么就是还有什么我不知道的事情。

“I，亲爱的，看在全知全能者的分儿上！你要清楚，这确实是.....”

“看在全知全能者的分儿上。”她又笑了，脸上露出一个尖锐的三角形。

“好吧，好吧.....看我的分儿上.....我请求你。”

“噢，好吧，我本来还有件事情要和你谈一下.....算了，下次吧。没关系，明天见。”

她愉快地（确实是十分愉快地）朝我点点头，那个人也从前额的帽檐下露了露脸，朝我点了点头。他们便一起离开了。只剩下我一个人了。

快些坐到书桌旁去！我匆忙地打开笔记，拿起了笔。这样他们就会看到我正忙于做一件对联合国非常有益的事情。突然，我的头发一根根地活了，我竟然想道：“如果他们突然看到了我最近写的那几篇内容呢？哪怕只读上一页，就惨了！”

想到这，我呆住了。我一动不动地坐在书桌旁，我四周的墙壁都在旋转着，手里的笔也在发抖，眼前的字似乎都挤到了一起。将笔记藏起来吧，但是藏到哪里去呢？四周都是玻璃的。那么烧了它们呢？也不行，从走廊和隔壁的房间里就会看到火光。而且，我也实在没法狠心将这些承载着我的痛苦、欢乐和激动心情，令我倍感珍贵的文件烧毁，它们成为了我身心的一部分了.....

远处走廊里已经传来了说话声和脚步声。我所能做的就是将一摞稿页塞在屁股下面，然后一动不动地坐在椅子上，就像焊在了椅子上似的。我似乎能感觉到椅子上每个最小的粒子都在颤动，而我脚下的地板晃悠得像船上的甲板上下颠簸着.....我自己缩成一小团，仿佛那个躲在帽檐下的信使一样，从蹙紧的眉头下偷偷地观察着别人的一举一动：他们挨着房间搜查过来，从走廊的右边的房间查起，越来越近.....我看到有些号码坐在房间里一动不动，跟我一样，也有些号码立马站起身来欢迎他们，将大门大敞四开。他们真幸福！如果我跟他们一样，那么.....

“全知全能者是人类不可或缺的最佳、最优质的消毒剂。因此，联合国的机体内不允许任何害虫捣鬼.....”我使劲捏住不断抖动的笔，写下这些纯属废话的语言，而我的头则越趴越低，身体里有一股疯狂的情绪在酝酿着.....甚至连我的后背都凝神听着动静.....我听见了门把咔嚓拧动的声音.....一阵风吹了进来.....我坐着的椅子晃动着.....

此时，我才恋恋不舍地离开了笔记，朝进屋的人转过脸去（演一场滑稽戏可真不容易.....是啊，今天有人对我说起过类似的事）。首先映入眼帘的是S，他站在这些人最前面，他绷着脸，不说话，目光像锥子似的深深钻进我的心里，钻进我的椅子以及我手中的稿纸。然后，在我门口闪过几张我所熟悉的、每天都见到的面孔；这些脸孔中，有一张脸显得与众不同，那脸上鼓着棕红色的鱼鳃.....

我突然想起了半小时之前所发生的一切，所以我很清楚，此刻为什么他们要来到这里了.....

我的全身有些发抖，而心也狂跳不已（幸好那部分是不透明的），我用稿页遮着它。U站在S身后，她小心翼翼地拉了一下他的袖子，低声说：“这是D-503，‘积分号’的设计师。你大概听说过吧！他总是这样，坐在他的书桌旁努力干活.....从来不放松自己！”

.....天哪，我真无颜以对了！.....这是一个多么亲切，好心的女人啊！.....S不声不响地溜到我背后，俯身往桌上看去。我正用胳膊肘挡住刚刚写下的话。他厉声命令道：

“请马上向我们出示你写的内容！”

我有些惭愧地将那页纸交给他。他看了一遍，我发现他眼角里流露出一丝笑意，这笑意悄悄爬到他的脸上，摇晃着小尾巴，又转移到了他嘴唇的右角上，“语言有点含混不清，但是还不错.....嗯，你可以继续写下去，我们不再打扰了。”

他啪嗒啪嗒地走了出去，那声音就像在水面上的蹾水似的。他渐渐走远，每走一步，我就觉得我的腿、我的胳膊，还有我的手指，都逐渐回到了我身上，我的灵魂又均匀地布满了全身，我又可以呼吸了.....

最后，U最后一个走出了我的房间，她临走之前，来到我跟前，弯下腰凑到我耳边低声说：“这是你运气，我.....”

她为什么说这些，我不清楚。后来，再也没有人提起那天的事。但是我仍然听说，他们带走了三个号码。所有人都对这件事缄口不言，因为我们都受过教育，我们知道隐藏在我们之中的安全卫士，他们无时无

刻不在认真工作。因此，号码们谈论的主要是天气的变化以及温度计气温骤然下降的事。

笔记之二十九

脸上的线条

萌芽

一种不自然的压缩

天气真奇怪，气压计的水银柱不断下降，但是却没有风。非常平静。但是在头顶的上空，却已经开始刮起了风暴，乌云正飞速地翻卷成形，只是目前还不够多，仅仅是一些分散的、零碎的碎片；就好像上空有座城市被摧毁了，而大墙和塔楼的残垣断壁正迅速地往下坠落，它们下降的速度是惊人的，但是它们要想穿过那蓝色的无限空间，掉落在位于最底层的我们身上，仍然需要花费几天的时间，因为距离太远了。

地面上，眼下仍然是一片平静。空中飘浮着一些细细的、难以觉察的几乎看不见的细条，不知到底是什么。每到秋季来临，它们就会从绿墙外飘过来。它们慢慢悠悠地飘荡着，突然之间，你会觉得脸上有什么东西粘上了，你想弄掉它，但是不行，任凭你怎么挥也挥之不去。不行，没有任何办法。若是在绿墙附近，早晨，当你沿着绿墙边走时，这样的线条就更多了。I与我约好在古宅碰面，因此，早上我便来到了这

里。

当我走进锈红色、不透明的古宅大院的时候，突然听到了身后传来的急促的小碎步，还有短促的呼吸声。我扭头看了一眼，发现居然是O-90，她正努力地追赶我。她浑身上下变得和以前不同了，更加地圆润，更加地富有弹性。我非常熟悉她的一切，她的双手、她的胸部，还有她的身体，此刻都被制服紧绷着，好像她的身躯很快就要将薄薄的制服撑破了，不由得使我想到了春天绿色的草丛，那些幼芽就是这样，用顽强的力量顶出地面，只是为了伸展枝条，开出花朵。

她沉默了几秒钟，随后，蓝色的眼睛眼波流转地望着我。

“一致日那天，我看到你了。”

“我也看见你了。”我立即想起来了：她当时站在狭窄的过道里，紧紧贴着墙，双手护着腹部。想到这里，我便不由自主地看了看她的腹部，它隆起着，显得圆滚滚的。她显然也意识到了我的目光，随即脸色变得圆润又粉红，娇媚地微笑了起来：

“我非常幸福，非常幸福.....我觉得很美满，你懂吗？我觉得太幸福了。当我走路的时候，我什么都看不见，什么都听不见.....我只是听到我身体里边的动静，感觉我身体里面.....”

我默不作声。脸上有种难以形容的陌生感觉。突然，她的蓝色眼睛里有着光彩，她的眼睛显得更蓝了。她使劲抓住我的手.....我能够感觉到她印在我手上的吻.....这是一种我非常陌生的古代礼节.....我生平第一次感受到，我觉得太丢脸了，并且觉得有一阵心疼。因此，我迅速地甚至有些粗暴地抽出了自己的手。

“听着，你是不是疯了？这的确是……你怎么会觉得幸福呢？难道你不知道未来等待着你的将是什么吗？即使现在还没事，但是不代表你能逃过一个月或两个月之后……”

她脸上的光彩消失了。圆圆的身体开始变得瘪起来了。我心中一阵难过，同时又觉得十分不快，我甚至能感觉到心脏病态地收缩着。（心脏应该是一个完美的气泵。如果在气泵的运转过程中出现了收缩的现象，只能说明这是一件技术上十分荒谬的事。所以，所有有关于“爱情”“怜悯”之类的话，这些凡是能引起心脏收缩的感情，就其本质而言，都是荒谬的，甚至是可悲的。）

我们都没有说话，在我们的左侧是绿墙朦胧的绿色玻璃。而我的前面是朱红色的古宅。这两种颜色共处一个空间，让我有了一个非常好的想法。

“等一等！我想到了！我有办法救你了！我一定要救你，让你躲过这可怕的命运……只要能看一眼自己的孩子，然后就离开人世。不能这样，你应该抚养他长大成人，你懂吗？要让他到你的怀里长大，变得茁壮丰满，就像果实……”

她抖动着，使劲抓住了我。

“你还记得她吗？很久以前，我们在散步的时候见过的那个女人。I-330，此刻，她就在这里，这座古宅里面。我们这就去找她，我敢保证，我会很快将这一切安排好的。”

我好像已经看见，我和I，我们带领着O在长廊里走……随后，她被带到那边有花草和绿叶的世界里去……但是她没有跟我走，反而向后退了一步，粉红色的半月形的嘴角颤动起来，她撇着嘴。

“就是她吗？”她问。

“是的……”不知怎的，我居然有点难为情，“是的，就是她。”

“你想让我去她那里，让我去求她……求她……请你以后再也不要提这件事了！”

她踉跄着，走开了……突然，她好像又想起了什么，转过头来，大声喊道：

“死有什么关系！我不在乎……这也和你无关，也不是你该在乎的！”

我不知道该说什么好。在我们的头顶上，天空中，蓝色的大墙和塔楼的残砖碎瓦不停坠落着，速度非常快……也许，它们还要在无限的空间飞行几个小时，甚至更久……空气中有很多看不见的细丝，它们粘在我的脸上，不管我怎么弄，它们也不离开我。简直拿它们毫无办法。

我慢慢地一步一步地走向古宅，我的心脏仍然在收缩着，荒唐地、痛苦地收缩着，那感觉越来越强烈……

笔记之三十

最后一个数字

伽利略的错误

这样不是更好吗？

以下所记载的就是昨天我和I在古宅里的谈话。在交谈的过程中，周围出现的各种色彩不断干扰着我：红的、绿的、黄铜色的、白的、橙黄的……这些杂乱的色彩让我无法进行逻辑思考……还有那个有着翘鼻子的古代诗人，他总是笑着居高临下地看着我们的一举一动。

我想一字不落地将我们的谈话内容记录下来，因为我觉得，这些内容会对联合国的命运产生重大的、决定性的意义。不仅是这样，甚至连宇宙的命运也会受到左右。此外，你们，我的那些素不相识的读者们，没准可以为我找到几句开脱的话……

I-330将所有的计划一股脑地告诉了我：“我知道，后天就是‘积分号’首次试飞的日子。到时候，我们会把它夺过来。”

“什么？后天？”

“是的。你坐下，别慌。我们一分钟也不能浪费。昨天，安全卫士局逮捕了几百个涉嫌分子，里面有20个魔菲。再过两三天，他们就活不成了。”

我默不作声。

“在试飞开始之前，他们会派去电气师、技师、医生和气象学家……到12点钟，你一定要记住这个时间点，当午饭铃打响之后，大家去食堂的时候，我们就偷偷留在通道里，把其他的人都锁在食堂里——这样‘积分号’就是我们的了……你明白吗？我们必须要做到这一点。

“我们一旦有了‘积分号’，我们就有了武器。它能痛快地解决一切问题。至于他们的飞船.....那算得了什么！它们只不过是渺小的蚊子罢了，哪儿能和苍鹰相比呢？到时候，如果是无法避免的话，我们可以将发动机的筒口拨向地面，就靠这点就可以.....”

我忍不住跳了起来。

“这太不可思议了！简直荒唐至极！难道你不明白，现在你在搞革命吗？”

“是的，革命！你怎么会觉得这荒唐呢？”

“因为革命是不可能实现的。因为，我们的，我的意思是，我的和你的，就是上次我们所做的革命是最后一次了——以后不会，也不可能再有革命发生了。这是谁都明白的道理.....”

她露出了一个尖刻的讥讽的吊梢眉三角形：

“亲爱的，你是个数学家，哦，对。你不仅是数学家，还是个哲学家。好吧，那请你告诉我最后的数字。”

“什么？我.....我不明白，什么最后的数字？”

“就是那最后的、最高的、最大的数字啊。”

“可是，I-330，这是荒唐的。数是无穷尽的，怎么可能有什么最大的数呢？”

“那么你所说的最后一次革命又是什么呢？.....怎么会有最后的革命呢？革命是无穷尽、永无止境的。所谓的‘最后一次’的革命只是哄孩

子的玩意罢了。无穷尽会吓到孩子，他们因此会晚上睡不着觉的，所以，我们就编造一个谎话来骗他们.....”

“看在全知全能者的分儿上，你为什么要做这些呢？我们已经拥有了幸福，做这些又有什么意义呢？”

“好吧，就算像你所说的那样吧。那么，以后呢？”

“多可笑啊！这简直是孩子所问的问题啊。你跟孩子说得清清楚楚，最后，他们还会问：‘那然后呢？’其实根本就没有什么‘然后’。在这个世界上，随处都均匀地分布。”

“嗨，‘随处’‘均匀地！’这就是问题所在，这是心理上的熵。身为一名数学家，难道你不清楚吗？生命之所以存在就因为有差异，温度的差异，热的差异。所以说，要是整个世界到处都分布着均匀的温度，或者均匀的寒冷.....那我们就必须改变它！让它迸发火花，爆炸，随之燃烧，从而推动它们发生质的变化！”

“但是，I，你得想想，我们祖先在200年大战期间已经做过这些了.....”

“噢，他们是对的，一千个对。但是，有一点他们做错了：后来他们竟认定自己是最后一个数字，其实这样的数字在自然中并不存在。这个错误就跟伽利略的错误一样，他认为地球围绕太阳转，这是对的。但是他却不知道，整个太阳系又围绕着另一个中心旋转，他不知道地球真正的轨道并不是一个简单的圆形.....”

“那你们呢？”

“我们，至少到目前为止，我们知道没有所谓的最后的数字。也

许，多年以后，我们也会忘了这一点。是的，当我们老了以后，我们很可能会忘记这个。世间万物不可避免地都会变老，这是避无可避的。正如秋天的落叶，季节到了它就会落下来，就像你们后天.....不不，亲爱的，我并不是说你。你和我们同在，你和我们在一起！”

我从来没有见过她这个样子。此刻她就像团炽烈的熊熊燃烧的烈火，像疾速的狂风，像飞速运转的火星。她疯狂地拥抱着我，我融化了.....

最后，她坚定地、一动不动地望着我的眼睛说：

“记住：12点整。”

我回答：

“好的，记住了。”

她离开了。剩下我独自一人待着，四周的嘈杂声震耳欲聋，各种色彩混杂着：蓝色的、红色的、绿色的、金黄色的、橙色的.....

是的，12点整.....突然，我感觉脸上被什么东西粘住了，怎么弄也弄不掉。接着我的脑海中浮现起了昨天早晨的情景，U冲着I喊叫的情形.....怎么会想到这个？太荒唐了！

我匆匆忙忙地往外走，想赶快回家去.....

我身后传来了鸟儿清脆的啼鸣，在我眼前的是落日的余晖，我看到那个整齐的闪闪发亮的红火的圆屋顶，还有巨大的燃烧方块制成的房子，还有那高耸入云的电塔顶上的尖针。眼前的这一切，是这么完美无瑕，难道，我将亲手破坏.....难道毫无办法了吗？没有其他的方法了

吗？

我路过了一个礼堂（不记得它是第几号礼堂了）。大厅里的长凳都整齐地放在了墙角，中间摆着一些大桌子，桌子上是雪白的玻璃罩布，白单子上有夕阳的余晖……这些都暗示着一个未知数——明天！那无人知晓的、可怕的明天！这是反常的：让一个有思想、有视觉的人去面对没有结果、一切未知的明天。哦，未知，那未知的X。这太让人难受了，就像别人蒙住了你的眼睛，什么都是黑的，你只能凭感觉摸索，磕磕绊绊地往前走，但是你却不知道，分界线就近在咫尺，只要再跨出一步，你就会摔成一块烂泥……此刻，我就是这种感觉。

……如果我什么都不想，彻底栽下去呢？……这或者是唯一的办法了，到时候所有的问题都将迎刃而解了！

笔记之三十一

伟大的手术

我宽恕了一切

列车相撞

在最后一刻，在你感觉到没有任何指望，眼前已经是世界末日的时候，在这最后一刻……我们竟然得救了！

仿佛你已经走向了通往可怕死亡的死刑机台阶，仿佛玻璃气钟罩已咣啷啷响着罩住了你，在你生命的最后时刻，你留恋地看着蓝色的天空……突然，你醒了过来，原来这一切是个噩梦。太阳依然是粉红色的，快快活活的。而那墙，那冷冰冰的墙能够触手可及，是多么幸福！还有那枕头——我能轻松无比地感觉到脑袋正枕着低陷的小坑里……这就是今天早上我读完《联合国报》的感受。过去的一切都是场可怕的噩梦，现在梦已经醒了。而我，曾经是如此地胆小怕事，如此地背信弃义，居然已经想到了身不由己的死亡。现在我再谈起昨天笔记中写的最后几段文字。我觉得羞愧得很。但随它去吧，这已经无关紧要了，就让它们作为一种回忆吧。它曾有过可能，但以后不会再发生……不会发生了。翻开《联合国报》，头版上赫然入目的是：

欢呼雀跃吧！

因为从今以后，我们将是完美的！

从今以后，我们将比我们所创造的机器更加完美！

为什么更完美？

因为发动机所迸溅的每个火花，都是充满了理性之光的火花；活塞的每一次的运动，都是无可指责的完美演绎逻辑。在你们的体内，难道不也同样存在着这种准确无误吗？

起重机、压力机、抽水机的哲理，完美而明晰，如同圆形的圈一样。而我们的哲理呢，难道不如这圆圈完美吗？机械之美，就像钟摆和节律一样，在于永远保持着精确无误。难道我们这些从小受泰勒体系熏

陶的人，会比不上钟摆精确吗？

是的，不过还有一点差异，就是：

机械没有幻想。

你们是否见过，某个正在工作的压力泵会迷迷糊糊、心不在焉，甚至浮现出毫无意义的微笑？你们听说过，起重机在深夜休息的时候，不停地辗转反侧，不住叹气？

没有！

但是在你们的脸上（你们真应该感到羞愧！），安全卫士们愈来愈频繁地发现你们脸上有这样的微笑，还有你们的唉声叹气。你们应该感到无比羞愧，联合国的历史学家正申请退休，他们不想再记录这类羞愧可耻的事。

但是，这并不是你们的错，因为你们病了，你们全部都患上了一种叫作幻想的疾病。

幻想是一种虫子，它们会在你们的额头啮咬出一道道黑色的皱纹。幻想是狂热，它逼迫着你们向远方不停地奔跑，而那所谓的“远方”正是幸福消失的地方。幻想是通向幸福之途的最后路障。

欢呼吧，路障已经被炸毁啦。

道路已经畅通无阻通。

王国的伟大科学家们最近发现：幻想的要害是位于大脑中心位置有一个不起眼的脑神经结。如果用X射线对神经结做三次烧灼手术，幻想

症就可以治愈，而且永不复发！

你们是如此地完美无缺，你们是如此地机器化，通向百分之百的幸福之路已经通达无阻。你们所有人，不论老少，请立即来接受这项伟大的手术吧，赶快来礼堂吧，在那里接受这伟大的手术。伟大的手术万岁！联合国万岁！全知全能者万岁！

亲爱的读者们，如果你们读到这些话，这真像是一本古代荒诞的小说。如果你们和我一样，手中也拿着这样一份报纸，它正散发着油墨香，捏着它的手在颤抖着……如果你们也和我一样，知道这一切都是不可思议的现实——即使不是今天，也有可能在未来成为现实，那么，你们也一定和我有着同样的感觉：同样地感觉到头晕目眩！同样地感觉到欢欣鼓舞！同样地觉得背部和手上会冒出鸡皮疙瘩，觉得好像有无数根小针扎着它！同样地感觉到那既甜丝丝，又麻酥酥的舒坦！你们会感到自己像是成为了巨人，是大力神！只要你们直起腰来，头就会碰到玻璃天花板啦！

我抓起了电话筒：

“I-330……对，转到I-330号。”我声音急促地喊道，“你在家啊？你看报纸了吗？你正在看吗？天哪，这难道……这难道……不是件激动人心的大好事吗？”

“嗯……”一阵漫长、阴郁的沉默，那头半天不吭声。话筒发出低微的嗡嗡声，像是在思考。

“我今天必须要见你。是的，在我这儿，16点以后，不见不散。”

多可爱！亲爱的，她太可爱了！“不见不散”……我脸上挂着笑，简直没法合上嘴。我觉得自己将带着微笑上街，让它像盏灯似的高高照着我的脑袋。

街上的风扑面而来，呼啸着，打着旋，如鞭子般抽打着肌肤，但我觉得快乐：“任你号吧，任你吼吧，绿墙是不会被摧毁的。”天空沉铁般的飞云倾泻下来，由它去吧！我不会介意，反正太阳是挡不住的！我们就是数不清的约书亚^[5]，我们会用铁索将太阳牢锁在天顶。

在街口，礼堂的旁边，我见到了一群群的约书亚们，他们的额头紧贴在玻璃墙上。呆呆地朝墙里面看过去，里面有一张白得耀眼的桌子，上面躺着一个号码。在白布的掩映下，隐隐约约可以看见他两只向外撇着的黄色脚掌……几个穿大白褂的医生，正俯身在他头部，一只白色的手伸向空中，抓着一个吸了药水的针管。

^[5]约书亚：《圣经》中记载的一个希伯来人领袖，是摩西的继任者。他带领以色列人离开旷野进入应许之地，在他的领导下，以色列人在许多战争中获得了辉煌的胜利。

“你们怎么不进去呀？还在等什么？”我没有具体问哪个人，而是问向大家。

“那你呢？”一个圆脑袋转过来对着我问道。

“我，哦。过一会儿。我要先去……”

我觉得脸有些热，窘迫地走开了。我确实必须要先见见I，至于为什么，我也回答不上来.....

制造台上，“积分号”晶蓝如冰地静静躺在那里，机舱里发动机呜呜响着，好像温情地不停地重复着那个我熟悉的词语。我俯下身来，轻轻地拍了拍发动机身上冷丝丝的长管。多可爱啊.....简直太可爱了。明天它就会获得生命，明天它机体内会迸溅出灼热的火星，它会因此而首次感到生命的震颤.....

如果一切仿如昨日，我会用什么眼光来打量它呢？如果我知道，明天12点过后，我会出卖它.....是的，我会出卖它的话.....有人轻轻地碰了碰我的臂肘。我转过身来，迎面看到的是副设计师圆盆似的扁平的脸。

“你已经知道了？”他问道。

“什么？手术吗？当然啦。想想看.....只要一下子，就都解决了.....”

“不，不是这件事。因为手术的缘故，试飞取消了，不在明天，改期到后天了.....我们白忙了，白费那么多时间赶出来.....”

“因为手术”.....他多么可笑啊，又是那么单纯。他只能看到自己脸盘那么点儿事，其他的什么都看不到。如果他知道，要不是因为明天有手术，明天12点，他会被锁在玻璃房里急得团团转，徒劳无功地看着一切发生呢.....

12点30分，我进入自己的房间，一进门，就见到U在我屋里。她坐在我的桌子边，坐得笔直，右手托着右颊。可能她已经等了我很久了，

因为她见到我，马上就站了起来，能够明显地看到她脸颊上残留的五个手指印。

只需要一秒钟，我的脑海中便闪过了那个不愉快的早晨：也是在这里，她站在I身边，气愤地吵闹着.....但这个回忆只有一秒钟时间，一秒钟过后，一切都消散不见了。这情形就像是：天气晴朗，你走进屋里，漫不经心地打开了电灯。灯亮了，但有些不合时宜，顿时你觉得它既有点多余，又有点滑稽可笑.....

我毫不犹豫地向她伸出手去，我原谅了她。她抓住我的两只手，使劲捏着，弄得我有点疼。她松垂的两颊激动地颤抖，很像古代人的某种装饰品。她说：

“我一直在等你.....只需要一点时间.....我过来是想要告诉你：我为你感到高兴，多幸福啊！你明白吗，过了明天，你就会康复了，你会获得新生的.....”

我意识到我昨天的笔记，它仍然静静地摊开在桌上，这是我昨天写的最后两页，我收笔时没有合上它。她会不会看到我所写的内容？.....不过，这些都无关紧要。这都已经成为了历史。这一切太遥远，简直有些可笑，就像你倒拿着望远镜所看见的远景一样可笑。

“是的，”我说，“告诉你，我刚从街上来，我见到前面有一个人，他的影子映在马路上，你知道吗，他的影子清清楚楚。我觉得，不，我更相信，明天之后不会再有影子了，任何人和任何东西都不会有影子，因为太阳会照透一切.....”

她温柔地说：“你真是个幻想家！我可不让我学校的孩子说这样的话.....”

她说起她学校的孩子们。她说他们全部被领去做手术了，在那里必须用绳子将他们捆绑起来，还说我们“要爱，就不能手软，不能有怜悯之情”，还有，她可能要最后做出决定了……

她将两膝之间灰蓝色的裙子抚平，默默地用她的微笑将我的全身抚慰个遍，然后离开了。

幸好，今天太阳仍然大大地照耀着大地，16点到了……我敲了敲门……我的心狂跳个不停……

“请进！”

我坐在她软椅旁的地板上，拥抱她的双脚，我仰着头，凝望着她的眼睛。看一下左眼，又看一下右眼，我一直看个不停，在她的眼睛里，我看到了那个拜倒在她石榴裙下的自己……

墙外正风雨交加，黑云压城，随它们去吧！我满脑袋都是激动的话语，语言像瀑布一样急流直下，我大声地说着，像我要和太阳一起飞到某个地方一样……不，此刻我已经知道我们要飞去那里了。在我身后的还有其他的星球，它们喷着火焰，上面开满了唱歌的花朵；还有沉默不语的蓝色的星球，那里理智的石块已经组成了井然有序的社会，还有像我们地球一样的行星，它们已经达到了绝对的幸福巅峰。

突然，I的声音飘过了我的头顶：

“你难道不认为，真正抵达巅峰的是那些有组织的理性的石块？”

她脸上的三角形越来越尖利，越来越阴暗：

“幸福……幸福到底是什么？欲望是令人痛苦的，对吗？所以，幸

福就是不存在任何的欲望，连一丝一毫的欲望都不存在。我们直到现在还给幸福打正号，这是多大的错误，多么荒唐的偏见！不，绝对幸福应该打上负号，打上最为神圣的负号！”

我记得，当时我窘迫地说道：

“绝对的负值， -273°C ……”

“对，就是 -273°C 。有些冷，但事实本身不正好说明，我们处于巅峰吗？”

跟很久之前一样，她好像在替我说话，将我的所思所想都说了出来。但是，她说话的语调里却有一种可怕的令人畏惧的东西，我不得不……我必须打断她，终于，我挤出了一个“不”字。

“不，”我说，“你……你在嘲笑我……”

她笑了起来，笑得很大声——那声音太大了，甚至有些过了头。翻过了某个看不见的最高极限，但只一秒钟，她就猛然停住了……接着，便没有了声音。

她站起来，将两只手搭在我的肩上，久久地、目不转睛地望着我。然后把我拉入她的怀中。顿时，我忘记了一切，沉浸在她火辣辣的双唇中。

“永别了！”

这一声道别仿佛来自很远很远的地方，在我头顶上空飘落了下来，我没有立即听到，而是过了一分钟，或许两分钟才听得到。

“为什么……怎么说‘永别’了呢？”

“你病了，不是吗？因为我，你犯了罪，难道你不觉得痛苦吗？现在好了，你可以做手术了，你会治好因为我而生的病。所以，我说，我们永别了。”

“不！”我喊道。

她白皙的脸上显出一个无情的尖利黑三角：

“怎么？难道你不想得到幸福了吗？”

我的脑袋要裂开了，两列逻辑的火车相撞了，它们撞了个正着，车身断裂，发出轰响，这一切都令人窒息……

“那好吧，由你来决定：要么你去接受手术去获得百分之百的幸福，要么……”

“我不能没有你……没有你，我还有什么……没有你……”我说道，或许我并没有说，只是心里这样想着。我搞不清，但是显然，I听见了。

“是的，我明白，”她在回答着我。后来，她的手一直放在我的肩头，眼睛一动不动地盯着我，说：“那么——明天见。明天——12点钟，你还记得吗？”

“不行。试航被推迟了，要到后天……”

“那样更好，就后天12点钟。”

我一个人沿着暮色的街道往家走去。风呼啸着，扑打着我的旋着圈，

推着我朝前走去，我就像一张纸。黑压压的天空上残云疾速地飞驰着.....它们还要在无限的天空中飞舞一天、两天.....

迎面过来很多穿制服的号码，我们擦肩而过。但我仍然觉得只有我一个人，默默走着。我很清楚，大家都将得救，但是我不能，我不愿意被拯救.....

笔记之三十二

我不相信

拖拉机

小人影

你们相信吗？人是会死的。是的，人都难免一死。因为我是一个
人，所以.....不，我要说的不是这个，这个道理，我们都明白。

我要问的其实是：你们是否真的相信这种说法，而且是深信不疑地，毫无保留地相信，并不是通过理智去相信，而是通过自己的身体去感觉：相信有朝一日，此刻你们拿着这页纸的手指会变得枯黄、变得冰凉.....

不，你们肯定不相信，正因为不相信，所以，你们到现在都没有从

十层楼往马路上往下跳，所以你们到现在还在吃着饭，看着书，刮着胡子，含着笑，写着文章.....

我现在就是这样想的，是的，我正处于这种情况。我知道，钟表上的那根黑色的小指针，会这样一直走下去，它会移向午夜，然后又慢慢开始上升，再越过最后的界限。不可想象的明天就会到来。这些我都十分清楚，但是不知道怎的，我还是不相信这一切。也许，在我看来，24小时就是24年。因此，我还能做很多事，我可以赶到某处去一趟，解答别人的提问，从航梯登上“积分号”。我还可以感受“积分号”在水面上如何摇晃；我还记得，我应该抓住冰冷的玻璃扶手。我还能见到那些透明的起重机，像长颈鹿一样弯着长颈，伸出嘴，爱护地、深情地给“积分号”发动机喂炸药食物。在下边的河面上，我能见到被风吹皱的河水的涟漪.....但这一切仿佛又离我很远很远，它们像是互不相干的，单独存在的；它们又像是陌生的、干巴巴的，就像绘图纸上的平面图一样。当副设计师那张扁平的脸出现在我眼前时，我奇怪地看着他，他突然就说起了话来：

“你看，我们要给发动机上多少燃料呢？如果作三小时计算.....或者三个半小时.....”

在我面前，在投影图纸上方，是我握着计算器的手，上面显示着我按下的数字15。

“15吨。不过最好上.....对，最好上1000吨.....”

我这么回答，是因为我心中有数，我知道明天.....

我注意到，我手里握着的刻度表盘难以察觉地开始颤抖。

“1000吨？为什么要用这么多燃料？这些足够用一个星期的。还不止，还可以更长！”

“以防不测嘛.....谁知道会有什么意外.....”

我就知道.....

风呼啸着，就像空气里充塞着很多看不见的物质，将天空填得满满的，让人无法呼吸。我无比艰难地走着，在街尾的电塔上的钟表的指针也艰难地、缓慢地爬着。塔顶的尖顶直冲云霄，它发着蓝幽幽的黯然的光。它仿佛正在低吟，默默地吸储着云中的电。音乐机器的铜管乐声正吼叫着。

同往常一样，号码们四人一排地走着。但是队伍有些散乱，还不停摇晃着，可能是因为风刮的。人们佝偻着身形，抬不起头来。在路口，队伍好像被什么挡住了，往后退着。人们停了下来，挤到了一起。他们紧张而急促地呼吸着，所有人都像鹅一样伸长了脖子看着。

“看！不，往那里看，快看啊！”

“他们！那些是他们？”

“.....啊，要是我，我不会同意的！决不会，我宁可将头颅送进死刑机.....”

“小声些！你疯啦.....”

在路口的礼堂大门敞开着，从里面走出来一支由五十来个人组成的队伍，他们脚步缓慢又沉重。用“人”来形容他们显得不太恰当。应该说是装着大轮子的钢铁机器人，他们靠着某种看不见的机制驱动着前进。

他们并非人，而是人形拖拉机。每个都高举着一面白旗，旗子在风中啪啪作响，旗上绣着金色的太阳，几行字光芒四射：“我们是开创者！我们已经做过了手术！其他人，跟随着我们来吧！”

他们慢慢地、毫不迟疑地穿过人群。不消说，如果挡在他们前面的不是我们，而是一堵墙，或者一排树或房屋，他们也会毫不迟疑踩踏而过的。他们已经到了大路中央。面朝着我们，他们紧紧地，像拧上螺丝一般，挽起了手成为了一条链子。而我们这一堆十分紧张的人群都伸着脑袋，汗毛倒竖，惊恐地等待着。乌云依然在翻滚，狂风依然在呼啸。突然，长链条左右的侧翼两方围拢过来，朝着我们包抄过来。速度越来越快，就像一架从山上滚落下来的沉重机器一样。长列紧缩成圆圈，将圈里的人们往礼堂敞开的门边推过去，推过去……

一个声嘶力竭的呼喊声传了过来：“他们要把我们撵进去！快逃啊！”

瞬间，一切都涌动了起来。紧挨着墙有一扇狭窄的可以出去的缺口，所有人都争着往那里冲去。所有的脑袋都变成了楔子，四处钻着，用臂肘、肋骨、肩膀拱出路来……周围都是散乱的脚步、挥动着的手臂，还有飞起的制服，它们就像扇面似的往四周扩散开来，仿佛是消防水龙带挤压出来的喷水。

突然，有个身影在我眼前一晃而过，是那熟悉的双曲线S，还有那双透明的招风耳朵——但只一晃就不见了。我独自在混乱的手和脚中挣扎着、奔跑着……

我冲到了一栋房子门口，背紧贴在门上使劲地喘着气。突然，像风似的吹进来一个小小的身影，犹如纸片，贴在了我面前的地上。

“我一直.....我一直在跟着你.....我不想.....你知道吗，我不想.....我愿意去.....”

抚摸着我的衣袖的是一双胖乎乎的小手；还有那双圆圆的蓝眼睛。是她，O-90。她倚着墙，慢慢地滑到地板上，最后蜷缩在冰冷的台阶上，成了圆圆的一团。我俯身看着她，轻抚着她的头和脸。我的手是潮湿的。此刻，我觉得自己很强大。而她却很弱小，好像她是我身体的一小部分。这是一种不同于I的感觉。此刻我觉得，我对O，就像是古代人对待他们自己的孩子一样的感觉。

她用双手捂着脸，声音从指缝里漏了出来，低低的，几乎像是在耳语：

“我每天夜里.....我不能！我不能忍受他们的手术.....每天夜里.....我都独自一个，在黑暗中，我想着他，想着将来他是什么样，我会怎样地疼爱他.....若是我被治好了，我活下去就没有什么意思了。你懂吗？因此，你应该.....你必须.....”

多么荒唐的想法啊，但是我确实这样认为：我有责任，我必须帮助她。之所以说它荒唐，是因为我的这一义务又是我的罪行。白和黑不可能是一回事，责任和罪行同样不是一回事。但是，可能生活中既没有黑，也没有白，而颜色只取决于主要的逻辑前提。如果这个前提是：我非法地让她有了孩子.....

“好的。只是你不要这样.....”我说，“我很清楚，我一定会把你带到I那儿去，就像我上次说过的那样，只有这样，她.....”

“好的。”（她慢慢放下了捂着脸的手，低低地答道。）

我将她搀扶起来，我们沿着暮色沉沉的街道走着，默默想着自己的心事，也许我们想的是同一件事……我们在静静的悄无声息的铅灰色的房屋中走着，狂风怒号，任意抽打着枝条……

透过呼啸的风声，突然，我清晰地听到了背后响起那熟悉的、啪啪踩在水洼里的脚步声。当我拐弯的时候，我扭头看过去：在马路模糊的玻璃上的颠倒地飞翔着的乌云的倒影中，我看见了S。霎时间，我的手有些不听使唤了，甩手的节奏也有些乱了。我开始大声同O讲话，我说，明天……是的，就在明天，“积分号”要进行首次试航，这是真正空前的、伟大的、震撼人心的大事件。

O惊愕地圆瞪着蓝眼睛瞧着我，她露出疑惑的表情地使劲看着我不断晃动的胳膊。我没给她说话的机会，自己不停地说着。同时我的脑子里十分紧张地思考着。一个念头不断地翻腾着，它反复敲击着我的大脑，这个想法只有我一人知道：“不能这样……得想个主意……不能把他引到I那里去……”

本来我应该向左拐的，但我却拐向了右边。大桥像恭顺的奴才拱着背，任凭我们三个踩踏过去：我、O，还有S。对岸幢幢大楼里的无数灯光洒在水面上，碎裂成无数个小块，它们剧烈地跳动着，与水中的白色泡沫融为一体。在我们不远处，风呜呜响着，那声音像极了大提琴的低音鸣响。在低音里仍然时不时传来那个噼噼啪啪的踩水般的脚步声……

我家到了。O在门口站住了。她大声喊出来：

“不！你不是答应过……”

我没让她把话说完，就匆忙地将她推进了门里。我们一起进了大

厅。在大厅控制台前，我看见了那熟悉的松弛的脸颊，正激动得颤抖着。桌子四周围着一群号码，好像正在争论着什么。他们都将脑袋探出二楼栏杆，往下看，接着又一个接一个跑下楼去。但这些以后再说.....我连忙将O带到大厅的对面一个无人的角落里。

我朝外看了一眼，我看到墙外人行道上，一个脑袋很大的黑影正来回走着。我赶紧掏出了记事本。O-90慢慢地、无力地在自己的衣服堆里坐下，就像她自己很快要溶化掉了一样，渐渐地只剩下了一件空空的衣服，还有一个空洞的眼神，好像要将我吸进这蓝色的海洋里一样。她十分疲倦地说：

“为什么带我到这里来？你骗我？”

“嘘.....别吱声！你瞧，那里，看到墙外有什么了吗？”

“嗯，有个影子。”

“他一直在跟踪我.....我不能，你懂吗？我不能让他.....所以，现在我得写个便条，你带着这个条子，自己去找她。我敢肯定，她会守在这里的。”

在制服下面，她的血肉之躯又充满了生机，她的脸上出现了一点淡淡的朝霞之光。我将便条塞给她，我又使劲握了握那冰冷的手，最后一次深深地看了看她的蓝眼睛。

“永别了！可能，以后会.....”

她抽出了手，微微弓腰慢慢地离开了。刚迈开两步，又飞快地转过身来，回到了我身边。她的嘴唇蠕动着，用她的眼神和嘴巴重复着我听不清楚的话。那么令人伤痛的笑啊！这是多么难受的场景啊！

后来，她那拱肩驼腰的瘦弱身影走出了门口，走出了墙外，她不曾回头，很快就消失不见了，越走越快.....

我来到U的桌子旁。她激动地、懊恼地鼓着鱼鳃一样的腮帮子对我说：

“所有人都疯了！这个人居然一口咬定，他在古宅里看见了全身覆盖着毛发的光身子的人.....”

从那群茫然的人里头发出一个声音：

“千真万确！我没有说谎，我确实是看见了！”

“怎么，你喜欢这些是吗？真是胡说八道！”

“简直胡扯！”她说完这几个字。我不禁自问道：“没准，最近发生在我身上的事，还有我周围的事，可能真的是一场梦？”可是，我看了看我那原始人般毛茸茸的手，又想起了她的话：“可能你身上有森林的血液.....就因为这个我才爱上了你.....”

不，幸好这不是做梦。哦，不对。不幸的是，这不是在做梦。

笔记之三十三

匆忙的最后一篇

这一天到了

我连忙拿起报纸。也许报纸上.....我眼巴巴地迅速读着报纸（确实是这样，我觉得眼睛此刻就像钢笔，就像计算机，它成为了一种工具，一种身外之物，你可以拿在手上，并且能够感觉到它们）。报纸首页用大号黑字印着头版内容：

幸福的敌人已经醒来。你们必须要用双手护卫自己的幸福！明日，所有工作都必须停止。全体号码都要参加手术治疗。拒不参加者，必将受到全知全能者死刑机的惩治。

明天！怎么还会有明天呢？

我习惯性地，像每天一样，伸出手（也是一个工具罢了！）到书架上，将今天的报纸和其他的报纸一样，放在金色硬皮夹里。但我的手却停在了半空中：“做这些又有什么用呢？已经无所谓了。我再也不会回来了.....我再也不会再在夹子里放进报纸了。”就这样，手一松，报纸落到了地板上。

我站在屋里，环顾着整个房间。看着眼前的一切，将那些我舍不得留下的东西，都塞进自己头脑中那个无形的箱子里：桌子、书籍和软椅。哦，I曾经坐过这里，那时候我坐在她脚下地板上.....还有我的床.....

过了一分钟，两分钟，我呆立着，等待着此刻会有奇迹出现——会不会电话铃响了，会不会她告诉我.....但是，没有，什么也没有.....

我要离开这里了，我要走向未知。这是我最后的记录。永别了，我的那些素不相识的读者们，我和你们一起分享了我最近的生活，我这个患有灵魂疾病的人，将我的一切毫无保留地告诉给了你们。直到一根磨坏的螺丝钉，直到最后一条破损的发条.....我要走了.....

笔记之三十四

获释的农奴

阳光明媚的夜

无线电女神

啊，但愿我已经摔成了碎片！但愿我已经和她一起到了绿墙之外，和那些齙着黄牙的野兽待在一起！但愿我永远也不再回到这里来，那该有多好。无论如何，也比此刻要强！至少强上一千倍、百万倍。但是此刻——怎么办呢？让我去扼杀自己的灵魂吗？不行。可这有用吗？不！D-503，你要冷静。你要将自己放到坚实的逻辑轴线上，尽管可能时间很短暂，至少使出全力压住杠杆，就像古代的奴隶那样，推动三段论的罗盘——直到你能清楚地记录下，并彻底理解之前所发生的一切.....

当我登上“积分号”时，大家都各就各位，这巨大的玻璃蜂箱内的所有蜂房都有人在。从甲板上望出去，可以看到到处都是蚂蚁般的小人，他们正忙着发电报，摆弄着发电机、变压器、测高计、整流器、发动机、泵，以及各种导管……在公共大厅里，有一些人正俯身在图表和仪器上，没准是科学局的人。副设计师和他的两位助手也在旁边待着。他们三人的脑袋都像乌龟似的缩在肩膀里，脸色发青，一副没什么精神的样子。

“怎么样？”我问道。

“还好……就是有点紧张。”其中一个笑了笑，脸色依然发青，给人不见阳光的感觉。

“也许我们会降落到某个陌生的地方也说不定。此外，也没人清楚……”

我甚至没什么勇气看他们，因为再过一小时，我就用自己的这双手，将他们从守时戒律表井然有序的數字中彻底勾掉，永远地将他们从联合国伟大母亲的怀抱中扯开。他们使我想起了《三个获释的农奴》中的悲剧形象。这是我们小学时候学到的内容。

故事的主人公是三个号码，他们参加了一项试验，他们被解除了一个月的劳动，在这段时间里，他们想干什么都行。这三个可怜的家伙只能在过去工作的地方晃来晃去，东张西望，不住地看着人们忙碌着。他们甚至会站在广场上不由自主地重复工作时的动作，因为这已经成为了他们的习惯，到了规定的时间不做这些动作，他们的身体会受不了。但此刻，他们只能对着空气拉锯子，推刨子，就像手中握着锤子似的在叮叮当当锤打看不见的铸铁块。终于，挨到了第十天，他们忍无可忍，最

后选择手拉手，在《进行曲》的乐声中，走向河水深处，让河水淹没他们的痛苦……

我再重申一遍：我没法看向副设计师他们，我没有勇气，想赶紧离开这里。

“我去检查一下发动机房，我们就出发。”我说着。

他们问了我一些问题，比方说发射点火要用多少电压？船尾液舱需要多重水压载？我身体内部有台留声机，它能将一切问题对答如流，而且精确无误。可是我，我内在的自我，正默默地盘算着自己的事。

狭窄的走廊上，不时地有灰色制服的号码走来走去，迎面都是一张张灰青色的脸。我突然看到一张脸一闪而过，虽然可能只有一秒钟的时间。但我认出了他，那压着低低的头发，那鼓起的额头，还有深陷的眼睛。是他，没错！看到他我立即明白了，他们已经到了。这一切我是躲不开的，我的时间已经非常有限，总共只有几十分钟……我忍不住浑身颤抖起来，虽然十分微弱，但我觉得它不会停止，直到事件结束也不会。好像我化身成了一幢房子，而房子的基座就是一台硕大的马达，它实在太强了，以至于所有的墙壁、隔墙、电缆、房梁、所有的灯……都在发颤。

我还不确定，她是不是也来了。但是现在已经没有时间想这些了。他们已派人来，命令我赶紧上去，前往指挥室。要出发了……又要驶往哪儿去呢？

四周都是灰色的、缺乏光泽的脸。下面，在水面上映着一道道的蓝色的涟漪。天空是沉重的、铸铁般的层层云块。我几乎没有力气，将如铸铁一般的手臂抬起来，我抓起沉重的话筒说道：

“起飞，45度！”

响起了沉闷的爆炸声，机身抽动了一下，飞船尾部掀起了绿白色的烟柱，脚下的甲板动了，它变得软软的，就像橡胶一样。我脚下的一切，我的全部生活，永别了……我离开那里越来越远，那蓝色水晶的城市、那圆顶、那蓄电塔，还有它上面的孤零零的手指——这一切只一秒钟就都深深地坠入了旋涡里，眼前是一团棉花似的云彩。我们穿越了过去……几秒钟，我们就穿过了云层，迎着太阳和蓝天。蓝天颜色越来越深，逐渐变成了黑色，星星像冰冷的银白的汗珠出现在天幕上……

这是一个夜，那么可怕，那么炫目又那么黑，又是个阳光灿烂的星夜。仿佛突然之间，我变聋了，虽然明明能听到铜管正在喷射的声音，可是我却觉得四周悄无声息，太阳也变得无声无息。但这是很自然的事，也在我们的预料之中。很明显，我们已经冲出了大气层。但是，这一切来得太快，太突然了。以至于我们每个人都胆怯了，默默地静寂了下来。而我……却在这充满幻想的、沉默无声的太阳下，变得分外轻松了些。仿佛我已经经历了最后一次阵痛，已经跨过了不可能跨过的边界。我的躯壳已经扔在了下面，而我自己正朝着一个全新的世界飞翔。在这里，一切都会不同，将是全新的旅程……

“继续前进！”我对指挥话筒发出号令。或者，这只是我体内的留声机在机械地下令。我像机器一样，将话筒交给了副设计师。我全身的分子都在微微发颤。我冲下升降扶梯，四处寻找……

这是大厅的门……再过一个小时，这扇门就会哐啷啷地重重地关上……门口站着一个我不认识的号码，他身材矮小，脸孔毫无特征，和成千上万个号码一样，混在人群中难以辨认，但是他的胳膊却很长，简直长到了膝盖。好像一个组装错了的零件，本应该安装在腿上，却被粗

心地安装到了肩膀上。

他伸出一只长手挡住了我：

“你去哪儿？”

显然，他不认识我。好吧，我没有其他的办法。随他去吧，也许这样更好。我俯视着他，大声地一本正经地说：“我是‘积分号’的设计师。是我在指挥这次试航，你懂吗？”

胳膊撤走了。

我进入了大厅。在仪器和地图上方，凑着几个灰头发的脑袋，还有黄头发的、秃头的、暗黄的秃脑袋。我迅速地扫视了一遍，随后退了出来，通过走廊，我下了舷梯，来到机舱。这里热极了，轰鸣声不绝于耳，爆炸后管道变得十分灼热；仿佛喝醉酒了，醉醺醺地跳着舞；刻度表盘的指针一秒不停地晃动着……好了，终于找到了。我一眼就看到了那个有着鼓突额头的人，他手中拿着一本笔记，正低头记录着……

“请问（机器轰响，我只得冲着他的耳朵大声喊）……她在这儿吗？她在哪儿？”

帽檐底下露出了微笑：

“她？她在无线电机房……”

我连忙赶了过去。那里一共有三个人。都头戴有耳机的头盔。好像她比平时高出了一头，戴着耳机似乎闪闪发亮，要飞起来似的。她就像古代的传说中的女神。身上迸发出无线电的蓝色火花……还有那股淡淡的、闪电过后总会出现的新鲜空气的香气。

“我需要人手……嗯，那就你吧。”因为跑步，我气喘吁吁地对她说，“我需要向下面，向地面，向飞车站，发出信号……来吧，由我口授。”

机房旁是一个小得像盒子般的舱房。我们肩并肩坐在桌子旁边。我抓到她的手，使劲捏着。

“你觉得，以后会怎么样呢？”

“不知道。你能体会吗？这一切简直太美妙了：我们在飞行着，却不知道要飞往何处……很快就到12点了，一切皆有可能……等到晚上……晚上，我们又会在哪里呢？没准我们会在草丛里，在干枯的树叶堆里……”

她身上迸发出蓝色的火花，还有闪电的气味。我颤抖得更加厉害了。

“请记住，”我大声地气喘吁吁（因为刚才的奔跑）地说：“时间：11点30分，速度：5800……”

她低下戴着帽盔的头，眼睛看着纸，小声说：“……昨天晚上，她来找我了，带着你的便条……我知道，我全都知道，你别吱声……那孩子是你的吧。我将她送走了，她已经出了绿墙。她会活下去的……”

我又回到了指挥室。眼前又是那黑漆漆的黑夜，还有炫目的阳光。墙上的时钟指针正机械地慢慢地走着，一分一秒都在消逝。周围的一切都沉浸在迷雾之中，几乎难以察觉地颤抖着（只有我一个人知道）。不知怎么地，我突然觉得，要是这一切不发生在这儿，而是发生在下面，发生在离地球更近的地方，可能会更好。

“停止！”我向话筒发出命令。

“积分号”凭借惯性继续向前，但速度逐渐慢了下来。最后，“积分号”在空中停留了一秒钟，就像被一根无形的头发丝缠住了一样，接着那根头发丝断了，“积分号”像块石头似的急速下坠，速度越来越快。时间一分分过去，我甚至能听到脉搏的跳动声。眼看着时钟的指针越来越接近12点钟了。我懂得：若我是块石头，我就是地球。即使被抛向了天空，我仍然急不可耐地要往下坠落，摔到地球上，即使砸个粉碎也心甘情愿……可是……下方出现了蓝色的云海……可是……

我体内的留声机依然准确地、机械地拿起了话筒发出命令：“低速行驶！”石块停止了下降。此刻只有飞船下部的四条管子（两个位于船尾，两个位于船首），在疲惫地喷着气，这样发出的动力，可以维持“积分号”原地不动。“积分号”震颤着，就像抛了锚似的牢牢停住在空中，离地面大约有1000米。

所有人都涌上了甲板（快到12点钟了，马上就要响起开饭的铃声了），他们从玻璃船舷上面探出身子，贪婪地看着眼前陌生的世界。下面有各种色彩：淡黄色、绿色、蓝色。还有秋天的金黄的树林、草原，湛蓝的湖泊。在一个如蓝碟子般的湖边上，有几堆黄色的废墟，还有一根有些吓人的枯黄的手指——可能是古代留下的教堂大塔楼。

“看，那边，看啊，在右边！”

那里，在绿色的荒原上，有一个飞快移动着的棕色块状物体。我下意识地抓起了望远镜看出去：那是一群棕色的马正扬着马尾在草原上飞奔，野草已经淹没了它们的腿，而骑在马背上的，是他们，黑皮肤的、白皮肤的，还有深色皮肤的人……

我听到身后有人说：

“我敢肯定，我看到一张脸。”

“得了吧！对别人瞎说去吧！”

“好吧，给你们望远镜……”

但是马群已经消失不见了。眼前只有一片望不到边际的绿色荒原……突然，在荒原上方响起了刺耳的铃声，这声音响彻了整个荒原，震到了我整个人以及整个飞船上的所有人。午餐时间到了，再过一分钟就是12点整。

我周遭的一切似乎有些乱了。在台阶上，有个人的金色胸章掉到地上。这无所谓吧。我一脚踩了上去，它咔嚓一声碎了。有人大声说着：“我敢肯定，那是一张人脸！”大厅的四方大门敞开着；眼前出现了一副白色细密的小牙齿，还有她含着的微笑……那时候，钟声不断响着，一声接一声，敲得人心惊胆战。

走在最前面的人已经开始朝门口走了……突然，那四方的大门被两只熟悉的，特别长的胳膊拦住了。

“站住！”

她的手指甲深深陷入我的手掌，是I-330。她正站在我的旁边：

“他是谁？你认识他吗？”

“难道……难道他……”

他已经被什么人扛在了肩头。下面是上百张脸，他高踞在众人之

上，他那张脸像千百大众的脸一样平淡无奇，可是却又和所有的脸不同。

“我代表安全卫士局，告诉你们，你们每个人都能听到我的声音！告诉你们，我们已经十分清楚。虽然我们还不知道你们的号码，但是，我们已经掌握了除此之外的其他所有信息。‘积分号’不会被你们占领！试航将进行到底，现在不许你们再乱动。你们给我乖乖地执行这次试航。以后……好了，我就说到这里。”

四周静悄悄的。我脚下的玻璃地面变软了，如棉花一般，我的脚也是，软绵无力。我旁边的I，露出苍白而无力的笑容，她迸发出疯狂的蓝色火花。透过牙缝，她对我耳语道：

“啊，你干得真好！你终于‘履行了义务’了！可真不赖啊……”她迅速地抽出自己的手，那长着愤怒翅膀的头盔一下子就赶到了我前面很远的地方。只留下我一个人，目瞪口呆地站着，我只能一言不发地跟着大家去餐厅……

“但是，这跟我没有关系啊。并不是我，并不是我啊！我跟什么人从来没有说过啊，除了那些不会说话的白纸……”

我的心无声地、绝望地朝她喊着。她与我隔着一张桌子坐着，她连看都不看我一眼。她旁边是一个年纪大的，肤色暗黄的秃头。我听见有人在说话（是I的声音）：

“‘高尚之举’？但是，亲爱的教授先生，对这个词只要进行一点粗浅的词源学研究，谁都明白，它只是一个迷信，是古代封建时代的残余，而我们……”

我感到自己的脸越来越苍白，别人很快就会注意到的.....但是我体内的留声机，仍然对每块食物做着规定的50下咀嚼动作。我自我封闭起来，将自己关在一间不透明的房间里；我用石块将门堵死，然后又挂上了窗帘.....

后来，指挥者的话筒又回到了我手上。我们又一次穿过了云层，在寒气逼人的、濒临死亡的忧伤中飞行，又一次见到繁星点点、星光灿烂的夜空。几分钟，几小时，时间不断飞逝.....无须赘言，我体内的逻辑马达在全速运转着。因为突然在我的记忆中，出现了我的书桌，还有坐在桌旁的U，她伏在桌上，看向我忘了合上的那页笔记。我终于明白了，不是别人，而是她.....一切都清清楚楚了。

我必须赶到无线电机房.....那带翅膀的头盔，那蓝色闪电的气味.....我记得，后来我极力同她说话，我还记得，她的目光穿过我不看向我，仿佛我是透明的。她的声音就像来自遥远的外太空：

“我正忙着，我正接收地面发来的信号。请你向她口授吧.....”

在盒子般的小机舱里，我思索了一秒钟，毫不迟疑地发出命令：

“时间：14点40分。下降！熄灭发动机。任务完成。”

我又返回到指挥舱。“积分号”的机器心脏已经停止了工作。我们正在下降。我的心没法跟上“积分号”下降的速度，快要跳出了嗓子眼。我们穿过云层.....眼前是一片绿色的斑块，越来越近，越来越清楚，像疾风似的扑向我们。“很快就要结束了。”

眼前是副设计师那张不寻常的斜眉歪脸的白瓷脸。大概他狠狠推了我一下，我的头撞上了什么东西。我眼前一阵发黑，迷迷糊糊听见他

说：

“开动尾部推进器——全速前进！”

飞船猛烈地向上一冲……其他的我也不记得了。

笔记之三十五

被箍住了

胡萝卜

杀人

我整夜无法入睡，一直在反复想着这件事……

因为昨天的事故，我的头被绷带紧紧缠着。但我感觉，这并不是绷带，而是头箍，是毫不留情的玻璃钢箍。我一直在想一件事：我要杀死U。杀了U之后，我再去找I，然后对她说：“现在你相信我了吧？”最让我厌恶的是，杀人是最肮脏、最原始的勾当。要去砸碎别人的脑袋，一想到这一点，我就觉得嘴里有种奇怪的作呕的甜腻味道。我连口水都没法咽下去，我只能将口水吐到手帕里，这样嘴就更加地干了。

我的壁橱里，有一个沉重的活塞杆，因为在铸造的时候裂开了，我便将它带回来，本想着用显微镜观察一下断裂的情况。我把笔记手稿卷

成卷（这次让她彻底看个够），塞在活塞杆的断截里就下楼去了。楼梯像总也走不完一样，台阶又湿又滑，真让人生气，我的嘴里还不断地流出口水来，我不得不用手帕擦着……

终于来到了底层，我的心一沉。我停下脚步，抽出断杆，向控制台走去……但是U不在那，我只看到一张空荡荡的、冰冷的办公桌。我想起来了，今天的工作全部停止，所有的号码都去做手术了。所以，她没必要留下来，因为没人会来登记的。

我来到街上，此刻正刮着风。满天都是一块块飞驰着的沉重的铁块。这景象跟昨天很像：那时，整个世界都碎裂成锋利的、零碎的小片，这些小片急促地掉下来，从我眼前飞过，仅仅停留一秒钟的时间，转眼就消失得无影无踪了。这就像是原本一张写满字的纸，这些原本工工整整的黑色字母，突然间偏离了原来的位置，它们惊慌失措地逃离，到处乱窜，而纸张上一个字也不剩。只有些毫无意义的感叹词，如“嗯、啊、呀”。街上人们也是这样，变得毫无秩序可言，乱七八糟的，有朝前的，有往后的，有斜着走的，甚至还有竖着走的。

这会儿，街上又没有一个人了。我飞速地跑着，突然之间，我停住了：在二层楼一间仿佛吊在空中的小玻璃方格房间里，有一男一女，他们在接吻。她整个身子朝后仰着，心痛地说着：“这是最后一次，永别了。”

在街角处，有一撮人头在摆动，像一丛刺灌木丛似的。他们的脑袋上方飘着一面旗帜，上面写着：“打倒机器！打倒手术！”我默默思考着，“是不是每个人都忍着某种剧烈的痛苦，要想彻底消除它，只能将心一起剝出来不可……这样的话，每个人都必须……否则……”突然，我觉得世界上什么都不存在了，眼前只有我原始的、毛茸茸的手掌，还

有这一卷铸铁般沉重的记事稿.....

突然，街上出现了一个飞奔的小男孩，他整个身子都朝前探着，下唇像卷起的袖子一样鼓出来，他扭曲着脸，哭喊着，脸都变了样，好像有人在后面追赶他，我听到了后边响起的脚步声.....

这孩子使我想起了U。“对了，她现在应该在学校，我必须赶过去。”我连忙冲进了最近的地铁入口。在门口，有个人正往上跑，嘴里说着：“没有车！今天火车不开！那里正.....”我冲下台阶去，那里简直是一个梦的世界。许许多多的水晶玻璃像太阳一样闪着亮光，一眼望去，月台上全是脑袋，黑压压一片，火车是空的，迟钝地停在轨道上。

静默中，突然我听到了一个声音。那是她，虽然我看不见她，但是我确信这是我所熟悉的那个清脆、柔韧的、活力充沛的、如鞭子般抽打出来的声音，我好像已经看到了那个眉梢高挑的尖三角.....我喊道：

“让开，让我过去！让我到那边去！.....”

但是我的手和肩膀不知被谁使劲拉住，无法脱身。我只能在这片静默中倾听：

“.....不，你们快去吧。到他们那去！他们会治好你们的病，用发酵的幸福喂饱你们。这样，你们就会安安静静地入睡，秩序井然、节奏统一地打鼾——难道你们还听不到这伟大的鼾声交响曲吗？愚蠢的人们啊！他们正打算把你们从那些折磨着的问号中解放出来。从此以后，你们就会远离那些弯弯扭扭像蛆虫一样的问号。你们怎么还站在这里？快上去啊，去接受这伟大的手术！我一个人待在这里，和你们又有什么关系呢？你们别管了，我要战斗，一个人绝望地战斗下去！若是我所争取的是无法实现的东西.....”

另一个沉重而缓慢的声音响起：

“啊哈！争取无法实现的东西？这就是说，你要追求那些愚蠢的幻想，那些幻想在你面前耍花招？不，我们要抓住它，让它们不再捣鬼，然后……”

“然后，吃掉它们，再倒头就睡，鼾声大作。然后又会出现一个新的幻想。据说古时候有一种动物叫驴。为了让它们不停地向前走，人们就在前面车辕上，吊一根胡萝卜，勾引着它，让它吃不到，但是始终能看到……如果它真咬到了，那么……”

钳制突然不见了，我急忙朝她讲话的地方冲过去。但是，这个时候你推我挤地一团乱，我身后有人喊道：“他们来这儿啦！他们来啦！”灯光闪了一下就灭了，是有人切断了电缆。到处都是如潮的人流、呼喊声、呻吟声、脑袋、手掌……

我不知道，在地铁里这样乱哄哄的环境中，我待了多久。我只记得我摸到了台阶，看到了昏暗的光线，渐渐变得越来越亮。于是，我们来到了街上，像扇形似的四散跑开……

又剩下我一个了。仍然刮着风，灰暗的暮霭低垂下来，微弱的月光若隐若现。在人行道潮湿的玻璃板底下很深的地方，倒映着灯光、房墙和移动着脚步的人影。我手里的稿纸分外沉重，它把我使劲往下拖。

我来到了楼下大厅里，U依然不在，她的房里也黑着灯，并没有人。我上楼回到了自己的房间，打开灯。太阳穴仍然在突突跳着。我不停地在屋子里踱步：桌子、桌子上的白色稿纸、床、门……我左边的房间里垂着窗帘。右边房间那个满是疙瘩的秃脑袋，正在看书，他的额头像一个巨大的抛物线，额上的皱纹像一行行难以辨认的黄字。我们有时

目光相遇，这时我会觉得，他额头的皱纹与我相关的。

后来的事情发生在21点整。U突然出现了，我记得我听到了自己粗重的喘息声，简直震到了我的耳朵，我想小点儿声，可是没有用。

她坐下来，把膝盖中间的制服裙扯平。粉红的褐色鱼鳃抖动着。

“啊，亲爱的，你真的受伤了？我刚听说就马上赶来了……”

那个活塞杆就放在我面前的桌子上。我跳起身来，气喘得更厉害了。她也听见了，话说了一半就惊讶地站了起来。我已经瞄准了她的脑壳，感觉嘴里有某种甜得发腻的东西……手帕呢？我找不到，那就把口水吐在地板上。

右边那个额头上写着我的事的黄色皱纹，好像总在看着我。不能让他瞧见，我按下了电钮，我并没有下窗帘的权利，但是现在顾不了那么多了。窗帘落了下来。

她显然意识到了什么，慌忙朝门外奔去。我赶在她前面，用钥匙锁上了门，呼哧呼哧地喘着粗气，死死盯着她的脑壳不放……

“你……你疯了！你怎么敢……”她往后退去，倒在了床上，瑟瑟发抖的手夹在两个膝盖中间。我浑身是劲，眼睛死死盯着她，缓缓地伸出手（只有一只手能动），抓起了活塞杆。

“求求你！只要等一天……一天。明天，明天，我就去……”

她在胡说些什么？我已扬起了手……好像，她就要死了。是的，我的那些素不相识的读者们，你们可以叫我杀人犯。我知道，我的活塞杆马上就要砸中她的脑袋了，但是，她突然大声尖叫道：

“看在……看在……我答应你……我……等我一下……”她颤抖地扯开制服，一个苍黄的、肌肉松弛的、肥大的躯体倒在了床上……

我突然明白过来：她以为我放下窗帘是想要……

这太离谱了，太荒谬了，我忍不住哈哈大笑了起来，这一笑，我体内的那根紧绷着的发条断了，手垂了下来，活塞杆应声落地。

从这段经历中，我明白过来：笑是最可怕的武器。它能毁灭一切，包括杀人。我坐在桌子那边，哈哈大笑。这是绝望的、歇斯底里的笑。我不知道如何摆脱这处境，太荒唐了，如果让事态自然发展下去，我不清楚，会有什么结果。不过，一个新的情况出现了：电话铃响了。

我连忙去接。使劲捏住话筒：可能是她打来的？但是，电话那头是一个陌生的声音：“稍等。”

话筒嗡嗡地没完没了地响着，让人心中慌乱。铸铁般的脚步声由远及近，终于说话了。

“D-503？嗯……我是全知全能者。立即到我这里来！”

叮当一声，电话挂上了，这声音就像钥匙插进了锁眼。

U还躺在床上，闭着眼睛，鱼鳃向两边撑开了，像在笑。我从地板上捡起她的衣服，扔到她身上，从牙缝中挤出话来：

“喂！快点儿，快点儿！”

她用胳膊肘微微撑起身体，乳房垂到了一边，眼睛睁得圆圆的，像一尊蜡像。

“你说什么？”

“让你穿上衣服！”

她的脸扭曲着，紧紧地抓住衣服，声音瘪瘪地说：“转过身去……”

我转过身，额头靠在玻璃上。我看到灯火、人影、火花都在黑色的潮湿的镜子中颤动。不，这是我，这就是我……他为什么要见我？难道他知道了一切，关于我，关于她的一切？

U已经穿好了衣服，站在门口。我朝她跨前两步，使劲捏住她的手，就像要挤出所有的答案似的。

“听着……她的名字你是知道的，你明白我的意思……你必须告诉我实话……我不在乎会发生什么事，你报告了她的名字了吗？”

“没有。”

“没有？为什么呢，既然你……”

她下唇像我见到的那个小男孩一样，噘了起来。她的两腮淌下了泪水……

“因为我……我怕要是这样做了……你将再也不会爱我……哦，我不能，我做不到！”

我明白了，这是真话。荒唐而又可笑，但是是符合人性的真话！我打开了门。

笔记之三十六

空白页

基督教的上帝

我的母亲

奇怪，在这一页内容上，我只能留下空白了。究竟我是怎么走到那儿的，怎么等待着（我知道我肯定等过一会儿），我都记不清了。关于这部分，没有留下任何的声音、面容和动作。就像我和世界的所有的联系被切断了一样。

等我头脑清醒的时候，我发觉我已经站在他面前了，瑟缩着低着头，我只能见到他那两只放在膝盖上的铸铁般的巨掌。这双手那么重，似乎要将他的膝盖压弯了。他慢慢地动了动手指。他的脸高高在上，好像要高入云端了。因此声音是从这么高的地方传过来的，所以并不似巨雷那般震耳欲聋，反而像一个普通人的声音。

“这么说，连你也是。你是‘积分号’的设计师！你十分有幸地会成为最伟大的征服者！你的名字本应该在联合国历史上揭开灿烂的光辉篇章！连你也……”

热血涌上了我的脑袋和面颊——关于这部分内容，我的脑海又是一片空白。我只能感觉到太阳穴怦怦地跳，至于上面洪亮的声音所表达的内容，我一个字也没听到。只是当他说完以后，我才清醒过来。我看见

他那千斤重的手慢慢移动起来，伸出一根手指指着我说：

“怎么？你为什么不说话？我是刽子手？这是真的，还是假的？”

“是的。”我顺从地答道。突然我又能听清楚他的话了。

“很好！那又如何？你以为我害怕这个词吗？难道你不曾去撕下这个词的外壳，看一看它究竟意味着什么吗？让我来告诉你.....你记得这个场景吧：在黄昏时分，一座小山上，竖着一个十字架，还有一群人。他们浑身是血，正忙着将一个人钉在十字架上，而山下的另一些人，正泪流满面地朝上面看着。你是否觉得，山丘上面的那些人所扮演的角色才是最困难的，最重要的！如果没有他们，那么这幕伟大庄严的悲剧将如何上演呢？愚昧的人群向他们喝倒彩。然而，这场悲剧的创造者，正是上帝本人！他更应该慷慨地犒劳他们。所谓最仁慈的上帝自己，不也是将一切不顺从的异教徒投入地狱之火慢慢烧死吗？难道他就不是刽子手？被基督徒烧死的人难道会比烧死的基督徒更少吗？你要清楚，这位上帝，就是几个世纪以来一直被人们赞颂，称他为仁慈的上帝。这是不是很荒唐？不，这并不荒唐。这就是一个用鲜血写就的证明。它证明人难移的本性，即理智。即使在当人还是野蛮的、满身披毛的时候，他们也意识到：对人类真正的、符合几何原理的爱，必然是反人性的，真理的必然特征就是残酷。正如火的必然特征就是灼烧一样！你能找到一种不会烧人的火吗？好吧，你来论证一下，来反驳我吧！”

我怎么能反驳呢？这些思想曾经也是我的所思所想啊，我哪能反驳呢？只是我从来不会把它们形之于如此辉煌、坚韧的外部形式而已。因此，我只能默不作声.....

“如果你的沉默表示赞同的话，那么就让我们往下谈吧。我们要彻

底谈谈，就像已经打发了孩子们去睡觉，只剩下成年人那样。首先我要问你个问题：人自出生以后，就开始祈祷，幻想，渴望着的东西是什么呢？他渴望有个人来告诉他什么是幸福，然后用锁链将他和幸福拴在一起。我们现在所做的一切不都是为了这件事吗？古人曾幻想死后能进入天堂……而天堂是什么？天堂里的人没有欲望，没有怜悯，没有爱。他们全部都生活在幸福之中，天使是幸福的，因为他们被摘除了幻想……如今，我们正要进入这种幸福之中，我们正要将它好好抓住了（他紧紧攥住自己的拳头，如果他手里捏着块石头，可能也会从石头里挤出水来），现在我们只差包裹好奖品，将它平分给所有人，可是恰恰在这个时候，你……”

沉重的铸铁般的说话声突然停顿了。我全身像是被铁锤敲击过的红色铁块，满脸涨得通红。锤子又举了起来，我等待着……等待着……突然：

“你几岁？”

“32。”

“年纪不小了，但是你比只有你一半年龄的儿童更加幼稚！听着，难道你真的从来没有想过，他们——虽然我们还不能确定他们的号码，但我相信，从你那儿，我会知道一切的。他们需要你，只因为你是‘积分号’的设计师，只是想利用你……”

“不！不是这样的！”我喊叫了起来。但是，这就像用手挡住了飞过来的子弹，是那样徒劳无力。甚至你还能听见自己那可笑的“不是这样的”，而子弹已经穿过了你，你已经倒地了。

是的，不错，我是“积分号”的设计师……是的，没错……突然，我

脑海中又浮现了那天早晨U那张愤怒的、颤抖的鱼鳃腮帮，那会儿她们.....

我记得自己傻笑着抬起眼，在我面前坐着一个苏格拉底式的秃头男人，秃头上渗出细细的汗珠。

一切都是那么简单、那么明了！简单得甚至有些荒唐！我笑得喘不过气来。笑得呛住了，我用手掌堵着嘴，疯狂地冲了出来。

一级级的台阶，大风，潮湿的跳动着的灯光，还有不断闪现的人脸.....我不顾一切地奔跑着：“不，我必须见她！得再见她一面！”

接下来发生的一切又是一片空白。我只记得一双双脚，看不到人，只见到他们的脚：这些脚混乱地走在人行道上，就像落下一阵沉重的脚步的雨点.....我甚至还听到了有人快活地、俏皮地大喊着：“嗨，嗨！来这边，上我们这里来！”像是冲我喊的。

之后，我发觉自己站在空荡荡的广场上，只有我一个人。广场中心是一台乌蒙蒙的、骇人的、沉重的庞然大物——全知全能者的死刑机。看到它，我的脑海中立即出现了这样的场景：雪白的枕头，枕头上面有一个半闭着双眸的、向后仰着头的脸，她露出甜蜜的、尖利的洁白小牙齿.....将这一切和死刑机联想到一起，这太荒唐了！太可怕了！我明白我为什么会这样想，但是我不想再想下去了。也不想喊出来：我不愿意！这样不行！

我闭上了双眼，坐在通向死刑机的台阶上。可能是因为正在下雨，我的脸湿漉漉的。远处，隐隐听见沉闷的喊叫声。但是谁也听不见，没有人能听见我的呼喊：救我出去！救救我吧！

如果我像古代人那样，有位母亲，该多好啊！一个只属于我自己的母亲。那样，在她的眼中，我不是“积分号”的设计师，不是号码D-503，不是联合国的一分子，只是一个活生生的人，是她身体里的一部分，是一个被蹂躏、被窒息、被抛弃的一部分.....即使我被别人钉在十字架上，或者别人把我钉上十字架（也许这没什么分别），但她总能听到我的呼喊，但愿她用那布满皱纹的、皱成一团的瘪嘴来亲吻我.....

笔记之三十七

鞭毛虫

世界末日

她的房间

早晨在食堂里，我左边的人忧心忡忡地低声对我说：

“你吃呀！怎么不吃？他们都看着你哪！”

我用力挤出笑容，觉得这笑就像脸皮裂开了一道口子，我继续笑，这裂口越来越大，我觉得越来越疼.....

后来，我用叉子叉起了一块食物举到嘴巴，突然叉子从手中滑落了下来，还敲着了盘子。桌子、墙壁、杯盘，连空气都颤抖了，发出铮铮

的响声。外面也是一样，响起了震天巨响，那声音越过我们头顶，越过房屋，慢悠悠地波及到远处，接着逐渐变弱，最后消失不见了，就像水面上泛起的阵阵涟漪，完全不见了。

霎时间，我见到一张张骇人的苍白的脸，那些正使劲咀嚼的嘴，像突然坏掉了一样，停住了，叉子也停留在了半空中。之后，一切都乱了套，脱离了永恒不变的轨道。所有的人都从座位上跳了起来（连颂歌都没有唱完），也不顾节拍，匆忙咽下正在咀嚼的食物，相互抓住对方问道：“怎么了？到底怎么回事？”这台伟大的机器，这台有条不紊的机器，此刻突然散了架子，出现了一堆乱七八糟的碎片……所有人都朝楼下跑去，奔向电梯……到处都是支离破碎的脚步声，还有片语只言，就像信纸的碎片吹上了天……

旁边的房子里的人也都涌了出来。过了一会儿，大街上就像显微镜下的一滴水；封闭在透明的、玻璃一样的滴液里的鞭毛虫，正在四处乱窜，前后左右，动个不停。

“啊！”我听到了一声喊叫。我看见他的后脑勺，还有他的一根手指向上指去。沿着那个方向，所有人朝那方的天空看去。

天空中，乌云好像在逃避无形的侦缉队的追捕。它们彼此碾压、你追我赶朝前飞奔。安全卫士的飞行器正在空中巡查。在远远的西方，有一群……似乎是……刚开始，谁也看不清那到底是什么，我也是。虽然我应该比别人看得明白。那似乎是一大群黑色的飞船，飞得很高，几乎令人难以置信，它们成了一个个飞速移动的小黑点。

它们越飞越近，嘶哑的、嗷嗷的啼鸣慢慢地传到了地面，终于，我们看清了，那是一群飞鸟。天空中布满了这些黑色的、尖声鸣叫着往下

降落的三角形；强大的气浪将它们朝下驱赶着，它们着陆在圆屋顶上、房顶上、木杆上，还有阳台上。

“啊！哈！”激动的脖子转了过来，我一眼就看到了那个额头凸鼓的人，但是，他好像换了一个人，喜气洋洋，容光焕发地，在风的呼啸声中，在飞鸟的聒噪声中，他对我大声喊道：

“你明白吗，绿墙，绿墙已经被炸坍了！你明白吗？”

在离街很远的那边，我看到，几个人影闪动。他们伸着脑袋，匆忙地跑到屋里去。而在人行道的另一边，有一大群做过手术的人，正匆促而又缓慢地向西走去……

他的嘴角和眼角都是毛茸茸的……我拽住他的手，问道：

“告诉我，I在哪里？她在绿墙那边吗？还是……我一定要找到她，你懂吗？必须要找到她，我不能……”

“在这里！”他陶醉似的大声叫道，露出黄色的牙齿，“她就在这里，在城里，她在行动。噢……我们干了件大事！”

“我们？”“我”是谁？

他身边有五十来个人，他们都露出相似的表情，都容光焕发，声音洪亮，乐乐呵呵地露出一口坚固的牙齿。他们迎着狂风，手里挥舞着电绳索（他们从哪里弄到的？），他们朝着西边走去，来到48号大街，将那些已经做过手术的人团团围住……

我脚步踉跄，在逆风中奔跑，我朝她的方向跑去。去做什么？我也不清楚。我踉跄着……又是空无一人的大街……城市变了样，它看起来

是那么陌生，那么野蛮，到处都是鸟儿欢天喜地的鸣叫声，还有胜利的喧闹声。好像世界已经走到了尽头！

透过许多房子的玻璃，我惊讶地看到在几个房间里，女号码和男号码无耻地做爱，甚至都不放下窗帘，也没有粉红票子，就在大白天.....

她住的地方到了，大门茫然地敞开着。在控制台那里，我没有看到人。电梯停在升降井的半中央。我喘着粗气沿着没完没了的楼梯走着，终于冲到了走廊。我飞快地一间间房门看过去，门上的号码就像轮子里的辐条，320，326，330，I-330！

透过玻璃门，我看到屋里的所有东西都散乱着，一片狼藉，一把椅子倒在地上，也许是匆忙中被碰翻了。还有桌子，四脚朝天地翻倒在地上，就像死掉了的畜生。床歪斜地抵在墙边，地板上乱七八糟，全是凌乱的粉红票子。

我弯下腰拾起一张，一张，又一张。每张写的全是我，D-503，都是我，它们是我融化了的、炽热的感情。只剩下这些了.....

不知怎的，我觉得不应该将它们就这么洒落在地上。我捡拾起一把，将它们小心地放在桌上，轻轻地捋平，看着它们，然后，我忍不住大笑了起来。我以前从来都不知道，现在我可算知道了，你们也许懂吧，笑可以有很多不同的色彩。它只是你内心爆发的回声：它可能是红色、蓝色、金黄色的节日焰火，也可能是炸飞到空中的血肉之躯.....

我注意到有几张票子上，写着一个陌生的号码。我不记得数字子，只记住了字母F。我把桌上的票子都扫到地上，用脚踩着它们，也踩着自己.....然后，转身离开了.....

在走廊里，我坐在对面的窗台上，好像在等待着什么。我这样呆坐了很久。突然，走来了一个老人，他的脸上满是皱纹，那张脸就像是扎了窟窿、漏了气的气球；扎破的孔眼里还渗出透明的水滴，正在慢慢地流淌着，这也许是眼泪。老人走远了，我才意识到，并大声地喊道：

“喂，请告诉我，你认识I-330吗？”

老人转过身来，绝望地甩了一下手，一瘸一拐地走远了……

黄昏，我回了家。西边灰蓝色的天空每分每秒都在紧张地抽搐、发颤，还有雷电的咆哮声，屋顶上布满了焦炭似的黑鸟。

我躺下了，噩梦像野兽一样朝我压了过来，我要窒息了……

笔记之三十八

我不知道要怎么写提要

要不就叫被扔掉的香烟吧

我睡醒了。眼睛被一阵刺目的光线刺痛。我眯起眼睛，脑子里弥漫着蓝色的烟雾，一切都似在迷雾中。我默默地回想着：

“可是我没有开灯呀，为什么……”

我惊跳了起来，睁大眼睛一看，桌子后面坐着I，她用手支着下巴，正笑吟吟地看着我。她那会儿就坐在这张桌旁，待了大概十到十五分钟。这短暂的时光已经过去很久了，但是我仍然觉得，好像她刚刚离开。我还能追上她，抓住她的双手——可能她还会笑着对我说……

I就坐在桌子那儿。我朝她奔去。

“是你，是你！真的是你！我一直在找……我进入你的房间，我为你……”

但是，我只是说了一半的话，她长矛枪似的尖硬的睫毛顶住了我。我止住了脚步。我想起来了，在“积分号”上，她就是用这样冰冷的眼神看着我的。我知道，我必须要把一切都告诉她，在最短的时间内让她了解真相……让她完全信任我，否则她永远也不会……

“听着，I，我必须……我必须把一切都告诉你……不，让我先喝口水……”

嘴里太干了，好像里面贴满了吸墨水纸。我倒了杯水，喝下去，但仍然很干……我把杯子放在桌上，双手紧紧地抓住水瓶……

这时，我才意识到那蓝烟是香烟的烟雾。她将香烟送到嘴边，深深地吸了一口，那贪婪的神气，就像我喝水一样，接着她又吐了一口烟，随后说道：

“不必了。安静点。你还看不出来吗？我还是来了。下面有人在等我……你想要这几分钟吗？这是我们最后的几分钟……”

她用力将香烟扔到地上。身体向后仰，此刻她还倚着软椅的扶手（而想要按住墙上的按钮是十分困难的）……我记得，软椅一晃，椅子

两只脚就离开了地面，跷了起来。紧接着窗帘被落了下来。

她凑近我，搂住我。透过衣裙，她慢慢地、温柔地，朝我身躯注入能愈合我所有创伤的毒液。

突然.....常常会有这类情形出现：当你陷入甜蜜、温馨的睡梦中时，你猛然地被什么东西刺痛，你心中一惊就睁大了眼睛.....现在就是这样：我突然想起来在她房间里的那些踩脏的粉红票子，还有票子上的字母F以及几个数字.....此刻我的脑子里搅成了一团。直到现在我也没法说明白这到底是种什么感情，我狠狠地碾压着她，她失声叫了起来.....

在这10分钟还是15分钟里，只剩下最后的1分钟。雪白的枕头托着她向后仰着头，她双眼微微闭合着，露出一排整齐的小尖牙.....这情景又让我想起了那些令人颤抖的事情，那些荒唐的又无法驱赶走的事情。我越加温柔地也越加残暴地对待她，用手指在她身上留下了更多的青紫色指痕.....

她并没睁开眼睛（我注意到了这一点），问道：

“听人说，你昨天去见了全知全能者？是真的吗？”

“是的。”

她的眼睛猛然睁开了，我饶有兴致地看着她的脸，却发觉她的脸色逐渐变白，直到最后毫无血色，仿佛整张脸都隐没了——只剩下一双眼睛。我把一切都告诉了她，只有一件事，我没有说（我也不知道为什么没有说，不对，其实我是知道的），就是全知全能者最后讲的那些话，他们之所以需要我，只是因为我.....

她的脸慢慢又显现出来了，就像在显影液里的一张照片：脸颊、洁白的牙齿和嘴唇。她站起身来，走到壁橱的镜子面前。我的嘴又开始干了，我又倒了杯水，却怎么也喝不下去，最后，我将杯子放回桌上，问她：

“你来到这儿，就是因为你想了解这件事？”

她从镜子里望着我。我见到一个尖刻的、嘲讽的三角形。她转过身来，想说些什么，但是她什么也没说。

没必要说了，我明白。

和她告别吧，我挪动着自己的不太灵光的腿，不小心撞到了椅子上。椅子翻了，它趴在地下，四脚朝天，跟她屋里的那把椅子一样。她的嘴唇冰冷……就跟我房间的地板一样冰冷。

她走后，我坐在地板上，低着头，看着那个烟头。

我没法写了，不想写了！

笔记之三十九

结局

所有这一切，就像在饱和液中扔进的一颗盐粒：很快地，它就分解

成了针状晶体，硬结了，凝固了，我非常清楚：一切已成定局。我也下了决心，明天早上我就要去安全卫士局，这无异于自杀，但是，只有这样，才能得到重生，因为只有死去后才能重生。

西边的天空每隔一秒钟，就猛烈抽搐一下。我的头发热，太阳穴突突地跳着。我整夜睡不好觉，直到早上七点才睡去，这时黑暗已经退去，天空变成了灰色，停栖着黑鸟的屋顶也逐渐清晰了起来.....

等我再次醒来时，已经是十点钟了（看来，今天铃声没有响过），桌上还有昨晚那杯没有喝的水。我口渴极了，很快地喝完了这杯水。然后冲出门：我要赶紧去做这件事，越快越好。

天空依然是空空荡荡，一片蔚蓝，就像被狂风暴雨洗劫了一样。影子的形象尖锐锋利.....一切仿佛都是秋天的蓝色的空气裁出来的，稀薄的，不敢用手碰，看起来十分脆弱。我也是这样：我不能想，思考是件危险的事，否则.....

我什么都不想，甚至我连看都不看周围一眼，我所看到的可能只是些隐约印象而已。人行道上布满了不知从哪里伸展出的树枝，叶子是绿色的，还有黄色的、深红色的；天空里飞鸟和飞船互相冲撞着。我周围都是人们的脑袋和张开的嘴，还有挥动着树枝的手.....可能，周围是一片嘈杂的吵闹声、鸟鸣声.....

接着，是一条条空无人烟的街，就像被瘟疫肆虐过一样。我记得，我的脚被一个绵软的东西绊住了，它一动不动躺在地上。我弯腰看了一下，是具尸体。他平躺着，双脚叉开，还有，他的脸.....我认出了那厚厚的黑人般的嘴唇，还有他说话时吐沫横飞的样子。

此刻，他仿佛还在冲着我笑。我只停留了一秒钟，就飞快地跨过

他，跑了起来.....我不能停下.....我必须了结所有的事情，否则，我会像超量载重的铁轨一样断裂，坍塌.....

幸好，离安全卫士局只有二十来步路了。我已经能看到那金色的招牌了，终于来到了门口，我深深吸了一口气，走了进去。

走廊里站着看不到头的一排号码，他们一个挨着一个排着，手里拿着小张纸，或是厚厚的笔记本。他们慢慢地挪动着，走一点就停住不动了。我在队伍旁来回地窜，脑袋就要炸开了。我拉住他们的衣袖，恳求着，就像一个病人渴望能得到一种良药，即使要忍受疼痛也在所不惜。

有一个身着制服的女人，她腰束皮带，胸部两个半球形明显地撅着。她不停地扭来扭去，好像她的眼睛正长在半球上似的。她冲我笑着，说：

“他肚子疼！将他带到厕所去，在右边第二扇门.....”

所有人都哄笑着，这笑声让我的喉咙发痒，好像什么东西堵住了似的。我想要叫起来，再不然.....再不然.....

突然，背后有人拉我的胳膊。我转过身，看到了一对透明的招风耳朵。它们不是平时的粉红色，今天变得红彤彤的。他说话的时候，喉结上下移动着，好像要蹦出来似的。

“你来干什么？”他问道，尖尖的芒刺使劲钻进来。

我连忙抓住他。

“快啊，求求你.....去你的办公室吧！.....我要说出一切.....立刻！能向你报告，这太好了.....但是，要向你本人报告，这有点可

怕.....但这样也好.....也好.....”

他也认识她，这会使这件事更让人难以接受。但是，也许他听了我的话会和我一样颤抖.....那这件事就是我们两个人的了.....我不想一个人面对.....

门被“砰”的一声关上了。我还记得，在门底下卡了一张纸。关门的时候，它在地板上蹭着。接着，屋里突然罩上了一种奇特的、令人窒息的沉默。如果，他说上一句话，哪怕是一个无关紧要的字也好，我会马上全部都说出来的。但是他始终一言不发。我非常紧张，紧张得连耳朵都鸣响起来。我对他说（眼睛不敢正视他）：

“我想，我一开始是恨她的.....我心里有斗争.....不过，不不，不要相信我说的，我本来可以，但我不想拯救我自己。我愿意毁灭，我愿意那样，因为，那对我来说是最珍贵的.....也就是说，不是毁灭，是希望她.....哪怕是现在，即便我知道了一切，我仍然.....你知道，你知道吧，全知全能者召见了。”

“是的，知道。”

“而他对我说的话.....你懂吗，他所说的话，就像是从我脚底下把地板给抽走了，只剩下我，还有桌上所有的东西：稿纸、墨水啦.....墨水会泼出来的，洒到所有东西上.....”

“还有什么，快点说！快点说！好多人在排队等着呢。”

于是，我磕磕巴巴、颠三倒四地将所有的事，所有本子里写的事都告诉给了他。还说起了那个真正的我，还有那个毛茸茸的我。还说到了她当时谈起我的手.....是的，所有的一切就是从那时开始的.....我还讲

到我如何对自己说谎，她怎么给我弄了假证明，我又怎样一天天地变坏，还有地下长廊以及绿墙外的种种见闻.....

我说得乱七八糟、颠三倒四，甚至有时候我还结结巴巴，不知道有些话该怎么讲。他那两片双曲线的嘴唇上，挂着一丝讪笑，就帮我补充上，我说不出的那些话，我十分感激地点点头.....后来（不知怎么地），他已经开始替我讲述了！我只有听着他讲述的份儿，只能点头说：“对，是的.....对，就是这样，很对！”

我感觉自己嘴唇周围一片冰凉，就像服用了醚麻剂一样，从脖子根儿开始发凉，我艰难地问道：

“但是，你怎么会得知这一切的呢.....”

又一个讥诮的冷笑，他嘴唇的双曲线弯得更厉害。他回答道：

“我看出来了，你还是有隐瞒的部分。比方说，你列举了你在绿墙之外所见到的所有人，但是，你却漏掉了一个。你否认得了吗？你记不记得在那里见过我，只有一秒钟？是的，那就是我。”

我呆住了。

突然，我脑子里像闪电似的一亮，我懂了：我感到无地自容，原来他，跟他们也是一伙的.....我突然意识到，我所供出的这些东西——我自己的痛苦，还有我之前之后的所有想法，以及我来到这里的原因，就像我做了一件多么了不起的事一样。而其实，这一切都非常可笑！就像古代笑话里所写的关于亚伯拉罕和以撒的故事[6]一样。当亚伯拉罕浑身冷汗，要举刀杀死自己的儿子的时候，突然天上传来了声音，大喊：“别当真！我只是在开玩笑.....”

我的眼睛紧紧盯着他嘴上的冷笑，我双手紧紧撑住了桌子边沿，慢慢地推开椅子，扭头疯狂地冲了出去，我顾不得别人的喊叫，跳下台阶.....许许多多张大张的嘴都从我眼前一晃而过.....

[6]上帝耶和華想考驗亞伯拉罕對他的忠誠度，就吩咐亞伯拉罕將愛子以撒獻祭。亞伯拉罕帶着以撒上山，將以撒綁起來，舉起尖刀要刺穿以撒的時候，上帝阻止了這場玩笑，還由衷地讚美了亞伯拉罕的忠誠。

我迷迷糊糊地來到了一間公共休息室，這是一個地鐵站。在地面上，一切都在毀滅。歷史上最偉大、最理智的文化在崩潰；而在这里，一切還是那樣美好。四壁發着光，水聲輕快地在潺潺流淌，那看不見的透明音樂也像水流一樣流淌着.....可想一想，這一切都會毀滅！這一切都會被埋沒在荒草叢中，只剩下傳說.....

我痛苦地大聲呻吟起來。左邊有個人輕輕地拍了拍我的肩膀。他是我的鄰居，那個有着巨大的拋物線大額頭的人，我再次看到他額頭上深淺不一的皺紋。那上面寫的都是關於我的事。

“我明白，我非常理解你，”他說道，“但你必須要冷靜！你一定要冷靜下來！一切都會回來的，必定會回來。大家都必須知道我的發現，這十分重要。現在我要第一個告訴你：我已經計算出來了，沒有無窮大！根本就不存在！”

我奇怪地看着他。

“真的，我跟你說，不存在無窮大。如果世界是無限的，那麼物質

的平均密度应该等于零。但是，既然我们都知道，它不是零，那么宇宙就必然是有限的。它是球形的，它的半径的平方 r^2 等于平均密度乘以.....剩下的就是计算出数值系数，那么.....你懂了吗？这意味着一切都是有限的，简单的，是可以计算的.....你懂了吗？而你，我尊敬的朋友，你刚才大喊大叫，妨碍了我的演算.....”

我不知道是哪件事更令我崩溃：是他的发现呢，还是他对我这个突然醒悟的時刻的描述？但是，这时我才发现，他手上有个笔记本，还有一张对数刻度表。我突然意识到，即使全世界都毁灭了，我也要完成我的笔记。（将它留给我的那些素不相识的读者们。）

我从他那里弄了几张纸。在这些纸上记下了我最后的记事.....

我打算结束我的笔记，就像古代人在埋葬死者后，在墓穴上插上十字架一样。突然，铅笔哆嗦了一下，从我的手指缝上掉了下去.....

“听着，”我拉着他的衣袖说，“你说的那个有限宇宙的最终极限在哪儿？它的后面又有什么呢？”

他还没来得及回答，上面台阶上就响起了脚步声.....

笔记之四十

事实

气钟罩

我确信

白天。天气晴朗。气压计标注760毫米。有没有可能，这些笔记真的是我写的呢？D-503，真的写过这些内容吗？难道过去我确实这样感受过，或者只是我自以为这些是我的感受？

笔迹确实是我的没错。但是，幸运的是，只是笔迹相同而已，现在，我可不会写什么类似梦呓这类荒唐无比的隐喻了。没有任何的感情流露，我只记录事实。因为我非常健康，我绝对的健康。此刻，我正在微笑呢，我总是忍不住想微笑：因为我脑袋里的那根刺已经被拔除掉了，现在觉得无比轻松，空空如也。准确地说，不是空空如也，也是没有任何陌生的无法掌控的东西侵入，所有那些妨碍我微笑的东西都不存在了。（微笑才是一个人该有的常态。）

以下就是我的真实记录：那天晚上，我，还有那位发现宇宙有限之说的邻居，以及其他和我们在一起的人，都被带到了附近的礼堂。（礼堂的号码是112，不知为什么，我总是觉得这号码很熟悉。）我们被捆在手术台上，接受了伟大的手术。第二天，我，D-503，谒见了全知全能者，将我所知道的一切都和盘托出。怎么以前我会感到难以说出口呢？真有点不可思议！唯一合理的解释就是我生病了，患了灵魂病。

还是在当天晚上，我和全知全能者大人同桌而坐。我有生以来第一次坐在气钟罩室内。她们带来了一个女人。当着我的面，对她进行取证。这女人嘴巴很硬，一直不肯开口，始终冷笑着。我发现她的小牙齿雪白而尖利，还挺好看的。

后来，她被押到气钟罩下。她的脸变得很白很白，还有黑幽幽的大

眼睛，真是很好看。当开始从气钟罩里抽出空气时，她的头向后仰去，眼睛闭上了，嘴唇抿着。这个动作仿佛似曾相识。她使劲抓住椅子把手，眼睛一动不动地看着我，直到眼睛完全合上为止。然后，把她拖出来。电极很快使她苏醒过来。接着她又被送进了气钟罩。这样反复了三遍，她仍然一个字也不说。

和这个女人一起押来的人比她要老实多了。很多人只受了一次刑，就招供了。明天他们全都要被送上全知全能者的死刑机，被处以极刑。这事已经不能再拖延了。因为西部街区依然混乱一片，到处都是哭喊声，还有尸体，还有野兽.....此外，十分遗憾，还有为数不少的号码背叛了理性。

但是，庆幸的是，在40号横向大街上，已经筑起了一堵临时高压电墙。我希望，我们会取得胜利。不仅如此，我确信，我们终将取得胜利。因为理性必胜。

we

RECORD ONE

An Announcement

The Wisest of Lines

A Poem

This is merely a copy, word for word, of what was published this morning in the State newspaper:

"In another hundred and twenty days the building of the Integral will be completed. The great historic hour is near, when the first Integral will rise into the limitless space of the universe. One thousand years ago your heroic ancestors subjected the whole earth to the power of the United State. A still more glorious task is before you: the integration of the indefinite equation of the Cosmos by the use of the glass, electric, fire-breathing Integral. Your mission is to subjugate to the grateful yoke of reason the unknown beings who live on other planets, and who are perhaps still in the primitive state of freedom. If they will not understand that we are bringing them a mathematically faultless happiness, our duty will be to force them to be

happy. But before we take up arms, we shall try the power of words.

"In the name of the Well-Doer, the following is announced herewith to all Numbers of the United State:

"Whoever feels capable must consider it his duty to write treatises, poems, manifestoes, odes, and other compositions on the greatness and the beauty of the United State.

"This will be the first cargo which the Integral will carry."Long live the United State! Long live the Numbers!! Long live the Well-Doer!!!"

I feel my cheeks burn as I write this. To integrate the colossal, universal equation! To unbend the wild curve, to straighten it out to a tangent—to a straight line! For the United State is a straight line, a great, divine, precise, wise line, the wisest of lines!

I, D-503, the builder of the Integral, I am only one of the many mathematicians of the United State. My pen, which is accustomed to figures, is unable to express the march and rhythm of consonance; therefore I shall try to record only the things I see, the things I think, or, to be more exact, the things we think. Yes, "we"; that is exactly what I mean, and We, therefore, shall be the title of my records. But this will only be a derivative of our life, of our mathematical, perfect life in the United State. If this be so, will not this derivative be a poem in itself, despite my limitations? It will. I believe it, I know it.

My cheeks still burn as I write this. I feel something similar to what a woman probably feels when for the first time she senses within herself the

pulse of a tiny, blind, human being. It is I, and at the same time it is not I. And for many long months it will be necessary to feed it with my life, with my blood, and then with a pain at my heart, to tear it from myself and lay it at the feet of the United State.

Yet I am ready, as everyone, or nearly everyone of us, is. I am ready.

RECORD TWO

Ballet

Square Harmony

X

SPRING. From behind the Green Wall, from some unknown plains the wind brings to us the yellow honeyed pollen of flowers. One's lips are dry from this sweet dust. Every moment one passes one's tongue over them. Probably all women whom I meet in the street (and certainly men also) have sweet lips today. This somewhat disturbs my logical thinking. But the sky! The sky is blue. Its limpidness is not marred by a single cloud. (How primitive was the taste of the ancients, since their poets were always inspired by these senseless, formless, stupidly rushing accumulations of vapor!) I love, I am sure it will not be an error if I say we love, only such a sky—a

sterile, faultless sky. On such days the whole universe seems to be moulded by the same eternal glass, like the Green Wall, and like all our buildings. On such days one sees their wonderful equations, hitherto unknown. One sees these equations in everything, even in the most ordinary, everyday things.

Here is an example: this morning I was on the dock where the Integral is being built, and I saw the lathes; blindly, with abandon, the balls of the regulators were rotating; the cranks were swinging from side to side with a glimmer; the working beam proudly swung its shoulder; and the mechanical chisels were dancing to the melody of unheard tarantellas. I suddenly perceived all the music, all the beauty, of this colossal, this mechanical ballet, illumined by light blue rays of sunshine. Then the thought came: why beautiful? Why is the dance beautiful? Answer: because it is an unfree movement. Because the deep meaning of the dance is contained in its absolute, ecstatic submission, in the ideal non-freedom. If it is true that our ancestors would abandon themselves in dancing at the most inspired moments of their lives (religious mysteries, military parades), then it means only one thing: the instinct of non-freedom has been characteristic of human nature from ancient times, and we in our life of today, we are only consciously—

I was interrupted. The switchboard clicked. I raised my eyes—O-90, of course! In half a minute she will be here to take me for the walk.

Dear O-! She always seems to me to look like her name, O-. She is approximately ten centimeters shorter than the required Maternal Norm. Therefore she appears round all over; the rose-colored O of her lips is open to meet every word of mine. She has a round soft dimple on her wrist. Children

have such dimples. As she came in, the logical flywheel was still buzzing in my head, and following its inertia, I began to tell her about my new formula which embraced the machines and the dancers and all of us.

"Wonderful, isn't it?" I asked.

"Yes, wonderful...Spring!" she replied, with a rosy smile.

You see? Spring! She talks about Spring! Females!... I became silent.

We were down in the street. The avenue was crowded. On days when the weather is so beautiful, the afternoon personal hour is usually the hour of the supplementary walk. As always, the big Musical Tower was playing the March of the United State with all its pipes. The Numbers, hundreds, thousands of Numbers in light blue unifs (probably a derivative of the ancient uniform) with golden badges on the chest—the State number of each one, male or female—the Numbers were walking slowly, four abreast, exaltedly keeping step. I, we four, were but one of the innumerable waves of a powerful torrent: to my left, O-90 (if one of my long—haired ancestors were writing this a thousand years ago he would probably call her by that funny word, mine); to my right, two unknown Numbers, a she—Number and a he—Number.

Blue sky, tiny baby suns in each one of our badges; our faces are unclouded by the insanity of thoughts. Rays Do you picture it? Everything seems to be made of a kind of smiling, a ray—like matter. And the brass measures: Tm—ta—ta—tam...Tra—ta—ta—tam...Stamping on the brassy steps that sparkle in the sun, with every step you rise higher and higher into

the dizzy blue heights Then, as this morning on the dock, again I saw, as if for the first time in my life, the impeccably straight streets, the glistening glass of the pavement, the divine parallel—epipeds of the transparent dwellings, the square harmony of the grayish-blue rows of Numbers. And it seemed to me that not past generations, but I myself, had won a victory over the old god and the old life, that I myself had created all this. I felt like a tower: I was afraid to move my elbow, lest the walls, the cupola, and the machines should fall to pieces.

Then without warning—a jump through centuries: I remembered (apparently through an association by contrast) a picture in the museum, a picture of an avenue of the twentieth century, a thundering, many-colored confusion of men, wheels, animals, billboards, trees, colors, and birds They say all this once actually existed!

It seemed to me so incredible, so absurd, that I lost control of myself and laughed aloud. A laugh, as if an echo of mine, reached my ear from the right. I turned. I saw white, very white, sharp teeth, and an unfamiliar female face.

"I beg your pardon," she said, "but you looked about you like an inspired mythological god on the seventh day of creation. You look as though you are sure that I, too, was created by you, by no one but you. It is very flattering."

All this without a smile, even with a certain degree of respect (she may know that I am the builder of the Integral). In her eyes, nevertheless, and on her brows, there was a strange irritating X, and I was unable to grasp it, to find an arithmetical expression for it. Somehow I was confused; with a somewhat hazy mind, I tried logically to explain my laughter.

"It was absolutely clear that this contrast, this impassable abyss, between the things of today and of years ago—"

"But why impassable?" (What bright, sharp teeth!) "One might throw a bridge over that abyss. Please imagine: a drum battalion, rows—all this existed before and consequently—"

"Oh, yes, it is clear," I exclaimed.

It was a remarkable intersection of thoughts. She said almost in the same words the things I had written down before the walk! Do you understand? Even the thoughts! It is because nobody is one, but one of. We are all so much alike—

"Are you sure?" I noticed her brows that rose to the temples in an acute angle—like the sharp corners of an X. Again I was confused, casting a glance to the right, then to the left. To my right—she, slender, abrupt, resistant flexible like a whip, 1—330 (I saw her number now). To my left, O—, totally different, all made of circles with a childlike dimple on her wrist; and at the very end of our row, an unknown he—Number, double—curved like the letter S. We were all so different from one another...

The one to my right, I—330, apparently caught the confusion in my eye, for she said with a sigh, "Yes, alas!"

I don't deny that this exclamation was quite in place, but again there was something in her face or in her voice...

With an abruptness unusual for me, I said, "Why, 'alas'? Science is

developing and if not now, then within fifty or one hundred years—"

"Even the noses will—"

"Yes, noses!" This time I almost shouted, "Since there is still a reason, no matter what, for envy... Since my nose is button—like and someone else's is—"

"Well, your nose is rather classic, as they would have said in ancient days, although your hands— No, no, show me your hands!"

I hate to have anyone look at my hands; they are covered with long hair—a stupid atavism. I stretched out my hand and said as indifferently as I could, "Apelike."

She glanced at my hand, then at my face.

"No, a very curious harmony."

She weighed me with her eyes as though with scales. The little horns again appeared at the corners of her brows.

"He is registered in my name," exclaimed O—90 with a rosy smile.

I made a grimace. Strictly speaking, she was out of order. This dear O—, how shall I say it? The speed of her tongue is not correctly calculated; the speed per second of her tongue should be slightly less than the speed per second of her thoughts—at any rate not the reverse.

At the end of the avenue the big bell of the Accumulating Tower

resounded seventeen. The personal hour was at an end. I—330 was leaving us with that S—like he—Number. He has such a respectable, and I noticed then, such a familiar, face. I must have met him some— where, but where I could not remember. Upon leaving me I—330 said with the same X—like smile:

"Drop in day after tomorrow at auditorium 112."

I shrugged my shoulders: "If I am assigned to the auditorium you just named—"

She, with a peculiar, incomprehensible certainty: "You will be."

The woman had a disagreeable effect upon me, like an irrational component of an equation which you can— not eliminate. I was glad to remain alone with dear O—, at least for a short while. Hand in hand with her, I passed four lines of avenues; at the next corner she went to the right, I to the left. O—timidly raised her round blue crystalline eyes.

"I would like so much to come to you today and pull down the curtains, especially today, right now "

How funny she is. But what could I say to her? She was with me only yesterday and she knows as well as I that our next sexual day is day after tomorrow. It is merely another case in which her thoughts are too far ahead. It sometimes happens that the spark comes too early to the motor.

At parting I kissed her twice—no, I shall be exact, three times, on her wonderful blue eyes, such clear, unclouded eyes.

RECORD THREE

A Coat

A Wall

The Tables

I looked over all that I wrote down yesterday and I find that my descriptions are not sufficiently clear. That is, everything would undoubtedly be clear to one of us, but who knows to whom my Integral will someday bring these records? Perhaps you, like our ancestors, have read the great book of civilization only up to the page of nine hundred years ago. Perhaps you don't know even such elementary things as the Hour Tables, Personal Hours, Maternal Norm, Green Wall, Well-Doer. It seems droll to me, and at the same time it is very difficult to explain these things. It is as though, let us say, a writer of the twentieth century should start to explain in his novel such words as coat, apartment, wife. Yet if his novel had been translated for primitive races, how could he have avoided explaining what a coat meant? I am sure that the primitive man would look at a coat and think, "What is this for? It is only a burden, an unnecessary burden." I am sure that you will feel the same, if I tell you that not one of us has ever stepped beyond the Green Wall since the Two Hundred Years' War.

But, dear readers, you must think, at least a little. It helps.

It is clear that the history of mankind, as far as our knowledge goes, is a history of the transition from nomadic forms to more sedentary ones. Does it not follow that the most sedentary form of life (ours) is at the same time the most perfect one? There was a time when people rushed from one end of the earth to another, but this was the prehistoric time when such things as nations, wars, commerce, different discoveries of different Americas still existed. Who has need of these things now?

I admit that humanity acquired this habit of a sedentary form of life not without difficulty and not all at once. When the Two Hundred Years' War had destroyed all the roads, which later were overgrown with grass, it was probably very difficult at first. It must have seemed uncomfortable to live in cities which were cut off from each other by green debris. But what of it? Man soon after he lost his tail probably did not learn at once how to chase away flies without its help. I am almost sure that at first he was even lonesome without his tail; but now, can you imagine yourself with a tail? Or can you imagine yourself walking in the street naked, without clothes? (It is possible you go without clothes still.) Here we have the same case. I cannot imagine a city which is not surrounded by a Green Wall; I cannot imagine a life which is not surrounded by the figures of our Tables.

Tables...Now even, purple figures look at me austerely yet kindly from the golden background of the wall. Involuntarily I am reminded of the thing which was called by the ancients "Sainted Image," and I feel a desire to compose verses, or prayers, which are the same. Oh, why am I not a poet, so as to be able to glorify the Tables properly, the heart and pulse of the United

State!

All of us and perhaps all of you read in childhood, while in school, that greatest of all monuments of ancient literature, the Official Railroad Guide. But if you compare this with the Tables, you will see side by side graphite and diamonds. Both are the same, carbon. But how eternal, transparent, how shining the diamond! Who does not lose his breath when he runs through the pages of the Guide? The Tables transformed each one of us, actually, into a six—wheeled steel hero of a great poem. Every morning, with six—wheeled precision, at the same hour, at the same minute, we wake up, millions of us at once. At the very same hour, millions like one, we begin our work, and millions like one, we finish it. United into a single body with a million hands, at the very same second, designated by the Tables, we carry the spoons to our mouths; at the same second we all go out to walk, go to the auditorium, to the halls for the Taylor exercises, and then to bed.

I shall be quite frank: even we have not attained the absolute, exact solution of the problem of happiness. Twice a day, from sixteen to seventeen o'clock and from twenty—one to twenty—two, our powerful united organism dissolves into separate cells; these are the personal hours designated by the Tables. During these hours you would see the curtains discreetly drawn in the rooms of some; others march slowly over the pavement of the main avenue or sit at their desks as I sit now. But I firmly believe, let them call me an idealist and a dreamer, I believe that sooner or later we shall somehow find a place in the general formula even for these hours. Somehow, all of the 86,400 seconds will be incorporated in the Tables of Hours.

I have had opportunity to read and hear many improbable things about

those times when human beings still lived in the state of freedom, that is, in an unorganized primitive state. One thing has always seemed to me most improbable: how could a government, even a primitive has always seemed to me most improbable: how could a government, even a primitive government, permit people to live without anything like our Tables—without compulsory walks, without precise regulation of the time to eat, for instance? They would get up and go to bed whenever they liked. Some historians even say that in those days the streets were lighted all night, and all night people went about the streets.

That I cannot understand. True, their minds were rather limited in those days. Yet they should have understood, should they not, that such a life was actually wholesale murder, although slow murder, day after day? The State (humanitarianism) forbade in those days the murder of one person, but it did not forbid the killing of millions slowly and by inches. To kill one person, that is, to reduce the individual span of human life by fifty years, was considered criminal, but to reduce the general sum of human life by fifty million years was not considered criminal! Isn't it droll? Today this simple mathematical moral problem could easily be solved in half a minute's time by any ten—year—old Number, yet they couldn't do it! All their Immanuel Kants together couldn't do it! It didn't enter the heads of all their Kants to build a system of scientific ethics, that is, ethics based on adding, subtracting, multiplying, and dividing.

Further, is it not absurd that their State (they called it State!) left sexual life absolutely without control? On the contrary, whenever and as much as they wanted...absolutely unscientific, like beasts! And like beasts they blindly

gave birth to children! Is it not strange to understand gardening, chicken farming, fishery (we have definite knowledge that they were familiar with all these things), and not to be able to reach the last step in this logical scale, namely, production of children—not to be able to discover such things as Maternal and Paternal Norms?

It is so droll, so improbable, that while I write this I am afraid lest you, my unknown future readers, should think I am merely a poor jester. I feel almost as if you may think I want simply to mock you and with a very serious face try to relate absolute nonsense to you. But first I am incapable of jesting, for in every joke a lie has its hidden function. And second, the science of the United State contends that the life of the ancients was exactly what I am describing, and the science of the United State does not make mistakes! Yet how could they have State logic, since they lived in a condition of freedom like beasts, like apes, like herds? What could one expect of them, since even in our day one hears from time to time, coming from the bottom, the primitive depths, the echo of the apes?

Fortunately it happens only from time to time, very seldom. Happily, it is only a case of small parts breaking; these may easily be repaired without stopping the eternal great march of the whole machine. And in order to eliminate a broken peg we have the skillful heavy hand of the Well-Doer, we have the experienced eyes of the Guardians...

By the way, I just thought of that Number whom I met yesterday, the double—curved one like the letter S; I think I have seen him several times coming out of the Bureau of Guardians. Now I understand why I felt such an instinctive respect for him and a kind of awkwardness when I saw that

strange I—330 at his side...I must confess that, that I...they ring the bell, time to sleep, it is twenty-two-thirty. Till tomorrow, then.

RECORD FOUR

The Wild Man with a Barometer

Epilepsy

If

Until today everything in life seemed to me clear (that is why, I think, I always had a sort of partiality toward the word "clear"), but today...I don't understand. First, I really was assigned to auditorium 112, as she said, although the probability was 500 to 10,000,000 or 1:20,000. (Five hundred is the number of auditoriums and there are 10,000,000 Numbers.) And second...But let me relate things in proper order.

The auditorium: an enormous half-globe of glass with the sun piercing through. The circular rows of noble, globelike, closely shaven heads. With joy in my heart I looked around. I believe I was looking in the hope of seeing the rose-colored scythe, the dear lips of O- somewhere among the blue waves of the unifs. Then I saw extraordinarily white, sharp teeth like the...But no! Tonight at twenty—one o'clock O— was to come to me; therefore my desire

to see her was quite natural. The bell. We stood up, sang the Hymn of the United State, and our clever phono-lecturer appeared on the platform with a sparkling golden loud-speaker.

"Respected Numbers, not so long ago our archaeologists dug up a book written in the twentieth century. In this book the ironical author tells about a Wild Man and a barometer. The Wild Man noticed that every time the barometer's hand stopped on the word 'rain,' it actually rained. And as the Wild Man craved rain, he let out as much mercury as was necessary to put it at the level of the word 'rain' (on the screen a Wild Man with feathers, letting out the mercury. Laughter).

"You are laughing at him, but don't you think the 'European' of that age deserves more to be laughed at? He, like the Wild Man, wanted rain—rain with a little 'r,' an algebraic rain; but he remained standing before the barometer like a wet hen. The Wild Man at least had more courage and energy and logic, although primitive logic. The Wild Man showed the ability to establish a connection between cause and effect: by letting out the mercury he made the first step on the path which.... "

Here (I repeat, I am not concealing anything, I am setting down everything) I suddenly became impermeable to the quickening currents coming from the loud-speaker. I suddenly felt I had come here in vain (why in vain and how could I not have come here, since I was assigned to come here?). Everything seemed to me empty like a shell. I succeeded with difficulty in turning my attention in again when the phono-lecturer came to the main theme of the evening—to our music as a mathematical composition (mathematics is the cause, music the effect). The phono-lecturer began the

description of the recently invented musicometer.

"...By merely rotating this handle anyone is enabled to produce about three sonatas per hour. What difficulties our predecessors had in making music! They were able to compose only by bringing themselves to attacks of inspiration, an extinct form of epilepsy. Here you have an amusing illustration of their achievements: the music of Scriabin, twentieth century. This black box"—a curtain parted on the platform, and we saw an ancient instrument—"this box they called the 'Royal Grand.' They attached to this idea of regality, which also goes to prove how their music... "

And I don't remember anything further. Very possibly because...I'll tell you frankly, because she, I—330, came to the "Royal" box. Probably I was simply startled by her unexpected appearance on the platform.

She was dressed in a fantastic dress of the ancient time, a black dress closely fitting the body, sharply delimiting the white of her shoulders and breasts, and that warm shadow waving with her breath between...And the dazzling, almost angry teeth. A smile, a bite, directed downward. She took her seat; she began to play something wild, convulsive, loud like all their life then—not a shadow of rational mechanism. Of course all those around me were right; they were laughing. Only a few...But why is it that I, too, I....?

Yes, epilepsy, a mental disease, a pain. A slow, sweet pain, bite, and it goes deeper and becomes sharper. And then, slowly, sunshine—not our sunshine, not crystalline, bluish, and soft, coming through the glass bricks. No, a wild sunshine, rushing and burning, tearing everything into small bits...

The Number at my left glanced at me and chuckled. I don't know why but I remember exactly how a microscopic saliva bubble appeared on his lips and burst. That bubble brought me back to myself. I was again I.

Like all the other Numbers I heard now only the senseless, disorderly crackling of the chords. I laughed; I felt so light and simple. The gifted phono-lecturer represented to us only too well that wild epoch. And that was all.

With what a joy I listened afterward to our contemporary music. It was demonstrated to us at the end of the lecture for the sake of contrast. Crystalline, chromatic scales converging and diverging into endless series; and synthetic harmony of the formulae of Taylor and McLauren, wholesome, square, and massive like the "trousers of Pythagoras." Sad melodies dying away in waving movements. The beautiful texture of the spectrum of planets, dissected by Fraunhofer lines...what magnificent, what perfect regularity! How pitiful the willful music of the ancients, not limited except by the scope of their wild imaginations!

As usual, in good order, four abreast, all of us left the auditorium. The familiar double-curved figure passed swiftly by, I respectfully bowed.

Dear O- was to come in an hour. I felt agitated, agreeably and usefully. Home at last! I rushed to the house office, handed over to the controller on duty my pink ticket, and received a certificate permitting the use of the curtains. This right exists in our State only for the sexual days. Normally we live surrounded by transparent walls which seem to be knitted of sparkling air; we live beneath the eyes of everyone, always bathed in light. We have

nothing to conceal from one another; besides, this mode of living makes the difficult and exalted task of the Guardians much easier. Without it many bad things might happen. It is possible that the strange opaque dwellings of the ancients were responsible for their pitiful cellish psychology, "My (sic!) home is my fortress" How did they manage to think such things?

At twenty-two o'clock I lowered the curtain and at the same second O— came in smiling, slightly out of breath. She extended to me her rosy lips and her pink ticket. I tore off the stub but I could not tear myself away from the rosy lips up to the last moment, twenty—two—fifteen.

Then I showed her my diary and I talked; I think I talked very well on the beauty of a square, a cube, a straight line. At first she listened so charmingly, she was so rosy; then suddenly a tear appeared in her blue eyes, then another, and a third fell straight on the open page (page 7). The ink blurred; well, I shall have to copy it again.

"My dear O-, if only you, if... "

"What if? If what?"

Again the old lament about a child or perhaps something new regarding, regarding., the other one? Although it seems as though some... But that would be too absurd!

RECORD FIVE

The Square

The Rulers of the World

An Agreeable and Useful Function

Again with you, my unknown reader; I talk to you as though you were, let us say, my old comrade, R-13, the poet with the lips of a Negro—well, everyone knows him. Yet you are somewhere on the moon, or on Venus, or on Mars. Who knows you? Where and who are you?

Imagine a square, a living, beautiful square. Imagine that this square is obliged to tell you about itself, about its life. You realize that this square would hardly think it necessary to mention the fact that all its four angles are equal. It knows this too well. This is such an ordinary, obvious thing. I am in exactly the same square position. Take the pink checks, for instance, and all that goes with them: for me they are as natural as the equality of the four angles of the square. But for you they are perhaps more mysterious and hard to understand than Newton's binomial theorem. Let me explain: an ancient sage once said a clever thing (accidentally, beyond doubt). He said, "Love and Hunger rule the world." Consequently, to dominate the world, man had to win a victory over hunger after paying a very high price. I refer to the great Two Hundred Years' War, the war between the city and the land. Probably on account of religious prejudices, the primitive peasants stubbornly held on to their "bread."[\[7\]](#)

This word came down to us for use only as a poetic form, for the chemical constitution of this substance is unknown to us.

[Z]This word came down to us for use only as a poetic form, for the chemical constitution of this substance is unknown to us.

In the thirty-fifth year before the foundation of the United State our contemporary petroleum food was invented. True, only about two tenths of the population of the globe did not die out. But how beautifully shining the face of the earth became when it was cleared of its impurities!

Accordingly the 0.2 which survived have enjoyed the greatest happiness in the bosom of the United State. But is it not clear that supreme bliss and envy are only the numerator and the denominator, respectively, of the same fraction, happiness? What sense would the innumerable sacrifices of the Two Hundred Years' War have for us if a reason were left in our life for jealousy? Yet such a reason persisted because there remained buttonlike noses and classical noses (cf: our conversation during the promenade). For there were some whose love was sought by everyone, and others whose love was sought by no one.

Naturally, having conquered hunger (that is, algebraically speaking, having achieved the total of bodily welfare), the United State directed its attack against the second ruler of the world, against love. At last this element also was conquered, that is, organized and put into a mathematical formula. It is already three hundred years since our great historic Lex Sexualis was promulgated: "A Number may obtain a license to use any other Number as a sexual product."

The rest is only a matter of technique. You are carefully examined in the laboratory of the Sexual Department where they find the content of the sexual hormones in your blood, and they accordingly make out for you a Table of sexual days. Then you file an application to enjoy the services of Number so and so, or Numbers so and so. You get for that purpose a checkbook (pink). That is all.

It is clear that under such circumstances there is no reason for envy or jealousy. The denominator of the fraction of happiness is reduced to zero and the whole fraction is thus converted into a magnificent infiniteness. The thing which was for the ancients a source of innumerable stupid tragedies has been converted in our time into a harmonious, agreeable, and useful function of the organism, a function like sleep, physical labor, the taking of food, digestion, etc., Hence you see how the great power of logic purifies everything it happens to touch. Oh, if only you unknown readers can conceive this divine power! If you will only learn to follow it to the end!

It is very strange. While I was writing today of the loftiest summit of human history, all the while I breathed the purest mountain air of thought, but within me it was and remains cloudy, cobwebby, and there is a kind of cross—like, four—pawed X. Or perhaps it is my paws and I feel like that only because they are always before my eyes, my hairy paws. I don't like to talk about them. I dislike them. They are a trace of a primitive epoch. Is it possible that there is in me...?

I wanted to strike out all this because it trespasses on the limits of my synopsis. But then I decided: no, I shall not! Let this diary give the curve of the most imperceptible vibrations of my brain, like a precise seismograph,

for at times such vibrations serve as forewarnings... Certainly this is absurd! This certainly should be stricken out; we have conquered all the elements; catastrophes are not possible any more.

Now everything is clear to me. The peculiar feeling inside is a result of that very same square situation of which I spoke in the beginning. There is no X in me. There can be none. I am simply afraid lest some X will be left in you, my unknown readers. I believe you will understand that it is harder for me to write than it ever was for any author throughout human history. Some of them wrote for contemporaries, some for future generations, but none of them ever wrote for their ancestors, or for beings like their primitive, distant ancestors.

RECORD SIX

An Accident

The Cursed "It's Clear"

Twenty-four Hours

I must repeat, I have made it my duty to write concealing nothing. Therefore I must point out now that, sad as it may be, the process of the hardening and crystallization of life has evidently not been completed even

here in our State. A few steps more and we will be within reach of our ideal. The ideal (it's clear) is to be found where nothing happens, but here I will give you an example: in the State paper I read that in two days the holiday of justice will be celebrated on the Plaza of the Cube. This means that again some Number has impeded the smooth running of the great State machine. Again something that was not foreseen, or forecalculated, happened.

Besides, something happened to me. True, it occurred during the personal hour, that is during the time specifically assigned to unforeseen circumstances, yet...

At about sixteen (to be exact, ten minutes to sixteen), I was at home. Suddenly the telephone:

"D-503 ?"—a woman's voice.

"Yes."

"Are you free?"

"Yes."

"It is I, I-330. I shall run over to you immediately. We shall go together to the Ancient House. Agreed?"

I-330!... This I-irritates me, repels me. She almost frightens me; but just because of that I answered, "Yes."

In five minutes we were in an aero. Blue sky of May. The bright sun in its own golden aero buzzed behind us without catching up and without

lagging behind. Ahead of us a white cataract of a cloud. Yes, a white cataract of a cloud, nonsensically fluffy like the cheeks of an ancient cupid. That cloud was disturbing. The front window was open; it was windy; lips were dry. Against one's will one passed the tongue constantly over them and thought about lips.

Already we saw in the distance the hazy green spots on the other side of the Wall. Then a slight involuntary sinking of the heart, down—down—down, as if from a steep mountain, and we were at the Ancient House.

That strange, delicate, blind establishment is covered all around with a glass shell, otherwise it would undoubtedly have fallen to pieces long ago. At the glass door we found an old woman all wrinkles, especially her mouth, which was all made up of folds and pleats. Her lips had disappeared, having folded inward; her mouth seemed grown together. It seemed incredible that she should be able to talk, and yet she did.

"Well, dear, come again to see my little house?"

Her wrinkles shone, that is, her wrinkles diverged like rays, which created the impression of shining.

"Yes" Grandmother," answered I-330.

The wrinkles continued to shine.

"And the sun, eh, do you see it, you rogue, you! I know, I know. It's all right. Go all by yourselves—I shall remain here in the sunshine.

Hmm....Apparently my companion, was a frequent guest here.

Something disturbed me, probably that unpleasant optical impression, the cloud on the smooth blue surface of the sky. While we were ascending the wide, dark stairs, I-330 said, "I love her, that old woman."

"Why?"

"I don't know. Perhaps for her mouth—or perhaps for nothing, just so."

I shrugged my shoulders. She continued walking up-stairs with a faint smile, or perhaps without a smile at all.

I felt very guilty. It is clear that there must not be "love, just so," but "love because of." For all elements of nature should be, ..

"It's clear..." I began, but I stopped at that word and cast a furtive look at I-330. Did she notice it or not? She looked somewhere, down; her eyes were closed like curtains.

It struck me suddenly: evening about twenty-two; you walk on the avenue and among the brightly lighted, transparent, cubic cells are dark spaces, lowered curtains, and there behind the curtains... What has she behind her curtains? Why did she phone me today? Why did she bring me here? and all this.

She opened a heavy, squeaking, opaque door and we found ourselves in a somber disorderly space (they called it an "apartment"). The same strange "royal" musical instrument and a wild, unorganized, crazy loudness of colors and forms like their ancient music. A white plane above, dark blue walls, red, green, orange bindings of ancient books, yellow bronze candelabra, a statue

of Buddha, furniture with lines distorted by epilepsy, impossible to reduce to any clear equation.

I could hardly bear that chaos. But my companion apparently possessed a stronger constitution.

"This is my most beloved" she suddenly caught herself (again a smile, bite, and white sharp teeth)—'to be more exact, the most nonsensical of all "apartments."

"Or, to be most exact, of all the States. Thousands of microscopic States, fighting eternal wars, pitiless like—"

"Oh, yes, it's clear," said I-330 with apparent sincerity.

We passed through a room where we found a few small children's beds (children in those days were also private property). Then more rooms, glimmering mirrors, somber closets, unbearably loud—colored divans, an enormous "fireplace," a large mahogany bed. Our contemporary beautiful, transparent, eternal glass was represented here only by pitiful, delicate, tiny squares of windows.

"And to think; here there was love 'just so'; they burned and tortured themselves." (Again the curtain of the eyes was lowered.) "What a stupid, uneconomical spending of human energy. Am I not right?"

She spoke as though reading my thoughts, but in her smile there remained always that irritating X. There behind the curtains something was going on, I don't know what, but something that made me lose my patience. I

wanted to quarrel with her, to scream at her (exactly, to scream), but I had to agree. It was impossible not to agree.

We stopped in front of a mirror. At that moment I saw only her eyes. An idea came to me: human beings are built as nonsensically as these stupid "apartments," human heads are opaque, and there are only two very small windows that lead inside, the eyes. She seemed to have guessed my thoughts; she turned around: "Well, here they are, my eyes...Well" (this suddenly, then silence).

There in front of me were two gloomy, dark windows and behind them, inside, such strange hidden life. I saw there only fire, burning like a peculiar "fireplace," and unknown figures resembling...

All this was certainly very natural; I saw in her eyes the reflection of my own face. But my feelings were unnatural and not like me. Evidently the depressing influence of the surroundings was beginning to tell on me. I definitely felt fear. I felt as if I were trapped in a strange cage. I felt that I was caught in the wild hurricane of ancient life.

"Do you know..." said I-330. "Step for a moment into the next room." Her voice came from there, from inside, from behind the dark window eyes, where the fireplace was blazing.

I went in, sat down. From a shelf on the wall there looked straight into my face, somewhat smiling, the snub-nosed, asymmetrical physiognomy of one of the ancient poets; I think it was Pushkin.

"Why do I sit here enduring this smile with such resignation, and what is

this all about? Why am I here? And why all these strange sensations, this irritating, repellent female, this strange game?"

The door of the closet slammed; there was the rustle of silk. I felt it difficult to restrain myself from getting up and, and...I don't remember exactly; probably I wanted to tell her a number of disagreeable things. But she had already appeared.

She was dressed in a short, bright-yellowish dress, black hat, black stockings. The dress was of light silk. I saw clearly very long black stockings above the knees, an uncovered neck, and the shadow between

"It's dear that you want to seem original. But is it possible that you—?"

"It is clear," interrupted I-330, "that to be original means to stand out among others; consequently, to be original means to violate the law of equality. What was called in the language of the ancients 'to be common' is with us only the fulfilling of one's duty. For—"

"Yes, yes, exactly," I interrupted impatiently, "and there is no use, no use..."

She came near the bust of the snub-nosed poet, lowered the curtain on the wild fire of her eyes, and said (this time I think she was really in earnest, or perhaps she merely wanted to soften my impatience with her, but she said a very reasonable thing):

"Don't you think it surprising that once people could stand types like this? Not only stand them, but worship them? What a slavish spirit, don't you

think so?"

"It's clear...that is...!" I wanted...(damn that cursed "it's clear!").

"Oh, yes, I understand. But in fact these poets were stronger rulers than the crowned ones. Why were they not isolated and exterminated? In our State —"

"Oh, yes, in our State—" I began.

But suddenly she laughed. I saw the laughter in her eyes. I saw the resounding sharp curve of that laughter, flexible, tense like a whip. I remember my whole body shivered. I thought of grasping her..., and I don't know what I had to do something, it mattered little what; automatically I looked at my golden badge, glanced at my watch—ten minutes to seventeen!

"Don't you think it is time to go?" I said in as polite a tone as possible.

"And if I should ask you to stay here with me?"

"What? Do you realize what you are saying? In ten minutes I must be in the auditorium."

"And all the Numbers must take the prescribed courses in art and science," said I-330 with my voice.

Then she lifted the curtain, opened her eyes—through the dark windows the fire was blazing.

"I have a physician in the Medical Bureau, he is registered to me; if I ask

him, he will give you a certificate declaring that you are ill. All right?"

Understood! At last I understood where this game was leading.

"Ah, so! But you know that every honest Number as a matter of course must immediately go to the office of the Guardians and—"

"And as a matter not of course?" (Sharp smile-bite.) "I am very curious to know: will you or will you not go to the Guardians?"

"Are you going to remain here?"

I grasped the knob of the door. It was a brass knob, a cold, brass knob, and I heard, cold like brass, her voice:

"just a minute, may I?"

She went to the telephone, called a Number (I was so upset it escaped me), and spoke loudly: "I shall be waiting for you in the Ancient House. Yes, yes, alone."

I turned the cold brass knob.

"May I take the aero?"

"Oh, yes, certainly, please!"

In the sunshine at the gate the old woman was dozing like a plant. Again I was surprised to see her grown-together mouth open, and to hear her say:

"And your lady, did she remain alone?"

"Alone."

The mouth of the old woman grew together again; she shook her head; apparently even her weakening brain understood the stupidity and the danger of that woman's behavior.

At seventeen o'clock exactly I was at the lecture. There I suddenly realized that I did not tell the whole truth to the old woman. I-330 was not there alone now. Possibly this fact, that I involuntarily told the old woman a lie, was torturing me now and distracting my attention. Yes, not alone—that was the point.

After twenty—one—thirty o'clock I had a free hour; I could therefore have gone to the office of the Guardians to make my report. But after that stupid adventure I was so tired; besides, the law provides two days. I shall have time tomorrow; I have another twenty-four hours.

RECORD SEVEN

An Eyelash

Taylor

Henbane and Lily of the Valley

Night. Green, orange, blue. The red royal instrument. The yellow dress. Then a brass Buddha. Suddenly it lifted the brass eyelids and sap began to flow from it, from Buddha. Sap also from the yellow dress. Even in the mirror, drops of sap, and from the large bed and from the children's bed and soon from myself... It is horror, mortally sweet horror!...

I woke up. Soft blue light, the glass of the walls, of the chairs, of the table was glimmering. This calmed me. My heart stopped palpitating. Sap! Buddha! How absurd! I am sick, it is clear; I never saw dreams before. They say that to see dreams was a common normal thing with the ancients. Yes, after all, their life was a whirling carousel: green, orange, Buddha, sap. But we, people of today, we know all too well that dreaming is a serious mental disease. I...Is it possible that my brain, this precise, clean, glittering mechanism, like a chronometer without a speck of dust on it, is...? Yes, it is, now. I really feel there in the brain some foreign body like an eyelash in the eye. One does not feel one's whole body, but this eye with a hair in it; one cannot forget it for a second

The cheerful, crystalline sound of the bell at my head. Seven o'clock. Time to get up. To the right and to the left as in mirrors, to the right and to the left through the glass walls I see others like myself, other rooms like my own, other clothes like my own, movements like mine, duplicated thousands of times. This invigorates me; I see myself as a part of an enormous, vigorous, united body; and what precise beauty! Not a single superfluous gesture, or bow, or turn. Yes, this Taylor was undoubtedly the greatest genius of the ancients. True, he did not come to the idea of applying his method to the whole life, to every step throughout the twenty-four hours of the day; he

was unable to integrate his system from one o'clock to twenty-four. I cannot understand the ancients. How could they write whole libraries about some Kant and take only slight notice of Taylor, of this prophet who saw ten centuries ahead?

Breakfast was over. The hymn of the United State had been harmoniously sung; rhythmically, four abreast we walked to the elevators, the motors buzzed faintly, and swiftly we went down—down—down, the heart sinking slightly. Again that stupid dream, or some unknown function of that dream. Oh, yes! Yesterday in the aero, then down—down! Well, it is all over, anyhow. Period. It is very fortunate that I was so firm and brusque with her.

The car of the underground railway carried me swiftly to the place where the motionless, beautiful body of the Integral, not yet spiritualized by fire, was glittering in the docks in the sunshine. With closed eyes I dreamed in formulae. Again I calculated in my mind what was the initial velocity required to tear the Integral away from the earth. Every second the mass of the Integral would change because of the expenditure of the explosive fuel. The equation was very complex, with transcendent figures. As in a dream I felt, right here in the firm calculated world, how someone sat down at my side, barely touching me and saying, "Pardon." I opened my eyes.

At first, apparently because of an association with the Integral, I saw something impetuously flying into the distance—a head; I saw pink wing ears sticking out on the sides of it, then the curve of the overhanging back of the head, the double-curved letter S.

Through the glass walls of my algebraic world again I felt the eyelash in

my eye. I felt something disagreeable, I felt that today I must...

"Certainly, please." I smiled at my neighbor and bowed.

I saw Number S-4711 glittering on his golden badge (that is why I associated him with the letter S, from the very first moment: an optical impression which remained unregistered by consciousness). His eyes sparkled, two sharp little drills; they were revolving swiftly, drilling in deeper and deeper. It seemed that in a moment they would drill in to the bottom and would see something that I do not even dare to confess to myself...

That bothersome eyelash became wholly clear to me. S-was one of them, one of the Guardians, and it would be the simplest thing immediately, without deferring, to tell him everything!

"I went yesterday to the Ancient House..." My voice was strange, husky, flat—I tried to cough.

"That is good. It must have given you material for some instructive deductions."

"Yes...but...You see, I was not alone; I was in the company of I-,330, and then..."

"1-330? You are fortunate. She is a very interesting, gifted woman; she has a host of admirers."

But he, too—then during the promenade...Perhaps he is even assigned as her he-Number! No, it is impossible to tell him, unthinkable. This was perfectly clear.

"Yes, yes, certainly, very." I smiled, more and more broadly, more stupidly, and felt as if my smile made me look foolish, naked.

The drills reached the bottom; revolving continually they screwed themselves back into his eyes. S- smiled double-curvedly, nodded, and slid to the exit.

I covered my face with the newspaper (I felt as if everybody were looking at me), and soon I forgot about the eyelash, about the little drills, about everything, I was so upset by what I read in the paper: "According to authentic information, traces of an organization, which still remains out of reach, have again been discovered. This organization aims at liberation from the beneficial yoke of the State."

Liberation! It is remarkable how persistent human criminal instincts are! I use deliberately the word "criminal," for freedom and crime are as closely related as—well, as the movement of an aero and its speed: if the speed of an aero equals zero, the aero is motionless; if human liberty is equal to zero, man does not commit any crime. That is clear. The way to rid man of criminality is to rid him of freedom. No sooner did we rid ourselves of freedom (in the cosmic sense centuries are only a "no sooner") than suddenly some unknown pitiful degenerates...No, I cannot understand why I did not go immediately yesterday to the Bureau of Guardians. Today, after sixteen o'clock, I shall go without fail.

At sixteen-ten I was in the street; at once I noticed O-90 at the corner; she was all rosy with delight at the encounter. She has a simple, round mind.

A timely meeting; she would understand and lend me support. Or, no, I did not need any support; my decision was firm.

The pipes of the Musical Tower thundered out harmoniously the March—the same daily March. How wonderful the charm of this dailiness, of this constant repetition and mirror-like smoothness!

"Out for a walk?" Her round blue eyes opened toward me widely, blue windows leading inside; I penetrate there unhindered; there is nothing in there, I mean nothing foreign, nothing superfluous.

"No, not for a walk. I must go." I told her where. And to my astonishment I saw her rosy round mouth form a crescent with the horns downward as if she tasted something sour. This angered me.

"You she—Numbers seem to be incurably eaten up by prejudices. You are absolutely unable to think abstractly. Forgive me the word, but this I call bluntness of mind."

"You?... to the spies? How ugly! And I went to the Botanical Garden and brought you a branch of lily of the valley..."

"Why 'and I'? Why this 'and'? just like a woman!"

Angrily (this I must confess), I snatched the flowers. "Here they are, your lilies of the valley. Well, smell them! Good? Yes? Why not use a little bit of logic? The lilies of the valley smell good; all right! But you cannot say about an odor, about the conception of an odor, that it is good or bad, can you? You can't, can you? There is the smell of lilies of the valley, and there is

the disagreeable smell of henbane. Both are odors. The ancient States had their spies; we have ours..., yes, spies! I am not afraid of words. But is it not clear to you that there the spies were henbane; here they are lilies of the valley? Yes, lilies of the valley. Yes!"

The rosy crescent quivered. Now I understand that it was only my impression, but at that moment I was certain she was going to laugh. I shouted still louder:

"Yes, lilies of the valley! And there is nothing funny about it, nothing funny!"

The smooth round globes of heads passing by were turning toward us. O-90 gently took my hand.

"You are so strange today..., are you ill?"

My dream....Yellow color....Buddha....It was at once home clearly upon me that I must go to the Medical Bureau.

"Yes, you are right, I am sick," I said with joy (that seems to me an inexplicable contradiction; there was nothing to be joyful about).

"You must go at once to the doctor. You understand that; you are obliged to be healthy; it seems strange to have to prove it to you."

"My dear O-, of course you are fight..Absolutely fight."

I did not go to the Bureau of Guardians; I could not; I had to go to the Medical Bureau; they kept me there until seventeen o'clock.

In the evening (incidentally, the Bureau of Guardians is closed evenings) —in the evening O- came to see me. The curtains were not lowered. We busied ourselves with the arithmetical problems of an ancient textbook. This occupation always calms and purifies our thoughts. O- sat over her notebook, her head slightly inclined to the left; she was so assiduous that she poked out her left cheek with the tongue from within. She looked so child-like, so charming....I felt everything in me was pleasant, precise, and simple.

She left. I remained alone. I breathed deeply two times (it is very good exercise before retiring for the night). Suddenly—an unexpected odor reminiscent of something very disagreeable! I soon found out what was the matter: a branch of lily of the valley was hidden in my bed. Immediately everything was aroused again, came up from the bottom. Decidedly, it was tactless on her part to put these lilies of the valley there surreptitiously. Well, true I did not go; I didn't, but was it my fault that I had felt indisposed?

RECORD EIGHT

An Irrational Root

R—13

The Triangle

It was long ago, during my school days, when I first encountered the square root of minus one. I remember it all very clearly: a bright globelike class hall, about a hundred round heads of children, and Plappa—our mathematician. We nicknamed him Plappa; it was a very much used-up mathematician, loosely screwed together; as the member of the class who was on duty that day would put the plug into the socket behind, we would hear at first from the loud-speaker, "Plap—plap—plap—plap—tshshsh...." Only then the lesson would follow. One day Plappa told us about irrational numbers, and I remember I wept and banged the table with my fist and cried, "I do not want that square root of minus one; take that square root of minus one away!" This irrational root grew into me as something strange, foreign, terrible; it tortured me; it could not be thought out. It could not be defeated because it was beyond reason.

Now, that square root of minus one is here again. I read over what I have written and I see clearly that I was insincere with myself, that I lied to myself in order to avoid seeing that square root of minus one. My sickness is all nonsense! I could go there. I feel sure that if such a thing had happened a week ago I should have gone without hesitating. Why, then, am I unable to go now?...Why?

Today, for instance, at exactly sixteen-ten I stood before the glittering Glass Wall. Above was the shining, golden, sun-like sign: "Bureau of Guardians." Inside, a long queue of bluish-gray unifs awaiting their turns, faces shining like the oil lamps in an ancient temple. They had come to accomplish a great thing: they had come to put on the altar of the United State their beloved ones, their friends, their own selves. My whole being

craved to join them, yet...I could not; my feet were as though melted into the glass plates of the sidewalk. I simply stood there looking foolish.

"Hey, mathematician! Dreaming?"

I shivered. Black eyes varnished with laughter looked at me—thick Negro lips! It was my old friend the poet, R-13, and with him rosy O-. I turned around angrily (I still believe that if they had not appeared I should have entered the Bureau and have torn the square root of minus one out of my flesh).

"Not dreaming at all. If you will, 'standing in adoration,'" I retorted quite brusquely.

"Oh, certainly, certainly! You, my friend, should never have become a mathematician; you should have become a poet, a great poet! Yes, come over to our trade, to the poets. Eh? If you will, I can arrange it in a jiffy. Eh?"

R-13 usually talks very fast. His words run in torrents, his thick lips sprinkle. Every "p" is a fountain, every "poets" a fountain.

"So far I have served knowledge, and I shall continue to serve knowledge."

I frowned. I do not like, I do not understand jokes, and R-13 has the bad habit of joking.

"Oh, to the deuce with knowledge. Your much-heralded knowledge is but a form of cowardice. It is a fact! Yes, you want to encircle the infinite with a wall, and you fear to cast a glance behind the wall. Yes, sir! And if

ever you should glance beyond the wall, you would be dazzled and close your eyes—yes—"

"Walls are the foundation of every human," I began.

R-13 sprinkled his fountain. O- laughed rosily and roundly. I waved my hand. "Well, you may laugh, I don't care." I was busy with something else. I had to find a way of eating up, of crushing down, that square root of minus one. "Suppose," I offered, "we go to my place and do some arithmetical problems." (The quiet hour of yesterday afternoon came to my memory; perhaps today also)

O- glanced at R-, then serenely and roundly at me; the soft, endearing color of our pink checks came to her cheeks.

"But today I am... I have a check to him today." (A glance at R-.) "And tonight he is busy, so..."

The moist, varnished lips whispered good-naturedly: "Half an hour is plenty for us, is it not, O-? I am not a great lover of your problems; let us simply go over to my place and chat."

I was afraid to remain alone with myself or, to be more correct, with that strange new self who by some curious coincidence bore my number, D-503. So I went with R-. True, he is not precise, not rhythmic, his logic is jocular and turned inside out, yet we are... Three years ago we both chose our dear, rosy O-. This tied our friendship more firmly together than our school days did. In R-'s room everything seems like mine: the Tables, the glass of the chairs, the table, the closet, the bed. But as we entered, R- moved one chair

out of place, then another—the room became confused, everything lost the established order and seemed to violate every rule of Euclid's geometry, R- remained the same as always; in Taylor and in mathematics he always lagged at the tail of the class.

We recalled Plappa, how we boys used to paste the whole surface of his glass legs with paper notes expressing our thanks (we all loved Plappa). We recalled our priest (it goes without saying that we were not taught the "law" of ancient religion but the law of the United State). Our priest had a very powerful voice; a real hurricane would come out of the loud-speaker. And we children would yell the prescribed texts after him with all our lung power. We recalled how our scapegrace, R-13, used to stuff the priest with chewed paper; every word was thus accompanied by a paper wad shot out. Naturally, R- was punished, for what he did was undoubtedly wrong, but now we laughed heartily—by we I mean our triangle, R-, O-, and I. I must confess, I, too.

"And what if he had been a living one? Like the ancient ones, eh? We'd have b...b..." a fountain running from the fat bubbling lips. The sun was shining through the ceiling, the sun above, the sun from the sides, its reflection from below. O- on R-13's lap and minute drops of sunlight in O-'S blue eyes. Somehow my heart warmed up. The square root of minus one became silent and motionless

"Well, how is your Integral? Will you soon hop off to enlighten the inhabitants of the planets? You'd better hurry up, my boy, or we poets will have produced such a devilish lot that even your Integral will be unable to lift the cargo. 'Every day from eight to eleven'..." R- wagged his head and

scratched the back of it. The back of his head is square; it looks like a little valise (I recalled for some reason an ancient painting "In the Cab"). I felt more lively.

"You, too, are writing for the Integral? Tell me about it. What are you writing about? What did you write today, for instance?"

"Today I did not write; today I was busy with something else." ("B-b-busy" sprinkled straight into my face.)

"What else?"

R- frowned. "What? What? Well, if you insist I'll tell you. I was busy with the Death Sentence. I was putting the Death Sentence into verse. An idiot—and to be frank, one of our poets For two years we all lived side by side with him and nothing seemed wrong. Suddenly he went crazy. 'I,' said he, 'am a genius! and I am above the law.' All that sort of nonsense....But it is not a thing to talk about."

The fat lips hung down. The varnish disappeared from the eyes. He jumped up, turned around, and stared through the wall. I looked at his tightly closed little "valise" and thought, "What is he handling in his little valise now?"

A moment of awkward, asymmetric silence. I could not see clearly what was the matter, but I was certain there was something

"Fortunately the antediluvian time of those Shakespeares and Dostoevskys (or what were their names?) is past," I said in a voice

deliberately loud.

R- turned his face to me. Words sprinkled and bubbled out of him as before, but I thought I noticed there was no more joyful varnish to his eyes.

"Yes, dear mathematician, fortunately, fortunately. We are the happy arithmetical mean. As you would put it, the integration from zero to infinity, from imbeciles to Shakespeare. Do I put it right?"

I do not know why (it seemed to me absolutely un— called for) I recalled suddenly the other one, her tone. A thin, invisible thread stretched between her and R— (what thread?). The square root of minus one began to bother me again. I glanced at my badge; sixteen—twenty— five o'clock! They had only thirty—five minutes for the use of the pink check.

"Well, I must go." I kissed O—, shook hands with R—, and went to the elevator.

As I crossed the avenue I turned around. Here and there in the huge mass of glass penetrated by sunshine there were grayish—blue squares, the opaque squares of lowered curtains, the squares of rhythmic, Taylorized happiness. On the seventh floor I found R—13's square. The curtains were already lowered.

Dear O-....Dear R-....He also has (I do not know why I write this "also," but I write as it comes from my pen), he, too, has something which is not entirely dear in him. Yet I, he, and O-, we are a triangle; I confess, not an isosceles triangle, but a triangle nevertheless. We, to speak in the language of our ancestors (perhaps to you, my planetary readers, this is the more

comprehensible language), we are a family. And one feels so good at times, when one is able for a short while, at least, to close oneself within a firm triangle, to close oneself away from anything that...

RECORD NINE

Liturgy

Iambus

The Cast—iron Hand

A solemn, bright day. On such days one forgets one's weaknesses, inexactitudes, illnesses, and everything is crystalline and imperturbable like our new glass

The Plaza of the Cube. Sixty-six imposing concentric circles-stands. Sixty-six rows of quiet, serene faces. Eyes reflecting the shining of the sky, or perhaps it is the shining of the United State. Red like blood are the flowers—the lips of the women. Like soft garlands the faces of the children in the first rows, nearest the place of action. Profound, austere, Gothic silence.

To judge by the descriptions that reach us from the ancients, they felt somewhat like this during their "church services." But they served their

nonsensical, unknown god; we serve our rational god, whom we know most thoroughly. Their god gave them nothing but eternal, torturing seeking; our god gives us absolute truth—that is, he has rid us of any kind of doubt. Their god did not invent anything cleverer than sacrificing oneself, nobody knows what for; we bring to our god, the United State, a quiet, rational, carefully thought-out sacrifice.

Yes, it was a solemn liturgy for the United State, a reminiscence of the great days, years, of the Two Hundred Years' War—a magnificent celebration of the victory of all over one, of the sum over the individual!

That one stood on the steps of the Cube which was filled with sunlight. A white, no not even white but already colorless, glass face, lips of glass. And only the eyes—thirsty, swallowing black holes leading into that dreadful world from which he was only a few minutes away. The golden badge with the number already had been taken off. His hands were tied with a red ribbon. (A symbol of ancient custom. The explanation of it is that in the old days, when this sort of thing was not done in the name of the United State, the convicted naturally considered that they had the right to resist, hence their hands were usually bound with chains.)

On the top of the Cube, next to the Machine, the motionless, metallic figure of him whom we call the Well-Doer. One could not see his face from below. All one could see was that it was bounded by austere, magnificent, square lines. And his hands....Did you ever notice how sometimes in a photograph the hands, if they were too near the camera, appear to be enormous? They then compel your attention, overshadow everything else. Those hands of his, heavy hands, quiet for the time being, were stony hands

—it seemed the knees on which they rested must have ached in bearing their weight.

Suddenly one of those hands rose slowly. A slow, cast-iron gesture; obeying the will of the lifted hand, a Number came out on the platform. It was one of the State poets, whose fortunate lot it was to crown our celebration with his verses.

Divine, iambic brass verses thundered over the many stands. They dealt with the man who, his reason lost and lips like glass, stood on the steps and waited for the logical consequences of his own insane deeds.

...A blaze....Buildings were swaying in those iambic lines, and sprinkling upward their liquefied golden substance, they broke and fell. The green trees were scorched, their sap slowly ran out and they remained standing like black crosses, like skeletons. Then appeared Prometheus (that meant us):

"...he harnessed fire

With machines and steel

And fettered chaos with Law..."

The world was renovated; it became like steel—a sun of steel, trees of steel, men of steel. Suddenly an insane man "unchained the fire and set it free," and again the world had perished.....Unfortunately I have a bad memory for poetry, but one thing I am sure of: one could not choose more instructive or more beautiful parables.

Another slow, heavy gesture of the cast-iron hand and another poet appeared on the steps of the Cube. I stood up. Impossible! But...thick Negro lips—it was he. Why didn't he tell me that he was to be invested with such high... His lips trembled; they were gray. Oh, I certainly understood; to be face to face with the Well-Doer, face to face with the hosts of Guardians! Yet one should not allow oneself to be so upset.

Swift, sharp verses like an ax....They told about an unheard-of crime, about sacrilegious poems in which the Well-Doer was called....But no, I do not dare to repeat....

R-13 was pale when he finished, and looking at no one (I did not expect such bashfulness of him) he descended and sat down. For an infinitesimal fraction of a second I saw right beside him somebody's face—a sharp, black triangle—and instantly I lost it; my eyes, thousands of eyes, were directed upward toward the Machine. Then—again the superhuman, cast-iron, gesture of the hand.

Swayed by an unknown wind, the criminal moved; one step...one more...then the last step in his life. His face was turned to the sky, his head thrown back—he was on his last....Heavy, stony like fate, the Well-Doer went around the machine, put his enormous hand on the lever....Not a whisper, not a breath around; all eyes were upon that hand....What crushing, scorching power one must feel to be the tool, to be the resultant of hundreds of thousands of wills! How great his lot!

Another second. The hand moved down, switching in the current. The lightning-sharp blade of the electric ray....A faint crack like a shiver, in the

tubes of the Machine....The prone body, covered with a light phosphorescent smoke; then, suddenly, under the eyes of all, it began to melt—to melt, to dissolve with terrible speed. And then nothing; just a pool of chemically pure water which only a moment ago had been so red and had pulsed in his heart....

All this was simple; all of us were familiar with the phenomenon, dissociation of matter—yes, the splitting of the atoms of the human body! Yet every time we witnessed it, it seemed a miracle; it was a symbol of the superhuman power of the Well-Doer.

Above, in front of Him, the burning faces of the female Numbers, mouths half-open from emotion, flowers swaying in the wind.[\[8\]](#)According to custom, ten

women were covering with flowers the unif of the Well-Doer, which was still wet with spray. With the magnificent step of a supreme priest He slowly descended, slowly passed between the rows of stands. Like tender white branches there rose toward Him the arms of the women; and, millions like one, our tempestuous cheers! Then cheers in honor of the Guardians, who all unseen were present among us....Who knows, perhaps the fancy of the ancient man foresaw them centuries ahead, when he created the gentle and formidable "Guardian Angels" assigned to each person from the day Of his birth?

[\[8\]](#)These flowers naturally were brought from the Botanical Museum. I, personally, am unable to see anything beautiful in flowers, or in anything else that belongs to the lower kingdom which now exists only beyond the Green

Wall. Only rational and useful things are beautiful: machines, boots, formulae, food, etc.

Yes, there was in our celebration something of the ancient religions, something purifying like a storm.... You whose lot it may be to read this, are you familiar with such emotions? I am sorry for you if you are not.

RECORD TEN

A Letter

A Membrane

Hairy I

Yesterday was for me, like the filter paper that chemists use for filtering their solutions (all suspended and superfluous particles remain on the paper). This morning I went downstairs all purified and distilled, transparent.

Downstairs in the hall the controller sat at a small table, constantly looking at her watch and recording the Numbers who were leaving. Her name is U—....well, I prefer not to give her Number, for I fear I may not write kindly about her—although, as a matter of fact, she is a very respectable, mature woman. The only thing I do not like in her is that her cheeks fold

down a little like the gills of a fish (although I don't see anything wrong in this appearance). She, scratched with her pen and I saw on page "D-503" — and suddenly, splash! an ink blot. No sooner did I open my mouth to call her attention to that than she raised her head and blotted me with an inky smile. "There is a letter for you. You will receive it, dear. Yes, yes, you will."

I knew a letter, after she had read it, must go through the Bureau of Guardians (I think it is unnecessary to explain in detail this natural order of things); I would receive it not later than twelve o'clock. But that tiny smile confused me; the drop of ink clouded the transparency of the distilled solution. At the Integral's dock I could not concentrate; I even made a mistake in my calculations, something that had never happened to me before.

At twelve o'clock, again the rosy-brown fish gills' smile, and at last the letter was in my hands. I cannot say why I did not read it right there; instead, I put it in my pocket and ran into my room. I opened it, scanned it quickly, and...sat down. It was an official notice to the effect that Number I-330 had had me assigned to her, and that today at twenty-one o'clock I was to go to her. Her address was given.

No! After all that had happened! After I had shown her frankly my attitude toward her! Besides, how could she know that I did not go to the Bureau of Guardians? She had no way of knowing that I have been ill and could not....And despite all this..."

A dynamo was whirling and buzzing in my head. Buddha....yellow....lilies of the valley...rosy crescent....Besides-besides, O-wanted to come to see me today! I was sure she would not believe (how

could one believe?) that I had absolutely nothing to do with the matter, that... I was also sure that we (O- and I) would have a difficult, foolish, and absolutely illogical conversation. No, anything but that! Let the situation solve itself mechanically; I would send her a copy of the official communication.

While I was hastily putting the paper in my pocket, I noticed my terrible ape-like hand. I remembered how that day, during our walk, she had taken my hand and looked at it. Is it possible that she really...that she...

A quarter to twenty-one. A white northern night. Everything was glass, greenish. But it was a different kind of glass, not like ours, not genuine but very breakable, a thin glass shell, and within that shell things were flying, whirling, buzzing. I wouldn't have been surprised if suddenly the cupola of the auditorium had risen in slow, rolling clouds of smoke; or if the ripe moon had sent an inky smile, like that one at the little table this morning; or if in every house suddenly all the curtains had been lowered, and behind the curtains...

I felt something peculiar; my ribs were like iron bars that interfered, decidedly interfered, with my heart, giving it too little space. I stood at a glass door on which were the golden letters I-330. I-330 sat at the table with her back to me; she was writing something. I stepped in.

"Here"—I held out the pink check—"I received the notice this noon and here I am!"

"How punctual you are! Just a minute, please, may I? Sit down. I shall

finish in a minute."

She lowered her eyes to the letter. What had she there, behind her lowered curtains? What would she say? What would she do in a second? How to learn it? How to calculate it, since she comes from beyond, from the wild, ancient land of dreams? I looked at her in silence. My ribs were iron bars. The space for the heart was too small....When she speaks, her face is like a swiftly revolving, glittering wheel; you cannot see the separate bars. But at that moment the wheel was motionless. I saw a strange combination: dark eyebrows running right to the temples—a sharp, mocking triangle; and still another dark triangle with its apex upward—two deep wrinkles from the nose to the angles of the mouth. And these two triangles somehow contradicted each other. They gave the whole face that disagreeable, irritating X, or cross—a face marked obliquely by a cross.

The wheel started to turn; its bars blurred.

"So you did not go to the Bureau of Guardians, after all?"

"I did... I did not feel well...I could not."

"Yes? I thought so; something must have prevented you, it matters little what"—sharp teeth—a smile. "But now you are in my hands. You remember: 'Any Number who within forty-eight hours fails to report to the Bureau is considered...'"

My heart banged so forcibly that the iron bars bent. If I were not sitting...like a little boy, how stupid! I was caught like a little boy, and stupidly I kept silent. I felt I was in a net; neither my legs nor my arms...

She stood up and stretched herself lazily. She pressed the button, and the curtains on all four walls fell with a slight rustle. I was cut off from the rest of the world, alone with her.

She was somewhere behind me, near the closet door. The unif was rustling, falling. I was listening, all listening. I remembered—no, it glistened in my mind for one hundredth of a second—I once had to calculate the curve of a new type of street membrane. (These membranes are handsomely decorated and are placed over all the avenues, registering all street conversations for the Bureau of Guardians.) I remembered a rosy, concave, trembling membrane, a strange being consisting of one organ only, an ear. I was at that moment such a membrane.

Now the "click" of the snap at her collar, at her breast, and...lower. The glassy silk rustled over her shoulders and knees, over the floor. I heard—and it was clearer than actually seeing—I heard how one foot stepped out of the grayish-blue heap of silk, then the other....Soon I'd hear the creak of the bed, and...

The tensely stretched membrane trembled and registered the silence—no, the sharp, hammerlike blows of the heart against the iron bars, and endless pauses between beats. And I heard, saw, how she, behind me, hesitated for a second, thinking. The door of the closet....It slammed; again silk...silk...

"Well, all right."

I turned around. She was dressed in a saffron-yellow dress of an ancient

style. This was a thousand times worse than if she had not been dressed at all. Two sharp points glowing with rosiness through the thin tissue; two burning embers piercing through ashes; two tender, round knees...

She was sitting in a low armchair. In front of her on a small square table I noticed a bottle filled with something poisonously green, and two small glasses with thin stems. In the corner of her mouth she had a very thin paper tube; she was ejecting smoke formed by the burning of that ancient smoking substance whose name I do not now remember,

The membrane was still vibrating. Within, the sledge hammer was pounding the red-hot iron bars of my chest. I heard distinctly every blow of the hammer, and...What if she, too, heard it?

But she continued to produce smoke very calmly; calmly she looked at me; and nonchalantly she flicked ashes on the pink check!

With as much self-control as possible I asked, "If you still feel that way, why did you have me assigned to you? And why did you make me come here?"

As if she had not heard at all, she poured some of the green liquid from the bottle into one of the small glasses, and sipped it.

"Wonderful liqueur! Want some?"

Then I understood: alcohol! Like lightning there came to memory what I had seen yesterday: the stony hand of the Well-Doer, the unbearable blade of the electric ray; there on the Cube, the head thrown back, the stretched-out

body! I shivered.

"Please listen," I said. "You know, do you not, that anyone who poisons himself with nicotine, and more particularly with alcohol, is severely treated by the United State?"

Dark brows raised high to the temples, the sharp mocking triangle.

"It is more reasonable to annihilate a few than to allow many to poison themselves....And degeneration,'...etc....This is true to the point of indecency."

"Indecency?"

"Yes. To let out into the street such a group of bald-headed, naked little truths. Only imagine, please. Imagine, say, that persistent admirer of mine—S —, well, you know him. Then imagine: if he should discard the deception of clothes and appear in public in his true form....Oh!" She laughed. But I clearly saw her lower, sorrowful triangle: two deep grooves from the nose to the mouth. And for some reason these grooves made me think: that double-curved being, half-hunched, with winglike ears—he embraced her? Her, such...Oh!

Naturally, I try now merely to express my abnormal feelings of that moment. Now, as I write, I understand perfectly that all this is as it should be; that he, S-4711, like any other honest Number, has a perfect right to the joys of life, and that it would be unjust....But I think the point is quite clear.

I-330 laughed a long, strange laugh. Then she cast a look at me, into me.

"The most curious thing is that I am not in the least afraid of you. You are such a dear, I am sure of it! You would never think of going to the Bureau and reporting that I drink liqueurs and smoke. You will be sick or busy, or I don't know what...Furthermore, I am sure you will drink this charming poison with me."

What an impertinent, mocking tone! I felt definitely that in a moment I would hate her. (Why in a moment? In fact, I hated her all the time.)

I-330 tilted the little glass of green poison straight into her mouth. Then she stood up, and all rosy through the translucent saffron-yellow tissue, she made a few steps and stopped behind my chair...Suddenly her arms were about my neck...her lips grew into mine, no, even somewhere much deeper, much more terribly....I swear all this was very unexpected for me. That is why perhaps...for I could not—at this moment I see clearly— I could not myself have the desire to...

Unbearably sweet lips. (I suppose it was the taste of the liqueur.) It was as though burning poison were being poured into me, and more, and more

I tore away from the earth and began revolving as an independent planet, down, down, following an incalculable curve

What happened next I am able to describe only in an approximate way, only by way of more or less suitable analogies.

It never occurred to me before but it is true: we who live on the earth, we are always walking over a seething red sea of fire which is hidden in the womb of the earth. We never think of it. But imagine the ground under our

feet suddenly transformed into a thin glass shell; suddenly we should behold...!

I became glass-like and saw within myself. There were two selves in me. One, the former D-503, Number D-503; and the other...Before, that other used only to show his hairy paws from time to time, but now that whole other self left his shell. That shell was breaking, and in a moment...

Grasping the last straw (the arms of the chair) with all my strength, I asked loudly (so as to hear my first self), 'Where, where did you get this poison?'

"Oh, this? A physician, one of my..."

"One of my? one of my' what?" And my other self jumped up suddenly and yelled: "I won't allow it! I want no one but me...I shall kill anyone who...Because I...You..."I saw my other self grasp her rudely with his hairy paws, tear the silk, and put his teeth in her flesh!...I remember exactly, his teeth!...

I do not remember how, but I-330 slipped away and I saw her straighten, her head raised high, her eyes overlaid by that cursed, impenetrable curtain. She stood leaning with her back against the closet door and listening to me.

I remember I was on the floor; I embraced her limbs, kissed her knees, and cried supplicatingly, "At once, fight away, fight away."

Sharp teeth...The sharp, mocking triangle of the brows...She bent over and in silence unbuttoned my badge.

"Yes, yes, dear——dear."

I began hastily to remove my unif. But I-330, silent as before, lifted my badge to my eyes, showing me the clock upon it. It was twenty-two—twenty-five.

I became cold. I knew what it meant to be out in the street after twenty-two-thirty. My insanity disappeared at once. I was again I. I saw clearly one thing: I hated her, hated her, hated... Without saying good-by, without looking back, I ran out of the room. Hurriedly trying to fasten the badge back in its place, I ran down the stairs (I was afraid lest someone notice me in the elevator), and tore out into a deserted street.

Everything was in its place; life so simple, ordinary, orderly. Glittering glass houses, pale glass sky, a greenish, motionless night. But under that cool glass something wild, something red and hairy, was silently seething. I was gasping for breath, but I continued to run so as not to be late.

Suddenly I felt that my badge which I had hurriedly pinned on was detaching itself; it came off and fell to the sidewalk. I bent over to pick it up and in the momentary silence I heard somebody's steps. I turned. Someone small and hunched was disappearing around the corner. At least so it seemed, I started to run as fast as I could. The wind whistled in my ears. At the entrance to my house I stopped and looked at the clock; one minute to twenty-two-thirty! I listened; nobody behind. It was my foolish imagination, the effect of the poison.

The night was full of torture. My bed seemed to lift itself under me, then

to fall again, then up again! I used autosuggestion: "At night all the Numbers must sleep; sleeping at night is a duty just like working during the day. To sleep at night is necessary for the next day's work. Not to sleep at night is criminal." Yet I could not sleep—I could not. I was perishing! I was unable to fulfill my duties to the United State! I...

RECORD ELEVEN

No, I Can't; Let It Be without Headings!

Evening. It is somewhat foggy. The sky is covered with a milky-golden tissue, and one cannot see what is there, beyond, on the heights. The ancients "knew" that the greatest, bored skeptic-their god-lived there. We know that crystalline, blue, naked, indecent .Nothing is there. I no longer know what is there. I have learned too many things of late. Knowledge, self-confident knowledge, which is sure that it is faultless, is faith. I had firm faith in myself; I believed that I knew all about myself. But then...I look in the mirror. And for the first time in my life, yes,for the first time in my life I see clearly, precisely, consciously and with surprise, I see myself as some "him"! I am "he." Frowning, black, straight brows; between them, like a scar, there is a vertical wrinkle. (Was that wrinkle there before?) Steel-gray eyes encircled by the shadow of a sleepless night. And behind that steel...I understand; I never knew before what there was behind that steel. From there (this "there"

is at once so near and so infinitely distant!) I look at myself—at "him." And I know surely that "he" with his straight brows is a stranger, that I meet him here for the first time in my life. The real I is not he.

No. Period. All this is nonsense. And all these foolish emotions are only delirium, the result of last night's poisoning....Poisoning with what? With a sip of that green poison, or with her? It matters little. I write all this merely in order to demonstrate how strangely confused our precise and sharp human reason may become. This reason, strong enough to make infinity, which the ancients feared so much, understandable by means of....The switch buzzes. "Number R-13." Well, I am even glad; alone I should...

Twenty minutes later:

On the plane of this paper, in a world of two dimensions, these lines follow each other, but in another world they....I am losing the sense for figures...Twenty minutes! Perhaps two hundred or two hundred thousand!...

It seems so strange, quietly, deliberately, measuring every word, to write down my adventure with R-. Imagine yourself sitting down at your own bed, crossing your legs, watching curiously how you yourself shrivel in the very same bed. My mental state is similar to that.

When R-13 came in , I was perfectly quiet and normal. With sincere admiration I began to tell him how wonderfully he succeeded in versifying the death sentence of that insane man, and that his poem, more than anything else, had smothered and annihilated the transgressor of the law.

"More than that," I said, "if I were ordered to prepare a mathematical

draft of the Machine of the Well-Doer, I should undoubtedly, undoubtedly, put on that draft some of your verses!" Suddenly I saw R-'s eyes becoming more and more opaque, his lips acquiring a gray tint.

"What's the matter?"

"What? Well...Merely that I am dead sick of it. Everybody keeps on: 'The death sentence, the death sentence!' I want to hear no more of it! You understand? I do not want..." He became serious, rubbing his neck—that little valise filled with luggage which I cannot understand. A silence. There! He found something in that little valise of his, removed it, unwrapped it, spread it out; his eyes became covered with the varnish of laughter. He began:

"I am writing something for your Integral. Yes....I am! " He was himself again: bubbling, sprinkling lips, words splashing like a fountain.

"You see, it is the ancient legend of paradise." ("p" like a fountain.) "That legend referred to us of today, did it not? Yes. Only think of it, think of it a moment! There were two in paradise and the choice was offered to them: happiness without freedom, or freedom without happiness. No other choice. Tertium, non datur. They, fools that they were, chose freedom. Naturally, for centuries afterward they longed for fetters, for the fetters of yore. This was the meaning of their world weariness, Welts-chmerz. For centuries! And only we found a way to regain happiness....No, listen, follow me! The ancient god and we, side by side at the same table! Yes, we helped god to defeat the devil definitely and finally. It was he, the devil, who led people to transgression, to taste pernicious freedom—he, the cunning serpent. And we came along, planted a boot on his head, and ...squash! Done with him! Paradise again! We

returned to the simple- mindedness and innocence of Adam and Eve. No more meddling with good and evil and all that; everything is simple again, heavenly, childishly simple! The Well-Doer, the Machine, the Cube, the giant Gas Bell, the Guardians—all these are good. All this is magnificent, beautiful, noble, lofty, crystalline, pure. For all this preserves our non-freedom, that is, our happiness. In our place those ancients would indulge in discussions, deliberations, etc. They would break their heads trying to make out what was moral or unmoral. But we ...Well, in short, these are the highlights of my little paradise poem. What do you think of it? And above all the style is most solemn, pious. Understand me? Nice little idea, is it not? Do you understand?"

Of course I understood. I remember my thoughts at that moment: "His appearance is nonsensical and lacking in symmetry, yet what an orderly-working mind he has!" This made him dear to me, that is to the real me. (I still insist that that I of before is the real one; my I of late is, certainly, only an illness.)

Apparently R-read my thought in my face; he put his hand on my shoulders and laughed: "Oh, you!...Adam. By the way, about Eve..." He searched for something in his pockets, took out a little book, turned over a few leaves, and said, "For the day after tomorrow—oh, no, two days from now—O-90 has a pink check on you. How about it? ...As before? ... You want her to?"

"Of course, of course.

"All right then, I'll tell her. You see she herself is very bashful ...What a

funny story! You see, for me she has only a pink-check affection, but for you ...And you, you did not even come to tell us how a fourth member sneaked into our triangle! Who is it? Repent, sinner! Come on!"

A curtain arose inside me; rustle of silk, green bottle, lips ... For no reason whatsoever I exclaimed (oh, why didn't I restrain myself at that moment?), "Tell me, R-, did you ever have an opportunity to try nicotine or alcohol?"

R- sucked in his lips, looked at me from under his brows. I distinctly heard his thoughts: "Friend though he is, yet..."And he answered:

"What shall I say? Strictly speaking, no. But I know a woman ..."

"I-330?" I cried.

"What! You? You, also?" R- was full of laughter; he chuckled, ready to splash over.

My mirror was hanging in such a way that in order to see R- clearly I had to turn and look across the table. From my armchair I could see now only my own forehead and eyebrows. Then I, the real I, suddenly saw in the mirror a broken, quivering line of brow; I, the real I, heard suddenly a wild, disgusting cry: "What? What does that 'also' mean? What does that 'also' mean? I demand..."

Widely parted Negro lips...Eyes bulging, I (the real I) grasped my other wild, hairy, heavily breathing self forcibly. I (the real I) said to him, to R-, "In the name of the Well-Doer, please forgive me. I am very sick; I don't sleep; I

do not know what is the matter with me."

A swiftly passing smile appeared on the thick lips.

"Yes, yes, I understand, I understand. I am familiar with all this—
theoretically, of course. Good-by."

At the door he turned around like a little black ball, came back to the table and put a book upon it. "This is my latest book. I came to bring it to you. Almost forgot. Good-by." ("b" like a splash.) The little ball rolled out.

I am alone. Or, to be more exact, I am tete-a-tete with that other self. I sit in the armchair and, having crossed my legs, I watch curiously from some indefinite "there" how I, myself, am shriveling in my bed!

Why, oh, why is it, that for three years R-, O-, and I were so friendly together and now suddenly—one word only about that other female, about I-330, and...Is it possible that that insanity called love and jealousy does What seems most strange is that I, I! ... Equations, formulae, figures, and suddenly this! I can't understand it, I can't! Tomorrow I shall go to R- and tell him... No, it isn't true; I shall not go; neither tomorrow nor day after tomorrow, nor ever... I can't, I do not want to see him. This is the end. Our triangle is broken up.

I am alone. It is evening. There is a light fog. The sky is covered by a thin, milky-golden tissue. If I only knew what is there—higher. If I only knew who I am. Which I am I?

RECORD TWELVE

The Delimitation of the Infinite

Angel

Meditations on Poetry

I continue to believe that I shall recover, that I may recover. I slept very well. No dreams or any other symptoms of disease. Dear O-90 will come tomorrow. Everything will again be simple, regular, and limited like a circle. I am not afraid of this word "limited." The work of the highest faculty of man, judgment, is always directed toward the constant limiting of the infinite, toward the breaking up of the infinite into comfortably digestible portions, differentials. This is what gives divine beauty to my vocation, mathematics. And it is exactly this beauty that that other female lacks. But this last thought of mine is only an accidental mental association.

These thoughts swarmed in my mind while I was listening to the regular, rhythmic sounds of the underground railway. Silently I followed the rhythm of its wheels and recited to myself R-'s verses (from the book which he gave me yesterday), and I felt that behind me someone was leaning over my shoulder and looking at the open pages. I did not turn around but with the corner of my eye I noticed pink ears, spread like wings, the double-curved... like me letter....It was he, but I did not want to disturb him. I feigned not to

have noticed him. How he came in, I do not know. I did not see him when I got into the car.

This incident, insignificant in itself, had an especially good effect upon me; it invigorated me, I should say. It is pleasant to feel that somebody's penetrating eye is watching you from behind your shoulder, lovingly guarding you from making the most minute mistake, from the most minute incorrect step. It may seem to you too sentimental, but I do see in all this the materialization of the dream of the ancients about a Guardian Angel. How many things, of which the ancients had only dreams, are materialized in our life!

At the moment when I became aware of the presence of the Guardian Angel behind me, I was enjoying a poem entitled "Happiness." I think I am not mistaken when I say that it is a piece of rare beauty and depth of thought. These are the first four lines:

Two times two—eternal lovers;

Inseparable in passion four...

Most flaming lovers in the world,

Eternally welded, two times two.

And the rest is in the same vein: on the wisdom and the eternal happiness of the multiplication table. Every poet is inevitably a Columbus. America existed before Columbus for ages, but only Columbus found it. The multiplication table existed before R-13 for ages, but only R-13 could find in

the virginal forest of figures a new Eldorado. Is it not true? Is there any happiness more wise and cloudless in this wonderful world? Steel may rust. The ancient god created ancient man, i.e., the man capable of mistakes; ergo, the ancient god himself made a mistake. The multiplication table is more wise and more absolute than the ancient god, for the multiplication table never (do you understand—never) makes mistakes! There are no more fortunate and happy people than those who live according to the correct, eternal laws of the multiplication table. No hesitation! No errors! There is but one truth, and there is but one path to it; and that truth is: four, and that path is: two times two. Would it not seem preposterous for these happily multiplied twos suddenly to begin thinking of some foolish kind of freedom?—i.e. (is it not clear?), of a mistake? It seems undeniable, axiomatic, that R-13 knows how to grasp the most fundamental, the most....

At that moment again I felt (first near the back of my head, then on my left ear) the warm, tender breath of the Guardian Angel. He apparently noticed that the book on my lap had long been closed and that my thoughts were somewhere very far....Well, I am ready this minute to spread before him the pages of my brain. This gives one such a feeling of tranquillity and joy. I remember I even turned around and gazed long and questioningly into his eyes; but either he did not understand, or he did not want to understand me. He did not ask me anything....The only thing left for me is to relate everything to you, my unknown readers. You are to me now as dear and as near and as far out of reach as he was at that moment.

This was my way of thinking: from the part to the whole—R-13 is the part, the whole is our Institution of State Poets and Authors. I thought: how

was it that the ancients did not notice the utter absurdity of their prose and poetry? The gigantic, magnificent power of the artistic word was spent by them in vain. It is really funny; anybody wrote whatever happened to come into his head! It was as foolish as the fact that in the days of the ancients the ocean blindly splashed on the shore for twenty-four hours a day, without interruption or use. The millions of kilogram meters of energy which were hidden in the waves were used only for the stimulation of sweethearts! We obtained electricity from the amorous whisper of the waves! We made a domestic animal out of that sparkling, foaming, rabid one! And in the same manner, we domesticated and harnessed the wild element of poetry. Now poetry is no longer the unpardonable whistling of nightingales, but a State Service! Poetry is a commodity.

Our famous "Mathematical Norms"! Without them in our schools, how could we love so sincerely and dearly our four rules of arithmetic? And "Thorns"! This is a classical image: the Guardians are thorns about a rose, thorns that guard our tender State Flower from coarse hands. Whose heart could resist, could remain indifferent, when seeing and hearing the lips of our children recite like a prayer: "A bad boy caught the rose with his hand, but the thorn of steel pricked him like a needle; the bad boy cried and ran home," etc., etc. And the "Daily Odes to the Well-Doer!" Who, having read them, will not bow piously before the unselfish service of that Number of all Numbers? And the dreadful red "Flowers of Court Sentences!" And the immortal tragedy, "Those Who Come Late to Work!" And the popular book, Stanzas on Sex Hygiene!

Our whole life in all its complexity and beauty is thus stamped forever

in the gold of words. Our poets do not soar any longer in the unknown; they have descended to earth and they march with us, keeping step to the accompaniment of our austere and mechanical March of the musical State Tower. Their lyre is the morning rubbing sound of the electric toothbrushes, and the threatening crack of the electric sparks coming from the Machine of the Well-Doer, and the magnificent echo of the Hymn of the United State, and the intimate ringing of the crystalline, shining washbasins, and the stimulating rustle of the falling curtains, and the joyous voices of the newest cookbooks, and the almost imperceptible whisper of the street membranes....

Our gods are here, below. They are with us in the Bureau, in the kitchen, in the shops, in the rest rooms. The gods have become like us, ergo we have become like gods. And we shall come to you, my unknown readers on another planet, we shall come to you to make your life as godlike, as rational, and as correct as our own...

RECORD THIRTEEN

Fog

Thou

A Decidedly Absurd Adventure

I awoke at dawn. The rose-colored firmament looked into my eyes. Everything was beautiful, round. "O-90 is to come tonight. Surely I am healthy again." I smiled and fell asleep. The Morning Bell! I got up; everything looked different. Through the glass of the ceiling, through the walls, nothing could be seen but fog—fog everywhere, strange clouds, becoming heavier and nearer; the boundary between earth and sky disappeared. Everything seemed to be floating and thawing and falling...Not a thing to hold on to. No houses to be seen; they were all dissolved in the fog like crystals of salt in water. On the sidewalks and inside the houses dark figures, like suspended particles in a strange milky solution, were hanging, below, above, up to the tenth floor. Everything seemed to be covered with smoke, as though a fire were raging somewhere noiselessly.

At eleven-forty-five exactly (I looked at the clock particularly at that time to catch the figures, to save at least the figures), at eleven-forty-five, just before leaving, according to our Table of Hours, to go and occupy myself with physical labor, I dropped into my room for a moment. Suddenly the telephone rang. A voice—a long needle slowly penetrating my heart:

"Oh, you are at home? I am very glad! Wait for me at the corner. We shall go together Where? Well, you'll see.

"You know perfectly well that I am going to work now."

"You know perfectly well that you'll do as I say! Au revoir. In two minutes!..."

I stood at the corner. I had to wait to try to make clear to her that only

the United State directs me, not she. "You'll do as I say!" How sure she is! One hears it in her voice. And what if... ?

Unifs, dull gray as if woven of damp fog, would appear for a second at my side and then soundlessly redis-solve. I was unable to turn my eyes away from the clock ...I seemed myself to have become that sharp, quivering hand that marked the seconds. Ten, eight minutes ...three ...two minutes to twelve....Of course! I was late! Oh, how I hated her. Yet I had to wait to prove that I...

A red line in the milky whiteness of the fog-like blood, like a wound made by a sharp knife—her lips.

"I made you wait, I think. And now you are late for your work anyway?"

"How...? Well, yes, it is too late now."

I glanced at her lips in silence. All women are lips, lips only. Some are rosy lips, tense and round, a ring, a tender fence separating one from the world. But these! A second ago they were not here, and suddenly... the slash of a knife! I seemed even to see the sweet, dripping blood

She came nearer. She leaned gently against my shoulder; we became one. Something streamed from her into me. I felt, I knew, it should be so. Every fiber of my nervous system told me this, every hair on my head, every painfully sweet heartbeat. And what a joy it was to submit to what should be. A fragment of iron ore probably feels the same joy of submission to precise, inevitable law when it clings to a lodestone. The same joy is in a stone which, thrown aloft, hesitates a little at the height of its flight and then rushes down

to the ground. It is the same with a man when in his final convulsion he takes a last deep breath and dies.

I remember I smiled vaguely and said for no reason at all, "Fog ...very."

"Thou lovest fog, dost thou?"

This ancient, long-forgotten thou—the thou of a master to his slave—penetrated me slowly, sharply....Yes, I was a slave....This, too, was inevitable, was good.

"yes, good..." I said aloud to myself, and then to her, "I hate fog. I am afraid of fog."

Then you love it. For if you fear it because it is stronger than you, hate it because you fear it, you love it. For you cannot subject it to yourself. One loves only the things one cannot conquer."

"Yes, that is so. That is why...that is precisely why I..."

We were walking—as one. Somewhere beyond the fog the sun was singing in a faint tone, gradually swelling, filling the air with tension and with pearl and gold and rose and red....The whole world seemed to be one unembraceable woman, and we who were in her body were not yet born; we were ripening in joy. It was clear to me, absolutely clear, that everything existed only for me: the sun, the fog, the gold—for me. I did not ask where we were going; what did it matter? It was a pleasure to walk, to ripen, to become stronger and more tense....

"Here ..." I-330 stopped at a door. "It so happens that today there is

someone on duty who... I told you about him in the Ancient House."

Carefully guarding the forces ripening within me, I read the sign: "Medical Bureau." Only automatically I understood.

...A glass room, filled with golden fog; shelves of glass, colored bottles, jars, electric wires, bluish sparks in tubes; and a male Number—a very thin flattened man. He might have been cut out of a sheet of paper. Wherever he was, whichever way he turned, he showed only a profile, a sharply pointed, glittering blade of a nose, and lips like scissors.

I could not hear what I-330 told him. I merely saw her lips when she was talking, and I felt that I was smiling, irrepressibly, blissfully. The scissors-like lips glittered and the doctor said, "Yes, yes, I see. A most dangerous disease. I know of nothing more dangerous." And he laughed. With his thin, flat, papery hand he wrote something on a piece of paper and gave it to I-330; he wrote on another piece of paper and handed it over to me. He had given us certificates, testifying that we were ill, that we were unable to go to work. Thus I stole my work from the United State; I was a thief; I deserved to be put beneath the Machine of the Well-Doer. Yet I was indifferent to this thought; it was as distant from me as though it were written in a novel. I took the certificate without an instant's hesitation. I, all my being, my eyes, my lips, my hands, knew it was as it should be.

At the corner, from a half-empty garage, we took an aero. I-330 took the wheel as she had done before, pressed the starter, and we tore away from the earth. We soared. Behind us the golden haze, the sun. The thin, blade-like profile of the doctor seemed to me suddenly so dear, so beloved. Formerly I

knew everything revolves around the sun. Now I knew everything was revolving around me. Slowly, blissfully, with half-closed eyes....

At the gate of the Ancient House we found the same old woman. What a dear mouth, with lips grown together and raylike wrinkles around it! Probably those lips have remained grown together all these days; but now they parted and smiled.

"Ah! you mischievous girl, you! Work is too much for you? Well, all right, all right. If anything happens, I'll run up and warn you. "

A heavy, squeaky, opaque door. It closed behind us, and at once my heart, opened painfully, widely, still wider.... My lips ...hers....I drank and drank from them. I tore myself away; in silence I looked into her widely open eyes, and then again....

The room in half dusk....Blue and saffron-yellow lights, dark green morocco leather, the golden smile of Buddha, a wide mahogany bed, a glimmer of mirrorsAnd my dream of a few days before became so comprehensible, so clear to me; everything seemed saturated with the golden prime juice of life, and it seemed that I was overflowing with it—one second more and it would splash out....Like iron ore to a lodestone, in sweet submission to the precise and unchangeable law, inevitably, I clung to her.... There was no pink check, no counting, no United State; I was myself no more. Only, drawn together, the tenderly sharp teeth were there, only her golden, widely open eyes, and through them I saw deeper within....And silence...Only somewhere in a corner, thousands of miles away it seemed, drops of water were dripping from the faucet of the washstand. I was the

Universe! ...And between drops whole epochs, eras, were elapsing....

I put on my unif and bent over I-330 to draw her into me with my eyes—for the last time.

"I knew it....I knew you," said I-330 in a very low voice. She passed her hand over her face as though brushing something away; then she arose brusquely, put on her unif and her usual sharp, bite-like smile.

"Well, my fallen angel, you perished just now, do you know that? No? You are not afraid? Well, au revoir. You shall go home alone. Well?"

She opened the mirror door of the cupboard and, looking at me over her shoulder, she waited. I left the room obediently. Yet no sooner had I left the room than I felt it was urgent that she touch me with her shoulder— only for one second with her shoulder, nothing more. I ran back into the room, where, I presumed, she was standing before the mirror, busily buttoning up her unif; I rushed in, and stopped abruptly. I saw—I remember it clearly—I saw the key in the keyhole of the closet, and the ancient ring upon it was still swinging, but I-330 was not there. She could not have left the room as there was but one exit....Yet I-330 was not there! I looked around everywhere. I even opened the cupboard and felt of the different ancient dresses, nobody....

I feel somewhat ridiculous, my dear planetary readers, relating to you this most improbable adventure. But what else can I do since it all happened exactly as I relate it? Was not the whole day, from early morning, full of improbable adventures? Does it not all resemble the ancient disease of dream seeing? If this be so, what does it matter if I relate one absurdity more, or one

less? Moreover, I am convinced that sooner or later I shall be able to include all these absurdities in some kind of logical sequence. This thought comforts me as I hope it will comfort you.

... How overwhelmed I am! If only you knew how overwhelmed!

RECORD FOURTEEN

"Mine"

Impossible

A Cold Floor

I shall continue to relate my adventures of yesterday. I was busy during the personal hour before retiring to bed, and thus I was unable to record everything last night. But everything is graven in me; especially, for some reason, and apparently forever, I shall remember that unbearably cold floor....

I was expecting O-90 last evening, as it was her regular day. I went downstairs to the controller on duty to get a permit for the lowering of my curtains.

"What is the matter with you?" asked the controller. "You seem so

peculiar tonight."

"I...I am sick."

Strictly speaking, I told her the truth. I certainly am sick. All this is an illness. Presently I remembered; of course, my certificate! I touched it in my pocket. Yes, there it was, rustling. Then all this did happen! It did actually happen!

I held out the paper to the controller. As I did so, I felt the blood rushing to my cheeks. Without looking directly at her, I noticed with what an expression of surprise she gazed at me.

Then at twenty-one-thirty o'clock....In the room to the left the curtains were lowered, and in the room to the right my neighbor was sitting over a book. His head is bald and covered with bulging lumps. His forehead is enormous—a yellow parabola. I was walking up and down the room suffering. How could I meet her, after all that happened? O-90, I mean. I felt plainly, to my right, how the eyes of my neighbor were staring at me. I clearly saw the wrinkles on his forehead like a row of yellow, illegible lines; and for some reason I was certain that those lines dealt with me.

A quarter of an hour before twenty-two the cheerful, rosy whirlwind was in my room; the firm ring of her rosy arms closed about my neck. Then I felt how that ring grew weaker and weaker; and then it broke and her arms dropped....

"You are not the same, not the same man! You are no longer mine!"

"What curious terminology: 'mine,' I never belonged—" I faltered. It suddenly occurred to me: true, I had belonged to no one before, but now...Is it not clear that now I no longer live in our rational world but in the ancient delirious world, in a world of the square root of minus one?

The curtains fell. There to my right my neighbor let his book drop at that moment from the table to the floor. And through the last narrow space between the curtain and the floor I saw a yellow hand pick up the book. Within I felt: "Only to seize that hand with an my power. "

I thought...I wanted to meet you during the hour for the walk, I wanted... I must talk to you about so many things, so many...

Poor, dear O-90. Her rosy mouth was a crescent with its horns downward. But I could not tell her everything, could I, if for no other reason than that it would make her an accomplice to my crimes? I knew that she would not have the courage to report me to the Bureau of Guardians, consequently...

"My dear O-, I am sick, I am exhausted. I went again today to the Medical Bureau; but it is nothing, it will pass. But let us not talk about it; let us forget it."

O-90 was lying down. I kissed her gently. I kissed that childish, fluffy fold at her wrist. Her blue eyes were closed. The pink crescent of her lips was slowly blooming, more and more like a flower. I kissed her....

Suddenly I clearly realized how empty I was, how I had given away...No, I could not—impossible! I knew I must ...but no—impossible! I

ought...but no—impossible! My lips cooled at once. The rosy crescent trembled, darkened, drew together. O-90 covered herself with the bedspread, her face hidden in the pillow.

I was sitting near the bed, on the floor. What a desperately cold floor! I sat there in silence. The terrible cold from the floor rose higher and higher. There in the blue, silent space among the planets, there probably it is as cold.

"Please understand, dear; I did not mean..." I muttered, "With all my heart, I..."

It was the truth. I, my real self, did not mean....Yet how could I express it in words? How could I explain to her that the piece of iron did not want to? ...But that the law is precise, inevitable!

O-90 lifted her face from the pillow and without opening her eyes she said, "Go away." But because she was crying she pronounced it "Oo aaa-ay." For some reason this absurd detail will not leave my memory.

Penetrated by the cold, and torpid, I went out into the ball. I pressed my forehead against the cold glass. Outside a thin, almost imperceptible film of haze was spread. "Toward night," I thought, "it will descend again and drown the world. How sad a night it will be!"

O-90 passed swiftly by, going toward the elevator. The door slammed.

"Wait a minute!" I screamed. I was frightened.

But the elevator was already groaning, going down, down, down....

"She robbed me of R-, she robbed me of O-90, yet, yet....
nevertheless..."

RECORD FIFTEEN

The Bell

The Mirror—like Sea

I Am to Bum Eternally

I was walking on the dock where the Integral is being built, when the Second Builder came to meet me. His face, as usual, was round and white, a porcelain plate. When he speaks it seems as if he serves you a plate of something unbearably tasty.

"You chose to be ill, and without the Chief we had sort of an accident yesterday."

"An accident?"

"Yes, sir. We finished the bell and started to let it down, and imagine; the men caught a male without a number. How he got in I can't make out. They took him to the Operation Department. Oh, they'll get the answers out

of the fellow there; 'why' and 'how,' etc....He smiled delightedly.

Our best and most experienced physicians work in the Operation Department under the direct supervision of the Well-Doer himself. They have all kinds of instruments, but the best of all is the Gas Bell. The procedure is taken from an ancient experiment of elementary physics: they used to put a rat under a gas bell and gradually pump out the air; the air becomes more and more rarefied, and... you know the rest.

But our Gas Bell is certainly a more perfect apparatus, and it is used in combination with different gases. Furthermore, we don't torture a defenseless animal as the ancients did. We use it for a higher purpose: to guard the security of the United State—in other words, the happiness of millions. About five centuries ago, when the work of the Operation Department was only beginning, there were yet to be found some fools who compared our Operation Department with the ancient Inquisition. But this is as absurd as to compare a surgeon performing a tracheotomy with a highway cutthroat. Both use a knife, perhaps the same kind of knife, both do the same thing, viz., cut the throat of a living man; yet one is a well-doer, the other is a murderer; one is marked plus, the other minus....All this becomes perfectly clear in one second, in one turn of our wheel of logic, the teeth of which engage that minus, turn it upward, and thus change its aspect.

One other matter is somewhat different: the ring in the door was still oscillating, apparently the door had just closed, yet she, I-330, had disappeared, she was not there! The wheel of logic could not turn this fact. A dream? But even now I still feel in my right shoulder that incomprehensibly sweet pain of I-330 near me in the fog, pressing herself against me. "Thou

lovest fog?" Yes, I love the fog, too. I love everything, and everything appears to me wonderful, new, tense; everything is so good!...

"So good," I said aloud.

"Good?" The porcelain eyes bulged out. "What good do you find in that? If that man without a number contrived to sneak in, it means that there are others around here, everywhere, all the time, here around the Integral, they —"

"Whom do you mean by 'they'?"

"How do I know who? But I sense them, all the time."

"Have you heard about the new operation which has been invented? I mean the surgical removal of fancy?" (There really were rumors of late about something of the sort.)

"No, I haven't. What has that to do with it?"

"Merely this: if I were you, I should go and ask to have this operation performed upon me. "

The plate distinctly expressed something lemonlike, sour. Poor fellow! He took offense if one even hinted that he might possess imagination. Well, a week ago I, too, would have taken offense at such a hint. Not now though, for I know that I have imagination; that is what my illness consists of. And more than that: I know that it is a wonderful illness—one does not want to be cured, simply does not want to!

We ascended the glass steps; the world spread itself below us like the palm of a hand.

You, readers of these records, whoever you may be, you have the sun above you. And if you ever were ill, as I am now, then you know what kind of sun there is or may be in the morning; you know that pinkish, lucid, warm gold; the air itself looks a little pinkish; everything seems permeated by the tender blood of the sun; everything is alive; the stones seem soft and living, iron living and warm, people full of life and smiles. Perhaps in a short while all this will disappear, in an hour the pinkish blood of the sun will be drained out; but in the meantime everything is alive. And I see how something flows and pulsates in the sides of the Integral; I see the Integral; I think of its great and lofty future, of the heavy cargo of inevitable happiness which it is to carry up there into the heights, to you, unseen ones, to you who seek eternally and who never find. You shall find! You shall be happy! You must be happy, and now you have not very long to wait!

The body of the Integral is almost ready; it is an exquisite, oblong ellipsoid, made of our glass, which is everlasting like gold and flexible like steel. I watched them within, fixing its transverse ribs and its longitudinal stringers; in the stem they were erecting the base of the gigantic motor. Every three seconds the powerful tail of the Integral will eject flame and gases into universal space, and the Integral will soar higher and higher, like a flaming Tamerlane of happiness! I watched how the workers, true to the Taylor system, would bend down, then unbend and turn around swiftly and rhythmically like levers of an enormous engine. In their hands they held glittering glass pipes which emitted bluish streaks of flame; the glass walls

were being cut into with flame; with flame were being welded the angles, the ribs, the bars. I watched the monstrous glass cranes easily roiling over the glass rails; like the workers themselves, they would obediently turn, bend down, and bring their loads inward into the bowels of the Integral. All seemed one: humanized machine and mechanized humans. It was the most magnificent, most stirring beauty, harmony, music!

Quick! Down! To them and with them! And I descended and mingled with them, fused with their mass, caught in the rhythm of steel and glass. Their movements were measured, tense and round. Their cheeks were colored with health, their mirrorlike foreheads unclouded by the insanity of thinking. I was floating upon a mirror-like sea. I was resting....Suddenly one of them turned his carefree face toward me.

"Well, better today?"

"What, better?"

"You were not here yesterday. And we thought something serious..." His forehead was shining—a childish and innocent smile.

My blood rushed to my face. No, I could not lie, facing those eyes. I remained silent; I was drowning....Above, a shiny, round, white porcelain face appeared in the hatchway.

"Hey! D-503! Come up here! Something is wrong with a frame and brackets here, and..."

Not waiting until he had finished, I rushed to him, upstairs; I was

shamefully saving myself by flight. I had not the power to raise my eyes. I was dazed by the sparkling glass steps under my feet, and with every step I felt more and more hopeless. I, a corrupted man, a criminal, was out of place here. No, I shall probably never again be able to fuse myself into this mechanical rhythm, nor float over this mirror-like, untroubled sea. I am to burn eternally from now on, running from place to place, seeking a nook where I may hide my eyes, eternally, until I...A spark cold as ice pierced me. "I myself, I matter little, but is it necessary that she also....? I must see that she..."

I crawled through the hatchway to the deck and stood there; where was I to go now? I did not know what I had come for! I looked aloft. The midday sun, exhausted by its march, was fuming dimly. Below was the Integral, a gray mass of glass—dead. The pink blood was drained out! It was obvious to me that all this was my imagination and that everything was the same as before; yet it was also clear to me that...

"What is the matter with you, D-503? Are you deaf ? I call and call you. What is the matter with you?" It was the Second Builder yelling directly into my ear; he must have been yelling that way for quite a while.

What was the matter with me? I had lost my rudder; the motor was groaning as before, the aero was quivering and rushing on, but it had no rudder. I did not even know where I was rushing, down to the earth or up to the sun, to its flame....

RECORD SIXTEEN

Yellow

A Two-dimensional Shadow

An Incurable Soul

I have not written for several days; I don't know how many. All my days are alike. All are of one color, yellow, like dry, overheated sand. Not a patch of shade, not a drop of water, only an infinity of yellow sand. I cannot live without her, but she, since she disappeared that day so mysteriously in the Ancient House...

Since that time I have seen her only once, during the hour for the Walk, two, three, four days ago, I do not remember exactly. All my days are alike. She only passed swiftly by and for a second idled up my yellow, empty world. With her, arm in arm, reaching not higher than her shoulder, were the double-curved S- and the thin papery doctor, and a fourth person whose fingers only I remember well; they streamed out, those fingers, from the sleeve of the unif like a bundle of rays, uncommonly thin, white, long. I-330 raised her hand and waved to me, then she bent toward the one with the raylike fingers, over the head of S-. I overheard the word Integral. All four turned around to look at me, and then they disappeared in the bluish-gray sea, and my road was once more dry and yellow.

That same evening she had a pink check on me. I stood before the switchboard and with hatred and tenderness I implored it to click and soon show the number I-330. I would rush out into the hall at every sound of the elevator. The door of the latter would open heavily. Pale, tall, blond, and dark they would come out of the elevator, and here and there curtains were falling....But she was not there. She did not come. And it is quite possible that now, at this minute, as I write these lines, at twenty-two o'clock exactly, with her eyes closed she is pressing her shoulder against somebody else in the same way, and in the same way she may be asking someone: "Do you love me?" Whom? Who is he? That one with raylike fingers, or that thick-lipped, sprinkling R-? Or S-? S-! Why is it that I have heard his steps splashing behind me as though in a ditch all these days? Why has he been following me all these days like a shadow? Ahead of me, to my side, behind me, a grayish-blue, two-dimensional shadow; people cross it, people step on it, but it remains nearby, attached to me by unseen ties. Perhaps that tie is I-330. I do not know. Or perhaps they, the Guardians I mean, already know that I...

If someone should tell you your shadow sees you, sees you all the time, would you understand? All at once peculiar sensations arise in you; your arms seem to belong to someone else; they are in the way. That is how I feel; very frequently now I notice how absurdly I wave my hands without any rhythm. I have an irresistible desire to glance behind me, but I am unable to do so; my neck might as well be forged of iron. I flee, I run faster and faster, and even with my back I feel that shadow following me as fast as I can run; and there is no place to hide myself—no place!

At length I reach my room. Alone at last! But here I find another thing,

the telephone. I pick up the receiver. "Yes, I-330, please." And again I hear a light noise through the receiver; someone's step in the hall there, passing the door of her room, and—silence....I drop the receiver.I cannot, cannot bear it any longer, and I run to see her!

This happened yesterday. I ran there and for a whole hour from sixteen to seventeen I wandered near the house in which she lives. Numbers were passing by in rows. Thousands of feet were beating the time like a behemoth with a million legs passing by. I was alone, thrown out by a storm on an uninhabited island, and my eyes were seeking and seeking among the grayish-blue waves. "There, soon," I thought, "will appear from somewhere the sharp mocking angles of the brows lifted to the temples, and the dark window eyes, and there behind them a flaming fireplace and someone's shadow....And I will rush straight in behind those windows and say to her, "Thou"—yes, "thou" without fail. "Thou knowest I cannot live without thee any longer, then why...?" But silence reigned.

Suddenly I heard the silence; suddenly I heard the Musical Tower silenced, and I understood! It was after seventeen already; everyone had already left. I was alone. It was too late to return home. Around me—a desert made of glass and bathed with yellow sunshine. I saw, as if in water, the reflection of the walls in the glass smoothness of the street, sparkling walls, hanging upside down. Myself also upside down, hanging absurdly in the glass.

"I must go at once, this very second, to the Medical Bureau, or else...Or perhaps this would be best: to remain here, to wait quietly until they see me and come and take me into the Operation Department and put an end to

everything at once, redeem everything...." A slight rustle—and the double-curved S- was before me. Without looking I felt his two gray steel-drill eyes bore quickly into me. I plucked up all my strength to show a smile and to say (I had to say Something), "I...I must go to the Medical Bureau."

"Who is detaining you? What are you standing here for?"

I was silent, absurdly hanging upside down.

"Follow me," said S- austere.

I followed obediently, waving my unnecessary foreign arms. I could not raise my eyes. I walked through a strange world turned upside down, where people had their feet pasted to the ceilings, and where engines stood with their bases upward, and where, still lower, the sky merged in the heavy glass of the pavement. I remember what pained me most was the fact that looking at the world for the last time in my life I should see it upside down rather than in its natural state; but I could not raise my eyes.

We stopped. Steps. One step...and I should see the figures of the doctors in their white aprons, and the enormous, dumb Bell.

With force, with some sort of an inner twist, I succeeded at last in tearing my eyes away from the glass beneath my feet, and I noticed the golden letters, "Medical Bureau." Why did he bring me here rather than to the Operation Department? Why did he spare me? About this I did not even think at the moment. I made all the steps in one jump, firmly closed the door behind me, and took a very deep breath—as if I had not breathed since morning, as if my heart had not beaten for the same length of time, as if only

now I started to breathe and only now a sluice opened in my chest....

Inside there were two of them, one a short specimen with heavy legs, his eyes like the horns of a bull tossing the patients up, the other extremely thin with lips like sparkling scissors, a nose like a blade—it was the same man who...I ran to him as to a dear friend, straight over close to the blade, and muttered something about insomnia, dreams, shadows, yellow sand. The scissors lips sparkled and smiled.

"Yes, it is too bad. Apparently a soul has formed in you.

A soul? That strange, ancient word that was forgotten long ago

"Is it...v-very dangerous?" I stuttered.

"Incurable," was the cut of the scissors.

"But more specifically, what is it? Somehow I cannot imagine—"

"You see...how shall I put it? Are you a mathematician?"

"Yes."

"Then you see...imagine a plane, let us say this mirror. You and I are on its surface. You see? There we are, squinting our eyes to protect ourselves from the sunlight, or here is the bluish electric spark in that tube, there the shadow of that aero that just passed. All this is on the surface, is momentary only. Now imagine this very same surface softened by a flame so that nothing can glide over it any longer, so everything will instead penetrate into that mirror world which excites such curiosity in children. I assure you, children

are not so foolish as we think they are! The surface becomes a volume, a body, a world. And inside the mirror—within you—there is the sunshine, and the whirlwind caused by the aero propeller, and your trembling lips and someone else's lips also. You see, the cold mirror reflects, throws out, while this one absorbs; it keeps forever a trace of everything that touches it. Once you saw an imperceptible wrinkle on someone's face, and this wrinkle is forever preserved within you. You may happen to hear in the silence a drop of water falling—and you will hear it forever!"

"Yes, yes, that is it!" I grasped his hand. I could hear drops of water dripping in the silence from the faucet of a washstand, and I knew at once it was forever.

"But tell me please, why suddenly...suddenly, a soul? There was none, yet suddenly.... Why is it that no one has it, yet I ..." I pressed the thin hand; I was afraid to loosen the safety belt.

"Why? Well, why don't we grow feathers or wings but have only shoulder blades, bases for wings? We have aeros; wings would only be in the way. Wings are needed in order to fly, but we don't need to fly anywhere. We have arrived at the terminus. We have found what we wanted. Is that not so?"

I nodded vaguely. He glanced at me and laughed a scalpel-like, metallic laugh. The other doctor overheard us and stamped out of his room on his heavy legs. He picked up the thin doctor with his horn eyes, then picked me up.

"What is the matter—a soul? You say a soul? Oh, damn it! We may

soon retrogress even to the cholera epidemics. I told you"—he tossed the thin one on the horns—"I told you the only thing to do is to operate on them all, wholesale! Simply extirpate the center for fancy. Only surgery can help here, only surgery." He put on a pair of enormous X-ray spectacles and remained thus for a long while, looking into my skull, through the bones into my brain, and making notes.

"Very, very curious! Listen." He looked firmly into my eyes."Wouldn't you consent to have me perform an extirpation on you? It would be invaluable to the United State; it might help us prevent an epidemic. If you have no special reasons, of course..."

Some time ago I should probably have said without hesitation, "I am willing," but now—I was silent. I caught the profile of the thin doctor; I implored him!

"You see," he said at last, "Number D-503 is building the Integral, and I am sure the operation would interfere"

"Ah-h!" grumbled the other, and stamped back into his room.

We remained alone. The paper-like hand was put lightly and caressingly upon mine, the profile-like face came nearer, and he said in a very low voice: "I shall tell you a secret. You are not the only one. My colleague is right when he speaks of an epidemic. Try to remember, haven't you noticed yourself, someone with something similar, very similar, identical?"

He looked at me closely. What was he alluding to? To whom?...Is it possible? ...

"Listen." I jumped up from my seat. But he had already changed the subject. In a loud, metallic tone:

"...As for the insomnia and the dreams you complain of, I advise you to walk a great deal. Tomorrow morning you must begin taking long walks... say, as far as the Ancient House."

Again he pierced me with his eyes and he smiled thinly. It seemed to me that I saw enveloped in the tender tissue of that smile a word, a letter, a name, the only name... Or was it only my imagination? I waited impatiently while he wrote a certificate of illness for today and tomorrow. Once more I gently and firmly pressed his hand; then I ran out.

My heart now feels light and swift like an aero; it carries me higher and higher....I know joy will come tomorrow. What joy? ...

RECORD SEVENTEEN

Through Glass

I Died

The Corridor

I am puzzled. Yesterday, at the very moment when I thought everything was untangled, and that all the X's were at last found, new unknowns appeared in my equation. The origin of the coordinates of the whole story is of course the Ancient House. From this center the axes of all the X's, Y's, and Z's radiate, and recently they have entered into the formation of my whole life.

I walked along the X—axis (Avenue 59) toward the center. The whirlwind of yesterday still raged within me: houses and people upside down; my own hands torturingly foreign to me; glimmering scissors; the sharp sound of drops dripping from the faucet; all this existed, all this existed once! All these things were revolving wildly, tearing my flesh, rotating wildly beneath the molten surface, there where the "soul" is located.

In order to follow the instructions of the doctor I chose the road that followed not the hypotenuse but the two legs of a triangle. Soon I reached the road running along the Green Wall. From beyond the Wall, from the infinite ocean of green, there arose toward me an immense wave of roots, branches, flowers, leaves. It rose higher and higher; it seemed as though it would splash over me and that from a man, from the finest and most precise mechanism which I am, I would be transformed into... But fortunately there was the Green Wall between me and that wild green sea. Oh, how great and divinely limiting is the wisdom of walls and bars! This Green Wall is, I think, the greatest invention ever conceived. Man ceased to be a wild animal the day he built the first wall; man ceased to be a wild man only on the day when the Green Wall was completed, when by this wall we isolated our machine-like, perfect world from the irrational, ugly world of trees, birds, and beasts

The blunt snout of some unknown beast was to be seen dimly through the glass of the Wall; its yellow eyes kept repeating the same thought which remained incomprehensible to me. We looked into each other's eyes for a long while. Eyes are shafts which lead from the superficial world into a world which is beneath the surface. A thought awoke in me: "What if that yellow—eyed one, sitting there on that absurd dirty heap of leaves, is happier than I, in his life which cannot be calculated in figures!" I waved my hand. The yellow eyes twinkled, moved back, and disappeared in the foliage. What a pitiful being! How absurd the idea that he might be happier! Happier than I he may be, but I am an exception, am I not? I am sick.

I noticed that I was approaching the dark red walls of the Ancient House, and I saw the grown-together lips of the old woman. I ran to her as fast as I could.

"Is she here?"

The grown-together lips opened slowly.

"Who is 'she'?"

"Who? I-330, of course. You remember we came together, she and I, in an aero the other day."

"Oh, yes, yes, yes—yes."

Ray wrinkles around the lips, artful rays radiating from the eyes. They were making their way deeper and deeper into me.

"Well, she is here, all right. Came in a while ago."

"Here!" I noticed at the feet of the old woman a bush of silver-bitter wormwood. (The court of the Ancient House, being a part of the museum, is carefully kept in its prehistoric state.) A branch of the bush touched the old woman, she caressed that branch; upon her knees lay stripes of sunshine. For a second, I, the sun, the old woman, the wormwood, those yellow eyes, all seemed to be one; we were firmly united by common veins, and one common blood—boisterous, magnificent blood—was running through those veins.

I am ashamed now to write down all this, but I promised to be frank to the end of these records: yes, I bent over and kissed that soft, grown-together mouth of the old woman. She wiped it with her hand and laughed.

Running, I passed through familiar, half-dark, echoing rooms, and for some reason I ran straight to the bedroom. When I had reached the door, a thought flashed: "And if she is in there... not alone?" I stopped and listened. But all I heard was the tick-tock of my heart, not within me, but somewhere near, outside me.

I entered. The large bed—untouched. A mirror...another mirror in the door of the cupboard, and in the key-hole an ancient key upon an ancient ring. No one was there. I called softly: "I-330, are you here?" And then in a still lower voice, with dosed eyes, holding my breath— in a voice as though I were kneeling before her, "I-, dear." Silence. Only the water was dripping fast into the white basin of the washstand. I cannot now explain why, but I disliked that sound. I turned the faucet hard and went out. She was not there, so much was clear. She must be in another "apartment."

I ran down a wide, somber stairway, pulled one door, another, a third-locked. Every room was locked save that of "our" apartment. And she was not there. I went back again to the same apartment, without knowing why. I walked slowly, with difficulty; my shoe soles suddenly became as heavy as cast iron. I remember distinctly my thought, "It is a mistake that the force of gravity is a constant; consequently all my formulae..."

Suddenly—an explosion! A door slammed down below; someone stamped quickly over the flagstones. I became lightfooted again, extremely light! I dashed to the railing to bend over, and in one word, one exclamation, expressed everything: "You!"

I became cold. Below, in the square shadow of the window frame, flapping its pink wing ears, the head of S- passed by!

Like lightning I saw only the naked conclusion. Without any premises (I don't recall any premises even now) the conclusion: he must not see me here! And on the tips of my toes, pressing myself against the wall, I sneaked upstairs into the unlocked apartment.

I stopped for a second at the door. He was stamping upward, here. If only the door... I prayed to the door, but it was a wooden one; it squeaked, it squealed. Like a wind something red passed my eyes, something green, and the yellow Buddha. In front of the mirror door of the cupboard my pale face; my ears still following those steps, my lips...Now he was .already passing the green and yellow, now he was passing Buddha. Now at the door-sill of the bedroom...

I grasped the key of the cupboard; the ring oscillated. This oscillation reminded me of something. Again a conclusion, a naked conclusion without premises; a conclusion, or, to be more exact, a fragment of one: "Now, I-330 is..." I brusquely opened the cupboard and, when inside in the darkness, shut the door firmly. One step!...The floor shook under my feet. Slowly and softly I floated somewhere downward; my eyes were dimmed—I died!

Later, when I sat down to describe all these adventures, I sought in my memory and consulted some books; and now I understand, of course! I was in a state of temporary death. This state was known to the ancients, but as far as I am informed it is unknown to us. I have no conception of how long I was dead, probably not longer than five or ten seconds, but after a while I arose from the dead and opened my eyes. It was dark. But I felt I was falling down, down, down. I stretched out my hand to attach myself to something, but the rough wall scratched my fingers; it was running away from me, upward. I felt blood on my fingers. It was clear that all this was not merely a play of my sick imagination. But what was it? What?

I heard my own frequent, trembling breaths. (I am not ashamed to confess this, it was all unexpected and incomprehensible.) A minute, two, three passed; I was still going down. Then a soft bump. The thing that had been falling away from under my feet was motionless. I found in the darkness a knob, and turned it; a door opened; there was a dim light. I now noticed behind me a square platform, traveling upward. I tried to run back to it but it was too late. "I am cut off here," I thought. Where "here" might be I did not know.

A corridor. A heavy silence. The small lamps on the vaulted ceiling

resembled an endless, twinkling, dotted line. The corridor was similar to the "tube" of our underground railways but it was much narrower, and made not of our glass but of some other, very ancient material. For a moment I thought of the underground caves where they say many tried to save themselves during the 'Two Hundred Years' War. There was nothing to do but to walk ahead.

I walked, I think, for about twenty minutes. A turn to the right, the corridor became wider, the small lamps brighter. There was a dim droning somewhere ...Was it a machine or voices? I did not know. I stood before a heavy, opaque door from behind which came the noise. I knocked. Then I knocked again, louder. Now there was silence behind the door. Something clanked; the door opened slowly and heavily.

I don't know which of us was the more dumfounded; the thin, blade-like doctor stood before me!

"You here!" His scissors opened and remained open.

And I, as if I did not know a human word, stood silent, merely stared, without comprehending that he was talking to me. He must have told me to leave, for with his thin paper stomach he slowly pressed me to the side, to the more brightly lighted end of the corridor, and poked me in the back.

"Beg your pardon...I wanted...I thought that she, I-330...but behind me..."

"Stay where you are," said the doctor brusquely, and he disappeared.

At last! At last she was nearby, here, and what did it matter where "here" was? I saw the familiar saffron-yel-low silk, the smile bite, the eyes with their curtains drawn....My lips quivered, so did my hands and knees, and I had a most stupid thought: "Vibrations make sounds. Shivering must make a sound. Why, then, don't I hear it?"

Her eyes opened for me widely. I entered into them.

"I could not...any longer! ...Where have you been? ...Why? ..."

I was unable to tear my eyes away from her for a second, and I talked as if in a delirium, fast and incoherently, or perhaps I only thought without speaking out: "A shadow...behind me. I died. And from the cupboard...Because that doctor of yours...speaks with his scissors...I have a soul...incurable...and I must walk..."

"An incurable soul? My poor boy!" I-330 laughed. She covered me with the sparkles of her laughter; my delirium left me. Everywhere around her little laughs were sparkling! How good it was!

The doctor reappeared from around the turn, the wonderful, magnificent, thinnest doctor.

"Well?" He was already beside her.

"Oh, nothing, nothing. I shall tell you later. He got here by accident. Tell them that I shall be back in about a quarter of an hour."

The doctor slid around the corner. She lingered. The door closed with a heavy thud. Then slowly, very slowly, piercing my heart with a sharp sweet

needle, I-330 pressed against me with her shoulder and then with her arm, with her whole body, and we walked away as if fused into one.

I do not remember now where we turned into darkness; in the darkness we walked up some endless stair-way in silence. I did not see but I knew, I knew that she walked as I did, with closed eyes, blind, her head thrown a little backward, biting her lips and listening to the music—that is to say, to my almost audible tremor.

I returned to consciousness in one of the innumerable nooks in the courtyard of the Ancient House. There was a fence of earth with naked stone ribs and yellow teeth of walls half fallen to pieces. She opened her eyes and said, "Day after tomorrow at sixteen." She was gone.

Did all this really happen? I do not know. I shall learn day after tomorrow. One real sign remains: on my right hand the skin has been rubbed from the tips of three fingers. But today, on the Integral, the Second Builder assured me that he saw me touch the polishing wheel with those very same fingers. Perhaps I did. It is quite probable. I don't know. I don't know anything.

RECORD EIGHTEEN

Debris of Logic

Wounds and Plaster

Never Again

Last night, as soon as I had gone to bed, I fell momentarily to the bottom of the ocean of sleep like an overloaded ship that has been wrecked. The heavy mass of wavy green water enveloped me. Then, slowly, I floated from the bottom upward, and somewhere in the middle of that course I opened my eyes—my room! The morning was still green and motionless. A fragment of sunshine coming from the mirror on my closet door shone into my eyes. This fragment did not permit me to sleep, being thus an obstacle in the way of fulfilling exactly the rules of the Tables, which prescribe so many hours of sleep. I should have opened the closet but I felt as though I were in a spider web, and cobweb covered my eyes; I had no power to sit up.

Yet I got up and opened the closet door; suddenly, there behind that door, making her way through the mass of garments that hung there, was I-330! I have become so accustomed of late to most improbable things that as far as I remember I was not even surprised; I did not even ask a question. I jumped into the closet, slammed the mirror door behind me, and breathlessly, brusquely, blindly, avidly I clung to her. I remember clearly even now: through the narrow crack of the door a sharp sun ray like lightning broke into the darkness and played on the floor and walls of the closet, and a little higher the cruel ray blade fell upon the naked neck of I-330, and this for some reason seemed to me so terrible that I could not bear it, and I screamed—and again I opened my eyes. My room!

The morning was still green and motionless. On the door of my closet was a fragment of the sunshine. I was in bed. A dream? Yet my heart was still wildly beating, quivering and twitching; there was a dull pain in the tips of my fingers and in my knees. This undoubtedly did happen! And now I am no longer able to distinguish what is dream from what is actuality; irrational numbers grow through my solid, habitual, tridimensional life; and instead of firm, polished surfaces, there is something shaggy and rough.

I waited long for the Bell to ring. I was lying thinking, untangling a very strange logical chain. In our superficial life, every formula, every equation, corresponds to a curve or a solid. We have never seen any curve or solid corresponding to my square root of minus one. The horrifying part of the situation is that there exist such curves or solids. Unseen by us they do exist, they must, inevitably; for in mathematics, as on a screen, strange, sharp shadows appear before us. One must remember that mathematics, like death, never makes mistakes, never plays tricks. If we are unable to see those irrational curves or solids, it means only that they inevitably possess a whole immense world somewhere beneath the surface of our life.

I jumped up without waiting for the waking Bell and began to pace up and down the room. My mathematics, the only firm and immovable island of my shaken life, this, too, was torn from its anchor and was floating, whirling. Then it means that that absurd thing, the "soul," is as real as my uniform, as my boots, although I do not see them since they are behind the door of the closet. If boots are not a sickness, why should the "soul" be one? I sought, but I could not find, a way out of the logical confusion. It looked to me like that strange and sad debris beyond the Green Wall; my debris of logic, too, is

filled with extraordinary, incomprehensible, wordless, but speaking beings. It occurred to me for a moment that through some strange, thick glass I saw it; I saw it at once infinitely large and infinitely small, scorpion-like, with hidden but ever perceptible sting; I saw the square root of minus one. Perhaps it was nothing else but my "soul," which, like the legendary scorpion of the ancients, was voluntarily stinging itself with...

The Bell! The day began. All I saw and felt neither died nor disappeared; it merely became covered with daylight, as our visible world does not die or disappear at the end of the day but merely becomes covered with the darkness of night. My head was filled with a light, a thin haze. Through that haze I perceived the long glass tables and the globe-like heads busy chewing—slowly, silently, in unison. At a distance, through the haze, the metronome was slowly beating its tick-tock, and to the accompaniment of this customary and caressing music I joined with the others in counting automatically to fifty: fifty is the number of chewing movements required by the law of the State for every piece of food. And auto-maritally then, keeping time, I went downstairs and put my name down in the book for the outgoing Numbers, as everyone did. But I felt I lived separately from everybody; I lived by myself separated by a soft wall which absorbed noises; beyond that wall there was my own world.

Here a thought occurred to me. If that world is only my own, why should I tell about it in these records? Why should I recount all these absurd "dreams" about closets, endless corridors? With great sorrow I notice that! instead of a correct and strictly mathematical poem in honor of the United State I am writing a fantastic novel, Oh! if only it were a novel and not my

actual life, full of X's, square roots of minus one, and downfalls! Yet all may be for the best. Probably you., my unknown readers, are children still as compared with us. We are brought up by the united State; consequently we have reached the highest summits attainable by man. And you, being children, may swallow without crying all the bitter things I am to give you only if they be coated with the syrup of adventures.

The Same Evening

Are you familiar with the following sensation? You are in an aero and you dash upward along a blue spiral line; the window is open and the wind rushes past your face, whistling, There is no earth. The earth is forgotten. The earth is as far from you as Venus, Saturn, or Jupiter. That is how I live now. A hurricane wind beats into my face; I forget the earth, forget rosy, dear O-90, Yet the earth does exist, and sooner or later I must plane down to that earth; only I close my eyes to avoid seeing the date at which the name O-90 is written on my Tables.

This evening the distant earth reminded me of itself. In order to fulfill the recommendation of the doctor (I desire sincerely, most sincerely I desire, to be cured), I wandered for two hours and eight minutes over the straight lines of the deserted avenues. Everybody was in the auditoriums, in accordance with the Table. Only I, cut off from the rest, I was alone. Strictly speaking, it was a very unnatural situation. Imagine a finger cut off from the whole, from the hand; a separate human finger, somewhat hunched, running over the glass sidewalk. I was such a finger. What seemed most strange and unnatural was that the finger had no desire to be with its hand, with its fellows. I want either to be alone or with her; to transfuse my whole being

into hers through a contact with her shoulder or through our interwoven fingers.

I came home as the sun was setting. The pink dust of evening was covering the glass of the walls, the golden peak of the Accumulating Tower, the voices and smiles of the Numbers. Isn't it strange: the passing rays of the evening sun fall to the earth at the same angle as the awakening rays of the morning, yet they make everything seem so different; the pink tinge is different. At sunset it is so quiet, somewhat melancholy; at sunrise it is resounding, boisterous.

When I entered the hall downstairs I saw U-, the controller. She took a letter from the heaps of envelopes covered with pink dust and handed it to me. I repeat: she is a very respectable woman, and I am sure she has only the very best feelings toward me. Yet, every time I see those cheeks hanging down, which look like the gills of a fish, I ...

Holding out her dry hand with the letter, U- sighed. But that sigh only very slightly moved in me the curtains which separate me from the rest of the world. I was completely engrossed by the envelope which trembled in my hand. I had no doubt that it was a letter from I-330.

At that moment I heard another sigh, such a deliberate one, underscored with two lines, that I raised my eyes from the envelope and saw a tender, cloudy smile coming from between the gills, through the bashful blinds of lowered eyes. And then:

"You poor, poor dear!" A sigh underscored with three lines, and a glance

at the letter, an imperceptible glance. (What was in the letter she naturally knew, ex officio.)

"No, really? ...Why?"

"No, no, dear, I know better than you. For a long time I have watched you, and I see that you need someone with years of experience of life to accompany you.

I felt all pasted around by her smile. It was like a plaster upon the wounds which were to be inflicted upon me by the letter I held in my hand. Finally, through the bashful blinds of her eyes, she said in a very low voice: "I shall think about it, dear. I shall think it over. And be sure that if I feel myself strong enough..."

"Great Well-Doer! Is it possible that is my lot? ... Is it possible that she means to say, that she?... "

My eyes were dimmed and filled with thousands of sinusoids; the letter was trembling. I went near the light to the wall. There the light of the sun was going out; from the sun the dark, sad, pink dust was falling thicker and thicker, covering the floor, my hands, the letter. I opened the envelope and found the signature as fast as I could—the first wound! It was not I-330; it was O-90! And another wound: in the right-hand corner a slovenly splash, a blot! I cannot bear blots. It matters little whether they are made by ink or by...Well, it doesn't matter by what. Heretofore, such a blot would have had only a disagreeable effect, disagreeable to the eyes; but now—why did that small gray blot seem like a cloud, and seem to spread about me a leaden,

bluish darkness? Or was it again the "soul" at work? Here is a transcript of the letter:

You know, or perhaps you don't...I cannot write well. Little it matters! Now you know that without you there is for me not a single day, a single morning, a single spring, for R- is only ...Well, that is of no importance to you. At any rate, I am very grateful to him, for without him, alone all these days, I don't know what would...During these last few days and nights I have lived through ten years, or perhaps twenty years. My room seemed to me not square but round; I walk around without end, round after round, always the same thing, not a door to escape through. I cannot live without you because I love you; and I should not, I cannot be with you any more because I love you! Because I see and I understand that you need no one now, no one in the world save that other, and you must realize that it is precisely because I love you that I must...

I need another two or three days in order to paste together the fragments of myself and thus restore at least something similar to the O-90 of old. Then I shall go myself, and I myself shall state that I take your name from my list, and this will be better for you; you must feel happy now. I shall never again... Good-by, O-.

Never again. Yes, that is better. She is right. But why, then? ...Why, then?...

RECORD NINETEEN

The Infinitesimal of the Third Order

From Under the Forehead

Over the Railing

There in the strange corridor lighted by the dotted line of dim little electric lamps...or no, no, later, when we had already reached one of the nooks in the courtyard of the Ancient House, she had said, "Day after tomorrow." That "day after tomorrow" is today...And everything seems to have wings and to fly; the day flies; and our Integral, too, already has wings. We finished placing the motor, and tried it out today, without switching it in. What magnificent, powerful salvos! To me each of them sounded like a salute in honor of her, the only one—in honor of today!

At the time of the first explosion about a dozen loaf— ing Numbers from the docks stood near the main tube— and nothing was left of them save a few crumbs and a little soot. With pride I now write that this occurrence did not disturb the rhythm of our work for even a sec— ond. Not a man shrank. We and our lathes continued our rectilinear or curved motions with the same sparkling and polished precision as before, as if nothing had happened. As a matter of fact, what did happen? A dozen Numbers represent scarcely one hundred millionth part of the United State. For practical consideration, that is but an infinitesimal of the third order. Pity, a result of arithmeti— cal ignorance, was known to the ancients; to us it seems absurd.

It also seems droll to me, that yesterday I was think— ing, even relating in these pages about a gray blot! All that was only the "softening of the surface" which is nor— mally as hard as diamond, like our walls. (There is an an— cient saying: "Shooting beans at a stone wall... ")

Sixteen o'clock. I did not go for the supplementary walk; who knows, she might come now, when the sun is so noisily bright?

I am almost the only one in this room. Through the walls full of sunshine I see for a distance to the right and to the left, and below strings of other rooms, repeating each other as if in a mirror, hanging in the air and empty. Only on the bluish stairway, striped by the golden ink of the sun, a thin, gray shadow is seen rising. Already I hear steps, and I see through the door, and I feel a smile pasted to my face like a plaster. But it passed to another stairway and down. The click of the switchboard! I threw myself to that little white slit and.., an unfamiliar male Number! (A consonant means a male Number.)

The elevator groaned and stopped. A big, slovenly, slanting forehead stood before me, and the eyes...They impressed me strangely; it seemed as if the man talked with his eyes which were deep under the forehead.

"Here is a letter from her, for you." (From under the awning of that forehead.) "She asked that everything...as requested in the letter...without fail." This, too, from under the forehead, from under the awning, and he turned, looked about.

"No, there is nobody, nobody. Quickly! the letter!"

He put the letter in my hand and went out without a word.

A pink check fell out of the envelope. It was hers, her check! Her tender perfume! I felt like running to catch up with that wonderful under-the-forehead one. A tiny note followed the check from the envelope; three lines: "The check...Lower the curtains without fail, as if I were actually with you. It is necessary that they should think that I...I am very, very sorry."

I tore the note into small bits. A glance at the mirror revealed my distorted, broken eyebrows. I took the check and was ready to do with it as I had done with the note. "She asked that everything...as requested in the letter...without fail." My arms weakened and the hands loosened. The check was back on the table. She is stronger than I, stronger than I. It seemed as if I were going to act as she wished. Besides...However, it is a long time before evening.

The check remained on the table. In the mirror—my distorted, broken eyebrows. Oh, why did I not have a doctor's certificate for today? I should like to go and walk, walk without end around the Green Wall and then to fall on my bed...to the bottom of...Yet I had to go to Auditorium No.13, and I should have to get hold of myself, so as to bear up for two hours! Two hours without motion, at a time when I wanted to scream and stamp my feet!

The lecture was on. It was very strange to hear from the sparkling tube of the phono-lecturer not the usual metallic voice but a soft, velvety, mossy one. It was a woman's voice, and I seemed to have a vision of the woman: a little, hooklike old woman, like the one at the Ancient House.

The Ancient House! Suddenly from within me a powerful fountain of ...I had to use all my strength to control myself, so as not to fill the auditorium with screams. The soft, mossy words were piercing me, yet only empty words about children and child production reached my ear. I was like a photographic plate: everything was making its imprint with a strange, senseless precision on me; the golden scythe which was nothing more than the reflection of light from the loud-speaker of the lecture apparatus: under the loud-speaker a child, a living illustration. It was leaning toward the loud-speaker, a fold of its infinitesimal unif in its mouth, its little fist clenched firmly, its thumb squeezed into the fist, a light fluffy pleat of skin at the wrist. Like a photographic plate I was taking in the impression of all this. Now I saw how its naked leg hung over the edge of the platform, the pink fan of its finger waved in the air....One minute more, one second, and the child would be on the floor!

A females scream, a wave of translucent wings, her unif on the platform! She caught the child, her lips clung to the fluffy pleat of the baby's wrist; she moved the child to the middle of the table and left the platform. The imprints were registering in me: a pink crescent of a mouth, the horns downward! Eyes like small blue saucers filled with liquid! It was O-90. And as if reading a consequential formula, I suddenly felt the necessity, the naturalness of that insignificant occurrence.

She sat down behind me, somewhat to my left. I looked back. She quietly removed her gaze from the table and the child and looked straight into me. Within again: she, I, the table on the platform—three points. And through those three points lines were drawn, a projection of some as-yet-

unforeseen events!

Later I went home through the green dusky street, which seemed many-eyed because of the electric lights. I heard myself tick-tocking like a clock. And the hands of that clock seemed to be about to pass a figure: I was going to do something, something that would cut off every avenue of retreat. She wants somebody, whom I do not know, to think she is with me. I want her; what do I care what she wants? I do not want to be alone behind the curtains, and that is all there is to it!

From behind came sounds of a familiar gait, like splashing in a ditch. I did not need to look back, I knew it was S-. He would follow me to the very door, probably. Then he would stay below on the sidewalk, and he would try to drill upward into my room with his boring eyes, until the curtains would fall, concealing something criminal.

Was he my Guardian Angel? No! My decision was made.

When I came into my room and turned on the light, I could not believe my eyes! O-90 stood at my table, or, to be more exact, she was hanging like a creased empty dress. She seemed to have no tensility, no spring beneath the dress; her arms and legs were springless, her voice was hanging and springless.

"About my letter, did you receive it? Yes? I must know your answer, I must—today."

I shrugged my shoulders. I enjoyed looking into her blue eyes which were filled with tears as if she were the guilty one, I lingered over my answer.

With pleasure I pricked her:

"Answer? Well... You are right. Undoubtedly. In everything."

"Then..."(She tried to cover the minute tremor with a smile, but it did not escape me.) "Well, all right. I shall... I shall leave you at once."

Yet she remained drooping over the table. Drooping eyelids, drooping arms and legs. The pink check of the other was still on the table. I quickly opened this manuscript, We, and with its pages I covered the check, trying to hide it from myself, rather than from O-.

"See, here, I am still busy writing. Already 101 pages! Something quite unexpected comes out in this writing."

In a voice, in a shadow of a voice, "And do you remember ... how the other day I ...on the seventh page... and it dropped "

The tiny blue saucers filled to the borders; silently and rapidly the tears ran down her cheeks. And suddenly, like the dropping of the tears, rushing forth, words:

"I cannot...I shall leave you in a moment. I shall never again...and I don't care...Only I want, I must have a child! From you! Give me a child and I will leave. I will!"

I saw she was trembling all over beneath her unif, and I felt...I, too, would soon ...would ...I put my hands behind my back and smiled.

"What? You desire to go under the Machine of the Well-Doer?"

Like a stream her words ran over the dam.

"I don't care. I shall feel it for a while within me. I want to see, to see only once the little fold of skin here at the wrist, like that one on the table in the Auditorium. Only for one day!"

Three points: she, I, and a little fist with a fluffy fold of skin there on the table!

I remember how once when I was a child they took me up on the Accumulating Tower. At the very top I bent over the glass railing of an opening in the Tower. Below, people seemed like dots; my heart contracted sweetly. "What if..." On that occasion I only clenched my hands around the railing; now I jumped over.

"So you desire ...being perfectly aware that ... "

Her eyes were closed as if the sun were beating straight into her face. A wet, shining smile!

"Yes, yes! I want it!"

Quickly I took out the pink check of the other from under the manuscript and down I went to the controller on duty. O-90 caught my hand, screamed out something, but what it was I understood only later, when I returned.

She was sitting on the edge of the bed, hands firmly clasped about the knees.

"Is it, is it her cheek?"

"what does it matter? Well, it is hers, yes."

Something cracked. It must have been the springs of the bed, for O-90 made a slight motion only. She remained sitting, her hands upon her knees.

"Well, quick..." I roughly pressed her hand. A red spot was left on her wrist (tomorrow it will become purple), where the fluffy, infantile fold ...I turned the switch; my thoughts went out with the light. Darkness, a spark, and I had jumped over the railing, down ...

RECORD TWENTY

Discharge

The Material of an Idea

The Zero Rock

Discharge is the best word for it. Now I see that it was actually like an electric discharge. The pulse of my last few days had been becoming dryer and dryer, more and more rapid, more intense. The opposite poles had been drawing nearer and nearer, and already I could hear the dry crackling; one millimeter more, and—an explosion! Then silence.

Within me there is quiet now, and emptiness like that of a house after everybody has left, when one lies ill, all alone, and hears so dearly the distinct, metallic tick-tock of thoughts.

Perhaps that "discharge" cured me at last of my torturing "soul." Again I am like all of us. At least at this moment as I write I can see, as it were, without any pain in my mental eye, how O-90 is brought to the steps of the Cube; or I see her in the Gas Bell. And if there in the Operation Department she should give my name, I do not care. Piously and gratefully I would kiss the punishing hand of the Well-Doer at the last moment. I have this right with regard to the United State: to receive my punishment. And I shall not give up this right. No Number ought, or dares, to refuse this one personal, and therefore most precious, privilege.

...Quietly, metallicity, distinctly, do the thoughts rap in the head. An invisible aero carries me into the blue height of my beloved abstractions. And I see how there in the height, in the purest rarefied air, my judgment about the only "right" bursts with a crack, like a pneumatic fire. I see clearly that only an atavism, the absurd superstition of the ancients, gives me this idea of "right."

There are ideas of moulded clay and ideas moulded of gold, or of our precious glass. In order to know the material of which an idea is made, one needs only to let fall upon it a drop of strong acid. One of these acids was known to the ancients under the name of *reductio ad absurdum*. This was the name for it, I think. But they were afraid of this poison; they preferred to believe that they saw heaven, even though it was a toy made of clay, rather than confess to themselves that it was only a blue nothing. We, on the other

hand (glory to the Well-Doer!), we are adults, and we have no need of toys. Now if we put a drop of acid on the idea of "right". Even the ancients (the most mature of them) knew that the source of right was—might! Right is a function of might. Here we have our scale: on the one side an ounce, on the other a ton. On one side "I," on the other "we," the United State. Is it not dear? To assume that I may have any "right" as far as the State is concerned is like assuming that an ounce may equilibrate a ton in a scale! Hence the natural distribution: tons—rights, grams—duties. And the natural road from nothingness to greatness is to forget that one is a gram and to feel that one is one millionth of a ton!

You ripe-bodied, bright Venerians; you sooty, black-smith-like Uranians, I almost hear your protests in this silence. But only think, everything that is great is simple. Remember, only the four rules of arithmetic are unshakable and eternal And only that mortality will be unshakable and eternal which is built upon those four rules. This is the superior wisdom, this is the summit of that pyramid around which people, red with sweat, fought and battled for centuries trying to crawl up!

Looking from this summit down to the bottom, where something is still left swarming like worms, from this summit all that is left over in us from the ancients seems alike. Alike are the unlawful coming motherhood of O-90, a murder, and the insanity of that Number who dared to throw verses into the face of the United State; and alike is the judgment for them—premature death. This is that divine justice of which those stone-housed ancients dreamed, lit by the naive pink rays of the dawn of history. Their "God" punished sacrilege as a capital crime.

You Uranians, morose and as black as the ancient Spaniards, who were wise in knowing so well how to burn at the stake, you are silent; I think you agree with me. But I hear you, pink Venerians, saying something about "tortures, executions, return to barbarism." My dear Venerians, I pity you! You are incapable of philosophical, mathematical thinking. Human history moves upward in circles, like an aero. The circles are at times golden, sometimes they are bloody, but all have 360 degrees. They go from 0° to 10°, 20°, 200°, 360°—and then again 0°. Yes, we have returned to zero. But for a mathematically working mind it is obvious that this zero is different: it is a perfectly new zero. We started from zero to the fight and came to zero on the left. Hence instead of plus zero we are at minus zero. Do you understand?

This zero appears to me now as a silent, immense, narrow rock, sharp as a blade. In cruel darkness, holding our breath, we set sail from the black night side of the zero rock. For centuries we, Columbooses, floated and floated; we made the circuit of the whole world and at last! Hurrah! Salute! We climbed up the masts; before us now was a new side of the zero rock, hitherto unknown, bathed in the polar light of the United State—a blue mass covered with rainbow sparkles! Suns!—a hundred suns! A million rainbows! What does it matter if we are separated from the other black side of the zero rock only by the thickness of a blade? A knife is the most solid, the most immortal, the most inspired invention of man. The knife served on the guillotine. The knife is the universal tool for cutting knots. The way of paradoxes follows its sharp edge, the only way becoming to a fearless mind

RECORD TWENTY-ONE

The Duty of an Author

The Ice Swells

The Most Difficult Love

Yesterday was her day and again she did not come. Again there came her incoherent note, explaining nothing. But I am tranquil, perfectly tranquil. If I act as I am told to in the note, if I go to the controller on duty, produce the pink check, and then, having lowered the curtains, if I sit alone in my room, I do all this not because I have no power to act contrary to her desire. That seems funny? Decidedly not! It is quite simple: separated from all curative, plaster-like smiles I am enabled quietly to write these very lines. This, first. And second: I am afraid to lose in her, in I-330, perhaps the only clue I shall ever have to an understanding of all the unknowns, like the story of the cupboard, or my temporary death, for instance. To understand, to discover these unknowns as the author of these records, I feel to be my simple duty. Moreover, the unknown is naturally the enemy of man. And Homo sapiens only then becomes man in the complete sense of the word, when his punctuation includes no question marks, only exclamation points, commas, and periods.

Thus, guided by what seems to me my simple duty as an author, I took an aero today at sixteen o'clock and went to the Ancient House. A strong wind was blowing against me. The aero advanced with difficulty through the

thicket of air, its transparent branches whistling and whipping. The city below seemed a heap of blue blocks of ice. Suddenly—a cloud, a swift, oblique shadow. The ice became leaden; it swelled. As in springtime, when you happen to stand at the shore and wait, in one more minute everything will move and pull and crack! But the minute passes and the ice remains motionless; you feel as though you yourself are swelling, your heart beats more restlessly, more frequently.... But why do I write about all this? And whence all these strange sensations? For is there such an iceberg as could ever break the most lucid, solid crystal of our life?

At the entrance of the Ancient House I found no one. I went around it and found the old janitress near the Green Wall. She held her hand above her eyes, looking upward. Beyond the Wall, the sharp black triangles of some birds; they would rush, cawing, in onslaught on the invisible fence of electric waves, and as they felt the electricity against their breasts, they would recoil and soar once more beyond the Wall.

I noticed oblique, swift shadows on the dark, wrinkled face, a quick glance at me.

"Nobody here, nobody, nobody! No! And no use coming here..."

In what respect is it "no use," and what a strange idea, to consider me somebody's shadow. Perhaps all of you are. only my shadows. Did I not populate these pages, which only recently were white quadrangular deserts, with you? Without me could they whom I shall guide over the narrow paths of my fancies, could they ever see you?

Of course I did not say all this to the old woman. From experience I know that the most torturing thing is to inoculate someone with a doubt as to the fact that he or she is a three-dimensional reality and not some other reality. I remarked only, quite dryly, that her business was to open the gate, and she let me into the courtyard.

It was empty. Quiet. The wind remained beyond the walls, distant as on that day when shoulder to shoulder, two like one, we came out from beneath, from the corridors—if it ever really happened. I walked under stone arches; my steps resounded against the damp vaults and fell behind me, sounding as though someone were continually following me. The yellow walls with patches of red brick were watching me through their square spectacles, windows—watching me open the squeaky doors of a barn, look into corners, nooks, and hidden placesA gate in the fence and a lonely spot. The monument of the Two Hundred Years' War. From the ground naked stone ribs were sticking out. The yellow jaws of the Wall. An ancient oven with a chimney like a ship petrified forever among red-brick waves.

It seemed to me that I had seen those yellow teeth once before. I saw them still dimly in my mind, as at the bottom of a barrel, through water. And I began to search. I fell into eaves occasionally; I stumbled over stones; rusty jaws caught my unif a few times; salt drops of sweat ran from my forehead into my eyes.

Nowhere could I find that exit from below, from the corridors—nowhere! There was none. Well, perhaps it was better that it happened so. Probably all that was only one of my absurd "dreams."

Tired out, covered with cobwebs and dust, I opened the gate to return to the main yard, when suddenly...a rustle behind me, splashing steps, and there before me were the pink wing-like ears and the double-curved smile of S-. Half-closing his eyes, he bored his little drills into me and asked:

"Taking a walk?"

I was silent. My arms were heavy.

"Well, do you feel better now?"

"Yes, thank you. I think I am becoming normal again.

He let me go. He lifted his eyes, looked upward, and I noticed his Adam's apple for the first time; it resembles a broken spring sticking out from beneath the upholstery of a couch.

Above us, not very high (about fifty meters), aeros were buzzing. By their low, slow flight and by the observation tubes which hung down I recognized them. They were the aeros of the Guardians. But there were not two or three, as usual, there were about ten or twelve (I regret to have to confine myself to an approximate figure).

"Why are there so many today?" I dared to ask S-.

"Why? Hm... A real physician begins to treat a patient when he is still well but on the way to becoming sick tomorrow, day after tomorrow, or within a week. Prophylaxis! Yes!"

He nodded and went splashing over the stones of the yard. Then he

turned his head and said over his shoulder, "Be careful!"

Again I was alone. Silence. Emptiness. Far beyond the Green Wall the birds and the wind. What did he mean? My aero ran very fast with the wind. Light and heavy shadows from the clouds. Below blue cupolas, cubes of glass ice were becoming leaden and swelling

The Same Evening

I took up my pen just now in order to write upon these pages a few thoughts which, it seems to me, will prove useful to you, my readers. These thoughts are concerned with the great Day of Unanimity which is now not far away. But as I sat down, I discovered that I Could not write at present; instead, I sit and listen to the wind beating the glass with its dark wings; all the while I am busy looking about and I am waiting, expecting... What? I do not know. So I was very glad when I saw the brownish-pink gills enter my room, heartily glad, I may say. She sat down and innocently smoothed a fold of her unif that fell between her knees, and very soon she pasted upon me, all over me, a host of smiles, a bit of a smile on each crack of my face, and this gave me pleasant sensations, as if I were tightly bound like an infant of the ancients in a swaddling cloth.

"Imagine! Today, when I entered the classroom"—she works in the Child-Educational Refinery—"I suddenly noticed a caricature upon the blackboard. Indeed! I assure you! They had pictured me in the form of a fish! Perhaps I really—"

"No, no! Why do you say that?" I hastily exclaimed. When one was near

her, it was clear indeed that she had nothing resembling gills. No. When I referred to gills in these pages I was certainly irreverent.

"Oh, after all it does not matter. But the act as such, think of it! Of course I called the Guardians at once. I love children very much and I think that the most difficult and the most exalted love is—cruelty. You understand me, of course."

"Certainly!" Her sentence so closely resembled my thoughts! I could not refrain from reading to her a passage from my Record No. 20, beginning "Quietly, metallically, distinctly, do the thoughts"...etc. I felt her brownish-pink cheeks twitching and coming closer and closer to me. Suddenly I felt in my hands her firm, dry, even slightly prickling fingers.

"Give, give this to me, please. I shall have it transcribed and make the children learn it by heart. Not only your Venerians need all this, but we ourselves right now, tomorrow, day after tomorrow."

She glanced around and said in a very low voice:

"Have you heard? They say that on the Day of Unanimity—"

I sprang to my feet.

"What? What do they say? What—on the Day of Unanimity?"

The coziness of my room, its very walls, seemed to have vanished. I felt myself thrown outside, where the tremendous, shaggy wind was tossing about and where the slanting clouds of dusk were descending lower and lower...

U-boldly and firmly grasped me by the shoulders. I even noticed how her fingers, responding to my emotion, trembled slightly.

"Sit down, dear, and don't be upset. They say many things; must we believe them all? Moreover, if only you need me, I shall be near you on that day. I shall leave the school children with someone else and I shall stay with you, for you, dear, you, too, are a child and you need..."

"No, no!" I raised my hands in protest. "Not for anything! You really think then that I am a child and that I can not do without a ... Oh, no! Not for anything in the world." (I must confess I had other plans for that day!)

She smiled. The wording of that smile apparently was: "Oh, what a stubborn, what a stubborn boy!" She sat down, eyelids lowered. Her hands modestly busied themselves with fixing the fold of the unif which fell again between her knees, and suddenly, about something entirely different, she said:

"I think I must decide ...for your sake ...But I implore you, do not hurry me. I must think it over."

I did not hurry her, although I realized that I ought to have been delighted, as there is no greater honor than to crown someone's evening years.

... All night strange wings were about. I walked and protected my head with my hands from those wings. And a chair, not like ours, but an ancient chair, came in with a horse-like gait; first the right foreleg and left hind leg,

then the left foreleg and right hind leg. It rushed to my bed and crawled into it, and I liked that wooden chair, although it made me uncomfortable and caused me some pain.

It is very strange; is it really impossible to find any cure for this dream sickness, or to make it rational, perhaps even useful?

RECORD TWENTY-TWO

The Benumbed Waves

Everything Is Improving

I Am a Microbe

Please imagine that you stand at the seashore. The waves go rhythmically up, down, up Suddenly, when they have risen, they remain in that position, benumbed, torpid! It was just as weird and unnatural when everything became confused and our regular walk, which is prescribed by the Tables, suddenly came to an end. The last time such a thing happened was one hundred and nineteen years ago, when according to our historians a meteorite fell hissing and fuming into the very midst of the marchers. We were walking yesterday as usual, that is like warriors on the Assyrian monuments, a thousand heads and two composite, integrated legs and two

swinging, integrated arms. At the end of the avenue, where the Accumulating Tower was formidably resounding, a quadrangle appeared: on the sides, in front, and behind—guards; in the center—three Numbers. Their unifs were already stripped of the golden State badge; everything was painfully clear. The enormous dial on the top of the Tower looked like a face; it bent down from the clouds and, spitting down its seconds, it waited with indifference. It showed six minutes past thirteen exactly. There was some confusion in the quadrangle. I was very close, and I saw the most minute details. I clearly remember a thin, long neck and on the temple a confused net of small blue veins like rivers on the map of a small unfamiliar world, and that unknown world was apparently still a very young man. He evidently noticed someone in our ranks; he stopped, rose upon his tiptoes, and stretched his neck. One of the guards snapped his back with the bluish spark of the electric whip—he squealed in a thin voice like a puppy. The distinct snaps followed each other at intervals of approximately two seconds; a snap and a squeal, a snap and a squeal....We continued to walk as usual, rhythmically, in our Assyrian manner. I watched the graceful zigzags of the electric sparks and thought: "Human society is constantly improving, as it should. How ugly a tool was the ancient whip and how much beauty there is—"

At that moment, like a nut flying from a wheel revolving at full speed, a female Number, thin, flexible, and tense, tore herself from our rows, and with a cry, "Enough! Don't you dare!" she threw herself straight into the quadrangle. It was like the meteorite of one hundred and nineteen years ago; our march came to a standstill and our rows appeared like the gray crests of waves frozen by sudden cold. For a second I looked at that woman's figure with the eye of a stranger, as all the others did. She was no Number any

longer; she was only a human being, and she existed for us only as a substantiation of the insult which she cast upon the United State. But a motion of hers, her bending while twisting to the left upon her hips, revealed to me clearly who she was. I knew, I knew that body, flexible as a whip! My eyes, my lips, my hands knew it; at that moment I was absolutely certain....Two of the guards dashed to catch her. One more moment, and that limpid, mirror-like point on the pavement would have become the point of meeting of their trajectories, and she would have been caught! My heart fell, stopped. Without thinking whether it was permissible or not, whether it was reasonable or absurd, I threw myself straight to that point..

I felt thousands of eyes bulging with horror fixed upon me, but that only added a sort of desperately joyful power to that wild being with hairy paws which arose in me and ran faster and faster. Two more steps—she turned around—

I saw a quivering face covered with freckles, red eye-brows....It was not she! Not I-330!

A rabid, quivering joy took hold of me. I wanted to shout something like: "Catch her! Get her, that—" But I heard only my whisper. A heavy hand was already upon my shoulder; I was caught and led away. I tried to explain to them:

"But listen, you must understand that I thought that..."

But could I explain even to myself all the sickness which I have described in these pages? My light went out; I waited obediently. As a leaf

that is torn from its branch by a sudden gust of wind falls humbly, but on its way down turns and tries to catch every little branch, every fork, every knot, so I tried to catch every one of the silent, globe-like heads, or the transparent ice of the walls, or the blue needle of the Accumulating Tower which seemed to pierce the clouds.

At that moment, when a heavy curtain was about to separate me from this beautiful world, I noticed not far away a familiar, enormous head gliding over the mirror surface of the pavement and wagging its winglike ears. I heard a familiar, flat voice:

"I deem it my duty to testify that Number D-503 is ill and is unable to regulate his emotions. Moreover, I am sure that he was led by natural indignation—"

"Yes! Yes!" I exclaimed. I even shouted, 'Catch her!'"

From behind me: "You did not shout anything."

"No, but I wanted to. I swear by the Well-Doer I wanted to!"

For a second I was bored through by the gray, cold, drill eyes. I don't know whether he believed that what I said was the truth (almost!), or whether he had some secret reason for sparing me for a while, but he wrote a short note, handed it to one of those who had held me, and again I was free. That is, I was again included in the orderly, endless Assyrian rows of Numbers.

The quadrangle, the freckled face, and the temple with the map of blue veinlets disappeared forever around the corner. We walked again—a million-

headed body; and in each one of us resided that humble joyfulness with which in all probability molecules, atoms, and phagocytes live.

In the ancient days the Christians understood this feeling; they are our only, though very imperfect, direct fore-runners. The greatness of the "Church of the United Flock" was known to them. They knew that resignation is virtue, and pride a vice; that "We" is from "God," "I," from the devil.

I was walking, keeping step with the others yet separated from them. I was still trembling from the emotion just felt, like a bridge over which a thundering ancient steel train has passed a moment before. I felt myself. To feel one's self, to be conscious of one's personality, is the lot of an eye inflamed by a cinder, or an infected finger, or a bad tooth. A healthy eye, or finger, or tooth is not felt; it is nonexistent, as it were. Is it not clear, then, that consciousness of oneself is a sickness?

Apparently I am no longer a phagocyte which quietly, in a businesslike way, devours microbes (microbes with freckled faces and blue temples); apparently I am myself a microbe, and she, too, I-330, is a microbe, a wonderful, diabolic microbe! It is quite possible that there are already thousands of such microbes among us, still pretending to be phagocytes, as I pretend. What if today's accident, although in itself not important, is only a beginning, only the first meteorite of a shower of burning and thundering stones which the infinite may have poured out upon our glass paradise?

RECORD TWENTY-THREE

Flowers

The Dissolution of a Crystal

If Only (?)

They say there are flowers that bloom only once in a hundred years. Why not suppose the existence of flowers that bloom only once in a thousand years? We may have known nothing about them until now only because today is the "once in a thousand years."

Happy and dizzy, I walked downstairs to the controller on duty, and quickly under my gaze, all around me and silently, the thousand-year-old buds burst, and everything was blooming: armchairs, shoes, golden badges, electric bulbs, someone's dark heavy eyes, the polished columns of the banisters, the handkerchief which someone had lost on the stairs, the small, ink-blotted desk of the controller, and the tender, brown, somewhat freckled cheeks of U-, everything seemed not ordinary, but new, tender, rosy, moist. U- took the pink stub from me while the blue, aromatic moon, banging from an unseen branch, shone through the glass of the wall and over the head of U-. With a solemn gesture I pointed my finger and said:

"The moon. You see?"

U- glanced at me, then at the number of the stub, and again made that familiar, charmingly innocent movement with which she fixes the fold of the unif between her knees.

"You look abnormal and ill, dear. Abnormality and illness are the same thing. You are killing yourself. And no one would tell you that, no one!"

That "No one" was certainly equivalent to the number on the stub, I-330. This thought was confirmed by an ink blot which fell close to the figure 330. Dear, wonderful U-! You are right, of course. I am not reasonable. I am sick. I have a soul. I am a microbe. But is blooming not a sickness? Is it not painful when the buds are bursting? And don't you think that spermatozoa, are the most terrible of all microbes?

Back upstairs to my room. In the widely open cup of the armchair was I-330. I, on the floor, embracing her limbs, my head on her lap. We were silent. Everything was silent. Only the pulse was audible. Like a crystal I was dissolving in her, in I-330. I felt most distinctly how the polished facets which limited me in space were slowly thawing, melting away, I was dissolving in her lap, in her, and I became at once smaller and larger, and larger, unembraceable. For she was not she but the whole universe. For a second I and that armchair near the bed, transfixed with joy, we were one. And the wonderfully smiling old woman at the gate of the Ancient House, and the wild debris beyond the Green Wall, and some strange silver wreckage on a black background, dozing like the old woman, and the slam of a door in the distance—all this was within me, was listening to my pulse and soaring through the happiest of seconds.

In absurd, confused, overflowing words I attempted to tell her that I was a crystal and that there was a door in me, and that I felt how happy the armchair was. But something nonsensical came out of the attempt and I stopped. I was ashamed. And suddenly:

"Dear I-! Forgive me! I understand nothing. I talk so foolishly!"

"And why should you think that foolishness is not fine? If we had taken pains to educate human foolishness through centuries, as we have done with our intelligence, it might perhaps have been transformed into something very precious."

And I think she is right! How could she be wrong at that moment?

"... And for this foolishness of yours and for what you did yesterday during the walk, I love you the more, much more.

"Then why did you torture me? Why would you not come? Why did you send me the pink check and make me—?"

"Perhaps I wanted to test you. Perhaps I must be sure that you will do anything I wish, that you are completely mine."

"Yes, completely."

She took my face, my whole self, between her palms, lifted my head.

"And how about, 'It is the duty of every honest Number'? Eh?"

Sweet, sharp white teeth—a smile. In the open cup of the armchair she

was like a bee, sting and honey combined.

Yes, duty....I turned over in my mind the pages of my records; indeed there is not a thought about the fact that strictly speaking I should...

I was silent. Exaltedly, and probably stupidly, I smiled, looking into the pupils of her eyes. I followed first one eye and then the other, and in each of them I saw myself, a millimetric self imprisoned in those tiny rainbow cells. Then again the lips and the sweet pain of blooming.

In each Number of the United State there is an unseen metronome that tick-tocks silently; without looking at the clock we know exactly the time of day within five minutes. But now my metronome had stopped, and I did not know how much time had passed. In fright I grasped my badge with its clock from under the pillow. Glory be to the Well-Doer! I had twenty minutes more! But those minutes were such tiny, short ones! They ran! And I wanted to tell her so many things. I wanted to tell her all about myself; about the letter from O- and about that terrible evening when I gave her a child; and for some reason also about my childhood, about our mathematician Plappa, and about the square root of minus one; and how, when I attended the glorification on the Day of Unanimity for the first time in my life, I wept bitterly because there was an inkstain on my unif—on such a holy day!

I-330 lifted her head. She leaned on her elbow. In the corners of her lips two long, sharp lines and the dark angle of lifted eyebrows—a cross.

"Perhaps on that day..." her brow grew, darker; she took my hand and pressed it hard. "Tell me, will you ever forget me? Will you always

remember me?"

"But why such talk? What is it, I-, dear? "

She was silent. And her eyes were already sliding past me, through me, away into the distance. I suddenly heard the wind beating the glass with its enormous wings. Of course it had been blowing all the while, but I had not noticed it until then. And for some reason those cawing birds over the Green Wall came to my mind.

I-330 shook her head with a gesture of throwing something off. Once more she touched me for a second with her whole body, as an aero before landing touches the ground for a second with all the tension of a recoiling spring.

"Well, give me my stockings, quick!"

The stockings were on the desk, on the open manuscript, on page 124. Being in haste, I caught some of the pages and they were scattered over the floor, so that it was hard to put them back in the proper order. Moreover, even if I put them in that order there will be no real order; there are obstacles to that anyway, some undiscoverable unknowns.

"I can't bear it," I said. "You are here, near me, yet you seem to be behind an opaque ancient wall; through that wall I hear a rustle and voices; I cannot make out the words, I don't know what is there. I cannot bear it. You seem always to withhold something from me; you have never told me what kind of place it was where I found myself that day beneath the Ancient House. Where did those corridors lead? Why was the doctor there—or

perhaps all that never happened?"

I-330 put her hands on my shoulders and slowly entered deeply into my eyes.

"You want to know all?"

"Yes, I do."

"And you would not be afraid to follow me anywhere? Wherever I should lead you?"

"Anywhere!"

"All right then. I promise you, after the holiday, if only ...Oh, yes, there is your Integral. I always forget to ask; will it soon be completed?"

"No. 'If only' what? Again! 'If only' what?"

She, already at the door: "You shall see."

I was alone again. All that she left behind her was a barely perceptible scent, similar to that of a sweet, dry, yellow dust of flowers from behind the Green Wall; also, sunk deeply within me, question marks like small hooks similar to those the ancients used for fishing (vide the Prehistoric Museum).

...Why did she suddenly ask about the Integral?

RECORD TWENTY-FOUR

The Limit of the Function

Easter

To Cross Out Everything

I am like a motor set in motion at a speed of too many revolutions per second; the bearings have become too hot, and in one more minute the molten metal will begin to drip and everything will go to the devil. Cold water! Quick! Some logic! I pour on pailfuls of it, but my logic merely sizzles on the hot metal and disappears into the air in the form of vapor.

Of course it is clear that in order to establish the true meaning of a function one must establish its limit. It is also clear that yesterday's "dissolution in the universe" taken to its limit is death. For death is exactly the most complete dissolution of the self in the universe. Hence: $L=f(D)$, love is the function of death.

Yes, exactly, exactly! That is why I am afraid of I-330; I struggle against her, I don't want...But why is it that within me "I don't want to" and "I want to" stand side by side? That is the chief horror of the matter; I continue to long for that happy death of yesterday. The horror of it is that even now, when I have integrated the logical function, when it becomes evident that that function contains death hidden within it, still I long for it with my lips, my arms, my heart, with every millimeter....

Tomorrow is the Day of Unanimity. She will certainly be there and I shall see her, though from a distance. That distance will be painful to me, for I must be, I am inevitably drawn, close to her, so that her hands, her shoulder, her hair...I long for even that pain....Let it come....Great Well-Doer! How absurd to desire pain! Who is ignorant of the simple fact that pains are negative items that reduce that sum total we call happiness? Consequently...Well, no "consequently"...Emptiness....Nakedness!

The Same Evening

Through the glass wall of the house I see a disquieting, windy, feverishly pink sunset. I move my armchair to avoid that pinkness and turn over these pages, and I find I am forgetting that I write this not for myself but for you unknown people whom I love and pity, for you who still lag centuries behind, below. Let me tell you about the Day of Unanimity, about that Great Day. I think it is for us what Easter was for the ancients. I remember I used to prepare an hour calendar on the eve of that day; solemnly I would cross out every time the figure of the hour elapsed: nearer by one hour! one hour less to wait!...If I were certain that nobody would discover it, I assure you I should now, too, make out such a calendar and carry it with me; and I should watch how many hours remain until tomorrow....When I shall see, at least from a distance...

(I was interrupted. They brought me a new unif from the shop. As is customary, new unifs are given to us for tomorrow's celebration. Steps in the hail, exclamations of joy, noises.)

I shall continue; tomorrow I shall see the same spectacle which we see

year after year, and which always awakes in us fresh emotions, as if we saw it for the first time: an impressive throng of piously lifted arms. Tomorrow is the day of the yearly election of the Well-Doer. Tomorrow we shall again hand over to our Well-Doer the keys to the impregnable fortress of our happiness. Certainly this in no way resembles the disorderly, unorganized election days of the ancients, on which (it seems so funny!) they did not even know in advance the result of the election. To build a state on some nondiscountable contingencies, to build blindly—what could be more nonsensical? Yet centuries had to pass before this was understood!

Needless to say, in this respect as in all others we have no place for contingencies; nothing unexpected can happen. The elections themselves have rather a symbolic meaning. They remind us that we are an united, powerful organism of millions of cells, that—to use the language of the "gospel" of the ancients—we are a united church. The history of the United State knows not a single case in which upon this solemn day even a solitary voice has dared to violate the magnificent unison.

They say that the ancients used to conduct their elections secretly, stealthily like thieves. Some of our historians even assert that they would come to the electoral celebrations completely masked. Imagine the weird, fantastic spectacle! Night. A plaza. Along the walls the stealthily creeping figures covered with mantles. The red flame of torches dancing in the wind....Why was such secrecy necessary? It has never been satisfactorily explained. Probably it resulted from the fact that elections were associated with some mystic and superstitious, perhaps even criminal, ceremonies. We have nothing to conceal or to be ashamed of; we celebrate our election

openly, honestly, in daylight. I see them all vote for the Well-Doer, and everybody sees me vote for the Well-Doer. How could it be otherwise, since "all" and "I" are one "we"? How ennobling, sincere, lofty this is, compared with the cowardly, thievish "secrecy" of the ancients! And how much more expedient! For even admitting for a moment the impossible—that is, the outbreak of some dissonance in our customary unity—our unseen Guardians are always right there among us, are they not, to register the Numbers who might fall into error and save them from any further false steps? The United State is theirs, the Numbers'! And besides...

Through the wall to my left a she.Number before the mirror door of the closet; she is hastily unbuttoning her unif. For a second, swiftly—eyes, lips, two sharp, pink...the curtains fell. Within me, all that happened yesterday instantly awoke, and now I no longer know what I meant to say by "besides..." I no longer wish to—I cannot. I want one thing. I want I-330, I want her every minute, every second, to be with me, with no one else. All that I wrote about Unanimity is of no value; it is not what I want; I have a desire to cross it out, to tear it to pieces and throw it away. For I know (be it a sacrilege, yet it is the truth) that a glorious Day is possible only with her and only when we are side by side, shoulder to shoulder. Without her tomorrow's sun will appear to me only as a little circle cut out of a tin sheet, and the sky a sheet of tin painted blue, and I myself...I snatched the telephone receiver.

"I-330, are you there?"

"Yes, it is I. Why so late.?"

"Perhaps not too late yet. I want to ask you ... I want you to be with me

tomorrow—dear!"

I said "Dear" in a very low voice. And for some reason a thing I saw this morning at the docks flashed through my mind: just for fun someone had put a watch under the hundred-ton sledge hammer.... A swing, a breath of wind in the face, and the silent, hundred-ton, knife-like weight on the breakable watch...

A silence. I thought I heard someone's whisper in I-330's room. Then her voice:

"No, I cannot. Of course you understand that I myself...No, I cannot.'Why?' You shall see tomorrow."

Night.

RECORD TWENTY-FIVE

The Descent from Heaven

The Greatest Catastrophe in History

The Known—Is Ended

At the beginning all arose, and the Hymn, like a solemn mantle, slowly

waved above our heads. Hundreds of tubes of the Musical Tower, and millions of human voices. For a second I forgot everything; I forgot that alarming something at which I-330 had hinted in connection with today's celebration; I think I even forgot about her. At that moment I was the very same little boy who once wept because of a tiny inkstain on his unif, which no one else could see. Even if nobody else sees that I am covered with black, ineffaceable stains, I know it, don't I? I know that there should be no place for a criminal like me among these frank, open faces. What if I should rush forward and shout out everything about myself all at once! The end might follow. Let it happen! At least for a second I would feel myself clear and clean and senseless like that innocent blue sky....

All eyes were directed upward; in the pure morning blue, still moist with the tears of night, a small dark spot appeared. Now it was dark, now bathed in the rays of the sun. It was He, descending to us from the sky, He—the new Jehovah—in an aero, He, as wise and as lovingly cruel as the Jehovah of the ancients. Nearer and nearer He came, and higher toward Him were drawn millions of hearts. Already He saw us. And in my mind with Him I looked over everything from the heights: concentric circles of stands marked with dotted blue lines of unifs— like circles of a spiderweb strewn with microscopic suns (the shining badges). And in the center the wise white spider would soon occupy His place—the Well-Doer clad in white, the Well-Doer who wisely tangled our hands and feet in the salutary net of happiness.

His magnificent descent from the sky was accomplished. The brassy Hymn came to silence; all sat down. At once I perceived that everything was really a very thin spiderweb the threads of which were stretched tense and

trembling—and it seemed that in a moment those threads might break and something improbable...

I half-rose and looked around, and I met many lovingly worried eyes which passed from one face to another. I saw someone lifting his hand and almost imperceptibly waving his fingers—he was making signs to another. The latter replied with a similar finger sign. And a third....I understood; they were the Guardians. I understood; they were alarmed by something—the spider-web was stretched and trembling. And within me, as if tuned to the same wave-length, within me there was a corresponding quiver.

On the platform a poet was reciting his preelectoral ode. I could not hear a single word; I only felt the rhythmic swing of the hexametric pendulum, and with its every motion I felt how nearer and nearer there was approaching some hour set for... I continued to turn over face after face like pages, but I could not find the one, the only one, I was seeking, the one I needed to find at once, as soon as possible, for one more swing of the pendulum, and...

It was he, certainly it was he! Below, past the main platform, gliding over the sparkling glass, the ear wings flapped by, the running body gave a reflection of a double-curved S-, like a noose which was rolling toward some of the intricate passages among the stands. S-, I-330,—there is some thread between them. I have always felt some thread between them. I don't know yet what that thread is, but someday I shall untangle it. I fixed my gaze on him; he was rushing farther away, behind him that invisible thread....There, he stopped...there... I was pierced, twisted together into a knot as if by a lightning-like, many-volted electric discharge; in my row, not more than 4° from me, S- stopped and bowed. I saw I-330, and beside her the smiling, repellent,

Negro-lipped R-13.

My first thought was to rush to her and cry, "Why with him? Why did you not want...?" But the salutary, invisible spiderweb bound fast my hands and feet; so gritting my teeth, I sat stiff as iron, my gaze fixed upon them. A sharp physical pain at my heart. I remember my thought: "If non-physical causes produce physical pain, then it is clear that..."

I regret that I did not come to any conclusion. I remember only that something about "heart" flashed through my mind; a purely nonsensical ancient expression, "His heart fell into his boots, passed through my head. My heart sank. The hexameter came to an end. It was about to start. What "It"?

The five-minute preelection recess established by custom. The custom-established, pre-electional silence. But this time it was not that pious, really prayer-like silence that it usually was. This time it was like the ancient days when the sky, still untamed, would roar from time to time with its "storms." It was like the "lull before the storm" of the ancient days. The air seemed to be made of transparent, vaporized east iron. You wanted to breathe with your mouth wide open. My hearing, intense to the point of pain, registered from behind a mouse-like, gnawing, worried whisper. Without lifting my eyes I saw those two, I-330 and R-13, side by side, shoulder to shoulder—and on my knees my trembling, foreign, hateful, hairy hands

Everybody was holding a badge with a clock in his hands. One....Two....Three....Five minutes. From the main platform a cast-iron, slow voice:

"Those in favor shall lift their hands."

If only I dared look straight into his eyes as I always had! If only I could think devotedly: "Here I am, my whole self!. Take me!" But now I did not dare, I had to make an effort to raise my hand, as if my joints were rusty.

The whisper of millions of hands. Someone's subdued "Ah," and I felt something was coming, falling heavily, but I could not understand what it was, and I did not have the strength or courage to take a look

"Those opposed?" ...

This was always the most magnificent moment of our celebration: all would remain sitting motionless, joyfully bowing their heads under the salutary yoke of that Number of Numbers. But now, to my horror again I heard a rustle—light as a sigh, yet it was even more distinct than the brass tube of the Hymn. Thus the last sigh in a man's life, around hI lifted my eyes, and ...

It took one hundredth of a second only; I saw thousands of hands arise "opposed" and fall back. I saw the pale, cross-marked face of I-330 and her lifted hand. Darkness came upon my eyes.

Another hundredth of a second, silence. Quiet. The Pulse. Then, as if at the sign of some mad conductor, from all over the stands a rattling, a shouting, a whirl-wind of unifs lifted by the rush, the perplexed figures of the Guardians running to and fro. Someone's heels in the air near my eyes, and close to those heels someone's wide-open mouth tearing itself in an inaudible scream. For some reason this picture remains particularly distinct in my

memory: thousands of mouths noiselessly yelling as if on the screen of a monstrous cinema. Also, as if on a screen, somewhere below at a distance, for a second, O-90, pressed against the wall in a passage, her lips white, defending her abdomen with her crossed arms. She disappeared as if washed away by a wave, or else I simply forgot her because ...

This was not on the screen any more but within me, within my compressed heart, within the rapidly pulsating temples. Over my head, somewhat to the left, R-13 suddenly jumped upon a bench, all sprinkling, red, rabid. In his arms was I-330, pale, her unif torn from shoulder to breast, red blood on white. She held him firmly around the neck, and he with huge leaps from bench to bench, repellent and agile, like a gorilla, was carrying her upward, away.

As if it were in a fire of ancient days, everything became red around me. Only one thing in my head: to jump after them, to catch them. At this moment I cannot explain to myself the source of that strength within me, but like a battering-ram I broke through the crowd, over somebody's shoulders, over a bench, and I was there in a moment and caught R-13 by the collar.

"Don't you dare! Don't you dare, I say! Immediately—"

Fortunately no one could hear my voice, as everyone was shouting and running.

"Who is it? What is the matter? What—" R-13 turned around; his sprinkling lips were trembling. He apparently thought it was one of the Guardians.

"I do not want—I won't allow— Put her down at once!"

But he only sprinkled angrily with his lips, shook his head, and ran on. Then I—I am terribly ashamed to write all this down but I behave I must, so that you, my unknown readers, may make a complete study of my disease— then I hit him over the head With all my might. You understand? I hit him. This I remember distinctly. I remember also a feeling of liberation that followed my action, a feeling of lightness in my whole body.

I-330 slid quickly out of his arms.

"Go away!" she shouted to R-. "Don't you see that he—? Go!"

R-13 showed his white Negro teeth, sprinkled into my face some word, dived down, and disappeared. And I picked up I-330, pressed her firmly to myself, and carried her away.

My heart was beating forcibly. It seemed enormous. And with every beat it would splash out such a thundering, such a hot, such a joyful wave! A flash: "Let them, below there, let them toss and rush and yell and fall; what matter if something has fallen, if something has been shattered to dust? Little matter! Only to remain this way and carry her, carry and carry ..."

The Same Evening, Twenty-two O'clock

I hold my pen with great difficulty. Such an extraordinary fatigue after all the dizzying events of this morning. Is it possible that the strong, salutary, centuries-old walls of the United State have fallen? Is it possible that we are again without a roof over our heads, back in the wild state of freedom like

our remote ancestors? Is it possible that we have lost our Well-Doer? "Opposed!" On the Day of Unanimity—opposed! I am ashamed of, them, painfully, fearfully ashamed...But who are "they"? And who am I? "They," "We"... ? Do I know?

I shall continue.

She was sitting where I had brought her, on the uppermost glass bench which was hot from the sun. Her right shoulder and the beginning of the wonderful and incalculable curve were uncovered—an exceedingly thin serpent of blood. She seemed not to be aware of the blood, or that her breast was uncovered. No, I will say rather: she seemed to see all that and seemed to feel that it was essential to her, that if her unif had been buttoned she would have torn it open, she would have ...

"And tomorrow!" She breathed the words through sparkling white clenched teeth. "Tomorrow, nobody knows what ... do you understand? Neither I nor anyone else knows; it is unknown! Do you realize what a joy it is? Do you realize that all that was certain has come to an end? Now...things will be new, improbable, unforeseen!"

Below the human waves were still foaming, tossing, roaring, but they seemed to be very far away, and to be growing more and more distant. For she was looking at me. She slowly drew me into herself through the narrow golden windows of her pupils. We remained like that, silent, for a long while. And for some reason I recalled how once I had watched some queer yellow pupils through the Green Wall, while above the Wall birds were soaring (or was this another time?).

"Listen, if nothing particular happens tomorrow, I shall take you there; do you understand?"

No, I did not understand, but I nodded in silence. I was dissolved, I became infinitesimal, a geometrical point...

After all, there is some logic—a peculiar logic of today—in this state of being a point. A point has more unknowns than any other entity. If a point should start to move, it might become thousands of curves, or hundreds of solids.

I was afraid to budge. What might I have become if I had moved? It seemed to me that everybody, like myself, was afraid now of even the most minute of motions.

At this moment, for instance, as I sit and write, everyone is sitting hidden in his glass cell, expecting something. I do not hear the buzzing of the elevators, usual at this hour, or laughter, or steps; from time to time Numbers pass in couples through the hall, whispering, on tip-toe...

What will happen tomorrow? What will become of me tomorrow?

RECORD TWENTY-SIX

The World Does Exist

Rash

Forty-one Degrees Centigrade

Morning. Through the ceiling the sky is, as usual, firm, round, red-checked. I think I should have been less surprised had I found above some extraordinary quadrangular sun, or people clad in many-colored dresses made of the skins of animals, or opaque walls of stone. Then the world, our world, does exist still? Or is it only inertia? Is the generator already switched out, while the armature is still roaring and revolving; two more revolutions, or three, and at the fourth it will die away?

Are you familiar with that strange state in which you wake up in the middle of the night, when you open your eyes into the darkness, and then suddenly feel you are lost in the dark; you quickly, quickly begin to feel around, seeking in the Journal of the United State; quickly, quickly—I found this:

The celebration of the Day of Unanimity, long awaited by all, took place yesterday. The same Well-Doer who so often has proved his unshakable wisdom was unanimously reelected for the forty-eighth time. The celebration was clouded by a little confusion, created by the enemies of happiness, who by their action naturally lost the right to be the bricks for the foundation of the renovated United State. It is clear to everyone that to take their votes into account would mean to consider as a part of a magnificent, heroic symphony the accidental cough of a sick person who happened to be in the concert hall."

Oh, great Sage! Is it really, true that despite everything we are saved? What objection, indeed, can one find to this most crystalline syllogism? And further on a few more lines:

"Today at twelve o'clock a joint meeting of the Administrative Bureau, Medical Bureau, and Bureau of Guardians will take place. An important State decree is to be expected momentarily."

No, the Walls still stand erect. Here they are! I can feel them. And that strange feeling of being lost somewhere, of not knowing where I am—that feeling is gone. I am no longer surprised to see the sky blue and the sun round and all the Numbers going to work as usual

I walked along the avenue with a particularly firm, resounding step. It seemed to me that everyone else walked exactly like me. But at the crossing, on turning the corner, I noticed people strangely shying away, going around the corner of a building sidewise, as if a pipe had burst in the wall, as if cold water were spurting like a fountain on the sidewalk and it was impossible to cross it.

Another five or ten steps and I, too, felt a spurt of cold water that struck me and threw me from the sidewalk; at a height of approximately two meters a quadrangular piece of paper was pasted to the wall, and on that sheet of paper, unintelligible, poisonously green letters:

MEPHI

And under the paper—an S-like curved back and wing ears shaking with anger or emotion. With fight arm lifted as high as possible, his left arm

hopelessly stretched out backward like a hurt wing, he was trying to jump high enough to reach the paper and tear it off, but he was unable to do so. He was a fraction of an inch too short.

Probably every one of the passers-by had the same thought: "if I go to help him, I, only one of the many, will he not think that I am guilty of something and that I am therefore anxious to..."

I must confess I had that thought. But remembering how many times he had proved my real Guardian Angel and how often he had saved me, I stepped toward him and with courage and warm assurance I stretched out my hand and tore off the sheet. S- turned around. The little drills sank quickly into me to the bottom and found something there. Then he lifted his left brow, and winked toward the wall where "Mephi" had been hanging a minute ago. The tail of his little smile even twinkled with a certain pleasure, which greatly surprised me. But why should I be surprised? A doctor always prefers a temperature of 40°C. and a rash to the slow, languid rise of the temperature during the incubation period of a disease; it enables him to determine the character of the disease. Today "Mephi" broke out on the walls like a rash. I understood his smile.

In the passage to the underground railway, under our feet on the clean glass of the steps, again a white sheet: "Mephi." And also on the walls of the tunnel, and on the benches, and on the mirror of the car (apparently pasted on in haste as some were hanging on a slant). Everywhere, the same white, gruesome rash.

I must confess that the exact meaning of that smile became clear to me

only after many days which were overfilled with the strangest and most unexpected events.

The roaring of the wheels, distinct in the general silence, seemed to be the noise of infected streams of blood. Some Number was inadvertently touched on the shoulder, and he started so that a package of papers fell out of his hands. To my left another Number was reading a paper, his eyes fixed always on the same line; the paper perceptibly trembled in his hands. I felt that everywhere, in the wheels, in the hands, in the newspapers, even in the eyelashes, the pulse was becoming more and more rapid, and I thought it probable that today when I-330 and I found ourselves there, the temperature would rise to 39°C., 40°, perhaps 41°and...

At the docks—the same silence filled with the buzzing of an invisible propeller. The lathes were silent as if brooding. Only the cranes were moving almost inaudibly as if on tiptoe, gliding, bending over, picking up with their tentacles the lumps of frozen air and loading the tanks of the Integral. We are already preparing the Integral for a trial flight.

"Well, shall we have her up in a week?" This was my question addressed to the Second Builder. His face is like porcelain, painted with sweet blue and tender little pink flowers (eyes and lips), but today those little flowers looked faded and washed out. We were counting aloud when suddenly I broke off in the midst of a word and stopped, my mouth wide open; above the cupola, above the blue lump lifted by the crane, there was a scarcely noticeable small white square. I felt my whole body trembling—perhaps with laughter. Yes! I myself heard my own laughter. (Did you ever hear your own laughter?)

"No, listen," I said. "Imagine you are in an ancient air-plane. The altimeter shows 5,000 meters. A wing breaks; you are dashing down like ...And on the way you calculate: 'Tomorrow from twelve to two ... from two to six ...and dinner at five!' Would it not be absurd?"

The little blue flowers began to move and bulge out. What if I were made of glass and he could have seen what was going on within me at that moment? If he knew that some three or four hours later...

RECORD TWENTY-SEVEN

No Headings. It Is Impossible!

I was alone in the endless corridors. In those same corridors ...A mute, concrete sky. Water was dripping somewhere upon a stone. The familiar, heavy, opaque door—and the subdued noise from behind it.

She said she would come out at sixteen sharp. It was already five minutes, then ten, then fifteen past sixteen. No one appeared. For a second I was my former self, horrified at the thought that the door might open.

"Five minutes more, and if she does not come out ..."

Water was dripping somewhere upon a stone. No one about. With

melancholy pleasure I felt: "Saved," and slowly I turned and walked back along the corridor. The trembling dots of the small lamps on the ceiling became dimmer and dimmer. Suddenly, a quick rattle of a door behind me. Quick steps, softly echoing from the ceiling and the walls. It was she, light as a bird, panting somewhat from running.

"I knew you would be here, you would come! I knew you—you... "

The spears of her eyelashes moved apart to let me in and ...How can I describe what effect that ancient, absurd, and wonderful rite has upon me when her lips touch mine? Can I find a formula to express that whirl-wind which sweeps out of my soul everything, everything save her? Yes, yes, from my soul. You may laugh at me if you will.

She made an effort to raise her eyelids, and her slow words, too, came with an effort:

"No. Now we must go."

The door opened. Old, worn steps. An unbearably multicolored noise, whistling and light....

Twenty-four hours have passed since then and everything seems to have settled in me, yet it is most difficult for me to find words for even an approximate description....It is as though a bomb had exploded in my head ... Open mouths, wings, shouts, leaves, words, stones, all these one after another in a heap....

I remember my first thought was: "Fast—back!" For it was clear to me

that while I was waiting there in the corridors, they somehow had blasted and destroyed the Green Wall, and from behind it everything rushed in and splashed over our city which until then had been kept clean of that lower world. I must have said something of this sort to I-330. She laughed.

"No, we have simply come out beyond the Green Wall. "

Then I opened my eyes, and close to me, actually, I saw those very things which until then not a single living Number had ever seen except depreciated a thousand times, dimmed and hazy through the cloudy glass of the Wall.

The sun—it was no longer our light evenly diffused over the mirror surface of the pavements; it seemed an accumulation of living fragments, of incessantly oscillating, dizzy spots which blinded the eyes, And the trees! Like candies rising into the very sky, or like spiders that squatted upon the earth, supported by their clumsy paws, or like mute green fountains. And all this was moving, jumping, rustling. Under my feet some strange little ball was crawling....I stood as though rooted to the ground. I was unable to take a step because under my foot there was not an even plane, but (imagine!) something disgustingly soft, yielding, living, springy, green!...

I was dazed; I was strangled—yes, strangled; it is the best word to express my state. I stood holding fast with both hands to a swinging branch.

"It is nothing. It is all right. It is natural, the first time. It will pass. Courage!"

At I-330's side, bouncing dizzily on a green net, someone's thinnest

profile, cut out of paper. No, not "someone's." I recognized him. I remembered. It was the doctor. I understood everything very dearly. I realized that they both caught me beneath the arms and laughingly dragged me forward. My legs twisted and glided Terrible noise, cawing, stumps, yelling, branches, tree trunks, wings, leaves, whistling....

The trees drew apart. A bright clearing. In the clearing, people, or perhaps, to be more exact, beings. Now comes the most difficult part to describe, for this was beyond any bounds of probability. It is clear to me now why I-330 was stubbornly silent about it before; I would not have believed it, would not have believed even her. It is even possible that tomorrow I shall not believe myself, shall not believe my own description in these pages.

In the clearing, around a naked, skull-like rock, a noisy crowd of three or four hundred ...people. Well, let's call them people. I find it difficult to coin new words. Just as on the stands you recognize in the general accumulation of faces only those which are familiar to you, so at first I recognized only our grayish-blue unifs. But one second later and I saw distinctly and clearly among the unifs dark, red, golden, black, brown, and white humans—apparently they were humans. None of them had any, clothes on, and their bodies were covered with short, glistening hair, like that which may be seen on the stuffed horse in the Prehistoric Museum. But their females had faces exactly, yes, exactly, like the faces of our women: tender, rosy, and not overgrown with hair. Also their breasts were free of hair, firm breasts of wonderful geometrical form. As to the males, only a part of their faces were free from hair, like our ancestors', and the organs of reproduction were similar to ours.

All this was so unbelievable, so unexpected, that I stood there quietly (I assert positively that I stood quietly) and looked around. Like a scale: overload one side sufficiently and then you may gently put on the other as much as you will; the arrow will not move.

Suddenly I felt alone. I-330 was no longer with me. I don't know how or where she disappeared. Around me were only those, with their hair glistening like silk in the sunlight. I caught someone's warm, strong, dark shoulder.

"Listen, please, in the name of the Well-Doer, could you tell me where she went? A while, a minute ago, she..."

Long-haired, austere eyebrows turned to me.

"Sh....sh ... silence!" He made a sign with his head toward the center of the clearing where there stood the yellow skull-like stone.

There above the heads of all I saw her. The sun beat straight into my eyes, and because of that she seemed coal-black, standing out on the blue cloth of the sky—a coal-black silhouette on a blue background. A little higher the clouds were floating. And it seemed that not the clouds but the rock itself, and she herself upon that rock, and the crowd and the clearing—all were silently floating like a ship, and the earth was light and glided away from under the feet....

"Brothers!" (It was she.) "Brothers, you all know that there inside the Wall, in the City, they are building the Integral. And you know also that the day has come for us to destroy that Wall and all other walls, so that the green wind may blow over all the earth, from end to end. But the Integral is going

to take these walls up, up into the heights, to the thousands of other worlds which every evening whisper to us with their lights through the black leaves of night...."

Waves and foam and wind were beating the rock:

"Down with the Integral! Down!"

"No, brothers, not 'down.' The Integral must be ours. And it shall be ours. On the day when it first sets sail into the sky we shall be on board. For the Builder of the Integral is with us. He left the wails, he came with me here in order to be with us. Long live the Builder!"

A second—and I was somewhere above everything. Under me: heads, heads, heads, wide-open, yelling mouths, arms rising and falling....There was something strange and intoxicating in it all. I felt myself above everybody; I was, I, a separate world; I ceased to be the usual item; I became unity....

Again I was below, near the rock, my body happy, shaken, and rumped, as after an embrace of love. Sunlight, voices, and from above—the smiles of I-330. A golden-haired woman, her whole body silky-golden and diffusing an odor of different herbs, was nearby. She held a cup, apparently made of wood. She drank a little from it with her red lips, and then offered the cup to me. I closed my eyes and eagerly drank the sweet, cold, prickly sparks, pouring them down on the fire which burned within me.

Soon afterward my blood and the whole world began to circulate a thousand times faster; the earth seemed to be flying: light as dawn. And within me everything was simple, light, and clear. Only then I noticed on the

rock the familiar, enormous letters: M E P H I, and for some reason the inscription seemed to me necessary. It seemed to be a simple thread binding everything together. A rather rough picture hewn in the rock—this, too, seemed comprehensible; it represented a youth with wings and a transparent body and, in the place ordinarily occupied by the heart, a blinding, red, blazing coal. Again I understood that coal—or no, I felt it as I felt without hearing every word of I-330's (she continued to speak from above, from the rock); and I felt that all of them breathed one breath, and that they were all ready to fly somewhere like the birds over the Wall.

From behind, from the confusion of breathing bodies, a loud voice:

"But this is folly!"

It seems to me it was I—yes, I am certain it was I who then jumped on the rock; from there I saw the sun, the heads, a green sea on a blue background, and I cried:

"Yes, yes, precisely. All must become insane; we must become insane as soon as possible! We must: I know it."

I-330 was at my side. Her smile—two dark lines from the angles of her mouth directed upward....And within me a blazing coal. It was momentary, light, a little painful, beautiful.... And later, only stray fragments that remained sticking in me....

... Very low and slowly a bird was moving. I saw it was living, like me. It was turning its head now to the right and then to the left like a human being, and its round black eyes drilled themselves into me

... Then: a human back glistening with fur the color of ancient ivory; a mosquito crawling on that back, a mosquito with tiny transparent wings. The back twitched to chase the mosquito away; it twitched again

... And yet another thing: a shadow from the leaves, a woven, net-like shadow. Some humans lay in that shadow, chewing something, something similar to the legendary food of the ancients, a long yellow fruit and a piece of something dark. They put some of it in my hand, and it seemed strange to me for I did not know whether I might eat it or not....

...And again: a crowd, heads, legs, arms, mouths, faces appearing for a second and disappearing like bursting bubbles. For a second (or perhaps it was only a hallucination?) the transparent, flying wing ears appeared

With all my might I pressed the hand of I-330. She turned to me.

"What is the matter?"

"He is here! I thought, I-"

"Who?"

"S-, a second ago, in the crowd."

The ends of the thin, coal-black brows moved to the temples—a smile like a sharp triangle. I could not see clearly why she smiled. How could she smile?

"But you understand, I-330, don't you, you understand what it means if he, or one of them, is here?"

"You are funny! How could it ever enter the heads of those within the Wall that we are here? Remember; take yourself. Did you ever think it was possible? They are busy hunting us there—let them! You are delirious!"

Her smile was light and cheerful and I, too, was smiling; the earth was drunken, cheerful, light, floating....

RECORD TWENTY-EIGHT

Both of Them

Entropy and Energy

The Opaque Part of the Body

If your world is similar to the world of the ancients, then you may easily imagine that one day you suddenly come upon a sixth or a seventh continent, upon some Atlantis, and you find there unheard-of cities, labyrinths, people flying through the air without the aid of wings or aeros, stones lifted into the air by the power of a gaze—in brief, imagine that you see things that cannot come to your mind even if you suffer from dream sickness. That is how I feel now. For you must understand that no one has ever gone beyond the Green Wall since the Two Hundred Years' War, as I have already told you.

I know it is my duty to you, my unknown friends, to give more details about that unsuspected, strange world which has opened to me since yesterday. But for the time being I am unable to return to that subject. Everything is so novel, so novel it is like a rainstorm, and I am not big enough to embrace it all. I spread out the folds of my unif, my palms—and yet pailfuls splash past me and only drops can reach these pages

At first I heard behind me, behind the door, a loud voice. I recognized her voice, the voice of I-330, tense, metallic—and another one, almost inflexible, like a wooden ruler, the voice of U-. Then the door burst open with a crack and both of them shot into the room. Shot is the right word. I-330 put her hand on the back of my armchair and smiled over her shoulder, but only with her teeth, at U-. I should not care to stand before such a smile.

"Listen," she said to me, "this woman seems to have made it her business to guard you from me like a little child. Is it with your permission?"

"But he's a child. Yes! That is why he does not notice that you ...that it is only in order...That all this is only a foul game! Yes! And it is my duty... "

For a second (in the mirror) the broken, trembling line of brows. I leaped, controlling with difficulty the other self within me, the one with the hairy fists. With difficulty, pushing every word through my teeth, I cried straight into her face, into her very gills:

"Get out of here at once! Out! At once!"

The gills swelled at first into brick-red lumps, then fell and became gray. She opened her mouth to say something, but without a word she slammed it

shut and went out.

I threw myself toward I-330.

"Never, never will I forgive myself! She dared! You ...But you don't think, do you, that you, that she ...This is all because she wants to register on me, but I..."

"Fortunately she will not have time for that now. Besides, even a thousand like her ... I don't care....I know you will not believe that thousand, but only me. For after all that happened yesterday, I am all yours, all, to the very end, as you wanted it. I am in your hands; you can now at any moment...."

"What, 'at any moment'?" (But immediately I understood what. The blood rushed to my ears and cheeks.) "Don't speak about that, you must never speak about that! The other I, my former self...but now..."

"How do I know? Man is like a novel: up to the last page one does not know what the end will be. It would not be worth reading otherwise."

She was stroking my head. I could not see her face, but I could tell by her voice that she was looking somewhere far into the distance; she had hooked herself on to that cloud which was floating silently, slowly, no one knows where to.

Suddenly she pushed me away with her hand, firmly but tenderly.

"Listen. I came to tell you that perhaps we are now...our last days...You know, don't you, that all Auditoriums are to be closed after tonight?"

"Closed?"

"Yes. I passed by and saw that in all Auditoriums preparations are going on: tables, medics all in white ..."

"But what does it all mean?"

"I don't know. Nobody knows as yet. That's the worst of it. I feel only that the current is on, the spark is jumping, and if not today, then tomorrow....Yet perhaps they will not have time...."

It has been a long while since I ceased to understand who they are and who we are. I do not understand what I want; do I want them to have or not to have enough time? One thing is clear to me: I-330 is now on the very edge, on the very edge, and in one second more...

"But it is folly," I said. "You, versus the United State! It's the same as if you were to cover the muzzle of a gun with your hands and expect that way to prevent the shot....It is absolute folly!"

A smile.

"We must all go insane—as soon as possible go insane. It was yesterday, do you remember?"

Yes, she was right; I had even written it down. Consequently, it really had taken place. In silence I looked into her face. At that moment the dark cross was especially distinct.

"I-, dear, before it is too late... If you want...I'll leave everything, I'll forget everything, and we'll go there beyond the Wall, to them....I do not even know who they are....

She shook her head. Through the dark windows of her eyes I saw within her a flaming oven, sparks, tongues of flame, and above them a heap of dry wood. It was clear to me that it was too late, my words could be of no avail.

She stood up. She would soon leave. Perhaps these were the last days, or the last minutes....I grasped her hand.

"No, stay a little while longer...for the sake...for the sake..."

She slowly lifted my hand toward the light, my hairy paw which I detest. I wanted to withdraw it, but she held it tightly.

"Your hand...You undoubtedly don't know, and very few do know, that women from here occasionally used to fall in love with them. Probably there are in you a few drops of that blood of the sun and the woods. Perhaps that is why I..."

Silence. It was so strange that because of that silence, because of an emptiness, because of a nothing, my heart should beat so wildly. I cried:

"Ah, you shall not go yet! You shall not go until you tell me about them, for you love...them, and I don't even know who they are, nor where they come from."

"Where are they? The half we have lost. —H₂and O, two halves, but in order to get water—H₂O, creeks, seas, waterfalls, storms—those two halves

must be united."

I distinctly remember every movement of hers. I remember she picked up a glass triangle from my table, and while talking she pressed its sharp edge against her cheek; a white scar would appear, then it would fill again and become pink and disappear. And it is strange that I cannot remember her words, especially the beginning of the story. I remember only different images and colors. At first, I remember, she told me about the Two Hundred Years' War. Red color.... On the green of the grass, on the dark clay, on the pale blue of the snow—everywhere red ditches that would not become dry. Then, yellow; yellow grass burned by the sun, yellow, naked wild men and wild dogs side by side near swollen cadavers of dogs or perhaps of men. All this certainly beyond the Walls, for the City was already the victor, and it already possessed our present—day petroleum food. And at night...down from the sky... heavy black folds. The folds would swing over the woods, the villages— blackish-red, slow columns of smoke. A dull moaning; endless strings of people driven into the City to be saved by force and to be whipped into happiness.

"...You knew almost all this."

"Yes, almost."

"But you did not know, and only a few did, that a small part of them remained together and stayed to live beyond the Wall. Being naked, they went into the woods. They learned there from the trees, beasts, birds, flowers, and sun. Hair soon grew over their bodies, but under that hair they preserved their warm red blood. With you it was worse; numbers covered your bodies;

numbers crawled over you like lice. One ought to strip you of everything, and naked you ought to be driven into the woods. You ought to learn how to tremble with fear, with joy, with wild anger, with cold; you should pray to fire! And we Mephi, we want... "

"Wait a minute! 'Mephi,' what does it mean?"

"Mephi? It is from Mephisto, You remember, there on the rock, the figure of the youth? Or, no. I shall explain it to you in your own language, and you will understand better. There are two forces in the world, entropy and energy. One leads into blessed quietude, to happy equilibrium, the other to the destruction of equilibrium, to torturingly perpetual motion. Our, or rather your ancestors, the Christians, worshiped entropy like a God. But we are not Christians, we..."

At that moment a slight whisper was suddenly heard, a knock at the door, and in rushed that flattened man with the forehead low over his eyes, who several times had brought me notes from I-330. He ran straight to us, stopped, panting like an air pump, and could say not a word, as he must have been running at top speed.

"But tell me! What has happened?" I-330 grasped him by the hand.

"They are coming here," panted the air pump, "with guards....And with them that what's-his-name, the hunchback..."

"S-?"

"Yes. They are in the house by this time. They'll soon be here. Quick,

quick!"

"Nonsense, we have time!" I-330 was laughing, cheerful sparks in her eyes. It was either absurd, senseless courage, or else there was something I did not understand.

"I-, dear, for the sake of the Well-Doer! You must understand that this..."

"For the sake of the Well-Doer!" The sharp, triangle smile.

"Well... well, for my sake, I implore you!"

"Oh, yes, I wanted to talk to you about some other matters....Well, never mind.... We'll talk about them tomorrow."

And cheerfully (yes, cheerfully) she nodded to me; the other came out for a second from under his forehead's awning and nodded also. I was alone.

Quick! To my desk! I opened this manuscript and took up my pen so that they should find me at this work, which is for the benefit of the United State. Suddenly I felt every hair on my head living, separated, moving. "What if they should read even one page of these most recently written?"

Motionless I sat at the table, but everything around me seemed to be moving, as if the less than microscopic movements of the atoms had suddenly been magnified millions of times; I saw the walls trembling, my pen trembling, and the letters swinging and fusing together. "To hide them! But where?" Glass all around. "To burn them?" But they would notice the fire through the corridor and in the neighboring room. Besides, I felt unable, I felt

too weak, to destroy this torturing and perhaps dearest piece of my own self....

Voices from a distance (from the corridor), and steps. I had time only to snatch a handful of pages and put them under me and then, as if soldered to the armchair—every atom of which was quivering—I remained sitting, while the floor under my feet rolled like the deck of a ship, up and down....

All shrunk together and hidden under the awning of my own forehead, like that messenger, I watched them stealthily; they were going from room to room, beginning at the right end of the corridor. Nearer...nearer....I saw that some sat in their rooms, torpid like me; others would jump up and open their doors wide—lucky ones! If only I, too, could....

"The Well-Doer is the most perfect fumigation humanity needs; consequently, no peristalsis in the organism of the United State could...."I was writing this nonsense, pressing my trembling pen hard, and lower and lower my head bent over the table, and within me some sort of crazy forge...With my back I was listening....and I heard the click of the doorknob.... A current of fresh air....My armchair was dancing a mad dance Only then, and even then with difficulty, I tore myself away from the page and turned my head in the direction of the newcomers (how difficult it is to play a foul game!). In front of all was S-, morose, silent, his eyes swiftly drilling deep shafts within me, within my armchair, and within the pages which were twitching in my hands. Then for a second—familiar, everyday faces at the door; one of them separated itself from the rest with its bulging, pinkish-brown gills....

At once I recalled everything that had happened in the same room half an hour ago, and it was clear to me that they would presently...

All my being was shriveling and pulsating in that fortunately opaque part of my body with which I was covering the manuscript. U-came up to S-, gently plucked his sleeve, and said in a low voice:

"This is D-503, the builder of the Integral. You have probably heard of him. He is always like that, at his desk—does not spare himself at all!"

... And I thought... What a dear, wonderful woman!...

S- slid up to me, bent over my shoulder toward the table. I covered the lines I had written with my elbow, but he shouted severely:

"Show us at once what you have there, please!"

Dying with shame, I held out the sheet of paper. He read it over, and I noticed a tiny smile jump out of his eyes, scamper down his face, and, slightly wagging its tail, perch upon the right angle of his mouth....

"Somewhat ambiguous, yet...Well, you may continue; we shall not disturb you any further."

He went splashing toward the door as if in a ditch of water. And with every step of his I felt coming back to me my legs, my arms, my fingers—my soul again distributed itself evenly throughout my whole body; I breathed....

The last thing: U- lingered in my room to come back to me and say right in my ear, in a whisper: "It is lucky for you that I..."

I did not understand. What did she mean by that? The same evening I learned that they had led away three Numbers, although nobody speaks aloud about it, or about anything that happened. This ostensible silence is due to the educational influence of the Guardians who are ever present among us. Conversations deal chiefly with the quick fall of the barometer and the forthcoming change in the weather.

RECORD TWENTY-NINE

Threads on the Face

Sprouts

An Unnatural Compression

It is strange: the barometer continues to fall, yet there is no wind. There is quiet. Above, the storm which we do not yet hear has begun. The clouds are rushing with terrific speed. There are few of them as yet, separate fragments; it is as if above us an unknown city were being destroyed and pieces of walls and towers were rushing down, coming nearer and nearer with tremendous speed, but it will take some days of rushing through the blue infinite before they reach the bottom, that is us, below. And below there is silence.

There are thin, incomprehensible, almost invisible threads in the air; every autumn they are brought here from beyond the Wall. They float slowly, and suddenly you feel something foreign and invisible on your face; you want to brush it off, but no, you cannot rid yourself of it. You feel it especially near the Green Wall, where I was this morning. I-330 made an appointment with me to meet her in the Ancient House in that "apartment" of ours.

I was not far from the rust-red, opaque mass of the Ancient House when I heard behind me short, hasty steps and rapid breathing. I turned around and saw O-90 trying to catch up to me. She seemed strangely and perfectly rounded. Her arms and breast, her whole body, so familiar to me, was rounded out, stretching her unif. It seemed as though it would soon tear the thin cloth and come out into the sun, into the light. I think that there in the green debris, in springtime, the unseen sprouts try thus to tear their way through the ground in order to send forth their branches and leaves and to bloom.

For a few seconds she stared into my face with her blue eyes, in silence.

"I saw you on the Day of Unanimity."

"I saw you, too." I at once remembered; below, in a narrow passage she had stood, pressing herself to the wall, protecting her abdomen with her arms; and automatically I now glanced at her abdomen which rounded the unif. She must have noticed, for she became pink, and with a rosy smile:

"I am so happy...so happy! I am so full of...you understand, I am...I walk

and I hear nothing around me.... And all the while I listen within, within me.... "

I was silent. Something foreign was shadowing my face and I was unable to rid myself of it. Suddenly, all shining, light blue, she caught my hand; I felt her lips upon it.... It was the first time in my life.... It was some ancient caress as yet unknown to me.... And I was so ashamed and it pained me so much that I swiftly, I think even roughly, pulled my hand away.

"Listen, you are crazy, it seems.... And anyway you... What are you happy about? Is it possible that you forget what is ahead of you? If not now, then within a month or two "

Her light went out, her roundness sagged and shrank. And in my heart an unpleasant, even a painful compression, mixed with pity. Our heart is nothing else than an ideal pump: a compression, i.e., a shrinking at the moment of pumping, is a technical absurdity. Hence it is clear how essentially absurd, unnatural, and pathological are all these "loves" and "pities," etc., etc., which create that compression....

Silence. To the left the cloudy green glass of the Wall. And just ahead the dark red mass. Those two colors combined gave me what I thought was a splendid idea.

"Wait! I know how to save you! I shall save you from... To see one's own child for a few moments only, and then be sent to death! No! You shall be able to bring it up! You shall watch it and see it grow in your arms, and ripen like a fruit.... "

Her body quivered and she seemed to have chained herself to me.

"Do you remember that woman, I-330? That...of...of long ago?...Who during that walk? ...Well, she is now right here, in the Ancient House. Let us go to her and I assure you that I shall arrange matters at once."

I already pictured us, I-330 and I, leading O-90 through the corridors... then how she would be brought amidst flowers, grass, and leaves But O-90 stepped back, the little horns of her rosy crescent trembling and bending downward.

"Is she that same one?" she asked.

"That is... " I was confused for some reason. "Yes, of course... that very same...."

"And you want me to go to her, to ask her...to...Don't you ever dare to say another word about it!"

Leaning over, she walked away....Then, as if she had remembered something, she turned around and cried:

"I shall die; all right! And it's none of your business...What do you care?"

Silence. From above pieces of blue towers and walls were falling downward with terrific speed...they will have perhaps hours or days to fly through the infinite Unseen threads were slowly floating through the air, planting themselves upon my face, and it was impossible to brush them off, impossible to rid myself of them.

I walked slowly toward the Ancient House, and in my heart I felt that absurd, tormenting compression....

RECORD THIRTY

The Last Number

Galileo's Mistake

Would It Not Be Better?

Here is my conversation with I-330, which took place in the Ancient House yesterday in the midst of loud noise, among colors which stifled the logical course of my thoughts, red, green, bronze, saffron yellow, orange colors...and all the while under the motionless, marble smile of that snub-nosed ancient poet.

I shall reproduce the conversation word for word, for it seems to me that it may have an enormous and decisive importance for the fate of the United State—more than that, for the fate of the universe. Besides, in reading it, you, my unknown readers, may find some justification for me. I-330, without preliminaries, at once brought everything down upon my head.

"I know that the day after tomorrow the first trial trip of the Integral is to take place. On that day we shall take possession of it."

"What! Day after tomorrow?"

"Yes. Sit down and don't be upset. We cannot afford to lose a minute. Among the hundreds who were arrested yesterday there are twenty Mephis. To let two or three days pass means that they will perish."

I was silent.

"As observers on the trial trip they will send electricians, mechanics, physicians, meteorologists, etc.... At twelve sharp—you must remember this—when the bell rings for dinner, we shall remain in the passage; lock them all up in the dining hall, and the Integral will be ours. You realize that it is essential, happen what may! The Integral in our hands will be a tool that will help to put an end to everything at once without pain.... Their aeros?... Bah! They would be insignificant mosquitoes against a buzzard. And then, if it proves inevitable, we may direct the tubes of the motors downward, and by their work alone..."

I jumped up.

"It is inconceivable! It is absurd! Is it not clear to you that what you are planning is a revolution? Absurd, because a revolution is impossible! Because our—I speak for myself and for you—our revolution was the last one. No other revolutions may occur. Everybody knows that."

A mocking, sharp triangle of brows.

"My dear, you are a mathematician, are you not? More than that, a philosopher-mathematician? Well, then, name the last number."

"What is...I ...I cannot understand, which last?"

"The last one, the highest, the largest."

"But I-330, that's absurd! Since the number of numbers is infinite, how can there be a last one?"

"And why then do you think there is a last revolution ...their number is infinite....The 'last one' is a child's story. Children are afraid of the infinite, and it is necessary that children should not be frightened, so that they may sleep through the night."

"But what is the use, what is the use of it all? For the sake of the Well-Doer! What is the use since all of us are happy already?"

"All right! Even suppose that is so. And then what?"

"How funny! A purely childish question. You tell a story to children, come to the very end, and they will invariably ask you, 'and then what?' and 'what for'? And then nothing! Period. In the whole world, evenly, everywhere, there is distributed..."

"Ah, 'evenly!' 'Everywhere!' That is the point, entropy! Psychological entropy. Don't you as a mathematician know that only differences—only differences—in temperature, only thermic contrasts make for life? And of all over the world there are evenly warm or evenly cold bodies, they must be pushed off!... in order to get flame, explosions! And we shall push!..."

"But I-330, please realize that our ancestors during the Two Hundred Years' War did exactly that!"

"Oh, they were right! A thousand times right! But they did one thing wrong: later they began to believe that they were the last number, a number that does not exist in nature. Their mistake was the mistake of Galileo; he was right in that the earth revolves around the sun, but he did not know that our whole solar system revolves around some other center, he did not know that the real, not relative, orbit of the earth is not a naive circle."

"And you, the Mephi?"

"We? For the time being we know that there is no last number. We may forget that, someday. Of course, we shall certainly forget it when we grow old, as everything inevitably grows old. Then we shall inevitably fall like autumn leaves from the trees, like you the day after tomorrow....No, no, dear, not you personally. You are with us, aren't you? You are with us?"

Flaming, stormy, sparkling! I never before had seen her in such a state. She embraced me with her whole self, and my self disappeared.

Her last word, looking steadily, deeply into my eyes:

"Then, do not forget: at twelve o'clock sharp."

And I answered:

"Yes, I remember."

She left. I was alone amidst a rebellious, multivoiced commotion of blue, red, green, saffron-yellow, and orange

Yes, at twelve!...Suddenly a feeling of something foreign on my face, of something implanted, that could not be brushed off. Suddenly, yesterday morning, and U- and all she had shouted into the face of I-330! Why, how absurd!

I hastened to get out of the house and home, home! Somewhere behind me I heard the chattering of the birds beyond the Wall. And ahead of me in the setting sun the balls of cupolas made of red, crystallized fire, enormous flaming cubes—houses—and the sharp point of the Accumulating Tower high in the sky like a paralyzed streak of lightning. And all this, all this impeccable, most geometric beauty, shall I, I myself, with my own hands ...? Is there no way out? No path? No trail?

I passed by an auditorium (I do not recall its number). Inside, the benches were stacked along the walls. In the middle, tables covered with snow-white glass sheets, with pink stains of sunny blood on the white....There was foreshadowed in all that some unknown and therefore alarming tomorrow. It is unnatural for a thinking and seeing human being to live among irregularities, unknowns, X's. If suddenly your eyes were covered with a bandage and you were left to feel around, to stumble, ever aware that somewhere very close to you there was a border line, and one step only and nothing but a compressed, smothered piece of flesh would be left of you....I now feel somewhat like that.

... And what if, without waiting for anything, I should ...just head

down....Would it not be the only correct thing to do? To disentangle everything at once?

RECORD THIRTY-ONE

The Great Operation

I Forgave Everything

The Collision of Trains

Saved! At the very last moment, when it seemed that there was nothing to hold on to, that it was the end!...

It was as if you already ascended the steps toward the threatening machine of the Well-Doer, or as if the great glass Bell with a heavy thud had already covered you, and for the last time in life you looked at the blue sky to devour it with your eyes ...when suddenly, it was only a dream! The sun is pink and cheerful and the wall ...What happiness to be able to touch the cold wall! And the pillow! To delight endlessly in the little cavity formed by your own head in the white pillow! ...This is approximately what I felt, when I read the State Journal this morning. It has all been a terrible dream, and the dream is over. And I was so feeble, so unfaithful, that I thought of selfish, voluntary death! I am ashamed now to reread yesterday's last lines. But let

them remain as a memory of that incredible what-might-have-happened, which will not happen! On the front page of the State Journal the following gleamed:

REJOICE!

For from now on we are perfect!

Until today your own creation, engines, were more perfect than you.

WHY?

For every spark from a dynamo is a spark of pure reason; each motion of a piston, a pure syllogism. Is it not true that the same faultless reason is within you?

The philosophy of the cranes, presses, and pumps is complete and clear like a circle. But is your philosophy less circular? The beauty of a mechanism lies in its immutable, precise rhythm, like that of a pendulum. But have you not become as precise as a pendulum, you who are brought up on the system of Taylor?

Yes, but there is one difference:

MECHANISMS HAVE NO FANCY.

Did you ever notice a pump cylinder with a wide, dis— tant, sensuously dreaming smile upon its face while it was working? Did you ever hear cranes that were restless, tossing about and sighing at night during the hours de— signed for rest?

NO!

Yet on your faces (you may well blush with shame!) the Guardians have more and more frequently seen those smiles, and they have heard your sighs, And (you should hide your eyes for shame!) the historians of the United State have all tendered their resignations so as to be relieved from having to record such shameful occurrences.

It is not your fault; you are ill. And the name of your illness is:

FANCY.

It is a worm that gnaws black wrinkles on one's forehead. It is a fever that drives one to run further and further, even though "further" may begin where happiness ends. It is the last barricade on our road to happiness.

Rejoice! This Barricade Has Been Blasted at Last! The Road Is Open!

The latest discovery of our State science is that there is a center for fancy—a miserable little nervous knot in the lower region of the frontal lobe of the brain. A triple treatment of this knot with X-rays will cure you of fancy,

Forever!

You are perfect; you are mechanized; the road to one-hundred-percent happiness is open! Hasten then all of you, young and old, hasten to undergo the Great Operation! Hasten to the auditoriums where the Great Operation is being performed! Long live the Great Operation! Long live the United State! Long live the Well-Doer!

You, had you not read all this in my records—which look like an ancient, strange novel—had you, like me, held in your trembling hands the newspaper, smelling of typographic ink...if you knew, as I do, that all this is a most certain reality—if not the reality of today, then that of tomorrow—would you not feel the very things I feel? Would your head not whirl as mine does? Would there not run over your back and arms those strange, sweet, icy needles? Would you not feel that you were a giant, an Atlas?—that if you only stood up and straightened out you would reach the ceiling with your head?

I snatched the telephone receiver.

"I-330. Yes...Yes. Yes...330!" And then, swallowing my own words, I shouted, "Are you at home? Yes? Have you read? You are reading now? Isn't it, isn't it stupendous?"

"Yes..."A long, dark silence. The wires buzzed almost imperceptibly. She was thinking.

"I must see you today without fail. Yes, in my room, after sixteen, without fail!"

Dear...she is such a dear!..."Without fail!" I was smiling,, and I could not stop! I felt I would carry that smile with me into the street like a light above my head.

Outside the wind ran over me, whirling, whistling, whipping, but I felt even more cheerful. "All night, go on, go on moaning and groaning! The

Walls cannot be torn down." Flying leaden clouds broke over my head...well, let them! They could not eclipse the sun! We chained it to the zenith like so many Joshuas, sons of Nun!

At the corner a group of such Joshuas, sons of Nun, were standing with their foreheads pasted to the glass of the wall. Inside, on a dazzling white table, a Number already lay. You could see two naked soles emerging from under the sheet in a yellow angle ...White medics bent over his head—a white hand, a stretched-out hand holding a syringe filled with something....

"And you, what are you waiting for?" I asked nobody in particular, or rather all of them.

"And you?" Someone's round head turned to me.

"I? Oh, afterward! I must first ..." Somewhat confused, I left the place. I really had to see I-330 first. But why first? I could not explain to myself ...

The docks. The Integral, bluish like ice, was glisten—ing and sparkling. The engine was caressingly grumbling, repeating some one word, as if it were my word, a familiar one. I bent down and stroked the long, cold tube of the motor. "Dear! What a dear tube! Tomorrow it will come to life, tomorrow for the first time it will tremble with burning, flaming streams in its bowels."

With what eyes would I have looked at the glass monster had everything remained as it was yesterday? If I knew that tomorrow at twelve I should betray it, yes, betraySomeone behind cautiously touched my elbow. I turned around. The plate-like, fiat face of the Second Builder.

"Do you know already?" he asked.

"What? About the Operation? Yes. How everything, everything... suddenly..."

"No, not that. The trial flight is put off until day after tomorrow, on account of that Operation. They rushed us for nothing; we hurried ..."

"On account of that Operation!" Funny, limited man. He could see no further than his own platter! If only he knew that, but for the Operation, tomorrow at twelve he would have been locked up in a glass cage, tossing about, trying to climb the walls!

At twelve-thirty when I came into my room I saw U-. She was sitting at my table, firm, straight, bone-like, resting her right cheek on her hand. She must have been waiting for a long while, because when she rose brusquely to meet me the five white imprints of her fingers remained on her cheek.

For a second that terrible morning came back to me: she beside I-330, indignant. But for a second only. All that was at once washed away by today's sun—as happens sometimes when you enter your room on a bright day and absent-mindedly turn on the light, and the bulb shines but is out of place, comical, unnecessary.

Without hesitation I held out my hand to her; I forgave her everything. She firmly grasped both my hands and pressed them till they hurt. Her cheeks quivering and hanging down like ancient precious ornaments, she said with emotion:

"I was waiting ...I want only one moment I only wanted to say...how happy, how joyous I am for you! You realize, of course, that tomorrow or day after tomorrow you will be healthy again, as if born anew."

I noticed my papers on the table; the last two pages of my record of yesterday were in the place where I had left them the night before. If only she knew what I had written there! But I didn't really care. Now it was only history; it was a ridiculously far-off distance, like an image seen through a reversed opera glass.

"Yes," I said. "A while ago, while passing along the avenue, I saw a man walking ahead of me. His shadow stretched along the pavement—and think of it! His shadow was luminous! I think—more than that, I am absolutely certain—that tomorrow all shadows will disappear. Not a shadow from any person or any thing!The sun will be shining through everything."

She, gently and earnestly:

"You are a dreamer! I would not allow my children in school to talk that way."

She told me something about the children: that they were all led in one herd to the Operation; that it was necessary to bind them afterward with ropes; that one must love pitilessly, "yes, pitilessly," and that she thought she might finally decide to ...

She smoothed out the grayish-blue fold of the unif that fell between her knees, swiftly pasted her smiles all over me, and went out.

Fortunately the sun did not stop today. The sun was running. It was already sixteen o'clock I was knocking at the door, my heart was knocking

"Come in!"

I threw myself upon the floor near her chair, to embrace her limbs, to lift my head upward and look into her eyes, first into one, then into the other, and in each of them to see the reflection of myself in wonderful captivity

There beyond the wall it looked stormy, there the clouds were leaden—let them be! My head was overcrowded with impetuous words, and I was speaking aloud, and flying with the sun I knew not whereNo, now we knew where we were flying; planets were following me, planets sparkling with flame and populated with fiery, singing flowers, and mute planets, blue ones where rational stones were unified into one organized society, and planets which like our own earth had already reached the apex of one-hundred-percent happiness.

Suddenly, from above:

"And don't you think that at the apex are, precisely, stones unified into an organized society?" The triangle grew sharper and sharper, darker and darker.

"Happiness ...well? ...Desires are tortures, aren't they? It is clear, therefore, that happiness is when there are no longer any desires, not a single desire any more. What an error, what an absurd prejudice it was, that we used to mark happiness with the sign 'plus'! No, absolute happiness must be marked 'minus'—divine minus!"

I remember I stammered unintelligibly:

"Absolute zero!—minus 273°."

"Minus 273°—exactly! A somewhat cool temperature. But doesn't it prove that we are at the summit?"

As before she seemed somehow to speak for me and through me, developing my own thoughts to the end. But there was something so morbid in her tone that I could not refrain...with an effort I drew out a "No."

"No," I said. "You, you are mocking...."

She burst out laughing loudly, too loudly. Swiftly, in a second, she laughed herself to some unseen edge, stumbled, and fell over....Silence.

She stood up, put her hands upon my shoulders, and looked into me for a long while. Then she pulled me toward her and everything seemed to have disappeared save her sharp, hot lips....

"Good-by."

The words came from afar, from above, and reached me not at once but only after a minute, perhaps two minutes later.

"Why...why 'good-by'?"

"You have been ill, have you not? Because of me you have committed crimes. Hasn't all this tormented you? And now you have the Operation to look forward to. You will be cured of me. And that means—good-by."

"No!" I cried.

A pitilessly sharp black triangle on a white background.

"What? Do you mean that you don't want happiness?"

My head was breaking into pieces; two logical trains collided and crawled upon each other, rattling and smothering....

"well, I am waiting. You must choose; the Operation and one-hundred-percent happiness, or..."

"I cannot...without you...I must not...without you..." I said, or perhaps I only thought—I am not sure which—but I-330 heard.

"Yes, I know," she said. Then, her hands still on my shoulders and her eyes not letting my eyes go, "Then...until tomorrow. Tomorrow at twelve. You remember?"

"No, it was postponed for a day. Day after tomorrow!"

"So much the better for us. At twelve, day after tomorrow!"

I walked alone in the dusky street. The wind was whirling, carrying, driving me like a piece of paper; fragments of the leaden sky were soaring, soaring—they had to soar through the infinite for another day or two....

Unifs of Numbers were brushing my sides—yet I was walking alone. It was clear to me that all were being saved but that there was no salvation for me. For I do not want salvation....

RECORD THIRTY-TWO

I Do Not Believe

Tractors

A Little Human Splinter

Do you believe that you will die? Oh, yes, "Man is mortal; I am a man; consequently..." No, not that; I know that; you know it. But I ask: Has it ever happened that you actually believed it? Believed definitely, believed not with your reason but with your body, that you actually felt that someday those fingers which now hold this page will become yellow, icy?...

No, of course you cannot believe this. That is why you haven't jumped from the tenth floor to the pavement before now; that is why you eat, turn over these pages, shave, smile, write.

This very thing, yes, exactly this is alive in me today. I know that that small black hand on the clock will slide down here toward midnight, then it will again start to ascend, and it will cross some last border and the improbable tomorrow will have arrived. I know it, but somehow I do not believe it—or perhaps I think that twenty-four hours are twenty-four years. So I am still able to act, to hurry, to answer questions, to climb the rope

ladder to the Integral. I am still able to feel how the Integral shakes the surface of the water and I still understand that I must grasp the railing, and I am still able to feel the cold glass in my hand. I see the transparent, living cranes, bending their long necks, carefully feeding the Integral with the terrible explosive food which the motors need I still see below on the river the blue veins and knots of water swollen by the wind....Yet all this seems very distant from me, foreign, flat, like a draft on a sheet of paper. And it seems to me strange, when the fiat draft-like face of the Second Builder suddenly asks:

"Well, then. How much fuel for the motors shall we load on? If we count on three, or say three and a half hours ..."

I see before me, over a draft, my hand with the counter and the logarithmic dial at the figure 15.

"Fifteen tons. But you'd better take...yes, better take a thousand."

I said that because I know that tomorrow ...I noticed that my hands and the dial began to tremble.

"A thousand! What do you need such a lot for? That would last a week! No, more than a week!"

"Well, nobody knows ..."

I do know....

The wind whistled, the air seemed to be stuffed to the limit with something invisible. I had difficulty in breathing, difficulty in walking, and

with difficulty, slowly but without stopping for a second, the hand of the Accumulating Tower was crawling, at the end of the avenue. The peak of the Tower reached into the very clouds—dull, blue, groaning in a subdued way, sucking electricity from the clouds. The tubes of the Musical Tower resounded.

As always—four abreast. But the rows did not seem as firm as usual; they were swinging, bending more and more, perhaps because of the wind. There! They seemed to stumble upon something at the corner; they drew back and stopped, congealed, a close mass, a clot, breathing rapidly; at once all of them stretched their necks like geese.

"Look! No, look, look—there, quick!"

"They? Are those they?"

"Ah, never! Never! I'd rather put my head straight into the Machine...."

"Silence! Are you crazy?"

On the corner, the doors of the auditorium were ajar, and a wide column of about fifty people—the word "people" is not the right one. These were heavy-wheeled automatons seemingly bound in iron and moved by an invisible mechanism. Not people, but a sort of human-like tractor. Over their heads, floating in the air—a white banner with a golden sun embroidered on it, and the rays of the sun: "We are the first! We have already been operated upon! Follow us, all of you!"

Slowly, unhesitatingly they moved through the crowd, and it was clear

that if they had had in their way a wall, a tree, a house, they would have moved on just as unhesitatingly through the wall, the tree, the house. In the middle of the avenue they fused and stretched out into a chain, arm in arm, their faces turned toward us. And we, a human clot, tense, the hair pricking our heads, we waited. Our necks were stretched out goose fashion. Clouds. The wind whistled. Suddenly the wings of the chain from right and left bent quickly around us, and faster, faster, like a heavy engine descending a hill, they closed the ring and pulled us toward the yawning doors and inside....

Somebody's piercing cry: "They are driving us in! Run!"

Everybody ran. Close to the wall there was still an open, living gate of human beings. Everybody dashed through it, heads forward. Their heads became sharp wedges, and with their ribs, shoulders, hips... Like a stream of water compressed in a fire hose they spurted out in the form of a fan, and all around me stamping feet, raised arms, uniforms.... The double curved S- with his transparent wing ears appeared for a moment close before my eyes; he disappeared as suddenly; I was alone among arms and legs appearing for a second and disappearing. I was running....

I dashed to the entrance of a house to stop to catch my breath, my back close to the door—and suddenly, like a splinter borne by the wind, a human being was thrown toward me.

"All the while I ...I have been following you. I do not want... do you see? I do not want...I am ready to...

Small round hands on my sleeves, round dark blue eyes—it was O-90.

She just slipped along my body like a unif which, its hanger broken, slips along the wall to fall upon the floor. Like a little bundle she crumpled below me on the cold doorstep, and I stood over her, stroking her head, her face. My hands were wet. I felt as if I were very big and she very small, a small part of myself. I felt something quite different from what I feel toward I-330. I think the ancients must have had similar feelings toward their private children.

Below, filtering through her hands with which she was covering her face, a voice came to me:

"Every night I...I cannot! If they cure me...Every night I sit in the darkness alone and think of him, and of what he will look like when I... If I am cured I would have nothing to live with—do you understand me? You must...you must..."

An absurd feeling, yet it was there; I really must! Absurd, because this "duty" of mine was nothing but another crime. Absurd, because white and black cannot be one, duty and crime cannot coincide. Or perhaps there is no black and white in life, but everything depends upon the first logical premise? If the premise is that I unlawfully gave her a child...

"It's all right, but don't, only don't..." I said, "Of course I understand....I must take you to I-330, as I once offered to, so that she..."

"Yes." (This in a low voice, without uncovering her face.)

I helped her rise. Silently we went along the darkening street, each busy with his own thoughts, or perhaps with the same thought....We walked between silent, leaden houses, through the tense, whipping branches of the

wind....

All at once, through the whistling of the wind, I heard, as if splashing through ditches, the familiar footsteps coming from some unseen point. At the corner I turned around, and among the clouds, flying upside down in the dim glass reflection of the pavement, I saw S-. Instantly my arms became foreign, swinging out of time, and I began to tell O-90 in a low voice that tomorrow, yes, tomorrow, was the day of the first flight of the Integral, and that it was to be something that had never happened before in all history, great, miraculous.

"Think of it! For the first time in life to Fred myself outside the limits of our city and see—who knows what is beyond the Green Wall?"

O-90 looked at me extremely surprised, her blue eyes trying to penetrate mine; she looked at my senselessly swinging arms. But I did not let her say a word—I kept talking, talking....And within me, apart from what I was saying and audible only to myself, a thought was feverishly buzzing and knocking. "Impossible! You must somehow...you must not lead him to I-330!"

Instead of turning to the right I turned to the left. The bridge submissively bent its back in a slavish way to all three of us, to me, to O-, to him behind. Lights were falling from the houses across the water, falling and breaking into thousands of sparks which danced feverishly, sprayed with the mad white foam of the water. Somewhere not far away the wind was moaning like the tensely stretched string of a double bass. And through this bass, behind us, all the while...

The house where I live. At the entrance O- stopped and began:

"No! You promised, did you not, that..."

I did not let her finish. Hastily I pushed her through the entrance and we found ourselves in the lobby. At the controller's desk the familiar, hanging, excitedly quivering cheeks—a group of Numbers around. They were quarreling about something, heads bending over the banisters on the second floor; they were running downstairs one by one. But about that later. I drew O-90 at once into the opposite, unoccupied corner and sat down with my back to the wall. I saw a dark, large-headed shadow gliding back and forth over the sidewalk. I took out my notebook. O-90 in her chair was sinking slowly, as if she were evaporating from under her unif, as if her body were thawing, as if only her empty unif were left, and empty eyes taking one into the blue emptiness. In a tired voice:

"Why did you bring me here? You lied to me."

"No, not so loud! Look here! Do you see? Through the wall?"

"Yes, I see a shadow."

"He is always following me... I cannot...Do you understand? I cannot, therefore...I am going to write a few words to I-330. You take the note and go alone. I know he will remain here."

Her body began again to take form and to move beneath the unif; on her face a faint sunrise, dawn. I put the note between her cold fingers, pressed her hand firmly, and for the last time looked into her blue eyes.

"Good-by. Perhaps someday..." She freed her hand. Bending over slightly, she slowly moved away, made two steps, turned around quickly, and again we were side by side. Her lips were moving; with her lips and with her eyes she repeated some inaudible word. What an unbearable smile! What suffering!

Then the bent-over human splinter went to the door; a bent-over little shadow beyond the wall; without turning around she went on faster, still faster....

I went to U-'s desk. With emotion filling her indignant gills, she said to me:

"They have all gone crazy! He, for instance, is trying to assure me that he himself saw a naked man covered with hair near the Ancient House... "

A voice from the group of empty raised heads: "Yes. I repeat it, yes."

"Well, what do you think of that? Oh, what a delirium!" The word "delirium" came out of her mouth so full of conviction, so unbending, that I asked myself: "Perhaps it really was nothing but delirium, all that has been going on around me lately." I glanced at my hairy hand, and I remembered: "There are, undoubtedly, some drops of that blood of the sun and woods in you. That is why perhaps you..." "No, fortunately it was not delirium; or no, unfortunately it was not delirium.

RECORD THIRTY-THREE

This Without a Synopsis, Hastily, the Last The day.

Quick, to the newspaper! Perhaps there...I read the paper with my eyes (exactly; my eyes now are like a pen, or like a counting machine which you hold and feel in your hands like a tool, something foreign, an instrument). In the newspaper, on the first page, in large print:

THE ENEMIES OF HAPPINESS ARE AWAKE! HOLD TO YOUR HAPPINESS WITH BOTH HANDS. TOMORROW ALL WORK WILL STOP AND ALL NUMBERS ARE TO COME TO BE OPERATED UPON. THOSE WHO FAIL TO COME WILL BE SUB—MITIED TO THE MACHINE OF THE WELL—DOER.

Tomorrow! How can there be, how can there be any tomorrow?

Following my daily habit, I stretched out my arm (instrument!) to the bookshelf to put today's paper with the rest within a cover ornamented with gold. While doing this: "What for? What does it matter? Never again shall I... Within this cover, never..." And out of my hands, down to the floor it fell.

I stood looking all around, over all my room; hastily I was taking away, feverishly putting into some unseen valise, everything I regretted leaving here: my desk, my books, my chair. Upon that chair I-330 had sat that day, I was below on the floor...My bed...Then for a minute or two I stood and waited for some miracle to happen; perhaps the telephone would ring,

perhaps she would say that...But no, no miracle...

I am leaving, going into the unknown. These are my last lines. Farewell you, my unknown beloved ones, with whom I have lived through so many pages, before whom I have bared my diseased soul, my whole self to the last broken little screw, to the last cracked spring...I am going...

RECORD THIRTY-FOUR

The Forgiven Ones

A Sunny Night

A Radio-Valkyrie

Oh, if only I had actually broken myself to pieces! If only I had actually found myself with her in some place beyond the Wall, among beasts showing their yellow tusks. If only I had never actually returned here! It would be a thousand, a million times easier! But now—what? Now to go and choke that —! But would it help? No, no, no! Take yourself in hand, D-503! Set into yourself the firm hub of logic; at least for a short while weigh heavily with all your might on the lever and, like the ancient slave, turn the millstones of syllogisms until you have written down and understood everything that happened

When I boarded the Integral, everyone was already there and in his place; all the cells of the gigantic hive were filled. Through the decks of glass—tiny, ant-like people below, at the telegraph, dynamo, transformers, altimeters, ventilators, indicators, motor, pumps, tubes....In the saloon people were sitting over tables and instruments, probably those commissioned by the Scientific Bureau; near them the Second Builder and his two aides. All three had their heads down between their shoulders like turtles, their faces gray, autumnal, rayless.

"Well?" I asked.

"Well, somewhat uncanny" one of them replied, smiling a gray, rayless smile. "Perhaps we shall have to land in some unknown place. And, generally speaking, nobody knows..."

I could hardly bear to look at them, when in an hour or so I was to throw them out with my own hands, to cast them out from the cozy figures of our Table of Hours, to tear them away forever from the mother's breast of the United State. They reminded me of the tragic figures of "The Three Forgiven Ones"—a story known to all of our school children. It tells about three Numbers, who by way of experiment were exempted for a whole month from any work.[\[9\]](#)"Go wherever you will, do what you will," they were told. The unhappy three spent their whole time wandering around their usual place of work and gazing within with hungry eyes. They would stop on the plazas and busy themselves for hours repeating the motions which they had been used to making during certain hours of the day; it became a bodily necessity for them to do so. They would saw and plane the air; with unseen sledge hammers they would bang upon unseen stakes. Finally, on the tenth day, they could bear it

no longer; they took one another by the hand, entered the river, and to the accompaniment of the March they waded deeper and deeper until the water ended their sufferings forever.

I repeat, it was hard for me to look at them, and I was anxious to leave them.

"I just want to take a glance into the engine room, and then off" I said.

[9]It happened long ago, in the third century A.T. (After the Tables).

They were asking me questions: "What voltage should be used for the initial spark, how much ballast water was needed in the tank aft?" As if a phonograph were some where within me, I was giving quick and precise answers, but I, my inner self, was busy with my own thoughts.

In the narrow passage gray unifs were passing, gray faces, and, for a second, one face with its hair low over the forehead, eyes gazing from deep beneath it—it was that same man. I understood: they had come, and there was no escape from it for me; only minutes remained, a few dozen minutes....An infinitesimal, molecular quiver of my whole body. This quivering did not stop to the very end—it was as if an enormous motor had been placed under the very foundation of my body, which was so light that the walls, partitions, cables, beams, lights— everything was quivering....

I did not yet know whether she was there. But I had no time...They were calling me: quick! To the commander's bridge; time to go...where?

Gray, rayless faces. Below in the water—tense blue veins. Heavy, cast-

iron patches of sky. It was so difficult to lift my cast-iron hand and take up the receiver of the commander's telephone!..."Up! Forty—five degrees!"

A heavy explosion—a jerk—a rabid, greenish-white mountain of water aft—the deck beneath my feet began to move, soft as rubber; and everything below, my whole life, forever...For a second, falling deeper and deeper into a sort of funnel, becoming more and more compressed—the icy-blue relief map of the City, the round bubbles of cupolas, the lonely leaden finger of the Accumulating Tower...Then, instantaneously, a cotton curtain of cloud...We pierced it, and there was the sun and the blue sky! Seconds, minutes, miles—the blue was hardening, fast filling with darkness; like drops of cold, silver sweat the stars appeared....

A sad, unbearably bright, black, starry, sunny night As if one had become deaf, one still saw that the pipes were roaring, but one only saw; dead silence all about. The sun was mute. It was natural, of course. One might have expected it; we were beyond the terrestrial atmosphere. The transition was so quick, so sudden, that everyone became timid and silent. Yet I...I thought I felt easier under that fantastic, mute sun. I had bounded over the inevitable border, having left my body somewhere there below, and I was soaring bodiless to a new world, where everything was to be different, upside down.

"Keep the same course!" I shouted into the engine room, or perhaps it was not I but a phonograph in me, and the same machine that I was, with a mechanical, hinge-like movement, handed the commander's trumpet to the Second Builder. Permeated by that most delicate, molecular quiver known only to me, I ran down the companionway, to seek...

The door of the saloon....An hour later it was to latch and lock itself....At the door stood an unfamiliar Number. He was small, with a face like a hundred or a thousand others which are usually lost in a crowd, but his arms were exceptionally long—they reached down to his knees, as if they had been taken by mistake from another set of human organs and fastened to his shoulders.

The long arm stretched out and barred the way.

"Where do you want to go?"

It was obvious that he was not aware that I knew everything. All right! Perhaps it had to be that way. From above him, in a deliberately significant tone, I said:

"I am the Builder of the Integral, and I am directing the test flight. Do you understand?"

The arm drew away.

The saloon. Heads covered with bristles, gray iron bristles, and yellow heads, and bald, ripe heads were bent over the instruments and maps. Swiftly, with a glance, I gathered them in with my eyes; off I ran, back down the long passage, then through the hatch into the engine room. It was hot there from the red tubes, overheated by the explosions: a constant roar—the levers were dancing their desperate, drunken dance, moving ceaselessly with a barely noticeable quiver; the arrows on the dials...There! At last! Near the tachometer, a notebook in his hand, was that man with the low forehead.

"Listen," I shouted straight into his ear (because of the roar). "Is she here? Where is she?"

"She? There, at the radio."

I dashed over. There were three of them, all with receiving helmets on. And she seemed a head taller than usual, wingy, sparkling, flying like an ancient Valkyrie; the bluish sparks from the radio seemed to emanate from her—from her also that ethereal, lightning—like odor of ozone.

"Someone—well, you, for instance," I said to her, panting from having run, "I must send a message down to earth, to the docks. Come, I shall dictate it to you."

Close to the apparatus there was a small, box-like cabin. We sat at the table side by side. I found her hand and pressed it hard.

"Well, what is going to happen?"

"I don't know. Do you realize how wonderful it is? To fly without knowing where...no matter where? it will soon be twelve o'clock and nobody knows what...And when night...Where shall you and I be tonight? Perhaps somewhere on the grass, on dry leaves..."

Blue sparks emanated from her, and the odor of lightning, and the vibration within me became more and more frequent.

"Write down," I said loudly, panting (from having run). "Time: eleven-twenty; speed, 5,800..."

"Last night she came to me with your note. I know... I know everything; don't talk...But the child is yours. I sent her over; she is already beyond the Wall. She will live..."

I was back on the commander's bridge, back in the delirious night with its black starry sky and its dazzling sun. The hands of the clock on the table were slowly moving from minute to minute. Everything was permeated by a thin, hardly perceptible quivering (only I noticed it). For some reason a thought passed through my head: it would be better if all this took place not here but somewhere below, nearer to earth.

"Stop!" I commanded.

We kept moving by inertia, but more and more slowly. Now the Integral was caught for a second by an imperceptible little hair, for a second it hung motionless, then the little hair broke and the Integral, like a stone, dashed downward with increasing speed. That way minutes, tens of minutes passed in silence. My pulse was audible; the hand of the clock before my eyes came closer and closer to twelve. It was clear to me that I was a stone, I-330 the earth, and the stone was under irresistible compulsion to fall downward, to strike the earth and break into small particles. What if...? Already the hard, blue smoke of clouds appeared below...What if...? But the phonograph within me, with a hinge-like motion and precision, took the telephone and commanded: "Low speed!" The stone ceased falling. Now only the four lower tubes were growling, two ahead and two aft, only enough to hold the Integral motionless; and the Integral, only slightly trembling, stopped in the air as if anchored, about one kilometer from the earth.

Everybody came out on deck (it was shortly before twelve, before the sounding of the dinner gong) and leaned over the glass railing; hastily, in huge gulps, they devoured the unknown world which lay below, beyond the Green Wall. Amber, blue, green, the autumnal woods, prairies, a lake. At the edge of a little blue saucer some lone yellow debris, a threatening, dried-out yellow finger—it must have been the tower of an ancient "church" saved by a miracle....

"Look, there! Look! There to the right!"

There—over the green desert—a brown blot was rapidly moving. I held a telescope in my hands and automatically I brought it to my eyes: the grass reaching their chests, a herd of brown horses was galloping, and on their backs—they, black, white, and dark...

Behind me:

"I assure you, I saw a face!"

"Go away! Tell it to someone else!"

"Well, look for yourself! Here is the telescope."

They had already disappeared. Endless green desert— and in that desert, dominating it completely and dominating me, and everybody, the piercing vibrations of the gong; dinnertime, one minute to twelve.

For a second the little world around me became incoherent, dispersed. Someone's brass badge fell to the floor. It mattered little. Soon it was under my heel. A voice: "And I tell you, it was a face!" A black square, the open

door of the main saloon. White teeth pressed together, smiling...And at that moment, when the clock began slowly to strike, holding its breath between beats, and when the front rows began to move toward the dining saloon, the rectangle of the door was suddenly crossed by the two familiar, unnaturally long arms.

"STOP!"

Someone's fingers sank piercing into my palm. It was I-330. She was beside me.

'Who is it? Do you know him?'

"Is he not? ...Is he not?..."

He was already lifted upon somebody's shoulders. Above a hundred other faces, his face like hundreds, like thousands of other faces, yet unique among them all

"In the name of the Guardians! You, to whom I talk, they hear me, every one of them hears me. I talk to you: we know! We don't know your numbers yet, but we know everything else. The Integral shall not be yours! The test flight will be carried out to the end and you, you will not dare to make another move! You, with your own hands, will help to go on with the test and afterward...well, I have finished!"

Silence. The glass plates under my feet seemed soft, cotton-like. My feet, too—soft, cotton-like. Beside me—she with a dead-white smile, angry blue sparks. Through her teeth to me:

"Ah! It is your work! You did your 'duty'! Well... " She tore her hand from mine; the Valkyrie helmet with indignant wings was soon to be seen some distance in front of me. I was alone, torpid, silent. Like everyone else I followed into the dining saloon.

But it was not I, not I! I told nobody, save these white, mute pages ...I cried this to her within me, inaudibly, desperately, loudly. She was across the table, directly opposite me, and not once did she even touch me with her gaze. Beside her someone's ripe, yellow, bald head. I heard (it was I-330's voice):

"'Nobility' of character! But my dear professor, even a superficial etymological analysis of the word shows that it is a superstition, a remnant of the ancient feudal epoch. We..."

I felt I was growing pale, and that they would soon notice it. But the phonograph within me performed the prescribed fifty chewing movements for every bite. I locked myself into myself as though into an opaque house; I threw up a heap of reeks before my door and lowered the window blinds....

Afterward, the telephone of the commander was again in my hands, and again we made the flight through the clouds with icy, supreme anxiety into the icy, starry, sunny night. Minutes, hours passed...Apparently all that time the motor of logic within me was working feverishly at full speed. For suddenly somewhere, at a distant point of the dark blue space, I saw my desk, and the gill-like cheeks of U- bent over it, and the forgotten pages of my records! It became clear to me; nobody but her...everything was dear to me!

If only I could reach the radio room soon...wing-like helmets, the odor of blue lightning...I remember telling her something in a low voice, and I remember how she looked through me, and how her voice seemed to come from a distance:

"I am busy. I am receiving a message from below. You may dictate yours to her."

The small, box-like little cabin...I thought for a second and then dictated in a firm voice:

"Time fourteen-forty. Going down. Motors stopped. The end of all."

The commander's bridge. The machine heart of the Integral stopped; we were falling; my heart could not catch up and would remain behind and rise higher and higher into my throat....Clouds....And then a distant green spot—everything green, more and more distinct, running like a storm toward us. "Soon the end."

The porcelain-like distorted white face of the Second Builder! It was he who struck me with all his strength; I hurt my head on something; and through the approaching darkness, I heard while falling:

"Full speed—aft!"

A brusque jolt upward....

RECORD THIRTY-FIVE

In a Ring

A Carrot

A Murder

I did not sleep all night. But one thought the whole night... As a result of yesterday's mishap my head is tightly bandaged—it seems to me not a bandage but a ring, a pitiless ring of glass iron, riveted about my head. And I am busy with the same thought, always the same thought in my riveted circle: to kill U-. To kill U- and then go to her and say: "Now do you believe?" What is most disquieting is that to kill is dirty, primitive. To break her head with something—the thought of it gives me a peculiar sensation of something disgustingly sweet in my mouth, and I am unable to swallow my saliva; I am always spitting into my handkerchief, yet my mouth feels dry.

I had in my closet a heavy piston rod which had cracked during the casting, and which I had brought home in order to find out with a microscope the cause of the cracking. I made my manuscript into a tube (let her read me to the last letter!), pushed the broken piston into that tube, and went downstairs. The stairway seemed endless, the steps disgustingly slippery, liquid. I had to wipe moisture from off my mouth very frequently. Downstairs ...my heart dropped. I took the piston out and went to the controller's table. But she was not there; instead, an empty, icy desk with ink blots. And then I remembered that today all work had stopped; everyone was

to go to be operated on. There was no need for her to stay here. There was nobody to be registered...

The street. It was windy. The sky seemed to be composed of soaring panels of cast iron. And exactly as it had seemed for one moment yesterday, the whole world was broken up into separate, sharp, independent fragments, and each of these fragments was falling at full speed; each would stop for a second, hang before me in the air, and disappear without a trace. It was as if the precise, black letters on this page should suddenly move apart and begin to jump hither and thither in fright, so that there was not a word on the page, only nonsensical "ap," "jum," "wor." The crowd seemed just as nonsensical, dispersed (not in rows), going forward, backward, diagonally, transversely....

Then nobody. For a second, suddenly stopping in my mad dashing, I saw on the second floor, in the glass cage of a room hanging in the air, a man and a woman—a kiss; she, standing with her whole body bent backward, brokenly: "This is for the last time, forever..."

At a corner a thorny, moving bush of heads. Above the heads separate, floating in the air, a banner: "Down with the machines! Down with the Operation!" And, distinct from my own self, I thought: "Is it possible that each one of us bears such a pain, that it can be removed only with his heart? ...That something must be done to each one, before he..." For a second everything disappeared for me from the world, except my beast-like hand with the heavy, cast-iron package it held

A boy appeared. He was running, a shadow under his lower lip. The lower lip turned out like the cuff of a rolled-up sleeve. His face was distorted;

he wept loudly; he was running away from someone. The stamping of feet was heard behind him...

The boy reminded me: "U- must be in school. I must hurry!" I ran to the nearest opening of the Underground Railway. At the entrance someone passed me and said, "Not running. No trains today... there!" I descended. A sort of general delirium was reigning. The glitter of cut-crystal suns; the platform packed closely with heads. An empty, torpid train..

in the silence—a voice. I could not see her but I knew, I knew that intense, living, flexible,, whip-like, flogging voice! I felt there that sharp trangle of brows drawn to the temples....

"Let reel Let me reach her! I must! ..."

Someone's tentacles caught my arm, my shoulders. I was nailed, In the silence I heard:

"No. Go up to them. There they will cure you; there they will overfeed you with that leavened happiness. Satiated, you will slumber peacefully, organized, keeping time, and snoring sweetly. Is it possible that...you do not hear yet that great symphony of snoring? Foolish people! Don't you realize that they want to liberate you from these gnawing, worm-like, torturing question marks? And you remain standing here and listening to me? Quick Up! To the Great Operation! What is your concern, if I remain here alone? What does it matter to you if I want to struggle, hopelessly struggle? So much the better! What does it matter to you that I do not want others to desire for me? I want to desire for myself. If I desire the impossible... "

Another voice, slow, heavy:

"Ah, the, impossible! Which means to run after your stupid fancies; those fancies would whirl from under your very noses like a tail. No, we shall catch that tail, and then ..."

"And then—swallow it and fall snoring; a new tail will become necessary. They say the ancients had a certain animal which they called 'ass.' In order to make it go forward they would attach a carrot to a bow held in front of its nose, so that it could not reach it....If it had caught and swallowed it..."

The tentacles suddenly let me go; I threw myself toward the place she was speaking from; but at that very moment everything was brought down in confusion. Shouts from behind: "They are coming here! Coming here!" The lights twinkled and went out—someone had cut the cable—and everything was like a lava of cries, groaning, heads, fingers....

I do not know how long we were rolled about that way in the underground tube. I only remember that underneath my feet steps were felt, dusk appeared, becoming brighter and brighter, and again we were in the street, dispersing fan wise in different directions.

Again I was alone. Wind. Gray, low twilight crawling over my head. In the damp glass of the sidewalk, somewhere very deep, there were light, topsy-turvy walls and figures moving along, feet upward. And that terribly heavy package in my hands pulled me down into that depth, to the bottom.

At the desk again. U- was not yet there; her room was dark and empty. I

went up to my room and turned on the light. My temples, tightly bound by the iron ring, were pulsating. I paced and paced, always in the same circle: my table, the white package on the table, the bed, my table, the white package on the table... In the room to my left the curtains were lowered. To my right, the knotty bald head bent over a book, the enormous, parabolic forehead. Wrinkles on the forehead like a series of yellow, illegible lines. At times our eyes met, and then I felt that those lines were about me.

...It happened at twenty-one o'clock exactly. U- came in on her own initiative. I remember that my breathing was so loud that I could hear it, and that I wanted to breathe less noisily but was unable to.

She sat down and arranged the fold of her unif on her knees. The pinkish-brown gills were waving.

"Oh, dear, is it true that you are wounded? I just learned about it, and at once I ran..."

The piston was before me on the table. I jumped up, breathing even louder. She heard, and stopped halfway through a word and rose. Already I had located the place on her head; something disgustingly sweet was in my mouth...My handkerchief! I could not find it. I spat on the floor.

The fellow with the yellow, fixed wrinkles which think of me! He must not see. It would be even more disgusting if he could...I pressed the button (I had no right to, but who cared about fights at that moment?). The curtains fell.

Evidently she felt and understood what was coming, for she rushed to

the door. But I was quicker than she, and I locked the door with the key, breathing loudly and not for a second taking my eyes from that place on her head

"You...you are mad! How dare you..." She moved backward toward the bed, put her trembling hands between her knees...Like a tense spring, holding her firmly with my gaze, I slowly stretched out my arm toward the table (only one arm could move), and I snatched the piston.

"I implore you! One day—only one day! Tomorrow I shall go and attend to the formalities..."

What was she talking about? I swung my arm...And I consider I killed her. Yes, you my unknown readers, you have the right to call me murderer. I know that I should have dealt the blow on her head had she not screamed:

"For... for the sake...I agree....I ...one moment..." With trembling hands she tore off her unif—a large, yellow, drooping body, she fell upon the bed....

Then I understood; she thought that I pulled the curtains...in order to...that I wanted...

This was so unexpected and so stupid that I burst out laughing. Immediately the tense spring within me broke, and my hand weakened, and the piston fell to the floor.

Here I learned from personal experience that laughter is the most terrible of weapons; you can kill anything with laughter, even murder. I sat at my table and laughed desperately; I saw no way out of that absurd situation. I

don't know what would have been the end if things had run their natural course, but suddenly a new factor in the arithmetical chain: the telephone rang.

I hurried, grasped the receiver. Perhaps she... I heard an unfamiliar voice:

"Wait a minute."

Annoying, infinite buzzing. Heavy steps from afar, nearer and louder like cast iron, and...

"D-5037 The Well-Doer speaking. Come at once to me."

Ding! He hung up the receiver. Ding! like a key in a keyhole.

U- was still in bed, eyes closed, gills apart in the form of a smile. I picked up her clothes, threw them on her, and said through clenched teeth:

"Well. Quick! Quick!"

She raised her body on her elbow, her breasts hanging down to one side, eyes round. She became a figure of wax.

"What?"

"Get dressed, that is what!"

Face distorted, she firmly snatched her clothes and said in a fiat voice, "Turn away... "

I turned away, pressed my forehead against the glass. Light, figures, sparks were trembling in the black, wet mirror....No, all this was I, myself—within me..... What did HE call me for? Is it possible that HE knows already about her, about me, about everything?

U-, already dressed, was at the door. I made a step toward her and pressed her hand as hard as though I hoped to squeeze out of it, drop by drop, what I needed.

"Listen... Her name, you know whom I am talking of, did you report her name? No? Tell the truth, I must ... I don't care what happens, but tell the truth!"

"No."

"No? But why not, since you..."

Her lower lip turned out like the lip of that boy and her face...tears were running down her cheeks.

"Because I... I was afraid that if I did you might...you would stop lov— Oh, I cannot, I could not!"

I understood, It was the truth, Absurd, ridiculous, human truth. I opened the door.

RECORD THIRTY-SIX

Empty Pages

The Christian God

About My Mother

It is very strange that a kind of empty white page should be left in my hand. How I walked there, how I waited (I remember I had to wait), I know nothing about it; I remember not a sound, not a face, not a gesture, as if all communicating wires between me and the world were cut.

When I came to, I found myself standing before Him. I was afraid to raise my eyes; I saw only the enormous cast-iron hands upon His knees. Those hands weighed upon Him, bending His knees with their weight. He was slowly moving His fingers. His face was somewhere above, as if in fog. And, only because His voice came to my ears from such a height, it did not roar like thunder, it did not deafen me but appeared to be an ordinary, human voice.

"Then you, too, you, the Builder of the Integral! You, whose lot it was to become the greatest of all conquistadores! You, whose name was to have been at the head of a glorious new chapter in the history of the United State! You..."

Blood ran to my head, to my cheeks—and here again a white page; only the pulsation in my temples and the heavy voice from above; but I remember

not a word. Only when He became silent, I came to and noticed how His hand moved heavily like a thousand pounds, and crawled slowly—His finger threatened me.

"Well? Why are you silent? Is it true, or not? Executioner? So!"

"So," I repeated submissively. And then I heard clearly every one of His words.

"Well, then? Do you think I am afraid of the Word? Did you ever try to take off its shell and look into its inner meaning? I shall tell you....Remember a blue hill, a crowd, a cross? Some up on the hill, sprinkled with blood, are busy nailing a body to the cross; others below, sprinkled with tears, are gazing upward. Does it not occur to you that the part which those above must play is the more difficult, the more important part? If it were not for them, how could that magnificent tragedy ever have been staged? True, they were hissed by the dark crowd, but for that the author of the tragedy, God, should have remunerated them the more liberally, should He not? And the most clement, Christian God himself, who burned all the infidels on a slow fire, is He not an executioner? Was the number of those burned by the Christians less than the number of burned Christians? Yet (you must understand this!), yet this God was for centuries glorified as the God of love! Absurd? Oh, no. Just the contrary. It is instead a testament to the imperishable wisdom of man, written in blood. Even at the time when he still was wild and hairy, man knew that real, algebraic love for humanity must inevitably be inhuman, and that the inevitable mark of truth is cruelty—just as the inevitable mark of fire is its property of causing the sensation of burning. Could you show me a fire that would not hurt? Well, now prove your point! Proceed! Argue!"

How could I argue? How could I argue when those thoughts were once mine, though I was never able to dress them in such a splendid, tempered armor? I remained silent.

"If your silence is intended to mean that you agree with me, then let us talk as adults do after the children have gone to bed; let us talk to the logical end. I ask: what was it that man from his diaper age dreamed of, tormented himself for, prayed for? He longed for that day when someone would tell him what happiness is, and then would chain him to it. What else are we doing now? The ancient dream about a paradise... Remember: there in paradise they know no desires any more, no pity, no love; there they are all—blessed. An operation has been performed upon their center of fancy; that is why they are blessed, angels, servants of God....And now, at the very moment when we have caught up with that dream, when we hold it like this" (He clenched his hand so hard, that if he had held a stone in it sap would have run out!) "...At the moment when all that was left for us was to adorn our prize and distribute it among all in equal pieces, at that very moment you, you... "

The cast-iron roar was suddenly broken off. I was as red as a piece of iron on an anvil under the moulding sledge hammer. The hammer seemed to have stopped for a second, hanging in the air, and I waited, waited ...until suddenly:

"How old are you?"

"Thirty-two."

"Just double the age, and as simple as at sixteen! Listen. Is it possible

that it really never occurred to you that they (we do not yet know their names, but I am certain you will disclose them to us), that they were interested in you only as the Builder of the Integral? Only in order to be able, through the use of you—"

"Don't! Don't!" I cried. But it was like protecting yourself with your hands and crying to a bullet: you may still be hearing your own "don't," but meanwhile the bullet has burned you through, and writhing with pain you are prostrated on the ground.

Yes, yes: the Builder of the Integral...Yes, yes.... At once there came back to me the angry face of U- with twitching, brick-red gills, on that morning when both of them...

I remember now, clearly, how I raised my eyes and laughed. A Socrates-like, bald-headed man was sitting before me; and small drops of sweat dotted the bald surface of his head.

How simple, how magnificently trivial everything was! How simple... almost to the point of being ridiculous! Laughter was choking me and bursting forth in puffs; I covered my mouth with my hand and rushed wildly out....

Steps. Wind. Damp, leaping fragments of lights and faces... And while running: "No! Only to see her! To see her once more!"

Here again an empty white page. All I remember is feet: not people, just feet, hundreds of feet, confusedly stamping feet, falling from somewhere in the pavement, a heavy rain of feet... And some cheerful, daring voice, and a

shout that was probably for me: Hey, hey! Come here! Come along with us!"

Afterward—a deserted square heavily overloaded with tense wind. In the middle of the square a dim, heavy, threatening mass—the Machine of the Well-Doer. And a seemingly unexpected image arose within me in response to the sight of the Machine: a snow-white pillow, and on the pillow a head thrown back, and half-closed eyes, and a sharp, sweet line of teeth... All this seemed so absurdly, so terribly connected with the Machine. I know how this connection has come about, but I do not yet want to see it nor to say it aloud—I don't want to! I don't!

I closed my eyes and sat down on the steps which led upward to the Machine. I must have been running hard, for my face was wet. From somewhere far away cries were coming. But nobody heard them; nobody heard me crying: "Save me from it—save me!"

If only I had a mother as the ancients had—my mother, mine, for whom I should be not the Builder of the Integral, and not D-530, not a molecule of the United State, but merely a living human piece, a piece of herself, a trampled, smothered, cast-off piece... And though I were driving the nails into the cross, or being nailed to it (perhaps it is the same), she would hear what no one else could hear, her old, grown-together, wrinkled lips...

RECORD THIRTY-SEVEN

Infusorian

Doomsday

Her Room

This morning while we were in the refectory my neighbor to my left whispered to me in a frightened tone:

"But why don't you eat? Don't you see, they are looking at you"

I had to pluck up all my strength to show a smile. I felt it—like a crack in my face; I smiled, and the borders of the crack drew apart wider and wider; it was quite painful.

And then: no sooner had I lifted the small cube of paste upon my fork, than the fork jerked from my hand and tinkled against the plate. And at once the tables, the walls, the plates, even the air, trembled and rang; outside, too, an enormous, iron, round roar reaching the sky—floating over heads and houses, it died away in the distance in small, hardly perceptible circles like those upon water.

I saw faces instantaneously grow faded and bleached; I saw mouths filled with food suddenly motionless, and forks hanging in air. Then everything became confused, jumped off the centuries-old tracks; everybody jumped up from his place (without singing the Hymn!) and confusedly, in disorder, hastily finishing chewing, choking, grasping one another.... They were asking: "What? What happened? What?..." And the disorderly

fragments of the Machine, which was once perfect and great, fell down in all directions—down the elevators, down the stairs.... Stamping of feet... Pieces of words like pieces of torn letters carried by the wind....

The same outpour from the neighboring houses. A minute later the avenue seemed like a drop of water seen under a microscope: the infusoria locked up in the transparent, glass-like drop of water were tossing around, from side to side, up and down.

"Ah!" Someone's triumphant voice. I saw the back of a neck, and a finger pointing to the sky. I remember very distinctly a yellowish-pinkish nail, and under the nail a crescent crawling out as if from under the horizon. The finger was like a compass; all eyes were raised to the sky.

There, running away from invisible pursuit, masses of cloud were rushing upon each other; colored by the clouds, the aeros of the Guardians were floating with their tube-like antennae. And farther to the west—something like... At first nobody could understand what it was, even I, who knew (unfortunately) more than the others. It was like a great hive of black aeros swarming somewhere at an extraordinary height—they looked like hardly noticeable, swiftly moving points... Nearer and nearer... Hoarse, guttural sounds began to reach the earth, and finally we saw birds just over our heads! They filled the sky with their sharp, black, descending triangles. The furious wind drove them down, and they began to land on the cupolas, on the roofs, poles, and balconies.

"Ah-ah!" and the triumphant back of the neck turned; again I saw that man with the protruding forehead, but it seemed that the name, so to speak,

was all that was left of him: he seemed to have crawled out from under his forehead, and on his face, around the eyes and lips, bunches of rays were growing. Through the noise of the wind and the wings and the cawing he cried to me:

"Do you realize? Do you realize! They have blown up the Wall! The Wall has been blown up! Do you understand?"

Somewhere in the background figures with their heads drawn in were hastily rushing by and into the houses. In the middle of the pavements was a mass of those who had already been operated upon; they moved toward the west...

...Hairy bunches of rays around the lips and eyes... I grasped his hands:

"Tell me. Where is she? Where is I-3307 There? Beyond the Wall, or ...? I must... Do you hear me? At once... I cannot..."

"Here!" he shouted in a happy, drunken voice, showing strong yellow teeth, "here in town, and she is acting! Oh, we are doing great work!"

Who are those "we"? Who am I?

There were about fifty around him. Like him, they seemed to have crawled out from under their foreheads. They were loud, cheerful, strong-toothed, swallowing the stormy wind. With their simple not at all terrible-looking electrocutors (where did they get them?), they started to the west, toward the operated ones, encircling them, keeping parallel to avenue Forty-eight...

Stumbling against the tightly drawn ropes woven by the wind, I was running to her. What for? I did not know. I was stumbling... Empty streets... The city seemed foreign, wild, filled with the ceaseless, triumphant hubbub of the birds. It seemed like the end of the world, Doomsday.

Through the glass of the walls in quite a few houses (this cut into my mind), I saw male and female Numbers in shameless embraces—without curtains lowered, without pink checks, in the middle of the day!...

The house—her house; the door ajar. The lobby, the control desk, all were empty. The elevator had stopped in the middle of its shaft. I ran panting up the endless stairs. The corridor. Like the spokes of a wheel figures on the doors dashed past my eyes: 320, 326, 330—I-330! Through the glass wall I could see everything in her room upside down, confused, creased: the table overturned, its legs in the air like a beast; the bed absurdly placed away from the wall, obliquely; strewn over the floor—fallen, trodden petals of pink checks.

I bent over and picked up one, two, three of them; all bore the name D-503. I was on all of them, drops of myself, of my molten, poured-out self. And that was all— that was left...

Somehow I felt they should not lie there on the floor and be trodden upon. I gathered a handful of them, put them on the table, and carefully smoothed them out, glanced at them, and... laughed aloud! I never knew it before but now I know—and you, too, know—that laughter may be of different colors. Laughter is but a distant echo of an explosion within us; it may be the echo of a holiday—red, blue, and golden fireworks—or at times it

may represent pieces of human flesh exploded into the air....

I noticed an unfamiliar name on some of the pink checks. I do not remember the figures but I do remember the letter—F. I brushed the stubs from the table to the floor, stepped on them, on myself, stamped on them with my heels—and went out ...

In the corridor I sat on the window sill in front of her door and waited long and stupidly. An old man appeared. His face was like a pierced, empty bladder with folds; from beneath the puncture something transparent was still slowly dripping. Slowly, vaguely, I realized—tears. And only when the old man was quite far off I came to and exclaimed:

"Please... listen Do you know... Number I-330?"

The old man turned around, waved his hand in despair, and stumbled farther away....

I returned home at dusk. On the west side the sky was twitching every second in a pale blue, electric convulsion; a subdued, heavy roar could be heard from that direction. The roofs were covered with black, charred sticks — birds.

I lay down; and instantly, like a heavy beast, sleep came and stifled me....

RECORD THIRTY-EIGHT

I Don't Know What Title—Perhaps the Whole

Synopsis May Be Called a Castoff Cigarette Butt

I awoke. A bright glare painful to look at. I half-closed my eyes. My head seemed filled with some caustic blue smoke. was fog, and through fog:

"But I did not turn on the light...then how is it..."

I jumped up. At the table, leaning her chin on her hand and smiling, sat I-330, looking at me.

She was at the very table at which I am now writing. Those ten or fifteen minutes are already well behind me, cruelly twisted into a very firm spring. Yet it seems to me that the door closed after her only a second ago, and that I could still overtake her and grasp her hand, and that she might laugh out and say...

I-330 was at the table. I rushed toward her.

"You? You! I have been...I saw your room... I thought you..." But midway I hurt myself upon the sharp, motionless spears of her eyelashes, and I stopped. I remembered: she had looked at me in the same way before, in the Integral. I felt I had to tell her everything in one split second, and in such a way that she would surely believe, or she would never...

"Listen, I-330, I must... I must... everything! No, no, one moment—let me have a glass of water first."

My mouth was as dry as if it were lined with blotting paper. I poured a glass of water but I couldn't...I put the glass back upon the table, and with both hands firmly grasped the carafe.

Now I noticed that the blue smoke came from a cigarette. She brought the cigarette to her lips, and eagerly drew in and swallowed the smoke as I did water; then she said:

"Don't. Be silent. Don't you see it matters very little? I came, anyway. They are waiting for me below.... Do you want these minutes, which are our last...?"

Abruptly she threw the cigarette on the floor and bent backward, over the side of the chair, to reach the button in the wall (it was quite difficult to do), and I remember how the chair swayed slightly, how two of its legs were lifted. Then the curtains fell.

She came close to me and embraced me. Her knees, through her dress, were like a slow, gentle, warm, enveloping, and permeating poison...

Suddenly (it happens at times)you plunge into sweet, warm sleep—when all at once, as if something pricks you, you tremble and your eyes are again widely open. So it was now; there on the floor in her room were the pink checks stamped with traces of footsteps, some of them bore the letter F- and some figures... Plus and minus fused within my mind into one lump... I could not say even now what sort of feeling it was, but I crushed her so that

she cried out with pain...

One more minute out of those ten or fifteen; her head thrown back, lying on the bright white pillow, her eyes half-dosed, a sharp, sweet line of teeth... And all this reminded me in an irresistible, absurd, torturing way about something forbidden, something not permissible at that moment. More tenderly, more cruelly, I pressed her to myself, brighter grew the blue traces of my fingers...

She said, without opening her eyes (I noticed this), "They say you went to see the Well-Doer yesterday; is it true?"

"Yes."

Then her eyes opened widely and with delight I looked at her and saw that her face grew quickly paler and paler, that it effaced itself, disappearing—only the eyes remained.

I told her everything. Only for some reason, why I don't know (no, that's not true, I know the reason), I was silent about one thing: His assertion at the end that they needed me only in order...

Like the image on a photographic plate in a developing fluid, her face gradually reappeared: the cheeks, the white line of teeth, the lips. She stood up and went to the mirror door of the closet. My mouth was dry again. I poured water but it was revolting to drink it; I put the glass back on the table and asked:

"Did you come to see me because you wanted to inquire...?"

A sharp, mocking triangle of brows drawn to the temples looked at me from the mirror. She turned around to say something, but said nothing.

It was not necessary; I knew.

To bid her good-by, I moved my foreign limbs, struck the chair with them. It fell upside down, dead, like the table in her room. Her lips were cold...just as cold was once the floor, here, near my bed... When she left I sat down on the floor, bent over the cigarette butt...

I cannot write any more—I no longer want to!

RECORD THIRTY-NINE

The End

All this was like the last crystal of salt thrown into a saturated solution; quickly, needle-like crystals began to appear, to grow more substantial and solid. It was all clear to me; the decision was made, and tomorrow morning I shall do it! It amounts to suicide, but perhaps then I shall be reborn. For only what is killed can be reborn.

Every second the sky twitched convulsively there in the west. My head was burning and pulsating inside; I was up all night, and I fell asleep only at

about seven o'clock in the morning, when the darkness of the night was already dispelled and becoming gray, and the roofs crowded with birds became visible...

I woke up; ten o'clock. Evidently the bell did not ring today. On the table—left from yesterday—stood the glass of water. I gulped the water eagerly and I ran; I had to do it quickly, as quickly as possible.

The sky was deserted, blue, all eaten up by the storm. Sharp corners of shadows... Everything seemed to be cut out of blue autumnal air—thin, dangerous to touch; it seemed so brittle, ready to disperse into glass dust. Within me something similar; I must not think; it was dangerous to think, for...

And I did not think, perhaps I did not even see properly; I only registered impressions. There on the pavement, thrown from somewhere, branches were strewn; their leaves were green, amber, and cherry-red. Above, crossing each other, birds and aeros were tossing about. Here below heads, open mouths, hands waving branches... All this must have been shouting, buzzing, chirping... Then—streets empty as if swept by a plague. I remember I stumbled over something disgustingly soft, yielding yet motionless. I bent down—a corpse. It was lying fiat, the legs apart. The face... I recognized the thick Negro lips, which even now seemed to sprinkle with laughter. His eyes, firmly screwed in, laughed into my face. One second...I stepped over him and ran: I could no longer... I had to have everything done as soon as possible, or else I felt I would snap, I would break in two like an overloaded sail...

Luckily it was not more than twenty steps away; I already saw the sign

with the golden letters: "The Bureau of Guardians." At the door I stopped for a moment to gulp down as much air as I could, and I stepped in.

Inside, in the corridor, stood an endless chain of Numbers, holding small sheets of paper and heavy notebooks. They moved slowly, advancing a step or two and stopping again. I began to be tossed about along the chain; my head was breaking to pieces. I pulled them by the sleeves, I implored them as a sick man implores to be given something that would, even at the price of sharpest pain, end everything forever.

A woman with a belt tightly clasped around her waist and with two distinctly protruding, squatty hemispheres tossing about as if she had eyes on them, chuckled at me:

"He has a bellyache! Show him to the room second door to the right!"

Everybody laughed, and because of that laughter something rose in my throat; I felt I would either scream or...or ...

Suddenly from behind me someone touched my elbow. I turned around. Transparent wing ears! But they were not pink as usual; they were purplish red; his Adam's apple was tossing about as though ready to tear the covering...

Quickly boring into me: "What are you here for?"

I seized him.

"Quickly! Please! Quickly! ...into your office... I must tell everything... right away... I am glad that you...It may be terrible that it should be you to

whom...But it is good, it is good...."

He, too, knew her; this made it even more tormenting for me. But perhaps he, too, would tremble when he heard ...And we would both be killing ... And I would not be alone at that, my supreme second...

The door closed with a slam. I remember a piece of paper was caught beneath the door, and it rustled on the floor when the door closed. And then a strange, airless silence covered us as if a glass bell had been put over us. If only he had uttered a single, most insignificant word, no matter what, I would have told him everything at once. But he was silent. So keyed up that I heard a noise in my ears, I said without looking at him:

"I think I always hated her from the very beginning ...I struggled...Or, no, no, don't believe me; I could have, but I did not want to save myself. I wanted to perish; this was dearer to me than anything else...and even now, even this minute, when I already know everything...Do you know that I was summoned to the Well-Doer?"

"Yes, I do."

"But what he told me! Please realize that it was equivalent to ...it was as if someone should remove the floor from under you this minute, and you and everything here on the desk, the papers, the ink...the ink would splash out and cover everything with blots..."

"What else? What further? Hurry up, others are waiting!"

Then, stumbling, muttering, I told him everything that is recorded in

these pages... About my real self, and about my hairy self, and about my hands... yes... exactly, that was the beginning... And how I lied to myself, and how she obtained false certificates for me, and how I grew worse and worse, every day, and about the long corridors underground, and there beyond the Wall...

All this I threw out in formless pieces and lumps. I would stutter and fail to find words. The lips double-curved in a smile would prompt me with the word I needed, and I would nod gratefully: "Yes, yes!"...Suddenly, what was it? He was talking for me, and I only listened and nodded: "Yes, yes," and then, "Yes, exactly so... yes, yes ... "

I felt cold around my mouth as though it were wet with ether, and I asked with difficulty:

"But how is it...You could not learn anywhere..."

He smiled a smile growing more and more curved; then:

"But I see that you do want to conceal something from me. For example, you enumerated everything you saw beyond the Wall, but you failed to mention one thing. You deny it? But don't you remember that once, just in passing, just for a second, you saw me there? Yes, yes, me!"

Silence.

Suddenly, like a flash of lightning, it became shame-lessly clear to me: he—he, too— And everything about myself, my torment, all that I had brought here, crushed by the burden,plucking up my last strength as if

performing a great feat, all appeared to me only funny—like the ancient anecdote about Abraham and Isaac: Abraham all in a cold sweat, with the knife already raised over his son, over himself, and suddenly a voice from above: Never mind...I was only joking."

Without taking my eyes from the smile that grew more and more curved, I put my hands on the edge of the desk and slowly, very slowly pushed myself with my chair away from him. Then instantly gathering myself into my own hands, I dashed madly out, past loud voices, past steps and mouths...

I do not remember how I got into one of the public rest rooms, in a station of the Underground Railway. Above, everything was perishing; the greatest civilization, the most rational in human history was crumbling, but here, by some irony, everything remained as before, beautiful. The walls shone; water murmured cozily; and like the water, the unseen, transparent music... Only think of it! All this is doomed; all this will be covered with grass someday; only myths will remain..

I moaned aloud. At the same instant I felt someone gently patting my knee. It was from the left; it was my neighbor who occupied a seat on my left—an enormous forehead, a bald parabola, yellow, unintelligible lines of wrinkles on his forehead, those lines about me.

"I understand you. I understand completely," he said. "Yet you must calm yourself. You must. It will return. It will inevitably return. It is only important that everybody should learn of my discovery. You are the first to whom I talk about it. I have calculated that there is no infinity! No!"

I looked at him wildly.

"Yes, yes, I tell you so. There is no infinity. If the universe is infinite, then the average density of matter must equal zero; but since we know it is not zero, therefore the universe is finite; it is spherical in form, and the square of its radius— R^2 —is equal to the average density multiplied by...The only thing left is to calculate the numerical coefficient and then...Do you realize what it means? It means that everything is final, everything is simple... But you, my honored sir, you disturb me, you prevent my finishing my calculations by your yelling!"

I do not know which shattered me more, his discovery, or his positiveness at that apocalyptic hour. Only then did I notice that he had a notebook in his hands, and a logarithmic dial. I understood then that even if everything was perishing it was my duty (before you, my unknown and beloved) to leave these records in a finished form.

I asked him to give me some paper, and here in the rest room, to the accompaniment of the quiet music, transparent like water, I wrote down these last lines.

I was about to put down a period as the ancients would put a cross over the caves into which they used to throw their dead, when all of a sudden my pencil trembled and fell from between my fingers...

"Listen" I pulled my neighbor. "Yes, listen, I say. There, where your finite universe ends, what is there? What?"

He had no time to answer. From above, down the steps stamping...

RECORD FORTY

Facts

The Bell

I Am Certain

Daylight. It is clear. The barometer—760 ram. Is it possible that I, D-503, really wrote these—pages? Is it possible that I ever felt, or imagined I felt, all this?

The handwriting is mine. And what follows is all in my handwriting. Fortunately, only the handwriting. No more delirium, no absurd metaphors, no feelings—only facts. For I am healthy—perfectly, absolutely healthy...I am smiling; I cannot help smiling; a splinter has been taken out of my head, and I feel so light, so empty!.To be more exact, not empty, but there .is nothing foreign, nothing that prevents me from smiling. (Smiling is the normal state for a normal human being.)

The facts are as follows: That evening my neighbor who discovered the finiteness of the universe, and I, and all others who did not have a certificate showing that we had been operated on, all of us were taken to the nearest auditorium. (For some reason the number of the auditorium, 112, seemed

familiar to me.) There they tied us to the tables and performed the great operation, Next day, I, D-503, appeared before the Well-Doer and told him everything known to me about the enemies of happiness. Why, before, it had seemed hard for me to go, I cannot understand. The only explanation seems to be my illness—my soul.

That same evening, sitting at the same table with Him, with the Well-Doer, I saw for the first time in my life the famous Gas Chamber. They brought in that woman. She was to testify in my presence. She remained stubbornly silent and smiling. I noticed that she had sharp and very white teeth which were very pretty.

Then she was brought under the Bell. Her face became very white, and as her eyes were large and dark, all was very pretty. When they began pumping the air from under the Bell she threw her head back and half-closed her eyes; her lips were pressed together. This reminded me of something. She looked at me, holding the arms of the chair firmly. She continued to look until her eyes closed. Then she was taken out and brought back to consciousness by means of electrodes, and again she was put under the Bell. The procedure was repeated three times, yet she did not utter a word.

The others who were brought in with that woman proved to be more honest; many of them began to speak after the first trial. Tomorrow they will all ascend the steps to the Machine of the Well-Doer. No postponement is possible, for there still is chaos, groaning, cadavers, beasts in the western section; and to our regret there are still quantifies of Numbers who have betrayed Reason.

But on the transverse avenue Forty we have succeeded in establishing a temporary Wall of high-voltage waves. And I hope we win. More than that; I am certain we shall win. For Reason must prevail.

美妙的新世界:英汉对照

译序

你期待新世界吗？

《美妙的新世界》是英国作家奥尔德斯·伦纳德·赫胥黎于1932年出版的科幻小说。把它归类为科幻小说，是因为本书描画的主题是未来世界。在那个世界，工业与科学的过度发达导致了人类社会的畸变：看似和谐稳定，内在却充满了冷漠与阴暗，道德沦丧，人性消亡。

在作者描绘的世界里，孕育、母亲、父亲，这些维系人类社会的伟大词汇，变成了肮脏下流、腐败落后的渣滓。每一个人都是实验室里技术人员配置的结果，你的身高、你的性别、你的生理缺陷、你对疾病的抵抗能力，甚至你的命运，都在试管和烧瓶里已然被决定了。胚胎分为由低到高的不同种姓，接受不同的训练。低种姓者矮小丑陋，承担社会里最低层的工作；高种姓者高大漂亮，构成社会的上层。在新世界里，每个人都很快乐。但这种快乐不是自由意志选择下的结果，所有社会成员的快乐一模一样，没有选择，也没有空间包容别样的快乐。

书里的几个主要人物都有自我意识觉醒的时刻，列宁娜半夜醒来，发现枕头下传来睡眠教育的录音，从而思考背后的意义；飞过焚化炉时，亨利·福斯特突然感叹每一道热风都代表一条生命永恒的消逝。但这些时刻转瞬即逝，他们终归又回到新世界里快乐而麻木的人群中去。而那些回不去的人，作者也没有安排他们成为颠覆社会秩序的英雄。野蛮人约翰自杀，贝尔纳和亥姆霍兹被送去了孤岛。

如果本书仅仅是一部纯科幻小说，那么它绝不会被誉为“二十世纪

最伟大的一百部英语小说之一”。在科幻小说的外壳下，作者探讨的是物质文明泛滥时人类社会的发展方向。书中刻画未来社会的笔触充满了讽刺与绝望。精神由物质主宰，人性自由被技术和秩序消解，反抗只是恢宏乐章下的片刻杂音，刹那间即被淹没。这种对技术发展的反思，对人类命运的忧虑，使得本书成为二十世纪“反乌托邦”文学里的一面旗帜。

另外值得一提的是，本书从头到尾充满了各种奇妙的隐喻：“Brave new world”的书名出自莎士比亚名作《暴风雨》；绝大部分角色的名字都实有其人，美国汽车大王福特（Ford）取代了上帝God.....

由于中英文两种语言的差异，加上翻译时间及译者水平的有限，本书可能并未能完全体现原文的所有精妙之处，在此，特向读者致以深切的歉意。原文主旨宏阔、寓意深远，但愿手中粗劣之笔不影响读者对原文的理解，本人便心满意足了。

第一章

一幢只有三十四层的灰白色矮楼。入口处的一行大字十分醒目：中央伦敦培育所与条件设置中心。大字旁的盾牌图案上我们看见了世界国的格言：社会，和谐，稳定。

一楼大厅面朝北方。现在是夏天，户外的气温低得反常，可室内却热得像在赤道一样。一道纤细而又锐利的光线穿透了窗户，试图找寻某种被布盖上的苍白的人体模型或是长着鸡皮疙瘩的学者形象，但这种尝试被证明是徒劳无功的。屋里只有实验室的玻璃、镍和黯淡的陶瓷。寒冷回应着寒冷。工人们穿着白色的大褂，手上戴着白色的橡胶手套，这种白通常只有在尸体上才能看到。光线在此刻冻结了，死亡了，如幽灵一般。只有在显微镜焦黄的镜头下，才能找到某种丰润的生命物质。它躺在一排排光亮的试管里，像黄油一样，往辽远处无限延伸。

“这，”主任开了门，“就是受精室。”

他是培育与条件设置中心的主任。此时，受精室里一片安静，三百个孕育员弯腰靠在仪器上，有的人全神贯注；有的人则心不在焉地自言自语，还吹着口哨。主任身后是一群新来的学生。他们年轻而稚嫩，粉红的脸蛋，紧张的神态，一看就知道涉世未深。每个人手上都有一个笔记本，疯狂地记下主任所说的每一个字。可以亲耳听到伟大人物的教诲是多么罕见的特权啊！中央伦敦培育与条件设置中心主任始终相信：必须亲自带领他的新学生们参观每一个部门。

“只是让你们对全局有大致的了解。”他向学生们解释道。因为如果

想要出色地完成工作(即便这些工作有点儿微不足道),就必须了解些总体情况。只有这样,他们才有可能成为社会中和谐、快乐的成员。众所周知,美德与幸福源自细节;而全局则是理智上的必要之恶。社会的脊梁永远是锯工和集邮者,而不会是哲学家。

“明天,”主任微笑地看着他们,可这种亲切里却混杂了一丝威胁。他继续说道:“你们马上就要投身于严肃的工作中,将不再有时间了解全局。与此同时.....”

与此同时,这也是一种特权:话语从大人物的口中直接落到笔记本的扉页上。学生们疯狂地记着。

主任朝屋里走去。这个男人修长、瘦削,身姿挺拔,下巴很长,大门牙向外突出,不说话时勉强能被厚厚的嘴唇包住。他是年老?年轻?三十岁?五十岁?五十五岁?很难说。不过在弗德纪元632年这个安定的时代里,没有谁会去问一问。

“我将从头说起,”主任说道。更多积极的学生在笔记本上记下了这位大人物的话:从头说起。“这些,”他挥了挥手,“是培育器。”打开绝缘门,主任开始向孩子们展示一架架已经编好号的试管。“这全都是本周供应的卵子,必须保持在——”他解释道,“血液温度;而男性精子的温度,”这时,他开了另一道门,“则必须保持在三十五度而不能是三十七度。血液温度对它们来说太高,会导致所配精子失去繁殖功能。”要知道,热度箱里的公羊是不可能配出崽的。

主任靠在培育器上,对现代的授精过程做着简述。学生们的铅笔在本子上匆匆划过,一页又一页。外科手术,当然是简述里的第一项——“手术不仅对社会有益,同时也可以为个人带来一笔价值其半年工

资的高额报酬。”然后，主任谈到了保证剥离卵巢存活的技术；对于最佳温度、最佳盐度及最佳黏度的考量，还有存放剥离下来的成熟卵子之用的特殊液体。此时，他把那群年轻人领到了工作台前，向他们现场展示这种特殊液体从试管里抽取的过程：一滴滴注入经过特殊加温处理的显微镜玻片上；检视液体中卵子的异常性；卵子计数；如何将其移至一种指定的带孔容器内；把此容器浸入到有活跃精子的浓稠液体中（此时，在主任的带领下，学生们兴致勃勃地观看了这项技术的操作过程）——他一再强调指定液体里的精子密度至少为十万/立方厘米。浸泡十分钟后，从液体里取出带孔容器，再次检验其中的培育状况。如果依然存在未受精卵，则需进行二次浸泡，如有必要，还可执行第三次浸泡操作。最后受精卵将回到培育器里。三十六个小时后，取出伽玛、德尔塔和伊普西龙的卵子执行“波卡程序”，而阿尔法类和贝塔类的卵子则将继续留在培育器里直到最终入瓶。

主任强调了一遍：“波卡程序。”受教的年轻人们纷纷在笔记本里对这个词划上了重点记号。

一个卵子——一个胚胎——一个成人，这是自然界的常规。但卵子经过波卡程序的处理后会产生出芽、增殖、分裂等变化，最终生成八至九十六个胚胎，每个胚胎最终都能发育成一个健全的成人。现在，九十六个人诞生于一个受精卵，而从前一个卵子只能孕育出一个人。多么伟大的进步啊！

“本质上来说，”主任总结道，“波卡程序是对生物发育的抑制。对卵子进行波卡处理后，我们再来观察它的成长状态，令人惊讶的结果：出芽。”

出芽。铅笔又开始忙碌起来。

主任继续指点着。眼前，一条传送带把装满试管的货架缓缓地送入巨大的金属柜中，此时在传送带的另一端，出现了又一个满载试管的货架。轻微的轰隆轰隆的声音，这是机器运行的声音。主任对这幅画面补充道：“试管通过金属柜需要八分钟。”八分钟的强力X光照射通常是卵子可以承受的最大照射量。照射过程中，一些卵子会死亡。在剩下的卵子里，最不敏感的卵子会一分为二，而其他大部分卵子会出芽产生四个胚胎，有些则是八个。然后，它们又会全部被送回培育器等待胚胎继续发育。两天之后，培育器里的卵子们将被突然冷冻、抑制生长。二——四——八，出芽后的胚胎再次出芽；随之用酒精使它们再次濒临死亡，结果是胚胎的第三次出芽——胚胎再次长出新胚胎，新胚胎又生长出新胚胎——此时，如果继续进行抑制程序，一般会造成胚胎的集体死亡。所以，余下的工作便是任其自由生长。到这个阶段，原始卵已经分裂成八至九十六个胚胎。这是自然界里巨大的飞跃，我想你们会同意这个观点。完全相同的多个胚胎，不同于母体分娩时代的双胞胎或三胞胎，它们只是产生于卵子的偶然分裂。现在，一个卵子最终会变成几十甚至上百个人。

“上百个！”主任伸展开双臂，犹如在抛洒金币一般，“上百个！”

有个孩子不识实务地问道：“那么，好处在哪儿呢？”

“我的好孩子！”主任猛地转过身，面对这个蠢蛋：“难道你看得出来？难道你连这也看得出来？！”他举起一只手，脸上带着庄严的表情：“波卡程序是稳定社会的主要工具！”

稳定社会的主要工具。

标准化的男性和女性，都是批量培育的产物。这样，一个“波卡”卵

子就能满足一整个小工厂的工人需求。

“九十六个一模一样的多胞胎同时操控九十六部一模一样的机器！”由于内心里一股莫名的热忱，主任的声音几乎颤抖了起来。“你们真正明白了自己在社会里的位置，这是历史的新开端。”他引用了世界格言：“社会，和谐，稳定。”这些字眼多么有分量。“如果波卡程序能够被无穷尽的执行，我们的世界还会有任何问题吗？”

标准化的伽玛、标准化的德尔塔、标准化的伊普西龙，数以百万计的标准化多胞胎能解决所有的问题。工业里的标准化大规模生产原则终于——终于在生物学里运用了！

“但是，唉！”主任摇摇头，“波卡程序有尽头。”

“波卡”卵子的分裂极限是九十六，平均值是七十二。这已经是一枚卵子受精（使用同一名男性的精子）而批量生成标准化多胞胎的最好成绩（遗憾的是，这只能够算是次好成绩），虽然如此，可是往往连这样的成绩都很难达到。

“两百个卵子自然成熟需要三十年之久。但目前的任务只是稳定人口，此时的，此地的。难道我们还需要为了表现科学的进步而耗费四分之一一个世纪吗？”

显然没有必要。但是新的“破瓷”技术大幅度提高了成熟速率。有了“破瓷”技术，我们就可以保证两年之内生产出至少一百五十个成熟的卵子。卵子受精之后经过波卡处理——用数字表示，就是全部乘以七十二，这样平均能得到一万一千个胚胎，即两年之内出生一百五十批一模一样的多胞胎。

“甚至存在用一个卵子培养出一万五千个成年人的特例。”

一个浅色头发的强壮男子刚好路过这群庞大的学习队伍。主任对他招了招手，叫道“福斯特先生”，那青年走了过来。“福斯特先生，你能向大家说明我们实验室的培育纪录么？”

“本中心的最高纪录，同一个卵子培育出了一万六千零一十二个胚胎。”福斯特先生立马回答道，没有一丝犹豫。他的蓝眼睛里闪烁着愉悦的光彩，显然这是个热爱数字的人。“一万六千零一十二个，共是一百八十九批多胞胎。当然，那些位于赤道地区的培育中心，”他滔滔不绝地继续说道，“数量会更多。新加坡常常超过一万六千五百个，而蒙巴萨已经突破了一万七千的纪录。不过，他们是靠着不公平的优势。你们要是能看到黑人卵子对脑垂体的活跃反应就好了！简直是惊人！但凡是习惯了使用欧洲材料作业的人都会十分震惊。可是，”他大笑了声（眼神里闪现着战斗胜利的光彩，翘起的下巴也颇有几分挑战意味），“可是，我们还是企图超越他们。目前，我正在培养的德尔塔减型卵子，才十八个月，已经有了一千九百个孩子，有的已经换瓶，有的还处于出芽分裂状态，个个都很健壮。我们一定会超过他们的。”

“这就是我喜欢的精神！”主任拍了拍福斯特先生的肩膀，高声说道：“来吧，和我们分享你的专业知识，让这些孩子受益终生。”

福斯特先生谦虚地笑了笑：“再乐意不过了，主任先生。”

装瓶室，喧闹而和谐，忙乱而有序。小电梯从位于地下第二层的器官库处升起，发出“吱——吱”的声音，运送着已经切割成适当大小的母猪腹膜片（全都是新鲜的）。“咔哒”，电梯门从中间打开，腹膜片顺着传送带飘了出来。装瓶工伸出一只手，抓起腹膜片，插进瓶里，压平，

才刚刚把瓶子放到传送带上，就听见了又一声“咔哒”！电梯门打开，一块新的腹膜片从里面送了出来，等待着被塞进新的瓶子——传送带上漂流着无穷无尽的瓶子中的一个。

装瓶工旁边的是收纳员。生命的制造进程前进着。卵子们脱离了试管，进入了更大的容器；精准地撕开腹膜衬，桑葚胚从中落了出来，毫无意外地落入容器中，然后灌入盐溶液.....到了这个阶段，瓶子里的工序就结束了，接下来轮到标签工跟瓶子外表较劲。遗传状况、授精日期、波卡分组的细节等等信息需从试管转移到瓶子外。从此，这些生命不再是匿名的了，它们被署上了名，标上了身份。生命的进程继续缓缓地前进着，穿过了墙壁上的一道开口，来到了“社会性参数前定室”。

“卡片索引文件的体积总共有八十八立方米。”福斯特先生这句满溢得意之情的句子同大家一同步入了社会性参数前定室。

“这个数据当然是包括了全部的相关资料。”主任补充道。

“每天早上资料都会更新。”

“每天下午还要再次调整。”

“根据数据进行计算。”

“每个种群的个体数量。”福斯特先生说。

“分配的量。”

“每个时刻的最佳出瓶率。”

“意外损耗的迅速补充。”

“迅速补充！”福斯特先生又重复了一遍，“你们得知道，上次日本地震之后，我们可加了不少班。”他温和地笑了笑，然后摇了摇头。

“社会性参数设定员把数据发给授精员。”

“等着授精员给他们合适的胚胎。”

“参数设定员对送来的胚胎瓶进行详细的设置。”

“然后再把瓶子送到胚胎库房办理入库。”

“也正是我们现在的目的地。”

福斯特先生领着大家，开了一道门，走下台阶，来到了地下室。

赤道似的灼热高温。他们越走越暗，身处的这条通道设有两道门及两个拐弯，目的就是确保地下室不受任何光线的破坏和侵扰。

“胚胎就像胶卷，”在推开第二道门时，福斯特先生诙谐地说道，“它们都只能面对红色的光线。”

实际上，他们进去的地方到处都是暗红色，那种暗红就好像夏天午后在阳光下闭上眼的感觉。一排排、一层层排列整齐的烧瓶反射着暗红的光线，像无数的红色宝石。在烧瓶架间行走的人群，每一个都是暗红色的幽灵，紫色的眼眸，似乎每个人都是狼疮患者。机器运转所发出的声响使空气也轻微地颤抖起来。

“福斯特先生，给他们几个数字。”由于长时间的教导，主任已经不太想开口了。

福斯特先生则十分喜悦，因为他热爱数字。

长为二百二十米、宽二百米、高十米，福斯特先生指了指上头。像小鸡喝足水抬头一样，学生们纷纷抬头望向高处的天花板。

架子有三层：地面走廊、一层走廊、二层走廊。

蛛网似的钢制走廊一层一层向前延伸，消失在黑暗里。架子边，三个暗红色的幽灵正忙着从电梯上取下烧瓶。

电梯来自社会性参数设置室。

放瓶子的架子一共有十五个。同时，可能你们没有发现，每个架子也都是一条传送带，传送速度为每小时三十三点三厘米。二百六十七天，每天八米，算下来总共是两千一百三十六米。地下室的一条环道同地面走廊同高，一条同一层走廊同高，另外还有半条同二层走廊同高。在第二百六十七天的清晨，当阳光照进换瓶室的时候，“独立生命”就诞生了。

“但是在现在的阶段，”福斯特先生总结道，“我们已经投入了很多的精力。嗯，相当相当多的精力。”他笑了，笑声里张扬着洞悉与胜利。

“这就是我喜欢的精神！”主任又一次说到这句话，“我们一起再转转。你，福斯特先生，跟他们说说所有的东西。”

福斯特先生尽职地讲解。

他向学生们介绍了腹膜床上的胚胎；让他们尝了尝给胚胎食用的黏稠的代血浆；解释了为什么需要用胎盘素和甲状腺激素的刺激；说明了黄体素的提取过程；带领他们参观喷射口（这种喷射口每隔十二米就自动喷射一次黄体素）；谈到了在全程（长度为二千零四十米）的最后九

十六米处，将逐渐增加脑垂体黏液。描述了一百一十二米处向每个烧瓶内放入人工母体循环器；让他们看了代血浆储存库，保证液体流过胎盘、合成肺及废物过滤器的离心泵。此外，还涉及了胚胎极有可能产生贫血，因此需要供应大量的猪胃提取液及马胚胎的肝。

学生们来到了一台简单的仪器前，每过六米，这台仪器会摇晃胚胎瓶，目的在于使它们能适应移动。福斯特先生介绍了在换瓶过程中可能遭遇的风险及种种预防措施，即对瓶里的胚胎进行适应性训练。另外，他还解释了在二百米左右进行的性别测试及标签体系。字母T代表男性，O代表女性，而白底上打了黑色问号的将注定成为没有生育能力的女性。

“当然，”福斯特先生说，“在绝大部分情况下，良好的生育机能没有任何意义。一千二百个卵子里只要有一个多产卵就能满足需求。不过如果想保证每个胚胎都是精挑细选的结果，还是得保险点儿。所以，最多有百分之三十的女性胚胎可以正常发育。剩下的，在接下来的过程中，每隔二十四米就会被注射一定剂量的雄性激素。最终的结果就是到了换瓶阶段，我们得到了身体机能正常的不孕女性。”不过福斯特先生也不得不承认，“这些注射过雄性激素的女性后来都有一种轻微的长胡子的倾向，但可以保证，她们没有任何的生育能力。”福斯特先生继续道：“这些带领我们走出了对自然的模仿（这种模仿还停留在奴隶阶段，把自然当做主人）从而真正进入了人类发明的世界。”

福斯特先生搓了搓手。培育出胎盘当然不是他们的全部目标，这是连母牛都能做到的事情。

“我们还能设置人的各项条件以及决定他的社会命运。通过换瓶，胚胎就拥有了社会身份，成为了阿尔法或伊普西龙中的一员，也就是未

来的下水道工人或.....”福斯特先生原本想说“统治世界”，可话到嘴边却改了口，“做未来的培育中心主任。”

培育中心主任微笑着接受了这句赞美。

一行人经过了位于三百二十米处的第十一号货架。一个年轻的贝塔减技工正忙着用螺丝刀和扳手处理瓶子里的代血浆泵。随着他拧紧螺丝，马达的嗡嗡声也变得更加低沉。往下，往下.....最后再拧一下，随即看了一眼循环台，任务完成。他沿着传送带走了两步，开始处理下一个胚胎瓶。

“减少每分钟的旋转次数，”福斯特先生继续解释着，“就等于降低了代血浆的循环速度，这样一来它们流经肺部所需的时间增加，输送的氧气总量也就减少。对于达到抑制胚胎的生物机能而言，没有比减少氧气量更好的方法了。”说完，福斯特先生再次搓了搓手。

“为什么要抑制生物机能？”一个天资聪颖的学生提问道。

“笨蛋！”过了很久，主任终于开口，“难道你想不出来伊普西龙的胚胎必须得有伊普西龙环境和伊普西龙遗传吗？”

这名学生显然从来未曾想过这个问题，因此感到分外的惶恐和疑惑。

“种姓越低，”福斯特先生说，“供氧量越少。大脑是最早被影响的器官，随即是骨骼。供氧量减少三成，胚胎就会发育成侏儒；如减少七成以上，我们将得到没有眼睛的怪胎。”

“也就是完全没有价值的废物。”福斯特先生总结道。

“然而，”福斯特先生的语气既谨慎又热切，“如果能发明一种技术能够缩短胚胎的成熟期，这将是多么伟大的壮举，对社会，又是多么大的贡献啊！”

“想想马这种动物。”

学生们听话地立刻开始思考。

马的成熟期为六年，大象十年，而人到十三岁也没有真正进入性成熟阶段，要等到二十岁才完全成熟。当然，身体发育上缓慢带来的是智力上的高度发展。

“但伊普西龙胚胎，”福斯特先生用一种公正的口吻陈述着，“并不需要人类的智慧。”

“既不需要，也根本没有。十岁时，伊普西龙的智力发育就已经结束不再继续，可身体发育却需要十八年时间。也就是十八岁后，他们的身体条件才能满足工作要求。这么长的身体发育期是极其浪费的。如果我们能够加快他们的身体发育速度，比如跟牛一样的成熟期，我们的社会将节省多少资源！”

“不可思议！”学生们受到了启发，低声议论着。福斯特先生话语里隐含的热忱感染了他们。

接下来的讲话偏重技术方面。福斯特先生开始说明内分泌失调导致的发育迟缓，原因可能是胚胎期的突变。这种突变的影响是否能消除呢？是否可以通过某种技术使伊普西龙的胚胎出现返祖现象，拥有如狗或牛般的常态？这就是问题的重点。不过，这个问题已经基本上解决了。

在蒙巴萨，皮尔金顿实验室已经成功培育出四岁性成熟、六岁半发育完成的个体。这是科学领域毋庸置疑的一次胜利，但还不能投入实际应用。六岁人愚蠢至极，连伊普西龙人的工作都做不了。而这个科学程序却是不可折中的，除了不变和彻底的改变，没有其他的选项。实验员们仍然在尝试在二十年及六年的成熟期区间里寻求一个平衡点，不过到目前为止都没有任何进展。福斯特先生不由得叹了口气，摇了摇头。

他们继续在暗红色的光线里进行生命的漫步。他们来到了位于一百七十米处的九号架附近，马上就要走到尽头了。此时，眼前出现了一个隧道，隧道上有很多两三米宽的开口，胚胎瓶在狭长的隧道里停止了漂流。

“开口的作用是调节温度。”福斯特先生解释道。

冷、热隧道交替地排列。冰冻加重了强力X射线造成的不适。这些胚胎在换瓶时经历了刺骨的寒冷。经过社会性参数设置，这些胚胎将来会出现在热带地区从事矿工、人造丝缫丝工及钢铁工人的工作。过后，还要训练他们的精神，这样才能更好地支持身体。“通过设置不同的条件，我们会让这批胚胎适应炎热的气候，在高温中茁壮成长，”福斯特先生最后总结道，“楼上的同事们会培养他们爱上这种炎热。”

“那就是，”主任引用了句格言，“那就是‘幸福与美德在于——热爱一切无法改变的事情。’这也正是所有参数、条件设置的目的：让人们爱上逃脱不了的社会命运。”

在两条隧道中间，一名护士正在用细长的针管仔细地检查每个瓶子里的凝胶物质。参观者们安静地观察着。

“嗯，列宁娜。”看到护士抽回针管站直了身子，福斯特先生终于开

了口。

那姑娘吓了一跳，转过身子来。尽管满室暗红色的光线令她的皮肤像得了狼疮一样，眼睛也变成了紫色，她的美丽却依然让人注目。

“亨利！”列宁娜朝他投去了微笑，露出了贝齿。

“迷人，迷人！”主任喃喃自语道，然后轻轻地拍了拍她，得到了一个恭敬的微笑。

“你在加什么？”福斯特先生刻意专业地问道。

“啊，是普通的伤寒和昏睡症疫苗。”

“在一百五十米处，要对赤道工人胚胎注射疫苗。”福斯特先生向学生解释道。“这时胚胎还有鳃。注射了疫苗，以后就不会患上相关的疾病。”说完，他转向了列宁娜，“今天下午四点五十分在楼上，”他说，“照旧。”

“迷人。”主任重复了一遍，最后又拍了列宁娜一下，接着和别人一起走开了。

第十号货架上未来的化学工人胚胎正在接受一系列训练提高对铅、苛性钠、沥青和氯的忍耐度。第三号货架上的是未来的航天工程师，一批二百五十个，刚刚经过了一千一百米处的标牌。一种特殊的机器使它们的胚胎瓶一直保持旋转的状态。“为了增强他们的平衡能力，”福斯特先生解释道，“在太空里修理火箭可是件十分困难的事情。他们直立时，我们就放慢代血浆的循环速度，这样胚胎们就会处于半饥饿状态；他们倒立时，我们则会加倍地供应代血浆。这样，他们会形成倒立和舒适相联系的条件反射。于是，只有倒立时，他们才能感受到真正的快

乐。”

“现在，”福斯特先生继续说道，“我要给你们展示阿尔法加知识分子的性格设置，十分有趣。在一层走廊的五号架上有一大批阿尔法加。一层走廊！”他朝已经往地面走廊走去两个男孩子叫道。

“在九百米附近，”福斯特先生解释道，“在胚胎的尾巴消失以前是没法进行智力条件设置的。请各位跟随我来。”

此时，主任看了看他的表。“三点差十分，”他说，“恐怕没有时间看知识分子胚胎了，我们得在孩子们午觉结束前回到育婴室。”

福斯特先生有些失望。他请求道：“至少看一下换瓶室吧。”

“那好吧，”主任温和地笑了笑，“那就看一眼吧。”

第二章

培育与条件设置中心主任和他的学生们走进了电梯，留下福斯特先生在换瓶室里。

育婴室。牌子上写着“新型巴甫洛夫条件设置室”。

主任打开了门。进门后，他们来到了一个巨大的没有遮蔽的房间。一整面南墙都是透明的玻璃，明亮的阳光照亮了屋子里的每个角落。六个护士正忙着把玫瑰花摆放到地板上。她们统一地穿着白色制服（纤维胶亚麻的上衣和长裤），头发收进了白色的帽子里。玫瑰花被密集地种植在巨大的花盆里。数以千计的花瓣弥漫着成熟的丝质光泽，好像小天使的脸庞。在明亮的光线下，这些脸庞并不都是雅利安型和粉红型，其间还有灿烂的中国型和墨西哥型。有些花瓣天使可能是在天堂里吹了太多的喇叭，形态僵硬的如同中风病人；还有些苍白到带上了死亡的气息，同大理石一样病态的苍白。

看到主任，护士们马上站直了。

“把书拿出来吧。”主任吩咐道。

在一片静谧中，护士们把幼儿用书摆放到了巨大的玫瑰花盆间。每本书都是摊开的，书页上满满都是自然界飞禽走兽的美丽色彩。

“现在，把孩子们带进来。”

护士们匆匆忙忙地走出房间。两分钟她们回来，每人都推着一部手

推车。推车上有四层钢丝网架，每层都躺着一名婴儿，全都八个月大，全都一模一样（显然是和谐组波卡化的胚胎）。因为这些婴儿属于德尔塔，所以一律穿着卡其色的衣服。

“把他们放到地板上。”

婴儿们被转移到了地板上。

“现在，把他们转过来，让他们看看玫瑰和书本。”

刚转过身时，婴儿们突然变得特别安静，然后就被书页上丰富的色彩和形状所吸引，朝它们爬了过去。在他们靠近的过程中，之前遮住太阳的那片云飘走了，阳光又一次充满了整个房间。玫瑰花好像突然迸发了生命内在的热情，变得更加明媚艳丽，书页在阳光的抚摸下仿佛也焕发了新的光彩。婴儿们喜欢眼前看到的生动景象，发出了激动的叫声和欢快的笑声。

主任搓了搓手。“棒极了！”他说，“简直像提前训练过似的。”

婴儿中速度最快的那个已经到达目标了。他努力地伸出小手，摸着，抓着，玫瑰花变了形，花瓣扯掉了，书本也被揉皱了。主任在旁静静地等待着。终于，所有的婴儿们都开心地忙碌起来时，他举起手发布了指令。“你们看着吧。”

早早就站在房间另一头的护士长收到了指令，按下了仪表盘上的按钮。

剧烈的爆炸声、汽笛声、警铃声纷纷响起，极度地刺耳。

婴儿们害怕得尖叫起来，小脸也因为恐惧而变形、扭曲。

“现在，”因为巨大的噪音，主任不得不大声地吼叫，“现在用轻微的电击来复习一下刚才的教训。”

主任再次挥了挥手，护士长随即按下了第二枚按钮。婴儿们的尖叫声也随之变了调，声音里夹杂着绝望甚至疯狂。小小的身子开始痉挛，逐渐僵硬，四肢颤抖起来，好像有看不见的线在拉扯。

“这整片地板都可以通电，”主任大声地解释道，“但是，已经够了，”他又做了个手势。

爆炸声停止了，汽笛和警报的尖锐声音也渐渐平息。婴儿们放松了僵硬的身体，已经减弱的啜泣和呜咽却又变成了惊吓时的哭嚎。

“再给他们花和书。”

护士们按照主任的命令行事。可是当玫瑰花和书页里色彩鲜艳的小猫、小鸡、黑山羊才刚刚开始靠近，婴儿们就吓得躲避起来，哭喊的声音也突然更加刺耳。

“观察，”主任说道，像赢得了某种胜利，“观察。”

书本与噪音，花朵与电击——这些东西在婴儿的内心里已经勉强地结合到了一起。经过两百次这样类似的训练后，婴儿就会形成不可逆的条件反射。这种人造的联系连自然也是无能为力的。

“这种婴儿时期建立的条件反射，也就是心理学家称之为‘本能’的东西，将伴随他们长大。整个成长过程中，他们都会厌恶书籍和鲜花。条件反射是不可逆的，也就是说他们一辈子都无需害怕书籍和植物的危险。”说完，主任转过身面对着护士，“把他们带走吧。”

这些婴儿又重新被塞回车上，尽管他们仍然在哭喊着。手推车被推走了，留下的是婴儿身上已经发酸的奶味和此时此刻被大家无比珍惜的宁静。

一位学生举起手提问：“我十分理解禁止让低种姓的人在书本上浪费时间（何况这时间根本不属于他们个人，而属于全体社会），况且读书实在太危险了，很有可能破坏他们经过长期的训练而生成的条件反射，但是关于那些花……晤，我实在不能理解那些花，为什么要花尽力气去让德尔塔婴儿厌恶花朵呢？”

培育及条件设置中心主任对这个问题耐心地做出了解答，训练那群婴儿厌恶玫瑰花是出于经济上的考量。很久以前（其实不能算做很久，仅仅才相距一个世纪），伽玛、德尔塔甚至伊普西龙其实是被训练成喜欢花朵的，确切地说，是喜欢自然，目的就是让他们产生亲近自然的欲望，使他们不得不花费更多的钱在交通上。

“交通消费扩大了吗？”学生问。

“相当大，”主任回答道，“但是，仅仅是交通费。”

月见草和风景，主任进一步指出道，都有一个致命的缺点：免费。对大自然的爱使工厂根本繁忙不起来。于是热爱大自然的训练被废除了（至少在低种姓的人群中），但是交通消费却不能取消，这是极为重要的。必须让他们去农村，即使厌恶也得去。关键是为交通消费找出一个经济上更为恰当的理由，而不是喜欢月见草或风景。幸运的是，我们找到了。

“我们让群众厌恶乡村，”主任总结道，“与此同时，训练他们喜欢一切乡村运动。另外，我们还注意提高所有乡村运动器材的损耗率；这

样一来，他们既得在交通上花费钱财又得消费工业用品。因此，我们使用了电击。”

“我明白了。”学生沉默了，迷失在对主任以及对这项政策的崇敬里。

大家安静了一会儿后，主任清了清嗓子，继续说道：“从前，在我主弗德仍然在世时，有一个小孩，名叫热本·拉宾诺维奇。他的父母说波兰语，”主任插了句题外话，“我想，你们应该知道什么是波兰语吧？”

“是一种已经消失的语言。”

“与法语和德语一样。”另一个学生做了补充，炫耀自己知道这些已经消失语言的名字。

“那‘父母’呢？”主任继续发问。

沉默，突如其来的尴尬，好几个小伙子的脸都涨红了。他们还不会分辨粗俗与纯科学之间巨大而微妙的差异。最后，终于有一个勇士举起了手。

“人类以前是.....嗯.....”他犹豫了，感觉全身的血液都涌上了脸颊，“以前是胎生的。”

“非常正确。”主任朝他点点头以示赞许。

“胚胎换瓶时.....”

“‘出生’时。”主任出声纠正了这名学生的不当用词。

“嗯……他们是父母生——我想说，跟现在的胚胎不一样，当然是不一样；他们是其他那些。”小伙子慌张到不知道自己在说什么。

“总之呢，”主任说道，“父母，也就是‘爸爸’和‘妈妈’。”粗俗才是真正的科学。这个观念让孩子们陷入了一片难堪的沉默，彼此都不敢注视对方的眼睛。“妈妈，”主任有意打破了沉默，往椅子上一靠，“这些，”他严肃地说道，“都是令人不愉快的事实。不过，历史就是由这些不愉快的事实所构成的。”

话题又回到了小热本身上——小热本。某个晚上，由于疏忽，小热本的爸爸妈妈离开时，忘记了关掉小热本房间里的收音机。

（因为你们得知道，在当年那个野蛮的胎生时代，那个还没有国家条件设置中心的年代里，孩子们都是被所谓的“爸爸妈妈”抚养长大的。）

小热本进入了梦乡，这时，突然响起了伦敦的广播节目。第二天早上，发生了一件令他的爸爸妈妈惊讶不已的事（又一次听到这个粗俗的词汇，人群中甚至有几个粗俗大胆学生心有灵犀地咧嘴笑了起来）。起床后，小热本居然开始背诵起一位古怪老作家的长篇演说，而且一字不差。那是乔治·贝尔纳·萧的作品（“少数几个仍有作品流通的作家，其余古老年代的作品都已经因为思想问题被禁止出现在市面上。”），他通过传统的笔触表现了自身的天赋。小热本背诵这篇著名演讲的时候，又眨眼又怪笑。因为小热本这些怪异的表现还有一直嘟囔着的根本听不懂的语言，他的父母马上把他带到了医生那儿。幸运的是，医生会说英语，听到小热本的自言自语后，马上就联想到了前一天晚上广播里播放的萧·贝尔纳的演讲。此事具有重大的医学价值，于是这名医生便致信医学刊物报告了此事。

“睡眠教学，或者睡眠学习法的原理就这样被发现了。”说完这句话后，主任有意停顿了一下。

从原理的发现到真正的实际推广和应用，这两者又间隔了漫长的岁月。

“小热本的案例是在我主弗德的T型车进入市场之后二十三年出现的。”（此时，主任在肚子上画了个T字，学生们也虔诚地照做。）“可是……”

学生们又在笔记本上疯狂地写着。“睡眠教学的第一次正式应用却是在弗德纪元二一四年。如此早地发现，如此晚地应用，其间原因有两个。”

“第一，先行者们搞错了方向。”主任说道，“他们认为睡眠学习法是智力开发的手段之一……”

一个小男孩在床上休息。他向右侧卧着，手臂垂落在床边，床边的小盒子里轻轻地流出了一段录音：

“尼罗河的长度为非洲第一，世界第二，仅次于密西西比河。但是其流域长度却为世界之首，穿越了三十五个纬度。”

第二天早餐时，有人问：“汤米，非洲最长的河是什么河？”对方摇摇头。“那你记得以‘尼罗河……’开头的那句话吗？”

“尼罗河的长度为非洲第一，世界第二，仅次于密西西比河。”这些字句不经思索就脱口而出。

“那么，现在你知道了，非洲最长的河是什么河？”

“我不知道。”

“是尼罗河，汤米。”

“尼罗河的长度为非洲第一，世界第二，仅次于密西西比河。”

“那么，汤米，最长的河是哪一条呢？”

小男孩着急地哭喊着：“我不知道！”

主任解释道，正是那声无助而急切的哭泣声使当时的研究人员最终决定放弃实验。至此之后，再也没有科研人员尝试在孩子们睡觉时进行尼罗河的地理教育了。而这才是正确的。每个人都不可能掌握科学，如果他不了解科学到底是为了什么。

“如果他们当初选择进行道德教育就好了。”主任领着学生们向门口走去。学生们在纸上拼命写着：“道德教育无论如何也不应该是理性的。”

“安静。”十四层，电梯门打开，人群走了出来，听到扩音喇叭低沉的声音，“安静。”每一条走廊里都能听到这样的声音，不断地重复着。不仅是学生们，连主任都下意识地垫起了脚尖，小心翼翼地行走着。当然了，他们都是高种姓的阿尔法，但即使是他们，在胚胎时间及成长过程里也是被充分地训练过的。“安静”，十四楼的空气里似乎都弥漫着命令的气息。

就这样小心翼翼地走了快五十米，他们来到了一道门前。主任轻轻开了门，跨过门槛，进入了一个光线昏暗的宿舍，昏暗是因为百叶窗全都被拉上了。墙边摆了八十张小床，排成一排。均匀的呼吸和持续的低语，好像是来自无限遥远处的微弱之声。

一个护士看到他们进屋就立刻站了起来，走到主任面前，立正站好。

“下午上的什么课？”

“前四十分钟是《性学基础》，”她回答道，“现在是《阶级意识启蒙》。”

主任慢慢地走着，观察小床上躺着的孩子。他们呼吸轻柔，显得自在而放松。每个枕头下都有一个小小的扩音器，播放着指定的内容。主任在一张小床前停下了脚步，俯下身子，认真地听着。

“刚才你说的是《阶级意识启蒙》？用喇叭让大家都听听。”

主任走到了墙边，摁了下按钮。

“.....都穿绿色，”广播开始了，声音温柔清晰，“而德尔塔儿童则穿卡其色。噢，我可不想和德尔塔一起做游戏。伊普西龙更糟，他们太蠢了，连读写都不会；另外，他们还穿黑色，多么粗鄙的颜色。真高兴我是个贝塔。”

广播停顿了一下，又继续播放起来。

“阿尔法的儿童衣着是灰色。他们的工作很辛苦，因为他们比我们聪明。我很幸运我是贝塔，这样我就不用辛勤地劳动。而且我们要优于伽玛和德尔塔。伽玛十分愚蠢，穿着绿色衣服，德尔塔穿着卡其色衣服。我不愿意和他们一起玩耍。伊普西龙要糟糕得多，他们是十足的笨蛋...”

主任按下按钮关掉了广播，扩音喇叭里的声音消失了，可那声音依然存在于那八十个枕头里。

“今天，这些内容还要重复播四五十遍，星期四、六还要复习巩固。三十个月，每周三次，每次一百二十遍，然后这个课程就结束了。接下来，他们会接受更高级的训练。”

玫瑰花与电击，德尔塔人的衣服颜色是卡其色……在孩子们学会说话之前，这些事物间的联系便深深地刻进了他们的意识里。但是，普通的条件设置是很笼统的，不可能达到教育他们区别微妙差异及学习复杂行为的效果。所以必须加上语言，非理性的语言。简而言之，必须有“睡眠学习法”。

“这是历史上最伟大的道德与社会化的力量。”

这些话，每一字每一句，全都化成了年轻人的笔记。

主任又打开了广播。

“聪明得吓人，”一个温和且永远不知疲倦的声音说道，“我超级高兴，因为我是贝塔，因为……”

有人用“水滴石穿”来形容这种训练模式，其实不太恰当。虽然水以柔克刚的力量是大家有目共睹的。准确地说，它更像蜡滴：干脆地落下——缓缓地封住——逐渐坚硬起来。蜡油会和落下的地方融为一体，把岩石包成个红疙瘩。

“这种训练让孩子们的思想里只有接受到的信息，所有这些信息也就构成了他们的思想。不仅是此时的思想，也是未来的思想——贯穿整个人生。可以说，以后他们对事情的判断全都来源于这些信息。而这些

伟大的信息正是经过我们安排的信息！”说到这儿，主任愈加激动起来，“我们接受国家的旨意而安排的。”他不禁捶了下身旁的桌子。“接下来的……”

不和谐的噪声响起，主任不得不回过了头。

“啊，弗德！”他的声调不再激动，“我只顾着自己居然把他们都弄醒了。”

第三章

游戏时间，地点：花园。六月天的酷热让花园里的六七百个孩子脱光了衣服。这些男孩女孩们有的在草地上奔跑、嬉闹，有的聚在一起玩球，有的则躲进了开着鲜花的灌木丛中。玫瑰正热烈地绽放，夜莺在森林里密语，树上的布谷鸟欢乐地歌唱。一种有节奏感的嗡嗡声（这声音来自近处的蜜蜂和远处的直升机）给夏日增添了一种懒洋洋的困意。

经过“调皮狗离心球”的时候，参观的人群停了下来。这个游戏的核心设备是一座铬钢塔。皮球被扔到塔顶的小平台上，落进塔里，被高速旋转的圆盘甩出来。二十个孩子为一组围着钢塔，小球一旦飞出便争先恐后地抢夺。

结束了观察后，大家纷纷转身离开。主任暗自思考着：“真想不通为什么在过去的年代，绝大部分的游戏只需要一两个球、几根棍子，顶多再加上一张网。这些玩意儿对促进消费可没有任何贡献，简直毫无意义。现在，如果一个新游戏所需要的设备比现有的游戏简单，根本就不可能问世。”正想着，思绪突然被别的事物打断了。

“那几个小家伙多可爱。”他指着远处。

手指之处，有两丛繁茂高大的地中海石楠，中间是一小片草地。一名七岁左右的小男孩和另一名比他略微大上一岁的女孩正以科学家致力科研的精神玩着性的启蒙游戏。

主任被眼前的景致打动了：“迷人，迷人！”

“迷人。”学生们附和着大人物，但笑容里却有着明显的优越感。不久前他们刚刚脱离这种幼稚的把戏，所以又看到的时候，难免有些过来人的轻蔑。迷人？不过只是孩子气的胡闹而已。

“我始终认为.....”主任刚开口，就被一阵“哇哇”大哭所打断。

从旁边的小树林里走出来了几个人。一个护士牵着个号啕大哭的小男孩，后面小跑着跟着一个满脸焦急的小姑娘。

“怎么了？”

护士耸了耸肩：“没什么。只是他不太愿意参加性游戏，以前有过两三次，没想到今天又犯了。就在刚才，他开始大叫.....”

“我，真的，”跟在最后的小女孩着急地解释道，“我没有任何伤害他的意思，真的。”

“亲爱的，你当然没有。”护士柔声安慰着小女孩，“所以，”她转过身，面对着主任，“现在，我要带他去心理助理主任那儿检查一下他究竟是哪儿不正常。”

主任赞许道：“很好！带他过去吧。小姑娘，你留下来。”在护士带走了男孩之后，主任继续问道：“你叫什么名字？”

“玻莉·托洛茨基。”

“好名字！走吧，再找一个小伙伴陪你玩刚才的游戏。”

那姑娘蹦蹦跳跳地跑向灌木丛，消失在视野里。

“可爱的小家伙！”主任看着小女孩逐渐远去的背影，转过身看着学

生们说道，“我现在要说的，也许难以置信。但是，大多数情况下，历史都是让你们啧啧称奇的。”

主任开始讲述那件令人惊讶的事情。在弗德纪元前漫长的时期里，儿童之间的性游戏都被视为不正常的表现（人群中爆发出一阵阵笑声）；有时不仅是不正常，甚至被视作不道德、羞耻，因此被严厉地压制着。

在场的人都露出了不可思议的表情：难道让小家伙们享受一下快乐也是罪恶吗？简直是天方夜谭。

“甚至像你们这样的少年都禁止有性游戏的权利……”，

“不可能！”

“除了私下里不为人知的自慰和同性恋行为，其他什么都不可能。”

“一切？”

“通常，二十岁以后才有这些权利。”

“二十岁？”学生们异口同声地叫了出来。

“二十岁。正如我开头所说的，这确实是让人不敢相信。”

“后来呢？结果呢？”学生们追问道。

“结果很可怕。”一个陌生的厚实的声音插了进来。

不知何时，人群旁多出了个陌生人——中等个头，黑发鹰鼻，嘴唇丰厚，目光犀利而幽深。

“很可怕。”他又重复了一次。

已经在花园的钢架塑胶长凳上坐下来的主任（这种供人休息的凳子，在园子里随处可见），在发现那个陌生人的一刻，立马就站了起来。他展开双手，向那人跑了过去，大门牙也因为夸张的笑容露了出来。

“总统！多么美丽的惊喜！孩子们，你们还愣着干吗？这是总统，是穆斯塔法·孟德阁下。”

此时，中心的四千个房间里同时响起了电子钟报时的声响。四点了。播音喇叭里传来了无形的声音：

“早班下班，晚班接班；早班下班……”

亨利·福斯特和参数设置中心的助理主任一同前往更衣室。在电梯里，两人碰上了心理局来的访客。看清来者是声名狼藉的贝尔纳·马克斯后，二人便立即移开了脸。

机器运行时微弱的轰鸣声轻轻地震动着胚胎室里暗红的空气，轮班的人不断交替着，一张狼疮病人似的面孔替换了另一张，而传送带则永恒地前进，承载着未来的男人与女人们。

列宁娜·克朗往门边轻快地走去。

尊敬的穆斯塔法·孟德阁下！学生们的眼睛几乎要从眼眶里蹦出去了。穆斯塔法·孟德，西欧总统，世界上仅有的十个总统之一！总统坐在了主任先前坐的长凳上，他打算要待上一会儿。是的，他想跟他们说说话……这些话语将直接来自权威，直接来自总统阁下。

两个穿着褐色衣服的孩子从树林里冒了出来，大大的眼睛里满是惊

讶，看了一会儿，就又回到树林里快乐去了。

“你们全都记得，”那个厚实的声音继续说道，“我想，你们全都记得，我主弗德那句美丽又充满启示的话：历史全是废话。历史，”他语速缓慢地说道，“全是废话。”

他挥了挥手，仿佛拿着一柄无形的拂尘。拂尘一甩，一些灰尘被扫去了。那些灰尘里有巴基斯坦的哈拉帕，有迦勒底的乌尔；扫走了蜘蛛网，就是底比斯、巴比伦、克诺索斯和希腊的迈锡尼。再扫——奥德修斯、约伯、丘庇特、乔达摩和耶稣不知了去向。再扫——扫开了雅典、罗马、耶路撒冷和中央王国的古老尘埃。扫，弗德纪元前的意大利变成了空城。扫，教堂不见了；扫，李尔王与帕斯卡的思想消逝了。扫，激情；扫，安魂曲，扫，交响曲；扫……

“晚上去看感官剧吗，亨利？”助理主任问道。“我听说阿罕布拉那儿上映了一部大受好评的感官剧。有场爱情戏是在熊皮毯上，听他们说那场戏棒极了，熊皮上的每一根毛发都能看得清清楚楚，前所未有的触感体验。”

“这也就是不给你们上历史课的原因。”总统说，“不过现在是时候了……’

主任紧张地看着总统，他想起了一些离奇的谣言：总统书房的保险箱里藏着一些已经被禁止的古老书籍，圣经还是诗？只有弗德知晓！

穆斯塔法·孟德感受到了主任的焦虑，嘴角冷冷一笑。

“没问题的，主任，”总统的话里带着轻微嘲讽的色彩，“我可不会把他们腐蚀了。”

主任又困惑又惶恐。

如果觉得自己被人排挤轻蔑，那么自己也会表现出鄙视别人的样子。贝尔纳·马克斯露出轻蔑的笑容，每根毛发都看得相当清楚！

“看来我确实应该去看看。”亨利·福斯特说。

穆斯塔法·孟德身子往前一倾，伸出一根指头晃了晃，“试着想象一下，想象自己有一个‘妈妈’是什么感觉。”

又是那个粗俗的字眼，不过这回学生中可没人开口笑了。

“想象一下‘一家人共同生活’意味着什么。”

他们努力地想着，可脑袋一片空白。

“有任何人知道‘家’是什么意思吗？”

摇头。

坐着电梯，列宁娜·克朗从暗红色的房间来到了十七层楼，电梯出来往右拐，沿着长廊一直走，就来到了女更衣室。她打开门，钻进了一片嘈杂中，满眼都是女性的胳膊、胸脯和内衣。一百个浴缸里，热水倾泻而入，从小管子里汩汩地流出。轰轰——嘶嘶——八十个真空振动按摩仪器正同时为八十位年轻的女性保养着她们故意晒黑的曼妙躯体。背景的喧闹让每个人都必须扯着嗓子说话。合成音响里微微发颤地放送着超级短号的独奏。

“你好，法妮。”列宁娜对身旁的年轻女性打招呼道。

法妮在换瓶室工作，她也姓克朗，不过因为这地球上的二十亿人只有一万个姓，所以也不算是真正的巧合。

列宁娜拉下了外套前面及裤子两侧的拉链，脱下内衣，穿着鞋袜往浴室走去。

家——几个狭窄的房间，一个男人、一个定期怀孕的女人和一群什么年纪都有的孩子。没有新鲜空气、没有空间，就像那种未经消毒的监狱，充满了黑暗、疾病及难闻的味道。

（人群中最敏感的男孩听到总统这番极富感染力的描述后，脸色立马变得煞白，几乎要吐了出来。）

列宁娜走出浴室，擦干身体，拿起旁边一根连着墙壁的软管，对准了自己，好像自杀似地扣动了扳机——一阵混杂着爽身粉的热气从管口喷出。浴缸上面有喷洒香水的小龙头，包括古龙水在内，一共有八种不同的香水可供选择。她选择了左边第三个的西普香水，然后就拿着鞋袜往按摩仪器那边走去了。

家是一个物质和精神上都一样肮脏的地方。精神上是个兔子洞，是垃圾堆，极端拥挤，充斥着感情与臭气。让人窒息的亲密！危险、疯狂又见不得人的关系！母亲像母猫一样紧紧地搂住孩子，差别只在这猫会说话，不停地叫着：“我的宝贝儿，我的宝贝儿”，一遍又一遍。“我的宝贝，噢，在我的胸口，他的小手，他饿了，难受了，他不会表达。最

后，宝贝睡着了，嘴边还挂着可爱的牛奶泡泡。我的小宝贝终于睡着了……”

“是，”穆斯塔法·孟德点头道，“简直是不寒而栗！”

按摩完，列宁娜像身体里面藏了颗珍珠，整个人散发着粉红色的光芒。她问法妮：“今天晚上你要跟谁出去？”

“没人。”

列宁娜惊讶地抬起了眉头。

“最近，我一直觉得不太舒服，威迩仕医生让我吃一点代妊娠素。”

“可是，亲爱的，你才十九岁，二十一岁前是不会强迫服用的。”

“我知道，亲爱的。但有的人早点使用会更好。威迩仕医生说，像我这种大骨盆的棕色女性，在十七岁时就应该开始服用了。所以我非但不是早了两年，反而晚了两年呢。”法妮打开了储物柜，指着上排架子上一排小盒子和带标签的瓶子。

列宁娜大声地读出了标签上的名字。“妊娠素精糖浆。卵巢素，质保期：弗德纪元六三二年八月前使用。乳腺精，饭前加少许水服用，一日三次。胎盘素，使用方式：静脉注射；用量：五毫升；使用频率：三日一次……呃！”列宁娜打了个寒战。“真不喜欢静脉注射。你呢，法妮，难道你不讨厌吗？”

“我讨厌，可如果它们对人有好处……”法妮是个理性的姑娘。

我主弗德，由于一些不可说的原因，在谈及心理学范畴的问题时，他更愿意称呼自己为弗洛伊德。他是揭示家庭中种种骇人听闻的危险的第一人。这个世界满是父亲，即满是悲惨；满是母亲，即满是堕落（从性虐到贞操）；满是弟兄姊妹叔伯姑婶，也就满是疯狂和自杀。

“可是，在沿新几内亚海边的某些岛上，萨摩亚岛的野蛮人间……”

孩子们在木槿花间嬉戏打闹，热带地区的阳光像蜜糖一样洒在他们赤裸的身上。他们没有家，或者说那二十间用棕榈叶搭成的屋子哪间都是他们的家。在特洛布里安岛人的观念里，家是属于那些古老鬼魂的，没有半个活着的人听说过“父亲”是什么玩意儿。

“极端，”总统说道，“相遇了。极端是注定会相遇的。”

“威逊仕博士说服用三个月的代妊娠素能在未来三四年间给我的健康带来相当大的好处。”

“是的，希望如此。”列宁娜说，“但法妮，难道接下来的三个月里你都不打算……”

“哦，当然不，亲爱的，顶多一两个星期而已。晚上，我打算去俱乐部玩音乐桥牌。我想你要出去？”

列宁娜点了点头。

“跟谁？”

“跟亨利·福斯特。”

“又是他？”法妮月亮般的圆脸上挂着一种不认可的惊讶和痛苦的表情，“你是说你还在和亨利一块儿出去？”

母亲、父亲、兄弟、姐妹，但还有丈夫、妻子、情人。另外，还有一夫一妻制度和爱情故事。

“虽然你们可能根本不知道我在说什么，”穆斯塔法·孟德说。

他们摇摇头。

家庭、一夫一妻制度还有爱情等等这些都具有独占性，禁锢了所有的冲动和精力，导致他们只能在一条狭窄的通道里发泄。

“但每一个人都属于其他人。”他总结道，引用了睡眠学习里的名句。

学生们毫不犹豫地地点头表示同意，这句话在黑暗里重复了六万两千次，早已融入他们的血液。所以不仅仅是同意，而且是不言自明、不容辩驳地同意。

“但是，”列宁娜争道，“我们在一起仅仅才四个月。”

“仅仅才四个月！我喜欢你这句话，”法妮指着列宁娜责问道，“四个月，只有亨利没有别人，是吗？”

列宁娜又气又羞，满脸通红，但眼睛和声音里仍然带着挑衅的意思，“对，没有别人，”她的声音变得有些粗鲁，“而我也不明白为什么应该有别人！”

“哦，她也不明白为什么应该有别人。”法妮重复道，看着列宁娜的左后方，好像那儿站着一个看不见的第三人似的。突然，法妮换了个语调，“认真的，你得小心了。一直跟同一个男人厮混。可太糟糕了。如果你今天是三十五、四十岁，这样做还不至于太伤风败俗。但你，列宁娜，在你这个年纪！真的，别再继续了。你比任何人都清楚主任是多么反对过热和长时间的相处。而你，四个月，只有亨利·福斯特一个人，完全没有别人！天哪，想想要是主任知道了得多么生气……”

“想象一下管子里的水，想象一下它们所承受的压力。”学生们听话地开始在大脑里幻想起来。“如果我们在水管上扎一个小洞，”总统继续说道，“会有一条水柱喷射出来！”

在水管上扎二十个洞，就会有二十个迷你喷泉。

“我的宝贝，我的宝贝……”

“妈妈！”疯狂是会传染的。

“我的小心肝，我唯一仅有的、珍贵的、心爱的宝贝……”

母亲、一夫一妻制度、爱情。水柱很高，带着发狂的泡沫，愤怒地撒着野。所有的冲动只有一个出口。我的爱，我的宝贝！如此看来，那些早期现代人的疯狂、邪恶与悲惨是注定了的。那个世界不允许轻易地获取，不允许生存的人们拥有理智、美德与快乐。因为母亲和情人，因

为不愿意遵守的禁令（那个年代可没有条件设置中心），因为无穷尽的诱惑和孤独的忏悔，因为疾病和苦痛，因为所有的不确定和贫穷，造成他们不得不努力地去感受。一旦努力感受（更可怕的是，在孤独中努力感受，在无望的自我孤立中去努力感受），那么怎么可能稳定呢？

“当然不需要放弃，时不时地和别人来往一下就行了。他可也有别的女孩儿，难道不是吗？”

列宁娜点了点头。

“我就知道一定会有的。你得知道，亨利·福斯特是个体贴人，完美的绅士。他会考虑到主任的，别忘了主任是多么顽固……”

列宁娜点点头道：“今天下午，他还拍了我的屁股呢。”

“你看！”法妮很得意，“这就是主任支持的：最严格的社会传统。”

“稳定，稳定。没有社会的稳定，就没有文明。没有社会的稳定，就没有个人的稳定。”总统的声音像乐器中的小号，让人们纷纷觉得自己变得更加的高大与兴奋。

机器运行，运行，也必须永无止境地运行，停下来即死亡。十亿人挣扎在地球的坚硬外壳上。轮开始转动，一百五十年后，地球上就会有二十亿人口。如果停下所有的轮，一百五十个星期后仍然会有十亿人，十亿因为饥饿而死亡的人。

轮必须永不停歇，稳定，有序，有人看管。这些轮必须有人看守。看守者应该同轮轴上的轮一样稳定，此外还要具备理智、服从、坚韧及满足的美德。

哭泣：我的宝贝，我的母亲，我的唯一；唯一的爱在叹息：我的罪，我可怕的上帝；因痛苦而尖叫；因灼热而呓语，因衰老、贫穷而呜咽.....这样的人如何看守轮的转动？如果做不到.....那十亿男性和女性的尸体要如何埋葬或烧毁呢？

“毕竟，”法妮以劝诱的口吻说道，“和亨利以外的男人交往也并不是什么痛苦或讨厌的事，你确实应该更放纵一些.....”

“稳定，”总统坚持道，“稳定，这是首要也是终极的需求。是稳定带来了今天我们拥有的一切。”

他伸出手，指了一圈：花园，条件设置中心的宏伟大楼，以及在灌木丛中嬉闹、草地上奔跑的没穿衣服的孩子们。

列宁娜摇摇头。“莫名其妙地，最近我没怎么想过放纵。有些时刻，人们会不愿意放纵。你发现过这一点吗，法妮？”

法妮点头表示她的同情和理解，“就算是这样，也得努力。游戏得进行到底，毕竟，每一个人都是属于其他人的。”

“是的，每一个人都属于其他人。”列宁娜重复道，语速缓慢，然后叹了口气，沉默了一会儿。她抓住法妮的手，轻轻地压了一下，“你是对的，法妮。我要和往常一样努力。”

冲动的河流若遇阻挡，则必将洪水滔天。奔腾的水是感觉，是激情，还是疯狂，这取决于洪水的力量与大坝的坚强。如果河流能自在流淌，则必将温柔流往幸福的方向。胚胎如饥饿，代血浆泵将不停运转，速率八百次/分钟，昼夜不停。换瓶的婴儿如嚎叫，护士就会拿来外分泌瓶。感觉悄悄地潜伏在欲望的产生与满足间。间隔一缩短，障碍就解除。

“孩子们！”总统说道，“我们不惜一切代价，只为了让你们成为没有情感的幸运儿。”

“我主弗德在他的小汽车里，”主任喃喃自语，“世界一片和谐。”

“列宁娜·克朗？”亨利·福斯特一边拉裤子拉链，一边跟助理主任交谈，“哦，她很吸引人，非常性感，真意外你居然没得到过她。”

“我也很意外。但我肯定能得到她的，只要给我一次机会。”

贝尔纳·马克斯在更衣室的走道对面，无意间听到上面的谈话，脸色苍白起来。

“老实说，”列宁娜说，“我的确已经开始觉得不新鲜了，每天都是亨利，太无聊了。”她拉起了左边的袜子。“嘿，你知道贝尔纳·马克斯吗？”列宁娜故作随意地问道。

法妮露出吃惊的神色：“难道你指的是……。”

“怎么了？他可是个阿尔法加，而且他还问我要不要一起去蛮族保留地看看。那地方我一直想去呢。”

“可是贝尔纳的名声？”

“我一定得在意那个吗？”

“我听说他讨厌玩障碍高尔夫。”

“听说，听说。”列宁娜嘲笑道。

“可他总是一个人，一个人。”法妮的语气里藏着几分害怕的意味。

“那么，和我在一起他就不是一个人了。另外，为什么大家要对他如此残忍？我倒挺喜欢他的，他很可爱。”列宁娜脸上泛起了笑容。贝尔纳在她面前常常露出羞涩的神情，多荒谬！好像她是世界总统，而他是最下等的伽玛减，负责看守机器而已。

“思考下你们自己的生活，”总统先生说，“有人遇到过无法解决的困难吗？”

沉默代替了回答。

“有谁体验过欲望长时间得不到满足？”

“呃。”一个孩子犹豫了，不知该不该开口。

“说，”主任说，“别让总统阁下等。”

“有次我想要个姑娘，最后等了快四个星期。”

“所以你应该感受到了一种强烈的感情吧？”

“强烈得可怕！”

“确实可怕！我们的祖先愚蠢又短视，当先驱们提出要消灭这些无谓的感情时，他们竟对这个提议不以为然。”

“只把她当块肉在评论。”贝尔纳咬牙切齿，“在这儿占有她，或是在那儿占有她。羊肉，她被贬低成了一块羊肉。她说她考虑考虑，她说这个星期能给我答复。啊，弗德，弗德，我的弗德！”他真想冲过去给那两个杂种几耳光。

“是的，我真心建议你试试看她。她非常美！”亨利·福斯特还在鼓励着。

“比如体外发育，普费茨纳和川口早就解决了所有的技术难题。可政府有把这当回事儿吗？没有。还有所谓‘基督教’这种东西，竟然强迫妇女去怀孕生孩子。”

“他太丑了！”法妮说。

“可我喜欢他的样子。”

“他还矮。”法妮做了个鬼脸；矮小可是低种姓的标志，可怕又典型的标志。

“我觉得小个头很可爱。叫人想爱抚他，你知道，像爱抚猫一样。”

法妮惊讶得不行了。“他们说当他还是个胚胎时，流水线上的工人搞错了，以为他是伽玛，往代血浆里加了乙醇，所以他才这么矮小。”

“这全都是没有意义的废话！”列宁娜愤怒了。

“英格兰曾经明令禁止过睡眠教学。当时有种所谓‘自由主义’的东西。议会，如果你们知道那玩意儿的话，曾经通过了一条禁止睡眠教学的法令。根据记录，当时有无数关于国民自由的演讲——做无能之人的自由，过悲惨生活的自由，与世界格格不入的自由。”

“小伙子，你很受欢迎。我向你保证，你很讨人喜欢。”亨利·福斯特拍了拍助理主任的肩膀。“毕竟，每一个人都是属于其他人的。”

一周三个晚上，这句话以这样的频率重复着，整整四年。睡眠学习

法的专家贝尔纳·马克斯沉思着，六万二千四百次的重复所造就的真理。白痴！

“比如种姓制度，不断地提出，不断地否决。还有种所谓‘民主’的玩意儿，好像人与人之间不只是物理、化学上的平等。”

“够了。我只想说，我会接受他的邀请。”

贝尔纳痛恨他们，痛恨他们。但他们有两个人，身材高大，体格魁梧。

“九年战争始于弗德纪元一百四十一年。”

“即使他的代血浆里掺了酒精。”

“碳酰氯、三氯硝基甲烷、碘乙酸乙酯、二苯代肼、三氯甲基、氯甲酸酯、硫代氯乙烷.....所有的化学武器都用上了，更不用说氢氰酸。”

“我根本不相信。”列宁娜做了结论。

“一万四千架飞机以散开的队形前进着，发出阵阵轰鸣声。但是在库达姆大街和第八区，炭疽炸弹的爆炸声就跟拍破一个纸袋发出的声响差不多。”

“因为我确实想去参观蛮族保留地。”

$\text{CH}_3\text{C}_6\text{H}_2(\text{NO}_2)_3 + \text{Hg}(\text{CNO})_2 =$ 呃，等于什么呢？地上的一个大窟窿，一堆破砖瓦，几片碎肉和黏液，一条穿靴子的腿，飞上天，“叭”的一下，落到血红的天竺葵丛里。那年的夏天简直是场精彩绝伦的表演。

“你完蛋了，列宁娜。不可救药，我放弃了。”

“俄罗斯在感染水源的供给方面有极其天才的技术。”

背对背，法妮和列宁娜的交流在一片寂静中继续着。

“九年战争和大萧条。世界的控制和毁灭，只能二选一。要么稳定，要么……”

“法妮·克朗也不错。”助理主任说。

在育婴室，阶级意识基础课已经上完，现在则是匹配未来的工业供应与需求的时间。“我的确喜欢坐飞机，”他们窃窃私语着，“我的确喜欢坐飞机。我的确喜欢穿新衣服，我的确喜欢……”

“虽然自由主义确实死在了炭疽杆菌的手上，但武力依然不是所有问题的灵丹妙药。”

“她没列宁娜丰满，一点儿也比不上。”

“但是旧衣服令人厌恶，”他们继续不知疲倦地低语着，“我们总是把旧衣服扔掉。扔掉比修补好，扔掉比修补好，扔掉比……”

“管理，是坐下来去领导，而不是暴力。要用头脑，用屁股去管理，绝非是拳头。例如，促进消费。”

“我已经准备好了。”列宁娜对法妮说道。但法妮仍然一言不发，垂头丧气地把身子倒向一边。“我们休战吧，亲爱的法妮。”

“为了工业利益，强迫每个男人、女人和孩子每年必须达到额定的消费。唯一的结果就是……”

“扔掉比修补好。修补越多，财富越少。修补越多……”

“总有一天，”法妮十分难过，‘你会有麻烦的’。

“良心上强烈的反对。零消费，回归自然。”

“我的确爱坐飞机，我的确爱坐飞机。”

“回到文化上。对，实际上是文化。如果老坐着读书，其余什么也不干，你的消费能高到哪儿去？”

“我看上去还好吗？”列宁娜问。她的衣服是深绿色的人造纤维丝，袖口和领子同样是绿色，不过材质是纤维胶毛皮。

“在高尔德斯草场，八百个职业军人死在机关枪下。”

“扔掉比修补好，扔掉比修补好。”

脱下了绿色的灯芯绒短裤和白色的纤维胶羊毛袜。

“后来是著名的大英博物馆大屠杀，用硫化二氯甲基消灭了两千名文化狂热者。”

一顶绿白相间的轻便鸭舌帽遮住了列宁娜的眼睛；她穿着翠绿色皮鞋，擦得锃亮锃亮的。

“最后，”穆斯塔法·孟德说，“总统们意识到使用武力毫无作用，于是便倒向了缓慢但是绝对有效的一些方法，比如体外发育、新巴甫洛夫条件设置法和睡眠学习法……”

在腰上，列宁娜戴上了一条镶银的绿色人造摩洛哥皮药囊带，“药囊带”上略微隆起的地方有避孕药，通过定时渗入身体来达到避孕的效果（列宁娜不是不孕女）。

“普费茨纳和川口的发现终于进入了应用阶段。于是，一场声势浩大的反怀孕的文化运动开始了……”

“太完美了！”法妮尖叫道，她喜欢列宁娜身上带着的那股魅力。“这条马尔萨斯带简直无懈可击！”

“同时掀起的，还有一场反传统的运动：博物馆被关闭了，历史建筑被摧毁了（大部分工作在九年战争期间就已经完成了）；所有弗德纪元一五零年以前出版的所有书籍全都被查封了。”

“我也得有像这样的一条带子。”法妮说。

“比如，那时还有所谓‘金字塔’的一种建筑。”

“我那条旧的黑带子……”

“有叫莎士比亚的人，当然，你们从来没听过。”

“太丢脸了——我的那条带子。”

“这就是纯正的科学教育的益处。”

“越缝越穷，越缝越……”

“我主弗德第一辆T型车出现那年……”

“这腰带用了快三个月了。”

“被定为新纪元的元年。”

“扔掉比修补好；扔掉比修补好。”

“我以前说过，有个叫做基督教的东西。”

“扔掉比修补好。”

“是推崇低消费的伦理学和哲学.....”

“我喜欢新衣服，我喜欢新衣服，我喜欢.....”

“在低消费时代，基督教是不可或缺的，但是在机器和固氮的时代，基督教毫无疑问会是反社会的罪行。”

“亨利·福斯特送我的。”

“所以，所有的十字架变成了T字架。所谓‘上帝’，变成了弗德.....”

“那是真正的代摩洛哥皮。”

“现在我们有了世界联邦。弗德日的庆典，社会的歌谣，以及团结一致。”

“弗德啊，我恨他们！”贝尔纳·马克思思忖着。

“那时有个东西叫做天堂，但人们仍然大肆地饮酒。”

“只是肉，只是肉。”

“还有两种东西，一个是灵魂，另一个是永恒。”

“一定要问问亨利这带子是从哪儿弄来的。”

“那时使用的是吗啡和可卡因。”

“更糟的是，她把自己也只看做是肉而已。”

“弗德纪元一七八年，两千个药剂师和生物学家得到了资助。”

“他看上去确实不开心。”助理主任指着贝尔纳·马克斯说。

“六年后就量产了，商业化得很成功。你们知道，那完美的药。”

“我们来耍耍他……”

“精神欢愉，放松镇定，美好的幻象。”

“不开心，马克斯，不开心。”突然有人拍了他肩膀一下，贝尔纳吓了一跳，抬头看去，是粗鲁的亨利·福斯特，“一克唆麻，能解决你的问题。”

“有基督教和酒精的一切好处，却没有它们的坏处。”

“弗德！我应该杀了他！”尽管贝尔纳心里充满了愤懑，但他依然只说了句，“不用，谢谢。”便推开了福斯特递过来的那管药片。

“只要个人觉得需要，便可以随时放假，不理睬现实。回来的时候头疼和神话全都不翼而飞。”

“吃了它，”亨利·福斯特坚持着，“吃了它。”

“实际上就保证了稳定。”

“只需一小片，烦恼全不见。”助理主任引用了一句睡眠学习法里家喻户晓的格言。

“剩下来的唯一任务就是征服衰老。”

“滚蛋，滚蛋！”贝尔纳·马克斯大声吼道。

“哎呀，哎呀。”

“性激素，输血（需要年轻血液），镁盐……”

“记住，唆麻一吞，苦恼飞奔。”他们俩大笑着离开了更衣室。

“老年人身上的红斑全都不见了。当然，随之不见的还有……”

“别忘了向问马尔萨斯带的事。”

“精神上的怪癖。不过，性格没法改变，终身一样。”

“……在黄昏前打两局障碍高尔夫。我必须得坐飞机。”

“工作，游戏。六十岁时，我们的精力和品味还能和十七岁的人一样。在那个不幸的年代，衰老等于消极、退却、迷信，靠着读书和思考打发残年！”

“白痴，弱智！”贝尔纳·马克斯一边自言自语一边顺着走廊走向电梯。

“现在，一切都进步了。老年人依然可以工作、性交，没有时间、没有空闲，坐下来思考片刻的工夫都没有。即使由于这样那样的原因，不幸的有了那么一点点空闲的时间，交给唆麻吧。可口的唆麻，半克就是半个假日；一克就是一个周末；两克可以来个奇妙的东方之旅；三克便可在漆黑的月球上享受来世永恒。从唆麻假日里返回时，烦恼的事情已经无踪影，余下的是每天按部就班地工作和玩乐，像接力赛似的，一部感官剧接着另一部感官剧，一个丰满的姑娘接着另一个丰满的姑娘，一个电磁高尔夫球场到……”

“走开，小姑娘。”主任愤怒了，“走开，小家伙们！难道你们看不见总统阁下正在忙吗？去别的地方继续你们的性游戏。”

“随他们去吧。”总统说道。

缓慢地，威严地，伴随着机器运行的轻微声响，传送带继续前进着，速度三十三厘米/小时。在红色的黑暗里，无数的红宝石正在散发微弱的光芒。

第四章

电梯里全是从阿尔法更衣室里出来的小伙子，列宁娜一进来就有不少人冲她点头微笑致意。她很受欢迎，几乎和电梯里所有人都发生过关系。

列宁娜也向他们打招呼回礼。都是可爱迷人的男性！不过，她仍然觉得乔治·艾泽尔的耳朵小点儿会更好（也许在传送带三百二十八米处时，工人多打了点儿甲状腺？）；看到本尼托·胡佛，不禁想到他脱掉衣服时的画面，身上的毛发太茂密了。

列宁娜转过身，眼睛因为想起了本尼托卷曲的黑色体毛而带了些悲伤的色彩。但是，在角落里，她看见了一个瘦弱又单薄的身体和贝尔纳·马克斯的忧郁面庞。

“贝尔纳！”她向他走去，“我刚刚正找你呢。”即使在电梯里，列宁娜的声音依然清脆动听。周围的人朝他们俩投了好奇的目光。“我想谈谈咱们去新墨西哥的计划。”从余光中，列宁娜瞥见了本尼托·胡佛惊讶的神情。那神情叫她心烦意乱，“他没想到我会再约他一块儿出去！”列宁娜在心里想着，然后她比往常都热情地大声地说道：“六月时，我想和你共度一个星期。”（总之，她在公开证明她并不仅仅只有亨利一个人。这下，法妮应该高兴了，即使对象是贝尔纳。）“对，”列宁娜对他露出了深情款款的微笑，“如果你还想要我。”

一朵红晕出现在贝尔纳过去苍白的脸上。“怎么脸红了？”她好奇，有些惊讶，但同时也明白这奇怪的反应是源于她的魅力。

“要不另外找个地方谈谈吧？”他结结巴巴地，看起来极为不自在。

“好像我说了什么过分的话似的，”列宁娜想道，“即使我跟他开个下流的玩笑，比如问他的妈妈是谁，他也不会比现在更心烦意乱的。”

“我想说，难道要在大家面前……”他脑子一片混乱，慌张得说不出话来。

列宁娜露出了坦诚又温和的笑容。“你真有趣！”她说；她也确实觉得他有趣。“至少提前一星期告诉我，好吗？”她换了一种语气，“我想我们应该会乘坐蓝色太平洋号火箭？从切林T字形塔楼起飞，是吗？还是从汉浦斯泰德起飞？”

在贝尔纳还没来得及开口之前，电梯停了。

“屋顶到了！”

电梯工长得像猴子，声音刺耳，个头很小，穿着黑色的束腰外套，半白痴伊普西龙减的标志。

“屋顶到了！”

他猛地打开大门，午后的温暖阳光让他吃了一惊，不由得眨了眨眼，“哦，屋顶到了！”他的语气里带着一种莫名的兴高采烈，好像从一片让人窒息的黑暗里突然快乐地苏醒过来，“屋顶到了。”

他冲着那些比他高出许多的客人们微笑，带着狗一样的崇拜表情。客人们说说笑笑地走出电梯，而电梯工一直目送他们离去。

“屋顶到了？”电梯工又说了一遍，不过这一次是问句。

电梯内一声铃响，天花板上的扩音器轻柔又威严地响起。

“下行，下行。十八楼。下行，下行。十八楼。下行……”

电梯工“砰”的一声关上门，按下按钮，电梯便又回到了一片狭窄的昏暗中，那才是他习惯到已经麻木的环境。

屋顶上温暖而明亮。夏日午后总是让人昏昏欲睡，尤其是加上过往的直升机“嗡嗡”的声音。上空五六英里处，火箭飞机加速飞过，发出更深沉的轰鸣，就像在抚摸温柔的空气。贝尔纳·马克斯深深地吸了口气，然后抬头看向天空，再看向四周蔚蓝的地平线，最后才把目光转到了列宁娜的脸上。

“真美！”他的声带颤抖着。

列宁娜对他投去了微笑，表情里有最深的同情和理解，“这个天气太适合玩障碍高尔夫，”她兴高采烈道，“现在我要飞了，贝尔纳。让亨利等太久他会发疯的。时间定好了记得通知我。”穿过平坦辽阔的屋顶，列宁娜挥着手走向了飞机库。贝尔纳依然留在原地，目光追随着她的白袜折射的光芒，捕捉着晒黑的膝盖走路时的活泼，观察着外套下合身的灯芯绒短裤柔软地起伏。他脸上逐渐露出了痛苦。

“不得不说她真漂亮。”一个洪亮又快活的声音说道。

贝尔纳吃惊得到处张望。本尼托·胡佛的大胖脸上堆满了笑容，真心诚意的笑容。本尼托脾气好，这是众所周知的。大家都说他可以一辈子不碰唆麻。一般人遇到那些倒霉事儿非得来个唆麻假日不可，而他从来都不介意，他的世界永远有明媚阳光。

“而且很丰满！可我不得不说，你啊，的确满脸的忧愁，你现在需

要一克唆麻，”本尼托从裤子右边的荷包里掏出一个小药瓶，“只需一小片，烦恼全不见……嘿！”

没等他说完，贝尔纳已经转过身匆匆走掉了。

本尼托目不转睛地看着他的背影，思忖道：“这家伙究竟怎么了？”他茫然地摇了摇头，决定相信关于那个可怜鬼的传言——代血浆里掺进了酒精。“伤害了大脑，我看是。”

他收起了唆麻瓶，掏出了一包性激素口香糖，拿出一片，塞进嘴里，纳闷地向飞机库慢慢走去。

亨利·福斯特已经把他的飞机从库里推了出来，等列宁娜走进时，他已坐入了驾驶舱里。

“迟到了四分钟。”当她爬上飞机坐下来时，他只说了这么一句。亨利发动引擎，挂好档，直升飞机直冲上天。一加速，螺旋桨尖锐的轰鸣声从马蜂变成了黄蜂，又从黄蜂变成了蚊子。仪表片上显示他们的飞机正以每分钟两公里左右的速度上升。伦敦突然变成了一座缩微模型。才几秒钟时间，巨大的顶楼停机坪变成一只蘑菇，在公园和花园的绿野间拔地而起。旁边还有一株个头苗条点儿的长型蘑菇，它的头部是发光的混凝土圆盘，那就是切林T字形塔楼。

就像神话中大力士的躯干，几朵巨大的白云飘浮在他们上方，游荡在蔚蓝色的天空里。突然，一只鲜艳的红色小虫落在了其中一位巨人的肩膀上，嗡嗡地鸣叫着。

“那是红色火箭，”亨利说，“刚从纽约飞来。”他看看表，“延误了七分钟，”他摇了摇头，“这些大西洋航班——一点也不准时，太可耻

了。”

他轻轻地抬起了脚，松开飞机加速器，头顶螺旋桨的轰鸣声又重新变成黄蜂、马蜂，然后是蜜蜂、金龟子、鹿角甲虫。飞机放缓了向上爬行的速度，过了会儿他们便悬浮在了空中，一动不动。亨利推了根杆，“咔嚓”一声，面前的螺旋桨开始旋转起来。由慢到快，而后越来越快，在眼前形成了一种圆形的光晕。水平方向上的风变得猛烈，声音也刺耳起来，这时他们前面的螺旋桨开始旋转起来。迎面而来的水平风吹得嗖嗖作响。亨利聚精会神地盯着仪表盘，当指针到达1200，便重新打开了头顶的螺旋桨。前冲力已经足够维持飞机继续在地球上飞行。

列宁娜低头，目光穿过双腿间的缝隙。从飞机底盘的窗户看下去，他们正飞行在公园区上方，公园区有六英里长，隔离了伦敦的中心城区和卫星城。绿地上仿佛爬满了密密麻麻的蛆虫。无数的调皮狗离心游戏塔组成了一座新的森林，穿插在树丛间闪着微光。在牧羊人森林旁边，两千对贝塔减的混双选手正在进行黎曼曲面网球赛。诺丁山-维尔施登的主干道两旁是五号自动扶梯球场。依林运动场上德尔塔们正在表演体操和集体歌曲。

“卡其色是多么丑陋的一种颜色啊。”列宁娜说，显然，睡眠教学在她身上很成功，她一直对自己的高种姓有优越感。

杭斯洛感官片摄制厂占地七公顷半。制片厂旁边有一队劳工正忙着为西大道重新铺设路面，他们穿着黑色和卡其色的制服，辛勤地工作。列宁娜和亨利飞过时，一个移动坩埚正好打开，流出了炽热滚烫的玻璃熔浆，发出耀眼的光芒。石棉压路机来来去去，绝缘洒水车开过的路上蒸腾起一片白茫茫的水雾。

在不伦特福德，电视机工厂俨然是座小镇。

“现在准是换班时间。”列宁娜说。

就像蚜虫和蚂蚁一样，身穿叶绿色制服的伽玛姑娘和黑色制服的半白痴们互相推挤着，有些在门口，有些则站在队伍中准备坐上单轨电车。紫红色制服的贝塔减在人群中走来走去。顶楼上直升机停停走走，一片生机勃勃的景象。

“说心里话，”列宁娜转头对亨利说，“幸好我不是个伽玛。”

十分钟后，他们来到了斯托克伯吉斯，开始了今天第一局障碍高尔夫。

贝尔纳急匆匆地走着，眼睛望着地上，不小心瞄到了人，便马上悄无声息地躲开。他好像正被敌人追捕，但他不想见到那些敌人的样子，唯恐他们比自己预想的更可怕。而他本人，则陷入一种深深的内疚和孤独中，无法自拔。

“可怕的本尼托·胡佛！”虽然那人的用心是好的，但只会把事情变得更糟。居心良好的人和居心不良的人做得一模一样。另外，列宁娜也让他备受煎熬。他还记得，在那几个星期里，他是多么希望能鼓起勇气问问她的决定，但是他不敢面对被拒绝的可能。那可是羞辱！假如她能同意，他又会多么的欣喜若狂啊！现在，虽然她已经明确表了态，可他却仍然不开心——列宁娜居然认为那个下午最适合用来打障碍高尔夫，还匆匆地跑去找亨利·福斯特。而且她应该会觉得他可笑，因为他不愿在公开场合谈论他们俩人最私密的事情。总之，他不开心，因为她和任

何一个健康、有道德的正常英格兰姑娘一样，那么平庸，毫无与众不同之处。

他打开自己的机库仓门，叫来一对正在闲逛的德尔塔减，让他俩把飞机推到屋顶上。这两个飞机库工人来自同一个波卡胚胎组，个头一样矮，皮肤一样黑，面容一样丑。贝尔纳用一种相当尖锐、傲慢甚至带有攻击性的语气发出指令，就像对自身的优越感不太有把握的人常常所做的那样。对贝尔纳来说，跟低种姓的家伙们打交道是一件非常痛苦的事。因为他的身高比阿尔法的标准身高低了八厘米，身材瘦弱，整个体型反倒是跟一般的伽玛差不多。到底是为什么，这里面的原因就不得而知了（代血浆里误加酒精的流言极有可能是真实的，毕竟这世界是由意外所构成）。和低种姓的人交往时，贝尔纳总是想起自己的身体缺陷。“我是我，可我却希望不是我。”强烈的自我意识压得他喘不过气来。每一次，当他发现自己是平视，而非低头看着一个德尔塔的脸时，他便禁不住感到备受侮辱。那家伙是以应有的尊重对待我吗？他对别的阿尔法也是这种态度吗？类似的问题日夜笼罩着他，让他辗转反侧。但这并非毫无道理的庸人自扰。因为低种姓的家伙们经过条件设置和睡眠学习，总是把社会地位与个子大小联系起来。事实上，正是由于睡眠教学里重复了无数次的真理，人们普遍更喜欢高个儿。所以他的矮让他追求的女人嘲笑他，和地位相同的男人看不起他。这些嘲笑使他觉得自己与他们格格不入。他是个局外人。既然以局外人自居，他的行为举止也愈发地与众不同起来。但这些不合群的动作反而让大家对他的偏见更加深了，他感受到了更多的轻视和敌意。这样一来，局外感和孤独感便愈发的深化。对于被轻蔑，他逐渐产生了一种惯性的害怕，于是他变得总是愿意回避他的同辈，处理下属的事情时愿意带上过分刻意的自尊。他对亨利·福斯特和本尼托·胡佛那些人充满了苦涩的妒忌。他们不需刻意用音量证明自己的尊严，和往常一样说话就可以让一个伊普西龙执行他

们的命令；他们心安理得地享受着优越的地位，在种姓制度里如此如鱼得水，自在无比。他们不去思考自我的位置，也完全忽略了自己环境的优越和舒适。

贝尔纳仿佛觉得那两个德尔塔减随从在推行飞机的时候有些不情愿，态度懒散。

“快！”贝尔纳急躁起来。随从中有人瞥了他一眼。从那双空洞的灰白色眼眸里，他感受到了一种野兽般的蔑视。“快！”他吼得更大声了，声音丑陋又刺耳。

终于，他爬上了飞机。一分钟，他便整装待发，向南边的河流那儿飞去。

好几个宣传局和情绪工程学院都位于舰队大街的六十层大楼里。地下室和最下面几层用于伦敦三大报的办公和印刷——《准点播报》（供高种姓人群阅读的报纸）、浅绿色的《伽玛报》及百分百单音节的卡其色《德尔塔镜报》。继续往上走，则分别是电视宣传局、感官片管理局和合成声与音乐局——一共占了二十二层。它们的上头是一些实验室和软垫房，供音轨作家和合成音乐作曲家创作精妙的乐曲。最上面的十八层则全部都是情绪工程学院的地盘。

贝尔纳降落在宣传大厦的楼顶。

“给下面的亥姆霍兹·沃森先生打个电话通知一下，”他命令门房的伽玛加，“就说贝尔纳·马克斯正在顶楼等候。”

他点了支烟，坐了下来。

电话打过去时，亥姆霍兹·沃森先生正在写作。

“跟他说我马上到。”他挂上了话筒，转身对秘书说，“这些东西就由你来收拾。”语气是一贯的公事公办，没有半点人情味。他对女秘书的灿烂微笑视而不见，站起身子，大步流星地走到了门边。

他是一个有力量的男人，胸膛厚实，肩膀宽阔，身材魁梧，行动迅速，步履矫捷而轻盈。脖子是根圆木，结实地撑起轮廓美丽的头颅，深色卷发，棱角分明，英俊非凡。正如他秘书乐此不疲重复的名言：每一公分都是个阿尔法加。他的职业是情绪工程学院写作系的讲师。在讲学的空当，他还是名情绪工程师。另外，他定期为《准点播报》撰稿，写感官剧剧本，而且精通口号和睡眠教学的技巧。

“能干，”这是他上司们的评价，“也许，（这时他们会摇摇头，意味深长地压低了嗓门）过分能干了点。”

的确，过分能干了点，他们没有错。智力上的超常给亥姆霍兹·沃森带来的后果和贝尔纳生理缺陷带来的后果很有些类似。身材矮小瘦弱让贝尔纳不愿和同伴们待在一起。这种关系上的疏远，不论从哪条现行的标准来看，都是心灵的负担，而这种负担更加剧了疏远。让亥姆霍兹意识到自己与众不同且十分孤独的，却是他出众的才干。两人都认同他们是孤独的个体。然而贝尔纳因为生理上的缺陷自始至终都在感受孤独，可亥姆霍兹·沃森的孤独却是最近的事儿，因为逐渐了解到自己的能干，他越来越明白他与周围的人完全不一样。这位自动扶梯壁球冠军，这位不知疲倦的情人（据说，不到四年，他就有过六百四十个不同的姑娘），这位可敬的委员，这位交际能手最近才突然明白：对他来说，游戏、女人、社交只能算是次等的好事。真正令他兴趣盎然的是另外一些事。到底是什么事呢？什么事呢？贝尔纳此行的目的正是跟他讨论这个问题。不过，鉴于亥姆霍兹总是滔滔不绝地发表他的意见，所以

我们可以说，贝尔纳只是来再次听听他朋友的谈话。

亥姆霍兹刚踏出电梯，便被合成声宣传局的三个迷人姑娘给拦住了。

“哦，亥姆霍兹，亲爱的，今天晚上在埃克斯穆尔高地公园，我们一起野餐。”她们哀求道。

他摇摇头，从包围圈中费力地挤了出来。“不行，不行。”

“我们没邀请别的男人，只有你。”

面对如此美妙的承诺，亥姆霍兹依然无动于衷。“不行，”他重复道，“我很忙。”话一说完，他便头也不回地走掉了。可姑娘们依旧不肯放弃，一直跟在他身后，直到他上了贝尔纳的飞机，最后“砰”的一声关上门，热情的女人们才放弃了追逐。不过，她们也并非对此没有怨言。

“这些女人！”飞机升上天空，亥姆霍兹摇了摇头，“这些女人！”“是呀，太可怕了！”贝尔纳附和着他的话，假惺惺地表示同意，其实自己恨不得像亥姆霍兹那样拥有那么多的姑娘和那么少的烦恼。他突然感受到一种强烈的自吹自擂的需要，“我要带列宁娜到新墨西哥州去。”他竭尽全力装出一副无所谓的样子。

“是吗？”亥姆霍兹对此毫无兴趣。沉默了片刻，他又继续说道，“这一两个星期，我推掉了所有的委员会会议，谢绝了所有的姑娘。这在学院里可引起了轩然大波，你根本无法想象那混乱的局面。不过，还是挺值得的。其结果是……”他犹豫了一下，“总之，他们很古怪，古怪。”

生理上的缺陷可能导致心理上的负担，但这过程似乎是可逆的。过

重的心理负担可以导致自我孤立，看不见听不到，拒绝外界的一切信息，生理上的欲望也被人为地消灭了。

旅程里余下的时间是在沉默中度过的。不过，当他们到达了贝尔纳的房间，在松软的气垫沙发上自在地躺下来之后，亥姆霍兹又开始了谈话。

他的语速很慢。“你是否曾经感觉到，身体里有种不知名的东西一直在等机会宣泄。某种你一直未曾使用的精力，就好像水都往下流成了瀑布，而不是形成漩涡。”他脸上充满了疑问。

“你是说，不一样的状况下人们会感受到不同的情绪吗？”

亥姆霍兹摇了摇头。“不完全是。我指的是，一种奇怪的感觉，有一些重要的话要说，也有力量去说，但我不知道要说什么，也不知道如何利用那股力量。如果有另一种写作的方式，或者能写一些其他的事情……”他沉默了一会儿，继续道：“你看，在说话方面，我是相当厉害的。我知道哪些话能让你突然间激动地蹦起来，像被针扎了一样。这些话听上去如此新颖，如此令人兴奋，虽然它们的实质不过是睡眠学习里重复了一万遍的道理。可是这样还不够。辞藻华丽是不够的，内容才是最重要的。”

“可是你话语里的内容都是好的，亥姆霍兹。”

“在它们行得通的时候，确实都是好的。”亥姆霍兹耸了耸肩，“可我的话不大行得通，在某种程度上它们甚至并不重要。我相信我可以做一些更重要的事情。是的，一些我认为会更迫切的事情。可究竟是什么呢？更重要的事究竟是什么？如果写的都是别人要求的东西，你怎么可能感受到迫切？语言像X光，如果使用得当，便能穿透一切，一读就觉

得洞悉了你的心。那是我努力教给学生的东西之一：如何让文字拥有匕首一般的力量。可是把一篇论《本分歌》或是芳香乐器最新发展的文章写得穿透有力又如何？而且，在写那些东西的时候，你真的能够入木三分吗？真的能够像最强劲的X射线吗？没有意义的东西难道你能写出意义来吗？这就是我想说的。我一再努力……”

“嘘！小声点！”贝尔纳忽然伸出一根指头警告；二人听了听，“我觉得门口有人。”他低声说。

亥姆霍兹踮起脚尖，轻轻地穿过房间，突然打开了门。没有任何人，当然没有。

“对不起，”贝尔纳觉得自己是傻瓜，尴尬极了，“我太紧张了，大概是这样。你知道的，当别人怀疑你，你也就开始怀疑别人了。”

贝尔纳擦了擦眼睛，叹了一口气，辩护的声音带着些伤感：“如果你知道我最近遭遇到的那些倒霉事就好了。”他的眼泪几乎都快流了出来，对自我的怜悯好像突然间一涌而出的泉水，“你要是知道就好了！”

亥姆霍兹·沃森感到一种莫名的不安。“可怜的贝尔纳！”他自语道。不过，同时他也在为这个朋友感到羞愧。他希望贝尔纳能拿出更多的尊严。

第五章

晚上八点，天黑了。斯托克波吉俱乐部大楼高塔上的扩音喇叭宣布又到了高尔夫球场的关门时间，那机器的声音简直比男高音还要美妙。列宁娜和亨利结束了游戏，一起朝俱乐部走去。托拉斯内外分泌中心的牧场上传来数千头牛的叫声，它们的荷尔蒙和奶一直作为原材料供应给伐恩汉皇家森林外的大工厂。

直升飞机的“嗡嗡”声填充了暮光里的每一道空隙。每隔两分半钟，铃声和气笛声便会响起，昭示着单轨轻轨列车的离开。这种列车是低种姓高尔夫球爱好者们唯一的交通工具，连接了球场与都市。

列宁娜和亨利坐上了飞机，在八百米处，亨利放慢了直升机螺旋桨的旋转速度，在逐渐模糊的景色里盘旋了一两分钟。贝恩汉沙滩的森林好像一片广袤的黑色水域，与西方明亮的海岸线融为一体。一道深红色的地平线预示着落日的最后一抹余晖也褪去了它的颜色。往上，天空是调色板，呈现着橘红到黄到水绿的渐变。往北越过森林，内外分泌工厂整栋大楼灯火通明，电的光辉和力量轻而易举地穿透了窗户。旁边的高尔夫球俱乐部大楼比工厂矮得多，那只是低种姓的营房。一道隔离墙为阿尔法和贝塔们划出了他们的小宿舍。通向单轨火车站台的路上仿佛有蚂蚁迁徙的队伍，黑压压的一片。仔细一看，那是低种姓的人们你推我搡地赶往站台。从玻璃拱门里，一列亮着灯的火车驶入了旷野。目光随着火车一直东行，穿过了暗黑的平原，停在了泥沼火葬场的宏伟建筑上。为了照顾夜间飞行的飞机安全，几束泛光灯打亮了四座高耸入云的烟囱，烟囱顶上还附带着暗红色的危险标志。这是一个路标。

“烟囱口那里阳台似的玩意儿是什么？”列宁娜询问道。

“磷回收，”亨利简洁地解释道，“火化后产生的气体通过烟囱排向天空。在气体上升的过程中，将有四道不同的工序对其进行处理。以前，人体火化的过程中， P_2O_5 （五氧化二磷）会全部流失，而现在，百分之九十八都能被收集起来再次利用。一个成年人可以提供一千五百克以上的五氧化二磷。英格兰每年消费的四百吨磷中绝大部分都来自这一途径。”亨利的脸上有种快乐的骄傲感，他是打心眼儿里为这项成就感到自豪，就好像那是由他亲手创造的一样。“想想在我们死了之后，还能对社会有益，这是多么值得高兴的事情！我们的尸体能帮助植物生长。”

此时，列宁娜已经把目光转向了别的地方，她俯瞰着正下方的单轨火车站。“我完全同意。但在帮助植物生长的方面，阿尔法和贝塔们并不能比恶心的低种姓们，比如伽玛、德尔塔、伊普西龙，发挥更大的力量。这难道不是件奇怪的事儿吗？”

“从理化的角度来看，人是平等的。而且，即使是伊普西龙也是社会不可或缺的部分。”

“即使是伊普西龙……”听到这些话语，突然间，一幕回忆浮现在了列宁娜的脑海中。那时她还很小，还是上学的年纪。一天夜里，她不知怎么地醒了过来，第一次，她发现了每次入睡后缠绕着她的喃喃细语。飞机上的列宁娜仿佛又一次地看到了那晚的月光，那一长排小小的白色的床；她又听到了那个温柔的声音，那声音说道：“每个人都为别人服务。我们离不开每一个人，即使伊普西龙也是有用的，我们离不开伊普西龙。每个人都为别人服务，我们离不开任何人……”（在无数的夜晚里这些话语被无数次地重复，遗忘它们成了不可能的任务。）列宁娜忆

起了当时她的害怕和惊讶，她是第一次体验到这些陌生的感觉；当时，她思考了半个小时，然后在这些无止境重复的话语的影响下，她的心灵又渐渐地得到了安慰，平静了下来，困意也又一次偷偷地向她袭去。

“我想伊普西龙们并不在意他们自己是不是伊普西龙。”她大声说道。

“这是当然的，他们不可能在乎。他们压根不知道做其他种姓人的感觉。但是我们在乎，因为我们有不同的条件设置，有不同的社会参数。另外，我们也有着不同的遗传。”

“真高兴我不是个伊普西龙。”

“可如果你是，你的条件设置也会让你为自己不是个贝塔、阿尔法而感激万分的。”亨利挂上了档，直升飞机向前冲去，飞往伦敦的方向。在他们身后，西方的暗红色和橙色几乎已经暗到看不见了，一大片乌云爬上了天空。当他们经过火葬场时，飞机被烟囱里冒出的热气托了起来，直到后来遇上了一团冷气流，才又降了回去。

“喔！在天空里上上下下，这感觉真棒！”列宁娜很开心。

但一时间，亨利的声音里有种类似忧伤的感情。“你知道这代表什么吗？有一个人永远地消失了，他化作了一股热气，升上天空。那是一个怎么样的人呢？男人还是女人，是个阿尔法还是个伊普西龙……”他叹了口气，然后声音变得愉悦而坚定，“无论如何，有一件事我们是确定的：不管他曾经是谁，在他活在这世上的时候，他很快乐很幸福。因为在现在这个时代，每一个人都又快乐又幸福。”

“是的，每个人都很幸福。”列宁娜附和着。曾经每天晚上，他们都

在睡眠学习里听着这些话，不断地重复重复，一百五十遍，一共十二年。

他们停在了亨利公寓楼的顶楼，这栋四十层的大楼位于威斯敏斯特大教堂。下了飞机，他们走进电梯，直接前往餐厅。在那儿，两人同一群喧闹开心的伙伴共度了美妙的晚餐时光。咖啡时间，唆麻是饭后甜点。列宁娜来了两颗半，亨利吃了三颗。九点二十，两人走到了街道另一边的威斯敏斯特大教堂歌舞餐厅，全新开张。天空里没什么云，月亮也藏匿起来，只有星星寥落地点缀着夜幕，但两人完全没意识到这幕冷清的景象。高空广告牌电力十足，光彩夺目，掩盖了天空的暗淡。“加尔文·司徒普和他的十六位萨克斯风手。”威斯敏斯特大教堂新的大门上，几个巨大的字邀请着每个路过的陌生人。“伦敦最佳色香乐队演奏——最新合成音乐”。

他们走了进去，空气里充溢着龙涎香和檀香的独特味道，让人觉得又热又闷，心浮气躁。大厅的天花板是球面的，色调转换器在那儿投射出了一幅热带地区落日的风景。十六位萨克斯风手正在演奏过去的一首经典歌曲：“没有瓶子比得上你，可爱的小瓶子，我最亲爱的。”在打过蜡的光滑地板上，四百对人正翩翩起舞。列宁娜和亨利走进了舞池，成了里面的第四百零一对。萨克斯风的呜咽像是月光下的小猫咪在对叫，男高音的吟唱则像是正在经历一场小小的死亡。这美妙的和声层次分明，颤抖的声音向上爬升，到达高潮，越来越高，越来越高——终于，随着指挥的一挥手，释放了这飘飘仙乐的最后一个破碎的音符，十六名乐手呆若木鸡般灵魂出窍。降A大调石破天惊，接着是一片宁静与黑暗，减弱的乐声在寂静与黑暗中以四分之一音的梯级逐渐下滑，下滑为如耳语般轻柔的主和弦。那和弦久久萦绕（背景音是四五拍子的旋律），把强烈的企盼寄托在了昏沉中的每一秒钟。最终，企盼实现了，

突然勾画出旭日东升的场面，十六个声音齐声高唱：

“我的瓶子，我永远需要你！

我的瓶子，为何我得换瓶出世？

在你的庇护下，天色蔚蓝，

在你的身畔，四季如春般温暖；

因为，

没有瓶子比得上你，

可爱的小瓶子，

我最亲爱的。”

一圈，一圈，又一圈。列宁娜和亨利在舞池里同他人一样的旋转，在威斯敏斯特大教堂里跳着五步圆舞曲，同时在另外一个世界里他们也在进行着美妙的舞步——唆麻假日世界，一个温暖、华丽又无限友好的世界。那个世界里的每一个人都内心无比善良，外貌无比优异，心情无比舒畅安详，每一个人！“我的瓶子，我永远需要你……”列宁娜和亨利已经拥有了他们需要的……他们在瓶子里，此刻，他们正安稳地待在里头，天气温暖如春，天空永远蔚蓝。但十六个乐手精疲力竭地放下萨克斯风后，音响里开始播放最新的马尔萨斯忧伤曲，他们俩变成了一对孪生胚胎，玻璃瓶里是一片代血浆的海洋，两人随着波涛轻柔地荡漾。

“晚安，亲爱的朋友们。晚安，亲爱的朋友们。”扩音器里响起了催促人们离场的号令，这号令却披着亲切悠扬的客套外衣。“晚安，亲爱

的朋友们.....”

众人一起离开了大楼。暗淡的天空里，星星，比起刚才，已经孤独地走了很长一段距离。尽管绝大部分高空广告牌都已经熄灭了，但丝毫也没有影响到两个年轻人的心情。他们依旧欢乐舒畅，忽略了夜晚的黑。

在舞会结束前的半小时，他们吞下了今天的第二剂唆麻。药效发挥，在现实世界和思维间筑起了一堵密不透风的墙壁。他们又回到了瓶子里，穿过了街道；在瓶子里，他们坐上了电梯，来到了二十八层楼的亨利的家。不过即便是在瓶子里，尽管列宁娜已经服用了两剂唆麻，她依然记得按规则做好所有的避孕措施，一条也没漏掉。多年的睡眠学习和训练了五年的马尔萨斯操，从十二岁到十七岁每周三次，让这些措施已经变成了肢体行为中天生的一部分，就像眨眼一样，不可回避也不可缺少。

“哦，这倒提醒了我，”从浴室出来的列宁娜说道，“法妮·克朗想知道，你送给我那条可爱的绿色摩洛哥皮药剂带，到底是从哪儿弄到的。”

每隔半个月的礼拜四，贝尔纳都要参加团结礼拜日的活动。在爱神会堂（最近，按照第二条款的要求，亥姆霍兹经过选举成为了这儿的管理委员会的委员）早早吃过晚餐，贝尔纳与朋友们道过别，登上了屋顶，坐进了一架计程飞机里，前往弗德森社区歌厅。飞机爬升了几百米后，开始向东行驶，转弯时，那庄严又宏伟的Singery大楼便映入了眼帘。泛光灯照亮了它的白色人造卡拉拉大理石外表，三百二十米的高

度，为所在的鲁德山增加了一个永远不灭的白色光环。大楼楼顶的停机坪四角各有一个巨大的T字架，在夜色里闪耀着暗红色的光芒，二十四个镀金大喇叭正因神圣的合成乐曲隆隆作响。

“见鬼，迟到了。”贝尔纳一眼就瞧见了大亨利钟上的时刻。在他掏出钱付账的时候，钟声就敲响了。“福”，金色的喇叭吟唱出了低沉又洪亮的调子，“福，福，福……”到第九下才停下来。贝尔纳急忙朝电梯跑去。

大楼底层是这一次弗德庆祝日与群众歌会的礼堂。礼堂上面是团结小组每半个月举行仪式的地方，每层一百个房间，像这样的房间整栋大楼一共有七千个。贝尔纳乘坐电梯下到了第三十三层，快速地穿过走廊，来到了三二一零室前。他在门口迟疑了一会儿，为自己鼓了鼓劲，开门走了进去。

谢天谢弗德！他不是最后一个。房间里，十二张椅子围成一圈，还有三张是空的。于是，他偷偷地溜到了最近的椅子旁边，并打算对后来人皱眉头。要知道，迟到可不是好事！

他刚坐下，左边的姑娘便转过身问道：“今天下午，你玩的什么？障碍高尔夫还是电磁球？”

贝尔纳望了她一眼（天哪！是莫甘娜·罗斯柴尔德），红着脸承认道哪个也不是。莫甘娜惊讶极了，望着他，不知说些什么才好。于是，两人陷入一阵尴尬的沉默。

她赶紧又转过身，和左边那个更爱运动的小伙子寒暄起来。

“真是一个相当好的开始。”贝尔纳觉得自个儿很悲催，预感到这一

回自我救赎的计划又失败了。如果刚才他不是匆匆忙忙地坐在这儿，而是先观察观察环境就好了！没准现在他的旁边就坐着菲菲·布莱德劳芙和乔安娜·迪塞尔了。可他却像瞎了眼似的让自己坐到了莫甘娜身旁。莫甘娜！我主弗德呀！瞧瞧她那两道黑眉毛！——或者，完全可以说是一道！因为它们可不像其他同类那样是分开的，即使是在鼻子上面，左右的眉毛仍然紧密地团结在一起。弗德！贝尔纳的右边是克莱拉·笛特汀。好吧，笛特汀倒是没有一字眉，可是她胖得已经有点过分了。菲菲和乔安娜倒是一切都刚刚好：凹凸有致的身形，一头美丽的金发，身高也恰如其分比他稍矮……而她俩中间，她俩中间坐的却是那个大笨蛋川口汤姆！

最后一位到场的组员萨落基尼·恩格斯姗姗来迟。

“你迟到了，希望这是最后一次。”组长严厉地批评道。

萨落基尼道了歉，溜到唯一空着的座位上，坐在了吉姆·波卡诺夫斯基和赫伯特·巴枯宁中间。人都到齐了，组成了一个毫无瑕疵的完美的团结圈。男，女，男……围绕着桌子，性别无穷地交替着。坐在一起的十二人共同等待着被融成一个统一的个体，为此他们愿意放弃自己独立的身份。

组长站起来，在胸前画了个T字，开启了合成音响，鼓点和乐器的合奏弥漫了整个房间，轻柔而舒缓。旋律不停地重复着，逃不开躲不掉。现在听到的，是团结圣诗第一章。一遍，一遍，又一遍，耳朵渐渐地失去了听觉，是腹部在感受着这激昂的节拍。圣诗里挥之不去的恸哭和尖叫，萦绕在，哦不，不是脑海，萦绕在每个人的恻隐之心中。

组长第二次在胸前画了道T字，然后坐了下来。仪式开始。中央的

桌子上放着大无畏的唆麻药片，传递着的爱之杯里放着草莓唆麻冰激凌。它从一只手流动到了另一只，伴随它还有一句不停被重复的口号“为我的覆灭干杯”，一共响起了十二回。然后在管弦乐队的伴奏下，大家一起唱起了团结圣诗第一章：

“弗德啊，让我们十二人变成共同体，

就像流入社会之河的水滴，

啊，现在就把我们变成共同体，

如您的汽车一样驰骋于这天地。”

十二节圣诗唱完了，爱之杯第二次被传递。这一回，口号变成了“为更大的生命干杯”。每个人都干了杯。不知疲倦的音乐继续着，鼓点继续着，旋律里的恸哭和嚎叫继续着，萦绕在慈悲的心间。第二章团结圣诗开始了。

“来吧，更大的生命，社会的朋友，

十二人的牺牲只为你的成就。

我们期待死亡，因为我们的挥手，

将换来更大的生命世间存留。”

又是十二个小节。现在，唆麻开始发挥作用。眼神在闪耀，面颊变红润，大爱之光化作每个人脸上的友善笑容。连贝尔纳都觉得自己被眼前的气氛所感染了。当莫甘娜·罗斯柴尔德回头对他微笑的时候，他也全力以赴地以微笑回报。但是那眉毛，那可怕又可笑的连成一道的眉

毛，一眼就能看到。贝尔纳做不到视而不见那眉毛，做不到，怎么努力也勉强不了。只能说，目前环境的感染作用对他是极为有限的。不过，如果他坐在了菲菲和乔安娜之间，也就.....爱情之杯第三次传递。“为他的降临干杯。”莫甘娜·罗斯柴尔德欢欣鼓舞地说道。传杯仪式正好从她那开始。喝过唆麻，她将爱之杯传给了贝尔纳。“为他的降临干杯。”贝尔纳重复着她的话，虔诚万分地试图去感受他的即将到来，但莫甘娜的那道眉毛仍然在他脑海里打转。对贝尔纳来说，他的降临还遥遥无期。他把杯子传给了笛特汀。“又要失败了，”他心想，“我就知道。”不过，他仍然竭尽全力地欢笑着。

又一轮传递的结束，组长举起了手，开始合唱团结圣诗第三章：

“感觉更大的生命如何降临！

欢乐吧，在欢乐里成为死亡的贵宾！

在音乐的鼓点里你我融合！

因为你是我，而我也是你！”

圣诗一节接着一节，声音开始颤抖，带着前所未有的激情。即将到来的降临就像天空里的电压。组长关上了音乐，最后一节的最后一个音符消失了，接下来是绝对的寂静——被伸展的期望在带电的生命里颤抖爬行。组长伸出了一只手；突然，突然出现了一个声音，一个浑厚强大的声音，它比所有人类的声音都要悦耳，都要丰富，都要温暖，都要富有爱与怜悯。这个美妙的、神秘的、超自然的声音出现在人们的头顶，它缓慢地说道，“哦，弗德，弗德，弗德。”声音渐渐地低了下来。对于每一个聆听者，一种奇异的温暖从心口涌现扩散至四肢的末端。他们热泪盈眶；他们的眼睛，他们的肺腑好像拥有了独立的生命，在身体内部

自由地移动。“弗德！”他们融化了，“弗德！”分解了，消失了。那个声音突然变了个调，像喇叭一样震惊。“听！听！”他们听着。停顿了一下，那声音又变成了低声的私语，可那私语却比最大声的哭号拥有更多打动人心的力量。“更大的生命的脚步，”它继续道，又重复了一遍，“更大的生命的脚步。”那私语几乎快听不见了。“它的脚步就在楼梯上”，又一次，绝对的寂静；暂时放松的期待又一次被拉紧了，越来越紧，越来越紧，几乎到了撕裂的边缘。更大的生命的脚步，他们听到了，他们听到了，轻柔地走下了台阶，走下了那看不见的台阶，离他们越来越近。他的脚步。突然间期待的断裂点到达了。瞪大了眼睛，张大了嘴巴，莫甘娜·罗斯柴尔德突然跳了起来。

“我听见他了，”她哭叫道，“我听见他了。”

“他来了。”萨落基尼·恩格斯尖叫道。

“是的，他来了，我听见了。”菲菲·布莱德劳芙和川口汤姆同时跳了起来。

“哦，哦，哦！”乔安娜激动得说不出话来。

“他来了！”吉姆·波卡诺夫斯基大声喊道。

组长往前一弯，按下按钮，室内顿时响起了铙钹和铜管的呓语，以及手鼓的急响。

“啊，他来了！”克莱拉·笛特汀尖叫道。“啊！”她的喉咙仿佛被什么东西割断了。

贝尔纳觉得自己也应该做点什么表示表示，连忙跳了起来，大声叫道：“我听见他来了，他来了。”可那不是真的，他什么也没听见。对贝

尔纳来说，谁也没有来。没有人，尽管有音乐，尽管大家越来越激动。不过，虽然什么也没听到，但贝尔纳还是挥着他的胳膊，跟着大家一起欣喜地尖叫。当别人开始手舞足蹈的时候，他也加入了进来。

十二个人围成圈跳起舞来，每个人的手都搭在前边人的屁股上，一圈又一圈，齐声呼喊，跟着音乐的节奏跺着脚，手也跟着前奏拍打着前边人的屁股；十二双手像一双手一样，虽然都拍打着前面的屁股，却只响起了一个声音。十二个人是一个人，十二个人是一个人。“我听到了，我听到他来了。”音乐加快了，脚下的舞步加快了，按节奏击打的手也加快了。突然，巨大的合成声音低沉地宣布救赎的降临和团结的实现，即将到来的十二合一，更伟大生命的代表。“狂欢吧！放纵吧！”那低音歌唱道，手鼓又一次敲起，奏出了激昂的节拍：

“狂欢吧放纵吧！弗德和欢乐，

亲亲姑娘们，把她们变成一个；

男男女女静静地拥抱着；

狂欢和放纵，解脱一切的坎坷。”

“狂欢吧放纵吧，”十二个人渐渐地和唱了起来，“弗德和快乐，亲亲姑娘们……”唱着唱着，灯光慢慢变暗了——暗了，同时变得更温暖、更丰润、更鲜红，最后变成了胚胎库里那种暗红的颜色。十二个人在这暗红的暮光里共舞。“狂欢吧放纵吧……”在血红的颜色和胚胎瓶似的昏暗里，他们继续转圈，继续舞蹈，继续敲打出永不疲倦的节拍。“狂欢吧放纵吧……”温柔地，那低沉的声音在浅唱在低语；在红色的暮光里好像出现了一只巨大的黑色鸽子仁慈地盘旋在正低头抬首的人群上空。

他们站在屋顶上；大亨利钟刚刚敲响了十一点的钟声。这个夜晚宁静而温暖。

“棒极了，不是吗？”菲菲·布莱德劳芙说。“真的棒极了，不是吗？”她兴高采烈地望着贝尔纳，可这欢乐里丝毫没有激动和兴奋的痕迹——因为兴奋意味着贪得无厌仍不满足。她有的是达到圆满之后那种平静的狂喜，她的宁静，绝非因为苍白而空洞的满足感，而是那种生活平衡、精力充沛、万事和谐时才能感受到的宁静状态。一种丰富而充满生机的宁静。因为团结祈祷式既是给予也是索取，拿掉是为了再填满。她变得更充实，更完美，不再仅仅是她自己。“你不觉得这一切都很棒吗？”她看着贝尔纳的脸，眼睛里闪烁着超越自然的光亮。

“当然，我认为这非常棒，”他撒了谎，把视线移开看向别处；看到她那张变形的脸对贝尔纳是一种指控，是在讽刺着他的异常。贝尔纳现在的孤独感和仪式开始前一些深，他的内心的空洞没有得到丝毫的填充。在别人融合成更伟大的生命的时候，他却置身事外，没有赎罪；即使在莫甘娜的怀抱里，他却感到比此生任何时刻都要多得多的无望的孤独。灯光从深红变回明亮时，他的自我意识已经强烈到让他觉得痛苦不堪。他很不幸，也许，也许这是他自己的错（她明亮的眼睛仿佛在指责他）。“棒极了，”他重复道，但他此时唯一能想到的却只有莫甘娜的眉毛。

第六章

“另类，另类，很是另类，”列宁娜是如此评价贝尔纳·马克斯的。“着实太另类了”，这使得她在之后的几个星期内不止一次考虑是否要改变跟他去墨西哥的计划，也许应该和本尼托·胡佛同前往北极。不过，她已然去过北极了，就在去年夏天跟乔治·埃泽去的，而且觉得那儿异常痛苦。整天无所事事，毫无新鲜趣味可言，旅馆又土得要命，卧房内既没有设电视，也没有芳香风琴，唯独有那恶心的合成音乐，二十五个自动扶梯壁球场要容纳两百多人。显然，她再也不想去北极了。话说回来，她也曾走马观花式地游过美国一程，不过未玩尽兴。她当时在纽约度过的那个周末简直毫无档次可言的，跟让·雅克·哈比布拉或跟波坎诺夫斯基·琼斯一起，具体是谁她已经想不起来了。不过，这点不重要。因此，再飞一趟西部，并足足地呆上一个星期的旅游计划，这倒是很吸引她。而且在此期间会安排至少三天在野蛮人（指印第安人）居留区度过。整个中心只有六七个人去过那儿，其中阿尔法加心理学家贝尔纳，就是少数具有批准资格的人之一。对列宁娜来说，这机会难得。也难得碰见如此另类的贝尔纳，所以她犹豫不决。其实她还真想过要不要顶风尝试一次，和那搞怪的老本尼托再去北极一次。至少本托尼还算正常，而贝尔纳却.....

“代血浆里掺了酒精”，每当法妮认为别人的举动古怪时，她就会这么说。一天晚上，列宁娜和亨利一起过夜。睡觉前，她有些焦虑地说起了她那位新恋人，可怜的贝尔纳，不过亨利则认为这人简直是头犀牛。

“难道你能教会犀牛变戏法？”他精简有力地点评道，“连条件设置都不能正常反应的人，还真跟犀牛差不多，可怜的家伙！贝尔纳就是其中一个。如果不是他的业务做得还行，主任早就开除他了。不过，我觉得他还过得去。”他安慰性地加了一句。

也许是过得去，不过还是够令人发愁的。首先他有一个怪癖，就是总喜欢私下行动，说白了就是无所事事。私人活动有什么意思呢（上床除外，不过一个人总不能整天耗在床上吧）。实际还真没什么可干。他们俩第一次出去约会，那天下午天气明朗怡人，列宁娜想先去牛津联会吃饭，再去托开乡村俱乐部游泳，但是贝尔纳觉得人太多。于是列宁娜又提议去圣安德鲁打电磁高尔夫，但贝尔纳仍然不愿意，认为玩电磁高尔夫是浪费时间。列宁娜诧异地问道：“那你的时间是用来干什么的？”

当然是去湖边散个步。贝尔纳这么想也这么提议了：在苏崎岛上岸，然后去石楠林里转转。“只有你和我，只有我们，列宁娜。”

“可是我们整个晚上都将单独相处，贝尔纳。”

贝尔纳脸红了，望了望别处。“我是说，单独聊聊天。”他小声说。

“聊聊？有什么好聊的呢？”把一个美好的下午用来散步和聊天，是多么奇怪呀。

她最终说服了贝尔纳，虽然他还是极其不情愿。不过，他们还是一起飞到了阿姆斯特丹去看女子重量级摔跤比赛四分之一决赛。

“哪儿都是人，”他小声地埋怨道，“这和平常有什么两样？”整个下午他都闷闷不乐，不愿跟列宁娜的朋友们说话（在摔跤比赛期间，去唆麻冰激凌店时，他们遇见了一群列宁娜的朋友）。尽管他很不开心，却

断然拒绝了列宁娜硬塞给他的半克树莓唆麻冰激凌。“我宁愿做我自己，”他说，“就算自己讨人嫌，也不想效仿他人的生活，即使他们很快乐。”

“及时一克唆麻，胜过平时九克。”列宁娜引用了睡眠教学中传授的宝贵智慧。

贝尔纳心里很不耐烦，推开了她递来的杯子。

“现在可别放任你那坏脾气，”她说，“记住，‘只需一小片，烦恼全不见’。”

“看在弗德的分上，别胡闹了。”他叫了出来。

“一克唆麻，好过烦恼。”列宁娜耸了耸肩膀，庄重地做了结论，吃光了所有冰激凌。

回程时，路过英吉利海峡，贝尔纳坚持要关掉推进器，靠直升机的螺旋桨盘旋于海浪上空一百英尺的地方。天气开始变糟，刮起了西南风，天空也愈发地阴郁。

“看外面。”他指示道。

“真可怕。”列宁娜从窗口缩了回来。她很害怕，害怕夜色中飞驰的空虚，害怕身下汹涌的黑浪，害怕乌云里时隐时现的苍白的月亮。这一切都令人毛骨悚然。“把收音机打开！快点儿！”她伸出手去找仪表盘上的旋钮，随即拧开。

“.....你心中的天空如此蔚蓝，”十六个震颤的假音，“万里无.....”

那声音像打了个嗝，停了下来——贝尔纳把电源关了。

“我想安静地观海，”他说，“那种繁杂的噪音会抹灭人看海的心情。”

“我觉得这音乐很好听，而且我没兴趣看海。”

“但我想看，”他坚持地说，“海让我感觉.....”他稍作犹豫，“寻思着用什么话语来表达自己的意思，‘更像我自己了，如果你能听懂的话。就好像自己能够决定自己，而非完全从属于别人，不仅仅是社会集体的一个细胞。你也会这么想吗，列宁娜？’”

列宁娜却惊叫了起来。“太可怕了，太可怕了！不愿意做社会中的一员？你居然说出了这样的话。每一个人都应该为别人服务，因为没有别人我们就会一事无成。就连伊普西龙.....”

“对，我知道。”贝尔纳不无嘲讽地说，“‘就连伊普西龙也可以利用’，我也可以利用。他妈的，我真恨不得自己是没有用处的废物！”

他言辞中流露出的亵渎意味让列宁娜震惊极了。“贝尔纳！”她用惊诧且痛苦的声调抗议道，“你怎么能这样说？”

“我为什么不能这样说？”他沉思了片刻，换了一种语调说，“不，主要的问题是在于：我为什么不能讲？或者这么说吧——我清楚地知道我为什么不能讲——如果我能讲会怎么样呢？如果我是自由的，不为条件设置所奴役，会怎么样？”

“但是贝尔纳，你的这些言论实在太可怕了。”

“你不想要自由吗，列宁娜？”

“我没明白你的想法，我始终是自由的，有享受美好时光的自由。如今每个人都幸福快乐。”

他大笑道：“没错，‘如今每个人都幸福快乐’，从孩子五岁开始我们就这样教育他们。可是，你不想换一种方式自由地拥有幸福吗，列宁娜？你自己选择的幸福。不是和其他人都一样的方式，而是你自己的方式。”

“我不明白你想说什么。”她转过身，声音里带着哀求，“我们回去吧，贝尔纳。这个地方让我厌恶。”

“跟我在一起你不开心吗？”

“当然开心，贝尔纳。只是这个可怕的地方让我讨厌。”

“我还以为在这儿我们能……更加接近彼此——你看这儿，除了大海和月亮，别无他物，比在人群里接近得多，甚至比在我屋里还接近。你明白吗？”

“我什么都不明白。”她语调坚定，绝对不能让她的“蒙昧”受污染。“什么都不明白。”她换了个语调，“当那些糟糕的念头出现时，为什么不吃点唆麻？那样你就能把它们通通忘掉，剩下的就只有快活，无比地快活了。”列宁娜妩媚地笑了笑，试图以这种性感淫逸的方式来劝服他，尽管她的眼神里仍然流露出一种迷惑的焦虑。

他一声不响，严肃坚定地盯着她，毫无反应。几秒钟后，列宁娜收回了她那期待着的眼神，发出一声无预兆的短笑，试图找出新话题，却无能为力。僵持在沉默中。

贝尔纳终于开口了，声音低沉而疲惫。“好吧，”他说，“我们回去吧。”他狠劲地踩下加速器，像火箭似的冲上了天空。在四千米高的时候他开始启动螺旋桨，两人在天上沉默地飞行了一两分钟，贝尔纳突然大笑起来。列宁娜觉得他笑得很奇怪，但不管怎样，他终究是笑了。

“感觉好些了吗？”她鼓起勇气问。

他的回答是，从操纵器上抬起一只手，环抱住她，开始抚摸她的乳房。

“谢天谢弗德，”她心想，“他恢复正常了。”

半小时后他们回到了贝尔纳的房间里。一口气吞下四片唆麻的贝尔纳，打开收音机和电视，便开始解衣。

第二天下午两人在屋顶上约会时，列宁娜很调皮地问道，“怎样，你觉得昨天玩得尽兴吗？”

贝尔纳点点头。二人上了飞机。一阵微震后，出发了。

“大家都说我很丰满。”列宁娜拍着双腿，若有所思地说。

“是很丰满！”可是贝尔纳的眼神中却流露出痛苦，“像一团肉。”他心想。

列宁娜有些焦急地抬头看他，“你不会是嫌我太胖吧？”

他摇摇头。但心里想的却是：像一堆肉。

“你觉得我好吗？”他还是点点头。“任何地方都好吗？”

“简直完美无瑕。”他大声说道，但心里却想，“这是她定义自己的方式。她并不介意自己是一团没有灵魂的肉。”

列宁娜露出了胜利的笑容，但是她得意得太早。

“尽管如此，”贝尔纳稍作停顿后说，“我仍然希望我们昨天不是那样结束的。”

“不那样结束？还能有别的形式结束吗？”

“我不希望是用我俩上床的方式结束。”他清楚地解释。

列宁娜猛然一惊。

“不是马上上床，前一天就上床。”

“那应该是怎么样？”

他开始说很多晦涩难懂又极其危险的胡话，列宁娜想方设法阻止那些胡言乱语钻进她的大脑，可总是有漏网之鱼。“.....试试控制我的冲动会有什么结果，”她听着，心灵的某根弦似乎被触动了。

“及时行乐。永远别把欢乐推迟。”她郑重地说。

“每周两次，从下午两点到四点半，每次重复两百遍。”他这样评价。他继续肆意发表着疯狂的谬论，“我想知道什么是激情，我想感受一些强烈的东西。”

“个人动了感情，社会就会动荡。”列宁娜说道。

“让社会晃一下有什么不好？”

“贝尔纳！”

但是贝尔纳丝毫未感到羞耻。

“成年人是理智和工作，”他接着说，“感觉和欲求是孩子。”

“弗德喜欢孩子。”

对于她的插话，他未予理会。“那天我突然觉得，”贝尔纳继续说道，“想一直持续成年人状态还是有可能的。”

“我不懂。”列宁娜态度强硬。

“我知道你不会懂的。我们昨天上了床，像孩子一样，成人会懂得等待。”

“可是很好玩，”列宁娜坚持己见。“难道不是吗？”

“好玩到极致了。”他答道，然而声音里有出乎寻常地悲切，表情里深藏着挣扎与痛苦。列宁娜的胜利感瞬间烟消云散，也许，他就是嫌她太胖了吧。

“我早就跟你说过。”列宁娜找法妮倾诉遭遇时，法妮如是说，“这一切都是因为他的代血浆里掺多了酒精。”

“无论如何，”列宁娜口气很肯定，“我确实喜欢他。他那双手——简直是太棒了。还有他耸动肩膀的样子——真令我心醉神迷，”她叹了一口气，“要是他不那么另类就好了。”

在主任办公室门口站了一会儿的贝尔纳，深吸了一口气，端正了身姿，准备迎接即将到来的抵触和反对——他知道进了这屋后这一切都是不可避免的。他敲敲门，便走了进去。

“有份证件请您签字批准，主任。”把证件放在写字台上，他尽可能轻快地说。

主任看他的眼神里流露出不满，但这证件上方是世界总统办公室的大印，下方则是穆斯塔法·蒙德总统阁下的亲笔签名，笔迹又粗又黑，遒劲有力。材料里的每一项都清清楚楚，主任根本没有办法拒绝，只能用铅笔签上了他姓名的首字母——在穆斯塔法·蒙德下面签上。两个灰色的字母立在那里，显得卑微无助，寒碜极了。他本打算沉默地将证件还给他，却无意中瞄到了正文里的几句话。

“你要去新墨西哥的保留地？”他抬头看着贝尔纳，一脸焦虑和惊讶。他的惊讶使贝尔纳觉得很诧异，他点点头。屋子里陷入了片刻的沉默。

主任身子往椅背一靠，皱着眉头说：“那事儿到现在多少年了？”与其说他在跟贝尔纳说话，不如说他在自言自语。“我看有二十年了。不对，应该多少有二十五年了。当时我的年纪应该与你相仿……”哎，他长叹了口气，接着摇了摇头。

贝尔纳感到很别扭。像主任那样传统守旧循规蹈矩的人，竟然会这般地失态！他简直想埋头跑出屋去。这倒不是因为他见不得别人回忆过去——那种偏见完全是出于睡眠教学的训练，是他（自认为）早已经完全摆脱了的。让他觉得窘迫的是主任不赞成这事——但是，既然不同意，为什么又背叛原则，去做被严令禁止的行为呢？受到了什么内在驱

动力吗？虽然别扭，贝尔纳还是迫不及待地想听下去。

“那时，我恐怕和你有一样的主意，”主任说道，“想见识下野蛮人。拿到了去新墨西哥的批准书之后，我打算跟当时的女朋友一起去那儿度暑假。她是一个贝塔减，我想。”（他双眼微闭）“我觉得她的头发应该是黄色的，总之很丰腴，特别的丰腴，妩媚动人，这些我都记忆犹新。嗯，我记得我们在那经历了很多，看到了野蛮人，也骑马到处跑。然而，大概就是在假期最后一天，她不见了。我们俩在山上骑马，天气出奇地闷热，让人窒息。吃过饭，我们就去午睡。至少我的确是睡了。她应该是一个人出去溜达。反正，当我醒来时她并没在房间。当时，一场可怕的暴风雨正凶猛地袭过来，雷电交加，倾盆暴雨。我们的马也乘机挣脱缰绳逃走了。我本想勒住它们，却不慎摔倒弄伤了膝盖，根本走不了什么路。可我还是边喊边找，边找边喊，却连个人影都没有见着。我猜没准她已经一个人回去了，于是又沿原路爬下山谷。中间，我受伤的膝盖疼得不行，可唆麻又被我弄丢了。走了几个小时，直到深夜，我才终于回到住处，可是她还是不在，还是不在。”主任不断重复着，沉默片刻。“嗯，”他还是继续说了下去，“第二天我又开始找，但她依旧杳无音讯。她一定是在什么地方失足掉进山沟了，或是喂了山中的狮子。只有弗德知道！总之，那真是可怕极了，悲痛欲绝，我敢说肯定超出了应有的极限——毕竟，这种意外是有可能发生在每个人身上的；不过就算构成社会的细胞发生变化，整个社会集体仍然可以永世留存。”然而，睡眠教学的安慰作用似乎不大凑效。主任摇了摇头，“事实上，我还是时不时地梦见这段经历，”他的声音变得很低沉，“在梦里面，我被震耳的雷声吓醒，但她却不见了；在梦里面，我自己一个人在树下不断地寻找再寻找。”他缄默了，似乎精神还停留在那段回忆里。

“您一定受到了严重的惊吓。”贝尔纳近乎嫉妒地说道。

听到了贝尔纳这番话，主任才突然意识到自己方才的失态，一种罪恶感开始悄悄滋生。他瞥了贝尔纳一眼，小心地回避着他的眼神，脸上一片通红；又瞥了他一眼，突然产生了疑心，更为自己刚才说了那么多有失身份的话而气愤。“别想歪了。”他说，“别以为我跟那姑娘有什么不得体的联系。我们之间没有情感，更没有扯不清的关系，一切都很正常，很健康。”他把签过名的批准书还给了贝尔纳。“我真想不通自己怎么会用这件琐碎的往事打扰你。”他有些恼羞成怒，埋怨自己透露了一个不光彩的秘密，却又把怒气撒到了贝尔纳身上。主任的目光里突然透出明显的恶意。“趁此机会，我想告诉你，马克斯先生，我收到了你的业余时间行为的报告，对此我很不满意。你可能觉得这事与我无关，可这就是我的职责。我得维护本中心的名誉。我不能接受这里的工作人员受到质疑，尤其是最高种姓的人。阿尔法有特殊的条件设置，即他们在情感上不一定要像婴孩，可正是如此，他们才更应该努力遵守规则。就算自身不情愿，也应该承担责任，要表现得像个婴儿一样。正是这样，马克斯先生，给你一个郑重的警示。”他的声音颤抖起来，之前出自尴尬而产生的怒气已经消失了，现在是因为正义感和无私而愤怒，好像是代表社会在进行谴责。“如果我再次听到你违背行为规范，我会申请把你调走，去下级中心——最好是冰岛。再见。”他抓起笔写了起来。

“这样可以好好教训下他。”主任心想。不过显然，他的设想太过美好。贝尔纳“砰”的一声关上门，大摇大摆、欣喜若狂地走出房间，他为自己孤军一人挑战现有的社会规则而骄傲无比。他突然深刻地意识到自己的存在和重要性，陶醉于其中，愈发兴奋。就算即将面临困境他也不会妥协，反而会更精神抖擞。他觉得自己有足够的力量去面对困难，战胜困难，甚至有能力和冰岛。他之所以这么自信，也是因为他不相信人家真的会让他去面对这些。没有人会因为这种理由而被调离岗位。关于冰岛，那只不过是一种恐吓，一种激发斗志、振奋精神的恐吓。他在

走廊里大步向前，居然还吹起了口哨。

英勇豪迈——这是他对当天会见主任时的自我表现所做的评述。“随后，”他用此段话做了总结，“我就是告诉他滚回过去的无底洞吧，然后大步流星地离开。如此而已。”他热切地望着亥姆霍兹·沃森，等待着他的同情、鼓励和钦佩。可是亥姆霍兹却一言不发，安静地坐那儿，盯着地板。

他一直喜欢贝尔纳；也很感激他，因为在他所相识的人群里，他是唯一一个能跟他探讨一些重要话题的人。不过，贝尔纳身上也有让他厌恶的缺点，比如他总爱吹牛，夸夸其谈，但有时身上又会出现一种带奴性的自哀。他还有个可悲的毛病，爱在事后充英勇、冷静。可正是因为亥姆霍兹喜欢贝尔纳，他才讨厌这些毛病。时间一分一秒地走着，亥姆霍兹还是呆呆地看着地板。贝尔纳突然脸红了，转过身去。

一路风平浪静。蓝太平洋火箭提前两分半钟到达新奥尔良，过德克萨斯州时遇上龙卷风延误了四分钟，在西经九十五度又幸运地遇上顺行气流，所以最终到达圣塔菲时只比原定时间迟了四十秒钟。

“六个半小时的航程只迟到四十秒，还不错。”列宁娜赞赏道。

那天晚上他们睡在圣塔菲。旅馆豪华得无与伦比，列宁娜去年夏天住过的极光宫和这里完全无法相提并论。房间里配备了液态空气、电视、真空振动按摩、收音机、热咖啡因液、避孕用品，连卧室的香水都有八种，贴心极了。进大厅时合成音响正播放着美妙的乐曲，让他俩顿时觉得能住在这里真是件幸运的事情。电梯里还贴着张通知，告诉客人旅馆里设有六十个自动扶梯壁球场，公园里还能玩障碍高尔夫和电磁高

尔夫。

“听起来美妙极了！”列宁娜赞叹道，“我真希望能常住于此。有六十个自动扶梯壁球场.....”

“保留地可一个都没有，”贝尔纳提醒她，“也没有香水和电视，甚至连热水都没有。你要是不能忍受，最好是待在这儿等我回来。”

列宁娜不由得生气了：“我百分百能受得了。我只是说这儿很好，因为.....因为进步总是美好的，对不对？”

“从十三岁到十七岁，每周都要重复五百次。”贝尔纳小声说道，像是自言自语般，声音里有种显而易见的厌倦。

“你在讲什么？”

“我是说进步是美好的，所以你没有必要去保留地，除非你真心想去。”

“可是我是真想去。”

“好吧。”贝尔纳说，这句话像是一种恐吓。

他们的批准书需要保留地的总督签字，第二天一大早两人就来到了总督的办公室。一个伊普西龙加黑人门房把贝尔纳的名片送了进去后，很快就被准许接见了。

那是个金头发白皮肤的阿尔法减，小个儿，大圆脸，面色红润，肩膀宽阔，他的声音洪亮有磁性，十分适合用来表现睡眠教学里的深刻道理。他像是一座矿藏，里头全是不相关的信息和没有用的建议，一旦开

启了话题，他就没完没了地开始说起来。

“.....把五十六万平方公里明确地划分成了四块保留区，区与区之间界限明确，由高压电网隔离。”

这一刻，毫无原因地，贝尔纳突然想起了在离开家时他忘了关掉浴室的古龙水龙头，香水还在不停地喷洒。

“.....是由大峡谷水电站保证隔离网高压电的供应。”

“等到我回去时肯定已经白白地流掉好多钱了。”他仿佛看见了香水仪表上的指针还在一圈圈地走着，好似蚂蚁般地不知疲倦。“我得赶快跟亥姆霍兹·沃森通个话。”

“.....有五千多公里电网，电压则为六千伏特。”

“不可能吧？”列宁娜客气地说。实际上她并不明了总督究竟说什么，只是从他那戏剧性的停顿中得到了某种暗示而已。她在总督的大嗓门开闸之前就已经偷偷地吞服了半克唆麻，因此才可以心平气和地坐那儿，充耳不闻，神游太虚，不过还是得保持用她那蓝色的大眼睛故作认真地盯住总督的脸。

“一旦接触电网，顷刻即亡！从保留地里溜出去那就更不可能了。”

“溜”这个字给了他一种暗示。“也许，”贝尔纳挺直身子，准备站起来，“我们得告辞了。”那小黑针正快步急走着，像一只饥虫，侵蚀着时间，也侵蚀着他的钱。

“溜出去是不可能的。”总督反复地说着，摆手示意他们回到自己的位子上。贝尔纳也只得照做，毕竟批准书的字还没签。“所有出生在保

留地的人，记着，可爱的女士，”他颇为猥琐地盯着列宁娜，轻浮地低声说道，“记着，在保留地，孩子还是胎生的。没错，虽然这很叫人厌恶，但他们确实是生下来的……”（他希望列宁娜会因为这个下流的话题而脸红，岂料她只是机械性地微笑说道：“不可能吧。”总督大失所望，只得继续说下去。）“我得强调：生在保留地的人，死也注定要在这个地方。”

注定会死……一分钟十分之一升古龙香水，一小时就是六升。“也许，”贝尔纳又想告辞，“我们应该……”

这时，总督弯下身子，食指叩了叩桌子，“如果你问我有多少人住在保留地，那么，我的回答将会是”——他不禁得意起来——“我不知道，只能靠猜测。”

“真的吗？”

“我可爱的女士，是真的。”

六乘以二十四……不，应该有六乘以三十六了。贝尔纳脸没了一丝血色，焦急得发颤。可那个“嗡嗡”的说话声还在无情地唠叨中。

“……差不多有六万印第安人和混血儿……都是百分百的野蛮人……我们的监察官偶尔会去视察……在此之外，与文明世界便无丝毫交集……那里至今还保留着他们那些令人作呕的习惯和风俗……婚姻，如果你明白是什么意思的话，可爱的女士；还有家庭……没有条件设置……极端荒谬的迷信行为……基督教、图腾崇拜还有祖先崇拜……早已灭绝了的语言，比如祖尼语和西班牙语、阿萨巴斯卡语……美洲狮、箭猪和其他凶猛的动物……传染病……祭司……毒蜥蜴……”

“不可能吧。”

最终，他们总算得以脱身。贝尔纳飞奔到电话前。快！快！可单拨通亥姆霍兹的电话就浪费了他将近三分钟。“我们是已经在野蛮人中间了吗？”他埋怨道，“真他妈没效率！”

“要不来一克吧。”列宁娜好心提议。

他不肯，宁愿在那生气。后来，感谢弗德，终于通了，是亥姆霍兹。他向亥姆霍兹讲述了刚发生的事，亥姆霍兹允诺即刻去关龙头，即刻去，好，马上去。不过亥姆霍兹也趁此时告知了他关于昨天夜里主任在开会时做的讲话……

“你说什么？他正寻找人来替代我？”贝尔纳的语气显得很苦涩。“已经确定了吗？他提及调往冰岛的事没？他真的提到了？哦，弗德！那可是冰岛啊！……”他挂了电话，转身对着列宁娜，面色苍白，表情极端沮丧。

“出什么事了？”她问。

“什么事？”他往后一靠，无力地倒在椅子上，“我将被调到冰岛去了。”

他曾多次设想过要经受一些严峻的考验（是靠他的内在力量，不用唆麻），体验如临深渊般的痛，尝试遭受迫害的感觉，寻找苦难的感觉。就是一周前，在主任的办公室里，他还想象过自己实行了伟大的反抗，坚忍地默默承受了苦难。主任的威胁反而让他兴奋，让他觉得自己的形象伟岸多了。可是直到现在他才意识到，他实际并未认真地思考过主任的恐吓言辞。因为他根本就不相信，主任会对此实施任何手段。如

今看来，那恐吓要变为现实了。贝尔纳面如白纸，惊愕不已，他那想象中的坚忍和勇气此时早已消退得无影无踪。

他跟自己生起气来——真是个蠢货！——敢跟主任对着干——真不公平，居然没给他再一次机会。如果有第二次机会，他绝对会全力以赴争取的。可是冰岛，冰岛……。

列宁娜摇了摇头。“过去和未来都叫我痛苦，”她引用道，“吞下唆麻现在就幸福。”

最终他被她说服，吞下了四片唆麻。五分钟以后，一切烦恼之根果皆消除，只剩下当下之花正灿烂地绽放。门房带来了消息，按照总督的指示，一个保留地卫士开来了一架飞机，在旅馆屋顶候命。他们立即去了屋顶。一个穿绿制服的伽玛混血儿（一般指有八分之一黑人血统的黑白混血儿）敬了个礼，便开始向他们报告上午的安排。

首先，有十来个首要的印第安村庄待他们在空中鸟瞰，接着会降落在马尔佩斯享用午餐。那里的招待所比其他的要舒适，而且村里的野蛮人可能要欢度夏令节，因此，在那儿过夜是再惬意不过了。

他们就座后，飞机就出发了，十分钟后便穿过了文明社会与野蛮区的交界。飞机不太平稳地飞过盐漠、沙漠与森林，深入大峡谷的紫色阴影里，跃过峭壁、山峰和台地。绵延的电网像条势不可挡的直线，在地面上勾画着代表人类征服意志的几何图腾。电网之下星星点点地分布着白骨，黄土地上还残留着未完全腐烂的深色尸体，应该是被腐腥味招来的野鹿、公牛、豹子、箭猪、郊狼或是贪婪的兀鹰，它们靠近了致命的电线，挨了电击，遭受了罪有应得的审判！

“他们从不引以为戒，”身着绿色制服的驾驶员指着机下的茫茫白骨

说道，“也从未打算引以为戒。”他又补充一句，笑了，仿佛从被电死的动物身上得到了一种自我成就感。

贝尔纳也露出了笑容，两克唆麻下肚，不知为何，这些玩笑听着觉得风趣了。片刻之后，他便倒头沉睡了起来。睡梦中他飞跃了陶斯、特苏基，飞过了南姆、比克里司和波瓦基，飞过了西雅和克奇逊，飞过了拉古纳、阿科马和被下过咒的高山台地，飞过了祖尼、锡沃拉和奥左卡连特。等飞机降落时，他终于从梦中醒了过来，看见列宁娜提着箱子走进一间方形的小屋，那个穿伽玛绿的混血儿正跟一个印第安青年用他们完全不懂的语言对话。

“马尔佩斯，”贝尔纳下飞机时驾驶员随即解释道，“这就是招待所。印第安村里会有一场舞会，就在今天下午。他会带你们去。”他指着那个闷闷不乐的印第安青年说。“希望你们能玩得尽兴。”驾驶员撇开嘴笑道。“他们做的事情都很有意思。”刚说完，就上了飞机，启动了引擎。“记住，明天我会来接你们！”他向列宁娜郑重承诺，“他们被驯服得很听话，您大可放心，绝对不会伤害你们一根汗毛。他们挨过太多的毒气弹，所以不会跟我们玩任何花样。”他笑着给直升机螺旋桨挂了挡，一踩加速器飞走了。

第七章

远看平顶山，像一艘船静静停泊在棕黄色沙尘的海湾边。海峡在险峻的山谷间蜿蜒前行，来回撞击一道道崖壁，直到穿过山谷，一片绿色便映入眼中——那是河流和原野。海峡中央“石船”的船首处头，露出一片形状整齐的光滑岩层，马尔佩斯印第安人村就坐落于此处，仿佛是“石船”的组成部分。村里的高楼是一层层堆积起来的，越高的楼层体积越小，犹如被蓝天削去顶端的金字塔。下面是零零散散的小屋和纵横交错的围墙。悬崖的三面倾斜而下融入平原。此时没有风，几缕炊烟笔直上升，而后消散到空气中。

“真古怪！”列宁娜说，“太古怪了。”这个词是她谴责抱怨时的口头禅。“我不喜欢这里，也不喜欢那个人。”她指着那个受命护送他们去蛮族村落的印第安向导说。很显然，向导也抱有相同的情绪。他远远地站在前面，背影透露着敌意和不屑的愠怒。

“而且，”她细声说，“他身上怪臭的。”

贝尔纳没有提出异议。他们继续前行着。

忽然，似乎周遭的空气都开始雀跃激动起来，体内的血液也跟着不知疲倦地翻腾着——在高处的马尔佩斯，有人正在敲鼓。伴着心跳一般神秘的节拍，他们加快步伐，沿路走到悬崖底下。他们头上则耸立着那硕大的“石船”的峭壁，地面距离“船舷”整整三百米。

“早知道就带飞机过来了，”列宁娜仰望着那高耸入云的峭壁，愤恨

地说，“我不喜欢走路，尤其是在高山脚下走路，显得自己微不足道。”

他们在平顶山的阴影下里继续行进，绕过一排岩石，在一道水蚀皱谷中，有一条小径通向“舰艇扶梯”。他们开始往上爬。山路险峻，扶梯于山谷两侧晃来晃去。有节奏的鼓声有时微弱得几乎听不见，有时又仿佛近在拐角处。

爬到半山腰时，一只苍鹰擦身飞过，脸上还能感觉到它的翅膀带来的一股凉气。忽见岩石的裂缝内有一堆白森森的骨头。一切都散发着诡异而压抑的气氛，而印第安向导的气味也越发浓重。终于，他们走出了阴沉的峡谷，迎接来阳光。远眺那平顶山的头顶就像一块平整的“甲板”。

“很像切林T字形塔楼。”列宁娜评述道。还没等她多观赏一会这个让她自豪的发现，一阵轻快的脚步声传过来，他们转身朝声音方向望去，只见两个印第安人，赤裸着上身，黑棕色的身子上画着一道道白条（后来列宁娜描述说“好像铺满沥青的网球场”），脸上布满猩红色、黑色和赭色的涂料，不像是人的模样。他们的黑发编成辫子，饰以狐狸毛和红色的法兰绒，肩膀上围着的火鸡毛迎风扑扇着，头上戴着硕大鲜艳的羽毛头冠。银手镯、骨制项链和绿松石珠串随着脚步发出叮叮当当的响声。两人穿着鹿皮靴，步履轻盈地跑上前来。其中一人握着一把羽毛掸子，另一人两只手好像各抓了三四条粗绳，其中一条不安分地摇摆着。列宁娜惊奇地发现那竟然是蛇。

两人越来越近；他们那黑亮的眼睛早瞧见了她，却毫无表示，丝毫没有似曾相识或在意她的神情。那条摇摆的蛇松软地垂了下去，跟别的蛇一样悬挂着。两人就这么走开了。

“我不喜欢这儿，”列宁娜说，“很不喜欢。”

可是，更叫她不喜欢的还在村口等待着她。在那儿，向导径直把他俩扔下，自己去接受指令了。先是肮脏的泥土，再来是垃圾堆、灰尘、狗、苍蝇！她的脸不自觉地扭成一团，表达出极度的厌恶，同时拿出手绢捂住了鼻子。

“他们这样怎么活得下去？”她愤慨地喊道，深深地觉得不可思议。（太离谱了！）

贝尔纳耸了耸肩，很富哲理性地说：“说到底，五六千年来他们都如此生活，现在估计早就习以为常了。”

“可是‘清洁卫生，弗德开心’。”她不服气地说。

“没错，‘文明意味着完全杀菌’。”贝尔纳嘲讽地引用了睡眠教学卫生基础知识第二讲的名言。 “但是，我主弗德对他们来说是闻所未闻的，他们可不是文明人。所以说这些也没有意义……。”

“啊！”她捏了一下他的胳膊，“快看！”

附近一幢房子二楼的平台上，一个近乎全裸的印第安人正沿着楼梯小心翼翼、颤巍巍地往下爬。那是一位年迈的老人，肤色黝黑，皱纹很深，好像戴了个黑曜石面具。那早已掉光了牙的嘴凹陷下去。下颚及嘴边两端有几根长长的胡须，与黝黑的肤色一对比，仿佛闪着白光。蓬乱的头发并没有编成辫子，披散在脸边，掺着灰白的发丝。他瘦得皮包骨头，身躯弯成了弓形。他沿着楼梯缓慢地走下来，每挪一步，就要靠着扶手歇一歇，然后冒险地踏出下一步。

“他怎么会这样？”列宁娜悄声问道，睁大的眼睛里写满了恐惧和诧异。

异。

“只不过是上年纪了。”贝尔纳尽可能表现得毫不在意。实际上他也感到很震撼，只是想尽力隐藏这种情绪。

“上年纪了？”她重复了一遍答案，“可是主任不也老了吗，那么多人都老了，没有人像他这副模样。”

“那是因为我们不允许他们衰老。我们阻止他们生病，通过人工调节，让内分泌系统维持年轻时候的平衡状态。镁钙比值从来不能低于三十岁的水平。还要时不时地注射年轻人的血液，永久性地刺激新陈代谢。所以，他们自然不会老成那样了。另外，”他补充道，“这儿绝大部分人还活不到这个老家伙的年龄。这些人到六十岁时身体还很健康，没有任何损伤，然后，‘咔嚓’，突然一下就完了。”

但列宁娜早就没心思听他说话了。她呆呆地注视那老人，看着他缓慢且迟钝地向下爬，脚落了地，转过身来。深深凹陷的眼窝里，双眼异常的明亮。老人面无表情地看着她，没有一丝惊讶，好像她根本不存在一样。然后他缓缓地挪动佝偻的身体，从他们身边擦过。

“这儿可真恐怖，”列宁娜气息微弱地说，“真可怕，我们就不该来这儿。”她慌忙地伸手去摸兜里的唆麻，却发现自己史无前例的疏忽：唆麻给忘在招待所了。贝尔纳的口袋也空无一物。

列宁娜只好无助地面对马尔佩斯的种种恐怖：恐怖的场面接二连三地发生。她看见两个年轻的母亲给孩子喂奶，羞得急忙扭过脸。她生平第一次见到如此下流猥亵的事。让她更窘迫的是，贝尔纳对这羞耻的胎生场面不仅没有及时回避，反倒公然表示感慨。之前服下唆麻渐渐失去效用，他开始为早上在招待所的懦夫表现感到羞愧，于是迅速改变态

度，表现自己的强悍与对正统的挑战。

“多么美好的亲密关系啊，”他特意说得不堪入耳，“生育会产生多么深厚的感情啊！我时常思考：我们可能会因为没有母亲而缺失什么，而列宁娜，你也可能因为没有做过母亲而不完整。想象一下你坐在那儿哺育着自己的孩子吧……”

“贝尔纳！你怎么能胡说八道！”这时，她发现了一位患眼疾和皮肤病的老妇人，本来愤怒的她迅速转移了注意力。

“离开这儿吧，”她哀求他，“我真是一点都不喜欢这里。”

正说着，他们的向导回来了，示意他们跟在后面，带领着他们穿过房屋之间狭窄的街道，转过一个街角。垃圾堆里躺着一只死狗；一个长着甲状腺肿瘤的妇人在一个小女孩的头发里捉虱子。向导走到一个梯子旁边，停住了，然后竖直地举起手，朝水平方向一指。顺着他无声的指示，他们爬上梯子，踏进门，走进一个狭长的房间。阴暗的空间里弥散着一股难闻的烟味、食物的油脂味和久穿未洗的破衣服味。房间尽头又是一扇门，一束阳光射过，清晰地传来一阵喧闹的鼓声。

跨过门槛，他们看到一片广袤的平台。下面就是村落的广场，四周都是高高的建筑物，广场里挤满了印第安人：亮泽的毛毡，插着羽毛的乌黑头发，闪闪发光的绿松石，因为热情而发光的黝黑皮肤……列宁娜又忍不住拿出手绢捂鼻子。广场中央的空地上有两个圆形的平台，是用石头和结实的泥土筑成的，显然是地下室的房顶。因为在每个台子正中都开有一个天窗，隐约看见漆黑的天窗下面还架着楼梯。地下偶有笛声传来，却被持续不断的鼓声无情地掩盖。

列宁娜正陶醉在那鼓声中。她闭紧双眼，身体沉浸在轻柔反复

的“雷鸣”中，任由其逐渐进入到她的意志，直到完全占领。末了，她的世界变得空悠悠，仅剩下一阵阵深沉的搏动。这声音让她欣然地回想起团结祈祷日和弗德庆典时所放的合成音乐。“纵情啊狂欢”，她自言自语地默念道。与这鼓点的节奏完全一样。

一瞬间，振聋发聩的歌声喷薄而出——几百个男人激烈地高声齐唱，整齐的声音像尖锐的金属；几个长音符之后，静了下来——雷鸣般的鼓点归于寂静。随后响起一阵高声部的女声，如马嘶般高亢尖锐，这是女人们的唱和。紧随其后的又是鼓点。接着，男人们那低沉的声音再次响起，用粗蛮的方式印证着他们的男性气魄。

古怪——毋庸置疑。地方怪，音乐怪，服饰、瘤子、皮肤病和老人都怪，不过这表演倒没那么奇怪。

“让我联想到低种姓的社区合唱。”她对贝尔纳说。

不过，接下来的场景就不那么让她好受了。一众面目狰狞的“魔鬼”瞬间从那圆形的地下室里钻了出来，头上戴着让人毛骨悚然的面具，完全辨别不出人脸的特征，围着广场正瘸瘸拐拐跳着一种奇怪的舞。一圈又一圈，边唱边跳，一圈又一圈，鼓点越来越急促，舞动的节奏也随之加快，就像发烧时剧烈跳动的脉搏。四周的人群跟着唱和起来，嗓音不断提升。人群中一个女人发出尖叫，其他女人一个接着一个地尖叫开来，仿佛要被杀掉一样。接着领舞人脱离了舞蹈的人群，跑到广场尽头的一个大木箱旁，揭开盖，随手拽出了两条黑蛇。“哇！”人群中爆发出欢呼，其他舞者都伸着手，向他跑去。领舞人把蛇扔向离他最近的一批人，然后又把手伸向柜子里，扔出一条条黑蛇、黄蛇和花蛇。舞蹈的节奏再次变换。舞员们手握着蛇一圈圈地舞着，双膝及腰部如蛇一样绕柔地摆动。此时领舞人发出指令，舞者们都把蛇扔向广场中心。

从地下室钻出来一个老头，向蛇堆中抛撒玉米片。一个女人从另一个地下室钻了出来，从黑罐里舀出水来洒到蛇身上。然后老头双手举过头顶，现场突然静得惊人，一片死寂。鼓声停息，仿佛生命也即将停息。老头用手指了指通向地下室的两个洞口。被地下看不见的手推动着，一个洞口浮起一张鹰的画像，另一个洞口则升起一幅钉在十字架上的赤裸人像。两幅画仿佛无所依恃地兀自悬浮在空中，观察着人群。老人拍拍手，从人群中走出一个十八岁上下的小伙子，裸露着全身，独腰间缠着一块白棉布。小伙子两手交叉放在胸前，低着头站在老人面前。老人在他头上画了一个十字，便转身离去。小伙子走向那堆扭动着的蛇群，围着绕起圈来。转完一圈，第二圈转到一半时，舞群中走出一个大高个，戴着野狼面具，手执一根皮鞭，朝小伙子走去。小伙子继续转圈，就像其他人不存在。“野狼”高举皮鞭，停了好一会，似乎在酝酿什么，忽然猛地一抽，鞭子呼啸地划过空气，打在了血肉之躯上，发出厚实响亮的声音。小伙子颤抖了一下，然后默不吭声地继续他那缓慢而坚定的步伐。“野狼”一鞭接着一鞭地抽过去，起初，每次抽打都让人群屏住呼吸，继而发出低沉的呻吟。小伙子接着转圈，两圈，三圈，走到第四圈时，身上涌出鲜红的血，五圈，六圈……列宁娜用手蒙住脸呜咽起来。“快阻止他们，让他们别打了！”她哀求道。但是鞭子还是毫不留情地挥舞，落下。七圈。小伙子摇晃着脚步，向前扑倒在地，依然没有出声。老头走到他面前弯下身，拿一根白色的长羽毛蘸取他背上的血，举起来向人群展示，触目的鲜红，然后在蛇堆上抖了三下。几滴血滴落。瞬间又响起激烈而紧张的鼓声，人群大声呼叫。舞者向前奔去，拽起蛇跑出了广场。男女老少们都蜂拥地跟随其后。不到一会儿，广场上就空荡荡的，只剩下那小伙子形单影只地趴在跌倒的地方，一动不动。不久，一间屋里走出三个老妇人，上前吃力地扶起他，拖进了屋子。只剩下那只鹰和十字架上的人守护着空寂的印第安村庄。过了一会儿，他们好像是看腻了似的，慢慢地下沉，回归到“地下世界”。

列宁娜还在哽咽，“太吓人了，太吓人了。”她不停地呼喊。贝尔纳怎么安慰都没有用。“那血！太吓人了！”她害怕得浑身哆嗦，“啊，要是带了唆麻就好了。”

房内传来脚步声。

列宁娜坐在那儿没有动，用手捂住脸不敢看，但贝尔纳还是转过头。

一个穿印第安服装的小伙子正走上台阶。不过，他那编成小辫的头发却是小麦金色，淡蓝色的眼睛，皮肤已晒成了古铜色，但是能看出来原先的皮肤是白的。

“哈罗，早晨好！”陌生人说的是英语，没有语病但有音调古怪。“你们是文明人吧？应该是从‘那边’来的，保留地外面，是吗？”

“怎么回事……？”贝尔纳大吃一惊地发问。

小伙子叹着气摇了摇头，“那个可怜人，”他指着广场中央的血迹说，“你们看见那该死的血迹了吗？”他用激愤而颤抖的语气问。

“一克唆麻，好过烦恼。”列宁娜捂着脸机械式地重复着，“要是带了唆麻就好了。”

“趴那儿的人应该是我，”年轻人接着说，“他们为何不拿我去献祭？我可以转十圈，十二圈，甚至十五圈。帕罗蒂瓦只转了七圈。从我身上，他们可以得到双倍的血，把一碧无垠的海水染成一片殷红。”他挥出双臂慷慨激昂地做了个手势，又失落地放了下来。“但他们不愿让我去。因为他们不喜欢我的肤色，他们一直都这样，一直都是。”泪水

涌上了他的眼睛，年轻人羞愧地背过身去。

惊讶暂时医好了列宁娜对唆麻的渴求。她放下手，第一次看清楚眼前这个青年，“你是说你想挨鞭子？”

年轻人仍然背对着她，做了一个肯定的手势。“是的。为了村庄，为了降雨，为了作物的成长，为了让菩公和耶稣高兴，也为了证明我能够一声不吭地忍受痛苦，我愿意。”声音忽然变得响亮，他挺起胸膛，骄傲而不服气地扬起下颚，“为了证明我是顶天立地的男子汉……啊！”他目瞪口呆，屏住了呼吸，不再说话：他生平第一次遇见这样的姑娘，肤色并非是巧克力色或狗皮色；棕红色的头发自然地卷曲；脸上写满友好真切的关怀（新奇得难以置信）。列宁娜对他微笑。她正想着，这个小伙子真帅气，身材真好。小伙子的热血直往脸上涌，他赶紧低下头，好一会儿才抬起来，却发现她依然看着自己微笑。他不知所措，只好转过头去，装作在寻找广场对面的什么东西。

贝尔纳一连串地提问转移了注意力。他问小伙子是什么人，怎么来的，何时而来，又来自何处。小伙子盯着贝尔纳的脸（他热切地想再看看那姑娘的微笑，又不敢看她），简单地介绍了自己：在保留地，琳达和他都是外来人。琳达是他的妈妈（列宁娜一听妈妈两字就浑身不自在）。他出生之前，琳达和一个男人从“那边”来到这里的，那男人就是他的父亲（贝尔纳竖起了耳朵）。当年，琳达独自一人从山上往北边走，不慎跌落山崖，撞破了头。（“快，接着说”，贝尔纳非常激动。）几个马尔佩斯的猎人发现了她，就把她带回了村庄。之后，琳达再也没有见过他的父亲。他的名字叫托马金（那就对了，主任的名字就是托马金。他一定是自己一个人飞回“那边”了，丢下孤苦无依的琳达——真是铁石心肠的坏人）。

“于是我在马尔佩斯出生了。”他结束了自我介绍。“在马尔佩斯.....”他摇摇头。

就在村庄外边那间肮脏的小屋里！

尘土和垃圾像一个屏障，把小屋划分出村庄。小屋门前的垃圾里，两条饥肠辘辘的脏狗正在猥琐地嗅着。他们走了进去，屋内又暗又臭，只听见苍蝇的嗡嗡声。

“琳达！”年轻人呼唤着。

“来了。”一个沙哑的女声回答道。

他们等待着。装着剩饭的碗散落在地上，可能是好几顿的剩饭。

门开了，只见一个肥硕的金发白肤印第安女人从门槛迈了进来，目瞪口呆地望着两个陌生的客人，傻傻地杵在那儿，不敢相信眼前的一切。但是她的形象却让列宁娜觉得反胃：那女人的两颗门牙都掉了，没掉的牙的颜色也.....她不禁打了一个寒战，浑身起鸡皮疙瘩。比之前看到的老头还糟。她太肥了，脸上都是褶子，皮肉松弛，爬满皱纹，下垂的两颊上长着发紫的斑点。鼻子上鼓着红色的血管，眼睛里布满血丝。再看她那脖子——这还能称作是脖子吗.....头上还裹着又脏又破的毛毡。麻袋形状的褐色长袍也不能遮掩那肥腻下垂的乳房、臃肿的肚子和臀部。啊，比那个老头的样子更无法忍受！突然，这个“怪物”开始唧唧呱呱地念叨，还张开双手向她跑来——弗德呀！弗德呀！那“怪物”一下抱住列宁娜，乳房和肚脐贴近过来，还亲吻她。弗德呀！真让人作呕，再这样下去她真要吐了。她唾沫飞溅地亲吻着，浑身恶臭，肯定从来没洗过澡。这气味跟放进德尔塔和伊普西龙瓶里的东西一样，很可能是酒精（关于贝尔纳的传言不会是真的吧）。列宁娜奋力挣脱开这恶心的怀

抱。

她眼前的那张脏脸哭得又肿又歪，那“怪物”在哭诉着。

“哦，我的小宝贝。”不间断的絮叨中夹杂着啜泣声。“这么多年了，从没再看见过文明人的脸！你知道我有多高兴吗？真的，连文明人的衣服都看不到。我还以为永远都见不到真正的人造丝衣服了。”她伸出手触摸列宁娜的衬衫袖子和黑色的纽扣。“还有这迷人的粘胶棉绒短裤！我的宝贝，你知道吗？我仍保存着那些旧衣服，就是之前我穿来的，都好好地存放在箱子里，以后有机会让你们看看，虽然粘胶都破了。我还有条惹人爱的白腰带——我得承认，你这条摩洛哥绿皮带更加精致。”说着她的流泪又开始泛滥。“我想约翰已经告诉过你了，我在这里受尽了苦头，一点唆麻都没有。只能偶尔喝点波佩带来的龙舌兰酒。波佩是我以前的一个熟人。但喝完那酒以后特别难受。佩瑶特也是，而且喝了它，第二天会有有一种可怕的羞耻感。我真觉得耻辱。你想想看，我一个贝塔，居然生了个孩子出来，你站在我的角度想想看。”（听到这个提议列宁娜就颤抖起来）“但是这真的不是我的错，我发誓！我至今也不明白到底怎么出的错，我一向都按时做马尔萨斯操，你知道吧，按照顺序，一、二、三、四，没有偷懒过，我发誓。但还是出事了。当然，这里是没有人流中心的。顺便问一下，人流中心还在切尔西吗？”列宁娜点了点头。“星期二和星期五还是有泛光灯照明吗？”列宁娜又点点头。“那可爱的粉红玻璃大厦呀！”可怜的琳达抬起头，闭上眼睛。那记忆中的绚丽图景在她脑中如梦似幻地翻腾着。“还有那河上的夜色。”她低声说着，豆大的泪珠从她紧闭的眼角慢慢滑落。“夜晚从斯托克伯吉斯飞回家，冲一个热水澡，做一次真空振动按摩……啊！”她深深地吸了口气，摇摇头，再次睁开双眼，擤了两下鼻子，用手抹了把鼻涕，在自己的衣襟上一擦。“噢，不好意思。”她看见列宁娜本能地做

出厌恶的表情，“对不起，我不该这么粗鲁，可是换做是你，没有手绢该拿什么擦鼻涕？我当初是多么的苦恼，到处是脏东西，都没有消过毒。他们把我带过来时，我头上有一个严重的伤口。你想象不到他们拿什么涂在伤口上，都是些污秽的东西。我老对他们说‘文明意味着完全杀菌’，甚至像带孩子一样对他们唱童谣：‘草色链球菌马儿，带我去班伯里T区，去T区有何贵干？去漂亮的洗手间看看。’尽管如此，他们还是不开窍。他们这些人怎么可能会明白呢？后来，我也就慢慢习惯了。这儿连热水管都没有安，怎么可能收拾得干干净净呢？你瞧瞧这些衣裳。这种野兽毛不像人造丝，总穿也不会有破损。如果破了，他们还要你缝补。我可是贝塔啊！工作一直是在受精室，从来没有人指导我做过这种粗活，毕竟这不是我工作范围内的事。更何况，文明人根本不需要缝补衣服。衣服破了洞就该扔了，换新装。‘越缝越穷’，不就是说的这个理儿吗？缝补是反社会的行径。可在这儿情况截然不同，如同跟一群疯子一起生活。他们做的每一件事都那么疯狂。”她环顾四周，只见约翰和贝尔纳已经走开了，在屋外的沙土和垃圾中不断徘徊，但她还是压低了嗓音，佝着腰亲密地凑过来了，列宁娜身体死板地往后一退。她还是靠得很近，列宁娜面额上的汗毛都被她的臭气吹动，这臭味足以用来毒害胚胎了。“比如说，”她用沙哑的声音轻声说，“他们这儿的男女关系太疯狂了，我跟你说，那是绝对的疯狂。人人属于彼此——他们也是这样吗？是吗？”她扯着列宁娜的袖子反问道。

列宁娜点了点头，把头扭到一边，换了一口气（她刚才一直是屏住呼吸的），然后设法再吸一口相对不那么污浊的空气。“哼，在这儿，一个人是不会属于多个人的。你要是以正常方式和男人相处，其他人反而说你不正经、反社会，然后厌恶你、鄙视你。记得有一次，一群凶婆娘来我家大闹了一场，因为她们的男人常常来找我。哼，怎么就不能来找我呢？之后，她们冲了过来……那场景实在太恐怖了！我真没法给你

形容。”琳达赶紧用手捂住脸，身体瑟瑟地颤抖着。“这里的女人太可怕了；她们不仅疯狂，还残忍粗暴。可想而知，她们是不会懂得马尔萨斯操、培养瓶、换瓶程序这类东西的，所以她们会一直生孩子——跟狗一样。糟糕透了。一想到我竟然也……啊，弗德，弗德，弗德啊！不过话说回来，约翰是我心中最大的安慰。如果没有他，我真不敢想象会做出什么傻事。虽然他常常因为我和男人的关系而伤心……从他很小的时候起就这样了。记得有一回（那是在他稍大一点的时候），他甚至想杀死可怜的华西瓦——或者是波佩，仅仅是因为我跟他们上床了。我不知道怎么做才能让他明白，这是文明人都会做的事。也许疯狂是会传染的，约翰似乎从印第安人那儿感染了疯狂。因为他经常跟那些人在一起。即使他们对他的态度坏到极点，也从不让他参与集体活动。不过这未尝不是件好事。因为这样，我才能帮他设置条件。你想象不到这有多么困难。我有太多不懂的事情，而且我本来就没有义务懂这些事。当孩子问你：直升飞机是怎么飞的或者这个世界是谁造的——你也知道，如果你是个一直在受精室工作的贝塔，怎么可能答得上来？又能编出什么答案？”

第八章

屋外面，在一地沙尘和垃圾间（现在还得加上四条狗），贝尔纳与约翰正踱来踱去。

“我不能理解这一切。”贝尔纳说，“我们仿佛不是在同一个星球上生活，不是生活在同一个纪元。这里有母亲，有污垢，有耶稣，人会衰老，人还会生病……”他困惑地摇了摇头。“简直难以置信。除非你能阐明这一切，不然我永远也不能理解。”

“你要我阐述什么？”

“这个，”他的手指向印第安村庄，“那个”，村外边的那间房子。“这里发生的一切，你们全部的生活。”

“但是那有什么好讲的呢？”

“那你就从头说起，从你最初对世事有记忆时开始说。”

“啊，从我最初的记忆开始。”约翰的眉头皱了起来，陷入了沉思。

那时，天气酷热，他们吃了很多玉米饼和甜玉米。琳达说：“孩子，来躺我这儿。”母子俩躺在大床上。“唱歌”，琳达开始唱“草色链球菌马儿，带我去班伯里T区”和“再见吧，宝贝班亭，你马上就要换瓶”。声音越来越低，渐渐听不真切……

这时，约翰被一阵声响震醒了，看见一个男人在和琳达说话，逗得

琳达直笑。盖在身上的毛毯被那男人掀了开来。那人的头发编着，像两根黑色的麻绳，手臂上缠着一个漂亮的银臂镯，上面还嵌着蓝色的石头。那臂镯让约翰喜欢得不行，可他还是被吓到了。他把脸埋在琳达身子里，琳达抱着他，这给了他安全感。他听着琳达说着他不太能理解的话，“不可以，约翰还在这儿呢。”那人瞅了瞅他，然后面向琳达情意绵绵地又说了几句。琳达坚持着，“不可以。”只见那男人俯下身来面对着他。那张脸又大又恐怖，他那两条黑绳似的发辫触到了毛毯。“不行。”琳达急忙说，他感到她的手抱得更用力了。“不，不。”这时他的一条胳膊却叫那人抓住了，被抓得疼痛难忍，他嘶叫了出来。那人伸出另一只手想把他举起来。可是琳达仍然抱住他不放，“不可以，这不可以。”那人生气地说了两句，话语很短促。琳达突然松开了手。“琳达，琳达。”他一边蹬着一边挣扎着被那人抱到门口，打开门，把他放到屋子中央，然后出去把门拴住了。他慌忙站了起来，跑到门前，垫着脚将就着能够到那大门闩；他端起木闩用力往外推；但却打不开。“琳达。”他大声喊道，琳达却没有任何回应。

他又记得有一个大房间，房内非常阴暗。屋里摆放着稀奇古怪的木制品，上面拴着很多线，四周围着很多妇女。琳达说那是在编制毛毡，还要他坐在屋角，同所有孩子一起，而她则去帮女人们干活。而这期间他就一直在跟孩子们玩。突然，人们大声地嚷了起来，女人们正往外推着琳达。琳达哭了，她只好走出门。他跑上前去，问她那些女人因为什么发火。“因为我把东西弄坏了。”她答道，接着琳达也气坏了，“我怎么会懂她们那种野蛮的编织法？”她说，着一群凶恶的野蛮人！”他马上又问野蛮人是什么。他们回家时看见在门口等候已久的波佩，他跟着进了屋子。波佩有一个大葫芦，里边盛着类似水的液体，但不是水，而是种发臭又烧嘴，喝过之后让人咳嗽不已的液体。琳达和波佩每人都喝了一些，接着琳达便开始放声大笑和喧哗着，然后她便跟波佩步入了别

的屋子……他在波佩走掉以后走进屋去，发现琳达躺在床上，睡得很死，怎么都叫不醒她。

当时波佩到访得很频繁，他称葫芦里的液体为龙舌兰酒，但琳达却叫它唆麻，可就是喝过之后浑身难受。他对波佩是厌恶的，同样厌恶周围所有的人——所有跟琳达有接触的男人。那是一个下午，他正在跟别的小朋友玩耍——他依稀记得，天特别冷，积雪覆盖在山上，他回到家中听见屋子内有暴怒的吼声。那声音是女人发出的，说着他不懂的话，但他能分辨出那些是不好的词句。接着，跟随着“叭”的一声，像是什么东西翻倒了。他听见屋内大家在快速地跑动。“叭”，又一个声响，然后就是鞭子抽打驴子的声音，可又不全像是抽打驴子，驴子身上的骨头更多些。琳达撕心裂肺地叫道：“啊！不，不要，不要再打了！”他冲进屋，看见有三个披着黑毯子的妇女，琳达则被架在床上：手腕被其中一个妇女按着；腿则被另一个妇女压着，别让她乱蹬；第三个妇女在不停地抽打着她。一鞭，两鞭，三鞭，鞭鞭都让琳达皮开肉绽。他被这幅场景吓倒，冲过去拉着那妇人的毡子边哭边喊着，“求求你们不要，求求你们不要。”那女人一手把他拉开了，继续抽了起来，琳达继续嘶喊着。他一把拽住那妇人棕色的手掌，拼尽全力咬了下去。那妇人开始叫喊，猛地缩回了手，狠狠地用手把他推到了地上，又趁他还没有爬起来，往他身上抽了三鞭子，那鞭子抽下来比他以往所感受到的所有的痛苦还要深刻——像火烧一样。鞭声又响起了，但这次嘶喊的却是琳达。

“为什么她们会打你，琳达？”他当天夜里问道。他在哭，因为自己背上那些血红的鞭痕还刺痛着；也因为大人们蛮横不讲道理；因为自己是个孩子，无力反抗。琳达也哭了。她虽然已经成年，可她孤身一人，敌不过三人的攻击。因此这对她来说也是不平等的。“为什么她们要伤害你，琳达？”

“不知道，我又怎么可能知道呢？”她躺在床上，把头埋在枕头里，声音听起来模糊不清。“她们说那是她们的男人。”她说着说着，听起来不像是跟他在说话；倒像是跟自己的心中的某人在倾诉。说了一大堆，其实她自己也不知道在说什么；最后她哭了，哭得比以往都惨烈。

“啊，不哭，琳达，不要哭。”

他贴近她，贴得格外近，小手搂住了她的颈部。琳达大叫了声，“哦，别碰我，我的肩膀！哎呦！”她用力一推。他的小脑袋磕在墙壁上。“小蠢蛋！”她骂着，继而开始扇他巴掌。“叭！叭！……”

“琳达，”他喊出了声，“哦，妈妈。不要打我！”

“你妈妈不是我，我才不想做你妈妈。”

“但是琳达……啊！”她又扇了他一巴掌。

“沦落成了野蛮人，”她喊道。“像禽兽一样生幼崽……如果不是因为你，我就会去找检查员，那样是有机会离开的。可不能领着孩子去。那真是丢尽了人。”

看见她又要动手，他便举起手臂来护着自己的脸。“哦，琳达，不要打，求你不要打我。”

“小畜生！”她拉下他的两只胳膊，看见了他的小脸。

“不要，琳达。”他喊着闭上了双眼，动也不动地等着被打。

可她这次并没有出手。等了好一会儿，他终于张开双眼，看见她正在望着他。他用力挤出了个勉强的微笑。突然，她用手抱住他，开始亲

他，不停地亲吻着。

琳达有时会几天不出门，躺在床上暗自神伤，或是喝波佩送来的液体，喝够了开始狂笑，接着再睡。她生病的时候，会经常不记得要给他洗脸洗澡，那时他除了冷玉米饼再没有其他吃的。他还能想起琳达第一次在他头发里看见那些小虫子时，尖叫得没完没了。

每当她向他讲述“那边”的情况时便是最幸福的时候。“只要你想飞，无论何时，你就可以飞。”

“无论何时都行。”她告诉他，悦耳的音乐是从盒子里出来的，细细描述每一个游戏、每一道美味；想要光明只需按按墙上的按钮；图画可不只有颜色，还有声音、味道和触感；还有散发香味的盒子；山一样高的楼房，五彩缤纷。那儿每个人都很开心，不会有人哀伤或愤怒。每个人都属于其他人。还有些盒子是让你看到听到世界另一头发生了什么，还有瓶子中的婴儿——全部都洁净如新，没有恶臭，没有污垢，没有人觉得孤独，大家其乐融融生活在一起，像这里的夏令舞会一样。但一切都比这要快乐得多，每天都要快乐得多……他听着，时间一小时一小时地流逝。有时，他跟小伙伴们玩累了，也会去听村落里的老人讲故事。讲伟大的创世者的故事；讲右手跟左手、干和湿之间的长期斗争的传说（即西方密教的传说中代表正义的白魔法与代表邪恶的黑魔法的斗争）；讲晚上一动思想就出了大雾，然后又把全世界从雾里救出来的阿沃纳微罗那（他是祖尼印第安人神话中的造物者）的故事；讲地母和天父的故事；讲阿海雨塔和玛塞列玛（他们都是阿沃纳微罗那所造）——代表战争与机遇的孪生子；讲耶稣和菩公的传说；讲玛利和伊萨娜乐琪女神让自己青春重现的故事；讲拉古纳的黑石头和艾可玛的大鹰和圣母。尽是些不着边际的故事，由于是用另外的语言讲述，而且又听不大懂，所以他甚至觉得这些故事更有趣。他时常趴在床上幻想着天堂、伦

敦、艾克马圣母、一列列小宝宝躺在消毒瓶里。天空中有耶稣，也有琳达，还有世界培育中心的主任，伟大的阿沃纳微罗那也在一起飞翔。

后来，越来越多的男人都过来找琳达。孩子们开始对他指指点点，他们用那陌生语言说琳达不是好人。他们侮辱她，他虽听不懂，却明白那不会是好话。有一天他们唱起歌来，内容是关于琳达的，一遍又一遍地唱。他拿石头扔他们，他们也毫不客气地回扔他，一块锋利的石头砸伤了他的脸，血开始不住地往外流，染得全身都是……

小时候琳达指导他认字，她在墙上用一块木炭绘画——有只小动物趴着，瓶子里装着一个婴儿，然后她简单地写了几个字：垫子上的小猫咪，瓶子里的小朋友。他很快就学会了，很容易。墙上所有的字他都学会后，琳达开启了她那大木箱，一本薄薄的册子藏在她那未曾穿过的滑稽红色短裤下。这本书，他之前也见过好几次。“当你成年了，”她说，“就可以读这本书了。”如今他终于长大了，这让他觉得很光荣。“你可能不喜欢这本书，”她说道，“但我的东西就只剩它了。”她长叹口气，“如果你能见着我们在伦敦常用的那些朗读机就更好了！”他开始朗读：《胚胎的条件设置——化学与细菌学》、《胚胎库工作守则——贝塔人员》。念个标题就用了十五分钟的时间。他把书甩到了地上，哭闹了起来：“讨厌，讨厌的书！”

孩子们依旧唱着那首关于琳达的歌曲，他们还经常讥笑他那破烂不堪的衣服。琳达根本不懂缝补，只好任由衣服破着。琳达跟他说如果在“那边”，只要是衣服破了点口子，一定要扔掉买新的。“破乞丐，破乞丐！”孩子们朝他嚷着。“但是我可以念书识字，”他想着，“他们不行，他们根本就不知道什么是读书。”每当他被嘲笑时，他只要专心想着还可以读书，便可以装着根本不在意他们的所作所为。所以，他又从琳达那要回了那本书。

孩子们越是对他指指点点，越是唱那首可怕的歌，他就越是勤奋。很快就能念出所有的字，就连最长的字符也不例外。可是这些词都代表着什么呢？每次问琳达，她都解释不清楚。其实绝大部分时候，她根本不知如何解释。

“化学药剂是什么意思？”他有时会问。

“哦，好比是镁盐，又或是一种酒精，能使德尔塔和伊普西龙瘦小、低智；再或是诸如用来制造骨头的碳酸钙。”

“可化学药品是如何生产的呢，琳达？从哪儿来的？”

“这我不清楚，每次我们都是直接从小瓶子里倒出来，用完了就再去仓库拿。我估计是产自仓库的人做的。不过也可能是他们派人去工厂那里拿来的，我真不清楚。我不是研究化学的。培育胚胎才是我的工作。”类似的问题他问了很多，但都没从琳达那得到过答案。反而村子里的老人却不同，他们的答案要明确得多。

“阿沃纳微罗那用繁衍神雾造出人和一切生物的种子，太阳的种子，大地的种子，天的种子。有四个子宫存在这世界上，在最低的子宫里放入这些种子。渐渐地，种子便开始发芽……”

一天（约翰事后推算应该是在他刚刚过完十二岁生日时），他在卧室内看到一本此前从未见过的书。厚厚的一本，式样很古老，封皮已经被老鼠啃烂了；部分书页掉了下来，皱在一起。他弯腰拾起来，翻了翻，书名是《威廉·莎士比亚全集》。

琳达还趴在床上休息，正呷着一杯散发着恶臭的龙舌兰酒，“是波佩带过来的那本书。”她说。嗓音粗糙沙哑，听着根本就不像是她的声

音。“原本存放在羚羊圣窟一个箱子里的这本书，一放就是好几百年。这也就配放在箱子里，我翻看了几页，里边竟是些胡诌八扯的东西，根本谈不上文明，但用来教你读书识字倒是不错。”最后一口下肚，顺手将杯子放在床下，扭身打了几个嗝，便睡着了。

他随便翻看着这本书，只见上面写道：

“不，生活在一张汗臭冲鼻、充满油垢的温床里；

只知道在腐堕里翻腾，在龌龊的猪窝里寻欢做爱。”

那些奇怪的话在他脑海中翻腾，犹如雷神激怒的咆哮；犹如夏令舞会上的鼓语——若是大鼓亦能言语的话；亦如男人激情演唱的玉米之颂，美妙！美妙！妙不可言，催人泪下；有如老米西玛对着他的羽翎，雕花手杖和碎石骨所念的咒语——卡萨拉，斯鲁，塞罗畏，塞罗畏，塞罗畏，嘅阿，斯洛，斯洛，斯色洛——但这又比米西玛的咒语要更神妙，内涵更深，因为那似一种互动，如在跟他对话；又叙述得如此精妙，让人似懂非懂，简直是一种美丽得慑人的咒语；这个叙述与琳达有关，那个躺在那儿打呼噜的琳达，还有床铺旁边地板上的空杯。它说的是琳达与波佩，琳达与波佩……

他越发的痛恨波佩。“有人能笑呀笑的，但仍然是个恶棍……一个不知悔改的、奸诈的、荒淫的、没有人性的恶棍。”这些句子要表达出什么意思？他仿佛知道却又不能完整地理解其中的意思，但是这个“咒语”强烈地吸引着他，如雷鸣般地刺激着他的每一根神经。他恍然醒悟，自己不曾真正地痛恨过波佩，因为他根本不知道如何描述他的恨意。此时他有了这些“咒语”，好似鼓声、歌声、巫术。这些“咒语”以及这个光怪陆离的故事（虽说他看不懂内容，但依然觉得精彩纷呈），这

让他有了痛恨波佩的原因，让仇恨变得真实了，也让波佩本身更真实了。

一次，他玩耍后回到家，屋子的门敞开着，只见两人睡在一张床上——白白的琳达和在她对比下简直像黑炭一样的波佩。琳达枕着波佩的胳膊，乳房上是波佩的另一只手，他长长的辫子缠住了她的脖子，好像一条想要勒死她的黑蛇。床边的地板上放着波佩的葫芦和一个杯子。琳达鼾声四起。

他的心仿佛瞬间蒸发了，剩下一个洞。整个人被挖空了，空洞冰冷，他感到头晕恶心，整个世界都在转。他靠在墙上，“不知悔改的、奸诈的、荒淫的……”这些话在他脑海中反复回荡，回荡，如同激昂的鼓点，如慷慨玉米之颂，如神奇的咒语……忽然，他的身体由冰冷转为燥热，一股热血燃上了他的脸颊，眼前不停旋转的屋子，越来越暗。他咬紧牙齿愤愤说道：“我要杀了他。杀了他，杀了他！”突然更多的话语冒了出来：

“让我寻个更好的机会：当他烂醉如泥、大发雷霆、淫榻寻欢……”

“咒语”与他在一条战线上同仇敌忾，咒语能解释一切并发号施令。他退出到屋子外。“当他烂醉如泥……”那火炉边的地板上就摆把切肉的刀子。他顺手抄起刀轻声走向屋前。“当他烂醉如泥，烂醉如泥……”他冲进屋去，直直地一刀插了进去，啊，血！——紧接着又是一刀。波佩从熟睡中惊醒过来，一把截住了他准备再次行刺的手，他的手腕被举了起来——哦，哦！被反拧开来。他再也动不了，已被降住了。波佩逼近他，用他那乌黑的小眼睛死死地盯着他的眼睛。他扭过头，看着别处，那两道伤口清晰地印在波佩的左肩上。“啊，看！血！”琳达在叫道，“有血！”她一直都不能直视流血的场面。他的另一只手被波佩举起

——波佩要揍他，他心想着，于是挺直了身躯，等着被揍。但是那手只是扶正了他的下颚，好让他的脸转过来直视波佩的脸。他俩始终这么对视着，几小时后接着又是几个小时。这时，他忍不住哭了出来——因为他实在熬不住了。波佩大笑了起来，“走吧”，另一种印第安语从他嘴里说出，“走吧，勇敢的阿海尤塔。”约翰冲进了另外一间屋藏住他的眼泪去了。

“你已经十五了，”老米西玛用印第安话说，“现在我可以把制陶的技术传授给你了。”

于是两人一同蹲到了江边。

“第一步，”米西玛手捧一块潮湿的泥土说，“我们来把它变成月亮。”说着老头把泥土按成了一块饼，然后把饼周围的一圈立起来；月亮便成了个矮矮的杯。

他很生疏地、慢吞吞地模仿着老人。

“月亮，杯子，然后是蛇”，米西玛把另一坨泥巴搓成了一根长条，做成圆圈，粘在杯口上。“之后再做一条蛇，再一条，又是一条。”一圈圈地捏制出了罐子的边沿。那罐子本来很窄，然后鼓，到了罐口又变窄。米西玛开始挤、按、抹、割。罐子做好了，就跟最常见的水罐一模一样，只不过罐身是乳白，而不是黑色，而且摸起来很柔软。跟米西玛的罐子摆在一块，约翰的罐子是个蹩脚的山寨版。他对比着两个罐子，不由得笑了起来。

“熟能生巧。下一个会更好。”他打湿了另外的泥块。

土胚转啊转，慢慢地成型，他感觉自己的手开始变得娴熟有力——这让他找到了非同寻常的乐趣。“A，B，C 呀，维他命D，”他在自己的歌声中快乐工作，“肝脏里的脂肪，海洋中的鲟鱼。”米西玛也跟着唱了起来——不过歌词里讲的是杀熊的故事。整整一天的工作，使他体内充斥着酣畅淋漓的喜悦。

“等到明年的冬季，”老米西玛说，“让你学着做弓。”

他一直站在门外。屋子里的仪式终于办完了，人从打开的门里走了出来。领头的是科史鲁，他右手伸在前面，紧紧握着，仿佛里头有贵重的宝贝。跟在后面的是季雅纪美，同样她也伸出只手，紧紧攥着。他们静静前行，后面跟着同一辈的所有亲戚和村庄里全部的老人。

从印第安村落走出的他们，翻越了台地，最后在悬崖边上停了下来，面朝清晨的太阳。科史鲁终于张开了手，里头是一把白粉粉的玉米面，他对着玉米面一吹，低声地说了几句，然后对着太阳把手里的白色粉末撒了出去。季雅纪美也如是照做。接着是季雅纪美的父亲，他举起一根带羽翎的祈祷杖，祈祷了许久，然后把祈祷杖同玉米面一齐抛了出去。

“礼毕！”米西玛大声宣布道：“他们俩正式结为夫妇。”

“其实，”当人们转过身来时，琳达说道，“我唯一想说的是：这事也真是劳师动众。在文明世界里，一个男孩如果想得到一个女孩……喂，你要去哪，约翰？”

约翰没有理会她，只顾着跑，跑，跑，跑到一个能独自呆着的地方去。

礼毕！在他的脑子里不断重复着老米西玛的这句话。礼毕，礼毕……他爱过的季雅纪美，静静地、远远地，但亦是强烈地，义无反顾地，不带任何奢望地爱着她。可现在，一切都已经“礼毕”了。在他十六岁那年。

在月圆的夜晚，羚羊圣堂内，无数的秘密被倾听了，完成了，或诞生了。走进羚羊圣堂时还是孩子，出来时就能成为真正的男子汉。男孩们个个又害怕又期待。而那一天终于到了。

太阳已谢幕退下，月亮露出脸来，他跟几个人一同到了那儿。夜幕中，依稀能看见几个男人站在圣堂门口，梯子下面有红色的光。带头的几个男孩已经开始往下爬，一个男人突然走过来，抓住他的胳膊，把他拖出了队伍。他奋力地挣脱，躲躲闪闪地回到方才的位置。但这一次，那人打了他，扯住他的头发说：“你可没有资格参加，白毛！你这狗娘养的小杂种！”男孩们全都大笑起来。“滚！”可他还是在人群旁徘徊。“滚！”人们嚎叫道。还有人捡石头扔他。“滚，滚，滚！”一阵飞石朝他袭来。他被砸得浑身冒血，不得不跑开，躲进了暗处。随着最后一个男孩爬下梯子，那红灯闪耀的圣堂里响起了歌声，只有他被留在寂寞里。

他彻底地孤苦无依了，只身被留在村外光秃秃的台地上。月光照耀下的岩石像是褪了色的骷髅，山谷里有郊狼在对月而嚎。伤口很疼，还在流血，但他的眼泪却并非因为痛楚，而是因为孤独。只有他被赶了出来，被赶进了这个月光和岩石的骷髅世界。他在悬崖边上背着月光坐了下来，低头一片漆黑，他看到了死亡的影子。只要向前一步，轻轻一跳……他把右手伸进月光里，手腕上的伤口还在渗血，几秒钟一滴，黑色的，在死亡的月色下失去了颜色。一滴，一滴，又一滴。明天，明天，还有明天……。

他发现了时间、死亡以及上帝。

“孤独，一直都感到孤独。”小伙子说。

这话在贝尔纳心中激起悲切的共鸣。孤独，孤独……“我也是，”内心油然而生一种想要倾诉的欲望，“孤独得可怕。”

“你也会孤独吗？”约翰显然对此感到惊讶，“我还以为在‘那个地方’……琳达总是跟我说，‘那个地方’的人从来不会孤独。”

贝尔纳的脸“刷”的一下红了。“事实上，”他咕哝道，尴尬地转移开了视线，“我觉得自己跟大部分的人都不太一样。如果一个人换瓶时就跟别人不同，那自然……”

“对，就是这么回事。”小伙子点点头，“跟别人不一样就势必会孤独。人们对与众不同的人很无情。你知道吗？他们完全把我排挤到一个孤立的世界里。当其他年轻人都去山上过夜时——这是我们梦想守护兽的仪式——他们不准我跟去；也不肯告诉我任何秘密。虽然如此，我还是自己去了。”他补充道。“整整五天没有吃东西，然后某天晚上，我一个人去了那边的山上。”他指了指远处。

贝尔纳不以为然地笑了笑，“你梦到什么了吗？”他问。

他点了点头。“是的，但是我不能告诉你。”他沉默了一会儿，用低沉的嗓音说，“我曾经做过一件其他人从未做过的事：那是某天中午，炎热的夏天，我靠在一块岩石上，向两侧举起双臂，和耶稣被钉在十字架上的姿势一样。”

“那是要干什么？”

“我想知道被钉在十字架上承受暴晒是什么滋味……”。

“啊？为什么？”

“为什么？嗯……”他沉思了片刻，“因为我觉得应该这么做。既然耶稣能够承受这痛苦，我也应该做得到。再说，如果做错了什么事，就需要……还有一个原因，就是我不快乐。”

“真有趣，你用这种方法治好你的不快乐？”贝尔纳说。可他转念一想，也并非毫无道理，不管怎么说，总比依靠唆麻强……

“不一会儿我就晕倒了，”小伙子说。“脸朝下倒在了地上。你看见我当时留下的伤口了吗？”他撩起额头上一撮浓密的金发，露出了右太阳穴上的伤疤，一道灰白的褶皱。

看到伤疤，贝尔纳微微一震，迅速把脸撇开。条件设置让他对这种场面感到格外反感，而不是心生同情。只要提起疾病或者伤痛，他就会感觉毛骨悚然，甚至难受恶心，像见到什么污秽、残缺或是衰老的东西似的。他赶忙移转话题。

“你愿意跟我们一起回伦敦吗？”他问道，跨出了战争的第一步。自从在小房间里意识到野蛮人“父亲”的身份后，他就开始秘密地策划这个战略，“你想去吗？”

小伙子脸上流露出惊喜的神采。“你说的是真的吗？”

“当然，如果我能得到批准就没问题。”

“琳达也会去吧？”

“嗯……”他犹豫斟酌了一番。带那个恶心的怪物回去！不，绝对不行。除非，除非……突然，贝尔纳灵机一动，觉得她那丑恶的模样可能正是一个巨大的筹码。“那是当然！”他大声喊出来，一改他起初的迟疑，热情得过了火。

小伙子深深地吸了一口气。“真不敢相信梦想这么快就能实现，这可是我平生的梦想啊！你还记得米兰达说过的话吗？”

“米兰达是谁？”

显然，小伙子没有听到提问，而是动情地说，“啊，奇迹！”眼睛闪耀着光辉，面颊焕发出光彩。“那儿有多么美妙的生灵啊！人类多么善良！”他脸上泛起越来越深的红晕。他想到了列宁娜，一个穿深绿色粘胶衣裳的天使，花样的年华和肌肤保养品使她显得光彩照人，加之那丰腴的身材和友善的微笑……他的声音激动地颤抖。“啊，美妙的新世界！”他突然停了下来，面颊的血色褪去，苍白得像张白纸。

“你跟她结婚了吗？”他问。

“我跟她什么？”

“结婚。用印第安话说就是：永远的结合，从此再也不分离。”

“哦，弗德！没有这种事。”贝尔纳忍不住笑了。

约翰也笑了，但和贝尔纳的笑不同，他是打心眼里的高兴。

“啊，美妙的新世界，”他重复着诗颂，“有那么多出色的人！我们马上启程吧。”

“有时候你讲话的方式很特别。”贝尔纳用一种迷惑而惊奇的眼神打量着小伙子，“再说，还是等到你真正看见新世界后再下结论吧。”

第九章

经历了一整天的离奇与恐惧，列宁娜感觉自己迫切地需要来一次完整而绝对的唆麻假期。一回房间，她就马上吞下了六克半的唆麻。躺上床，十分钟不到，列宁娜已经飘向了月亮的永恒里，估计到她醒来至少还得等上十八个小时。

与此同时，在一片黑暗里，贝尔纳正瞪着眼睛，躺在床上思考，一直到凌晨时分才坠入梦乡。不过，这回的失眠可不是一无所获，一项计划在他心中悄悄地成形了。

第二天早上十点，飞机准时降落，穿绿色制服的混血儿走了出来，贝尔纳在龙舌兰丛中等着他。

“克朗小姐在享受她的‘唆麻假期’，”他解释道，“五点以前是不会醒来了。所以，我们有七个小时的时间。”

从现在到她醒来的这段间隙，足够贝尔纳先飞到圣塔菲办事，然后再飞回马尔佩斯。时间十分充裕。

“她在这儿不会有任何危险，对吗？”

“不会，我保证，就跟躺在直升飞机里一样安全。”混血儿说道。

两人登上飞机随即出发了。十点三十四分，降落在圣塔菲邮局的楼顶；十点三十七分，贝尔纳接通白厅世界总统办公室的电话；十点三十九分，他与总统阁下的四秘交谈；十点四十四分，他向总统办一秘重述

本次电话的初衷：十点四十七分半，电话里传来一个深沉而洪亮的声音，那便是穆斯塔法·孟德总统阁下本人。

“我冒昧地认为，总统阁下您会发现这件事情的学术价值，它将震撼整个科学界……”贝尔纳结结巴巴地结束了这段讲话。

“是的，我的确这么认为。那么，你把他们带回伦敦吧。”

“这样的话，总统阁下，我可能需要一张特别许可证……”

“目前我们已经向保留地总督传达相关指令，你现在出发前往他的官邸便可。再见，马克斯先生。”

电话里突然一片寂静。贝尔纳放下话筒，匆匆赶到楼顶停机坪。

“去总督官邸。”他对伽玛绿混血儿说。

十点五十四分，贝尔纳和总督握手。

“很荣幸，马克斯先生，很荣幸。”他的大嗓门里透着股尊敬的意味，“我们刚刚才收到总统办公室的特别指令……”

“我知道，”贝尔纳打断了他，“我与总统阁下的电话刚刚才结束。”那厌倦的语气暗示着这个人已习惯了与总统阁下的电话交谈，每周七天一天也不落。贝尔纳倒在椅子上，“麻烦你尽快采取所有的必要措施，一定要尽快。”他重复了好几遍“尽快”以示强调，完全沉浸在一种自我欣赏的陶醉氛围里。

十一点零三分，他的口袋里已经装进了所有需要的文件。

“再见。”在电梯口，贝尔纳向送他的总督道别，语气里透露着自以

为高人一等的味道。“再见。”

他步行回到招待所，洗了澡，按了摩，剃了胡子，听了早间新闻，看了半小时电视，再从容地享用了午餐，下午两点半才同混血儿一道飞回了马尔佩斯。

小伙子站在招待所门外。

“贝尔纳，贝尔纳！”他喊道，可是没有人回答。

他穿着双鹿皮靴，步履轻盈安静。跑上台阶，拽了拽门，门锁了。

他们走了！真的走了！这是他年轻生命里发生过的最糟糕的事情。列宁娜邀请他来，可是，他们居然走了。小伙子坐在台阶上，难过得哭了起来。

半小时后，他突然想起可以透过窗子看看里面是什么情况。第一眼他就瞄到了一只绿色的手提箱，盖子上印着两个大写字母L. C，那是主人的姓名缩写。一种欢愉在他心里像火一样地燃烧了起来。他拣起一块石头，“啪”的一声把玻璃砸碎，玻璃碎片叮叮锵锵地落到地上。片刻之后他走进屋，打开绿色的手提箱，一种香气弥漫了出来。那是列宁娜的香水味，那芬芳，是她的体香，径直沁入了他的心脾。心脏发狂地跳了起来，有那么一瞬间，他感觉似乎要晕厥过去。他俯下身，凝望着这个珍贵的绿箱子，小心翼翼地轻抚一番后，将它移到了光亮处检视。乍一看，列宁娜那条人造棉绒短裤上的拉链让他有些摸不着头脑，不过琢磨透之后，他便发现那很有意思：拉过来，拉过去，再拉过来，又拉过去……他上瘾了。箱子里还有一双列宁娜的绿色拖鞋，这是他头一回见

到如此精致的玩意儿。欣赏完拖鞋，他打开了一件带拉链的连体束身内衣，明白这东西的用途，他羞红了脸，赶紧放回了原处。接着，他翻出了一条人造丝手绢，亲吻了一下，又把另外一条围巾戴到了脖子上。然后他又看到了一个漂亮的小盒子，打开盒子时一股香粉喷了出来，满手都是。他把香粉擦在胸口上，肩膀上，胳膊上。多么怡人的香气啊！他闭上了眼，用脸蹭了蹭还残余着香粉的胳膊。又细又滑，这是他的脸碰到胳膊时的唯一感受。一股麝香的气味钻进了他的鼻孔——这是真正的她。“列宁娜，”他喃喃低语着，“列宁娜！”

不知哪里传来的声响让他吓了一跳，心虚地转过身去，急忙将刚才偷偷拿出来东西全塞回了手提箱，关上了盖子；然后仔细地听了听，看了看。没有人影，也没有声音。可他刚才确实，确实是听见了什么声音。那声音像是人在叹气，又像是木板发出的咯吱声。为了一探究竟，他踮起脚尖悄悄地走到门边，谨慎地打开门，发现门外是一处宽阔的平台，对面是另一道虚掩着的门。他穿过去，推开门，偷偷窥视了起来。

一张矮床上，列宁娜躺在中间，被子给踢开了。她穿着一件粉红色的拉链睡衣，卷发在头下散开，把面颊衬托得优雅而美丽。粉红色的脚趾，还有睡熟后安稳的神态，都像孩子般地惹人怜爱；柔软的手掌，垂落的胳膊，无助里透出了信任和坦然。这一幅画面让他眼眶里含满了泪水。

他费尽心机采取了各种措施不想吵醒熟睡中的列宁娜。其实这一切都没有必要，因为想要让一个人提前结束唆麻假期，除了开枪别无他法。他走进屋子，跪到床边，凝望着那个可人儿。下意识地，他扣紧了双手，嘴唇似乎动了一下，低语着：“她的眼睛。”

“你告诉我她是多么的美丽，

她的眼睛，她的头发，她的面庞，她的步态，她的语调……

一切洁白的东西，和她的玉手一比，

都会变成墨水一样黝黑，写下它们自己的罪行；

比起她柔荑的一握来，天鹅的绒毛都坚硬无比，……”

（莎士比亚《特洛埃勒斯与克雷雪达》）

一只苍蝇嗡嗡地飞进来，绕着列宁娜打圈。他挥手将它赶走，于是又想到“苍蝇”，

“污秽的苍蝇都可以接触亲爱的朱丽叶的皎洁的玉手，

从她的嘴唇上偷取天堂中的幸福，

那两片嘴唇是这样的纯洁贞淑，永远含着娇羞，

好像觉得它们自身的相吻也是一种罪恶……”

（莎士比亚《罗密欧与朱丽叶》）

他迟疑不定地一点点伸过手去，仿佛要抚摸一只羞怯又危险的鸟。在距离列宁娜的手指还有一寸的地方，在即将要碰到想象中那种柔软的时刻，他的手定住了，悬停在空中，不住地颤抖着。他有勇气去碰触吗？他有勇气用自己卑微的手去亵渎吗？不，他没有勇气。这只美丽的鸟太危险。他的手又放了回去。她多么美！多么美！

突然，他发现自己在思考：只要顺着列宁娜的脖子轻轻地拉下睡衣拉链……他赶忙闭上眼，使劲摇头，就像落水狗一样来回甩着自己的耳

朵。下流的想法！他为自己感到羞愧。“.....纯洁贞淑，永远含着娇羞.....”

空气中再度传来“嗡嗡”的声音：又有苍蝇想偷取天堂中的幸福吗？难道是黄蜂？他四处张望，什么都没有。可那声音并未消失，反而渐响，离窗户越来越近。是飞机！他惊慌失措地站起来，迅速钻进另一间房，从窗口跳出去，直奔那条位于高大的龙舌兰丛间的小径。在树丛间奋力奔跑时，他看见了从直升飞机上走下来的贝尔纳。

第十章

四千个房间里，四千座电钟的指针齐齐指向了两点二十七分。这是在布鲁姆斯伯里中心，也就是主任口中的“蜂巢工厂”。工人们像勤劳的蜜蜂“嗡嗡”地忙碌着，每个人都各司其职、有条不紊地工作。显微镜下，精子兴奋地甩着长尾巴，争先恐后地往卵子里钻。受精后，卵子渐渐膨胀、分裂。经过波卡化的卵子则会出芽并分裂成一大群各自独立的胚胎。命运设定室通过隆隆作响的自动扶梯驶进地下室。暗红的灯光下，胎儿躺在冒着热气的腹膜垫上，贪婪地摄入代血浆和荷尔蒙，一点一点地长大。部分胎儿根据设定接受毒素，生长进程和速度被压抑，继而发育成矮小愚钝的伊普西龙。瓶架发出细微的嗡鸣声和咔哒声，那是新生命在艰难而缓慢的蠕动，一周又一周，仿佛永恒一般漫长。直到成熟的那一天，新生儿们在换瓶室里发出人生中第一声惊恐而好奇的尖叫。

地下室再下面一层，发电机轰隆隆地响着，电梯快速地升降。整整十一个楼层的育婴室里安置着一千八百个婴儿，他们身上都小心地贴好了标签。哺乳时间到了，婴儿们像接受到指令，同时从一千八百个奶瓶里吮吸起巴氏消毒过的外分泌液体，分量是一品脱。

育婴室往上的十个楼层都是宿舍。尚年幼的男童和女童还需要午睡，但是他们实际上并不比其他人清闲。他们并没有意识到，自己在睡梦中也在孜孜不倦地学习：他们听着睡眠教学中的各类课程，涉及卫生保健、社会交际、阶级意识以及儿童爱情生活。再往上走便是幼童娱乐室，这会儿天气转变为下雨，九百个稍微年长的儿童兴趣盎然地堆积

木，捏橡胶泥，还有的在玩“找拉链”和性爱游戏。

“蜂巢”的嗡嗡声歌唱着忙碌而欢快的生活。姑娘们照料试管之余无忧无虑地哼歌，命运设定工边工作边吹口哨。换瓶室的空瓶上方，工人们谈笑风生，好不快活！然而，与亨利·福斯特一起进入受精室的主任却是一脸严肃，皮肤绷紧得像木头。

“这个车间是社会的榜样和模范。”主任说。“要知道，这屋里的高种姓人员比中心的其他任何部门都多。我让他两点半来这里见我。”

“他的工作表现还不赖。”亨利虚伪地表现自己的宽容和公正。

“这我承认，但正因如此更应该严格要求他。拥有过人的才智，就必须受到更多道德责任的约束。想想看，越有本事的人就越有能力煽动他人走上邪路。与其让大伙都被影响和玷污，不如让一个人吃点苦。福斯特先生，抛开感情因素考虑这个问题，你会明白，一切过错都不像异端思想那么不可原谅。杀人犯只不过能毁灭个别人的生命，而个别人的生命有什么价值？”他扬起手臂指了指一排排显微镜、试管和培育器。“创造生命是轻而易举的事，只要我们愿意，想造多少就造多少。可是，离经叛道的行为不仅仅威胁个别人的生命，更能严重打击整个社会。对，受害者是整个社会。”他再次强调。“啊，正好来了。”

贝尔纳走进屋，在一排排授精员的空隙中向他们走来。他摆出一副毫无顾虑、自信满满的表情，以掩饰心中的紧张不安。“早上好，主任。”他问好的声调高得有些滑稽，为了弥补这个失误，他补充道：“你要我来这里跟你谈一谈。”可这次的声音却柔和得离谱，像老鼠吱吱叫。

“对，马克斯先生。”主任神情倨傲地说，“我的确要求你来见我。”

我知道你度完假回来了，昨天晚上到的。”

“是。”贝尔纳回答。

“是——是。”主任拉长尾音重复了一次，像蛇一样发出嘶嘶的声音。随即张大嗓门说，“女士们，先生们，”声音像小号一样嘹亮激昂，“女士们，先生们。”

姑娘们的歌声和显微镜操作员的口哨声戛然而止，房间忽然静得可怕，所有人都疑惑地环顾四周。

“女士们，先生们，”主任再次重复道，“很抱歉打断了各位的辛勤劳动。我肩负着沉重的社会责任，所以必须做出一个痛苦的决定。因为，我们社会的安全和稳定岌岌可危。是的，岌岌可危！女士们，先生们。”他指着贝尔纳愤愤地说，“现在站在你们面前的这个阿尔法加，接受了许许多多的社会福利，本应该为集体做出卓越的贡献。然而，你们这位同事——我还是提前称呼他为‘前同事’吧——无耻地辜负了大伙对他的信任。他对娱乐活动和唆麻的看法严重违背社会纲常；他无视正统性爱观，过着为人不齿的性生活；他拒绝遵循我主弗德的教诲，常常违反‘下班后保持婴儿状态’的原则（主任边说边比划了一个T字）。这一切都有力地证明他已经成为社会的敌人，成为秩序和稳定的颠覆者，成为文明的背叛者。女士们，先生们，出于上述原因，我严正提议开除他，撤销他在本中心的职务，让他声名狼藉。我建议立即向上级请示，把他调到最低层次的下级中心去。为了最大限度地维护社会利益，最好加重惩罚，把他送到远离文明核心的地方去，越远越好。到了冰岛，他就穷途末路了，再也不能煽动他人背叛光明的弗德。”主任停下来，双手交叉在胸前，盛气凌人地转向贝尔纳。“马克斯，”他说道，“对于我给你的处分，你有什么疑义吗？”

“我有。”贝尔纳的声音特别响亮。

这反应让主任有些吃惊，不过他依然保持了上级的威严：“请说。”

“当然我会说的。只是，不是现在。我的理由马上就出现，请各位稍安勿躁。”贝尔纳跑到门边，用力将门打开，向外头的什么东西命令道：“进来。”贝尔纳口中的“理由”终于出现在了大家面前。

抽气声此起彼伏，显然所有人都被吓倒了，惊讶和恐惧使屋子里响起了阵阵私语。一个年轻的姑娘开始尖叫；另一个人因为距离太远看不真切，于是站上椅子，却不慎打翻了两根精子试管。引起轰动的是一个肥胖松垂的身影，那是走进来的琳达。在这群人的青春躯体和精致面庞的衬托下，她成了突兀可怕的中年妖怪。虽然她努力地想让脸上的微笑多一些风情，可一切只是徒劳，那微笑依然破碎而苍白。走路时她摆动着腰肢自忖性感迷人，却不知那过于硕大的臀部上下翻动，十足令人倒胃。贝尔纳一直跟在她的旁边。

“就是他。”贝尔纳指着主任。

“难道你认为我会认不出他？”琳达愤愤不平道，然后转过身面朝主任，“我当然认得出你，托马金。不管你在哪儿，即便你混在一千个人里面，我也能一眼认出你来。不过，你可能把我给忘了。你记得吗？记得我吗，托马金？我可是你的琳达。”她站在那儿凝望着他，头歪向一边，脸上仍然带着微笑。不过在主任脸上分明的僵硬与厌恶前，那微笑越来越不坚定，开始动摇，最后全部消失。“难道你当真记不起来了，托马金？”她重复道，语带颤抖，眼神里充满了焦躁和痛苦。那张长斑下垂的老脸慢慢扭曲，变成了一副悲痛欲绝的怪相，很有些滑稽。“托马金！”她伸出双臂深情唤道。人群中传出了窃笑。

“这是在干吗？”主任问道，“这个丑陋的……”

“托马金！”她向前跑来，拖着毛毡，甩出手臂搂住他的脖子，最后把脸埋进了他的胸膛。

哄堂大笑。

“……这种下流的恶作剧太卑鄙了！”主任大吼道。

满脸通红的主任试图挣脱，却被死死地搂住。“我是琳达，我是琳达。”她的话语被满室的笑声盖过。“你让我怀了个孩子！”她终于尖叫道，现场的骚动一下子消失了，取而代之的是一种可怕的寂静；每个人的目光都游移不定，不知该停在哪儿。主任脸上一片苍白。他突然忘记了挣扎，静静站着，抓着琳达的手腕，低头盯着她，整个人都呆滞了。“是的，一个孩子，我就是他的母亲。”她有些故意地把这个粗俗词汇扔进了满室的寂静里，像在接受某种挑战一样。然后她猛地推开了主任，双手掩面，羞耻地哭了起来。“不是我的错，托马金。我从来不会忘记做操，你记得吗？是不是？从来不忘……我不知道怎么会……你能想象那有多么恐怖吗？托马金……但儿子对我也是种安慰。”她转身对着门外喊道，“约翰！约翰！”

约翰在门口往里看了一圈，踏着鹿皮靴安静地穿过房间，迅速来到了主任身前。他“扑通”一声跪下，清楚地叫了声：“父亲！”

这个可笑的下流字眼却意外地缓和了屋子里的紧张。（因为“父亲”的言外之意与生育并无太多关联之处，没有道德上的堕落感，也就没那么令人憎恶。可以说，这个词粗俗却还不至于淫秽。）这一回爆发的哄堂大笑近乎到了歇斯底里的程度。不间断的笑声让人不禁开始怀疑它是否有结束的时候。父亲——主任！主任——父亲！我主弗德！这一

幕简直太精彩了！喧闹声、哄笑声，一波接着一波，嘴都快笑裂了，眼泪已经笑了出来。又有六支精子试管被打翻了。

“我的父亲！”

主任脸色惨白，神色几近疯狂。他怒气冲冲地瞪着约翰，内心却感受到一种被羞辱的痛苦。

“我的父亲！”渐渐平静的人群因为这句话又爆出满堂笑声，甚至比之前还要喧闹。主任捂住耳朵冲出了房间。

第十一章

受精室“神奇一幕”后，伦敦简直热开了锅，高等种姓都急不可待地想看看这个奇妙的野蛮人：他居然给培育与条件设置中心主任下跪了。或者应该说前主任，因为这可怜人随后就辞了职，从此再没有踏入中心半步。野蛮人“扑通”一声跪在他面前叫“父亲”，这个笑话简直精彩得难以置信！琳达倒是没有引起轰动；没有人对她感兴趣。称呼一个人为妈妈，已经远远超过了恶作剧的底线，是绝对的亵渎。况且，她并不是一个真正意义上的野蛮人，像其他人一样，她从瓶里培育出来，然后接受条件设置，不会有什么异于常人的稀奇想法。但说到底，人们不愿意去看琳达的最大原因在于她糟糕透顶的外形：肥胖臃肿，毫无青春气息，满口七零八落的坏牙，晦暗的皮肤上布满斑点。更别提那身材了，天哪！你看到她一定觉得反胃。聪明人是坚决不会去见琳达的。而琳达自己呢，也没有兴趣去见那些人。对她来说，得到唆麻就像是回归到文明，只想终日躺在床上，度过一个又一个假期，不用忍受头疼和呕吐带来的煎熬，也不会像喝了佩瑶特后那样难受：仿佛犯下了大逆不道的罪行，耻辱得再也抬不起头。唆麻不会带来任何不适，它给予的假期绝妙无双。如果假期过后的那个早晨感到低落，也不是真正的感觉，而是相比之下不像唆麻假期中那样逍遥自在罢了。缓解低落的办法就是延续唆麻假期。琳达贪而无厌地要求加大剂量，而且服用得越来越频繁。肖医生起初不赞同，最后还是满足了她的要求，她每天的服用量居然多达20克。

“这样下去，她最多还能活两个月。”医生向贝尔纳吐露实情，“终有一天，她的呼吸系统会瘫痪，直到停止呼吸死亡。这倒也不是坏事。

如果我们能返老还童，谁都愿意重获青春。可惜我们做不到。”

当所有人都对琳达的唆麻假期毫无异议时，约翰出乎意料地提出反对。

“给她这么大剂量的唆麻，不是要缩短她的寿命么？”

“某种意义上来说，是这样，”肖医生承认，“但是换个角度来看，我们是在延长她的寿命。”小伙子疑惑不解地盯着他。“唆麻确实会减短几年寿命，”医生继续说，“但是想想看，它超越现实时间带来的岁月的延续，长到无法计算。每一个唆麻假期，都是我们祖先口中的永恒。”

约翰慢慢明白了。“原来永恒只在口中和眼里。”他嘀咕着。

“你说什么？”

“没什么。”

肖医生继续说：“对于那些有重要工作的人，我们当然不能让他们随意离开到永恒去。可琳达并没有任何重要工作，不是么？”

“尽管如此，”约翰坚持地说，“我还是反对这么做。”

医生耸了耸肩。“好吧，也许你希望听她一直疯狂地尖叫……”

最后，约翰不得不让步。琳达如愿得到了唆麻。从那以后，她再也没出过三十七楼贝尔纳公寓的小屋，终日躺在床上，永远开着收音机和电视机，广藿香油不停的滴着，唆麻药片放在触手可及的范围内——她的肉体呆在那里，可灵魂仿佛早已经神游到渺远的地方，一个虚无的异世界。在那里，收音机里的音乐像是一个奇妙多彩、惊险刺激的迷宫，

曲折蜿蜒地通向绝对信仰的中心；在那里，电视机中舞动的身影美轮美奂，演员们的歌声悠扬迷人；在那里，天竺薄荷尤为芬芳，那感觉像太阳，像百万支萨克斯管合奏，更像是和波佩做爱时的愉悦，甚至比那还要美妙，美妙得无可比拟，没有尽头。

“确实，我们做不到返老还童。”肖医生总结道，“但有机会看到人类衰老的样本真是一件乐事。感谢你让我过来。”他热情地跟贝尔纳握手。

从那以后，约翰成为了唯一的关注焦点。人们只有通过他的正式监护人贝尔纳，才能与约翰会面。贝尔纳现在发现，自己不仅生平以来首次受到正常对待，还成为了至关重要的大人物。再也没有人说他的血液替代品是酒精了，也再也没人嘲笑他的外貌。亨利·福斯特也罕见地对他示好；贝尼托·胡佛送给他六盒性激素口香糖作为礼物。命运预订助理为了能参加贝尔纳举办的晚宴，不惜卑躬屈膝请求邀请函。至于那些女人们，只要得到贝尔纳邀约的暗示，就争相投入他的怀抱。

“我收到贝尔纳的邀请了，下周三和野蛮人见面。”法妮带着胜利的口吻宣布。

“我太高兴了，”列宁娜说，“现在你得承认之前错看了贝尔纳。他其实很可爱，不是么？”

法妮点点头。“我还得承认，我为此感到很惊喜。”

装瓶主任、命运预测总督、受精指挥官的三个副助理、情感工程学院的感官教授、威斯敏斯特社区合唱团负责人、波卡化主管……总之，贝尔纳的贵宾名单没完没了。

“我上周得手了六个姑娘，”他向亥姆霍兹·沃森透露，“星期一一个，星期二两个，星期五又两个，星期六一个。如果我有更多时间，或者更有兴趣的话，至少还有十来个姑娘排着队等着……”

听着他自吹自擂，亥姆霍兹只是阴着脸沉默不语，这让贝尔纳很生气。

“你嫉妒我”，他说。

亥姆霍兹摇了摇头，“我只是有点悲伤”，他回答说。

贝尔纳气呼呼地走了。他对自己说，以后再也不和亥姆霍兹说话了，再也不。

时光一天天流逝，成功冲昏了贝尔纳的头脑。他就像喝了一杯醉人的美酒，与那个他曾经不满的世界一笔勾销了冤仇。只要他被当做重要人物，一切秩序就都是美好的。但是，尽管他个人的成功使他与社会秩序和解了，他不会放弃批判社会的特权。因为批判这种行为让他感到自己更加重要和伟大。况且，他是真的认为有些事情值得批判（同时，他也真的很喜欢做一个风云人物，拥有美丽的姑娘）。在那些为了野蛮人而向他谄媚的人面前，贝尔纳总是摆出一副吹毛求疵、离经叛道的模样。人们当他面只是礼貌地听着，背后都摇着头说：“那小子最后总会倒霉的。”他们议论纷纷，充满信心地预言自己早晚会见到贝尔纳的悲惨下场。“到那时，再也没有第二个野蛮人来帮助他了。”话虽这么说，只要第一个野蛮人还在那，他们就得保持表面的客气。如此一来，贝尔纳越发觉得自己特别伟大，快活得飘飘然，简直飞上了云层。

“快活地飞上云层。”贝尔纳指着天空说。

如同天空中的一颗珍珠，气象部门的探测气球高高飘着，在阳光中闪烁着玫瑰色的光芒。

“.....向所谓的野蛮人，”贝尔纳指点地说，“展示了文明生活的各个方面.....”

现在向野蛮人展示的是现代文明生活的鸟瞰图：从切林T字形塔楼上俯视的景象。站长和气象学专家为他做向导，贝尔纳却滔滔不绝，他极其兴奋，表现得像一个正在参观的世界总统。他又飘飘然了。

从孟买来的绿色火箭从空中降落，乘客们走了出来，乘务员从八个舷窗往外看着——是八个一模一样的达罗毗荼多生子，穿着卡其色制服。

“每小时一千二百五十公里，”站长不无自豪地说，“野蛮人先生，你觉得如何？”

约翰觉得挺不错。“不过，”他说，“埃里厄尔四十分钟就能绕地球一圈。”

“野蛮人，”贝尔纳在给穆斯塔法·孟德的报告中这样写道，“对文明社会的各种发明一点儿也不感到惊奇或是敬畏。当然，有部分原因在于一个叫琳达的女人讲述过这些。琳达是他的母.....”

(穆斯塔法·孟德皱了皱眉，“这个蠢家伙难道以为我就如此脆弱，连看到完整的‘母亲’一词都受不了么？”)

“另外，他的注意力集中在一种被他称作‘灵魂’的东西上，他坚称那是一种脱离物质环境而独立存在的实体。然而，我试图向他解释.....”

总统快速掠过后面的几段，正想翻页找出一些更具体有趣的内容，忽然，他的目光被一连串不同寻常的话吸引住了。“.....但是我必须承认，”他读出声来，“在这点上我和野蛮人意见一致。那就是，文明时代的婴幼儿时期确实过于简单，就像他说的，不够昂贵。我想借此机会，向阁下建议.....”

一瞬间的愤怒后，穆斯塔法·孟德猛地大笑起来。这家伙竟然一本正经地给总统上起课来了，还说什么社会秩序过于荒诞不经，他是疯了吗？“我得给他点儿教训，”他自言自语道，然后仰头大笑了起来。就目前而言，还没有教训他的必要。

他们来到一个生产直升飞机灯具的小工厂，是电力设备公司的分公司，在屋顶见到了前来接待的技术主管和人事经理（总统的推荐信具有奇效）。他们走下楼梯，进入工厂。

“每一个环节，”人事经理解释着，“都尽可能由一个单独的波卡小组负责。”

实际上，八十三个圆头圆脑，黑皮肤，几乎看不见鼻子的德尔塔人负责冷压缩；五十六个姜黄皮肤，鹰钩鼻的伽玛人熟练操作着五十四个四轴车床；一百零七个被设置为耐高温的塞内加尔伊普西龙人在铸造车间工作；三十三个茶色皮肤，长脸，窄盆骨，身高一米六九（误差不超过二十毫米）的德尔塔女人负责拧螺丝钉。集装室内，两组伽玛加侏儒把发电机都归集到一起。两张矮工作台面对面的放着，中间的传送带上正传送着零件；四十七个金发白肤的工人面对着四十七个棕发工人；四十七个塌鼻子的工人对着四十七个鹰钩鼻的工人；四十七个下巴后缩的工人对着四十七个下巴突出的工人。完成的机件由十八个长得一模一样的伽玛女孩儿检查，她们留着棕色卷发，身着绿色制服。然后由三十四

个短腿的左撇子德尔塔打包装箱，再由六十三个亚麻色头发、蓝眼睛、长雀斑的伊普西龙傻子搬运到等候的货车上去。

“啊，美妙的新世界……”记忆仿佛在恶意地开玩笑：野蛮人发现自己正背诵着米兰达的诗颂，“美妙的新世界，有这样的人在里头！”

“我向你保证，”当他们离开工厂的时候，人事经理总结道，“我们的工人从来不惹事。我们总是发现……”

野蛮人突然离开那些陪同参观的人，到灌木丛后剧烈地干呕起来，仿佛坚实的大地变成陷入大气漩涡中的直升飞机般颠簸摇晃。

“野蛮人，”贝尔纳写道，“不愿服用唆麻，而且因为他的母……琳达一直处在唆麻假日中，显得特别悲伤。有一点很有趣，尽管他母……的衰老状态和丑陋外貌极其令人厌恶，野蛮人还是频繁地看望她，并且流露出深刻的依恋之情——这例子很有意思，说明了早期条件设置可以改变甚至战胜天然冲动（此例中为躲避丑恶事物的冲动）。 ”

他们降落在伊顿公学的屋顶上。学校操场的对面，五十二层高的卢普顿大楼在阳光的照耀下闪着白光。左边是一间大学，右边是学校社区合唱厅，安装着庄重的钢铁架构和维他玻璃。在广场的正中央，矗立着一尊铬钢制作的，古色古香的弗德像。

下飞机后，学院院长加夫尼博士和女主任济慈小姐接待了他们。

“这里也有很多多生子吗？”参观开始前，野蛮人忐忑不安地问。

“不多，”院长回答，“伊顿只接收上层阶级家庭的孩子们。一卵只能长成一个成年人。当然，这让教育变得尤为困难。但是，我们没得选择，他们将来是要身负重任的，还要处理突发事件。”他叹着气说。

与此同时，贝尔纳已经对济慈小姐浮想联翩。“如果你哪个周一，周三或周五晚上有空的话……”他边说边用手指戳了野蛮人一下，“你知道，他很古怪，”贝尔纳又加了一句，“怪得很稀奇。”

济慈小姐笑了（这笑容在他眼里着实迷人），说了句谢谢，并表示愿意去参加他的晚宴。这时，院长打开了一扇门。

在阿尔法双加教室里，约翰度过了迷惑不解的五分钟。

“基本相对论是什么？”他小声问贝尔纳。贝尔纳试图解释一下，但马上改变了主意，建议他们先去别的教室看看。

在走廊上，能听到贝塔减地理教室门后一个洪亮的女高音在叫喊，“一、二、三、四，跟着我做。”声音中带着疲倦和焦躁。

“这是马尔萨斯体操，”女主任解释着，“当然，我们这里大部分女孩儿都不能生育，我自己就是。”她对贝尔纳一笑，“但是我们还有大约八百个未绝育的女孩儿，她们需要定时做操。”

在贝塔减地理教室，约翰了解到：蛮族保留地是不值得去耗费精力文明化的地区：那里气候和地理条件恶劣，或者自然资源匮乏。“咔哒”一声，百叶窗关上了，房间暗下来；老师头顶的屏幕上，展出了阿科马的忏悔者拜倒在圣女像前的影像。约翰曾听过他们痛哭，在基督十字架和菩公的鹰形图案前忏悔罪过。年轻的伊顿学生们哄堂大笑。忏悔者们依然在痛哭，然后站起身来，脱掉外套，用带有绳结的鞭子一下一下地抽打自己。即使忏悔者们痛哭和呻吟声渐长，但还是被更大的笑声淹没了。

“他们为什么要笑？”野蛮人悲痛而困惑地问道。

“为什么？”院长向他转过身，露齿而笑，“为什么？因为这的确太好笑了。”

在屏幕的微光下，贝尔纳冒险采取了一个行动，要是放在以前，即使在完全漆黑的情况下，他也不敢做。仗着他自以为傲的重要身份，他伸出手臂搂住女主任的腰。柳腰轻摇了下，屈服了。他正想趁机偷偷亲吻她一两下，或者掐她一把，百叶窗“咔哒”一声又打开了。

“我们继续参观吧，”济慈小姐边说边向门口走去。

过了一会儿后，院长说：“这儿是睡眠学习控制室。”

成百上千个合成音乐盒，每个宿舍一个，排列在三面墙边的架子上；第四面墙边的鸽笼式文件柜里是录音带，收录了睡眠学习的课程录音。

“把录音带放进这里，”贝尔纳打断了加夫尼博士的话，解释说，“按下这个开关……”

“不对，是那边的开关。”院长愠怒着纠正。

“好吧，那个开关。录音带就打开了，硒电池将光脉冲转换为声波，然后……”

“然后你就能听到了。”加夫尼博士总结。

“他们会读莎士比亚的作品么？”他们在去生物化学实验室的半途路过了学校图书馆，野蛮人问道。

“当然不”，女主任红着脸说。

“我们的图书馆，”加夫尼博士说，“只有参考书。年轻人若是需要消遣娱乐，可以去感官剧院。沉溺于单独的娱乐活动可不是好事。”

五辆校车从他们身边的玻璃化公路上驶过，上面载满了孩子，有的在唱歌，有的在安静地拥抱。

“这些学生刚从泥沼火葬场回来，”加夫尼博士解释说。此时贝尔纳正偷偷地与女主任定下了特别之夜的约会。“他们从十八个月大时开始接受死亡条件设置。孩子们每周都要花两个早上的时间去医院上课，那里面有最好的玩具，接受设置的那些天，他们会得到巧克力奶油点心。他们学着把死亡视为是理所当然的事。”

“和其他生理过程一样。”女主任专业地补充道。

约会定好了，八点钟在萨伏伊。

回伦敦的途中，他们在布伦特弗德的电视公司工厂前停了下来。

“你不介意等我一下吧？我去打个电话。”贝尔纳问。

野蛮人边等边看着。正好到了早晚换班时间，低等种姓的工人们正在单轨火车站门前排队，大约有七八百个伽玛、德尔塔和伊普西龙男女，却只有十来种不同的面孔和身高。售票员递车票的时候，会顺带递过一个小纸盒。长长的队伍正缓慢地向前蠕动。

“那里面是什么？（想起了《威尼斯商人》）那些纸盒里。”野蛮人向刚刚回来的贝尔纳打听。

“一天用量的唆麻，”贝尔纳含糊不清地回答。因为他正在咀嚼贝尼托·胡佛送给他的口香糖。“下班后领取，四粒半克药片，星期六能得到

六粒。”

他亲切地拉着约翰的手臂，向直升机走去。

列宁娜欢快地哼唱着走进更衣室。

“你看起来挺高兴的。”法妮说。

“是啊，高兴得不得了。”她回答，“嘶拉”一声拉开拉链。“半小时前，贝尔纳打来电话。”“嘶拉，嘶拉”！她脱掉了短裤。“他突然邀约，”“嘶拉”！“问我今晚能不能带野蛮人去看感官剧，我得快点儿了。”她匆忙地奔向浴室。

“她真幸运！”法妮自言自语着看着列宁娜走远。

善良的法妮只是在陈述一个事实，没有丝毫嫉妒的意味。列宁娜确实很幸运，她和贝尔纳共享了野蛮人的盛名。原本不起眼的她立刻反射出时尚的光辉。青年妇女弗德协会的秘书不是已经邀请她做过一次演讲了么？爱美神俱乐部不是已经邀请她去参加年度晚宴了么？她不是已经上感官新闻，有形有声地出现在全球无数人面前了么？

显赫人物对她的恭维和关注也让她得意洋洋。文明世界总统的第二秘书曾邀请她共进晚餐和早餐，弗德大法官和坎特伯雷的首席歌唱家分别和她共度了周末，内外分泌公司董事长不停给她打电话，欧洲银行副董事长带她去了一趟多维尔。

“感觉妙极了，但是有时我觉得自己像在糊弄人。”她向法妮承认，“因为，大家最想知道的自然还是跟野蛮人做爱的感觉。我却只能说

我不知道。”她摇了摇头。“大多数人都都不相信我。但这是真的。虽然我也不希望是真的，”她悲伤地叹了口气，“他英俊极了，你不觉得么？”

“他不是挺喜欢你的吗？”法妮问。

“我觉得他对我忽冷忽热。他常常躲着我。我一进屋，他就会出去；从来不碰我；甚至都不看我。但有时我突然转身，会发现他正在盯着我；你知道的，当一个男人爱上你的时候，他会用怎样的眼神看你。”

是的，法妮很清楚。

“我真想不明白。”列宁娜说。

因为想不明白，她更加困惑和失落。

“因为我喜欢他。你懂我吧，法妮？”

她越来越喜欢他。现在，正好有机会了。她洗完澡，一边给自己身上拍香粉一边想。“啪，啪，啪”——真正的机会。她愉悦的心情化成了歌声。

“亲爱的，抱着我直到我心醉；

亲吻我直到我情迷；

抱着我，亲爱的甜心；

爱像唆麻一样美丽。”

芳香风琴正在演奏一曲让人心情愉悦、耳目一新的香草狂想曲——

百里香、薰衣草、迷迭香、罗勒、桃金娘和龙蒿有节奏的翩翩起舞发出琶音；馨香的旋律经过一系列强烈的变奏融入了龙涎香，然后在檀香木、樟脑、雪松和新割干草的气息中回转（伴随着极其细微的不和谐的杂音——少许猪腰布丁和猪粪的气味），慢慢地变回最初淳朴的香气。尾音的百里香芬芳逐渐消失时，掌声响起，满堂喝彩，灯光也全都亮了起来。音乐合成音箱里的录音带开始播放。高音小提琴、超级大提琴和交替双簧管的三重奏让整个空气中都充满了惬意慵懒的氛围。三四十个小节之后，一个远远超过于人声的天籁之音开始婉转歌唱，配合着乐器旋律，时而发喉音，时而发头音，时而如笛声绕梁不绝，时而满载着和谐与渴望，毫不费力地从加斯帕德·福斯特破纪录的低音升到了极高的海豚音，比高音C调还高很多——这种具有穿透力的高音，在历史上众多的歌唱家中，只有卢克瑞嘉·阿胡加里唱出过。那是1770年，在帕尔马公爵歌剧院里的演唱，连莫扎特也为之震惊。

列宁娜和野蛮人陷在他们的充气座椅中，边嗅边听。接下来是运用眼睛和皮肤的时候了。

灯光熄灭，黑暗中漂浮着火焰般闪耀的大字：立体感观剧——《直升机里的三星期》，环绕立体声，合成对话，鲜艳多彩的立体画面，芳香风琴同步伴奏。

“紧握住你椅子扶手上的金属球形把手，”列宁娜低声说，“否则就体会不到感官效果了。”

野蛮人按她说的做了。

火焰般的字母消失了，音乐厅完全暗下来。十秒钟后，炫彩夺目、天下无双的画面突然出现：一个身形巨大的黑人和一个金发短头颅贝塔

减女人互相搂抱着，这比现实生活中的血肉之躯还要真实得多，漂亮得多。

野蛮人开始发现嘴唇上异样的感觉。他摸了摸嘴，酥麻的感觉缓解了，手一放回金属把手上，又开始酥麻。芳香风琴似乎在演奏纯净的麝香味道。录音带上，那合成的声音，像是一只奄奄一息的超级鸽子，发出“哦——哦——”的声音，每秒钟只颤动三十二次。一个比非洲贝斯还要低的声音唱和着“啊——啊——”，“哦——啊！哦——啊！”屏幕上立体的男人女人再次亲吻起来。豪华宫殿般的剧院中，六千个观众脸部的敏感地带都像通过电流般酥麻，快感和刺激几乎让人无法承受，“哦……”

故事情节非常简单。第一声“哦啊”过后几分钟后（伴随着一段二重奏，两个男女在价值连城的熊皮上激情地做爱——命运预测师助理说得太对了，每一根头发都如此的清晰可感），黑人遭遇了直升机事故，头朝下栽下去。“砰！”额头上传来剧痛，观众席不禁发出“哎哟”的声音。

头部碰撞完全改变了黑人的条件设置。他对金发碧眼的贝塔女人产生了一种近乎发狂的独特热情。女人抗拒，但黑人还是坚持，挣扎，追求，攻击情敌，最后还惊心动魄地绑架了女人。金发贝塔被迷昏带到了天上，与黑人疯子单独在一起，整整三天都在听他讲反社会的无耻言论。最后，经历了一系列的冒险和空中的翻滚打斗，三个年轻英俊的阿尔法成功解救了她。黑人被送到了成人重新设置中心。故事以金发碧眼的女人成为三个拯救者的情妇圆满结束。他们合唱了一首合成四重奏，有最好的管弦乐队伴奏，还有芳香风琴的梔子花香。最后给了熊皮一个特写的镜头，中间穿插着高分贝的萨克斯音乐。一个立体的吻消失在黑暗中，最后那点儿酥麻快感在唇上颤动，像是飞蛾扑火后留下的微光，不停颤动，越来越弱，最后慢慢平静，归于静止。

但列宁娜心中的飞蛾并没有死去。甚至直到灯都亮起来，他们随着人流向电梯走去的时候，飞蛾的幽灵仍然在她唇上振翅，在她的皮肤上探索欲望和快感的痕迹。她的脸颊绯红，用力地搂住野蛮人的手臂，贴在自己的胸前，整个人变得瘫软。他垂眸看着她，脸色变得苍白，心痛而渴望着，又为自己的情欲感到羞愧。他配不上她，配不上……他们四目交对，她那会说话般的眼睛真像是珍宝一样！那是女王的气质。他匆忙将目光移开，抽出被俘虏的手臂。他吓坏了，害怕她不再是那个自己配不上的圣洁姑娘。

“我觉得你不该看这种东西，”他说，急于把过去和未来有可能毁掉列宁娜完美形象的原因转嫁到客观环境上去了。

“哪种东西，约翰？”

“类似这种可怕戏剧的东西。”

“可怕？”列宁娜非常吃惊。“我觉得很美好啊。”

“太低俗了，”他愤怒地说，“太下流了。”

她摇摇头。“我不明白你是什么意思。”他怎么这么奇怪？怎么会突然一反常态地破坏气氛？

在计程飞机里，他几乎没看她一眼。被从未说出口的承诺束缚着，遵从着那早已不起作用的法则，他扭过身体坐着，一声不吭。他的身体有时会激烈地抽动，就像绷得紧紧的琴弦被拨动一样。

计程飞机降落在列宁娜公寓的屋顶上。“终于到了”，她走出驾驶室时高兴地想。终于到了，即使他刚才那么奇怪。站在灯下，她拿出小镜子照了照。终于到了。她的鼻子有点儿泛油光。在他付计程费时，她抖

了抖粉盒儿，在泛油光的地方补上粉。她想：“他简直太帅了，其实不用像贝尔纳那样腼腆的。要是换了别人，肯定早就上床了。好了，现在终于得手了。”镜中的自己露出了笑靥。

“晚安！”一个冰冷的声音从她身后传来。列宁娜转过身。约翰站在计程飞机的登机口处，直直地盯着她看；显然，从她开始补妆时，他就一直在看着等着。他在等什么？也许是在犹豫，试图下定决心，也许一直想，想——她猜不透他的心思。“晚安，列宁娜！”他重复道，想努力对她微笑，却只做出一个奇怪的表情。

“等等，约翰……我以为你……我的意思是，你难道不想……？”

他关上门，向前探身对司机说了什么，计程飞机飞向云端。

从窗户向下看，野蛮人能看见列宁娜扬起的脸，在灰蓝灯光的映射下显得苍白。她张嘴喊了些什么，她逐渐变小的身影急速离他而去；逐渐缩小的方形屋顶在黑暗中慢慢消散。

五分钟后，他回到自己的房间。从他藏东西的地方拿出被老鼠啃过的书，虔诚地翻阅着那脆弱褪色的书页。他在读《奥赛罗》，他记得奥赛罗是黑人，就像《直升机里的三星期》的男主角一样。

列宁娜擦干了眼泪，穿过屋顶走到电梯前。下到二十七楼之前，她拿出了唆麻药瓶。她觉得一克是不够的，一克唆麻并不足以治愈她的心痛。但是如果吃两克，可能明早就不能按时醒来。她做了折中的选择，向左手的掌心倒出了三粒半克的药片。

第十二章

紧闭的门前，贝尔纳无奈地叫喊着，野蛮人不肯开门。

“所有人都在等你。”

“那就等着吧。”门后传来模糊低沉的回答。

“约翰，你很清楚，（要让高声嘶叫具有说服力是多么困难啊！）他们是特地来看你的。”

“你应该先问问我愿不愿意见他们。”

“你以前一直都见的。”

“正是如此，所以我现在不想见了。”

“就当是为了我！”贝尔纳近乎咆哮般劝说着，“让我高兴一下不好吗？”

“不好。”

“你说真的？”

“真的。”

“我可怎么办呐？”贝尔纳绝望地哀嚎起来。

“去死！”屋子里约翰被激怒了，大声吼道。

“但是坎特伯雷的社区首席歌唱家今晚来。”贝尔纳都快哭出来了。

“哎呀塔克哇！”只有用祖尼语，野蛮人才能准确表达自己对社区首席歌唱家的感觉。“哈尼！”他想了一下又补充道，然后带着恶狠狠的嘲笑口气说：“松斯唉索切纳。”他向地上吐了一口痰，换作是波佩也会这样做。

最后，贝尔纳不得不绝望地回到他的屋里，向等得不耐烦的客人们交代：野蛮人今晚来不了。这个消息引起了众怒。男士们愤恨难平，觉得自己被骗了，以前竟然对这个卑微无用、声名狼藉、愤世嫉俗的家伙客客气气。社会地位越高的人，恨他就越深。

“竟然这样戏弄我！”首席歌唱家不停重复着，“戏弄我！”

女人们也满怀怒气，认为自己听信了假话——被那个瓶子里误加了酒精，只有伽玛减个头的小矮人骗了。太过分了！她们责骂着，声音越来越大。伊顿公学的女主任尤其不留情面。

只有列宁娜什么也没说。她脸色苍白，碧蓝的眼睛笼上了一层罕见的忧郁色彩，她坐在角落里，把自己孤立起来，因为没有人能了解她的情绪。她原本是带着一种急切的狂喜来参加这个聚会的。“再过几分钟”，她进屋时还在自言自语地说，“我就能看见他了，我要和他说话，要告诉他，”（因为她下定了决心才来的。）“我爱他，超过对其他所有人的爱。也许他会回答……”

他会怎么回答呢？她的脸涨得通红。

“那天晚上，看完感官剧之后，他怎么那么奇怪呢？太古怪了。但

是我很肯定他很喜欢我，我很肯定……”

就在这时，贝尔纳宣布了野蛮人缺席的消息。

列宁娜突然体会到激情替代治疗中才会有的感觉，空虚得让人恐惧，担心得无法呼吸，晕眩反胃，心脏仿佛停止了跳动。

“也许他并不爱我，”她对自己说。这种可能性在她心里瞬间变成了不可撼动的事实：约翰没来，是因为不喜欢她，不喜欢她……

“太可耻了！”伊顿的女主任对火葬场兼磷回收站站长说，“一想到我曾经……”

“就是，”法妮·克朗说，“酒精的事肯定是真的。我朋友的朋友当年在胚胎室工作，她对我朋友说的，我朋友又告诉了我……”

“过分，真过分。”亨利·福斯特非常同情社区首席歌唱家。“你知道吗，我们前任主任曾经准备把他送去冰岛。”

每一个词都掷地有声。贝尔纳之前的自信如同膨胀的气球，现在千疮百孔，不成模样。他脸色苍白，忧心忡忡，焦虑不安地在客人间穿梭，语无伦次，结结巴巴地道歉，向他们保证下次野蛮人一定会来参加聚会，乞求他们坐下来尝尝胡萝卜三明治，维他命A馅饼，或是喝一杯香槟替代饮品。他们确实吃了，却完全无视他；一边喝东西，一边当着他的面指责，或是和别人一起对他指手画脚，就好像他是个透明人。

“现在，朋友们，”坎特伯雷首席歌唱家用弗德庆典领唱时那铜铃般优美洪亮的声音说，“我想我该告辞了！”他站起身，放下了杯子，掸掉他那紫色纤维胶马甲上的食品残渣，整理了一下衣服，向门口走去。

贝尔纳急忙跑去挽留他。

“首席歌唱家先生，您现在就要走吗？.....时间还早呢。我恳请您能.....”

是的，他没想到歌唱家先生会这么做。列宁娜曾偷偷告诉贝尔纳，如果给首席歌唱家发出邀请，他一定会接受的。“你知道吗，他非常亲切。”她曾向贝尔纳展示过在伦敦朗伯斯区度周末时，首席歌唱家送给她的T字形金拉链纪念品。贝尔纳还高兴地在每张邀请函上都写道：“坎特伯雷首席歌唱家将与野蛮人先生会面。”野蛮人什么时候不选，偏偏选在今天把自己锁在房间，还大喊“哈尼！”甚至“松斯唉索切纳！”（还好贝尔纳不懂祖尼语的意思）这个晚上，本应该是贝尔纳事业生涯最辉煌的时刻，现在却成了他最耻辱的时刻。

“我曾经希望.....”他结结巴巴地重复着，看着歌唱家，眼睛里充满了乞求和惊慌。

“年轻人，”首席歌唱家庄重严厉地说，整个厅里顿时鸦雀无声，“我给你一个忠告。”他向贝尔纳晃动一根手指头，“趁着还没太迟，我给你个有用的忠告。”（他的声音变得格外阴沉。）“你要改邪归正啊，年轻人，改邪归正。”他在贝尔纳的头顶上画了个T字，转身离开了。“亲爱的列宁娜，”他变换了语气，“跟我走。”

列宁娜顺从地跟在他身后，没有笑，也没有兴高采烈（完全没有受宠若惊的神情）。其他的客人也都有秩序地、恭敬地跟着出去了。“砰”的一声，最后一个客人重重关上门，只留下贝尔纳一个人在那里。

他跌坐在椅子上，像一个泄了气的皮球，双手捂住脸开始哭泣。然

而，过了几分钟，他想通了，吞下四片唆麻。

楼上的房间里，野蛮人在读《罗密欧与朱丽叶》。

列宁娜跟着首席歌唱家走出飞机，走上朗伯斯官邸的房顶。“年轻的朋友，快一点。我在说你呢，列宁娜。”首席歌唱家在电梯门口不耐烦地说。列宁娜停下来，看了会儿月亮，然后低下头，快步地穿过屋顶，到他身边。

穆斯塔法·孟德刚刚读完一份名为《生物学新理论》的文章。他坐了一会儿，皱眉沉思，然后提笔在标题页上写道：“作者采用数学方法诠释目标设置，非常新颖独特，但属于异端思想，对当前社会秩序不利，有潜在的危险性和颠覆性。不予发表。”他在最后四个字下划线强调。“严密监视该书作者，必要时把他打发到圣赫勒拿岛海洋生物站工作。”他签名的时候暗暗觉得可惜，因为这的确是一篇佳作。但是如果承认了目标设置方面的解释，后果将不堪设想。一不留神，这种思想就可能动摇高等种姓中立场不坚定的分子，让他们对幸福这至高的善失去信仰，转而相信真正的目标在当前社会之外，不再把维持安乐幸福当成人生目标，而是追求意识的深入和知识的拓展。这个追求本身并不赖，总统想，但在现有环境下必须斩草除根。他又拿起笔，在“不予发表”下边又划了一道线，比第一道更粗，颜色更深；然后叹了口气，“如果不用去考虑幸福，”他想，“那该有多好！”

约翰闭着眼睛，脸上焕发着神魂颠倒的神采，对着空房间柔声歌颂：

“啊！火炬远不及她的明亮；

她皎洁地悬挂在幕天的颊上，

像黑奴耳边璀璨的珠环；

她是天上明珠降落人间……”

金质的T字架在列宁娜的胸前格外闪耀。首席歌唱家抓住它，闹着玩似的晃了几下。长久的沉默后，列宁娜突然说：“我觉得我得吃点唆麻。”

此时的贝尔纳早已进入甜梦，在只属于他的天堂里微笑，微笑，微笑。但他床头上的电子钟的表针每隔三十秒钟都会向前跳一步，发出轻微的“滴答”声。滴答，滴答，滴答……天亮了，贝尔纳又回到了充满痛苦的时空。他情绪落到了冰点，搭乘计程飞机到条件设置中心上班。曾让他陶醉不已的成功像残留的酒精蒸发消逝，他又回到了卑微渺小的那个自己。如果说之前几周的他像飘飘然的气球，现在，他史无前例地感到身体像灌了铅一样沉重。

野蛮人出人意料地对泄了气的贝尔纳表现出同情。

“你现在更像在马尔佩斯时的样子，”贝尔纳诉说完他悲怆的遭遇后，野蛮人说，“还记得我们第一次的交谈么？在那所小房子外，你跟那时一模一样。”

“这是因为我又回到了不开心的生活。”

“换做是我，我宁愿不开心也不想通过弄虚作假来获得快乐。”

“可是我喜欢那样。”贝尔纳满腔苦楚。“都是你的错，不来参加我的聚会，让他们都背弃了我！”贝尔纳明知自己的话多么荒谬而不公

正，他在心里承认（甚至差点说出口），野蛮人说得对，因为这么点小事就反目成仇的人没有被称为“朋友”的资格。尽管他明白并承认这一切，尽管约翰对他的支持和同情是他现在唯一的精神支柱，贝尔纳还是藏起心中真挚的感激，倔强地酝酿着怨恨，想要小小地报复一下野蛮人。毕竟，对首席歌唱家有再多不满，也没有任何发泄机会，又没办法报复装瓶主任和宿命设置助理主任。对贝尔纳来说，野蛮人比其他所有人更适合作报复对象，因为只有可能报复他。朋友的最主要的功能之一就是接受（以一种较温和的、象征性的形式）我们想施加却无法施加于敌人的惩罚。

另一个受害的朋友就是亥姆霍兹。遭遇挫败后，贝尔纳又想重新拉拢亥姆霍兹，然而，在他最光彩的时期，他一点也没想过维持这段友谊。亥姆霍兹接受了他，没有任何责备和挖苦，好像他早已经忘记了那次争吵。贝尔纳深受感动，同时又为亥姆霍兹的宽宏大量感到羞耻。他越是宽宏大量，贝尔纳就越觉得丢脸，因为这份宽容完全来源于亥姆霍兹的人格，而非唆麻的力量。接受他的不是唆麻假期中的亥姆霍兹，而是在生活中不计前嫌、胸襟开阔的亥姆霍兹。贝尔纳心怀感激（朋友的失而复得对他来说是极大的安慰），却也心怀怨恨（最好能报复一下他的过分宽容）。

在两人失和后第一次见面时，贝尔纳倾诉了他的悲惨遭遇，接受了安慰。直到几天后他才吃惊而羞愧地意识到，他并不是唯一深陷泥沼的人，亥姆霍兹也与领导起了冲突。

“事情起源于几首韵律诗，”亥姆霍兹解释道，“当时我正在给大三学生上高级情绪工程课。分十二讲，第七讲关于韵律诗，确切地说是韵律诗在道德宣传中的运用。我通常会在讲课时列举很多实际例子。于是，我给他们读了我自己写的韵律诗。这的确很疯狂，但是我实在心痒

痒。”他笑起来，“我很好奇他们会有怎样的反应。另外，”他严肃地补充，“我想宣传一下自己的想法，想让他们也体会到我写诗时的感受。弗德在上！”他又笑了，“一下子就闹大了。校长威胁说要立即解雇我，所以我被盯上了。”

“你写了什么样的韵律诗？”贝尔纳问。

“主题是孤独。”

贝尔纳眉毛扬了起来。

“你想听，我可以给你背一遍。”亥姆霍兹开始背诵：

“昨夜召开委员会，

破鼓咚咚不停歇，

午夜迷城寂寞多，

长笛一奏魂魄飞。

朱唇闭，睡意浓，

机器停转静无声。

曾是杂乱喧闹地，

人群往来不肯休，

如今冷清多寂寥。

放声哭，低声泣，

却听故人诉衷肠，
不知其声似何人，
苏珊娜？艾瑞雅？
玉臂酥胸身边靠，
红唇翘臀惹人娇。
似梦似真不可辨，
懵懂不知在何方。
多愚蠢，真荒谬，
世上何存忘忧草！
助我度过凄冷夜，
鱼水之欢多无聊，
污秽空虚何时了？”

“哼，我就举了这个例子，他们就去校长那儿告状了。”

“这不奇怪，”贝尔纳说，“你的诗抨击了他们的睡眠教学。记住，他们为了反对孤独，已经发出过二十五万次警告。”

“我知道，但我想看看诗的效果如何。”

“喏，现在你看到了。”

亥姆霍兹只是笑，“我觉得，”他沉吟了一会儿说，“我终于有了写东西的灵感。仿佛身体里产生了一种力量供我使用，一种额外的潜在能量。我似乎会有什么新的际遇。”贝尔纳心想，尽管亥姆霍兹遇到了麻烦，他反倒挺开心的模样。

亥姆霍兹和野蛮人一见如故，惺惺相惜，这让贝尔纳疯狂地嫉妒起来。这两人即刻建立起来的友谊，比他和野蛮人共处几周的情谊还要深。看着他们交流，听着他们聊天，贝尔纳不时怨恨地想：如果没有介绍他们认识就好了。他为自己的嫉妒感到羞愧，交替着使用意志力和唆麻来控制情绪，但是徒劳无功；在唆麻假期的间隔中，总有难受的感觉侵袭而来。

第三次和野蛮人见面时，亥姆霍兹背诵了那段抒写孤独的韵律诗。

“你觉得怎么样？”背诵完后他问。

野蛮人摇摇头，回答说：“你听听这个。”打开放着被老鼠啃过的书的抽屉，翻开一本读道：

“让那歌喉最响亮的鸟雀，

飞上独立的凤树枝头，

宣布讣告，把哀乐奏响……”

亥姆霍兹越听越激动，从“凤树枝头”这句开始兴奋，听到“你这叫声刺耳的狂徒”时，他突然快活地微笑，又听见“任何专横跋扈的暴君”，热血直往上涌；但当他听到“死亡之音”时，他的脸色变得苍白，被一种前所未有的感情所感染，颤抖起来。野蛮人继续读：

“物性仿佛已失去规矩，
本身竟可以并非本身，
形体相合又各自有名，
既分为二又合二为一。
理智本身也无能为力，
分明看到合一的分离。”

“哦哈哈！”贝尔纳发出不悦的笑声，打断了朗诵。“这不就是一首赞美团结的颂歌嘛。”他这是在报复，因为两个朋友的亲密程度超过了跟他的友谊。

接下来的两三次见面中，他不断地重复着这样的报复伎俩。这是最简单有效的报复，因为看到水晶般剔透的诗歌受到这样的破坏和玷污，亥姆霍兹和野蛮人都非常痛苦。亥姆霍兹威胁他，如果他敢再这么捣乱，就将他赶到屋子外面去。然而，谁也没想到，接下来的一次打岔，最丢脸的一次，竟然是亥姆霍兹一手造成的。

当时野蛮人正带着强烈和颤抖的热情大声朗读《罗密欧与朱丽叶》（他一直都幻想自己是罗密欧，列宁娜是朱丽叶），亥姆霍兹带着困惑和兴趣欣赏情人们初次会面的场景。果然那一幕如诗的语言让他陶醉，但是表达出来的感情让他忍不住想笑。追求一个女孩需要那样的大费周章，实在是可笑。但是，从语言的细腻上来说，这段描写真是感情工程学中的杰作！“这位作家老先生，”他说，“能让我们最好的宣传专家甘拜下风。”野蛮人得意地笑了，又继续朗读。一切都很正常，直到第三幕最后一场，凯普莱特先生和太太威逼朱丽叶嫁给帕里斯伯爵时，朗诵

这一幕期间亥姆霍兹一直在发出声响；当野蛮人模仿朱丽叶的语气，凄惨地大喊：

“天知道我心里是多么难过，

难道它竟会不给我一点慈悲吗？

啊，亲爱的妈妈！

请让婚礼延迟一个月，哪怕一个星期也行；

如果您不答应，

就把我的婚床放在提伯尔特长眠的幽暗坟茔里！”

听到朱丽叶的悲痛诉说，亥姆霍兹终于控制不住，狂笑起来。

妈妈和爸爸（真是荒唐下流的称呼）逼迫自己的女儿嫁给不喜欢的人！这女孩居然傻到不告诉他们自己心有所属（至少当时心是有所属的）！如此荒谬疯狂的场景实在滑稽。他之前还在竭力控制笑意；但听到那句“亲爱的妈妈”（再加上野蛮人那悲伤而颤抖的声调），又想到蒂伯尔特死后没有火葬，浪费了很多磷，他实在是压抑不住了。他不停笑，不停笑，笑到眼泪都掉下来，还是制止不住。野蛮人感到被侮辱，脸色变得惨白，从书中抬起头盯着他，笑声依旧。野蛮人愤慨地合上书站起来，像是把不慎丢到猪面前的珍珠捡起来，把书锁进了抽屉。

“不过，”亥姆霍兹终于喘上口气，能够道歉了。为了安抚野蛮人，他解释说：“我知道，戏剧需要这种滑稽疯狂的场景，营造冲突感，不这样写，就写不出好作品。那个老先生简直是渲染气氛的天才。他能描述出那么悲痛又癫狂的情节，让你难受，让你心烦，否则，你就体会不

到那像X射线一样深邃尖锐的美好语言。可是，那些‘爸爸’‘妈妈’的称呼，”他摇了摇头，“实在让我严肃不起来。再说，谁会因为一个男孩儿得到或失去一个女孩儿而兴奋激动呢？”（野蛮人脸部肌肉在抽搐；但是亥姆霍兹一直望着天花板沉思，没有看见。）“没有谁会兴奋的。”他叹了口气得出结论，“我们需要更多疯狂和暴力场面。但是，什么样的场面？在哪里找？”他沉默了；然后摇头说，“我不知道，”最后又加上一句，“我不知道。”

第十三章

胚胎室若隐若现的灯光下，亨利·福斯特的身影靠近过来。

“今晚想不想看场感官剧？”

列宁娜沉默地摇了摇头。

“和别人有约吗？”他对朋友中的花边新闻总是颇有兴趣。“是贝尼托么？”他问道。

她再次摇头。

亨利看到她紫色眼睛里的疲倦，皮肤上的斑点也隐藏不了脸色的苍白，暗红色的唇毫无笑意，流露着悲伤。“你不会是病了吧？”他有点儿担心地问，害怕她感染上尚未被消灭的传染病中的一种。

列宁娜还是摇头。

“不管怎样，你应该去看看医生，”亨利说，“一天一医生，疾病远离人。”他真诚的引用了睡眠学习的格言，然后拍了拍她的肩膀说，“你可能需要点代妊娠素，”他建议，“或者是一次超强度的激情替代治疗。你知道的，有时候，标准强度的治疗不够……”

“天呐，看在我主弗德的分上，”列宁娜终于张口说话了，“请闭嘴！”她转身去处理刚刚疏忽遗漏的胚胎。

去你的激情替代治疗！要不是现在痛苦地想哭，她一定会笑出声。

难道她现在的情绪还不够强烈吗？她一边吸满注射器，一边深深地叹了口气。“约翰！”她喃喃地说，“约翰……”忽然，她喊了声，“天呐！”她糊涂了，“我给这个胚胎打过昏睡预防针了吗？没打过？”她完全忘记了。最后，她决定不要冒险重复注射，于是拿起了下一排的瓶子。

也许二十二年八个月零四天后，一个年轻有为的阿尔法减，可能是姆万扎的管理者，会死于嗜眠病——半个世纪来头一遭。列宁娜叹了口气，继续她的工作。

一个小时后，在更衣室，法妮提出了严重抗议，“让你自己变成这个样子，简直是荒谬，太荒谬了！”她重复着，“而且仅仅是因为一个男人，一个男人。”

“他是我唯一想要的男人。”

“世上有千千万万的男人。”

“他们都不是我想要的。”

“你不试试怎么知道？”

“我试过了。”

“试过几个？”法妮不屑地耸耸肩，“一个，两个？”

“几十个。但是，”她摇头，“没有一个合适，”她补充道。

“你得持之以恒，”法妮说教道。但是很明显她对自己开出的药方并不是很自信。“一分坚持，一分收获。”

“但是我总……”

“别再想他了。”

“我控制不住。”

“那就服用唆麻。”

“我吃过了。”

“那就再吃。”

“药效一消失，我就明白自己还是喜欢他，永远都会喜欢他。”

“如果是这样，”法妮果断地说，“你干脆霸王硬上弓，管他愿不愿意。”

“可你不知道他有多奇怪！”

“如果你下定决心，一切就都不是问题。”

“说起来容易。”

“别想那些有用没用的了，行动！”法妮用喇叭般洪亮的声音说；她以前准在弗德女青年协会给贝塔减青少年训过话。“没错，上，现在就上。”

“我害怕。”列宁娜说。

“那就先服半克唆麻壮壮胆。好了，我去洗澡啦。”法妮拖着浴巾走开了。

那个下午，野蛮人一直焦急地等着亥姆霍兹出现（他最终下定决心

要和亥姆霍兹袒露他对列宁娜的感情，这个秘密，他实在藏不住了），门铃一响，他就跳起身去开门。

“我猜到是你了，亥姆霍兹。”他边开门边喊。

门口站着的却是列宁娜，她穿着绸缎海军衫，斜扣着一顶潇洒的小圆帽。

“天呐！”野蛮人好像遭受了当头一棒，惊呆了。

半克唆麻足以让列宁娜忘记害怕和尴尬。“你好，约翰！”她笑着说，从他身侧走进房间。他无意识地关上门跟在她身后。列宁娜坐了下来，长时间的沉默。

“看见我来，你好像一点儿都不高兴？”她终于开口。

“不高兴？”野蛮人带着责备的眼神看着列宁娜；突然间跪在她面前，握住她的手，恭敬的亲吻。“怎会不高兴？我多想你能明白我的心意。”他低语，勇敢地抬起眼睛看着她，“美丽的列宁娜，”他继续说下去，“我真的很仰慕你，你是世界上最值得珍惜的人。”列宁娜对他笑了笑，迷人而温柔。“你是如此的完美，”（她的嘴唇微张，慢慢向他靠近），“碧玉无暇，举世无双，”（嘴唇越来越近）“你是稀世珍宝。”（嘴唇近在咫尺）野蛮人突然站起身。“所以我才想，”他边说边把脸转开，“想要做些什么，向你证明，我配得上你。也许我永远没有足够的资格，但我想证明自己并非完全配不上你。我应该做些什么。”

“有什么必要……”列宁娜开口，却没有说完。声音中有一丝愤怒。当她慢慢靠近，想要亲吻他时，他却像个傻子一样突然站起来，让她扑了个空。即使那半克唆麻还在血液里生效，也免不了让她生气。

“在马尔佩斯，”野蛮人语无伦次地嘀咕，“得先送一张狮子皮，我是说，如果要娶哪个姑娘的话。或者送狼皮也行。”

“英格兰没有狮子！”列宁娜几乎要爆发了。

“即使这儿有，”野蛮人忽然带着鄙视和不满说，“人们肯定也是坐着直升机，用毒气之类的东西捕杀狮子。我不会这么做的，列宁娜。”他挺起胸膛，鼓起勇气看她，却看见列宁娜带着烦闷和不解盯着自己。他困惑了，“我会为你做任何事，”他越来越前言不搭后语，“只要是你想要的，我都会做。你知道，有些事的确不那么轻松，但是也可以做得很开心。我就是这么想的。我的意思是，如果你要我擦地板，我会很乐意。”

“我们这里有真空吸尘器啊，”列宁娜不解地说，“没必要擦地。”

“对，当然没必要。但是卑贱的工作有时也需要高贵的灵魂。我想要勇敢去经历，完成一些事。你能明白么？”

“可是，我们有真空吸尘器……”

“我想说的不是这个。”

“而且这些活是伊普西龙半傻子做的，”她继续说，“那么，老实说，你到底是为什么……”

“为什么？就是为了你啊。我想证明……”

“可是真空吸尘器和狮子能有什么关系？”

“证明我有多……”

“狮子和见到我很高兴又有什么关系？”她越来越恼怒。

“我有多爱你，列宁娜。”他近乎绝望地说出来。

内心惊喜的潮水仿佛推动血液往脸上涌，列宁娜脸涨得通红。“你是认真的吗，约翰？”

“原本我不打算说出来的，”野蛮人紧握着拳头，痛苦地喊出来。“想等到.....列宁娜，你知道吗，在马尔佩斯，人们会结婚。”

“结什么？”刚刚消失的怒气，又出现在她声音里，他现在还胡扯什么啊？

“永远，他们会承诺永远生活在一起。”

“这个想法太可怕了！”列宁娜这回真的被吓到了。

““心灵的美丽比外表的美丽来得持久，因为心灵再生的速度远比血液衰老的速度要快得多。””

“什么？”

“就像莎士比亚说的，‘但在一切神圣的仪式没有充分给你许可之前，你不能侵犯她处女的尊严.....’”

“看在弗德的分上，约翰，别胡说了。你说的话，我一句也听不懂。开始是真空吸尘器；然后又是什么结，我快被你逼疯了。”她跳起来，抓住他的手腕，好像害怕他会突然跑开，也害怕他的心会飞走。“告诉我：你真的爱我吗，还是闹着玩儿的？”

沉默了一会儿，野蛮人轻柔地说：“我爱你，胜过爱这个世界上的

一切。”

“那你为什么不早说？”她喊起来，那样的气恼，以至于她的长指甲陷进他手腕的皮肤里。“却一直在跟我说什么结、真空吸尘器、狮子什么的。你知不知道这几个星期我有多难过。”

她松开手，生气地把他的手腕甩开。

“要不是我如此爱你，”她说，“一定会对你发火。”

突然，她双臂环住他的脖子，软软的嘴唇贴上他的唇。那么柔软芳香，那么温暖酥麻，让他措手不及。他不可避免地想到了《直升机里的三星期》中那个拥抱。啊！啊！立体的金发女人，哦！哦！比现实还要真实的黑人。恐怖，恐怖，还是恐怖……他想要推开她，但是列宁娜抱得更紧了。

“为什么之前不告诉我？”她低语呢喃，挪开脸看着他，眼神中既有责备，也有爱怜。

“即使是最幽冥的暗室中，在最方便的场合（良心像雷鸣般富有诗意的呼喊），有伺隙而来的魔鬼的最强烈的煽惑，也不能使我的廉耻化为肉欲。不，绝不！”他断然地说。

“你这个笨蛋！”她说，“我如此渴求你，如果你也渴求我，还等什么……”

“但是，列宁娜……”他开始反对。她快速抽回手臂，走远了几步。他以为她明白了没有说出口的话。然而，当她解开白色的腰带，把它小心地搭在椅背上时，他怀疑自己想错了。

“列宁娜！”他焦虑地重复道。

她把手放在脖子前的拉链上，向下一拉；白色的海军衫落到地上。怀疑的迷雾凝结成过于坚实的事实。“列宁娜，你要干什么？”

“嘶拉，嘶拉！”她无声地回答了他，慢慢地褪下她的喇叭裤。她的拉链内衣是像贝壳般的灰粉色。社区首席歌唱家送给她的金T字架在她的胸前晃动。

“那对透过窗棂映射到男人眼里的雪白乳峰……”雷鸣般的诗歌，魔力般的语言，让她看起来更加危险妖娆。柔软，柔软的乳峰，如此打动人心！它们钻破了理智，刺穿了决心。“血液中的火焰一燃烧起来，最坚强的誓言也形同草秆。节制一些吧，否则……”

“嘶拉！”两个圆圆的、闪耀粉红光彩的乳房像分成两半的苹果，一下子暴露出来。两只胳膊一晃，右脚一抬，左脚一抬，拉链内衣也被褪到了地上，好像失去生命一样泄了气。

她仍然穿着鞋袜，头上的小圆帽调皮地倾斜。她走向他，“亲爱的，亲爱的！你要是早点儿说出来就好了！”她伸出双手。

可是野蛮人没有伸出双手，同样回以“亲爱的”，他害怕地退却了，向她做出驱赶的手势，好像面前站的是猛兽一样。连退四步，他已经背靠墙壁。

“甜心！”列宁娜呼唤着，把手搭在了他的肩上，紧紧地靠向他。“搂着我！”她命令道，“抱着我直到我心醉，亲爱的。”她的命令也充满了诗意，她知道有些歌词像咒语，像鼓点。“亲吻我！”她闭上了眼睛，她把声音放低变成喃喃低语，“亲吻我直到我情迷。抱着我，亲爱

的，温柔地……”

野蛮人抓住她的手腕，从自己肩膀上掰开，粗鲁地把她推到几尺之外。

“好疼！你怎么……天呐！”她突然间不敢出声，恐惧让她忘记了疼痛。她看到了他的脸，不，那不是他的脸，是一张残忍的陌生人的脸，苍白、扭曲、发狂般的抽搐，带着莫名的暴怒。她被吓得目瞪口呆，小声地问，“约翰，你怎么了？”他没有回答，只是用癫狂的眼神死死盯着她，握着她手腕的手不停地颤抖。他强烈而不规则地喘着粗气。她突然听到他咬牙的声音，害怕得快要晕倒过去。“怎么回事？”她近乎尖叫着说。

他仿佛被她的尖叫唤醒了，抓着她的肩膀前后晃动。“荡妇！”他大喊着，“你个厚颜无耻的妓女！”

“不要，啊！不要！”她的抗议声因为身体的晃动而奇怪地颤抖。

“婊子！”

“求求你放开我。”

“该下地狱的婊子！”

“一，一克唆，唆麻，好过烦恼……”她断断续续地说出格言。

野蛮人猛地将她推开，她踉踉跄跄地跌倒在地。“滚！”他气势汹汹地俯视她，“再也别出现在我视野里，否则我会杀了你。”他拳头握得咯吱作响。

列宁娜抬起手挡住脸。“求你别这样，约翰……”

“快滚！”

列宁娜战战兢兢地看着他每一个举动，一只胳膊仍然护着额头，慌慌张张地爬起来，然后飞奔向浴室。

他一个巴掌挥过去，把她向前推了好几步，像是射出膛的子弹。

“哇啊！”列宁娜踉跄地往前一蹿。

她安全冲进浴室，反锁上门后，才开始慢慢查看身上的伤。她背对着镜子扭头看，望见左肩上五个红手指印，在雪白肌肤的映衬下尤为明显。她小心翼翼地揉了揉伤处。

浴室外，野蛮人在房间中来回走动，踏着像咒语、像鼓点的节奏。“鸬鹚都在干那把戏，金苍蝇也当着我的面公然交合。”他的耳朵里回荡着这样的声音。“其实她自己干起那回事来，比艾融和骚马还要浪得多。她们上半身虽然是女人，下半身却是淫荡的妖怪；腰带以上虽属于天神，腰带以下全属于魔鬼。那儿是地狱，那儿是黑暗，那儿是火坑，吐着熊熊的烈焰，发出熏人的恶臭，把一切烧成了灰。呸，呸，呸，痛苦啊痛苦！亲爱的药师，给我称一两麝香，让我净化一下我的想象。”

“约翰！”浴室里传来哀求声。“约翰！”

“你这野草闲花啊！你的颜色是这样娇美，你的香气是这样芬芳，人家看见你嗅到你就会心疼。这一本美丽的书册，是要让人家写上‘娼妓’两个字的吗？天神见了它要掩鼻而过……”

但是她的芬芳仍然包围着他，他白色的夹克上沾上了粉，那是她之前拍在天鹅绒般滑腻皮肤上的香粉。“不要脸的淫妇，不要脸的淫妇，不要脸的淫妇！”那无情的节奏兀自重复着，“不要脸的……”

“约翰，可以让我穿上衣服吗？”

他捡起喇叭裤，衬衫和拉链内衣。

“开门！”他踢着门命令道。

“不要，我不开。”声音里满是恐惧和反抗。

“那我怎么给你衣服？”

“从门上的通风口递进来。”

他照做了，又焦躁地在房里来回踱步。“不要脸的淫妇，不要脸的淫妇。那个屁股肥胖，手指粗得像马铃薯般的荒淫的魔鬼……”

“约翰。”

他不想应声。“屁股肥胖，手指粗得像马铃薯般。”

“约翰。”

“干吗？”他粗暴地问。

“能不能请你把马尔萨斯腰带递给我。”

列宁娜坐着，听着外面房间的脚步声，猜想着野蛮人要这样来来回回走多久；是不是得等到野蛮人离开，她才能脱身；或者给他一些时

间，让他消消气，冷静一下，然后再打开浴室门，飞快地冲出去？会不会太危险？

她被自己杂乱的猜测弄得心神不定，直到外屋里响起电话铃，踱步的鼓点戛然而止。她听见野蛮人接电话。

“你好。”

.....

“我就是。”

.....

“我就是，我不能冒充我自己。”

.....

“是的，你听不懂我的话吗？我就是野蛮人。”

.....

“什么？谁病了？我当然想知道。”

.....

“病得厉害吗？她很不舒服？我马上就去.....”

.....

“不在她房间了？她被送到哪儿去了？”

.....

“天啊！请告诉我地址。”

.....

“公园街三号是吗？三号？谢谢。”

列宁娜听到挂电话的声音，然后是匆匆离去的脚步和“砰”的关门声。随后一片寂静。他真的走了么？

她小心谨慎地把门拉开一条缝，窥探了半天，惊喜地发现没有人。她又把门开大了一些，把头探出去，最后蹑手蹑脚地走出来。她的心怦怦直跳，站了好一会，仔细地听了又听，然后突然向门口狂奔，开门，快速溜出去，关上门，撒腿就跑。直到冲进电梯，开始下降时，她才松了口气。

第十四章

公园街垂危病人医院是一座六十四层的塔楼，外墙上都镶着报春花色的瓷砖。野蛮人刚一踏出计程飞机，就看到一架色彩鲜艳的空中灵车轰鸣着从屋顶起飞，穿过公园，向西边的泥沼火葬场飞去。在电梯门口，门房回答了他的提问。他坐电梯上到17层，来到81号病房（门房告诉他那是急性衰老病房）。

那是一间很大的病房，墙壁上刷着黄色涂漆，阳光照进来，显得很明亮。病房里共有20张床，都住满了人。琳达躺在那里，奄奄一息——和其他病人一起，享受着现代化设备。空气中永远流淌着合成的优美旋律，每张床的床尾处都有一台电视机，朝向垂危的病人，从早开到晚，像是一直开着的水龙头。每隔十五分钟，屋子里就会自动变换一种香味。“我们做了很多努力，”接待野蛮人的护士解释着，“试图营造一种舒适怡人的气氛，介于顶级酒店和感官剧院两种氛围之间，你明白我的意思吧。”

“她在哪儿？”野蛮人问，完全不搭理护士善意的解释。

护士很不高兴地说，“你很赶时间么？”

“还有希望么？”他问。

“你的意思是，救活她的命？”他点点头。“不，当然没希望了。送到这儿来的人都没有希……”或许是被他惨白的脸上那种痛苦的表情吓到了，她突然住了嘴。“怎么了，有什么大不了的？”她问。像野蛮人这

样的探病者显然让她很不适应。（不管怎么说，这儿的探病者一向就不多：凭什么探病者会多呢？）“你是不是哪里不舒服？”

他摇了摇头。“她是我的母亲。”他的声音小得快听不到。

护士用一种受惊、恐慌的目光看了他一眼，然后很快移开视线，她的脸从太阳穴红到了脖子根。

“带我去看她。”野蛮人竭力保持平稳的语气。

护士红着脸把他带到病房。当他们走进病房时，病人们转过脸看他们，面孔看起来丰润年轻（急性衰老的病症非常快，心脏和大脑迅速老化，面孔还来不及衰老）。他们用空洞茫然的眼神追随着探病者的身影，就像回到了婴儿初生时的状态。野蛮人感到不寒而栗。

琳达躺在最顶头的那张床上。她坐靠在枕头上，正在看南美洲黎曼球场的网球锦标赛半决赛，电视无声地放映，画面被缩小了。在那发光的方形屏幕上，运动员们无声地跑动着，像鱼缸里的鱼一样——在另一个世界激情而无声地活动着。

琳达继续看着电视，带有迷糊而痴傻的微笑。她那张苍白臃肿的脸上，流露出傻子一样的欢愉。她时不时合上眼睛，好像是在打盹儿，然后微微一惊，又醒过来，看着“鱼缸”里那些滑稽可笑的网球运动员，听着超高音歌唱家伍利策瑞安娜的《抱着我直到我心醉，亲爱的》，闻着她头上的气窗吹进来的马鞭草的香吻。她醒了过来，或者说，她又来到了现实的梦中：血液中的唆麻让电视、歌声和香氛变得更为美妙，构成了完美的梦境。她带着婴儿式的满足，再次露出残败而褪色的微笑。

“好了，我得走了。”护士说，“一大帮孩子要过来了，再说，还要

看紧三号床。”她指着另一边的病床说，“那人随时都可能死掉。那么，你请便。”护士匆匆离开了。

野蛮人在床边坐下来。

“琳达！”他抓着她的手，低声呼唤。

听见有人喊她的名字，琳达转回头。那双无神的眼睛，在看到他后突然亮了起来。她紧紧地握着他的手，笑了，嘴唇动了动，突然，脑袋向前一倾，她又睡着了。他坐在那儿看着她——抚摸着她那疲惫的身体，试图找回曾经在马尔佩斯时留在他记忆中的那张年轻明亮的脸。他找到了，闭上眼睛，他回忆着她的声音，她的一举一动，他们一起度过的每时每刻。“草色链球菌马儿，带我去班伯里T区……”她的歌声是多么动听！儿时的歌谣是多么的迷人和神秘，像是有魔力一样。

“A，B，C呀，维他命D：

肝脏里的脂肪，海洋中的鲑鱼。”

回忆起那些童谣和琳达的歌声，他热泪盈眶。他又想起阅读课：娃娃在瓶子里，猫咪在垫子上，还有《胚胎室贝塔工人初级操作指南》。他们在火堆边一坐就是一个晚上，夏天在小屋的房顶上，她给他讲述保留地之外的那个最美最美的地方——一个充满善良和美丽的天堂。虽然接触到这个现实的伦敦和那些现实的文明人，他对那个天堂依然保持着完整而纯洁的回忆。

突如其来的尖叫声让他睁开了眼睛，他胡乱地擦干眼泪，环顾四周。一群八岁的多生子男孩儿鱼贯而入，像是延绵不绝的小溪。一个跟着一个，一个接着一个，他们的到来就像是噩梦。他们的脸，一样的脸

——那么多人却只有一张面孔，长得像哈巴狗一样，大鼻孔，无神的大眼睛。他们的制服都是卡其色的。他们进来的时候，都张着嘴高声地喋喋不休。一瞬间，病房像是爬满了蛆虫。他们穿梭在病床间的空隙处挤来挤去，有的爬上病床，有的在床下穿行，有的挤到电视机前张望，有的对病人们做鬼脸。

琳达的样子让他们吃惊，更让他们害怕。一群人挤在她的床尾，像是突然看到了不明的怪物一样带着恐惧和愚蠢的好奇盯着她。

“哇，快看，快看！”他们压低的声音中夹杂着惊慌，“她怎么这副样子？为什么这么肥？”

他们从没有见过这样一张脸，既不年轻，皮肤也不紧绷，身材胖得走样，还驼背。医院里六十多岁的垂死老人都有着小女孩儿般的容貌，四十四岁的琳达却与其他人形成鲜明对比，像个身躯松弛扭曲的老怪物。

“她太可怕了！”一些孩子窃窃私语着，“看她的牙齿！”

突然，一个哈巴狗脸的多生子从床底下钻出来，跳到约翰的椅子和墙壁中间，盯着琳达熟睡的脸颊。

“我说……”他刚张开嘴说话，还没说完就变成了尖叫。野蛮人抓着他的领子，把他从椅子边拎了起来，结结实实地给了他一个耳光，打得他嚎叫着跑掉了。

听到嚎叫声的护士长急忙赶了过来。

“你对他做了什么？”她凶狠地追问道，“我不准你打孩子！”

“那好，你让他们离这病床远点儿。”野蛮人的声音愤怒得有些颤抖。“这些乳臭未干的脏孩子到这里来干吗？不成体统！”

“不成体统？你这是什么意思？他们正在接受死亡条件设置啊。我告诉你，”她粗暴地警告他，“如果再让我发现你干扰死亡设置，我就叫门房把你扔出去。”

野蛮人站起身向她靠近，他咄咄逼人的行动和表情让护士长害怕地往后退。他竭尽全力控制住自己，没有说话，转身又回到床边坐了下来。

护士长松了口气，用刺耳的声音不太有把握地维护尊严：“我警告过你了，”护士长说，“我可警告过你了，”护士长又说，“你记住。”她最后还是把那些好奇心旺盛的多生子们带走了，让他们去玩“找拉链”。她的同事正在病房的另一边组织游戏。

“去喝你的咖啡饮料吧，亲爱的。”她对另外一个护士说。成功维护权威的快慰让她恢复了自信和好心情。“好了，孩子们！”她呼唤道。

琳达不安地动起来，睁着眼睛朦胧地看了一会儿周围，又一次昏睡过去。野蛮人坐在她身边，努力捕捉回几分钟前的心境。“A，B，C呀，维他命D。”他重复着，好像这是魔咒，会让逝去的往昔起死回生一样。可惜咒语并未奏效，美好的记忆并没有回来，那些关于嫉妒、丑陋和痛苦的记忆像梦魇般复活了。肩膀被砍伤、滴着血的波佩；睡相丑陋的琳达；床边打翻的龙舌兰酒瓶上嗡嗡乱飞的苍蝇；琳达走过时，给她起难听外号的顽童……啊，不，不！他闭上了眼睛，使劲地摇着头，竭力拒绝这些回忆。“A，B，C呀，维他命D……”他试着回忆小时候，坐在琳达的膝盖上，她抱着他，一遍又一遍地唱着，轻轻地摇着他，摇着

他，哄他睡着。“A，B，C呀，维他命D，维他命D，维他命D……”

伍利策瑞安娜的超级高音逐渐上升到如泣如诉的高度，香味循环系统中的马鞭草的香气突然变成浓郁的广藿香。琳达动了动，醒了过来，莫名其妙地盯着半决赛的画面看了几秒钟，然后抬起脸来，闻了闻刚刚变换了香味的空气，突然笑了——带着孩子般的得意。

“波佩！”她呢喃着，闭上了眼睛。“啊，我真喜欢这样，真喜欢……”她叹了口气，又倒进枕头里。

“琳达！”野蛮人哀求地说，“你还认识我吗？”他已经尽了最大的努力，她为什么总是忘不了他？他紧握着她那双无力的手，甚至有些过于用力，好像希望通过这种方式强迫她从猥亵的春梦中醒来，让她摆脱这种低俗、可耻的记忆。回到现在，回到现实中来，回到这个可怕的现在，这个糟糕的现实中来——但这现实又是伟大的，是有意义的，是极其重要而且恰如其分的，因为那种即将到来的死亡，会让人们畏惧。“你不认识我了吗，琳达？”

他隐约感觉到了她的手无力地攥了一下，作为回答。他的眼睛湿润了，弯下腰吻了吻她。

她的嘴唇动了动，“波佩！”她又喃喃低语。约翰感觉好像是被人泼了一脸粪便。

他怒火中烧。第二次的受挫让他的悲伤有了另一种发泄的渠道，变成了极度痛苦的愤怒。

“可是我是约翰啊！”他大声叫喊。“我是约翰！”他因为痛苦，愤怒地抓住她的肩膀摇晃起来。

琳达突然睁开了眼睛，她看到了他，认出了他，“约翰！”但是又把那张现实中的脸和那双真实有力的手带回了想象中的世界——把他放在广藿香和高音伍利策之间，放在变形的回忆和离奇的梦之中。她知道那是约翰，是她的儿子，但是却把他幻想为闯入马尔佩斯天堂的入侵者，那儿是她和波佩一起度唆麻假期的地方。约翰很愤怒，因为她爱波佩；他不断地摇晃她，因为波佩在她的床上——好像她哪里做错了一样，好像其他文明人都不会这么做似的。“每个人都属于彼此……”她的声音突然变得毫无生气，她呼吸困难地张着嘴，却没有一点儿声音。她张着嘴，绝望地想多吸入一点空气，却好像忘记了怎样呼吸。她想叫喊，却怎么都发不出声；只有从那圆睁着、充满恐惧的眼睛中，才能看出她巨大的痛苦。她的手放在脖子上，然后抓着空气——抓着她再也不能吸入的空气，抓着渐渐离她远去的空气。

野蛮人站起来，向她弯下腰。“你说什么，琳达？你说什么？”他哀求着，求她让他放心。

她看着他，眼神中流露着不可言说的恐惧，在他看来，那是一种责备。

她试图自己从床上坐起来，但最终还是跌回到枕头上。她的脸恐怖地扭曲着，嘴唇也变得乌青。

野蛮人转身向病房外跑。

“来人！快来人！”他大喊着，“快！”

护士长站在玩游戏的多生子们围成的圈里，转过头。她起初一惊，随即就变得正气凛然。“别喊了！为这些孩子想想。”她皱着眉说，“你可能会破坏他们的条件设置，你到底在干吗？”他已经钻进了圆圈

中。“啊，小心点！”一个孩子喊着。

“快，快去！”他拉着她的衣服袖子，拖着她快步前进，“快！出事了！我害死了她。”

他们回到病房时，琳达已经死了。

野蛮人像冻结般沉默地站在那儿，然后跪在床边，双手捂面，无法抑制地啜泣起来。

护士犹豫不决地站在旁边，看着跪在床前的人（多么可耻的场景），又看了看孩子们（他们真可怜）。多生子们已经停止了“找拉链”，从病房的另一头向这边望过来，瞪着大眼睛，看着20号病床边这场丑恶的表演。她应该和他说句话吗？让他停止这种有伤风化的举动？告诉他现在在哪儿，提醒他这么做会对这些无辜的孩子造成多么致命的伤害，用这种恶心的声音来破坏有利身心的死亡条件设置——就好像死亡有多可怕一样，就好像死亡有多严重一样！这可能会使孩子们产生毁灭性的想法，可能会扰乱他们，让他们做出与社会伦理背道而驰的行为。

护士长走上前，拍拍他的肩膀说：“你不能老实点儿吗？”她恼怒地低声劝诫。然而，她环顾四周，看到六七个孩子已经起身向病房这边走过来了。圆圈马上要散了。马上就.....不行，这太危险了。如果这次的条件设置失败了，那么这群孩子的条件设置会被推迟六七个月。她赶紧回到受到威胁的孩子们身边。

“现在，谁想吃一块巧克力蛋糕？”她用活泼的语气大声地问。

“我！”整个波卡组的孩子们异口同声地叫起来，20号病床被忘光

了。

“哦，上帝，上帝，上帝啊！”野蛮人不断地自言自语，在悲伤与懊悔夹杂的混乱中，唯一清楚的词汇就是上帝。“上帝啊！”他低声呼唤，“上帝……”

“他到底在说什么啊？”一个声音问道，那声音很近，很清晰，从高音伍利策婉转的歌声中穿透出来。

野蛮人猛然地转过身，松开捂着脸的双手，往四周看了看。五个穿着卡其色制服的多生子站成一排，像哈巴狗似的盯着他，每个人手里都拿着半块点心。他们相同的面容上，沾满不同形状的融化了的巧克力。

他们和约翰一对上视线，就不约而同地笑起来，其中一个还用长条状的蛋糕指着琳达。

“她死了么？”他问。

野蛮人默默地瞪了他们一会儿，然后，又默默地站起来，默默地向门口走。

“她死了么？”那个好奇的多生子跟在他身后，又问。野蛮人低头看着他，默默地把他推开。那孩子摔倒在地上，立刻大哭起来。野蛮人头也不回地走掉了。

第十五章

公园街垂危病人医院一共有一百六十二个卑贱的下等工人，分成两个波卡小组，其中一组是八十四个红发多生女，另一组是七十八个暗色皮肤的长脸多生男。一般情况下，他们六点下班，两个小组在医院前厅集合，在会计助理那里领取定量的唆麻。

从电梯出来后，野蛮人的思想被死亡、悲痛、懊悔充斥着。他就像机器人一样，意识不到自己在做什么，径直往人群中间挤。

“你挤什么挤？你以为自己在哪儿？”

混杂的人群中传出两个声音，一高一低，一个支支吾吾，一个咆哮不停，像是在一大排镜子前不停地重复。两类脸恶狠狠地朝向他：一类长着雀斑，没有毛，如同被橘黄色的光环包围的月亮；一类脸瘦长，尖嘴，蓄着两天没有刮的胡茬。两个声音和撞在他肋骨上的手肘唤回了他的意识。他立刻回到了现实，环顾他的周围，带着一种恐惧和厌恶的情绪，明白了眼前的景况。日夜复发的狂乱病和蚁群般无法辨别的相同面孔，如噩梦般永无止境。多生子，多生子……他们像蛆虫一样穿梭在琳达死亡的迷雾里。现在，蛆虫又出现在他面前，只是大了好多倍，长成了人。他用迷惑恐惧的眼神盯着那些卡其色的怪物。他站在他们面前，足足高出一头。“那儿有多么美妙的生灵啊！”那歌声不无嘲讽：“人类多么善良！啊！美妙的新世界……”

“发唆麻了，”一个声音高喊着：“都排好队，快一点。”

门开了，桌子和椅子已经挪到了走廊里。说话的是一个年轻的阿尔法，他搬着一个黑铁钱箱进来了。多生子满怀期待，发出满意的呢喃。他们一心关注着桌上的黑铁钱箱，早已将野蛮人抛掷脑外。马上就要开箱了！箱盖被揭开。

“哇哈！”一百六十二个人异口同声地欢呼，仿佛在看烟花表演。

年轻人掏出一把小药盒，专横地说，“现在往前走，一个一个来，不准拥挤。”

多生子没有拥挤，一个个地往前走。先是两个男人，然后一个女人，接着一个男人，三个女人，如此轮流……

野蛮人看着这一切，“啊！美妙的新世界。啊！美妙的新世界！”在他心里，歌声似乎变了调。在他如此痛苦和懊悔的时刻，每个歌词都尖酸地嘲讽着他。它们像恶魔一样狂笑，用令人作呕的、丑陋的噩梦嘲弄他。突然，这歌声变成豪迈的号角，召唤他战斗。“啊！美妙的新世界！”米兰达宣扬着美好生活的可能性：让噩梦变成美好事物的可能性。“啊！美妙的新世界！”这是一种挑战，一种命令。

“喂，那边不要挤！”会计助理狂怒地叫嚷着。他“砰”地关上了钱箱，“你们要是不遵守秩序，我就不发了。”

德尔塔们小声咕哝了几句，相互推搡了几下，停了下来。威胁生效了。还有什么比扣发唆麻更加可怕呢？

“这下好多了。”年轻人说着，打开了他的钱箱。

琳达沦落成一个奴隶，现已命丧黄泉。其他人应该获得自由，世界应该变得美好。这是一种补偿，一种责任。突然，像是出现了一道光

芒，让野蛮人明白了自己应该做什么。就像是一道百叶窗打开了，窗帘拉了起来。

“下一个，”会计助理说。

另一个女卡其上前。

“停！”野蛮人大叫着，“停！”

德尔塔们惊愕地看着他向桌边挤去。

“弗德啊！”会计助理屏住呼吸，“是野蛮人！”他不禁心生恐惧。

“我恳求你，”野蛮人诚挚地说，“让我借一下你们的耳朵。”他从来没有在公共场合讲过话，现在发现表达自己想说的话太难了。“不要碰那些东西，那是毒品，是毒品啊。”

“我说，野蛮人先生，”会计助理试图用微笑平息事端，“你不介意让我先.....

“那是侵蚀灵魂和肉体的毒药！”

“也许吧。但是让我先发完了好不好？你是个明事理的好先生。”他拍打着野蛮人的肩膀，就像充满温柔地抚摸一只凶猛的动物，“就让我先.....”

“绝对不行！”野蛮人大叫着。

“老兄，听我说.....”

“把那些可怕的毒品全部扔掉。”

“全部扔掉”几个字刺穿了德尔塔们朦胧的意识，人群中传出了愤怒的呢喃。

“我是来带给你们自由的。”野蛮人转身面向多生子们，“我是来.....”

会计助理没有继续听下去，他偷偷溜出门厅，在电话簿上查询一个号码。

“没在他自己的房间。”贝尔纳总结道，“没在我的房间，没在你的房间，没在爱美神馆，也没在大学中心。他会去哪儿呢？”

亥姆霍兹耸了耸肩。他们下班后以为野蛮人在平常见面的某个地点等他们，却半天不见踪影，真让人恼火。本打算乘亥姆霍兹的四架直升飞机到比亚利茨去的，如果野蛮人还不出现，晚餐怕是赶不上了。

“再等五分钟吧。”亥姆霍兹说，“如果他还不出现，我们就.....”

电话铃声打断了他。他接起电话说：“你好，请讲。”他听了一会，咒骂道：“弗德在上！我马上过去。”

“出什么事了？”贝尔纳问。

“那家伙在公园街医院。”亥姆霍兹说，“野蛮人就在那，好像要疯了。情况很紧急。你和我一起去吗？”

两人匆匆坐上电梯。

“你们喜欢做奴隶吗？”当他们走进医院时，野蛮人正发表着演说，他的脸涨得通红，眼睛里充满了热情和义愤。“还是你们喜欢做婴儿？哇哇哭、还吐奶的婴儿。”他补充道。他想要拯救的人们是那么愚昧，让他不禁恼怒而说出侮辱性的话。那些话语撞在愚昧的厚壳上被反弹回来。他们面无表情地盯着他，眼神里流露出阴沉的迟钝和怨恨。“还在吐奶的婴儿！”他理直气壮地大喊。现在，伤心、怨恨、同情和责任都被置之脑后。那些禽兽不如的怪物激起了他的憎恨，这浓烈的感情驾驭了他。“难道你们不想成为人，获得自由吗？难道你们连什么是人类，什么是自由都不明白？”愤怒使他滔滔不绝，话语迸溅而出。“难道你们不明白？”他不断发问，却没有得到答案，“好吧。”他的声调变得冷酷，“让我来教你们。你们想也好，不想也好，我都会给你们自由。”他推开一扇朝向医院庭院的窗户，把装唆麻的小药盒一把一把扔出去。

一时间，卡其色怪物们呆若木鸡。面对这种渎圣的行为，他们只感到惊愕和恐惧。

“他疯了。”贝尔纳睁圆了眼睛小声说着，“他会被杀的，他会……”突然，怪物们发出一声叫喊，人群气势汹汹地向野蛮人涌去。“弗德保佑！”贝尔纳惊恐地转移目光，不敢看下去。

“弗德保佑自救之人。”亥姆霍兹·沃森笑了，笑声掺杂着癫狂与喜悦。他推开人群，走上前去。

野蛮人大喊着“自由，自由”，一只手继续往窗外扔唆麻，另一只手击打着袭击者们千篇一律的脸。“自由！”突然，亥姆霍兹站在了他的身边。“亥姆霍兹，好兄弟。”他也挥起了拳头。“终于做人了！”亥姆霍兹边说边也往窗外扔毒品。“对，做人了，做人了！”毒品全部被扔掉了，他抓起钱箱，向他们展示空空如也的黑色内胆，“你们自由了！”

德尔塔们暴怒着咆哮。

站在战争边缘的贝尔纳迟疑不决，“他们完了！”他嗟叹着，突然有一股冲动，想上前帮助他们；但转念一想又心生顾虑。他为帮不上忙感到羞愧，正想上前，又忍不住退缩了。他为自己的犹豫感到羞耻，苦恼地站在那里。如果他不帮忙，朋友们可能会被杀，如果他去帮忙，可能连自己的命都搭进去。正在这时，谢天谢弗德！一群警察冲了过来，戴着凸起的护目镜和猪鼻子形状的防毒面具。

贝尔纳一路短跑迎接他们，他挥着胳膊，心想至少自己还能做点什么。他一遍遍大喊：“救命，救命！”声音一次比一次大，仿佛试图说服自己确实帮上了忙。“救命！救命！”

警察把他推开，继续执行任务。三个警察肩上扛着喷雾剂，往空气中不停地喷射唆麻浓烟；两个警察在手提合成箱前忙碌着；还有四个警察冲进人群，用装满强麻醉剂的喷枪攻击打得不可开交的人们。

“快点，快点！”贝尔纳大叫着。“再不快点，他们会被杀死的。他们会……哎呀！”一个警察对他的喋喋不休很恼火，就给了他一麻醉枪。他立刻觉得晕头转向，站都站不稳，好像没有了骨头和肌肉似的，变成了两根冰棍，最后连冰棍也不是了，化成了水。他摇晃了一两秒钟就摔倒了，绵绵地瘫在地上。

忽然，合成音乐箱里传出了一个声音，充满理智与善意。合成录音带正在播放二号（中等强度）反暴乱演说，这声音仿佛发自一个不存在的心灵深处。“我的朋友们，亲爱的朋友们！”这个声音如此哀伤，温柔中蕴含责备。即使那些戴着防毒面具的警察们也瞬间泪眼朦胧，“你们这是在干什么？为什么大家不能幸福快乐地待在一起？幸福快乐！”那

个声音重复着，“和平相处，和平相处。”声音颤抖着，变成轻柔细语，再慢慢消失。“我希望你们都能幸福。”声音又出现了，带着一种真挚的渴望。“我希望你们都能快乐，请你们快乐……”

两分钟后，演说和唆麻雾气起作用了。德尔塔们含着眼泪互相亲吻拥抱着，六七个多生子们彼此理解地抱成一团。亥姆霍兹和野蛮人也差点哭了出来。有人从会计室里拿出一个新的药盒箱，匆忙开始新一轮分发。随着男中音告别辞的结束，多生子们也分散开来，哽咽着，仿佛心都要碎了。“再见了，我最亲爱的朋友，弗德保佑你。再见，我最亲爱的朋友。弗德保佑！再见，我最亲爱的朋友……”

等到德尔塔都离开后，警察关掉了演说，那天使般的声音也随之消失。

“你们是安静地跟我走，还是？”警官问道，指了指他的麻醉枪。

“我们安静地跟你走。”野蛮人答道，轻轻擦拭嘴唇上的伤口、擦伤的脖子和被咬伤的左手。

亥姆霍兹用手帕捂着不停流血的鼻子，点头表示同意。

贝尔纳醒了，腿也有了知觉。他想趁这会没人注意，偷偷溜出去。

“喂，你！”警长一声令下，一个戴猪鼻子面具的人快步穿过房间，按住了年轻人的肩膀。

贝尔纳转过身来，露出愤怒无辜的表情。逃跑？做梦都没想过要逃跑。“你们找我做什么？”他问那个警官，“我一点儿都不明白。”

“你是被抓的那两个人的朋友，对吧？”

“呃……”贝尔纳犹豫了，但他不得不承认事实，“对，我不能和他们做朋友吗？”他问。

“那就跟我们走吧。”警官说。然后把他们带到了门口停警车的地方。

第十六章

三人被带进总统的书房。

“总统阁下一会儿就来。”男管家留下他们，自己走了。

亥姆霍兹大笑起来。

“他想请我们喝咖啡吗？这可不像审讯。”他说完便陷进了奢华的气垫沙发里。“振作点，贝尔纳！”瞧见朋友那张气恼得发绿的脸，他补充道。贝尔纳可振作不起来，他没有搭腔，连看都没有看亥姆霍兹一眼，而是别有用心地选了一张最朴素而不舒服的椅子坐下，暗暗希望这个举动可以缓解总统的愤怒。

野蛮人在屋里焦躁地来回踱步，带着模糊的好奇观察着书架上的书、录音带和编号孔里的机械线筒。窗下的桌子上放着一本巨大的书，黑色人造皮封面上印着一个金色大字母“T”。他拿起书翻阅。《我的人生与事业》，我主弗德著，由弗德知识宣传会在底特律出版。他悠闲地翻动书页，这儿看一句，那儿看一段，正准备说书的内容太无趣时，门开了，驻西欧世界总统轻快地走进了房间。

穆斯塔法·孟德跟三个人都握了手，却只对野蛮人一个人发话，“野蛮人先生，看样子你不太喜欢我们的文明。”他说。

野蛮人看着他。他原本打算说谎，气势汹汹地回答或是干脆绷着脸不说话，但是总统脸上那种诙谐的聪明使他打消了念头，他决定讲实话：“是的，不喜欢。”他摇了摇头。

贝尔纳满脸无措和惊恐。总统会怎么想到约翰直截了当地告诉总统不喜欢文明，而自己跟这样的人做朋友，要承担多大的罪名，太可怕了。“等等，约翰……”贝尔纳正要说什么，穆斯塔法·孟德凌厉的一瞥让他卑微地闭上了嘴。

野蛮人继续开诚布公地讲，“当然，这里也有很多美好的事物，比如说空中的音乐……”

“有时成千的叮叮咚咚的乐器在我耳边鸣响。”总统说。

野蛮人忽然容光焕发，惊喜地问：“你也读过莎士比亚的作品？”他问，“我以为在英格兰这种地方没人知道呢。”

“几乎没人，我是少数知道的人之一。你明白，这是本禁书。但是我是制定法律的人，自然也可以不遵守，我有豁免权。而马克斯先生，”他转过身对贝尔纳说，“恐怕你不能不遵守。”

贝尔纳陷入了绝望的深渊。

“为什么是禁书？”野蛮人问道。由于发现一个读过莎士比亚作品的人，他沉浸在兴奋中，暂时忘记了其他一切。

总统耸了耸肩，“主要的原因是它太古老了，古旧的东西在我们这里没有用。”

“就算它们很美好也没有用？”

“就是美好，所以才更没有用。美好的事物充满吸引力，我们不希望人们被老套的东西吸引，他们应该喜欢新事物。”

“可是新事物是那么愚蠢和恐怖。那些新话剧毫无内容，只有些飞来飞去的直升飞机和虚拟可感的亲吻。”他做了个鬼脸。“都是羊跟猴子！”只有在《奥赛罗》的世界里他才能为蔑视和仇恨找到合适的词语。

“它们是温顺而驯服的动物。”总统喃喃地插话道。

“为什么不让他们看《奥赛罗》？”

“我已经告诉你了，因为它很古老，再说他们也读不懂。”

这倒是真的，他记得亥姆霍兹是怎样嘲笑《罗密欧和朱丽叶》的。“好吧！”停顿了片刻，他说，“弄点像《奥赛罗》一样的新东西，他们能读懂的那种。”

“那正是我们想要写的东西。”亥姆霍兹打破了沉默。

“那是你永远写不出来的东西。”总统说道，“如果像《奥赛罗》，就没人能读懂，不管它有多新；况且，如果是新东西，就不可能像《奥赛罗》。”

“为什么不可能？”

“是啊，为什么不可能？”亥姆霍兹重复着，他也忘记了自己所处的危险境地。只有贝尔纳没忘，他绿着脸，满心焦急和顾虑，其他人都忽略了他。“为什么不可能？”

“因为我们的世界和《奥赛罗》的世界截然不同。没有钢就造不出汽车，同理，没有社会动荡就写不出悲剧。我们的社会安逸稳定，民众幸福，他们想要什么就有什么，不该得到的东西从不会奢求；他们富裕

而安全，没有疾病烦恼，从不畏惧死亡；他们满心喜悦，感受不到激情和衰老；他们无需为父母忧愁，没有妻子、儿女和情人，不会产生强烈的感情。一旦接受了条件设置，就不会超越设定的条件行动。万一出了岔子，还有唆麻来维持安定。对，就是你以自由之名丢到窗外的东西，野蛮人先生，哈哈，自由！”他大笑起来，“想要德尔塔们明白什么是自由，还想让他们读懂《奥赛罗》，你真是个天真的孩子！”

野蛮人稍作沉默，固执地坚持道：“无论如何，《奥赛罗》是好的，比任何感官剧都好。”

“这是当然，”总统表示同意，“但是我们需要为社会安定付出代价。人们必须在幸福生活和所谓的高雅艺术之间做出选择。最后，我们选择牺牲高雅艺术，以感官剧和芳香风琴来代替。”

“可那些东西毫无意义。”

“意义在于它们本身为观众带来了愉悦的感官享受。”

“但是它们不过是……傻子讲述的故事。”

总统大笑道：“你对你的朋友沃森先生很不礼貌啊，他可是最杰出的情感工程师之一。”

“约翰说得没错，”亥姆霍兹沮丧地说，“明明没什么可写的，还偏要写，我的确是个傻子。”

“正是如此，才需要巨大的创造力。什么都不用，仅仅利用感官就创造出艺术，相当于用最少的钢材去制造一辆汽车。”

野蛮人不住摇头：“对我来说太可怕了。”

“当然可怕。与苦难所得到的补偿相比，现实的幸福显得格外肮脏；稳定远没有动乱那样跌宕起伏、引人入胜；心满意足的生活不具备与灾难做斗争那种惊心动魄的魅力，也不像与诱惑决斗或是推翻激情和怀疑那样栩栩如生。幸福从来就不是伟大的。”

“确实如此。”沉默片刻后，野蛮人说：“但是为什么要创造这些多生子，走到如此糟糕的境地？”他用手擦了擦眼睛，试图擦去装配台前一排排相同面孔的侏儒的身影，擦去那些在布冷特福单轨火车站门口排成长队的多生子的影像，擦去琳达垂死之际在床边爬行的人蛆，擦去攻击者那无穷无尽重复的面孔。他看着缠在左手上的绷带，不由地打起寒战，“太恐怖了！”

“但是多生子们极其有用！我知道你不喜欢我们的波卡群，但是我很肯定地告诉你，他们是建立其他一切东西的基础；他们是陀螺仪，稳固国家这架火箭飞机，使其不脱离正常轨道。”那深沉的声音仿佛能够震动心魄，充满激情的手势暗示着整个宇宙和不可抵抗的社会机制洪流，穆斯塔法·孟德的能言善辩几乎达到了合成音乐的制作标准。

“我想知道，”野蛮人说着，“既然你从那些瓶子里能够得到任何你想要的东西，为什么你不把每个人培养成阿尔法双加呢？”

穆斯塔法·孟德哑然失笑：“因为我们不希望别人割断我们的喉咙，”他答道，“幸福与稳定是我们的信仰。一个仅有阿尔法的社会必然会出现不安定和痛苦。不妨设想一下，如果一家工厂里全都是阿尔法：阿尔法是互相分离、互不联系的个体。他们遗传优秀，条件设置为在一定限制下能够做出自由选择和承担责任。你想象一下吧。”他重复道。

野蛮人尝试着去想象，但没想出什么实质性的东西。

“结果就是荒谬。一个按照阿尔法标准换瓶、接受阿尔法条件设置的人怎么能干伊普西龙的工作呢，那些半白痴的工作会让他们发狂——对，发狂，或是摔东西。阿尔法并非不能社会化，但是得满足一个条件：让他们做阿尔法的工作。伊普西龙那种牺牲自我奉献社会的行为只能由伊普西龙完成，因为对他们来说，这不是一种自我牺牲。他们是最没有抵抗力的一群人，条件设置决定了他们的人生轨迹，他们只能循着这条路走下去，因为命运早已被决定，不可避免。即使换了瓶，他们仍然被禁锢在一个无形的瓶子里——保持着婴儿或胚胎的生活形态。”“当然，我们每个人都一样。”总统沉吟着说道，“都在瓶子里度过人生。如果有幸生为阿尔法，瓶子相对而言会广阔很多。被关在狭小瓶里的阿尔法，将犹如困兽一般痛苦。这道理很浅显，你不能把高种姓的香槟倒进低种姓的瓶子里。而且我们也在实践中证实了这一点：塞浦路斯实验的结果很有说服力。”

“塞浦路斯实验？”野蛮人问。

穆斯塔法·孟德笑着说：“如果你愿意，可以叫它重新换瓶实验。实验开始于弗德纪元四七三年，当时的总统撤离了塞浦路斯岛上所有居民，让预先选好的两万两千个阿尔法住了进去，给他们配备所有农业和工业设备，让他们自行管理岛屿。结果与理论猜想不谋而合，土地荒芜低产，工厂罢工不断，法律如同虚设，命令不予执行，被分配做低等工作的人用尽心机谋取高等职位，从事高等工作的人互相勾结、不计代价地维护其优势地位。不到六年时间，就爆发了激烈的内战，二万二千人中死去了一万九千人。幸存者一致请愿，要求世界总统恢复对岛屿的统治。这就是结局，史上唯一仅有的阿尔法社会就这样消亡了。

野蛮人深深地叹了口气。

“按照冰山模式，”穆斯塔法·孟德说，“人口的最佳比例为：九分之八在水下，九分之一在水上。”

“在水下的人们幸福吗？”

“比水上的人幸福。比如说，比你旁边这两位朋友幸福。”他指着两个阿尔法说。

“但他们做着那么可怕的工作。”

“可怕？他们可不这么想。相反，他们乐在其中，不仅清闲，还简单得像小孩子的玩意，没有身心负担。七个半小时的体力活不算繁重，之后还能领取唆麻，尽情地游戏、性交和欣赏感官剧。他们别无所求了。”他继续补充，“当然，他们可能会要求缩短工作时间，我们也会满足他们。从技术上讲，可以毫不费力地把低等工种的工作时间缩短为一天三到四个小时。问题是，他们会为此感到更幸福吗？答案是不会。一个半世纪之前，进行了一次实验，将整个爱尔兰岛的工作时间改为一天四小时，结果怎样呢？社会开始动荡，唆麻消费量剧增，仅此而已。三个半小时的额外闲暇远远不能成为幸福的源泉，相反，人们倍感拘束，都选择去度唆麻假日。发明局里有数千份节省劳力的计划案。”穆斯塔法·孟德做了一个手势，强调数量极大。“为什么我们不执行这些方案？是为劳动者着想：过多的闲暇对他们来说是残酷的折磨。不仅是工业，农业上也一样。如果我们愿意，可以人工合成所有食物，但是我们宁愿保留三分之一的农业人口，维护他们的利益，因为从土地上收获食物比工厂制造食物要慢得多。此外，考虑到社会的稳定性，我们避免进行改变，每一次改变都可能威胁社会稳定。这就是为什么我们对采用新发明格外谨慎。纯粹的科学发现具有潜在的颠覆性，有时，甚至得把科学看待为敌人。是的，即使是如此有用的科学。”

科学？野蛮人皱起了眉头。他听过这个词，但是究竟是什么，他也不说不清楚。莎士比亚和印第安村的老人从未提到过科学，从琳达那里也只了解到几条浅显的线索：科学是用来制造直升飞机的东西，是让玉米舞显得可笑的东西，是让人不长皱纹、不掉牙齿的东西。他竭尽全力想理解总统的意思。

“没错，”穆斯塔法·孟德说，“这是为保证稳定而付出的另一个代价。不光是艺术，科学也跟幸福相悖。科学具有危险性，我们必须提防它，给它拴上锁链，戴上口络。”

“什么？”亥姆霍兹大吃一惊，“可我们都认为科学就是一切。这是睡眠学习中的陈词滥调。”

“每周三次，每次从十三点到十七点。”贝尔纳抓住机会插话。

“还有我们在大学里做的宣传……”

“对，但是宣传的是哪种科学？”穆斯塔法·孟德尖酸讽刺地说，“你们没有接受过科学训练，所以没法判断。我年轻时是个杰出的物理学家，心地太纯良，根本没意识到我们的科学不过是本烹饪书。谁都不能质疑书上的正统烹饪理论。没有厨师长的特别允许，谁都不能向书中添加新的菜谱。现在我成为了厨师长，但曾经我也是个爱打破沙锅问到底的年轻洗碗工，那时，我依自己的想法，搞一些邪门歪道、不合法的烹饪。其实就是真正的科学。”他沉默了。

“那后来呢？”亥姆霍兹·沃森问。

总统叹了口气：“几乎和你们这些年轻人一样，我差点被送到一个岛上。”

这些话对贝尔纳来说犹如晴空霹雳，刺激他说出不得体的话：“把我送到小岛上？”他从座位上跳了起来，飞快地穿过房间，冲到总统面前手舞足蹈地解释。“你们不能把我送去岛上，我没做过任何坏事，都是他们做的，我发誓是他们做的。”他带着责备的意味指着亥姆霍兹和野蛮人。“我求求您，别送我去冰岛，我保证以后只做分内的事，再给我一次机会，请您再给我一次机会。”眼泪哗哗流出。“听我说，这都是他们的错！”他啜泣着，“别送我去冰岛，我求您，总统阁下，求您了……”他如此卑微落魄，屈着双腿跪倒在总统面前。穆斯塔法·孟德试着扶他起来，但贝尔纳坚持要跪着，“吱吱呀呀”说个没完，最后总统只好按铃召来第四秘书。

“带三个人过来，”他命令道，“把马克斯先生带到卧室，给他注射一剂唆麻，让他上床睡一会。”

三个穿绿制服的多生子侍从跟从第四秘书进入房间，拉走了仍然在叫喊和啜泣的贝尔纳。

门关上时，总统说：“别人肯定以为我要把他的喉咙割掉呢。如果他还有点脑子，应该明白对他的惩罚其实是种奖励。被送到岛上，就能遇到世界上最有趣的男人和女人。那里的人因为种种原因而变得过于独立自主，不能融入集体社会。他们有自己的想法，不喜欢正统观念。几乎每个人都有自己的个性和特点。我几乎要嫉妒你了，沃森先生。”

亥姆霍兹大笑着说：“那你为什么不去岛上？”

“因为最终我还是更喜欢这里！”总统回答说，“他们当时给我两个选择：被送到岛上，在那里继续搞纯科学研究；或者进入总统委员会，将有机会成功继任总统。我选择了后者，放弃了科学。”一小会儿的沉

寂之后，他接着说，“有时候，我为自己放弃科学感到遗憾。幸福是个难伺候的主人，特别是别人的幸福。如果人们没有被设置为毫无疑问地接受幸福，那么幸福远远比真理更难伺候。”他叹着气，又陷入沉默，然后换了一种轻快的语调说，“好吧，职责就是职责，不能为自己的喜好讨价还价。我喜欢科学，爱好真理。但真理威胁社会，科学危害公众。他们是双刃剑，有用但危险。我们利用它实现了历史上最稳定的平衡。跟我们的安稳社会比起来，从前的国家简直是无可救药的动荡；即使是原始社会的母系氏族也比不上我们的稳定。我要再次表达对科学的感谢。但是，我们不能让科学毁掉自己的成果，这就是为什么我们要小心谨慎地限制科学研究范围——也就是为什么我差点被遣送到岛上。科学只能被用来处理目前最紧急的问题，其他任何探索都应刻意回避和遏止。”

稍作停顿之后，他说：“有件事很有趣，就是阅读我主弗德时代的人们写下的关于科学进步的书。他们似乎猜想科学可以无视其他限制而无穷无尽地发展。当时，知识是最高尚的品德，真理拥有无上的价值；其他一切都处于次要和附属地位。但观念在慢慢地改变，我主弗德做了很大的努力，将对真理和美丽的追求转变到舒适和幸福。大规模的生产需要这种转变。不同于真和美，众人的幸福是社会齿轮稳定转动的唯一保证。况且，只要群众掌握了政权，幸福就会是最重要的，而非真理和美丽。尽管如此，当时并没有限制科学研究。人们还是把真理和美当做至高的善，继续热切讨论和研究，直到爆发九年战争。九年战争彻底改变了论调。但你身处炭疽炮弹的烟雾之中，那些真理、美和知识又有什么意义？九年战争之后，科学第一次受到控制。那时的人们连食欲都得控制才能生存下去。为了安稳的生活可以做任何事，包括进行多方控制。诚然，我们牺牲了部分真理，却造就了幸福。俗话说有得必有失，要想得到幸福就得付出代价。所以，沃森先生，你现在就得付出代价，

因为你碰巧太过追求美丽。我曾经太过追求真理，也付出过代价。”

长时间的沉寂，野蛮人打破沉默说：“但你没有被流放到岛上。”

总统微笑道：“我付出的代价就是提供幸福，为他人提供，而不是为我自己。”停了一会，他补充道：“你们很幸运，世界上有很多不同的小岛，多到我不知道应该把你们送去哪个岛了。把你们放进毒气室如何？顺便问一下，沃森先生，你喜欢热带气候吗？马库塞斯岛怎样？萨摩亚群岛呢？或是什么让你更心旷神怡的地方？”

亥姆霍兹从气垫椅上站了起来，“我宁愿去气候恶劣的地方，”他回答说：“气候越恶劣，我越有可能写出好作品。最好时常有一些狂风暴雨。”

总统充满赞许地点头：“沃森先生，我很欣赏你的精神。欣赏的程度不亚于我站在总统立场上反对它的程度。”他笑着，“弗兰克群岛怎样？”

“这主意不错，”亥姆霍兹回答说。“现在，如果你不介意，我想去看看可怜的贝尔纳。”

第十七章

“艺术、科学.....你们似乎为幸福付出了很高的代价。”只剩两人时，野蛮人问：“还牺牲了别的什么吗？”

“当然还有宗教。”总统回答说。“九年战争之前，曾经有些被称为上帝的东西。我基本都忘了，你知道关于神的一切，对吧？”

“嗯.....”野蛮人犹豫了。他本想说说寂寞、夜晚、月下苍白的山坡、从悬崖上堕入黑暗和死亡，他想畅所欲言，却找不到合适的词，即使在莎士比亚的世界里也找不到。

总统走到屋子另一边，打开一个嵌在书架隔墙间的大保险柜。厚重的柜门晃动着打开，总统在黑暗的柜子里翻寻着什么。“我曾经对这个课题很感兴趣，”他说着，搬出了一本黑色的厚书，“没读过这本书吧？”

野蛮人接过书，大声朗读书名——“《圣经：新旧约全书》。”

“这本呢，也没读过吧？”他拿出一本已丢失封面的小书。

“《效法基督》。”

“这本也是。”他又递过一本。

“《宗教经验种种》，威廉·詹姆士著。”

“我还有很多这样的书，”穆斯塔法·孟德接着说，“一整套肮脏古旧

的书。看，上帝在保险柜里，弗德在书架上。”他大笑着指着他所谓的图书馆：一排排书柜，摆得满满的阅读机线圈和录音带盘。

“既然你知道上帝，为什么不告诉他们？”野蛮人愤愤不平地问，“为什么不让他们读关于上帝的书？”

“和禁止《奥赛罗》的理由一样：太过古老。它们记载着成百上千年前的上帝，而不是现在的上帝。”

“但是上帝不会变。”

“人却会变。”

“那又有什么问题？”

“天大的问题。”穆斯塔法·孟德说，他又站了起来，走向保险柜，“从前有个叫纽曼的人，”他说，“是个红衣主教，”他补充道，“还是那种社区一流的歌唱家。”

“哦，红衣主教潘杜尔夫，来自迷人的米兰，我在莎士比亚的作品里读到过。”

“对，你肯定读到过。嗯，我刚刚说到有个纽曼主教，这是他写的书。”他抽出书本，“既然要谈这本书，还得说说另一本，德·拜伦写的。他是个哲学家——如果你知道哲学家是什么的话。”

“是那种梦想不多的人，想的东西比天地间的事物少得多。”野蛮人马上回答。

“对。现在我就给你读一段确实由他梦想出来的东西，听听这位古

代一流歌唱家说的话。”他翻到夹着小纸条的那一页读起来：“我们对自己的支配远比不上对拥有物的支配。我们不是自己的主人，而是上帝的财产。因为我们既没有创造自己，也不能超越自己。这样看待问题，难道不会更加幸福吗？从属于自己又能得到什么慰藉和幸福呢？富有的青年才俊可能不这么想，他们认为按照自己的设想和方法做事很伟大，可以不依赖任何人，不用顾虑视野之外的风景，没有不停认知、不停祈祷、不停询问他人的烦恼。但是随着岁月流逝，他们会和其他人一样，发现人类本不应该独立——独立是一种不自然的状态。维持一段时间独立固然可能，但不能让我们安然走到生命尽头。”穆斯塔法·孟德停下来，放下第一本书，翻开第二本，“以这一段为例，”他打开低沉的嗓音读起来：“人总是要老的；随着年月的增长，会强烈地感觉到脆弱、疲惫和不安。为了平息这种恐怖的感觉，他会想象自己病了，告诉自己这种窘境来源于某些特殊原因，和疾病一样是可以克服和痊愈的。但这是徒劳无用的遐想！他们患上的是名为‘衰老’的可怕疾病。有人说，驱使老年人依附宗教的正是对死亡和死后世界的恐惧。但我的自身体验让我坚信：宗教感情与此类恐惧或遐想并没有联系，而是随着年龄的增长而增长。年轻时理智总是被想象、欲望和妄想扰乱，当岁月磨平了激情，消钝了想象力和敏感度，理智就能够不受干扰地活动。有如拨开云雾见青天，上帝出现在面前。我们的灵魂看到、感觉到光明的源头，并向它靠近过去，那么自然而不可避免。从此，寄予感官世界的生命和魅力开始离我们而去；从此，那些非凡的存在不再受到内在或外在印象的支撑。我们需要依靠一些持续存在、不会欺骗我们的东西——现实，一种纯粹而永恒的真理。是的，对上帝的依附是不可避免的。因为宗教情绪的本质是那么纯净，带给灵魂的感受是那么愉悦，几乎弥补了所有的失落。”

穆斯塔法·孟德合上书，整个人靠在椅背上。“天地间有千千万万哲

学家想象不到的事，比如说我们。（他挥开手臂）我们这个现代化的世界。‘拥有青春和财富才能独立于上帝，独立并不能让人安然走到生命尽头。’而现在的我们，恰恰拥有青春和财富并安然走到最后。结论很明显，我们能够独立于上帝。‘宗教感情将抚慰我们所有的失落’，可我们从未感到失落，不需要抚慰。宗教感情是累赘的。既然青春的欲望永不熄灭，为何要寻求欲望的代替品？既然古老单纯的活动能让人尽情享受，为何要寻求娱乐的替代品？既然在日常活动中保持身心愉快，休息又有何用？既然唆麻能安抚我们的情绪，安慰又有何用？既然社会平稳有序，永恒不变的依赖又有何用？”

“所以说，你认为上帝不存在？”

“那倒不是，我认为应该是存在的。”

“为什么……”

穆斯塔法·孟德制止了提问，“在不同人面前，上帝具有不同的形态。现代化社会到来之前，上帝表现出这本书中描述的形态。而现在……”

“现在是什么形态？”野蛮人问。

“虚无。就像从未存在过。”

“这都怪你们。”

“不，这都怪文明。机械、医学和普遍的幸福不容许神的存在。这是个艰难的选择。我们的文明选择了机械、医学和幸福。正因如此，这些书被锁在保险柜里。它们太过肮脏，会让人觉得不舒服……”

野蛮人打断了他：“感受到上帝存在不是自然而然的吗？”

“你怎么不问，穿裤子拉拉链是自然而然的吗？”总统讽刺地说：“说到这，我想起一个叫布拉德利的老家伙，他认为哲学就是为人类出于本能相信的东西找一个糟糕的理由。好像人类生来就有信仰似的。人相信什么是由条件设置决定的。因为某些糟糕的理由而产生信仰，然后又去寻找新的糟糕理由，这就是哲学。人们信仰上帝，是因为他们被设置为有这种信仰。”

“尽管如此，”野蛮人坚持说，“当你感到孤独——特别是在夜晚思考死亡时，会自然地想到上帝。”

“如今世界可没有孤独的人，”穆斯塔法·孟德说，“我们教他们憎恨孤独；况且，他们的生活早已被设置好，没有感受孤独的空隙。”

野蛮人沮丧地点了点头。在马尔佩斯，人们冷眼拒绝他参与印第安人集体活动，他深受孤独之苦；在文明都市伦敦，他逃离不开日日夜夜的社交活动，找不到安静与孤独，还是深深的痛苦。

“不知你是否记得《李尔王》中的一段话，”野蛮人沉默许久后终于说话。“‘公正的天神将我们的风流罪过化作惩罚我们的工具；他在黑暗淫邪的地方生下了你，结果丧失了他的眼睛。’你记得吗，当时艾德蒙受了伤，在垂死边缘回答，‘你说得不错；天道的车轮已经循环过来了。’这说的难道不正是扬善惩恶的上帝吗？”

“哦？是这样吗？”总统反问道，“即使你跟一个不孕的淫妇肆意放荡风流，也没有什么风险，不会有儿子的情妇来挖你的眼睛。‘天道的车轮循环，我就在这儿。’如果艾德蒙生在今日会怎样？坐在气垫椅里，揽着美女的腰，一边嚼性激素口香糖一边看感官剧。天神当然是公

正的，但是神的法典由社会的高层组织者来传播执行。神要遵从人的指令。”

“你确定吗？”野蛮人问道：“你真有把握说，坐在气垫椅里的艾德蒙没有像那个受伤濒死的艾德蒙一样遭受严重的惩罚？公正的天神难道不会因为他的淫乱风流而让他堕落吗？”

“为什么要惩罚他？一个快乐开朗、勤奋工作、合理消费的完美公民？当然，如果你采用不同的判断标准，可以认为他堕落了。但是人们得遵循同一套原则，不能玩着电磁高尔夫，却用着调皮狗离心球的规则。”

“但是价值不取决于个人的意愿。”野蛮人说：“首先它本身得有宝贵之处，然后需要评判人承认它的珍贵，才能得到肯定和尊重。”

“行了，行了！”穆斯塔法·孟德抗议道，“我们离题千里了。”

“如果你想到上帝，就不会允许自己堕入邪恶的深渊。你会在信念的支持下坚强地忍耐、勇敢地处事。我在印第安人身上看到了这一切。”

“你看到过这些，我相信。”穆斯塔法·孟德说。“但是我们不是印第安人，没有必要让文明人忍受磨难和困苦。至于勇敢处事——这种观念为弗德所禁止。如果各行其是、肆意而为，社会秩序将荡然无存。”

“那克己精神呢？如果信仰上帝，就有了克制自己的理由。”

“只有消除克己观念，工业文明才能长存。为了社会齿轮的顺利运转，我们需要自我放纵，越放纵越好，直到健康与经济无法承受。”

“有了上帝，你们会洁身自爱！”野蛮人有些脸红地说。

“贞洁意味着热情和神经衰弱，两者都意味着不稳定，不稳定意味着文明的终止。文明的长久依赖于淫邪放荡。”

“一切高贵、美好和英勇的事物都依赖于上帝的存在，如果你们信仰上帝……”

“亲爱的孩子，”穆斯塔法·孟德说：“你得知道，高贵和英勇的事物对我们的文明没有意义。这些东西都意味着政策的低效。我们的社会井然有序、组织严密，没有人有机会成为高贵之人或英雄。只有社会动荡不稳，才能产生这种机会。高贵和英勇的品质什么时候能显现作用？战火绵延时、人心分裂时、抵抗诱惑时、保护所爱之人并为之奋斗时。但是现在没有任何战争；最需要防范遏止的是对某人太过依恋。没有观念分歧和人心分裂；每个人都被设置为做好自己分内的事。没有任何诱惑需要抵抗，因为要做的事情总是很愉快，又可以肆意放纵原始的冲动。就算不幸发生让人不悦的事情，还能依靠唆麻无忧无虑地度个假，忘记现实的烦恼。唆麻还能平息怒火，化解敌对与争执，增加耐心和忍耐力。过去，人们需要付出极大努力，经过数年的精神训练才能达到这点，而现在，吞下两三片半克唆麻足矣。任何人都可以轻易变得高尚。一瓶唆麻能装下至少一半分量的美德。可以说，唆麻就是没有眼泪的基督教。”

“眼泪是必不可少的。难道你不记得《奥赛罗》里的话？‘要是每一次暴风雨之后，都有这样和煦的阳光，那么尽管让狂风肆意地吹，把死亡都吹醒吧！’有个印第安老人讲过一个故事，主角是个叫玛特莎吉的姑娘，想娶她的年轻小伙子必须到她的园子里干一上午的农活。这个任务看起来轻而易举，但是园子里有许多有魔力的苍蝇和蚊子。几乎没有

人能够忍受蚊虫的叮咬，除了一个小伙子，他最终赢得了美人的芳心。”

“好个精彩的故事！但是在文明的国度，”总统说，“不用干农活就能拥有美丽的姑娘，也没有苍蝇蚊子的骚扰。我们早在几个世纪前就消灭了蚊虫。”

野蛮人双眉紧蹙地点了点头：“你们消灭了蚊虫。的确，这很像你们的处事方式。消灭一切不愉快的事物，而不会学着去忍受。‘是否应默默地忍受坎坷命运的暴虐毒箭，还是应该拿起武器与苍茫苦海愤然为敌。’结果你们两者都没有选择，既不选择忍受，也不选择对抗，而是直接废止了毒箭，如此简单。”

他忽然沉默无语，想起了母亲。在三十七层的房间里，琳达漂浮在歌声的海洋中，有璀璨的光辉，有芳香的抚慰。她漂浮而去，脱离了空间，脱离了时间，脱离了苦涩回忆、陈年旧习、臃肿身躯的牢狱。至于托马金，曾经的培育及条件设置主任，现在还在度唆麻假日——这是他逃避屈辱和痛苦的唯一手段。在那个世界，他听不到冷言冷语，听不到尖酸嘲讽，看不到狰狞面孔，感觉不到两只松弛潮湿的手臂搭在自己的臂膀。那是一个美妙的世界……

“你们需要改变，”野蛮人继续，“需要创造些带来眼泪的东西。这儿的東西都没有眼泪值钱。”

（当野蛮人这么提议时，亨利·福斯特曾经抗议说：“一千二百五十万美元，是新条件设置中心的造价，一分都不少。”）

“‘为了一个颗粒不收的弹丸之地，敢于面对死亡和一切没有把握的事情，面对命运、死亡与危险。’从这里难道得不到什么启发吗？”他

抬头凝视着穆斯塔法·孟德，“与上帝无关——当然上帝也可能是理由之一。危险的生活难道没有什么好处吗？”

“好处很多，”总统回答，“所以男男女女都应该时不时刺激一下肾上腺。”

“什么？”野蛮人一头雾水。

“这是确保完全健康的条件之一。所以我们才强制推行V.P.S治疗。”

“V.P.S治疗？”

“激情替代治疗，每月定时执行一次。我们向身体各个系统注入肾上腺激素。这样，可以在生理上达到与恐惧和狂怒相同的效果。这个治疗能够迅速补充激情，程度不亚于杀死苔丝狄蒙娜和被奥赛罗杀死时的情绪波动，还没有任何不方便。”

“与之相比，我更喜欢不方便。”

“我们不一样，”总统说，“我们更青睐舒舒服服办事。”

“我不渴求舒适，我渴求上帝，渴求诗歌，渴求真正的危险，渴求自由，渴求善良，渴求罪恶。”

“实际上，你在要求遭受苦难的权利。”穆斯塔法·孟德说。

“那好，”野蛮人挑衅地说，“我现在要求遭受苦难。”

“你还没有提到衰老、丑陋和阳痿的权利，患梅毒、癌症的权利，匮乏、饥饿的权利，惹人厌恶的权利，无时无刻不在惧怕未来的权利，

患伤寒的权利，承受难以名状的折磨的权利。”许久的沉默冻结了空气。

“我要求这一切。”野蛮人最后说。

穆斯塔法·孟德耸耸肩：“那就如你所愿。”

第十八章

贝尔纳和亥姆霍兹走进半开的门。

“约翰！”

浴室里传出来了野蛮人特有的声音，其中明显夹杂着几分不畅快。

“怎么回事？”亥姆霍兹高声询问。

没人回答。不畅快的声音紧接着又重复了两次，而后是一片寂静。

片刻后，浴室的门“咔嗒”一声打开了，野蛮人脸色苍白地走出来。

“我说，”亥姆霍兹担心地说：“你肯定是生病了，约翰！”

“是不是吃了什么不好消化的东西？”贝尔纳问道。

野蛮人点点头。“我把‘文明’吞下了肚。”

“什么？”

“我中了它的毒，染了它的污浊。然后，”他压低嗓子说，“我还吞了自己的‘邪恶’。”

“好吧，不过你究竟……我的意思是说，刚才你……”

“我已经洗净了灵魂，”野蛮人说，“刚刚我喝了芥末水。”

两个人都目瞪口呆地看着他：“你是故意这么折腾自己的？”贝尔纳问道。

“印第安人就是用这种方法来净化身心的。”野蛮人坐了下来，叹了口气，抹了抹额头。“我得休息一会，”他说，“我真的很累。”

“嗯，累是肯定的。”亥姆霍兹寻思了片刻说道，“我们是来道别的。”他用另外一种声调说，“明天一早就出发。”

“对，我们明天就走了。”贝尔纳说，从他的脸上，野蛮人察觉出一种屈服于命运的决心。“还有，约翰，”贝尔纳坐了下来，身子前倾，手放在野蛮人的膝盖上，“我想说，关于昨天发生的一切我深感歉疚。”他的脸刷地红了，“我很惭愧！”尽管他的声音听着起伏不定，但他还是说了下去，“我真的非常……”

野蛮人突然打断了他，亲切地握紧了他的手。

“亥姆霍兹对我很好，”贝尔纳停顿了一会，说：“如果不是他，我早就……”

“够了，够了。”亥姆霍兹抗议道。

一阵沉默。此时大家都很伤感，因为他们都彼此爱护——正因如此，三个年轻人又释怀了。

“今天早上，我去见了总统。”野蛮人终于开口打破沉默。

“去干什么？”

“问他是否能让我和你们去一个岛。”

“他怎么说？”亥姆霍兹急切地问。

野蛮人摇了摇头：“他不准。”

“为什么？”

“他想继续这个试验。但是我绝对不会配合的！”野蛮人突然暴怒了：“他妈的，我才不做他的试验品，就算全世界所有的总统来找我，我也不会屈服。明天我就走人。”

“可是你能去哪里呢？”两人异口同声地问。

野蛮人耸了耸肩。“哪儿都行，我不在乎。让我孤孤单单就好。”

从吉尔福德到朴茨茅斯的下行路线是途经韦峡谷到达戈德尔明，穿过米尔福德、威特利和黑斯尔米尔，再从彼得斯菲尔德挺进目的地。上行线路基本和这条路平行，需穿过沃普赖斯顿、东哈姆、帕特纳姆、爱斯特德和格雷舒特。这两条路线都分布在拱脊山和鹿头谷之间，有几处距离很近的地方，相隔不到六七公里。对于某些粗心大意的飞行员来说，这距离近得过于危险了，特别是在夜里服用了一克唆麻后。这个地带曾经出现几起严重的事故。曾有人打算将上行路线向西挪几公里。因此，在格雷舒特和东哈姆之间修建了四座空中灯塔，照亮朴茨茅斯到伦敦的航程。如今已经废弃了。灯塔顶上是一片荒寂的天空。而塞尔伯恩、伯顿和法纳姆的上空，则有直升飞机不停地盘旋和轰鸣。

野蛮人选择了旧灯塔作为隐居地，地点位于帕特纳姆和埃尔斯特德中间的山顶上。建筑是钢筋水泥铸成的，至今还算牢固。野蛮人最初考察这个地方时，觉得过于舒适了，可以说是现代文明中的奢华之地。因此，他发誓要更加严格自律、诚心忏悔，以洗涤罪恶和抚慰良心。在隐

居地度过的第一个夜晚，他坚忍着一夜未眠。他长时间跪地祷告，就像愧疚的克劳迪斯祈祷得到宽恕一样，时而用祖尼语向阿瓮纳威龙祷告，时而又向基督和菩公祷告，还向他的守护神灵——老鹰祈祷。他不时地平伸双臂，就像被钉在了十字架上，然后长时间保持姿势，直到手臂渐渐变得酸痛、颤抖，疼到难以忍受。他自愿承受着十字架苦刑，忍痛咬紧牙关（此时，那不断渗出的汗水也顺势往下淌着），不时地挤出几句话来：“啊，请宽恕我吧！啊，请净化我吧！啊，请助我保持善良！”他一遍又一遍地重复，直到痛得临近晕厥。

晨曦时分，他觉得自己已经获得了定居灯塔的权利；尽管大部分窗户上镶着玻璃，但是从瞭望台上看出去，那风景着实优美怡人。对于他来说，选择到灯塔隐居的理由，几乎成为他要另寻他处的原因。之所以选择灯塔，是因为这里风景如画，仿佛可以看到上帝那无形的圣体。可是，他又算得了什么人物，有资格每天、每小时都享受美妙的风景，和上帝的圣体生活在一起？他只配住在肮脏的猪棚或漆黑的地洞。熬过一夜之后，他仍浑身僵硬酸疼，但也是这种疼痛让他觉得良心稍安。他爬上塔顶的瞭望台，观赏着这个被明媚日出照亮的世界，他欣然授予自己在此居住的资格。他的视线被北面拱脊山那绵延的白垩山脉挡住了，群山东边尽头的后方矗立着七座摩天大楼，标志着吉尔福德。野蛮人看着那些大楼露出苦涩的表情。但是随着时间的推移，他不得不与它们和谐相处。在夜里，它们有时像几何形的星星般喜气洋洋地眨着眼睛，有时像发出火焰光芒的手指，庄严地指向那深不可测的神秘天堂。那手势的意义，整个英格兰除了野蛮人之外，恐怕再也没人能体会。

灯塔矗立的小山和拱脊山之间是个峡谷，里面有个不起眼的小村落，叫帕特纳姆，一共有九层，有竖井，有家禽农场，还有一个维他命D小工厂。灯塔的南面是一个长长的斜坡，上面开满了杜鹃花，地势向

下延伸，通向一连串的池塘。

池塘后森林的上空，十四层楼高的埃尔斯特德大楼拔地而起。英格兰典型的昏暗阴霾天气让鹿头谷和塞尔伯恩若隐若现。但是，吸引野蛮人来到这座灯塔的并非朦胧的远景，近处的风景也同样充满诱惑。葱郁的森林，绵延的杜鹃花，鲜艳的金雀花，还有一片片苏格兰冷杉。在那碧波荡漾的池塘上，桦树的枝条探出手来轻抚水面，池塘中的睡莲和灯芯草安然摇曳，这些景色都太美了，对于早已习惯了美洲沙漠的干涸双眼来说，此等美景太过震撼心灵。而且，这是个人迹罕至的地方。许多天来，他却始终没见过一个人影。坐飞机从切林T字形塔楼到灯塔只需一刻钟，但是萨里的荒原比马尔佩斯的群山还要荒僻。每天蜂拥着离开伦敦的人群目标往往是电磁高尔夫球和网球。帕特纳姆没有高尔夫球场，而最近的黎曼网球场在吉尔福德。这儿最迷人的东西就是鲜花和美景。所以，如果没有特别的理由，基本不会有人来这里。野蛮人度过了一段不受打扰、与世无争的时光。

他初到伦敦时曾领取过一笔生活费，大部分都花在了装备上面了。离开伦敦前，他买了四张纤维胶羊毛毯、绳子和线、五金件、胶水、必要工具、火柴（不过他打算以后做个火钻）、锅碗瓢盆、两打盒装的种子以及十公斤小麦粉。“不，不要人工合成淀粉和废棉替代面粉。”他曾态度坚决地说，“多营养都不要。”但是，面对着腺素饼干和维他命化牛肉替代品时，他没能拒绝店主的劝诱。看着买来的一盒盒罐头，他为自己的懦弱而自责。这些可憎的文明产品！他下定决心，即使饿到不行，也永远不吃这些东西。“这样会给他们一些教训”，他怀恨地想。但这也会给他自己一些教训。

他数了数剩下的钱，希望仅有的这点钱足够让他度过寒冷的冬天。等到明年春天的时候，他的菜园里就会收获足够的粮食，让他脱离外面

的世界，开始独立的生活。再说还能捕猎。他曾看到过很多野兔，池塘那边也有很多水禽。他立即开始做起弓箭来。

灯塔附近有很多白杨树，灌木丛中也长满了漂亮笔直的榛树树苗，这些都是做箭杆的好材料。他先试着折断一棵白杨树的树苗，然后砍下了六英尺长的没有枝丫的树干，一刀一刀地削掉了树皮，刮掉白色的树痂，按照老米西玛所教他的方法，削出一根和他一样高的杆子，中间的部分很粗很硬，保证弓的结实，两端偏细，便于增加韧性。这项工作让他乐在其中。在伦敦，无论做什么都不需要自己动手，如果想要任何东西，只需按下按钮或是转一下把手。经历过无所事事的文明生活后，这种需要技术和耐心去完成的工作给约翰带来一种纯粹的快乐。

当他快要将杆子削成型时，他突然意识到自己在唱歌——唱歌！就好像他从外面回来时，恰好撞上自己在干坏事。他觉得自己的行为简直罪大恶极，愧疚得涨红了脸。毕竟，他来这里并不是为了唱歌和享受，而是为了躲避文明社会的污泥，为了净化受玷污的自己，为了积极地赎罪。他惊愕地意识到，在他专心致志做弓箭的时候，竟然完全忘记了许下的誓言。他曾发誓要永远记得可怜的琳达，记得自己对她致命的伤害，记得那些无视琳达的死亡、像成群虱子般爬来爬去的多生子。这些场景不仅是对他的悲伤和忏悔的嘲讽，更是对神灵的侮辱。他发誓会记得这一切，发誓要永不止息地赎罪。可现在他却高高兴兴地坐在这里做弓箭，还唱起歌来，居然还唱歌……

他走进屋里，打开芥末酱，掺上水，在炉火上煮起来。

半小时后，三个同一波卡小组的德尔塔减农民碰巧从帕特纳姆驱车驶往爱斯特德，到达山顶的时候，发现一个年轻人站在荒废的灯塔外，正在用带有绳结的鞭子抽打自己，背上烙下一条条鲜红的鞭印，每一鞭

下去，都有血淌出来。卡车司机停下车，和两个同伴一起盯着这不可思议的场面，目瞪口呆。一下，两下，三下，他们在数鞭打的次数。在第八下之后，年轻人停下了自我鞭笞，跑到树林边激烈地呕吐，之后又回来抓起鞭子使劲地抽打。九下，十下，十一，十二……

“弗德啊！”那个司机小声惊呼，其他两个多生子也发出了同样的惊呼。

“我主弗德啊！”他们喊道。

三天之后，像是土耳其秃鹰发现了尸体一样，记者们纷纷而至。

通过慢火的烘烤和硬化，弓箭做好了。野蛮人忙着做箭杆。三十只榛树树枝也已经被削好、烘干，他小心地在前端镶上了锋利的箭头。一天深夜，他在帕特纳姆的家禽农场发起了一次突袭，所得到的羽毛足以装饰整个武器库的弓箭。当他给弓箭加装羽毛的时候，第一个记者找到了他。记者穿着一双气垫无声鞋，悄然出现在他身后。

“哈罗！野蛮人先生！”他说，“我是《准点播报》的记者。”

仿佛被毒蛇咬了一口，野蛮人惊得跳了起来，弓箭、羽毛、胶水壶和刷子散落一地。

“对不起，吓到您了，”记者诚恳地道歉，“我不是故意的……”他碰了一下头上的帽子——那是一顶铝制的大礼帽，上边装着无线电接收器和发射器。“请原谅我不能脱帽行礼，”他说，“这帽子有些重。好了，正如我刚才所说，我代表《准点播报》……”

“你想干什么？”野蛮人戒备地盯着他。那记者又换上了谄媚的笑脸。

“呃，是这样，我们的读者对您很感兴趣……”他向一边侧了侧头，那笑容几乎是在卖弄风情，“我们想采访您，说个只言片语就好。”他熟练地将两根电线连接到腰间捆着的便携式电池上，又将它们插到铝制礼帽的两侧，按压帽子一侧的弹簧，天线“哧”地伸出来，又触碰另一侧的弹簧，话筒像惊奇盒里的小丑一样跳出来，悬挂在他鼻子前六英寸的地方摆来摆去。他将耳机架在耳朵上，按下帽子左边的按钮，只听里边传来了一阵黄蜂的嗡鸣；再转动帽子右边的把手，嗡鸣被一阵“呼哧呼哧”“吱吱咯咯”的声音取代。“喂，”他对着话筒说。“喂，喂……”这一系列动作一蹴而就，无比神速。突然，帽子里响起了一阵铃声：“埃兹尔，是你么？我是普利莫·梅隆。我找到野蛮人先生了，他即将拿起话筒说上几句，野蛮人先生，可以开始么？”他抬起头来看着野蛮人，脸上挂上了另外一种胜利般的笑容。“请告诉我们的读者您为什么会来到这里？为什么与都市伦敦不辞而别？（别挂机，埃兹尔！）当然，还想谈谈您鞭打自己的事儿。”（野蛮人愣了一下，他们怎么知道抽鞭子的事？）“我们对此非常好奇。然后不妨再谈谈文明生活。对于这些，您都是很清楚的，最好能说说‘对于文明姑娘的看法’。麻烦您给我们讲两句，哪怕是几个词……”

野蛮人按照他的建议说了五个词，一个词一个词地往外蹦。就是之前对贝尔纳说过的，评价坎特伯雷首席歌唱家的那几个词——“哈尼！松斯—唉索—切—纳！”他抓住了记者的肩膀，强扭过180度（这个年轻人出门前用心打扮了一番，穿得很时髦），瞄准目标，使出足球冠军才有的力气和技术，漂亮地一脚将他踹飞。

八分钟后，最新一期的《准点播报》新鲜出炉，在伦敦的大街小巷滚烫发售。头版标题赫然在目：“《准点播报》记者尾椎骨惨遭神秘野人踢伤，轰动萨里。”

“哈，还轰动了伦敦。”记者回来读到这篇文章时想道。但他的骨头也被“轰动”得挺厉害，连坐下吃饭都得小心翼翼，生怕触到痛处。

他受伤的事件并没有吓倒兢兢业业的记者同僚，另外四个来自《纽约时报》、《法兰克福四维联合报》、《弗德箴言科学报》和《德尔塔镜报》的记者在当天下午就拜访了灯塔野人，无一例外受到了更加残暴的“接待”。

跑到安全距离之后，《弗德箴言科学报》的记者一边揉受伤的屁股一边喊：“无知的混小子！吃了唆麻不就没烦恼了嘛。”

“滚远点！”野蛮人晃了晃拳头。

对方往后退了几步，又转身说：“服用几克唆麻后，你就会发现，坏事根本就不存在。”

“阔哈克瓦，伊雅托奇呀伊！”声音中充满了嘲笑和威胁。

“疼痛将会变成幻觉。”

“哦，是么？”野蛮人边说边捡起了一根粗大的榛树树干，大步走上前。

《弗德箴言科学报》的记者狼狈地冲回直升飞机里，躲了起来。

那之后，野蛮人的生活恢复了片刻平静。随后，几架直升飞机停到灯塔上空好奇地盘旋。野蛮人拉起弓，瞄准离他最近的那架纠缠不休的飞机，一箭击穿了机舱的铝地板，尖叫声划破长空，然后飞机调动了最大马力，像火箭发射般冲向云霄。之后，其他的飞机都在远处盘旋，不敢越雷池半步。他无视它们讨厌的轰鸣声（他把自己想象为玛特莎吉少

女的追求者，坚定不移地忍受长翅害虫的骚扰），专心开垦着他未来的菜园。过了一阵，那些害虫明显看腻了种菜的野人，一个个飞走了。天空恢复了明朗和安宁，只听见百灵鸟的歌唱。

天气闷得让人喘不上气来，空中电闪雷鸣。他整个上午都在锄地，现在伸展四肢躺在地上休息。突然，列宁娜的身影出现在脑海中，赤裸着身体，真切可感。她只穿着鞋袜，周身散发着香气，对他说“亲爱的！”，“搂着我！”那个不要脸的淫妇！可是，哦！她的手臂环上他的脖子，她起伏的胸脯和红唇近在眼前！永恒只在口中和眼里。列宁娜.....不，不，不！他跳了起来，半裸着身体跑出了屋子。杜鹃花的尽头处是一片灰白的杜松林。他猛地冲过去抱住那些枝干，绿色的松针刺向他的怀中，代替了他欲念中的那个光滑细腻的肉体。锐利的松针无情地刺痛了他。他努力回想可怜的琳达，想起她呼吸困难到说不出话，想起她紧握着他的双手和那难以形容的恐惧眼神。他曾发誓要永远记住可怜的琳达，但是萦绕在他脑海、不断折磨着他的身影依旧是列宁娜，那个他发誓要永远忘记的列宁娜。即使承受着针扎般的苦痛，他蜷缩的肉体还是无法控制地感受着列宁娜，那么真切。“甜心，甜心.....我如此渴求你，如果你也渴求我，还等什么.....”

鞭子就挂在了门边的钉子上，本来是用于“迎接”记者的。野蛮人疯狂地冲回屋，解下鞭子朝自己挥舞起来，绳结深深地嵌到他的肉里。

“婊子！婊子！”他每抽一下就大喊一声，就好像是在抽打列宁娜（他近乎疯狂地希望自己在抽打她），那个白皙、温暖、芳香、邪恶的列宁娜。“婊子！”随后，他用绝望的语气说：“琳达，原谅我。上帝，原谅我。我有罪。我是恶人.....不，不！你这个婊子，你这个婊子！”

三百米外，来自感官摄制厂的摄影大师达尔文·波拿巴藏在他小心

搭起来的树木遮蔽物后目睹了这整个过程。他的耐心和技巧终于得到了回报。他在一棵假橡树的树干中待了三天，在杜鹃花丛中趴了三个晚上，把麦克风藏在金雀花丛中，电线埋在了松软的灰沙里。七十二小时的艰苦磨难换来了这个荣耀的时刻——继他拍完那部叫好又叫座的感官剧《黑猩猩的婚礼》后最伟大的时刻。达尔文·波拿巴在他的摄影设备中爬行，拍下这所有的一切。“太棒了！”当野蛮人开始这一幕惊人的表演时，他自言自语道。“无与伦比！”他用望远镜照相机小心地对焦，镜头紧紧跟着移动着的目标。他调到更大的功率，拍下野蛮人扭曲狂乱的脸部特写（好极了）。按下转换按钮，使用慢镜头拍摄了半分钟（他很肯定这会产生绝妙的喜剧效果）；同时，听那鞭笞声、痛苦的呻吟、狂野的咆哮，都被录进了胶片旁边的录音带上，他尝试了声音加大的效果（天啊，无可置疑的精彩），能清楚听到叫声的间隙中，穿插着百灵鸟的欢叫；如果野蛮人能转过身去该有多好，就能给他血迹斑斑的背部一个完美的特写了——就在这一刻，野蛮人无比配合的转过身（真是难以置信的好运），让他的拍摄毫无缺憾。

“啧啧，简直太完美了！”拍摄结束后他不禁夸耀起自己，“太完美了！”他擦了擦脸上的尘土。只要把这些镜头拿到感官剧工作室，加上感官特效，一定会成为跨时代的伟大剧目。达尔文·波拿巴想，这简直可以和《抹香鲸的爱情生活》媲美了。弗德啊！未来多么美好！

十二天后，《萨里的野蛮人》公映了，在西欧所有豪华剧院里都可以切身看到、听到、感觉到这个震人心魄的故事。

达尔文·波拿巴的新片造成了巨大的反响和效果，公映次日的下午和晚上，约翰在穷乡僻巷的安逸与孤独被一群乘着飞机闻风而来的不速之客彻底破灭。

当时，他正在菜园里挖掘，也在他脑海中挖掘，努力寻找思想的本质。死亡——他一下又一下的挥动着铁锹，没有停歇。我们所有的昨天，不过替傻子们照亮了到死亡的土壤中去的路。他正思考的时候，响起了一声惊雷。他又铲起了一铁锹的泥土。琳达为何而死？为什么要让她一点点、一点点丧失做人的尊严，最后变成……他打了一个寒战。一块可亲可吻的腐肉。他把脚踏在铁锹上狠狠地压实土地。葛罗斯特说：“天神掌握着我们的命运，正像顽童捉到飞虫一样，为了戏弄的缘故而把我们杀害。”又一声惊心的轰雷。这是千真万确的道理，比真理本身还要真实。但是，同样也是葛罗斯特将天神称作仁慈的神明。睡眠是你所渴慕的最好的休息，可是死是永恒的宁静，你却对它心惊胆寒。死即睡眠，它不过如此！但在睡眠中可能有梦。他突然铲到了一块石头，弯腰把它拾了起来。那么，在死亡的睡眠中，会有什么样的梦呢？

头上嗡嗡的轰鸣声已经变成咆哮，他突然间被笼罩在了阴影中，有什么东西隔开了他与太阳。他从挖掘和沉思中惊醒，抬起头望去，惊呆了，眼花缭乱，天旋地转。他的思维方才还徜徉在那个比真实还要真实的异世界中，还沉浸在死亡与神明的无边虚境。抬起头却看到头顶上“嗡嗡”作响的飞机，像蝗虫一样盘旋飞来，降落在了他周围的杜鹃花丛中。从这些巨大的“蝗虫”的肚子中，走出一群穿着白粘胶法兰绒衬衫的男人和穿着绸质睡衣裤或棉绒短裤、低胸无袖衬衣的女人（天气实在是太闷热了），每架飞机上都走下一对。短短的几分钟时间，已经下来了十几对。他们在灯塔周围站成一圈，睁大眼睛看着，欢快地笑着，“咔嚓咔嚓”地按动照相机快门，像是喂猴子一样向他扔坚果、整盒的性激素口香糖和腺素黄油饼干。每一分钟，都有越来越多的人穿过拱脊山到达这里，络绎不绝的直升飞机像小溪一样流淌而至。这是一场噩梦的开端，从开始的十几个人变成了后来的几十个人，再变成了成百上千人。

野蛮人躲到藏身处，摆出困兽的姿态，无助地靠在灯塔里的墙上，看着数不清的面孔，恐惧得说不出话，像是一个失去了意识的人。

一盒口香糖精准地砸到他的脸上，迫使他从迷茫懵懂中回过神来，面对眼前的事实。他疼得一抖，带着强烈的愤怒彻底清醒过来。

“滚！”他大喊着。

猿人说话了！人群中爆发出掌声和笑声。“野蛮人老朋友，来一个，来一个！”在嘈杂的人群中，他听到了一声尖叫：“鞭子，鞭子，甩鞭子！”

这话语提醒了野蛮人，他从门后的钉子上解下那根带绳结的鞭子，向那些丑恶的施暴者挥舞着。

人群中响起讥讽的喝彩和掌声。

他凶神恶煞地走向人群，有个女人害怕地尖叫起来。鞭子不断地挥舞着，首当其冲的几个人开始还犹豫退缩，但随后就站直身，动也不动。压倒性的数量优势使得观光客们勇气倍增，这是野蛮人万万没有料到的，他大吃一惊，收回鞭子，环顾四周。

“你们为什么不让我清清静静地生活？”他愤怒的声音中夹杂着悲怆。

离野蛮人最近的敌人递过一小包零食：“尝尝这些镁盐大杏仁！你知道，这很美味，”他继续说道，笑容中带有一丝劝说的意味，“镁盐大杏仁有助于你保持青春。”

野蛮人不予理会。“你们想要我怎样？”他问，目光从一张狰狞的笑

脸转到另一张狰狞的笑脸，“你们到底想要我怎样？”

“抽鞭子呀，”上百个声音参差不齐地回答，“表演一下抽鞭子，我们想看！”

然后声音变得一致、低沉而有节奏，“我——们——要——看——抽——鞭——子，”他背后的人群也叫喊起来，“我——们——要——看——抽——鞭——子。”

其他人立刻响应，鹦鹉学舌般不断重复着那句话，一遍又一遍，音量不断增大，直到第七八次重复的时候，已经完全整齐划一，“我——们——要——看——抽——鞭——子。”

如同全民狂欢般，他们沉浸在喧闹的快感中，享受着团结的乐趣，沉迷于亢奋的节奏，仿佛可以持续不断地叫下去，永不停止。大概重复到第二十五次时，声音突然被打断。一架直升飞机穿过拱脊山飞了过来，在人群上方盘旋着，然后在离野蛮人几码远的地方降落，停在人群和灯塔间的空地上。人群的叫喊一时被螺旋桨的呼啸声压下来。在飞机着陆，引擎熄灭的一瞬间，“我们要看抽鞭子”的叫喊声再次响起，同样的节奏，同样的声调。

直升飞机的门打开了，一个英俊潇洒的年轻男人走出来，脸色红润得像红宝石，跟在他身后的，是一个穿着绿色棉绒短裤、白色衬衫，头戴骑兵帽的年轻女人。

看到那个年轻女人的一瞬间，野蛮人震惊得后退了几步，脸色煞白。

年轻的女人站在那里，对着他微笑，笑容中掺杂着不确定、恳求和

悲伤的绝望。几秒钟后，她的嘴唇张开，说了些什么，但是她的声音完全淹没在观光客的高声叫喊中。

“我——们——要——看——抽——鞭——子！我——们——要——看——抽——鞭——子。”

年轻女人双手都放在左侧，她那蜜桃般甜美、洋娃娃般娇俏的脸上，露出一一种渴求和悲痛交织的不自然的表情，碧蓝的眼睛似乎变得更大，更清澈。突然，两滴珍珠般的眼泪滑落脸颊。她又说话了，还是听不到。她突然迅速而热切地伸出双臂，向野蛮人走去。

“我——们——要——看——抽——鞭——子！我——们——要——看……”

观光客们的愿望忽然得到了满足。

“婊子！”野蛮人歇斯底里地朝她冲过去，“畜生！”他陷入狂乱，用带着绳结的鞭子向她猛地抽过去。

女人吓得泪眼婆娑，转身就跑，跌跌撞撞地摔倒在杜鹃花丛中。“亨利，亨利！”她大声呼救，但是那个面色红润的俊俏伙伴早就躲到了直升飞机后面，以免受到牵连。

在一片如愿以偿的喝彩声中，成堆的人群刹那间散开，蜂拥奔向精彩表演的中心。疼痛啊，是一种动人心魄的恐惧！

“惩戒淫欲，惩戒淫欲！”野蛮人又一次疯狂地抽打她。

人群充满渴望的集结在一起，推推搡搡地乱挤乱拱，就像是猪猡在抢夺饲料。

“啊，肉欲！”野蛮人咬着牙，将鞭子挥到自己的肩膀上。“消灭肉欲！消灭肉欲！”

对痛苦的恐惧像是迷人的魔法、让人上瘾的毒品。当野蛮人一次又一次地抽打自己反叛堕落的身体时，深深根植于文明人内心的条件设置发挥了作用，人群被一种共同合作的冲动所驱使，被一种集体一致的欲望所控制，他们开始疯狂地模仿野蛮人的姿势，互相扭打攻击，或者殴打那杜鹃花丛中因疼痛而不断翻滚的丰腴身体——那是荒淫邪恶的象征。

“消灭肉欲，消灭肉欲，消灭肉欲……”野蛮人不停地大喊。

突然，有人开始唱“纵情啊狂欢”。很快，所有人都在副歌部分一起唱起来，还跳起了舞。纵情啊狂欢，旋转，旋转，再旋转，拍击着六八拍的节奏。纵情啊狂欢……

静默的午夜，最后一架直升机方才离开。服用了唆麻后，野蛮人昏昏沉沉，长时间的疯狂放纵让他筋疲力尽，他躺在杜鹃花丛中睡去。当他再次睁开双眼，太阳已经升得老高。他躺在地上，像猫头鹰一样对着强烈的阳光困惑地眯起眼睛，然后突然回想起一切。

“上帝，上帝！”他用手捂住了双眼。

当天晚上，成群的直升飞机轰鸣着穿过拱脊山时，就像是一朵绵延十公里的乌云。前一天晚上的赎罪狂欢会已经登上了各大报纸的头条。

“野蛮人！”第一批客人刚下飞机就迫不及待地高喊，“野蛮人先生！”

一片寂静。

灯塔的门微开，他们推开门，走进昏暗的房间。从房间的另一侧拱门望去，可以看到楼梯通向更高的楼层。就在那个拱门的门框上，垂下了一双脚。

“野蛮人先生！”

那双脚慢慢地，慢慢地摇晃着，像是两根不慌不忙的圆规的脚，向右边转了过来，然后向北，东北，东，东南，南，西南，停了一会儿，又缓慢地向左边转过去，南，西南，南，东南，东……

1932年

Chapter One

A SQUAT grey building of only thirty-four stories. Over the main entrance the words, CENTRAL LONDON HATCHERY AND CONDITIONING CENTRE, and, in a shield, the World State's motto, COMMUNITY, IDENTITY, STABILITY.

The enormous room on the ground floor faced towards the north. Cold for all the summer beyond the panes, for all the tropical heat of the room itself, a harsh thin light glared through the windows, hungrily seeking some draped lay figure, some pallid shape of academic goose-flesh, but finding only the glass and nickel and bleakly shining porcelain of a laboratory. Wintriness responded to wintriness. The overalls of the workers were white, their hands gloved with a pale corpse-coloured rubber. The light was frozen, dead, a ghost. Only from the yellow barrels of the microscopes did it borrow a certain rich and living substance, lying along the polished tubes like butter, streak after luscious streak in long recession down the work tables.

“And this,” said the Director opening the door, “is the Fertilizing Room.”

Bent over their instruments, three hundred Fertilizers were plunged, as the Director of Hatcheries and Conditioning entered the room, in the scarcely breathing silence, the absent-minded, soliloquizing hum or whistle, of absorbed concentration. A troop of newly arrived students, very young, pink

and callow, followed nervously, rather abjectly, at the Director's heels. Each of them carried a notebook, in which, whenever the great man spoke, he desperately scribbled. Straight from the horse's mouth. It was a rare privilege. The D. H. C. for Central London always made a point of personally conducting his new students round the various departments.

"Just to give you a general idea," he would explain to them. For of course some sort of general idea they must have, if they were to do their work intelligently—though as little of one, if they were to be good and happy members of society, as possible. For particulars, as every one knows, make for virtue and happiness; generalities are intellectually necessary evils. Not philosophers but fretsawyers and stamp collectors compose the backbone of society.

"To-morrow," he would add, smiling at them with a slightly menacing geniality, "you'll be settling down to serious work. You won't have time for generalities. Meanwhile..."

Meanwhile, it was a privilege. Straight from the horse's mouth into the notebook. The boys scribbled like mad.

Tall and rather thin but upright, the Director advanced into the room. He had a long chin and big rather prominent teeth, just covered, when he was not talking, by his full, floridly curved lips. Old, young? Thirty? Fifty? Fifty-five? It was hard to say. And anyhow the question didn't arise; in this year of stability, A. F. 632, it didn't occur to you to ask it.

"I shall begin at the beginning," said the D.H.C. and the more zealous

students recorded his intention in their notebooks: Begin at the beginning. “These,” he waved his hand, “are the incubators.” And opening an insulated door he showed them explained, “at blood heat; whereas the male gametes,” and here he opened another door, “they have to be kept at thirty-five instead of thirty-seven. Full blood heat sterilizes.” Rams wrapped in thermogene beget no lambs.

Still leaning against the incubators he gave them, while the pencils scurried illegibly across the pages, a brief description of the modern fertilizing process; spoke first, of course, of its surgical introduction— “The operation undergone voluntarily for the good of Society, not to mention the fact that it carries a bonus amounting to six months’ salary”; continued with some account of the technique for preserving the excised ovary alive and actively developing; passed on to a consideration of optimum temperature, salinity, viscosity; referred to the liquor in which the detached and ripened eggs were kept; and, leading his charges to the work tables, actually showed them how this liquor was drawn off from the test-tubes; how it was let out drop by drop onto the specially warmed slides of the microscopes; how the eggs which it contained were inspected for abnormalities, counted and transferred to a porous receptacle; how (and he now took them to watch the operation) this receptacle was immersed in a warm bouillon containing free-swimming spermatozoa—at a minimum concentration of one hundred thousand per cubic centimetre, he insisted; and how, after ten minutes, the container was lifted out of the liquor and its contents re-examined; how, if any of the eggs remained unfertilized, it was again immersed, and, if necessary, yet again; how the fertilized ova went back to the incubators; where the Alphas and Betas remained until definitely bottled; while the

Gammas, Deltas and Epsilons were brought out again, after only thirty-six hours, to undergo Bokanovsky's Process.

"Bokanovsky's Process," repeated the Director, and the students underlined the words in their little notebooks.

One egg, one embryo, one adult-normality. But a bakanovskified egg will bud, will proliferate, will pidge. From eight to ninety-six buds, and every bud will grow into a perfectly formed embryo, and every embryo into a full-sized adult. Making ninety-six human beings grow where only one grew before. Progress.

"Essentially," the D.H.C. concluded, "bakanovskification consists of a series of arrests of development. We check the normal growth and, paradoxically enough, the egg responds by budding."

Responds by budding. The pencils were busy.

He pointed. On a very slowly moving band a rack-full of test-tubes was entering a large metal box, another, rack-full was emerging. Machinery faintly purred. It took eight minutes for the tubes to go through, he told them. Eight minutes of hard X-rays being about as much as an egg can stand. A few died; of the rest, the least susceptible pided into two; most put out four buds; some eight; all were returned to the incubators, where the buds began to develop; then, after two days, were suddenly chilled, chilled and checked. Two, four, eight, the buds in their turn budded; and having budded were dosed almost to death with alcohol; consequently burgeoned again and having budded—bud out of bud out of bud—were thereafter—further arrest

being generally fatal—left to develop in peace. By which time the original egg was in a fair way to becoming anything from eight to ninety-six embryos— a prodigious improvement, you will agree, on nature. Identical twins—but not in piddling twos and threes as in the old viviparous days, when an egg would sometimes accidentally pidge; actually by dozens, by scores at a time.

“Scores,” the Director repeated and flung out his arms, as though he were distributing largesse. “Scores.”

But one of the students was fool enough to ask where the advantage lay.

“My good boy!” The Director wheeled sharply round on him. “Can’t you see? Can’t you see?” He raised a hand; his expression was solemn. “Bokanovsky’s Process is one of the major instruments of social stability!”

Major instruments of social stability.

Standard men and women; in uniform batches. The whole of a small factory staffed with the products of a single bokanovskified egg.

“Ninety-six identical twins working ninety-six identical machines!” The voice was almost tremulous with enthusiasm. “You really know where you are. For the first time in history.” He quoted the planetary motto. “Community, Identity, Stability.” Grand words. “If we could bokanovskify indefinitely the whole problem would be solved.”

Solved by standard Gammas, unvarying Deltas, uniform Epsilons. Millions of identical twins. The principle of mass production at last applied to biology.

“But, alas,” the Director shook his head, “we can’t boganovskify indefinitely.”

Ninety-six seemed to be the limit; seventy-two a good average. From the same ovary and with gametes of the same male to manufacture as many batches of identical twins as possible—that was the best (sadly a second best) that they could do. And even that was difficult.

“For in nature it takes thirty years for two hundred eggs to reach maturity. But our business is to stabilize the population at this moment, here and now. Dribbling out twins over a quarter of a century—what would be the use of that?”

Obviously, no use at all. But Podsnap’s Technique had immensely accelerated the process of ripening. They could make sure of at least a hundred and fifty mature eggs within two years. Fertilize and boganovskify—in other words, multiply by seventy-two—and you get an average of nearly eleven thousand brothers and sisters in a hundred and fifty batches of identical twins, all within two years of the same age.

“And in exceptional cases we can make one ovary yield us over fifteen thousand adult individuals.”

Beckoning to a fair-haired, ruddy young man who happened to be passing at the moment. “Mr. Foster,” he called. The ruddy young man approached. “Can you tell us the record for a single ovary, Mr. Foster?”

“Sixteen thousand and twelve in this Centre,” Mr. Foster replied without hesitation. He spoke very quickly, had a vivacious blue eye, and took an

evident pleasure in quoting figures. "Sixteen thousand and twelve; in one hundred and eighty-nine batches of identicals. But of course they've done much better," he rattled on, "in some of the tropical Centres. Singapore has often produced over sixteen thousand five hundred; and Mombasa has actually touched the seventeen thousand mark. But then they have unfair advantages. You should see the way a negro ovary responds to pituitary! It's quite astonishing, when you're used to working with European material. Still," he added, with a laugh (but the light of combat was in his eyes and the lift of his chin was challenging), "still, we mean to beat them if we can. I'm working on a wonderful Delta-Minus ovary at this moment. Only just eighteen months old. Over twelve thousand seven hundred children already, either decanted or in embryo. And still going strong. We'll beat them yet."

"That's the spirit I like!" cried the Director, and clapped Mr. Foster on the shoulder. "Come along with us, and give these boys the benefit of your expert knowledge."

Mr. Foster smiled modestly. "With pleasure." They went.

In the Bottling Room all was harmonious bustle and ordered activity. Flaps of fresh sow's peritoneum ready cut to the proper size came shooting up in little lifts from the Organ Store in the sub-basement. Whizz and then, click! the lift-hatches hew open; the bottle-liner had only to reach out a hand, take the flap, insert, smooth-down, and before the lined bottle had had time to travel out of reach along the endless band, whizz, click! another flap of peritoneum had shot up from the depths, ready to be slipped into yet another bottle, the next of that slow interminable procession on the band.

Next to the Liners stood the Matriculators. The procession advanced; one by one the eggs were transferred from their test-tubes to the larger containers; deftly the peritoneal lining was slit, the morula dropped into place, the saline solution poured in...and already the bottle had passed, and it was the turn of the labellers. Heredity, date of fertilization, membership of Bokanovsky Group—details were transferred from test-tube to bottle. No longer anonymous, but named, identified, the procession marched slowly on; on through an opening in the wall, slowly on into the Social Predestination Room.

“Eighty-eight cubic metres of card-index,” said Mr. Foster with relish, as they entered.

“Containing all the relevant information,” added the Director. “Brought up to date every morning.”

“And co-ordinated every afternoon.”

“On the basis of which they make their calculations.”

“So many individuals, of such and such quality,” said Mr. Foster.

“Distributed in such and such quantities.”

“The optimum Decanting Rate at any given moment.”

“Unforeseen wastages promptly made good.”

“Promptly,” repeated Mr. Foster. “If you knew the amount of overtime I had to put in after the last Japanese earthquake!” He laughed

goodhumouredly and shook his head.

“The Predestinators send in their figures to the Fertilizers.”

“Who give them the embryos they ask for.”

“And the bottles come in here to be predestined in detail.”

“After which they are sent down to the Embryo Store.”

“Where we now proceed ourselves.”

And opening a door Mr. Foster led the way down a staircase into the basement. The temperature was still tropical. They descended into a thickening twilight. Two doors and a passage with a double turn insured the cellar against any possible infiltration of the day.

“Embryos are like photograph film,” said Mr. Foster waggishly, as he pushed open the second door. “They can only stand red light.” And in effect the sultry darkness into which the students now followed him was visible and crimson, like the darkness of closed eyes on a summer’s afternoon. The bulging flanks of row on receding row and tier above tier of bottles glinted with innumerable rubies, and among the rubies moved the dim red spectres of men and women with purple eyes and all the symptoms of lupus. The hum and rattle of machinery faintly stirred the air.

“Give them a few figures, Mr. Foster,” said the Director, who was tired of talking. Mr. Foster was only too happy to give them a few figures. Two hundred and twenty metres long, two hundred wide, ten high. He pointed upwards. Like chickens drinking, the students lifted their eyes towards the

distant ceiling.

Three tiers of racks: ground floor level, first gallery, second gallery.

The spidery steel-work of gallery above gallery faded away in all directions into the dark. Near them three red ghosts were busily unloading demijohns from a moving staircase.

The escalator from the Social Predestination Room.

Each bottle could be placed on one of fifteen racks, each rack, though you couldn't see it, was a conveyor traveling at the rate of thirty-three and a third centimetres an hour. Two hundred and sixty-seven days at eight metres a day. Two thousand one hundred and thirty-six metres in all. One circuit of the cellar at ground level, one on the first gallery, half on the second, and on the two hundred and sixty-seventh morning, daylight in the Decanting Room. Independent existence—so called.

“But in the interval,” Mr. Foster concluded, “we’ve managed to do a lot to them. Oh, a very great deal.” His laugh was knowing and triumphant.

“That’s the spirit I like,” said the Director once more. “Let’s walk around. You tell them everything, Mr. Foster.”

Mr. Foster duly told them.

Told them of the growing embryo on its bed of peritoneum. Made them taste the rich blood surrogate on which it fed. Explained why it had to be stimulated with placentin and thyroxin. Told them of the corpus luteum extract. Showed them the jets through which at every twelfth metre from zero

to 2040 it was automatically injected. Spoke of those gradually increasing doses of pituitary administered during the final ninety-six metres of their course. Described the artificial maternal circulation installed in every bottle at Metre 112; showed them the reservoir of blood-surrogate, the centrifugal pump that kept the liquid moving over the placenta and drove it through the synthetic lung and waste product filter. Referred to the embryo's troublesome tendency to anæmia, to the massive doses of hog's stomach extract and foetal foal's liver with which, in consequence, it had to be supplied.

Showed them the simple mechanism by means of which, during the last two metres out of every eight, all the embryos were simultaneously shaken into familiarity with movement. Hinted at the gravity of the so-called "trauma of decanting," and enumerated the precautions taken to minimize, by a suitable training of the bottled embryo, that dangerous shock. Told them of the test for sex carried out in the neighborhood of Metre 200. Explained the system of labelling—a T for the males, a circle for the females and for those who were destined to become freemartins a question mark, black on a white ground.

"For of course," said Mr. Foster, "in the vast majority of cases, fertility is merely a nuisance. One fertile ovary in twelve hundred—that would really be quite sufficient for our purposes. But we want to have a good choice. And of course one must always have an enormous margin of safety. So we allow as many as thirty per cent of the female embryos to develop normally. The others get a dose of male sex-hormone every twenty-four metres for the rest of the course. Result: they're decanted as freemartins—structurally quite normal, except," he had to admit, "that they do have the slightest tendency to

grow beards, but sterile. Guaranteed sterile. Which brings us at last,” continued Mr. Foster, “out of the realm of mere slavish imitation of nature into the much more interesting world of human invention.”

He rubbed his hands. For of course, they didn’t content themselves with merely hatching out embryos: any cow could do that.

“We also predestine and condition. We decant our babies as socialized human beings, as Alphas or Epsilons, as future sewage workers or future...” He was going to say “future World controllers,” but correcting himself, said “future Directors of Hatcheries,” instead.

The D.H.C. acknowledged the compliment with a smile.

They were passing Metre 320 on Rack 11. A young Beta-Minus mechanic was busy with screw-driver and spanner on the blood-surrogate pump of a passing bottle. The hum of the electric motor deepened by fractions of a tone as he turned the nuts. Down, down...A final twist, a glance at the revolution counter, and he was done. He moved two paces down the line and began the same process on the next pump.

“Reducing the number of revolutions per minute,” Mr. Foster explained. “The surrogate goes round slower; therefore passes through the lung at longer intervals; therefore gives the embryo less oxygen. Nothing like oxygen-shortage for keeping an embryo below par.” Again he rubbed his hands.

“But why do you want to keep the embryo below par?” asked an ingenuous student.

“Ass!” said the Director, breaking a long silence. “Hasn’t it occurred to you that an Epsilon embryo must have an Epsilon environment as well as an Epsilon heredity?”

It evidently hadn’t occurred to him. He was covered with confusion.

“The lower the caste,” said Mr. Foster, “the shorter the oxygen.” The first organ affected was the brain. After that the skeleton. At seventy per cent of normal oxygen you got dwarfs. At less than seventy eyeless monsters.

“Who are no use at all,” concluded Mr. Foster.

Whereas (his voice became confidential and eager), if they could discover a technique for shortening the period of maturation what a triumph, what a benefaction to Society!

“Consider the horse.”

They considered it.

Mature at six; the elephant at ten. While at thirteen a man is not yet sexually mature; and is only full-grown at twenty. Hence, of course, that fruit of delayed development, the human intelligence.

“But in Epsilons,” said Mr. Foster very justly, “we don’t need human intelligence.”

Didn’t need and didn’t get it. But though the Epsilon mind was mature at ten, the Epsilon body was not fit to work till eighteen. Long years of superfluous and wasted immaturity. If the physical development could be

speeded up till it was as quick, say, as a cow's, what an enormous saving to the Community!

“Enormous!” murmured the students. Mr. Foster's enthusiasm was infectious.

He became rather technical; spoke of the abnormal endocrine coordination which made men grow so slowly; postulated a germinal mutation to account for it. Could the effects of this germinal mutation be undone? Could the individual Epsilon embryo be made a revert, by a suitable technique, to the normality of dogs and cows? That was the problem. And it was all but solved.

Pilkington, at Mombasa, had produced individuals who were sexually mature at four and full-grown at six and a half. A scientific triumph. But socially useless. Six-year-old men and women were too stupid to do even Epsilon work. And the process was an all-or-nothing one; either you failed to modify at all, or else you modified the whole way. They were still trying to find the ideal compromise between adults of twenty and adults of six. So far without success. Mr. Foster sighed and shook his head.

Their wanderings through the crimson twilight had brought them to the neighborhood of Metre 170 on Rack 9. From this point onwards Rack 9 was enclosed and the bottle performed the remainder of their journey in a kind of tunnel, interrupted here and there by openings two or three metres wide.

“Heat conditioning,” said Mr. Foster.

Hot tunnels alternated with cool tunnels. Coolness was wedded to

discomfort in the form of hard X-rays. By the time they were decanted the embryos had a horror of cold. They were predestined to emigrate to the tropics, to be miner and acetate silk spinners and steel workers. Later on their minds would be made to endorse the judgment of their bodies. “We condition them to thrive on heat,” concluded Mr. Foster. “Our colleagues upstairs will teach them to love it.”

“And that,” put in the Director sententiously, “that is the secret of happiness and virtue—liking what you’ve got to do. All conditioning aims at that: making people like their unescapable social destiny.”

In a gap between two tunnels, a nurse was delicately probing with a long fine syringe into the gelatinous contents of a passing bottle. The students and their guides stood watching her for a few moments in silence.

“Well, Lenina,” said Mr. Foster, when at last she withdrew the syringe and straightened herself up.

The girl turned with a start. One could see that, for all the lupus and the purple eyes, she was uncommonly pretty.

“Henry!” Her smile flashed redly at him—a row of coral teeth.

“Charming, charming,” murmured the Director and, giving her two or three little pats, received in exchange a rather deferential smile for himself.

“What are you giving them?” asked Mr. Foster, making his tone very professional.

“Oh, the usual typhoid and sleeping sickness.”

“Tropical workers start being inoculated at Metre 150,” Mr. Foster explained to the students. “The embryos still have gills. We immunize the fish against the future man’s diseases.” Then, turning back to Lenina, “Ten to five on the roof this afternoon,” he said, “as usual.”

“Charming,” said the Dhector once more, and, with a final pat, moved away after the others.

On Rack 10 rows of next generation’s chemical workers were being trained in the toleration of lead, caustic soda, tar, chlorine. The first of a batch of two hundred and fifty embryonic rocket-plane engineers was just passing the eleven hundred metre mark on Rack 3. A special mechanism kept their containers in constant rotation. “To improve their sense of balance,” Mr. Foster explained. “Doing repairs on the outside of a rocket in mid-air is a ticklish job. We slacken off the circulation when they’re right way up, so that they’re half starved, and double the flow of surrogate when they’re upside down. They learn to associate topsy-turvydom with well-being; in fact, they’re only truly happy when they’re standing on their heads.

“And now,” Mr. Foster went on, “I’d like to show you some very interesting conditioning for Alpha Plus Intellectuals. We have a big batch of them on Rack 5. First Gallery level,” he called to two boys who had started to go down to the ground floor.

“They’re round about Metre 900,” he explained. “You can’t really do any useful intellectual conditioning till the foetuses have lost their tails. Follow me.”

But the Director had looked at his watch. “Ten to three,” he said. “No time for the intellectual embryos, I’m afraid. We must go up to the Nurseries before the children have finished their afternoon sleep.”

Mr. Foster was disappointed. “At least one glance at the Decanting Room,” he pleaded.

“Very well then.” The Director smiled indulgently. “Just one glance.”

Chapter Two

MR. FOSTER was left in the Decanting Room. The D.H.C. and his students stepped into the nearest lift and were carried up to the fifth floor.

INFANT NURSERIES. NEO-PAVLOVIAN CONDITIONING ROOMS, announced the notice board.

The Director opened a door. They were in a large bare room, very bright and sunny; for the whole of the southern wall was a single window. Half a dozen nurses, trousered and jacketed in the regulation white viscose-linen uniform, their hair aseptically hidden under white caps, were engaged in setting out bowls of roses in a long row across the floor. Big bowls, packed tight with blossom. Thousands of petals, ripe-blown and silkily smooth, like the cheeks of innumerable little cherubs, but of cherubs, in that bright light, not exclusively pink and Aryan, but also luminously Chinese, also Mexican, also apoplectic with too much blowing of celestial trumpets, also pale as death, pale with the posthumous whiteness of marble.

The nurses stiffened to attention as the D.H.C. came in.

“Set out the books,” he said curtly.

In silence the nurses obeyed his command. Between the rose bowls the books were duly set out—a row of nursery quartos opened invitingly each at some gaily coloured image of beast or fish or bird.

“Now bring in the children.”

They hurried out of the room and returned in a minute or two, each pushing a kind of tall dumb-waiter laden, on all its four wire-netted shelves, with eight-month-old babies, all exactly alike (a Bokanovsky Group, it was evident) and all (since their caste was Delta) dressed in khaki.

“Put them down on the floor.”

The infants were unloaded.

“Now turn them so that they can see the flowers and books.”

Turned, the babies at once fell silent, then began to crawl towards those clusters of sleek colours, those shapes so gay and brilliant on the white pages. As they approached, the sun came out of a momentary eclipse behind a cloud. The roses flamed up as though with a sudden passion from within; a new and profound significance seemed to suffuse the shining pages of the books. From the ranks of the crawling babies came little squeals of excitement, gurgles and twitterings of pleasure.

The Director rubbed his hands. “Excellent!” he said. “It might almost have been done on purpose.”

The swiftest crawlers were already at their goal. Small hands reached out uncertainly, touched, grasped, unpetaling the transfigured roses, crumpling the illuminated pages of the books. The Director waited until all were happily busy. Then, “Watch carefully,” he said. And, lifting his hand, he gave the signal.

The Head Nurse, who was standing by a switchboard at the other end of the room, pressed down a little lever.

There was a violent explosion. Shriller and ever shriller, a siren shrieked. Alarm bells maddeningly sounded.

The children started, screamed; their faces were distorted with terror.

“And now,” the Director shouted (for the noise was deafening), “now we proceed to rub in the lesson with a mild electric shock.”

He waved his hand again, and the Head Nurse pressed a second lever. The screaming of the babies suddenly changed its tone. There was something desperate, almost insane, about the sharp spasmodic yelps to which they now gave utterance. Their little bodies twitched and stiffened; their limbs moved jerkily as if to the tug of unseen wires.

“We can electrify that whole strip of floor,” bawled the Director in explanation. “But that’s enough,” he signalled to the nurse.

The explosions ceased, the bells stopped ringing, the shriek of the siren died down from tone to tone into silence. The stiffly twitching bodies relaxed, and what had become the sob and yelp of infant maniacs broadened out once more into a normal howl of ordinary terror.

“Offer them the flowers and the books again.”

The nurses obeyed; but at the approach of the roses, at the mere sight of those gaily-coloured images of pussy and cock-a-doodle-doo and baa-baa black sheep, the infants shrank away in horror, the volume of their howling

suddenly increased.

“Observe,” said the Director triumphantly, “observe.”

Books and loud noises, flowers and electric shocks—already in the infant mind these couples were compromisingly linked; and after two hundred repetitions of the same or a similar lesson would be wedded indissolubly. What man has joined, nature is powerless to put asunder.

“They’ll grow up with what the psychologists used to call an ‘instinctive’ hatred of books and flowers. Reflexes unalterably conditioned. They’ll be safe from books and botany all their lives.” The Director turned to his nurses. “Take them away again.”

Still yelling, the khaki babies were loaded on to their dumb-waiters and wheeled out, leaving behind them the smell of sour milk and a most welcome silence.

One of the students held up his hand; and though he could see quite well why you couldn’t have lower-cast people wasting the Community’s time over books, and that there was always the risk of their reading something which might undesirably decondition one of their reflexes, yet...well, he couldn’t understand about the flowers. Why go to the trouble of making it psychologically impossible for Deltas to like flowers?

Patiently the D.H.C. explained. If the children were made to scream at the sight of a rose, that was on grounds of high economic policy. Not so very long ago (a century or thereabouts), Gammas, Deltas, even Epsilons, had been conditioned to like flowers—flowers in particular and wild nature in

general. The idea was to make them want to be going out into the country at every available opportunity, and so compel them to consume transport.

“And didn’t they consume transport?” asked the student.

“Quite a lot,” the D.H.C. replied. “But nothing else.”

Primroses and landscapes, he pointed out, have one grave defect: they are gratuitous. A love of nature keeps no factories busy. It was decided to abolish the love of nature, at any rate among the lower classes; to abolish the love of nature, but not the tendency to consume transport. For of course it was essential that they should keep on going to the country, even though they hated it. The problem was to find an economically sounder reason for consuming transport than a mere affection for primroses and landscapes. It was duly found.

“We condition the masses to hate the country,” concluded the Director. “But simultaneously we condition them to love all country sports. At the same time, we see to it that all country sports shall entail the use of elaborate apparatus. So that they consume manufactured articles as well as transport. Hence those electric shocks.”

“I see,” said the student, and was silent, lost in admiration.

There was a silence; then, clearing his throat, “Once upon a time,” the Director began, “while our Ford was still on earth, there was a little boy called Reuben Rabinovitch. Reuben was the child of Polish-speaking parents.”

The Director interrupted himself. “You know what Polish is, I suppose?”

“A dead language.”

“Like French and German,” added another student, officiously showing off his learning.

“And ‘parent’?” questioned the D.H.C.

There was an uneasy silence. Several of the boys blushed. They had not yet learned to draw the significant but often very fine distinction between smut and pure science. One, at last, had the courage to raise a hand.

“Human beings used to be...” he hesitated; the blood rushed to his cheeks. “Well, they used to be viviparous.”

“Quite right.” The Director nodded approvingly.

“And when the babies were decanted...”

“‘Born,’” came the correction.

“Well, then they were the parents—I mean, not the babies, of course; the other ones.” The poor boy was overwhelmed with confusion.

“In brief,” the Director summed up, “the parents were the father and the mother.” The smut that was really science fell with a crash into the boys’ eye-avoiding silence. “Mother,” he repeated loudly rubbing in the science; and, leaning back in his chair, “These,” he said gravely, “are unpleasant facts; I

know it. But then most historical facts are unpleasant.”

He returned to Little Reuben—to Little Reuben, in whose room, one evening, by an oversight, his father and mother (crash, crash!) happened to leave the radio turned on.

(“For you must remember that in those days of gross viviparous reproduction, children were always brought up by their parents and not in State Conditioning Centres.”)

While the child was asleep, a broadcast programme from London suddenly started to come through; and the next morning, to the astonishment of his crash and crash (the more daring of the boys ventured to grin at one another), Little Reuben woke up repeating word for word a long lecture by that curious old writer (“one of the very few whose works have been permitted to come down to us”), George Bernard Shaw, who was speaking, according to a well-authenticated tradition, about his own genius. To Little Reuben’s wink and snigger, this lecture was, of course, perfectly incomprehensible and, imagining that their child had suddenly gone mad, they sent for a doctor. He, fortunately, understood English, recognized the discourse as that which Shaw had broadcasted the previous evening, realized the significance of what had happened, and sent a letter to the medical press about it.

“The principle of sleep-teaching, or hypnopædia, had been discovered.” The D.H.C. made an impressive pause.

The principle had been discovered; but many, many years were to elapse

before that principle was usefully applied.

“The case of Little Reuben occurred only twenty-three years after Our Ford’s first T-Model was put on the market.” (Here the Director made a sign of the T on his stomach and all the students reverently followed suit.) “And yet...”

Furiously the students scribbled. “Hypnopædia, first used officially in A.F. 214. Why not before? Two reasons. (a)...”

“These early experimenters,” the D.H.C. was saying, “were on the wrong track. They thought that hypnopædia could be made an instrument of intellectual education...”

(A small boy asleep on his right side, the right arm stuck out, the right hand hanging limp over the edge of the bed. Through a round grating in the side of a box a voice speaks softly.

“The Nile is the longest river in Africa and the second in length of all the rivers of the globe. Although falling short of the length of the Mississippi-Missouri, the Nile is at the head of all rivers as regards the length of its basin, which extends through 35 degrees of latitude...”

At breakfast the next morning, “Tommy,” some one says, “do you know which is the longest river in Africa?” A shaking of the head. “But don’t you remember something that begins: The Nile is the...”

“The - Nile - is - the - longest - river - in - Africa - and - the - second - in - length - of - all - the - rivers - of - the - globe...” The words come rushing

out. “Although -falling - short - of...”

“Well now, which is the longest river in Africa?”

The eyes are blank. “I don’t know.”

“But the Nile, Tommy.”

“The - Nile - is - the - longest - river - in - Africa - and - second...”

“Then which river is the longest, Tommy?”

Tommy burst into tears. “I don’t know,” he howls.)

That howl, the Director made it plain, discouraged the earliest investigators. The experiments were abandoned. No further attempt was made to teach children the length of the Nile in their sleep. Quite rightly. You can’t learn a science unless you know what it’s all about.

“Whereas, if they’d only started on moral education,” said the Director, leading the way towards the door. The students followed him, desperately scribbling as they walked and all the way up in the lift. “Moral education, which ought never, in any circumstances, to be rational.”

“Silence, silence,” whispered a loud speaker as they stepped out at the fourteenth floor, and “Silence, silence,” the trumpet mouths indefatigably repeated at intervals down every corridor. The students and even the Director himself rose automatically to the tips of their toes. They were Alphas, of course, but even Alphas have been well conditioned. “Silence, silence.” All the air of the fourteenth floor was sibilant with the categorical imperative.

Fifty yards of tiptoeing brought them to a door which the Director cautiously opened. They stepped over the threshold into the twilight of a shuttered dormitory. Eighty cots stood in a row against the wall. There was a sound of light regular breathing and a continuous murmur, as of very faint voices remotely whispering.

A nurse rose as they entered and came to attention before the Director.

“What’s the lesson this afternoon?” he asked.

“We had Elementary Sex for the first forty minutes,” she answered. “But now it’s switched over to Elementary Class Consciousness.”

The Director walked slowly down the long line of cots. Rosy and relaxed with sleep, eighty little boys and girls lay softly breathing. There was a whisper under every pillow. The D.H.C. halted and, bending over one of the little beds, listened attentively.

“Elementary Class Consciousness, did you say? Let’s have it repeated a little louder by the trumpet.”

At the end of the room a loud speaker projected from the wall. The Director walked up to it and pressed a switch.

“...all wear green,” said a soft but very distinct voice, beginning in the middle of a sentence, “and Delta Children wear khaki. Oh no, I don’t want to play with Delta children. And Epsilons are still worse. They’re too stupid to be able to read or write. Besides they wear black, which is such a beastly colour. I’m so glad I’m a Beta.”

There was a pause; then the voice began again.

“Alpha children wear grey They work much harder than we do, because they’re so frightfully clever. I’m really awfully glad I’m a Beta, because I don’t work so hard. And then we are much better than the Gammas and Deltas. Gammas are stupid. They all wear green, and Delta children wear khaki. Oh no, I don’t want to play with Delta children. And Epsilons are still worse. They’re too stupid to be able...”

The Director pushed back the switch. The voice was silent. Only its thin ghost continued to mutter from beneath the eighty pillows.

“They’ll have that repeated forty or fifty times more before they wake; then again on Thursday, and again on Saturday. A hundred and twenty times three times a week for thirty months. After which they go on to a more advanced lesson.”

Roses and electric shocks, the khaki of Deltas and a whiff of asafœtida—wedded indissolubly before the child can speak. But wordless conditioning is crude and wholesale; cannot bring home the finer distinctions, cannot inculcate the more complex courses of behaviour. For that there must be words, but words without reason. In brief, hypnopædia.

“The greatest moralizing and socializing force of all time.”

The students took it down in their little books. Straight from the horse’s mouth.

Once more the Director touched the switch.

“...so frightfully clever,” the soft, insinuating, indefatigable voice was saying, “I’m really awfully glad I’m a Beta, because...”

Not so much like drops of water, though water, it is true, can wear holes in the hardest granite; rather, drops of liquid sealing-wax, drops that adhere, incrust, incorporate themselves with what they fall on, till finally the rock is all one scarlet blob.

“Till at last the child’s mind is these suggestions, and the sum of the suggestions is the child’s mind. And not the child’s mind only. The adult’s mind too—all his life long. The mind that judges and desires and decides—made up of these suggestions. But all these suggestions are our suggestions!” The Director almost shouted in his triumph. “Suggestions from the State.” He banged the nearest table. “It therefore follows...”

A noise made him turn round.

“Oh, Ford!” he said in another tone, “I’ve gone and woken the children.”

Chapter Three

OUTSIDE, in the garden, it was playtime. Naked in the warm June sunshine, six or seven hundred little boys and girls were running with shrill yells over the lawns, or playing ball games, or squatting silently in twos and threes among the flowering shrubs. The roses were in bloom, two nightingales soliloquized in the boskage, a cuckoo was just going out of tune among the lime trees. The air was drowsy with the murmur of bees and helicopters.

The Director and his students stood for a short time watching a game of Centrifugal Bumble-puppy. Twenty children were grouped in a circle round a chrome steel tower. A ball thrown up so as to land on the platform at the top of the tower rolled down into the interior, fell on a rapidly revolving disk, was hurled through one or other of the numerous apertures pierced in the cylindrical casing, and had to be caught.

“Strange,” mused the Director, as they turned away, “strange to think that even in Our Ford’s day most games were played without more apparatus than a ball or two and a few sticks and perhaps a bit of netting. imagine the folly of allowing people to play elaborate games which do nothing whatever to increase consumption. It’s madness. Nowadays the Controllers won’t approve of any new game unless it can be shown that it requires at least as much apparatus as the most complicated of existing games.” He interrupted himself.

“That’s a charming little group,” he said, pointing.

In a little grassy bay between tall clumps of Mediterranean heather, two children, a little boy of about seven and a little girl who might have been a year older, were playing, very gravely and with all the focussed attention of scientists intent on a labour of discovery, a rudimentary sexual game.

“Charming, charming!” the D.H.C. repeated sentimentally.

“Charming,” the boys politely agreed. But their smile was rather patronizing. They had put aside similar childish amusements too recently to be able to watch them now without a touch of contempt. Charming? but it was just a pair of kids fooling about; that was all. Just kids.

“I always think,” the Director was continuing in the same rather maudlin tone, when he was interrupted by a loud boo-hooing.

From a neighbouring shrubbery emerged a nurse, leading by the hand a small boy, who howled as he went. An anxious-looking little girl trotted at her heels.

“What’s the matter?” asked the Director.

The nurse shrugged her shoulders. “Nothing much,” she answered. “It’s just that this little boy seems rather reluctant to join in the ordinary erotic play. I’d noticed it once or twice before. And now again to-day. He started yelling just now...”

“Honestly,” put in the anxious-looking little girl, “I didn’t mean to hurt him or anything. Honestly.”

“Of course you didn’t, dear,” said the nurse reassuringly. “And so,” she went on, turning back to the Director, “I’m taking him in to see the Assistant Superintendent of Psychology. Just to see if anything’s at all abnormal.”

“Quite right,” said the Director. “Take him in. You stay here, little girl,” he added, as the nurse moved away with her still howling charge. “What’s your name?”

“Polly Trotsky.”

“And a very good name too,” said the Director. “Run away now and see if you can find some other little boy to play with.”

The child scampered off into the bushes and was lost to sight.

“Exquisite little creature!” said the Director, looking after her. Then, turning to his students, “What I’m going to tell you now,” he said, “may sound incredible. But then, when you’re not accustomed to history, most facts about the past do sound incredible.”

He let out the amazing truth. For a very long period before the time of Our Ford, and even for some generations afterwards, erotic play between children had been regarded as abnormal (there was a roar of laughter); and not only abnormal, actually immoral (no!): and had therefore been rigorously suppressed.

A look of astonished incredulity appeared on the faces of his listeners. Poor little kids not allowed to amuse themselves? They could not believe it.

“Even adolescents,” the D.H.C. was saying, “even adolescents like yourselves...”

“Not possible!”

“Barring a little surreptitious auto-erotism and homosexuality—absolutely nothing.”

“Nothing?”

“In most cases, till they were over twenty years old.”

“Twenty years old?” echoed the students in a chorus of loud disbelief.

“Twenty,” the Director repeated. “I told you that you’d find it incredible.”

“But what happened?” they asked. “What were the results?”

“The results were terrible.” A deep resonant voice broke startlingly into the dialogue. They looked around. On the fringe of the little group stood a stranger—a man of middle height, black-haired, with a hooked nose, full red lips, eyes very piercing and dark.

“Terrible,” he repeated. The D.H.C. had at that moment sat down on one of the steel and rubber benches conveniently scattered through the gardens; but at the sight of the stranger, he sprang to his feet and darted forward, his hand outstretched, smiling with all his teeth, effusive.

“Controller! What an unexpected pleasure! Boys, what are you thinking

of? This is the Controller; this is his fordship, Mustapha Mond.”

In the four thousand rooms of the Centre the four thousand electric clocks simultaneously struck four. Discarnate voices called from the trumpet mouths.

“Main Day-shift off duty. Second Day-shift take over. Main Day-shift off...”

In the lift, on their way up to the changing rooms, Henry Foster and the Assistant Director of Predestination rather pointedly turned their backs on Bernard Marx from the Psychology Bureau: averted themselves from that unsavoury reputation.

The faint hum and rattle of machinery still stirred the crimson air in the Embryo Store. Shifts might come and go, one lupus-coloured face give place to another; majestically and for ever the conveyors crept forward with their load of future men and women.

Lenina Crowne walked briskly towards the door.

His fordship Mustapha Mond! The eyes of the saluting students almost popped out of their heads. Mustapha Mond! The Resident Controller for Western Europe! One of the Ten World Controllers. One of the Ten...and he sat down on the bench with the D.H.C., he was going to stay, to stay, yes, and actually talk to them...straight from the horse's mouth. Straight from the mouth of Ford himself.

Two shrimp-brown children emerged from a neighbouring shrubbery,

stared at them for a moment with large, astonished eyes, then returned to their amusements among the leaves.

“You all remember,” said the Controller, in his strong deep voice, “you all remember, I suppose, that beautiful and inspired saying of Our Ford’s: History is bunk. History,” he repeated slowly, “is bunk.”

He waved his hand; and it was as though, with an invisible feather whisk, he had brushed away a little dust, and the dust was Harappa, was Ur of the Chaldees; some spider-webs, and they were Thebes and Babylon and Cnossos and Mycenae. Whisk. Whisk—and where was Odysseus, where was Job, where were Jupiter and Gotama and Jesus? Whisk—and those specks of antique dirt called Athens and Rome, Jerusalem and the Middle Kingdom—all were gone. Whisk—the place where Italy had been was empty. Whisk, the cathedrals; whisk, whisk, King Lear and the Thoughts of Pascal. Whisk, Passion; whisk, Requiem; whisk, Symphony; whisk...

“Going to the Feelies this evening, Henry?” enquired the Assistant Predestinator. “I hear the new one at the Alhambra is first-rate. There’s a love scene on a bearskin rug; they say it’s marvellous. Every hair of the bear reproduced. The most amazing tactual effects.”

“That’s why you’re taught no history,” the Controller was saying. “But now the time has come...”

The D.H.C. looked at him nervously. There were those strange rumours of old forbidden books hidden in a safe in the Controller’s study. Bibles, poetry—Ford knew what.

Mustapha Mond intercepted his anxious glance and the corners of his red lips twitched ironically.

“It’s all right, Director,” he said in a tone of faint derision, “I won’t corrupt them.”

The D.H.C. was overwhelmed with confusion.

Those who feel themselves despised do well to look despising. The smile on Bernard Marx’s face was contemptuous. Every hair on the bear indeed!

“I shall make a point of going,” said Henry Foster.

Mustapha Mond leaned forward, shook a finger at them. “Just try to realize it,” he said, and his voice sent a strange thrill quivering along their diaphragms. “Try to realize what it was like to have a viviparous mother.”

That smutty word again. But none of them dreamed, this time, of smiling.

“Try to imagine what ‘living with one’s family’ meant.”

They tried; but obviously without the smallest success.

“And do you know what a ‘home’ was?”

They shook their heads.

From her dim crimson cellar Lenina Crowne shot up seventeen stories, turned to the right as she stepped out of the lift, walked down a long corridor

and, opening the door marked GIRLS' DRESSING-ROOM, plunged into a deafening chaos of arms and bosoms and underclothing. Torrents of hot water were splashing into or gurgling out of a hundred baths. Rumbling and hissing, eighty vibro-vacuum massage machines were simultaneously kneading and sucking the firm and sunburnt flesh of eighty superb female specimens. Every one was talking at the top of her voice. A Synthetic Music machine was warbling out a super-cornet solo.

“Hullo, Fanny,” said Lenina to the young woman who had the pegs and locker next to hers.

Fanny worked in the Bottling Room, and her surname was also Crowne. But as the two thousand million inhabitants of the plant had only ten thousand names between them, the coincidence was not particularly surprising.

Lenina pulled at her zippers-downwards on the jacket, downwards with a double-handed gesture at the two that held trousers, downwards again to loosen her undergarment. Still wearing her shoes and stockings, she walked off towards the bathrooms.

Home, home—a few small rooms, stiflingly over-inhabited by a man, by a periodically teeming woman, by a rabble of boys and girls of all ages. No air, no space; an understerilized prison; darkness, disease, and smells.

(The Controller's evocation was so vivid that one of the boys, more sensitive than the rest, turned pale at the mere description and was on the point of being sick.)

Lenina got out of the bath, toweled herself dry, took hold of a long flexible tube plugged into the wall, presented the nozzle to her breast, as though she meant to commit suicide, pressed down the trigger. A blast of warmed air dusted her with the finest talcum powder. Eight different scents and eau-de-Cologne were laid on in little taps over the wash-basin. She turned on the third from the left, dabbed herself with chypre and, carrying her shoes and stockings in her hand, went out to see if one of the vibro-vacuum machines were free.

And home was as squalid psychically as physically. Psychically, it was a rabbit hole, a midden, hot with the frictions of tightly packed life, reeking with emotion. What suffocating intimacies, what dangerous, insane, obscene relationships between the members of the family group! Maniacally, the mother brooded over her children (her children)...brooded over them like a cat over its kittens; but a cat that could talk, a cat that could say, "My baby, my baby," over and over again. "My baby, and oh, oh, at my breast, the little hands, the hunger, and that unspeakable agonizing pleasure! Till at last my baby sleeps, my baby sleeps with a bubble of white milk at the corner of his mouth. My little baby sleeps..."

"Yes," said Mustapha Mond, nodding his head, "you may well shudder."

"Who are you going out with to-night?" Lenina asked, returning from the vibro-vac like a pearl illuminated from within, pinkly glowing.

"Nobody."

Lenina raised her eyebrows in astonishment.

“I’ve been feeling rather out of sorts lately,” Fanny explained. “Dr. Wells advised me to have a Pregnancy Substitute.”

“But, my dear, you’re only nineteen. The first Pregnancy Substitute isn’t compulsory till twenty-one.”

“I know, dear. But some people are better if they begin earlier. Dr. Wells told me that brunettes with wide pelvises, like me, ought to have their first Pregnancy Substitute at seventeen. So I’m really two years late, not two years early.” She opened the door of her locker and pointed to the row of boxes and labelled phials on the upper shelf.

“SYRUP OF CORPUS LUTEUM,” Lenina read the names aloud. “OVARIN, GUARANTEED FRESH: NOT TO BE USED AFTER AUGUST 1ST, A.F. 632. MAMMARY GLAND EXTRACT: TO BE TAKEN THREE TIMES DAILY, BEFORE MEALS, WITH A LITTLE WATER. PLACENTIN: 5cc TO BE INJECTED INTRAVENALLY EVERY THIRD DAY...Ugh!” Lenina shuddered. “How I loathe intravenals, don’t you?”

“Yes. But when they do one good...” Fanny was a particularly sensible girl.

Our Ford—or Our Freud, as, for some inscrutable reason, he chose to call himself whenever he spoke of psychological matters—Our Freud had been the first to reveal the appalling dangers of family life. The world was full of fathers—was therefore full of misery; full of mothers—therefore of every kind

of perversion from sadism to chastity; full of brothers, sisters, uncles, aunts—full of madness and suicide.

“And yet, among the savages of Samoa, in certain islands off the coast of New Guinea...”

The tropical sunshine lay like warm honey on the naked bodies of children tumbling promiscuously among the hibiscus blossoms. Home was in any one of twenty palm-thatched houses. In the Trobriands conception was the work of ancestral ghosts; nobody had ever heard of a father.

“Extremes,” said the Controller, “meet. For the good reason that they were made to meet.”

“Dr. Wells says that a three months’ Pregnancy Substitute now will make all the difference to my health for the next three or four years.”

“Well, I hope he’s right,” said Lenina. “But, Fanny, do you really mean to say that for the next three months you’re not supposed to...”

“Oh no, dear. Only for a week or two, that’s all. I shall spend the evening at the Club playing Musical Bridge. I suppose you’re going out?”

Lenina nodded.

“Who with?”

“Henry Foster.”

“Again?” Fanny’s kind, rather moon-like face took on an incongruous

expression of pained and disapproving astonishment. “Do you mean to tell me you’re still going out with Henry Foster?”

Mothers and fathers, brothers and sisters. But there were also husbands, wives, lovers. There were also monogamy and romance.

“Though you probably don’t know what those are,” said Mustapha Mond.

They shook their heads.

Family, monogamy, romance. Everywhere exclusiveness, a narrow channelling of impulse and energy.

“But every one belongs to every one else,” he concluded, citing the hypnopædic proverb.

The students nodded, emphatically agreeing with a statement which upwards of sixty-two thousand repetitions in the dark had made them accept, not merely as true, but as axiomatic, self-evident, utterly indisputable.

“But after all,” Lenina was protesting, “it’s only about four months now since I’ve been having Henry.”

“Only four months! I like that. And what’s more,” Fanny went on, pointing an accusing finger, “there’s been nobody else except Henry all that time. Has there?”

Lenina blushed scarlet; but her eyes, the tone of her voice remained defiant. “No, there hasn’t been any one else,” she answered almost

truculently. "And I jolly well don't see why there should have been."

"Oh, she jolly well doesn't see why there should have been," Fanny repeated, as though to an invisible listener behind Lenina's left shoulder. Then, with a sudden change of tone, "But seriously," she said, "I really do think you ought to be careful. It's such horribly bad form to go on and on like this with one man. At forty, or thirty-five, it wouldn't be so bad. But at your age, Lenina! No, it really won't do. And you know how strongly the D.H.C. objects to anything intense or long-drawn. Four months of Henry Foster, without having another man—why, he'd be furious if he knew..."

"Think of water under pressure in a pipe." They thought of it. "I pierce it once," said the Controller. "What a jet!"

He pierced it twenty times. There were twenty piddling little fountains.

"My baby. My baby...!"

"Mother!" The madness is infectious.

"My love, my one and only, precious, precious..."

Mother, monogamy, romance. High spurts the fountain; fierce and foamy the wild jet. The urge has but a single outlet. My love, my baby. No wonder these poor pre-moderns were mad and wicked and miserable. Their world didn't allow them to take things easily, didn't allow them to be sane, virtuous, happy. What with mothers and lovers, what with the prohibitions they were not conditioned to obey, what with the temptations and the lonely remorse, what with all the diseases and the endless isolating pain, what with

the uncertainties and the poverty—they were forced to feel strongly. And feeling strongly (and strongly, what was more, in solitude, in hopelessly individual isolation), how could they be stable?

“Of course there’s no need to give him up. Have somebody else from time to time, that’s all. He has other girls, doesn’t he?”

Lenina admitted it.

“Of course he does. Trust Henry Foster to be the perfect gentleman—always correct. And then there’s the Director to think of. You know what a stickler...”

Nodding, “He patted me on the behind this afternoon,” said Lenina.

“There, you see!” Fanny was triumphant. “That shows what he stands for. The strictest conventionality.”

“Stability,” said the Controller, “stability. No civilization without social stability. No social stability without individual stability.” His voice was a trumpet. Listening they felt larger, warmer.

The machine turns, turns and must keep on turning—for ever. It is death if it stands still. A thousand millions scabbled the crust of the earth. The wheels began to turn. In a hundred and fifty years there were two thousand millions. Stop all the wheels. In a hundred and fifty weeks there are once more only a thousand millions; a thousand thousand thousand men and women have starved to death.

Wheels must turn steadily, but cannot turn untended. There must be men

to tend them, men as steady as the wheels upon their axles, sane men, obedient men, stable in contentment.

Crying: My baby, my mother, my only, only love groaning: My sin, my terrible God; screaming with pain, muttering with fever, bemoaning old age and poverty—how can they tend the wheels? And if they cannot tend the wheels...The corpses of a thousand thousand thousand men and women would be hard to bury or burn.

“And after all,” Fanny’s tone was coaxing, “it’s not as though there were anything painful or disagreeable about having one or two men besides Henry. And seeing that you ought to be a little more promiscuous...”

“Stability,” insisted the Controller, “stability. The primal and the ultimate need. Stability. Hence all this.”

With a wave of his hand he indicated the gardens, the huge building of the Conditioning Centre, the naked children furtive in the undergrowth or running across the lawns.

Lenina shook her head. “Somehow,” she mused, “I hadn’t been feeling very keen on promiscuity lately. There are times when one doesn’t. Haven’t you found that too, Fanny?”

Fanny nodded her sympathy and understanding. “But one’s got to make the effort,” she said, sententiously, “one’s got to play the game. After all, every one belongs to every one else.”

“Yes, every one belongs to every one else,” Lenina repeated slowly and,

sighing, was silent for a moment; then, taking Fanny's hand, gave it a little squeeze. "You're quite right, Fanny. As usual. I'll make the effort."

Impulse arrested spills over, and the flood is feeling, the flood is passion, the flood is even madness: it depends on the force of the current, the height and strength of the barrier. The unchecked stream flows smoothly down its appointed channels into a calm well-being. The embryo is hungry; day in, day out, the blood-surrogate pump unceasingly turns its eight hundred revolutions a minute. The decanted infant howls; at once a nurse appears with a bottle of external secretion. Feeling lurks in that interval of time between desire and its consummation. Shorten that interval, break down all those old unnecessary barriers.

"Fortunate boys!" said the Controller. "No pains have been spared to make your lives emotionally easy—to preserve you, so far as that is possible, from having emotions at all."

"Ford's in his flivver," murmured the D.H.C. "All's well with the world."

"Lenina Crowne?" said Henry Foster, echoing the Assistant Predestinator's question as he zipped up his trousers. "Oh, she's a splendid girl. Wonderfully pneumatic. I'm surprised you haven't had her."

"I can't think how it is I haven't," said the Assistant Predestinator. "I certainly will. At the first opportunity."

From his place on the opposite side of the changing-room aisle, Bernard Marx overheard what they were saying and turned pale.

“And to tell the truth,” said Lenina, “I’m beginning to get just a tiny bit bored with nothing but Henry every day.” She pulled on her left stocking. “Do you know Bernard Marx?” she asked in a tone whose excessive casualness was evidently forced.

Fanny looked startled. “You don’t mean to say...?”

“Why not? Bernard’s an Alpha Plus. Besides, he asked me to go to one of the Savage Reservations with him. I’ve always wanted to see a Savage Reservation.”

“But his reputation?”

“What do I care about his reputation?”

“They say he doesn’t like Obstacle Golf.”

“They say, they say,” mocked Lenina.

“And then he spends most of his time by himself—alone.” There was horror in Fanny’s voice.

“Well, he won’t be alone when he’s with me. And anyhow, why are people so beastly to him? I think he’s rather sweet.” She smiled to herself; how absurdly shy he had been! Frightened almost—as though she were a World Controller and he a Gamma-Minus machine minder.

“Consider your own lives,” said Mustapha Mond. “Has any of you ever encountered an insurmountable obstacle?”

The question was answered by a negative silence. “Has any of you been compelled to live through a long time-interval between the consciousness of a desire and its fulfilment?”

“Well,” began one of the boys, and hesitated.

“Speak up,” said the D.H.C. “Don’t keep his lordship waiting.”

“I once had to wait nearly four weeks before a girl I wanted would let me have her.”

“And you felt a strong emotion in consequence?”

“Horrible!”

“Horrible; precisely,” said the Controller. “Our ancestors were so stupid and short-sighted that when the first reformers came along and offered to deliver them from those horrible emotions, they wouldn’t have anything to do with them.”

“Talking about her as though she were a bit of meat.” Bernard ground his teeth. “Have her here, have her there.” Like mutton. Degrading her to so much mutton. She said she’d think it over, she said she’d give me an answer this week. Oh, Ford, Ford, Ford.” He would have liked to go up to them and hit them in the face—hard, again and again.

“Yes, I really do advise you to try her,” Henry Foster was saying.

“Take Ectogenesis. Pfitzner and Kawaguchi had got the whole technique worked out. But would the Governments look at it? No. There was something

called Christianity. Women were forced to go on being viviparous.”

“He’s so ugly!” said Fanny.

“But I rather like his looks.”

“And then so small.” Fanny made a grimace; smallness was so horribly and typically low-caste.

“I think that’s rather sweet,” said Lenina. “One feels one would like to pet him. You know. Like a cat.”

Fanny was shocked. “They say somebody made a mistake when he was still in the bottle—thought he was a Gamma and put alcohol into his blood-surrogate. That’s why he’s so stunted.”

“What nonsense!” Lenina was indignant.

“Sleep teaching was actually prohibited in England. There was something called liberalism. Parliament, if you know what that was, passed a law against it. The records survive. Speeches about liberty of the subject. Liberty to be inefficient and miserable. Freedom to be a round peg in a square hole.”

“But, my dear chap, you’re welcome, I assure you. You’re welcome.” Henry Foster patted the Assistant Predestinator on the shoulder. “Every one belongs to every one else, after all.”

One hundred repetitions three nights a week for four years, thought Bernard Marx, who was a specialist on hypnopædia. Sixty-two thousand four

hundred repetitions make one truth. Idiots!

“Or the Caste System. Constantly proposed, constantly rejected. There was something called democracy. As though men were more than physico-chemically equal.”

“Well, all I can say is that I’m going to accept his invitation.”

Bernard hated them, hated them. But they were two, they were large, they were strong.

“The Nine Years’ War began in A.F. 141.”

“Not even if it were true about the alcohol in his blood-surrogate.”

“Phosgene, chloropicrin, ethyl iodoacetate, diphenylcyanarsine, trichlormethyl, chloroformate, dichlorethyl sulphide. Not to mention hydrocyanic acid.”

“Which I simply don’t believe,” Lenina concluded.

“The noise of fourteen thousand aeroplanes advancing in open order. But in the Kurfurstendamm and the Eighth Arrondissement, the explosion of the anthrax bombs is hardly louder than the popping of a paper bag.”

“Because I do want to see a Savage Reservation.”

$\text{Ch}_3\text{C}_6\text{H}_2(\text{NO}_2)_3 + \text{Hg}(\text{CNO})_2$ =well, what? An enormous hole in the ground, a pile of masonry, some bits of flesh and mucus, a foot, with the boot still on it, flying through the air and landing, flop, in the middle of the

geraniums—the scarlet ones; such a splendid show that summer!

“You’re hopeless, Lenina, I give you up.”

“The Russian technique for infecting water supplies was particularly ingenious.”

Back turned to back, Fanny and Lenina continued their changing in silence.

“The Nine Years’ War, the great Economic Collapse. There was a choice between World Control and destruction. Between stability and...”

“Fanny Crowne’s a nice girl too,” said the Assistant Predestmator. In the nurseries, the Elementary Class Consciousness lesson was over, the voices were adapting future demand to future industrial supply. “I do love flying,” they whispered, “I do love flying, I do love having new clothes, I do love...”

“Liberalism, of course, was dead of anthrax, but all the same you couldn’t do things by force.”

“Not nearly so pneumatic as Lenina. Oh, not nearly.”

“But old clothes are beastly,” continued the untiring whisper. “We always throw away old clothes. Ending is better than mending, ending is better than mending, ending is better...”

“Government’s an affair of sitting, not hitting. You rule with the brains and the buttocks, never with the fists. For example, there was the conscription of consumption.”

“There, I’m ready,” said Lenina, but Fanny remained speechless and averted. “Let’s make peace, Fanny darling.”

“Every man, woman and child compelled to consume so much a year. In the interests of industry. The sole result...”

“Ending is better than mending. The more stitches, the less riches; the more stitches...”

“One of these days,” said Fanny, with dismal emphasis, “you’ll get into trouble.”

“Conscientious objection on an enormous scale. Anything not to consume. Back to nature.”

“I do love flying. I do love flying.”

“Back to culture. Yes, actually to culture. You can’t consume much if you sit still and read books.”

“Do I look all right?” Lenina asked. Her jacket was made of bottle green acetate cloth with green viscose fur; at the cuffs and collar.

“Eight hundred Simple Lifers were mowed down by machine guns at Golders Green.”

“Ending is better than mending, ending is better than mending.”

Green corduroy shorts and white viscose-woollen stockings turned down below the knee.

“Then came the famous British Museum Massacre. Two thousand culture fans gassed with dichlorethyl sulphide.”

A green-and-white jockey cap shaded Lenina’s eyes; her shoes were bright green and highly polished.

“In the end,” said Mustapha Mond, “the Controllers realized that force was no good. The slower but infinitely surer methods of ectogenesis, neo-Pavlovian conditioning and hypnopædia...”

And round her waist she wore a silver-mounted green morocco-surrogate cartridge belt, bulging (for Lenina was not a freemartin) with the regulation supply of contraceptives.

“The discoveries of Pfitzner and Kawaguchi were at last made use of. An intensive propaganda against viviparous reproduction...”

“Perfect!” cried Fanny enthusiastically. She could never resist Lenina’s charm for long. “And what a perfectly sweet Malthusian belt!”

“Accompanied by a campaign against the Past; by the closing of museums, the blowing up of historical monuments (luckily most of them had already been destroyed during the Nine Years’ War); by the suppression of all books published before A.F. 150.”

“I simply must get one like it,” said Fanny.

“There were some things called the pyramids, for example.

“My old black-patent bandolier...”

“And a man called Shakespeare. You’ve never heard of them of course.”

“It’s an absolute disgrace—that bandolier of mine.”

“Such are the advantages of a really scientific education.”

“The more stitches the less riches; the more stitches the less...”

“The introduction of Our Ford’s first T-Model...”

“I’ve had it nearly three months.”

“Chosen as the opening date of the new era.”

“Ending is better than mending; ending is better...”

“There was a thing, as I’ve said before, called Christianity.”

“Ending is better than mending.”

“The ethics and philosophy of under-consumption...”

“I love new clothes, I love new clothes, I love...”

“So essential when there was under-production; but in an age of machines and the fixation of nitrogen—positively a crime against society.”

“Henry Foster gave it me.”

“All crosses had their tops cut and became T’s. There was also a thing called God.”

“It’s real morocco-surrogate.”

“We have the World State now. And Ford’s Day celebrations, and Community Sings, and Solidarity Services.”

“Ford, how I hate them!” Bernard Marx was thinking.

“There was a thing called Heaven; but all the same they used to drink enormous quantities of alcohol.”

“Like meat, like so much meat.”

“There was a thing called the soul and a thing called immortality.”

“Do ask Henry where he got it.”

“But they used to take morphia and cocaine.”

“And what makes it worse, she thinks of herself as meat.”

“Two thousand pharmacologists and bio-chemists were subsidized in A.P. 178.”

“He does look glum,” said the Assistant Predestinator, pointing at Bernard Marx.

“Six years later it was being produced commercially. The perfect drug.”

“Let’s bait him.”

“Euphoric, narcotic, pleasantly hallucinant.”

“Glum, Marx, glum.” The clap on the shoulder made him start, look up. It was that brute Henry Foster. “What you need is a gramme of soma.”

“All the advantages of Christianity and alcohol; none of their defects.”

“Ford, I should like to kill him!” But all he did was to say, “No, thank you,” and fend off the proffered tube of tablets.

“Take a holiday from reality whenever you like, and come back without so much as a headache or a mythology.”

“Take it,” insisted Henry Foster, “take it.”

“Stability was practically assured.”

“One cubic centimetre cures ten gloomy sentiments,” said the Assistant Predestinator citing a piece of homely hypnopædic wisdom.

“It only remained to conquer old age.”

“Damn you, damn you!” shouted Bernard Marx.

“Hoity-toity.”

“Gonadal hormones, transfusion of young blood, magnesium salts...”

“And do remember that a gramme is better than a damn.” They went out, laughing.

“All the physiological stigmata of old age have been abolished. And along with them, of course...”

“Don’t forget to ask him about that Malthusian belt,” said Fanny.

“Along with them all the old man’s mental peculiarities. Characters remain constant throughout a whole lifetime.”

“...two rounds of Obstacle Golf to get through before dark. I must fly.”

“Work, play—at sixty our powers and tastes are what they were at seventeen. Old men in the bad old days used to renounce, retire, take to religion, spend their time reading, thinking—thinking!”

“Idiots, swine!” Bernard Marx was saying to himself, as he walked down the corridor to the lift.

“Now—such is progress—the old men work, the old men copulate, the old men have no time, no leisure from pleasure, not a moment to sit down and think—or if ever by some unlucky chance such a crevice of time should yawn in the solid substance of their distractions, there is always soma, delicious soma, half a gramme for a half-holiday, a gramme for a week-end, two grammes for a trip to the gorgeous East, three for a dark eternity on the moon; returning whence they find themselves on the other side of the crevice, safe on the solid ground of daily labour and distraction, scampering from feely to feely, from girl to pneumatic girl, from Electromagnetic Golf course to...”

“Go away, little girl,” shouted the D.H.C. angrily. “Go away, little boy! Can’t you see that his lordship’s busy? Go and do your erotic play somewhere else.”

“Suffer little children,” said the Controller.

Slowly, majestically, with a faint humming of machinery, the Conveyors moved forward, thirty-three centimeters an hour. In the red darkness glinted innumerable rubies.

Chapter Four

THE LIFT was crowded with men from the Alpha Changing Rooms, and Lenina's entry was greeted by many friendly nods and smiles. She was a popular girl and, at one time or another, had spent a night with almost all of them.

They were dear boys, she thought, as she returned their salutations. Charming boys! Still, she did wish that George Edzel's ears weren't quite so big (perhaps he'd been given just a spot too much parathyroid at Metre 328?). And looking at Benito Hoover, she couldn't help remembering that he was really too hairy when he took his clothes off.

Turning, with eyes a little saddened by the recollection, of Benito's curly blackness, she saw in a corner the small thin body, the melancholy face of Bernard Marx.

"Bernard!" she stepped up to him. "I was looking for you." Her voice rang clear above the hum of the mounting lift. The others looked round curiously. "I wanted to talk to you about our New Mexico plan." Out of the tail of her eye she could see Benito Hoover gaping with astonishment. The gape annoyed her. "Surprised I shouldn't be begging to go with him again!" she said to herself. Then aloud, and more warmly than ever, "I'd simply love to come with you for a week in July," she went on. (Anyhow, she was publicly proving her unfaithfulness to Henry. Fanny ought to be pleased,

even though it was Bernard.) “That is,” Lenina gave him her most deliciously significant smile, “if you still want to have me.”

Bernard’s pale face flushed. “What on earth for?” she wondered, astonished, but at the same time touched by this strange tribute to her power.

“Hadn’t we better talk about it somewhere else?” he stammered, looking horribly uncomfortable.

“As though I’d been saying something shocking,” thought Lenina. “He couldn’t look more upset if I’d made a dirty joke—asked him who his mother was, or something like that.”

“I mean, with all these people about...” He was choked with confusion.

Lenina’s laugh was frank and wholly unmalicious. “How funny you are!” she said; and she quite genuinely did think him funny. “You’ll give me at least a week’s warning, won’t you,” she went on in another tone. “I suppose we take the Blue Pacific Rocket? Does it start from the Charing-T Tower? Or is it from Hampstead?”

Before Bernard could answer, the lift came to a standstill.

“Roof!” called a creaking voice.

The liftman was a small simian creature, dressed in the black tunic of an Epsilon-Minus Semi-Moron.

“Roof!”

He flung open the gates. The warm glory of afternoon sunlight made him start and blink his eyes. “Oh, roof!” he repeated in a voice of rapture. He was as though suddenly and joyfully awakened from a dark annihilating stupor. “Roof!”

He smiled up with a kind of doggily expectant adoration into the faces of his passengers. Talking and laughing together, they stepped out into the light. The liftman looked after them.

“Roof?” he said once more, questioningly.

Then a bell rang, and from the ceiling of the lift a loud speaker began, very softly and yet very imperiously, to issue its commands.

“Go down,” it said, “go down. Floor Eighteen. Go down, go down. Floor Eighteen. Go down, go...”

The liftman slammed the gates, touched a button and instantly dropped back into the droning twilight of the well, the twilight of his own habitual stupor.

It was warm and bright on the roof. The summer afternoon was drowsy with the hum of passing helicopters; and the deeper drone of the rocket-planes hastening, invisible, through the bright sky five or six miles overhead was like a caress on the soft air. Bernard Marx drew a deep breath. He looked up into the sky and round the blue horizon and finally down into Lenina’s face.

“Isn’t it beautiful!” His voice trembled a little.

She smiled at him with an expression of the most sympathetic understanding. "Simply perfect for Obstacle Golf," she answered rapturously. "And now I must fly, Bernard. Henry gets cross if I keep him waiting. Let me know in good time about the date." And waving her hand she ran away across the wide flat roof towards the hangars. Bernard stood watching the retreating twinkle of the white stockings, the sunburnt knees vivaciously bending and unbending again, again, and the softer rolling of those well-fitted corduroy shorts beneath the bottle green jacket. His face wore an expression of pain.

"I should say she was pretty," said a loud and cheery voice just behind him.

Bernard started and looked around. The chubby red face of Benito Hoover was beaming down at him—beaming with manifest cordiality. Benito was notoriously good-natured. People said of him that he could have got through life without ever touching soma. The malice and bad tempers from which other people had to take holidays never afflicted him. Reality for Benito was always sunny.

"Pneumatic too. And how!" Then, in another tone: "But, I say," he went on, "you do look glum! What you need is a gramme of soma." ping into his right-hand trouser-pocket, Benito produced a phial. "One cubic centimetre cures ten gloomy...But, I say!"

Bernard had suddenly turned and rushed away.

Benito stared after him. "What can be the matter with the fellow?" he wondered, and, shaking his head, decided that the story about the alcohol

having been put into the poor chap's blood-surrogate must be true. "Touched his brain, I suppose."

He put away the soma bottle, and taking out a packet of sex-hormone chewing-gum, stuffed a plug into his cheek and walked slowly away towards the hangars, ruminating.

Henry Foster had had his machine wheeled out of its lock-up and, when Lenina arrived, was already seated in the cockpit, waiting.

"Four minutes late," was all his comment, as she climbed in beside him. He started the engines and threw the helicopter screws into gear. The machine shot vertically into the air. Henry accelerated; the humming of the propeller shrilled from hornet to wasp, from wasp to mosquito; the speedometer showed that they were rising at the best part of two kilometres a minute. London diminished beneath them. The huge table-topped buildings were no more, in a few seconds, than a bed of geometrical mushrooms sprouting from the green of park and garden. In the midst of them, thin-stalked, a taller, slenderer fungus, the Charing-T Tower lifted towards the sky a disk of shining concrete.

Like the vague torsos of fabulous athletes, huge fleshy clouds lolled on the blue air above their heads. Out of one of them suddenly dropped a small scarlet insect, buzzing as it fell.

"There's the Red Rocket," said Henry, "just come in from New York." Looking at his watch. "Seven minutes behind time," he added, and shook his head. "These Atlantic services—they're really scandalously unpunctual."

He took his foot off the accelerator. The humming of the screws overhead dropped an octave and a half, back through wasp and hornet to bumble bee, to cockchafer, to stag-beetle. The upward rush of the machine slackened off; a moment later they were hanging motionless in the air. Henry pushed at a lever; there was a click. Slowly at first, then faster and faster, till it was a circular mist before their eyes, the propeller in front of them began to revolve. The wind of a horizontal speed whistled ever more shrilly in the stays. Henry kept his eye on the revolution-counter; when the needle touched the twelve hundred mark, he threw the helicopter screws out of gear. The machine had enough forward momentum to be able to fly on its planes.

Lenina looked down through the window in the floor between her feet. They were flying over the six kilometre zone of park-land that separated Central London from its first ring of satellite suburbs. The green was maggoty with fore-shortened life. Forests of Centrifugal Bumble-puppy towers gleamed between the trees. Near Shepherd's Bush two thousand Beta-Minus mixed doubles were playing Riemann-surface tennis. A double row of Escalator Fives Courts lined the main road from Notting Hill to Willesden. In the Ealing stadium a Delta gymnastic display and community sing was in progress.

"What a hideous colour khaki is," remarked Lenina, voicing the hypnopædic prejudices of her caste.

The buildings of the Hounslow Feely Studio covered seven and a half hectares. Near them a black and khaki army of labourers was busy revitrifying the surface of the Great West Road. One of the huge travelling crucibles was being tapped as they flew over. The molten stone poured out in

a stream of dazzling incandescence across the road, the asbestos rollers came and went; at the tail of an insulated watering cart the steam rose in white clouds.

At Brentford the Television Corporation's factory was like a small town.

"They must be changing the shift," said Lenina.

Like aphides and ants, the leaf-green Gamma girls, the black Semi-Morons swarmed round the entrances, or stood in queues to take their places in the monorail tram-cars. Mulberry-coloured Beta-Minuses came and went among the crowd. The roof of the main building was alive with the alighting and departure of helicopters.

"My word," said Lenina, "I'm glad I'm not a Gamma."

Ten minutes later they were at Stoke Poges and had started their first round of Obstacle Golf.

With eyes for the most part downcast and, if ever they lighted on a fellow creature, at once and furtively averted, Bernard hastened across the roof. He was like a man pursued, but pursued by enemies he does not wish to see, lest they should seem more hostile even than he had supposed, and he himself be made to feel guiltier and even more helplessly alone.

"That horrible Benito Hoover!" And yet the man had meant well enough. Which only made it, in a way, much worse. Those who meant well behaved in the same way as those who meant badly. Even Lenina was

making him suffer. He remembered those weeks of timid indecision, during which he had looked and longed and despaired of ever having the courage to ask her. Dared he face the risk of being humiliated by a contemptuous refusal? But if she were to say yes, what rapture! Well, now she had said it and he was still wretched—wretched that she should have thought it such a perfect afternoon for Obstacle Golf, that she should have trotted away to join Henry Foster, that she should have found him funny for not wanting to talk of their most private affairs in public. Wretched, in a word, because she had behaved as any healthy and virtuous English girl ought to behave and not in some other, abnormal, extraordinary way.

He opened the door of his lock-up and called to a lounging couple of Delta-Minus attendants to come and push his machine out on to the roof. The hangars were staffed by a single Bokanovsky Group, and the men were twins, identically small, black and hideous. Bernard gave his orders in the sharp, rather arrogant and even offensive tone of one who does not feel himself too secure in his superiority. To have dealings with members of the lower castes was always, for Bernard, a most distressing experience. For whatever the cause (and the current gossip about the alcohol in his blood-surrogate may very likely—for accidents will happen—have been true) Bernard's physique as hardly better than that of the average Gamma. He stood eight centimetres short of the standard Alpha height and was slender in proportion. Contact with members of the lower castes always reminded him painfully of this physical inadequacy. "I am I, and wish I wasn't"; his self-consciousness was acute and stressing. Each time he found himself looking on the level, instead of downward, into a Delta's face, he felt humiliated. Would the creature treat him with the respect due to his caste? The question haunted him. Not without

reason. For Gammas, Deltas and Epsilons had been to some extent conditioned to associate corporeal mass with social superiority. Indeed, a faint hypnopædic prejudice in favour of size was universal. Hence the laughter of the women to whom he made proposals, the practical joking of his equals among the men. The mockery made him feel an outsider; and feeling an outsider he behaved like one, which increased the prejudice against him and intensified the contempt and hostility aroused by his physical defects. Which in turn increased his sense of being alien and alone. A chronic fear of being slighted made him avoid his equals, made him stand, where his inferiors were concerned, self-consciously on his dignity. How bitterly he envied men like Henry Foster and Benito Hoover! Men who never had to shout at an Epsilon to get an order obeyed; men who took their position for granted; men who moved through the caste system as a fish through water—so utterly at home as to be unaware either of themselves or of the beneficent and comfortable element in which they had their being.

Slackly, it seemed to him, and with reluctance, the twin attendants wheeled his plane out on the roof.

“Hurry up!” said Bernard irritably. One of them glanced at him. Was that a kind of bestial derision that he detected in those blank grey eyes? “Hurry up!” he shouted more loudly, and there was an ugly rasp in his voice.

He climbed into the plane and, a minute later, was flying southwards, towards the river.

The various Bureaux of Propaganda and the College of Emotional Engineering were housed in a single sixty-story building in Fleet Street. In

the basement and on the low floors were the presses and offices of the three great Lodon newspapers—The Hourly Radio, an upper-caste sheet, the pale green Gamma Gazette, and, on khaki paper and in words exclusively of one syllable, The Delta Mirror. Then came the Bureaux of Propaganda by Television, by Feeling Picture, and by Synthetic Voice and Music respectively—twenty-two floors of them. Above were the search laboratories and the padded rooms in which Sound-Track Writers and Synthetic Composers did the delicate work. The top eighteen floors were occupied the College of Emotional Engineering.

Bernard landed on the roof of Propaganda House and stepped out.

“Ring down to Mr. Helmholtz Watson,” he ordered the Gamma-Plus porter, “and tell him that Mr. Bernard Marx is waiting for him on the roof.”

He sat down and lit a cigarette.

Helmholtz Watson was writing when the message came down.

“Tell him I’m coming at once,” he said and hung up the receiver. Then, turning to his secretary, “I’ll leave you to put my things away,” he went on in the same official and impersonal tone; and, ignoring her lustrous smile, got up and walked briskly to the door.

He was a powerfully built man, deep-chested, broad-shouldered, massive, and yet quick in his movements, springy and agile. The round strong pillar of his neck supported a beautifully shaped head. His hair was dark and curly, his features strongly marked. In a forcible emphatic way, he was handsome and looked, as his secretety was never tired of repeating, every

centimetre an Alpha Plus. By profession he was a lecturer at the College of Emotional Engineering (Department of Writing) and the intervals of his educational activities, a working Emotional Engineer. He wrote regularly for The Hourly Radio, composed feely scenarios, and had the happiest knack for slogans and hypnopædic rhymes.

“Able,” was the verdict of his superiors. “Perhaps, (and they would shake their heads, would significantly lower their voices) a little too able.”

Yes, a little too able; they were right. A mental excess had produced in Helmholtz Watson effects very similar to those which, in Bernard Marx, were the result of a physical defect. Too little bone and brawn had isolated Bernard from his fellow men, and the sense of this apartness, being, by all the current standards, a mental excess, became in its turn a cause of wider separation. That which had made Helmholtz so uncomfortably aware of being himself and all alone was too much ability. What the two men shared was the knowledge that they were individuals. But whereas the physically defective Bernard had suffered all his life from the consciousness of being separate, it was only quite recently that, grown aware of his mental excess, Helmholtz Watson had also become aware of his difference from the people who surrounded him. This Escalator-Squash champion, this indefatigable lover (it was said that he had had six hundred and forty different girls in under four years), this admirable committee man and best mixer had realized quite suddenly that sport, women, communal activities were only, so far as he was concerned, second bests. Really, and at the bottom, he was interested in something else. But in what? In what? That was the problem which Bernard had come to discuss with him—or rather, since it was always Helmholtz who

did all the talking, to listen to his friend discussing, yet once more.

Three charming girls from the Bureau of Propaganda by Synthetic Voice waylaid him as he stepped out of the lift.

“Oh, Helmholtz, darling, do come and have a picnic supper with us on Exmoor.” They clung round him imploringly.

He shook his head, he pushed his way through them. “No, no.”

“We’re not inviting any other man.”

But Helmholtz remained unshaken even by this delightful promise. “No,” he repeated, “I’m busy.” And he held resolutely on his course. The girls trailed after him. It was not till he had actually climbed into Bernard’s plane and slammed the door that they gave up pursuit. Not without reproaches.

“These women!” he said, as the machine rose into the air. “These women!” And he shook his head, he frowned. “Too awful,” Bernard hypocritically agreed, wishing, as he spoke the words, that he could have as many girls as Helmholtz did, and with as little trouble. He was seized with a sudden urgent need to boast. “I’m taking Lenina Crowne to New Mexico with me,” he said in a tone as casual as he could make it.

“Are you?” said Helmholtz, with a total absence of interest. Then after a little pause, “This last week or two,” he went on, “I’ve been cutting all my committees and all my girls. You can’t imagine what a hullabaloo they’ve been making about it at the College. Still, it’s been worth it, I think. The

effects..." He hesitated. "Well, they're odd, they're very odd."

A physical shortcoming could produce a kind of mental excess. The process, it seemed, was reversible. Mental excess could produce, for its own purposes, the voluntary blindness and deafness of deliberate solitude, the artificial impotence of asceticism.

The rest of the short flight was accomplished in silence. When they had arrived and were comfortably stretched out on the pneumatic sofas in Bernard's room, Helmholtz began again.

Speaking very slowly, "Did you ever feel," he asked, "as though you had something inside you that was only waiting for you to give it a chance to come out? Some sort of extra power that you aren't using—you know, like all the water that goes down the falls instead of through the turbines?" He looked at Bernard questioningly.

"You mean all the emotions one might be feeling if things were different?"

Helmholtz shook his head. "Not quite. I'm thinking of a queer feeling I sometimes get, a feeling that I've got something important to say and the power to say it—only I don't know what it is, and I can't make any use of the power. If there was some different way of writing...Or else something else to write about..." He was silent; then, "You see," he went on at last, "I'm pretty good at inventing phrases—you know, the sort of words that suddenly make you jump, almost as though you'd sat on a pin, they seem so new and exciting even though they're about something hypnopædically obvious. But

that doesn't seem enough. It's not enough for the phrases to be good; what you make with them ought to be good too."

"But your things are good, Helmholtz."

"Oh, as far as they go." Helmholtz shrugged his shoulders. "But they go such a little way. They aren't important enough, somehow. I feel I could do something much more important. Yes, and more intense, more violent. But what? What is there more important to say? And how can one be violent about the sort of things one's expected to write about? Words can be like X-rays, if you use them properly—they'll go through anything. You read and you're pierced. That's one of the things I try to teach my students—how to write piercingly. But what on earth's the good of being pierced by an article about a Community Sing, or the latest improvement in scent organs? Besides, can you make words really piercing—you know, like the very hardest X-rays—when you're writing about that sort of thing? Can you say something about nothing? That's what it finally boils down to. I try and I try..."

"Hush!" said Bernard suddenly, and lifted a warning finger; they listened. "I believe there's somebody at the door," he whispered.

Helmholtz got up, tiptoed across the room, and with a sharp quick movement flung the door wide open. There was, of course, nobody there.

"I'm sorry," said Bernard, feeling and looking uncomfortably foolish. "I suppose I've got things on my nerves a bit. When people are suspicious with you, you start being suspicious with them."

He passed his hand across his eyes, he sighed, his voice became

plaintive. He was justifying himself. "If you knew what I'd had to put up with recently," he said almost tearfully—and the uprush of his self-pity was like a fountain suddenly released. "If you only knew!"

Helmholtz Watson listened with a certain sense of discomfort. "Poor little Bernard!" he said to himself. But at the same time he felt rather ashamed for his friend. He wished Bernard would show a little more pride.

Chapter Five

BY EIGHT O'CLOCK the light was failing. The loud speaker in the tower of the Stoke Poges Club House began, in a more than human tenor, to announce the closing of the courses. Lenina and Henry abandoned their game and walked back towards the Club. From the grounds of the Internal and External Secretion Trust came the lowing of those thousands of cattle which provided, with their hormones and their milk, the raw materials for the great factory at Farnham Royal.

An incessant buzzing of helicopters filled the twilight. Every two and a half minutes a bell and the screech of whistles announced the departure of one of the light monorail trains which carried the lower caste golfers back from their separate course to the metropolis.

Lenina and Henry climbed into their machine and started off. At eight hundred feet Henry slowed down the helicopter screws, and they hung for a minute or two poised above the fading landscape. The forest of Burnham Beeches stretched like a great pool of darkness towards the bright shore of the western sky. Crimson at the horizon, the last of the sunset faded, through orange, upwards into yellow and a pale watery green. Northwards, beyond and above the trees, the Internal and External Secretions factory glared with a fierce electric brilliance from every window of its twenty stories. Beneath them lay the buildings of the Golf Club—the huge Lower Caste barracks and, on the other side of a piding wall, the smaller houses reserved for Alpha and

Beta members. The approaches to the monorail station were black with the ant-like pullulation of lower-caste activity. From under the glass vault a lighted train shot out into the open. Following its southeasterly course across the dark plain their eyes were drawn to the majestic buildings of the Slough Crematorium. For the safety of night-flying planes, its four tall chimneys were flood-lighted and tipped with crimson danger signals. It was a landmark.

“Why do the smoke-stacks have those things like balconies around them?” enquired Lenina.

“Phosphorus recovery,” explained Henry telegraphically. “On their way up the chimney the gases go through four separate treatments. P_2O_5 used to go right out of circulation every time they cremated some one. Now they recover over ninety-eight per cent of it. More than a kilo and a half per adult corpse. Which makes the best part of four hundred tons of phosphorus every year from England alone.” Henry spoke with a happy pride, rejoicing wholeheartedly in the achievement, as though it had been his own. “Fine to think we can go on being socially useful even after we’re dead. Making plants grow.”

Lenina, meanwhile, had turned her eyes away and was looking perpendicularly downwards at the monorail station. “Fine,” she agreed. “But queer that Alphas and Betas won’t make any more plants grow than those nasty little Gammas and Deltas and Epsilons down there.”

“All men are physico-chemically equal,” said Henry sententiously. “Besides, even Epsilons perform indispensable services.”

“Even an Epsilon...” Lenina suddenly remembered an occasion when, as a little girl at school, she had woken up in the middle of the night and become aware, for the first time, of the whispering that had haunted all her sleeps. She saw again the beam of moonlight, the row of small white beds; heard once more the soft, soft voice that said (the words were there, unforgotten, unforgettable after so many night-long repetitions): “Every one works for every one else. We can’t do without any one. Even Epsilons are useful. We couldn’t do without Epsilons. Every one works for every one else. We can’t do without any one...” Lenina remembered her first shock of fear and surprise; her speculations through half a wakeful hour; and then, under the influence of those endless repetitions, the gradual soothing of her mind, the soothing, the smoothing, the stealthy creeping of sleep....

“I suppose Epsilons don’t really mind being Epsilons,” she said aloud.

“Of course they don’t. How can they? They don’t know what it’s like being anything else. We’d mind, of course. But then we’ve been differently conditioned. Besides, we start with a different heredity.”

“I’m glad I’m not an Epsilon,” said Lenina, with conviction.

“And if you were an Epsilon,” said Henry, “your conditioning would have made you no less thankful that you weren’t a Beta or an Alpha.” He put his forward propeller into gear and headed the machine towards London. Behind them, in the west, the crimson and orange were almost faded; a dark bank of cloud had crept into the zenith. As they flew over the crematorium, the plane shot upwards on the column of hot air rising from the chimneys, only to fall as suddenly when it passed into the descending chill beyond.

“What a marvellous switchback!” Lenina laughed delightedly.

But Henry’s tone was almost, for a moment, melancholy. “Do you know what that switchback was?” he said. “It was some human being finally and definitely disappearing. Going up in a squirt of hot gas. It would be curious to know who it was—a man or a woman, an Alpha or an Epsilon....” He sighed. Then, in a resolutely cheerful voice, “Anyhow,” he concluded, “there’s one thing we can be certain of; whoever he may have been, he was happy when he was alive. Everybody’s happy now.”

“Yes, everybody’s happy now,” echoed Lenina. They had heard the words repeated a hundred and fifty times every night for twelve years.

Landing on the roof of Henry’s forty-story apartment house in Westminster, they went straight down to the dining-hall. There, in a loud and cheerful company, they ate an excellent meal. Soma was served with the coffee. Lenina took two half-gramme tablets and Henry three. At twenty past nine they walked across the street to the newly opened Westminster Abbey Cabaret. It was a night almost without clouds, moonless and starry; but of this on the whole depressing fact Lenina and Henry were fortunately unaware. The electric sky-signs effectively shut off the outer darkness. “CALVIN STOPES AND HIS SIXTEEN SEXOPHONISTS.” From the façade of the new Abbey the giant letters invitingly glared. “LONDON’S FINEST SCENT AND COLOUR ORGAN. ALL THE LATEST SYNTHETIC MUSIC.”

They entered. The air seemed hot and somehow breathless with the scent of ambergris and sandalwood. On the domed ceiling of the hall, the colour organ had momentarily painted a tropical sunset. The Sixteen

Sexophonists were playing an old favourite: “There ain’t no Bottle in all the world like that dear little Bottle of mine.” Four hundred couples were five-stepping round the polished floor. Lenina and Henry were soon the four hundred and first. The saxophones wailed like melodious cats under the moon, moaned in the alto and tenor registers as though the little death were upon them. Rich with a wealth of harmonics, their tremulous chorus mounted towards a climax, louder and ever louder—until at last, with a wave of his hand, the conductor let loose the final shattering note of ether-music and blew the sixteen merely human blowers clean out of existence. Thunder in A flat major. And then, in all but silence, in all but darkness, there followed a gradual deturgescence, a diminuendo sliding gradually, through quarter tones, down, down to a faintly whispered dominant chord that lingered on (while the five-four rhythms still pulsed below) charging the darkened seconds with an intense expectancy. And at last expectancy was fulfilled. There was a sudden explosive sunrise, and simultaneously, the Sixteen burst into song:

“Bottle of mine, it’s you I’ve always wanted!

Bottle of mine, why was I ever decanted?

Skies are blue inside of you,

The weather’s always fine; For There ain’t no Bottle in all the world
Like that dear little Bottle of mine.”

Five-stepping with the other four hundred round and round Westminster Abbey, Lenina and Henry were yet dancing in another world—the warm, the richly coloured, the infinitely friendly world of soma-holiday. How kind, how

good-looking, how delightfully amusing every one was! “Bottle of mine, it’s you I’ve always wanted...” But Lenina and Henry had what they wanted... They were inside, here and now-safely inside with the fine weather, the perennially blue sky. And when, exhausted, the Sixteen had laid by their saxophones and the Synthetic Music apparatus was producing the very latest in slow Malthusian Blues, they might have been twin embryos gently rocking together on the waves of a bottled ocean of blood-surrogate.

“Good-night, dear friends. Good-night, dear friends.” The loud speakers veiled their commands in a genial and musical politeness. “Good-night, dear friends...”

Obediently, with all the others, Lenina and Henry left the building. The depressing stars had travelled quite some way across the heavens. But though the separating screen of the sky-signs had now to a great extent dissolved, the two young people still retained their happy ignorance of the night.

Swallowing half an hour before closing time, that second dose of soma had raised a quite impenetrable wall between the actual universe and their minds. Bottled, they crossed the street; bottled, they took the lift up to Henry’s room on the twenty-eighth floor. And yet, bottled as she was, and in spite of that second gramme of soma, Lenina did not forget to take all the contraceptive precautions prescribed by the regulations. Years of intensive hypnopædia and, from twelve to seventeen, Malthusian drill three times a week had made the taking of these precautions almost as automatic and inevitable as blinking.

“Oh, and that reminds me,” she said, as she came back from the

bathroom, “Fanny Crowne wants to know where you found that lovely green morocco-surrogate cartridge belt you gave me.”

Alternate Thursdays were Bernard’s Solidarity Service days. After an early dinner at the Aphroditzeum (to which Helrnholtz had recently been elected under Rule Two) he took leave of his friend and, hailing a taxi on the roof told the man to fly to the Fordson Community Singery. The machine rose a couple of hundred metres, then headed eastwards, and as it turned, there before Bernard’s eyes, gigantically beautiful, was the Singery. Flood-lighted, its three hundred and twenty metres of white Carrara-surrogate gleamed with a snowy incandescence over Ludgate Hill; at each of the four corners of its helicopter platform an immense T shone crimson against the night, and from the mouths of twenty-four vast golden trumpets rumbled a solemn synthetic music.

“Damn, I’m late,” Bernard said to himself as he first caught sight of Big Henry, the Singery clock. And sure enough, as he was paying off his cab, Big Henry sounded the hour. “Ford,” sang out an immense bass voice from all the golden trumpets. “Ford, Ford, Ford...” Nine times. Bernard ran for the lift.

The great auditorium for Ford’s Day celebrations and other massed Community Sings was at the bottom of the building. Above it, a hundred to each floor, were the seven thousand rooms used by Solidarity Groups for their fortnight services. Bernard dropped down to floor thirty-three, hurried along the corridor, stood hesitating for a moment outside Room 3210, then, having wound himself up, opened the door and walked in.

Thank Ford! he was not the last. Three chairs of the twelve arranged round the circular table were still unoccupied. He slipped into the nearest of them as inconspicuously as he could and prepared to frown at the yet later comers whenever they should arrive.

Turning towards him, “What were you playing this afternoon?” the girl on his left enquired. “Obstacle, or Electro-magnetic?”

Bernard looked at her (Ford! it was Morgana Rothschild) and blushing had to admit that he had been playing neither. Morgana stared at him with astonishment. There was an awkward silence.

Then pointedly she turned away and addressed herself to the more sporting man on her left.

“A good beginning for a Solidarity Service,” thought Bernard miserably, and foresaw for himself yet another failure to achieve atonement. If only he had given himself time to look around instead of scuttling for the nearest chair! He could have sat between Fifi Bradlaugh and Joanna Diesel. Instead of which he had gone and blindly planted himself next to Morgana. Morgana! Ford! Those black eyebrows of hers—that eyebrow, rather—for they met above the nose. Ford! And on his right was Clara Deterding. True, Clara’s eyebrows didn’t meet. But she was really too pneumatic. Whereas Fifi and Joanna were absolutely right. Plump, blonde, not too large...And it was that great lout, Tom Kawaguchi, who now took the seat between them.

The last arrival was Sarojini Engels.

“You’re late,” said the President of the Group severely. “Don’t let it

happen again.”

Sarojini apologized and slid into her place between Jim Bokanovsky and Herbert Bakunin. The group was now complete, the solidarity circle perfect and without flaw. Man, woman, man, in a ring of endless alternation round the table. Twelve of them ready to be made one, waiting to come together, to be fused, to lose their twelve separate identities in a larger being.

The President stood up, made the sign of the T and, switching on the synthetic music, let loose the soft indefatigable beating of drums and a choir of instruments—near-wind and super-string—that plangently repeated and repeated the brief and unescapably haunting melody of the first Solidarity Hymn. Again, again—and it was not the ear that heard the pulsing rhythm, it was the midriff; the wail and clang of those recurring harmonies haunted, not the mind, but the yearning bowels of compassion.

The President made another sign of the T and sat down. The service had begun. The dedicated soma tablets were placed in the centre of the table. The loving cup of strawberry ice-cream soma was passed from hand to hand and, with the formula, “I drink to my annihilation,” twelve times quaffed. Then to the accompaniment of the synthetic orchestra the First Solidarity Hymn was sung.

“Ford, we are twelve; oh, make us one,

Like drops within the Social River, Oh, make us now together run

As swiftly as thy shining Flivver.”

Twelve yearning stanzas. And then the loving cup was passed a second time. “I drink to the Greater Being” was now the formula. All drank. Tirelessly the music played. The drums beat. The crying and clashing of the harmonies were an obsession in the melted bowels. The Second Solidarity Hymn was sung.

“Come, Greater Being, Social Friend,

Annihilating Twelve-in-One! We long to die, for when we end,

Our larger life has but begun.”

Again twelve stanzas. By this time the soma had begun to work. Eyes shone, cheeks were flushed, the inner light of universal benevolence broke out on every face in happy, friendly smiles. Even Bernard felt himself a little melted. When Morgana Rothschild turned and beamed at him, he did his best to beam back. But the eyebrow, that black two-in-one—alas, it was still there; he couldn’t ignore it, couldn’t, however hard he tried. The melting hadn’t gone far enough. Perhaps if he had been sitting between Fifi and Joanna...For the third time the loving cup went round; “I drink to the imminence of His Coming,” said Morgana Rothschild, whose turn it happened to be to initiate the circular rite. Her tone was loud, exultant. She drank and passed the cup to Bernard. “I drink to the imminence of His Coming,” he repeated, with a sincere attempt to feel that the coming was imminent; but the eyebrow continued to haunt him, and the Coming, so far as he was concerned, was horribly remote. He drank and handed the cup to Clara Deterding. “It’ll be a failure again,” he said to himself. “I know it will.” But he went on doing his best to beam.

The loving cup had made its circuit. Lifting his hand, the President gave a signal; the chorus broke out into the third Solidarity Hymn.

“Feel how the Greater Being comes!

Rejoice and, in rejoicings, die! Melt in the music of the drums!

For I am you and you are I.”

As verse succeeded verse the voices thrilled with an ever intenser excitement. The sense of the Coming’s imminence was like an electric tension in the air. The President switched off the music and, with the final note of the final stanza, there was absolute silence—the silence of stretched expectancy, quivering and creeping with a galvanic life. The President reached out his hand; and suddenly a Voice, a deep strong Voice, more musical than any merely human voice, richer, warmer, more vibrant with love and yearning and compassion, a wonderful, mysterious, supernatural Voice spoke from above their heads. Very slowly, “Oh, Ford, Ford, Ford,” it said diminishingly and on a descending scale. A sensation of warmth radiated thrillingly out from the solar plexus to every extremity of the bodies of those who listened; tears came into their eyes; their hearts, their bowels seemed to move within them, as though with an independent life. “Ford!” they were melting, “Ford!” dissolved, dissolved. Then, in another tone, suddenly, startlingly. “Listen!” trumpeted the voice. “Listen!” They listened. After a pause, sunk to a whisper, but a whisper, somehow, more penetrating than the loudest cry. “The feet of the Greater Being,” it went on, and repeated the words: “The feet of the Greater Being.” The whisper almost expired. “The feet of the Greater Being are on the stairs.” And once more there was silence;

and the expectancy, momentarily relaxed, was stretched again, tauter, tauter, almost to the tearing point. The feet of the Greater Being—oh, they heard them, they heard them, coming softly down the stairs, coming nearer and nearer down the invisible stairs. The feet of the Greater Being. And suddenly the tearing point was reached. Her eyes staring, her lips parted. Morgana Rothschild sprang to her feet.

“I hear him,” she cried. “I hear him.”

“He’s coming,” shouted Sarojini Engels.

“Yes, he’s coming, I hear him.” Fifi Bradlaugh and Tom Kawaguchi rose simultaneously to their feet.

“Oh, oh, oh!” Joanna inarticulately testified.

“He’s coming!” yelled Jim Bokanovsky.

The President leaned forward and, with a touch, released a delirium of cymbals and blown brass, a fever of tom-tomming.

“Oh, he’s coming!” screamed Clara Deterding. “Aie!” and it was as though she were having her throat cut.

Feeling that it was time for him to do something, Bernard also jumped up and shouted: “I hear him; He’s coming.” But it wasn’t true. He heard nothing and, for him, nobody was coming. Nobody—in spite of the music, in spite of the mounting excitement. But he waved his arms, he shouted with the best of them; and when the others began to jig and stamp and shuffle, he also jigged and shuffled.

Round they went, a circular procession of dancers, each with hands on the hips of the dancer preceding, round and round, shouting in unison, stamping to the rhythm of the music with their feet, beating it, beating it out with hands on the buttocks in front; twelve pairs of hands beating as one; as one, twelve buttocks slabbily resounding. Twelve as one, twelve as one. "I hear Him, I hear Him coming." The music quickened; faster beat the feet, faster, faster fell the rhythmic hands. And all at once a great synthetic bass boomed out the words which announced the approaching atonement and final consummation of solidarity, the coming of the Twelve-in-One, the incarnation of the Greater Being. "Orgy-porgy," it sang, while the tom-toms continued to beat their feverish tattoo:

"Orgy-porgy, Ford and fun, Kiss the girls and make them One. Boys at one with girls at peace; Orgy-porgy gives release."

"Orgy-porgy," the dancers caught up the liturgical refrain, "Orgy-porgy, Ford and fun, kiss the girls..." And as they sang, the lights began slowly to fade—to fade and at the same time to grow warmer, richer, redder, until at last they were dancing in the crimson twilight of an Embryo Store. "Orgy-porgy..." In their blood-coloured and foetal darkness the dancers continued for a while to circulate, to beat and beat out the indefatigable rhythm. "Orgy-porgy..." Then the circle wavered, broke, fell in partial disintegration on the ring of couches which surrounded—circle enclosing circle—the table and its planetary chairs. "Orgy-porgy..." Tenderly the deep Voice crooned and cooed; in the red twilight it was as though some enormous negro dove were hovering benevolently over the now prone or supine dancers.

They were standing on the roof; Big Henry had just sung eleven. The night was calm and warm.

“Wasn’t it wonderful?” said Fifi Bradlaugh. “Wasn’t it simply wonderful?” She looked at Bernard with an expression of rapture, but of rapture in which there was no trace of agitation or excitement—for to be excited is still to be unsatisfied. Hers was the calm ecstasy of achieved consummation, the peace, not of mere vacant satiety and nothingness, but of balanced life, of energies at rest and in equilibrium. A rich and living peace. For the Solidarity Service had given as well as taken, drawn off only to replenish. She was full, she was made perfect, she was still more than merely herself. “Didn’t you think it was wonderful?” she insisted, looking into Bernard’s face with those supernaturally shining eyes.

“Yes, I thought it was wonderful,” he lied and looked away; the sight of her transfigured face was at once an accusation and an ironical reminder of his own separateness. He was as miserably isolated now as he had been when the service began—more isolated by reason of his unreplenished emptiness, his dead satiety. Separate and unatoned, while the others were being fused into the Greater Being; alone even in Morgana’s embrace—much more alone, indeed, more hopelessly himself than he had ever been in his life before. He had emerged from that crimson twilight into the common electric glare with a self-consciousness intensified to the pitch of agony. He was utterly miserable, and perhaps (her shining eyes accused him), perhaps it was his own fault. “Quite wonderful,” he repeated; but the only thing he could think of was Morgana’s eyebrow.

Chapter Six

Odd, odd, odd, was Lenina's verdict on Bernard Marx. So odd, indeed, that in the course of the succeeding weeks she had wondered more than once whether she shouldn't change her mind about the New Mexico holiday, and go instead to the North Pole with Benito Hoover. The trouble was that she knew the North Pole, had been there with George Edzel only last summer, and what was more, found it pretty grim. Nothing to do, and the hotel too hopelessly old-fashioned—no television laid on in the bedrooms, no scent organ, only the most putrid synthetic music, and not more than twenty-five Escalator-Squash Courts for over two hundred guests. No, decidedly she couldn't face the North Pole again. Added to which, she had only been to America once before. And even then, how inadequately! A cheap week-end in New York—had it been with Jean-Jacques Habibullah or Bokanovsky Jones? She couldn't remember. Anyhow, it was of absolutely no importance. The prospect of flying West again, and for a whole week, was very inviting. Moreover, for at least three days of that week they would be in the Savage Reservation. Not more than half a dozen people in the whole Centre had ever been inside a Savage Reservation. As an Alpha-Plus psychologist, Bernard was one of the few men she knew entitled to a permit. For Lenina, the opportunity was unique. And yet, so unique also was Bernard's oddness that she had hesitated to take it, had actually thought of risking the Pole again with funny old Benito. At least Benito was normal. Whereas Bernard...

“Alcohol in his blood-surrogate,” was Fanny's explanation of every

eccentricity. But Henry, with whom, one evening when they were in bed together, Lenina had rather anxiously discussed her new lover, Henry had compared poor Bernard to a rhinoceros.

“You can’t teach a rhinoceros tricks,” he had explained in his brief and vigorous style. “Some men are almost rhinoceroses; they don’t respond properly to conditioning. Poor Devils! Bernard’s one of them. Luckily for him, he’s pretty good at his job. Otherwise the Director would never have kept him. However,” he added consolingly, “I think he’s pretty harmless.”

Pretty harmless, perhaps; but also pretty disquieting. That mania, to start with, for doing things in private. Which meant, in practice, not doing anything at all. For what was there that one could do in private. (Apart, of course, from going to bed: but one couldn’t do that all the time.) Yes, what was there? Precious little. The first afternoon they went out together was particularly fine. Lenina had suggested a swim at Toquay Country Club followed by dinner at the Oxford Union. But Bernard thought there would be too much of a crowd. Then what about a round of Electro-magnetic Golf at St. Andrew’s? But again, no: Bernard considered that Electro-magnetic Golf was a waste of time.

“Then what’s time for?” asked Lenina in some astonishment.

Apparently, for going walks in the Lake District; for that was what he now proposed. Land on the top of Skiddaw and walk for a couple of hours in the heather. “Alone with you, Lenina.”

“But, Bernard, we shall be alone all night.”

Bernard blushed and looked away. “I meant, alone for talking,” he mumbled.

“Talking? But what about?” Walking and talking—that seemed a very odd way of spending an afternoon.

In the end she persuaded him, much against his will, to fly over to Amsterdam to see the Semi-Demi-Finals of the Women’s Heavyweight Wrestling Championship.

“In a crowd,” he grumbled. “As usual.” He remained obstinately gloomy the whole afternoon; wouldn’t talk to Lenina’s friends (of whom they met dozens in the ice-cream soma bar between the wrestling bouts); and in spite of his misery absolutely refused to take the half-gramme raspberry sundae which she pressed upon him. “I’d rather be myself,” he said. “Myself and nasty. Not somebody else, however jolly.”

“A gramme in time saves nine,” said Lenina, producing a bright treasure of sleep-taught wisdom. Bernard pushed away the proffered glass impatiently.

“Now don’t lose your temper,” she said. “Remember one cubic centimetre cures ten gloomy sentiments.”

“Oh, for Ford’s sake, be quiet!” he shouted.

Lenina shrugged her shoulders. “A gramme is always better than a damn,” she concluded with dignity, and drank the sundae herself.

On their way back across the Channel, Bernard insisted on stopping his

propeller and hovering on his helicopter screws within a hundred feet of the waves. The weather had taken a change for the worse; a south-westerly wind had sprung up, the sky was cloudy.

“Look,” he commanded.

“But it’s horrible,” said Lenina, shrinking back from the window. She was appalled by the rushing emptiness of the night, by the black foam-flecked water heaving beneath them, by the pale face of the moon, so haggard and distracted among the hastening clouds. “Let’s turn on the radio. Quick!” She reached for the dialling knob on the dash-board and turned it at random.

“...skies are blue inside of you,” sang sixteen tremoloing falsettos, “the weather’s always...”

Then a hiccough and silence. Bernard had switched off the current.

“I want to look at the sea in peace,” he said. “One can’t even look with that beastly noise going on.”

“But it’s lovely. And I don’t want to look.”

“But I do,” he insisted. “It makes me feel as though...” he hesitated, searching for words with which to express himself, “as though I were more me, if you see what I mean. More on my own, not so completely a part of something else. Not just a cell in the social body. Doesn’t it make you feel like that, Lenina?”

But Lenina was crying. “It’s horrible, it’s horrible,” she kept repeating. “And how can you talk like that about not wanting to be a part of the social

body? After all, every one works for every one else. We can't do without any one. Even Epsilons..."

"Yes, I know," said Bernard derisively. "'Even Epsilons are useful'! So am I. And I damned well wish I weren't!"

Lenina was shocked by his blasphemy. "Bernard!" She protested in a voice of amazed distress. "How can you?"

In a different key, "How can I?" he repeated meditatively. "No, the real problem is: How is it that I can't, or rather—because, after all, I know quite well why I can't—what would it be like if I could, if I were free—not enslaved by my conditioning."

"But, Bernard, you're saying the most awful things."

"Don't you wish you were free, Lenina?"

"I don't know what you mean. I am free. Free to have the most wonderful time. Everybody's happy nowadays."

He laughed, "Yes, 'Everybody's happy nowadays.' We begin giving the children that at five. But wouldn't you like to be free to be happy in some other way, Lenina? In your own way, for example; not in everybody else's way."

"I don't know what you mean," she repeated. Then, turning to him, "Oh, do let's go back, Bernard," she besought; "I do so hate it here."

"Don't you like being with me?"

“But of course, Bernard. It’s this horrible place.”

“I thought we’d be more...more together here—with nothing but the sea and moon. More together than in that crowd, or even in my rooms. Don’t you understand that?”

“I don’t understand anything,” she said with decision, determined to preserve her incomprehension intact. “Nothing. Least of all,” she continued in another tone, “Why you don’t take soma when you have these dreadful ideas of yours. You’d forget all about them. And instead of feeling miserable, you’d be jolly. So jolly,” she repeated and smiled, for all the puzzled anxiety in her eyes, with what was meant to be an inviting and voluptuous cajolery.

He looked at her in silence, his face unresponsive and very grave—looked at her intently. After a few seconds Lenina’s eyes flinched away; she uttered a nervous little laugh, tried to think of something to say and couldn’t. The silence prolonged itself.

When Bernard spoke at last, it was in a small tired voice. “All right then,” he said, “we’ll go back.” And stepping hard on the accelerator, he sent the machine rocketing up into the sky. At four thousand he started his propeller. They flew in silence for a minute or two. Then, suddenly, Bernard began to laugh. Rather oddly, Lenina thought, but still, it was laughter.

“Feeling better?” she ventured to ask.

For answer, he lifted one hand from the controls and, slipping his arm around her, began to fondle her breasts.

“Thank Ford,” she said to herself, “he’s all right again.”

Half an hour later they were back in his rooms. Bernard swallowed four tablets of soma at a gulp, turned on the radio and television and began to undress.

“Well,” Lenina enquired, with significant archness when they met next afternoon on the roof, “did you think it was fun yesterday?”

Bernard nodded. They climbed into the plane. A little jolt, and they were off.

“Every one says I’m awfully pneumatic,” said Lenina reflectively, patting her own legs.

“Awfully.” But there was an expression of pain in Bernard’s eyes. “Like meat,” he was thinking.

She looked up with a certain anxiety. “But you don’t think I’m too plump, do you?”

He shook his head. Like so much meat.

“You think I’m all right.” Another nod. “In every way?”

“Perfect,” he said aloud. And inwardly. “She thinks of herself that way. She doesn’t mind being meat.”

Lenina smiled triumphantly. But her satisfaction was premature.

“All the same,” he went on, after a little pause, “I still rather wish it had

all ended differently.”

“Differently?” Were there other endings?

“I didn’t want it to end with our going to bed,” he specified.

Lenina was astonished.

“Not at once, not the first day.”

“But then what...?”

He began to talk a lot of incomprehensible and dangerous nonsense. Lenina did her best to stop the ears of her mind; but every now and then a phrase would insist on becoming audible. “...to try the effect of arresting my impulses,” she heard him say. The words seemed to touch a spring in her mind.

“Never put off till to-morrow the fun you can have to-day,” she said gravely.

“Two hundred repetitions, twice a week from fourteen to sixteen and a half,” was all his comment. The mad bad talk rambled on. “I want to know what passion is,” she heard him saying. “I want to feel something strongly.”

“When the individual feels, the community reels,” Lenina pronounced.

“Well, why shouldn’t it reel a bit?”

“Bernard!”

But Bernard remained unabashed.

“Adults intellectually and during working hours,” he went on. “Infants where feeling and desire are concerned.”

“Our Ford loved infants.”

Ignoring the interruption. “It suddenly struck me the other day,” continued Bernard, “that it might be possible to be an adult all the time.”

“I don’t understand.” Lenina’s tone was firm.

“I know you don’t. And that’s why we went to bed together yesterday—like infants—instead of being adults and waiting.”

“But it was fun,” Lenina insisted. “Wasn’t it?”

“Oh, the greatest fun,” he answered, but in a voice so mournful, with an expression so profoundly miserable, that Lenina felt all her triumph suddenly evaporate. Perhaps he had found her too plump, after all.

“I told you so,” was all that Fanny said, when Lenina came and made her confidences. “It’s the alcohol they put in his surrogate.”

“All the same,” Lenina insisted. “I do like him. He has such awfully nice hands. And the way he moves his shoulders—that’s very attractive.” She sighed. “But I wish he weren’t so odd.”

Halting for a moment outside the door of the Director’s room, Bernard

drew a deep breath and squared his shoulders, bracing himself to meet the dislike and disapproval which he was certain of finding within. He knocked and entered.

“A permit for you to initial, Director,” he said as airily as possible, and laid the paper on the writing-table.

The Director glanced at him sourly. But the stamp of the World Controller’s Office was at the head of the paper and the signature of Mustapha Mond, bold and black, across the bottom. Everything was perfectly in order. The director had no choice. He pencilled his initials—two small pale letters abject at the feet of Mustapha Mond—and was about to return the paper without a word of comment or genial Ford-speed, when his eye was caught by something written in the body of the permit.

“For the New Mexican Reservation?” he said, and his tone, the face he lifted to Bernard, expressed a kind of agitated astonishment.

Surprised by his surprise, Bernard nodded. There was a silence.

The Director leaned back in his chair, frowning. “How long ago was it?” he said, speaking more to himself than to Bernard. “Twenty years, I suppose. Nearer twenty-five. I must have been your age...” He sighed and shook his head.

Bernard felt extremely uncomfortable. A man so conventional, so scrupulously correct as the Director—and to commit so gross a solecism! It made him want to hide his face, to run out of the room. Not that he himself saw anything intrinsically objectionable in people talking about the remote

past; that was one of those hypnopaedic prejudices he had (so he imagined) completely got rid of. What made him feel shy was the knowledge that the Director disapproved—disapproved and yet had been betrayed into doing the forbidden thing. Under what inward compulsion? Through his discomfort Bernard eagerly listened.

“I had the same idea as you,” the Director was saying. “Wanted to have a look at the savages. Got a permit for New Mexico and went there for my summer holiday. With the girl I was having at the moment. She was a Beta-Minus, and I think” (he shut his eyes), “I think she had yellow hair. Anyhow she was pneumatic, particularly pneumatic; I remember that. Well, we went there, and we looked at the savages, and we rode about on horses and all that. And then—it was almost the last day of my leave—then...well, she got lost. We’d gone riding up one of those revolting mountains, and it was horribly hot and oppressive, and after lunch we went to sleep. Or at least I did. She must have gone for a walk, alone. At any rate, when I woke up, she wasn’t there. And the most frightful thunderstorm I’ve ever seen was just bursting on us. And it poured and roared and flashed; and the horses broke loose and ran away; and I fell down, trying to catch them, and hurt my knee, so that I could hardly walk. Still, I searched and I shouted and I searched. But there was no sign of her. Then I thought she must have gone back to the rest-house by herself. So I crawled down into the valley by the way we had come. My knee was agonizingly painful, and I’d lost my soma. It took me hours. I didn’t get back to the rest-house till after midnight. And she wasn’t there; she wasn’t there,” the Director repeated. There was a silence. “Well,” he resumed at last, “the next day there was a search. But we couldn’t find her. She must have fallen into a gully somewhere; or been eaten by a mountain lion. Ford knows.

Anyhow it was horrible. It upset me very much at the time. More than it ought to have done, I dare say. Because, after all, it's the sort of accident that might have happened to any one; and, of course, the social body persists although the component cells may change." But this sleep-taught consolation did not seem to be very effective. Shaking his head, "I actually dream about it sometimes," the Director went on in a low voice. "Dream of being woken up by that peal of thunder and finding her gone; dream of searching and searching for her under the trees." He lapsed into the silence of reminiscence.

"You must have had a terrible shock," said Bernard, almost enviously.

At the sound of his voice the Director started into a guilty realization of where he was; shot a glance at Bernard, and averting his eyes, blushed darkly; looked at him again with sudden suspicion and, angrily on his dignity, "Don't imagine," he said, "that I'd had any indecorous relation with the girl. Nothing emotional, nothing long-drawn. It was all perfectly healthy and normal." He handed Bernard the permit. "I really don't know why I bored you with this trivial anecdote." Furious with himself for having given away a discreditable secret, he vented his rage on Bernard. The look in his eyes was now frankly malignant. "And I should like to take this opportunity, Mr. Marx," he went on, "of saying that I'm not at all pleased with the reports I receive of your behaviour outside working hours. You may say that this is not my business. But it is. I have the good name of the Centre to think of. My workers must be above suspicion, particularly those of the highest castes. Alphas are so conditioned that they do not have to be infantile in their emotional behaviour. But that is all the more reason for their making a special effort to conform. It is their duty to be infantile, even against their inclination.

And so, Mr. Marx, I give you fair warning.” The Director’s voice vibrated with an indignation that had now become wholly righteous and impersonal—was the expression of the disapproval of Society itself. “If ever I hear again of any lapse from a proper standard of infantile decorum, I shall ask for your transference to a Sub-Centre—preferably to Iceland. Good morning.” And swivelling round in his chair, he picked up his pen and began to write.

“That’ll teach him,” he said to himself. But he was mistaken. For Bernard left the room with a swagger, exulting, as he banged the door behind him, in the thought that he stood alone, embattled against the order of things; elated by the intoxicating consciousness of his individual significance and importance. Even the thought of persecution left him undismayed, was rather tonic than depressing. He felt strong enough to meet and overcome amiction, strong enough to face even Iceland. And this confidence was the greater for his not for a moment really believing that he would be called upon to face anything at all. People simply weren’t transferred for things like that. Iceland was just a threat. A most stimulating and life-giving threat. Walking along the corridor, he actually whistled.

Heroic was the account he gave that evening of his interview with the D.H.C. “Whereupon,” he concluded, “I simply told him to go to the Bottomless Past and marched out of the room. And that was that.” He looked at Helmholtz Watson expectantly, awaiting his due reward of sympathy, encouragement, admiration. But no word came. Helmholtz sat silent, staring at the floor.

He liked Bernard; he was grateful to him for being the only man of his acquaintance with whom he could talk about the subjects he felt to be

important. Nevertheless, there were things in Bernard which he hated. This boasting, for example. And the

outbursts of an abject self-pity with which it alternated. And his deplorable habit of being bold after the event, and full, in absence, of the most extraordinary presence of mind. He hated these things—just because he liked Bernard. The seconds passed. Helmholtz continued to stare at the floor. And suddenly Bernard blushed and turned away.

The journey was quite uneventful. The Blue Pacific Rocket was two and a half minutes early at New Orleans, lost four minutes in a tornado over Texas, but flew into a favourable air current at Longitude 95 West, and was able to land at Santa Fé less than forty seconds behind schedule time.

“Forty seconds on a six and a half hour flight. Not so bad,” Lenina conceded.

They slept that night at Santa Fé. The hotel was excellent—incomparably better, for example, than that horrible Aurora Bora Palace in which Lenina had suffered so much the previous summer. Liquid air, television, vibro-vacuum massage, radio, boiling caffeine solution, hot contraceptives, and eight different kinds of scent were laid on in every bedroom. The synthetic music plant was working as they entered the hall and left nothing to be desired. A notice in the lift announced that there were sixty Escalator-Squash-Racket Courts in the hotel, and that Obstacle and Electro-magnetic Golf could both be played in the park.

“But it sounds simply too lovely,” cried Lenina. “I almost wish we could stay here. Sixty Escalator-Squash Courts...”

“There won’t be any in the Reservation,” Bernard warned her. “And no scent, no television, no hot water even. If you feel you can’t stand it, stay here till I come back.”

Lenina was quite offended. “Of course I can stand it. I only said it was lovely here because...well, because progress is lovely, isn’t it?”

“Five hundred repetitions once a week from thirteen to seventeen,” said Bernard wearily, as though to himself.

“What did you say?”

“I said that progress was lovely. That’s why you mustn’t come to the Reservation unless you really want to.”

“But I do want to.”

“Very well, then,” said Bernard; and it was almost a threat.

Their permit required the signature of the Warden of the Reservation, at whose office next morning they duly presented themselves. An Epsilon-Plus negro porter took in Bernard’s card, and they were admitted almost immediately.

The Warden was a blond and brachycephalic Alpha-Minus, short, red, moon-faced, and broad-shouldered, with a loud booming voice, very well adapted to the utterance of hypnopædic wisdom. He was a mine of irrelevant

information and unasked-for good advice. Once started, he went on and on—boomingly.

“...five hundred and sixty thousand square kilometres, pided into four distinct Sub-Reservations, each surrounded by a high-tension wire fence.”

At this moment, and for no apparent reason, Bernard suddenly remembered that he had left the Eau de Cologne tap in his bathroom wide open and running.

“...supplied with current from the Grand Canyon hydro-electric station.”

“Cost me a fortune by the time I get back.” With his mind’s eye, Bernard saw the needle on the scent meter creeping round and round, antlike, indefatigable. “Quickly telephone to Helmholtz Watson.”

“...upwards of five thousand kilometres of fencing at sixty thousand volts.”

“You don’t say so,” said Lenina politely, not knowing in the least what the Warden had said, but taking her cue from his dramatic pause. When the Warden started booming, she had inconspicuously swallowed half a gramme of soma, with the result that she could now sit, serenely not listening, thinking of nothing at all, but with her large blue eyes fixed on the Warden’s face in an expression of rapt attention.

“To touch the fence is instant death,” pronounced the Warden solemnly. “There is no escape from a Savage Reservation.”

The word “escape” was suggestive. “Perhaps,” said Bernard, half rising,

“we ought to think of going.” The little black needle was scurrying, an insect, nibbling through time, eating into his money.

“No escape,” repeated the Warden, waving him back into his chair; and as the permit was not yet countersigned Bernard had no choice but to obey. “Those who are born in the Reservation—and remember, my dear young lady,” he added, leering obscenely at Lenina, and speaking in an improper whisper, “remember that, in the Reservation, children still are born, yes, actually born, revolting as that may seem...” (He hoped that this reference to a shameful subject would make Lenina blush; but she only smiled with simulated intelligence and said, “You don’t say so!” Disappointed, the Warden began again.) “Those, I repeat who are born in the Reservation are destined to die there.”

Destined to die...A decilitre of Eau de Cologne every minute. Six litres an hour. “Perhaps,” Bernard tried again, “we ought...”

Leaning forward, the Warden tapped the table with his forefinger. “You ask me how many people live in the Reservation. And I reply”—triumphantly—“I reply that we do not know. We can only guess.”

“You don’t say so.”

“My dear young lady, I do say so.”

Six times twenty-four—no, it would be nearer six times thirty-six. Bernard was pale and trembling with impatience. But inexorably the booming continued.

“...about sixty thousand Indians and half-breeds...absolute savages...our inspectors occasionally visit...otherwise, no communication whatever with the civilized world...still preserve their repulsive habits and customs...marriage, if you know what that is, my dear young lady; families...no conditioning...monstrous superstitions...Christianity and totemism and ancestor worship...extinct languages, such as Zuñi and Spanish and Athapascan...pumas, porcupines and other ferocious animals...infectious diseases...priests...venomous lizards...”

“You don’t say so?”

They got away at last. Bernard dashed to the telephone. Quick, quick; but it took him nearly three minutes to get on to Helmholtz Watson. “We might be among the savages already,” he complained. “Damned incompetence!”

“Have a gramme,” suggested Lenina.

He refused, preferring his anger. And at last, thank Ford, he was through and, yes, it was Helmholtz; Helmholtz, to whom he explained what had happened, and who promised to go round at once, at once, and turn off the tap, yes, at once, but took this opportunity to tell him what the D.H.C. had said, in public, yesterday evening...

“What? He’s looking out for some one to take my place?” Bernard’s voice was agonized. “So it’s actually decided? Did he mention Iceland? You say he did? Ford! Iceland...” He hung up the receiver and turned back to Lenina. His face was pale, his expression utterly dejected.

“What’s the matter?” she asked.

“The matter?” He dropped heavily into a chair. “I’m going to be sent to Iceland.”

Often in the past he had wondered what it would be like to be subjected (soma-less and with nothing but his own inward resources to rely on) to some great trial, some pain, some persecution; he had even longed for affliction. As recently as a week ago, in the Director’s office, he had imagined himself courageously resisting, stoically accepting suffering without a word. The Director’s threats had actually elated him, made him feel larger than life. But that, as he now realized, was because he had not taken the threats quite seriously, he had not believed that, when it came to the point, the D.H.C. would ever do anything. Now that it looked as though the threats were really to be fulfilled, Bernard was appalled. Of that imagined stoicism, that theoretical courage, not a trace was left.

He raged against himself—what a fool!—against the Director—how unfair not to give him that other chance, that other chance which, he now had no doubt at all, he had always intended to take. And Iceland, Iceland...

Lenina shook her head. “Was and will make me ill,” she quoted, “I take a gramme and only am.”

In the end she persuaded him to swallow four tablets of soma. Five minutes later roots and fruits were abolished; the flower of the present rosily blossomed. A message from the porter announced that, at the Warden’s orders, a Reservation Guard had come round with a plane and was waiting on

the roof of the hotel. They went up at once. An octoroon in Gamma-green uniform saluted and proceeded to recite the morning's programme.

A bird's-eye view of ten or a dozen of the principal pueblos, then a landing for lunch in the valley of Malpais. The rest-house was comfortable there, and up at the pueblo the savages would probably be celebrating their summer festival. It would be the best place to spend the night.

They took their seats in the plane and set off. Ten minutes later they were crossing the frontier that separated civilization from savagery. Uphill and down, across the deserts of salt or sand, through forests, into the violet depth of canyons, over crag and peak and table-topped mesa, the fence marched on and on, irresistibly the straight line, the geometrical symbol of triumphant human purpose. And at its foot, here and there, a mosaic of white bones, a still unrotted carcase dark on the tawny ground marked the place where deer or steer, puma or porcupine or coyote, or the greedy turkey buzzards drawn down by the whiff of carrion and fulminated as though by a poetic justice, had come too close to the destroying wires.

"They never learn," said the green-uniformed pilot, pointing down at the skeletons on the ground below them. "And they never will learn," he added and laughed, as though he had somehow scored a personal triumph over the electrocuted animals.

Bernard also laughed; after two grammes of soma the joke seemed, for some reason, good. Laughed and then, almost immediately, dropped off to sleep, and sleeping was carried over Taos and Tesuque; over Nambe and Picuris and Pojoaque, over Sia and Cochiti, over Laguna and Acoma and the

Enchanted Mesa, over Zuñi and Cibola and Ojo Caliente, and woke at last to find the machine standing on the ground, Lenina carrying the suit-cases into a small square house, and the Gamma-green octoroon talking incomprehensibly with a young Indian.

“Malpais,” explained the pilot, as Bernard stepped out. “This is the rest-house. And there’s a dance this afternoon at the pueblo. He’ll take you there.” He pointed to the sullen young savage. “Funny, I expect.” He grinned. “Everything they do is funny.” And with that he climbed into the plane and started up the engines. “Back to-morrow. And remember,” he added reassuringly to Lenina, “they’re perfectly tame; savages won’t do you any harm. They’ve got enough experience of gas bombs to know that they mustn’t play any tricks.” Still laughing, he threw the helicopter screws into gear, accelerated, and was gone.

Chapter Seven

THE MESA was like a ship becalmed in a strait of lion-coloured dust. The channel wound between precipitous banks, and slanting from one wall to the other across the valley ran a streak of green—the river and its fields. On the prow of that stone ship in the centre of the strait, and seemingly a part of it, a shaped and geometrical outcrop of the naked rock, stood the pueblo of Malpais. Block above block, each story smaller than the one below, the tall houses rose like stepped and amputated pyramids into the blue sky. At their feet lay a straggle of low buildings, a criss-cross of walls; and on three sides the precipices fell sheer into the plain. A few columns of smoke mounted perpendicularly into the windless air and were lost.

“Queer,” said Lenina. “Very queer.” It was her ordinary word of condemnation. “I don’t like it. And I don’t like that man.” She pointed to the Indian guide who had been appointed to take them up to the pueblo. Her feeling was evidently reciprocated; the very back of the man, as he walked along before them, was hostile, sullenly contemptuous.

“Besides,” she lowered her voice, “he smells.”

Bernard did not attempt to deny it. They walked on.

Suddenly it was as though the whole air had come alive and were pulsing, pulsing with the indefatigable movement of blood. Up there, in Malpais, the drums were being beaten. Their feet fell in with the rhythm of

that mysterious heart; they quickened their pace. Their path led them to the foot of the precipice. The sides of the great mesa ship towered over them, three hundred feet to the gunwale.

“I wish we could have brought the plane,” said Lenina, looking up resentfully at the blank impending rock-face. “I hate walking. And you feel so small when you’re on the ground at the bottom of a hill.”

They walked along for some way in the shadow of the mesa, rounded a projection, and there, in a water-worn ravine, was the way up the companion ladder. They climbed. It was a very steep path that zigzagged from side to side of the gully. Sometimes the pulsing of the drums was all but inaudible, at others they seemed to be beating only just round the corner.

When they were half-way up, an eagle flew past so close to them that the wind of his wings blew chill on their faces. In a crevice of the rock lay a pile of bones. It was all oppressively queer, and the Indian smelt stronger and stronger. They emerged at last from the ravine into the full sunlight. The top of the mesa was a flat deck of stone.

“Like the Charing-T Tower,” was Lenina’s comment. But she was not allowed to enjoy her discovery of this reassuring resemblance for long. A padding of soft feet made them turn round. Naked from throat to navel, their dark brown bodies painted with white lines (“like asphalt tennis courts,” Lenina was later to explain), their faces inhuman with daubings of scarlet, black and ochre, two Indians came running along the path. Their black hair was braided with fox fur and red flannel. Cloaks of turkey feathers fluttered from their shoulders; huge feather diadems exploded gaudily round their

heads. With every step they took came the clink and rattle of their silver bracelets, their heavy necklaces of bone and turquoise beads. They came on without a word, running quietly in their deerskin moccasins. One of them was holding a feather brush; the other carried, in either hand, what looked at a distance like three or four pieces of thick rope. One of the ropes writhed uneasily, and suddenly Lenina saw that they were snakes.

The men came nearer and nearer; their dark eyes looked at her, but without giving any sign of recognition, any smallest sign that they had seen her or were aware of her existence. The writhing snake hung limp again with the rest. The men passed.

“I don’t like it,” said Lenina. “I don’t like it.”

She liked even less what awaited her at the entrance to the pueblo, where their guide had left them while he went inside for instructions. The dirt, to start with, the piles of rubbish, the dust, the dogs, the flies. Her face wrinkled up into a grimace of disgust. She held her handkerchief to her nose.

“But how can they live like this?” she broke out in a voice of indignant incredulity. (It wasn’t possible.)

Bernard shrugged his shoulders philosophically. “Anyhow,” he said, “they’ve been doing it for the last five or six thousand years. So I suppose they must be used to it by now.”

“But cleanliness is next to fordliness,” she insisted.

“Yes, and civilization is sterilization,” Bernard went on, concluding on a

tone of irony the second hypnopædic lesson in elementary hygiene. “But these people have never heard of Our Ford, and they aren’t civilized. So there’s no point in...”

“Oh!” She gripped his arm. “Look.”

An almost naked Indian was very slowly climbing down the ladder from the first-floor terrace of a neighboring house—rung after rung, with the tremulous caution of extreme old age. His face was profoundly wrinkled and black, like a mask of obsidian. The toothless mouth had fallen in. At the corners of the lips, and on each side of the chin, a few long bristles gleamed almost white against the dark skin. The long unbraided hair hung down in grey wisps round his face. His body was bent and emaciated to the bone, almost fleshless. Very slowly he came down, pausing at each rung before he ventured another step.

“What’s the matter with him?” whispered Lenina. Her eyes were wide with horror and amazement.

“He’s old, that’s all,” Bernard answered as carelessly as he could. He too was startled; but he made an effort to seem unmoved.

“Old?” she repeated. “But the Director’s old; lots of people are old; they’re not like that.”

“That’s because we don’t allow them to be like that. We preserve them from diseases. We keep their internal secretions artificially balanced at a youthful equilibrium. We don’t permit their magnesium-calcium ratio to fall below what it was at thirty. We give them transfusion of young blood. We

keep their metabolism permanently stimulated. So, of course, they don't look like that. Partly," he added, "because most of them die long before they reach this old creature's age. Youth almost unimpaired till sixty, and then, crack! the end."

But Lenina was not listening. She was watching the old man. Slowly, slowly he came down. His feet touched the ground. He turned. In their deep-sunken orbits his eyes were still extraordinarily bright. They looked at her for a long moment expressionlessly, without surprise, as though she had not been there at all. Then slowly, with bent back the old man hobbled past them and was gone.

"But it's terrible," Lenina whispered. "It's awful. We ought not to have come here." She felt in her pocket for her soma—only to discover that, by some unprecedented oversight, she had left the bottle down at the rest-house. Bernard's pockets were also empty.

Lenina was left to face the horrors of Malpais unaided. They came crowding in on her thick and fast. The spectacle of two young women giving breast to their babies made her blush and turn away her face. She had never seen anything so indecent in her life. And what made it worse was that, instead of tactfully ignoring it, Bernard proceeded to make open comments on this revoltingly viviparous scene. Ashamed, now that the effects of the soma had worn off, of the weakness he had displayed that morning in the hotel, he went out of his way to show himself strong and unorthodox.

"What a wonderfully intimate relationship," he said, deliberately outrageous. "And what an intensity of feeling it must generate! I often think

one may have missed something in not having had a mother. And perhaps you've missed something in not being a mother, Lenina. Imagine yourself sitting there with a little baby of your own...."

"Bernard! How can you?" The passage of an old woman with ophthalmia and a disease of the skin distracted her from her indignation.

"Let's go away," she begged. "I don't like it."

But at this moment their guide came back and, beckoning them to follow, led the way down the narrow street between the houses. They rounded a corner. A dead dog was lying on a rubbish heap; a woman with a goitre was looking for lice in the hair of a small girl. Their guide halted at the foot of a ladder, raised his hand perpendicularly, then darted it horizontally forward. They did what he mutely commanded—climbed the ladder and walked through the doorway, to which it gave access, into a long narrow room, rather dark and smelling of smoke and cooked grease and long-worn, long-unwashed clothes. At the further end of the room was another doorway, through which came a shaft of surdight and the noise, very loud and close, of the drums.

They stepped across the threshold and found themselves on a wide terrace. Below them, shut in by the tall houses, was the village square, crowded with Indians. Bright blankets, and feathers in black hair, and the glint of turquoise, and dark skins shining with heat. Lenina put her handkerchief to her nose again. In the open space at the centre of the square were two circular platforms of masonry and trampled clay—the roofs, it was evident, of underground chambers; for in the centre of each platform was an

open hatchway, with a ladder emerging from the lower darkness. A sound of subterranean flute playing came up and was almost lost in the steady remorseless persistence of the drums.

Lenina liked the drums. Shutting her eyes she abandoned herself to their soft repeated thunder, allowed it to invade her consciousness more and more completely, till at last there was nothing left in the world but that one deep pulse of sound. It reminded her reassuringly of the synthetic noises made at Solidarity Services and Ford's Day celebrations. "Orgy-porgy," she whispered to herself. These drums beat out just the same rhythms.

There was a sudden startling burst of singing—hundreds of male voices crying out fiercely in harsh metallic unison. A few long notes and silence, the thunderous silence of the drums; then shrill, in a neighing treble, the women's answer. Then again the drums; and once more the men's deep savage affirmation of their manhood.

Queer—yes. The place was queer, so was the music, so were the clothes and the goitres and the skin diseases and the old people. But the performance itself—there seemed to be nothing specially queer about that.

"It reminds me of a lower-caste Community Sing," she told Bernard.

But a little later it was reminding her a good deal less of that innocuous function. For suddenly there had swarmed up from those round chambers underground a ghastly troop of monsters. Hideously masked or painted out of all semblance of humanity, they had tramped out a strange limping dance round the square; round and again round, singing as they went, round and

round—each time a little faster; and the drums had changed and quickened their rhythm, so that it became like the pulsing of fever in the ears; and the crowd had begun to sing with the dancers, louder and louder; and first one woman had shrieked, and then another and another, as though they were being killed; and then suddenly the leader of the dancers broke out of the line, ran to a big wooden chest which was standing at one end of the square, raised the lid and pulled out a pair of black snakes. A great yell went up from the crowd, and all the other dancers ran towards him with out-stretched hands. He tossed the snakes to the first-comers, then dipped back into the chest for more. More and more, black snakes and brown and mottled—he flung them out. And then the dance began again on a different rhythm. Round and round they went with their snakes, snakily, with a soft undulating movement at the knees and hips. Round and round. Then the leader gave a signal, and one after another, all the snakes were flung down in the middle of the square; an old man came up from underground and sprinkled them with corn meal, and from the other hatchway came a woman and sprinkled them with water from a black jar. Then the old man lifted his hand and, startingly, terrifyingly, there was absolute silence. The drums stopped beating, life seemed to have come to an end. The old man pointed towards the two hatchways that gave entrance to the lower world. And slowly, raised by invisible hands from below, there emerged from the one a painted image of an eagle, from the other that of a man, naked, and nailed to a cross. They hung there, seemingly self-sustained, as though watching. The old man clapped his hands. Naked but for a white cotton breech-cloth, a boy of about eighteen stepped out of the crowd and stood before him, his hands crossed over his chest, his head bowed. The old man made the sign of the cross over him and turned away. Slowly, the boy began to walk round the writhing heap of snakes. He had completed the first

circuit and was half-way through the second when, from among the dancers, a tall man wearing the mask of a coyote and holding in his hand a whip of plaited leather, advanced towards him. The boy moved on as though unaware of the other's existence. The coyote-man raised his whip, there was a long moment of expectancy, then a swift movement, the whistle of the lash and its loud flat-sounding impact on the flesh. The boy's body quivered; but he made no sound, he walked on at the same slow, steady pace. The coyote struck again, again; and at every blow at first a gasp, and then a deep groan went up from the crowd. The boy walked. Twice, thrice, four times round he went. The blood was streaming. Five times round, six times round. Suddenly Lenina covered her face with her hands and began to sob. "Oh, stop them, stop them!" she implored. But the whip fell and fell inexorably. Seven times round. Then all at once the boy staggered and, still without a sound, pitched forward on to his face. Bending over him, the old man touched his back with a long white feather, held it up for a moment, crimson, for the people to see then shook it thrice over the snakes. A few drops fell, and suddenly the drums broke out again into a panic of hurrying notes; there was a great shout. The dancers rushed forward, picked up the snakes and ran out of the square. Men, women, children, all the crowd ran after them. A minute later the square was empty, only the boy remained, prone where he had fallen, quite still. Three old women came out of one of the houses, and with some difficulty lifted him and carried him in. The eagle and the man on the cross kept guard for a little while over the empty pueblo; then, as though they had seen enough, sank slowly down through their hatchways, out of sight, into the nether world.

Lenina was still sobbing. "Too awful," she kept repeating, and all Bernard's consolations were in vain. "Too awful! That blood!" She

shuddered. "Oh, I wish I had my soma."

There was the sound of feet in the inner room.

Lenina did not move, but sat with her face in her hands, unseeing, apart. Only Bernard turned round.

The dress of the young man who now stepped out on to the terrace was Indian; but his plaited hair was straw-coloured, his eyes a pale blue, and his skin a white skin, bronzed.

"Hullo. Good-morrow," said the stranger, in faultless but peculiar English. "You're civilized, aren't you? You come from the Other Place, outside the Reservation?"

"Who on earth...?" Bernard began in astonishment.

The young man sighed and shook his head. "A most unhappy gentleman." And, pointing to the bloodstains in the centre of the square, "Do you see that damned spot?" he asked in a voice that trembled with emotion.

"A gramme is better than a damn," said Lenina mechanically from behind her hands. "I wish I had my soma!"

"I ought to have been there," the young man went on. "Why wouldn't they let me be the sacrifice? I'd have gone round ten times—twelve, fifteen. Palowhtiwa only got as far as seven. They could have had twice as much blood from me. The multitudinous seas incarnadine." He flung out his arms in a lavish gesture; then, despairingly, let them fall again. "But they wouldn't let me. They disliked me for my complexion. It's always been like that.

Always.” Tears stood in the young man’s eyes; he was ashamed and turned away.

Astonishment made Lenina forget the deprivation of soma. She uncovered her face and, for the first time, looked at the stranger. “Do you mean to say that you wanted to be hit with that whip?”

Still averted from her, the young man made a sign of affirmation. “For the sake of the pueblo—to make the rain come and the corn grow. And to please Pookong and Jesus. And then to show that I can bear pain without crying out. Yes,” and his voice suddenly took on a new resonance, he turned with a proud squaring of the shoulders, a proud, defiant lifting of the chin “to show that I’m a man...Oh!” He gave a gasp and was silent, gaping. He had seen, for the first time in his life, the face of a girl whose cheeks were not the colour of chocolate or dogskin, whose hair was auburn and permanently waved, and whose expression (amazing novelty!) was one of benevolent interest. Lenina was smiling at him; such a nice-looking boy, she was thinking, and a really beautiful body. The blood rushed up into the young man’s face; he dropped his eyes, raised them again for a moment only to find her still smiling at him, and was so much overcome that he had to turn away and pretend to be looking very hard at something on the other side of the square.

Bernard’s questions made a person. Who? How? When? From where? Keeping his eyes fixed on Bernard’s face (for so passionately did he long to see Lenina smiling that he simply dared not look at her), the young man tried to explain himself. Linda and he—Linda was his mother (the word made Lenina look uncomfortable)—were strangers in the Reservation. Linda had

come from the Other Place long ago, before he was born, with a man who was his father. (Bernard pricked up his ears.) She had gone walking alone in those mountains over there to the North, had fallen down a steep place and hurt her head. (“Go on, go on,” said Bernard excitedly.) Some hunters from Malpais had found her and brought her to the pueblo. As for the man who was his father, Linda had never seen him again. His name was Tomakin. (Yes, “Thomas” was the D.H.C.’s first name.) He must have flown away, back to the Other Place, away without her—a bad, unkind, unnatural man.

“And so I was born in Malpais,” he concluded. “In Malpais.” And he shook his head.

The squalor of that little house on the outskirts of the pueblo!

A space of dust and rubbish separated it from the village. Two famine-stricken dogs were nosing obscenely in the garbage at its door. Inside, when they entered, the twilight stank and was loud with flies.

“Linda!” the young man called.

From the inner room a rather hoarse female voice said, “Coming.”

They waited. In bowls on the floor were the remains of a meal, perhaps of several meals.

The door opened. A very stout blonde squaw stepped across the threshold and stood looking at the strangers staring incredulously, her mouth open. Lenina noticed with disgust that two of the front teeth were missing. And the colour of the ones that remained...She shuddered. It was worse than

the old man. So fat. And all the lines in her face, the flabbiness, the wrinkles. And the sagging cheeks, with those purplish blotches. And the red veins on her nose, the bloodshot eyes. And that neck—that neck; and the blanket she wore over her head—ragged and filthy.

And under the brown sack-shaped tunic those enormous breasts, the bulge of the stomach, the hips. Oh, much worse than the old man, much worse! And suddenly the creature burst out in a torrent of speech, rushed at her with outstretched arms and—Ford! Ford! it was too revolting, in another moment she'd be sick—pressed her against the bulge, the bosom, and began to kiss her. Ford! to kiss, slobberingly, and smelt too horrible, obviously never had a bath, and simply reeked of that beastly stuff that was put into Delta and Epsilon bottles (no, it wasn't true about Bernard), positively stank of alcohol. She broke away as quickly as she could.

A blubbered and distorted face confronted her; the creature was crying.

“Oh, my dear, my dear.” The torrent of words flowed sobbingly. “If you knew how glad—after all these years! A civilized face. Yes, and civilized clothes. Because I thought I should never see a piece of real acetate silk again.” She fingered the sleeve of Lenina's shirt. The nails were black. “And those adorable viscose velveteen shorts! Do you know, dear, I've still got my old clothes, the ones I came in, put away in a box. I'll show them you afterwards. Though, of course, the acetate has all gone into holes. But such a lovely white bandolier—though I must say your green morocco is even lovelier. Not that it did me much good, that bandolier.” Her tears began to flow again. “I suppose John told you. What I had to suffer—and not a gramme of soma to be had. Only a drink of mescal every now and then, when Popé

used to bring it. Popé is a boy I used to know. But it makes you feel so bad afterwards. the mescal does, and you're sick with the peyotl; besides it always made that awful feeling of being ashamed much worse the next day. And I was so ashamed. Just think of it: me, a Beta—having a baby: put yourself in my place.” (The mere suggestion made Lenina shudder.) “Though it wasn't my fault, I swear; because I still don't know how it happened, seeing that I did all the Malthusian Drill—you know, by numbers, One, two, three, four, always, I swear it; but all the same it happened, and of course there wasn't anything like an Abortion Centre here. Is it still down in Chelsea, by the way?” she asked. Lenina nodded. “And still floodlighted on Tuesdays and Fridays?” Lenina nodded again. “That lovely pink glass tower!” Poor Linda lifted her face and with closed eyes ecstatically contemplated the bright remembered image. “And the river at night,” she whispered. Great tears oozed slowly out from behind her tight-shut eyelids. “And flying back in the evening from Stoke Poges. And then a hot bath and vibro-vacuum massage...But there.” She drew a deep breath, shook her head, opened her eyes again, sniffed once or twice, then blew her nose on her fingers and wiped them on the skirt of her tunic. “Oh, I'm so sorry,” she said in response to Lenina's involuntary grimace of disgust. “I oughtn't to have done that. I'm sorry. But what are you to do when there aren't any handkerchiefs? I remember how it used to upset me, all that dirt, and nothing being aseptic. I had an awful cut on my head when they first brought me here. You can't imagine what they used to put on it. Filth, just filth. ‘Civilization is Sterilization,’ I used to say them. And ‘Streptocock-Gee to Banbury-T, to see a fine bathroom and W.C.’ as though they were children. But of course they didn't understand. How should they? And in the end I suppose I got used to it. And anyhow, how can you keep things clean when there isn't hot water

laid on? And look at these clothes. This beastly wool isn't like acetate. It lasts and lasts. And you're supposed to mend it if it gets torn. But I'm a Beta; I worked in the Fertilizing Room; nobody ever taught me to do anything like that. It wasn't my business. Besides, it never used to be right to mend clothes. Throw them away when they've got holes in them and buy new. 'The more stitches, the less riches.' Isn't that right? Mending's anti-social. But it's all different here. It's like living with lunatics. Everything they do is mad." She looked round; saw John and Bernard had left them and were walking up and down in the dust and garbage outside the house; but, none the less confidentially lowering her voice, and leaning, while Lenina stiffened and shrank, so close that the blown reek of embryo-poison stirred the hair on her cheek. "For instance," she hoarsely whispered, "take the way they have one another here. Mad, I tell you, absolutely mad. Everybody belongs to every one else—don't they? don't they?" she insisted, tugging at Lenina's sleeve. Lenina nodded her averted head, let out the breath she had been holding and managed to draw another one, relatively untainted. "Well, here," the other went on, "nobody's supposed to belong to more than one person. And if you have people in the ordinary way, the others think you're wicked and anti-social. They hate and despise you. Once a lot of women came and made a scene because their men came to see me. Well, why not? And then they rushed at me...No, it was too awful. I can't tell you about it." Linda covered her face with her hands and shuddered. "They're so hateful, the women here. Mad, mad and cruel. And of course they don't know anything about Malthusian Drill, or bottles, or decanting, or anything of that sort. So they're having children all the time—like dogs. It's too revolting. And to think that I...Oh, Ford, Ford, Ford! And yet John was a great comfort to me. I don't know what I should have done without him. Even though he did get so upset

whenever a man...Quite as a tiny boy, even. Once (but that was when he was bigger) he tried to kill poor Waihusiwa—or was it Popé?—just because I used to have them sometimes. Because I never could make him understand that that was what civilized people ought to do. Being mad's infectious I believe. Anyhow, John seems to have caught it from the Indians. Because, of course, he was with them a lot. Even though they always were so beastly to him and wouldn't let him do all the things the other boys did. Which was a good thing in a way, because it made it easier for me to condition him a little. Though you've no idea how difficult that is. There's so much one doesn't know; it wasn't my business to know. I mean, when a child asks you how a helicopter works or who made the world—well, what are you to answer if you're a Beta and have always worked in the Fertilizing Room? What are you to answer?"

Chapter Eight

OUTSIDE, in the dust and among the garbage (there were four dogs now), Bernard and John were walking slowly up and down.

“So hard for me to realize,” Bernard was saying, “to reconstruct. As though we were living on different planets, in different centuries. A mother, and all this dirt, and gods, and old age, and disease...” He shook his head. “It’s almost inconceivable. I shall never understand, unless you explain.”

“Explain what?”

“This.” He indicated the pueblo. “That.” And it was the little house outside the village. “Everything. All your life.”

“But what is there to say?”

“From the beginning. As far back as you can remember.”

“As far back as I can remember.” John frowned. There was a long silence.

It was very hot. They had eaten a lot of tortillas and sweet corn. Linda said, “Come and lie down, Baby.” They lay down together in the big bed. “Sing,” and Linda sang. Sang “Streptocock-Gee to Banbury-T” and “Bye Baby Banting, soon you’ll need decanting.” Her voice got fainter and fainter...

There was a loud noise, and he woke with a start. A man was saying something to Linda, and Linda was laughing. She had pulled the blanket up to her chin, but the man pulled it down again. His hair was like two black ropes, and round his arm was a lovely silver bracelet with blue stones in it. He liked the bracelet; but all the same, he was frightened; he hid his face against Linda's body. Linda put her hand on him and he felt safer. In those other words he did not understand so well, she said to the man, "Not with John here." The man looked at him, then again at Linda, and said a few words in a soft voice. Linda said, "No." But the man bent over the bed towards him and his face was huge, terrible; the black ropes of hair touched the blanket. "No," Linda said again, and he felt her hand squeezing him more tightly. "No, no!" But the man took hold of one of his arms, and it hurt. He screamed. The man put up his other hand and lifted him up. Linda was still holding him, still saying, "No, no." The man said something short and angry, and suddenly her hands were gone. "Linda, Linda." He kicked and wriggled; but the man carried him across to the door, opened it, put him down on the floor in the middle of the other room, and went away, shutting the door behind him. He got up, he ran to the door. Standing on tiptoe he could just reach the big wooden latch. He lifted it and pushed; but the door wouldn't open. "Linda," he shouted. She didn't answer.

He remembered a huge room, rather dark; and there were big wooden things with strings fastened to them, and lots of women standing round them—making blankets, Linda said. Linda told him to sit in the corner with the other children, while she went and helped the women. He played with the little boys for a long time.

Suddenly people started talking very loud, and there were the women pushing Linda away, and Linda was crying. She went to the door and he ran after her. He asked her why they were angry. "Because I broke something," she said. And then she got angry too. "How should I know how to do their beastly weaving?" she said. "Beastly savages." He asked her what savages were. When they got back to their house, Popé was waiting at the door, and he came in with them. He had a big gourd full of stuff that looked like water; only it wasn't water, but something with a bad smell that burnt your mouth and made you cough. Linda drank some and Popé drank some, and then Linda laughed a lot and talked very loud; and then she and Popé went into the other room. When Popé went away, he went into the room. Linda was in bed and so fast asleep that he couldn't wake her.

Popé used to come often. He said the stuff in the gourd was called mescal; but Linda said it ought to be called soma; only it made you feel ill afterwards. He hated Popé. He hated them all—all the men who came to see Linda. One afternoon, when he had been playing with the other children—it was cold, he remembered, and there was snow on the mountains—he came back to the house and heard angry voices in the bedroom. They were women's voices, and they said words he didn't understand, but he knew they were dreadful words. Then suddenly, crash! Something was upset; he heard people moving about quickly, and there was another crash and then a noise like hitting a mule, only not so bony; then Linda screamed. "Oh, don't, don't, don't!" she said. He ran in. There were three women in dark blankets. Linda was on the bed. One of the women was holding her wrists. Another was lying across her legs, so that she couldn't kick. The third was hitting her with a whip. Once, twice, three times; and each time Linda screamed. Crying, he

tugged at the fringe of the woman's blanket. "Please, please." With her free hand she held him away. The whip came down again, and again Linda screamed. He caught hold of the woman's enormous brown hand between his own and bit it with all his might. She cried out, wrenched her hand free, and gave him such a push that he fell down. While he was lying on the ground she hit him three times with the whip. It hurt more than anything he had ever felt—like fire. The whip whistled again, fell. But this time it was Linda who screamed.

"But why did they want to hurt you, Linda?" he asked that night. He was crying, because the red marks of the whip on his back still hurt so terribly. But he was also crying because people were so beastly and unfair, and because he was only a little boy and couldn't do anything against them. Linda was crying too. She was grown up, but she wasn't big enough to fight against three of them. It wasn't fair for her either. "Why did they want to hurt you, Linda?"

"I don't know. How should I know?" It was difficult to hear what she said, because she was lying on her stomach and her face was in the pillow. "They say those men are their men," she went on; and she did not seem to be talking to him at all; she seemed to be talking with some one inside herself. A long talk which she didn't understand; and in the end she started crying louder than ever.

"Oh, don't cry, Linda. Don't cry."

He pressed himself against her. He put his arm round her neck. Linda cried out. "Oh, be careful. My shoulder! Oh!" and she pushed him away,

hard. His head banged against the wall. “Little idiot!” she shouted; and then, suddenly, she began to slap him. Slap, slap...

“Linda,” he cried out. “Oh, mother, don’t!”

“I’m not your mother. I won’t be your mother.”

“But, Linda...Oh!” She slapped him on the cheek.

“Turned into a savage,” she shouted. “Having young ones like an animal...If it hadn’t been for you, I might have gone to the Inspector, I might have got away. But not with a baby. That would have been too shameful.”

He saw that she was going to hit him again, and lifted his arm to guard his face. “Oh, don’t, Linda, please don’t.”

“Little beast!” She pulled down his arm; his face was uncovered.

“Don’t, Linda.” He shut his eyes, expecting the blow.

But she didn’t hit him. After a little time, he opened his eyes again and saw that she was looking at him. He tried to smile at her. Suddenly she put her arms round him and kissed him again and again.

Sometimes, for several days, Linda didn’t get up at all. She lay in bed and was sad. Or else she drank the stuff that Popé brought and laughed a great deal and went to sleep. Sometimes she was sick. Often she forgot to wash him, and there was nothing to eat except cold tortillas. He remembered the first time she found those little animals in his hair, how she screamed and screamed.

The happiest times were when she told him about the Other Place. “And you really can go flying, whenever you like?”

“Whenever you like.” And she would tell him about the lovely music that came out of a box, and all the nice games you could play, and the delicious things to eat and drink, and the light that came when you pressed a little thing in the wall, and the pictures that you could hear and feel and smell, as well as see, and another box for making nice smells, and the pink and green and blue and silver houses as high as mountains, and everybody happy and no one ever sad or angry, and every one belonging to every one else, and the boxes where you could see and hear what was happening at the other side of the world, and babies in lovely clean bottles—everything so clean, and no nasty smells, no dirt at all—and people never lonely, but living together and being so jolly and happy, like the summer dances here in Malpais, but much happier, and the happiness being there every day, every day....He listened by the hour. And sometimes, when he and the other children were tired with too much playing, one of the old men of the pueblo would talk to them, in those other words, of the great Transformer of the World, and of the long fight between Right Hand and Left Hand, between Wet and Dry; of Awonawilona, who made a great fog by thinking in the night, and then made the whole world out of the fog; of Earth Mother and Sky Father; of Ahaiyuta and Marsailema, the twins of War and Chance; of Jesus and Pookong; of Mary and Etsanatilehi, the woman who makes herself young again; of the Black Stone at Laguna and the Great Eagle and Our Lady of Acoma. Strange stories, all the more wonderful to him for being told in the other words and so not fully understood. Lying in bed, he would think of Heaven and London and Our Lady of Acoma and the rows and rows of babies in clean bottles and

Jesus flying up and Linda flying up and the great Director of World Hatcheries and Awonawilona.

Lots of men came to see Linda. The boys began to point their fingers at him. In the strange other words they said that Linda was bad; they called her names he did not understand, but that he knew were bad names. One day they sang a song about her, again and again. He threw stones at them. They threw back; a sharp stone cut his cheek. The blood wouldn't stop; he was covered with blood.

Linda taught him to read. With a piece of charcoal she drew pictures on the wall—an animal sitting down, a baby inside a bottle; then she wrote letters. THE CAT IS ON THE MAT. THE TOT IS IN THE POT. He learned quickly and easily. When he knew how to read all the words she wrote on the wall, Linda opened her big wooden box and pulled out from under those funny little red trousers she never wore a thin little book. He had often seen it before. “When you're bigger,” she had said, “you can read it.” Well, now he was big enough. He was proud. “I'm afraid you won't find it very exciting,” she said. “But it's the only thing I have.” She sighed. “If only you could see the lovely reading machines we used to have in London!” He began reading. The Chemical and Bacteriological Conditioning of the Embryo. Practical Instructions for Beta Embryo-Store Workers. It took him a quarter of an hour to read the title alone. He threw the book on the floor. “Beastly, beastly book!” he said, and began to cry.

The boys still sang their horrible song about Linda. Sometimes, too, they laughed at him for being so ragged. When he tore his clothes, Linda did not know how to mend them. In the Other Place, she told him, people threw away

clothes with holes in them and got new ones. “Rags, rags!” the boys used to shout at him. “But I can read,” he said to himself, “and they can’t. They don’t even know what reading is.” It was fairly easy, if he thought hard enough about the reading, to pretend that he didn’t mind when they made fun of him. He asked Linda to give him the book again.

The more the boys pointed and sang, the harder he read. Soon he could read all the words quite well. Even the longest. But what did they mean? He asked Linda; but even when she could answer it didn’t seem to make it very clear, And generally she couldn’t answer at all.

“What are chemicals?” he would ask.

“Oh, stuff like magnesium salts, and alcohol for keeping the Deltas and Epsilons small and backward, and calcium carbonate for bones, and all that sort of thing.”

“But how do you make chemicals, Linda? Where do they come from?”

“Well, I don’t know. You get them out of bottles. And when the bottles are empty, you send up to the Chemical Store for more. It’s the Chemical Store people who make them, I suppose. Or else they send to the factory for them. I don’t know. I never did any chemistry. My job was always with the embryos. It was the same with everything else he asked about. Linda never seemed to know. The old men of the pueblo had much more definite answers.

“The seed of men and all creatures, the seed of the sun and the seed of earth and the seed of the sky—Awonawilona made them all out of the Fog of Increase. Now the world has four wombs; and he laid the seeds in the lowest

of the four wombs. And gradually the seeds began to grow...”

One day (John calculated later that it must have been soon after his twelfth birthday) he came home and found a book that he had never seen before lying on the floor in the bedroom. It was a thick book and looked very old. The binding had been eaten by mice; some of its pages were loose and crumpled. He picked it up, looked at the title-page: the book was called *The Complete Works of William Shakespeare*.

Linda was lying on the bed, sipping that horrible stinking mescal out of a cup. “Popé brought it,” she said. Her voice was thick and hoarse like somebody else’s voice. “It was lying in one of the chests of the Antelope Kiva. It’s supposed to have been there for hundreds of years. I expect it’s true, because I looked at it, and it seemed to be full of nonsense. Uncivilized. Still, it’ll be good enough for you to practice your reading on.” She took a last sip, set the cup down on the floor beside the bed, turned over on her side, hiccoughed once or twice and went to sleep.

He opened the book at random.

Nay, but to live In the rank sweat of an enseamed bed, Stew’d in corruption, honeying and making love Over the nasty sty...

The strange words rolled through his mind; rumbled, like talking thunder; like the drums at the summer dances, if the drums could have spoken; like the men singing the Corn Song, beautiful, beautiful, so that you cried; like old Mitsima saying magic over his feathers and his carved sticks and his bits of bone and stone—kiathla tsilu silokwe silokwe silokwe. Kiai silu

silu, tsithl—but better than Mitsima’s magic, because it meant more, because it talked to him, talked wonderfully and only half-understandably, a terrible beautiful magic, about Linda; about Linda lying there snoring, with the empty cup on the floor beside the bed; about Linda and Popé, Linda and Popé.

He hated Popé more and more. A man can smile and smile and be a villain. Remorseless, treacherous, lecherous, kindless villain. What did the words exactly mean? He only half knew. But their magic was strong and went on rumbling in his head, and somehow it was as though he had never really hated Popé before; never really hated him because he had never been able to say how much he hated him. But now he had these words, these words like drums and singing and magic. These words and the strange, strange story out of which they were taken (he couldn’t make head or tail of it, but it was wonderful, wonderful all the same)—they gave him a reason for hating Popé; and they made his hatred more real; they even made Popé himself more real.

One day, when he came in from playing, the door of the inner room was open, and he saw them lying together on the bed, asleep—white Linda and Popé almost black beside her, with one arm under her shoulders and the other dark hand on her breast, and one of the plaits of his long hair lying across her throat, like a black snake trying to strangle her. Popé’s gourd and a cup were standing on the floor near the bed. Linda was snoring.

His heart seemed to have disappeared and left a hole. He was empty. Empty, and cold, and rather sick, and giddy. He leaned against the wall to steady himself. Remorseless, treacherous, lecherous...Like drums, like the men singing for the corn, like magic, the words repeated and repeated themselves in his head. From being cold he was suddenly hot. His cheeks

burnt with the rush of blood, the room swam and darkened before his eyes. He ground his teeth. "I'll kill him, I'll kill him, I'll kill him," he kept saying. And suddenly there were more words.

When he is drunk asleep, or in his rage Or in the incestuous pleasure of his bed...

The magic was on his side, the magic explained and gave orders. He stepped back in the outer room. "When he is drunk asleep..." The knife for the meat was lying on the floor near the fireplace. He picked it up and tiptoed to the door again. "When he is drunk asleep, drunk asleep..." He ran across the room and stabbed—oh, the blood!—stabbed again, as Popé heaved out of his sleep, lifted his hand to stab once more, but found his wrist caught, held and—oh, oh!—twisted. He couldn't move, he was trapped, and there were Popé's small black eyes, very close, staring into his own. He looked away. There were two cuts on Popé's left shoulder. "Oh, look at the blood!" Linda was crying. "Look at the blood!" She had never been able to bear the sight of blood. Popé lifted his other hand—to strike him, he thought. He stiffened to receive the blow. But the hand only took him under the chin and turned his face, so that he had to look again into Popé's eyes. For a long time, for hours and hours. And suddenly—he couldn't help it—he began to cry. Popé burst out laughing. "Go," he said, in the other Indian words. "Go, my brave Ahaiyuta." He ran out into the other room to hide his tears.

"You are fifteen," said old Mitsima, in the Indian words. "Now I may teach you to work the clay."

Squatting by the river, they worked together.

“First of all,” said Mitsima, taking a lump of the wetted clay between his hands, “we make a little moon.” The old man squeezed the lump into a disk, then bent up the edges, the moon became a shallow cup.

Slowly and unskilfully he imitated the old man’s delicate gestures.

“A moon, a cup, and now a snake.” Mitsima rolled out another piece of clay into a long flexible cylinder, trooped it into a circle and pressed it on to the rim of the cup. “Then another snake. And another. And another.” Round by round, Mitsima built up the sides of the pot; it was narrow, it bulged, it narrowed again towards the neck. Mitsima squeezed and patted, stroked and scraped; and there at last it stood, in shape the familiar water pot of Malpais, but creamy white instead of black, and still soft to the touch. The crooked parody of Mitsima’s, his own stood beside it. Looking at the two pots, he had to laugh.

“But the next one will be better,” he said, and began to moisten another piece of clay.

To fashion, to give form, to feel his fingers gaining in skill and power—this gave him an extraordinary pleasure. “A, B, C, Vitamin D,” he sang to himself as he worked. “The fat’s in the liver, the cod’s in the sea.” And Mitsima also sang—a song about killing a bear. They worked all day, and all day he was filled with an intense, absorbing happiness.

“Next winter,” said old Mitsima, “I will teach you to make the bow.”

He stood for a long time outside the house, and at last the ceremonies within were finished. The door opened; they came out. Kothlu came first, his

right hand out-stretched and tightly closed, as though over some precious jewel. Her clenched hand similarly outstretched, Kiakimé followed. They walked in silence, and in silence, behind them, came the brothers and sisters and cousins and all the troop of old people.

They walked out of the pueblo, across the mesa. At the edge of the clid they halted, facing the early morning sun. Kothlu opened his hand. A pinch of corn meal lay white on the palm; he breathed on it, murmured a few words, then threw it, a handful of white dust, towards the sun. Kiakimé did the same. Then Khakimé's father stepped forward, and holding up a feathered prayer stick, made a long prayer, then threw the stick after the corn meal.

"It is finished," said old Mitsima in a loud voice. "They are married."

"Well," said Linda, as they turned away, "all I can say is, it does seem a lot of fuss to make about so little. In civilized countries, when a boy wants to have a girl, he just...But where are you going, John?"

He paid no attention to her calling, but ran on, away, away, anywhere to be by himself.

It is finished Old Mitsima's words repeated themselves in his mind. Finished, finished...In silence and from a long way off, but violently, desperately, hopelessly, he had loved Kiakimé. And now it was finished. He was sixteen.

At the full moon, in the Antelope Kiva, secrets would be told, secrets would be done and borne. They would go down, boys, into the kiva and come out again, men. The boys were all afraid and at the same time impatient. And

at last it was the day. The sun went down, the moon rose. He went with the others. Men were standing, dark, at the entrance to the kiva; the ladder went down into the red lighted depths. Already the leading boys had begun to climb down. Suddenly, one of the men stepped forward, caught him by the arm, and pulled him out of the ranks. He broke free and dodged back into his place among the others. This time the man struck him, pulled his hair. "Not for you, white-hair!" "Not for the son of the she-dog," said one of the other men. The boys laughed. "Go!" And as he still hovered on the fringes of the group, "Go!" the men shouted again. One of them bent down, took a stone, threw it. "Go, go, go!" There was a shower of stones. Bleeding, he ran away into the darkness. From the red-lit kiva came the noise of singing. The last of the boys had climbed down the ladder. He was all alone.

All alone, outside the pueblo, on the bare plain of the mesa. The rock was like bleached bones in the moonlight. Down in the valley, the coyotes were howling at the moon. The bruises hurt him, the cuts were still bleeding; but it was not for pain that he sobbed; it was because he was all alone, because he had been driven out, alone, into this skeleton world of rocks and moonlight. At the edge of the precipice he sat down. The moon was behind him; he looked down into the black shadow of the mesa, into the black shadow of death. He had only to take one step, one little jump....He held out his right hand in the moonlight. From the cut on his wrist the blood was still oozing. Every few seconds a drop fell, dark, almost colourless in the dead light. Drop, drop, drop. To-morrow and to-morrow and to-morrow...

He had discovered Time and Death and God.

"Alone, always alone," the young man was saying.

The words awoke a plaintive echo in Bernard's mind. Alone, alone... "So am I," he said, on a gush of confidingness. "Terribly alone."

"Are you?" John looked surprised. "I thought that in the Other Place... I mean, Linda always said that nobody was ever alone there."

Bernard blushed uncomfortably. "You see," he said, mumbling and with averted eyes, "I'm rather different from most people, I suppose. If one happens to be decanted different..."

"Yes, that's just it." The young man nodded. "If one's different, one's bound to be lonely. They're beastly to one. Do you know, they shut me out of absolutely everything? When the other boys were sent out to spend the night on the mountains—you know, when you have to dream which your sacred animal is—they wouldn't let me go with the others; they wouldn't tell me any of the secrets. I did it by myself, though," he added. "Didn't eat anything for five days and then went out one night alone into those mountains there." He pointed.

Patronizingly, Bernard smiled. "And did you dream of anything?" he asked.

The other nodded. "But I mustn't tell you what." He was silent for a little; then, in a low voice, "Once," he went on, "I did something that none of the others did: I stood against a rock in the middle of the day, in summer, with my arms out, like Jesus on the Cross."

"What on earth for?"

“I wanted to know what it was like being crucified. Hanging there in the sun...”

“But why?”

“Why? Well...” He hesitated. “Because I felt I ought to. If Jesus could stand it. And then, if one has done something wrong...Besides, I was unhappy; that was another reason.”

“It seems a funny way of curing your unhappiness,” said Bernard. But on second thoughts he decided that there was, after all, some sense in it. Better than taking soma...

“I fainted after a time,” said the young man. “Fell down on my face. Do you see the mark where I cut myself?” He lifted the thick yellow hair from his forehead. The scar showed, pale and puckered, on his right temple.

Bernard looked, and then quickly, with a little shudder, averted his eyes. His conditioning had made him not so much pitiful as profoundly squeamish. The mere suggestion of illness or wounds was to him not only horrifying, but even repulsive and rather disgusting. Like dirt, or deformity, or old age. Hastily he changed the subject.

“I wonder if you’d like to come back to London with us?” he asked, making the first move in a campaign whose strategy he had been secretly elaborating ever since, in the little house, he had realized who the “father” of this young savage must be. “Would you like that?”

The young man’s face lit up. “Do you really mean it?”

“Of course; if I can get permission, that is.”

“Linda too?”

“Well...” He hesitated doubtfully. That revolting creature! No, it was impossible. Unless, unless...It suddenly occurred to Bernard that her very revoltingness might prove an enormous asset. “But of course!” he cried, making up for his first hesitations with an excess of noisy cordiality.

The young man drew a deep breath. “To think it should be coming true—what I’ve dreamt of all my life. Do you remember what Miranda says?”

“Who’s Miranda?”

But the young man had evidently not heard the question. “O wonder!” he was saying; and his eyes shone, his face was brightly flushed. “How many goodly creatures are there here! How beauteous mankind is!” The flush suddenly deepened; he was thinking of Lenina, of an angel in bottle-green viscose, lustrous with youth and skin food, plump, benevolently smiling. His voice faltered. “O brave new world,” he began, then-suddenly interrupted himself; the blood had left his cheeks; he was as pale as paper.

“Are you married to her?” he asked.

“Am I what?”

“Married. You know—for ever. They say ‘for ever’ in the Indian words; it can’t be broken.”

“Ford, no!” Bernard couldn’t help laughing.

John also laughed, but for another reason—laughed for pure joy.

“O brave new world,” he repeated. “O brave new world that has such people in it. Let’s start at once.”

“You have a most peculiar way of talking sometimes,” said Bernard, staring at the young man in perplexed astonishment. “And, anyhow, hadn’t you better wait till you actually see the new world?”

Chapter Nine

LENINA felt herself entitled, after this day of queerness and horror, to a complete and absolute holiday. As soon as they got back to the rest-house, she swallowed six half-gramme tablets of soma, lay down on her bed, and within ten minutes had embarked for lunar eternity. It would be eighteen hours at the least before she was in time again.

Bernard meanwhile lay pensive and wide-eyed in the dark. It was long after midnight before he fell asleep. Long after midnight; but his insomnia had not been fruitless; he had a plan.

Punctually, on the following morning, at ten o'clock, the green-uniformed octoroon stepped out of his helicopter. Hemard was waiting for him among the agaves.

"Miss Crowne's gone on soma-holiday," he explained. "Can hardly be back before five, which leaves us seven hours."

He could fly to Santa Fé, do all the business he had to do, and be in Malpais again long before she woke up.

"She'll be quite safe here by herself?"

"Safe as helicopters," the octoroon assured him.

They climbed into the machine and started off at once. At ten thirty-four

they landed on the roof of the Santa Fé Post Office; at ten thirty-seven Bernard had got through to the World Controller's Office in Whitehall; at ten thirty-seven he was speaking to his lordship's fourth personal secretary; at ten forty-four he was repeating his story to the first secretary, and at ten forty-seven and a half it was the deep, resonant voice of Mustapha Mond himself that sounded in his ears.

"I ventured to think," stammered Bernard, "that your lordship might find the matter of sufficient scientific interest..."

"Yes, I do find it of sufficient scientific interest," said the deep voice. "Bring these two individuals back to London with you."

"Your lordship is aware that I shall need a special permit..."

"The necessary orders," said Mustapha Mond, "are being sent to the Warden of the Reservation at this moment. You will proceed at once to the Warden's Office. Good-morning, Mr. Marx."

There was silence. Bernard hung up the receiver and hurried up to the roof.

"Warden's Office," he said to the Gamma-green octroon.

At ten fifty-four Bernard was shaking hands with the Warden.

"Delighted, Mr. Marx, delighted." His boom was deferential. "We have just received special orders..."

"I know," said Bernard, interrupting him. "I was talking to his lordship

on the phone a moment ago.” His bored tone implied that he was in the habit of talking to his fordship every day of the week. He dropped into a chair. “If you’ll kindly take all the necessary steps as soon as possible. As soon as possible,” he emphatically repeated. He was thoroughly enjoying himself.

At eleven three he had all the necessary papers in his pocket.

“So long,” he said patronizingly to the Warden, who had accompanied him as far as the lift gates. “So long.”

He walked across to the hotel, had a bath, a vibro-vac massage, and an electrolytic shave, listened in to the morning’s news, looked in for half an hour on the televisor, ate a leisured luncheon, and at half-past two flew back with the octoroon to Malpais.

The young man stood outside the rest-house.

“Bernard,” he called. “Bernard!” There was no answer.

Noiseless on his deerksin moccasins, he ran up the steps and tried the door. The door was locked.

They were gone! Gone! It was the most terrible thing that had ever happened to him. She had asked him to come and see them, and now they were gone. He sat down on the steps and cried.

Half an hour later it occurred to him to look through the window. The first thing he saw was a green suit-case, with the initials L.C. painted on the lid. Joy flared up like fire within him. He picked up a stone. The smashed glass tinkled on the floor. A moment later he was inside the room. He opened

the green suit-case; and all at once he was breathing Lenina's perfume, filling his lungs with her essential being. His heart beat wildly; for a moment he was almost faint. Then, bending over the precious box, he touched, he lifted into the light, he examined. The zippers on Lenina's spare pair of viscose velveteen shorts were at first a puzzle, then solved, a delight. Zip, and then zip; zip, and then zip; he was enchanted. Her green slippers were the most beautiful things he had ever seen. He unfolded a pair of zippicamiknicks, blushed, put them hastily away again; but kissed a perfumed acetate handkerchief and wound a scarf round his neck. Opening a box, he spilt a cloud of scented powder. His hands were floury with the stuff. He wiped them on his chest, on his shoulders, on his bare arms. Delicious perfume! He shut his eyes; he rubbed his cheek against his own powdered arm. Touch of smooth skin against his face, scent in his nostrils of musky dust—her real presence. "Lenina," he whispered. "Lenina!"

A noise made him start, made him guiltily turn. He crammed up his thieveries into the suit-case and shut the lid; then listened again, looked. Not a sign of life, not a sound. And yet he had certainly heard something—something like a sigh, something like the creak of a board. He tiptoed to the door and, cautiously opening it, found himself looking on to a broad landing. On the opposite side of the landing was another door, ajar. He stepped out, pushed, peeped.

There, on a low bed, the sheet flung back, dressed in a pair of pink one-piece zippyjamas, lay Lenina, fast asleep and so beautiful in the midst of her curls, so touchingly childish with her pink toes and her grave sleeping face, so trustful in the helplessness of her limp hands and melted limbs, that the

tears came to his eyes.

With an infinity of quite unnecessary precautions—for nothing short of a pistol shot could have called Lenina back from her soma-holiday before the appointed time—he entered the room, he knelt on the floor beside the bed. He gazed, he clasped his hands, his lips moved. “Her eyes,” he murmured,

“Her eyes, her hair, her cheek, her gait, her voice; Handlest in thy discourse O! that her hand, In whose comparison all whites are ink Writing their own reproach; to whose soft seizure The cygnet’s down is harsh...”

A fly buzzed round her; he waved it away. “Flies,” he remembered,

“On the white wonder of dear Juliet’s hand, may seize. And steal immortal blessing from her lips, Who, even in pure and vestal modesty, Still blush, as thinking their own kisses sin.”

Very slowly, with the hesitating gesture of one who reaches forward to stroke a shy and possibly rather dangerous bird, he put out his hand. It hung there trembling, within an inch of those limp fingers, on the verge of contact. Did he dare? Dare to profane with his unworthiest hand that...No, he didn’t. The bird was too dangerous. His hand dropped back. How beautiful she was! How beautiful!

Then suddenly he found himself reflecting that he had only to take hold of the zipper at her neck and give one long, strong pull...He shut his eyes, he shook his head with the gesture of a dog shaking its ears as it emerges from the water. Detestable thought! He was ashamed of himself. Pure and vestal modesty...

There was a humming in the air. Another fly trying to steal immortal blessings? A wasp? He looked, saw nothing. The humming grew louder and louder, localized itself as being outside the shuttered windows. The plane! In a panic, he scrambled to his feet and ran into the other room, vaulted through the open window, and hurrying along the path between the tall agaves was in time to receive Bernard Marx as he climbed out of the helicopter.

Chapter Ten

THE HANDS of all the four thousand electric clocks in all the Bloomsbury Centre's four thousand rooms marked twenty-seven minutes past two. "This hive of industry," as the Director was fond of calling it, was in the full buzz of work. Every one was busy, everything in ordered motion. Under the microscopes, their long tails furiously lashing, spermatozoa were burrowing head first into eggs; and, fertilized, the eggs were expanding, piding, or if bokanovskified, budding and breaking up into whole populations of separate embryos. From the Social Predestination Room the escalators went rumbling down into the basement, and there, in the crimson darkness, stewingly warm on their cushion of peritoneum and gorged with blood-surrogate and hormones, the foetuses grew and grew or, poisoned, languished into a stunted Epsilonhood. With a faint hum and rattle the moving racks crawled imperceptibly through the weeks and the recapitulated aeons to where, in the Decanting Room, the newly-unbottled babes uttered their first yell of horror and amazement.

The dynamos purred in the sub-basement, the lifts rushed up and down. On all the eleven floors of Nurseries it was feeding time. From eighteen hundred bottles eighteen hundred carefully labelled infants were simultaneously sucking down their pint of pasteurized external secretion.

Above them, in ten successive layers of dormitory, the little boys and girls who were still young enough to need an afternoon sleep were as busy as

every one else, though they did not know it, listening unconsciously to hypnopædic lessons in hygiene and sociability, in class-consciousness and the toddler's love-life. Above these again were the playrooms where, the weather having turned to rain, nine hundred older children were amusing themselves with bricks and clay modelling, hunt-the-zipper, and erotic play.

Buzz, buzz! The hive was humming, busily, joyfully. Blithe was the singing of the young girls over their test-tubes, the Predestinators whistled as they worked, and in the Decanting Room what glorious jokes were cracked above the empty bottles! But the Director's face, as he entered the Fertilizing Room with Henry Foster, was grave, wooden with severity.

"A public example," he was saying. "In this room, because it contains more high-caste workers than any other in the Centre. I have told him to meet me here at half-past two."

"He does his work very well," put in Henry, with hypocritical generosity.

"I know. But that's all the more reason for severity. His intellectual eminence carries with it corresponding moral responsibilities. The greater a man's talents, the greater his power to lead astray. It is better that one should suffer than that many should be corrupted. Consider the matter dispassionately, Mr. Foster, and you will see that no offence is so heinous as unorthodoxy of behaviour. Murder kills only the individual—and, after all, what is an individual?" With a sweeping gesture he indicated the rows of microscopes, the test-tubes, the incubators. "We can make a new one with the greatest ease—as many as we like. Unorthodoxy threatens more than the life

of a mere individual; it strikes at Society itself. Yes, at Society itself,” he repeated. “Ah, but here he comes.”

Bernard had entered the room and was advancing between the rows of fertilizers towards them. A veneer of jaunty self-confidence thinly concealed his nervousness. The voice in which he said, “Good-morning, Director,” was absurdly too loud; that in which, correcting his mistake, he said, “You asked me to come and speak to you here,” ridiculously soft, a squeak.

“Yes, Mr. Marx,” said the Director portentously. “I did ask you to come to me here. You returned from your holiday last night, I understand.”

“Yes,” Bernard answered.

“Yes-s,” repeated the Director, lingering, a serpent, on the “s”. Then, suddenly raising his voice, “Ladies and gentlemen,” he trumpeted, “ladies and gentlemen.”

The singing of the girls over their test-tubes, the preoccupied whistling of the Microscopists, suddenly ceased. There was a profound silence; every one looked round.

“Ladies and gentlemen,” the Director repeated once more, “excuse me for thus interrupting your labours. A painful duty constrains me. The security and stability of Society are in danger. Yes, in danger, ladies and gentlemen. This man,” he pointed accusingly at Bernard, “this man who stands before you here, this Alpha-Plus to whom so much has been given, and from whom, in consequence, so much must be expected, this colleague of yours—or should I anticipate and say this ex-colleague?—has grossly betrayed the trust imposed

in him. By his heretical views on sport and soma, by the scandalous unorthodoxy of his sex-life, by his refusal to obey the teachings of Our Ford and behave out of office hours, ‘even as a little infant,’” (here the Director made the sign of the T), “he has proved himself an enemy of Society, a subverter, ladies and gentlemen, of all Order and Stability, a conspirator against Civilization itself. For this reason I propose to dismiss him, to dismiss him with ignominy from the post he has held in this Centre; I propose forthwith to apply for his transference to a Subcentre of the lowest order and, that his punishment may serve the best interest of Society, as far as possible removed from any important Centre of population. In Iceland he will have small opportunity to lead others astray by his unfordly example.” The Director paused; then, folding his arms, he turned impressively to Bernard. “Marx,” he said, “can you show any reason why I should not now execute the judgment passed upon you?”

“Yes, I can,” Bernard answered in a very loud voice.

Somewhat taken aback, but still majestically, “Then show it,” said the Director.

“Certainly. But it’s in the passage. One moment.” Bernard hurried to the door and threw it open. “Come in,” he commanded, and the reason came in and showed itself.

There was a gasp, a murmur of astonishment and horror; a young girl screamed; standing on a chair to get a better view some one upset two test-tubes full of spermatozoa. Bloated, sagging, and among those firm youthful bodies, those undistorted faces, a strange and terrifying monster of middle-

agedness, Linda advanced into the room, coquettishly smiling her broken and discoloured smile, and rolling as she walked, with what was meant to be a voluptuous undulation, her enormous haunches. Bernard walked beside her.

“There he is,” he said, pointing at the Director.

“Did you think I didn’t recognize him?” Linda asked indignantly; then, turning to the Director, “Of course I knew you; Tomakin, I should have known you anywhere, among a thousand. But perhaps you’ve forgotten me. Don’t you remember? Don’t you remember, Tomakin? Your Linda.” She stood looking at him, her head on one side, still smiling, but with a smile that became progressively, in face of the Director’s expression of petrified disgust, less and less self-confident, that wavered and finally went out. “Don’t you remember, Tomakin?” she repeated in a voice that trembled. Her eyes were anxious, agonized. The blotched and sagging face twisted grotesquely into the grimace of extreme grief. “Tomakin!” She held out her arms. Some one began to titter.

“What’s the meaning,” began the Director, “of this monstrous...”

“Tomakin!” She ran forward, her blanket trailing behind her, threw her arms round his neck, hid her face on his chest.

A howl of laughter went up irrepressibly.

“...this monstrous practical joke,” the Director shouted.

Red in the face, he tried to disengage himself from her embrace. Desperately she clung. “But I’m Linda, I’m Linda.” The laughter drowned

her voice. “You made me have a baby,” she screamed above the uproar. There was a sudden and appalling hush; eyes floated uncomfortably, not knowing where to look. The Director went suddenly pale, stopped struggling and stood, his hands on her wrists, staring down at her, horrified. “Yes, a baby—and I was its mother.” She flung the obscenity like a challenge into the outraged silence; then, suddenly breaking away from him, ashamed, ashamed, covered her face with her hands, sobbing. “It wasn’t my fault, Tomakin. Because I always did my drill, didn’t I? Didn’t I? Always...I don’t know how...If you knew how awful, Tomakin...But he was a comfort to me, all the same.” Turning towards the door, “John!” she called. “John!”

He came in at once, paused for a moment just inside the door, looked round, then soft on his moccasined feet strode quickly across the room, fell on his knees in front of the Director, and said in a clear voice: “My father!”

The word (for “father” was not so much obscene as—with its connotation of something at one remove from the loathsomeness and moral obliquity of child-bearing—merely gross, a scatological rather than a pornographic impropriety); the comically smutty word relieved what had become a quite intolerable tension. Laughter broke out, enormous, almost hysterical, peal after peal, as though it would never stop. My father—and it was the Director! My father! Oh Ford, oh Ford! That was really too good. The whooping and the roaring renewed themselves, faces seemed on the point of disintegration, tears were streaming. Six more test-tubes of spermatozoa were upset. My father!

Pale, wild-eyed, the Director glared about him in an agony of bewildered humiliation.

My father! The laughter, which had shown signs of dying away, broke out again more loudly than ever. He put his hands over his ears and rushed out of the room.

Chapter Eleven

After the scene in the Fertilizing Room, all upper-caste London was wild to see this delicious creature who had fallen on his knees before the Director of Hatcheries and Conditioning—or rather the ex-Director, for the poor man had resigned immediately afterwards and never set foot inside the Centre again—had flopped down and called him (the joke was almost too good to be true!) “my father.” Linda, on the contrary, cut no ice; nobody had the smallest desire to see Linda. To say one was a mother—that was past a joke: it was an obscenity. Moreover, she wasn’t a real savage, had been hatched out of a bottle and conditioned like any one else: so couldn’t have really quaint ideas. Finally—and this was by far the strongest reason for people’s not wanting to see poor Linda—there was her appearance. Fat; having lost her youth; with bad teeth, and a blotched complexion, and that figure (Ford!)—you simply couldn’t look at her without feeling sick, yes, positively sick. So the best people were quite determined not to see Linda. And Linda, for her part, had no desire to see them. The return to civilization was for her the return to soma, was the possibility of lying in bed and taking holiday after holiday, without ever having to come back to a headache or a fit of vomiting, without ever being made to feel as you always felt after peyotl, as though you’d done something so shamefully anti-social that you could never hold up your head again. Soma played none of these unpleasant tricks. The holiday it gave was perfect and, if the morning after was disagreeable, it was so, not intrinsically, but only by comparison with the joys of the holiday.

The remedy was to make the holiday continuous. Greedily she clamoured for ever larger, ever more frequent doses. Dr. Shaw at first demurred; then let her have what she wanted. She took as much as twenty grammes a day.

“Which will finish her off in a month or two,” the doctor confided to Bernard. “One day the respiratory centre will be paralyzed. No more breathing. Finished. And a good thing too. If we could rejuvenate, of course it would be different. But we can’t.”

Surprisingly, as every one thought (for on soma-holiday Linda was most conveniently out of the way), John raised objections.

“But aren’t you shortening her life by giving her so much?”

“In one sense, yes,” Dr. Shaw admitted. “But in another we’re actually lengthening it.” The young man stared, uncomprehending. “Soma may make you lose a few years in time,” the doctor went on. “But think of the enormous, immeasurable durations it can give you out of time. Every soma-holiday is a bit of what our ancestors used to call eternity.”

John began to understand. “Eternity was in our lips and eyes,” he murmured.

“Eh?”

“Nothing.”

“Of course,” Dr. Shaw went on, “you can’t allow people to go popping off into eternity if they’ve got any serious work to do. But as she hasn’t got any serious work...”

“All the same,” John persisted, “I don’t believe it’s right.”

The doctor shrugged his shoulders. “Well, of course, if you prefer to have her screaming mad all the time...”

In the end John was forced to give in. Linda got her soma. Thenceforward she remained in her little room on the thirty-seventh floor of Bernard’s apartment house, in bed, with the radio and television always on, and the patchouli tap just dripping, and the soma tablets within reach of her hand—there she remained; and yet wasn’t there at all, was all the time away, infinitely far away, on holiday; on holiday in some other world, where the music of the radio was a labyrinth of sonorous colours, a sliding, palpitating labyrinth, that led (by what beautifully inevitable windings) to a bright centre of absolute conviction; where the dancing images of the television box were the performers in some indescribably delicious all-singing feely; where the dripping patchouli was more than scent—was the sun, was a million saxophones, was Popé making love, only much more so, incomparably more, and without end.

“No, we can’t rejuvenate. But I’m very glad,” Dr. Shaw had concluded, “to have had this opportunity to see an example of senility in a human being. Thank you so much for calling me in.” He shook Bernard warmly by the hand.

It was John, then, they were all after. And as it was only through Bernard, his accredited guardian, that John could be seen, Bernard now found himself, for the first time in his life, treated not merely normally, but as a

person of outstanding importance. There was no more talk of the alcohol in his blood-surrogate, no gibes at his personal appearance. Henry Foster went out of his way to be friendly; Benito Hoover made him a present of six packets of sex-hormone chewing-gum; the Assistant Predestinator came out and cadged almost abjectly for an invitation to one of Bernard's evening parties. As for the women, Bernard had only to hint at the possibility of an invitation, and he could have whichever of them he liked.

"Bernard's asked me to meet the Savage next Wednesday," Fanny announced triumphantly.

"I'm so glad," said Lenina. "And now you must admit that you were wrong about Bernard. Don't you think he's really rather sweet?"

Fanny nodded. "And I must say," she said, "I was quite agreeably surprised."

The Chief Bottler, the Director of Predestination, three Deputy Assistant Fertilizer-Generals, the Professor of Feelies in the College of Emotional Engineering, the Dean of the Westminster Community Singery, the Supervisor of Bokanovskification—the list of Bernard's notabilities was interminable.

"And I had six girls last week," he confided to Helmholtz Watson. "One on Monday, two on Tuesday, two more on Friday, and one on Saturday. And if I'd had the time or the inclination, there were at least a dozen more who were only too anxious..."

Helmholtz listened to his boastings in a silence so gloomily

disapproving that Bernard was offended.

“You’re envious,” he said.

Helmholtz shook his head. “I’m rather sad, that’s all,” he answered.

Bernard went off in a huff. Never, he told himself, never would he speak to Helmholtz again.

The days passed. Success went fizzily to Bernard’s head, and in the process completely reconciled him (as any good intoxicant should do) to a world which, up till then, he had found very unsatisfactory. In so far as it recognized him as important, the order of things was good. But, reconciled by his success, he yet refused to forego the privilege of criticizing this order. For the act of criticizing heightened his sense of importance, made him feel larger. Moreover, he did genuinely believe that there were things to criticize. (At the same time, he genuinely liked being a success and having all the girls he wanted.) Before those who now, for the sake of the Savage, paid their court to him, Bernard would parade a carping unorthodoxy. He was politely listened to. But behind his back people shook their heads. “That young man will come to a bad end,” they said, prophesying the more confidently in that they themselves would in due course personally see to it that the end was bad. “He won’t find another Savage to help him out a second time,” they said. Meanwhile, however, there was the first Savage; they were polite. And because they were polite, Bernard felt positively gigantic–gigantic and at the same time light with elation, lighter than air.

“Lighter than air,” said Bernard, pointing upwards.

Like a pearl in the sky, high, high above them, the Weather Department's captive balloon shone rosily in the sunshine.

"...the said Savage," so ran Bernard's instructions, "to be shown civilized life in all its aspects...."

He was being shown a bird's-eye view of it at present, a bird's-eye view from the platform of the Charing-T Tower. The Station Master and the Resident Meteorologist were acting as guides. But it was Bernard who did most of the talking. Intoxicated, he was behaving as though, at the very least, he were a visiting World Controller. Lighter than air.

The Bombay Green Rocket dropped out of the sky. The passengers alighted. Eight identical Dravidian twins in khaki looked out of the eight portholes of the cabin—the stewards.

"Twelve hundred and fifty kilometres an hour," said the Station Master impressively. "What do you think of that, Mr. Savage?"

John thought it very nice. "Still," he said, "Ariel could put a girdle round the earth in forty minutes."

"The Savage," wrote Bernard in his report to Mustapha Mond, "shows surprisingly little astonishment at, or awe of, civilized inventions. This is partly due, no doubt, to the fact that he has heard them talked about by the woman Linda, his m——."

(Mustapha Mond frowned. "Does the fool think I'm too squeamish to see the word written out at full length?")

“Partly on his interest being focussed on what he calls ‘the soul,’ which he persists in regarding as an entity independent of the physical environment, whereas, as I tried to point out to him...”

The Controller skipped the next sentences and was just about to turn the page in search of something more interestingly concrete, when his eye was caught by a series of quite extraordinary phrases. “...though I must admit,” he read, “that I agree with the Savage in finding civilized infantility too easy or, as he puts it, not expensive enough; and I would like to take this opportunity of drawing your lordship’s attention to...”

Mustapha Mond’s anger gave place almost at once to mirth. The idea of this creature solemnly lecturing him—him—about the social order was really too grotesque. The man must have gone mad. “I ought to give him a lesson,” he said to himself; then threw back his head and laughed aloud. For the moment, at any rate, the lesson would not be given.

It was a small factory of lighting-sets for helicopters, a branch of the Electrical Equipment Corporation. They were met on the roof itself (for that circular letter of recommendation from the Controller was magical in its effects) by the Chief Technician and the Human Element Manager. They walked downstairs into the factory.

“Each process,” explained the Human Element Manager, “is carried out, so far as possible, by a single Bokanovsky Group.”

And, in effect, eighty-three almost noseless black brachycephalic Deltas were cold-pressing. The fifty-six four-spindle chucking and turning machines

were being manipulated by fifty-six aquiline and ginger Gammas. One hundred and seven heat-conditioned Epsilon Senegalese were working in the foundry. Thirty-three Delta females, long-headed, sandy, with narrow pelvises, and all within 20 millimetres of 1 metre 69 centimetres tall, were cutting screws. In the assembling room, the dynamos were being put together by two sets of Gamma-Plus dwarfs. The two low work-tables faced one another; between them crawled the conveyor with its load of separate parts; forty-seven blonde heads were confronted by forty-seven brown ones. Forty-seven snubs by forty-seven hooks; forty-seven receding by forty-seven prognathous chins. The completed mechanisms were inspected by eighteen identical curly auburn girls in Gamma green, packed in crates by thirty-four short-legged, left-handed male Delta-Minuses, and loaded into the waiting trucks and lorries by sixty-three blue-eyed, flaxen and freckled Epsilon Semi-Morons.

“O brave new world...” By some malice of his memory the Savage found himself repeating Miranda’s words. “O brave new world that has such people in it.”

“And I assure you,” the Human Element Manager concluded, as they left the factory, “we hardly ever have any trouble with our workers. We always find...”

But the Savage had suddenly broken away from his companions and was violently retching, behind a clump of laurels, as though the solid earth had been a helicopter in an air pocket.

“The Savage,” wrote Bernard, “refuses to take soma, and seems much

distressed because of the woman Linda, his m——, remains permanently on holiday. It is worthy of note that, in spite of his m——’s senility and the extreme repulsiveness of her appearance, the Savage frequently goes to see her and appears to be much attached to her—an interesting example of the way in which early conditioning can be made to modify and even run counter to natural impulses (in this case, the impulse to recoil from an unpleasant object).”

At Eton they alighted on the roof of Upper School. On the opposite side of School Yard, the fifty-two stories of Lupton’s Tower gleamed white in the sunshine. College on their left and, on their right, the School Community Singery reared their venerable piles of ferro-concrete and vita-glass. In the centre of the quadrangle stood the quaint old chrome-steel statue of Our Ford.

Dr. Gaffney, the Provost, and Miss Keate, the Head Mistress, received them as they stepped out of the plane.

“Do you have many twins here?” the Savage asked rather apprehensively, as they set out on their tour of inspection.

“Oh, no,” the Provost answered. “Eton is reserved exclusively for upper-caste boys and girls. One egg, one adult. It makes education more difficult of course. But as they’ll be called upon to take responsibilities and deal with unexpected emergencies, it can’t be helped.” He sighed.

Bernard, meanwhile, had taken a strong fancy to Miss Keate. “If you’re free any Monday, Wednesday, or Friday evening,” he was saying. Jerking his thumb towards the Savage, “He’s curious, you know,” Bernard added.

“Quaint.”

Miss Keate smiled (and her smile was really charming, he thought); said Thank you; would be delighted to come to one of his parties. The Provost opened a door.

Five minutes in that Alpha Double Plus classroom left John a trifle bewildered.

“What is elementary relativity?” he whispered to Bernard. Bernard tried to explain, then thought better of it and suggested that they should go to some other classroom.

From behind a door in the corridor leading to the Beta-Minus geography room, a ringing soprano voice called, “One, two, three, four,” and then, with a weary impatience, “As you were.”

“Malthusian Drill,” explained the Head Mistress. “Most of our girls are freemartins, of course. I’m a freemartin myself.” She smiled at Bernard. “But we have about eight hundred unsterilized ones who need constant drilling.”

In the Beta-Minus geography room John learnt that “a savage reservation is a place which, owing to unfavourable climatic or geological conditions, or poverty of natural resources, has not been worth the expense of civilizing”. A click; the room was darkened; and suddenly, on the screen above the Master’s head, there were the Penitentes of Acoma prostrating themselves before Our Lady, and wailing as John had heard them wail, confessing their sins before Jesus on the Cross, before the eagle image of Pookong. The young Etonians fairly shouted with laughter. Still wailing, the

Penitentes rose to their feet, stripped off their upper garments and, with knotted whips, began to beat themselves, blow after blow. Redoubled, the laughter drowned even the amplified record of their groans.

“But why do they laugh?” asked the Savage in a pained bewilderment.

“Why?” The Provost turned towards him a still broadly grinning face. “Why? But because it’s so extraordinarily funny.”

In the cinematographic twilight, Bernard risked a gesture which, in the past, even total darkness would hardly have emboldened him to make. Strong in his new importance, he put his arm around the Head Mistress’s waist. It yielded, willowily. He was just about to snatch a kiss or two and perhaps a gentle pinch, when the shutters clicked open again.

“Perhaps we had better go on,” said Miss Keate, and moved towards the door.

“And this,” said the Provost a moment later, “is Hypnopædic Control Room.”

Hundreds of synthetic music boxes, one for each dormitory, stood ranged in shelves round three sides of the room; pigeon-holed on the fourth were the paper sound-track rolls on which the various hypnopædic lessons were printed.

“You slip the roll in here,” explained Bernard, interrupting Dr. Gaffney, “press down this switch...”

“No, that one,” corrected the Provost, annoyed.

“That one, then. The roll unwinds. The selenium cells transform the light impulses into sound waves, and...”

“And there you are,” Dr. Gaffney concluded.

“Do they read Shakespeare?” asked the Savage as they walked, on their way to the Bio-chemical Laboratories, past the School Library.

“Certainly not,” said the Head Mistress, blushing.

“Our library,” said Dr. Gaffney, “contains only books of reference. If our young people need distraction, they can get it at the feelies. We don’t encourage them to indulge in any solitary amusements.”

Five bus-loads of boys and girls, singing or in a silent embracement, rolled past them over the vitrified highway.

“Just returned,” explained Dr. Gaffney, while Bernard, whispering, made an appointment with the Head Mistress for that very evening, “from the Slough Crematorium. Death conditioning begins at eighteen months. Every tot spends two mornings a week in a Hospital for the Dying. All the best toys are kept there, and they get chocolate cream on death days. They learn to take dying as a matter of course.”

“Like any other physiological process,” put in the Head Mistress professionally.

Eight o’clock at the Savoy. It was all arranged.

On their way back to London they stopped at the Television Corporation's factory at Brentford.

"Do you mind waiting here a moment while I go and telephone?" asked Bernard.

The Savage waited and watched. The Main Day-Shift was just going off duty. Crowds of lower-caste workers were queued up in front of the monorail station-seven or eight hundred Gamma, Delta and Epsilon men and women, with not more than a dozen faces and statures between them. To each of them, with his or her ticket, the booking clerk pushed over a little cardboard pillbox. The long caterpillar of men and women moved slowly forward.

"What's in those" (remembering *The Merchant of Venice*) "those caskets?" the Savage enquired when Bernard had rejoined him.

"The day's soma ration," Bernard answered rather indistinctly; for he was masticating a piece of Benito Hoover's chewing-gum. "They get it after their work's over. Four half-gramme tablets. Six on Saturdays."

He took John's arm affectionately and they walked back towards the helicopter.

Lenina came singing into the Changing Room.

"You seem very pleased with yourself," said Fanny.

"I am pleased," she answered. Zip! "Bernard rang up half an hour ago." Zip, zip! She stepped out of her shorts. "He has an unexpected engagement." Zip! "Asked me if I'd take the Savage to the feelies this evening. I must fly."

She hurried away towards the bathroom.

“She’s a lucky girl,” Fanny said to herself as she watched Lenina go.

There was no envy in the comment; good-natured Fanny was merely stating a fact. Lenina was lucky; lucky in having shared with Bernard a generous portion of the Savage’s immense celebrity, lucky in reflecting from her insignificant person the moment’s supremely fashionable glory. Had not the Secretary of the Young Women’s Fordian Association asked her to give a lecture about her experiences? Had she not been invited to the Annual Dinner of the Aphroditeum Club? Had she not already appeared in the Feelytone News—visibly, audibly and tactually appeared to countless millions all over the planet?

Hardly less flattering had been the attentions paid her by conspicuous individuals.

The Resident World Controller’s Second Secretary had asked her to dinner and breakfast. She had spent one week-end with the Ford Chief-Justice, and another with the Arch-Community-Songster of Canterbury. The President of the Internal and External Secretions Corporation was perpetually on the phone, and she had been to Deauville with the Deputy-Governor of the Bank of Europe.

“It’s wonderful, of course. And yet in a way,” she had confessed to Fanny, “I feel as though I were getting something on false presences. Because, of course, the first thing they all want to know is what it’s like to make love to a Savage. And I have to say I don’t know.” She shook her head.

“Most of the men don’t believe me, of course. But it’s true. I wish it weren’t,” she added sadly and sighed. “He’s terribly good-looking; don’t you think so?”

“But doesn’t he like you?” asked Fanny.

“Sometimes I think he does and sometimes I think he doesn’t. He always does his best to avoid me; goes out of the room when I come in; won’t touch me; won’t even look at me. But sometimes if I turn round suddenly, I catch him staring; and then—well, you know how men look when they like you.”

Yes, Fanny knew.

“I can’t make it out,” said Lenina.

She couldn’t make it out; and not only was bewildered; was also rather upset.

“Because, you see, Fanny, I like him.”

Liked him more and more. Well, now there’d be a real chance, she thought, as she scented herself after her bath. Dab, dab, dab—a real chance. Her high spirits overflowed in a song.

“Hug me till you drug me, honey; Kiss me till I’m in a coma; Hug me, honey, snuggly bunny; Love’s as good as soma.”

The scent organ was playing a delightfully refreshing Herbal Capriccio—rippling arpeggios of thyme and lavender, of rosemary, basil, myrtle,

tarragon; a series of daring modulations through the spice keys into ambergris; and a slow return through sandalwood, camphor, cedar and newmown hay (with occasional subtle touches of discord—a whiff of kidney pudding, the faintest suspicion of pig’s dung) back to the simple aromatics with which the piece began. The final blast of thyme died away; there was a round of applause; the lights went up. In the synthetic music machine the sound-track roll began to unwind. It was a trio for hyper-violin, super-cello and oboe-surrogate that now filled the air with its agreeable languor. Thirty or forty bars—and then, against this instrumental background, a much more than human voice began to warble; now throaty, now from the head, now hollow as a flute, now charged with yearning harmonics, it effortlessly passed from Gaspard’s Forster’s low record on the very frontiers of musical tone to a trilled bat-note high above the highest C to which (in 1770, at the Ducal opera of Parma, and to the astonishment of Mozart) Lucrezia Ajugari, alone of all the singers in history, once piercingly gave utterance.

Sunk in their pneumatic stalls, Lenina and the Savage sniffed and listened. It was now the turn also for eyes and skin.

The house lights went down; fiery letters stood out solid and as though self-supported in the darkness. THREE WEEKS IN A HELICOPTER . AN ALL-SUPER-SINGING, SYNTHETIC-TALKING, COLOURED, STEREOSCOPIC FEELY. WITH SYNCHRONIZED SCENT-ORGAN ACCOMPANIMENT.

“Take hold of those metal knobs on the arms of your chair,” whispered Lenina. “Otherwise you won’t get any of the feely effects.”

The Savage did as he was told.

Those fiery letters, meanwhile, had disappeared; there were ten seconds of complete darkness; then suddenly, dazzling and incomparably more solid-looking than they would have seemed in actual flesh and blood, far more real than reality, there stood the stereoscopic images, locked in one another's arms, of a gigantic negro and a golden-haired young brachycephalic Beta-Plus female.

The Savage started. That sensation on his lips! He lifted a hand to his mouth; the titillation ceased; let his hand fall back on the metal knob; it began again. The scent organ, meanwhile, breathed pure musk. Expiringly, a soundtrack super-dove cooed "Oo-ooh"; and vibrating only thirty-two times a second, a deeper than African bass made answer: "Aa-aah." "Ooh-ah! Ooh-ah!" the stereoscopic lips came together again, and once more the facial erogenous zones of the six thousand spectators in the Alhambra tingled with almost intolerable galvanic pleasure. "Ooh..."

The plot of the film was extremely simple. A few minutes after the first Oohs and Aahs (a duet having been sung and a little love made on that famous bearskin, every hair of which—the Assistant Predestinator was perfectly right—could be separately and distinctly felt), the negro had a helicopter accident, fell on his head. Thump! whata twinge through the forehead! A chorus of ow's and aie's went up from the audience.

The concussion knocked all the negro's conditioning into a cocked hat. He developed for the Beta blonde an exclusive and maniacal passion. She protested. He persisted. There were struggles, pursuits, an assault on a rival,

finally a sensational kidnapping. The Beta blond was ravished away into the sky and kept there, hovering, for three weeks in a wildly anti-social tête-à-tête with the black madman. Finally, after a whole series of adventures and much aerial acrobacy three handsome young Alphas succeeded in rescuing her. The negro was packed off to an Adult Re-conditioning Centre and the film ended happily and decorously, with the Beta blonde becoming the mistress of all her three rescuers. They interrupted themselves for a moment to sing a synthetic quartet, with full super-orchestral accompaniment and gardenias on the scent organ. Then the bearskin made a final appearance and, amid a blare of saxophones, the last stereoscopic kiss faded into darkness, the last electric titillation died on the lips like a dying moth that quivers, quivers, ever more feebly, ever more faintly, and at last is quiet, quite still.

But for Lenina the moth did not completely die. Even after the lights had gone up, while they were shuffling slowly along with the crowd towards the lifts, its ghost still fluttered against her lips, still traced fine shuddering roads of anxiety and pleasure across her skin. Her cheeks were flushed. She caught hold of the Savage's arm and pressed it, limp, against her side. He looked down at her for a moment, pale, pained, desiring, and ashamed of his desire. He was not worthy, not...Their eyes for a moment met. What treasures hers promised! A queen's ransom of temperament. Hastily he looked away, disengaged his imprisoned arm. He was obscurely terrified lest she should cease to be something he could feel himself unworthy of.

"I don't think you ought to see things like that," he said, making haste to transfer from Lenina herself to the surrounding circumstances the blame for any past or possible future lapse from perfection.

“Things like what, John?”

“Like this horrible film.”

“Horrible?” Lenina was genuinely astonished. “But I thought it was lovely.”

“It was base,” he said indignantly, “it was ignoble.”

She shook her head. “I don’t know what you mean.” Why was he so queer? Why did he go out of his way to spoil things?

In the taxicopter he hardly even looked at her. Bound by strong vows that had never been pronounced, obedient to laws that had long since ceased to run, he sat averted and in silence. Sometimes, as though a finger had plucked at some taut, almost breaking string, his whole body would shake with a sudden nervous start.

The taxicopter landed on the roof of Lenina’s apartment house. “At last,” she thought exultantly as she stepped out of the cab. At last—even though he had been so queer just now. Standing under a lamp, she peered into her hand mirror. At last. Yes, her nose was a bit shiny. She shook the loose powder from her puff. While he was paying off the taxi—there would just be time. She rubbed at the shininess, thinking: “He’s terribly good-looking. No need for him to be shy like Bernard. And yet...Any other man would have done it long ago. Well, now at last.” That fragment of a face in the little round mirror suddenly smiled at her.

“Good-night,” said a strangled voice behind her. Lenina wheeled round.

He was standing in the doorway of the cab, his eyes fixed, staring; had evidently been staring all this time while she was powdering her nose, waiting—but what for? or hesitating, trying to make up his mind, and all the time thinking, thinking—she could not imagine what extraordinary thoughts. “Good-night, Lenina,” he repeated, and made a strange grimacing attempt to smile.

“But, John...I thought you were...I mean, aren’t you?...”

He shut the door and bent forward to say something to the driver. The cab shot up into the air.

Looking down through the window in the floor, the Savage could see Lenina’s upturned face, pale in the bluish light of the lamps. The mouth was open, she was calling. Her foreshortened figure rushed away from him; the diminishing square of the roof seemed to be falling through the darkness.

Five minutes later he was back in his room. From its hiding-place he took out his mouse-nibbled volume, turned with religious care its stained and crumbled pages, and began to read Othello. Othello, he remembered, was like the hero of Three Weeks in a Helicopter—a black man.

Drying her eyes, Lenina walked across the roof to the lift. On her way down to the twenty-seventh floor she pulled out her soma bottle. One gramme, she decided, would not be enough; hers had been more than a one-gramme affliction. But if she took two grammes, she ran the risk of not waking up in time to-morrow morning. She compromised and, into her cupped left palm, shook out three half-gramme tablets.

Chapter Twelve

BERNARD had to shout through the locked door; the Savage would not open.

“But everybody’s there, waiting for you.”

“Let them wait,” came back the muffled voice through the door.

“But you know quite well, John.” (how difficult it is to sound persuasive at the top of one’s voice!) “I asked them on purpose to meet you.”

“You ought to have asked me first whether I wanted to meet them.”

“But you always came before, John.”

“That’s precisely why I don’t want to come again.”

“Just to please me,” Bernard bellowingly wheedled. “Won’t you come to please me?”

“No.”

“Do you seriously mean it?”

“Yes.”

Despairingly, “But what shall I do?” Bernard wailed.

“Go to hell!” bawled the exasperated voice from within.

“But the Arch-Community-Songster of Canterbury is there to-night.” Bernard was almost in tears.

“Ai yaa tákwa!” It was only in Zuñi that the Savage could adequately express what he felt about the Arch-Community-Songster. “Háni!” he added as an after-thought; and then (with what derisive ferocity!): “Sons éso tse-ná.” And he spat on the ground, as Popé might have done.

In the end Bernard had to slink back, diminished, to his rooms and inform the impatient assembly that the Savage would not be appearing that evening. The news was received with indignation. The men were furious at having been tricked into behaving politely to this insignificant fellow with the unsavoury reputation and the heretical opinions. The higher their position in the hierarchy, the deeper their resentment.

“To play such a joke on me,” the Arch-Songster kept repeating, “on me!”

As for the women, they indignantly felt that they had been had on false pretences—had by a wretched little man who had had alcohol poured into his bottle by mistake—by a creature with a Gamma-Minus physique. It was an outrage, and they said so, more and more loudly. The Head Mistress of Eton was particularly scathing.

Lenina alone said nothing. Pale, her blue eyes clouded with an unwonted melancholy, she sat in a corner, cut off from those who surrounded her by an emotion which they did not share. She had come to the party filled with a

strange feeling of anxious exultation. “In a few minutes,” she had said to herself, as she entered the room, “I shall be seeing him, talking to him, telling him” (for she had come with her mind made up) “that I like him—more than anybody I’ve ever known. And then perhaps he’ll say...”

What would he say? The blood had rushed to her cheeks.

“Why was he so strange the other night, after the feelies? So queer. And yet I’m absolutely sure he really does rather like me. I’m sure...”

It was at this moment that Bernard had made his announcement; the Savage wasn’t coming to the party.

Lenina suddenly felt all the sensations normally experienced at the beginning of a Violent Passion Surrogate treatment—a sense of dreadful emptiness, a breathless apprehension, a nausea. Her heart seemed to stop beating.

“Perhaps it’s because he doesn’t like me,” she said to herself. And at once this possibility became an established certainty: John had refused to come because he didn’t like her. He didn’t like her....

“It really is a bit too thick,” the Head Mistress of Eton was saying to the Director of Crematoria and Phosphorus Reclamation. “When I think that I actually...”

“Yes,” came the voice of Fanny Crowne, “it’s absolutely true about the alcohol. Some one I know knew some one who was working in the Embryo Store at the time. She said to my friend, and my friend said to me...”

“Too bad, too bad,” said Henry Foster, sympathizing with the Arch-Community-Songster. “It may interest you to know that our ex-Director was on the point of transferring him to Iceland.”

Pierced by every word that was spoken, the tight balloon of Bernard’s happy self-confidence was leaking from a thousand wounds. Pale, distraught, abject and agitated, he moved among his guests, stammering incoherent apologies, assuring them that next time the Savage would certainly be there, begging them to sit down and take a carotene sandwich, a slice of vitamin A pâté, a glass of champagne-surrogate. They duly ate, but ignored him; drank and were either rude to his face or talked to one another about him, loudly and offensively, as though he had not been there.

“And now, my friends,” said the Arch-Community-Songster of Canterbury, in that beautiful ringing voice with which he led the proceedings at Ford’s Day Celebrations, “Now, my friends, I think perhaps the time has come...” He rose, put down his glass, brushed from his purple viscose waistcoat the crumbs of a considerable collation, and walked towards the door.

Bernard darted forward to intercept him.

“Must you really, Arch-Songster?...It’s very early still. I’d hoped you would...”

Yes, what hadn’t he hoped, when Lenina confidentially told him that the Arch-Community-Songster would accept an invitation if it were sent. “He’s really rather sweet, you know.” And she had shown Bernard the little golden

zipper-fastening in the form of a T which the Arch-Songster had given her as a memento of the week-end she had spent at Lambeth. To meet the Arch-Community-Songster of Canterbury and Mr. Savage. Bernard had proclaimed his triumph on every invitation card. But the Savage had chosen this evening of all evenings to lock himself up in his room, to shout “Háni!” and even (it was lucky that Bernard didn’t understand Zuñi) “Sons éso tse-ná!” What should have been the crowning moment of Bernard’s whole career had turned out to be the moment of his greatest humiliation.

“I’d so much hoped...” he stammeringly repeated, looking up at the great dignitary with pleading and distracted eyes.

“My young friend,” said the Arch-Community-Songster in a tone of loud and solemn severity; there was a general silence. “Let me give you a word of advice.” He wagged his finger at Bernard. “Before it’s too late. A word of good advice.” (His voice became sepulchral.) “Mend your ways, my young friend, mend your ways.” He made the sign of the T over him and turned away. “Lenina, my dear,” he called in another tone. “Come with me.”

Obediently, but unsmiling and (wholly insensible of the honour done to her) without elation, Lenina walked after him, out of the room. The other guests followed at a respectful interval. The last of them slammed the door. Bernard was all alone.

Punctured, utterly deflated, he dropped into a chair and, covering his face with his hands, began to weep. A few minutes later, however, he thought better of it and took four tablets of soma.

Upstairs in his room the Savage was reading *Romeo and Juliet*.

Lenina and the Arch-Community-Songster stepped out on to the roof of Lambeth Palace. "Hurry up, my young friend—I mean, Lenina," called the Arch-Songster impatiently from the lift gates. Lenina, who had lingered for a moment to look at the moon, dropped her eyes and came hurrying across the roof to rejoin him.

"A New Theory of Biology" was the title of the paper which Mustapha Mond had just finished reading. He sat for some time, meditatively frowning, then picked up his pen and wrote across the title-page: "The author's mathematical treatment of the conception of purpose is novel and highly ingenious, but heretical and, so far as the present social order is concerned, dangerous and potentially subversive. Not to be published." He underlined the words. "The author will be kept under supervision. His transference to the Marine Biological Station of St. Helena may become necessary." A pity, he thought, as he signed his name. It was a masterly piece of work. But once you began admitting explanations in terms of purpose—well, you didn't know what the result might be. It was the sort of idea that might easily decondition the more unsettled minds among the higher castes—make them lose their faith in happiness as the Sovereign Good and take to believing, instead, that the goal was somewhere beyond, somewhere outside the present human sphere, that the purpose of life was not the maintenance of well-being, but some intensification and refining of consciousness, some enlargement of knowledge. Which was, the Controller reflected, quite possibly true. But not, in the present circumstance, admissible. He picked up his pen again, and under the words "Not to be published" drew a second line, thicker and

blackier than the first; then sighed, "What fun it would be," he thought, "if one didn't have to think about happiness!"

With closed eyes, his face shining with rapture, John was softly declaiming to vacancy:

"Oh! she doth teach the torches to burn bright. It seems she hangs upon the cheek of night, Like a rich jewel in an Ethiop's ear; Beauty too rich for use, for earth too dear..."

The golden T lay shining on Lenina's bosom. Sportively, the Arch-Community-Songster caught hold of it, sportively he puled, pulled. "I think," said Lenina suddenly, breaking a long silence, "I'd better take a couple of grammes of soma."

Bernard, by this time, was fast asleep and smiling at the private paradise of his dreams. Smiling, smiling. But inexorably, every thirty seconds, the minute hand of the electric clock above his bed jumped forward with an almost imperceptible click. Click, click, click, click...And it was morning. Bernard was back among the miseries of space and time. It was in the lowest spirits that he taxied across to his work at the Conditioning Centre. The intoxication of success had evaporated; he was soberly his old self; and by contrast with the temporary balloon of these last weeks, the old self seemed unprecedentedly heavier than the surrounding atmosphere.

To this deflated Bernard the Savage showed himself unexpectedly sympathetic.

"You're more like what you were at Malpais," he said, when Bernard

had told him his plaintive story. "Do you remember when we first talked together? Outside the little house. You're like what you were then."

"Because I'm unhappy again; that's why."

"Well, I'd rather be unhappy than have the sort of false, lying happiness you were having here."

"I like that," said Bernard bitterly. "When it's you who were the cause of it all. Refusing to come to my party and so turning them all against me!" He knew that what he was saying was absurd in its injustice; he admitted inwardly, and at last even aloud, the truth of all that the Savage now said about the worthlessness of friends who could be turned upon so slight a provocation into persecuting enemies. But in spite of this knowledge and these admissions, in spite of the fact that his friend's support and sympathy were now his only comfort, Bernard continued perversely to nourish, along with his quite genuine affection, a secret grievance against the Savage, to mediate a campaign of small revenges to be wreaked upon him. Nourishing a grievance against the Arch-Community-Songster was useless; there was no possibility of being revenged on the Chief Bottler or the Assistant Predestinator. As a victim, the Savage possessed, for Bernard, this enormous superiority over the others: that he was accessible. One of the principal functions of a friend is to suffer (in a milder and symbolic form) the punishments that we should like, but are unable, to inflict upon our enemies.

Bernard's other victim-friend was Helmholtz. When, discomfited, he came and asked once more for the friendship which, in his prosperity, he had not thought it worth his while to preserve. Helmholtz gave it; and gave it

without a reproach, without a comment, as though he had forgotten that there had ever been a quarrel. Touched, Bernard felt himself at the same time humiliated by this magnanimity—a magnanimity the more extraordinary and therefore the more humiliating in that it owed nothing to soma and everything to Helmholtz's character. It was the Helmholtz of daily life who forgot and forgave, not the Helmholtz of a half-gramme holiday. Bernard was duly grateful (it was an enormous comfort to have his friend again) and also duly reseritful (it would be pleasure to take some revenge on Helmholtz for his generosity).

At their first meeting after the estrangement, Bernard poured out the tale of his miseries and accepted consolation. It was not till some days later that he learned, to his surprise and with a twinge of shame, that he was not the only one who had been in trouble. Helmholtz had also come into conflict with Authority.

“It was over some rhymes,” he explained. “I was giving my usual course of Advanced Emotional Engineering for Third Year Students. Twelve lectures, of which the seventh is about rhymes. ‘On the Use of Rhymes in Moral Propaganda and Advertisement,’ to be precise. I always illustrate my lecture with a lot of technical examples. This time I thought I’d give them one I’d just written myself. Pure madness, of course; but I couldn’t resist it.” He laughed. “I was curious to see what their reactions would be. Besides,” he added more gravely, “I wanted to do a bit of propaganda; I was trying to engineer them into feeling as I’d felt when I wrote the rhymes. Ford!” He laughed again. “What an outcry there was! The Principal had me up and threatened to hand me the immediate sack. I’m a marked man.”

“But what were your rhymes?” Bernard asked.

“They were about being alone.”

Bernard’s eyebrows went up.

“I’ll recite them to you, if you like.” And Helmholtz began:

“Yesterday’s committee, Sticks, but a broken drum, Midnight in the City, Flutes in a vacuum, Shut lips, sleeping faces, Every stopped machine, The dumb and littered places Where crowds have been:…All silences rejoice, Weep (loudly or low), Speak—but with the voice Of whom, I do not know. Absence, say, of Susan’s, Absence of Egeria’s Arms and respective bosoms, Lips and, ah, posteriors, Slowly form a presence; Whose? and, I ask, of what So absurd an essence, That something, which is not, Nevertheless should populate Empty night more solidly Than that with which we copulate, Why should it seem so squalidly?

Well, I gave them that as an example, and they reported me to the Principal.”

“I’m not surprised,” said Bernard. “It’s flatly against all their sleep-teaching. Remember, they’ve had at least a quarter of a million warnings against solitude.”

“I know. But I thought I’d like to see what the effect would be.”

“Well, you’ve seen now.”

Helmholtz only laughed. “I feel,” he said, after a silence, “as though I

were just beginning to have something to write about. As though I were beginning to be able to use that power I feel I've got inside me—that extra, latent power. Something seems to be coming to me.” In spite of all his troubles, he seemed, Bernard thought, profoundly happy.

Helmholtz and the Savage took to one another at once. So cordially indeed that Bernard felt a sharp pang of jealousy. In all these weeks he had never come to so close an intimacy with the Savage as Helmholtz immediately achieved. Watching them, listening to their talk, he found himself sometimes resentfully wishing that he had never brought them together. He was ashamed of his jealousy and alternately made efforts of will and took soma to keep himself from feeling it. But the efforts were not very successful; and between the soma-holidays there were, of necessity, intervals. The odious sentiment kept on returning.

At his third meeting with the Savage, Helmholtz recited his rhymes on Solitude.

“What do you think of them?” he asked when he had done.

The Savage shook his head. “Listen to this,” was his answer; and unlocking the drawer in which he kept his mouse-eaten book, he opened and read:

“Let the bird of loudest lay On the sole Arabian tree, Herald sad and trumpet be...”

Helmholtz listened with a growing excitement. At “sole Arabian tree” he started; at “thou shrieking harbinger” he smiled with sudden pleasure; at

“every fowl of tyrant wing” the blood rushed up into his cheeks; but at “defunctive music” he turned pale and trembled with an unprecedented emotion. The Savage read on:

“Property was thus appall’d, That the self was not the same; Single nature’s double name Neither two nor one was call’d Reason in itself confounded Saw pision grow together...”

“Orgy-porgy!” said Bernard, interrupting the reading with a loud, unpleasant laugh. “It’s just a Solidarity Service hymn.” He was revenging himself on his two friends for liking one another more than they liked him.

In the course of their next two or three meetings he frequently repeated this little act of vengeance. It was simple and, since both Helmholtz and the Savage were dreadfully pained by the shattering and defilement of a favourite poetic crystal, extremely effective. In the end, Helmholtz threatened to kick him out of the room if he dared to interrupt again. And yet, strangely enough, the next interruption, the most disgraceful of all, came from Helmholtz himself.

The Savage was reading *Romeo and Juliet* aloud—reading (for all the time he was seeing himself as Romeo and Lenina as Juliet) with an intense and quivering passion. Helmholtz had listened to the scene of the lovers’ first meeting with a puzzled interest. The scene in the orchard had delighted him with its poetry; but the sentiments expressed had made him smile. Getting into such a state about having a girl—it seemed rather ridiculous. But, taken detail by verbal detail, what a superb piece of emotional engineering! “That old fellow,” he said, “he makes our best propaganda technicians look

absolutely silly.” The Savage smiled triumphantly and resumed his reading. All went tolerably well until, in the last scene of the third act, Capulet and Lady Capulet began to bully Juliet to marry Paris. Helmholtz had been restless throughout the entire scene; but when, pathetically mimed by the Savage, Juliet cried out:

“Is there no pity sitting in the clouds, That sees into the bottom of my grief? O sweet my mother, cast me not away: Delay this marriage for a month, a week; Or, if you do not, make the bridal bed In that dim monument where Tybalt lies...”

When Juliet said this, Helmholtz broke out in an explosion of uncontrollable guffawing.

The mother and father (grotesque obscenity) forcing the daughter to have some one she didn’t want! And the idiotic girl not saying that she was having some one else whom (for the moment, at any rate) she preferred! In its smutty absurdity the situation was irresistibly comical. He had managed, with a heroic effort, to hold down the mounting pressure of his hilarity; but “sweet mother” (in the Savage’s tremulous tone of anguish) and the reference to Tybalt lying dead, but evidently uncremated and wasting his phosphorus on a dim monument, were too much for him. He laughed and laughed till the tears streamed down his face—quenchlessly laughed while, pale with a sense of outrage, the Savage looked at him over the top of his book and then, as the laughter still continued, closed it indignantly, got up and, with the gesture of one who removes his pearl from before swine, locked it away in its drawer.

“And yet,” said Helmholtz when, having recovered breath enough to

apologize, he had mollified the Savage into listening to his explanations, “I know quite well that one needs ridiculous, mad situations like that; one can’t write really well about anything else. Why was that old fellow such a marvellous propaganda technician? Because he had so many insane, excruciating things to get excited about. You’ve got to be hurt and upset; otherwise you can’t think of the really good, penetrating, X-rayish phrases. But fathers and mothers!” He shook his head. “You can’t expect me to keep a straight face about fathers and mothers. And who’s going to get excited about a boy having a girl or not having her?” (The Savage winced; but Helmholtz, who was staring pensively at the floor, saw nothing.) “No.” he concluded, with a sigh, “it won’t do. We need some other kind of madness and violence. But what? What? Where can one find it?” He was silent; then, shaking his head, “I don’t know,” he said at last, “I don’t know.”

Chapter Thirteen

HENRY FOSTER loomed up through the twilight of the Embryo Store.

“Like to come to a feely this evening?”

Lenina shook her head without speaking.

“Going out with some one else?” It interested him to know which of his friends was being had by which other. “Is it Benito?” he questioned.

She shook her head again.

Henry detected the weariness in those purple eyes, the pallor beneath that glaze of lupus, the sadness at the corners of the unsmiling crimson mouth. “You’re not feeling ill, are you?” he asked, a trifle anxiously, afraid that she might be suffering from one of the few remaining infectious diseases.

Yet once more Lenina shook her head.

“Anyhow, you ought to go and see the doctor,” said Henry. “A doctor a day keeps the jim-jams away,” he added heartily, driving home his hypnopædic adage with a clap on the shoulder. “Perhaps you need a Pregnancy Substitute,” he suggested. “Or else an extra-strong V.P.S. treatment. Sometimes, you know, the standard passion surrogate isn’t quite...”

“Oh, for Ford’s sake,” said Lenina, breaking her stubborn silence, “shut up!” And she turned back to her neglected embryos.

A V.P.S. treatment indeed! She would have laughed, if she hadn’t been on the point of crying. As though she hadn’t got enough V. P. of her own! She sighed profoundly as she refilled her syringe. “John,” she murmured to herself, “John...” Then “My Ford,” she wondered, “have I given this one its sleeping sickness injection, or haven’t I?” She simply couldn’t remember. In the end, she decided not to run the risk of letting it have a second dose, and moved down the line to the next bottle.

Twenty-two years, eight months, and four days from that moment, a promising young Alpha-Minus administrator at Mwanza-Mwanza was to die of trypanosomiasis—the first case for over half a century. Sighing, Lenina went on with her work.

An hour later, in the Changing Room, Fanny was energetically protesting. “But it’s absurd to let yourself get into a state like this. Simply absurd,” she repeated. “And what about? A man—one man.”

“But he’s the one I want.”

“As though there weren’t millions of other men in the world.”

“But I don’t want them.”

“How can you know till you’ve tried?”

“I have tried.”

“But how many?” asked Fanny, shrugging her shoulders contemptuously. “One, two?”

“Dozens. But,” shaking her head, “it wasn’t any good,” she added.

“Well, you must persevere,” said Fanny sententiously. But it was obvious that her confidence in her own prescriptions had been shaken. “Nothing can be achieved without perseverance.”

“But meanwhile...”

“Don’t think of him.”

“I can’t help it.”

“Take soma, then.”

“I do.”

“Well, go on.”

“But in the intervals I still like him. I shall always like him.”

“Well, if that’s the case,” said Fanny, with decision, “why don’t you just go and take him. Whether he wants it or no.”

“But if you knew how terribly queer he was!”

“All the more reason for taking a firm line.”

“It’s all very well to say that.”

“Don’t stand any nonsense. Act.” Fanny’s voice was a trumpet; she might have been a Y.W.F.A. lecturer giving an evening talk to adolescent Beta-Minuses. “Yes, act—at once. Do it now.”

“I’d be scared,” said Lenina

“Well, you’ve only got to take half a gramme of soma first. And now I’m going to have my bath.” She marched off, trailing her towel.

The bell rang, and the Savage, who was impatiently hoping that Helmholtz would come that afternoon (for having at last made up his mind to talk to Helmholtz about Lenina, he could not bear to postpone his confidences a moment longer), jumped up and ran to the door.

“I had a premonition it was you, Helmholtz,” he shouted as he opened.

On the threshold, in a white acetate-satin sailor suit, and with a round white cap rakishly tilted over her left ear, stood Lenina.

“Oh!” said the Savage, as though some one had struck him a heavy blow.

Half a gramme had been enough to make Lenina forget her fears and her embarrassments. “Hullo, John,” she said, smiling, and walked past him into the room. Automatically he closed the door and followed her. Lenina sat down. There was a long silence.

“You don’t seem very glad to see me, John,” she said at last.

“Not glad?” The Savage looked at her reproachfully; then suddenly fell

on his knees before her and, taking Lenina's hand, reverently kissed it. "Not glad? Oh, if you only knew," he whispered and, venturing to raise his eyes to her face, "Admired Lenina," he went on, "indeed the top of admiration, worth what's dearest in the world." She smiled at him with a luscious tenderness. "Oh, you so perfect" (she was leaning towards him with parted lips), "so perfect and so peerless are created" (nearer and nearer) "of every creature's best." Still nearer. The Savage suddenly scrambled to his feet. "That's why," he said speaking with averted face, "I wanted to do something first...I mean, to show I was worthy of you. Not that I could ever really be that. But at any rate to show I wasn't absolutely un-worthy. I wanted to do something."

"Why should you think it necessary..." Lenina began, but left the sentence unfinished. There was a note of irritation in her voice. When one has leant forward, nearer and nearer, with parted lips—only to find oneself, quite suddenly, as a clumsy oaf scrambles to his feet, leaning towards nothing at all—well, there is a reason, even with half a gramme of soma circulating in one's blood-stream, a genuine reason for annoyance.

"At Malpais," the Savage was incoherently mumbling, "you had to bring her the skin of a mountain lion—I mean, when you wanted to marry some one. Or else a wolf."

"There aren't any lions in England," Lenina almost snapped.

"And even if there were," the Savage added, with sudden contemptuous resentment, "people would kill them out of helicopters, I suppose, with poison gas or something. I wouldn't do that, Lenina." He squared his shoulders, he ventured to look at her and was met with a stare of annoyed

incomprehension. Confused, “I’ll do anything,” he went on, more and more incoherently. “Anything you tell me. There be some sports are painful—you know. But their labour delight in them sets off. That’s what I feel. I mean I’d sweep the floor if you wanted.”

“But we’ve got vacuum cleaners here,” said Lenina in bewilderment. “It isn’t necessary.”

“No, of course it isn’t necessary. But some kinds of baseness are nobly undergone. I’d like to undergo something nobly. Don’t you see?”

“But if there are vacuum cleaners...”

“That’s not the point.”

“And Epsilon Semi-Morons to work them,” she went on, “well, really, why?”

“Why? But for you, for you. Just to show that I...”

“And what on earth vacuum cleaners have got to do with lions...”

“To show how much...”

“Or lions with being glad to see me...” She was getting more and more exasperated.

“How much I love you, Lenina,” he brought out almost desperately.

An emblem of the inner tide of startled elation, the blood rushed up into Lenina’s cheeks. “Do you mean it, John?”

“But I hadn’t meant to say so,” cried the Savage, clasping his hands in a kind of agony. “Not until...Listen, Lenina; in Malpais people get married.”

“Get what?” The irritation had begun to creep back into her voice. What was he talking about now?

“For always. They make a promise to live together for always.”

“What a horrible idea!” Lenina was genuinely shocked.

“Outliving beauty’s outward with a mind that cloth renew swifter than blood decays.”

“What?”

“It’s like that in Shakespeare too. ‘If thou cost break her virgin knot before all sanctimonious ceremonies may with full and holy rite...’”

“For Ford’s sake, John, talk sense. I can’t understand a word you say. First it’s vacuum cleaners; then it’s knots. You’re driving me crazy.” She jumped up and, as though afraid that he might run away from her physically, as well as with his mind, caught him by the wrist. “Answer me this question: do you really like me, or don’t you?”

There was a moment’s silence; then, in a very low voice, “I love you more than anything in the world,” he said.

“Then why on earth didn’t you say so?” she cried, and so intense was her exasperation that she drove her sharp nails into the skin of his wrist. “Instead of drivelling away about knots and vacuum cleaners and lions, and

making me miserable for weeks and weeks.”

She released his hand and flung it angrily away from her.

“If I didn’t like you so much,” she said, “I’d be furious with you.”

And suddenly her arms were round his neck; he felt her lips soft against his own. So deliciously soft, so warm and electric that inevitably he found himself thinking of the embraces in *Three Weeks in a Helicopter*. Ooh! ooh! The stereoscopic blonde and anh! The more than real black-amoor. Horror, horror, horror...he fired to disengage himself; but Lenina tightened her embrace.

“Why didn’t you say so?” she whispered, drawing back her face to look at him. Her eyes were tenderly reproachful.

“The murkiest den, the most opportune place” (the voice of conscience thundered poetically), “the strongest suggestion our worser genius can, shall never melt mine honour into lust. Never, never!” he resolved.

“You silly boy!” she was saying. “I wanted you so much. And if you wanted me too, why didn’t you?...”

“But, Lenina...” he began protesting; and as she immediately untwined her arms, as she stepped away from him, he thought, for a moment, that she had taken his unspoken hint. But when she unbuckled her white patent cartridge belt and hung it carefully over the back of a chair, he began to suspect that he had been mistaken.

“Lenina!” he repeated apprehensively.

She put her hand to her neck and gave a long vertical pull; her white sailor's blouse was ripped to the hem; suspicion condensed into a too, too solid certainty. "Lenina, what are you doing?"

Zip, zip! Her answer was wordless. She stepped out of her bell-bottomed trousers. Her zippicamiknicks were a pale shell pink. The Arch-Community-Songster's golden T dangled at her breast.

"For those milk paps that through the window bars bore at men's eyes...." The singing, thundering, magical words made her seem doubly dangerous, doubly alluring. Soft, soft, but how piercing! boring and drilling into reason, tunnelling through resolution. "The strongest oaths are straw to the fire i' the blood. Be more abstemious, or else..."

Zip! The rounded pinkness fell apart like a neatly pided apple. A wriggle of the arms, a lifting first of the right foot, then the left: the zippicamiknicks were lying lifeless and as though deflated on the floor.

Still wearing her shoes and socks, and her rakishly tilted round white cap, she advanced towards him. "Darling. Darling! If only you'd said so before!" She held out her arms.

But instead of also saying "Darling!" and holding out his arms, the Savage retreated in terror, flapping his hands at her as though he were trying to scare away some intruding and dangerous animal. Four backwards steps, and he was brought to bay against the wall.

"Sweet!" said Lenina and, laying her hands on his shoulders, pressed

herself against him. “Put your arms round me,” she commanded. “Hug me till you drug me, honey.” She too had poetry at her command, knew words that sang and were spells and beat drums. “Kiss me”; she closed her eyes, she let her voice sink to a sleepy murmur, “Kiss me till I’m in a coma. Hug me, honey, snuggly...”

The Savage caught her by the wrists, tore her hands from his shoulders, thrust her roughly away at arm’s length.

“Ow, you’re hurting me, you’re...oh!” She was suddenly silent. Terror had made her forget the pain. Opening her eyes, she had seen his face—no, not his face, a ferocious stranger’s, pale, distorted, twitching with some insane, inexplicable fury. Aghast, “But what is it, John?” she whispered. He did not answer, but only stared into her face with those mad eyes. The hands that held her wrists were trembling. He breathed deeply and irregularly. Faint almost to imperceptibility, but appalling, she suddenly heard the gneding of his teeth. “What is it?” she almost screamed.

And as though awakened by her cry he caught her by the shoulders and shook her. “Whore!” he shouted “Whore! Impudent strumpet!”

“Oh, don’t, do-on’t,” she protested in a voice made grotesquely tremulous by his shaking.

“Whore!”

“Plea-ease.”

“Damned whore!”

“A gra-amme is be-etter...” she began.

The Savage pushed her away with such force that she staggered and fell. “Go,” he shouted, standing over her menacingly, “get out of my sight or I’ll kill you.” He clenched his fists.

Lenina raised her arm to cover her face. “No, please don’t, John...”

“Hurry up. Quick!”

One arm still raised, and following his every movement with a terrified eye, she scrambled to her feet and still crouching, still covering her head, made a dash for the bathroom.

The noise of that prodigious slap by which her departure was accelerated was like a pistol shot.

“Ow!” Lenina bounded forward.

Safely locked into the bathroom, she had leisure to take stock of her injuries. Standing with her back to the mirror, she twisted her head. Looking over her left shoulder she could see the imprint of an open hand standing out distinct and crimson on the pearly flesh. Gingerly she rubbed the wounded spot.

Outside, in the other room, the Savage was striding up and down, marching, marching to the drums and music of magical words. “The wren goes to’t and the small gilded fly does lecher in my sight.” Maddeningly they rumbled in his ears. “The fitchew nor the soiled horse goes to’t with a more riotous appetite. Down from the waist they are Centaurs, though women all

above. But to the girdle do the gods inherit. Beneath is all the fiend's. There's hell, there's darkness, there is the sulphurous pit, burning scalding, stench, consumption; fie, fie, fie, pain, pain! Give me an ounce of civet, good apothecary, to sweeten my imagination."

"John!" ventured a small ingratiating voice from the bathroom. "John!"

"O thou weed, who are so lovely fair and smell'st so sweet that the sense aches at thee. Was this most goodly book made to write 'whore' upon? Heaven stops the nose at it..."

But her perfume still hung about him, his jacket was white with the powder that had scented her velvety body. "Impudent strumpet, impudent strumpet, impudent strumpet." The inexorable rhythm beat itself out. "Impudent..."

"John, do you think I might have my clothes?"

He picked up the bell-bottomed trousers, the blouse, the zippicamiknicks.

"Open!" he ordered, kicking the door.

"No, I won't." The voice was frightened and defiant.

"Well, how do you expect me to give them to you?"

"Push them through the ventilator over the door."

He did what she suggested and returned to his uneasy pacing of the

room. "Impudent strumpet, impudent strumpet. The devil Luxury with his fat rump and potato finger..."

"John."

He would not answer. "Fat rump and potato finger."

"John."

"What is it?" he asked gruffly.

"I wonder if you'd mind giving me my Malthusian belt." Lenina sat, listening to the footsteps in the other room, wondering, as she listened, how long he was likely to go tramping up and down like that; whether she would have to wait until he left the flat; or if it would be safe, after allowing his madness a reasonable time to subside, to open the bathroom door and make a dash for it.

She was interrupted in the midst of these uneasy speculations by the sound of the telephone bell ringing in the other room. Abruptly the tramping ceased. She heard the voice of the Savage parleying with silence.

"Hullo."

...

"Yes."

...

"If I do not usurp myself, I am."

...

“Yes, didn’t you hear me say so? Mr. Savage speaking.”

...

“What? Who’s ill? Of course it interests me.”

...

“But is it serious? Is she really bad? I’ll go at once...”

...

“Not in her rooms any more? Where has she been taken?”

...

“Oh, my God! What’s the address?”

...

“Three Park Lane—is that it? Three? Thanks.”

Lenina heard the click of the replaced receiver, then hurrying steps. A door slammed. There was silence. Was he really gone?

With an infinity of precautions she opened the door a quarter of an inch; peeped through the crack; was encouraged by the view of emptiness; opened a little further, and put her whole head out; finally tiptoed into the room; stood for a few seconds with strongly beating heart, listening, listening; then

darted to the front door, opened, slipped through, slammed, ran. It was not till she was in the lift and actually dropping down the well that she began to feel herself secure.

Chapter Fourteen

THE Park Lane Hospital for the Dying was a sixty-story tower of primrose tiles. As the Savage stepped out of his taxicopter a convoy of gaily-coloured aerial hearses rose whirring from the roof and darted away across the Park, westwards, bound for the Slough Crematorium. At the lift gates the presiding porter gave him the information he required, and he dropped down to Ward 81 (a Galloping Senility ward, the porter explained) on the seventeenth floor.

It was a large room bright with sunshine and yellow paint, and containing twenty beds, all occupied. Linda was dying in company—in company and with all the modern conveniences. The air was continuously alive with gay synthetic melodies. At the foot of every bed, confronting its moribund occupant, was a television box. Television was left on, a running tap, from morning till night. Every quarter of an hour the prevailing perfume of the room was automatically changed. “We try,” explained the nurse, who had taken charge of the Savage at the door, “we try to create a thoroughly pleasant atmosphere here—something between a first-class hotel and a feely-palace, if you take my meaning.”

“Where is she?” asked the Savage, ignoring these polite explanations.

The nurse was offended. “You are in a hurry,” she said.

“Is there any hope?” he asked.

“You mean, of her not dying?” (He nodded.) “No, of course there isn’t. When somebody’s sent here, there’s no...” Startled by the expression of distress on his pale face, she suddenly broke off. “Why, whatever is the matter?” she asked. She was not accustomed to this kind of thing in visitors. (Not that there were many visitors anyhow: or any reason why there should be many visitors.) “You’re not feeling ill, are you?”

He shook his head. “She’s my mother,” he said in a scarcely audible voice.

The nurse glanced at him with startled, horrified eyes; then quickly looked away. From throat to temple she was all one hot blush.

“Take me to her,” said the Savage, making an effort to speak in an ordinary tone.

Still blushing, she led the way down the ward. Faces still fresh and unwithered (for senility galloped so hard that it had no time to age the cheeks—only the heart and brain) turned as they passed. Their progress was followed by the blank, incurious eyes of second infancy. The Savage shuddered as he looked.

Linda was lying in the last of the long row of beds, next to the wall. Propped up on pillows, she was watching the Semi-finals of the South American Riemann-Surface Tennis Championship, which were being played in silent and diminished reproduction on the screen of the television box at the foot of the bed. Hither and thither across their square of illuminted glass the little figures noiselessly darted, like fish in an aquarium—the silent but

agitated inhabitants of another world.

Linda looked on, vaguely and uncomprehendingly smiling. Her pale, bloated face wore an expression of imbecile happiness. Every now and then her eyelids closed, and for a few seconds she seemed to be dozing. Then with a little start she would wake up again—wake up to the aquarium antics of the Tennis Champions, to the Super-Vox-Wurlitzeriana rendering of “Hug me till you drug me, honey,” to the warm draught of verbenas that came blowing through the ventilator above her head—would wake to these things, or rather to a dream of which these things, transformed and embellished by the soma in her blood, were the marvellous constituents, and smile once more her broken and discoloured smile of infantile contentment.

“Well, I must go,” said the nurse. “I’ve got my batch of children coming. Besides, there’s Number 3.” She pointed up the ward. “Might go off any minute now. Well, make yourself comfortable.” She walked briskly away.

The Savage sat down beside the bed.

“Linda,” he whispered, taking her hand.

At the sound of her name, she turned. Her vague eyes brightened with recognition. She squeezed his hand, she smiled, her lips moved; then quite suddenly her head fell forward. She was asleep. He sat watching her—seeking through the tired flesh, seeking and finding that young, bright face which had stooped over his childhood in Malpais, remembering (and he closed his eyes) her voice, her movements, all the events of their life together. “Streptocock-

Gee to Banbury T...” How beautiful her singing had been! And those childish rhymes, how magically strange and mysterious!

A, B, C, vitamin D: The fat’s in the liver, the cod’s in the sea.

He felt the hot tears welling up behind his eyelids as he recalled the words and Linda’s voice as she repeated them. And then the reading lessons: The tot is in the pot, the cat is on the mat; and the Elementary Instructions for Beta Workers in the Embryo Store. And long evenings by the fire or, in summertime, on the roof of the little house, when she told him those stories about the Other Place, outside the Reservation: that beautiful, beautiful Other Place, whose memory, as of a heaven, a paradise of goodness and loveliness, he still kept whole and intact, undefiled by contact with the reality of this real London, these actual civilized men and women.

A sudden noise of shrill voices made him open his eyes and, after hastily brushing away the tears, look round. What seemed an interminable stream of identical eight-year-old male twins was pouring into the room. Twin after twin, twin after twin, they came—a nightmare. Their faces, their repeated face—for there was only one between the lot of them—puggishly stared, all nostrils and pale goggling eyes. Their uniform was khaki. All their mouths hung open. Squealing and chattering they entered. In a moment, it seemed, the ward was maggoty with them. They swarmed between the beds, clambered over, crawled under, peeped into the television boxes, made faces at the patients.

Linda astonished and rather alarmed them. A group stood clustered at the foot of her bed, staring with the frightened and stupid curiosity of animals

suddenly confronted by the unknown.

“Oh, look, look!” They spoke in low, scared voices. “Whatever is the matter with her? Why is she so fat?”

They had never seen a face like hers before—had never seen a face that was not youthful and taut-skinned, a body that had ceased to be slim and upright. All these moribund sexagenarians had the appearance of childish girls. At forty-four, Linda seemed, by contrast, a monster of flaccid and distorted senility.

“Isn’t she awful?” came the whispered comments. “Look at her teeth!”

Suddenly from under the bed a pug-faced twin popped up between John’s chair and the wall, and began peering into Linda’s sleeping face.

“I say...” he began; but the sentence ended prematurely in a squeal. The Savage had seized him by the collar, lifted him clear over the chair and, with a smart box on the ears, sent him howling away.

His yells brought the Head Nurse hurrying to the rescue.

“What have you been doing to him?” she demanded fiercely. “I won’t have you striking the children.”

“Well then, keep them away from this bed.” The Savage’s voice was trembling with indignation. “What are these filthy little brats doing here at all? It’s disgraceful!”

“Disgraceful? But what do you mean? They’re being death-conditioned.

And I tell you," she warned him truculently, "if I have any more of your interference with their conditioning, I'll send for the porters and have you thrown out."

The Savage rose to his feet and took a couple of steps towards her. His movements and the expression on his face were so menacing that the nurse fell back in terror. With a great effort he checked himself and, without speaking, turned away and sat down again by the bed.

Reassured, but with a dignity that was a trifle shrill and uncertain, "I've warned you," said the nurse, "I've warned you," said the nurse, "so mind." Still, she led the too inquisitive twins away and made them join in the game of hunt-the-zipper, which had been organized by one of her colleagues at the other end of the room.

"Run along now and have your cup of caffeine solution, dear," she said to the other nurse. The exercise of authority restored her confidence, made her feel better. "Now children!" she called.

Linda had stirred uneasily, had opened her eyes for a moment, looked vaguely around, and then once more dropped off to sleep. Sitting beside her, the Savage tried hard to recapture his mood of a few minutes before. "A, B, C, vitamin D," he repeated to himself, as though the words were a spell that would restore the dead past to life. But the spell was ineffective. Obstinate the beautiful memories refused to rise; there was only a hateful resurrection of jealousies and uglinesses and miseries. Popé with the blood trickling down from his cut shoulder; and Linda hideously asleep, and the flies buzzing round the spilt mescal on the floor beside the bed; and the boys calling those

names as she passed....Ah, no, no! He shut his eyes, he shook his head in strenuous denial of these memories. “A, B, C, vitamin D...” He tried to think of those times when he sat on her knees and she put her arms about him and sang, over and over again, rocking him, rocking him to sleep. “A, B, C, vitamin D, vitamin D, vitamin D...”

The Super-Vox-Wurlitzeriana had risen to a sobbing crescendo; and suddenly the verbenas gave place, in the scent-circulating system, to an intense patchouli. Linda stirred, woke up, stared for a few seconds bewilderedly at the Semi-finalists, then, lifting her face, sniffed once or twice at the newly perfumed air and suddenly smiled—a smile of childish ecstasy.

“Popé!” she murmured, and closed her eyes. “Oh, I do so like it, I do...” She sighed and let herself sink back into the pillows.

“But, Linda!” The Savage spoke imploringly, “Don’t you know me?” He had tried so hard, had done his very best; why wouldn’t she allow him to forget? He squeezed her limp hand almost with violence, as though he would force her to come back from this dream of ignoble pleasures, from these base and hateful memories—back into the present, back into reality: the appalling present, the awful reality—but sublime, but significant, but desperately important precisely because of the immensity of that which made them so fearful. “Don’t you know me, Linda?”

He felt the faint answering pressure of her hand. The tears started into his eyes. He bent over her and kissed her.

Her lips moved. “Popé!” she whispered again, and it was as though he

had had a pailful of ordure thrown in his face.

Anger suddenly boiled up in him. Balked for the second time, the passion of his grief had found another outlet, was transformed into a passion of agonized rage.

“But I’m John!” he shouted. “I’m John!” And in his furious misery he actually caught her by the shoulder and shook her.

Linda’s eyes fluttered open; she saw him, knew him—“John!”—but situated the real face, the real and violent hands, in an imaginary world—among the inward and private equivalents of patchouli and the Super-Wurlitzer, among the transfigured memories and the strangely transposed sensations that constituted the universe of her dream. She knew him for John, her son, but fancied him an intruder into that paradisaical Malpais where she had been spending her soma-holiday with Popé. He was angry because she liked Popé, he was shaking her because Popé was there in the bed—as though there were something wrong, as though all civilized people didn’t do the same. “Every one belongs to every...” Her voice suddenly died into an almost inaudible breathless croaking. Her mouth fell open: she made a desperate effort to fill her lungs with air. But it was as though she had forgotten how to breathe. She tried to cry out—but no sound came; only the terror of her staring eyes revealed what she was suffering. Her hands went to her throat, then clawed at the air—the air she could no longer breathe, the air that, for her, had ceased to exist.

The Savage was on his feet, bent over her. “What is it, Linda? What is it?” His voice was imploring; it was as though he were begging to be

reassured.

The look she gave him was charged with an unspeakable terror—with terror and, it seemed to him, reproach.

She tried to raise herself in bed, but fell back on to the pillows. Her face was horribly distorted, her lips blue.

The Savage turned and ran up the ward.

“Quick, quick!” he shouted. “Quick!”

Standing in the centre of a ring of zipper-hunting twins, the Head Nurse looked round. The first moment’s astonishment gave place almost instantly to disapproval. “Don’t shout! Think of the little ones,” she said, frowning. “You might decondition...But what are you doing?” He had broken through the ring. “Be careful!” A child was yelling.

“Quick, quick!” He caught her by the sleeve, dragged her after him. “Quick! Something’s happened. I’ve killed her.”

By the time they were back at the end of the ward Linda was dead.

The Savage stood for a moment in frozen silence, then fell on his knees beside the bed and, covering his face with his hands, sobbed uncontrollably.

The nurse stood irresolute, looking now at the kneeling figure by the bed (the scandalous exhibition!) and now (poor children!) at the twins who had stopped their hunting of the zipper and were staring from the other end of the ward, staring with all their eyes and nostrils at the shocking scene that was

being enacted round Bed 20. Should she speak to him? try to bring him back to a sense of decency? remind him of where he was? of what fatal mischief he might do to these poor innocents? Undoing all their wholesome death-conditioning with this disgusting outcry—as though death were something terrible, as though any one mattered as much as all that! It might give them the most disastrous ideas about the subject, might upset them into reacting in the entirely wrong, the utterly anti-social way.

She stepped forward, she touched him on the shoulder. “Can’t you behave?” she said in a low, angry voice. But, looking around, she saw that half a dozen twins were already on their feet and advancing down the ward. The circle was disintegrating. In another moment...No, the risk was too great; the whole Group might be put back six or seven months in its conditioning. She hurried back towards her menaced charges.

“Now, who wants a chocolate éclair?” she asked in a loud, cheerful tone.

“Me!” yelled the entire Bokanovsky Group in chorus. Bed 20 was completely forgotten.

“Oh, God, God, God...” the Savage kept repeating to himself. In the chaos of grief and remorse that filled his mind it was the one articulate word. “God!” he whispered it aloud. “God...”

“Whatever is he saying?” said a voice, very near, distinct and shrill through the warblings of the Super-Wurlitzer.

The Savage violently started and, uncovering his face, looked round. Five khaki twins, each with the stump of a long éclair in his right hand, and

their identical faces variously smeared with liquid chocolate, were standing in a row, puggily goggling at him.

They met his eyes and simultaneously grinned. One of them pointed with his éclair butt.

“Is she dead?” he asked.

The Savage stared at them for a moment in silence. Then in silence he rose to his feet, in silence slowly walked towards the door.

“Is she dead?” repeated the inquisitive twin trotting at his side.

The Savage looked down at him and still without speaking pushed him away. The twin fell on the floor and at once began to howl. The Savage did not even look round.

Chapter Fifteen

THE menial staff of the Park Lane Hospital for the Dying consisted of one hundred and sixty-two Deltas pided into two Bokanovsky Groups of eighty-four red headed female and seventy-eight dark dolychcephalic male twins, respectively. At six, when their working day was over, the two Groups assembled in the vestibule of the Hospital and were served by the Deputy Sub-Bursar with their soma ration.

From the lift the Savage stepped out into the midst of them. But his mind was elsewhere—with death, with his grief, and his remorse; mechanically, without consciousness of what he was doing, he began to shoulder his way through the crowd.

“Who are you pushing? Where do you think you’re going?”

High, low, from a multitude of separate throats, only two voices squeaked or growled. Repeated indefinitely, as though by a train of mirrors, two faces, one a hairless and freckled moon haloed in orange, the other a thin, beaked bird-mask, stubbly with two days’ beard, turned angrily towards him. Their words and, in his ribs, the sharp nudging of elbows, broke through his unawareness. He woke once more to external reality, looked round him, knew what he saw—knew it, with a sinking sense of horror and disgust, for the recurrent delirium of his days and nights, the nightmare of swarming indistinguishable sameness. Twins, twins....Like maggots they had swarmed

defilingly over the mystery of Linda's death. Maggots again, but larger, full grown, they now crawled across his grief and his repentance. He halted and, with bewildered and horrified eyes, stared round him at the khaki mob, in the midst of which, overtopping it by a full head, he stood. "How many goodly creatures are there here!" The singing words mocked him derisively. "How beauteous mankind is! O brave new world..."

"Soma distribution!" shouted a loud voice. "In good order, please. Hurry up there."

A door had been opened, a table and chair carried into the vestibule. The voice was that of a jaunty young Alpha, who had entered carrying a black iron cash-box. A murmur of satisfaction went up from the expectant twins. They forgot all about the Savage. Their attention was now focused on the black cash-box, which the young man had placed on the table, and was now in process of unlocking. The lid was lifted.

"Oo-oh!" said all the hundred and sixty-two simultaneously, as though they were looking at fireworks.

The young man took out a handful of tiny pill-boxes. "Now," he said peremptorily, "step forward, please. One at a time, and no shoving."

One at a time, with no shoving, the twins stepped forward. First two males, then a female, then another male, then three females, then...

The Savage stood looking on. "O brave new world, O brave new world..." In his mind the singing words seemed to change their tone. They had mocked him through his misery and remorse, mocked him with how

hideous a note of cynical derision! Fiendishly laughing, they had insisted on the low squalor, the nauseous ugliness of the nightmare. Now, suddenly, they trumpeted a call to arms. “O brave new world!” Miranda was proclaiming the possibility of loveliness, the possibility of transforming even the nightmare into something fine and noble. “O brave new world!” It was a challenge, a command.

“No shoving there now!” shouted the Deputy Sub-Bursar in a fury. He slammed down the lid of his cash-box. “I shall stop the distribution unless I have good behaviour.”

The Deltas muttered, jostled one another a little, and then were still. The threat had been effective. Deprivation of soma—appalling thought!

“That’s better,” said the young man, and reopened his cash-box.

Linda had been a slave, Linda had died; others should live in freedom, and the world be made beautiful. A reparation, a duty. And suddenly it was luminously clear to the Savage what he must do; it was as though a shutter had been opened, a curtain drawn back.

“Now,” said the Deputy Sub-Bursar.

Another khaki female stepped forward.

“Stop!” called the Savage in a loud and ringing voice. “Stop!”

He pushed his way to the table; the Deltas stared at him with astonishment.

“Ford!” said the Deputy Sub-Bursar, below his breath. “It’s the Savage.” He felt scared.

“Listen, I beg of you,” cried the Savage earnestly. “Lend me your ears...” He had never spoken in public before, and found it very difficult to express what he wanted to say. “Don’t take that horrible stuff. It’s poison, it’s poison.”

“I say, Mr. Savage,” said the Deputy Sub-Bursar, smiling propitiatingly. “Would you mind letting me...”

“Poison to soul as well as body.”

“Yes, but let me get on with my distribution, won’t you? There’s a good fellow.” With the cautious tenderness of one who strokes a notoriously vicious animal, he patted the Savage’s arm. “Just let me...”

“Never!” cried the Savage.

“But look here, old man...”

“Throw it all away, that horrible poison.”

The words “Throw it all away” pierced through the enfolding layers of incomprehension to the quick of the Delta’s consciousness. An angry murmur went up from the crowd.

“I come to bring you freedom,” said the Savage, turning back towards the twins. “I come...”

The Deputy Sub-Bursar heard no more; he had slipped out of the vestibule and was looking up a number in the telephone book.

“Not in his own rooms,” Bernard summed up. “Not in mine, not in yours. Not at the Aphroditaum; not at the Centre or the College. Where can he have got to?”

Helmholtz shrugged his shoulders. They had come back from their work expecting to find the Savage waiting for them at one or other of the usual meeting-places, and there was no sign of the fellow. Which was annoying, as they had meant to nip across to Biarritz in Helmholtz’s four-seater sporticopter. They’d be late for dinner if he didn’t come soon.

“We’ll give him five more minutes,” said Helmholtz. “If he doesn’t turn up by then, we’ll...”

The ringing of the telephone bell interrupted him. He picked up the receiver. “Hullo. Speaking.” Then, after a long interval of listening, “Ford in Flivver!” he swore. “I’ll come at once.”

“What is it?” Bernard asked.

“A fellow I know at the Park Lane Hospital,” said Helmholtz. “The Savage is there. Seems to have gone mad. Anyhow, it’s urgent. Will you come with me?”

Together they hurried along the corridor to the lifts.

“But do you like being slaves?” the Savage was saying as they entered the Hospital. His face was flushed, his eyes bright with ardour and

indignation. “Do you like being babies? Yes, babies. Mewling and puking,” he added, exasperated by their bestial stupidity into throwing insults at those he had come to save. The insults bounced off their carapace of thick stupidity; they stared at him with a blank expression of dull and sullen resentment in their eyes. “Yes, puking!” he fairly shouted. Grief and remorse, compassion and duty—all were forgotten now and, as it were, absorbed into an intense overpowering hatred of these less than human monsters. “Don’t you want to be free and men? Don’t you even understand what manhood and freedom are?” Rage was making him fluent; the words came easily, in a rush. “Don’t you?” he repeated, but got no answer to his question. “Very well then,” he went on grimly. “I’ll teach you; I’ll make you be free whether you want to or not.” And pushing open a window that looked on to the inner court of the Hospital, he began to throw the little pill-boxes of soma tablets in handfuls out into the area.

For a moment the khaki mob was silent, petrified, at the spectacle of this wanton sacrilege, with amazement and horror.

“He’s mad,” whispered Bernard, staring with wide open eyes. “They’ll kill him. They’ll...” A great shout suddenly went up from the mob; a wave of movement drove it menacingly towards the Savage. “Ford help him!” said Bernard, and averted his eyes.

“Ford helps those who help themselves.” And with a laugh, actually a laugh of exultation, Helmholtz Watson pushed his way through the crowd.

“Free, free!” the Savage shouted, and with one hand continued to throw the soma into the area while, with the other, he punched the indistinguishable

faces of his assailants. “Free!” And suddenly there was Helmholtz at his side— “Good old Helmholtz!” –also punching— “Men at last!” –And in the interval also throwing the poison out by handfuls through the open window. “Yes, men! men!” and there was no more poison left. He picked up the cash-box and showed them its black emptiness. “You’re free!”

Howling, the Deltas charged with a redoubled fury.

Hesitant on the fringes of the battle. “They’re done for,” said Bernard and, urged by a sudden impulse, ran forward to help them; then thought better of it and halted; then, ashamed, stepped forward again; then again thought better of it, and was standing in an agony of humiliated indecision—thinking that they might be killed if he didn’t help them, and that he might be killed if he did—when (Ford be praised!), goggle-eyed and swine-snouted in their gas-masks, in ran the police.

Bernard dashed to meet them. He waved his arms; and it was action, he was doing something. He shouted “Help!” several times, more and more loudly so as to give himself the illusion of helping. “Help! Help! HELP!”

The policemen pushed him out of the way and got on with their work. Three men with spraying machines buckled to their shoulders pumped thick clouds of soma vapour into the air. Two more were busy round the portable Synthetic Music Box. Carrying water pistols charged with a powerful anæsthetic, four others had pushed their way into the crowd and were methodically laying out, squirt by squirt, the more ferocious of the fighters.

“Quick, quick!” yelled Bernard. “They’ll be killed if you don’t hurry.

They'll...Oh!" Annoyed by his chatter, one of the policemen had given him a shot from his water pistol. Bernard stood for a second or two wambling unsteadily on legs that seemed to have lost their bones, their tendons, their muscles, to have become mere sticks of jelly, and at last not even jelly-water: he tumbled in a heap on the floor.

Suddenly, from out of the Synthetic Music Box a Voice began to speak. The Voice of Reason, the Voice of Good Feeling. The sound-track roll was unwinding itself in Synthetic Anti-Riot Speech Number Two (Medium Strength). Straight from the depths of a non-existent heart, "My friends, my friends!" said the Voice so pathetically, with a note of such infinitely tender reproach that, behind their gas masks, even the policemen's eyes were momentarily dimmed with tears, "what is the meaning of this? Why aren't you all being happy and good together? Happy and good," the Voice repeated. "At peace, at peace." It trembled, sank into a whisper and momentarily expired. "Oh, I do want you to be happy," it began, with a yearning earnestness. "I do so want you to be good! Please, please be good and..."

Two minutes later the Voice and the soma vapour had produced their effect. In tears, the Deltas were kissing and hugging one another—half a dozen twins at a time in a comprehensive embrace. Even Helmholtz and the Savage were almost crying. A fresh supply of pill-boxes was brought in from the Bursary; a new distribution was hastily made and, to the sound of the Voice's ricuy affectionate, baritone valedictions, the twins dispersed, blubbering as though their hearts would break. "Good-bye, my dearest, dearest friends, Ford keep you! Good-bye, my dearest, dearest friends, Ford keep you. Good-

bye my dearest, dearest...”

When the last of the Deltas had gone the policeman switched off the current. The angelic Voice fell silent.

“Will you come quietly?” asked the Sergeant, “or must we anaesthetize?” He pointed his water pistol menacingly.

“Oh, we’ll come quietly,” the Savage answered, dabbing alternately a cut lip, a scratched neck, and a bitten left hand.

Still keeping his handkerchief to his bleeding nose Helmholtz nodded in confirmation.

Awake and having recovered the use of his legs, Bernard had chosen this moment to move as inconspicuously as he could towards the door.

“Hi, you there,” called the Sergeant, and a swine-masked policeman hurried across the room and laid a hand on the young man’s shoulder.

Bernard turned with an expression of indignant innocence. Escaping? He hadn’t dreamed of such a thing. “Though what on earth you want me for,” he said to the Sergeant, “I really can’t imagine.”

“You’re a friend of the prisoner’s, aren’t you?”

“Well...” said Bernard, and hesitated. No, he really couldn’t deny it. “Why shouldn’t I be?” he asked.

“Come on then,” said the Sergeant, and led the way towards the door

and the waiting police car.

Chapter Sixteen

THE ROOM into which the three were ushered was the Controller's study.

"His fordship will be down in a moment." The Gamma butler left them to themselves.

Helmholtz laughed aloud.

"It's more like a caffeine-solution party than a trial," he said, and let himself fall into the most luxurious of the pneumatic arm-chairs. "Cheer up, Bernard," he added, catching sight of his friend's green unhappy face. But Bernard would not be cheered; without answering, without even looking at Helmholtz, he went and sat down on the most uncomfortable chair in the room, carefully chosen in the obscure hope of somehow deprecating the wrath of the higher powers.

The Savage meanwhile wandered restlessly round the room, peering with a vague superficial inquisitiveness at the books in the shelves, at the sound-track rolls and reading machine bobbins in their numbered pigeon-holes. On the table under the window lay a massive volume bound in limp black leather-surrogate, and stamped with large golden T's. He picked it up and opened it. MY LIFE AND WORK, BY OUR FORD. The book had been published at Detroit by the Society for the Propagation of Fordian Knowledge. Idly he turned the pages, read a sentence here, a paragraph there,

and had just come to the conclusion that the book didn't interest him, when the door opened, and the Resident World Controller for Western Europe walked briskly into the room.

Mustapha Mond shook hands with all three of them; but it was to the Savage that he addressed himself. "So you don't much like civilization, Mr. Savage," he said.

The Savage looked at him. He had been prepared to lie, to bluster, to remain sullenly unresponsive; but, reassured by the good-humoured intelligence of the Controller's face, he decided to tell the truth, straightforwardly. "No." He shook his head.

Bernard started and looked horrified. What would the Controller think? To be labelled as the friend of a man who said that he didn't like civilization—said it openly and, of all people, to the Controller—it was terrible. "But, John," he began. A look from Mustapha Mond reduced him to an abject silence.

"Of course," the Savage went on to admit, "there are some very nice things. All that music in the air, for instance..."

"Sometimes a thousand twangling instruments will hum about my ears and sometimes voices."

The Savage's face lit up with a sudden pleasure. "Have you read it too?" he asked. "I thought nobody knew about that book here, in England."

"Almost nobody. I'm one of the very few. It's prohibited, you see. But as I make the laws here, I can also break them. With impunity, Mr. Marx," he

added, turning to Bernard. "Which I'm afraid you can't do."

Bernard sank into a yet more hopeless misery.

"But why is it prohibited?" asked the Savage. In the excitement of meeting a man who had read Shakespeare he had momentarily forgotten everything else.

The Controller shrugged his shoulders. "Because it's old; that's the chief reason. We haven't any use for old things here."

"Even when they're beautiful?"

"Particularly when they're beautiful. Beauty's attractive, and we don't want people to be attracted by old things. We want them to like the new ones."

"But the new ones are so stupid and horrible. Those plays, where there's nothing but helicopters flying about and you feel the people kissing." He made a grimace. "Goats and monkeys!" Only in Othello's word could he find an adequate vehicle for his contempt and hatred.

"Nice tame animals, anyhow," the Controller murmured parenthetically.

"Why don't you let them see Othello instead?"

"I've told you; it's old. Besides, they couldn't understand it."

Yes, that was true. He remembered how Helmholtz had laughed at Romeo and Juliet. "Well then," he said, after a pause, "something new that's

like Othello, and that they could understand.”

“That’s what we’ve all been wanting to write,” said Helmholtz, breaking a long silence.

“And it’s what you never will write,” said the Controller. “Because, if it were really like Othello nobody could understand it, however new it might be. And if were new, it couldn’t possibly be like Othello.”

“Why not?”

“Yes, why not?” Helmholtz repeated. He too was forgetting the unpleasant realities of the situation. Green with anxiety and apprehension, only Bernard remembered them; the others ignored him. “Why not?”

“Because our world is not the same as Othello’s world. You can’t make flivvers without steel—and you can’t make tragedies without social instability. The world’s stable now. People are happy; they get what they want, and they never want what they can’t get. They’re well off; they’re safe; they’re never ill; they’re not afraid of death; they’re blissfully ignorant of passion and old age; they’re plagued with no mothers or fathers; they’ve got no wives, or children, or lovers to feel strongly about; they’re so conditioned that they practically can’t help behaving as they ought to behave. And if anything should go wrong, there’s soma. Which you go and chuck out of the window in the name of liberty, Mr. Savage. Liberty!” He laughed. “Expecting Deltas to know what liberty is! And now expecting them to understand Othello! My good boy!”

The Savage was silent for a little. “All the same,” he insisted obstinately,

“Othello’s good, Othello’s better than those feelies.”

“Of course it is,” the Controller agreed. “But that’s the price we have to pay for stability. You’ve got to choose between happiness and what people used to call high art. We’ve sacrificed the high art. We have the feelies and the scent organ instead.”

“But they don’t mean anything.”

“They mean themselves; they mean a lot of agreeable sensations to the audience.”

“But they’re...they’re told by an idiot.”

The Controller laughed. “You’re not being very polite to your friend, Mr. Watson. One of our most distinguished Emotional Engineers...”

“But he’s right,” said Helmholtz gloomily. “Because it is idiotic. Writing when there’s nothing to say...”

“Precisely. But that require the most enormous ingenuity. You’re making fiivvers out of the absolute minimum of steel—works of art out of practically nothing but pure sensation.”

The Savage shook his head. “It all seems to me quite horrible.”

“Of course it does. Actual happiness always looks pretty squalid in comparison with the over-compensations for misery. And, of course, stability isn’t nearly so spectacular as instability. And being contented has none of the glamour of a good fight against misfortune, none of the picturesqueness of a

struggle with temptation, or a fatal overthrow by passion or doubt. Happiness is never grand.”

“I suppose not,” said the Savage after a silence. “But need it be quite so bad as those twins?” He passed his hand over his eyes as though he were trying to wipe away the remembered image of those long rows of identical midgets at the assembling tables, those queued-up twin-herds at the entrance to the Brentford monorail station, those human maggots swarming round Linda’s bed of death, the endlessly repeated face of his assailants. He looked at his bandaged left hand and shuddered. “Horrible!”

“But how useful! I see you don’t like our Bokanovsky Groups; but, I assure you, they’re the foundation on which everything else is built. They’re the gyroscope that stabilizes the rocket plane of state on its unswerving course.” The deep voice thrillingly vibrated; the gesticulating hand implied all space and the onrush of the irresistible machine. Mustapha Mond’s oratory was almost up to synthetic standards.

“I was wondering,” said the Savage, “why you had them at all—seeing that you can get whatever you want out of those bottles. Why don’t you make everybody an Alpha Double Plus while you’re about it?”

Mustapha Mond laughed. “Because we have no wish to have our throats cut,” he answered. “We believe in happiness and stability. A society of Alphas couldn’t fail to be unstable and miserable. Imagine a factory staffed by Alphas—that is to say by separate and unrelated individuals of good heredity and conditioned so as to be capable (within limits) of making a free choice and assuming responsibilities. Imagine it!” he repeated.

The Savage tried to imagine it, not very successfully.

“It’s an absurdity. An Alpha-decanted, Alpha-conditioned man would go mad if he had to do Epsilon Semi-Moron work—go mad, or start smashing things up. Alphas can be completely socialized—but only on condition that you make them do Alpha work. Only an Epsilon can be expected to make Epsilon sacrifices, for the good reason that for him they aren’t sacrifices; they’re the line of least resistance. His conditioning has laid down rails along which he’s got to run. He can’t help himself; he’s foredoomed. Even after decanting, he’s still inside a bottle—an invisible bottle of infantile and embryonic fixations. Each one of us, of course,” the Controller meditatively continued, “goes through life inside a bottle. But if we happen to be Alphas, our bottles are, relatively speaking, enormous. We should suffer acutely if we were confined in a narrower space. You cannot pour upper-caste champagne-surrogate into lower-caste bottles. It’s obvious theoretically. But it has also been proved in actual practice. The result of the Cyprus experiment was convincing.”

“What was that?” asked the Savage.

Mustapha Mond smiled. “Well, you can call it an experiment in rebottling if you like. It began in A.F. 473. The Controllers had the island of Cyprus cleared of all its existing inhabitants and re-colonized with a specially prepared batch of twenty-two thousand Alphas. All agricultural and industrial equipment was handed over to them and they were left to manage their own affairs. The result exactly fulfilled all the theoretical predictions. The land wasn’t properly worked; there were strikes in all the factories; the laws were set at naught, orders disobeyed; all the people detailed for a spell of low-

grade work were perpetually intriguing for high-grade jobs, and all the people with high-grade jobs were counter-intriguing at all costs to stay where they were. Within six years they were having a first-class civil war. When nineteen out of the twenty-two thousand had been killed, the survivors unanimously petitioned the World Controllers to resume the government of the island. Which they did. And that was the end of the only society of Alphas that the world has ever seen.”

The Savage sighed, profoundly.

“The optimum population,” said Mustapha Mond, “is modelled on the iceberg—eight-ninths below the water line, one-ninth above.”

“And they’re happy below the water line?”

“Happier than above it. Happier than your friend here, for example.” He pointed.

“In spite of that awful work?”

“Awful? They don’t find it so. On the contrary, they like it. It’s light, it’s childishly simple. No strain on the mind or the muscles. Seven and a half hours of mild, unexhausting labour, and then the soma ration and games and unrestricted copulation and the feelies. What more can they ask for? True,” he added, “they might ask for shorter hours. And of course we could give them shorter hours. Technically, it would be perfectly simple to reduce all lower-caste working hours to three or four a day. But would they be any the happier for that? No, they wouldn’t. The experiment was tried, more than a century and a half ago. The whole of Ireland was put on to the four-hour day.

What was the result? Unrest and a large increase in the consumption of soma; that was all. Those three and a half hours of extra leisure were so far from being a source of happiness, that people felt constrained to take a holiday from them. The Inventions Office is stuffed with plans for labour-saving processes. Thousands of them.” Mustapha Mond made a lavish gesture. “And why don’t we put them into execution? For the sake of the labourers; it would be sheer cruelty to afflict them with excessive leisure. It’s the same with agriculture. We could synthesize every morsel of food, if we wanted to. But we don’t. We prefer to keep a third of the population on the land. For their own sakes—because it takes longer to get food out of the land than out of a factory. Besides, we have our stability to think of. We don’t want to change. Every change is a menace to stability. That’s another reason why we’re so chary of applying new inventions. Every discovery in pure science is potentially subversive; even science must sometimes be treated as a possible enemy. Yes, even science.”

Science? The Savage frowned. He knew the word. But what it exactly signified he could not say. Shakespeare and the old men of the pueblo had never mentioned science, and from Linda he had only gathered the vaguest hints: science was something you made helicopters with, some thing that caused you to laugh at the Corn Dances, something that prevented you from being wrinkled and losing your teeth. He made a desperate effort to take the Controller’s meaning.

“Yes,” Mustapha Mond was saying, “that’s another item in the cost of stability. It isn’t only art that’s incompatible with happiness; it’s also science. Science is dangerous; we have to keep it most carefully chained and

muzzled.”

“What?” said Helmholtz, in astonishment. “But we’re always saying that science is everything. It’s a hypnopædic platitude.”

“Three times a week between thirteen and seventeen,” put in Bemard.

“And all the science propaganda we do at the College...”

“Yes; but what sort of science?” asked Mustapha Mond sarcastically. “You’ve had no scientific training, so you can’t judge. I was a pretty good physicist in my time. Too good—good enough to realize that all our science is just a cookery book, with an orthodox theory of cooking that nobody’s allowed to question, and a list of recipes that mustn’t be added to except by special permission from the head cook. I’m the head cook now. But I was an inquisitive young scullion once. I started doing a bit of cooking on my own. Unorthodox cooking, illicit cooking. A bit of real science, in fact.” He was silent.

“What happened?” asked Helmholtz Watson.

The Controller sighed. “Very nearly what’s going to happen to you young men. I was on the point of being sent to an island.”

The words galvanized Bernard into violent and unseemly activity. “Send me to an island?” He jumped up, ran across the room, and stood gesticulating in front of the Controller. “You can’t send me. I haven’t done anything. It was the others. I swear it was the others.” He pointed accusingly to Helmholtz and the Savage. “Oh, please don’t send me to Iceland. I promise

I'll do what I ought to do. Give me another chance. Please give me another chance." The tears began to flow. "I tell you, it's their fault," he sobbed. "And not to Iceland. Oh please, your fordship, please..." And in a paroxysm of abjection he threw himself on his knees before the Controller. Mustapha Mond tried to make him get up; but Bernard persisted in his grovelling; the stream of words poured out inexhaustibly. In the end the Controller had to ring for his fourth secretary.

"Bring three men," he ordered, "and take Mr. Marx into a bedroom. Give him a good soma vaporization and then put him to bed and leave him."

The fourth secretary went out and returned with three green-uniformed twin footmen. Still shouting and sobbing. Bernard was carried out.

"One would think he was going to have his throat cut," said the Controller, as the door closed. "Whereas, if he had the smallest sense, he'd understand that his punishment is really a reward. He's being sent to an island. That's to say, he's being sent to a place where he'll meet the most interesting set of men and women to be found anywhere in the world. All the people who, for one reason or another, have got too self-consciously inpidual to fit into community-life. All the people who aren't satisfied with orthodoxy, who've got independent ideas of their own. Every one, in a word, who's any one. I almost envy you, Mr. Watson."

Helmholtz laughed. "Then why aren't you on an island yourself?"

"Because, finally, I preferred this," the Controller answered. "I was given the choice: to be sent to an island, where I could have got on with my

pure science, or to be taken on to the Controllers' Council with the prospect of succeeding in due course to an actual Controllership. I chose this and let the science go." After a little silence, "Sometimes," he added, "I rather regret the science. Happiness is a hard master—particularly other people's happiness. A much harder master, if one isn't conditioned to accept it unquestioningly, than truth." He sighed, fell silent again, then continued in a brisker tone, "Well, duty's duty. One can't consult one's own preference. I'm interested in truth, I like science. But truth's a menace, science is a public danger. As dangerous as it's been beneficent. It has given us the stablest equilibrium in history. China's was hopelessly insecure by comparison; even the primitive matriarchies weren't steadier than we are. Thanks, I repeat, to science. But we can't allow science to undo its own good work. That's why we so carefully limit the scope of its researches—that's why I almost got sent to an island. We don't allow it to deal with any but the most immediate problems of the moment. All other enquiries are most sedulously discouraged. It's curious."

He went on after a little pause, "to read what people in the time of Our Ford used to write about scientific progress. They seemed to have imagined that it could be allowed to go on indefinitely, regardless of everything else. Knowledge was the highest good, truth the supreme value; all the rest was secondary and subordinate. True, ideas were beginning to change even then. Our Ford himself did a great deal to shift the emphasis from truth and beauty to comfort and happiness. Mass production demanded the shift. Universal happiness keeps the wheels steadily turning; truth and beauty can't. And, of course, whenever the masses seized political power, then it was happiness rather than truth and beauty that mattered. Still, in spite of everything, unrestricted scientific research was still permitted. People still went on

talking about truth and beauty as though they were the sovereign goods. Right up to the time of the Nine Years' War. That made them change their tune all right. What's the point of truth or beauty or knowledge when the anthrax bombs are popping all around you? That was when science first began to be controlled—after the Nine Years' War. People were ready to have even their appetites controlled then. Anything for a quiet life. We've gone on controlling ever since. It hasn't been very good for truth, of course. But it's been very good for happiness. One can't have something for nothing. Happiness has got to be paid for. You're paying for it, Mr. Watson—paying because you happen to be too much interested in beauty. I was too much interested in truth; I paid too."

"But you didn't go to an island," said the Savage, breaking a long silence.

The Controller smiled. "That's how I paid. By choosing to serve happiness. Other people's—not mine. It's lucky," he added, after a pause, "that there are such a lot of islands in the world. I don't know what we should do without them. Put you all in the lethal chamber, I suppose. By the way, Mr. Watson, would you like a tropical climate? The Marquesas, for example; or Samoa? Or something rather more bracing?"

Helmholtz rose from his pneumatic chair. "I should like a thoroughly bad climate," he answered. "I believe one would write better if the climate were bad. If there were a lot of wind and storms, for example..."

The Controller nodded his approbation. "I like your spirit, Mr. Watson. I like it very much indeed. As much as I officially disapprove of it." He smiled.

“What about the Falkland Islands?”

“Yes, I think that will do,” Helmholtz answered. “And now, if you don’t mind, I’ll go and see how poor Bernard’s getting on.”

Chapter Seventeen

ART, SCIENCE—you seem to have paid a fairly high price for your happiness,” said the Savage, when they were alone. “Anything else?”

“Well, religion, of course,” replied the Controller. “There used to be something called God—before the Nine Years’ War. But I was forgetting; you know all about God, I suppose.”

“Well...” The Savage hesitated. He would have liked to say something about solitude, about night, about the mesa lying pale under the moon, about the precipice, the plunge into shadowy darkness, about death. He would have liked to speak; but there were no words. Not even in Shakespeare.

The Controller, meanwhile, had crossed to the other side of the room and was unlocking a large safe set into the wall between the bookshelves. The heavy door swung open. Rummaging in the darkness within, “It’s a subject,” he said, “that has always had a great interest for me.” He pulled out a thick black volume. “You’ve never read this, for example.”

The Savage took it. “The Holy Bible, containing the Old and New Testaments,” he read aloud from the title-page.

“Nor this.” It was a small book and had lost its cover.

“The Imitation of Christ.”

“Nor this.” He handed out another volume.

“The Varieties of Religious Experience. By William James.”

“And I’ve got plenty more,” Mustapha Mond continued, resuming his seat. “A whole collection of pornographic old books. God in the safe and Ford on the shelves.” He pointed with a laugh to his avowed library—to the shelves of books, the rack full of reading-machine bobbins and sound-track rolls.

“But if you know about God, why don’t you tell them?” asked the Savage indignantly. “Why don’t you give them these books about God?”

“For the same reason as we don’t give them Othello: they’re old; they’re about God hundreds of years ago. Not about God now.”

“But God doesn’t change.”

“Men do, though.”

“What difference does that make?”

“All the difference in the world,” said Mustapha Mond. He got up again and walked to the safe. “There was a man called Cardinal Newman,” he said. “A cardinal,” he exclaimed parenthetically, “was a kind of Arch-Community-Songster.”

“‘I Pandulph, of fair Milan, cardinal.’ I’ve read about them in Shakespeare.”

“Of course you have. Well, as I was saying, there was a man called Cardinal Newman. Ah, here’s the book.” He pulled it out. “And while I’m about it I’ll take this one too. It’s by a man called Maine de Biran. He was a philosopher, if you know what that was.”

“A man who dreams of fewer things than there are in heaven and earth,” said the Savage promptly.

“Quite so. I’ll read you one of the things he did dream of in a moment. Meanwhile, listen to what this old Arch-Community-Songster said.” He opened the book at the place marked by a slip of paper and began to read. “‘We are not our own any more than what we possess is our own. We did not make ourselves, we cannot be supreme over ourselves. We are not our own masters. We are God’s property. Is it not our happiness thus to view the matter? Is it any happiness or any comfort, to consider that we are our own? It may be thought so by the young and prosperous. These may think it a great thing to have everything, as they suppose, their own way—to depend on no one—to have to think of nothing out of sight, to be without the irksomeness of continual acknowledgment, continual prayer, continual reference of what they do to the will of another. But as time goes on, they, as all men, will find that independence was not made for man—that it is an unnatural state—will do for a while, but will not carry us on safely to the end...’” Mustapha Mond paused, put down the first book and, picking up the other, turned over the pages. “Take this, for example,” he said, and in his deep voice once more began to read: “‘A man grows old; he feels in himself that radical sense of weakness, of listlessness, of discomfort, which accompanies the advance of age; and, feeling thus, imagines himself merely sick, lulling his fears with the

notion that this distressing condition is due to some particular cause, from which, as from an illness, he hopes to recover. Vain imaginings! That sickness is old age; and a horrible disease it is. They say that it is the fear of death and of what comes after death that makes men turn to religion as they advance in years. But my own experience has given me the conviction that, quite apart from any such terrors or imaginings, the religious sentiment tends to develop as we grow older; to develop because, as the passions grow calm, as the fancy and sensibilities are less excited and less excitable, our reason becomes less troubled in its working, less obscured by the images, desires and distractions, in which it used to be absorbed; whereupon God emerges as from behind a cloud; our soul feels, sees, turns towards the source of all light; turns naturally and inevitably; for now that all that gave to the world of sensations its life and charms has begun to leak away from us, now that phenomenal existence is no more bolstered up by impressions from within or from without, we feel the need to lean on something that abides, something that will never play us false—a reality, an absolute and everlasting truth. Yes, we inevitably turn to God; for this religious sentiment is of its nature so pure, so delightful to the soul that experiences it, that it makes up to us for all our other losses.’”

Mustapha Mond shut the book and leaned back in his chair. “One of the numerous things in heaven and earth that these philosophers didn’t dream about was this” (he waved his hand), “us, the modern world. ‘You can only be independent of God while you’ve got youth and prosperity; independence won’t take you safely to the end.’ Well, we’ve now got youth and prosperity right up to the end. What follows? Evidently, that we can be independent of God. ‘The religious sentiment will compensate us for all our losses.’ But

there aren't any losses for us to compensate; religious sentiment is superfluous. And why should we go hunting for a substitute for youthful desires, when youthful desires never fail? A substitute for distractions, when we go on enjoying all the old fooleries to the very last? What need have we of repose when our minds and bodies continue to delight in activity? Of consolation, when we have soma? Of something immovable, when there is the social order?"

"Then you think there is no God?"

"No, I think there quite probably is one."

"Then why?..."

Mustapha Mond checked him. "But he manifests himself in different ways to different men. In premodern times he manifested himself as the being that's described in these books. Now..."

"How does he manifest himself now?" asked the Savage.

"Well, he manifests himself as an absence; as though he weren't there at all."

"That's your fault."

"Call it the fault of civilization. God isn't compatible with machinery and scientific medicine and universal happiness. You must make your choice. Our civilization has chosen machinery and medicine and happiness. That's why I have to keep these books locked up in the safe. They're smut. People would be shocked it..."

The Savage interrupted him. “But isn’t it natural to feel there’s a God?”

“You might as well ask if it’s natural to do up one’s trousers with zippers,” said the Controller sarcastically. “You remind me of another of those old fellows called Bradley. He defined philosophy as the finding of bad reason for what one believes by instinct. As if one believed anything by instinct! One believes things because one has been conditioned to believe them. Finding bad reasons for what one believes for other bad reasons—that’s philosophy. People believe in God because they’ve been conditioned to.”

“But all the same,” insisted the Savage, “it is natural to believe in God when you’re alone—quite alone, in the night, thinking about death...”

“But people never are alone now,” said Mustapha Mond. “We make them hate solitude; and we arrange their lives so that it’s almost impossible for them ever to have it.”

The Savage nodded gloomily. At Malpais he had suffered because they had shut him out from the communal activities of the pueblo, in civilized London he was suffering because he could never escape from those communal activities, never be quietly alone.

“Do you remember that bit in King Lear?” said the Savage at last. “‘The gods are just and of our pleasant vices make instruments to plague us; the dark and vicious place where thee he got cost him his eyes,’ and Edmund answers—you remember, he’s wounded, he’s dying—‘Thou hast spoken right; tis true. The wheel has come full circle; I am here.’ What about that now? Doesn’t there seem to be a God managing things, punishing, rewarding?”

“Well, does there?” questioned the Controller in his turn. “You can indulge in any number of pleasant vices with a freemartin and run no risks of having your eyes put out by your son’s mistress. ‘The wheel has come full circle; I am here.’ But where would Edmund be nowadays? Sitting in a pneumatic chair, with his arm round a girl’s waist, sucking away at his sex-hormone chewing-gum and looking at the feelies. The gods are just. No doubt. But their code of law is dictated, in the last resort, by the people who organize society; Providence takes its cue from men.”

“Are you sure?” asked the Savage. “Are you quite sure that the Edmund in that pneumatic chair hasn’t been just as heavily punished as the Edmund who’s wounded and bleeding to death? The gods are just. Haven’t they used his pleasant vices as an instrument to degrade him?”

“Degrade him from what position? As a happy, hard-working, goods-consuming citizen he’s perfect. Of course, if you choose some other standard than ours, then perhaps you might say he was degraded. But you’ve got to stick to one set of postulates. You can’t play Electro-magnetic Golf according to the rules of Centrifugal Bumble-puppy.”

“But value dwells not in particular will,” said the Savage. “It holds his estimate and dignity as well wherein ’tis precious of itself as in the prizer.”

“Come, come,” protested Mustapha Mond, “that’s going rather far, isn’t it?”

“If you allowed yourselves to think of God, you wouldn’t allow yourselves to be degraded by pleasant vices. You’d have a reason for bearing

things patiently, for doing things with courage. I've seen it with the Indians."

"I'm sure you have," said Mustapha Mond. "But then we aren't Indians. There isn't any need for a civilized man to bear anything that's seriously unpleasant. And as for doing things—Ford forbid that he should get the idea into his head. It would upset the whole social order if men started doing things on their own."

"What about self-denial, then? If you had a God, you'd have a reason for self-denial."

"But industrial civilization is only possible when there's no self-denial. Self-indulgence up to the very limits imposed by hygiene and economics. Otherwise the wheels stop turning."

"You'd have a reason for chastity!" said the Savage, blushing a little as he spoke the words.

"But chastity means passion, chastity means neurasthenia. And passion and neurasthenia mean instability. And instability means the end of civilization. You can't have a lasting civilization without plenty of pleasant vices."

"But God's the reason for everything noble and fine and heroic. If you had a God..."

"My dear young friend," said Mustapha Mond, "civilization has absolutely no need of nobility or heroism. These things are symptoms of political inefficiency. In a properly organized society like ours, nobody has

any opportunities for being noble or heroic. Conditions have got to be thoroughly unstable before the occasion can arise. Where there are wars, where there are pided allegiances, where there are temptations to be resisted, objects of love to be fought for or defended—there, obviously, nobility and heroism have some sense. But there aren't any wars nowadays. The greatest care is taken to prevent you from loving any one too much. There's no such thing as a pided allegiance; you're so conditioned that you can't help doing what you ought to do. And what you ought to do is on the whole so pleasant, so many of the natural impulses are allowed free play, that there really aren't any temptations to resist. And if ever, by some unlucky chance, anything unpleasant should somehow happen, why, there's always soma to give you a holiday from the facts. And there's always soma to calm your anger, to reconcile you to your enemies, to make you patient and long-suffering. In the past you could only accomplish these things by making a great effort and after years of hard moral training. Now, you swallow two or three half-gramme tablets, and there you are. Anybody can be virtuous now. You can carry at least half your mortality about in a bottle. Christianity without tears—that's what soma is."

"But the tears are necessary. Don't you remember what Othello said? 'If after every tempest came such calms, may the winds blow till they have wakened death.' There's a story one of the old Indians used to tell us, about the Girl of Mátaski. The young men who wanted to marry her had to do a morning's hoeing in her garden. It seemed easy; but there were flies and mosquitoes, magic ones. Most of the young men simply couldn't stand the biting and stinging. But the one that could—he got the girl."

“Charming! But in civilized countries,” said the Controller, “you can have girls without hoeing for them, and there aren’t any flies or mosquitoes to sting you. We got rid of them all centuries ago.”

The Savage nodded, frowning. “You got rid of them. Yes, that’s just like you. Getting rid of everytfung unpleasant instead of learning to put up with it. Whether ’tis better in the mind to suffer the slings and arrows of outrageous fortune, or to take arms against a sea of troubles and by opposing end them... But you don’t do either. Neither suffer nor oppose. You just abolish the slings and arrows. It’s too easy.”

He was suddenly silent, thinking of his mother. In her room on the thirty-seventh floor, Linda had floated in a sea of singing lights and perfumed caresses—floated away, out of space, out of time, out of the prison of her memories, her habits, her aged and bloated body. And Tomakin, ex-Director of Hatcheries and Conditioning, Tomakin was still on holiday—on holiday from humiliation and pain, in a world where he could not hear those words, that derisive laughter, could not see that hideous face, feel those moist and flabby arms round his neck, in a beautiful world...

“What you need,” the Savage went on, “is something with tears for a change. Nothing costs enough here.”

(“Twelve and a half million dollars,” Henry Foster had protested when the Savage told him that. “Twelve and a half million—that’s what the new Conditioning Centre cost. Not a cent less.”)

“Exposing what is mortal and unsure to all that fortune, death and

danger dare, even for an eggshell. Isn't there something in that?" he asked, looking up at Mustapha Mond. "Quite apart from God—though of course God would be a reason for it. Isn't there something in living dangerously?"

"There's a great deal in it," the Controller replied. "Men and women must have their adrenals stimulated from time to time."

"What?" questioned the Savage, uncomprehending.

"It's one of the conditions of perfect health. That's why we've made the V.P.S. treatments compulsory."

"V.P.S.?"

"Violent Passion Surrogate. Regularly once a month. We flood the whole system with adrenin. It's the complete physiological equivalent of fear and rage. All the tonic effects of murdering Desdemona and being murdered by Othello, without any of the inconveniences."

"But I like the inconveniences."

"We don't," said the Controller. "We prefer to do things comfortably."

"But I don't want comfort. I want God, I want poetry, I want real danger, I want freedom, I want goodness. I want sin."

"In fact," said Mustapha Mond, "you're claiming the right to be unhappy."

"All right then," said the Savage defiantly, "I'm claiming the right to be

unhappy.”

“Not to mention the right to grow old and ugly and impotent; the right to have syphilis and cancer; the right to have too little to eat; the right to be lousy; the right to live in constant apprehension of what may happen tomorrow; the right to catch typhoid; the right to be tortured by unspeakable pains of every kind.” There was a long silence.

“I claim them all,” said the Savage at last.

Mustapha Mond shrugged his shoulders. “You’re welcome,” he said.

Chapter Eighteen

THE DOOR was ajar; they entered. “John!”

From the bathroom came an unpleasant and characteristic sound.

“Is there anything the matter?” Helmholtz called.

There was no answer. The unpleasant sound was repeated, twice; there was silence.

Then, with a click the bathroom door opened and, very pale, the Savage emerged. “I say,” Helmholtz exclaimed solicitously, “you do look ill, John!” “Did you eat something that didn’t agree with you?” asked Bernard.

The Savage nodded. “I ate civilization.”

“What?”

“It poisoned me; I was defiled. And then,” he added, in a lower tone, “I ate my own wickedness.”

“Yes, but what exactly?...I mean, just now you were...”

“Now I am purified,” said the Savage. “I drank some mustard and warm water.”

The others stared at him in astonishment. “Do you mean to say that you

were doing it on purpose?" asked Bernard.

"That's how the Indians always purify themselves." He sat down and, sighing, passed his hand across his forehead. "I shall rest for a few minutes," he said. "I'm rather tired."

"Well, I'm not surprised," said Helmholtz. After a silence, "We've come to say good-bye," he went on in another tone. "We're off to-morrow morning."

"Yes, we're off to-morrow," said Bernard on whose face the Savage remarked a new expression of determined resignation. "And by the way, John," he continued, leaning forward in his chair and laying a hand on the Savage's knee, "I want to say how sorry I am about everything that happened yesterday." He blushed. "How ashamed," he went on, in spite of the unsteadiness of his voice, "how really..."

The Savage cut him short and, taking his hand, affectionately pressed it.

"Helmholtz was wonderful to me," Bernard resumed, after a little pause. "If it hadn't been for him, I should..."

"Now, now," Helmholtz protested.

There was a silence. In spite of their sadness—because of it, even; for their sadness was the symptom of their love for one another—the three young men were happy.

"I went to see the Controller this morning," said the Savage at last.

“What for?”

“To ask if I mightn’t go to the islands with you.”

“And what did he say?” asked Helmholtz eagerly.

The Savage shook his head. “He wouldn’t let me.”

“Why not?”

“He said he wanted to go on with the experiment. But I’m damned,” the Savage added, with sudden fury, “I’m damned if I’ll go on being experimented with. Not for all the Controllers in the world. I shall go away to-morrow too.”

“But where?” the others asked in unison.

The Savage shrugged his shoulders. “Anywhere. I don’t care. So long as I can be alone.”

From Guildford the down-line followed the Wey valley to Godalming, then, over Milford and Witley, proceeded to Haslemere and on through Petersfield towards Portsmouth. Roughly parallel to it, the upline passed over Worplesden, Tongham, Puttenham, Elstead and Grayshott. Between the Hog’s Back and Hindhead there were points where the two lines were not more than six or seven kilometres apart. The distance was too small for careless flyers—particularly at night and when they had taken half a gramme too much. There had been accidents. Serious ones. It had been decided to deflect the upline a few kilometres to the west. Between Grayshott and Tongham four abandoned air-lighthouses marked the course of the old

Portsmouth-to-London road. The skies above them were silent and deserted. It was over Selborne, Bordon and Farnham that the helicopters now ceaselessly hummed and roared.

The Savage had chosen as his hermitage the old light-house which stood on the crest of the hill between Puttenham and Elstead. The building was of ferro-concrete and in excellent condition—almost too comfortable the Savage had thought when he first explored the place, almost too civilizably luxurious. He pacified his conscience by promising himself a compensatingly harder self-discipline, purifications the more complete and thorough. His first night in the hermitage was, deliberately, a sleepless one. He spent the hours on his knees praying, now to that Heaven from which the guilty Claudius had begged forgiveness, now in Zuñi to Awonawilona, now to Jesus and Pookong, now to his own guardian animal, the eagle. From time to time he stretched out his arms as though he were on the Cross, and held them thus through long minutes of an ache that gradually increased till it became a tremulous and excruciating agony; held them, in voluntary crucifixion, while he repeated, through clenched teeth (the sweat, meanwhile, pouring down his face), “Oh, forgive me! Oh, make me pure! Oh, help me to be good!” again and again, till he was on the point of fainting from the pain.

When morning came, he felt he had earned the right to inhabit the lighthouse; yet, even though there still was glass in most of the windows, even though the view from the platform was so fine. For the very reason why he had chosen the lighthouse had become almost instantly a reason for going somewhere else. He had decided to live there because the view was so beautiful, because, from his vantage point, he seemed to be looking out on to

the incarnation of a pine being. But who was he to be pampered with the daily and hourly sight of loveliness? Who was he to be living in the visible presence of God? All he deserved to live in was some filthy sty, some blind hole in the ground. Stiff and still aching after his long night of pain, but for that very reason inwardly reassured, he climbed up to the platform of his tower, he looked out over the bright sunrise world which he had regained the right to inhabit. On the north the view was bounded by the long chalk ridge of the Hog's Back, from behind whose eastern extremity rose the towers of the seven skyscrapers which constituted Guildford. Seeing them, the Savage made a grimace; but he was to become reconciled to them in course of time; for at night they twined gaily with geometrical constellations, or else, flood-lighted, pointed their luminous fingers (with a gesture whose significance nobody in England but the Savage now understood) solemnly towards the plumbless mysteries of heaven.

In the valley which separated the Hog's Back from the sandy hill on which the lighthouse stood, Puttenham was a modest little village nine stories high, with silos, a poultry farm, and a small vitamin-D factory. On the other side of the lighthouse, towards the South, the ground fell away in long slopes of heather to a chain of ponds.

Beyond them, above the intervening woods, rose the fourteen-story tower of Elstead. Dim in the hazy English air, Hindhead and Selborne invited the eye into a blue romantic distance. But it was not alone the distance that had attracted the Savage to his lighthouse; the near was as seductive as the far. The woods, the open stretches of heather and yellow gorse, the clumps of Scotch firs, the shining ponds with their overhanging birch trees, their water

lilies, their beds of rushes—these were beautiful and, to an eye accustomed to the aridities of the American desert, astonishing. And then the solitude! Whole days passed during which he never saw a human being. The lighthouse was only a quarter of an hour's flight from the Charing-T Tower; but the hills of Malpais were hardly more deserted than this Surrey heath. The crowds that daily left London, left it only to play Electro-magnetic Golf or Tennis. Puttenham possessed no links; the nearest Riemann-surfaces were at Guildford. Flowers and a landscape were the only attractions here. And so, as there was no good reason for coming, nobody came. During the first days the Savage lived alone and undisturbed.

Of the money which, on his first arrival, John had received for his personal expenses, most had been spent on his equipment. Before leaving London he had bought four viscose-woollen blankets, rope and string, nails, glue, a few tools, matches (though he intended in due course to make a fire drill), some pots and pans, two dozen packets of seeds, and ten kilogrammes of wheat flour. “No, not synthetic starch and cotton-waste flour-substitute,” he had insisted. “Even though it is more nourishing.” But when it came to pan-glandular biscuits and vitaminized beef-surrogate, he had not been able to resist the shopman's persuasion. Looking at the tins now, he bitterly reproached himself for his weakness. Loathesome civilized stuff! He had made up his mind that he would never eat it, even if he were starving. “That'll teach them,” he thought vindictively. It would also teach him.

He counted his money. The little that remained would be enough, he hoped, to tide him over the winter. By next spring, his garden would be producing enough to make him independent of the outside world. Meanwhile,

there would always be game. He had seen plenty of rabbits, and there were waterfowl on the ponds. He set to work at once to make a bow and arrows.

There were ash trees near the lighthouse and, for arrow shafts, a whole copse full of beautifully straight hazel saplings. He began by felling a young ash, cut out six feet of unbranched stem, stripped off the bark and, paring by paring, shaved away the white wood, as old Mitsima had taught him, until he had a stave of his own height, stiff at the thickened centre, lively and quick at the slender tips. The work gave him an intense pleasure. After those weeks of idleness in London, with nothing to do, whenever he wanted anything, but to press a switch or turn a handle, it was pure delight to be doing something that demanded skill and patience.

He had almost finished whittling the stave into shape, when he realized with a start that he was singing-singing! It was as though, stumbling upon himself from the outside, he had suddenly caught himself out, taken himself flagrantly at fault. Guiltily he blushed. After all, it was not to sing and enjoy himself that he had come here. It was to escape further contamination by the filth of civilized life; it was to be purified and made good; it was actively to make amends. He realized to his dismay that, absorbed in the whittling of his bow, he had forgotten what he had sworn to himself he would constantly remember—poor Linda, and his own murderous unkindness to her, and those loathsome twins, swarming like lice across the mystery of her death, insulting, with their presence, not merely his own grief and repentance, but the very gods themselves. He had sworn to remember, he had sworn unceasingly to make amends. And there was he, sitting happily over his bow-stave, singing, actually singing....

He went indoors, opened the box of mustard, and put some water to boil on the fire.

Half an hour later, three Delta-Minus landworkers from one of the Puttenham Bokanovsky Groups happened to be driving to Elstead and, at the top of the hill, were astonished to see a young man standing outside the abandoned lighthouse stripped to the waist and hitting himself with a whip of knotted cords. His back was horizontally streaked with crimson, and from weal to weal ran thin trickles of blood. The driver of the lorry pulled up at the side of the road and, with his two companions, stared open-mouthed at the extraordinary spectacle. One, two three—they counted the strokes. After the eighth, the young man interrupted his self-punishment to run to the wood's edge and there be violently sick. When he had finished, he picked up the whip and began hitting himself again. Nine, ten, eleven, twelve...

"Ford!" whispered the driver. And his twins were of the same opinion.

"Fordey!" they said.

Three days later, like turkey buzzards setthug on a corpse, the reporters came.

Dried and hardened over a slow fire of green wood, the bow was ready. The Savage was busy on his arrows. Thirty hazel sticks had been whittled and dried, tipped with sharp nails, carefully nocked. He had made a raid one night on the Puttenham poultry farm, and now had feathers enough to equip a whole armoury. It was at work upon the feathering of his shafts that the first of the reporters found him. Noiseless on his pneumatic shoes, the man came

up behind him.

“Good-morning, Mr. Savage,” he said. “I am the representative of The Hourly Radio.”

Startled as though by the bite of a snake, the Savage sprang to his feet, scattering arrows, feathers, glue-pot and brush in all directions.

“I beg your pardon,” said the reporter, with genuine compunction. “I had no intention...” He touched his hat—the aluminum stove-pipe hat in which he carried his wireless receiver and transmitter. “Excuse my not taking it off,” he said. “It’s a bit heavy. Well, as I was saying, I am the representative of The Hourly...”

“What do you want?” asked the Savage, scowling. The reporter returned his most ingratiating smile.

“Well, of course, our readers would be profoundly interested...” He put his head on one side, his smile became almost coquettish. “Just a few words from you, Mr. Savage.” And rapidly, with a series of ritual gestures, he uncoiled two wires connected to the portable battery buckled round his waist; plugged them simultaneously into the sides of his aluminum hat; touched a spring on the crown—and antennae shot up into the air; touched another spring on the peak of the brim—and, like a jack-in-the-box, out jumped a microphone and hung there, quivering, six inches in front of his nose; pulled down a pair of receivers over his ears; pressed a switch on the left side of the hat—and from within came a faint waspy buzzing; turned a knob on the right—and the buzzing was interrupted by a stethoscopic wheeze and cackle, by hiccoughs

and sudden squeaks. “Hullo,” he said to the microphone, “hullo, hullo...” A bell suddenly rang inside his hat. “Is that you, Edzel? Primo Mellon speaking. Yes, I’ve got hold of him. Mr. Savage will now take the microphone and say a few words. Won’t you, Mr. Savage?” He looked up at the Savage with another of those winning smiles of his. “Just tell our readers why you came here. What made you leave London (hold on, Edzel!) so very suddenly. And, of course, that whip.” (The Savage started. How did they know about the whip?) “We’re all crazy to know about the whip. And then something about Civilization. You know the sort of stuff. ‘What I think of the Civilized Girl.’ Just a few words, a very few...”

The Savage obeyed with a disconcerting literalness. Five words he uttered and no more-five words, the same as those he had said to Bernard about the Arch-Community-Songster of Canterbury. “Háni! Sons éso tse-ná!” And seizing the reporter by the shoulder, he spun him round (the young man revealed himself invitingly well-covered), aimed and, with all the force and accuracy of a champion foot-and-mouth-baller, delivered a most prodigious kick.

Eight minutes later, a new edition of The Hourly Radio was on sale in the streets of London. “HOURLY RADIO REPORTER HAS COCCYX KICKED BY MYSTERY SAVAGE,” ran the headlines on the front page. “SENSATION IN SURREY.”

“Sensation even in London,” thought the reporter when, on his return, he read the words. And a very painful sensation, what was more. He sat down gingerly to his luncheon.

Undeterred by that cautionary bruise on their colleague's coccyx, four other reporters, representing the New York Times, the Frankfurt Four-Dimensional Continuum, The Fordian Science Monitor, and The Delta Mirror, called that afternoon at the lighthouse and met with receptions of progressively increasing violence.

From a safe distance and still rubbing his buttocks, "Benighted fool!" shouted the man from The Fordian Science Monitor, "why don't you take soma?"

"Get away!" The Savage shook his fist.

The other retreated a few steps then turned round again. "Evil's an unreality if you take a couple of grammes."

"Kohakwa iyathtokyai!" The tone was menacingly derisive.

"Pain's a delusion."

"Oh, is it?" said the Savage and, picking up a thick hazel switch, strode forward.

The man from The Fordian Science Monitor made a dash for his helicopter.

After that the Savage was left for a time in peace. A few helicopters came and hovered inquisitively round the tower. He shot an arrow into the importunately nearest of them. It pierced the aluminum floor of the cabin; there was a shrill yell, and the machine went rocketing up into the air with all the acceleration that its super-charger could give it. The others, in future, kept

their distance respectfully. Ignoring their tiresome humming (he likened himself in his imagination to one of the suitors of the Maiden of Mátsaki, unmoved and persistent among the winged vermin), the Savage dug at what was to be his garden. After a time the vermin evidently became bored and flew away; for hours at a stretch the sky above his head was empty and, but for the larks, silent.

The weather was breathlessly hot, there was thunder in the air. He had dug all the morning and was resting, stretched out along the floor. And suddenly the thought of Lenina was a real presence, naked and tangible, saying “Sweet!” and “Put your arms round me!”—in shoes and socks, perfumed. Impudent strumpet! But oh, oh, her arms round his neck, the lifting of her breasts, her mouth! Eternity was in our lips and eyes. Lenina... No, no, no, no! He sprang to his feet and, half naked as he was, ran out of the house. At the edge of the heath stood a clump of hoary juniper bushes. He flung himself against them, he embraced, not the smooth body of his desires, but an armful of green spikes. Sharp, with a thousand points, they pricked him. He tried to think of poor Linda, breathless and dumb, with her clutching hands and the unutterable terror in her eyes. Poor Linda whom he had sworn to remember. But it was still the presence of Lenina that haunted him. Lenina whom he had promised to forget. Even through the stab and stmg of the juniper needles, his wincing fiesh was aware of her, unescapably real. “Sweet, sweet...And if you wanted me too, why didn’t you...”

The whip was hanging on a nail by the door, ready to hand against the arrival of reporters. In a frenzy the Savage ran back to the house, seized it, whirled it. The knotted cords bit into his flesh.

“Strumpet! Strumpet!” he shouted at every blow as though it were Lenina (and how frantically, without knowing it, he wished it were), white, warm, scented, infamous Lenina that he was dogging thus. “Strumpet!” And then, in a voice of despair, “Oh, Linda, forgive me. Forgive me, God. I’m bad. I’m wicked. I’m...No, no, you strumpet, you strumpet!”

From his carefully constructed hide in the wood three hundred metres away, Darwin Bonaparte, the Feely Corporation’s most expert big game photographer had watched the whole proceedings. Patience and skill had been rewarded. He had spent three days sitting inside the bole of an artificial oak tree, three nights crawling on his belly through the heather, hiding microphones in gorse bushes, burying wires in the soft grey sand. Seventy-two hours of profound discomfort. But now the great moment had come—the greatest, Darwin Bonaparte had time to reflect, as he moved among his instruments, the greatest since his taking of the famous all-howling stereoscopic feely of the gorillas’ wedding. “Splendid,” he said to himself, as the Savage started his astonishing performance. “Splendid!” He kept his telescopic cameras carefully aimed—glued to their moving objective; clapped on a higher power to get a close-up of the frantic and distorted face (admirable!); switched over, for half a minute, to slow motion (an exquisitely comical effect, he promised himself); listened in, meanwhile, to the blows, the groans, the wild and raving words that were being recorded on the soundtrack at the edge of his film, tried the effect of a little amplification (yes, that was decidedly better); was delighted to hear, in a momentary lull, the shrill singing of a lark; wished the Savage would turn round so that he could get a good close-up of the blood on his back—and almost instantly (what astonishing luck!) the accommodating fellow did turn round, and he was able

to take a perfect close-up.

“Well, that was grand!” he said to himself when it was all over. “Really grand!” He mopped his face. When they had put in the feely effects at the studio, it would be a wonderful film. Almost as good, thought Darwin Bonaparte, as the Sperm Whale’s Love-Life—and that, by Ford, was saying a good deal!

Twelve days later *The Savage of Surrey* had been released and could be seen, heard and felt in every first-class feely-palace in Western Europe.

The effect of Darwin Bonaparte’s film was immediate and enormous. On the afternoon which followed the evening of its release John’s rustic solitude was suddenly broken by the arrival overhead of a great swarm of helicopters.

He was digging in his garden—digging, too, in his own mind, laboriously turning up the substance of his thought. Death—and he drove in his spade once, and again, and yet again. And all our yesterdays have lighted fools the way to dusty death. A convincing thunder rumbled through the words. He lifted another spadeful of earth. Why had Linda died? Why had she been allowed to become gradually less than human and at last...He shuddered. A good kissing carrion. He planted his foot on his spade and stamped it fiercely into the tough ground. As flies to wanton boys are we to the gods; they kill us for their sport. Thunder again; words that proclaimed themselves true—truer somehow than truth itself. And yet that same Gloucester had called them ever-gentle gods. Besides, thy best of rest is sleep and that thou oft provok’st; yet grossly fear’st thy death which is no more. No more than sleep. Sleep.

Perchance to dream. His spade struck against a stone; he stooped to pick it up. For in that sleep of death, what dreams?...

A humming overhead had become a roar; and suddenly he was in shadow, there was something between the sun and him. He looked up, startled, from his digging, from his thoughts; looked up in a dazzled bewilderment, his mind still wandering in that other world of truer-than-truth, still focused on the immensities of death and deity; looked up and saw, close above him, the swarm of hovering machines. Like locusts they came, hung poised, descended all around him on the heather. And from out of the bellies of these giant grasshoppers stepped men in white viscose-flannels, women (for the weather was hot) in acetate-shantung pyjamas or velveteen shorts and sleeveless, half-unzippered singlets—one couple from each. In a few minutes there were dozens of them, standing in a wide circle round the lighthouse, staring, laughing, clicking their cameras, throwing (as to an ape) peanuts, packets of sex-hormone chewing-gum, pan-glandular petite beurres. And every moment—for across the Hog's Back the stream of traffic now flowed unceasingly—their numbers increased. As in a nightmare, the dozens became scores, the scores hundreds.

The Savage had retreated towards cover, and now, in the posture of an animal at bay, stood with his back to the wall of the lighthouse, staring from face to face in speechless horror, like a man out of his senses.

From this stupor he was aroused to a more immediate sense of reality by the impact on his cheek of a well-aimed packet of chewing-gum. A shock of startling pain—and he was broad awake, awake and fiercely angry.

“Go away!” he shouted.

The ape had spoken; there was a burst of laughter and hand-clapping. “Good old Savage! Hurrah, hurrah!” And through the babel he heard cries of: “Whip, whip, the whip!”

Acting on the word’s suggestion, he seized the bunch of knotted cords from its nail behind the door and shook it at his tormentors.

There was a yell of ironical applause.

Menacingly he advanced towards them. A woman cried out in fear. The line wavered at its most immediately threatened point, then stiffened again, stood firm. The consciousness of being in overwhelming force had given these sightseers a courage which the Savage had not expected of them. Taken aback, he halted and looked round.

“Why don’t you leave me alone?” There was an almost plaintive note in his anger.

“Have a few magnesium-salted almonds!” said the man who, if the Savage were to advance, would be the first to be attacked. He held out a packet. “They’re really very good, you know,” he added, with a rather nervous smile of propitiation. “And the magnesium salts will help to keep you young.”

The Savage ignored his offer. “What do you want with me?” he asked, turning from one grinning face to another. “What do you want with me?”

“The whip,” answered a hundred voices confusedly. “Do the whipping

stunt. Let's see the whipping stunt."

Then, in unison and on a slow, heavy rhythm, "We-want-the whip," shouted a group at the end of the line. "We-want-the whip."

Others at once took up the cry, and the phrase was repeated, parrot-fashion, again and again, with an ever-growing volume of sound, until, by the seventh or eighth reiteration, no other word was being spoken. "We-want-the whip."

They were all crying together; and, intoxicated by the noise, the unanimity, the sense of rhythmical atonement, they might, it seemed, have gone on for hours-almost indefinitely. But at about the twenty-fifth repetition the proceedings were startlingly interrupted. Yet another helicopter had arrived from across the Hog's Back, hung poised above the crowd, then dropped within a few yards of where the Savage was standing, in the open space between the line of sightseers and the lighthouse. The roar of the air screws momentarily drowned the shouting; then, as the machine touched the ground and the engines were turned off: "We-want-the whip; we-want-the whip," broke out again in the same loud, insistent monotone.

The door of the helicopter opened, and out stepped, first a fair and ruddy-faced young man, then, in green velveteen shorts, white shirt, and jockey cap, a young woman.

At the sight of the young woman, the Savage started, recoiled, turned pale.

The young woman stood, smiling at him—an uncertain, imploring,

almost abject smile. The seconds passed. Her lips moved, she was saying something; but the sound of her voice was covered by the loud reiterated refrain of the sightseers.

“We–want–the whip! We–want–the whip!”

The young woman pressed both hands to her left side, and on that peach-bright, doll-beautiful face of hers appeared a strangely incongruous expression of yearning distress. Her blue eyes seemed to grow larger, brighter; and suddenly two tears rolled down her cheeks. Inaudibly, she spoke again; then, with a quick, impassioned gesture stretched out her arms towards the Savage, stepped forward.

“We–want–the whip! We–want...”

And all of a sudden they had what they wanted.

“Strumpet!” The Savage had rushed at her like a madman. “Fitchew!” Like a madman, he was slashing at her with his whip of small cords.

Terrified, she had turned to flee, had tripped and fallen in the heather. “Henry, Henry!” she shouted. But her ruddy-faced companion had bolted out of harm’s way behind the helicopter.

With a whoop of delighted excitement the line broke; there was a convergent stampede towards that magnetic centre of attraction. Pain was a fascinating horror.

“Fry, lechery, fry!” Frenzied, the Savage slashed again.

Hungrily they gathered round, pushing and scrambling like swine about the trough.

“Oh, the flesh!” The Savage ground his teeth. This time it was on his shoulders that the whip descended. “Kill it, kill it!”

Drawn by the fascination of the horror of pain and, from within, impelled by that habit of cooperation, that desire for unanimity and atonement, which their conditioning had so ineradicably implanted in them, they began to mime the frenzy of his gestures, striking at one another as the Savage struck at his own rebellious flesh, or at that plump incarnation of turpitude writhing in the heather at his feet.

“Kill it, kill it, kill it...” The Savage went on shouting.

Then suddenly somebody started singing “Orgy-porgy” and, in a moment, they had all caught up the refrain and, singing, had begun to dance. Orgy-porgy, round and round and round, beating one another in six-eight time. Orgy-porgy...

It was after midnight when the last of the helicopters took its flight. Stupefied by soma, and exhausted by a long-drawn frenzy of sensuality, the Savage lay sleeping in the heather. The sun was already high when he awoke. He lay for a moment, blinking in owlish incomprehension at the light; then suddenly remembered—everything.

“Oh, my God, my God!” He covered his eyes with his hand.

That evening the swarm of helicopters that came buzzing across the

Hog's Back was a dark cloud ten kilometres long. The description of last night's orgy of atonement had been in all the papers.

"Savage!" called the first arrivals, as they alighted from their machine.
"Mr. Savage!"

There was no answer.

The door of the lighthouse was ajar. They pushed it open and walked into a shuttered twilight. Through an archway on the further side of the room they could see the bottom of the staircase that led up to the higher floors. Just under the crown of the arch dangled a pair of feet.

"Mr. Savage!"

Slowly, very slowly, like two unhurried compass needles, the feet turned towards the right; north, north-east, east, south-east, south, south-south-west; then paused, and, after a few seconds, turned as unhurriedly back towards the left. South-south-west, south, south-east, east....
